

APPLIED METEOROLOGY, HAZARDS, AND GLOBAL CHANGE

Meteorology is the study of the physics, chemistry, and dynamics of the earth's atmosphere and its interaction with the land surface and oceans. It is the underlying science of weather, climate, weather forecasting, climate projection, and their applications to decision-making activities. Fundamental topics include the composition, structure, and forces that govern the motion of the atmosphere.

About this Program

- **College:** Liberal Arts and Sciences (<http://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/>)
- **Degree:** Bachelor of Science
- **Specializations:** Applied Meteorology, Hazards, and Global Change (p. 1) | Broadcast Meteorology (http://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/MET_BS/MET_BS02/) | General Atmospheric Science (http://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/MET_BS/MET_BS03/)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, BA and BS undergraduate degrees, MA, M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Curriculum

- Combination Degrees
- GeoAI and Geographic Analysis Minor
- Geographic Artificial Intelligence and Big Data Certificate
- Geography
- Geography Minor
- Geography Minor UF Online
- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate
- Medical Geography in Global Health Minor
- Meteorology and Climatology Certificate
- Meteorology Minor

A major in Meteorology enables students to know the composition, structure, and motion of the Earth's atmosphere as governed by laws of physics, energy, and chemistry, and to understand its relationship with Earth and human systems. Students will learn how observations, data collection, and prediction are applied in the subfields of meteorology. Computer-based lab assignments teach students how to analyze meteorological information using diagnostic, prognostic, and technological tools and to apply data to solve problems. They will be able to interpret and effectively communicate information using maps, graphs, and/or statistics.

The specializations prepare students for a range of careers. Meteorologists continue to engage in creating weather forecasts and climate projections, communicating those forecasts and projections, and conducting research. Increasingly, a number of private sector industries are looking to meteorologists to improve or create new products and services.

BS Meteorology | Applied Meteorology, Hazards, and Global Change

This specialization prepares students to pursue careers in the private or nonprofit sectors, applying meteorological knowledge to a range of fields including agriculture, business, climate change consulting, commodities, economics, energy, engineering, entrepreneurship, forensic meteorology,

insurance, policy, shipping, etc. Given the wide range of sectors, this specialization is very flexible to provide room for students to take a number of classes in their field of interest in preparation for their career.

Requirements FOR THE MAJOR

The major requires 36-38 credits of coursework in the major plus 19 credits of related coursework. All coursework for the major must be completed with minimum grades of C.

Students should consult the Department of Geography's undergraduate coordinator for information and guidance on curriculum planning upper division courses outside the major.

Meteorology Core Courses

Code	Title	Credits
GEO 3250	Climatology	3
MET 1010	Introduction to Weather and Climate	3
MET 3503	Weather and Forecasting	3
MET 4230	Thermodynamics of the Atmosphere	3
MET 4410	Radar and Satellite Meteorology	3
MET 4500C	Synoptic Meteorology	4
MET 4524	Weather Briefing	1
MET 4950	Capstone in Meteorology	1
Total Credits		21

Meteorology Major Electives

The BS | Meteorology, Applied Meteorology, Hazards, and Global Change specialization requires 36-38 credits of coursework in the major plus 19 credits of related coursework. Students should consult the Department of Geography's undergraduate coordinator for information and guidance on curriculum planning upper division courses outside the major.

In addition to the 21 credit hours of required Core Meteorology courses:

Code	Title	Credits
Select one Atmospheric Science Elective course:		3
MET 4532	Hurricanes	
MET 4560	Atmospheric Teleconnections	
MET 4750	Spatial Analysis of Atmospheric Data using GIS	
Select two Societal Applications courses:		6-7
AEB 2451	Economics of Resource Use	
AOM 2520	Global Sustainable Energy: Past, Present and Future	
ECO 2310	Economics of Sustainability	
GEO 2006	Natural Hazards Geography	
GEO 3222	Sea Level Science	
GEO 3280	Principles of Geographic Hydrology	
GEO 3334	Managing for a Changing Climate	
GEO 3341	Extreme Floods	
GEO 3343	Extreme Droughts	
GEO 4034	Weather, Climate, and Society	
GEO 4170	Communicating Science in the Geosciences	
GEO 4285	Water, Risk, and Extreme Events	
GEO 4033	Climate Change and Health	
GLY 3074	Oceans and Global Climate Change	
JOU 4304	Science Journalism	
SWS 4180	Earth System Analysis	
Select two Programming courses:		6-7
AST 2730	Introduction to Python for Physical Sciences	
COP 3275	Computer Programming Using C	
GIS 3043	Foundations of Geographic Information Systems	
GIS 4102C	GIS Programming	
GIS 4124	Geocomputation using R Programming	
GIS 4324	GIS Analysis of Hazard Vulnerability	
MET 3753	Pragmatic Python for Weather	
STA 3100	Programming With Data in R	
Total Credits		15-17

Related Coursework

Code	Title	Credits
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory	4
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for PHY 2048	4
STA 2023	Introduction to Statistics 1	3
Total Credits		19

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (<https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext>).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01>) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete one Meteorology Core course and one MAC course.
- 2.0 UF GPA required

Semester 4

- 2.5 critical-tracking GPA required
- Complete one additional Meteorology Core course and CHM 2045/CHM 2045L and PHY 2048/PHY 2048L.
- 2.0 UF GPA required

Semester 5

- Complete one additional Meteorology Core course.
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 6

- 2.0 UF GPA required

Semester 7

- 2.0 UF GPA required

Semester 8

- Complete all remaining Meteorology Core courses.
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (<https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext>).

MAC 2312 and up to 3 hours of Approved Meteorology electives at the 3000-level or higher - with prefixes other than MET, GEO, or GIS courses - may also count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed on the Critical Tracking tab.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
MET 1010	Introduction to Weather and Climate (Critical Tracking ; Gen Ed Physical Sciences)	3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (Critical Tracking ; State Core Gen Ed Physical Sciences)	4
MAC 2311	Analytic Geometry and Calculus 1 (Critical Tracking ; State Core Gen Ed Mathematics)	4
State Core Gen Ed Composition (http://catalog.ufl.edu/UGRD/academic-programs/general-education/#genedcoursestext); Writing Requirement		3
Credits		14
Semester Two		
GEO 3250	Climatology	3
MAC 2312	Analytic Geometry and Calculus 2 (Critical Tracking ; Gen Ed Mathematics)	4
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for PHY 2048 (Critical Tracking ; State Core Gen Ed Physical Sciences)	4
Quest 1 (Gen Ed Humanities, if needed)		3
Credits		14
Semester Three		
MET 3503	Weather and Forecasting	3
Meteorology Programming Elective		3
Quest 2		3
Gen Ed Social and Behavioral Sciences		3
CLAS Foreign Language Proficiency Requirement ¹		4-5
Credits		16-17
Semester Four		
STA 2023	Introduction to Statistics 1 (Gen Ed Mathematics)	3
Meteorology Atmospheric Science Elective		3
Meteorology Programming Elective		3
State Core Gen Ed Social and Behavioral Sciences (http://catalog.ufl.edu/UGRD/academic-programs/general-education/#genedcoursestext)		3
CLAS Foreign Language Proficiency Requirement ¹		3-5
Credits		15-17
Semester Five		
MET 4410	Radar and Satellite Meteorology	3
MET 4500C	Synoptic Meteorology	4
Meteorology Societal Applications Elective		3
Gen Ed Composition: Writing requirement		3
Elective (or CLAS Foreign Language Proficiency Requirement if 4-3-3 language option) ¹		3
Credits		16
Semester Six		
Meteorology Societal Applications Elective		3
State Core Gen Ed Humanities (http://catalog.ufl.edu/UGRD/academic-programs/general-education/#genedcoursestext)		3
Gen Ed Biological Science		3
Electives (3000-level or above, not in major)		3
Elective (Internship or MET 4911, recommended)		1
Elective		3
Credits		16

Semester Seven

MET 4230	Thermodynamics of the Atmosphere	3
Gen Ed Humanities		3
Gen Ed Biological Sciences		3
Electives (3000-level or above, not in major)		6
Credits		15

Semester Eight

MET 4950	Capstone in Meteorology (Critical Tracking)	1
MET 4524	Weather Briefing	1
Gen Ed Social and Behavioral Sciences		3
Electives (3000-level or above, not in major)		3
Elective		6
Credits		14
Total Credits		120

¹ CLAS Foreign Language Proficiency Requirement (<https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext>)
