The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within the sport management area.

To earn a Bachelor of Science in Sport Management, a student must successfully complete 120 credits of prescribed coursework. Professional core courses, related option courses and specialization electives are taken during your last two years of work.

As part of the degree program, students must complete either an approved 12 credit internship in their final semester of degree program or opt for the non-internship option. The 12 credit internship is an approved 13-week internship required upon completion of all coursework. Students who declare for the non-internship option prior to the completion of semester five can replace the 12 credit internship with 12 credits of non-internship pre-approved SPM courses. Students should consult the internship coordinator or an academic advisor for more information.
