Accounting | Fisher School of

Accounting at UF traces its roots back to 1923 when the first accounting course was offered. In 1977, the School of Accounting was established as an experimental model for six years. In 1983, the UF Faculty Senate voted to make the School permanent. In 1985, the School was renamed the Fisher School of Accounting after a generous donation from 1959 alumnus Fred Fisher. Today, the Fisher School has cultivated a distinctive identity at the University of Florida and among the nation's top business programs.

Anthropology

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural, archaeological, biological and linguistic anthropology.

C**Chemical Engineering**

As Chemical Engineers, the career options for students will be diverse and exciting. Students will develop the skills needed to design processes to produce anything made by chemical or biological means, including consumer products, food and beverages, pharmaceuticals, specialty chemicals, semiconductors, biomaterials, pulp and paper, polymers, and more. Chemical Engineers use their knowledge of all branches of science and mathematics (not just chemistry) to solve problems at a variety of scales—from developing materials with features at the nanoscale all the way to designing a 250-foot-tall distillation tower and everything in between.

Food Science and Human Nutrition

The Food Science and Human Nutrition Department (FSHN) is one of the world's largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within one department. The department's programs are accredited by the Institute of Food Technologists (IFT) (<http://www.ift.org/>) and the Academy of Nutrition and Dietetics (<http://www.eatright.org/>). After completing undergraduate degrees, FSHN students typically move on to employment in the food industry, healthcare settings, graduate, or professional programs.

Hamilton School of Classical and Civic Education

The Hamilton School of Classical and Civic Education is devoted to research and teaching on Western civilization and the principles of a free society. Here students see past their horizons and prepare for lifetimes of leadership by studying the greatest works of the Western tradition and beyond. Open inquiry and the pursuit of excellence grounded in Western civilization and the American experience are the foundation of an education that will lead our students to thrive not just while at the University of Florida, but throughout their lives and careers. Liberal education promises to be a transformative experience and the university, “the meeting place of the greats.” The Hamilton School of Classical and Civic Education fulfills that promise.

Mechanical & Aerospace Engineering

The Department of Mechanical & Aerospace Engineering (MAE) graduates many exceptional mechanical and aerospace engineers each year. The Mechanical Engineering program celebrated its 100 year anniversary in 2009 and is one of the founding departments of the Herbert Wertheim College of Engineering. Starting within mechanical as an aeronautical option, the Aeronautical Engineering program was founded in 1946. It grew to become the Aerospace Engineering program, which merged with Engineering Science and Mechanics in 1969. All these programs united (or reunited) in 2002. Going strong into the 21st century, MAE remains a vibrant and intellectually diverse program at both the undergraduate and graduate levels.
