UNIVERSITY OF FLORIDA
UNDERGRADUATE CATALOG

2025 - 2026

TABLE OF CONTENTS

Undergraduate Catalog 21
Administration 21
Admission 23
Readmission to the University 26
Residency for Tuition Purposes 27
Applicants Receiving VA and Social Security Benefits 28
Academic Programs 28
AI at UF 29
Artificial Intelligence Fundamentals and Applications Certificate - Open to All Majors 31
Discipline-Specific Certificates 33
AI Majors and Minors 35
AI Courses 35
Center for Latin-American Studies 40
Dentistry, College of 41
Departments and Schools 43
General Education (Gen Ed) - UF Quest 77
Innovation Academy 82
Law - Fredric G. Levin College of 90
Medicine - College of 92
Military Science - Division of 94
Aerospace Leadership Minor 97
Military Science and Leadership Minor 98
Pharmacy - College of 100
Pharmacy - Preprofessional 102
Veterinary Medicine - College of 104
Colleges and Schools 106
Accounting - Fisher School of 106
Accounting 112
Accounting Minor 117
Agricultural and Life Sciences - College of 118
Agricultural and Natural Resource Communication Minor 123
Agricultural and Natural Resource Ethics and Policy Minor 124
Agricultural and Natural Resource Law Minor 125
Agricultural Curriculum and Development Minor 125
Agricultural Curriculum and Development Minor UF Online 126
Agricultural Education and Communication 127
Agricultural Education 129
Agricultural Education 133
Communication and Leadership Development 138
Communication and Leadership Development 142

Agricultural Education and Communication - Agricultural Education UF Online 147
Agricultural Education and Communication - Communication and Leadership Development UF Online 151
Agricultural Operations Management 156
Agroecology and Sustainable Food Systems Certificate 160
Animal Genetics Certificate 161
Animal Sciences 162
Animal Biology 164
Equine 169
Food Animal 173
Integrative Animal Sciences 177
Beekeeping Certificate 181
Bioinformatics Minor 182
Bioinformatics Minor UF Online 183
Biology - CALS 185
Applied Biology 187
Biotechnology 193
Natural Science 199
Preprofessional 204
Biosecurity and Biological Invasions Certificate 210
Botany - CALS 211
Botanical Research 213
General Botany 219
CALS Honors Scholar Certificate 226
Challenge 2050 - Global Leadership and Change Certificate 226
Data Analytics for Applied Economics and Agribusiness Minor 227
Dietetics 228
Entomology and Nematology 232
Biological Science of Insects 233
Preprofessional 239
Urban Pest Management 244
Entomology and Nematology Minor 249
Entomology and Nematology Minor UF Online 251
Entomology and Nematology UF Online 253
Biological Science of Insects 254
Urban Pest Management 260
Environmental Horticulture Management Certificate 265
Environmental Horticulture Minor 266
Environmental Management in Agriculture and Natural Resources - Interdisciplinary Studies 267
Environmental Policy, Law, and Regulation Certificate 272
Extension Education Minor 274
Family, Youth and Community Sciences 275
Family, Youth and Community Sciences Minor 278

Fire Ecology and Management Certificate ... 279
Fisheries and Aquatic Sciences Minor ... 281
Food and Resource Economics ... 282
Food and Agribusiness Marketing and Management ... 283
International Food and Resource Economics ... 287
Food Science ... 292
Food Science Minor ... 295
Forest Health Management Certificate ... 296
Forest Resources and Conservation ... 298
Forest Resources and Conservation Minor ... 302
Geomatics ... 303
Geospatial Analysis ... 304
Surveying and Mapping ... 309
Geomatics Certificate ... 314
Golf and Sports Turf Management Minor ... 315
Horticultural Science Minor ... 316
Horticultural Therapy Certificate ... 317
Interdisciplinary Studies - Environmental Management in Agriculture and Natural Resources UF Online ... 318
International Development and Humanitarian Assistance Minor ... 323
International Studies in Agricultural and Life Sciences Minor ... 323
International Studies in Agricultural and Life Sciences Minor UF Online ... 324
Landscape Pest Management Certificate ... 325
Leadership Minor ... 326
Leadership Minor UF Online ... 327
Management and Sales in Agribusiness Minor ... 329
Management and Sales in Agribusiness Minor UF Online ... 329
Mapping with Small Unmanned Aerial Systems Certificate ... 330
Marine Sciences - CALS ... 331
Medical Entomology Certificate ... 336
Microbiology and Cell Science UF Online ... 337
Microbiology and Cell Science - CALS ... 343
Natural Resource Conservation ... 349
Nonprofit Organizational Leadership Minor ... 355
Nutritional Sciences ... 355
Nutritional Sciences Minor ... 359
Organic and Sustainable Crop Production Minor ... 360
Packaging Science Minor ... 361
Pathogenesis Minor ... 362
Pathogenesis Minor UF Online ... 364
Pest Control Technology Certificate ... 365
Plant Molecular and Cellular Biology Minor ... 366
Plant Science ... 368

Plant Science Minor ... 373
Precision Agriculture Minor ... 375
Recreation Resources Management Certificate ... 376
Soil, Water, and Ecosystem Sciences ... 377
Soil Science ... 379
Water Science ... 384
Soil, Water, and Ecosystem Sciences Minor ... 389
Urban Forestry Certificate ... 390
Urban Pest Management Certificate ... 391
Wildlife Ecology and Conservation ... 392
Preprofessional ... 394
Wildlife Ecology and Conservation ... 398
Wildlife Ecology and Conservation Minor ... 405
Arts - College of the ... 405
AI and the Arts Certificate ... 414
Art Education Certificate ... 415
Art History ... 416
Art History Minor ... 420
Art Minor ... 421
Art - BA ... 422
Art - BFA ... 426
Ceramics Certificate ... 429
Dance in Medicine Certificate ... 430
Dance Minor ... 431
Dance - Bachelor of Arts ... 433
Dance - Bachelor of Fine Arts ... 437
Digital Arts and Sciences Minor ... 441
Digital Arts and Sciences Minor UF Online ... 442
Digital Arts and Sciences UF Online ... 443
Digital Arts and Sciences - Bachelor of Arts ... 447
Graphic Design ... 452
Graphic Design Minor ... 455
Jazz Studies Minor ... 456
Music Business and Entrepreneurship ... 458
Music Business and Entrepreneurship Certificate ... 461
Music Education ... 462
Choral ... 464
Instrumental ... 468
Music Education Certificate ... 472
Music History - Ethnomusicology Minor ... 474
Music in Medicine Certificate ... 475
Music Performance Certificate ... 476

Music Performance Minor - Instrumental or Voice 477
Music Theory Minor 479
Music - Bachelor of Arts 480
Entrepreneurship 482
Event Management 486
Music 490
Music History and Literature 494
Music History and Literature - Ethnomusicology 498
Music Theory and Composition 503
Music - Bachelor of Music 507
Music Composition 508
Music in Combination with an Outside Field 513
Music Theory 517
Performance - Instrumental 521
Performance - Vocal 526
Theatre 530
General 531
Stage Management 535
Theatre Management 540
Theatre Minor 544
Theatre Performance 545
Acting 546
Musical Theatre 550
Theatre Production 554
Costume 556
Digital Media 561
Lighting 564
Scenery 569
Sound 574
Theatre Production Minor 578
Visual Arts in Medicine Certificate 579
Business - Heavener School of 580
Business Administration Minor 586
Business Administration Minor UF Online 587
Business Administration - General Business - BSBA UF Online 588
Business Administration - General Studies - BABA 593
Business Administration - General Studies - BABA UF Online 598
Entrepreneurship Minor 603
Finance 604
Information Systems 610
Information Systems Minor 615
Management 616

Marketing ... 622
Professional Selling Minor ... 627
Real Estate Minor ... 628
Retailing Minor ... 629
Wealth Management Minor ... 630
Construction Management - M.E. Rinker, Sr. School of ... 631
Construction Management ... 634
Construction Management Certificate ... 638
Emergency Management Certificate ... 639
Emergency Medical Services Management Certificate ... 640
Fire and Emergency Services UF Online ... 641
Emergency Management ... 645
Emergency Medical Services Management ... 649
Fire Management ... 653
Senior Fire Officer Certificate ... 658
Design, Construction and Planning - College of ... 659
Architecture ... 663
Architecture Minor ... 667
Interior Design ... 668
Landscape Architecture Minor ... 671
Landscape Architecture - 4-Year Professional Program ... 672
Sustainability and the Built Environment ... 676
Geodesign ... 679
Interdisciplinary ... 687
Sustainability and the Built Environment Minor ... 694
Urban and Regional Planning Minor ... 695
Education - College of ... 696
Disabilities in Society Minor ... 701
Disabilities in Society Minor UF Online ... 702

UNDERGRADUATE CATALOG

Accreditation

The University of Florida is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate's, baccalaureate, master's, educational specialist, and doctoral degrees. The University of Florida also may offer credentials such as certificates and diplomas at approved degree levels. Questions about the accreditation of the University of Florida should be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling 404.679.4500, or by using information available on SACSCOC's website (www.sacscoc.org (http://www.sacscoc.org/)).

Publication Policy

The undergraduate catalog is published annually by the University of Florida and has been adopted as a rule of the university pursuant to the provision of Chapter 120 of the Florida Statutes.

Published editions of this official record correspond to an academic year and will remain in effect as published from the Summer B (June) term through the following Summer A (late May) term.

The undergraduate catalog provides official university rules, policies, and regulations; it establishes minimum eligibility requirements for admission and reflects degree requirements; it provides approved calendar and curricular information; and it contains general information about the university community, the university, and its services and facilities.

Changes will be made to this academic record to correct errors or omissions. The university is not responsible for information obtained through Internet links from this catalog to other websites. Every effort has been made to ensure the accuracy of information. However, all dates and deadlines, courses, course descriptions, degree requirements, and fees are subject to change.

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Administration

Welcome!

Greetings! I offer you my warmest welcome to the University of Florida and to the beginning of a new academic year.

UF is wonderfully diverse and comprehensive, with more than 100 undergraduate majors, more than 200 graduate programs, an amazing variety of experiential learning opportunities and numerous undergraduate and graduate students participating in research and scholarship.

Our excellent faculty are committed to teaching and interacting with students to both challenge your academic skills and encourage you to think in new ways. Our nationally renowned academic support professionals will help you navigate your courses and major – and our student affairs staff are eager to assist with orientation, career counseling, leadership and volunteering opportunities and all the aspects of student life.

You are at the University of Florida at a great time in our history, a time when the State of Florida and the Gator Nation are united behind our shared ambitions to be one of the very best universities in the world. I encourage you to be a part of this journey by fully embracing your experience at UF – taking classes that challenge you, as well as those that appeal to your career interests and curiosity; finding opportunities to learn and serve outside of the classroom; and making new friends by reaching out to faculty, staff and students across UF's very diverse community.

This catalog will give you a starting point by providing the information and tools you need to explore UF's broad selection of courses and majors and discover our many student services. I hope that you spend time exploring your options so that you have a sense of the full range and depth of possibilities before you.

I know that you are among the most academically accomplished students in the nation, and I look forward to seeing what you and our university can achieve together.

Mission Statement

The University of Florida is a comprehensive learning institution built on a land-grant foundation. We are The Gator Nation, a diverse community dedicated to excellence in education and research and shaping a better future for Florida, the nation, and the world.

The university's mission is to enable our students to lead and influence the next generation and beyond for economic, cultural, and societal benefit.

The university welcomes the full exploration of its intellectual boundaries and supports its faculty and students in the creation of new knowledge and the pursuit of new ideas.

Teaching

Fundamental purpose of this university at both the undergraduate and graduate levels.

Research and Scholarship

Integral to the educational process and to the expansion of our understanding of the natural world, the intellect and the senses.

Service

Reflects the university's obligation to share the benefits of its research and knowledge for the public good. The university serves the nation's and the state's critical needs by contributing to a well-qualified and broadly diverse citizenry, leadership and workforce.

The University of Florida must create the broadly diverse environment necessary to foster multi-cultural skills and perspectives in its teaching and research for its students to contribute and succeed in the world of the 21st century.

These three interlocking elements — teaching, research and scholarship, and service — span all academic disciplines and represent the university's commitment to lead and serve the state of Florida, the nation, and the world by pursuing and disseminating new knowledge while building upon the experiences of the past. The university aspires to advance by strengthening the human condition and improving the quality of life.

Admission

Admission Information for all Applicants

The general requirements below apply to undergraduate admission and readmission to any college or division of the university.

Minimum Admission Requirements

Admission to the university is selective. Only minimum requirements for admission are provided; satisfaction of these minimums does not guarantee admission.

Minimum Requirements

- Online application for admission received by the Office of Admissions by the deadline.
- A non-refundable application fee. Students who are eligible can have their application fee waived.
- A satisfactory academic record. Applicants must provide a complete chronological record of educational institutions attended. Official transcripts from all educational institutions must be submitted according to instructions on the application. Failure to declare attendance at another institution could invalidate an offer of admission and any credits or degrees earned.
- Satisfactory scores on achievement or aptitude tests.
- A satisfactory conduct record.
- Applicants must identify a preferred term of enrollment on their application. Applicants who wish to change their term of entry should contact the Office of Admissions immediately.
- Admission to on-campus degree programs must be validated by taking one or more on-campus courses in the specific semester for which the student is accepted.

Residency for Tuition Purposes

Requests for in-state residency for tuition purposes are not granted to applicants who appear to have entered the state solely for educational purposes.
More Info (https://admissions.ufl.edu/cost-and-aid/residency/)

Proof of Immunization

Before registering for classes, each person accepted for admission must submit proof of immunization. No student will be permitted to register until the Student Health Care Center has received and approved the mandatory health form.
More Info (http://shcc.ufl.edu/services/primary-care/immunizations/)

Computer Requirement

Access to and ongoing use of a computer is required of all students. The university expects new students and continuing students to acquire computer hardware and software appropriate to the degree program. The cost of meeting this requirement will be included in financial aid considerations.
More Info (https://policy.ufl.edu/policy/student-computing-requirements/)

All official university correspondence is sent via email to the student's GatorLink email address.

Notice of Admission

When an application for admission is decided, the university will send a notice of admission for a specific term. If the student is unable to enroll for the term indicated or wishes to be considered for entrance to a different term, the Office of Admissions should be notified immediately.

All offers of admission are tentative and will remain so until the Office of Admissions receives and reviews final transcripts and credentials. Students who are admitted conditionally may enroll, subject to verification of satisfaction of all conditions of admission. Admission offers will be revoked if final

coursework/credentials do not meet admission requirements. Should that occur, the student's classification will change to a non-degree status and future enrollment will be denied.

Under no circumstances should an applicant make plans to depart for Gainesville until the university has provided official admission notification. An applicant who comes to campus without confirmation of admission does so entirely at their own risk. Presence on campus will not influence the admission decision.

Applicants who furnish false or fraudulent statements or information in connection with an application for admission or residency declaration could receive disciplinary action, denial of admission and invalidation of credits or degrees earned.

Under Board of Education policy, the university can admit a limited number of students as exceptions to the requirements listed above.

Freshmen

Current high school students seeking college freshman placement and students who have earned fewer than 12 semester credits following graduation from high school.

Students receiving their high school diploma and an Associate of Arts degree (AA) from a Florida College System (FCS) or State University (SUS) institution at the same time are recommended to complete a freshman application and then go through the freshman process (completing the SSAR and submit your SAT/ACT/CLT scores) and receive a freshman decision. If we cannot offer you admission through that process, then we will ask if you would like to be considered as a transfer student and create a transfer application on your behalf so you would have both avenues available for admission consideration.

How to Apply

Applicants must apply using the Common Application and must complete all sections of the application, including the Student Profile and the UF supplemental section.
Apply Online (http://admissions.ufl.edu/apply/freshman/)

When to Apply

The University of Florida provides two options for prospective students to apply: Early Action (EA) and Regular Decision (RD). EA is a non-binding way to apply to UF and receive an admission decision sooner than those applying in the RD round. For information on freshman application dates and deadlines, visit the Office of Admissions Dates and Deadlines. (https://admissions.ufl.edu/apply/freshman/deadlines/)

Freshman Selection

UF employs a comprehensive review process that evaluates academic and nonacademic criteria. When we review an application, we are considering a candidate's chance of success at UF based on what the student has accomplished within distinct opportunities and challenges. The admissions review process tries to balance the subjective and objective components of the application. The university recognizes that there is great variation among applicants' personal circumstances, home communities and high schools, including schools' course offerings and grading practices. Admission officers can exercise flexibility and professional judgment in their reviews and decisions, but they also must apply consistent standards.

Admission is selective, and the number of qualified students exceeds the space available in the freshman class.

Freshman Selection

UF employs a comprehensive review process that evaluates academic and nonacademic criteria. When we review an application, we are considering a candidate's chance of success at UF based on what the student has accomplished within distinct opportunities and challenges. The admissions review process tries to balance the subjective and objective components of the application. The university recognizes that there is great variation among applicants' personal circumstances, home communities and high schools, including schools' course offerings and grading practices. Admission officers can exercise flexibility and professional judgment in their reviews and decisions, but they also must apply consistent standards.

Admission is selective, and the number of qualified students exceeds the space available in the freshman class.

Minimum freshman admission requirements include:

- Graduation from a regionally accredited or state-approved secondary school or the equivalent (G.E.D., etc.).
- Submission of ACT, CLT, or SAT scores
- Completion of 16 academic units:

Subject	Required Years
English (with substantial writing)	4 years
Mathematics (at or above the Algebra 1 level)	4 years
Natural Sciences (two units must include laboratory)	3 years

Social Sciences	3 years
Foreign Language (at least the second high school level or higher)	2 years

- A cumulative C (2.0) average in the academic core, as computed by the university, at all institutions attended, high school and college.
- A record of good conduct.

Non-Accredited and Homeschools

Homeschooled students or students at non-accredited schools are considered for admission using the same holistic review process as the entire applicant pool. In addition to grades and ACT/SAT/CLT scores, students attending a homeschool or a non-accredited school are encouraged to take core classes and submit grades from an accredited secondary or post-secondary institution.

Credit by Examination

There are several credit-by-examination programs that earn credit toward a UF degree. The university participates in the Advanced Placement (AP) program (p. 1872), Carribean Advanced Proficiency Examination (CAPE), the College Level Examination Program (CLEP) (p. 1872), the International Baccalaureate (IB) program (p. 1872) and the Advanced International Certificate of Education (AICE) (p. 1872). Students may receive university credit for or exemption from such courses without credit, depending on the results.

Dual-Enrollment Credit

Courses from Florida public colleges and State University System schools generally adhere to the Statewide Course Numbering System. If the prefix (first three letters) and the last three digits of the course number are the same, then the course is considered equivalent.

Equivalent courses fulfill the same requirements (e.g., General Education) that the UF course fulfills.

Courses taken at private and out-of-state institutions which do not have a direct UF equivalent need to be evaluated by the student's college to determine if they will fulfill specific requirements.

Confirmation and Tuition Deposit

- Freshmen are required to confirm enrollment and pay a **$200 non-refundable tuition deposit** no later than **May 1** to secure their place in the class. This deadline may be extended depending on extenuating circumstances.
- The tuition deposit **will not be reimbursed** if the student does not enroll in the term offered for admission.
- The tuition deposit will be credited to the student's account and applied toward the first-semester tuition. If there is a credit balance on the account at the end of drop/add, the balance will be refunded.

International Students

The Office of Admissions classifies an applicant as an undergraduate if they have not earned a university degree equivalent to a US bachelor's degree.

How to Apply

International applicants must apply online.
Apply Online (http://admissions.ufl.edu/apply/international/)

Applications cannot be considered until the Office of Admissions receives ALL required credentials. International applicants should supply the following:

- All international applicants should apply online.
- Submit the non-refundable $30 application fee (US currency drawn on a US bank or credit card).
- Submit appropriate test scores:
  - Freshmen must submit official SAT, ACT, or CLT scores.
  - Applicants whose native language is not English must submit official scores from the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS).
- Freshman applicants with coursework completed outside the US must submit at least three full years of their most current secondary school transcripts, in addition to the final/senior year schedule or predicted grades, in both native language of instruction, and if applicable, a certified English translation. Unofficial transcripts are accepted throughout the initial review process. Applicants should not attempt to enter grades from a non-US transcript into the Student Self-Reported Academic Record (SSAR) system. A NACES (https://www.naces.org/members/) approved course-by-course credential evaluation with a GPA calculation is encouraged, but not required for freshman admission. Transfer level applicants with college or university coursework completed outside the US are required to submit all non-US transcripts to a NACES (https://www.naces.org/members/)-approved credential evaluation agency for a course-by-course evaluation with GPA calculation.

Transfer Students

A transfer student is defined as an applicant who has earned at least 12 semester hours of credit following graduation from high school and who has not received a bachelor's degree.

How to Apply

Transfer applicants must apply online.
Apply Online (http://www.admissions.ufl.edu/apply/transfer/)

When to Apply

Transfer applications generally are received six to nine months before the term begins. Apply by your intended college's deadline.
More Info (http://www.admissions.ufl.edu/apply/transfer/trapdates/)

Transfer Eligibility

- Must have completed an Associate of Arts degree from a Florida public institution or at least 60 transferable semester credit hours from a regionally accredited institution.
- Must show competency in a foreign language. Students can do this by providing a high school transcript showing completion of the second high school level or higher of a foreign language or American Sign Language equivalent to the second high school level or higher, or by completing the second collegiate level of a foreign language or American Sign Language.
- Must have a minimum 2.0 overall GPA and a minimum 2.0 GPA at the last institution attended, as calculated by UF.
- Must complete or will complete specific prerequisites for the intended major before attending UF.
- Must be in good standing and eligible to return to any institution previously attended.

Students with less than 60 semester credit hours or who have already completed a bachelor's degree are not eligible to transfer to an on-campus program.

Our Decision Process

After the Office of Admissions verifies that your application file is complete, the file is forwarded to the college and academic department for admission consideration and decision. Admissions decisions must be released within a reasonable period of time (as established by the university board of trustees).

Information about your application status (https://my.admissions.ufl.edu/account/login/)is provided online as a convenience. While every effort is made to be timely and accurate, information conveyed by electronic means is unofficial. An official written notification of admission will be mailed to your permanent address within a reasonable period of time (as defined by the university board of trustees). Please do not act on any information until you have received official notification.
More Info (https://admissions.ufl.edu/apply/transfer/dates-and-deadlines/)

Applicants who have received an Associate in Arts (AA) degree from a Florida public institution immediately prior to transferring receive priority consideration for admission provided the application and all supporting documents are received in the Office of Admissions by the deadline.

If Denied Admission

The admissions process at the University of Florida is highly competitive and, unfortunately, all qualified and eligible applicants cannot be accommodated due to limited space in the university's academic colleges. Students who feel they have documented extenuating circumstances that impacted their ability to meet admission requirements may appeal their admissions decision.

To initiate a university-level appeal, students should email transfer@admissions.ufl.edu with letter of appeal and any supporting documentation attached, as well as a letter of support from the college/major (https://admissions.ufl.edu/college-contacts/) to which the student applied.

Please know that, due to the thoroughness of the university's application review process, it is unusual to reverse an admission decision. An appeal will only be considered if it provides new and compelling information.
More Info (https://admissions.ufl.edu/denied-transfer/)

Readmission to the University

Readmission applies to students who have been previously admitted and who have attended this university.

Undergraduate students who do not enroll at the university for three consecutive terms must apply for readmission. Readmission, however, is not guaranteed and is subject to availability at the appropriate level, college or major. Students who skip a single term will be scheduled automatically for a registration appointment for one additional term.

Readmission applies to undergraduate students who have previously been admitted to and attended the University of Florida, at any level. Students who do not enroll at the university for three consecutive terms must apply for readmission.

Readmission is not guaranteed and is subject to availability at the appropriate level, college and major. Students should contact the college/department they will be applying to for questions regarding availability.

Apply Online (http://www.admissions.ufl.edu/start.html)

Readmission Requirements

- Satisfactory Academic Records: If the student has attended any college or university since they were last enrolled at the University of Florida, they must have a C or higher average (as computed by UF) on all work attempted at each institution. Be aware that grades received at other institutions are not averaged with grades received at UF for the purpose of meeting the university's grade point average requirements.
- Students must indicate the college and the level of their last enrollment at UF and must also list all institutions attended since leaving UF and provide complete official transcripts from each before the application deadline.
- Students must be in good standing and eligible to return to each institution previously attended.
- Students must indicate the degree program and/or major to which they want to apply or return.
- Students must meet the current admission requirements of the college or school that they expect to enter.
- Satisfactory Conduct Record: Applicants must present a satisfactory record of conduct.

Fresh Start

Former undergraduate degree-seeking students who have been dismissed and who wish to return to the University of Florida after an absence of no fewer than five calendar years (during which they have engaged predominantly in non-academic activities) may petition for undergraduate readmission under the Fresh Start Program.

If a student is readmitted, credit for previous UF courses in which minimum grades of C were earned will be calculated in UF credits earned and may be applied toward a degree. No grades previously earned in UF courses will be included in the UF grade point average. All previous course attempts and grades received will remain on the student's academic record and transcript.

Students cannot apply for the Fresh Start Program subsequent to readmission to the university. Students who have been readmitted under Fresh Start cannot petition subsequently for any retroactive change to their academic records. Students admitted under Fresh Start who do not enroll must reapply for a future term.

For additional information on policy and procedures, former students who wish to petition for readmission under the Fresh Start Program should contact the dean of the college into which they seek readmission.

Each student is responsible for becoming familiar with the rules and regulations of the university and for applying them as appropriate. Additional information relative to academic rules, conduct, graduation, social activities and failure in studies can be found in the sections containing regulations of the colleges and schools.

Additional Admission Information

- All Applicants (p. 23)
- Readmission Deadlines (http://www.admissions.ufl.edu/ugrad/readmission.html)

Residency for Tuition Purposes

The deadline for applying for a change in residency status, including receipt of all documentation, is each term's fee payment deadline (p. 1921). Residency reclassification cannot be applied for retroactively for previous terms.

All Florida public institutions of higher education shall maintain consistent policies and practices for the classification of students as residents for tuition purposes to facilitate the transfer of students among institutions. The policies and practices may vary to accommodate differences in governance, but the determination of classification shall be consistent to assure students of being classified the same regardless of the institution determining the classification, as long as no contradictory evidence indicates the classification is incorrect.

Determination of Residency for Tuition Purposes

- **Applicants:** consult the Admissions website (https://admissions.ufl.edu/).
- **Current UF Students:** consult the Registrar website (https://registrar.ufl.edu/).
- Florida State Statute 1009.21 (http://www.leg.state.fl.us/Statutes/?App_mode=Display_Statute&URL=1000-1099/1009/Sections/1009.21.html)
- Florida Board of Governor's Regulation 7.005 (https://www.flbog.edu/regulations/active-regulations/)
- Florida Residency Guidelines (https://registrar.ufl.edu/services/residency/#:~:text=A%20student%20claiming%20in%2Dstate,requires%20documentary%20evidence%20of%20residence)

Applicants Receiving VA and Social Security Benefits

VA Benefits

UF Student Veteran Services (http://www.veterans.ufl.edu/)

The University of Florida is approved by the Department of Veterans Affairs (VA) to educate and train veterans, active duty, reservists, guard members, and their spouses or dependents. UF's Office of Student Veteran Services serves as the liaison between the University of Florida, its students, and the various federal, state, and local agencies concerned with the processing of VA Educational Benefits.

The University of Florida accepts the following VA Educational Benefits:

• Chapter 30: Montgomery GI Bill®

• Chapter 31: Veteran Readiness and Employment (VR&E)

• Chapter 33: Post-9/11 GI Bill®

• Chapter 35: Dependents Education Assistance (DEA)

• Chapter 1606: Montgomery GI Bill Selected Reserve

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at Trademark Terms of Use - Education and Training (va.gov)
More Info (https://www.benefits.va.gov/GIBILL/Trademark_Terms_of_Use.asp)

Social Security Benefits

Inquiries related to Social Security benefits should be directed to the student's local Social Security Office. The Office of the University Registrar will complete enrollment certificates issued by the Social Security Administration for students eligible to receive educational benefits, as long as the student is a full-time undergraduate.

A full-time undergraduate load for Social Security benefits is 12 credits per semester; a full-time graduate load is nine credits.

AI at UF

In setting the standard for an AI university, the University of Florida is preparing AI-capable students in every discipline for the 21st century workforce while fueling life-changing discoveries by research faculty in every college. This work, guided by a strong foundation in ethics, is driving the creation of a diversified, technology-driven, high-wage economy in Florida and strengthening the country's competitiveness in a global market.

AI at UF | Far-Reaching Impact

The University of Florida's AI initiative will make UF a national leader in AI and have far-reaching impacts for the university and its students and faculty.

Equally important, it will play a crucial role in educating and preparing the workforce for the fourth digital revolution to benefit our nation's economy, international ties, security, and to ensure the ethical use of artificial intelligence.

For Florida

From the development and training of an AI-enabled workforce to the application of AI against a wide array of pressing challenges, UF will serve a critical role in advancing and protecting the state we call home. AI will play a critical role in the transformation of Florida's economy into a diversified, technology-drive, high-wage economy. Strong AI infrastructure makes UF one of the best places in the country for researchers to conduct studies that will benefit citizens of our state and the nation.

For the University

UF's AI infrastructure is one of the strongest in the country. We are home to HiPerGator, the fastest supercomputer in higher education, along with 300 faculty members who are teaching Ai courses or using AI in their research. At the heart of AI research and teaching is UF's commitment to ethical AI to ensure that this technology benefits all humankind. We are providing upskilling to the existing workforce through professional development, educating K-12 students in AI fundaments, as well as college and university students on our campus and other campuses in the application of AI in their chosen discipline.

For Our Students

UF is committed to educating our students for the jobs of today and tomorrow. We are one of the first universities in the country to infuse AI courses across the curriculum. Here, AI is for everyone because AI is being used in all disciplines. We offer more than 200 AI courses and several undergraduate AI certificates. An AI Pathways Career Coach in our nationally ranked Career Connections Center can assist students with finding internships and jobs that will reward their AI knowledge. We also fund AI scholars annually who are working with an AI mentor in research.

Building an AI University

The University of Florida is one of the nation's first universities to offer its students AI Across the Curriculum with courses in artificial intelligence available in all 16 colleges. Our nation's need for a skilled AI workforce grows daily and can only be met by reaching new learners as well as upskilling existing workers. At UF, AI is for everyone with no need for backgrounds in engineering or data science. The university currently offers 230 AI and data science courses at the undergraduate, graduate and professional levels with many more in the developmental stages. These courses are in every college, from the arts to agriculture.

UF has been building a comprehensive, inclusive model to reach new K-20 students as well as upskilling the current workforce via a micro-credential (https://pwd.aa.ufl.edu/ai/) in artificial intelligence. As the state's premier Land-Grant institution, UF already had hundreds of existing faculty who were using AI in their teaching and research. This was expanded by hiring 100 new AI-focused faculty in 2020. Comprehensive AI research is supported with HiPerGator, one of the fastest supercomputers in higher education, gifted to UF by the NVIDIA Corp. This resource is available to all faculty and students, as well as other universities and industries. In 2022, the university also established centralized leadership of AI academic efforts via the establishment of the Artificial Intelligence Academic Initiative (AI2) Center (https://ai.ufl.edu/about/ai2-center/).

AI Across the Curriculum

UF students can begin their AI learning with our signature course, Fundamentals of AI, which requires no prior knowledge of artificial intelligence, engineering or computer science. Students can continue with more advanced AI courses in UF's many disciplines or enroll in UF's nine-credit certificate program in artificial intelligence (https://ai.ufl.edu/students/ai-certificate/). This model of teaching AI broadly across all disciplines is the foundation for Building an AI University and results in a larger and more diverse group of students who will graduate UF with AI knowledge. The goal of AI Across the Curriculum is the creation of an interdisciplinary AI-ready workforce as well as preparing our students for the jobs of the future, many of which will require AI knowledge.

AI Research

UF's strong and diverse research portfolio is incorporating and applying AI and data science across disciplines. This infusion of technology will supercharge the university's successful research and development portfolio. In 2020, the university stimulated AI research activity by awarding 20 faculty teams in varied disciplines $50,000 each to pursue AI-related projects. With HiPerGator (https://rc.ufl.edu/about/hipergator/) at their disposal, UF faculty can analyze vast amounts of data and predict solutions to health, agriculture, engineering and educational challenges. To support student research, the AI2 Center is funding stipends for student AI Scholars to support their research with an AI faculty mentor.

Workforce Development and Career Readiness

Bringing skills and competencies to the forefront of our AI curriculum development links learning to professional employment needs. UF has an AI pathways career coach in its nationally ranked Career Connections Center to help equip students with the knowledge and connections needed for the AI-ready workforce. The center, which has connections with more than 2,000 companies, will educate students on the use of AI in the job recruitment process as well as facilitating internships and career opportunities.

Educational Partnerships

The University of Florida is committed to leveraging its artificial intelligence knowledge and resources by partnering with other institutions, K-20, thereby reaching far more people and having a far greater impact than it could alone. UF is partnering with the state's largest historically black university, Florida A & M, as well as the country's largest college enrolling Hispanic students, Miami Dade College, to collaborate with the colleges' faculty to create courses and integrate AI into their curriculum. This helps to ensure that a diverse AI-enabled workforce will be of varied interests, backgrounds, races, ethnicities. UF is also partnering with several state colleges, including Palm Beach State College, and the state's public-school districts to create an AI curriculum to educate their students. Florida is among the first states to adopt a K-12 artificial intelligence education program, and UF faculty are helping in the design of the curriculum, learning standards and benchmarks. As a leader of the Southeast Conference intelligence Consortium, UF is spearheading what may be the first athletics conference collaboration on AI. This collaboration will share educational resources, promote faculty and staff development and seek joint partnerships with industry seeking AI visionaries.

AI in Research

Over the past 10 years, UF has made significant computing infrastructure investments, including a $15 million data center to house the $3.4 million HiPerGator supercomputer. That work set the stage for UF's giant next step. In 2020, alumnus Chris Malachowsky and NVIDIA, the company he cofounded, gave UF more than $50 million in cutting-edge processing tools and training to build the most powerful Artificial Intelligence computer in higher education. Faculty and students now have access to the best AI technology on the planet, and the response from the UF faculty has been incredible. Researchers with existing AI expertise are accelerating their programs while others are quickly pivoting toward AI.

The World Economic Forum estimates AI will result in a net gain of 12 million jobs by 2025. By the end of the decade, the AI economy is expected to represent over $10 trillion in economic output. Through a combination of AI research and an innovative AI curriculum, UF is providing a whole generation of workers the skills to seize these new opportunities.

A Closer Look

Currently, UF's faculty has more than $10 million in AI-specific research grants, and with another $20 million-a-year from the Florida Legislature, we are now recruiting 100 new faculty with AI expertise. We expect many of those new faculty to bring AI research funding with them and to earn more once they are here. To encourage and facilitate even more external funding, UF Research created the AI Catalyst fund and chose 20 seed proposals totaling $1 million.

AI Student Groups

GAITOR Club

A student club focusing on artificial intelligence, machine learning and deep learning.
More Info (https://www.rc.ufl.edu/about/gaitor-club/)

Data Science and Informatics Club (DSI)

A multi- and inter-disciplinary student organization dedicated to promoting data science at UF.
More Info (https://informatics.research.ufl.edu/event/data-science-and-informatics-dsi-club/)

Additional Student Groups

Interested in starting an AI student group?
More Info (ai@ufl.edu)

AI Scholars

Undergraduate students who are interested in pursuing AI-related research with a UF faculty member are invited to apply for the AI Scholars Program through the Center for Undergraduate Research. The center manages the successful University Scholars Program that introduces UF undergraduates to partnerships with faculty in research endeavors across campus. Artificial intelligence is ubiquitous in the world around us, from voice-activated devices to autonomous vehicles; thus, there is a wealth of research potential in every UF department.

Scholars are selected to participate through a competitive process, which occurs in the spring. Students may apply to the AI Scholar Program without having first identified a faculty mentor; however, applications with AI faculty support are considered more competitive.

Hear from an AI Scholar (https://youtu.be/R_aGbtgFgmE/)

Artificial Intelligence Fundamentals and Applications Certificate

Open to all Majors

The Artificial Intgelligence Fundamentals and Applications Certificate is intended for undergraduates of all majors (both technical and non-technical) to understand fundamentals of Artificial Intelligence, its applications to real world problems in various disciplines, and ethical and professional responsibilities of these technologies. The certificate consists of a required fundamentals course, a college specific application course and an ethics course. Students use high level AI tools and apply them to problems in their disciplines.

P. O. Box 113175
University of Florida
Gainesville, FL 32611

324 Tigert Hall | Map (https://campusmap.ufl.edu/#/index/0026)

About this Program

- **College:** Herbert Wertheim College of Engineering (https://catalog.ufl.edu/UGRD/colleges-schools/UGENG/)
- **Credits:** 9 | Completed with minimum grades of C
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Enroll in UF's artificial intelligence certificate program where all undergraduate students, regardless of major, can learn how to apply artificial intelligence in their discipline. No background in computer programming, engineering, or data science is needed. Pursuing courses in AI can put students ahead of the curve when applying for internships or jobs. Students can obtain the skills needed to join the AI-trained workforce of the future.

This university-wide certificate prepares students to understand the fundamentals of artificial intelligence, its applications to real-world problems in various disciplines, and ethical and professional responsibilities of these technologies. The certificate consists of two required courses, a fundamental course and an AI ethics course. After completing those, students take a third elective course in the application of ethics in their discipline. Students learn how to use AI and apply them to maximize efficiency or solve problems within their discipline.

To obtain this certificate, students must apply before they take the second course.
More Info (https://admissions.ufl.edu/apply/certificates/)

To earn the certificate, students must apply to graduate with it.
More Info (https://registrar.ufl.edu/services/degree-application/)

ADMISSION CRITERIA

Junior level of any major, MAC 1147 or equivalent. Some elective courses require prerequisites which are fulfilled by the majors indicated.

REQUIRED COURSES

Code	Title	Credits
EEL 3872	Artificial Intelligence Fundamentals	3
PHI 3681	Ethics, Data, and Technology	3
College-specific course (select one):		3
Agricultural and Life Sciences		
ALS 3200C	AI in Agricultural and Life Sciences	
Business		
QMB 3302	Foundations of Business Analytics and Artificial Intelligence (AI)	
Design, Construction, and Planning		
DCP 4300	AI in the Built Environment	
Education		
EDP 3211	Cognitive and Educational Science in AI	
Engineering		
BME 4760	Biomedical Data Science	
CAP 3032	Interactive Modeling and Animation 1	
EEE 4773	Fundamentals of Machine Learning	
ESI 4610	Introduction to Data Analytics	
Health and Human Performance		
APK 4720	Artificial Intelligence for Movement Sciences	
HFT 4442	Artificial Intelligence Revolutions and Applications in Tourism, Hospitality, and Events	
Journalism and Communication		
ADV 3330	Artificial Intelligence and Advertising	
ADV 4331	AI-Driven Social Media Insight	
JOU 3365	Artificial Intelligence in Media and Society	
Liberal Arts and Sciences		
BSC 4892	AI in Biology	
CAP 3032	Interactive Modeling and Animation 1	
CLA 3811	AI in Antiquity and Today	
GIS 4123C	GeoAI – Geographic Artificial Intelligence	
IDS 3750	Artificial Intelligence in the Social Sciences	
WST 4002	Data Feminisms	
Public Health and Health Professions		
PHC 3793	Higher Thinking for Healthy Humans: AI in Healthcare and Public Health	
PHC 4796C	Artificial Intelligence in Psychological and Brain Sciences	
Total Credits		**9**

AI and Data Analytics in THEM

Artificial Intelligence and Data Analytics in Tourism, Hospitality and Event Management Certificate

This certificate trains students in the applications of Artificial Intelligence and data analytics in tourism, hospitality, and event management. Students have the opportunity to gain specialized knowledge and practice in areas such as artificial intelligence trends, analytic skills, machine learning concepts, technology applications, opportunities, and challenges in industries.

About this Program

- **College:** Health and Human Performance (p. 918)
- **Credits:** 9 | Completed with minimum grades of C or better; courses must be taken at UF.
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Requirements

- Current UF undergraduates.
- 2.0 overall GPA.
- Open to students in any major.

Required Courses

Code	Title	Credits
HFT 4442	Artificial Intelligence Revolutions and Applications in Tourism, Hospitality, and Events	3
HFT 4746	Smart Cities, Attractions, and Theme Parks	3
Select one:		3
HFT 4446C	GIS and Spatial Analysis for Tourism and Social Data	
LEI 4930	Data Mining with Social Data	
Total Credits		**9**

AI in Public Health and Healthcare

Artificial Intelligence in Public Health and Healthcare Certificate

The Artificial Intelligence in Public Health and Healthcare certificate is for those seeking to acquire fundamental knowledge, ethical decision-making, and applied skills in artificial intelligence applications in public health practice and healthcare settings.

About this Program

- **College:** Public Health and Health Professions (p. 1781)
- **Credits:** 9
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)
- *Certificates must comply with the Certificate Policy.*

Entry Requirements

- Junior or senior level standing
- STA 2023 or equivalent

Requirements

Code	Title	Credits
PHC 3793	Higher Thinking for Healthy Humans: AI in Healthcare and Public Health	3
PHC 3621	Ethics in Artificial Intelligence: Who's Protecting Our Health	3
PHC 4792	Data Visualization in the Health Sciences	3
Total Credits		**9**

Geographic AI and Big Data

Geographic Artificial Intelligence and Big Data Certificate

GeoAI, the integration of Geography and AI, provides novel approaches for addressing a variety of geospatial challenges in the real world. This certificate develops transferable skills in GeoAI to address issues affecting the environment and societies. GeoAI training is critical given projected growth ~16% in this industry by 2050.

Prerequisites

For this certificate program, the course prerequisites vary depending on what courses are selected. It is possible to take this certificate and satisfy the prerequisites from the courses listed, for example:

- GIS 2114 or GIS 2002, then
- GIS 3043, then
- GIS 4324 or GIS 4424C or GIS 4500, and then the capstone
- GIS 4123C

In this way ONLY the courses taken are required with no additional prerequisites and with GIS 3043 serving as the prereq for the higher-level courses.

Required Courses

Code	Title	Credits
GIS 2114	The World & Big Data	3
or GIS 2002	The Digital Earth	
GIScience techniques course (select one)		**3-4**
GIS 3043	Foundations of Geographic Information Systems	
GIS 4021C	Aerial Photo Interpretation	
GIS 4037	Digital Image Processing	
GIS 4102C	GIS Programming	
GIS 4115C	Spatial Surface Modeling and Geostatistics	
MET 3753	Pragmatic Python for Weather	
MET 4750	Spatial Analysis of Atmospheric Data using GIS	
GIScience applications course (select one)		**3**
GIS 3420C	GIS Models for Public Health	
GIS 4113	Introduction to Spatial Networks	
GIS 4324	GIS Analysis of Hazard Vulnerability	
GIS 4424C	Applications in GIS for Zoonoses and Disease Ecology	
GIS 4500	Population GIS	
MET 4410	Radar and Satellite Meteorology	
Capstone GeoAI course		**3**
GIS 4123C	GeoAI – Geographic Artificial Intelligence	
Total Credits		**12-13**

AI Majors and Minors

As part of the university's Artificial Intelligence (AI) initiative, a commitment has been made to incorporate AI in all undergraduate majors and graduate programs. Students can discover their pathway to AI with guidance from their academic advisor (http://www.ufadvising.ufl.edu/college-advising-contacts/).

Majors

Information Systems (BS) | Heavener School of Business

The Information Systems major (BSBA-IST) is designed for students who want to be at the intersection between business and technology. IST majors develop the technical knowledge necessary to supply organizations with the information needed to make crucial strategic decisions. The IST curriculum teaches students effective strategies and techniques to analyze, design, and implement information systems. Students interested in IST must possess strong quantitative skills as well as a passion for computers and technology.
Curriculum (p. 610) | More Info (https://warrington.ufl.edu/undergraduate-academics/information-systems/)

Statistics (BS) | College of Liberal Arts and Sciences

Data Science is a field of study that combines computer science (programming, databases, and algorithms) and statistical methodology, both with a strong mathematical foundation, to apply to diverse areas in ethical ways. Data scientists work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for data scientists and their expertise in the collection, management, and analysis of data.
Curriculum (p. 1293)

Minor

Bioinformatics | College of Agricultural and Life Sciences

The undergraduate minor in computational biology / bioinformatics. Open to any student in a biology-related major. Currently focused on 'traditional' bioinformatics - sequence analysis, BLAST, phylogeny, functional genomics, metagenomics, etc. - rather than AI. But it's likely that many of the new AI courses will be added as approved electives for the minor.
Curriculum (p. 182) | More Info (https://microcell.ufl.edu/mcs-apps/bioinfo/site/BioinfoMinor.html)

AI Courses

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

324 Tigert Hall | Map (https://campusmap.ufl.edu/#/index/0026)

ABE 4662 Quantification of Biological Processes 3 Credits
Grading Scheme: Letter Grade
Quantitative description and analysis of biological processes pertaining to microbes, plants, animals and ecosystems. Biological transport phenomena, bioenergetics, enzyme kinetics, metabolism, bioregulation, circulatory and muscle systems, agroecosystems. Analytical and experimental laboratory for development of quantitative skills.
Prerequisite: (ABE 2062 or BSC 2010) and (EGN 3353C or CWR 3201).
Attributes: Artificial Intelligence

ADV 3001 Advertising Strategy 3 Credits
Grading Scheme: Letter Grade
Overview of the strategic planning process required to develop a successful strategic, persuasive communication plan such as an advertising, integrated marketing communications, or social marketing campaign. Case studies and projects teach the skills needed to address a variety of communications management issues and engage audiences in diverse marketplaces.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C and ADV major.
Attributes: Artificial Intelligence

ADV 3500 Digital Insights 3 Credits
Grading Scheme: Letter Grade
Acquiring, evaluating, and analyzing information for advertising decisions. Emphasizes understanding the scientific method, developing explicit and measurable research objectives, selecting appropriate methodologies, and analyzing data.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C and STA 2023 and ADV major.
Attributes: Artificial Intelligence

ADV 4300 Media Planning 3 Credits
Grading Scheme: Letter Grade
Provides an in-depth overview of the media planning process. Emphasizes the value of various media channels and evaluation methods to design innovative and integrated media strategies to reach and engage diverse audiences.
Prerequisite: 3JM ADV; minimum grades of C in ADV 3001 and ADV 3500.
Attributes: Artificial Intelligence

ALS 3200C AI in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Artificial intelligence (AI) is used to solve problems in research and industry. Provides an understanding of and practical, hands-on experience building and using AI systems. Gain the skills and knowledge needed to use AI to solve real-world problems in agricultural and life sciences.
Prerequisite: (BSC 2891 or STA 2023 or STA 3032 or EEL 3872) with minimum grades of C.
Attributes: Artificial Intelligence

BCN 4594 Building Energy Modeling 3 Credits
Grading Scheme: Letter Grade
As energy becomes a more precious commodity, it is crucial to design and operate high performance buildings. A solid foundation of energy engineering and sustainability principles is essential to achieving these higher performance standards.
Prerequisite: junior standing or higher.
Attributes: Artificial Intelligence

BSC 4892 AI in Biology 3 Credits
Grading Scheme: Letter Grade
Examines how AI has rapidly become ubiquitous in daily life and been applied to diverse areas of Biology. Focuses on machine learning approaches as well as deep learning methods, including transformers. Covers machine learning methods for tabular data, computer vision, transfer learning, natural language processing, and transformer-based architectures. Classes typically applied coding with Jupyter Notebooks on HiPerGator. Prior Python coding experience required.
Prerequisite: BSC 4452 or BSC 6451 or BSC 2891 or Instructor permission (Python programming experience.)
Attributes: Artificial Intelligence

CAP 4641 Natural Language Processing 3 Credits
Grading Scheme: Letter Grade
Introduction to the essential concepts, principles, and techniques of Natural Language Processing (NLP). Practical application and theoretical concepts are examined. Topics include information extraction, language construction, grammars, disambiguation, as well as system modeling, classification, and evaluation.
Prerequisite: COP 3530.

DCP 4300 AI in the Built Environment 3 Credits
Grading Scheme: Letter Grade
Introduces Artificial Intelligence (AI) and its applications to real world problems in planning, design, and construction of the built environment. Includes application in professional practice in architecture, construction management, interior design, landscape architecture, and urban and regional planning.
Prerequisite: EEL 3872 and PHI 3681.
Attributes: Artificial Intelligence

ECO 4421 Econometrics 4 Credits
Grading Scheme: Letter Grade
Introduces concepts and methods used in empirical economic research. Emphasizes practical use of basic econometric techniques to estimate economic relationships and evaluate policy. Covers topics needed to plan and implement empirical projects, and understand potential problems with the empirical analyses of others.
Prerequisite: STA 2023 and (MAC 2233 or higher) and (ECO 3101 or ECP 3703).
Attributes: Artificial Intelligence

ECO 4422 Econometrics 2 4 Credits
Grading Scheme: Letter Grade
Introduces advanced concepts and methods employed in empirical economic analysis. Focuses on identification of causality using regression techniques. Examines regression discontinuity and difference-in-differences identification strategies.
Prerequisite: ECO 4421 OR (STA 4210 AND ECO 3101) OR (STA 4210 AND ECP 3703).
Attributes: Artificial Intelligence

EEE 4773 Fundamentals of Machine Learning 3 Credits
Grading Scheme: Letter Grade
Overview of machine intelligence and the role of machine learning in a variety of real-world problems. Probability and statistics to handle uncertain data. Topics covered include: learning models from data in both a supervised and unsupervised fashion, linear models and non- linear models for classification, and linear dimensionality reduction.
Prerequisite: EEL 3135 and EEL 3850 with minimum grades of C.
Attributes: Artificial Intelligence

EEL 3872 Artificial Intelligence Fundamentals 3 Credits
Grading Scheme: Letter Grade
An overview of Artificial Intelligence (AI), approaching the concept from its origins to expectations for the future. The course will focus on various AI technologies, how to build Machine Learning models, and how to apply AI tools to solve real-world problems. Some concepts that will be introduced in the course are types of AI and Machine Learning, Hacking and the IoT, AI today, and its outlook for the future.
Prerequisite: Junior standing or above, or instructor permission.
Attributes: Artificial Intelligence

ESI 4610 Introduction to Data Analytics 3 Credits
Grading Scheme: Letter Grade
Provides a basic understanding of the skills necessary for managing and analyzing data. The concepts covered include exploratory data analysis, data manipulation, data cleaning, data wrangling, and machine learning models. A basic understanding of data management with SQL is also provided. All the technical skills will be motivated by different examples involving data. Python is the programming language used.
Prerequisite: COP2273 or COP2271 and ESI 3215C with minimum grades of C.
Attributes: Artificial Intelligence

EXP 4174C Laboratory in Sensory Processes 4 Credits
Grading Scheme: Letter Grade
Collect, analyze, and evaluate data on specific problems related to sensory and perceptual abilities.
Prerequisite: (EXP 3104 or EXP 3604) and STA 2023.
Corequisite: STA 3024.
Attributes: Artificial Intelligence

FIN 3403 Business Finance 4 Credits
Grading Scheme: Letter Grade
The acquisition and management of funds by business. A minimum grade of B is required in FIN 3403 to register for required finance major courses.
Prerequisite: (ACG 2021 and junior standing or higher) or (ACG 2021 and ECO 2023 and sophomore standing).
Attributes: Artificial Intelligence

GEO 2351 Geographical Sciences and Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines the most critical environmental issues facing the world today; emphasizes the sustainability of both human and physical systems in the 21st century utilizing cutting-edge geographic technologies: spatial analysis, GIS, and satellite imagery.
Prerequisite: any Biological Sciences or Physical Sciences General Education course.
Attributes: Artificial Intelligence

GEO 4167C Intermediate Quantitative Analysis for Geographers 3 Credits
Grading Scheme: Letter Grade
Surveys various multivariate techniques commonly used to analyze geographic data. Emphasis on hypothesis testing, inference, multiple regression, analysis of variance and cluster analysis. Introduces time-series regression and grouped estimation procedures, factor analysis, probit/logit modeling and trend-surface interpolation. (WR)
Prerequisite: GEO 3162C or the equivalent.
Attributes: Artificial Intelligence, Satisfies 6000 Words of Writing Requirement

GIS 2002 The Digital Earth 3 Credits
Grading Scheme: Letter Grade
Focuses on how the Earth's surface is visualized, explored, and analyzed in digital formats (e.g. maps, satellite images, aerial photos). Provides an introduction to fundamental concepts of digital geographic data to understand the Earth environment and human society based on the vast quantities of geographic information in our ever-changing world.
Attributes: Artificial Intelligence

GIS 3043 Foundations of Geographic Information Systems 4 Credits
Grading Scheme: Letter Grade
Geographic Information Systems (GIS) as the technology for creation, modification, display, and analysis of spatial information. Develops knowledge of GIS, competence in geographic databases, and familiarity with computer software and hardware.
Prerequisite: Sophomore standing or higher.
Attributes: Artificial Intelligence

GIS 4037 Digital Image Processing 4 Credits
Grading Scheme: Letter Grade
Introduces the theory and application of digital imagery data in geographical research with a hands-on, lab-based approach.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

GIS 4102C GIS Programming 3 Credits
Grading Scheme: Letter Grade
Introduces basic programming concepts; instruction in popular programming languages for geospatial processing, applications, and modeling in ArcGIS environment.
Prerequisite: GIS 3043C or equivalent.
Attributes: Artificial Intelligence

GIS 4113 Introduction to Spatial Networks 3 Credits
Grading Scheme: Letter Grade
Many phenomena of interest in physical, social and cyber environments can be thought of as networks within geographic context. Teaches methods for analyzing these spatial networks, and introduces their applications in geography, transportation, hydrology, epidemiology, social science, etc.
Prerequisite: Entry level knowledge of statistics or instructor permission. Prior experience with ArcGIS is preferred.
Attributes: Artificial Intelligence

HFT 4442 Artificial Intelligence Revolutions and Applications in Tourism, Hospitality, and Events 3 Credits
Grading Scheme: Letter Grade
Foundational examination of the implications of the artificial intelligence revolution in the tourism, hospitality, and event industry. Includes analyses of AI applications in booking, transportation, theme parks, destination and attraction marketing, economic, social, cultural, and environmental impacts, as well as motivators to travel.
Prerequisite: Junior or Senior Standing.
Attributes: Artificial Intelligence

HUN 4446 Nutrition and Disease: Part 2 3 Credits
Grading Scheme: Letter Grade
Part two of the sequence that focuses on the biochemical and pathophysiological bases of disease/conditions that require specialized nutrition support/medical nutrition therapy.
Prerequisite: HUN 4445 and (BCH 3025 or BCH 4024) and (PCB 4723C or APK 2105C).
Corequisite: DIE 4246.
Attributes: Artificial Intelligence

HUN 4813C Laboratory Techniques in Molecular Nutrition 3 Credits
Grading Scheme: Letter Grade
Laboratory techniques relevant to the study of nutrition, ranging from biochemistry, molecular biology, genomics and bioinformatics.
Prerequisite: CHM 2211 and CHM 2211L;
Corequisite: BCH 3025 or BCH 4024.
Attributes: Artificial Intelligence

IDS 2935 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Introduces selected interdisciplinary topics. Content varies from term to term.

AI Policy and Policies, and Policing | 3 credits
Robots: Threat or Opportunity | 3 credits
Finding your Voice Era of AI | 3 credits

ISM 3004 Computing in the Business Environment 4 Credits
Grading Scheme: Letter Grade
Presents fundamental concepts from two perspectives: the individual business computer user and the corporate business computing environment. Introduces common business computing applications; this is not a hands on applications training course. Students use their existing computer skills to complete assignments.
Prerequisite: basic skills for Microsoft Word, PowerPoint, and Excel.
Attributes: Artificial Intelligence

ISM 3013 Introduction to Information Systems 4 Credits
Grading Scheme: Letter Grade
Introduces the role of information systems and technology in an organization with a focus on the use of Access and Excel to solve business problems. Receive the knowledge necessary to earn Microsoft certifications in Access and Excel.
Prerequisite: MAC 2311 or MAC 2233, and sophomore standing.
Attributes: Artificial Intelligence

JOU 3365 Artificial Intelligence in Media and Society 3 Credits
Grading Scheme: Letter Grade
Gain an understanding of artificial intelligence as it applies to the media professions, including journalists reporting on AI. Explore developments in AI technologies as covered by the mass media. Learn to detect exaggeration in descriptions of AI's promise and potential risks and dangers.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

LAA 1330 Site Analysis 3 Credits
Grading Scheme: Letter Grade
Inventory, analysis and evaluation of site development procedures; emphasis on landscape ecology.
Attributes: Artificial Intelligence

MAN 4504 Operations and Supply Chain Management 4 Credits
Grading Scheme: Letter Grade
Managerial concepts and quantitative tools required in the design, operation, and control of production systems and their relationship to business functions.
Prerequisite: BUL 4310 and FIN 3403 and GEB 3373 and MAC 2233 or MAC 2311 and MAN 3025 and MAR 3023 and QMB 3250 and STA 2023 and (Business major or Accounting major)
Attributes: Artificial Intelligence

MET 4410 Radar and Satellite Meteorology 3 Credits
Grading Scheme: Letter Grade
Overview of radar and satellite remote sensing as used in the atmospheric sciences, including the principles of atmospheric radiative transfer, the retrieval of atmospheric variables, and emphasis on geospatial interpretation of imagery for different weather systems.
Prerequisite: PHY 2049 and MET 3503.
Attributes: Artificial Intelligence

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

PCB 2441 Biological Invaders 3 Credits
Grading Scheme: Letter Grade
This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena using an introduction to plants and animals that are invading Florida and the U.S.; learning why biological invaders are second only to habitat destruction as threatens to natural ecosystems; what makes some species invasive; how to control or prevent invasions; where international commerce may be regulated; and who is affected by such issues. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Artificial Intelligence, General Education - Biological Science

PHC 3793 Higher Thinking for Healthy Humans: AI in Healthcare and Public Health 3 Credits
Grading Scheme: Letter Grade
Covers history, foundational concepts, and methods on Artificial Intelligence (AI), focusing on public health and healthcare applications, including hands-on practice on graphical/high-level AI software. Doesn't include advanced statistical/machine learning training or programming.
Prerequisite: STA 2023 or equivalent.
Attributes: Artificial Intelligence

PHI 3681 Ethics, Data, and Technology 3 Credits
Grading Scheme: Letter Grade
Addresses ethical issues related to data science, algorithmic decision-making, and artificial intelligence. Pairs theoretical discussions of ethics, economics, and policy-making with concrete issues in emerging technologies.
Prerequisite: Sophomore standing or higher or (PHI 2010 or PHI 2100 or PHI 2630, with a minimum grade of C) or (philosophy major or minor) or data science major.
Attributes: Artificial Intelligence

PLS 3223 Plant Propagation 2 Credits
Grading Scheme: Letter Grade
Principles, practices and physiological aspects of the propagation of horticultural and agronomic crops by cuttage, graftage, seedage, micropropagation and other methods.
Prerequisite: BOT 2010C or BSC 2010;
Corequisite: PLS 3223L.
Attributes: Artificial Intelligence

PLS 3223L Plant Propagation Laboratory 1 Credit
Grading Scheme: Letter Grade
Methods of propagating by seeds, bulbs, divisions, layering, cuttings, budding, grafting and micropropagation in a hands-on environment.
Prerequisite: BOT 2010C or BSC 2010.
Attributes: Artificial Intelligence

PSB 4342 Introduction to Cognitive Neuroscience 3 Credits
Grading Scheme: Letter Grade
The biological foundations of human cognition.
Prerequisite: PSB 3340 or instructor permission.
Attributes: Artificial Intelligence

QMB 3250 Statistics for Business Decisions 4 Credits
Grading Scheme: Letter Grade
Correlation and linear regression, model building, multiple regression, analysis of variance, time series analysis and decision analysis. Regression modeling with computer applications for business problems.
Prerequisite: STA 2023. Open only to students who need this course for their major or who have permission from the WCBA.
Attributes: Artificial Intelligence

QMB 3302 Foundations of Business Analytics and Artificial Intelligence (AI) 4 Credits
Grading Scheme: Letter Grade
Introduces the basics of data analytics and machine learning using the powerful programming language Python. Learn Python basics, how to write programs, and how to use Python to solve real-world problems.
Prerequisite: MAC 2233 OR MAC 2311.
Attributes: Artificial Intelligence

QMB 4701 Managerial Operations Analysis 1 2 Credits
Grading Scheme: Letter Grade
Introduces the concepts and applications of management science; become more confident in understanding and using deterministic analytic models.
Prerequisite: MAC 2233 and STA 2023.
Attributes: Artificial Intelligence

QMB 4702 Managerial Operations Analysis 2 2 Credits
Grading Scheme: Letter Grade
Overview of stochastic applications of management science; learn stochastic modeling techniques and introductory visual basic.
Prerequisite: QMB 4701.
Attributes: Artificial Intelligence

RTV 4700 Media Law and Policy 3 Credits
Grading Scheme: Letter Grade
Introduction to the laws and regulations affecting the past, present, and future of communication technology, emphasizing free expression, privacy, defamation and intellectual property.
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3001 with minimum grade of C.
Attributes: Artificial Intelligence

WIS 4570C Wildlife Behavior and Conservation 3 Credits
Grading Scheme: Letter Grade
Concise, current, and thorough grounding to the field (theory, practice, and relevance) of animal behavior, with a strong focus on applications of wildlife behavior to achieve successful wildlife conservation gains.
Prerequisite: BSC 2010
Attributes: Artificial Intelligence

WST 4002 Data Feminisms 3 Credits
Grading Scheme: Letter Grade
Draws from critical data and algorithm studies and feminist science and technology studies to develop critical tools of inquiry needed to approach data within a context of racialized, gendered, colonial, and classed systems of power. Combines practical data workshops with critical readings to analyze data across key uses in domains such as healthcare, security apparatuses, carceral systems, and digital infrastructures.
Prerequisite: Sophomore standing or higher.
Attributes: Ethical-AI

Center for Latin-American Studies

Founded in 1930, the Center for Latin American Studies aims to advance knowledge about Latin America and the Caribbean and to enhance the scope and quality of Latin American studies at the University of Florida.

More Info (http://www.latam.ufl.edu/)

Academic Advising
Grinter Hall, Room 319
352.392.0375

The Center

- Offers interdisciplinary academic programs in Latin American studies
- Conducts outreach activities that enrich the intellectual and cultural lives of UF students, faculty and staff, and the local community (e.g., Annual Conference, Colloquium, Latino Film Series, Latin Americanist newsletter, educational K-12 outreach services)
- Cooperates with other university units in overseas study, research, and training programs

Most of these programs are open to undergraduates.

The center has a director and 20 core faculty members with expertise in the humanities, social sciences, and natural sciences. In addition, the center draws on the expertise of more than 160 distinguished faculty affiliates from colleges and professional schools across campus. These faculty teach more than 375 undergraduate and graduate courses available to undergraduates in Latin American and Caribbean studies.

Academic Programs

The Center for Latin American Studies offers a minor (p. 1522) and a certificate (p. 1520) for undergraduates who are interested in Latin America or the Caribbean and who intend to pursue graduate studies or a career in Latin American or Caribbean-related business, government service or teaching. An interdisciplinary studies (IDS) major in Latin American studies is available through the College of Liberal Arts and Sciences.

The minor requires 15 credits of courses outside the student's department major's courses, and it will appear on the student's transcript. The certificate in LAS is awarded by the center to acknowledge a Latin American or Caribbean-area concentration within the student's major and general course of study. All coursework on Latin America and related fields, including several courses in the student's major or minor may count toward the certificate, and a student can receive both a minor and a certificate in Latin American Studies.

For more information, refer to Center for Latin American Studies (http://www.latam.ufl.edu/), Grinter Hall (http://campusmap.ufl.edu/?loc=0002), Room 319, 352.392.0375, ext. 807. Students interested in the minor, certificate or major should contact the center's undergraduate advisor. Email (rfbrown@latam.ufl.edu).

Study Abroad in Latin America

Candidates for both the minor and the certificate are encouraged to spend a summer, a semester or an academic year studying in a Latin American country. UF sponsors study abroad programs for undergraduates in several Latin American countries in a variety of disciplines and lengths. Options include study tours of one to two weeks, summer programs of six weeks and semester-length exchanges during fall or spring. UF programs are currently available in Brazil, Costa Rica, Chile, Mexico, Nicaragua and Peru. Students in almost any major can find a program that will fit their interests.

Courses taken in UF-sponsored study abroad programs can count toward the minor or certificate in Latin American studies. Credits obtained from study abroad programs sponsored by other institutions and transferred to UF may be applied to the minor or certificate with prior approval from the UF international Center (UFIC), the student's major department, and the undergraduate advisor at the Center for Latin American Studies.

For further information on study abroad opportunities, contact Study Abroad Services at the UF International Center.

Dentistry, College of

The University of Florida College of Dentistry is a leader in dental education, research, patient care and service, featuring a nationally ranked research enterprise, all clinical ADA-recognized dental specialty programs or clinics, and a recipient of the Higher Education Excellence in Diversity Award for eight consecutive years. The college is located on the University of Florida campus within an academic health center which includes a major

teaching hospital and five other health colleges. The University of Florida and the College of Dentistry offer rich educational and cultural opportunities, nationally ranked sports teams, and everything a large university system has to offer in a diverse and humanistic environment.

Gainesville, FL 32610-0445

Admissions (http://admissions.dental.ufl.edu/)

The college educates the state's future dentists and dental specialists through 16 degree and certificate programs. Each year, a new class of 93 DMD students who are among the top predental students in the nation are admitted.

The college is Florida's only public dental school and one of the top dental institutions in the country. It has a statewide network for community oral health with four UF-owned dental centers and 11 partnership centers located throughout Florida. The college provides training opportunities for students and residents while providing dental care to Florida residents, many of whom are underserved and lack access to dental care.

The UF College of Dentistry is housed in the Dental Sciences Building located on the UF Academic Health Center campus. The Academic Health Center includes five additional colleges – Medicine, Public Health and Health Professions, Nursing, Pharmacy, and Veterinary Medicine – and is adjacent to one of the university's affiliated private, tax-exempt teaching hospitals, UF Health Shands in Gainesville.

Undergraduate Preparation

The College of Dentistry seeks students of the highest caliber for its many programs. A strong record of scholastic achievement, high moral character and strong motivation is expected of the applicant. Because of the vast amount of science that must be mastered by the dentist, a dental student must have aptitude and adequate academic preparation in the sciences. The highly personal relationship between patient and dentist places the latter in a position of trust, which demands maturity, integrity, intellectual honesty and responsibility.

Preprofessional students can major in any department or college of the university; however, an in-depth background in biological sciences is necessary to master the dental curriculum. The Pre-Health Advising Team in the UF Academic Advising Center offers information and resources to help students prepare for admission to a professional program in dentistry.
More Info (https://www.advising.ufl.edu/pre-health/)

General education requirements for admission to the College of Dentistry are fully described in the dentistry catalog. Registration in dentistry (DEN) courses is restricted to students admitted to the College of Dentistry with 0DN to 8DN classifications.

The application process (http://admissions.dental.ufl.edu/d-m-d/ufcd-requirements/applicants/) is described on the college website or students can email (DMDAdmissions@dental.ufl.edu) the admissions office.

Programs

Doctoral Program in General Dentistry

The Doctor of Dental Medicine (DMD) program is a four-year doctorate program in general dentistry.
More Info (https://admissions.dental.ufl.edu/d-m-d/)

Combination Program for Undergraduate Students

The combination BS/DMD program allows the student to complete both the BS and DMD degrees in seven years instead of eight. Students submit applications at the conclusion of their freshman year at UF. Accepted students enroll in a carefully sequenced series of courses that meet both baccalaureate degree requirements and the College of Dentistry's admissions requirements. The student completes three years of undergraduate work before transferring to the first year of dental school. The BS degree is awarded at the end of the first year of dental school. This program is jointly offered with the College of Agricultural and Life Sciences.

More Info (https://admissions.dental.ufl.edu/d-m-d/combined-programs/b-s-d-m-d/)

Combination Programs for Dental Students

The College of Dentistry offers an integrated dental and graduate research training program culminating in the awarding of both a DMD and a PhD in Biomedical Sciences. The combination DMD/PhD program is offered in collaboration with the College of Medicine Interdisciplinary Program in Biomedical Sciences and prepares students for a career in the dental academic setting using skills acquired in clinical practice and clinical education as well as basic or translational research. This program will typically take 7-8 years to complete.
More Info (https://research.dental.ufl.edu/student-resource/dmd-phd-program/)

Advanced and Graduate Programs

The College of Dentistry also offers four Master of Science in Dental Science (MS) degree programs as well as several Advanced Education Programs resulting in certificates of completion.
More Info (https://admissions.dental.ufl.edu/advanced-graduate-programs/)

In conjunction with the College of Medicine, the College of Dentistry offers a six-year program that awards an MD degree and a certificate of completion in Oral and Maxillofacial Surgery.

DMD Program Highlights

Established in 1972, the University of Florida College of Dentistry is the only publicly-funded dental school in the state and ranks as a national leader in dental education, research, and community service.

- Commitment to diversity in identity, thought, and experience (https://admissions.dental.ufl.edu/2020/04/20/commitment-to-diversity/)
- Top 5 nationally-ranked research enterprise (https://admissions.dental.ufl.edu/2018/05/10/top-10-research/)
- Statewide network of clinics (https://admissions.dental.ufl.edu/2018/05/07/statewide-network/)

Accounting | Fisher School of

Accounting at UF traces its roots back to 1923 when the first accounting course was offered. In 1977, the School of Accounting was established as an experimental model for six years. In 1983, the UF Faculty Senate voted to make the School permanent. In 1985, the School was renamed the Fisher School of Accounting after a generous donation from 1959 alumnus Fred Fisher. Today, the Fisher School has cultivated a distinctive identity at the University of Florida and among the nation's top business programs.

Anthropology

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural, archaeological, biological and linguistic anthropology.

Chemical Engineering

As Chemical Engineers, the career options for students will be diverse and exciting. Students will develop the skills needed to design processes to produce anything made by chemical or biological means, including consumer products, food and beverages, pharmaceuticals, specialty chemicals, semiconductors, biomaterials, pulp and paper, polymers, and more. Chemical Engineers use their knowledge of all branches of science and mathematics (not just chemistry) to solve problems at a variety of scales—from developing materials with features at the nanoscale all the way to designing a 250-foot-tall distillation tower and everything in between.

Economics

The Department of Economics offers a vibrant undergraduate curriculum. Students enjoy close and meaningful interactions with the faculty through rigorous and engaging courses. A diverse menu of elective courses covers exciting and relevant topics like growth and development, international trade and finance, public policy analysis and evaluation, and strategic business decisions. Students are strongly encouraged to pursue outside-of-the-classroom learning through internships and study abroad.

English

The Department of English fosters a dynamic nexus of critical thinking, writing, and making. English offers students innovative opportunities for individual and collaborative learning through BA, MFA, and PhD programs. Students work with a variety of materials, including: global Anglophone literature, African American literature, children's literature, comics, critical theory, digital modes, film and media. In-house journals and media reflect the scholarly, creative, and interdisciplinary work done by the department. Active across campus through its affiliations, English produces next-generation arts and humanities.

Environmental Engineering Sciences
The broad undergraduate environmental engineering curriculum of EES has earned the department a ranking as a leading undergraduate program. The ABET-accredited engineering bachelor's degree is comprehensively based on physical, chemical, and biological principles to solve environmental problems affecting air, land, and water resources. An advising scheme including select faculty, led by the undergraduate coordinator, guides each student through the program.

- Nuclear Engineering

Mathematics

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

Mechanical & Aerospace Engineering

The Department of Mechanical & Aerospace Engineering (MAE) graduates many exceptional mechanical and aerospace engineers each year. The Mechanical Engineering program celebrated its 100 year anniversary in 2009 and is one of the founding departments of the Herbert Wertheim College of Engineering. Starting within mechanical as an aeronautical option, the Aeronautical Engineering program was founded in 1946. It grew to become the Aerospace Engineering program, which merged with Engineering Science and Mechanics in 1969. All these programs united (or reunited) in 2002. Going strong into the 21st century, MAE remains a vibrant and intellectually diverse program at both the undergraduate and graduate levels.

General Education (Gen Ed) | UF Quest

The General Education Program (Gen Ed) supports the mission of the University of Florida by providing undergraduate students with common collective knowledge about the world in which they live. The curriculum enables students to think creatively, reason critically, communicate effectively, and make informed decisions that affect all aspects of their lives.
More Info (http://undergrad.aa.ufl.edu/general-education/)

Through General Education courses, students gain fresh perspectives and discover new approaches to intellectual inquiry that promote understanding of both the traditional and the newly discovered. To achieve these outcomes, the General Education curriculum encompasses a breadth of knowledge in composition, humanities, international studies, mathematics, biological, physical, and social and behavioral sciences.

Ultimately, competence in these areas enables students to better understand themselves, their neighbors, other cultures and times, and the principles governing the natural world and the universe; and to participate fully and responsibly as informed citizens in local, national, and global matters.

General Education Categories

The General Education curriculum is organized around eight major subject areas.
More Info (http://undergrad.aa.ufl.edu/general-education/gen-ed-program/)

- Biological Sciences
- Composition
- Humanities
- International
- Mathematics
- Physical Sciences
- Social and Behavioral Sciences

General Education Program Requirements

All undergraduate students, except those transferring to UF with an AA degree from a Florida public college or an AA certificate from a Florida public state university, are required to complete UF's General Education requirement to graduate.
More Info (http://undergrad.aa.ufl.edu/general-education/gen-ed-program/program-requirements/)

Subject Area	State Core	Gen Ed Courses	Totals
Biological and Physical Sciences[1]	3	3	6
Composition	3	3	6
Humanities[1]	3	3	6
Social and Behavioral Science[1]	3	3	6
Mathematics[2]	3	3	6
Additional Required Gen Ed Coursework (Humanities, Social Science, or Natural Science)[3]		6	6
OVERALL TOTALS	15	21	36

1 Student may select a General Education course in the Humanities that features the UF Quest 1 subject area for 3 credits, a General Education course in the Social and Behavioral Science or Natural Science that features the UF Quest 2 subject area for 3 credits, and/or a General Education course that features the International subject area for 3 credits.

2 Three credits must be from a General Education Mathematics course with a prefix of MAC, MAP, MAS, MGF, or MHF (aka 'pure math).

3 Majors that feature extensive use of these subject areas may require a student to complete all 6 Additional Required Gen Ed Coursework credits in a particular subject area. See the major's Recommended Model Semester Plan for details.

Important Considerations

- A minimum grade of C is required for General Education credit. Courses intended to satisfy the general education requirement cannot be taken S/U.
- Some majors require or recommend specific General Education courses.
- Certain courses are approved to count for multiple General Education program areas. Students can count a General Education course toward one area only except for International credits, which must be earned concurrently with another area. For example, a course designated as Humanities/International can count toward both the Humanities and International requirements, but a course designated Composition/Humanities can count only as Composition or Humanities.
- Study abroad courses can fulfill International credit, in addition to fulfilling credit in other subject areas. Study abroad must be approved in advance by an academic advisor and the UF International Center.

Successful completion of these requirements will result in the student learning outcomes.

Selecting General Education Courses

Students can take Gen Ed courses at the 1000-4000 levels. First-year students generally take introductory (1000/2000-level) courses. If a student has the academic background and the interest they may take more advanced courses, but they should first check the course prerequisites or consult an academic advisor.

Applying Incoming Credits to General Education

AP, IB, AICE, and CLEP credit count toward completion of the General Education program requirements. In general, course equivalencies are derived from the course equivalency charts from the student's year of matriculation at UF.
More Info (p. 1872)

Acceptable dual enrollment and other transfer credit will fulfill the General Education requirements that the same UF course fulfills if the course is equivalent. Courses from Florida public colleges and State University System schools generally adhere to the Statewide Course Numbering System. If the prefix (first three letters) and the last three digits of the course number are the same, then the course is considered equivalent.

If the course does not have a common-numbered equivalent at UF, either because UF does not offer the course or because the transferred course was not taken in the state system, then the student's college needs to evaluate the course to determine whether it fulfills a General Education requirement.
More Info (p. 1872)

Objectives and Outcomes

Subject Area Objectives

More Info (http://undergrad.aa.ufl.edu/general-education/gen-ed-program/subject-area-objectives/)

Biological Sciences

Biological Science courses provide instruction in the basic concepts, theories and terms of the scientific method in the context of the life sciences. Courses focus on major scientific developments and their impacts on society, science and the environment, and the relevant processes that govern biological systems. Students will formulate empirically-testable hypotheses derived from the study of living things, apply logical reasoning skills through scientific criticism and argument, and apply techniques of discovery and critical thinking to evaluate outcomes of experiments.

Composition

Communication courses must afford students the ability to communicate effectively, including the ability to write clearly and engage in public speaking.

Composition (C) is a sub-designation of Communication at the University of Florida.

Composition courses provide instruction in the methods and conventions of standard written English (i.e. grammar, punctuation, usage) and the techniques that produce effective texts. Composition courses are writing intensive, require multiple drafts submitted to the instructor for feedback prior to final submission, and fulfill 6,000 of the university's 24,000-word writing requirement. Course content must include multiple forms of effective writing, different writing styles, approaches and formats, and methods to adapt writing to different audiences, purposes and contexts. Students are expected learn to organize complex arguments in writing using thesis statements, claims and evidence, and to analyze writing for errors in logic.

Humanities

Humanities courses must afford students the ability to think critically through the mastering of subjects concerned with human culture, especially literature, history, art, music, and philosophy, and must include selections from the Western canon

Humanities courses provide instruction in the history, key themes, principles, terminology, and theory or methodologies used within a humanities discipline or the humanities in general. Students will learn to identify and to analyze the key elements, biases and influences that shape thought. These courses emphasize clear and effective analysis and approach issues and problems from multiple perspectives.

International

International courses promote the development of students' global and intercultural awareness. Students examine the cultural, economic, geographic, historical, political, and social experiences and processes that characterize the contemporary world, and thereby comprehend the trends, challenges, and opportunities that affect communities around the world. Students analyze and reflect on the ways in which cultural, economic, political, and social systems and beliefs mediate their own and other people's understanding of an increasingly connected world.

The International designation is always in conjunction with another program area.

Mathematics

Courses in Mathematics provide instruction in computational strategies in fundamental mathematics including at least one of the following: solving equations and inequalities, logic, statistics, algebra, trigonometry, and inductive and deductive reasoning. These courses include reasoning in abstract mathematical systems, formulating mathematical models and arguments, using mathematical models to solve problems and applying mathematical concepts effectively to real-world situations.

Physical Sciences

Physical Science courses provide instruction in the basic concepts, theories, and terms of the scientific method in the context of the Physical Sciences. Courses focus on major scientific developments and their impacts on society, science, and the environment, and the relevant processes that govern physical systems. Students will formulate empirically-testable hypotheses derived from the study of physical processes, apply logical reasoning skills through scientific criticism and argument, and apply techniques of discovery and critical thinking to evaluate outcomes of experiments.

Social and Behavioral Sciences

Social and Behavioral Science courses provide instruction in the history, key themes, principles, terminology, and underlying theory or methodologies used in the social and behavioral sciences. Students will learn to identify, describe and explain social institutions, structures or processes. These courses emphasize the effective application of accepted problem-solving techniques. Students will apply formal and informal qualitative or quantitative analysis to examine the processes and means by which individuals make personal and group decisions, as well as the evaluation of opinions, outcomes or human behavior. Students are expected to assess and analyze ethical perspectives in individual and societal decisions.

Student Learning Outcomes | SLOs

Content and Skills

Content

Students demonstrate competence in the terminology, concepts, theories, and methodologies used within the discipline.

Communication

Students communicate knowledge, ideas, and reasoning clearly and effectively in written and oral forms appropriate to the discipline.

Critical Thinking

Students analyze information carefully and logically from multiple perspectives, using discipline-specific methods, and develop reasoned solutions to problems.

State Core Gen Ed Biological and Physical Sciences Courses

BSC X085 not offered at UF but may be transferred in from a Florida public institution.

Code	Title	Credits
AST 1002	Discovering the Universe (Physical Sciences)	3
AST 3018	Astronomy and Astrophysics 1 (Physical Sciences)	3
AST 3019	Astronomy and Astrophysics 2 (Physical Sciences)	3
BOT 2011C	Plant Diversity (Biological Sciences)	4
BSC 2005	Biological Sciences (Biological Sciences)	3
BSC 2010	Integrated Principles of Biology 1 (Biological Sciences)	3
CHM 1020	Chemistry for the Liberal Arts (Physical Sciences)	3
CHM 2045	General Chemistry 1 (Physical Sciences)	3
CHM 2046	General Chemistry 2 (Physical Sciences)	3
CHM 2051	Honors General Chemistry 2 (Physical Sciences)	3
CHM 2096	Applied General Chemistry 2 (Physical Sciences)	3
ESC 1000	Introduction to Earth Sciences (Physical Sciences)	3
EVR 2001	Introduction to Environmental Science (Biological or Physical Sciences, also International)	3
GLY 2010C	Physical Geology	4
OCE 1001	Introduction to Oceanography	3
PHY 2020	Introduction to Principles of Physics (Physical Sciences)	3
PHY 2048	Physics with Calculus 1 (Physical Sciences)	3
PHY 2049	Physics with Calculus 2 (Physical Sciences)	3
PHY 2053	Physics 1 (Physical Sciences)	4
PHY 2054	Physics 2 (Physical Sciences)	4

State Core Gen Ed Composition Courses

Code	Title	Credits
ENC 1101	Expository and Argumentative Writing	3
ENC 1102	Argument and Persuasion	3
ENC 1145	Topics for Composition	3
ENC 2210	Technical Writing	3
ENC 2305	Analytical Writing and Thinking	3
ENC 3246	Professional Communication for Engineers	3
ENC 2256	Writing in the Disciplines	3
ENC 3453	Writing in the Health Professions	3
ENC 3459	Writing in the Medical Sciences	3
ENC 3464	Writing in the Social Sciences	3
ENC 3465	Writing in the Law	3

State Core Gen Ed Mathematics Courses

All are pure math except for STA 2023.

Code	Title	Credits
MAC 1105	Basic College Algebra	3
MAC 1140	Precalculus Algebra	3
MAC 1147	Algebra and Trigonometry	4
MAC 2233	Survey of Calculus 1	3
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MGF 1106	Mathematics for Liberal Arts Majors 1	3
MGF 1107	Mathematics for Liberal Arts Majors 2	3
STA 2023	Introduction to Statistics 1	3

State Core Gen Ed Humanities Courses

HUM X020 not offered at UF but may be transferred in from a Florida public institution.

Code	Title	Credits
ARH 2000	Art Appreciation: American Diversity and Global Arts	3
LIT 2000	Introduction to Literature	3
MUL 2010	Experiencing Music (also Gen Ed International)	3
PHI 2010	Introduction to Philosophy	3
THE 2000	Theatre Appreciation	3

State Core Gen Ed Social and Behavioral Courses

Code	Title	Credits
AMH 2010	United States to 1877	3
AMH 2020	United States Since 1877	3
ANT 2000	General Anthropology	3
ECO 2013	Principles of Macroeconomics	4
POS 2041	American Federal Government	3
PSY 2012	General Psychology	3

UF Quest

UF Quest 1 Requirement

UF Quest 1 courses fulfill the UF Quest 1 requirement. Many of these courses also fulfill three credits of the General Education requirement in the Humanities. Some may also fulfill three credits of the International requirement and/or count toward the Writing Requirement.

UF Quest 1 courses extend beyond any one discipline. They are not a survey of or an introduction to a field. Instead, they are topical and thematic courses that explore essential questions about the human condition that are not easy to answer and hard to ignore. What makes life worth living? What makes a society a fair one? How do we manage conflicts? Who are we in relation to other people or to the natural world? Through UF Quest, students examine why the world is the way it is, what they can do about it, and how they can help solve the problems that are now confronting us. More Info (http://undergrad.aa.ufl.edu/uf-quest/students/)

Selecting UF Quest 1 Courses

- A list of UF Quest 1 courses is provided on the UF Quest website (http://undergrad.aa.ufl.edu/uf-quest/students/quest-courses/).
- In the catalog course search (https://catalog.ufl.edu/course-search/), select Quest 1 in the search results filter.
- On ONE.UF (https://one.uf.edu/), select Quest 1 in the Course Properties filter and then click Search.

UF Quest 1 Objectives

Quest 1 courses address the history, key themes, principles, terminologies, theories, or methodologies of various arts and humanities disciplines that ask essential questions about the human condition. Students learn to identify and analyze the distinctive elements of different arts and humanities disciplines, along with their biases and influences on essential questions about the human condition. These courses emphasize clear and effective analysis and evaluation of essential questions about the human condition from multiple perspectives. Students reflect on the ways in which the arts and the humanities affect individuals, societies, and their own intellectual, personal, and professional development.

UF Quest 1 Student Learning Outcomes

Content

Identify, describe, and explain the history, theories, and methodologies used to examine essential questions about the human condition within and across the arts and humanities disciplines incorporated into the course.

Critical Thinking
Analyze and evaluate essential questions about the human condition using established practices appropriate for the arts and humanities disciplines incorporated into the course.

Communication
Develop and present clear and effective responses to essential questions in oral and written forms as appropriate to the relevant humanities disciplines incorporated into the course.

Connection
Connect course content with critical reflection on their intellectual, personal, and professional development at UF and beyond.

UF Quest 2 Requirement

UF Quest 2 courses fulfill the UF Quest 2 requirement. Many of these courses also fulfill three credits of the General Education requirement in the Social and Behavioral Sciences, the Biological Sciences, or the Physical Sciences. Some may also fulfill three credits of the International requirement and/or count toward the Writing Requirement.

Where Quest 1 asks why the world is the way it is, Quest 2 asks what we can do about the problems confronting us. Rather than serve as surveys of or introductions to specific fields, Quest 2 courses reflect the instructor's expertise and challenge students as co-creators of knowledge in multi-disciplinary inquiry that uses scientific data to address pressing questions (e.g., What are the unintended consequences of technological progress? How do we address climate change?).
More Info (http://undergrad.aa.ufl.edu/uf-quest/students/)

Selecting UF Quest 2 Courses

- A list of UF Quest 2 courses is provided on the UF Quest website (http://undergrad.aa.ufl.edu/uf-quest/students/quest-courses/).
- In the catalog course search (https://catalog.ufl.edu/course-search/), select Quest 2 in the search results filter.
- On ONE.UF (https://one.uf.edu/), select Quest 2 in the Course Properties filter and then click Search.

UF Quest 2 Objectives

Quest 2 courses provide instruction in the history, key themes, principles, terminologies, theories, or methodologies of various social or biophysical science disciplines that enable us to address pressing questions and challenges about human society and/or the state of our planet. Students learn to identify and analyze different social or biophysical science methods and theories and consider how their biases and influences shape pressing questions about human society and the state of our planet. These courses emphasize clear and effective analysis and evaluation of qualitative or quantitative data relevant to pressing questions concerning human society and the state of our planet. Students reflect on the ways in which the social or the biophysical sciences affect individuals, societies, and their own intellectual, personal, and professional development.

UF Quest 2 Student Learning Outcomes

Content
Identify, describe, and explain the cross-disciplinary dimensions of a pressing societal issue or challenge as represented by the social sciences and/or biophysical sciences incorporated into the course.

Critical Thinking
Critically analyze quantitative or qualitative data appropriate for informing an approach, policy, or praxis that addresses some dimension of an important societal issue or challenge.

Communication
Develop and present clear and effective responses to essential questions in oral and written forms as appropriate to the relevant humanities disciplines incorporated into the course.

Connection
Connect course content with critical reflection on their intellectual, personal, and professional development at UF and beyond.

Innovation Academy

The University of Florida Innovation Academy (IA) was developed to equip students with the 21st-century skills needed to thrive in an innovative culture. IA is an undergraduate Spring/Summer program that teaches innovation through an Innovation minor embedded in many majors across seven colleges, and offers vast co-curricular experiences which include a living-learning community.

Employers, thinkers, and leaders must evolve rapidly to keep up with the ever-changing international community. The modern job market seeks interdisciplinary individuals that welcome change, embrace creativity, and venture into the unknown. Our quality of life, economic growth, and access to affordable technology depend on our commitment to innovation.

Students select from over 30 UF majors and earn their degree with a minor in Innovation. The IA academic calendar operates on a Spring-Summer schedule, providing students the opportunity to enjoy Fall co-curricular activities, pursue internships, study abroad, or enjoy the break at home.

Innovation Minor

The exclusive minor curriculum focuses on entrepreneurship, design, creativity, collaboration, leadership, ethics, prototyping, and innovation. Learn strategic risk-taking, experiment with rapid prototyping, collaborate with experts and peers, and earn a competitive edge in your career.

Creativity

These courses examine the dynamics of creativity, discovery, and invention across disciplines. Students learn problem identifying and solving skill through design thinking.

Ethics

Course provides a grounding in ethical theory and practice, in careful reasoning about moral issues, with a focus on changes and their consequences.

Entrepreneurship

Courses teach entrepreneurial thought and action that students can utilize in starting companies or executing R&D projects in large companies.

Leadership

Students develop the skills and knowledge necessary to move an innovation from creation to implementation.

Admissions

Freshmen

The Innovation Academy (IA) seeks to admit a highly motivated and academically superior incoming class. IA facilitates participation in focused interactions and small group experiences that explore the dimensions of innovation, creativity, entrepreneurship, ethics, and leadership.

Application Process

Any prospective UF freshman can apply to the Innovation Academy Program as part of the University of Florida application. To apply to the Innovation Academy, freshman applicants should indicate interest in the Innovation Academy on their UF undergraduate admissions application. There is also an additional short essay on the UF application for students interested in IA.
More Info (https://admissions.ufl.edu/apply/freshman/)

Please note that the decision to apply or not apply for UF IA has no impact on the general UF admissions decision.

The Office of Admissions considers all applicants for the IA admission, Summer B admission and Fall admission. After their admission decisions are made, the Office of Admissions makes only one offer for the student to accept: IA, Summer B, or Fall.

Please visit the Office of Admissions (http://www.admissions.ufl.edu/) for more information for students interested in applying to UF and being part of the Innovation Academy. Prospective students may also benefit from reading through the FAQs.

When to Apply

To apply to the Innovation Academy, freshman applicants should indicate interest in the Innovation Academy on their UF undergraduate admissions application. There is an additional short essay on the UF application for students interested in IA. Even though IA students officially start in the Spring, they still need to complete the UF application on the same schedule as students applying for UF's standard Fall/Spring program. Freshman applications for the University of Florida are available online beginning in August and are typically due November 1.

Students are encouraged to apply as early as possible. Decision notifications are released in February for all first-year students. The Office of Admissions website has more information regarding specific dates and application deadlines for freshmen.
More Info (http://www.admissions.ufl.edu/ugrad/timeline.html)

Who Should Apply

Students interested in the Innovation Academy should have a strong desire for:

- Expert and peer collaboration
- Multidisciplinary learning (Arts, Humanities, and Science)

- Trial & error (rapid prototyping)
- Creating
- Strategic risk-taking

Innovation Academy enrolls students in a select group of majors. The majors IA supports are always growing, and as the program grows more will be added over time.

Our program offers a Decision Tool chart to help students make an informed decision on applying to Innovation Academy.

International Students are not currently eligible for participation in the Innovation Academy.

Transfer Students

The UF colleges that participate in the Innovation Academy admit highly qualified transfer students who have completed an Associate in Arts degree at a Florida public community or state college.

Students seeking admission from other universities or out-of-state schools may be considered for admission on a space-available basis. Transfer students are only admitted to Innovation Academy for the Spring semester. Students who transfer to IA will attend UF on Innovation Academy's Spring/Summer schedule until the completion of their degree program. This allows IA students the Fall semester to seek out opportunities.

Majors

IA Model Semester Plans (https://innovationacademy.ufl.edu/academics/majors/)

Agricultural and Life Sciences, College of

Agricultural Education and Communication

The Department of Agricultural Education and Communication aims to serve society by advancing individuals and organizations in agriculture and natural resources through research and evidence-based practice in education, communication, and leadership.

Communication and Leadership Development & Innovation Minor

For entry into agribusiness and communication positions related to human resource development, corporate training and development, political interests, and agricultural literacy.

Biology

The Biology major develops fundamental knowledge of animals, plants, and microorganisms. The four specializations offered by the College of Agricultural and Life Sciences are tailored to meet the needs of preprofessional students, those preparing for graduate studies in biology or specialized areas such as bioinformatics, ecology, genetics, and molecular biology, and those seeking a career in biotechnology, education, natural resource management, and environmental or biotechnology law.

Applied Biology

For students interested in learning how fundamental biology is applied to solving problems. This specialization provides exposure to the major issues facing sustainability of human populations and natural resources.

Biotechnology

For careers where knowledge of molecular biology and genetic engineering are important. Students have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture, and bioinformatics.

Natural Science

For students interested in descriptive and interpretive biology, with an emphasis on field biology. The specialization provides exposure to the major forms of flora and fauna and integrates some of the major elements that influence flora and fauna, namely soil/water relations and human activities.

Preprofessional

For students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

Entomology and Nematology

Entomology and Nematology are biological sciences dealing with insects, mites, ticks, spiders, and nematodes. The Department of Entomology and Nematology offers six specializations within the major.

Biosecurity
Receive instruction in biosecurity emphasizing areas of entomology, nematology, plant pathology, and weed science. The curriculum focuses on the study of invasive species, including their detection, identification, exclusion, regulation, and management.

Ecotourism
For professional careers in the ecotourism industry and is appropriate for employment with nature preserves, nature-based theme parks, and in natural history education or nature-based recreation.

Preprofessional
Provides preparation for programs in medicine, dentistry, optometry, veterinary, chiropractic, osteopathy, and podiatry.

Urban Pest Management
For entry to the pest control industry. Students receive instruction about arthropods, nematodes, plant diseases, and weeds with reference to the pest problems in residential and commercial property.

Biological Science of Insects
Includes the study of insects, mites, ticks, spiders, and nematodes. These creatures can have both helpful and harmful effects on our food, environment, and health. Entomology and Nematology students study ecology, medically significant arthropods, social insects, insect management, physiology, behavior, evolution, natural ecosystem cycles, and systematics.

Business, Warrington College of

Accounting
The Bachelor of Science in Accounting is a four-year degree program that provides an excellent foundation in accounting and business. Its conceptual focus is designed to prepare students for success in a constantly evolving business environment and to prepare students for graduate studies.

Business Administration | General Studies
The Bachelor of Arts in Business Administration | General Studies degree provides a broad overview of the functional areas of business with a selected area of specialization. Students take foundation courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing and operations management; and area of specialization courses that focus on a specific topic, such as international studies, mass communication, criminology science, or a foreign language.

Finance
The Bachelor of Science in Business Administration | Finance degree program provides a broad overview of the functional areas of business with an emphasis in Finance. Students take foundation courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing, and operations management; and major courses that develop students' financial decision-making skills.

Information Systems
The Bachelor of Science in Business Administration | Information Systems degree program provides a broad overview of the functional areas of business with an emphasis in information systems. Students take foundation courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing and operations management; and major courses that focus on the computing, quantitative, and application skills that are vital to a business problem-solving setting.

Management
The Bachelor of Science in Business Administration | Management degree program provides a broad overview of the functional areas of business with an emphasis in management. Students take foundation courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing and operations management; and major courses that focus on the behavioral and organizational problems of management.

Marketing
The Bachelor of Science in Business Administration | Marketing degree program provides a broad overview of the functional areas of business with an emphasis in marketing. Students take foundation courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of a business, such as finance, management, marketing and operations management; and major courses that teach students how to plan and execute the conception, pricing, promotion, and distribution of products and manage customer relationships in ways that benefit organizations and their stakeholders.

Design, Construction and Planning, College of

Sustainability and the Built Environment

The Bachelor of Science in Sustainability and the Built Environment allows students to explore creative solutions for the planning, design, and construction of human structures and settlements.

Education, College of

Education Sciences

The Education Sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

Engineering, Herbert Wertheim College of

Computer Science

The Computer Science program combines a strong engineering-oriented technical basis with a flexible interdisciplinary component and an emphasis on communication skills. This flexibility will be increasingly important in the future as computers become more important tools in an ever-increasing number of disciplines.

Digital Arts and Sciences

The Digital Arts and Sciences degree is a core computer science degree with special emphasis on human-centered computing, which includes art, design, and computing courses that are related to digital media, interaction and communication. Graduates will be well-versed in issues and solutions for basic art techniques and graphic art design as well as modeling 3D virtual worlds.

Journalism and Communications, College of

Advertising

Advertising Agency

Curriculum emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This specialization introduces the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction, and copywriting. All students in the Advertising Campaigns course are required to complete a program-level assessment.

Persuasive Messaging

Curriculum focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The specialization emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The specialization prepares students for careers in a broad array of industries and organizations.

Journalism

The Department of Journalism consistently ranks among the best journalism programs in the country. It is housed in a college professionally accredited by the Accrediting Council for Education in Journalism and Mass Communication. The department's mission is to teach the art and craft of journalism and to foster an appreciation for accuracy, fairness, truth and diversity.

Public Relations

Public Relations

Public Relations is designed to prepare students for entry-level jobs as technicians (for example, producing news releases), as well as for career advancement as managers (for example, formulating communication strategy for a new initiative). Excellent writing skills are essential.

Public Interest Communications

Corporate Communications

Media Production, Management, and Technology

The Department of Media Production, Management, and Technology consistently ranks among the top five in the United States and is accredited by the Accrediting Council for Education in Journalism and Mass Communication.

Media and Society

Focuses on the theories, methods and techniques used to play, produce and distribute audio and video programs and messages; personnel and facilities management; marketing and distribution; media regulations, law and policy; and principles of broadcast technology. It prepares individuals to work in media organizations and those organizations that use electronic media, such as political campaigns, government, education and business.

Digital Film and Television Production
Prepares students for careers in program creation, writing and the creative applications of video and audio technology.

Management and Strategy
Prepares students to enter the profession through positions in research, sales, and marketing and promotion.

Liberal Arts and Sciences, College of

African American Studies
The primary emphasis of the African American Studies program is to educate students about the theories and methodologies pertaining to the study of African Americans. Students will be able to compare and contrast the experiences of people of African descent in the US to those in the wider African Diaspora. They will also learn through participation in community-service activities. After obtaining a degree in African American studies, students can seek careers as archivists, attorneys, civil rights professionals, community organizers, government employees, librarians, public policy professionals, professors, teachers, and researchers.

Anthropology
Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is worldwide in scope and encompasses all aspects of human biological and social life from earliest times to the present. It is a broad, holistic field that seeks to understand human adaptation to natural and social environments.

Bachelor of Arts
Bachelor of Science

Biology
The College of Liberal Arts & Sciences offers a biology major that allows students to develop a broad, integrative background in the biological sciences.

Preprofessional
For students who wish to pursue admission to professional healthcare graduate programs.

Chemistry
Chemistry is often called the central science because of the pivotal role it plays in the biological and physical sciences, and in engineering, agriculture, medicine and allied health disciplines. Bachelor's degree chemists choose from diverse paths for their short-term and lifetime careers, including graduate study in a variety of programs, rewarding employment in industry or government laboratories, professional or law school, or much-needed teaching in high schools.

English
Undergraduate study in English prepares students for diverse careers in law, publishing, advertising, media and business, teaching and advanced degree work. Courses offered by the department introduce students to a world of experiences that cannot be exhausted in the brief span of a college education; new authors, new works, new media, and new tools for understanding continually enlarge and transform the world.

Geography
Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

Geography | BA
Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

Environmental Geosciences | BA
A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Medical Geography in Global Health | BA
Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Medical Geography in Global Health | BS
Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

History
The history department fosters a learning experience that stands apart from newer modes of instruction at large universities. Amid the shift to larger classes, televised lectures and machine-gradable exams, history faculty have chosen to follow a more traditional path. The department's emphasis on small courses, analytical reading, lively debate and interpretative writing offers committed students unique rewards. It also comes with high expectations.

Mathematics
Studying mathematics develops such skills as critical thinking, oral and written communication, arguing logically and rigorously, thinking abstractly, formulating and solving problems, analyzing data, analyzing mathematical models, quantitative and computer proficiency, and the ability to work in groups. Employers value these skills; consequently, math majors find themselves in demand by employers for careers in a wide spectrum of fields.

Political Science
The Political Science major is intended for students who wish to pursue a career in or near the public sector. Students take coursework in areas as diverse as American and comparative politics, political theory, international relations, public policy, and public administration.

Psychology
Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a BS in psychology are widely sought in business, education and mental health fields. For a professional career in psychology, a graduate degree is needed.

General Psychology
Requires courses in four core areas within the discipline as well as elective psychology courses.

Behavior Analysis
Focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

Behavioral and Cognitive Neuroscience
Focuses on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience.

Sociology
Sociology is the study of social life and the social causes and consequences of human behavior. Sociologists examine the structure of groups, organizations and societies and how people interact within these contexts. Sociologists use diverse research methods and many unique perspectives to analyze virtually any social issue.

Minors and Certificates

Innovation Minor
- Innovation Minor

Additional Minors and Certificates
Innovation Academy students are not limited to only completing the Innovation Minor. These minors and certificates may be completed by students enrolled full-time during the Spring and Summer semesters.

Students who choose to pursue an additional minor must complete the application to add a minor.

Pre-Health

There are many students in the IA program who plan to go on to a graduate program in the health professions such as medical school, dental school, or one of the many other health profession programs available. Students are encouraged to explore all options if they are interested in a career in the health professions.

What Major Should be Chosen?

Professional schools have no preference for any particular type of major. While students can be almost any major and be pre-health, there are a few IA majors that include some or all of the required prerequisite courses that students may wish to consider.

These majors include, but are not limited to:

- Biology | Preprofessional
- Chemistry
- Entomology
- Plant Science

Regardless of the major, it's important to work closely with academic advisors to develop a plan for the completion of your major, the IA minor, and pre-health prerequisite courses.

What are the prerequisite courses?

Most professional schools including medical, dental, veterinary, optometry, and pharmacy require at a minimum:

- One year of General Chemistry: CHM 2045 and CHM 2046 with labs
- One year of Organic Chemistry: CHM 2210, CHM 2211, and CHM 2211L
- One semester of Biochemistry: BCH 4024 or CHM 3218
- One year of General Biology: BSC 2010 and BSC 2011 with labs
- One year of Physics: PHY 2053 or PHY 2048 and PHY 2054 or PHY 2049 with labs
- One year of English
- One year of Math: Calculus and Statistics

Please refer to the Prerequisite chart (http://www.advising.ufl.edu/docs/PreHealthRequirements.pdf) on the pre-health website for additional requirements for each profession. For additional pre-health forms and handouts please visit the Academic Advising Center (https://www.advising.ufl.edu/pre-health/pre-health-resources/forms-handouts/). Students should also check the requirements for the individual schools to which they may be applying.

What are some things pre-health students in the IA program should consider?

- Use Fall semesters to get in-depth volunteer or shadowing experiences. If the student is in their hometown, it is a great opportunity to shadow a family physician (dentist, veterinarian, etc.) or volunteer in a local hospital or assisted-living facility. Shadowing professionals in different areas of healthcare allows exploration of all of available options.
- Consider studying abroad in a future Fall semester. Health-care professionals need to be culturally competent and living abroad for a semester can teach about other cultures, practice language skills, and enhance a student's world view.
- Attend the Pre-Health session at Preview, watch the Pre-Health 101 workshop on the Pre-Health website (http://www.advising.ufl.edu/prehealth/), and join the Pre-Health listserv.
- Meet with a Pre-Health advisor in the Academic Advising Center during the first Spring term. They can help students develop an academic plan that includes the prerequisite courses for their profession.

Law | Fredric G. Levin College of

A renowned faculty, comprehensive Juris Doctor curriculum, certificate programs, innovative centers and institutes, expanding global curriculum and competitive tuition make the University of Florida's Fredric G. Levin College of Law the first choice for many students who desire a law degree.

Gainesville, FL 32611-7622

Since its establishment in 1909, the College of Law has been educating leaders in law, business, education and government. The college is accredited by the American Bar Association and is a member of the Association of American Law Schools. Enrollment is approximately 1000, including about 100 students in the Graduate Tax and Comparative Law programs.

The college is housed in Holland and Bruton-Geer halls and is named for alumnus Fredric G. Levin of Pensacola, a prominent trial lawyer who made possible a $20 million endowment to support excellence in legal education, which provided for construction on an expanded law library, the Lawton Chiles Legal Information Center, and two new classroom towers which were completed in 2005. As a result of this construction, the college has one of the largest academic law libraries in the southeastern United States, housing more than 609,000 volumes and extensive computer and audio-visual resources in a new, state-of-the-art facility.

The college's curricular strengths include tax law, business law, estates and trusts, environmental law, dispute resolution, international law, intellectual property law, criminal law, family and children's law and an emphasis in developing the highest standards of professional conduct. After completing first-year requirements, students can tailor their course load to fit their interests and career plans. The three-year curriculum develops students' analytical ability, knowledge of the theory and practice of law, communications skills, and understanding of the codes of professional responsibility and ethics central to the practice of law.

Students experience a variety of teaching methods, including the traditional case and Socratic methods, as well as the problem method, simulations, role-playing, videotaping, computer-assisted instruction and interaction with actual clients. Because Florida is home to many prominent and skilled attorneys and judges, a number are actively involved in teaching and practical skills training of UF law students. Additionally, because writing skills are critical to success in the legal profession, these skills are also developed through required courses and a nationally acclaimed legal drafting program.

Through programs offered on campus and abroad, students gain international experience for the competitive job market. Dozens of co-curricular and extracurricular organizations support a rich and diverse student life, and through programs offered on campus and abroad, students gain international experience for the competitive job market.

Academic Policies

Admission

Admission to the College of Law is determined by the applicant's potential for success in law school, the legal profession and other law-related careers. An applicant's credentials are measured against others applying to the same class.

Applicants must hold a bachelor's degree from a qualified institution and have an acceptable grade point average and a satisfactory score on the Law School Admission Test (LSAT). The median LSAT score and undergraduate grade point average for the most recent entering class is 158 and 3.50 (4.00 scale), respectively.
More Info (http://www.law.ufl.edu/admissions/)

Financial Aid

Financial aid for law study is available through the College of Law and federal sources. The law school offers a number of merit-based scholarships and merit/need- based scholarships and grants.
More Info (https://www.law.ufl.edu/admissions/costs-and-financial-aid/)

Financial Aid Office

164 Holland Hall
Box 117621
Gainesville, FL 32611-7621

Programs of Study

Pre-Law

The best pre-law program is a diversified course of study. Beginning law students are expected to possess effective written and oral communication skills as well as critical thinking abilities.
More Info (http://www.law.ufl.edu/programs/)

For specific information about pre-law study, law school and the legal profession, refer to the *Official Guide to U.S. Law Schools, which can* be ordered from Law Services during LSAT registration, purchased at most bookstores or accessed from the Law School Admission Council.
More Info (http://www.lsac.org/)

Combination Degrees

The Fredric G. Levin College of Law offers a joint-degree program that sets the standard among top-tier public law schools for its flexibility, coverage of study areas, high academic reputation and overall value. Qualified students combine legal studies with graduate coursework in another college to earn two degrees at the same time. Among the most popular are JD/Accounting, JD/MBA, JD/Mass Communications.
More Info (https://www.law.ufl.edu/academics/degree-programs/joint-degree-programs/)

Candidates must take the LSAT and the GRE, MCAT or GMAT, and gain admission separately to the College of Law and the Graduate School. Application deadlines vary; refer to law school admissions (http://www.law.ufl.edu/admissions/) and graduate admissions (http://www.admissions.ufl.edu/prospectivegraduate.html).

Certificate Programs

Specialization is a growing trend in today's complex legal environment, and graduates with knowledge in specific practice areas are in high demand. UF Law offers interested students the opportunity to develop expertise and marketability by earning a certificate in criminal justice, environmental and land use law, estates and trusts practice, family law, intellectual property law or international and comparative law.

Graduate Taxation Program

The graduate taxation program, which offers the LLM in Taxation, LLM in International Taxation and SJD in Taxation, is widely and consistently regarded as one of the nation's top programs. The environmental law program, also highly rated, offers the nation's first LLM in the closely-related fields of environmental and land use law. The college's strong international programs and LLM in Comparative Law for foreign lawyers expand the school's curriculum and strengthen its ties with legal entities and scholars around the globe.

Clinics, Centers, and Institutes

Clinical programs, including Virgil Hawkins Civil Clinics and Criminal Clinics, allow students to represent clients within an academic framework with a substantial classroom component. Students also can take advantage of such practical experience programs as *pro bono* work for organizations and government agencies, summer internships and externships.

Multiple centers and institutes offer students unique, real-world perspectives and work experiences. At the same time they are partnering with legal firms and other institutions throughout the country and world to help shape the legal profession.

Centers

- Center for Governmental Responsibility
- Center for the Study of Race and Race Relations
- Center on Children and Families
- Center for Estate and Elder Law Planning
- Criminal Justice Center
- Center for International Financial Crimes Studies
- Institute for Dispute Resolution

Medicine | College of

The College of Medicine, a unit of the Health Science Center, began operations in 1956 and is located on the south end of campus. This location, in direct proximity to university facilities, offers many opportunities to utilize and complement resources of the university in the educational and investigative programs of the college.

University of Florida
Gainesville, FL 32610-0216

The College of Medicine is responsible for several undergraduate courses and multiple graduate and professional educational programs. This includes programs leading to the MD degree and master's degrees in Physician Assistant Studies, Forensic Medicine, and Biochemistry and Molecular Biology. New initiatives incorporate Artificial Intelligence (AI) within the medical and biomedical disciplines, including two AI master's degrees. Additional master's and doctoral degrees are offered in Anatomical Sciences Education, Genetics and Genomics, Medical Physics, and Medical Sciences. The Medical Sciences programs include concentrations in seven biomedical disciplines, Health Outcomes and Implementation Sciences, and Biomedical Informatics. The College of Medicine offers multiple robust online master's degrees and graduate certificates.

Teaching Hospitals

The primary teaching hospital for the College of Medicine is UF Health Shands at the University of Florida, a modern tertiary care facility that is part of the Health Science Center complex. UF Health is one of several hospitals owned and operated by Shands HealthCare, a not-for-profit system affiliated with the University of Florida. The College of Medicine also has faculty, students and residents who provide patient care, teaching and clinical trial research at the Veterans Affairs Medical Center located across the street from the Health Science Center campus.

At UF Health Jacksonville, approximately 70 miles from Gainesville, students receive high-quality clinical and research experience in an urban setting. In addition, UF Health owns or is affiliated with outpatient and community practice sites for educational experiences in a variety of urban, rural, and suburban areas.

Undergraduate Preparation

Students intending to apply for admission to a graduate or professional degree program through the College of Medicine may have a bachelor's degree in any field but must complete required prerequisites for their intended post-graduate program. Undergraduate courses offered by the college include science for life (BCH 2911 (https://catalog.ufl.edu/UGRD/courses/biochemistry-and-molecular-biology/)), biochemistry (BCH 4024), introduction to medical professions (MDU 4003), physician shadowing (MDU 4004), and undergraduate research (BMS 4905). Opportunities for service learning in the greater Gainesville community are available through participation in the Mobile Outreach Clinic (https://outreach.med.ufl.edu/). Volunteer/service opportunities are also available through UF Health (https://ufhealth.org/volunteering/).

Combination Degree Programs

The College of Medicine offers combination degree programs with other colleges including Agricultural and Life Sciences, Liberal Arts and Sciences, Business Administration, Law, and the other colleges of the Health Science Center. A combination degree program is a credit-sharing arrangement that allows qualified students to combine their medical science background with other undergraduate, professional, or graduate work, resulting in earning two degrees.

Exceptional undergraduate students with a major in Biology/Chemistry/IDS in Biochemistry/Microbiology and Cell Sciences/Nutritional Sciences offered through both CALS and CLAS are encourage to apply for the highly competitive BS/MS in Biochemistry and Molecular Biology degree. The combination program is an ideal opportunity for undergraduate students interested in gaining research experience for positions within the private and government sector or entrance into other advanced degree programs.
More Info (https://biochem.med.ufl.edu/graduate-programs/ms-program/)

Unusually gifted students may enter a combination MD/PhD program which offers an opportunity for integrating clinical experience with competence in basic biomedical research. This program reflects the increasing dependence of the practice of medicine on scientific advances in the biological sciences and seeks to produce clinician scientists.
More Info (https://mdphd.med.ufl.edu/program/)

Combination degrees are available to qualified students enrolled in the UF College of Medicine MD degree in conjunction with the Warrington College of Business, the Fredric G. Levin College of Law, and College of Public Health and Health Professions. These programs include degrees leading to the MD/MBA, MD/MSM, MD/JD, and MD/MPH degrees.
More Info (https://admissions.med.ufl.edu/admission-requirements/dual-degrees/)

Clinical departments offer residency and clinical fellowship training. Post-doctoral research fellowships are supported in all basic science and clinical departments. The clinical departments offer seminars, workshops, and programs as part of a robust continuing education program for practicing physicians.

Military Science | Division of

The university offers instruction in the military sciences to students preparing for military service. The departments of the Army, Navy/Marine Corps, and Air Force each maintains a Reserve Officers Training Corps (ROTC) and provides staff of military personnel for the instruction and administration of cadets and midshipmen.

ROTC Scholarship Program

The ROTC Vitalization Act of 1964 provides for college scholarships to ROTC cadets and midshipmen. Scholarships are competitive and pay either the cost of tuition, books, fees, supplies and equipment or an amount toward that coverage (depending on the service) plus a monthly subsistence allowance of $300 (freshman year), $350 (sophomore year), $450 (junior year), and $500 (senior year). Scholarships are offered for two, three and four years. All AFROTC scholarships awarded in any program (HSSP/ICSP/CMLA) may be converted to a housing benefit of $10K/year with conditions.

Students with Military Training Elsewhere

Students transferring from other college-level institutions with ROTC units are allowed credit for military studies completed elsewhere, up to the amount allowed by the institution from which the transfer is made, provided such credit does not exceed the maximum credits allowed for the Air Force general military course. For the Army ROTC program, transfer of all four semesters of the basic course is normally accepted. Students already in the advance course must receive approval from the professor of military science for approval of upper-division credit transfers.

A cadet who transfers to another institution with a similar-service ROTC detachment may transfer membership in the Army or Navy advanced course or the Air Force professional officer course to that detachment. The professors of military science, naval science or aerospace studies determine eligibility for admission to military science, naval science and aerospace studies courses at this university.

Military Commitment upon Course Completion

Non-scholarship students enrolled in Army, Air Force or Navy ROTC incur no military commitment during their first two years (basic course) in the program. Upon selection by the respective departments, students completing the basic course or its equivalent may enter the ROTC advanced course. Such students execute a contract at time of entry that obligates them, upon successful completion of the advanced course and commissioning, to serve on active duty for a period of not less than three years for Army, three years for Navy and four years for Air Force. Assignments are subject to orders of the appropriate service secretary.

A graduate will continue as a member of the regular or reserve component of that service until the sixth and not later than the eighth anniversary of the commission. ROTC scholarship students incur an identical military commitment except they must serve at least four years on active duty, if selected, and depending on the service selection and warfare specialty.

Army ROTC students also may elect to participate in the guaranteed reserve forces duty option, whereby they are not required to serve on active duty. After commissioning and completion of the basic branch school, they are assigned to an Army Reserve or National Guard unit to fulfill the remainder of their eight-year obligation in a reserve forces status.

Interested students should apply in person at the office of the professor of military science, naval science or aerospace studies in Van Fleet Hall.

Uniforms, Equipment, and Textbooks

ROTC uniforms are identical to regulation uniforms except for insignia. Cadets and midshipmen must wear the uniform on specified days.

Newly entering students in the Army and Air Force ROTC are issued required uniforms and texts. The uniforms and texts remain the property of ROTC and are returned to supply during semesters of nonattendance, transfer to another institution or upon completion of the prescribed course of instruction.

Navy uniforms are permanently issued to midshipmen as long as satisfactory NROTC participation is carried out. Navy/Marine Corps scholarship midshipmen receive a $375 textbook stipend each semester they are active in the NROTC program.

Army scholarship cadets receive a $1200 textbook stipend each year.

Air Force scholarship cadets receive a $900 textbook stipend each year.

Admission

Lower-division ROTC academic courses, referred to as basic or general military courses, are open to all university students. These elective courses, offered by the Department of Military Science, are designed to introduce students to a military service (Army, Navy/Marine Corps, and Air Force) and their respective roles in national defense. No experience with the military is required or expected.

Upper-division courses are intended for juniors and seniors who are actively pursuing a commission as an officer. Cadets and midshipmen who complete the 3000/4000-level courses receive their commission upon graduation. Candidates for the commissioning program must be medically qualified, physically fit US citizens, in good academic standing, with no criminal record and with demonstrated leadership potential. Final selection of students for the advanced course is made by the professor of military science, professor of naval science or professor of aerospace studies.

Programs

Army Basic, Navy Basic, and Air Force General Military Course

The Army and Navy basic courses and the Air Force general military courses include four semesters of instruction. Non-US citizens must receive department approval to enroll.

Cadets and midshipmen are issued uniforms and textbooks by their respective services and are responsible financially for the care of such property and for its prompt return when directed.

Outstanding Army basic course cadets may be selected to attend airborne, air assault, northern warfare, military mountaineering training, or other US Army training courses. Outstanding Air Force cadets may be selected to attend parachute free-fall training, soaring programs and summer base visits.

Army Reserve Officers Training Corps (ROTC)

352.392.ARMY (352.392.2769)

The general objective of Army ROTC is to provide junior officers who by their education, training and inherent qualities, are suitable for continued development as officers in the US Army. The aim is to provide a basic military education and, in conjunction with other college disciplines, to develop individual character attributes essential to a professional military officer.

The Army ROTC advanced course includes four semesters of instruction on campus and four weeks of summer camp at Ft. Lewis, WA, normally at the end of the junior year. During each semester, cadets are required to participate in one weekend field training exercise at Camp Blanding in Starke, FL. Additionally, cadets are required to attend morning physical training (exercise) sessions up to three times weekly.

Training Allowances and Service Obligation

Each student receives from the US Government a monetary subsistence allowance for advance course, $450 for juniors and $500 for seniors per month, paid during the period of enrollment in the advanced course for not more than 20 months. Students are paid for their travel to and from the five-week summer camp at Ft. Lewis, WA. While at camp, they are provided quarters, rations and one-half of a Second Lieutenant's pay per month. Qualified cadets may be eligible to serve as drilling members of reserve component units, in the pay grade of E-5 or higher, under the Simultaneous Membership Program. Upon the student's successful completion of the advanced course and completion of the college degree, the cadet is commissioned a Second Lieutenant in the US Army.

Outstanding advanced-course cadets may be selected to attend airborne, air assault, northern warfare, military mountaineering training, or other US Army training courses. Several cadets are offered the opportunity to serve in leadership positions in active Army units immediately following the

National Advanced Leader's Camp under the Cadet Troop Leadership Training Program. This program includes an opportunity for selected cadets to travel and serve in Germany or Korea. Prior to commissioning, students must take and pass one semester of the following courses: military history, English composition and computer literacy in order to complete the professional military education program requirements.

All contracted cadets may compete for the Cultural Understanding and Language Program, providing opportunities to travel to other countries, living and working among the population to better their understanding of the culture. Also, for selected languages, contracted cadets may be paid additional monies ($250 per semester-credit) for successfully completing targeted languages.

Naval Reserve Officers Training Corps (ROTC)

The NROTC unit was established at the university in 1972 to develop qualified officers for the Navy and Marine Corps. Students who complete the program are tendered commissions in either the Naval Reserve or the Marine Corps Reserve and are immediately placed on active duty.

The program consists of a naval science course and a noncredit two-credit leadership laboratory each semester for four academic years. Shipboard engineering and naval weapons systems, seapower and maritime symposia, terrestrial and celestial navigation, and management and leadership ethics are included in the curriculum. Training cruises, usually of four to six weeks duration with pay during the summer, also are part of the program.

Students may participate with or without a scholarship. Those who have scholarships can choose either to have their tuition and fees paid by the Navy/Marine Corps or receive room and board. They also receive $375 per semester for books. In addition, they receive $250 (freshman), $300 (sophomore), $350 (junior) and $400 (senior) per month for a maximum of eight semesters during the academic years.

Non-scholarship college program students do not receive these awards. However, they do receive naval science textbooks and uniforms free. They also receive $350 a month (during the junior year) and $400 a month (during the senior year) for up to four semesters. Scholarships are usually awarded after national competition among high school seniors. However, college program students can be awarded scholarships fewer than four years and they actually have an advantage over high school students.

Scholarship students participate in three summer cruises; college program students participate in only one cruise between their junior and senior years.

During the first year of the scholarship program, there is no obligation to serve on active duty. After students begin the sophomore year, they are obligated to serve on active duty after completing the program and receiving their baccalaureate degree. Eight-semester scholarship students incur an eight-year service obligation; four years must be active duty.

Navy-option graduates of the NROTC program will be assigned to one of the following areas: nuclear propulsion (surface and subsurface), naval aviation, surface warfare, or special warfare. Marine Corps-option graduates receive a six-month professional course before further assignment.

Air Force Reserve Officer Training Corps (AFROTC)

The Air Force and Space Force are seeking talented and motivated high school and college students with solid character and demonstrated leadership potential. The Department of Aerospace Studies was established in September 1946 to select and prepare students through a program of instruction to serve as active-duty officers in the US Air Force. The curriculum emphasizes the uniformly high level of military understanding and knowledge required of Air Force officers.

In the Air Force ROTC program, cadets are students first. Between Aerospace Studies class and the associated Leadership Laboratory, freshmen and sophomores will participate in up to seven hours of contact weekly. Likewise, juniors and seniors will spend up to nine weekly contact hours working to build and refine their leadership skills.

The first two years of the Air Force ROTC four-year program, the General Military Course, consist of one hour of classroom work, two hours of leadership laboratory, and two hours of physical conditioning each week. Upon completion of GMC requirements, cadets who wish to compete for entry into the last two years of the program, the Professional Officer Course (POC), must do so under the requirements of the POC selection process. This system uses qualitative factors, such as grade-point average, detachment commander's evaluation, aptitude test scores and physical fitness test scores to determine a student's officer potential. After selection, students must successfully complete a summer field training program before entering the POC. Location and timeframe for field training varies from year to year.

In the POC, cadets attend class three hours a week, participate in a two-hour leadership laboratory, and perform two hours of physical conditioning per week. POC cadets are charged with planning, leading, and executing leadership lab while they apply the skills they've learned in the GMC and at summer field training.. POC classes are small, with emphasis on group discussions and cadet presentations.

General Military Course

The General Military Course, a two-year survey-level course, examines the role of US military forces with particular attention to the US Air Force and Space Force, its organization and mission. Additionally, the functions of strategic offensive and defensive forces, general purpose and aerospace support forces are covered.

Professional Officer Course

Enrollment in the Professional Officer Course (POC) is open to applicants who demonstrate a high officer potential. Applicants must:

- Fulfill all requirements for a commission prior to the 30th birthday (waivers possible up to 42nd birthday)
- Have two years of academic enrollment remaining to obtain degree
- Sign a written contract agreeing to complete the course
- Be a citizen of the United States and willing to surrender dual citizenship with another nation
- Pass the Department of Defense medical examination (DODMERB)
- Pass the physical fitness test
- Terminate membership (if member) of any reserve component
- Enlist in the Air Force Reserve (obligated reserve section)
- Have a cumulative academic GPA of 2.0 or higher for all previous college courses
- Successful completion of the GMC and Field Training requirements

Veterans entering the university who desire a commission through AFROTC should contact the Professor of Aerospace Studies before registering.

Successful completion of a four-year accredited degree program and Air Force ROTC leads to a commission as a second lieutenant in the Air and Space Forces. When the student successfully completes the POC and graduates from the university, they are commissioned a Second Lieutenant and given an assignment commensurate with their academic major, their personal desires, and the needs of the Department of the Air Force.

Most officers have a four-year active-duty service commitment. Pilots have a 10-year active-duty service commitment, while Combat System Officers, Air Battle Managers, and Special Warfare all have a six-year service commitment upon completion of their respective training.

Aerospace Leadership Minor

The university offers instruction in the military sciences to students preparing for military service. The departments of the Army, Navy/Marine Corps, and Air Force each maintains a Reserve Officers Training Corps (ROTC) and provides staff of military personnel for the instruction and administration of cadets and midshipmen.

Scholarships and Financial Aid

The College of Pharmacy offers financial aid to admitted pharmacy students through a variety of sponsors, including a Jack Eckerd Endowment and a Charlotte Liberty Family endowment. Other sponsors include pharmaceutical companies, pharmacy organizations and the pharmacy alumni association. A list of scholarships (https://admissions.pharmacy.ufl.edu/financial-aid/scholarships/) and financial aid (https://admissions.pharmacy.ufl.edu/financial-aid/) is available on the college's website.

Undergraduate Student Organizations

Pre-Pharmacy Society

An organization for students who share an interest in a career in Pharmacy. The organization brings together pre-pharmacy students and provides information about the different fields that make up Pharmacy. It also serves to provide resources and opportunities for service and leadership to society members.
Email (uflpps@gmail.com)

Academic Policies

Academic Advising

Students who are considering a major in pharmacy should contact the Pre-Pharmacy advisor for academic guidance, career advice and pharmacy school information using the information below.

P.O. Box 100495
G205A HPNP Building
Gainesville, FL 32610-0495

Email (prepharmacy@cop.ufl.edu) | 352.273.6457
More Info (https://students.pharmacy.ufl.edu/student-affairs/advising-academics/)

Preprofessional pharmacy track

Students at the University of Florida who are interested in applying to the PharmD program may declare a pre-pharmacy major as freshmen and sophomores and complete the preprofessional course requirements. Students can complete this coursework within two calendar years and will be monitored by the college through the critical-tracking program. Students who wish to take three or more years to complete the required coursework must declare a major other than pre-pharmacy in the third year.

Students may also complete the PharmD preprofessional courses in other science majors such as biology, chemistry, microbiology and cell science and nutritional sciences (this list is not all-inclusive). Additionally, a student can complete a degree in any major while completing the preprofessional courses.

Students interested in pharmacy must complete all General Education and Writing Requirements, earning an Associate of Art (AA) degree before beginning the PharmD professional curriculum. Transfer students must also receive an AA degree prior to beginning the professional program.

Recommended Course Sequences

- General chemistry, biology and calculus should be completed in the first year.
- Organic chemistry, and anatomy and physiology should be completed in the second year.
- Biochemistry and microbiology should be taken after completion of organic chemistry and biology.
- All applicants must have completed two sequential courses of foreign language in secondary school or 8-10 credits at the post-secondary level, or document an equivalent level of proficiency.
- All students must complete the educational requirements of an AA degree prior to beginning the professional program. Students who are transferring from schools that do not offer an AA degree must meet UF's General Education requirements.
- Students may take online courses to satisfy preprofessional coursework. However, the Admissions Committee prefers that students complete science courses with laboratories in the traditional class setting.

Critical-Tracking Criteria

The universal-tracking program provides accurate academic advising in an appropriate time frame. The college has designated particular criteria that must be completed each semester to progress satisfactorily toward entry into Pharmacy school after two-years. Students may elect a three-year program that requires declaration of a science major in a UF college. However, students must declare a major by the end of their third year. Please contact the Pre-Pharmacy advisor for guidance.

Degree Requirements

Preprofessional pharmacy track

The College of Pharmacy does not award undergraduate degrees. However, students may elect to follow the Pre-Pharmacy track and declare Pharmacy as their major. Please see academic policies (p. 101) for more details. For a list of coursework please click here (https://catalog.ufl.edu/UGRD/academic-programs/UGPHM/PHA_NOD/#modelsemesterplantext).

To earn a Master of Science (MS) or a Doctor of Philosophy (PhD) degree from the College of Pharmacy, candidates must first earn a Bachelor of Science (BS) degree in a related field. Please contact the Office of Graduate Education (https://graduateeducation.pharmacy.ufl.edu/) for further guidance.

Programs

Gator Pharmacy Early Assurance Program (PEAP)
The Gator Pharmacy Early Assurance Program provides highly-qualified students who have been admitted to UF an opportunity to streamline their path into pharmacy school. This program is designed to assist students through the early process of becoming a pharmacist by providing workshops, training and opportunities related to pharmacy careers.
Program benefits (https://admissions.pharmacy.ufl.edu/planning-to-succeed/early-assurance-program/)

Pharmacy | Preprofessional

Course requirements for the Doctor of Pharmacy include two years of the preprofessional curriculum (63-66 credits) and four years of professional preparation (146 credits). Courses in the professional curricula are revised periodically to meet pharmacy education standards. Current information on the curriculum can be obtained from the Office for Student Affairs in the College of Pharmacy.

About this Program

- **College:** Pharmacy
- **Degree:** Doctor of Pharmacy | *After completion of professional courses*
- **Credits for Degree:** 63-66 in the preprofessional curriculum | 146 in the professional curriculum

The College of Pharmacy does not award undergraduate degrees. To obtain a bachelor's degree, students must declare a major in an undergraduate degree awarding college and complete all university, college, and major requirements.

Department Information

Ranked by US News & World Report as the No. 1 pharmacy college in Florida and in the Top 10 nationally, the University of Florida College of Pharmacy has been developing future leaders in pharmacy practice and science for nearly a century.
Website (https://pharmacy.ufl.edu/)

Email (http://catalog.ufl.eduMailto: Prepharmacy@cop.ufl.edu)

1225 Center Drive
HPNP BUILDING
GAINESVILLE FL 32610
Map (http://campusmap.ufl.edu/#/index/0212)

Curriculum

- Pharmacy | Preprofessional

All students interested in completing the Doctor of Pharmacy (PharmD) degree must complete all required preprofessional courses and electives (63-66 credits) along with 146 total credits in the professional curriculum. Application and acceptance into Pharmacy school is required to start the professional curriculum. Please visit the UF PharmD Office of Admissions webpage for the steps to apply.
More Info (https://admissions.pharmacy.ufl.edu/steps-to-apply/) | Admissions website (https://admissions.pharmacy.ufl.edu/steps-to-apply/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete CHM 2045/CHM 2045L

Semester 2

- Complete 3 additional courses of the remaining 10 critical-tracking courses, including labs: APK 2100C or ZOO 3713C, APK 2105C or PCB 4723C, BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2210, CHM 2211/CHM 2211L, CHM 2046/CHM 2046L, MAC 2311, MCB 3020, STA 2023
- 3.0 GPA or higher preferred for all science courses

Semester 3

- Complete 4 additional courses of the remaining 10 critical-tracking courses, including labs (2 of the courses must be CHM 2210, and APK 2100C or ZOO 3713C)
- 3.0 GPA or higher preferred for all science courses

Semester 4

- Complete all 11 critical-tracking courses, including labs
- Satisfactory score on the PCAT test
- Complete the personal profile essay/campus preference form, letters of recommendation, PharmCAS application and the UF application by February 1
- Approval of college admission committee
- 3.0 GPA or higher preferred for all science courses

Semester 5

- 3.0 GPA or higher preferred for all science courses

Model Semester Plan

Semester one below may not be the first semester at the university. Semester one refers to the first semester of preprofessional science and mathematics courses. Students who already have satisfied the criteria for a particular semester will be assigned a semester to begin the tracking program.

Critical-tracking courses should be completed in the semester indicated.

Students are required to complete a Quest 1 course in semester 1 or 2. Students admitted to pharmacy school must complete BCH 4024 before enrollment.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory (**Critical Tracking**; Gen Ed Biological Sciences) [1]	
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences) [1]	
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics) [1]	4
State Core Gen Ed Composition (p. 80); Writing Requirement		3
	Credits	**15**

Semester Two		
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences) [1]	4
CHM 2046	General Chemistry 2 (**Critical Tracking**; Gen Ed Physical Sciences) [1]	3
CHM 2046L	General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	1
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics) [1]	3
Quest 1 (Gen Ed Humanities)		3
	Credits	**14**
Semester Three		
Anatomy		4
APK 2100C or ZOO 3713C	Applied Human Anatomy with Laboratory (**Critical Tracking**) [1] or Functional Vertebrate Anatomy	
CHM 2210	Organic Chemistry 1 (**Critical Tracking**) [1]	3
Gen Ed Composition; Writing Requirement		3
State Core Gen Ed Social and Behavioral Sciences; Writing Requirement [2]		3
Gen Ed Social and Behavioral Sciences [2]		3-4
ECO 2013 or ECO 2023	Principles of Macroeconomics (Gen Ed Social and Behavioral Sciences) or Principles of Microeconomics	
	Credits	**16-17**
Semester Four		
Physiology		4-5
APK 2105C or PCB 4723C	Applied Human Physiology with Laboratory (**Critical Tracking**) [1] or Physiology and Molecular Biology of Animals	
CHM 2211	Organic Chemistry 2 (**Critical Tracking**)	3
CHM 2211L	Organic Chemistry Laboratory (**Critical Tracking**) [1]	2
MCB 3020	Basic Biology of Microorganisms (**Critical Tracking**; can be taken in the summer semester) [1]	3
State Core Gen Ed Humanities with International (p. 80); Writing Requirement [3]		3
	Credits	**15-16**
Summer After Semester Four		
Select one:		3-4
BCH 3025	Fundamentals of Biochemistry [1]	
BCH 4024	Introduction to Biochemistry and Molecular Biology	
	Credits	**3-4**
	Total Credits	**63-66**

1 Preprofessional courses.

2 Students are also expected to complete the General Education International (GE-N) requirement concurrently with another Gen Ed requirement (typically, GE-H or S).

3 Can be taken in prior Spring semester.

Veterinary Medicine | College of

The College of Veterinary Medicine was authorized by the Florida Legislature in 1965 and opened its doors to students in 1976. Florida's College of Veterinary Medicine is concerned with the total health of all members of the animal kingdom, including human.

College of Veterinary Medicine

P.O. Box 100125
University of Florida
Gainesville, FL 32610-0125

Modern veterinarians serve the needs of the public in many significant ways:

- Prevention of disease in animals and humans
- Enhancement of animal agriculture and wildlife management
- Humane health care of animals
- Research on diseases of animals
- Provision of wholesome food

To answer these challenges, the goals of the College of Veterinary Medicine are to:

- Educate veterinarians for Florida's specific needs.
- Perform research on metabolic and infectious diseases of animals. These investigations will provide new knowledge concerning diseases of domestic animals, will assist in the control of devastating subtropical diseases that must be controlled to provide wholesome food for our nation and developing countries, and will provide insight into human diseases for which animal models exist.
- Provide a veterinary medical center necessary for training interns, residents and graduate students, and for the continuing education of practitioners.
- Provide a resource for dissemination of current information to veterinary practitioners, state and federal agricultural and public health agencies, and consumers of food and health services.
- Serve as a center where veterinary practitioners can consult with specialists and where animal patients can be referred for sophisticated diagnostic procedures. This will provide a service to practitioners and afford veterinary students access to more cases and a greater variety of disease entities.

Curriculum

Veterinary students participate in the professional degree program leading to the Doctor of Veterinary Medicine (D.V.M.), which requires 150 semester credits for graduation. Students with a cumulative grade point average (GPA) of 3.50 or above may graduate *cum laude*. A cumulative GPA of 3.75 or above is required for *magna cum laude* recognition.

The professional curriculum provides a nine-semester program consisting of core didactic classes and clinical clerkship experiences. Three phases of study within the veterinary medical curriculum are based conceptually on:

- the study of the normal animal (Phase I),
- the study of disease processes and therapy (Phase II), and
- clinical applications (Phase III).

Phases I and II are organized on an organ system basis; each system is considered in turn, an approach that lends itself to the concept of comparative medicine. Phase I occupies the first two semesters of the curriculum; Phase II the second two semesters. During Phase III (semesters 5-9) the student enters rotations through the required clerkships and elective areas of concentration.
More Info (https://education.vetmed.ufl.edu/dvm-curriculum/)

Undergraduate Preparation

Students intending to apply for admission to the College of Veterinary Medicine should plan to complete a bachelor's degree. However, outstanding students may be admitted after three years of preprofessional coursework.

Sequencing of preprofessional coursework should be planned carefully, preferably under the guidance of preprofessional advisors. The Office for Academic and Student Affairs welcomes inquiries of a general nature, but semester-by-semester course scheduling should be monitored by the college offering the bachelor's degree.

Pre-veterinary students may major in a program offered by any department or college but must complete the preprofessional requirements. Applicants to the professional curriculum must present a minimum of 75 credits of college-level coursework, exclusive of physical education and military training courses.
More Info (https://education.vetmed.ufl.edu/admissions/course-requirements/)

Credit for Advanced International Certificate of Education (AICE), Advanced Placement (AP), International Baccalaureate (IB) or College Level Examination Programs (CLEP) is acceptable at the level identified in the academic advising section of this catalog.

Admission

Student selection for the College of Veterinary Medicine will be made by the dean based on recommendation of the College Admissions Committee using the following criteria as the basis for selection:

- Residency
- Academic Performance
- Animal and Veterinary Experience
- Evaluation Forms and References
- Extracurricular Activities
- Communicative Skills
- Candidate interview
- Competitiveness of the Applicant Pool

When to Apply

The College of Veterinary Medicine is a participant in the Veterinary Medical College Application Service (VMCAS). The common application, currently accepted by all AAVMC participating colleges is available in January via VMCAS (https://www.aavmc.org/students-applicants-and-advisors/veterinary-medical-college-application-service/). By mid-May you will be able to add specific programs who wish to apply. In addition to completing the full VMCAS application, applicants must also complete and submit a required UF vet med professional application.
More Info (http://education.vetmed.ufl.edu/admissions/application/)

This secondary application is used to determine residency for tuition purposes. The completed secondary application must be received by the submission deadline of the VMCAS application. Admission is granted only for the Fall semester of each school year and only on a full-time basis.

Established

1933. Endowed in 1985 through a gift from alumnus Frederick E. Fisher.

Rankings

2025 *US News & World Report* ranked the School's undergraduate program 9th overall in the nation and 5th among public institutions.

Accredited

The Association to Advance Collegiate Schools of Business (AACSB) International.

Programs

Four-year undergraduate program, five-year 3/2 program with joint award of bachelor's and master's degrees in accounting.

Degrees

Bachelor of Science in Accounting (BSAc), Master of Accounting (MAcc).

Scholarships

Students completing the Master of Accounting should submit scholarship applications to the Fisher School early in the spring of the year prior to when they plan to earn the MAcc. Limited junior scholarships may also be available. More information can be found on the school's website (https://warrington.ufl.edu/accounting-current-students/financial-aid/). General financial aid information is available from the Office of Student Financial Aid and Scholarships.

Academic Policies

The information provided in this catalog is necessarily brief. In addition to the information herein, students are responsible for compliance with the policies and procedures described in the Fisher School of Accounting Student Handbook and Freshman/Sophomore Guide.
More Info (https://warrington.ufl.edu/accounting-current-students/bachelor-of-science-in-accounting/)

Admission Requirements

Submitting an Undergraduate Application

UF students who have selected accounting as their major upon entering the university will automatically be classified as accounting students. This classification will remain as long as the student meets universal tracking and other academic requirements. Other UF students who want to change their major to accounting apply at the Fisher School office. Transfer students apply through the university's Office of Admissions.

Junior Applicant Pool

The Fisher School of Accounting uses an applicant pool to select candidates for admission to its Bachelor of Science in Accounting program—BSAc. All applications that meet the minimum standards (defined in part A below) are placed into a pool from which the most qualified are selected for admission each term. Candidates with incomplete applications or who do not meet all minimum standards for inclusion in the applicant pool will be denied without further contact from our office.

Meeting the minimum admission criteria does not guarantee admission. Historically, to be a competitive candidate for admission, students have required grade point averages of well above 3.5 (overall and preprofessional), but the actual admission profile varies annually. GPA profiles of previously admitted classes can be found on the demographics section of the Fisher School website.

It is critical to note that admission decisions are not based exclusively on grades. Admission decisions use a holistic evaluation method which consider attributes such as, but not limited to: pattern of repeated coursework, drops, withdrawals, General Education deficiencies, the rigor of electives coursework completed, and the academic reputation of the program attended (including its accreditation). Although not required, serious candidates are encouraged to complete Calculus 2 (MAC 2234 or MAC 2312). Part C describes other important admission policies.

The BSAc is a challenging program that includes rigorous upper-division coursework. Admitted students are expected to have a good understanding of introductory accounting topics and are encouraged to spend significant time studying for the preprofessional courses ACG 2021 and ACG 2071 (or their equivalents), even if less studying is sufficient to obtain a high grade.

Once admitted, students will be required to take financial and managerial accounting competency exams prior to enrolling in ACG 3101. **Students who are unable to pass these exams will not be able to complete the major.** Applicants are encouraged to review the school's Accounting Competency Exams website (https://warrington.ufl.edu/accounting-current-students/competency-exams/).

Transfer candidates not offered admission to accounting but who are interested in studying business are encouraged to consider the Heavener School of Business (https://warrington.ufl.edu/about/heavener/), UF Online Business Program (https://warrington.ufl.edu/undergraduate-academics/online-business-program/) or business related majors offered by other UF colleges (https://warrington.ufl.edu/undergraduate-current-students/academic-advising/major-changes/business-related-majors-and-options/). It is important to note that all on-campus undergraduate students have the opportunity to minor in accounting (https://catalog.ufl.edu/UGRD/colleges-schools/UGACT/ACT_UMN/).

A. Minimum Standards for Inclusion in the Undergraduate Applicant Pool

1. **Meet the Office of Admissions minimum requirements for junior transfers.**
2. **Completion of, or in the process of completing, at least 60 semester credits of transferable coursework from an accredited institution**.
   - In the case of a transfer applicant from a community or state college within the State of Florida, an Associate of Arts degree (A.A.) is required prior to enrollment in the Fisher School of Accounting.
3. **Applicants will not be eligible for admission if they have earned 90 transferable hours.**
4. **Applicants should plan on completing all preprofessional coursework prior to the credentials deadline for the term for which they are seeking admission.** If official grades for ALL preprofessional coursework described herein have not been provided by the applicable credentials deadline, then the application will be deemed incomplete and denied without further notification from our office.
5. **A 3.0 cumulative GPA calculated on *all attempts* of all college-level coursework**. (See Detailed Computation of Cumulative GPA below.)
6. **Completion of seven preprofessional courses with a 3.0 GPA**. (See Detailed Computation of Preprofessional GPA below.)

Code	Title	Credits
ACG 2021	Introduction to Financial Accounting (or equivalent)	4
ACG 2071	Introduction to Managerial Accounting (or equivalent)	4
CGS 2531	Problem Solving Using Computer Software (or equivalent)	3
or ISM 3013	Introduction to Information Systems	
ECO 2013	Principles of Macroeconomics (or equivalent)	4
ECO 2023	Principles of Microeconomics (or equivalent)	4
MAC 2233	Survey of Calculus 1 (or equivalent)	3
STA 2023	Introduction to Statistics 1 (or equivalent)	3
CLEP credit is not acceptable to replace preprofessional coursework.		

7. **ACG 2021 Introduction to Financial Accounting and ACG 2071 Introduction to Managerial Accounting, or their equivalents, must be completed with a minimum grade of B** .
   - Applicants are permitted a maximum of two attempts (including drops and withdrawals) to earn the minimum B grade required in ACG 2021 and ACG 2071. If a series of courses is taken, which upon completion is equivalent to ACG 2021, then a minimum grade of B must be achieved in each course.

B. English Proficiency

Foreign applicants who are not exempt under university guidelines must complete the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System). **There are no exceptions to the minimum TOEFL and IELTS requirements listed below.**

- Minimum Scores:
  - TOEFL: Total > 100 / Listening > 26 / Writing > 17 / Reading > 20 / Speaking > 23
  - IELTS: Total > 7.0/ Listening > 7.0 / Writing > 7.0 / Reading > 7.0 / Speaking > 7.0

C. Policies Relating to Undergraduate (BSAc) Admissions

1. Meeting the minimum standards as stated herein does not guarantee admission into the Fisher School. Admission is selective.
2. Transfer students are advised that all 3000 level and above accounting and business core courses required of the BSAc degree must be taken at the University of Florida. The completion of more than one upper-division business or accounting course prior to admission will negatively affect prospects for admission.
3. The Office of Admissions determines the transferability of credit earned by coursework at other institutions. Credits for courses that are designated as vocational or technical, were repeats of previous courses taken, or were from non-accredited institutions will not be transferred for degree credit. In the case of coursework taken at community, state, and junior colleges, a maximum of 60 semester hours may be transferred. More than 60 semester hours may be transferred in the case of students entering from other accredited colleges and universities.

4. Admission to the University of Florida as a transfer student does not guarantee admission to the Fisher School. If a transfer student declares accounting as their major but is accepted into any other major, the student has not been accepted to the Fisher School of Accounting. Subsequent admission to the School will be based on the admission standards described herein.
5. Admission to the Fisher School does not constitute admission to the 3/2 Program. This requires a separate application to the Graduate School.
6. For students who are not offered admission to the BSAc, the State University System (https://www.flbog.edu/universities/) (SUS) website provides links to other accounting programs within the SUS.
7. Admission requirements into the Fisher School are always subject to change. Please visit the Fisher School of Accounting (https://warrington.ufl.edu/about/fisher/) website for the current standards.

GPA Calculations

1. Detailed computation of cumulative GPA:
   a. Courses deemed vocational are not factored into the GPA computation
   b. If an applicant has attended the University of Florida and another institution, the GPA calculation will be based only on the University of Florida coursework
   c. Grade forgiveness is not considered when computing the GPA. All attempts of repeated courses factor into the GPA
   d. For UF students, the UFGPA is calculated as described in the undergraduate catalog. Note that the handling of repeated coursework changed in Spring 2019
2. Detailed computation of preprofessional GPA:
   a. Grade forgiveness is not considered when computing the preprofessional GPA.
   b. When an applicant is repeating a course after having earned a grade of "C", "S", "P" or higher, the repeat grade will not be averaged into the preprofessional GPA computation (unless the repeated grade is lower than a C). However, when ACG2021 or ACG 2071 is repeated after earning a C, C+, or B-, then only the second attempt is computed in the preprofessional GPA.
   c. When the applicant completes two or more different courses (and each course fulfills the same preprofessional requirement), then the course used to compute the preprofessional GPA shall only include the first course completed. For example, if an applicant completes MAC 2311 with a "C", "S", or "P" grade and then later completes MAC 2233 receiving an "A" grade, only the grade earned in MAC 2311 will be used to compute the applicant's preprofessional GPA.
   d. If a student who earned credit for a preprofessional course (or its equivalent) via high school dual enrollment chooses to repeat the course at UF, after the UF grade is posted, it will replace the grade earned via dual enrollment in the preprofessional GPA, regardless of whether the UF grade is higher or lower than the dual enrollment grade.
   e. If ACG 2021 or ACG 2071 (or their equivalents) are taken via high school dual enrollment, those dual enrollment courses will not count as "attempts" toward earning a B or better. In other words, students will have 2 attempts to earn the B or better after graduating high school.
   f. If a student earns a B or better in ACG 2021 or ACG 2071 via high school dual enrollment, and subsequently retakes the course at UF, but does not earn a B or better, the student may still continue in the accounting major, assuming all other requirements are met.
   g. Aside from the above exceptions, all attempts of repeated courses will factor into the preprofessional GPA

Courses Taken at Other Institutions Before Admission to the University

Professional coursework that is required as part of the third, fourth or fifth year should be taken only at the University of Florida.

A maximum of one 3000/4000-level approved business core course may count toward the student's undergraduate degree. The student will be required to take another course in the area waived. Completion of more than one upper-division business or accounting course prior to admission will negatively affect prospects for transfer admission.

Upper-division accounting coursework taken elsewhere cannot be substituted for the accounting courses required for the BSAc degree.

Courses Taken at Other Institutions After Admission to the University

Courses may be taken outside the university only if:

- The student will have more than 30 credits left to graduate upon completion of such courses, with the exception of a UF approved study abroad program
- The student obtains advanced approval of the Fisher School of Accounting

After being admitted to UF, although permitted, students are strongly encouraged to take all preprofessional and critical tracking courses at UF.

Upper division accounting and business core coursework must be completed at the University of Florida.

Dual enrollment (taking courses at another institution during the same semester as UF courses) is not permitted.

Distance Learning Courses

Web-based courses offered in the university schedule of courses may be taken. However, UF Online courses, distance learning or flexible learning courses offered by the Division of Continuing Education are not permitted.

Performance Policies

Satisfactory/Unsatisfactory | S/U

An undergraduate student may request the S/U option for elective courses only. Courses taken to satisfy General Education, Writing Requirement, or degree program requirements, cannot be taken S/U. In addition, regardless of major, no course taught by the Fisher School of Accounting may be taken S/U, other than courses already scheduled to be taught as S/U only.

Unsatisfactory Performance

Students who do not make satisfactory academic progress will be dropped from the accounting program. In addition to university regulations concerning unsatisfactory performance, the school will exclude students from further registration for the following reasons:

First and Second Year Students

1. The student does not comply with the minimum universal tracking requirements.
2. Failure to comply with all additional universal tracking requirements listed in the Fisher School of Accounting Handbook and the Freshman and Sophomore Guide after one subsequent term of enrollment.
3. The student has not earned a B grade in ACG 2021 or ACG 2071 after two attempts (including drop or withdrawal).
4. The UF GPA fell below 3.0 and remained there after one subsequent term of enrollment.
5. The Cumulative GPA on all attempts of preprofessional coursework fell below the minimum 3.0 required and remained there after one subsequent term of enrollment.
6. The student has withdrawn from the university three times while classified as an accounting major. Withdrawals approved as medical by the university will not count towards this policy.

Third and Fourth Year Students

1. The student earns two grades below a C in accounting courses numbered 3000 and above regardless of whether the student was in the Fisher School of Accounting at the time they earned those grades.
2. The student's cumulative grade point average on all coursework completed at the University of Florida falls below 2.0 and, after **one** subsequent term of enrollment, this, or any other grade point average described herein, is below a 2.0.
3. The student's cumulative upper-division grade point average falls below a 2.0 and, after **one** subsequent term of enrollment, this, or any other grade point average described herein, is below a 2.0.
4. The student's accounting grade point average, calculated on **all attempts** of required accounting courses numbered 3000 and above, falls below 2.0 and, after **one** subsequent term of enrollment, this or any other grade point average described herein, is below a 2.0. If a student repeats a 3000 or above course, and earns a C or better on both attempts, only the first attempt will be calculated in this GPA.
5. The student withdraws from three full semesters after admission into the Fisher School of Accounting. Withdrawals approved as medical by the university will not count toward this policy.
6. The student fails to complete two required 3000 level and above accounting course in one academic year, defined as Fall, Spring, Summer (or Spring, Summer, Fall for Innovation Academy Students). The following exceptions apply:
   a. If no courses for which the student is eligible are offered over the Summer, the student will be granted an additional semester to complete a course.
   b. For upper-division transfer students, the academic year begins the semester the student matriculates. So, for Spring admits, the year is Spring, Summer, Fall.
   c. If the student is enrolled in a study abroad program, the student will be granted one additional semester to complete the next course.
   d. If the student is on an internship, but enrolled in UF courses, the student will be granted one additional semester to complete the next course. The student must either be enrolled in an internship course or provide documentation of the internship.
   e. If a student drops a required 3000 level or above accounting course, and the drop (or full-term withdrawal) is approved as medical by the university, the attempt at the course, though not truly "completed," will count as one of the two courses to be completed for the year for the purposes of this policy. In other words, if a student attempts two required 3000 level and above accounting courses in one academic year, completes one, and is approved for a medical drop for the other, the student will be permitted to continue in the accounting program. For purposes of this section, only a class that a student begins and is approved by the university as a medical drop or withdrawal would count as "completed."
7. For purposes of all of the above policies, the following rule applies to the definition of a **term**:.
   a. Any term for which a student registers for a course at the University of Florida counts as a term of enrollment, even if the student subsequently withdraws from the term (after the drop/add period)
   b. Summer registration is viewed as registration for one term, (e.g., whether a student registers for Summer A alone, or registers for Summer A and Summer B and C, the student is considered to have registered for one term)

8. Students admitted as junior transfers must meet all of the above requirements. However, their schedules may deviate quite a bit from the recommended 8-semester plan. Each transfer student will be required to meet with an academic advisor to develop a schedule that takes into consideration incoming credit, missing freshman/sophomore requirements, student goals, etc.

Refer to the University Grades and Grading policies for a discussion on grade point average computation.

Undergraduate Drop Policies

Students are limited in the number of courses they may drop.
More Info (p. 1904)

All other drop requests must be appealed to the Fisher School. The appeals committee is very strict when considering such requests and will not approve drops for reasons that are not clearly beyond the student's control.

Auditing a Course

The Fisher School of Accounting does not permit the auditing of any accounting course.

Degree Requirements

Application for Graduation

In addition to regular appointments throughout a student's time at UF, each student should plan to see an advisor in the semester before the term they intend to graduate. This allows the student to confirm that all degree requirements will be met.

It is the student's responsibility to apply for graduation through the degree application link on ONE.UF (https://one.uf.edu/) by the deadline (p. 1921) for that term. Failure to submit a timely application may prevent graduation.

Requirements for Degree Certification

To graduate with a BSAc degree, a student must:

1. Have satisfactorily completed 120 semester hours of the prescribed coursework. In addition:
   a. The student's last 30 hours of coursework must have been completed in residence at the University of Florida.
   b. The waiving of any required course does not reduce the hours required for graduation.
   c. Credit hours will not be given for repeated courses.
   d. A minimum of sixty credit hours of course work must be at the 3000 level or above.
   e. A minimum of sixty credit hours must be completed outside the Warrington College of Business and the Fisher School of Accounting. Up to 6 credits of course work with a QMB prefix may count toward this requirement.
2. Have a minimum 2.0 GPA (rounding not permitted) on all University of Florida coursework.
3. Have a minimum 2.0 upper-division GPA (rounding not permitted) on all University of Florida coursework (all courses taken after the student reaches 60 semester credit hours).
4. The above GPAs will be calculated as described in the Undergraduate Catalog. Note that the policy for repeated courses changed in Spring 2019.
5. Have a minimum 2.0 GPA (rounding not permitted) on all attempts of all required accounting courses numbered 3000 and above.
   a. The student must have completed a minimum of 22 semester credit hours of required junior/senior level accounting courses at the Fisher School of Accounting.
   b. For purposes of computing this GPA, if a course is repeated after having earned a grade of "C" or higher, the repeat grade will not be averaged into the GPA computation (unless the repeated grade is lower than a C).
6. Students who enter the University of Florida with fewer than 60 credits must earn at least nine credits before graduation during summer terms at a State University System (SUS) institution.
   a. Credits earned at State/Community Colleges do not count towards this requirement.
   b. Students who earn six credits through UF-sponsored, UF exchange or approved SUS study-abroad programs during one or two summer terms completely satisfy the summer-term enrollment requirement.
7. Meet all state and university degree requirements.

Accounting

The Bachelor of Science in Accounting (BSAc) is a four-year degree program that provides an excellent foundation in accounting and business. Its conceptual focus is designed to prepare students for success in a constantly evolving business environment and to prepare students for graduate studies.

About this Program

- **College:** Warrington College of Business
- **School:** Fisher School of Accounting (p. 106)
- **Degree:** Bachelor of Science in Accounting
- **Credits for Degree:** 120
- **Contact:** Email (%20fsoa@warrington.ufl.edu) | 352.273.0200 | 210 Gerson Hall (http://campusmap.ufl.edu/?loc=0054)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

School Information

Accounting at UF traces its roots back to 1923 when the first accounting course was offered. In 1977, the School of Accounting was established as an experimental model for six years. In 1983, the UF Faculty Senate voted to make the School permanent. In 1985, the School was renamed the Fisher School of Accounting after a generous donation from 1959 alumnus Fred Fisher. Today, the Fisher School has cultivated a distinctive identity at the University of Florida and among the nation's top business programs.

Curriculum

- Accounting
- Accounting Minor
- Combination Degrees

Some students enter the Fisher School of Accounting with the intention of limiting their accounting studies at UF to undergraduate coursework. These students view the BSAc degree as providing valuable preparation for post-graduate studies in areas other than accounting, (e.g., law), or they plan to complete their graduate accounting studies at another institution.

Most accounting majors are seeking additional accounting education beyond the foundation provided by an undergraduate degree and go on to complete a graduate degree in accounting. Students enrolled in the BSAc Program are eligible to apply for early admission to graduate school via the Fisher School's combined 3/2 program.

While professional accountants can serve in many capacities, many BSAc graduates go on to become licensed as Certified Public Accountants (CPAs). Students are cautioned that completion of the BSAc degree will not satisfy the licensure requirements to practice as a CPA in the State of Florida, and may not satisfy the requirements in other states or jurisdictions. For information regarding eligibility to sit for the CPA exam, and to obtain CPA licensure, for all states and jurisdictions, visit the National Association of State Boards of Accountancy (https://www.nasba.org/).

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Tracking requirements for semesters 5-8 indicate the minimum benchmarks to graduate in a timely manner. However, it is strongly recommended students complete upper-division accounting and business core courses earlier than required by Critical Tracking, especially those students interested in pursuing the Master of Accounting degree. Students should meet with an academic advisor no later than Semester 4 to begin planning for their junior and senior years. In addition, please review the BSAc degree requirements for more information on requirements for degree certification.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

About Selecting General Education Courses

- To ensure accounting students have breadth in their General Education experience, 3000/4000-level business core courses may not be used to satisfy General Education requirements. For example, MAN 3025 and MAR 3023 may not be used to fulfill Social Science and Behavioral Science requirements.
- The selection of General Education courses in the model semester plan is intended as a guide. Accounting students may vary their choice of General Education courses, providing the selection of coursework complies with all university requirements. For additional information, refer to the General Education Program (p. 77) and meet with an undergraduate advisor.

Semester 1

- Complete 2 of the 8 critical-tracking courses: ACG 2021, ACG 2071, CGS 2531 (or ISM 3013), ECO 2013, ECO 2023, MAC 2233, MAC 2234, STA 2023
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 2

- Complete 2 additional courses of the 8 critical-tracking courses (1 of the 4 courses must be MAC 2233 or equivalent)
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 3

- Complete 2 additional courses of the 8 critical-tracking courses (1 of the 6 courses must be ACG 2021 with a minimum grade of B)
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 4

- Complete all 8 critical-tracking courses (ACG 2071 must be completed with a minimum grade of B)
- Complete General Education and the university Writing Requirement
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 5

- Complete one of ACG 3101 or ACG 3401 with a C or better
- Complete 2 of the 8 business core courses: BUL 4310, FIN 3403, GEB 3373, MAN 3025, MAN 4504, MAR 3023, QMB 3250, QMB 3302
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 6

- Complete ACG 3101 and ACG 3401 with a C or better
- Complete 4 of the 8 business core courses, including FIN 3403 and QMB 3250
- 2.0 GPA required on all accounting courses number 3000 and above
- 2.0 upper-division GPA required (all courses taken after the student earned 60 credits)
- 2.0 UF GPA required

Semester 7

- Complete ACG 4111 and ACG 4341 with a C or better
- Complete 7 of the 8 business core courses
- 2.0 GPA required on all accounting courses number 3000 and above
- 2.0 upper-division GPA required (all courses taken after the student earned 60 credits)
- 2.0 UF GPA required

Semester 8

- Complete ACG 4632 (or ACG 5637 and ACG 5647)
- Complete TAX 4001 (or TAX 5025 and TAX 5027)
- Complete all 8 business core courses
- Complete all other degree requirements
- 2.0 GPA required on all accounting courses number 3000 and above
- 2.0 upper-division GPA required (all courses taken after the student earned 60 credits)
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms listed above in the Critical Tracking criteria.

Important Note

This plan assumes that the student does NOT intend to complete the Master of Accounting (MAcc) program. Students who are considering the MAcc program should progress more quickly through the coursework, and are **strongly** advised to meet with an academic advisor to discuss their plans prior to the end of Semester 4.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
ECO 2023	Principles of Microeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	4
MAC 2233	Survey of Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	3
State Core Gen Ed Composition (p. 80); Writing Requirement: 6,000 words		3
Elective		1
	Credits	**14**
Semester Two		
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	4
GEB 2216	Professional Writing in Business (Gen Ed Composition; Writing Requirement: 6,000 words)	3
MAC 2234	Survey of Calculus 2 (**Critical Tracking**; Gen Ed Mathematics)	3
State Core Gen Ed Humanities (p. 80)		3
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
	Credits	**16**
Semester Three		
ACG 2021	Introduction to Financial Accounting (**Critical Tracking**)	4
Select one:		3-4
CGS 2531	Problem Solving Using Computer Software (**Critical Tracking**; Gen Ed Mathematics)	
ISM 3013	Introduction to Information Systems (**Critical Tracking**)	
GEB 3218	Professional Speaking in Business	3
Gen Ed Humanities with International; Writing Requirement: 6,000 words		3
Elective		2
	Credits	**15-16**
Semester Four		
Quest 2 (Gen Ed Biological or Physical Sciences)		3
ACG 2071	Introduction to Managerial Accounting (**Critical Tracking**)	4
STA 2023	Introduction to Statistics 1 (**Critical Tracking**)	3
Gen Ed Social and Behavioral Sciences; Writing Requirement: 6,000 words		3

Elective		2
	Credits	**15**
Semester Five		
ACG 3101	Financial Accounting and Reporting 1 (**Critical Tracking**)	4
FIN 3403	Business Finance (**Critical Tracking**)	4
MAN 3025	Principles of Management (**Critical Tracking**)	4
QMB 3250	Statistics for Business Decisions (**Critical Tracking**)	4
	Credits	**16**
Semester Six		
ACG 3401	Business Processes and Accounting Information System (**Critical Tracking**)	4
ACG 4111	Financial Accounting and Reporting 2 (**Critical Tracking**)	4
MAR 3023	Principles of Marketing (**Critical Tracking**)	4
QMB 3302	Foundations of Business Analytics and Artificial Intelligence (AI) (**Critical Tracking**)	4
	Credits	**16**
Semester Seven		
ACG 4341	Cost and Managerial Accounting (**Critical Tracking**)	4
BUL 4310	The Legal Environment of Business (**Critical Tracking**)	4
GEB 3373	International Business (**Critical Tracking**)	4
Elective (3000-level or higher)		3
	Credits	**15**
Semester Eight		
Select one:		3-4
ACG 4632	Introduction to Auditing (**Critical Tracking**)	
ACG 5637 & ACG 5647	Auditing I and Auditing II (**Critical Tracking**)	
MAN 4504	Operations and Supply Chain Management (**Critical Tracking**)	4
Select one:		3-4
TAX 4001	Introduction to Federal Income Tax (**Critical Tracking**)	
TAX 5025 & TAX 5027	Federal Income Tax 1 and Federal Income Tax 2 (**Critical Tracking**)	
Elective (3000-level or higher)		3
	Credits	**13-15**
	Total Credits	**120**

Academic Learning Compact

The major offers a balanced, intellectually vibrant study of accounting. Upon completion of the baccalaureate program, students will possess the requisite accounting skills for entry-level positions in the practice of public accounting, in industry, in financial services, in government, and in business more generally. Students also will be prepared for graduate study in accounting, in business, and in related professions such as the law. More broadly, students will be prepared for success in a constantly evolving global economy.

Before Graduating Students Must

- Take the Business Field Test as prepared and administered by the Educational Testing Service (ETS). The score will be incorporated into a core business course taken in the final term.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe individual business disciplines and their relationship to the global business environment.
2. Prepare financial statements based upon generally accepted accounting principles.
3. Identify basic US tax laws applicable to businesses and individuals.
4. Explain the attestation function and describe generally accepted auditing standards.
5. Describe the basic concepts of cost and managerial accounting and explain its role in business.

Critical Thinking

6. Apply mathematical concepts and technology to interpret, understand, and communicate quantitative data.
7. Apply the conceptual framework, economic reasoning, and generally accepted accounting principles to solving accounting problems.

8. Analyze and interpret economic and financial events for internal decision-making purposes.
9. Attest to the fairness of financial representations and to the adequacy of internal controls.
10. Prepare basic individual and business tax returns and apply US tax laws for tax planning purposes.

Communication

11. Effectively produce, interpret, and analyze written text, oral messages, and multimedia presentations used in business.

Accounting Minor

The Accounting minor is open to all non-accounting students. It offers a strong foundation in financial and managerial accounting beyond the introductory level.

About this Program

- **College:** Warrington College of Business
- **School:** Fisher School of Accounting (p. 106)
- **Credits:** 24
- **Contact:** Email (%20fsoa@warrington.ufl.edu) | 352.273.0200 | 210 Gerson Hall (http://campusmap.ufl.edu/?loc=0054)

School Information

Accounting at UF traces its roots back to 1923 when the first accounting course was offered. In 1977, the School of Accounting was established as an experimental model for six years. In 1983, the UF Faculty Senate voted to make the School permanent. In 1985, the School was renamed the Fisher School of Accounting after a generous donation from 1959 alumnus Fred Fisher. Today, the Fisher School has cultivated a distinctive identity at the University of Florida and among the nation's top business programs.

Curriculum

- Accounting
- Accounting Minor
- Combination Degrees

With the increasingly interdisciplinary model used by businesses, completion of the minor broadens career opportunities and increases the student's marketability. With careful course selection, completion of the minor will accrue enough accounting credits for students from any major to apply for direct admission to the Master of Accounting program upon completion of the undergraduate degree.

Required Courses

Code	Title	Credits
ACG 2021	Introduction to Financial Accounting [1]	4
ACG 2071	Introduction to Managerial Accounting [2]	4
ACG 3101	Financial Accounting and Reporting 1 [3]	4
ACG 3401	Business Processes and Accounting Information System [4]	4
ACG 4111	Financial Accounting and Reporting 2 [5]	4
ACG 4341	Cost and Managerial Accounting [6]	4
Total Credits		**24**

1. Prereq: sophomore standing.
2. Prereq: ACG 2021
3. Prereq: ACG 2021 and ACG 2071 with minimum grades of B, score of 70% on the Fisher School of Accounting Financial and Managerial Accounting Competency Assessments.
4. Prereq: ACG 2021 and ACG 2071 with minimum grades of B; CGS 2531 or ISM 3013.
5. Prereq: ACG 3101 with minimum grade of C, FIN 3403.
6. Prereq: ACG 3101 and ACG 3401 with minimum grades of C, MAC 2234 and QMB 3250.

Additional Requirements

- Students must be in an on-campus program. The minor is not available to UF students in online programs.
- All 3000-level and above coursework must be completed at the University of Florida.

- All course and grade prerequisites must be satisfied. Because the prerequisites for some upper-division accounting courses include business courses not included herein, non-business majors typically have to complete additional business courses to complete this minor.
- A minimum grade of C is required for each course in the minor, except for ACG 2021 and ACG 2071, which require a minimum grade of B.
- With advanced approval from the Fisher School, additional 3000-level or above accounting courses may be substituted for the requirements listed above.

Agricultural and Life Sciences | College of

Established in 1884, the mission of the College of Agricultural and Life Sciences is to deliver unsurpassed educational programs that prepare students to address the world's critical challenges related to agriculture, food systems, human well-being, natural resources, and sustainable communities.

Academic Advising
2020 McCarty Hall D
352.392.1963

Established

1884

Academic Advising

Each major has an undergraduate coordinator and faculty and staff advisors. Students see advisors in their majors for academic advising.

Internships and Career Guidance

The college's director of Alumni and Career Services assists students with interview preparation and job search resources. The college also sponsors CALS Career Expo in February.

Scholarships

The college provides nearly $400,000 annually in undergraduate scholarships. Applications are available in December. College scholarship applications are typically due on or before March 15 of each year. For more information, contact the college dean's office. Many departments also offer undergraduate scholarships.

Academic Policies

Admission | Freshmen

First-semester freshmen at the university will be admitted to the college when they declare a major. Students can remain in that major as long as they continue to meet or to exceed the critical-tracking criteria for the major. Students who fall below the minimum critical-tracking criteria or who fall below the minimum progression standards will not be allowed to continue in the major. These students must meet with an academic advisor to determine an alternative major.

Admission | Non-Freshmen

All UF students other than first-semester freshmen must apply to a major in this college. Students should first meet with an advisor in their major of interest. Unless otherwise specified by particular majors, students will be admitted to the major if they meet or exceed the critical-tracking criteria.

Readmission to the College

CALS students who have been dismissed from the university for poor academic performance can petition UF and the college for readmission after one semester.

Transfer Students

A transfer student from a Florida public college must have an Associate of Arts degree (or 60 credits for students transferring from private institutions, four-year institutions or institutions outside of Florida) and satisfy the admission requirements for the intended major to be eligible for admission to the college. Prospective transfer students should consult the College of Agricultural and Life Sciences Transfer Guide to ensure completion of the required courses for admission to the college and the major of interest.
More Info (https://cals.ufl.edu/content/PDF/Transfer_Guide.pdf)

Detailed information on transfer admission and university admission requirements is available from the Office of Admissions.
More Info (p. 23)

Transfer students from other universities and non-Florida public colleges should complete the first two years' requirements for the major before transferring to UF and to this college.

Student Responsibility

Students are expected to assume full academic responsibility for registering for and completing the proper courses and for fulfilling all requirements for the degree. Students should consult their advisors before registering for each semester to ensure that appropriate courses are taken in the proper sequence. Students who do not enroll in appropriate courses may not be allowed to register for the following term.

College Probation

A student whose overall grade point average falls below 2.0 is placed on college probation. The associate dean will notify the student that they are on probation and must remove all deficit points in two semesters or face college suspension.

During college suspension a student cannot register as a College of Agricultural and Life Sciences student.

College Retention Program

The college works individually with students on college probation to provide them an opportunity for academic success at the university. The retention program identifies obstacles that could prevent academic success, provides structure and mechanisms for success and connects students to administrators, faculty and staff who are committed to helping them.

Critical-Tracking Criteria

Students who do not complete the appropriate number of tracking courses each semester, and/or do not have the required tracking GPA, will have a hold placed on their record to prevent advance registration. They must meet with an advisor in their major to determine whether they may continue in that major.

Drop Policy

Students can drop courses during the drop/add period without penalty. Thereafter, courses can be dropped only by college petition in accordance with the deadlines. Drops requiring college petition are subject to the following rules:

- After the university's drop deadline, students must first meet with an academic advisor in their major and then submit a petition to the college office.
- Students who withdraw from UF (drop all courses) must go to the Dean of Students Office, 202 Peabody Hall, to meet with an advisor.

General Education

Courses that satisfy General Education requirements are listed by category. The courses listed represent the most expedient way to fulfill graduation requirements. However, students can satisfy degree requirements with alternative course sequences. An economics course is required for all students and this course may also meet General Education requirements.

The college requires all students to complete courses in oral and written communication in addition to the General Education requirements. In majors where an equivalency is permitted, students should see their advisors for approved alternative courses. When majors list specific courses, students must select courses from the list.

Internships

By prior arrangement with an advisor and with supervision, a student may receive credit for practical work experience relevant to the major. Credit is earned at the rate of one credit per month of full-time work and cannot exceed three credits in any combination of work experience. A written report must be submitted before a (S or U) grade will be issued. Academic units offering this option list the course number 4941. Minimum criteria and general guidelines are available from the undergraduate coordinator for the major.

Minors

Pursuit of a minor is an excellent way for students to expand their knowledge of a particular subject and get the most out of their educational experience at UF. **The minor provides a traditional and well-accepted way to recognize that a student has completed a significant body of work outside the major.** Students can follow-up on long-time personal interests, satisfy intellectual curiosity generated by introductory courses, differentiate their program of study from those of fellow students or enhance their opportunities for employment or for admission to graduate or professional schools.

There is no limit to the number of minors a student can pursue, however, the addition of minors should not add more time to the student's academic career at UF.

Eligibility Requirements

- An established UF GPA of 2.0 or higher
- On-track to complete your degree in a timely manner
- 45 credits earned
- Be able to complete the minor(s) in a timely fashion; it is forbidden to extend graduation for the sole purpose of completing a minor
- Complete a **minimum of 6 credits exclusive to the minor** (these exclusive credits will not count toward major(s) credit which includes critical tracking, college, major core, and advisor, departmental, and elective approved requirements for the student's major or other minors)

College Honors Program

The CALS honors program is for students who have completed 60-90 credits and have a 3.75 or higher overall GPA.

CALS honors coursework integrates with required and elective courses in the student's chosen curriculum. To graduate as a CALS honors scholar, students must complete each requirement below and maintain a minimum upper-division GPA of 3.75.

- ALS 3923
- XXX 4915 Honors Thesis Research (3 credits)
- Two additional honors courses
- Honors thesis. Thesis projects are scholarly activities in teaching, research or extension that involve guided independent work. The student's project must have clear objectives and expected outcomes.

CALS honors coursework is identified as such on the transcript. Students who complete the program successfully are designated *CALS honors scholars* and receive a scholar's medallion and certificate.

Completion of the CALS honors program automatically qualifies students for graduation with *magna cum laude* or *summa cum laude* designation.

Students who are not in the CALS honors program can still graduate *magna cum laude* or *summa cum laude*, provided they have the necessary GPA and complete the honors thesis.

For additional information, contact the CALS honors program director at 352.392.1963.

Degree Requirements

A Bachelor of Science or Bachelor of Arts degree requires a minimum of 120 credits. In addition, students must have university and junior/senior-level minimum GPAs of 2.0.

Students must complete the General Education and major requirements in effect at the time of their initial enrollment at UF.

Seniors must file an online application for degree with the Office of the University Registrar early in the semester in which they expect to graduate. More Info (https://registrar.ufl.edu/services/degree-application/)

Graduating with Honors (p. 1840)

Residence

The College of Agricultural and Life Sciences requires completion of 60 semester credits or more of coursework at the university for award of a baccalaureate degree. Some coursework can be taken at other accredited four-year institutions with approval of the college.

The last 30 semester credits applied toward a degree must be completed in residence in the college. In special cases, the college can waive this requirement.

Students can complete six of the required 30 credits of residence work by flexible learning, but each course must be approved in advance by the undergraduate coordinator for the major and by the college. The college will not accept flexible credit unless a student has a minimum upper-division GPA of 2.0 in all work attempted in residence.

Programs

MAJORS

The college's majors encompass agricultural sciences, natural sciences, social sciences, life sciences and preprofessional studies. Programs in the college prepare students for professional studies in dentistry, law, medicine, pharmacy, and veterinary medicine as well as graduate study.

Statewide Academic Programs

Recognizing the needs of nontraditional students, the university offers several Bachelor of Science degree programs at the following locations or via distance education:

- Apopka (http://mrec.ifas.ufl.edu/)
  - Plant Science
- Fort Lauderdale (http://flrec.ifas.ufl.edu/)
  - Geomatics
  - Plant Science
- Milton (http://wfrec.ifas.ufl.edu/)

    - Natural Resource conservation
    - Plant Science
- Plant City (https://gcrec.ifas.ufl.edu/uf-plant-city/degree-programs/)
    - Agricultural Education and Communication
    - Geomatics
- Online
    - Environmental Management in Agriculture and Natural Resources (p. 318)
    - Microbiology and Cell Science (p. 337)

Students must first earn an AA degree from a Florida public college or 60 credits from another accredited institution, complete specific prerequisite courses, meet a specific GPA requirement and apply for admission to UF. After being accepted, students can pursue a Bachelor of Science without moving to Gainesville.

These students are also eligible for UF and CALS scholarships. UF faculty members teach and advise all students, and upon completion of the program requirements, UF confers the degree.

Courses in these programs are also available to the general public for continuing education.

Preprofessional Programs

Several CALS majors have specializations that help students complete the preprofessional requirements for admission to the colleges of dentistry, law, medicine, pharmacy and veterinary medicine.

- Students preparing for law careers can select any major in the college
- Specializations in animal sciences, biology, botany, entomology and nematology, food science, microbiology and cell science, nutritional sciences, and wildlife ecology and conservation prepare students for programs in medicine, dentistry, veterinary medicine, optometry and pharmacy
- Biology majors and nutritional sciences majors are eligible for the Junior Honors Medical Program
- Qualified students can apply to the honors combination BS/DMD program in the College of Dentistry after one semester in their freshman year at UF. This program helps highly motivated students complete the bachelor's degree and DMD in a shorter time than the two traditional programs. Participants major in microbiology and cell science or nutritional sciences. Both majors provide the science foundation required for dental school. More Info (http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program/)

Agricultural and Natural Resource Communication Minor

Open to all students, the Agricultural and Natural Resource Communication minor provides an opportunity to gain a basic understanding of and to develop a skill level for communication techniques in agriculture and natural resources.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15 | Completed with a minimum cumulative 2.5 GPA for courses in the minor

Department Information

The UF/IFAS Department of Agricultural Education and Communication is a group of faculty, staff and students committed to connecting people with agriculture and natural resources through agricultural communication, education, leadership development and Extension education.

Required Courses

Code	Title	Credits
Select five:		15
AEC 3030C	Effective Oral Communication [1]	
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences [2]	
AEC 3043	Communication and Leadership for Agricultural and Life Sciences Policy Issues	
AEC 3065	Issues in Agricultural and Life Sciences	
AEC 3070C	Digital Media Production in Agricultural and Life Sciences	
AEC 3071	Social Media Strategy and Leadership for Agricultural and Life Sciences	
AEC 3073	Intercultural Communication	
AEC 3209	Instructional and Event Planning in Agricultural and Life Sciences	
AEC 4031	The Communication Process in Agricultural and Life Sciences	
AEC 4035	Communication Practices for Agricultural and Life Sciences	
AEC 4036	Advanced Agricultural Communication Production	
AEC 4434	Communication and Leadership in Groups and Teams	
AEC 4946	Comm and Lead Dev Internship	
Total Credits		**15**

1 Or equivalent speech course.
2 Or equivalent writing course.

Agricultural and Natural Resource Ethics and Policy Minor

The interdisciplinary Agricultural and Natural Resource Ethics and Policy minor is available to undergraduate students who wish to augment their technical training in the agricultural and natural resource-related disciplines with selected liberal arts and sciences courses and College of Agricultural and Life Sciences policy-related courses.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15

Open to all students, the Agricultural and Natural Resource Communication minor provides an opportunity to gain a basic understanding of and to develop a skill level for communication techniques in agriculture and natural resources.

Required Courses

Code	Title	Credits
AEB 4126	Agricultural and Natural Resource Ethics	3
Agriculture and Natural Resources electives		6
Ethics, Social, and Political Analysis electives		6
Total Credits		**15**

Approved Electives

Agriculture and Natural Resources Electives

Code	Title	Credits
AEB 3450	Introduction to Natural Resource and Environmental Economics [1]	3
AEB 4123	Agricultural and Natural Resource Law	3
AEB 4242	International Trade Policy in Agriculture	3
AEB 4283	International Development Policy	3
AGG 3501	Environment, Food and Society	3
ALS 3133	Agricultural and Environmental Quality	3
EES 4050	Environmental Planning and Design	3
FNR 3004	Forests, Conservation, and People	3

FNR 3500C	Forest Ecology	3
FNR 4660	Natural Resource Policy and Economics	3
FOS 4731	Government Regulations and the Food Industry	2
WIS 4523	Human Dimensions of Natural Resource Conservation	3

[1] Cannot take AEB 3450 and ECP 3302 for credit towards the minor.

Ethics, Social, and Political Analysis Electives

Code	Title	Credits
ANT 4403	Environment and Cultural Behavior	3
ECP 3302	Environmental Economics and Resource Policy [1]	4
GEO 3372	Conservation of Resources	3
PHI 3650	Moral Philosophy	3
PHM 3032	Ethics and Ecology	3
PHM 3202	Political Philosophy	3
POT 2002	Introduction to Political Theory	3
POT 3503	Environmental Ethics and Politics	3

[1] Cannot take ECP 3302 and AEB 3450 for credit towards the minor.

Agricultural and Natural Resource Law Minor

The Agricultural and Natural Resource Law minor is open to undergraduates from all disciplines who wish to focus on business, environmental, and social regulatory issues related to the production of food, fuel, and fiber.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15

Required Courses

Code	Title	Credits
AEB 4085	Agricultural Risk Management and the Law	3
AEB 4123	Agricultural and Natural Resource Law	3
Approved electives		9
Total Credits		**15**

Other courses with a focus on policy, law, or business structure can be considered by the advisor for the minor.

Approved Electives

Code	Title	Credits
AEB 4126	Agricultural and Natural Resource Ethics	
AEB 4242	International Trade Policy in Agriculture	
AEB 4283	International Development Policy	
AEB 4424	Human Resources Management in Agribusiness	
BUL 4310	The Legal Environment of Business	
FNR 4080	Sustainable Ecotourism Development	
FNR 4660	Natural Resource Policy and Economics	
FOS 4731	Government Regulations and the Food Industry	
WIS 4523	Human Dimensions of Natural Resource Conservation	

Agricultural Curriculum and Development Minor

This minor supplements academic majors and prepares students for careers in school-based agricultural education and other agricultural outreach programming. The minor offers coursework in formal educational methods, curriculum design, and program planning for youth programs.

Agricultural Education and Communication

With a focus on connecting people with agriculture and natural resources, Agricultural Education and Communication professionals empower communities to gain a balanced understanding of food systems, natural resources, and related sciences. Agricultural Education and Communication students supplement core technical agriculture courses with teaching, leadership, and/or media experiences.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Specializations:** Agricultural Education (p. 129) | Communication and Leadership Development (p. 138)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The UF/IFAS Department of Agricultural Education and Communication is a group of faculty, staff and students committed to connecting people with agriculture and natural resources through agricultural communication, education, leadership development and Extension education.

- Leadership Minor

SPECIALIZATIONS

Two specializations are offered: Agricultural Education and Communication and Leadership Development. Each requires core courses and electives. Department advisors help students in selecting appropriate electives.

Agricultural Education

The Agricultural Education specialization prepares students for a variety of rewarding careers in teaching. This includes teaching agriculture and natural resources in middle schools and high schools, as well as educator positions in agency, community, and non-profit settings.

Students who complete the program of study for this specialization are prepared to meet the Florida Department of Education's requirements for agriculture teacher certification, and they also possess the "people skills" sought by employers throughout the agriculture industry and in other public and private sectors.

Communication and Leadership Development

The Communication and Leadership Development specialization prepares students for entry into agribusiness and communication positions related to human resource development, corporate training, political interests and agricultural literacy. Coursework focuses on core leadership and communication courses that includes digital media, writing, and interpersonal skills.

Academic Learning Compact

Students will learn the knowledge and skills needed to educate individuals, enhance leadership in communities and organizations and communicate ideas and issues to different audiences. Through formal courses and internship experiences, students will learn to apply principles of communication and educational theory to work-based settings; to create, interpret and analyze written and oral messages and multimedia presentations used in agricultural and life sciences; and to educate and communicate agricultural issues effectively to various audiences.

Before Graduating Students Must

- Agricultural Education specialization: Achieve a passing grade on the state of Florida's Professional Knowledge Exam for teacher certification.
- Communication and Leadership Development specialization: Achieve a minimum grade of C in AEC 4052, the communication and leadership development capstone experience, as evaluated by a committee of faculty.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C.
- Achieve a minimum grade of C in a department internship course (AEC 4942, AEC 4943, AEC 4944 or AEC 4948) or a capstone experience course (AEC 4052).
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe, explain, and apply fundamental pedagogical concepts, skills and processes.
2. Describe, explain, and apply fundamental concepts, skills and processes in technical agriculture.

Critical Thinking

3. Analyze and apply data from multiple assessments and measures to diagnose students' learning needs, inform instruction based on those needs, and drive the learning process.
4. Critique and assess data-informed research to improve instruction and student achievement.

Communication

5. Demonstrate written communication forms in a manner appropriate in Agricultural Education.
6. Develop oral communication presentations in a manner appropriate in Agricultural Education.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5	SLO 6
AEC 3030C						I, R, A

Agricultural Education

The Agricultural Education specialization prepares students for a variety of rewarding careers in teaching. This includes teaching agriculture and natural resources in middle schools and high schools, as well as educator positions in agency, community, and non-profit settings.

Students who complete the program of study for this specialization are prepared to meet the Florida Department of Education's requirements for agriculture teacher certification, and they also possess the "people skills" sought by employers throughout the agriculture industry and in other public and private sectors.

The Agricultural Education specialization provides the basic courses for agricultural teacher certification in Florida. Students must have a minimum 2.5 GPA to enter the agricultural education specialization and, during their first semester, attain a passing score on the general knowledge portion of the FTCE (or have met the requirement through alternative assessment). An internship is required for this specialization. In addition, graduates must apply to the Florida Department of Education for certification.

This specialization is also offered at the Gulf Coast Research and Education Center in Plant City, FL and through UF Online.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 4 critical-tracking courses, excluding labs: AEC 3030C (or equivalent), BSC 2005, BSC 2005L (or any GE-B or P laboratory), EDF 2110 (or equivalent) and MAC 1140 (or equivalent)
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 4

- Complete all lower division critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete one of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete two of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete three of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required
-

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
AEB 2014	Current Economic Issues, Food and You (Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (Gen Ed Social and Behavioral Sciences)	
ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
AEB 3103	Principles of Food and Resource Economics (Gen Ed Social and Behavioral Sciences)	
BSC 2005	Biological Sciences (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	3
Select one:		1
BSC 2005L	Laboratory in Biological Science (**Critical Tracking**; Gen Ed Biological Sciences)	
Gen Ed Biological or Physical Sciences (**Critical Tracking**; Laboratory)		
Select one:		3
EDF 2110	Human Growth and Development	
EDF 3122	The Young Child (**Critical Tracking**)	
EDF 3132	The Young Adolescent (**Critical Tracking**)	
EDF 3135	The Adolescent (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
EDF 3210	Educational Psychology (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
State Core Gen Ed Composition (p. 80)		3
Elective		2
	Credits	**15-16**
Semester Two		
Quest 1 (Gen Ed Humanities)		3
MAC 1140	Precalculus Algebra (**Critical Tracking**; State Core Gen Ed Mathematics)	3
State Core Gen Ed Humanities (p. 80)		3
Gen Ed Biological or Physical Sciences		3
Elective		3
	Credits	**15**
Semester Three		
AEC 3030C	Effective Oral Communication (**Critical Tracking**)	3
EDF 2085	Teaching Diverse Populations	3
RED 3312	Content Area Literacy	3
Gen Ed Composition		3
STA 2023	Introduction to Statistics 1 (recommended; Gen Ed Mathematics)	3
	Credits	**15**

Semester Four		
Quest 2 (Gen Ed Physical Sciences)		3
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement)	3
Elective		3
Gen Ed Humanities		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
	Credits	**15**
Semester Five		
AEB 3133	Principles of Agribusiness Management	3
AEC 4323	Development and Philosophy of Agricultural Education (**Critical Tracking**)	3
AEC 4504	Curriculum and Program Planning for Agricultural Education (**Critical Tracking**)	3
ANS 3006 & 3006L	Introduction to Animal Science and Introduction to Animal Science Laboratory	4
TSL 4324	ESOL Strategies for Content Area Teachers	3
	Credits	**16**
Semester Six		
AEC 4202	Curriculum Development and Assessment Techniques in Emerging Agricultural Technologies (**Critical Tracking**)	3
AEC 4228	Laboratory Practices in Teaching Agricultural Education (**Critical Tracking**)	3
SWS 3022 & 3022L	Introduction to Soils in the Environment and Introduction to Soils in the Environment Laboratory	4
Agricultural or life sciences elective		3
Horticulture or plant science elective		3
	Credits	**16**
Semester Seven		
AEC 4200	Teaching Methods in Agricultural Education (**Critical Tracking**)	3
Select one:		3
ENY 3005	Principles of Entomology	
IPM 3022	Fundamentals of Pest Management	
ENY 3007C	Life Science	
ENY 4161	Insect Classification	
AOM 3220	Agricultural Construction and Maintenance	3
Agricultural or life sciences electives		7
	Credits	**16**
Semester Eight		
AEC 4224	Special Methods in Teaching Agricultural Education (**Critical Tracking**)	3
AEC 4942	Agricultural Education Internship (**Critical Tracking**)	9
	Credits	**12**
	Total Credits	**120**

Total agricultural or life sciences courses required: 30 credits in at least four areas.

Academic Learning Compact

Students will learn the knowledge and skills needed to educate individuals, enhance leadership in communities and organizations and communicate ideas and issues to different audiences. Through formal courses and internship experiences, students will learn to apply principles of communication and educational theory to work-based settings; to create, interpret and analyze written and oral messages and multimedia presentations used in agricultural and life sciences; and to educate and communicate agricultural issues effectively to various audiences.

Before Graduating Students Must

- Agricultural Education specialization: Achieve a passing grade on the state of Florida's Professional Knowledge Exam for teacher certification.
- Communication and Leadership Development specialization: Achieve a minimum grade of C in AEC 4052, the communication and leadership development capstone experience, as evaluated by a committee of faculty.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C.
- Achieve a minimum grade of C in a department internship course (AEC 4942, AEC 4943, AEC 4944 or AEC 4948) or a capstone experience course (AEC 4052).
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe, explain, and apply fundamental pedagogical concepts, skills and processes.
2. Describe, explain, and apply fundamental concepts, skills and processes in technical agriculture.

Critical Thinking

3. Analyze and apply data from multiple assessments and measures to diagnose students' learning needs, inform instruction based on those needs, and drive the learning process.
4. Critique and assess data-informed research to improve instruction and student achievement.

Communication

5. Demonstrate written communication forms in a manner appropriate in Agricultural Education.
6. Develop oral communication presentations in a manner appropriate in Agricultural Education.

Agricultural Education

With a focus on connecting people with agriculture and natural resources, Agricultural Education and Communication professionals empower communities to gain a balanced understanding of food systems, natural resources, and related sciences. Agricultural Education and Communication students supplement core technical agriculture courses with teaching, leadership, and/or media experiences.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science

- **Specializations:** Agricultural Education (p. 129) | Communication and Leadership Development (p. 138)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The UF/IFAS Department of Agricultural Education and Communication is a group of faculty, staff and students committed to connecting people with agriculture and natural resources through agricultural communication, education, leadership development and Extension education.

- Leadership Minor

SPECIALIZATIONS

Two specializations are offered: Agricultural Education and Communication and Leadership Development. Each requires core courses and electives. Department advisors help students in selecting appropriate electives.

Agricultural Education

The Agricultural Education specialization prepares students for a variety of rewarding careers in teaching. This includes teaching agriculture and natural resources in middle schools and high schools, as well as educator positions in agency, community, and non-profit settings.

Students who complete the program of study for this specialization are prepared to meet the Florida Department of Education's requirements for agriculture teacher certification, and they also possess the "people skills" sought by employers throughout the agriculture industry and in other public and private sectors.

Communication and Leadership Development

The Communication and Leadership Development specialization prepares students for entry into agribusiness and communication positions related to human resource development, corporate training, political interests and agricultural literacy. Coursework focuses on core leadership and communication courses that includes digital media, writing, and interpersonal skills.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 4 critical-tracking courses, excluding labs: AEC 3030C (or equivalent), BSC 2005, BSC 2005L (or any GE-B or P laboratory), EDF 2110 (or equivalent) and MAC 1140 (or equivalent)
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 4

- Complete all lower division critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete one of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete two of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete three of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
AEB 2014	Current Economic Issues, Food and You (Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (Gen Ed Social and Behavioral Sciences)	
ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
AEB 3103	Principles of Food and Resource Economics (Gen Ed Social and Behavioral Sciences)	
BSC 2005	Biological Sciences (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	3

Academic Learning Compact

Students will learn the knowledge and skills needed to educate individuals, enhance leadership in communities and organizations and communicate ideas and issues to different audiences. Through formal courses and internship experiences, students will learn to apply principles of communication and educational theory to work-based settings; to create, interpret and analyze written and oral messages and multimedia presentations used in agricultural and life sciences; and to educate and communicate agricultural issues effectively to various audiences.

Before Graduating Students Must

- Agricultural Education specialization: Achieve a passing grade on the state of Florida's Professional Knowledge Exam for teacher certification.
- Communication and Leadership Development specialization: Achieve a minimum grade of C in AEC 4052, the communication and leadership development capstone experience, as evaluated by a committee of faculty.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C.
- Achieve a minimum grade of C in a department internship course (AEC 4942, AEC 4943, AEC 4944 or AEC 4948) or a capstone experience course (AEC 4052).
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe, explain, and apply fundamental pedagogical concepts, skills and processes.
2. Describe, explain, and apply fundamental concepts, skills and processes in technical agriculture.

Critical Thinking

3. Analyze and apply data from multiple assessments and measures to diagnose students' learning needs, inform instruction based on those needs, and drive the learning process.
4. Critique and assess data-informed research to improve instruction and student achievement.

Communication

5. Demonstrate written communication forms in a manner appropriate in Agricultural Education.
6. Develop oral communication presentations in a manner appropriate in Agricultural Education.

Overview

Agricultural Education

The Agricultural Education specialization prepares students for a variety of rewarding careers in teaching. This includes teaching agriculture and natural resources in middle schools and high schools, as well as educator positions in agency, community, and non-profit settings.

Students who complete the program of study for this specialization are prepared to meet the Florida Department of Education's requirements for agriculture teacher certification, and they also possess the "people skills" sought by employers throughout the agriculture industry and in other public and private sectors.

The Agricultural Education specialization provides the basic courses for agricultural teacher certification in Florida. Students must have a minimum 2.5 GPA to enter the agricultural education specialization and, during their first semester, attain a passing score on the general knowledge portion of the FTCE (or have met the requirement through alternative assessment). An internship is required for this specialization. In addition, graduates must apply to the Florida Department of Education for certification.

This specialization is also offered at the Gulf Coast Research and Education Center in Plant City, FL and through UF Online.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 4 critical-tracking courses, excluding labs: AEC 3030C (or equivalent), BSC 2005, BSC 2005L (or any GE-B or P laboratory), EDF 2110 (or equivalent) and MAC 1140 (or equivalent)
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 4

- Complete all lower division critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete one of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete two of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete three of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
AEB 2014	Current Economic Issues, Food and You (Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (Gen Ed Social and Behavioral Sciences)	
ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
AEB 3103	Principles of Food and Resource Economics (Gen Ed Social and Behavioral Sciences)	
BSC 2005	Biological Sciences (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	3

Agricultural Operations Management

Agricultural Operations Management combines hands-on applied coursework and core business principles with emerging technologies and sustainable methods. Students gain experience in systems management, environmental quality, energy efficiency, agricultural machinery, GIS/GPS technology, remote sensing, irrigation, power systems, water control, and precision agriculture.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

Map (http://campusmap.ufl.edu/#/index/0474)

Curriculum

- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

Students in the Agricultural Operations Management (AOM) program gain technical experience in systems management, environmental quality, energy efficiency, agricultural machinery, GIS/GPS remote sensing, computer programs, irrigation, power systems, water control, and precision agriculture. Through interdisciplinary, holistic training in agricultural, natural systems, and business management, AOM students can identify systems problems, formulate potential solutions, evaluate the impact of alternatives, and then implement a best solution.

The curriculum supports students who plan to seek career opportunities in commercial business operations and management. In addition to hands-on applied skills, students also take courses in economics, accounting, business, finance, sales, and business management.

AOM graduates have an abundance of job opportunities. The program provides a solid foundation for managing technical assets, infrastructure, money, and personnel. Graduates can become an integral part of profitable operations of many types of businesses such as production agriculture (e.g., crop management), commercial nurseries, building construction and materials, cattle operations, food processing, and regulatory agencies.

A major strength of the AOM program is its small class sizes. Students benefit from engaging discussions in a welcoming environment, interacting with and getting to know professors, and connecting with classmates through hands-on labs, projects, activities, and club functions.

The Agricultural Operations Management program is housed in Frazier-Rogers Hall with laboratories, classrooms, and a student computing lab, and features an additional off-site construction laboratory near Museum Road and Hull Road.

The program features electives in these focused areas of concentration:

- Sustainable Land, Energy, and Water
- Agribusiness Management
- Animal Production Management
- Horticulture and Crop Management
- Smart Agricultural Management
- Agri-food Systems Management

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 6 critical-tracking courses, excluding labs, with minimum grades of C: ACG 2021, BSC 2010/BSC 2010L, CHM 2045/CHM 2045L, ECO 2013, MAC 1147 or MAC 2233, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs, with minimum grades of C: ACG 2021,BSC 2010/BSC 2010L,CHM 2045/CHM 2045L,ECO 2013,MAC 1147 or MAC 2233, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs, with a minimum grade of C: ACG 2021,BSC 2010/BSC 2010L,CHM 2045/CHM 2045L,ECO 2013,MAC 1147 or MAC 2233, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs, with a minimum grade of C: ACG 2021,BSC 2010/BSC 2010L,CHM 2045/CHM 2045L,ECO 2013,MAC 1147 or MAC 2233, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete at least 2 required AOM courses
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete at least 2 required AOM courses
- Complete at least 1 approved elective course
- 2.0 GPA required for all critical-tracking courses
- 2.0 Upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete at least 2 required AOM courses
- Complete at least 1 approved elective course
- 2.0 Upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete all remaining required AOM courses
- Complete all remaining approved elective courses
- 2.0 Upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
Select one:		3-4
BSC 2010	Integrated Principles of Biology 1	
& 2010L	and Integrated Principles of Biology Laboratory (**Critical Tracking**)	
BOT 2010C	Introductory Botany (**Critical Tracking**; Gen Ed Biological Sciences)	
Select one:		3-5
MAC 1140	Precalculus Algebra	
& MAC 1114	and Trigonometry (**Critical Tracking**; State Core Gen Ed Mathematics)	
MAC 1147	Algebra and Trigonometry (**Critical Tracking**; State Core Gen Ed Mathematics)	
MAC 2233	Survey of Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	
State Core Gen Ed Composition; Writing Requirement; with International		3
Elective		1
	Credits	**13-16**
Semester Two		
Select one:		4
ACG 2021	Introduction to Financial Accounting (**Critical Tracking**)	
Advisor-approved alternative (**Critical Tracking**)		
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences)	
State Core Gen Ed Humanities with International (p. 80)		3
Approved elective		3
Gen Ed Physical Sciences		3
	Credits	**17**
Semester Three		
AOM 2520	Global Sustainable Energy: Past, Present and Future	3
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	4
Select one:		4
PHY 2004	Applied Physics 1	
& 2004L	and Laboratory for Physics 2004 (Gen Ed Physical Sciences)	

PHY 2020 & PHY 2004L	Introduction to Principles of Physics and Laboratory for Physics 2004 (Gen Ed Physical Sciences)	
CGS 2531	Problem Solving Using Computer Software (Gen Ed Mathematics)	3
	Credits	**14**
Semester Four		
Quest 2		3
Select one:		3
AEC 3030C	Effective Oral Communication	
SPC 2608	Introduction to Public Speaking	
ENC 2210	Technical Writing (Gen Ed Composition)	3
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
	Credits	**12**
Semester Five		
AEB 3300 or MAR 3023	Agricultural and Food Marketing or Principles of Marketing	3-4
AEB 3133 or MAN 3025	Principles of Agribusiness Management or Principles of Management	3-4
AOM 3220	Agricultural Construction and Maintenance	3
AOM 3333	Pesticide Application Techniques	3
Approved elective		3
	Credits	**15-17**
Summer After Semester Five		
AOM 3734	Irrigation Principles and Practices in Florida	3
	Credits	**3**
Semester Six		
ALS 3133 or AOM 4521	Agricultural and Environmental Quality or Introduction to Biofuels	3
AOM 4314C	Power and Machinery Management	3
SWS 3022	Introduction to Soils in the Environment	3
Approved electives		6
	Credits	**15**
Semester Seven		
Select one business law, ethics, or human resources course:		3-4
AEB 4085	Agricultural Risk Management and the Law	
AEB 4123	Agricultural and Natural Resource Law	
AEB 4126	Agricultural and Natural Resource Ethics	
BUL 4310	The Legal Environment of Business	
AOM 4642	Environmental Systems for Agricultural Structures	3
AOM 4643	Environmental Hydrology: Principles and Issues	3
AOM 4933	Professional Practices in Agricultural Operations Management	1
Approved electives		6
	Credits	**16-17**
Semester Eight		
AOM 4434	Precision Agriculture	3
AOM 4444C	Electrical Power and Instrumentation for Agricultural Operations Management	3
AOM 4455	Agricultural Operations and Systems	3
AOM 4461	Sustainable Agricultural Systems	3
Approved elective		3
	Credits	**15**
	Total Credits	**120**

Academic Learning Compact

The Agricultural Operations Management (AOM) curriculum integrates business and technical knowledge of agricultural operations. Knowledge is developed through formal courses, laboratory experimentation and individual experience. Students will learn to incorporate technical agricultural skills with modern business techniques and to communicate these results effectively in an appropriate presentation style.

Before Graduating Students Must

- Complete modules, assignments, exams, projects, and presentations that fulfill the Student Learning Outcomes (SLOs) in the Agricultural Operations Management program, presented in three parts. One part will be given in one or more of the following required courses:

Code	Title	Credits
AOM 4455	Agricultural Operations and Systems	3
AOM 3734	Irrigation Principles and Practices in Florida	3
AOM 4314C	Power and Machinery Management	3
or AOM 3734	Irrigation Principles and Practices in Florida	
AOM 4642	Environmental Systems for Agricultural Structures	3
or AOM 4434	Precision Agriculture	

Completion of these requirements ensures that students meet the expectations, goals, and learning outcomes of the program. All courses listed above are required in the AOM major. Student learning outcomes in the AOM program (see below) are either introduced, reinforced, and/or assessed in these courses (see Curriculum Map).

- Satisfactory completion of final project in AOM 4455.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe fundamental concepts, skills, and processes in Agricultural Operations Management.
2. Apply fundamental concepts, skills, and processes in Agricultural Operations Management.

Critical Thinking

3. Critically evaluate information or data in Agricultural Operations Management.
4. Solve problems in Agricultural Operations Management.

Communication

5. Communicate effectively in written form in a manner appropriate in Agricultural Operations Management.
6. Communicate effectively orally in a manner appropriate in Agricultural Operations Management.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5	SLO 6

Agroecology and Sustainable Food Systems Certificate

The Agroecology and Sustainable Food Systems certificate explores the natural and social systems that guide sustainable agriculture. It provides interdisciplinary training and hands-on field research to teach the principles and practices of agroecological production within the context of environmental, social, and economic challenges. It prepares students for graduate programs or professions utilizing systems-thinking skills.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 12
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The Department of Agronomy's vision is to improve and sustain food production while conserving natural resources and promoting healthy and active lives by creating and disseminating knowledge in the plant sciences. The department's mission is to achieve excellence in the science of using plants for food, feed, fuel, fiber and turf, as well as in the management of weed species, through research, teaching, and outreach programs that serve the people of Florida, the nation, and the world.

Curriculum

- Agroecology and Sustainable Food Systems Certificate
- Combination Degrees
- Golf and Sports Turf Management Minor
- Plant Science

This certificate must contain six required credits, three credits from Natural Sciences and three from Social Sciences.

Required Courses

Selection of some elective courses may require prerequisites, which may increase the total credit hours required for the certificate.

Code	Title	Credits
ALS 4914	Project Team Research: Building Skills in Agrobiology	3
or ALS 3153	Agricultural Ecology	
PLS 3004C	Principles of Plant Science	3
Select one Natural Sciences course:		3
AGR 4212	Alternative Cropping Systems	
AGR 4512	Physiology and Ecology of Crops	
SWS 4207	Sustainable Agricultural and Urban Land Management	
Select one Social Sciences course:		3
AEB 3671	Comparative World Agriculture	
AEB 4126	Agricultural and Natural Resource Ethics	
ALS 3030C	Urban Agriculture	
ALS 3415	Challenge 2050: Developing Tools for Changing the World	
FYC 3401	Introduction to Social and Economic Perspectives on the Community	
FYC 3521	Community Food Systems	
Total Credits		**12**

Animal Genetics Certificate

The Animal Genetics certificate provides a background in Mendelian, population, and quantitative genetic inheritance, in-depth knowledge of genetic improvement and management programs, and the application of genetic principles towards the improvement of the health and production of livestock and domestic animals.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 11
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The Department of Animal Sciences creates new solutions to tomorrow's problems in the areas of teaching, research, and extension, by integrating the most modern technologies available with personal expertise and attention to the needs of both students and industry.

Curriculum

- Animal Genetics Certificate
- Animal Sciences
- Combination Degrees

Students of sophomore standing or higher may enroll in this certificate, or with department permission.

Required Courses

Code	Title	Credits
ANS 4382	Equine Genetics	2
ANS 4383	Genetic analyses of complex traits in livestock	3
ANS 3384C	Genetics of Domestic Animals	3
ANS 4388	Canine and Feline Genetics	3
Total Credits		**11**

Animal Sciences

Animal Sciences students study reproduction, genetics, nutrition, physiology, growth, behavior, biotechnology, and management of livestock species. They also study animal sourced food processing. Increasingly, Animal Sciences students also take additional courses in communication, education, business economics, environmental science, and data science. Animal Sciences graduates often work with the science and business of producing domestic livestock species or animal-related products. Many Animal Sciences students prepare to pursue veterinary studies or graduate studies for future work with companion animals, livestock, or other species.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Specializations:** Animal Biology (p. 164) | Equine (p. 169) | Food Animal (p. 173) | Integrative Animal Sciences (p. 177)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Animal Sciences creates new solutions to tomorrow's problems in the areas of teaching, research, and extension, by integrating the most modern technologies available with personal expertise and attention to the needs of both students and industry.

GAINESVILLE FL 32608
Map (http://campusmap.ufl.edu/#/index/0459)

Curriculum

- Animal Genetics Certificate
- Animal Sciences
- Combination Degrees

The Animal Sciences major develops fundamental knowledge of livestock animals. Students in the major choose one of the four specializations based on their career goals. The specializations are tailored to meet the needs of preprofessional students, students preparing for graduate school, and students preparing to enter careers in the agricultural industry.

Specializations

Animal Biology

The animal biology specialization prepares students for professional and graduate programs, including veterinary school. Through lectures and hands-on labs, students learn about the biological and physiological sciences of livestock species. Students get a strong foundation in nutrition, reproduction, growth, genetics, and more.

Equine

The equine specialization offers students a comprehensive education in the management, care, and biological and physiological science of horses. Through lectures and hands-on labs in the department's teaching and research facilities, students study equine nutrition, reproduction, genetics and more. This track prepares graduates for successful careers in the equine industry and graduate programs.

Food Animal

The food animal specialization is for students who wish to focus on livestock production and management and processing of animal-sourced foods. Students may choose from coursework relative to beef cattle, dairy cattle, small ruminants, swine, poultry, and/or meat and food safety. Through lectures and hands-on labs in the department's teaching and research facilities, students study nutrition, reproduction, genetics and more. This track prepares graduates for successful careers in the livestock industry and graduate programs.

Integrative Animal Sciences

The integrative specialization is designed for students who wish to obtain a customized degree in animal sciences with a focus on a discipline or intersection between disciplines. Students work with an advisor to create a plan that is tailored to their career interests and goals. In addition to core animal sciences subjects, students choose a concentration to expand on, including nutrition, reproduction, animal behavior, environmental science, Artificial Intelligence, or One Health. This track is not intended for students planning on applying to professional programs, such as veterinary school.

Relevant Minors and/or Certificates

Career preparation can be strengthened through minors and certificates offered by UF. The Animal Sciences department offers an Animal Genetics Certificate, which provides students a background in Mendelian, population and quantitative genetic inheritance, in-dept knowledge of genetic improvement and management programs, and the application of genetic principles towards the improvement of the health and production of livestock and domestic animals.
More Info (p. 161)

The Animal Sciences department does not offer any minors at this time.

Research

Animal Sciences students are encouraged to participate in research. Undergraduate research provides students with valuable hands-on experiences and important connections with faculty and researchers that can translate into opportunities post-graduation. Students are encouraged to explore what interests them most and what might be beneficial for their academic and career goals. They then should connect with faculty members about opportunities that might be available. Students may speak with an academic advisor about qualifying for academic credit.

Academic Learning Compact

Animal sciences majors receive a broad education in the healthy production of animals and animal products. Students' knowledge will be developed through formal courses, laboratories and field trips and will be applied in internships, team projects and presentations. Students will develop the ability to apply conceptual knowledge to solve problems in animal production and to make management decisions.

Before Graduating Students Must

Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Curriculum

- Animal Genetics Certificate
- Animal Sciences
- Combination Degrees

This specialization is for students who wish to pursue professional or graduate programs. Students who plan to apply to the UF College of Veterinary Medicine in the equine, food animal, or mixed-practice tracks are encouraged to select electives from Animal Sciences livestock production courses. Career preparation can be strengthened through electives. By choosing appropriate electives, students can earn certificates, a minor, or a dual-major in other fields.

By choosing appropriate electives, students can earn a minor or a dual-major in agribusiness management, extension education or agricultural operations management while completing the degree requirements for the equine or food animal specialization.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, excluding labs: BSC 2010 and BSC 2010L, BSC 2011 and BSC 2011L, CHM 2045 and CHM 2045L, CHM 2046 and CHM 2046L, MAC 1147
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- Complete CHM 2210 with minimum grade of C attained within two attempts (including withdrawals)
- Complete ANS 3006 and ANS 3006L

- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete ANS 3043 or ANS 3319C
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete ANS 3043 or ANS 3319C
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete MCB 3020 and MCB 3020L
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80); Writing Requirement)	3
State Core Gen Ed Humanities (p. 80)		3
Elective		3
	Credits	**13**
Semester Two		
Quest 1 (Gen Ed Humanities)		3
AEC 3030C or SPC 2608	Effective Oral Communication or Introduction to Public Speaking	3
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	4
ECO 2013	Principles of Macroeconomics (State Core Gen Ed Social and Behavioral Sciences (p. 80))	4
ENC 1102	Argument and Persuasion (Gen Ed Composition)	3
	Credits	**17**
Semester Three		
Quest 2 (Gen Ed Social and Behavioral Sciences)		3
AEC 3033C or ENC 2210	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement) or Technical Writing	3

Equine

Animal Sciences students study reproduction, genetics, nutrition, physiology, growth, behavior, biotechnology, and management of livestock species. They also study animal sourced food processing. Increasingly, Animal Sciences students also take additional courses in communication, education, business economics, environmental science, and data science. Animal Sciences graduates often work with the science and business of producing domestic livestock species or animal-related products. Many Animal Sciences students prepare to pursue veterinary studies or graduate studies for future work with companion animals, livestock, or other species.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Specializations:** Animal Biology (p. 164) | Equine (p. 169) | Food Animal (p. 173) | Integrative Animal Sciences (p. 177)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Animal Sciences creates new solutions to tomorrow's problems in the areas of teaching, research, and extension, by integrating the most modern technologies available with personal expertise and attention to the needs of both students and industry.

Curriculum

- Animal Genetics Certificate
- Animal Sciences
- Combination Degrees

This specialization is for students who wish to focus on Equine science. Career preparation can be strengthened through electives. By choosing appropriate electives, students can earn certificates, a minor, or a dual-major in other fields.

By choosing appropriate electives, students can earn a minor or a dual major in agribusiness management, extension education or agricultural operations management while completing the degree requirements for the equine or food animal specialization.

Career preparation can be strengthened through electives.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 6 critical-tracking courses, excluding labs: BSC 2010 and BSC 2010L, BSC 2011 and BSC 2011L, CHM 2045 and CHM 2045L, MAC 1147, STA 2023, and AEB 2014 or ECO 2013 or ECO 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- Complete ANS 3006 and ANS 3006L
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete ANS 3043 or ANS 3319C
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete ANS 3043 or ANS 3319C
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete ANS 4931 and ANS 4941
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
MAC 1147	Algebra and Trigonometry (State Core Gen Ed Mathematics (p. 80))	4
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80); Writing Requirement)	3
State Core Gen Ed Humanities (p. 80)		3
	Credits	**14**

Semester Two		
Quest 1 (Gen Ed Humanities)		3
AEC 3030C or SPC 2608	Effective Oral Communication or Introduction to Public Speaking	3
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences)	4
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	4
ENC 1102	Argument and Persuasion (Gen Ed Composition)	3
	Credits	**17**
Semester Three		
Quest 2 (Gen Ed Social and Behavioral Sciences)		3
Select one:		3
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement)	
ENC 2210	Technical Writing	
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; Gen Ed Biological and Physical Sciences)	4
Electives		5
	Credits	**15**
Semester Four		
MCB 2000 & 2000L	Microbiology and Microbiology Laboratory (Gen Ed Biological Sciences)	4
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
Gen Ed International		3
Electives		5
	Credits	**15**
Semester Five		
ANS 2934	Careers in Animal Sciences	2
AEB 3133	Principles of Agribusiness Management	3
ANS 3006 & 3006L	Introduction to Animal Science and Introduction to Animal Science Laboratory (**Critical Tracking**)	4
ANS 3217C	Equine Health Management	2
ANS 3440	Principles of Animal Nutrition	4
	Credits	**15**
Semester Six		
AGR 4231C	Forage Science and Range Management	4
ANS 3319C	Reproductive Physiology and Endocrinology in Domestic Animals (**Critical Tracking**)	4
ANS 3384C	Genetics of Domestic Animals	3
Approved Agricultural and Life Sciences elective		3
	Credits	**14**
Summer After Semester Six		
ANS 4941	Full-Time Practical Work Experience in Animal Science (**Critical Tracking**)	3-8
	Credits	**3-8**
Semester Seven		
ANS 3043	Growth and Development of Farm Animals (**Critical Tracking**)	3
ANS 3405	Equine Nutrition and Feeding Management	2
Approved Equine Practicum elective		2
Approved Agricultural and Life Sciences elective		3
Electives		4
	Credits	**14**
Semester Eight		
ANS 4079C	Relationship of Form to Function in Horses	3
ANS 4234	Horse Enterprise Management	2
ANS 4931	Senior Seminar (**Critical Tracking**)	1
Approved Equine Practicum elective		1
Electives		6
	Credits	**13**
	Total Credits	**120**

Approved Electives

Approved Equine Practicum Electives

Code	Title	Credits
ANS 3239L	Techniques in Equine Science	2
ANS 4212L	Techniques in Farrier Science	1-2
ANS 4231	Practicum in Horse Management and Training Technique	1
ANS 4605	Animal and Products Evaluation	1

Approved CALS Electives

For graduation, all Equine Specialization students must complete an additional 6 credits (minimum) from approved CALS elective courses.

For a course to be eligible as an approved CALS elective it must be outside the ANS department, 3000/4000 level, and be within the College of Agricultural and Life Sciences.

Academic Learning Compact

Animal sciences majors receive a broad education in the healthy production of animals and animal products. Students' knowledge will be developed through formal courses, laboratories and field trips and will be applied in internships, team projects and presentations. Students will develop the ability to apply conceptual knowledge to solve problems in animal production and to make management decisions.

Before Graduating Students Must

Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe and explain fundamental concepts, skills and processes in animal sciences.
2. Apply fundamental concepts, skills and processes in animal sciences.

Critical Thinking

3. Critically evaluate information (or data) in animal sciences.
4. Solve problems in animal sciences.

Communication

5. Effectively communicate in written form in a manner appropriate in animal sciences.
6. Effectively communicate orally in a manner appropriate in animal sciences.

Curriculum

- Animal Genetics Certificate
- Animal Sciences
- Combination Degrees

This specialization is for students who wish to obtain a customized degree in animal sciences with a focus on a discipline rather than an animal species and are not pursuing a professional program in the health sciences. Examples include integration of the Animal Sciences with advanced training in Artificial Intelligence, or reproduction, or animal behavior, or environmental sciences. By choosing appropriate electives, students can earn a minor, or a dual-major in other fields.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

ANS 4241C	Intermediate Horse Training	3
ANS 4231	Practicum in Horse Management and Training Technique (Horse Care & Grooming)	1
ANS 4231	Practicum in Horse Management and Training Technique (Weanling Handling)	1
ANS 4231	Practicum in Horse Management and Training Technique (Foaling Practicum)	1
ANS 4605	Animal and Products Evaluation	1
ANS 4932	Special Topics in Animal Sciences	1-3

Approved CALS Electives | 31 Credits

For a course to be eligible as an approved CALS elective it must be outside the ANS department, 3000/4000 level, and be within the College of Agricultural and Life Sciences.

Academic Learning Compact

Animal sciences majors receive a broad education in the healthy production of animals and animal products. Students' knowledge will be developed through formal courses, laboratories and field trips and will be applied in internships, team projects and presentations. Students will develop the ability to apply conceptual knowledge to solve problems in animal production and to make management decisions.

Before Graduating Students Must

Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe and explain fundamental concepts, skills and processes in animal sciences.
2. Apply fundamental concepts, skills and processes in animal sciences.

Critical Thinking

3. Critically evaluate information (or data) in animal sciences.
4. Solve problems in animal sciences.

Communication

5. Effectively communicate in written form in a manner appropriate in animal sciences.
6. Effectively communicate orally in a manner appropriate in animal sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5	SLO 6
AEC 3030C						I, R, A
AEC 3033C					I, R, A	
ANS 3006	I	I			R

Assessment Types

- Case studies
- Lab projects
- Exams
- Quizzes and tests
- Papers
- Presentations
- Non-exam course assignments

Beekeeping Certificate

The Beekeeping certificate prepares students with a foundational knowledge of honey bee biology and the craft of beekeeping. Additionally, this certificate provides theoretical and practical learning opportunities, based on current research that encompasses the many elements of beekeeping worldwide.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15-16 | Completed with minimum grades of C
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The Entomology and Nematology Department prepares students for exciting careers in a large variety of fields. Entomology and Nematology majors can enter medical, veterinary, or dental school; progress to graduate study in entomology, nematology, or any of several other biological sciences such as ecology and evolutionary biology, horticulture, or zoology; or move directly to a variety of careers (including industry and government positions) in fields such as pest management, agriculture, ecotourism, biosecurity, science policy, and education

Bioinformatics Minor

This minor provides solid exposure to bioinformatics with an emphasis on microbes. With the avalanche of genomic information available, bioinformatics skills are necessary to mine and analyze genomic data.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15-16 | Completed with minimum grades of C
- **Contact:** Email (vcrecy@ufl.edu) | Email (bryank@ufl.edu)

Department Information

The Department of Microbiology & Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical, dental, pharmacy, veterinary programs, graduate school, or public health degrees. BS degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the MS and PhD degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

- Microbiology and Cell Science UF Online
- Microbiology and Cell Science | CALS
- Microbiology and Cell Science | CLAS
- Pathogenesis Minor
- Pathogenesis Minor UF Online

This minor is open to all students who have a science background and who meet course prerequisites.

It is particularly appropriate for students majoring in biology, mathematics, microbiology and cell science, statistics and zoology, and for students who are interested in professional programs in dentistry, medicine and pharmacy.

Microbiology and cell science majors should meet with their academic advisors before applying to this minor to plan a program of study. No more than three credits of the required courses below and 3-4 credits of the electives below can count toward both the major and the minor.

There are 12 required credits, consisting of three courses and a capstone independent study course, and one 3 or 4 credit elective.

Required Courses

Code	Title	Credits
Select one:		3
BSC 2891	Python Programming for Biology (Spring only)	
CAP 5510	Bioinformatics (Fall only)	
BSC 4434C	Introduction to Bioinformatics	3
BSC 4913	Independent Research in Bioinformatics	3
MCB 4320C	The Microbiome (Spring only)	3
Approved elective		3-4

Biology | CALS

Biology provides a broad, general overview of the structure, function, growth, origin, evolution, and distribution of living organisms. Biology students take courses in biology, chemistry, physics, calculus, and statistics. The major is flexible and combines the faculty and resources of two UF colleges to prepare students for career success.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Specializations:** Applied Biology (p. 187) | Biotechnology (p. 193) | Natural Science (p. 199) | Preprofessional (p. 204)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements

The Biology major develops fundamental knowledge of animals, plants, and microorganisms. The four specializations offered by the College of Agricultural and Life Sciences are tailored to meet the needs of preprofessional students, those preparing for graduate studies in biology, or specialized areas such as bioinformatics, ecology, genetics, and molecular biology and those seeking a career in biotechnology, education, natural resource management, and environmental or biotechnology law.

Coursework for the Major

College of Agricultural and Life Sciences (CALS) students in the biology major choose one of four specializations: applied biology, biotechnology, natural science, or preprofessional biology. These specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. Students who are uncertain about which specialization to choose should consult a biology advisor for information and guidance on curriculum planning. Students can individualize their curriculum through approved specialization electives in the life sciences.

Applied Biology

For students interested in learning how fundamental biology is applied to solving problems. This specialization provides exposure to the major issues facing sustainability of human populations and natural resources.

Biotechnology

Prepares students for careers where knowledge of molecular biology and genetic engineering are important. Students will have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture and bioinformatics.

Natural Science

For students interested in descriptive and interpretive biology, with an emphasis on field biology. The specialization provides exposure to the major forms of flora and fauna, and integrates some of the major elements that influence flora and fauna, namely soil/water relations and human activities.

Preprofessional

For students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

Relevant Minors and Certificates

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their BS in Biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Bioinformatics

Bioinformatics skills are valuable for students who may seek careers which will necessitate the analysis of genomic data. This minor provides students the opportunity to learn programming skills, mine genomic data, and participate in independent research.

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: It diversifies the college experience; teaches how scientists apply the knowledge gained in the classroom to real world questions; provides the opportunity to work with and get to know researchers who are the best in their field; enables participation in cutting edge scientific questions and techniques; enhances the student's resume/CV when applying to graduate or professional school; and finally, it is essential to help the student determine if science is an appropriate career choice.

More Info (http://major.biology.ufl.edu/do-research/)

CALS biology majors may participate in research for course credit as a scholar (e.g., University Scholar, HHMI Science for Life Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Academic Learning Compact

Biology is the study of the many diverse forms, processes, and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles, and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The Biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology, and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies, and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete CHM 2045/CHM 2045L or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010/BSC 2010L and CHM 2046/CHM 2046L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete a minimum of 2 of the remaining Applied Biology 3XXX/4XXX required core courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete a minimum of 2 of the remaining Applied Biology 3XXX/4XXX required core courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete all the remaining Applied Biology 3xxx/4xxx required core courses
- Complete BSC 4936 (Capstone)
- Complete all critical-tracking courses, including labs
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3

Biotechnology

Biology provides a broad, general overview of the structure, function, growth, origin, evolution, and distribution of living organisms. Biology students take courses in biology, chemistry, physics, calculus, and statistics. The major is flexible and combines the faculty and resources of two UF colleges to prepare students for career success.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Specializations:** Applied Biology (p. 187) | Biotechnology (p. 193) | Natural Science (p. 199) | Preprofessional (p. 204)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements

This specialization prepares students for careers where knowledge of molecular biology and genetic engineering are important. Students will have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture, microscopy and bioinformatics. They also will be prepared for graduate study in the biological sciences.

The Biology major develops fundamental knowledge of animals, plants, and microorganisms. The four specializations offered by the College of Agricultural and Life Sciences are tailored to meet the needs of preprofessional students, those preparing for graduate studies in biology, or specialized areas such as bioinformatics, ecology, genetics, and molecular biology and those seeking a career in biotechnology, education, natural resource management, and environmental or biotechnology law.

Coursework for the Major

College of Agricultural and Life Sciences (CALS) students in the biology major choose one of four specializations: applied biology, biotechnology, natural science, or preprofessional biology. These specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. Students who are uncertain about which specialization to choose should consult a biology advisor for information and guidance on curriculum planning. Students can individualize their curriculum through approved specialization electives in the life sciences.

Applied Biology

For students interested in learning how fundamental biology is applied to solving problems. This specialization provides exposure to the major issues facing sustainability of human populations and natural resources.

Biotechnology

Prepares students for careers where knowledge of molecular biology and genetic engineering are important. Students will have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture and bioinformatics.

Natural Science

For students interested in descriptive and interpretive biology, with an emphasis on field biology. The specialization provides exposure to the major forms of flora and fauna, and integrates some of the major elements that influence flora and fauna, namely soil/water relations and human activities.

Preprofessional

For students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

Relevant Minors and Certificates

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their BS in Biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Bioinformatics

Bioinformatics skills are valuable for students who may seek careers which will necessitate the analysis of genomic data. This minor provides students the opportunity to learn programming skills, mine genomic data, and participate in independent research.

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: It diversifies the college experience; teaches how scientists apply the knowledge gained in the classroom to real world questions; provides the opportunity to work with and get to know researchers who are the best in their field; enables participation in cutting edge scientific questions and techniques; enhances the student's resume/CV when applying to graduate or professional school; and finally, it is essential to help the student determine if science is an appropriate career choice.

More Info (http://major.biology.ufl.edu/do-research/)

CALS biology majors may participate in research for course credit as a scholar (e.g., University Scholar, HHMI Science for Life Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete CHM 2045/CHM 2045L or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010/BSC 2010L and CHM 2046/CHM 2046L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete a minimum of 2 of the remaining Biotechnology 3XXX/4XXX required core courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete a minimum of 2 of the remaining Biotechnology 3XXX/4XXX required core courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete all the remaining Biotechnology 3xxx/4xxx required core courses
- BSC 4936 (Capstone)
- Complete all critical-tracking courses, including labs
- 2.0 UF GPA required
- 2.0 upper division GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Biology is the study of the many diverse forms, processes, and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles, and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The Biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology, and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies, and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Academic Learning Compact

Biology is the study of the many diverse forms, processes, and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles, and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The Biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology, and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies, and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Preprofessional

Biology provides a broad, general overview of the structure, function, growth, origin, evolution, and distribution of living organisms. Biology students take courses in biology, chemistry, physics, calculus, and statistics. The major is flexible and combines the faculty and resources of two UF colleges to prepare students for career success.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science

- **Specializations:** Applied Biology (p. 187) | Biotechnology (p. 193) | Natural Science (p. 199) | Preprofessional (p. 204)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements

This specialization prepares biology majors for admission to medical, dental, optometry or veterinary school, and it also is excellent preparation for graduate study.

The Biology major develops fundamental knowledge of animals, plants, and microorganisms. The four specializations offered by the College of Agricultural and Life Sciences are tailored to meet the needs of preprofessional students, those preparing for graduate studies in biology, or specialized areas such as bioinformatics, ecology, genetics, and molecular biology and those seeking a career in biotechnology, education, natural resource management, and environmental or biotechnology law.

Coursework for the Major

College of Agricultural and Life Sciences (CALS) students in the biology major choose one of four specializations: applied biology, biotechnology, natural science, or preprofessional biology. These specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. Students who are uncertain about which specialization to choose should consult a biology advisor for information and guidance on curriculum planning. Students can individualize their curriculum through approved specialization electives in the life sciences.

Applied Biology

For students interested in learning how fundamental biology is applied to solving problems. This specialization provides exposure to the major issues facing sustainability of human populations and natural resources.

Biotechnology

Prepares students for careers where knowledge of molecular biology and genetic engineering are important. Students will have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture and bioinformatics.

Natural Science

For students interested in descriptive and interpretive biology, with an emphasis on field biology. The specialization provides exposure to the major forms of flora and fauna, and integrates some of the major elements that influence flora and fauna, namely soil/water relations and human activities.

Preprofessional

For students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

Relevant Minors and Certificates

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their BS in Biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Bioinformatics

Bioinformatics skills are valuable for students who may seek careers which will necessitate the analysis of genomic data. This minor provides students the opportunity to learn programming skills, mine genomic data, and participate in independent research.

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: It diversifies the college experience; teaches how scientists apply the knowledge gained in the classroom to real world questions; provides the opportunity to work with and get to know researchers who are the best in their field; enables participation in cutting edge scientific questions and techniques; enhances the student's resume/CV when applying to graduate or professional school; and finally, it is essential to help the student determine if science is an appropriate career choice.

More Info (http://major.biology.ufl.edu/do-research/)

CALS biology majors may participate in research for course credit as a scholar (e.g., University Scholar, HHMI Science for Life Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete CHM 2045/CHM 2045L or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L, BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete a minimum of 2 of the remaining Preprofessional 3xxx/4xxx required core courses
- 2.0 upper division GPA required

Semester 7

- Complete a minimum of 2 of the remaining Preprofessional 3xxx/4xxx required core courses
- 2.0 upper division GPA required

Semester 8

- Complete all the remaining Preprofessional 3xxx/4xxx required core courses
- Complete BSC 4936 (Capstone)
- Complete all critical-tracking courses, including labs
- 2.0 upper division GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3

Biosecurity and Biological Invasions Certificate

This certificate program provides the skill set necessary for the detection, surveillance, and management of agricultural and medical threats. Acquire critical thinking skills for the assessment, management, and communication of the biosecurity risks and challenges facing the 21st century.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 9-14 | Completed with minimum grades of C
- **Contact:** Email (agunbiade@ufl.edu) | 352.294.6792
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The Entomology and Nematology Department prepares students for exciting careers in a large variety of fields. Entomology and Nematology majors can enter medical, veterinary, or dental school; progress to graduate study in entomology, nematology, or any of several other biological sciences such as ecology and evolutionary biology, horticulture, or zoology; or move directly to a variety of careers (including industry and government positions) in fields such as pest management, agriculture, ecotourism, biosecurity, science policy, and education

Curriculum

- Beekeeping Certificate
- Combination Degrees
- Entomology and Nematology
- Entomology and Nematology Minor
- Entomology and Nematology Minor UF Online
- Landscape Pest Management Certificate
- Medical Entomology Certificate

- Pest Control Technology Certificate
- Urban Pest Management Certificate

The current drive for globalization, increased travel and trade in food and agricultural products, emerging infectious diseases, and the threat of bioterrorism makes the field of biosecurity an area of major and widespread importance. Biosecurity involves a strategic and integrated approach to excluding, eradicating, and managing threats to human, animal and plant life and health, the environment, and global trade. The overall goal of this certificate program is to equip students with the skill set necessary for the detection, surveillance, and management of agricultural and medical threats. This certificate provides critical thinking skills for the assessment, management, and communication of the biosecurity risks and challenges facing the 21st century. The Biosecurity certificate is designed to meet the career and professional needs of those interested in, or already in industry, public health, homeland security, international security, quarantine and pest management, and organizations involved in emergency preparedness, and general threat management.

Botany | CALS

This program provides a broad background in the biology of plants, from the molecular to the whole-plant level. Botany students study anatomy, biochemistry, ecology, genetics, physiology, taxonomy, and molecular biology of plants. This flexible major combines the faculty and resources of two UF colleges to prepare students for career success.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Specializations:** General Botany (p. 219) | Botanical Research (p. 213)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. The department's teaching and research provide the integrative and conceptual foundations of the life sciences.

Curriculum

- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

Small classes are taught by faculty who have a commitment to undergraduate education. Students participate in mentored research, assisting faculty with research projects on campus and abroad. The major prepares students for careers in industry and government agencies, for graduate and professional schools, and for teaching jobs in high schools.

Specializations

General Botany

For students who may not intend to pursue a graduate degree but are interested in a career in plant biology. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Botanical Research

For students who intend to pursue a graduate degree and requires research with a faculty member. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Coursework for the Major

Required coursework is dependent upon the specialization. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Relevant Minors and/or Certificates

Students majoring in Botany can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. Note that botany majors cannot minor in Biology, nor can Biology majors minor in Botany (the curricula for the Botany and Biology majors are too similar).

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their BS in Botany and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Research

Botany majors are strongly encouraged to participate in research, and research is required for the Botanical Research specialization. Research experience is valuable on many levels: it diversifies the college experience; it teaches students how scientists apply the knowledge gained in the classroom to real world questions; it provides the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting edge scientific questions and techniques; it can enhance a student's resume/CV when applying to graduate or professional school; and finally it is essential in helping students determine if science is a good career choice.

CALS botany majors may participate in research for course credit, as a scholar (e.g., University Scholar, Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Please visit Undergraduate Research for information regarding course credit. Students who plan to enroll for course credit must contact potential research mentors, develop a project, and turn in the required application and proposal no later than the week before drop/add. If the window is missed, students should still contact potential research mentors, if only to discuss upcoming opportunities.

Academic Learning Compact

The Botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems

and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Botanical Research

For students who intend to pursue a graduate degree and requires research with a faculty member. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Coursework for the Major

Required coursework is dependent upon the specialization. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Relevant Minors and/or Certificates

Students majoring in Botany can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. Note that botany majors cannot minor in Biology, nor can Biology majors minor in Botany (the curricula for the Botany and Biology majors are too similar).

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their BS in Botany and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Research

Botany majors are strongly encouraged to participate in research, and research is required for the Botanical Research specialization. Research experience is valuable on many levels: it diversifies the college experience; it teaches students how scientists apply the knowledge gained in the classroom to real world questions; it provides the opportunity to work with and get to know researchers who are the best in their field; it introduces

students to cutting edge scientific questions and techniques; it can enhance a student's resume/CV when applying to graduate or professional school; and finally it is essential in helping students determine if science is a good career choice.

CALS botany majors may participate in research for course credit, as a scholar (e.g., University Scholar, Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Please visit Undergraduate Research for information regarding course credit. Students who plan to enroll for course credit must contact potential research mentors, develop a project, and turn in the required application and proposal no later than the week before drop/add. If the window is missed, students should still contact potential research mentors, if only to discuss upcoming opportunities.

Required Foundation Courses

Code	Title	Credits
Required Foundation Courses		
Introductory Botany/Biology		*7-8*
Select one option:		
Option A (preferred)		
BOT 2010C	Introductory Botany (preferred) [1]	
BOT 2011C	Plant Diversity [1]	
Option B		
BSC 2010	Integrated Principles of Biology 1	
& 2010L	and Integrated Principles of Biology Laboratory	
BSC 2011	Integrated Principles of Biology 2	
& 2011L	and Integrated Principles of Biology Laboratory 2	
Chemistry		*16-18*
Select one option:		
Option A		
CHM 3217	Organic Chemistry/Biochemistry 1	
CHM 2045	General Chemistry 1	
& 2045L	and General Chemistry Laboratory	
CHM 2211L	Organic Chemistry Laboratory	
Option B		
CHM 3217	Organic Chemistry/Biochemistry 1	
& CHM 3218	and Organic Chemistry/Biochemistry 2	
CHM 2211L	Organic Chemistry Laboratory	
Mathematics		*7*
MAC 2311	Analytic Geometry and Calculus 1	4
Select one:		3
STA 2023	Introduction to Statistics 1	
COP 2800	Computer Programming Using JAVA (or equivalent)	
COP 3275	Computer Programming Using C (or equivalent)	
Physics		*8-10*
Select one option:		
Option A		
PHY 2053	Physics 1	
& 2053L	and Laboratory for PHY 2053	
PHY 2054	Physics 2	
& 2054L	and Laboratory for PHY 2054	
Option B		
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for PHY 2048	
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for PHY 2049	
Required Courses for the Botanical Research Specialization		
AGR 3303	Genetics	3-4
or PCB 3063	Genetics	
PCB 4674	Evolution	4
BOT 2710C	Practical Plant Taxonomy	3
BOT 3503	Physiology and Molecular Biology of Plants	5
& 3503L	and Physiology and Molecular Biology of Plants Laboratory	
BOT 4911	Undergraduate Research in Botany	2
BSC 3911	Entering Research in Biology [2]	1
BSC 4936	Critical Analysis of Biological Research	2

Ecology and Florida Biodiversity		
Select two:		6-8
PCB 4043C	General Ecology	
PCB 3601C	Plant Ecology	
BOT 3151C	Local Flora of North Florida	
BSC 3307C	Climate Change Biology	4
Cells and Tissues		
Select one:		3-4
BOT 4935/5225C	Special Topics (Plant anatomy)	
PCB 3023	Essential Cell Biology	
BCH 4024	Introduction to Biochemistry and Molecular Biology	
Biodiversity Breadth		
Select one:		3-4
BOT 2011C	Plant Diversity [1]	
ZOO 4307C	Vertebrate Biodiversity	
ZOO 4926	Special Topics in Zoology (Mammalogy)	
ZOO 4205C	Invertebrate Biodiversity	
ENY 3005 & 3005L	Principles of Entomology and Principles of Entomology Laboratory	
WIS 4934	Topics in Wildlife Ecology and Conservation (Mammalogy)	
PLP 3002C	Fundamentals of Plant Pathology	
PLP 4653C	Basic Fungal Biology	
MCB 2000 & 2000L	Microbiology and Microbiology Laboratory	
MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms	
Total Credits		**81-91**

1 Students who select BOT 2011C to fulfill the foundation requirements may not use BOT 2011C to fulfill the biodiversity breadth requirements for the major.

2 Must be taken prior to or concurrently with BOT 4911.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, including lab: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L or BOT 2011C, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, including labs
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 5 critical-tracking courses, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete at least two Required Courses for the Botanical Research specialization
- 2.0 UF GPA required

Semester 7

- Complete CHM 2210 or CHM 3217
- Complete PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
- Complete at least 2 additional (4 total) Required Courses for the Botanical Research specialization
- 2.0 UF GPA required

Semester 8

- Complete all remaining major course requirements
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing Requirement while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirement concurrently with another General Education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
BSC 1920	First Year Introduction: Biology at UF (recommended elective)	1
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Composition (p. 80); Writing Requirement		3
	Credits	**15**
Semester Two		
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement)	3

	Credits	**13-16**
Semester Eight		
BOT 3503	Physiology and Molecular Biology of Plants	5
& 3503L	and Physiology and Molecular Biology of Plants Laboratory	
BSC 4936	Critical Analysis of Biological Research	2
Biodiversity breadth course		3-4
Electives		6
	Credits	**16-17**
	Total Credits	**120**

[1] Gen Ed Mathematics; if COP 2800 taken for computational requirement; or elective.

Academic Learning Compact

The Botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies, and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
BOT 2011C	R	R		I
BOT 2710C	R	R		R
BOT 3503 and BOT 3503L	R/A	R/A		R/A
BSC 2010	I	I	I	
BSC 2011	I	I		
PCB 3601C	R/A	R/A	R/A	R/A
PCB 4043C	R/A	R/A	R/A	R/A

Assessment Types

- Major field test for biology
- Bioethics quiz
- Scientific paper

General Botany

This program provides a broad background in the biology of plants, from the molecular to the whole-plant level. Botany students study anatomy, biochemistry, ecology, genetics, physiology, taxonomy, and molecular biology of plants. This flexible major combines the faculty and resources of two UF colleges to prepare students for career success.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Specializations:** General Botany (p. 219) | Botanical Research (p. 213)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. The department's teaching and research provide the integrative and conceptual foundations of the life sciences.

- Zoology
- Zoology Minor

This option is intended for students who do not plan to attend graduate or professional school, but are planning a career in government, public service, or secondary education. A student must achieve a minimum grade of C in all required courses for the major.

Small classes are taught by faculty who have a commitment to undergraduate education. Students participate in mentored research, assisting faculty with research projects on campus and abroad. The major prepares students for careers in industry and government agencies, for graduate and professional schools, and for teaching jobs in high schools.

Specializations

General Botany

For students who may not intend to pursue a graduate degree but are interested in a career in plant biology. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Botanical Research

For students who intend to pursue a graduate degree and requires research with a faculty member. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Coursework for the Major

Required coursework is dependent upon the specialization. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Relevant Minors and/or Certificates

Students majoring in Botany can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. Note that botany majors cannot minor in Biology, nor can Biology majors minor in Botany (the curricula for the Botany and Biology majors are too similar).

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their BS in Botany and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Total Credits		**65-77**

[1] Students who select BOT 2011C to fulfill the foundation requirements may not use BOT 2011C to fulfill the biodiversity breadth requirements for the major.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, including lab: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L or BOT 2011C, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L; MAC 1147, MAC 2311 or STA 2023
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, including labs
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, including labs, with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs, with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete at least 2 Required Courses for the General Botany specialization
- 2.0 UF GPA required

Semester 7

- Complete one of the remaining Required Foundation Courses (CHM 2200/CHM 2200L, PHY 2004/PHY 2004L, MAC 1147/MAC 2311, or STA 2023/COP 2800/COP 3275/BSC 3307C)

- Complete at least two additional (4 total) Required Courses for the General Botany specialization
- 2.0 UF GPA required

Semester 8

- Complete all remaining major course requirements
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing Requirement while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirement concurrently with another General Education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Academic Learning Compact

The Botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies, and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
BOT 2011C	R	R		I
BOT 2710C	R	R		R

- Scientific paper

CALS Honors Scholar Certificate

Students earning the CALS Honors Scholar certificate must complete at least nine credits of honors coursework and an undergraduate honors thesis. The coursework, thesis topic, and thesis advisor are unique to each student and are subject to approval by the CALS honors program director. Students must have an upper-division GPA of 3.75 or higher to complete the program and earn the certificate.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 9 | Completed with minimum grades of C or S
- **Contact:** Email (wysocki@ufl.edu) | 352.392.1963
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Prerequisites

- CALS major
- Admission to the CALS honors program
- Completion of 60 credits
- Minimum 3.75 UF GPA

Required Courses

- ALS 3923, *1 credit*
- XXX 4915 Honors Thesis Research (or similar independent study/research course to be completed as the student is working on their thesis research), *3-4 credits*
- Additional honors coursework, *4-5 credits*, taken as:
  - Existing 3000/4000-level honors courses, approved by the honors program director
  - Existing 3000/4000-level CALS courses taken as honors contract courses, approved by the honors program director
  - CALS graduate-level courses, approved by the honors program director
- A completed honors thesis, approved by the research mentor, department honors coordinator and honors program director

Challenge 2050 | Global Leadership and Change Certificate

This certificate focuses on global community challenges as we face a population predicted to exceed nine billion people by the year 2050. The program empowers students to take action in addressing the unstructured, complex, and adaptive world challenges in sustainable development and food security.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 10
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Because the issues we face are radically different than the issues addressed by traditional educational models, this program is outside of the normal bounds of a disciplinary degree or a semester-long course. Students earning the certificate will be engaged in high level, complex problem solving which will create a strong professional foundation for success in a variety of fields.

Required Courses

Code	Title	Credits
ALS 2410	Challenge 2050: Global Uncertainty	3
ALS 3415	Challenge 2050: Developing Tools for Changing the World	3
ALS 3940	Challenge 2050: the Experience	3
ALS 4419	Challenge 2050: Creating Solutions	1
Total Credits		**10**

Data Analytics for Applied Economics and Agribusiness Minor

The Data Analytics for Applied Economics and Agribusiness minor provides emphasis on data analytics and quantitative skills. This minor is available to residential students. Food and Resource Economics students must ensure at least 6 credit hours of difference from the minor.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15 | Completed with minimum grades of C

Curriculum

- Agricultural and Natural Resource Ethics and Policy Minor
- Agricultural and Natural Resource Law Minor
- Combination Degrees
- Data Analytics for Applied Economics and Agribusiness Minor
- Food and Resource Economics
- International Development and Humanitarian Assistance Minor

The student's academic advisor and the undergraduate coordinator must approve the courses for the minor at least two semesters before graduation.

AEB 3103 does not apply toward the minor but is a prerequisite course for upper level AEB courses.

Required Courses

Code	Title	Credits
AEB 2114L	Introduction to Agricultural Computer Applications	1
AEB 3510	Quantitative Methods in Food and Resource Economics	3
AEB 3550	Agricultural Data Analysis in Food and Resource Economics	3
AEB 4931	Special Topics in Food and Resource Economics (Computational Analysis in Food and Resource Economics)	1
AEB 4931	Special Topics in Food and Resource Economics (Data Analytics in Agribusiness Using R)	1
AEB 4931	Special Topics in Food and Resource Economics (Machine Learning in Applied Economics and Agribusiness)	3
Data Science Electives (from list below or approved by FRE undergraduate coordinator)		3
Total Credits		**15**

Data Science Electives

Code	Title	Credits
AEB 4334	Agricultural Price Analysis and Consumer Behavior	3
COP 3502C	Programming Fundamentals 1	4
ECO 4421	Econometrics	4
FNR 4934	Topics in Natural Resources (Introduction to Programming with R (Summer only))	1-4
PHI 3681	Ethics, Data, and Technology	3
QMB 3302	Foundations of Business Analytics and Artificial Intelligence (AI)	4

Dietetics

This program applies the science of food and nutrition to the health and well-being of individuals and groups. Dietetics students study chemistry, biology, microbiology, nutrition, communication, food science, and management. They are well-prepared for the required next steps to earn the Registered Dietitian Nutritionist (RDN) credential including graduate study and dietetic internship.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Food Science and Human Nutrition Department (FSHN) is one of the world's largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within one department. The department's programs are accredited by the Institute of Food Technologists (IFT) (http://www.ift.org/) and the Academy of Nutrition and Dietetics (http://www.eatright.org/). After completing undergraduate degrees, FSHN students typically move on to employment in the food industry, healthcare settings, graduate, or professional programs.
Website (https://fshn.ifas.ufl.edu/)

359 FOOD SCIENCE & HUMAN NUTRITION BUILDING
GAINESVILLE FL 32611-0370
Map (http://campusmap.ufl.edu/#/index/0475)

Curriculum

- Dietetics
- Food Science
- Food Science Minor
- Nutritional Sciences
- Nutritional Sciences Minor

The Didactic Program in Dietetics (DPD) is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics. Upon successful completion, students earn a DPD verification statement allowing them to compete for graduate student and dietetic internships, the required next steps to become a Registered Dietitian Nutritionist (RDN).

Registered Dietitian Nutritionists are employed in health care facilities, government and public health agencies, food companies, schools and universities, private practice, and a variety of other settings. Opportunities are also increasing for RDNs in wellness and fitness programs and in sales and marketing for business and industry. Students should obtain volunteer or work experience with an RDN, participate in leadership opportunities with student organizations in the FSHN Department and participate in Dietetic related professional organizations.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete CHM 2045/CHM 2045L or MAC 1147
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 1147
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete HUN 3403
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete DIE 3310
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete DIE 4245
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete HUN 4221
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
AEB 2014	Current Economic Issues, Food and You (Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (Gen Ed Social and Behavioral Sciences)	

ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
MAC 1147	Algebra and Trigonometry (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Humanities (p. 80)		3

MCB 2000 & 2000L	Microbiology and Microbiology Laboratory (Gen Ed Biological Sciences)	4
	Credits	**15**
Semester Six		
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement)	3
APK 2105C	Applied Human Physiology with Laboratory	4
DIE 3310	Community Nutrition (**Critical Tracking**)	2
MAN 3025	Principles of Management	4
Elective		3
	Credits	**16**
Semester Seven		
BCH 3025	Fundamentals of Biochemistry	4
DIE 4125 & 4125L	Food Systems Management and Food Systems Management Laboratory	5
DIE 4245	Medical Nutrition Therapy Applications: Part 1 (**Critical Tracking**)	3
DIE 4505	Dietetics Seminar	1
HUN 4445	Nutrition and Disease: Part 1	3
	Credits	**16**
Semester Eight		
DIE 4246	Medical Nutrition Therapy Applications: Part 2	3
DIE 4436	Nutrition Counseling and Communication	2
FOS 4311 & FOS 4310L	Food Chemistry and Experimental Foods Laboratory	4
HUN 4221	Nutrition and Metabolism (**Critical Tracking**)	3

HUN 4446	Nutrition and Disease: Part 2	3
	Credits	**15**
	Total Credits	**120-121**

Additional electives may be needed to complete the 120 credits required for graduation.

Academic Learning Compact

Dietetics applies the science of food and nutrition to the health and well-being of individuals and groups. Students will learn to use knowledge of nutrient requirements, food sources and physiological systems to determine nutrient and dietary needs of individuals in various life-cycle stages and/or with nutrition-related diseases. Students also will apply their knowledge of food science and management principles to food service operations.

Before Graduating Students Must

- Satisfactorily complete a service-learning comprehensive client assessment in DIE 4245, a systems analysis of a major foodservice event developed by students in DIE 4125L, and a community assessment project in DIE 3310. The projects will be graded by rubrics developed, approved, and evaluated by a faculty committee.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Use the nutrition care process to make decisions, identify nutrition-related problems, and determine and evaluate nutrition interventions.
2. Apply management and business theories and principles to the development, marketing, and delivery of programs and services.

Critical Thinking

3. Develop outcome measures, use informatics principles and technology to collect and analyze data for assessment, and evaluate data for use in decision-making.

Communication

4. Create, interpret and analyze written text, oral messages, and multimedia presentations used in agricultural and life sciences.

Entomology and Nematology

Entomology and Nematology are interdisciplinary biological sciences that focus on the study of insects, mites, ticks, spiders, nematodes, and related organisms. These creatures can have both helpful and harmful effects on food security, the environment, and the health of humans and other animals. Entomology and Nematology students study ecology, behavior, physiology, evolution, systematics, biodiversity conservation, arthropods of medical and veterinary significance, the management of insect/nematode pests, and invertebrates as models in many different fields of research, including biomedical sciences, bioinspired engineering, and biotechnology.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Specializations:** Biological Science of Insects (p. 233) | Preprofessional (p. 239) | Urban Pest Management (p. 244)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Entomology and Nematology Department prepares students for exciting careers in a large variety of fields. Entomology and Nematology majors can enter medical, veterinary, or dental school; progress to graduate study in entomology, nematology, or any of several other biological sciences such as ecology and evolutionary biology, horticulture, or zoology; or move directly to a variety of careers (including industry and government positions) in fields such as pest management, agriculture, ecotourism, biosecurity, science policy, and education

- Beekeeping Certificate
- Combination Degrees
- Entomology and Nematology
- Entomology and Nematology Minor
- Entomology and Nematology Minor UF Online
- Landscape Pest Management Certificate
- Medical Entomology Certificate
- Pest Control Technology Certificate
- Urban Pest Management Certificate

The Department of Entomology and Nematology offers the major. Faculty within the department specialize in a diverse array of fields, including systematics and evolutionary biology, ecology, behavior, physiology, medical and veterinary entomology, genomics and molecular biology, apiculture, agricultural and urban pest management, biodiversity conservation, and more. The department has a long tradition of sending students to graduate school and professional programs (including medical, veterinary, and dental school). Given the widespread importance of insects and nematodes, there are many employment opportunities for students with a degree in Entomology & Nematology.

Academic Learning Compact

The Entomology and Nematology curriculum develops an excellent knowledge base and an understanding of concepts and fundamental practices. Through formal courses, laboratory experimentation, and individual research experience, students will learn how the scientific method is applied to the biological world at the whole organism and population levels. Students will learn to evaluate hypotheses, to acquire and interpret experimental data, and to communicate results effectively in appropriate styles. Special focus will be information on insect identification, morphology, behavior, physiology, and ecology.

Before Graduating Students Must

- Pass the Entomology and Nematology competency exam, which will be tailored to individual specializations.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Curriculum

- Beekeeping Certificate
- Combination Degrees
- Entomology and Nematology
- Entomology and Nematology Minor
- Entomology and Nematology Minor UF Online
- Landscape Pest Management Certificate
- Medical Entomology Certificate
- Pest Control Technology Certificate
- Urban Pest Management Certificate

The Department of Entomology and Nematology offers the major. Faculty within the department specialize in a diverse array of fields, including systematics and evolutionary biology, ecology, behavior, physiology, medical and veterinary entomology, genomics and molecular biology, apiculture, agricultural and urban pest management, biodiversity conservation, and more. The department has a long tradition of sending students to graduate school and professional programs (including medical, veterinary, and dental school). Given the widespread importance of insects and nematodes, there are many employment opportunities for students with a degree in Entomology & Nematology.

Biological Science of Insects

The Biological Science of Insects specialization prepares students for entry to entomological careers or to graduate school in entomology, nematology, and related biological disciplines. It provides students with a solid foundation in basic and applied insect science, and students can choose to further specialize in different subdisciplines via electives. This specialization also emphasizes undergraduate research. Students complete an Insect Research CURE (Course-based Undergraduate Research Experience) as well as at least 3 credits of supervised research under the direction of faculty in the Entomology and Nematology Department.

Coursework

In addition to these courses, students must also complete all university- and college-level requirements (e.g., General Education coursework).

A grade of C or above is required for all critical tracking, core, and elective courses. Students must also maintain a cumulative GPA of at least 2.0 and a critical tracking GPA of at least 2.5.

Critical Tracking Courses

Code	Title	Credits
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory	4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2	4
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory	4
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory	4
Select one Mathematics option:		4-6
MAC 2311	Analytic Geometry and Calculus 1	
MAC 1147	Algebra and Trigonometry	
MAC 1140 & MAC 1114	Precalculus Algebra and Trigonometry	

Core Requirements

Code	Title	Credits
ENY 2890C	Insect Research CURE	3
ENY 3005 & 3005L	Principles of Entomology and Principles of Entomology Laboratory	4
ENY 4161	Insect Classification	3

PHY 2004 & 2004L	Applied Physics 1 and Laboratory for Physics 2004	
STA 2023	Introduction to Statistics 1	3
Approved Applied Entomology course [1]		3
Approved Ecology course [1]		3
Approved Evolution course [1]		3
Approved Genetics course [1]		3
Approved Insect Behavior course [1]		3

Elective Requirements

21 credits of 3000/4000-level courses in Entomology and Nematology or other biological sciences[1], subject to approval by an academic advisor in the Entomology and Nematology program.

[1] See an academic advisor in Entomology and Nematology for a list of courses that can be used to satisfy this requirement.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical-tracking courses, excluding labs:
  - BSC 2010/BSC 2010L
  - BSC 2011/BSC 2011L
  - CHM 2045/CHM 2045L
  - CHM 2046/CHM 2046L
  - (MAC 1140 and MAC 1114) or MAC 1147 or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper-division GPA required
- 2.0 UF GPA required

Semester 6

- Complete the Evolution requirement or the Genetics requirement by taking PCB 4674, ENY 4455C, AGR 3303, or PCB 3063 (grade of C or above required)
- 2.0 upper-division GPA required
- 2.0 UF GPA required

Semester 7

- Complete at least 1 of the following upper-level entomology requirements: ENY 4161 or ENY 4660 (grade of C or above required)
- 2.0 upper-division GPA required
- 2.0 UF GPA required

Semester 8

- Complete a minimum of 3 credits of ENY 4911 (grade of C or above required)
- 2.0 upper-division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

A grade of C or above is required for all critical tracking, core, and elective courses. Students must also maintain a cumulative GPA of at least 2.0 and a critical tracking GPA of at least 2.5.

Course	Title	Credits

IPM 4114	Insect Pest and Vector Management	
Select one Microbiology course with lab:		4
MCB 2000 & 2000L	Microbiology and Microbiology Laboratory	
MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms	
ENY 4911	Supervised Research in Entomology (**Critical Tracking**) [3]	3
Approved electives [2]		6
	Credits	**16**
	Total Credits	**120**

1 This requirement can also be fulfilled by taking MAC 1140 and MAC 1114.

2 3000/4000-level courses in Entomology and Nematology or other biological sciences, subject to approval by an academic advisor in the Entomology and Nematology program.

3 To be conducted under the supervision of research faculty in the Entomology and Nematology department. See an advisor for more information.

Academic Learning Compact

The Entomology and Nematology curriculum develops an excellent knowledge base and an understanding of concepts and fundamental practices. Through formal courses, laboratory experimentation, and individual research experience, students will learn how the scientific method is applied to the biological world at the whole organism and population levels. Students will learn to evaluate hypotheses, to acquire and interpret experimental data, and to communicate results effectively in appropriate styles. Special focus will be information on insect identification, morphology, behavior, physiology, and ecology.

Before Graduating Students Must

- Pass the Entomology and Nematology competency exam, which will be tailored to individual specializations.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify insects and describe and explain insect morphology, physiology, and behavior.

Critical Thinking

2. Acquire, analyze and synthesize entomological information.

Communication

3. Communicate proficiently in the sciences in oral and written forms.

Preprofessional

Entomology and Nematology are interdisciplinary biological sciences that focus on the study of insects, mites, ticks, spiders, nematodes, and related organisms. These creatures can have both helpful and harmful effects on food security, the environment, and the health of humans and other animals. Entomology and Nematology students study ecology, behavior, physiology, evolution, systematics, biodiversity conservation, arthropods of medical and veterinary significance, the management of insect/nematode pests, and invertebrates as models in many different fields of research, including biomedical sciences, bioinspired engineering, and biotechnology.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Specializations:** Biological Science of Insects (p. 233) | Preprofessional (p. 239) | Urban Pest Management (p. 244)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Entomology and Nematology Department prepares students for exciting careers in a large variety of fields. Entomology and Nematology majors can enter medical, veterinary, or dental school; progress to graduate study in entomology, nematology, or any of several other biological sciences such as ecology and evolutionary biology, horticulture, or zoology; or move directly to a variety of careers (including industry and government positions) in fields such as pest management, agriculture, ecotourism, biosecurity, science policy, and education

- Entomology and Nematology
- Entomology and Nematology Minor
- Entomology and Nematology Minor UF Online
- Landscape Pest Management Certificate
- Medical Entomology Certificate
- Pest Control Technology Certificate
- Urban Pest Management Certificate

The Department of Entomology and Nematology offers the major. Faculty within the department specialize in a diverse array of fields, including systematics and evolutionary biology, ecology, behavior, physiology, medical and veterinary entomology, genomics and molecular biology, apiculture, agricultural and urban pest management, biodiversity conservation, and more. The department has a long tradition of sending students to graduate school and professional programs (including medical, veterinary, and dental school). Given the widespread importance of insects and nematodes, there are many employment opportunities for students with a degree in Entomology & Nematology.

Preprofessional

The Preprofessional specialization prepares students for professional programs in medicine, veterinary medicine, dentistry, optometry, osteopathy, and more. It is designed to help students meet the most common prerequisites for medical and veterinary school, while also providing a foundation in

insect science (including medical and veterinary entomology). Students in this specialization are encouraged to meet with a pre-health advisor as well as their major advisor in Entomology & Nematology.
More Info (https://www.advising.ufl.edu/pre-health/)

Specialization Coursework

Below is a summary of the critical tracking courses and core and elective requirements. In addition to these courses, students must also complete all university- and college-level requirements (e.g., General Education coursework).

A grade of C or above is required for all critical tracking, core, and elective courses. Students must also maintain a cumulative GPA of at least 2.0 and a critical tracking GPA of at least 2.5.

Critical Tracking Courses

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory

Approved Evolution course [1]		3
Approved Genetics course [1]		3
Approved Insect Ecology or Behavior course [1]		3
Approved Vertebrate Anatomy or Physiology course [1]		4

Elective Requirements

15 credits of 3000- or 4000-level courses in Entomology & Nematology or other biological sciences[1], subject to approval by an academic advisor in the Entomology & Nematology program.

[1] See an academic advisor in for a list of courses that can be used to satisfy this requirement. Students are encouraged to use their elective credits to take any other courses that are required for admission to their intended professional program. Pre-med students may wish to take biomedical science courses as electives. Pre-vet students are encouraged to take courses in animal science or veterinary science as electives.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L , BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311
- 2.5 GPA required for all critical tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete either the Evolution or Genetics requirement: PCB 4674, ENY 4455C, AGR 3303, or PCB 3063 (grade of C or above required)
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete either CHM 2210 or PHY 2053 (grade of C or above required)
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete either CHM 2211 or PHY 2054 (grade of C or above required)
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

A grade of C or above is required for all critical tracking, core, and elective courses. Students must also maintain a cumulative GPA of at least 2.0 and a critical tracking GPA of at least 2.5.

The Department of Entomology and Nematology offers the major. Faculty within the department specialize in a diverse array of fields, including systematics and evolutionary biology, ecology, behavior, physiology, medical and veterinary entomology, genomics and molecular biology, apiculture, agricultural and urban pest management, biodiversity conservation, and more. The department has a long tradition of sending students to graduate school and professional programs (including medical, veterinary, and dental school). Given the widespread importance of insects and nematodes, there are many employment opportunities for students with a degree in Entomology & Nematology.

Urban Pest Management

The Urban Pest Management specialization prepares students for entry to careers in the pest control industry. It provides students with a foundation in the biology of insects, nematodes, and other organisms, with an emphasis on applications of entomology to solve pest problems in residential and commercial properties. This specialization includes a hands-on internship with pest control specialists as well as several business electives to prepare students for management responsibilities in industry careers. Students who plan to attend graduate school for urban entomology should consider the Biological Science of Insects specialization with urban entomology electives instead.

COURSEWORK

In addition to these courses, students must also complete all university- and college-level requirements (e.g., General Education coursework).

A grade of C or above is required for all critical tracking, core, and elective courses. Students must also maintain a cumulative GPA of at least 2.0 and a critical tracking GPA of at least 2.5.

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper-division GPA required
- 2.0 UF GPA required

SEMESTER 6

- Complete at least 1 Urban Entomology courses: ENY 3222C or ENY 3225C (grade of C or above required)
- 2.0 upper-division GPA required
- 2.0 UF GPA required

SEMESTER 7

- Complete at least 1 of the following upper-level entomology requirements: ENY 4161 or ENY 4660 (grade of C or above required)
- 2.0 upper-division GPA required
- 2.0 UF GPA required

SEMESTER 8

- Complete a minimum of 3 credits of ENY 4230 (grade of C or above required)
- 2.0 upper-division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

A grade of C or above is required for all critical tracking, core, and elective courses. Students must also maintain a cumulative GPA of at least 2.0 and a critical tracking GPA of at least 2.5.

Course	Title	Credits
Semester One		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; State Core Gen Ed Biological Sciences)	4
Select one (**Critical Tracking**; State Core Gen Ed Mathematics): [1]		4
MAC 1147	Algebra and Trigonometry	
MAC 2311	Analytic Geometry and Calculus 1	
State Core Gen Ed Composition (Writing Requirement: 6000 Words)		3
State Core Gen Ed Humanities (p. 80)		3
	Credits	**14**
Semester Two		
Quest 1 (Gen Ed Humanities)		3
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences)	4
STA 2023	Introduction to Statistics 1 (Gen Ed Mathematics)	3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Gen Ed Composition (Writing Requirement: 6000 Words)		3
	Credits	**16**
Semester Three		
Quest 2 (Gen Ed Social and Behavioral Sciences with International)		3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences)	4
ENY 3005 & 3005L	Principles of Entomology and Principles of Entomology Laboratory (Gen Ed Biological Sciences)	4
Writing course (Writing Requirement: 6000 words)		3
	Credits	**14**
Semester Four		
Select one CALS Advanced Oral Communication course:		3
AEC 3030C	Effective Oral Communication	
SPC 2608	Introduction to Public Speaking	
Select one CALS Economics requirement:		3-4
AEB 2014	Current Economic Issues, Food and You	
AEB 3103	Principles of Food and Resource Economics	
ECO 2013	Principles of Macroeconomics	
ECO 2023	Principles of Microeconomics	
Select one Integrated Pest Management course:		3
IPM 3022	Fundamentals of Pest Management	
IPM 4114	Insect Pest and Vector Management	

Select one option (**Critical Tracking**):		3-4
PHY 2004	Applied Physics 1	
& 2004L	and Laboratory for Physics 2004	
PHY 2020	Introduction to Principles of Physics	
NEM 3002	Principles of Nematology	3
	Credits	**15-17**
Semester Five		
Select two Built Environment courses:		6
AEB 4085	Agricultural Risk Management and the Law	
AEB 4123	Agricultural and Natural Resource Law	
ALS 3133	Agricultural and Environmental Quality	
AOM 3220	Agricultural Construction and Maintenance	
AOM 3734	Irrigation Principles and Practices in Florida	
BCN 1210	Construction Materials	
FNR 4080	Sustainable Ecotourism Development	
HSC 4507	Environmental Toxicology Applications in Public Health	
SWS 3022	Introduction to Soils in the Environment	
ENY 3222C	Biology and Identification of Urban Pests (**Critical Tracking**)	3
ENY 3510C	Turf and Ornamental Entomology	3
ENY 4161	Insect Classification (**Critical Tracking**)	3
	Credits	**15**
Semester Six		
Select one CALS Advanced Written Communication course (Writing Requirement: 6000 words):		3
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences	
ENC 2210	Technical Writing	
ENC 2256	Writing in the Disciplines	
Select one Ecology course:		3-4
ALS 3153	Agricultural Ecology	
ENY 4201	Insect Ecology	
ENY 4202	Ecology of Vector-Borne Disease	
ENY 4208	Ecology and Conservation of Pollinators	
ENY 4210	Insects and Wildlife	
PCB 4043C	General Ecology	
WIS 3401	Wildlife Ecology and Management	
ENY 3225C	Principles of Urban Pest Management (**Critical Tracking**)	3
Approved Biological Science elective [2]		3
Approved Business elective [3]		3
	Credits	**15-16**
Semester Seven		
Select one Biosecurity course		3
ALS 4161	Exotic Species and Biosecurity Issues	
ALS 4162	Consequences of Biological Invasions	
ALS 4163	Challenges in Plant Resource Protection	
Select one Insect Behavior course		3
ENY 3451C	Insect Behavior	
ENY 4453	Behavioral Ecology and Systematics	
ENY 4455C	Social Insects	
ENY 4571	Honey Bee Biology	
ENY 4573	Beekeeping I	
ENY 4660	Medical and Veterinary Entomology (**Critical Tracking**)	2
Approved Biological Science electives [3]		4
Approved Business elective [3]		3
	Credits	**15**
Semester Eight		
ENY 4230	Pesticide Application [4]	3
Select one Microbiology course with lab:		4
MCB 2000	Microbiology	
& 2000L	and Microbiology Laboratory	
MCB 3020	Basic Biology of Microorganisms	
& 3020L	and Laboratory for Basic Biology of Microorganisms	
Approved Biological Science electives [2]		6

Approved Business elective [3]	3
Credits	**16**
Total Credits	**120**

1 This requirement can also be fulfilled by taking MAC 1140 and MAC 1114.
2 3000/4000-level courses in Entomology and Nematology or other biological sciences, subject to approval by an academic advisor in the Entomology and Nematology program.
3 Consult an academic advisor in the Entomology and Nematology program for a list of approved business electives.
4 To be conducted under the supervision of a licensed pest management professional. See an advisor for more information.

Academic Learning Compact

The Entomology and Nematology curriculum develops an excellent knowledge base and an understanding of concepts and fundamental practices. Through formal courses, laboratory experimentation, and individual research experience, students will learn how the scientific method is applied to the biological world at the whole organism and population levels. Students will learn to evaluate hypotheses, to acquire and interpret experimental data, and to communicate results effectively in appropriate styles. Special focus will be information on insect identification, morphology, behavior, physiology, and ecology.

Before Graduating Students Must

- Pass the Entomology and Nematology competency exam, which will be tailored to individual specializations.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify insects and describe and explain insect morphology, physiology, and behavior.

Critical Thinking

2. Acquire, analyze and synthesize entomological information.

Communication

3. Communicate proficiently in the sciences in oral and written forms.

Entomology and Nematology Minor

Entomology and Nematology are interdisciplinary biological sciences that focus on the study of insects, mites, ticks, spiders, nematodes, and related organisms. These creatures can have both helpful and harmful effects on food security, the environment, and the health of humans and other animals.

The Entomology and Nematology minor is available to students in any major who wish to gain more knowledge and experience with these organisms. Given the broad importance of insects and nematodes, an Entomology and Nematology minor can complement many different fields of study.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15-16 | Completed with minimum grades of C

Department Information

The Entomology and Nematology Department prepares students for exciting careers in a large variety of fields. Entomology and Nematology majors can enter medical, veterinary, or dental school; progress to graduate study in entomology, nematology, or any of several other biological sciences such as ecology and evolutionary biology, horticulture, or zoology; or move directly to a variety of careers (including industry and government positions) in fields such as pest management, agriculture, ecotourism, biosecurity, science policy, and education

The Department of Entomology and Nematology offers the major. Faculty within the department specialize in a diverse array of fields, including systematics and evolutionary biology, ecology, behavior, physiology, medical and veterinary entomology, genomics and molecular biology, apiculture, agricultural and urban pest management, biodiversity conservation, and more. The department has a long tradition of sending students to graduate school and professional programs (including medical, veterinary, and dental school). Given the widespread importance of insects and nematodes, there are many employment opportunities for students with a degree in Entomology & Nematology.

Biological Science of Insects

The Biological Science of Insects specialization prepares students for entry to entomological careers or to graduate school in entomology, nematology, and related biological disciplines. It provides students with a solid foundation in basic and applied insect science, and students can choose to further specialize in different subdisciplines via electives. This specialization also emphasizes undergraduate research. Students complete an Insect Research CURE (Course-based Undergraduate Research Experience) as well as at least 3 credits of supervised research under the direction of faculty in the Entomology and Nematology Department.

Coursework

In addition to these courses, students must also complete all university- and college-level requirements (e.g., General Education coursework).

A grade of C or above is required for all critical tracking, core, and elective courses. Students must also maintain a cumulative GPA of at least 2.0 and a critical tracking GPA of at least 2.5.

Critical Tracking Courses

Code	Title	Credits
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory	4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2	4
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory	4
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory	4
Select one Mathematics option:		4-6

MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms	
NEM 3002	Principles of Nematology	3
Select one:		3-4
PHY 2020	Introduction to Principles of Physics	
PHY 2004 & 2004L	Applied Physics 1 and Laboratory for Physics 2004	
STA 2023	Introduction to Statistics 1	3
Approved Applied Entomology course [1]		3
Approved Ecology course [1]		3
Approved Evolution course [1]		3
Approved Genetics course [1]		3
Approved Insect Behavior course [1]		3

Elective Requirements

21 credits of 3000/4000-level courses in Entomology and Nematology or other biological sciences[1], subject to approval by an academic advisor in the Entomology and Nematology program.

[1] See an academic advisor in Entomology and Nematology for a list of courses that can be used to satisfy this requirement.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical-tracking courses, excluding labs:
  - BSC 2010/BSC 2010L
  - BSC 2011/BSC 2011L
  - CHM 2045/CHM 2045L
  - CHM 2046/CHM 2046L
  - (MAC 1140 and MAC 1114) or MAC 1147 or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper-division GPA required
- 2.0 UF GPA required

Semester 6

- Complete the Evolution requirement or the Genetics requirement by taking PCB 4674, ENY 4455C, AGR 3303, or PCB 3063 (grade of C or above required)
- 2.0 upper-division GPA required
- 2.0 UF GPA required

Semester 7

- Complete at least 1 of the following upper-level entomology requirements: ENY 4161 or ENY 4660 (grade of C or above required)
- 2.0 upper-division GPA required
- 2.0 UF GPA required

Semester 8

- Complete a minimum of 3 credits of ENY 4911 (grade of C or above required)
- 2.0 upper-division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

A grade of C or above is required for all critical tracking, core, and elective courses. Students must also maintain a cumulative GPA of at least 2.0 and a critical tracking GPA of at least 2.5.

& 2004L	and Laboratory for Physics 2004	
PHY 2020	Introduction to Principles of Physics	
Approved electives [2]		6
	Credits	**14-16**
Semester Eight		
Select one Applied Entomology course:		3
ALS 4161	Exotic Species and Biosecurity Issues	
ALS 4162	Consequences of Biological Invasions	

ALS 4163	Challenges in Plant Resource Protection	
ENY 3222C	Biology and Identification of Urban Pests	
ENY 3225C	Principles of Urban Pest Management	
ENY 3510C	Turf and Ornamental Entomology	
ENY 4574	Beekeeping II	
IPM 3022	Fundamentals of Pest Management	
IPM 4114	Insect Pest and Vector Management	
Select one Microbiology course with lab:		4
MCB 2000 & 2000L	Microbiology and Microbiology Laboratory	
MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms	
ENY 4911	Supervised Research in Entomology (**Critical Tracking**) [3]	3
Approved electives [2]		6
	Credits	**16**
	Total Credits	**120**

1 This requirement can also be fulfilled by taking MAC 1140 and MAC 1114.

2 3000/4000-level courses in Entomology and Nematology or other biological sciences, subject to approval by an academic advisor in the Entomology and Nematology program.

3 To be conducted under the supervision of research faculty in the Entomology and Nematology department. See an advisor for more information.

Academic Learning Compact

The Entomology and Nematology curriculum develops an excellent knowledge base and an understanding of concepts and fundamental practices. Through formal courses, laboratory experimentation, and individual research experience, students will learn how the scientific method is applied to the biological world at the whole organism and population levels. Students will learn to evaluate hypotheses, to acquire and interpret experimental data, and to communicate results effectively in appropriate styles. Special focus will be information on insect identification, morphology, behavior, physiology, and ecology.

Before Graduating Students Must

- Pass the Entomology and Nematology competency exam, which will be tailored to individual specializations.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify insects and describe and explain insect morphology, physiology, and behavior.

Critical Thinking

2. Acquire, analyze and synthesize entomological information.

Communication

3. Communicate proficiently in the sciences in oral and written forms.

Urban Pest Management

Entomology and Nematology are interdisciplinary biological sciences that focus on the study of insects, mites, ticks, spiders, nematodes, and related organisms. These creatures can have both helpful and harmful effects on food security, the environment, and the health of humans and other animals. Entomology and Nematology students study ecology, behavior, physiology, evolution, systematics, biodiversity conservation, arthropods of medical and veterinary significance, the management of insect/nematode pests, and invertebrates as models in many different fields of research, including biomedical sciences, bioinspired engineering, and biotechnology.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Specializations:** Biological Science of Insects (p. 254) | Urban Pest Management (p. 260)
- **Contact:** 1.855.99GATOR
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Entomology and Nematology Department prepares students for exciting careers in a large variety of fields. Entomology and Nematology majors can enter medical, veterinary, or dental school; progress to graduate study in entomology, nematology, or any of several other biological sciences such as ecology and evolutionary biology, horticulture, or zoology; or move directly to a variety of careers (including industry and government positions) in fields such as pest management, agriculture, ecotourism, biosecurity, science policy, and education

Curriculum

- Beekeeping Certificate
- Combination Degrees
- Entomology and Nematology
- Entomology and Nematology Minor
- Entomology and Nematology Minor UF Online
- Landscape Pest Management Certificate
- Medical Entomology Certificate
- Pest Control Technology Certificate
- Urban Pest Management Certificate

The Department of Entomology and Nematology offers the major. Faculty within the department specialize in a diverse array of fields, including systematics and evolutionary biology, ecology, behavior, physiology, medical and veterinary entomology, genomics and molecular biology, apiculture, agricultural and urban pest management, biodiversity conservation, and more. The department has a long tradition of sending students to graduate school and professional programs (including medical, veterinary, and dental school). Given the widespread importance of insects and nematodes, there are many employment opportunities for students with a degree in Entomology & Nematology.

Urban Pest Management

The Urban Pest Management specialization prepares students for entry to careers in the pest control industry. It provides students with a foundation in the biology of insects, nematodes, and other organisms, with an emphasis on applications of entomology to solve pest problems in residential and commercial properties. This specialization includes a hands-on internship with pest control specialists as well as several business electives to prepare students for management responsibilities in industry careers. Students who plan to attend graduate school for urban entomology should consider the Biological Science of Insects specialization with urban entomology electives instead.

COURSEWORK

In addition to these courses, students must also complete all university- and college-level requirements (e.g., General Education coursework).

A grade of C or above is required for all critical tracking, core, and elective courses. Students must also maintain a cumulative GPA of at least 2.0 and a critical tracking GPA of at least 2.5.

Critical Tracking Courses

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2	
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry Laboratory	
Select one Mathematics option:		4-6
MAC 2311	Analytic Geometry and Calculus 1	
MAC 1147	Algebra and Trigonometry	
MAC 1140	Precalculus Algebra	
& MAC 1114	and Trigonometry	
Select one Physics option:		3-4
PHY 2004	Applied Physics 1	
& 2004L	and Laboratory for Physics 2004	
PHY 2020	Introduction to Principles of Physics	

Core Requirements

Code	Title	Credits
ENY 3005	Principles of Entomology	4
& 3005L	and Principles of Entomology Laboratory	
ENY 3222C	Biology and Identification of Urban Pests	3
ENY 3225C	Principles of Urban Pest Management	3
ENY 3510C	Turf and Ornamental Entomology	3
ENY 4161	Insect Classification	3
ENY 4230	Pesticide Application	1-6
ENY 4660	Medical and Veterinary Entomology	2
IPM 3022	Fundamentals of Pest Management	3
or IPM 4114	Insect Pest and Vector Management	
Select one:		4
MCB 2000	Microbiology	
& 2000L	and Microbiology Laboratory	
MCB 3020	Basic Biology of Microorganisms	
& 3020L	and Laboratory for Basic Biology of Microorganisms	
NEM 3002	Principles of Nematology	3
STA 2023	Introduction to Statistics 1	3
Approved Ecology course [1]		3
Approved Biosecurity course [1]		3
Approved Insect Behavior course [1]		3
2 Approved Built Environment courses [1]		6

Elective Requirements

- 13 credits of 3000/4000-level courses in Entomology and Nematology or other biological sciences[1], subject to approval by an academic advisor in the Entomology and Nematology program.
- 9 credits of business electives[1], subject to approval by an academic advisor in the Entomology and Nematology program.

[1] See an academic advisor in Entomology and Nematology for a list of courses that can be used to satisfy this requirement.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete 2 of 5 critical-tracking courses, excluding labs:
  - BSC 2010/BSC 2010L
  - BSC 2011/BSC 2011L
  - CHM 2045/CHM 2045L
  - (PHY 2004/PHY 2004L) or PHY 2020
  - (MAC 1140 and MAC 1114) or MAC 1147 or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper-division GPA required
- 2.0 UF GPA required

SEMESTER 6

- Complete at least 1 Urban Entomology courses: ENY 3222C or ENY 3225C (grade of C or above required)
- 2.0 upper-division GPA required
- 2.0 UF GPA required

SEMESTER 7

- Complete at least 1 of the following upper-level entomology requirements: ENY 4161 or ENY 4660 (grade of C or above required)
- 2.0 upper-division GPA required
- 2.0 UF GPA required

SEMESTER 8

- Complete a minimum of 3 credits of ENY 4230 (grade of C or above required)
- 2.0 upper-division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

A grade of C or above is required for all critical tracking, core, and elective courses. Students must also maintain a cumulative GPA of at least 2.0 and a critical tracking GPA of at least 2.5.

Course	Title	Credits
Semester One

Environmental Horticulture Management Certificate

The Environmental Horticulture Management certificate is offered via distance learning technologies. The certificate enables the working professional or adult learner who is place-bound and cannot attend classes in Gainesville to gain a background in the sustainable ornamental horticulture practices used in the greenhouse, nursery, or landscape industries. The program emphasizes the conservation of resources through proper plant management.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** Email (klock@ufl.edu) | 954.577.6328
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The Environmental Horticulture Department is a team of faculty, staff, and students dedicated to improving the human environment and protecting the natural landscape through the use of plants. Florida's climatic diversity and the facilities at UF provide opportunities for cutting-edge research in plant

breeding and biotechnology, nursery crop production, landscape management, water management, restoration and conservation, and other disciplines.

Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies

A sustainable future only happens when you commit to shape it. Dedicate your studies to a better environment, to better yourself.

As more focus is placed on the earth, its resources and the impacts on our ecosystem, environmental science degrees are growing in demand. Environmental Management degree gives students a solid grounding in the areas of hydrology, soil science, pest management, water resources, and agricultural ecology. This equates to UF Environmental Management graduates prepared to excel in jobs with agricultural producers, consulting companies and government agencies involved in maintaining a sustainable environment.

With an environmental management degree, you can make an impact on the well-being and health of our planet and its people. From contaminated water to air pollution levels, environmental managers can be leaders in the path to driving commerce and innovation forward in a sustainable manner. Graduates can look forward to careers in various fields in the agricultural, environmental and natural sciences sectors such as sustainable food and

fiber production, environmental policy and analysis, water resources, energy resources, soil conservation, stewardship of natural resources, pollution management and international development.

In addition to completing all university, college and general degree requirements, students enrolled in the Environmental Management program will have the opportunity to take a number of core courses, including Natural Resource Policy and Economics, Environmental Nutrient Management and Environmental Biogeochemistry along with several approved electives such as Economics, The World of Water and Environmental Monitoring Techniques.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **School:** Natural Resources and Environment (p. 1745)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Soil, Water, and Ecosystem Sciences Department researches and teaches about soil, water, and environmental sciences in urban, agricultural, and natural ecosystems. Since its origins over 100 years ago, the department has made significant contributions to improving the productivity of Florida's agriculture, helping protect the state's unique ecosystems, and contributing to soil and water science at national and international levels.

This major is for students who desire education in environmental management with substantial emphasis on agriculture and natural resources.

Graduates will find employment with agricultural producers, consulting companies and government agencies that are involved in maintaining a sustainable environment.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 6 critical-tracking courses, excluding labs: AEC 3030C or SPC 2608, BSC 2005/BSC 2005L or BSC 2010/BSC 2010L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2233, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs from semesters 1 – 4
- Complete 1 additional tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete 1 additional tracking course
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete 2 additional tracking courses
- 2.0 upper division GPA required.
- 2.0 UF GPA required

Semester 8

- Complete all remaining tracking course from semester 5 - 8
- 2.0 upper division GPA required.
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
MAC 2233	Survey of Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Humanities (p. 80)		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Elective		3
	Credits	**15**
Semester Two		
Quest 1 (Gen Ed Humanities)		3
Select one:		3-4

AEB 2014	Current Economic Issues, Food and You (Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (Gen Ed Social and Behavioral Sciences)	
ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
Select one:		4
BSC 2005 & 2005L	Biological Sciences and Laboratory in Biological Science (**Critical Tracking**; Gen Ed Biological Sciences)	
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)	
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
Gen Ed Composition (Writing Requirement)		3
	Credits	**16-17**
Semester Three		
Quest 2 (Gen Ed Social and Behavioral Sciences)		3
Select one:		3
AEC 3030C	Effective Oral Communication (**Critical Tracking**)	
SPC 2608	Introduction to Public Speaking (**Critical Tracking**)	
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Biological or Physical Sciences)	4
GLY 2030C	Environmental and Engineering Geology (Gen Ed Physical Sciences)	3
Gen Ed Humanities		3
	Credits	**16**
Semester Four		
ALS 3133	Agricultural and Environmental Quality (Gen Ed Physical Sciences)	3
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	4
Select one:		3
PHY 2020	Introduction to Principles of Physics (Gen Ed Physical Sciences)	
PHY 2004	Applied Physics 1 (Gen Ed Physical Sciences)	
SWS 2007	The World of Water	
Elective		3
	Credits	**13**
Semester Five		
Select one:		3
ALS 3153	Agricultural Ecology	
SWS 4303C	Soil Microbial Ecology	
WIS 3404	Natural Resource Ecology	
SWS 3022	Introduction to Soils in the Environment (**Critical Tracking**; Gen Ed Physical Sciences)	3
SWS 4244	Wetlands	3
Approved elective		3
	Credits	**12**
Semester Six		
AEB 3133 or MAN 3025	Principles of Agribusiness Management or Principles of Management	3-4
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement)	3
Select one:		3
ENY 3005 & 3005L	Principles of Entomology and Principles of Entomology Laboratory (**Critical Tracking**)	
IPM 3022	Fundamentals of Pest Management (**Critical Tracking**)	
Approved elective		3
Elective		3
	Credits	**15-16**
Summer After Semester Six		
Select one:		3
SWS 4900	Supervised Extension Experience in Soil and Water Sciences	
SWS 4905	Individual Work	
SWS 4911	Supervised Research in Soil and Water Science	
SWS 4915	Honors Thesis Research in Soil and Water Science	
SWS 4941	Full-time Practical Work Experience in Soil and Water Science	

Approved elective		3
	Credits	**6**
Semester Seven		
AOM 4643	Environmental Hydrology: Principles and Issues	3
FNR 4660	Natural Resource Policy and Economics (**Critical Tracking**)	3
SWS 4720C	GIS in Soil and Water Science (**Critical Tracking**)	3
Approved elective		3
Elective		3
	Credits	**15**
Semester Eight		
SWS 4116	Environmental Nutrient Management	3
SWS 4223	Environmental Biogeochemistry (**Critical Tracking**)	3
Approved electives		6
	Credits	**12**
	Total Credits	**120**

Approved Electives

Other electives require advisor approval

Code	Title	Credits
AGG 4502	Nanotechnology in Food, Agriculture, and Environment	3
AEB 2014	Current Economic Issues, Food and You	3
AEB 3671	Comparative World Agriculture	3
ALS 4162	Consequences of Biological Invasions	3
BUL 4310	The Legal Environment of Business	4
ECO 2013	Principles of Macroeconomics	4
ECO 2023	Principles of Microeconomics	4
ENT 3003	Principles of Entrepreneurship	4
ENY 3007C	Life Science	3
GEB 3373	International Business	4
MAR 3023	Principles of Marketing	4
SWS 2007	The World of Water	3
SWS 4180	Earth System Analysis	3
SWS 4204	Urban Soil and Water Systems	3
SWS 4207	Sustainable Agricultural and Urban Land Management	3
SWS 4233	Soil and Water Conservation	3
SWS 4800	Environmental Soil and Water Monitoring Techniques	3
SWS 4932	Special Topics in Soil and Water Science (Math for Environmental Professionals)	2
SWS 4932	Special Topics in Soil and Water Science (Wetlands Seminar)	1
WIS 3404	Natural Resource Ecology	3

Academic Learning Compact

The interdisciplinary major in environmental management in agriculture provides students with the scientific and technical foundation to integrate and communicate the diverse environmental issues associated with agriculture and natural resources. Students will be able to deal in an informed manner with the agricultural regulations and permitting requirements established by various agencies and jurisdictions, and students will achieve an appreciation for the complexities of agricultural practices. Students will learn to integrate, balance and communicate the mix of agricultural and environmental issues that need to be addressed in modern society.

Before Graduating Students Must

- Complete an approved senior-year research project, SWS 4905, related to management and science skills.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Appraise similarities between agronomic production and environmental protection issues.
2. Describe the processes in the carbon, nitrogen, phosphorus, and sulfur cycles, and relate these processes to global patterns of productivity, pollution, and consequences of environmental change.

Critical Thinking

3. Critically evaluate natural resource policies using basic economic tools, identify factors that influence the success of resource policy implementation, and apply ecological, social and political criteria.
4. Develop a plan for the analysis of an environmental/agricultural study using geographic information systems software.
5. Compare the effects of different fertility sources on nutrient cycling, interpret soil tests and quantify crop nutrient requirements, and fertilizer application rates.

Communication

6. Create, interpret, and analyze written text, oral messages, and multimedia presentations used in agricultural and life sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5	SLO 6
AEB 3133			R			
AEC 3030C						I, R, A
AEC 3033C						I, R, A
ALS 3133	I, A	I	I		I	
AOM 4643		R	R	I		
FNR 4660			R, A			R
SWS 3022		I			I	
SWS 4116	R	R			R, A	R
SWS 4223	R	R, A				R
SWS 4244	R	R	R			
SWS 4720C				R, A		R

Assessment Types

- Average of tests in ALS 3133
- Average of problem set and test scores in SWS 4223
- Average test scores in FNR 4660
- Project presentation in SWS 4720C
- Test and problem set scores from SWS 4116
- Course grades in AEC 3033C and AEC 3030C

Environmental Policy, Law, and Regulation Certificate

This certificate prepares students with existing background in natural resources to work in legal and regulatory aspects of land management, including supporting the pursuit of a law degree. It prepares students for work in government agencies responsible for protecting environmental resources, in the private sector addressing issues of compliance, or similar.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15-16 | Completed with minimum grades of C
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Extension Education Minor

This minor supplements the extension education major and prepares students for careers in the cooperative extension service. The minor offers coursework in nonformal and formal educational methods, adult education, leadership, youth programs, and communication methods along with field experience.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15

Department Information

The UF/IFAS Department of Agricultural Education and Communication is a group of faculty, staff and students committed to connecting people with agriculture and natural resources through agricultural communication, education, leadership development and Extension education.

AEC 4052	Communication Campaign Strategies in Agricultural and Life Sciences	3
AEC 4417	Leadership for Personal and Organizational Change	3
AEC 4434	Communication and Leadership in Groups and Teams	3
AEC 4944	Cooperative Extension Internship (only three credits count toward the minor)	4-6
FYC 4408	Organizational Leadership for Nonprofits	3

Family, Youth and Community Sciences

This social science major prepares students to address predictable human developmental changes, unpredictable events such as natural disasters, and persistent problems such as poverty and nutrition. Family, Youth and Community Sciences students study sociology, psychology, and economics as well as advanced topics in youth, family, and community development.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements, which include a minor or area of specialization.

Department Information

The mission of the Family, Youth and Community Sciences Department is to enhance lifelong learning and the personal, social, economic, and environmental well-being of diverse individuals, families, and communities through state-of-the art extension, research, and teaching programs.

Map (http://campusmap.ufl.edu/#/index/0267)

Curriculum

- Combination Degrees
- Family, Youth and Community Sciences
- Family, Youth and Community Sciences Minor

This interdisciplinary applied social science program provides the general and technical education necessary for graduates to enter careers in human services, including public, private, nonprofit and for-profit organizations. This includes family life education, youth development, human services, community development and extension education. Students receive the training needed to understand and help youth, families and communities by taking foundation courses in sociology, psychology and economics as well as advanced courses in youth, family and community development.

Students must earn a minimum grade of C in all critical-tracking courses, 3000/4000-level core courses and specialization elective, which must be at the 3000/4000-level. A 2.5 GPA in the core courses is required for graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, excluding labs, with a minimum grade of C: AEB 2014 or ECO 2013 or ECO 2023, BSC 2005/BSC 2005L, PSY 2012, STA 2023, SYG 2000
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding lab, with minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1` additional critical-tracking course, excluding labs, with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses, excluding lab, with minimum grades of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 FYC Course
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Area of specialization/minor course
- 2.0 upper division GPA required
- 2.0 UF GPA Required

Semester 7

- Complete 1 area of specialization/minor course
- 2.0 upper division GPA required
- 2.0 UF GPA Required

Semester 8

- Complete FYC 4941
- 2.0 upper division GPA required
- 2.0 UF GPA Required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Minor or specialization or FYC advanced topic course		3
	Credits	**16**
Semester Seven		
FYC 4931	Family, Youth, and Community Sciences Professional Development	3
FYC advanced topic course		3
FYC elective		3
Minor or specialization course **Critical Tracking**)		3
	Credits	**12**
Semester Eight		
FYC 4941	Practicum in Family, Youth and Community Sciences	6
FYC advanced topic or minor course		3
Minor or specialization course (**Critical Tracking**)		3
	Credits	**12**
	Total Credits	**120**

Specialization electives must be at the 3000/4000 level and students must attain minimum grades of C.

Academic Learning Compact

This major takes an interdisciplinary approach to the applied social sciences and prepares students for a career in professions that strengthen families, children, youth, and communities. Students' knowledge and skills will be developed through foundation courses in sociology, psychology, and economics; through advanced courses in family, youth, and community development; and through specialized courses in prevention and intervention. Students will be able to evaluate strategies, integrate knowledge of ethical standards, and use professional skills for handling contemporary problems.

Before Graduating Students Must

- Complete a final project in FYC 4931, including a written report and oral presentation.
- Complete the practicum course FYC 4941 with performance evaluations completed by agency supervisors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply the guiding framework of Family, Youth and Community Sciences disciplines to contribute to positive outcomes.
2. Apply strategies for prevention and intervention in contemporary family, youth, and community problems and issues.

Critical Thinking

3. Apply current research findings relevant to families, youth, and communities.

Communication

4. Apply speaking skills to communicate research findings in formal settings related to family, youth, and community sciences organizations using multimedia software.
5. Write effectively in a manner appropriate to conventions of social science research.

- Geomatics
- Geomatics Certificate
- Mapping with Small Unmanned Aerial Systems Certificate
- Natural Resource Conservation

Students applying for the minor must obtain written approval from the undergraduate coordinator for fisheries and aquatic sciences at least two semesters before graduation.

Requirements

- Complete a minimum of nine credits at UF
- Complete a minimum of nine FAS credits at the 3000-level or above
  - FAS 4905 cannot be used to satisfy this requirement
  - Two credits maximum of FAS 4933 can apply toward this requirement
- Complete at least six credits, as approved by the FAS undergraduate coordinator
  - These may include FAS, FNR, GLY, OCE, SWS, VME, WIS and/or ZOO courses
  - Three credits maximum of FAS 4905 can apply toward this requirement
  - One course maximum, or three credits, of scuba coursework can apply toward this requirement; approved courses include FAS 4932 Scientific Diver and FAS 4932 Research Dive Master.

Food and Resource Economics

Through curriculum and experiential learning, students develop the skills to analyze complex situations such as the allocation of natural resources to meet the needs of people in local, state, national, and global communities. Food and Resource Economics students study sales, finance, marketing, management, environmental policy, law, international trade, math and economics.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Specializations:** Food and Agribusiness Marketing and Management (p. 283) | International Food and Resource Economics (p. 287)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Curriculum

- Agricultural and Natural Resource Ethics and Policy Minor
- Agricultural and Natural Resource Law Minor
- Combination Degrees
- Data Analytics for Applied Economics and Agribusiness Minor
- Food and Resource Economics
- International Development and Humanitarian Assistance Minor

Graduates choose from a vast number of career opportunities, including sales, marketing, management, environmental policy, international trade, international marketing, economic analysis, natural resource management and human resource management.

Students who have completed 30 credits but fewer than 60 are required to complete mathematics through precalculus (MAC 1147 or equivalent) before admission to the college.

Students who have completed 60 or more credits are required to have completed calculus (MAC 2233 or equivalent), statistics (STA 2023 or equivalent), financial accounting (ACG 2021 or equivalent) and macroeconomics (ECO 2013 or equivalent) with minimum grades of C before admission to the college.

Students should consult an advisor for approval of electives.

Academic Learning Compact

Students will learn to apply a conceptual framework using economic reasoning and generally accepted economic principles to problem solving. They will also learn to analyze and interpret economic data, and to critically evaluate economic information in media and politics.

BEFORE GRADUATING STUDENTS MUST

- Complete AEB 4325 for the Food and Agribusiness Marketing and Management specialization, or
  Complete AEB 4343 for the International Food and Resource Economics specialization
- Complete requirements for the baccalaureate degree, as determined by faculty.

STUDENTS IN THE MAJOR WILL LEARN TO

Student Learning Outcomes | SLOs

Content

1. Describe fundamental micro- and macroeconomic principles.
2. Explain the basic role of marketing, management, and finance in firm-level decision making.

Critical Thinking

1. Analyze and interpret economic data, critically evaluating economic information and economic policies.
2. Develop a business plan, based on a projected marketing strategy, assessing historic financial statements and projecting cash flows.

Communication

1. Communicate effectively in written form in a manner appropriate in economics and business.
2. Communicate orally (including visual aids) in an effective manner appropriate in economics and business.

Food and Agribusiness Marketing and Management

The specialization is for students interested in food and fiber systems management, marketing, finance and international business and employment opportunities and sales and managerial positions in agribusiness firms, commercial banks, the Farm Credit Service, insurance and appraisal firms.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Students also must earn a minimum GPA of 2.25 in all AEB courses.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 4 critical courses: ACG 2021, ECO 2013, MAC 2233, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete MAC 2233
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete AEB 3510
- 2.0 upper division GPA required
- 2.25 GPA required for all AEB courses
- 2.0 UF GPA required

Semester 7

- Complete AEB 3550
- 2.0 upper division GPA required
- 2.25 GPA required for all AEB courses
- 2.0 UF GPA required

Semester 8

- 2.0 upper division GPA required
- 2.25 GPA required for all AEB courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	4
MAC 1147	Algebra and Trigonometry (Gen Ed Mathematics; if needed, or select one elective)	4
State Core Gen Ed Biological or Physical Sciences (p. 80) [1]		3-4

Food Science

This major uses engineering, biological, and physical sciences to study the nature of foods, the causes of food deterioration, the principles underlying food processing, and the development and improvement of foods for consumption. Food Science students study organic and food chemistry, biology, physics, government regulations in the food industry, food engineering, and microbiology.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Food Science and Human Nutrition Department (FSHN) is one of the world's largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within one department. The department's programs are accredited by the Institute of Food Technologists (IFT) (http://www.ift.org/) and the Academy of Nutrition and Dietetics (http://www.eatright.org/). After completing undergraduate degrees, FSHN students typically move on to employment in the food industry, healthcare settings, graduate, or professional programs.

Curriculum

- Dietetics
- Food Science
- Food Science Minor
- Nutritional Sciences
- Nutritional Sciences Minor

The food science curriculum emphasizes a strong technical background, with elective options important to employment in the food industry, government agencies or as preparation for graduate study. The curriculum is approved by the Institute of Food Technologists (IFT), the professional society of the discipline. Graduates have obtained employment in state, national and international food corporations. Most work in the areas of quality control, technical support and sales, or research and product development.

The curriculum also prepares the student for graduate study. Opportunities to become involved in leadership roles in the FSHN Department student organizations and through national competitions are considerable. Internships in food industries may be available, and these provide invaluable experience as well as contacts that can be extremely beneficial when seeking employment.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete CHM 2045/CHM 2045L or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete FOS 4722C
- 2.0 Upper Division GPA required
- 2.0 UF GPA required

Semester 6

- Complete FOS 4311/FOS 4311L
- 2.0 Upper Division GPA required
- 2.0 UF GPA required

AEB 2114L	Introduction to Agricultural Computer Applications	1
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Humanities (p. 80)		3
	Credits	**15**
Semester Two		
Quest 1 (Gen Ed Humanities)		3
Select one:		3-4
AEB 2014	Current Economic Issues, Food and You	

AEB 3103	Principles of Food and Resource Economics	
ECO 2013	Principles of Macroeconomics	
ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	
Elective		3
	Credits	**13-14**
Semester Three		
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)	
PHY 2053	Physics 1	5
& 2053L	and Laboratory for PHY 2053 (Gen Ed Physical Sciences)	
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Gen Ed Composition; Writing Requirement		3
	Credits	**15**
Semester Four		
Quest 2		3
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences)	
CHM 2210	Organic Chemistry 1 (minimum grade of C within two attempts, including withdrawals)	3
FOS 2040	Introductory Food Science	3
STA 2023	Introduction to Statistics 1 (Gen Ed Mathematics)	3
	Credits	**16**
Semester Five		
AEC 3030C	Effective Oral Communication	3
CHM 2211	Organic Chemistry 2	5
& 2211L	and Organic Chemistry Laboratory	
FOS 3060	Life After Graduation	1
FOS 4722C	Quality Control in Food Systems (**Critical Tracking**)	3
Elective		3
	Credits	**15**
Semester Six		
FOS 4311	Food Chemistry	4
& 4311L	and Food Chemistry Laboratory (**Critical Tracking**)	
FOS 4731	Government Regulations and the Food Industry	2
HUN 2201	Fundamentals of Human Nutrition	3
MCB 2000	Microbiology	4
& 2000L	and Microbiology Laboratory	
Elective		3
	Credits	**16**
Semester Seven		
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement)	3
BCH 3025	Fundamentals of Biochemistry	4
FOS 4321C	Food Analysis (**Critical Tracking**)	4
FOS 4410C	Introduction to Unit Operations in Food Processing	4
	Credits	**15**
Semester Eight		
FOS 4222	Food Microbiology	5
& 4222L	and Food Microbiology Laboratory	
FOS 4427C	Principles of Food Processing	4
FOS 4435C	Food Product Development (**Critical Tracking**)	3
Elective		3
	Credits	**15**
	Total Credits	**120**

Additional electives may be needed to complete the 120 credits required for graduation.

Academic Learning Compact

Food Science applies the principles of chemistry, biology, physics, and analysis to solve problems related to composition, reactions, processing, quality, safety, and packaging of foods. Students will learn to apply principles of microbiology and quality control with regulatory requirements to assure the quality and safety of food products. Emphasis will be placed on food processing and engineering in selecting appropriate methods for commercial food production.

Before Graduating Students Must

- Successfully complete a product development project administered in FOS 4435C, the undergraduate capstone course. The skills to complete the project will have been acquired from the required food science courses. The project is evaluated using a rubric approved by a faculty committee.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply principles of chemistry, biology, physics and analysis to solve problems related to composition, reactions, processing, quality, safety, and packaging of foods.
2. Apply principles of microbiology and quality control, along with regulatory requirements, to assure the quality and safety of food products.
3. Apply principles of food processing and engineering to the selection of appropriate methods for commercial food production.

Critical Thinking

4. Analyze and interpret analytical data using knowledge and application of food science, technology and related tools.

Communication

5. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Curriculum Map

Food Science Minor

The UF/IFAS Food Science and Human Nutrition Department offers a minor specializing in Food Science. The Food Science minor is open to all students at the University of Florida.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15 | Completed with minimum grades of C and a minimum cumulative 2.5 GPA in the minor

Department Information

The Food Science and Human Nutrition Department (FSHN) is one of the world's largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within one department. The department's programs are accredited by the Institute of Food Technologists (IFT) (http://www.ift.org/) and the Academy of Nutrition and Dietetics (http://www.eatright.org/). After completing undergraduate degrees, FSHN students typically move on to employment in the food industry, healthcare settings, graduate, or professional programs.

- Food Science
- Food Science Minor
- Nutritional Sciences
- Nutritional Sciences Minor

Required Courses

Students may only take courses for which they meet the prerequisites.

Code	Title	Credits
Select 15 credits		**15**
Courses for minimal science backgrounds		
FOS 2001	Man's Food	
FOS 2040	Introductory Food Science	
FOS 4202	Food Safety and Sanitation	
FOS 4722C	Quality Control in Food Systems	
FOS 4731	Government Regulations and the Food Industry	
FOS 4290	Principles of Food Safety Systems	
Courses requiring higher-level science prerequisites		
FOS 4222	Food Microbiology	
FOS 4222L	Food Microbiology Laboratory	
FOS 4223	Food and Environmental Virology	
FOS 4311	Food Chemistry	
FOS 4410C	Introduction to Unit Operations in Food Processing	
FOS 4311L	Food Chemistry Laboratory	
FOS 4318	Flavor Chemistry	
FOS 4321C	Food Analysis	
FOS 4427C	Principles of Food Processing	
FOS 4522C	Seafood Technology	
Total Credits		**15**

Forest Health Management Certificate

The Forest Health Management Certificate prepares students with existing backgrounds in natural resources and forestry to work in a proactive capacity to address and monitor forest pests and pathogens to protect forest health. The certificate prepares students to work in government agencies, nonprofits, and in the private sector in a forest health and resilience capacity.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15-17 | Completed with minimum grades of C

School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Curriculum

- Combination Degrees
- Fire Ecology and Management Certificate
- Fisheries and Aquatic Sciences Minor
- Forest Health Management Certificate
- Forest Resources and Conservation
- Forest Resources and Conservation Minor
- Geomatics
- Geomatics Certificate
- Mapping with Small Unmanned Aerial Systems Certificate
- Natural Resource Conservation

Certificate Requirements

- Current FRC majors only by special permission from SFFGS Undergraduate Coordinator via a Pre-Enrollment Survey.
- Completion of course prerequisites for the certificate courses.
- Ability to complete at least 6 credits after admission to program.
- Writing a summative essay on the student's experience and connect it to forest health and resilience issues.

Required Courses

Code	Title	Credits
FNR 3133C	Tree Biology	3
FNR 4620C	Forest Health Management	3
Select one: [1]		3
FNR 4905	Individual Study in Natural Resources	
FNR 4911	Supervised Research in Forest Resources and Conservation	
FNR 4941	Internship in Natural Resources	
Electives		6-8
Total Credits		**15-17**

Electives

Code	Title	Credits
ALS 4161	Exotic Species and Biosecurity Issues	3
ALS 4162	Consequences of Biological Invasions	3
BSC 3307C	Climate Change Biology	4
HOS 3305	Introduction to Plant Molecular Biology	3
IPM 3022	Fundamentals of Pest Management	3
PLP 3230	Survey of Plant Pathogens	3
PLP 4653C	Basic Fungal Biology	4
PLS 4601C	Principles of Weed Science	3
SWS 4231C	Soil, Water and Land Use	3
SWS 4303C	Soil Microbial Ecology	3

[1] Requires a grade of S.

Forest Resources and Conservation

Providing students with a solid understanding of ecology, this major prepares students to manage and develop forest areas for economic, recreational, and ecological purposes. Forest Resources and Conservation students study natural resource management and analysis, soil and water sciences, plant identification, law and policy, fire management, and natural resource economics.

Curriculum

- Combination Degrees
- Fire Ecology and Management Certificate
- Fisheries and Aquatic Sciences Minor
- Forest Health Management Certificate
- Forest Resources and Conservation
- Forest Resources and Conservation Minor
- Geomatics
- Geomatics Certificate
- Mapping with Small Unmanned Aerial Systems Certificate
- Natural Resource Conservation

The Forest Resources and Conservation major prepares students to sustainably manage forests to meet some combination of ecological, economic, and social/recreational objectives. Graduates are commonly employed in managing public or private land, in areas such as timber management, habitat restoration, outdoor recreation management, environmental law and policy, and similar.

Coursework is diverse, with an emphasis on field experiences which give students hands-on exposure to topics in ecology and biology, economics, administration and planning, and the use of various tools and techniques to manage forests to meet society's needs. Students have the option to complete a certificate in Fire Ecology and Management, Urban Forestry, Recreation Resource Management, or Environmental Policy, Law, and Regulation. This major is accredited by the Society of American Foresters.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 7 critical-tracking courses: AEB 2014 or ECO 2013 or ECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses: AEB 2014 or ECO 2013 or ECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses: AEB 2014 or ECO 2013 orECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all remaining critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 5 of the required major courses: FNR 3131C, FNR 3002C, FNR 3410C, FNR 3602 or FNR 4080, FNR 3500C, FNR 3003C, FNR 4660, FNR 3020, FNR 4343C, FNR 4623C, FNR 3400C, FNR 3622, FNR 3133C, SWS 3022, FNR 3411, FNR 4080, FNR 4621, FNR 4624C, FNR 4620C.
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete 5 of the required major courses: FNR 3131C, FNR 3002C, FNR 3410C, FNR 3602 or FNR 4080, FNR 3500C, FNR 3003C, FNR 4660, FNR 3020, FNR 4343C, FNR 4623C, FNR 3400C, FNR 3622, FNR 3133C, SWS 3022, FNR 3411, FNR 4080, FNR 4621, FNR 4624C, FNR 4620C.
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete 5 of the required major courses: FNR 3131C, FNR 3002C, FNR 3410C, FNR 3602 or FNR 4080, FNR 3500C, FNR 3003C, FNR 4660, FNR 3020, FNR 4343C, FNR 4623C, FNR 3400C, FNR 3622, FNR 3133C, SWS 3022, FNR 3411, FNR 4080, FNR 4621, FNR 4624C, FNR 4620C.
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete all remaining required major courses: FNR 3131C, FNR 3002C, FNR 3410C, FNR 3602 or FNR 4080, FNR 3500C, FNR 3003C, FNR 4660, FNR 3020, FNR 4343C, FNR 4623C, FNR 3400C, FNR 3622, FNR 3133C, SWS 3022, FNR 3411, FNR 4080, FNR 4621, FNR 4624C, FNR 4620C.
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
Select one:		3
CHM 1030	Basic Chemistry Concepts and Applications 1 (**Critical Tracking**; Gen Ed Biological and Physical Sciences)	
CHM 2045	General Chemistry 1 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	
FNR 2071	Forests for the Environment	3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
Elective		3
	Credits	**15**
Semester Two		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
FAS 2024	Sustainable Fisheries (recommended elective)	3
MAC 1105	Basic College Algebra (**Critical Tracking**; State Core Gen Ed Mathematics)	3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Elective		3
	Credits	**16**
Semester Three		
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (**Critical Tracking**; Writing Requirement) [1]	3
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
Gen Ed Composition		3
Gen Ed Social & Behavioral Sciences		3
Elective		2
	Credits	**14**
Semester Four		
Quest 2 (Gen Ed Physical Sciences)		3
Select one:		3-4
AEB 2014	Current Economic Issues, Food and You (**Critical Tracking**)	
ECO 2013	Principles of Macroeconomics (**Critical Tracking**)	
ECO 2023	Principles of Microeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
Select one:		3
AEC 3030C	Effective Oral Communication (**Critical Tracking**)	
SPC 2608	Introduction to Public Speaking (**Critical Tracking**)	
FAS 2024	Sustainable Fisheries (recommended elective, if not already taken)	3
State Core Gen Ed Humanities (p. 80)		3
	Credits	**15-16**
Summer After Semester Four		
FNR 3002C	Foundations of Natural Resources and Conservation (**Critical Tracking**; Summer B only)	1
FNR 3400C	Forest Resources Information Systems (**Critical Tracking**; Summer B only)	3
	Credits	**4**
Semester Five		
FNR 3020	Professional Practice in Natural Resources	1
FNR 3131C	Dendrology/Forest Plants	3
FNR 3133C	Tree Biology (**Critical Tracking**)	3
FNR 3410C	Natural Resource Sampling	3
FNR 3500C	Forest Ecology (**Critical Tracking**)	3
	Credits	**13**
Semester Six		
FNR 3411	Forest Mensuration	3
FNR 3003C	Silviculture (**Critical Tracking**)	4

FNR 4510 or FNR 3602	Global Forests or Society and Natural Resources	3
FNR 4660	Natural Resource Policy and Economics	3
SWS 3022	Introduction to Soils in the Environment	3
	Credits	**16**
Semester Seven		
FNR 4080	Sustainable Ecotourism Development	3
FNR 4621	Forest Economics and Management	3
FNR 4624C	Field Operations for Management of Ecosystems (**Critical Tracking**)	3
Certificate coursework or advisor-approved electives		4
	Credits	**13**
Semester Eight		
FNR 3622	Fire Ecology and Management	2
FNR 4343C	Forest Water Resources	3
FNR 4620C	Forest Health Management	3
FNR 4623C	Integrated Natural Resource Management (**Critical Tracking**)	3
Certificate coursework or advisor-approved elective		3
	Credits	**14**
	Total Credits	**120**

Academic Learning Compact

The Forest Resources and Conservation major provides a broad education in the ecological, economic, and social aspects of forest and natural resources and their management. The major also provides national accreditation from the Society of American Foresters.

Before Graduating Students Must

- Pass the forest resources and conservation competency exam, given in five parts. One part will be given in each of these required courses:

Code	Title	Credits
FNR 3131C	Dendrology/Forest Plants	3
FNR 3410C	Natural Resource Sampling	3
FNR 4040C		
FNR 4623C	Integrated Natural Resource Management	3
FNR 4660	Natural Resource Policy and Economics	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate competency in biology/ecology, quantification, policy/administration, and management of forest and related natural resources.
2. Analyze, interpret, synthesize, and communicate information and data, including the use of mathematical and statistical methods.

Critical Thinking

3. Solve novel problems in forest and natural resource management.

Communication

4. Create, interpret and analyze written text, oral messages and multimedia presentations.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

FOR 4020			R	R

Assessment Types

- Final group project
- Exams
- Program exit exam

Forest Resources and Conservation Minor

This minor introduces natural resource management and is ideal for students majoring in related fields such as wildlife ecology, soil and water science and environmental science. The minor also is a good option for those who are interested in the social aspects of natural resources with majors such as business, education, food and resource economics, and political science.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 16-17 | Completed with minimum grades of C

FNR course (3000/4000 level)		3-4
Total Credits		**16-17**

Geomatics

The Geomatics profession collects, manages, and analyzes geospatial data through ground surveying, photogrammetry, remote sensing, satellite positioning, inertial measurements, echo-sounding, and laser scanning. Geomatics students study geometry, statistics, boundary law, and surveying and mapping instrument usage.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science in Geomatics
- **Specializations:** Geospatial Analysis (p. 304) | Surveying and Mapping (p. 309)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). - Fisheries and Aquatic Sciences Minor
- Forest Health Management Certificate
- Forest Resources and Conservation
- Forest Resources and Conservation Minor
- Geomatics
- Geomatics Certificate
- Mapping with Small Unmanned Aerial Systems Certificate
- Natural Resource Conservation

Geomatics students learn how land, infrastructure, and natural resources are measured, analyzed, and integrated into useable forms and systems. Students gain hands-on experience working with field equipment and in high-tech classrooms. Present land values, rates of urban development, and environmental concerns require a broad set of expertise to develop, manage, and apply geospatial information. Students majoring in Geomatics complete either the Surveying and Mapping specialization or the Geospatial Analysis specialization.

Both specializations within the Geomatics major are offered at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, FL, and the Gulf Coast Research and Education Center in Plant City, FL (near Tampa).

Academic Learning Compact

Geomatics addresses land information development and management through field survey, photogrammetry, remote sensing, satellite positions, and other techniques. The program is nationally accredited and graduates often obtain licensure as professional surveyors and mappers.

A nationally accredited ABET (http://www.abet.org/) program.

Before Graduating Students Must

- Pass the geomatics competency exam, given in five parts. One part will be given in each of these required courses:

Code	Title	Credits
SUR 3103C	Geomatics	3
SUR 3520	Measurement Science	3
SUR 4430	Surveying and Mapping Practice	3
SUR 4463	Subdivision Design	3
SUR 4912	Senior Project	1
Total Credits		**13**

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Knowledge and competency in geometry, statistics, boundary law, surveying, and mapping instrument usage and statutes and ordinances pertaining to professional practice.

Critical Thinking

2. Define problems, formulate solutions, assess legal evidence, interpret statistical results, design a system or process, and understand professional and ethical issues.

Communication

3. Create, interpret and analyze written text, oral messages, and multimedia presentations.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3

- Presentations

Geospatial Analysis

The Geomatics profession collects, manages, and analyzes geospatial data through ground surveying, photogrammetry, remote sensing, satellite positioning, inertial measurements, echo-sounding, and laser scanning. Geomatics students study geometry, statistics, boundary law, and surveying and mapping instrument usage.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science in Geomatics
- **Specializations:** Geospatial Analysis (p. 304) | Surveying and Mapping (p. 309)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

GAINESVILLE FL 32611-0410
Map (http://campusmap.ufl.edu/#/index/0832)

Curriculum

- Combination Degrees
- Fire Ecology and Management Certificate
- Fisheries and Aquatic Sciences Minor
- Forest Health Management Certificate
- Forest Resources and Conservation
- Forest Resources and Conservation Minor
- Geomatics
- Geomatics Certificate
- Mapping with Small Unmanned Aerial Systems Certificate
- Natural Resource Conservation

Geomatics students learn how land, infrastructure, and natural resources are measured, analyzed, and integrated into useable forms and systems. Students gain hands-on experience working with field equipment and in high-tech classrooms. Present land values, rates of urban development, and environmental concerns require a broad set of expertise to develop, manage, and apply geospatial information. Students majoring in Geomatics complete either the Surveying and Mapping specialization or the Geospatial Analysis specialization.

Both specializations within the Geomatics major are offered at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, FL, and the Gulf Coast Research and Education Center in Plant City, FL (near Tampa).

Geospatial Analysis

The Geospatial Analysis specialization offers a broader set of courses in GIS and 3-D modeling.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete at least 1 of 7 critical-tracking courses (excluding labs): AEB 2014 or ECO 2023 or ECO 2013, AEC 3030C or SPC 2608, COP 2800 or advisor-approved course in computer programming, MAC 2311, PHY 2053/PHY 2053L, PHY 2054/PHY 2054L and STA 2023

- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete at least 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete at least 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete at least 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
- 2.0 upper division GPA required

Semester 6

- Complete two of the remaining required major courses from SUR 3103C, SUR 3323, SUR 3641, SUR 4350C, GIS 3072C, AEB 3133 or MAN 3025, AEB 4123 or BUL 4310, SUR 3331C, SUR 4501C, SUR 3520, SUR 4949 and SUR 4345 or SWS 4244 or AOM 4643 or FNR 4343C or FNR 4660 or GEO 3280
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete three additional remaining required major courses from SUR 3103C, SUR 3323, SUR 3641, SUR 4350C, GIS 3072C, AEB 3133 or MAN 3025, AEB 4123 or BUL 4310, SUR 3331C, SUR 4501C, SUR 3520, SUR 4949, FNR 3131C or FNR 3073, SUR 4530, SUR 4911, SUR 4380, SUR 4345, and SUR 4934 or SWS 4244 or AOM 4643 or FNR 4343C or FNR 4660 or GEO 3280
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete all remaining required major courses from SUR 3103C, SUR 3323, SUR 3641, SUR 4350C, GIS 3072C, AEB 3133 or MAN 3025, AEB 4123 or BUL 4310, SUR 3331C, SUR 4501C, SUR 3520, SUR 4949, FNR 3131C or FNR 3073, SUR 4530, SUR 4911, SUR 4380, SUR 4912, and SUR 4345 or SWS 4244 or AOM 4643 or FNR 4343C or FNR 4660 or GEO 3280
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
Select one:		3-4

AEB 2014	Current Economic Issues, Food and You (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
ECO 2023	Principles of Microeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
State Core Gen Ed Composition (p. 80); Writing Requirement		3
Gen Ed Biological or Physical Sciences [1]		3-4
Elective [2]		3-4
	Credits	**15-18**
Semester Two		
Select one:		3
COP 2800	Computer Programming Using JAVA (**Critical Tracking**)	
COP 2271 & 2271L	Computer Programming for Engineers and Computer Programming for Engineers Laboratory (**Critical Tracking**)	
COP 3275	Computer Programming Using C (**Critical Tracking**)	
Approved computer programming course (**Critical Tracking**)		
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics) [3]	4
State Core Gen Ed Humanities (p. 80)		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Elective		2
	Credits	**15**
Semester Three		
PHY 2053 & 2053L	Physics 1 and Laboratory for PHY 2053 (**Critical Tracking**; State Core Gen Ed Biological Sciences and Physical Sciences) [3]	5
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
Gen Ed Composition; Writing Requirement		3
Elective [4]		3-4
	Credits	**14-15**
Semester Four		
Quest 2 (Gen Ed Social and Behavioral Sciences and International)		3
Select one:		3
AEC 3030C	Effective Oral Communication (**Critical Tracking**)	
SPC 2608	Introduction to Public Speaking (**Critical Tracking**)	
PHY 2054 & 2054L	Physics 2 and Laboratory for PHY 2054 (**Critical Tracking**; Gen Ed Physical Sciences) [3]	5
Gen Ed International		3
Elective		2
	Credits	**16**
Semester Five		
Select one:		3
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement)	
ENC 2210	Technical Writing (Writing Requirement)	
ENC 3246	Professional Communication for Engineers	
ENC 2256	Writing in the Disciplines	
SUR 3103C	Geomatics [5]	3
SUR 3323	Visualization of Spatial Information [5]	3
GIS 3072C	Geographic Information Systems [5]	3

FNR 3131C	Dendrology/Forest Plants (**Critical Tracking**)	
FNR 3073	Florida's Forest Communities (**Critical Tracking**)	
SUR 4350C	Advanced Photogrammetry (**Critical Tracking**) [5]	3
SUR 4530	Geodesy and Geodetic Positioning (**Critical Tracking**) [5]	3
SUR 4911	Supervised Research in Geomatics (**Critical Tracking**)	1
Select 6 approved credits:		6
Analysis electives		
Geomatics electives		
Geospatial Application electives		
	Credits	**15-16**
Semester Eight		
GIS 4121	Geospatial Analysis [5]	3
SUR 4380	Remote Sensing (**Critical Tracking**) [5]	3
SUR 4912	Senior Project (**Critical Tracking**) [5]	1
Select 3 approved credits:		3
Analysis electives		
Geomatics electives		
Geospatial application electives		
Natural resources elective; **Critical Tracking**		3
	Credits	**13**
	Total Credits	**120-127**

1 FNR 3004 or SWS 3022 and SWS 3022L recommended.

2 GEO 2200 or GLY 2010C recommended.

3 May be used as substitutes:

- MAC 1114 and MAC 2233 for MAC 2311
- (PHY 2004 and PHY 2004L) or (PHY 2048 and PHY 2048L) for PHY 2053 and PHY 2053L
- (PHY 2005 and PHY 2005L) or (PHY 2049 and PHY 2049L) for PHY 2054 and PHY 2054L

4 GEO 2200 or GLY 2010C recommended, if not already taken.

5 Minimum grade of C required.

6 Must take two sections of SUR 4949 concurrently.

Placement tests or prerequisites may be required to access certain courses.

Non-specified General Education courses may be selected from any approved course in the subject area. Selection of courses must consider satisfaction of the Writing Requirement and International requirements.

Academic Learning Compact

Geomatics addresses land information development and management through field survey, photogrammetry, remote sensing, satellite positions, and other techniques. The program is nationally accredited and graduates often obtain licensure as professional surveyors and mappers.

A nationally accredited ABET (http://www.abet.org/) program.

SUR 4403	Cadastral Principles [1]	
SUR 4430	Surveying and Mapping Practice [1]	
SUR 4463	Subdivision Design [1]	
SUR 4934	Topics in Geomatics [1]	

[1] Minimum grade of C required

Academic Learning Compact

Geomatics addresses land information development and management through field survey, photogrammetry, remote sensing, satellite positions, and other techniques. The program is nationally accredited and graduates often obtain licensure as professional surveyors and mappers.

A nationally accredited ABET (http://www.abet.org/) program.

Before Graduating Students Must

- Pass the geomatics competency exam, given in five parts. One part will be given in each of these required courses:

Code	Title	Credits
SUR 3103C	Geomatics	3
SUR 3520	Measurement Science	3
SUR 4430	Surveying and Mapping Practice	3
SUR 4463	Subdivision Design	3
SUR 4912	Senior Project	1
Total Credits		**13**

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Knowledge and competency in geometry, statistics, boundary law, surveying, and mapping instrument usage and statutes and ordinances pertaining to professional practice.

Critical Thinking

2. Define problems, formulate solutions, assess legal evidence, interpret statistical results, design a system or process, and understand professional and ethical issues.

Communication

3. Create, interpret and analyze written text, oral messages, and multimedia presentations.

Geomatics Certificate

The geomatics certificate is offered via distance learning technologies. The certificate enables individuals without a bachelor's degree in geomatics or a similar field to complete the necessary academic coursework required for licensure as a professional surveyor and mapper (PSM).

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15 | Completed with minimum grades of C

- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Golf and Sports Turf Management Minor

The Golf and Sports Turf Management minor provides a basic understanding of turfgrass culture and knowledge of the turfgrass industry.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15

Department Information

The Department of Agronomy's vision is to improve and sustain food production while conserving natural resources and promoting healthy and active lives by creating and disseminating knowledge in the plant sciences. The department's mission is to achieve excellence in the science of using plants for food, feed, fuel, fiber and turf, as well as in the management of weed species, through research, teaching, and outreach programs that serve the people of Florida, the nation, and the world.

Interdisciplinary Studies | Environmental Management in Agriculture and Natural Resources UF Online

A sustainable future only happens when you commit to shape it. Dedicate your studies to a better environment, to better yourself.

As more focus is placed on the earth, its resources and the impacts on our ecosystem, environmental science degrees are growing in demand. UF Online's Environmental Management degree gives students a solid grounding in the areas of hydrology, soil science, pest management, water resources, and agricultural ecology. This equates to UF Environmental Management graduates prepared to excel in jobs with agricultural producers, consulting companies and government agencies involved in maintaining a sustainable environment.

With an environmental management degree, you can make an impact on the well-being and health of our planet and its people. From contaminated water to air pollution levels, environmental managers can be leaders in the path to driving commerce and innovation forward in a sustainable manner. Graduates can look forward to careers in various fields in the agricultural, environmental and natural sciences sectors such as sustainable food and fiber production, environmental policy and analysis, water resources, energy resources, soil conservation, stewardship of natural resources, pollution management and international development.

In addition to completing all university, college and general degree requirements, students enrolled in the Environmental Management program will have the opportunity to take a number of core courses, including Natural Resource Policy and Economics, Environmental Nutrient Management and Environmental Biogeochemistry along with several approved electives such as Economics, The World of Water and Environmental Monitoring Techniques.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **School:** Natural Resources and Environment (p. 1745)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Soil, Water, and Ecosystem Sciences Department researches and teaches about soil, water, and environmental sciences in urban, agricultural, and natural ecosystems. Since its origins over 100 years ago, the department has made significant contributions to improving the productivity of Florida's agriculture, helping protect the state's unique ecosystems, and contributing to soil and water science at national and international levels.

Curriculum

- Combination Degrees
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies
- Interdisciplinary Studies | Environmental Management in Agriculture and Natural Resources UF Online
- Soil, Water, and Ecosystem Sciences
- Soil, Water, and Ecosystem Sciences Minor

This major is for students who desire education in environmental management with substantial emphasis on agriculture and natural resources.

Graduates will find employment with agricultural producers, consulting companies and government agencies that are involved in maintaining a sustainable environment.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 6 critical-tracking courses, excluding labs: AEC 3030C or SPC 2608, BSC 2005/BSC 2005L or BSC 2010/BSC 2010L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2233, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs from semesters 1 – 4
- Complete 1 additional tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete 1 additional tracking course
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete 2 additional tracking courses
- 2.0 upper division GPA required.
- 2.0 UF GPA required

Semester 8

- Complete all remaining tracking course from semester 5 - 8
- 2.0 upper division GPA required.
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
MAC 2233	Survey of Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Humanities (p. 80)		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Elective		3
	Credits	**15**
Semester Two		
Quest 1 (Gen Ed Humanities)		3
Select one:		3-4
AEB 2014	Current Economic Issues, Food and You (Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (Gen Ed Social and Behavioral Sciences)

Academic Learning Compact

The interdisciplinary major in environmental management in agriculture provides students with the scientific and technical foundation to integrate and communicate the diverse environmental issues associated with agriculture and natural resources. Students will be able to deal in an informed manner with the agricultural regulations and permitting requirements established by various agencies and jurisdictions, and students will achieve an appreciation for the complexities of agricultural practices. Students will learn to integrate, balance and communicate the mix of agricultural and environmental issues that need to be addressed in modern society.

Before Graduating Students Must

- Complete an approved senior-year research project, SWS 4905, related to management and science skills.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Appraise similarities between agronomic production and environmental protection issues.
2. Describe the processes in the carbon, nitrogen, phosphorus, and sulfur cycles, and relate these processes to global patterns of productivity, pollution, and consequences of environmental change.

Critical Thinking

3. Critically evaluate natural resource policies using basic economic tools, identify factors that influence the success of resource policy implementation, and apply ecological, social and political criteria.
4. Develop a plan for the analysis of an environmental/agricultural study using geographic information systems software.
5. Compare the effects of different fertility sources on nutrient cycling, interpret soil tests and quantify crop nutrient requirements, and fertilizer application rates.

Communication

6. Create, interpret, and analyze written text, oral messages, and multimedia presentations used in agricultural and life sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5	SLO 6

International Studies in Agricultural and Life Sciences Minor

The International Studies in Agricultural and Life Sciences minor provides transformative educational experiences that equip students with a global perspective; enhancing their understanding of agriculture, ecology, and life sciences, and preparing them for careers in a globally connected world.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15
- **Contact:** Email (wysocki@ufl.edu) | 352.392.1963

Courses must be approved by the associate dean of the college.

Components

The minor has three components:

1. International experience(s) totaling at least 21 days in an approved: study abroad program, a cooperative work experience, research experience, or an internship.
2. 9-12 credits in courses with an international focus and technical content related to agricultural and life sciences, selected from the list of approved courses or completed abroad as part of an approved study program.
3. 3-6 credits that focus on the history, social organization, culture or language of a nation or region abroad, selected from the list of approved courses or completed abroad as part of an approved study program.

Certificates must comply with the Certificate Policy.

Department Information

The Entomology and Nematology Department prepares students for exciting careers in a large variety of fields. Entomology and Nematology majors can enter medical, veterinary, or dental school; progress to graduate study in entomology, nematology, or any of several other biological sciences such as ecology and evolutionary biology, horticulture, or zoology; or move directly to a variety of careers (including industry and government positions) in fields such as pest management, agriculture, ecotourism, biosecurity, science policy, and education

Leadership Minor

This interdisciplinary minor, in conjunction with the successful completion of the degree program, provides the fundamental skills and knowledge necessary to assume leadership, supervisory, or management positions in private companies and nonprofit organizations.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15-16 | Completed with a minimum cumulative 3.0 GPA for courses in the minor
- **More Info**

Department Information

The UF/IFAS Department of Agricultural Education and Communication is a group of faculty, staff and students committed to connecting people with agriculture and natural resources through agricultural communication, education, leadership development and Extension education.

Curriculum

- Agricultural and Natural Resource Communication Minor
- Agricultural Curriculum and Development Minor
- Agricultural Curriculum and Development Minor UF Online
- Agricultural Education and Communication
- Combination Degrees
- Extension Education Minor
- Leadership Minor

Because the minor is interdisciplinary, it draws on the expertise of faculty and staff in colleges across campus, which may include Agricultural and Life Sciences, Business, Health and Human Performance, Journalism and Communications, and Liberal Arts and Sciences.

The minor is open to all students, although admission is by application. A cumulative 3.0 GPA is necessary and the minor must be added before a student completes 90 credits. Students must earn a minimum grade of B in AEC 3414 to continue in the minor.

Required Courses

Code	Title	Credits
AEC 3414	Leadership Development	3
Select two:		6
AEC 3413	Working with People: Interpersonal Leadership Skills	
AEC 4417	Leadership for Personal and Organizational Change	
AEC 4434	Communication and Leadership in Groups and Teams	
AEC 4465	Global Leadership

Management and Sales in Agribusiness Minor

This minor provides basic understanding and skills in agribusiness sales and management.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15 | Completed with minimum grades of C

The student's academic advisor and the undergraduate coordinator for Food and Resource Economics must approve courses in the minor at least one semester before graduation. AEB 3103 does not count toward the minor.

Required Courses

Code	Title	Credits
AEB 3122	Financial Planning for Agribusiness	3
or AEB 3144	Introduction to Agricultural Finance	
AEB 3133	Principles of Agribusiness Management	3
AEB 3300	Agricultural and Food Marketing	3
AEB 3341	Selling Strategically	3
Approved elective		3
Total Credits		**15**

APPROVED ELECTIVES

Mapping with Small Unmanned Aerial Systems Certificate

This certificate focuses on mapping using small Unmanned Aerial Systems (UASs) and the use of UASs as a geospatial data-acquisition tool. Well-suited for students studying geomatics, as well as disciplines which require high resolution geospatial information such as agriculture, forestry, wildlife management, mining, infrastructure planning and monitoring, and disaster management.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 9 | Completed with minimum grades of C
- **Contact:** Email (shouder@ufl.edu) | 352.846.0146
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

- Fire Ecology and Management Certificate
- Fisheries and Aquatic Sciences Minor
- Forest Health Management Certificate
- Forest Resources and Conservation
- Forest Resources and Conservation Minor
- Geomatics
- Geomatics Certificate
- Mapping with Small Unmanned Aerial Systems Certificate
- Natural Resource Conservation

Students must have a high-school diploma or the equivalent, and completed SUR 3103C with a minimum grade of C.

Required Courses

Code	Title	Credits
SUR 4376	Geospatial Applications of UASs	3
SUR 4501C	Foundations of UAS Mapping	3
SUR 4940C	Practicum in UAS Mapping	3
Total Credits		**9**

Marine Sciences | CALS

From oceans to coastal wetlands, students will learn about marine organisms and their behaviors and interactions with the environment. Marine Sciences students study oceanography, statistics, fisheries and aquatic sciences, and invertebrate biodiversity. Students can focus elective courses on ecology, organismal biology, economics, human dimensions, and/or quantitative or professional skills.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs

- Combination Degrees
- Fisheries and Aquatic Sciences Minor
- Natural Resource Conservation

The university promotes an integrated approach to marine science education and research to prepare students for a variety of rewarding academic and professional careers. This major, offered cooperatively with the College of Liberal Arts and Sciences, allows students to tailor a curriculum that suits their interests and career goals.

The curriculum provides students with the core scientific and quantitative skills necessary for success. Lower-division courses build a strong foundation in basic sciences and math while upper-division courses provide opportunity for specialization. Students in the College of Agricultural and Life Sciences (CALS) complete an upper-division core that concentrates on biological and ecological marine science essentials while also giving students a critical understanding of how statistics and economics are integrated into marine science and resource management.

Students work closely with a faculty advisor to create an individualized curriculum plan of at least 18 approved elective credits and 15-16 planned credits. These can include courses on resource management, human dimensions, conservation, quantitative population assessment and others. Students must complete their plans along with the approval of a faculty advisor before reaching 70 credits.

Coursework for the Major

The major requires 120 credits and at least 30 credits of upper-division coursework in the major must be completed at UF.

Required Coursework

Code	Title	Credits
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory	4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2	4
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory	4
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory	4
FAS 4202C	Biology of Fishes	4
OCE 1001	Introduction to Oceanography	3
STA 2023	Introduction to Statistics 1	3
Select one:		3
FAS 4270	Marine Ecological Processes	
ZOO 4926	Special Topics in Zoology (Marine Ecology)	
FAS 4932	Topics in Fisheries and Aquatic Sciences (Biology and Ecology of Algae)	3
Select one:		3
FNR 3410C	Natural Resource Sampling	
STA 3024	Introduction to Statistics 2	
STA 4210	Regression Analysis	
STA 4222	Sample Survey Design	
FNR 4660	Natural Resource Policy and Economics	3
GLY 3083C	Fundamentals of Marine Sciences	3
MAC 2311	Analytic Geometry and Calculus 1	4

PHY 2004 & 2004L	Applied Physics 1 and Laboratory for Physics 2004	4
ZOO 4205C	Invertebrate Biodiversity	4
Approved marine sciences electives		18
Planned electives, sufficient to reach a total of 60 upper-division credits		15-16
Total Credits		**86-87**

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete OCE 1001 and 1 of the following, excluding labs: BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, PHY 2004/PHY 2004L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
- 2.0 Upper Division GPA required

Semester 6

- Complete 1 of the remaining required major courses from STA 2023, FAS 4202C, FAS 4270 or PCB 4460, FNR 3410C or STA 3024 or STA 4210 or STA 4222, FAS 4932, GLY 3083C, FNR 4660, ZOO 4205C
- Submit faculty advisor-approved Curriculum Plan
- 2.0 Upper Division GPA required
- 2.0 UF GPA required

Semester 7

- Complete 3 additional remaining required major courses
- 2.0 Upper Division GPA required
- 2.0 UF GPA required

Semester 8

- Complete all remaining required major courses
- 2.0 Upper Division GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing Requirement while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirement concurrently with another General Education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
OCE 1001	Introduction to Oceanography (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences)	3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
	Credits	**16**
Semester Two		
Quest 2		3
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences)	4
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Humanities (p. 80)		3
	Credits	**14**
Semester Three

	Credits	**16**
	Total Credits	**120**

Approved Electives

APPROVED ELECTIVES | 18 CREDITS MINIMUM

Students meet with a faculty advisor to establish a curriculum plan for approved electives and planned electives and may focus these toward a specific area or a minor. For a broader program, students should select a minimum of three credits from each area of approved electives. Other options may include study abroad courses.

Ecology and Organismal Biology

Code	Title	Credits
FAS 2024	Sustainable Fisheries	3
FAS 4305C	Introduction to Freshwater Fishery Science	4
FAS 4932	Topics in Fisheries and Aquatic Sciences (Aquatic Invertebrate Ecological Physiology)	3
FAS 4932	Topics in Fisheries and Aquatic Sciences (Field Ecology of Aquatic Organisms)	4
FAS 4932	Topics in Fisheries and Aquatic Sciences (Coral Reef Ecology)	3
FAS 4932	Topics in Fisheries and Aquatic Sciences (Invasion Ecology of Aquatic Animals)	3
PCB 4043C	General Ecology	4
PCB 4674	Evolution	4
VME 4012	Aquatic Animal Conservation Issues	3
VME 4906	Problems in Veterinary Science (Introduction to Marine Wildlife)	3
WIS 3553C	Introduction to Conservation Genetics	4
WIS 4203C	Landscape Ecology and Conservation	3
ZOO 4403C	Marine Biology	4

Economics and Human Dimensions

Code	Title	Credits

STA 4210	Regression Analysis [1]	3
STA 4211	Design of Experiments	3
STA 4222	Sample Survey Design [1]	3
WIS 4501	Introduction to Wildlife Population Ecology	3
WIS 4601C	Quantitative Wildlife Ecology	3

[1] Use as an approved elective if not used to meet the quantitative requirement in semester seven.

Additional Approved Electives | With instructor permission

Code	Title	Credits
FAS 6337C	Fish Population Dynamics	4
GLY 6075	Global Climate Change: Past, Present, and Future	3
OCP 6295	Estuarine and Shelf Hydrodynamics I	3
ZOO 6406	Biology of Sea Turtles	3
ZOO 6456C	Ichthyology	4

Academic Learning Compact

This major provides integrative understanding of the basic concepts, theories, and observational findings related to marine materials and processes, geologic time, the diversity of marine life, the structure and function of marine organisms, and ecosystems and marine resource management.

The Marine Sciences major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and utilizes faculty, courses and resources of the Fisheries and Aquatic Sciences Program (CALS), the Department of Geological Sciences (CLAS), the Department of Biology (CLAS), and the Department of Civil and Coastal Engineering (Herbert Wertheim College of Engineering).

Before Graduating Students Must

- Achieve a passing score on the subject test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the analytical skills test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the bioethics quiz. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the scientific literacy paper. This paper is assessed using a rubric that has been reviewed and approved by the Marine Sciences Committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate competence in the basic terminology, concepts, methodologies, and theories used within the marine sciences.

Critical Thinking

2. Analyze information in the marine sciences and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in written or oral forms appropriate to the marine sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
FAS 4202C	R	R	R	R

- Scientific paper

Medical Entomology Certificate

The Medical Entomology certificate offers place-bound employees working in mosquito control, public health, and related areas who required advanced training on medically important arthropods the option to complete a program through distance education and short courses. Coursework provides training in the areas of medically important arthropod biology, identification, and management for disease vectors.

Certificates must comply with the Certificate Policy.

Department Information

The Entomology and Nematology Department prepares students for exciting careers in a large variety of fields. Entomology and Nematology majors can enter medical, veterinary, or dental school; progress to graduate study in entomology, nematology, or any of several other biological sciences such as ecology and evolutionary biology, horticulture, or zoology; or move directly to a variety of careers (including industry and government positions) in fields such as pest management, agriculture, ecotourism, biosecurity, science policy, and education

Microbiology and Cell Science UF Online

The Bachelor of Science in Microbiology and Cell Science offers a flexible curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology and the bio-molecular sciences. Emphasis is placed on application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students learn to evaluate hypotheses, interpret experimental data, and communicate results effectively.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Microbiology & Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical,

dental, pharmacy, veterinary programs, graduate school, or public health degrees. BS degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the MS and PhD degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

Curriculum

- Bioinformatics Minor
- Bioinformatics Minor UF Online
- Combination Degrees
- Microbiology and Cell Science UF Online
- Microbiology and Cell Science | CALS
- Microbiology and Cell Science | CLAS
- Pathogenesis Minor
- Pathogenesis Minor UF Online

This major prepares students for entry into professional programs in medicine, dentistry and veterinary medicine and provides a strong foundation for graduate studies in microbiology, cell biology and related cellular and biomedical sciences. The major also provides a background for entry into government, industrial research and diagnostic laboratories.

The curriculum develops fundamental knowledge of prokaryotic and eukaryotic cells and viruses. Courses include the physiology and genetics of microorganisms, mechanisms of pathogenesis and innate immunity systems, astrobiology, bacterial and genome sequencing and bioinformatics.

Coursework for the Major

All majors must take 28-29 credits: 15 credits are core requirements, 10 credits are upper-division department electives and 3-4 credits are the quantitative requirement. A minimum of one credit in an advanced laboratory is required as part of the 10 department-elective credits.

Minimum grades of C, attained within two attempts (including withdrawals), are required in all critical-tracking courses, major courses, department core requirements, department electives and the quantitative requirement. Second attempts must be completed the next semester of enrollment. A 2.0 cumulative GPA of also is required.

Code	Title	Credits
Required Coursework		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory [1]	4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 [1]	4
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory [1]	4
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory [1]	4
MAC 2311	Analytic Geometry and Calculus 1 [1]	4
Select one:		8-10
Option One		
PHY 2053 & 2053L	Physics 1 and Laboratory for PHY 2053	
PHY 2054 & 2054L	Physics 2 and Laboratory for PHY 2054	
Option Two		
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for PHY 2048	
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for PHY 2049	
CHM 2210	Organic Chemistry 1 [2]	3

CHM 2211	Organic Chemistry 2	5
& 2211L	and Organic Chemistry Laboratory	
Core Requirements		
BCH 4024	Introduction to Biochemistry and Molecular Biology	4
or CHM 3218	Organic Chemistry/Biochemistry 2	
MCB 3015C	Lab Skills Bootcamp	1
MCB 3023	Principles of Microbiology	3
Select one: [3]		3
MCB 4203	Bacterial Pathogens (offered Fall)	
PCB 4233	Immunology (offered Spring)	
Select one:		
MCB 4304	Genetics of Microorganisms (offered Fall)	
PCB 4522	Molecular Genetics (offered Spring)	
MCB 4934	Special Topics in Microbiology and Cell Science [4]	1-4
Department Elective Requirements		
MCB 4034L	Advanced Microbiology Laboratory	1
Select three:		9
BSC 2891	Python Programming for Biology	
MCB 3703	Astrobiology	
MCB 4203	Bacterial Pathogens	
MCB 4320C	The Microbiome	
MCB 4403	Prokaryotic Cell Structure and Function	
MCB 4503	General Virology	
MCB 4782	Extremophiles	
PCB 3134	Eukaryotic Cell Structure and Function	
ZOO 4232	Human Parasitology	
Quantitative Requirement		
BSC 2891	Python Programming for Biology	3
MCB 4320C	The Microbiome	3
STA 2023	Introduction to Statistics 1	3
General Elective Requirement		
General elective coursework at the University of Florida (any 3000/4000 level course will be accepted) [5]		18
Total Credits		**85-90**

1 All majors must complete the biology and general chemistry sequences and calculus by the end of the sophomore year. To continue in the major, students must attain a minimum 2.5 cumulative GPA in these graded courses with no grade lower than a C.

2 Must be completed by the end of tracking term five.

3 Students must take MCB 4203 or PCB 4233 as a core course. If they take both, one will count as a core course and the other will roll over into the 10-credit department elective requirement.

4 Often used for TA lab positions. TA positions may be repeated for two semesters with one lab assignment per semester.

5 Enrollment in MCB 4911, MCB 4905 and MCB 4934 will not fulfill any credits toward the microbiology department elective requirements; they will count only as general elective credit toward the 120 credits for the BS degree.

Course Details

MCB 4911 may be taken for a maximum of three credits per semester and six credits total. This policy applies to all microbiology and cell science majors registered for undergraduate research in other out-of-department undergraduate research courses such as BCH 4905, BMS 4905, ZOO 4905, etc.

Undergraduate Research

A majority of MCS students are actively involved in undergraduate research for credit with mentors throughout the university. The department encourages preprofessional and graduate school bound students to complete a minimum of two semesters of undergraduate research. The department maintains a list of mentors across campus who allow undergraduate students to participate in valuable research under their guidance. Additional information is available about undergraduate research and faculty mentors who have worked with microbiology and cell science students.

Preparation for Graduate Study

This major prepares students for entry into graduate studies in microbiology, cell biology, biochemistry and other areas.

All students interested in graduate education should develop a strong background in chemistry. Suggested schedules for students who plan to attend graduate school are available on the website. Students planning graduate study in microbiology, biochemistry or molecular biological sciences should consider taking these courses:

Code	Title	Credits
CHM 3218	Organic Chemistry/Biochemistry 2 (biochemistry requirement)	4
MAC 2312	Analytic Geometry and Calculus 2	4
STA 2023	Introduction to Statistics 1	3
MCB 4403	Prokaryotic Cell Structure and Function (required department elective)	3
PCB 3134	Eukaryotic Cell Structure and Function (required department elective)	3
CHM 3400	Physical Chemistry for the Biosciences (required department elective)	3
MCB 5305L	Microbial Genetics and Biotechnology Laboratory (microbiology advanced laboratory requirement)	2
PCB 4233	Immunology (pathogens or immunology requirement)	3
MCB 4905	Independent Study (valuable laboratory research experience)	4
Total Credits		**29**

Relevant Minors and/or Certificates

The Department of Microbiology and Cell Science also offers a minor in bioinformatics to students majoring in any life sciences subject, including and not limited to microbiology, biology or biochemistry.

So integrated is bioinformatics with the life sciences that it is difficult to find an active research program that does not rely on bioinformatic analysis to achieve results. By integrating bioinformatic and traditional methods, the minor in bioinformatics provides critical training to future professionals in the life science disciplines.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045/CHM 2045L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete MCB 3023
- 2.0 Upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete MCB 4203 (Fall) or PCB 4233 (Spring) or PCB 3134 (Fall/Spring) or MCB 4403 (Fall)
- 2.0 Upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete MCB 4034L
- 2.0 Upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking;** State Core Gen Ed Mathematics)	4
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking;** State Core Gen Ed Physical Sciences)	4
State Core Gen Ed Composition (p. 80); Writing Requirement [1]		3
	Credits	**14**
Semester Two		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)	4
BSC 2891	Python Programming for Biology (Or similar quantitative elective)	3
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	4
Gen Ed Composition		3
	Credits	**14**
Semester Three		
Select one:		3-4
AEB 2014	Current Economic Issues, Food and You	
AEB 3103	Principles of Food and Resource Economics	
ECO 2013	Principles of Macroeconomics	
ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological and Physical Sciences)	4
CHM 2210	Organic Chemistry 1 (**Critical Tracking**)	3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
	Credits	**13-14**
Semester Four		
Quest 2 (Gen Ed International)		3
AEC 3033C or ENC 2210	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement) or Technical Writing	3
CHM 2211 & 2211L	Organic Chemistry 2 and Organic Chemistry Laboratory	5
MCB 3023 & 3023L	Principles of Microbiology and Principles of Microbiology Laboratory (**Critical Tracking**)	5
	Credits	**16**

Semester Five		
AEC 3030C	Effective Oral Communication	3
or SPC 2608	or Introduction to Public Speaking	
MCB 4203	Bacterial Pathogens (**Critical Tracking**) [2]	3
or PCB 4233	or Immunology	
MCB 4403	Prokaryotic Cell Structure and Function (**Critical Tracking**)	3
or PCB 3134	or Eukaryotic Cell Structure and Function	
Gen Ed International [3]		3
Electives		5
	Credits	**17**
Semester Six		
BCH 4024	Introduction to Biochemistry and Molecular Biology	4
or CHM 3218	or Organic Chemistry/Biochemistry 2	
MCB 4304	Genetics of Microorganisms [4]	3
or PCB 4522	or Molecular Genetics	
MCB 4034L	Advanced Microbiology Laboratory (**Critical Tracking**)	1
Gen Ed Mathematics		3
Department elective		3
	Credits	**14**
Semester Seven		
Select one:		4-5
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for PHY 2048	
PHY 2053	Physics 1	
& 2053L	and Laboratory for PHY 2053	
State Core Gen Ed Humanities (p. 80)		3
Writing Requirement		3
Department elective		3
Elective		3
	Credits	**16-17**
Semester Eight		
Select one:		4-5
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for PHY 2049	
PHY 2054	Physics 2	
& 2054L	and Laboratory for PHY 2054	
Gen Ed Social and Behavioral Sciences		3
Department elective		3
Science Elective		3
Elective		3
	Credits	**16-17**
	Total Credits	**120**

1 ENC 1101 recommended.
2 MCB 4203 is taught in the Fall and the Spring. PCB 4233 is taught only in the Spring.
3 Choice depends on courses taken in Semesters 3 and 4.
4 MCB 4304 is taught only in the Fall. PCB 4522 is taught only in the Spring.

Academic Learning Compact

The Bachelor of Science in Microbiology and Cell Science, offered by both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences, offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology and the biomolecular sciences. Emphasis will be placed on application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students will learn to evaluate hypotheses, to interpret experimental data and to communicate results effectively.

Before Graduating Students Must

Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe fundamental concepts, skills and processes in microbiology, molecular biology, and in host/pathogen interactions.
2. Apply fundamental concepts, skills and protocols used to conduct research in fields of microbiology, molecular biology, and in host/pathogen.

Critical Thinking

3. Evaluate information and data in the general areas of microbiology and the cellular and molecular biological sciences.
4. Solve typical problems that are encountered in general areas of microbiology and cellular and molecular biological sciences.

Communication

5. Communicate effectively in written form in a manner appropriate in microbiology and the cellular and molecular biological sciences.
6. Communicate orally (including visual aids) in an effective manner appropriate in microbiology and the cellular and molecular biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5	SLO 6
AEC 3030C						I, R, A
AEC 3033C					I, R, A	
MCB 3023	I, A		I	I		
MCB 3023L	I, R	I, R	R	I, R, A		R
MCB 4034L	I, R	I, R, A	I, R, A	I, R	R	I, R
MCB 4203 or PCB 4233	I, R, A	I, R	I, R	I, R	I, R	I, R
MCB 4304 or PCB 4522	I, R, A	I, R	R, A	R	R	R

Assessment Types

- Genome and lab projects
- Presentations
- Exams
- Final grades

Microbiology and Cell Science | CALS

The study of small living organisms, Microbiology and Cell Science includes emphasis on molecular biology and genetics; immunology; virology; host-pathogen interactions; cellular ultrastructure; environmental microbiology; and microbial physiology, metabolism and regulation. Microbiology and Cell Science students study chemistry, physics, bacterial pathogens, and genetics.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Microbiology & Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical, dental, pharmacy, veterinary programs, graduate school, or public health degrees. BS degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the MS and PhD degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

This major prepares students for entry into professional programs in medicine, dentistry and veterinary medicine and provides a strong foundation for graduate studies in microbiology, cell biology and related cellular and biomedical sciences. The major also provides a background for entry into government, industrial research and diagnostic laboratories.

The curriculum develops fundamental knowledge of prokaryotic and eukaryotic cells and viruses. Courses include the physiology and genetics of microorganisms, mechanisms of pathogenesis and innate immunity systems, astrobiology, bacterial and genome sequencing and bioinformatics.

Coursework for the Major

All majors must take 28 credits: 18 credits are core requirements, 7 credits are department electives and 3 credits are the quantitative requirement. A minimum of one credit in an advanced laboratory is required as part of the 7 department-elective credits.

Minimum grades of C, attained within two attempts (including withdrawals), are required in all critical-tracking courses, major courses, department core requirements, department electives and the quantitative requirement. Second attempts must be completed the next semester of enrollment. A 2.0 cumulative GPA of also is required.

Required Coursework

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2	
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry Laboratory	
CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory	
MAC 2311	Analytic Geometry and Calculus 1	4
Select one:		8-10
Option One		
PHY 2053	Physics 1	
& 2053L	and Laboratory for PHY 2053	
PHY 2054	Physics 2	
& 2054L	and Laboratory for PHY 2054	
Option Two		
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for PHY 2048	
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for PHY 2049	
CHM 2210	Organic Chemistry 1	3
CHM 2211	Organic Chemistry 2	5
& 2211L	and Organic Chemistry Laboratory	
Total Credits		**36-38**

All majors must complete the biology and general chemistry sequences and calculus by the end of the sophomore year. CHM 2210 must be completed by the end of tracking term five. To continue in the major, students must attain a minimum 2.5 cumulative GPA in these graded courses with no grade lower than a C.

Core Requirements

Code	Title	Credits
BSC 2891	Python Programming for Biology	3
or MCB 4325C	R for Functional Genomics	
BCH 4024	Introduction to Biochemistry and Molecular Biology	4
or CHM 3218	Organic Chemistry/Biochemistry 2	
MCB 3023	Principles of Microbiology	5
& 3023L	and Principles of Microbiology Laboratory	
MCB 4203	Bacterial Pathogens	3
or PCB 4233	Immunology	
MCB 4304	Genetics of Microorganisms	3
or PCB 4522	Molecular Genetics	
MCB 4403	Prokaryotic Cell Structure and Function	3
or PCB 3134	Eukaryotic Cell Structure and Function	
Total Credits		**21**

If students take both "or" courses, one will count as a core course and the other will roll over into the 7-credit department elective requirement.

Department Elective Requirements

A total of 7 credits of approved department electives, including one credit in an advanced lab, are required. The list of approved department electives is available on the department website. A maximum of four credits of approved department electives may be taken in other departments. The remaining six credits must be chosen from approved department electives.

Programming or Biostatistics with Programming Requirement

A total of 3 credits of approved courses meets this requirement. Select from BSC 2891, MCB 4325C, or any equivalent programming class. Several of these courses are also department electives and cannot be used to fulfill both the quantitative and the department elective requirements. No overlap is allowed. STA 2023 will not fulfill this requirement.

Course Details

MCB 4911 may be taken for a maximum of three credits per semester and six credits total. This policy applies to all microbiology and cell science majors registered for undergraduate research in other out-of-department undergraduate research courses such as BCH 4905, BMS 4905, ZOO 4905, etc.

MCB 4934 is often used for TA positions as Supervised Teaching. TA positions may be repeated for two semesters with one lab assignment per semester.

Enrollment in MCB 4911, MCB 4905, and MCB 4934 will not fulfill any credits toward the microbiology department elective requirements; they will count only as general elective credit toward the 120 credits for the BS degree.

Relevant Minors and Certificates

The Department of Microbiology and Cell Science also offers a minor in bioinformatics to students majoring in any biology-related subject, including and not limited to microbiology, biology, or biochemistry.
More Info (p. 182)

So integrated is bioinformatics with biology that it is difficult to find an active research program that does not rely on bioinformatic analysis to achieve results. Unfortunately, the integration of bioinformatic and traditional methods is not stressed in many undergraduate programs, leaving the next generation of biologists without the skills they need to succeed in tomorrow's research environment. The undergraduate minor in bioinformatics provides this critical training to future professionals in the biological disciplines.

Research

A majority of majors are actively involved in undergraduate research for credit with mentors throughout the university. Preprofessional and graduate school-bound majors are encouraged to do a minimum of two semesters of undergraduate research. The department has a comprehensive list of mentors across campus who allow undergraduate students to do valuable research under their guidance. Please refer to the department website for more information on undergraduate research, finding a mentor and a contact list of UF faculty who have worked with microbiology and cell science majors.

Enrollment in MCB 4911 will not fulfill any credits toward the microbiology major requirements; they will count only as general elective credit toward the 120 credits for the BS degree.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045/CHM 2045L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210 or CHM 2200 or CHM 3217
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete MCB 3023
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete MCB 4203 (Fall) or PCB 4233 (Spring) or PCB 3134 (Fall/Spring) or MCB 4403 (Fall)
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete MCB 4034L
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing Requirement while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirement concurrently with another General Education requirement (typically, GE-C, H, or S).

Degree Comparison between the Colleges

CALS | MCB	CLAS | MCY
Effective Oral Communication (AEC 3030C, SPC 2608)	College-level Foreign Language Sequence (8-10 credits)
Technical Writing (ENC 2210, ENC 3254, AEC 3033C)	1 additional Humanity course
Economics (ECO 2013, ECO 2023, AEB 2014)	1 additional Social Science course

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry Laboratory (**Critical Tracking;** State Core Gen Ed Physical Sciences)	
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking;** State Core Gen Ed Mathematics)	4
State Core Gen Ed Composition (p. 80); Writing Requirement [1]		3
	Credits	**14**
Semester Two		
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)

& 3023L	and Principles of Microbiology Laboratory (**Critical Tracking**)	
	Credits	**16**
Semester Five		
AEC 3030C	Effective Oral Communication	3
or SPC 2608	or Introduction to Public Speaking	
MCB 4203	Bacterial Pathogens (**Critical Tracking**) [2]	3
or PCB 4233	or Immunology	
MCB 4403	Prokaryotic Cell Structure and Function (**Critical Tracking**)	3
or PCB 3134	or Eukaryotic Cell Structure and Function	

Gen Ed International [3]		3
Electives		5
	Credits	**17**
Semester Six		
BCH 4024 or CHM 3218	Introduction to Biochemistry and Molecular Biology or Organic Chemistry/Biochemistry 2	4
MCB 4304 or PCB 4522	Genetics of Microorganisms (**Critical Tracking**) [4] or Molecular Genetics	3
MCB 4034L	Advanced Microbiology Laboratory (**Critical Tracking**)	1
Gen Ed Mathematics		3
Department elective		3
	Credits	**14**
Semester Seven		
Select one:		4-5
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for PHY 2048	
PHY 2053 & 2053L	Physics 1 and Laboratory for PHY 2053	
State Core Gen Ed Humanities (p. 80)		3
Writing Requirement		3
Department elective		3
Elective		3
	Credits	**16-17**
Semester Eight		
Select one:		4-5
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for PHY 2049	
PHY 2054 & 2054L	Physics 2 and Laboratory for PHY 2054	
State Core Gen Ed Humanities (p. 80)		3
Gen Ed International		3
Department elective		3
Elective		3
	Credits	**16-17**
	Total Credits	**120**

1 ENC 1101 recommended.

2 MCB 4203 is taught in the Fall and Spring. PCB 4233 is taught only in the Spring.

3 Choice depends on courses taken in Semesters 3 and 4.

4 MCB 4304 is taught only in the Fall. PCB 4522 is taught only in the Spring.

5 Students should begin the organic chemistry/biochemistry series of courses at this point. This model semester plan highlights the most common pathway through these courses, but there are alternative routes to satisfy this requirement.

- Traditional route: CHM 2210, CHM 2211, CHM 2211L, BCH 4024
- Alternative route 1, for students who have a strong chemistry background: CHM 3217, CHM 2211L, CHM 3218
- Alternative route 2, for students who were not as successful or are less confident in previous chemistry courses: CHM 2200 (without the lab course), and then complete either Alternative route 1 (recommended) or the Traditional route.

Students should meet with their major advisor to determine their best path.

A 2.5 GPA with minimum grades of C in the bolded science and math courses listed above is required to continue in the major after Semester 4.

Academic Learning Compact

The Bachelor of Science in Microbiology and Cell Science, offered by both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences, offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology and the biomolecular sciences. Emphasis will be placed on application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students will learn to evaluate hypotheses, to interpret experimental data and to communicate results effectively.

Before Graduating Students Must

Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe fundamental concepts, skills and processes in microbiology, molecular biology, and in host/pathogen interactions.
2. Apply fundamental concepts, skills and protocols used to conduct research in fields of microbiology, molecular biology, and in host/pathogen.

Critical Thinking

3. Evaluate information and data in the general areas of microbiology and the cellular and molecular biological sciences.
4. Solve typical problems that are encountered in general areas of microbiology and cellular and molecular biological sciences.

Communication

5. Communicate effectively in written form in a manner appropriate in microbiology and the cellular and molecular biological sciences.
6. Communicate orally (including visual aids) in an effective manner appropriate in microbiology and the cellular and molecular biological sciences.

Natural Resource Conservation

Conservationists protect and sustain the world's natural resources for future generations. Well-versed in economics and communications, Natural Resource Conservation students are equipped with strong analytical, critical thinking, and interpersonal skills. Natural Resource Conservation students study chemistry; biology; ecology; and forest, wildlife, fisheries, and aquatic resources.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree**: Bachelor of Science in Forest Resources and Conservation
- **Credits for Degree:** 120
- **Contact:** Email (khaselier@ufl.edu?Subject=Natural%20Resource%20Conservation%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Wildlife Ecology and Conservation fosters education, expands knowledge, and rewards scholarship. This is accomplished by using multidisciplinary approaches for the purpose of understanding, managing, and conserving biological resources.

Curriculum

- Combination Degrees
- Wildlife Ecology and Conservation
- Wildlife Ecology and Conservation Minor

The Natural Resource Conservation (NRC) major provides students an interdisciplinary curriculum preparing them to address a broad range of natural resource-related issues. The core set of courses provides students with a solid foundation in natural history (floral and faunal), ecology, policy and economics, field applications, quantitative assessment and analysis, human dimensions, and spatial analysis. Working with a faculty advisor, students can elect to focus on a wide range of natural resource-related courses. In the required capstone experience, students demonstrate their understanding and proficiency in the core skill sets, as well as further develop their area of concentration.

Graduates seek advanced degrees in a variety of fields, or are successfully employed in a wide range of environmental careers. The major is cooperatively offered by faculty in the School of Forest, Fisheries, and Geomatics Sciences, the Department of Wildlife Ecology and Conservation, and the Program in Fisheries and Aquatic Sciences, and students are paired with one of these faculty members to develop a curriculum that suits their needs. Students interested in more structured and/or accredited curricula in professional natural resource management are encouraged to look at majors in Forest Resources and Conservation, Wildlife Ecology and Conservation, or Interdisciplinary Studies | Marine Sciences.

All NRC majors are required to complete core work in nine content areas (minimum 25 credits): professional seminar, ecology, quantitative analysis and assessment, natural history, human dimensions, policy and economics, field applications, spatial analysis, and capstone experience. These courses embrace a variety of conservation objectives and span local to global scales. They stress the complexities in achieving social, environmental, and economic sustainability; develop critical thinking skills; create significant and valuable field experience; and provide the tools needed for graduates to manage, conserve, and educate people about natural resources.

Students work closely with a faculty advisor to select the remaining 35 upper-division credits to create a curriculum plan designed to meet the specific goals of each student. Each curriculum plan must be approved by the program's undergraduate coordinator before the student reaches 70 credits.

This major is also offered at the West Florida Research and Education Center in Milton, FL. Ideal for place-bound students, this version of the NRC major provides a broad ecology/conservation curriculum.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete at least 1 of 7 critical-tracking courses (excluding labs): AEB 2014 or ECO 2013 or ECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete at least 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete at least 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete at least 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete 1 of the remaining required major courses from FNR 3131C or WIS 3402/WIS 3402L or FAS 4932 or ZOO 4205C, FNR 3002C, FNR 3410C, FNR 3602, FNR 3500C or WIS 3404, FNR 4624C, FNR 4660, FNR 4623C
- Submit faculty advisor-approved Curriculum Plan (http://sfrc.ufl.edu/forest/degreeprograms/nrc/)
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete 3 additional remaining required major courses from FNR 3131C or WIS 3402/WIS 3402L or FAS 4932 or ZOO 4205C, FNR 3002C, FNR 3410C, FNR 3602, FNR 3500C or WIS 3404, FNR 4624C, FNR 4660, FNR 4623C
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete all remaining required major courses from FNR 3131C or WIS 3402/WIS 3402L or FAS 4932 or ZOO 4205C, FNR 3002C, FNR 3410C, FNR 3602, FNR 3500C or WIS 3404, FNR 4624C, FNR 4660, FNR 4623C
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
Select one:		3
CHM 1030	Basic Chemistry Concepts and Applications 1 (**Critical Tracking**)	
CHM 2045	General Chemistry 1 (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences)	
FNR 2071	Forests for the Environment	3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
Elective		3
	Credits	**15**
Semester Two		
MAC 1105	Basic College Algebra (**Critical Tracking**; State Core Gen Ed Mathematics) [1]	3

BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
FAS 2024	Sustainable Fisheries (recommended; or elective)	3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Elective		3
	Credits	**16**
Semester Three		
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (**Critical Tracking**; Writing Requirement) [2]	3
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
FNR 3004	Forests, Conservation, and People (recommended; or elective)	3
Gen Ed Composition		3
Elective		2
	Credits	**14**
Semester Four		
Quest 2 (Gen Ed Physical Sciences)		3
Select one:		3-4
AEB 2014	Current Economic Issues, Food and You (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
ECO 2023	Principles of Microeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
Select one:		3
AEC 3030C	Effective Oral Communication (**Critical Tracking**)	
SPC 2608	Introduction to Public Speaking (**Critical Tracking**)	
State Core Gen Ed Humanities (p. 80)		3
Elective [3]		3
	Credits	**15-16**
Summer After Semester Four		
Summer B		
Select one:		1-3
FNR 3002C	Foundations of Natural Resources and Conservation	
FNR 4934	Topics in Natural Resources	
Approved courses		2-3
	Credits	**3-6**
Semester Five		
Select one:		3-4
FAS 4202C	Biology of Fishes (**Critical Tracking**)	
FNR 3131C	Dendrology/Forest Plants (fall only; **Critical Tracking**)	
WIS 3402 & 3402L	Wildlife of Florida and Wildlife of Florida Laboratory (spring only; **Critical Tracking**)	
Select one:		3-4
FAS 4932	Topics in Fisheries and Aquatic Sciences (Applied Fisheries Statistics; **Critical Tracking**)	
FNR 3410C	Natural Resource Sampling (**Critical Tracking**)	
WIS 4601C	Quantitative Wildlife Ecology	
WIS 4945	Wildlife Techniques	
Select one:		3-4
FAS 4270	Marine Ecological Processes	
FAS 4932	Topics in Fisheries and Aquatic Sciences (Freshwater Ecology)	
FNR 3500C	Forest Ecology (**Critical Tracking**)	
WIS 3404	Natural Resource Ecology (**Critical Tracking**)	
WIS 4443C	Wetland Wildlife Ecology	
FNR 3400C or GIS 3072C	Forest Resources Information Systems or Geographic Information Systems	3
	Credits	**12-15**
Semester Six		
Select one:		3
FNR 3602	Society and Natural Resources (**Critical Tracking**)	
FNR 4510	Global Forests	
FNR 4934	Topics in Natural Resources (Environment and Society)	

Approved courses		12
	Credits	**15**
Semester Seven		
Select one:		3
FAS 4305C	Introduction to Freshwater Fishery Science	
FAS 4932	Topics in Fisheries and Aquatic Sciences (Field Ecology of Aquatic Organisms)	
FNR 4070C	Environmental Education Program Development	
FNR 4624C	Field Operations for Management of Ecosystems (**Critical Tracking**)	
FNR 3622 & 3622L	Fire Ecology and Management and Fire Ecology and Management Laboratory	
FNR 4080	Sustainable Ecotourism Development	
WIS 4427C	Wildlife Habitat Management	
FNR 4660 or FNR 4621	Natural Resource Policy and Economics (**Critical Tracking**) or Forest Economics and Management	3
Approved courses		9
	Credits	**15**
Semester Eight		
FNR 4950L	Natural Resource Conservation Capstone	3
Approved courses		12-14
	Credits	**15-17**
	Total Credits	**120**

1 Or higher level course.
2 May substitute ENC 2210 or ENC 2256.
3 FAS 2024 recommended, if not already taken.

Approved Courses

Given the flexible, advisor/student-driven nature of this major, students may deviate significantly from this plan relative to course timing. As part of their curriculum plan, students are required to complete at least one course from the following nine content areas:

Code	Title	Credits
Professional Seminar		
FNR 3002C	Foundations of Natural Resources and Conservation	1
FNR 4934	Topics in Natural Resources	1-4
Ecology		
FAS 4270	Marine Ecological Processes	3
FAS 4932	Topics in Fisheries and Aquatic Sciences (Freshwater Ecology)	1-4
FNR 3500C	Forest Ecology	3
WIS 3404	Natural Resource Ecology	3
WIS 4443C	Wetland Wildlife Ecology	4
Quantitative Analysis and Assessment		
FAS 4932	Topics in Fisheries and Aquatic Sciences	1-4
FNR 3410C	Natural Resource Sampling	3
WIS 4601C	Quantitative Wildlife Ecology	3
WIS 4945	Wildlife Techniques	3
Natural History		
FAS 4202C	Biology of Fishes	4
FNR 3131C	Dendrology/Forest Plants	3
WIS 3402 & 3402L	Wildlife of Florida and Wildlife of Florida Laboratory	4
Human Dimensions		
FNR 3602	Society and Natural Resources	3
FNR 4510	Global Forests	3
FNR 4934	Topics in Natural Resources	1-4
Policy and Economics		
FNR 4660	Natural Resource Policy and Economics	3
FNR 4621	Forest Economics and Management	3
Field Applications		
FAS 4305C	Introduction to Freshwater Fishery Science	4

FAS 4932	Topics in Fisheries and Aquatic Sciences (Field Ecology of Aquatic Organisms)	1-4
FNR 4070C	Environmental Education Program Development	3
FNR 4624C	Field Operations for Management of Ecosystems	3
FNR 3622 & 3622L	Fire Ecology and Management and Fire Ecology and Management Laboratory	3
FNR 4080	Sustainable Ecotourism Development	3
WIS 4427C	Wildlife Habitat Management	3
Spatial Analysis		
FNR 3400C	Forest Resources Information Systems	3
GIS 3072C	Geographic Information Systems	3
Capstone Experience		
FAS 4905	Individual Study	1-4
FNR 4905	Individual Study in Natural Resources	1-4
FNR 4934	Topics in Natural Resources	1-4
FNR 4941	Internship in Natural Resources	1-4
WIS 4905	Individual Problems	1-4

The Summer term between the junior and senior year is normally reserved for professional work experience.

Academic Learning Compact

The Natural Resource Conservation major provides a broad education in the ecological, economic, and social aspects of forest and natural resources and their management. The individualized nature of the major allows students to create a curriculum specific to their interests.

Before Graduating Students Must

- Pass the forest resources and conservation competency exam, given in five parts. One part will be given in each of these required courses:

Code	Title	Credits
FNR 3131C	Dendrology/Forest Plants	3
FNR 3410C	Natural Resource Sampling	3
FNR 4040C		
FNR 4623C	Integrated Natural Resource Management	3
FNR 4660	Natural Resource Policy and Economics	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate competency in biology/ecology, quantification, policy/administration, and management of natural resources.
2. Analyze, interpret, synthesize, and communicate information and data, including the use of mathematical and statistical methods.

Critical Thinking

3. Solve novel problems in natural resource management.

Communication

4. Create, interpret and analyze written text, oral messages, and multimedia presentations.

Curriculum Map

Nonprofit Organizational Leadership Minor

The Nonprofit Organizational Leadership minor provides the knowledge and competencies to perform a variety of roles in nonprofit organizations, for-profit companies and corporations, and government agencies at the local, state, and national levels.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15-16 | Completed with minimum grades of C

This minor draws primarily from the faculty in Family, Youth and Community Sciences. The elective can be taken from the colleges of Agricultural and Life Sciences, Business, Liberal Arts and Sciences, Journalism and Communications, and Education.

The minor is open to all UF students.

Required Courses

Code	Title	Credits
FYC 4408	Organizational Leadership for Nonprofits	3
FYC 4409	Working with Nonprofit Organizations in Community Settings	3
FYC 4410	Fund Raising for Community Nonprofit Organizations	3
FYC 4428	Human Resource Management for Nonprofits	3
Approved elective		3-4
Total Credits		**15-16**

Approved Electives

Code	Title	Credits
ACG 2021	Introduction to Financial Accounting	4
AEB 4126	Agricultural and Natural Resource Ethics	3
AEB 4424	Human Resources Management in Agribusiness	3
FYC 4114	Ethical Issues in Family, Youth and Community Sciences	3
FYC 4426	Risk Management in Nonprofit Organizations	3
FYC 4427	Non-Governmental Organizations	3
FYC 4622	Planning and Evaluating Family, Youth and Community Science Programs	3
MAR 3023	Principles of Marketing	4
POS 3263	Policy, Ethics and Public Leadership	3
SDS 4410	Interpersonal Communication Skills	3

Nutritional Sciences

The Nutritional Sciences major encompasses all aspects of the consumption and utilization of food by people and animals as well as how these processes affect the health of individuals and populations. Nutritional Sciences students study organic chemistry, physics, food science, genetics, nutrition, biology of microorganisms, and diseases.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Food Science and Human Nutrition Department (FSHN) is one of the world's largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within one department. The department's programs are accredited by the Institute of Food Technologists (IFT) (http://www.ift.org/) and the Academy of Nutrition and Dietetics (http://www.eatright.org/). After completing undergraduate degrees, FSHN students typically move on to employment in the food industry, healthcare settings, graduate, or professional programs.

Map (http://campusmap.ufl.edu/#/index/0475)

Curriculum

- Dietetics
- Food Science
- Food Science Minor
- Nutritional Sciences
- Nutritional Sciences Minor

The Nutritional Sciences curriculum develops a strong, broad background in the biological sciences, and provides an excellent foundation for graduate study/research in nutrition, health and many other life sciences. Its requirements also closely match the prerequisites for most professional schools. As a result, graduates from this curriculum have entered medical, dental, pharmacy, osteopathic, podiatry, optometry, chiropractic, physician assistant, veterinary, and other professional programs. Other career opportunities include pharmaceutical sales, extension nutrition education, nutrition policy development, and employment with government agencies. Nutritional sciences is one of the majors available to students accepted into the Honors Combination BS/DMD Program.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete CHM 2045/CHM 2045L or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete BCH 3025 or BCH 4024
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete HUN 3403
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete HUN 4445
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete HUN 4221
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms	4
Elective		3
	Credits	**16**
	Total Credits	**120**

Additional electives may be needed to complete the 120 credits required for graduation.

Academic Learning Compact

Nutritional Sciences integrates knowledge of biological principles to interpret emerging knowledge of cellular and physiological systems. Students' knowledge of biochemical processes and nutrient functions will enable them to interpret effects of changes in nutrient availability on metabolic functions. Students will utilize their knowledge of nutrient requirements, food sources and physiological systems to determine nutrient and dietary needs of individuals in various life-cycle stages and/or with nutrition-related diseases.

Before Graduating Students Must

- Satisfactorily complete three examinations in HUN 4221. Examinations will be developed, approved and evaluated by a faculty committee.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Use knowledge of nutrient functions, food sources, and physiological systems to determine nutrient and dietary needs of individuals in various life-cycle stages and/or with nutrition-related diseases.
2. Use knowledge of biochemical processes and nutrient functions to interpret effects of changes in nutrient availability.
3. Integrate knowledge of biological principles to interpret emerging knowledge of cellular and physiological systems.

Critical Thinking

4. Analyze data and interpret results in the nutritional sciences.

Communication

5. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5
AEC 3030C					I, R, A
AEC 3033C					I, R, A

HUN 4446	R	R	R	R	

Assessment Types

- Exams
- Speeches
- Papers

Nutritional Sciences Minor

The Nutritional Sciences minor provides an overview of nutrients, nutrient requirements throughout the life cycle, and metabolic regulation of nutritional pathways.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15-16 | Completed with minimum grades of C and a minimum cumulative 2.5 GPA for courses in the minor

Department Information

The Food Science and Human Nutrition Department (FSHN) is one of the world's largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within one department. The department's programs are accredited by the Institute of Food Technologists (IFT) (http://www.ift.org/) and the Academy of Nutrition and Dietetics (http://www.eatright.org/). After completing undergraduate degrees, FSHN students typically move on to employment in the food industry, healthcare settings, graduate, or professional programs.

Curriculum

- Dietetics
- Food Science
- Food Science Minor
- Nutritional Sciences
- Nutritional Sciences Minor

While the minor is open to all students, it is particularly appropriate for biology, microbiology and cell science, and zoology majors; and students who are interested in medicine, dentistry, and pharmacy.

Required Courses

Code	Title	Credits
HUN 2201	Fundamentals of Human Nutrition	3
HUN 3403	Nutrition through the Life Cycle	2
HUN 4221	Nutrition and Metabolism	3
HUN 4445	Nutrition and Disease: Part 1	3
Approved electives		4-5
Total Credits		**15-16**

Approved Electives

Code	Title	Credits
FOS 2040	Introductory Food Science	3
HUN 4446	Nutrition and Disease: Part 2	3
HUN 4813C	Laboratory Techniques in Molecular Nutrition	3
HUN 4905	Special Problems in Human Nutrition	1-3
HUN 4936	Topics in Human Nutrition (Preventative Health)	2
HUN 4936	Topics in Human Nutrition	3

Organic and Sustainable Crop Production Minor

The Department of Horticultural Sciences offers this interdisciplinary minor which encompasses organic and sustainable practices in horticulture and plant science.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15 | Completed with a minimum cumulative 2.0 GPA for courses in the minor
- **Contact:** Email (zxin@ufl.edu) | 352.273.4773

Department Information

The Horticultural Sciences Department is a team of faculty, staff, and students dedicated to improving fruit and vegetable production for the benefit of farmers and consumers. Florida's climatic diversity and the facilities at UF provide opportunities for cutting-edge research in plant breeding & genetics, plant and environmental physiology, fruit & vegetable production, postharvest physiology, biochemistry, and other disciplines.

ALS 3133	Agricultural and Environmental Quality	3
ALS 3153	Agricultural Ecology	3
SWS 4231C	Soil, Water and Land Use	3
SWS 4233	Soil and Water Conservation	3

Packaging Science Minor

Packaging Science is an excellent area of focus for students in engineering science and business-related disciplines. All companies that produce physical products deal with packaging, and most companies employ teams of packaging professionals from a variety of backgrounds and disciplines. Packaging plays a key role in competitive advantage in the marketplace, and packaging is always changing and improving.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15 | Graded courses completed with minimum grades of C
- **Contact:** Frazier Rogers Hall (http://campusmap.ufl.edu/?loc=0474)

Department Information

The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

Map (http://campusmap.ufl.edu/#/index/0474)

Curriculum

- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

This minor is open to all students.

The packaging industry requires creative thinkers and problem solvers to continue to improve environmental sustainability, quality and packaging efficiency. This minor provides exposure to the tools and knowledge required to solve practical problems in packaging and will help students to gain employment in the packaging industry.

Students applying for the minor must obtain written approval from their academic advisor and the undergraduate coordinator in packaging science at least two semesters before graduation.

This minor offered by the College of Agricultural and Life Sciences differs from the Packaging Engineering specialization in the Biological Engineering degree. While both sets of curriculum use overlapping courses, the major is available only available to students of the Herbert Wertheim College of Engineering.

Required Courses

Code	Title	Credits
Select four:		12
PKG 3001	Principles of Packaging	
PKG 3103	Food Packaging	
PKG 4008	Distribution and Transport Packaging	
PKG 4011	Packaging Production and Processing	
PKG 4101C	Computer Tools for Packaging	
Technical elective (advisor-approved)		3
Total Credits		**15**

Technical Elective | Advisor-approved

- Selected from approved electives in:
  - Packaging
  - Food Science
  - Materials Science and Engineering
  - Chemical Engineering
  - Mechanical Engineering
  - Computer Science & Engineering
  - Industrial Engineering
  - Horticultural Science
  - Biological Science
  - Marketing
  - Advertising
- Other electives, including internships and co-ops, are subject to approval of the packaging science minor advisor.

Pathogenesis Minor

This minor emphasizes human infectious disease to provide a strong foundation in the field of microbial pathogenesis. This is provided by academic coursework covering fundamental and advanced aspects of microbial pathogenesis from both the host and pathogen perspective.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 12 | Completed with minimum grades of C

Department Information

The Department of Microbiology & Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical, dental, pharmacy, veterinary programs, graduate school, or public health degrees. BS degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the MS and PhD degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

- Bioinformatics Minor
- Bioinformatics Minor UF Online
- Combination Degrees
- Microbiology and Cell Science UF Online
- Microbiology and Cell Science | CALS
- Microbiology and Cell Science | CLAS
- Pathogenesis Minor
- Pathogenesis Minor UF Online

This minor is open to all students who have completed BSC 2010 and MCB 3020 or MCB 3023, and who meet course prerequisites.

It is particularly appropriate for students majoring in animal sciences, biology, microbiology and cell science, plant pathology, public health, and zoology, and for those interested in professional programs in dentistry, medicine, pharmacy, or veterinary medicine.

Allowed Overlap with MCY or MCB major

Microbiology and Cell Science majors should meet with their academic advisors before applying to this minor to plan a program of study. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Prerequisites

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	3
MCB 3020	Basic Biology of Microorganisms	3
or MCB 3023	Principles of Microbiology	

Required Courses

Code	Title	Credits
Select 3 courses:		9
MCB 4203	Bacterial Pathogens (Fall and Spring) [1]	
MCB 4422	Probiotics (Spring only) [1]	
MCB 4503	General Virology (Fall and Spring) [1]	
MCB 4271	Antimicrobial Resistance (Fall and Spring) [1]	
PCB 4233	Immunology (Spring only) [1]	
ZOO 4232	Human Parasitology (Fall only) [1]	
Approved elective		3
Total Credits		**12**

Approved Elective

Any of the Required Courses can be taken to satisfy the elective if not already taken as a Required Course

Code	Title	Credits
PLP 4222C	Introduction to Plant Virology (Spring only)	3
PLP 4242C	Introduction to Plant Bacteriology (Spring only)	3
PLP 4260C	Introduction to Plant Pathogenic Fungi (Spring only)	3
SWS 4307	Ecology of Waterborne Pathogens (Spring only) [1]	3

[1] May be taken online.

Department Information

The Entomology and Nematology Department prepares students for exciting careers in a large variety of fields. Entomology and Nematology majors can enter medical, veterinary, or dental school; progress to graduate study in entomology, nematology, or any of several other biological sciences such as ecology and evolutionary biology, horticulture, or zoology; or move directly to a variety of careers (including industry and government positions) in fields such as pest management, agriculture, ecotourism, biosecurity, science policy, and education

- Beekeeping Certificate
- Combination Degrees
- Entomology and Nematology
- Entomology and Nematology Minor
- Entomology and Nematology Minor UF Online
- Landscape Pest Management Certificate
- Medical Entomology Certificate
- Pest Control Technology Certificate
- Urban Pest Management Certificate

The pest control technology certificate is awarded upon completion of specific coursework in entomology and pest management that satisfies the academic requirements of Florida state statute 482, which requires 24 semester credits plus one year of employment to qualify to take the Florida Pest Control Operator's license examination.

There are no prerequisite courses, but students are advised to remember the requirement of a year's employment to qualify to take the licensing exam.

Required Courses

Code	Title	Credits
ENY 4230	Pesticide Application	3
IPM 3022	Fundamentals of Pest Management	3
IPM 4254	Landscape Integrated Pest Management: Ornamentals and Turf	3
Additional courses from the Urban Pest Management and Landscape Pest Management certificates [1]		15
Total Credits		**24**

[1] Select from additional courses listed in the Landscape Pest Management and Urban Pest Management certificates.

- Landscape Pest Management Certificate
- Urban Pest Management Certificate

Plant Molecular and Cellular Biology Minor

The Horticultural Sciences Department facilitates this interdisciplinary minor, a cooperative effort of the departments of Agronomy, Environmental Horticulture, Horticultural Sciences, Plant Pathology and Microbiology and Cell Science. It is particularly appropriate for students majoring in horticultural science, microbiology and cell science, and plant science, although it is available to students in other majors.

Plant Science

Plant scientists sustain and improve our current and future world as they work in careers connected to foods, fibers, fuels, pharmaceuticals, ornamental plants, managed landscapes, and native ecosystems. Students study biology, genetics and biotechnology, ecology, plant physiology, pests and diseases, and sustainable agriculture. Plant Science students develop an interdisciplinary perspective on the science of plant production and its applications for managing plants in human and natural systems.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs

- Combination Degrees
- Environmental Horticulture Management Certificate
- Environmental Horticulture Minor
- Golf and Sports Turf Management Minor

The Plant Science degree provides students with a hands-on, interdisciplinary perspective on the science of plant production and its applications for managing plants in human and natural systems. Students work with faculty advisors to craft a plan of study that helps them gain expertise in a wide array of potential topics, such as sustainable and organic crop production, plant breeding, and genetics, biotechnology, greenhouse and landscape industries, native plant conservation, plant health, and protection, soil management and productivity, and turfgrass.

This major is offered to both incoming freshmen as well as transfer students who have the appropriate credentials through the statewide programs at Gainesville's main campus, the Fort Lauderdale Research and Education Center, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements

Courses for the major include introductory statistics, biology, chemistry, mathematics, economics, communications, humanities, Quest courses, and Civic Literacy. All students are required to take an introductory plant science course to explore the range of career options and opportunities offered by the major (PLS 3004C). Upper-division requirements include courses in soil science, plant pests and diseases, natural ecosystems or agroecosystems, physiology, genetics, plant production and propagation, lab skills, and a capstone experience. All students must also complete a guided internship or high impact practice (HIP) related to their area of interest.

Courses in the major provide students with the knowledge and fundamental concepts essential to the degree, and upper-division requirements and electives are designed to build knowledge, competency, and skills applicable to professional development. The skills courses, internship or HIP experiences, and capstone courses all help students gain real-world experience in their chosen field.

Students should meet with both their academic advisor and a faculty mentor as early as possible in their academic programs, to explore their interests and receive guidance on appropriate courses to plan their course of study and career paths.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete 2 of 5 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L; BOT 2011C or BSC 2011/BSC 2011L; CHM 2045/CHM 2045L; ECO 2013; MAC 1147

- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 4

- Complete all critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 5

- Complete all critical-tracking courses, including labs
- Complete PLS 3004C
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper-division GPA required
- 2.0 UF GPA required

SEMESTER 6

- Complete AGR 4512 or HOS 4304
- 2.0 upper-division GPA required
- 2.0 UF GPA required

SEMESTER 7

- Complete PLS 3223 and PLS 3223L and approved elective in major
- Complete HOS 4918
- 2.0 upper-division GPA required
- 2.0 UF GPA required

SEMESTER 8

- Complete Plant Science capstone
- 2.0 upper-division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
BOT 2010C	Introductory Botany (**Critical Tracking**; State Core Gen Ed Biological Sciences and Physical Sciences)	

BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; State Core Gen Ed Biological Sciences and Physical Sciences)	
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80); Writing Requirement: 6,000 words)	3
MAC 1147	Algebra and Trigonometry (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Humanities (p. 80)		3
	Credits	**13-14**
Semester Two		
Quest 1 (Gen Ed Humanities)		3
Select one:		4
BOT 2011C	Plant Diversity (**Critical Tracking**; Gen Ed Biological Sciences)	
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences)	
ENC 2210	Technical Writing (Gen Ed Composition; Writing Requirement: 6,000 words)	3
Gen Ed Social and Behavioral Sciences and International		3
	Credits	**13**
Semester Three		
Quest 2 (Gen Ed Social and Behavioral Sciences)		3
AEC 3030C or SPC 2608	Effective Oral Communication or Introduction to Public Speaking	3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	4
	Credits	**14**
Semester Four		
STA 2023	Introduction to Statistics 1 (Gen Ed Mathematics)	3
Elective; Writing Requirement: 6,000 words		3
Electives		8
	Credits	**14**
Semester Five		
HOS 4918	Capstone Planning in Horticultural Sciences	1
ORH 3513C or BOT 3151C	Environmental Plant Identification and Use or Local Flora of North Florida	3
PLS 3004C	Principles of Plant Science (**Critical Tracking**; Gen Ed Biological and Physical Sciences)	3
SWS 3022 & 3022L	Introduction to Soils in the Environment and Introduction to Soils in the Environment Laboratory (Gen Ed Biological and Physical Sciences)	4
Approved elective in Natural Systems and Agroecosystems		3
	Credits	**14**
Semester Six		
Select one:		3
AGR 4512	Physiology and Ecology of Crops (**Critical Tracking**)	
HOS 4304	Horticultural Physiology (**Critical Tracking**)	
HOS 3430C or ORH 4256	Nutrition of Horticultural Crops or Nutritional Management of Nursery Crops	3
PLS 3223 & 3223L	Plant Propagation and Plant Propagation Laboratory (**Critical Tracking**)	3
Approved elective in Plant Production Systems		3
Elective; Writing Requirement: 6,000 words		3
	Credits	**15**
Summer After Semester Six		
PLS 4941	Practical Work Experience (or High Impact Practice)	3
Electives; available for certificate or minor coursework		4
	Credits	**7**
Semester Seven		
AGR 3303	Genetics	3
BCH 3023	Elementary Organic and Biological Chemistry	3

Approved elective in Laboratory Skills and Information Skills		3
Approved elective in Plant Pests and Diseases		3
Elective; available for certificate or minor coursework		3
	Credits	**15**
Semester Eight		
PLS 4950	Plant Science Capstone (**Critical Tracking**)	3
Approved elective in Laboratory Skills and Information Skills		3
Approved elective in Plant Pests and Diseases		3
Approved elective in Plant Production Systems		3
Elective; available for certificate or minor coursework		3
	Credits	**15**
	Total Credits	**120**

Approved Electives

The Plant Science major is intentionally flexible to allow students to tailor their degree to their interests within the field. Students must consult with their advisor for assistance in selecting from the listed electives, in order to take appropriate courses to meet the student's curiosity and career aspirations. Other options may include study abroad courses.

Select courses from each focus area as indicated.

Natural Systems and Agroecosystems

Minimum 3 credits

Code	Title	Credits
AGR 4212	Alternative Cropping Systems	3
ALS 3153	Agricultural Ecology	3
EVR 3323	Introduction to Ecosystem Restoration	4
HOS 3281C	Organic and Sustainable Crop Production	3

Plant Production Systems

Minimum 6 credits

Code	Title	Credits
AGR 4212	Alternative Cropping Systems	3
AGR 4214C	Applied Field Crop Production	3
AGR 4231C	Forage Science and Range Management	4
ALS 4210	Controlled Environment Plant Production	3
ALS 4914	Project Team Research: Building Skills in Agrobiology	3
FRC 3212	Introduction to Citrus Culture and Production	3
FRC 3252	Tropical and Subtropical Fruits	2
FRC 3274	Tree and Small Fruit Production	3
FRC 3802	Viticulture for Table Grapes and Wine	2
HOS 3020C	Principles of Horticultural Crop Production	4
HOS 3222C	Greenhouse and Protected Agriculture	3
HOS 3281C	Organic and Sustainable Crop Production	3
HOS 3513C	Breeding and Production of Medicinal Plants and Herbs	2
HOS 4283C	Advanced Organic and Sustainable Crop Production	3
HOS 4332C	Principles of Postharvest Horticulture	3
ORH 3222C	Turfgrass Culture	4
ORH 3253C	Introductory Nursery Management	4
ORH 3815C	Florida Native Landscaping	3
ORH 4223	Golf and Sports Turf Management	2
ORH 4236C	Ornamental Landscape Management	3
ORH 4242C	Arboriculture	4
ORH 4264	Greenhouse and Nursery Crop Culture	3
ORH 4280	Orchidology	3
ORH 4804 & 4804L	Annual and Perennial Gardening and Annual and Perennial Gardening Laboratory	3
ORH 4848	Landscape Plant Establishment	2
PLS 3421C	Hydroponic Systems	3

PLS 3800C	Vegetable Production	3
PLS 4242C	Micropropagation of Horticultural Crops	4

Plant Pests and Diseases

Minimum 6 credits

Code	Title	Credits
ENY 3005	Principles of Entomology	4
& 3005L	and Principles of Entomology Laboratory	
ENY 3510C	Turf and Ornamental Entomology	3
IPM 3022	Fundamentals of Pest Management	3
IPM 4114	Insect Pest and Vector Management	3
NEM 3002	Principles of Nematology	3
PLP 3002C	Fundamentals of Plant Pathology	4
PLP 3230	Survey of Plant Pathogens	3
PLP 4104	Applied Plant Disease Management	3
PLS 4601C	Principles of Weed Science	3
PLS 4613	Aquatic Weed Control	3
PLS 4630	Organic Weed Management	3
PMA 4570C	Field Techniques in IPM	2

Lab Skills, Field Skills, and Information Skills

Minimum 6 credits

See academic advisor to discuss additional courses that may fulfill the skills category

Code	Title	Credits
AGR 4304	Plant Chromosomes and Genomes	3
ALS 3200C	AI in Agricultural and Life Sciences	3
AOM 4434	Precision Agriculture	3
BOT 3503L	Physiology and Molecular Biology of Plants Laboratory	2
BSC 2891	Python Programming for Biology	3
BSC 4434C	Introduction to Bioinformatics	3
ENY 2890C	Insect Research CURE	3
ENY 4823	Molecular Biology of Insects and Nematodes	3
HOS 4313C	Laboratory Methods in Plant Molecular Biology	2
HOS 4241C	Genetics and Breeding of Vegetable Crops	3
LDE 3410C	Residential Landscape Design	3
LDE 4404C	Advanced Residential Landscape Design	3
ORH 3773	Public Gardens	4
& 3773L	and Public Gardens Laboratory	
PLP 4653C	Basic Fungal Biology	4
PLS 4105	Genome Editing and Plant Biotechnology	3
SWS 4720C	GIS in Soil and Water Science	3

Academic Learning Compact

The Plant Science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and forage crops. They will acquire knowledge about fungi, bacteria, and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.

Before Graduating Students Must

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that affect plant growth and management.
2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.

Critical Thinking

3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.
4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

Communication

5. Create, interpret and analyze written text and multimedia presentations.
6. Communicate effectively through oral and multimedia presentations.

- Capstone and individual projects
- Final grades

Plant Science Minor

Plant scientists sustain and improve our current and future world as they work in careers connected to foods, fibers, fuels, pharmaceuticals, ornamental plants, managed landscapes, and native ecosystems. The Plant Science Minor helps develop an interdisciplinary perspective on the science of plant production and its applications for managing plants in human and natural systems. The minor can enrich student preparation for most careers, from law or sustainable construction to agriculture and natural resource management.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15-19 | Completed with minimum grades of C

Department Information

The Department of Agronomy's vision is to improve and sustain food production while conserving natural resources and promoting healthy and active lives by creating and disseminating knowledge in the plant sciences. The department's mission is to achieve excellence in the science of using plants for food, feed, fuel, fiber and turf, as well as in the management of weed species, through research, teaching, and outreach programs that serve the people of Florida, the nation, and the world.

Curriculum

- Agroecology and Sustainable Food Systems Certificate
- Combination Degrees
- Golf and Sports Turf Management Minor
- Plant Science

This minor is open to undergraduates whose major is not Plant Science.

The Plant Science Program is an interdisciplinary collaboration of four core academic departments: Agronomy, Environmental Horticulture, Horticultural Sciences, and Plant Pathology. In addition, two affiliate departments of Entomology and Nematology, and Soil, Water, and Ecosystem Sciences, help frame the broader systems that connect to the plant sciences.

These departments work in concert with the goal of helping students find careers that fulfill and nourish them and the world.

Interested students should consult a Plant Science Academic advisor early in their academic careers.

Required Courses

Code	Title	Credits
PLS 3004C	Principles of Plant Science	3
Select two Plant Production or Systems courses:		*6-8*
AGR 4212	Alternative Cropping Systems	
AGR 4214C	Applied Field Crop Production	
AGR 4231C	Forage Science and Range Management	
ALS 3153	Agricultural Ecology	
EVR 3323	Introduction to Ecosystem Restoration	
HOS 3020C	Principles of Horticultural Crop Production	
HOS 3222C	Greenhouse and Protected Agriculture	
HOS 3281C	Organic and Sustainable Crop Production	
ORH 3253C	Introductory Nursery Management	
ORH 3773 & 3773L	Public Gardens and Public Gardens Laboratory	
ORH 3815C	Florida Native Landscaping	
ORH 4223	Golf and Sports Turf Management	
ORH 4236C	Ornamental Landscape Management	
PLS 3421C	Hydroponic Systems	
PLS 4242C	Micropropagation of Horticultural Crops	
Select one Plant Pest, Disease, or Weeds course:		*3-4*
IPM 3022	Fundamentals of Pest Management	
IPM 4114	Insect Pest and Vector Management	
PLP 3002C	Fundamentals of Plant Pathology	
PLP 3230	Survey of Plant Pathogens	
PLS 4601C	Principles of Weed Science	
PLS 4630	Organic Weed Management	
Select one Plant Mechanisms course:		*3-4*
AGR 4304	Plant Chromosomes and Genomes	
AGR 4320	Plant Breeding	
AGR 4512	Physiology and Ecology of Crops	
HOS 3430C	Nutrition of Horticultural Crops	
HOS 4241C	Genetics and Breeding of Vegetable Crops	
HOS 4304	Horticultural Physiology	
ORH 4256	Nutritional Management of Nursery Crops	
PLS 3223 & 3223L	Plant Propagation and Plant Propagation Laboratory	
Total Credits		**15-19**

All additional categories for course choices have multiple available options that do not require further prerequisites. However, some of the more advanced options do have additional prerequisites, so please account for that when choosing courses, and work with the Plant Science Academic Advisor with any questions.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Precision Agriculture Minor

In the multidisciplinary Precision Agriculture minor, students use satellite imagery, aerial photography, field sensors, and the Global Positioning System to acquire information about field conditions. This information is organized and analyzed using a digital mapping system called Geographical Information System. After being analyzed, these data can help make effective management decisions.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

Recreation Resources Management Certificate

This certificate prepares students to create and manage nature-based recreational opportunities. Includes management of recreational features and infrastructure, as well as education through programming. Graduates will be prepared to work for public agencies managing land which provides recreational opportunities, as well as private entities providing recreational opportunities such as guide services.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15 | Completed with minimum grades of C

Certificates must comply with the Certificate Policy.

Department Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Soil, Water, and Ecosystem Sciences

Soil, Water, and Ecosystem Sciences involves managing land and water resources across a wide range of ecosystems, including agricultural, forested, range, urban and wetlands. Students strengthen their knowledge of the discipline in the classroom, through hands-on learning in the lab, and in the field. The major prepares students with skills to address real-world challenges in soil, water, and ecosystem resource assessment and management to make a positive impact on the environment.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **School:** Natural Resources and Environment (p. 1745)
- **Degree:** Bachelor of Science
- **Specializations:** Soil Science (p. 379) | Water Science (p. 384)
- **Credits for Degree:** 120
- **More Info:** Soil Science (https://soils.ifas.ufl.edu/academics/-undergraduate-studies/soil-science-specialization/) | Water Science (https://soils.ifas.ufl.edu/academics/-undergraduate-studies/water-science-specialization/)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Soil, Water, and Ecosystem Sciences Department researches and teaches about soil, water, and environmental sciences in urban, agricultural, and natural ecosystems. Since its origins over 100 years ago, the department has made significant contributions to improving the productivity of Florida's agriculture, helping protect the state's unique ecosystems, and contributing to soil and water science at national and international levels.

Curriculum

- Combination Degrees
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies
- Interdisciplinary Studies | Environmental Management in Agriculture and Natural Resources UF Online
- Soil, Water, and Ecosystem Sciences
- Soil, Water, and Ecosystem Sciences Minor

Students are trained in managing land and water resources in a wide range of ecosystems, including agricultural, forested, range, urban and wetlands through different degree programs. Specializations within this degree program are designed to give the student a strong background in soil and water sciences with a core of required courses taken during their junior and senior years. Beyond the core courses, students can select from several groups of electives that provide flexibility in their program.

Students may also prepare for professional schools by selecting appropriate elective courses.

Specializations

Soil Science

Areas of study include soil and land use (with an emphasis on natural resources and the environment), environmental management (with an emphasis on agricultural and other applied aspects of soil sciences), physical and biological sciences (with an emphasis on physics, microbiology, botany, and other biological sciences) and business (with an emphasis on policy, economics, business administration, or entrepreneurship).

Water Science

Water's abundance, quality, distribution, and properties are essential to all people. Understanding water's role in the environment and in our lives is integral to the future of this important resource. Water science is an interdisciplinary specialization that provides students with opportunities to develop skills essential for a diversity of careers in both government and private sectors. Students work closely with advisors to develop a course of study tailored to their professional goals.

Academic Learning Compact

The Soil, Water, and Ecosystem Sciences major enables students to identify and to describe the morphology of soils, to differentiate soils according to soil taxonomy and to distinguish soil forming factors. Students will use this knowledge to assess properties of soils in relation to plant growth and environmental uses and to apply this knowledge to different soil uses in agriculture, natural resources and urban settings.

Before Graduating Students Must

- Pass the soil and water sciences competency exam, given in four parts. One part will be given in each of these required courses:
  - SWS 3022
  - SWS 4451
  - SWS 4602C
  - SWS 4715C
- Satisfactorily complete an approved research project in SWS 4905 or SWS 4941.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply fundamental principles of chemistry and physics in relation to critical zone processes in the pedosphere and hydrosphere.
2. Classify fundamental biological processes and differentiate basic organism function in soil and hydrologic systems.
3. Utilize field observations, case study evidence, and experimental data to describe soil formation, morphology, and interactions of the varied components of the hydrologic cycle.

Critical Thinking

4. Critically evaluate the sustainability of water resources in relation to human needs and natural ecosystem function.
5. Demonstrate quantitative problem-solving abilities by applying, analyzing, and synthesizing content knowledge related to soil and water chemistry and physics.

Communication

6. Create, interpret, and analyze written text, oral messages, and multimedia presentations used in agricultural and life sciences.

Curriculum

- Combination Degrees
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies
- Interdisciplinary Studies | Environmental Management in Agriculture and Natural Resources UF Online
- Soil, Water, and Ecosystem Sciences
- Soil, Water, and Ecosystem Sciences Minor

The Soil Science Specialization within the Soil, Water, and Ecosystem Sciences major equips students with the knowledge and practical skills needed to manage land and water resources across diverse ecosystems, including agricultural, forested, range, urban, and wetlands. The curriculum provides a robust foundation in soil science through a blend of core courses and flexible electives, allowing students to tailor their studies to match their academic and professional aspirations.

Students explore key areas such as soil and land use, environmental management, and the physical and biological sciences, with opportunities to delve into policy, economics, and business aspects. Hands-on learning through lab work, field experiences, and specialized coursework prepares students for careers in soil and resource conservation, sustainable agriculture, environmental education, and environmental policy.

Graduates are well-positioned for professional certifications, including becoming Certified Professional Soil Scientists (CPSS), Certified Crop Advisors (CCA), or Professional Wetland Scientists (PWS). With a comprehensive and flexible approach, this specialization fosters the expertise needed to address complex environmental challenges and contribute to a sustainable future.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical courses, excluding labs: BSC 2005/BSC 2005L or BSC 2010/BSC 2010L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, PHY 2004/PHY 2004L
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs, from semesters 1 – 4
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete 1 additional tracking course
- 2.0 upper division GPA required.
- 2.0 UF GPA required

Semester 7

- Complete 2 additional tracking courses
- 2.0 upper division GPA required.
- 2.0 UF GPA required

Semester 8

- Complete all remaining tracking courses from semesters 5 - 8
- 2.0 upper division GPA required.
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
AEB 2014	Current Economic Issues, Food and You (Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (Gen Ed Social and Behavioral Sciences)	
ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
Select one:		4

SWS 4915	Honors Thesis Research in Soil and Water Science	3
SWS 4932	Special Topics in Soil and Water Science	1-3

Electives are chosen with the student's advisor. There are four areas of specialization: soil, water and land use, environmental soil and water management, physical sciences and biological sciences. The student is encouraged to take electives from a range of course groupings that include biology, building construction, chemistry, earth science, environmental science, hydrology, mathematics, physics, policy, production systems, programming and statistics.

Academic Learning Compact

The Soil, Water, and Ecosystem Sciences major enables students to identify and to describe the morphology of soils, to differentiate soils according to soil taxonomy and to distinguish soil forming factors. Students will use this knowledge to assess properties of soils in relation to plant growth and environmental uses and to apply this knowledge to different soil uses in agriculture, natural resources and urban settings.

Before Graduating Students Must

- Pass the soil and water sciences competency exam, given in four parts. One part will be given in each of these required courses:
  - SWS 3022
  - SWS 4451
  - SWS 4602C
  - SWS 4715C
- Satisfactorily complete an approved research project in SWS 4905 or SWS 4941.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply fundamental principles of chemistry and physics in relation to critical zone processes in the pedosphere and hydrosphere.
2. Classify fundamental biological processes and differentiate basic organism function in soil and hydrologic systems.
3. Utilize field observations, case study evidence, and experimental data to describe soil formation, morphology, and interactions of the varied components of the hydrologic cycle.

Critical Thinking

4. Critically evaluate the sustainability of water resources in relation to human needs and natural ecosystem function.
5. Demonstrate quantitative problem-solving abilities by applying, analyzing, and synthesizing content knowledge related to soil and water chemistry and physics.

Communication

6. Create, interpret, and analyze written text, oral messages, and multimedia presentations used in agricultural and life sciences.

Water Science

Soil, Water, and Ecosystem Sciences involves managing land and water resources across a wide range of ecosystems, including agricultural, forested, range, urban and wetlands. Students strengthen their knowledge of the discipline in the classroom, through hands-on learning in the lab, and in the field. The major prepares students with skills to address real-world challenges in soil, water, and ecosystem resource assessment and management to make a positive impact on the environment.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **School:** Natural Resources and Environment (p. 1745)
- **Degree:** Bachelor of Science
- **Specializations:** Soil Science (p. 379) | Water Science (p. 384)
- **Credits for Degree:** 120
- **More Info:** Soil Science (https://soils.ifas.ufl.edu/academics/-undergraduate-studies/soil-science-specialization/) | Water Science (https://soils.ifas.ufl.edu/academics/-undergraduate-studies/water-science-specialization/)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Soil, Water, and Ecosystem Sciences Department researches and teaches about soil, water, and environmental sciences in urban, agricultural, and natural ecosystems. Since its origins over 100 years ago, the department has made significant contributions to improving the productivity of Florida's agriculture, helping protect the state's unique ecosystems, and contributing to soil and water science at national and international levels.

Curriculum

- Combination Degrees
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies
- Interdisciplinary Studies | Environmental Management in Agriculture and Natural Resources UF Online
- Soil, Water, and Ecosystem Sciences
- Soil, Water, and Ecosystem Sciences Minor

The Water Science Specialization within the Soil, Water, and Ecosystem Sciences major prepares students to manage water resources across diverse ecosystems, including agricultural, forested, urban, and wetlands. Through a blend of core coursework and flexible electives, students gain a solid foundation in water science, exploring critical topics such as hydrology, water resource management, water quality analysis, and environmental policy.

This specialization emphasizes hands-on learning, offering practical experiences in the lab and the field. Students collaborate closely with their advisors to design a customized course of study that aligns with their academic and professional goals. Graduates are well-equipped for careers in water quality monitoring, water resource regulation, hydrology, and water security, with opportunities to work in both government and private sectors.

With its versatile curriculum and real-world focus, students pursuing the Water Science Specialization are prepared to address complex water resource challenges and contribute to the sustainable management of this vital natural resource.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical courses, excluding labs: BSC 2005/BSC 2005L or BSC 2010/BSC 2010L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, PHY 2004/PHY 2004L
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs from semesters 1 – 4
- Complete 1 additional tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete 1 additional tracking course
- 2.0 upper division GPA required.
- 2.0 UF GPA required

Semester 7

- Complete 2 additional tracking courses
- 2.0 upper division GPA required.
- 2.0 UF GPA required

Semester 8

- Complete all remaining tracking courses, including labs from semesters 5 - 8
- 2.0 upper division GPA required.
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
AEB 2014	Current Economic Issues, Food and You (Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (Gen Ed Social and Behavioral Sciences)	
ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
Select one:		4
BSC 2005 & 2005L	Biological Sciences and Laboratory in Biological Science (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	
State Core Gen Ed Composition (p. 80); Writing Requirement		3
Elective		4
	Credits	**14-15**
Semester Two		
MCB 2000 & 2000L	Microbiology and Microbiology Laboratory	4
SWS 2007	The World of Water (Gen Ed Physical Sciences)	3

Curriculum

- Combination Degrees
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies
- Interdisciplinary Studies | Environmental Management in Agriculture and Natural Resources UF Online
- Soil, Water, and Ecosystem Sciences
- Soil, Water, and Ecosystem Sciences Minor

This minor must include SWS 3022 and SWS 3022L. Additional SWS courses must be approved in writing by the academic advisor and the undergraduate coordinator in soil and water science at least two semesters before graduation. Courses taught outside the Department of Soil and Water Sciences cannot be used to fulfill requirements for this minor.

Fifteen credits in soils courses are necessary for certification as a soil scientist and/or to work for the federal government as a soil scientist. Some courses offered in soil and water sciences will not be accepted for certification or to work for the federal government.

Required Courses

Urban Forestry Certificate

This certificate prepares students to manage natural resources within urban and urbanizing environments. Graduates are prepared to work for municipalities, urban planning organizations, consulting firms, and similar entities involved in the planning, installation, and maintenance of urban green space.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 19-20 | Completed with minimum grades of C
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Wildlife Ecology and Conservation

This major focuses on developing students' knowledge of the conservation and management of wildlife and habitats for the greatest aesthetic, ecological, economic, and recreational values. Students in the Wildlife Ecology and Conservation major study biology, chemistry, ecology, calculus, soil science, plant taxonomy, entomology, geography, zoology, and sustainability.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Specializations:** Preprofessional (p. 394) | Wildlife Ecology and Conservation (p. 398)
- **Credits for Degree:** 120
- **Contact**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Wildlife Ecology and Conservation fosters education, expands knowledge, and rewards scholarship. This is accomplished by using multidisciplinary approaches for the purpose of understanding, managing, and conserving biological resources.
Website (https://wec.ifas.ufl.edu/)

Curriculum

- Combination Degrees
- Wildlife Ecology and Conservation
- Wildlife Ecology and Conservation Minor

The department also co-administers a major in natural resource conservation with the School of Forest, Fisheries, and Geomatics Sciences.
More Info (p. 349)

Specializations

Preprofessional

This specialization satisfies the coursework requirements for admission to UF's Doctor of Veterinary Medicine (DVM) program, while simultaneously developing a strong foundation in the ecological and biological principles of wildlife/natural resources management and conservation. Note that coursework requirements may vary among DVM programs.

Wildlife Ecology and Conservation

Students in this specialization train in the biological, social, physical and management sciences, and excel at both the scientific and human dimensions of managing wildlife and natural resources. With appropriate choice of electives and course options, graduates satisfy requirements for certification as an associate wildlife biologist with The Wildlife Society.

Academic Learning Compact

The primary focus of the Wildlife Ecology and Conservation major is to develop students' knowledge of the conceptual and applied aspects of scientific, social, and ethical thought in wildlife ecology and conservation. Emphasis is placed on the biology, ecology, natural history, and behavior of Florida wildlife species and the management of wildlife, their habitats, and their population dynamics for the greatest aesthetic, ecological, economic, and recreational values. Students will learn to think critically about major problems in the conservation of biological diversity and to apply biological principles to the preservation of this diversity.

Before Graduating Students Must

- Pass the wildlife ecology and conservation competency exam, given as part of WIS 4203C or WIS 4554 .
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Acquire knowledge of scientific, social, and ethical arenas of wildlife ecology and conservation; acquire skills for critical reasoning in conservation management; acquire knowledge of Florida wildlife species and their biology, ecology, natural history, and behavior; describe principles and applications of wildlife management practices, population dynamics, and habitat management; and apply biological principles to solve problems in wildlife conservation and preserve biological diversity.

Critical Thinking

2. Apply ecological, mathematical, and statistical concepts to interpret, understand and communicate wildlife ecology and conservation data.

Communication

3. Create, interpret and analyze written text, oral messages, and multimedia presentations used in agricultural and life sciences.

- Final course grades

Preprofessional

This major focuses on developing students' knowledge of the conservation and management of wildlife and habitats for the greatest aesthetic, ecological, economic, and recreational values. Students in the Wildlife Ecology and Conservation major study biology, chemistry, ecology, calculus, soil science, plant taxonomy, entomology, geography, zoology, and sustainability.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Degree:** Bachelor of Science
- **Specializations:** Preprofessional (p. 394) | Wildlife Ecology and Conservation (p. 398)
- **Credits for Degree:** 120
- **Contact**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Wildlife Ecology and Conservation fosters education, expands knowledge, and rewards scholarship. This is accomplished by using multidisciplinary approaches for the purpose of understanding, managing, and conserving biological resources.

Curriculum

- Combination Degrees
- Wildlife Ecology and Conservation
- Wildlife Ecology and Conservation Minor

The department also co-administers a major in natural resource conservation with the School of Forest, Fisheries, and Geomatics Sciences.
More Info (p. 349)

Specializations

Preprofessional

This specialization satisfies the coursework requirements for admission to UF's Doctor of Veterinary Medicine (DVM) program, while simultaneously developing a strong foundation in the ecological and biological principles of wildlife/natural resources management and conservation. Note that coursework requirements may vary among DVM programs.

Wildlife Ecology and Conservation

Students in this specialization train in the biological, social, physical and management sciences, and excel at both the scientific and human dimensions of managing wildlife and natural resources. With appropriate choice of electives and course options, graduates satisfy requirements for certification as an associate wildlife biologist with The Wildlife Society.

Preprofessional

This specialization satisfies the coursework requirements for admission to the Doctor of Veterinary Medicine program. Students pursuing admission to the College of Veterinary Medicine must take six credits of General Education Composition, nine credits of Humanities and Six credits of Social and Behavioral Sciences.

Some students can also satisfy requirements for certification as an associate wildlife biologist by The Wildlife Society. Certification requirements and application material are available at www.wildlife.org (http://www.wildlife.org).

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 7 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, AEB 2014 or AEB 3103 or ECO 2023, MAC 2311, STA 2023
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses, including labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 5

- Complete 1 additional critical-tracking course
- 2.5 GPA on required math and science courses combined
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete 1 additional critical-tracking course
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete 1 additional critical-tracking course
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete 1 additional critical-tracking course, including labs
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)	4
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences)	4
WIS 2920	Wildlife Colloquium	1
State Core Gen Ed Composition (p. 80); Writing Requirement: 6,000 words		3
State Core Gen Ed Humanities (p. 80)		3
	Credits	**15**
Semester Two		
Quest 1 (Gen Ed Humanities)		3
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences)	4
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	4
Gen Ed Composition; Writing Requirement: 6,000 words		3
	Credits	**14**
Semester Three		
Quest 2 (Gen Ed Social and Behavioral Sciences)		3
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement: 6,000 words)	3
CHM 2210	Organic Chemistry 1	3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; Gen Ed Mathematics)	4
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
	Credits	**16**
Semester Four		
Select one:		3-4
AEB 2014	Current Economic Issues, Food and You (**Critical Tracking**)	
AEB 3103	Principles of Food and Resource Economics (**Critical Tracking**)	
ECO 2023	Principles of Microeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
CHM 2211 & 2211L	Organic Chemistry 2 and Organic Chemistry Laboratory	5
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	3

WIS 3402 & 3402L	Wildlife of Florida and Wildlife of Florida Laboratory	4
	Credits	**15-16**
Semester Five		
Select one:		3-4
FNR 3500C	Forest Ecology	
PCB 3601C	Plant Ecology	
PCB 4043C	General Ecology	
WIS 3404	Natural Resource Ecology	
PHY 2053 & 2053L	Physics 1 and Laboratory for PHY 2053	5
WIS 3401	Wildlife Ecology and Management (**Critical Tracking**)	3
Elective		3
	Credits	**14-15**
Semester Six		
AGR 3303 or PCB 3063	Genetics or Genetics	3-4
PHY 2054 & 2054L	Physics 2 and Laboratory for PHY 2054	5
WIS 4501	Introduction to Wildlife Population Ecology (**Critical Tracking**)	3
Elective		4
	Credits	**15-16**
Semester Seven		
AEC 3030C	Effective Oral Communication	3
BCH 4024 or CHM 3218	Introduction to Biochemistry and Molecular Biology (**Critical Tracking**) or Organic Chemistry/Biochemistry 2	4
Select one:		3
WIS 4523	Human Dimensions of Natural Resource Conservation	
FNR 4070C	Environmental Education Program Development	
FNR 3602	Society and Natural Resources	
FNR 4080	Sustainable Ecotourism Development	
WIS 4554 or WIS 4203C	Conservation Biology or Landscape Ecology and Conservation	3
Elective		3
	Credits	**16**
Semester Eight		
Select 9-11 credits:		9-11
ANS 3006 & 3006L	Introduction to Animal Science and Introduction to Animal Science Laboratory	
ANS 3440	Principles of Animal Nutrition	
WIS 4203C	Landscape Ecology and Conservation	
WIS 4427C	Wildlife Habitat Management	
WIS 4601C	Quantitative Wildlife Ecology	
WIS 4941	Internship in Wildlife Ecology and Conservation	
WIS 4945	Wildlife Techniques	
MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms (**Critical Tracking**)	4
Elective		2
	Credits	**15-17**
	Total Credits	**120-125**

Additional electives may be needed to complete the 120 credits required for graduation. Students can select any courses as electives.

State core courses can be selected to meet the university's requirements for writing, international focused course.

Academic Learning Compact

The primary focus of the Wildlife Ecology and Conservation major is to develop students' knowledge of the conceptual and applied aspects of scientific, social, and ethical thought in wildlife ecology and conservation. Emphasis is placed on the biology, ecology, natural history, and behavior of Florida wildlife species and the management of wildlife, their habitats, and their population dynamics for the greatest aesthetic, ecological, economic,

Specializations

Preprofessional

This specialization satisfies the coursework requirements for admission to UF's Doctor of Veterinary Medicine (DVM) program, while simultaneously developing a strong foundation in the ecological and biological principles of wildlife/natural resources management and conservation. Note that coursework requirements may vary among DVM programs.

Wildlife Ecology and Conservation

Students in this specialization train in the biological, social, physical and management sciences, and excel at both the scientific and human dimensions of managing wildlife and natural resources. With appropriate choice of electives and course options, graduates satisfy requirements for certification as an associate wildlife biologist with The Wildlife Society.

Wildlife Ecology and Conservation

Students in this specialization train in the biological, social, physical and management sciences, and excel at both the scientific and human dimensions of managing wildlife and natural resources. With appropriate choice of electives and course options (below), graduates satisfy requirements for certification as an associate wildlife biologist with The Wildlife Society.

Students select a focus area comprised of four courses (minimum of 12 credits) in one of the following areas: ecology, management, human dimensions, quantitative sciences, cooperative education, urban and regional planning, or The Wildlife Society Certification.

All students must file a plan of study for focus area courses with Wildlife Ecology and Conservation (WEC) Student Services before completing 60 credits in the major or before the end of the first term of enrollment for transfer students. The plan must be approved by both the student's faculty advisor and the undergraduate coordinator. Any changes to the plan must be approved by the undergraduate coordinator.

Lists of approved courses are available in the WEC Student Services Office, 102 Newins-Ziegler Hall.
Map (https://campusmap.ufl.edu/#/index/0832)

Coursework for the Major

All majors must complete 26 credits of WEC Core Courses, a minimum of 27 credits of WEC Common Course Requirements, and 12 credits of electives in a self-selected focus area. In addition, students must complete 23 credits of foundational lower division critical tracking coursework for the major.

Minimum grades of C within two attempts, including withdrawals are required in all WEC Core Courses. Students must maintain a cumulative GPA of 2.5 in lower division critical tracking courses. A cumulative 2.0 GPA is required to award the Bachelor of Science in Wildlife Ecology and Conservation.

Required Lower Division Critical Tracking Coursework | 23 Credits

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2	

CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry Laboratory	
ECO 2023	Principles of Microeconomics	4
MAC 2311	Analytic Geometry and Calculus 1	4
STA 2023	Introduction to Statistics 1	3
Total Credits		**23**

To continue in the major, students must attain a cumulative GPA in these graded courses of no less than a 2.5. Students must complete critical tracking courses by the end of Semester 4.

WEC Core Course Requirements | 26 Credits

Code	Title	Credits
SWS 3022	Introduction to Soils in the Environment	4

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 6 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, AEB 2014 or AEB 3103 or ECO 2023, MAC 2311, STA 2023
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses, including labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 5

- Complete 1 additional critical-tracking course
- 2.5 GPA on required math and science courses combined
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete 1 additional critical-tracking course
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete 1 additional critical-tracking course
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete 1 additional critical-tracking course
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

Students must earn a minimum grade of C within two attempts in all required core courses. Students must maintain a 2.5 or higher GPA on all lower division critical-tracking courses. A 2.0 cumulative GPA is also required to successfully complete the degree.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Semester Eight		
WIS 4501	Introduction to Wildlife Population Ecology (**Critical Tracking**)	3
Focus courses		6
Electives		6
	Credits	**15**
	Total Credits	**120-128**

Additional electives may be needed to complete the 120 credits required for graduation. Students can select any courses as electives.

State core courses can be selected to meet the university's requirements for writing, international focused courses.

Academic Learning Compact

The primary focus of the Wildlife Ecology and Conservation major is to develop students' knowledge of the conceptual and applied aspects of scientific, social, and ethical thought in wildlife ecology and conservation. Emphasis is placed on the biology, ecology, natural history, and behavior of Florida wildlife species and the management of wildlife, their habitats, and their population dynamics for the greatest aesthetic, ecological, economic, and recreational values. Students will learn to think critically about major problems in the conservation of biological diversity and to apply biological principles to the preservation of this diversity.

Before Graduating Students Must

- Pass the wildlife ecology and conservation competency exam, given as part of WIS 4203C or WIS 4554 .
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Acquire knowledge of scientific, social, and ethical arenas of wildlife ecology and conservation; acquire skills for critical reasoning in conservation management; acquire knowledge of Florida wildlife species and their biology, ecology, natural history, and behavior; describe principles and applications of wildlife management practices, population dynamics, and habitat management; and apply biological principles to solve problems in wildlife conservation and preserve biological diversity.

Critical Thinking

2. Apply ecological, mathematical, and statistical concepts to interpret, understand and communicate wildlife ecology and conservation data.

Communication

3. Create, interpret and analyze written text, oral messages, and multimedia presentations used in agricultural and life sciences.

Wildlife Ecology and Conservation Minor

The Wildlife Ecology and Conservation minor introduces the basic principles of ecology and their application to the challenges of biodiversity conservation and sustainability, especially with regard to wildlife and wildlife habitat.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **Credits:** 15-16

Department Information

The Department of Wildlife Ecology and Conservation fosters education, expands knowledge, and rewards scholarship. This is accomplished by using multidisciplinary approaches for the purpose of understanding, managing, and conserving biological resources.

Academic Policies

Admission Requirements

Students planning to major in any program in the arts should contact the College of the Arts as soon as possible. Because of limitations in faculty and space, the college cannot accept all eligible applicants; admission, therefore, is selective.
More Info (http://arts.ufl.edu/about/programs/)

Auditions are required for admission to all music programs and to the BFA programs in theatre and dance. Refer to the appropriate school for audition information. A student's entire record, including educational objective, pattern of courses completed, quality of academic record, successful audition or portfolio review, and test data will be considered.

Native Freshmen and Sophomores

Because the College of the Arts offers professional degrees (BFA and BMus) and a limited access BA program in digital arts and sciences, the admissions process often occurs in two phases.

1. Conditional admission as a freshman to the college and a program of choice in the School of Theatre and Dance (BA only), the School of Art + Art History or the UF Digital Worlds Institute. There is no conditional admission for music students; they must audition for direct admission to music programs before registering for classes.
2. Direct or confirmed admission into a specific program of choice occurs in different stages of the academic career for different programs.

Art

Students desiring to change from another major within the university must submit a portfolio for conditional admission. All art students must pass a portfolio review at the end of their sophomore year before direct admission to a specific program.

Digital Arts and Sciences

Students must submit a portfolio of original student work, demonstrating competency in digital design, time-based media, and interactive media/programming, by March 15 of the sophomore year for approval to begin upper division coursework the following Fall.

Music

All students must audition for admission to a music major.

Theatre and Dance

Students must audition for direct admission to BFA programs.

Students, even those in the conditional phase of their program, maintain the College of the Arts (FA) classification as long as they meet the standards set by the college and UF for admission and universal tracking.

Transfer Students

To be eligible for admission to the college, a transfer student must satisfy the minimum requirements for UF admission.

The primary criterion for any art, dance, digital arts and sciences, music, or theatre program is proficiency in the discipline. All students, except for BA in theatre or dance, must present an audition, portfolio, or other required support material for review.

The majority of 3000/4000-level professional courses required for the major in the junior and senior years generally cannot be taken at other schools. Students attending four-year colleges should take courses similar to the first two years' preparatory courses for their intended major.

The Associate of Arts (AA) degree is recommended for students transferring from a Florida public college; the degree should be posted on the student's transcript before admission.

Transfer students are advised to plan their studies as outlined below for each department or school. Transfer students, even with completed AA degrees, will usually be required to take additional preprofessional, lower-division (2000 level) courses beyond the minimum courses, required for entry into a specific program.

Art

Art and Graphic Design applicants must also pass a portfolio review to gain admission. Portfolio admissions processes and deadlines can be found on the School of Art + Art History admissions webpages. Please note: the UF Office of Admissions deadlines vary by program and semester. Consult the UF Office of Admissions website for deadline information.

Please see the website for up-to-date prerequisite information and application instructions.
More Info (https://arts.ufl.edu/about/programs/#art-and-art-history)

All majors within the School of Art + Art History require a portfolio review, except art history, which does require a letter of intent outlining the applicant's goals as related to that major. Refer to the School of Art + Art History website for further clarification.
More Info (https://arts.ufl.edu/academics/art-and-art-history/)

Dance

Students are admitted to the BFA program following completion of the following:

- A satisfactory in-person or videotaped audition
- A résumé
- Acceptable proficiency in dance technique

The state college program should include:

- Two years of dance technique, including ballet, modern, and jazz
- One year of dance composition

Digital Arts and Sciences

Students are admitted to the program following completion of the following:

- Satisfactory submission of the portfolio of original student work, demonstrating competency in digital design, time-based media, and interactive media/programming.
- Completion of the following prerequisite courses with a minimum 2.5 GPA:

Code	Title	Credits
ARH 2000	Art Appreciation: American Diversity and Global Arts	3
ARH 2050	Introduction to the Principles and History of Art 1	3
ARH 2051	Introduction to the Principles and History of Art 2	3
MAC 1140	Precalculus Algebra (or higher)	3

At least one course in Studio Art or Computer Programming.

The state college program should include work required to earn the AA degree and the type of General Education and recommended electives found in the degree description. Applicants should note that the UF Office of Admissions deadline for Fall is March 1, and the submission deadline for the portfolio is March 15. Refer to the Digital Worlds Institute website for instructions on submitting the portfolio.
More Info (https://digitalworlds.ufl.edu/)

Music

Upper-division ***professional*** students have an AA or at least 60 credits at the time of matriculation, and ***have*** completed the coursework required for admission at the professional level (listed below). Transfer students who do not meet the criteria for admission at the professional level may be admitted as *provisional*. If a student does not have an AA degree or at least 60 credits, they should refer to the lower division information above. All transfer students with an Associate of Arts degree or with 60 credits accumulated must be accepted into a specific college when they apply to the University of Florida.

Upper-division ***provisional*** students have an AA or at least 60 credits at the time of matriculation, but ***have not*** completed the coursework required for admission at the professional level (listed below). This includes students who have transferred from community colleges that do not offer music programs, students who have not successfully completed the theory requirements, etc. Community college students, with or without an AA degree, who ***have not*** completed the required preprofessional coursework will audition at the "preprofessional level." All students auditioning at the "preprofessional level" will take a theory exam for placement within the theory program and must then successfully pass the final Comprehensive Musicianship Exam upon completion of the theory coursework assigned for remediation.

Requirements for admission at the Professional level:

Courses

- Four semesters of applied studio (8 credits)
- Four semesters of ensemble (4 credits)
- Four semesters of recital attendance
- Four semesters of theory (12 credits)
- Four semesters of secondary piano (4 credits)

Competency Requirements

- 3000 level Preprofessional Jury
- Comprehensive Musicianship Examination (CME)

Grade Point Average Minimums

- 2.5 for Music Education
- 2.0 for all other degree tracks

Theatre

Students are admitted to the program following completion of a satisfactory audition in performance or a portfolio review in production.

The state college program should include:

- One course in acting
- Introduction to theatre
- Costume and stage make-up
- Stagecraft

Timely Graduation

The College of the Arts expects full-time enrollment for students enrolled in bachelor's level degree programs. COTA majors are expected to graduate within the following timeframes: eight full-time Fall/Spring semesters for students admitted as freshmen, and six Fall/Spring semesters for students admitted as junior transfers. Full-term withdrawals, full-term semesters of overseas study, or full-term semesters of internship away from UF are not included in this count, although students should be mindful of potential excess hours implications of extending their time at UF.

Students who cannot meet their degree requirements within the eight full-time semesters (six for transfer students) are expected to enroll in summer terms to complete their degree requirements.

Due to the sequencing of course requirements, some AA and upper-division transfer students may be unable to complete their degree requirements in the six allotted semesters. Students should see their respective advisor to determine an appropriate academic plan to complete their degrees.

Request for Additional Semesters Guidelines

COTA recognizes that unexpected life events, individual circumstances, or complex educational goals may necessitate additional time to complete degree requirements. Additional time to degree is permitted with the approval of the College Petitions Committee, and may be limited to fulfillment of unmet degree requirements only.

COTA generally approves graduation extensions for the following reasons:

- Series of approved medical drops, medical withdrawals, or approved reduced course load lower than 12 credits for full-time status via the DRC
- Personal/financial hardship necessitating the student cease enrollment or enroll at less than full time for one or more semesters

COTA does not approve graduation extensions for students on academic probation nor for students seeking to finish requirements for minors or certificates, or prerequisites for graduate study.

Dual Degrees | Double Majors | Combination Degrees

The college recognizes and commends the many COTA students with ambitious educational goals involving the pursuit of dual-degree, double major, or combination degree plans. COTA expects these students to utilize robust Fall/Spring course loads (i.e., more than 12 credits in Fall/Spring terms) and Summer term enrollment to complete all degree requirements as expeditiously as possible.

- Students who plan to pursue a dual-degree or double major should work with their advisor to create a reasonable semester plan that achieves degree completion as soon as possible. COTA generally permits a maximum of one additional year (two full-time semesters with some additional Summer coursework) for students pursuing dual-degree/double majors.
- COTA approves additional semesters for dual degrees with majors that already require more than eight full-time semesters for degree completion (e.g., Mechanical Engineering).

Change of Major

COTA recognizes that the major selected when a student starts at UF is not always the right major. Students wishing to change majors into a COTA major should work with the respective advisor to determine the feasibility of timely graduation in the new major.

- COTA expects these students to utilize robust Fall/Spring course loads (i.e., more than 12 credits in Fall/Spring terms) and Summer term enrollment to catch up and complete all degree requirements as expeditiously as possible.
- COTA generally permits a maximum of one additional year (two full-time semesters with some additional Summer coursework) for students who have changed majors into a COTA major and are unable to complete degree requirements in the standard eight-semester timeframe.
- Due to state of Florida excess hours legislation, it is critical to consult with your COTA advisor to explore the options available so as to graduate as soon as possible but also incur the least amount of excess hours. Many students find pursuing the BA degree options enable timely graduation with a more reasonable number of credits.

PROCEDURES

1. Students should meet with their undergraduate advisor for guidance regarding their academic goals and graduation timeline

2. If graduation timeline exceeds the allotted four-year timeframe, submit a Graduation Extension Petition (http://catalog.ufl.edu/UGRD/colleges-schools/UGART/College_of_the_Arts_Graduation_Extension_Petition.pdf)

3. The undergraduate advisor will review the petition in consultation with the COTA Petitions Committee and notify the student of the status (approved, denied, or additional information requested)

Students should discuss their excess hours standing with their advisor as they are making their plan. In addition, students should discuss their financial aid/scholarship situation with Student Financial Affairs in 107 Criser Hall or Veterans Services in 222 Criser Hall.

College Requirements

Student Responsibility

Students are responsible for staying on track, for registering for the proper courses, and for fulfilling all requirements for their degrees.

While the college has academic advisors in each unit to assist, the student is responsible for meeting all degree requirements. Students should read their degree audits each term and meet with an advisor to review progress toward the degree.

Students may be required to take additional courses to remove skill deficiencies when deemed necessary by proficiency exams.

Course Load

The college expects all students to be enrolled as full-time students (a minimum of 12 credits per semester). The college strongly encourages students to take 15 credits per semester to successfully meet degree requirements as soon as possible. A student who wishes to carry more than 18 credits must get approval at the time of registration from a college academic advisor.

Satisfactory Academic Progress

Students maintain satisfactory academic progress by earning a minimum 2.0 (C) GPA for all work attempted while classified in the college (2.5, C+ average in music education and a 3.0 (B) average for all School of Art + Art History majors).

Students must take courses as outlined in the semester plan for each major. Students should see an advisor for more information. Students are required to take courses in sequence. Students may be excluded from a program of study in the college if they fail or refuse to maintain normal academic progress.

School of Art + Art History majors must meet Satisfactory Academic Progress within their program in order to be approved to pursue minors, certificates, dual degrees, double majors, internships for credit, and study abroad.

College Probation and Dismissal

Students should see an advisor in their department for information about department-level probation. Students should review the University of Florida's probation and dismissal policies.
More Info (https://catalog.ufl.edu/ugrad/current/regulations/info/progress.aspx#probation)

Adding/Dropping/Withdrawing

Refer to the policy for dropping courses.
More Info (p. 1904)

Petitions

Any student who feels that college regulations created a particular hardship or injustice may petition for a waiver of the regulation. Information on procedures is available in the advisor's office. Anyone who believes that they have been discriminated against should contact their advisor or the associate dean for academic and student affairs.

Helpful Links

- Dean's List (p. 1839)

Degree Requirements

To be eligible for graduation, the student must earn a minimum 2.0 (C) GPA for all work attempted in the appropriate curriculum while classified in the college (2.5 for music education, art). Specific grade requirements for various curricula are available from the school or dean's office.

GRADUATING WITH HONORS

More Info (https://catalog.ufl.edu/UGRD/academic-advising/academic-honors/#graduatingwithhonorstext)

Residence Requirement

The last 30 semester credits applied toward a degree must be completed in residence in the college. This requirement may be waived only in special cases and must be approved in advance.

Student Work

The college reserves the right to retain student work for the purpose of record, exhibition, or instruction.

Admission and Satisfactory Progress

Art

Admission Requirements for UF freshmen and Sophomores not Currently Majoring in Art

Freshmen and sophomores who would like to change their majors to an art studio major must submit a conditional portfolio of no more than ten pieces of artwork. An art faculty committee will review these portfolios and accept or deny conditional admission into an art studio major. Upon conditional admission, a student will begin lower-division art studio courses. A professional portfolio must be submitted to gain admission into the upper-division studio art programs (3000/4000-level courses).

Students Interested in Changing their Majors to Art History

Complete ARH 2050 and ARH 2051 with no grade lower than a B before gaining admission.

Students may not change their majors to an art major if they are currently on probation in their college. Students may not change their majors to an art major after having completed 75 credits, which includes current enrollment.

Preparation for Degrees in Art | Art History, Graphic Design, and Studio Art

Admission to the BFA, BAHA, or BA degree programs is not automatic. At the end of the sophomore year or 60 credits, all students must meet minimum GPA requirements and submit a portfolio based upon the previous two years' art work for admission to the 3000-level course sequence in their concentration. All students are encouraged to work with faculty members in order to submit the best portfolio possible. Admission is highly selective and competitive. The portfolio deadline for Fall admission is March 1.

Upper-Division Transfer Admission

The Office of Admissions determines the transferability of credit earned at other institutions. Upper-division transfer students (applicants with at least 60 credit credits) may transfer no more than 60 credits from a public college as part of the credits required for a UF degree; this limit does not apply to coursework taken at a four-year institution. Students who have achieved advanced upper-division status, 90 credits or more at a four-year institution, may not be admitted.

Transfer students who have been accepted into UF to a major other than one in SAAH must complete all of the prerequisite courses at another institution and submit a professional portfolio according to the March 1 deadline for admission into an upper-division art major.

Satisfactory Progress

Students maintain normal academic progress by earning a 3.0 (B) average for all School of Art + Art History majors. All coursework required for School of Art + Art History majors must be completed with minimum grades of C. Art and Graphic Design majors must also pass a sophomore year portfolio review.

Students must take courses as outlined in the semester plan for each major. Students are required to take courses in sequence. Students may be excluded from a program of study in the college if they fail or refuse to maintain normal academic progress.

Dance

Admission

Admission is selective and students must audition successfully. Dance auditions may be scheduled throughout the year. Students audition in two technique courses of different styles, one course at intermediate level or higher. A résumé also is required. Video audition tapes will be considered. Performance audition ratings may be used for placement level in studio course sequences. Students must consult the department advisor for specific information regarding selective admission protocols.

Satisfactory Progress

Students must receive a minimum grade of C in all major courses and stand for periodic academic and artistic reviews. Majors are guaranteed participation in the production program through the production and performance laboratory course and are expected to attend scheduled departmentals.

Digital Arts and Sciences | DAS

Admission

Admission to the upper-division BA in DAS degree is not automatic. By the end of the sophomore year (or 60 credits of undergraduate coursework), all students must meet minimum GPA requirements and have submitted a portfolio of original work, demonstrating competency in digital design, time-based media, and interactive media/programming. The UF Office of Admissions deadline for Fall is March 1; the deadline for portfolio submission is March 15.

Satisfactory Progress

Students must receive minimum grades of C in all courses for the major and stand for periodic academic and program reviews.

Upper-Division Transfer Admission

The Office of Admissions determines the transferability of credit earned at other institutions. Upper-division transfer students (applicants with at least 60 credits) may transfer no more than 60 credits from a public college as part of the credits required for a UF degree; this limit does not apply to

coursework taken at a four-year institution. Students who have achieved advanced upper-division status, 90 credits or more at a four-year institution, may not be admitted.

Transfer students who do not have a completed application on file by the deadline, including all required documentation, transcripts, etc., will not be considered for admission and must apply for a subsequent term.

Music

Admission

Admission to any curricula in the School of Music includes an audition and acceptance in a performance area. A minimum 2.0 GPA is required, except in music education where a 2.5 GPA is required. Prospective majors should contact the school's director of admission as early as possible.

School Requirements

For admission to the professional level of study, all music majors must complete:

- Musicianship Assessment Jury, taken at the end of the theory sequence (usually at completion of 60 credits)
- Secondary Piano Levels I to IV with minimum grades of C or successful completion of the secondary piano proficiency exam
- The Preprofessional Performance Jury (taken the last semester of MV_ 2XXX)
- Ensemble semesters as required by the student's degree track
- Four semesters of Recital Attendance (MUS 1010) with grades of S

A comprehensive musicianship jury will take place at the end of each semester of theory. The final comprehensive musicianship exam will be taken at this jury after four semester of theory. All students must pass this exam whether theory courses are completed at UF or are transferred from another institution. Transfer students must successfully complete at UF, with minimum grades of C, any remedial coursework assigned by the School of Music before taking the final comprehensive musicianship exam.

Students who exhibit excellent potential as music majors but who are not adequately prepared to enter the theory sequence as required by the degree track, may be granted provisional status. Students with provisional status are placed in MUT 1001. After successfully completing MUT 1001, provisional students are eligible for classification as preprofessional music majors.

Transfer students, with or without A.A. degrees, who have satisfactorily completed the required four semesters of music theory sequence and four semesters of lower-division performance study, and four semesters of piano skills, must **successfully** pass a comprehensive musicianship exam during auditions to the School of Music to be considered a junior. Those students who have not met the above requirements must take a **comprehensive musicianship exam for placement within the theory program and must then successfully pass a comprehensive musicianship exam upon completion of the theory coursework assigned for remediation.**

Music majors must earn a minimum grade of C in each required music course, both to fulfill degree requirements and to advance to the next level. All music students must stand for a performance examination each term they are enrolled in performance study. No course can be repeated more than once, except for ensembles, performance courses and project courses. Consult the school's undergraduate student handbook for specific requirements.

General Education Requirements

- Students can fulfill three credits of the mathematics requirements by taking PHI 2100 or computer sciences courses.
- All music majors will take in humanities:

Code	Title	Credits
MUH 3211	Music History Survey 1	3
MUH 3212	Music History Survey 2	3
MUH elective	(MUH 2501 or any MUH 3000/4000-level course)	3
Bachelor of Music Education Only		
Select one of the following:		3
MUH 2501	Introduction to World Musics	
MUH 3530	Popular and Traditional Musics of Africa	3
MUH 3541	Latin American Music	

- Students in the Bachelor of Music in Music Education program must fulfill six of the 9-credit social/behavioral sciences requirement by taking EDF 2085 and PSY 2012.
- In the School of Music, the following required courses are classified as international courses: MUH 3211 and MUH 3212.
- A student should take a minimum of three credits in Biological or Physical Science while completing the 9-credit Physical/Biological Science requirement. Music Education majors cannot vary credits in General Education, but must complete them according to state mandates.

Speech and Reading Requirements / Education Requirements: The speech requirement for music education is met through MUE 3311 and MUE 3330; the reading requirement is met through RED 3312. The introductory education and technology courses required by the College of Education are MUE 2040 and MUS 1360.

Theatre

Admission

Admission to the Department of Theatre and Dance is selective. Before admission to the BFA program, students must audition successfully for the acting or music theatre major, or present a portfolio for the production major in scene, costume or lighting design. A résumé also is required. Video audition tapes will be considered.

Performance audition or design portfolio review ratings can establish the student's placement level in studio course sequences. Students must consult the department advisor for admission audition/portfolio requirements and deadlines.

Students seeking admission to the BA programs must schedule an admission interview with the theatre advisor before starting the preprofessional courses.

Satisfactory Progress

Students must receive minimum grades of C in all courses in the major and stand for periodic academic and artistic reviews. All majors are guaranteed participation in the production program through the production and performance laboratory course and are expected to attend scheduled departmentals.

AI and the Arts Certificate

The AI and the Arts Certificate enables students to combine their creative practice in dance, theatre, music, and visual or digital arts with the latest tools and techniques in Artificial Intelligence to develop hands-on computation skills with a critical foundation in aesthetics and ethics.

Art Education Certificate

This certificate meets the needs of students who wish to teach art in Florida's public schools. The certificate's curriculum covers the special subject knowledge and pedagogical skills associated with teaching art and prepares candidates for licensure as PreK-12 art teachers in Florida public schools.

About this Program

- **Colleges:** Arts (p. 405) and Education (p. 696)
- **Credits:** 21 | Completed with minimum grades of B

Curriculum

- Art Education Certificate
- Art History
- Art History Minor
- Art Minor
- Art | BA
- Art | BFA
- Ceramics Certificate
- Graphic Design

This certificate provides the skills and competencies required for effectively teaching art in Florida's PreK-12 public schools, as identified by the State of Florida's Six Florida Educator Accomplished Practices (or FEAPS). The School of Art + Art History in cooperation with the College of Education oversees this program.

Students must demonstrate a basic level of competency in a studio area or design, as verified by an acceptable portfolio. It is strongly recommended that students have coursework in one or more of the following areas: ceramics, drawing, painting, sculpture, printmaking, photography, art and technology, graphic design, or art history. This certificate is best suited for students enrolled in a Bachelor of Arts or Bachelor of Fine Arts degree program in the visual arts, design, or art history.

Interested students must meet with the School of Art + Art History undergraduate advisor for more information, course planning, and to obtain provisional approval prior to enrolling in certificate coursework.

To qualify for admission to the certificate program, a student must complete the following:

- Submit an acceptable portfolio of ten digital images of personal works of art and an academic writing sample.
- Pass a background check and meet state fingerprint requirements.
- Submit passing scores on the General Knowledge Test of the Florida Teacher Certification Exam (FTCE).
- Apply and be admitted to the certificate program following the processes and procedures of the University, the academic unit offering the Certificate, and the College dean or designee.
- Purchase a LiveText™ account via the College of Education for documentation of the six FEAPS and tasks, and official observation evaluations by the Field and University supervisors.
- Complete ARE 2045 or EDF 1005 with grade of B or better.

Course Requirements

Students must earn grades of B or better in all required courses. Additionally, 2000-level coursework should be taken before 3000-level coursework. Exceptions may be made with advisor approval.

Prerequisite

Complete the following course before making formal application to the certificate program. It's recommended this course be taken before end of the sophomore year.

Code	Title	Credits
ARE 2045	Introduction to Teaching Art	3
or EDF 1005	Introduction to Education	

Required Courses

Complete after approval of formal application to the certificate program. It's recommended these courses be taken in the junior and senior years.

Code	Title	Credits
ARE 4242	Teaching Art: the Study of Practice	3
ARE 4243	Principles of Teaching Art	3
ARE 4934C	Student Teaching Seminar	1
ARE 4940	Student Teaching in Art Education	8
TSL 3323	ESOL and Reading for Teachers (College of Education)	3

To complete this certificate program, students must also achieve these non-course requirements:

- Successful completion of ARE 4940 as evidenced by overall ratings of "accomplished" or "exceptional on each of the six FEAP categories indicated on the Intern Evaluation form.
- Satisfactory review of a teaching portfolio conducted by art education faculty and an external professional art educator at the culmination of the internship practicum.
- Passing scores on the Art Subject Area Examination (SAE) ART K-12 and the Professional Education examination (PED) portions of the Florida Teacher Certification Exam (FTCE).

Art History

The Art History program introduces global culture through the lens of art and architecture. Art History embraces an interdisciplinary approach that draws on history, archaeology, anthropology, religion, literature, and other allied disciplines to understand and interpret visual culture. The curriculum cultivates skills in critical analysis, research, oral and written communication, and visual literacy that prepare students for careers and graduate or professional schools in diverse fields in and outside the arts. Art History offers face-to-face instruction by permanent faculty who are actively engaged in international research.

About this Program

- **College:** Arts (p. 405)
- **Degree:** Bachelor of Arts in History of Art
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Art + Art History nurtures a culture of critical inquiry in scholarly and creative work. The school empowers each individual with knowledge, skills, and insight to engage thoughtfully with the changing world.

108 FINE ARTS BUILDING C
GAINESVILLE FL 32611
Map (http://campusmap.ufl.edu/#/index/0599)

Curriculum

- Art Education Certificate
- Art History
- Art History Minor
- Art Minor
- Art | BA
- Art | BFA
- Ceramics Certificate
- Graphic Design

All coursework required for the major must be completed with minimum grades of C.

Students pursuing the BA in Art History take 14 courses (42 credits) in the School of Art + Art History:

Code	Title	Credits
ARH 2050	Introduction to the Principles and History of Art 1	3
ARH 2051	Introduction to the Principles and History of Art 2	3
Any 1000 or 2000 level ART course for majors or non-majors		3
Select one:		3
2000-level ARH survey course that focuses on the art of Africa, Asia, and/or Latin America and/or on the art of Native Americans, Aboriginal Australians, and/or Pacific Islanders		
ARH 2500	Non-Western Art	
Any 3000 or 4000-level ARH courses		21
Any 3000 or 4000-level ARH or ART courses		6
ARH 4931	Art History Seminar	3
Total Credits		**42**

ARH 3000/4000 Electives Distribution Requirements

The ARH courses at the 3000 /4000 level must be distributed chronologically:

- at least 3 credits, Art before 1300
- at least 3 credits, Art from 1300 to 1750
- at least 3 credits, Art after 1750

If a course applies to two chronological categories; a student may use it to fulfill the requirement for only one chronological category.

The ARH courses at the 3000/4000 level must also be distributed in the following ways:

- at least 3 credits, art of the ancient Mediterranean Basin and/or ancient Near East and/or the art of Europe and/or the United States
- at least 3 credits, Art of Africa, Asia, and/or Latin America and/or the art of Native Americans, Aboriginal Australians, and/or Pacific Islanders

If a course applies to both of these categories; a student can use it to fulfill the requirement for only one category.

Beyond the required courses in the SA+AH, students must take 5 of their electives (15 credits) at the 3000/4000 level in any discipline.

Majors also need to demonstrate college-level foreign language proficiency. Foreign language skills prepare students for art historical research and greater international engagement. You may already be proficient in a foreign language or you may need additional study to demonstrate proficiency. The Art History program requires the same level of proficiency as the majors in the College of Liberal Arts and Sciences. See CLAS Foreign Language Requirement for ways to demonstrate proficiency by exam, college-level credit from another institution, or taking coursework at UF.

Students planning to attend graduate school in Art History should develop foreign language skills beyond the minimum requirement. Advanced art historical research requires reading complex primary and secondary sources in multiple foreign languages. The faculty will gladly advise students on foreign language study.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical-tracking courses with minimum grades of C: ARH 2050, ARH 2051, ARH 2500 or any 2000 level ARH survey course that focuses on the art of Africa, Asia, and/or Latin America and/or on the art of Native Americans, Aboriginal Australians, and/or Pacific Islanders, one ART at 1000/2000 level, beginning sequence of a foreign language that can be used for art historical research
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.75 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking courses with minimum grades of C
- 3.0 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 5

- Complete all additional critical-tracking courses with minimum grades of C
- 3.0 GPA on all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 6

- Complete 3 of 10 upper-division tracking courses with minimum grades of C: nine ARH art history electives 3/4000 level meeting ARH Electives Distribution Requirements, ARH 4931
- 2.0 UF GPA required

SEMESTER 7

- Complete 4 additional upper-division tracking courses with a minimum grade of C
- 2.0 UF GPA required

SEMESTER 8

- Complete all additional upper-division tracking courses with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 2000-level ARH survey course that focuses on the art of Africa, Asia, and/or Latin America and/or on the art of Native Americans, Aboriginal Australians, and/or Pacific Islanders.

2 At least 3 credits at the 3000/4000 level , art of Africa, Asia, and/or Latin America and/or the art of Native Americans, Aboriginal Australians, and/or Pacific Islanders.

Academic Learning Compact

The Bachelor of Arts in Art History enables students to achieve proficiency in historical theory and criticism of art, to communicate independent, critical perspectives and to employ research methodology effectively. Through study of literature, social forces, ideology, cultural history and visual representation students will develop knowledge of the ancient, medieval, Renaissance/Baroque, and modern world arts. Students will also develop the ability to construct arguments and engage in advanced thought and analysis, in speech and in writing.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, and interpret works of art and other materials about art's cultural and historical context.

Critical Thinking

2. Examine and assess an art historical topic by applying appropriate research practices.
3. Examine and assess scholarly literature, including scholarly methodology.

Communication

4. Formulate oral analysis of works of art in their historical or cultural context.
5. Produce written analysis of works of art in their historical or cultural context.

Art Minor

The Art minor provides the opportunity to combine creative and artistic practice with other academic pursuits. Students seeking this minor are not necessarily pursuing careers as practicing professional artists; rather, they are looking to enhance their programs of study with an interdisciplinary learning experience that develops their perceptual, creative problem solving, and visual communication skills.

About this Program

- **College:** Arts (p. 405)
- **Credits:** 21 | Completed with minimum grades of C

School Information

Curriculum

- Art Education Certificate
- Art History
- Art History Minor
- Art Minor
- Art | BA
- Art | BFA
- Ceramics Certificate
- Graphic Design

The curriculum guides students toward coursework that the art faculty considers essential to understanding art making in a material and conceptual sense. Students completing the minor in art will graduate from UF with a more versatile and well-rounded skillset sought by many disciplines, industries, and professions.

The minor is available to all UF undergraduates, except those majoring in art or graphic design. Interested students must meet with the School of Art + Art History undergraduate advisor to apply.

- Studio art-related majors (art, art education, and design and visual communications) have priority access to studio classes. Art minors must work with the SA+AH advisor to gain access to studio courses on a space-available basis.
- Independent studies and internships will not fulfill credits for this minor.
- 15 credits of the 21 total and all 3000/4000-level coursework must be taken at UF.
- Up to six credits of 2000-level coursework may be transferred in from another institution or accelerated mechanism (e.g., AP, IB) or may be taken from UF non-art major studio courses. All transfer credits are subject to SA+AH approval.
- Credit taken toward this minor cannot also be applied to any studio certificate program.

Required Courses

Code	Title	Credits
Complete before application to the minor		
Select one 2000-level art history course, for example:		3
ARH 2002	Introduction to Art: the Artistic Experience	
ARH 2050	Introduction to the Principles and History of Art 1	
ARH 2051	Introduction to the Principles and History of Art 2	
ARH 2500	Non-Western Art	
Art studio course (2000 level) [1]		3
Complete after approval to the minor		
Art studio courses (2000 level) [1]		9
Art studio courses (3000/4000 level) [1, 2]		6
Total Credits		**21**

1 See advisor for access to studio courses.
2 GRA courses at the 3/4000 level cannot be taken by non-graphic design majors.

Art | BA

The BA in Art allows students to focus on studio art but in a more flexible and less studio-rigorous fashion than the BFA degree options. The BA in Art encourages students to consider a double major or dual-degree, minors, or certificates in specific art or non-art related disciplines, and/or complete preprofessional requirements for other non-art related programs.

Many students graduating with a BA in Art go on to pursue professional programs in healthcare (medical school, veterinary school, art therapy graduate programs, etc.) and other graduate programs in both non-art and art-related disciplines (i.e., law, business, counseling, etc.).

About this Program

- **College:** Arts (p. 405)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

School Information

Electives	5
Credits	**14**
Total Credits	**120**

Students must take 10 credits of foreign language or show a minimum proficiency in a single foreign language by taking a placement test. If proficiency is met, it does not reduce the number of credits required for the degree. Foreign language can be taken S/U or for a letter grade, which must be a minimum grade of C.

Academic Learning Compact

The Bachelor of Arts in Art is a general arts degree. Students will achieve proficiency in general art concepts, experimental approaches, techniques and formal composition in art. Through the study of art theory, art history and historic and contemporary art, students gain knowledge of art genres and systems of thought. Emphasis is on the development of new approaches to making art. Students will learn to use research practices effectively, to discuss the development of their work in speech and in writing and to develop a portfolio and resume.

Before Graduating Students Must

- Pass a particular test, a final project, a term paper and/or a portfolio, as determined and evaluated by the appropriate faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Understand the principles and elements of artistic practice.
2. Produce artworks choosing and employing media and techniques that support ideation.

Critical Thinking

3. Develop sound research methods and production practices.
4. Develop a studio practice that demonstrates complex thought, analysis, and reasoning.

Communication

5. Create a portfolio of artwork.
6. Describe art research and practice in writing.

Semester 1

- Complete ART 1803C for 6 credits or six credits of any ART/PGY/GRA course at the 2000 level with minimum grades of C
- 2.0 UF GPA required

Semester 2

- Complete 3 of 8 critical-tracking courses with minimum grades of C: ARH 2050, ARH 2051, ART 1803C, ART 2353C, ART 2680C, ART 2013C, ART 2825C, ART 2826C
- 2.5 UF GPA required

Semester 3

- Complete 3 additional critical-tracking course with a minimum grade of C
- 2.75 UF GPA required

Semester 4

- Complete remaining critical-tracking courses with minimum grades of C
- 3.0 UF GPA required

Semester 5

- Complete ART 3892 and two 3/4000 studio electives minimum grades of C
- 3.0 UF GPA required

Semester 6

- Complete ART 3857C and two 3/4000 studio electives with minimum grades of C
- 3.0 UF GPA required

Semester 7

- Complete ART 4828C and one 3/4000 studio elective with minimum grade of C
- 3.0 UF GPA required

Semester 8

- Complete ART 4858C and ART 4828C (for the 2nd semester) with minimum grades of C
- 3.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
ART 1803C	Workshop for Art Research and Practice: WARP (**Critical Tracking**)	6
State Core Gen Ed Composition (p. 80); Writing Requirement		3
Elective		3
	Credits	**15**
Semester Two		
ARH 2050	Introduction to the Principles and History of Art 1 (**Critical Tracking**; Gen Ed Humanities and International)	3
ART 2013C	Space Studio (**Critical Tracking**)	3
ART 2353C	Drawing Studio (**Critical Tracking**)	3
Studio elective (ART/GRA/PGY prefix at 2000 level or DIG 2131C)		3
Gen Ed Composition		3
	Credits	**15**
Semester Three		
ARH 2051	Introduction to the Principles and History of Art 2 (**Critical Tracking**)	3
ART 2680C	Time Studio (**Critical Tracking**)	3
ART2825C	Perceptual Studio (**Critical Tracking**)	3
State Core Gen Ed Mathematics (p. 80)		3
Studio elective (ART/GRA/PGY prefix at 2000 level or DIG 2131C		3
	Credits	**15**
Semester Four		
Quest 2 (Gen Ed Physical or Biological Sciences)		3
ART 2826C	The Culture of the Image (**Critical Tracking**)	3
Gen Ed Mathematics (pure math)		3

Studio elective (ART/GRA/PGY prefix at 2000 level or DIG 2131C)		6
	Credits	**15**
Semester Five		
Before beginning 3/4000 studio coursework, students must successfully submit and pass the sophomore portfolio review.		
ART 3892	Art and Theory ((**Critical Tracking**; upper division))	3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Studio electives (ART/GRA/PGY prefix at 3000/4000 level; **Critical Tracking**; upper division		6
Studio electives (ART/GRA/PGY prefix at 3000/4000 level)		3
	Credits	**15**
Semester Six		
ART 3857C	Professional Practices ((**Critical Tracking**; upper division))	3
Art history elective (ARH prefix at 3000/4000 level)		3
Studio electives (ART/GRA/PGY prefix at 3000/4000 level; **Critical Tracking**; upper division)		6
Elective		3
	Credits	**15**
Semester Seven		
ART 4828C	Senior Studio (**Critical Tracking**; upper division) [1]	6
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
Gen Ed Social and Behavioral Sciences		3
Studio elective (ART/GRA/PGY prefix at 3000/4000 level) [1]		3
	Credits	**15**
Semester Eight		
ART 4828C	Senior Studio (**Critical Tracking**; upper division) [2]	3
ART 4858C	Presentation of Practices (**Critical Tracking**; upper division)	3
Studio elective (ART/GRA/PGY prefix at 3000/4000 level) [2]		3
State Core Gen Ed Humanities (p. 80)		3
Any Gen Ed Humanities, Social and Behavioral Science, Physical Science, or Biological Science		3
	Credits	**15**
	Total Credits	**120**

1 Students must have a total of 9 credits of Studio in Semester Seven with a minimum of 3 credits of Senior Studio

2 Students must have a total of 6 credits of Studio in Semester Eight with a minimum of 3 credits of Senior Studio.

Academic Learning Compact

The Bachelor of Fine Arts in art studio enables students to achieve proficiency in the principles and practices utilized by professional artists and affiliated industries. Through the study of art theory, art history and contemporary art, students gain knowledge of art genres and systems of thought. Emphasis is on development of the concepts and skills related to art and the development of a personal artistic idiom. Students will learn to use research practices effectively and to discuss the development of their work in speech and in writing.

Before Graduating Students Must

- Pass a particular test, a final project, a term paper and/or a portfolio.
- Pass a senior-level capstone course that includes an exhibition of the student's work (portfolio). The portfolio will be evaluated by appropriate faculty prior to graduation.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Develop original designs for theatre and live events that demonstrate design aesthetics, principles, and theories.
2. Develop and demonstrate working knowledge of technologies, engineering principles, safety practices, and accepted standards relevant to realizing projects for theatre and live events.
3. Curate and present a portfolio of design- and/or technology-related work with an emphasis in the selected specialization for theatre and live events.

Critical Thinking

4. Synthesize knowledge from multiple competencies, including but not limited to design, technology, critical analysis, communication, and knowledges outside of theatre in support of effective professional problem solving.

Communication

5. Communicate effectively through written, oral, and visual media to laypersons and to professionals.
6. Demonstrate understanding of the global impact of creative communication and/or the enhancement of such communication through the practice of live design

Ceramics Certificate

This School of Art + Art History certificate program enables students with a major outside of the visual arts to take a series of courses within the studio arts where clay is used as the art material. Classes expose students to art-making practices within the field of ceramics, develop manual skills in clay forming, increase visual understanding of content in art, and enable the student to explore personal decision-making and creative problem-solving in art-making.

About this Program

Curriculum

- Art Education Certificate
- Art History
- Art History Minor
- Art Minor
- Art | BA
- Art | BFA
- Ceramics Certificate
- Graphic Design

The certificate is awarded by the SA+AH to acknowledge a concentration in ceramics within a student's external major and general course of study. Students must maintain a minimum GPA of 3.0 in the certificate program. Students are admitted based on a portfolio review by faculty in the ceramics.

The coursework includes 4-5 sequenced ceramics courses plus a required course in art theory and art fundamentals. Students will leave the program with the ability to throw on the potter's wheel, model, and carve. They also will have developed skills in hand-forming processes and gained knowledge of glaze application techniques and kiln firing methods.

Required Courses

Code	Title	Credits
Select one:		3
ARH 2002	Introduction to Art: the Artistic Experience	
ARH 2050	Introduction to the Principles and History of Art 1

Dance in Medicine Certificate

The UF Center for Arts in Medicine, in conjunction with the School of Theatre and Dance, offers an undergraduate certificate in Dance in Medicine to UF students. Completion of this certificate shows intentionality and commitment to interdisciplinary exploration and an awareness of the value of arts to health and well-being.

About this Program

- **College:** Arts (p. 405)
- **Credits:** 13-14
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Center Information

The University of Florida Center for the Arts in Medicine is committed to advancing research, education, and practice in arts in medicine, locally and globally. Through ongoing interdisciplinary research, training programs, and dynamic academic programs the Center advances its mission to further the field of arts in health.

P.O. Box 115660
Center for Arts in Medicine
720 SW 2nd Ave, South Tower Suite 208
Gainesville, FL 32601
Map (https://campusmap.ufl.edu/#/index/3260)

Curriculum

- Dance in Medicine Certificate
- Music in Medicine Certificate
- Visual Arts in Medicine Certificate

Students have access to these unique types of learning experiences: hands-on practical experience with patients and/or community members, exposure to arts in health-related fields, the opportunity to develop career readiness skills such as oral and written communication, leadership, collaboration, and problem solving. In addition, students will interact with patients and/or community members, arts in health leaders, artists, healthcare professionals, arts administrators, and non-profit organizations.

The certificate is different than a minor because students receive hands-on applied experience. Making the choice to complete the certificate shows intentionality and commitment to interdisciplinary exploration and an awareness of the value of dance to health and well-being in society.

Students should apply by their sophomore year and must complete an intake meeting with the Center for Arts in Medicine's Academic Program Specialist.

Students must attain a 3.0 GPA in the required courses, all of which have prerequisites.

Required Courses

Code	Title	Credits

- Theatre Production Minor

Admission to the dance minor requires the completion of DAA 2104 at UF with a minimum grade of B. Students must meet with the dance minor advisor for approval to enter the program and to establish a program of study.

The minor is comprised of a core of 10-11 credits plus 6-7 credits of emphasis as approved by the advisor. At least 12 of these credits must be completed at UF. It normally takes four semesters to complete the minor.

DAA 1000 does not count towards the minor.

Admission

Admission to the BA in Dance program for incoming freshmen does not require an audition. Transfer students should consult with the department regarding admission requirements.

Satisfactory Progress

Students must receive minimum grades of C in all courses for the major. After completion of the second semester students are evaluated by faculty for permission to continue in the program.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete 3 of 12 critical-tracking courses with minimum grades of C: DAA 2104 twice, DAA 2204 twice, DAA 2341 twice, DAA 2105 twice, DAA 2205 twice, DAA 2342 twice
- 2.0 UF GPA required

SEMESTER 2

- Complete 3 additional critical-tracking courses with minimum grades of C
- Complete a successful audition/jury as determined by the dance faculty (only for students who did not complete an audition prior to semester 1)
- 2.0 UF GPA required

SEMESTER 3

- Complete 3 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

SEMESTER 4

- Complete 3 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

SEMESTER 5

- Complete 1 of 5 upper division tracking course with minimum grade of C
- 2.0 UF GPA required

SEMESTER 6

- Complete 1 additional critical-tracking courses (upper division) with minimum grades of C
- 2.0 UF GPA required

SEMESTER 7

- Complete 1 additional critical-tracking course (upper division) with minimum grades of C
- 2.0 UF GPA required

SEMESTER 8

- Complete all remaining critical-tracking courses (upper division) with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

DAN 4180	Professional Development for Dance	1
DAN 4959	Senior Project (**Critical Tracking**)	2
Outside electives (3000 level or above; can't be from theatre or dance)		7
	Credits	**12**
	Total Credits	**120**

[1] Semester 4 Gen Ed course must be the requirement not fulfilled by semester 3 Quest 2 course.

Technique dance courses from Semester Five to Semester Eight (intermediate and advanced-level courses) must be approved by the dance advisor and appropriate to the student's technical level.

Academic Learning Compact

The degree program in Dance offers two specializations, one leading to a Bachelor of Fine Arts (BFA), and one leading to a Bachelor of Arts (BA).

The Bachelor of Fine Arts in Dance provides extensive training and skills in contemporary dance and choreography with four interlocking areas of 21st century dance study: choreography and performance, intercultural dance studies, dance and medicine, and dance theatre. Dance is studied as a major performing art that affects artistic, cultural, intellectual, and social spheres.

The Bachelor of Arts in Dance educates the student as a generalist in dance studies. Students follow a course of study essential to the field of dance, including performance, history, theory, literature, design, technology, and related disciplines, all while enjoying sufficient flexibility to pursue other areas

of study, including a minor or a major in a field other than dance. Successful degree candidates develop independent, interdisciplinary critical thought, and can articulate the power and agency of the arts over time and across cultures and perspectives.

Before Graduating Students Must

- Develop and complete a senior project approved and evaluated by faculty. The BA project would be research oriented; the BFA would be choreographically related.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students Will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate competent physical practice in multiple dance forms/styles.
2. Compose an original work of dance.
3. Apply fundamental knowledge of the body and of kinesiology to work in dance.
4. Explain the fundamental basis of African/ African diaspora dance in much of Euro-American concert and commercial dance and social/popular dance in the Americas.

Critical Thinking

5. Analyze dance utilizing diverse creative, historical, social, cultural and/or other disciplinary perspectives.

Communication

6. Articulate in writing and/or oral communication the historical and social contexts of the dance forms in which they engage.
7. Through written and/or oral communication, build connections between dance and the worlds it touches (business, politics, economics, other artforms, health sciences, education, etc.).

- Theatre
- Theatre Minor
- Theatre Performance
- Theatre Production
- Theatre Production Minor

Admission

Admission is selective and students must audition successfully. Auditions are held twice yearly. Prospective students should check Theatre and Dance for audition dates and information. The audition is in the form of a technique course including ballet, modern, and West African dance styles. Video auditions are accepted in cases where attending the live audition presents a particular hardship. Specific requirements for the video audition are also found on the website. Students may consult the school's undergraduate advisor for admissions information.

Satisfactory Progress

Students must receive minimum grades of C in all courses for the major and participate in academic and artistic jury reviews. Majors are expected to participate in the production/performance program through such courses as Production and Performance, World Dance, and Intercultural Performance and Ensembles.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete DAA 2104, DAA 2204, DAA 2341, DAA 2681, DAN 2930 with minimum grades of C
- 2.0 UF GPA required

SEMESTER 4

- Complete DAA 2105, DAA 2205, DAA 2342 with minimum grades of C
- 2.0 UF GPA required

SEMESTER 5

- Complete 2 of 8 critical tracking courses (upper division) with minimum grades of C
- 2.0 UF GPA required

SEMESTER 6

- Complete 2 additional critical tracking courses (upper division) with minimum grades of C
- 2.0 UF GPA required

SEMESTER 7

- Complete 2 additional critical tracking courses (upper division) with minimum grades of C
- 2.0 UF GPA required

SEMESTER 8

- Complete 2 additional upper-division tracking courses with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

A minimum of 48 credits must be completed at the 3000/4000 levels.

Course	Title	Credits
Semester One		
DAA 2104	Contemporary Dance Practices 1 (**Critical Tracking**)	2
DAA 2204	Contemporary Ballet Practices 1 (**Critical Tracking**)	2
DAA 2341	Contemporary African & African Diasporic Dance Practices 1 (**Critical Tracking**)	2
DAA 2681	Second Year Dance Ensemble	1
DAA 2710	Somatics 1 (Yoga)	2
DAN 2930	First Year Seminar (**Critical Tracking**)	1
TPA 1012	Introduction to Live Entertainment Design and Production	3
State Core Gen Ed Biological or Physical Sciences (p. 80)		3

Electives		2
	Credits	**13**
	Total Credits	**124**

[1] Complete requirement not satisfied in Semester Four.

Intermediate and advanced-level courses must be approved by the dance advisor and appropriate to the student's technical level.

Academic Learning Compact

The degree program in Dance offers two specializations, one leading to a Bachelor of Fine Arts (BFA) and one leading to a Bachelor of Arts (BA).

The Bachelor of Fine Arts in Dance provides extensive training and skills in contemporary dance and choreography with four interlocking areas of 21st century dance study: choreography and performance, intercultural dance studies, dance and medicine, and dance theatre. Dance is studied as a major performing art that affects artistic, cultural, intellectual and social spheres.

The Bachelor of Arts in Dance educates the student as a generalist in dance studies. Students follow a course of study essential to the field of dance, including performance, history, theory, literature, design, technology and related disciplines, all while enjoying sufficient flexibility to pursue other areas of study, including a minor or a major in a field other than dance. Successful degree candidates develop independent, interdisciplinary critical thought, and can articulate the power and agency of the arts over time and across cultures and perspectives.

Before Graduating Students Must

- Develop and complete a senior project approved and evaluated by faculty. The BA project would be research oriented; the BFA would be choreographically related.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students Will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate competent physical practice in multiple dance forms/styles.
2. Compose an original work of dance.
3. Apply fundamental knowledge of the body and of kinesiology to work in dance.
4. Explain the fundamental basis of African/ African diaspora dance in much of Euro-American concert and commercial dance and social/popular dance in the Americas.

Critical Thinking

5. Examine dance inquiry in correlation with diverse creative, choreographic, historical, social, cultural and/or other disciplinary perspectives.

Communication

6. Formulate a vision, idea, idea, and/or point of view through a clear choreographic voice.
7. Articulate in writing and/or oral communication the historical and social contexts of the dance forms in which they engage.
8. Through written and/or oral communication, build connections between dance and the worlds it touches (business, politics, economics, other artforms, health sciences, education, etc.).

Digital Arts and Sciences Minor

The Digital Arts and Sciences (DAS) minor crosses traditional college boundaries between the arts, communications, and engineering. Students become versed in contemporary social and interactive media, critical thinking, and creative design solutions. The DAS minor provides experience working in collaborative teams on media projects, including animation, experience design and production, and game design.

About this Program

- **College:** Arts (p. 405)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

The Digital Worlds Institute is on the cutting edge of digital arts and sciences — both in research initiatives and innovative approach to education. The institute is a recognized leader in combining arts, communications, engineering and science, with a focus on advanced media systems.

Applicants must successfully complete at least two of the required courses and receive approval of their college/department before obtaining Digital Worlds Institute approval to officially declare the minor.

- BA in Digital Arts and Sciences majors have priority access to classes. DAS minors must work with the Digital Worlds Institute advisor to gain access to courses on a space-available basis.
- These courses will not fulfill credits for this minor: DIG 4917, DIG 4940, DIG 4942, DIG 4944C, DIG 4970
- All 3000-level and above coursework must be completed at the University of Florida.
- All course and grade prerequisites must be satisfied.

Required Courses

All students must complete two of the four required courses listed below before applying to the minor. The remaining credits to complete the minor may come from any 3000/4000 level Digital Worlds Institute courses, excluding DIG 4917, DIG 4940, DIG 4942, DIG 4944C, and DIG 4970

Curriculum

- Digital Arts and Sciences Minor
- Digital Arts and Sciences Minor UF Online
- Digital Arts and Sciences UF Online
- Digital Arts and Sciences | Bachelor of Arts

The Bachelor of Arts in Digital Arts and Sciences (BADAS) crosses traditional college boundaries between the arts, communications, and engineering. Students will become versed in contemporary issues in social and interactive media, critical thinking and creative design solutions. The DAS graduate will gain experience working in collaborative teams on media projects including digital storytelling, animation, and game design including serious and applied games.

Department Requirements

In addition to meeting university-level requirements, students seeking admission to this program must submit a portfolio of original student work, demonstrating competency in digital art and computer programming, as well as a personal statement, to the UF Digital Worlds Institute. The content and quality of these submissions, in addition to previous academic GPA, will be significant factors to determine admission into the program.

The personal statement refers to an original document created by the applicant that details interests, motivations and rationale for seeking program admission. The statement should be one to two pages in length and demonstrate a serious intent to pursue the program and the writing ability appropriate for admission as an upper-division student at a major American university.

Portfolio materials refer to a body of original creative or technical work authored, documented and presented in a contemporary digital format. The portfolio will contain examples of the applicant's best original work including digital art and programming completed before seeking admission to the BADAS program.

The portfolio is due by March 15 of the sophomore year for admission into upper-division coursework. Students may not take 3000/4000-level DIG courses without submission of the portfolio.

Students must complete all critical-tracking courses with minimum grades of C in each course and the minimum critical-tracking GPA must be 2.5. Students who do not meet these requirements will be placed on academic probation and required to prepare a probation contract with an advisor. Students normally are given two terms in which to remove their deficit points; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the program.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 11 critical-tracking courses: ARH 2000; DIG 2121; DIG 2632; DIG 3097; DIG 3525C; DIG 3526C; DIG 3873; DIG 3588C; DIG 4841; DIG 4970; or MAC 1140 with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 2

- Complete 2 additional critical-tracking courses with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 3

- Complete 2 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 4

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 5

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

SEMESTER 6

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

SEMESTER 7

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

SEMESTER 8

- Complete remaining critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The BA in Digital Arts and Sciences (BADAS) crosses college boundaries between communications, engineering and the arts. Students will become versed in contemporary issues in social and interactive media, critical thinking and creative design solutions. The BADAS graduate will gain experience working in collaborative teams on media projects, including serious and applied games, live digital performances, and virtual worlds.

Before Graduating Students Must

- Pass assessment of performance on a major design experience, according to department grading rubric.
- Pass assessment in one or more core courses or individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of multimedia, human-computer interaction, graphics, and simulation to application domains.
2. Conceptualize, design, and develop a creative digital project.

Critical Thinking

3. Successfully solve the problems and engage in the systems thinking necessary to develop contemporary interactive digital media.
4. Critically evaluate contemporary digital media and digital techniques in the creation of digital art.

Communication

5. Communicate and collaborate successfully in a team environment comprised of artists, designers and application developers.

SEMESTER 7

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

SEMESTER 8

- Complete remaining critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ARH 2000	Art Appreciation: American Diversity and Global Arts (**Critical Tracking**; State Core Gen Ed Humanities)	3
DIG 2005	Introduction to Digital Technologies	3
DIG 2021	Foundations of Digital Culture	3
DIG 2632	Introduction to Game Design & Development (**Critical Tracking**)	3
Gen Ed Composition		3

DIG 4942	Undergraduate Course Assistant	0-3
DIG 4944C	Production Practicum	0-3

Academic Learning Compact

The BA in Digital Arts and Sciences (BADAS) crosses college boundaries between communications, engineering and the arts. Students will become versed in contemporary issues in social and interactive media, critical thinking, and creative design solutions. The BADAS graduate will gain experience working in collaborative teams on media projects, including serious and applied games, live digital performances, and virtual worlds.

Before Graduating Students Must

- Pass assessment of performance on a major design experience, according to department grading rubric.
- Pass assessment in one or more core courses or individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of multimedia, human-computer interaction, graphics, and simulation to application domains.
2. Conceptualize, design, and develop a creative digital project.

Critical Thinking

3. Successfully solve the problems and engage in the systems thinking necessary to develop contemporary interactive digital media.
4. Critically evaluate contemporary digital media and digital techniques in the creation of digital art.

Communication

5. Communicate and collaborate successfully in a team environment comprised of artists, designers and application developers.

Graphic Design

The Bachelor of Fine Arts in Graphic Design is a professional degree that prepares students for careers in communication (graphic) design and related fields. Graphic design is highly contextual, inherently interdisciplinary, and shapes our everyday experience and identity. The intention of the program is to train emerging designers to research, conceptualize, strategize, create, disseminate, and assess affect and efficacy of their varied deliverables in context.

About this Program

- **College:** Arts (p. 405)
- **Degree:** Bachelor of Fine Arts in Graphic Design
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Art + Art History nurtures a culture of critical inquiry in scholarly and creative work. The school empowers each individual with knowledge, skills, and insight to engage thoughtfully with the changing world.

Curriculum

- Art Education Certificate
- Art History
- Art History Minor
- Art Minor
- Art | BA
- Art | BFA
- Ceramics Certificate
- Graphic Design

The program offers general education in graphic design to provide fundamental skill sets and build a range of design and related capacities. At the upper division, more in-depth study and practice allows students to hone their skill sets towards their specific interests. Working together in the studio allows students to design better, foster collaboration skills that support their development as designers and leaders. Students collaborate in their designated design studio/collaborative coworking space.

Graphic design is not neutral. Specifically, the graphic design curriculum centers on preparing designers to design for people in context and consider issues of access, equity, and inclusion. Students are encouraged to bring their full selves to the program and hold opinions and perspectives on the individual and collective roles and responsibilities of designers, and design as a discipline.

Graduates of the program begin their careers in a range of disciplines and industries. These include UI/UX, art/creative direction, information design, editorial design, design strategy, and work in design agencies, in-house corporate design offices, and design consultancies. Many alumni also start their own design studios. In addition, alumni are in leadership roles nationally and internationally — in design and beyond.

The degree program in graphic design prepares students for professional work in an expanded communication design field. The curriculum emphasizes design process, concept development strategies, visual systems, technologies, professional development, working with people in context and results in a working portfolio for entry level careers in design.

All students must lease, purchase, or otherwise obtain a computer system upon enrollment in their first design course. Specific system requirements are available from the school or the program's website.

All coursework required for the major must be completed with minimum grades of C.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete GRA 2111C and GRA 1113C for a total of 6 credits with minimum grades of C
- 2.0 UF GPA required

SEMESTER 2

- Complete ART 1803C and GRA 1831C with minimum grades of C
- 2.50 UF GPA required

SEMESTER 3

- Complete GRA 2208C with a minimum grade of C
- Complete a major elective: any 2000-level course with a GRA / ARH / ART / ARE / PGY / DIG prefix with a minimum grade of C
- Complete any ARH 2000-level survey course, except ARH 2000, with a minimum grade of C
- 2.75 UF GPA required

SEMESTER 4

- Complete any ARH 2000-level survey course, except ARH 2000, with a minimum grade of C
- Complete a major elective: any 2000-level course with a GRA / ARH / ART / ARE / PGY / DIG prefix with a minimum grade of C
- 3.0 UF GPA required

SEMESTER 5

- Complete critical-tracking courses (upper division) GRA 3209C, GRA 3193C, and ENC 2256 with minimum grades of C
- 3.0 UF GPA required

SEMESTER 6

- Complete critical-tracking courses (upper division) GRA 3194C and GRA 3198C with minimum grades of C
- 3.0 UF GPA required

SEMESTER 7

- Complete critical-tracking courses (upper division) GRA 4196C and GRA 4197C with minimum grades of C
- 3.0 UF GPA required

SEMESTER 8

- Complete critical-tracking courses (upper division) GRA 4187C and GRA 4186C with minimum grades of C
- 3.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

	Credits	**15**
	Total Credits	**120**

Academic Learning Compact

The Bachelor of Fine Arts in Graphic Design enables students to achieve proficiency in the principles and practices utilized by professional designers and affiliated industries. Through the study of art theory, art history, and historic and contemporary art, students gain knowledge of design genres and systems of thought. Emphasis is on development of the concepts and skills related to graphic design and the development of a personal artistic idiom. Students will learn to use research practices effectively and to discuss the development of their work in speech and in writing.

Before Graduating Students Must

- Pass a particular test, a final project, a term paper and/or a portfolio, as determined by a particular major.
- Pass a senior-level capstone course that includes a portfolio exhibition of the student's work, evaluated by appropriate faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Design visual form in response to communication problems.
2. Exhibit principles of visual organization/composition, information hierarchy, symbolic representation, typography, aesthetics, and the construction of meaningful images.
3. Exhibit appropriate use tools and technology, including their roles in the creation, reproduction, and distribution of visual messages.

Critical Thinking

4. Exhibit the ability to describe and respond to the audiences and contexts which communication solutions must address, including recognition of the physical, cognitive, cultural, and social human factors that shape design decisions.

Communication

5. Produce solutions to communication problems, including the skills of problem identification, research and information gathering, analysis, generation of alternative solutions, prototyping, and evaluation of outcomes.

Graphic Design Minor

The Graphic Design minor meets the needs of students who wish to add a graphic and communication design component to their current degree program to better understand and use these processes and practices to create effective graphic design and communication works.

About this Program

- **College:** Arts (p. 405)
- **Credits:** 18 | Completed with minimum grades of B

School Information

The School of Art + Art History nurtures a culture of critical inquiry in scholarly and creative work. The school empowers each individual with knowledge, skills, and insight to engage thoughtfully with the changing world.

- Art History Minor
- Art Minor
- Art | BA
- Art | BFA
- Ceramics Certificate
- Graphic Design

This minor is available to majors in Art or Art History within the School of Art + Art History.

The curriculum guides students toward coursework the graphic design faculty considers essential to gain a better understanding of graphic design thinking, processes, methods, and practices in order to create effective graphic and communication design works. Students who complete this minor will have a focused skillset to better communicate visually.

Interested students must meet with the School of Art + Art History undergraduate advisor for more information, course planning, and to apply. Formal Minor applications should be made after completion of the 1/2000-level coursework.

- 12 of the 18 total credits and all 3000-level coursework must be taken at UF.
- All 1/2000-level coursework must be taken before upper-division coursework.

Required Coursework

Code	Title	Credits
GRA 1113C	Design Studies [1]	3
GRA 1831C	Design Technologies [1]	3
GRA 2111C	Visual Methods and Processes [1]	3
GRA 2208C	Typography 1: Letterform [1]	3
Any 3000/4000-level GRA course that is not designated solely for BFA Graphic Design majors. [2]		6
Total Credits		**18**

1 It is recommended these courses be taken before the end of the sophomore year.
2 Students should take these courses in their junior and senior years.

Jazz Studies Minor

The Jazz Studies minor provides access to commercial music skills that are vital to participating in today's music industry. Courses provide critical musical training in the styles of swing, latin, rock, funk, pop, bebop, etc. They also target a theoretical understanding of jazz harmony, chord symbols, jazz scales and modes, jazz articulations, blues forms, piano voicings, the basics of tune writing, commercial arranging, and techniques for memorizing jazz standards.

About this Program

Requirements

- Students must pass the Jazz Theory Proficiency Exam with a minimum grade of B. Students who receive a grade of B- or below will be permitted to study suggested materials and re-take the proficiency exam the following semester. Students will be allowed only one attempt per semester to take and pass the exam.
- A passing grade of B is required for all courses in the minor. If the student does not achieve the minimum grade requirement in every course for the minor within two attempts, they will not be eligible to continue the minor.
- Students may take Jazz Band at any time after completing a successful audition.
- Students should contact the undergraduate advisor before enrolling in coursework.

[1] May be repeated for credit. Requires Exit Exam with performance of eight standard tunes from memory to count toward the minor.

Music Business and Entrepreneurship

The Bachelor of Science in Music Business and Entrepreneurship blends business, entrepreneurship, and music, with a focus on music production and multimedia techniques. This program equips students for the multimodal, creative economy, preparing them for careers across digital and physical commerce in the music industry, fostering versatility in both traditional and emerging markets.

The Bachelor of Science in Music Business & Entrepreneurship is meticulously crafted to offer students a holistic and in-depth understanding of the music industry, combining theoretical knowledge with practical, hands-on experience. Through a carefully curated curriculum, students delve into a variety of courses such as Strategic Music Entrepreneurship Development, Foundations of Music Business, Digital Musicianship and Production, and Music Production in Commercial Media. Additional coursework in Multimedia Production for the Music Industry, Commercial Music Courses and Ensembles, and cutting-edge AI Courses in Music further enrich the students' learning experience. These courses are designed not only to impart essential knowledge but also to inspire innovation and creativity in the field.

Emphasizing experiential learning, the program connects students with real-world practice, allowing them to engage directly with the music industry through Music Internship Ensembles and projects that explore the Social Impact of Music Entrepreneurs. The curriculum culminates in the capstone courses, where students fortify their business plans, integrating all they have learned into a cohesive, practical business strategy. This focus on experiential learning ensures that students can tailor their educational journey to their specific vocational interests, applying the knowledge and skills acquired to carve out unique career paths in the music industry. In fostering a direct connection between classroom learning and industry

practice, the program equips students with the tools they need to navigate and succeed in the multimodal creative economies of music business and entrepreneurship.

The University of Florida is accredited by the National Association of Schools of Music (NASM) and the Southern Association of Colleges and Schools (SACS).

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete MUT 1111 and MUT 1241L with minimum grades of C
- Complete MVK 1111 with a minimum grade of C
- Complete MUN 1000- or 2000-level Ensemble with a minimum grade of C
- 2.0 UF GPA required

Semester 2

- Complete MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C
- Complete MUN 1000- or 2000-level Ensemble with a minimum grade of C
- 2.0 UF GPA required

Semester 3

- Complete (MUT 2116 and MUT 2246L) or (MUT 1361L and MUT 2213L), all with minimum grades of C
- Complete MVK 2221 or MVK 2175L with a minimum grade of C
- Complete MUN 1000- or 2000-level Ensemble with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete (MUT 2117 and MUT 2247L) or (MUT 1362L and MUT 2215L), all with minimum grades of C
- Complete MVK 2222 with a minimum grade of C
- Complete MUN 1000- or 2000-level Ensemble with a minimum grade of C
- 2.0 UF GPA required

Semester 5

- 2.0 UF GPA required

Semester 6

- 2.0 UF GPA required

[1] Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the Spring, followed by MUT 1112 and MUT 1242L in the Summer.

Music Business and Entrepreneurship Certificate

Successful completion of the Music Business and Entrepreneurship Certificate leads to thorough understanding, pragmatic training, and readiness for a viable career in multiple sectors of the global music industry. This program augments vocational opportunities and expectations, enriches training, and increases employability within music business and entrepreneurship professional paradigms.

About this Program

- **Colleges:** Arts (p. 405)
- **Credits:** 12 | Completed with a 3.0 Certificate GPA
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

School Information

Recognizing the value of music to our culture, society, and individual experience, the School of Music at the University of Florida is committed to the teaching and development of musicians, music educators, and scholars. As a vital component of one of the leading AAU research universities in the nation, the School of Music fully encourages scholarly research, creative activity, and interdisciplinary studies across all undergraduate and graduate degree programs.

- Music in Medicine Certificate
- Music Performance Certificate
- Music Performance Minor | Instrumental or Voice
- Music Theory Minor
- Music | Bachelor of Arts
- Music | Bachelor of Music

Music Education programs are available in choral and instrumental. More than one-half of the students in the School of Music are preparing for careers as music teachers in elementary or secondary schools. In addition, undergraduates interested primarily in performance careers often take advantage of the teacher-preparation curriculum, which fulfills the educational requirements for Florida teaching certification in grades K-12. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Academic Learning Compact

The Bachelor of Music in Music Education prepares students to become musicians and music teachers in a K-12 instructional setting. Through studies in conducting, rehearsal planning, teaching techniques, and theory, applied performance, music literature and history, and piano, students will be able to structure and apply music for meaningful and effective music class and ensemble instruction.

Before Graduating Students Must

- Pass the General Knowledge Test and the Music (K-12) Subject Area Test of the Florida Teacher Certification Examination.
- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply pedagogical content knowledge necessary to effectively teach K-12 music classes and ensembles as an entry-level educator.

Critical Thinking

2. Consistently and accurately make instructional decisions using a variety of assessment data.

Communication

3. Communicate, verbally and in writing, regarding music, pedagogy, and other aspects of music learning to diverse educational stakeholders.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete MUE 2470, MUS 2211, MUS 2241, and MVK 1111 with minimum grades of C
- Complete MUN 1000 with a minimum grade of C

- Complete MUS 1010 with a grade of S
- Complete MUT 1001 or (MUT 1111 and MUT 1241L) with minimum grade of C
- Complete 2 credits of MVV 1411 with a minimum grade of C
- 2.5 UF GPA required

Semester 2

- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MUE 1090, MUE 2430, MUS 2221, MUS 2231, and MVK 1112 with minimum grades of C
- Complete 2 additional credits of MVV 1411 with a minimum grade of C
- 2.5 UF GPA required

Semester 3

- Complete MUE 2040, MUE 2450, MUT 2116, MUT 2246L, and MVK 2221 with minimum grades of C
- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete 2 credits of MVV 2421 with a minimum grade of C
- 2.5 UF GPA required

Semester 4

- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MUT 2117, MUT 2247L, and MVK 2222 with minimum grades of C
- Complete 2 additional credits of MVV 2421 with a minimum grade of C
- 2000-level Performance Jury
- Comprehensive Musicianship Exam
- 2.5 UF GPA required

Semester 5

- Complete MUE 3311, MUG 4104, MVV 3431, MUH 3211, MUN 3000 Level Ensemble with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.5 UF GPA required

Semester 6

- Complete MUH 3212, MVV 3431, MVV 3970, MUN 3000 Level Choral Ensemble, MUE 3330, MUG 4202 with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.5 UF GPA required

Semester 7

- Complete MUT 3321, MUE 4421 with minimum grades of C
- 2.5 UF GPA required

Semester 8

- Complete MUE 4940 and MUE 4140 with minimum grades of C
- 2.5 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
MUE 2470	Percussion Skills (**Critical Tracking**)	1

1 Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the Spring, followed by MUT 1112 and MUT 1242L in the Summer.
2 Students can either complete MUH 2501 or any MUH 3000/4000 level course.

All students are required to pass the Florida Teacher Certification Exam (FTCE) general knowledge test by end of the sophomore year.

For the BMusEd, students must complete at least 50 major and elective credits at the 3000/4000 levels.

Remaining portions of the FTCE and an online portfolio showing evidence of the Florida Accomplished Practices as prescribed by the Florida Department of Education must be completed prior to student teaching.

Academic Learning Compact

The Bachelor of Music in Music Education prepares students to become musicians and music teachers in a K-12 instructional setting. Through studies in conducting, rehearsal planning, teaching techniques, and theory, applied performance, music literature and history, and piano, students will be able to structure and apply music for meaningful and effective music class and ensemble instruction.

Before Graduating Students Must

- Pass the General Knowledge Test and the Music (K-12) Subject Area Test of the Florida Teacher Certification Examination.
- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

1 Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the Spring, followed by MUT 1112 and MUT 1242L.
2 All instruments except for strings; strings should select 3 credits of applied study on a secondary string instrument.
3 All students can either complete MUH 2501 or any MUH 3000/4000 level course.

All students are required to pass the Florida Teacher Certification Exam (FTCE) general knowledge test by end of the sophomore year.

For the BMusEd, students must complete at least 50 major and elective credits at the 3000/4000 levels.

Remaining portions of the FTCE and an online portfolio showing evidence of the Florida Accomplished Practices as prescribed by the Florida Department of Education must be completed prior to student teaching.

Music education majors must take one semester of Marching Band (wind and percussion).

Academic Learning Compact

The Bachelor of Music in Music Education prepares students to become musicians and music teachers in a K-12 instructional setting. Through studies in conducting, rehearsal planning, teaching techniques, and theory, applied performance, music literature and history, and piano, students will be able to structure and apply music for meaningful and effective music class and ensemble instruction.

Before Graduating Students Must

- Pass the General Knowledge Test and the Music (K-12) Subject Area Test of the Florida Teacher Certification Examination.
- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply pedagogical content knowledge necessary to effectively teach K-12 music classes and ensembles as an entry-level educator.

Critical Thinking

2. Consistently and accurately make instructional decisions using a variety of assessment data.

Communication

3. Communicate, verbally and in writing, regarding music, pedagogy, and other aspects of music learning to diverse educational stakeholders.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Music Education Certificate

The Music Education Certificate serves musicians whose undergraduate music degree programs did not include an education component, but who have decided that they would like to become Florida public school music teachers. Completion of this certificate program, and required state tests, results in qualification for Educator Certification in Music (Grades K-12) through the Florida Department of Education.

About this Program

- **Colleges:** Arts (p. 405) and Education (p. 696)
- **Credits:** 24 | Completed with minimum grades of C
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

School Information

Recognizing the value of music to our culture, society, and individual experience, the School of Music at the University of Florida is committed to the teaching and development of musicians, music educators, and scholars. As a vital component of one of the leading AAU research universities in the nation, the School of Music fully encourages scholarly research, creative activity, and interdisciplinary studies across all undergraduate and graduate degree programs.

Programs are available in Entrepreneurship, Event Management, Music, Music History and Literature, Music History and Literature with emphasis in Ethnomusicology, and Music Theory and Composition. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Foreign Language

Students must take 10 credits of foreign language or show a minimum proficiency in a single language by taking a placement test. If the proficiency is met, it does not reduce the 120 credits required for the degree. Foreign language courses can be taken S/U or for a letter grade, and the minimum grade is a C. Foreign language credit cannot be obtained through CLEP examinations.

All students pursuing the BA must consult a department advisor and get approval before attempting the elective portion of this program.

Academic Learning Compact

The Bachelor of Arts in Music provides a liberal arts education with an emphasis in Ethnomusicology, Music History and Literature, Music Theory and Composition, or Performance. Studies in music theory, applied performance, music literature, music history, and piano, provide knowledge of the structure and expression of music within the historical context of musical genres. Students will also be able to apply their knowledge through singing or performing a musical instrument and they will be able to apply critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Perform at a preprofessional level on an instrument or voice.

Critical Thinking

2. Utilize theoretical analysis of music.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1111 and MUT 1241L with a minimum grade of C
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 141_) Performance Principal coursework with minimum grade of C
- Voice emphasis only must take MUS 2211 and MUS 2241
- 2.0 UF GPA required

Semester 2

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360 and MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
- Voice emphasis only must take MUS 2221 and MUS 2231
- 2.0 UF GPA required

Semester 3

- Complete MUN 1000 and MUT 2116 and MUT 2246L with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 242_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete MUN 1000 and MUT 2117 and MUT 2247L with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
- Comprehensive Musicianship Jury
- 2000-level Performance Jury
- 2.0 UF GPA required

Semester 5

- Complete 3 credits of (MV_ 343_) Performance Principal with a minimum grade of C
- Complete MUH 3211 and MUN 3000 Level Ensemble with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 6

- Complete MUH 3212, MUN 3000 Level Ensemble, MV_ 343_, and MV_ 3970 with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 7

- 2.0 UF GPA required

Semester 8

- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
MUN Ensemble (**Critical Tracking**; 1000 level) [1]		1
MUS 1010	Recital Attendance (**Critical Tracking**)	0

Elective		3
	Credits	**15**
	Total Credits	**120**

1 Keyboard emphasis must take MVK 3702.
2 Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the Spring, followed by MUT 1112 and MUT 1242L in the Summer.
3 Students can either complete MUH 2501 or any MUH 3000/4000 level course.

For the BA with concentration in Music, students must complete at least 35 major and elective credits at the 3000/4000 levels.

Academic Learning Compact

The Bachelor of Arts in Music provides a liberal arts education with an emphasis in Ethnomusicology, Music History and Literature, Music Theory and Composition, or Performance. Studies in music theory, applied performance, music literature, music history, and piano, provide knowledge of the structure and expression of music within the historical context of musical genres. Students will also be able to apply their knowledge through singing or performing a musical instrument and they will be able to apply critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Perform at a preprofessional level on an instrument or voice.

Critical Thinking

2. Utilize theoretical analysis of music.

Communication

3. Write about music within different historical and cultural contexts.

Curriculum

- Combination Degrees
- Jazz Studies Minor
- Music Business and Entrepreneurship
- Music Business and Entrepreneurship Certificate

- Music Education
- Music History | Ethnomusicology Minor
- Music in Medicine Certificate
- Music Performance Certificate
- Music Performance Minor | Instrumental or Voice
- Music Theory Minor
- Music | Bachelor of Arts
- Music | Bachelor of Music

Programs are available in Entrepreneurship, Event Management, Music, Music History and Literature, Music History and Literature with emphasis in Ethnomusicology, and Music Theory and Composition. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Foreign Language

Students must take 10 credits of foreign language or show a minimum proficiency in a single language by taking a placement test. If the proficiency is met, it does not reduce the 120 credits required for the degree. Foreign language courses can be taken S/U or for a letter grade, and the minimum grade is a C. Foreign language credit cannot be obtained through CLEP examinations.

All students pursuing the BA must consult a department advisor and get approval before attempting the elective portion of this program.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1111 and MUT 1241L with a minimum grade of C
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 141_) Performance Principal coursework with minimum grade of C
- Voice emphasis only must take MUS 2211 and MUS 2241
- 2.0 UF GPA required

Semester 2

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360 and MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
- Voice emphasis only must take MUS 2221 and MUS 2231
- 2.0 UF GPA required

Semester 3

- Complete MUN 1000 and MUT 2116 and MUT 2246L with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 242_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete MUN 1000 and MUT 2117 and MUT 2247L with minimum grades of C
- Complete MUS 1010 with a grade of S

- Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
- Comprehensive Musicianship Jury
- 2000-level Performance Jury
- 2.0 UF GPA required

Semester 5

- Complete 3 credits of (MV_ 343_) Performance Principal with a minimum grade of C
- Complete MUH 3211 and MUN 3000 Level Ensemble with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 6

- Complete MUH 3212, MUN 3000 Level Ensemble, MV_ 343_, and MV_ 3970 with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 7

- 2.0 UF GPA required

Semester 8

- 2.0 UF GPA required

Academic Learning Compact

The Bachelor of Arts in Music provides a liberal arts education with an emphasis in Ethnomusicology, Music History and Literature, Music Theory and Composition, or Performance. Studies in music theory, applied performance, music literature, music history, and piano, provide knowledge of the structure and expression of music within the historical context of musical genres. Students will also be able to apply their knowledge through singing or performing a musical instrument and they will be able to apply critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Perform at a preprofessional level on an instrument or voice.

Critical Thinking

2. Utilize theoretical analysis of music.

Communication

3. Write about music within different historical and cultural contexts.

Curriculum

- Combination Degrees
- Jazz Studies Minor
- Music Business and Entrepreneurship
- Music Business and Entrepreneurship Certificate
- Music Education
- Music History | Ethnomusicology Minor
- Music in Medicine Certificate
- Music Performance Certificate
- Music Performance Minor | Instrumental or Voice
- Music Theory Minor
- Music | Bachelor of Arts
- Music | Bachelor of Music

Programs are available in Entrepreneurship, Event Management, Music, Music History and Literature, Music History and Literature with emphasis in Ethnomusicology, and Music Theory and Composition. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Foreign Language

Students must take 10 credits of foreign language or show a minimum proficiency in a single language by taking a placement test. If the proficiency is met, it does not reduce the 120 credits required for the degree. Foreign language courses can be taken S/U or for a letter grade, and the minimum grade is a C. Foreign language credit cannot be obtained through CLEP examinations.

All students pursuing the BA must consult a department advisor and get approval before attempting the elective portion of this program.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1111 and MUT 1241L with minimum grades of C
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)

- Complete 2 credits of (MV_ 141_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

Semester 2

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360 and MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

Semester 3

- Complete MUS 1010 with a grade of S
- Complete MUT 2116 and MUT 2246Lwith minimum grades of C
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
- 2.0 UF GPA required

Semester 4

- Complete MUS 1010 with a grade of S
- Complete MUT 2117 and MUT 2247L with minimum grades of C
- Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
- Comprehensive Musicianship Jury
- 2.0 UF GPA required

Semester 5

- Complete MUH 3211 and MUL/MUH 3000/4000 with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 6

- Complete MUH 3212 and MUL/MUH 3000/4000 with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 7

- Complete MUL/MUH 3000/4000 with a minimum grade of C
- 2.0 UF GPA required

Semester 8

- Complete MUS 4905 and MUL/MUH 3000/4000 with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Gen Ed Biological or Physical Sciences		3
Gen Ed Social and Behavioral Sciences		3
Elective		3
	Credits	**12**
	Total Credits	**120**

1 Theory majors do not take composition skills and should add four credits of MUT electives.
2 Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the Spring, followed by MUT 1112 and MUT 1242L in the Summer.

For the BA with concentration in Theory and Composition, students must complete at least 35 major and elective credits at the 3000/4000 levels.

Academic Learning Compact

The Bachelor of Arts in Music provides a liberal arts education with an emphasis in Ethnomusicology, Music History and Literature, Music Theory and Composition, or Performance. Studies in music theory, applied performance, music literature, music history, and piano, provide knowledge of the structure and expression of music within the historical context of musical genres. Students will also be able to apply their knowledge through singing or performing a musical instrument and they will be able to apply critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Perform at a preprofessional level on an instrument or voice.

Critical Thinking

2. Utilize theoretical analysis of music.

Communication

3. Write about music within different historical and cultural contexts.

Music | Bachelor of Music

The Bachelor of Music curriculum is intended for students who plan to enter professional music careers, graduate study in music, or private studio teaching.

About this Program

- **College:** Arts (p. 405)
- **Degree:** Bachelor of Music
- **Credits for Degree:** 120
- **Specializations:** Music in Combination with an Outside Field (p. 513) | Music Composition (p. 508) | Performance: Instrumental (p. 521) | Performance: Vocal (p. 526) | Music Theory (p. 517)

To graduate with this major, students must complete all university, college, and major requirements.

School Information

Recognizing the value of music to our culture, society, and individual experience, the School of Music at the University of Florida is committed to the teaching and development of musicians, music educators, and scholars. As a vital component of one of the leading AAU research universities in the nation, the School of Music fully encourages scholarly research, creative activity, and interdisciplinary studies across all undergraduate and graduate degree programs.

Curriculum

- Combination Degrees
- Jazz Studies Minor
- Music Business and Entrepreneurship
- Music Business and Entrepreneurship Certificate
- Music Education
- Music History | Ethnomusicology Minor
- Music in Medicine Certificate
- Music Performance Certificate
- Music Performance Minor | Instrumental or Voice
- Music Theory Minor
- Music | Bachelor of Arts
- Music | Bachelor of Music

Music programs are available in music in combination with an outside field, music composition, music theory, music performance: instrumental (brass, keyboard, percussion, strings, winds) and music performance: vocal. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Academic Learning Compact

The Bachelor of Music enables students to enter a professional career in music, to teach music privately and to achieve proficiency in a performance area such as composition, instrumental or voice. With study in theory, music literature, music history, piano and applied instruction, students learn the structure and expression of music and the historical context of musical genres. Through applied study, students develop advanced skills and can apply this knowledge through singing, performing on a musical instrument or composing a musical work and they can apply advanced critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete MUC 1211, MUT 1111, and MUT 1241L with minimum grades of C
- Complete MUN 1000 with a minimum grade of C (piano emphasis must take MVK 3702)
- Complete MUS 1010 with a grade of S
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 141_) Performance Principal with a minimum grade of C
- Voice emphasis only must complete MUS 2211 and MUS 2241
- 2.0 UF GPA required

Semester 2

- Complete MUC 1212, MUS 1360, MUT 1112, and MUT 1242L with minimum grades of C
- Complete MUN 1000 with a minimum grade of C (piano emphasis must take MVK 3702)
- Complete MUS 1010 with a grade of S

- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
- Voice emphasis only must complete MUS 2221 and MUS 2231
- 2.0 UF GPA required

Semester 3

- Complete MUC 2101, MUT 2116, MUT 2246L, and MUN 1000 with minimum grades of C
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 242_) Performance Principal with a minimum grade of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 4

- Complete MUC 2102, MUT 2117, MUT 2247L, and MUN 1000 with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
- 2000-level Performance Jury
- 2.0 UF GPA required

Semester 5

- Complete MUH 3211, MUT 3611, MUN Ensemble (3000 level), MUT 4401, MUC 4313, MUC 3231, MV_ 343_ with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 6

- Complete MUH 3212, MUT 3612, MUT 4402, MUC 3232, MV_ 343_, MV_ 3970, MUN 3000 Level Ensemble with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 7

- Complete MUG 4104, MUC 4241, MUT 3321, MUN 3000 Level Ensemble with minimum grades of C
- 2.0 UF GPA required

Semester 8

- Complete MUN 3000 Level Ensemble, MUT 4601, Senior Composition Project, Senior Composition Recital with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities, if needed)		3
MUC 1211	Composition Skills 1 (**Critical Tracking**)	1
MUN Ensemble (**Critical Tracking**; 1000 level; Gen Ed Humanities, if needed) [4]		1-3
MUS 1010	Recital Attendance (**Critical Tracking**)	0
MUT 1111 Music Theory 1 and MUT 1241L Aural Skills (**Critical Tracking**) [1]		3
MVK 1111	Secondary Piano 1 (**Critical Tracking**; keyboard emphasis exempt)	1
MV_ 141_	Performance Principal (**Critical Tracking**)	2
State Core Gen Ed Composition (p. 80)		3
	Credits	**14-16**

Semester Two		
MUC 1212	Composition Skills 2 (**Critical Tracking**)	1
MUN Ensemble (**Critical Tracking**; 1000 level; Gen Ed Humanities, if needed)		1
MUS 1010	Recital Attendance (**Critical Tracking**)	0
MUS 1360	Digital Musicianship and Production (**Critical Tracking**)	3
MUT 1112 Music Theory 2 and MUT 1242L Aural Skills 2 (**Critical Tracking**) [1]		3
MVK 1112	Secondary Piano 2 (**Critical Tracking**; keyboard emphasis exempt)	1

	Credits	**14**
Semester Four		
MUC 2102	Composition Skills 4 (**Critical Tracking**)	1
MUN Ensemble (**Critical Tracking**; 1000 level, Gen Ed Humanities, if needed)		1
MUS 1010	Recital Attendance (**Critical Tracking**)	0
MUT 2117 & MUT 2247L	Music Theory 4 and Aural Skills 4 (**Critical Tracking**)	3
MVK 2222	Secondary Piano 4 (**Critical Tracking**; keyboard emphasis exempt)	1
MV_ 242_	Performance Principal (**Critical Tracking**)	2
MUH elective		3
State Core Gen Ed Social and Behavioral Sciences (p. 80) [3]		3
	Credits	**14**
Semester Five		
MUC 3231	Composition 1 (**Critical Tracking**)	3
MUC 4313	Introduction to Electroacoustic Music (**Critical Tracking**)	3
MUH 3211	Music History Survey 1 (**Critical Tracking**; Gen Ed International)	3
MUN Ensemble (**Critical Tracking**; 3000 level)		1
MUS 1010	Recital Attendance (**Critical Tracking**)	0
MUT 3321	Arranging for Voices and Instruments	3
Select one:		3
MUT 3611	Form and Analysis 1 (**Critical Tracking**)	
MUT 4401	Counterpoint 1 (**Critical Tracking**)	
MV_ 343_	Performance Principal (**Critical Tracking**)	2
	Credits	**18**
Semester Six		
MUC 3232	Composition 2 (**Critical Tracking**)	3
MUH 3212	Music History Survey 2 (**Critical Tracking**; Gen Ed International)	3
MUN Ensemble (**Critical Tracking**; 3000 level)		1
MUS 1010	Recital Attendance (**Critical Tracking**)	0
MUT 3322	Scoring for Band and Orchestra [3]	3
Select one:		3
MUT 3612	Form and Analysis 2 (**Critical Tracking**)	
MUT 4402	Counterpoint 2 (**Critical Tracking**)	
MV_ 343_	Performance Principal (**Critical Tracking**)	2
MV_ 3970	Junior Recital (**Critical Tracking**)	1
	Credits	**16**
Semester Seven		
MUC 4241	Composition 3 (**Critical Tracking**)	3
MUG 4104	Conducting 1 (**Critical Tracking**)	2
MUN Ensemble (**Critical Tracking**; 3000 level)		1

Select one:		3
MUT 3611	Form and Analysis 1 (**Critical Tracking**)	
MUT 4401	Counterpoint 1 (**Critical Tracking**)	
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
Gen Ed Social and Behavioral Sciences [3]		3
	Credits	**15**

Semester Eight

Students whose Semester Six falls in an odd year must take MUT 3322 during Semester Eight.

Select one:		3
MUT 3612	Form and Analysis 2 (**Critical Tracking**)	
MUT 4402	Counterpoint 2 (**Critical Tracking**)	
Senior composition project (**Critical Tracking**)		2
Senior composition recital (**Critical Tracking**)		1
State Core Gen Ed Humanities		3
Gen Ed Additional (Humanities, Social & Behavioral Sciences, Biological or Physical Sciences)		3
	Credits	**12**
	Total Credits	**120-122**

1 Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the Spring, followed by MUT 1112 and MUT 1242L in the Summer.
2 Piano emphasis must take MVK 3702.
3 Offered spring semester, even years only – If semester 6 falls in an odd year, MUT 3322 must be taken semester 8 instead.
4 Students requiring additional General Education Humanities courses should take in place of 3 credits of MUN ensemble.

For the BMus in Music Composition, students must complete at least 54 major and elective credits at the 3000/4000 levels.

Academic Learning Compact

The Bachelor of Music enables students to enter a professional career in music, to teach music privately and to achieve proficiency in a performance area such as composition, instrumental or voice. With study in theory, music literature, music history, piano and applied instruction, students learn the structure and expression of music and the historical context of musical genres. Through applied study, students develop advanced skills and can apply this knowledge through singing, performing on a musical instrument or composing a musical work and they can apply advanced critical thinking skills when hearing musical sounds.

1 Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the Spring, followed by MUT 1112 and MUT 1242L in the Summer.
2 Keyboard emphasis must take MVK 3702.
3 Students must take 18 of the 27 credits of outside field courses at the 3000/4000 levels and complete them with minimum grades of C.

For the BMus in Music in Combination with Outside Field, students must complete at least 45 major and elective credits at the 3000/4000 levels.

Academic Learning Compact

The Bachelor of Music enables students to enter a professional career in music, to teach music privately and to achieve proficiency in a performance area such as composition, instrumental or voice. With study in theory, music literature, music history, piano and applied instruction, students learn the structure and expression of music and the historical context of musical genres. Through applied study, students develop advanced skills and can apply this knowledge through singing, performing on a musical instrument or composing a musical work and they can apply advanced critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Perform at a preprofessional level on an instrument or voice.

Critical Thinking

2. Utilize theoretical analysis of music.

Communication

3. Write about music within different historical and cultural contexts.

Music Theory

The Bachelor of Music curriculum is intended for students who plan to enter professional music careers, graduate study in music, or private studio teaching.

About this Program

- **College:** Arts (p. 405)
- **Degree:** Bachelor of Music
- **Credits for Degree:** 120
- **Specializations:** Music in Combination with an Outside Field (p. 513) | Music Composition (p. 508) | Performance: Instrumental (p. 521) | Performance: Vocal (p. 526) | Music Theory (p. 517)

To graduate with this major, students must complete all university, college, and major requirements.

School Information

Recognizing the value of music to our culture, society, and individual experience, the School of Music at the University of Florida is committed to the teaching and development of musicians, music educators, and scholars. As a vital component of one of the leading AAU research universities in the nation, the School of Music fully encourages scholarly research, creative activity, and interdisciplinary studies across all undergraduate and graduate degree programs.

Music programs are available in music in combination with an outside field, music composition, music theory, music performance: instrumental (brass, keyboard, percussion, strings, winds) and music performance: vocal. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis students must complete MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1111 and MUT 1241L with minimum grades of C
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 141_) Performance Principal with a minimum grade of C
- Voice emphasis only must complete MUS 2211 and MUS 2241
- 2.0 UF GPA required

Semester 2

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis students must complete MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360, MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
- Voice emphasis only must complete MUS 2221 and MUS 2231
- 2.0 UF GPA required

Semester 3

- Complete MUC 1211, MUT 2116, MUT 2246L, and MUN 1000 with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 242_) Performance Principal with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete MUC 1212, MUT 2117, MUT 2247L, and MUN 1000 with minimum grades of C
- Complete MUN 1000 with minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
- 2000-level Performance Jury
- Comprehensive Musicianship Jury
- 2.0 UF GPA required

Semester 5

- Complete MUH 3211, MUT 3611 or MUT 4401, MUN Ensemble (3000 level), MV_ 343_ with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 6

- Complete MUH 3212, MUT 3612 or MUT 4402, MV_ 343__, MV_ 3970, MUN 3000 Level Ensemble with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 7

- Complete MUG 4104, MUC 4313, MUT 3321 with minimum grades of C
- 2.0 UF GPA required

Semester 8

- Complete MUS 4905, MUT 3322, MUT 4601, MUN 3000 Level Ensemble with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
MUC 1211	Composition Skills 1 (**Critical Tracking**)	1

- Complete MUS 1010 with a grade of S
- Complete MUS 1360, MUS 2221, MUS 2231, MUT 1112, MUT 1242L, and MVK 1112 with minimum grades of C
- Complete 2 additional credits of MVV 2421 with a minimum grade of C
- 2.0 UF GPA required

Semester 3

- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MUT 2116, MUT 2246L, and MVK 2221 with minimum grades of C
- Complete 2 credits of MVV 2421 with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MUT 2117, MUT 2247L, and MVK 2222 with minimum grades of C
- Complete 2 additional credits of MVV 2421 with a minimum grade of C
- 2000-level Performance Jury
- Comprehensive Musicianship Jury
- 2.0 UF GPA required

Semester 5

- Complete MUH 3212, MUN Choral Ensemble (3000 level), MUT 3611, MVK 1411, MVV 3431 with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 6

- Complete MVV 3431, MV_ 3970 , MVK 1411, MUN 3000 Level Ensemble with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 7

- Complete MUG 4104, MUL 4602, MUN 3000 Level Ensemble, MVV 4441 with minimum grades of C
- 2.0 UF GPA required

Semester 8

- Complete MUN 3000 Level Ensemble, MV_ 4971, MVV 4640, MVV 4441 with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities, if needed)		3
MUN choral ensemble (**Critical Tracking**; 1000 level; Gen Ed Humanities, if needed)		1

MUS 1010	Recital Attendance (**Critical Tracking**)	0
MUS 2211	English Diction (**Critical Tracking**)	1
MUS 2241	Italian Diction (**Critical Tracking**)	1
MUT 1111 Music Theory 1 and MUT 1241L Aural Skills 1 (**Critical Tracking**) [1]		3
MVK 1111	Secondary Piano 1 (**Critical Tracking**)	1
MVV 2421	Voice (**Critical Tracking**)	2
State Core Gen Ed Composition (p. 80)		3
	Credits	**15**
Semester Two		
MUN choral ensemble (**Critical Tracking**; 1000 level; Gen Ed Humanities, if needed)		1
MUS 1010	Recital Attendance (**Critical Tracking**)	0
MUS 1360	Digital Musicianship and Production (**Critical Tracking**)	3
MUS 2221	French Diction (**Critical Tracking**)	1
MUS 2231	German Diction (**Critical Tracking**)	1
MUT 1112 Music Theory 2 and MUT 1242L Aural Skills 2 (**Critical Tracking**) [1]		3
MVK 1112	Secondary Piano 2 (**Critical Tracking**)	1
MVV 2421	Voice (**Critical Tracking**)	2
State Core Gen Ed Social and Behavioral Sciences		3
State Core Gen Ed Mathematics (p. 80)		3
	Credits	**18**
Semester Three		
Quest 2 (Gen Ed Biological or Physical Sciences, if needed)		3
MUN choral ensemble (**Critical Tracking**; 1000 level; Gen Ed Humanities, if needed)		1
MUS 1010	Recital Attendance (**Critical Tracking**)	0
MUT 2116 Music Theory 3 (**Critical Tracking**)		2
MUT 2246L Aural Skills 3 (**Critical Tracking**)		1
MVK 2221	Secondary Piano 3 (**Critical Tracking**)	1
MVV 2421	Voice (**Critical Tracking**)	2
Gen Ed Mathematics		3
Foreign language		5
	Credits	**18**
Semester Four		
MUN choral ensemble (**Critical Tracking**; 1000 level; Gen Ed Humanities, if needed)		1
MUS 1010	Recital Attendance (**Critical Tracking**)	0
MUT 2117 Music Theory 4 (**Critical Tracking**)		2
MUT 2247L Aural Skills 4 (**Critical Tracking**)		1
MVK 2222	Secondary Piano 4 (**Critical Tracking**)	1
MVV 2421	Voice (**Critical Tracking**)	2
Foreign language		5
	Credits	**12**
Semester Five		
MUH 3211	Music History Survey 1 (**Critical Tracking**; Gen Ed International)	3
MUN choral ensemble (**Critical Tracking**; 3000 level)		1
MUS 1010	Recital Attendance (**Critical Tracking**)	0
MUT 3611	Form and Analysis 1 (**Critical Tracking**; even years only)	3
MVK 1411	Piano (**Critical Tracking**)	2
MVV 3431	Voice (**Critical Tracking**)	3
Gen Ed Social and Behavioral Sciences		3
	Credits	**15**
Semester Six		
MUH 3212	Music History Survey 2 (**Critical Tracking**; Gen Ed International)	3
MUN choral ensemble (**Critical Tracking**; 3000 level)		1
MUS 1010	Recital Attendance (**Critical Tracking**)	0
MVK 1411	Piano (**Critical Tracking**)	2
MVV 3431	Voice (**Critical Tracking**)	3
MVV 3970	Junior Recital (**Critical Tracking**)	1
Gen Ed Composition		3
State Core Gen Ed Humanities (p. 80)		3
	Credits	**16**
Semester Seven		
MUG 4104	Conducting 1 (**Critical Tracking**)	2

MUL 4602	Song Literature Seminar (**Critical Tracking**)	2
MUN choral ensemble (**Critical Tracking**; 3000 level)		1
MVV 4441	Voice (**Critical Tracking**)	3
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
Gen Ed Additional (Humanities, Social and Behavioral Sciences, Biological or Physical Sciences)		3
	Credits	**14**
Semester Eight		
MUH elective [2]		3
MUN choral ensemble (3000 level)		1
MVV 4441	Voice	3
MVV 4640	Vocal Pedagogy	3
MV_ 4971	Senior Recital	1
Elective		1
	Credits	**12**
	Total Credits	**120**

[1] Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the Spring, followed by MUT 1112 and MUT 1242L in the Summer.

For the BMus in Music Performance: Vocal, students must complete at least 41 major and elective credits at the 3000/4000 levels.

Academic Learning Compact

The Bachelor of Music enables students to enter a professional career in music, to teach music privately and to achieve proficiency in a performance area such as composition, instrumental or voice. With study in theory, music literature, music history, piano and applied instruction, students learn the structure and expression of music and the historical context of musical genres. Through applied study, students develop advanced skills and can apply this knowledge through singing, performing on a musical instrument or composing a musical work and they can apply advanced critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Perform at a preprofessional level on an instrument or voice.

Critical Thinking

2. Utilize theoretical analysis of music.

Communication

3. Write about music within different historical and cultural contexts.

Assessment Types

- Rubric from the preprofessional jury.
- Final exams.

Theatre

The Bachelor of Arts in Theatre is designed for students who want a liberal arts education with an emphasis in theatre. In addition to a broad liberal arts background, the BA provides the creative experiences of studio and performance work. Students are expected not only to master critical thinking about performance through courses such as theatre history, playwriting, and dramaturgy, but also to audition for productions or involve themselves in the creation of theatrical experiences on many levels.

The Bachelor of Arts provides broad career opportunities in several fields and an opportunity to minor in other subject areas. Examples of possible minors are English, business, or communications.

About this Program

- **College:** Arts (p. 405)
- **Degree:** Bachelor of Arts
- **Specializations:** General (p. 531) | Stage Management (p. 535) | Theatre Management (p. 540)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Theatre + Dance provides an intimate setting where students, faculty, and staff interact in constant and close collaboration. Curricular programs are suited to a range of student interests and talents, from the liberal arts BA degree to the competitive BFA and MFA professional training degrees.

Curriculum

- Dance Minor
- Dance | Bachelor of Arts
- Dance | Bachelor of Fine Arts
- Theatre
- Theatre Minor
- Theatre Performance
- Theatre Production
- Theatre Production Minor

The Bachelor of Arts degree program in theatre prepares graduates to pursue additional academic degrees or enter professional theatre, teaching, or allied fields such as communication or public relations. If they choose to pursue advanced degrees, BA graduates traditionally enter MA, JD, or PhD programs. Regardless of degree or career expectations, students complete a core of foundation courses in theatre and dance in addition to General Education courses required by the College of the Arts, the university, and the state of Florida.

Academic Learning Compact

The Bachelor of Arts in General Theatre provides a liberal arts education with an emphasis in theatre that includes creative experiences in studio and performance. Students can combine the degree with a minor in another subject area to enhance their opportunities for graduate work or entry to professional theatre, teaching, or allied fields such as communication and public relations.

Before Graduating Students Must

- Satisfactory faculty evaluation of a senior project.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Recall primary examples of the history, literature, structure, and theory of theatre.

Critical Thinking

2. Apply problem-solving strategies to artistic processes.

Communication

3. Communicate in advanced written and oral form on both analytical and artistic levels.

The Bachelor of Arts degree program in Theatre prepares graduates to pursue additional academic degrees or enter professional theatre, teaching, or allied fields such as communication or public relations. If they choose to pursue advanced degrees, BA graduates traditionally enter MA, JD, or PhD programs. Regardless of degree or career expectations, students complete a core of foundation courses in theatre and dance in addition to General Education courses required by the College of the Arts, the university, and the state of Florida.

A minimum of 120 semester credits is required to complete the BA General Theatre degree. An outside elective is any course taken outside of the major. Unless an approved minor is included, 18 credits of electives must be chosen from 3000/4000-level courses outside of the School of Theatre + Dance. Transfer students with AA degrees must complete additional courses in the basic distribution, which includes General Education requirements. Students must earn minimum grades of C in each of these courses and they may not be taken S/U.

Students must take 10 credits of foreign language or show a minimum proficiency in a single foreign language by taking a placement test. If the proficiency is met, it does not reduce the number of credits required for the degree. Foreign language may be taken S/U or for a letter grade, and the minimum grade is C; no credit is given through CLEP examinations.

All students pursuing the BA degree must consult the department advisor and get approval before attempting the elective portion of this program.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 7 critical-tracking courses with minimum grades of C: THE 2000, TPA 1012, TPA 4601 or TPA 3504, THE 4481, TPP 2110, TPP 3103, TPP 3650
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

Semester 5

- Complete 1 of 5 upper division critical-tracking courses with minimum grade of C: THE 4110, THE 4111, THE 4970, Content Creation elective, Theatre Studies elective
- 2.0 UF GPA required

Semester 6

- Complete 1 additional upper division critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

Semester 7

- Complete 1 additional upper division critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

Semester 8

- Complete all remaining upper-division tracking courses with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Students must complete at least 50 credits at the 3000/4000 levels.
An upper division elective is any 3000/4000 level course. At least 18 credits of upper division electives must be from courses outside of the SoTD. Lower division courses (including suggested 1000/2000 electives listed below) can be accepted if they are part of an approved minor.

Students must maintain a 2.0 GPA.

Students should enroll in TPA 4931 the same semesters they are enrolled in TPA 4946.

Academic Learning Compact

The Bachelor of Arts in Theatre | Stage Management is designed for students who want a liberal arts education with an emphasis in theatre. In addition to a broad liberal arts background, the BA Stage Management specialization provides opportunities on theatre and dance productions. Students are expected to master critical thinking through courses such as theatre history, stage management seminar, and production practicum.

Students can combine the degree with a minor in another subject area (examples include Event Management or Business Administration) to enhance individual development for graduate work, entry into the live entertainment industry, teaching, or allied fields.

BEFORE GRADUATING STUDENTS MUST

- Complete satisfactory evaluation of a senior project.
- Complete requirements for the baccalaureate degree, as determined by faculty.

STUDENTS IN THE MAJOR WILL LEARN TO

Student Learning Outcomes | SLOs

Content

1. Acquire technical skills requisite for individual and collaborative artistic self-expression.

Critical Thinking

2. Demonstrate working knowledge of the life-cycle of productions, including but not limited to pre-production, rehearsals, technical rehearsals, and performances.
3. Synthesize knowledge from multiple production competencies, including but not limited to direction, performance, design, technology, critical analysis, historical and cultural perspectives, communication, and knowledges outside of live entertainment in support of effective problem solving.
4. Demonstrate leadership, time management, organizational, and artistic responsibilities of a stage manager and deck stage manager during each phase of production.

Communication

5. Communicate effectively through written and oral form in artistic, technical, and cultural contexts.
6. Develop and present a portfolio of production related work with an emphasis in stage management for theatre and dance projects.

Theatre Management

The Bachelor of Arts in Theatre is designed for students who want a liberal arts education with an emphasis in theatre. In addition to a broad liberal arts background, the BA provides the creative experiences of studio and performance work. Students are expected not only to master critical thinking about performance through courses such as theatre history, playwriting, and dramaturgy, but also to audition for productions or involve themselves in the creation of theatrical experiences on many levels.

The Bachelor of Arts provides broad career opportunities in several fields and an opportunity to minor in other subject areas. Examples of possible minors are English, business, or communications.

About this Program

- **College:** Arts (p. 405)
- **Degree:** Bachelor of Arts
- **Specializations:** General (p. 531) | Stage Management (p. 535) | Theatre Management (p. 540)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Theatre + Dance provides an intimate setting where students, faculty, and staff interact in constant and close collaboration. Curricular programs are suited to a range of student interests and talents, from the liberal arts BA degree to the competitive BFA and MFA professional training degrees.

Curriculum

- Dance Minor
- Dance | Bachelor of Arts
- Dance | Bachelor of Fine Arts
- Theatre
- Theatre Minor
- Theatre Performance
- Theatre Production
- Theatre Production Minor

The Bachelor of Arts degree program in Theatre prepares graduates to pursue additional academic degrees or enter professional theatre, teaching, or allied fields such as communication or public relations. If they choose to pursue advanced degrees, BA graduates traditionally enter MA, JD, or PhD programs. Regardless of degree or career expectations, students complete a core of foundation courses in theatre and dance in addition to General Education courses required by the College of the Arts, the university, and the state of Florida.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 11 critical-tracking courses with minimum grades of C: THE 2000 and TPP 2110
- 2.0 UF GPA required

Semester 2

- Complete TPP 3103 and TPA 1012 with minimum grades of C
- 2.0 UF GPA required

Semester 3

- Complete TPP 3650 with minimum grades of C
- 2.0 UF GPA required

Semester 4

- Complete TPA 4505 or TPA 4520 with minimum grades of C
- 2.0 UF GPA required

Semester 5

- Complete TPA 3504 and THE 4950 with minimum grades of C
- 2.0 UF GPA required

Semester 6

- Complete THE 4111 with a minimum grade of C

Semester 7

- Complete THE 4110 with a minimum grade of C

Semester 8

- Complete THE 4970 with a minimum grade of C

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Theatre Performance

The curricula are reflective of a 21st century approach to Theatre Performance. They are inclusive of specialized skills, practical courses, and scholarly work in preparation for the profession. The specializations prepare students by providing a well-rounded education in performance that requires students to learn a variety of techniques as well as examine the art and professional practices through multiple lenses. Along with unified learning outcomes, the specializations offer flexibility in areas of study that aligns with students' interest and learning goals.

About this Program

- **College:** Arts (p. 405)

- Theatre Performance
- Theatre Production
- Theatre Production Minor

Overview

Placement in the BFA Theatre program is determined by audition or portfolio interview. There are two specialization areas in the program: Acting, and Musical Theatre. Students enrolled in Theatre Performance: acting or musical theatre will proceed through studio coursework by demonstrated proficiency.

Transfer students entering the musical theatre program may be required to take a placement exam by the School of Music for placement in music courses. If a student has earned college credit with a minimum grade of C for music courses taken at another SUS institution with course prefixes and the last three digits matching a UF music course, this is usually granted as transfer credit when evaluated by the music faculty.

All theatre majors should consult the academic advisor as early as possible.

Academic Learning Compact

The Bachelor of Fine Arts in Acting develops the highest possible level of performance as an actor. Students develop advanced theatrical movement and vocal skills, including stage combat, voice, makeup, movement, and period styles. They learn to perform through workshop and mainstage productions in formal and informal settings. Students also develop a repertory and techniques for auditions.

Before Graduating Students Must

- Satisfactory presentation and faculty evaluation of a jury and a senior project.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate proficiency in acting techniques.

Critical Thinking

2. Execute strategic, effective professional-grade auditions.

Communication

3. Discuss a complex personal process for character creation and actualization that synthesizes the facets of their training (practical and scholarly).

Musical Theatre

The curricula are reflective of a 21st century approach to Theatre Performance. They are inclusive of specialized skills, practical courses, and scholarly work in preparation for the profession. The specializations prepare students by providing a well-rounded education in performance that requires students to learn a variety of techniques as well as examine the art and professional practices through multiple lenses. Along with unified learning outcomes, the specializations offer flexibility in areas of study that aligns with students' interest and learning goals.

About this Program

- **College:** Arts (p. 405)
- **Degree:** Bachelor of Fine Arts
- **Specializations:** Acting (p. 546) | Musical Theatre (p. 550)
- **Credits for Degree:** 124
- **Contact:** Email (kaustin@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Theatre + Dance provides an intimate setting where students, faculty, and staff interact in constant and close collaboration. Curricular programs are suited to a range of student interests and talents, from the liberal arts BA degree to the competitive BFA and MFA professional training degrees.

Curriculum

- Dance Minor
- Dance | Bachelor of Arts
- Dance | Bachelor of Fine Arts

- Theatre
- Theatre Minor
- Theatre Performance
- Theatre Production
- Theatre Production Minor

Overview

Placement in the BFA Theatre program is determined by audition or portfolio interview. There are two specialization areas in the program: Acting, and Musical Theatre. Students enrolled in Theatre Performance: acting or musical theatre will proceed through studio coursework by demonstrated proficiency.

Transfer students entering the musical theatre program may be required to take a placement exam by the School of Music for placement in music courses. If a student has earned college credit with a minimum grade of C for music courses taken at another SUS institution with course prefixes and the last three digits matching a UF music course, this is usually granted as transfer credit when evaluated by the music faculty.

All theatre majors should consult the academic advisor as early as possible.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 3 of 8 critical-tracking courses with minimum grades of C: TPA 1012, TPP 2110, TPP 3103, TPP 3113, TPP 4114, MUT 1001, MVV 1411 (three times), THE 4110, TPP 3252, TPP 3253, THE 4959
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with a minimum grade of C
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 5

- Complete 2 of 5 upper division critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 6

- Complete 1 upper division critical-tracking course with minimum grade of C
- 2.0 UF GPA required

Semester 7

- Complete 1 upper division critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

Semester 8

- Complete all remaining upper division critical-tracking courses with a minimum grade of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The School of Theatre and Dance and the School of Music prepare Bachelor of Fine Arts graduates as performers and pioneers of musical theatre. The BFA fuses acting, singing, and dancing into a single mode of expression to compete in a challenging job market. A commitment to diversity and risk-taking provides an environment that challenges, inspires, and stimulates individual creativity in musical theatre artists for the 21st century.

Before Graduating Students Must

- Satisfactory presentation and faculty evaluation of a jury and a senior project.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Construct a personal process for character creation and actualization.

Critical Thinking

2. Analyze and apply effective acting technique strategies.

Communication

3. Develop basic voice performance, musicianship and music skills.

- Theatre
- Theatre Minor
- Theatre Performance
- Theatre Production
- Theatre Production Minor

The BFA Theatre Production program has 5 specialization areas: Costume, Lighting, Scenery, Sound, and Digital media.

Students enrolled in Theatre Production will complete coursework in all five areas. Selected independent studies, advanced electives, and production assignments in THE 4950 focus on the specialization.

Today's theatre design and production depends heavily on complex electronic mechanical systems used in professional theatres, film, and television. Students must pass a portfolio review for admission to any production program. For more information consult the department handbook or the academic advisor.

All theatre majors should consult the academic advisor as early as possible.

Academic Learning Compact

The Bachelor of Fine Arts in Theatre Production meets the diverse aesthetic and technological demands of contemporary society. Today's theatre design and production depend heavily on the complex electronic and mechanical systems used in professional theatres. This curriculum provides academic instructing and professional training in costume design and technology, scenic design, and lighting design. The program provides a laboratory environment where students can apply the skills learned in classroom exercises and theories.

Before Graduating Students Must

- Present a senior project and review their portfolio with representatives from the appropriate faculty. They must pass the senior project and portfolio review with a satisfactory rating.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Develop original designs for theatre and live events that demonstrate design aesthetics, principles, and theories.
2. Develop and demonstrate working knowledge of technologies, engineering principles, safety practices, and accepted standards relevant to realizing projects for theatre and live events
3. Curate and present a portfolio of design- and/or technology-related work with an emphasis in the selected specialization for theatre and live events

Critical Thinking

4. Synthesize knowledge from multiple competencies, including but not limited to design, technology, critical analysis, communication, and knowledges outside of theatre in support of effective professional problem solving

Communication

5. Communicate effectively through written, oral, and visual media to laypersons and to professionals
6. Demonstrate understanding of the global impact of creative communication and/or the enhancement of such communication through the practice of live design

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

SEMESTER 3

- Complete 2 additional critical-tracking courses with a minimum grade of C
- 2.0 UF GPA required

SEMESTER 4

- Complete 2 additional critical-tracking courses with a minimum grade of C
- 2.0 UF GPA required

SEMESTER 5

- Complete 2 of 4 upper division critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

SEMESTER 6

- Complete 1 additional upper division critical-tracking course with minimum grade of C
- 2.0 UF GPA required

SEMESTER 7

- Complete 1 additional upper division critical-tracking course with minimum grade of C
- 2.0 UF GPA required

SEMESTER 8

- Complete all remaining upper division critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
THE 2000	Theatre Appreciation (**Critical Tracking**; State Core Gen Ed Humanities)	3
TPA 1012	Introduction to Live Entertainment Design and Production (**Critical Tracking**)	3
TPA 2202C	Stagecraft (**Critical Tracking**)	4
Gen Ed Mathematics		3
	Credits	**16**
Semester Two		
TPA 2074	Drawing and Rendering (**Critical Tracking**)	3
TPA 3227C	Practical Stage Lighting (**Critical Tracking**)	4
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Composition (p. 80)		3

State Core Gen Ed Mathematics (p. 80)		3
	Credits	**16**
Semester Three		
Quest 2 (Gen Ed Physical or Biological Sciences OR Gen Ed Social and Behavioral Sciences) [1]		3
THE 4950	Production Workshop (**Critical Tracking**)	1
TPA 4020	Lighting Design	3
TPA 4601	Stage Management	3
TPP 3650	Script Analysis (**Critical Tracking**)	3
	Credits	**13**
Semester Four		
THE 4950	Production Workshop (**Critical Tracking**)	1
Select one **Critical Tracking** course:		3
THE 3231	African American Theatre History and Practice	
THE 3234	Diversity and Multiculturalism in American Theatre (Gen Ed Humanities)	
TPA 2075 or TPA 4021	Scene Painting or Lighting Design 2	3
TPA 3208	Drawing/Drafting for the Stage	3
TPA 4049	Costume Design	3
Gen Ed Composition (Writing Requirement)		3
	Credits	**16**
Semester Five		
TPA 3263	Introduction to Sound Design and Technology	3
TPA 4066	Scene Design	3
TPA 4946	Production Practicum (**Critical Tracking**)	1
THE 4110	History of Theatre on Stage 1 (**Critical Tracking**; Gen Ed Humanities and International)	3
DIG electives [2]		6
	Credits	**16**
Semester Six		
DAN 2100	Dance Appreciation (Gen Ed Humanities and International)	3
THE 4111	History of Theatre on Stage 2 (**Critical Tracking**; Gen Ed Humanities and International)	3
TPA 3174	Digital Production for Performance	3
TPA 4946	Production Practicum	1
Gen Ed Physical or Biological Sciences OR Gen Ed Social and Behavioral Sciences [1]		3
	Credits	**13**
Summer After Semester Six		
THE 4945	Summer Repertory Theatre	6
	Credits	**6**
Semester Seven		
ARH 2050	Introduction to the Principles and History of Art 1 (Gen Ed Humanities and International)	3
THE 4281	Cognizant Design Theory	3
TPA 4946	Production Practicum	1
TPP 2110 or DAN 2390	Acting 1: Instrument and Discipline (**Critical Tracking**) [3] or Global Dance Perspectives	2-3
TPP 3311	Directing	3
DIG elective [2]		3
	Credits	**15-16**
Semester Eight		
THE 4959	Senior Project (**Critical Tracking**)	3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
DIG elective [2]		3
Electives [3]		4
	Credits	**13**
	Total Credits	**124**

1 General Education course must be requirement not fulfilled by the Quest 2 course.

2 Any DIG course for which the student is eligible.

3 Students who take TPP 2110 complete 4 credits of electives in Semester 8; students who take DAN 2390 complete 3 credits of electives in Semester 8.

Academic Learning Compact

The Bachelor of Fine Arts in theatre production meets the diverse aesthetic and technological demands of contemporary society. Today's theatre design and production depend heavily on the complex electronic and mechanical systems used in professional theatres. This curriculum provides academic instructing and professional training in costume design and technology, scenic design and lighting design. The program provides a laboratory environment where students can apply the skills learned in classroom exercises and theories.

Before Graduating Students Must

- Present a senior project and review your portfolio with representatives from the appropriate faculty. They must pass the senior project and portfolio review with a satisfactory rating.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn To

Student Learning Outcomes | SLOs

Content

1. Apply principles of two and three-dimensional design aesthetics to costume, lighting or scene design for live performance as a method of bringing text, choreographic work or public exposition to the stage.

Critical Thinking

2. Organize, develop and participate in the art, craft and process of moving the script onto the stage by organizing, developing and participating in a creative process resulting in a live performance that incorporates successful application of design and technological principles.

Communication

3. Use effective communication and collaboration skills throughout the creative process.

Curriculum

- Dance Minor
- Dance | Bachelor of Arts
- Dance | Bachelor of Fine Arts
- Theatre
- Theatre Minor
- Theatre Performance
- Theatre Production
- Theatre Production Minor

The BFA Theatre Production program has 5 specialization areas: Costume, Lighting, Scenery, Sound, and Digital media.

Students enrolled in Theatre Production will complete coursework in all five areas. Selected independent studies, advanced electives, and production assignments in THE 4950 focus on the specialization.

Today's theatre design and production depends heavily on complex electronic mechanical systems used in professional theatres, film, and television. Students must pass a portfolio review for admission to any production program. For more information consult the department handbook or the academic advisor.

All theatre majors should consult the academic advisor as early as possible.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 10 critical-tracking courses with minimum grades of C: TPA 1012, TPA 2202C, TPA 3263C, TPP 3650, TPA 2074, TPA 3227C, THE 4950, TPP 2232C, TPA 4946, Specialization Elective
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 5

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 6

- Complete TPA 4946 (second registration) with a minimum grade of C
- 2.0 UF GPA required

Semester 7

- Complete TPA 4946 (third registration) with a minimum grade of C
- 2.0 UF GPA required

Semester 8

- Complete all remaining upper division critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

Sound

The BFA in Theatre Production prepares students to work professionally or enter graduate education across multiple fields in entertainment design and production.

About this Program

- **College:** Arts (p. 405)
- **Degree:** Bachelor of Fine Arts
- **Specializations:** Costume (p. 556) | Digital Media (p. 561) | Lighting (p. 564) | Scenery (p. 569) | Sound (p. 574)
- **Credits for Degree:** 124
- **Contact:** Email (kaustin@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Theatre + Dance provides an intimate setting where students, faculty, and staff interact in constant and close collaboration. Curricular programs are suited to a range of student interests and talents, from the liberal arts BA degree to the competitive BFA and MFA professional training degrees.

Curriculum

- Dance Minor
- Dance | Bachelor of Arts
- Dance | Bachelor of Fine Arts
- Theatre
- Theatre Minor
- Theatre Performance
- Theatre Production
- Theatre Production Minor

The BFA Theatre Production program has 5 specialization areas: costume, lighting, scenery, sound, and digital media.

Students enrolled in Theatre Production will complete coursework in all five areas. Selected independent studies, advanced electives, and production assignments in THE 4950 focus on the specialization.

Today's theatre design and production depends heavily on complex electronic mechanical systems used in professional theatres, film, and television. Students must pass a portfolio review for admission to any production program. For more information consult the department handbook or the academic advisor.

All theatre majors should consult the academic advisor as early as possible.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete 3 of 14 critical-tracking courses with minimum grades of C: TPA 3263, TPA 1012, TPA 2202C, TPA 2074, TPA 3227C, THE 4950, TPA 2232C, TPP 3650, TPA 4946 (four times), Specialization Elective, School Elective
- 2.0 UF GPA required

SEMESTER 2

- Complete 3 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

SEMESTER 3

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

SEMESTER 4

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

SEMESTER 5

- Complete 2 of 5 upper division critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

SEMESTER 6

- Complete 1 additional upper division critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

SEMESTER 7

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

SEMESTER 8

- Complete all remaining upper division critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
TPA 1012	Introduction to Live Entertainment Design and Production (**Critical Tracking**)	3
TPA 2202C	Stagecraft (**Critical Tracking**)	4
TPA 3263	Introduction to Sound Design and Technology (**Critical Tracking**)	3

Electives

Sound Specialization Electives | 15 credits

Code	Title	Credits
TPA 3208	Drawing/Drafting for the Stage	3
TPA 4178C	AI, Data and the Performing Body	3
TPA 4179C	Motion Capture & Mixed Reality	3

TPA 4262	Sound Design	3
TPA 4264	Sound Design 2	3
TPA 4266	Advanced Sound Design	3
TPA 4930	Special Topics in Theatre Production ((in Costume))	1-3

Theatre Studies Electives | 9 credits

Code	Title	Credits
THE 3231	African American Theatre History and Practice	3
THE 3234	Diversity and Multiculturalism in American Theatre	3
THE 4223	Latin American and US Latinx Theatre	3
THE 4110	History of Theatre on Stage 1	3
THE 4111	History of Theatre on Stage 2	3
THE 4930	Special Topics in Theatre ((as available))	1-3

School Electives | 9 credits

Any DAA/DAN/THE/TPA/TPP prefixed class offered in the School of Theatre and Dance can meet the School Electives. School electives must be in coursework that is not specific to the specialization and not already meeting a degree requirement.

College Of the Arts Electives | 6 credits

College of the Arts (COTA) Electives can be met by any coursework offered in UF's College of the Arts in any unit.

Academic Learning Compact

The Bachelor of Fine Arts in Theatre Production meets the diverse aesthetic and technological demands of contemporary society. Today's theatre design and production depend heavily on the complex electronic and mechanical systems used in professional theatres. This curriculum provides academic instructing and professional training in costume design and technology, scenic design, and lighting design. The program provides a laboratory environment where students can apply the skills learned in classroom exercises and theories.

Before Graduating Students Must

- Present a senior project and review your portfolio with representatives from the appropriate faculty. They must pass the senior project and portfolio review with a satisfactory rating.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn To

Student Learning Outcomes | SLOs

Content

1. Apply principles of two and three-dimensional design aesthetics to costume, lighting, or scene design for live performance as a method of bringing text, choreographic work, or public exposition to the stage.

Critical Thinking

2. Organize, develop, and participate in the art, craft, and process of moving the script onto the stage by organizing, developing, and participating in a creative process resulting in a live performance that incorporates successful application of design and technological principles.

Communication

3. Use effective communication and collaboration skills throughout the creative process.

Visual Arts in Medicine Certificate

The certificate focuses on the use of the visual arts to enhance individual and community health and healthcare environments. Students will learn theory and practice in the field of arts in health and will develop skills for applying the visual arts to health and well-being in healthcare and community settings.

About this Program

- **College**: Arts (p. 405)
- **Credits**: 14
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Center Information

The University of Florida Center for the Arts in Medicine is committed to advancing research, education, and practice in arts in medicine, locally and globally. Through ongoing interdisciplinary research, training programs, and dynamic academic programs the Center advances its mission to further the field of arts in health.

Curriculum

- Dance in Medicine Certificate
- Music in Medicine Certificate
- Visual Arts in Medicine Certificate

The Center for Arts in Medicine's certificate in Visual Arts in Medicine is open to all students and accepts applications throughout the year.

Application Procedures

Students interested in obtaining this certificate should apply to the program (https://admissions.ufl.edu/apply/certificates/) by their sophomore year. Students from any major may apply to the program but must complete at least 50% of certificate requirements after they have been accepted into the program.

The application process includes:

- Completion of the online application (https://admissions.ufl.edu/apply/certificates/) (students should email (camundergrad@ufl.edu) when they submit the application)
- Completion of an intake meeting with the Center for Arts in Medicine's Academic Program Specialist

Requirements

To qualify for the certificate, students must attain a 3.0 average in all courses included in the certificate curriculum within six months of graduation.

Required Courses

Code	Title	Credits

Academic Advising
Heavener Hall 333
352.273.0165

Established

1926. In 2012, named for James W. 'Bill' Heavener, an alumnus whose generous gift benefits the school.

Accredited

The Warrington College of Business is accredited by the AACSB International. The college was the first in the nation to be accredited by the European Foundation for Management Development (EFMD).

Academic and Career advising

The Heavener School of Business provides academic and career advising, experiential learning, professional development opportunities and study abroad programs for undergraduate students.
More Info (https://warrington.ufl.edu/undergraduate-current-students/academic-advising/) Email (undergraduate.business@ufl.edu)

Programs

The Warrington College of Business has three schools:

- The Hough Graduate School of Business
- The Fisher School of Accounting
- The Heavener School of Business

The Fisher School of Accounting administers a Bachelor of Science in Accounting (BSAc). The Heavener School of Business administers a Bachelor of Science in Business Administration (on campus), an online Bachelor of Science in Business Administration (off campus) and a Bachelor of Arts in Business Administration. The Heavener School of Business also offers minors in business administration (for non-business majors only), entrepreneurship, information systems (for business majors only), professional selling, real estate, retailing, and wealth management.

The college also offers combination-degree and one-year master's programs in information systems and operations management (MSISOM), entrepreneurship (MSE), finance (MSF), international business (MIB), management (MSM, for non-business majors only), marketing (MSBA with a concentration in marketing), and real estate (MSRE).

In addition to completing a degree, all business majors are encouraged to gain practical work experience through co-ops, internships and community service. The Heavener School of Business also offers students a variety of professional development and leadership opportunities, including study abroad, the Florida Leadership Academy, involvement in student organizations and research activities. For more details on all of these opportunities, consult an academic advisor in 333 Heavener Hall.

The school encourages all first year students to take **Business & You: Warrington Welcome (GEB2015**), which serves as an introduction to the school and provides students with the opportunity to connect with faculty, advisors and fellow business students.

Scholarships

The school offers academic and need-based scholarships to business majors and study abroad scholarships to business majors and minors who study abroad via a Heavener School of Business study abroad program. Applications for Summer and Fall semester scholarships are due in March and applications for Spring semester scholarships are due in October.
More Info (https://warrington.ufl.edu/undergraduate-current-students/scholarships/)

Student Organizations

The school has more than 30 business-related student organizations that provide direct access to employment recruiters, leadership opportunities, work experience and the means to develop valuable business-related skills. All business majors are encouraged to join at least one business student organization during their college career.
More Info (https://warrington.ufl.edu/undergraduate-current-students/student-organizations/)

Academic Policies

Admission

Freshmen

The university's Office of Admissions coordinates freshman admission.
More Info (p. 23)

Transfer Students

On Campus Programs

The Heavener School of Business makes admission decisions for upper-division transfer applicants who have earned 60 or more college credits. Only applicants with an AA or AS degree from a Florida public or state college will be considered for admission. Students seeking transfer from other

universities or out-of-state schools may be considered for admission on a space-available basis. Transfer students who are admitted by another UF college/school are not eligible for admission to the Heavener School of Business.

Transfer applicants' academic catalog year guarantees their graduation requirements, but not their admission requirements. Admission and preprofessional course and GPA requirements are subject to change without notice for students who are not enrolled in the Heavener School.

Transfer applicants are admitted in the Fall and Spring terms. Florida public and state college transfer students are considered for admission if they fulfill all Heavener School transfer admission requirements (https://warrington.ufl.edu/undergraduate-academics/admissions/transfer-admission/). Students who do not have a complete application on file by the application deadline (http://www.admissions.ufl.edu/ugrad/trappdates.html) will not be considered for admission and must reapply for a subsequent term. After being admitted, transfer students are required to attend UF's transfer orientation program.

Current UF Students

UF students who matriculated as freshmen can change to a business major if they have a 3.0 UF GPA with no critical-tracking courses completed or a 2.0 UF GPA and a 3.0 critical-tracking GPA. Additionally, students cannot exceed the maximum 130 credits allowed for the degree (excluding AP/IB/AICE/dual enrollment credit). Business majors admitted as freshmen, can change from one business major to another if they are on track and have not completed more than half of their major courses. Upper-division transfer students who are admitted to UF as non-business majors are not eligible for admission to the Heavener School of Business.

Online Business Program

Off Campus Program

The school makes admission decisions for the online business program, a degree program designed for individuals who live outside of Gainesville or have work and/or family commitments that make traditional campus attendance unfeasible. To be considered for admission, applicants must complete an AA or AS degree (or have earned 60 transferable credits) and fulfill all of the Heavener School online business program admission requirements. Students who are admitted to this program are not permitted to change to another business major unless they meet the transfer admission requirements for the school's on campus degree programs.

Readmission

UF students who have not attended the university for two consecutive terms must apply for readmission and meet all university readmission requirements. To be eligible for readmission, students must meet Heavener School critical-tracking GPA and course requirements, have a 2.0 UF GPA and no deficits in the core or major/area of specialization GPA *and* be able to complete a business degree in 130 credits or less. Students who do not meet these requirements should contact an academic advisor.
More Info (p. 26)

Non-Degree Registration

An individual who wishes to enroll in the Heavener School as a non-degree-seeking student may do so for the summer term only. Non-degree applicants must meet the school's non-degree registration requirements.

Academic Policies

Academic and Career Advising

Business majors are expected to register for the proper courses and to fulfill degree requirements in a timely manner. To avoid unnecessary delays in academic progress, students should consult the UF undergraduate catalog to familiarize themselves with university and school policies.

Heavener School academic and career advisors are available to assist students with scheduling, registration, course selection, major changes, career decisions, professional development, study abroad and related matters. Students are encouraged to speak with an academic advisor each semester to ensure they are on track with their academic and career plans.
More Info (https://warrington.ufl.edu/undergraduate-current-students/academic-advising/)

Academic Probation

The school closely monitors the academic progress of its students, requiring them to maintain a 2.0 UF, core and major/area of specialization GPA. Students who do not meet these requirements are placed on academic probation for a maximum of two semesters. Students who do not meet the terms of their probation will be prohibited from continuing in a business major.

Dean's List

Business majors who complete 12-14 credits and earn a 3.7 GPA or higher (or 15 credits or more and a 3.5 GPA or higher) in the Fall, Spring, or Summer semester are named to the dean's list. Courses taken S/U (i.e., pass/fail) do not count toward the required credits. Students who make the dean's list will receive a certificate of recognition for their achievement.

Dropping and Adding Courses

The school adheres to all university drop/add policies and deadlines. Students who wish to drop and add a course after the initial drop/add period in the first week of each semester will be fee liable for both courses unless they can provide documentation of administrative error. Students who have used their two lower or upper division drops can petition the school for additional drops if they can document an extenuating circumstance.

Dual Degrees

With approval from an academic advisor, business majors are permitted to earn two UF undergraduate degrees concurrently (one in the Heavener School and one in another college/school. Dual degree students should plan to complete both degrees in eight Fall/Spring semesters (or four Fall/Spring semesters for transfer students). Students pursuing dual degrees must complete coursework for both degrees simultaneously, adhere to the academic plan approved by their academic advisor and graduate in the designated semester.

Flexible Learning

Business majors must have prior approval from an academic advisor to take flexible learning courses. No more than six credits of flexible learning coursework can be used to fulfill undergraduate degree requirements. Flexible learning courses cannot be taken to fulfill required core, major, area of specialization or restricted elective courses. Students on academic probation are not permitted to take flexible learning courses.

International Study

Business undergraduates are encouraged to study abroad for at least one semester. Students must be in good academic standing and have a 2.5 overall UF GPA (or a minimum 3.0 UF GPA if applying for a Warrington exchange program). Refer to the Heavener School study abroad program for details, scholarship opportunities, and advisor contact information.
More Info (https://warrington.ufl.edu/undergraduate-international-study/)

Normal Course Load

The school's degree programs are designed for full-time study. Students are encouraged to register for 15 credits and are expected to register for a minimum of 12 credits each Fall and Spring. Students must petition the Heavener School to take more than 18 credits in a single term.

S/U Grade Option

Business majors can use the S/U grade option for free elective courses only. All other required courses, including critical tracking, General Education, core business, major or area of specialization, and restricted elective courses, must be taken for a letter grade. Students can request to take only one S/U course per term using the S/U grade option, although they can take other pre-established S/U graded courses.

Transfer Coursework

Florida public or state college students who have taken equivalent business core or major courses at another institution will be required to retake the course at UF or petition the Heavener School to take a higher-level course in the same subject area. Additional credits will not be earned when repeating equivalent courses. Waiving a required course does not reduce the total credits required for graduation.

Transient Coursework

With approval from an academic advisor, business majors may take critical tracking, General Education and free elective courses at another accredited institution. Students should refer to the school's guidelines and instructions.
More Info (https://warrington.ufl.edu/undergraduate-current-students/academic-advising/transient-students/)

Degree Requirements

All Heavener School of Business students must complete the following requirements, including the 120 credits required for graduation as calculated by the school. All required courses, excluding free elective courses, must be taken for a letter grade (not S/U). Business majors are strongly encouraged to use their elective requirement to build skills, obtain a minor or certificate and/or develop proficiency in a foreign language.
More Info (p. 1902)

General Education Requirement

Code	Title	Credits
Composition [1]		6
Mathematical Sciences [1]		6
Humanities [1,2]		6
Social and Behavioral Sciences [1]		12
Physical or Biological Sciences [1,2]		6
International (N) [3]		3

A minimum grade of C is required for all courses fulfilling the General Education requirement and the Writing Requirement.

1 This total includes 3 required credits of State Core Gen Ed.
2 This total includes 3 required credits of UF Quest Gen Ed coursework.

[3] May be combined with Composition, Humanities, Social and Behavioral Science, or Physical or Biological Science course.

Critical-Tracking Requirement

To prepare for upper-division business courses, all business majors are required to complete a specified number of critical-tracking courses each semester during the first four Fall/Spring semesters, meet the required critical-tracking GPA for each term and maintain a 2.0 UF GPA (see table below). Finance majors must complete 2 critical tracking courses each term (1-4), and earn a minimum grade of B in ACG 2021 and ACG 2071.

Heavener School of Business Critical-Tracking Requirements

Semester	Number Critical Tracking Courses	Critical Tracking GPA	UF GPA
1	1	2.5	2.0
2	2	2.75	2.0
3	2 (including ACG 2021)	3.0	2.0
4	2	3.0	2.0

Three of the business degree programs require an eighth critical-tracking course. The programs and required courses are identified in the table below. Please note that Finance majors have a total of 9 critical tracking courses, see the Finance major requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGBUS/FIN_BSBA/#criticaltrackingtext) for details. Students must earn the required grade in the eighth tracking course to continue in the corresponding major (see table below). The grade earned in this course does not factor into the critical-tracking GPA.

Additional Critical-Tracking Requirements

Major	Eighth Tracking Course	Minimum Grade
General Business (Online)	NA	NA
General Studies	NA	NA
Finance	FIN 3403	B
Information Systems	NA	NA
Management	MAN 3025	C
Marketing	MAR 3023	C

Core Business Requirement

All business majors are required to take the following eight core courses, which cover the major functional areas of business:

Code	Title	Credits
BUL 4310	The Legal Environment of Business	4
FIN 3403	Business Finance	4
GEB 3373	International Business	4
MAN 3025	Principles of Management	4
MAN 4504	Operations and Supply Chain Management	4
MAR 3023	Principles of Marketing	4
QMB 3250	Statistics for Business Decisions	4
QMB 3302	Foundations of Business Analytics and Artificial Intelligence (AI)	4

Major (BSBA) or Area of Specialization (BABA) Requirement

BSBA students take 16-20 credits of specific major courses. BAG_BABA students take 12-16 credits of 3000/4000-level area of specialization courses.

Restricted Elective Requirement

All business majors must take 7-8 credits of restricted electives. Internship, independent study or assistantship credit will not count toward this requirement.

BAG_BABA students take 8 credits of restricted *business* electives from an approved list. BSBA students take 7 credits of any 3000/4000-level courses or 1000/4000-level foreign language courses.

GPA and Graduation Requirements

A minimum overall UF GPA of 2.0 is required in coursework attempted at the university. Business majors must earn:

- a 3.0 critical-tracking GPA;
- a 2.0 core GPA or minimum grades of C in all seven business core courses; and
- a 2.0 major or area of specialization GPA or minimum grades of C in all major or area of specialization courses.

Business majors must earn a minimum of 120 credits. Heavener School undergraduates who have completed all requirements for degree will be required to graduate. To receive a diploma and participate in commencement, students must complete the UF graduation checklist, which includes the submission of an online degree application by the established deadline.
More Info (https://registrar.ufl.edu/services/degree-application/)

Honors Requirements

Heavener School of Business honors designations are based on three grade point averages: business core GPA, major or area of specialization GPA and UF GPA. To graduate with honors (p. 1840), students must meet the following minimum standards at the time of graduation: cum laude (3.5 GPA), magna cum laude (3.7 GPA) and summa cum laude (3.9 GPA). Students who are pursuing a magna or summa cum laude designation are also required to complete an honors thesis. Each business major has its own specific thesis guidelines (https://warrington.ufl.edu/undergraduate-current-students/graduation/). Students who participate in the University Scholars Program can use their required research paper as an honors thesis.

Internship Requirement

Heavener School majors are required to enroll in either GEB 4941, MAR 4941, or MAR 4945 and complete an internship of at least 150 hours before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive this requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Consult a school academic advisor/career coach for more information. Students may also meet this requirement by completing an externship course GEB 3942 (https://catalog.ufl.edu/UGRD/courses/business/).

Professional Communication Requirement

Heavener School majors are required to take GEB 2216, GEB 3218, SPC 2608, ENC 3312 or a similar course with prior approval. A minimum grade of C is required.

Residence Requirements

Students are not allowed to enroll simultaneously at UF and another institution. All business core, major, area of specialization and restricted elective courses must be taken in residence at the University of Florida or as part of an approved study abroad program. The last 30 credits of the degree program must be completed in residence at the University of Florida; however, this requirement will be waived for preapproved study abroad coursework. Otherwise, the residence requirement will be waived only in special cases and must be approved in advance by the school's petitions committee.

- Real Estate Minor
- Retailing Minor
- Wealth Management Minor

Undergraduate Degrees

The Heavener School of Business offers Bachelor of Science in Business Administration degrees in finance, general business (for off campus students), information systems, management and marketing and a Bachelor of Arts in Business Administration degree in general studies with an outside area of specialization. All undergraduate degrees require 120 credits and all include universal tracking, General Education, business core, major or area of specialization, and restricted elective courses. The degree programs are designed to provide students with a strong foundation in the functional areas of business.

The school encourages all freshmen to take Business and You: Warrington Welcome (GEB 2015, for business majors), which serves as an introduction to the school and provides students with the opportunity to connect with faculty, advisors and fellow business students.

Minors and Certificates

Minors in business administration (for nonbusiness majors only), entrepreneurship, information systems (business majors only), professional selling, real estate and retailing are available to undergraduate students.

Combination Degrees and One-Year Master's Programs

The Warrington College of Business offers the following combination-degree and one-year master's programs:

- Master of International Business (MIB),
- Master of Science in Business Administration: concentration in Marketing (MSMAR),
- Master of Science in Entrepreneurship (MSE),
- Master of Science in Finance (MSF),
- Master of Science in Information Systems and Operations Management (MSISOM),
- Master of Science in Real Estate (MSRE), and
- for non-business majors, the Master of Science in Business Administration: major in Management (MSM).

Undergraduates can seek permission to take graduate courses from the graduate coordinator of the appropriate department.
More Info (http://warrington.ufl.edu/academics/)

Career and Leadership Programs

Business majors are encouraged to gain practical work experience through co-ops, internships, externships, and community service. The school also offers career and leadership programs, including professional development courses, the Florida Leadership Academy, involvement in national and international business case study competitions, student organizations and research options.
More Info (https://warrington.ufl.edu/undergraduate-current-students/career-and-leadership/)

International Programs and Study Abroad

To broaden their curriculum, business majors are advised to study abroad, learn a foreign language, pursue the school's Bachelor of Arts in Business Administration: General Studies (BAG-BABA) degree with an area of specialization in international studies, complete an international or international-related minor or take international courses, and participate in international or multicultural student organizations.
More Info (https://warrington.ufl.edu/undergraduate-international-study/)

Business Administration Minor

The Business Administration minor, which can be completed online, provides non-business UF undergraduates with an overview of the major functional elements of business. This minor is not open to business majors.

About this Program

- **College:** Heavener School of Business (p. 580)
- **Credits:** 24 | Completed with an overall 2.0 GPA in the minor and a cumulative 2.0 UF GPA

School Information

One of the nation’s top-ranked undergraduate public business schools, the Heavener School of Business offers degrees in Finance, General Business, Management, Information Systems & Operations Management, and Marketing.

Business Administration | General Business | BSBA UF Online

The online Bachelor of Science in Business Administration-General Business (BSBA-IBA ONL) degree program, which provides a broad overview of the functional areas of business, is designed for students who live outside the Gainesville community or have work and/or family commitments that make traditional campus attendance impractical. Students take foundational courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing, and operations management; and professional development courses such as business communication and career management.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

To remain on track for the major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no higher grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.

Semester 1

- Complete 1 of the following critical-tracking courses: ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233, STA 2023
- 2.25 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
- 2.25 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
- 2.5 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 7 critical-tracking courses
- 2.5 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Meet all term 1-4 critical-tracking requirements
- 2.0 UF GPA required

Semester 6

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 7

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 8

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Model Semester Plan

This is a sample plan. Students should consult with an academic advisor/career coach to create an individualized academic plan. Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=520201&track=01) may be used for transfer students.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Academic Learning Compact

A bachelor's degree in Business Administration enables students to achieve foundation knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology, and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity's strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

The major in General Business places a special emphasis on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity's strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

Before Graduating Students Must

- Take the CAPSIM Comprehensive Exam (MOD-XM) as part of MAN 4504.
- Complete requirements for the baccalaureate degree, as determined by the faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics, and social responsibility.
2. Demonstrate proficiency in the use of business-related software applications.
3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.
4. Understand how the business environment, including culture, differs across countries.
5. Possess awareness of cultural differences and how these differences affect business decisions.
6. Identify characteristics and roles of groups and teams.
7. Identify characteristics and roles of managers and leaders.
8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.

Critical Thinking

9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.
10. Assess the outcomes of a course of action and make appropriate adjustments.

Communication

11. Write business documents clearly, concisely and analytically.
12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

CAREER READINESS REQUIREMENT

Heavener School majors in campus-based programs are required to complete 6 credit hours of professional development coursework. This sequence of course offerings is designed to help students explore careers in different business disciplines, build specific career competencies that are sought after by employers, give students an opportunity to apply their skills, and finally, to consolidate student's prior learning and add leadership tools to launch them into their careers.

To complete the career readiness requirement, students must complete the minimum number of required credits in each of the four phases.

Career Readiness Phases

Code	Title	Credits
Explore		
1 required credit; select from:		
GEB 2030	Exploring Careers in Business	
GEB 2041	Career Accelerator	
GEB 4930	Special Topics (Transfer Success)	
MAR 2290	Retail Management Seminar	
MAR 2401	Sales Seminar	
Enrich		

2 required credits; select from:	
GEB 3931	Special Topics in Business Communication
GEB 4911	Undergraduate Research in Business
Apply	
1 required credit; select from:	
GEB 3942	Business Externship: Micro-Consulting
GEB 4941	Internship in Business Administration
MAR 4941	Sales Internship
MAR 4945	Retail Management Internship
Advance	
2 required credits	
GEB 4900	Leadership Launch

To satisfy the “Apply” phase, students must complete an internship or externship course. Students who choose to meet this requirement through the internship option must enroll in one of the internship courses and complete an internship of at least 150 hours before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive this requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Consult a Heavener academic and career advisor for more information.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

To remain on track for the BAG_BABA major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, the student will not be allowed to repeat that course.

Semester 1

- Complete 1 critical-tracking course from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233 or MAC 2311, STA 2023
- 2.5 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
- 3.0 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 7 critical-tracking courses
- 3.0 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Meet all semester 1-4 critical-tracking requirements
- 2.0 UF GPA required

Semester 6

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 7

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 8

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

Note: Students who are pursuing the BA – International Studies area of specialization must work with a study abroad advisor in the Heavener School of Business to strategically plan business electives from an approved list.
More Info (https://warrington.ufl.edu/undergraduate-academics/general-studies/)

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

A bachelor's degree in Business Administration enables students to achieve foundation knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology, and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity's strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

The Bachelor of Arts in Business Administration combines core business courses with area of specialization courses offered by departments outside the college of business.

Before Graduating Students Must

- Take the CAPSIM Comprehensive Exam (MOD-XM) as part of MAN 4504.
- Complete requirements for the baccalaureate degree, as determined by the faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics, and social responsibility.
2. Demonstrate proficiency in the use of business-related software applications.
3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.
4. Understand how the business environment, including culture, differs across countries.
5. Possess awareness of cultural differences and how these differences affect business decisions.

6. Identify characteristics and roles of groups and teams.
7. Identify characteristics and roles of managers and leaders.
8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.

Critical Thinking

9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.
10. Assess the outcomes of a course of action and make appropriate adjustments.

Communication

11. Write business documents clearly, concisely and analytically.
12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

Curriculum

- Business Administration Minor
- Business Administration Minor UF Online
- Business Administration | General Business | BSBA UF Online
- Business Administration | General Studies | BABA
- Business Administration | General Studies | BABA UF Online
- Combination Degrees
- Wealth Management Minor

The Bachelor of Arts in Business Administration-General Studies (BAG_BABA_UFO) degree program allows students to couple a business major with an outside interest. BAG_BABA_UFO students can choose an area of specialization (https://ufonline.ufl.edu/degrees/undergraduate/business-administration-ba/) which is comprised of courses taught by the Heavener School of Business or another UF department. The BAG_BABA_UFO degree prepares students for a wide variety of business-related careers, for graduate studies in business and for graduate programs related to the area of specialization.

BAG_BABA_UFO majors are encouraged to gain practical work experience through internships, research activities, student organizations and community service and to study abroad. Students should consult an academic advisor/career coach for specific information.

Requirements for the Major

BAG_BABA_UFO majors must maintain a 2.0 core, area of specialization and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. In addition to the critical tracking and General Education courses outlined below, BAG_BABA_UFO majors take 120 credits.

Code	Title	Credits

MAR 3023	Principles of Marketing	4
QMB 3250	Statistics for Business Decisions	4
QMB 3302	Foundations of Business Analytics and Artificial Intelligence (AI)	4
Area of Specialization		
3000/4000-level courses in a chosen discipline		12

Business Electives		
Approved business electives (Internship, independent study or assistantship credit will not count toward this requirement)		11-12
Professional Communication		
Select one:		3-4
GEB 2219	Writing and Speaking in Business	
SPC 2608	Introduction to Public Speaking	
Similar course with prior approval (requires a minimum grade of C)		
Internship		
GEB 4941	Internship in Business Administration (in conjunction with an internship of at least 150 hours) [1]	1
Total Credits		**59-61**

[1] The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive the requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Students should consult an academic advisor/career coach for more information.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

To remain on track for the BAG_BABA_UFO major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no subsequent grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.

Semester 1

- Complete 1 critical-tracking course from ACG 2021, ACG 2071, ISM 3013, ECO 2013, ECO 2023, MAC 2233, STA 2023
- 2.5 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
- 3.0 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 7 critical-tracking courses
- 3.0 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Meet all semester 1-4 critical-tracking requirements
- 2.0 UF GPA required

Semester 6

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 7

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 8

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Students should consult with an academic advisor/career coach to create an individualized academic plan.

Curriculum

- Combination Degrees
- Entrepreneurship Minor
- Management

All courses for the minor must be taken for letter grade. All attempts at courses for the minor will be averaged into the minor GPA. All 3000/4000-level courses required for the minor must be taken at UF or via a study abroad program preapproved by the Heavener School of Business. UF flexible learning courses will not count toward the minor.

To declare the minor, students must first complete ACG 2021 with a minimum grade of C and ENT 3003 with a minimum grade of B.

Required Courses

Code	Title	Credits
ACG 2021	Introduction to Financial Accounting	4
ENT 3003	Principles of Entrepreneurship	4
ENT 4614	Creativity and Innovation in the Business Environment	2
ENT 4940	Entrepreneurship Practicum	1
ENT 4934	Special Topics (Business Plan Laboratory)	2
Select a minimum of two:		4-6
Any 3000/4000-level entrepreneurship courses beyond ENT 3003		
MAR 4832	New Product Development and Management	
Total Credits		**17-19**

Finance

The Bachelor of Science in Business Administration-Finance (BSBA—FIN) degree program provides a broad overview of the functional areas of business with an emphasis in finance. Students take foundation courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing, and operations management; and major courses that develop students' financial decision-making skills.

About this Program

- **College:** Heavener School of Business (p. 580)
- **Degree:** Bachelor of Science in Business Administration
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Finance, Insurance and Real Estate Department offers degree programs at the doctoral, masters, and undergraduate level. Besides standard finance offerings, specialized academic programs in entrepreneurship, real estate, and value investing are available. The department's faculty boasts top experts on topic matter as diverse as banking, initial public offerings, investments, international finance, mergers, and acquisitions and real estate.

Curriculum

- Combination Degrees
- Entrepreneurship Minor
- Finance
- Real Estate Minor

The Bachelor of Science in Business Administration-Finance (FIN_BSBA) degree program focuses on the acquisition and management of funds by businesses, financial markets, security analysis and valuation, management of financial institutions, interest rates, investments and securities, financial risk management, security trading, government policy and financial markets, financial forecasting, capital structure, venture capital and security issuance. The finance curriculum prepares students for careers in corporate financial management and the financial services industry. Finance graduates can also pursue graduate studies in business, law and public administration.

FIN_BSBA majors are encouraged to gain practical work experience through internships, student organizations and community service. In addition, the Heavener School of Business offers students a wide variety of academic and career and leadership programs, including study abroad, the Florida Leadership Academy, involvement in student organizations and research activities. Students should consult an academic advisor/career coach for specific information.

Requirements for the Major

FIN_BSBA majors must maintain a 2.0 core, major and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. In addition to the critical-tracking and General Education courses outlined below, FIN_BSBA majors must take 120 credits, including:

Code	Title	Credits
Core Courses		
BUL 4310	The Legal Environment of Business	4
FIN 3403	Business Finance	4

Professional Communication Course		
Select one (requires a minimum grade of C):		
GEB 2216	Professional Writing in Business	
GEB 3218	Professional Speaking in Business	
SPC 2608	Introduction to Public Speaking	
ENC 3312	Advanced Argumentative Writing	
A similar course with prior approval		
Career Readiness Requirement		**6**
Students must complete the minimum number of required credits in all four phases, see requirement details below.		
Total Credits		**65**

[1] Internship, externship, independent study or assistantship credit will not count toward this requirement.

CAREER READINESS REQUIREMENT

Heavener School majors in campus-based programs are required to complete 6 credit hours of professional development coursework. This sequence of course offerings is designed to help students explore careers in different business disciplines, build specific career competencies that are sought after by employers, give students an opportunity to apply their skills, and finally, to consolidate student's prior learning and add leadership tools to launch them into their careers.

To complete the career readiness requirement, students must complete the minimum number of required credits in each of the four phases.

Career Readiness Phases

Code	Title	Credits
Explore		
1 required credit; select from:		
GEB 2030	Exploring Careers in Business	
GEB 2041	Career Accelerator	
GEB 4930	Special Topics (Transfer Success)	
MAR 2290	Retail Management Seminar	
MAR 2401	Sales Seminar	
Enrich		
2 required credits; select from:		
GEB 3931	Special Topics in Business Communication	
GEB 4911	Undergraduate Research in Business	
Apply		
1 required credit; select from:		
GEB 3942	Business Externship: Micro-Consulting	
GEB 4941	Internship in Business Administration	
MAR 4941	Sales Internship	
MAR 4945	Retail Management Internship	
Advance		
2 required credits		
GEB 4900	Leadership Launch	

To satisfy the “Apply” phase, students must complete an internship or externship course. Students who choose to meet this requirement through the internship option must enroll in one of the internship courses and complete an internship of at least 150 hours before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive this requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Consult a Heavener academic and career advisor for more information.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

To remain on track for the FIN_BSBA major, students must meet the critical-tracking criteria, including earning a minimum grade of B in ACG 2021 and ACG 2071 and a minimum grade of B in FIN 3403. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, the student will not be allowed to repeat that course.

Semester 1

- Complete 2 critical-tracking courses from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233 or MAC 2311, MAC 2234 or MAC 2312, STA 2023
- 2.5 GPA on all attempts of critical-tracking courses, excluding FIN 3403 and MAC 2234 and MAC 2312
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses for a total of 4 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses, excluding FIN 3403 and MAC 2234 and MAC 2312
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 6 critical-tracking courses
- Complete ACG 2021 with a minimum grade of B
- 3.0 GPA on all attempts of critical-tracking courses, excluding FIN 3403 and MAC 2234 and MAC 2312
- 2.0 UF GPA required

Semester 4

- Complete 8 of the 9 critical-tracking courses, excluding FIN 3403
- Complete ACG 2071 with a minimum grade of B
- 3.0 GPA on all attempts of critical-tracking courses, excluding FIN 3403 and MAC 2234 and MAC 2312
- 2.0 UF GPA required

Semester 5

- Complete FIN 3403 with a minimum grade of B
- Meet all semester 1-4 critical-tracking requirements
- 2.0 UF GPA required

Semester 6

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 7

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 8

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
ECO 2023	Principles of Microeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	4

Academic Learning Compact

A bachelor's degree in business administration enables students to achieve foundation knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology, and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity's strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

The finance major covers the basics of financial statements, working capital management, capital budgeting decisions, the types of securities available to investors, and the risk/return attributes of those securities as well as factors affecting pricing.

Before Graduating Students Must

- Take the CAPSIM Comprehensive Exam (MOD-XM) as part of MAN 4504.
- Complete requirements for the baccalaureate degree, as determined by the faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics, and social responsibility.
2. Demonstrate proficiency in the use of business-related software applications.
3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.
4. Understand how the business environment, including culture, differs across countries.
5. Possess awareness of cultural differences and how these differences affect business decisions.
6. Identify characteristics and roles of groups and teams.
7. Identify characteristics and roles of managers and leaders.
8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.

Critical Thinking

9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.
10. Assess the outcomes of a course of action and make appropriate adjustments.

Communication

11. Write business documents clearly, concisely and analytically.
12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

Information Systems

The Bachelor of Science in Business Administration–Information Systems (BSBA-IST) degree program provides a broad overview of the functional areas of business with an emphasis in information systems. Students take foundation courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing, and operations management; and major courses that focus on the computing, quantitative, and application skills that are vital to a business problem-solving setting.

About this Program

- **College:** Heavener School of Business (p. 580)
- **Degree:** Bachelor of Science in Business Administration
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The primary mission of the Information Systems and Operations Management Department is a commitment to scholarly research, teaching and service to advance the state of knowledge in information systems and supply chain management and to train future leaders for professional and academic careers.

Curriculum

- Combination Degrees
- Information Systems
- Information Systems Minor

The Bachelor of Science in Business Administration–Information Systems (IST_BSBA) degree program is designed for students who are interested in information systems, information technology and supply chain management. The information systems curriculum prepares students for positions as decision support specialists, information systems specialists and systems analysts. Graduates of this program can pursue graduate studies in information systems, operations management, supply chain management or business.

IST_BSBA majors are encouraged to gain practical work experience through internships, student organizations and community service. In addition, the Heavener School of Business offers students a wide variety of academic and career and leadership programs, including study abroad, the Florida Leadership Academy, involvement in student organizations and research activities. Students should consult an academic advisor/career coach for specific information.

Requirements for the Major

IST_BSBA majors must maintain a 2.0 core, major and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. In addition to the critical-tracking and General Education courses outlined below, IST-BSBA majors must take 120 credits, including:

Code	Title	Credits
Core Courses		
BUL 4310	The Legal Environment of Business	4
FIN 3403	Business Finance	4

GEB 3373	International Business	4
MAN 3025	Principles of Management	4
MAN 4504	Operations and Supply Chain Management	4
MAR 3023	Principles of Marketing	4
QMB 3250	Statistics for Business Decisions	4
QMB 3302	Foundations of Business Analytics and Artificial Intelligence (AI)	4
Major Courses		
ISM 3254	Business Systems 1	2
ISM 3255	Business Systems 2	2
ISM 4113	Business Systems Design and Applications	2
ISM 4210	Database Management	2
ISM 4220	Business Data Communications 1	2
ISM 4330	Information Systems and Operations Strategy	2
QMB 4701	Managerial Operations Analysis 1	2
QMB 4702	Managerial Operations Analysis 2	2
Restricted Elective Courses		
Any 3000/4000-level courses or 1000/4000-level foreign language courses. [1]		7
Professional Communication Course		
Select one:		3
GEB 2216	Professional Writing in Business	
GEB 3218	Professional Speaking in Business	
SPC 2608	Introduction to Public Speaking	
ENC 3312	Advanced Argumentative Writing	
Or a similar course with prior approval (requires a minimum grade of C)		
Career Readiness Requirement		**6**
Students must complete the minimum number of required credits in all four phases, see requirement details below.		
Total Credits		**64**

[1] Internship, externship, independent study or assistantship credit will not count toward this requirement.

Career Readiness Requirement

Heavener School majors in campus-based programs are required to complete 6 credit hours of professional development coursework. This sequence of course offerings is designed to help students explore careers in different business disciplines, build specific career competencies that are sought after by employers, give students an opportunity to apply their skills, and finally, to consolidate student's prior learning and add leadership tools to launch them into their careers.

To complete the career readiness requirement, students must complete the minimum number of required credits in each of the four phases.

Career Readiness Phases

Code	Title	Credits
Explore		
1 required credit; select from:		
GEB 2030	Exploring Careers in Business	
GEB 2041	Career Accelerator	
GEB 4930	Special Topics (Transfer Success)	
MAR 2290	Retail Management Seminar	
MAR 2401	Sales Seminar	
Enrich		
2 required credits; select from:		
GEB 3931	Special Topics in Business Communication	
GEB 4911	Undergraduate Research in Business	
Apply		
1 required credit; select from:		
GEB 3942	Business Externship: Micro-Consulting	
GEB 4941	Internship in Business Administration	
MAR 4941	Sales Internship	
MAR 4945	Retail Management Internship	
Advance		
2 required credits		
GEB 4900	Leadership Launch	

To satisfy the “Apply” phase, students must complete an internship or externship course. Students who choose to meet this requirement through the internship option must enroll in one of the internship courses and complete an internship of at least 150 hours before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive this requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Consult a Heavener academic and career advisor for more information.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

To remain on track for the BSBA-IST major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, the student will not be allowed to repeat that course.

Semester 1

- Complete 1 critical-tracking course from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233 or MAC 2311, STA 2023
- 2.5 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
- 3.0 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 7 critical-tracking courses
- 3.0 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Meet all semester 1-4 critical-tracking requirements
- 2.0 UF GPA required

Semester 6

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 7

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 8

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

CAREER READINESS REQUIREMENT

Heavener School majors in campus-based programs are required to complete 6 credit hours of professional development coursework. This sequence of course offerings is designed to help students explore careers in different business disciplines, build specific career competencies that are sought

after by employers, give students an opportunity to apply their skills, and finally, to consolidate student's prior learning and add leadership tools to launch them into their careers.

To complete the career readiness requirement, students must complete the minimum number of required credits in each of the four phases.

Career Readiness Phases

Code	Title	Credits
Explore		
1 required credit; select from:		
GEB 2030	Exploring Careers in Business	
GEB 2041	Career Accelerator	
GEB 4930	Special Topics (Transfer Success)	
MAR 2290	Retail Management Seminar	
MAR 2401	Sales Seminar	
Enrich		
2 required credits; select from:		
GEB 3931	Special Topics in Business Communication	
GEB 4911	Undergraduate Research in Business	
Apply		
1 required credit; select from:		
GEB 3942	Business Externship: Micro-Consulting	
GEB 4941	Internship in Business Administration	
MAR 4941	Sales Internship	
MAR 4945	Retail Management Internship	
Advance		
2 required credits		
GEB 4900	Leadership Launch	

To satisfy the "Apply" phase, students must complete an internship or externship course. Students who choose to meet this requirement through the internship option must enroll in one of the internship courses and complete an internship of at least 150 hours before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive this requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Consult a Heavener academic and career advisor for more information.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

To remain on track for the MGT_BSBA major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, the student will not be allowed to repeat that course.

Semester 1

- Complete 1 critical-tracking course from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233 or MAC 2311, STA 2023
- 2.50 GPA on all attempts of critical-tracking courses, excluding MAN 3025
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses, excluding MAN 3025
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
- 3.0 GPA on all attempts of critical-tracking courses, excluding MAN 3025
- 2.0 UF GPA required

Semester 4

- Complete 7 of the 8 critical-tracking courses, excluding MAN 3025
- 3.0 GPA on all attempts of critical-tracking courses, excluding MAN 3025
- 2.0 UF GPA required

Semester 5

- Complete MAN 3025 with a minimum grade of C
- Meet all semester 1-4 critical-tracking requirements
- 2.0 UF GPA required

Semester 6

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 7

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 8

- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

[1] Minimum grade of C required.

Academic Learning Compact

A bachelor's degree in Business Administration enables students to achieve foundation knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology, and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity's strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

The management major covers the key topics of organizational behavior, human resource management and business strategy. Within these three main topics, students learn about important areas such as leadership, effective teams and groups, employee evaluation systems and corporate governance.

Before Graduating Students Must

- Take the CAPSIM Comprehensive Exam (MOD-XM) as part of MAN 4504.
- Complete requirements for the baccalaureate degree, as determined by the faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics, and social responsibility.
2. Demonstrate proficiency in the use of business-related software applications.
3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.
4. Understand how the business environment, including culture, differs across countries.
5. Possess awareness of cultural differences and how these differences affect business decisions.
6. Identify characteristics and roles of groups and teams.
7. Identify characteristics and roles of managers and leaders.
8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.

Critical Thinking

9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.
10. Assess the outcomes of a course of action and make appropriate adjustments.

Communication

11. Write business documents clearly, concisely and analytically.
12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

Marketing

The Bachelor of Science in Business Administration-Marketing (BSBA-MKG) degree program provides a broad overview of the functional areas of business with an emphasis in marketing. Students take foundation courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of a business, such as finance, management, marketing, and operations management; and major courses that teach students how to plan and execute the conception, pricing, promotion, and distribution of products and manage customer relationships in ways that benefit organizations and their stakeholders.

About this Program

- **College:** Heavener School of Business (p. 580)
- **Degree:** Bachelor of Science in Business Administration
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Marketing Department is a recognized leader in the discipline of marketing. For over a decade, the department's faculty has ranked as one of the most productive and influential in the field, and is known for conducting provocative, cutting-edge research that contributes both to the scientific understanding and practice of marketing.

Curriculum

- Marketing
- Professional Selling Minor
- Retailing Minor

The MKG_BSBA curriculum focuses on consumer behavior, development and analysis of marketing strategies, retail management, marketing research, sales management and international marketing. The MKG_BSBA curriculum prepares students for careers in sales, marketing research, brand management, retail marketing and marketing communications, and for graduate studies in business, advertising and the social sciences.

MKG_BSBA majors are encouraged to gain practical work experience through internships, student organizations and community service. In addition, the Heavener School of Business offers students a wide variety of academic and career and leadership programs, including study abroad, the Florida Leadership Academy, involvement in student organizations and research activities. Students should consult an academic advisor/career coach for specific information.

Requirements for the Major

MKG_BSBA majors must maintain a 2.0 core, major and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. In addition to the critical-tracking and General Education courses outlined below, MKG_BSBA majors must take 120 credits, including:

Code	Title	Credits

Professional Selling Minor

The Professional Selling minor provides the knowledge and skills necessary to be consultative sellers. Develop a blend of hard and soft skills that are necessary to be successful in this very analytical discipline through the coursework. Students who complete this minor will learn professional selling skills and techniques, gain knowledge necessary to properly administer a sales force, and be more prepared to start down an entrepreneurial path through knowledge of how to build, manage, and maintain a consultative sales force.

About this Program

- **College:** Heavener School of Business (p. 580)
- **Credits:** 22-24 | Completed with an overall 2.0 GPA in the minor and a cumulative 2.0 UF GPA

Department Information

The Marketing Department is a recognized leader in the discipline of marketing. For over a decade, the department's faculty has ranked as one of the most productive and influential in the field, and is known for conducting provocative, cutting-edge research that contributes both to the scientific understanding and practice of marketing.

Real Estate Minor

The Real Estate minor introduces the business of commercial real estate, including the roles, activities, and players in the industry, common terminology, and the real estate transaction process, and prepares students to make sound decisions concerning real estate use and investment. The minor also exposes the numerous career paths available in the commercial real estate industry, including development, real estate appraisal and investment, leasing and asset management, mortgage lending, and commercial brokerage.

About this Program

- **College:** Heavener School of Business (p. 580)
- **Credits:** 22-23 | Completed with an overall 3.0 GPA in the minor and a cumulative UF GPA of 2.0

Department Information

The Finance, Insurance and Real Estate Department offers degree programs at the doctoral, masters, and undergraduate level. Besides standard finance offerings, specialized academic programs in entrepreneurship, real estate, and value investing are available. The department's faculty boasts top experts on topic matter as diverse as banking, initial public offerings, investments, international finance, mergers, and acquisitions and real estate. **Website (https://warrington.ufl.edu/finance-insurance-and-real-estate-department/)**

- Combination Degrees
- Entrepreneurship Minor
- Finance
- Real Estate Minor

All courses for the minor must be taken for letter grade. All attempts at courses for the minor will be averaged into the minor GPA. All 3000/4000-level courses required for the minor must be taken at UF or via a study abroad program preapproved by the Heavener School of Business. Flexible learning courses will not count toward the minor.

Students who completed BUL 4310 at another Florida public university can petition the school to take a higher-level course in that discipline to satisfy requirements for the minor.

Required Courses

Code	Title	Credits
BUL 4310	The Legal Environment of Business	4
ECO 2013	Principles of Macroeconomics	4
or ECO 2023	Principles of Microeconomics	
REE 3043	Real Estate Analysis	4
REE 4303	Real Estate Investment Decision Making	4
Approved electives		6-7
Total Credits		**22-23**

Approved Electives

Code	Title	Credits
BCN 1010	History of Construction	3
BCN 1210	Construction Materials	3
BCN 1251C	Construction Drawing	3
BCN 1582	International Sustainable Development	3
DCP 3200	Methods of Inquiry for Sustainability and the Built Environment	3
DCP 3210	Sustainable Solutions for the Built Environment	3
GEO 3430	Population Geography	3
GEO 3602	Urban and Business Geography	3
GEO 3611	Housing, People, and Places in a Spatially Diverse America	3
REE course (3000/4000 level)		2-4
URP 4000	Preview of Urban and Regional Planning	3
URP 4273	Survey of Planning Information Systems	3
URP 4740	Housing and Urban Development	3

Retailing Minor

This minor exposes students to an industry that is global, technical, and robust. It teaches how retailers procure merchandise, understand strategic analytics, and adapt to constantly changing markets to remain competitive. Along with academic theory, students studying this minor are exposed and encouraged to network with industry executives to understand state of the art practices and learn from those practicing in the channels. As they approach senior year, students will be challenged to experience managerial positions with supervised retail internships in both stores and support centers.

About this Program

- **College:** Heavener School of Business (p. 580)
- **Credits:** 21 | Completed with an overall 2.0 GPA in the minor and a cumulative 2.0 UF GPA
- **Contact:** Email (cecilia.schulz@warrington.ufl.edu)

Department Information

The Marketing Department is a recognized leader in the discipline of marketing. For over a decade, the department's faculty has ranked as one of the most productive and influential in the field, and is known for conducting provocative, cutting-edge research that contributes both to the scientific understanding and practice of marketing.

Wealth Management Minor

This minor provides a solid understanding of the concepts and techniques used by wealth management and insurance advisors and practitioners to assist individual and institutional clients. Students will gain the necessary skills to help individuals and firms meet the expanding needs of their client base. This minor also facilitates obtaining necessary coursework for important career and professional certification such as Certified Financial Analysts (CFA), Certified Financial Planners (CFP), Certified Insurance Counselors (CIC), and Certified Risk Managers (CRM).

About this Program

- **College:** Heavener School of Business (p. 580)

Academic Advising
301 Rinker Hall
352.273.1180

Established

1935, through the architecture program. Became a department in 1957 and a school in 1976.

Accredited

American Council for Construction Education

Degrees

Bachelor of Science in Construction Management (BSCM), Bachelor of Science in Fire and Emergency Services (BSFES.)

Certificates

EMS Management, FES Management, Construction Management, Senior Fire Officer

Scholarships

General financial aid information is available from the Office of Student Financial Affairs. The school can provide scholarship information for third- and fourth-year construction management students.

Internships and Career Guidance

The school has a career placement office and also hosts a construction management career fair each semester.

Research Centers

Shimberg Center for Housing Studies, the Powell Center for Construction and Environment, the Fluor Program for Construction Safety and the Center for Advanced Construction Information Modeling.

Academic Policies

Application Deadlines

Students are admitted for third-year professional coursework in the Fall and Spring semesters for Construction Management and each semester for Fire and Emergency Services. Application procedures, receipt of transcripts and school requirements for admission should be completed by the application deadline. Late applications are not accepted.
More Info (http://www.admissions.ufl.edu/ugrad/trappdates.html)

Normal Academic Progress

Students must maintain normal academic progress with a minimum GPA of 2.0 for all courses attempted in the junior and senior years. Students must take courses in the sequence specified. Students may be dismissed from the program if they fail to maintain normal academic progress.

Normal Course Loads

The average course load for construction management students is 16 credits. Students who wish to take fewer than 12 credits should be aware that certain university privileges and benefits require a minimum course load. It is the student's responsibility to verify the minimum course load necessary for these privileges and benefits.

Student Work

The Rinker School reserves the right to retain all student work for the purpose of record, exhibition or instruction.

Probation and Dismissal

Students who do not make satisfactory academic progress will be excluded from further registration.

Students who receive a failing grade in a BCN course will be dismissed if they subsequently receive a failing grade in the same course.

Students failing two or more BCN courses in any semester will be dismissed.

Student Responsibility

Before enrolling, it is the student's responsibility to review and consider all pertinent information about the university and the school. Special attention must be paid to required documentation, degree requirements and deadlines.

Waiver of Liability

Several courses require field trips. All students must sign a waiver of liability and a hold harmless agreement as a prerequisite to admission to the School of Construction Management. In addition, student organizations are represented at conferences, seminars and projects outside of campus. A separate, similar waiver will be used for students who participate in these voluntary activities.

Admission to Construction Management

Admission to CM is *selective* and is given to those applicants whose potential indicates the greatest likelihood of success in the program.

All Students

- The school has limited admission. An applicant's satisfaction of minimum requirements does not guarantee admission. The school has established a selective process for admission and only a limited number of new students are accepted each Fall and Spring term. No distinction is made between internal and external transfers. Students may apply only twice to upper division.
- Students must attain a minimum 2.50 GPA in construction management prerequisite coursework and have an overall 2.50 GPA for all freshman and sophomore work required for a baccalaureate degree in construction management.
- Students must submit a personal statement outlining their reasons for applying to the Rinker School. Consideration is also given to the number of preprofessional courses remaining, as well as to the applicant's letter of intent, work experience, personal references and participation in student organizations and community events.
- Students must complete two sequential courses of foreign language in secondary school, 8-10 credits at the postsecondary level or document an equivalent level of proficiency.

Transfer Students

Students attending four-year colleges should follow a program of General Education and preprofessional courses equivalent to the basic curriculum for entry to the Rinker School.

Junior college and public college students must meet the following requirements:

- Complete the university transfer program at the junior college.
- Complete the AA degree.
- Complete all prerequisite General Education and preprofessional courses, or acceptable substitutes.
- Meet with an academic advisor in the Rinker School before applying to upper division.
- Can transfer up to 15 credits from another ACCE accredited four-year program.

Admission to Fire and Emergency Services

All Students

- An Associate of Arts degree from a Florida state college -OR- 60+ transferrable credits from a regionally accredited college or university (may require additional coursework to satisfy the state of Florida General Education requirements).
- A minimum 2.30 GPA in fire and emergency services prerequisite coursework and have an overall 2.30 GPA for all freshman and sophomore work required for a baccalaureate degree in fire and emergency services.
- Complete two sequential courses of foreign language in secondary school, 8-10 credits at the postsecondary level *or* document an equivalent level of proficiency.
- Credits beyond the 60 required for admission to the school will not reduce the number of credits to be completed in the junior and senior years to earn a degree. These courses may not be accepted for equivalent credit.
- Travel may be required

Transfer Students

Students attending four-year colleges should follow a program of General Education and preprofessional courses equivalent to the basic curriculum for entry to the school.

Junior college and public college students should:

- Complete the university transfer program at the junior college.
- Complete the AA degree.
- Complete all prerequisite General Education and preprofessional courses, or acceptable substitutes.

Degree Requirements

Seniors must file a formal application for degree on ONE.UF (https://one.uf.edu/) by the deadline (p. 1921), which is early in the semester in which they expect to receive the degree.

To receive the Bachelor of Science in Construction Management, a student must complete all of the following satisfactorily:

- Complete 64 credits of construction management prerequisite requirements.
- Complete the approved program in construction management, consisting of 61 credits of 3000/4000-level coursework taken in the junior/senior years.

- Attain a minimum 2.0 overall GPA.
- Attain a minimum 2.0 GPA on all 3000/4000-level degree requirements.
- A minimum of 125 credits is required for graduation. The waiving of any required course does not reduce the credits required for graduation.

Degree Requirements for Fire and Emergency Services

Seniors must file a formal application for degree on ONE.UF (https://one.uf.edu/), by the deadline (p. 1921), which is early in the semester in which they expect to receive the degree.

To receive the Bachelor of Science in Fire and Emergency Services, a student must complete all of the following satisfactorily:

- Complete the approved program in fire and emergency services, consisting of 60 credits of 3000/4000-level coursework taken in the junior/senior years.
- Attain a minimum 2.0 overall GPA.
- Complete a minimum of 120 credits. The waiving of any required course does not reduce the credits required for graduation.

Construction Management

Bachelor of Science in Construction Management is a four-year program for students interested in careers in construction management, techniques, operations, and related areas in the construction industry. The degree draws upon skills in communication and interpersonal relations.

About this Program

- **College:** Design, Construction and Planning (p. 659)
- **School:** M.E. Rinker, Sr. School of Construction Management (p. 631)
- **Degree:** Bachelor of Science in Construction Management
- **Credits for Degree:** 120
- **Contact:** 352.273.1180 | 304 Rinker Hall (http://campusmap.ufl.edu/?loc=0272)

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The mission of the M. E. Rinker, Sr. School of Construction Management is to be the center of excellence for construction. The Rinker School will pursue this by promoting professional and ethical behavior in education and practice, advancing the industry by creating new knowledge through research and scholarly activities, educating individuals in principles, knowledge, and skills required to be successful in their professional careers, and providing service and transferring knowledge to the citizens of Florida, the construction industry, professional societies, the nation, and the world.

Curriculum

- Combination Degrees
- Construction Management
- Construction Management Certificate
- Emergency Management Certificate
- Emergency Medical Services Management Certificate
- Fire and Emergency Services UF Online
- Senior Fire Officer Certificate

Opportunities for advancement and increasing responsibility exist in all areas of the construction industry, including land development; home building; public building; industrialized building systems; commercial, industrial, marine and heavy construction; underwater development; space-age facilities; materials and equipment sales and installations; and construction product research, development, sales and applications.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 3 of 9 critical-tracking courses: ACG 2021, BCN 1210, BCN 1251C (or ARC 1301 and ARC 1302), BCN 2405C, BUL 4310, ECO 2013 or ECO 2023, ENC 2256, STA 2023, PHY 2053
- 2.35 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course
- 2.4 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses
- 2.45 UF GPA required

Semester 4

- Complete 3 additional critical-tracking courses
- 2.5 GPA on all attempts of critical-tracking courses
- 2.5 UF GPA required

Semester 5

- Complete BCN 3730

Semester 6

- Complete BCN 4423C

Semester 7

- Complete BCN 4612C

Semester 8

- Complete BCN 4787C

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
BCN 1210	Construction Materials (**Critical Tracking**) [2]	3
DCP 1003 or BCN 1001	Creating our Built Environment or Introduction to Construction Management	1
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80)) [1, 2]	3
PHY 2053	Physics 1 (**Critical Tracking**; State Core Gen Ed Physical Sciences) [2]	4
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	3
	Credits	**14**
Semester Two		
Quest 1 (Gen Ed Humanities)		3
Select one:		4
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	
ECO 2023	Principles of Microeconomics (**Critical Tracking**)	
ENC 1102	Argument and Persuasion (Gen Ed Composition) [2]	3
Gen Ed Physical Sciences [2]		3
Any SPN course, SPC course, COM course, or General Education course		3
	Credits	**16**
Semester Three		
Quest 2 (Gen Ed Physical or Biological Sciences OR Gen Ed Social and Behavioral Sciences)		3
BCN 1251C	Construction Drawing (**Critical Tracking**)	3
BCN 2405C	Construction Mechanics (**Critical Tracking**) [2]	4
MAC 2233	Survey of Calculus 1 (Gen Ed Mathematics) [2]	3
State Core Gen Ed Humanities (p. 80)		3
	Credits	**16**
Semester Four		
ACG 2021	Introduction to Financial Accounting (**Critical Tracking**)	4
BUL 4310	The Legal Environment of Business (**Critical Tracking**)	4
ENC 2256	Writing in the Disciplines (**Critical Tracking**; Gen Ed Composition)	3
Any SPN course, SPC course, COM course, or General Education course or BCN 1582		3
	Credits	**14**
Semester Five		
BCN 3027C	Principles of Construction Management	3
BCN 3224C	Construction Techniques	3
BCN 3255C	Graphic Communication in Construction	3
BCN 3431C	Structures	3

BCN 4753	Construction Finance	3
Elective (BCN or approved)		3
	Credits	**16**

Semester Eight		
BCN 3700	Construction Contracts	3
BCN 4709C	Construction Project Management	3
BCN 4787C	Construction Capstone Project (**Critical Tracking**)	3
Elective (BCN or approved)		3
	Credits	**12**
	Total Credits	**120**

1 If a student places out of ENC 1101, they should take ENC 1102.
2 Minimum grade of C required.

Residential Option

Building construction students may graduate with a residential option if they choose the option by registration for Semester 6.

Required Electives

Code	Title	Credits
Select one:		
REE 4303	Real Estate Investment Decision Making	
BCN 4237	Roofing Systems	
BCN 4787C	Construction Capstone Project (a residential project)	3

Combination BS/MSCM and BS/MCM Degree Programs

The combination-degree programs require the same freshman, sophomore and junior course requirements as the BSCM program. The senior-year courses vary, as follows:

Course	Title	Credits
Semester Seven		
BCN 4423C	Temporary Structures	4
BCN 4510C	Mechanical Systems	4
BCN 4612C	Construction Estimating 2	3
BCN 4720	Construction Planning and Control	3
Graduate-level elective		3
	Credits	**17**
Semester Eight		
BCN 4753	Construction Finance	3
BCN 5705C	Project Management for Construction	3
BCN 5789C	Construction Project Delivery	3
Graduate-level elective		3
	Credits	**12**
	Total Credits	**29**

Academic Learning Compact

The Bachelor of Science in Construction Management prepares students for a career in the construction industry.

Before Graduating Students Must

- Pass the performance based capstone course utilizing Construction Project Simulation.
- Successfully utilize and interpret the Florida Building Code in classroom tests and reports.
- Satisfy formal presentation requirements; attend field trips and submit reports for them that demonstrate proficiency in writing professional memos and letters.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Interpret knowledge of engineering, materials, methods, equipment, and processes to safely construct buildings and structures.
2. Survey and quantify building components to estimate project costs, analyze progress, and control expenditures.

Critical Thinking

3. Create an effective planning, scheduling and control system by identifying, evaluating, and organizing the diverse elements of a construction project.
4. Set up and manage project administration and management systems to efficiently document and monitor the construction process.

Communication

5. Describe technical and financial data effectively in speech and in writing to all stakeholders in the construction process.

Curriculum

- Combination Degrees
- Construction Management
- Construction Management Certificate
- Emergency Management Certificate
- Emergency Medical Services Management Certificate
- Fire and Emergency Services UF Online
- Senior Fire Officer Certificate

The program specializations offer the student the ability to focus their degree in three different aspects of the emergency services industry. The program prepares the graduates for advancement in the ranks for the fire service, EMS and emergency management. In addition, graduates can find jobs at the local, state and national level of government, insurance companies, industry, and other areas. Students may apply to the university at the junior year after earning the Associate of Arts degree from a Florida state college or other regionally accredited academic institution. Freshman and sophomore coursework will be taken at a Florida state or public college or other regionally accredited academic institution.

After being accepted, students can pursue a Bachelor of Science without moving to Gainesville. Coursework for the junior and senior years will be offered via electronic distance learning, and UF faculty will teach and advise students in the program.

Students need access to a personal computer capable of connecting to the Internet.

Course requirements for the Degree

The BS degree is for students with different professional objectives. All students, regardless of specialization, are required to take FES 3015 as their opening course.

Each specialization has a specific set of required core courses required courses and electives of upper-division courses that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. The required courses are designed to be applicable across all specializations. The electives allow the students to select courses that meet their career interest. Upper-division courses are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Academic Learning Compact

The School of Construction Management offers an accessible Bachelor of Science program for members of the Fire and Emergency services. This degree program is designed to build on students' experience in the fire service and to add the academic substance to prepare students to lead public or private sector fire and emergency service units.

Before Graduating Students Must

- Demonstrate ability in management, labor issues, and operations.
- Demonstrate ability in services related to medical, disaster, and human resources.
- Demonstrate ability in public relations, ethical practices, and leadership.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify and evaluate organizational problems associated with fire and emergency services.
2. Identify and demonstrate proper knowledge and use of comprehensive emergency management/command and control skills in major catastrophic incidents in fire and emergency services.
3. Illustrate knowledge and legal application of safety, health, and environmental regulations at state and federal levels.

Critical Thinking

4. Demonstrate effective leadership behavior and skills in fire and emergency services.
5. Properly address issues of management, code regulations, and the labor market in fire and emergency services.

Communication

6. Demonstrate strong verbal and written communication skills for leadership in fire and emergency services.

Academic Learning Compact

The School of Construction Management offers an accessible Bachelor of Science program for members of the Fire and Emergency services. This degree program is designed to build on students' experience in the fire service and to add the academic substance to prepare students to lead public or private sector fire and emergency service units.

Before Graduating Students Must

- Demonstrate ability in management, labor issues, and operations.
- Demonstrate ability in services related to medical, disaster, and human resources.
- Demonstrate ability in public relations, ethical practices, and leadership.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify and evaluate organizational problems associated with fire and emergency services.
2. Identify and demonstrate proper knowledge and use of comprehensive emergency management/command and control skills in major catastrophic incidents in fire and emergency services.
3. Illustrate knowledge and legal application of safety, health, and environmental regulations at state and federal levels.

Critical Thinking

4. Demonstrate effective leadership behavior and skills in fire and emergency services.
5. Properly address issues of management, code regulations, and the labor market in fire and emergency services.

Communication

6. Demonstrate strong verbal and written communication skills for leadership in fire and emergency services.

Fire Management

The Fire and Emergency Services degree program is designed to add the academic substance to prepare graduates to lead public or private sector fire, EMS, and emergency management. Students earn a bachelor of science with the ability to specialize in fire, emergency medical services management, or emergency management.

About this Program

- **College:** Design, Construction and Planning (p. 659)
- **School:** M.E. Rinker, Sr. School of Construction Management (p. 631)
- **Degree:** Bachelor of Science in Fire and Emergency Services
- **Specializations:** Fire Management (p. 653) | Emergency Medical Services Management (p. 649) | Emergency Management (p. 645)
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The mission of the M. E. Rinker, Sr. School of Construction Management is to be the center of excellence for construction. The Rinker School will pursue this by promoting professional and ethical behavior in education and practice, advancing the industry by creating new knowledge through research and scholarly activities, educating individuals in principles, knowledge, and skills required to be successful in their professional careers, and providing service and transferring knowledge to the citizens of Florida, the construction industry, professional societies, the nation, and the world.

Curriculum

- Combination Degrees
- Construction Management
- Construction Management Certificate
- Emergency Management Certificate
- Emergency Medical Services Management Certificate
- Fire and Emergency Services UF Online
- Senior Fire Officer Certificate

The program specializations offer the student the ability to focus their degree in three different aspects of the emergency services industry. The program prepares the graduates for advancement in the ranks for the fire service, EMS and emergency management. In addition, graduates can find jobs at the local, state and national level of government, insurance companies, industry, and other areas. Students may apply to the university at the junior year after earning the Associate of Arts degree from a Florida state college or other regionally accredited academic institution. Freshman and sophomore coursework will be taken at a Florida state or public college or other regionally accredited academic institution.

After being accepted, students can pursue a Bachelor of Science without moving to Gainesville. Coursework for the junior and senior years will be offered via electronic distance learning, and UF faculty will teach and advise students in the program.

Students need access to a personal computer capable of connecting to the Internet.

Course requirements for the Degree

The BS degree is for students with different professional objectives. All students, regardless of specialization, are required to take FES 3015 as their opening course.

Each specialization has a specific set of required core courses required courses and electives of upper-division courses that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. The required courses are designed to be applicable across all specializations. The electives allow the students to select courses that meet their career interest. Upper-division courses are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Fire Management

For students who wish to work in the fire service or a fire related career. The program focuses on the area of fire science.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Model Semester Plan

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Advising

The college's advising center in 331 Architecture Building provides academic advising to undergraduate students in architecture, interior design, landscape architecture, and sustainability and the built environment.
Map (http://campusmap.ufl.edu/#/index/0268)

Undergraduate students in the Rinker School of Construction Management should report to 301 Rinker Hall for academic advising.
Map (http://campusmap.ufl.edu/#/index/0272)

Scholarships

Scholarships within the college are available to students in the upper-division and graduate professional programs.

Guidance

Internships vary by academic unit. Consult the academic unit regarding its requirements for internships. The academic unit and the dean's office (331 ARCH) provide career guidance.
More Info (http://www.dcp.ufl.edu/faculty/)

Students considering application to the college should anticipate expenditures for computers, travel, equipment and tools essential to their education as design, planning and construction professionals. For further information, contact the appropriate department/school.

Academic Policies

Admission Requirements

Admission to this college is selective and cannot be guaranteed to applicants who satisfy minimum requirements. The college has established a selective admission process and priority is given to those applicants who, in the judgment of the appropriate department/school's admissions committee, have the greatest potential for successful completion of the program.

Admission Protocols for Native UF Students

Freshmen at the university are admitted directly into architecture, construction management, interior design, landscape architecture and sustainability and the built environment programs.

The college will monitor the progress of all students. Students who fall below the critical-tracking criteria for the degree program will have a hold placed on their records. They must see an advisor in the college/academic unit before they can advance register and continue in the program. They also may be referred to the Academic Advising Center to seek admission to another college.

Admission Protocols for Transfer Students *without* Coursework in Architecture, Interior Design and Landscape Architecture

Conditional admission is open to applicants who have:

- Accumulated 60 credits of college-level coursework (for university transfer only) or earned the AA degree (Florida public state college transfer students only),
- Completed two sequential foreign language courses in secondary school or 8-10 credits at the postsecondary level (or documented an equivalent level of proficiency), and

- Met the general admissions criteria, yet still need to complete first-year and second-year preprofessional courses.
  - Summer A is the primary semester for transfer admission for students without architecture or interior design prerequisites.
  - Fall is the primary entry semester for landscape architecture.
  - Transfer students without preprofessional courses are admitted conditionally and will be reviewed for selective admission into the third year of the program upon completion of the preprofessional courses, review of their academic performance and portfolio of work. These students may require as many as four semesters at the university to complete preprofessional requirements because of the sequential nature of the courses.

Each department/school may consider any or all of the following for admissions review:

- Architecture: Completion of MAC 1147 (or MAC 1140 and MAC 1114), PHY 2004 or PHY 2053
- Interior Design: Completion of MAC 1147 (or MAC 1140 and MAC 1114), PHY 2004 or PHY 2053, ARH 2051
- Landscape Architecture: Completion of MAC 1147 (or MAC 1140 and MAC 1114), BOT 2010C or BSC 2005
- Preprofessional GPA
- Achievements in preprofessional courses and/or courses related to the chosen plan of study
- Portfolio review or pin-up (design students)

Admission Protocols for Transfer Students in the Sustainability and the Built Environment Program

Conditional admission is open to applicants who have:

- Accumulated 60 credits of college-level coursework (for university transfer only) or earned the AA degree (Florida public state colleges and universities)
- Completed the standard online UF transfer application
- Completed two sequential foreign language courses in secondary school or 8-10 credits at the postsecondary level (or documented an equivalent level of proficiency)
- Completed ECO 2013, ECO 2023, MAC 1147 (or MAC 1140 and MAC 1114) and STA 2023 with minimum grades of C
- Achieved an overall minimum GPA of 3.0

Admission Protocols for Transfer Students with Coursework in Architecture, Interior Design or Landscape Architecture

Transfer students who will receive their Associate of Arts degree from a Florida public institution must meet or exceed the 60-credit admission protocols for admission to the college.

The admission protocols for each department:

Architecture Upper-Division Transfer

Any student who has earned an Associate of Arts degree in the course of completing a two-year pre-architecture program at one of the Florida public state colleges and universities (Broward College, Hillsborough College, Indian River College, Miami-Dade College, Palm Beach College, St. Petersburg College, Valencia College) can apply for admission into the UF Bachelor of Design program's upper division.

Both UF and Florida state college applicants for upper-division placement are ranked competitively according to overall grade point average, architectural grade point average and faculty evaluation of design studio work in the annual Pin-Up Exhibits (all calculated by UF standards) to determine whether or not they qualify for placement into UF's upper-division Bachelor of Design curriculum.

All applicants must apply to the university's Office of Admissions by the deadline to qualify for admission to the School of Architecture.

This is in addition to sending the School of Architecture the Notice to Pin Up by the deadline.

Students wishing to transfer from an institution with some design and related preprofessional courses may present a portfolio of work to the school for review and placement. Students will be placed in the program the committee determines is appropriate, which may necessitate a repeat of previous coursework.

Interior Design

Transfer students must contact the department to determine admission timing and eligibility. All students must complete General Education and preprofessional coursework before admission to professional studies. Criteria for admission include review of design performance, transcript, letter and interview.

Students who need to complete preprofessional requirements should apply to the Summer A term to begin the required tracking courses. The remaining preprofessional courses may be completed during the next academic year. Students accepted for the sequence are admitted conditionally and their records will be reviewed during the next Spring term for entry into professional courses in the junior year.

Students are admitted selectively to the professional program on the basis of portfolio review, overall grade point average, interview and letter of application. Notification of the admission decision will be made before the end of the Spring semester for the junior class that begins that Fall. Contact the department for current information.

Landscape Architecture

Transfer students must contact the department to determine admission timing and eligibility. All students must complete General Education and preprofessional coursework before admission to professional studies. Criteria for admission include review of design performance, transcript, letter and interview.

Construction Management

Refer to the M.E. Rinker, Sr. School of Construction Management (p. 631).

Application Deadlines

More Info (http://www.admissions.ufl.edu/ugrad/trappdates.html)

The programs in Architecture, Interior Design and Landscape Architecture will admit students for third-year professional coursework only in the Fall semester. Students who need to complete some or all of the preprofessional requirements shall be reviewed for the Fall and Summer A semesters only.

The programs in Building Construction and fire and emergency services in the M.E. Rinker, Sr. School of Construction Management will admit students for third-year professional coursework in the Fall and Spring semesters.

The Office of Admissions (for transfer students) or the college dean's office (for UF students) must receive applications and all required credentials by the college/school application deadlines.

College Regulations

Dean's List (p. 1839)

Field Trips

There are required field trips to give students an opportunity to broaden and expand their educational experience through study of planning, design, construction and sustainability projects. Students may also be required to attend state and national professional meetings.

Maximum and Minimum Loads

A normal load is 14-16 credits per semester. A student may be permitted to register for more than 17 credits when the advisor feels the student's record justifies it.

The minimum is 12 credits for full-time status; students who wish to take fewer credits should be aware that certain university privileges and benefits require full-time status. It is the student's responsibility to verify the minimum academic load necessary.

Students who seek an adjustment to their academic load may petition the dean through the director of student services and the appropriate department chair.

While the preprofessional and professional course sequence must be maintained, variation of General Education and elective coursework may occur. The four-year plans shown require an average of more than 16 credits per term, which may not be appropriate for all students. Students should plan their curricula well in advance so the course sequence and credit loads will accommodate the most effective academic progress, regardless of the number of terms required.

Practical Experience

Before graduating, students should get experience in the employment of practicing professionals in their field or in some allied profession. Such employment provides an introduction to the methods of actual practice and enables the student to derive increased benefit from advanced work in school. Students should contact their advisor for recommended or required practical experience.

Student Work

The college can retain student work for the purpose of record, accreditation, exhibition or instruction. Work produced while the student is enrolled in the college is the property of the college.

Degree Requirements

To be eligible for graduation, students must earn a 2.0 minimum overall grade point average and a 2.0 grade point average for all work attempted in the college. Students planning to enter the Graduate School must maintain a 3.0 average in the junior and senior years.

Graduating with Honors (p. 1840)

Architecture

A student's creativity and individuality are rewarded in the School of Architecture's studio-based learning experience. Students benefit from the close student-to-teacher ratios and a true interdisciplinary learning environment.

About this Program

- **College:** Design, Construction and Planning (p. 659)
- **Degree:** Bachelor of Design | *BDes, a preprofessional degree*
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Architecture recognizes design as a synthesis of thinking, analyzing and making — an iterative process that engages, issues of space, historical precedent, sustainability, ecology, urbanity, landscape, built-form, and construction toward innovation. The School of Architecture is uniquely positioned to respond to these issues by deploying studio based design methodologies in collaboration with a new generation of experts in engineering, ecology, business, anthropology, energy, fine arts, medicine, and construction.

Email (mmcgloth@ufl.edu) | 352.294.1477

P.O. BOX 115702
331 ARCHITECTURE BUILDING
1480 Inner Road
GAINESVILLE FL 32611-5702
Map (http://campusmap.ufl.edu/#/index/0268)

Curriculum

- Architecture
- Architecture Minor

Many students supplement their education with study-abroad and off-site learning opportunities in Vicenza, Asia, Mexico, Nantucket and more. An extensive library, modern computer labs, woodshop, 3D fabrication lab and beautiful college environment facilitate creativity. Students regularly exhibit their models and drawings in the college's gallery.

The studio sequence progressively and thoroughly explores various formal, conceptual and technical considerations and how they interrelate in the creation of space. The ideas and experience that students gain in design studio are reinforced and amplified by support courses in history, theory, structural tectonics, building technology and construction materials and methods.

Field trips to broaden and expand students' educational experience are required and will be paid for by students. Students may also be required to attend state and national professional meetings.

The School of Architecture's preprofessional Bachelor of Design program prepares students for graduate school studies toward the accredited two-year Master of Architecture degree or for jobs in private practice.

National Architectural Accrediting Board

Most states require architects to hold accredited degrees. Two types of degrees accredited by the National Architectural Accrediting Board (NAAB) are the Bachelor of Architecture (5 years) and the Master of Architecture (1, 2 or 3 years depending on institution). Both degrees are structured for registration and licensure. UF's four-year preprofessional degree is not accredited by the NAAB; the two-year Master of Architecture degree is an accredited degree.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete DCP 1003 in Semester 1 or 2 [1]
- Complete ARC 1301 and ARC 1701
- 2.75 UF GPA required

Semester 2

- Complete DCP 1003, if not completed in Semester 1 [1]
- Complete ARC 1302 and ARC 1702
- 2.75 UF GPA required

Semester 3

- Complete ARC 2490C ARC 2201, ARC 2303
- Complete MAC 1147 or PHY 2053
- 2.75 UF GPA required

Semester 4

- Complete ARC 2304 and ARC 2491C
- Compete MAC 1147 and PHY 2053
- Complete pin-up requirement
- 2.75 UF GPA required

Semester 5

- Complete ARC 3320, ARC 3492C, and ARC 3743

Semester 6

- Complete ARC 3321 and ARC 3493C

Semester 7

- Complete ARC 4322 and ARC 4494C

Semester 8

- Complete ARC 4323

[1] Summer transfer students should complete DCP 1003 by Semester 4.

Model Semester Plan

Students are required to complete a Quest 1 course in semester 1 or 2, and a Quest 2 course in semester 3 or 4.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ARC 1301	Architectural Design 1 (**Critical Tracking**)	4
ARC 1701	Survey of Architectural History 1 (**Critical Tracking**; Gen Ed Humanities and International)	3
DCP 1003	Creating our Built Environment (**Critical Tracking**)	1
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Gen Ed Mathematics		3
	Credits	**14**
Semester Two		
Quest 1 (Gen Ed Humanities)		3
ARC 1302	Architectural Design 2 (**Critical Tracking**)	4
ARC 1702	Survey of Architectural History 2 (**Critical Tracking**; Gen Ed Humanities and International)	3
Gen Ed Biological or Physical Sciences		3
Gen Ed Composition; Writing Requirement		3
	Credits	**16**
Semester Three		
ARC 2490C	Introduction to Building Technologies (**Critical Tracking**)	3
ARC 2201	The Theory of Architecture (**Critical Tracking**; Gen Ed Humanities)	3
ARC 2303	Architectural Design 3 (**Critical Tracking**)	5
MAC 1147	Algebra and Trigonometry (**Critical Tracking**; State Core Gen Ed Mathematics) [1]	4
	Credits	**15**
Semester Four		
Quest 2 (Gen Ed Physical, Biological, or Social and Behavioral Sciences)		3
ARC 2304	Architectural Design 4 (**Critical Tracking**)	5
ARC 2491C	Integrated Building Technology 1 (**Critical Tracking**)	3
PHY 2053	Physics 1 (**Critical Tracking**; State Core Gen Ed Physical Sciences) [1]	4
	Credits	**15**
Semester Five		
ARC 3320	Architectural Design 5 (**Critical Tracking**)	6
ARC 3492C	Integrated Building Technology 2 (**Critical Tracking**)	6
ARC 3743	Architectural History 3 (**Critical Tracking**)	3
	Credits	**15**
Semester Six		
ARC 3493C	Integrated Building Technology 3 (**Critical Tracking**)	6
ARC 3321	Architectural Design 6 (**Critical Tracking**)	6
State Core Gen Ed Humanities (p. 80)		3
	Credits	**15**
Semester Seven		
ARC 4220	Architectural Theory 2 (**Critical Tracking**)	3
ARC 4322	Architectural Design 7	6
ARC 4494C	Integrated Building Technology 4	3
Elective [3]		3
	Credits	**15**
Semester Eight		
Select one:		3
ARC 4310C	Building Information Modeling [2]	
Elective [3]		
ARC 4323	Architectural Design 8	6
State Core Gen Ed; Writing Requirement		3

Elective [3]		3
	Credits	**15**
	Total Credits	**120**

1. The School of Architecture requires students to complete MAC 1147 and PHY 2053 before Semester 5. Due to the rigorous nature of design studio, students should complete these courses during the Summer semesters. MAC 2233 is recommended before graduating because of the admissions requirements of some graduate programs.
2. The School of Architecture strongly recommends taking ARC 4310C as part of Semester 8, as BIM systems have become commonplace within the architecture profession.
3. Any 3000-level or higher academic course, any 1000-level or higher foreign language where the student is not a native speaker and where the course is taken at an SUS institution, or any course sequence toward a minor.

This program is limited access. At the end of semester 4, students will be selected according to a competitive ranking of all applicants by overall GPA, architectural GPA and faculty evaluation of design quality in the annual pin-up exhibits.

Academic Learning Compact

The Bachelor of Design requires students to demonstrate and to understand the creative design process and associated skills as they relate to problem solving and spatial organization. Students will develop skills in spatial design, graphic communication, materials, technology and environmental issues. Programs analyze existing and projected examples of build form, define fundamental principles and knowledge of the discipline, develop students' skills in the formation and projection of spatial experience and relate creativity to cultural and physical environment.

Before Graduating Students Must

- Follow and achieve national accreditation (NAAB) guidelines for terminal project and portfolio assessments.
- Receive acceptable review and assessment of studio work from faculty, industry professionals and peers.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Implement a creative and synthetic design process to produce unique and appropriate architectural proposals.
2. Create presentations utilizing appropriate disciplinary vocabulary and graphic skills that support design methodologies.
3. Acquire, interpret and analyze information as the basis for design proposals.

Critical Thinking

4. Communicate about the discipline to a variety of audiences using a variety of formats and approaches.
5. Acquire skills in drawing, electronic imaging, materials and environmental issues.

Communication

6. Create conceptually clear and expressive design proposals based on appropriate prioritization of issues, thoughtful analysis of project parameters and critical reflection of schematic ideas.
7. Produce designs built upon the relationship between human behavior and perception in relation to the built environment.

Architecture Minor

The Architecture Minor introduces the role of architecture in the design, making, and sustaining of the built environment. Students completing the minor in architecture graduate with a more versatile and well-rounded skillset sought by many disciplines, industries, professions, and graduate programs.

About this Program

- **College:** Design, Construction and Planning (p. 659)
- **Credits:** 15 | Completed with minimum grades of C

School Information

The School of Architecture recognizes design as a synthesis of thinking, analyzing and making — an iterative process that engages, issues of space, historical precedent, sustainability, ecology, urbanity, landscape, built-form, and construction toward innovation. The School of Architecture is uniquely positioned to respond to these issues by deploying studio based design methodologies in collaboration with a new generation of experts in engineering, ecology, business, anthropology, energy, fine arts, medicine, and construction.

Curriculum

- Architecture
- Architecture Minor

This minor is open to all UF undergraduates. Interested students must meet with the DCP College Advisor to apply. Additional courses may apply to the minor with advisor approval.

Transfer students may transfer up to 6 approved credits and must submit syllabus material to the DCP College Advisor prior to admittance approval. Because there is no non-UF equivalent for ARC 1000, and as it is required for minor, it is taught Summer B and Fall semesters.

Architecture major students who switch their major prior to the end of their second year can count ARC 1701 and ARC 1702 towards the minor, one as a substitute for ARC 1720. Coursework may also count towards requirements for other DCP minors such as BSSBE minor. Additional 3000- and 4000-level electives may be considered with an advisor's approval.

Required Courses

9 of the 15 credits must be taken at UF and 6 credits must be at 3000-level or higher.

Code	Title	Credits
ARC 1000	Architecture + Humanity (Taught Summer B and Fall)	3
ARC 1720	Survey of Architecture History	3
Approved electives		9
Total Credits		**15**

Interior Design

Consistently positioned as a leader nationally, the Interior Design program is recognized as an excellent major for students with strong creative and problem-solving abilities who are self-motivated and enjoy shaping user experiences in interior environments.

About this Program

- **College:** Design, Construction and Planning (p. 659)
- **Degree:** Bachelor of Design
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Interior Design engages in research and creative scholarship with expertise in technology, design, communication, sustainability, lighting, history, and materials. The department's newest ventures involve virtual reality (VR).

Map (http://campusmap.ufl.edu/#/index/0268)

Curriculum

- Combination Degrees
- Interior Design

Interior design utilizes creativity, art, science, and technology to create imaginative, functional and inspiring spaces that:

- Serve the needs, function and requirements of individuals
- Provide a sense of place and attachment to those in interior environments.
- Are conceived responsibly and in ways that are sustainable
- Engage all stakeholders as active participants in the design process.

Graduates of the program develop on all levels: as thoughtful leaders, innovators, collaborators and as ethical and socially engaged human beings. The program prepares students for a variety of professional careers. Students gain experience in many sectors of design such as workplace design, retail, healthcare, residential and hospitality design.

The department conducts extended field trips to cities such as Atlanta, Chicago, Memphis, and New Orleans during which students interact with experienced designers, significant projects and buildings, exhibitions and showrooms. During the summer after the junior year students have opportunities to study abroad at the Detmold School for Architecture and Interior Architecture at the University of the Applied Sciences in Detmold,

Germany. During that summer students are required to enroll in the required Design Field Experience (DFE) program, and choose to do paid internships, study abroad, perform research, or conduct field learning.

The four-year program is accredited by the Council for Interior Design Accreditation (CIDA). For those upper-level students interested in graduate level studies the program offers a 4+1 option, which allows them to receive a Master of Interior Design requiring only one additional year.

Organized trips to experience interior design, architecture and art in urban settings are required in the junior and senior years. Students should plan to have adequate funds for these required field trips and for their design studio project materials.

The four-year program is accredited by the Council for Interior Design Accreditation (CIDA).

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete ARC 1301, DCP 1003, IND 1020, and IND 2100 with minimum grades of C
- 2.6 UF GPA required

Semester 2

- Complete ARC 1302 and IND 2130 with minimum grades of C
- 2.6 UF GPA required

Semester 3

- Complete ARH 2051, IND 2313, and IND 2635
- 2.8 UF GPA required

Semester 4

- Complete IND 2214 and IND 2460C
- Successfully complete the selective admissions guidelines
- 2.85 UF GPA required
- Complete MAC 1147 and PHY 2053 prior to moving into Semester 5

Semester 5

- Complete IND 3215, IND 3468, and IND 3483

Semester 6

- Complete IND 3216

Semester 7

- Complete IND 4225

Semester 8

- Complete IND 4226

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Elective (3000/4000 level)		3
Elective		2
	Credits	**14**
	Total Credits	**120**

1 The Department of Interior Design requires students to complete MAC 1147 and PHY 2053 before Semester 5. Due to the rigorous nature of design studio, students should complete these courses during the Summer semesters.

2 The Department of Interior Design requires students to complete IND 4940 no later than Semester 7. Due to the rigorous nature of design studio, students should complete this course the summer between Semesters 6 and 7.

Interior design is a limited-access program. During the Spring semester of the sophomore year, interior design faculty review each sophomore student's work and determine whether the student is prepared to continue as an interior design major. For more information, please contact the department regarding its selective admissions guidelines.

Academic Learning Compact

The four-year bachelor of design degree in Interior Design requires students to demonstrate and understand the creative design process and associated skills as they relate to problem solving and spatial organization. Students will develop skills in interior design, computer rendering and modeling, graphic communication, theory, materials, and the history of interior design. In the studio, students explore advanced problem solving, communication skills and issues related to environmental technology, lighting, professional practice, and interior construction.

Before Graduating Students Must

- Complete Council of Interior Design Accreditation academic requirements.
- Receive acceptable review and assessment of studio work from faculty, industry professionals and peers.
- Complete Design Field Experience assessments.
- Submit senior project.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify and apply life safety codes related to the built environment.
2. Identify and apply inclusive and universal design principles to design solutions.

Critical Thinking

3. Analyze and synthesize programmatic and contextual information related to design problems and generate design solutions that respond to those realities and needs.

Communication

4. Communicate design ideas clearly and effectively orally and through drawings and other visual media.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
IND 2313				I
IND 2214	I	I	I	R

Assessment Types

- Exams, research papers and projects (lecture and construction lab courses)
- Individual project work, portfolios, and juried presentations (design studios)
- Design field experience and employer evaluations
- CIDA accreditation program completion and senior portfolio

Landscape Architecture Minor

The Landscape Architecture minor provides an overview of the profession, an introduction to environmental and cultural issues, and to design, planning, and management theory and applications. This minor does not qualify a student for practice or for professional licensure.

About this Program

- **College:** Design, Construction and Planning (p. 659)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

The Department of Landscape Architecture is dedicated to inspiring students and transforming lives through stewardship, planning, and design of natural and built environments. Rooted in the traditions of landscape architecture, the program explores innovative and impactful solutions to create

a more sustainable, healthy, and just world. Through research, education, and service-learning, students engage with pressing societal challenges, develop critical skills, and contribute to communities in Florida, the region, and beyond.

Map (http://campusmap.ufl.edu/#/index/0268)

Curriculum

- Combination Degrees
- Landscape Architecture Minor
- Landscape Architecture | 4-Year Professional Program

To help chart coursework, application to the minor should be made as soon as possible after the student has been admitted to an upper-division college. To be considered, students must have a minimum 2.5 GPA.

Of the 15-credit minimum requirement, six credits are required. The remaining credits can be based on interests and background. Students with design, construction, engineering or other technical backgrounds may participate in design and/or construction studios in addition to lecture courses. Acceptance into studio courses is granted with instructor permission, if space is available.

Additional courses in the professional design and construction sequences and in graduate seminars may be possible for students with specialized backgrounds such as other design fields, building construction or engineering. The instructor's permission is required to take courses other than those listed below.

Required Courses

Code	Title	Credits
LAA 1330	Site Analysis	3
LAA 1920 or LAA 2710	Introduction to Landscape Architecture History of Landscape Architecture	3
Approved electives		9
Total Credits		**15**

Approved Electives

LAA 2376C	Design Communications 1 [1]	3
LAA 3230	Theories of Landscape Architecture	3
LAA 4210	Landscape Architecture Professional Practice	3
LAA 4532	Landscape Ecology and Management	3
LAA 4905	Special Studies in Landscape Architecture	1-6
LAA 6382	Ecological and Environmental Policy	3

[1] Prereq: previous computer experience, permission of instructor and space availability.

Landscape Architecture | 4-Year Professional Program

The Bachelor of Landscape Architecture is an accredited professional degree that qualifies graduates to sit for state licensure. Graduates are well equipped to practice and advance the profession of landscape architecture or to continue in graduate studies. Students from the UF landscape architecture program have won numerous state and national American Society of Landscape Architecture (ASLA) Awards.

About this Program

- **College:** Design, Construction and Planning (p. 659)
- **Degree:** Bachelor of Landscape Architecture
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Landscape Architecture is dedicated to inspiring students and transforming lives through stewardship, planning, and design of natural and built environments. Rooted in the traditions of landscape architecture, the program explores innovative and impactful solutions to create a more sustainable, healthy, and just world. Through research, education, and service-learning, students engage with pressing societal challenges, develop critical skills, and contribute to communities in Florida, the region, and beyond.

Curriculum

- Combination Degrees
- Landscape Architecture Minor
- Landscape Architecture | 4-Year Professional Program

Students in the major take advantage of nationally and internationally respected faculty. Student work shows strength in ecologically based planning and design, urban issues, and conservation; all of strategic concern in Florida and elsewhere.

Educational options include focused electives for individual specialization, competitions, and interdisciplinary certificates.

Optional field trips broaden and expand students' educational experiences. Students may have the opportunity to attend state and national meetings.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete DCP 1003
- 2.35 UF GPA required

SEMESTER 2

- Complete (MAC 1140 and MAC 1114) or MAC 1147
- 2.5 UF GPA required

SEMESTER 3

- Complete LAA 2360C and LAA 2376C
- 2.75 UF GPA required

SEMESTER 4

- Complete LAA 2XXX Landscape Architecture Design 1 and LAA 2379C
- Complete Selective Admission Portfolio Review
- 2.75 UF GPA required

SEMESTER 5

- Complete LAA 3350C
- 2.75 UF GPA required

SEMESTER 6

- Complete LAA 3353C

SEMESTER 7

- Complete LAA 4356C

SEMESTER 8

- Complete LAA 4450

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

	Credits	**15**
	Total Credits	**120**

[1] **Summer and Fall professional experience:** Complete the LAA 4940 landscape internship in the Summer and Fall of the fourth year of study.

This program is limited access. During the spring semester of the sophomore year, students must submit a portfolio of their work in studio courses. Admission to the junior year is based on this portfolio and the preprofessional GPA.

Academic Learning Compact

The Bachelor of Landscape Architecture degree requires students to demonstrate and understand the ethical planning, design, implementation and management of the natural and cultural landscapes in Florida as the basis for professional studies and training.

Before Graduating Students Must

- Satisfy professional, faculty and peer review of studio work.
- Complete senior final studio project.
- Submit internship assessments.
- Complete internships that emphasize application of your design, planning, and management knowledge.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Integrate concepts from the general body of knowledge of the profession of landscape architecture in design decision-making.
2. Apply core professional landscape architecture skills in design decision-making.
3. Apply ethical understanding to design decision-making.

Critical Thinking

4. Combine and analyze information from multiple sources to support design decision-making.

Communication

5. Produce professional visual, oral and written communications.

Sustainability and the Built Environment

The Bachelor of Science in Sustainability and the Built Environment (BSSBE) enables students to explore creative solutions for the planning, design and construction of human structures and settlements.

About this Program

- **College:** Design, Construction and Planning (p. 659)
- **Degree:** Bachelor of Science in Sustainability and the Built Environment
- **Specializations:** Interdisciplinary (p. 687) | Geodesign (p. 679)

- **Credits for Degree:** 120
- **Contact:** Email (advising@dcp.ufl.edu?Subject=Sustainability%20and%20the%20Built%20Environment%20Major)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Sustainability and the Built Environment (SBE) Program at the College of Design, Construction and Planning teaches hands-on sustainability by using the university as a learning laboratory.

ARCHITECTURE BUILDING
GAINESVILLE FL 32611-5701
Map (http://campusmap.ufl.edu/#/index/0268)

Curriculum

- Sustainability and the Built Environment
- Sustainability and the Built Environment Minor

The Bachelor of Science in Sustainability and the Built Environment (BSSBE) concentrates on sustainability from an interdisciplinary lens that enables students to explore creative solutions for the planning, design, construction, and operations of human structures and settlements. Environmental policies, ethics, ecology, landscape architecture, economics, natural resources, sociology, and anthropology are an integral part of the BSSBE program.

Whether it is planning, redesign and rehabilitation of existing structures, or innovative new design, students will be provided a theoretical foundation for seeking sustainable solutions to problems in the built environment. This program requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture, and urban and regional planning. The degree program is supported by the globally recognized expertise in sustainability of the faculty in the College of Design, Construction and Planning and from across campus.

Graduates will have opportunities for work in various industries including public, private, and NGOs promoting the principles of sustainability. Additionally, students will be prepared to enter graduate school in architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

Field trips to broaden and expand students' educational experiences through study of planning, design, construction, and sustainability projects are required and will be paid for by students.

Transfer Students

Transfer students must complete their AA degree and these courses with minimum grades of C:

- MAC 1147 or (MAC 1140 and MAC 1114)
- STA 2023
- ECO 2013
- ECO 2023

Transfer students must also have a 3.0 minimum overall GPA. Refer to the admissions website for transfer admission information, application deadlines, and the online application.
More Info (https://dcp.ufl.edu/admissions/)

Specializations

Geodesign

The geodesign specialization is for students interested in the application of geographic information systems in the sustainable design of the built environment.

Interdisciplinary

The interdisciplinary specialization is for students who want a general degree that emphasizes the importance of sustainability for all of the built environment fields.

Coursework for the Major

All students, regardless of specialization, are required to take 53 credits of core courses to develop knowledge of the fundamental concepts for sustainability and the built environment.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Core Courses

Code	Title	Credits
Select one:		3
BCN 1582	International Sustainable Development	
IDS 2935	Special Topics (Facets of Sustainability)	
ECO 2023	Principles of Microeconomics	4
ECO 2013	Principles of Macroeconomics	4
A history course in architecture, construction management, interior design, landscape architecture, or urban and regional planning		
LAA 1330	Site Analysis	3
STA 2023	Introduction to Statistics 1	3
DCP 3210	Sustainable Solutions for the Built Environment	3
DCP 3220	Social and Cultural Sustainability and the Built Environment	3
An approved ecology and the built environment course		
An approved ethics and/or environmental justice course		
An approved energy and/or climate change course		
An approved resource economics course		
DCP 3200	Methods of Inquiry for Sustainability and the Built Environment	3
DCP 4941	Practicum in Sustainability and the Built Environment	6
or DCP 4942	Field Experience in Sustainability and the Built Environment	
DCP 4290	Capstone Project in Sustainability and the Built Environment	6
Total Credits		**38**

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete BCN 1582 with minimum grade of C
- Complete DCP 1010, DCP 1003, and LAA 1330 with minimum grades of C
- Complete MAC 1147 or (MAC 1140 and MAC 1114)
- 2.00 UF GPA required

Semester 2

- Complete ARC 1701 or ARC 1720 or BCN 1010 or IND 2100 or IND 2130 or LAA 2710 or URP 4000 with minimum grade of C
- Complete ECO 2023 with minimum grade of C
- 2.50 UF GPA required

Semester 3

- Complete DCP 2001 with minimum grade of C
- Complete ECO 2013 with minimum grade of C
- Complete STA 2023
- 2.75 UF GPA required

Semester 4

- Complete DCP 2002 with minimum grade of C
- Complete ENC 2256 with minimum grade of C
- 3.0 UF GPA required

Semester 5

- Complete DCP 3210 with minimum grades of C
- Complete one: AEB 4126, REL 2104, or REL 3492 with minimum grade of C
- Complete GEO 3162C with minimum grade of C
- 3.0 UF GPA required

Semester 6

- Complete DCP 3220

Semester 7

- Complete DCP 3200

Semester 8

- Complete DCP 4290

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Students will not be required to take more credits than required in semesters with less than 3 credits in electives. DCP advisors have a list of 1 and 2 credit electives in which students may enroll.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
BCN 1582	International Sustainable Development (**Critical Tracking**; Gen Ed Social and Behavioral Sciences and International)	3
DCP 1003	Creating our Built Environment	1
DCP 1010	Geodesign Colloquium	1
LAA 1330	Site Analysis	3
MAC 1147	Algebra and Trigonometry (**Critical Tracking**; State Core Gen Ed Mathematics)	4
	Credits	**15**
Semester Two		
Select one history of a built environment course:		3
ARC 1701	Survey of Architectural History 1 (**Critical Tracking**; Gen Ed Humanities and International)	
ARC 1720	Survey of Architecture History (**Critical Tracking**; Gen Ed Humanities and International)	
BCN 1010	History of Construction (**Critical Tracking**; Gen Ed Humanities and International)	
IND 2100	History of Interior Design 1 (**Critical Tracking**; Gen Ed Humanities)	
IND 2130	History of Interior Design 2 (**Critical Tracking**; Gen Ed Humanities)	
LAA 2710	History of Landscape Architecture (**Critical Tracking**; Gen Ed Humanities and International)	
URP 4000	Preview of Urban and Regional Planning (**Critical Tracking**; Gen Ed Humanities)	
DCP 1241	Introduction to Sustainability and the Built Environment: Managing Wicked Problems in Space and Time	3
ECO 2023	Principles of Microeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	4
ENC 1101	Expository and Argumentative Writing (Gen Ed Composition)	3
Elective (lower-division)		2
	Credits	**15**
Semester Three		
DCP 2001	Introduction to GIS I	3
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	4
GEO 2200	Dynamic Planet Earth (Gen Ed Physical Sciences)	3
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
Elective (1000/2000 level)		2
	Credits	**15**
Semester Four		
Quest 2		3
DCP 2002	Introduction to GIS II	3
ENC 2256	Writing in the Disciplines (State Core Gen Ed Composition (p. 80))	3
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Humanities (p. 80)		3
	Credits	**15**

Semester Five		
DCP 3210	Sustainable Solutions for the Built Environment (**Critical Tracking**)	3
Select one ethics and environmental justice course:		3
AEB 4126	Agricultural and Natural Resource Ethics (**Critical Tracking**)	
REL 2104	Environmental Ethics (**Critical Tracking**)	
REL 3492	Religion Ethics and Nature (**Critical Tracking**)	
GEO 3162C	Introduction to Quantitative Analysis for Geographers	4
Select one resource economics course:		3
AEB 2451	Economics of Resource Use (**Critical Tracking**)	
AEB 3450	Introduction to Natural Resource and Environmental Economics (**Critical Tracking**)	
AEB 4283	International Development Policy (**Critical Tracking**)	
FNR 4080	Sustainable Ecotourism Development (**Critical Tracking**)	
GEO 2500	Global and Regional Economies (**Critical Tracking**)	
URP 4230	3D Modeling, Visualization, and Simulation	3
	Credits	**16**
Semester Six		
DCP 3220	Social and Cultural Sustainability and the Built Environment (**Critical Tracking**)	3
Select one ecology for the built environment course:		3
FNR 4304C	Urban Forestry	
SWS 2007	The World of Water	
SWS 2008	Land and Life

Academic Learning Compact

The Bachelor of Science in Sustainability and the Built Environment requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture, and urban and regional planning.

Before Graduating Students Must

- Complete a capstone or independent research project, present the results to a committee of the program's faculty, and receive acceptable assessment.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Explain sustainability principles.
2. Integrate knowledge and principles from sustainability-related disciplines.

3. Describe the role of the built environment in sustainability.
4. Combine information from multiple sources to solve problems.

Critical Thinking

5. Frame sustainable problems and potential solutions within a global context.
6. Collect and analyze data to solve problems.
7. Produce sustainable solutions for problems of the built environment.
8. Integrate multiple disciplinary, cultural and stakeholder perspectives for sustainable problem solving.

Communication

9. Produce an effective oral presentation.
10. Produce effective written communications.
11. Integrate a variety of visual techniques to enhance the communication of ideas and solutions.
12. Solve a built environment sustainability problem in a multidisciplinary team.

Interdisciplinary

The Bachelor of Science in Sustainability and the Built Environment (BSSBE) enables students to explore creative solutions for the planning, design and construction of human structures and settlements.

About this Program

- **College:** Design, Construction and Planning (p. 659)
- **Degree:** Bachelor of Science in Sustainability and the Built Environment
- **Specializations:** Interdisciplinary (p. 687) | Geodesign (p. 679)
- **Credits for Degree:** 120
- **Contact:** Email (advising@dcp.ufl.edu?Subject=Sustainability%20and%20the%20Built%20Environment%20Major)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Sustainability and the Built Environment (SBE) Program at the College of Design, Construction and Planning teaches hands-on sustainability by using the university as a learning laboratory.

ARCHITECTURE BUILDING
GAINESVILLE FL 32611-5701
Map (http://campusmap.ufl.edu/#/index/0268)

Curriculum

- Sustainability and the Built Environment
- Sustainability and the Built Environment Minor

The Bachelor of Science in Sustainability and the Built Environment (BSSBE) concentrates on sustainability from an interdisciplinary lens that enables students to explore creative solutions for the planning, design, construction, and operations of human structures and settlements. Environmental policies, ethics, ecology, landscape architecture, economics, natural resources, sociology, and anthropology are an integral part of the BSSBE program.

Whether it is planning, redesign and rehabilitation of existing structures, or innovative new design, students will be provided a theoretical foundation for seeking sustainable solutions to problems in the built environment. This program requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture, and urban and regional planning. The degree program is supported by the globally recognized expertise in sustainability of the faculty in the College of Design, Construction and Planning and from across campus.

Graduates will have opportunities for work in various industries including public, private, and NGOs promoting the principles of sustainability. Additionally, students will be prepared to enter graduate school in architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

Field trips to broaden and expand students' educational experiences through study of planning, design, construction, and sustainability projects are required and will be paid for by students.

Transfer Students

Transfer students must complete their AA degree and these courses with minimum grades of C:

- MAC 1147 or (MAC 1140 and MAC 1114)
- STA 2023
- ECO 2013
- ECO 2023

Transfer students must also have a 3.0 minimum overall GPA. Refer to the admissions website for transfer admission information, application deadlines, and the online application.
More Info (https://dcp.ufl.edu/admissions/)

Specializations

Geodesign

The geodesign specialization is for students interested in the application of geographic information systems in the sustainable design of the built environment.

Interdisciplinary

The interdisciplinary specialization is for students who want a general degree that emphasizes the importance of sustainability for all of the built environment fields.

Coursework for the Major

All students, regardless of specialization, are required to take 53 credits of core courses to develop knowledge of the fundamental concepts for sustainability and the built environment.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Core Courses

Code	Title	Credits
Select one:		3
BCN 1582	International Sustainable Development	
IDS 2935	Special Topics (Facets of Sustainability)	
ECO 2023	Principles of Microeconomics	4
ECO 2013	Principles of Macroeconomics	4
A history course in architecture, construction management, interior design, landscape architecture, or urban and regional planning		
LAA 1330	Site Analysis	3
STA 2023	Introduction to Statistics 1	3
DCP 3210	Sustainable Solutions for the Built Environment	3
DCP 3220	Social and Cultural Sustainability and the Built Environment	3
An approved ecology and the built environment course		
An approved ethics and/or environmental justice course		
An approved energy and/or climate change course		
An approved resource economics course		
DCP 3200	Methods of Inquiry for Sustainability and the Built Environment	3
DCP 4941	Practicum in Sustainability and the Built Environment	6
or DCP 4942	Field Experience in Sustainability and the Built Environment	
DCP 4290	Capstone Project in Sustainability and the Built Environment	6
Total Credits		**38**

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete BCN 1582 with minimum grade of C
- Complete DCP 1003 and LAA 1330 with a minimum grades of C
- Complete MAC 1147 or (MAC 1140 and MAC 1114)
- 2.00 UF GPA required

Semester 2

- Complete ARC 1701 or ARC 1720 or BCN 1010 or IND 2100 or IND 2130 or LAA 2710 or URP 4000 with minimum grade of C
- Complete ECO 2023 with minimum grade of C
- 2.50 UF GPA required

Semester 3

- Complete ECO 2013 with minimum grade of C
- Complete STA 2023
- 2.75 UF GPA required

Semester 4

- Complete ENC 2256 with minimum grade of C
- 3.0 UF GPA required

Semester 5

- Complete DCP 3210 with minimum grades of C
- Complete one: AEB 4126, REL 2104, or REL 3492 with minimum grade of C
- 3.0 UF GPA required

Semester 6

- Complete DCP 3220

Semester 7

- Complete DCP 3200

Semester 8

- Complete DCP 4290

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
BCN 1582	International Sustainable Development (**Critical Tracking**; Gen Ed Social and Behavioral Sciences and International)	3
DCP 1241	Introduction to Sustainability and the Built Environment: Managing Wicked Problems in Space and Time	3
ENC 1101	Expository and Argumentative Writing (Gen Ed Composition)	3
LAA 1330	Site Analysis	3
Select one:		3-4
MAC 1147	Algebra and Trigonometry (**Critical Tracking**; State Core Gen Ed Mathematics)	
MAC 1140	Precalculus Algebra	
	Credits	**15-16**
Semester Two		
Quest 1 (Gen Ed Humanities)		3
Select one:		3
ARC 1701	Survey of Architectural History 1 (**Critical Tracking**; Gen Ed Humanities and International)	
ARC 1720	Survey of Architecture History (**Critical Tracking**; Gen Ed Humanities and International)	
BCN 1010	History of Construction (**Critical Tracking**; Gen Ed Humanities and International)	
IND 2100	History of Interior Design 1 (**Critical Tracking**; Gen Ed Humanities)	
IND 2130	History of Interior Design 2 (**Critical Tracking**; Gen Ed Humanities)	
LAA 2710	History of Landscape Architecture (**Critical Tracking**; Gen Ed Humanities and International)	
URP 4000	Preview of Urban and Regional Planning (**Critical Tracking**; Gen Ed Humanities)	
DCP 1003	Creating our Built Environment (**Critical Tracking**)	1

Academic Learning Compact

The Bachelor of Science in Sustainability and the Built Environment requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture, and urban and regional planning.

Before Graduating Students Must

- Complete a capstone or independent research project, present the results to a committee of the program's faculty, and receive acceptable assessment.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Explain sustainability principles.
2. Integrate knowledge and principles from sustainability-related disciplines.
3. Describe the role of the built environment in sustainability.
4. Combine information from multiple sources to solve problems.

Critical Thinking

5. Frame sustainable problems and potential solutions within a global context.
6. Collect and analyze data to solve problems.
7. Produce sustainable solutions for problems of the built environment.
8. Integrate multiple disciplinary, cultural and stakeholder perspectives for sustainable problem solving.

Communication

9. Produce an effective oral presentation.
10. Produce effective written communications.
11. Integrate a variety of visual techniques to enhance the communication of ideas and solutions.
12. Solve a built environment sustainability problem in a multidisciplinary team.

Sustainability and the Built Environment Minor

The Sustainability and the Built Environment minor introduces the challenges of planning, design, and construction of human structures and settlements. Courses provide an overview of environmental and cultural issues as they apply to design, planning sustainable applications, and solutions.

About this Program

- **College:** Design, Construction and Planning (p. 659)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

The Sustainability and the Built Environment (SBE) Program at the College of Design, Construction and Planning teaches hands-on sustainability by using the university as a learning laboratory.

[1] If not previously taken as a required course.

Urban and Regional Planning Minor

The Urban and Regional Planning minor provides a foundational understanding of how cities and regions are designed, developed, and managed. Coursework covers key topics such as land use planning, spatial analysis, transportation, sustainability, housing policy, and international planning. The minor is ideal for students pursuing careers in law, environmental studies, architecture, business administration, real estate, civil engineering, data sciences, journalism, and related fields.

About this Program

- **College:** Design, Construction and Planning (p. 659)
- **Credits:** 15 | Completed with minimum grades of C+, with the exception of URP 4942, which is graded S/U

Department Information

The Department of Urban and Regional Planning (URP) strives to be a leading graduate program with excellence in planning education, research, and service for the citizens of the state, the nation, and the world.

- Combination Degrees
- Urban and Regional Planning Minor

Application should be made early so that guidance can be given for course selection and special studies parameters. Students must have a C+ GPA for admission to the minor and they must maintain a C+ GPA in all coursework for the minor. The only S/U course accepted is URP 4942.

The minor does not provide professional certification.

It is each student's responsibility to declare the minor through their major degree department or college and to obtain the required signatures from their department and URP.

Study Abroad/Off-Campus Studies

Students need approval before signing up for study abroad or off-campus studies for inclusion in the URP minor. Credits will not be accepted after a student has started study abroad or off-campus studies. Eligible programs should be offered by UF's International Center or the College of Design, Construction and Planning. URP's undergraduate coordinator must determine eligibility of study abroad or off-campus coursework prior to taking the course. Accepted credits may vary from three to six, depending on the intensity and appropriateness of the selected program.

Education | College of

Consistently ranked among the top 20 public education schools in the nation, the College of Education prepares students to serve and lead in a diverse field. The college offers pathways to professional teacher certification, promotes an understanding of learning systems, policies, and outcomes in traditional and non-traditional contexts, and prepares graduates for careers in the public, private, or nonprofit sectors.

Higher Education Act | 1998

The US Department of Education's Higher Education Act addresses accountability requirements for teacher preparation programs. The act mandates that teacher preparation programs publish annually pertinent program information including but not limited to the following:

- Program accreditation
- Pass rates of graduates on state teacher certification assessments
- Programs that have been designated as low performing by the state

Accordingly, information about the state- and CAEP-accredited teacher preparation programs at UF is available online and in print upon request.

Academic Policies

Admission Requirements

Freshman applicants will be admitted to the College of Education when they declare a major in education sciences, elementary education or early childhood education.

Students who wish to change their major to education sciences are required to have a 2.0 GPA . Students who wish to change their major to elementary or early childhood education must have a 2.3 GPA for freshmen and 2.6 GPA for sophomores and above.

Elementary and early childhood education students remain in a pre-education status, as long as they meet the critical-tracking standards set by the college and UF, until formally admitted to the upper-division program for a Fall semester. Students must be on track at the 60-credit level to continue in the elementary or early childhood education major and to be considered competitive for admission to the upper-division teacher preparation program for which there is an application and selection process.

Transfer Admission Requirements

Education sciences transfer applicants must meet the following requirements for admission:

- 2.0 cumulative GPA
- Completing the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the state of Florida's Articulation Coordinating Committee. The common course prerequisite must be completed with a minimum grade of C.

Elementary and early childhood education are limited access programs. Transfer applicants must meet the following requirements for admission consideration on a space-available basis:

- 2.6 cumulative GPA
- Passing scores on all sections of the general knowledge portion of the Florida Teacher Certification Exam (http://fl.nesinc.com/) (FTCE) or minimum scores on alternative assessments
- Completing the writing (24,000 words) requirement
- Completing all General Education requirements
- Completing the common course prerequisite, EDF 1005, as established by the state of Florida's Articulation Coordinating Committee. The common course prerequisite must be completed with a minimum grade of B.
- A course in human growth and development is a degree requirement and recommended prior to transfer.

State college transfer students and state university transfer students must document award of the AA. Other transfer students are evaluated individually upon application for admission. A change of major will not be approved for transfer students admitted to another college at UF.

Critical-Tracking Program

All undergraduates are monitored for progress toward the bachelor's degree by the critical-tracking program. Students who fall below the tracking requirements at any stage must see an academic advisor for approval to continue in the major.

Students must make satisfactory academic progress to continue to enroll in the College of Education.

Education sciences minimum requirements include:

- Education core prerequisites completed with no grade below C and a 2.33 GPA; one repeat allowed:

Code	Title	Credits
EDF 1005	Introduction to Education	3
EDF 2085	Teaching Diverse Populations	3
EME 2040	Introduction to Educational Technology	3
Total Credits		**9**

- Completion of the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the State of Florida Articulation Coordinating Committee; the common course prerequisite must be completed with a minimum grade of C.

Elementary and early childhood education are limited-access programs with competitive admission. Due to space limitations, meeting minimum admission requirements does not guarantee selection for admission. Minimum requirements for UF students and transfer students at the completion of 60 semester credits:

- Complete the university's writing (24,000 words) requirement
- Complete all General Education requirements
- FTCE General Knowledge Requirement: Students must pass all sections of the general knowledge portion of the Florida Teacher Certification Examination (http://fl.nesinc.com/) (FTCE), or document minimum scores on alternative assessments, before admission at the junior level
- Education core prerequisites completed with no grade below C and a 3.0 GPA; one repeat allowed:

Code	Title	Credits
EDF 1005	Introduction to Education	3
EDF 2085	Teaching Diverse Populations	3
EME 2040	Introduction to Educational Technology	3
Total Credits		**9**

- Completion of the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the State of Florida Articulation Coordinating Committee; the common course prerequisite must be completed with a minimum grade of B.
- Cumulative UF and transfer GPA of 2.6

The college admissions committee will consider an applicant's entire record, including educational objectives, quality of courses completed and test data.

College Requirements

Career Placement

The Career Connections Center offers a Careers in Education recruitment event annually (usually in March) where representatives from school districts in Florida and several other states meet with students who are completing teacher education programs and others interested in teaching.
More Info (https://career.ufl.edu/)

Criminal Background Check

Classroom field experience is a vital component to any teacher preparation program. To have access to classrooms, students in a teacher preparation program or UFTeach minor must submit to a Level 2 background screening. Individuals who are not cleared will not be permitted to continue in or graduate from a teacher preparation program. After clearance, it is the student's responsibility to report immediately any new criminal charges to the university's certification officer in 1002 Norman Hall.

Financial Responsibility

Students are responsible for all costs associated with the criminal background check, Student Learning and Licensure (SLL) by Watermark subscription, transportation to and from field placements and relevant examinations required for the program.

Overseas Study

Education sciences students are encouraged to participate in overseas study and may be approved to apply that toward the experiential learning component of the degree program. Elementary and early childhood education students are encouraged to complete any overseas studies before reaching junior status or in a summer term.

Program Plan

Education sciences students must submit a plan that includes an approved specialization or general studies track before the end of the junior year. The program coordinator must approve all programs. Elementary and early childhood education students must sign a planned program of study for the degree during the first term of enrollment in the upper-division program. Each student is responsible for registering for the appropriate courses and fulfilling all requirements for the degree, including test requirements.

Satisfactory Progress

Students in the elementary and early childhood education programs are expected to maintain a minimum junior/senior-level 3.0 GPA. Education sciences majors must maintain a 2.0 GPA. Academic progress is reviewed each semester. If requirements are not met, the student must be approved for continuation by the program coordinator before further registration. Students are required to earn a minimum grade of C for all major courses for award of the bachelor's degree.

Probation

The department and the college monitor students for academic progress. Students with unsatisfactory academic progress may be placed on probation. College probation may be removed if it is determined that satisfactory progress has been demonstrated.

Dismissal

If the department or the college determines that a student has not met probationary terms or is not progressing academically, the student may be prohibited from continuing in the their major and/or the College of Education. Students on probation, as well as students who are unable to meet degree requirements, are encouraged to investigate alternatives in other areas of study.

Students dismissed by the university may not register for courses. Courses taken at other institutions under these conditions will not count toward a UF degree.

Student Responsibility

Students are expected to review the information in the undergraduate catalog as a guide to planning their academic careers at UF. Failure to read, understand and follow the guidelines may cause significant delays in academic progress. Clarification of college requirements is available in the Office of Student Services, EduGator Central, 1002 Norman Hall.

Student Teaching Assignment

Student teaching assignments are in public school settings in Florida, in accordance with program objectives and the student's professional goals. Department approval is required for elementary placements outside Alachua County. In addition to regular tuition expenses, students are responsible for transportation to and/or housing in the community where student teaching is to occur. Fees imposed by the school district relating to requirements for personnel screening (e.g., fingerprinting, background checks and substance abuse testing) are also the student's responsibility.

S/U Option

The S/U option may be used for elective courses only. It does not apply to the university's writing requirement courses or to General Education course requirements. The deadline for declaring the S/U option is published in the academic calendars in this catalog.

Transient Student Status

With approval of the College of Education, students may take a limited number of credits at another accredited institution. Before registration as a transient student at another institution, the student must complete a transient student form and obtain approval from the college and university. No transient courses will be permitted during the last 30 credits of enrollment.
More Info (https://www.floridashines.org/succeed-in-college/take-a-course-at-another-school/)

Undergraduate Registration for Graduate Courses

With department approval, an undergraduate student with senior standing may enroll in 5000/6000-level elective courses. After a student has been admitted to the Graduate School, up to 15 credits of graduate-level courses with grades of A, A-, B+ or B may be applied toward a graduate degree at the university, provided the credit was not used toward an undergraduate degree.

Degree Requirements

Students who complete an approved undergraduate program in the College of Education are awarded the Bachelor of Arts (BA) for the education sciences major or the Bachelor of Arts in Education (BAE) for an elementary education or early childhood education major.

Grades below C will not fulfill requirements for the major or the university's General Education areas.

Before program completion, elementary and early childhood education students must demonstrate satisfactory performance on the Florida Educator Accomplished Practices. Students in early childhood education are required to provide proof of completion of up-to-date adult CPR and first aid training. All prospective teachers are encouraged to do the same.

Upon completion of the elementary or early childhood education program, a graduate will receive a statement on the transcript verifying completion of a Florida Department of Education (DOE) and Council for Accreditation of Educator Preparation (CAEP) approved program.

All students in the elementary and early childhood education programs must document passing scores on the General Knowledge Test or accepted alternative assessment, corresponding subject area examination (Elementary K-6 or Prekindergarten/Primary), and the Professional Education Test of the Florida Teacher Certification Examination (FTCE) series to meet milestones for continuation and benchmarks for graduation.
More Info (http://fl.nesinc.com/)

Residence

The last 30 semester credits applied toward a degree must be completed in residence at UF in the College of Education.

Preparation of Professional EDUCATORS

The College of Education prepares professional educators in elementary and early childhood education.

Students engage in early observation, supervised practice and a concluding internship in the public schools, as well as campus-based clinical experiences in micro-teaching, simulation and other controlled situations.

Students in elementary or early childhood education receive a Bachelor of Arts in Education upon successful completion of the teacher education program, including a prescribed set of courses and experiences, and successful internal and external assessments.

Secondary Teaching

Students who wish to teach at the middle and high school level should complete a bachelor's degree with a major in an appropriate content discipline while pursuing a Professional Training Option (PTO) minor or before pursuing an Educator Preparation Institute (EPI) graduate certificate in secondary teaching in the College of Education. The recommended major and minor/certificate combinations for secondary teaching include:

- English: recommended major in English, linguistics, journalism, or other humanities; minor in secondary English language arts education or Florida teaching; or graduate certificate in secondary English teaching preparation
- science: recommended major in astronomy, biology, botany, chemistry, entomology, geology, microbiology, physics, wildlife ecology or zoology; minor in UFTeach science; or graduate certificate in secondary teaching preparation
- social science: recommended major in anthropology, economics, geography, history, political science, psychology, sociology or other social science; minor in secondary social studies education or Florida teaching; or graduate certificate in secondary teaching preparation
- mathematics: recommended major in mathematics; minor in UFTeach mathematics; or graduate certificate in secondary teaching preparation
- computer science: recommended major in computer science; minor in UFTeach computer science
- foreign languages: recommended major in Spanish, French or other world language; minor in Florida teaching

Cooperating College Teacher Education Programs

In collaboration with the College of Education, cooperating colleges offer undergraduate teacher preparation programs in agriculture, art, and music.

Please contact the individual colleges for additional information:

- Agricultural Education and Communication (6-12), College of Agricultural and Life Sciences, 305 ROL
- Art Education (K-12), College of the Arts, 302 FAC
- Music Education (K-12), College of the Arts, 130 MUB

Program Planning

Program offerings and changes related to teacher certification requirements are possible. The curriculum of a state-approved teacher preparation program is subject to revision to accommodate legislative or Department of Education mandates. New rules may affect required courses in all teacher preparation programs.

Disabilities in Society Minor

The Disabilities in Society minor provides opportunities for undergraduates in all colleges to enhance their knowledge of disabilities and to recognize the impact disabilities have on the lives of people who experience them and on the people with whom they live and interact.

About this Program

Overview

The Early Childhood Education major prepares students to become educators of young children. With a universal design and instructional practices for all learners, the program prepares students with the necessary content and skills to teach diverse children, with and without disabilities, within an inclusive environment. The program integrates knowledge and skills for working with young children and families from culturally, linguistically, ability, and economically diverse backgrounds.

This major is a professional teacher preparation program, approved by the Florida Department of Education (FLDOE) and the Council for Accreditation of Educator Preparation (CAEP). Graduates of the major are prepared for professional certification in Prekindergarten/Primary (Age 3 - Grade 3) with endorsements in Prekindergarten Disabilities, English for Speakers of Other Languages (ESOL), and Reading.

In addition to teaching young children, graduates of this program may also pursue careers as teaching coaches for early childhood programs or as childcare program administrators.

Coursework for the Major

This is a limited access major with selective admission to the upper-division program in Fall semesters only. Students must accumulate 60 credits and meet all Semester 4 critical tracking requirements to be a candidate for admission. The college admissions committee will consider an applicant's

entire record, including educational objectives, quality of courses completed, criminal or disciplinary actions, and test date. The application period is February through April for the following Fall semester. An approved applicant would be assigned a course schedule and field placement schedule in Semester 5-8.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete coursework with minimum grades of C
- 2.0 UF GPA required

SEMESTER 2

- Complete coursework with minimum grades of C
- Complete 1 of 3 critical-tracking courses: EDF 1005 or EDF 2085 or EME 2040
- 2.3 UF GPA required

SEMESTER 3

- Complete coursework with minimum grades of C
- Complete 1 additional critical-tracking course
- 2.6 UF GPA required

SEMESTER 4

- Complete coursework with minimum grades of C
- Complete all 3 critical-tracking courses with a 3.0 critical-tracking GPA
- Complete all General Education requirements
- Complete the university Writing Requirement
- Document passing general knowledge test scores from the FTCE series. Please see audit and/or advisor to determine which test to take.
- 2.6 UF GPA required

Students cannot register for courses in semesters 5-8 before program admission, which is competitive and available in Fall semesters only. Students should meet with the admissions coordinator in 1002 Norman Hall to complete an application for admission in February of their sophomore year.

SEMESTER 5

- Complete all required courses with no grade below C
- 3.0 upper-division GPA required
- 2.6 UF GPA required

SEMESTER 6

- Complete all required courses with no grade below C
- 3.0 upper-division GPA

SEMESTER 7

- Complete all required courses with no grade below C
- Document passing Prekindergarten/Primary subject area exam scores from the FTCE series
- 3.0 upper-division GPA

SEMESTER 8

- Complete all required courses with no grade below C
- Earn acceptable ratings for all Florida Educator Accomplished Practices

- Document a passing score on the professional education test from the FTCE series
- 3.0 upper-division GPA
-

Model Semester Plan

For electives, students are encouraged to select courses that will strengthen their knowledge of the content areas of literature, social sciences, natural sciences, and mathematics.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities opportunity)		3
State Core Gen Ed Biological or Physical Sciences (p. 80)		3

	Credits	**12**
	Total Credits	**122**

Passing score on all subtests of the FTCE general knowledge, subject area exam in prekindergarten (age3-grade 3) and professional education test are required for completion of the bachelor's degree.

CERTIFICATION

Degree completion confers recommendation for:

- Pre-K/Primary (age 3-grade 3) Certification
- ESOL Endorsement
- Pre-K Disabilities Endorsement
- Reading Endorsement

Academic Learning Compact

The Early Childhood Education degree prepares students for certification eligibility in order to teach Pre-Kindergarten to Primary Grade Three in the state of Florida. This undergraduate program develops the foundation knowledge and skills for effective planning, teaching, and evaluating young children's learning and development.

Before Graduating Students Must

- Pass the General Knowledge Test, the Professional Education Test, and PreK - Primary Subject Area Test of the Florida Teacher Certification Examination.
- Demonstrate mastery of effective teaching practices by meeting Florida Educator Accomplished Practices 1-6, as determined by multiple instructors across the program.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn To

Student Learning Outcomes (SLOs)

Content

1. Demonstrate competency for children, age three to grade three, in child development, contemporary research in early childhood, cultural and linguistic diversity, strategies for engaging families, developmentally appropriate instructional practices, special services for children, screening and assessment, safety, and mental and physical health.
2. Create, select and implement specific learning goals, appropriate teaching methods and instructional materials and evaluation strategies aligned with goals, using knowledge of children and developmentally appropriate practices.

Critical Thinking

3. Critically evaluate your own instructional effectiveness to plan future lessons and improve your teaching of all students over time.

Communication

4. Effectively communicate with students, including students whose home language is not standard English, as well as parents and other school personnel.

Curriculum Map

Passing score on all subtests of the FTCE general knowledge, subject area exam in prekindergarten (age3-grade 3) and professional education test are required for completion of the bachelor's degree.

CERTIFICATION

Degree completion confers recommendation for:

- Pre-K/Primary (age 3-grade 3) Certification
- ESOL Endorsement
- Pre-K Disabilities Endorsement
- Reading Endorsement

Academic Learning Compact

The Early Childhood Education degree prepares students for certification eligibility in order to teach Pre-Kindergarten to Primary Grade Three in the state of Florida. This undergraduate program develops the foundation knowledge and skills for effective planning, teaching, and evaluating young children's learning and development.

Before Graduating Students Must

- Pass the General Knowledge Test, the Professional Education Test, and PreK - Primary Subject Area Test of the Florida Teacher Certification Examination.

- Demonstrate mastery of effective teaching practices by meeting Florida Educator Accomplished Practices 1-6, as determined by multiple instructors across the program.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn To

Student Learning Outcomes (SLOs)

Content

1. Demonstrate competency for children, age three to grade three, in child development, contemporary research in early childhood, cultural and linguistic diversity, strategies for engaging families, developmentally appropriate instructional practices, special services for children, screening and assessment, safety, and mental and physical health.
2. Create, select and implement specific learning goals, appropriate teaching methods and instructional materials and evaluation strategies aligned with goals, using knowledge of children and developmentally appropriate practices.

Critical Thinking

3. Critically evaluate your own instructional effectiveness to plan future lessons and improve your teaching of all students over time.

Communication

4. Effectively communicate with students, including students whose home language is not standard English, as well as parents and other school personnel.

Early Childhood Studies Minor

The Early Childhood Studies minor is available to undergraduates in all colleges who are interested in issues involving support of early development and learning for young children birth to five.

About this Program

- **College:** Education (p. 696)
- **Credits:** 15 minimum | Completed with minimum grades of C
- **Contact:** Email (studenthelp@coe.ufl.edu) | 1002 Norman Hall (http://campusmap.ufl.edu/?loc=0101) | 352.273.4376

School Information

Students in the School of Special Education, School Psychology, and Early Childhood Studies are uniquely positioned to learn from leaders in the field while simultaneously applying that learning in individually relevant professional settings.

Curriculum

- Disabilities in Society Minor
- Disabilities in Society Minor UF Online
- Early Childhood Education | Age 3 - Grade 3
- Early Childhood Studies Minor
- Early Childhood Studies Minor UF Online

The Early Childhood Studies minor facilitates understanding of the transdisciplinary field of early childhood studies by exploring the intersections among early care and education, health/mental health, and family support systems. The scope of courses explores the science, policy, and implementation of practices to support early development, learning, health, and wellbeing from child- and family-centered equity perspectives, specifically focusing on birth to age 5. This minor does not lead to teacher certification.

Prerequisites

- Must be junior status (60+ accumulated credits) to register for courses.
- Apply for the minor after earning 45 credits and before earning 100 credits.
- Minimum 2.0 GPA is required, and transfer credits are not accepted. All courses must be taken at UF.
- Initiate the application to add the minor (https://registrar.ufl.edu/forms/)

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Early Childhood Studies, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking

3. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication

4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 of 3 critical tracking courses (EDF 1005, EDF 2085, or EME 2040)
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 3 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.0 UF GPA required

Semester 7

- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses: EEX 3093, EEX 3097, EEX 4520, EEX 4280, EEX 3012
- 2.0 UF GPA required

Semester 8

- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the Writing Requirement while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirement concurrently with another General Education requirement (typically, GE-C, H, or S). One of the two General Education Mathematics courses must be a pure math course. A statistics course is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/)may be used for transfer students.

SEMESTER 1

- 2.0 UF GPA required

SEMESTER 2

- Complete 1 of 3 critical-tracking courses (EDF 1005, EDF 2085, or EME 2040)
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 3

- Complete 2 of 3 critical-tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 4

- Complete 3 of 3 critical-tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 5

- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 6

- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.0 UF GPA required

SEMESTER 7

- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses: EEC 3023, EEC 3402, EEC 3411, EEC 3704, EEC 3731
- 2.0 UF GPA required

SEMESTER 8

- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the Writing Requirement while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirement concurrently with another General Education requirement (typically, GE-C, H, or S). One of the two General Education Mathematics courses must be a pure math course. A statistics course is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking

3. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication

4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Educational Psychology and Research

The Education Sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

About this Program

- **College:** Education (p. 696)
- **Degree:** Bachelor of Arts
- **Specializations:** Disabilities in Society (p. 715) | Early Childhood Studies (p. 719) | Educational Psychology and Research (p. 724) | Educational Technology (p. 728) | General Studies (p. 732) | Schools, Society and Policy (p. 736)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

School Information

With more than three-dozen faculty and students from all over the world, the School of Teaching & Learning offers on-campus and online programs in a diverse range of subjects in education.

- Elementary Education | Grades K-6
- Elementary Education | Grades K-6 UF Online
- Florida Teaching Minor
- UFTeach | Mathematics, Science, or Computer Science Minor

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Early Childhood Studies, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

- UFTeach | Mathematics, Science, or Computer Science Minor

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Early Childhood Studies, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 of 3 critical-tracking courses: EDF 1005, EDF 2085, or EME 2040
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 of 3 critical-tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 3 of 3 critical-tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 6

- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.0 UF GPA required

SEMESTER 7

- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses (3000 and 4000 level education courses)
- 2.0 UF GPA required

SEMESTER 8

- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the Writing Requirement while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirement concurrently with another General Education requirement (typically, GE-C, H, or S). One of the two General Education Mathematics courses must be a pure math course. A statistics course is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking

3. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication

4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 of 3 critical tracking courses (EDF 1005, EDF 2085, or EME 2040)
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 3 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.0 UF GPA required

Semester 7

- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses: EEX 3093, EEX 3097, EEX 4520, EEX 4280, EEX 3012
- 2.0 UF GPA required

Semester 8

- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the Writing Requirement while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirement concurrently with another General Education requirement (typically, GE-C, H, or S). One of the two General Education Mathematics courses must be a pure math course. A statistics course is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking

3. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication

4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Overview

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Early Childhood Studies, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Early Childhood Studies, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 of 3 critical tracking courses: EDF 1005, EDF 2085, EME 2040
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 of 3 critical tracking courses
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 3 of 3 critical tracking courses
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

SEMESTER 6

- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.0 UF GPA required

SEMESTER 7

- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses: EME 3044, EME 3319, EME 4010, EME 4320, EME 4673
- 2.0 UF GPA required

SEMESTER 8

- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the Writing Requirement while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirement concurrently with another General Education requirement (typically, GE-C, H, or S). One of the two General Education Mathematics courses must be a pure math course. A statistics course is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must

Students are expected to complete the Writing Requirement while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirement concurrently with another General Education requirement (typically, GE-C, H, or S). One of the two General Education Mathematics courses must be a pure math course. A statistics course is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities opportunity)		3
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Composition (p. 80); Writing Requirement: 6,000 words		3
State Core Gen Ed Mathematics; STA 2023 recommended		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
	Credits	**15**
Semester Two		
EDF 1005	Introduction to Education (**Critical Tracking**)	3
State Core Gen Ed Humanities (p. 80)		3
Gen Ed Composition; Writing Requirement: 6,000 words		3

	Credits	**14**
	Total Credits	**120**

[1] Gen Ed Social and Behavioral Sciences with International; Gen Ed Humanities with International; Gen Ed Biological or Physical Sciences with International

Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking

3. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication

4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

The minor combines learning theories, technology, multimedia, and creativity to build a unique professional skill set aimed to empower teaching and learning in real-world situations. Students utilize advance technology and gain hands-on proficiency in creating interactive and engaging multimedia products that are in high demand. Beyond utilizing hardware and software, the minor provides students with solid pedagogical foundations, contemporary research, and proven practices for improving learning outcomes.

The minor welcomes undergraduate students who prefer a flexible online learning schedule and activities. All required courses are offered fully online.

At the completion of the minor, students will have created a Web portfolio showcasing their mastery in designing, developing and utilizing a variety of digital multimedia products and technology to enhance learning effectiveness.

PREREQUISITES

- Apply for the minor after earning 45 credits and before earning 100 credits.
- Minimum 2.0 GPA is required. All 3000/4000 level-courses in the minor must be taken at UF.
- Initiate the application to add the minor (https://registrar.ufl.edu/forms/)

The elementary education major prepares the next generation of teachers to be leaders in the creation of more equitable classroom experiences for all children, regardless of race, class, gender, sexuality, ability, language, and other differences. The program is intentionally designed to develop teacher candidates' competence in working with current school systems while simultaneously cultivating the knowledge, skills, and dispositions necessary to challenge existing systems that fail to support the learning needs of all children. The curriculum is guided by the principles of culturally and linguistically sustaining pedagogy and universal design for learning. Courses and clinical field experiences promote deep learning, equity, and social justice in the elementary classroom context.

This major is a professional teacher preparation program, approved by the Florida Department of Education (FLDOE) and the Council for Accreditation of Educator Preparation (CAEP). Graduates of the major are prepared for professional certification in Elementary K-6 with endorsements in English for Speakers of Other Languages (ESOL) and Reading.

Coursework for the major

This is a limited access major with selective admission to the upper-division program in Fall semesters only. Students must accumulate 60 credits and meet all Semester 4 critical tracking requirements to be a candidate for admission. The college admissions committee will consider an applicant's entire record, including educational objectives, quality of courses completed, criminal or disciplinary actions, and test date. The application period is February through April for the following Fall semester. An approved applicant would be assigned a course schedule and field placement schedule in Semesters 5-8.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete coursework with minimum grades of C
- 2.0 UF GPA required

SEMESTER 2

- Complete coursework with minimum grades of C
- Complete 1 of 3 critical-tracking courses: EDF 1005 or EDF 2085 or EME 2040
- 2.3 UF GPA required

SEMESTER 3

- Complete coursework with minimum grades of C
- Complete 1 additional critical-tracking course
- 2.6 UF GPA required

SEMESTER 4

- Complete coursework with minimum grades of C
- Complete all 3 critical-tracking courses with a 3.0 critical-tracking GPA
- Complete all General Education requirements
- Complete the university Writing Requirement

- Document passing general knowledge test scores from the FTCE series Please see audit and/or advisor to determine which test to take.
- 2.6 UF GPA required

Students cannot register for courses in semesters 5-8 before program admission, which is competitive and available in Fall semesters only. Students should meet with the admissions coordinator in 1002 Norman Hall to complete an application for admission in February of their sophomore year.

SEMESTER 5

- Complete all required courses with no grade below C
- 3.0 upper-division GPA required
- 2.6 UF GPA required

SEMESTER 6

- Complete all required courses with no grade below C
- 3.0 upper-division GPA

SEMESTER 7

- Complete all required courses with no grade below C
- Document passing Elementary K-6 subject area exam scores from the FTCE series
- 3.0 upper-division GPA

SEMESTER 8

- Complete all required courses with no grade below C
- Earn acceptable ratings for all Florida Educator Accomplished Practices
- Document a passing score on the professional education test from the FTCE series
- 3.0 upper-division GPA

Model Semester Plan

For electives, students are encouraged to select courses that strengthen their knowledge of the content areas of literature, social sciences, natural sciences, and mathematics.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

RED 4844	Practicum in Reading	2
TSL 4100	ESOL Curriculum, Methods and Assessment	3
	Credits	**15**
	Total Credits	**120**

[1] Apprenticeship students replace MAE 4310L, SCE 4310L, and EDG 4048 with an additional five credits of EDE 4940.

Passing score on all subtests of the FTCE subject area exam in elementary education (K-6) and on the Professional Education Test are required for completion of the bachelor's degree.

Certification

Confers recommendation for certification in elementary (grades K-6) with endorsements in ESOL and reading.

Academic Learning Compact

This degree prepares students for certification to teach grades K - 6 in the state of Florida. The program develops the foundation knowledge, skills, and practical experience for effective planning, teaching, and evaluating pupil learning.

Before Graduating Students Must

- Pass the General Knowledge Test, the Elementary Education Subject Area Test, and the Professional Education Test of the Florida Teacher Certification Examination series.
- Demonstrate mastery of effective teaching practices by meeting Florida Educator Accomplished Practices 1-6, as determined by multiple instructors across the program.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate competency in subject matter for grades K - 6 in language arts, reading, social studies, mathematics, science, and technology.
2. Create, select, and implement: (1) specific learning goals, (2) appropriate teaching methods and instructional materials, and (3) evaluation strategies aligned with goals, using knowledge of subject matter, learners, and classroom management.

Critical Thinking

3. Critically evaluate your own instructional effectiveness to plan future lessons and improve your teaching of all students over time.

Communication

4. Effectively communicate with students, including students whose home language is not standard English, as well as with parents and other school personnel.
