Variable topics examine issues, movements, forms, or themes related to race and ethnicity in American literature. Topics may include Pacific Rim cultures in America, Chicano-Latino literature, the Black Arts Movement, constructing Native America, border-crossing and migration, post-war Jewish fiction, literature and the psychology of prejudice, comparative representations of racial and ethnic experience, representing whiteness, literatures of assimilation and multi-racial identities. Refer to the department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

CRW 1101 Beginning Fiction Writing 3 Credits
Grading Scheme: Letter Grade
For students who want to write fiction. Includes basics and heavy reading. Students write stories and their fiction is discussed in workshop.
Prerequisite: ENC 1101 or test score equivalency.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

CRW 1301 Beginning Poetry Writing 3 Credits
Grading Scheme: Letter Grade
Concentrates on basics of reading and writing poetry. Some student writing will be discussed in workshop.
Prerequisite: ENC 1101 or test score equivalency.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

CRW 2100 Fiction Writing 3 Credits
Grading Scheme: Letter Grade
Instruction in basic techniques of voice, plot and character while introducing advanced ones.
Prerequisite: CRW 1101 or junior/senior standing.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

CRW 2300 Poetry Writing 3 Credits
Grading Scheme: Letter Grade
Use techniques to write poetry. Read thrilling and difficult poetry of past and present.
Prerequisite: CRW 1301 or junior/senior standing.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

CRW 3110 Advanced Seminar in Fiction Writing 3 Credits
Grading Scheme: Letter Grade
Small workshop for students who have made their way out of beginner's workshops with sanity intact. Now the work gets more difficult, more deranged and more delightful. Emerson said, "People do not deserve to have good writing, they are so pleased with bad." Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.
Prerequisite: CRW 2100.

CRW 3310 Advanced Seminar in Poetry Writing 3 Credits
Grading Scheme: Letter Grade
More reeling and writhing," as Lewis Carroll said. An intense workshop for a small group of poets who have stared at the Pacific with a wild surmise. Like Balboa - or was it Cortez? Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.
Prerequisite: CRW 1301 or CRW 2300.

CRW 4211 Creative Nonfiction 3 Credits
Grading Scheme: Letter Grade
Creative writing workshop which introduces genres of creative nonfiction (e.g. memoir, personal essay, travel writing) and provides training in those genres. Appropriate for, but not limited to, English majors.
Prerequisite: 6 credits of AML, CRW, ENG, ENL, or LIT.

CRW 4905 Senior Advanced Workshop in Fiction Writing 3 Credits
Grading Scheme: Letter Grade
For students who want to trouble the literary editors and readers of the future. Many members of this class have gone on to graduate school in writing. Ants eat everything that is written, said an explorer. This is a workshop for ants. Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.
Prerequisite: CRW 3110.

CRW 4906 Senior Advanced Workshop in Poetry Writing 3 Credits
Grading Scheme: Letter Grade
George I said, "I hate all Boets and Bainters." For battle-scarred veterans of previous workshops who now want the full treatment, this is a small workshop for serious poets who want to write their names in water, as long as they are also in the Norton Anthology. Students often go from this class into MFA programs in poetry. Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.
Prerequisite: CRW 3310.

ENC 1136 Multimodal Writing and Digital Literacy 3 Credits
Grading Scheme: Letter Grade
Teaches digital literacy and digital creativity. Compose and convey creative, well-researched, carefully crafted information through digital platforms and multimodal documents. Also promotes digital writing and research as central to academic, civic, and personal expression.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 1145 Topics for Composition 3 Credits
Grading Scheme: Letter Grade
Instruction in expository-argumentative writing related to one special topic selected by the instructor. Readings include variable genres from different disciplines. (WR)
Prerequisite: ENC 1101 or test score equivalency.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 2210 Technical Writing 3 Credits
Grading Scheme: Letter Grade
Surveys the forms and methods of communication used in business, industry and government, including informal and formal reports, letters, resumes, and proposals.
Prerequisite: ENC 1101 or test score equivalency.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3250 Professional Communication 3 Credits
Grading Scheme: Letter Grade
Professional writing course relevant in business, industry, government and other institutional settings. Covers major elements of organizational communication with emphasis on composition of letters and memos, reports, proposals and manuals. (WR)
Prerequisite: Junior standing or higher and two 1000- or 2000-level English courses.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3310 Advanced Exposition 3 Credits
Grading Scheme: Letter Grade
Advanced composition course in methods of exposition: definition, classification, comparison and contrast, analysis, illustration and identification. (WR)
Prerequisite: Junior standing or higher and two 1000/2000-level English courses.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3312 Advanced Argumentative Writing 3 Credits
Grading Scheme: Letter Grade
Advanced composition concerned with the writing of argument and critical analysis. (WR)
Prerequisite: junior/senior standing and two 1000/2000-level English courses.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3361 Environmental Nonfiction 3 Credits
Grading Scheme: Letter Grade
A survey of compositional forms and techniques for communicating information about the environment and environmental change. Focuses on the art and practice of literary storytelling as a communication strategy to prompt greater understanding of environmental transformation and to catalyze ecological awareness and civic engagement.
Prerequisite: Sophomore standing or higher.

ENC 3414 Hypermedia 3 Credits
Grading Scheme: Letter Grade
The study and production of digital media with emphasis on the World Wide Web.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENC 4212 Professional Editing 3 Credits
Grading Scheme: Letter Grade
How to perform different levels of editing on a range of professional texts, including both printed and online texts as well as both technical and literary ones.
Prerequisite: ENC 3250 or ENC 2210, and instructor permission.

ENC 4260 Advanced Professional Writing 3 Credits
Grading Scheme: Letter Grade
Administrative communication, professional papers, research reports, proposals and other major professional documents, depending on the needs of the students who must have developed communication skills. (WR)
Prerequisite: ENC 2210 or ENC 3250, or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

ENG 1131 Writing through Media 4 Credits
Grading Scheme: Letter Grade
Course examines media studies and writing. Explores practices of literacy in context of popular culture, including cinema, television, advertising, popular fiction and journalism, including selections from the Western canon.
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENG 1400 Introduction to Popular Film 3 Credits
Grading Scheme: Letter Grade
For non-majors seeking humanities credit in the areas of film and popular culture. Introduces the study of contemporary movies through attention to film form and structure, film genres, and attention to popular culture. Requires viewing new movies off campus.

ENG 2300 Film Analysis 4 Credits
Grading Scheme: Letter Grade
Introduces thinking and writing about the cinema by means of film theory and history. (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: Satisfies 6000 Words of Writing Requirement

ENG 2820 What is the English Major? 3 Credits
Grading Scheme: Letter Grade
Introduces the English major at UF and to career tracks for which the major is useful.

ENG 2935 English: College Honors 1 3 Credits
Grading Scheme: Letter Grade
Writing about novels, short stories, film, and cultural studies primarily by American and British authors. Text and assignments match the abilities of honor students.

ENG 3010 The Theory and Practice of Modern Criticism 3 Credits
Grading Scheme: Letter Grade
Intensive introductory study of 20th-century criticism theory.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 3011 The Theorists 3 Credits
Grading Scheme: Letter Grade
Studies one or more theorists, contemporary or historical.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 3063 Advanced Grammar: Analysis and Application 3 Credits
Grading Scheme: Letter Grade
An extensive and sophisticated study of grammar, as well as a practical appreciation of its rhetorical purposes.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 3113 The Movies as Narrative Art 4 Credits
Grading Scheme: Letter Grade
Examines movies as a mode of storytelling by emphasizing the difference between verbal and visual narration, and relation to contemporary thought and values.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 3115 Introduction to Film: Criticism and Theory 4 Credits
Grading Scheme: Letter Grade
Introduces the principal theoretical and critical issues raised by the first century of the cinema.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 3121 History of Film, Part 1 4 Credits
Grading Scheme: Letter Grade
History of film from its beginnings to the introduction of sound.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 3122 History of Film, Part 2 4 Credits
Grading Scheme: Letter Grade
History of film from the introduction of sound to 1960.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 3125 History of Film, Part 3 4 Credits
Grading Scheme: Letter Grade
History of film from 1960 to the present.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 3503 CINEMA OF ENVIRONMENTAL CRISIS 4 Credits
Grading Scheme: Letter Grade
Surveys global cinema of environmental crisis with a focus on historical and contemporary experimental, fiction, and nonfiction films' representations of human responses to environmental change. In addition to the three hours of weekly lectures, requires attendance at a weekly film screening (up to three hours).
Prerequisite: Sophomore standing or higher.

ENG 4015 Psychological Approaches to Literature 3 Credits
Grading Scheme: Letter Grade
Use of various psychological concepts to the application of literary study. Refer to department website.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4130 Race and Ethnicity in Film 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of films and videos by and about people of color in the Americas, Africa, Australia, and Europe.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4133 Film Studies 4 Credits
Grading Scheme: Letter Grade
Variable topics provide in-depth study of film genres, notable film directors, and other significant topics on subjects related to film.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4134 Women and Film 4 Credits
Grading Scheme: Letter Grade
Studies the roles and function of women in mainstream and alternative cinema, including study of feminist film criticism and theories of gender.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4135 National Cinemas 4 Credits
Grading Scheme: Letter Grade
Variable topics study of the films of historically important national cinemas, such as American, French, German, Italian, Russian, Japanese.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4136 Film and Video Production 4 Credits
Grading Scheme: Letter Grade
Seminar on the independent and experimental uses of small-format film and video production.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4139 Television and Electronic Culture 4 Credits
Grading Scheme: Letter Grade
Explores the development of new modes of thought, forms of art, popular culture, and social practices based on the electronic technology of video and computers.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4146 Advanced Film and Video Production 4 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more advanced aspects of film and video production, including such topics as editing of film and video or the production of 16mm films.
Prerequisite: ENG 4136.

ENG 4310 Film Genres, Directors, and Periods 4 Credits
Grading Scheme: Letter Grade
Variable topics on film genres (e.g. documentary, the musical, melodrama, film noir), film directors, or periods in cinematic history.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4844 Queer Theory 3 Credits
Grading Scheme: Letter Grade
Overview of major concerns, methodologies, and texts in queer theory, illuminating the theoretical insights, assumptions, and implications of various constructions of gender, sex, and sexuality.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4905 Independent Study 1-3 Credits
Grading Scheme: Letter Grade
For advanced students who desire to supplement the regular courses by independent reading or research under guidance.
Prerequisite: instructor and/or department permission.

ENG 4910 Topics in Collaborative Research 3 Credits
Grading Scheme: Letter Grade
Provides supervised research in English in a group context, with emphasis on collaborative learning using variable content and methods.
Prerequisite: Six credits of English at the 1000/2000 level, or department permission.

ENG 4911 Undergraduate Research in English 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English.

ENG 4936 Honors Seminar 3 Credits
Grading Scheme: Letter Grade
Open to English majors who have maintained an overall junior/senior level GPA of 3.5. Small seminar classes study topics in English and American literature or film.
Prerequisite: undergraduate coordinator and/or department permission.

ENG 4940 English Internship 1-3 Credits
Grading Scheme: S/U
Admission requires a written proposal of appropriate work experience from the student and a written acceptance for employment from the employer, including designation of a supervisor. Successful completion requires a written summation of the work experience from the student and a written evaluation of performance by the supervisor.
Prerequisite: 12 credits of 3000/4000-level work in English and undergraduate coordinator permission.

ENG 4953 Department Seminar 3 Credits
Grading Scheme: Letter Grade
Seminar offered on a space-available basis allowing department majors to develop their individual programs of study while focusing on a common topic.
Prerequisite: English major and 9 credits of 3000/4000-level work in English.

ENG 4970 Honors Thesis Project 3 Credits
Grading Scheme: Letter Grade
Student selects an English faculty member to act as director for an independent research project that culminates in preparation of an honors thesis. An abstract and one copy of the thesis must be delivered to 101 Academic Advising Center by the semester deadline specified by the Honors Office.
Prerequisite: completion of one semester of ENG 4936; undergraduate coordinator permission. Open to English honors students.

ENL 2012 Survey of English Literature: Medieval to 1750 3 Credits
Grading Scheme: Letter Grade
This course fulfills three hours of the general education requirement in humanities and the writing and math requirement while introducing students to some of the major writers, issues and forms found in the history of the period, including selections from the Western canon. The breadth and focus of this survey will be determined by the instructor.
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ENL 2022 Survey of English Literature: 1750 to the Present 3 Credits
Grading Scheme: Letter Grade
This course fulfills three hours of the general education requirement in humanities and the writing and math requirement while introducing students to some of the major writers, issues and forms found in the history of the period, including selections from the Western canon. The breadth and focus of this survey will be determined by the instructor.
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ENL 2330 Introduction to Shakespeare 3 Credits
Grading Scheme: Letter Grade
Introduces the pleasure and wisdom of Shakespeare's plays. Various approaches are used: movie versions of the plays, staging of scenes from the plays and discussion.
Prerequisite: ENC 1101 or test score equivalent.

ENL 2930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on major issues and themes in British literature and culture.
Prerequisite: ENC 1101 or equivalent.

ENL 3112 The British Novel: 18th Century 3 Credits
Grading Scheme: Letter Grade
Covers a wide range of eighteenth-century British novelists, from Aphra Behn, Daniel Defoe, and Samuel Richardson to Henry Fielding, Frances Burney, and Jane Austen. The instructor determines the breadth and focus of each course; refer to department website.
Prerequisite: Six credits of English at the 1000/2000 level.

ENL 3122 The British Novel: 19th Century 3 Credits
Grading Scheme: Letter Grade
Includes works by such novelists as Austen, Dickens, Gaskell, Brontë, Eliot, Hardy. The instructor determines the breadth and focus of each course; refer to department website.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENL 3132 The English Novel: 20th Century 3 Credits
Grading Scheme: Letter Grade
Includes works by such writers as Conrad, Lawrence, Joyce, Forster, Woolf, Greene, and Waugh.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENL 3154 Twentieth-Century British Poetry 3 Credits
Grading Scheme: Letter Grade
General study of the most prominent British poets of the 20th Century with particular emphasis on Yeats, Lawrence, Graves, Eliot, Sitwell, Dylan Thomas, and Ted Hughes.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENL 3210 Medieval English Literature 3 Credits
Grading Scheme: Letter Grade
Surveys representative works of the Middle English period such as Sir Gawain and the Green Knight, Pearl, Malory's Morte D'Arthur, and selections from medieval drama, lyric poetry, mystical writings, and writings by and about women.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENL 3230 The Age of Dryden and Pope 3 Credits
Grading Scheme: Letter Grade
Selections from the best works of such writers as Dryden, Congreve, Addison, Swift, and Pope.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENL 3234 The Long Eighteenth Century: Themes and Interpretation 3 Credits
Grading Scheme: Letter Grade
Rotating topics courses on eighteenth-century British literature, with an emphasis on themes rather than genres. These include but are not limited to literature's engagement with social issues, material history, and the history of ideas. The instructor determines the breadth and focus of this course; refer to department website.
Prerequisite: 6 credits of English at the 1000/2000 level, or department permission.

ENL 3235 The Long Eighteenth Century: Imaginative Genres 3 Credits
Grading Scheme: Letter Grade
Rotating topics courses on eighteenth-century British literature, focusing on imaginative genres; especially genres other than the novel, such as drama, poetry, and non-novelistic prose fiction. The instructor determines the breadth and focus of this course; refer to department website.
Prerequisite: 6 credits of English at the 1000/2000 level, or department permission.

ENL 3240 The Romantic Period 3 Credits
Grading Scheme: Letter Grade
The Romantic Period
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENL 3251 Victorian Literature 3 Credits
Grading Scheme: Letter Grade
Selections from Tennyson, Browning, C. Bronte, Wilde, G.M. Hopkins, and Arnold. Examines the beliefs and paradoxes of Victorian culture through the poetry, fiction, drama, visual arts, and critical theory of representative figures. Investigates the social and cultural assumptions which underlie the artists' approaches to their themes as well as the themes themselves. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENL 3350 Age of Johnson 3 Credits
Grading Scheme: Letter Grade
Age of Johnson
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENL 4220 Renaissance Literature: 16th Century 3 Credits
Grading Scheme: Letter Grade
Variable topics in Tudor literature and culture, 1485-1603. Focuses on or combine topics such as the development of literary genres; the works of single or paired authors; the social institutions and material conditions of textual production; thematically organized studies of cultural relations between literary and nonliterary texts; issues of gender, religion, nationhood and race; and writing in the emergence of an English literature. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENL 4221 Renaissance Literature: 17th Century 3 Credits
Grading Scheme: Letter Grade
Variable topics in Stuart Literature and Culture, 1603-1700. Focuses on or combine topics such as the progress of literary genres; the works of single or paired authors; the social institutions and material conditions of textual production; thematically organized studies of cultural relations between literary and nonliterary texts; issues of gender, religion, nationhood and race; and writing in the era before, during and after the English Revolution. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENL 4273 Twentieth Century British Literature 3 Credits
Grading Scheme: Letter Grade
Variable topics on major works of drama, poetry or prose from twentieth-century Britain. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENL 4303 Major Figures of British Literature and Culture 3 Credits
Grading Scheme: Letter Grade
In-depth focus on one or two major cultural figures, such as Marlowe, Austen, Scott, Eliot, Dickens, Yeats, Smith, Ishiguro, Kureishi, etc.
Prerequisite: Prerequisite to all 3000/4000-level courses are six credits of English at the 1000/2000 level or department permission.

ENL 4311 Chaucer 3 Credits
Grading Scheme: Letter Grade
Reading and critical study of Chaucer's poetry with emphasis on the Canterbury Tales and Troilus and Criseyde, in addition to some attention to the minor works.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENL 4333 Shakespeare 3 Credits
Grading Scheme: Letter Grade
Studies selections from Shakespeare. Topics include tracing Shakespeare's dramatic career, concentrating on one or several genres including histories, comedies, tragedies, and romances; developing the history of Shakespeare reception; approaching Shakespeare through performance, including acting and directing; and approaching Shakespeare through feminist, materialist, or psychoanalytic methods.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIN 4400 Introduction to Morphology 3 Credits
Grading Scheme: Letter Grade
Theory of word structure, derivation and inflection, with examples and problems from a variety of languages. Includes the position of morphology in grammar, the relationship between morphology and grammar, typology, cultural and conceptual categories, and predictions of various theories of morphology. May be taught in conjunction with a graduate course that bears the same title.
Prerequisite: LIN 3010 and LIN 3460.

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
In this course, students will be assigned readings representative of a broad range of literary genres and cultures. These readings will cover a variety of literary movements and historical eras. The readings will include selections from the Western canon. Written analysis of literary works may be required. Students will be provided with opportunities to practice critical interpretation.
Prerequisite: ENC 1101
Attributes: General Education - Humanities

LIT 2110 Survey of World Literature: Ancient to Renaissance 3 Credits
Grading Scheme: Letter Grade
Introduces students to some major writers, issues and forms found in history of period. Includes selections from the Western canon. Breadth and focus determined by instructor.
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LIT 2120 Survey of World Literature: 17th Century to Modern 3 Credits
Grading Scheme: Letter Grade
Introduces students to some writers, issues and forms found in history of period. Includes selections from the Western canon. Breadth and focus of survey determined by instructor.
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LIT 3003 The Forms of Narrative 3 Credits
Grading Scheme: Letter Grade
A close reading and critical analysis of representative forms and styles of narrative, to improve the student's ability to study narrative structures and theories of narrative. Refer to department website.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 3031 Studies in Poetry 3 Credits
Grading Scheme: Letter Grade
Variable topics provide in-depth study of genre such as the lyric, epic, or sonnet, or of developments in periods of literature such as the medieval, American, or African. Emphasizes refining the ability to read and analyze texts carefully and accurately. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 3041 Studies in Drama 3 Credits
Grading Scheme: Letter Grade
Variable topics provide an in-depth study of genre such as comedy or tragedy, or of developments in periods such as the Elizabethan, Jacobean, or Restoration. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 3043 Studies in Modern Drama 3 Credits
Grading Scheme: Letter Grade
Representative selections from continental, British, and American playwrights. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 3173 Jewish Literature 3 Credits
Grading Scheme: Letter Grade
Variable topics in the Jewish literary experience, from the biblical narrative and classical tales to Yiddish and Hebrew literature, the modern European novel, and American Jewish fiction.
Prerequisite: Sophomore standing or higher.

LIT 3362 The Age of the Avant-Garde 3 Credits
Grading Scheme: Letter Grade
Examines the revolutionary experimentalist aspects of modern and contemporary culture, such as cubism, surrealism, structuralism, and conceptualism.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 3374 The Bible as Literature 3 Credits
Grading Scheme: Letter Grade
Literary analysis from the Hebrew and Christian Bibles with an emphasis on poetry and narrative.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.
Attributes: General Education - International

LIT 3383 Women in Literature 3 Credits
Grading Scheme: Letter Grade
Critical and thematic study of women in literature that may include fiction, poetry, or drama in English, American, or world literature. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 3400 Interdisciplinary Topics in Literature 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary variable-topics study of the vital relationship between literature and other creative arts, other humanistic disciplines, or the sciences and technology. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 3622 Literature of Sustainability & Resilience 3 Credits
Grading Scheme: Letter Grade
Survey of literary nonfiction, fiction, memoir, and poetry addressing human responses to environmental change and crisis.
Prerequisite: Sophomore standing or higher.

LIT 4188 World English Language Literatures 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more of the diverse English language literary traditions, including those of Ireland, Scotland, India, Nigeria, the Caribbean, Canada, and Australia. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 4192 Caribbean Literature in English 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on the critical and analytical study of representative Caribbean authors writing in English. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL

LIT 4194 African Literature in English 3 Credits
Grading Scheme: Letter Grade
Critical and analytical study of representative Black-African authors writing in English, notably Achebe, Awoonor, Ngugi, Aidoo, Soyinka, Armah, Ekwensi, Mphalele, and p'Bitek'.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.
Attributes: General Education - International

LIT 4233 Postcolonial Literature, Culture and Theory 3 Credits
Grading Scheme: Letter Grade
Variable topics explore the issues, questions, and themes raised in the rich literature, culture, and theory that emerge as a response to and in contestation of the experiences of the colonial and postcolonial worlds. Refer to department website for offered content.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 4305 Comics Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics provide an opportunity for the in-depth study of comics genres, notable comics writers, and illustrators and other significant topics on related subjects.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 4322 The Folktale 3 Credits
Grading Scheme: Letter Grade
Reading folktales, myths, and legends, particularly those told orally by ethnic, indigenous, and emigrant cultures within the USA. Attention is paid to critical theory and the scholarly study of the folktale. In addition, the use of the folktale by creative writers and teachers is discussed.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 4331 Children's Literature 3 Credits
Grading Scheme: Letter Grade
Arouse a genuine interest in children's books and obtain a critical knowledge of the literature.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 4332 Literature for Young Children 3 Credits
Grading Scheme: Letter Grade
Explores kinds and qualities of literature for the younger child, examining the child's first experience with literature in oral forms, then moving on to picture and story books and poetry.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 4333 Literature for the Adolescent 3 Credits
Grading Scheme: Letter Grade
Studies the types of literature read by adolescents, emphasizing the criteria for the choice of good books and developing a familiarity with the many books available.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 4334 Golden Age of Children's Literature 3 Credits
Grading Scheme: Letter Grade
Origins and evolution of the Anglo-American tradition in literature for young readers, 1720-1920, with an emphasis on the Victorian era. Authors may include Defoe, Scott, Cooper, Dickens, Alcott, Twain and Stevenson.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 4483 Issues and Methods in Cultural Studies 3 Credits
Grading Scheme: Letter Grade
Introduces the issues and methodology used in cultural studies and encourages the exploration of a number of methods by which culture is analyzed, understood, and disseminated. Refer to department website.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 4554 Feminist Theories 3 Credits
Grading Scheme: Letter Grade
Introduces a variety of analytic, theoretical and interpretive approaches under the general rubric feminist theory; concentrates on current issues in literary and cultural studies, but also discusses other disciplines.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

LIT 4930 Variable Topics in Literature and Language 3 Credits
Grading Scheme: Letter Grade
Proseminar of variable content providing an opportunity for the in-depth study of various topics, such as the literature of war and peace, of death and of courtly love. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

RED 1343 Reading and Writing Content Area 1-7 Credits
Grading Scheme: Letter Grade
Covers the fundamentals of beginning college writing and critical reading skills.

SPC 3602 Advanced Public Speaking 3 Credits
Grading Scheme: Letter Grade
Studies principles and methods of selected forms of public speaking for various purposes, audiences and contexts.
Prerequisite: SPC 2608 or equivalent.

SPC 4680 Rhetorical Criticism 3 Credits
Grading Scheme: Letter Grade
Critical analyses of rhetorical elements and processes in oratorical and non-oratorical forms.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

Entomology and Nematology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Entomology and Nematology Department prepares students for exciting careers in a large variety of fields. Entomology and Nematology majors can enter medical, veterinary, or dental school; progress to graduate study in entomology, nematology, or any of several other biological sciences such as ecology and evolutionary biology, horticulture, or zoology; or move directly to a variety of careers (including industry and government positions) in fields such as pest management, agriculture, ecotourism, biosecurity, science policy, and education

Curriculum

- Beekeeping Certificate
- Combination Degrees
- Entomology and Nematology
- Entomology and Nematology Minor
- Entomology and Nematology Minor UF Online
- Landscape Pest Management Certificate
- Medical Entomology Certificate
- Pest Control Technology Certificate
- Urban Pest Management Certificate

Courses

ALS 2931 Agricultural Honors 1-4 Credits
Grading Scheme: Letter Grade
Various courses offered. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

ALS 3153 Agricultural Ecology 3 Credits
Grading Scheme: Letter Grade
Introduces the study of ecology from an agricultural perspective. Emphasizes ecological principles with examples and applications from agriculture.
Prerequisite: Sophomore standing or higher.

ALS 4161 Exotic Species and Biosecurity Issues 3 Credits
Grading Scheme: Letter Grade
Studies US policies and programs affecting agricultural biosecurity as applied to current agricultural and extension and regulatory programs. Emphasizes policies and procedures used to detect and report non-indigenous species. Develop the analytical capabilities to assess the consequences of agricultural biosecurity threats.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.

ALS 4162 Consequences of Biological Invasions 3 Credits
Grading Scheme: Letter Grade
Non-native species invasions and environmental effects of these invaders. Students will develop analytical capabilities to assess the consequences of biological invasions.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.

ALS 4163 Challenges in Plant Resource Protection 3 Credits
Grading Scheme: Letter Grade
Applied training in the regulatory aspects of plant protection, using real-world case studies, scenarios and issues.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.
Corequisite: HOS 3020C or ENY 3005/ENY 3005L or PLP 3002C.

ENY 1001 Bugs and People 3 Credits
Grading Scheme: Letter Grade
General education course for lower-division undergraduates who would like to learn popular information about insects and associated organisms. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science, General Education - International

ENY 2040 The Insects 3 Credits
Grading Scheme: Letter Grade
Introduction to the principles and practices of plant production systems. An overview of plant evolution, anatomy, physiology, improvement, pest, water and nutrient management as applied to a variety of plant production systems. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

ENY 2041C Practical Beekeeping 3 Credits
Grading Scheme: Letter Grade
Establish colonies of European-derived honey bees and manage them to be healthy and productive. A hybrid approach combines online lectures and in-person field experiences.

ENY 2211 Bite Me? 3 Credits
Grading Scheme: Letter Grade
Arthropod-borne diseases represent some of the most dangerous and major challenges facing human health. They have shaped the course of history and have remained a threat. Everyone has, at one point or the other, been exposed to the nuisance and bites of arthropods and, therefore, potentially to the diseases they may carry. The effects of these arthropod-borne diseases on human health are increasing and spreading. Factors such as the development of resistant parasite strains to the currently available drugs, and the evolution of insecticide resistance to the currently available insecticides account for this increase and spread. Other factors such as constantly changing climate, trade, unplanned urbanization, changes in agricultural practices, and human travel also aid the establishment of these diseases thereby intensifying disease transmission or causing disease emergence in areas where they were previously unknown. This is a multidisciplinary course that covers concepts and topics from the fields of entomology, medicine, public health, biology, parasitology, microbiology, and veterinary medicine, and will address the interactions of arthropods to humans and the environment. It will present pressing issues relating to the impact of arthropods in public health and will also explore challenging questions such as “what are the emerging issues in vector biology and disease epidemiology”? and “what can be done to manage or prevent the occurrence of arthropod-borne diseases”? This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Quest 2, General Education - Biological Science

ENY 2250 Biodiverse in a Changing World 3 Credits
Grading Scheme: Letter Grade
This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Quest 2, General Education - Biological Science

ENY 2890C Insect Research CURE 3 Credits
Grading Scheme: Letter Grade
Course-based Undergraduate Research Experience (CURE) which bridges the divide between the classroom and research laboratory. Become part of a collaborative research team and work with faculty mentors to collect publishable data that address pressing questions in the field of entomology. The specific research project changes each semester.

ENY 3005 Principles of Entomology 3 Credits
Grading Scheme: Letter Grade
Introduces basic principles of insect science, including insect diversity, evolution, morphology, physiology, behavior, and ecology, as well as applications of insect biology.
Prerequisite: ENY 1001 or BSC 2005 or BSC 2010 or sophomore standing.

ENY 3005L Principles of Entomology Laboratory 1 Credit
Grading Scheme: Letter Grade
Provides practical laboratory experience working with insects, dissecting insects and preparing lab reports. Insect collection is required.
Corequisite: ENY 3005.

ENY 3007C Life Science 3 Credits
Grading Scheme: Letter Grade
Introduces insects and their interactions with humans and the environment.
Prerequisite: Sophomore standing or higher.

ENY 3222C Biology and Identification of Urban Pests 3 Credits
Grading Scheme: Letter Grade
Biology, behavior, ID and damage recognition of insect and vertebrate pests.
Prerequisite: ENY 3005 and ENY 3005L.

ENY 3225C Principles of Urban Pest Management 3 Credits
Grading Scheme: Letter Grade
Methods of controlling household, structural and occasional pests with emphasis placed on cockroaches, termites and fleas.
Prerequisite: ENY 3005 and ENY 3005L.

ENY 3228 Urban Vertebrate Pest Management 2 Credits
Grading Scheme: Letter Grade
The biology, ecology, health risks, exclusions and control of vertebrate pests in the urban environment.
Prerequisite: Sophomore standing or higher.

ENY 3451C Insect Behavior 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical and empirical overview of insect behavior, ranging from physiology underlying behavior to the evolution of behavioral diversity. Focuses on recent and current research on insect behavior, the diversity of approaches for studying it, and how this knowledge can be applied to solve human challenges.
Prerequisite: ENY 1001 or ENY 2040 or ENY 3005 or BSC 2005 or BSC 2010, or instructor permission.

ENY 3510C Turf and Ornamental Entomology 3 Credits
Grading Scheme: Letter Grade
Biology, identification, and management of arthropods that infect turfgrass and ornamental plants in urban landscape and in nurseries and greenhouses.
Prerequisite: Sophomore standing or higher.

ENY 3563 Introduction to Tropical Entomology 3 Credits
Grading Scheme: Letter Grade
Natural history, ecology and behavior of tropical insects in natural and agroecosystems. Designed for students without previous experience in tropics.
Prerequisite: ENY 3005 and ENY 3005L.

ENY 3564L Tropical Entomology Field Laboratory 2 Credits
Grading Scheme: Letter Grade
A 10-day trip to a tropical country to study the insect faunas of natural and agroecosystems. Each student is assigned a field project.
Prerequisite: ENY 3563.

ENY 3830 Spider Biology 2 Credits
Grading Scheme: Letter Grade
Introduces the biology of spiders and their relatives, with an emphasis on their ecology, behavior, and evolution. Learn to identify the members of approximately 20 common spider families as well as several common Florida species.
Prerequisite: sophomore standing.

ENY 3830L Spider Biology Lab 1 Credit
Grading Scheme: Letter Grade
Provides practical experience working with spiders, including field collection techniques, identification and curation of spider specimens, and observing spider behavior. Requires spider collection.
Prerequisite: Sophomore standing or above.
Corequisite: ENY 3830 or ZOO 4926.

ENY 4161 Insect Classification 3 Credits
Grading Scheme: Letter Grade
Classification of major families of adult insects with emphasis on their identification, habitat and niche. A properly curated collection is required.
Prerequisite: ENY 3005 and ENY 3005L.

ENY 4201 Insect Ecology 3 Credits
Grading Scheme: Letter Grade
This course is an introduction to ecological concepts with emphasis on insects. The relationships of insects with their biotic and physical environments, along with the roles of insects in nature, will be emphasized. The basics of ecological research will be covered.
Prerequisite: BSC 2005 with a minimum grade of C or BSC 2010 with a minimum grade of C.

ENY 4201L Insect Ecology Lab 1 Credit
Grading Scheme: Letter Grade
Introduces ecological methods and analysis with an emphasis on insects. Emphasizes methods to explore relationships of insects with their biotic and physical environments, along with the roles of insects in nature. Also covers the basics of ecological research.
Prerequisite: (BSC 2005 and BSC 2005L) or (BSC 2010 and BSC 2010L), all with minimum grades of C.
Corequisite: ENY 4201.

ENY 4202 Ecology of Vector-Borne Disease 3 Credits
Grading Scheme: Letter Grade
Introduces critical components of vector-borne disease systems and basic concepts inherent to disease ecology. Focuses on vector-borne diseases of humans and wildlife and how aspects of the environment and host/vector biology influence disease transmission. Topics include epidemiology, transmission models, and emerging diseases.
Prerequisite: Junior or senior standing.

ENY 4208 Ecology and Conservation of Pollinators 3 Credits
Grading Scheme: Letter Grade
Examines interactions between animals and the plants that they pollinate, current threats to pollinator populations, and the conservation of pollinators worldwide; explore these topics through readings, discussion, and a field research project.
Prerequisite: BSC 2010 and BSC 2010L or equivalents with minimum grades of C-, and junior standing or higher.

ENY 4209 Global Change and Insect Declines 2 Credits
Grading Scheme: Letter Grade
Introduces the global impacts of anthropogenic change on insect diversity and abundance. Read pertinent papers on important topics such as pollution, pesticides, and climate change, followed by group discussions on how these factors impact insects both in Florida and globally.
Prerequisite: BSC 2005 or ENY 2040 or ENY 3005.

ENY 4210 Insects and Wildlife 3 Credits
Grading Scheme: Letter Grade
Introduces insects and other arthropods and their relationships with wild vertebrate animals.
Prerequisite: BSC 2005 or BSC 2010.

ENY 4221 Termite Biology and Control 2 Credits
Grading Scheme: Letter Grade
Taxonomy, identification, behavior, ecology, and methods of control for the economically important termites in the New World.
Prerequisite: Sophomore standing or higher.

ENY 4230 Pesticide Application 1-6 Credits
Grading Scheme: Letter Grade
Practical work experience in integrated pest management techniques, including identification, inspection, exclusion, proper application of pesticides, and IPM program evaluation in urban environments.
Prerequisite: ENY 3225C or ENY 3222C.

ENY 4453 Behavioral Ecology and Systematics 3 Credits
Grading Scheme: Letter Grade
Introduces behavioral ecology and systematics of insects.
Prerequisite: ENY 3005 and ENY 3005L.

ENY 4455C Social Insects 3 Credits
Grading Scheme: Letter Grade
Overview of social insect biology in the context of comparative social evolution. Topics include the diversity of social behaviors in insects, evolutionary origins of sociality, kin recognition, caste systems, communication in social groups, and impacts of social insects.
Prerequisite: BSC 2005 or BSC 2010 or equivalent with a minimum grade of C.

ENY 4571 Honey Bee Biology 3 Credits
Grading Scheme: Letter Grade
Provides an in-depth look into the fascinating world of honey bee biology. Explore topics including honey bee sociality, taxonomy, biogeography, behavior, anatomy, physiology, reproduction, nutrition and genetics. Additionally, these topics will be discussed via the paradigm of the honey bee superorganism.
Prerequisite: BSC 2005 or BSC 2010.

ENY 4573 Beekeeping I 3 Credits
Grading Scheme: Letter Grade
Examines the biology of honey bees and the craft of apiculture by exploring the life cycle of honey bees, biogeography, and evolution of beekeeping. Discusses equipment, techniques, management practices, pollination ecology, economic practices, and current issues within beekeeping.
Prerequisite: BSC 2005 or BSC 2010.

ENY 4574 Beekeeping II 3 Credits
Grading Scheme: Letter Grade
Provide more depth on topics introduced in ENY 4573, including beekeeping styles, colony stressors, and yearly management. Also explores issues affecting the beekeeping industry including integrated pest management, pests/diseases, African bees, commercial pollination, queen production, bee removals, and pesticides.
Prerequisite: ENY 4573.

ENY 4590C Mosquito Identification 3 Credits
Grading Scheme: Letter Grade
Intensive, hands-on training on morphological features and the identification of adult and larval mosquito species that occur in North America.
Prerequisite: junior standing or higher.

ENY 4592 Mosquito Biology 3 Credits
Grading Scheme: Letter Grade
This modular course covers six critical areas of mosquito biology; classification, natural history and ecology, physiology, population dynamics, mosquito-borne diseases and control of mosquitoes. Students will understand the fundamental processes governing mosquitoes and mosquito-borne diseases.
Prerequisite: junior standing or higher.

ENY 4660 Medical and Veterinary Entomology 2 Credits
Grading Scheme: Letter Grade
Presents the major insect, mite, and tick vectors of disease to humans and animals. Topics includes arthropod-transmitted diseases, the interaction between pathogens and the arthropod vector, and the mechanical damage that a parasite inflicts on its host.
Prerequisite: ENY 3005 and ENY 3005L.

ENY 4660L Medical and Veterinary Entomology Laboratory 1 Credit
Grading Scheme: Letter Grade
Identifying mosquitoes, ticks, lice, fleas and other disease vectors. Insect collection required.
Corequisite: ENY 4660.

ENY 4701 Forensic Entomology 3 Credits
Grading Scheme: Letter Grade
Role of arthropods in decomposition, in criminal and civil investigations, and the increasing importance of science on society. Material and discussions deal with death and some may consider course images and concepts disturbing.
Prerequisite: Sophomore standing or higher.

ENY 4823 Molecular Biology of Insects and Nematodes 3 Credits
Grading Scheme: Letter Grade
Provides foundation knowledge of molecular biology, with emphasis on scientific discoveries from insects and nematodes. Presents information on the current innovations and trends of molecular technologies (e.g. high throughput sequencing, different types of omics, genome editing by CRISPR).
Prerequisite: BSC 2005, BSC 2010, ABE 2062, AGR 3303, ANS 3006, BCH 4024, ENY 2040, ENY 3005 or equivalent, or instructor permission.

ENY 4900 Supervised Extension Experience in Entomology and Nematology 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in entomology and nematology under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Sophomore standing or higher.

ENY 4905 Problems in Entomology 1-5 Credits
Grading Scheme: Letter Grade
Problems in any field of specialization in entomology and nematology.
Prerequisite: ENY 3005 and the basic course in selected specialization.

ENY 4911 Supervised Research in Entomology 0-3 Credits
Grading Scheme: Letter Grade
Firsthand, authentic research in entomology under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Sophomore standing or higher.

ENY 4915 Honors Thesis Research in Entomology 0-3 Credits
Grading Scheme: S/U
Independent research in entomology leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ENY 4932 Special Topics in Entomology and Nematology 1-3 Credits
Grading Scheme: Letter Grade
Special topics in Entomology and Nematology.
Prerequisite: Sophomore standing or higher.

ENY 4945 Practical Work Experience in Entomology and Nematology 1-3 Credits
Grading Scheme: Letter Grade
Firsthand, authentic work experience in entomology or nematology under the supervision of a faculty member and workplace supervisor. Projects vary depending on program requirements.
Prerequisite: Sophomore standing.

IPM 3022 Fundamentals of Pest Management 3 Credits
Grading Scheme: Letter Grade
Fundamentals of Pest Management
Prerequisite: Sophomore standing or higher.

IPM 4114 Insect Pest and Vector Management 3 Credits
Grading Scheme: Letter Grade
Covers the principles and practices used in pest and vector management, and also emphasizes the arthropod pests affecting crop and ornamental plants, humans and livestock.
Prerequisite: Introductory course in entomology.

IPM 4254 Landscape Integrated Pest Management: Ornamentals and Turf 3 Credits
Grading Scheme: Letter Grade
Landscape pest pressure is influenced by many factors. The development of sound integrated pest management plans for landscapes focuses on identification of abiotic factors, weeds, insects, mites, pathogens and nematodes that occur on Florida landscape ornamentals, turfgrass and palms.
Prerequisite: ENY 3005 or NEM 3002 or PLP 3002C.

NEM 3002 Principles of Nematology 3 Credits
Grading Scheme: Letter Grade
Introduces nematology, including studies of morphology, life histories, and control of the major nematode parasites of plants. Also includes studies of the bionomics of certain soil nematodes and nematode parasites of vertebrates and arthropods.
Prerequisite: Sophomore standing or higher.

NEM 4905 Problems in Nematology 1-4 Credits
Grading Scheme: Letter Grade
Selected problems for study, research, or discussion in nematology.
Prerequisite: Sophomore standing or higher.

NEM 4911 Supervised Research in Nematology 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in nematology under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Sophomore standing or higher.

NEM 4915 Honors Thesis Research in Nematology 0-3 Credits
Grading Scheme: S/U
Independent research in nematology leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

PMA 4570C Field Techniques in IPM 2 Credits
Grading Scheme: Letter Grade
Prerequisite: IPM 3022.

Environmental Engineering Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The broad undergraduate environmental engineering curriculum of EES has earned the department a ranking as a leading undergraduate program. The ABET-accredited engineering bachelor's degree is comprehensively based on physical, chemical, and biological principles to solve environmental problems affecting air, land, and water resources. An advising scheme including select faculty, led by the undergraduate coordinator, guides each student through the program.

Curriculum

- Combination Degrees
- Environmental Engineering

Courses

EES 3008 Energy and Environment 3 Credits
Grading Scheme: Letter Grade
Consideration of the energy basis for humans and nature, including principles of energy analysis, systems ecology, and public policy.

EES 3206 Environmental Chemistry 4 Credits
Grading Scheme: Letter Grade
Provides the fundamental knowledge needed to solve pollution problems specific to environmental systems by focusing primarily on thermodynamic equilibrium and kinetic principles associated with both natural and engineered systems.
Prerequisite: (CHM 2046 or CHM 2096) and MAC 2311.

EES 4005C Ecological Engineering 3 Credits
Grading Scheme: Letter Grade
Application of ecological and engineering principles to natural resource management and problem solving.
Prerequisite: CHM 2046 or CHM 2096;
Corequisite: EES 4203.

EES 4050 Environmental Planning and Design 3 Credits
Grading Scheme: Letter Grade
Principles and practices of environmental planning. Planning for and designing sustainable communities and regions. Exploration of quantitative methods for the evaluation of environmental impacts and analysis of carrying capacity of economic development. Exploration of theories of spatial and temporal organization of systems of humanity and nature.

EES 4102 Wastewater Microbiology 2 Credits
Grading Scheme: Letter Grade
General concepts in microbiology and cell biology with major emphasis on the role of microorganisms in polluted environments.
Prerequisite: CHM 2046.

EES 4201 Water Chemistry 3 Credits
Grading Scheme: Letter Grade
Kinetics and equilibrium of aqueous chemistry including acid-base, complexation, precipitation and redox equilibria.
Prerequisite: CHM 2046 or CHM 2096 and MAC 2311 or MAC 2233.

EES 4203 Phase Partitioning in the Environment 4 Credits
Grading Scheme: Letter Grade
A study of the fate of organic pollutants in the environment through application of principles of organic chemistry and chemical thermodynamics, including phase partitioning between environmental media.
Prerequisite: CHM 2046 or CHM 2096.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Department permission.

EMA 4535 Sustainable Nanotechnology 3 Credits
Grading Scheme: Letter Grade
Increase in production and use of engineered nanomaterials (ENMs) raises concerns on their potential impacts on the environment and human health. The sustainable development of nanotechnology requires knowledge of life cycle and environmental fate/implications of ENMs. Focuses on linkages between ENMs properties and environmental implications.
Prerequisite: CHM 2046 or CHM 2047 or CHM 2096.

ENV 2003 Introduction to Environmental Engineering 1 Credit
Grading Scheme: S/U
Introduction to topics in environmental engineering, including water and air quality, sustainable materials management, and ecosystems.
Prerequisite: Environmental Engineering Sciences major.

ENV 3000 Core 2: Fundamentals of Environmental Engineering 4 Credits
Grading Scheme: Letter Grade
Fundamentals of environmental engineering, including water, air, materials, and ecological resources. Environmental laws and regulations that motivate environmental engineering practice. Theoretical approaches for quantifying fundamental environmental processes, interactions, impact, and risks. Build knowledge and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.
Prerequisite: ENV 3001.

ENV 3001 Core 1: Introduction to Environmental Systems 4 Credits
Grading Scheme: Letter Grade
Introduces environmental systems, including water, air, materials, and ecological resources with motivating case studies across topics and fundamental definitions, laws, and theories in environmental engineering sciences. Build a knowledge base and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.
Prerequisite: PHY 2048 & (CHM 2045 or CHM 2095) & MAC 2312 & EVE_BS.

ENV 3040C Computational Methods in Environmental Engineering 3 Credits
Grading Scheme: Letter Grade
Computational analysis techniques and their application to environmental engineering. Use of spreadsheets and programming tools to process, analyze, and visualize environmental engineering data and test hypotheses.
Prerequisite: COP 2273.

ENV 3930 Environmental Engineering Ethics 2 Credits
Grading Scheme: Letter Grade
Lectures and discussion on topics in ethics as related to environmental engineering.
Prerequisite: ENC 1101 or ENC 1102 and EVE_BS.

ENV 4009 Core 5: Environmental Engineering Practice 4 Credits
Grading Scheme: Letter Grade
Utilize fundamental and applied concepts in environmental engineering practice, including applications of ecological engineering, air pollution control, waste facilities design, and advanced water treatment processes. Build a knowledge base and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.
Prerequisite: ENV 4454.

ENV 4041C Environmental Analysis 4 Credits
Grading Scheme: Letter Grade
Theory and laboratory techniques for the analysis of air and water pollutants and basic concepts of ecosystems structure and analysis.
Prerequisite: CHM 2046 or CHM 2096.

ENV 4101 Elements of Atmospheric Pollution 3 Credits
Grading Scheme: Letter Grade
Sources, effects and regulation of air pollutants. Meteorology and dispersion of pollutants. Sampling and analysis of gaseous and particulate air pollutants. Photochemical air pollution and mobile sources.
Prerequisite: EES 4203 and PHY 2049.

ENV 4121 Air Pollution Control Design 3 Credits
Grading Scheme: Letter Grade
Principles of particulate and gaseous emission control; design and operation of particulate and gas control equipment to meet federal emission standards.
Prerequisite: ENV 4101.

ENV 4300 Solid Waste Containment Design 3 Credits
Grading Scheme: Letter Grade
Design fundamentals of solid and hazardous waste landfills, waste piles, monofills and surface impoundments. Regulations, site requirements, sizing, liner design, leachate and gas management system design, operations and closure.
Prerequisite: ENV 4351;
Corequisite: ENV 4561 or CWR 4202.

ENV 4351 Solid and Hazardous Waste Management 4 Credits
Grading Scheme: Letter Grade
Generation of solid and hazardous wastes. Collection, methods, equipment, costs and disposal. Rules, regulations and management systems for proper control of solid and hazardous wastes. Evaluation of engineering systems to minimize costs and regulatory problems.
Prerequisite: EES 4201.

ENV 4353 Solid Waste Systems Design 3 Credits
Grading Scheme: Letter Grade
A capstone design experience focusing on the design of solid waste management systems such as landfills, waste-to-energy facilities, compost operations, recycling facilities and hazardous waste treatment/storage/disposal facilities.
Prerequisite: ENV 4351.

ENV 4405 Nutrient Control and Water Reuse 3 Credits
Grading Scheme: Letter Grade
Biological and physicochemical processes for advanced treatment of municipal wastewater. Reuse guidelines and applications.

ENV 4411 Stormwater Control Systems 3 Credits
Grading Scheme: Letter Grade
Chemical, physical, biological and hydrologic aspects of rainfall runoff and control through unit operations and processes (UOPs). Stormwater physical and chemical loads. Interactions between hydrologic processes, water chemistry, sediment transport, infrastructure materials and UOPs for treatment and reuse.
Prerequisite: EES 4201 or instructor permission.

ENV 4430 Water Treatment Process Design 3 Credits
Grading Scheme: Letter Grade
Design of selected water treatment processes including disinfection, air stripping, adsorption, ion exchange and membrane processes.
Prerequisite: ENV 4514C and EES 4201.

ENV 4432 Potable Water System Design 3 Credits
Grading Scheme: Letter Grade
Design of conventional water treatment operations, including reactor design, coagulation, flocculation, mixing, sedimentation, filtration, softening, disinfection and sludge management.
Prerequisite: EES 4201 and ENV 4514C.

ENV 4453 Core 3: Processes in Environmental Engineering 4 Credits
Grading Scheme: Letter Grade
Theoretical and applied knowledge in environmental engineering processes across the air, water, and solid phases. Quantitative tools for describing materials and energy flows and transformations. Build a knowledge base and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.
Prerequisite: ENV 3000.

ENV 4454 Core 4: Environmental Engineering Applications 4 Credits
Grading Scheme: Letter Grade
Application of fundamental concepts and laws to design, assess, and predict outcomes in environmental engineering systems handling water, air, materials, and ecosystems. Build a knowledge base and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.
Prerequisite: ENV 4453.

ENV 4501 Environmental Hydrology 1 3 Credits
Grading Scheme: Letter Grade
Surface and atmospheric hydrology. Hydrologic processes controlling streamflow events. Practical application to stormwater management.
Prerequisite: ENV 3040C and (STA 3032 or STA 2023) and (CWR 3201 or EGN 3353C).

ENV 4506 Environmental Hydrology 2 3 Credits
Grading Scheme: Letter Grade
Subsurface hydrology. Properties of porous media governing flow and chemical transport in the subsurface. Environmental site evaluation methods.
Prerequisite: ENV 3040C and (CWR 3201 or EGN 3353C).

ENV 4514C Water and Wastewater Treatment 3 Credits
Grading Scheme: Letter Grade
Design of water and wastewater treatment units.

ENV 4532 Wastewater System Design 3 Credits
Grading Scheme: Letter Grade
Detailed design and layout of gravity wastewater collection systems, pumping facilities, force mains, and a wastewater treatment plant. Emphasis on the preparation of design drawings and estimating costs.
Prerequisite: ENV 4514C;
Corequisite: ENV 4561 or CWR 4202.

ENV 4545 Environmental Hydrology 4 Credits
Grading Scheme: Letter Grade
Atmospheric, surface, subsurface hydrology and interactions as part of the water cycle. Properties of natural and anthropogenic surfaces and porous media governing flow and transport.
Prerequisite: (ENV 3040C or CGN 3421) and (CWR 3201 or EGN 3353C).

ENV 4601 Environmental Resources Management 3 Credits
Grading Scheme: Letter Grade
Theory and application of engineering economics and systems analysis to the design of environmental management systems.
Prerequisite: ENV 3001.

ENV 4892 Environmental Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
First semester of a two-semester capstone experience. Learn the fundamentals of environmental engineering professional practice using real world engineering project examples: project management, project delivery methods, plans reading, construction documents, cost estimating, scheduling, and professional communication.
Prerequisite: ENV 4453.

ENV 4893 Environmental Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Second semester of the capstone design experience where environmental engineering seniors work in teams on an actual project. Projects encourage creativity, innovation, curiosity, and educational foundation to solve complex real-world problems.
Prerequisite: ENV 4892.

ENV 4905 Individual Studies in Environmental Engineering Sciences 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of study.

ENV 4912 Integrated Product and Process Design 1: Environmental Engineering Sciences 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: ENV 4514C;
Corequisite: ENV 4121 or ENV 4351.

ENV 4913 Integrated Product and Process Design 2: Environmental Engineering Sciences 3 Credits
Grading Scheme: Letter Grade
The second part of the sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: ENV 4912.

ENV 4932 Special Problems in Environmental Engineering Sciences 1-4 Credits
Grading Scheme: Letter Grade
Special problems in environmental engineering science.

ENV 4949 Environmental Engineering Internship/Co-op 1-3 Credits
Grading Scheme: S/U
Practical internship/co-op work experience under approved industrial supervision. (S/U)
Prerequisite: Engineering major.

Environmental Horticulture

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Environmental Horticulture Department is a team of faculty, staff, and students dedicated to improving the human environment and protecting the natural landscape through the use of plants. Florida's climatic diversity and the facilities at UF provide opportunities for cutting-edge research in plant breeding and biotechnology, nursery crop production, landscape management, water management, restoration and conservation, and other disciplines.

Curriculum

- Environmental Horticulture Management Certificate
- Environmental Horticulture Minor
- Horticultural Therapy Certificate

Courses

BCH 3023 Elementary Organic and Biological Chemistry 3 Credits
Grading Scheme: Letter Grade
Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.
Prerequisite: CHM 2046 or CHM 2047.

EVR 3323 Introduction to Ecosystem Restoration 4 Credits
Grading Scheme: Letter Grade
Restoration theory and planning, disturbed land reclamation, woodland/wetland/river restoration, invasive species, community involvement, and monitoring, and emphasizes plant selection, establishment and maintenance.
Corequisite: BOT 2010C or BSC 2010, or instructor permission.

HOS 2002C Introductory Medicinal Plants 3 Credits
Grading Scheme: Letter Grade
Survey series of plants across the globe used in traditional and modern medicines to improve human health; learn about ethnobotany, several examples of plant-derived drugs and their metabolite classes at a basic level for non-experts along with underlying scientific evidence. Hands-on-activities demonstrate medicinal properties of plant extracts and tours of medicinal plants around UF main campus and greenhouses to experience live plants.

HOS 3305 Introduction to Plant Molecular Biology 3 Credits
Grading Scheme: Letter Grade
Introduces plant molecular biology and genetic engineering, emphasizing plant genes and genomes, transformation of plants and basic molecular biology.
Prerequisite: APB 2150 or BOT 2010C or BSC 2010.

LDE 3410C Residential Landscape Design 3 Credits
Grading Scheme: Letter Grade
Basics of residential landscape design including preparation, evaluation and implementation of simple landscape plans. Emphasizes the use of ornamental plants for functional and aesthetic improvement of home environments. Expect to attend one or two Saturday field trips.
Prerequisite: ORH 3513C.

LDE 4404C Advanced Residential Landscape Design 3 Credits
Grading Scheme: Letter Grade
Sustainable landscape design concepts and practices to create regenerative and resilient residential landscapes that demonstrate advanced design skills and knowledge.
Prerequisite: LDE 3410C or LAA 2360C.

ORH 1030 Plants, Gardening and You 1 Credit
Grading Scheme: Letter Grade
A non-majors overview of environmental horticulture that emphasizes the art and science of growing, installing and maintaining plants used to enhance and improve the human environment indoors and outdoors. Gain familiarity with the science and the industries associated with environmental horticulture.

ORH 1283 Survey of Orchids 1 Credit
Grading Scheme: Letter Grade
Overview of the complexities of the orchid family, how selected genera are produced and the potential these plants offer to commercial nursery operators and hobbyists for profit or enjoyment.

ORH 2752 Sensory Gardening 2 Credits
Grading Scheme: Letter Grade
Hands-on, multidisciplinary approach to environmental horticulture delivered through the context of the human senses. Class activities, assignments, and projects enhance awareness and understanding of how horticulture relates to the natural and built world, as well as the ways in which people perceive those worlds.

ORH 3222C Turfgrass Culture 4 Credits
Grading Scheme: Letter Grade
Comparisons of turfgrass for their landscape and recreational uses. Covers growth characteristics, method of propagation, and basic management requirements, including control of important pest problems.
Prerequisite: (BOT 2010C or BSC 2010) and CHM 1025.

ORH 3253C Introductory Nursery Management 4 Credits
Grading Scheme: Letter Grade
Introduces the principles of planning, organizing, and managing nursery operations. Emphasizes interactions between growing medium components, plant nutrition, and irrigation. Covers nursery layout, growing structures, materials requirements, and business practices. May require weekend field trips.
Prerequisite: Junior or Senior standing.

ORH 3324 Palm Short Course 1 Credit
Grading Scheme: Letter Grade
Overview of how palm plants grow and how to diagnose and interpret problems with palm plants.
Prerequisite: BOT 2010C or instructor permission.

ORH 3513 Environmental Plant Identification and Use 2 Credits
Grading Scheme: Letter Grade
Identification, growth characteristics, culture and use of common landscape and greenhouse plants. Materials include trees, shrubs, vines, ground covers, lawn grasses and floriculture crops. Emphasizes temperate plants. Taught off campus.
Corequisite: ORH 3513L.

ORH 3513C Environmental Plant Identification and Use 3 Credits
Grading Scheme: Letter Grade
Combines lecture and laboratory for identification, growth characteristics, culture, and use of common landscape and greenhouse plants. Materials include trees, shrubs, vines, ground covers, lawn grasses, and floriculture crops. Emphasizes temperate plants. Taught on UF campus.
Prerequisite: Junior or Senior standing.

ORH 3513L Environmental Plant Identification and Use Laboratory 1 Credit
Grading Scheme: Letter Grade
Introductory, upper-division environmental laboratory course. Identify commonly used landscape plants, their use and their characteristics. Taught off campus.
Corequisite: ORH 3513.

ORH 3773 Public Gardens 2 Credits
Grading Scheme: Letter Grade
Operation and management of public gardens, including community and amusement parks, nature preserves, botanical gardens, arboreta, and zoological gardens. Explore issues relevant to principles and practices of management and psychological and sociological benefits of gardens and green spaces.
Prerequisite: ORH 3513C.

ORH 3773L Public Gardens Laboratory 2 Credits
Grading Scheme: Letter Grade
First-hand observation and evaluation of public gardens and parks to illustrate the management of such, as was discussed in ORH 3773. Consists of field trips to various botanical gardens, zoos and amusement parks.
Corequisite: ORH 3773.

ORH 3815C Florida Native Landscaping 3 Credits
Grading Scheme: Letter Grade
An upper-division, environmental horticulture course designed to introduce students with a plant science background to the nomenclature, effective utilization and design elements of plants native to Florida.
Prerequisite: junior standing.

ORH 4223 Golf and Sports Turf Management 2 Credits
Grading Scheme: Letter Grade
Strategies involved in golf course and athletic field operations, including development of management cultural practices, adherence to environment regulations, personnel management and budgeting. Students may be expected to attend Saturday field trips.
Prerequisite: ORH 3222C.

ORH 4236C Ornamental Landscape Management 3 Credits
Grading Scheme: Letter Grade
Provide foundational knowledge and the skills needed to successfully manage and maintain residential and commercial landscapes. Additionally, provides students with a greater understanding of the landscape management industry and familiarizes students with sustainable landscape management techniques.
Prerequisite: ORH 3222C.

ORH 4242C Arboriculture 4 Credits
Grading Scheme: Letter Grade
Introduces urban trees: biology, management requirements, design of urban spaces for trees, site modifications and construction techniques, tree selection, installation techniques, establishing trees in adverse sites, tree pruning and related tree management practices. A written tree management plan is required.
Prerequisite: ORH 3513C.

ORH 4256 Nutritional Management of Nursery Crops 3 Credits
Grading Scheme: Letter Grade
Techniques for determining, interpreting, and managing the nutritional status of container grown greenhouse and nursery crops. Includes water quality, substrate physical and chemical parameters, irrigation, and fertilization practices.
Prerequisite: Junior or Senior standing.

ORH 4264 Greenhouse and Nursery Crop Culture 3 Credits
Grading Scheme: Letter Grade
Principles and practices used for commercial production of economically important environmental horticulture crops.
Prerequisite: Junior or Senior standing.

ORH 4264L Greenhouse and Nursery Crop Culture Laboratory 1 Credit
Grading Scheme: Letter Grade
Advanced hands-on laboratory growing a wide range of greenhouse plants through the application of crop cultural practices discussed in lecture.
Prerequisite: ORH 3513C;
Corequisite: ORH 4264.

ORH 4280 Orchidology 3 Credits
Grading Scheme: Letter Grade
Principles and practices involved in the production of orchid plants and flowers, including nomenclature, breeding, seed culture, harvesting and handling.
Prerequisite: BOT 2011C or BSC 2011.

ORH 4804 Annual and Perennial Gardening 2 Credits
Grading Scheme: Letter Grade
Identification, selection, use and management of annuals, perennials, vines, ornamental grasses and ground covers in the landscape. Hands-on care for plants in the outdoor laboratory. Learn the irrigation, fertilization, pruning and cultural needs of these popular plants. Laboratory complements lecture.
Prerequisite: BOT 2010C or BSC 2010.

ORH 4804C Annual and Perennial Gardening 3 Credits
Grading Scheme: Letter Grade
Identification, selection, use and management of annuals, perennials, vines, ornamental grasses and ground covers in the landscape. Hands-on care for plants in the outdoor laboratory. Learn the irrigation, fertilization, pruning and cultural needs of these popular plants. Laboratory complements lecture.
Prerequisite: Junior standing.

ORH 4804L Annual and Perennial Gardening Laboratory 1 Credit
Grading Scheme: Letter Grade
Taxonomy of ornamental landscape annuals and perennials. Site evaluation, diagnostics, preparation, installation and maintenance of the color portion of commercial and residential landscaping.
Prerequisite: BOT 2010C or BSC 2010;
Corequisite: ORH 4804.

ORH 4848 Landscape Plant Establishment 2 Credits
Grading Scheme: Letter Grade
Techniques for selecting and installing plants, building decks and patios, walls, trellises, landscape lighting, irrigation, water gardens, and other landscape elements. Prepare balance sheets, bid specifications and contracts, and perform landscape installations from completed landscape plants.
Prerequisite: Junior or Senior standing.

ORH 4900 Supervised Extension Experience in Environmental Horticulture 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

ORH 4905 Independent Study of Environmental Horticulture 1-5 Credits
Grading Scheme: Letter Grade
Three topics for independent study: a research investigation and review of literature, drafting of proposal, conducting an experiment, collection of data, summation and interpretation of results and preparation of a report; a library or studio assignment, including analysis of several sources of information on a specific topic with a written evaluation and list of conclusions; or assist in teaching a laboratory of selected courses in environmental horticulture.
Prerequisite: Instructor permission.

ORH 4911 Supervised Research in Environmental Horticulture 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in environmental horticulture under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

ORH 4915 Honors Thesis Research in Environmental Horticulture 0-3 Credits
Grading Scheme: S/U
Independent research in environmental horticulture leading to an honors thesis. Student are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ORH 4932 Special Topics in Environmental Horticulture 1-4 Credits
Grading Scheme: Letter Grade
Topics of current interest concerning environmental plants.
Prerequisite: Instructor permission.

ORH 4933 Professional Seminar in Environmental Horticulture 1 Credit
Grading Scheme: Letter Grade
A senior-level course for students seeking career opportunities in environmental horticulture. Special emphasis is placed on the expectations of and the relevant issues facing the landscape plant production, landscape management and turfgrass industries. Field trips and attendance at selected commercial trade shows are mandatory.
Prerequisite: AEC 3030C and AEC 3033C and ORH 3513C.

ORH 4941 Practical Work Experience 1-3 Credits
Grading Scheme: S/U
Practical work must be a new experience and related to student's field of study. A written and oral report is required.
Prerequisite: previous arrangement with advisor and department chair and dean permission.

PLS 3080 Introduction to Horticultural Therapy 3 Credits
Grading Scheme: Letter Grade
Examine the profession and practice of horticultural therapy including its history, current state, and relevant literature and theories. Explore people/plant relationships, therapeutic methods and benefits, and populations served, as well as being introduced to existing programs and the role of therapeutic gardens.
Prerequisite: Sophomore standing or higher.

PLS 3223 Plant Propagation 2 Credits
Grading Scheme: Letter Grade
Principles, practices and physiological aspects of the propagation of horticultural and agronomic crops by cuttage, graftage, seedage, micropropagation and other methods.
Prerequisite: BOT 2010C or BSC 2010;
Corequisite: PLS 3223L.
Attributes: Artificial Intelligence

PLS 3223L Plant Propagation Laboratory 1 Credit
Grading Scheme: Letter Grade
Methods of propagating by seeds, bulbs, divisions, layering, cuttings, budding, grafting and micropropagation in a hands-on environment.
Prerequisite: BOT 2010C or BSC 2010.
Attributes: Artificial Intelligence

PLS 4081 Techniques in Horticultural Therapy 3 Credits
Grading Scheme: Letter Grade
Examine the effectiveness of horticultural therapy across a diverse range of client populations, programs, and environments, and the physical, cognitive, and psychosocial implications. Explore therapeutic, vocational, and social modalities employing plants, as well as task analysis, activity analysis and tool and site adaptations.
Prerequisite: PLS 3080 with a minimum grade of C.

PLS 4082 Program Management in Horticultural Therapy 3 Credits
Grading Scheme: Letter Grade
Learn to develop, manage, and evaluate horticultural therapy programs in diverse environments. Explore strategies for program proposals and funding, along with recruitment of clients and required regulations and documentation. Discuss staff and volunteer management, as well as plant materials, gardens, and other program resources.
Prerequisite: PLS 3080 and PLS 4081 with minimum grades of C.

PLS 4105 Genome Editing and Plant Biotechnology 3 Credits
Grading Scheme: Letter Grade
Plant biotechnology is one of the most prolific and influential areas of the plant sciences. This upper level undergraduate course will be focused on modern biotechnological tools and applications that have resulted in great advances for agriculture and society.
Prerequisite: PLS 3004C and AGR 3303.

PLS 4242C Micropropagation of Horticultural Crops 4 Credits
Grading Scheme: Letter Grade
Lectures and laboratory exercises emphasizing the practical application of plant tissue culture for the clonal propagation of horticultural crops. Emphasis on aseptic technique, culture methodology and micropropagation systems development.
Prerequisite: ORH 3513C recommended.

PLS 4941 Practical Work Experience 1-3 Credits
Grading Scheme: S/U
Practical, hands-on experience in the plant sciences through a paid internship in the industry. This must be a new experience and related to the student's field of study. One month of full-time work is required for each credit.
Prerequisite: Plant Science major of junior standing or higher.

PLS 4950 Plant Science Capstone 3 Credits
Grading Scheme: Letter Grade
Identify a problem or topic in plant sciences and develop a poster presentation about this problem or topic. This course discusses the following topics: how to develop a hypothesis, how to complete a reliable literature review, the importance of peer review and how to present results and findings.
Prerequisite: PLS 3004C and PLS 4941 One year of employment experience in plant science may be substituted for PLS 4941 with instructor permission.

Environmental Science

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council.

Curriculum

- Combination Degrees
- Environmental Science
- Environmental Science Minor

Courses

EVR 2001 Introduction to Environmental Science 3 Credits
Grading Scheme: Letter Grade
This course is a survey of basic chemical, biological, and physical principles of environmental science and their applications to environmental issues. This course is appropriate for students in a wide range of disciplines or programs.
Attributes: General Education - Biological Science, General Education - International, General Education - Physical Science

EVS 1010 First Year Environmental Science 1 Credit
Grading Scheme: Letter Grade
Onboarding course for first year freshmen and HSAA students pursuing a BS or BA in Environmental Science. Sets up students for success in the Environmental Science major by guiding students through degree requirements, exploring departmental, college, and university resources, and discussing a variety of current environmental issues.
Prerequisite: EVS_BA or EVS_BS.

EVS 3000 Environmental Science 1 3 Credits
Grading Scheme: Letter Grade
Assess environmental issues arising from human-nature interactions, including biodiversity loss, overpopulation, degradation of ecosystems, and concerns associated with energy and water use. This interdisciplinary approach integrates natural and social science perspectives to explore causes, impacts, and solutions to these issues.
Prerequisite: (BSC 2005 or BSC 2010 with minimum grades of C-) and (CHM 2045 or CHM 2047 or CHM 2095, or equivalent with minimum grades of C-).

EVS 3000L Environmental Science Laboratory 1 Credit
Grading Scheme: Letter Grade
Hands-on experience in data collection and analysis for environmental science and management.
Prerequisite: CHM 2045 or CHM 2047 or CHM 2095.

EVS 3500 Environmental Science 2 3 Credits
Grading Scheme: Letter Grade
Advanced environmental science topics with a focus on methods and applications to develop reasoned solutions to the complex social-ecological issues impacting society.
Prerequisite: EVS 3000 & EVS 3000L.

EVS 4021 Critical Thinking in Environmental Science 3 Credits
Grading Scheme: Letter Grade
Develops critical thinking and communication skills in the practicing environmental scientist. Students analyze the strengths, limitations and strategies of arguments regarding environmental science, policy and management, and craft arguments consistent with the scientific method.
Prerequisite: NE classification and senior standing.

EVS 4903 Supervised Extension Experience in Natural Resources and Environment 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic experiences in natural resources and environment under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

EVS 4905 Individual Study in Environmental Science 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Instructor permission.

EVS 4911 Supervised Research in Environmental Science 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in environmental science under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

EVS 4915 Honors Thesis Research in Environmental Science 0-3 Credits
Grading Scheme: S/U
Independent research in environmental science leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

EVS 4932 Special Topics in Environmental Science 1-3 Credits
Grading Scheme: Letter Grade
Special topics in environmental science.
Prerequisite: sophomore standing or higher.

EVS 4949 Environmental Science Internship 1-3 Credits
Grading Scheme: S/U
Employment or volunteer work in a natural resource- or environment-related business or government agency, with job description related to field of study and written work report of each term's activities.
Prerequisite: NE classification and permission of dean. Can be counted as an elective for the major or as a free elective.

European Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Center Information

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

Curriculum

- East-Central European Studies Minor
- European Union Studies Certificate
- European Union Studies Minor
- Medieval and Early Modern Studies | IDS

Courses

EUS 2001 European Experience: a Humanities Perspective 3 Credits
Grading Scheme: Letter Grade
Introductory interdisciplinary study of contemporary Europe from an arts and humanities perspective. (N)

EUS 2003 European Experience: a Social Science Perspective 3 Credits
Grading Scheme: Letter Grade
Introductory interdisciplinary study of contemporary Europe from a social science perspective. (N)
Attributes: General Education - International

EUS 2131 Spices, Dumplings, and Coffee: Food Customs in Europe 3 Credits
Grading Scheme: Letter Grade
Studies agriculture, geography, and culture from the perspective of food production, customs, and health in European countries.

EUS 2150 Europe's Food Environment 3 Credits
Grading Scheme: Letter Grade
Analysis of human health and dietary patterns in the context of Europe's food production, food consumption, social and environmental factors using methods of nutritional sciences. Assessment of individual countries to sustain their culinary cultures while confronted with Europe's commitment to the UN Agenda 2023 and the European Green Deal.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - Social Science

EUS 2216 Law & Society: US and European Perspectives 3 Credits
Grading Scheme: Letter Grade
The course has the following objectives: 1) to explore the conceptual basis of privacy; 2) to outline how governments, corporations, and individuals view the concept of privacy and deploy it to attain their objectives; and 3) to learn the difference between the American and European concepts of privacy and the regulatory implications of these differences.
Prerequisite: Quest 1 Course with a "C" or better.
Attributes: Quest 2, General Education - Social Science

EUS 3030 Greece During the Second World War 3 Credits
Grading Scheme: Letter Grade
A broad history of Greece during WWII, including the German occupation of Greece, the resistance movement in Greece, and the fate of Greece immediately following the end of WWII.
Prerequisite: Sophomore standing or higher.

EUS 3031 Athens through History 3 Credits
Grading Scheme: Letter Grade
Introduces students to the history of Athens from its earliest settlement in the Bronze Age up to the present day and explore the Athens' contribution to western society.
Prerequisite: Sophomore-standing or higher.

EUS 3036 The Balkans: History, Culture, Politics 3 Credits
Grading Scheme: Letter Grade
Introduction to the history, politics, and the culture of the Balkans from the late 1700s to modern times. Focuses on the history of the countries of former Yugoslavia, Greece, Bulgaria, and Romania.
Prerequisite: Sophomore standing or higher.

EUS 3090 Professional Development: Going Global 1 Credit
Grading Scheme: Letter Grade
Explores fellowships, internships, graduate schools, and career pathways for students interested in European and international jobs more broadly.
Prerequisite: Sophomore standing or higher

EUS 3100 European Cinema 4-12 Credits
Grading Scheme: Letter Grade
Studies the films of one or more of the historically important national cinemas in Europe. Taught in English.
Prerequisite: Sophomore standing or higher.

EUS 3110 Culture and Society in Europe 1-4 Credits
Grading Scheme: Letter Grade
Examines central issues in one or more of the various cultures and societies in Europe.
Prerequisite: Sophomore standing or higher.

EUS 3111 Greece and Turkey: Myths and Misconceptions 3 Credits
Grading Scheme: Letter Grade
Examines the major political, historical, and cultural aspects of the animosity between Greeks and Turks. Aims to dispel common myths and misconceptions.
Prerequisite: sophomore standing or higher.

EUS 3112 Soccer Culture Europe 3 Credits
Grading Scheme: Letter Grade
Examines how soccer reflects and shapes continental, national, political, and social culture of modern Europe.
Prerequisite: Sophomore-standing or higher.

EUS 3113 History of Turks 3 Credits
Grading Scheme: Letter Grade
Broad historical study of the Turks in world history. Emphasizes the Ottoman Turks, the Young Turks, and various upheavals in Turkey alongside social and cultural topics including gender, daily life, workers, and migrations.
Prerequisite: sophomore standing or higher or instructor approval.

EUS 3115 Istanbul, Not Constantinople: A Global City 3 Credits
Grading Scheme: Letter Grade
Examines Istanbul as a global city in historical perspective, including pre-modern political, religious, and military exchanges, modern cultural norms and politics, and the individuals who have shaped the city throughout history.
Prerequisite: Sophomore standing or higher.

EUS 3130 The Other Europe and European Identity 3 Credits
Grading Scheme: Letter Grade
Examines the construction of "European Identity" in relation to groups, regions, and religions which have been posited as Europe's "Other." Introduces a multidisciplinary analytical framework for understanding stereotypes and collective identity.
Prerequisite: Sophomore standing or higher.

EUS 3135 Urban Cultures in Europe 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary introduction to the construction of urban spaces in Europe, from the 19th century through today. Examines how urban space structures social and cultural experience.
Prerequisite: Sophomore Standing or higher.

EUS 3140 Culture in Crisis: the European Avant-Garde between the Wars 3 Credits
Grading Scheme: Letter Grade
Introduces the ideology and aesthetics of the major movements of the 20th century avant-garde, focusing on developments in Paris, Berlin, Prague, and Moscow.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

EUS 3142 Islam and Turkey 3 Credits
Grading Scheme: Letter Grade
Explores what Islam is and what Turks believe that it is. Also explores Islamic sources, Turkish conversions, Turkish mysticism, and Islamist politics. Explains these topics through the prism of original sources and emphasizes ways cultural forces contribute to the making of modern Islam.
Prerequisite: sophomore standing or higher or instructor permission.

EUS 3215 European Regulatory Law and Politics 3 Credits
Grading Scheme: Letter Grade
Introduces the legal principles for regulating economic activity in the European Union. Provides a broad overview of how law regulates economic issues: competition law, environment, consumer protection, and privacy.
Prerequisite: Sophomore standing or higher.

EUS 3220 Secret Police under Communism 3 Credits
Grading Scheme: Letter Grade
Overview of the secret-police forces and the political use of terror in the Central-European countries of Germany, Hungary, Czechoslovakia, Poland, Romania, and Bulgaria between 1945 and 1990.
Prerequisite: instructor permission.

EUS 3221 Socialist Control and Resistance in Eastern Europe After 1945 3 Credits
Grading Scheme: Letter Grade
Explores the political, intellectual, social and cultural history of Eastern Europe from 1945 to 1990 and discusses ways in which the Soviet leadership manipulated the governing and legal systems of the Easter European Communist countries.
Prerequisite: Sophomore standing or higher, or instructor permission.

EUS 3231 European Diplomacy: Power and Principles 3 Credits
Grading Scheme: Letter Grade
Explores the history of European diplomacy and the critical junctures in its development. Analyzes the distinctive features of the European diplomatic style. Provides an overview of the most contemporary European diplomatic problems.
Prerequisite: Sophomore standing or higher.

EUS 3400 Migration in Europe 3 Credits
Grading Scheme: Letter Grade
Examines migration in Europe, examining topics ranging from the first modern refugee crisis in the aftermath of World War I and the Russian Revolution to contemporary debates about immigration in the European Union.
Prerequisite: instructor permission.

EUS 3900 Directed Readings in European Studies 1 Credit
Grading Scheme: Letter Grade
Rotating readings on a country, region, or current issue in Europe.
Prerequisite: Sophomore standing or higher.

EUS 3930 Undergraduate Seminar in European Studies 3 Credits
Grading Scheme: Letter Grade
Intermediate rotating topics course on various European issues.
Prerequisite: department permission.

EUS 3937 Applied European Language 1 Credit
Grading Scheme: Letter Grade
An enhancement section designed to accompany and complement area studies courses offered in other departments. Readings and discussions are in a continental European language to enable students to develop specific vocabulary and fluency related to the content of the companion course and to provide them with an international perspective on the issues of the main course.
Prerequisite: instructor permission.

EUS 3938 European Less Commonly Taught Languages 1-4 Credits
Grading Scheme: Letter Grade
Rotating topics course to facilitate language instruction for European lesser/least commonly taught languages. Instruction is in a European language to enable students to develop relevant competencies in speaking, writing, listening, and comprehension.
Prerequisite: placement test or instructor permission.

EUS 4210 Politics and Institutions of the European Union 3 Credits
Grading Scheme: Letter Grade
History of institutions and theoretical interpretations of European Union (EU) from its origins to present, including some general European history and background of EU's member status.
Prerequisite: instructor permission.

EUS 4211 European Union and Its Enlargement 3 Credits
Grading Scheme: Letter Grade
Examines the European Union's enlargement process and politics, and on the domestic politics of the applicant countries.
Prerequisite: Sophomore standing or higher.

EUS 4212 European Economic Integration: Politics and Policy 3 Credits
Grading Scheme: Letter Grade
Examines the political economy of European Union (EU) economic integration from an interdisciplinary perspective.
Prerequisite: three EUS-prefixed credits and instructor permission.

EUS 4213 Turkey and the EU: History, Present and the Future 3 Credits
Grading Scheme: Letter Grade
The dynamics and developments in Turkish politics with regard to Turkey's EU path. Understand the challenges the EU faces at present with Turkey, as this country's candidacy highlights the unresolved issues facing a more integrated EU.
Prerequisite: Sophomore standing or higher.

EUS 4214 European Union in Crisis 3 Credits
Grading Scheme: Letter Grade
Critical and historical approach to the meaning and implication of recent crises in the European Union (EU) by establishing the common occurrence of crises in the history of the EU, examining the unique challenges posed by each crisis, and discussing the future of EU integration following recent crises.
Prerequisite: Sophomore standing or higher.

EUS 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Reading and discussions in advanced topics of European studies.

EUS 4911 Undergraduate Research in European Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

EUS 4930 Special Topics in European Studies 3 Credits
Grading Scheme: Letter Grade
Advanced variable-topics course on European issues.
Prerequisite: three EUS-prefixed credits or instructor permission.

EUS 4931 JMCE Seminar: EU in Practice 1 Credit
Grading Scheme: Letter Grade
Advanced variable topics explore practical applications of policies and theories discussed in academic coursework, and taught by EU practitioners. Transitions students from academic theory to practical application of skills and knowledge.
Prerequisite: 3 credits of a EUS-prefix course.

EUS 4932 JMCE Seminar: the EU Today 1-3 Credits
Grading Scheme: Letter Grade
Advanced variable topics on current European Union issues from multiple disciplinary perspectives. Taught by visiting EU scholars. Can be repeated with change in content up to 6 credits.
Prerequisite: 3 credits of a 3000-level or higher EUS-prefix course, or instructor permission.

EUS 4940 Internship in European Studies 3 Credits
Grading Scheme: Letter Grade
Internship with an organization, company, institution, or government entity with 60% or more focus on Europe. Up to three credits of internship credit can be used toward the European Union or East-Central European Studies minor or certificate.
Prerequisite: Sophomore standing or higher

EUS 4944 Seminar in European Union Studies 3 Credits
Grading Scheme: Letter Grade
Advanced topics related to the European Union.
Prerequisite: 3 credits of EUS-prefix courses or instructor permission.

EUS 4950 Overseas Study in Europe 1-6 Credits
Grading Scheme: Letter Grade
Advanced course on European issues taught during study abroad in Europe.
Prerequisite: three EUS-prefixed credits or instructor permission.

HNG 1130 Beginning Hungarian 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, HNG 1131, constitute the basic sequence in Hungarian.

HNG 1131 Beginning Hungarian 2 5 Credits
Grading Scheme: Letter Grade
Second semester of basic sequence in Hungarian.
Prerequisite: HNG 1130 with minimum grade of C, or S, or the equivalent.

HNG 1180 Elementary Hungarian: Review and Progress 1 3 Credits
Grading Scheme: Letter Grade
Alternative to HNG 1130, for students who have some experience in Hungarian. Reviews basic grammar and improves reading, writing and listening skills.

HNG 1182 Elementary Hungarian: Review and Progress 2 3 Credits
Grading Scheme: Letter Grade
An accelerated one-semester coverage of HNG 1130 and HNG 1131 for students with some experience in Hungarian.
Prerequisite: instructor permission.

HNG 2201 Intermediate Hungarian II 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study. Goal is to further develop speaking, listening, reading, and writing skills.
Prerequisite: HNG 2220 or placement test.

HNG 2220 Intermediate Hungarian 1 3 Credits
Grading Scheme: Letter Grade
Build on Hungarian language skills, including reading, writing, speaking, and listening.
Prerequisite: HNG 1131 or placement test.

TUR 1130 Beginning Turkish 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, TUR 1131, constitute the introductory sequence in Turkish.

TUR 1131 Beginning Turkish 2 5 Credits
Grading Scheme: Letter Grade
Second semester of the introductory sequence in Turkish.
Prerequisite: TUR 1130 with minimum grade of C.

TUR 1180 Intensive Beginning Turkish 5 Credits
Grading Scheme: Letter Grade
An intensive introduction to Turkish, using the proficiency method. This course is equivalent to, and substitute for, the UF's first-year Turkish sequence (TUR 1130 / TUR 1131).
Prerequisite: instructor permission.

TUR 2220 Intermediate Turkish 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study of speaking, reading, writing and listening comprehension skills with new vocabulary and grammar.
Prerequisite: TUR 1131 or placement test.

TUR 2221 Intermediate Turkish 2 4 Credits
Grading Scheme: Letter Grade
Improves speaking, reading, writing and listening skills by building upon language principles introduced in TUR 2220.
Prerequisite: TUR 2220 or placement test.

TUR 2300 Intensive Intermediate Turkish 5 Credits
Grading Scheme: Letter Grade
Immersive intermediate study of Turkish. Equivalent to, and substitute for, the second-year sequence of TUR 2220 / TUR 2221. Classes meet daily; see the weekly schedule of topics.
Prerequisite: (TUR 1130 and TUR 1131) or instructor approval.

Family, Youth and Community Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

Curriculum

- Combination Degrees
- Family, Youth and Community Sciences
- Family, Youth and Community Sciences Minor

Courses

FYC 2331 An Ounce of Prevention 3 Credits
Grading Scheme: Letter Grade
We have become a “band-aid” society—when a social problem crops up like the opioid crisis, the obesity epidemic, or increases in human trafficking, we try to patch it up on the back end instead of heading off the problem from the start. Prevention science seeks to improve the health and well-being of individuals, families, and communities through empirical approaches to prevention and intervention. By looking at root causes of social problems early on, we can leverage prevention science to improve the health and well-being of individuals, families, and communities. This interdisciplinary Quest 2 course will provide you with foundational knowledge in prevention science.
Prerequisite: Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - Social Science

FYC 3001 Principles of Family, Youth and Community Sciences 3 Credits
Grading Scheme: Letter Grade
Introduces the study and practice of family, youth and community sciences. Presents analytic concepts used in the study of family, youth and community sciences. Emphasizes the vulnerabilities and needs of US children, youth, families, and communities, and describes human services that maximize human potential and minimize personal and societal costs. Introduces the roles and skills of the human service professional.
Prerequisite: PSY 2012 or SYG 2000.

FYC 3005 Introduction to Personal and Family Financial Planning 3 Credits
Grading Scheme: Letter Grade
Management of personal and family financial resources throughout the life span. A study of individual and family finances as related to planning, credit, saving, investment, insurance, taxes, housing costs, transportation costs, retirement, and estate planning.
Prerequisite: Sophomore standing or higher.

FYC 3101 Parenting and Family Development 3 Credits
Grading Scheme: Letter Grade
Introduces the challenges and changes associated with parenthood. Includes strategies, skills and resources for understanding parenting. Also addresses diverse family types and parenting risks.
Prerequisite: FYC 3112.

FYC 3112 Contemporary Family Problems and Interventions 3 Credits
Grading Scheme: Letter Grade
The major social and family problems contemporary families face, including poverty, violence and care of dependent elders. Emphasizes family strengths and resiliency as well as social programs that help families withstand and overcome difficulties. Emphasizes the role of society, race and gender in constructing family problems.
Prerequisite: PSY 2012 or SYG 2000.
Corequisite: FYC 3001.

FYC 3115 Human Services 3 Credits
Grading Scheme: Letter Grade
In-depth look at human services that assist children and families, with focus on income support, child protection, adoption and family support programs offered through human services agencies. Emphasizes professional development of helping skills for working directly with children and families.
Prerequisite: FYC 3001.

FYC 3201 Foundations of Youth Development 3 Credits
Grading Scheme: Letter Grade
Introduces youth development principles utilizing an ecological framework, including major theories relevant to domains of development. Then, major physical, cognitive, social and emotional changes experienced by youth in middle childhood through adolescence are explored. Application of youth development principles in context of family, school and community are also emphasized.
Corequisite: FYC 3001.

FYC 3401 Introduction to Social and Economic Perspectives on the Community 3 Credits
Grading Scheme: Letter Grade
Introduces the study of community in American society. Addresses the theoretical underpinnings of the concept of community and explores changes that have affected urban and rural communities.
Corequisite: FYC 3001.

FYC 3521 Community Food Systems 3 Credits
Grading Scheme: Letter Grade
Examines theory and practice in food and agriculture from a social science perspective within the context of sustainable community food systems.
Prerequisite: junior standing or higher.

FYC 4003 Personal and Family Financial Counseling 3 Credits
Grading Scheme: Letter Grade
Examines family economics and resource management issues and impact on the well-being of family across the major transitions of the family life-cycle. The complex process of financial decision-making and the role of the financial counselor are addressed.
Prerequisite: FYC 3005.

FYC 4114 Ethical Issues in Family, Youth and Community Sciences 3 Credits
Grading Scheme: Letter Grade
Ethics and ethical decision-making by professionals working individuals and their families is addressed. Emphasizes ethical issues related to family relationships and family life.
Prerequisite: junior standing or higher.

FYC 4126 Urban and Rural America in Transition 3 Credits
Grading Scheme: Letter Grade
Communities in America are being confronted with a number of significant changes. Such shifts are not felt in the same manner across various regions or communities in the US. Explore current and emerging issues that have differential consequences for urban and rural areas in this country.
Prerequisite: SYG 2000 and FYC 3001 and FYC 3401 with minimum grades of C and FYC major.

FYC 4202 Youth and Family Relations 3 Credits
Grading Scheme: Letter Grade
Youth within the family system. Reviews basic theory and research on youth development and how it is intertwined with family development, family processes and extended family systems. Students also work with youth and their families.
Prerequisite: FYC 3001.

FYC 4204 Positive Youth Development for the Youth Professional 3 Credits
Grading Scheme: Letter Grade
This course prepares youth development professionals to provide direct service to youth and emerging adults in non-formal settings. Emphasis is placed on the application of positive youth development principles, practices, and professional skills.
Prerequisite: FYC 3001 with minimum grade of C, and FYC 3201 with minimum grade of C, and FYC 4212 with minimum grade of C.

FYC 4210 Children: Trauma & Resiliency 3 Credits
Grading Scheme: Letter Grade
Evolving research on the developing child and the neurobiology of trauma has dramatically changed our understanding of adverse childhood experiences and its impact on the growing child. This course focuses on both areas: the nature of childhood trauma and intervention in an ecological context.
Prerequisite: FYC 3112.

FYC 4212 Contemporary Youth Problems and Solutions 3 Credits
Grading Scheme: Letter Grade
Youth development and its ecology, emphasizing the challenges and issues facing adolescents/ youth, and the creation of communities that foster positive youth development and resiliency. Includes theoretical, methodological, empirical and practical issues regarding youth development issues and solutions. Also examines the ecology of youth development, focusing on the dynamics of interactions and reciprocal relationships between youth and various systems of the environment.
Prerequisite: (FYC 3001 and FYC 3201 and SYG 2000 with minimum grades of C) and Family, Youth and Community Sciences major.

FYC 4301 Engaging Communities for Decision Making and Action 3 Credits
Grading Scheme: Letter Grade
Survey citizens and analyze data of scientific, technological, environmental, and societal issues at the community level. Implement and evaluate methodologically correct research that aids in the resolution of issues and improves decision-making skills as they relate to community issues.
Prerequisite: FYC 3001 and FYC 3401 and FYC 4622.

FYC 4408 Organizational Leadership for Nonprofits 3 Credits
Grading Scheme: Letter Grade
Examines the challenges for nonprofit leaders, incorporating leadership theories as they apply to these organizations. Provides the leadership skills needed to lead nonprofit organizations.
Prerequisite: Junior standing or higher.

FYC 4409 Working with Nonprofit Organizations in Community Settings 3 Credits
Grading Scheme: Letter Grade
Overview of nonprofit organizations, their functions and purpose, how they are organized and operate, and the basic structure of an incorporated nonprofit.
Prerequisite: Junior standing or higher.

FYC 4410 Fund Raising for Community Nonprofit Organizations 3 Credits
Grading Scheme: Letter Grade
Contemporary fund raising practices in the nonprofit sector applied to community organizations.
Prerequisite: Junior standing or higher.;
Corequisite: FYC 4409.

FYC 4426 Risk Management in Nonprofit Organizations 3 Credits
Grading Scheme: Letter Grade
Foundation in the theory, principles and techniques associated with risk management. Topics include the nature and purpose of risk management; the general risk management exposures facing nonprofit organizations; and risk financing strategies for nonprofits.
Prerequisite: Junior standing or higher.;
Corequisite: FYC 4409.

FYC 4427 Non-Governmental Organizations 3 Credits
Grading Scheme: Letter Grade
Explores the nature, role, operations and impacts of non-governmental organizations (NGOs) across the globe. Provides a foundation in understanding NGOs within the geographical, social, political and economic realities under which they operate. Lectures, reading assignments, student presentations and a group project are designed for a better understanding of NGO operations.
Prerequisite: junior or senior standing.

FYC 4428 Human Resource Management for Nonprofits 3 Credits
Grading Scheme: Letter Grade
Presents the various HRM activities such as recruitment, testing, selection, performance management, labor relations, volunteer management, compensation and training, for more effective management. Experiential exercises are used to simulate personnel/HRM tasks and issues that managers face in nonprofit organizations, such as conflict and leadership.
Prerequisite: Junior standing or higher.;
Corequisite: FYC 4409.

FYC 4503 Methods of Family Life Education 3 Credits
Grading Scheme: Letter Grade
Educational techniques for family life educators and human science providers who help individuals and families address key issues of development and human relationships at each stage of the life cycle.
Prerequisite: (FYC 3101 and FYC 3201) or SYG 2430.

FYC 4622 Planning and Evaluating Family, Youth and Community Science Programs 3 Credits
Grading Scheme: Letter Grade
Basic philosophy, theory and process of planning and evaluating family, youth and community programs.
Prerequisite: FYC 3001.

FYC 4660 Family Policy 3 Credits
Grading Scheme: Letter Grade
Understanding how professionals can influence family policy and the impact of government policies on families.
Prerequisite: FYC 3112.

FYC 4801 Applied Social Research Methods 4 Credits
Grading Scheme: Letter Grade
Understand and apply the principles of social science research methods. Learn a variety of research methods and have hands-on experience with data collection and analysis.
Prerequisite: FYC 3001 with minimum grade of C or STA 2023.

FYC 4803 Advanced Social Research Methods 3 Credits
Grading Scheme: Letter Grade
Design, implement, and interpret social research as part of an advanced team. Collaboratively conduct original social research under faculty supervision and produce a manuscript suitable for submission to a scholarly outlet.
Prerequisite: FYC 4801 and Instructor approval.

FYC 4900 Supervised Extension Experience in Family, Youth and Community Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

FYC 4905 Individual Study in Family, Youth and Community Sciences 1-3 Credits
Grading Scheme: Letter Grade
Selected topics and problems related to family, youth, and community sciences and the student's specific area of interest.
Prerequisite: Instructor permission.

FYC 4911 Supervised Research in Family, Youth and Community Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in family, youth and community sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

FYC 4915 Honors Thesis Research in Family, Youth and Community Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in family, youth and community sciences leading to an honors thesis. Students are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

FYC 4930 Personal and Family Financial Planning Capstone 3 Credits
Grading Scheme: Letter Grade
Critical thinking and decision making about personal and family financial management in the context of the financial planning process. Analyze and prioritize goals and make recommendations for a client in household accounting, taxes, investments, risk management, retirement planning and estate planning.
Prerequisite: FYC 4004, FYC 4007 and FYC 4102.

FYC 4931 Family, Youth, and Community Sciences Professional Development 3 Credits
Grading Scheme: Letter Grade
Provides a professional development experience for students in FYCS including: search for employment during their final semesters of undergraduate study and information regarding graduate education and research possibilities. Emphasis is placed on career placement, graduate education, practicum readiness, professional business etiquette and elements for a successful transition to the workforce.
Prerequisite: FYC 3001 and FYC 3112 and FYC 3201 and FYC 3401.

FYC 4932 Special Topics in Family, Youth, and Community Science 1-3 Credits
Grading Scheme: Letter Grade
Special topics in Family, Youth, and Community Science.
Prerequisite: Sophomore standing or higher.

FYC 4941 Practicum in Family, Youth and Community Sciences 3-6 Credits
Grading Scheme: Letter Grade
Supervised field work experience in a human/community services agency and a professional seminar to discuss student progress, workplace experiences, and the intersectionality of current topics and issues in society as they relate to families, youth, and communities. Required course assignments aid in processing and assessing the practicum experience and relate to professional issues and responsibilities.
Prerequisite: FYC 3001 and FYC 3112 and FYC 3115 and FYC 4114 and FYC 3201 and FYC 3401 and FYC 4622 and FYC 4801 and FYC 4931.

FYC 4950 UF in Ireland Field Study 3 Credits
Grading Scheme: Letter Grade
Explore Irish culture through observation, participation, and reflection on a variety of Irish cultural experiences; participate, summarize, and report on a capstone project.
Prerequisite: 1 entry-level youth development course (FYC 3001, FYC 3201, EDF 3110, EDF 3132, EDF 3135, or PSY 2012).

FYC 4951 Youth Development, Service-Learning and Irish Culture 3 Credits
Grading Scheme: Letter Grade
Provides a transformative experiential learning experience in the context of youth development and Irish culture in Ireland. This course will facilitate youth development, service-learning, and cultural learning opportunities, along with collaborating with community-based organizations working to solve local issues and enhance community engagement. Part of a UF study Abroad Program.
Prerequisite: 1 entry-level youth development course (FYC 3001, FYC 3201, EDF 3110, EDF 3132, EDF 3135, or PSY 2012).

Film and Media Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

ANT 3390 Visual Anthropology 3 Credits
Grading Scheme: Letter Grade
Uses photography and film as tools and products of social science. Ways of describing, analyzing and presenting behavior and cultural ideas through visual means. Projects and laboratory work with visual anthropology. (WR)
Prerequisite: basic knowledge of photography or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

ARH 4471 Late Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
Continuation of mid-twentieth century art (ARH 4453). International art and American diversity in art from about 1970 to the present.
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - International

ARH 4710 History of Photography 3 Credits
Grading Scheme: Letter Grade
Surveys major technical, stylistic, and critical directions in photography from the 19th century to the present. (N)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - International

ART 3842C Performance and Installation 3 Credits
Grading Scheme: Letter Grade
Explores the complex relationships among object, body, site, space, and architecture using various visual media in the creation of installation and performance art.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3959C Video Art 3 Credits
Grading Scheme: Letter Grade
Explores video with an emphasis on editing and building a personal vocabulary through the electronic image.
Prerequisite: ART 2680C and must be a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.
Attributes: Artificial Intelligence

ART 4630C Video Art: Advanced Projects 3 Credits
Grading Scheme: Letter Grade
Focuses on the completion of larger scale student-directed projects with a special emphasis on pre-production planning and advanced editing techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4631C Computer Art: Advanced Projects 6 Credits
Grading Scheme: Letter Grade
Advanced work in computer-mediated art, including animation and interactive works in both the physical and virtual domain, with special emphasis on completion of larger scale student-directed projects.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

EME 4401 Integrating Technology in the Elementary Curriculum 3 Credits
Grading Scheme: Letter Grade
Prepares elementary majors to effectively use technology in teaching and learning.
Prerequisite: Admission to Elementary Education or Education Sciences degree programs.

ENG 3113 The Movies as Narrative Art 4 Credits
Grading Scheme: Letter Grade
Examines movies as a mode of storytelling by emphasizing the difference between verbal and visual narration, and relation to contemporary thought and values.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 3115 Introduction to Film: Criticism and Theory 4 Credits
Grading Scheme: Letter Grade
Introduces the principal theoretical and critical issues raised by the first century of the cinema.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 3121 History of Film, Part 1 4 Credits
Grading Scheme: Letter Grade
History of film from its beginnings to the introduction of sound.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 3122 History of Film, Part 2 4 Credits
Grading Scheme: Letter Grade
History of film from the introduction of sound to 1960.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 3125 History of Film, Part 3 4 Credits
Grading Scheme: Letter Grade
History of film from 1960 to the present.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4130 Race and Ethnicity in Film 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of films and videos by and about people of color in the Americas, Africa, Australia, and Europe.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4133 Film Studies 4 Credits
Grading Scheme: Letter Grade
Variable topics provide in-depth study of film genres, notable film directors, and other significant topics on subjects related to film.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4134 Women and Film 4 Credits
Grading Scheme: Letter Grade
Studies the roles and function of women in mainstream and alternative cinema, including study of feminist film criticism and theories of gender.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4135 National Cinemas 4 Credits
Grading Scheme: Letter Grade
Variable topics study of the films of historically important national cinemas, such as American, French, German, Italian, Russian, Japanese.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4136 Film and Video Production 4 Credits
Grading Scheme: Letter Grade
Seminar on the independent and experimental uses of small-format film and video production.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

ENG 4139 Television and Electronic Culture 4 Credits
Grading Scheme: Letter Grade
Explores the development of new modes of thought, forms of art, popular culture, and social practices based on the electronic technology of video and computers.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

FRT 3520 French Cinema 4-8 Credits
Grading Scheme: Letter Grade
Critical, theoretical, and historical study of French cinema. Content may include key directors, 1930s cinema, nostalgia, and masculinity in 1980s films, World War II cinema, and Colonial and Postcolonial cinema. Taught in English.
Prerequisite: Critical Tracking semester 3 or greater.

IDS 4906 Interdisciplinary Thesis Research 1-12 Credits
Grading Scheme: Letter Grade
Research accommodation for thesis. (WR)
Corequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

ITT 3521 Italian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of Italian film and directors. Topics may vary.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

JPT 3391 Introduction to Japanese Film 4 Credits
Grading Scheme: Letter Grade
Introduces the formal and historical features of Japanese film that have given it a unique position in film history. Emphasizes formal and critical analysis as well as the intellectual stakes of studying non-western film.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

LIT 3362 The Age of the Avant-Garde 3 Credits
Grading Scheme: Letter Grade
Examines the revolutionary experimentalist aspects of modern and contemporary culture, such as cubism, surrealism, structuralism, and conceptualism.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

PGY 3410C Photography: Color 3 Credits
Grading Scheme: Letter Grade
Consideration of the use and technique of color photography. Covers cameras, films, and darkroom developing techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 3444C Photography: Black and White 3 Credits
Grading Scheme: Letter Grade
Fundamentals of photography, operation of the camera and developing, printing, and enlarging. Principles of photography as a means of personal expression.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 3820C Photography: Digital 3 Credits
Grading Scheme: Letter Grade
Studio methods and techniques in creating still images using electronic digital technology.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 4420C Advanced Photography 6 Credits
Grading Scheme: Letter Grade
Use of the camera as a medium of individual creative expression. Experimental projects in black and white and color photography.
Prerequisite: PGY 3410C, PGY 3421C, PGY 3444C, PGY 3820C, and senior-level art major.

TPA 3217 Introduction to Lighting and Sound 4 Credits
Grading Scheme: Letter Grade
Introduces electricity and technical skills basic to lighting and sound technology.

TPP 3103 Acting 2: Analysis and Application 2 Credits
Grading Scheme: Letter Grade
Experimentation with scripted material: scene study, analysis, audition and performance.
Prerequisite: TPP 2110 with a minimum grade of C and Theatre or Theatre Performance major.

TPP 3311 Directing 3 Credits
Grading Scheme: Letter Grade
Practical application of theoretical concepts of directing applied to scene study.
Prerequisite: refer to the department.

Finance, Insurance, and Real Estate

- Finance
- Real Estate Minor

Courses

FIN 2951 Special Projects 1-3 Credits
Grading Scheme: S/U
Projects related to finance as approved by the college.

FIN 3124 Introduction to Financial Planning & Wealth Management 4 Credits
Grading Scheme: Letter Grade
An examination of the financial planning process, professional conduct and regulation, and education planning. Students analyze personal financial information, construct financial statements, develop financial strategies, and understand the components of a written financial plan.
Prerequisite: FIN 3403.

FIN 3403 Business Finance 4 Credits
Grading Scheme: Letter Grade
The acquisition and management of funds by business. A minimum grade of B is required in FIN 3403 to register for required finance major courses.
Prerequisite: (ACG 2021 and junior standing or higher) or (ACG 2021 and ECO 2023 and sophomore standing).
Attributes: Artificial Intelligence

FIN 4128 Financial Plan Development 4 Credits
Grading Scheme: Letter Grade
Capstone course in financial planning. Covers retirement needs, individual, corporate, and government retirement plans, plus group benefits plans. Examines professional issues in financial planning, including ethical considerations, regulation and certification requirements, written and oral communication skills, and professional responsibility. Students develop a comprehensive financial plan.
Prerequisite: Any two of FIN 3124, FIN 4132, or RMI 3011.
Corequisite: FIN 3124 or FIN 4132 or RMI 3011 if not used above.

FIN 4132 Estate & Tax Planning 4 Credits
Grading Scheme: Letter Grade
A focus on the fundamentals of estate planning, including the transfers of wealth by gift or at death. Trusts, guardianships and post mortem planning are covered. Also covers the taxation of income by federal government, focusing on the planning and preparation of federal tax returns around estate planning.
Prerequisite: FIN 3403 with a minimum grade of C.

FIN 4243 Debt and Money Markets 4 Credits
Grading Scheme: Letter Grade
Examines financial markets, the institutions and instruments associated with debt funds, and the determinants of the general level and structure of interest rates.
Prerequisite: (FIN 3403 with a minimum grade of B) and (ACG 2021 and ACG 2071 with minimum grades of C).

FIN 4403 Honors Finance 2 Credits
Grading Scheme: Letter Grade
Variable topics providing opportunity for in-depth study of topics not offered in other courses.
Prerequisite: FIN 3403 with grade of A.

FIN 4414 Financial Management 4 Credits
Grading Scheme: Letter Grade
An integrative examination of theory and practice of managerial finance, financing and investing decisions as affected by risk, timing and financial markets.
Prerequisite: FIN 4504 and ACG 3101.

FIN 4453 Financial Modeling 4 Credits
Grading Scheme: Letter Grade
Demonstrates how intricate financial spreadsheet models, along with other modeling tools, can be developed and applied in value creating activities for businesses such as securities modeling, financial statement cash flow modeling, and derivatives modeling.
Prerequisite: FIN 3403 with a minimum grade of B and (ACG 2021 and ACG 2071 with minimum grades of C).

FIN 4504 Equity and Capital Markets 4 Credits
Grading Scheme: Letter Grade
Examines financial markets, the institutions and instruments associated with equity funds, the mechanics and mathematics of stock prices, security analysis, and the factors influencing stock values.
Prerequisite: (FIN 3403 with a minimum grade of B) and (ACG 2021 and ACG 2071 with minimum grades of C).

FIN 4533 Financial Derivatives 2 Credits
Grading Scheme: Letter Grade
The course defines the main kind of derivatives, shows how they are used to achieve various hedging and speculating objectives, introduces a framework for pricing derivatives and studies several applications of derivative-pricing techniques outside derivative markets.
Prerequisite: FIN 4504 or FIN 4243

FIN 4905 Independent Research 1-4 Credits
Grading Scheme: Letter Grade
A written report or reports will be required.
Prerequisite: senior standing, previous work in the area of research and department permission.

FIN 4934 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in entrepreneurship related fields of study.

FIN 4956 International Studies in Finance 1-4 Credits
Grading Scheme: Letter Grade
This course provides a mechanism by which coursework taken at a foreign university as part of an approved study abroad program can be recorded on the transcript and counted toward UF graduation.

FIN 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for award of magna cum laude or summa cum laude designation. To qualify for the thesis option, students normally will have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator) and must have at least the 3.6 GPA required for high honors at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's major department.
Prerequisite: 90 credits earned and a 3.6 UF GPA.

REE 2951 Special Projects 1-3 Credits
Grading Scheme: S/U
Projects related to business real estate as approved by the college.

REE 3043 Real Estate Analysis 4 Credits
Grading Scheme: Letter Grade
Principles of real estate decision making within the context of our economic, social, legal and political-government systems.
Prerequisite: ACG 2021 or AEB 3133 or AEB 3144 or BCN 4753.

REE 4303 Real Estate Investment Decision Making 4 Credits
Grading Scheme: Letter Grade
Explores real estate investment and the demands, skills and challenges of decision-making for those who make such investments.
Prerequisite: REE 3043 with a minimum grade of C.

REE 4905 Independent Research 1-4 Credits
Grading Scheme: Letter Grade
A written report or reports will be required.
Prerequisite: Senior standing or higher, previous work in the area selected for research and instructor and department chair permissions.

REE 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for award of magna cum laude or summa cum laude designation. To qualify for the thesis option, students normally will have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator) and must have at least the 3.6 GPA required for high honors at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's major department.
Prerequisite: 90 credits earned and a 3.6 UF GPA.

RMI 3011 Risk Management and Insurance 4 Credits
Grading Scheme: Letter Grade
Identification of various types of risks; principles underlying selection of appropriate means of handling risks; introduction to life, health, property, liability and other area of insurance.
Prerequisite: ACG 2021 or ECO 2013 or ECO 2023.

Fine Arts

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The School of Art + Art History nurtures a culture of critical inquiry in scholarly and creative work. The school empowers each individual with knowledge, skills, and insight to engage thoughtfully with the changing world.

Curriculum

- Art Education Certificate
- Art History
- Art History Minor
- Art Minor
- Art | BA
- Art | BFA
- Ceramics Certificate
- Graphic Design

Courses

ARH 1040 Gaming War & Peace in the United States and South Africa 3 Credits
Grading Scheme: Letter Grade
Uses role-playing games to investigate conflict and its resolution by simulating the revolutionary chaos in New York (1775–76) and constitutional negotiations for post-apartheid South Africa (1993). Examines the role of the arts in remembering conflict, focusing on monuments.
Prerequisite: Restricted to degree-seeking undergraduates.
Attributes: Quest 1

ART 2620C Net Art 3 Credits
Grading Scheme: Letter Grade
Explores practical and theoretical issues related to the Internet as a medium for making art rather than as a tool for delivering information. Emphasizes the creation of dynamic and interactive experiences on the web that integrate video, graphics, animation, sound, image, and typography.
Prerequisite: ART 1803C and (BFA Art or BA Art or BFA Graphic Design).

ART 4639C Advanced Experiments in Art and Technology 3 Credits
Grading Scheme: Letter Grade
Special topics course that explores new forms of digital media production. Topics reflect emerging forms of digital media.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

DIG 3110C Imaging Processes 3 Credits
Grading Scheme: Letter Grade
Prerequisite: Sophomore standing or higher.

HUM 1300 Compassion and the Arts 3 Credits
Grading Scheme: Letter Grade
Students will explore the historical, theoretical, and cultural roots of compassion – or how people respond through empathetic action. Works of art, music, performing arts, literature, philosophy, religion, and history will help students critically reflect on the role of compassion within the human experience including quality of life and citizenship.
Prerequisite: Restricted to degree-seeking undergraduate students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

HUM 2592 Introduction to the Arts in Medicine in a Global Context 3 Credits
Grading Scheme: Letter Grade
Explores the field of arts in medicine in a global context, focusing on the many ways that the arts can be used to enhance health and wellbeing in healthcare or community settings and the relationship of culture to healing practices, systems, and health literacy in various regions of the world.

HUM 2930 Special Topics in Fine Arts 1-3 Credits
Grading Scheme: Letter Grade
Variable topics course exploring the interaction between various arts and between the arts and other disciplines.

HUM 3351 Visual Arts in Medicine 3 Credits
Grading Scheme: Letter Grade
Explore the intersections of the visual arts and health and investigate how the visual arts can support health and well-being. Acquire fundamental research and communication skills for scholarly discussion of arts in health as well as practical application.
Prerequisite: HUM 2592

HUM 3523 Music and Health 3 Credits
Grading Scheme: Letter Grade
Review music therapy and music in health research to assess, orally and in scholarly writing, how music can be utilized to enhance well-being, the intersections between music and psychology/cognition/human behavior, as well as health maintenance issues and medical challenges of performing artists.
Prerequisite: Junior standing or higher or instructor permission.

HUM 3598L Applied Theater for Health II: Collective Creation Lab 3 Credits
Grading Scheme: Letter Grade
Apply knowledge acquired in Applied Theater for Health I to create an original project or workshop on a chosen health topic. Collaborate to research, develop, and conduct theater for health workshops in partnership with a community or campus organization.
Prerequisite: HUM 3599.

HUM 3940L Arts in Medicine Practicum 1 2 Credits
Grading Scheme: Letter Grade
Provides basic to intermediate-level mentored practice in the arts in healthcare in a clinical or community environment. Emphasizes a primary discipline while deepening the understanding of the practice through documentation self-assessment and a culminating paper.
Prerequisite: (Certificate plan of Visual Arts in Medicine or Dance in Medicine or Music in Medicine) and HUM 2592 and (DAN 3775 or HUM 3523 or HUM 3351).

HUM 4594 Music in Medicine Capstone 3 Credits
Grading Scheme: Letter Grade
Culminating course in the Music in Medicine certificate. Conduct a thorough literature review and develop a capstone proposal and project related to the intersections of music and health in healthcare or community settings to assess, orally and in scholarly writing, and how music can be utilized to enhance wellbeing.
Prerequisite: HUM 3940L.

HUM 4912 Fine Arts Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Provides an opportunity for firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or creative application, depending on the topic. Projects are supervised by an advising faculty member or a grad student working under faculty supervision.
Prerequisite: Sophomore standing or higher.

HUM 4930 Special Topics in Fine Arts 1-3 Credits
Grading Scheme: Letter Grade
An upper division general fine arts special/rotating topics on various subjects in the arts.
Prerequisite: Junior standing or higher.

HUM 4956 Overseas Studies in Fine and Performing Arts 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study-abroad program can be recorded on the transcript and counted toward UF graduation.
Prerequisite: undergraduate advisor permission.

IDC 3500C Programming for Artists 3 Credits
Grading Scheme: Letter Grade
Introduces understanding interactivity as an art form, providing an in-depth exploration of the tools, theories and applications of interactive media as they are used for creative inquiry, research and production.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

Fire and Emergency Services

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

Department Information

The mission of the M. E. Rinker, Sr. School of Construction Management is to be the center of excellence for construction. The Rinker School will pursue this by promoting professional and ethical behavior in education and practice, advancing the industry by creating new knowledge through research and scholarly activities, educating individuals in principles, knowledge, and skills required to be successful in their professional careers, and providing service and transferring knowledge to the citizens of Florida, the construction industry, professional societies, the nation, and the world.

Curriculum

- Combination Degrees
- Construction Management
- Construction Management Certificate
- Emergency Management Certificate
- Emergency Medical Services Management Certificate
- Fire and Emergency Services UF Online
- Senior Fire Officer Certificate

Courses

FES 2941 Emergency Management Internship 3 Credits
Grading Scheme: S/U
Gain experience in an emergency management situation to identify and apply best practices in the development of preparation, planning, responding, recovering, and mitigating disasters; participate in supervised disaster management work activities that provide experiential learning in emergency management.

FES 3004 Political and Legal Foundations of Fire Protection 3 Credits
Grading Scheme: Letter Grade
Examines the legal aspects of fire service and the political and social impacts of legal issues; reviews the American legal system and covers legal and political issues involving employment and personnel matters, administration and operations, and planning and code enforcement with regard to the fire service.
Prerequisite: junior standing or higher.

FES 3015 Principles of Fire and Emergency Services Management 3 Credits
Grading Scheme: Letter Grade
Fundamentals of management underlying the solution of problems of organization and operation of fire and emergency services agencies. (WR)
Prerequisite: junior standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

FES 3153 FES Communication and Informational Technology 3 Credits
Grading Scheme: Letter Grade
Communications systems used in fire and emergency services such as high frequency voice/data, Internets and Intranets, satellite communications, GPS and GIS. An introduction, examination, equipment assessment, implementation program and maintenance management module are provided for each system covered.
Prerequisite: junior standing or higher.

FES 3223 Foundations of EMS 3 Credits
Grading Scheme: Letter Grade
Covers the design and operation of EMS systems, service delivery, and echelons of care. The history of EMS, interface of public and private organizations and review of the various personnel who comprise these systems, will be examined in relation to their impact on the health care delivery system.
Prerequisite: junior standing or higher.

FES 3227 Ambulance Operations 3 Credits
Grading Scheme: Letter Grade
Overview of the application of management principles to the provision of medical transport services. Includes an analysis of the economic, geographic, temporal, and clinical characteristics of ambulance demand, the key processes for providing transport services, and an evaluation of industry best practices.
Prerequisite: junior standing or higher.

FES 3233 EMS Safety and Risk Management 3 Credits
Grading Scheme: Letter Grade
Introduces the risk management principles of an EMS agency. Emphasizes safety from the perspective of the field provider.
Prerequisite: junior standing or higher.

FES 3263 Public Safety Educator 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to the education system as it relates to EMS education. Explores issues in curriculum development, teaching, program direction, and development.
Prerequisite: junior or senior standing.

FES 3284 Management of Emergency Medical Services 3 Credits
Grading Scheme: Letter Grade
Personnel and resource management issues in providing emergency medical services function. Quality assurance, utilization review techniques, and practices and techniques for delivery of services and distribution of resources are included.
Prerequisite: junior standing.

FES 3285 Advanced Leadership Issues in Emergency Medical Services 3 Credits
Grading Scheme: Letter Grade
Organizational development issues in providing emergency medical services function in the fire-based, hospital-based and third-service environments. Establishing and directing emergency medical services' work teams is also covered.
Prerequisite: junior standing.

FES 3533 Community Risk Reduction for Emergency Services 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.
Prerequisite: junior or senior standing.

FES 3720 Strategic Planning for FES 3 Credits
Grading Scheme: Letter Grade
Provides the conceptual framework for the development of a strategic plan for emergency management, fire protection, and emergency medical service. Also provides guidance through the process of the needs, resources, and capabilities of the organization and how to establish a plan to achieve improved performance.
Prerequisite: junior standing.

FES 3753 Fire and Emergency Services Financial Management 3 Credits
Grading Scheme: Letter Grade
Planning, developing, presenting, funding and implementing a budget for a fire and emergency services agency. Additional topics include special taxing districts, bond issues and fund-raising campaigns.
Prerequisite: junior standing.

FES 3780 Analytical Approaches to Fire Protection 3 Credits
Grading Scheme: Letter Grade
Examines the tools and techniques of rational decision making in fire and emergency services agencies, including data collection, statistics, probability, decision analysis, utility modeling, resource allocation, and cost benefit analysis.
Prerequisite: junior or senior standing.

FES 3782 Applications of Fire Research 3 Credits
Grading Scheme: Letter Grade
Examines methodology for analyzing fire-related research; provides a framework for independent research in fire dynamics, fire test standards, fire safety, fire modeling, structural fire safety, life-safety, firefighter safety, automatic detection and suppression, risk analysis and loss control, applied research, and fire-related research trends.
Prerequisite: junior or senior standing.

FES 3803 Multi-Agency Incident Command 3 Credits
Grading Scheme: Letter Grade
Managing complex incidents that may require response from fire-rescue, emergency medical services, law enforcement and/or other public safety sectors. Use of the incident management system is emphasized.
Prerequisite: junior standing.

FES 3815 Command and Control at Catastrophic Fire-Rescue Incidents 3 Credits
Grading Scheme: Letter Grade
Incident command at multiple-alarm incidents, emphasizing rapid fireground decision-making, safety, personnel accountability and communications. Settings for scenarios include multi-family occupancies, hotels, high-rises, healthcare facilities and large retail centers.
Prerequisite: junior standing.

FES 3822 Disaster Policy in Emergency Management 3 Credits
Grading Scheme: Letter Grade
Describes the functional demands that emergency managers should be aware of in crafting effective emergency management plans, policies, and programs. Addresses how public policy choices impact emergency planning and the consequences of a disaster event. Emphasizes the emergency planning process.
Prerequisite: junior or senior standing.

FES 4003 Fire and Emergency Services Administration 3 Credits
Grading Scheme: Letter Grade
Demonstrates the importance of persuasion and influence, budgeting, anticipation of challenges and change, and management tools for analyzing and solving problems; explores how the leadership of a fire and emergency services department develops internal and external cooperation to achieve the department's mission.
Prerequisite: junior or senior standing.

FES 4014 Foundations of Emergency Management 3 Credits
Grading Scheme: Letter Grade
Examines the history and the principles establishing Emergency Management in the United States. Describes the "Four Phases of Emergency Management," relates processes to codes and laws governing Emergency Management, and examines Emergency Management and the terrorist threat.
Prerequisite: junior or senior standing.

FES 4023 Fire and Emergency Services Ethical Practices and Leadership 3 Credits
Grading Scheme: Letter Grade
The role of agency leadership and its impact on the continuing professionalization of the fire and emergency services. Examines traditional and evolving definitions, practices and skills in leadership behavior, including discussions of power, influence, ethics and organizational behavior.
Prerequisite: senior standing.

FES 4034 Regulatory Issues in Fire and Emergency Services 3 Credits
Grading Scheme: Letter Grade
Introduces safety, health and environmental regulations on the state and federal levels that impact the delivery of fire and emergency services. OSHA, EPA and NFPA regulatory requirements are introduced along with methods and techniques to implement compliance programs.
Prerequisite: FES 4003 and senior standing.

FES 4045 Fire and Emergency Services Human Resource Management 3 Credits
Grading Scheme: Letter Grade
Major human resource management functional areas for fire and emergency services agencies. Topics include organizational employment planning, employment regulation, job analysis, performance assessment, recruitment and regulation, job analysis, performance assessment, recruitment and selection, training and development, employee/labor relations and compensation.
Prerequisite: FES 3015 and senior standing.

FES 4055 Fire and Emergency Services Public Relations 3 Credits
Grading Scheme: Letter Grade
Implementation of principles and methods in advocating factual claims and policy proposals: prepositional analysis, evidence as demonstration, effective reasoning processes and ethics in controversy. Also focuses on public speaking and presentations, especially in the areas of technology, defense of budgets and political leadership.
Prerequisite: senior standing.

FES 4224 Management of Mass Casualty Incidents 3 Credits
Grading Scheme: Letter Grade
Covers systematic approaches to triage, treatment and transport in response to large-scale emergency medical services incidents. Resource planning and coordination with hospital systems is also emphasized.
Prerequisite: senior standing.

FES 4226 EMS Special Operations 3 Credits
Grading Scheme: Letter Grade
Discusses the various special roles in which EMS personnel may serve, such as hazardous materials, water rescue, and technical rescue.
Prerequisite: junior or senior standing.

FES 4234 EMS Community Risk Reduction 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.
Prerequisite: junior or senior standing.

FES 4244 Legal, Political, and Regulatory in EMS 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to the legal aspects of Emergency Medical Services. Explores issues in malpractice, consent and refusal of treatment, OSHA, employment issues, and risk management. EMS students gain insights into the legal liabilities in Emergency Medical Services.
Prerequisite: junior or senior standing.

FES 4274 Quality Management and Research in Emergency Services 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to benefits of quality improvement, the history of quality in EMS, measuring quality, and the uses of quality in EMS.
Prerequisite: junior or senior standing.

FES 4585 Management of Fire Prevention Programs 3 Credits
Grading Scheme: Letter Grade
Planning, promoting and executing fire prevention functions, including an emphasis on legal responsibilities, needs assessments, negotiation and planning activities.
Prerequisite: senior standing.

FES 4685 Fire Investigation and Analysis 3 Credits
Grading Scheme: Letter Grade
Examines the technical, investigative, legal, and social aspects of arson, including principles of incendiary fire analysis and detection, environmental and psychological factors of arson, legal considerations, intervention, and mitigation strategies.
Prerequisite: senior standing.

FES 4804 Disaster Recovery and Mitigation 3 Credits
Grading Scheme: Letter Grade
Provides the opportunity to understand real world disaster response efforts through academic study and interactive applied activities. Topics include the Incident Command System (ICS), Emergency Operations Center (EOC) management, Resource Management (RM), and Command-Communications-Coordination (C3).
Prerequisite: junior or senior standing.

FES 4820 Critical Incident Management for Emergency Managers 3 Credits
Grading Scheme: Letter Grade
Examines disaster planning and emergency management. Focuses on the four phases of planning, mitigation, response, and preparedness. Includes FEMA and federal government NIMS ICS-700 and ICS-800 certifications.
Prerequisite: junior or senior standing.

FES 4825 Disaster Planning and Control 3 Credits
Grading Scheme: Letter Grade
Examines concepts and principles of community risk assessment, planning and response to fires and natural and human-caused disasters, including National Incident Management System--Incident Command Systems (NIMS ICS), mutual aid and automatic response, training and preparedness, communications, civil disturbances, terrorist threats/incidents, hazardous materials planning, mass casualty incidents, earthquake preparedness, and disaster mitigation and recovery.
Prerequisite: Senior standing.

FES 4835 Natural Disaster Phenomena in Florida 3 Credits
Grading Scheme: Letter Grade
Natural disasters prevalent in Florida: past, present, and future, including hurricanes, flooding, freezes, and agricultural emergencies. Also addresses planning, operations, mitigation, recovery, and evaluation concerns.
Prerequisite: Junior standing or higher.

FES 4884 Introduction to Terrorism in Emergency Management 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental concepts, theories, principles, and practice of terrorism and terrorist events.
Prerequisite: junior or senior standing.

FES 4905 Special Studies in Fire and Emergency Services 1-3 Credits
Grading Scheme: Letter Grade
Special areas of study in fire and emergency services adjusted to the needs of individual students.
Prerequisite: instructor permission.

FES 4935 Current Issues in Fire and Emergency Services 3 Credits
Grading Scheme: Letter Grade
Information and direction for fire service administrators on current legislative, legal, labor and/or technology concerns facing fire and emergency services agencies.
Prerequisite: senior standing.

Fisheries and Aquatic Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

FAS 2024 Sustainable Fisheries 3 Credits
Grading Scheme: Letter Grade
Fish biology, ecology, and habitats relevant to sustainable fisheries on a global and regional (Florida) scale. Discusses fisheries occurring from mountain rivers to ocean depths, with emphasis on resource use. Topics include invasives, aquaculture, dams, artificial reefs, bycatch, climate change, and marine protected areas. Intended for non-science and science majors. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

FAS 4014 Aquaculture I 3 Credits
Grading Scheme: Letter Grade
Overview of the field of aquaculture, including water quality, production systems, nutrition, spawning, and the common fish and invertebrate groups cultured in the United States. Entirely web-based with narrated PowerPoint lectures followed by readings and other resources for each learning topic. Includes weekly topics in asynchronous class discussions.
Prerequisite: Junior or senior standing.

FAS 4105C Field Ecology of Aquatic Organisms 3 Credits
Grading Scheme: Letter Grade
This field-oriented course is intended to introduce students to the diverse aquatic habitats found in Florida, their associated flora and fauna, and serve as an introduction to the management issues facing state and federal conservation agencies. Students will gain an understanding of plant and animal community structure across a range of ponds, lakes, rivers, and nearshore coastal systems. Extensive field trips are required and comprise approximately 75% of the total class time.
Prerequisite: Junior or senior standing.

FAS 4202C Biology of Fishes 4 Credits
Grading Scheme: Letter Grade
The general biology of fishes, with emphasis on trends in their evolution, integrative and sensory biology, physiology, feeding ecology, reproduction, growth and population dynamics as they relate to fisheries.
Prerequisite: BSC 2011 and BSC 2011L.

FAS 4224 Applied Aquaculture Genetics 3 Credits
Grading Scheme: Letter Grade
The goal of this course is to provide students with the background knowledge and practical methodologies for the current technologies used for the genetic improvement of fish and shellfish aquaculture and fishery resource management. This course will be a combination of online lectures, group discussions, and video demonstrations to prepare students with the most updated advancements.
Prerequisite: BSC 2010 and BSC 2011 or PCB 3063 or equivalents.

FAS 4270 Marine Ecological Processes 3 Credits
Grading Scheme: Letter Grade
The ecology of marine organisms and habitats with focus on how general ecological principles, and those unique to the marine environment, drive patterns and processes.
Prerequisite: BSC 2010 and BSC 2011 or equivalent.

FAS 4271C Invasion Ecology of Aquatic Animals 3 Credits
Grading Scheme: Letter Grade
Comprehensive overview of invasion ecology which highlights aspects related to aquatic animals, including ecological concepts and debates underlying this developing field; biology and life history of nonnative aquatic animals, including characteristics of successful invaders; risk analysis methodology; and the conservation and regulatory implications of nonnative aquatic species.
Prerequisite: Junior standing or higher.

FAS 4274 Freshwater Ecology 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of the concepts in freshwater ecology which are important for controlling the traits, distribution, and abundance of aquatic organisms. Focuses on the major groups of organisms found in freshwater habitats, the physical and chemical properties that are important for structuring freshwater communities, and the ecological processes that affect freshwater communities and ecosystems.

FAS 4304C Spatial Sciences for Marine Environmental Characterization 4 Credits
Grading Scheme: Letter Grade
Exploration of the geospatial technologies, concepts, and methods required to acquire, analyze, and manage geographic data used in a context of marine habitat mapping. Emphasizes understanding and appreciation of maps as a mean of communication between stakeholders with different backgrounds and expertise.
Prerequisite: Junior standing.

FAS 4305C Introduction to Freshwater Fishery Science 4 Credits
Grading Scheme: Letter Grade
An applied course that explores the multidisciplinary nature of fisheries science through a detailed examination of freshwater fish and habitats. Includes discussion of relevant fundamental concepts in ecology, chemistry, and geography. Applies practical skills in field sampling and data handling, as well as skills (e.g., grant writing, science communication) and contemporary issues (e.g., ethical uses of AI tools) pertinent to fishery management and research.
Prerequisite: Junior or Senior Standing.

FAS 4363 Marine Protected Areas 3 Credits
Grading Scheme: Letter Grade
Presents the history and logic of marine protected areas (MPAs) and their advantages and disadvantages. Explains the science of MPAs as well as an overview of traditional approaches of fisheries management. Also emphasizes the importance of ecological principles when creating an MPA. Finally, presents an overview of sampling theory and the need for empirical data to document the success or failure of MPAs.
Prerequisite: BSC 2011.

FAS 4364 Marine Adaptations: Environmental Physiology 3 Credits
Grading Scheme: Letter Grade
Focuses on the responses of species and habitats to stressors encountered in the marine environment, such as the physiological responses to salinity, hypoxia, ocean acidification, thermal stress, pollutants, nitrogen stress, UV radiation, and noise. Explore these physiological stressors as drivers of marine ecological processes in a wide array of marine habitats, as well as societal, economic, and management implications.
Prerequisite: BSC 2010 and BSC 2011 or equivalent; courses in animal physiology and ecology are recommended.

FAS 4405 Aquariums, Water and Aquaculture 3 Credits
Grading Scheme: Letter Grade
Culture methods of fish and shellfish, species selection, biological and environmental principles, case histories and future trends.
Prerequisite: BSC 2010 and BSC 2010L, or instructor permission.

FAS 4900 Supervised Extension Experience in Fisheries and Aquatic Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in fisheries and aquatic sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

FAS 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Individual study of a selected topic in fisheries and aquatic sciences as contracted with the instructor at the start of the term.
Prerequisite: instructor permission.

FAS 4911 Supervised Research in Fisheries and Aquatic Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in fisheries and aquatic sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

FAS 4915 Honors Thesis Research in Fisheries and Aquatic Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in fisheries and aquatic sciences leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

FAS 4932 Topics in Fisheries and Aquatic Sciences 1-4 Credits
Grading Scheme: Letter Grade
Selected topics in fisheries biology, aquaculture and associated aquatic sciences not offered in other courses.
Prerequisite: instructor permission.

FAS 4933 Seminar in Fisheries and Aquatic Sciences 1 Credit
Grading Scheme: Letter Grade
Introduces contemporary topics in the field of fisheries and aquatic sciences and develops listening and writing skills.
Prerequisite: Instructor permission.

PEN 1136 Openwater Scuba Diving 2 Credits
Grading Scheme: Letter Grade
Beginning scuba diving including compass navigation, openwater diving environment, dive preparation and five openwater dives. Payment of required additional course fees and successful completion results in national certification as Openwater Scuba Diver.
Prerequisite: swim test.

PEN 2138C Advanced Scuba Diving 3 Credits
Grading Scheme: Letter Grade
Provides advanced SCUBA training. Topics include physics, physiology, decompression, and oceanography/ecology. Pool sessions cover rescue, double cylinders, full facemasks, night/limited visibility techniques, search, recovery, salvage techniques, and underwater task loading. Completion results in NAUI certification in Advanced SCUBA, Enriched Air Nitrox, SCUBA Rescue, First Aid, CPR, and Oxygen Provider.
Prerequisite: PEN 1136 or equivalent.

PEN 2146C Science Diver 2 Credits
Grading Scheme: Letter Grade
Training to achieve completion of the required hours for the Scientific Diver classification through the American Academy of Underwater Scientists (AAUS).

PEN 3135C Scuba Leadership I 1 Credit
Grading Scheme: Letter Grade
This 4-week course provides high-level recreational SCUBA training as well as introductory professional leadership level training in accordance with National Association of Underwater Instructors (NAUI) Divemaster standards. This course is taught consecutively following PEN 3139C and is a prerequisite for PEN 4145C and part of the progression for NAUI professional Instructor certification.
Prerequisite: PEN 2138C or instructor approval.
Corequisite: The 10-week Master Diver is required in order to take the following 4-week Scuba Leadership I. Students can take the 10-week Master Diver without subsequently taking Scuba Leadership I.

PEN 3139C Master Scuba Diver 3 Credits
Grading Scheme: Letter Grade
This 10-week course provides high-level recreational SCUBA training in accordance with National Association of Underwater Instructors (NAUI) Master Diver standards. This course is a prerequisite for PEN 4145C. Successful students can earn NAUI Master Diver credentials.
Prerequisite: PEN 2138C or instructor approval(see qualifications section of syllabus).

PEN 4145C Scuba Leadership II: Research Divemaster 3 Credits
Grading Scheme: Letter Grade
This 15-week advanced course builds upon the professional leadership level training of Scuba Leadership 1 in accordance with National Association of Underwater Instructors (NAUI) Divemaster standards. This includes gear repair and maintenance, planning and leading dives, conducting discover scuba sessions, and assisting with instruction. This course is part of the progression for NAUI professional Instructor certification.
Prerequisite: PEN 3135C and PEN 3139C.

PLS 4613 Aquatic Weed Control 3 Credits
Grading Scheme: Letter Grade
Florida's aquatic weed problems and methods of chemical, biological, mechanical and physical weed control. Topics include plant biology/ecology, herbicide residue, lake reclamation, fish-plant interactions and laws regulating aquatic weed control.
Prerequisite: refer to the department.

Food and Resource Economics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Curriculum

- Agricultural and Natural Resource Ethics and Policy Minor
- Agricultural and Natural Resource Law Minor
- Combination Degrees
- Data Analytics for Applied Economics and Agribusiness Minor
- Food and Resource Economics
- International Development and Humanitarian Assistance Minor

Courses

AEB 2014 Current Economic Issues, Food and You 3 Credits
Grading Scheme: Letter Grade
This course emphasizes the role of agriculture and economics. The hows and whys of their influence on food prices and the world food situation, the environment, natural resources and government policy; and economic issues, including inflation and money.
Prerequisite: not for FRE majors.
Attributes: General Education - Social Science

AEB 2114L Introduction to Agricultural Computer Applications 1 Credit
Grading Scheme: Letter Grade
Introduces spreadsheets with specific emphasis on applications used in agricultural businesses. Specific applications include data entry, formulas and functions, data visualizations, and add-ins for statistics and business decision making.

AEB 2280 World Agricultural Policy 3 Credits
Grading Scheme: Letter Grade
How can agricultural and environmental policy be used to address emerging food security and environmental threats around the world? This class explores those questions and will focus briefly on the historical development, the current situation, and the future outlook of the food and agriculture sector in various economies globally. Next, the course dives more deeply into the economic and trade environment surrounding agricultural policy, and brings insights from agronomy, environmental science, and international studies. As economies become more integrated globally, the success of the food and agriculture sector will rest upon comparative advantage.
Attributes: Quest 2, General Education - Social Science

AEB 2284 How Do We End Poverty? 3 Credits
Grading Scheme: Letter Grade
Invite students to a pressing question - how can we end poverty? Present the current progress, economic growth policies, and global commitment to poverty reduction.
Prerequisite: Any Quest 1 course with a minimum grade of C
Attributes: Quest 2

AEB 2294 Valuing Circular Food Economies 3 Credits
Grading Scheme: Letter Grade
When it comes to decisions about scarce resources, the social science known as agricultural economics provides a foundation for informed policy decisions about natural resources such as water and land use; or decisions regarding produced and manufactured resources such as food and clothing. Agricultural economists use a variety of modeling tools to consider optimal behaviors, including how we can reconsider linear systems of production into circular and regenerative ecosystems, referred to as a circular economy. A Cost-Benefit Analysis (CBA) is one systems-thinking tool we use for evaluating complex projects and simple decisions, to evaluate and model the pros and cons of economic decisions. CBA can be applied across a broad array of disciplines including agronomy, engineering, geography, education, medicine, law, finance, human factors, psychology, and many others. CBA project managers and thinkers in society evaluate expectations about rewards (from a decision or action), and costs (including long-term repercussions), to achieve desired outcomes. This course addresses the pressing question, “How can we create and sustain circular food system benefits and evaluate intended and unintended impacts to society from our decisions, to optimize use and conservation efficiency of scarce resources?” As an economic policy tool, we collect, analyze, and communicate research results, build consensus among diverse groups (when it is natural for conflicts to arise), and work towards formulating equitable solutions. The goal of this course is to develop a data-driven perspective through selected readings and experiential classroom activities; to think about factors relevant to the quest by reflecting on knowledge gained; to communicate findings through concise, focused, and goal-oriented analytical writing assignments; to engage in classroom and online discussions to share diverse considerations; and to create a final CBA portfolio model that allows each student to tell a story of their own policy recommendations to design regenerative, resilient, and sustainable circular-food system elements that create value for current and future generations.
Attributes: Quest 2, General Education - Social Science, Satisfies 2000 Words of Writing Requirement

AEB 2372 The Economics of Eating 3 Credits
Grading Scheme: Letter Grade
We all eat. But why do we eat the way we do? The relationship between consumers with differing preferences and diverse food systems surrounding us has only been complicating, resulting in problems about eating on an international scope. Therefore, the need to better understand the contemporary way of eating, evaluate its economic viability and sustainability, and make informed decisions is pressing. This course is designed to stimulate students from a variety of backgrounds to think creatively and critically about these problems through the lens of economics, supported by cross-disciplinary perspectives, including marketing, nutritional sciences, public health, neuroscience, and agribusiness. This process establishes an understanding of the market forces influencing the decisions of producers and consumers involved in the production, transformation, and distribution of foods in a cross-national context.
Attributes: Quest 2, General Education - Social Science

AEB 2451 Economics of Resource Use 3 Credits
Grading Scheme: Letter Grade
Introduction to how economists value environment and regulations designed to protect our natural resources from overuse and degradation.
Attributes: General Education - Social Science

AEB 2452 Agritourism and Food Systems 3 Credits
Grading Scheme: Letter Grade
This class explores the global disconnect between humans and the food, water, and natural resource systems on which we depend. This class draws on the fields of agribusiness, ecology, tourism, rural sociology, and economics to explore opportunities in agritourism across the world to reconnect humans with our agri-food-eco systems.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - Social Science

AEB 2935 Food and Resource Economics Seminar 2 Credits
Grading Scheme: Letter Grade
Introduces the Department of Food and Resource Economics and career opportunities for its graduates.

AEB 3103 Principles of Food and Resource Economics 4 Credits
Grading Scheme: Letter Grade
Introduces the field of food and resource economics, the principles of economics as applied to agriculture, and the economic problems of the agricultural industry and the individual farmer.
Prerequisite: MAC 2233/MAC 2311 or higher.

AEB 3122 Financial Planning for Agribusiness 3 Credits
Grading Scheme: Letter Grade
Introduces basic financial and managerial decision-making for small agribusinesses.
Prerequisite: MAC 1105 or higher.

AEB 3133 Principles of Agribusiness Management 3 Credits
Grading Scheme: Letter Grade
Introduces agribusiness management principles, application of economic principles, budgeting techniques, and principles of strategy in agribusiness from management in the United States, particularly Florida. Emphasizes the financial and tax management strategies and the requirements imposed on agribusiness management by local, state, and federal government regulatory agencies.
Prerequisite: AEB 2014 or AEB 3103 or ECO 2013 or ECO 2023.

AEB 3144 Introduction to Agricultural Finance 3 Credits
Grading Scheme: Letter Grade
Basic financial statements, investment frameworks and theories of financial intermediation as applied to agricultural firms, along with an overview of financial institutions that provide capital to agriculture.
Prerequisite: AEB 3122 or ACG 2071.

AEB 3281 Agricultural Macroeconomics 3 Credits
Grading Scheme: Letter Grade
Introduces the world economy from a macroeconomic perspective that focuses on the links that arise from international trade and capital flows in the agricultural sector.
Prerequisite: ECO 2013.

AEB 3300 Agricultural and Food Marketing 3 Credits
Grading Scheme: Letter Grade
Examines agricultural and food marketing from a system and individual firm perspective. Explores problems and issues associated with marketing functions and institutions at the industry level and with objectives and strategies of farms and agribusiness firms that market agricultural commodities and food products.
Prerequisite: AEB 3103 or AEB 2014 or ECO 2023 or ECO 2013.

AEB 3315 Futures Markets and Risk Management in Agriculture 3 Credits
Grading Scheme: Letter Grade
Basic elements and principles of agricultural commodity marketing with emphasis on the futures industry. Includes use of futures markets for speculating and risk management for agriculture and finance. Requires participation in a computerized futures trading game.
Prerequisite: AEB 3122 or ACG 2071.

AEB 3341 Selling Strategically 3 Credits
Grading Scheme: Letter Grade
Introduces professional selling techniques for all products with special emphasis given to food and agricultural products, technical systems, and services.
Prerequisite: AEB 2014 or AEB 3103 or ECO 2013 or ECO 2023.

AEB 3450 Introduction to Natural Resource and Environmental Economics 3 Credits
Grading Scheme: Letter Grade
Introduces natural and environmental resource economics. Emphasizes understanding economic concepts such as resource scarcity, market failure, externality, property rights and common property resources and their application to studies of forest, land, water, energy and coastal resources.
Prerequisite: AEB 3103 or ECO 2023. Credit cannot be received for both AEB 3450 and ECP 3302.

AEB 3510 Quantitative Methods in Food and Resource Economics 3 Credits
Grading Scheme: Letter Grade
Develops understanding of finite mathematical tools used in economics and business decision making. Topics include linear equations, matrix algebra and calculus. Lectures and problems show how these tools are used to examine economic, financial and managerial problems.
Prerequisite: (AEB 3103 or ECO 2023) and (MAC 2233 or MAC 2311).

AEB 3550 Agricultural Data Analysis in Food and Resource Economics 3 Credits
Grading Scheme: Letter Grade
Introduces analysis of agricultural data. Incorporates statistical and agricultural economic theory into the analysis of agricultural problems. Knowledge in use of spreadsheets is assumed.
Prerequisite: AEB 3103 and AEB 3510 and STA 2023.

AEB 3671 Comparative World Agriculture 3 Credits
Grading Scheme: Letter Grade
Studies the business and economic situations of the food and agriculture sector around the world. Focuses on the historical development, the current situation, and the future outlook of the food and agriculture sector.
Prerequisite: AEB 2014 or AEB 3103 or ECO 2013 or ECO 2023.
Attributes: General Education - International

AEB 4085 Agricultural Risk Management and the Law 3 Credits
Grading Scheme: Letter Grade
Develops an understanding of the basic concepts of common and statutory law. Identifies and addresses current legal issues of importance at the personal and professional levels. Develops an understanding of risk and the solutions for managing risk and relates the concepts of risk management and law in limiting exposure to legal liability.
Prerequisite: Junior or Senior standing.

AEB 4123 Agricultural and Natural Resource Law 3 Credits
Grading Scheme: Letter Grade
Legal aspects of agricultural rights, responsibilities, and problems. Topics include agricultural estate and income taxation, zoning, and land use planning, Capper-Volstead Act, international agricultural agreements, agricultural labor, and consumer protection.
Prerequisite: Junior or Senior standing.

AEB 4126 Agricultural and Natural Resource Ethics 3 Credits
Grading Scheme: Letter Grade
Examines the political, economic, environmental and ethical value issues involved in agricultural practices and policies, including agricultural research.
Prerequisite: Junior standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

AEB 4138 Advanced Agribusiness Management 3 Credits
Grading Scheme: Letter Grade
Integration of finance and management to solve problems faced by agricultural firms and agribusinesses. In addition to lectures, students will work in small groups to identify and to analyze case studies from agricultural and rural businesses.
Prerequisite: AEB 3103 and AEB 3144 and agribusiness major.

AEB 4242 International Trade Policy in Agriculture 3 Credits
Grading Scheme: Letter Grade
Explores the role of international trade policy in agriculture and examines the effects of trade policies on domestic and international prices, consumption, production, trade and government revenues. Addresses impact of current trade issues on the agricultural sector.
Prerequisite: AEB 3103 or ECO 2023.

AEB 4282 International Humanitarian Assistance 3 Credits
Grading Scheme: Letter Grade
Emergency assistance to developing countries to minimize losses and affect recovery. Includes legal/ethical bases; program designs promoting recovery, rather than dependence; cultural issues, including gender; and technical aspects.
Prerequisite: AEB 2014 or AEB 3103 or ECO 2013 or ECO 2023.
Attributes: General Education - International

AEB 4283 International Development Policy 3 Credits
Grading Scheme: Letter Grade
Studies how factors such as poverty, population, technology, resources, trade, and the environment affect the human effort to develop. Discusses the roles of the public and private sectors as well as the process of policy formulation and implementation. Emphasizes the agricultural sector and its role in the process of economic development, especially in countries where problems of hunger, demographic pressure, and poverty are pervasive.
Prerequisite: AEB 3103 or AEB 2014 or ECO 2013 or ECO 2023.

AEB 4309 Food Wholesaling and Retail Marketing 3 Credits
Grading Scheme: Letter Grade
Food industry trends, issues, and opportunities that exist in the US and the world. Guest lecturers and recent trade publications provide a command of wholesaling and retail food management.
Prerequisite: AEB 3300.

AEB 4325 Contemporary Issues in Agribusiness Management 3 Credits
Grading Scheme: Letter Grade
A capstone course utilizing economic concepts to address the interaction between the political process that legislates domestic agricultural, environmental and international trade policy, micro and macro economic principles, private business decisions taken by firms in response to public policies, and ethical considerations in developing and implementing public policy.
Corequisite: AEB 4138 or AEB 4342.

AEB 4334 Agricultural Price Analysis and Consumer Behavior 3 Credits
Grading Scheme: Letter Grade
Quantitative measurement of factors affecting agricultural and resource prices; seasonal and cyclical fluctuations; index measures of price and quantity variables; theory and application of consumer behavior principles.
Prerequisite: AEB 3103 and AEB 3550.

AEB 4342 Agribusiness and Food Marketing Management 3 Credits
Grading Scheme: Letter Grade
Application of marketing and management principles to agribusiness and food marketing problems faced by managers. Emphasis on case problems, group projects, oral presentations and written assignments.
Prerequisite: AEB 3133 and FRE major in the agribusiness specialization.

AEB 4343 International Agribusiness Marketing 3 Credits
Grading Scheme: Letter Grade
Problems, issues, regulations, policies and procedures unique to the global agribusiness marketing of perishable and storable agricultural commodities and food products. Combines firm-level agribusiness marketing concepts with international agribusiness marketing and export management applications.
Prerequisite: AEB 3300.

AEB 4374 Advanced Agricultural Microeconomics 3 Credits
Grading Scheme: Letter Grade
Rigorous training in the fundamental mathematical models underlying the basic microeconomics principles; an in-depth analysis of key microeconomics concepts including consumer and producer theory, risk and uncertainty game theory, and asymmetric information. Uses mathematical and graphical methods to help illustrate the different concepts.
Prerequisite: AEB 3550.

AEB 4380 Agricultural Marketing Strategies 3 Credits
Grading Scheme: Letter Grade
The decision-making activities necessary to launch a new agricultural product successfully. The marketing plan development for this course follows the guidelines of the National Agri-Marketing Association Marketing Competition.
Prerequisite: instructor permission.

AEB 4424 Human Resources Management in Agribusiness 3 Credits
Grading Scheme: Letter Grade
Issues involved in the strategic and effective management of human resources in agribusiness. Human resource management concepts and techniques designed to improve agribusiness organizational teamwork, productivity, performance, and enterprise success. Explores the unique aspects of labor management and includes application through use of case problems, triad, and video techniques.
Prerequisite: Junior or Senior standing.

AEB 4673 International Agricultural Trade 3 Credits
Grading Scheme: Letter Grade
Examines the economic forces associated with trade in food and agricultural products between the US and other countries. Applies economics principles and analytical techniques to international agricultural trade and multi-national markets.
Prerequisite: AEB 3103 and AEB 3510.

AEB 4900 Supervised Extension Experience in Food and Resource Economics 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under faculty member supervision. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

AEB 4905 Special Problems in Food and Resource Economics 1-3 Credits
Grading Scheme: Letter Grade
Individual study in selected problem areas of interest to the student and agreeable to the instructor.
Prerequisite: instructor permission.

AEB 4911 Supervised Research in Food and Resource Economics 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in food and resource economics under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

AEB 4915 Honors Thesis Research in Food and Resource Economics 0-3 Credits
Grading Scheme: S/U
Independent research in food and resource economics leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

AEB 4931 Special Topics in Food and Resource Economics 1-3 Credits
Grading Scheme: Letter Grade
Lectures, conferences or laboratory covering specially selected topics in food and resource economics.
Prerequisite: instructor permission.

AEB 4941 Full-Time Practical Work Experience in Food and Resource Economics 1-3 Credits
Grading Scheme: S/U
Practical work must be a new experience and related to the field of study.
Prerequisite: previous arrangement with advisor and undergraduate coordinator and dean permissions.

AEB 4951 Survey of Agricultural Economics 1 Credit
Grading Scheme: Letter Grade
Trains students to think on their feet with respect to topics in the agricultural economics discipline. While individual courses tend to focus on a particular set of skills, this course enhances the student's ability to access the range of skills they acquired in past courses.
Prerequisite: instructor permission.

ALS 4932 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural topics not offered in other courses.
Prerequisite: Instructor permission.

Food Science and Human Nutrition

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Food Science and Human Nutrition Department (FSHN) is one of the world's largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within one department. The department's programs are accredited by the Institute of Food Technologists (IFT) (http://www.ift.org/) and the Academy of Nutrition and Dietetics (http://www.eatright.org/). After completing undergraduate degrees, FSHN students typically move on to employment in the food industry, healthcare settings, graduate, or professional programs.

Curriculum

- Dietetics
- Food Science
- Food Science Minor
- Nutritional Sciences
- Nutritional Sciences Minor

Courses

BCH 3025 Fundamentals of Biochemistry 4 Credits
Grading Scheme: Letter Grade
Introducing biochemistry with emphasis on intermediary metabolism.
Prerequisite: CHM 2200 and CHM 2200L (or preferably CHM 2210, CHM 2211 and CHM 2211L) with minimum grades of C.

DIE 3310 Community Nutrition 2 Credits
Grading Scheme: Letter Grade
Role of nutrition in promoting, maintaining and improving health in the community. Investigation of traditional aspects of the emerging health delivery systems, as well as entrepreneurial ventures in wellness. Study the financial, legislative, political, sociological, and scientific aspects of public and community health.
Prerequisite: (HUN 2201 and Dietetics major) or instructor permission.

DIE 4125 Food Systems Management 3 Credits
Grading Scheme: Letter Grade
The management of human resources, food, equipment and facilities to provide a quality product and service to customers in a food service operation.
Prerequisite: FOS 3042.

DIE 4125L Food Systems Management Laboratory 2 Credits
Grading Scheme: Letter Grade
The application of principles of food systems management, including purchasing, production, service, sanitation and safety.
Prerequisite: DIE majors only;
Corequisite: DIE 4125.

DIE 4245 Medical Nutrition Therapy Applications: Part 1 3 Credits
Grading Scheme: Letter Grade
Part one of a 2-semester sequence focusing on application of the nutrition care planning process. Includes development of nutrition assessment skills and formulation of nutrition care plans for simulated patients, including those requiring enternal and parenteral nutrition.
Prerequisite: HUN 2201 and Dietetics major.
Corequisite: HUN 4445 and (APK 2105C or PCB 4723C) and (BCH 3025 or BCH 4024).

DIE 4246 Medical Nutrition Therapy Applications: Part 2 3 Credits
Grading Scheme: Letter Grade
Part two of a 2-semester sequence that focuses on attainment of knowledge to make nutrition diagnoses, to develop and implement effective nutrition intervention strategies and to identify appropriate monitoring and evaluation plans for patients with common chronic diseases and disorders.
Prerequisite: HUN 4445 and DIE 4245 and (APK 2105C or PCB 4723C).
Corequisite: HUN 4446.

DIE 4436 Nutrition Counseling and Communication 2 Credits
Grading Scheme: Letter Grade
Application of principles of group dynamics and group and interpersonal counseling skills in dietetics practice settings. Provides hands-on experiences in counseling and in oral and written communication.
Prerequisite: HUN 2201 and HUN 3403 and Dietetic major.

DIE 4505 Dietetics Seminar 1 Credit
Grading Scheme: Letter Grade
Capstone course for dietetic majors; focuses on professional issues, including ethics, legislative issues, advocating and marketing the profession.
Prerequisite: Agricultural and Life Sciences senior and Dietetic major.

DIE 4543 Supervised Extension Experience in Dietetics 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in dietetics under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

DIE 4905 Problems in Dietetics 1-5 Credits
Grading Scheme: Letter Grade
Individual research work in various phases of dietetics.
Prerequisite: Instructor permission.

DIE 4911 Supervised Research in Dietetics 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in dietetics under faculty member supervision. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

DIE 4915 Honors Thesis Research in Dietetics 0-3 Credits
Grading Scheme: S/U
Independent research in dietetics leading to an honors thesis. Student is mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

DIE 4934 Topics in Dietetics 1-3 Credits
Grading Scheme: Letter Grade
Lectures, conference, laboratory, or clinical experience covering selected topics in dietetics.
Prerequisite: Instructor permission.

DIE 4940 Undergraduate Supervised Teaching 0-3 Credits
Grading Scheme: S/U
This course provides supervision, instruction, and facilitation for undergraduate students wishing to obtain teaching experience in Food Science and Human Nutrition under the supervision of a faculty mentor.
Prerequisite: Junior or Senior Standing.

FOS 2001 Man's Food 3 Credits
Grading Scheme: Letter Grade
For science and non-science students. Discussion of current nutrition and food science topics concerning nutritional quality and safety of foods as they relate to one's health. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

FOS 2040 Introductory Food Science 3 Credits
Grading Scheme: Letter Grade
Commodities selected for human consumption and methods used by food technologists to prolong shelf life, retard spoilage and ensure quality. Principles upon which various processing methodologies are based. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

FOS 3060 Life After Graduation 1 Credit
Grading Scheme: S/U
Overview of available opportunities for Food Science students after graduation, and tips and advice on how to be successful after graduation. Intended for all Food Science majors, especially those preparing to graduate within the academic year.
Prerequisite: junior or senior standing.

FOS 4064 Principles of Food Entrepreneurship 3 Credits
Grading Scheme: Letter Grade
Overview of the food business. Covers the fundamental aspects of food entrepreneurship, including basic food science, food regulation, food safety, product development, business planning, and marketing. Learn how various disciplines of food science are incorporated into entrepreneurship through lectures, hands-on activities, and presentations.
Prerequisite: Junior or Senior Standing.

FOS 4202 Food Safety and Sanitation 2 Credits
Grading Scheme: Letter Grade
Lectures, discussions, demonstrations and field trips concerning microbial, chemical and biological safety of food, principles of sanitation for the food processing, food service and retail food industries.
Prerequisite: MCB 2000 and MCB 2000L, or the equivalent.

FOS 4222 Food Microbiology 3-4 Credits
Grading Scheme: Letter Grade
Sources and types of biological contamination and its control during harvesting, processing and storage of foods; food fermentation; biotechnology sanitation; HACCP methods used to examine foods for microbial content.
Prerequisite: MCB 2000 or MCB 2010 or MCB 2013 or MCB 3020 or MCB 3023.

FOS 4222L Food Microbiology Laboratory 2 Credits
Grading Scheme: Letter Grade
Methods to enumerate microorganisms in foods.
Prerequisite: MCB 2000L or MCB 3020L; concurrent or previous registration in FOS 4222.

FOS 4223 Food and Environmental Virology 2 Credits
Grading Scheme: Letter Grade
An emerging topic in the field of microbial food safety, food virology explores the role of viruses as human pathogens; their interactions with bacteria; transmission to food, water, and contact surfaces; detection; and prevention strategies. Through this course, students can develop a competency framework within their discipline.
Prerequisite: MCB 2000/MCB 2000L or MCB 3020/MCB 3020L or FOS4222.

FOS 4290 Principles of Food Safety Systems 2 Credits
Grading Scheme: Letter Grade
This course is designed to cover 1) current issues in food supply chain including security and safety in domestic and international food industry, 2) various food safety control systems, 3) principles of HACCP and FSMA Preventive controls. The course also provides hands-on practice in developing a food safety plan.
Prerequisite: FOS 3042.

FOS 4310L Experimental Foods Laboratory 1 Credit
Grading Scheme: Letter Grade
Demonstrations and illustrations of the chemical and physical properties of foods. Shows the effects of processing, ingredients and storage on food quality and nutrient retention.
Corequisite: FOS 4311.

FOS 4311 Food Chemistry 3 Credits
Grading Scheme: Letter Grade
Relationship of composition to the properties of foods and the changes which occur during processing, storage and utilization.
Prerequisite: CHM 2200 or (CHM 2210 and CHM 2211).
Corequisite: FOS 4310L or FOS 4311L; biochemistry recommended but not required.

FOS 4311L Food Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory covering the relationship of composition to the properties of foods and the changes which occur during processing, storage and utilization.
Prerequisite: CHM 2200L or CHM 2211L;
Corequisite: FOS 4311.

FOS 4318 Flavor Chemistry 3 Credits
Grading Scheme: Letter Grade
Learn how flavor chemicals impact sensory perception of food; discuss flavor compounds used in foods, their production, isolation, analysis, and specific attributes.
Prerequisite: (CHM 2045 and CHM 2046) and CHM 2200 or (CHM 2210 and CHM 2211), all with grades of C.

FOS 4321C Food Analysis 4 Credits
Grading Scheme: Letter Grade
Principles and practice of physical and chemical methods for analyzing foods.
Prerequisite: (CHM 2200 and CHM 2200L) or (CHM 2210 and CHM 2211 and CHM 2211L).

FOS 4410C Introduction to Unit Operations in Food Processing 4 Credits
Grading Scheme: Letter Grade
Introduces the fundamentals of food processing for non-engineering students. Applies primary concepts in context of the field of food science, including Engineering Units, Food Properties, Microbial Death, Conduction, Phase Changes, Convection, Heat Exchangers, Steady-State-Heat-Transfer, Extrusion, Unsteady-State-Heat-Transfer, and Radiation.
Prerequisite: MAC 2311 and PHY 2053.

FOS 4427C Principles of Food Processing 4 Credits
Grading Scheme: Letter Grade
Principles of processing foods: cooling, freezing, heating, dehydrating, concentrating, irradiating, fermenting and the use of chemicals.
Prerequisite: FOS 4410C.
Attributes: Artificial Intelligence

FOS 4435C Food Product Development 3 Credits
Grading Scheme: Letter Grade
Capstone course integrating food science and related disciplines to value-added food products using traditional and novel commodity, ingredient and process combinations. Class projects emphasize technology, safety, health/nutrition, legal, quality and economic/ marketing considerations.
Prerequisite: 4AG - FOS majors only.

FOS 4522C Seafood Technology 3 Credits
Grading Scheme: Letter Grade
Processing principles and methods of preparation of various seafood products and control of product quality.
Prerequisite: CHM 2045.

FOS 4722C Quality Control in Food Systems 3 Credits
Grading Scheme: Letter Grade
Measurement and control of the major quality parameters of foods, including sensory, color and texture.
Prerequisite: STA 2023.

FOS 4731 Government Regulations and the Food Industry 2 Credits
Grading Scheme: Letter Grade
Government laws regulating food wholesomeness; food handling, processing and distribution under sanitary conditions; food ingredients and labeling of food products.
Prerequisite: FOS 3042 or Food Science major or instructor permission.

FOS 4905 Special Problems in Food Science 1-5 Credits
Grading Scheme: Letter Grade
Individual research work in various phases of food science.
Prerequisite: Instructor permission.

FOS 4906 Supervised Extension Experience in Food Science 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

FOS 4911 Supervised Research in Food Science 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in food science under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

FOS 4915 Honors Thesis Research in Food Science 0-3 Credits
Grading Scheme: S/U
Independent research in food science leading to an honors thesis. Student is mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

FOS 4936 Topics in Food Science 1-3 Credits
Grading Scheme: Letter Grade
Lectures, conferences, or laboratory covering specially selected topics in food science.
Prerequisite: Instructor permission.

FOS 4941 Full-Time Practical Work Experience in Food Science 1-3 Credits
Grading Scheme: S/U
One-term employment in industry, including extra work according to a pre-approved outline. Practical work under industrial supervision as set forth in College of Agricultural and Life Sciences regulations.
Prerequisite: previous arrangement with advisor and department permission; FSHN majors only.

FOS 4945 Undergraduate Supervised Teaching 0-3 Credits
Grading Scheme: S/U
Under the supervision of a faculty mentor, provides supervision, instruction, and facilitation for obtaining teaching experience in Food Science and Human Nutrition.
Prerequisite: Junior standing or higher and completion of the course for which the student will be assisting.

HUN 2192 Feeding the Planet 3 Credits
Grading Scheme: Letter Grade
This Quest 2 course explores the challenges of eating well around the globe considering environmental and economic factors, as well as access to and availability of nutritious food.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - Social Science

HUN 2201 Fundamentals of Human Nutrition 3 Credits
Grading Scheme: Letter Grade
Properties, functions, requirements, interrelationships and metabolism of nutrients. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: BSC 2007 or BSC 2005 or BSC 2010 or CHM 1025 or CHM 2045 or APK 2100C or APK 2105C or CHM 1030.
Attributes: General Education - Biological Science

HUN 3403 Nutrition through the Life Cycle 2 Credits
Grading Scheme: Letter Grade
Nutritional needs and concerns throughout stages of the life cycle including pregnancy and lactation, infancy, adolescence, adulthood, and aging; socioeconomic, cultural and psychological influences on food and nutrition behavior.
Prerequisite: HUN 2201.

HUN 4221 Nutrition and Metabolism 3 Credits
Grading Scheme: Letter Grade
Metabolic relationships of nutrients with emphasis upon their functions in biochemical and physiological processes as well as variations in requirements in response to stress. Meets requirements of the American Dietetic Association.
Prerequisite: (BCH 3025 or BCH 4024) and (PCB 4723C or APK 2105C) and (HUN 3403 and HUN 4445).

HUN 4445 Nutrition and Disease: Part 1 3 Credits
Grading Scheme: Letter Grade
Part one of a two-semester sequence that focuses on the biochemical and pathophysiological bases of disease/conditions that require specialized nutrition support/medical nutrition therapy.
Prerequisite: HUN 2201 & (CHM2211 or CHM2200);
Corequisite: APK 2105C or PCB 4723C, BCH 3025 or BCH 4024.

HUN 4446 Nutrition and Disease: Part 2 3 Credits
Grading Scheme: Letter Grade
Part two of the sequence that focuses on the biochemical and pathophysiological bases of disease/conditions that require specialized nutrition support/medical nutrition therapy.
Prerequisite: HUN 4445 and (BCH 3025 or BCH 4024) and (PCB 4723C or APK 2105C).
Corequisite: DIE 4246.
Attributes: Artificial Intelligence

HUN 4813C Laboratory Techniques in Molecular Nutrition 3 Credits
Grading Scheme: Letter Grade
Laboratory techniques relevant to the study of nutrition, ranging from biochemistry, molecular biology, genomics and bioinformatics.
Prerequisite: CHM 2211 and CHM 2211L;
Corequisite: BCH 3025 or BCH 4024.
Attributes: Artificial Intelligence

HUN 4903 Supervised Extension Experience in Nutritional Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

HUN 4905 Special Problems in Human Nutrition 1-5 Credits
Grading Scheme: Letter Grade
Individual research work in various phases of human nutrition.
Prerequisite: Instructor permission.

HUN 4911 Supervised Research in Nutritional Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in nutritional sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

HUN 4915 Honors Thesis Research in Nutritional Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in nutritional sciences leading to an honors thesis. Student is mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

HUN 4936 Topics in Human Nutrition 1-3 Credits
Grading Scheme: Letter Grade
Lectures or laboratory covering selected topics in human nutrition.
Prerequisite: instructor permission.

HUN 4940 Undergraduate Supervised Teaching 0-3 Credits
Grading Scheme: S/U
Under the supervision of a faculty mentor, provides supervision, instruction, and facilitation for obtaining teaching experience in Food Science and Human Nutrition.
Prerequisite: Junior standing or higher and completion of the course for which the student will be assisting.

HUN 4941 Full Time Practical Work Experience in Human Nutrition 1-3 Credits
Grading Scheme: S/U
One-term employment in industry or the health field according to a pre-approved outline. Practical work under supervision as set forth in College of Agricultural and Life Sciences regulations.
Prerequisite: previous arrangement with advisor and department permission; FSHN majors only.

Forest, Fisheries, and Geomatics Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Curriculum

- Combination Degrees
- Fire Ecology and Management Certificate
- Fisheries and Aquatic Sciences Minor
- Forest Health Management Certificate
- Forest Resources and Conservation
- Forest Resources and Conservation Minor
- Geomatics
- Geomatics Certificate
- Mapping with Small Unmanned Aerial Systems Certificate
- Natural Resource Conservation

Courses

FAS 4175 Algae Biology and Ecology 3 Credits
Grading Scheme: Letter Grade
The biology and ecology of aquatic algae, including evolution, classification, structure, photosynthesis, growth, and reproduction. Emphasis on the ecological role of algae in different aquatic ecosystems (e.g. open ocean, estuaries, coral reefs, rocky intertidal), their impacts (e.g. harmful algae blooms, food webs), and their applications (e.g. food, biochemical).
Prerequisite: BSC 2010 and BSC 2010L, or equivalent.

FNR 2071 Forests for the Environment 3 Credits
Grading Scheme: Letter Grade
Examine society's interaction with forests, focusing on issues and how they affect how individuals, communities, and institutions make decisions. Issues will be reviewed in terms of human behavior, policy options, and media messages.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

FNR 2610 Can Big Data Save the Earth? 3 Credits
Grading Scheme: Letter Grade
There is more pressure than ever before on our environmental resources: sometimes we find solutions, but sometimes we also generate unintended consequences. At the same time, technological advances are generating ever more amounts of data - also environmental data. Remote sensing, satellite technology, sensor technology, telemetry and data storage ensure that we have biological data over various time and space scales. The challenge arises how we use this data to do good; increase our understanding, find solutions, and avoid unintended consequences. This course addresses the question: can big data save the earth? We will explore complexity in biological and socio-ecological systems, the nature of causality, models and their relation to sustainability and natural resources management. We will connect data science and its tools to biology and ecosystems through project-based enquiry, by exploring and using real-life data sets, asking big questions and answering them. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - Biological Science

FNR 3002C Foundations of Natural Resources and Conservation 1 Credit
Grading Scheme: Letter Grade
Overview of current and historical views of forest conservation, utilization and policy; principles of forest biology, ecology, Silviculture and management relevant to future courses and careers; basic field research, communications and computer skills.
Prerequisite: 3FY or instructor permission.

FNR 3003C Silviculture 4 Credits
Grading Scheme: Letter Grade
Principles governing establishment, treatment and control of forest stands; natural and artificial regeneration systems; intermediate cuttings and cultural operations.
Prerequisite: FNR 3500C.

FNR 3004 Forests, Conservation, and People 3 Credits
Grading Scheme: Letter Grade
General background for non-FRC students interested in management, use and conservation of forest resources. Topics include resource description, historical perspectives, current issues, forest biology, and management principles.
Prerequisite: Junior standing or higher.

FNR 3020 Professional Practice in Natural Resources 1 Credit
Grading Scheme: Letter Grade
Prepare for professional success by emphasizing careers involving fieldwork. Addresses securing the student’s first position (resume, interviewing, etc.), professional ethics and practice (ethical frameworks, work-life balance, etc.), and avenues for advancement (references, professional organizations, etc.). Intended for Forest Resources and Conservation, Natural Resource Conservation and related majors.
Prerequisite: junior College of Agricultural and Life Sciences student with a major of Forest Resources and Conservation or Natural Resource Conservation.

FNR 3131C Dendrology/Forest Plants 3 Credits
Grading Scheme: Letter Grade
Provides a basic understanding of the classification, nomenclature, morphology, ecological relationships, associations and uses of the major forest tree and shrub species of North America.
Prerequisite: refer to the department.

FNR 3133C Tree Biology 3 Credits
Grading Scheme: Letter Grade
Studies tree structure and function with relationships to forest environments and forestry practices.
Prerequisite: BOT 2010C or BSC 2011.

FNR 3400C Forest Resources Information Systems 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts, principles, and applications of geographic information systems, remote sensing and global positioning systems that emphasize applications in forest resource management.
Prerequisite: MAC 1105 or MAC 1140.

FNR 3410C Natural Resource Sampling 3 Credits
Grading Scheme: Letter Grade
Basic concepts of sampling. Design of cost-effective sample surveys. Sampling methodology applicable to natural resources: simple random, stratified, systematic, multi-phase and multi-stage. Cluster sampling, ratio, regression and difference estimation. Line transects. Computer simulation of sampling methods. Introduces remote sensing, geographic information and global positioning systems.
Prerequisite: STA 2023.

FNR 3411 Forest Mensuration 3 Credits
Grading Scheme: Letter Grade
Forest resource measurements, log and tree content estimation, forest inventory techniques, and stand growth and yield.
Prerequisite: FNR 3410C or the equivalent.

FNR 3500C Forest Ecology 3 Credits
Grading Scheme: Letter Grade
Ecological principles and their application to the management of forests; major sections include tree population, forest community dynamics, and ecosystem processes.
Prerequisite: BSC 2010 or BSC 2010L.

FNR 3602 Society and Natural Resources 3 Credits
Grading Scheme: Letter Grade
Local-to-global and individual-to-institutional perspectives on natural resource values, sustainability, diversity, and social change with consideration of potential paths for working with complex human and natural resource systems.
Prerequisite: Junior standing or higher.

FNR 3622 Fire Ecology and Management 2 Credits
Grading Scheme: Letter Grade
Detailed study of the role, occurrence and function of wildland fires in natural ecosystems and the use of prescribed burning to simulate those functions. Key topics include factors that influence natural fires, effects of fires on the environment, management and control of wildfires, and the use of prescribed burning. Students will plan and conduct several prescribed burns.
Prerequisite: FNR 3500C or PCB 3034C or PCB 4043C, or the equivalent.

FNR 3622L Fire Ecology and Management Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory to assess, design and participate in the application of prescribed fire in forest ecosystem research and management.
Corequisite: FNR 3622 encouraged strongly.

FNR 4010 Ecology and Restoration of Longleaf Pine Ecosystems 3 Credits
Grading Scheme: Letter Grade
History, structure, importance, ecology, restoration and management techniques, ownership patterns and policy implications.
Prerequisite: FNR 3500C or PCB 3034C or PCB 4043C, or the equivalent.

FNR 4070C Environmental Education Program Development 3 Credits
Grading Scheme: Letter Grade
Applies a comprehensive approach to program development, from needs assessment to evaluation, to non-formal environmental opportunities. Analyzes existing and developing programs and emphasizes the role of participation and indicators in meeting environmental objectives. Requires field trips.
Prerequisite: junior standing or higher.

FNR 4080 Sustainable Ecotourism Development 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary and applicable study of the tools and techniques managers and planners use to provide sustainable ecotourism opportunities in Florida and worldwide. Topics include integrating ecotourism with other resource uses, landscape level ecotourism planning, sustainable community development, minimizing and monitoring ecotourism impacts, and creating a diversity of ecotourism opportunities.
Prerequisite: Senior standing.

FNR 4304C Urban Forestry 3 Credits
Grading Scheme: Letter Grade
Introduces the nature, scope, and components of the urban forest, including biology, culture, protection, and aspects of management, planning, and policy.
Prerequisite: FNR 3131C or equivalent and FNR 3500C or equivalent.

FNR 4343C Forest Water Resources 3 Credits
Grading Scheme: Letter Grade
Watershed hydrology, balances and models. Water quality parameters, processes and loading. Ecosystem and watershed functions. Watershed resources management.
Prerequisite: SWS 3022 and SWS 3022L, or the equivalent.

FNR 4503L Advanced Fire Ecology and Management 1 Credit
Grading Scheme: Letter Grade
Laboratory to assess, design, and participate in prescribed fires in forest ecosystem research and management. Students who already have their S130/190: Firefighter Type 2 training will apply principles, concepts, and issues related to wildland fire and integrate this information into the context of natural resource management, protection, and stewardship. Students will plan and conduct several prescribed burns.

FNR 4510 Global Forests 3 Credits
Grading Scheme: Letter Grade
Overview of important international issues and developments related to forest resource use and tree management systems in a wide variety of contexts.
Prerequisite: 4FY or higher.

FNR 4620C Forest Health Management 3 Credits
Grading Scheme: Letter Grade
Integrated, tree- and forest-oriented study of forest health emphasizing the ecological and economic roles of the biotic agents and abiotic factors that incite dysfunction and the biological and ecological basis for the maintenance of forest health through integrated management of these agents and the forest.
Prerequisite: 4 FY or higher.

FNR 4621 Forest Economics and Management 3 Credits
Grading Scheme: Letter Grade
Principles of forest management for timber, non-timber and timberland valuation: decision analysis, management plans, forest regulation and harvest scheduling.
Prerequisite: FNR 3003C and ECO 2023, or the equivalents.

FNR 4623C Integrated Natural Resource Management 3 Credits
Grading Scheme: Letter Grade
Integrative approach to the study of forest resource management for the production of multiple products, such as timber, recreation, wildlife, rangeland, utilizing the case study approach.
Prerequisite: FOR 3162C

FNR 4624C Field Operations for Management of Ecosystems 3 Credits
Grading Scheme: Letter Grade
Covers the common operations utilized by natural resource managers to manipulate ecosystems to reach a goal (commodity production, ecological enhancement, aesthetics, recreational opportunities, etc.). Addresses the use of heavy machinery, herbicides and prescribed fire; and the regulations, contracting markets and safety concerns governing each.
Prerequisite: FOR 3153C and FNR 3410C or WIS 4954C or FOR 3162C.

FNR 4660 Natural Resource Policy and Economics 3 Credits
Grading Scheme: Letter Grade
Factors in evolution of forest, range, and wildlife natural resources administration and policies in the United States; policy components; policy formation implementation, change processes; and economic criteria for evaluating the effectiveness of policies.
Prerequisite: Junior standing or higher.

FNR 4900 Supervised Extension Experience in Forest Resources and Conservation 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

FNR 4905 Individual Study in Natural Resources 1-4 Credits
Grading Scheme: Letter Grade
Individual study of a selected topic related to forest resources and conservation as contracted with the instructor at the start of the term.
Prerequisite: Instructor permission.

FNR 4911 Supervised Research in Forest Resources and Conservation 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in forest resources and conservation under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

FNR 4915 Honors Thesis Research 0-3 Credits
Grading Scheme: S/U
Prerequisite: Instructor permission.

FNR 4934 Topics in Natural Resources 1-4 Credits
Grading Scheme: Letter Grade
Topics in forestry, wood science, range, recreation, wildlife, and fisheries. Topics include special issues and in-depth study of topics not in other courses.
Prerequisite: Instructor permission.

FNR 4941 Internship in Natural Resources 1-4 Credits
Grading Scheme: S/U
Supervision by a faculty member and a post-internship report are required.
Prerequisite: Undergraduate coordinator permission.

FNR 4950L Natural Resource Conservation Capstone 3 Credits
Grading Scheme: S/U
Provides students in the Natural Resource Conservation (NRC) major with an opportunity to plan and carry out a capstone experience which integrates the knowledge and expertise that they have gained through their undergraduate curriculum.
Prerequisite: Senior Standing and Natural Resource Conservation Major.

SWS 2003 Water for the Future 3 Credits
Grading Scheme: Letter Grade
This course focuses on the pressing question of how to best manage freshwater resources to meet the growing needs of society while maintaining healthy freshwater ecosystems. Successfully addressing water sustainability issues requires fundamental scientific approaches (e.G., from biology, geology, and chemistry) as well as approaches from other disciplines (e.G., environmental policy, economics, and engineering). We will draw from these approaches to inform students' understanding of water sustainability, approaches to managing water resources, and their ecological and economic consequences. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.

French | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

Courses

FRE 1130 Beginning French 1 5 Credits
Grading Scheme: Letter Grade
Beginning French 1 and Beginning French 2 constitute the basic sequence in French for the development of overall skill in the language. Open to those with little or no background in French.

FRE 1131 Beginning French 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence in French for the development of overall skill in the language. Open to those with little or no background in French.
Prerequisite: FRE 1130 or FRE 1180 with minimum grade of C, or S, or the equivalent as proven by placement test score.

FRE 1134 Accelerated French Review 5 Credits
Grading Scheme: Letter Grade
Provides a rapid review of basic communicative French as preparation for intermediate French. For those with previous French study but insufficient placement scores to move to the 2000 level.
Prerequisite: Two years of high school French or equivalent.

FRE 1180 Elementary French: Review and Progress 3 Credits
Grading Scheme: Letter Grade
For those who have previous experience in French but who are not yet prepared for advanced elementary work in the language. FRE 1180 confirms overall language skill in preparation for FRE 1131.

FRE 2220 Intermediate French 1 4 Credits
Grading Scheme: Letter Grade
Devoted to grammar review and composition as well as to the advancement of spoken proficiency, FRE 2220 and its sequel, FRE 2221, develop reading and writing skills in French.
Prerequisite: FRE 1131 or FRE 1134 or FRE 1182.

FRE 2221 Intermediate French 2 4 Credits
Grading Scheme: Letter Grade
Continued grammar review. Emphasizes practice in reading and developing vocabulary. Selected readings in French and Francophone fiction.
Prerequisite: FRE 2220.

FRE 2274 Intensive French Abroad 6 Credits
Grading Scheme: Letter Grade
An immersion language course integrating the experience, observations and impressions of students living abroad with a French family (site announced annually). Emphasis on development of language proficiency and cultural awareness. Class meets 12 hours a week. Enhances speaking, reading, writing proficiency and the ability to communicate with native speakers.
Prerequisite: FRE 1131 with minimum grade of C, or S, or the equivalent as proven by placement test score.

FRE 3070 Accelerated Introduction to French 5 Credits
Grading Scheme: Letter Grade
Accelerated introduction to French. Assumes no previous knowledge of French. Offers a four-skill introduction to the language for those who have completed intermediate level study in another Romance language.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

FRE 3224 Applied French 1-5 Credits
Grading Scheme: Letter Grade
French-language reading and discussion section designed to accompany and complement areas of diverse content offered in other departments. Readings and discussions are in French to develop specific vocabulary and fluency related to the content of the companion course, as well as to provide an international perspective on the issues of the main course.
Prerequisite: FRE 2242 or instructor permission; 3 credits can count toward the major or minor.

FRE 3300 Grammar and Composition 3 Credits
Grading Scheme: Letter Grade
Systematic examination of French grammar. Practice of writing at several levels (summary of texts, descriptions, compositions). Textual analysis of literary and journalistic materials. First course of major sequence.
Prerequisite: FRE 2221 or equivalent, or AP score of 5, or IB score of 6 and above, or WebCAPE test.

FRE 3320 Composition and Stylistics 3 Credits
Grading Scheme: Letter Grade
Develops advanced writing skills through the stylistic study of literary and journalistic texts. Writing assignments focus on development of a variety of skills, including summaries, literary analyses, argumentative essays, etc. Aspects of French grammar are highlighted along with analytical terms and key vocabulary from texts.
Prerequisite: FRE 3300 or the equivalent.

FRE 3410 French Conversation and Interaction 3 Credits
Grading Scheme: Letter Grade
Develops and refines oral and comprehension skills relating to different domains. New vocabulary ranging from the colloquial to the most refined of discourses enables students to recognize and use words and expressions in the proper context; material enables students to move from discussions about themselves to situations they are likely to encounter in daily life abroad, through interviewing techniques and professional interaction.
Prerequisite: FRE 2221.

FRE 3440 Commercial French 3 Credits
Grading Scheme: Letter Grade
Introduction to business practices in France with particular emphasis on active use of business vocabulary and salient cultural differences. Primary topics include written business communication, financial institutions, trade, and advertising.
Prerequisite: FRE 2221 or the equivalent.

FRE 3442 Contemporary French Commerce 3 Credits
Grading Scheme: Letter Grade
Continues the acquisition of business language with special attention paid to technical readings, marketing, case studies, and the role of France in the European Union. Emphasizes oral communication skills and contrasting US and French business culture.
Prerequisite: FRE 3300 or instructor permission.

FRE 3500 France through the Ages 3 Credits
Grading Scheme: Letter Grade
A study of France within context of the principal historical events that have formed and transformed the nation state, its mentality and its cultural production. Special attention is given to the significant political, intellectual, religious, social and artistic currents that have marked France and its image from ancient times to the present. (N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - International

FRE 3502 Francophone Cultures 3 Credits
Grading Scheme: Letter Grade
A study of the cultures of countries or regions where French is used as the (or one of the) official language or, in a less official capacity, by a segment of the population. Study of some of the historical, conceptual, practical and problematic aspects of Francophonie. Also concentrates on one specific area (the Caribbean or West Africa or Quebec, etc., on a rotating basis). Literary samples are included. (N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - International

FRE 3564 Contemporary French Culture 3 Credits
Grading Scheme: Letter Grade
An overview of contemporary France that may include the study of politics, economics, education and the arts as well as ideas of national and ethnic identity and France's place in the EU. (N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - International

FRE 3780L Corrective Phonetics 3 Credits
Grading Scheme: Letter Grade
A survey of the units of speech cast in practical terms and organized by classes of sounds with particular emphasis on rhythm, vowels, nasalization, diphthongs and the complex phenomena that occur at word transitions in French. Taught in French, in an audio laboratory, with the instructor as monitor and with a manual designed for individualized instruction.
Prerequisite: FRE 2221 or the equivalent.

FRE 4411 French Communication 2 Credits
Grading Scheme: Letter Grade
Focuses on oral practice with emphasis on oral communication and exchanges. It is designed to improve students' fluency in French and build/expand on their skills. Fosters possibilities to communicate across disciplines and engage with current affairs through news segment, radio and tv podcasts and other media. Topics may include ecology, climate change, the environment, geopolitics, global fashion industry, health, intercultural exchanges, music.
Prerequisite: FRE 3410 or the equivalent.

FRE 4420 Writing in French 3 Credits
Grading Scheme: Letter Grade
Advanced writing course that provides a systematic study (or review) of French syntax, vocabulary and style with the help of drill sessions. Also may include some training in literary translation. A number of quizzes and written compositions.
Prerequisite: FRE 3320 or instructor permission.

FRE 4501 The French Language in the Americas 3 Credits
Grading Scheme: Letter Grade
Examination of the presence of French in the Americas. Topics covered include: the origin of French in the Americas, language practices of Francophone communities, linguistic characteristics of the varieties of French, the effect of language contact on language behavior and representations and identity issues. Focus varies from year to year.
Prerequisite: FRE 3320.

FRE 4780 Introduction to French Phonetics and Phonology 3 Credits
Grading Scheme: Letter Grade
An introduction to French phonological processes, providing explanatory evidence for the production of speech sounds, for the classification of sounds, for their interrelationship with one another (gliding, nasalization, assimilation), for morphological and syllable structure, for specifically French phenomena such as liaison, elision, final consonant drop, schwa drop, and for the relationship of morphology to phonology, especially in the verb system.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4822 Sociolinguistics of French 3 Credits
Grading Scheme: Letter Grade
Sociolinguistic issues in the French-speaking world: language variation, discourse analysis, attitudes toward varieties of French and contact with speakers of other languages.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4850 Introduction to the Structure of French 3 Credits
Grading Scheme: Letter Grade
Explores the French language as a system of communication and mental representation. Analyzes the morphological, syntactic and semantic aspects of contemporary French, and emphasizes the historical, psychological and sociological dimension of linguistic investigation.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced major and minors who seek independent work not offered in another course. Must be arranged individually with French faculty.
Prerequisite: department permission; only three credits can count toward the minor or major.

FRE 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Directed research leading to a 30-40 page essay on a topic approved by the thesis director; registration for two semesters is highly recommended. Not a substitute for a required course in the French major.
Prerequisite: 3.5 minimum GPA.

FRE 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

FRE 4930 Revolving Topics in French Studies 1-5 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in French studies.
Prerequisite: FRE 3320 and FRW 3100 or FRE 3101, or the equivalent.

FRE 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

FRT 2460 French Texts and Contexts 3 Credits
Grading Scheme: Letter Grade
Selected readings in English translation of major works of French literature. For those with no knowledge of French.

FRT 2930 Special Topics in French Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Rotating topics in French literature and culture; taught in English.

FRT 3004 Monuments and Masterpieces of France 3 Credits
Grading Scheme: Letter Grade
Study of selected masterpieces of French literature, in English translation. Works to be considered as they relate to history and as they can be read in strictly literary terms. Topic varies from year to year.
Prerequisite: sophomore standing or higher.

FRT 3520 French Cinema 4-8 Credits
Grading Scheme: Letter Grade
Critical, theoretical, and historical study of French cinema. Content may include key directors, 1930s cinema, nostalgia, and masculinity in 1980s films, World War II cinema, and Colonial and Postcolonial cinema. Taught in English.
Prerequisite: Critical Tracking semester 3 or greater.

FRT 3561 Women in French Literature and/or Cinema 3-4 Credits
Grading Scheme: Letter Grade
Introduction to the rich heritage of feminist traditions in France and Francophone countries through an exploration of women writers and thinkers (filmmakers, theorists), primarily of the 19th and 20th centuries. Selected topics include L'Écriture féminine (Writing the Feminine), autobiographical writing by French and Francophone women, women in French cinema, and representations of women in French film and literature. Read, discuss, and analyze a broad spectrum of primary and secondary sources from a feminist viewpoint.
Prerequisite: Critical Tracking semester 3 or greater.
Attributes: General Education - International

FRT 4523 European Identities, European Cinemas 4 Credits
Grading Scheme: Letter Grade
Provides knowledge of different cultures, languages, and identities that make up contemporary European cinemas.
Prerequisite: Sophomore standing or higher.

FRT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

FRT 4956 Overseas Studies 3 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

FRW 3100 Introduction to French Literature 1 3 Credits
Grading Scheme: Letter Grade
Overview of French Medieval, Renaissance and classical literature and culture, with major literary, intellectual and historical trends through study of representative works from each period. Emphasizes close reading of texts to train students to read critically and to familiarize them with major authors, genres and interpretations. (N)
Prerequisite: FRE 2221 or the equivalent.

FRW 3101 Introduction to French Literature 2 3 Credits
Grading Scheme: Letter Grade
Selected readings of outstanding authors of prose fiction, poetry and theatre from the 18th to the 20th century. Provides the historical context for major literary movements and authors, and trains students to read and write critically. Generally organized thematically. (N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - International

FRW 3930 Rotating Topics in French and Francophone Literature 3 Credits
Grading Scheme: Letter Grade
Selected topics in French literature.
Prerequisite: FRE 3320 or instructor permission.

FRW 4212 Readings in 17th Century French Prose 3 Credits
Grading Scheme: Letter Grade
Selected readings with an emphasis on the history of ideas, the moralistes and culture in the early modern period. Texts include Descartes, Cyrano de Bergerac, Pascal, Fontenelle, La Rochefoucauld, La Fayette, La Bruyère, and Svign.
Prerequisite: FRE 3320 and (FRW 3100 or FRW 3101), or the equivalent.

FRW 4273 Readings in 18th Century French Literature 3 Credits
Grading Scheme: Letter Grade
Rotating topics exploring the fiction, theatre or intellectual prose of the Enlightenment. Special emphasis placed on the cultural climate and productions of the ancient regime.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4281 Readings in the 20th Century French Novel 3 Credits
Grading Scheme: Letter Grade
Examination of representative novels in 20th century French literature from Proust to the New Novel and beyond. Emphasis may include study of genre, narrative techniques, literary modernism and major themes. Combines an historical approach with close textual readings. Authors frequently studied include Proust, Gide, Malraux, Cline, Camus, Sartre, Robbe-Grillet, Butor, Sarraute and Duras.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4310 Seventeenth Century French Drama 3 Credits
Grading Scheme: Letter Grade
Theory and practice of dramaturgy in the classical period as reflected in plays of Corneille, Molire, and Racine. Close textual analysis to disengage aesthetic and ideological problematics posed by each play.
Prerequisite: FRE 3320 and (FRW 3100 or FRW 3101).

FRW 4324 Readings in 20th and 21st c. French theater 3 Credits
Grading Scheme: Letter Grade
A study of selected plays (by Anouilh, Beckett, Césaire, Duras, Genet, Ionesco, Jarry, Réza, Sarraute, Sartre, etc.), dramatic techniques and stage performances in 20th and 21st century French and Francophone theater.
Prerequisite: FRE 3330 or FRW 3100 or FRW 3101, or the equivalent.

FRW 4350 Modern French Poetry from Baudelaire to the Present 3 Credits
Grading Scheme: Letter Grade
Combines an historical approach with close readings of poetic texts; also introduces a number of theoretical and critical writings. Although traditional poetic texts are studied, the works of less frequently taught poets are also presented.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4391 Concepts of French Cinema 4 Credits
Grading Scheme: Letter Grade
A critical and historical study of the representation of gender and ethnicity in French cinema.
Prerequisite: FRE 3300.

FRW 4532 Survey of French Romantic Literature 3 Credits
Grading Scheme: Letter Grade
A rotating topics tracing the development and the main tenets of 19th century French Romanticism. Concentrates on various themes and genres, including poetry, theater and the novel as well as the socioeconomic and cultural matrices that fostered the movement. Emphasizes the relationship between literature and the visual arts, constructions of gendered, cultural and artistic subjectivities, exoticism (spatial, temporal and mystical voyages) and representations of Paris and French society. Beginning with pre-Romantic authors, moves on to Lamartine, Stendhal, Hugo, Vigny, Balzac, Sand, Musset, Desbordes-Valmore, Nerval and Baudelaire.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4552 Introduction to Realism and Naturalism 3 Credits
Grading Scheme: Letter Grade
Rotating topics trace the development and the main tenets of latter 19th century literary, artistic, and cultural productions. Concentrates on various themes and genres, including poetry, theatre, and the novel as well as the socioeconomic and cultural matrices that fostered movements arising between 1850 and the Fin de siècle. Specific attention may be devoted to definitions of Realism, Naturalism, and Symbolism; representations of modern life and the industrialization of the literary market; the infiltration of scientific and mechanistic thought into literary productions (poetry or prose); and representations of women and the female body, of Paris and Parisian society.
Prerequisite: FRE 3320 and (FRW 3100 or FRW 3101 or the equivalent).

FRW 4762 Readings in Francophone Literatures and Cultures (excluding the Caribbean and Sub-Saharan Africa) 3 Credits
Grading Scheme: Letter Grade
Rotating topics in the literatures and cultures of the Francophone world, including North America (Quebec), Europe (Belgium, Switzerland and regional France), Asia (Vietnam, Indian Ocean) and the Middle East.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4770 African and Caribbean Literatures 3 Credits
Grading Scheme: Letter Grade
The production of Sub-Saharan African writers from its inception to the present through examination of representative works and figures, genres (epics, poetry, drama, novels), discourses and critics that inform the productions. Particular attention is paid to historical, political and cultural issues that figure in the development and orientation of African literature in French. Occasional inclusion of Caribbean literature for purpose of comparison.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4822 Introduction to French Critical Theory 3 Credits
Grading Scheme: Letter Grade
Review and comparative analysis of approaches to literature from Romanticism to Deconstructionism. Reading and writing are examined through the eyes of Sainte-Beuve, Taine, Lanson, Bachelard, the Geneva School, Ricoeur, Bataille, Blanchot, Barthes, Foucault, Genette, Lacan, Kristeva, Todorov, Derrida and others.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Target Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Target Language.

FRW 4932 Senior Seminar in French Literature 3 Credits
Grading Scheme: Letter Grade
Rotating topics for French majors and minors in the senior year. Topics rotate given research interests or field of specialization of the teaching faculty. Recent topics have included La Posie du Voyage; L'Écriture féminine; Le Discontinu chez La Rochefoucauld et La Bruyre; Charles Baudelaire: pote/critique de la vie moderne; Qu'est-ce que la Rvolte?
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101.

Gender, Sexualities, and Women's Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Center Information

The Department of Gender, Sexuality, and Women's Studies offers academic programs, grants graduate and undergraduate degrees, and advances research in the discipline. Faculty in the department successfully compete for national fellowships and grants, win research and teaching awards, and produce rigorous and transformative research.

Courses

WST 2322 Introduction to Health Disparities 3 Credits
Grading Scheme: Letter Grade
Examination of the multifaceted issue of health disparities based upon race and ethnicity, gender, socioeconomic status, education, sexuality, disability, physical and mental health, geography and other factors. Related issues include social determinants of health, cultural competency, health literacy, advocacy, social justice and health equity.

WST 2611 Humanities Perspectives on Gender and Sexuality 3 Credits
Grading Scheme: Letter Grade
Close readings of cultural representations (in literature, the visual arts, movies, television, the Internet, etc.) facilitates the understanding of intersecting categories of identity such as gender, sexuality, class and race. Examines how such categories operate in everything from novels to YouTube to the evening news. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

WST 2612 Social Science Perspectives on Gender and Sexuality 3 Credits
Grading Scheme: Letter Grade
The social construction of gender, sexuality, race, class, and other identity categories. Readings focus on individuals, families, and cultural groups, mainly in the US but with attention to other nations. Includes subjects as intimate as the body and violence and as pervasive as politics and the law. Emphasizes differences in daily life experiences of health care, education, sports, and religion. Also examines the potential of movements for social change.
Attributes: Satisfies 4000 Words of Writing Requirement

WST 3015 Interdisciplinary Perspectives in Women's Studies 3 Credits
Grading Scheme: Letter Grade
Explores the diverse experiences of women in past eras and in the present, and in the US and abroad, by drawing on materials and methodologies from a variety of disciplines.
Prerequisite: (3 credits of WST) or (sophomore standing).
Attributes: Satisfies 4000 Words of Writing Requirement

WST 3323 Gender, Bodies, and Health 3 Credits
Grading Scheme: Letter Grade
Examines how gender is "worn" on the female body. Adopting a feminist interdisciplinary approach, explores three themes: cisgender female biology in social context, bodily practices concerning food and exercise, and disease (i.e., cancer). Examines intersections of gender, race, class, and disability, and role of activism/policy changes in improving people's health.
Prerequisite: Sophomore standing or higher.

WST 3325 Violence Against Women 3 Credits
Grading Scheme: Letter Grade
Approaches all forms of violence against women as a continuum and challenges assumptions regarding violence against women with empirical evidence. Adopts an intersectional approach to fully understand violence against women. Explores the transnational dimensions of violence against women and local specificities.
Prerequisite: Sophomore standing or higher.

WST 3335 Women and Gender Analysis through American Film: 1950-Present 3 Credits
Grading Scheme: Letter Grade
Traces how film and Hollywood cinema represent women, gender, and feminism over the past sixty years. Analyzes the relationship of film and the sociology and history of feminist movements. Addresses intersections of race, gender, sexual orientation, age, and class found in American cinema.
Prerequisite: Sophomore standing or higher or instructor permission.
Attributes: Satisfies 2000 Words of Writing Requirement

WST 3371 Women, Leadership & Diversity in the Global Environment 3 Credits
Grading Scheme: Letter Grade
Examines leadership concepts in general, and for women in particular. Covers leadership strategies in a historical framework, leadership dilemmas in various industries (locally and globally), and experiential and case-study based leadership.
Prerequisite: Sophomore standing or higher or instructor permission.

WST 3415 Transnational Feminism 3 Credits
Grading Scheme: Letter Grade
Women and feminism in a transnational perspective, focusing on various theories and movements engendered by women in contemporary national contexts. Examines development, reproductive politics, and women's health.
Prerequisite: (3 credits of WST) or (sophomore standing or higher).
Attributes: General Education - International

WST 3603 Sexualities Studies 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary study of sexualities covering diverse theories of sexualities and desire, and how these theories are socially constructed and regulated. Central are the connections between sexualities and other social locators such as race, ethnicity, gender, social class, age, and ability or disability.
Prerequisite: Sophomore standing or higher or instructor permission.

WST 3610 Gender, Race and Science 3 Credits
Grading Scheme: Letter Grade
Feminist theories of nature, science, and technology, and how gender and race are critical to the origins of science, the making of scientists, and the politics of contemporary practice.
Prerequisite: (3 credits of WST) or (sophomore standing or higher).
Attributes: Artificial Intelligence

WST 3663 Gender and Food Politics 3 Credits
Grading Scheme: Letter Grade
Survey of the gendered history of food and foodways from the early 17th century to the modern period; may be taught with a service learning component.
Prerequisite: Sophomore standing or higher.

WST 3703 History of American Medicine: Race, Class, Gender, and Science 3 Credits
Grading Scheme: Letter Grade
Overview of the development of the medical profession in the US with attention to ways that class, gender, and race have shaped the idea of "scientific medicine.
Prerequisite: Sophomore standing or departmental permission.

WST 3720 Gender, Race, and Future of AI 3 Credits
Grading Scheme: Letter Grade
Examines the historical, contemporary, and potential future imaginations of AI to understand the racialized and gendered impact of data, algorithms, and AI. Focuses upon building analytical and practical skills for inspecting AI products and systems as well as strategies for implementing better AI design practices.
Prerequisite: Sophomore standing.

WST 3800 Sexual Ethics 3 Credits
Grading Scheme: Letter Grade
Approaches sexual ethics as the integration of care, respect, mutuality, and reciprocity into sexual practices. Critically interrogates socio-cultural discourses about sex/gender/sexuality and their contexts. Explores how gender, race, sexuality, and class construct sexual expectations and how sexual autonomy can be negotiated in contexts of unequal social structures and relations.
Prerequisite: Sophomore standing or higher.

WST 3930 Special Interdisciplinary Topics in Women's Studies 1-4 Credits
Grading Scheme: Letter Grade
Variable topics from different fields of study in gender/ women's studies based on a feminist approach. Topics can include gender issues in education, women's autobiography, and women's health issues.
Prerequisite: (3 credits of WST) or (sophomore standing or higher).

WST 4002 Data Feminisms 3 Credits
Grading Scheme: Letter Grade
Draws from critical data and algorithm studies and feminist science and technology studies to develop critical tools of inquiry needed to approach data within a context of racialized, gendered, colonial, and classed systems of power. Combines practical data workshops with critical readings to analyze data across key uses in domains such as healthcare, security apparatuses, carceral systems, and digital infrastructures.
Prerequisite: Sophomore standing or higher.
Attributes: Ethical-AI

WST 4020 Girlhood Studies 3 Credits
Grading Scheme: Letter Grade
Critically examines the construction of girlhood through social, political, economic, and cultural frameworks. Uses materials and methodologies from various disciplines to explore diverse experiences, challenges, and identities of girls from global and intersectional perspective. Presents complex intersections of gender, age, race, class, sexuality, and ability across diverse cultural and geographical contexts.
Prerequisite: Sophomore standing.

WST 4240 History of Women's Medicine 3 Credits
Grading Scheme: Letter Grade
Explores Western mainstream medicine (including psychology) and doctoring within the context of women's health during the nineteenth and twentieth centuries. Interdisciplinary approach appropriate for motivated undergraduate students in various disciplines; course materials include primary and secondary texts from medicine, psychology, history, and gender studies.
Prerequisite: Sophomore standing.

WST 4326 Women and Therapy 3 Credits
Grading Scheme: Letter Grade
Survey of the development of mental health interventions from the 19th century to the present, with attention to women as patients, practitioners, and consumers.
Prerequisite: Any WST 3000 level course or PPE 3003 or CLP 3144

WST 4349 Ecofeminism 3 Credits
Grading Scheme: Letter Grade
A holistic framework for understanding the connections between environmental, feminist and social justice issues. This course critically analyzes positions within ecofeminist theory. (WR)
Prerequisite: Sophomore standing.
Attributes: Satisfies 4000 Words of Writing Requirement

WST 4383 Latinx Sexualities 3 Credits
Grading Scheme: Letter Grade
Introduces the interdisciplinary field of Latina/o sexuality studies from an understanding of Latinx sexualities as complex processes in flux. Engages Latinx sexualities through transnational histories, memoirs and testimonios, artworks, literature, music, film, and video to understand how Latinx sexual identities and practices are shaped.
Prerequisite: Sophomore Standing.

WST 4384 LGBTQ+ Movements and Critiques 3 Credits
Grading Scheme: Letter Grade
Using examples of many forms of US LGBTQ+ social movement work, and critiques thereof, addresses the core questions: What is an LGBTQ+ movement? Are LGBTQ+, Queer, and Trans movements still relevant and possible today? Explores and examines these questions by reading and discussing research on how US LGBTQ+ movement work has been (and is) done, and critiqued, as well as how certain forms of it has been erased, elided, and (mis)understood.
Prerequisite: Sophomore standing or higher.

WST 4403 Advanced Black Feminisms: Frameworks, Methods, Futures 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary investigation of Black feminist knowledge production, including institutional origins, key sites of inquiry, and imagined futures. Explores multiple methodological approaches. Prioritizes contributions of scholars who may be outside of the canon. Engages primary sources, secondary texts, and audio and visual material. Possible topics include labor, pleasure, and violence.
Prerequisite: 3 credits of WST or 15 credit hours.

WST 4630 Gender, Culture, and Place 3 Credits
Grading Scheme: Letter Grade
How are the experiences of gender and sexuality configured by geography, location, and the built environment? How do gender relations and sexual practices define and give meaning to space and place? Explore these questions through an interdisciplinary consideration of the gendered relationships that unfold in significant spaces and places in the US and the world.
Prerequisite: (3 credits of WST) or (sophomore standing or higher).

WST 4641 Lesbian and Gay Studies 3 Credits
Grading Scheme: Letter Grade
Overview of lesbian and gay studies, including a portrait of the field, challenges, core debates and possible future directions of such research.
Prerequisite: instructor permission.

WST 4704 Discrimination and Health 3 Credits
Grading Scheme: Letter Grade
Examines discrimination and health from a variety of perspectives. Explores links of discrimination experiences with health behaviors and outcomes, discrimination in healthcare settings, and routes to improving health at individual, group, and legislative levels. Addresses multiple forms of discrimination (e.g., race, sex, class, sexual orientation/gender identity) and their intersections.
Prerequisite: PSY 2012 or any WST course or Sophomore standing.

WST 4905 Independent Study in Women's Studies 1-3 Credits
Grading Scheme: Letter Grade
For advanced undergraduate students who want to supplement regular courses with independent reading or research.

WST 4911 Undergraduate Research in Women's Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

WST 4930 Special Topics 1-6 Credits
Grading Scheme: Letter Grade
Lectures and seminars covering selected topics of current interest in women's studies and/or gender studies.
Prerequisite: instructor permission.

WST 4935 Capstone Seminar 3 Credits
Grading Scheme: Letter Grade
This capstone course, required for all majors, is the culmination of the women's studies major. It explores past and present scholarship to reaffirm the interdisciplinary nature of the field and to highlight relationships among feminist theory, intellectual practice and social change. The bulk of the semester is devoted to an independent writing project on the student's selected topic.
Prerequisite: WST 3015.

WST 4940 Internship 1-3 Credits
Grading Scheme: S/U
Practical experience in the community with a local agency, group or business involved in women's issues.
Prerequisite: instructor and program director permission.

WST 4941C Practicum in Health Disparities 3 Credits
Grading Scheme: Letter Grade
Capstone experience for seniors enrolled in the health disparities in society minor. Students are matched with preceptors from community agencies that work with underserved, disadvantaged and disenfranchised populations. Students will learn about the agency and its organizational culture while applying concepts of cultural competence, linguistic appropriateness and health disparities.
Prerequisite: WST 2322 and Health Disparities in Society minor.

WST 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
This course provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: advisor permission.

WST 4970 Women's/Gender Studies Honors Thesis 3 Credits
Grading Scheme: Letter Grade
For students pursuing an honors thesis in Women's Studies, in accordance with the protocols established by the Women's Studies and honors programs. Students design and pursue an independent research project with guidance from an advisor.
Prerequisite: WST 4935 and Women's Studies major.

Courses

GEA 1000 Geography for a Changing World 3 Credits
Grading Scheme: Letter Grade
The spatial organization of society. Emphasizes the political regions of the world. (N)
Attributes: General Education - International

GEA 1050 Prisoners of Geography: 10 Maps That Explain Everything About the World 3 Credits
Grading Scheme: Letter Grade
Introduces the ways in which international affairs can be understood through geographical factors: not just the physical landscape (the natural barriers of mountains or connections of river networks, for example), but also climate, demographics, biogeography, environment, cultural regions, and access to natural resources. Utilizing maps, works to explain and understand complex geopolitical landscapes that shape our world in an ever more complex, chaotic, and interlinked manner.

GEA 2270 Geography of Florida 3 Credits
Grading Scheme: Letter Grade
Geographic conditions and human adjustments in the major regions in Florida. The natural environment, population, routes of communication, industries, resources and strategic location in their geographical and historical aspects. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

GEA 2601 Geography of Africa 3 Credits
Grading Scheme: Letter Grade
Survey of the population, natural resources, geographic regions, and potentialities of Africa; the significance of this region in the economic and political affairs of the world.
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

GEA 3405 Geography of Latin America 3 Credits
Grading Scheme: Letter Grade
Examines the interconnecting land, life, and welfare throughout Latin America.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

GEA 3500 Geography of Europe 3 Credits
Grading Scheme: Letter Grade
Comprehensive and systematic survey of the population, natural resources, geographic regions, and potentialities of Europe and the significance of this region in the economic and political affairs of the world.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International

GEA 4465 Amazonia 3 Credits
Grading Scheme: Letter Grade
Biophysical basis of natural resource management, cultural diversity, and economic development in Amazonia. Appreciating the complexity and variability of soils, vegetation, aquatic ecosystems, and climate in the region offers clues for understanding human settlement and development, as well as the potential and limitations of the rich natural resource base.
Prerequisite: Sophomore standing or higher.

GEA 4911 Undergraduate Research in Regional Geography 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Regional Geography. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Regional Geography.

GEO 2002 Why Geography Matters: More Than Ever 3 Credits
Grading Scheme: Letter Grade
Introduces global transformations of all kinds: intense climate change significant weather extremes; unprecedented terrorist attacks; costly wars in Iraq Afghanistan; a terrible overlooked conflict in Equatorial Africa; an economic crisis threatening the stability of the international system. Presents these events their interconnections. Places our turbulent world in a more understandable light.

GEO 2006 Natural Hazards Geography 3 Credits
Grading Scheme: Letter Grade
Examines global weather, climate, and geophysical hazard events through geographic lens of human-environment interactions to understand how disasters emerge not only due to extreme events but from complex social, cultural, psychological, political, and economic forces. Discusses historical, recent, and ongoing hazard events to connect theory to individual and shared experiences.
Attributes: General Education - International, General Education - Social Science

GEO 2200 Dynamic Planet Earth 3 Credits
Grading Scheme: Letter Grade
A study of the development and distribution of landforms, climates, minerals, soils and water resources. Interrelationships among the physical environment and regional patterns formed by these elements are analyzed against man's utilization of them. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Physical Science

GEO 2200L Dynamic Planet Earth Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory in physical geography. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Corequisite: GEO 2200 or GEO 2201.
Attributes: General Education - Physical Science

GEO 2230 Living with Rising Seas 3 Credits
Grading Scheme: Letter Grade
Examines the complex relationship between people and coastlines by asking “How will humanity adapt to sea level rise?” Connects the science of sea level rise and coastal change to the built and natural environment and societal impacts, while considering actionable solutions for developing sustainable and equitable coastal futures.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - Physical Science

GEO 2242 Extreme Weather 3 Credits
Grading Scheme: Letter Grade
Introduction to science of weather and climate and current scientific developments in such areas as extreme weather prediction, global climate change and improved forecasting of events. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Physical Science

GEO 2301 The Next Pandemic 3 Credits
Grading Scheme: Letter Grade
Focuses on historic and modern disease outbreaks, in order to hypothesize what the next pandemic will be. We will ask what social, political, biological, and environmental factors led to historic outbreaks, what happened when we faced a new pandemic, and how can we prepare for the next pandemic? This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Quest 2, General Education - Physical Science

GEO 2315 Hungry Planet: Global Geographies of Food 3 Credits
Grading Scheme: Letter Grade
This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena through an overview of the biological structure, means of survival, propagation and distribution of plants, with emphasis on their relationship to the culture and diffusion of man through the world and his part in their development and improvement. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

GEO 2351 Geographical Sciences and Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines the most critical environmental issues facing the world today; emphasizes the sustainability of both human and physical systems in the 21st century utilizing cutting-edge geographic technologies: spatial analysis, GIS, and satellite imagery.
Prerequisite: any Biological Sciences or Physical Sciences General Education course.
Attributes: Artificial Intelligence

GEO 2410 Social Geography 3 Credits
Grading Scheme: Letter Grade
Introduces geography as a social science. Various social concepts presented from a spatial perspective.

GEO 2411 Geographies of Race 3 Credits
Grading Scheme: Letter Grade
Addresses geography as a colonial discipline. Introduces works on race that included plans to control, extract resources from, and convert non-European populations. Engages research on race and ethnicity produced in the field of geography. Analyzes the field's imperial roots and progress thematically in the context of contemporary approaches to the study of racialized communities. Presents approaches to the study of race, racism and resistance in the field of geography

GEO 2420 People, Place, and Culture 3 Credits
Grading Scheme: Letter Grade
Introduces cultural geography with an emphasis upon the development and spatial arrangement of the major societies of the modern world. (N)
Attributes: General Education - International

GEO 2426 Pop Music and Culture: a Geographic Perspective 3 Credits
Grading Scheme: Letter Grade
Examines the geographic origins, development and diffusion of contemporary pop music and the regional dynamics of pop music culture from the 1950s to present. (S)
Attributes: General Education - Social Science

GEO 2500 Global and Regional Economies 3 Credits
Grading Scheme: Letter Grade
This course explores contemporary perspectives, themes, and research in economic and political geography focusing on events and issues associated with regional and global economic and demographic change. Regional variations and disparities in growth and development are analyzed, and policy implications discussed.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

GEO 2530 The Future of Energy 3 Credits
Grading Scheme: Letter Grade
The future of energy takes the students on a journey through the history of energy use, issues associated with different technologies, and future challenges and opportunities. The course brings up pressing questions such as is renewable energy always sustainable? Are renewable energies always a better option for the environment? And what does a future sustainable energy situation look like? And challenges the students to find the answers to these questions via a combination of readings, lectures, discussions and reflection. The course also explores geographic differences between different states, countries and societies, which contributes to shaping the energy landscape now and in the future.
Attributes: Quest 2, General Education - Physical Science, Satisfies 2000 Words of Writing Requirement

GEO 3162C Introduction to Quantitative Analysis for Geographers 4 Credits
Grading Scheme: Letter Grade
Introduces elementary geographical data analysis, including spatial measurement, spatial statistics, and spatial forecasting. Apply statistical concepts and the use of spreadsheet computer software.
Prerequisite: STA 2023 or instructor permission.

GEO 3222 Sea Level Science 3 Credits
Grading Scheme: Letter Grade
Explains how sea level changes in space and time. Topics include methods for measuring sea level, the causes of sea level change such as tides, storms, and climate, future projections of sea level change, and resulting impacts.
Prerequisite: GEO 2200 or GLY 2010C or instructor permission.

GEO 3250 Climatology 3 Credits
Grading Scheme: Letter Grade
Genesis of regional climates and their global distribution. Emphasis on world regional climatology. Secondary topics include applied climatology and climate change.
Prerequisite: MET 1010 or GEO 2200 or GEO 2242.

GEO 3280 Principles of Geographic Hydrology 4 Credits
Grading Scheme: Letter Grade
Examines the effects of physical geography on the land-based portion of the hydrologic cycle at the regional and basin scales. Includes discussion of precipitation, infiltration, and runoff.
Prerequisite: GEO 2200 or instructor permission;
Corequisite: GEO 3162C.

GEO 3320 International Wildlife Policy - Lessons from Africa 3 Credits
Grading Scheme: Letter Grade
Introduces the challenge of wildlife conservation on a peopled planet. With wildlife declining globally under conventional (exclusionary) policies, this course analyses why wildlife is recovering through new (inclusionary) policies of wildlife utilization, ownership, and democratization. Discusses the governance and political economy of parks, private, and community conservation in Africa, and strategies like tourism, trophy hunting, wildlife trade, and anti-poaching.
Prerequisite: Sophomore standing or higher.

GEO 3334 Managing for a Changing Climate 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary survey of climate variability and change. Topics include the physical science basis for climate change, sectoral analysis of climate impacts, adaptation, and mitigation options. Active learning, discussions, and roleplaying facilitate understanding of critical issues facing the human and natural world.
Prerequisite: Any P, B General Education Course
Attributes: Satisfies 4000 Words of Writing Requirement

GEO 3341 Extreme Floods 3 Credits
Grading Scheme: Letter Grade
Examines the world's most extreme floods from the Pleistocene through present due to various causes. Discusses physical and human aspects of flood warning, preparedness, response, and recovery throughout the world.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International

GEO 3343 Extreme Droughts 3 Credits
Grading Scheme: Letter Grade
Examines droughts, particularly hydrologic droughts and drying rivers, and declining water resources. Assesses biophysical, socio-economic consequences when the quantity or quality of water is limited and/or decreasing through case studies in different environments (rivers, lakes, groundwater, etc.) and countries through data analysis and projects.
Prerequisite: Junior or senior standing.

GEO 3352 The Human Footprint on Landscape 3 Credits
Grading Scheme: Letter Grade
Studies human-environment relationships from a primarily geographic perspective, focusing on the human forces that shape landscapes.
Prerequisite: Sophomore standing or higher.

GEO 3372 Conservation of Resources 3 Credits
Grading Scheme: Letter Grade
Surveys natural resources and a study of wise and wasteful practices of these resources. Satisfies resource certification for social studies teachers.
Prerequisite: Sophomore standing or higher or instructor permission.

GEO 3427 Plants, Health and Spirituality 3 Credits
Grading Scheme: Letter Grade
Issues and controversies surrounding organic food, genetically modified crops, medicinal plants, plants used to achieve altered states of consciousness, and the importance of ornamental plants as inspiration for artists and in worship.
Prerequisite: Sophomore standing or higher.

GEO 3430 Population Geography 3 Credits
Grading Scheme: Letter Grade
Geographical analysis of populations, including population description, distribution, change, and characteristics; demographic processes; and the consequences of development, conflict, and population control diseases.
Prerequisite: Sophomore standing or higher.

GEO 3452 Introduction to Medical Geography 3 Credits
Grading Scheme: Letter Grade
Medical geography deals with human-environment interactions and the influence of these interactions on public health. Provides a broad and comprehensive survey of geographic approaches in medical studies.
Prerequisite: sophomore standing or higher; entry-level knowledge of statistics (STA 2023 or GEO 3162C or equivalent) recommended.

GEO 3454 Peoples and Plagues 3 Credits
Grading Scheme: Letter Grade
Introduces emerging infectious diseases (EIDs) in the context of previous outbreaks, focusing on geography, origin, and management response. Explores basic models of infectious diseases processes, transmission cycled, and life-histories of host-vector systems, and the ecological and landscape conditions that favor emergence.
Prerequisite: Sophomore standing or higher.

GEO 3502 Economic Geography 3 Credits
Grading Scheme: Letter Grade
Comprehensive geographical survey of major economic activities such as agriculture, forestry, fishing, mining, manufacturing, and commerce. Emphasizes the study of the characteristics of distribution and the regional patterns of these activities.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

GEO 3602 Urban and Business Geography 3 Credits
Grading Scheme: Letter Grade
Empirical and theoretical spatial analysis of the various economic, population and social facets within and between urban settlements.
Prerequisite: Sophomore standing or higher or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

GEO 3611 Housing, People, and Places in a Spatially Diverse America 3 Credits
Grading Scheme: Letter Grade
Examines the housing, people, and places that comprise the diverse contemporary human settlement patterns in the US. Topics focus on the quality of life found in the housing and neighborhoods of these urban and rural landscapes.
Prerequisite: Sophomore standing or higher.

GEO 3803 Geography of Alcohol 3 Credits
Grading Scheme: Letter Grade
Origins and fission of alcoholic beverages and associated crops on a global scale.
Prerequisite: Sophomore standing or higher.

GEO 3930 Special Topics in Geography 3 Credits
Grading Scheme: Letter Grade
Rotating topics in geography.
Prerequisite: Sophomore standing or higher.

GEO 4024C Terrorism and Space 4 Credits
Grading Scheme: Letter Grade
Critically discusses the dual concerns for geography as an influence on and a source of terrorism. Presents the origins of contemporary terrorism as well as the various motivations of ideologically-oriented, ethno-nationalist, and religious organizations. Examines how a spatial approach can contribute to better understand the diffusion of terrorist organizations across the world, with a particular focus on Africa.
Prerequisite: Any course with a GIS prefix.

GEO 4033 Climate Change and Health 3 Credits
Grading Scheme: Letter Grade
Presents the science of climate change and impacts on health. Discussion builds on core concepts of climate change science to examine a variety of topics from acute impacts such as heat waves and other weather extremes to chronic conditions like degraded air quality. Mitigation and adaptation strategies are also discussed.
Prerequisite: GEO 2200 or GEO 2242 or MET 1010 or permission of instructor.

GEO 4034 Weather, Climate, and Society 3 Credits
Grading Scheme: Letter Grade
Investigates social vulnerability to hazards, disasters, and climate change through perspectives and experiences of vulnerable population segments who often bear brunt of losses yet exhibit remarkable flexibility and creativity in coping and adapting to environmental risks. Introduces census data and spatial analysis to understand geographies of social vulnerability
Prerequisite: GEO 2006 or GEO 2200 or GEO 2242 or GEO 2420 or GEO 2410 or GEO 3430.

GEO 4060 People and Parks 3 Credits
Grading Scheme: Letter Grade
Introduces global protected area management. Describes history of protected areas on several continents and discusses how international definitions of protected area objectives match the rapidly changing needs of society. Broadens the idea of protected areas to discuss private and community conservation. Introduces inclusive conservation. Takes students through a process of assessing the sustainability of parks from a biological, economic, social, and institutional perspective.
Prerequisite: Sophomore standing.

GEO 4167C Intermediate Quantitative Analysis for Geographers 3 Credits
Grading Scheme: Letter Grade
Surveys various multivariate techniques commonly used to analyze geographic data. Emphasis on hypothesis testing, inference, multiple regression, analysis of variance and cluster analysis. Introduces time-series regression and grouped estimation procedures, factor analysis, probit/logit modeling and trend-surface interpolation. (WR)
Prerequisite: GEO 3162C or the equivalent.
Attributes: Artificial Intelligence, Satisfies 6000 Words of Writing Requirement

GEO 4169 Spatial Econometrics and Modeling 3 Credits
Grading Scheme: Letter Grade
Introduces regression models capable of dealing with spatial auto-correlation; develop statistical models and estimate with computer software.
Prerequisite: GEO 4167C or equivalent.
Attributes: Artificial Intelligence

GEO 4170 Communicating Science in the Geosciences 3 Credits
Grading Scheme: Letter Grade
Examines techniques to communicate scientific knowledge and research to non-science audiences. Topics include quantitative and qualitative research methods, using narrative, discussing data and statistics, risk communication, and communicating with journalists and politicians. Readings, discussions, and projects facilitate understanding of best practices when communicating to people making evidence-based decisions.
Prerequisite: Any Gen Ed Biological or Physical Sciences course.

GEO 4281 River Forms and Processes 3 Credits
Grading Scheme: Letter Grade
Examines the nature and variety of fluvial processes and the origin and modification of fluvial landforms. Includes discussion of environmental changes in rivers and human activities in drainage basins.
Prerequisite: GEO 2200 or GLY 2010C, or instructor permission.

GEO 4285 Water, Risk, and Extreme Events 3 Credits
Grading Scheme: Letter Grade
Investigates techniques for evaluating the risks of extreme events related to water in our environment. Presents data and methodologies for estimating the rarity of phenomena including excessive rainfall totals, high and low river levels, coastal storm surge and waves, and drought.
Prerequisite: GEO 3162C or STA 3032 or permission of instructor.
Attributes: Artificial Intelligence, Satisfies 6000 Words of Writing Requirement

GEO 4300 Environmental Biogeography 3 Credits
Grading Scheme: Letter Grade
Description and explanation of spatial patterns of biodiversity and the underlying biophysical factors of human-environment interactions. Investigates past and present distributions of organisms and how patterns of environmental variation influence organisms. How biogeography is used to design nature reserves and how forecasting climate change may affect organisms and explain human adaptations to environmental variability.
Prerequisite: Any Gen. Ed. P or B course.

GEO 4306C Geography of Vector-borne Diseases 3 Credits
Grading Scheme: Letter Grade
Introduces the spatial epidemiology of vector-borne diseases (VBDs) and geospatial methods for monitoring, mapping and modeling them. Provides hands-on experiences for mapping and modeling risk of VBDs via GIS-based labs.
Prerequisite: GEO 3452 or GIS 3043 or permission of the instructor.
Attributes: Artificial Intelligence

GEO 4554 Regional Development 3 Credits
Grading Scheme: Letter Grade
Problems of regional development and regional growth within the context of economic, political, and spatial relationships.
Prerequisite: Junior standing or higher.

GEO 4612 Shelter and Care Options for US Elderly 3 Credits
Grading Scheme: Letter Grade
Examines the strengths, weaknesses, and demand for housing and care alternatives addressing the needs of both active and frail American elderly persons.
Prerequisite: refer to the department.

GEO 4700 Transportation and Urban Accessibility 3 Credits
Grading Scheme: Letter Grade
Investigates the relationship between transportation and urban accessibility from a geographic perspective, through the examination of the impacts of transportation systems and accessibility on human health, social equity, and the environment, as well as the methods and tools for modeling and analyzing transportation systems and accessibility.
Prerequisite: Sophomore standing or higher.

GEO 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Qualified students and the instructor concerned may choose a particular topic or problem for study.
Prerequisite: undergraduates only with 9 credits of geography and instructor permission.

GEO 4911 Undergraduate Research in Geography 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Geography. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Geography.

GEO 4930 Senior Seminar 1 Credit
Grading Scheme: Letter Grade
Integrates geographic concepts for graduating seniors; provides introduction to professional geography for students entering the job market.
Prerequisite: geography seniors only.

GEO 4938 Selected Topics in Geography 1-4 Credits
Grading Scheme: Letter Grade
Rotating geography topics.
Prerequisite: Sophomore standing or higher.

GEO 4944 Internship 1-10 Credits
Grading Scheme: Letter Grade
Experimental learning in position with city, county, regional and state government agencies.
Prerequisite: Senior standing or higher.

GEO 4970 Honors Thesis 3 Credits
Grading Scheme: Letter Grade
Completion of an honors thesis that meets department specifications during the semester in which the student is enrolled.
Prerequisite: senior standing and participation in department honors program.

GIS 2002 The Digital Earth 3 Credits
Grading Scheme: Letter Grade
Focuses on how the Earth's surface is visualized, explored, and analyzed in digital formats (e.g. maps, satellite images, aerial photos). Provides an introduction to fundamental concepts of digital geographic data to understand the Earth environment and human society based on the vast quantities of geographic information in our ever-changing world.
Attributes: Artificial Intelligence

GIS 2114 The World & Big Data 3 Credits
Grading Scheme: Letter Grade
Data drives today's world and over 80% of that data is geographic. Increasing volume and varying formats of these geospatial big datasets have posed new challenges. Introduces relevant concepts (e.g., 5 V's) and techniques (e.g., cloud computing) of big (spatial) data as well as its applications in the real world. Hands-on experiences with Volunteered Geographic Information (VGI), analyzing geotagged tweets, and visualizing spatial datasets.

GIS 3001C Geovisualization and Map Design 4 Credits
Grading Scheme: Letter Grade
Analyzes cartographic problems with exercises in techniques of presentation, including map projections and symbols and problems in statistical representation by graphic methods.
Prerequisite: Sophomore standing or higher.

GIS 3043 Foundations of Geographic Information Systems 4 Credits
Grading Scheme: Letter Grade
Geographic Information Systems (GIS) as the technology for creation, modification, display, and analysis of spatial information. Develops knowledge of GIS, competence in geographic databases, and familiarity with computer software and hardware.
Prerequisite: Sophomore standing or higher.
Attributes: Artificial Intelligence

GIS 3420C GIS Models for Public Health 3 Credits
Grading Scheme: Letter Grade
Focuses on the design of GIS-based models to address health and healthcare issues. Topics include a conceptual framework, landscape epidemiology models, disease diffusion models, health accessibility, human health behavior and location-allocation of health services. Laboratory section provides hands-on experience applying these models with GIS tools.
Prerequisite: (GIS 3043 or equivalent) & (STA 2023 or GEO 3162C or equivalent) or (Instructor permission)
Attributes: Artificial Intelligence

GIS 4021C Aerial Photo Interpretation 3 Credits
Grading Scheme: Letter Grade
Principles of aerial photography, identification and interpretation of physical and cultural features, sketching and simple map-making, and uses of aerial photography.
Prerequisite: GEO 2200 or instructor permission.

GIS 4037 Digital Image Processing 4 Credits
Grading Scheme: Letter Grade
Introduces the theory and application of digital imagery data in geographical research with a hands-on, lab-based approach.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

GIS 4102C GIS Programming 3 Credits
Grading Scheme: Letter Grade
Introduces basic programming concepts; instruction in popular programming languages for geospatial processing, applications, and modeling in ArcGIS environment.
Prerequisite: GIS 3043C or equivalent.
Attributes: Artificial Intelligence

GIS 4113 Introduction to Spatial Networks 3 Credits
Grading Scheme: Letter Grade
Many phenomena of interest in physical, social and cyber environments can be thought of as networks within geographic context. Teaches methods for analyzing these spatial networks, and introduces their applications in geography, transportation, hydrology, epidemiology, social science, etc.
Prerequisite: Entry level knowledge of statistics or instructor permission. Prior experience with ArcGIS is preferred.
Attributes: Artificial Intelligence

GIS 4115C Spatial Surface Modeling and Geostatistics 3 Credits
Grading Scheme: Letter Grade
Teaches principles for modeling and analyzing surfaces of geographic features, such as terrain, temperature, and diseases, with an emphasis on geostatistical (or kriging) analysis. Provides hands-on experiences of using ArcGIS Geostatistical Analyst through lab exercises.
Prerequisite: (STA 2023 or GEO 3162C or equivalent) and GIS 3043 or equivalent or instructor permission.
Attributes: Artificial Intelligence

GIS 4123C GeoAI – Geographic Artificial Intelligence 3 Credits
Grading Scheme: Letter Grade
Integration of Geography and AI, or GeoAI (a subfield of spatial data science), provides novel approaches for addressing a variety of geospatial problems in the natural environment and our human society. Hands-on computing labs using real-world geospatial data to address such AI topics as: image classification, object detection, scene segmentation, simulation and interpolation, retrieval and question answering, on-the-fly data integration, and geo-enrichment.
Prerequisite: Any 3000 level or higher GIS prefix course [GIS3XXX, GIS4XXX] or permission of instructor.
Attributes: Artificial Intelligence

GIS 4124 Geocomputation using R Programming 3 Credits
Grading Scheme: Letter Grade
Introduction to geodata analysis using programming. Broad introduction to the programming language as well as applied spatial data analysis. Facilitates students' use of programming to analyze data of their own choosing on a final project. Code sharing and re-use is highly emphasized, as is collaboration.
Prerequisite: Any 3000 level or higher GIS prefix course or permission of instructor.

GIS 4324 GIS Analysis of Hazard Vulnerability 3 Credits
Grading Scheme: Letter Grade
Geographic and cartographic techniques for geospatial analysis of risk, vulnerability, and resilience using ArcGIS. Learn to utilize physical and human geographic datasets for multiple hazard contexts including hydrometeorological, climatological, and geophysical hazards.
Prerequisite: GIS 3043 or URP 4273 with minimum grade of C.
Attributes: Artificial Intelligence

GIS 4424C Applications in GIS for Zoonoses and Disease Ecology 3 Credits
Grading Scheme: Letter Grade
Focuses on GIS applications in spatial analysis and ecology to address common research issues related to zoonotic diseases which affect animals and humans.
Prerequisite: GIS 3043 or GIS 3420C, or equivalent.

GIS 4500 Population GIS 3 Credits
Grading Scheme: Letter Grade
Instruction on geographic and cartographic techniques for geospatial analysis of population, demographic, and socioeconomic data using ArcGIS Pro. Students identify and utilize current and historical secondary population data sources for GIS analysis of population changes, and for mapping of segregation, inequality, and well-being indicators.
Prerequisite: GIS 3043 or GIS 3001C or URP 4273 with minimum grades of C, or GEO 3430 or SYD 4020.
Attributes: Artificial Intelligence

GIS 4911 Undergraduate Research in Geospatial Trends 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Geospatial Trends. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Geospatial Trends.

GLY 4734 Coastal Morphology and Processes 3 Credits
Grading Scheme: Letter Grade
Examines the nature and variety of coastal processes, and the origin and modification of environmental changes along coasts, including human activities in the coastal zone.
Prerequisite: GEO 2200 or GLY 2010C or GLY 2030C.

MET 1010 Introduction to Weather and Climate 3 Credits
Grading Scheme: Letter Grade
This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: high school algebra.
Attributes: General Education - Physical Science

MET 3300 Atmospheric Dynamics 3 Credits
Grading Scheme: Letter Grade
Covers the principles of physics that govern atmospheric behavior. Dynamic introduces the equations that express the fluid dynamics principles for the atmosphere and the ways of simplifying, interpreting, and applying those equations to understand observed atmospheric motions, particularly on synoptic scales.
Prerequisite: MAC 2312 and PHY 2048

MET 3503 Weather and Forecasting 3 Credits
Grading Scheme: Letter Grade
Provides hands-on experience using weather instruments and making forecasts.
Prerequisite: GEO 2242 or MET 1010 or GEO 2200.

MET 3753 Pragmatic Python for Weather 3 Credits
Grading Scheme: Letter Grade
Provides a fundamental understanding of the Python programming language with a core focus on ingesting, displaying, and analyzing observational meteorological data and numerical weather model data.
Prerequisite: MET 1010 or GEO 2242.

MET 4224C Machine Learning in Meteorology 3 Credits
Grading Scheme: Letter Grade
Hands-on experiences with Machine Learning (ML) from a series of practical case-studies in meteorology. Regression, classification, clustering and retrieval, and deep learning to solve research questions by identifying potential applications of ML, selecting appropriate ML models, representing data as features to serve as input to ML models, and assessing model quality
Prerequisite: Any 3000 level or higher MET prefix course or permission of instructor.

MET 4230 Thermodynamics of the Atmosphere 3 Credits
Grading Scheme: Letter Grade
Detailed survey of atmospheric thermodynamics, which deals with energy transfers and processes involving moisture and stability that affect atmospheric motions and weather systems. Lecture material reinforced and supplemented through lab exercises. This topic is for those who intend to pursue a profession in meteorology, physics, atmospheric/climate science, or engineering.
Prerequisite: MET 3503 and CHM 2045 and MAC 2312 and PHY 2048/L with minimum grades of C.

MET 4301 Atmospheric Dynamics 1 4 Credits
Grading Scheme: Letter Grade
This course covers the forces that govern atmospheric motion; acceleration in rotating curvilinear coordinates; momentum, continuity, and energy equations; scale analysis; geostrophic, gradient, and thermal winds; natural coordinates; circulation and vorticity theorems; Reynolds stresses; Prandtl and Ekman layers; and developing baroclinic systems.

MET 4410 Radar and Satellite Meteorology 3 Credits
Grading Scheme: Letter Grade
Overview of radar and satellite remote sensing as used in the atmospheric sciences, including the principles of atmospheric radiative transfer, the retrieval of atmospheric variables, and emphasis on geospatial interpretation of imagery for different weather systems.
Prerequisite: PHY 2049 and MET 3503.
Attributes: Artificial Intelligence

MET 4450 Atmospheric Physics 3 Credits
Grading Scheme: Letter Grade
Technical and theoretical evaluation of radiative and microphysical properties of the atmosphere, clouds, and precipitation. Course includes radiative transfer processes fundamental to Earth's climate system, and key hypotheses regarding the development of cloud and precipitation, using mathematical principles to understand how droplets condense and grow.
Prerequisite: MAC 2312 with minimum grade of C and CHM 2045 with minimum grade of C and PHY 2048L with minimum grade of C and MET 3503 with minimum grade of C.

MET 4500C Synoptic Meteorology 4 Credits
Grading Scheme: Letter Grade
Comprehensive survey of mid-latitude storm systems using conceptual and theoretical frameworks established through lecture material, and application of these concepts through immersive labs. Content includes atmospheric circulation, mid-latitude cyclones, fronts, jet streams, winter weather and severe storm environments. Appropriate for students seeking a career in atmospheric science or related field.
Prerequisite: MET3503 and CHM 2045 and MAC 2312 and PHY 2048/L with minimum grades of C.

MET 4524 Weather Briefing 1 Credit
Grading Scheme: S/U
Learn to prepare and present a daily weather briefing. Briefings will demonstrate the ability to synthesize weather information on all scales, prepare a forecast, and communicate this clearly and succinctly to an audience.
Prerequisite: MET 4500C with a C grade or better.

MET 4531 Mesoscale Meteorology 3 Credits
Grading Scheme: Letter Grade
Covers the major dynamic and thermodynamic processes of the atmosphere that govern the structure, development, and evolution of weather systems generally smaller than those of the synoptic scale.
Prerequisite: MAC 2312 and PHY 2048 and MET 4500C.

MET 4532 Hurricanes 3 Credits
Grading Scheme: Letter Grade
Meteorological and climatological concepts related to hurricanes. Forecasting current activity, researching past storms and analyzing storm structure, damage and future trends.
Prerequisite: MET 3503 or GEO 3250.

MET 4560 Atmospheric Teleconnections 3 Credits
Grading Scheme: Letter Grade
Atmospheric teleconnections are recurring large-scale patterns of pressure and circulation anomalies. They can influence temperature, rainfall, storm tracks and jet stream location and intensity. Examines how these patterns were discovered, how the index that characterizes the phase of each teleconnection is calculated and the weather associated with different phases.
Prerequisite: MET 3503 or GEO 3250 with a minimum B- grade.
Attributes: Artificial Intelligence

MET 4750 Spatial Analysis of Atmospheric Data using GIS 3 Credits
Grading Scheme: Letter Grade
How atmospheric data are collected and analyzed for meteorologic and climatologic-scale research. Where various types of data are obtained and how to analyze data to answer specific research questions.
Prerequisite: GEO 3250 or MET 3503 or MET 4532
Attributes: Artificial Intelligence

MET 4910 Honors Thesis 3 Credits
Grading Scheme: Letter Grade
Completion of an honors thesis that meets department specifications during the semester in which the student is enrolled.
Prerequisite: Senior standing and participation in department honors program.

MET 4911 Undergraduate Research in Meteorology and Climatology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

MET 4940 Meteorology Internship 1-3 Credits
Grading Scheme: S/U
Complete an internship with a meteorology organization or one that applies meteorology to a related field.
Prerequisite: Meteorology major with sophomore standing or higher.

MET 4950 Capstone in Meteorology 1 Credit
Grading Scheme: Letter Grade
Complete a team project addressing a common meteorological job task, which requires the integration of the core subfields of meteorology and their application to a sector of the weather enterprise. Create a resume, cover letter, and portfolio of completed work in preparation for the next career stage.
Prerequisite: Senior standing in Meteorology.

Geological Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. Geological Sciences trains students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Curriculum

- Combination Degrees
- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

Courses

ESC 1000 Introduction to Earth Sciences 3 Credits
Grading Scheme: Letter Grade
Using the scientific method, critical thinking skills, and data analysis, this course will examine the fundamental processes of the earth system, composed of an atmosphere, hydrosphere, lithosphere, biosphere, and exosphere, through time. The course will also explore interactions between these spheres, including critical analysis of scientific theories and emphasize Earth's connections with humans.
Attributes: General Education - Physical Science

ESC 3075 Deltas and Humans 3 Credits
Grading Scheme: Letter Grade
Examines the historical relationship between humans and deltas, outlining possible coastal management plans in response to sea level rise
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GEO 4281 River Forms and Processes 3 Credits
Grading Scheme: Letter Grade
Examines the nature and variety of fluvial processes and the origin and modification of fluvial landforms. Includes discussion of environmental changes in rivers and human activities in drainage basins.
Prerequisite: GEO 2200 or GLY 2010C, or instructor permission.

GLY 1000 Exploring the Geological Sciences 3 Credits
Grading Scheme: Letter Grade
Selected topics in the geological sciences. For those not majoring in science.

GLY 1102 Age of Dinosaurs 3 Credits
Grading Scheme: Letter Grade
An examination of unique episodes in the physical and biological history of the earth. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science, General Education - Physical Science

GLY 1150L Florida Geology Laboratory 1 Credit
Grading Scheme: Letter Grade
A laboratory course designed to provide a basic understanding of Florida's geology, geologic history, geologic resources and geologically related environmental problems. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Physical Science

GLY 1880 Earthquakes, Volcanoes and Other Hazards 3 Credits
Grading Scheme: Letter Grade
An overview of important topics in earth science through the examination of hazards, ranging from earthquakes and volcanoes to global warming and impacts from space. Designed for students not majoring in science. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Physical Science

GLY 2010C Physical Geology 4 Credits
Grading Scheme: Letter Grade
Using the scientific method, critical thinking skills, and data analysis, this course will examine the fundamental processes of the earth system, composed of an atmosphere, hydrosphere, cryosphere, lithosphere, biosphere, and exosphere through time. The course will also explore interactions between these spheres, including critical analysis of scientific theories and emphasize lithospheric connections with humanity.
Attributes: General Education - Physical Science

GLY 2030C Environmental and Engineering Geology 3 Credits
Grading Scheme: Letter Grade
Hazardous geologic processes and current environmental concerns are related to the earth, the forces acting upon it and the resulting surface features and materials. Human interaction with the environment is illustrated using modern case studies.

GLY 2038 Sustainability and the Changing Earth 3 Credits
Grading Scheme: Letter Grade
Within the realm of earth surface processes, we will examine sustainability challenges to society and seek solutions that optimize economic, societal and environmental benefits. Course materials demonstrate physical and chemical links between the geosphere, hydrosphere, biosphere and atmosphere that directly impact the sustainability of human lifestyles at a variety of timescales. (P) This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Physical Science

GLY 2040 Is the Planet Dying? 3 Credits
Grading Scheme: Letter Grade
This course aims to provide a comprehensive view of how the earth functions as an ever-changing dynamical system. This journey through earth system science will integrate multiple disciplines that include biology, chemistry, geology, geophysics, hydrology, oceanography and meteorology. Students will learn the origin and dynamics of the great forces that shape the evolution of our planet, from the deep interior to its surface. They will also learn that the earth is made up of an interconnection of dynamical systems exhibiting complex behaviors at multiple spatial and temporal scales, which are relevant to society. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Quest 1 Course with a minimum grade of C.
Attributes: Quest 2, General Education - Physical Science

GLY 2042 Planetary Geology 3 Credits
Grading Scheme: Letter Grade
Introduces recent geological exploration of recent terrestrial planets and moons, comets and asteroids, focusing on comparisons of composition and tectonics on the solid planets and moons.

GLY 2100C Historical Geology 4 Credits
Grading Scheme: Letter Grade
Evolution of the earth and its life, including the major physical events and evolutionary changes recorded in the geologic past. Related laboratory, demonstrations and exercises.
Prerequisite: GLY 2010C or GLY 2030C, or instructor permission.

GLY 2110 Climate Change Science and Solutions 3 Credits
Grading Scheme: Letter Grade
Examines the evidence and effects of climate change and uses the issue of climate change to deepen student's understanding of science and its role in society. Working collaboratively, students integrate insights from a variety of natural, social and engineering sciences to develop and evaluate climate change mitigation approaches.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2

GLY 2890 Hazards and Humans 3 Credits
Grading Scheme: Letter Grade
Uses geologic principles to evaluate earthquake and volcanic hazards. Explores the limits of predictive abilities, the challenges of forecasting weather disasters in a changing climate,and the necessity for decision-making despite scientific uncertainty
Attributes: Quest 2

GLY 3074 Oceans and Global Climate Change 3 Credits
Grading Scheme: Letter Grade
Examines the role the oceans play in determining climate and regulating global climate change on a range of timescales from decades to millions of years.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GLY 3083C Fundamentals of Marine Sciences 3 Credits
Grading Scheme: Letter Grade
Introduces the basic disciplines of marine sciences, including geology, chemistry, physics, biology and conservation, with an emphasis on marine research. Includes three mandatory Saturday field trips.
Prerequisite: OCE 1001.

GLY 3105C Evolution of Earth and Life 4 Credits
Grading Scheme: Letter Grade
Advanced examination of the geologic history of planet earth with an emphasis on North America.
Prerequisite: GLY 2010C or GLY 2030C.

GLY 3163 Geology American National Parks 3 Credits
Grading Scheme: Letter Grade
Introduces geological concepts in the context of selected US national parks. Relates geology to the cultural aspects of these parks and present-day environmental concerns.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GLY 3200C Principles of Mineralogy 4 Credits
Grading Scheme: Letter Grade
Concepts of crystallography, crystal chemistry, physical properties of minerals, mineral genesis and systematic study of the rock-forming or otherwise important minerals including the theory and use of the petrographic microscope for study and identification of these minerals in thin section.
Prerequisite: CHM 1030 or CHM 1025, and GLY 2010C or GLY 2030C.

GLY 3202C Earth Materials 3 Credits
Grading Scheme: Letter Grade
Overview of the origin and occurrence of earth materials with a particular emphasis on the identification and classification of minerals and rocks. Activities involve lecture and a fully integrated laboratory component where students learn to identify and classify minerals and rocks through both macroscopic and microscopic investigation.
Prerequisite: 3 credits of GLY, ESC or OCE courses.

GLY 3603C Paleontology 4 Credits
Grading Scheme: Letter Grade
Investigation of the history of life on earth, including aspects of invertebrate and vertebrate paleontology, micropaleontology and paleobotany.
Prerequisite: refer to the department.

GLY 3882C Hydrogeology and Human Affairs 3 Credits
Grading Scheme: Letter Grade
Insight into current scientific, political, legal, social, and economic aspects of hydrogeology.
Prerequisite: Junior standing or higher.

GLY 4041 Survey of Geobiology and Astrobiology 3 Credits
Grading Scheme: Letter Grade
Chemical and physical processes in the atmosphere, hydrosphere, cryosphere and the solid earth influence life processes, which can also influence planetary processes. Explores life as a geological agent and examines the interaction between biology and the earth system during the roughly 4 billion years since life first appeared.
Prerequisite: GLY 2010C.

GLY 4043 Cosmochemistry 3 Credits
Grading Scheme: Letter Grade
Chemistry of early Solar System and planetary processes. Emphasizes planetary materials and the accretion, differentiation, and magmatic evolution of the terrestrial planets and asteroids.
Prerequisite: GLY 4310C or GLY 3202C.

GLY 4155C Geology of Florida 3 Credits
Grading Scheme: Letter Grade
Principles of physical and historical geology as applied to the geology and mineral resources of Florida.
Prerequisite: GLY 2010C or GLY 2030C, or instructor permission.

GLY 4310C Igneous and Metamorphic Petrology 4 Credits
Grading Scheme: Letter Grade
Fundamental concepts, principles and data that pertain to the genesis of igneous and metamorphic rocks. Emphasizes mineral phase relations, interpretive petrochemistry, magma genesis and tectonic relationships.
Prerequisite: CHM 1025 and GLY 3200C.

GLY 4400C Structural Geology and Tectonics 4 Credits
Grading Scheme: Letter Grade
Structural features of the earth, their causes, recognition and interpretation; includes the mechanics of folding, faulting, and other deformations of the earth's crust.
Prerequisite: (GLY 2010C or GLY 2030C) and MAC 1147 and GLY 4552C.

GLY 4450 Geophysics 3 Credits
Grading Scheme: Letter Grade
Introduces the basic types of geophysical data used to characterize the subsurface. Learn about seismic refraction and reflection, gravity, magnetics, heat flow, and electromagnetic methods.
Prerequisite: (GLY 2010C or GLY 2030C or GLY 1000) and (MAC 2311 or MAC 2233).

GLY 4552C Sedimentary Geology 4 Credits
Grading Scheme: Letter Grade
Basic disciplines important in understanding the origin and classification of sedimentary rocks including sedimentary petrology, sedimentology, and stratigraphy.
Prerequisite: (GLY 2100C or GLY 3105C) and GLY 3200C.

GLY 4700 Geomorphology 3 Credits
Grading Scheme: Letter Grade
Introduces the processes responsible for the formation and evolution of Earth surface features and landscapes. Emphasizes understanding of how first principles of physics and chemistry can be used to explain landform shaping.
Prerequisite: (GLY 2010C or GLY 2030C) and an additional 3 credits of GLY.

GLY 4726 Chemical Oceanography 3 Credits
Grading Scheme: Letter Grade
Focuses on chemical properties and processes in the oceans, exploring the links between chemistry, biology, geology, and global change within a marine context. Topics include elemental composition and speciation, biogeochemical cycles, chemical and isotopic tracers, chemistry of marine sediments, and oceanic uptake of anthropogenic carbon.
Prerequisite: CHM 2045 and (OCE 1001 or GLY 2010C or GLY 2030C).

GLY 4734 Coastal Morphology and Processes 3 Credits
Grading Scheme: Letter Grade
Examines the nature and variety of coastal processes, and the origin and modification of environmental changes along coasts, including human activities in the coastal zone.
Prerequisite: GEO 2200 or GLY 2010C or GLY 2030C.

GLY 4750L Geological Field Methods 2 Credits
Grading Scheme: Letter Grade
Methods and techniques used in geological fieldwork.
Prerequisite: GLY 3105C or GLY 2100C, or instructor permission.

GLY 4790 Geology Summer Field Camp 4 Credits
Grading Scheme: Letter Grade
Summer geology field camp in northern New Mexico. Application of field procedures and techniques to the solution of geologic problems and construction of geologic maps.
Prerequisite: GLY 4750L and instructor permission.

GLY 4822 Groundwater Geology 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts of groundwater flow and its relationship to subsurface geology. Practice in applying groundwater flow concepts and problem solving.
Prerequisite: Any GLY 2000-level course or higher and (MAC 1147 or MAC 2311).

GLY 4862 Quantitative Methods in Earth Sciences 3 Credits
Grading Scheme: Letter Grade
Provides the skills to analyze data and construct simple numerical models to investigate problems in earth sciences. Topics include statistical/time series/geospatial analyses, dynamic systems modeling, and numerical solutions to differential equations.
Prerequisite: MAC 2311 or equivalent.

GLY 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
For work in addition to that offered in regular courses in mineralogy, petrology, paleontology, stratigraphy, sedimentology and structural geology.
Prerequisite: 15 credits of geology and instructor permission.

GLY 4911 Undergraduate Research in Geology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in geology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in geology.

GLY 4930 Special Topics in Geology 1-3 Credits
Grading Scheme: Letter Grade
Lecture, conferences or laboratory sessions covering selected topics of current interest in modern geology.
Prerequisite: three courses in geology or instructor permission.
Attributes: Artificial Intelligence

GLY 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade

OCE 1001 Introduction to Oceanography 3 Credits
Grading Scheme: Letter Grade
Using the scientific method, critical thinking skills, and data analysis, this course will examine the fundamental processes of the ocean system, composed of an atmosphere, hydrosphere, lithosphere, and biosphere, through time. The course will also explore interactions between these spheres, including critical analysis of scientific theories and emphasize oceanic connections with humanity.
Attributes: General Education - Physical Science

Geomatics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Curriculum

- Combination Degrees
- Fire Ecology and Management Certificate
- Fisheries and Aquatic Sciences Minor
- Forest Health Management Certificate
- Forest Resources and Conservation
- Forest Resources and Conservation Minor
- Geomatics
- Geomatics Certificate
- Mapping with Small Unmanned Aerial Systems Certificate
- Natural Resource Conservation

Courses

FNR 3073 Florida's Forest Communities 2 Credits
Grading Scheme: Letter Grade
Learn to recognize Florida forest communities and the dominant trees and common plants that grow in them. Using the principles of plant taxonomy and tree identification skills, identify common Florida forest trees by using visual physical plant characteristics coupled with habitat cues and tree species groupings. Finally, learn to apply these classifications to describe the conditions that underlie forest community distributions in Florida.
Prerequisite: Junior or senior standing.

GIS 3072C Geographic Information Systems 3 Credits
Grading Scheme: Letter Grade
Addresses GIS concepts, data sources, spatial references: GIS data modeling, management, and editing; surface modeling; and vector and raster analysis. Provides practical examples, tutorials, and projects serving the geomatics, natural resource management, and planning fields.
Prerequisite: Junior standing or higher.

GIS 4121 Geospatial Analysis 3 Credits
Grading Scheme: Letter Grade
Process of identifying and analyzing patterns in geographic data and describing relationships between spatial features. Introduces techniques aimed at the analysis of spatial data. Topics include characterization of spatial data, geographic distributions, pattern identification (point and area objects), field data analysis, spatial modeling and interpolation, regression methods and cluster analysis.
Prerequisite: GIS 3072C and STA 2023 and Geomatics major of junior standing or higher.

SUR 3103C Geomatics 3 Credits
Grading Scheme: Letter Grade
Introduces angle, distance and elevation measurement, as applied to engineering, boundary location, topography, forest management and construction. Covers error theory as well as horizontal and vertical curves.
Prerequisite: MAC 1147 and MAC 2311 placement or equivalent.

SUR 3323 Visualization of Spatial Information 3 Credits
Grading Scheme: Letter Grade
Methods of mapping, modeling, communicating, and visualizing spatial features. Includes boundary and topographical features, attributes, site modeling, site development, and mapping using computer-aided mapping and design features.
Prerequisite: MAC 1105 or MAC 1140.

SUR 3331C Photogrammetry 3 Credits
Grading Scheme: Letter Grade
Relates to use of aerial photographs to determine spatial information. Covers elementary techniques of photogrammetry to establish the foundation for SUR 4350 Advanced Photogrammetry.
Prerequisite: SUR 3103C or equivalent.

SUR 3520 Measurement Science 3 Credits
Grading Scheme: Letter Grade
Theory of measurement errors, error propagation, variance and covariance, polynomial curve fitting, regression analysis, correlation and least squares adjustment.
Prerequisite: MAC 2233 and STA 2023 and SUR 3641 or the equivalents.

SUR 3641 Survey Computations 3 Credits
Grading Scheme: Letter Grade
Principles of geometry applied to surveying computations. Computer methods in surveying.
Corequisite: SUR 3103C or equivalent.

SUR 4201 Route Geometrics and Design 3 Credits
Grading Scheme: Letter Grade
Geometric design of transportation systems, computer applications, and a comprehensive design project. Covers spiral curves, superelevation theory, and earthwork analysis.
Prerequisite: SUR 3103C or equivalent and Geomatics or Civil Engineering major.

SUR 4345 Marine Geomatics 3 Credits
Grading Scheme: Letter Grade
Six-week course on the technologies, concepts, and methods required to acquire, analyze, and manage geographic data used in seafloor mapping and imaging. Provides background on the capabilities and limitations of different data collection systems, as well as for the other types of sensors necessary to collect accurate information. Topics include marine positioning, underwater acoustics, sonars, hydrographic standards, multibeam echosounder systems, and hydrographic survey design.
Prerequisite: Junior or senior standing.

SUR 4350C Advanced Photogrammetry 3 Credits
Grading Scheme: Letter Grade
Precise photogrammetric measurements, camera calibration, object space coordinate systems, analytical control extension, stereoplotter mapping, digital mapping and softcopy stereoplotters.
Prerequisite: SUR 3331C and SUR 3520, or the equivalents.

SUR 4376 Geospatial Applications of UASs 3 Credits
Grading Scheme: Letter Grade
Covers contemporary issues and common applications associated with small UASs (Unmanned Aerial Systems).
Prerequisite: Junior or senior standing.

SUR 4380 Remote Sensing 3 Credits
Grading Scheme: Letter Grade
Remote sensing systems, ground truthing, image classification systems, mapping applications, applications in plant and animal science, urban planning, engineering, geology, and integration into geographic information systems.
Prerequisite: Geomatics major of senior standing.

SUR 4403 Cadastral Principles 3 Credits
Grading Scheme: Letter Grade
Cadastral systems, land boundaries, corners and areas; writing land descriptions and identification of land parcels; legal principles of boundary survey, office and business practices; professional standing.
Prerequisite: SUR 3103C or equivalent.

SUR 4430 Surveying and Mapping Practice 3 Credits
Grading Scheme: Letter Grade
Studies land survey practice: the lot survey, the sectional survey and the water boundary survey. Also includes office and business practices and professional standing.
Prerequisite: SUR 3520 and SUR 4403, or the equivalents.

SUR 4463 Subdivision Design 3 Credits
Grading Scheme: Letter Grade
Design a medium-sized subdivision, including the master plan development, physical development considerations, legal requirements, comprehensive project, mock presentation and platting.
Prerequisite: SUR 3323 or equivalent;
Corequisite: SUR 4201.

SUR 4501C Foundations of UAS Mapping 3 Credits
Grading Scheme: Letter Grade
Covers the fundamental components of small unmanned aerial systems (UASs) and how they are used to produce high resolution, spatially accurate, planimetric maps and 3-D models of the terrain.
Prerequisite: SUR 3103C or equivalent.

SUR 4530 Geodesy and Geodetic Positioning 3 Credits
Grading Scheme: Letter Grade
Introduces geometric and physical geodesy, ellipsoids, geodetic lines, computation or position, gravity and coordinate systems.
Prerequisite: SUR 3103C or equivalent.

SUR 4905 Special Problems in Geomatics 1-3 Credits
Grading Scheme: Letter Grade
Special problems or projects in geomatics.
Prerequisite: Instructor permission.

SUR 4911 Supervised Research in Geomatics 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in geomatics under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

SUR 4912 Senior Project 1 Credit
Grading Scheme: Letter Grade
Laboratory, equipment, or literature investigations of surveying and mapping problems and concepts of current interest resulting in a written work. This foundational course is the second of a two-course sequence for senior Geomatics students to develop an experiential learning project focused on a self-selected surveying and mapping problem.
Prerequisite: SUR4911

SUR 4915 Honors Thesis Research in Geomatics 0-3 Credits
Grading Scheme: S/U
Independent research in geomatics leading to an honors thesis; mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

SUR 4934 Topics in Geomatics 1-4 Credits
Grading Scheme: Letter Grade
Selected topics in geomatics, including special issues and in-depth study of topics not discussed in other courses.
Prerequisite: Instructor permission.

SUR 4940C Practicum in UAS Mapping 3 Credits
Grading Scheme: Letter Grade
Provides hands-on experience with flight planning and safe deployment of small UASs (Unmanned Aerial Systems) and the subsequent processing of the imagery acquired on these flights.
Prerequisite: SUR 4501C.

SUR 4949 Co-op Work Experience 2 Credits
Grading Scheme: S/U
Practical field experience of sufficient academic rigor.
Prerequisite: Geomatics major.

German | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

Courses

GER 1125 Discover German 1 5 Credits
Grading Scheme: Letter Grade
First semester of a two-semester sequence that includes Discover German 2. In this innovative online course, students acquire basic skills in the German language and use the Internet as a resource to explore aspects of German culture and everyday life.

GER 1126 Discover German 2 5 Credits
Grading Scheme: Letter Grade
Continuation of Discover German 1. Continue acquiring basic skills in the German language using the Internet to explore aspects of German culture and everyday life.
Prerequisite: GER 1125 with minimum grade of C, or S, or the equivalent.

GER 1130 Beginning Intensive German 1 5 Credits
Grading Scheme: Letter Grade
The first semester of the basic language sequence for beginning learners of German. Emphasis is on communicating in German through speaking, listening, reading, writing, and culturally related topics. Communication in German is enhanced by the use of various authentic texts, music, film, and other materials.

GER 1131 Beginning Intensive German 2 5 Credits
Grading Scheme: Letter Grade
Second semester of the basic language sequence. Emphasis on communicating in German through speaking, listening, reading, writing and culturally-related topics. Communication in German is enhanced by the use of various authentic texts, music, film and other materials.
Prerequisite: GER 1130 with minimum grade of C, or S, or the equivalent.

GER 2200 Intermediate German 1 3 Credits
Grading Scheme: Letter Grade
Participants will improve their skills in the four basic areas (reading, writing, listening comprehension, speaking) by reviewing elements of grammar, particularly morphology (i.e., word forms), and by expanding vocabulary. Upon successful completion, students may go directly to Advanced German.
Prerequisite: GER 1104 or GER 1126 or GER 1131, or the equivalent.

GER 2225 Online Intermediate German I 3 Credits
Grading Scheme: Letter Grade
Employs web-based learning resources to develop B1-level proficiencies via the reinforcement of speaking and listening comprehension, reading, and writing skills, and an exploration of selected cultural topics. For self-starters who are comfortable and successful working individually and in groups in an online learning environment.
Prerequisite: (GER 1130 and GER 1131) or (GER 1125 and GER 1126) or (10 university-level credits of beginning German) or the equivalent.

GER 2226 Online Intermediate German II 3 Credits
Grading Scheme: Letter Grade
Develops language comprehension and production skills in work on German texts with various topics (historical, scientific, medical, artistic, etc.) and via online writing tasks and speaking exercises in biweekly synchronous student-instructor meetings.
Prerequisite: GER 2225 or instructor permission.

GER 2240 Intermediate German 2 3 Credits
Grading Scheme: Letter Grade
Objectives include improving reading and speaking skills at the intermediate level. Upon completion participants will be able to pronounce German words more accurately, listen with greater comprehension to German and respond to questions about a variety of recorded texts. Upon successful completion, students may go directly to Advanced German.
Prerequisite: GER 2200 or the equivalent.

GER 2270 Intermediate German Abroad 3-9 Credits
Grading Scheme: Letter Grade
A review of the major aspects of grammar in a context that enhances understanding of German and aims at a level of proficiency above the A2 level of the Common European Framework of Reference for Languages.
Prerequisite: GER 1126 or GER 1131.

GER 3234 Reading German Texts 3 Credits
Grading Scheme: Letter Grade
Upon completion, students will be able to read literary and nonliterary texts and to identify the more common syntactical, stylistic and rhetorical elements.
Prerequisite: GER 2240 or GER 2270 with a minimum grade of C.

GER 3300 Writing German Texts 3 Credits
Grading Scheme: Letter Grade
Special focus on strategies, grammar and vocabulary involved in writing in German. Works toward a writing proficiency level that corresponds to the B1 level as defined by the European Framework of Reference for Languages and measured by the Goethe Institute exam Zertifikat Deutsch.
Prerequisite: GER 2240 or GER 2270 with a minimum grade of C.

GER 3330 German Language and Culture 1 3 Credits
Grading Scheme: Letter Grade
Introduces German civilization through grammar review, vocabulary building, reading and essay writing. Upon completion, students will be able to discuss cultural and literary concepts in German.
Prerequisite: GER 2200 or GER 2240.

GER 3332 Topics in German Film and Culture 1 Credit
Grading Scheme: Letter Grade
GER 3224 is taught as a FLAC accompaniment to various courses. A discussion forum covering different topics in German film and culture. All materials and class discussions will be in German.
Prerequisite: GER 2240 or GER 2270 with a minimum grade of C.

GER 3401 German Grammar Review 3 Credits
Grading Scheme: Letter Grade
An intensive semester-long review of German grammar.
Prerequisite: GER 2240 or GER 2270 with a minimum grade of C.

GER 3413 German Listening, Comprehension and Speaking 3 Credits
Grading Scheme: Letter Grade
Develops the ability to understand and produce basic kinds of speech (descriptions, simple stories, etc.).
Prerequisite: GER 2200 or GER 2240, or instructor permission.

GER 3440 German in Business 3 Credits
Grading Scheme: Letter Grade
Study of Wirtschaftsdeutsch and the ability to read and write texts in German for international business transactions. Acquire the ability to communicate in German in professional business settings.
Prerequisite: GER 2240 OR GER 2270 with a minimum grade of C.

GER 3470 Advanced German Abroad 3-9 Credits
Grading Scheme: Letter Grade
Practical, in-class communication exercises at an advanced level in comprehension, speaking, reading and writing. Prepares students to achieve a proficiency level above the B1 level as established by the Common European Framework for Languages.
Prerequisite: GER 2240 or GER 2270 with a minimum grade of C.

GER 4482 Cultural Identity and Intercultural Competence 3 Credits
Grading Scheme: Letter Grade
Listening comprehension and speaking ability in work involving German cultural identity, online and in class.
Prerequisite: GER 3410 or instructor permission.

GER 4930 Variable Topics in German Studies 3 Credits
Grading Scheme: Letter Grade
Working with German media such as major newspapers, magazines, radio and television programs, students will refine their language skills to a level similar to the B2 level of the Common European Framework for Languages.
Prerequisite: 6 credits of coursework at the GER 3000-level.

GER 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

GET 2100 German Literary Heritage 3 Credits
Grading Scheme: Letter Grade
Upon completion participants will be able to discuss major works of German literature, mainly from the 18th to the 20th century. Texts and lectures in English. Knowledge of German is not required.

GET 3003 German Culture and Civilization 1 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Introduces German civilization from the earliest times to the beginning of the 19th century. Become acquainted with German literature, philosophy, art, music, and architecture. Taught in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GET 3004 Modern German Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Introduces German civilization in the 19th and 20th centuries. Discuss developments in German literature, philosophy, art, music, and architecture. Taught in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GET 3200 Medieval Literary Culture 3 Credits
Grading Scheme: Letter Grade
Studies the German literary culture of the Holy Roman Empire during the Middle Ages in its broader European context. Examines literary culture in relation to Latin literary traditions, as well as to other cultural domains such as the arts, architecture, theology, and politics.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: Satisfies 4000 Words of Writing Requirement

GET 3201 Early Modern Literary Culture 3 Credits
Grading Scheme: Letter Grade
Studies the early modern literary culture of German-speaking regions of the Holy Roman Empire in the broader European context. Examines this culture's relation to pan-European developments, including the Renaissance, Humanism, the Reformation, and developments in the arts, architecture, theology, and politics.
Prerequisite: sophomore standing or higher.

GET 3501 History, Literature and Arts of Berlin 3 Credits
Grading Scheme: Letter Grade
Gain a working knowledge of the history and culture of Berlin from 1871 to the present by exploring literature, painting, and film. Authors and artists include Mann, Brecht, Dix, and Wenders.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GET 3520 Early German Cinema to 1945 4 Credits
Grading Scheme: Letter Grade
Historical overview of the most influential films of German classical cinema, including how they relate to the social reality of the 1920s and 30s.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GET 3580 Representations of War in Literature and Visual Media 3 Credits
Grading Scheme: Letter Grade
Study of the shifting cultural representations of war (literature/art) in the 20th century, focusing primarily on European history, culture and politics. Primary sources include Mann, Remarque, Boll, Celan, Grosz, and Kiefer.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GET 3930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics in German Studies in English translation.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GET 4521 Women and German Cinema 4 Credits
Grading Scheme: Letter Grade
Women and German Cinema
Prerequisite: Sophomore standing or higher.

GET 4523 New Cinema 1945 to the Present 4 Credits
Grading Scheme: Letter Grade
New Cinema 1945 to the Present
Prerequisite: Sophomore standing or higher.

GET 4930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in German studies, in English translation.
Prerequisite: 3 credits at 3000 level or above, or instructor permission.

GEW 3930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics in German Studies.
Prerequisite: GER 2000 or instructor permission.

GEW 4301 Introduction to German Drama and Theater 3 Credits
Grading Scheme: Letter Grade
Survey of German drama from the late medieval period to the present. Introduction to major forms, periods and authors such as Lessing, Goethe, Schiller, and Brecht.
Prerequisite: Six credits of GER credit at the 3000-level.

GEW 4401 Cities as Cultural Centers 3 Credits
Grading Scheme: Letter Grade
Study of German, Austrian, and Swiss cities as cultural centers. Employs online learning resources to expand knowledge of urban cultures in German-speaking Europe and to develop linguistic and cultural proficiency toward the B2 level according to CEFR standards.
Prerequisite: Six credits of GER credit at the 3000-level.

GEW 4730 Modern German Literature 3 Credits
Grading Scheme: Letter Grade
Major trends of German literature in the first half of the 20th century, including impressionism, expressionism, Neue Sachlichkeit, workers literature, and Nazi culture. Discusses works by Thomas Mann, Hermann Hesse, and Bertolt Brecht.
Prerequisite: Six credits of GER credit at the 3000-level.

GEW 4731 Contemporary German Literature 3 Credits
Grading Scheme: Letter Grade
Learn to discern the major trends of post WW II German literature and recognize the key features of works by such German authors as Böll, Grass, Weiss, and Wolf, and by such Swiss and Austrian writers as Frisch, Dürrenmatt, and Handke.
Prerequisite: 6 credits of GER at the 3000-level.

GEW 4750 Women in German Literature 3 Credits
Grading Scheme: Letter Grade
The image of women in representative works of German literature. Study of the main themes and structures in selected works by major women writers of German-speaking countries and their unique contribution to German culture and literature. Students will use an interdisciplinary approach to literature and will learn the basic tools of gender studies.
Prerequisite: Six credits of GER credit at the 3000-level.

GEW 4760 Communities Writing in German 3 Credits
Grading Scheme: Letter Grade
Writings (prose, poetry, critical essays) of significant authors of non-German descent (i.e., Spaniards, Italians, Turks, Iranians) from the 1950s to the present. Insights into the lives and thinking of significant ethnic minorities in Germany during this period and the implications for German literary history and German identity. Films are also screened and discussed.
Prerequisite: Six credits of GER credit at the 3000-level.

GEW 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.

GEW 4911 Undergraduate Research in German 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in German. Projects may involve inquiry, design, investigation, scholarship, discovery or application in German.

GEW 4930 Seminar in Germanic Languages and Literatures 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Germanic language or literature.
Prerequisite: Six credits of GER credit at the 3000-level.

MEM 2500 The Tales of King Arthur 3 Credits
Grading Scheme: Letter Grade
Upon completion students will be familiar with some of the great literary works of the Arthurian tradition, and with the manner in which the tales of King Arthur serve, from their sixth century Celtic origins throughout the Western canon, to articulate the interests and values of different social groups through history.
Attributes: General Education - Humanities, General Education - International

MEM 3300 Castles and Cloisters: An Introduction to Medieval Communities 3 Credits
Grading Scheme: Letter Grade
Studies monastic and courtly-chivalric communities as these evolved in the Middle Ages. Explores architecture, art, literature, and music illustrate how different monastic and chivalric communities saw the world and their place in it.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

Courses

GMT 4911 Undergraduate Research in Modern Greek Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

GRE 1120 Beginning Ancient Greek 1 4 Credits
Grading Scheme: Letter Grade
The basics of ancient Greek grammar, morphology, syntax and vocabulary.

GRE 1121 Beginning Ancient Greek 2 4 Credits
Grading Scheme: Letter Grade
The basics of ancient Greek grammar, morphology, syntax and translation, with special attention to irregular verbs.
Prerequisite: GRE 1120 or GRE 1130.

GRE 1130 Accelerated Beginning Ancient Greek 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, GRE 1131, constitute the basic sequence for development of overall skill in the language.

GRE 1131 Accelerated Beginning Ancient Greek 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: GRE 1130 or the equivalent.

GRK 1130 Beginning Modern Greek 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, GRK 1131, constitute the basic sequence for development of overall skill in the language.

GRK 1131 Beginning Modern Greek 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: GRK 1130 or the equivalent.

GRK 2200 Intermediate Modern Greek 1 3 Credits
Grading Scheme: Letter Grade
Readings in modern Greek literature, history and culture.
Prerequisite: GRK 1131 or the equivalent.

GRK 2201 Intermediate Modern Greek 2 3 Credits
Grading Scheme: Letter Grade
Additional readings in modern Greek literature, history and culture.
Prerequisite: GRK 2200 or the equivalent.

GRK 4300 Modern Greek Literature Since 1830 3 Credits
Grading Scheme: Letter Grade
Advanced study of representative modern Greek prose, poetry and drama in the original from independence (1830) to the present. The course combines the study of the modern Greek language with readings, analysis and discussion of major literary works.
Prerequisite: GRK 2201 or the equivalent.

GRK 4905 Individual Work in Modern Greek 1-4 Credits
Grading Scheme: Letter Grade
For advanced students who seek independent work not offered in another course. Must be arranged individually with Greek faculty.
Prerequisite: GRK 1131.

GRW 2211 Intermediate Greek Prose 3 Credits
Grading Scheme: Letter Grade
Readings selected from Attic Greek prose authors designed to aid students in the transition from grammar to connected prose passages.
Prerequisite: GRE 1121 or GRE 1131 or the equivalent.

GRW 2240 New Testament Greek 3 Credits
Grading Scheme: Letter Grade
Reviews grammar and forms. Readings from several books of the New Testament.
Prerequisite: some knowledge of Greek and instructor permission.

GRW 3102 Survey of Greek Literature 2 3 Credits
Grading Scheme: Letter Grade
Studies representative texts from various periods of Greek literature.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GRW 3301 Greek Drama 3 Credits
Grading Scheme: Letter Grade
Selected plays of Aeschylus, Sophocles or Euripides.
Prerequisite: one 2000-level Greek course or the equivalent.

GRW 3501 Plato 3 Credits
Grading Scheme: Letter Grade
Studies Plato's Meno and Apology.
Prerequisite: GRE 1131 or the equivalent.

GRW 4330 Greek Lyric Poetry 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of Greek lyric poetry, from Archilochus to Bacchylides.
Prerequisite: two 3000-level Greek courses or the equivalent.

GRW 4340 Homer and Greek Epic 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Homer's Iliad and Odyssey.
Prerequisite: two 3000-level Greek courses or the equivalent.

GRW 4380 Greek Historians 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections of Herodotus, Thucydides, Xenophon, and Plutarch.
Prerequisite: two 3000-level Greek courses or the equivalent.

GRW 4700 Greek Orators 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Lysias, Demosthenes and Isocrates. (N)
Prerequisite: two 3000-level Greek courses or the equivalent.

GRW 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Reading, conference and reports.
Prerequisite: GRE 1131 or the equivalent.

GRW 4911 Undergraduate Research in Greek Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

GRW 4930 Studies in Greek Literature 3 Credits
Grading Scheme: Letter Grade
Advanced study of a particular author, genre, period or subject.
Prerequisite: one 3000-level course in ancient Greek.

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
In this course, students will be assigned readings representative of a broad range of literary genres and cultures. These readings will cover a variety of literary movements and historical eras. The readings will include selections from the Western canon. Written analysis of literary works may be required. Students will be provided with opportunities to practice critical interpretation.
Prerequisite: ENC 1101
Attributes: General Education - Humanities

Courses

HAI 1130 Beginning Haitian Creole 1 5 Credits
Grading Scheme: Letter Grade
HAI 1130 and its sequel, HAI 1131, constitute the basic sequence for development of conversational skills and grammar essentials in the language.
Prerequisite: bilingual students are encouraged to speak to the instructor as they may be able to enter directly into HAI 1131 to satisfy their foreign language requirement.

HAI 1131 Beginning Haitian Creole 2 5 Credits
Grading Scheme: Letter Grade
Second part of the basic Haitian Creole sequence for development of conversational skills and grammar essentials in the language.
Prerequisite: HAI 1130 or the equivalent.

HAI 2200 Intermediate Haitian Creole 1 3 Credits
Grading Scheme: Letter Grade
Concentrates on conversation and readings and provides an introduction to Haitian culture through music and film.
Prerequisite: HAI 1131 or the equivalent.

HAI 2201 Intermediate Haitian Creole 2 3 Credits
Grading Scheme: Letter Grade
Continued concentration on conversation with added emphasis on reading and perspectives on issues related to the Haitian way of living.

HAI 3930 Topics in Haitian Language and Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics in Haitian language, culture, and society.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

HAI 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Must be arranged individually with Haitian faculty.
Prerequisite: department permission.

HAI 4911 Undergraduate Research in Haitian Creole 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in language, linguistics, literature, culture in Haitian Creole. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

HAT 3503 Haitian Culture and Literature in Translation 3 Credits
Grading Scheme: Letter Grade
Examines representations of Haiti and its culture through Haitian literature, art, film, and music.
Attributes: General Education - International

HAT 3564 Haitian Culture and Society 3 Credits
Grading Scheme: Letter Grade
Addresses central aspects of history, politics, environment, and development, including attention to gender relations, medicine, education, work, race, and class. No knowledge of Haitian Creole is required.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit
Attributes: General Education - International, Satisfies 2000 Words of Writing Requirement

HAT 3700 Introduction to Haitian Creole Linguistics 3 Credits
Grading Scheme: Letter Grade
Examines the major sub-fields of linguistics by means of the Haitian Creole language. Introduces Haitian Creole syntax, morphology, phonology, semantics, and lexicon, as well as sociolinguistics, dialectology, language planning, bilingualism, and language contact.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 2000 Words of Writing Requirement

HAT 4911 Undergraduate Research in English, Haitian Creole or French 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application in some combination of English, Haitian Creole or French.

JMT 3500 Jamaican Creole, Reggae, and Rastafari 3 Credits
Grading Scheme: Letter Grade
Studies Jamaican Creole, reggae music, and Rastafari religion and culture; introduces the language, music, and religion of the Caribbean island. Methodology includes linguistics, ethnomusicology, and religious studies to read Jamaican Creole, interpret reggae songs, and analyze the Rastafari culture to which they link.
Prerequisite: At least sophomore standing or LAS 2001 or AFH 2000 or AFA 2000 or REL 2000.
Attributes: General Education - International, Satisfies 2000 Words of Writing Requirement

School Information

The Hamilton School of Classical and Civic Education is devoted to research and teaching on Western civilization and the principles of a free society. Here students see past their horizons and prepare for lifetimes of leadership by studying the greatest works of the Western tradition and beyond. Open inquiry and the pursuit of excellence grounded in Western civilization and the American experience are the foundation of an education that will lead our students to thrive not just while at the University of Florida, but throughout their lives and careers. Liberal education promises to be a transformative experience and the university, “the meeting place of the greats.” The Hamilton School of Classical and Civic Education fulfills that promise.

Courses

AMS 1314 What is America For? 3 Credits
Grading Scheme: Letter Grade
The modern philosopher David Hume argued that “man, born in a family, is compelled to maintain society, from necessity, from natural inclination, and from habit.” We are all born into a particular political society. Good citizenship demands that we pursue the good of that political society. To do that, we must understand what that society is meant to achieve. In this class, we will explore this essential question: what is America for? We will reflect on how we, as rational and political animals, share and pass on a particular way of life. We will ask how we can rightly claim that there is one American way of life and one way to live it out when we live in a pluralistic society. We will ask whether American identity and purpose have changed—or remained the same—over time. We will take a multidisciplinary approach to these questions, incorporating elements of philosophy, religion, history, political science, and literature. We will consider the roles of religion and culture, urbanism and ruralism, and tradition and progress as we grapple with this essential question of national purpose.
Attributes: Quest 1, General Education - Humanities

AMS 2010 Civil Discourse and the American Political Order 3 Credits
Grading Scheme: Letter Grade
Explore the concept of civil discourse along with the basic principles of American democracy and how they are applied in our republican form of government. Through a review of the US constitution, founding documents and landmark supreme court cases, understand how the nature and functions of our institutions of self-governance have been shaped. Learn to apply these lessons to case studies.
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

AMS 2183 Classics of American Thought I: English Settlement to the Civil War 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary survey of the ideas, texts, and authors that have shaped the American tradition and its attendant concepts of freedom, democracy, equality, and nationhood. Learn about America’s cultural and political heritage by reading and discussing great works of philosophy, constitutional interpretation, science, political thought, history, and literature, and the arts, beginning with English settlement and concluding at the end of the Civil War.

AMS 2330 America Great Debates 3 Credits
Grading Scheme: Letter Grade
This course surveys political concepts and debates regarding liberty and equality in American thought from the colonial period to the present. These ideas still influence political debates in present-day America. One of the course’s central themes is the three centuries’ long American conflicts between liberty and equality and between constitutionalism and democracy.
Attributes: Quest 2, General Education - Social Science, Satisfies 2000 Words of Writing Requirement

AMS 2814 Classics of American Thought II: Reconstruction through the Twentieth Century 3 Credits
Grading Scheme: Letter Grade
This multidisciplinary course surveys the ideas, texts, and authors that have shaped the American tradition and its attendant concepts of freedom, democracy, equality, and nationhood. Students will learn about America’s cultural and political heritage by reading and discussing great works of philosophy, constitutional interpretation, political thought, history, literature, and the arts, beginning in Reconstruction and concluding at the end of the twentieth century.

AMS 3043 American Law 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary rotating topics consider major American legal traditions from the colonial era to the present. Courses will focus on one major theme, such as free speech, rule of law and constitutionalism, considered by American authors and refracted through the American experience.
Prerequisite: 3 credits of AMS, ISS, HIS, PHI, POS, or ECO.

AMS 3334 American Conflicts 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary rotating topics consider major American conflicts from the colonial era to the present. Topics focus on one major conflict in American political, social, cultural, or economic life.
Prerequisite: 3 credits of AMS, ISS, HIS, PHI, POS, or ECO.

AMS 3523 American Cultural Movements 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary rotating topics which focus on major American cultural movements from the colonial era to the present. Topics include the historical, cultural, political, economic and social aspects of these major cultural movements.
Prerequisite: 3 credits of an AMS or ISS or HIS or PHI or POS or ECO course.

AMS 3607 American Characters 3 Credits
Grading Scheme: Letter Grade
This multidisciplinary rotating topics course considers major American figures or groups from the colonial era to the present. Courses will focus on one major figure or set of figures such founders, Puritans, leaders and their roles in American historical, cultural, political, economic and social life.
Prerequisite: 3 credits of AMS, ISS, HIS, PHI, POS, or ECO.

AMS 3806 American Ideas 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary rotating topics consider major American intellectual traditions from the colonial era to the present. Topics focus on one major theme, such as progress, liberalism, conservatism, environmentalism and freedom, considered by American authors and refracted through the American experience.
Prerequisite: 3 credits of AMS, ISS, HIS, PHI, POS, or ECO

AMS 4970 American Government, History, Literature, and Law Research Seminar 3 Credits
Grading Scheme: Letter Grade
This course provides students with the support, framework, and deadlines for completing the senior thesis in the American History, Government, Literature, and Law major. The process of writing a senior thesis involves original research, with extensive use of primary materials, under the supervision of a faculty advisor in the Hamilton Center. This course helps facilitate that process by providing deadlines for thesis chapter completion and providing a workshop environment with peers.
Prerequisite: 9 credits of AMS, ISS, HIS, PHI, POS, or ECO.

ISS 1020 Who Am I? The Self from Antiquity to 1700 3 Credits
Grading Scheme: Letter Grade
Who am I? What is identity and the self? Where does my identity come from and how is it formed? In this multidisciplinary and discussion-based course, we will explore these perennial questions by tracing the development of ideas about the self and identity in the western intellectual tradition.
Attributes: Quest 1, General Education - Humanities

ISS 1104 Wisdom and Heroism 3 Credits
Grading Scheme: Letter Grade
What did it mean to be wise and heroic in the Middle Ages? How do medieval European views of wisdom and heroism compare with modern views? We will explore these questions by examining different ideals of wisdom and heroism in medieval history, literature, philosophy, art, architecture, and music.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, General Education - Humanities

ISS 1110 The American Idea 3 Credits
Grading Scheme: Letter Grade
The United States of America has been described as the first nation in the world founded on a creed––a set of beliefs and ideas––rather than the more customary national origins of ethnicity and territory (or “blood and soil”) prevalent in the eighteenth century. It is this unique national nativity that is sometimes regarded as a foundation of the concept of “American exceptionalism.” This sense of creedalism continues to be a defining feature of the American identity, even if its particular features and meanings remain much debated––as they always have been. Thus the animating question for this course: what are the primary beliefs and ideas that shaped the United States at its birth, throughout its history, and into the twenty-first century? Ideas are also inseparable from the people who hold them and advance them. Who are some of the most notable and influential Americans who have developed, even in some cases personified, these ideas? How do they relate, if at all, to the American character and identity over time, and now in our contemporary moment? Using a combination of primary documents, core texts, and secondary readings, this multidisciplinary course will profile a series of ideas and the people who embodied them to trace the development of the United States itself.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1123 The End of Empires: Imperialism to Decolonization 3 Credits
Grading Scheme: Letter Grade
Today, we live in a world which, for perhaps the first time in human history contains––officially at least––no empires. Yet less than 75 years ago, in the middle of the twentieth century, they suddenly disappeared throughout the world. How can we explain this transformation? What is the nature of the political world in which we now live? How is it so different to those that have come before – and why? What does it mean for a political community to be independent? This multidisciplinary course considers a stretch in the history of western civilization––from the age of imperialism to the era of global decolonization––in which a world inhabited by empires was replaced by one of nation-states.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1163 Comedy and Citizenship 3 Credits
Grading Scheme: Letter Grade
How is comedy an expression of citizenship? How do we use comedy as responsible citizens in a democratic republic? This course explores the Classical foundations of comedy in the Western tradition up through our contemporary experience.
Attributes: Quest 1, General Education - Humanities

ISS 1165 The Politics of Nature 3 Credits
Grading Scheme: Letter Grade
How does our conception of nature shape our political realities and fortunes? While today we are more aware than ever of the pressures posed by limited resources, fragile ecosystems, and rapidly changing climates, the history of political thought reveals a long-standing awareness of the interdependence between nature, the political edifice and the mediating force of technological development. By tracing out a series of core concepts, this course surveys a series of complex dynamics of dependence, control, crisis, and escape, that govern the interplay between man and his environment. The interdependence of the natural world, the artificial world we create, and the political edifice, often appears as a puzzle: how should we approach nature? What power, if any, does it hold over us? What is the role of artifice and technology in producing and mediating society's most pressing challenges? How ought we reconcile our dependence upon nature with the desire and need to control certain forces of nature? If today we are more aware than ever of our own impact on our environment, a much longer tradition pays testament to the fact that this complex interplay is a two-way street. Man is, and continues to be, shaped in imperceptible ways by the technologies he produces, as these work with and on nature. This course excavates this rich tradition of social and political texts, through four distinct units that trace this relationship up to the contemporary moment. It offers students an opportunity to gain a wider appreciation of the historical contours of these pressing questions, as well as a renewed look at some of the most topical difficulties of today, including social media, climate change and the impact of our built environments.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1202 Freedom and Equality: Great Books from the Renaissance to the Enlightenment 3 Credits
Grading Scheme: Letter Grade
The question at the heart of this course is: what does it mean to be free and equal? What are the origins of our modern sense of justice, and how did individuals confront powerful and sometimes tyrannical leaders and institutions with new concepts of freedom? When did people and states start to insist that they were free and that they were equal? How do those past meanings differ from our own? This multidisciplinary course considers a stretch of Western civilization's history—from the Renaissance to the Age of Democratic Revolutions—in which the values and virtues of individual and corporate liberty and equality were insisted upon by authors, artists, and statesmen. In this period there emerged a new way of social and political organization—self-government—and freedom and equality were considered necessary for self-government. This course will trace the emergence of modern conceptions of freedom and equality through reading and viewing a range of works of politics, literature, art and economics.
Attributes: Quest 1, General Education - Humanities

ISS 1203 Conflict and Character: Great Books in the Ancient World 3 Credits
Grading Scheme: Letter Grade
In this course, we ask the question: how do we develop the character to handle life's conflicts and tragic events? We will pursue answers to this problem through a study of ancient Western drama and philosophy. We will read Plato and Aristotle Stoics to grapple with classical philosophical accounts of the relationship between virtue, practical reasoning, and human flourishing. We will also read four tragedies: Sophocles' Antigone and Oedipus the King, Aeschylus's Prometheus Bound, and Euripides' Hecabe. Through our study of these plays, we will explore questions concerning ethics, responsibility, and luck. We will reflect on how the study of philosophy and dramatic literature can enrich our experience and understanding of each, and how that knowledge can help move us through the deepest difficulties of life.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1260 Faith and Reason in Jewish Thought 3 Credits
Grading Scheme: Letter Grade
This course examines the following questions: what is the relationship between religious belief and human reason? How much of life do we attribute to prophecy, miracles and providence, and to what extents do we rely on human initiative, effort and creativity? Are the positions of faith and reason reconcilable, or in perennial conflict? This course will reflect on these questions in relation to western tradition.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1262 God and Science in the Western World 3 Credits
Grading Scheme: Letter Grade
How does belief in God shape the way one views the natural world? This course considers the relationship of thinking about God and thinking about nature from classical antiquity until the early twentieth century. It addresses the history, key themes, principles, terminologies and methodologies of multiple humanities disciplines regarding the relationship of religion to science in the Western world.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1295 Religious Freedom in Historical Perspective 3 Credits
Grading Scheme: Letter Grade
What does religious freedom mean, and how has its definition evolved through history? Those questions lie at the heart of this course. Different faith traditions and strains of secularism interpret these components of religious freedom in particular ways. Understanding this conceptual diversity is a crucial task for the modern age of western thought.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1296 Romanticism: The Storm of Feel 3 Credits
Grading Scheme: Letter Grade
What is the place of feeling in modern life? What is the value of desiring things we can never have, or mourning things we have already lost? Can even positive experiences of love, longing, and awe create a 'storm'? And can negative emotions like fear, dread, and confusion have a positive meaning? These are questions raised by the Romantic movement, which this course will survey in literature, philosophy, and the arts from Western canon.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1297 Ancients and Moderns 3 Credits
Grading Scheme: Letter Grade
Are we better than the Ancient Greeks and Romans? What do we owe them, and how have we surpassed their achievements? What does it mean to define ourselves as “modern” in contrast to classical antiquity? These and related questions are the focus of this course, which explores the ancient-modern dynamic in Western culture from the Renaissance through the Enlightenment. Readings will include selections from such writers and thinkers as Homer, Aristotle, Vergil, Petrarch, Erasmus, Bacon, Hobbes, Milton, Swift, and the American Founding Fathers.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1340 Rhetoric and Leadership 3 Credits
Grading Scheme: Letter Grade
How do leaders use rhetoric to persuade others? What role does the art of rhetoric have in the making of politics, art, and community? This course will draw from ancient and modern perspectives, looking at both philosophical explorations of rhetoric and practical examples of it.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1443 Life, Liberty, and Happiness 3 Credits
Grading Scheme: Letter Grade
What constitutional arrangements secure life, liberty, and the pursuit of happiness? How can heterogenous populations live together as fellow citizens? These and other questions have captivated Western public life and culture since antiquity. We will examine them through a wide range of sources: philosophical, legal, historical, sociological, political, and literary.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1681 What is the Common Good? 3 Credits
Grading Scheme: Letter Grade
This course explores the concept of the common good, as articulated in philosophy and illustrated in drama, literature, and film. We begin by studying the blueprint for a concept of the common good that Aristotle sets out in the Politics and Nicomachean Ethics, and its full development in St. Thomas Aquinas. Armed with this theoretical background, we apply ourselves to questions such as: how should regimes and authority figures provide for the common good through the law? What does pursuing the common good involve when the demands of justice are in tension with general beneficence? How compatible is value pluralism with the pursuit of the common good? We will read Sophocles, Lincoln, Martin Luther King, and St. Thomas More, among others, to reflect on the nature of leadership, justice, dissent, and principle, and how we can pursue the common good while remaining true to our conscience.
Attributes: Quest 1, General Education - Humanities

ISS 1684 What is Democracy? 3 Credits
Grading Scheme: Letter Grade
This course traces the changing ideal of democracy from ancient Athens to the present day, drawing on classic works by Plato, Aristotle, Rousseau, Tocqueville, Marx and Arendt. It studies the development of this idea over time and charts the dizzying variety of meanings that have been assigned to it, while engaging with the arguments of its sharpest and most perceptive critics.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1691 Immortality 3 Credits
Grading Scheme: Letter Grade
In this multidisciplinary course, we will explore the long history of Western thinking about immortality in its many senses: figurative survival through memory of great deeds, personal salvation after death, elevation to status as a literal god, restoration to bodily life, and collective survival as a species. We will see how hope, skepticism and changing expectations of immortality shaped the epic poetry, philosophy, religious literature, novels, and art of the Greeks and Romans.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1700 Why Spy? 3 Credits
Grading Scheme: Letter Grade
Why spy? Spying has long been an important part of how countries relate to each other and defend themselves. But why do they do it? This course will approach this question from several different perspectives by reading stories of Cold War espionage (both fiction and nonfiction). We will examine it at a national level, asking what role intelligence plays in countries’ foreign policy and international relations. We will examine it at a personal level, asking why people choose to join their countries’ intelligence services, and why some people choose to spy on their own countries for foreign governments. We will also pose it skeptically, asking how we ought to think about morality and immorality in a world full of deception. Along the way, we will also consider bigger questions that the world of spy craft poses for our everyday lives and in relationship to Western thought. What is the role of knowledge and information in decision-making? What level of uncertainty and risk are we willing to accept when making big decisions? How can we trust that what we know is true?
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1711 Why Fight? 3 Credits
Grading Scheme: Letter Grade
What justifies the use of force? No democratic citizen is exempt from considering this question, but our answers are often contradictory jumbles. To gain clarity we will explore the works that laid the moral foundation for the modern way of war, from the Bible and the Iliad to the thought of Karl Marx. In this interdisciplinary course you will discuss poems, plays, films, histories, and philosophical accounts about war in the Western canon and beyond. Its subtitle could be "From Zeus to the Atom Bomb," because we will be traveling from the Classical to the Nuclear Age. Combining the techniques of literary studies, philosophy, history, and religious studies, we will strive to understand our own responses to arguments, works of art, visions, and fantasies about the nature of war. How have these cultural forms influenced the crucial decisions of human beings, and how do they impact our thinking now? We will also consider scientific explanations for the ubiquity and persistence of warfare, wondering whether natural science alone can explain human conflict. Lastly, we will consider if we have entered a "post-modern" phase of war, with the War in Ukraine as our object of consideration, a war documented in dizzying detail on social media.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1712 Just War 3 Credits
Grading Scheme: Letter Grade
Can war be just? What is a 'just cause'? The idea that war can and should be just holds a middle position between the refusal to impose any moral restraints on the waging of war (realism) and the rejection of all warfare as immoral (pacificism). Western just war theories gradually developed from the confluence of Greek philosophy, Roman Law, and the Judeo-Christian scriptural tradition. Just war theory asks two essential questions. Is the cause for going to war just (jus ad bellum)? And, Is the conduct of the war just (jus in bello)? This multidisciplinary course surveys just war thinking from antiquity to the First World War. It includes historical case studies so that students can develop their own concepts of jus ad bellum and jus in bello.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1715 The Art of War 3 Credits
Grading Scheme: Letter Grade
For centuries, generals have searched for an "art of war" that could be used to defeat their enemy but what is an "art of war"? The art of war is closely tied to the term "strategy." Strategy derives from the ancient Greek word strategos. Translated literally it means "the general's art." In general, it refers to military matters such as the overall conduct of a war. Likewise for centuries, military practitioners and theorists have written on strategy and the key figures who have shaped the theory and practice of war and statecraft. This multidisciplinary course provides global, comparative perspectives on strategic thought from antiquity to today, surveying both classical and current themes of strategy in search of an "art of war." It includes historical case-studies from the Western canon so that students can develop their own concepts of strategy and the art of war.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1716 War and the Human Condition 3 Credits
Grading Scheme: Letter Grade
How does war shape the human condition? In the present era, Western countries are generally sheltered from war. But this is an anomaly. Most human societies have had to reckon with war and grapple with its effects. Moreover, they have tended to regard this reckoning as important for developing their own way of life. Without that reckoning, their societies might atrophy, ossify, and slide into decadence. The resurgence of concerns about the potential for open warfare between China, Russia, and the United States demonstrates the need to consider war's effects and the persistent questions its possibility poses for human societies. This discussion-driven course explores war's effects on the human condition through a variety of disciplines and approaches. To study these effects we draw from philosophy, literature, ancient and modern history, and illustrate these effects through a number of literary sources, including drama, novels, memoirs, and film.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1810 The Search for Meaning in a Secular Age 3 Credits
Grading Scheme: Letter Grade
What does it mean to live in a secular age? How does living in a secular age offer new opportunities and challenges for the perennial human quest for meaning? This multi-disciplinary course tackles these fundamental questions. Drawing on philosophy, sociology, and political science from the Western canon, we will examine three senses of secularity. The first is a political sense, where religion is largely if not entirely removed from public life, as is the case in many modern liberal democracies. The second sense of secularity is sociological, and it is identified with a situation in which there has been significant decline in religious belief and practice (recently discussed in terms of the rise of the "nones," that is, those who answer "none" when asked for their religious affiliation). The third sense of secularity is an existential sense, where it has to do with a change in the circumstances of the human quest for meaning, namely, where there has been a move from a condition in which a traditional religious outlook was taken for granted to one where it is regarded as one option among others. This third sense of secularity will be our primary focus, though we will also be concerned with its relationship to the other two senses of secularity. In exploring the existential (or lived) sense of secularity, we will examine philosophical writings on meaning in life from religious, secular, and spiritual-but-non-religious perspectives, seeking to understand what makes for a worthwhile life. Finally, we will explore how secularization has influenced politics today on both sides of the political spectrum and consider what role spirituality and religiosity might still have in public life.
Attributes: Quest 1, General Education - Humanities

ISS 1811 Religion, Revolution and the Person 3 Credits
Grading Scheme: Letter Grade
What does it mean to be a 'person'? How does the person relate to other people, to society, and to God? Some of the greatest writers, philosophers, poets, and artists of the Russian nineteenth century considered the questions of the revolutionary transformation of society and the restoration of faith from the standpoint of the individual person. For them, not just philosophy, but also literature, poetry, and visual art were paths to understanding the self and its purpose in the world. By considering questions of identity and appearance, activism and contemplation, reason and irrationality through seemingly prosaic themes such as fingernails, overcoats, and simple arithmetic, this course will reveal a variety of perspectives of the nature and value of human personality and ask students to reflect on their own approach to the person in the modern age and in relation to Western tradition.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1812 The Crisis of Liberalism 3 Credits
Grading Scheme: Letter Grade
What exactly is liberalism, and what is the source of its crisis in Western thought? Is liberalism responsible for its own failures? Does it lead to the dissolution of community, family, and religion? Has liberalism led us inevitably toward an illiberal future? What, if anything, can be done to preserve freedom and equality?
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1884 Capitalism and Its Critics 3 Credits
Grading Scheme: Letter Grade
Does the capitalist system erode community or enhance it? That is this course's central question. This multidisciplinary course examines a range of contemporary concerns over the role of capitalism in shaping our society. In it students will consider both the origins and the future of capitalism.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 1885 Utopias and Dystopias 3 Credits
Grading Scheme: Letter Grade
What would the ideal society look like? Utopias allow their authors to create alternate worlds, free of constraints of scarcity, gender, customs, science or even human nature. Utopian writing also poses dangers: there is a fine line between utopia and dystopia. This course will examine these ideas in relationship to the Western tradition.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISS 2105 The Origins of the Contemporary West: I (Ancients to the Scientific Revolution) 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary survey of the big ideas in Western Civilization and the societies and cultures which helped to form them. Students will learn about the West's cultural heritage by reading and discussing great works of philosophy, history, politics, literature, art and science from antiquity to the seventeenth century. Begins with creation stories in the Hebrew and Greek traditions and ends with the Scientific Revolution.

ISS 2106 The Origins of the Contemporary West: II (Enlightenment to Modernity) 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary survey of the big ideas in Western Civilization, and the societies and cultures which helped to form them. Students will learn about their cultural heritage by reading and discussing great works of philosophy, history, politics, literature, arts and science from the eighteenth century onwards. Starts with the Enlightenment and ends in the twentieth century.

ISS 2122 The History of Political Economy 3 Credits
Grading Scheme: Letter Grade
Political economy is grounded on the dual convictions that political institutions affect economic growth and that economic conditions affect political decisions. Students will review great works in the history of political economy, focusing not just on the development of economic thought but on the ways economic thought necessarily connects to political and social structures in modern market economies.

ISS 2290 Great Books of the Ancient World 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary exploration of Great Books written in the ancient Western world. These core texts raise questions that have occupied Western societies ever since. Authors to be considered include Homer, Herodotus and Thucydides, Sophocles and Euripdes, Plato, Aristotle, Cicero, Polybius and Tacitus, Horace and Ovid, in addition to large sections from both the Old and New Testaments.

ISS 2291 Great Books of the Medieval World 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary exploration of Great Books written in the medieval Western world. During this period Christianity moved from being proscribed and persecuted to being the established religion of Western nations. The core texts of the era grapple with many of the questions which arose from that transformation. Authors to be considered include Augustine, Boethius, Alfarabi, Averroes, Maimonides, Aquinas, Dante, Petrarch, Chaucer, Julian of Norwich and Luther, among others.

ISS 2292 Great Books of Early Modern World: Renaissance to Enlightenment 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary exploration of Great Books written between the Renaissance and the Enlightenment. These core texts raise questions that have occupied Western societies ever since. Authors to be considered include Machiavelli, Montaigne, Shakespeare, Hobbes, Milton, Locke, Swift, Hume, Rousseau, Voltaire, Gibbon, Franklin, among others.

ISS 2293 Great Books of Modern World 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary exploration of Great Books written in the modern West, between the French Revolution and the twentieth century. These core texts raise questions that continue to occupy Western societies. Authors to be considered include Burke, Brönte, Tocqueville, Kierkegaard, Nietzsche, Tolstoy, Dostoyevsky, Freud, Eliot, Joyce and Faulkner, among others.

ISS 2294 Theories and Structures 3 Credits
Grading Scheme: Letter Grade
The course draws on empirical and theoretical perspectives from a range of disciplines tracing the evolution and development of the state system, from its rise in the seventeenth century through to the new emergence of new challenges in the globalized world of the early twenty-first century. Students will investigate the questions posed to the world order by new structural developments and explore the competing interpretations scholars have proposed to help us understand them.

ISS 2400 The Rule of Law 3 Credits
Grading Scheme: Letter Grade
This course examines core debates and perspectives on the nature of constitutional government, from antiquity to the present. It will begin with an examination of contemporary constitutional controversies in America, France, and Israel. It will then examine how great thinkers and practitioners have sought to define (and defend) constitutional government. The course will study various differing and sometimes clashing views among these writers and practitioners about the political and legal arrangements most conducive to constitutional government. Perspectives to be considered include: Aristotle and Xenophon on the constitutions of Greek cities, Isaac Abarbanel on the constitution of ancient Israel, John Locke and Montesquieu on the executive, the separation of powers, and the danger of tyranny, Edmund Burke and Madame de Staël on constitutional monarchy, and the views of constitutionalism at the American founding expressed by Federalists, anti-Federalists, and Thomas Paine.
Attributes: Quest 2, General Education - Social Science, Satisfies 2000 Words of Writing Requirement

ISS 2440 Introduction to Philosophy, Politics, Economics and Law 3 Credits
Grading Scheme: Letter Grade
Introduces students to core debates, concepts, and tools that will help them understand the complex interplay of philosophy, politics, economics, and law in the modern world. Students will learn how philosophical, political, economic, and legal analyses can complement (and challenge) each other. The aim is for students to develop a multidisciplinary point of view that will allow them to analyze and address contemporary problems in a fuller way than any one disciplinary lens permits.

ISS 2445 Legal Reasoning: How to Think Like a Lawyer 3 Credits
Grading Scheme: Letter Grade
Introduces students to the basic principles of legal reasoning, including rules, standards, facts, precedent, authorities, analogies, custom, equity, and the burden of proof. Students will examine how legal reasoning functions in practice and they will learn about how it compares to forms of reasoning in other fields and disciplines. Provides preparation for students considering law school or interested in legal thinking.

ISS 2683 What is Statecraft? 3 Credits
Grading Scheme: Letter Grade
How do governments manage their scarce resources while pursuing a broad array of ambitions? How can policymakers utilize different types of power (cultural, economic, military and the like) to achieve their goals both effectively and efficiently? In a rapidly evolving and intricate world, how can leaders discern short-term and long-term priorities, opportunities, and threats? The key to addressing these issues is the concept of strategy––which is about aligning objectives with the resources at hand––and statecraft, which is the art and practice of managing the nation's affairs.
Attributes: Quest 2, General Education - Social Science, Satisfies 2000 Words of Writing Requirement

ISS 2710 Grand Strategy I: Athens to American Revolution 3 Credits
Grading Scheme: Letter Grade
How do nations achieve their aims through warfare? What influence do individual leaders, regime type, or ideology have on the course of conflicts? What lessons can be derived from history? How does diplomacy interact with military power, and how do alliances serve national interests? By looking both to primary and secondary sources across genres, explore these questions by tracing the rise and fall of great powers from ancient Athens to the American Revolution.

ISS 2921 History of Ideas Colloquium 1-3 Credits
Grading Scheme: Letter Grade
The colloquium in the history of ideas enhances multidisciplinary knowledge through a particular lens, civilization, or time period. The instructor determines the subject and scope of inquiry for each section.

ISS 3441 Liberty and Order: Philosophical, Political, Economic and Legal Perspectives 3 Credits
Grading Scheme: Letter Grade
How do we strike the proper balance between liberty and order in the political, economic, and legal domains? How do we avoid the extremes of anarchy on one side and authoritarianism on the other? This multidisciplinary course identifies ways this balance has been struck in the past and how it might be achieved in the present day.
Prerequisite: 3 credits of AMS, ISS, PHI, POS or ECO.

ISS 3442 Human Flourishing: Philosophical, Political, Economic and Legal Perspectives 3 Credits
Grading Scheme: Letter Grade
What does it mean to live well or to flourish as a human being? This fundamental question lies squarely at the intersection of philosophy, politics, economics, and law. This interdisciplinary course introduces students to the long-running debate in the western intellectual tradition about this question. Students will analyze the strengths and weaknesses of different theories of human flourishing and they will evaluate their ethical, social, political, economic, and legal consequences.
Prerequisite: 3 credits of AMS, ISS, PHI, POS or ECO.

ISS 3444 Major Figures in Philosophy, Politics, Economics, and Law 3 Credits
Grading Scheme: Letter Grade
Explores the lives, writings, debates, theories, and history of major figures in Philosophy, Politics, Economics, and Law. Learn both historical and modern perspectives on major figures, with each offering focusing on a single figure.
Prerequisite: 3 credits of AMS, ISS, PHI, POS or ECO.

ISS 3680 Contemporary Challenges 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary focus on contemporary challenges facing modern states. Includes the theory and application of intelligence, diplomacy, military power, and related tools of statecraft to national defense policy formulation, peacemaking, and power projection to confront present-day national and international challenges.
Prerequisite: 3 credits of AMS, ISS, HIS, PHI, POS, or ECO.

ISS 3682 Statecraft and Strategy 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary focus on the connection between statecraft and strategy, both of which are necessary for states to navigate in international politics and conflict. Examines how states use diplomatic, economic, military, intelligence, and cultural tools to achieve their strategic ends. Topics focus on major themes and figures in the history of statecraft and strategy.
Prerequisite: 3 credits of AMS, ISS, HIS, PHI, POS, or ECO.

ISS 3713 War 3 Credits
Grading Scheme: Letter Grade
This multidisciplinary course focuses on war and warfare from the perspective of history, politics, diplomacy, strategic studies, political economy, philosophy, literature and related humanities and social science disciplines. Courses will focus on major themes related to war and warfare from antiquity to the present.
Prerequisite: 3 credits of AMS, ISS, HIS, PHI, POS, or ECO.

ISS 3714 Theoretical Frameworks 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary focus on the theories underpinning decision-making related to war, statecraft, and strategic thinking. Focuses on major themes and subjects such as the state system, ideologies of the modern world, realism, and similar topics.
Prerequisite: 3 credits of AMS, ISS, HIS, PHI, POS, or ECO.

ISS 3930 Special Topics in Philosophy, Politics, Economics, and Law 3 Credits
Grading Scheme: Letter Grade
Special topics in Philosophy, Politics, Economics, and Law.
Prerequisite: 3 credits of AMS or ISS or PHI or POS or ECO.

ISS 3932 Philosophical and Literary Traditions and Ideas 3 Credits
Grading Scheme: Letter Grade
Rotating topics course focusing on the major philosophical and literary traditions and ideas in Western literature. Courses will focus on one major theme, such as Love, Death, or Life.
Prerequisite: Sophomore standing or higher.

ISS 3934 Political and Historical Traditions and Ideas 3 Credits
Grading Scheme: Letter Grade
Rotating topics course focusing on the major political and historical traditions and ideas in Western literature. Courses will focus on one major theme, such as Justice, Sovereignty, or Liberty.
Prerequisite: Sophomore standing or higher.

ISS 4910 PPEL Research Seminar 3 Credits
Grading Scheme: Letter Grade
Students will apply the methodological, theoretical, and historical knowledge they have gained in the PPEL major by conducting an original research project about a topic of real-world significance. Students will be guided through the research and writing process; review papers that have been recently published in undergraduate PPE journals; and present their research at the end of the semester.
Prerequisite: PPEL majors.

ISS 4911 War, Statecraft, and Strategy Research Seminar 3 Credits
Grading Scheme: Letter Grade
Students will apply the methodological, theoretical, and historical knowledge they have gained in the WSS major by conducting an original research project about a topic of real-world significance. Students will be guided through the research and writing process; and present their research at the end of the semester. Student mastery of this course will be displayed through written and oral assignments. All course assignments will be directed towards the completion of a research paper.
Prerequisite: 9 credits of AMS, ISS, HIS, PHI, POS, or ECO.

ISS 4920 Great Books & Ideas Thesis Writing Workshop 3 Credits
Grading Scheme: Letter Grade
Provides students with knowledge base and experience to engage in scholarly writing and develop arguments in order to properly write a high-quality thesis on a topic within the scope of the Great Books and Ideas degree program. An investigation into the conventions of identifying a legitimate research "problem," and will move on into the nuts and bolts of developing and articulating your central "argument."
Prerequisite: Great Books major of junior or senior standing.

ISS 4931 Big Problems in Philosophy, Politics, Economics, and Law 3 Credits
Grading Scheme: Letter Grade
Students will examine a major contemporary problem at the intersection of Philosophy, Politics, Economics, and Law. Students will be provided an opportunity to learn about a topic area, then engage in scholarly debate and writing on the topic. Rotating topics may include political polarization, global justice, climate change, etc.
Prerequisite: 6 credits of AMS or ISS or PHI or POS or ECO.

ISS 4940 PPEL Internship 3 Credits
Grading Scheme: S/U
PPEL majors may earn academic credit for completing a relevant internship. Students are responsible for identifying and securing their own internships and the internship must be pre-approved by the Hamilton Center's Director of Undergraduate Studies before the beginning of the semester in which it is to take place. Relevant internships include positions in government, public policy, law, financial institutions, non-profits, business, or consulting. 140-hour internship.
Prerequisite: PPEL majors.

ISS 4970 Great Books & Ideas Senior Thesis 3 Credits
Grading Scheme: Letter Grade
Faculty supervised thesis work for the Great Books and Ideas degree.
Prerequisite: ISS 4920.

PHI 1680 AI, Philosophy & Society 3 Credits
Grading Scheme: Letter Grade
In the past few years, the capabilities of AI-based systems have grown explosively due to the development of a new technology, large language models. These systems, known informally as "chatbots," are trained on a significant portion of the text and images that humanity has collectively produced over centuries. As a result, they have developed the ability to perform tasks that we normally associate with human-level intelligence, such as writing essays, writing computer programs, and passing graduate-level exams. In this course, we will explore the philosophical and social implications of this powerful new technology. This course will engage with research from several academic disciplines, including computer science, psychology, philosophy, and economics, as well as the Western canon.
Attributes: Quest 1, Artificial Intelligence, General Education - Humanities

Health Education and Behavior

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

For more than 60 years, the Department of Health Education and Behavior has been at the forefront of the health promotion and public health field, demonstrating leadership in instruction and mentoring, research and scholarship, and service and practice. By emphasizing innovation and data-driven advancements, the department's efforts ensure that students are well prepared for the health promotion and public health careers of the future.

Courses

HLP 4933 Variable International Topics 1-6 Credits
Grading Scheme: Letter Grade
Provides the opportunity to study in a wide range of cultural settings.

HSC 2103 Personal and Family Health 3 Credits
Grading Scheme: Letter Grade
Surveys personal health concerns: emotional health; aging and death; alcohol, tobacco and drug abuse; physical fitness; nutrition and dieting; consumer health; chronic and communicable diseases; human sexuality; and environmental health.
Attributes: General Education - Social Science

HSC 2206 Culture & Health 3 Credits
Grading Scheme: Letter Grade
Throughout this course, students will identify sociocultural roots of health issues, and how our upbringing influences our overall health. This course will illustrate the need for personal, community, and global cultural awareness and competencies in health education practice. This course will synthesize cultural elements into health communication practice.
Attributes: Quest 2, General Education - International

HSC 2249 Health MythBusters 3 Credits
Grading Scheme: Letter Grade
In this class, we will explore health myths related to exercise, food/nutrition, sexual health, mental well-being, alternative medicines, and the environment. For each myth, we will examine how this myth came about, the scientific evidence supporting or refuting the myth, and why this myth persists.
Attributes: Quest 2

HSC 2621 Trends in International Health 3 Credits
Grading Scheme: Letter Grade
An overview of problems and practices in international health including disease patterns and prevalence, contributing factors, organizational and governmental initiatives, and model programs, with special emphasis on problems amenable to health education interventions.
Attributes: General Education - International, General Education - Social Science

HSC 3032 Foundations of Health Education 3 Credits
Grading Scheme: Letter Grade
Theory and practice in the health education profession.
Prerequisite: APK 2100C, APK 2105C, PSY 2012, STA 2023, and (MAC 1105 or MAC 1140 or MAC 1147 or MAC 2311); Health education and behavior majors, junior or senior standing only.

HSC 3185 Introduction to Health & Wellness Coaching 3 Credits
Grading Scheme: Letter Grade
Explores foundational topics used in health and wellness coaching, such as nutrition needs, chronic illness, physical activity guidelines, and substance use. Reviews how health promotion and education theories are used in motivating clients to initiate health behavior. Navigate the client-directed approach of motivational interviewing to establish a coaching relationship of trust and support, establish vision, work through ambivalence, create SMART goals, and empower sustainable behavior change.
Prerequisite: Sophomore standing or higher and Health and Wellness Coaching Certificate student.

HSC 3201 Community and Environmental Health 3 Credits
Grading Scheme: Letter Grade
Surveys community health organizations and contemporary health issues such as population growth, environment, poverty, medical care and disease.
Prerequisite: HSC 3032 with a minimum grade of C; Health education and behavior majors, junior or senior standing only.

HSC 3537 Health and Medical Terminology 3 Credits
Grading Scheme: Letter Grade
Develops a working knowledge of terminology related to the human body in health and disease through descriptive definitions, practical applications, understanding word roots, combinations and medical abbreviations.
Prerequisite: Sophomore standing or higher.

HSC 4063 AI Health Promotion and Vulnerable Populations 3 Credits
Grading Scheme: Letter Grade
Exploration of how AI technologies can be ethically and effectively used for health promotion, disease prevention, and health advocacy. Examines cross-cultural concepts of health and illness and social determinants of health affecting vulnerable populations in the US.
Prerequisite: HEB_BS & Junior or Senior standing.
Attributes: Know-AI

HSC 4133 Human Sexuality Education 3 Credits
Grading Scheme: Letter Grade
Emphasizes content, issues, methodology and materials for the study of human sexuality. Prepares students to educate individuals and groups.
Prerequisite: Health education and behavior majors, junior or senior standing.

HSC 4134 Emotional Health and Counseling 3 Credits
Grading Scheme: Letter Grade
Introduces theories of emotional well-being and health education, and the means of incorporating positive mental health practices into the health education programming and health counseling.
Prerequisite: Health education and behavior majors, junior or senior standing.

HSC 4143 Drug Education and Behavior 3 Credits
Grading Scheme: Letter Grade
Broad view of the elements of drug use and abuse, such as individual behavior, environmental factors and drugs. Drug taking is approached in a factual stance; i.e., what has been documented to date, so that participants can separate speculation and bias from fact. The emphasis is also placed on methods pertaining to the preventive aspects of drug use and abuse.
Prerequisite: APK 2105C or (BSC 2086 and BSC 2086L) or (BSC 2094 and BSC 2094L) with minimum grades of C; Health education and behavior majors, junior or senior standing only.

HSC 4174 Behavioral and Environmental Determinants of Obesity 3 Credits
Grading Scheme: Letter Grade
Explores interactions among individual, behavioral and environmental determinants of obesity. Focuses on the extent of the obesity problem primarily in the US from an epidemiological perspective. Ideas for prevention and control are discussed along with effective interventions to address obesity (policy development and implementation).
Prerequisite: Health education and behavior majors, junior or senior standing.

HSC 4232C Exercise Therapy, Adapted Physical Activity and Health 3 Credits
Grading Scheme: Letter Grade
Art and science of teaching exercise therapy effectively, including adapted physical activities and healthy living strategies. Presents medical and health characteristics of common disabilities and methods for prescribing appropriate exercise therapy programs. Also presents multiple adapted-equipment ideas to facilitate teaching in inclusive settings for all ages. Clinical experience with individuals with disabilities.
Prerequisite: Health education and behavior or applied physiology and kinesiology - fitness/wellness majors, and junior or senior standing.

HSC 4233 Patient Health Education 3 Credits
Grading Scheme: Letter Grade
Introduces theories that apply to the practice of patient education in a variety of health care settings. Emphasizes placed on education for health promotion and lifestyle changes. Additionally, provides an overview of the US healthcare industry.
Prerequisite: Health Education and Behavior or Applied Physiology and Kinesiology - fitness/wellness majors, and junior standing or higher.

HSC 4290 Physical Activity and Community Health 3 Credits
Grading Scheme: Letter Grade
Explores population physical activity including measurement, its role in prevention and treatment of chronic disease, and settings and strategies for community-level interventions.
Prerequisite: HSC 3102 & Junior/Senior standing.

HSC 4302 Methods and Materials in Health Education 3 Credits
Grading Scheme: Letter Grade
Fundamental strategies for health science education including conceptualizing instruction, specifying instructional objectives, and planning units and lessons using various instructional methods, selecting and using instructional materials, and evaluating the effectiveness of health instruction in school and community settings.
Prerequisite: HSC 3032 with minimum grade of C and Health education and Behavior major, junior or senior standing.

HSC 4564 Health Promotion in Gerontology 3 Credits
Grading Scheme: Letter Grade
Addresses the dimensions of healthy aging. Examines the relevance of behavior change theory with older adults and provides specific tools to design and implement health programs with older adults.
Prerequisite: HSC 3032 with a minimum grade of C and Health education and behavior majors, junior or senior standing.

HSC 4574 Nutrition Education for Special Populations 3 Credits
Grading Scheme: Letter Grade
Development of nutrition education programs for selected population groups. Emphasizes educational techniques utilized to inform special populations of changing nutritional needs. Discusses population groups such as ethnic minorities, the elderly, the pregnant female and the athlete.
Prerequisite: HSC 3032 and HUN 2201 or equivalent, with minimum grades of C; Health education and behavior majors, junior or senior standing.

HSC 4579 Women's Health Issues 3 Credits
Grading Scheme: Letter Grade
Women and men experience similar diseases, disorders, and causes of death, but women often experience these in different forms and at different stages in life. Explores current women's health issues and covers a broad range of health issues of special importance to women.
Prerequisite: Health education and behavior or applied physiology and kinesiology - fitness/wellness majors, and junior or senior standing.

HSC 4592C Scientific Foundations of Holistic Health 3 Credits
Grading Scheme: Letter Grade
Examining and interpreting the holistic principles that influence and modify the health potential of the individual and the community.
Prerequisite: HEB_BS & Junior/Senior Standing.

HSC 4593 HIV/AIDS Education 3 Credits
Grading Scheme: Letter Grade
Seminar examines the medical, social, legal and educational implications of HIV/AIDS on individuals and society. Includes lectures, guest and student presentations, videos and student-initiated discussions. Local, state and national experts in the fields of medicine, epidemiology, law, education and health promotion provide lectures.
Prerequisite: Health education and behavior majors and junior or senior standing.

HSC 4623 Minority Health Issues 3 Credits
Grading Scheme: Letter Grade
Addresses health issues confronting politically and socioeconomically disadvantaged groups and ethnic minority groups in America. Not intended to be a comprehensive treatment of all pertinent health problems affecting minorities, but does address some of the more salient health concerns.
Prerequisite: Health education and behavior majors and junior or senior standing.

HSC 4663 Community Health Methods in Injury Prevention and Control 3 Credits
Grading Scheme: Letter Grade
Introduces current theory and knowledge in the field of unintentional injury prevention; prepares students to critically analyze current intervention strategies and explores new directions for unintentional injury prevention and control. Topics include the importance of injury as a problem, historical and conceptual underpinnings of injury prevention, epidemiology of injury, mechanisms of injury, basic concepts of injury prevention, the role of the law in injury prevention and the role if injury surveillance on unintentional injuries.
Prerequisite: Health education and behavior majors and junior or senior standing.

HSC 4664 Health Communication for Consumers 3 Credits
Grading Scheme: Letter Grade
Health communication processes and practices for health consumers and health professionals who facilitate health consumers. (WR)
Prerequisite: HSC 3032 with a minimum grade of C and Health education and behavior majors, junior or senior standing.
Attributes: Satisfies 6000 Words of Writing Requirement

HSC 4690C CURE on Reducing Intoxicant Involved Sexual Consequences 3 Credits
Grading Scheme: Letter Grade
Acquaints students with behavioral science through Course-Based Undergraduate Research Experience on Reducing Intoxicant Involved Sexual Consequences. Offers a unique opportunity to gain empirical experience addressing a research question of students' choosing, with guidance. Provides exposure to all parts of the research process including literature search, data analysis, and poster preparation.
Prerequisite: Junior/Senior Standing.

HSC 4694 Worksite Health Promotion 3 Credits
Grading Scheme: Letter Grade
Considerations in planning, implementing and evaluating comprehensive health education and health promotion programs at the worksite including health risk appraisal, program design and special educational strategies appropriate for the occupational setting.
Prerequisite: HSC 3032 with a minimum grade of C and Health education and behavior majors, junior or senior standing.

HSC 4713 Planning and Evaluating Health Education Programs 3 Credits
Grading Scheme: Letter Grade
Frameworks, principles and strategies for planning, implementing and evaluating health promotion interventions.
Prerequisite: HSC 3032 with a minimum grade of C and Health education and behavior majors, junior or senior standing.

HSC 4743 Research Methods in Health Education and Behavior 3 Credits
Grading Scheme: Letter Grade
Explores research methods commonly used in the field of health education and behavior.
Prerequisite: HEB Major & Junior or higher.

HSC 4800 Health Education Professional Development 3 Credits
Grading Scheme: Letter Grade
Review and discussion of the health education field, including career opportunities, department policies for health education internship selection and registration, professional development information and preparation for future employment or graduate coursework in the health education field.
Prerequisite: HSC 3032 with minimum grade of C and Health Education and Behavior majors and senior standing. Must be taken the Fall or Spring semester prior to HEB internship.

HSC 4813 Practicum in Health Education 1-3 Credits
Grading Scheme: S/U
Health education practicum.
Prerequisite: Health education major.

HSC 4876 Internship in Health Education 1-16 Credits
Grading Scheme: S/U
Health education internship.
Prerequisite: HSC 3032 and HSC 4800 with minimum grades of C and 4HH-Health education and behavior majors.

HSC 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Supervised program of study to investigate problems significant to health professions.
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, junior or senior standing; faculty member or program coordinator permission.

HSC 4910 Supervised Research Experience 1-3 Credits
Grading Scheme: S/U
Explores an area of interest in health research or the delivery and/or administration of health services through first-hand, supervised research experience.
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, junior or senior standing; faculty member or program coordinator permission.

HSC 4912 Undergraduate Research 0-5 Credits
Grading Scheme: S/U
Provides health education and behavior undergraduates the opportunity to engage in supervised research. For this purpose, research is defined as an independent or team participatory experience that provides an opportunity to systematically investigate an existing or emerging health problem and to communicate the results of their work to others.

HSC 4950 Current Topics in Health Education 3 Credits
Grading Scheme: Letter Grade
Variable topics in health education.
Prerequisite: Health education and behavior majors and junior or senior standing.

Health Professions

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

HSC 2000 Introduction to Health Professions 3 Credits
Grading Scheme: Letter Grade
Lecture, discussion and group assignments provide the opportunity to learn about different disciplines making up a health care team and their role in both the science and practice of health care.

HSC 4008 Professional Development for the Health Sciences 1 Credit
Grading Scheme: S/U
Fosters the professional development needed to transition into the health and public health professions. Enrichment activities include diversity training, presentation skills training, career planning, and developing an online portfolio.
Prerequisite: PHHP senior in the limited-access program.

HSC 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Supervised program of study to investigate problems significant to health professions.
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, junior or senior standing; faculty member or program coordinator permission.

HSC 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in health science. Refer to the department for specific topic information. Can be repeated with change in content for up to 12 credits.
Prerequisite: Public Health or Health Science or Communication Sciences and Disorders major with junior standing or higher.

HSC 4969 Honors Seminar in the Health Professions 1-3 Credits
Grading Scheme: Letter Grade
Philosophy and implementation of scientific work, including an introduction to faculty research. Provides the opportunity to explore and discuss potential honors thesis topics.
Prerequisite: 3.5 GPA, majors only and department permission.

HSC 4970 Public Health and Health Professions Senior Honors Thesis 1-6 Credits
Grading Scheme: Letter Grade
Special project leading to the distinction of magna or summa cum laude at graduation. The project can be any creative work that focuses on a specific topic or issue in the health professions. The student develops an outline of the special project prior to project initiation and produces a final paper at project completion. The paper must be approved by the program and dean's office for the student to graduate magna or summa cum laude.
Prerequisite: HSC 4969, senior standing, majors only and a 3.75 GPA.

PHC 4101 Public Health Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces the basic tenets, applications, and foci of public health, including integrating public health with other health professions.
Prerequisite: Sophomore standing and PSY 2012 with a minimum grade of C & STA 2023 with a minimum grade of C & (HES_BHS or PBH_BPH or CSD_BHS major or (PBH_UMN minor)).

PHC 4320 Environmental Concepts in Public Health 3 Credits
Grading Scheme: Letter Grade
Surveys major environmental health topics by examining sources, routes, media, and health outcomes associated with biological, chemical, and physical agents in the environment. Introduces the economic and legal frameworks associated with environmental health issues and public health.
Prerequisite: PHC 4101 with a minimum grade of C & (PBH_BPH major or (PBH_UMN minor)).

PHC 4930 Special Topics in Public Health 1-6 Credits
Grading Scheme: S/U
Exploration of a general or a specific area of public health.
Prerequisite: junior or senior standing.

Health Science

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Bachelor of Health Science (BHS) program is for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

- Health Science

Courses

BSC 3096 Human Physiology 3 Credits
Grading Scheme: Letter Grade
Functioning of human tissues, organs and organ systems, emphasizing the physical, chemical and mechanistic bases of normal physiology and the integrated function of the human body. Also introduces pathophysiological changes associated with human diseases.
Prerequisite: (CHM 1031 or CHM 2046 or CHM 2047) and BSC 2011.

GEY 4001 Issues and Concepts in Gerontology 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary overview of the field of aging covers biomedical and health issues, psychosocial factors, applied aspects, and policy issues.
Prerequisite: PSY 3213L.

HSA 3111 US Health Care System 3 Credits
Grading Scheme: Letter Grade
Overview of organization, delivery, and financing of health services in the US. Topics include health professionals, health care facilities, financing of health services, managed care, and current health policy issues.
Prerequisite: Sophomore standing and PSY 2012 with a minimum grade of C & STA 2023 with a minimum grade of C & (HES_BHS or PBH_BPH or CSD_BHS major or (HES_UMN or PBH_UMN minor)).

HSA 4154 Health Policy 3 Credits
Grading Scheme: Letter Grade
Engage in thinking critically about both the evolution of US Health Policy and the forces that influence current health policy. Develop strategies for conducting policy analyses and participation in the political process.
Prerequisite: HSA 3111.

HSA 4191 Health Informatics & Emerging Healthcare Technologies 3 Credits
Grading Scheme: Letter Grade
Provides a fundamental understanding health informatics, healthcare information systems, and emerging healthcare technologies, starting with the core informatics competencies and the foundation of knowledge model.
Prerequisite: PHC 4101 or HSA 3111 or instructor permission.
Attributes: Artificial Intelligence

HSA 4364 Healthcare Operations Management, Strategy, and Quality 3 Credits
Grading Scheme: Letter Grade
Provides a working knowledge of healthcare operations management, and with an understanding of the importance of effective and efficient delivery of healthcare services within the healthcare industry, and to society overall. Learn to develop, evaluate, and apply management systems, project management tools, supply chain management, operations performance metrics, and quality improvement strategies using both quantitative and qualitative skill.
Prerequisite: HSA 3111 and STA 2023.

HSA 4430 Health Economics 3 Credits
Grading Scheme: Letter Grade
Explores the economic forces that shape our health to reveal the unexpected consequences of everyday choices. Topics include healthcare demand and supply, health insurance, information economics, innovation, policy analysis, and behavioral economics. Through practical applications, students conduct vital economic analyses that can inform healthcare decision making, assess policies, and addressing inequities.
Prerequisite: HSA 3111 and STA 2023 or equivalent.

HSC 2000 Introduction to Health Professions 3 Credits
Grading Scheme: Letter Grade
Lecture, discussion and group assignments provide the opportunity to learn about different disciplines making up a health care team and their role in both the science and practice of health care.

HSC 3057 Research Methods and Issues in Health Science 3 Credits
Grading Scheme: Letter Grade
Emphasizes four aspects of research: understanding research principles, evaluating journal articles, applying research findings to clinical settings, and designing programmatic evaluation projects.
Prerequisite: Sophomore standing and PSY 2012 with a minimum grade of C & STA 2023 with a minimum grade of C & (HES_BHS or PBH_BPH or CSD_BHS major or ABS_UMN minor).

HSC 3502 Survey of Diseases and Disability 3 Credits
Grading Scheme: Letter Grade
Overview of medical and psychosocial aspects of chronic diseases and disability.
Prerequisite: [STA2023+PSY2012+PHC4101 + (Health Science or Public Health or Communication Sciences and Disorders)] OR [(STA2023 + PSY2012 + (Health Professions or Rehabilitation)]

HSC 3661 Therapeutic Communication Skills with Patients, Families and the Health Care Team 3 Credits
Grading Scheme: Letter Grade
Learn appropriate verbal and nonverbal behavior to be used with patients, families, and the health care team through lecture, discussion, and role play in large and small groups.
Prerequisite: ((HSA3111 with a minimum grade of C) & HES_BHS major) or (HSC3502 with a minimum grade of C and HPR_UMN minor)) and Junior standing or higher.

HSC 3801 Clinical Observation / Health Care Volunteer Work 1-4 Credits
Grading Scheme: S/U
Learn about a specific health care field or gain knowledge about specific patient or client populations through direct observation and/or hands-on assistance.
Prerequisite: health science majors only and department permission.

HSC 4008 Professional Development for the Health Sciences 1 Credit
Grading Scheme: S/U
Fosters the professional development needed to transition into the health and public health professions. Enrichment activities include diversity training, presentation skills training, career planning, and developing an online portfolio.
Prerequisite: PHHP senior in the limited-access program.

HSC 4064 Wearable Technology, Robotics, and Artificial Intelligence for Health 3 Credits
Grading Scheme: Letter Grade
Explore wearable technology, robotics, and Artificial Intelligence (AI) integration in health. Students will gain an in-depth understanding of how these technological advancements are revolutionizing health, improving patient care, and enabling health professionals to deliver more efficient and effective services. Students will learn through lectures, hands-on exercises, field trips, and discussions.
Prerequisite: PSY 2012 & HSC 3502 both with a minimum grade of C & (HES_BHS or CSD_BHS or PBH_BPH major).

HSC 4184 Health Care Leadership: Skills and Styles 3 Credits
Grading Scheme: Letter Grade
Behavioral styles that contribute to leadership effectiveness. Studies specific styles for their contributions to motivating people and overall leadership effectiveness in health care.
Prerequisite: HSA 3111 and HSC 3502 and HSC 4558 and Health Science major.

HSC 4247 Disinformation and Misinformation in Healthcare 3 Credits
Grading Scheme: Letter Grade
Traces the interplay of misinformation and disinformation and the impact on personal and public health in the United States. Imparts understanding of the real world impact of misinformation on health outcomes and what can be done about it. Knowledge gained can be used to help understand how people are misinformed and lay the groundwork for being better informed future practitioners. Provides strategies to engage with people those influenced by misinformation or disinformation.
Prerequisite: Enrollment in Health Science program (HES_BHS, PBH_BPH, and CSD_BHS) or permission of the instructor.

HSC 4541 Musculoskeletal Assessment in Rehabilitation 3 Credits
Grading Scheme: Letter Grade
This undergraduate course explores musculoskeletal assessment techniques and their application in rehabilitation. Designed to equip students with fundamental skills, knowledge, and practical experience, the course delves into the assessment of the skeletal system, muscular system, and their interplay in the context of physical therapy and occupational therapy. Through a combination of lectures, demonstrations, and case studies, students will learn to perform accurate musculoskeletal assessments.
Prerequisite: Health Science Major (HES_BHS), HSC 3661, and OTH 3416 with grades of C or higher.

HSC 4557 Medical Pharmacology in Clinical Care 3 Credits
Grading Scheme: Letter Grade
Overview of the fundamental principles of pharmacology, including drug classifications, mechanisms of action, and their impact on the human body. Explore the history of pharmacology, drug development, and the ethical considerations surrounding drug use and regulation.
Prerequisite: OTH 3416 with a minimum grade of C and (HES_BHS major or HPR_UMN minor).

HSC 4558 Survey of Diseases and Disabilities 2 3 Credits
Grading Scheme: Letter Grade
Overview of medical and psychosocial aspects of chronic diseases, including issues of disability management. This required course, combined with HSC 3502, covers all of the major disabling conditions.
Prerequisite: HSC 3502; Health Science, Public Health, Communication Sciences and Disorders majors/minors only

HSC 4600 Psychiatric Disorders 3 Credits
Grading Scheme: Letter Grade
Study of major psychiatric syndromes and their management. The continuum of disorders from health to psychopathology.
Prerequisite: PSY 2012

HSC 4608 Clinical Diagnosis and Decision Making 3 Credits
Grading Scheme: Letter Grade
Facilitates the development of critical thinking and problem-solving skills in healthcare. Uses a problem-based learning approach by providing carefully selected clinical, legislative, ethical, and professional problems. Guidance in the problem solution is provided.
Prerequisite: Senior standing and HSC 3661 with a minimum grade of C & (HES_BHS major).

HSC 4652L Ethical and Legal Issues in the Health Professions 3 Credits
Grading Scheme: Letter Grade
Overview of ethical and legal issues in the health professions, including contemporary ethical issues in disease management.
Prerequisite: HSA 3111 & HSC 3502 & HSC 3661 all with a minimum grade of C & (HES_BHS major).

HSC 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Supervised program of study to investigate problems significant to health professions.
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, junior or senior standing; faculty member or program coordinator permission.

HSC 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in health science. Refer to the department for specific topic information. Can be repeated with change in content for up to 12 credits.
Prerequisite: Public Health or Health Science or Communication Sciences and Disorders major with junior standing or higher.

HSC 4969 Honors Seminar in the Health Professions 1-3 Credits
Grading Scheme: Letter Grade
Philosophy and implementation of scientific work, including an introduction to faculty research. Provides the opportunity to explore and discuss potential honors thesis topics.
Prerequisite: 3.5 GPA, majors only and department permission.

HSC 4970 Public Health and Health Professions Senior Honors Thesis 1-6 Credits
Grading Scheme: Letter Grade
Special project leading to the distinction of magna or summa cum laude at graduation. The project can be any creative work that focuses on a specific topic or issue in the health professions. The student develops an outline of the special project prior to project initiation and produces a final paper at project completion. The paper must be approved by the program and dean's office for the student to graduate magna or summa cum laude.
Prerequisite: HSC 4969, senior standing, majors only and a 3.75 GPA.

OTH 3416 Pathophysiology 3 Credits
Grading Scheme: Letter Grade
Basic understanding of pathophysiology as a change from normal physiological functioning of the various systems of the human body.
Prerequisite: (APK 2105C or CHM 2045) & (BSC 2005 or BSC 2010) & HSA 3111 & PHC 4101 all with a minimum grade of C & (HES_BHS major or (HES_UMN minor)).

OTH 4418 The Nervous System and Disorders 3 Credits
Grading Scheme: Letter Grade
Comprehensive foundation in neuroanatomy, neurophysiology, and neuropathology.
Prerequisite: HSC 3502 and HSC 4558 and OTH 3416 and Health Science major or minor.
Corequisite: OTH 4418L.

PHC 2100 Introduction to Public Health 3 Credits
Grading Scheme: Letter Grade
Overview of public health as a multifaceted field. Includes discussion of contemporary public health challenges with input from discipline experts.
Attributes: General Education - Social Science

PHC 3400 Human Animal Interaction and Health 3 Credits
Grading Scheme: Letter Grade
Introduces health implications of Human-Animal Interaction (HAI). Primarily focuses on companion animals (i.e., pets) in the US, though other HAIs and contexts will be discussed. Students will map the interrelationships between various HAIs, the broader social environment, and human and animal health.
Prerequisite: PHC 2100 or by instructor permission.

PHC 3603 Critical Issues in Public Health 3 Credits
Grading Scheme: Letter Grade
Learn how to analyze, compare, and contrast the most current complex public health issues in society. Comprehend and discuss the influence of personal bias, scientific evidence, and societal trends on a variety of public health issues.
Prerequisite: PHC 4101 with a minimum grade of C & (PBH_BPH major or (PBH_UMN minor)).

PHC 4101 Public Health Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces the basic tenets, applications, and foci of public health, including integrating public health with other health professions.
Prerequisite: Sophomore standing and PSY 2012 with a minimum grade of C & STA 2023 with a minimum grade of C & (HES_BHS or PBH_BPH or CSD_BHS major or (PBH_UMN minor)).

PHC 4930 Special Topics in Public Health 1-6 Credits
Grading Scheme: S/U
Exploration of a general or a specific area of public health.
Prerequisite: junior or senior standing.

PHC 4943 Service Learning Practicum 3 Credits
Grading Scheme: Letter Grade
Covers development of the role of a public health and human services provider in an agency setting.
Prerequisite: PHC 4101 & PHC 4320 & PHC 4024 & HSA 3111 all with a minimum grade of C & (PBH_BPH major) & senior standing.

RCS 4451 Rehabilitation Aspects of Substance Abuse 3 Credits
Grading Scheme: Letter Grade
Rehabilitation counseling implications of alcohol and drug use in society and the work place. Emphasis on detection, treatment, and follow-up services for individuals in the rehabilitation process.
Prerequisite: PHC 4101 with a minimum grade of C & (HES_BHS major or PBH_BPH major or PBH_UMN minor).

Courses

AFH 2000 Africa in World History 3 Credits
Grading Scheme: Letter Grade
One-semester introduction to African history for undergraduates. Links the history of African societies with other world civilizations by focusing upon major historical themes.

AFH 3100 Africa to 1800 3 Credits
Grading Scheme: Letter Grade
Ancient Africa, the expansion of Islam, savannah kingdoms, East African trading cities, maritime contacts with Europe, the slave trade.

AFH 3200 Africa Since 1800 3 Credits
Grading Scheme: Letter Grade
End of the slave trade and the growth of legitimate commerce; Islamic renewal and revolution; the European partition and the colonial era; the growth of nationalism and the reemergence of independent Africa.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AFH 3342 History of West Africa 3 Credits
Grading Scheme: Letter Grade
History of West Africa, from the Ghana Empire to the contemporary period.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AFH 3931 Special Topics in African History 3 Credits
Grading Scheme: Letter Grade
Selected variable topics in the history and culture of Africa.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AFH 4250 Modern Africa 3 Credits
Grading Scheme: Letter Grade
Selected topics in 19th and 20th century African development; pre-colonial conditions, colonial rule, nationalist movements, and the problem of independence.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AFH 4253 African Women in the Twentieth-Century 3 Credits
Grading Scheme: Letter Grade
Explores themes of politics, social structure, and cultural change by examining the historical experiences of African women.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AFH 4450 Southern Africa 3 Credits
Grading Scheme: Letter Grade
History of southern Africa from the pre-European era to the present.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AFH 4930 History Research Seminar: Africa 3 Credits
Grading Scheme: Letter Grade
Through rotating content, this seminar has two distinct goals: historiography of a specific topic and production of a substantial research paper based on primary source evidence.
Prerequisite: HIS 3942 with a minimum grade of C.

AMH 1094 Fight for Your Rights: The Long Civil Rights Movement 3 Credits
Grading Scheme: Letter Grade
A multidisciplinary examination of one of America's most defining social justice movements, the long civil rights movement.
Prerequisite: Restricted to degree-seeking undergraduates.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

AMH 2010 United States to 1877 3 Credits
Grading Scheme: Letter Grade
In this course, students will examine United States history from before European contact to 1877. Topics will include but are not limited to indigenous peoples, the European background, the colonial period, the American Revolution, the Articles of Confederation, the Constitution, issues within the new Republic, sectionalism, manifest destiny, slavery, the American Civil War, and Reconstruction.
Attributes: General Education - Social Science, Satisfies 2000 Words of Writing Requirement

AMH 2020 United States Since 1877 3 Credits
Grading Scheme: Letter Grade
In this course, students will trace the history of the United States from the end of the Reconstruction era to the contemporary era. Topics will include but are not limited to the rise of Industrialization, the United States' emergence as an actor on the world stage, Constitutional amendments and their impact, the Progressive era, World War I, the Great Depression and New Deal, World War II, the Civil Rights era, the Cold War, and the United States since 1989.
Attributes: General Education - Social Science

AMH 2631 History of Sustainability 3 Credits
Grading Scheme: Letter Grade
Explores the history of sustainability as an idea and practice in the US from the time of European settlement to the near present.

AMH 3223 The Gilded Age 3 Credits
Grading Scheme: Letter Grade
Changes that occurred in America between 1877 and the advent of WWII, emphasizing the meaning of Americanism, conflicts between labor and capital, and the relations between historical events and race, gender and politics.
Prerequisite: 3 credits of history.

AMH 3273 America in the Sixties 3 Credits
Grading Scheme: Letter Grade
Social and political movements of the turbulent era of 1960s America, covering primarily the civil rights, feminist and anti-war movements.
Prerequisite: 3 credits of history.

AMH 3340 History of Disability in America 3 Credits
Grading Scheme: Letter Grade
How disabilities have been labeled, identified, and treated over time and in light of broad social trends.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AMH 3421 Florida to 1845 3 Credits
Grading Scheme: Letter Grade
Exploration, settlement, and colonial history of Spanish and British Florida from US territorial days to statehood.
Prerequisite: 3 credits of history.
Attributes: Satisfies 6000 Words of Writing Requirement

AMH 3423 Florida Since 1845 3 Credits
Grading Scheme: Letter Grade
Statehood and secession, Civil War, Reconstruction, reform, and reaction, Progressive Era, boom and bust, diversification, and growth of Florida since World War II.
Prerequisite: 3 credits of history.
Attributes: Satisfies 6000 Words of Writing Requirement

AMH 3460 US Urban History 3 Credits
Grading Scheme: Letter Grade
Analyzes the growth and development of urban civilization in the US, emphasizing how cities began and their impact on politics, economics, and culture.
Prerequisite: 3 credits of history with a minimum grade of C.

AMH 3500 US Labor History 3 Credits
Grading Scheme: Letter Grade
Emphasizes the history of America's working-class people and addresses such issues as working class consciousness, theories of organized labor, methods of organization, and class relationships.
Prerequisite: 3 credits of history.

AMH 3511 American Foreign Relations and Expansion Since 1914 3 Credits
Grading Scheme: Letter Grade
Focuses on the origin, conduct, and consequences of American diplomacy during an era of global conflict and revolutionary upheaval.
Prerequisite: 3 credits of history.

AMH 3519 US - Middle East Relations 3 Credits
Grading Scheme: Letter Grade
Examines US - Middle East relations in historical context, including culture, US - Israeli relations, nationalists, radicals, events, and issues that impact this relationship.
Prerequisite: 3 credits of history.

AMH 3531 The American Jewish Experience 1880-2000 3 Credits
Grading Scheme: Letter Grade
Introduces the major events and issues in American Jewish history and offers a sense of why Jews felt at home in America. Focuses on immigration, assimilation, and collective survival.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AMH 3551 Constitutional History of the United States to 1877 3 Credits
Grading Scheme: Letter Grade
Analyzes the development of constitutionalism from English colonial origins to the end of Reconstruction, emphasizing the inherent tension between concepts of power and liberty.
Prerequisite: 3 credits of history.

AMH 3552 Constitutional History of the United States Since 1877 3 Credits
Grading Scheme: Letter Grade
Continues AMH 3551, giving special attention to the way in which constitutionalism has adapted to the growth of an urban and industrial society, to the extension of civil liberties and civil rights, and to the growth of executive authority.
Prerequisite: 3 credits of history.

AMH 3558 United States Legal History 3 Credits
Grading Scheme: Letter Grade
Nontechnical survey of American legal development from its English common law origins to the present.
Prerequisite: 3 credits of history.

AMH 3561 American Women in the 19th Century 3 Credits
Grading Scheme: Letter Grade
Examines women's history during the 19th century with a focus on how women gradually entered the public arena as laborers, reformers, writers, and performers.
Prerequisite: 3 credits of history.

AMH 3562 Women in Modern US 3 Credits
Grading Scheme: Letter Grade
Introduces major events, trends, and issues in the history of US women from the Civil War to the present.
Prerequisite: 3 credits of history.

AMH 3581 Diversity in American History 3 Credits
Grading Scheme: Letter Grade
Examines the diversity of the American people and its changes over time from first European contact to the present. Focuses on the interaction between different ethnic groups in American history and how the changing notions of race have helped shape the contours of that history.
Prerequisite: 3 credits in AFH, AMH, ASH, EUH, HIS, LAH, or WOH.

AMH 3582 African American and Latino Histories 3 Credits
Grading Scheme: Letter Grade
Comparative examination of the histories of African Americans and Latinos from the early 19th century to present. Major themes include the social construction of race, the development of state policies that enforced racial inequality, struggles for equal citizenship, cultural and social movements for change.
Prerequisite: 3 credits of history.

AMH 3593 Oral History 3 Credits
Grading Scheme: Letter Grade
Introduces the theory and practice of oral history. Examines key issues in historical memory, interviewing, and community-based fieldwork; also examines scholarly debates on oral history as a dialogic mode of knowledge production. Learn digital humanities production methods to bring historical knowledge to broader audiences.
Prerequisite: 3 credits of history.

AMH 3630 American Environmental History 3 Credits
Grading Scheme: Letter Grade
Substantive and interpretative inquiry of the historical roots of the nation's contemporary environmental issues. A comprehensive overview of the relationship between people and their natural physical surroundings from the Columbian explorations to the 1980s.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AMH 3660 Native American History to 1815 3 Credits
Grading Scheme: Letter Grade
Examines the representations and realities of North American Indian history from the pre-Columbian period through the early 19th century.
Prerequisite: 3 credits of history.

AMH 3661 Native American History Since 1806 3 Credits
Grading Scheme: Letter Grade
Examines the representations and realities of North American Indian history from the early 19th century to the present.
Prerequisite: 3 credits of history.

AMH 3670 African Diaspora in the Americas 3 Credits
Grading Scheme: Letter Grade
Explores the centrality of Africa in the Americas by studying revolutions against slavery and colonialism in the African Diaspora from the 18th century to present with a special emphasis on the development of democratic ideologies among people of African descent in the Americas.
Prerequisite: 3 credits in AFH, ASH, AMH, EUH, HIS, LAH, or WOH.

AMH 3674 American Slavery and Abolition 3 Credits
Grading Scheme: Letter Grade
History of American slavery and abolition from the 1600s through emancipation and the Reconstruction Era.
Prerequisite: 3 credits of history.

AMH 3931 Special Topics in American History 3 Credits
Grading Scheme: Letter Grade
Selected, variable topics in the history and culture of America.
Prerequisite: 3 credits of history.

AMH 4110 Early America 3 Credits
Grading Scheme: Letter Grade
Origin and development of an American society along the eastern seaboard of North America.
Prerequisite: 6 credits of history.

AMH 4111 New World Encounters 3 Credits
Grading Scheme: Letter Grade
Analyzes the intellectual, cultural, and social changes which resulted in a mixture of ideas and cultures from Europe, Africa, and native America.
Prerequisite: 6 credits of history.

AMH 4130 American Revolutionary Era, 1760-1789 3 Credits
Grading Scheme: Letter Grade
Analyzes the background of, and reasons for, the American Revolution, the social, military, political, diplomatic aspects of the era, as well as the constitutional developments of these years.
Prerequisite: 6 credits of history.
Attributes: Satisfies 6000 Words of Writing Requirement

AMH 4160 The Early Republic, 1789-1848 3 Credits
Grading Scheme: Letter Grade
Social, political, cultural and economic history of America in its formative years. The Age of Jefferson (1789-1824) and the period of the first party system, including the policies and the wars of the Virginia dynasty. The second half, the Age of Jackson (1824-1848), discusses the rise of the Democratic and Whig parties, Native American removal, trends in religion and reform, further western expansion and the sectionally divisive Mexican War. (WR)
Prerequisite: 6 credits of history.
Attributes: Satisfies 6000 Words of Writing Requirement

AMH 4231 US World War I to World War II 3 Credits
Grading Scheme: Letter Grade
Post-World War I America: the Twenties, the Depression and the New Deal, WW II.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, HIS, LAH, or WOH course.
Attributes: Satisfies 6000 Words of Writing Requirement

AMH 4270 US Since World War II 3 Credits
Grading Scheme: Letter Grade
Post-World War II America: America as world power, social revolution, Vietnam, Watergate, and after.
Prerequisite: 6 credits of history.
Attributes: Satisfies 6000 Words of Writing Requirement

AMH 4312 History of Sexualities 3 Credits
Grading Scheme: Letter Grade
Social history of sexuality, tracing history of ideas about and attitudes toward sexuality in law, politics, medicine, and science from ancient Greeks to the present; emphasizes the North American experience.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AMH 4316 Violence and Social Conflict in American History 3 Credits
Grading Scheme: Letter Grade
Changing patterns and levels of violent behavior during the last four centuries of American history, including rioting, lynching, domestic violence, and street violence.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AMH 4317 History by Hollywood 3 Credits
Grading Scheme: Letter Grade
Compares Hollywood films with traditional historiographic accounts to explore the cultural and political history of the 1950s, '60s and '70s, including the Montgomery Bus Boycott, civil rights, the Vietnam War, and political assassinations.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AMH 4319 Crime and Punishment in American History 3 Credits
Grading Scheme: Letter Grade
Historical development of crime and criminal justice in America with particular attention to the ways in which social, political and cultural forces have shaped legal institutions during the past four centuries.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AMH 4373 History of American Capitalism 3 Credits
Grading Scheme: Letter Grade
Political, economic and social contours of American capitalism from the late 18th century through the near present.
Prerequisite: 6 credits of history.

AMH 4402 The South to 1865 3 Credits
Grading Scheme: Letter Grade
Development of southern culture from the earliest settlements to the development of southern nationalism.
Prerequisite: 6 credits of history.

AMH 4403 The South Since 1860 3 Credits
Grading Scheme: Letter Grade
Impact of Civil War and Reconstruction; economic, political and social development of the new South.
Prerequisite: 6 credits of history.

AMH 4550 Origins of the US Constitution 3 Credits
Grading Scheme: Letter Grade
The colonial origins, drafting, and ratification of the US Constitution and its application through 1819. Examines the political, economic, and intellectual influences that helped shape the constitutional system designed by the framers.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AMH 4571 American Civil War and Reconstruction 3 Credits
Grading Scheme: Letter Grade
Analyzes the political, social, and economic transformation of the Union, highlighting the presidency of Lincoln, the evolution of federal policies of Unionist loyalty and slave emancipation, the development of Union military leadership, and the tragically unsuccessful post-war attempt to provide justice to the freed people.
Prerequisite: refer to the department

AMH 4575 Civil Rights Movements 3 Credits
Grading Scheme: Letter Grade
Introduces the origins, development, and legacies of the African American civil rights and black movements in America, focusing primarily on the period between 1945 and 1980.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AMH 4612 Sport and American Culture 3 Credits
Grading Scheme: Letter Grade
Explores the place of sport in American society and culture from the time of European settlement to the present. Uses sport, in its institutional and recreational forms, to illuminate broader historical themes, urban and community life, economic development, social relationship, social mobility and popular and cultural processes.
Prerequisite: 6 credits of history.

AMH 4930 History Research Seminar: US 3 Credits
Grading Scheme: Letter Grade
Introduces the historiography of a specific topic and production of a substantial research paper based on primary source evidence.
Prerequisite: HIS 3942 with a minimum grade of C.
Attributes: Satisfies 6000 Words of Writing Requirement

ASH 3223 History of the Modern Middle East 3 Credits
Grading Scheme: Letter Grade
Surveys the history, politics and society of the Middle East from the early 19th century until the present day. Topics include transformation of Islamic empire to post-colonial states, development of collective identities, the formation of new social classes and changing gender relations.
Prerequisite: 3 credits of history.

ASH 3442 Modern Japan 3 Credits
Grading Scheme: Letter Grade
Surveys the social, political and economic transformation of modern Japanese society from 1800.
Prerequisite: 3 credits of history.

ASH 3931 Special Topics in Asian History 3 Credits
Grading Scheme: Letter Grade
Variable topics in the history and culture of Asia.
Prerequisite: 3 credits of history.

ASH 4930 History Research Seminar: Asia 3 Credits
Grading Scheme: Letter Grade
Variable topics seminar with two distinct goals: introduce the historiography of a specific topic and produce a substantial research paper based on primary source evidence.
Prerequisite: HIS 3942 with a minimum grade of C.

EUH 2000 Western Civilization: From Early Times to the Middle Ages 3 Credits
Grading Scheme: Letter Grade
Introduces western civilization that studies the early cultures in Mesopotamia and Egypt, the Minoan-Mycenaean society, Greece, the Hellenistic period, and the Roman Empire to the Barbarian invasions.

EUH 2001 Western Civilization: From the Middle Ages to the Eighteenth Century 3 Credits
Grading Scheme: Letter Grade
Treats feudal, urban and religious institutions in Medieval society, Renaissance and Reformation, the Thirty Years' War, the Age of Louis XIV, and the Age of Reason.

EUH 2002 Western Civilization: From the Eighteenth Century to the Present 3 Credits
Grading Scheme: Letter Grade
Explores 18th-century revolutions, Napoleon, romanticism and reaction, national unifications and imperialism, competing ideologies, the world wars, and Europe in the postwar era.

EUH 3033 History of the Holocaust 3 Credits
Grading Scheme: Letter Grade
Origins of anti-Semitism in central Europe and the execution of the Holocaust by Nazi Germany. Examines the ideology of the Nazi leaders and the role of the SS, Army, Police, and ordinary citizens in perpetrating genocide.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3035 Nazi Germany 3 Credits
Grading Scheme: Letter Grade
Political and cultural analysis of the history of Nazi Germany examining Nazi ideology, the origins of the Nazi state, coercion and consent among ordinary Germans, persecution of the disabled and of Jews, resistance and non-resistance, and the course of World War II from the German perspective.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, HIS, LAH, or WOH course.

EUH 3091 Intellectual History of Europe, Renaissance to Modern 3 Credits
Grading Scheme: Letter Grade
Examines intellectual developments that have shaped modern views of human nature, society, the natural world, and God.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3121 The Early Middle Ages 3 Credits
Grading Scheme: Letter Grade
Studies the formation of the Medieval West from the dissolution of the Roman Empire to the year 1000 A.D. Emphasizes the ways in which Roman, Christian, and Germanic traditions fused to form a new civilization.
Prerequisite: 3 credits of history.

EUH 3122 The High Middle Ages 3 Credits
Grading Scheme: Letter Grade
Examines European civilization from the 11th to the 14th centuries. Contrasts the urban and rural, northern and southern forms of economic social, cultural, and political phenomena.
Prerequisite: 3 credits of history.

EUH 3140 Renaissance 3 Credits
Grading Scheme: Letter Grade
Interpretations of the Renaissance: Italy's political, literary and artistic developments. The northern Renaissance and Christian Humanism. (WR)
Prerequisite: 3 credits of history.

EUH 3144 The Reformation 3 Credits
Grading Scheme: Letter Grade
Critical religious changes in Europe from the 15th to 17th centuries. Pays particular attention to the broad impact of religion on the social, cultural, and political developments of the period.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3180 Medieval Magic 3 Credits
Grading Scheme: Letter Grade
Assessment of the cultural, religious and political implications of the supernatural in late antique, medieval and early modern European society (400-1700 CE). Besides addressing the role of scapegoating in the persecution of marginalized groups, it suggests how belief in demonic magic co-existed with Christian belief in miracles.
Prerequisite: 3 credits of history.

EUH 3182 Medieval Archaeology 3 Credits
Grading Scheme: Letter Grade
Methods and theory of archaeology with particular emphasis on the Medieval period and the relation between the written and the archaeological evidence.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3202 Early Modern Europe, 1500-1700 3 Credits
Grading Scheme: Letter Grade
Development of Europe as it emerged from Middle Ages focusing on the growth of the modern state and the critical changes in politics, science, economics and religion.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3204 Eighteenth-Century Europe 3 Credits
Grading Scheme: Letter Grade
Studies European politics, economics, society, ideas and institutions in the 18th century, including early modern forms of governance, the Enlightenment, and the Age of the Revolution.
Prerequisite: 3 credits of history.

EUH 3205 Nineteenth-Century Europe 3 Credits
Grading Scheme: Letter Grade
Studies European politics, society, ideas and institutions, including the French Revolution, emergence of modern politics, upheavals of 1848 and 1871, rise of nationalism, urbanization, and socialism.
Prerequisite: 3 credits of history.

EUH 3206 Twentieth-Century Europe 3 Credits
Grading Scheme: Letter Grade
Origins and outcomes of the two world wars, the varieties of European social and political ideologies, and the ever-changing pattern of national and trans-national identities.
Prerequisite: 3 credits of history.

EUH 3247 Holocaust in the Courtroom 3 Credits
Grading Scheme: Letter Grade
Examination of major Holocaust trials and the conflict between justice, national identities, and historical narrative in Germany, Israel, France, the Soviet Union, and the US.
Prerequisite: 3 credits EUH or EUS.

EUH 3284 Authoritarian Interwar Europe 3 Credits
Grading Scheme: Letter Grade
A comparison of extremist political regimes in Europe from 1917 to 1945. Special attention to Nazi Germany and the Soviet Union.
Prerequisite: 3 credits of AFM, AMH, ASH, EUH, LAH or WOH course.

EUH 3300 Byzantine History 3 Credits
Grading Scheme: Letter Grade
Surveys Byzantine history with emphasis on political, economic, and religious institutions, and the role of Byzantium in medieval Europe.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3323 Medieval Eastern Europe 3 Credits
Grading Scheme: Letter Grade
Eastern Europe from late Antiquity to the 15th century. Examines the major problems of medieval history, with special emphasis on the role of the region in the history of the continent.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3330 Late Modern Central and Eastern Europe 3 Credits
Grading Scheme: Letter Grade
Cultural, social, and political survey of the Hapsburg Monarchy, Poland, and the Balkans from 1700 to 1918. Topics include absolutism, revolutionary nationalism, modernization, cultural flowering, ethnic violence, socialism, and WWI.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3383 Pagans, Christians, Barbarians: the World of Late Antiquity 3 Credits
Grading Scheme: Letter Grade
Surveys the history of the Mediterranean region from the second to the 7th century with a particular focus on religious and cultural developments that marked the rise of a Christian Roman Empire.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3432 Early Medieval Italy 3 Credits
Grading Scheme: Letter Grade
Surveys economic, social and political developments in the Italian peninsula between 800 and 1100.
Prerequisite: 3 credits of history.

EUH 3440 Medieval France 3 Credits
Grading Scheme: Letter Grade
A chronological and topical introduction to the history of medieval France, from the abandonment of the Roman province of Gaul to the beginning of the Hundred Years War.
Prerequisite: EUH 2001 or EUH 3121 or EUH 3122.

EUH 3452 The French Revolution 3 Credits
Grading Scheme: Letter Grade
Examines one of the most transformational events in European and world history. The French Revolution brought about the overthrow of a centuries-old monarchy, the rapid mutation of social relations, the abolition of slavery, and the end of the Christian calendar. Introduces the major events of the period and to the historiographical debates among historians who continue to debate its significance by examining the causes and the effects of the revolution.
Prerequisite: 3 credits of AFH, AMH, ASH, EUH, HIS, LAH, or WOH.

EUH 3473 Medieval Germany 3 Credits
Grading Scheme: Letter Grade
Surveys economic, social and political developments in Central Europe during the Middle Ages (500-1350).
Prerequisite: 3 credits of history.

EUH 3500 Medieval England 3 Credits
Grading Scheme: Letter Grade
Creation of a national society and culture in the time of England's constitutional development (to the 16th century).
Prerequisite: 3 credits of history.

EUH 3501 Early Modern England 3 Credits
Grading Scheme: Letter Grade
Development of a revolutionary tradition and of a parliamentary monarch in the period of England's cultural flowering (16th to 18th centuries).
Prerequisite: 3 credits of history.

EUH 3502 Modern Britain 3 Credits
Grading Scheme: Letter Grade
Social, political, and economic developments in the19th and 20th centuries.
Prerequisite: 3 credits of history.

EUH 3530 Colonies to Commonwealth: the History of the British Empire 3 Credits
Grading Scheme: Letter Grade
History of the British Empire from its origins in Ireland to the decolonization movements of the 20th century. Examines not only the ways in which the British established and extended the empire through the political, military, economic, and cultural spheres, but also resistance to empire.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3533 Ireland in the British Empire 3 Credits
Grading Scheme: Letter Grade
Place of Ireland in the British Empire and the imperial experiences of the Irish people. Covers the main themes of Irish history from the Tudor conquest to the establishment of the Irish Republic, all the while being attuned to the broader imperial context.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3564 Central and Eastern Europe in the 20th Century 3 Credits
Grading Scheme: Letter Grade
Covers the collapse of Austro-Hungary, its successor states in the inter-war period, World War II, the Holocaust, and the rise and fall of Communism in Central and Eastern Europe.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3575 Imperial Russia, 1700-1914 3 Credits
Grading Scheme: Letter Grade
Major institutional, political, social, and economic issues confronting the Russian state, drawing on source materials and on Russian literature to illustrate these issues.
Prerequisite: 3 credits of history.

EUH 3576 Twentieth-Century Russia to 1953 3 Credits
Grading Scheme: Letter Grade
Internal political, economic, and social history of 20th-century Russia, including the impact of modernization, the rise of radical ideologies, the Bolshevik revolution, and the evolution of the Soviet Union.
Prerequisite: 3 credits of history.
Attributes: Satisfies 6000 Words of Writing Requirement

EUH 3670 Jewish History from 711 to 1492 3 Credits
Grading Scheme: Letter Grade
Surveys major historical developments in medieval Jewish society under Islam and western Christendom. Examines the interaction of Jews with the majority culture, political structure and economy, as well as changing cultural trends.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3671 Jewish History from 1492-1750 3 Credits
Grading Scheme: Letter Grade
Surveys major trends in Jewish society from the f15th to the 18th century, focusing on community structures and interfaith relations.
Prerequisite: 3 credits of history.

EUH 3672 Modern European Jewish History 3 Credits
Grading Scheme: Letter Grade
Major events and themes of the Jews in Europe from 1650-1945.
Prerequisite: 3 credits of history.

EUH 3683 The History of Consumption 3 Credits
Grading Scheme: Letter Grade
Combines economic, social, and political history to study the rise of consumer culture from the 18th century to the present. Primarily focused on Europe but includes the United States in the 20th century.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3931 Special Topics in European History 3-9 Credits
Grading Scheme: Letter Grade
Selected variable topics in the history and culture of Europe.
Prerequisite: 3 credits of history.

EUH 4123 Holy War in the Middle Ages 3 Credits
Grading Scheme: Letter Grade
Examines the shifting terrain of historical and theological conceptions of war and holy war in the middle ages. Divided into four distinct sections: theological foundations, early medieval conceptions of war and community, the Crusades and changes in the high and late middle ages.
Prerequisite: 6 credits of history.

EUH 4185 The Viking Experience 3 Credits
Grading Scheme: Letter Grade
Scandinavian medieval history, including an examination of the profound changes brought by Christianization and the rise of the medieval states.
Prerequisite: 6 credits of history.

EUH 4280 History of the Second World War 3 Credits
Grading Scheme: Letter Grade
Analyzes World War II by covering the origins, politics, resistance movements, grand strategy, and consequences.
Prerequisite: 6 credits of history.

EUH 4282 History of Cold War Europe 3 Credits
Grading Scheme: Letter Grade
Cold War era in Europe, 1945-1991; emphasizes origins, social, economic and political aspects, and the historical consequences on Europe.
Prerequisite: 6 credits of history.

EUH 4310 History of Medieval Spain 3 Credits
Grading Scheme: Letter Grade
History of the Iberian Peninsula between Late Antiquity and the end of the Reconquista. Emphasizes Muslim Spain, the Christian kingdoms in the North, Christian-Muslim-Jewish interactions, cultural development and social differentiation.
Prerequisite: 6 credits of history.

EUH 4311 Jews of Medieval Spain 3 Credits
Grading Scheme: Letter Grade
Explores Jewish life and culture in the Iberian Peninsula from the early middle ages through the Expulsion of 1492. Analyzes interfaith relations and the role Jews played in shaping Spanish society and culture.
Prerequisite: 6 credits of history.

EUH 4463 Nineteenth-Century Germany 3 Credits
Grading Scheme: Letter Grade
Germany's political development toward nationhood in the 19th century, and the imperial policies of Bismarck and Wilhelm II. The social history of specific groups in German society. Germany's role in the outbreak of WW I. Offered alternate years.
Prerequisite: 6 credits of history.

EUH 4584 Medieval Russia 3 Credits
Grading Scheme: Letter Grade
Introduces the history of Eastern Europe from ca. 500 to 1584. Focuses on interconnected themes of state formation, trade, conversion to Christianity and the impact of the Mongol conquest.
Prerequisite: 6 credits of history.

EUH 4610 Society and the Sexes in Modern Europe, 18C to the Present 3 Credits
Grading Scheme: Letter Grade
Gendered analysis of great historical events, political movements and ideologies. Other topics of social and cultural history are discussed.
Prerequisite: 6 credits of history.

EUH 4664 Modern European Revolutions: 1789-1989 3 Credits
Grading Scheme: Letter Grade
History of key European revolutions that occurred between 1789 and 1989. Emphasizes the economic, cultural and political conditions that gave rise to and accompanied the development of these watershed events.
Prerequisite: 3 credits of history.

EUH 4665 Terrorism and Political Violence in Post-War Europe: 1945-2000 3 Credits
Grading Scheme: Letter Grade
Provides a multi-country historical survey of the role terrorism and violence have played in European affairs in the post-Second World War era from 1945 to 2000.
Prerequisite: 6 credits of history.

EUH 4677 History Orthodox Christianity 3 Credits
Grading Scheme: Letter Grade
A chronological and topical introduction to the history of the Orthodox Church, from the beginning to the present. Emphasis is on the political circumstances leading to the separation of various churches, and the main aspects of Orthodox Christian life throughout history.
Prerequisite: EUH 3121 or EUH 3122 or EUH 3140 or EUH 3144 or EUH 3202 or EUH 3204 or EUH 3205 or EUH 3206 or EUH 3300 or EUH 3330 or EUH 3575 or EUH 3576.

EUH 4930 History Research Seminar: Europe 3 Credits
Grading Scheme: Letter Grade
Through rotating in content, this seminar has two distinct goals: introduce the historiography of a specific topic and produce a substantial research paper based on primary source evidence.
Prerequisite: HIS 3942 with a minimum grade of C.

HIS 3454 Racial Theories in Europe and the US 3 Credits
Grading Scheme: Letter Grade
Introduces history of racial ideas and images from ancient to modern period.
Prerequisite: 3 credits of history.

HIS 3460 History of Science and Religion 3 Credits
Grading Scheme: Letter Grade
Surveys the interaction between the religious and scientific communities in the West from the time of the early church to the present.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

HIS 3463 Introduction, History of Science: Origins to Newton 3 Credits
Grading Scheme: Letter Grade
Introduces the emergence of scientific thought from its mythopoeic beginnings to the time of Newton. Focuses on the interrelationships among science, philosophy, and religion in Greece, Islam, and the Latin West. Emphasizes Copernicus, Kepler, Galileo, Descartes, and Newton.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

HIS 3464 Introduction, History of Science: Renaissance to the Present 3 Credits
Grading Scheme: Letter Grade
General survey of the major issues in physical and biological science from the time of Galileo to the present. Emphasizes the impact of scientific development on society, culture, and thought.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

HIS 3465 The Scientific Revolution 3 Credits
Grading Scheme: Letter Grade
Emergence of modern science from Copernicus to Newton exploring the notions of empiricism, experiment, mechanism, materialism, and the historical concepts of continuity, change, revolution, and progress.
Prerequisite: 3 credits of history.

HIS 3483 The Nuclear Age 3 Credits
Grading Scheme: Letter Grade
History of the changing perception of the political and social significance of science since the discovery of nuclear fission.
Prerequisite: 3 credits of history.

HIS 3495 Evolution of Infectious Diseases 3 Credits
Grading Scheme: Letter Grade
Emergence of new infectious diseases in a historical and cultural context. Emphasizes the history of well-documented infectious diseases such as leprosy, bubonic plague, cholera, smallpox, yellow fever, tuberculosis, influenza, polio, venereal disease, and AIDS, as well as the more recent Ebola viral-type outbreaks.
Prerequisite: 3 credits of history.

HIS 3501 The History of Modern Biological Thought 3 Credits
Grading Scheme: Letter Grade
Selected areas of modern biological thought after 1800. Topics include Darwin, genetics, the Evolutionary Synthesis, molecular biology and sociobiology. (WR)
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

HIS 3610 History and Public Policy 3 Credits
Grading Scheme: Letter Grade
Examines the role of historical analysis and argument in the policy-making process. Introduces the ways in which decision-makers use and misuse history, and considers what it means to take history into account in public policy. Uses specific contemporary policy problems to illustrate the challenges of using history effectively.
Prerequisite: 3 credits of history.

HIS 3931 Special Topics in History 3 Credits
Grading Scheme: Letter Grade
Special topics in history.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

HIS 3942 History Practicum 3 Credits
Grading Scheme: Letter Grade
Learn the elements of the professional study of history: the critical reading of sources (primary and secondary); research skills; and a variety of historical methodologies.
Prerequisite: 3 credits of history.

HIS 4472 History of Evolutionary Thought from the Enlightenment to the Present 3 Credits
Grading Scheme: Letter Grade
Advanced history of science examines the history of evolutionary thought from the Enlightenment to the present. Emphasizes the specific development of Darwinian evolutionary theory and the lives of key theorists such as Charles Darwin and Alfred Russel Wallace. Considers sociopolitical and national contexts.
Prerequisite: some background in evolutionary science or history of science recommended.

HIS 4905 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
Individual study in history. (WR)
Prerequisite: 6 credits of history.
Attributes: Satisfies 6000 Words of Writing Requirement

HIS 4911 Undergraduate Research in History 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

HIS 4930 History Research Seminar 3 Credits
Grading Scheme: Letter Grade
Through rotating in content, this seminar has two distinct goals: introduce the historiography of a specific topic and produce a substantial research paper based on primary source evidence.
Prerequisite: History major of senior standing.

HIS 4944 Internship in the Practice of History 1-3 Credits
Grading Scheme: Letter Grade
Gives history majors practical experience in history-related institutions and organizations, such as archives, historical societies, museums and university presses.
Prerequisite: history major and undergraduate coordinator permission.

HIS 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

HIS 4970 Senior Thesis 1-3 Credits
Grading Scheme: Letter Grade
Required for potential award of high or highest honors. Directed research leading to the submission of an interpretive and analytical, rather than merely narrative, essay of approximately 40 pages in length. The paper may be based on research into a particular topic for which there is accessible source materials or it may involve a thorough critical assessment of a significant historical controversy or historiographical issue. Topics must be approved by the department honors coordinator. Registration for two semesters' work is required in order to allow adequate attention to the project. (WR)
Prerequisite: senior standing and department permission before registering.
Attributes: Satisfies 6000 Words of Writing Requirement

HIS 4971 History Honors Workshop 3 Credits
Grading Scheme: Letter Grade
Assists with all phases of the senior thesis, including project design, research, writing, and oral presentation. Students complete assignments that build toward a draft of a preliminary chapter or the introduction. The workshop provides a collaborative environment in which to pursue individual thesis projects.
Prerequisite: acceptance into the History Honors program.

HPS 3003 Perspectives on Science and Mathematics 3 Credits
Grading Scheme: Letter Grade
Explores the different ways that scientists and mathematicians since the 17th century have explained the workings of the natural world.
Prerequisite: UFTeach Step 1.

IDH 2931 Honors Seminar 3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide Honors Program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

LAH 2020 Introduction to Latin American History 3 Credits
Grading Scheme: Letter Grade
This course examines key developments of Latin American Civilizations. Students will learn about global, international, and intercultural aspects of Latin American History. The course incorporates the Western canon as an object of study as it pertains to this region and the historical periods covered. It analyzes cultural factors such as religion, art, music, literature, and philosophy.
Attributes: General Education - Humanities

LAH 3100 Emergence of Latin American Nations 3 Credits
Grading Scheme: Letter Grade
The last phase of the colonial regime, movement for independence, and problems of nation-building to the end of the 19th century.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

LAH 3130 Colonial Latin America 3 Credits
Grading Scheme: Letter Grade
Surveys the formation of Spanish and Portuguese imperial systems and colonial societies in America in the 16th, 17th and 18th centuries.
Prerequisite: 3 credits of history.

LAH 3300 Contemporary Latin America 3 Credits
Grading Scheme: Letter Grade
Contemporary challenges to traditional structures; revolution and evolution.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

LAH 3470 Introduction to Caribbean History 3 Credits
Grading Scheme: Letter Grade
The main issues and debates in Caribbean history from the time of Columbus to the mid-20th century.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

LAH 3725 Race, Religion, and Revolution in the Black Caribbean 3 Credits
Grading Scheme: Letter Grade
Explores the history of Jamaica, Haiti, the Dominican Republic and the Miskito Coast of Nicaragua. Explains the emergence of colonial and neo-colonial political systems, the concept of race in relationship to slavery and global capitalism as well as the role of religion in revolutionary actions.
Prerequisite: sophomore standing or higher.

LAH 3741 Revolution in the Americas 3 Credits
Grading Scheme: Letter Grade
Historical analysis of the armed and unarmed revolutionary movements of 20th century Latin America, from Mexico to Chile.
Prerequisite: 3 credits of history.

LAH 3931 Special Topics in Latin American History 3-9 Credits
Grading Scheme: Letter Grade
Selected, variable topics in the history and culture of Latin America.
Prerequisite: 3 credits of history.

LAH 4433 Modern Mexico 3 Credits
Grading Scheme: Letter Grade
Aftermath of independence and war with US, the Reform and Maximillian, Porfiriato, Mexican Revolution and contemporary trends.
Prerequisite: 6 credits of history.

LAH 4471 Caribbean History to 1800 3 Credits
Grading Scheme: Letter Grade
Social, economic and political history of the West Indies and the Circum-Caribbean region to 1800, with particular emphasis on slave society.
Prerequisite: 6 credits of history.

LAH 4472 The Caribbean, Nineteenth and Twentieth Centuries 3 Credits
Grading Scheme: Letter Grade
Social history of the modern Caribbean: slave emancipation and decolonization; race relations and black consciousness; labor, culture, and economic change.
Prerequisite: 6 credits of history.

LAH 4473 France in the Caribbean 3 Credits
Grading Scheme: Letter Grade
Making of the modern Francophone Caribbean. Introduce a range of political, economic, and cultural phenomena from buccaneering and voodoo to tourism and transnational identity. Emphasizes slave plantation society, the Haitian Revolution, and the black consciousness movements of the 20th century.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

LAH 4602 The Conquest of Amazonia 3 Credits
Grading Scheme: Letter Grade
Historical analysis of the Amazon. Need no previous knowledge of Latin American history; for those interested in the current issues confronting the region.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

LAH 4630 Brazil after 1750 3 Credits
Grading Scheme: Letter Grade
Late and colonial reform; independence and origins and achievements of Brazilian monarchy; modernization and neo-colonialism; slavery, the military, and emergence of oligarchical republic; legacy of dictatorship and populism.
Prerequisite: 6 credits of history.

LAH 4730 Science and Technology in Latin American, 1492-Present 3 Credits
Grading Scheme: Letter Grade
Introduces the diffusion, acculturation and adaption of scientific ideas, practices and technology by exploring concepts within Latin America.
Prerequisite: 3 credits of history.

LAH 4930 History Research Seminar: Latin America 3 Credits
Grading Scheme: Letter Grade
Through rotating in content, this seminar has two distinct goals: introduce the historiography of a specific topic and produce a substantial research paper based on primary source evidence.
Prerequisite: HIS 3942 with a minimum grade of C.

MEM 3003 Introduction to the Medieval World 3 Credits
Grading Scheme: Letter Grade
Chronological and topical introduction to history of the medieval millennium (400-1400).
Prerequisite: ENC 1101 or equivalent.

MEM 4931 Special Topics in Medieval and Early Modern Studies 1-3 Credits
Grading Scheme: Letter Grade
Advanced study in medieval and early modern studies.
Prerequisite: ENC 1101 or equivalent.

WOH 1432 Pirates and Piracy: A Global History 3 Credits
Grading Scheme: Letter Grade
An examination of the history of pirates and piracy from antiquity through to the present day. Major themes include: the changing definitions of piracy; the reasons individuals, groups, and nations have practiced or supported piracy; and how pirates have been depicted in popular culture.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

WOH 2040 The World in the Twentieth Century 3 Credits
Grading Scheme: Letter Grade
Surveys major developments in the history of the twentieth century, focusing on the increasing world interconnections and interdependency. Themes include imperialism, nationalism and decolonization, the two world wars and the interwar period, the Cold War, new social movements and globalization and the international economy.

WOH 3043 The World Since 1945 3 Credits
Grading Scheme: Letter Grade
Overview of the contemporary world while trying to promote an awareness of the striking diversity of views that characterize and shape that world. Covers major issues in the post 1945 world, the Cold War, colonialism, and decolonization.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

WOH 3203 Africans in World History 3 Credits
Grading Scheme: Letter Grade
Critically examines the history of Africans outside Africa; emphasizes the Atlantic world and the Americas and to connections forged between peoples of African descent and broader movements in world history. Themes include slavery and anti-slavery, diaspora formation, the history of ideas, revolution, decolonization and civil rights struggles.
Prerequisite: 3 credits of history.

WOH 3205 History of Human Rights 3 Credits
Grading Scheme: Letter Grade
Explores the global history of human rights, looking at the bases of those rights, including traditions, practices and international declarations and their evolution over time. At the end of the semester, groups present case reports that apply human rights principles to a variety of historical moments.
Prerequisite: 3 credits of history.

WOH 3233 History of Christianity 1 3 Credits
Grading Scheme: Letter Grade
Surveys the history of Christianity, c. 100 to c. 1300, from its status as a persecuted minority religion of the Roman Empire to its position of dominance in the civilizations of medieval Europe and Byzantium.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

WOH 3239 History of Christianity 2 3 Credits
Grading Scheme: Letter Grade
Developments in the history of Christianity from the 14th to the 18th centuries. Topics include the crises of the 14th century (impact of the Black Death, Avignon papacy and schism), conciliarism, the Reformation movements, expansion of Christianity abroad and the impact of the Enlightenment on faith.
Prerequisite: 3 credits of history.

WOH 3241 The Vietnam War 3 Credits
Grading Scheme: Letter Grade
Examination of the origins, course, and consequences of the conflict in Vietnam, from American and various Vietnamese perspectives, and including the roles of other participants, such as the French, Chinese, and Soviets.
Prerequisite: 3 credits of history.

WOH 3242 The United States and the Contemporary World 3 Credits
Grading Scheme: Letter Grade
Traces the historical development of issues in contemporary international politics. Case studies may include the international economy, terrorism, change, and conflict in the Middle East, the drug trade, nuclear and biological weapons, climate change, and globalization.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

WOH 3404 Global History of Energy 3 Credits
Grading Scheme: Letter Grade
Examines the relationship of human society to energy. Global in size and scope, a large swath of human history on several continents is covered.
Prerequisite: 3 credits in AFH, or AMH, or ASH, or EUH, or HIS, or LAH or WOH.

WOH 3931 Special Topics in World History 3 Credits
Grading Scheme: Letter Grade
Selected variable topics in world history.
Prerequisite: 3 credits in AFH, ASH, AMH, EUH, HIS, LAH or WOH.

WOH 4204 Modern Masculinities in Global Perspective 3 Credits
Grading Scheme: Letter Grade
Comparative, global and historical approach to the study of masculinity, drawing from a burgeoning interdisciplinary scholarship. Study ranges across the world and examines masculinities in the Americas, Asia and Europe with special attention to case studies such as Iran, the United Kingdom, Japan and the United States.
Prerequisite: 3 credits of history.

WOH 4234 Atlantic Exchanges from Columbus to NATO 3 Credits
Grading Scheme: Letter Grade
History of the Atlantic world, demonstrating that oceans have been connective forces that facilitate the exchange of commodities, capital, and culture across vast distances. Topics include the history of the central and northern Atlantic during the age of Imperialism.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

WOH 4243 Empires, Nationalism, and Revolution 1945-1994 3 Credits
Grading Scheme: Letter Grade
Adopting a world history approach to post-World War II era, explores how decolonization intersected with the Cold War in Africa, Asia and Latin America.
Prerequisite: 6 credits of history.

WOH 4254 Nations and Nationalism 3 Credits
Grading Scheme: Letter Grade
Studies the modern genesis of the nation and the nation-state in the Americas, Europe, Asia, and Africa. Emphasizes the relationship between European Imperialism and colonial and postcolonial nationalisms around the globe.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

WOH 4264 Empires and Imperialism 3 Credits
Grading Scheme: Letter Grade
Introduces the history of early modern and modern empires and imperialisms in Europe, Africa, the Americas, and Asia.
Prerequisite: 6 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

WOH 4930 History Research Seminar: World History 3 Credits
Grading Scheme: Letter Grade
Introduces the historiography of a specific topic; requires a substantial research paper based on primary source evidence.
Prerequisite: HIS 3942 with a minimum grade of C.

Honors Program

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Honors Program Requirements

The mission of the University of Florida Honors Program is to connect, nurture, and engage the next generation of scholars who change the world. The program does this by recruiting high achieving students from around the world; inspiring curiosity, intellectual daring and creativity; and building a lifelong community of high-achieving peers, top-notch faculty and supportive staff. The Honors Program values the power of opportunity, the strength in community, and the love of a challenge.
More Info (http://www.honors.ufl.edu/)

Honors Program Requirements

Students who have been admitted into the Honors Program starting in 2022 must complete requirements at three different milestones to progress through the University Honors Program. Milestone review will take place at the checkpoints indicated below. Students who do not meet their milestone requirements by their checkpoint review will not remain in the program. All requirements are listed in detail in the Honors Cohort in Canvas.

Students are encouraged to meet early on with their Honors advisor to develop a plan for aligning their milestone requirements with their academic and career goals.

Milestone I: First Year

- Entrance Survey
- 2 Honors Courses | 2-4 Academic Points | Honors Course Category
- 3.5 Cumulative UF GPA
- Good Standing with Student Code of Conduct / Honor Code

Checkpoint Review: End of first Spring semester at UF

Milestone II: Second Year

- 2 Additional Academic Points | any category
- 2 Enrichment Points | any category
- 3.5 Cumulative UF GPA

Checkpoint Review: End of Summer C following the 2nd year

Completion Progress Check-in

Review of progress with Honors Completion Coordinator

Checkpoint Review: During Third Year

Milestone III: Graduation

- Exit Survey / Final Submission Clearance
- 2-4 Additional Academic Points | any category
- 4 Additional Enrichment Points | any category
- Cum Laude Honors Distinction in the Major or 3.5 upper-division UF GPA

Checkpoint Review: Published Honors Completion Deadline / Awarding of Undergraduate Degree

Students who meet requirements for all three milestones will receive a notation on their official UF transcript and a medallion to wear at commencement

Students in the Honors Program have access to:

- Specialized honors courses (http://www.honors.ufl.edu/academics/courses/)
- Holistic academic advising and coaching (http://www.honors.ufl.edu/academics/advising/)
- Honors student involvement opportunities (http://www.honors.ufl.edu/student-life/)

In addition, students in the Honors Program have early course registration for their first 10 credits each semester. Early registration privileges are limited to students in good standing with either the FHP or UHP.

Courses

For information on honors courses offered each semester, students should consult the schedule of courses or the honors website.
More Info (http://www.honors.ufl.edu/current/courses/)

IDH 1700 Honors Professional Development 1 Credit
Grading Scheme: Letter Grade
Develop Career Related Skills to Succeed At Uf and Beyond.

IDH 2930 (Un)common read 1 Credit
Grading Scheme: Letter Grade
Discussion oriented courses centered around a single book.

IDH 2931 Honors Seminar 3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide Honors Program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

IDH 3931 Interdisciplinary Junior Honors 1-3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide honors program.
Prerequisite: Honors program member.
Attributes: Satisfies 6000 Words of Writing Requirement

IDH 4715 Professional Development Strategies 1 Credit
Grading Scheme: S/U
Helps select undergraduate students identify and compete for the most prestigious career-making scholarships by determining the activities and ideas most important and attractive to selection committees.

IDH 4903 Honors Tutorial 1 Credit
Grading Scheme: Letter Grade
Must be taken in conjunction with other courses at the 3000 and 4000 level. Students must secure instructor permission of the course to which they wish to add this credit.
Prerequisite: honors program member.

IDH 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Restricted to those in the university-wide honors program.

IDH 4912 Honors Undergraduate Research 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: honors program permission.

IDH 4940 Internship 0-6 Credits
Grading Scheme: S/U
Experiential learning in a variety of work locations. Permission of program director required. Supervision by a faculty member or delegated authority, daily journal and a post-internship report are required.

Horticultural Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Horticultural Sciences Department is a team of faculty, staff, and students dedicated to improving fruit and vegetable production for the benefit of farmers and consumers. Florida's climatic diversity and the facilities at UF provide opportunities for cutting-edge research in plant breeding & genetics, plant and environmental physiology, fruit & vegetable production, postharvest physiology, biochemistry, and other disciplines.

Curriculum

- Combination Degrees
- Horticultural Science Minor
- Horticultural Therapy Certificate
- Organic and Sustainable Crop Production Minor
- Plant Molecular and Cellular Biology Minor

Courses

FRC 1010 Growing Fruit for Fun and Profit 1 Credit
Grading Scheme: Letter Grade
Especially for non-majors who desire a concise mini-course in fruit growing and marketing. Fruit crops include citrus, pecan, blueberry, strawberry, peach, grape, apple, mango and avocado.

FRC 3212 Introduction to Citrus Culture and Production 3 Credits
Grading Scheme: Letter Grade
Citrus botany, scion and rootstock selection, site selection, fruit quality grove design, and production practices.
Prerequisite: BOT 2010C.

FRC 3252 Tropical and Subtropical Fruits 2 Credits
Grading Scheme: Letter Grade
Culture and management of important tropical and subtropical fruit, including avocado, banana, mango, papaya, loquat, persimmon, pineapple, coffee, and others.
Prerequisite: BOT 2010C.

FRC 3274 Tree and Small Fruit Production 3 Credits
Grading Scheme: Letter Grade
Current principles and cultural practices in deciduous tree, bush, and vine crops. Emphasizes practical aspects of production.
Prerequisite: BOT 2010C or equivalent.

FRC 3802 Viticulture for Table Grapes and Wine 2 Credits
Grading Scheme: Letter Grade
Teaches current practices for establishing a vineyard and maintaining its health and productivity into the final quality of the grape. Topics covered include grape varietal selection, site selection and preparation, vine growth, training and trellis systems, and equipment used in vineyard and wine production.
Prerequisite: BSC 2005 or BOT 2010C or BOT 2011C.

FRC 4905 Special Problems 1-3 Credits
Grading Scheme: Letter Grade
Special Problems
Prerequisite: Instructor permission.

HOS 1014 Vegetable Gardening 1 Credit
Grading Scheme: Letter Grade
Primarily for non-majors who desire to learn the basic principles of vegetable gardening. A garden is required of each student.

HOS 2333 Fighting Food Waste and Loss 3 Credits
Grading Scheme: Letter Grade
This class is a biological science general education class designed for all students who are interested in learning and reflecting upon the major future challenges of food and agriculture. Students will learn about postharvest biology, environmental and food sciences, and communication technology in reducing food waste. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: any Quest 1 course.
Attributes: Quest 2, General Education - Biological Science, General Education - International

HOS 3020C Principles of Horticultural Crop Production 4 Credits
Grading Scheme: Letter Grade
Introduces concepts and practices used to produce fruit and vegetable crops in Florida, the U.S., and globally. Topics covered include production regions, crop biology, crop nutrition, types of fruits and vegetables, disease and pest management, and marketing. Includes a hands-on practicum.
Prerequisite: BOT 2010C or equivalent.

HOS 3222C Greenhouse and Protected Agriculture 3 Credits
Grading Scheme: Letter Grade
Principles and practices of crop production in protected structures. Emphasizes structure type, media, fertilization, and pest control practices.
Prerequisite: HOS 3020C.

HOS 3281C Organic and Sustainable Crop Production 3 Credits
Grading Scheme: Letter Grade
Concepts and techniques of organic and sustainable production of horticultural crops, including soil/water management, pest control, harvest, handling, and marketing.
Prerequisite: Junior or Senior standing.

HOS 3285 The Organic Debate: Organic Agriculture Development & Regulations 1 Credit
Grading Scheme: Letter Grade
Organic farming is a rapidly developing production system. This introductory course provides a critical analysis of organic agriculture growth, consumer perceptions, and regulations at the national and international level. This course also focuses on organic agriculture transdisciplinary innovations and challenges in advancing environmental, economic, and social sustainability of food production.
Prerequisite: BSC 2005 or equivalent.

HOS 3305 Introduction to Plant Molecular Biology 3 Credits
Grading Scheme: Letter Grade
Introduces plant molecular biology and genetic engineering, emphasizing plant genes and genomes, transformation of plants and basic molecular biology.
Prerequisite: APB 2150 or BOT 2010C or BSC 2010.

HOS 3430C Nutrition of Horticultural Crops 3 Credits
Grading Scheme: Letter Grade
Study and discussion of physiological, biochemical, and environmental factors influencing nutritional status and productivity of horticultural crops.
Prerequisite: SWS 3022.

HOS 3513C Breeding and Production of Medicinal Plants and Herbs 2 Credits
Grading Scheme: Letter Grade
Focuses on current and emerging breeding and cultivation practices used to produce high–value medicinal plants and herbs. Additionally, provides a critical analysis of health effects and therapeutic claims of plant-derived physiologically-active products.
Prerequisite: BSC 2010 or BSC 2011 or BOT 2010C or BOT 2011C.

HOS 4241C Genetics and Breeding of Vegetable Crops 3 Credits
Grading Scheme: Letter Grade
Traditional and molecular breeding methods for vegetable crops and the influence of scientific research, government policies, industry needs, and consumer preferences on vegetable crop improvement.
Prerequisite: AGR 3303.

HOS 4283C Advanced Organic and Sustainable Crop Production 3 Credits
Grading Scheme: Letter Grade
Intensive examination of the methods and techniques necessary for organic and sustainable production and marketing of horticultural products.
Prerequisite: HOS 3281C.
Attributes: Artificial Intelligence

HOS 4304 Horticultural Physiology 3 Credits
Grading Scheme: Letter Grade
Basic concepts and processes of physiology as they relate to plant growth and development.
Prerequisite: BOT 2010C or BSC 2010.

HOS 4313C Laboratory Methods in Plant Molecular Biology 2 Credits
Grading Scheme: Letter Grade
Hands-on laboratory experience in plant molecular biology. Utilizing current techniques for isolation, purification and cloning of plant DNA, students learn many basic techniques in plant biotechnology.
Prerequisite: (AGR 3303 or HOS 3305) and PCB 3063.

HOS 4332C Principles of Postharvest Horticulture 3 Credits
Grading Scheme: Letter Grade
Biological principles involved in harvesting, grading, packaging, transportation, and marketing horticultural crops, and their effects on quality maintenance. Commercial postharvest practices explained in relation to general procedures and technologies as well as the recommended postharvest best handling practices and optimum postharvest conditions for different types of horticultural crops.
Prerequisite: HOS 4304.

HOS 4341 Advanced Horticultural Physiology 3 Credits
Grading Scheme: Letter Grade
Environmental effects (light, temperature and water) on physiology, growth and development of plants.
Prerequisite: HOS 4304.

HOS 4900 Supervised Extension Experience in Horticultural Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

HOS 4905 Independent Study in Horticultural Science 1-6 Credits
Grading Scheme: Letter Grade
Selected research topics in molecular biology, physiology, and/or genetics of horticultural crops.
Prerequisite: Instructor permission.

HOS 4911 Supervised Research in Horticultural Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in horticultural sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

HOS 4915 Honors Thesis Research in Horticultural Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in horticultural sciences leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

HOS 4918 Capstone Planning in Horticultural Sciences 1 Credit
Grading Scheme: S/U
Focuses on planning service learning, scientific research, cooperative extension, or industry liaison projects for the Horticultural Sciences capstone. Also fosters reflection of academic and professional development in the major.
Prerequisite: HOS 4933.

HOS 4921 Horticultural Sciences Capstone 2-4 Credits
Grading Scheme: S/U
Focuses on executing service learning, scientific research, cooperative extension, or industry liaison projects designed during capstone planning. Perfect professional portfolios and present the outcomes of the capstone project.
Prerequisite: HOS 4918.

HOS 4932 Special Topics in Horticultural Sciences 1-3 Credits
Grading Scheme: Letter Grade
Critical review of selected topics in specific areas not covered in other horticultural sciences courses.
Prerequisite: instructor permission.

HOS 4933 Professional Development in Horticulture 1 Credit
Grading Scheme: Letter Grade
Professional skills development, including job searching, resume writing, interview skills, professional etiquette, communications, and salary negotiations.
Prerequisite: Junior or Senior standing.

HOS 4941 Practical Work Experience in Horticultural Sciences 1-4 Credits
Grading Scheme: S/U
Practical work that must be a new experience and related to the field of study.
Prerequisite: advisor arrangement and permission.

IDS 2151 Plants for Human Medicine 3 Credits
Grading Scheme: Letter Grade
Pressing question(s): can plants cure human diseases? Can plants provide solutions to societal human health problems? Human beings and plants have had an intricate relationship since the beginning of their joint evolutionary history. We will learn about the ethnobotanical use of plants and examples of plants that provided modern medicines that help to fight some of humankind's deadliest medical conditions, including cancers, heart disease, and pain.
Prerequisite: Quest 1 course with a minimum grade of C.
Attributes: Quest 2, Satisfies 2000 Words of Writing Requirement

ORH 2540 Ethnohorticulture - A Coevolution of Plants and People 3 Credits
Grading Scheme: Letter Grade
Ethnohorticulture is the chain of events that determines the global uses of plants once they are collected from the wild and have become a commodity. In this course, you will explore how human and plant coevolutionary relationships formed, focusing on several crops and their roles in world cultures as food, spices, fiber, building materials, and cosmetics. Topics are many, including tomatoes, corn, and even beer. You will learn how humans shaped iconic plants, which then traveled the globe.
Prerequisite: Quest 1 course with a minimum grade of C.
Attributes: Quest 2

PLS 2830 World Herbs and Vegetables 3 Credits
Grading Scheme: Letter Grade
Introduces students to a variety of vegetables and culinary herbs. Emphasis placed on genetic, phytochemical and botanical diversity and importance of food phytochemicals and role of vegetables in nutrition. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

PLS 3421C Hydroponic Systems 3 Credits
Grading Scheme: Letter Grade
This course offers students foundational information and hands-on experience on hydroponic and soilless cultivation of horticultural crops. Production practices, growing systems, new technologies and current challenges are discussed.
Prerequisite: HOS 3020C or PLS 3004C.

PLS 3800C Vegetable Production 3 Credits
Grading Scheme: Letter Grade
Principles and practices of successful commercial vegetable production, including crop requirements, growth patterns, and production techniques along with consumption/marketing patterns and US/Florida production areas.
Prerequisite: BOT 2010C or (BSC 2010 & BSC 2010L) or (BSC 2011 & BSC 2011L).

PLS 4630 Organic Weed Management 3 Credits
Grading Scheme: Letter Grade
Apply ecological principles in agroecosystems to manage weeds sustainably. Emphasizes alternative weed management approaches that are less dependent on herbicides and utilize ecological processes detrimental to weeds and their propagules. Learn actively by critically analyzing pertinent literature and participating in discussions of supplemental reading.
Prerequisite: HOS 3020C or ALS 3153.

Hungarian | European Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

Curriculum

- East-Central European Studies Minor
- European Union Studies Certificate
- European Union Studies Minor
- Medieval and Early Modern Studies | IDS

Courses

HNG 1130 Beginning Hungarian 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, HNG 1131, constitute the basic sequence in Hungarian.

HNG 1131 Beginning Hungarian 2 5 Credits
Grading Scheme: Letter Grade
Second semester of basic sequence in Hungarian.
Prerequisite: HNG 1130 with minimum grade of C, or S, or the equivalent.

HNG 1180 Elementary Hungarian: Review and Progress 1 3 Credits
Grading Scheme: Letter Grade
Alternative to HNG 1130, for students who have some experience in Hungarian. Reviews basic grammar and improves reading, writing and listening skills.

HNG 1182 Elementary Hungarian: Review and Progress 2 3 Credits
Grading Scheme: Letter Grade
An accelerated one-semester coverage of HNG 1130 and HNG 1131 for students with some experience in Hungarian.
Prerequisite: instructor permission.

Industrial and Systems Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Industrial and Systems Engineering strives to be a resource for comprehensive ISE education and research training; a department with research thrusts and coursework covering a breadth of disciplines; a department making use of advanced computing technology, cutting-edge programming languages, social media, data mining, AI, etc. to best support needs, interests, and training of students.

Curriculum

- Combination Degrees
- Industrial and Systems Engineering

Courses

COP 2271 Computer Programming for Engineers 2-3 Credits
Grading Scheme: Letter Grade
Computer programming and the use of computers to solve engineering and mathematical problems. Emphasizes applying problem solving skills; directed toward technical careers in fields employing a reasonably high degree of mathematics. The programming language used depends on the demands of the departments in the college. Several languages may be taught each semester, no more than one per section. Those required to learn a specific language must enroll in the correct section.
Prerequisite: MAC 2312 with minimum grade of C.

COP 2271L Computer Programming for Engineers Laboratory 1 Credit
Grading Scheme: Letter Grade
Optional laboratory for COP 2271. Required for ISE majors.
Prerequisite: MAC 2312;
Corequisite: COP 2271.

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Department permission.

EGN 4930 Sales Engineer Seminar 1 Credit
Grading Scheme: S/U
Intended for those interested in pursuing a career in sales engineering (required for students enrolled in the sales engineering certificate program). Lectures and discussions on practice-oriented sales engineering topics.

EGS 1006 Introduction to Engineering 1 Credit
Grading Scheme: Letter Grade
Introduces the 11 departments that offer undergraduate degrees at UF. Students break into groups of 20, rotating weekly through each department. During these visits, students participate in hands-on experiments to help them make informed decisions about career alternatives.

EIN 2002 Introduction to Industrial and Systems Engineering 1 Credit
Grading Scheme: Letter Grade
Introduction to the field of industrial and systems engineering. Provides an overview of methodological and application areas as well as career paths.

EIN 3241 Human Factors & Ergonomics 3 Credits
Grading Scheme: Letter Grade
Introduces the techniques/concepts to understand users and workplace requirements for the design of sociotechnical systems. Topics covered include methods for work measurement, human cognitive and physical capabilities and limitations, and workplace requirements. Applications for design, including computer displays, noise, repetitive and high physical effort tasks are presented.
Prerequisite: ESI 3215C with minimum grade of C.

EIN 3354 Engineering Economy 3 Credits
Grading Scheme: Letter Grade
Basic principles and applications of economic decision-making between alternatives encountered in engineering systems projects. Analysis includes methodologies of economics and finance in addition to engineering fundamentals.
Prerequisite: MAC 2312 with a minimum grade of C.

EIN 4210 Occupational Safety Engineering 3 Credits
Grading Scheme: Letter Grade
Safety history and litigation; accident causation; safety organizations and agencies. Approaches to occupational safety and risk management. Product defects and safety program development; product liability; consumer product safety commission. Hazard communication standard. Workers' compensation. OSHA safety standards and codes; OSHA record keeping. Common occupational hazards.
Prerequisite: PHY 2049 and ESI 3215C with minimum grades of C.

EIN 4242C Workplace Ergonomics and Biomechanics 3 Credits
Grading Scheme: Letter Grade
Covers advanced topics on human factors and usability concepts and methods including prototyping and design, usability testing, design of experiments, forensics, and systems design applied to typical human factors domains such as IT, healthcare, transportation, and command and control.
Prerequisite: EIN 3241 with a minimum grade of C and EGM 2511 with a minimum grade of C.

EIN 4245 Human Factors Applications 3 Credits
Grading Scheme: Letter Grade
Focuses on applications of advanced topics in human factors and design within various industrial engineering related domains. Students will be introduced to important domains for human factors work in industry and academia, such as user experience in information technology, healthcare human factors, traffic safety and driving, aviation, and command and control. Students will apply human factors methods and concepts to problems within these domains through case study projects and assignments.
Prerequisite: EIN 3241 with a minimum grade of C and ESI 3215C with a minimum grade of C.

EIN 4335 Senior Design Project 3 Credits
Grading Scheme: Letter Grade
Integration of industrial and systems engineering methodologies; emphasizes methods of successful implementation. Project and case-study oriented.
Prerequisite: ESI 3312, ESI 4313, ESI 4523, ESI 4356, EIN 3354, and EGS 4034 all with minimum grades of C.

EIN 4343 Inventory and Supply Chain Systems 3 Credits
Grading Scheme: Letter Grade
Develops analytic abilities to formulate and solve inventory and logistics problems faced by today's firms. Learn to take a comprehensive view of complex inventory and supply-chain systems; develop abilities to model, optimize and design such systems.
Prerequisite: ESI 3312.

EIN 4360 Facility Planning and Material Handling 3 Credits
Grading Scheme: Letter Grade
Introduces fundamental concepts in several main areas of industrial engineering such as facility planning, material handling systems, unit loading and warehouse picking. Topics such as analysis and design of workspace and flow, facility location and layout, material handling systems, and optimization of picking processes are covered.
Prerequisite: ESI 3312 (C) and (EML 2023 or equivalent) with minimum grades of C.

EIN 4451 Lean Production Systems 3 Credits
Grading Scheme: Letter Grade
Design of flow line, cellular and flexible manufacturing systems. Design and control of lean manufacturing systems. Continuous improvement, small lot production, setup-time reduction, equipment improvement and maintenance. Principles and control of push and pull manufacturing systems. Production planning and operations scheduling.
Prerequisite: ESI 3312 (C) and ESI 3215C (C).

EIN 4905 Special Problems in Industrial and Systems Engineering 1-4 Credits
Grading Scheme: Letter Grade
Problems and systems studies associated with honors programs representing undergraduate research. Selected advanced topics including new developments and techniques in industrial and systems engineering.

EIN 4912 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EIN 4354 and EIN 4360C with minimum grades of C;
Corequisite: ESI 4221C with minimum grade of C.

EIN 4913 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
Second part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget.
Prerequisite: EGS 4034 with a minimum grade of C and Engineering major of junior standing or higher.

EIN 4937 Industrial and Systems Engineering Seminar 1 Credit
Grading Scheme: S/U
Lectures and discussions on general and specific engineering problems. Individual investigations and research reports on assigned topics. Orientation for an industrial career.
Prerequisite: 3EG or 4EG standing in industrial and systems engineering.

EIN 4944 Practical Work in Industrial and Systems Engineering 1-3 Credits
Grading Scheme: S/U
One term of industrial employment, including extra work according to a preapproved outline. Practical engineering work under industrial supervision as set forth in the Herbert Wertheim College of Engineering regulations.
Prerequisite: 4EG classification and EGS 4034 with a minimum grade of C.

ESI 3215C Data Anal. for Indus. Apps. 4 Credits
Grading Scheme: Letter Grade
Focuses on analysis of data encountered in ISE applications including system reliability, demand forecasting and inventory control, simulation, and quality control. Specific engineering applications are discussed through case studies. Introduction and use of computational tools to implement various data analysis techniques is an important component of this course.
Prerequisite: MAC 2312 with minimum grade of C.

ESI 3312 Operations Research 1 3 Credits
Grading Scheme: Letter Grade
Introduces deterministic optimization modeling, algorithms, and software to aid in the analysis and solution of decision-making problems.
Prerequisite: ESI 3327C with minimum grade of C.

ESI 3327C Matrix and Numerical Methods in Systems Engineering 3 Credits
Grading Scheme: Letter Grade
Theory and application of vector, matrix and other numerical methods to systems problems. Simultaneous linear equations, characteristic values, quadratic forms, error analysis, use of series, curve fitting, nonlinear equations, discrete methods. The laboratory sessions will emphasize numerical solutions using common programming languages.
Prerequisite: MAC 2313 and MAS 3114 with minimum grades of C.

ESI 4221C Industrial Quality Control 3 Credits
Grading Scheme: Letter Grade
Factors affecting variation in product quality; use of control charts to evaluate and control manufacturing processes. Techniques for acceptance and reliability testing. Laboratory exercises illustrate the operation and control of manufacturing processes and hazard function. Typical failure distributions, redundant systems, models of repair and maintenance.
Prerequisite: ESI 3215C with a minimum grade of C.

ESI 4313 Operations Research 2 3 Credits
Grading Scheme: Letter Grade
Introduces stochastic models and methodologies for analyzing and providing solutions to decision-making problems with uncertainties.
Prerequisite: ESI 3327C and ESI 3215C with minimum grades of C.

ESI 4317 Advanced Topics in Operations Research 3 Credits
Grading Scheme: Letter Grade
Discusses advanced operations research topics on non-linear optimization, convex optimization, dynamic programming, and stochastic optimization. Study large or complex problems from two different perspectives: Static approach and Dynamic approach.
Prerequisite: ESI 3312 (with a minimum grade of C) and ESI 4313 (with a minimum grade of C).

ESI 4356 Decision Support Systems for Industrial and Systems Engineers 4 Credits
Grading Scheme: Letter Grade
Applications of decision support systems in industrial and systems engineering; developing and implementing decision support systems arising in industrial and systems engineering using popular database management and spreadsheet software.
Prerequisite: COP2273 or COP2271 with a minimum grade of C.
Corequisite: ESI 3312 will minimum grades of C.

ESI 4357 Web-Based Decision Support Systems for Industrial and Systems Engineers 4 Credits
Grading Scheme: Letter Grade
Introduces the Internet and e-commerce; Internet tools and technologies necessary for the development of web-based decision support systems; designing and implementing web-based decision support systems arising in the practice of industrial and systems engineering using popular software packages.
Prerequisite: COP 2271 and ESI 4312 with minimum grades of C.

ESI 4523 Industrial Systems Simulation 3 Credits
Grading Scheme: Letter Grade
Simulation methodology and languages, such as General Purpose Simulation System (GPSS). Design and analysis of simulation experiments as well as applications to solutions of industrial and service system problems.
Prerequisite: COP2273 or COP2271 and ESI 3215C with minimum grades of C.

ESI 4610 Introduction to Data Analytics 3 Credits
Grading Scheme: Letter Grade
Provides a basic understanding of the skills necessary for managing and analyzing data. The concepts covered include exploratory data analysis, data manipulation, data cleaning, data wrangling, and machine learning models. A basic understanding of data management with SQL is also provided. All the technical skills will be motivated by different examples involving data. Python is the programming language used.
Prerequisite: COP2273 or COP2271 and ESI 3215C with minimum grades of C.
Attributes: Artificial Intelligence

ESI 4611 Advanced Data Analytics 3 Credits
Grading Scheme: Letter Grade
Second course in the data analytics ISE sequence that focuses on how and why algorithms work using an application-oriented approach. Studies advanced analytical and learning models that enhance decision making by converting data to information. Provides insights into how to choose the most effective tool for implementing a specific model.
Prerequisite: ESI 4610 with a minimum grade of C.

ESI 4614 Decision Analytics Design 3 Credits
Grading Scheme: Letter Grade
Studies methods for designing and evaluating analytics systems for optimizing decision making. Teaches technical and programming skills for implementation and feedback of an analytics pipeline from input data curation, processing, and validation, to prescribing outcomes.
Prerequisite: ESI 3312 with a minimum grade of C and (ESI 4610 or COP 2273 both with a minimum grade of C).

ESI 4949 Co-Op Work Experience 1 Credit
Grading Scheme: S/U
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations.
Prerequisite: EGS 4034 with a minimum grade of C.

Information Systems and Operations Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The primary mission of the Information Systems and Operations Management Department is a commitment to scholarly research, teaching and service to advance the state of knowledge in information systems and supply chain management and to train future leaders for professional and academic careers.
Website (https://warrington.ufl.edu/information-systems-and-operations-management-department/)

Curriculum

- Combination Degrees
- Information Systems
- Information Systems Minor

Courses

ISM 3004 Computing in the Business Environment 4 Credits
Grading Scheme: Letter Grade
Presents fundamental concepts from two perspectives: the individual business computer user and the corporate business computing environment. Introduces common business computing applications; this is not a hands on applications training course. Students use their existing computer skills to complete assignments.
Prerequisite: basic skills for Microsoft Word, PowerPoint, and Excel.
Attributes: Artificial Intelligence

ISM 3013 Introduction to Information Systems 4 Credits
Grading Scheme: Letter Grade
Introduces the role of information systems and technology in an organization with a focus on the use of Access and Excel to solve business problems. Receive the knowledge necessary to earn Microsoft certifications in Access and Excel.
Prerequisite: MAC 2311 or MAC 2233, and sophomore standing.
Attributes: Artificial Intelligence

ISM 3254 Business Systems 1 2 Credits
Grading Scheme: Letter Grade
Introduces the basic tools for building business systems using object-oriented and event-driven programming paradigms. Emphasizes using Java to illustrate these ideas.

ISM 3255 Business Systems 2 2 Credits
Grading Scheme: Letter Grade
Continuation of the course sequence to develop the basic tools for building business systems using object-oriented and event-driven programming paradigms. Emphasizes using C# to illustrate these ideas.
Prerequisite: ISM 3254.

ISM 4113 Business Systems Design and Applications 2 Credits
Grading Scheme: Letter Grade
Conceptual foundations of the process, data and object oriented approaches for the analysis and design of business systems. Systems development life cycle, rapid application design, CASE tools also covered.

ISM 4210 Database Management 2 Credits
Grading Scheme: Letter Grade
Introductory database management. Topics include various stages in a database development process such as conceptual, logical, application and physical design.
Prerequisite: ISM 4113.

ISM 4220 Business Data Communications 1 2 Credits
Grading Scheme: Letter Grade
Various aspects of telecommunication systems, the use of local and wide area networks, the Internet, wireless technologies and distributed systems for decision making and strategic management questions relating to business goals, long-range planning and budgeting.

ISM 4221 Business Data Communications 2 2 Credits
Grading Scheme: Letter Grade
Helps gain insights into network security; exposure to various security algorithms and techniques via hands-on experience with projects and homework assignments.
Prerequisite: ISM 4220.

ISM 4330 Information Systems and Operations Strategy 2 Credits
Grading Scheme: Letter Grade
Policy and management issues surrounding information systems and operations management in today's enterprises.
Prerequisite: ISM 4113, ISM 4210 and ISM 4220.

ISM 4930 Special Topics in Information Systems 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for in-depth study of topics not offered in other courses and of topics of special current significance.
Prerequisite: department permission.

MAN 4504 Operations and Supply Chain Management 4 Credits
Grading Scheme: Letter Grade
Managerial concepts and quantitative tools required in the design, operation, and control of production systems and their relationship to business functions.
Prerequisite: BUL 4310 and FIN 3403 and GEB 3373 and MAC 2233 or MAC 2311 and MAN 3025 and MAR 3023 and QMB 3250 and STA 2023 and (Business major or Accounting major)
Attributes: Artificial Intelligence

MAN 4538 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: senior standing.

MAN 4539 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
Continuation of the two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes, on time and within budget..
Prerequisite: MAN 4538.

QMB 3250 Statistics for Business Decisions 4 Credits
Grading Scheme: Letter Grade
Correlation and linear regression, model building, multiple regression, analysis of variance, time series analysis and decision analysis. Regression modeling with computer applications for business problems.
Prerequisite: STA 2023. Open only to students who need this course for their major or who have permission from the WCBA.
Attributes: Artificial Intelligence

QMB 3302 Foundations of Business Analytics and Artificial Intelligence (AI) 4 Credits
Grading Scheme: Letter Grade
Introduces the basics of data analytics and machine learning using the powerful programming language Python. Learn Python basics, how to write programs, and how to use Python to solve real-world problems.
Prerequisite: MAC 2233 OR MAC 2311.
Attributes: Artificial Intelligence

QMB 4701 Managerial Operations Analysis 1 2 Credits
Grading Scheme: Letter Grade
Introduces the concepts and applications of management science; become more confident in understanding and using deterministic analytic models.
Prerequisite: MAC 2233 and STA 2023.
Attributes: Artificial Intelligence

QMB 4702 Managerial Operations Analysis 2 2 Credits
Grading Scheme: Letter Grade
Overview of stochastic applications of management science; learn stochastic modeling techniques and introductory visual basic.
Prerequisite: QMB 4701.
Attributes: Artificial Intelligence

QMB 4905 Individual Work in Information Systems and Operations Management 1-5 Credits
Grading Scheme: Letter Grade
Reading and/or research in information systems and operations management. A written report is required.
Prerequisite: Senior standing or higher and department permission.

QMB 4930 Special Topics in Operations Analysis/Quantitative Methods 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for in-depth study of topics not offered in other courses and of topics of special current significance.
Prerequisite: department permission.
Attributes: Artificial Intelligence

QMB 4941 Internship in Information Systems and Operations Management 1-3 Credits
Grading Scheme: S/U
Applied work in information systems and operations management. Requires several papers and reports. Counted as free-elective credit only.
Prerequisite: department chair permission.

QMB 4956 International Studies in Quantitative Methods 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved study abroad program and department permission.

QMB 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for award of magna cum laude or summa cum laude designations. To qualify, students normally must have completed 90 semester credits of coursework (exceptions may be made) and must have at least a 3.6 GPA at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's major department.
Prerequisite: 90 credits earned and 3.6 UF GPA.

Innovation Academy

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

IA Information

The Innovation Academy (IA) equips students with the 21st-century skills needed to thrive in an innovative culture. IA is a living-learning community embedded within the traditional University of Florida experience. Students select from over 25 UF majors and earn their degree with a minor in Innovation. The IA academic calendar operates on a Spring-Summer schedule, giving students the opportunity to enjoy Fall co-curricular activities, pursue internships, study abroad, or enjoy the break at home.

Map (http://campusmap.ufl.edu/#/index/0018)

Curriculum

- Innovation Minor

Courses

AEC 3410 Fostering Innovation through Leadership 3 Credits
Grading Scheme: Letter Grade
By studying key leadership theories and models students will develop the basic skills and knowledge necessary to move an innovation from creation to implementation. Using specifically designed experiences, students will be able to think critically about leadership's direct application to innovation and change.
Corequisite: Enrollment in the Innovation Academy.

EEL 3872 Artificial Intelligence Fundamentals 3 Credits
Grading Scheme: Letter Grade
An overview of Artificial Intelligence (AI), approaching the concept from its origins to expectations for the future. The course will focus on various AI technologies, how to build Machine Learning models, and how to apply AI tools to solve real-world problems. Some concepts that will be introduced in the course are types of AI and Machine Learning, Hacking and the IoT, AI today, and its outlook for the future.
Prerequisite: Junior standing or above, or instructor permission.
Attributes: Artificial Intelligence

EGN 4641 Engineering Entrepreneurship 3 Credits
Grading Scheme: Letter Grade
Engineering Entrepreneurship introduces engineering students to the concepts and practices of technological entrepreneurial thinking and entrepreneurship. Using lectures, case studies, business plans and student presentations, the course teaches life skills in entrepreneurial thought and action that students can utilize when starting technology companies or executing research and development projects in large companies.
Prerequisite: Junior standing or higher.

ENT 3003 Principles of Entrepreneurship 4 Credits
Grading Scheme: Letter Grade
Practical, hands-on understanding of the stages of entrepreneurial process. Focus on the decision-making process within a start-up company.

ENT 4015 The Venture Accelerator 2 Credits
Grading Scheme: Letter Grade
A team-based, experiential program focused on the start-up process; includes lectures, readings, discussions, workshops, and a team-based project. As deliverables, each team must deliver weekly lessons-learned presentations, complete business canvas updates, and prepare a final presentation.
Prerequisite: ENT 3003 or EGN 4641.

IDH 4940 Internship 0-6 Credits
Grading Scheme: S/U
Experiential learning in a variety of work locations. Permission of program director required. Supervision by a faculty member or delegated authority, daily journal and a post-internship report are required.

IDS 1107 Innovation Mindset 2 Credits
Grading Scheme: Letter Grade
Provides incoming Innovation Academy students strategies for success as 21st century college students and innovators and equips students with the tools to become independent thinkers and learners.
Prerequisite: IAOK, Admission to Innovation Academy.

IDS 1359 Innovation in Action 2 Credits
Grading Scheme: Letter Grade
Focuses on execution of creative problem-solving strategies through completion of a design sprint, resulting in an innovative project. Students refine design thinking skills developed in IDS 1940, research and prototype a concept, test and refine the prototype, and complete and present the final project at the “Catalyst” showcase.
Prerequisite: IDS 1940(C).

IDS 1940 Creativity & Design Thinking for Innovation 2-4 Credits
Grading Scheme: Letter Grade
Focuses on building creative confidence through the design thinking process. Students explore and develop their own creative processes, experience collaborative creative problem solving in multidisciplinary teams, and practice prototyping innovative solutions to problems through sustainable prototyping, laser cutting, 3-D modeling/printing, and Arduino.
Prerequisite: Admission to the Innovation Academy.

IDS 4941 Innovation Academy Internship 1-6 Credits
Grading Scheme: Letter Grade
Experiential learning enables participation in an innovative internship that supplements the degree program. Supervised by a faculty member or designated authority, seven online assignments are required for successful completion.
Prerequisite: One full academic year (Spring/Summer) in the Innovation Academy and program director permission.

IDS 4950 Innovation Academy Senior Project 2 Credits
Grading Scheme: Letter Grade
Using lectures, labs and a multidisciplinary team-based project approach, build life skills in creativity and innovation, entrepreneurship and entrepreneurial thinking. Synthesize and demonstrate leadership and ethics through design and development of a team project.
Prerequisite: Successful completion of five required Innovation minor courses or Instructor permission.

PHI 3681 Ethics, Data, and Technology 3 Credits
Grading Scheme: Letter Grade
Addresses ethical issues related to data science, algorithmic decision-making, and artificial intelligence. Pairs theoretical discussions of ethics, economics, and policy-making with concrete issues in emerging technologies.
Prerequisite: Sophomore standing or higher or (PHI 2010 or PHI 2100 or PHI 2630, with a minimum grade of C) or (philosophy major or minor) or data science major.
Attributes: Artificial Intelligence

Interdisciplinary Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

ARH 2500 Non-Western Art 3 Credits
Grading Scheme: Letter Grade
The visual arts seen in the cultural context of Sub-Saharan Africa, the Pacific, Native America, India, China and Japan; prehistoric to recent. (N)

HUM 2420 African Humanities 3 Credits
Grading Scheme: Letter Grade
Similar in philosophy and purpose to the basic sequence, with content selected from the philosophies, literature, arts, and music of various African countries and regions.

HUM 2424 African Cultures and Literatures 3 Credits
Grading Scheme: Letter Grade
A culturally based study of folktales, proverbs, drama, poetry and novels; and how these forms are used to portray African arts and ideas.

IDS 1054 Introduction to Research in the Liberal Arts and Sciences 1 Credit
Grading Scheme: Letter Grade
Helps Liberal Arts and Sciences students find research opportunities and acquire skills. Topics include formulating research questions, drafting project proposals, cultivating professional relationships with faculty, presenting at conferences, and getting published. Students also engage with the wider research community through tours of special collections and QA sessions with faculty and undergraduate researchers.
Prerequisite: Liberal Arts and Sciences student.

IDS 1161 What is the Good Life 3 Credits
Grading Scheme: Letter Grade
This course examines the enduring question, "What is the Good Life?", from the perspectives of the humanities. Topics include the cost of the good life, how people have chosen to live as members of local and global communities, and conceptions and expressions of beauty, power, love, and health of western civilization.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: General Education - Humanities

IDS 2154 Facets of Sustainability 3 Credits
Grading Scheme: Letter Grade
Introduces theory and practices of sustainability from a variety of topical concerns and academic fields. Investigate challenges of pursuing sustainability via texts, lectures, debate and discussion, and written assignments.

IDS 2338 Democratic Engagement and Public Leadership 3 Credits
Grading Scheme: Letter Grade
Encourages students to reflect on the concept of citizenship in the us and internationally, learn to analyze and solve public problems and effectively evaluate methods of civic activism.
Attributes: General Education - Social Science

IDS 2935 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Introduces selected interdisciplinary topics. Content varies from term to term.

IDS 3750 Artificial Intelligence in the Social Sciences 3 Credits
Grading Scheme: Letter Grade
Defines artificial intelligence, big data, and machine learning and discusses the distinctions between these fields. Describes the use of machine learning, search algorithms, text and image analysis, and other AI methodologies to address important social science research questions. Presents artificial intelligence applications to various social sciences disciplines and provides hands on data analysis experience of the use of AI within the social sciences.
Prerequisite: EEL 3872 or permission of the instructor.

IDS 4905 Individual Study 1-7 Credits
Grading Scheme: Letter Grade
Opportunity for more in-depth study; complete a project as part of the planned program. The project must be approved by the dean and carried out under the guidance of a faculty member.

IDS 4906 Interdisciplinary Thesis Research 1-12 Credits
Grading Scheme: Letter Grade
Research accommodation for thesis. (WR)
Corequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

IDS 4911 Undergraduate Research in Interdisciplinary Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Interdisciplinary Studies. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Interdisciplinary Studies.

IDS 4930 Special Topics in Interdisciplinary Studies 1-3 Credits
Grading Scheme: Letter Grade
Advanced study of selected topics. Content varies from term to term.

IDS 4940 Internship 0-3 Credits
Grading Scheme: S/U
Supervised internship under guidance of faculty member or delegated authority. Post-internship written report is required.

IDS 4942 Sustainability in Action 3 Credits
Grading Scheme: S/U
Capstone course that integrates readings, discussion and practical experience in a sustainability-related community service, internship or project.
Prerequisite: sustainability studies majors and minors with department approval.

IDS 4956 Overseas Studies 0-16 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

IHS 1100 Intro to Pre-Health Process 1 Credit
Grading Scheme: Letter Grade
Introduces professional development necessary for application to healthcare professional schools. Engagement in self-assessment while researching requirements and competencies needed to build a professional development plan. Explores diversity in academics, clinical, research, shadowing and community involvement.

IHS 3102 Pre-Health Pathways 2 Credits
Grading Scheme: Letter Grade
Consistent/continual personal and professional growth is the core to preparation for health career professions. Offers pre-health students opportunities for analysis, engagement, and assessment of intrapersonal, interpersonal and critical reasoning preprofessional competencies defined by healthcare professional schools. Creation of professional development plan and professional school 'application portfolio' demonstrate knowledge, skills and qualifications needed for competitive applicants.
Prerequisite: Critical Tracking Semester 3

IHS 3935 Human Dimensions in Healthcare 3 Credits
Grading Scheme: Letter Grade
Seminar for those pursuing a profession in healthcare. Holistically explore and analyze health-related topics in humanities and social sciences via multimedia, stories, speakers, reading, and discussion to have greater insight, sensitivity, and understanding in human dimensions and individual worldviews related to health.
Prerequisite: Sophomore level or higher.

IHS 4125 PHPB Healthcare Seminar 2 Credits
Grading Scheme: Letter Grade
With collaboration and mentoring with the instructor, Pre-Health Post-Bac (PHPB) students research and present seminars on a variety of healthcare topics/issues. Using instructor provided resources with additional student identified resources, the students and instructor develop seminar content related to the humanities and social sciences for seminar topics.
Prerequisite: Students active in LAS_PB4 student group. Admission to the Pre-Health Post-Bac (PHPB) program. PHPB students only.

INS 2004 International Studies Perspectives 3 Credits
Grading Scheme: Letter Grade
Demographics, cultures, governments, and histories of major world regions as these relate to major, current, transnational, and global issues such as migration, socio-economic development, conflicts and disasters, and environmental issues.

INS 4905 Individual Work in International Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides those in the major with a directed opportunity to pursue in depth an area of focus associated with international studies including regional and topical coursework, international study abroad, service-learning projects, and/or internship projects.
Prerequisite: INS 3004.

INS 4911 Undergraduate Research in International Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides an opportunity to undertake supervised research. Self-directed research allows individuals or groups to explore interesting issues in international studies and communicate their results.

INS 4930 Senior Research Seminar in International Studies 3 Credits
Grading Scheme: Letter Grade
Readings on and discussions of major contemporary international and global issues. Offers students the opportunity to conduct guided research on international topics of their choice that relate to their track(s) and study, internships or work abroad experiences for the international studies major.
Prerequisite: INS 3004 and senior standing.

ISS 2160 Cultural Diversity in the United States 3 Credits
Grading Scheme: Letter Grade
The great racial and ethnic diversity of contemporary US society. Explores both the positive contributions and negative experiences of a variety of racial and ethnic groups, an exploration drawing on such concepts as culture, racial group, ethnic group, prejudice, discrimination, and civil rights protest.

LIT 3362 The Age of the Avant-Garde 3 Credits
Grading Scheme: Letter Grade
Examines the revolutionary experimentalist aspects of modern and contemporary culture, such as cubism, surrealism, structuralism, and conceptualism.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

SLS 1006 Global Pathways: Prep for Intl 1 Credit
Grading Scheme: Letter Grade
Prepares students for study abroad and other international experiences. Identifies program and funding opportunities that meet student interests and goals. Cultivates intercultural competencies. Facilitates design of globalized program of study that integrates personal, academic, and professional development. Appropriate for students in Liberal Arts and Sciences who have not studied abroad.
Prerequisite: Undergrad currently enrolled in CLAS degree plan.

SLS 1409 Professional Pathways in the Liberal Arts and Sciences 1 Credit
Grading Scheme: Letter Grade
An exploration of career readiness through Liberal Arts and Sciences. Investigation of the world of work and cultivation of professional skills through theory and practice. The disciplinary domains of humanities, social science, natural science, and mathematics will be connected to personal and professional development.
Prerequisite: Student in the College of Liberal Arts and Sciences.

SLS 1501 College Study Skills 1 1-3 Credits
Grading Scheme: Letter Grade
A developmental course designed to assist students who may be having difficulty in their college-level coursework or those who simply wish to improve basic skills essential for college success. The course begins with an individual self-assessment followed by topics such as motivation, time management, active reading, memory, note taking and test taking. Students will also develop a career portfolio for their final lesson.

SLS 3226 The Art of Adulting 1 Credit
Grading Scheme: Letter Grade
Grounding the contemporary concept of “adulting” in the liberal arts and sciences by engaging with mythology, media, and history to examine time management, personal finance, career development, civic participation, and other challenging but crucial elements of contemporary adult life.
Prerequisite: College of Liberal Arts and Science student of sophomore status or higher.

SLS 3342 Strategic Self-Marketing 1 Credit
Grading Scheme: Letter Grade
This course assists students in the process of becoming a more confident and competitive professional. Students will learn about influencing and motivating others, identifying successful leadership and management strategies, understanding the principles of brand identity, and developing situational and cultural awareness in the workplace.
Prerequisite: must be sophomore or junior or senior College of Liberal Arts and Sciences.

Interior Design

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Interior Design engages in research and creative scholarship with expertise in technology, design, communication, sustainability, lighting, history, and materials. The department’s newest ventures involve virtual reality (VR).

Curriculum

- Combination Degrees
- Interior Design

Courses

IND 1010 Design For Humanity: Intention, Consequence And Change 3 Credits
Grading Scheme: Letter Grade
The primary objective of this course is to teach participants how to question fundamental assumptions about the role of design in society. This will be accomplished by closely examining the intentions and outcomes of designed objects, environments, and experiences.
Attributes: Quest 1, General Education - Humanities

IND 1020 Design Innovation 3 Credits
Grading Scheme: Letter Grade
The course provides students with an overview of the interior design profession. The design of interiors to enhance human activity while observing life safety codes and human performance is stressed. Examination of significant interiors and furniture components from the United States and abroad will overview the design process.
Attributes: General Education - Humanities

IND 2100 History of Interior Design 1 3 Credits
Grading Scheme: Letter Grade
History of interior spaces, design philosophy, interior elements in architectural and sociological context. Record of human achievement expressed in the built environment. Foundation for contemporary design and interior preservation practice. Ancient world through early nineteenth century, including work from the Western canon. Slide lecture, discussion, outside research.
Attributes: General Education - Humanities, General Education - International

IND 2130 History of Interior Design 2 3 Credits
Grading Scheme: Letter Grade
Continuation of History of Interior Design 1. Evolution of contemporary design philosophy. Foundation for contemporary design and interior preservation practice. Nineteenth century revivals through current developments, including work from the Western canon. Slide lecture, discussion, outside research.
Prerequisite: IND 2100.
Attributes: General Education - Humanities, General Education - International

IND 2214 Introduction to Architectural Interiors 4 Credits
Grading Scheme: Letter Grade
Introduces the design of micro interior environments in relation to the architectural setting. Studies human perception, dimension, and spatial activity requirements. Explores design process and the graphic communication of interior design ideas.
Prerequisite: ARC 2303.

IND 2313 Interior Design Foundations and Communication 4 Credits
Grading Scheme: Letter Grade
Conceptual process, design theory, and programmatic concerns involved in residential, institutional and commercial interior design. Emphasizes design fundamentals, design processes, and visual communications techniques, including explanation of media and the forms of visual communication of design projects.
Prerequisite: ARC 1302.

IND 2460C Computer Applications in Three Dimensional Design 3 Credits
Grading Scheme: Letter Grade
Introduces the microcomputer as a tool for interior design illustration, drafting, and design development. A fundamental computer graphics course for interior design students, building skills and technical knowledge in image processing, two-dimensional drawing, and three-dimensional modeling of building interiors.
Prerequisite: Interior design majors.

IND 2635 Environment and Behavior for Designers 3 Credits
Grading Scheme: Letter Grade
Introduces significant theories concerning the interaction of people with environments at various scales. Also explores the corresponding applied environmental design implications of these theories. This survey of normative theories, philosophies and doctrines of environment and behavior serve as an evidence base to support research-based design decisions. (WR)
Prerequisite: ARC 2303 and Interior Design major.
Attributes: Satisfies 2000 Words of Writing Requirement

IND 3215 Architectural Interiors 1 5 Credits
Grading Scheme: Letter Grade
Development of interior spaces from conceptual phases to final design resolution, based on interior considerations and external influences. Emphasizes three-dimensional design process and detailed graphic representation of designed spaces.
Prerequisite: IND 2214.

IND 3216 Architectural Interiors 2 5 Credits
Grading Scheme: Letter Grade
Conceptual process, design theory and programmatic concerns involved in residential, commercial and institutional interior design. Emphasizes professional applications and the interior designer as an environmental problem solver.
Prerequisite: IND 3215.

IND 3311C Color Theory Planning and Practice 3 Credits
Grading Scheme: Letter Grade
Explores the power of color in our human experience and examination of the art and science of color theory in the context of interior design and allied fields.
Prerequisite: Sophomore standing or higher.

IND 3431 Interior Lighting 3 Credits
Grading Scheme: Letter Grade
Introduces lighting design based upon a critical awareness of the luminous environment, and principles and perception of light and color. Graphic exercises in lighting design, documentation and lighting calculations based on student solutions.
Prerequisite: IND 3215.

IND 3468 Interior Environmental Technologies 3 Credits
Grading Scheme: Letter Grade
Considers interior environmental conditions in relation to human sensory reactions, psychological factors, health, safety and satisfaction. Relates the vocabulary and concepts of interior environmental technology to the process of interior design.
Prerequisite: IND 2214.

IND 3483 Interior Design Construction Documents 4 Credits
Grading Scheme: Letter Grade
Systematic overview of construction systems, technologies and materials with emphasis on the design of interior systems and the detailing of these systems as an extension of the overall design concept.
Prerequisite: IND 2214.

IND 3512 Professional Practice of Interior Design 3 Credits
Grading Scheme: Letter Grade
Consideration of office practices and design project management. Explores contract documents, associated legal aspects, marketing strategies, professional ethics, staff personnel practices and career planning. Integration of computer software for project scheduling and time management. A case study exploration of ethics and contracting for design services is used. Studies integration of appropriate computer software for office management and project scheduling.
Prerequisite: interior design majors only.
Corequisite: IND 3216.

IND 3522 Interior Finishes and Materials 3 Credits
Grading Scheme: Letter Grade
Studies interior materials, focusing on their characteristics and estimating, fabrication, and installation.
Prerequisite: interior design majors only.
Corequisite: ARC 2303.

IND 3627 Sustainable Interior Environments 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of sustainable interior environments. Introduces best practices, current trends, and case studies in various interior settings. Explores key elements of sustainability including environmental history, indoor sustainable development, waste management, energy consumption, and water conservation.
Prerequisite: junior standing or above.

IND 3905 Individual Studies in Interior Design 1-6 Credits
Grading Scheme: Letter Grade
Special areas of study in interior design adjusted to the needs of the individual student.
Prerequisite: department chair permission.

IND 4225 Advanced Architectural Interiors 1 6 Credits
Grading Scheme: Letter Grade
Advanced problems in interior design with respect to the needs of the sophisticated clients in urban settings, ranging from the infrastructure of large urban spaces to the details of individual interior spaces, including open office planning and design of public spaces.
Prerequisite: IND 3216.

IND 4226 Advanced Architectural Interiors 2 6 Credits
Grading Scheme: Letter Grade
Design problems involving multiple phases of the design process through final design and detailing of each project. Final project demonstrates highest levels of design development.
Prerequisite: IND 4225.

IND 4450C Advanced Interior Design Detailing and Construction Documents 4 Credits
Grading Scheme: Letter Grade
Advanced problems in design and detailing of interior finish systems such as interior architecture and cabinetry. Exploration and production of interior mechanical and millwork drawings and construction documents. Integration of building codes and life safety issues.
Prerequisite: IND 3216;
Corequisite: IND 4225.

IND 4503 Interactive Media Communication 3 Credits
Grading Scheme: Letter Grade
The surge of new digital formats used for design development and visualization is changing how designers communicate their ideas. New digital formats transcend traditional renders' static features, allowing designers to offer stakeholders more interactive experiences. This course intends to equip students with skills to share their projects using that novel interactive media. Instances of software to be use include Enscape, Lumion, Twinmotion, and Unity. Some applications will be used to build.
Prerequisite: IND 2313.

IND 4930 Special Topics 1-6 Credits
Grading Scheme: Letter Grade
Special topics seminar in interior design. Enrollment upon recommendation of department chair.
Prerequisite: IND 3215.

IND 4940 Design Field Experience 2-4 Credits
Grading Scheme: S/U
Provides opportunities to work in architectural and interior design offices gaining hands-on professional experience working up to 12 weeks.
Prerequisite: IND 3216 and IND 3483 and IND 3512.

Courses

ITA 1130 Beginning Italian 1 5 Credits
Grading Scheme: Letter Grade
ITA 1130 and its sequel, ITA 1131, constitute the basic sequence in Italian. Emphasis on the development of broad competence in the language. Oral-aural approach ensures competence in the four skills.

ITA 1131 Beginning Italian 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence in Italian. Emphasis on the development of broad competence in the language. Oral-aural approach ensures competence in the four skills.
Prerequisite: ITA 1130 with minimum grade of C, or S, or the equivalent.

ITA 2220 Intermediate Italian 1 4 Credits
Grading Scheme: Letter Grade
Enhances knowledge of Italian in all four skills: listening, reading, speaking and writing. The goal is to create communicative competence that enables students to advance to third year study and to benefit from their visits to Italy. (N)
Prerequisite: ITA 1131 or the equivalent.
Attributes: General Education - International

ITA 2221 Intermediate Italian 2 4 Credits
Grading Scheme: Letter Grade
Completes second year sequence with emphasis on composition, literature and communication skills. (N)
Prerequisite: ITA 2220 or the equivalent.
Attributes: General Education - International

ITA 3070 Accelerated Introduction to Italian 5 Credits
Grading Scheme: Letter Grade
Intensive course designed primarily for speakers or students with knowledge of another Romance language or strong linguistic abilities in another foreign language. Assumes no prior study of Italian and offers a complete four-skill (listening, speaking, reading and writing) introduction to the language.
Prerequisite: fourth semester of another romance language or instructor permission.

ITA 3224 Italian Enhancement Section 1-5 Credits
Grading Scheme: Letter Grade
Italian-language reading and discussion to accompany and complement courses in other departments. Readings and discussions are in Italian to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course.
Prerequisite: ITA 2221 or instructor permission. Not for credit in the major.

ITA 3243 Italian Conversation 3 Credits
Grading Scheme: Letter Grade
Develops and refines Italian oral and comprehension skills through exposure to and discussion of a range of topics relating to contemporary Italian society. Discussion and assignments address different registers of speech, from the colloquial to the formal. Active in-class participation is essential.
Prerequisite: ITA 2221 with a minimum grade of C.

ITA 3420 Grammar and Composition 1 3 Credits
Grading Scheme: Letter Grade
Intensive language course designed to master grammatical principles, increase vocabulary and enhance writing and composition skills.
Prerequisite: ITA 2221 or equivalent.

ITA 3500 Italian Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics introduce Italian civilization in historical, artistic, and literary contexts.
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - International

ITA 3503 Naples: Culture and History 3 Credits
Grading Scheme: Letter Grade
Historical, cultural, and socio-political exploration of the Italian city of Naples from its foundation by the Greeks to its present-day position within the Italian State. Readings, discussion, and analysis encompass the city's rich literary, artistic, architectural, theatrical, and musical traditions as well as the socio-political history of Naples and the region of Campania.
Prerequisite: ITA 2221 with a minimum grade of C.

ITA 3564 Contemporary Italian Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on modern Italy through literature, art and mass media, and current events.
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - International

ITA 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced minors who seek independent work not offered in another course. Must be arranged individually with Italian faculty. Only three credits can count toward the minor.
Prerequisite: program coordinator permission.

ITA 4911 Undergraduate Research in Language or History/Culture in Italian 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ITT 2530 Italian Literature and Film 3 Credits
Grading Scheme: Letter Grade
Study of modern Italian narrative and its adaptation to film by major Italian directors.

ITT 3431 Italy and Pilgrimages 3 Credits
Grading Scheme: Letter Grade
Through lectures, readings, and discussions, considers the continuing presence of Rome and other Italian cities as metaphors and focal points of Italian artistic and literary sensibilities. Taught in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

ITT 3521 Italian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of Italian film and directors. Topics may vary.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

ITT 3540 Murder Italian Style: Crime Fiction and Film in Italy 3 Credits
Grading Scheme: Letter Grade
Explores Italian crime fiction and film. Analysis considers specificity of Italian tradition while placing texts and films in a broader cultural and historical context, enabling critically and politically informed reading of the many applications and subversions of the generic formula. Taught in English.
Prerequisite: sophomore standing or higher or instructor permission.

ITT 3541 Gangsters and Godfathers: Italian Mafia Movies 3 Credits
Grading Scheme: Letter Grade
Examines Italian cinematic representations of organized criminality, in particular Sicilian Cosa Nostra and Neapolitan Camorra. Analysis considers specificity of Italian tradition while placing films in a broader history of the gangster genre to allow for a critically and politically informed reading of Italian generic subversions. Taught in English.
Prerequisite: sophomore standing or higher or instructor permission.

ITT 3700 The Demolition of Man: Italian Perspectives on the Jewish Holocaust 3 Credits
Grading Scheme: Letter Grade
Explores a sampling of Italy's texts on the Jewish Holocaust, centering on the work of survivor and theorist of the camps, Primo Levi. Material also encompasses the history of the Italian-Jewish community, as well as a selection of Italian films dealing with the realities and ethical implications of the camps.
Prerequisite: Sophomore standing or higher or instructor permission.

ITT 3930 Special Topics in Italian Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Selected topics in Italian literature, civilization and culture, including crossover influence of media. Can focus on one epoch's influence on another.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

ITT 4911 Undergraduate Research in Italian in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ITT 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

ITW 3100 Introduction to Italian Literature 1 3 Credits
Grading Scheme: Letter Grade
The origins of early Italian literature, its central themes, and the cultural factors that influenced its development. Develops an ability to read critically in Italian.
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.

ITW 3101 Introduction to Italian Literature 2 3-9 Credits
Grading Scheme: Letter Grade
The major Italian authors from the Renaissance through the 20th century.
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.

ITW 3310 Italian Play 3 Credits
Grading Scheme: Letter Grade
Italian Play
Prerequisite: ITA 2221

ITW 3500 Boccaccio's Decameron 3 Credits
Grading Scheme: Letter Grade
Analysis of Giovanni Boccaccio’s canonical Decameron with a focus on the literary Dimension of Text as well as the political, historical, and religious context in which the work was written.
Prerequisite: ITA 2221 or the equivalent.

ITW 4026C Representing the Humble Italy: Literature and Cinema of the Italian South 3 Credits
Grading Scheme: Letter Grade
Examines texts and films that address the so-called Southern Question; namely, the socioeconomic and cultural disparities between northern and southern Italy. Explores or contests topics and concepts including southern exclusion from official history, southern fusion of religion and superstition, resistance to modernity and mafia-related political corruption. Taught in Italian.
Prerequisite: ITA 3420 or ITA 3500 or ITA 3564 or ITW 3100 or ITW 3101 or instructor permission.

ITW 4253 Delitto all'italiana: Crime Fiction and Film in Italy 3 Credits
Grading Scheme: Letter Grade
Explores a sampling of Italian crime fiction and film through the lens of a range of conceptual categories, including British intellectual model vs. American noir; rational inquiry vs. uncertainties of sensory perception; canon vs. popular; cosmopolitan vs. provincial; order vs. chaos; political conservatism vs. social critique. Taught in Italian.
Prerequisite: ITA 3420 or ITA 3500 or ITA 3564 or ITW 3100 or ITW 3101 or instructor permission.

ITW 4484 Modern Italian Novel 3 Credits
Grading Scheme: Letter Grade
Critical exploration of the modern Italian novel, focusing on representative texts of the long 20th century. Development of Italian novel is analyzed in context of technological modernity, war, fascism, economic boom. Issues of literary technique and formal innovation also considered. Novels may vary from semester to semester.
Prerequisite: A 3000- or 4000-level ITA or ITW course with a C or above.

ITW 4491 Italian Theater from the Renaissance to the Early Modern Era 3 Credits
Grading Scheme: Letter Grade
Overview and analysis of evolution of Italian theater, with focus on a selection of specific examples drawn from Italian theater from the Renaissance to the early modern era. Taught in Italian.
Prerequisite: ITA 3420 or ITA 3500 or ITA 3564 or ITW 3100 or ITW 3101 or instructor permission.

ITW 4526 Mad Love in Modern Italian Literature 3 Credits
Grading Scheme: Letter Grade
Exploration of a sampling of modern Italian literary manifestations of a love that strays beyond the conventional. Language skills addressed through discussion, oral presentations, creative writing assignments, and short papers.
Prerequisite: ITA 3420 or ITA 3500 or ITA 3564 or ITW 3100 or ITW 3101 or instructor permission.

ITW 4580 Animals and Animality in Italian Culture 3 Credits
Grading Scheme: Letter Grade
Presentation and exploration of the figure of the nonhuman animal in the work of several modern Italian authors and poets. Analysis addresses the literary dimension of the selected animal portraits as well as any philosophical and ethical questions raised by these literary animals. Taught in Italian.
Prerequisite: 3 credits of an ITA or ITW course at the 3000 level or above.

ITW 4600 Dante's Inferno 3 Credits
Grading Scheme: Letter Grade
Semester-long, in-depth examination of Dante Alighieri's text, Inferno, with the support of a variety of visual materials and digital resources devoted to Dante and his world. Special attention paid to the political, historical, and religious context in which Dante wrote. Taught in Italian.
Prerequisite: ITA 3420 or ITA 3500 or ITA 3564 or ITW 3100 or ITW 3101 or instructor permission.

ITW 4911 Undergraduate Research in Literature in Italian 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Literature in Italian. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Literature in Italian.

Courses

JPN 1130 Beginning Japanese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing. A placement test is required for students with any prior background in Japanese. Complete beginners may register without a placement test.

JPN 1131 Beginning Japanese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: JPN 1130 with minimum grade of C, or S, or the equivalent as proven by placement test.

JPN 2230 Intermediate Japanese 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: JPN 1131 with minimum grade of C or S or the equivalent as proven by placement test.

JPN 2231 Intermediate Japanese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: JPN 2230 with minimum grade of C or S or the equivalent as proven by placement test.

JPN 3410 Advanced Japanese 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: JPN 2231 with minimum grade of C or S or the equivalent as proven by placement test.

JPN 3411 Advanced Japanese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study in Japanese.
Prerequisite: JPN 3410 with minimum grade of C, or S, or the equivalent as proven by placement test.

JPN 3440 Business Japanese 3 Credits
Grading Scheme: Letter Grade
Provides grammatical structures and essential business vocabulary, develops conversation strategies and presentation skills, and raises awareness of the customs and cultural differences in Japanese business interactions.
Prerequisite: JPN 2231 with minimum grade of C or S, or the equivalent.

JPN 3730 Language in Japanese Society 3 Credits
Grading Scheme: Letter Grade
Analysis of variation in regional dialects: gender-based differences, pragmatics of interpersonal communication, language acquisition, and discourse structure.
Prerequisite: JPN 1130 or LIN 3010.

JPN 4415 Japanese Translation: Theory and Practice 3 Credits
Grading Scheme: Letter Grade
Key concepts and approaches of translation studies applied to the translation of Japanese to English, and English to Japanese, in a variety of media, genre, and text types.
Prerequisite: JPN 3410 or equivalent with a minimum grade of C or instructor permission.

JPN 4850 Structure of Japanese 3 Credits
Grading Scheme: Letter Grade
Linguistic analysis of modern standard Japanese. Topics include phonology, morphology, syntax, semantics and writing. Readings and discussions in English. (N)
Prerequisite: JPN 1131 or instructor permission.
Attributes: General Education - International

JPN 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.

JPN 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

JPN 4930 Special Topics in Japanese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in and in-depth study of special topics in Japanese studies.
Prerequisite: Critical Tracking semester 2 or greater.

JPN 4935 Senior Honors Thesis 3 Credits
Grading Scheme: Letter Grade
Select a Japanese faculty member to act as director for an independent research project that culminates in an honors thesis.
Prerequisite: Minimum 3.5 GPA and instructor permission.

JPN 4940 Internship 0-6 Credits
Grading Scheme: Letter Grade
Faculty (or delegated authority) supervised internship. Requires a written post-internship report.
Prerequisite: instructor and department permission.

JPN 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

JPN 4957 Overseas Studies 2 1-15 Credits
Grading Scheme: Letter Grade
Revolving topics provide a mechanism for coursework taken at a foreign university as part of an approved study abroad program to be transferred to UF. Credits taken will be entered in the student's transcript and may or may not count toward graduation, at the discretion of major's advisors.
Prerequisite: undergraduate advisor permission.

JPT 3100 Tales of Kyoto 3 Credits
Grading Scheme: Letter Grade
An investigation of literary texts from the 8th through the 17th centuries presented within the framework of Western literary and feminist criticism.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

JPT 3120 Modern Japanese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
Critical examination of stories, autobiographies, and secondary criticism from the 19th century to the present. Become familiar with the forms and topics of criticism through Japanese and Western sources.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

JPT 3121 Contemporary Japanese Literature: Postwar to Postmodern 3 Credits
Grading Scheme: Letter Grade
Companion to JPT 3120 that reflects the increasing clarity with which contemporary Japanese literature (1945 to present) is emerging as a separate field with its own set of issues, major texts and significance for the American student of Japan. Writers range from Dazai and Oe Kenzaburo to Murakami Haruki, and issues range from subjectivity to cybernetics.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

JPT 3140 Modern Women Writers 3 Credits
Grading Scheme: Letter Grade
Examination of narratives written by women who published during the Taisho (1912-25), Showa (1925-89) and Heisei (1989 to present) periods.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

JPT 3150 Classical Japanese Poetry 3 Credits
Grading Scheme: Letter Grade
Historical survey of traditional Japanese poetry (waka) from the 8th to the 16th century.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

JPT 3300 Samurai War Tales 3 Credits
Grading Scheme: Letter Grade
Explores the historical and cultural stimuli that led to war, recorded later as war narratives. Supported by images of architecture, narrative picture scrolls, and extant military accoutrements. (N)
Corequisite: JPT 3500 recommended.
Attributes: General Education - International

JPT 3330 Early Modern Japanese Literature 3 Credits
Grading Scheme: Letter Grade
Surveys Japanese literature of the Early Modern period (also called the Edo period), 1600-1868. Introduces and analyzes historically significant, foundational works of Early Modern Japanese literature and theater. Explores the history of the period and the development of print technologies and new genres, and introduces critical aesthetic and cultural concepts.
Prerequisite: Sophomore standing.
Attributes: General Education - International, Satisfies 4000 Words of Writing Requirement

JPT 3391 Introduction to Japanese Film 4 Credits
Grading Scheme: Letter Grade
Introduces the formal and historical features of Japanese film that have given it a unique position in film history. Emphasizes formal and critical analysis as well as the intellectual stakes of studying non-western film.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

JPT 3500 Japanese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Japanese culture with emphasis on tracing the origin and development of important aspects of Japanese literature, art, religion, and society. All readings in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

JPT 3702 Japanese Visual Culture 3 Credits
Grading Scheme: Letter Grade
Explores issues within Japanese visual culture, and uses visual-cultural products to explore Japanese political, cultural, social, and historical issues. Introduces and analyzes historically significant, foundational works of Japanese visual culture, unpacks genre and genre tropes in contemporary works, and analyzes several visual-cultural works that tackle significant social issues.
Prerequisite: Sophomore standing or above.
Attributes: General Education - International, Satisfies 4000 Words of Writing Requirement

JPT 4130 The Tale of Genji 3 Credits
Grading Scheme: Letter Grade
Investigation of the 11th-century masterpiece and its pervasive influence on Japanese literature, past and present.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

JPT 4502 Japanese Folklore 3 Credits
Grading Scheme: Letter Grade
Study of native belief systems and the supernatural as reflected in the folk practice of ritual observance and in tales, myths, songs, and proverbs.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

JPT 4510 Representations of Japan's Modern Empire 3 Credits
Grading Scheme: Letter Grade
Examines a variety of literary, historical, anthropological, and theoretical texts to explore racial and social issues related to Japan's imperial past. (N)
Corequisite: JPT 3500 recommended.
Attributes: General Education - International

JPT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

JPT 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

JPT 4957 Overseas Studies 2 1-15 Credits
Grading Scheme: Letter Grade
Revolving topics provide a mechanism for coursework taken at a foreign university as part of an approved study abroad program to be transferred to UF. Credits taken will be entered in the student's transcript and may or may not count toward graduation, at the discretion of major's advisors.
Prerequisite: undergraduate advisor permission.

JPW 3143 Classical Japanese 1 3 Credits
Grading Scheme: Letter Grade
Introduction to classical Japanese texts with emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: JPN 2231 with minimum grade of C, or the equivalent.

JPW 3144 Classical Japanese 2 3 Credits
Grading Scheme: Letter Grade
Complex texts in classical Japanese with focus on comprehension, grammar, literature and culture.
Prerequisite: JPN 3143 with minimum grade of C, or the equivalent.

JPW 4130 Readings in Japanese Literature 3 Credits
Grading Scheme: Letter Grade
A fourth-year language course based on literary texts, incorporating advanced reading skills and the analysis of literature in the original. (N)
Prerequisite: JPN 3411 with minimum grade of C or S, or the equivalent as proven by placement test.
Attributes: General Education - International

JPW 4131 Japanese Texts and Contexts 3 Credits
Grading Scheme: Letter Grade
Complements JPW 4130, Readings in Japanese Literature, and focuses on contemporary issues as encountered in a variety of Japanese media.
Prerequisite: JPN 3411 with minimum grade of C or S, or the equivalent as proven by placement test.

JPW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research in Target Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Target Language.

Jewish Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Center Information

The Bud Shorstein Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center's curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

Grading Scheme: Letter Grade
Surveys major historical developments in medieval Jewish society under Islam and western Christendom. Examines the interaction of Jews with the majority culture, political structure and economy, as well as changing cultural trends.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

EUH 3671 Jewish History from 1492-1750 3 Credits
Grading Scheme: Letter Grade
Surveys major trends in Jewish society from the f15th to the 18th century, focusing on community structures and interfaith relations.
Prerequisite: 3 credits of history.

EUH 3672 Modern European Jewish History 3 Credits
Grading Scheme: Letter Grade
Major events and themes of the Jews in Europe from 1650-1945.
Prerequisite: 3 credits of history.

HBR 1130 Beginning Modern Hebrew 1 5 Credits
Grading Scheme: Letter Grade
Beginning Hebrew covers four skills: listening, speaking, reading, and writing. For those with no prior exposure to the language.

HBR 1131 Beginning Modern Hebrew 2 5 Credits
Grading Scheme: Letter Grade
Continues beginning Hebrew, covering four skills: listening, speaking, reading, and writing.
Prerequisite: HBR 1130 with minimum grade of C or S, or the equivalent.

HBR 2220 Intermediate Modern Hebrew 1 4 Credits
Grading Scheme: Letter Grade
Intermediate Hebrew study covers four skills: listening, speaking, reading, and writing with new vocabulary and grammar.
Prerequisite: HBR 1131 with minimum grade of C or S, or the equivalent.

HBR 2221 Intermediate Modern Hebrew 2 4 Credits
Grading Scheme: Letter Grade
Continues intermediate Hebrew covering four skills: listening, speaking, reading, and writing.
Prerequisite: HBR 2220 with minimum grade of C or S, or the equivalent.

HBR 3410 Advanced Modern Hebrew 1 4 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills in Modern Hebrew: listening, speaking, reading, and writing with attention to more complex structures.
Prerequisite: HBR 2220 or HBR 2133 with minimum grade of C or S, or the equivalent.
Attributes: General Education - International

HBR 3411 Advanced Modern Hebrew 2 4 Credits
Grading Scheme: Letter Grade
Continues advanced study of Hebrew language, including listening, speaking, reading, and writing skills, with particular attention to more complex structures. Emphasizes project-based learning through real-world applications of Hebrew, focusing on cultural, professional, and academic contexts.
Prerequisite: HBR 3410 with minimum grade of C or S, or the equivalent.
Attributes: General Education - International

HBR 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Individual work on an approved topic.
Prerequisite: refer to the department.

HBR 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Proseminar of variable content providing an opportunity for in-depth study of special topics in Israeli literature, history, or culture.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

HBT 3223 Identity and Dissent in the Hebrew Short Story 3 Credits
Grading Scheme: Letter Grade
Traces the tension between the individual and the collective in Zionist/Israeli society over the last 100-plus years as illustrated in Hebrew short fiction.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

HBT 3233 Israeli History and the Contemporary Novel 3 Credits
Grading Scheme: Letter Grade
Studies Israeli history through the lens of the contemporary novel.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

JST 2841 Women and Politics in Israel 3 Credits
Grading Scheme: Letter Grade
Analyzes women's roles both as political agents and as objects of political policies and movements. Examines Israeli female politicians and judges as political actors, and as both subjects and objects of state policy.

JST 3845 Israelis and Palestinians 3 Credits
Grading Scheme: Letter Grade
Discussion of Israeli-Palestinian interactions with a focus on the way collective identities are shaped by the conflict. Historically outlines development of the conflict from the beginning of the Zionist immigration to Palestine to present day and includes thematic analysis of its sociological dynamics.
Prerequisite: sophomore standing or higher.

JST 3930 Special Topics in Jewish Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics in Jewish thought, history, literature, and culture as represented in classified Jewish texts, Jewish law, Jewish ethics, folklore, Hasidism, and Holocaust literature.
Prerequisite: 3 credits of a JST or EUH or ASH or REL or AFA or LIT or EUS or FRT or GET or HBR or RUS or LAS or CPO or POS or PHI course.
Attributes: Satisfies 6000 Words of Writing Requirement

JST 4905 Individual Work in Jewish Studies 1-3 Credits
Grading Scheme: Letter Grade
For advanced students who desire supplemental reading or research under guidance.

JST 4936 Colloquium in Jewish Studies 3 Credits
Grading Scheme: Letter Grade
Colloquium in Jewish studies designed to enhance knowledge of the development and significance of Jewish civilization.
Prerequisite: REL 2600 or the equivalent and junior standing or higher and instructor permission.

JST 4940 Internship in Jewish Studies 1-6 Credits
Grading Scheme: S/U
Preapproved internship with Jewish communal, educational, or service institutions. Only 3 credits can count toward a Jewish Studies major or minor.
Prerequisite: REL 2600 or the equivalent, junior/senior standing and instructor permission.

JST 4970 Senior Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Directed research leading to submission of an honors thesis. Work completed under the supervision of a Jewish studies faculty member. Students can register for one semester (3 credits) or two (1 and 2 credits respectively). Required for magna or summa cum laude designation.

LIT 3173 Jewish Literature 3 Credits
Grading Scheme: Letter Grade
Variable topics in the Jewish literary experience, from the biblical narrative and classical tales to Yiddish and Hebrew literature, the modern European novel, and American Jewish fiction.
Prerequisite: Sophomore standing or higher.

MUH 3621 Jewish Art Music in Western Culture 3 Credits
Grading Scheme: Letter Grade
Cultural history of western art music inspired by Jewish subjects, Biblical and non-Biblical, composed by both Jewish and non-Jewish composers, and a survey of Jewish performing musicians from the Renaissance to the present. (N)
Prerequisite: written instructor permission.
Attributes: General Education - International

POS 4291 Religion and Politics in the United States 3 Credits
Grading Scheme: Letter Grade
Investigates the role of religious institutions, values and communities in contemporary American political life. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

REL 2104 Environmental Ethics 3 Credits
Grading Scheme: Letter Grade
Explores competing secular and religious views regarding human impacts on and moral responsibilities toward nature and of the key thinkers and social movements in contention over them. (WR)
Attributes: Satisfies 2000 Words of Writing Requirement

REL 2210 Hebrew Scriptures 3 Credits
Grading Scheme: Letter Grade
History, literature, and beliefs of the Israelites from the Biblical text in the light of modern scholarship.

REL 2388 Indigenous Religions of the Americas 3 Credits
Grading Scheme: Letter Grade
This course introduces the student to the historical and contemporary religious beliefs and practices of the indigenous peoples of the Americas. Explores how these roots are evident throughout western religious traditions today. (H)(WR).
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

REL 2600 Jews, Judaism, and Jewishness 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary approach to the Jewish experience from its Biblical origins to modern times.

REL 3213 Hebrew Bible as Literature 3 Credits
Grading Scheme: Letter Grade
Intensive introduction to the literary study of the Hebrew Bible within the context of ancient Near Eastern literature and history.
Prerequisite: Sophomore standing or higher.

REL 3291 Gender and the Hebrew Bible 3 Credits
Grading Scheme: Letter Grade
Critical examination of the literary representation and historical realities of gender and sexuality in ancient Israel through close readings of selected texts from the Hebrew Bible.
Prerequisite: Sophomore standing or higher.

REL 3321 Early Judaism and Christianity 3 Credits
Grading Scheme: Letter Grade
Examines the Jewish-Christian encounter. The historical interaction between Judaism and Christianity, including how each group symbolized the other, and the practical implications of the representations.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

REL 3938 Special Topics in Religion 3 Credits
Grading Scheme: Letter Grade
Special topics in religion.
Prerequisite: Sophomore standing or higher.

REL 4092 Ethics, Utopias, and Dystopias 3 Credits
Grading Scheme: Letter Grade
Examines relationships between ethics and utopias in literature, religious communities, and millenarian movements.
Prerequisite: instructor permission.
Attributes: Satisfies 2000 Words of Writing Requirement

REL 4209 Dead Sea Scrolls and Early Jewish Literature 3 Credits
Grading Scheme: Letter Grade
Explores the varieties of literature that arose within Judaism from 250 BCE to 220 CE, including selections from the Dead Sea Scrolls, the OT Pseudepigrapha, Philo, and Josephus.
Prerequisite: refer to the department.

REL 4221 The Pentateuch 3 Credits
Grading Scheme: Letter Grade
In-depth study of the Pentateuch (Genesis-Deuteronomy) in light of modern biblical scholarship.
Prerequisite: instructor permission.

REL 4936 Special Topics in Religious Studies 3 Credits
Grading Scheme: Letter Grade
Advanced study for those with proper preparation of selected topics involving one or more religious traditions.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

HBR 1130 Beginning Modern Hebrew 1 5 Credits
Grading Scheme: Letter Grade
Beginning Hebrew covers four skills: listening, speaking, reading, and writing. For those with no prior exposure to the language.

HBR 1131 Beginning Modern Hebrew 2 5 Credits
Grading Scheme: Letter Grade
Continues beginning Hebrew, covering four skills: listening, speaking, reading, and writing.
Prerequisite: HBR 1130 with minimum grade of C or S, or the equivalent.

HBR 1300 Yiddish Language and Culture I 4 Credits
Grading Scheme: Letter Grade
Focuses on reading, writing, listening, speaking and grammar, with special emphasis on Yiddish history and culture.

HBR 1301 Yiddish Language and Culture II 4 Credits
Grading Scheme: Letter Grade
Continuation of HBR 1300. Focuses on reading, writing, listening, speaking, and grammar, with special emphasis on Yiddish history and culture.
Prerequisite: HBR 1300.

HBR 2220 Intermediate Modern Hebrew 1 4 Credits
Grading Scheme: Letter Grade
Intermediate Hebrew study covers four skills: listening, speaking, reading, and writing with new vocabulary and grammar.
Prerequisite: HBR 1131 with minimum grade of C or S, or the equivalent.

HBR 2221 Intermediate Modern Hebrew 2 4 Credits
Grading Scheme: Letter Grade
Continues intermediate Hebrew covering four skills: listening, speaking, reading, and writing.
Prerequisite: HBR 2220 with minimum grade of C or S, or the equivalent.

HBR 3410 Advanced Modern Hebrew 1 4 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills in Modern Hebrew: listening, speaking, reading, and writing with attention to more complex structures.
Prerequisite: HBR 2220 or HBR 2133 with minimum grade of C or S, or the equivalent.
Attributes: General Education - International

HBR 3411 Advanced Modern Hebrew 2 4 Credits
Grading Scheme: Letter Grade
Continues advanced study of Hebrew language, including listening, speaking, reading, and writing skills, with particular attention to more complex structures. Emphasizes project-based learning through real-world applications of Hebrew, focusing on cultural, professional, and academic contexts.
Prerequisite: HBR 3410 with minimum grade of C or S, or the equivalent.
Attributes: General Education - International

HBR 3440 Translation in Israeli Media 3 Credits
Grading Scheme: Letter Grade
Explores One of the Most Popular and Fast Developing Areas of Study in Communications and Translation Studies Today: Media and Translation. Focuses on Israeli Context. Areas of Study Include Topics From Subtitling and Captioning to Translating Websites and Television Commercials.
Prerequisite: HBR 3410 or equivalent.

HBR 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Individual work on an approved topic.
Prerequisite: refer to the department.

HBR 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Proseminar of variable content providing an opportunity for in-depth study of special topics in Israeli literature, history, or culture.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

HBR 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

HBT 3100 Introduction to Israeli Culture 3 Credits
Grading Scheme: Letter Grade
Presentation and analysis of some key facets of Israeli culture. Topics include Jewish vs. Zionist (and Israeli non-Jewish) identities, Israeli-Palestinian conflict, Israeli-American relations, gender, and function of art in Israeli society.
Prerequisite: HBR 1130 or sophomore standing.

HBT 3115 Harry Potter and the Holocaust 3 Credits
Grading Scheme: Letter Grade
Explores trauma, genocide, and, specifically, the Jewish Holocaust through the lens of children's literature, using historical and literary approaches.
Prerequisite: LIT 2000 or IDS 1161.

HBT 3130 The Merchant of Venice in Translation 3 Credits
Grading Scheme: Letter Grade
Highlights the Central European detour that Shakespearean reception (translation, adaptation, performance, publication and critical response) and the play, The Merchant of Venice, underwent in German, Hebrew, and Yiddish, in various locations, media and critical references.
Prerequisite: LIT 2000 or IDS 1161.

HBT 3201 Biblical Love Poetry 3 Credits
Grading Scheme: Letter Grade
Reviews the principles and functions of Biblical verse, contextualizes some of the poems, offers various religious and lay interpretations, and teaches various choice verses in the original Biblical Hebrew.
Prerequisite: LIT 2000 or IDS 1161.

HBT 3233 Israeli History and the Contemporary Novel 3 Credits
Grading Scheme: Letter Grade
Studies Israeli history through the lens of the contemporary novel.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

HBT 3235 Holocaust Novels 3 Credits
Grading Scheme: Letter Grade
Reviews the historical and political functions of the Novel as a genre; surveys a number of Holocaust Novels that address several Holocaust related topics: Jewish Ghetto, survivors and refugees, the post-Holocaust experience, and the historical memories of Jews and non-Jews.
Prerequisite: LIT 2000 or IDS 1161.

HMW 4200 Readings in Modern Hebrew Literature 1 3 Credits
Grading Scheme: Letter Grade
Readings in modern Hebrew novels, short fiction and poetry. While the study of literature is emphasized, some language work is presented to help with reading comprehension. Texts and instruction are in Hebrew.
Prerequisite: HBR 3411 or equivalent.

HMW 4201 Readings in Modern Hebrew Literature 2 3 Credits
Grading Scheme: Letter Grade
Readings in modern Hebrew texts, including recently published stories and poems. Class is instructed in Hebrew.
Prerequisite: HMW 4200 or equivalent.

JST 2841 Women and Politics in Israel 3 Credits
Grading Scheme: Letter Grade
Analyzes women's roles both as political agents and as objects of political policies and movements. Examines Israeli female politicians and judges as political actors, and as both subjects and objects of state policy.

JST 2930 Special Topics in Jewish Studies 3 Credits
Grading Scheme: Letter Grade
Selected topics in the study of Jewish civilization.

JST 3821 Israeli Society 3 Credits
Grading Scheme: Letter Grade
Introduces major themes in dynamics of contemporary Israeli society. Juxtaposition of the different subjective points of view and motivations of the various actors involved.
Prerequisite: sophomore standing or higher.

JST 3845 Israelis and Palestinians 3 Credits
Grading Scheme: Letter Grade
Discussion of Israeli-Palestinian interactions with a focus on the way collective identities are shaped by the conflict. Historically outlines development of the conflict from the beginning of the Zionist immigration to Palestine to present day and includes thematic analysis of its sociological dynamics.
Prerequisite: sophomore standing or higher.

JST 3930 Special Topics in Jewish Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics in Jewish thought, history, literature, and culture as represented in classified Jewish texts, Jewish law, Jewish ethics, folklore, Hasidism, and Holocaust literature.
Prerequisite: 3 credits of a JST or EUH or ASH or REL or AFA or LIT or EUS or FRT or GET or HBR or RUS or LAS or CPO or POS or PHI course.
Attributes: Satisfies 6000 Words of Writing Requirement

JST 4905 Individual Work in Jewish Studies 1-3 Credits
Grading Scheme: Letter Grade
For advanced students who desire supplemental reading or research under guidance.

JST 4936 Colloquium in Jewish Studies 3 Credits
Grading Scheme: Letter Grade
Colloquium in Jewish studies designed to enhance knowledge of the development and significance of Jewish civilization.
Prerequisite: REL 2600 or the equivalent and junior standing or higher and instructor permission.

JST 4940 Internship in Jewish Studies 1-6 Credits
Grading Scheme: S/U
Preapproved internship with Jewish communal, educational, or service institutions. Only 3 credits can count toward a Jewish Studies major or minor.
Prerequisite: REL 2600 or the equivalent, junior/senior standing and instructor permission.

JST 4970 Senior Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Directed research leading to submission of an honors thesis. Work completed under the supervision of a Jewish studies faculty member. Students can register for one semester (3 credits) or two (1 and 2 credits respectively). Required for magna or summa cum laude designation.

LIT 3173 Jewish Literature 3 Credits
Grading Scheme: Letter Grade
Variable topics in the Jewish literary experience, from the biblical narrative and classical tales to Yiddish and Hebrew literature, the modern European novel, and American Jewish fiction.
Prerequisite: Sophomore standing or higher.

MUH 3621 Jewish Art Music in Western Culture 3 Credits
Grading Scheme: Letter Grade
Cultural history of western art music inspired by Jewish subjects, Biblical and non-Biblical, composed by both Jewish and non-Jewish composers, and a survey of Jewish performing musicians from the Renaissance to the present. (N)
Prerequisite: written instructor permission.
Attributes: General Education - International

POS 4291 Religion and Politics in the United States 3 Credits
Grading Scheme: Letter Grade
Investigates the role of religious institutions, values and communities in contemporary American political life. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

REL 2104 Environmental Ethics 3 Credits
Grading Scheme: Letter Grade
Explores competing secular and religious views regarding human impacts on and moral responsibilities toward nature and of the key thinkers and social movements in contention over them. (WR)
Attributes: Satisfies 2000 Words of Writing Requirement

REL 2210 Hebrew Scriptures 3 Credits
Grading Scheme: Letter Grade
History, literature, and beliefs of the Israelites from the Biblical text in the light of modern scholarship.

REL 2388 Indigenous Religions of the Americas 3 Credits
Grading Scheme: Letter Grade
This course introduces the student to the historical and contemporary religious beliefs and practices of the indigenous peoples of the Americas. Explores how these roots are evident throughout western religious traditions today. (H)(WR).
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

REL 2600 Jews, Judaism, and Jewishness 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary approach to the Jewish experience from its Biblical origins to modern times.

REL 3213 Hebrew Bible as Literature 3 Credits
Grading Scheme: Letter Grade
Intensive introduction to the literary study of the Hebrew Bible within the context of ancient Near Eastern literature and history.
Prerequisite: Sophomore standing or higher.

REL 3291 Gender and the Hebrew Bible 3 Credits
Grading Scheme: Letter Grade
Critical examination of the literary representation and historical realities of gender and sexuality in ancient Israel through close readings of selected texts from the Hebrew Bible.
Prerequisite: Sophomore standing or higher.

REL 3321 Early Judaism and Christianity 3 Credits
Grading Scheme: Letter Grade
Examines the Jewish-Christian encounter. The historical interaction between Judaism and Christianity, including how each group symbolized the other, and the practical implications of the representations.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

REL 3938 Special Topics in Religion 3 Credits
Grading Scheme: Letter Grade
Special topics in religion.
Prerequisite: Sophomore standing or higher.

REL 4092 Ethics, Utopias, and Dystopias 3 Credits
Grading Scheme: Letter Grade
Examines relationships between ethics and utopias in literature, religious communities, and millenarian movements.
Prerequisite: instructor permission.
Attributes: Satisfies 2000 Words of Writing Requirement

REL 4209 Dead Sea Scrolls and Early Jewish Literature 3 Credits
Grading Scheme: Letter Grade
Explores the varieties of literature that arose within Judaism from 250 BCE to 220 CE, including selections from the Dead Sea Scrolls, the OT Pseudepigrapha, Philo, and Josephus.
Prerequisite: refer to the department.

REL 4221 The Pentateuch 3 Credits
Grading Scheme: Letter Grade
In-depth study of the Pentateuch (Genesis-Deuteronomy) in light of modern biblical scholarship.
Prerequisite: instructor permission.

REL 4936 Special Topics in Religious Studies 3 Credits
Grading Scheme: Letter Grade
Advanced study for those with proper preparation of selected topics involving one or more religious traditions.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

Journalism

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

- Combination Degrees
- Creative Advertising Certificate
- International Communication Certificate
- Journalism
- Journalism | Sports and Media UF Online
- Mass Communication Studies Minor

- Mass Communication Studies Minor UF Online
- Media Sales Certificate
- Political Communication Certificate
- Spanish Language News Media Certificate

Students not admitted to this college must have a 3.0 overall grade point average to enroll in journalism courses other than MMC 1000, MMC 2100, PUR 3000, and RTV 2100.

Courses

JOU 2040 Writing Mechanics 1 Credit
Grading Scheme: Letter Grade
Prepares media writers for professional work, with a focus on mastering the basics of grammar, punctuation and spelling.

JOU 2100 Broadcast Writing Bootcamp 1 Credit
Grading Scheme: Letter Grade
Explore the differences of writing for the ear vs. writing for the eye. Focuses on storytelling through methodologies traditionally associated with broadcast journalism—which can also be incorporated in digital and social storytelling. Examines story structures and practical experience in writing scripts and sound-based stories.

JOU 2380 Future Food 3 Credits
Grading Scheme: Letter Grade
This course discusses scientific and technological advances in the science of food. How does modern science improve the food we eat? Relying on the disciplines of food science, food engineering, and linguistics, the course investigates and reflects on how modern science is being used to improve the health of our bodies and our planet. Topics include modern technologies such as artificial intelligence and the cognitive science of taste and food language. These themes are represented on an international level, with national and regional examples presented for classroom discussions and activities.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - Social Science

JOU 2701 Journalism, Justice, and Civic Change 3 Credits
Grading Scheme: Letter Grade
Students in this course will learn to identify and analyze how media content reflects, supports and sometimes curbs societal power structures in ways that influence civic life, particularly at the state and local levels. Students will be exposed to relevant mass communication theories such as agenda-setting and framing.
Attributes: Quest 2

JOU 3015 Principles of Journalism 3 Credits
Grading Scheme: Letter Grade
Learn about the role and function of journalism in a democratic society, legal and ethical issues in journalism, economic challenges, the changing landscape of the media industry, and some of the most important pieces of American journalism. Also learn about the major principles of journalism and be introduced to techniques used by journalists to cover society.
Prerequisite: Sophomore standing.

JOU 3101 Reporting 3 Credits
Grading Scheme: Letter Grade
Instruction and practice reporting and writing basic news stories. Emphasizes style, clarity, accuracy, and responsibility in handling news.
Prerequisite: Sophomore standing.
Corequisite: MMC 2121.
Attributes: Satisfies 6000 Words of Writing Requirement

JOU 3109C Multimedia Writing 3 Credits
Grading Scheme: Letter Grade
Introduces news and public relations writing and the use of multimedia tools in gathering and disseminating information. Learn how to use multimedia tools for journalism work, interviewing techniques, AP style and the elements that make a story newsworthy. Consists of two hours of lecture and a three-hour lab each week.
Prerequisite: ENC 1102 and (MMC 1009 or MMC 2604 or PUR 3000), with minimum grades of C.

JOU 3110 Applied Fact Finding 3 Credits
Grading Scheme: Letter Grade
Instruction and practice in researching and solving complex news problems. Emphasizes enterprise, documentation and use of multiple sources, using standard reference works and public records.
Prerequisite: Sophomore standing

JOU 3121 DataViz and Mapping 3 Credits
Grading Scheme: Letter Grade
Covers the foundational skills required for any professional communicator who seeks to tell a visual data story for audiences that rely on cellphones, as well as the basics of geospatial analysis. Emphasizes data evaluation using code-free tools.
Prerequisite: MMC 2450.

JOU 3184 Beat Reporting 3 Credits
Grading Scheme: Letter Grade
Experience in reporting on a number of beats of significant public interest. Emphasizes responsible coverage of law enforcement, courts, schools, city and county government, health and the environment.
Prerequisite: JOU 3101 and JOU 3110 with minimum grades of C.

JOU 3202 Editing and Coaching 3 Credits
Grading Scheme: Letter Grade
Intermediate newsroom editing and coaching, which teaches thinking like an editor from a macro- and micro-perspective to improve critical thinking toward journalism content across platforms. Also, challenges journalists to report accurately, fairly, and more completely.
Prerequisite: JOU 3101.

JOU 3213 Design 3 Credits
Grading Scheme: Letter Grade
Design of various forms of print media. Emphasizes basic principles of design. Use of typography and photographs together.
Prerequisite: JOU 3220C.

JOU 3220C Visual Journalism 3 Credits
Grading Scheme: Letter Grade
Learn how words and visuals work together to tell a story. Develop the skills to interpret and evaluate photographs, maps, charts, interactive graphics, websites and motion graphics. Learn and apply basic design principles. Gain proficiency in Photoshop, InDesign and other software.
Prerequisite: Journalism and Communications sophomore or higher.

JOU 3305 Data Journalism 3 Credits
Grading Scheme: Letter Grade
Experience data journalism by using tools such as spreadsheets, databases, and mapping programs to acquire, clean, and analyze data, and by performing basic data visualization. Focuses on using tools to find meaningful patterns in data and to report those patterns accurately.
Prerequisite: JOU 3101 or instructor permission.

JOU 3346L Multimedia Reporting 3 Credits
Grading Scheme: Letter Grade
Learn to use digital tools in reporting for Internet news sites and other online media. Focuses on the tools to gather audio and visual material that helps to tell a journalistic story.
Prerequisite: JOU 3101 with minimum grade of C.

JOU 3363 Introduction to Web Apps for Communicators 3 Credits
Grading Scheme: Letter Grade
Introduces web markup, coding, and programming for journalism and communications students with no prior coding experience. Explore media-industry best practices for front-end web development, problem solving and algorithmic thinking, and recent examples of interactives and apps from media organizations.
Prerequisite: junior standing in college or instructor permission.

JOU 3365 Artificial Intelligence in Media and Society 3 Credits
Grading Scheme: Letter Grade
Gain an understanding of artificial intelligence as it applies to the media professions, including journalists reporting on AI. Explore developments in AI technologies as covered by the mass media. Learn to detect exaggeration in descriptions of AI's promise and potential risks and dangers.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

JOU 3366C Social Media for Journalists 3 Credits
Grading Scheme: Letter Grade
Learn to develop strategy and execute tactics on social media platforms and social media accounts used by news organizations and individuals in professional contexts; write individual posts for various purposes and goals; produce photos, videos, and graphics for social sharing.
Prerequisite: Sophomore standing.

JOU 3601C Photographic Journalism 3 Credits
Grading Scheme: Letter Grade
Study and practice of photography as a major component of journalism. Emphasizes newspaper/magazine style photography and use of photographs; ethical, historical, legal, and stylistic aspects. Digital cameras provided by the department.
Prerequisite: Sophomore standing or higher.

JOU 3920 Professional Practice 1 Credit
Grading Scheme: S/U
Explores both traditional job-seeking methods as well as digital job hunting. Covers best practices in how to prepare for an interview and how to reach out to and search for employers online.
Prerequisite: junior standing in college.

JOU 4004 History of Journalism 3 Credits
Grading Scheme: Letter Grade
Origin, development, and potentiality of print and broadcast media. Analyzes the evolution of standards, policies, methods, and controls.
Prerequisite: Sophomore standing or higher.

JOU 4008 Journalism Studies 3 Credits
Grading Scheme: Letter Grade
Gain media literacy and become an educated consumer, critical thinker and researcher of/about the media. Learn about research methods, media-business models and the connections between the media and economics.
Prerequisite: JOU 3101 with minimum grade of C.

JOU 4011C Audience Engagement 3 Credits
Grading Scheme: Letter Grade
The relationship between journalists and their audiences has completely changed from a one-way broadcast and publish model of the past. Journalists need to have a respect for and understanding of the people the journalism is designed to reach and serve. Develop audience engagement strategies, explore evidence-based theories of how information is shared and processed, and develop an audience engagement project for a chosen community or group.
Prerequisite: Junior standing & JOU 3101.

JOU 4111 Advanced Reporting 3 Credits
Grading Scheme: Letter Grade
Produce quality news and feature stories for publication. Gain experience enhancing your news gathering and writing skills. Produce clips for your portfolio and as possible entries in the Hearst Journalism Awards Program.
Prerequisite: JOU 3101 with minimum grade of C.

JOU 4123 Investigative Reporting 3 Credits
Grading Scheme: Letter Grade
Learn to develop and execute an investigative reporting project employing various story platforms. Investigate a data-driven topic of public interest over the course of the semester; melding both primary research and in-depth interviewing.
Prerequisite: JOU 3101 and JOU 3110 with minimum grades of C.

JOU 4181 Public Affairs Reporting 3 Credits
Grading Scheme: Letter Grade
Instruction and practice in basic public affairs reporting; emphasizes responsible coverage of courts, schools and city and county government.
Prerequisite: JOU 3101 with minimum grade of C and JOU 3110.

JOU 4201 News Center Practicum 1-3 Credits
Grading Scheme: Letter Grade
Creating and editing local news content in the College of Journalism and Communications' professional news center for broadcast and digital platforms serving north central Florida; emphasizes news judgement that serves the audience.
Prerequisite: Junior standing

JOU 4202 Advanced News Center Practicum 3 Credits
Grading Scheme: Letter Grade
Work in an advanced media setting on multiple projects, including writing, editing, and multimedia work. Emphasizes collaboration and decision-making in a real-world setting.
Prerequisite: JOU 4201 with minimum grade of C and instructor permission.

JOU 4214 Advanced Design 3 Credits
Grading Scheme: Letter Grade
Advanced design and production of various forms of print media. Emphasizes advanced principles, picture editing, typography, and use of other design elements.
Prerequisite: JOU 3101 and JOU 3213 with minimum grades of C and instructor permission.

JOU 4304 Science Journalism 3 Credits
Grading Scheme: Letter Grade
This seminar-style course introduces the art and craft of producing well-written, engaging science news and feature stories for print, online and broadcast media. Students learn how to find science story ideas, interview sources, simplify complex concepts, sharpen their science storytelling skills, write publication-ready stories and pitch to editors.
Prerequisite: JOU 3101 or permission of instructor.

JOU 4306 Advanced Data Journalism 3 Credits
Grading Scheme: Letter Grade
Hands-on approach which blends journalism and data science to equip students to be a full-time data journalist. Learn to program in R to replace spreadsheets and databases with reproducible data analysis, and to clearly communicate results to peers and lay audiences.
Prerequisite: JOU 3305 or JOU 4318.

JOU 4308 Magazine and Feature Writing 3 Credits
Grading Scheme: Letter Grade
Preparation of features and articles for publication in newspapers and magazines coordinated with study of magazine editing problems. Supervised marketing of pieces produced.
Prerequisite: JOU 3101.

JOU 4311 Narrative Nonfiction Writing 3 Credits
Grading Scheme: Letter Grade
Advanced writing course in which students create article ideas, research and write magazine-length nonfiction articles and submit them for publication.
Prerequisite: JOU 4308 with minimum grade of B and instructor permission.

JOU 4313C Sports Reporting 3 Credits
Grading Scheme: Letter Grade
Instruction and practice in reporting sports with special emphasis on game coverage and interviewing techniques. Includes features, sidebars, advances and press conference coverage. Opportunities for publication of stories.
Prerequisite: JOU 3101.

JOU 4314 Environmental Journalism 3 Credits
Grading Scheme: Letter Grade
Introduces the most accurate, credible, and timeliest information on environmental science and related issues; discerning uncompromised expert sources, using human narratives, and descriptive storytelling to relate real world impact, and tapping the databases, records, and other tools used by environmental reporters.
Prerequisite: JOU 3101 or instructor permission.

JOU 4318 Sports Data Journalism 3 Credits
Grading Scheme: Letter Grade
Helps to think empirically about sports journalism and create original stories via spreadsheets, databases, web scraping, and statistics. Evaluate individual and team performance, assess financials, and test assumptions such as the hot hand. A working knowledge of journalism is required, but no prior data expertise necessary.
Prerequisite: Sophomore standing.

JOU 4327 Video Storytelling 3 Credits
Grading Scheme: Letter Grade
Learn advanced storytelling, shooting, and editing techniques for narrative multimedia journalism. Also learn to recognize and understand the technical and aesthetic aspects of multimedia narratives, and how to build successful visual narratives using a combination of still images, HD video, ambient audio, and natural voices.
Prerequisite: JOU 3601C or Permission of department.

JOU 4364 Advanced Web Apps for Communicators 3 Credits
Grading Scheme: Letter Grade
Add server-side (back-end) web skills to already developed client-side (front-end) web skills to develop web apps that include a server-side component to support presentations of stories/data for media. Also covers web scraping to enable journalists to gather open data.
Prerequisite: JOU 3363.

JOU 4447C Applied Magazines 3 Credits
Grading Scheme: Letter Grade
Provides experience in editing and publishing a magazine.
Prerequisite: JOU 4308 with minimum grade of C.

JOU 4510 Magazine Management and Publication 3 Credits
Grading Scheme: Letter Grade
Provides knowledge and training in magazine writing, editing, design, production and administration for magazine sequence majors. Stresses organization, concept, audience, budget, printing, advertising, circulation and promotion of magazines.
Prerequisite: JOU 4201 and JOU 3213 and JOU 4308.

JOU 4603 Specialized Journalistic Photography 3 Credits
Grading Scheme: Letter Grade
Journalistic still photography emphasizing technical proficiency. Specialized techniques and equipment stressed. Emphasizes color portraiture, studio products, lighting, flash and related skills. Assignments prepared using digital scanning. Students furnish some 35mm equipment and most supplies.
Prerequisite: JOU 3601 with minimum grade of C or instructor permission.

JOU 4604 Advanced Photographic Journalism 1 3 Credits
Grading Scheme: Letter Grade
Primary concern is portfolio-quality single story-telling pictures and multiple picture packages, including picture stories. Introduces computer page layout. Deadline pressure emphasized; overview of picture editor duties; trends; social implications; portfolio preparation. Assignments involve computer programs. Students furnish supplies, most 35mm camera equipment and flash.
Prerequisite: JOU 3601.

JOU 4605 Advanced Photographic Journalism 2 3 Credits
Grading Scheme: Letter Grade
Continues JOU 4604 with emphasis on the picture story, layouts, and the study of historical figures in photojournalism. Pays particular attention to magazines, color, and new developments in the profession. Duties of the picture editor covered in-depth. Prior knowledge of computer scanning and layout programs expected. Portfolio preparation concluded. Terminal course in the sequence. Students must furnish supplies and most equipment.
Prerequisite: JOU 3601 & JOU 4604.

JOU 4700 Problems and Ethics of Journalism in Society 3 Credits
Grading Scheme: Letter Grade
Reading, analysis, and planning in current and projected issues in journalism, both in their professional and societal aspects.
Prerequisite: Journalism and Communications major with senior standing.

JOU 4714 Race, Sports and Media 3 Credits
Grading Scheme: Letter Grade
This course examines the relationship of sports and media and how it reinforces social values and sometimes challenges social norms. It also spotlights issues involving sports, race, gender, religion, sex and sexuality; how matters related to race, criminal justice, politics, patriotism, militarism, etc., affect mass perceptions of athletes; and stories of athletes who not only have overcome adversity, but also used their public role to advocate for broader social justice and self-determination.
Prerequisite: Junior standing

JOU 4905 Individual Problems in Journalism 1-3 Credits
Grading Scheme: Letter Grade
Students and the instructor concerned choose a problem or project which gives the student actual experience in his or her major field.
Prerequisite: at least 10 credits of journalism in the upper division and department permission.

JOU 4910 Journalism Undergrad Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application, depending on the topic. (S/U)
Prerequisite: JOU 3109C with grade of C or better.

JOU 4930 Special Study in Journalism 1-3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for study in academic areas of journalism, such as the literature of journalism and other fields within the province of the college.
Prerequisite: Junior standing.

JOU 4940 Journalism Internship 1-3 Credits
Grading Scheme: S/U
Student and instructor select an appropriate work area related to the field of journalism for on-the-job training. Student works a minimum of 100 hours on the job for every credit to be received. Progress reports and summary required.
Prerequisite: minimum 3.0 GPA and completion of specialized courses in journalism appropriate to the internship. Must have department approval to receive credit.

JOU 4941 Fresh Take Florida 3 Credits
Grading Scheme: Letter Grade
Work closely with instructors as professional journalists to cover issues of statewide importance, including upcoming general elections, Florida's governor, Legislature, Supreme Court and other aspects of public policy and state government. Students will produce in-depth content under their own bylines that is distributed to and published or broadcast by leading news organizations.
Prerequisite: JOU 3346L.

JOU 4950 Applied Journalism 3 Credits
Grading Scheme: Letter Grade
By assuming the role of a professional journalist, prepare for professional-caliber reporting, writing, and production of multimedia storytelling suitable for publication in various traditional/digital outlets. Classes are conducted through a series of seminars and heavily coached group projects.
Prerequisite: Senior College of Journalism and Communications student and JOU 3346L.

JOU 4951 Noticias 1-3 Credits
Grading Scheme: Letter Grade
Focuses on Spanish-language news production; take on roles for WUFT's Noticias, including writer, reporter, sports reporter/anchor, co-anchor/ executive producer, producer, associate producer, writer, reporter, sports reporter/anchor, and co-anchor, entertainment reporter/anchor, camera operators, and teleprompter.
Prerequisite: JOU 3109C or JOU 310 and completion of Spanish language writing proficiency test administered by the instructor.

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources, and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 2450 Data Literacy for Communicators 1 Credit
Grading Scheme: Letter Grade
Numeracy which enables data literacy; to use, evaluate, and communicate numbers in situations commonly faced in advertising, journalism, public relations, and telecommunications.

MMC 2604 Media, Cultures, and Identity 3 Credits
Grading Scheme: Letter Grade
Examines the role of media in facilitating, challenging, and enabling power dynamics as well as shaping identity in the United States and globally. Looks at various media forms and constructions of race, gender, sexuality, class, religion, and ability. Analyses the relationship between media, identity and power, as well as individual role as a media consumer.

MMC 2613 Journalism, Justice & Civic Change 3 Credits
Grading Scheme: Letter Grade
Covers intersection between news media and state/local government. Students will analyze how media interacts with societal power structures in ways that influence social and racial justice. Through analysis of investigative journalism and theories like agenda-setting and framing, students will learn how to use information to become more effective civic participants.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: Journalism and Communications major of junior standing or higher.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: Journalism and Communications major of sophomore standing or higher and (ADV 3008 or MMC 1009 or MMC 2604 or PUR 3000 or RTV 3001 with minimum grade of C).

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans, and study social media strategies.
Prerequisite: sophomore standing or higher.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

MMC 3702 Rock 'N Roll and American Society Part 1 3 Credits
Grading Scheme: Letter Grade
Studies the role of popular music in American culture. Not a music course but a look at the effects of recorded sound on popular culture. Part 1 emphasizes rock 'n roll and its impact from 1954-1970. Part 2 covers 1970 to the present.
Prerequisite: Sophomore standing or higher.

MMC 3703 Sports Media and Society 3 Credits
Grading Scheme: Letter Grade
Relationships between sports, athletes, media, and audience. Includes the evolution of sports media from the early sportswriters to the day when athletes control their own messages via Twitter. Covers the various mediums (newspapers, magazines, books, radio, TV, online, forums, blogs, and social media) in terms of their history, function, and impact.
Prerequisite: Sophomore standing or higher.

MMC 3742 Rock 'N' Roll and American Society Part 2 3 Credits
Grading Scheme: Letter Grade
Studies the role of popular music in American culture. It is not a music course but a look at the effects of recorded sound on popular culture. Part 1 emphasizes rock 'n' roll and its impact from 1954-1970. Part 2 covers 1970 to 1990.
Prerequisite: Sophomore standing or higher.

MMC 4200 Law of Mass Communication 3 Credits
Grading Scheme: Letter Grade
Understanding the law, which guarantees and protects the privileges and defines the responsibilities of the mass media. Includes problems of constitutional law, libel, privacy, and governmental regulations.
Prerequisite: Junior standing or higher.

PGY 3610 Survey of Photojournalism 2 Credits
Grading Scheme: Letter Grade
Not open to photojournalism majors. Introduces still photography; selection and use of photographs in the print media; legal, historical, stylistic, ethical and technical aspects. Picture-taking minimal compared to JOU 3601. Shared cameras provided.
Prerequisite: Journalism and Communications major of junior standing or higher.

RTV 3106 Writing and Reporting for Interactive Media 3 Credits
Grading Scheme: Letter Grade
Planning and executing news and online news projects. Course lecture, readings and discussion focus on locating, evaluating and tracking Internet sources, construction of multilinear news content and the integration of Internet technology into the news process.
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3303.

RTV 3303 Audio News and Reporting 3 Credits
Grading Scheme: Letter Grade
Basic writing, reporting and production of radio news stories and newscasts. Students must purchase approved recorder for class.
Prerequisite: JOU 2100.

RTV 3304 Advanced Audio Storytelling 3 Credits
Grading Scheme: Letter Grade
Advanced reporting, writing, and production of radio news stories and newscasts against deadlines. Requires radio news laboratory.
Prerequisite: RTV 3303 with minimum grade of C and JOU 3101.

RTV 3305 In-Depth Broadcast Reporting 3 Credits
Grading Scheme: Letter Grade
Principles of investigative reporting as applied to television and radio news.
Prerequisite: RTV 3303 or RTV 4301 with a minimum grade of C.

RTV 3601 Broadcast Performance 3 Credits
Grading Scheme: Letter Grade
Development of basic radio and television announcing skills.
Prerequisite: JOU 2100.

RTV 3632 Broadcast News Producing 3 Credits
Grading Scheme: Letter Grade
Producing news content for television. Includes instruction in AP ENPS software, field producing techniques, and production of long-form programs, with considerable emphasis on the role of the producer as gatekeeper and newsroom manager.
Prerequisite: JOU 3101 with a minimum grade of C and department permission.

RTV 4301 TV News Reporting 3 Credits
Grading Scheme: Letter Grade
Basic writing, reporting, and production of television news stories.
Prerequisite: JOU 2100.

RTV 4594 Advanced Reporting for Interactive Media 3 Credits
Grading Scheme: Letter Grade
Teaches the advanced skills necessary to produce online journalism content utilizing video, audio, photo essays, and interactive graphics. Receive practical experience working in the college's converged newsroom.
Prerequisite: RTV 3106 with minimum grade of C and JOU 3101.

RTV 4681 Advanced TV News Reporting 3 Credits
Grading Scheme: Letter Grade
News reporting, videography, writing, and editing for television newscasts on deadline. One day-long lab in television newsroom required and purchase of additional approved video cassettes may also be required.
Prerequisite: RTV 3303 with a minimum grade of C & RTV 4301 with a minimum grade of C.

RTV 4684 Advanced Broadcast News Producing 3 Credits
Grading Scheme: Letter Grade
Supervised assignment as line or field producer for radio, TV, or online news program or series. Requires eight hours per week in newsroom.
Prerequisite: RTV 3632, RTV 3401 with minimum grades of C and JOU 3101.

Courses

KOR 1130 Beginning Korean 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering speaking, listening, reading, writing, and cultural interaction.
Prerequisite: placement test.

KOR 1131 Beginning Korean 2 5 Credits
Grading Scheme: Letter Grade
Continued study of speaking, listening, reading, writing and cultural interaction.
Prerequisite: KOR 1130 with minimum grade of C, or S, or the equivalent.

KOR 2230 Intermediate Korean 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: KOR 1131 with minimum grade of C or S, or the equivalent.

KOR 2231 Intermediate Korean 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: KOR 2230 with minimum grade of C or S, or the equivalent.

KOT 3500 Introduction to Korean Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Korean culture with emphasis on tracing the origin and development of important aspects of Korean literature, art, religion, and society. Taught in English.

Landscape Architecture

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Landscape Architecture is dedicated to inspiring students and transforming lives through stewardship, planning, and design of natural and built environments. Rooted in the traditions of landscape architecture, the program explores innovative and impactful solutions to create a more sustainable, healthy, and just world. Through research, education, and service-learning, students engage with pressing societal challenges, develop critical skills, and contribute to communities in Florida, the region, and beyond.

Curriculum

- Combination Degrees
- Landscape Architecture Minor
- Landscape Architecture | 4-Year Professional Program

Courses

LAA 1300C Introduction to Design Communication 1 Credit
Grading Scheme: Letter Grade
Drawing conventions including plan, section/elevation, and three-dimensional drawing to create visual communications.

LAA 1330 Site Analysis 3 Credits
Grading Scheme: Letter Grade
Inventory, analysis and evaluation of site development procedures; emphasis on landscape ecology.
Attributes: Artificial Intelligence

LAA 1600 Urban Nature and Society 3 Credits
Grading Scheme: Letter Grade
Explores the broad environmental, social, and health benefits that nature and open space provide to our urban environments. From both a historical and modern-day context, highlights foundational parks and infrastructural works found in various cities within the United States.
Attributes: Quest 1, General Education - Humanities

LAA 1700 Cultures of Landscapes in the American South 3 Credits
Grading Scheme: Letter Grade
This course will employ an interdisciplinary approach to exploring the history, evolution, and present landscape of southern US culture. It looks at how people live with landscape, how southern authors employ landscapes as settings for narratives, how fruits of the land craft distinct regional cuisines, and how landscapes function as carriers of cultural memory.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

LAA 1920 Introduction to Landscape Architecture 3 Credits
Grading Scheme: Letter Grade
Introduces landscape architecture, a profession defined as an art and science of planning or designing on the land-arranging and creating spaces and objects in a landscape for human use. Open to all students.

LAA 2310 Sustainable Landscape Technologies 1 3 Credits
Grading Scheme: Letter Grade
Theoretical, cultural, ecological, and practical dimensions of planting and irrigation design.

LAA 2360C Principles of Landscape Architecture 4 Credits
Grading Scheme: Letter Grade
Builds upon the fundamental principles of design covered in previous studios to explore a range of landscape architectural issues. Site design problems incorporating a mixture of cultural, environmental, and historical topics provide a framework to develop analytical skills, communication techniques, and general understanding of design.
Prerequisite: LAA 1330 with a minimum grade of C, and Landscape Architecture majors.
Corequisite: LAA 2379C.

LAA 2361C Planting Design Studio 5 Credits
Grading Scheme: Letter Grade
The planting design studio introduces the planting design process, its relationship to the site planning, existing site conditions, project locale and client needs.
Prerequisite: LAA 2360C and ORH 3513C with minimum grades of C.

LAA 2365C Landscape Architecture Design 2 4 Credits
Grading Scheme: Letter Grade
Understanding and application of landscape architectural design processes, design thinking, spatial organization, and communication skills.
Prerequisite: LAA 2360C.

LAA 2376C Design Communications 1 3 Credits
Grading Scheme: Letter Grade
Exploration of intermediate hand and digital drawing tools and techniques to enhance visual communication and design representation.
Prerequisite: LAA 1300C or instructor approval.

LAA 2379C Design Communications 2 3 Credits
Grading Scheme: Letter Grade
Exploration of digital tools and workflows essential for modern landscape architecture.
Prerequisite: LAA 2376C.

LAA 2710 History of Landscape Architecture 3 Credits
Grading Scheme: Letter Grade
Landscape architecture is the art and science of arranging functions and spaces within the ecology of the land and the culture of the humans who inhabit it. Survey of the history of humans as it is expressed in such diverse areas as urban form, community planning, gardens, parks and recreational areas, agricultural patterns and land management from both western and global contexts.
Attributes: General Education - Humanities, General Education - International

LAA 2951 Landscape Architecture Experience 1 1 Credit
Grading Scheme: Letter Grade
Explores Florida and the southeastern United States landscapes through the lens of landscape architecture.
Prerequisite: 2nd year BLA student or higher. 2nd year BLA student or higher.

LAA 3230 Theories of Landscape Architecture 3 Credits
Grading Scheme: Letter Grade
Explores the theories pertinent to the practice and study of landscape architecture. Addresses primarily aesthetic and cultural principles and values with related ecological aspects.
Prerequisite: junior status or higher.

LAA 3233 Landscape Architecture Experience 3 1 Credit
Grading Scheme: Letter Grade
Immerses students in current topics and innovative practices within landscape architecture, offering a hands-on experience that explores dynamic themes such as placemaking, exhibition design, and art in the garden.
Prerequisite: 2nd year BLA Student or higher.

LAA 3312 Sustainable Landscape Technologies 3 3 Credits
Grading Scheme: Letter Grade
Site layout, materiality, and construction detailing for flatwork (pavements) and vertical construction (walls, columns, and wood construction), with an emphasis on design details.
Prerequisite: LAA 2376C.

LAA 3350C Landscape Architecture Design 3 5 Credits
Grading Scheme: Letter Grade
Application of the design process with a focus on site design and planning principles, and design performance assessment.
Prerequisite: LAA 2365C.

LAA 3353C Landscape Architecture Design 4 5 Credits
Grading Scheme: Letter Grade
Explores the physical, functional, and environmental factors that shape the design and planning of towns, cities, and public spaces to support human activity and experience.
Prerequisite: LAA 2365C.

LAA 3394C Advanced Design Communication 3 Credits
Grading Scheme: Letter Grade
Focuses on advanced-level digital tools and techniques used in landscape architecture.
Prerequisite: LAA 2376C and LAA 2379C.
Attributes: Artificial Intelligence

LAA 3420 Sustainable Landscape Technologies 2 3 Credits
Grading Scheme: Letter Grade
Introduction to essential technical skills in grading, drainage, and stormwater management for implementing landscape architectural design solutions.
Prerequisite: LAA 2379C.

LAA 3421 Landscape Construction 2 5 Credits
Grading Scheme: Letter Grade
Design and construction drawings for public and private landscape structures, landscape utilities, and irrigation system layouts; specifications, takeoffs and estimating.
Prerequisite: LAA 3420.

LAA 3950 Landscape Architecture Experience 2 1 Credit
Grading Scheme: Letter Grade
Introduces the iconic works of landscape architecture through a weeklong field experience in an American city. Practice field observation and documentation techniques, engage in team-based learning, and develop an understanding of the breath of opportunities in landscape architecture.
Prerequisite: 3rd year BLA Student or higher.

LAA 4210 Landscape Architecture Professional Practice 3 Credits
Grading Scheme: Letter Grade
Preparation for professional practice and the understanding of the business of landscape architecture in private and public arenas.
Prerequisite: junior status or higher.

LAA 4356C Landscape Architecture Design 5 6 Credits
Grading Scheme: Letter Grade
Introduction to environmental planning and design for landscape architects, covering regional suitability analysis, site selection, design development, and impact assessment.
Prerequisite: LAA 3350C.

LAA 4357 Senior Independent Project Seminar 2 Credits
Grading Scheme: S/U
Focuses on proposal writing and information gathering to support the senior independent project.
Prerequisite: LAA 4353C and LAA 3421.

LAA 4358 Senior Independent Project 6 Credits
Grading Scheme: Letter Grade
This final semester-long project expands personal interests and talents, hones decision-making abilities, and sharpens professional skills through well-rounded, comprehensive completion of individual projects. Project must be approved by the faculty.
Prerequisite: completion of all previous design studios and construction courses.

LAA 4362 Design Communications for Landscape Architects 4 Credits
Grading Scheme: Letter Grade
Immersive experience in visualization techniques in landscape architectural design and planning. Covers traditional drawing conventions (plan, section/elevation and perspective) and builds skills in digital communication and visualization methods.
Prerequisite: Advanced standing in the program and/or instructor permission.

LAA 4364C Landscape Architecture Design 6 6 Credits
Grading Scheme: Letter Grade
Professional studio-skill development and the resolution of complex landscape challenges.
Prerequisite: LAA 4356C.

LAA 4450 Sustainable Landscape Technologies 4 3 Credits
Grading Scheme: Letter Grade
Landscape architecture design detailing and implementation methods through the development of construction documents.
Prerequisite: LAA 3312.

LAA 4532 Landscape Ecology and Management 3 Credits
Grading Scheme: Letter Grade
Explores the relationship between planning and design decision-making and landscape management practices which are, in turn, based on the fundamental principles of ecology and landscape ecology.
Prerequisite: LAA 2310.

LAA 4905 Special Studies in Landscape Architecture 1-6 Credits
Grading Scheme: Letter Grade
Studio investigations of topics in landscape architecture adjusted to individual needs of advanced undergraduate and graduate students.
Prerequisite: instructor permission.

LAA 4935 Gardens of the World 3 Credits
Grading Scheme: Letter Grade
Assessment and discussion of works of landscape architecture with emphasis on user evaluation, design trends, and research directions. Open to all majors.
Prerequisite: junior status or higher.
Attributes: General Education - International

LAA 4940 Landscape Architecture Internship 3 Credits
Grading Scheme: S/U
Internship in a private/public sector office under the direction of a registered landscape architect; required for graduation.
Prerequisite: junior status or higher.
Attributes: 3rd Year UF Quest

LAA 4941C Extended Internship with Landscape Architect 9 Credits
Grading Scheme: S/U
Internship in a private/public sector office under the direction of a registered landscape architect.
Corequisite: LAA 4940.

Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

Courses

General

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
In this course, students will be assigned readings representative of a broad range of literary genres and cultures. These readings will cover a variety of literary movements and historical eras. The readings will include selections from the Western canon. Written analysis of literary works may be required. Students will be provided with opportunities to practice critical interpretation.
Prerequisite: ENC 1101
Attributes: General Education - Humanities

African

HUM 2420 African Humanities 3 Credits
Grading Scheme: Letter Grade
Similar in philosophy and purpose to the basic sequence, with content selected from the philosophies, literature, arts, and music of various African countries and regions.

HUM 2424 African Cultures and Literatures 3 Credits
Grading Scheme: Letter Grade
A culturally based study of folktales, proverbs, drama, poetry and novels; and how these forms are used to portray African arts and ideas.

SSA 3730 Language in African Society 3 Credits
Grading Scheme: Letter Grade
The role of language in the development of African societies. Language and nation building.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit

SSA 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: department permission.

SSA 4930 Special Topics in African Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in African studies.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

SST 2501 African Elements in the Americas 3 Credits
Grading Scheme: Letter Grade
Traces African influence in the Americas from the arrival of Africans on the continent until the present.

SST 3500 Africa through Film & Media 4 Credits
Grading Scheme: Letter Grade
Explore the African continent through film and media to provide a critical analysis of issues of (mis)/representation of Africans in selected moving images and printed materials both in Africa and in diaspora.
Prerequisite: LIT 2000 or IDS 1161.

SST 4502 African Oral Literature 3 Credits
Grading Scheme: Letter Grade
An overview of African oral literature, introduces methodological and theoretical problems, and examines the sociopolitical and cultural relevance of the literature.
Prerequisite: instructor permission.

Akan

AKA 1130 Beginning Akan 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

AKA 1131 Beginning Akan 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: AKA 1130 with minimum grade of C or the equivalent.

AKA 2200 Intermediate Akan 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: AKA 1131 with minimum grade of C, or the equivalent.

AKA 2201 Intermediate Akan 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: AKA 2200 with minimum grade of C, or the equivalent.

AKA 3410 Advanced Akan 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: AKA 2201 with minimum grade of C, or the equivalent.

AKA 3411 Advanced Akan 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: AKA 3410 with minimum grade of C, or the equivalent.

Amharic

AHM 1130 Beginning Amharic 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing.

AHM 1131 Beginning Amharic 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: AHM 1130 with minimum grade of C, or the equivalent.

AHM 2200 Intermed Amharic 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: AHM 1131 with minimum grade of C, or the equivalent.

AHM 2201 Intermediate Amharic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: AHM 2200 with minimum grade of C, or the equivalent.

AHM 3410 Advanced Amharic 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: AHM 2201 with minimum grade of C, or the equivalent.

AHM 3411 Advanced Amharic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: AHM 3410 with minimum grade of C or the equivalent.

Arabic

ABT 3130 Arabic Literary Heritage 1 3 Credits
Grading Scheme: Letter Grade
Surveys classical Arabic literature in translation. Covers pre-Islamic poetry and early Islamic poetry, Omayyad, Abbasid and Andalusian literatures. All readings are in English.
Prerequisite: Critical Tracking semester 2 or greater.

ABT 3500 Arabic Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Arabic culture with special reference to art, literature, religion, and society. Emphasizes Arab contributions to philosophy, medicine, mathematics, and architecture. All readings in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

ABT 4131 The Qur'an as Literature 3 Credits
Grading Scheme: Letter Grade
Approaches the Qur'an from a literary standpoint by examining its history, structure, style, major themes, and impact on Arabic literature, Islamic thought, and Muslim culture.
Prerequisite: ARA 1131 or ABT 3500 or REL 2000 or REL 2362 or REL 4361 or senior standing.

ARA 1130 Beginning Arabic 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing.

ARA 1131 Beginning Arabic 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: ARA 1130 with minimum grade of C or the equivalent.

ARA 2220 Intermediate Arabic 1 4 Credits
Grading Scheme: Letter Grade
Continuation of the study of standard Arabic language. Develops reading, writing, listening and speaking skills and helps with comprehension of written and audio texts. Students can use their knowledge of the Arabic language to clearly express their personal views in a meaningful and well-structured language.
Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 2221 Intermediate Arabic 2 4 Credits
Grading Scheme: Letter Grade
Continues the study of Arabic language at the intermediate level. Emphasizes developing reading comprehension, writing, listening and speaking, and vocabulary and grammar.
Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 3241 Spoken Arabic 3 Credits
Grading Scheme: Letter Grade
Develops listening and conversational skills at an intermediate level of proficiency. Focuses on a middle variety of Arabic known as Educated Spoken Arabic that enables successful communication with educated Arab speakers from virtually any country in the Arab world.
Prerequisite: ARA 2221.

ARA 3410 Advanced Arabic 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: ARA 2221 with minimum grade of C or the equivalent.

ARA 3411 Advanced Arabic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: ARA 3410 with minimum grade of C or the equivalent.

ARA 3510 The Arab Woman 3 Credits
Grading Scheme: Letter Grade
Examines the role and status of Arab women in their respective societies; specifically examines the internal dynamic of Arab culture that influences the role of the Arab woman.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

ARA 4400 Fourth Year Arabic 1 3 Credits
Grading Scheme: Letter Grade
Development to an advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic.
Prerequisite: ARA 3411 or the equivalent.

ARA 4401 Fourth Year Arabic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of ARA 4400. Development of a more advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic.
Prerequisite: ARA 4400 or the equivalent.

ARA 4420 Arabic through the Texts 3 Credits
Grading Scheme: Letter Grade
For advanced students of Arabic. Teaches the more complex grammar, idiomatic expressions and sophisticated stylistic forms of the language. Required for the Arabic minor.
Prerequisite: ARA 3410.

ARA 4822 Arabic Sociolinguistics 3 Credits
Grading Scheme: Letter Grade
Focus on the relationship between language and society in the Arab world. An examination of the different varieties of Arabic and the relation between linguistic variation and other social variables, such as ethnicity, religion, urbanization, social class, gender, power and ideology.
Prerequisite: ARA 1131 or LIN 3010.

ARA 4850 Structure of Standard Arabic 3 Credits
Grading Scheme: Letter Grade
Describes and analyzes the sound system, word structure, and sentence structure of Arabic.
Prerequisite: ARA 1131 or LIN 3010.

ARA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

ARA 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
One of the core courses in the Middle Eastern languages and cultures major offered through interdisciplinary studies. Also useful for linguistics, religion, Arabic, Hebrew, and Jewish studies.
Prerequisite: Sophomore standing.

ARA 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

Chinese

CHI 1130 Beginning Chinese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing. Materials are designed for learners with no prior exposure to the language. Those with native background or education for four years or more in a Chinese speaking country must take a placement test before enrolling in any Chinese language class.

CHI 1131 Beginning Chinese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: CHI 1130 with minimum grade of C, or S, or the equivalent.

CHI 2230 Intermediate Chinese 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: CHI 1131 with minimum grade of C, or S, or the equivalent.

CHI 2231 Intermediate Chinese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: CHI 2230 with minimum grade of C, or S, or the equivalent.

CHI 2340 Chinese for Heritage Learners 1 4 Credits
Grading Scheme: Letter Grade
For those with significant bilingual speaking and listening backgrounds. Emphasis is on recognition of the characters and writing, and pronunciation and speaking.

CHI 2341 Chinese for Heritage Learners 2 4 Credits
Grading Scheme: Letter Grade
To consolidate the foundation built in Chinese for Heritage Learners 1, to expand vocabulary and to introduce more complex grammatical structures. Emphasis is on reading and writing. Those who successfully complete CHI 2341 are eligible for CHI 3410.

CHI 3403 Chinese Calligraphy 3 Credits
Grading Scheme: Letter Grade
Introductory study of the origin, composition, development, variations and aesthetic styles of Chinese characters with laboratory sessions for appreciating and practicing calligraphic skills. (N)
Prerequisite: (CHI 2231 or JPN 2231 or CHI 3410 or JPN 3410 or CHI 3411 or JPN 3411 or CHW 4120 or CHW 4130 or CHW 4140 or JPW 4130 or JPW 4131) or instructor permission.
Attributes: General Education - International

CHI 3410 Advanced Chinese 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: CHI 2231 with minimum grade of C, or S, or the equivalent.

CHI 3411 Advanced Chinese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: CHI 3410 with minimum grade of C, or S, or the equivalent.

CHI 3440 Business Chinese 3 Credits
Grading Scheme: Letter Grade
Development of language skills and protocol issues used in Chinese business environments. Acquire vocabulary, phrases, and sentence patterns essential for business transactions and develop oral presentations, business cards, and resumes.
Prerequisite: completion of second-year Chinese required, or by permission.

CHI 4050 Fourth Year Chinese 1 3 Credits
Grading Scheme: Letter Grade
Introduces and analyzes the documentary prose style used in Chinese newspapers and media. By studying a variety of short texts students develop skill in listening, speaking, reading and writing about issues commonly encountered in Chinese newspaper editorials and in television news programs, debate roundtables, or TV documentaries.
Prerequisite: CHI 3411 or equivalent with a minimum grade of C.

CHI 4051 Fourth Year Chinese 2 3 Credits
Grading Scheme: Letter Grade
Solidifies and improves students' knowledge of advanced Chinese through literature as a continuation of CHI 4050. Emphasizes formulating strategies to learn the difference between written language and spoken language and approaches meaningful writing with an eye toward careful examination of authentic writing samples.
Prerequisite: CHI 4050

CHI 4850 Structure of Chinese 3 Credits
Grading Scheme: Letter Grade
Introduction to phonological, grammatical and discourse structures of Mandarin Chinese, with an emphasis on its contrastive aspects with the English language. (N)
Prerequisite: CHI 1131 with minimum grade of C or LIN 3010, or instructor permission.
Attributes: General Education - International

CHI 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Includes all individual study courses offered by the Chinese section.

CHI 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

CHI 4930 Special Topics in Chinese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Chinese studies.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

CHI 4935 Senior Thesis 3 Credits
Grading Scheme: Letter Grade
Select a Chinese faculty member to act as director for an independent research project that culminates in the preparation of an honors thesis.
Prerequisite: minimum 3.5 GPA and instructor permission.

CHI 4940 Internship 1-6 Credits
Grading Scheme: Letter Grade
Gain practical experience that enhances classroom learning.
Prerequisite: Critical Tracking semester 2 or greater.

CHI 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade

CHT 3101 Translation Method: Chinese to English 3 Credits
Grading Scheme: Letter Grade
Hands-on introduction to the processes, procedures, and cultural and linguistic challenges relevant to translation from Chinese to English. Development of basic translation skills including strategies on word level, sentence level, and text level. Acquisition of lexicon, structure, and style used in various fields (legal, business, medical) and hands-on experience in translating real-life documents.
Prerequisite: CHI 3411 with a minimum grade of C.

CHT 3110 Chinese Literary Heritage 3 Credits
Grading Scheme: Letter Grade
Introduces pre-modern Chinese literature in translation. Topics chosen from classical poetry, short stories, novels, and drama. Emphasizes the interplay between orthodox values and the folk tradition. All readings are in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 3123 Pre-Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
Pre-modern Chinese narrative from its philosophical and historical origins to the fiction at the turn of the 20th century. Emphasizes the 16th and 17th centuries when Chinese vernacular fiction flourished.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

CHT 3124 Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
Surveys modern Chinese fiction in translation. Samples are from the early 20th century through the contemporary era and include writers of the early Republic, the P.R.C., and Taiwan. Focuses on fiction as a vehicle for social change. All readings are in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 3302 Tales of the Strange in Medieval Chinese Literature 3 Credits
Grading Scheme: Letter Grade
Introduces traditional Chinese tales of the strange and primary sources that contributed to their development. Also covers cross-cultural literary theories of the fantastic and uncanny; interdisciplinary literary, discourse, and narrative theories; and three common medieval Chinese worldviews.
Prerequisite: One CHI or CHT or CHW course.

CHT 3391 Chinese Film and Media 3 Credits
Grading Scheme: Letter Grade
Examination of Chinese cinema and other forms of media, such as television, music, and print culture in a broad sociopolitical and historical context. An interdisciplinary approach with a diversity of readings and multimedia tools incorporated into discussions.
Prerequisite: Quest 1 or successful completion of 12 credits.

CHT 3500 Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Chinese culture with emphasis on its philosophy, language, society, art, and people as a whole. All readings are in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

CHT 3511 Chinese Martial Arts Fiction 3 Credits
Grading Scheme: Letter Grade
Overview of Chinese martial arts fiction from earliest times to the present day. Discusses the literary pleasure of watching violence, the relationship between violence and the law, gender ambiguity of woman warriors, the imperial and (trans)national order of martial arts narrative, and the moral and physical economy of vengeance.
Prerequisite: Semester 2 or successful completion of 12 credits.

CHT 3513 Taoism and Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to the general history and culture of Taoism in ancient and modern China: its thoughts, belief systems, cultural influences, practices, and rituals.
Prerequisite: Critical Tracking semester 2 or greater.

CHT 3515 Bodies, Bodies, Bodies in Premodern China 3 Credits
Grading Scheme: Letter Grade
Surveys a selection of classical approaches to the study of the body before analyzing and comparing several common literary, philosophical, medical (TCM), mantic, religious, and political representations of the human body in different eras of premodern Chinese culture. Tensions between traditionalism and modernity are examined in the final weeks of the course. All readings and discussion are in English.
Prerequisite: Semester 2 or successful completion of 12 credits.

CHT 3523 Hong Kong, Taiwan, and the New Global Cinema 3 Credits
Grading Scheme: Letter Grade
Overview of Sinophone film in Hong Kong, Taiwan, and the broader sphere of Chinese diaspora. Addresses film history, culture, and aesthetics.
Prerequisite: Quest 1 or successful completion of 12 credits.

CHT 4111 Dream of the Red Chamber 3 Credits
Grading Scheme: Letter Grade
Explores the intellectual and social life of traditional China through the 18th century epic novel, Story of the Stone. Also studies interpretive theories of the novel, both Chinese and Western. All readings are in English.
Prerequisite: CHI 3500 or CHT 3110, or instructor permission.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 4603 Journey to the West 3 Credits
Grading Scheme: Letter Grade
Exploration of traditional Chinese religious culture, cultural history and literacy expression through a 100 chapter novel known as Journey to the West, or Monkey.
Prerequisite: one course in Chinese culture or instructor permission.

CHT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

CHW 4120 Classical Chinese 1 3 Credits
Grading Scheme: Letter Grade
Introduction to classical Chinese prose with texts drawn mainly from early histories and philosophical writings (500 BC - AD 100). Emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: CHI 2231 with minimum grade of C or instructor permission.

CHW 4121 Classical Chinese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of CHW 4120 focusing on classical Chinese prose with texts drawn from early historical and philosophical texts to belles-lettres of the medieval era and later periods. Emphasis on reading comprehension, grammar analysis, and translation.
Prerequisite: CHW 4120 or instructor permission.

CHW 4130 Readings in Chinese Literature 3 Credits
Grading Scheme: Letter Grade
Introduces advanced language students to a sampling of Chinese writers. Materials chosen from classic or modern/contemporary Chinese literature rotated across semesters. All readings in Chinese.
Prerequisite: CHI 3410 or CHI 3411 or CHI 3440.

CHW 4140 Newspaper Chinese 3 Credits
Grading Scheme: Letter Grade
Development of ability to understand and translate the documentary prose style used in Chinese newspapers and academic journals. Introduces literary function words and grammar structures, with comparison to the vernacular. Most readings in the simplified character form used in the PRC; all readings in Chinese. Applications for research on modern China.
Prerequisite: CHI 3410 or CHI 3411 or CHI 3440.

CHW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

Czech

CZE 1130 Introduction to Czech Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
CZE 1130 and its sequel, CZE 1131, offer a comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.

CZE 1131 Introduction to Czech Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Continuation of series. A comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.
Prerequisite: CZE 1130 with minimum grade of C, or S, or the equivalent.

CZE 2200 Intermediate Czech 1 3 Credits
Grading Scheme: Letter Grade
Builds reading and writing skills while continuing to develop conversational ability and listening comprehension. Using a communicative approach, provides an overview of Czech grammar.
Prerequisite: CZE 1131 with minimum grade of C, or S, or the equivalent.

CZE 2201 Intermediate Czech 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study. Goal is to further develop speaking, listening, reading and writing skills.
Prerequisite: CZE 2200 with minimum grade of C, or S, or the equivalent.

CZT 3564 Modern Czech Culture and Society 3 Credits
Grading Scheme: Letter Grade
Overview of Czech literature, film, music, pop culture, and visual arts as shaped by the events from 1918 to the present.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

French

FRE 1130 Beginning French 1 5 Credits
Grading Scheme: Letter Grade
Beginning French 1 and Beginning French 2 constitute the basic sequence in French for the development of overall skill in the language. Open to those with little or no background in French.

FRE 1131 Beginning French 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence in French for the development of overall skill in the language. Open to those with little or no background in French.
Prerequisite: FRE 1130 or FRE 1180 with minimum grade of C, or S, or the equivalent as proven by placement test score.

FRE 1134 Accelerated French Review 5 Credits
Grading Scheme: Letter Grade
Provides a rapid review of basic communicative French as preparation for intermediate French. For those with previous French study but insufficient placement scores to move to the 2000 level.
Prerequisite: Two years of high school French or equivalent.

FRE 1180 Elementary French: Review and Progress 3 Credits
Grading Scheme: Letter Grade
For those who have previous experience in French but who are not yet prepared for advanced elementary work in the language. FRE 1180 confirms overall language skill in preparation for FRE 1131.

FRE 2220 Intermediate French 1 4 Credits
Grading Scheme: Letter Grade
Devoted to grammar review and composition as well as to the advancement of spoken proficiency, FRE 2220 and its sequel, FRE 2221, develop reading and writing skills in French.
Prerequisite: FRE 1131 or FRE 1134 or FRE 1182.

FRE 2221 Intermediate French 2 4 Credits
Grading Scheme: Letter Grade
Continued grammar review. Emphasizes practice in reading and developing vocabulary. Selected readings in French and Francophone fiction.
Prerequisite: FRE 2220.

FRE 2274 Intensive French Abroad 6 Credits
Grading Scheme: Letter Grade
An immersion language course integrating the experience, observations and impressions of students living abroad with a French family (site announced annually). Emphasis on development of language proficiency and cultural awareness. Class meets 12 hours a week. Enhances speaking, reading, writing proficiency and the ability to communicate with native speakers.
Prerequisite: FRE 1131 with minimum grade of C, or S, or the equivalent as proven by placement test score.

FRE 3070 Accelerated Introduction to French 5 Credits
Grading Scheme: Letter Grade
Accelerated introduction to French. Assumes no previous knowledge of French. Offers a four-skill introduction to the language for those who have completed intermediate level study in another Romance language.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

FRE 3224 Applied French 1-5 Credits
Grading Scheme: Letter Grade
French-language reading and discussion section designed to accompany and complement areas of diverse content offered in other departments. Readings and discussions are in French to develop specific vocabulary and fluency related to the content of the companion course, as well as to provide an international perspective on the issues of the main course.
Prerequisite: FRE 2242 or instructor permission; 3 credits can count toward the major or minor.

FRE 3300 Grammar and Composition 3 Credits
Grading Scheme: Letter Grade
Systematic examination of French grammar. Practice of writing at several levels (summary of texts, descriptions, compositions). Textual analysis of literary and journalistic materials. First course of major sequence.
Prerequisite: FRE 2221 or equivalent, or AP score of 5, or IB score of 6 and above, or WebCAPE test.

FRE 3320 Composition and Stylistics 3 Credits
Grading Scheme: Letter Grade
Develops advanced writing skills through the stylistic study of literary and journalistic texts. Writing assignments focus on development of a variety of skills, including summaries, literary analyses, argumentative essays, etc. Aspects of French grammar are highlighted along with analytical terms and key vocabulary from texts.
Prerequisite: FRE 3300 or the equivalent.

FRE 3410 French Conversation and Interaction 3 Credits
Grading Scheme: Letter Grade
Develops and refines oral and comprehension skills relating to different domains. New vocabulary ranging from the colloquial to the most refined of discourses enables students to recognize and use words and expressions in the proper context; material enables students to move from discussions about themselves to situations they are likely to encounter in daily life abroad, through interviewing techniques and professional interaction.
Prerequisite: FRE 2221.

FRE 3440 Commercial French 3 Credits
Grading Scheme: Letter Grade
Introduction to business practices in France with particular emphasis on active use of business vocabulary and salient cultural differences. Primary topics include written business communication, financial institutions, trade, and advertising.
Prerequisite: FRE 2221 or the equivalent.

FRE 3442 Contemporary French Commerce 3 Credits
Grading Scheme: Letter Grade
Continues the acquisition of business language with special attention paid to technical readings, marketing, case studies, and the role of France in the European Union. Emphasizes oral communication skills and contrasting US and French business culture.
Prerequisite: FRE 3300 or instructor permission.

FRE 3500 France through the Ages 3 Credits
Grading Scheme: Letter Grade
A study of France within context of the principal historical events that have formed and transformed the nation state, its mentality and its cultural production. Special attention is given to the significant political, intellectual, religious, social and artistic currents that have marked France and its image from ancient times to the present. (N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - International

FRE 3502 Francophone Cultures 3 Credits
Grading Scheme: Letter Grade
A study of the cultures of countries or regions where French is used as the (or one of the) official language or, in a less official capacity, by a segment of the population. Study of some of the historical, conceptual, practical and problematic aspects of Francophonie. Also concentrates on one specific area (the Caribbean or West Africa or Quebec, etc., on a rotating basis). Literary samples are included. (N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - International

FRE 3564 Contemporary French Culture 3 Credits
Grading Scheme: Letter Grade
An overview of contemporary France that may include the study of politics, economics, education and the arts as well as ideas of national and ethnic identity and France's place in the EU. (N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - International

FRE 3780L Corrective Phonetics 3 Credits
Grading Scheme: Letter Grade
A survey of the units of speech cast in practical terms and organized by classes of sounds with particular emphasis on rhythm, vowels, nasalization, diphthongs and the complex phenomena that occur at word transitions in French. Taught in French, in an audio laboratory, with the instructor as monitor and with a manual designed for individualized instruction.
Prerequisite: FRE 2221 or the equivalent.

FRE 4411 French Communication 2 Credits
Grading Scheme: Letter Grade
Focuses on oral practice with emphasis on oral communication and exchanges. It is designed to improve students' fluency in French and build/expand on their skills. Fosters possibilities to communicate across disciplines and engage with current affairs through news segment, radio and tv podcasts and other media. Topics may include ecology, climate change, the environment, geopolitics, global fashion industry, health, intercultural exchanges, music.
Prerequisite: FRE 3410 or the equivalent.

FRE 4420 Writing in French 3 Credits
Grading Scheme: Letter Grade
Advanced writing course that provides a systematic study (or review) of French syntax, vocabulary and style with the help of drill sessions. Also may include some training in literary translation. A number of quizzes and written compositions.
Prerequisite: FRE 3320 or instructor permission.

FRE 4501 The French Language in the Americas 3 Credits
Grading Scheme: Letter Grade
Examination of the presence of French in the Americas. Topics covered include: the origin of French in the Americas, language practices of Francophone communities, linguistic characteristics of the varieties of French, the effect of language contact on language behavior and representations and identity issues. Focus varies from year to year.
Prerequisite: FRE 3320.

FRE 4780 Introduction to French Phonetics and Phonology 3 Credits
Grading Scheme: Letter Grade
An introduction to French phonological processes, providing explanatory evidence for the production of speech sounds, for the classification of sounds, for their interrelationship with one another (gliding, nasalization, assimilation), for morphological and syllable structure, for specifically French phenomena such as liaison, elision, final consonant drop, schwa drop, and for the relationship of morphology to phonology, especially in the verb system.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4822 Sociolinguistics of French 3 Credits
Grading Scheme: Letter Grade
Sociolinguistic issues in the French-speaking world: language variation, discourse analysis, attitudes toward varieties of French and contact with speakers of other languages.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4850 Introduction to the Structure of French 3 Credits
Grading Scheme: Letter Grade
Explores the French language as a system of communication and mental representation. Analyzes the morphological, syntactic and semantic aspects of contemporary French, and emphasizes the historical, psychological and sociological dimension of linguistic investigation.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced major and minors who seek independent work not offered in another course. Must be arranged individually with French faculty.
Prerequisite: department permission; only three credits can count toward the minor or major.

FRE 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Directed research leading to a 30-40 page essay on a topic approved by the thesis director; registration for two semesters is highly recommended. Not a substitute for a required course in the French major.
Prerequisite: 3.5 minimum GPA.

FRE 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

FRE 4930 Revolving Topics in French Studies 1-5 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in French studies.
Prerequisite: FRE 3320 and FRW 3100 or FRE 3101, or the equivalent.

FRE 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

FRT 2460 French Texts and Contexts 3 Credits
Grading Scheme: Letter Grade
Selected readings in English translation of major works of French literature. For those with no knowledge of French.

FRT 2930 Special Topics in French Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Rotating topics in French literature and culture; taught in English.

FRT 3004 Monuments and Masterpieces of France 3 Credits
Grading Scheme: Letter Grade
Study of selected masterpieces of French literature, in English translation. Works to be considered as they relate to history and as they can be read in strictly literary terms. Topic varies from year to year.
Prerequisite: sophomore standing or higher.

FRT 3520 French Cinema 4-8 Credits
Grading Scheme: Letter Grade
Critical, theoretical, and historical study of French cinema. Content may include key directors, 1930s cinema, nostalgia, and masculinity in 1980s films, World War II cinema, and Colonial and Postcolonial cinema. Taught in English.
Prerequisite: Critical Tracking semester 3 or greater.

FRT 3561 Women in French Literature and/or Cinema 3-4 Credits
Grading Scheme: Letter Grade
Introduction to the rich heritage of feminist traditions in France and Francophone countries through an exploration of women writers and thinkers (filmmakers, theorists), primarily of the 19th and 20th centuries. Selected topics include L'Écriture féminine (Writing the Feminine), autobiographical writing by French and Francophone women, women in French cinema, and representations of women in French film and literature. Read, discuss, and analyze a broad spectrum of primary and secondary sources from a feminist viewpoint.
Prerequisite: Critical Tracking semester 3 or greater.
Attributes: General Education - International

FRT 4523 European Identities, European Cinemas 4 Credits
Grading Scheme: Letter Grade
Provides knowledge of different cultures, languages, and identities that make up contemporary European cinemas.
Prerequisite: Sophomore standing or higher.

FRT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

FRT 4956 Overseas Studies 3 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

FRW 3100 Introduction to French Literature 1 3 Credits
Grading Scheme: Letter Grade
Overview of French Medieval, Renaissance and classical literature and culture, with major literary, intellectual and historical trends through study of representative works from each period. Emphasizes close reading of texts to train students to read critically and to familiarize them with major authors, genres and interpretations. (N)
Prerequisite: FRE 2221 or the equivalent.

FRW 3101 Introduction to French Literature 2 3 Credits
Grading Scheme: Letter Grade
Selected readings of outstanding authors of prose fiction, poetry and theatre from the 18th to the 20th century. Provides the historical context for major literary movements and authors, and trains students to read and write critically. Generally organized thematically. (N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - International

FRW 3930 Rotating Topics in French and Francophone Literature 3 Credits
Grading Scheme: Letter Grade
Selected topics in French literature.
Prerequisite: FRE 3320 or instructor permission.

FRW 4212 Readings in 17th Century French Prose 3 Credits
Grading Scheme: Letter Grade
Selected readings with an emphasis on the history of ideas, the moralistes and culture in the early modern period. Texts include Descartes, Cyrano de Bergerac, Pascal, Fontenelle, La Rochefoucauld, La Fayette, La Bruyère, and Svign.
Prerequisite: FRE 3320 and (FRW 3100 or FRW 3101), or the equivalent.

FRW 4273 Readings in 18th Century French Literature 3 Credits
Grading Scheme: Letter Grade
Rotating topics exploring the fiction, theatre or intellectual prose of the Enlightenment. Special emphasis placed on the cultural climate and productions of the ancient regime.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4281 Readings in the 20th Century French Novel 3 Credits
Grading Scheme: Letter Grade
Examination of representative novels in 20th century French literature from Proust to the New Novel and beyond. Emphasis may include study of genre, narrative techniques, literary modernism and major themes. Combines an historical approach with close textual readings. Authors frequently studied include Proust, Gide, Malraux, Cline, Camus, Sartre, Robbe-Grillet, Butor, Sarraute and Duras.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4310 Seventeenth Century French Drama 3 Credits
Grading Scheme: Letter Grade
Theory and practice of dramaturgy in the classical period as reflected in plays of Corneille, Molire, and Racine. Close textual analysis to disengage aesthetic and ideological problematics posed by each play.
Prerequisite: FRE 3320 and (FRW 3100 or FRW 3101).

FRW 4324 Readings in 20th and 21st c. French theater 3 Credits
Grading Scheme: Letter Grade
A study of selected plays (by Anouilh, Beckett, Césaire, Duras, Genet, Ionesco, Jarry, Réza, Sarraute, Sartre, etc.), dramatic techniques and stage performances in 20th and 21st century French and Francophone theater.
Prerequisite: FRE 3330 or FRW 3100 or FRW 3101, or the equivalent.

FRW 4350 Modern French Poetry from Baudelaire to the Present 3 Credits
Grading Scheme: Letter Grade
Combines an historical approach with close readings of poetic texts; also introduces a number of theoretical and critical writings. Although traditional poetic texts are studied, the works of less frequently taught poets are also presented.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4391 Concepts of French Cinema 4 Credits
Grading Scheme: Letter Grade
A critical and historical study of the representation of gender and ethnicity in French cinema.
Prerequisite: FRE 3300.

FRW 4532 Survey of French Romantic Literature 3 Credits
Grading Scheme: Letter Grade
A rotating topics tracing the development and the main tenets of 19th century French Romanticism. Concentrates on various themes and genres, including poetry, theater and the novel as well as the socioeconomic and cultural matrices that fostered the movement. Emphasizes the relationship between literature and the visual arts, constructions of gendered, cultural and artistic subjectivities, exoticism (spatial, temporal and mystical voyages) and representations of Paris and French society. Beginning with pre-Romantic authors, moves on to Lamartine, Stendhal, Hugo, Vigny, Balzac, Sand, Musset, Desbordes-Valmore, Nerval and Baudelaire.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4552 Introduction to Realism and Naturalism 3 Credits
Grading Scheme: Letter Grade
Rotating topics trace the development and the main tenets of latter 19th century literary, artistic, and cultural productions. Concentrates on various themes and genres, including poetry, theatre, and the novel as well as the socioeconomic and cultural matrices that fostered movements arising between 1850 and the Fin de siècle. Specific attention may be devoted to definitions of Realism, Naturalism, and Symbolism; representations of modern life and the industrialization of the literary market; the infiltration of scientific and mechanistic thought into literary productions (poetry or prose); and representations of women and the female body, of Paris and Parisian society.
Prerequisite: FRE 3320 and (FRW 3100 or FRW 3101 or the equivalent).

FRW 4762 Readings in Francophone Literatures and Cultures (excluding the Caribbean and Sub-Saharan Africa) 3 Credits
Grading Scheme: Letter Grade
Rotating topics in the literatures and cultures of the Francophone world, including North America (Quebec), Europe (Belgium, Switzerland and regional France), Asia (Vietnam, Indian Ocean) and the Middle East.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4770 African and Caribbean Literatures 3 Credits
Grading Scheme: Letter Grade
The production of Sub-Saharan African writers from its inception to the present through examination of representative works and figures, genres (epics, poetry, drama, novels), discourses and critics that inform the productions. Particular attention is paid to historical, political and cultural issues that figure in the development and orientation of African literature in French. Occasional inclusion of Caribbean literature for purpose of comparison.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4822 Introduction to French Critical Theory 3 Credits
Grading Scheme: Letter Grade
Review and comparative analysis of approaches to literature from Romanticism to Deconstructionism. Reading and writing are examined through the eyes of Sainte-Beuve, Taine, Lanson, Bachelard, the Geneva School, Ricoeur, Bataille, Blanchot, Barthes, Foucault, Genette, Lacan, Kristeva, Todorov, Derrida and others.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Target Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Target Language.

FRW 4932 Senior Seminar in French Literature 3 Credits
Grading Scheme: Letter Grade
Rotating topics for French majors and minors in the senior year. Topics rotate given research interests or field of specialization of the teaching faculty. Recent topics have included La Posie du Voyage; L'Écriture féminine; Le Discontinu chez La Rochefoucauld et La Bruyre; Charles Baudelaire: pote/critique de la vie moderne; Qu'est-ce que la Rvolte?
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101.

German

GER 1125 Discover German 1 5 Credits
Grading Scheme: Letter Grade
First semester of a two-semester sequence that includes Discover German 2. In this innovative online course, students acquire basic skills in the German language and use the Internet as a resource to explore aspects of German culture and everyday life.

GER 1126 Discover German 2 5 Credits
Grading Scheme: Letter Grade
Continuation of Discover German 1. Continue acquiring basic skills in the German language using the Internet to explore aspects of German culture and everyday life.
Prerequisite: GER 1125 with minimum grade of C, or S, or the equivalent.

GER 1130 Beginning Intensive German 1 5 Credits
Grading Scheme: Letter Grade
The first semester of the basic language sequence for beginning learners of German. Emphasis is on communicating in German through speaking, listening, reading, writing, and culturally related topics. Communication in German is enhanced by the use of various authentic texts, music, film, and other materials.

GER 1131 Beginning Intensive German 2 5 Credits
Grading Scheme: Letter Grade
Second semester of the basic language sequence. Emphasis on communicating in German through speaking, listening, reading, writing and culturally-related topics. Communication in German is enhanced by the use of various authentic texts, music, film and other materials.
Prerequisite: GER 1130 with minimum grade of C, or S, or the equivalent.

GER 2200 Intermediate German 1 3 Credits
Grading Scheme: Letter Grade
Participants will improve their skills in the four basic areas (reading, writing, listening comprehension, speaking) by reviewing elements of grammar, particularly morphology (i.e., word forms), and by expanding vocabulary. Upon successful completion, students may go directly to Advanced German.
Prerequisite: GER 1104 or GER 1126 or GER 1131, or the equivalent.

GER 2225 Online Intermediate German I 3 Credits
Grading Scheme: Letter Grade
Employs web-based learning resources to develop B1-level proficiencies via the reinforcement of speaking and listening comprehension, reading, and writing skills, and an exploration of selected cultural topics. For self-starters who are comfortable and successful working individually and in groups in an online learning environment.
Prerequisite: (GER 1130 and GER 1131) or (GER 1125 and GER 1126) or (10 university-level credits of beginning German) or the equivalent.

GER 2226 Online Intermediate German II 3 Credits
Grading Scheme: Letter Grade
Develops language comprehension and production skills in work on German texts with various topics (historical, scientific, medical, artistic, etc.) and via online writing tasks and speaking exercises in biweekly synchronous student-instructor meetings.
Prerequisite: GER 2225 or instructor permission.

GER 2240 Intermediate German 2 3 Credits
Grading Scheme: Letter Grade
Objectives include improving reading and speaking skills at the intermediate level. Upon completion participants will be able to pronounce German words more accurately, listen with greater comprehension to German and respond to questions about a variety of recorded texts. Upon successful completion, students may go directly to Advanced German.
Prerequisite: GER 2200 or the equivalent.

GER 2270 Intermediate German Abroad 3-9 Credits
Grading Scheme: Letter Grade
A review of the major aspects of grammar in a context that enhances understanding of German and aims at a level of proficiency above the A2 level of the Common European Framework of Reference for Languages.
Prerequisite: GER 1126 or GER 1131.

GER 3234 Reading German Texts 3 Credits
Grading Scheme: Letter Grade
Upon completion, students will be able to read literary and nonliterary texts and to identify the more common syntactical, stylistic and rhetorical elements.
Prerequisite: GER 2240 or GER 2270 with a minimum grade of C.

GER 3300 Writing German Texts 3 Credits
Grading Scheme: Letter Grade
Special focus on strategies, grammar and vocabulary involved in writing in German. Works toward a writing proficiency level that corresponds to the B1 level as defined by the European Framework of Reference for Languages and measured by the Goethe Institute exam Zertifikat Deutsch.
Prerequisite: GER 2240 or GER 2270 with a minimum grade of C.

GER 3330 German Language and Culture 1 3 Credits
Grading Scheme: Letter Grade
Introduces German civilization through grammar review, vocabulary building, reading and essay writing. Upon completion, students will be able to discuss cultural and literary concepts in German.
Prerequisite: GER 2200 or GER 2240.

GER 3332 Topics in German Film and Culture 1 Credit
Grading Scheme: Letter Grade
GER 3224 is taught as a FLAC accompaniment to various courses. A discussion forum covering different topics in German film and culture. All materials and class discussions will be in German.
Prerequisite: GER 2240 or GER 2270 with a minimum grade of C.

GER 3401 German Grammar Review 3 Credits
Grading Scheme: Letter Grade
An intensive semester-long review of German grammar.
Prerequisite: GER 2240 or GER 2270 with a minimum grade of C.

GER 3413 German Listening, Comprehension and Speaking 3 Credits
Grading Scheme: Letter Grade
Develops the ability to understand and produce basic kinds of speech (descriptions, simple stories, etc.).
Prerequisite: GER 2200 or GER 2240, or instructor permission.

GER 3440 German in Business 3 Credits
Grading Scheme: Letter Grade
Study of Wirtschaftsdeutsch and the ability to read and write texts in German for international business transactions. Acquire the ability to communicate in German in professional business settings.
Prerequisite: GER 2240 OR GER 2270 with a minimum grade of C.

GER 3470 Advanced German Abroad 3-9 Credits
Grading Scheme: Letter Grade
Practical, in-class communication exercises at an advanced level in comprehension, speaking, reading and writing. Prepares students to achieve a proficiency level above the B1 level as established by the Common European Framework for Languages.
Prerequisite: GER 2240 or GER 2270 with a minimum grade of C.

GER 4482 Cultural Identity and Intercultural Competence 3 Credits
Grading Scheme: Letter Grade
Listening comprehension and speaking ability in work involving German cultural identity, online and in class.
Prerequisite: GER 3410 or instructor permission.

GER 4930 Variable Topics in German Studies 3 Credits
Grading Scheme: Letter Grade
Working with German media such as major newspapers, magazines, radio and television programs, students will refine their language skills to a level similar to the B2 level of the Common European Framework for Languages.
Prerequisite: 6 credits of coursework at the GER 3000-level.

GER 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

GET 2100 German Literary Heritage 3 Credits
Grading Scheme: Letter Grade
Upon completion participants will be able to discuss major works of German literature, mainly from the 18th to the 20th century. Texts and lectures in English. Knowledge of German is not required.

GET 3003 German Culture and Civilization 1 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Introduces German civilization from the earliest times to the beginning of the 19th century. Become acquainted with German literature, philosophy, art, music, and architecture. Taught in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GET 3004 Modern German Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Introduces German civilization in the 19th and 20th centuries. Discuss developments in German literature, philosophy, art, music, and architecture. Taught in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GET 3200 Medieval Literary Culture 3 Credits
Grading Scheme: Letter Grade
Studies the German literary culture of the Holy Roman Empire during the Middle Ages in its broader European context. Examines literary culture in relation to Latin literary traditions, as well as to other cultural domains such as the arts, architecture, theology, and politics.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: Satisfies 4000 Words of Writing Requirement

GET 3201 Early Modern Literary Culture 3 Credits
Grading Scheme: Letter Grade
Studies the early modern literary culture of German-speaking regions of the Holy Roman Empire in the broader European context. Examines this culture's relation to pan-European developments, including the Renaissance, Humanism, the Reformation, and developments in the arts, architecture, theology, and politics.
Prerequisite: sophomore standing or higher.

GET 3501 History, Literature and Arts of Berlin 3 Credits
Grading Scheme: Letter Grade
Gain a working knowledge of the history and culture of Berlin from 1871 to the present by exploring literature, painting, and film. Authors and artists include Mann, Brecht, Dix, and Wenders.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GET 3520 Early German Cinema to 1945 4 Credits
Grading Scheme: Letter Grade
Historical overview of the most influential films of German classical cinema, including how they relate to the social reality of the 1920s and 30s.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GET 3580 Representations of War in Literature and Visual Media 3 Credits
Grading Scheme: Letter Grade
Study of the shifting cultural representations of war (literature/art) in the 20th century, focusing primarily on European history, culture and politics. Primary sources include Mann, Remarque, Boll, Celan, Grosz, and Kiefer.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GET 3930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics in German Studies in English translation.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GET 4521 Women and German Cinema 4 Credits
Grading Scheme: Letter Grade
Women and German Cinema
Prerequisite: Sophomore standing or higher.

GET 4523 New Cinema 1945 to the Present 4 Credits
Grading Scheme: Letter Grade
New Cinema 1945 to the Present
Prerequisite: Sophomore standing or higher.

GET 4930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in German studies, in English translation.
Prerequisite: 3 credits at 3000 level or above, or instructor permission.

GEW 3930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics in German Studies.
Prerequisite: GER 2000 or instructor permission.

Attributes: General Education - International, Satisfies 2000 Words of Writing Requirement

Hebrew

A placement test is given during the first class meeting.

HBT 3223 Identity and Dissent in the Hebrew Short Story 3 Credits
Grading Scheme: Letter Grade
Traces the tension between the individual and the collective in Zionist/Israeli society over the last 100-plus years as illustrated in Hebrew short fiction.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

Hindi-Urdu

HIN 4930 Special Topics in Hindi-Urdu 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in and in-depth study of prose or poetic genres in Hindi and/or Urdu. Supplementary critical readings in English.
Prerequisite: HIN 2201 or equivalent, or instructor permission.

Italian

ITA 1130 Beginning Italian 1 5 Credits
Grading Scheme: Letter Grade
ITA 1130 and its sequel, ITA 1131, constitute the basic sequence in Italian. Emphasis on the development of broad competence in the language. Oral-aural approach ensures competence in the four skills.

ITA 1131 Beginning Italian 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence in Italian. Emphasis on the development of broad competence in the language. Oral-aural approach ensures competence in the four skills.
Prerequisite: ITA 1130 with minimum grade of C, or S, or the equivalent.

ITA 2220 Intermediate Italian 1 4 Credits
Grading Scheme: Letter Grade
Enhances knowledge of Italian in all four skills: listening, reading, speaking and writing. The goal is to create communicative competence that enables students to advance to third year study and to benefit from their visits to Italy. (N)
Prerequisite: ITA 1131 or the equivalent.
Attributes: General Education - International

ITA 2221 Intermediate Italian 2 4 Credits
Grading Scheme: Letter Grade
Completes second year sequence with emphasis on composition, literature and communication skills. (N)
Prerequisite: ITA 2220 or the equivalent.
Attributes: General Education - International

ITA 3070 Accelerated Introduction to Italian 5 Credits
Grading Scheme: Letter Grade
Intensive course designed primarily for speakers or students with knowledge of another Romance language or strong linguistic abilities in another foreign language. Assumes no prior study of Italian and offers a complete four-skill (listening, speaking, reading and writing) introduction to the language.
Prerequisite: fourth semester of another romance language or instructor permission.

ITA 3224 Italian Enhancement Section 1-5 Credits
Grading Scheme: Letter Grade
Italian-language reading and discussion to accompany and complement courses in other departments. Readings and discussions are in Italian to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course.
Prerequisite: ITA 2221 or instructor permission. Not for credit in the major.

ITA 3243 Italian Conversation 3 Credits
Grading Scheme: Letter Grade
Develops and refines Italian oral and comprehension skills through exposure to and discussion of a range of topics relating to contemporary Italian society. Discussion and assignments address different registers of speech, from the colloquial to the formal. Active in-class participation is essential.
Prerequisite: ITA 2221 with a minimum grade of C.

ITA 3420 Grammar and Composition 1 3 Credits
Grading Scheme: Letter Grade
Intensive language course designed to master grammatical principles, increase vocabulary and enhance writing and composition skills.
Prerequisite: ITA 2221 or equivalent.

ITA 3500 Italian Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics introduce Italian civilization in historical, artistic, and literary contexts.
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - International

ITA 3503 Naples: Culture and History 3 Credits
Grading Scheme: Letter Grade
Historical, cultural, and socio-political exploration of the Italian city of Naples from its foundation by the Greeks to its present-day position within the Italian State. Readings, discussion, and analysis encompass the city's rich literary, artistic, architectural, theatrical, and musical traditions as well as the socio-political history of Naples and the region of Campania.
Prerequisite: ITA 2221 with a minimum grade of C.

ITA 3564 Contemporary Italian Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on modern Italy through literature, art and mass media, and current events.
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - International

ITA 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced minors who seek independent work not offered in another course. Must be arranged individually with Italian faculty. Only three credits can count toward the minor.
Prerequisite: program coordinator permission.

ITA 4911 Undergraduate Research in Language or History/Culture in Italian 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ITT 2530 Italian Literature and Film 3 Credits
Grading Scheme: Letter Grade
Study of modern Italian narrative and its adaptation to film by major Italian directors.

ITT 3431 Italy and Pilgrimages 3 Credits
Grading Scheme: Letter Grade
Through lectures, readings, and discussions, considers the continuing presence of Rome and other Italian cities as metaphors and focal points of Italian artistic and literary sensibilities. Taught in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

ITT 3521 Italian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of Italian film and directors. Topics may vary.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

ITT 3540 Murder Italian Style: Crime Fiction and Film in Italy 3 Credits
Grading Scheme: Letter Grade
Explores Italian crime fiction and film. Analysis considers specificity of Italian tradition while placing texts and films in a broader cultural and historical context, enabling critically and politically informed reading of the many applications and subversions of the generic formula. Taught in English.
Prerequisite: sophomore standing or higher or instructor permission.

ITT 3541 Gangsters and Godfathers: Italian Mafia Movies 3 Credits
Grading Scheme: Letter Grade
Examines Italian cinematic representations of organized criminality, in particular Sicilian Cosa Nostra and Neapolitan Camorra. Analysis considers specificity of Italian tradition while placing films in a broader history of the gangster genre to allow for a critically and politically informed reading of Italian generic subversions. Taught in English.
Prerequisite: sophomore standing or higher or instructor permission.

ITT 3700 The Demolition of Man: Italian Perspectives on the Jewish Holocaust 3 Credits
Grading Scheme: Letter Grade
Explores a sampling of Italy's texts on the Jewish Holocaust, centering on the work of survivor and theorist of the camps, Primo Levi. Material also encompasses the history of the Italian-Jewish community, as well as a selection of Italian films dealing with the realities and ethical implications of the camps.
Prerequisite: Sophomore standing or higher or instructor permission.

ITT 3930 Special Topics in Italian Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Selected topics in Italian literature, civilization and culture, including crossover influence of media. Can focus on one epoch's influence on another.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

ITT 4911 Undergraduate Research in Italian in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ITT 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

ITW 3100 Introduction to Italian Literature 1 3 Credits
Grading Scheme: Letter Grade
The origins of early Italian literature, its central themes, and the cultural factors that influenced its development. Develops an ability to read critically in Italian.
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.

Grading Scheme: Letter Grade
Presentation and exploration of the figure of the nonhuman animal in the work of several modern Italian authors and poets. Analysis addresses the literary dimension of the selected animal portraits as well as any philosophical and ethical questions raised by these literary animals. Taught in Italian.
Prerequisite: 3 credits of an ITA or ITW course at the 3000 level or above.

ITW 4600 Dante's Inferno 3 Credits
Grading Scheme: Letter Grade
Semester-long, in-depth examination of Dante Alighieri's text, Inferno, with the support of a variety of visual materials and digital resources devoted to Dante and his world. Special attention paid to the political, historical, and religious context in which Dante wrote. Taught in Italian.
Prerequisite: ITA 3420 or ITA 3500 or ITA 3564 or ITW 3100 or ITW 3101 or instructor permission.

ITW 4911 Undergraduate Research in Literature in Italian 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Literature in Italian. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Literature in Italian.

Japanese

JPN 1130 Beginning Japanese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing. A placement test is required for students with any prior background in Japanese. Complete beginners may register without a placement test.

JPN 1131 Beginning Japanese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: JPN 1130 with minimum grade of C, or S, or the equivalent as proven by placement test.

JPN 2230 Intermediate Japanese 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: JPN 1131 with minimum grade of C or S or the equivalent as proven by placement test.

JPN 2231 Intermediate Japanese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: JPN 2230 with minimum grade of C or S or the equivalent as proven by placement test.

JPN 3410 Advanced Japanese 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: JPN 2231 with minimum grade of C or S or the equivalent as proven by placement test.

JPN 3411 Advanced Japanese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study in Japanese.
Prerequisite: JPN 3410 with minimum grade of C, or S, or the equivalent as proven by placement test.

JPN 3440 Business Japanese 3 Credits
Grading Scheme: Letter Grade
Provides grammatical structures and essential business vocabulary, develops conversation strategies and presentation skills, and raises awareness of the customs and cultural differences in Japanese business interactions.
Prerequisite: JPN 2231 with minimum grade of C or S, or the equivalent.

JPN 3730 Language in Japanese Society 3 Credits
Grading Scheme: Letter Grade
Analysis of variation in regional dialects: gender-based differences, pragmatics of interpersonal communication, language acquisition, and discourse structure.
Prerequisite: JPN 1130 or LIN 3010.

JPN 4415 Japanese Translation: Theory and Practice 3 Credits
Grading Scheme: Letter Grade
Key concepts and approaches of translation studies applied to the translation of Japanese to English, and English to Japanese, in a variety of media, genre, and text types.
Prerequisite: JPN 3410 or equivalent with a minimum grade of C or instructor permission.

JPN 4850 Structure of Japanese 3 Credits
Grading Scheme: Letter Grade
Linguistic analysis of modern standard Japanese. Topics include phonology, morphology, syntax, semantics and writing. Readings and discussions in English. (N)
Prerequisite: JPN 1131 or instructor permission.
Attributes: General Education - International

JPN 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.

JPN 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

JPN 4930 Special Topics in Japanese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in and in-depth study of special topics in Japanese studies.
Prerequisite: Critical Tracking semester 2 or greater.

JPN 4935 Senior Honors Thesis 3 Credits
Grading Scheme: Letter Grade
Select a Japanese faculty member to act as director for an independent research project that culminates in an honors thesis.
Prerequisite: Minimum 3.5 GPA and instructor permission.

JPN 4940 Internship 0-6 Credits
Grading Scheme: Letter Grade
Faculty (or delegated authority) supervised internship. Requires a written post-internship report.
Prerequisite: instructor and department permission.

JPN 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

JPN 4957 Overseas Studies 2 1-15 Credits
Grading Scheme: Letter Grade
Revolving topics provide a mechanism for coursework taken at a foreign university as part of an approved study abroad program to be transferred to UF. Credits taken will be entered in the student's transcript and may or may not count toward graduation, at the discretion of major's advisors.
Prerequisite: undergraduate advisor permission.

JPT 3100 Tales of Kyoto 3 Credits
Grading Scheme: Letter Grade
An investigation of literary texts from the 8th through the 17th centuries presented within the framework of Western literary and feminist criticism.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

Grading Scheme: Letter Grade
Examines a variety of literary, historical, anthropological, and theoretical texts to explore racial and social issues related to Japan's imperial past. (N)
Corequisite: JPT 3500 recommended.
Attributes: General Education - International

JPT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

JPT 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

JPT 4957 Overseas Studies 2 1-15 Credits
Grading Scheme: Letter Grade
Revolving topics provide a mechanism for coursework taken at a foreign university as part of an approved study abroad program to be transferred to UF. Credits taken will be entered in the student's transcript and may or may not count toward graduation, at the discretion of major's advisors.
Prerequisite: undergraduate advisor permission.

JPW 3143 Classical Japanese 1 3 Credits
Grading Scheme: Letter Grade
Introduction to classical Japanese texts with emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: JPN 2231 with minimum grade of C, or the equivalent.

JPW 3144 Classical Japanese 2 3 Credits
Grading Scheme: Letter Grade
Complex texts in classical Japanese with focus on comprehension, grammar, literature and culture.
Prerequisite: JPN 3143 with minimum grade of C, or the equivalent.

JPW 4130 Readings in Japanese Literature 3 Credits
Grading Scheme: Letter Grade
A fourth-year language course based on literary texts, incorporating advanced reading skills and the analysis of literature in the original. (N)
Prerequisite: JPN 3411 with minimum grade of C or S, or the equivalent as proven by placement test.
Attributes: General Education - International

JPW 4131 Japanese Texts and Contexts 3 Credits
Grading Scheme: Letter Grade
Complements JPW 4130, Readings in Japanese Literature, and focuses on contemporary issues as encountered in a variety of Japanese media.
Prerequisite: JPN 3411 with minimum grade of C or S, or the equivalent as proven by placement test.

JPW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research in Target Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Target Language.

Korean

KOR 1130 Beginning Korean 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering speaking, listening, reading, writing, and cultural interaction.
Prerequisite: placement test.

KOR 1131 Beginning Korean 2 5 Credits
Grading Scheme: Letter Grade
Continued study of speaking, listening, reading, writing and cultural interaction.
Prerequisite: KOR 1130 with minimum grade of C, or S, or the equivalent.

KOR 2230 Intermediate Korean 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: KOR 1131 with minimum grade of C or S, or the equivalent.

KOR 2231 Intermediate Korean 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: KOR 2230 with minimum grade of C or S, or the equivalent.

KOT 3500 Introduction to Korean Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Korean culture with emphasis on tracing the origin and development of important aspects of Korean literature, art, religion, and society. Taught in English.

Polish

PLT 3930 Special Topics in Polish Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics in Polish literature, culture and society. Taught in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

POL 1130 Introduction to Polish Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
A two-semester Polish language sequence that introduces the basics of Polish language and culture.

POL 1131 Introduction to Polish Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Second in the two-semester sequence. Helps to expand vocabulary, command of Polish grammar, and the ability to speak Polish.
Prerequisite: POL 1130 or placement test.

POL 2220 Intermediate Polish 1 4 Credits
Grading Scheme: Letter Grade
Improve speaking, reading, writing, and listening comprehension skills by reviewing and expanding the language principles introduced in POL 1130 and POL 1131.

POL 2221 Intermediate Polish 2 4 Credits
Grading Scheme: Letter Grade
Improve speaking, reading, writing, and listening comprehension skills by reviewing and building upon the language principles introduced in POL 2220.

Russian

RUS 1130 Introduction to Russian Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
RUS 1130 and its sequel, RUS 1131, offer a comprehensive introduction to Russian, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.

RUS 1131 Introduction to Russian Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Continuation of introductory language and cultural study.
Prerequisite: RUS 1130 with minimum grade of C or S, or the equivalent.

RUS 2220 Intermediate Russian 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study with exercises in sentence patterns, vocabulary building and oral and written discourse in Russian.
Prerequisite: RUS 1131 or equivalent.

RUS 2340 Russian for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
A practical overview of Russian grammar and writing for those with significant bilingual speaking and listening backgrounds. Devotes special attention to reading, writing and vocabulary development.
Prerequisite: instructor or undergraduate coordinator permission.

RUS 3240 Oral Practice in Russian 3 Credits
Grading Scheme: Letter Grade
Development of advanced speaking and listening skills in conversational Russian.
Prerequisite: RUS 1131.

RUS 3400 Intermediate Russian 2 4 Credits
Grading Scheme: Letter Grade
Continued study with exercises in sentence patterns, vocabulary building and sustained oral and written discourse.
Prerequisite: RUS 2220 or the equivalent.

RUS 4000 Advanced Russian 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills (speaking, listening, reading, and writing) with attention to more complex structures.
Prerequisite: RUS 3400.

RUS 4001 Advanced Russian 2 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills (speaking, listening, reading, and writing) with attention to more complex structures.
Prerequisite: RUS 4000 with a minimum grade of C or S or the equivalent as proven by a placement test.

RUS 4300 Advanced Grammar and Composition 3 Credits
Grading Scheme: Letter Grade
Study of advanced grammar and composition in Russian.
Prerequisite: one 3000-level Russian course or the equivalent.

RUS 4411 Advanced Oral Practice 3 Credits
Grading Scheme: Letter Grade
Continued development of advanced speaking and listening skills based on authentic written, audio and video texts from contemporary Russian culture.
Prerequisite: RUS 3240.

RUS 4501 Russian Studies Research Seminar 3 Credits
Grading Scheme: Letter Grade
Introduces significant trends and ideas in Russian literary, cultural, historical, and critical studies. Develop the ability to understand and produce critical scholarly argument in a variety of formats, including class discussion, formal presentation, and a written research project.
Prerequisite: RUS 3400.

RUS 4502 Language and Culture of the Russian Business World 3 Credits
Grading Scheme: Letter Grade
Combines advanced language training, a practical introduction to the language and culture of the contemporary Russian business world, and extensive practice translating and interpreting texts used in business settings. Focuses on issues such as starting companies and joint ventures, advertising, and setting up and conducting official meetings and telephone calls. Basic Russian business ethics are also studied.
Prerequisite: RUS 3400 with minimum grade of C.

RUS 4503 Theory and Practice of Russian-English Translation 1 3 Credits
Grading Scheme: Letter Grade
First part of a two-part translation series focusing on the theory and practice of conveying word semantics in Russian-English and English-Russian translation.
Prerequisite: RUS 3400 with minimum grade of C.

RUS 4504 Theory and Practice of Russian-English Translation 2 3 Credits
Grading Scheme: Letter Grade
Second part of the translation series focusing on the theory and practice of conveying sentence and paragraph semantics in Russian-English and English-Russian translation.
Prerequisite: RUS 3400 with minimum grade of C.

RUS 4700 Structure of the Russian Language 3 Credits
Grading Scheme: Letter Grade
Introduction to the phonology, morphology and syntax of contemporary standard Russian from a formal and semantic standpoint. Also includes the development of Russian word stress and a survey of the development of Russian verb tense, aspect and mood.
Prerequisite: one 3000-level Russian course or the equivalent.

RUS 4780 Corrective Phonetics and Intonation 3 Credits
Grading Scheme: Letter Grade
Develops advanced-level phonetic and intonational skills via a variety of genres of authentic texts from Russian culture.
Prerequisite: RUS 2220 with minimum grade of C.

RUS 4905 Individual Work in Russian 1-3 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.
Prerequisite: RUS 2220 or the equivalent.

RUS 4911 Undergraduate Research in Russian Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Russian Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Russian Language.

RUS 4930 Special Topics in Russian 3-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Russian studies. New, experimental, or one-time offerings.
Prerequisite: RUS 3400.

RUS 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

RUT 3101 Russian Masterpieces 3 Credits
Grading Scheme: Letter Grade
Introduces the Russian literature of the 19th-21st centuries. Read some of the most influential works by Pushkin, Gogol, Tolstoy, Dostoevsky, Chekhov, Nabokov, Pasternak and Sorokin, thereby gaining essential knowledge of Russian history, culture and the authors personal lives. Readings and discussions in English. (N)

Grading Scheme: Letter Grade
Introduces the literature, film, and culture of 20th century Eastern and Central Europe.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

RUT 3601 The Culture of the Cold War 3 Credits
Grading Scheme: Letter Grade
Examines Soviet and American cultural responses to the Cold War across a wide range of media (literature, film, propaganda). Consideration of how relations between the US and the USSR were framed as a global ideological contest.
Prerequisite: Sophomore standing or higher.

RUT 3930 Variable Topics in Russian Studies 1-9 Credits
Grading Scheme: Letter Grade
Variable topics in Russian studies, taught in English translation.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

RUT 4440 Pushkin and Gogol 3 Credits
Grading Scheme: Letter Grade
Major works of Russian literature written in the first half of the 19th century. Readings and discussions in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

RUT 4450 Russian Modernism 3 Credits
Grading Scheme: Letter Grade
Introduces the major artistic contributions of Russian modernism in the context of the political, social, and cultural upheavals of late Imperial to Stalinist Russia (1890 - 1939).
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

RUT 4911 Undergraduate Research in Russian Studies, English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

RUT 4930 Variable Topics in Russian Studies 1-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Russian studies, taught in English translation.
Prerequisite: one 3000-level Russian course or instructor permission.

RUW 3101 Reading Russian Literature 3 Credits
Grading Scheme: Letter Grade
In-depth study of the vocabulary, structures, reading strategies and cultural background needed for understanding and interpreting a broad range of Russian prose fiction.
Prerequisite: RUS 2220 with minimum grade of C.

RUW 4301 Russian Drama and Poetry 3-6 Credits
Grading Scheme: Letter Grade
Study of plays and poems by major Russian writers from the 19th and 20th centuries. Readings in Russian.
Prerequisite: RUS 3400.

RUW 4341 Russian Media Culture 3 Credits
Grading Scheme: Letter Grade
In-depth study of the history and recent trends in the Russian mass media and web-based technology and their impact on culture and society.
Prerequisite: RUS 3400 or RUS 4001 with minimum grade of C.

RUW 4370 Russian Short Prose 3 Credits
Grading Scheme: Letter Grade
Critical study of selected Russian short stories. Readings in Russian.
Prerequisite: RUS 3400.

RUW 4630 Reading Eugene Onegin: Pushkin and Nabokov 3 Credits
Grading Scheme: Letter Grade
An in-depth study of one of Russia's most revered literary works, combining close readings of Pushkin's original with analyses of operatic, artistic and cinematic adaptations by Chaikovsky, Nabokov and others. Readings and discussions primarily in Russian.
Prerequisite: RUW 3101 or the equivalent, or instructor permission.

RUW 4911 Undergraduate Research in Russian Studies, Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

RUW 4932 Selected Readings in Russian 1-3 Credits
Grading Scheme: Letter Grade
Special topic, author, genre, or movement in Russian literature.
Prerequisite: one 3000-level course or the equivalent.

Swahili

SSW 3303 Swahili Oral Literature 3 Credits
Grading Scheme: Letter Grade
Introduces various genres of Swahili oral literatures and shows their importance, relevance, and function within Swahili culture.
Prerequisite: SWA 3410.

SWA 1130 Beginning Swahili 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

SWA 1131 Beginning Swahili 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: SWA 1130 with minimum grade of C, or S, or the equivalent.

SWA 2200 Intermediate Swahili 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: SWA 1131 with minimum grade of C or S, or the equivalent.

SWA 2201 Intermediate Swahili 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: SWA 2200 with minimum grade of C or S, or the equivalent.

SWA 3410 Advanced Swahili 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: SWA 2201 with minimum grade of C, or the equivalent.

SWA 3411 Advanced Swahili 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: SWA 3410 with minimum grade of C, or S, or the equivalent.

SWA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

SWW 4100 Readings in Swahili 3 Credits
Grading Scheme: Letter Grade
Readings in Swahili
Prerequisite: SWA 3411.

Vietnamese

VTN 1130 Beginning Vietnamese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

VTN 1131 Beginning Vietnamese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: VTN 1130 with minimum grade of C or S, or the equivalent.

VTN 2220 Intermediate Vietnamese 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: VTN 1131 with minimum grade of C or S, or the equivalent.

VTN 2221 Intermediate Vietnamese 2 4 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: VTN 2220 with minimum grade of C or S, or the equivalent.

VTN 2340 Vietnamese for Heritage Learners 1 4 Credits
Grading Scheme: Letter Grade
For those with significant speaking and listening skills, but limited reading and writing skills. Emphasis on developing latter two skills.
Prerequisite: instructor permission.

VTN 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For independent work not offered in another course. Available only by special arrangement.

VTN 4930 Special Topics in Vietnamese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Vietnamese studies. Available only by special arrangement.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

VTT 3500 Vietnamese Culture 3 Credits
Grading Scheme: Letter Grade
Overview of Vietnamese culture, language and history. Focuses on Vietnamese cultural norms, attitudes, values and culture through an examination of history, religious practices, language, literature, family structures, cuisine, daily life and the arts. (N)
Prerequisite: Any Asia-related ASH, CHI, CHT, JPN, JPT, REL, or VTN course.
Attributes: General Education - International

Wolof

WOL 1130 Beginning Wolof 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

WOL 1131 Beginning Wolof 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: WOL 1130 with minimum grade of C, or the equivalent.

WOL 2200 Intermediate Wolof 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: WOL 1131 with minimum grade of C, or the equivalent.

WOL 2201 Intermediate Wolof 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: WOL 2200 with minimum grade of C, or the equivalent.

WOL 3410 Advanced Wolof 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: WOL 2201 with minimum grade of C, or the equivalent.

WOL 3411 Advanced Wolof 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: WOL 3410 with minimum grade of C, or the equivalent.

Yoruba

SSA 3730 Language in African Society 3 Credits
Grading Scheme: Letter Grade
The role of language in the development of African societies. Language and nation building.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit

YOR 1130 Beginning Yoruba 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

YOR 1131 Beginning Yoruba 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: YOR 1130 with minimum grade of C or S, or the equivalent.

YOR 2200 Intermediate Yoruba 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: YOR 1131 with minimum grade of C or S, or the equivalent.

YOR 2201 Intermediate Yoruba 2 3 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: YOR 2200 with minimum grade of C or S, or the equivalent.

YOR 3410 Advanced Yoruba 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: YOR 2201 with minimum grade of C, or the equivalent.

YOR 3411 Advanced Yoruba 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: YOR 3410 with minimum grade of C, or the equivalent.

YOR 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

YOT 3500 Yoruba Diaspora in the New World 3 Credits
Grading Scheme: Letter Grade
Introduction to the scope and importance of Yoruban culture in the New World and its role and significance in the resilience of African cultures in North America, South America and the Caribbean. (WR)
Prerequisite: HUM 2420, HUM 2424, or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

YRW 4130 Readings in Yoruba Literature 3 Credits
Grading Scheme: Letter Grade
Reading skills and the analysis of literature in the original language.
Prerequisite: YOR 3411 or the equivalent.

Latin American Studies, Center for

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Courses

LAS 1141 Human Rights in Latin America 3 Credits
Grading Scheme: Letter Grade
Explores the historical development of the idea of human rights with a focus on Latin America using an interdisciplinary approach grounded in the humanities and social sciences. Students develop their own ethnographic research using qualitative and interpretive methods to gather evidence and reach reasoned conclusions.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 4000 Words of Writing Requirement

LAS 2001 Introduction to Latin American Studies 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary introduction to the study of Latin American societies and cultures. Provides general knowledge of Latin America and its people, preparing students for future coursework in Latin American studies. (N)
Attributes: General Education - International

LAS 3040 Drug Wars and Oil Fortunes in Latin America 3 Credits
Grading Scheme: Letter Grade
Examines the historical, comparative, and current dynamics of two global commodities—illicit drugs and licit petroleum. Considers how the presumably separate spheres of legal and illegal commodity exchange have become intertwined and covers the linkages between the Drug War, petroleum extractivism, and United States—Latin America relations.
Prerequisite: sophomore standing or higher.

LAS 3930 Special Topics in Latin American Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics in Latin American studies.

LAS 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Qualified students choose a topic in Latin American studies that cuts across disciplines. Students work under the supervision of a faculty member affiliated to the Center for Latin American Studies.

LAS 4911 Undergraduate Research in Latin American Studies 0-3 Credits
Grading Scheme: Letter Grade
Course provides firsthand, supervised research in Latin American Studies. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Latin American Studies.

LAS 4935 Latin American Area Seminar 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary variable topics seminar. Required of all candidates for the undergraduate certificate and minor in Latin American studies. (WR)
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 4074 Latino Politics and Policy 3 Credits
Grading Scheme: Letter Grade
Examines the political behavior of Hispanic Americans in the United States. Students discuss political and public policy issues that impact Hispanic/Latino communities, such as affirmative action, the Chicano movement, English-only movements, immigration, the presidency, racial profiling and urban politics.
Prerequisite: sophomore standing or above.

Latin | Classics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Translation and analysis of the Roman satirists Horace, Persius, Juvenal, or Martial.
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 3380 The Roman Historians 3 Credits
Grading Scheme: Letter Grade
Readings in Latin from one of the Roman historians: Sallust, Caesar, Livy, or Tacitus.
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 3490 Medieval Latin 3 Credits
Grading Scheme: Letter Grade
Readings from Medieval Latin 350 - 1200 A.D.
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 3644 Cicero 3 Credits
Grading Scheme: Letter Grade
Essays, speeches and letters of Cicero. (N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - International

LNW 3660 Vergil and Roman Epic 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Vergil's Aeneid in the light of his epic techniques and the spirit of the Augustan Age.
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 3930 Studies in Latin Literature 3 Credits
Grading Scheme: Letter Grade
A rotating topics course providing in-depth study of a particular author (e.g., Suetonius), genre (e.g., didactic poetry) or period (e.g., The Silver Age).
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 4905 Special Study in Latin 1-4 Credits
Grading Scheme: Letter Grade
Readings, conferences and reports.
Prerequisite: LAT 1104, LAT 1131, LAT 2200 or the equivalent.

LNW 4911 Undergraduate Research in Latin Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

Linguistics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Linguistics Department offers the PhD, MA (both thesis and non-thesis), BA, and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level.

Curriculum

- Combination Degrees
- Linguistics
- Linguistics Minor
- Teaching English as a Second Language Certificate
- Teaching English as a Second Language Minor

Courses

LIN 1140 Language and Emotion 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary study of the interface of emotion and language. Focus on vocal properties of emotion expression, how different languages conceptualize emotion, how those who are not neurotypical may differ in the expression of emotion, and implications of gender-differential expectations of emotion expression for self-presentation.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

LIN 2004 Languages of the World 3 Credits
Grading Scheme: Letter Grade
Broad survey of the world's languages, their genetic affiliations, and current status. Addresses issues related to linguistic diversity and provides an overview of the major subfields of linguistics by acquainting students with linguistic properties of diverse languages and language families.

LIN 2008 Language and Computers 3 Credits
Grading Scheme: Letter Grade
Identifies and explains the cross-disciplinary dimensions of AI for natural language processing (NLP) through social science principles of human communication (e.g. conversational turn-taking), linguistic theory (e.g. how to build sentences), and computer science (e.g. ASCII vs. Unicode). Examines topics in the context of globalization, language endangerment, and the recent rapid rise of AI. Assumes no background in linguistics or computer science.
Attributes: Quest 2, General Education - Social Science, Satisfies 2000 Words of Writing Requirement

LIN 2011 Introduction to Linguistics 3 Credits
Grading Scheme: Letter Grade
Explores the nature of human language. Provides a broad overview of the different fields of linguistics including phonetics, phonology, morphology, syntax, semantics, pragmatics, sociolinguistics, and historical linguistics (which will include a discussion of texts from the Western canon) to explore the myriad ways in which linguists analyze human language phenomena.
Attributes: General Education - Humanities

LIN 2141 Linguistic Prejudice 3 Credits
Grading Scheme: Letter Grade
Addresses the question “what we can do to mitigate the effects of Linguistic Prejudice?” Explores the meaning of linguistic prejudice, who it affects, and its real-world consequences: discrimination in education, housing, and the justice system. Draws from linguistics, psychology and sociology; investigates how to reduce linguistic prejudice and its effects.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2

LIN 2614 Language in the USA 3 Credits
Grading Scheme: Letter Grade
Focuses on linguistic diversity in the US, touching on American dialects, multilingualism in America, Native American languages, and sociolinguistic variation. Dialect analysis tools will be learned and applied in class projects.

LIN 2704 Language, Thought and Action: Language as a Cognitive System 3 Credits
Grading Scheme: Letter Grade
What you know about language and how to use it when listening and speaking resides in your mind. Language is therefore part of human cognition. One important part of understanding language and human linguistic behavior is to understand how language interacts with other aspects of cognition: thought, perception, emotion and action. In this course will discuss recent insights in language and the mind. In this course will discuss recent insights in language and the mind from various disciplines including linguistics, cognitive psychology, neuroscience and computer science. This course counts toward the social and behavioral sciences requirement by exploring this relationship between mind and language, in other words covering the cognitive aspects of language.
Attributes: General Education - Social Science

LIN 3201 The Sounds of Human Language 3 Credits
Grading Scheme: Letter Grade
Emphasizes the sounds employed in languages of the world for a comprehensive understanding of the mechanism underlying the production of speech sounds and the ability to recognize, distinguish and phonetically transcribe speech sounds from an unfamiliar language. Includes investigation of the patterning and functions of sounds in languages of the world and application of the methods of analyzing a language sound system.
Prerequisite: LIN 3010.

LIN 3460 The Structure of Human Language 3 Credits
Grading Scheme: Letter Grade
Investigates word formation processes (morphology) and sentence structure (syntax) in the world's languages. Focuses on vocabulary and tools used to discover and describe patterns in human language. Coursework emphasizes problem solving and working with a wide range of language data.
Prerequisite: LIN 3010.

LIN 3677 World Englishes 3 Credits
Grading Scheme: Letter Grade
Investigates history and spread of English; varieties of English spoken around the world as a first, second, or foreign language, their characteristics at various linguistic levels (sounds, morphemes, syntax, lexicon), their use and status in different countries; issues of policy, teaching, and testing; and models categorizing World Englishes.
Prerequisite: LIN 3010.

LIN 3680 Modern English Structure 3 Credits
Grading Scheme: Letter Grade
Studies the grammar of current English from the viewpoint of modern linguistics.
Prerequisite: LIN 3010.

LIN 4005 Stats for Linguists 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts of probability and statistics, with examples chosen mainly from linguistics. Topics include descriptive statistics, comparing means, regression, t-tests, linear mixed models, and basic experimental design.
Prerequisite: LIN 3010

LIN 4071 Intro to Corpus Linguistics 3 Credits
Grading Scheme: Letter Grade
Key methods of corpus linguistics for research and teaching.
Prerequisite: LIN 3010.

LIN 4124 Historical Linguistics 3 Credits
Grading Scheme: Letter Grade
Basic concepts of historical linguistics and their application to language data. Exploration of the history of individual languages and language families. Concepts of language relatedness, language change, and language evolution.
Prerequisite: LIN 3010.

LIN 4136 Introduction to Data-driven Learning 3 Credits
Grading Scheme: Letter Grade
An overview of how data-driven learning is defined and what disciplines and theories it draws from, the way DDL has been applied in actual classroom research, and hands-on training using software and corpus data to develop instructional materials and student activities.
Prerequisite: LIN 3010.

LIN 4205 Fundamentals of Phonetics 3 Credits
Grading Scheme: Letter Grade
Studies phonetics, including anatomy and physiology of the speech production apparatus, transcription and production of some of the world's sounds, basic acoustics, computerized methods for speech analysis, acoustic characteristics of sounds, stress and intonation and basic issues in speech perception. May be taught in conjunction with LIN 6208, Phonetics and Linguists, a graduate course.
Prerequisite: LIN 3010 and LIN 3201.

LIN 4320 Introduction to Phonology 3 Credits
Grading Scheme: Letter Grade
Phonemics, syllabic and prosodic phenomena, neutralization, distinctive features, morphophonemic alternation, phonological systems and processes. Terminology and notational conventions of generative phonology and optimality theory, with problems from a variety of languages. May be taught in conjunction with a graduate course that bears the same title.
Prerequisite: LIN 3010 and LIN 3201.

LIN 4400 Introduction to Morphology 3 Credits
Grading Scheme: Letter Grade
Theory of word structure, derivation and inflection, with examples and problems from a variety of languages. Includes the position of morphology in grammar, the relationship between morphology and grammar, typology, cultural and conceptual categories, and predictions of various theories of morphology. May be taught in conjunction with a graduate course that bears the same title.
Prerequisite: LIN 3010 and LIN 3460.

LIN 4500 Introduction to Syntax 3 Credits
Grading Scheme: Letter Grade
Generative-transformational model of syntax: phrase structure, the lexicon, case and agreement, movement, locality relations and anaphora; emphasizes problem solving and linguistic argumentation. May be taught in conjunction with a graduate course that bears the same title.
Prerequisite: LIN 3010 and LIN 3460.

LIN 4600 Survey of Sociolinguistics 3 Credits
Grading Scheme: Letter Grade
Major approaches to language in context: ethnolinguistic, sociological and linguistic. Applications of socio-linguistics to applied linguistics, social sciences and education. Collection and analysis of data.
Prerequisite: LIN 3010.

LIN 4656 Gender and Language 3 Credits
Grading Scheme: Letter Grade
Language in the construction of sex and gender roles within a culture. Grammaticalization of gender in languages of the world. Interaction of grammatical structures with gender stereotypes. Consequences of these interactions on grammatical structures.
Prerequisite: LIN 3010.

LIN 4701 Psycholinguistics 3 Credits
Grading Scheme: Letter Grade
Basic issues in psycholinguistics, including linguistic principles and psychological mechanisms in language production, comprehension, acquisition and development.
Prerequisite: LIN 2704 or LIN 3010 or EXP 3604 or SPA 4004.

LIN 4702C Methods in Psycholinguistics 3 Credits
Grading Scheme: Letter Grade
Provides hands-on experience designing, running and analyzing data from various types of psycholinguistic experiments.
Prerequisite: LIN 4701 and STA 2023, or the equivalent.

LIN 4721 Second Language Acquisition 3 Credits
Grading Scheme: Letter Grade
The neurolinguistic, psycholinguistic and sociolinguistic bases of second language acquisition in childhood and adulthood.
Prerequisite: LIN 3010.

LIN 4760 Field Methods 3 Credits
Grading Scheme: Letter Grade
Introduction to linguistic fieldwork. Hands-on investigation of the phonetic, phonological, morphological, and syntactic structure of a lesser-known language and the techniques used in the elicitation and analysis of such linguistic data.
Prerequisite: LIN 3460 and LIN 3201

LIN 4761C Methods in Language Documentation 3 Credits
Grading Scheme: Letter Grade
Exploration of digital methods used in contemporary language documentation.
Prerequisite: LIN 3010.

LIN 4770C Introduction to Computational Linguistics 3 Credits
Grading Scheme: Letter Grade
Introduces the study of natural language from a computational perspective. Discusses both applied (engineering) and theoretical (cognitive) issues, ranging from speech and language technology to formal aspects of theoretical linguistic models. Covers a brief introduction to programming in Python, and the basics of Natural Language Processing and their applications.
Prerequisite: LIN 3010.

LIN 4790 Brain and Language 3 Credits
Grading Scheme: Letter Grade
Introduces critical issues and terminology in brain and language research. Topics include brain imaging techniques, categorization, auditory perception, modularity, connectionism, semantic representation, laterality, innateness and plasticity.
Prerequisite: LIN 3010.

LIN 4803 Introduction to Semantics 3 Credits
Grading Scheme: Letter Grade
Studies truth-conditional semantics as opposed to pragmatics, including basic notions in classical logic, since logic is assumed in truth-conditional semantics.
Prerequisite: LIN 3010.

LIN 4820 Meaning and Use 3 Credits
Grading Scheme: Letter Grade
Introduces pragmatics, the study of utterance meanings determined by situated uses of language and linguistic communication as a social activity. Explores role of linguistic and extra-linguistic contexts in the production and interpretation of utterances. Topics include deictic and anaphoric expressions, sense and reference, presupposition, implicature, speech acts and coherence.
Prerequisite: LIN 3010.

LIN 4850 Formal Semantics 3 Credits
Grading Scheme: Letter Grade
Advanced semantics within the Montague approach.
Prerequisite: (LIN 4803 and PHI 2100) or PHI 3130.

LIN 4905 Individual Study in Linguistics 3 Credits
Grading Scheme: Letter Grade
Individual study for linguistics majors.

LIN 4911 Undergraduate Research in Linguistics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in linguistics.

LIN 4930 Special Topics in Linguistics 3-9 Credits
Grading Scheme: Letter Grade
Variable content offered by faculty members in their areas of specialization. Some offerings may involve extensive writing, while others will deal with quantitative analysis or field methodology.
Prerequisite: LIN 3010.

LIN 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

LIN 4970 Senior Thesis 3 Credits
Grading Scheme: Letter Grade
Accommodation for senior thesis.
Prerequisite: LIN 3010.

TSL 3360 Introduction to Teaching English as a Second Language 3 Credits
Grading Scheme: Letter Grade
Historical overview of trends in language teaching technology, ranging from communicative approaches to techniques for teaching listening, speaking, reading, and writing. Preparation for instructing small groups and individuals in English language skills.
Prerequisite: Sophomore standing or higher

TSL 3378 Pronunciation for Teaching English as a Second Language 3 Credits
Grading Scheme: Letter Grade
Overview of sound system of North American English and its integration with listening, morphology and spelling. Pronunciation pedagogy based on current theory and practice, as well as diagnostic tools and assessment measures.
Prerequisite: LIN 3010.

TSL 4911 Undergraduate Research in Teaching English as a Second Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Teaching English as a Second Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Teaching English as a Second Language.

TSL 4940 Teaching English as a Second Language Internship 3 Credits
Grading Scheme: Letter Grade
Capstone course available only to undergraduates in TESL certificate program. In cooperation with the English Language Institute, teaching interns observe classes, shadow teachers, review materials and, in teams, create and implement special noncredit short-term courses for English language learners.
Prerequisite: (LIN 3010 and LIN 3680) or LIN 4721 or TSL 3360 or TSL 3378.

Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Management includes faculty members who research and teach in various areas of Management (Organizational Behavior, Human Resource Management, Strategic Management, and Business Law). This vibrant faculty with strong research agendas contribute to important and innovative programs.

- Management

Courses

BUL 4310 The Legal Environment of Business 4 Credits
Grading Scheme: Letter Grade
Introduces the legal environment of business and organizations. Emphasizes public and regulatory law and on the social, political and ethical aspects of legal issues in business. Subjects include the nature of law and legal process; administrative law of contracts and torts; business and the constitution; statutory and common law; contracts and torts; business organizations and securities, antitrust, consumer protection and employment law.
Prerequisite: (ECO 2023 or ENC 1101 or POS 2041) and sophomore or junior standing.

BUL 4443 Ethics in Global Business 2 Credits
Grading Scheme: Letter Grade
Explores issues involving the role of individuals, citizens, business, and government in promoting profitable but responsible commerce and socially beneficial business activity. (WR)
Attributes: Satisfies 4000 Words of Writing Requirement

BUL 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
Requires written report.
Prerequisite: (BUL 4310 and senior standing) or instructor permission.

BUL 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for study in-depth of topics not offered in other courses and of topics of special current significance.
Prerequisite: department permission.

BUL 4956 International Studies in Business Law 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved study abroad program and department permission.

ENT 3003 Principles of Entrepreneurship 4 Credits
Grading Scheme: Letter Grade
Practical, hands-on understanding of the stages of entrepreneurial process. Focus on the decision-making process within a start-up company.

ENT 3503 Introduction to Social Entrepreneurship 2 Credits
Grading Scheme: Letter Grade
Social entrepreneurship involves using the skills and strategies of business to innovatively and sustainably solve social, environmental, and economic problems. The ventures created by social entrepreneurs can be non-profits, for-profits, or innovative hybrid models. This course aims to educate, inspire, and empower students to become changemakers.

ENT 4015 The Venture Accelerator 2 Credits
Grading Scheme: Letter Grade
A team-based, experiential program focused on the start-up process; includes lectures, readings, discussions, workshops, and a team-based project. As deliverables, each team must deliver weekly lessons-learned presentations, complete business canvas updates, and prepare a final presentation.
Prerequisite: ENT 3003 or EGN 4641.

ENT 4614 Creativity and Innovation in the Business Environment 2 Credits
Grading Scheme: Letter Grade
Examination of the creativity process and the organizational environment of several organizations recognized as creative and innovative. Course is organized around class discussions, workshops, projects, both individual and team-based, cases, a field trip and visiting experts. The course is very interactive and is based in experiential learning.
Prerequisite: ENT 3003 or GEB 3113

ENT 4934 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in entrepreneurship-related fields of study.

ENT 4940 Entrepreneurship Practicum 1 Credit
Grading Scheme: Letter Grade
Provides a forum for completing a portfolio of supervised experiential learning activities related to entrepreneurship and the entrepreneurial mindset. Through these activities, students enhance their mastery of such entrepreneurial competencies as opportunity recognition, opportunity assessment, resource leveraging, bootstrapping, risk mitigation, value innovation, and guerrilla behavior.
Prerequisite: admission to the entrepreneurship minor and senior standing.

MAN 3025 Principles of Management 4 Credits
Grading Scheme: Letter Grade
Fundamentals of management underlying the solution of problems of organization and operation of business enterprises. (S)
Prerequisite: ECO 2013, ECO 2023 or AEB 2014, and sophomore standing.
Attributes: General Education - Social Science

MAN 3240 Organizations: Structure and Behavior 4 Credits
Grading Scheme: Letter Grade
Individual group and organizational issues that affect and shape businesses. Topics include individual differences, motivation, communication, decision making, leadership, power, organizational structure and design and change.
Prerequisite: MAN 3025 with a minimum grade of C; business administration and accounting majors only.

MAN 4301 Human Resource Management 4 Credits
Grading Scheme: Letter Grade
Major human resource management functional areas. Topics include organizational employment planning, employment regulation, job analysis, performance assessment, recruitment and selection, training and development, employee/labor relations and compensation.
Prerequisite: MAN 3025 with a minimum grade of C and MAN 3240.

MAN 4723 Strategic Management 4 Credits
Grading Scheme: Letter Grade
Evaluation of the key functions of organizations and integration of these functions to achieve competitive advantages. Topics include strategic formulation, implementation and evaluation.
Prerequisite: MAN 3025 with a minimum grade of C and MAR 3023 and FIN 3403.

MAN 4905 Individual Work in Management 1-5 Credits
Grading Scheme: Letter Grade
Written report is required.
Prerequisite: Senior standing or higher and department permission.

MAN 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for study in-depth of topics not offered in other courses and of topics of special current significance.

MAN 4956 International Studies in Management 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved study abroad program and department permission.

MAN 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for magna cum laude or summa cum laude designations. To qualify, students normally have completed 90 semester credits of coursework (exceptions may be made) and have at least a 3.6 GPA at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's department.
Prerequisite: 90 credits earned and 3.6 UF GPA.

Marketing

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Marketing Department is a recognized leader in the discipline of marketing. For over a decade, the department’s faculty has ranked as one of the most productive and influential in the field, and is known for conducting provocative, cutting-edge research that contributes both to the scientific understanding and practice of marketing.

Curriculum

- Marketing
- Professional Selling Minor
- Retailing Minor

Courses

MAR 2020 Exploring Careers in Marketing 1 Credit
Grading Scheme: S/U
Marketing offers strategic thinkers a pathway to drive value and impact across business and society. This speaker series explores how marketing shapes business decisions, builds memorable brands, and offers diverse career paths. Through insights from industry professionals, you'll discover the many roles marketing offers and learn how to carve your own path in this dynamic field.

MAR 2290 Retail Management Seminar 1 Credit
Grading Scheme: S/U
Weekly lectures feature a different executive making a presentation in their area of expertise. Addresses major issues in retailing. Discussions of retailing career opportunities and career paths.

MAR 2401 Sales Seminar 1 Credit
Grading Scheme: S/U
Overview of selling and managing the sales function to achieve the growth targets of a business; highlights the importance of the sales function in a firm and how it contributes to the achievement of the firm's strategic objectives.

MAR 2951 Special Topics 1-3 Credits
Grading Scheme: S/U
Projects related to business in marketing as approved by the college.

MAR 3023 Principles of Marketing 4 Credits
Grading Scheme: Letter Grade
Functions, institutions and methods of marketing goods and services. Relates marketing to the larger economic structure and emphasizes the importance of the consumer.
Prerequisite: (ECO 2013 or ECO 2023 or AEB 2014) and sophomore standing or higher.
Attributes: General Education - Social Science

MAR 3231 Introduction to Retailing Systems and Management 4 Credits
Grading Scheme: Letter Grade
Functions, institutions and activities of retailing goods and services.
Prerequisite: ACG 2021 and MAR 3023.

MAR 3400 Professional Selling 4 Credits
Grading Scheme: Letter Grade
Basic survey in professional selling. Teaches the importance of the selling role and provides basic professional selling skills; begins the preparation for a future role in sales or sales management.
Prerequisite: MAR 3023.

MAR 3503 Consumer Behavior 4 Credits
Grading Scheme: Letter Grade
Emphasizes both descriptive and conceptual analysis of consumer behavior with a focus on theory and research essential to an understanding of individual choice behavior. Makes intensive use of contributions from the social and behavioral science literatures.
Prerequisite: MAR3023 with a minimum grade of C & STA2023 & QMB3250 & QMB3302.

MAR 4156 International Marketing 4 Credits
Grading Scheme: Letter Grade
Analyzes economic, social and cultural issues affecting marketing management in the international environment.
Prerequisite: ACG 2021 and MAR 3023 with minimum grades of C.

MAR 4232 Retail Consulting 4 Credits
Grading Scheme: Letter Grade
Provides opportunities for working on real retail/marketing problems with clients; gain practical insights into actual retail business operations while performing problem identification, exploration for opportunities, data collection and strategy development. Teams of 4-5 students work with real clients on retail issues and design and execute all phases of the project.
Prerequisite: MAR 3023 with a minimum grade of C and instructor permission.

MAR 4403 Sales Management 4 Credits
Grading Scheme: Letter Grade
Principles, methods, and problems relating to the management of a sales force. Selection and training, organization, compensation and stimulation, and control.
Prerequisite: ACG 2021 and MAR 3023 with minimum grades of C and MAR 3400.

MAR 4613 Marketing Research 4 Credits
Grading Scheme: Letter Grade
Analyzes the role of marketing research in providing information for marketing decisions. Research methods and techniques involved in the development and use of primary and secondary data are emphasized. Topics include survey design, experimental design, data collection (e.g., questionnaires), data analysis, measurement and sampling.
Prerequisite: MAR 3023 with a minimum grade of C and QMB 3250.

MAR 4803 Marketing Management 4 Credits
Grading Scheme: Letter Grade
Development and analysis of overall marketing strategies involving product and brand development, channels of distribution, pricing, and promotion with consideration of marketplace conditions and related factors affecting implementation and execution.
Prerequisite: MAR3023 with a minimum grade of C & MAR3503 & one additional MAR course & QMB3250 & QMB3302.

MAR 4804 Marketing Strategy 4 Credits
Grading Scheme: Letter Grade
Emphasizes analysis, planning, and implementation of marketing strategies. Examines insights into the creative processes involved in applying marketing concepts and knowledge to the development and implementation of strategy. Features a comprehensive marketing simulation exercise and well as detailed analysis of several companies and their marketing strategies.
Prerequisite: MAR 3023

MAR 4832 New Product Development and Management 4 Credits
Grading Scheme: Letter Grade
A structured way of thinking about product development. Students are provided with an up-to-date toolbox for developing and managing new products. Includes hands-on individual assignments and a group project to simulate the development process of a new product or service.
Prerequisite: MAR 3023 with a minimum grade of C.

MAR 4905 Independent Study 1-4 Credits
Grading Scheme: Letter Grade
Opportunity for in-depth study not offered in other courses.
Prerequisite: Senior standing or higher, previous work in the area of research and department permission.

MAR 4933 Special Topics 4 Credits
Grading Scheme: Letter Grade
Selected rotating topics in marketing management, research and theory.
Prerequisite: department permission.

MAR 4941 Sales Internship 1 Credit
Grading Scheme: S/U
Teaches the importance of the sales function in a firm and how the sales function contributes to the achievement of the firm's strategic objectives. Using participative on-the-job learning methods, gain an overview of the sales function in a firm and gain a sense of the reality of business situations, which aids success in virtually any sales-oriented career assignment.
Prerequisite: department permission.

MAR 4945 Retail Management Internship 1-3 Credits
Grading Scheme: S/U
A 10-12 week entry-level retail management internship that requires several papers and reports. Opportunities are available in stores, corporate headquarters and buying offices. Management training experiences in buying, store management, merchandising and customer service.
Prerequisite: MAR 3023 is recommended before registering for this internship.

MAR 4956 International Studies in Marketing 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved study abroad program and department permission.

MAR 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for magna cum laude or summa cum laude designation. To qualify, students normally have completed 90 semester credits of coursework (exceptions may be made) and have at least a 3.6 GPA at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's department.
Prerequisite: 90 credits earned and a 3.6 UF GPA.

Mass Communication

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

JOU 4004 History of Journalism 3 Credits
Grading Scheme: Letter Grade
Origin, development, and potentiality of print and broadcast media. Analyzes the evolution of standards, policies, methods, and controls.
Prerequisite: Sophomore standing or higher.

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources, and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: Journalism and Communications major of junior standing or higher.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: Journalism and Communications major of sophomore standing or higher and (ADV 3008 or MMC 1009 or MMC 2604 or PUR 3000 or RTV 3001 with minimum grade of C).

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans, and study social media strategies.
Prerequisite: sophomore standing or higher.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

Materials Science and Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Courses

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Department permission.

EGS 1006 Introduction to Engineering 1 Credit
Grading Scheme: Letter Grade
Introduces the 11 departments that offer undergraduate degrees at UF. Students break into groups of 20, rotating weekly through each department. During these visits, students participate in hands-on experiments to help them make informed decisions about career alternatives.

EMA 1004 Materials Impact on Society 3 Credits
Grading Scheme: Letter Grade
Discovery and development of specific classes of materials are considered from the perspective of having dramatically altered the course of human history and societies. Materials are presented in historical and technical contexts and considered in terms of their political, financial, health and technology impacts.

EMA 3000L Sophomore Materials Laboratory 1 Credit
Grading Scheme: Letter Grade
Conceptual perspective of the origin of materials behavior and the interrelationships of the materials tetrahedron: structure/property/performance/processing. Conduct experiments on the materials tetrahedron.
Corequisite: EMA 3010.

EMA 3010 Materials 3 Credits
Grading Scheme: Letter Grade
Conceptual perspective for origin of materials behavior and the interrelationships of structure/property/performance. Materials selection and use of familiar material (metals, ceramics, polymers, electronic materials and composites) in electronics and structural and other engineering applications.
Prerequisite: CHM 2045 or CHM 2095.

EMA 3011 Fundamental Principles of Materials 3 Credits
Grading Scheme: Letter Grade
Covers the fundamental principles of structure, reactivity and energies describing materials systems, directly relating individual principles to specific materials properties or functions.
Prerequisite: EMA 3010.

EMA 3013C Materials Laboratory 2 2 Credits
Grading Scheme: Letter Grade
General undergraduate materials laboratory. (WR)
Prerequisite: EMA 3080C.
Attributes: Satisfies 2000 Words of Writing Requirement

EMA 3050 Introduction to Inorganic Materials 3 Credits
Grading Scheme: Letter Grade
Uses, structure, processing and properties of inorganic materials, including metals, alloys and ceramics. Scientific principles are introduced through discussion of developed inorganic materials for high technology applications.
Prerequisite: EMA 3011.

EMA 3066 Introduction to Organic Materials 3 Credits
Grading Scheme: Letter Grade
Uses structure, processing, and properties of organic materials, including polymers, biomacromolecules, and small molecule organic materials. Introduces scientific principles through discussion of developed organic materials for high technology applications.
Prerequisite: EMA 3010 or BME 3101.

EMA 3080C Materials Laboratory 1 2 Credits
Grading Scheme: Letter Grade
First part of the general undergraduate materials laboratory.
Prerequisite: EMA 3000L and EMA 3800.
Attributes: Satisfies 4000 Words of Writing Requirement

EMA 3413 Electronic Properties of Materials 3 Credits
Grading Scheme: Letter Grade
Atomistic and quantum-mechanical description of the electrical, optical, magnetic and thermal properties of materials. Deals with metals, alloys, semiconductors, polymers, dielectrics and amorphous materials with special emphasis given to high technology applications of electronic materials.
Prerequisite: EMA 3011

EMA 3513C Analysis of the Structure of Materials 4 Credits
Grading Scheme: Letter Grade
Laboratory fundamentals of crystallography, x-ray and electron diffraction, scanning and transmission electron microscopy, surface analysis and microprobe techniques.
Prerequisite: EMA 3010.

EMA 3800 Error Analyses and Optimization Methodologies in Materials Research 3 Credits
Grading Scheme: Letter Grade
Statistical approach for materials research, basic and relevant statistical concepts, error analyses, factorial matrices, reducing the variance, nested designs and sampling plans, mixture designs, optimization technology, response surface method and Taguchi.
Corequisite: EMA 3010 and (COP 2271 or COP 2273).

EMA 4020L Metallurgy Laboratory 1 Credit
Grading Scheme: Letter Grade
Concepts, skills, and techniques required for an understanding of metals and metallurgy processing.
Prerequisite: EMA 3050;
Corequisite: EMA 4120.

EMA 4041L Advanced Ceramics Laboratory 1 1 Credit
Grading Scheme: Letter Grade
Forming, drying, firing and testing of traditional ceramics.
Corequisite: EMA 4645.

EMA 4061 Biomaterials: Structure and Properties 3 Credits
Grading Scheme: Letter Grade
Materials commonly used for biomedical application, such as their properties from a biocompatibility or medical device perspective. In addition, materials interactions with biological systems are examined from the molecular (e.g., protein), cellular, tissue and systemic (whole body) perspective. This is the foundation for the second biomaterials course, which applies these principles toward the application of biomaterials in medical implants, prostheses and devices, along with the regulatory issues associated with biomaterials development.
Corequisite: EMA 3066.

EMA 4061L Biomaterials Laboratory 1 Credit
Grading Scheme: Letter Grade
Hands-on laboratory experience in the processing and characterization of biomaterials for use in medical applications.
Corequisite: EMA 4061.

EMA 4062 Biopolymers: Manufacture, Stability and Biocompatibility 3 Credits
Grading Scheme: Letter Grade
Polymer manufacturing processes and biochemical/biophysical behavior are considered from the perspective of achieving those properties needed for the engineering of polymeric implants and devices. Unique economic, ethical and regulatory issues are also presented.
Prerequisite: EMA 3066.

EMA 4120 Physical Metallurgy 1 3 Credits
Grading Scheme: Letter Grade
In-depth discussion of fundamentals of physical metallurgy and principles of microstructure evolution.
Prerequisite: EMA 3050.

EMA 4121 Interfacial Engineering 3 Credits
Grading Scheme: Letter Grade
Correlation of properties, structural and mechanical history, thermal history and service behavior of various interfaces.
Prerequisite: EMA 3050 and EMA 3066 and EMA 3413.

EMA 4125 Kinetics of Materials 3 Credits
Grading Scheme: Letter Grade
Science and application of diffusion and phase transformations in alloys, semiconductors, ceramics, and polymers, phenomenological description and atomic theory, analytical and numerical solutions, solidification and solid-state transformations, including nucleation, growth, and coarsening.
Prerequisite: EMA 4314.

EMA 4144 Physical Ceramics 1 3 Credits
Grading Scheme: Letter Grade
Structure of complex ceramic compounds and glasses. Influence of structural imperfections and stoichiometry on physical characteristics, surface and interfacial phenomena, diffusion and phase transformations in ceramic systems.
Prerequisite: EMA 3050.

EMA 4145 Physical Ceramics 2 3 Credits
Grading Scheme: Letter Grade
Influence of ceramic microstructure on processing. Chemical bonds, surface phenomena, forming energetics, drying and firing kinetics. Diffusion, nucleation, crystal growth, solid-solid and solid-liquid reactions.
Prerequisite: EMA 3050.

EMA 4161 Physical Properties of Polymers 3 Credits
Grading Scheme: Letter Grade
Molecular structure and the physical property relationships for polymers: viscoelastic behavior, the glass transition, thermomechanical and rheological properties, the crystalline and amorphous molecular solid state. Correlation of properties with design engineering of polymer applications. Laboratory section included.
Prerequisite: EMA 3066 and EMA 3513C.

EMA 4161L Polymers Laboratory 1 Credit
Grading Scheme: Letter Grade
Concepts, skills, and techniques required for an understanding of polmer and polymer composite processing.
Corequisite: EMA 4161.

EMA 4223 Mechanical Behavior of Materials 3 Credits
Grading Scheme: Letter Grade
Plastic deformation and fracture of metals and alloys, ceramics and polymers.
Prerequisite: EGM 3520.

EMA 4224 Physical Metallurgy 2 3 Credits
Grading Scheme: Letter Grade
In-depth discussion of fundamentals of alloy design, mechanical properties and failure mechanisms.
Prerequisite: EMA 4120 and EMA 4223.

EMA 4314 Thermodynamics of Materials 3 Credits
Grading Scheme: Letter Grade
Foundations of thermodynamics provided by the thermodynamic laws, variables, and relations, and their applications to materials for equilibrium conditions and phase diagrams.
Prerequisite: EMA 3010 & MAP 2302.

EMA 4324 Stability of Materials 3 Credits
Grading Scheme: Letter Grade
Mechanisms, energetics and kinetics of corrosion and degradation of engineering materials. Economic solutions to degradation problems based upon design and materials selection.
Prerequisite: EMA 4314.

EMA 4414L Electronic Materials Laboratory 1 Credit
Grading Scheme: Letter Grade
Hands-on experience for those specializing in electronic materials. Laboratory topics include characterization of optical and electronic properties of semiconductor materials, electronic devices characterization and semiconductor processing.
Corequisite: EMA 4614.

EMA 4462 Polymer Characterization 3 Credits
Grading Scheme: Letter Grade
Use of a broad variety of spectroscopic and other scattering phenomena in polymer research.
Prerequisite: EMA 3066 or equivalent.

EMA 4614 Production of Electronic Materials 3 Credits
Grading Scheme: Letter Grade
Production of materials for use in solid state electronic devices; nucleation and growth kinetics, solidification of single phase alloys, segregation, dynamics of crystal growth, selection of materials and growth techniques, characterization.
Prerequisite: EMA 3413.

EMA 4615 Compound Semiconductor Materials 3 Credits
Grading Scheme: Letter Grade
Physical properties of technologically important compound semiconductor materials. Epitaxial growth and practical application of compound semiconductor heterostructures.
Prerequisite: EEE 3396C.

EMA 4623 Process Metallurgy 3 Credits
Grading Scheme: Letter Grade
Engineering aspects of mineral processing, including unit operations and flow sheets. Science and technology of metal extraction with applications to specific ferrous and non-ferrous metals.
Corequisite: EMA 4120.

EMA 4645 Processing of Ceramic Materials 3 Credits
Grading Scheme: Letter Grade
Introduces the technology and science of processing ceramic materials, including traditional clay-based ceramics, modern technical ceramics and glasses. Topics include the nature of fine particles, forming methods and consolidation by heat.
Prerequisite: EMA 3050.

EMA 4666 Polymer Processing 3 Credits
Grading Scheme: Letter Grade
Major processing methods for polymers and polymeric composites as related to the rheological behavior of these systems. Synthesis of polymers via industrial processes.
Prerequisite: EMA 3066.

EMA 4714 Materials Selection and Failure Analysis 3 Credits
Grading Scheme: Letter Grade
Philosophy and practice of engineering selection of materials. Case studies in product liability and failure analysis.
Prerequisite: EMA 4223 and EMA 4324.

EMA 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of engineering study.

EMA 4913 Research in Materials Science and Engineering 1 1 Credit
Grading Scheme: Letter Grade
Short research problems in materials science and engineering, usually including a final thesis.

EMA 4914 Research in Materials Science and Engineering 2 3 Credits
Grading Scheme: Letter Grade
Continuation of EMA 4913: short research problems in materials science and engineering, usually including a final thesis.

EMA 4915 Integrated Product and Process Design Program 1 3 Credits
Grading Scheme: Letter Grade
First part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.

EMA 4916 Integrated Product and Process Design Program 2 3 Credits
Grading Scheme: Letter Grade
Second part of the integrated product and process design sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget.

EMA 4935 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences covering selected topics in materials science and engineering.

EMA 4949 Co-Op Work Experience 1 Credit
Grading Scheme: S/U
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations.
Prerequisite: one-term industrial employment, including extra work according to a pre-approved outline.

Mathematics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

About Precalculus and Calculus

A student can receive, at most:

- Four credits for MAC 1147 and MAC 1140
- Four credits for MAC 1147 and MAC 1114
- Five credits for MAC 1140 and MAC 1114
- Five credits for MAC 1147, MAC 1140, and MAC 1114
- If both MAC 2233 and MAC 2311 (or MAC 3472) are taken, credit will be given only for MAC 2311 (or MAC 3472).

Courses

IDS 1480 Mathematics and the Humanities 3 Credits
Grading Scheme: Letter Grade
For more than 3000 years, mathematics has been part of the human quest for knowledge and has helped us to understand the world that surrounds us. From ancient civilizations to our modern societies, mathematical discoveries and applications have constantly shaped the way we comprehend our environment and have given us the methodologies for analyzing and explaining our world. Through the centuries, the reach of mathematics has been extended beyond the physical sciences to practically every area of human endeavor, from industry to philosophy, and from art to politics. This multidisciplinary course explores the humanistic side of mathematics as represented throughout western civilizations and invites students to explore and discover the creative elements that are inherent in it.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

MAA 4102 Introduction to Real Analysis 1 3 Credits
Grading Scheme: Letter Grade
Theory of real numbers, functions of one variable, sequences, limits, continuity and differentiation; continuity and differentiability of functions of several variables. Those who plan to do graduate work in mathematics should take MAA 4211. Credit will be given for, at most, one of MAA 4102, MAA 4211, or MAA 5104.
Prerequisite: (MAC 2313 or MAC 3474) and (MAS 4105 or MAS 3114) with minimum grades of C.

MAA 4103 Introduction to Real Analysis 2 3 Credits
Grading Scheme: Letter Grade
Continues the advanced calculus for engineers and physical scientists sequence. Theory of integration, transcendental functions and infinite series. MAA 4102 is not recommended for those who plan to do graduate work in mathematics; these students should take MAA 4212. Credit will be given for, at most, one of MAA 4103, MAA 4212 and MAA 5105.
Prerequisite: MAA 4102 with minimum grade of C.

MAA 4211 Real Analysis and Advanced Calculus 1 3 Credits
Grading Scheme: Letter Grade
Advanced treatment of limits, differentiation, integration and series. Includes calculus of functions of several variables. Credit will be given for, at most, one of MAA 4211, MAA 4102 and MAA 5104.
Prerequisite: MAS 4105 with minimum grade of B.

MAA 4212 Real Analysis and Advanced Calculus 2 3 Credits
Grading Scheme: Letter Grade
Continues the advanced calculus sequence in limits, differentiation, integration and series. Credit will be given for, at most, one of MAA 4212, MAA 4103 and MAA 5105.
Prerequisite: MAA 4211 with minimum grade of C, taken the previous semester.

MAA 4226 Introduction to Modern Analysis 1 3 Credits
Grading Scheme: Letter Grade
Topology of metric spaces, numerical sequences and series, continuity, differentiation, the Riemann-Stieltjes integral, sequences and series of functions, the Stone-Weierstrass theorem, functions of several variables, Stokes' theorem and the Lebesgue theory. Credit will be given for, at most, MAA 4226 or MAA 5228.
Prerequisite: MAA 4212 with minimum grade of C.

MAA 4227 Introduction to Modern Analysis 2 3 Credits
Grading Scheme: Letter Grade
Continues the modern analysis sequence discussing the topology of metric spaces, numerical sequences and series, continuity, differentiation, the Riemann-Stieltjes integral, sequences and series of functions, the Stone-Weierstrass theorem, functions of several variables, Stokes' theorem and the Lebesgue theory. Credit will be given for, at most, MAA 4227 or MAA 5229.
Prerequisite: MAA 4226 with minimum grade of C, taken the previous semester.

MAA 4402 Functions of a Complex Variable 3 Credits
Grading Scheme: Letter Grade
Complex numbers, analytic functions, Cauchy-Riemann equations, harmonic functions, elementary functions, integration, Cauchy-Goursat theorem, Cauchy integral formula, infinite series, residues and poles, conformal mapping. Credit will be given for, at most, MAA 4402 or MAA 5404.
Prerequisite: (MAC 2313 or MAC 3474) and MAP 2302 with minimum grades of C.

MAC 1105 Basic College Algebra 3 Credits
Grading Scheme: Letter Grade
In this course, students will develop problem solving skills, critical thinking, computational proficiency, and contextual fluency through the study of equations, functions, and their graphs. Emphasis will be placed on quadratic, exponential, and logarithmic functions. Topics will include solving equations and inequalities, definition and properties of a function, domain and range, transformations of graphs, operations on functions, composite and inverse functions, basic polynomial and rational functions, exponential and logarithmic functions, and applications.
Prerequisite: completion of the ALEKS placement exam.
Attributes: General Education - Mathematics

MAC 1114 Trigonometry 2 Credits
Grading Scheme: Letter Grade
Trigonometric functions and their properties and graphs, inverse trigonometric functions and their properties and graphs, trigonometric identities, conditional trigonometric equations, solutions of triangles, and applications.
Attributes: General Education - Mathematics

MAC 1140 Precalculus Algebra 3 Credits
Grading Scheme: Letter Grade
College algebra, functions, coordinate geometry, exponential and logarithmic functions. (M)
Prerequisite: MAC 1105 with a minimum grade of C or (ALEKS >=46%).
Attributes: General Education - Mathematics

MAC 1147 Algebra and Trigonometry 4 Credits
Grading Scheme: Letter Grade
College algebra, functions, coordinates geometry, exponential and logarithmic functions, and trigonometry. This fast-paced course is designed as a review of algebra and trigonometry to prepare the student for calculus. This course assumes prior knowledge of intermediate algebra (algebra 2) and trigonometry.
Prerequisite: ALEKS >=61%, if taken January 1, 2020 or later, or ALEKS >= 50, if taken before January 1, 2020.
Attributes: General Education - Mathematics

MAC 2233 Survey of Calculus 1 3 Credits
Grading Scheme: Letter Grade
Geometric and heuristic approach to calculus; differentiation and integration of simple algebraic and exponential functions; applications to graphing, marginal analysis, optimization, areas and volumes.
Prerequisite: Any of: min acceptable score on the online math placement exam; min grade of C in MAC1140 or higher; AP cr. for MAC2311; IB cr. for MAC1140 or higher. Course grades, AP/IB scores used to meet this prereq must be on file at UF by registration.
Attributes: General Education - Mathematics

MAC 2234 Survey of Calculus 2 3 Credits
Grading Scheme: Letter Grade
Sequences, geometric and Taylor series; systems of linear equations, Gaussian elimination, matrices, determinants and vectors; partial differentiation, multiple integrals; applications to marginal analysis, least-squares and Lagrange multipliers. (M)
Prerequisite: MAC 2233 with minimum grade of C, or the equivalent.
Attributes: General Education - Mathematics

MAC 2311 Analytic Geometry and Calculus 1 4 Credits
Grading Scheme: Letter Grade
In this course, students will develop problem solving skills, critical thinking, computational proficiency, and contextual fluency through the study of limits, derivatives, and definite and indefinite integrals of functions of one variable, including algebraic, exponential, logarithmic, and trigonometric functions, and applications. Topics will include limits, continuity, differentiation and rates of change, optimization, curve sketching, and introduction to integration and area.
Prerequisite: Any of the following: minimal acceptable score on the online mathematics placement exam; a grade of C in a MAC course numbered 1147 or higher; AP credit for MAC 2311; IB credit for a MAC course numbered 1147 or higher. Any course grades, AP or IB scores used to meet this prerequisite must be on file at UF by registration.
Attributes: General Education - Mathematics

MAC 2312 Analytic Geometry and Calculus 2 4 Credits
Grading Scheme: Letter Grade
Techniques of integration; applications of integration; differentiation and integration of inverse trigonometric, exponential and logarithmic functions; sequences and series. (Note: Credit will be given for at most one of MAC 2312, MAC 2512 and MAC 3473.)
Prerequisite: MAC 2311 or MAC 3472 with a minimum grade of C.
Attributes: General Education - Mathematics

MAC 2313 Analytic Geometry and Calculus 3 4 Credits
Grading Scheme: Letter Grade
Solid analytic geometry, vectors, partial derivatives, multiple integrals. (Note: Credit will be given for at most one of MAC 2313 and MAC 3474.)
Prerequisite: MAC 2312 or MAC 2512 or MAC 3473 with a minimum grade of C.
Attributes: General Education - Mathematics

MAC 3472 Honors Calculus 1 4 Credits
Grading Scheme: Letter Grade
Topics covered in the MAC 3472/MAC 3473/MAC 3474 sequence closely parallel those covered in MAC 2311/MAC 2312/MAC 2313, but are treated in greater depth. Credit will be given for, at most, MAC 2311 or MAC 3472.
Prerequisite: strong background in precalculus.

MAC 3473 Honors Calculus 2 4 Credits
Grading Scheme: Letter Grade
Continues the honors calculus sequence. Credit will be given for, at most, one of MAC 2312, MAC 2512 and MAC 3473.
Prerequisite: MAC 3472 or MAC 2311 with a minimum grade of C.

MAC 3474 Honors Calculus 3 4 Credits
Grading Scheme: Letter Grade
Continues the honors calculus sequence. Credit will be given for, at most, MAC 2313 or MAC 3474.
Prerequisite: MAC 2312 or MAC 2512 or MAC 3473 with a minimum grade of C.

MAD 2502 Intro to Computational Math 3 Credits
Grading Scheme: Letter Grade
Introduces mathematical computation and the Python programming language. Emphasizes using mathematical algorithms to solve problems in analysis, number theory, combinatorics, algebra, linear algebra, numerical analysis, and probability.
Prerequisite: MAC 2311 or MAC 3472, minimum grade of C.

MAD 3107 Discrete Mathematics 3 Credits
Grading Scheme: Letter Grade
Logic, sets, functions; algorithms and complexity; integers and algorithms; mathematical reasoning and induction; counting principles; permutations and combinations; discrete probability. Advanced counting techniques and inclusion-exclusion.
Prerequisite: MAC 2312 or MAC 2512 or MAC 3473 with a minimum grade of C.

MAD 4203 Introduction to Combinatorics 1 3 Credits
Grading Scheme: Letter Grade
Permutations and combinations, binomial coefficients, inclusion-exclusion, recurrence relations, Fibonacci sequences, generating functions and graph theory.
Prerequisite: (MAC 2312 or MAC 2512 or MAC 3473) and (MAS 3300 or MHF 3202) with minimum grades of C.

MAD 4204 Introduction to Combinatorics 2 3 Credits
Grading Scheme: Letter Grade
Matching theory, block designs, finite projective planes and error-correcting codes. Does not require MAD 4203.
Prerequisite: (MAC 2312 or MAC 2512 or MAC 3473) and (MAS 3300 or MHF 3202) with minimum grades of C.

MAD 4301 Graph Theory 3 Credits
Grading Scheme: Letter Grade
Theory and applications of graphs including connectivity, planarity, coloration, algorithms, and network flow.
Prerequisite: MAS 3300 with a minimum grade of C or MHF 3202 with a minimum grade of C.

MAD 4401 Introduction to Numerical Analysis 3 Credits
Grading Scheme: Letter Grade
Numerical integration, nonlinear equations, linear and nonlinear systems of equations, differential equations and interpolation.
Prerequisite: MAS 3114 or MAS 4105 with a minimum grade of C and experience with a scientific programming language.

MAP 2302 Elementary Differential Equations 3 Credits
Grading Scheme: Letter Grade
First-order ordinary differential equations, theory of linear ordinary differential equations, solution of linear ordinary differential equations with constant coefficients, the Laplace transform and its application to solving linear ordinary differential equations. (M)
Prerequisite: MAC 2312 or MAC 2512 or MAC 3473 with a minimum grade of C.
Attributes: General Education - Mathematics

MAP 4102 Probability Theory and Stochastic Processes 2 3 Credits
Grading Scheme: Letter Grade
Random walks and Poisson processes, martingales, Markov chains, Brownian motion, stochastic integrals and Ito's formula.
Prerequisite: STA 4321 with a minimum grade of C.

MAP 4305 Differential Equations for Engineers and Physical Scientists 3 Credits
Grading Scheme: Letter Grade
The second course in differential equations. Topics include systems of linear differential equations, stability theory and phase plane analysis, power series solutions of differential equations, Sturm-Liouville boundary-value problems and special functions. Credit will be given for, at most, MAP 4305 or MAP 5304.
Prerequisite: MAP 2302 and (MAS 3114 or MAS 4105 or EGM 3344) with minimum grades of C.

MAP 4314 Dynamical Systems and Chaos 3 Credits
Grading Scheme: Letter Grade
General theory of initial value problems, linear systems and phase portraits, linearization of nonlinear systems, stability and bifurcation theory, an introduction to chaotic dynamics
Prerequisite: MAP 2302 and (MAS 3114 or MAS 4105) with minimum grades of C.

MAP 4341 Elements of Partial Differential Equations 3 Credits
Grading Scheme: Letter Grade
Introduces second-order linear partial differential equations (heat, wave and Laplace equations), separation of variables in PDEs, Sturm-Liouville eigenvalue problems, method of eigenfunction expansions (Fourier analysis) and Green's functions. Possible introduction to first-order PDEs and the method of characteristics. Credit will be given for, at most, MAP 4341 or MAP 5345.
Prerequisite: MAP 2302 and MAP 4305 with minimum grades of C.

MAP 4413 Fourier Analysis 3 Credits
Grading Scheme: Letter Grade
Introduces linear systems and transforms; Laplace, Fourier and Z transforms and their mutual relationship; convolutions. Operational calculus; computational methods including the fast Fourier transform; second-order stationary processes and their autocorrelation functions; and problems of interpolation, extrapolation, filtering and smoothing of second-order stationary processes.
Prerequisite: (MAC 2313 or MAC 3474) and MAP 2302 and (MAS 3114 or MAS 4105) with minimum grades of C.

MAP 4484 Modeling in Mathematical Biology 3 Credits
Grading Scheme: Letter Grade
Mathematical models of biological systems. Topics include models of growth, predator-prey populations, competition, the chemostat, epidemics, excitable systems and analytical tools such as linearization, phase-plane analysis, Poincaré—Bendixson theory, Lyapunov functions and bifurcation analysis.
Prerequisite: MAP 2302 and (MAS 3114 or MAS 4105) with minimum grades of C.

MAS 3114 Computational Linear Algebra 3 Credits
Grading Scheme: Letter Grade
Linear equations, matrices and determinants. Vector spaces and linear transformations. Inner products and eigenvalues. Emphasizes computational aspects of linear algebra.
Prerequisite: MAC 2312, MAC 2512 or MAC 3473 with a minimum grade of C and experience with a scientific programming language.

MAS 4105 Linear Algebra 1 4 Credits
Grading Scheme: Letter Grade
Linear equations, matrices, vector spaces, linear transformations, determinants, eigenvalues and inner-product spaces. Includes both theory and computational skills. Develops the ability to reason through, and coherently write, proofs of theorems. For math majors, this course serves as a transition from a study of techniques into more conceptual math; for engineering and science majors, it serves also as a coherent foundation in linear algebra.
Prerequisite: (MAC 2313 or MAC 3474) and (MAS 3300 or MHF 3202) with minimum grades of C.

MAS 4115 Linear Algebra for Data Science 3 Credits
Grading Scheme: Letter Grade
A second course in linear algebra, focusing on topics that are the most essential for data science. Introduces theory and numerical methods required for large data-sets and machine learning. Topics include LU, QR, and singular-value decompositions; conditioning and stability; the DFT and filters; deep learning; fully connected and convolutional nets.
Prerequisite: (MAS 3114 or MAS 4105) and MAC 2313.

MAS 4203 Introduction to Number Theory 3 Credits
Grading Scheme: Letter Grade
Introduces elementary number theory and its applications to computer science and cryptology. Divisibility, primes, Euclidean Algorithm, congruences, Chinese Remainder Theorem, Euler-Fermat Theorem and primitive roots. Selected applications to decimal fractions, continued fractions, computer file storage and hashing functions, and public-key cryptography.
Prerequisite: MAC 2312 and (MAC 2512 or MAC 3473) with a minimum grade of C; MAS 3300 recommended.

MAS 4301 Abstract Algebra 1 3 Credits
Grading Scheme: Letter Grade
Sets and mappings, groups and subgroups, homomorphisms and isomorphisms, permutations, rings and domains, arithmetic properties of domains, and fields. Requires facility in writing proofs.
Prerequisite: (MAS 3300 or MHF 3202 with a minimum grade of B) or MAS 4105 with a minimum grade of C.

MAS 4302 Abstract Algebra 2 3 Credits
Grading Scheme: Letter Grade
A second course in Abstract Algebra, focusing on Galois Theory, the algebraic theory of fields and polynomial equations. Introduces concepts of abstract algebra used in settling famous historical problems including the problems of angle trisection and duplication of cubes by ruler and compass constructions, and the insolubility of polynomial equations of the fifth degree by radicals.
Prerequisite: MAS 4301.

MAT 1090 The Narratives of Numbers 3 Credits
Grading Scheme: Letter Grade
Uses both numbers and narratives to offer different ways to examine life. Explores how numbers shape the stories told about cultural and social life in the Western canon. Students use logic, statistics, and reasoning to study how algorithms influence online communication and big data, while also exploring humanistic theories on numerology, social media algorithms, and storytelling with data.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

MAT 3503 Functions and Modeling 3 Credits
Grading Scheme: Letter Grade
Group activities strengthen knowledge of secondary mathematics, especially topics from precalculus and the transition to calculus, including contexts that can be modeled using linear, exponential, polynomial or trigonometric functions. Topics include conic sections, parametric equations and polar equations. Explorations involve multiple representations, transformations and data analysis techniques, and are facilitated by various technologies.
Prerequisite: MAC 2311 and UFTeach Step 1.
Corequisite: MAC 2312.

MAT 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Special topics not obtainable in regular course offerings.
Prerequisite: MAC 2313 or MAC 3474 with a minimum grade of C and undergraduate coordinator permission.

MAT 4911 Undergraduate Research in Mathematics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in mathematics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in mathematics.

MAT 4930 Special Topics in Mathematics 1-3 Credits
Grading Scheme: Letter Grade
Qualified undergraduates take part in seminars or classes on special topics.
Prerequisite: undergraduate coordinator permission.

MAT 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

MGF 1106 Mathematics for Liberal Arts Majors 1 3 Credits
Grading Scheme: Letter Grade
For non-science and non-business majors. Includes an introduction to set theory, logic, number theory, probability, statistics, graphing, and linear programming.

MGF 1107 Mathematics for Liberal Arts Majors 2 3 Credits
Grading Scheme: Letter Grade
Demonstrates the beauty and utility of mathematics through topics which include financial management, linear and exponential growth, mathematics in the arts, and discrete mathematics. Does not require MGF 1106.

MGF 1130 Mathematical Thinking 3 Credits
Grading Scheme: Letter Grade
In this course, students will utilize multiple means of problem solving through student-centered mathematical exploration. The course is designed to teach students to think more effectively and increase their problem-solving ability through practical application and divergent thinking. This course is appropriate for students in a wide range of disciplines/programs.
Attributes: General Education - Mathematics

MHF 1420 Mathematics In the Arts and Architecture of Ren. Italy 3 Credits
Grading Scheme: Letter Grade
Examines pivotal role of mathematics in shaping aesthetics, design, and innovation in art, architecture, music, and gardens of Italy from 1300-1600 AD. Compares these representations to those found in the Western canon and beyond.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

MHF 3202 Reasoning and Proof in Mathematics 3 Credits
Grading Scheme: Letter Grade
Fundamentals of logic, set theory, and proof techniques. Topics include propositional and predicate logic, set operations, functions, relations, mathematical induction, and proof strategies. Emphasis on analyzing, constructing, and writing rigorous mathematical arguments with clarity and precision.
Prerequisite: MAC 2312 with a minimum grade of C.

MHF 4102 Elements of Set Theory 3 Credits
Grading Scheme: Letter Grade
Basic axioms and concepts of set theory. Students present proofs. Credit will be given for, at most, MHF 4102 or MHF 5107.
Prerequisite: MAS 4105 with a minimum grade of C.

MHF 4203 Foundations of Mathematics 3 Credits
Grading Scheme: Letter Grade
Models and proofs. Foundations of real and natural numbers, algorithms, Turing machines, undecidability and independence. Examples and applications in algebra, analysis, geometry and topology. Credit will be given for, at most, MHF 4203 or MHF 5207.
Prerequisite: MAS 4105 with a minimum grade of C.

MTG 3212 Geometry 3 Credits
Grading Scheme: Letter Grade
Axiomatic treatment of topics in Euclidean, non-Euclidean, projective geometry and (time permitting) fractal geometry. Particularly useful for prospective secondary-school mathematics teachers.
Prerequisite: MAC 2312 and (MAC 2512 or MAC 3473 with a minimum grade of C).

MTG 4302 Elements of Topology 1 3 Credits
Grading Scheme: Letter Grade
Basic concepts of general topology. Credit will be given for, at most, MTG 4302 or MTG 5316.
Prerequisite: MAS 4105 with a minimum grade of C.

MTG 4303 Elements of Topology 2 3 Credits
Grading Scheme: Letter Grade
Continues the basic concepts of general topology. Credit will be given for, at most, MTG 4303 or MTG 5317.
Prerequisite: MTG 4302 with a minimum grade of C.

Mechanical & Aerospace Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Mechanical & Aerospace Engineering (MAE) graduates many exceptional mechanical and aerospace engineers each year. The Mechanical Engineering program celebrated its 100 year anniversary in 2009 and is one of the founding departments of the Herbert Wertheim College of Engineering. Starting within mechanical as an aeronautical option, the Aeronautical Engineering program was founded in 1946. It grew to become the Aerospace Engineering program, which merged with Engineering Science and Mechanics in 1969. All these programs united (or reunited) in 2002. Going strong into the 21st century, MAE remains a vibrant and intellectually diverse program at both the undergraduate and graduate levels.

Curriculum

- Aerospace Engineering
- Biomechanics Minor
- Combination Degrees
- Mechanical Engineering
- Sustainable and Resilient Energy Engineering Certificate

The prerequisites for all courses offered by the Department of Mechanical and Aerospace Engineering may require classification as a student in good standing in aerospace engineering, mechanical engineering, and/or another engineering program for which the particular course is required.

Courses

ATT 2100 Learn to Fly 3 Credits
Grading Scheme: Letter Grade
Science and engineering of flight. Preparation for FAA private pilot written exam. Underlying engineering principles of design, operation, and construction of aircraft. Aerodynamics, aerospace materials, structures, propulsion, aircraft instrumentation, stability and control, flight planning, safe aircraft operation, and pilot physiology.
Prerequisite: PHY 2048 with a minimum grade of C.

EAS 2011 Introduction to Aerospace Engineering 3 Credits
Grading Scheme: Letter Grade
Overview of aerospace engineering. Standard atmosphere, basic aerodynamics, airplane performance, stability and control, propulsion, and space flight.
Prerequisite: PHY 2048 or PHY 2060, with minimum grade of C.

EAS 4101 Aerodynamics 3 Credits
Grading Scheme: Letter Grade
Incompressible aerodynamics, integral and differential governing equations, potential flow, boundary layers, airfoils, wings, numerical techniques.
Prerequisite: (EAS 2011 or EAS 3020C or EGN 3353C) and COP 2271 and EML 3100 and MAC 2313 and MAP 2302 with minimum grades of C.

EAS 4132 Compressible Flow 3 Credits
Grading Scheme: Letter Grade
One-dimensional and quasi one-dimensional compressible fluid flows. Includes mach waves, normal shocks, oblique shocks, Prandtl-Meyer expansions, isentropic flow with area change, Fanno flow and Rayleigh flow.
Prerequisite: EAS 4101 or EGN 3353C

EAS 4200 Aerospace Structures 3 Credits
Grading Scheme: Letter Grade
Review of plane states of stress and strain. Includes analysis of thin-walled beams with open and closed section, unsymmetrical bending of wing sections, torsion of skin-stringer and multi-cell sections, flexural shear in open and closed sections, Shear Center and failure criteria. Also includes introduction to composite materials and demonstration of behavior of some simple structural elements.
Prerequisite: EGM 3520 with minimum grade of C.

EAS 4240 Aerospace Composites 3 Credits
Grading Scheme: Letter Grade
Various types and applications of structural composites used in flight structures. Also includes an introduction to analysis of structural composites.
Prerequisite: EGM 3520 with minimum grade of C .

EAS 4300 Aerospace Propulsion 3 Credits
Grading Scheme: Letter Grade
Basics of air-breathing and rocket engines used in flight systems.
Prerequisite: EAS 4132.

EAS 4400 Stability and Control of Aircraft 3 Credits
Grading Scheme: Letter Grade
Static stability and control, equations of motion, stability derivatives, stability of longitudinal and lateral motion of aircraft.
Prerequisite: EAS 4101 and EML 4312.

EAS 4412 Dynamics and Control of Space Vehicles 3 Credits
Grading Scheme: Letter Grade
Review of aerospace applications in current guidance and control systems. Includes synthesis of open and closed loop guidance and control systems using classical and modern control theory.
Prerequisite: MAP 4305 or MAP 5304.

EAS 4510 Astrodynamics 3 Credits
Grading Scheme: Letter Grade
Introduces the solar system. Includes study of two-body motion, Hohmann transfer, patched conics for interplanetary and lunar trajectories, and the restricted three-body problem. Also includes an introduction to powered flights and artificial satellite orbits.
Prerequisite: EGM 3401 with minimum grade of C and (MAP 4305 or MAP 5304).

EAS 4530 Space Systems Design 3 Credits
Grading Scheme: Letter Grade
A discussion of the component systems of a spacecraft and a typical mission's requirements. The operation and character of different spacecraft hardware is presented as well as typical mission timelines from early conception to final operations. Topics include the space environment, guidance/control/navigation systems, spacecraft sensors and actuators, propulsion systems, thermal systems, power systems, launch systems, communication systems, structural systems and mission operations. This course is useful to engineers, scientists, computer scientists and any profession that uses data.
Prerequisite: EAS 4510.

EAS 4700 Aerospace Design 1 3 Credits
Grading Scheme: Letter Grade
Applications of the principles of analysis and design to aerospace vehicles. Emphasizes astronautics.
Prerequisite: EAS 4510 and EML 4312 and EGM 3520.

EAS 4710 Aerospace Design 2 3 Credits
Grading Scheme: Letter Grade
Applications of the principles of analysis and design to aerospace vehicles. Emphasizes aeronautics.
Prerequisite: EAS 4101 and EAS 4400 and EGM 3520.

EAS 4810C Aerospace Sciences Lab and Design 3 Credits
Grading Scheme: Letter Grade
Experimental investigations of aerospace engineering systems. Wind tunnel testing. Design project with experimental validation.
Prerequisite: EAS 4101 and EAS 4132 and EML 3301C.

EAS 4905 Individual Study in Aerospace Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of engineering study.
Prerequisite: department chair recommendation.

EAS 4912 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
The first of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EAS 4101 and EGM 3520 and EML 3301C.

EAS 4913 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
The second part of the integrated design sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget.
Prerequisite: EAS 4912.

EAS 4939 Special Topics in Aerospace Engineering 1-4 Credits
Grading Scheme: Letter Grade
Special topics in aerospace engineering.
Prerequisite: Engineering major of junior standing or higher.

EAS 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Practical engineering work under industrial supervision, as set forth in the college regulations.
Prerequisite: Engineering major of sophomore standing or higher.

EGM 2511 Engineering Mechanics: Statics 3 Credits
Grading Scheme: Letter Grade
Reduction of force systems, equilibrium of particles and rigid bodies, vector methods and their application to structures and mechanisms.
Prerequisite: PHY 2048;
Corequisite: MAC 2313.

EGM 3344 Introduction to Numerical Methods of Engineering Analysis 3 Credits
Grading Scheme: Letter Grade
Methods for numerical solution of mathematical problems with emphasis on engineering applications using MATLAB. Includes roots, optimization, linear algebraic equations, matrices, curve fitting, differentiation, integration and ordinary differential equations.
Prerequisite: MAC 2313 and COP 2271;
Corequisite: MAP 2302.

EGM 3401 Engineering Mechanics: Dynamics 3 Credits
Grading Scheme: Letter Grade
Kinematics and dynamics of particles and rigid bodies in one, two, and three dimensions. Work-energy and impulse-momentum concepts.
Prerequisite: EGM 2511 and MAC 2313.

EGM 3520 Mechanics of Materials 3 Credits
Grading Scheme: Letter Grade
Stress and strain at a point, stress-strain-temperature relations and mechanical properties of materials. Systems subject to axial load, torsion and bending. Design concepts, indeterminate structures and applications.
Prerequisite: EGM 2511 and MAC 2313.

EGM 4585 Modeling and Control of Biomolecular Machines 3 Credits
Grading Scheme: Letter Grade
Overview of biomolecular systems engineering. Introduction to cell processes, biochemical kinetics, models of biological macromolecules, analyses of biomolecular dynamics, simulation of stochastic behaviors, common gene regulatory network motifs, and the design of synthetic biology circuits.
Prerequisite: MAP 2302 with a minimum grade of C.

EGM 4590 Biodynamics 3 Credits
Grading Scheme: Letter Grade
Dynamic analysis of the human musculoskeletal system. Includes development of lumped mass, planar rigid body and 3-D rigid body models of human movement. Also includes calculation of internal forces in muscles and joints and analysis of muscle function using dynamics principles and musculoskeletal geometry.
Prerequisite: EGM 3400 or EGM 3401, or instructor permission.

EGM 4592 Bio-Solid Mechanics 3 Credits
Grading Scheme: Letter Grade
Introduction to solid and fluid mechanics of biological systems. Includes rheological behavior of materials subjected to static and dynamic loading, the mechanics of cardiovascular, pulmonary and renal systems, and the mathematical models and analytical techniques used in biosciences.
Prerequisite: EGM 3520.

EGM 4853 Bio-Fluid Mechanics and Bio-Heat Transfer 3 Credits
Grading Scheme: Letter Grade
A study of biothermal fluid sciences with an emphasis on the physiological processes occurring in human blood circulation and the underlying mechanisms from an engineering prospective.
Prerequisite: EGN 3353C.

EGN 3353C Fluid Mechanics 3 Credits
Grading Scheme: Letter Grade
Statics and dynamics of incompressible fluids. Application to viscous and inviscid flows. Dimensional analysis. Compressible flow.
Prerequisite: MAC 2313 with a minimum grade of C and EGM 2511 and (EML 3100 or EML 3007 or BME 3060).

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Department permission.

EMA 4450 Li-ion Next Generation Batteries 3 Credits
Grading Scheme: Letter Grade
Qualities and reactions that characterize Li-ion batteries and other electrochemical cells. Emphasis on mechanical properties. Li-ion and Sodium-ion batteries, fuel cells, capacitors, and hydrogen storage.
Prerequisite: EGM 3520 with a minimum grade of C and EMA 3010.

EML 2023 Computer Aided Graphics and Design 3 Credits
Grading Scheme: Letter Grade
Sketching, descriptive geometry, computer graphics, computer aided drafting and design projects.

EML 2322L Design and Manufacturing Laboratory 2 Credits
Grading Scheme: Letter Grade
Study and application of design, problem formulation, conceptual design, prototype development. Study of common manufacturing processes.
Prerequisite: EML2023 & (Aerospace Engineering or Mechanical Engineering major).

EML 2920 Department and Professional Orientation 1 Credit
Grading Scheme: Letter Grade
Principles of mechanical and aerospace engineering practice, professional standards, engineering ethics.

EML 3005 Mechanical Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Design process, kinematics, gear trains, and standard mechanical components.
Prerequisite: COP 2271 and EML 2322L and EGM 3520 with a minimum grade of C and EGM 3401 with a minimum grade of C.

EML 3100 Thermodynamics 3 Credits
Grading Scheme: Letter Grade
Application of the first and second laws of thermodynamics to closed and open systems and to cyclic heat engines. Includes the development of procedures for calculating the properties of multiphase and single-phase pure substances.
Prerequisite: (CHM 2045 or CHM 2095) and MAC 2313 and PHY 2048.

EML 3301C Mechanics of Materials Laboratory 3 Credits
Grading Scheme: Letter Grade
Experimental characterization of the mechanical properties of engineering materials, precision instruments, computer-based data acquisition, statistical uncertainty analysis, preparation of engineering reports.
Prerequisite: EMA 3010 and (EGM 3520 with a minimum grade of C) and COP 2271 and (ENC 2256)
Attributes: Satisfies 6000 Words of Writing Requirement

EML 4140 Heat Transfer 3 Credits
Grading Scheme: Letter Grade
Steady state and transient analysis of conduction and radiation heat transfer in stationary media. Also discusses heat transfer in fluid systems, including forced and free convection.
Prerequisite: MAP 2302 with minimum grade of C and (EAS 4101 or EGN 3353C).

EML 4147C Thermal Sciences Design and Laboratory 3 Credits
Grading Scheme: Letter Grade
Thermodynamics, fluid mechanics, and heat transfer integrated with design and laboratory.
Prerequisite: EML 3100 with a minimum grade of C and EML 3301C and EML 4140.

EML 4220 Vibrations 3 Credits
Grading Scheme: Letter Grade
Single and multiple degree of freedom systems, including application to mechanical systems with problems employing computer techniques.
Prerequisite: EGM 3344 and EGM 3401 and EGM 3520 and MAP 2302 with minimum grades of C.

EML 4285 Off-Highway Vehicle Design 3 Credits
Grading Scheme: Letter Grade
Design of off-highway vehicles and off-highway vehicle subsystems. Vehicle concepts, chassis, engines, transmissions, hydraulics. International perspectives.
Prerequisite: EGM 3520 with a minimum grade of C.

EML 4292 Microfluidics and BioMEMS 3 Credits
Grading Scheme: Letter Grade
Introduction to concepts of miniaturization, materials, and methods for microfabrication, principles of microfluidics, and biological applications of microfluidic devices and biomedical microelectromechanical systems.
Prerequisite: EGN 3353C

EML 4312 Control of Dynamic Systems 3 Credits
Grading Scheme: Letter Grade
Theory, analysis and design of control systems, including mechanical, electromechanical, hydraulic, pneumatic, thermal, and aerospace components and systems.
Prerequisite: EGM 3401 and EGM 3344 and MAP 2302 with minimum grades of C.

EML 4314C Dynamics and Controls System Design Laboratory 3 Credits
Grading Scheme: Letter Grade
Experiments on dynamic systems in mechanical and aerospace engineering and design of relevant control systems.
Prerequisite: EML 3301C and EML 4312.

EML 4321 Manufacturing Engineering 3 Credits
Grading Scheme: Letter Grade
Traditional and nontraditional manufacturing processes and equipment. Application of engineering analysis tools to manufacturing.
Prerequisite: EMA 3010 and EML 2322L and EML 3005.

EML 4416 Solar Energy Utilization 3 Credits
Grading Scheme: Letter Grade
Fundamentals of solar radiation; basic heat transfer and thermodynamic topics with solar engineering applications; solar concentrating devices and flat plate solar absorbers; state of the art solar technologies, thermal storage, concentrating power generation systems, thermochemical storage, electrochemical storage technologies, photovoltaic systems.
Prerequisite: EML 3100 or equivalent.

EML 4450 Energy Conversion 3 Credits
Grading Scheme: Letter Grade
Thermomechanical and thermoelectric energy conversion, conventional and unconventional techniques, and analysis of energy systems interactions.
Prerequisite: EML 3100 with a minimum grade of C and EGN 3353C and EML 4140.

EML 4461 Industrial Energy Management 3 Credits
Grading Scheme: Letter Grade
Fundamentals of energy management: energy-policy-development, equipment energy usage (electric and thermal), process and equipment efficiencies, analyze industrial processes and optimize their energy use. Critical evaluation of new technology for use from technical and economical perspectives.
Prerequisite: EML 3100.

EML 4500C Reengineering Historic Machinery 3 Credits
Grading Scheme: Letter Grade
Studies historic commercial machine or vehicle, including theory of operation, embedded engineering principles, and design. Reengineering and design of enhancements. Laboratory includes disassembly, observation of characteristics and conditions, implementation of enhancements, and rebuilding.
Prerequisite: EML 2322L and EML 3005 and EML 3100 with minimum grades of C.

EML 4501 Mechanical Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Integrated design and presentation of a mechanical system.
Prerequisite: EML 4140 & EGN 3353C & EML 2322L & EML 3005 & (EGM 3401 with a minimum grade of C).

EML 4502 Mechanical Engineering Design 3 3 Credits
Grading Scheme: Letter Grade
Design and realization of a mechanical engineering system, component, or process subject to appropriate standards and constraints. Team project.
Prerequisite: EML 4501 or EAS 4700 or EAS 4710;
Corequisite: EML 4321.

EML 4507 Finite Element Analysis and Design 3 Credits
Grading Scheme: Letter Grade
Stress-strain analysis and design of machine elements and finite element analysis.
Prerequisite: EGM 3344 and EGM 3520 and MAP 2302 with minimum grades of C.

EML 4535C Automation in Production Engineering 3 Credits
Grading Scheme: Letter Grade
Design and manufacturing using computer numerical control (CNC) and automated techniques. Use of modern Computer Aided Manufacturing (CAM) methods to establish setup and manufacturing sequence. Focus on meeting functional, material, and tolerance requirements for each part of an assembly.
Prerequisite: EML 4501.

EML 4600 Refrigeration and Air Conditioning Fundamentals 3 Credits
Grading Scheme: Letter Grade
Fundamentals of refrigeration theory, vapor compression and absorption, refrigeration components and systems, psychrometric theory, analysis of cooling and dehumidifying coils.
Prerequisite: EML 3100.

EML 4601 Heating and Air Conditioning System Design 3 Credits
Grading Scheme: Letter Grade
Heating and air conditioning systems: equipment selection, system arrangement, load calculations, advanced psychrometrics, duct and piping system design, air distribution system design and indoor air quality.
Prerequisite: EML 3100.

EML 4722 Introduction to Computational Fluid Dynamics 3 Credits
Grading Scheme: Letter Grade
General theory, skepticism, and practice of computational fluid dynamics. Computational grids and generation, boundary conditions, fluid dynamics, numerical methods, visualization, turbulence modelling, and various special topics.
Prerequisite: EAS 4101 or EGN 3353C

EML 4737 Hydronics and Pneumatics for Building Systems 3 Credits
Grading Scheme: Letter Grade
Applications, design, maintenance and operations of various pneumatic, hydronic and other process systems. Includes in-depth design concepts and techniques as well as preparation of specifications and cost estimates.
Prerequisite: EGN 3353C.

EML 4842 Autonomous Vehicles 3 Credits
Grading Scheme: Letter Grade
Methods and apparatus to automate vehicle navigation. Integration of sensors such as global positioning system (GPS), light detection and ranging (LIDAR), position encoders, inertial measurement units (IMU). Vehicle propulsion and steering. Python programming language, Linux operating system, robot operating system (ROS, ROS2). Autonomous navigation, obstacle avoidance, path planning, dead reckoning, vehicle localization.
Prerequisite: COP 2271 or COP 2273 or COP 2274.

EML 4905 Individual Study in Mechanical Engineering 1-3 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of engineering study.
Prerequisite: 2.3 UF GPA and department permission.

EML 4912 Integrated Product and Process Design 1: Mechanical Engineering 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EGN 3353C and EGM 3401 and EML 3005 and EML 3301C.

EML 4913 Integrated Product and Process Design 2: Mechanical Engineering 3 Credits
Grading Scheme: Letter Grade
The second part of the integrated design sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget.
Prerequisite: EML 4912.

EML 4914 Undergraduate Realization Thesis 3 Credits
Grading Scheme: Letter Grade
Individualized study that realizes a design under the supervision of a faculty mentor. Realization considers all steps in the design process with major focus on prototyping, testing, evaluation, and optimization. The student produces a written thesis that is defended orally.
Prerequisite: EML4501 or EAS4700 or EAS4710.

EML 4926 Mechanical Consulting Practice 3 Credits
Grading Scheme: Letter Grade
Synthesis and analysis of mechanical engineering systems, planning and execution of engineering contracts, and supervision of construction and tests.
Prerequisite: Senior standing or higher.

EML 4930 Special Topics in Mechanical Engineering 1-3 Credits
Grading Scheme: Letter Grade
Variable content in mechanical engineering not offered in other courses.
Prerequisite: Engineering major of junior standing or higher.

EML 4945 Practical Work in Mechanical Engineering 1 Credit
Grading Scheme: S/U
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations.
Prerequisite: Engineering major with a 2.0 UF GPA.

EML 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Practical co-op work experience under approved industrial supervision.
Prerequisite: Engineering major with a 2.0 UF GPA.

Media Production, Management, and Technology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Media Production, Management, and Technology program is one of the most comprehensive in the country, with complete specializations in Digital Film and Video Production, Management and Strategy, and Media and Society.

Curriculum

- Combination Degrees
- Media Production, Management, and Technology
- Media Production, Management, and Technology | Media and Society UF Online

---

Students who have not been admitted to the College of Journalism and Communications must have a 3.0 overall grade point average to enroll in any course other than RTV 2100, RTV 3405, RTV 3601, and RTV 4420.

Entry into the broadcast news sequence is limited to students in the Department of Telecommunication who have taken a competitive entrance exam. Contact the department office for the examination date.

Courses

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources, and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 2740 Introduction to Media and Sports 1 Credit
Grading Scheme: Letter Grade
Introduces careers in sports media, including sports journalism and sports communications, sports social media, entrepreneurship in sports, and working for a sports team.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: Journalism and Communications major of junior standing or higher.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: Journalism and Communications major of sophomore standing or higher and (ADV 3008 or MMC 1009 or MMC 2604 or PUR 3000 or RTV 3001 with minimum grade of C).

MMC 3210 Sports Media Law and Ethics 3 Credits
Grading Scheme: Letter Grade
Instruction and analysis of laws, cases and legal and ethical issues related to sports and media. Gain a working knowledge of legal and ethical issues and recent court decisions, and develop critical analytical perspectives on actual examples of recent sports media legal and ethical problems.
Prerequisite: junior standing or higher.

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans, and study social media strategies.
Prerequisite: sophomore standing or higher.

MMC 3260 Communications on the Internet 3 Credits
Grading Scheme: Letter Grade
History, development, and current state of online communications from teletext to the World Wide Web. Focuses on how online services relate to mass media in the past, present, and future. Analyzes content methods, audiences, and income sources. Create online projects related to mass communication.
Prerequisite: Journalism and Communications major of junior standing or higher or instructor permission.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

MMC 3614 Media and Politics 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of the role of the media in the political system. Topics include televised debates, political advertising, political journalism, internet, and alternative media.
Prerequisite: Junior standing or higher.

MMC 3630 Social Media and Society 3 Credits
Grading Scheme: Letter Grade
Examines the impact of social media on public relations, advertising, journalism, privacy, entertainment, and politics. Discusses the positives of social media and how they can be used for the social good, while also recognizing their dangers.
Prerequisite: junior standing or higher.

MMC 4302 World Communication Systems 3 Credits
Grading Scheme: Letter Grade
Delves into the historical roots, technology, and trends shaping global communication systems. Equips students to analyze media tools and approaches worldwide.
Prerequisite: Junior standing or higher.

RTV 2100 Media Writing 3 Credits
Grading Scheme: Letter Grade
Provides fundamental instruction and practice in media writing, and the impact of the media on society. The course focuses on persuasive writing and content creation for movies, television, audio stories, long-from online writing, and writing for online and social media. Additional emphasis examines the use of persuasive writing in branding and networking.
Prerequisite: 6 credits of English composition & sophomore standing or above.

RTV 2251 Digital Video Operations and Optics 2 Credits
Grading Scheme: Letter Grade
Professional video plays a critical role in shaping the communications landscape, enabling the creation of compelling narratives in film, streaming series, sports, and branded content. This course introduces students to the world of professional video aesthetics and techniques, including camera operations, internal recording systems, and lenses. By the end of it, students will have developed skills in cinematic composition and camera settings, preparing them for careers in visual storytelling.
Prerequisite: RTV 2517 must be taken as a pre-req or co-req.

RTV 2405 Media and Society 2 Credits
Grading Scheme: Letter Grade
Explores the impact of the media on individuals, society, and culture. Challenges students to think critically about the media with an emphasis on developing media literacy skills.

RTV 2517 Concepts in Visual Storytelling 3 Credits
Grading Scheme: Letter Grade
At the intersection of storytelling and visual communication lies a powerful set of tools for engaging audiences, transmitting ideas, and encouraging new perspectives. In this course, students will discover how the human affinity for character and story can be used as a conduit for effective visual communication. They will also gain experience with some of the essential software tools used by professional visual storytellers.

RTV 2572 Video Editing for Storytellers 2 Credits
Grading Scheme: Letter Grade
All content creation students must grasp the aesthetics and technical aspects of video editing to shape effective visual storytelling. Video Editing for Storytellers covers essential terminology, applications, and processes for narrative, documentary, and branded content. Explore Adobe Premiere's tools, aesthetic choices, workflows, and color correction/grading techniques.
Prerequisite: RTV 2517 (or Coreq).

RTV 3001 Introduction to Media Industries and Professions 3 Credits
Grading Scheme: Letter Grade
Introduces the cultural, social, legal, business, and career aspects of the media industry.
Prerequisite: Sophomore standing or higher.

RTV 3002 Understanding Audiences 3 Credits
Grading Scheme: Letter Grade
Overview of the nature of media audiences and their behaviors, as well as industry measurement practices and applications.
Prerequisite: junior standing or higher.

RTV 3101 Fiction/Nonfiction Screenwriting 3 Credits
Grading Scheme: Letter Grade
Provides an overview of the principles of scriptwriting. Instructs students in how to apply these principles through practical application (such as documentary/docudrama and fiction, including feature films and television genres).
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3001 with minimum grades of C and MPMT major of sophomore standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

RTV 3108 Screen Writing and Film Producing 2 Credits
Grading Scheme: Letter Grade
Learn essential mechanics of screenwriting and the transformation of written script to motion picture to prepare for careers in the film, streaming, television, marketing, and branding industries.
Prerequisite: RTV 3511 with a minimum grade of C.

RTV 3311 Sound Recording and Design 2 Credits
Grading Scheme: Letter Grade
Essential skills in sound design, mixing, and editing to prepare for careers in film, television, branded content, gaming, and music.
Prerequisite: RTV 2517 must be taken as a pre-req or co-req course.

RTV 3320 Single-Camera Production 3 Credits
Grading Scheme: Letter Grade
Instruction in the use of digital audio and film production tools as well as the fundamentals of effective visual storytelling in documentary and narrative filmmaking.
Prerequisite: RTV 3101 and RTV 3511 with minimum grades of C.

RTV 3330 Documentary Prep 2 Credits
Grading Scheme: Letter Grade
Hone skills essential to the production of non-fiction narratives, specifically documentary films. Emphasizes planning and structuring documentary productions as well as adding to the production and post-production technical skills practiced in earlier coursework. Experience hands-on instruction in advanced camera work, lighting, and audio. In addition, there is an emphasis on effective communication through visual storytelling.
Prerequisite: RTV 3511 with a minimum grade of C.

RTV 3404 Islam, Media, and Popular Culture 3 Credits
Grading Scheme: Letter Grade
Examines the portrayal of Islam and how Muslims are portrayed in media, including print journalism, photo journalism, television journalism and in pop culture through television shows and films. Students will analyze how Muslims are portrayed through data, research and examples, and create projects in each of these mediums with Muslim subjects.
Prerequisite: Junior standing or higher.

RTV 3411 Race, Gender, Class and the Media 3 Credits
Grading Scheme: Letter Grade
Analyzes issues confronting the communications industries, professionals and media audiences in relation to the context of global and national diversity.
Prerequisite: Junior standing or higher.

RTV 3432 Ethics and Problems in Media 3 Credits
Grading Scheme: Letter Grade
Investigation and discussion of social problems, ethics, and responsibilities in media.
Prerequisite: RTV 2100 and RTV 3001 and RTV 2405 and junior standing or higher.
Attributes: Artificial Intelligence

RTV 3443 Media User Experience 3 Credits
Grading Scheme: Letter Grade
Explores the intersection of visual communication, psychology, and media technology to understand user experience (UX) research and user interface (UI) design and evaluate the strengths and weaknesses of user interfaces of current and future technologies, including those related to artificial intelligence.
Prerequisite: sophomore standing or higher.

RTV 3451 Reality TV and Influencer Media 3 Credits
Grading Scheme: Letter Grade
Examines the impact of reality television on our celebrity obsessed American society where now anyone can have their 15 minutes of fame or vote for their new favorite "Idol". With its focus on "real life," reality TV can make regular television seem boring. But how real is the "Real World," when people have their lives taped, edited, packaged, and produced for an audience?
Prerequisite: Sophomore standing or higher.

RTV 3501 Sports Content Strategy and Planning 2 Credits
Grading Scheme: Letter Grade
The sports industry offers diverse careers in marketing, media, player development, and analytics. This course will teach that social media content and planning is not just a marketing tool—it's an essential communication channel. All athletic teams need to create compelling and authentic social media content that's assists in building a loyal fanbase, driving revenue, and growing a team's brand.
Prerequisite: RTV3511 with a minimum grade of C.

RTV 3502C Fundamentals of Sports Production 3 Credits
Grading Scheme: Letter Grade
Prepares for Sports Broadcasting Production by developing professional skills specific to sports media. Through active participation and hands-on experiences, sharpen storytelling skills and develop shooting and editing abilities. Covers multiple sports, providing opportunities to create diversified content for professional portfolios.
Prerequisite: (VIC 3001 or JOU 3220C) and (MMC 2121 or JOU 3101 or RTV 2100).

RTV 3511 Fundamentals of Production 3 Credits
Grading Scheme: Letter Grade
Introduces principles of video production and audiovisual communication in theory and practice. Topics include manual camera controls, visual storytelling through composition and editing, and other relevant production techniques.
Prerequisite: RTV 3001 and RTV 2517 and RTV 2251 and RTV 2572, all with minimum grades of C.
Corequisite: RTV 3001, if not already taken as a prereq.

RTV 3518 Branded Content Strategy & Planning 2 Credits
Grading Scheme: Letter Grade
As companies prioritize branded content, demand for skilled professionals grows. This course covers brand identity elements—visuals, messaging, values, and personality—and their impact on branded content across commercials, social media, and long-form videos, teaching how brands use these aspects to engage audiences and shape content strategy.
Prerequisite: RTV3511 with a minimum grade of C.

RTV 3577 Visual Effects and Compositing 2 Credits
Grading Scheme: Letter Grade
Learn secondary post-production technique and theory in motion graphics and visual effects to prepare for careers in the film, streaming, television, marketing, and branding industries.
Prerequisite: RTV 3511 with a minimum grade of C.

RTV 3581 Cinematography 2 Credits
Grading Scheme: Letter Grade
Learn cinematic image control via the visual process of camera, lenses, light, and shadow to gain control of digital motion picture images. Additionally, learn interdisciplinary team-filmmaking, set etiquette, and set safety to prepare for careers in the film, streaming, television, marketing, and branding industries.
Prerequisite: RTV 3511 with a minimum grade of C.

RTV 3583 Lighting for Film and Video 2 Credits
Grading Scheme: Letter Grade
Lighting is essential in cinematography, shaping the visual narrative. This course teaches cinematographers and videographers the fundamentals of lighting, including techniques, equipment, and safety protocols. Students will learn to manage lighting departments, create plans, troubleshoot on set, and stay updated on new technologies, preparing for leadership roles in film production.
Prerequisite: RTV 2517 must be taken as a pre-req or co-req.

RTV 3593 Multimedia Sports Reporting 3 Credits
Grading Scheme: Letter Grade
Instruction and training in sports information gathering and writing, interviewing and reporting. Special emphasis on enhancing sports writing skills, basic sports production for radio, generation of sports journalism for radio and the internet, and ethics and values of quality sports reporting.
Prerequisite: RTV 2100 or MMC 2100 or JOU 3109C with minimum grade of C.

RTV 3663 Film Set Workflow and Operations 2 Credits
Grading Scheme: Letter Grade
Streaming has increased demand for original content, creating more career opportunities in film production. This course covers essential roles and team collaboration on set, including budgeting, scheduling, casting, producing, and directing. Students will gain a comprehensive understanding of film production design as the industry continues to evolve.
Prerequisite: RTV3511 with a minimum grade of C.

RTV 3931 Production Capstone Prep (Special Topics) 2 Credits
Grading Scheme: Letter Grade
Variable content giving career-path communication students advanced instruction in the use of digital audio and video production tools as well as the fundamentals of effective visual storytelling. Serves as a preparation ahead of the senior workshop (RTV4929c).
Prerequisite: RTV 3511 with a minimum grade of C.

RTV 3945 Media Immersion Experience 1-3 Credits
Grading Scheme: S/U
Provides an immersive experience in one or more areas of electronic media operations, such as program production, journalism, audience research, sales, or promotions.
Prerequisite: instructor permission.

RTV 4420 New Media Systems 3 Credits
Grading Scheme: Letter Grade
Reviews technological development, applications, and implications in media systems; explores relationship between media, technological development and other societal forces to learn to evaluate the future of media systems.
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3001 with minimum grade of C and junior standing or higher or instructor permission.
Attributes: Artificial Intelligence

RTV 4500 Content Acquisition, Distribution, and Strategy 3 Credits
Grading Scheme: Letter Grade
Audience and economic considerations related to media content acquisition, distribution, and strategy for traditional and digital platforms, including streaming/OTT.
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3001 with minimum grades of C.

RTV 4506 Applied Media Research 3 Credits
Grading Scheme: Letter Grade
Covers the fundamental concepts and essential skills necessary for conducting media research; emphasis on designing primary research, collecting digital data, analyzing trends, and communicating findings to clients and audiences.
Prerequisite: RTV 4500 with minimum grade of C.

RTV 4507C Producing and Directing Sports 3 Credits
Grading Scheme: Letter Grade
Provides aspiring professionals with the basic skills necessary to produce and direct live sports broadcasts. Modeled after real-world production practices, this course combines informative lectures with hands-on applications that allow learners to develop their producing and directing skills.
Prerequisite: RTV 3502C with a minimum grade of C.

RTV 4590 Digital Games in Communications 3 Credits
Grading Scheme: Letter Grade
Focuses on the application of digital games in the communication fields including journalism (news games), entertainment (transmedia storytelling/ alternate reality game), advertising (advergames), and other fields such as education, health, and politics.
Prerequisite: Junior standing or higher.

RTV 4591 Applications of Mobile Technology 3 Credits
Grading Scheme: Letter Grade
Review of developments of mobile devices and use these tools in the creation and distribution of content. Instruction in developing apps.
Prerequisite: Junior standing or higher.

RTV 4700 Media Law and Policy 3 Credits
Grading Scheme: Letter Grade
Introduction to the laws and regulations affecting the past, present, and future of communication technology, emphasizing free expression, privacy, defamation and intellectual property.
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3001 with minimum grade of C.
Attributes: Artificial Intelligence

RTV 4800 Media Management and Strategy 3 Credits
Grading Scheme: Letter Grade
Concepts and applications in media management and relevant strategic practices, including marketing, business intelligence, finance, management/leadership, strategic planning, innovations, and decision-making in the context of media related industries.
Prerequisite: RTV 4500 and (RTV 4506 or MMC 3420).
Attributes: Artificial Intelligence

RTV 4905 Individual Projects in Media 1-3 Credits
Grading Scheme: Letter Grade
The student and the instructor choose an independent topic or project that will provide media experience.
Prerequisite: 10 credits minimum of junior/senior-level MPMT courses, and instructor and department permission.

RTV 4910 Media Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Provides an opportunity for firsthand, supervised research. "Research" is defined as mentored, but self-directed, work that enables individuals or a small group to explore an issue of interest to them and to communicate the results to others.
Prerequisite: (RTV 2100 or MMC 2100 or JOU 3109C) and RTV 3001 with minimum grades of C or instructor permission.

RTV 4929C Senior Advanced Production Workshop 4 Credits
Grading Scheme: Letter Grade
Emphasizes producing sophisticated video productions in various formats, including drama, sports, documentaries, and corporate communication. Topics include concept development and scriptwriting, directing, advanced camera and lighting techniques, post-production, and special effects/graphics.
Prerequisite: RTV 3320 and a capstone prep (RTV 3516, RTV 3108, RTV 3330, RTV 3577, RTV 3581, RTV 3501, RTV 3518 or RTV 3663), all with C or better.

RTV 4930 Special Study in Media Production, Management, and Technology 1-3 Credits
Grading Scheme: Letter Grade
Variable content, providing opportunity for study in areas of broadcasting such as television staging and lighting, film criticism, communication theory and other fields.
Prerequisite: Junior standing or higher.

RTV 4940 Media Internship 1-4 Credits
Grading Scheme: S/U
Student and instructor will select an appropriate work area related to the media field for on-the-job training. Student will work a minimum of 55 hours on the job for every credit to be received. Progress reports and summary required.
Prerequisite: appropriate professional courses, a 2.5 GPA and department permission.

RTV 4959C Sports Capstone 3 Credits
Grading Scheme: Letter Grade
Integrates material from previous courses and requires each student to prepare a final project as well as a comprehensive e-portfolio to assist the student in a job search. Prepares students to perform satisfactorily in entry-level sports communication and media positions.
Prerequisite: PUR 3463 and JOU 4313C with minimum grades of C.

VIC 3001 Sight, Sound and Motion 3 Credits
Grading Scheme: Letter Grade
Visual literacy is a prerequisite for success in most areas of mass communication. Teaches fundamentals of design across print, web, and multimedia platforms. Also emphasizes how visual forms convey messages to readers.
Prerequisite: Sophomore standing or higher

Medicine

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Interdisciplinary Programs

There are two interdisciplinary majors within the College of Medicine for qualified undergraduates with department permission: neurobiological sciences and biochemistry and molecular biology. Both programs are offered in cooperation with the College of Liberal Arts and Sciences.

Neurobiological sciences involves coursework in the Department of Neuroscience and related disciplines, and biochemistry and molecular biology involves coursework in the Department of Biochemistry and Molecular Biology. Both programs require independent laboratory research and additional electives. Applications should be made to the departments in the sophomore or early junior year.

For a complete description of the courses offered by the College of Medicine, refer to:

- College of Medicine (http://www.med.ufl.edu/)
- Graduate School catalog (https://gradcatalog.ufl.edu/graduate/)

Courses

BMS 3521 Human Physiology in Translation 3 Credits
Grading Scheme: Letter Grade
Human physiology organized into four major physiological systems: cellular/endocrine, cardiovascular, respiratory and renal physiology. For each system, translational topics bridge basic science to contemporary medical issues relevant to undergraduates and society. Designed to be of special interest to those pursuing medically related careers.
Prerequisite: APK 2105C or BSC 2010 or MCB 2000 or instructor permission.

BMS 4136C Human Histology 4 Credits
Grading Scheme: Letter Grade
For preprofessional students. Lectures emphasize the biology of cells and extracellular components that underlie tissue function. Laboratories emphasize visualization of corresponding structures by light microscopy, with correlation to images acquired by electron microscopy.
Prerequisite: PCB 3023 or PCB 3134 or instructor permission.

BMS 4905 Medical Sciences Senior Research 1-5 Credits
Grading Scheme: Letter Grade
Laboratory or literature investigations of current problems in the medical sciences.
Prerequisite: instructor permission.

MDU 4001 Introduction to Medical Science Seminar 1 3 Credits
Grading Scheme: Letter Grade
First of two courses of introduction to the medical sciences.

MDU 4002 Introduction to Medical Science Seminar 2 3 Credits
Grading Scheme: Letter Grade
The second course of introduction to the medical sciences.

MDU 4003 Introduction to the Professions of Medicine 3 Credits
Grading Scheme: Letter Grade
A web-based course about the medical field. Online lectures are presented by medical students, residents and practicing physicians who take students through various aspects of the medical profession.

MDU 4004 Physician Shadowing 3 Credits
Grading Scheme: Letter Grade
Provides background knowledge in issues related to clinical care such as privacy, professionalism and compassion, while students shadow clinicians in the Gainesville area. Course is provided through participation at the Equal Access Clinic and individual physician clinics. Enrollment is completed by the College of Medicine.
Prerequisite: MDU 4003.

MDU 4008 Aspects of the Art of Medicine 2 Credits
Grading Scheme: Letter Grade
Introduces the Essential Competencies Needed to Practice the Art of Medicine; Designed to Assist Third Year Students in the Medical Honors Program for Successful Transition to Uf College of Medicine. Provides Knowledge, Skills, and Experiences to Be Successful Personally and Professionally During Medical Education and Beyond.
Prerequisite: third year standing in the Medical Honors Program.

MDU 4010 Cell Biology Seminar 4 Credits
Grading Scheme: Letter Grade
Cellular functions in health and disease. The structure and molecular biology of mammalian cells are stressed, including virus-cell interactions, inborn errors or metabolism and bacterial growth.

MDU 4031 Medicine and the Law 3 Credits
Grading Scheme: Letter Grade
The importance of the law and its impact on the way medicine is practiced in the United States, presented from academics and practicing attorneys and physicians.
Prerequisite: MDU 4003.

MDU 4051 Medical Humanities and Clinical Practice 2 Credits
Grading Scheme: Letter Grade
Introductory course to the physical realities of patient care and to the way in which medical humanities illuminate understanding of the practice of medicine.

MDU 4061 Introduction to Medical Bioethics 3 Credits
Grading Scheme: Letter Grade
Bioethical issues facing the nation and world and the impact of these issues in medicine and research. Also includes the importance of integrated, collaborative research and the professionalism expected within the healthcare and scientific communities.
Prerequisite: MDU 4003.

MDU 4070 Glocal Topics in Healthcare 3 Credits
Grading Scheme: Letter Grade
Covers topics in global and local health to assist students in becoming physician leaders. Also provides the knowledge, skills, and experiences needed to advocate for patients through a more in-depth understanding of the US and global health care systems and key issues in medicine locally and globally.
Prerequisite: active third year student in the Medical Honors Program.

MDU 4850 Diseases of Eating 3 Credits
Grading Scheme: Letter Grade
A web-based course that focuses on anorexia, bulimia and obesity and emphasizes societal issues associated with these disorders. Written assignments are opinion-based, encouraging the student to think about these disorders on a broad scale.

Medieval and Early Modern Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

MEM 2500 The Tales of King Arthur 3 Credits
Grading Scheme: Letter Grade
Upon completion students will be familiar with some of the great literary works of the Arthurian tradition, and with the manner in which the tales of King Arthur serve, from their sixth century Celtic origins throughout the Western canon, to articulate the interests and values of different social groups through history.
Attributes: General Education - Humanities, General Education - International

MEM 3003 Introduction to the Medieval World 3 Credits
Grading Scheme: Letter Grade
Chronological and topical introduction to history of the medieval millennium (400-1400).
Prerequisite: ENC 1101 or equivalent.

MEM 3300 Castles and Cloisters: An Introduction to Medieval Communities 3 Credits
Grading Scheme: Letter Grade
Studies monastic and courtly-chivalric communities as these evolved in the Middle Ages. Explores architecture, art, literature, and music illustrate how different monastic and chivalric communities saw the world and their place in it.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

MEM 3301 Palaces and Cities: An Introduction to Early Modern Communities 3 Credits
Grading Scheme: Letter Grade
Explores the new kind of European culture that emerges with early modern residential palaces and cities. The study of seminal texts in poetry, politics and theology, and of early modern cities and palaces shows the new operant principle in cultural processes to be the primacy of the individual.
Prerequisite: ENC 1101 or the equivalent.

MEM 3510 Engineering the European Middle Ages 3 Credits
Grading Scheme: Letter Grade
Explores technological innovations in the cultural domains of power generation, agriculture, sacred spaces, warfare, and textiles. Analyzes their interactions with belief- and value systems that shaped the European Middle Ages.
Prerequisite: Any ENC course.

MEM 3730 Studies in the Holy Roman Empire 3 Credits
Grading Scheme: Letter Grade
Variable content examines the political and religious ideas and the literary and artistic productions associated with significant stages in the history of the Holy Roman Empire.
Prerequisite: ENC 1101 or equivalent.
Attributes: General Education - International

MEM 3931 Variable Topics in Medieval and Early Modern Studies 3 Credits
Grading Scheme: Letter Grade
Provides intermediate study in medieval and early modern studies.
Prerequisite: ENC 1101 or the equivalent.

MEM 4905 Independent Study in Medieval and Early Modern Studies 1-5 Credits
Grading Scheme: Letter Grade
Independent work in medieval and early modern studies.
Prerequisite: instructor permission.

MEM 4931 Special Topics in Medieval and Early Modern Studies 1-3 Credits
Grading Scheme: Letter Grade
Advanced study in medieval and early modern studies.
Prerequisite: ENC 1101 or equivalent.

Microbiology & Cell Science

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Microbiology & Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical, dental, pharmacy, veterinary programs, graduate school, or public health degrees. BS degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the MS and PhD degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

Courses

ALS 3200C AI in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Artificial intelligence (AI) is used to solve problems in research and industry. Provides an understanding of and practical, hands-on experience building and using AI systems. Gain the skills and knowledge needed to use AI to solve real-world problems in agricultural and life sciences.
Prerequisite: (BSC 2891 or STA 2023 or STA 3032 or EEL 3872) with minimum grades of C.
Attributes: Artificial Intelligence

BSC 2891 Python Programming for Biology 3 Credits
Grading Scheme: Letter Grade
Discoveries in biology are driven as much by computer analysis as by laboratory work. Learn the theory and practice of computer programming with emphasis on the practical techniques and problem solving skills required to use computer programming in biological research. Taught completely online.
Attributes: Artificial Intelligence

BSC 4434C Introduction to Bioinformatics 3 Credits
Grading Scheme: Letter Grade
Lecture and hands-on computer laboratories emphasize data-mining tools freely available in web-based resources that predict gene function from DNA, RNA, and protein sequences.
Prerequisite: MCB 3020 or MCB 3023 or BCH 4024 or CHM 3218 with a minimum grade of C.

BSC 4467 Applications and Technologies of Synthetic Biology 3 Credits
Grading Scheme: Letter Grade
Synthetic biology is the construction and reconstruction of biological systems and its practical applications in research and industry. Examines advanced molecular biology tools for DNA assembly, the construction of biological pathways and circuits, genome editing, and strategies for transcriptional control.
Prerequisite: MCB 3020 or MCB 3023.

BSC 4913 Independent Research in Bioinformatics 3 Credits
Grading Scheme: Letter Grade
Mentored research experience at the interface between computational and biological sciences; preparation for competitive graduate-school and industry positions in bioinformatics.
Prerequisite: BSC 2891 or MCB 4320C or BSC 4434C or BSC 4434C with a minimum grade of C.
Attributes: Artificial Intelligence

BSC 4914 Advanced Independent Research in Bioinformatics 3 Credits
Grading Scheme: Letter Grade
Mentored bioinformatics research experience that challenges students to develop a deeper understanding of bioinformatics methodologies, to frame biological questions, to evaluate primary scientific literature and to present their research in formal written and oral presentations.
Prerequisite: BSC 4913 with a minimum grade of C.
Attributes: Artificial Intelligence

MCB 2000 Microbiology 3 Credits
Grading Scheme: Letter Grade
Role of microorganisms in chemical transformations, disease, public health and agriculture. Fundamental concepts are discussed, followed by both beneficial and harmful actions of microorganisms as they affect our lives. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

MCB 2000L Microbiology Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory exercises demonstrate biochemical transformations and present methods for studying microbial properties. Not acceptable for admission to advanced microbiology courses nor for the preprofessional curricula required for the medical/veterinary sciences.
Corequisite: MCB 2000.

MCB 2321 Exploring Our Genome 3 Credits
Grading Scheme: Letter Grade
Genomics has exploded with exciting discoveries and spawned new technological developments. Personal genomics and personalized health care are now a reality – it's possible and affordable to have your genome scanned. This course investigates the same fundamental questions while using the same approaches and techniques as scientists who study genetics, behavior, and disease. These pressing questions include: What does genetics tell us about ourselves? How do we study and analyze our personal genome data? How can common genetic variations inform our decisions about disease risk, lifestyles, and behaviors? We will delve into the field of genomics, learn how genome sequence data is obtained and analyzed, the limitations of that data, the ethical, legal and societal implications of that data, and most importantly, to increase scientific literacy, we will explore human genome data in a semester-long, guided research project. This course will equip students with basic skills in how to manage datasets, compose statistics, and provide meaningful analysis of genomic data using tables and charts. The concepts learned can connect to other fields, adding to students' "toolbox" of professional and scientific skills. All majors and interests complement this course. No prior scientific or statistical/analytical background is assumed. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - Biological Science

MCB 2650 Microbes Without Borders 3 Credits
Grading Scheme: Letter Grade
This course will make students aware of the importance of the diversity of microbes and the significance in our everyday lives. Different microbes are explored in readings, audiovisual materials, and hands-on explorations. Topics include viruses, bacteria, parasites and fungi, microbes and art, bioterrorism, GMOs and biotechnology, food production and the role of microbes in agriculture. Issues like disease spread and prevention, vaccines and drug resistance will be examined. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - Biological Science

MCB 3015C Lab Skills Bootcamp 1 Credit
Grading Scheme: Letter Grade
Provides a foundation and advanced skills all biological science students should master. Emphasizes analytical, computational, communication and other lab skills above and beyond bench work.
Prerequisite: (BSC 2010 or equivalent) and (Agricultural and Life Sciences major or Microbiology and Cell Science major).
Corequisite: CHM 2045 or equivalent.

MCB 3020 Basic Biology of Microorganisms 3 Credits
Grading Scheme: Letter Grade
Introduction to the principles and techniques of microbiology, genetics, taxonomy, biochemistry and ecology and microorganisms. Students will also become familiarized with virology, immunology and the pathogenicity of microorganisms.
Prerequisite: BSC 2010 and BSC 2010L, or ISC 2400L, or ISC 2401L, or equivalent, with minimum grades of C; BSC 2011 and BSC 2011L, or equivalent, or AGR 3303, with minimum grades of C; non-microbiology majors only.
Corequisite: CHM 2200 or CHM 2210.

MCB 3020L Laboratory for Basic Biology of Microorganisms 1 Credit
Grading Scheme: Letter Grade
Laboratory exercises on the structure, nutrition, and growth of prokaryotic and eukaryotic cells. Includes isolation and classification of representative microorganisms.
Prerequisite: non-Microbiology and Cell Science major.
Corequisite: MCB 3020.

MCB 3023 Principles of Microbiology 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and techniques of microbiology, genetics, taxonomy, biochemistry, and ecology of microorganisms. Required of all majors and students who will enroll in more advanced courses in the Department of Microbiology and Cell Science.
Prerequisite: BSC 2010 and BSC 2010L, or ISC 2400L, or ISC 2401L, or equivalent, with minimum grades of C; BSC 2011 and BSC 2011L, or equivalent, or AGR 3303, with minimum grades of C; microbiology majors only.

MCB 3023L Principles of Microbiology Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory techniques on the structure, nutrition, biochemistry, genetics, and growth of microorganisms. Required of all majors and students who will enroll in more advanced courses in the Department of Microbiology and Cell Science.
Prerequisite: Microbiology and Cell Sciences major.
Corequisite: MCB 3023.

MCB 3703 Astrobiology 3 Credits
Grading Scheme: Letter Grade
Examines the origin, evolution, and future of life in our solar system. Include planetary habitability, astrobiogeochemistry, microbial life, and human spaceflight.
Prerequisite: introductory course in microbiology, astronomy, chemistry, physics or geology.
Attributes: Satisfies 4000 Words of Writing Requirement

MCB 3933 Professional Development in Microbiology and Cell Science 1-2 Credits
Grading Scheme: Letter Grade
Assistance in making career decisions and organizing supporting academic credentials. Emphasizes the wide variety of career opportunities and professional development tools applicable to careers in professional schools, academia, industry, and alternative professions.
Prerequisite: BSC 2011 and CHM 2045 or equivalent and Agricultural and Life Sciences Microbiology and Cell Science major.

MCB 4034L Advanced Microbiology Laboratory 1 Credit
Grading Scheme: Letter Grade
Application of immunological, molecular biological and microbial techniques to the isolation, identification, and characterization of bacteria and viruses.
Prerequisite: (MCB 3020 or MCB 3023) and (MCB 3020L or MCB 3023L) with minimum grades of C.

MCB 4090 Careers for Impact in Microbiology and Cell Science 1 Credit
Grading Scheme: Letter Grade
Provides connections into a variety of microbiology and cell science careers, and hones essential networking and communication skills through practical application exercises. A portfolio will be created to identify and obtain suitable experiential learning and career opportunities.
Prerequisite: completed Career Readiness check-ins through the UF Career Connections Center.

MCB 4091 Innovation Project Management for Life Sciences 1 Credit
Grading Scheme: Letter Grade
Provides practical tools to manage innovation projects typical of life science research and development. Discusses challenges and methodologies associated with developing objectives, preparing project plans, establishing metrics, defining responsibilities, as well as mitigating risks and dealing with uncertainties. Also strengthens skills for strategic prioritization, time management, meeting facilitation, and communication to promote an innovative culture.
Prerequisite: BCS 2010.

MCB 4150 Prokaryotic Diversity 3 Credits
Grading Scheme: Letter Grade
Introduces the diversity of bacteria and archaea. Discussions provide a conceptual and historical framework for understanding their origin and evolution; morphological, metabolic, and molecular characteristics; genetic and physiological diversity; importance in human, animal, and plant health; and roles in elemental cycling.
Prerequisite: MCB 3020 or MCB 3023 with a minimum grade of C.

MCB 4203 Bacterial Pathogens 3 Credits
Grading Scheme: Letter Grade
Host-microbe relationships in the diseases of humans and animals, including the virulence characteristics of bacterial pathogens, the techniques used in their isolation/identification, and molecular approaches to the study of their virulence.
Prerequisite: MCB 3020 or MCB 3023 with minimum grade of C.

MCB 4271 Antimicrobial Resistance 3 Credits
Grading Scheme: Letter Grade
Covers content related to antimicrobial resistance: the origins of antimicrobial resistance, dissemination, mechanisms, therapeutics, and impact on healthcare, agriculture, and the environment. Mainly concentrates on resistance in bacteria, but will also discuss other organisms, including viruses, parasites, fungi, and cancer.
Prerequisite: MCB 2000 or MCB 3020 or MCB 3023.

MCB 4271L Antimicrobial Resistance Lab 1 Credit
Grading Scheme: Letter Grade
This laboratory course covers content related to antimicrobial resistance: the origins of antimicrobial resistance, surveillance, dissemination, mechanisms, therapeutics, and impact on healthcare, agriculture, and the environment.
Prerequisite: (MCB2000 or MCB3020 or MCB3023) and (MCB3020L or MCB3023L);
Corequisite: MCB 4271.

MCB 4304 Genetics of Microorganisms 3 Credits
Grading Scheme: Letter Grade
Molecular biology of bacterial gene expression, including DNA replication, mutation, genetic mapping using plasmids and phages, and recombinant DNA mechanisms.
Prerequisite: (MCB 3020 or MCB 3023) and (MCB 3020L or MCB 3023L) with minimum grades of C.

MCB 4320C The Microbiome 3 Credits
Grading Scheme: Letter Grade
Increase knowledge, appreciation, and use of genomics pertaining to the breadth of microbial diversity across a wide variety of organisms and habitats using methods that do not require culturing of the myriad of inhabitants. Use tools, practice analysis, and interpretation of genomic data sets to analyze different microbiomes.
Prerequisite: MCB 3020 or MCB 3023 with minimum grades of C.

MCB 4324 Computational Genomics and Epigenomics 3 Credits
Grading Scheme: Letter Grade
Genomics and epigenomics utilize high-throughput sequencing technologies in understanding biology questions. The primary goal is to introduce history, theory, latest advances, and computational approaches in (epi)genomics for conducting large-scale genomic analyses. Topics include sequence alignment, genome assembly and annotation, variant identification, transcriptomics, small RNAs, DNA methylation, histone modification, open chromatin region, and 3D chromatin interaction.
Prerequisite: BSC 2891 or STA 2023 or MCB 3020 or MCB 3023 or PCB 3063 or BSC 4434C or MCB 4325C.

MCB 4325C R for Functional Genomics 3 Credits
Grading Scheme: Letter Grade
Introduces the Basics of the R Language and to state of the art methods for functional genomics data analysis. Learn how to write R scripts, choose appropriate statistical tools, and how to use Linux environments to analyze high-throughput genomics data.
Prerequisite: STA 2023 and (BSC 2010 or BSC 2011 or MCB 3020 or MCB 3023 or BCH 4024 or CHM 3218).
Attributes: Artificial Intelligence

MCB 4403 Prokaryotic Cell Structure and Function 3 Credits
Grading Scheme: Letter Grade
Analyzes the cell structure and physiology of bacterial cells. Extensive discussion of cell division and cell growth is provided along with descriptions of important bacterial cell structures (e.g. cell walls, membranes, flagella, etc.)
Prerequisite: CHM 2211 and (MCB 3020 or MCB 3023) and (MCB 3020L or MCB 3023L) with minimum grades of C. BCH 4024 should be taken before MCB 4403.

MCB 4422 Probiotics 3 Credits
Grading Scheme: Letter Grade
Covers the use of microorganisms to promote a health status in the host and provides a conceptual background in microbiology and immunology for the use of microorganisms for the prevention or treatment of animal and human diseases.

MCB 4503 General Virology 3 Credits
Grading Scheme: Letter Grade
Nature of viruses and mechanisms of infection and replication, including bacterial, animal, and plant viruses.
Prerequisite: MCB 3020 or MCB 3023 or MCB 4203 or PCB 3023 or BCH 3023 or PCB 3134 or BCH 4024 or CHM 3218.

MCB 4503L Virology Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory course covering basic virology assays used to generate, propagate and enumerate viruses using cell culture and molecular methods.
Prerequisite: MCB 3020L or MCB 3023L.

MCB 4652 Environmental Microbiology 3 Credits
Grading Scheme: Letter Grade
Overview of microorganisms in the environment including occurrence, abundance and distribution; processes of microbial interaction with the environment; and practices of applied environmental microbiology.
Prerequisite: MCB 3020 or MCB 3023 or equivalent introductory microbiology course with minimum grade of C.

MCB 4782 Extremophiles 3 Credits
Grading Scheme: Letter Grade
The evolution, physiology, biochemistry, and molecular biology of extremophiles with emphasis on archaea and their viruses. Discuss principles of energy metabolism at the limits of life. Highlights research that incorporates cutting-edge techniques and biotechnology applications for using extremophiles to solve real world problems.
Prerequisite: CHM 2211 and ((MCB 3020 and MCB 3020L) or (MCB 3023 and MCB 3023L)).

MCB 4794 Analysis, Interpretation, and Visualization of Microbiological Data 3 Credits
Grading Scheme: Letter Grade
Focuses on the analysis and interpretation of microbiological data using R language and other command line tools with a series of examples that range in complexity. Analyze various microbiological data, including RNA-Seq, 16SrRNA gene sequencing, direct and indirect measurements of microbial growth, and measurements of microbial bioproducts, among others. Finally, teaches good practices for data reproducibility.
Prerequisite: MCB 3020 or MCB 3023.

MCB 4905 Independent Study 0-4 Credits
Grading Scheme: S/U
Individual laboratory research under the guidance of a faculty member. Required of, but not limited to, candidates for high and highest honors. Not acceptable toward 25 credits of required department and elective credits.
Prerequisite: undergraduate advisor permission; microbiology majors only.

MCB 4911 Supervised Research in Microbiology and Cell Science 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application..
Prerequisite: Instructor permission.

MCB 4915 Honors Thesis Research in Microbiology and Cell Science 0-3 Credits
Grading Scheme: Letter Grade
Independent research in microbiology and cell science leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

MCB 4924L Biotechnology Aptitude and Competency Experience Capstone 1 Credit
Grading Scheme: Letter Grade
This course prepares students for the Biotechnology Aptitude and Competency Exam and to work in biotechnology careers through exploration of industry standards, regulatory requirements, and quality practices in biological production. Students will integrate laboratory skills, subject matter knowledge with practical applications while developing critical thinking and problem-solving abilities essential for success in the biotechnology industry.
Prerequisite: MCB 2000L or MCB 3020L or MCB 3023L.

MCB 4934 Special Topics in Microbiology and Cell Science 1-4 Credits
Grading Scheme: Letter Grade
Supervised literature or historical study on current topics in microbiology and cell science. Not acceptable toward 25 credits of required department and elective credits.
Prerequisite: undergraduate coordinator permission.

MCB 4941 Microbiology and Cell Science Internship 1-4 Credits
Grading Scheme: Letter Grade
Internship in microbiology and cell science under supervision of the department.
Prerequisite: Instructor permission.

NUR 3197 Genetics and Genomics in Health Care 2 Credits
Grading Scheme: Letter Grade
Genetics and genomics are advancing quickly and will play a greater role in health care as personal genome sequencing becomes available. Reinforces basic genetics and genomics concepts and exploring how genomics may affect health care.
Prerequisite: Nursing major.

PCB 1051 Exploring Your Genome 3 Credits
Grading Scheme: Letter Grade
How the genome sequence is analyzed and its implications on human health. Promotes genetic literacy (see syllabus for specific topics).

PCB 3134 Eukaryotic Cell Structure and Function 3 Credits
Grading Scheme: Letter Grade
Lecture and discussions in the field of cell biology with emphasis on the interrelation of structure and function, the regulation of metabolism and the specialized activities of plant and animal cells.
Prerequisite: (BSC 2010 and BSC 2010L or equivalent with minimum grades of C) and ((BSC 2011 and BSC 2011L or equivalent) or (AGR 3303 and CHM 2210) with minimum grades of C) and (CHM 2200 or CHM 2210 with minimum grade of C).
Corequisite: CHM 2211 and CHM 2211L.

PCB 4233 Immunology 3 Credits
Grading Scheme: Letter Grade
Basic concepts in immunology, including specific components, development, and function.
Prerequisite: (MCB 3023 or MCB 3020 or BCH 4024 or CHM 3218 or PCB 3134) with minimum grade of C.

PCB 4522 Molecular Genetics 3 Credits
Grading Scheme: Letter Grade
Molecular biology of prokaryotes and eukaryotes covering the fundamentals of genome organization and gene structure, regulation of transcription, DNA replication and repair, and RNA processing. Also includes discussion of strategies, vectors and applications of genetic engineering in higher plants and animals.
Prerequisite: BSC 2010 and BSC 2010L with minimum grades of C.

PCB 4666 Human Genomics 3 Credits
Grading Scheme: Letter Grade
Discusses how human genome sequence data is obtained, analyzed, and interpreted with an emphasis on what can be learned from an individual's genome. Genome-based strategies are used for the detection, treatment, and prevention of many diseases.
Prerequisite: BSC 2010 and BSC 2011 and (PCB 3134 or PCB 4522 or BCH 4024 or BCH 3025).

ZOO 4232 Human Parasitology 3 Credits
Grading Scheme: Letter Grade
Host-parasite relationships of helminth and protozoan diseases important in health sciences and veterinary medicine.
Prerequisite: BSC 2010 and BSC 2010L, or equivalent; and BSC 2011 and BSC 2011L, or equivalent, or AGR 3303 with minimum grades of C.

Military Science

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Division Information

Air Force ROTC prepares undergraduate students to become officers in the United States Air Force. Army ROTC at the University of Florida is one of the oldest and best leadership courses in the country. The University of Florida's Naval Reserve Officer Training Corps carries on the fine tradition of training the future Officers of the United States Naval Service.

Curriculum

- Aerospace Leadership Minor
- Military Science and Leadership Minor

Courses

AFR 1101 The Air Force Today 1 Credit
Grading Scheme: Letter Grade
Introduces the United States Air Force and Air Force Reserve Officer Training Corps. Featured topics include mission and organization of the Air Force, officership and professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems and an introduction to communication skills.
Corequisite: AFR 1101L.

AFR 1101L General Military Course (GMC) Leadership Laboratory 1 Credit
Grading Scheme: S/U
Air Force customs, courtesies, drills and ceremonies; issuing military commands; instructing, directing and evaluating the preceding skills; studying the environment of an Air Force officer; and learning about areas of opportunity available to commissioned officers.
Corequisite: AFR 1101.

AFR 1120 The Air Force Today 1 Credit
Grading Scheme: Letter Grade
Introduces the United States Air Force and Air Force Reserve Officer Training Corps. Topics include introduction to flight, oral and written communication techniques and an overview of military services.
Corequisite: AFR 1120L.

AFR 1120L General Military Course (GMC) Leadership Laboratory 1 Credit
Grading Scheme: S/U
Air Force customs, courtesies, drills and ceremonies; issuing military commands; instructing, directing and evaluating the preceding skills; studying the environment of an Air Force officer; and learning about areas of opportunity available to commissioned officers.
Corequisite: AFR 1120.

AFR 2130 The Evolution of USAF Air and Space Power 1 Credit
Grading Scheme: Letter Grade
Examines USAF air and space power from a historical perspective. Covers the earliest aircraft, both World Wars, the Korean and Vietnam conflicts, air and space employment during the Cold War.
Corequisite: AFR 2130L.

AFR 2130L General Military Course (GMC) Leadership Laboratory 1 Credit
Grading Scheme: S/U
Air Force customs, courtesies, drills and ceremonies; issuing military commands; instructing, directing and evaluating the preceding skills; studying the environment of an Air Force officer; and learning about areas of opportunity available to commissioned officers.
Corequisite: AFR 2130.

AFR 2140 The Evolution of USAF Air and Space Power 1 Credit
Grading Scheme: Letter Grade
Continuation of AFR 2130 and the exploration of Air Force history, beginning with the Vietnam era and culminating with the application of air and space power in recent conflicts.
Corequisite: AFR 2140L.

AFR 2140L General Military Course (GMC) Leadership Laboratory 1 Credit
Grading Scheme: S/U
Air Force customs, courtesies, drills and ceremonies; issuing military commands; instructing, directing and evaluating the preceding skills; studying the environment of an Air Force officer; and learning about areas of opportunity available to commissioned officers.
Corequisite: AFR 2140.

AFR 3220 Air Force Leadership and Management 3 Credits
Grading Scheme: Letter Grade
Leadership and quality management fundamentals, professional knowledge, Air Force doctrine, leadership ethics and communication skills required of an Air Force junior officer. Case studies examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts studied.
Corequisite: AFR 3220L.

AFR 3220L Professional Officer Course (POC) Leadership Laboratory 1 1 Credit
Grading Scheme: S/U
Advanced leadership experiences planning and controlling military activities of the cadet corps, the preparation and presentation of briefings and other communications, and the interviews, guidance and information to increase cadet understanding, motivation and performance.
Corequisite: AFR 3220.

AFR 3231 Air Force Leadership and Management 3 Credits
Grading Scheme: Letter Grade
Studies leadership and quality management fundamentals, professional knowledge, Air Force doctrine, leadership ethics and communication skills required of an Air Force junior officer. Case studies examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts studied.
Corequisite: AFR 3231L.

AFR 3231L Professional Officer Course (POC) Leadership Laboratory 2 1 Credit
Grading Scheme: S/U
Advanced leadership experiences planning and controlling military activities of the cadet corps, the preparation and presentation of briefings and other communications, and the interviews, guidance and information to increase cadet understanding, motivation and performance.
Corequisite: AFR 3231.

AFR 4201 Preparation for Active Duty 1 3 Credits
Grading Scheme: Letter Grade
Examines the national security process, regional studies, advanced leadership ethics and Air Force doctrine. Topics focus on the military as a profession, officership, military justice and civilian control of the military. Within this structure, continued emphasis is given to refining communication skills.
Corequisite: AFR 4201L.

AFR 4201L Professional Officer Course (POC) Leadership Laboratory 3 1 Credit
Grading Scheme: S/U
Advanced leadership experiences planning and controlling military activities of the cadet corps, the preparation and presentation of briefings and other communications, and the interviews, guidance and information to increase cadet understanding, motivation and performance.
Corequisite: AFR 4201.

AFR 4211 Preparation for Active Duty 2 3 Credits
Grading Scheme: Letter Grade
Examines advanced leadership ethics, officership, preparation for active duty and current issues affecting military professionalism. Continued emphasis is given to refining communication skills.
Corequisite: AFR 4211L.

AFR 4211L Professional Officer Course (POC) Leadership Laboratory 4 1 Credit
Grading Scheme: S/U
Advanced leadership experiences planning and controlling military activities of the cadet corps, the preparation and presentation of briefings and other communications, and the interviews, guidance and information to increase cadet understanding, motivation and performance.
Corequisite: AFR 4211.

MSL 1001 Foundations of Officership 2 Credits
Grading Scheme: Letter Grade
Purpose and organization of the Army Reserve Officer Training Corps (ROTC) and the United States Army. Introduction to military customs and traditions, rank structure and the role of an Army officer. Each student must register for and attend a two-hour weekly leadership laboratory (MSL 1001L).

MSL 1001L Freshman Leadership Laboratory 0 Credits
Grading Scheme: Letter Grade
Laboratory consists of a two-hour block of instruction that directly supports freshman classroom instruction. Participation in at least one weekend field training session, one community service project and two army physical fitness tests are required.
Corequisite: MSL 1001.

MSL 1002 Basic Leadership 2 Credits
Grading Scheme: Letter Grade
Study and application of the Army ROTC Leadership Development Program (LDP). Instruction includes theory and application of leadership principles, competencies and dimensions. Individual leadership is developed through hands-on instruction in basic, individual military skills. Introduces students to leadership attributes and the application of those attributes in and out of the classroom. Students must register for and attend a two-hour weekly leadership laboratory (MSL 1002L).

MSL 1002L Freshman Leadership Laboratory 0 Credits
Grading Scheme: Letter Grade
Laboratory consists of a two-hour block of instruction that directly supports freshman classroom instruction. Participation in at least one weekend field training session, one community service project and two army physical fitness tests are required.
Corequisite: MSL 1002.

MSL 2101 Individual Leadership Studies 2 Credits
Grading Scheme: Letter Grade
The future leader through classroom instruction, laboratory application and an in-depth look at basic troop/organization leadership principles and skills. Provides training on the basics of rifle marksmanship and instruction on the principles of modern warfare and effective writing. Students must register for and attend a two-hour weekly leadership laboratory (MSL 2101L).

MSL 2101L Sophomore Leadership Laboratory 0 Credits
Grading Scheme: Letter Grade
Laboratory consists of a two-hour block of instruction that directly supports sophomore classroom instruction. Participation in at least one weekend field training session, one community service project and two army physical fitness tests are required.
Corequisite: MSL 2101.

MSL 2102 Leadership and Teamwork Techniques 2 Credits
Grading Scheme: Letter Grade
The future leader through classroom instruction, laboratory application and an in-depth look at basic troop/organization leadership principles and skills. Provides training on the basics of rifle marksmanship and instruction on the principles of modern warfare and effective writing. Students must register for and attend a two-hour weekly leadership laboratory.

MSL 2102L Sophomore Leadership Laboratory 0 Credits
Grading Scheme: Letter Grade
Laboratory consists of a two-hour block of instruction that directly supports sophomore classroom instruction. Participation in at least one weekend field training session, one community service project and two army physical fitness tests are required.
Corequisite: MSL 3202.

MSL 3201 Leadership and Problem Solving 3 Credits
Grading Scheme: Letter Grade
Instruction for the advanced ROTC cadet in infantry squad tactics and operations to broaden general military skills and enhance performance at ROTC Advanced Camp. Topics include the ROTC Leadership Development Program (LDP), land navigation and map reading, basic rifle marksmanship techniques, effective written and oral communication skills, troop leading procedures and infantry squad offensive and defensive operations. Cadets must attend a two-hour weekly leadership laboratory and participate in a physical fitness program given at times other than normal class sessions.

MSL 3202 Leadership and Ethics 3 Credits
Grading Scheme: Letter Grade
Improves cadet proficiency in those military subjects necessary to meet minimum standards of technical competence and self-confidence required of a junior officer in the US Army. Prepares cadets for participation at ROTC advanced camp. Major emphasis during course is physical training and field training exercises. Student must attend a weekly two-hour leadership laboratory and participate in physical fitness sessions given at times other than normal class sessions.

MSL 4301 Leadership and Management 3 Credits
Grading Scheme: Letter Grade
Designed to prepare cadets for duty as commissioned officers. Instruction centers on proficiency/familiarization with the military justice system, military administration, the officer professional management system, international laws of war and principles of management/leadership. Students also participate in a physical fitness program.

MSL 4302 Officership 3 Credits
Grading Scheme: Letter Grade

MSL 4905 Independent Study 1-3 Credits
Grading Scheme: Letter Grade
Readings and discussion in advanced topics of military science.
Prerequisite: department permission.

MSL 4941 Advanced Leader Training 4 Credits
Grading Scheme: Letter Grade
National advanced leader's course is the Army's 5-week leader internship conducted at Fort Lewis, Washington, from June through August. The camp places each cadet and officer candidate in a variety of leadership positions, many of which simulate stressful combat situations. Cadets are evaluated by platoon tactical officers and NCOs. Training is organized into separate committees in a tiered structure, including basic military skills, leadership development, tactical training, basic rifle marksmanship and situational training exercises. Evaluation is continual.

NSC 1101L Naval Science Laboratory 0 Credits
Grading Scheme: S/U
Drill, basic commands, courtesies and honors, orientation and information.

NSC 1110 Introduction to Naval Science 2 Credits
Grading Scheme: Letter Grade
Introduction to the naval profession and to concepts of seapower. Instruction emphasizes the mission, organization and warfare components of the Navy and Marine Corps. Included is an overview of officer and enlisted ranks and rates, training and education and career patterns. Also covers naval courtesy and customs, military justice, leadership and nomenclature, and exposes the student to the professional competencies required to become a naval officer.

NSC 1140 Seapower and Maritime Affairs 3 Credits
Grading Scheme: Letter Grade
US naval history from the Phoenicians to the present with emphasis on major developments. Included is an in-depth discussion of the geopolitical theory of Mahan. Discusses present-day concerns in sea-power and maritime affairs, including the economic and political issues of merchant marine commerce, the Navys involvement in liberation and terrorist movements overseas and the massive changes in the US Navy due to the breakup of the Soviet Union.
Attributes: Satisfies 2000 Words of Writing Requirement

NSC 2102L Naval Science Laboratory 0 Credits
Grading Scheme: S/U
Drill, basic commands, courtesies and honors, orientation, and information.

NSC 2121 Naval Ships Systems 1: Engineering 3 Credits
Grading Scheme: Letter Grade
Basic power systems used in naval propulsion systems, a basic understanding of the thermodynamic process, a working knowledge of major auxiliary ship systems and basic consideration for ship design and stability. Basic electrical theory and damage control are also included.

NSC 2122 Naval Ships Systems 2: Weapons 3 Credits
Grading Scheme: Letter Grade
Introduction to the theory, characteristics and principles of operation of naval weapons systems. Includes coverage of types of weapons and fire control systems, capabilities and limitations, theory of target acquisition, identification and tracking, trajectory principles and basics of naval ordinance.

NSC 2222 Evolution of Warfare 3 Credits
Grading Scheme: Letter Grade
The purpose of this course is to explore the form of warfare employed by great people in history in order to formulate the sense of historical flow or continuity in the evolution of warfare, to develop a basic sense of strategy, to demonstrate alternative military actions and to explore the impact of historical precedent on military thought and actions as practiced by the great leaders and military organizations.
Attributes: General Education - Social Science, Satisfies 4000 Words of Writing Requirement

NSC 2226C Fundamentals of Maneuver Warfare 3 Credits
Grading Scheme: Letter Grade
This course analyzes the United States Marine Corps as the overarching case study for the advent of maneuver warfare. The value is not simply to learn what has happened in the past, but to use these lessons as the basis for making practical judgments about the present and future.
Attributes: General Education - Social Science

NSC 3103L Naval Science Laboratory 0 Credits
Grading Scheme: S/U
Practical exercises dealing with the specifics of naval organizations and leadership.

NSC 3214C Navigation and Naval Operations 1 3 Credits
Grading Scheme: Letter Grade
A comprehensive study of the theory, principles and procedures of ship navigation and movements. Piloting and dead reckoning as well as principles of celestial and electronic navigation. In-depth exposure to the navigational rules-of-the-road and the international regulations for preventing collisions at sea and their application to effective safe navigation. Also includes practical lab work in charting and publication usage.

NSC 3215C Navigation and Naval Operations 2 3 Credits
Grading Scheme: Letter Grade
A continuation of navigation and naval operations. Relative motion theory and the use of a maneuvering board. An understanding of the force, techniques and concepts associated with ship handling, including shipboard watch organization, communication systems and environmental considerations. The role of leadership ethics is discussed while developing an understanding of the process of command and control, dealing specifically with information exchange, conflict resolution and crisis decision making.
Prerequisite: NSC 3214C.

NSC 4104L Naval Science Laboratory 0 Credits
Grading Scheme: S/U
Practical exercises dealing with naval organizations and leadership.

NSC 4230 Leadership and Management 2 Credits
Grading Scheme: Letter Grade
The principles of naval administration, stressing the experimental approach to learning the principles of leadership and management. The student develops skills in the areas of communication, counseling, control, direction, leadership and management functions and responsibilities through active, guided participation in naval-based case studies, experimental exercises and situational problems. Total quality leadership and professional responsibilities are included.

NSC 4233 Leadership and Ethics 3 Credits
Grading Scheme: Letter Grade
Equips the NROTC student with the skills and abilities required for competence as a commissioned officer. This final capstone course in the NROTC curriculum builds upon and focuses the managerial, professional and ethical competencies developed during previous summer cruise training and naval science courses. Ethical philosophies and real-world situations are studied through lectures, exercises and case studies. Naval personnel management, the administration of discipline and human resource management are additional areas of focus.

NSC 4905C Independent Study 1-3 Credits
Grading Scheme: Letter Grade
Readings, assignments, student presentations and discussions on naval science.
Prerequisite: department permission.

Music

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

School Information

Recognizing the value of music to our culture, society, and individual experience, the School of Music at the University of Florida is committed to the teaching and development of musicians, music educators, and scholars. As a vital component of one of the leading AAU research universities in the nation, the School of Music fully encourages scholarly research, creative activity, and interdisciplinary studies across all undergraduate and graduate degree programs.

MUSIC BUILDING
GAINESVILLE FL 32611
Map (http://campusmap.ufl.edu/#/index/0117)

Curriculum

- Combination Degrees
- Jazz Studies Minor
- Music Business and Entrepreneurship
- Music Business and Entrepreneurship Certificate
- Music Education
- Music History | Ethnomusicology Minor
- Music in Medicine Certificate
- Music Performance Certificate
- Music Performance Minor | Instrumental or Voice
- Music Theory Minor
- Music | Bachelor of Arts
- Music | Bachelor of Music

General Information

Music performance courses encompass studio and class lessons and are offered in voice, piano, organ, carillon, violin, viola, violoncello, string bass, flute, oboe, clarinet, bassoon, horn, trumpet, trombone, euphonium, tuba, percussion, saxophone, harpsichord and organ. These courses are primarily for music majors and are open to non-majors only by audition and instructor consent.

The student registering for the first time for music courses reports to the director of music in the School of Music, who designates a faculty member to audition and/or consult with the student and who assigns the student to the proper level and performance course number.

S/U grade options and auditing courses in music performance are not permitted.

Performance courses (1000 level) emphasize basic techniques. Music education, theory/composition, music history/literature and BA majors, secondary and non-majors take these courses in their first year.

Performance courses (2000 level) emphasize repertory and mastery of the basic techniques of the performing medium. Students majoring in performance will begin 2000 level courses in the first year.

Performance courses (3000 and 4000 level) are for advanced study. A student takes two semesters at the 3000 level. A full performance faculty jury exam is required for admission to 4000 level. Two semesters at the 4000 level are required of all performance and church music majors. Degree recitals must be presented at the University of Florida. All students accepted for music performance study must register and participate in an appropriate ensemble each semester of study. Consult the School of Music Student Handbook for further information on the ensemble policy.

The performer's certificate will be awarded at the discretion of the faculty to non-performance degree students. Students must be recommended by their performance teacher for the performer's certificate program at the beginning of their junior year.

Courses in performance, theory/composition, music history/literature and music education at the 3000-4000 level may be taken only after a student has achieved professional status by passing the musicianship assessment jury and the preprofessional performance jury. Other requirements include successfully completing musical styles, four semesters of ensemble (if required for degree) and four semesters of satisfactory recital attendance.

Because some students may need additional time to successfully complete the musicianship assessment jury and the preprofessional performance jury, students will be allowed to register for up to nine credits at the 3000 level prior to becoming a professional level music major. Consult the School of Music student handbook for a list of specific 3000/4000-level courses that can be taken before achieving professional level status.

Non-majors can only take music performance courses and certain others after an audition with the instructor. If the student is found to be acceptable to the studio, course will be available only on a space-available basis. Courses are department controlled and all students must see an academic advisor in music before registration.

Courses

MUC 1211 Composition Skills 1 1 Credit
Grading Scheme: Letter Grade
Required for all majors in theory/composition. Workshop in composition techniques, exploring use of styles and devices of contemporary art music and presentation through the use of finale.
Prerequisite: music major;
Corequisite: MUT 1121.

MUC 1212 Composition Skills 2 1 Credit
Grading Scheme: Letter Grade
Required for all majors in theory/composition. Workshop in composition techniques, exploring use of styles and devices of contemporary art music and presentation through the use of finale.
Prerequisite: Music major.
Corequisite: MUT 1122.

MUC 2101 Composition Skills 3 1 Credit
Grading Scheme: Letter Grade
Required for all majors in composition. Workshop in composition techniques, exploring use of styles and devices of contemporary art music and presentation through the use of finale.
Prerequisite: Music major

MUC 2102 Composition Skills 4 1 Credit
Grading Scheme: Letter Grade
Required for all majors in composition. Workshop in composition techniques, exploring use of styles and devices of contemporary art music and presentation through use of finale.
Prerequisite: Music major

MUC 3231 Composition 1 3 Credits
Grading Scheme: Letter Grade
Composition in simple and extended forms supplemented by analysis of selected compositions, from the standard repertoire and presentation through the use of finale.
Prerequisite: Music major

MUC 3232 Composition 2 3 Credits
Grading Scheme: Letter Grade
Composition in simple and extended forms supplemented by analysis of selected compositions, from the standard repertoire and presentation through the use of finale.
Prerequisite: Music major

MUC 4241 Composition 3 3 Credits
Grading Scheme: Letter Grade
Composition in extended forms supplemented by analysis of selection compositions, from the standard repertoire and presentation through the use of finale.
Prerequisite: Music major.

MUC 4242 Composition 4 3 Credits
Grading Scheme: Letter Grade
Composition in extended forms supplemented by analysis of selection compositions, from the standard repertoire and presentation through the use of finale.
Prerequisite: Music major.

MUC 4313 Introduction to Electroacoustic Music 3 Credits
Grading Scheme: Letter Grade
Survey of the techniques, history, literature and materials of electroacoustic music.
Prerequisite: Music major.

MUC 4401 Composition of Electroacoustic Music 3 Credits
Grading Scheme: Letter Grade
Continuation of MUC 4313. Projects in electroacoustic music dealing with real-time, interactivity, live-electronic and solo digital media music composition issues.
Prerequisite: Music major.

MUC 4441 Electroacoustic Music Composition: Digital 1 3 Credits
Grading Scheme: Letter Grade
Continuation of skills developed through MUC 4401, Composition of Electroacoustic Music.
Prerequisite: Music major.

MUC 4442 Electroacoustic Music Composition: Digital 2 3 Credits
Grading Scheme: Letter Grade
Continuation of skills developed through MUC 4441, Electroacoustic Music Composition: Digital 1.
Prerequisite: Music major.

MUC 4950 Senior Composition Recital 1 Credit
Grading Scheme: Letter Grade
Organization and presentation of a recital of original compositions.
Prerequisite: Music major.MUS 4950

MUE 1090 Exploring Music Teaching and Learning 1 Credit
Grading Scheme: Letter Grade
Introductory overview of music teaching as a profession. For those majoring in music education and those who are interested in a possible career as a music educator.
Prerequisite: Music major or instructor permission.

MUE 2040 Music Teaching as a Profession 3 Credits
Grading Scheme: Letter Grade
Overview of philosophical, historical, psychological, and sociological perspectives on music education in schools. Discusses contemporary topics and trends including diversity, special needs students, and culturally responsive pedagogy; introduces the Florida Educator Accomplished Practices (FEAPs). Field experience in schools.
Prerequisite: Music major.

MUE 2430 Voice Skills 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical technique for voice.
Prerequisite: Music major.

MUE 2440 String Skills 1 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical techniques for the upper string instruments: violin/viola.
Prerequisite: Music major.

MUE 2442 String Skills 2 1 Credit
Grading Scheme: Letter Grade
Basic technical competency and pedagogical techniques for the lower string instruments: cello and double bass.
Prerequisite: Music major.

MUE 2450 Woodwind Skills 1 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical techniques for clarinet and flute.
Prerequisite: Music major.

MUE 2452 Woodwind Skills 2 1 Credit
Grading Scheme: Letter Grade
Basic technical competency and pedagogical techniques for alto saxophone, bassoon and oboe.
Prerequisite: Music major.

MUE 2460 Brass Skills 1 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical techniques for two brass instruments.
Prerequisite: Music major.

MUE 2462 Brass Skills 2 1 Credit
Grading Scheme: Letter Grade
Basic technical competency and pedagogical techniques for two brass instruments, other than those studied in MUE 3460.
Prerequisite: Music major.

MUE 2470 Percussion Skills 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical techniques for percussion instruments.
Prerequisite: Music major.

MUE 2471 Percussion Skills 2 1 Credit
Grading Scheme: Letter Grade
Continuation of percussion teaching and performance skills.
Prerequisite: Music major.

MUE 2680 Music Learning with Technology 2 Credits
Grading Scheme: Letter Grade
Explores the role of digital technologies in creating, performing, and responding to music, with applications to the practice of K-12 music educators and the cultivation of lifelong music learning and participation.
Prerequisite: Music major.

MUE 3210 Music for the Elementary Child 2-3 Credits
Grading Scheme: Letter Grade
Helps meet state certification requirements for elementary classroom teachers. Function of elementary school music in aiding the developmental growth of children.
Prerequisite: HUM 2511 strongly recommended.

MUE 3311 Music in Elementary Schools 3 Credits
Grading Scheme: Letter Grade
Fundamental principles and procedures of music education in elementary school.
Prerequisite: MUE 2040 with a minimum grade of C- and pass all sections of FTCE General Knowledge test.

MUE 3330 Music in Secondary Schools 3 Credits
Grading Scheme: Letter Grade
Fundamental principles and procedures of music education in the secondary school.
Prerequisite: MUE 3311 with a minimum grade of C.

MUE 3343 Materials and Methods of String Class Teaching 2 Credits
Grading Scheme: Letter Grade
The study of contemporary materials and methods suitable for use in public school string classes.
Prerequisite: Music major.

MUE 3416 Literature and Arranging for School Choirs 3 Credits
Grading Scheme: Letter Grade
Become familiar with techniques and approaches for selecting and programming literature for K-12 performing ensembles. Introduces fundamental techniques used to create arrangements of choral and vocal works in order to better meet the needs of individual singers or ensembles. Also addresses arranging for instruments.
Prerequisite: MUE 2040 with a minimum grade of C.

MUE 3417 Literature and Arranging for Instrumental Ensembles 3 Credits
Grading Scheme: Letter Grade
Techniques for selecting, programming, and arranging music for school instrumental ensembles. Overview of repertoire and arranging techniques including genres, established works, composers, and publishers; pedagogical and practical considerations related to the selection and modification of music. Discussion of relevant copyright laws.
Prerequisite: MUE 2040 with a minimum grade of C.

MUE 4140 Music Student Teaching Seminar 3 Credits
Grading Scheme: Letter Grade
Principles and practices of developing, teaching, and administering K-12 public school music programs.
Prerequisite: MUE 4421 with a minimum grade of C or MUE 4422 with a minimum grade of C and Pass FTCE Music Content test.

MUE 4421 Teaching Secondary Choral Music 3 Credits
Grading Scheme: Letter Grade
Develop techniques and skills necessary to build and sustain a successful and comprehensive choral program in a secondary school setting. Students will synthesize and apply previous knowledge and skills related to vocal physiology and pedagogy, lesson and curriculum planning, sight-singing and musicianship, and other topics. Field experience in schools.
Prerequisite: MUE 3416 & MUE 3330 both with a minimum grade of C.

MUE 4422 Teaching Instrumental Music 3 Credits
Grading Scheme: Letter Grade
Develop musical and pedagogical knowledge, skills, and dispositions essential for teaching elementary, middle school, and high school instrumental music. Field work in schools.
Prerequisite: MUE 3417 with a minimum grade of C and MUE 3330 with a minimum grade of C.

MUE 4480 Marching Band Techniques 3 Credits
Grading Scheme: Letter Grade
Examination, evaluation and practical application of marching band techniques for the high school and college band director.
Prerequisite: Music major.

MUE 4940 Student Teaching in Music Education 9-10 Credits
Grading Scheme: S/U
Student teaching in selected classrooms of public schools. Special seminars and continuous evaluation of teaching experiences.
Prerequisite: MUE 4421 with a minimum grade of C or MUE 4422 with a minimum grade of C and Pass FTCE Music Content test.

MUE 4941L Internship in Music Teaching 3 Credits
Grading Scheme: S/U
Build on the work done in previous music education coursework to develop competence in applying the principles of learning in K-12 music classrooms.
Prerequisite: (MUE 3311, MUE 3330, and TSL 3323) and (MUE 4421/5XXX OR MUE 4422/5XXX); three chosen from MUE 2440, MUE 2442, MUE 2470, MUE 2430, MUE 2450, MUE 2452, MUE 2460, MUE 2462; Certificate in Music Education students only;
Corequisite: MUE 4140.

MUG 4104 Conducting 1 1-2 Credits
Grading Scheme: Letter Grade
Basic techniques of choral and instrumental conducting.
Prerequisite: Music Major and MUT 2117 and MUT 2247L and MVK 2222.

MUG 4202 Choral Conducting and Materials 2 Credits
Grading Scheme: Letter Grade
Basic techniques of choral conducting, score analysis, interpretation and use of basic choral materials.
Prerequisite: Music major.

MUG 4302 Instrumental Conducting and Materials 1-2 Credits
Grading Scheme: Letter Grade
Basic techniques of instrumental conducting, score analysis, interpretation and use of basic instrumental materials.
Prerequisite: Music major.

MUH 1005 Artistic Revelation 3 Credits
Grading Scheme: Letter Grade
Students in this course will examine texts that composers set to music, identify elements in the text that influence the way the words are set to music, explore what the poet and composer/songwriter were trying to express, and evaluate whether the musical settings of text are successful. The repertoire selected for study in this course is primarily from, but not exclusive to, the Western canon. Students will learn how to interpret the meaning of both the text and music, what poets and musicians were attempting to convey through their art, and what it means for us as the audience of that art.
Attributes: Quest 1, General Education - Humanities, General Education - International

MUH 1006 Music as a Time Capsule 3 Credits
Grading Scheme: Letter Grade
How does music crystallize moments in our history, memory, and collective experience as humans? We all live with an ever-growing personal soundtrack, and even decades later, music can bring us back to certain important moments in our lives. The same is true of collective memory, when music is the result of, or becomes associated with, monumental human movements and events: arts and literature, religion, political and societal upheaval. In this class we will use pivotal pieces in Western classical music as a lens to examine different angles of our human history. We will examine the historical circumstances, politics, religion, and psychology that fomented the landscape of music being composed and performed, and how that landscape consequently affected our sense of collective culture and identity. We will examine the complicated legacy of music as it captures and expresses cultural norms in an ever-changing world. As students learn about these factors, they will also examine and reflect upon how this knowledge impacts their own understanding and subjective experience. This class aspires to help each individual build their own vocabulary for expressing the fundamental connections between music, society, culture, and the human experience. No prior musical experience or literacy is required, only a willingness to listen with intention.
Attributes: Quest 1, General Education - Humanities

MUH 1007 Music and Social Engagement with the Environment 3 Credits
Grading Scheme: Letter Grade
This course will address the essential question of “Who are we in relation to the natural world?” Sound is integral to the way we as humans engage with the world around us, from the sound worlds of animals and plants to those of human creativity and technology. In this course, we use music and sound as a way to understand the urgency of current issues in environmentalism and ecology. Using listening as an ethical practice, we will explore music in classical, popular, and experimental veins. We will hear sounds created by both American composers and artists from around the globe, and we will also dig into our personal and community soundscapes. Drawing on recent themes in the growing field of Ecomusicology, we will seek to deepen our understanding of how we relate to the environment and become more aware of the central place of sound and the environment in our lives.
Attributes: Quest 1, General Education - Humanities

MUH 2501 Introduction to World Musics 3 Credits
Grading Scheme: Letter Grade
Introduction to musics of non-western cultures in comparison with music of Western European civilizations; the nature of music and the realm of ethnomusicology. (N)
Attributes: General Education - International

MUH 3025 Popular Music in the USA: From Ragtime to Hip-Hop and Beyond 3 Credits
Grading Scheme: Letter Grade
Surveys the musical styles, artists, audiences, and eras of American popular music in relation to the social, cultural, political, and historical contexts in which they emerged. Gives special attention to the diversity and intersecting nature of musical voices in the USA through the examination of musical styles including rock, rhythm and blues, country, punk, hip-hop, salsa, and beyond.
Prerequisite: Sophomore standing or higher.

MUH 3211 Music History Survey 1 3 Credits
Grading Scheme: Letter Grade
A survey of music literature, styles, and techniques from antiquity to c. 1750. Examines representative repertoire from historical, theoretical, and cultural contexts and develops critical thinking skills in reading, writing, analysis, and listening.
Prerequisite: MUT 1111 and MUT 1112.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

MUH 3212 Music History Survey 2 3 Credits
Grading Scheme: Letter Grade
Surveys music literature, styles, and techniques from c. 1750 to the present day, and examines representative repertoire from historical, theoretical, and cultural contexts. Also develops critical-thinking skills in reading, writing, analysis, and listening.
Prerequisite: Music majors and (MUH 3211 with a minimum grade of C or MUT 2117 with a minimum grade of C).
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

MUH 3530 Popular and Traditional Musics of Africa 3 Credits
Grading Scheme: Letter Grade
A study of traditional and popular African musical styles placed within their historical, social and cultural environments. (N)
Prerequisite: MUH 2501 or written instructor permission.
Attributes: General Education - International

MUH 3532 Music and Healing in Contemporary Africa 3 Credits
Grading Scheme: Letter Grade
Explores the historical role of music in healing traditions across African by exploring practices based around dance, religion, ritual and modern health care methodologies. Outlines the changing historical perspectives of Western rational thought on art-based practices, contextualizing contemporary approaches throughout the continent.
Prerequisite: ENC 1101 or instructor permission.

MUH 3541 Latin American Music 3 Credits
Grading Scheme: Letter Grade
The variable musical expressions of Latin America (including the Caribbean), their historical formations and social importance. (N)
Prerequisite: MUL 2010 or instructor permission.
Attributes: General Education - International

MUH 3621 Jewish Art Music in Western Culture 3 Credits
Grading Scheme: Letter Grade
Cultural history of western art music inspired by Jewish subjects, Biblical and non-Biblical, composed by both Jewish and non-Jewish composers, and a survey of Jewish performing musicians from the Renaissance to the present. (N)
Prerequisite: written instructor permission.
Attributes: General Education - International

MUH 4016 History of Jazz 3 Credits
Grading Scheme: Letter Grade
From African, Latin American, and Black American sources through contemporary development.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International

MUH 4530 African Popular Music and Globalization 3 Credits
Grading Scheme: Letter Grade
This course engages with a wide variety of African popular musics in different contexts of transformation, with the main objective of developing and nuancing our understanding of what “popular music” means in Africa within histories of culture contact. The course will provide foundational understanding of the field of ethnomusicology and popular music studies, with particular attention to how African music has been impacted by globalization through its contact with the West.
Prerequisite: Major or minor in music, or permission of instructor.

MUH 4537 Jazz, Hip Hop, and African Connections 3 Credits
Grading Scheme: Letter Grade
Considers how African music and culture have influenced African American musical expression since the beginning of the transatlantic slave trade and up through the development of the blues, jazz, soul music, hip hop, and RB. Also considers how such cultural flows have moved in both directions, from the foundations of African American music in African aesthetics, to the ways that jazz and hip-hop musicians have made explicit reference or taken inspiration from Africa.
Prerequisite: Music major or minor, or permission of instructor.

MUH 4722 Timbre: Critical Discussions 3 Credits
Grading Scheme: Letter Grade
Critically examines timbre by engaging with the following questions: What is timbre, and how is it related to sound? What scholarship has addressed timbre and in what ways? How can timbre be effectively discussed and written about? By exploring timbre in classical and popular music genres, as well as in specific works, and by considering timbre through lenses such as music education and race, seek to better understand what some scholars argue is a rather nebulous phenomenon.
Prerequisite: MUH 3211 or MUH 3212 with minimum grades of C.

MUH 4724 Music and Audience 3 Credits
Grading Scheme: Letter Grade
Considers the role and function of the audience in conjunction with the symphony, opera, and ballet. Historical readings cover what audiences were like in the Classical Period, Romantic Era, and the Twentieth Century, and major masterworks of those time periods are discussed. The modern audience is considered by discussing recent publications in various mediums and attending two live concerts.
Prerequisite: MUH 3211 or MUH 3212 with minimum grades of C.

MUH 4930 Special Topics in Music History 3 Credits
Grading Scheme: Letter Grade
Rotating topics of current or special interest to students or instructors.
Prerequisite: Music major.

MUL 2010 Experiencing Music 3 Credits
Grading Scheme: Letter Grade
In this course, students will survey the history of classical music from antiquity to the modern period, focusing on Western music. The curriculum may also integrate a variety of popular and global styles where appropriate.
Attributes: General Education - Humanities, General Education - International

MUL 3341 Baroque Literature 3 Credits
Grading Scheme: Letter Grade
Compositions of Monteverdi, Gabrieli, Schultz, Buxtehude, Bach, Handel and others.
Prerequisite: MUL 2010 or MUH 3211.

MUL 3693 The American Musical: Broadway and Beyond 3 Credits
Grading Scheme: Letter Grade
Provides non-music majors and music minors with an introduction to the history and development of the American musical, focusing on the genre's relationship to American culture and society. Topics include musical and dramatic features of specific works, principal creators and performers, commercialization and popularity, the genre's relationship to film, its role in the formation of America's national identity, and its communication of American values, attitudes and norms with regard to different cultures.
Prerequisite: MUL 2010, MUL 2501 or instructor permission.

MUL 4334 Renaissance Literature 3 Credits
Grading Scheme: Letter Grade
Renaissance literature surveys the music from the period roughly 1430-1600, stressing the major genres of mass, motet, madrigal and chanson, and touching on less prominent regional practices and instrumental music. The music is placed into social and historical context. (N)
Prerequisite: MUL 2010 or MUH 3211.
Attributes: General Education - International

MUL 4361 Romantic Literature 3 Credits
Grading Scheme: Letter Grade
Representative Romantic literature in such genres as the symphony, symphonic poem, opera, song, chamber music, piano music and sacred music. Composers from Beethoven through Mahler. (N)
Prerequisite: MUL 2010 or MUH 3211.
Attributes: General Education - International

MUL 4371 Contemporary Literature 3 Credits
Grading Scheme: Letter Grade
Twentieth-century music literature, including works of Debussy, Ravel, Stravinsky, Schoenberg, Webern, Berg, Hindemith, Bartok, Copland, Sessions, Boulez and Stockhausen. (N)
Prerequisite: MUL 2010 or MUH 3211.
Attributes: General Education - International

MUL 4400 Piano Literature Seminar 2-3 Credits
Grading Scheme: Letter Grade
A survey of piano literature from early keyboard works to the present.
Prerequisite: professional performance jury and musicianship assessment jury.

MUL 4432 String Lit Seminar 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MUL 4441 Woodwind Literature Seminar 2 Credits
Grading Scheme: Letter Grade
An intensive, investigative study of representative repertoire for woodwind instruments.
Prerequisite: professional performance jury and musicianship assessment jury.

MUL 4442 Brass Literature Seminar 2 Credits
Grading Scheme: Letter Grade
An intensive, investigative study of standard repertoire for brass instruments.
Prerequisite: professional performance jury and musicianship assessment jury.

MUL 4460 Percussion Literature Seminar 2 Credits
Grading Scheme: Letter Grade
An intensive, investigative study of standard repertoire for solo percussion and percussion ensemble.
Prerequisite: Music major.

MUL 4490 Organ Literature Seminar 2 Credits
Grading Scheme: Letter Grade
A survey of the major trends and styles of organ composition from the Renaissance to the present.
Prerequisite: professional performance jury and musicianship assessment jury.

MUL 4602 Song Literature Seminar 2-3 Credits
Grading Scheme: Letter Grade
The study and performance of representative literature for the voice from each style period.
Prerequisite: professional performance jury and musicianship assessment jury.

MUL 4662 History and Literature of Opera 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only.
Prerequisite: School of Music major.

MUL 4801 The Music of J.S. Bach 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only. The works of Bach with special emphasis on the historical sources of his choral and instrumental styles and detailed study of a selection of his chief works.
Prerequisite: MUL 2010 or MUH 3211.

MUL 4802 The Music of W.A. Mozart 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only. The music, life and times of Mozart.
Prerequisite: MUL 2010 or MUH 3211.

MUM 1054 Social Impact of Music Entrepreneurs 3 Credits
Grading Scheme: Letter Grade
This course unveils how music entrepreneurs champion empowering initiatives through their lyrics and musical expressions, conveying their perspectives across various platforms such as interviews, digital media, and strategic partnerships with non-profit organizations. Additionally, they establish music businesses and non-profits that serve as beacons of awareness for selected issues. With a focus on developing essential skills for navigating the contemporary music industry in the united states and beyond, this course equips students with the tools to create a personal enterprise. Through artistic (musical) expressions, students will learn how to influence global issues, contributing to the ongoing dialogue on the human condition.
Attributes: Quest 1, General Education - Humanities

MUM 4005 Found Music Business 3 Credits
Grading Scheme: Letter Grade
This course is intended (1) to foster a comprehensive and chronological understanding of the music business, and (2) to observe how rapid changes in the global music industry challenge music professionals and music business organizations to become more entrepreneurial in their planning and practice.
Prerequisite: the course is intended for undergraduate music majors and minors. Non-music majors or minors may enroll with permission of the instructor.

MUM 4051 Music Entrepreneurship Dev 3 Credits
Grading Scheme: Letter Grade
This course is intended to equip music students with a comprehensive foundation, resources, and skill set for improving marketability and success as a music entrepreneur upon graduation. Students will develop various skills for understanding and engaging in business, legalities, communication arts, innovative content creation, and niche development within music entrepreneurship.
Prerequisite: undergraduate music majors and minors. Non-music majors or minors may enroll with instructor permission.

MUM 4500C Music Production in Commercial Media 3 Credits
Grading Scheme: Letter Grade
Equips music students with a comprehensive foundation, resources, and skill set for improving marketability and success as a music entrepreneur upon graduation. Students will develop various skills for understanding and engaging in business, legalities, communication arts, innovative content creation, and niche development within music entrepreneurship.
Prerequisite: MUS1360 Introduction to Music Technology with a grade of C or better.

MUM 4561C Multimedia Production for the Music Industry 3 Credits
Grading Scheme: Letter Grade
This course is intended to develop independent music professionals' skills for creating enthralling multimedia content and implementing strategic communication strategies for (1) applying effective target marketing via online platforms, (2) increasing employability for multimedia music presentations, and (3) expanding vocational opportunities within various sectors of the music industry.
Prerequisite: MUS1360 Introduction to Music Technology with a grade of C or better.

MUM 4950 Capstone Project I 3 Credits
Grading Scheme: Letter Grade
Synthesizing vocational interests with theory and practice by engaging in music business/entrepreneurship-related research and practice in the early stages of development of, or refinement of, a business plan, Projects reflect a comprehensive application of music business and entrepreneurship concepts. First of two capstone courses.
Prerequisite: MUM 4500C with a grade of C or better.

MUM 4951 Capstone Project 2 3 Credits
Grading Scheme: Letter Grade
Synthesize vocational interests with theory and practice by engaging in music business/entrepreneurship-related research and practice in the final stages of development of, or refinement of, a business plan. Projects reflect a comprehensive application of music business and entrepreneurship concepts. Second of two capstone courses.
Prerequisite: MUM 4950 with a minimum grade of a C.

MUN 1110 Marching Band 1 Credit
Grading Scheme: Letter Grade
Performance of marching band literature.

MUN 1120 Concert Band 1 Credit
Grading Scheme: Letter Grade
Performance of general and popular band literature, including selections from the Western canon.
Attributes: General Education - Humanities

MUN 1130 Symphonic Band 1 Credit
Grading Scheme: Letter Grade
An ensemble of wind and percussion instrumentalists performing traditional and contemporary wind band and chamber ensemble repertoire, including selections from the Western canon as well as newly-commissioned works.
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 1140 Wind Symphony 1 Credit
Grading Scheme: Letter Grade
Performance of traditional and contemporary band literature, including selections from the Western canon.
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 1210 University Orchestra 1 Credit
Grading Scheme: Letter Grade
Standard orchestra literature, including selections from the Western canon and beyond.
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 1310 University Choir 1 Credit
Grading Scheme: Letter Grade
An advanced choral group providing specialized study performance opportunities for vocally qualified students, including selections from the Western canon.
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 1320 Women's Glee Club 1 Credit
Grading Scheme: Letter Grade
Vocal training and public performances of standard female chorus repertoire, including selections from the Western canon.
Attributes: General Education - Humanities

MUN 1330 Men's Glee Club 1 Credit
Grading Scheme: Letter Grade
Vocal training and public performance of tenor-bass chorus repertoire. Draws literature from a variety of historical periods (including selections from the Western canon), cultures, and musical styles, presenting varied perspectives and experiences. Explore the key elements of the literature including the origin, historical context, and form of song texts, compositional techniques, and performance practices.
Attributes: General Education - Humanities

MUN 1380 Choral Union 1 Credit
Grading Scheme: Letter Grade
Mixed choral ensemble open to students, faculty, staff, and local residents who have previous choral experience. Course literature is drawn from a variety of historical periods, cultures, and musical styles, presenting students with varied perspectives and experiences.
Prerequisite: Consent of instructor (successful audition).

MUN 1440 Percussion Ensemble 1 Credit
Grading Scheme: Letter Grade
The study and performance of ensemble literature for percussion instruments, including selections from Western canon. (H)
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 1460 Chamber Music Ensemble 1-3 Credits
Grading Scheme: Letter Grade
Examination and performance of standard repertoire for chamber ensembles.
Prerequisite: Music major.

MUN 1710 Jazz Bands 1 Credit
Grading Scheme: Letter Grade
Standard and experimental jazz ensembles. A jazz laboratory which includes selections from the Western canon. (H)
Attributes: General Education - Humanities

MUN 1810 Steel Drum Ensemble 1 Credit
Grading Scheme: Letter Grade
Prerequisite: Music major.

MUN 1831 World Music Ensemble – African Popular Music Ensemble 1 Credit
Grading Scheme: Letter Grade
Specializes in the popular music of the African continent, with a special focus on Afrobeat, highlife, soukous, African jazz, and the brass band traditions of Africa and the diaspora.

MUN 2022L Laptop and Electronic Arts Ensemble 1 Credit
Grading Scheme: Letter Grade
Explores composing and coding for and performance with live electronic musical instruments. Also covers fundamentals of sound synthesis, audio programming, instrument design, human-computer interaction, sound-driven multimedia, data sonification, and electronic concert production and documentation. Using the instruments that they design, students perform their electronic works and works of their colleagues during a two concert experiences over the course of the semester.

MUN 2800 World Music Ensemble 1 Credit
Grading Scheme: Letter Grade
The rehearsal and performance of folk and traditional musics of the world.
Prerequisite: Music major.

MUN 3015L Commercial Music Ensemble 1 Credit
Grading Scheme: Letter Grade
Provides the tools and experience necessary to excel as musicians in the commercial music world. Analyze, study, arrange, and perform a variety of commercial styles including rock, pop, jazz, funk, alternative, country, soul, RB, Latin, World, and more.
Prerequisite: 4 credits of MUN 1000 or higher with minimum grades of C.

MUN 3113 Marching Band 1 Credit
Grading Scheme: Letter Grade
Performance of marching band literature.
Prerequisite: Audition.

MUN 3123 Concert Band 1 Credit
Grading Scheme: Letter Grade
Performance of general and popular band literature.
Prerequisite: Junior standing or higher.

MUN 3133 Symphonic Band 1 Credit
Grading Scheme: Letter Grade
Performance of traditional and contemporary band literature.
Prerequisite: Music major.

MUN 3143 Wind Symphony 1 Credit
Grading Scheme: Letter Grade
Performance of wind ensemble literature.
Prerequisite: Music major.

MUN 3213 University Orchestra 1 Credit
Grading Scheme: Letter Grade
Standard orchestra literature.
Prerequisite: Music major.

MUN 3313 University Choir 1 Credit
Grading Scheme: Letter Grade
An advanced choral group providing specialized study performance opportunities for vocally qualified students.
Prerequisite: Music major.

MUN 3323 Chorale 1 Credit
Grading Scheme: Letter Grade
Vocal training and public performance of varied treble chorus repertoire.
Prerequisite: Junior standing or higher.

MUN 3333 Glee Club 1 Credit
Grading Scheme: Letter Grade
Vocal training and public performance of standard male chorus repertoire.
Prerequisite: Junior standing or higher.

MUN 3343 University Chamber Singers 1 Credit
Grading Scheme: Letter Grade
Study and performance of early and contemporary vocal literature.
Prerequisite: Music major.

MUN 3383 Choral Union 1 Credit
Grading Scheme: Letter Grade
Mixed choral ensemble open to students, faculty, staff, and local residents who have previous choral experience. Course literature is drawn from a variety of historical periods, cultures, and musical styles, presenting students with varied perspectives and experiences.
Prerequisite: Consent of instructor (successful audition).

MUN 3443 Percussion Ensemble 1 Credit
Grading Scheme: Letter Grade
Prerequisite: Music major.

MUN 3454 Two Piano Literature 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.
Prerequisite: MVK 2421.

MUN 3463 Chamber Music 1-2 Credits
Grading Scheme: Letter Grade
Exploration of the assigned repertoire through weekly one-hour coaching sessions with the instructor, a minimum of three hours weekly of unsupervised group rehearsal and a final performance by each group on the class recital. Students will study the art of chamber music interpretation and performance and develop effective group rehearsal technique.
Prerequisite: Music major.

MUN 3493 New Music Ensemble 1 Credit
Grading Scheme: Letter Grade
Rehearsal and performance of repertoire for small ensembles written in the 20th and 21st centuries.
Prerequisite: Music major.

MUN 3643 Musical Theatre Ensemble 1 Credit
Grading Scheme: Letter Grade
Offered in Miami only. Examination and performance of standard repertoire for the musical theatre.
Prerequisite: director permission.

MUN 3713 Jazz Bands 1 Credit
Grading Scheme: Letter Grade
Standard and experimental jazz ensembles. A jazz laboratory.
Prerequisite: Audition.

MUN 3714 Jazz Chamber Music 1 1 Credit
Grading Scheme: Letter Grade
Small group ensemble performance experience in the jazz idiom. Students will memorize jazz standards and learn melody interpretation techniques, rhythmic techniques to communicate to other members of the ensemble and small group compositional techniques for harmonizing jazz standards and original compositions.
Prerequisite: MUT 1362 with a minimum grade of B.

MUN 3813 Steel Drum Ensemble 1 Credit
Grading Scheme: Letter Grade
Prerequisite: Music major.

MUN 3833 World Music Ensemble - African Popular Music Ensemble 1 Credit
Grading Scheme: Letter Grade
Specializes in the popular music of the African continent, with a special focus on Afrobeat, highlife, soukous, African jazz, and the brass band traditions of Africa and the diaspora.
Prerequisite: Junior standing or above.

MUN 4016 Ensemble Participation 0 Credits
Grading Scheme: Letter Grade
Ensemble of variable instrumentation and/or voices performing traditional and contemporary repertoire. For upper-division students who have completed required credits of ensemble participation or elective credits for their degree program, this ensemble exists to allow them to continue performing in ensembles without impacting semester load credits, or excess hours credits. This course allows students from any degree to continue participation in ensembles in support of the university.
Prerequisite: four MUN-prefix ensembles and audition (where required) and instructor permission and completion of required large ensemble or elective credits and departmental consent.

MUN 4642 Musical Theatre Instrumental Ensemble 1 Credit
Grading Scheme: Letter Grade
Provides an intermediate understanding of musical theatre instrumental styles and practices from the 1930s to the present. Incorporating one or more of these forms and techniques each semester, it's recommended for musicians who would like to broaden their commercial repertoire and enhance their skills for professional engagements.
Prerequisite: Audition or faculty recommendation.

MUN 4940L Music Internship Ensemble 1 Credit
Grading Scheme: Letter Grade
Provides supervised, evaluated, and practical music business-related training in music ensembles on- and off-campus, such as facilitating audio and media products (recordings and promotional videos), marketing materials (flyers and social media advertisements), and managerial tasks that advance designated ensemble success.
Prerequisite: Two semesters of MUN 3015L with minimum grades of C.

MUO 3503 Opera Workshop 1 Credit
Grading Scheme: Letter Grade
Study and performance of works from opera and operetta.
Prerequisite: Music major.

MUR 3104 Music and the Catholic Church 3 Credits
Grading Scheme: Letter Grade
Examines the music of the Catholic Church from historical and artistic perspectives and presents issues that have surrounded major changes in the church's music. Focuses on six historical periods in which the church was significantly focused on musical developments or changes. Views the music from various cultural perspectives, primarily US and European.
Attributes: Satisfies 4000 Words of Writing Requirement

MUS 1010 Recital Attendance 0 Credits
Grading Scheme: S/U
Attendance at concerts and recitals. Check the School of Music student's handbook for specific attendance requirements.
Prerequisite: Music major.

MUS 1307 Music, Robots, Lawyers, and You! 3 Credits
Grading Scheme: Letter Grade
The twentieth century saw the creation of physical music media (such as phonographs, long playing records, cassette tapes) that changed the way we listen to, participate in, understand, and engage with music making. Music throughout the world as well as in the Western canon were affected by these advanced cultural and technological changes. Questions around reproduction, how they affect concepts of the voice and body, the hauntological, issues around labor, and the audiovisual litany grew as media changed and adapted. The move to digital media (mp3 files, streaming music, digital music platforms such as Bandcamp, SoundCloud, and YouTube) only enhanced these questions and concerns. This course will examine the current state of music making, in regard to the digital, computational, legal, and ethical. This course will take an interdisciplinary approach to questions around music making and its myriad meanings in a digital age.
Attributes: Quest 1, General Education - Humanities

MUS 1360 Digital Musicianship and Production 2-3 Credits
Grading Scheme: Letter Grade
Provides the fundamentals of music technology in the context of its historical and cultural use. Addresses scientific foundations of acoustics, hearing, and digital audio as well as technical skills for music production; students will work on practical applications of these concepts and techniques. Furthermore, the instructor will encourage students to critically explore cultural aspects of music technology.
Prerequisite: Music major.

MUS 1610 An Echo of the Invisible World: Exploring the Relationship Between Music & Spirituality 3 Credits
Grading Scheme: Letter Grade
Examines the relationship between music and spirituality, within and outside the context of organized religion. Consider the underlying philosophies in spiritual music and practices, compare them to contemporary American culture, and address their own beliefs and practices through selected case studies and projects.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, General Education - Humanities, General Education - International

MUS 2211 English Diction 1 Credit
Grading Scheme: Letter Grade
An English diction course for singers and choral directors to improve their capacity to respond with ease, accuracy and expression.
Prerequisite: Music major.

MUS 2221 French Diction 1 Credit
Grading Scheme: Letter Grade
A French diction course for singers and choral directors to improve their capacity to respond with ease, accuracy and expression.
Prerequisite: Music major.

MUS 2231 German Diction 1 Credit
Grading Scheme: Letter Grade
A German diction course for singers and choral directors to improve their capacity to respond with ease, accuracy and expression.
Prerequisite: Music major.

MUS 2241 Italian Diction 1 Credit
Grading Scheme: Letter Grade
An Italian diction course for singers and choral directors to improve their capacity to respond with ease, accuracy and expression.
Prerequisite: Music major.

MUS 2931 Interdisciplinary Honors in Music 3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.
Attributes: Satisfies 6000 Words of Writing Requirement

MUS 4203 Language and Diction for Singers 2 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

MUS 4204 Language and Diction for Singers 1 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

MUS 4905 Projects and Problems in Music 1-3 Credits
Grading Scheme: Letter Grade
Individual work in music and music education.
Prerequisite: Music major.

MUS 4910 Supervised Research 1-3 Credits
Grading Scheme: S/U
Individual guided research in music and music education.
Prerequisite: Music major.

MUT 1001 Introduction to Music Theory Rudiments 2 Credits
Grading Scheme: Letter Grade
The study of notation, scales, intervals, triads, aural skills, and keyboard skills.
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MUT 1011 How Music Works 3 Credits
Grading Scheme: Letter Grade
Students gain an understanding of musics architecture on small and large scales. By learning both conceptual and applied approaches to rhythm, pitch and timbre, students prepare to analyze musical works from various times and places to be more informed, critical listeners and makers of music. Skills developed include notation, ear training and compositional techniques.

MUT 1111 Music Theory 1 2 Credits
Grading Scheme: Letter Grade
Studies rhythms, intervals, motifs, phrases, melodies, chords and chord progressions, in the standard clefs through listening, playing, and writing. Chord study includes primary and secondary triads in root position and inversions, non-harmonic tones and seventh chords.
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MUT 1112 Music Theory 2 2 Credits
Grading Scheme: Letter Grade
Rhythms, intervals, motifs, phrases, melodies, chords and chord progressions, in the standard clefs through listening, playing, singing and writing. Chord study includes primary and secondary triads in root position and inversions, non-harmonic tones and diatonic seventh chords.
Prerequisite: Music major.

MUT 1214 Jazz Aural Skills 1 1 Credit
Grading Scheme: Letter Grade
This course teaches students how to aurally recognize commercial chords, standard chord progressions and recognize the scales used in improvisation. This course is a hybrid course with only 7 in class meetings. The course utilizes online resources and instructional videos and online aural quizzes and weekly aural skills drills.
Prerequisite: MUT 1361 with a grade of B or higher.

MUT 1241L Aural Skills 1 1 Credit
Grading Scheme: Letter Grade
First of a sequence of four courses that develop skills in sight singing and ear training. Singing techniques are taught at the beginning of the course.
Prerequisite: Music major.

MUT 1242L Aural Skills 2 1 Credit
Grading Scheme: Letter Grade
Second of a sequence of four courses that develop skills in sight singing and ear training.
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MUT 1361L Commercial Music Theory and Practice 1 2 Credits
Grading Scheme: Letter Grade
Provides an intermediate theoretical understanding of jazz and commercial music harmony, jazz chord symbols, common jazz scales and modes, articulations, blues forms, piano voicings, the basics of tune writing, and techniques in accurately memorizing jazz and commercial standards. Online resources include online platform, flash cards, worksheets and 35 instructional videos. This course is recommended for all musicians who pursue a deeper understanding of commercial music.
Prerequisite: Students wishing to enroll in Commercial Music Theory and Practice 1 must take a Proficiency Exam and score a B or better.

MUT 1362L Commercial Music Theory and Practice 2 2 Credits
Grading Scheme: Letter Grade
Building upon concepts and skills learned in the first course in the series, the second course covers an advanced theoretical understanding of jazz and commercial harmony, jazz chord symbols, common jazz scales and modes, jazz articulations, blues forms, piano voicings, the basics of tune writing, and techniques in accurately memorizing jazz and commercial standards. Online resources include online platform, flash cards, worksheets, and 35 instructional videos.
Prerequisite: MUT 1361 with a minimum grade of C.

MUT 2116 Music Theory 3 2 Credits
Grading Scheme: Letter Grade
Using Roman numerals, analyze harmonically the music of the common practice period; includes all harmonic materials studied to date such as Borrowed chords, Neapolitan 6th chords, and Augmented 6th chords. The study of forms from the 18th and 19th Centuries.

MUT 2117 Music Theory 4 2 Credits
Grading Scheme: Letter Grade
The study of the materials and structures of tonal and post-tonal music through reading, listening, model composition, and music analysis.
Prerequisite: Music major.

MUT 2126 Theory of Music 3 3 Credits
Grading Scheme: Letter Grade
Modulation, secondary dominants, diminished sevenths, Neapolitan and augmented sixth, chords of the ninth, eleventh, thirteenth, sight singing and dictation.
Prerequisite: Music major;
Corequisite: MVK 2121 or MVK 2222.

MUT 2127 Theory of Music 4 3 Credits
Grading Scheme: Letter Grade
Modulation, secondary dominants, diminished sevenths, Neapolitan and augmented sixth, chords of the ninth, eleventh, thirteenth, sight singing and dictation.
Prerequisite: Music major;
Corequisite: MVK 2121 or MVK 2222.

MUT 2213L Commercial Aural Skills I 1 Credit
Grading Scheme: Letter Grade
Provides a comprehensive foundation in commercial aural skills by engaging in focused aural activities and exercises that fortify competencies to pursue a commercial music career. Topics include aurally identifying or transcribing commercial music elements such as harmony, grooves (rhythms and styles), repertoire, and audio production parameters.
Prerequisite: MVK 1112 and MUT 1242L with a passing grade of C.

MUT 2215L Commercial Aural Skills 2 1 Credit
Grading Scheme: Letter Grade
Builds on MUT 2213L by engaging in focused aural activities and exercises that fortify competencies to pursue a commercial music career. Topics include aurally identifying or transcribing commercial music elements such as advanced harmony, grooves (rhythms and styles), genres, and audio production parameters.
Prerequisite: MUT 2213L with a grade of C.

MUT 2246L Aural Skills 3 1 Credit
Grading Scheme: Letter Grade
Third of a sequence of four courses that develop skills in sight singing and ear training.
Prerequisite: Music major.

MUT 2247L Aural Skills 4 1 Credit
Grading Scheme: Letter Grade
Fourth in a sequence of four courses that develop skills in sight singing and ear training.
Prerequisite: Music major.

MUT 2641 Jazz Improvisation 2 Credits
Grading Scheme: Letter Grade
Prerequisite: written instructor permission.

MUT 3321 Arranging for Voices and Instruments 3 Credits
Grading Scheme: Letter Grade
Study of voices and instruments, singly and by family, with basic scoring for standard ensemble combinations.
Prerequisite: Music major.

MUT 3322 Scoring for Band and Orchestra 3 Credits
Grading Scheme: Letter Grade
Transcribing and arranging for full band and orchestra, including preparation of parts for performance.
Prerequisite: Music major.

MUT 3611 Form and Analysis 1 3 Credits
Grading Scheme: Letter Grade
Analysis of melodic structures and homophonic forms of the common practice period including binary, ternary, rondo and sonata-allegro forms.
Prerequisite: Music major.

MUT 3612 Form and Analysis 2 3 Credits
Grading Scheme: Letter Grade
Analysis of contrapuntal forms of canon, motet and fugue; study of musical forms in the 20th century.
Prerequisite: Music major.

MUT 3622 Musical Data Structures 3 Credits
Grading Scheme: Letter Grade
Engage with computational methods for the analysis and generation of musical materials and structures to better understand how humans produce and interact with them. Topics covered include music representation and encoding, music information retrieval, corpus studies, machine improvisation, and procedural music generation. These techniques will be considered in the context of many different aesthetics, styles, genres, theoretical frameworks, and societal contexts.
Prerequisite: Junior standing or higher.

MUT 4365 Jazz Arranging 1 2 Credits
Grading Scheme: Letter Grade
This course provides instruction in jazz composition and arranging as well as the basic techniques for commercial song writing. Students will study chord movement, melodic development and composition techniques for various styles of music. Students will complete several small group arrangements and original jazz compositions.
Prerequisite: MUT 1362 and MUT 2641 with minimum grades of B.

MUT 4366 Jazz Arranging 2 2 Credits
Grading Scheme: Letter Grade
This course provides instruction in jazz composition and arranging as well as the basic techniques for commercial song writing. Students will score a large group arrangement and a big band chart for eight brass, five saxophones and four rhythm section players.
Prerequisite: MUT 4365 with a minimum grade of B.

MUT 4401 Counterpoint 1 3 Credits
Grading Scheme: Letter Grade
Addresses the practice of two-voice counterpoint in Renaissance and Baroque styles with additional focus on historical context. Through composition, study, performance and listening, students gain fluency in both strict and free two-part counterpoint, compound melody, canon, antiphon and inventions.
Prerequisite: Music major.

MUT 4402 Counterpoint 2 3 Credits
Grading Scheme: Letter Grade
Continues the study of counterpoint begun in MUT 4401, expanding two-voice composition and analysis into three and four voices. Straddling the late Renaissance and the Baroque, the techniques covered in this class prepare students to write and fully comprehend modal motets as well as tonal fugues. Through analysis, composition, study, performance and listening, students will gain competence in the strict techniques and idioms of multi-voiced imitative entrance, sequence and subject harmonization. Students will also familiarize themselves with Bach's The Well-Tempered Clavier both for its technical uses of counterpoint, exemplary and exceptional, and its historical significance. The course concludes with a brief excursion into the use of chromaticism in later contrapuntal styles.
Prerequisite: Music major.

MUT 4421 Tonal Counterpoint 3 Credits
Grading Scheme: Letter Grade
Counterpoint in the 18th-century style through listening, reading, playing, singing and writing.
Prerequisite: Music major.

MUT 4601 Score Reading 2 Credits
Grading Scheme: Letter Grade
Score-reading at the keyboard. Exercises in realization of music in two or more staves and clefs, and involving instrumental transpositions.
Prerequisite: Music major.

MUT 4663 Advanced Jazz Musicianship 2 Credits
Grading Scheme: Letter Grade
Instruction covers implementing jazz harmony, chord symbols, jazz scales and modes, jazz articulations, and techniques for accurately memorizing jazz standards. Lessons focus on implementing these concepts in jazz performances. This course uses the music of the blues, jazz standards, and contemporary music as "play along" tools.
Prerequisite: MUT 1362 with a grade of B or higher and instructor permission.

MVB 1411 Trumpet 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 1412 French Horn 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 1413 Trombone 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 1414 Euphonium 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 1415 Tuba 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 2421 Trumpet 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 2422 French Horn 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 2423 Trombone 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 2424 Euphonium 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 2425 Tuba 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 3431 Trumpet 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 3432 French Horn 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 3433 Trombone 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 3434 Euphonium 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 3435 Tuba 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVB 4441 Trumpet 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 4442 French Horn 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 4443 Trombone 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 4444 Euphonium 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 4445 Tuba 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVB 4640 Brass Instruments Pedagogy 3 Credits
Grading Scheme: Letter Grade
An analysis of the principles, methods and practices currently used in the teaching of brass instruments.
Prerequisite: Music major.

MVB 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance majors must present a public recital during their senior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVK 1111 Secondary Piano 1 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVK 1112 Secondary Piano 2 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 1411 Piano 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 1412 Harpsichord 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 1413 Organ 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 1415 Carillon 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 2174L Commercial Keyboard Skills 1 1 Credit
Grading Scheme: Letter Grade
Provides a comprehensive foundation in commercial keyboard skills by engaging in activities and exercises that fortify competencies to pursue a commercial music career. Topics include standard commercial chord progressions, eight-bar comping patterns and riffs, bass lines, ii-V-I progressions, and lead sheets.
Prerequisite: MVK 1112 and MUT 1242L with a minimum grade of a C.

MVK 2175L Commercial Keyboard Skills 2 1 Credit
Grading Scheme: Letter Grade
Provides a comprehensive foundation in commercial keyboard skills by engaging in activities and exercises that fortify competencies to pursue a commercial music career. Topics include advanced chord voicings, songs, improvisations, and lead sheets utilizing various commercial keyboard patches.
Prerequisite: MVK 2174L with a minimum grade of a C.

MVK 2221 Secondary Piano 3 1-3 Credits
Grading Scheme: Letter Grade
This course is required of all music majors, with the exception of keyboard majors. Levels (3) and (4) may be exempted by examination.
Prerequisite: Music major.

MVK 2222 Secondary Piano 4 1-3 Credits
Grading Scheme: Letter Grade
This course is required of all music majors, with the exception of keyboard majors. Levels (3) and (4) may be exempted by examination.
Prerequisite: Music major.

MVK 2421 Piano 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 2422 Harpsichord 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 2423 Organ 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 2425 Carillon 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 3431 Piano 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 3432 Harpsichord 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 3433 Organ 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 3435 Carillon 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 3702 Accompanying 2 Credits
Grading Scheme: Letter Grade
Instrumental chamber music, song, orchestral reductions and editions.
Prerequisite: Music major.

MVK 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVK 4126 Improvisational Keyboard Skills and Related Technology 2 Credits
Grading Scheme: Letter Grade
Study of improvisational skills, electric keyboard technology, and musical styles outside of the classical realm.
Prerequisite: Music major.

MVK 4441 Piano 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 4442 Harpsichord 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 4443 Organ 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 4600 Organ Pedagogy 3 Credits
Grading Scheme: Letter Grade
An analysis of the principles, methods and practices currently in the teaching of organ.
Prerequisite: Music major.

MVK 4640 Piano Pedagogy 3 Credits
Grading Scheme: Letter Grade
An analysis of the principles, methods and practices currently used in the teaching of piano.
Prerequisite: Music major.

MVK 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance must present a public recital during the senior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVO 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVP 1411 Percussion 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVP 2421 Percussion 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVP 3431 Percussion 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVP 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVP 4441 Percussion 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVP 4640 Percussion Pedagogy 3 Credits
Grading Scheme: Letter Grade
Help future applied and classroom teachers develop the skills necessary to be successful. Teaching projects focus on applied teaching and requires group instruction. Required for Percussion Performance majors.
Prerequisite: MVP 1411.

MVP 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance majors must present a public recital during the senior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVS 1116 Class Guitar 1 Credit
Grading Scheme: Letter Grade
Introduction to playing the guitar which assumes no prior instruction. There is no previous experience required, and all students who have expressed a desire to learn how to play the guitar are welcome.

MVS 1411 Violin 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 1412 Viola 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 1413 Cello 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 1414 String Bass 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 1416 Guitar 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 2117 Class Guitar 2 1 Credit
Grading Scheme: Letter Grade
Class Guitar 2 is an intermediate level group class teaching students that have had prior guitar experience or have taken Class Guitar 1 (beginner level). Prior experience or skill is necessary and the course is open to all students regardless of major.
Prerequisite: MVS 1116 (with minimum grade of C) or Instructor Approval.

MVS 2421 Violin 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 2422 Viola 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 2423 Cello 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 2424 String Bass 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 2426 Guitar 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 3431 Violin 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 3432 Viola 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVS 3433 Cello 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 3434 String Bass 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 3436 Guitar 1-3 Credits
Grading Scheme: Letter Grade
Courses offered under the MVS 1416, 2426, 3436, 4446 heading are intended to teach intermediate through advanced study of classical guitar and are available only through the permission of the instructor. Lesson times will be arranged at the beginning of each semester.
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVS 4441 Violin 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 4442 Viola 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 4443 Cello 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 4444 String Bass 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 4446 Guitar 1-3 Credits
Grading Scheme: Letter Grade
Courses offered under the MVS 1416, 2426, 3436, 4446 heading are intended to teach intermediate through advanced study of classical guitar and are available only through the permission of the instructor. Lesson times will be arranged at the beginning of each semester.
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVS 4640 String Instrument Pedagogy 3 Credits
Grading Scheme: Letter Grade
An introduction to the teaching of basic string instrument techniques.
Prerequisite: Music major.

MVS 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance majors must present a public recital during their senior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVV 1411 Voice 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVV 2421 Voice 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVV 3431 Voice 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVV 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVV 4441 Voice 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major or Theatre Performance (Musical Theatre) major.

MVV 4640 Vocal Pedagogy 1-3 Credits
Grading Scheme: Letter Grade
An analysis of various methods, principles and practices in the teaching of voice.
Prerequisite: Music major.

MVV 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance and church music majors must present a public recital during their senior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVW 1411 Flute 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 1412 Oboe 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 1413 Clarinet 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 1414 Bassoon 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 1415 Saxophone 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 2421 Flute 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 2422 Oboe 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 2423 Clarinet 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 2424 Bassoon 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 2425 Saxophone 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 3431 Flute 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 3432 Oboe 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 3433 Clarinet 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 3434 Bassoon 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 3435 Saxophone 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVW 4441 Flute 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 4442 Oboe 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 4443 Clarinet 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 4444 Bassoon 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 4445 Saxophone 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 4640 Woodwind Instruments Pedagogy 3 Credits
Grading Scheme: Letter Grade
An analysis of the principles, methods and practices currently used in the teaching of woodwind instruments.
Prerequisite: Music major.

MVW 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance majors must present a public recital during their senior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

Nuclear and Radiological Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

- Nuclear Engineering

Courses

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Department permission.

ENU 1000 Introduction to Nuclear Engineering 1 Credit
Grading Scheme: Letter Grade
Introduction to the nuclear engineering field and careers in the nuclear industry. Topics include engineering ethics, nuclear history, elementary nuclear and reactor physics, reactor types, nuclear safety, nuclear fuel cycle and radiation protection.

ENU 2002 Fundamentals of Nuclear Engineering 2 Credits
Grading Scheme: Letter Grade
Two one-hour lectures discussing fundamental concepts in nuclear engineering, including nuclear physics, nuclear reactors, careers in nuclear engineering and related fields, and current issues in nuclear engineering.

ENU 3132 Reactor Thermal Engineering 1 4 Credits
Grading Scheme: Letter Grade
Covers the first and second laws of thermodynamics and their applications to nuclear fission reactor systems, including power cycle analysis; steady-state and transient conduction with applications; and the current regulatory structure for nuclear fission reactors.
Prerequisite: MAC 2313 and PHY 2048.

ENU 4001 Nuclear Engineering Analysis 1 4 Credits
Grading Scheme: Letter Grade
Continuous and discrete variable solution methods for the statistical, algebraic, differential and integral equations important in nuclear engineering. Topics covered include probabilities and statistics, basic programming, linear algebra.
Prerequisite: MAC 2313;
Corequisite: MAP 2302.

ENU 4003 Nuclear Engineering Analysis 2 4 Credits
Grading Scheme: Letter Grade
A continuation of ENU 4001. Nuclear application contents: finite diff./geometries, numerical methods, differential equations and solution methods of relevance to nuclear problems, basic AI-components.
Prerequisite: ENU 4001 with a minimum grade of C.

ENU 4103 Reactor Analysis and Computation I 4 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing neutron reactions, fission chain and criticality and neutron transport/diffusion for nuclear reactors. Neutron thermalization and thermal scattering kernels. Dynamic analysis of reactors including point and space-time models. Feedback and reactor dynamics and control. Short-term transient analysis and long-term time-dependence.

ENU 4104 Reactor Analysis and Computation 2 3 Credits
Grading Scheme: Letter Grade
Continuation of ENU 4103. Three one-hour lectures discussing neutron thermalization and thermal scattering kernels. Treatment of resonances and Doppler broadening. Dynamic analysis of reactors including point model and space-time models. Feedback and reactor dynamics and control. Short-term transient analysis and long-term time dependence.
Prerequisite: ENU 4103.

ENU 4110 Power Plant Simulation 3 Credits
Grading Scheme: Letter Grade
Instruction and practical experience in the operation and interpretation of results from major nuclear reactor simulation codes, such as TRACE, RELAP5, RETRAN, CATHARE, and SAM.
Prerequisite: ENU 4103.
Corequisite: ENU 4134.

ENU 4133 Reactor Thermal Engineering 2 4 Credits
Grading Scheme: Letter Grade
Covers single-phase flow and convective and radiative heat transfer topics for the analysis and design of light water reactors, as well the technology of existing pressurized water reactors
Prerequisite: ENU 3132.

ENU 4134 Reactor Thermal Engineering 3 4 Credits
Grading Scheme: Letter Grade
Covers two-phase flow and heat transfer topics for the analysis and design of light water reactors, single-channel analysis, boiling water reactors, steam generators, natural circulation, and accident scenarios in nuclear fission energy systems.
Prerequisite: ENU 4133 or EGN 3353C and EML 4140.

ENU 4144 Nuclear Power Plant Reactor Systems 1 3 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing the basis for light water reactor (LWR) design; the NRC design criteria for LWRs. Study of the major systems, components and performance characteristics of LWRs including fuels, primary and secondary coolant systems, emergency and auxiliary systems.
Prerequisite: EML 3100 and ENU 4605 and ENU 4001 with minimum grades of C.

ENU 4145 Risk Assessment and Economic Analysis of Nuclear Systems 3 Credits
Grading Scheme: Letter Grade
Probabilistic risk assessment, including fault trees, event trees, reliability block diagrams, component reliability modeling; and economic analysis, including sensitivity studies, capital cost, levelized cost of electricity, of nuclear systems.
Prerequisite: ENU 4104 and ENU 4134.

ENU 4180 Introduction to the Nuclear Fuel Cycle 3 Credits
Grading Scheme: Letter Grade
Fuel cycle from mining through waste management including economics and policy concerns/constraints. Physical and chemical processes in the conventional nuclear fuel cycle: uranium mining and milling, conversion, enrichment, fuel fabrication, reactor operations, interim storage, reprocessing and recycling, waste treatment and disposal. Nonproliferation, nuclear forensics, alternative fuel cycles and future prospects will also be considered.
Prerequisite: ENU 4103

ENU 4191 Elements of Nuclear and Radiological Engineering Design 1 Credit
Grading Scheme: Letter Grade
The first of a two-course capstone design sequence. A one-hour lecture that provides preparatory work for ENU 4192. Identification of initial design project(s) and areas of work, selection/assignment of groups to areas of work/tasks, accumulation of reference materials and computer codes and development of initial timelines/milestones.
Prerequisite: ENU 4103 & ENU 4133.

ENU 4192 Nuclear and Radiological Engineering Design 3 Credits
Grading Scheme: Letter Grade
Continuation of ENU 4191. Nuclear reactor theory and engineering as applied to design synthesis of reactors. Nuclear, material, thermo-fluid and/or mechanical design considerations of nuclear reactors with particular emphasis on design characteristics. Analytical methods and application of computer codes for design analysis and evaluation. Individual and/or group design involving integration of reactor neutronics, dynamics and control, thermal hydraulics, transient analysis and safety, power production, instrumentation, control, radiation shielding and protection, fuel cycle, fuel behavior and/or cost.
Prerequisite: ENU 4191 with a minimum grade of C & ENU 4134 & ENU 4612 & ENU 4630.

ENU 4300 Radiochemistry 3 Credits
Grading Scheme: Letter Grade
Basic concepts of the fundamental behavior of radionuclides, radioanalytical techniques, and applications to nuclear fuel cycle.
Prerequisite: (CHM 2046 or CHM 2096) & ENU 4605.

ENU 4370 Nuclear Security Science 3 Credits
Grading Scheme: Letter Grade
The nuclear fuel cycle from the perspective of nuclear forensics, security, nonproliferation, and safeguards and in the context of international nuclear policies. Nuclear threats are balanced with the past history of nuclear weapons use, current nonproliferation technology, and the growth of the international nuclear industry. Signatures including radiological and morphological characteristics of nuclear material is introduced as well as the techniques for the detection of special nuclear mater.
Prerequisite: ENU 4605.

ENU 4505L Nuclear and Radiological Engineering Laboratory 1 3 Credits
Grading Scheme: Letter Grade
Two one-hour lectures discussing experimental procedures used in reactor operation, personnel monitoring, radiation detection devices and the statistics of nuclear counting systems. Also includes a four-hour laboratory experience that integrates practical applications of radiation sources, radiation interactions, radiation transport and radiation diction. (WR)
Prerequisite: ENU 4612.
Attributes: Satisfies 4000 Words of Writing Requirement

ENU 4605 Radiation Interactions and Sources 1 4 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing interaction of ionizing radiation with matter; cross sections and radiation fields with emphasis on photons, heavy charged particles and electrons.
Prerequisite: PHY 2049.

ENU 4612 Nuclear Radiation Detection and Instrumentation 3 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing the physics and electronics of radiation detection and instrumentation systems for application to nuclear energy, radiological sciences, radiation protection, medical physics and imaging, and industrial safety and control systems.
Prerequisite: ENU 4605.

ENU 4612L Nuclear Radiation Detection and Instrumentation Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments related to the physics and electronics of radiation detection and instrumentation systems for application to nuclear energy, radiological sciences, radiation protection, medical physics and imaging, and industrial safety and control systems.
Prerequisite: ENU 4605.

ENU 4630 Fundamental Aspects of Radiation Shielding 3 Credits
Grading Scheme: Letter Grade
Basic principles of radiation shielding and applied radiation safety. The course material will include study of radiation sources, shielding design of radiation facilities, radiation protection, and regulations for radiation protection. .
Prerequisite: ENU 4605 with a minimum grade of C.

ENU 4641C Applied Radiation Protection 2 Credits
Grading Scheme: Letter Grade
Two one-hour lectures of introduction to practical radiation protection techniques and practices, including laboratory experiences. Examination of pertinent regulations, current practice, ethics and instrumentation/measurement practices. Design of facilities and controls to optimize benefits of radiation applications and minimize exposure risks. (WR)
Prerequisite: ENU 4605 with a minimum grade of C and ENU 4630.
Attributes: Satisfies 2000 Words of Writing Requirement

ENU 4710 Plasma and Fusion 3 Credits
Grading Scheme: Letter Grade
Introduces plasma physics along with its application to fusion science.
Prerequisite: PHY 2049 and ENU 4001.

ENU 4800 Introduction to Nuclear Reactor Materials 3 Credits
Grading Scheme: Letter Grade
Provides a comprehensive knowledge on the types of materials used in nuclear reactors, their response to the reactor environments and most of the materials problems encountered in the operation of nuclear power reactors for energy production.
Prerequisite: EMA 3050 or ENU 4605.

ENU 4905 Special Problems in Nuclear and Radiological Engineering 1-6 Credits
Grading Scheme: Letter Grade
Individually selected problems or projects in the students' major field of engineering study.
Prerequisite: department chair recommendation.

ENU 4906 Special Problems in Nuclear and Radiological Engineering Design 1-6 Credits
Grading Scheme: Letter Grade
Individually selected design problems or design projects in the student's major field of engineering study.
Prerequisite: department chair recommendation.

ENU 4930 Special Topics in Nuclear and Radiological Engineering 1-4 Credits
Grading Scheme: Letter Grade
Special courses covering selected topics in nuclear engineering.
Prerequisite: instructor permission.

ENU 4934 Fundamentals of Nuclear and Radiological Engineering 1 Credit
Grading Scheme: Letter Grade
Presentations and discussions on topics of current and continuing interest in nuclear engineering sciences.
Prerequisite: Nuclear Engineering major of junior standing or higher.

ENU 4944 Practical Work in Nuclear and Radiological Engineering 1-5 Credits
Grading Scheme: Letter Grade
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations.
Prerequisite: NUE_BSNE Nuclear Engineering Major.

ENU 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Three-hour laboratory of practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations.
Prerequisite: 4EG classification and one term of industrial employment, including extra work according to a pre-approved outline.

Nursing

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The nursing education programs offered at UF address gaps in the health care system, as do the college's innovations in technological resources and initiatives linking students to diverse and international populations. The College of Nursing has a history of pioneering leadership in nursing education, having offered Florida's first nurse practitioner programs and first PhD in Nursing Science program.

Curriculum

- Nursing
- Nursing | RN to BSN UF Online

Courses

NUR 2650 Transcultural Communications in Health Care Today 3 Credits
Grading Scheme: Letter Grade
Broadens the perceptions and understanding of health care beliefs and practices of specific cultural groups in the United States; fosters the development of essential communication skills and techniques necessary for effective multidisciplinary teams and culturally sensitive practice.
Attributes: Satisfies 2000 Words of Writing Requirement

NUR 3066C Clinical Reasoning: Health Assessment 3 Credits
Grading Scheme: Letter Grade
Establishes a foundation of clinical reasoning, data collection, and documentation for patient assessment. Focuses on normal findings and variations across the lifespan. Acquire the knowledge, skills, and attitudes necessary to perform a health assessment.
Prerequisite: Nursing major.

NUR 3106 Lead and Inspire 1: Professional Nursing Practice 2 Credits
Grading Scheme: Letter Grade
Provides a foundation for exploring and evaluating the roles, functions, and perspectives of the professional nurse. Emphasizes the history of nursing, ethical and legal issues, policy, and standards of professional nursing practice as a basis for professional development and transformation.
Prerequisite: Nursing major.

NUR 3123 Pathophysiology and Pharmacology 4 Credits
Grading Scheme: Letter Grade
Increases understanding of cellular physiology and alterations in structure and function resulting from the action of stressors on the human body at the cellular level.
Prerequisite: RN to BSN major.

NUR 3128 Pathophysiology/Pharmacology in Nursing 2 3 Credits
Grading Scheme: Letter Grade
Second of a two-semester sequence which emphasizes examining pathophysiology of human illness in diverse groups of individuals across the lifespan utilizing a systems based approach; incorporates nursing implications for safe and effective delivery of related pharmacotherapeutic agents.
Prerequisite: NUR 3196.

NUR 3168 Lead and Inspire 2: Research and Evidence-Based Nursing 2 Credits
Grading Scheme: Letter Grade
Provides a foundation for evidence-based nursing practice; emphasizes problem identification and assessing and analyzing evidence to support the delivery of personalized nursing care.
Prerequisite: NUR 3106.

NUR 3169 Inquiry and Evidence in Professional Nursing Practice 3 Credits
Grading Scheme: Letter Grade
Examines the processes required to translate and to integrate evidence into nursing practice.
Prerequisite: admission to upper-division BSN Program.

NUR 3196 Pathophysiology/Pharmacology in Nursing 1 4 Credits
Grading Scheme: Letter Grade
This course is part one of a two semester sequence for pre-licensure students examining pathophysiology and pharmacology of human illness in diverse groups of individuals across the lifespan. Emphasis is on alterations in homeostatic mechanisms and underlying bases for disease risk/manifestations. Corresponding pharmacokinetics, pharmacodynamics and pharmacogenetic principles will be included.
Prerequisite: Admission to the Nursing Program

NUR 3219C Clinical Reasoning and Personalized Nursing Care: Adult Acute Conditions 4 Credits
Grading Scheme: Letter Grade
Provides foundational knowledge and principles of personalized nursing care while caring for adults with acute illnesses or injury. Emphasizes care coordination and interprofessional collaboration to optimize wellness and recovery of adults. Focuses on evidence-based, safe, cost effective, quality care to achieve optimal health outcomes.
Prerequisite: NUR 3066C and NUR 3737C and NUR 3196.

NUR 3227C Principles of Personalized Nursing Care 2 2 Credits
Grading Scheme: Letter Grade
Second of a two-semester sequence which emphasizes integration and application of personalized nursing care across the lifespan and health care settings; focuses on interprofessional collaboration and clinical reasoning in the delivery of evidence based, safe, cost-effective quality care.
Prerequisite: NUR 3737C and NUR 3066C.

NUR 3535C Clinical Reasoning and Personalized Nursing Care: Mental Health 4 Credits
Grading Scheme: Letter Grade
Provides foundational knowledge and principles of personalized nursing care in prevention, treatment, and recovery of mental illness and substance misuse disorders across the life span. Emphasizes the use of biobehavioral theories to design personalized nursing care for promoting mental health and recovery.
Prerequisite: NUR 3066C and NUR 3737C and NUR 3196.

NUR 3737C Principles of Personalized Nursing Care 1 6 Credits
Grading Scheme: Letter Grade
Provides a foundation of personalized nursing care in individuals across the lifespan. Emphasizes integrating and applying multiple dimensions of cultural and social determinants of health. Focuses on evidence-based, safe, quality care, and achievement of optimal patient outcomes using the nursing process.
Prerequisite: Nursing major.

NUR 3805 Professional Nursing in the Evolving Healthcare System 3 Credits
Grading Scheme: Letter Grade
Builds on initial nursing education to enhance professional development, prepare for a broader scope of practice, and provide deeper understanding of the cultural, political, economic, and social issues that affect clients and influence care delivery.
Prerequisite: RN to BSN major.

NUR 3816 Seminar in Professional Nursing 1 Credit
Grading Scheme: Letter Grade
Relates past nursing practice and current academic achievements to professional nursing role development.
Prerequisite: NUR 3123 and NUR 3826;
Corequisite: NUR 3197 and NUR 3169.

NUR 3826 Legal and Ethical Issues in Nursing 2 Credits
Grading Scheme: Letter Grade
Examines the legal issues and ethical dilemmas in nursing practice. Consequences of ethical misconduct and legal malpractice are explored. Focus is on case analysis of legal and ethical issues.
Prerequisite: Junior standing or higher.

NUR 3946L Individual Clinical Practice 1-5 Credits
Grading Scheme: S/U
Additional opportunities for nursing practice. Objectives to be developed collaboratively by student and faculty.
Prerequisite: 8 credits of 3000/4000-level nursing courses or instructor permission.

NUR 4108 Lead and Inspire 3: Policy and Change in Nursing Practice 3 Credits
Grading Scheme: Letter Grade
Introduces strategies that support safe, effective, and ethical nursing care in health care systems. Emphasizes developing knowledge and demonstrating behaviors that enable the professional nurse to lead and participate in the design, revision, and implementation of policies to improve nursing practice and healthcare outcomes.
Prerequisite: NUR 3168 and NUR 3128 and NUR 3227C and NUR 3219C and NUR 3535C.

NUR 4467C Clinical Reasoning and Personalized Nursing Care: Women, Children and Families 6 Credits
Grading Scheme: Letter Grade
Acquire and apply knowledge and principles of personalized nursing care for women, children, and families; emphasizes applying a biobehavioral approach to care of the child-bearing and child-rearing family.
Prerequisite: NUR 3227C and NUR 3219C and NUR 3535C and NUR 3168 and NUR 3128.

NUR 4636C Clinical Reasoning and Personalized Nursing Care: Population Health 4 Credits
Grading Scheme: Letter Grade
Provides knowledge and principles of personalized nursing care required for community/public health nursing practice. Emphasizes integrating community-based, community-oriented, and population-focused concepts and focuses on health maintenance and promotion, risk reduction, and disease prevention within individuals, communities, and populations to achieve optimal health outcomes.
Prerequisite: NUR 4467C and NUR 4768C and NUR 4108.

NUR 4766C Clinical Reasoning and Personalized Nursing Care: Adult Complex Conditions 6 Credits
Grading Scheme: Letter Grade
Provides in-depth knowledge of personalized nursing care of adults with complex conditions. Emphasizes multisystem illness requiring multi-faceted approaches to treatment across settings and focuses on nursing leadership, care coordination, and advocacy to provide safe, cost-effective high quality health care that improves quality of life.
Prerequisite: NUR 4467C and NUR 4768C and NUR 4108.

NUR 4768C Clinical Reasoning and Personalized Nursing Care: Adult Chronic Conditions 6 Credits
Grading Scheme: Letter Grade
Provides foundational knowledge and principles of personalized nursing care for adults with chronic illnesses. Emphasizes care coordination and chronic disease management and focuses on interprofessional collaboration, evidence-based care, and clinical reasoning to achieve improved health outcomes and quality of life in adults with chronic conditions.
Prerequisite: NUR 3227C and NUR 3219C and NUR 3535C and NUR 3168 and NUR 3128.

NUR 4815 Professional Nursing Transformation 3 Credits
Grading Scheme: Letter Grade
Provides an opportunity to apply professional behaviors, clinical reasoning, and evidence-based decision making to address clinical issues related to nursing care. Emphasizes participation in the design and/or implementation of a project relevant to clinical nursing practice and dissemination to peers and stakeholders.
Prerequisite: NUR 4108 and NUR 4768C and NUR 4467C.
Attributes: Artificial Intelligence

NUR 4827 Lead and Inspire 4: Leadership and Innovation in Nursing Practice 2 Credits
Grading Scheme: Letter Grade
Synthesize the roles, functions, and perspectives of the professional nurse utilizing the lead and inspire concepts; emphasizes leadership and innovation to transform professional nursing practice and healthcare systems.
Prerequisite: NUR 4108 and NUR 4467C and NUR 4768C.
Attributes: Artificial Intelligence

NUR 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Individual study. Qualified students may choose particular issues for study.
Prerequisite: 8 credits of 3000/4000-level nursing courses or instructor permission.

NUR 4930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Prior to registration, students should contact the College of Nursing for special topics offered.

NUR 4935 Honors Seminar in Nursing 3 Credits
Grading Scheme: S/U
The honors seminar provides a unique and challenging experience for students who have exhibited exceptional academic ability to enhance the development of creativity and the ability to engage in scientific inquiry.
Prerequisite: NUR 3168.

Occupational Therapy

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

HSC 4643 Access and Rehabilitation in Serving Vulnerable Populations 3 Credits
Grading Scheme: Letter Grade
Trace the interplay of social movements and federal law designed to improve the participation of people with disabilities in society. This course imparts understanding of legislation about vulnerable citizens. Knowledge gained can be used to critique policies for vulnerable populations.
Prerequisite: HSC 3502 with a minimum grade of C.

OTH 3282 Multicultural Perspectives on Participation and Health 3 Credits
Grading Scheme: Letter Grade
The influence of participation in life's' activities (i.e., self-care, work, play school, etc.) and its impact on health of persons with and without disabilities across cultures will be analyzed throughout the lifespan. . A small group project with students from another country will enhance multicultural perspective and cultural competency.
Prerequisite: PSY 2012 or instructor permission. Junior standing or higher recommended.

OTH 3413C Applied Kinesiology 3 Credits
Grading Scheme: Letter Grade
Biomechanics of movement, palpation, goniometry, manual muscle testing, and motion analysis for occupational therapy.
Prerequisite: HSC 3502 & OTH 3416 both with a minimum grade of C & (HES_BHS major).

OTH 4412 Musculoskeletal Anatomy 3 Credits
Grading Scheme: Letter Grade
Comprehensive foundation in the human musculoskeletal system.
Prerequisite: HES_BHS major and (HSC 3502 and OTH 3416 and OTH 3413C with minimum grades of C).
Corequisite: OTH 4412L.

OTH 4412L Musculoskeletal Anatomy Laboratory 2 Credits
Grading Scheme: Letter Grade
Intensive laboratory study of the human musculoskeletal system.
Prerequisite: HSC 3502 & OTH 3416 & OTH 3413C all with minimum grade of C & (HES_BHS major).
Corequisite: OTH 4412.

OTH 4418 The Nervous System and Disorders 3 Credits
Grading Scheme: Letter Grade
Comprehensive foundation in neuroanatomy, neurophysiology, and neuropathology.
Prerequisite: HSC 3502 and HSC 4558 and OTH 3416 and Health Science major or minor.
Corequisite: OTH 4418L.

OTH 4418L The Nervous System and Disorders Laboratory 2 Credits
Grading Scheme: Letter Grade
Intensive laboratory study, under supervision, of cadaver musculoskeletal anatomy.
Prerequisite: HSC 3502 and HSC 4558 and OTH 3416 and Health Science major or minor.
Corequisite: OTH 4418.

Packaging Science

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

PKG 3001 Principles of Packaging 3 Credits
Grading Scheme: Letter Grade
Focuses on the materials, uses, functions, and production processes of packaging. Topics include an industry overview and related applications as well as the historical, societal, and technological drivers of packaging and how end-users decide on the product/package combination they use for their product and the impact these choices make on the product's market success.
Prerequisite: Junior standing or higher.

PKG 3103 Food Packaging 3 Credits
Grading Scheme: Letter Grade
Studies major technical, safety and legislative issues involved in modern food packaging practices. Includes the physical and chemical properties of food packaging materials and a survey of modern packaging techniques for various food types.
Prerequisite: CHM 2045. Fall.

PKG 4008 Distribution and Transport Packaging 3 Credits
Grading Scheme: Letter Grade
Studies containment, protection, and preservation practices related to transporting and delivery of packages.
Prerequisite: Junior standing or higher.

PKG 4011 Packaging Production and Processing 3 Credits
Grading Scheme: Letter Grade
Studies operations and machinery used in modern packaging lines. Topics include high-speed forming, filling, sealing, labeling, check weighing, inspection, coding, palletizing, and shipping.
Prerequisite: Junior standing or higher.

PKG 4101C Computer Tools for Packaging 3 Credits
Grading Scheme: Letter Grade
Studies the computer tools applicable to the packaging industry. Topics include label design, bar code technology, spreadsheet programming, 3D package design, and distribution efficiency analysis.
Prerequisite: Junior standing or higher.

PKG 4905 Individual Work in Packaging Engineering 1-6 Credits
Grading Scheme: Letter Grade
Selected problems or projects enhance knowledge of packaging engineering related topics.
Prerequisite: Instructor permission.

PKG 4932 Special Topics in Packaging Engineering 1-6 Credits
Grading Scheme: Letter Grade
Lectures, laboratory, and/or special projects.
Prerequisite: Instructor permission.

PKG 4941 Work Experience in Packaging Engineering 1-3 Credits
Grading Scheme: S/U
Work experience in the packaging science industry.
Prerequisite: Instructor permission.

Pest Management | Plant Protection

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

The crop science departments and the supporting disciplines of entomology and nematology, plant sciences, plant pathology, and forest resources and conservation offer the following general and cross-department courses in pest management.

Refer to Agricultural Operations Management for AOM 3333 Pesticide Application and Agricultural General for AGG 5505 Plant Protection in Tropical Ecosystems.

Courses

IPM 3022 Fundamentals of Pest Management 3 Credits
Grading Scheme: Letter Grade
Fundamentals of Pest Management
Prerequisite: Sophomore standing or higher.

IPM 4114 Insect Pest and Vector Management 3 Credits
Grading Scheme: Letter Grade
Covers the principles and practices used in pest and vector management, and also emphasizes the arthropod pests affecting crop and ornamental plants, humans and livestock.
Prerequisite: Introductory course in entomology.

IPM 4254 Landscape Integrated Pest Management: Ornamentals and Turf 3 Credits
Grading Scheme: Letter Grade
Landscape pest pressure is influenced by many factors. The development of sound integrated pest management plans for landscapes focuses on identification of abiotic factors, weeds, insects, mites, pathogens and nematodes that occur on Florida landscape ornamentals, turfgrass and palms.
Prerequisite: ENY 3005 or NEM 3002 or PLP 3002C.

PMA 4570C Field Techniques in IPM 2 Credits
Grading Scheme: Letter Grade
Prerequisite: IPM 3022.

Pharmacy

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

Ranked by US News & World Report as the No. 1 pharmacy college in Florida and in the Top 10 nationally, the University of Florida College of Pharmacy has been developing future leaders in pharmacy practice and science for nearly a century.

Curriculum

- Pharmacy | Preprofessional

Courses

PHA 3931 Honors Seminar in Pharmaceutical Research: In Search of Magic Bullets 3 Credits
Grading Scheme: Letter Grade
Overview of the issues associated with pharmaceutical research: drug discovery process, clinical research, drug tragedies, government laws and regulations, pharmaceutical care and drug efficacy versus risk. In addition, specific drug research by pharmacy faculty is presented and discussed. (WR)
Prerequisite: honors program only.
Attributes: Satisfies 6000 Words of Writing Requirement

PHA 4910 Undergraduate Research in Pharmaceutical Outcomes and Policy 0-3 Credits
Grading Scheme: S/U
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member.

PHA 4911 Undergraduate Research in Pharmacodynamics 0-3 Credits
Grading Scheme: S/U
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member.

PHA 4912 Undergraduate Research in Pharmaceutics 0-3 Credits
Grading Scheme: S/U
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member.

PHA 4913 Undergraduate Research in Medicinal Chemistry 0-3 Credits
Grading Scheme: S/U
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member.

PHA 4914 Undergraduate Research in Pharmacotherapy and Translational Research 0-3 Credits
Grading Scheme: S/U
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member.

PHA 4933 Selected Topics in Pharmacy 1-3 Credits
Grading Scheme: Letter Grade
Undergraduates work on a project or complete a term paper under the supervision of a pharmacy faculty member.
Prerequisite: instructor permission.

PTN 2001 Medications and Health 2 Credits
Grading Scheme: Letter Grade
Provides a general overview of various pharmacy topics and concepts, including the use of medications, prescription, non-prescription, vitamins, and dietary supplements, in treating selected diseases and conditions. Also included is a history of pharmacy, health and wellness, and current and emerging fields within pharmacy. In addition, the role of pharmacists along with other health care team members to ensure proper use of medications, will be emphasized.

Philosophy

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Philosophy addresses foundation questions. These are questions the answers to which inform our basic understanding of one or another domain of inquiry, or some fundamental aspect of the world or ourselves or our relation to the world.

Curriculum

- Combination Degrees
- Philosophy
- Philosophy Minor

Courses

HPS 3003 Perspectives on Science and Mathematics 3 Credits
Grading Scheme: Letter Grade
Explores the different ways that scientists and mathematicians since the 17th century have explained the workings of the natural world.
Prerequisite: UFTeach Step 1.

IDS 1114 Ethics and the Public Sphere 3 Credits
Grading Scheme: Letter Grade
Examination of the ways in which ethical concerns are aired and debated in the public sphere, including civic institutions, media organizations, and the market. Questions explored may touch on such topics as honesty in media, humility in the face of disagreement, and the pursuit of justice in a contentious society.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

PHH 3100 Ancient Greek Philosophy 3 Credits
Grading Scheme: Letter Grade
Sustained study of Plato and Aristotle with some consideration of pre-Socratic antecedents and Hellenistic successors. (WR)
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHH 3111 Ancient Ethical and Political Thought 3 Credits
Grading Scheme: Letter Grade
Examines ancient Greek and Roman political theories and their ethical foundations.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHH 3200 Medieval Philosophy 3 Credits
Grading Scheme: Letter Grade
Surveys medieval philosophy. Philosophers to be read may include Augustine, Boethius, Anselm, Maimonides, Aquinas, Duns Scotus and Ockham. Topics include the nature of God, universals, individuation and future contingents.
Prerequisite: one course in philosophy.

PHH 3400 Modern Philosophy 3 Credits
Grading Scheme: Letter Grade
Surveys the work of major philosophers of the 17th and 18th centuries, from Descartes to Kant, in the primary texts.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHH 3610 Happiness and Well-Being 3 Credits
Grading Scheme: Letter Grade
Examines major philosophical theories of human happiness and well-being from both historical and contemporary perspectives. Topics may include self-interest, pleasure, subjective vs. objective conceptions of happiness, autonomy and the relation between morality and happiness.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHH 4141 Seminar in Ancient Philosophy 3 Credits
Grading Scheme: Letter Grade
Variable topic seminar focusing on a particular topic, period or school in the philosophy of Greco-Roman antiquity.
Prerequisite: a 3000-level philosophy course or department permission.

PHH 4420 Seminar in Modern Philosophy 3 Credits
Grading Scheme: Letter Grade
Variable topic seminar focusing on a period, school or topic in 17th or 18th century philosophy.
Prerequisite: a 3000-level philosophy course or department permission.

PHH 4644 Continental Philosophy 3 Credits
Grading Scheme: Letter Grade
Studies selected works by 19th and 20th century continental philosophers, with emphasis determined by the instructor. Selections may include such thinkers as Hegel, Nietzsche, Heidegger, and Foucault.
Prerequisite: a 3000-level course with the prefix PHI, PHH, PHM, or PHP.

PHH 4911 Undergraduate Research in History of Philosophy 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

PHH 4930 Seminar in a Major Philosopher 3 Credits
Grading Scheme: Letter Grade
Variable topic seminar on the work of a major historical or contemporary philosopher such as Plato, Aristotle, Aquinas, Descartes, Hobbes, Leibniz, Spinoza, Berkeley, Hume, Rousseau, Kant, Hegel, Mill, Marx, Nietzsche, Husserl, Heidegger, Russell, Moore, Sartre, Wittgenstein and Quine.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 1001 Conflict of Ideas 3 Credits
Grading Scheme: Letter Grade
Examination of conflict in the realm of ideas, including both factors (psychological, social, logical) that make conflicts difficult and methods that may help us engage in them in a principled and effective way. Readings are drawn from multiple disciplines, which may include philosophy, history, linguistics, sociology, and cognitive science.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

PHI 1322 The Idea of Happiness 3 Credits
Grading Scheme: Letter Grade
Examination of the concept of happiness as explored in philosophy, literature, art, and other products of human culture. Readings drawn from both historical and contemporary sources are used both to articulate theories of happiness and to help students think about what kinds of lives they want to live.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

PHI 1643 Cultural Animals 3 Credits
Grading Scheme: Letter Grade
Examination of the ways in which humans are products of both culture and nature, focusing on our moral and political practices. Topics may cover the evolutionary underpinnings (both biological and cultural) of our moral practices and political convictions as well as our treatment of and relationships with nonhuman animals. Incorporates literary and other works from the Western canon.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

PHI 1680 AI, Philosophy & Society 3 Credits
Grading Scheme: Letter Grade
In the past few years, the capabilities of AI-based systems have grown explosively due to the development of a new technology, large language models. These systems, known informally as “chatbots,” are trained on a significant portion of the text and images that humanity has collectively produced over centuries. As a result, they have developed the ability to perform tasks that we normally associate with human-level intelligence, such as writing essays, writing computer programs, and passing graduate-level exams. In this course, we will explore the philosophical and social implications of this powerful new technology. This course will engage with research from several academic disciplines, including computer science, psychology, philosophy, and economics, as well as the Western canon.
Attributes: Quest 1, Artificial Intelligence, General Education - Humanities

PHI 2010 Introduction to Philosophy 3 Credits
Grading Scheme: Letter Grade
In this course, students will be introduced to the nature of philosophy, philosophical thinking, and major intellectual movements in the history of philosophy, including topics from the western philosophical tradition, and various problems in philosophy. Students will strengthen their intellectual skills, become more effective learners, and develop broad foundational knowledge.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHI 2100 Logic 3 Credits
Grading Scheme: Letter Grade
A survey at an elementary level of a variety of different methods of formal and informal analysis of the logical structure of propositions and arguments. Possible topics include syllogistic logic, propositional logic, quantification logic, inductive logic, informal fallacies and probability.
Attributes: General Education - Mathematics

PHI 2630 Contemporary Moral Issues 3 Credits
Grading Scheme: Letter Grade
An introduction to moral philosophy as applied to contemporary issues. Assigned readings include foundational texts in ethics and morality by philosophers such as J.S. Mill, Kant, Hobbes, and Aristotle. This course includes selections from the Western canon.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHI 2631 Ethics and Innovation 3 Credits
Grading Scheme: Letter Grade
Grounding in ethical theory and moral reasoning with a focus on changes at both organizational and societal levels, including, for instance, technological innovations, new business practices, and legal changes. Examines the rights and responsibilities of those making such changes as well as the conditions that facilitate responsible decision making.
Attributes: Artificial Intelligence, General Education - Humanities, Satisfies 4000 Words of Writing Requirement

PHI 3114 Reasoning 3 Credits
Grading Scheme: Letter Grade
Practical methods for understanding reasoned argumentation; instruction in the use of diagrammatic techniques to develop both interpretations and criticisms of philosophical arguments as well as in the application of these techniques in the writing of critical essays on a range of philosophical topics.
Prerequisite: sophomore or higher standing or (PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 with a minimum grade of C) or (philosophy major or philosophy minor) or instructor permission.

PHI 3130 Symbolic Logic 3 Credits
Grading Scheme: Letter Grade
Systematic study of forms of deduction. Techniques and topics include truth-functional analysis and quantification.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHI 3300 Theory of Knowledge 3 Credits
Grading Scheme: Letter Grade
Studies the central topics and concepts of the theory of knowledge, including the analysis of the concepts of knowledge, truth, justification and related concepts, the nature of empirical knowledge, the problem of skepticism, the nature of a priori knowledge, and the structure of the justification of our beliefs.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHI 3400 Philosophy of Natural Science 3 Credits
Grading Scheme: Letter Grade
Studies central contemporary issues in the philosophy of natural science: the nature of laws, the logic of discovery and the relationships between different sciences. The sciences used for illustration vary with the instructor.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHI 3420 Philosophy of the Social Sciences 3 Credits
Grading Scheme: Letter Grade
Studies the possibility of social laws, the nature of social explanation and rationality, and the role of value judgments in social-scientific research.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHI 3459 Medicine and Philosophy 3 Credits
Grading Scheme: Letter Grade
Examines areas in which medicine and philosophy overlap, including philosophy of science as applied to medical research, ethical theories as applied to medical cases, and moral reflection on the institution of medicine. Provides information about contemporary medical practice and research as well as tools for their critical assessment.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3500 Metaphysics 3 Credits
Grading Scheme: Letter Grade
Studies the problems of first philosophy: the concepts of existence, essence, object, property, and event; universals and particulars; the nature of change, possibility, causation, space, and time. Discusses traditional philosophical issues such as free will, the mind/body problem, personal identity, and the existence of abstract entities (e.g., numbers), as well as views of realism, idealism, materialism, and relativism.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHI 3501 Free Will 3 Credits
Grading Scheme: Letter Grade
Sustained examination of key questions about free will. What exactly does it take for an action to be performed freely? Do scientific results threaten free will? What case can be made for the existence of free will? What are the consequences if free will does not exist?
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3551 Thought Experiments 3 Credits
Grading Scheme: Letter Grade
Much philosophical work depends on thought experiments in which we evaluate merely hypothetical situations; examine several such experiments to gain insight about their general character and proper use. Cases may include Descartes' "evil genius," Searle's "Chinese Room" example, and Gettier's examples of true, justified belief without knowledge.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3553 The Self, Reason and Ethics 3 Credits
Grading Scheme: Letter Grade
Examines rationality, morality, and personhood. What does it mean to be the same person over time? How is personal identity related to the rationality of self-interest or the rationality of morality? Topics may include the nature of reasons, self-undermining theories, reductionism about people, population ethics, and more.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3633 Bioethics 3 Credits
Grading Scheme: Letter Grade
The ethical issues that arise in medicine and biotechnology.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHI 3650 Moral Philosophy 3 Credits
Grading Scheme: Letter Grade
Analysis and criticism of various normative ethical theories such as egoism, utilitarianism, Kantianism, deontology, and virtue ethics.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHI 3681 Ethics, Data, and Technology 3 Credits
Grading Scheme: Letter Grade
Addresses ethical issues related to data science, algorithmic decision-making, and artificial intelligence. Pairs theoretical discussions of ethics, economics, and policy-making with concrete issues in emerging technologies.
Prerequisite: Sophomore standing or higher or (PHI 2010 or PHI 2100 or PHI 2630, with a minimum grade of C) or (philosophy major or minor) or data science major.
Attributes: Artificial Intelligence

PHI 3693 Ethics of Communication 3 Credits
Grading Scheme: Letter Grade
Examines ethical issues in communication between individuals and in the media. Topics include truth-telling, misrepresentation, privacy, and fairness.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHI 3695 Philosophy and Death 3 Credits
Grading Scheme: Letter Grade
A philosophical investigation of the nature and significance of death. Focuses on critical assessment of arguments regarding such topics as the definition of death, whether death is bad for the deceased, whether immortality is desirable or even conceivable, and the ethics of ending and starting lives.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3700 Philosophy of Religion 3 Credits
Grading Scheme: Letter Grade
Studies problems in philosophical theology, including the nature of God, arguments for God's existence, the problem of evil, and the relation between faith and reason, from both historical and contemporary perspectives.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).
Attributes: Satisfies 6000 Words of Writing Requirement

PHI 3930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Check the department office for a course description for the offered term.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) (C) or (Critical Tracking semester 3 or greater).

PHI 4220 Philosophy of Language 3 Credits
Grading Scheme: Letter Grade
Variable topics study the major topics and concepts of the philosophy of language, including truth and meaning, speech act theory, reference and descriptions, names and demonstratives, propositional attitudes and indirect discourse, the nature of language and metaphor.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 4320 Philosophy of Mind 3 Credits
Grading Scheme: Letter Grade
Studies the central problems of the philosophy of mind, including the mind-body problem, the nature of mental states, intentionality and representation, and sensation and consciousness.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 4542 Philosophy of Space and Time 3 Credits
Grading Scheme: Letter Grade
Studies the nature of space and time: the concepts of substantival space and time (or space-time), relational space and time (or space-time), dynamical space-time, conventional space-time metrics, causal reduction of time, time's arrow, dimensionality of space (or space-time). The approach, historical or issue-oriented, and the required amount of knowledge of physics varies with the instructor.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 4662 Ethical Theory 1 3 Credits
Grading Scheme: Letter Grade
Advanced topics in moral theory, including cognitivism, obligations and permissions, moral reasons and moral epistemology.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Registration requires advance application to the undergraduate coordinator.
Prerequisite: upper-division students with 12 credits of philosophy and department permission.

PHI 4911 Undergraduate Research in Philosophy 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

PHI 4912 Honors Project 3 Credits
Grading Scheme: Letter Grade
Open to qualified philosophy majors upon application to the undergraduate coordinator.

PHI 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Refer to the department website for a course description for the offered term.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

PHM 2204 Social Issues and Political Thought 3 Credits
Grading Scheme: Letter Grade
Introduces the classic works in the fundamental issues of political philosophy. Topics include comparative systems, authority and freedom.

PHM 3032 Ethics and Ecology 3 Credits
Grading Scheme: Letter Grade
Normative study of the relationships between human beings and the environment, with special emphasis on land and resources.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHM 3123 Feminist Philosophy 3 Credits
Grading Scheme: Letter Grade
Analyzes theoretical and practical issues in feminism such as radical, liberal, and socialist perspectives, gender roles and equal opportunity.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHM 3127 Race and Philosophy 3 Credits
Grading Scheme: Letter Grade
Examines the concept of race and how it has been used, both theoretically and practically, looking at both historical and contemporary works. Topics may include the definition of "race", the political use and abuse of the term, and its role in one's sense of identity.

PHM 3202 Political Philosophy 3 Credits
Grading Scheme: Letter Grade
Studies philosophical problems of political freedom, justice, obligation, and coercion.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).
Attributes: Satisfies 6000 Words of Writing Requirement

PHM 3400 Introduction to Philosophy of Law 3 Credits
Grading Scheme: Letter Grade
Introduces philosophical issues in legal thought and practice; for pre-law majors and serves as an introduction to PHM 4440; also introduces the types of philosophical issues that the major schools of legal thought have attempted to resolve.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHM 3600 Philosophy of Education 3 Credits
Grading Scheme: Letter Grade
Examines questions about the nature, value, and proper role of education, with special attention to schooling in wealthy modern democracies. Topics may include the purposes of education, the value of having an education, educational authority, the distribution of educational opportunity, and the special role of higher education.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor.

PHP 3786 Existentialism 3 Credits
Grading Scheme: Letter Grade
Examines the existentialist movement in philosophy through readings from such figures as Kierkegaard, Nietzsche and Sartre.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).

PHP 4784 Analytic Philosophy 3 Credits
Grading Scheme: Letter Grade
Studies the major philosophers, themes and developments of the analytic tradition, from Frege, Russell, Moore and Wittgenstein to Quine, Austin and contemporary figures.
Prerequisite: a 3000-level philosophy course or department permission.

Physics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

Curriculum

- Combination Degrees
- Physics
- Physics Minor

Courses

IDH 3931 Interdisciplinary Junior Honors 1-3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide honors program.
Prerequisite: Honors program member.
Attributes: Satisfies 6000 Words of Writing Requirement

ISC 2400L Cross-Disciplinary Laboratory 1 3 Credits
Grading Scheme: Letter Grade
First course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2010L, CHM 2045L and PHY 2053L.
Prerequisite: high school algebra or equivalent. Degree-seeking students only.

ISC 2401L Cross-Disciplinary Laboratory 2 3 Credits
Grading Scheme: Letter Grade
Second course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2011L, CHM 2046L and PHY 2054L.
Prerequisite: ISC 2400L and MAC 1147 or equivalent;
Corequisite: BSC 2010 and CHM 2045 or CHM 2047 or CHM 2095.

ISC 3523C Research Methods 3 Credits
Grading Scheme: Letter Grade
The tools scientists use to solve scientific problems, including use of experiments to answer scientific questions, design of experiments to reduce systematic and random errors, use of statistics to interpret experimental results and deal with sampling errors, mathematical modeling of scientific phenomena and oral presentation of scientific work.
Prerequisite: UFTeach Step 1 and one year of college biology, chemistry or physics.

PHY 1033C Discovering Physics 3 Credits
Grading Scheme: Letter Grade
A description of the fundamental concepts of physics which shape a scientist's view of the laws of nature. A laboratory experience is included, which emphasizes the importance of measurement for the testing of scientific hypotheses. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena. (P)
Attributes: General Education - Physical Science

PHY 2004 Applied Physics 1 3 Credits
Grading Scheme: Letter Grade
Emphasizes the practical applications of basic physics to a wide range of professions including architecture, agricultural sciences, building construction, and forest resources. Mechanics of motion, forces, energy, momentum, wave motion, and heat. (P) This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: algebra and trigonometry.
Attributes: General Education - Physical Science

PHY 2004L Laboratory for Physics 2004 1 Credit
Grading Scheme: Letter Grade
Laboratory experience illustrating the practical applications of basic physics, including the mechanics of motion, forces, energy, momentum, wave motion and heat. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Corequisite: PHY 2004.
Attributes: General Education - Physical Science

PHY 2005 Applied Physics 2 3 Credits
Grading Scheme: Letter Grade
Continuation of the sequence. Electric and magnetic fields. Geometrical, wave and applied optics. Modern and nuclear physics. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: PHY 2004.
Attributes: General Education - Physical Science

PHY 2005L Applied Physics 2 Lab 1 Credit
Grading Scheme: Letter Grade
Laboratory experience illustrating the practical applications of electric and magnetic fields geometrical, wave and applied optics; and modern and nuclear physics. (P) corequisite: PHY 2005.This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Corequisite: PHY 2005.
Attributes: General Education - Physical Science

PHY 2020 Introduction to Principles of Physics 3 Credits
Grading Scheme: Letter Grade
This course offers a comprehensive survey of physics, covering a wide range of topics including motion, Newton's laws, energy, sound, heat, electricity, magnetism, and optics. Emphasizing a conceptual understanding of physics, the course integrates critical thinking skills and real-world applications.
Prerequisite: high school algebra and trigonometry or the equivalent.
Attributes: General Education - Physical Science

PHY 2030 Humans, Science, the Universe 3 Credits
Grading Scheme: Letter Grade
What is the universe and what is humanity’s place in it? This is one of the fundamental questions that people have always asked, and we are still asking it. This course will explore humanity’s view of terrestrial and celestial phenomena from ancient to modern times, and in parallel offer basic explanations for how science views these phenomena today. Topics include the solar system and how various civilizations and eras have conceived of its structure, light and relativity, and modern concepts of cosmology. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Quest 2, General Education - Physical Science

PHY 2032 Energy and Society 3 Credits
Grading Scheme: Letter Grade
Addresses the question of how the world's energy needs will be met based on available resources, technology, environmental concerns, economics, personal choices, and nation and international policy. Develops quantitative reasoning skills necessary to make informed decisions. Compares energy use, resources, and policy in different countries. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - International, General Education - Physical Science

PHY 2048 Physics with Calculus 1 3 Credits
Grading Scheme: Letter Grade
This calculus-based course serves as the first in a two-part series, covering topics like kinematics, dynamics, energy, momentum, rotational motion, fluid dynamics, oscillatory motion, and waves. Designed for science and engineering majors, the course integrates critical thinking, analytical skills, and real-world applications.
Prerequisite: high-school physics, PHY 2020 or the equivalent, and MAC 2311.
Corequisite: MAC 2312.
Attributes: General Education - Physical Science

PHY 2048L Laboratory for PHY 2048 1 Credit
Grading Scheme: Letter Grade
Lab for Physics with Calculus 1. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Degree-seeking students only.
Corequisite: PHY 2048 or the equivalent.
Attributes: General Education - Physical Science

PHY 2049 Physics with Calculus 2 3 Credits
Grading Scheme: Letter Grade
The second of a two-semester sequence of Physics for scientists and engineers. Content includes Coulombs law, electric fields and potentials, capacitance, currents and circuits, Amperes law, Faradays law, inductance, Maxwells equations, electromagnetic waves, ray optics, interference and diffraction. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: PHY 2048 and MAC 2312;
Corequisite: MAC 2313.
Attributes: General Education - Physical Science

PHY 2049L Laboratory for PHY 2049 1 Credit
Grading Scheme: Letter Grade
Laboratory experience for PHY 2049 illustrating the practical applications of Coulomb's law, electric fields and potentials, capacitance, currents and circuits, Ampere's law, Faraday's law, inductance, Maxwell's equations, electromagnetic waves, ray optics, interference and diffraction. (P) This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Degree-seeking students only.
Corequisite: PHY 2049 or the equivalent.
Attributes: General Education - Physical Science

PHY 2053 Physics 1 4 Credits
Grading Scheme: Letter Grade
This course is the first in a two-part series intended for non-physics majors, offering an algebra and trigonometry approach to topics such as kinematics, dynamics, energy, momentum, rotational motion, fluid dynamics, oscillatory motion, and waves. The course fosters analytical and critical thinking skills to promote a scientific understanding of the real world.
Prerequisite: high school algebra and trigonometry, or the equivalent. Degree-seeking students only.
Attributes: General Education - Physical Science

PHY 2053L Laboratory for PHY 2053 1 Credit
Grading Scheme: Letter Grade
Laboratory experience for PHY 2053 illustrating the practical applications of the structure and properties of matter; kinematics, dynamics and statics; momentum and energy; rotation, elasticity; vibration; fluids; temperature and expansion, heat transfer, thermal behavior of gases; wave motion and sound. (P) This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Corequisite: PHY 2053 or the equivalent. Degree-seeking students only.
Attributes: General Education - Physical Science

PHY 2054 Physics 2 4 Credits
Grading Scheme: Letter Grade
Second semester of introductory physics de-emphasizing calculus. Electric charge, field, and circuits; electromagnetism, applied electricity; geometrical optics, wave optics, applied optics; electrons and photons; atoms and nuclei. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: PHY 2053 or the equivalent. Degree-seeking students only.
Attributes: General Education - Physical Science

PHY 2054L Laboratory for PHY 2054 1 Credit
Grading Scheme: Letter Grade
Laboratory experience for PHY 2054 illustrating the practical applications of electric charge, fields and circuits; electromagnetism, applied electricity; geometrical optics, wave optics, applied optics; electrons and photons; atoms and nuclei. (P) This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Corequisite: PHY 2054 or the equivalent. Degree-seeking students only.
Attributes: General Education - Physical Science

PHY 2060 Enriched Physics with Calculus 1 3 Credits
Grading Scheme: Letter Grade
First of the enriched sequence for physics majors and others wishing a deeper understanding of mechanics, kinematics, conservation laws, harmonic motion, central forces and special relativity. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Degree-seeking students only;
Corequisite: MAC 2312 or the equivalent.
Attributes: General Education - Physical Science

PHY 2061 Enriched Physics with Calculus 2 3 Credits
Grading Scheme: Letter Grade
Second course of the enriched sequence. Electricity and magnetism, including electrostatics, Gauss' law, potentials, vector analysis, Laplace's equation, conductors and insulators, circuits, magnetism, Maxwell's equations and EM fields in matter. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: PHY 2060 or instructor permission;
Corequisite: MAC 2313 or the equivalent.
Attributes: General Education - Physical Science

PHY 3063 Enriched Modern Physics 3 Credits
Grading Scheme: Letter Grade
Theory of relativity and introduction to quantum theory. Course includes wave mechanics, quantum theory of solids, nuclear and particle physics and cosmology.
Prerequisite: PHY 2061 or instructor permission, and MAP 2302 or the equivalent.

PHY 3101 Introduction to Modern Physics 3 Credits
Grading Scheme: Letter Grade
Modern and atomic physics, relativity, wave phenomena and the basis of quantum physics.
Prerequisite: PHY 2049 or the equivalent.

PHY 3221 Mechanics 1 3 Credits
Grading Scheme: Letter Grade
First part of PHY 3221/4222 sequence in classical mechanics emphasizing matrices, vector calculus, Newtonian mechanics, frames of reference, conservation laws and harmonic oscillation.
Prerequisite: PHY 2049 or the equivalent;
Corequisite: MAP 2302 or the equivalent.

PHY 3323 Electromagnetism 1 3 Credits
Grading Scheme: Letter Grade
First part of the PHY 3323/4324 sequence in electromagnetism. Course covers static electric and magnetic fields, electric circuits, Maxwell's equations, radiation and propagation of electromagnetic waves.
Prerequisite: (PHY 2049 or PHY 2061, or the equivalent) or (MAP 2302 or the equivalent).

PHY 3513 Thermal Physics 1 3 Credits
Grading Scheme: Letter Grade
First part of the PHY 3513/4523 sequence that includes treatment of classical thermodynamics, including fundamental postulates, entropy and equations of states; thermodynamic equilibrium and potentials; Maxwell relations and phase transitions.
Prerequisite: PHY 2049 or PHY 2061.

PHY 3840L Building Scientific Equipment 2 Credits
Grading Scheme: Letter Grade
Hands-on experience in the mechanical fabrication of research apparatus. Topics include shop drawings, properties of materials, metal cutting (lathe and milling-machine operation) and metal joining.
Prerequisite: PHY 2061 or PHY 3101, or the equivalent.

PHY 4222 Mechanics 2 3 Credits
Grading Scheme: Letter Grade
Second part of the sequence in classical mechanics studying rigid body mechanics; motion in a non-inertial frame, Lagrangian and Hamiltonian dynamics; elements of fluid mechanics; and relativity theory.
Prerequisite: PHY 3221 and differential equations.

PHY 4324 Electromagnetism 2 3 Credits
Grading Scheme: Letter Grade
The second in the PHY 3323/4324 electromagnetism sequence studying static electric and magnetic fields, electric circuits, Maxwell's equations, radiation and propagation of electromagnetic waves.
Prerequisite: PHY 3323 and differential equations.

PHY 4424 Optics 1 3 Credits
Grading Scheme: Letter Grade
The phenomena of reflection, refraction, dispersion, interference, diffraction and polarization of light.
Prerequisite: PHY 3323 or instructor permission.

PHY 4523 Statistical Physics 3 Credits
Grading Scheme: Letter Grade
Second of the PHY 3513/4523 sequence. Introduction to statistical physics and continued study of classical thermodynamics, including fundamental postulates, entropy and equations of states; thermodynamic equilibrium and potentials; Maxwell relations and phase transitions.
Prerequisite: PHY 3513 and PHY 4604; differential equations.

PHY 4550 Cryogenics 3 Credits
Grading Scheme: Letter Grade
History of cryogenics, air separation, liquefaction of permanent gases and natural gases, and superconducting devices and electronics.
Prerequisite: PHY 3101 or the equivalent;
Corequisite: PHY 3513 or the equivalent.

PHY 4604 Introductory Quantum Mechanics 1 3 Credits
Grading Scheme: Letter Grade
First of the PHY 4604/4605 sequence. Basic concepts of quantum mechanics with applications in atomic and nuclear physics and condensed matter.
Prerequisite: (PHY 3101 or PHY 3063) and MAP 2302 or equivalent.

PHY 4605 Introductory Quantum Mechanics 2 3 Credits
Grading Scheme: Letter Grade
Second of the PHY 4604/4605 quantum mechanics sequence with applications in atomic and nuclear physics and condensed matter.
Prerequisite: PHY 4604.

PHY 4802L Laboratory Physics 1 3 Credits
Grading Scheme: Letter Grade
Electronics in the laboratory.
Corequisite: PHY 3323 or the equivalent.

PHY 4803L Laboratory Physics 2 3 Credits
Grading Scheme: Letter Grade
Current laboratory techniques.
Prerequisite: PHY 4604 and PHY 4802L.

PHY 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Qualified undergraduate students study selected topics in physics.
Prerequisite: 12 credits of physics and instructor permission.

PHY 4911 Undergraduate Research in Physics 0-3 Credits
Grading Scheme: Letter Grade
Course provides firsthand, supervised research in Physics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Physics.

PHZ 3113 Introduction to Theoretical Physics 3 Credits
Grading Scheme: Letter Grade
This course expands and systematizes the treatment of standard problems previously encountered in elementary physics. Mathematical techniques are developed to study problems in thermodynamics, statistical physics, the motion of coupled oscillators and electrodynamics.
Prerequisite: MAC 2313 and PHY 2061, or instructor permission.

PHZ 4390 Introduction to Elementary Particle Physics 3 Credits
Grading Scheme: Letter Grade
History and phenomenology of particle physics, physics of the Standard Model and beyond, and particle accelerators and detectors.
Prerequisite: PHY 3101 or PHY 3063;
Corequisite: PHY 4604.

PHZ 4404 Introduction to Solid State Physics 3 Credits
Grading Scheme: Letter Grade
Atomic binding, crystalline structure, diffraction and reciprocal lattice, lattice vibration, phonons, electrons in solids, energy bands, semiconductors.
Prerequisite: PHY 4604;
Corequisite: PHY 4523.

PHZ 4710 Introduction to Biological Physics 3 Credits
Grading Scheme: Letter Grade
The physics of biological systems, including physics of proteins and nucleic acids, biomolecular motors and diffusional signaling and sensing. Important experimental tools such as magnetic resonance and synchrotron x-ray crystallography are also discussed. (WR)
Prerequisite: one year of introductory physics (PHY 2053/PHY 2054, PHY 2048/PHY 2049, or the equivalent) and one year of calculus (MAC 2311/ MAC 2312, or the equivalent).
Attributes: Satisfies 2000 Words of Writing Requirement

Plant Pathology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

PLP 2000 Plants, Plagues, & People 3 Credits
Grading Scheme: Letter Grade
Biology and history of the human species for non-science majors. A chronological presentation from the origin of life to the present with emphasis on the impact that plants, animals and diseases have had and are having on human civilizations.
Attributes: General Education - Biological Science

PLP 2060 Fungus among Us: Mushrooms, Molds and Civilization 3 Credits
Grading Scheme: Letter Grade
Role of fungi in human affairs, including their historical use as food or medicine or in religious activities. Also includes their current impact on society as pathogens of plants and animals, in the deterioration of food and fabric and in the synthesis of important drugs. (B)
Attributes: General Education - Biological Science

PLP 2311 What Are Plants Talking About? 3 Credits
Grading Scheme: Letter Grade
Emerging pathogens and pests are threatening our plants. Are plants crying out for help and we can't hear? Do plants talk? Remember? Feel? These and other intriguing and scientifically pressing questions will be addressed in this multi-disciplinary course and addresses topics about plant physiology, plant pathology, entomology, and microbiology. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - Biological Science

PLP 3002C Fundamentals of Plant Pathology 4 Credits
Grading Scheme: Letter Grade
Principles and practices of plant pathology.
Prerequisite: BOT 2010C or BSC 2010.

PLP 3230 Survey of Plant Pathogens 3 Credits
Grading Scheme: Letter Grade
Introduces the main groups of pathogens that cause plant disease, how they spread and affect plants and how they are identified and managed. Also includes specific examples of how plant pathogens have changed the course of human history and culture.
Prerequisite: BOT 2010C or BSC 2010.

PLP 4104 Applied Plant Disease Management 3 Credits
Grading Scheme: Letter Grade
Summarizes the methods and strategies used to manage plant disease by targeting vulnerable points in the pathogen life cycle and disease epidemic. Utilize knowledge of organismal biology, epidemiology, management chemistry, and economics to develop strategies for managing plant diseases.
Prerequisite: BSC 2010/BSC 2010L or BOT 2010C and BSC 2011/BSC 2011L or BOT 2011C.

PLP 4222C Introduction to Plant Virology 3 Credits
Grading Scheme: Letter Grade
Introduces plant virology by covering the principles of plant virology, symptomatology, virus groups, structure, function, spread, detection and control.
Prerequisite: PLP 3002C and BCH 3025.

PLP 4242C Introduction to Plant Bacteriology 3 Credits
Grading Scheme: Letter Grade
Discusses the main characteristics and properties of bacteria that cause disease in plants with emphasis on problems unique to plant pathology. Offered every other year.
Prerequisite: MCB 3020;
Corequisite: PLP 3002C.

PLP 4260C Introduction to Plant Pathogenic Fungi 3 Credits
Grading Scheme: Letter Grade
Introduces the groups of fungi that cause disease in plants, including morphology, taxonomy, physiology, genetics and control of these fungi.
Prerequisite: PLP 3002C or PLP 4653C.

PLP 4600 RNA biology 3 Credits
Grading Scheme: Letter Grade
RNA Biology has three one-hour lectures per week, and no laboratory. This advanced RNA biology course is designed for upper-level undergraduate students and focuses on a specialized biology topic, RNA biology, including its structure and related diverse functions. Students will review, discuss and critique both classic and state-of-the-art literature.
Prerequisite: BCH 4024 or PCB 4522 with a minimum grade of C or their equivalents at other universities or permission of the instructor.

PLP 4653C Basic Fungal Biology 4 Credits
Grading Scheme: Letter Grade
Introduces the groups of fungi and fungi-like organisms. Discusses the structure, development, physiology, genetics, ecology and systematics of fungi.
Prerequisite: (BSC 2010 and BSC 2011) or PLP 3002C.

PLP 4900 Supervised Extension Experience in Plant Pathology 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

PLP 4905 Problems in Intermediate Plant Pathology 1-4 Credits
Grading Scheme: Letter Grade
Individual study and research in areas of special interest to undergraduates whose major field is plant pathology.
Prerequisite: PLP 3002 or the equivalent.

PLP 4911 Supervised Research in Plant Pathology 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

PLP 4915 Honors Thesis Research in Plant Pathology 0-3 Credits
Grading Scheme: S/U
Independent research in plant pathology leading to an honors thesis; mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

PLP 4931 Seminar in Plant Pathology 1 Credit
Grading Scheme: Letter Grade
Discusses current concepts and procedures related to the practice of plant pathology as a profession.
Prerequisite: PLP 3002C.

PLP 4932 Special Topics in Plant Pathology 1-3 Credits
Grading Scheme: Letter Grade
Special topics in plant pathology.
Prerequisite: sophomore standing or higher.

PLS 4941 Practical Work Experience 1-3 Credits
Grading Scheme: S/U
Practical, hands-on experience in the plant sciences through a paid internship in the industry. This must be a new experience and related to the student's field of study. One month of full-time work is required for each credit.
Prerequisite: Plant Science major of junior standing or higher.

Polish | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

Courses

PLT 3930 Special Topics in Polish Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics in Polish literature, culture and society. Taught in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

POL 1130 Introduction to Polish Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
A two-semester Polish language sequence that introduces the basics of Polish language and culture.

POL 1131 Introduction to Polish Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Second in the two-semester sequence. Helps to expand vocabulary, command of Polish grammar, and the ability to speak Polish.
Prerequisite: POL 1130 or placement test.

POL 2220 Intermediate Polish 1 4 Credits
Grading Scheme: Letter Grade
Improve speaking, reading, writing, and listening comprehension skills by reviewing and expanding the language principles introduced in POL 1130 and POL 1131.

POL 2221 Intermediate Polish 2 4 Credits
Grading Scheme: Letter Grade
Improve speaking, reading, writing, and listening comprehension skills by reviewing and building upon the language principles introduced in POL 2220.

Political Science

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Political Science provides a high-quality educational program for undergraduate students as well as a rigorous honors program. The department also offers a highly selective graduate education ranging from innovative MA programs to a comprehensive PhD program.

- Political Campaigning Certificate
- Political Science
- Public Affairs Certificate

Courses

CPO 2001 Comparative Politics Introduction 3 Credits
Grading Scheme: Letter Grade
Classification of political systems according to institutional and developmental characteristics. Causes and costs of political stability and instability. Comparison will relate to contemporary political institutions and processes in specific countries.
Attributes: General Education - International, General Education - Social Science

CPO 3011 Culture and Politics 3 Credits
Grading Scheme: Letter Grade
Addresses interactions among culture and politics through analysis of concepts including perspective, world view, ethos, cultural norms, etc. Themes may include: identity politics; Other as subject vs. object; religion; cultural expectations regarding political institutions; and dynamics both within and across local and/or national communities.
Prerequisite: CPO 2001 Introduction to Comparative Politics.

CPO 3044 Democracy in Dark Times 3 Credits
Grading Scheme: Letter Grade
Democratic decline across several counties and regions of the world. Addresses periods of democratic decline in regions in which democracy is expected, as well as in countries with histories of authoritarianism. Themes include Nazism, fascism, socialist and/or populist revolution, as well as democratic recovery in some cases.
Prerequisite: CPO 2001.

CPO 3103 Western European Politics 3 Credits
Grading Scheme: Letter Grade
Comparative analysis of the government and politics of the major Western European countries. Emphasizes party systems and the social bases of politics in industrialized societies.
Prerequisite: CPO 2001.

CPO 3204 African Politics 3 Credits
Grading Scheme: Letter Grade
African nationalism, political movements and governments in the African states.
Prerequisite: CPO 2001.

CPO 3303 Introduction to Latin American Politics 3 Credits
Grading Scheme: Letter Grade
Introductory overview of political patterns and political behavior in Latin America within comparative and developmental perspectives. Emphasizes the social, economic, and political factors shaping contemporary political structures and processes.
Prerequisite: CPO 2001.

CPO 3403 Politics of the Middle East 3 Credits
Grading Scheme: Letter Grade
Focuses on key political and social processes in the modern Middle East. Addresses variable themes in comparative politics such as nationalism, state formation, women and politics, religious resurgence, feminism, and law.
Prerequisite: CPO 2001.

CPO 3410 Topics in Israeli Politics and Society 3 Credits
Grading Scheme: Letter Grade
Addresses Israeli politics and society from a Comparative Politics or an International Relations perspective, depending upon instructor. May address Israeli politics at the grassroots, elite, societal, domestic, international, or micro-levels. Themes may include social movements, institutional configuration, religious-secular dynamics, immigration, ethnic politics, gender, foreign relations, international organizations, or other issues.
Prerequisite: CPO 2001.

CPO 3614 Eastern European Politics 3 Credits
Grading Scheme: Letter Grade
Comparative analysis of the formal structures of government and politics of Eastern European countries; the actual operation of their political systems and the factors that influenced their transitions to democracy and market-based economies.
Prerequisite: CPO 2001.

CPO 3633 Politics in Russia 3 Credits
Grading Scheme: Letter Grade
Analyzes the formal structures of government and politics in Russia, the actual operation of its political system and the factors that influenced the transition to democracy and a market-based economy.
Prerequisite: CPO 2001.

CPO 3700 Comparative Law and Courts 3 Credits
Grading Scheme: Letter Grade
Addresses the politics of law and courts in comparative perspective in regions and country cases around the world. Regions and country cases vary with instructor. May include themes such as: judicial power and politics, judicial independence, rights revolutions, legal mobilization, legal profession, legal culture, and/or constitutional development in comparative perspective.
Prerequisite: CPO 2001.

CPO 3713 Women and Politics in the Modern Middle East 3 Credits
Grading Scheme: Letter Grade
Examines women and gender in the politics of the modern Middle East from the late 19th century through the 1990s.
Prerequisite: CPO 2001.

CPO 4000 Selected Studies in Comparative Politics 3 Credits
Grading Scheme: Letter Grade
Variable topics in comparative politics; precise course content will be announced in advance.
Prerequisite: CPO 2001.

CPO 4034 Politics in Developing Nations 3 Credits
Grading Scheme: Letter Grade
Introduces politics in third world states, an examination of common problems and the various strategies for dealing with them.
Prerequisite: CPO 2001.

CPO 4042 Politics in Post-Industrial Societies 3 Credits
Grading Scheme: Letter Grade
Comparative analysis of advanced industrial states with emphasis on diverse patterns of economic, social and political development as determinants of current political structures and policies.
Prerequisite: CPO 2001.

CPO 4053 Politics under Authoritarianism 3 Credits
Grading Scheme: Letter Grade
Investigates the sources of durable authoritarianism in Asia and around the world and contrasts the survival of dictatorships with successful democratic transitions.
Prerequisite: CPO 2001.

CPO 4072 Comparative Elections 3 Credits
Grading Scheme: Letter Grade
Comparative Elections
Prerequisite: CPO 2001.

CPO 4144 Social Movements and Contentious Politics in Europe 3 Credits
Grading Scheme: Letter Grade
Provides tools to analyze why, when, and how social movements engage in collective action and protest in a variety of European contexts. Appropriate for advanced students in the social sciences and the European track in IDS International Studies.
Prerequisite: instructor permission.

CPO 4145 Irish Government and Politics 3 Credits
Grading Scheme: Letter Grade
Intensive analysis of the contemporary history, politics and government of Ireland. The course examines the foundations of the state and society from an historical and political-cultural perspective.
Prerequisite: POS 2041.

CPO 4194 Islam and European Politics 3 Credits
Grading Scheme: Letter Grade
Introduces the variety of contacts that Islam, as a religion and system of thought and doctrine, has had on various strands of European politics since early Muslims engaged in translating, commenting on and expanding the Greek systems of thought.
Prerequisite: CPO 2001.

CPO 4306 Contemporary Problems in Latin American Politics 3 Credits
Grading Scheme: Letter Grade
Analyzes major themes and issues in the study of Latin American politics: democratic transitions, economic restructuring, social movements, civil-military relations and political violence. (WR)
Prerequisite: CPO 3303 or the equivalent experience.
Attributes: Satisfies 6000 Words of Writing Requirement

CPO 4384 Argentina and the Politics of Memory 3 Credits
Grading Scheme: Letter Grade
Politics of Argentina from the 19th century to the present with special focus on Peronism and the rise of democracy.
Prerequisite: CPO 2001.

CPO 4395 Racial Politics in Latin America 3 Credits
Grading Scheme: Letter Grade
Comparative analysis of the role of race in Latin American politics. The conceptualization and measurement of race and their implications for understanding political attitudes, behavior, and representation.
Prerequisite: CPO 2001.

CPO 4721 The Politics of Ethnic Conflict 3 Credits
Grading Scheme: Letter Grade
Introduces the systematic study of communal violence, to the major concepts in conflict studies, to the main approaches to studying conflict and to many of the major episodes of communal violence in contemporary Asia and beyond.
Prerequisite: CPO 2001.

CPO 4722 Latin American and Caribbean Migration to the United States 3 Credits
Grading Scheme: Letter Grade
Provides a clearer understanding and appreciation of Latin American and Caribbean migration to the United States. After a general introduction to some of the key theoretical concepts and the historical processes underlying immigration to the U.S., focuses in depth on selected immigrant groups from Latin America and the Caribbean.
Prerequisite: sophomore status or above.

CPO 4727 Judaism and Politics 3 Credits
Grading Scheme: Letter Grade
Examines how Jews govern themselves (often referred to as communal governance) and how Jews relate to the political system where they live. Explores the development of the Jewish political tradition in the Biblical period, the Middle Ages, the early modern period and the modern era.
Prerequisite: POS 2041.

CPO 4731 Democratization in Global Perspective 3 Credits
Grading Scheme: Letter Grade
Introduces literature on democratization, including familiarization with important theoretical and conceptual issues and empirical data on major regions of the world.
Prerequisite: CPO 2001.

CPO 4793 Environmental Politics in the Global South 3 Credits
Grading Scheme: Letter Grade
Examines the politics of environmental degradation in countries of the global south, a.k.a. the developing world, through case studies of Amazonian deforestation in Brazil, international development projects in India and oil drilling in the Niger Delta.
Prerequisite: Sophomore standing or higher.

CPO 4911 Undergraduate Research in Comparative Politics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Comparative Politics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Comparative Politics.

INR 2001 Introduction to International Relations 3 Credits
Grading Scheme: Letter Grade
Introduction to concepts and analytical tools for studying interactions among international actors: states, international organizations, and transnational groups. Social and behavioral science principles are used to analyze concepts such as power and national interest as they relate to social, political, and economic issues.
Attributes: General Education - International, General Education - Social Science

INR 3034 Politics of the World Economy 3 Credits
Grading Scheme: Letter Grade
International trade, finance and investment issues in the global political economy and their importance for advanced industrial and less-developed countries.
Prerequisite: INR 2001.

INR 3084 Culture and World Politics 3 Credits
Grading Scheme: Letter Grade
Contending conceptualizations of culture and its relations to international politics. Examines several questions on the relationship between national/group identity and international politics: Do diplomatic alliances reflect cultural/ideological affinity among allies? What is the relationship between the self-image of the West and Western imperialism?
Prerequisite: INR 2001.

INR 3102 The US and World Affairs 3 Credits
Grading Scheme: Letter Grade
The tradition and development of American foreign policy and contemporary foreign policy problems.
Prerequisite: INR 2001 or instructor permission.

INR 3135 Contemporary Issues in National Security 3 Credits
Grading Scheme: Letter Grade
Surveys national security issues including proliferation, terrorism, and homeland defense.
Prerequisite: INR 2001 with a minimum grade of B.

INR 3333 Introduction to International Security 3 Credits
Grading Scheme: Letter Grade
Examines and applies the major theoretical and methodological approaches to international security. Analyzes the impact of domestic, state, regional and global system factors in international security. Familiarity with the basic concepts of world politics, particularly the dominant actors, issues and paradigms, is recommended.
Prerequisite: INR 2001.

INR 3502 International Institutions 3 Credits
Grading Scheme: Letter Grade
Analyzes the political and functional aspects of international organization and cooperation with emphasis on formal organizations such as the United Nations or the European Union, as well as less formal institutions and arrangements.
Prerequisite: INR 2001 and junior or higher.

INR 3603 Theories of International Relations 3 Credits
Grading Scheme: Letter Grade
Examines a variety of theoretical and methodological approaches to the study of international relations.
Prerequisite: INR 2001.

INR 4035 Rich and Poor Nations in the International System 3 Credits
Grading Scheme: Letter Grade
The economic, social and political linkages between less developed and advanced industrial countries in the global system predominantly from the former's perspective. Considers the historical sources of underdevelopment, theoretical and substantive aspects of world poverty, and regional and international efforts to redress the problems of developing countries.
Prerequisite: INR 2001.

INR 4083 War and Peace in World Politics 3 Credits
Grading Scheme: Letter Grade
Examination and application of the major theoretical and methodological approaches to the study of international conflict. Analyzes the impact of domestic, state, regional, and global factors in explicating international war. Students should be familiar with the basic concepts of world politics, particularly the dominant actors, issues, and paradigms informing analyses in the field, with special emphasis on quantitative analyses of war.
Prerequisite: INR 2001.

INR 4085 Gender and International Relations 3 Credits
Grading Scheme: Letter Grade
Despite the importance of gender in global politics, gender is still not fully integrated in the academic study of international politics. Examines the study of feminist work in international relations.
Prerequisite: INR 2001.

INR 4244 International Politics of Latin America 3 Credits
Grading Scheme: Letter Grade
Analyzes the international politics of Latin America, including relations with the United States and non-hemispheric powers as well as the foreign policies of Latin American states vis-vis each other. (WR)
Prerequisite: INR 2001 or advanced standing in Latin American studies.
Attributes: Satisfies 6000 Words of Writing Requirement

INR 4262 Russian Foreign Policy 3 Credits
Grading Scheme: Letter Grade
Examines the principal factors influencing the formulation of Russian foreign policy and its evolution over time.
Prerequisite: INR 2001

INR 4303 The Making of American Foreign Policy 3 Credits
Grading Scheme: Letter Grade
Examines the principal factors influencing the formulation of US foreign policy, including the international environment, information processing, personality factors, political culture, decision-makers and decision-making. Also considers the institutional setting, including the President, Congress, and public opinion.
Prerequisite: INR 2001 or instructor permission.

INR 4350 International Environmental Relations 3 Credits
Grading Scheme: Letter Grade
Considers the special problems posed by environmental collective action for international policymakers, some of the primary actors and organizations involved in addressing environmental problems and selected international environmental issues, such as global warming, ozone depletion and rain forest destruction.
Prerequisite: INR 2001.

INR 4531 Politics of the European Union 3 Credits
Grading Scheme: Letter Grade
Examines the primary structures, actors and processes of policy making in the European Union. Salient policy areas such as the single market, monetary union, agricultural policy and the potential for a common foreign and security policy are investigated.
Prerequisite: INR 2001.

INR 4614C Conflict, Gender and Data 3 Credits
Grading Scheme: Letter Grade
Investigates how the collection and analysis of data relate to understandings of gender, war, and violence. Introduces quantitative data and research methods, along with feminist theories of global conflict and political violence. Appropriate for advanced undergraduate students interested in gender dynamics and data analysis in international relations research.
Prerequisite: INR 2001.

INR 4905 Individual Work 2-3 Credits
Grading Scheme: Letter Grade
Readings and discussion in advanced topics in International Relations.

INR 4911 Undergraduate Research in International Relations 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

INR 4931 Special Topics in International Relations 3 Credits
Grading Scheme: Letter Grade
Selected topics in International Relations.
Prerequisite: INR 2001.

INR 4940 International Relations Internship 3 Credits
Grading Scheme: S/U
Internship with government, political parties, interest groups, lobbying organizations, international organizations, and private companies with 60% or more focus on international politics. Log and paper required. Only 3 credits of POS/PAD/INR 4940 may be counted towards the Political Science major and/or the International Relations Certificate.
Prerequisite: CPO 2001.

INR 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism for students to receive UF credit for international relations coursework taken in an approved study abroad program. Syllabuses of proposed coursework must be approved in advance by the departmental undergraduate coordinator.

PAD 3003 Introduction to Public Administration 3 Credits
Grading Scheme: Letter Grade
Role of administrative agencies in the formulation and implementation of public policy. Emphasizes the politics of administration. Problems in administration management.
Prerequisite: POS 2041.

PAD 4940 Court Internship 3 Credits
Grading Scheme: S/U
Preapproved internship with the Alachua County Clerk of Court. Interns will work a minimum of 150 hours per semester, complete readings and a 5-10 page paper. Only three credits of POS/PAD 4940 credit may be counted toward the political science major.
Prerequisite: POS 2041 and instructor permission.

POS 2032 Politics of Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines the political determinants of societal efforts to achieve the competing objectives of sustainability; introduces key concepts and theories used by political scientists in studying sustainability.

POS 2041 American Federal Government 3 Credits
Grading Scheme: Letter Grade
In this course, students will investigate how the national government is structured and how the American constitutional republic operates. It covers the philosophical and historical foundations of American government, including but not limited to the Declaration of Independence, the United States Constitution and all its Amendments, and the Federalist Papers. The course examines the branches of government and the government's laws, policies, and programs. It also examines the ways in which citizens participate in their government and ways their government responds to citizens.
Attributes: General Education - Social Science

POS 2112 American State and Local Government 3 Credits
Grading Scheme: Letter Grade
State constitutions, political parties and politics. State legislatures, courts and chief executives. The functions of state, city and county government.

POS 3122 State Politics 3 Credits
Grading Scheme: Letter Grade
Investigates major problems and issues in American state politics. Emphasizes the political institutions and organizations, political behavior in state politics and the impact of state politics on policy making at national, state and local levels.
Prerequisite: POS 2041.

POS 3173 Southern Politics 3 Credits
Grading Scheme: Letter Grade
The changing politics of the South, including two-party development, urbanism, traditionalism and racism.
Prerequisite: POS 2041.

POS 3204 Political Behavior 3 Credits
Grading Scheme: Letter Grade
Examines institutional, social and psychological influences on mass political behavior, political sophistication, political participation, voter choice, partisanship, ideology and values.
Prerequisite: POS 2041.

POS 3233 Politics and Public Opinion 3 Credits
Grading Scheme: Letter Grade
Studies the definition and measurement of political opinion by polls and surveys, and the developmental character of opinions. Includes variables in opinion formation, experiments in opinion measurement and the relation of political opinion to public policy.
Prerequisite: POS 2041.

POS 3263 Policy, Ethics and Public Leadership 3 Credits
Grading Scheme: Letter Grade
Public leaders bear a special responsibility to make ethical decisions based on the enduring values of our democracy; develops awareness of leadership and ethical issues in the public sector.
Prerequisite: POS 2041.

POS 3603 American Constitutional Law 3 Credits
Grading Scheme: Letter Grade
Studies and analyzes the Federal Constitution, with study and briefing of leading cases in constitutional law. (WR)
Prerequisite: POS 2041 and junior standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 3606 American Civil Liberties 3 Credits
Grading Scheme: Letter Grade
Discusses statutes and court decisions emphasizing First Amendment freedoms, equal protection of the law, due process and rights of defendants, implied rights, and the rights of women, juveniles, students, prisoners and the mentally ill. (WR)
Prerequisite: POS 2041.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 3679 Trial Advocacy 1 Credit
Grading Scheme: Letter Grade
Act as attorneys and/or witnesses in a simulated civil or criminal trial. Requires participation in the Fall (when the team begins preparing the case) and Spring (through the end of March when the mock trial season ends).
Prerequisite: instructor permission.

POS 4025 Technology and Politics 3 Credits
Grading Scheme: Letter Grade
Identification and evaluation of the political, social and ethical challenges and choices presented by transformative technologies such as artificial intelligence, digital media, synthetic biology, nanotechnology, robotics, quantum computing, augmented reality and virtual reality.
Prerequisite: Upper division status.

POS 4074 Latino Politics and Policy 3 Credits
Grading Scheme: Letter Grade
Examines the political behavior of Hispanic Americans in the United States. Students discuss political and public policy issues that impact Hispanic/Latino communities, such as affirmative action, the Chicano movement, English-only movements, immigration, the presidency, racial profiling and urban politics.
Prerequisite: sophomore standing or above.

POS 4077 African American Politics and Policy 3 Credits
Grading Scheme: Letter Grade
Examines the political behavior of African Americans in the United States. Discusses the civil rights movement, the black power movement, black political thought (conservatism, liberalism and nationalism), blacks and the court system, the role of blacks in political parties, blacks and the presidency and contemporary issues in African American politics.
Prerequisite: sophomore standing or above.

POS 4194 Politics beyond the Beltway 3 Credits
Grading Scheme: Letter Grade
Examines key issues of politics that exist at regional, state and local levels such as campaign finance reform, lobbying, political action committees, political corruption, racial and civil rights issues, and state and local relations.
Prerequisite: POS 2041.

POS 4202 Asian American Politics 3 Credits
Grading Scheme: Letter Grade
Examines the political behavior, attitudes and mobilization of Asian Americans in America by studying the racial stereotypes that plague them, their electoral behavior, the mobilizations tactics utilized in their communities, their response to violent crimes against members of their group and crime within their communities, Asian American conservatism, their views on affirmative action and the politics of Asian American women.
Prerequisite: POS 2041.

POS 4235 American Politics and the Media 3 Credits
Grading Scheme: Letter Grade
Addresses changes in American media over time as they relate to American politics. Includes attention to print media, talk radio, social media, bias, fake news, how media shape citizen behavior and attitudes, and media coverage of political institutions, campaigns, domestic politics, and foreign policy.
Prerequisite: POS 2041.

POS 4258 Politics in Fiction and Film 3 Credits
Grading Scheme: Letter Grade
Uses make-believe stories told in popular novels and Hollywood motion pictures to provide insights into the nature of real-life politics in the United States. (WR)
Prerequisite: POS 2041.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 4264 Ethics in American Politics 3 Credits
Grading Scheme: Letter Grade
The problem of unethical behavior involving elected officials is a perennial concern in American politics. How do political ethics differ, if at all, from private ethics? What causes corruption? What have been the aims of good-government reformers?
Prerequisite: POS 2041.

POS 4275 Modern Political Campaigns 3 Credits
Grading Scheme: Letter Grade
Explores major issues associated with modern political campaigns. Presidential campaigns are a primary, but not exclusive, focus. Investigates why modern campaigns take the forms they do, and to place them in broader American and political contexts. This is not a course on how to run campaigns; it is a course on understanding campaign politics.
Prerequisite: POS 2041.

POS 4291 Religion and Politics in the United States 3 Credits
Grading Scheme: Letter Grade
Investigates the role of religious institutions, values and communities in contemporary American political life. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 4400 Politics of Modernity 3 Credits
Grading Scheme: Letter Grade
Focuses on the core elements of modernity: the transitions from traditional to modern political identities, from subsistence production to capitalism, and from less to more complex forms of political authority, whether democratic or not. This course also introduces advanced undergraduates in political science to the development of the central themes in comparative politics.
Prerequisite: CPO 2001.

POS 4413 The Presidency 3 Credits
Grading Scheme: Letter Grade
The central role of the American Presidency in the political process. Emphasizes the contemporary institutional nature of that office and the behavior of its occupants.
Prerequisite: POS 2041.

POS 4424 Legislative Politics 3 Credits
Grading Scheme: Letter Grade
The politics of the legislative process, recruitment of legislators, formal and informal rules of behavior, legislative-executive relations and the committee system. Also discusses the impact of political parties, interest groups and constituents on the legislative process.
Prerequisite: POS 2041 and junior standing or higher.

POS 4443 Political Parties and Elections 3 Credits
Grading Scheme: Letter Grade
Composition, organization and structure of political parties and their roles and relationships in the political process.
Prerequisite: POS 2041.

POS 4463 Interest Group Politics 3 Credits
Grading Scheme: Letter Grade
Examines the theoretical foundations, historical context and current activities of special interest groups in the United States.
Prerequisite: POS 2041

POS 4624 Race, Law and the Constitution 3 Credits
Grading Scheme: Letter Grade
Surveys the historical and contemporary response of the law enforcement, civil and criminal justice, and corrections systems to minority and ethnic groups in the United States.
Prerequisite: POS 2041.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 4674 Political Change and Legal Development 3 Credits
Grading Scheme: Letter Grade
Introduces the role of law in political and social development by providing a background in social theory and the history of legal systems, beginning with Roman law.
Prerequisite: POS 2041.

POS 4734 Research Methods in Political Science 3 Credits
Grading Scheme: Letter Grade
Introduces the theory and method of contemporary political analysis. Emphasizes alternative analytical frameworks, concepts, research design, variables, measurement, and quantitative analysis of political data.
Prerequisite: POS 2041.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 4750 Survey Research 3 Credits
Grading Scheme: Letter Grade
Prepares students to understand, conduct, analyze and assess opinion surveys and polls. Covers how to decide whether and when surveys are appropriate means of data collection, how to put together a survey, how to conduct basic quantitative analysis of survey data and how to report the findings.
Prerequisite: POS 2041.

POS 4765 Election Data Science 3 Credits
Grading Scheme: Letter Grade
Introduction to basics of data science including programming for data analytics, file management, relational databases, visualizations, geographic information systems, and web development with application to large-scale election databases.
Prerequisite: Sophomore standing or higher.

POS 4905 Individual Work 2-3 Credits
Grading Scheme: Letter Grade
Readings and discussion in advanced topics of political science.
Prerequisite: department permission

POS 4911 Undergraduate Research in American Politics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

POS 4931 Special Topics in Political Science 3 Credits
Grading Scheme: Letter Grade
Selected topics in political science; precise course content will be announced in advance.
Prerequisite: POS 2041.

POS 4934 Honors Preparation 1 Credit
Grading Scheme: Letter Grade
Must be taken in conjunction with other political science courses at the 3000/4000 level. Required for students pursuing the department honors program.
Prerequisite: majors with a UF upper-division GPA of 3.5 and instructor permission.

POS 4940 Political Internship 3 Credits
Grading Scheme: S/U
Internship in government and politics. Internships are available at all levels - local, state and federal - and in every branch of government - executive, legislative and judicial. Other internships are available with political parties, interest groups, lobbying organizations, international organizations and private companies engaged in governmental relations and issue research. Readings and paper required. Only three credits of POS /PAD 4940 credit may be counted toward the major.
Prerequisite: POS 2041 and instructor permission.

POS 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

POS 4970 Senior Thesis 2-4 Credits
Grading Scheme: Letter Grade
One of three required courses for students who are writing an honors thesis. Students work under the supervision of their thesis advisor. Generally, this course is taken in the second semester of the one-year thesis process. Students receive a letter grade for their work.
Prerequisite: POS 2041.

POT 2002 Introduction to Political Theory 3 Credits
Grading Scheme: Letter Grade
Basic principles of political thought. Examination of nature of state and relationship between individual and state. Covers topics such as authority, consent, freedom and obligation. Exploration of these concepts throughout western tradition as well as in other areas.
Attributes: General Education - Humanities

POT 3302 Political Ideologies 3 Credits
Grading Scheme: Letter Grade
Seeks understanding of the contemporary spectrum of political beliefs from liberal democracy to the ideological ideas of the far right. Examines the effects of ethical, historical, political, and psychological perspectives on these belief systems.
Prerequisite: POT 2002.

POT 3503 Environmental Ethics and Politics 3 Credits
Grading Scheme: Letter Grade
Intensive investigation into the history and theory of environmental ethical and political thought.
Prerequisite: POT 2002.

POT 4013 Great Political Thinkers: Ancient and Medieval 3 Credits
Grading Scheme: Letter Grade
Major early political theorists including Plato, Aristotle, St. Augustine, and St. Thomas Aquinas. Emphasizes the principles of a just political order: natural law, civic virtue, and constitutionalism. Analysis of church-state struggles and the emergence of the modern state.
Prerequisite: POT 2002.

POT 4053 Great Political Thinkers: Machiavelli to Marx 3 Credits
Grading Scheme: Letter Grade
Studies selected political theorists from Machiavelli to Marx. Emphasizes the ideas of authority and freedom, obligation and consent in the writing of Hobbes, Locke, Rousseau, etc. Liberalism, conservatism, utilitarianism, and idealism.
Prerequisite: POT 2002.

POT 4204 American Political Thought 3 Credits
Grading Scheme: Letter Grade
Examines the history of American political thought, including an analysis of Thomas Jefferson and the Declaration of Independence, the federalist papers and the ideology of Thomas Paine. Also includes African American political thought, feminist political theories, liberalism, and the contribution of Mark Twain.
Prerequisite: POT 2002.

POT 4311 Problems of Democracy 3 Credits
Grading Scheme: Letter Grade
The theory and practice of democracy, especially ideas that define a democratic order. Studies selected topics ranging from equality and majority rule to technology and the globalization of democracy. (WR)
Prerequisite: Junior standing or higher or instructor permission.
Attributes: Satisfies 4000 Words of Writing Requirement

POT 4911 Undergraduate Research in Political Theory 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

PUP 3002 Current Controversies in Public Policy 3 Credits
Grading Scheme: Letter Grade
Framework to understand the formation, adoption, budgeting, implementation and evaluation of public policy. This framework provides a basis for detailed discussions and debates about current policy issues.
Prerequisite: POS 2041.

PUP 3323 Women in Politics 3 Credits
Grading Scheme: Letter Grade
Analyzes the roles women play in American politics, including political behavior and public policy issues.
Prerequisite: POS 2041.

PUP 4224 Florida Environmental Politics 3 Credits
Grading Scheme: Letter Grade
Examines the politics of environmental transformation in Florida, including issues of water supply, growth management and Everglades restoration. Supplements the department's offerings in environmental politics. Can be used to satisfy requirements for the major or minor in political science, but it is also intended for (and accessible to) interested students in any major.
Prerequisite: Sophomore standing or higher.

PUP 4710 Money and Politics 3 Credits
Grading Scheme: Letter Grade
Explores the relationship, if any, between economic resources and political outcomes in the United States.
Prerequisite: POS 2041 or equivalent.

PUP 4911 Undergraduate Research in Public Policy 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Public Policy. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Public Policy.

Portuguese | Spanish and Portuguese Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

Courses

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
In this course, students will be assigned readings representative of a broad range of literary genres and cultures. These readings will cover a variety of literary movements and historical eras. The readings will include selections from the Western canon. Written analysis of literary works may be required. Students will be provided with opportunities to practice critical interpretation.
Prerequisite: ENC 1101
Attributes: General Education - Humanities

POR 1130 Beginning Portuguese 1 5 Credits
Grading Scheme: Letter Grade
First course in the basic Portuguese language sequence, which emphasizes the language as spoken in Brazil. Develops basic communication skills in reading, writing, speaking and listening. Not open to proficient speakers of Spanish.

POR 1131 Beginning Portuguese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the series in basic Portuguese, which emphasizes the language as spoken in Brazil. Develops basic communication skills in reading, writing, speaking and listening. Not open to proficient speakers of Spanish.
Prerequisite: POR 1130 with minimum grade of C or S, or the equivalent.

POR 3010 Introduction to Portuguese and Brazil: Accelerated 5 Credits
Grading Scheme: Letter Grade
Designed for those with knowledge of another Romance language (usually Spanish) through study or home experience. A complete introduction to the language, assuming that students have no previous study of Portuguese. It also satisfies the CLAS and Journalism foreign-language requirement in one semester.
Prerequisite: FRE 3300 or SPN 3300 or equivalent.

POR 3224 Applied Portuguese 1-5 Credits
Grading Scheme: Letter Grade
Portuguese-language reading and discussions to accompany and complement courses of diverse content offered in other departments. Readings and discussions are in Portuguese to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course.
Prerequisite: instructor permission.

POR 3242 Oral and Written Practice 3 Credits
Grading Scheme: Letter Grade
Intermediate-level course emphasizing all four skills; consists of printed and electronic readings, writing essays and taking notes, oral discussions and presentations, lab activities and grammar review.
Prerequisite: POR 1131 or POR 3010 or equivalent.

POR 3243 Composition and Conversation 3 Credits
Grading Scheme: Letter Grade
An intermediate-level course with continued expansion of vocabulary, review of essential grammar and structures and development of reading, writing and speaking skills.
Prerequisite: POR 1131 or POR 3010, or the equivalent.

POR 3451 Introduction to Portuguese Translation and Interpretation 3 Credits
Grading Scheme: Letter Grade
Improve Portuguese language skills through application of the principles of translation while gaining information on professional opportunities in the field.
Prerequisite: POR 3010 or the equivalent.

POR 3500 Luso-Brazilian Civilization 3 Credits
Grading Scheme: Letter Grade
Introduction to the central historical events, political institutions, intellectual currents and artistic movements in the foundation and development of Portugal, Brazil and Lusophone Africa. Preview of topics studied in other literature and culture courses. (N)
Prerequisite: POR 3242 or the equivalent, or instructor permission.
Attributes: General Education - International

POR 3502 Brazilian Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to the study of modern cultural forms, including folk pageantry, performance arts, literature, film and television.
Prerequisite: POR 3242 or instructor permission.

POR 3508 Brazil Beyond the Beaches: Tourism and Brazilian Culture 3 Credits
Grading Scheme: Letter Grade
Explores the economic and cultural impacts of the multi-billion dollar tourism industry on the cultural products and practices of Brazil.
Prerequisite: POR 3242.

POR 3701 Introduction to Portuguese Linguistics 3 Credits
Grading Scheme: Letter Grade
An introduction to the basic concepts and analytical techniques of linguistics, applied specifically to the Portuguese language. Practices the linguistic analysis of the sounds, words and sentences of Portuguese, with relevant comparisons to Spanish and English where applicable.
Prerequisite: POR 3242 or POR 3243 with minimum grade of C.

POR 3930 Topics in Brazilian Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics in Brazilian culture and civilization, including racial identity, feminism, regionalism, music, film, art, religion, sports, and more.
Prerequisite: POR 3010.

POR 3943 Internship in Portuguese 1-3 Credits
Grading Scheme: S/U
This course complements the students' internship with guided reflection. Given the nature of our Portuguese program, students can complete their internship wherever there is interaction with Portuguese speaking communities. This program offers an open alternative so that they can customize their professional interests.
Prerequisite: POR 3243 and permission of the instructor.

POR 4420 Advanced Composition and Syntax 3 Credits
Grading Scheme: Letter Grade
A language course that distinguishes Portuguese from related Romance tongues, including the more difficult aspects of grammar and structure, specialized vocabulary, different stylistic registers, and application of these to translation and original composition.
Prerequisite: POR 3243 or the equivalent (intermediate proficiency).

POR 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Honors thesis preparation.
Prerequisite: 4000-level POW or POR course.

POR 4956 Overseas Studies 3-6 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

POW 3100 Monsters of the Portuguese-Speaking World 3 Credits
Grading Scheme: Letter Grade
A survey of short narrative works from Portugal, Brazil, Angola and Mozambique with an emphasis on the effects of oppression and colonialism through the figure of the monster and the literary fantastic.
Prerequisite: POR 3243 or the equivalent, or instructor permission.

POW 3130 Colonial Brazil: Cannibalism, Enslavement and Monarchy 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary approach to Brazilian culture 1500-1900 to decolonialize the "myths" of the past and understand the complexities of Brazil's society through film, art, history, anthropology, and literature.
Prerequisite: POR 3243 or the equivalent, or instructor permission.

POW 3131 Brazilian Short Story: Conflict and Citizenship 3 Credits
Grading Scheme: Letter Grade
Overview of 20th and 21st century short story by contemporary writers, with an emphasis on the social themes of conflict and citizenship.
Prerequisite: POR 3243 or the equivalent, or program coordinator permission.

POW 4200 Dystopian Narrative in Brazil 3 Credits
Grading Scheme: Letter Grade
Examination of dystopian narrative as a unique vehicle for understanding the cultural and political consequences of modernity and social disparities in Brazil.
Prerequisite: POW 3100 or POW 3130 or POW 3131.

POW 4380 Contemporary Brazilian Poetry 3 Credits
Grading Scheme: Letter Grade
A study of lyric, both literary and musical, in the second half of the 20th century, including experimental trends, political verse, popular music and youth movements.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4382 Brazilian Drama 3 Credits
Grading Scheme: Letter Grade
A survey of the milestones of Brazilian theatre with an emphasis on 20th century plays. In addition to the plays, the course also presents the theoretical framework and political context of theatrical production in Brazil.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4450 The Modernist Movement in Brazilian Literature 3 Credits
Grading Scheme: Letter Grade
Readings in fiction, poetry and essay of the nationalist and avant-garde decades of the 1920s and 1930s. Discussions are designed to situate Brazilian letters in diverse national and international contexts. Literary works are complemented by considerations of concurrent production in music and the arts.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4454 Becoming Brazil: Nineteenth Century to the Present 3 Credits
Grading Scheme: Letter Grade
Surveys nineteenth-century literature and history that examines the cultural figures, institutions and historical moments that have shaped modern Brazil and their continued relevance in contemporary Brazilian society.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4480 Contemporary Brazil Narrative 3 Credits
Grading Scheme: Letter Grade
Rotating topics may include studies in genre (the short story, the novel), theme (science fiction) or author (Rubem Fonseca, Clarice Lispector, Guimaraes Rosa).
Prerequisite: POW 3100 or POW 3130 or POW 3131.

POW 4700 Race and Gender in Machado de Assis 3 Credits
Grading Scheme: Letter Grade
A survey of the thought of the 19th century master of Brazilian letters Machado de Assis, with an emphasis on the themes of race and gender in his short stories, chronicles and essays.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4720 Deep Brazil: Culture of North and Northeast 3 Credits
Grading Scheme: Letter Grade
Study of the narrative and culture of the North/Northeast, including the complex histories and political conflicts of these culturally rich regions.
Prerequisite: POW 3100 or POW 3130 or POW 3131.

POW 4740 Crime Fiction in Brazil 3 Credits
Grading Scheme: Letter Grade
Surveys crime fiction and the adaption of the genre to portray Brazilian reality from 1920 to the present.
Prerequisite: POW 3100 or POW 3130 or POW 3131.

POW 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Individual work in Portuguese.
Prerequisite: instructor permission.

POW 4911 Undergraduate Research in Portuguese 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

POW 4930 Readings in Luso-Brazilian Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Diverse subjects in Brazilian and Portuguese studies, including the Brazilian Northeast, the Afro-Brazilian world, the culture of dictatorship, popular genres and popular music. In addition to readings of original texts, course may incorporate sound recordings and film.
Prerequisite: introductory knowledge of Luso-Brazilian literature.

PRT 1515 Soccer Explains The World 3 Credits
Grading Scheme: Letter Grade
Explore power dynamics and justice in soccer and understand how soccer exemplifies justice and power in society. Examine how soccer deals with problems of inequality such as racism, sexism, poverty, etc. and relate this to society in general. A multidisciplinary approach is followed.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1

PRT 3391 Brazilian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical analysis of Brazilian film and the relationship of content to social and political forces.
Prerequisite: POR 3242 OR POR 3243.

PRT 3930 Special Topics in Lusophone Culture and Civilization 1-4 Credits
Grading Scheme: Letter Grade
Variable topics in Brazilian, Portuguese or Luso-African culture and civilization, including globalism, regionalism, song literature, film and video, negritude, women's movements and Amazonian discourse.
Prerequisite: POR 3242 OR POR 3243.

SPN 3573 Immersion in a Hispanic Community 3 Credits
Grading Scheme: Letter Grade
International service-learning course and immersion experience abroad. Comprises significant hours of community service in a Hispanic city, plus group discussions. Reflecting on learning is an important course component.
Prerequisite: SPN 3300 or SPN 3350

Psychology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

Curriculum

- Psychology
- Psychology UF Online

Courses

CBH 3003 Comparative Psychology 3 Credits
Grading Scheme: Letter Grade
Survey of approaches to and concepts of the study of animal behavior and psychology.
Prerequisite: PSY 2012.

CLP 2001 Personal Growth 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts and techniques in psychology that apply to personal growth and development. All students have the opportunity to participate in research projects or alternative experiences.

CLP 3144 Abnormal Psychology 3 Credits
Grading Scheme: Letter Grade
The varieties of disordered experience and conduct, and their contribution to an understanding of more effective personal and social adjustment. Includes the neuroses, psychoses and psychosomatic and conduct disturbances.
Prerequisite: PSY 2012.

CLP 4110 Eating Disorders 3 Credits
Grading Scheme: Letter Grade
Overview of the causes and treatments associated with the full range of recognized eating disorders, including anorexia, bulimia and binge eating disorder, as well as a variety of subclinical forms of problematic eating behaviors and their surrounding factors and issues.
Prerequisite: PSY 2012.

DEP 3053 Developmental Psychology 3 Credits
Grading Scheme: Letter Grade
Theory and research on psychological development from prenatal stages through adulthood.
Prerequisite: PSY 2012

DEP 4115 Infant Development 3 Credits
Grading Scheme: Letter Grade
Development from the prenatal period through three years of age with a focus on physical cognitive and social-emotional processes.
Prerequisite: PSY 2012

DEP 4163 Cognitive Development 3 Credits
Grading Scheme: Letter Grade
Basic principles and theories of cognitive development from infancy through early adolescence. Information-processing, Piagetian and neo-Piagetian theories are covered, as is language, memory, social cognition, concept formation, perception and attention.
Prerequisite: DEP 3053.

DEP 4305 Adolescent Psychology 3 Credits
Grading Scheme: Letter Grade
Biological, psychological and sociological perspectives on adolescence, including the dynamics of socialization, self-concept and identity, peer groups and problems of adolescence.
Prerequisite: DEP 3053.

DEP 4464 Psychology of Aging 3 Credits
Grading Scheme: Letter Grade
Topics in gerontology from a life span developmental perspective, including the development of psychological problems of the aged and theoretical and methodological issues in the study of the aged.
Prerequisite: refer to the department.

DEP 4704C Research Methods in Developmental Psychology 4 Credits
Grading Scheme: Letter Grade
Methodological approaches to the study of development including experimental and observational techniques.
Prerequisite: DEP 3053 and STA 2023; Prereq or
Corequisite: STA 3024.

DEP 4930 Revolving Topics in Developmental Psychology 3 Credits
Grading Scheme: Letter Grade
Advanced study in developmental psychology, including development of language and thought, social-personality development, gerontology and death and dying. Content varies; refer to the schedule of courses for the semester's topic.
Prerequisite: refer to the department.

EAB 3002 Principles of Behavior Analysis 3 Credits
Grading Scheme: Letter Grade
Introduces and surveys the principles, methods, theories, and applications of the experimental analysis of behavior. Although EAB 3002 and EAB 3764 cannot both be taken to fulfill the Group A requirement, both courses may be taken, with one counting as an additional course toward the major.
Prerequisite: PSY 2012.

EAB 3764 Applied Behavior Analysis 3 Credits
Grading Scheme: Letter Grade
Extending learning principles to human problems in child development, education, mental health, mental retardation, behavioral medicine, business and industry, aging and environmental applications. Although students cannot take both EAB 3002 and 3764 to fulfill the Group A requirement, they can take both courses; one will count as an additional course toward the major.
Prerequisite: PSY 2012.

EAB 4022C Laboratory Procedures in Behavior Analysis 4 Credits
Grading Scheme: Letter Grade
General laboratory procedures and apparatus employed in the experimental analysis of animal behavior. Daily laboratory sessions focus upon experimental treatments, apparatus programming and data analysis.
Prerequisite: EAB 3002.

EAB 4184 Behaviorism and Contemporary Society 3 Credits
Grading Scheme: Letter Grade
Consideration of the applications of behavioral science and technology to contemporary society. Emphasis on the implications of behavior theory and the experimental analysis of behavior.
Prerequisite: EAB 3002 or EAB 3764.

EAB 4713 Applied Behavior Analysis with Animals: Survey of Applications 3 Credits
Grading Scheme: Letter Grade
Examination of applications of behavior analysis with domestic, exotic, and wild animals. Topics considered may include pet training, animal shelters, behavioral husbandry, service dogs, scent detection, and wildlife conservation.
Prerequisite: EAB 3002.

EAB 4714C Laboratory in Applied Behavior Analysis 4 Credits
Grading Scheme: Letter Grade
Introduces research methods in applied behavior analysis. Computerized measurement and assessment of human behavior in ongoing field studies, data analysis and implementation of experimental techniques. (WR)
Prerequisite: EAB 3002 or EAB 3764 or instructor permission
Attributes: Satisfies 6000 Words of Writing Requirement

EAB 4741 Organizational Behavior Management 3 Credits
Grading Scheme: Letter Grade
Overview of contemporary research and practice in the field of Organizational Behavior Management (OBM), including choosing performance targets, assessment, designing effective intervention, effective supervision, ethics, and common intervention systems such as token economies and behavior-based safety.
Prerequisite: EAB 3002 or EAB 3764 with minimum grade of C.

EAB 4930 Advanced Seminar in Behavior Analysis 3 Credits
Grading Scheme: Letter Grade
In-depth examination of topics related to behavior analysis. Some examples include developmental and intellectual disabilities, behavioral treatments for substance abuse, behavioral health and exercise, and ethics in behavior analysis. Content varies; refer to the schedule of courses for the semester's topic.
Prerequisite: EAB 3002 or EAB 3764 with minimum grade of C.

EXP 3104 Sensory Processes 3 Credits
Grading Scheme: Letter Grade
Introduces human cognitive abilities, including perceptual and motor skill, attention, learning and memory, language and thinking, and the methods used to study these abilities.
Prerequisite: PSY 2012.

EXP 3604 Cognitive Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces human cognitive abilities, including perceptual and motor skill, attention, learning and memory, language and thinking, and the methods used to study these abilities.
Prerequisite: PSY 2012.

EXP 4174C Laboratory in Sensory Processes 4 Credits
Grading Scheme: Letter Grade
Collect, analyze, and evaluate data on specific problems related to sensory and perceptual abilities.
Prerequisite: (EXP 3104 or EXP 3604) and STA 2023.
Corequisite: STA 3024.
Attributes: Artificial Intelligence

EXP 4404 Psychology of Learning and Memory 3 Credits
Grading Scheme: Letter Grade
Theoretical foundations of learning and memory and applications to various fields of psychology.
Prerequisite: PSY 2012 and two 3000 level Psychology courses (i.e., prefixes CLP, DEP, EAB, PPE, PSB, SOP).

GEY 4001 Issues and Concepts in Gerontology 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary overview of the field of aging covers biomedical and health issues, psychosocial factors, applied aspects, and policy issues.
Prerequisite: PSY 3213L.

PCO 4113 Positive Psychology 3 Credits
Grading Scheme: Letter Grade
Explores the history of positive psychology and its basic tenets before examining a wide range of topics that relate to happiness and well-being, including positive relationships, positive thinking, life meaning, religion/spirituality, gratitude, altruism, career development, and character strengths.
Prerequisite: PSY 2012 with a minimum grade C.

PCO 4270 Latinx Psychology 3 Credits
Grading Scheme: Letter Grade
General overview of Latinx mental health concerns in the United States; examine the strengths and resilience of Latinxs; examination of structural and societal barriers in the United Sates that result in psychological distress for Latinx people.
Prerequisite: PSY2012 with a minimum grade of B.

PCO 4272 Advanced Seminar in Psychology of Women 3 Credits
Grading Scheme: Letter Grade
Advanced seminar on psychological theories and research related to the psychology of women. Also integrates consideration of the intersections of gender, race/ethnicity, class, sexual-orientation, and other dimensions of diversity.
Prerequisite: PSY 2012.

PCO 4404 Black Psychology 3 Credits
Grading Scheme: Letter Grade
Research, theories, and paradigms about the attitudes, behaviors, psychosocial and educational realities of Black Americans; psychosocial realities of Black Americans through an intersectionality lens.
Prerequisite: PSY2012 with a minimum grade of B.

PCO 4911 Undergraduate Research in Psychology of Health Disparities 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

PCO 4930 Seminar in Counseling Psychology 3 Credits
Grading Scheme: Letter Grade
Advanced study in counseling psychology, including psychology of women, studies of the person and studies of self.
Prerequisite: PSY 2012.

PPE 3003 Psychology of Personality 3 Credits
Grading Scheme: Letter Grade
Development and organization of personality, description and assessment methods, results of research in personality structure and processes.
Prerequisite: PSY 2012.

PSB 3002 Physiological Psychology 3 Credits
Grading Scheme: Letter Grade
Survey of the biological basis of behavior with special relevance to psychology. Students cannot take both PSB 3002 and PSB 3340.
Prerequisite: PSY 2012.

PSB 3340 Behavioral Neuroscience 3 Credits
Grading Scheme: Letter Grade
Neuroanatomatical, chemical and electrophysiological studies in the biological basis of behavior. Students cannot take both PSB 3002 and PSB 3340 (PSB 3340 is recommended for IDS majors in neurobiological sciences).
Prerequisite: BSC 2010.

PSB 4240 Psychobiology of Abnormal Behavior 3 Credits
Grading Scheme: Letter Grade
Biological theories and models of developmental disabilities, schizophrenia and affective disorders, and the treatments of these conditions.
Prerequisite: PSB 3340 and STA 2023.

PSB 4342 Introduction to Cognitive Neuroscience 3 Credits
Grading Scheme: Letter Grade
The biological foundations of human cognition.
Prerequisite: PSB 3340 or instructor permission.
Attributes: Artificial Intelligence

PSB 4343C Laboratory in Cognitive Neuroscience 4 Credits
Grading Scheme: Letter Grade
Practical training in the foundations of cognitive neuroscience with a strong focus on cognitive experiments with human participants. Engage in theoretical work and practical experiments addressing behavioral, cognitive, and physiological processes relationships between biological processes.
Prerequisite: PSB 3340 and EXP 3604 and PSY 3213L and STA 2023.
Attributes: Artificial Intelligence

PSB 4434 Neurochemistry, Pharmacology and Behavior 3 Credits
Grading Scheme: Letter Grade
Advanced discussion of neurotransmitters, neuromodulators and the action of neuroactive drugs in relation to behavior.
Prerequisite: PSB 3340 or instructor permission.

PSB 4504 Developmental Psychobiology 3 Credits
Grading Scheme: Letter Grade
Principles of neural and behavioral development stressing the correlations among structural, chemical, endocrine and behavioral events during maturation.
Prerequisite: PSB 3340 or instructor permission.

PSB 4810 Neurobiology of Learning and Memory 3 Credits
Grading Scheme: Letter Grade
Advanced undergraduate seminar on neurobiological mechanisms of learning and memory, with concepts applied to the ways in which neuroplasticity underlies many aspects of behavior.
Prerequisite: PSB 3340 or instructor permission.

PSB 4934 Special Topics in Physiological Psychology 3 Credits
Grading Scheme: Letter Grade
Selected topics; precise content announced in advance. Provides an opportunity for in-depth study not offered in other courses.
Prerequisite: PSB 3340 or instructor permission.

PSY 2012 General Psychology 3 Credits
Grading Scheme: Letter Grade
In this course, students will gain an introduction to the scientific study of human behavior and mental processes. Topics may be drawn from historical and current perspectives in psychology.
Attributes: General Education - Social Science

PSY 3213L Laboratory Methods in Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces experimental design in psychology, data analysis and interpretation of results, and literature reports.
Prerequisite: PSY 2012.

PSY 3626 Psychology of Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines the psychology of sustainability and its impact on human behavior. Provides knowledge of social value orientation, environmental identity, altruism, social capital, and participatory action from a sustainability perspective.
Prerequisite: PSY 2012

PSY 3912 Introduction to Research in Psychology 1-3 Credits
Grading Scheme: S/U
An introduction to current techniques used in psychology research. Students participate in on-going research.
Prerequisite: refer to the department.

PSY 4625 The Psychology of Pseudoscience 3 Credits
Grading Scheme: Letter Grade
Studies the psychological causes and consequences of belief in "weird" things.
Prerequisite: PSY 2012 with minimum grade of C.

PSY 4824 Psychology of Eating and Obesity 3 Credits
Grading Scheme: Letter Grade
Comprehensive examination of theory and application of psychological and brain science principles to understanding eating behavior and the contemporary problem of overweight and obesity.
Prerequisite: PSY 2012 with a B or greater and any two of the following: PSB 3002, PSB 3340, CLP 3144, PPE 3003, DEP 3053, SOP 3004, EAB 3002, EAB 3764, or EXP 3604.

PSY 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Qualified students and the instructor or supervisor choose a particular problem for investigation or studying psychology. A formal written report of the work is required.
Prerequisite: minimum of 12 semester credits in psychology.

PSY 4911 Undergraduate Research in Psychology 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research in Psychology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Psychology.

PSY 4930 Special Topics in Psychology 3 Credits
Grading Scheme: Letter Grade
Topics in psychology that provide opportunity for in-depth study not offered in other courses.
Prerequisite: PSY 2012.

PSY 4940 Introduction to Teaching in Psychology 0-3 Credits
Grading Scheme: S/U
College-level teaching experience in psychology by serving as an undergraduate teaching assistant (TA). Each assistantship is unique, tailored to both the student's skills and knowledge and to the instructor's needs. Responsibilities may include facilitating discussion groups or study sessions, reviewing written assignments and providing evaluative feedback, and responding to student questions and inquiries.
Prerequisite: instructor permission and completion of the course for which the student will serve as a teaching assistant.

PSY 4949 Internship in Psychology 0-3 Credits
Grading Scheme: S/U
Credit is earned by completing a paid or unpaid internship with a community agency approved by the department. Students work 50 hours per credit earned. A minimum of 50 work hours is required for students enrolling for 0 credits.
Prerequisite: 12 semester credits of psychology.

PSY 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
This course provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

PSY 4970 Senior Thesis 1-3 Credits
Grading Scheme: S/U
Qualified students must write a formal research proposal to enroll in the course. They also must carry out individual research under the supervision of a faculty member and submit a formal written report.
Prerequisite: 24 credits in psychology and instructor permission.

SOP 3004 Social Psychology 3 Credits
Grading Scheme: Letter Grade
A study of the social factors influencing individual behavior. Consideration of socialization, social influence and conformity, social interaction, decision-making, attitudes and opinions.
Prerequisite: PSY 2012.

SOP 4214C Research Methods in Social Psychology 4 Credits
Grading Scheme: Letter Grade
Laboratory training and basic experimental techniques and procedures used in the investigation of social-psychological processes.
Prerequisite: SOP 3004 or STA 2023 or STA 3024 with a minimum grade B.

SOP 4704 Advanced Social Psychology (Revolving Topics) 3 Credits
Grading Scheme: Letter Grade
In-depth examination of topics in social psychology; refer to the schedule of courses to determine the topic covered each semester. Topics can include health psychology, social motivation, the self, self-presentation, group dynamics, conflict, population psychology, community psychology and the psychology of law. Content varies; refer to the schedule of courses for the semester's topic.
Prerequisite: SOP 3004.

SOP 4777 Psychology of Human Sexuality 3 Credits
Grading Scheme: Letter Grade
Examination of human sexuality in the United States from a psychological perspective, including but not limited to the following topics: Sexual desire and sexual responses, sexual development, sexual practices, sexual dysfunctions and sex therapy.
Prerequisite: PSY 2012 with a minimum grade C.

SOP 4842 Legal Psychology 3 Credits
Grading Scheme: Letter Grade
Studies the interaction between individuals and the legal system; considers how the application of various psychological disciplines can inform the legal system.
Prerequisite: PSY 2012

Curriculum
- American Sign Language and Deaf Culture Certificate
- Artificial Intelligence in Public Health and Healthcare Certificate
- Public Health
- Public Health Minor
- Rehabilitation Minor

Courses

HSC 4913 Supervised Research Experience 0-4 Credits
Grading Scheme: Letter Grade
An opportunity to explore an area of interest in health research or the delivery and/or administration of health services through a firsthand and supervised research experience.
Prerequisite: Instructor permission.

PHC 3440 Global Public Health 3 Credits
Grading Scheme: Letter Grade
Examines global health threats, health production, and their relationship with social processes from an interdisciplinary perspective. Also examines how social and technical innovations provide new opportunities to address global health.
Prerequisite: PHC 4101 & PHC 3603 both with a minimum grade of C & (PBH_BPH major or (PBH_UMN minor)).

PHC 3453 Leveraging the Arts to Promote Public Health 3 Credits
Grading Scheme: Letter Grade
Overview of the arts and health research landscape with an emphasis on arts in public health. As cross-sector collaboration within public health rises in prominence, it is essential that future public health leaders understand how and why the field of art can be leveraged.
Prerequisite: PHC 4101 or PHC 2100.

PHC 3621 Ethics in Artificial Intelligence: Who's Protecting Our Health 3 Credits
Grading Scheme: Letter Grade
Explores the ethical challenges of using artificial intelligence in Healthcare and the practice of Public Health. Students will examine predictive models used for making important health decisions, addressing factors that contribute to trustworthy artificial intelligence in health, and analyzing potential for bias, risk, and social inequity in assessing and delivering health and public health interventions.
Prerequisite: PHC 3793.
Attributes: Artificial Intelligence

PHC 3678 Global Health Disparities and Disabilities 3 Credits
Grading Scheme: Letter Grade
Provides students, interested in addressing health disparities among people living with disabilities, with the knowledge and understanding of health determinants that maintain their current health status globally. Special focus on low- and middle-income countries.
Prerequisite: Public Health (PBH-BPH), Health Science (HES_BHS), or Communication Sciences and Disorders (CSD_BHS) major with junior standing or higher.

PHC 3793 Higher Thinking for Healthy Humans: AI in Healthcare and Public Health 3 Credits
Grading Scheme: Letter Grade
Covers history, foundational concepts, and methods on Artificial Intelligence (AI), focusing on public health and healthcare applications, including hands-on practice on graphical/high-level AI software. Doesn't include advanced statistical/machine learning training or programming.
Prerequisite: STA 2023 or equivalent.
Attributes: Artificial Intelligence

PHC 4024 Applied Epidemiology 3 Credits
Grading Scheme: Letter Grade
Principles and methods of epidemiological investigation focusing on both infectious and noninfectious diseases. Emphasizes outbreak investigations, field epidemiology and epidemiology careers.
Prerequisite: PHC 4101 & PHC 4094 both with a minimum grade of C & (PBH_BPH major or PBH_UMN minor).

PHC 4094 Introduction to Biostatistics for Health Science and Public Health 3 Credits
Grading Scheme: Letter Grade
Methods and public health applications for analysis of variance, correlation, simple linear regression, multiple linear regression, nonparametric and distribution-free statistical methods, and some basic concepts about survival analysis. Public health applications using statistical software. Writing data analysis reports.
Prerequisite: PHC 4101 & STA 2023 both with a minimum grade of C & (PBH_BPH major or PBH_UMN minor).

PHC 4117 Public Health Management Leadership 3 Credits
Grading Scheme: Letter Grade
Provides knowledge relevant to leading public health organizations while effectively managing and motivating employees. Includes organizational behavior and theories to examine management, leadership, and application of skills in delivering public health programs.
Prerequisite: HSA 3111 and PHC 4101 both with a minimum grade of C and (PBH_BPH major).

PHC 4320 Environmental Concepts in Public Health 3 Credits
Grading Scheme: Letter Grade
Surveys major environmental health topics by examining sources, routes, media, and health outcomes associated with biological, chemical, and physical agents in the environment. Introduces the economic and legal frameworks associated with environmental health issues and public health.
Prerequisite: PHC 4101 with a minimum grade of C & (PBH_BPH major or (PBH_UMN minor)).

PHC 4418 Social, Economic, and Environmental Drivers of Health 3 Credits
Grading Scheme: Letter Grade
Overview of the social determinants of health and their impact on health and quality of life. Explore social, economic, environmental, and political factors contributing to health and health disparities across various populations.
Prerequisite: PHC 4101 and (PBH_BPH major or PBH_UMN minor); or instructor approval.

PHC 4503 Public Health Messaging and Dissemination 3 Credits
Grading Scheme: Letter Grade
Provides a comprehensive understanding of the role of communication in advancing public health and health promotion efforts, as well as effective theory- and evidence-based strategies for public health communication at multiple levels of the social ecological model.
Prerequisite: PHC 4101 and Public Health major or minor (PBH_BPH).

PHC 4792 Data Visualization in the Health Sciences 3 Credits
Grading Scheme: Letter Grade
Learn the foundations of information visualization and sharpen skills in understanding, evaluating, and presenting AI-driven public health data. R is primarily used to explore concepts in graphic design, storytelling, data wrangling and plotting, biostatistics, and artificial intelligence.
Prerequisite: STA 2023 or equivalent.
Attributes: Artificial Intelligence

PHC 4796C Artificial Intelligence in Psychological and Brain Sciences 3 Credits
Grading Scheme: Letter Grade
Builds upon the artificial intelligence (AI) foundations taught in PHC 3793 to train health science-focused students to examine how AI and Machine Learning (ML) methods are applied in psychology and related brain sciences, as well as to address the factors that contribute to appropriate use of AI. The course neither provides nor necessitates prior programming knowledge, advanced statistical, or machine learning training.
Prerequisite: (PHC 3739 or equivalent AI Foundations course with a grade of C) or [(HES_BHS major or ABS_UMN minor) and CLP 4420 with a minimum grade of C)].

Public Relations

Curriculum

- Combination Degrees
- Media Production, Management, and Technology Minor
- Public Relations
- Public Relations Minor
- Public Relations UF Online

Students who have not been admitted to the College of Journalism and Communications must have a 3.0 overall grade point average to enroll in courses other than PUR 3000. Students minoring in mass communication generally need department approval to register for PUR courses.

Courses

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources, and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: Journalism and Communications major of junior standing or higher.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: Journalism and Communications major of sophomore standing or higher and (ADV 3008 or MMC 1009 or MMC 2604 or PUR 3000 or RTV 3001 with minimum grade of C).

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans, and study social media strategies.
Prerequisite: sophomore standing or higher.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

PUR 3000 Principles of Public Relations 3 Credits
Grading Scheme: Letter Grade
Nature and role of public relations in a democratic society, activities of public relations professionals, major influences that affect organizational behavior, and ethics and professional development of practitioners in the private and public sectors. Emphasizes management functions and developing effective public relations strategies.
Prerequisite: Sophomore standing or higher.

PUR 3211 Diverse Voices 1 Credit
Grading Scheme: Letter Grade
Assesses the vital role of diversity, equity, inclusion, and access (IDEA) in public relations. Public relations professionals play a key role in telling stories that shape the perceptions of stakeholder groups. Gain insight and direction on ways to help create and support a diverse, equitable, and inclusive work environment.
Prerequisite: PUR 3000 with a minimum grade of C.

PUR 3463 Sports Communication 3 Credits
Grading Scheme: Letter Grade
Instruction, analysis, and training in the principles and practice of public relations in sports organizations. Emphasizes media relations and skills essential for sports communication professionals, including handling media interactions across platforms, problems, crises, and integration of positive communications strategies with strategic goals of sports organizations.
Prerequisite: Junior standing or higher

PUR 3500 Public Relations Research 3 Credits
Grading Scheme: Letter Grade
Using principles of scientific research to establish, monitor and evaluate communications programs: research planning, theory, design - sampling, surveys, experiments, focus groups, content analysis and participant observation; qualitative and statistical analysis and reporting of research with advanced technologies.
Prerequisite: PUR 3000 and STA 2023 with minimum grades of C and junior standing or higher.

PUR 3622 Social Media Management 3 Credits
Grading Scheme: Letter Grade
Social media management explores the use of the internet to build connections, market businesses, and engage audiences. With billions of people connected online, businesses are constantly cultivating new ways to join the online conversation. Highlights the various platforms and best techniques used in social media.
Prerequisite: Sophomore standing or higher.

PUR 3801 Public Relations Strategy 3 Credits
Grading Scheme: Letter Grade
Develops skills in strategic public relations management based on an analysis of current and historical case studies.
Prerequisite: PUR 3000 and PUR 3500 with minimum grades of C.

PUR 3943 The Agency Immersion 1-3 Credits
Grading Scheme: Letter Grade
Gain credit while working for the advertising and public relations firm at the College of Journalism and Communications. Build expertise and gain experience in a hands-on environment by working directly with clients and industry professionals.
Prerequisite: PUR major, sophomore standing, accepted application to join The Agency.

PUR 4100 Public Relations Writing 4 Credits
Grading Scheme: Letter Grade
Prepare to meet the demands of the marketplace for persuasive and professional public relations writing skills.
Prerequisite: PUR 3000 and JOU 3101 and ENC 3252 with minimum grades of C.

PUR 4203 Ethics and Professional Responsibility in Public Relations 3 Credits
Grading Scheme: Letter Grade
Ethical responsibilities of the public relations professional: identifying the moral dimensions of issues that arise in the practice of public relations, increasing the ability to employ reason as a tool for dealing with moral issues, providing knowledge and skills necessary to reach and justify ethical decisions, and eliciting a sense of personal and professional responsibility.
Prerequisite: PUR 3000 with a minimum grade of C.

PUR 4204 Corporate Communication Essentials 3 Credits
Grading Scheme: Letter Grade
Focuses on why successful communication professionals must develop a fundamental understanding of business, whether they are in for-profit or nonprofit corporations, in-house or on the agency side, or aspire to creative or management roles. Delve into these and various other aspects of corporate communication with special emphasis on why they matter and what role tomorrow's strategic communication professionals play.
Prerequisite: PUR 3000 with a minimum grade of C.

PUR 4212 Diversity, Equity, and Inclusion for Public Relations Professionals 3 Credits
Grading Scheme: Letter Grade
Build awareness of the vital role of inclusion, diversity, equity, and access (IDEA) in public relations. While acknowledging the problems that have existed in the PR field and beyond, the goal is to provide students with the tools to be active stewards of IDEA pillars.
Prerequisite: PUR 3000 with a minimum grade of C and PUR 3211 with a minimum grade of C.

PUR 4220 Internal Communications 3 Credits
Grading Scheme: Letter Grade
This course focuses on the influential roles that communication managers play to address the issues, challenges, and opportunities facing internal stakeholders. Employees have long been recognized as the No. 1 stakeholder of the organizations.
Prerequisite: PUR 3000 with minimum grade of C.

PUR 4243 Industry Perspectives 1 Credit
Grading Scheme: Letter Grade
Provides insight into a particular industry topic area or focus within public relations.
Prerequisite: PUR 3000 with a minimum grade of C.

PUR 4400C Crisis Communications 3 Credits
Grading Scheme: Letter Grade
Focuses on key elements of crisis and issues management: before, during, and after a crisis. In an age when a company's every move is subject to instant, vivid, unfiltered, and global scrutiny and attack, the need for effective and proactive crisis management is greater than ever.
Prerequisite: PUR 3000 with a minimum grade of C.

PUR 4404C International Public Relations 3 Credits
Grading Scheme: Letter Grade
Analyzes the impact of international activities on the public relations function.
Prerequisite: PUR 3000 with a minimum grade of C.

PUR 4410 Principles of Fund Raising 3 Credits
Grading Scheme: Letter Grade
Fund raising: the high demand, low supply occupation unique to the charitable nonprofit subsector.
Prerequisite: PUR 3000 and PUR 3500.

PUR 4442 Public Interest Communications 3 Credits
Grading Scheme: Letter Grade
Delves into strategies to drive social change, strategic planning process for social change communications campaigns, and tools and tactics that make these campaigns effective. Gain insight to the richness of the field and the power that communications has to address problems and profoundly affect peoples lives.
Prerequisite: Junior standing or higher.

PUR 4443 Global Social Change Communication 3 Credits
Grading Scheme: Letter Grade
Explains core elements of strategic communications to support global social change through case studies and the application of theory. Taught from the practitioner's perspective, extensive real-life examples provide an opportunity to learn the critical functions of effective communications.
Prerequisite: Junior standing or higher.

PUR 4480 Political Communication 3 Credits
Grading Scheme: Letter Grade
The political landscape is constantly evolving and the function communication plays in these shifts is essential. This course is designed to serve as an introduction to the role played by all forms of communication in contemporary American political communication.
Prerequisite: PUR 3000 with a minimum grade of C.

PUR 4501 Social Media Listening and Analytics 3 Credits
Grading Scheme: Letter Grade
Social media provide a wealth of data that can help organizations better understand and build relationships with their publics. Learn to leverage social media data to draw insights about an organization and its publics, provide actionable, data-driven recommendations, and inform social media strategy. Gain hands-on experience analyzing native analytics, using measurement tools, developing evaluation plans, and building and presenting analytics reports.
Prerequisite: PUR 3000 with a minimum grade of C and PUR 3622 with a minimum grade of C.

PUR 4611 Corporate Reputation 3 Credits
Grading Scheme: Letter Grade
Focuses on key elements of corporate reputation which is one of the most important and yet least understood aspects of any company’s overall success and value. In today’s digital, global, highly interactive business ecosystem, where a company is subject to instant, vivid, unfiltered, and global scrutiny, the need for effective and proactive reputation management is greater than ever, and even more so recently as virtually all corporations navigate through multiple global crises.
Prerequisite: PUR 3000 with a minimum grade of C.

PUR 4612 Integrated Communication 3 Credits
Grading Scheme: Letter Grade
The development of successful integrated communications programs is best described as a cross-functional process. Students learn to integrate communication elements (e.g. public relations, advertising, social media, sales promotion, event marketing, and media relations) to advance an organization’s success while building brand equity. Readings, current and historical case studies and exercises help students learn how to develop effective integrated communications approaches and plans.
Prerequisite: PUR 3000 with a C grade or better or ADV 3008 with a C grade or better.

PUR 4800 Public Relations Campaigns 3 Credits
Grading Scheme: Letter Grade
Utilizing the principles and techniques of public relations to create comprehensive campaigns for actual clients.
Prerequisite: PUR 3000 and PUR 3500 and PUR 4100 and VIC 3001 and MMC 3203 and MMC 3420 and senior standing or higher.

PUR 4802 Public Interest Communications Campaigns 3 Credits
Grading Scheme: Letter Grade
In this capstone experience, apply the principles and techniques of public interest communications to create comprehensive campaigns for an actual public interest client. Master the elements of a strategic communications campaign through direct experience as a practitioner. Working in teams, develop a robust, strategic, measurable, and actionable communications plan for an assigned client.
Prerequisite: PUR 3000 and PUR 3500 and PUR 4100 and VIC 3001 and MMC 3203 and MMC 3420 and PUR 4442 and senior status.

PUR 4905 Individual Problems 1-3 Credits
Grading Scheme: Letter Grade
Students and the instructor choose a problem or project which will give the student experience in their major.
Prerequisite: at least 10 credits of professional courses and department chair approval.

PUR 4910 Public Relations Undergraduate Research 0-3 Credits
Grading Scheme: Letter Grade
Provides an opportunity for firsthand, supervised research. Mentored but self-directed work that enables individuals or a small group to explore an issue of interest and to communicate their results to others.
Prerequisite: PUR 3500 with minimum grade of C.

PUR 4932 Special Study 1-3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for advanced study in the principles, processes and effects of public relations.
Prerequisite: PUR 3000 with a C or better.

PUR 4940 Public Relations Internship 0-3 Credits
Grading Scheme: S/U
Work with the instructor to select an appropriate work area in public relations for on-the-job training. There is a work minimum of 100 hours per semester for 1 credit; 200 hours per semester for 2 credits; 300 hours per semester for 3 credits. Requires progress reports and summary.
Prerequisite: JOU 3101 and PUR 3000 and PUR 3500 with grades of C or better, and a 2.5 GPA and department approval.

Quest

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Quest 1

Courses

ANT 1215 Indigenous Values 3 Credits
Grading Scheme: Letter Grade
The relation of Culture and Nature through the worldviews of indigenous people, who understand that their lives are part of, and inseparable from, the natural world. Through a variety of lectures, readings, films, and writing assignments, students explore how indigenous values offer insight on improving the quality of human futures.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 4000 Words of Writing Requirement

ARC 1101 Places and Spaces 3 Credits
Grading Scheme: Letter Grade
Places and Spaces examines the way humankind has shaped its world while framing particular relationships with nature. Drawing on the Western canon, this course asks what does it mean to make a mark upon the land? What does it mean to dwell? And what do the places we inhabit mean to us?
Prerequisite: Restricted to degree-seeking undergraduates.
Attributes: Quest 1, General Education - Humanities, General Education - International

ASN 1214 Self and Society in East Asia 3 Credits
Grading Scheme: Letter Grade
This interdisciplinary Quest 1 course prompts students to reconsider the nature of identities, both personal and social, as well as personhood itself, through a rigorous examination of traditional Chinese, Japanese, Korean, and Vietnamese texts.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, General Education - International, Satisfies 2000 Words of Writing Requirement

ASN 1231 East Asian Martial Arts Classics 3 Credits
Grading Scheme: Letter Grade
Prompts students to reconsider the nature of justice and power through a rigorous examination of East Asian martial arts literary and media classics. Identifies, analyzes, and compares the values and ethics embodied in these classics to better understand their—and our own—notions of justice and injustice.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, General Education - International, Satisfies 2000 Words of Writing Requirement

CLA 1812 Medicine, Science, and the Dawn of Reason 3 Credits
Grading Scheme: Letter Grade
This interdisciplinary course invites students to examine the passage of humanity into the era of reason and the development of medical science and ethics. As part of the “nature and culture” theme, it presents a historical narrative on the passage of humanity from superstition to the era of scientific inquiry as represented throughout the Western canon and world literatures.
Prerequisite: Restricted to undergraduate degree-seeking students
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

IDS 1114 Ethics and the Public Sphere 3 Credits
Grading Scheme: Letter Grade
Examination of the ways in which ethical concerns are aired and debated in the public sphere, including civic institutions, media organizations, and the market. Questions explored may touch on such topics as honesty in media, humility in the face of disagreement, and the pursuit of justice in a contentious society.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

IDS 1307 Writing Life: Art, Drama, Film, Literature, Poetry, and You 3 Credits
Grading Scheme: Letter Grade
Examines how humanities-based texts (novels, films, plays, poems, and art) reflect and resonate with components of our personal, social, and cultural identities. To demonstrate your understanding of the course and its goals, you will write three essays and sit for two closed-book exams.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

IDS 1468 Why Tell Stories? 3 Credits
Grading Scheme: Letter Grade
Exploring diverse stories in art, philosophy, literature, and film to discover how the creation and sharing of stories is a universal experience, one that is central to both humanness and existence.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 4000 Words of Writing Requirement

JPT 1311 The Anim(e)ted World 3 Credits
Grading Scheme: Letter Grade
Uses the medium of Japanese animation (anime) to explore social, political, cultural, and economic issues of global relevance today. Examines anime containing commentary and critique relevant to some of the most pressing issues and challenges facing the contemporary world.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, General Education - International, Satisfies 2000 Words of Writing Requirement

MUS 1610 An Echo of the Invisible World: Exploring the Relationship Between Music & Spirituality 3 Credits
Grading Scheme: Letter Grade
Examines the relationship between music and spirituality, within and outside the context of organized religion. Consider the underlying philosophies in spiritual music and practices, compare them to contemporary American culture, and address their own beliefs and practices through selected case studies and projects.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, General Education - Humanities, General Education - International

PHI 1001 Conflict of Ideas 3 Credits
Grading Scheme: Letter Grade
Examination of conflict in the realm of ideas, including both factors (psychological, social, logical) that make conflicts difficult and methods that may help us engage in them in a principled and effective way. Readings are drawn from multiple disciplines, which may include philosophy, history, linguistics, sociology, and cognitive science.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

PHI 1322 The Idea of Happiness 3 Credits
Grading Scheme: Letter Grade
Examination of the concept of happiness as explored in philosophy, literature, art, and other products of human culture. Readings drawn from both historical and contemporary sources are used both to articulate theories of happiness and to help students think about what kinds of lives they want to live.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

PHI 1643 Cultural Animals 3 Credits
Grading Scheme: Letter Grade
Examination of the ways in which humans are products of both culture and nature, focusing on our moral and political practices. Topics may cover the evolutionary underpinnings (both biological and cultural) of our moral practices and political convictions as well as our treatment of and relationships with nonhuman animals. Incorporates literary and other works from the Western canon.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

REL 1144 Religious Extremism 3 Credits
Grading Scheme: Letter Grade
What is religious extremism? Who are the extremists? This course digs into these and other questions and provides students with critical knowledge about what is called extremism within Islam, Christianity, Judaism, Hinduism, and Buddhism, while also investigating it in relation to topics such as nationalism, race(ism), and gender and sexuality.
Prerequisite: Restricted to degree-seeking undergraduates.
Attributes: Quest 1, General Education - International

THE 1431 Autobiographical Literature & Performance 3 Credits
Grading Scheme: Letter Grade
Explores how modern and contemporary American artists and writers utilize self-examination as the basis for artistic creation. Often merging the factual with the theatrical or dramatic, autobiographical performance and literature personalizes the values, incidents and relationships that shape human experience and give life meaning.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

Quest 2

Courses

GLY 2110 Climate Change Science and Solutions 3 Credits
Grading Scheme: Letter Grade
Examines the evidence and effects of climate change and uses the issue of climate change to deepen student's understanding of science and its role in society. Working collaboratively, students integrate insights from a variety of natural, social and engineering sciences to develop and evaluate climate change mitigation approaches.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2

HOS 2333 Fighting Food Waste and Loss 3 Credits
Grading Scheme: Letter Grade
This class is a biological science general education class designed for all students who are interested in learning and reflecting upon the major future challenges of food and agriculture. Students will learn about postharvest biology, environmental and food sciences, and communication technology in reducing food waste. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: any Quest 1 course.
Attributes: Quest 2, General Education - Biological Science, General Education - International

IDS 2334 Chemistry in the Cocina Latina 3 Credits
Grading Scheme: Letter Grade
Cross-disciplinary exploration of the intersection between the science of chemistry and the culture of the Spanish-speaking world. Studies the chemical reactions inherent in cooking while considering the role of food in the development and maintenance of culture. Active learning in laboratory and kitchen settings enhance the course content.
Attributes: Quest 2, General Education - International

Requirements

UF Quest 1 Requirement

UF Quest 1 courses fulfill the UF Quest 1 requirement. Many of these courses also fulfill three credits of the General Education requirement in the Humanities. Some may also fulfill three credits of the International requirement and/or count toward the Writing Requirement.

UF Quest 1 courses extend beyond any one discipline. They are not a survey of or an introduction to a field. Instead, they are topical and thematic courses that explore essential questions about the human condition that are not easy to answer and hard to ignore. What makes life worth living? What makes a society a fair one? How do we manage conflicts? Who are we in relation to other people or to the natural world? Through UF Quest, students examine why the world is the way it is, what they can do about it, and how they can help solve the problems that are now confronting us. More Info (http://undergrad.aa.ufl.edu/uf-quest/students/)

Selecting UF Quest 1 Courses

- A list of UF Quest 1 courses is provided on the UF Quest website (http://undergrad.aa.ufl.edu/uf-quest/students/quest-courses/).
- In the catalog course search (https://catalog.ufl.edu/course-search/), select Quest 1 in the search results filter.
- On ONE.UF (https://one.uf.edu/), select Quest 1 in the Course Properties filter and then click Search.

UF Quest 1 Objectives

Quest 1 courses address the history, key themes, principles, terminologies, theories, or methodologies of various arts and humanities disciplines that ask essential questions about the human condition. Students learn to identify and analyze the distinctive elements of different arts and humanities disciplines, along with their biases and influences on essential questions about the human condition. These courses emphasize clear and effective analysis and evaluation of essential questions about the human condition from multiple perspectives. Students reflect on the ways in which the arts and the humanities affect individuals, societies, and their own intellectual, personal, and professional development.

UF Quest 1 Student Learning Outcomes

Content
Identify, describe, and explain the history, theories, and methodologies used to examine essential questions about the human condition within and across the arts and humanities disciplines incorporated into the course.

Critical Thinking
Analyze and evaluate essential questions about the human condition using established practices appropriate for the arts and humanities disciplines incorporated into the course.

Communication
Develop and present clear and effective responses to essential questions in oral and written forms as appropriate to the relevant humanities disciplines incorporated into the course.

Connection
Connect course content with critical reflection on their intellectual, personal, and professional development at UF and beyond.

UF Quest 2 Requirement

UF Quest 2 courses fulfill the UF Quest 2 requirement. Many of these courses also fulfill three credits of the General Education requirement in the Social and Behavioral Sciences, the Biological Sciences, or the Physical Sciences. Some may also fulfill three credits of the International requirement and/or count toward the Writing Requirement.

Where Quest 1 asks why the world is the way it is, Quest 2 asks what we can do about the problems confronting us. Rather than serve as surveys of or introductions to specific fields, Quest 2 courses reflect the instructor's expertise and challenge students as co-creators of knowledge in multi-disciplinary inquiry that uses scientific data to address pressing questions (e.g., What are the unintended consequences of technological progress? How do we address climate change?).
More Info (http://undergrad.aa.ufl.edu/uf-quest/students/)

Selecting UF Quest 2 Courses

- A list of UF Quest 2 courses is provided on the UF Quest website (http://undergrad.aa.ufl.edu/uf-quest/students/quest-courses/).
- In the catalog course search (https://catalog.ufl.edu/course-search/), select Quest 2 in the search results filter.
- On ONE.UF (https://one.uf.edu/), select Quest 2 in the Course Properties filter and then click Search.

UF Quest 2 Objectives

Quest 2 courses provide instruction in the history, key themes, principles, terminologies, theories, or methodologies of various social or biophysical science disciplines that enable us to address pressing questions and challenges about human society and/or the state of our planet. Students learn to identify and analyze different social or biophysical science methods and theories and consider how their biases and influences shape pressing questions about human society and the state of our planet. These courses emphasize clear and effective analysis and evaluation of qualitative or quantitative data relevant to pressing questions concerning human society and the state of our planet. Students reflect on the ways in which the social or the biophysical sciences affect individuals, societies, and their own intellectual, personal, and professional development.

UF Quest 2 Student Learning Outcomes

Content
Identify, describe, and explain the cross-disciplinary dimensions of a pressing societal issue or challenge as represented by the social sciences and/or biophysical sciences incorporated into the course.

Critical Thinking
Critically analyze quantitative or qualitative data appropriate for informing an approach, policy, or praxis that addresses some dimension of an important societal issue or challenge.

Communication
Develop and present clear and effective responses to essential questions in oral and written forms as appropriate to the relevant humanities disciplines incorporated into the course.

Connection
Connect course content with critical reflection on their intellectual, personal, and professional development at UF and beyond.

Rehabilitative Services

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

BSC 3096 Human Physiology 3 Credits
Grading Scheme: Letter Grade
Functioning of human tissues, organs and organ systems, emphasizing the physical, chemical and mechanistic bases of normal physiology and the integrated function of the human body. Also introduces pathophysiological changes associated with human diseases.
Prerequisite: (CHM 1031 or CHM 2046 or CHM 2047) and BSC 2011.

GEY 4001 Issues and Concepts in Gerontology 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary overview of the field of aging covers biomedical and health issues, psychosocial factors, applied aspects, and policy issues.
Prerequisite: PSY 3213L.

HSA 3111 US Health Care System 3 Credits
Grading Scheme: Letter Grade
Overview of organization, delivery, and financing of health services in the US. Topics include health professionals, health care facilities, financing of health services, managed care, and current health policy issues.
Prerequisite: Sophomore standing and PSY 2012 with a minimum grade of C & STA 2023 with a minimum grade of C & (HES_BHS or PBH_BPH or CSD_BHS major or (HES_UMN or PBH_UMN minor)).

HSA 4154 Health Policy 3 Credits
Grading Scheme: Letter Grade
Engage in thinking critically about both the evolution of US Health Policy and the forces that influence current health policy. Develop strategies for conducting policy analyses and participation in the political process.
Prerequisite: HSA 3111.

HSC 2000 Introduction to Health Professions 3 Credits
Grading Scheme: Letter Grade
Lecture, discussion and group assignments provide the opportunity to learn about different disciplines making up a health care team and their role in both the science and practice of health care.

HSC 3057 Research Methods and Issues in Health Science 3 Credits
Grading Scheme: Letter Grade
Emphasizes four aspects of research: understanding research principles, evaluating journal articles, applying research findings to clinical settings, and designing programmatic evaluation projects.
Prerequisite: Sophomore standing and PSY 2012 with a minimum grade of C & STA 2023 with a minimum grade of C & (HES_BHS or PBH_BPH or CSD_BHS major or ABS_UMN minor).

HSC 3502 Survey of Diseases and Disability 3 Credits
Grading Scheme: Letter Grade
Overview of medical and psychosocial aspects of chronic diseases and disability.
Prerequisite: [STA2023+PSY2012+PHC4101 + (Health Science or Public Health or Communication Sciences and Disorders)] OR [(STA2023 + PSY2012 + (Health Professions or Rehabilitation)]

HSC 3661 Therapeutic Communication Skills with Patients, Families and the Health Care Team 3 Credits
Grading Scheme: Letter Grade
Learn appropriate verbal and nonverbal behavior to be used with patients, families, and the health care team through lecture, discussion, and role play in large and small groups.
Prerequisite: ((HSA3111 with a minimum grade of C) & HES_BHS major) or (HSC3502 with a minimum grade of C and HPR_UMN minor)) and Junior standing or higher.

HSC 3801 Clinical Observation / Health Care Volunteer Work 1-4 Credits
Grading Scheme: S/U
Learn about a specific health care field or gain knowledge about specific patient or client populations through direct observation and/or hands-on assistance.
Prerequisite: health science majors only and department permission.

HSC 4008 Professional Development for the Health Sciences 1 Credit
Grading Scheme: S/U
Fosters the professional development needed to transition into the health and public health professions. Enrichment activities include diversity training, presentation skills training, career planning, and developing an online portfolio.
Prerequisite: PHHP senior in the limited-access program.

HSC 4064 Wearable Technology, Robotics, and Artificial Intelligence for Health 3 Credits
Grading Scheme: Letter Grade
Explore wearable technology, robotics, and Artificial Intelligence (AI) integration in health. Students will gain an in-depth understanding of how these technological advancements are revolutionizing health, improving patient care, and enabling health professionals to deliver more efficient and effective services. Students will learn through lectures, hands-on exercises, field trips, and discussions.
Prerequisite: PSY 2012 & HSC 3502 both with a minimum grade of C & (HES_BHS or CSD_BHS or PBH_BPH major).

HSC 4184 Health Care Leadership: Skills and Styles 3 Credits
Grading Scheme: Letter Grade
Behavioral styles that contribute to leadership effectiveness. Studies specific styles for their contributions to motivating people and overall leadership effectiveness in health care.
Prerequisite: HSA 3111 and HSC 3502 and HSC 4558 and Health Science major.

HSC 4247 Disinformation and Misinformation in Healthcare 3 Credits
Grading Scheme: Letter Grade
Traces the interplay of misinformation and disinformation and the impact on personal and public health in the United States. Imparts understanding of the real world impact of misinformation on health outcomes and what can be done about it. Knowledge gained can be used to help understand how people are misinformed and lay the groundwork for being better informed future practitioners. Provides strategies to engage with people those influenced by misinformation or disinformation.
Prerequisite: Enrollment in Health Science program (HES_BHS, PBH_BPH, and CSD_BHS) or permission of the instructor.

HSC 4541 Musculoskeletal Assessment in Rehabilitation 3 Credits
Grading Scheme: Letter Grade
This undergraduate course explores musculoskeletal assessment techniques and their application in rehabilitation. Designed to equip students with fundamental skills, knowledge, and practical experience, the course delves into the assessment of the skeletal system, muscular system, and their interplay in the context of physical therapy and occupational therapy. Through a combination of lectures, demonstrations, and case studies, students will learn to perform accurate musculoskeletal assessments.
Prerequisite: Health Science Major (HES_BHS), HSC 3661, and OTH 3416 with grades of C or higher.

HSC 4557 Medical Pharmacology in Clinical Care 3 Credits
Grading Scheme: Letter Grade
Overview of the fundamental principles of pharmacology, including drug classifications, mechanisms of action, and their impact on the human body. Explore the history of pharmacology, drug development, and the ethical considerations surrounding drug use and regulation.
Prerequisite: OTH 3416 with a minimum grade of C and (HES_BHS major or HPR_UMN minor).

HSC 4558 Survey of Diseases and Disabilities 2 3 Credits
Grading Scheme: Letter Grade
Overview of medical and psychosocial aspects of chronic diseases, including issues of disability management. This required course, combined with HSC 3502, covers all of the major disabling conditions.
Prerequisite: HSC 3502; Health Science, Public Health, Communication Sciences and Disorders majors/minors only

HSC 4600 Psychiatric Disorders 3 Credits
Grading Scheme: Letter Grade
Study of major psychiatric syndromes and their management. The continuum of disorders from health to psychopathology.
Prerequisite: PSY 2012

HSC 4608 Clinical Diagnosis and Decision Making 3 Credits
Grading Scheme: Letter Grade
Facilitates the development of critical thinking and problem-solving skills in healthcare. Uses a problem-based learning approach by providing carefully selected clinical, legislative, ethical, and professional problems. Guidance in the problem solution is provided.
Prerequisite: Senior standing and HSC 3661 with a minimum grade of C & (HES_BHS major).

HSC 4652L Ethical and Legal Issues in the Health Professions 3 Credits
Grading Scheme: Letter Grade
Overview of ethical and legal issues in the health professions, including contemporary ethical issues in disease management.
Prerequisite: HSA 3111 & HSC 3502 & HSC 3661 all with a minimum grade of C & (HES_BHS major).

HSC 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Supervised program of study to investigate problems significant to health professions.
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, junior or senior standing; faculty member or program coordinator permission.

HSC 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in health science. Refer to the department for specific topic information. Can be repeated with change in content for up to 12 credits.
Prerequisite: Public Health or Health Science or Communication Sciences and Disorders major with junior standing or higher.

HSC 4969 Honors Seminar in the Health Professions 1-3 Credits
Grading Scheme: Letter Grade
Philosophy and implementation of scientific work, including an introduction to faculty research. Provides the opportunity to explore and discuss potential honors thesis topics.
Prerequisite: 3.5 GPA, majors only and department permission.

HSC 4970 Public Health and Health Professions Senior Honors Thesis 1-6 Credits
Grading Scheme: Letter Grade
Special project leading to the distinction of magna or summa cum laude at graduation. The project can be any creative work that focuses on a specific topic or issue in the health professions. The student develops an outline of the special project prior to project initiation and produces a final paper at project completion. The paper must be approved by the program and dean's office for the student to graduate magna or summa cum laude.
Prerequisite: HSC 4969, senior standing, majors only and a 3.75 GPA.

OTH 3416 Pathophysiology 3 Credits
Grading Scheme: Letter Grade
Basic understanding of pathophysiology as a change from normal physiological functioning of the various systems of the human body.
Prerequisite: (APK 2105C or CHM 2045) & (BSC 2005 or BSC 2010) & HSA 3111 & PHC 4101 all with a minimum grade of C & (HES_BHS major or (HES_UMN minor)).

OTH 4418 The Nervous System and Disorders 3 Credits
Grading Scheme: Letter Grade
Comprehensive foundation in neuroanatomy, neurophysiology, and neuropathology.
Prerequisite: HSC 3502 and HSC 4558 and OTH 3416 and Health Science major or minor.
Corequisite: OTH 4418L.

PHC 2100 Introduction to Public Health 3 Credits
Grading Scheme: Letter Grade
Overview of public health as a multifaceted field. Includes discussion of contemporary public health challenges with input from discipline experts.
Attributes: General Education - Social Science

PHC 3400 Human Animal Interaction and Health 3 Credits
Grading Scheme: Letter Grade
Introduces health implications of Human-Animal Interaction (HAI). Primarily focuses on companion animals (i.e., pets) in the US, though other HAIs and contexts will be discussed. Students will map the interrelationships between various HAIs, the broader social environment, and human and animal health.
Prerequisite: PHC 2100 or by instructor permission.

PHC 3603 Critical Issues in Public Health 3 Credits
Grading Scheme: Letter Grade
Learn how to analyze, compare, and contrast the most current complex public health issues in society. Comprehend and discuss the influence of personal bias, scientific evidence, and societal trends on a variety of public health issues.
Prerequisite: PHC 4101 with a minimum grade of C & (PBH_BPH major or (PBH_UMN minor)).

PHC 4101 Public Health Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces the basic tenets, applications, and foci of public health, including integrating public health with other health professions.
Prerequisite: Sophomore standing and PSY 2012 with a minimum grade of C & STA 2023 with a minimum grade of C & (HES_BHS or PBH_BPH or CSD_BHS major or (PBH_UMN minor)).

PHC 4930 Special Topics in Public Health 1-6 Credits
Grading Scheme: S/U
Exploration of a general or a specific area of public health.
Prerequisite: junior or senior standing.

PHC 4943 Service Learning Practicum 3 Credits
Grading Scheme: Letter Grade
Covers development of the role of a public health and human services provider in an agency setting.
Prerequisite: PHC 4101 & PHC 4320 & PHC 4024 & HSA 3111 all with a minimum grade of C & (PBH_BPH major) & senior standing.

RCS 4451 Rehabilitation Aspects of Substance Abuse 3 Credits
Grading Scheme: Letter Grade
Rehabilitation counseling implications of alcohol and drug use in society and the work place. Emphasis on detection, treatment, and follow-up services for individuals in the rehabilitation process.
Prerequisite: PHC 4101 with a minimum grade of C & (HES_BHS major or PBH_BPH major or PBH_UMN minor).

Curriculum

- Combination Degrees
- Religion
- Religion Minor

Courses

ANT 3153 North American Archaeology 3 Credits
Grading Scheme: Letter Grade
Interpretive survey of the ancient indigenous history of North America and archaeological approaches to its investigation.
Prerequisite: ANT 2000 or ANT 2140 or sophomore standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

ANT 3241 Anthropology of Religion 3 Credits
Grading Scheme: Letter Grade
Cross-cultural survey of beliefs and practices dealing with the supernatural, magic, and religion. Conceptualization of the supernatural. Sacred specialists, their function, and social position. Theories of comparative religion in light of anthropological data.
Prerequisite: ANT 2000 or ANT 2140 or sophomore standing or higher.

CLT 3371 Religions of the Graeco-Roman World 3 Credits
Grading Scheme: Letter Grade
Development, importance, and influence of Greek and Roman religion and cult practice. The main literary and epigraphical sources are read in translation.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International

IDS 1114 Ethics and the Public Sphere 3 Credits
Grading Scheme: Letter Grade
Examination of the ways in which ethical concerns are aired and debated in the public sphere, including civic institutions, media organizations, and the market. Questions explored may touch on such topics as honesty in media, humility in the face of disagreement, and the pursuit of justice in a contentious society.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

IDS 1689 Media, Social Self 3 Credits
Grading Scheme: Letter Grade
Explores human engagement with the media-saturated digital landscape, including making sense of the information and narratives encountered there and understanding individual and social implications.
Attributes: Quest 1

LIT 3173 Jewish Literature 3 Credits
Grading Scheme: Letter Grade
Variable topics in the Jewish literary experience, from the biblical narrative and classical tales to Yiddish and Hebrew literature, the modern European novel, and American Jewish fiction.
Prerequisite: Sophomore standing or higher.

PHI 3700 Philosophy of Religion 3 Credits
Grading Scheme: Letter Grade
Studies problems in philosophical theology, including the nature of God, arguments for God's existence, the problem of evil, and the relation between faith and reason, from both historical and contemporary perspectives.
Prerequisite: (Philosophy major) OR (Philosophy minor) OR ((PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or PHI 1001 or PHI 1322 or PHI 1643 or IDS 1114) with a minimum grade of C or (Critical Tracking semester 3 or greater).
Attributes: Satisfies 6000 Words of Writing Requirement

POS 4291 Religion and Politics in the United States 3 Credits
Grading Scheme: Letter Grade
Investigates the role of religious institutions, values and communities in contemporary American political life. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

REL 1107 Nature, Spirituality, and Popular Culture 3 Credits
Grading Scheme: Letter Grade
The course examines nature-related global processes and the religious, spiritual, political dimensions of artistic productions and scientific representations in 'popular culture.' It illuminates the tributaries, hybridities, and controversies that flow from these processes in the ongoing struggle of humankind to understand its place in and responsibilities toward the living world.
Prerequisite: Restricted to degree-seeking undergraduates.
Attributes: Quest 1, General Education - International, Satisfies 2000 Words of Writing Requirement

REL 1144 Religious Extremism 3 Credits
Grading Scheme: Letter Grade
What is religious extremism? Who are the extremists? This course digs into these and other questions and provides students with critical knowledge about what is called extremism within Islam, Christianity, Judaism, Hinduism, and Buddhism, while also investigating it in relation to topics such as nationalism, race(ism), and gender and sexuality.
Prerequisite: Restricted to degree-seeking undergraduates.
Attributes: Quest 1, General Education - International

REL 1163 God, Humanity, and Evolution 3 Credits
Grading Scheme: Letter Grade
Examines the language used to describe sciences and religions, focusing on Charles Darwin's evolutionary theory through the writings of leading thinkers, including from the Western canon, who portray the ways that evolution reshaped religion, and religion reshaped the sciences. Students are instructed in writing about foundational concepts in the sciences and the humanities.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

REL 1411 Why Is There Evil In The World? 3 Credits
Grading Scheme: Letter Grade
The problem of evil has been a focus of intense reflection by philosophers, theologians, psychologists, and novelists. Students will address this key theme in the human condition in this course. The class will enable students to analyze this question in a written form and orally by drawing on a variety of methodologies from different fields in the humanities including philosophy, religion, history, and art . Students will not only read and analyze classical texts from the Western canon and beyond, such as the biblical book of Job, as well modern interpretation of classical themes in TV shows such as Good Omens. The case studies examined, historical and contemporary alike, including Egypt in antiquity, Italy of the Middle Ages, and twentieth century Germany and France.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

REL 2071 Sustainability and Religion 3 Credits
Grading Scheme: Letter Grade
Examines the relationship between religion and sustainability and explores how the worlds different religious traditions address the social, economic and environmental dimensions of sustainability. Topics include social and environmental justice, sustainable consumption and sustainable agriculture. Case studies highlight multiple religious perspectives, especially in Latin America and south Asia. (WR)
Attributes: Satisfies 2000 Words of Writing Requirement

REL 2085 Religion and Violence 3 Credits
Grading Scheme: Letter Grade
Introductory course surveys historical, philosophical, and anthropological scholarship on religion and violence. Interdisciplinary approach allows students to think about how various religious traditions, including from Western traditions, have dealt with violence. Draws on philosophical, historical, and anthropological studies of violence.
Attributes: General Education - Humanities, General Education - International, Satisfies 4000 Words of Writing Requirement

REL 2090 Indigenous Religions of the World 3 Credits
Grading Scheme: Letter Grade
Describes and compares the religious traditions of indigenous peoples from several different areas of the globe in terms of their cosmogonies, cosmologies, inter-relationalities, and eschatologies.
Prerequisite: Sophomore standing or higher.

REL 2104 Environmental Ethics 3 Credits
Grading Scheme: Letter Grade
Explores competing secular and religious views regarding human impacts on and moral responsibilities toward nature and of the key thinkers and social movements in contention over them. (WR)
Attributes: Satisfies 2000 Words of Writing Requirement

REL 2121 American Religious History 3 Credits
Grading Scheme: Letter Grade
Historical inquiry into the ideological origins and social context of American religious life.

REL 2158 Religion and Social Movements 3 Credits
Grading Scheme: Letter Grade
Explores religion's role in movements for social change, including reasons movements form, strategies they use, and their impact. Focuses on the distinctive ways religion shapes social movement trajectories and outcomes. Pays special attention to recent changes such as the impact of the COVID-19 pandemic and protests against police violence.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2, Satisfies 2000 Words of Writing Requirement

REL 2210 Hebrew Scriptures 3 Credits
Grading Scheme: Letter Grade
History, literature, and beliefs of the Israelites from the Biblical text in the light of modern scholarship.

REL 2240 Introduction to the New Testament 3 Credits
Grading Scheme: Letter Grade
An introduction to the writings of the New Testament in the context of the historical development of early Christianity. Includes selections from the Western canon.
Attributes: General Education - Humanities

REL 2300 Introduction to World Religions 3 Credits
Grading Scheme: Letter Grade
Introduces key themes, figures, and sacred texts in Judaism, Christianity, Islam, and the religions of South and East Asia. We will look at the history and key moments in the religions, scripture, beliefs, and practices, the Athens-Jerusalem heritage of Christianity and Judaism, and see how some of these religions are present in Florida.
Attributes: General Education - Humanities, General Education - International

REL 2301 Introduction to Hindu Culture 3 Credits
Grading Scheme: Letter Grade
History, performing arts, and cultural expressions of the Hindu traditions of India and in the diaspora.

REL 2315 Religion in Asia 3 Credits
Grading Scheme: Letter Grade
Studies the religious dimensions of human culture, focusing on Asia: Hinduism, Buddhism, Confucianism, Taoism, Shinto. (N) (WR)
Attributes: General Education - International, Satisfies 2000 Words of Writing Requirement

REL 2334 Religions of India 3 Credits
Grading Scheme: Letter Grade
Introductory course focusing on the religious traditions and cultural diversity seen in the Indian subcontinent and the engagement of Hindu texts with western philosophy and classics. Using historical and thematic approaches, this course will focus on texts, rituals, and philosophy of Hinduism, Christianity, Judaism, and Islam.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

REL 2341 Introduction to Buddhism 3 Credits
Grading Scheme: Letter Grade
General historical survey of the central beliefs, doctrines, and practices that have fashioned the character of Buddhism as a global religion that transcends ethnic, cultural, and linguistic boundaries. Covers the early historical development of Buddhism, formation of its major traditions, and emergence of altruistic ideals espoused by the Mahayana movement. Explores the spread and transformation of Buddhism outside of Asia, including historic encounters between Buddhism and Western traditions. Incorporates insights and sources drawn from major humanistic disciplines such as history, literature, philosophy, and religious studies.
Attributes: General Education - Humanities

REL 2362 Introduction to Islam 3 Credits
Grading Scheme: Letter Grade
Historical introduction to Islamic tradition. The foundational elements of the tradition, based on the life of Prophet Muhammad and the text of the Qur'an and on an examination of subsequent Islamic expressions. (N)
Attributes: General Education - International

REL 2388 Indigenous Religions of the Americas 3 Credits
Grading Scheme: Letter Grade
This course introduces the student to the historical and contemporary religious beliefs and practices of the indigenous peoples of the Americas. Explores how these roots are evident throughout western religious traditions today. (H)(WR).
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

REL 2502 Introduction to Christianity 3 Credits
Grading Scheme: Letter Grade
Includes origins and development of Christianity, beliefs and rituals, global diversity, Christianity-inspired literature, and engagement with contemporary cultural issues.

REL 2600 Jews, Judaism, and Jewishness 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary approach to the Jewish experience from its Biblical origins to modern times.

REL 2930 Topics in Religion 3 Credits
Grading Scheme: Letter Grade
Variable topics at an introductory level.

REL 3022 Myth and Ritual 3 Credits
Grading Scheme: Letter Grade
Theory and method in the anthropological and religious studies of myths, rituals, religious specialists, and religious movements using examples from cultures throughout the world.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 4000 Words of Writing Requirement

REL 3076 Cults and New Religious Movements 3 Credits
Grading Scheme: Letter Grade
Investigates significant new religious movements such as the People's Temple and the Branch Davidians. The origins, internal structure, popularity, and functioning of these movements as well as claims of manipulation and discrimination.
Prerequisite: Sophomore standing or higher.

REL 3082 Global Ethics 3 Credits
Grading Scheme: Letter Grade
Explores ethical dimensions of global social, political, and environmental issues. Introduction to and application of diverse theoretical approaches in philosophical and religion ethics to contemporary global issues such as human rights, war and peace, climate change, and public health.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International, Satisfies 2000 Words of Writing Requirement

REL 3098 Religion Medicine and Healing 3 Credits
Grading Scheme: Letter Grade
Non-conventional healers and healing practices in religious traditions around the globe.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International, Satisfies 2000 Words of Writing Requirement

REL 3099 Spirituality and Health Care 3 Credits
Grading Scheme: Letter Grade
Investigation of the relationship between religious and spiritual beliefs, alternative and traditional medical practice, and Western biomedicine, in historical and contemporary context.
Prerequisite: sophomore standing or higher.
Attributes: Satisfies 4000 Words of Writing Requirement

REL 3108 Religion and Food 3 Credits
Grading Scheme: Letter Grade
Explores the relationship between food and religion by investigating food in the context of specific religious traditions, such as Hinduism, and examines food as a moral and ethical category in religious and secular contexts, e.g., organic and locavore.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 2000 Words of Writing Requirement

REL 3120 Religion and Migration 3 Credits
Grading Scheme: Letter Grade
Survey of the roles that various religions have played in some significant movements of people around the globe.
Prerequisite: Sophomore standing or higher.

REL 3136 Global Religions in the United States 3 Credits
Grading Scheme: Letter Grade
Investigates the religious lives of post-1965 Hindu, Muslim, Buddhist and Global Christian immigrants from Latin America, Asia, the Middle East, and Africa and their interactions with American society.
Prerequisite: Sophomore Standing.
Attributes: General Education - International, Satisfies 4000 Words of Writing Requirement

REL 3139 African American Religion 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary study of African American religious experience from its beginnings in the 17th century to the present.
Prerequisite: Sophomore standing or higher.

REL 3140 Religion and Society 3 Credits
Grading Scheme: Letter Grade
Interaction of religion and social institutions; the ways religious groups influence and are influenced by the socio-cultural environment.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

REL 3160 Religion and Science 3 Credits
Grading Scheme: Letter Grade
Examines the relationship between religion, science, and philosophy in different religious traditions, focusing on the West. (WR)
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 4000 Words of Writing Requirement

REL 3171 Ethics in America 3 Credits
Grading Scheme: Letter Grade
Examines ethical issues facing contemporary US society, with a focus on cultural and religious diversity. Introduces major religious and philosophical frameworks as ways of understanding and addressing these issues.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 2000 Words of Writing Requirement

REL 3191 Death and the Afterlife: Perspectives from World Religions 3 Credits
Grading Scheme: Letter Grade
Examines conceptions of death and the afterlife from the perspectives of various religious traditions and popular culture. Considers certain ethical issues related to death and how some American religious traditions engage with such issues.
Prerequisite: Sophomore standing or higher.

REL 3213 Hebrew Bible as Literature 3 Credits
Grading Scheme: Letter Grade
Intensive introduction to the literary study of the Hebrew Bible within the context of ancient Near Eastern literature and history.
Prerequisite: Sophomore standing or higher.

REL 3249 The Christian Gospels 3 Credits
Grading Scheme: Letter Grade
Redaction-critical study of selected portions of the canonical Gospels with particular attention to the development of traditions about Jesus in the earliest church. (WR)
Prerequisite: REL 2210 or REL 2240, or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

REL 3252 Acts, Paul, and Early Christianity 3 Credits
Grading Scheme: Letter Grade
Examines the narrative of the beginning of Christianity according to the Book of Acts, especially as it describes the career of Paul. The second half focuses on the letters of Paul as an alternative source for understanding the earliest forms of Christianity.
Prerequisite: REL 2210 or REL 2240, or instructor permission.

REL 3291 Gender and the Hebrew Bible 3 Credits
Grading Scheme: Letter Grade
Critical examination of the literary representation and historical realities of gender and sexuality in ancient Israel through close readings of selected texts from the Hebrew Bible.
Prerequisite: Sophomore standing or higher.

REL 3294 Apocalypticism 3 Credits
Grading Scheme: Letter Grade
Explores Jewish and Christian apocalypticism through a survey of apocalyptic texts from the Hebrew Bible, Second Temple Jewish literature (including the Dead Sea Scrolls), and the New Testament.
Prerequisite: Sophomore standing or higher.

REL 3305 Global Christianity 3 Credits
Grading Scheme: Letter Grade
Presents Christianity as an agent of globalization, contributing to the homogeneity and heterogeneity of contemporary society and creating the doctrinal and ritualistic diversity of Christianity in Europe, the Middle East, Africa, Asia, and the Americas. Analyzes the patterns in which Christianity continues and changes in different geographical regions.
Prerequisite: Sophomore status or higher.

REL 3318 Chinese Religions 3 Credits
Grading Scheme: Letter Grade
Comprehensive historical survey of the main religious traditions in China, with focus on Confucianism, Taoism, and Buddhism.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 2000 Words of Writing Requirement

REL 3321 Early Judaism and Christianity 3 Credits
Grading Scheme: Letter Grade
Examines the Jewish-Christian encounter. The historical interaction between Judaism and Christianity, including how each group symbolized the other, and the practical implications of the representations.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

REL 3336 Religion in Modern India 3 Credits
Grading Scheme: Letter Grade
Studies religious traditions of India and their interpretation in relation to conditions of the modern world.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

REL 3370 Religions of Africa 3 Credits
Grading Scheme: Letter Grade
Religion and culture in Africa, the encounter of Islam and Christianity with indigenous religions, and diasporic reformulations.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

REL 3381 Religion in Latin America 3 Credits
Grading Scheme: Letter Grade
Main religious traditions in Latin America: native religions, Catholicism in its various forms, Protestantism, and African-based religions.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International

REL 3391 Religion and the Paranormal 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary approach to the role of the paranormal in human life and culture, including literary, historical, religious, and folkloric studies. The paranormal as a boundary category in modernity at the edge of both religion and science. History of empirical approaches to the paranormal in early psychology and parapsychology. Context for cross-cultural interpretation of paranormal events such as possession and healing.
Prerequisite: Sophomore status.

REL 3410 Religion and Nationalism 3 Credits
Grading Scheme: Letter Grade
Direct and indirect influences of religion on nationalism and the relationship that exists between them historically and today. Understanding this relationship is important to national security and national interests in the US and globally. Explores topics of colonialism, linguistic nationalism, identity, gender, social movements, and family.
Prerequisite: Sophomore standing or higher.

REL 3463 God: Beliefs, Concepts, Issues 3 Credits
Grading Scheme: Letter Grade
Investigates central issues connected with the concept of God in Western religious traditions. Topics include arguments for the existence of God, the problem of evil, theodicy, faith, and reason.
Prerequisite: Sophomore standing or higher.

REL 3492 Religion Ethics and Nature 3 Credits
Grading Scheme: Letter Grade
Religious perspectives on nature and the environment that focus on different theological understandings of the natural world; approaches to using natural resources, and efforts to understand human responsibility for the realm of nature.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 2000 Words of Writing Requirement

REL 3931 Junior Seminar 3 Credits
Grading Scheme: Letter Grade
Intensive introduction to the study of religion. Required of all religion majors during the junior year.
Prerequisite: Sophomore standing or higher.

REL 3938 Special Topics in Religion 3 Credits
Grading Scheme: Letter Grade
Special topics in religion.
Prerequisite: Sophomore standing or higher.

REL 4092 Ethics, Utopias, and Dystopias 3 Credits
Grading Scheme: Letter Grade
Examines relationships between ethics and utopias in literature, religious communities, and millenarian movements.
Prerequisite: instructor permission.
Attributes: Satisfies 2000 Words of Writing Requirement

REL 4103 Religion and Nature in North America 3 Credits
Grading Scheme: Letter Grade
Investigates ways that religion and nature have evolved and influenced one another during the cultural, political, and environmental history of North America since European contact.
Prerequisite: Sophomore standing or higher.

REL 4141 Religion and Social Change 3 Credits
Grading Scheme: Letter Grade
Investigates diverse relations between religion and processes of social change. Uses both theoretical and ethnographic case studies to explore issues raised by religion's social role in the US, Britain, Asia, Latin America, and Africa.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 4000 Words of Writing Requirement

REL 4145 Gender, Women, Sexuality, and Religion 3 Credits
Grading Scheme: Letter Grade
Explores the ways that gender and sexuality are experienced and interpreted in different religious traditions.
Prerequisite: instructor permission.

REL 4188 Environmental Values and Practice 3 Credits
Grading Scheme: Letter Grade
Examines the ethical, religious, and political dimensions of the relationship between ideas and practices, including the divergence between expressed values and actual practices, and some possible reasons for this divergence.
Prerequisite: Sophomore standing or higher.

REL 4209 Dead Sea Scrolls and Early Jewish Literature 3 Credits
Grading Scheme: Letter Grade
Explores the varieties of literature that arose within Judaism from 250 BCE to 220 CE, including selections from the Dead Sea Scrolls, the OT Pseudepigrapha, Philo, and Josephus.
Prerequisite: refer to the department.

REL 4221 The Pentateuch 3 Credits
Grading Scheme: Letter Grade
In-depth study of the Pentateuch (Genesis-Deuteronomy) in light of modern biblical scholarship.
Prerequisite: instructor permission.

REL 4349 Buddhist Meditation 3 Credits
Grading Scheme: Letter Grade
Theory and practice of Buddhist meditation; focuses on the systems of meditation practice developed by the Theravada school in Sri Lanka and the main traditions of Chinese Buddhism.
Prerequisite: introduction to Buddhism or instructor permission.

REL 4367 The History of Islam in the Modern World 3 Credits
Grading Scheme: Letter Grade
History of Muslims from the 18th century to the present with particular attention to certain critical issues and interpretations in relation to conditions of the modern world. (N) (WR)
Prerequisite: REL 2362.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

REL 4368 Global Islam 3 Credits
Grading Scheme: Letter Grade
Addresses the need for a deeper understanding of the diversity of Muslim cultures/societies in the contemporary global context; combines topical and geographical approach and studies Islam as it intersects with broader social, cultural, political, and economic dynamics.
Prerequisite: Sophomore standing or higher.

REL 4371 Islam in Africa 3 Credits
Grading Scheme: Letter Grade
Development of Muslim societies in Africa from the 7th to the early 20th century with a focus on the religious dynamics that led to the formation of a multitude of African Muslim cultures.
Prerequisite: sophomore standing or higher.

REL 4382 Religion and Politics in Latin America 3 Credits
Grading Scheme: Letter Grade
Relationship between religion and politics in Latin America from a variety of perspectives and approaches. Addresses millenarian movements, gender, ethnicity and class, as well as church-state dynamics.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International

REL 4393 Islam in the Americas 3 Credits
Grading Scheme: Letter Grade
Provides knowledge of Islam in the Americas from the 15th century to the present.(WR)
Prerequisite: instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

REL 4400 Religion and Psychology 3 Credits
Grading Scheme: Letter Grade
Covers history of philosophy and religion on psychological theories of consciousness, intelligence, cognition, as well as the mind's role in the construction of knowledge, ignorance and morality, and it facilitates students in articulating their psychological models to explain human experience, belief, and well-being.
Prerequisite: Junior standing or higher.

REL 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Majors or other advanced undergraduates who wish to supplement regular coursework by individual studies under guidance may apply to a member of the faculty for individual work.
Prerequisite: 9 credits in religion or department permission.

REL 4930 Special Topics in Religious Thought 3 Credits
Grading Scheme: Letter Grade
Special topics in religious thought.
Prerequisite: Sophomore standing or higher.

REL 4932 Thesis Seminar in Religion 3 Credits
Grading Scheme: Letter Grade
Thesis preparation option for honors-level students.
Prerequisite: Sophomore standing or higher.

REL 4933 The Comparative Study of Religion 3 Credits
Grading Scheme: Letter Grade
History and major methods that have contributed to the modern study of religion.
Prerequisite: Junior standing or higher and department permission.

REL 4936 Special Topics in Religious Studies 3 Credits
Grading Scheme: Letter Grade
Advanced study for those with proper preparation of selected topics involving one or more religious traditions.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

REL 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

SRK 1120 Beginning Sanskrit 1 4 Credits
Grading Scheme: Letter Grade
First of a two-semester series that introduces the Sanskrit language through the Devanagari Script.

SRK 1121 Beginning Sanskrit 2 4 Credits
Grading Scheme: Letter Grade
Second of a two-semester series that introduces the Sanskrit language through the Devanagari Script with an emphasis on reading, writing, grammar and oral recitation.

SRK 2200 Intermediate Sanskrit 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of Sanskrit to increase knowledge of vocabulary by developing reading and translation skills.
Prerequisite: SRK 1121 with a minimum grade of C, or equivalent.

SYO 4200 Sociology of Religion 3 Credits
Grading Scheme: Letter Grade
Sociological perspective on religions, including religious ideologies and rituals. Social aspects of the religious and religious aspects of the social. Organized religions and religions.
Prerequisite: SYG 2000.

Courses

RUS 1130 Introduction to Russian Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
RUS 1130 and its sequel, RUS 1131, offer a comprehensive introduction to Russian, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.

RUS 1131 Introduction to Russian Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Continuation of introductory language and cultural study.
Prerequisite: RUS 1130 with minimum grade of C or S, or the equivalent.

RUS 2220 Intermediate Russian 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study with exercises in sentence patterns, vocabulary building and oral and written discourse in Russian.
Prerequisite: RUS 1131 or equivalent.

RUS 2340 Russian for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
A practical overview of Russian grammar and writing for those with significant bilingual speaking and listening backgrounds. Devotes special attention to reading, writing and vocabulary development.
Prerequisite: instructor or undergraduate coordinator permission.

RUS 3240 Oral Practice in Russian 3 Credits
Grading Scheme: Letter Grade
Development of advanced speaking and listening skills in conversational Russian.
Prerequisite: RUS 1131.

RUS 3400 Intermediate Russian 2 4 Credits
Grading Scheme: Letter Grade
Continued study with exercises in sentence patterns, vocabulary building and sustained oral and written discourse.
Prerequisite: RUS 2220 or the equivalent.

RUS 4000 Advanced Russian 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills (speaking, listening, reading, and writing) with attention to more complex structures.
Prerequisite: RUS 3400.

RUS 4001 Advanced Russian 2 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills (speaking, listening, reading, and writing) with attention to more complex structures.
Prerequisite: RUS 4000 with a minimum grade of C or S or the equivalent as proven by a placement test.

RUS 4300 Advanced Grammar and Composition 3 Credits
Grading Scheme: Letter Grade
Study of advanced grammar and composition in Russian.
Prerequisite: one 3000-level Russian course or the equivalent.

RUS 4411 Advanced Oral Practice 3 Credits
Grading Scheme: Letter Grade
Continued development of advanced speaking and listening skills based on authentic written, audio and video texts from contemporary Russian culture.
Prerequisite: RUS 3240.

RUS 4501 Russian Studies Research Seminar 3 Credits
Grading Scheme: Letter Grade
Introduces significant trends and ideas in Russian literary, cultural, historical, and critical studies. Develop the ability to understand and produce critical scholarly argument in a variety of formats, including class discussion, formal presentation, and a written research project.
Prerequisite: RUS 3400.

RUS 4502 Language and Culture of the Russian Business World 3 Credits
Grading Scheme: Letter Grade
Combines advanced language training, a practical introduction to the language and culture of the contemporary Russian business world, and extensive practice translating and interpreting texts used in business settings. Focuses on issues such as starting companies and joint ventures, advertising, and setting up and conducting official meetings and telephone calls. Basic Russian business ethics are also studied.
Prerequisite: RUS 3400 with minimum grade of C.

RUS 4503 Theory and Practice of Russian-English Translation 1 3 Credits
Grading Scheme: Letter Grade
First part of a two-part translation series focusing on the theory and practice of conveying word semantics in Russian-English and English-Russian translation.
Prerequisite: RUS 3400 with minimum grade of C.

RUS 4504 Theory and Practice of Russian-English Translation 2 3 Credits
Grading Scheme: Letter Grade
Second part of the translation series focusing on the theory and practice of conveying sentence and paragraph semantics in Russian-English and English-Russian translation.
Prerequisite: RUS 3400 with minimum grade of C.

RUS 4700 Structure of the Russian Language 3 Credits
Grading Scheme: Letter Grade
Introduction to the phonology, morphology and syntax of contemporary standard Russian from a formal and semantic standpoint. Also includes the development of Russian word stress and a survey of the development of Russian verb tense, aspect and mood.
Prerequisite: one 3000-level Russian course or the equivalent.

RUS 4780 Corrective Phonetics and Intonation 3 Credits
Grading Scheme: Letter Grade
Develops advanced-level phonetic and intonational skills via a variety of genres of authentic texts from Russian culture.
Prerequisite: RUS 2220 with minimum grade of C.

RUS 4905 Individual Work in Russian 1-3 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.
Prerequisite: RUS 2220 or the equivalent.

RUS 4911 Undergraduate Research in Russian Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Russian Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Russian Language.

RUS 4930 Special Topics in Russian 3-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Russian studies. New, experimental, or one-time offerings.
Prerequisite: RUS 3400.

RUS 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

RUT 3101 Russian Masterpieces 3 Credits
Grading Scheme: Letter Grade
Introduces the Russian literature of the 19th-21st centuries. Read some of the most influential works by Pushkin, Gogol, Tolstoy, Dostoevsky, Chekhov, Nabokov, Pasternak and Sorokin, thereby gaining essential knowledge of Russian history, culture and the authors personal lives. Readings and discussions in English. (N)
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International

RUT 3441 Tolstoy and Dostoevsky 3 Credits
Grading Scheme: Letter Grade
Introduction to the major 19th century Russian novelists and their contemporaries. Readings and discussions in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

RUT 3442 Themes from Russian Literature 3 Credits
Grading Scheme: Letter Grade
Examines Russian everyday life and institutions of the 19th and 20th centuries through the media of literature and film.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

RUT 3443 War and Peace 3 Credits
Grading Scheme: Letter Grade
Offers a close reading of Tolstoys epic novel War and Peace. Examines the literary and historical origins of the novel, its reflection of Tolstoy's obsession with history, and the emerging picture it presents of Russian identity. Taught in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

RUT 3452 Russian Literature of the Twentieth Century 3 Credits
Grading Scheme: Letter Grade
Authors, movements, and genres in Russian literature from the Revolution of 1917 to the present. Readings and discussions in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

RUT 3500 Russian Cultural Heritage 3 Credits
Grading Scheme: Letter Grade
Introduces the culture of pre-revolutionary Russia. Philosophical, religious, artistic, and literary currents in relation to Western civilization. Readings and discussions in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

RUT 3501 Contemporary Russian Culture and Society 3 Credits
Grading Scheme: Letter Grade
Patterns of continuity and change in the philosophical and cultural values of Russian society as they explain the Soviet Union and contemporary Russia. Readings and discussions in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

RUT 3503 Violence and Terror in the Russian Experience 3 Credits
Grading Scheme: Letter Grade
Examines the impact of violence and terror on the human condition as reflected and expressed in well-known works of Russian literature (fiction and historical narratives), art and film. Taught in English. No knowledge of other languages required.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 2000 Words of Writing Requirement

RUT 3504 Russia Today 3 Credits
Grading Scheme: Letter Grade
Patterns of continuity and change in the philosophical and cultural values of Russian society as they explain the Soviet Union and contemporary Russia. Readings and discussions in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

RUT 3506 Creative Lives: Writers, Artists, and Extraordinary People 3 Credits
Grading Scheme: Letter Grade
Explores Russian visions of creativity and creative people in Russian culture by placing them in dialogue with broader European and American models and considerations of creativity.
Prerequisite: sophomore standing or higher, or instructor permission.

RUT 3514 Russian Fairy Tales 3 Credits
Grading Scheme: Letter Grade
Critical introduction to Russian fairy tales and folklore and an examination of the aesthetic, social, cultural, and psychological values they reflect.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

RUT 3524 Russia through Film 3 Credits
Grading Scheme: Letter Grade
Examines Russian life, institutions, and the arts against the background of period-defining historical, political, and cultural events from the early twentieth century to the present day as reflected and refracted in some emblematic feature films, documentaries, and animated cartoon films produced in the Soviet Union and post-Soviet Russia.
Prerequisite: sophomore standing or higher, or instructor permission.

RUT 3530 Russia's Struggle with Nature: Legacies of Destruction and Preservation 3 Credits
Grading Scheme: Letter Grade
Explores competing concepts of nature in modern Russian culture through works of Russian fiction and non-fiction in translation. Emphasis falls on environmental problems in Russia and the former Soviet Union (desiccation of the Aral Sea, pollution of Lake Baikal, the Chernobyl nuclear accident etc.) and their impact on Russian thought.
Prerequisite: Sophomore standing or higher or instructor permission.

RUT 3600 The Twentieth Century through Slavic Eyes 3 Credits
Grading Scheme: Letter Grade
Introduces the literature, film, and culture of 20th century Eastern and Central Europe.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

RUT 3601 The Culture of the Cold War 3 Credits
Grading Scheme: Letter Grade
Examines Soviet and American cultural responses to the Cold War across a wide range of media (literature, film, propaganda). Consideration of how relations between the US and the USSR were framed as a global ideological contest.
Prerequisite: Sophomore standing or higher.

RUT 3930 Variable Topics in Russian Studies 1-9 Credits
Grading Scheme: Letter Grade
Variable topics in Russian studies, taught in English translation.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

RUT 4440 Pushkin and Gogol 3 Credits
Grading Scheme: Letter Grade
Major works of Russian literature written in the first half of the 19th century. Readings and discussions in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

RUT 4450 Russian Modernism 3 Credits
Grading Scheme: Letter Grade
Introduces the major artistic contributions of Russian modernism in the context of the political, social, and cultural upheavals of late Imperial to Stalinist Russia (1890 - 1939).
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

RUT 4911 Undergraduate Research in Russian Studies, English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

RUT 4930 Variable Topics in Russian Studies 1-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Russian studies, taught in English translation.
Prerequisite: one 3000-level Russian course or instructor permission.

RUW 3101 Reading Russian Literature 3 Credits
Grading Scheme: Letter Grade
In-depth study of the vocabulary, structures, reading strategies and cultural background needed for understanding and interpreting a broad range of Russian prose fiction.
Prerequisite: RUS 2220 with minimum grade of C.

RUW 4301 Russian Drama and Poetry 3-6 Credits
Grading Scheme: Letter Grade
Study of plays and poems by major Russian writers from the 19th and 20th centuries. Readings in Russian.
Prerequisite: RUS 3400.

RUW 4341 Russian Media Culture 3 Credits
Grading Scheme: Letter Grade
In-depth study of the history and recent trends in the Russian mass media and web-based technology and their impact on culture and society.
Prerequisite: RUS 3400 or RUS 4001 with minimum grade of C.

RUW 4370 Russian Short Prose 3 Credits
Grading Scheme: Letter Grade
Critical study of selected Russian short stories. Readings in Russian.
Prerequisite: RUS 3400.

RUW 4630 Reading Eugene Onegin: Pushkin and Nabokov 3 Credits
Grading Scheme: Letter Grade
An in-depth study of one of Russia's most revered literary works, combining close readings of Pushkin's original with analyses of operatic, artistic and cinematic adaptations by Chaikovsky, Nabokov and others. Readings and discussions primarily in Russian.
Prerequisite: RUW 3101 or the equivalent, or instructor permission.

RUW 4911 Undergraduate Research in Russian Studies, Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

RUW 4932 Selected Readings in Russian 1-3 Credits
Grading Scheme: Letter Grade
Special topic, author, genre, or movement in Russian literature.
Prerequisite: one 3000-level course or the equivalent.

RUT 3601 The Culture of the Cold War 3 Credits
Grading Scheme: Letter Grade
Examines Soviet and American cultural responses to the Cold War across a wide range of media (literature, film, propaganda). Consideration of how relations between the US and the USSR were framed as a global ideological contest.
Prerequisite: Sophomore standing or higher.

Sociology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department's faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

Courses

IDS 2439 The Quest for Wisdom and Human Flourishing 3 Credits
Grading Scheme: Letter Grade
Examination of the philosophical, sociocultural, psychological, moral, and spiritual aspects of wisdom, the development of wisdom, and the promotion of human flourishing in individuals, organizations, and societies. Practicing living wisely by following a different ancient Greek philosophy weekly and reflecting on the experience.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2

SYA 4110 Development of Sociological Thought 4 Credits
Grading Scheme: Letter Grade
Comparative study of the principal contributors to the development of sociology. Emphasizes relevance of these ideas to contemporary social thought and current social issues.
Prerequisite: nine credits of sociology.

SYA 4300 Methods of Social Research 4 Credits
Grading Scheme: Letter Grade
Introduces the scientific method and its application to social science research. Includes research design, data collection and computer data analysis and interpretation.
Prerequisite: 4 credits of sociology and STA 2023.

SYA 4506 Writing in Sociology 3 Credits
Grading Scheme: Letter Grade
Helps sociology majors improve the quality of writing professional sociological reports.
Prerequisite: Sociology major.
Attributes: Satisfies 6000 Words of Writing Requirement

SYA 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Examines topics/areas/issues not covered in regularly scheduled courses.
Prerequisite: nine credits of sociology and department permission.

SYA 4911 Undergraduate Research in Sociology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

SYA 4930 Special Study 3 Credits
Grading Scheme: Letter Grade
Various specialized topics/areas/issues not covered in regularly scheduled courses.
Prerequisite: (Sophomore standing or higher) and (3 credits SYA or SYD or SYO or SYG or SYP).

SYA 4931 Department Honors in Sociology 3 Credits
Grading Scheme: Letter Grade
Department honors course.
Prerequisite: Sociology major AND junior standing or higher AND 3.5 upper division GPA.

SYA 4941 Internship in Sociology 3 Credits
Grading Scheme: S/U
Supervised experience in a sociology-related organization or agency. Emphasizes the application of academic knowledge to real-world situations while developing career-relevant skills. Course assignments complement internship experiences by guiding students in setting individualized goals, identifying areas for growth, and reflecting on vocational pathways.
Prerequisite: six credits of sociology and department permission.

SYD 3390 Transnational Sociology 3 Credits
Grading Scheme: Letter Grade
Examines comparative and transnational approaches by emphasizing a cross-border research perspective in studying social transformation occurring across the globe within trans-local and transcontinental contexts. Explores transnational migration, identity and belonging, transnational religion, global cultural diffusion, transnational business, transnational crime, and social movements.
Prerequisite: Sophomore standing or higher.

SYD 3395 Sociology of Globalization 3 Credits
Grading Scheme: Letter Grade
Examination of diverse forms of worldwide interconnection, including economic ties, political ties, and ecological ties. A study of how global interdependencies and inequalities link the fates of people around the planet and how “Globalization” is a form of political discourse that shapes policy-making and alters how lives are lived globally.
Prerequisite: SYG 2000.

SYD 3410 Urban Sociology 3 Credits
Grading Scheme: Letter Grade
The development of cities and their spatial and social structure. Critical problems and solutions. Integration of people in the social setting. Social implications of city planning. (N)
Prerequisite: SYG 2000 or department permission.
Attributes: General Education - International

SYD 3700 Sociology of Race and Racism in the US 3 Credits
Grading Scheme: Letter Grade
Sociological analysis of the structure, social processes, and efforts to construct race and racial inequality in the US.
Prerequisite: (Sophomore standing or higher) and (3 credits SYA or SYD or SYO or SYG or SYP).

SYD 3805 Gender and Health 3 Credits
Grading Scheme: Letter Grade
Examines gender differences and similarities in health and illness in the United States. Uses a broad focus on health and illness across the life course and integrates social and biomedical determinants of health.
Prerequisite: (Sophomore standing or higher) and (3 credits SYA or SYD or SYO or SYG or SYP).

SYD 4020 Population 3 Credits
Grading Scheme: Letter Grade
Characteristics and trends in the populations of the contemporary world. Historical and current growth patterns related to resource conservation, food production, and modernization in various regions of the world.
Prerequisite: (Sophomore standing or higher) and (3 credits SYA or SYD or SYO or SYG or SYP).
Attributes: General Education - International

SYD 4021 US Population Issues 3 Credits
Grading Scheme: Letter Grade
Introduces major issues related to US population size, growth, and composition. Covers historical and contemporary population issues and introduces basic demographic measures and sources of data.
Prerequisite: (Sophomore standing or higher) and (3 credits SYA or SYD or SYO or SYG or SYP).

SYD 4510 Environmental Sociology 3 Credits
Grading Scheme: Letter Grade
Survey of sociological ideas concerning environment-society interactions, environmental changes, and social responses. Evaluation of sociological theories regarding environment-society topics, problems and conflicts. Examination of case studies about environment society interactions from the US and other countries.
Prerequisite: SYG 2000.

SYD 4620 People, Places, and Belonging 3 Credits
Grading Scheme: Letter Grade
An interdisciplinary and discussion-oriented course on the complex and dynamic ways place fundamentally shapes our personal and public lives. Wide-ranging examples to show how place-related circumstances affect efforts to promote personal empowerment, civic engagement, and social and environmental justice. Exploration of social processes related to place-based claims, attachments, rituals, and transitions.
Prerequisite: SYG 2000 or SYG 2010 or GEO 2410.

SYD 4650 Sociology of South Asia 3 Credits
Grading Scheme: Letter Grade
Examines social change and development in South Asian societies, contextualizing their distinct histories and global relevance, including ties to the U.S. Topics encompass contested histories, identity politics, nationalism, democratization, growth, poverty, and inequality. Features diverse case studies from Afghanistan, Bangladesh, Bhutan, India, Nepal, Pakistan, and Sri Lanka.
Prerequisite: Sophomore standing or higher.

SYD 4701 Nationalism and Ethnicity in Europe 3 Credits
Grading Scheme: Letter Grade
Comparative study of the roles played by nationalism and ethnic identity in modern Europe.
Prerequisite: (Sophomore standing or higher) and (3 credits SYA or SYD or SYO or SYG or SYP).
Attributes: General Education - International

SYD 4800 Sociology of Gender 3 Credits
Grading Scheme: Letter Grade
Examines the social construction of gender in everyday life; how gender structures social institutions such as the economy and mass media; and how gender shapes the distribution of resources, power, and privilege in ways that benefit men over women.
Prerequisite: (Sophomore standing or higher) and (3 credits SYA or SYD or SYO or SYG or SYP).

SYD 4808 Reproduction and Gender 3 Credits
Grading Scheme: Letter Grade
Examines contemporary reproductive issues in the US. How culture and social structures shape the reproductive realm and how the social psychology of individuals' influence their reproductive experiences.
Prerequisite: (Sophomore standing or higher) and (3 credits SYA or SYD or SYO or SYG or SYP).

SYD 4820 Men and Masculinities 3 Credits
Grading Scheme: Letter Grade
Focuses on issues related to traditional and emerging images of masculinity in the past, present and future. Emphasizes relationships between social forces and males' everyday life experiences across the life-span.
Prerequisite: (Sophomore standing or higher) and (3 credits SYA or SYD or SYO or SYG or SYP).

SYG 2000 Introduction to Sociology 3 Credits
Grading Scheme: Letter Grade
In this course, students will gain an understanding of the basic sociological concepts and vocabulary, including the methodological tools, sociological perspectives, and scientific procedures used by social scientists to collect data and conduct research. Topics generally include: society and culture, institutions, socialization, influences, crime, change, groups, sex, race and ethnicity, family, class and population.
Attributes: General Education - Social Science

SYG 2010 Social Problems 3 Credits
Grading Scheme: Letter Grade
The development, analysis, and treatment of social problems. Crime, poverty, prejudice and discrimination, pollution and environmental despoliation, and drug abuse and mental illness. Emphasizes factors in US society that cause social problems.

SYG 2430 Marriage and Family 3 Credits
Grading Scheme: Letter Grade
Introduction to concepts, theories, and research methods in the sociology of marriage and family. Review of historical and current trends, including family structures, romantic relationships, cohabitation, marriage, childbearing, parenthood, gender, sexuality, aging, work-family issues, and inter-generational care giving. Analysis of patterns, causes, and consequences related to individual choices, social interactions, institutional influences, and policies regarding relationships and families.

SYG 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

SYO 3534 Poverty 3 Credits
Grading Scheme: Letter Grade
The social, cultural, economic, political and psychological implications of being poor. Sources of poverty in the structure and operation of society and the consequences of poverty for society. Current and feasible policies for easing the problem in the contemporary United States with reference to its past and to other nations, both developed and underdeveloped.
Prerequisite: SYG 2000.

SYO 4102 American Families 3 Credits
Grading Scheme: Letter Grade
The impact of rapid social changes upon families, including race, class and ethnic variations. The liberation of women and changing family roles. Alternative life styles and the futures of families.
Prerequisite: SYG 2000.

SYO 4200 Sociology of Religion 3 Credits
Grading Scheme: Letter Grade
Sociological perspective on religions, including religious ideologies and rituals. Social aspects of the religious and religious aspects of the social. Organized religions and religions.
Prerequisite: SYG 2000.

SYO 4300 Political Sociology 3 Credits
Grading Scheme: Letter Grade
Applies sociological analysis to political themes in a comparative context.
Prerequisite: SYG 2000.

SYO 4400 Medical Sociology 3 Credits
Grading Scheme: Letter Grade
Effects of group characteristics in the causation, amelioration and prevention of mental and physical illness and social influences in medical education, medical practice and hospital administration.
Prerequisite: refer to the department.

SYO 4403 Sociol Envnmt Hlth 3 Credits
Grading Scheme: Letter Grade
Prerequisite: (Sophomore standing or higher) and (3 credits SYA or SYD or SYO or SYG or SYP).

SYO 4414 Mental Health in Society 3 Credits
Grading Scheme: Letter Grade
Examines mental health and well-being in U.S. society from a sociological perspective. Compares biomedical and social perspectives on causes, contexts, and consequences of mental health and well-being. Includes attention to demographic variation and individual, community, and societal trauma
Prerequisite: SYG 2000.

SYO 4530 Social Inequality 3 Credits
Grading Scheme: Letter Grade
The unequal distribution among individuals and groups of wealth, power and prestige; the effect of class systems upon society; the effect of class membership on individuals; social mobility.
Prerequisite: SYG 2000.

SYO 4533 Digital Inequalities 3 Credits
Grading Scheme: Letter Grade
Uses a sociological perspective to examine inequalities in access, use, and impact of digital technologies on people in the United States. Includes attention to workforce development and training in the digital economy. Compares positive, negative, and neutral impacts of digital technologies across social strata.
Prerequisite: SYG 2000.

SYO 4540 Organizations 3 Credits
Grading Scheme: Letter Grade
The behavior of individuals and systems in formal organizations and bureaucratic models: government, hospitals, churches, schools, industry as manifestations of a common principle.
Prerequisite: 12 credits of sociology or the equivalent foundations in education administration, industrial and systems engineering, management or political science.

SYP 3000 Society and the Individual 3 Credits
Grading Scheme: Letter Grade
Relation of the individual to the social environment with special reference to person perception, self-formation, self-disclosure, attitude formation and change, and group structure and processes. Social forces that shape the lives of individuals and how individuals adjust to modern society.
Prerequisite: SYG 2000.

SYP 3510 Deviance 3 Credits
Grading Scheme: Letter Grade
Introduces the sociology of deviance: the definition of deviance; types of deviant behavior such as suicide, drugs, and alcohol abuse, sexual deviance, deviant subcultures and violence; differential labeling and institutional processing; and implications of social control.
Prerequisite: (Sophomore standing or higher) and (3 credits SYA or SYD or SYO or SYG or SYP).

SYP 4060 Sociology of Human Sexuality 3 Credits
Grading Scheme: Letter Grade
Theoretical and conceptual issues, empirical research, and social policies germane to human sexuality in the US. Topics include sexual identity and orientation, sexual behavior, social control of sexuality, social implications of STDs and HIV/AIDS, and the relationship between sexuality and the sociopolitical process.
Prerequisite: SYG 2000.

SYP 4306 Empathy, Leadership, and Civic Engagement 3 Credits
Grading Scheme: Letter Grade
Examines the processes that frame how we manage the relationship between the “me” and “we” in our culture. Showcases how skill-building initiatives to promote MEAL life skills (mindfulness, empathy, altruism, and leadership) can empower people while producing healthier social systems. It also illustrates strategies to create supportive environments to promote personal growth, community engagement, and social justice.
Prerequisite: SYG 2000 or SYG 2010 or SYG 2430 or SYP 3000 or PSY 2012 or SOP 3004 all with a minimum grade of C.

SYP 4520 Criminology 3 Credits
Grading Scheme: Letter Grade
Nature and causes of crime, criminality and criminal careers. Research in crime and delinquency. Sociological analysis of criminal law, criminal justice, rehabilitation, punishment, prevention and deterrence.
Prerequisite: SYG 2000.

SYP 4730 Sociology of Aging and Life Course 3 Credits
Grading Scheme: Letter Grade
Social and personal conditions of post-retirement years; family and housing patterns; income, leisure, health, and group processes; evaluating institutional care for the aged.
Prerequisite: (Sophomore standing or higher) and (3 credits SYA or SYD or SYO or SYG or SYP).

Soil, Water, and Ecosystem Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Soil, Water, and Ecosystem Sciences Department researches and teaches about soil, water, and environmental sciences in urban, agricultural, and natural ecosystems. Since its origins over 100 years ago, the department has made significant contributions to improving the productivity of Florida's agriculture, helping protect the state's unique ecosystems, and contributing to soil and water science at national and international levels.

- Interdisciplinary Studies | Environmental Management in Agriculture and Natural Resources UF Online
- Soil, Water, and Ecosystem Sciences
- Soil, Water, and Ecosystem Sciences Minor

Courses

AGG 4502 Nanotechnology in Food, Agriculture, and Environment 3 Credits
Grading Scheme: Letter Grade
Application of nanotechnology in crop production, food processing and preservation, and environmental remediation; behavior of engineered nanoparticles in plant, soil and the environment, and environmental toxicology and regulations of engineered nanoparticles.
Prerequisite: SWS 3022.
Attributes: Artificial Intelligence

ALS 3133 Agricultural and Environmental Quality 3 Credits
Grading Scheme: Letter Grade
Analysis of effects of agriculture on environmental quality; emphasis on agricultural wastes and practices; potential for using agricultural systems for disposal of other wastes; effects of pollution on the agricultural environment.
Prerequisite: ABE 2062 or BOT 2010C or BSC 2005 or BSC 2010 or BSC 2862 or EVR 2001 or SWS 2008.

SWS 2007 The World of Water 3 Credits
Grading Scheme: Letter Grade
Introductory course addressing the roles of water in the environment. Topics range from basic properties of water to importance of water to development of human civilizations to worldwide distribution of water and its importance to earth's ecosystems. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Physical Science

SWS 2008 Land and Life 3 Credits
Grading Scheme: Letter Grade
Course will focus on relationships between human activities and soil and environmental quality. Lectures will concentrate on fundamentals of soil and environmental science, using case studies to illustrate basic principles. Intended for non-majors.
Attributes: General Education - Biological Science

SWS 2801 Unintended Consequences In The Environment 3 Credits
Grading Scheme: Letter Grade
Humans' impact on the Earth is so profound that a new geological epoch - the Anthropocene - has begun. Human decisions often have unintended effects on the environment. For example, Indonesia government jeopardized the conservation efforts of the Javan hawk eagle by declaring it a National Rare animal. In another example, subsidies that promote energy-efficient appliances often backfire by increasing energy consumption and greenhouse gas emissions. Why did these unintended consequences happen? How can we better predict and prevent them? To answer these questions, we will seek to explore the complex relationships between humans and the environment using a systems approach. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Quest 2, General Education - Biological Science

SWS 3022 Introduction to Soils in the Environment 3 Credits
Grading Scheme: Letter Grade
Fundamentals of soil science emphasizing the physical, chemical, and biological properties of soils in relation to growth of native and agricultural plants and environmental uses.
Prerequisite: Junior or Senior standing.

SWS 3022L Introduction to Soils in the Environment Laboratory 1 Credit
Grading Scheme: Letter Grade
Hands-on exposure to soils-related properties and processes.
Prerequisite: BSC 2005 or BSC 2010.
Corequisite: SWS 3022.

SWS 4116 Environmental Nutrient Management 3 Credits
Grading Scheme: Letter Grade
Consumption, existing reserves, formulation, chemical and physical properties, and manufacture of commercial fertilizers; basic chemical reactions of fertilizer materials with the soil and the fate of the nutritional elements whether it be loss by leaching, plant uptake, fixation or soil retention.
Prerequisite: SWS 3022.

SWS 4180 Earth System Analysis 3 Credits
Grading Scheme: Letter Grade
Analysis of global-scale interdependences between climate, biogeochemical cycles and humans using a systems approach.
Prerequisite: MAC 2233 or PHY 2048.

SWS 4204 Urban Soil and Water Systems 3 Credits
Grading Scheme: Letter Grade
Issues and opportunities related to soil and water quality in urban systems. Students will learn and discuss consequences of human population growth on soil and water systems in urban areas.
Prerequisite: SWS 3022.

SWS 4207 Sustainable Agricultural and Urban Land Management 3 Credits
Grading Scheme: Letter Grade
Agricultural and urban water quality issues in Florida, their bases, land and nutrient management strategies and the science and policy behind Best Management Practices (BMPs). Students will learn to evaluate BMP research and analyze its role in determining practices and policies that protect water quality.
Prerequisite: SWS 3022 or instructor permission.

SWS 4223 Environmental Biogeochemistry 3 Credits
Grading Scheme: Letter Grade
To gain understanding of the earth as a biogeochemistry system in the context of global change.
Prerequisite: (BSC 2005 and BSC 2005L) or (BSC 2010 and BSC 2010L) and (CHM 2045 and CHM 2045L).

SWS 4231C Soil, Water and Land Use 3 Credits
Grading Scheme: Letter Grade
Suitabilities and limitations of soils for different uses; using soil surveys and related information to plan use/management of land; behavior of water in soils and landscapes; policies for and implications of water allocation among urban, agricultural and natural resource uses.
Prerequisite: Junior or Senior standing.

SWS 4233 Soil and Water Conservation 3 Credits
Grading Scheme: Letter Grade
Soil and water resources, historical erosions and sediment problems, geologic vs. accelerated erosion, erosion prediction equations and government conservation programs; water conservation, irrigation, drainage and salinity; stormwater management; and case studies in erosion and sedimentation.
Prerequisite: Junior or Senior standing.

SWS 4244 Wetlands 3 Credits
Grading Scheme: Letter Grade
Introduces wetland ecosystems with emphasis on principles and problems associated with their functions and values as related to water quality. Become familiar with basic and applied concepts in hydrology, soils, and vegetation of both constructed and natural wetlands.
Prerequisite: Junior or Senior standing.

SWS 4245 Water Resource Sustainability 3 Credits
Grading Scheme: Letter Grade
Quantitative effects of human impacts on hydrologic ecosystems (aquifers, watersheds, coastal zones, lakes, and wetlands). Case studies illustrate detrimental effects of unsustainable resource utilization and beneficial management strategies.
Prerequisite: Junior or Senior standing.

SWS 4303C Soil Microbial Ecology 3 Credits
Grading Scheme: Letter Grade
Occurrence and activities of soil microorganisms and their influence on soil productivity and environmental quality.
Prerequisite: (BSC 2005 and BSC 2005L) or (BSC 2010 and BSC 2010L).

SWS 4307 Ecology of Waterborne Pathogens 3 Credits
Grading Scheme: Letter Grade
Survival strategies, gene regulation and metabolism of waterborne pathogens. Methods for microbe detection and control.
Prerequisite: MCB 3020 or MCB 3023 or MCB 4203, or equivalent.

SWS 4451 Soil and Water Chemistry 3 Credits
Grading Scheme: Letter Grade
Physico-chemical processes such as mineral weathering and formation, sorption, and ion exchange. Also includes introduction to diffuse double-layer theory.
Prerequisite: Junior or Senior standing.

SWS 4504 Aquatic Toxicology: Science and Applications 3 Credits
Grading Scheme: Letter Grade
Introduces foundational knowledge and concepts of the field of aquatic toxicology. Examines how environmental and chemical properties influence the fate and bioavailability of contaminants in aquatic environments; introduces principles of toxicology and methods used to study aquatic toxicology, as well as applications of knowledge gained from aquatic toxicology studies.
Prerequisite: ((BSC 2005 and BSC 2005L) or (BSC 2010 and BSC 2010L)) and ((CHM 2045 and CHM 2045L) or (CHM 2046 and CHM 2046L)).

SWS 4550 Soils, Water and Public Health 3 Credits
Grading Scheme: Letter Grade
Important instances where soil and water science and public health overlap; develop skills required for competency in both disciplines.
Prerequisite: (CHM 2045 and CHM 2046 and BSC 2010) or instructor permission.

SWS 4602C Soil Physics 3 Credits
Grading Scheme: Letter Grade
Physical processes and properties of soils that influence optimum growth of plants as well as potential for groundwater pollution from agrochemicals and applied wastes. Primary emphasis is given to basic concepts of transport and retention for water and solutes; secondary emphasis is given to air and heat in the root zone of the soil profile; and limited attention is given to mechanical properties of soil that affect the proliferation of plant roots.
Prerequisite: MAC 2311 and PHY 2004 and SWS 3022.

SWS 4715C Environmental Pedology 4 Credits
Grading Scheme: Letter Grade
Study and analysis of soil in the environment and the factors responsible for soil formation and geographic distribution. Development of hydric soil criteria and hydric soil indicators. Emphasis on morphology or hydric/ non-hydric soils and introduction to diagnostic horizons and soil classification. Course also includes abs on soil field techniques.
Prerequisite: SWS 3022.

SWS 4720C GIS in Soil and Water Science 3 Credits
Grading Scheme: Letter Grade
Basic, practical understanding of GIS concepts, technical issues, and applications to soil and water science using ArcGIS geographic information system.
Prerequisite: Junior or Senior standing.

SWS 4800 Environmental Soil and Water Monitoring Techniques 3 Credits
Grading Scheme: Letter Grade
Introduces the principles, objectives, and practices in environmental monitoring. Learn the proper techniques in planning for monitoring projects, sampling design, sample collection, basic principles of laboratory analysis, and basic data analysis. Also introduces and emphasizes quality assurance and quality control requirements.
Prerequisite: BSC 2010 and BSC 2010L and CHM 2045 and CHM 2045L.

SWS 4900 Supervised Extension Experience in Soil and Water Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

SWS 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Selected topics for qualified students.
Prerequisite: 8 credits of SWS courses and instructor permission.

SWS 4911 Supervised Research in Soil and Water Science 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

SWS 4915 Honors Thesis Research in Soil and Water Science 0-3 Credits
Grading Scheme: S/U
Independent research in soil and water science leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

SWS 4932 Special Topics in Soil and Water Science 1-3 Credits
Grading Scheme: Letter Grade
Variable topics designed to meet students' needs and interests.
Prerequisite: Instructor permission.

SWS 4941 Full-time Practical Work Experience in Soil and Water Science 1-3 Credits
Grading Scheme: S/U
Practical work must be a new experience and related to field of study.
Prerequisite: prior arrangement with advisor, and department and dean permissions.

Spanish and Portuguese Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

- Combination Degrees
- Hispanic and Latin American Languages, Literatures and Linguistics

- Portuguese
- Portuguese Minor
- Spanish
- Spanish and Portuguese
- Spanish for the Professions Certificate
- Spanish Minor

Courses

Portuguese

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
In this course, students will be assigned readings representative of a broad range of literary genres and cultures. These readings will cover a variety of literary movements and historical eras. The readings will include selections from the Western canon. Written analysis of literary works may be required. Students will be provided with opportunities to practice critical interpretation.
Prerequisite: ENC 1101
Attributes: General Education - Humanities

POR 1130 Beginning Portuguese 1 5 Credits
Grading Scheme: Letter Grade
First course in the basic Portuguese language sequence, which emphasizes the language as spoken in Brazil. Develops basic communication skills in reading, writing, speaking and listening. Not open to proficient speakers of Spanish.

POR 1131 Beginning Portuguese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the series in basic Portuguese, which emphasizes the language as spoken in Brazil. Develops basic communication skills in reading, writing, speaking and listening. Not open to proficient speakers of Spanish.
Prerequisite: POR 1130 with minimum grade of C or S, or the equivalent.

POR 3010 Introduction to Portuguese and Brazil: Accelerated 5 Credits
Grading Scheme: Letter Grade
Designed for those with knowledge of another Romance language (usually Spanish) through study or home experience. A complete introduction to the language, assuming that students have no previous study of Portuguese. It also satisfies the CLAS and Journalism foreign-language requirement in one semester.
Prerequisite: FRE 3300 or SPN 3300 or equivalent.

POR 3224 Applied Portuguese 1-5 Credits
Grading Scheme: Letter Grade
Portuguese-language reading and discussions to accompany and complement courses of diverse content offered in other departments. Readings and discussions are in Portuguese to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course.
Prerequisite: instructor permission.

POR 3242 Oral and Written Practice 3 Credits
Grading Scheme: Letter Grade
Intermediate-level course emphasizing all four skills; consists of printed and electronic readings, writing essays and taking notes, oral discussions and presentations, lab activities and grammar review.
Prerequisite: POR 1131 or POR 3010 or equivalent.

POR 3243 Composition and Conversation 3 Credits
Grading Scheme: Letter Grade
An intermediate-level course with continued expansion of vocabulary, review of essential grammar and structures and development of reading, writing and speaking skills.
Prerequisite: POR 1131 or POR 3010, or the equivalent.

POR 3451 Introduction to Portuguese Translation and Interpretation 3 Credits
Grading Scheme: Letter Grade
Improve Portuguese language skills through application of the principles of translation while gaining information on professional opportunities in the field.
Prerequisite: POR 3010 or the equivalent.

POR 3500 Luso-Brazilian Civilization 3 Credits
Grading Scheme: Letter Grade
Introduction to the central historical events, political institutions, intellectual currents and artistic movements in the foundation and development of Portugal, Brazil and Lusophone Africa. Preview of topics studied in other literature and culture courses. (N)
Prerequisite: POR 3242 or the equivalent, or instructor permission.
Attributes: General Education - International

POR 3502 Brazilian Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to the study of modern cultural forms, including folk pageantry, performance arts, literature, film and television.
Prerequisite: POR 3242 or instructor permission.

POR 3508 Brazil Beyond the Beaches: Tourism and Brazilian Culture 3 Credits
Grading Scheme: Letter Grade
Explores the economic and cultural impacts of the multi-billion dollar tourism industry on the cultural products and practices of Brazil.
Prerequisite: POR 3242.

POR 3701 Introduction to Portuguese Linguistics 3 Credits
Grading Scheme: Letter Grade
An introduction to the basic concepts and analytical techniques of linguistics, applied specifically to the Portuguese language. Practices the linguistic analysis of the sounds, words and sentences of Portuguese, with relevant comparisons to Spanish and English where applicable.
Prerequisite: POR 3242 or POR 3243 with minimum grade of C.

POR 3930 Topics in Brazilian Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics in Brazilian culture and civilization, including racial identity, feminism, regionalism, music, film, art, religion, sports, and more.
Prerequisite: POR 3010.

POR 3943 Internship in Portuguese 1-3 Credits
Grading Scheme: S/U
This course complements the students' internship with guided reflection. Given the nature of our Portuguese program, students can complete their internship wherever there is interaction with Portuguese speaking communities. This program offers an open alternative so that they can customize their professional interests.
Prerequisite: POR 3243 and permission of the instructor.

POR 4420 Advanced Composition and Syntax 3 Credits
Grading Scheme: Letter Grade
A language course that distinguishes Portuguese from related Romance tongues, including the more difficult aspects of grammar and structure, specialized vocabulary, different stylistic registers, and application of these to translation and original composition.
Prerequisite: POR 3243 or the equivalent (intermediate proficiency).

POR 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Honors thesis preparation.
Prerequisite: 4000-level POW or POR course.

POR 4956 Overseas Studies 3-6 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

POW 3100 Monsters of the Portuguese-Speaking World 3 Credits
Grading Scheme: Letter Grade
A survey of short narrative works from Portugal, Brazil, Angola and Mozambique with an emphasis on the effects of oppression and colonialism through the figure of the monster and the literary fantastic.
Prerequisite: POR 3243 or the equivalent, or instructor permission.

POW 3130 Colonial Brazil: Cannibalism, Enslavement and Monarchy 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary approach to Brazilian culture 1500-1900 to decolonialize the “myths” of the past and understand the complexities of Brazil’s society through film, art, history, anthropology, and literature.
Prerequisite: POR 3243 or the equivalent, or instructor permission.

POW 3131 Brazilian Short Story: Conflict and Citizenship 3 Credits
Grading Scheme: Letter Grade
Overview of 20th and 21st century short story by contemporary writers, with an emphasis on the social themes of conflict and citizenship.
Prerequisite: POR 3243 or the equivalent, or program coordinator permission.

POW 4200 Dystopian Narrative in Brazil 3 Credits
Grading Scheme: Letter Grade
Examination of dystopian narrative as a unique vehicle for understanding the cultural and political consequences of modernity and social disparities in Brazil.
Prerequisite: POW 3100 or POW 3130 or POW 3131.

POW 4380 Contemporary Brazilian Poetry 3 Credits
Grading Scheme: Letter Grade
A study of lyric, both literary and musical, in the second half of the 20th century, including experimental trends, political verse, popular music and youth movements.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4382 Brazilian Drama 3 Credits
Grading Scheme: Letter Grade
A survey of the milestones of Brazilian theatre with an emphasis on 20th century plays. In addition to the plays, the course also presents the theoretical framework and political context of theatrical production in Brazil.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4450 The Modernist Movement in Brazilian Literature 3 Credits
Grading Scheme: Letter Grade
Readings in fiction, poetry and essay of the nationalist and avant-garde decades of the 1920s and 1930s. Discussions are designed to situate Brazilian letters in diverse national and international contexts. Literary works are complemented by considerations of concurrent production in music and the arts.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4454 Becoming Brazil: Nineteenth Century to the Present 3 Credits
Grading Scheme: Letter Grade
Surveys nineteenth-century literature and history that examines the cultural figures, institutions and historical moments that have shaped modern Brazil and their continued relevance in contemporary Brazilian society.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4480 Contemporary Brazil Narrative 3 Credits
Grading Scheme: Letter Grade
Rotating topics may include studies in genre (the short story, the novel), theme (science fiction) or author (Rubem Fonseca, Clarice Lispector, Guimaraes Rosa).
Prerequisite: POW 3100 or POW 3130 or POW 3131.

POW 4700 Race and Gender in Machado de Assis 3 Credits
Grading Scheme: Letter Grade
A survey of the thought of the 19th century master of Brazilian letters Machado de Assis, with an emphasis on the themes of race and gender in his short stories, chronicles and essays.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4720 Deep Brazil: Culture of North and Northeast 3 Credits
Grading Scheme: Letter Grade
Study of the narrative and culture of the North/Northeast, including the complex histories and political conflicts of these culturally rich regions.
Prerequisite: POW 3100 or POW 3130 or POW 3131.

POW 4740 Crime Fiction in Brazil 3 Credits
Grading Scheme: Letter Grade
Surveys crime fiction and the adaption of the genre to portray Brazilian reality from 1920 to the present.
Prerequisite: POW 3100 or POW 3130 or POW 3131.

POW 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Individual work in Portuguese.
Prerequisite: instructor permission.

POW 4911 Undergraduate Research in Portuguese 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

POW 4930 Readings in Luso-Brazilian Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Diverse subjects in Brazilian and Portuguese studies, including the Brazilian Northeast, the Afro-Brazilian world, the culture of dictatorship, popular genres and popular music. In addition to readings of original texts, course may incorporate sound recordings and film.
Prerequisite: introductory knowledge of Luso-Brazilian literature.

PRT 1515 Soccer Explains The World 3 Credits
Grading Scheme: Letter Grade
Explore power dynamics and justice in soccer and understand how soccer exemplifies justice and power in society. Examine how soccer deals with problems of inequality such as racism, sexism, poverty, etc. and relate this to society in general. A multidisciplinary approach is followed.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1

PRT 3391 Brazilian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical analysis of Brazilian film and the relationship of content to social and political forces.
Prerequisite: POR 3242 OR POR 3243.

PRT 3930 Special Topics in Lusophone Culture and Civilization 1-4 Credits
Grading Scheme: Letter Grade
Variable topics in Brazilian, Portuguese or Luso-African culture and civilization, including globalism, regionalism, song literature, film and video, negritude, women's movements and Amazonian discourse.
Prerequisite: POR 3242 OR POR 3243.

SPN 3573 Immersion in a Hispanic Community 3 Credits
Grading Scheme: Letter Grade
International service-learning course and immersion experience abroad. Comprises significant hours of community service in a Hispanic city, plus group discussions. Reflecting on learning is an important course component.
Prerequisite: SPN 3300 or SPN 3350

Spanish

IDS 2334 Chemistry in the Cocina Latina 3 Credits
Grading Scheme: Letter Grade
Cross-disciplinary exploration of the intersection between the science of chemistry and the culture of the Spanish-speaking world. Studies the chemical reactions inherent in cooking while considering the role of food in the development and maintenance of culture. Active learning in laboratory and kitchen settings enhance the course content.
Attributes: Quest 2, General Education - International

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
In this course, students will be assigned readings representative of a broad range of literary genres and cultures. These readings will cover a variety of literary movements and historical eras. The readings will include selections from the Western canon. Written analysis of literary works may be required. Students will be provided with opportunities to practice critical interpretation.
Prerequisite: ENC 1101
Attributes: General Education - Humanities

SPN 1130 Beginning Spanish 1 5 Credits
Grading Scheme: Letter Grade
First in the basic Spanish language sequence, developing basic communication skills in reading, writing, speaking and listening.

SPN 1131 Beginning Spanish 2 5 Credits
Grading Scheme: Letter Grade
Second in the basic Spanish language sequence, continuing development of basic communication skills in reading, writing, speaking and listening.

SPN 1134 Accelerated Spanish Review 5 Credits
Grading Scheme: Letter Grade
Provides a rapid review of basic communicative Spanish as preparation for intermediate Spanish courses. For those with previous Spanish study but insufficient placement scores to move to the 2000 level.

SPN 1180 Elementary Spanish: Review and Progress 3 Credits
Grading Scheme: Letter Grade
Alternative to SPN 1130, for students who have previous experience in Spanish. Covers the material of SPN 1130 and meets three times weekly. SPN 1131 follows this course.
Prerequisite: refer to placement section. Not open to bilingual speakers of Spanish.

SPN 1601 Accelerated Spanish Review for Heritage Speakers of Spanish 3 Credits
Grading Scheme: Letter Grade
Supports, strengthens, and develops the cultural and linguistic knowledge of Spanish heritage language learners with a focus on oral communication and writing development.
Prerequisite: Department permission.

SPN 2200 Intermediate Spanish 1 3 Credits
Grading Scheme: Letter Grade
First of the intermediate Spanish language sequence. Develops intermediate skills in reading, writing, speaking and listening. Builds communicative competence and enhances social and cultural awareness of the Spanish-speaking world. Taught entirely in Spanish.

SPN 2201 Intermediate Spanish 2 3 Credits
Grading Scheme: Letter Grade
Second course in the intermediate Spanish language sequence. Continues development of intermediate skills in reading, writing, speaking and listening. Continues to enhance communicative competence and social and cultural awareness. Taught entirely in Spanish.
Prerequisite: SPN 2200 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests or the equivalent placement score or the equivalent coursework as approved by the undergraduate coordinator. Not open to bilingual speakers of Spanish.

SPN 2240 Intensive Communication Skills 3 Credits
Grading Scheme: Letter Grade
Develops the ability to understand oral and written Spanish and is required of all majors and minors who are not bilinguals, unless they initially placed above this level. Preparation for 3000-level courses.
Prerequisite: SPN 2201 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests or the equivalent placement score or the equivalent coursework as approved by the undergraduate coordinator. Not open to bilingual speakers of Spanish.

SPN 2270 Intermediate Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Equivalent to SPN 2240, the obligatory first course in the Spanish major and minor for non-bilinguals. Preparation for upper-division Spanish courses. Promotes cultural awareness and develops an active command of the language by means of intensive interaction with the people and current issues and events of the Spanish-speaking host city and surrounding area.
Prerequisite: SPN 2201 or the equivalent placement scores on SAT II, IB or AP tests, and undergraduate coordinator permission.

SPN 2271 Accelerated Intermediate Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Students acquire intermediate communicative skills in Spanish through interaction in Spanish-speaking communities. Offered abroad only, course depends on intensive language immersion for successful acquisition in a shortened period of time. Successful completion is comparable to having passed SPN 2200 and SPN 2201.
Prerequisite: SPN 1131 or SPN 1134 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests.

SPN 2340 Introduction to Reading and Writing Spanish for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Intermediate-level course for heritage learners with some speaking and listening ability from exposure outside the classroom but with little or no formal exposure to the language. Emphasizes reading and vocabulary, introduces grammar and orthographic rules.
Prerequisite: placement test or department-administered test for heritage learners.

SPN 2471 Accelerated Spanish Abroad 1-5 Credits
Grading Scheme: Letter Grade
Reviews major aspects of grammar in a context that enhances understanding of the Spanish or Spanish-American way of life and modes of expression. Reading comprehension and composition are developed through readings on diverse topics related to Latin America and Spain.
Prerequisite: SPN 2200 or the equivalent placement scores on SAT II, IB, or AP tests, and section coordinator or undergraduate advisor permission.

SPN 3036 Spanish for Health Professions 3 Credits
Grading Scheme: Letter Grade
Provides students with the linguistic and cultural skills necessary for effectively treating Spanish-speaking patients with medical emergencies, illnesses and other health issues.
Prerequisite: SPN 3300 or SPN 3350 with minimum grade of C, or equivalent linguistic knowledge as determined by instructor.

SPN 3224 Applied Spanish 1-5 Credits
Grading Scheme: Letter Grade
Spanish-language section designed to accompany and complement courses offered in other departments. Readings and discussions are in Spanish to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course.
Prerequisite: SPN 3300 or SPN 3350, or undergraduate coordinator permission.

SPN 3300 Spanish Grammar and Composition 1 3 Credits
Grading Scheme: Letter Grade
Intensive language course to develop mastery of grammatical principles, increase vocabulary and enhance writing and composition skills. This course (or SPN 3350 for bilingual speakers) is a prerequisite for most 3000/4000-level Spanish courses.
Prerequisite: SPN 2240; can be taken concurrently with SPN 2240 or SPN 3301. Not open to bilingual speakers of Spanish.

SPN 3301 Spanish Grammar and Composition 2 3 Credits
Grading Scheme: Letter Grade
Continues review of Spanish grammar begun in SPN 3300 and concentrates on intensive writing practice in expository Spanish. Highly recommended for Spanish majors and minors who are not taking the bilingual sequence; a prerequisite for SPN 4420, Advanced Composition and Syntax.
Prerequisite: SPN 3300; can be taken concurrently with SPN 3300. Not open to bilingual speakers of Spanish.

SPN 3350 Spanish Grammar and Composition for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Emphasizes aspects of the language and grammar for those who have learned Spanish through exposure outside the classroom in addition to some formal exposure in school settings, and whose speaking and comprehension abilities are generally more developed than their writing and reading skills.
Prerequisite: placement test or department-administered test for heritage learners or heritage program coordinator permission or SPN 2340 with minimum grade of B.

SPN 3392 Spanish Conversation, Film and Culture 3 Credits
Grading Scheme: Letter Grade
Enhances students' oral skills in Spanish through movie reviews, oral reports, debates and class discussions. Introduces students to current social, economic and political issues in Latin-America and Spain through the critical analysis of contemporary Spanish-language films.
Prerequisite: SPN 2240 or placement test. Not open to bilingual speakers of Spanish.

SPN 3414 Advanced Spanish Conversation 2 3 Credits
Grading Scheme: Letter Grade
Authentic materials of the Hispanic world are used to improve listening, comprehension and speaking skills. Oral expression is used in conversation and in formal and informal presentations on a variety of topics.
Prerequisite: SPN 2240 or instructor permission. Not open to bilingual speakers of Spanish.

SPN 3435 Creative Writing in Spanish 3 Credits
Grading Scheme: Letter Grade
Provides the opportunity to develop and focus on using Spanish creatively in the writing of fiction. Emphasizes expanding vocabulary and language usage and encourages students to find their own voice by exploring topics and genres that they find meaningful and appealing.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3440 Commercial Spanish 3 Credits
Grading Scheme: Letter Grade
Introduces the vocabulary and business practices of the Hispanic world with an emphasis on oral and written business communications. Overview of cultural differences within the Hispanic world and between the US and the Hispanic world, with emphasis on the business impact.
Prerequisite: SPN 3300 or SPN 3350, or the equivalent as approved by the undergraduate coordinator.

SPN 3443 Marketing and Advertising in the Spanish-Speaking World 3 Credits
Grading Scheme: Letter Grade
An introduction to the related fields of marketing and advertising as they pertain to the Spanish-speaking world. Focuses on marketing campaigns and advertising strategies, in print and on television. Emphasis on the cultural element(s) and context(s) of marketing/advertising campaigns. Covers a representative sampling of Spanish-speaking countries, with special attention to Spain, Mexico, Argentina and the United States. Group work required for some class projects.
Prerequisite: SPN 2340 or SPN 3300, or instructor permission.

SPN 3451 Spanish Translation: Bridging Cultures 3 Credits
Grading Scheme: Letter Grade
Provides an introduction to the principles of translation, combined with practice in English-to-Spanish and Spanish-to-English written translations. Working individually and in groups, students will improve their reading and writing skills in both languages, hone their research skills, and work collaboratively to think critically about how best to use language to bring cultures into dialogue.
Prerequisite: SPN 3300 or SPN 3350 or the equivalent.

SPN 3472 Advanced Communicative Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Practical, in-class communication exercises in comprehension, speaking, reading and writing. Classroom activities are coordinated with homework to emphasize communication. The foreign setting also serves as a living language laboratory.
Prerequisite: SPN 2240 or SPN 2340, or placement scores on SAT II, IB, or AP tests, or equivalent coursework approved by the section coordinator or undergraduate advisor.

SPN 3510 Culture and Civilization of Spain 3 Credits
Grading Scheme: Letter Grade
A survey of Spanish history, customs and the arts from ancient times to the present; devotes considerable attention to life in contemporary Spain since the death of General Franco in 1975. (N)
Prerequisite: SPN 3300 or SPN 3350, or equivalent coursework approved by the undergraduate coordinator.
Attributes: General Education - International

SPN 3520 Culture and Civilization of Spanish America 3 Credits
Grading Scheme: Letter Grade
The rich and often conflicting diversity of the Americas as well as the historical experiences that allow us to speak of the Americas as a whole: The conquest, the colonial period, the struggles for independence against (neo)colonialism, the clashing and mixing of cultures, the yoke of slavery and servitude, the formation of rigid social hierarchies, and the frustrated search for democracy and economic development. These phenomena are followed in a variety of artistic media, from painting to poetry and from music to film. (N)
Prerequisite: SPN 3300 or SPN 3350, or equivalent coursework approved by the undergraduate advisor.
Attributes: General Education - International

SPN 3530 Theater for Social Justice 3 Credits
Grading Scheme: Letter Grade
Fosters the ability to apply theater as a change-agent on social justice issues in the US and Latin America. Includes reading texts, writing scripts and essays, role plays, and Theatre Sports. Based on Augusto Boal's Theater of the Oppressed.
Prerequisite: SPN 3300 or SPN 3350 or equivalent background (native language or comparable coursework)

SPN 3533 Spanish for Educators 3 Credits
Grading Scheme: Letter Grade
Designed for learners interested in teaching Spanish as a world language and/or increasing their linguistic and cultural expertise to work with educational stakeholders. Improve Spanish proficiency, learn methods for teaching Spanish, and gain awareness of Hispanic cultures as they relate to educational settings.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3572 Revolving Topics Abroad 3-6 Credits
Grading Scheme: Letter Grade
Rotating topics focus on Spanish culture and civilization.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3573 Immersion in a Hispanic Community 3 Credits
Grading Scheme: Letter Grade
International service-learning course and immersion experience abroad. Comprises significant hours of community service in a Hispanic city, plus group discussions. Reflecting on learning is an important course component.
Prerequisite: SPN 3300 or SPN 3350

SPN 3700 Introduction to Hispanic Linguistics 3 Credits
Grading Scheme: Letter Grade
Initial overview of central theories and applications of linguistic analysis in the study of Spanish. The phonological, grammatical, discursive and social structures of Spanish are considered within five areas of popular inquiry in Hispanic linguistics: history of Spanish, language variation and change, Spanish in contact with other languages, political and educational linguistics, and acquisition of Spanish as a first and second language. Conducted entirely in Spanish and is a prerequisite for all 4000-level courses in Hispanic linguistics.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3831 Spanish for the Legal Professions 3 Credits
Grading Scheme: Letter Grade
Prepares students for professional work in legal professions in a Spanish-speaking environment. Enables students to understand legal texts and arguments, write documents and express themselves using legal vocabulary. Covers a broad mix of practical legal terminology, vocabulary and conversational skills. Conducted entirely in Spanish.
Prerequisite: SPN 3300 or SPN 3350, or instructor permission.

SPN 3930 Topics in Spanish and Spanish American Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics in Latin American culture and civilization, including racial identity, feminism, regionalism, music, film, art, religion and sports.
Prerequisite: SPN 3300 or SPN 3350, or undergraduate advisor permission.

SPN 3943 Internship in Spanish 1-3 Credits
Grading Scheme: S/U
This course complements the students' internship with guided reflection. Students can complete the internship wherever there is interaction with Hispanic communities. This program offers an open alternative so that students can customize their professional interests.
Prerequisite: SPN 3300 or SPN 3350, and permission of the instructor.

SPN 3948 Spanish in the Community 3 Credits
Grading Scheme: Letter Grade
Engages students in the local Spanish-speaking community through academic investigation and service work. Consists of classroom meetings, community projects outside of class, and reflective assignments; may be taken a maximum of one time on UF's campus and one time abroad.
Prerequisite: SPN 3300 OR SPN 3350.

SPN 4314 Advanced Spanish Composition and Structure for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Emphasizes aspects of Spanish style, syntax and registers that can be problematic for the heritage learner. Some prior formal training in the language is expected (SPN 3350 or equivalent in a Spanish-speaking country).
Prerequisite: SPN 3350 with minimum grade of B or placement test or department-administered test for heritage learners.

SPN 4414 Developing and Assessing Second Language Fluency 3 Credits
Grading Scheme: Letter Grade
Examines notion of fluency and oral proficiency in a second language, focusing on linguistic description and analysis. Provides the opportunity to practice and perfect fluency in Spanish.
Prerequisite: SPN 3700.

SPN 4420 Advanced Composition and Syntax 3 Credits
Grading Scheme: Letter Grade
Emphasizes the finer aspects of Spanish syntax, vocabulary and style that give the advanced student difficulties. Class discussion, drills and written compositions.
Prerequisite: SPN 3301 or the equivalent, and undergraduate coordinator permission. Not open to bilingual speakers of Spanish.

SPN 4713 Spanish Second Language Acquisition 3 Credits
Grading Scheme: Letter Grade
Overview of second language acquisition theory with discussion of empirical studies on the acquisition of Spanish. Emphasis on research design and the analysis of oral or written production of learners of Spanish.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4737 Spanish First Language Acquisition 3 Credits
Grading Scheme: Letter Grade
Introduction to the field of first language acquisition, with special emphasis on the acquisition of Spanish. Presents the main theories of first language acquisition including the development of speech perception and production, the acquisition of the lexicon, and the emergence of syntax in Spanish speakers.
Prerequisite: SPN 3700.

SPN 4780 The Spanish Sound System: Phonetics and Phonology 3 Credits
Grading Scheme: Letter Grade
Focuses on the precise description of Spanish pronunciation with some attention to dialect features and contrastive English phonetics.
Prerequisite: (SPN 3300 or SPN 3350) and (SPN 3700 or LIN 3010).

SPN 4811 Bilingual Language and Thought 3 Credits
Grading Scheme: Letter Grade
Evaluates the interaction between linguistic and cognitive processes in bilinguals. Examines the primary psycholinguistic themes and the notion of embodied cognition through the perception of sound, space, time, and color. Explores how sensory perception is affected by language and the effect that bilingualism has on these processes.
Prerequisite: SPN 3700.

SPN 4822 Sociolinguistics of the Spanish-Speaking World 3 Credits
Grading Scheme: Letter Grade
General overview of sociolinguistic issues of the contemporary Spanish-speaking world: language variation, language contact, discourse analysis, language attitudes, policy and planning, and social factors in language acquisition and use.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4830 Introduction to Spanish and Spanish American Dialectology 3 Credits
Grading Scheme: Letter Grade
Principles and methods of dialectology applied to the study of regional varieties of Spanish in Spain and in Spanish America.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4840 Introduction to the History of the Spanish Language 3 Credits
Grading Scheme: Letter Grade
The phonological, morphological, syntactic and semantic evolution of the Spanish language from Latin.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010 and SPN 4780.

SPN 4850 Introduction to Spanish Syntax 3 Credits
Grading Scheme: Letter Grade
Explores syntactic, morphological and semantic aspects of the Spanish language.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4851 Spanish Bilingualism 3 Credits
Grading Scheme: Letter Grade
Examines the internal and external factors that lead to and result from bilingualism in regions where Spanish is spoken. Organized into three primary components: social aspects; linguistic aspects; political and educational aspects.
Prerequisite: SPN 3700 or LIN 3010, or the equivalent.

SPN 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced majors and minors who seek independent work not offered in another course. Must be arranged individually with Spanish faculty. For honors thesis use SPN 4906.
Prerequisite: undergraduate coordinator permission.

SPN 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Honors thesis preparation.

SPN 4911 Undergraduate Research in Spanish 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

SPN 4930 Revolving Topics in Linguistics and Culture 3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for in-depth study of linguistic and cultural topics not offered in other courses and of topics of special current significance.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

SPT 1320 Las Americas: Comida y Conflicto 3 Credits
Grading Scheme: Letter Grade
This course uses literature, film, art, music, and a variety of historical texts, both written and visual, to examine conflicts regarding the use of natural resources, specifically food production, in México, Central America and the Caribbean, at two key moments: the colonial period and the twentieth century.
Prerequisite: Restricted to degree-seeking undergraduate students. Students are also required to have a 3 or higher on AP Spanish, 4 or higher on IB Spanish, A or AS level AICE or dual enrollment credit for SPN 1120/1121 is qualified to enroll in this course.
Attributes: Quest 1, General Education - International

SPT 2520 Fiction vs. Reality 3 Credits
Grading Scheme: Letter Grade
Examines how shared societal fictions justify exclusion of non-conformists. Focuses on Latin American pop culture from the 20th and 21st centuries. Analyzes the role of ideologies, stereotypes, and prejudices in shaping modern societies. Discusses impacts on human rights, democracy, and social inclusion. Utilizes interdisciplinary methods and encourages critical reflection.
Prerequisite: Any Quest 1 course with a minimum grade of "C" and [AP Spanish 3+] or [IB Spanish 4+] or [AICE A-E] or [SPN1121+] or [SPN1131+] or [SPN1601+]. SPT 2520
Attributes: Quest 2

SPT 3930 Topics in Latin American and Spanish Culture and Film 3 Credits
Grading Scheme: Letter Grade
Provides a broad survey of topics and issues pertaining to Latin American (including Brazilian) and Spanish contemporary culture through the analysis and interpretation of texts and films. Coursework is organized by country, theme, or genre on a rotating basis.
Prerequisite: any POW 3000 level course or any SPW 3000 level course or LIT 2000.

SPW 3030 Survey of Spanish-American Literature: From Discovery to Independence 3 Credits
Grading Scheme: Letter Grade
Overview of Spanish-American literature and its cultural context from the European conquest of the Americas to the 19th century. Introduces principal literary movements and authors, and trains students to read critically and to appreciate literary Spanish.
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.

SPW 3031 Survey of Spanish-American Literature: From Independence to Contemporary Times 3 Credits
Grading Scheme: Letter Grade
End of the 19th century to the present. Introduces principal literary movements and authors, and trains students to read critically and to analyze literary Spanish. Reading of major authors who may include Borges, Garcia Marquez, Neruda, Fuentes and Ferre.
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.

SPW 3100 Crescent; Cross; Star of David: Iberian Cultural Crossroads 1100-1700 3 Credits
Grading Scheme: Letter Grade
Develop a greater understanding of Spain's culturally diverse heritage by studying the literary contributions of Iberia's three major religious communities (Jewish, Muslim, and Christian) from 1100 to advent of French rule (1700).
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.

SPW 3101 Introduction to Spanish Literature 2 3 Credits
Grading Scheme: Letter Grade
Overview of Spanish literature and its cultural context from the 18th century to the present. Introduces principal literary movements and authors and trains students to read critically and to analyze literary Spanish.
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.

SPW 4190 Seminar in Spanish-American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
The advanced study of a writer, period, movement, region or topic of Spanish-American literature not ordinarily offered in the department. Refer to department website for specific description.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4213 Imagining Imperial Spain: Golden Age Fiction 3 Credits
Grading Scheme: Letter Grade
Male and female authors such as Rojas, Cervantes, and Zayas played a narrative cat-and-mouse game with censors that laid the groundwork for the modern novel. Learn the secrets of their "subversive discourse."
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4263 Readings in the Spanish Novel of the Nineteenth Century 3 Credits
Grading Scheme: Letter Grade
Readings in the Spanish novel of the 19th century. A survey of major authors from costumbrismo to the realism and naturalism of Galdos, Clarin and Pardo Bazan.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4270 Readings in Post-war Narrative 3 Credits
Grading Scheme: Letter Grade
Outstanding stories and novels of contemporary Spanish writers in relation to the historical and cultural context of post-civil war Spain.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4282 Readings in Contemporary Spanish-American Narrative 1 3 Credits
Grading Scheme: Letter Grade
The period of modernization of fiction and the development of new narrative modes in the 1940s and the 1950s; may include magical realism, the detective story and the new urban narratives.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4283 Readings in Contemporary Spanish-American Narrative 2 3 Credits
Grading Scheme: Letter Grade
The new narrative or the boom and post-boom of Latin-American fiction, 1960s to the present.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4310 Not Shakespeare: Spanish Theater for Kings and Commoners 3 Credits
Grading Scheme: Letter Grade
Was Spain's influential national theater (1580-1700) any less exciting, entertaining, or refined than its English and Jacobean counterparts? Did it represent a "top-down" instrument of monarchical control or a "bottom-up" forum for popular dissent? Close reading with an eye to historical references will decide.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4354 Readings in Contemporary Spanish-American Poetry 3 Credits
Grading Scheme: Letter Grade
A close reading and critical analysis of masterpieces by the major 20th-century poets of Spanish-America, including recent writers.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4364 Readings in the Spanish-American Essay 3 Credits
Grading Scheme: Letter Grade
Examination of major texts from the early 19th century to the present focusing on such themes as the search for identity and the definition of ethnic, racial, social and class categories.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4521 US Hispanic Literature 3 Credits
Grading Scheme: Letter Grade
Reading, discussion, and analysis of works by US Hispanic or Latino/a writers with an examination of the cultural life and social conditions of the Puerto Rican, Cuban, and Chicano communities in the US.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4532 Introduction to Spanish Romanticism 3 Credits
Grading Scheme: Letter Grade
By studying the canonical works of that moment (Rousseau, Feijoo, Cadalso, Jovellanos, Miranda, Bolivariable, Zorrilla, Rivas, Larra, Espronceda, Gomez de Avellaneda, Goya), the course explores the achievements, contradictions and failures of the enlightenment as well as the new organization by Romanticism in Spain and Latin America.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4604 Don Quixote: Hero or Fool? 3 Credits
Grading Scheme: Letter Grade
The great 400-year-old debate rages on: was Cervantes' famous fictional knight, Don Quixote de la Mancha an idealistic hero in a debased world, or was he just a hilariously deluded lunatic out of step with his time? Each student will decide.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4720 Readings in Spanish Literature from the Generation of 1898 to 1927 3 Credits
Grading Scheme: Letter Grade
Surveys turn-of-the-century Spanish crises from the perspective of the first generation of Spanish modernists. Authors include Unamuno, Costa, Machado, Valle-Inclán, Baroja, and Ortega y Gassett.
Prerequisite: any 3000-level SPW course or the equivalent.

SPW 4723 Readings in Spanish Literature from the Generation of 1927 to the Present 3 Credits
Grading Scheme: Letter Grade
Studies the development of Spanish literature in this century beginning with the brilliant poets of the generation of 1927, continuing with representative fiction, drama and poetry of the years after the Civil War and concluding with fiction and poetry of the 1990s.
Prerequisite: any one 3000-level SPW course or equivalent.

SPW 4780 Women's Voices Rising 3 Credits
Grading Scheme: Letter Grade
A seminar dedicated to the exploration of literary works written in Spanish by women of Spain, Latin America, and/or the United States.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4930 Revolving Topics in Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for in-depth study of literary and cultural topics not offered in other courses.
Prerequisite: any one 3000-level SPW course or the equivalent.

Spanish | Spanish and Portuguese Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

- Combination Degrees
- Hispanic and Latin American Languages, Literatures and Linguistics
- Portuguese
- Portuguese Minor
- Spanish
- Spanish and Portuguese
- Spanish for the Professions Certificate
- Spanish Minor

Courses

IDS 2334 Chemistry in the Cocina Latina 3 Credits
Grading Scheme: Letter Grade
Cross-disciplinary exploration of the intersection between the science of chemistry and the culture of the Spanish-speaking world. Studies the chemical reactions inherent in cooking while considering the role of food in the development and maintenance of culture. Active learning in laboratory and kitchen settings enhance the course content.
Attributes: Quest 2, General Education - International

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
In this course, students will be assigned readings representative of a broad range of literary genres and cultures. These readings will cover a variety of literary movements and historical eras. The readings will include selections from the Western canon. Written analysis of literary works may be required. Students will be provided with opportunities to practice critical interpretation.
Prerequisite: ENC 1101
Attributes: General Education - Humanities

SPN 1130 Beginning Spanish 1 5 Credits
Grading Scheme: Letter Grade
First in the basic Spanish language sequence, developing basic communication skills in reading, writing, speaking and listening.

SPN 1131 Beginning Spanish 2 5 Credits
Grading Scheme: Letter Grade
Second in the basic Spanish language sequence, continuing development of basic communication skills in reading, writing, speaking and listening.

SPN 1134 Accelerated Spanish Review 5 Credits
Grading Scheme: Letter Grade
Provides a rapid review of basic communicative Spanish as preparation for intermediate Spanish courses. For those with previous Spanish study but insufficient placement scores to move to the 2000 level.

SPN 1180 Elementary Spanish: Review and Progress 3 Credits
Grading Scheme: Letter Grade
Alternative to SPN 1130, for students who have previous experience in Spanish. Covers the material of SPN 1130 and meets three times weekly. SPN 1131 follows this course.
Prerequisite: refer to placement section. Not open to bilingual speakers of Spanish.

SPN 1601 Accelerated Spanish Review for Heritage Speakers of Spanish 3 Credits
Grading Scheme: Letter Grade
Supports, strengthens, and develops the cultural and linguistic knowledge of Spanish heritage language learners with a focus on oral communication and writing development.
Prerequisite: Department permission.

SPN 2200 Intermediate Spanish 1 3 Credits
Grading Scheme: Letter Grade
First of the intermediate Spanish language sequence. Develops intermediate skills in reading, writing, speaking and listening. Builds communicative competence and enhances social and cultural awareness of the Spanish-speaking world. Taught entirely in Spanish.

SPN 2201 Intermediate Spanish 2 3 Credits
Grading Scheme: Letter Grade
Second course in the intermediate Spanish language sequence. Continues development of intermediate skills in reading, writing, speaking and listening. Continues to enhance communicative competence and social and cultural awareness. Taught entirely in Spanish.
Prerequisite: SPN 2200 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests or the equivalent placement score or the equivalent coursework as approved by the undergraduate coordinator. Not open to bilingual speakers of Spanish.

SPN 2240 Intensive Communication Skills 3 Credits
Grading Scheme: Letter Grade
Develops the ability to understand oral and written Spanish and is required of all majors and minors who are not bilinguals, unless they initially placed above this level. Preparation for 3000-level courses.
Prerequisite: SPN 2201 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests or the equivalent placement score or the equivalent coursework as approved by the undergraduate coordinator. Not open to bilingual speakers of Spanish.

SPN 2270 Intermediate Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Equivalent to SPN 2240, the obligatory first course in the Spanish major and minor for non-bilinguals. Preparation for upper-division Spanish courses. Promotes cultural awareness and develops an active command of the language by means of intensive interaction with the people and current issues and events of the Spanish-speaking host city and surrounding area.
Prerequisite: SPN 2201 or the equivalent placement scores on SAT II, IB or AP tests, and undergraduate coordinator permission.

SPN 2271 Accelerated Intermediate Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Students acquire intermediate communicative skills in Spanish through interaction in Spanish-speaking communities. Offered abroad only, course depends on intensive language immersion for successful acquisition in a shortened period of time. Successful completion is comparable to having passed SPN 2200 and SPN 2201.
Prerequisite: SPN 1131 or SPN 1134 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests.

SPN 2340 Introduction to Reading and Writing Spanish for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Intermediate-level course for heritage learners with some speaking and listening ability from exposure outside the classroom but with little or no formal exposure to the language. Emphasizes reading and vocabulary, introduces grammar and orthographic rules.
Prerequisite: placement test or department-administered test for heritage learners.

SPN 2471 Accelerated Spanish Abroad 1-5 Credits
Grading Scheme: Letter Grade
Reviews major aspects of grammar in a context that enhances understanding of the Spanish or Spanish-American way of life and modes of expression. Reading comprehension and composition are developed through readings on diverse topics related to Latin America and Spain.
Prerequisite: SPN 2200 or the equivalent placement scores on SAT II, IB, or AP tests, and section coordinator or undergraduate advisor permission.

SPN 3036 Spanish for Health Professions 3 Credits
Grading Scheme: Letter Grade
Provides students with the linguistic and cultural skills necessary for effectively treating Spanish-speaking patients with medical emergencies, illnesses and other health issues.
Prerequisite: SPN 3300 or SPN 3350 with minimum grade of C, or equivalent linguistic knowledge as determined by instructor.

SPN 3224 Applied Spanish 1-5 Credits
Grading Scheme: Letter Grade
Spanish-language section designed to accompany and complement courses offered in other departments. Readings and discussions are in Spanish to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course.
Prerequisite: SPN 3300 or SPN 3350, or undergraduate coordinator permission.

SPN 3300 Spanish Grammar and Composition 1 3 Credits
Grading Scheme: Letter Grade
Intensive language course to develop mastery of grammatical principles, increase vocabulary and enhance writing and composition skills. This course (or SPN 3350 for bilingual speakers) is a prerequisite for most 3000/4000-level Spanish courses.
Prerequisite: SPN 2240; can be taken concurrently with SPN 2240 or SPN 3301. Not open to bilingual speakers of Spanish.

SPN 3301 Spanish Grammar and Composition 2 3 Credits
Grading Scheme: Letter Grade
Continues review of Spanish grammar begun in SPN 3300 and concentrates on intensive writing practice in expository Spanish. Highly recommended for Spanish majors and minors who are not taking the bilingual sequence; a prerequisite for SPN 4420, Advanced Composition and Syntax.
Prerequisite: SPN 3300; can be taken concurrently with SPN 3300. Not open to bilingual speakers of Spanish.

SPN 3350 Spanish Grammar and Composition for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Emphasizes aspects of the language and grammar for those who have learned Spanish through exposure outside the classroom in addition to some formal exposure in school settings, and whose speaking and comprehension abilities are generally more developed than their writing and reading skills.
Prerequisite: placement test or department-administered test for heritage learners or heritage program coordinator permission or SPN 2340 with minimum grade of B.

SPN 3392 Spanish Conversation, Film and Culture 3 Credits
Grading Scheme: Letter Grade
Enhances students' oral skills in Spanish through movie reviews, oral reports, debates and class discussions. Introduces students to current social, economic and political issues in Latin-America and Spain through the critical analysis of contemporary Spanish-language films.
Prerequisite: SPN 2240 or placement test. Not open to bilingual speakers of Spanish.

SPN 3414 Advanced Spanish Conversation 2 3 Credits
Grading Scheme: Letter Grade
Authentic materials of the Hispanic world are used to improve listening, comprehension and speaking skills. Oral expression is used in conversation and in formal and informal presentations on a variety of topics.
Prerequisite: SPN 2240 or instructor permission. Not open to bilingual speakers of Spanish.

SPN 3435 Creative Writing in Spanish 3 Credits
Grading Scheme: Letter Grade
Provides the opportunity to develop and focus on using Spanish creatively in the writing of fiction. Emphasizes expanding vocabulary and language usage and encourages students to find their own voice by exploring topics and genres that they find meaningful and appealing.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3440 Commercial Spanish 3 Credits
Grading Scheme: Letter Grade
Introduces the vocabulary and business practices of the Hispanic world with an emphasis on oral and written business communications. Overview of cultural differences within the Hispanic world and between the US and the Hispanic world, with emphasis on the business impact.
Prerequisite: SPN 3300 or SPN 3350, or the equivalent as approved by the undergraduate coordinator.

SPN 3443 Marketing and Advertising in the Spanish-Speaking World 3 Credits
Grading Scheme: Letter Grade
An introduction to the related fields of marketing and advertising as they pertain to the Spanish-speaking world. Focuses on marketing campaigns and advertising strategies, in print and on television. Emphasis on the cultural element(s) and context(s) of marketing/advertising campaigns. Covers a representative sampling of Spanish-speaking countries, with special attention to Spain, Mexico, Argentina and the United States. Group work required for some class projects.
Prerequisite: SPN 2340 or SPN 3300, or instructor permission.

SPN 3451 Spanish Translation: Bridging Cultures 3 Credits
Grading Scheme: Letter Grade
Provides an introduction to the principles of translation, combined with practice in English-to-Spanish and Spanish-to-English written translations. Working individually and in groups, students will improve their reading and writing skills in both languages, hone their research skills, and work collaboratively to think critically about how best to use language to bring cultures into dialogue.
Prerequisite: SPN 3300 or SPN 3350 or the equivalent.

SPN 3472 Advanced Communicative Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Practical, in-class communication exercises in comprehension, speaking, reading and writing. Classroom activities are coordinated with homework to emphasize communication. The foreign setting also serves as a living language laboratory.
Prerequisite: SPN 2240 or SPN 2340, or placement scores on SAT II, IB, or AP tests, or equivalent coursework approved by the section coordinator or undergraduate advisor.

SPN 3510 Culture and Civilization of Spain 3 Credits
Grading Scheme: Letter Grade
A survey of Spanish history, customs and the arts from ancient times to the present; devotes considerable attention to life in contemporary Spain since the death of General Franco in 1975. (N)
Prerequisite: SPN 3300 or SPN 3350, or equivalent coursework approved by the undergraduate coordinator.
Attributes: General Education - International

SPN 3520 Culture and Civilization of Spanish America 3 Credits
Grading Scheme: Letter Grade
The rich and often conflicting diversity of the Americas as well as the historical experiences that allow us to speak of the Americas as a whole: The conquest, the colonial period, the struggles for independence against (neo)colonialism, the clashing and mixing of cultures, the yoke of slavery and servitude, the formation of rigid social hierarchies, and the frustrated search for democracy and economic development. These phenomena are followed in a variety of artistic media, from painting to poetry and from music to film. (N)
Prerequisite: SPN 3300 or SPN 3350, or equivalent coursework approved by the undergraduate advisor.
Attributes: General Education - International

SPN 3530 Theater for Social Justice 3 Credits
Grading Scheme: Letter Grade
Fosters the ability to apply theater as a change-agent on social justice issues in the US and Latin America. Includes reading texts, writing scripts and essays, role plays, and Theatre Sports. Based on Augusto Boal's Theater of the Oppressed.
Prerequisite: SPN 3300 or SPN 3350 or equivalent background (native language or comparable coursework)

SPN 3533 Spanish for Educators 3 Credits
Grading Scheme: Letter Grade
Designed for learners interested in teaching Spanish as a world language and/or increasing their linguistic and cultural expertise to work with educational stakeholders. Improve Spanish proficiency, learn methods for teaching Spanish, and gain awareness of Hispanic cultures as they relate to educational settings.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3572 Revolving Topics Abroad 3-6 Credits
Grading Scheme: Letter Grade
Rotating topics focus on Spanish culture and civilization.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3573 Immersion in a Hispanic Community 3 Credits
Grading Scheme: Letter Grade
International service-learning course and immersion experience abroad. Comprises significant hours of community service in a Hispanic city, plus group discussions. Reflecting on learning is an important course component.
Prerequisite: SPN 3300 or SPN 3350

SPN 3700 Introduction to Hispanic Linguistics 3 Credits
Grading Scheme: Letter Grade
Initial overview of central theories and applications of linguistic analysis in the study of Spanish. The phonological, grammatical, discursive and social structures of Spanish are considered within five areas of popular inquiry in Hispanic linguistics: history of Spanish, language variation and change, Spanish in contact with other languages, political and educational linguistics, and acquisition of Spanish as a first and second language. Conducted entirely in Spanish and is a prerequisite for all 4000-level courses in Hispanic linguistics.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3831 Spanish for the Legal Professions 3 Credits
Grading Scheme: Letter Grade
Prepares students for professional work in legal professions in a Spanish-speaking environment. Enables students to understand legal texts and arguments, write documents and express themselves using legal vocabulary. Covers a broad mix of practical legal terminology, vocabulary and conversational skills. Conducted entirely in Spanish.
Prerequisite: SPN 3300 or SPN 3350, or instructor permission.

SPN 3930 Topics in Spanish and Spanish American Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics in Latin American culture and civilization, including racial identity, feminism, regionalism, music, film, art, religion and sports.
Prerequisite: SPN 3300 or SPN 3350, or undergraduate advisor permission.

SPN 3943 Internship in Spanish 1-3 Credits
Grading Scheme: S/U
This course complements the students' internship with guided reflection. Students can complete the internship wherever there is interaction with Hispanic communities. This program offers an open alternative so that students can customize their professional interests.
Prerequisite: SPN 3300 or SPN 3350, and permission of the instructor.

SPN 3948 Spanish in the Community 3 Credits
Grading Scheme: Letter Grade
Engages students in the local Spanish-speaking community through academic investigation and service work. Consists of classroom meetings, community projects outside of class, and reflective assignments; may be taken a maximum of one time on UF's campus and one time abroad.
Prerequisite: SPN 3300 OR SPN 3350.

SPN 4314 Advanced Spanish Composition and Structure for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Emphasizes aspects of Spanish style, syntax and registers that can be problematic for the heritage learner. Some prior formal training in the language is expected (SPN 3350 or equivalent in a Spanish-speaking country).
Prerequisite: SPN 3350 with minimum grade of B or placement test or department-administered test for heritage learners.

SPN 4414 Developing and Assessing Second Language Fluency 3 Credits
Grading Scheme: Letter Grade
Examines notion of fluency and oral proficiency in a second language, focusing on linguistic description and analysis. Provides the opportunity to practice and perfect fluency in Spanish.
Prerequisite: SPN 3700.

SPN 4420 Advanced Composition and Syntax 3 Credits
Grading Scheme: Letter Grade
Emphasizes the finer aspects of Spanish syntax, vocabulary and style that give the advanced student difficulties. Class discussion, drills and written compositions.
Prerequisite: SPN 3301 or the equivalent, and undergraduate coordinator permission. Not open to bilingual speakers of Spanish.

SPN 4713 Spanish Second Language Acquisition 3 Credits
Grading Scheme: Letter Grade
Overview of second language acquisition theory with discussion of empirical studies on the acquisition of Spanish. Emphasis on research design and the analysis of oral or written production of learners of Spanish.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4737 Spanish First Language Acquisition 3 Credits
Grading Scheme: Letter Grade
Introduction to the field of first language acquisition, with special emphasis on the acquisition of Spanish. Presents the main theories of first language acquisition including the development of speech perception and production, the acquisition of the lexicon, and the emergence of syntax in Spanish speakers.
Prerequisite: SPN 3700.

SPN 4780 The Spanish Sound System: Phonetics and Phonology 3 Credits
Grading Scheme: Letter Grade
Focuses on the precise description of Spanish pronunciation with some attention to dialect features and contrastive English phonetics.
Prerequisite: (SPN 3300 or SPN 3350) and (SPN 3700 or LIN 3010).

SPN 4811 Bilingual Language and Thought 3 Credits
Grading Scheme: Letter Grade
Evaluates the interaction between linguistic and cognitive processes in bilinguals. Examines the primary psycholinguistic themes and the notion of embodied cognition through the perception of sound, space, time, and color. Explores how sensory perception is affected by language and the effect that bilingualism has on these processes.
Prerequisite: SPN 3700.

SPN 4822 Sociolinguistics of the Spanish-Speaking World 3 Credits
Grading Scheme: Letter Grade
General overview of sociolinguistic issues of the contemporary Spanish-speaking world: language variation, language contact, discourse analysis, language attitudes, policy and planning, and social factors in language acquisition and use.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4830 Introduction to Spanish and Spanish American Dialectology 3 Credits
Grading Scheme: Letter Grade
Principles and methods of dialectology applied to the study of regional varieties of Spanish in Spain and in Spanish America.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4840 Introduction to the History of the Spanish Language 3 Credits
Grading Scheme: Letter Grade
The phonological, morphological, syntactic and semantic evolution of the Spanish language from Latin.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010 and SPN 4780.

SPN 4850 Introduction to Spanish Syntax 3 Credits
Grading Scheme: Letter Grade
Explores syntactic, morphological and semantic aspects of the Spanish language.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4851 Spanish Bilingualism 3 Credits
Grading Scheme: Letter Grade
Examines the internal and external factors that lead to and result from bilingualism in regions where Spanish is spoken. Organized into three primary components: social aspects; linguistic aspects; political and educational aspects.
Prerequisite: SPN 3700 or LIN 3010, or the equivalent.

SPN 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced majors and minors who seek independent work not offered in another course. Must be arranged individually with Spanish faculty. For honors thesis use SPN 4906.
Prerequisite: undergraduate coordinator permission.

SPN 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Honors thesis preparation.

SPN 4911 Undergraduate Research in Spanish 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

SPN 4930 Revolving Topics in Linguistics and Culture 3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for in-depth study of linguistic and cultural topics not offered in other courses and of topics of special current significance.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

SPT 1320 Las Americas: Comida y Conflicto 3 Credits
Grading Scheme: Letter Grade
This course uses literature, film, art, music, and a variety of historical texts, both written and visual, to examine conflicts regarding the use of natural resources, specifically food production, in México, Central America and the Caribbean, at two key moments: the colonial period and the twentieth century.
Prerequisite: Restricted to degree-seeking undergraduate students. Students are also required to have a 3 or higher on AP Spanish, 4 or higher on IB Spanish, A or AS level AICE or dual enrollment credit for SPN 1120/1121 is qualified to enroll in this course.
Attributes: Quest 1, General Education - International

SPT 2520 Fiction vs. Reality 3 Credits
Grading Scheme: Letter Grade
Examines how shared societal fictions justify exclusion of non-conformists. Focuses on Latin American pop culture from the 20th and 21st centuries. Analyzes the role of ideologies, stereotypes, and prejudices in shaping modern societies. Discusses impacts on human rights, democracy, and social inclusion. Utilizes interdisciplinary methods and encourages critical reflection.
Prerequisite: Any Quest 1 course with a minimum grade of "C" and [AP Spanish 3+] or [IB Spanish 4+] or [AICE A-E] or [SPN1121+] or [SPN1131+] or [SPN1601+]. SPT 2520
Attributes: Quest 2

SPT 3930 Topics in Latin American and Spanish Culture and Film 3 Credits
Grading Scheme: Letter Grade
Provides a broad survey of topics and issues pertaining to Latin American (including Brazilian) and Spanish contemporary culture through the analysis and interpretation of texts and films. Coursework is organized by country, theme, or genre on a rotating basis.
Prerequisite: any POW 3000 level course or any SPW 3000 level course or LIT 2000.

SPW 3030 Survey of Spanish-American Literature: From Discovery to Independence 3 Credits
Grading Scheme: Letter Grade
Overview of Spanish-American literature and its cultural context from the European conquest of the Americas to the 19th century. Introduces principal literary movements and authors, and trains students to read critically and to appreciate literary Spanish.
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.

SPW 3031 Survey of Spanish-American Literature: From Independence to Contemporary Times 3 Credits
Grading Scheme: Letter Grade
End of the 19th century to the present. Introduces principal literary movements and authors, and trains students to read critically and to analyze literary Spanish. Reading of major authors who may include Borges, Garcia Marquez, Neruda, Fuentes and Ferre.
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.

SPW 3100 Crescent; Cross; Star of David: Iberian Cultural Crossroads 1100-1700 3 Credits
Grading Scheme: Letter Grade
Develop a greater understanding of Spain's culturally diverse heritage by studying the literary contributions of Iberia's three major religious communities (Jewish, Muslim, and Christian) from 1100 to advent of French rule (1700).
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.

SPW 3101 Introduction to Spanish Literature 2 3 Credits
Grading Scheme: Letter Grade
Overview of Spanish literature and its cultural context from the 18th century to the present. Introduces principal literary movements and authors and trains students to read critically and to analyze literary Spanish.
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.

SPW 4190 Seminar in Spanish-American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
The advanced study of a writer, period, movement, region or topic of Spanish-American literature not ordinarily offered in the department. Refer to department website for specific description.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4213 Imagining Imperial Spain: Golden Age Fiction 3 Credits
Grading Scheme: Letter Grade
Male and female authors such as Rojas, Cervantes, and Zayas played a narrative cat-and-mouse game with censors that laid the groundwork for the modern novel. Learn the secrets of their "subversive discourse."
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4263 Readings in the Spanish Novel of the Nineteenth Century 3 Credits
Grading Scheme: Letter Grade
Readings in the Spanish novel of the 19th century. A survey of major authors from costumbrismo to the realism and naturalism of Galdos, Clarin and Pardo Bazan.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4270 Readings in Post-war Narrative 3 Credits
Grading Scheme: Letter Grade
Outstanding stories and novels of contemporary Spanish writers in relation to the historical and cultural context of post-civil war Spain.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4282 Readings in Contemporary Spanish-American Narrative 1 3 Credits
Grading Scheme: Letter Grade
The period of modernization of fiction and the development of new narrative modes in the 1940s and the 1950s; may include magical realism, the detective story and the new urban narratives.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4283 Readings in Contemporary Spanish-American Narrative 2 3 Credits
Grading Scheme: Letter Grade
The new narrative or the boom and post-boom of Latin-American fiction, 1960s to the present.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4310 Not Shakespeare: Spanish Theater for Kings and Commoners 3 Credits
Grading Scheme: Letter Grade
Was Spain's influential national theater (1580-1700) any less exciting, entertaining, or refined than its English and Jacobean counterparts? Did it represent a "top-down" instrument of monarchical control or a "bottom-up" forum for popular dissent? Close reading with an eye to historical references will decide.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4354 Readings in Contemporary Spanish-American Poetry 3 Credits
Grading Scheme: Letter Grade
A close reading and critical analysis of masterpieces by the major 20th-century poets of Spanish-America, including recent writers.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4364 Readings in the Spanish-American Essay 3 Credits
Grading Scheme: Letter Grade
Examination of major texts from the early 19th century to the present focusing on such themes as the search for identity and the definition of ethnic, racial, social and class categories.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4521 US Hispanic Literature 3 Credits
Grading Scheme: Letter Grade
Reading, discussion, and analysis of works by US Hispanic or Latino/a writers with an examination of the cultural life and social conditions of the Puerto Rican, Cuban, and Chicano communities in the US.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4532 Introduction to Spanish Romanticism 3 Credits
Grading Scheme: Letter Grade
By studying the canonical works of that moment (Rousseau, Feijoo, Cadalso, Jovellanos, Miranda, Bolivariable, Zorrilla, Rivas, Larra, Espronceda, Gomez de Avellaneda, Goya), the course explores the achievements, contradictions and failures of the enlightenment as well as the new organization by Romanticism in Spain and Latin America.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4604 Don Quixote: Hero or Fool? 3 Credits
Grading Scheme: Letter Grade
The great 400-year-old debate rages on: was Cervantes' famous fictional knight, Don Quixote de la Mancha an idealistic hero in a debased world, or was he just a hilariously deluded lunatic out of step with his time? Each student will decide.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4720 Readings in Spanish Literature from the Generation of 1898 to 1927 3 Credits
Grading Scheme: Letter Grade
Surveys turn-of-the-century Spanish crises from the perspective of the first generation of Spanish modernists. Authors include Unamuno, Costa, Machado, Valle-Inclán, Baroja, and Ortega y Gassett.
Prerequisite: any 3000-level SPW course or the equivalent.

SPW 4723 Readings in Spanish Literature from the Generation of 1927 to the Present 3 Credits
Grading Scheme: Letter Grade
Studies the development of Spanish literature in this century beginning with the brilliant poets of the generation of 1927, continuing with representative fiction, drama and poetry of the years after the Civil War and concluding with fiction and poetry of the 1990s.
Prerequisite: any one 3000-level SPW course or equivalent.

SPW 4780 Women's Voices Rising 3 Credits
Grading Scheme: Letter Grade
A seminar dedicated to the exploration of literary works written in Spanish by women of Spain, Latin America, and/or the United States.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4930 Revolving Topics in Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for in-depth study of literary and cultural topics not offered in other courses.
Prerequisite: any one 3000-level SPW course or the equivalent.

Speech, Language, and Hearing Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.

Curriculum

- Communication Sciences and Disorders
- Communication Sciences and Disorders Minor
- Communication Sciences and Disorders UF Online
- Deaf and Hearing Sciences Minor

Courses

ASL 1110 American Sign Language 1 4 Credits
Grading Scheme: Letter Grade
First in a series on American Sign Language concepts and principles; introduces receptive and expressive skills in formal and informal interactions. Signs, fingerspelling, numbers, and classifiers are practiced in conversational and storytelling contexts. Also introduces ASL literature and cultural information.

ASL 1120 American Sign Language 2 4 Credits
Grading Scheme: Letter Grade
Second in a series on American Sign Language concepts and principles; develops receptive and expressive skills in formal and informal interactions. Signs, fingerspelling, numbers, classifiers, and indexing are practiced in conversational and storytelling contexts. Familiarization with ASL culture and literary genres continues.
Prerequisite: ASL 1110.

ASL 1130 American Sign Language 3 3 Credits
Grading Scheme: Letter Grade
Advanced study of American Sign Language.
Prerequisite: ASL 1120.

COM 4930 Special Topics in Communication 3 Credits
Grading Scheme: Letter Grade
Seminar study of theory and research in a specific area of communication.
Prerequisite: COM 1000 or equivalent.

IDH 2931 Honors Seminar 3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide Honors Program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

LIN 3201 The Sounds of Human Language 3 Credits
Grading Scheme: Letter Grade
Emphasizes the sounds employed in languages of the world for a comprehensive understanding of the mechanism underlying the production of speech sounds and the ability to recognize, distinguish and phonetically transcribe speech sounds from an unfamiliar language. Includes investigation of the patterning and functions of sounds in languages of the world and application of the methods of analyzing a language sound system.
Prerequisite: LIN 3010.

LIN 4905 Individual Study in Linguistics 3 Credits
Grading Scheme: Letter Grade
Individual study for linguistics majors.

SPA 3003 Phonetics 3 Credits
Grading Scheme: Letter Grade
Phonetics is the study of speech sounds. Phonology is the study of the sound system of a language. In this class we are particularly interested in how the speech sounds of American English are made, and how we use the International Phonetic Alphabet (IPA) to represent sounds but we also will look at the science behind the production of speech sounds.
Prerequisite: PSY 2012 and CSD_BHS major and junior standing or higher.

SPA 3011 Speech Acoustics 3 Credits
Grading Scheme: Letter Grade
Introduces scientific methodologies, physics of sound, acoustics, and elementary instrumentation related to human speech communication.
Prerequisite: (CSD_BHS) with junior standing or higher.

SPA 3032 Fundamentals of Hearing 3 Credits
Grading Scheme: Letter Grade
Concepts and principles relevant to the normal hearing processes: acoustics, gross anatomy, psychophysical methods, and basic subjective correlates of the auditory system.
Prerequisite: STA 2023 and Communication Sciences and Disorders major with junior standing or higher.

SPA 3101 Speech Anatomy and Physiology 3 Credits
Grading Scheme: Letter Grade
Introduces elementary anatomy, physiology, and neurophysiology of the speaking mechanism.
Prerequisite: (CSD_BHS) with junior standing or higher or (CSD_UMN).

SPA 3475 Deaf Culture in America 3 Credits
Grading Scheme: Letter Grade
Provides an overview of the lives and experiences of deaf and hard of hearing persons and examines the reasons why many deaf people consider themselves to belong to a unique cultural group. Discussions focus on deaf communities and cultures, signed languages, education, accessibility, literature, and other issues.
Prerequisite: (PSY 2012 and ASL 1110) and (CSD_BHS major or DHS_UMN).

SPA 3800 Critical Review of Scientific Evidence 3 Credits
Grading Scheme: Letter Grade
Provides scientific process concepts (inductive and deductive reasoning, foundations of inductive statistics, research design) as well as offering practice in critical thinking and avoiding the cognitive illusions that lead to invalid conclusions. The goal is to become critical consumers of information.
Prerequisite: STA 2023 or more advanced statistics course

SPA 4004 Language Development 3 Credits
Grading Scheme: Letter Grade
Examines typical patterns of language development across the life span. Various theoretical perspectives on language acquisition are presented and current information regarding the biological, social, and cognitive bases for language will be reviewed. Major communicative achievements that characterize the various stages of language development will be discussed.
Prerequisite: (CSD_BHS) with junior standing or higher or (CSD_UMN).

SPA 4050 Clinical Observations in Speech-Language Pathology and Audiology 3 Credits
Grading Scheme: Letter Grade
Supervised clinical observations of diagnostics and remediation at the UF Speech and Hearing Clinic.
Prerequisite: Communication Sciences and Disorders major with senior standing.

SPA 4104 Neural Basis of Communication 3 Credits
Grading Scheme: Letter Grade
Understanding the structures and functions of the human nervous system and the neurological processes involved in communication and communication disorders.
Prerequisite: SPA3101 with a grade of C or higher and Communication Sciences and Disorders major.

SPA 4106 Neuroplasticity and Rehabilitation 3 Credits
Grading Scheme: Letter Grade
Introduces foundational knowledge about neuroplasticity and how it impacts treatment design and implementation across all health sciences. Also introduces different types of rehabilitation approaches offered by the various health sciences.
Prerequisite: Junior standing & (CSD_BHS or HES_BHS major).

SPA 4250 Introduction to Speech Disorders 3 Credits
Grading Scheme: Letter Grade
Studies speech-based disorders of communication: phonology, motor speech, resonation, voice, and stuttering.
Prerequisite: LIN3010 or SPA3003 with grade of C or higher and SPA3101 with grade of C or higher and Communication Sciences and Disorders major.

SPA 4302 Intro to Audiology and Hearing 3 Credits
Grading Scheme: Letter Grade
Introduces the psychophysics of sound and the practice of audiology, as well as the anatomy and physiology of the auditory system. Also presents the common pathologies of the auditory system, the impact of hearing loss, the types and characteristics of hearing loss, the conventional procedures used to assess hearing, the interpretation of audiological test findings, and the criteria for initiating audiological referrals.
Prerequisite: PSY2012 and CSD_BHS with junior standing or higher, or DHS_UMN.

SPA 4321 Audiologic Rehabilitation 3 Credits
Grading Scheme: Letter Grade
Overview of aural rehabilitation and methods in auditory training and speech reading with hearing-impaired individuals.
Prerequisite: SPA 4302 with a minimum grade of C and CSD_BHS and DHS_UMN.

SPA 4400 Introduction to Language Disorders 3 Credits
Grading Scheme: Letter Grade
Studies language-based disorders of communication: specific language impairment in children, traumatic brain injury, aphasia, and dementia.
Prerequisite: SPA 4004 and SPA 4104 with minimum grades of C and Communication Sciences and Disorders major.

SPA 4904 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
A project, reading, or research course.
Prerequisite: Instructor permission.

SPA 4931 Honors in Communication Sciences and Disorders 1-3 Credits
Grading Scheme: Letter Grade
The design, implementation and reporting of an original research project.
Prerequisite: 3.5 overall GPA, a 3.75 GPA in the major and completion (including current enrollment) of 21 credits in the major.

SPC 4680 Rhetorical Criticism 3 Credits
Grading Scheme: Letter Grade
Critical analyses of rhetorical elements and processes in oratorical and non-oratorical forms.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

Sport Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Sport Management (SPM) studies the impact of professional and amateur sports on the personal, social, economic, environmental, and resource infrastructures of society. SPM's goal is to improve the overall quality of life by learning and teaching what leads individuals, families, and industry to value and benefit from sports.

- Sport Management
- Sport Management Certificate
- Sport Management UF Online

Courses

HLP 4933 Variable International Topics 1-6 Credits
Grading Scheme: Letter Grade
Provides the opportunity to study in a wide range of cultural settings.

PET 2063 Athlete Health and Wellbeing 3 Credits
Grading Scheme: Letter Grade
Overview of athlete health and wellbeing in sport by covering aspects of athlete mental health, including a fundamental understanding of health and wellbeing, creating a vision for mental health in a sport organization, designing mental health programs, policies, and services for athletes, creating a team environment that promotes mental health, and evaluation of athlete-focused mental health services.

PET 3181 Fundamentals of Coaching: Managing Yourself 3 Credits
Grading Scheme: Letter Grade
Students focus on the fundamentals of self-awareness along with the personal and professional skills necessary to begin in the coaching profession. It is designed to give students foundational knowledge to increase self-confidence and competence within the coaching profession.
Prerequisite: SPM 2000.

PET 3182 Fundamentals of Coaching: Managing Your Program 3 Credits
Grading Scheme: Letter Grade
Students learn to create systems and processes to train, motivate, and communicate with people in professional sport settings to achieve standards of excellence based on the philosophical underpinnings of the program.
Prerequisite: SPM 2000.

PET 3183 Fundamentals of Coaching: Managing Your Culture 3 Credits
Grading Scheme: Letter Grade
Students examine the concepts and fundamentals of creating positive, high performing athletic team culture necessary to be successful in the coaching profession. Areas covered include the study of mental models, communication, psychological safety, team systems, and boundaries.
Prerequisite: SPM 2000.

PET 4262 Sport Career Transitions 3 Credits
Grading Scheme: Letter Grade
Provides an in-depth understanding and appreciation of the transition to life after sport. Also introduces the fundamentals of the sport career transition and athletic identity as well as to the common difficulties athletes experience in adjusting to life after sport.
Prerequisite: Junior standing.

SPM 2000 Introduction to Sport Management 3 Credits
Grading Scheme: Letter Grade
Introduces management, marketing, financial and legal principles regarding sport facilities, events and organizations within interscholastic, intercollegiate, professional and international sport industries. The conduct of amateur and professional sport programs.

SPM 2060 Sport Career Preparation 1 Credit
Grading Scheme: Letter Grade
Introduce students to sport career tracts, as well as provide students resources to explore option areas where they personally connect with leaders and pursue industry related field experiences. Students will become familiar with building a professional brand, showcasing relevant skills and experiences, and potential career paths to be considered in the field of Sport Management.
Prerequisite: Sport Management major of sophomore standing or higher.

SPM 2182 Athletic Career Management 3 Credits
Grading Scheme: Letter Grade
Students learn the key underpinnings of transitioning athletes to collegiate settings and beyond. The course enhances skills and knowledge in athletics, financial literacy, personal development, and professional development. It encourages students to apply resources to aid in the holistic development of student athletes.

SPM 3012 Social Issues in Sport 3 Credits
Grading Scheme: Letter Grade
Societal implications of sport in history and heritage, youth programs, collegiate and professional situations and the involvement of minority groups, women, business and industry.
Prerequisite: Sophomore standing or higher or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

SPM 3013 International Sport Management 3 Credits
Grading Scheme: Letter Grade
Introduces sport management from a global perspective. Learn about the role of sport and sport management around the world and develop intercultural competencies to understand the roles that sport and sport participation plays in different cultures.
Prerequisite: Sophomore standing and above.

SPM 3025 Diversity and Inclusion in Sport Organizations 3 Credits
Grading Scheme: Letter Grade
Examines the role and impact that ethnicity, race, gender, age, physical and mental ability, class, and sexual orientation have had on sport. Provides an opportunity to develop an understanding and appreciation for diversity in sport.
Prerequisite: SPM 2000 and sophomore standing or higher.

SPM 3109 Sport Event Management 3 Credits
Grading Scheme: Letter Grade
This course introduces students to the fundamentals of project management and its application to sport events. Project management is a strategic and systematic approach to managing sports as projects. Students will apply the five phases of the project-management lifecycle to a multitude of sport events.
Prerequisite: SPM 2000 and sophomore standing or higher.

SPM 3204 Ethical Issues in Sport 3 Credits
Grading Scheme: Letter Grade
Review and study of ethical issues that affect sport.
Prerequisite: Sophomore standing or higher.

SPM 3306 Sport Marketing 3 Credits
Grading Scheme: Letter Grade
Key marketing concepts and strategies in sports referent to sport consumer behavior and implications for marketing. Analyzes marketing cases to solve marketing-related problems and to help students prepare and evaluate a comprehensive marketing plan.
Prerequisite: SPM 2000 & MAR 3023.

SPM 3403 Sport Information Management 3 Credits
Grading Scheme: Letter Grade
Instruction, Analysis, and Training in the Principles and Practice of Sport Information Management in Sports Organizations. Emphasizes Skills Essential for Sports Management Professionals, Including Handling Media Interactions Across Platforms, Problems, Crises, and Integration of Positive Communications Strategies With Strategic Goals of Sports Organizations.
Prerequisite: sophomore standing or instructor permission.

SPM 3703 Sport Performance Analytics 3 Credits
Grading Scheme: Letter Grade
Introduces sport analytics with a strong emphasis on performance analytics. Through theoretical principles and hands-on practical experience utilizing the R programming language, students will acquire the skills and knowledge required to analyze sport performance data and leverage these insights to comprehend athletic performance. Learn how to make data-informed decisions that directly impact sport management strategies and overall performance in the sports world.
Prerequisite: STA 2023 & Sophomore standing & above.

SPM 4104 Sport Operations and Facility Management 3 Credits
Grading Scheme: Letter Grade
Planning and management of sport facilities.
Prerequisite: SPM 2000 and junior standing or higher.

SPM 4154 Managing Organizations in Sport 3 Credits
Grading Scheme: Letter Grade
Discusses managerial principles and techniques applicable to a multitude of sport organizations, and addresses the four functions of management: strategy, organizational structure, resource management, and leadership theories.
Prerequisite: MAN 3025 and SPM 2000.

SPM 4510 Revenue Generation in Sport 3 Credits
Grading Scheme: Letter Grade
Explore revenue generation in sport by learning foundational sales concepts, including the sales process. Also explore the role of corporate partnership in sport, and the application of the sales process as it relates to developing solutions to achieving partner organization objectives. Finally, explore fundraising, specifically in the context of collegiate athletics and community sport, with a focus on cultivation strategies.
Prerequisite: SPM 2000 and junior standing or higher.

SPM 4515 Sport Business and Finance 3 Credits
Grading Scheme: Letter Grade
Financial expense categories and sources of revenue for sport organizations. Determines and calculates facility revenues and non-facility revenues. Develops potential solutions for improving revenue sources to increase revenue and decrease costs while maintaining a viable product.
Prerequisite: SPM 2000 & junior standing or higher

SPM 4612 Environmental Sustainability and Sport 3 Credits
Grading Scheme: Letter Grade
Students will learn about the components of successful environmental sustainability programs through the evaluation of sport leagues, individual teams, collegiate programs, and venues/arenas, exposing students to key tactics and skills necessary for success in the field. Best practices on core topics provide students with a view of how organizations implement environmental sustainability and social responsibility programs.
Prerequisite: Junior standing & above.

SPM 4703 Sport Marketing Analytics 3 Credits
Grading Scheme: Letter Grade
Students delve into the world of sport consumer analytics within the context of the sport management field. With a strong focus on practical applications for sport consumer behavior research, this course equips students with the essential skills needed to excel in the dynamic landscape of sport business analytics. By blending statistical reasoning with real-world sport marketing and consumer behavior datasets, students will learn to extract meaningful insights that drive strategic decisions.
Prerequisite: STA 2023 & sophomore standing and above.

SPM 4711 Sport, Social Media, & Data Analysis 3 Credits
Grading Scheme: Letter Grade
Covers the historical development of social media and human society culminating in the social media boom. Discuss the theories behind social media and human society, usages of social media in the sport industry, and learn different ways of analyzing social media including data collection, descriptive statistics, quantitative analysis, and machine learning (artificial intelligence) sentiment analysis.
Prerequisite: STA 2023 & sophomore standing & above.

SPM 4723 Legal Issues in Sport 3 Credits
Grading Scheme: Letter Grade
Legal structures, major laws, regulations, and case precedents that establish legal responsibilities, rights, privileges, and controls related to sport management.
Prerequisite: SPM 2000 & junior standing or higher.

SPM 4724 Risk Management in Live Entertainment and Sports 3 Credits
Grading Scheme: Letter Grade
Analyze risk management considerations including safety, security, business continuity, legal, and regulatory issues impacting the live entertainment industry. Focuses on new and existing assembly occupancies (both indoor and outdoor) accommodating 250 patrons or more with an emphasis on occupancy in excess of 6000 (large-scale).
Prerequisite: SPM 2000 & junior standing or higher.

SPM 4725 Advanced Legal Aspects in Live Entertainment and Sports 3 Credits
Grading Scheme: Letter Grade
Concentrates on the legal aspects of the live entertainment and sports industry to provide a basic understanding of intellectual property, torts, and negligent acts. The goal is to avoid or reduce the probability of legal liabilities in the live entertainment and sports industry.
Prerequisite: (SPM 4723 or SPM 4724) & junior standing or higher.

SPM 4905 Variable Topics in Sport Management 1-3 Credits
Grading Scheme: Letter Grade
Offered upon request to meet special interests that not adequately provided in other courses.
Prerequisite: department permission.

SPM 4912 Undergraduate Supervised Research 0-5 Credits
Grading Scheme: S/U
Provides an opportunity for involvement in supervised research experiences. “Research” is operationally defined here as mentored but self-directed work that enables individual students or a small group of students to explore an issue of interest and to communicate the results to others.
Prerequisite: Sports Management majors.

SPM 4940 Advanced Career Preparation 2 Credits
Grading Scheme: Letter Grade
Provides students with the opportunity to gain additional practical experience within sport management agency. Students will be able to apply their skills and knowledge as an agency volunteer in their chosen option area. Students will examine personal strengths, leadership and management skills and then assess internship avenues and career options.
Prerequisite: SPM 2000 and SPM 2060.

SPM 4941C Internship in Sport Management 1-15 Credits
Grading Scheme: S/U
Internship with a public or private enterprise in sport management.
Prerequisite: SPM_BS & SPM 4940

SPM 4948 Practicum in Sport Management 1-3 Credits
Grading Scheme: S/U
Practical experience in sport management.
Prerequisite: Department permission & Approved practicum agency

SPM 2000 Introduction to Sport Management 3 Credits
Grading Scheme: Letter Grade
Introduces management, marketing, financial and legal principles regarding sport facilities, events and organizations within interscholastic, intercollegiate, professional and international sport industries. The conduct of amateur and professional sport programs.

SPM 2060 Sport Career Preparation 1 Credit
Grading Scheme: Letter Grade
Introduce students to sport career tracts, as well as provide students resources to explore option areas where they personally connect with leaders and pursue industry related field experiences. Students will become familiar with building a professional brand, showcasing relevant skills and experiences, and potential career paths to be considered in the field of Sport Management.
Prerequisite: Sport Management major of sophomore standing or higher.

SPM 2182 Athletic Career Management 3 Credits
Grading Scheme: Letter Grade
Students learn the key underpinnings of transitioning athletes to collegiate settings and beyond. The course enhances skills and knowledge in athletics, financial literacy, personal development, and professional development. It encourages students to apply resources to aid in the holistic development of student athletes.

SPM 3012 Social Issues in Sport 3 Credits
Grading Scheme: Letter Grade
Societal implications of sport in history and heritage, youth programs, collegiate and professional situations and the involvement of minority groups, women, business and industry.
Prerequisite: Sophomore standing or higher or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

SPM 3013 International Sport Management 3 Credits
Grading Scheme: Letter Grade
Introduces sport management from a global perspective. Learn about the role of sport and sport management around the world and develop intercultural competencies to understand the roles that sport and sport participation plays in different cultures.
Prerequisite: Sophomore standing and above.

SPM 3025 Diversity and Inclusion in Sport Organizations 3 Credits
Grading Scheme: Letter Grade
Examines the role and impact that ethnicity, race, gender, age, physical and mental ability, class, and sexual orientation have had on sport. Provides an opportunity to develop an understanding and appreciation for diversity in sport.
Prerequisite: SPM 2000 and sophomore standing or higher.

SPM 3109 Sport Event Management 3 Credits
Grading Scheme: Letter Grade
This course introduces students to the fundamentals of project management and its application to sport events. Project management is a strategic and systematic approach to managing sports as projects. Students will apply the five phases of the project-management lifecycle to a multitude of sport events.
Prerequisite: SPM 2000 and sophomore standing or higher.

SPM 3204 Ethical Issues in Sport 3 Credits
Grading Scheme: Letter Grade
Review and study of ethical issues that affect sport.
Prerequisite: Sophomore standing or higher.

SPM 3306 Sport Marketing 3 Credits
Grading Scheme: Letter Grade
Key marketing concepts and strategies in sports referent to sport consumer behavior and implications for marketing. Analyzes marketing cases to solve marketing-related problems and to help students prepare and evaluate a comprehensive marketing plan.
Prerequisite: SPM 2000 & MAR 3023.

SPM 3403 Sport Information Management 3 Credits
Grading Scheme: Letter Grade
Instruction, Analysis, and Training in the Principles and Practice of Sport Information Management in Sports Organizations. Emphasizes Skills Essential for Sports Management Professionals, Including Handling Media Interactions Across Platforms, Problems, Crises, and Integration of Positive Communications Strategies With Strategic Goals of Sports Organizations.
Prerequisite: sophomore standing or instructor permission.

SPM 3703 Sport Performance Analytics 3 Credits
Grading Scheme: Letter Grade
Introduces sport analytics with a strong emphasis on performance analytics. Through theoretical principles and hands-on practical experience utilizing the R programming language, students will acquire the skills and knowledge required to analyze sport performance data and leverage these insights to comprehend athletic performance. Learn how to make data-informed decisions that directly impact sport management strategies and overall performance in the sports world.
Prerequisite: STA 2023 & Sophomore standing & above.

SPM 4104 Sport Operations and Facility Management 3 Credits
Grading Scheme: Letter Grade
Planning and management of sport facilities.
Prerequisite: SPM 2000 and junior standing or higher.

SPM 4154 Managing Organizations in Sport 3 Credits
Grading Scheme: Letter Grade
Discusses managerial principles and techniques applicable to a multitude of sport organizations, and addresses the four functions of management: strategy, organizational structure, resource management, and leadership theories.
Prerequisite: MAN 3025 and SPM 2000.

SPM 4510 Revenue Generation in Sport 3 Credits
Grading Scheme: Letter Grade
Explore revenue generation in sport by learning foundational sales concepts, including the sales process. Also explore the role of corporate partnership in sport, and the application of the sales process as it relates to developing solutions to achieving partner organization objectives. Finally, explore fundraising, specifically in the context of collegiate athletics and community sport, with a focus on cultivation strategies.
Prerequisite: SPM 2000 and junior standing or higher.

SPM 4515 Sport Business and Finance 3 Credits
Grading Scheme: Letter Grade
Financial expense categories and sources of revenue for sport organizations. Determines and calculates facility revenues and non-facility revenues. Develops potential solutions for improving revenue sources to increase revenue and decrease costs while maintaining a viable product.
Prerequisite: SPM 2000 & junior standing or higher

SPM 4612 Environmental Sustainability and Sport 3 Credits
Grading Scheme: Letter Grade
Students will learn about the components of successful environmental sustainability programs through the evaluation of sport leagues, individual teams, collegiate programs, and venues/arenas, exposing students to key tactics and skills necessary for success in the field. Best practices on core topics provide students with a view of how organizations implement environmental sustainability and social responsibility programs.
Prerequisite: Junior standing & above.

SPM 4703 Sport Marketing Analytics 3 Credits
Grading Scheme: Letter Grade
Students delve into the world of sport consumer analytics within the context of the sport management field. With a strong focus on practical applications for sport consumer behavior research, this course equips students with the essential skills needed to excel in the dynamic landscape of sport business analytics. By blending statistical reasoning with real-world sport marketing and consumer behavior datasets, students will learn to extract meaningful insights that drive strategic decisions.
Prerequisite: STA 2023 & sophomore standing and above.

SPM 4711 Sport, Social Media, & Data Analysis 3 Credits
Grading Scheme: Letter Grade
Covers the historical development of social media and human society culminating in the social media boom. Discuss the theories behind social media and human society, usages of social media in the sport industry, and learn different ways of analyzing social media including data collection, descriptive statistics, quantitative analysis, and machine learning (artificial intelligence) sentiment analysis.
Prerequisite: STA 2023 & sophomore standing & above.

SPM 4723 Legal Issues in Sport 3 Credits
Grading Scheme: Letter Grade
Legal structures, major laws, regulations, and case precedents that establish legal responsibilities, rights, privileges, and controls related to sport management.
Prerequisite: SPM 2000 & junior standing or higher.

SPM 4724 Risk Management in Live Entertainment and Sports 3 Credits
Grading Scheme: Letter Grade
Analyze risk management considerations including safety, security, business continuity, legal, and regulatory issues impacting the live entertainment industry. Focuses on new and existing assembly occupancies (both indoor and outdoor) accommodating 250 patrons or more with an emphasis on occupancy in excess of 6000 (large-scale).
Prerequisite: SPM 2000 & junior standing or higher.

SPM 4725 Advanced Legal Aspects in Live Entertainment and Sports 3 Credits
Grading Scheme: Letter Grade
Concentrates on the legal aspects of the live entertainment and sports industry to provide a basic understanding of intellectual property, torts, and negligent acts. The goal is to avoid or reduce the probability of legal liabilities in the live entertainment and sports industry.
Prerequisite: (SPM 4723 or SPM 4724) & junior standing or higher.

SPM 4905 Variable Topics in Sport Management 1-3 Credits
Grading Scheme: Letter Grade
Offered upon request to meet special interests that not adequately provided in other courses.
Prerequisite: department permission.

SPM 4912 Undergraduate Supervised Research 0-5 Credits
Grading Scheme: S/U
Provides an opportunity for involvement in supervised research experiences. “Research” is operationally defined here as mentored but self-directed work that enables individual students or a small group of students to explore an issue of interest and to communicate the results to others.
Prerequisite: Sports Management majors.

SPM 4940 Advanced Career Preparation 2 Credits
Grading Scheme: Letter Grade
Provides students with the opportunity to gain additional practical experience within sport management agency. Students will be able to apply their skills and knowledge as an agency volunteer in their chosen option area. Students will examine personal strengths, leadership and management skills and then assess internship avenues and career options.
Prerequisite: SPM 2000 and SPM 2060.

SPM 4941C Internship in Sport Management 1-15 Credits
Grading Scheme: S/U
Internship with a public or private enterprise in sport management.
Prerequisite: SPM_BS & SPM 4940

SPM 4948 Practicum in Sport Management 1-3 Credits
Grading Scheme: S/U
Practical experience in sport management.
Prerequisite: Department permission & Approved practicum agency

Statistics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

Curriculum

- Actuarial Science Minor
- Combination Degrees
- Data Analytics Certificate
- Data Science
- Statistics
- Statistics Minor

Courses

STA 2023 Introduction to Statistics 1 3 Credits
Grading Scheme: Letter Grade
In this course, students will utilize descriptive and inferential statistical methods in contextual situations, using technology as appropriate. The course is designed to increase problem-solving abilities and data interpretation through practical applications of statistical concepts. This course is appropriate for students in a wide range of disciplines and programs.
Attributes: General Education - Mathematics

STA 2090 The Data Analytics Revolution In Sports 3 Credits
Grading Scheme: Letter Grade
Explores the data-driven decision process within the field of athletics and game play using data analytics and visualization techniques. Compares the processes used in sports with those used in business and everyday life and illustrates examples of how data can be used to understand human behavior.
Attributes: Quest 2, General Education - Social Science

STA 2170 Stats In The Physical World 3 Credits
Grading Scheme: Letter Grade
This course is intended to introduce general ideas involving probability and statistics through thought provoking examples from subject areas in the physical and biological sciences. Students will be expected to think through solutions to problems from the various cases to understand the various statistical methods introduced. This can lead to questions such as how can we measure and describe climate change based on available empirical data? The course will focus on “big picture” uses of statistical methods and will use statistical computing software as opposed to “hand calculation. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - Physical Science

STA 3024 Introduction to Statistics 2 3 Credits
Grading Scheme: Letter Grade
An introduction to the analysis of variance. Nonparametric statistical methods and applications. Analysis of count data: chi-square and contingency tables. Simple and multiple linear regression methods with applications.
Prerequisite: STA 2023 or the equivalent.

STA 3032 Engineering Statistics 3 Credits
Grading Scheme: Letter Grade
Basic concepts in probability, statistics, engineering applications. Use of computational methods, logic, and reasoning. Formulation of mathematical models, application of statistical techniques, and solution of real-world problems. Topics include probability, random variables, estimation, hypothesis testing, correlation, regression, and analysis of variance.
Prerequisite: MAC 2311.

STA 3100 Programming With Data in R 3 Credits
Grading Scheme: Letter Grade
Introduction to statistical computing and programming with data. Topics include basic programming in R; data types and data structures in R; importing and cleaning data; specifying statistical models in R; statistical graphics; statistical simulation using pseudo-random numbers; reproducible research and the documentation of statistical analyses.
Prerequisite: STA 2023 with a minimum grade of B or (STA 3024 or STA 3032 with a minimum grade of B-) or (AP statistics score of 4 or 5).

STA 3180 Statistical Modelling 3 Credits
Grading Scheme: Letter Grade
Overview of modern statistical modeling. Topics include linear regression, binary regression and classification, cross-validation, nonlinear regression and smoothing, tree-based methods, the bootstrap, and causal inference. Approaches will be illustrated in R.
Prerequisite: STA 3100.

STA 4183 Theory of Interest 3 Credits
Grading Scheme: Letter Grade
Measurement of simple and compound interest, accumulated and present value. Annuities, yield rates, amortization schedules, sinking funds, bonds, securities and related funds.
Prerequisite: MAC 2312.

STA 4210 Regression Analysis 3 Credits
Grading Scheme: Letter Grade
Simple linear regression and multiple linear regression models. Inference about model parameters and predictions, diagnostic, and remedial measures about the model, independent variable selection, multicollinearity, autocorrelation, and nonlinear regression.
Prerequisite: STA 3100 and (STA 3024 or STA 3032 or STA 4321 or MAS 3114 or MAS 4105).

STA 4211 Design of Experiments 3 Credits
Grading Scheme: Letter Grade
The basic principles of experimental design: analysis of variance for experiments with a single factor; randomized blocks and Latin square designs: multiple comparison of treatment means; factorial and nested designs; analysis of covariance; response surface methodology.
Prerequisite: STA 4210.

STA 4222 Sample Survey Design 3 Credits
Grading Scheme: Letter Grade
An introduction to the design of sample surveys and the analysis of survey data, the course emphasizes practical applications of survey methodology. Topics include sources of errors in surveys, questionnaire construction, simple random, stratified, systematic and cluster sampling, ratio and regression estimation.
Prerequisite: (STA 4321 and STA 2023) or STA 3032 or STA 4322.

STA 4241 Statistical Learning in R 3 Credits
Grading Scheme: Letter Grade
Overview of the field of statistical learning. Topics include linear regression, classification, resampling methods, shrinkage approaches, tree-based methods, support vector machines, and clustering. Approaches will be illustrated in R.
Prerequisite: STA 4322 and STA 4210 and (MAS 3114 or 4105).

STA 4273 Statistical Computing in R 3 Credits
Grading Scheme: Letter Grade
Overview of computational statistics and how to implement the methods in R. Topics include Monte Carlo methods in inference, bootstrap, permutation tests, and Markov chain Monte Carlo (MCMC) methods.
Prerequisite: STA 4210 and STA 4322 and (MAS 3114 or MAS 4105).

STA 4321 Introduction to Probability 3 Credits
Grading Scheme: Letter Grade
Introduces the theory of probability, counting rules, conditional probability, independence, additive and multiplicative laws, Bayes Rule. Discrete and continuous random variables, their distributions, moments and moment generating functions. Multivariate probability distributions, independence, covariance. Distributions of functions of random variables, sampling distributions, central limit theorem.
Prerequisite: MAC 2313 or MAC 3474 with a minimum grade of C.

STA 4322 Introduction to Statistics Theory 3 Credits
Grading Scheme: Letter Grade
Sampling distributions, central limit theorem, estimation, properties of point estimators, confidence intervals, hypothesis testing, common large sample tests, normal theory small sample tests, uniformly most powerful and likelihood ratio tests, linear models and least squares, correlation. Introduction to analysis of variance.
Prerequisite: STA 4321 or the equivalent.

STA 4502 Nonparametric Statistical Methods 3 Credits
Grading Scheme: Letter Grade
Introduction to nonparametric statistics, including one- and two-sample testing and estimation methods, one- and two-way layout models and correlation and regression models.
Prerequisite: STA 2023 or STA 3032 or STA 4210 or STA 4322.

STA 4504 Categorical Data Analysis 3 Credits
Grading Scheme: Letter Grade
Description and inference using proportions and odds ratios, multi-way contingency tables, logistic regression and other generalized linear models, log-linear models applications.
Prerequisite: STA 3100 and (STA 3024 or STA 3032 or STA 4210 or STA 4322).

STA 4702 Multivariate Statistical Methods 3 Credits
Grading Scheme: Letter Grade
Review of matrix theory, univariate normal, t, chi-squared and F distributions and multivariate normal distribution. Inference about multivariate means including Hotelling's T2, multivariate analysis of variance, multivariate regression and multivariate repeated measures. Inference about covariance structure including principal components, factor analysis and canonical correlation. Multivariate classification techniques including discriminant and cluster analyses. Additional topics at the discretion of the instructor, time permitting.
Prerequisite: (STA 3024 or STA 4210 or STA 4322 or STA 6127 or STA 6167) and (MAS 3114 or MAS 4105 or the equivalent).

STA 4712 Introduction to Survival Analysis 3 Credits
Grading Scheme: Letter Grade
Survival analysis data methods including Kaplan-Meier and Nelson estimators of the survival, accelerated failure time and proportional hazards models and frailty and recurrent event models.
Prerequisite: STA 4210.

STA 4821 Stochastic Processes 3 Credits
Grading Scheme: Letter Grade
Theoretical development of elementary stochastic processes, including Poisson processes and their generalizations, Markov chains, birth and death processes, branching processes, renewal processes, queuing processes and genetic and ecological processes.
Prerequisite: STA 4321 or equivalent.

STA 4853 Introduction to Time Series and Forecasting 3 Credits
Grading Scheme: Letter Grade
Stationarity, autocorrelation, ARMA models; frequency domain methods and the spectral density; forecasting methods; and computationally-oriented application to case studies.
Prerequisite: STA 4210 and STA 4321.

STA 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Special topics designed to meet the needs and interests of individual students.
Prerequisite: department permission.

STA 4911 Undergraduate Research in Statistics 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

STA 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Variable topics designed to meet the students' needs and interests.
Prerequisite: department permission.

STA 4940 Internship 1-3 Credits
Grading Scheme: S/U
Supervised activity associated with planning and/or analyzing data from a research project. Supervision by a faculty member or delegated authority and a post-internship written report are required.
Prerequisite: STA 4211 and undergraduate coordinator permission.

STA 4950 Capstone in Statistics and Data Science 3 Credits
Grading Scheme: Letter Grade
A comprehensive team-based learning experience where students synthesize what they have learned in previous core courses and apply that knowledge to new, complex situations working in partnership with professional data scientists and statisticians to analyze a real-world problem. Skills such as collaboration, data ethics and communication are heavily emphasized.
Prerequisite: STA 4210 and 3 additional credits in STA 4XXX and (BS or BA STA or DAT major or STA minor or ACS minor)

STA 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate coordinator permission.

Sustainability and the Built Environment

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Sustainability and the Built Environment (SBE) Program at the College of Design, Construction and Planning teaches hands-on sustainability by using the university as a learning laboratory.

ARCHITECTURE BUILDING
GAINESVILLE FL 32611-5701
Map (http://campusmap.ufl.edu/#/index/0268)

Curriculum

- Sustainability and the Built Environment
- Sustainability and the Built Environment Minor

Courses

DCP 3200 Methods of Inquiry for Sustainability and the Built Environment 3 Credits
Grading Scheme: Letter Grade
The breadth of methods of inquiry (the process of asking and then answering questions) commonly used by planners, designers and builders as well as those who study the built and managed environments.
Prerequisite: BCN 1582 or IDS 2154, or a course approved in the topic area.

DCP 3210 Sustainable Solutions for the Built Environment 3 Credits
Grading Scheme: Letter Grade
Uses case studies to examine how sustainability can be achieved in the built environment, from choosing materials and finishes to patterns of regional land use.
Prerequisite: BCN 1582 or IDS 2154, or a course approved in the topic area.

DCP 3220 Social and Cultural Sustainability and the Built Environment 3 Credits
Grading Scheme: Letter Grade
Explores the importance of considering the human users of the built environment when searching for sustainable solutions. Examines social, behavioral and multicultural perspectives related to social sustainability.
Prerequisite: BCN 1582 or IDS 2154, or a course approved in the topic area, and junior or senior standing.

DCP 4290 Capstone Project in Sustainability and the Built Environment 6 Credits
Grading Scheme: Letter Grade
Undertake an individual project under the direction of a faculty member, with a focus on comprehensive solutions to a problem in sustainability.
Prerequisite: DCP 4941.

DCP 4911 Undergraduate Research in Design, Construction, and Planning. 0-3 Credits
Grading Scheme: S/U
Undertake firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, creativity, discovery or application.

DCP 4941 Practicum in Sustainability and the Built Environment 6 Credits
Grading Scheme: Letter Grade
Students from diverse backgrounds engage in service and learning through the development of sustainable solutions to challenges in the built environment.
Prerequisite: DCP 3210 and DCP 3220.

DCP 4942 Field Experience in Sustainability and the Built Environment 1-6 Credits
Grading Scheme: S/U
Field experience with a government, non-government or private office that focuses on issues of sustainability.
Prerequisite: DCP 3210.

Theatre + Dance

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

School Information

The School of Theatre + Dance provides an intimate setting where students, faculty, and staff interact in constant and close collaboration. Curricular programs are suited to a range of student interests and talents, from the liberal arts BA degree to the competitive BFA and MFA professional training degrees.

- Theatre Production Minor

Courses

DAA 1000 Fundamentals of Dance Technique 3 Credits
Grading Scheme: Letter Grade
Practice and principles of fundamentals and stylistic characteristics common to ballet, jazz and modern dance, including styles from the Western canon.
Attributes: General Education - Humanities

DAA 2104 Contemporary Dance Practices 1 2 Credits
Grading Scheme: Letter Grade
Experience in beginning level technique, readings, observations and movement exploration.
Prerequisite: DAA 1000 with minimum grade of C, or audition.

DAA 2105 Contemporary Dance Practices 2 2 Credits
Grading Scheme: Letter Grade
Experience in contemporary approaches to dance technique, readings, observations and movement exploration.
Prerequisite: DAA 2104 or Dance Major or minor.

DAA 2204 Contemporary Ballet Practices 1 2 Credits
Grading Scheme: Letter Grade
Basic ballet technique with discussion of terminology and history.
Prerequisite: DAA 1000(C) or BFA Performance: Musical Theatre major or audition.

DAA 2205 Contemporary Ballet Practices 2 2 Credits
Grading Scheme: Letter Grade
Contemporary perspectives in basic ballet technique with discussion of terminology and history.
Prerequisite: DAA 2204 or Dance major or minor.

DAA 2331 West African Dance and Music 2 Credits
Grading Scheme: Letter Grade
Introduces traditional West African dance and music. Focuses on the learning of material emphasizing practice and performance with application to classroom and outreach-oriented projects.

DAA 2341 Contemporary African & African Diasporic Dance Practices 1 2 Credits
Grading Scheme: Letter Grade
Develops understanding of various styles of dance within the African and African Diasporic realms as a movement practice and an art form; performance based.
Prerequisite: Dance major or dance minor or BFA Performance: Musical Theatre major

DAA 2342 Contemporary African & African Diasporic Dance Practices 2 2 Credits
Grading Scheme: Letter Grade
A performance-based course aimed at developing the understanding of various styles of dance within the African African Diasporic realms as a movement practice and an art form.
Prerequisite: DAA 2341 or Dance majors or minors.

DAA 2381 World Dance and Intercultural Performance 3 Credits
Grading Scheme: Letter Grade
Introduces the performance of traditional and popular dance styles representing a selection of world dance perspectives. Emphasizing practice and performance, the course examines dance forms in relation to their specific cultural contexts and in addition to styles of the Western canon. Readings, video viewing and class projects enhance laboratory exploration.
Prerequisite: dance major/minor or audition.
Attributes: General Education - Humanities, General Education - International

DAA 2504 Basic Jazz 2 Credits
Grading Scheme: Letter Grade
Basic jazz technique with emphasis on style, movement skills and vocabulary.
Prerequisite: DAA 1000 with minimum grade of C, or audition.

DAA 2520L Tap 1 2 Credits
Grading Scheme: Letter Grade
Beginning-level tap course which covers fundamental rhythms, sounds, techniques, vocabulary, and provides a foundational knowledge of tap history. Although geared toward students pursuing a career in musical theatre, all interested in tap are welcome.

DAA 2580L Broadway Dance Styles 1 2 Credits
Grading Scheme: Letter Grade
By focusing on the mid-20th century through approximately the year 2000, learn original Broadway and other musical theatre choreography that continue to shape the landscape of dance today, as well as develop the rigorous work ethic necessary for a career in the professional entertainment industry.

DAA 2581L Broadway Styles 2 2 Credits
Grading Scheme: Letter Grade
Learn original Broadway and other musical theatre choreography by focusing on material from approximately the year 2000 through the present, and help develop the rigorous work ethic necessary for a career in the professional entertainment industry.
Prerequisite: Theatre major or minor or Dance major or minor or instructor approval.

DAA 2610 Dance Composition 1 2 Credits
Grading Scheme: Letter Grade
Introduces improvisation and composition with emphasis on process and movement elements. Solo choreography.
Prerequisite: DAA 2104 or instructor permission.

DAA 2611 Dance Composition 2 2 Credits
Grading Scheme: Letter Grade
Practice and study of basic compositional crafting, emphasizing solo and small group works.
Prerequisite: DAA 2610 or instructor permission.

DAA 2621 Dance Improvisation 2 Credits
Grading Scheme: Letter Grade
Introduces dance improvisation as an art form, a personal practice, and a process for creating choreography through movement exploration, readings, and observations.
Prerequisite: Dance Major.

DAA 2681 Second Year Dance Ensemble 1 Credit
Grading Scheme: Letter Grade
Develops technical range and performance skills through the study and production of dance repertory.

DAA 2710 Somatics 1 2 Credits
Grading Scheme: Letter Grade
Rotating topics feature physical disciplines that support bodily awareness and athletic conditioning.
Prerequisite: Dance majors or minors.

DAA 2711 Somatics 2 2 Credits
Grading Scheme: Letter Grade
Rotating topics feature physical disciplines that supports bodily awareness and athletic conditioning.
Prerequisite: Dance Majors or Minors.

DAA 2800 Friday Movement Practice 0 Credits
Grading Scheme: S/U
Friday Movement Practice is a weekly meeting in which Dance majors gather to dance together, led by a rotating roster of faculty and guest artists. It is one way in which the School of Theatre + Dance seeks to engage students in the experience of a broad range of movement methods and approaches, and to provide opportunities for all students to dance in community. Additionally, an important part of professional development is interacting with working artists in the field.
Prerequisite: BFA Dance Major; BA Dance Major, or instructor approval.
Corequisite: Enrolled in at least one movement practice class, including Contemporary Ballet Practices (I-IV), Contemporary African and African Diaspora Dance Practices (I-IV), and/or Contemporary Dance Practices (I-IV).

DAA 3108 Contemporary Dance Practices 3 2 Credits
Grading Scheme: Letter Grade
Experience in intermediate level technique, readings, observations and movement exploration exercises.
Prerequisite: audition.

DAA 3208 Contemporary Ballet Practices 3 2 Credits
Grading Scheme: Letter Grade
Intermediate ballet technique with discussion of terminology and theory.
Prerequisite: audition.

DAA 3224 Pointe 1 Credit
Grading Scheme: Letter Grade
Instruction in pointe technique with the study of variations from classical ballet repertory.
Prerequisite: DAA 3208 or higher, and faculty permission.

DAA 3343 Contemporary African & African Diasporic Dance Practices 3 2 Credits
Grading Scheme: Letter Grade
A performance-based course aimed at developing the understanding of various styles of dance within the African African Diasporic realms as a movement practice and an art form.
Prerequisite: Dance Major or Minor.

DAA 3508 Intermediate Jazz 2 Credits
Grading Scheme: Letter Grade
Intermediate level classes in jazz combining technique, style and movement skills.
Prerequisite: audition.

DAA 3524L Tap 2 2 Credits
Grading Scheme: Letter Grade
For those who already have an established tap foundation and explores faster and more complex tap material. Although geared toward students pursuing a career in musical theatre, all interested in tap are welcome.
Prerequisite: DAA 2520L or instructor approval .

DAA 3614 Dance Composition 3 2 Credits
Grading Scheme: Letter Grade
Practice and study in choreography with focus on various compositional styles, both traditional and nontraditional.
Prerequisite: DAA 2611 or instructor permission.

DAA 3615 Dance Composition 4 2 Credits
Grading Scheme: Letter Grade
Practice and study in choreography of group works, including theory and aesthetics.
Prerequisite: DAA 3614 or instructor permission.

DAA 4110 Contemporary Dance Practices 4 2 Credits
Grading Scheme: Letter Grade
Advanced level techniques, readings, observation, informal performance and movement exploration exercises.
Prerequisite: DAA 3108.

DAA 4210 Contemporary Ballet Practices 4 2 Credits
Grading Scheme: Letter Grade
Advanced ballet technique with discussion of terminology and style.
Prerequisite: DAA 3208

DAA 4344 Contemporary African & African Diasporic Dance Practices 4 2 Credits
Grading Scheme: Letter Grade
Develops the understanding of various styles of dance within the African and African Diasporic realms as a movement practice and an art form; performance based.
Prerequisite: DAA3343 or Dance Major.

DAA 4685 Dance Ensemble 1 Credit
Grading Scheme: Letter Grade
Experience in dance ensemble: preparation, performance and production.
Prerequisite: audition.

DAA 4755 Pilates Technique for the Dancer 1-3 Credits
Grading Scheme: Letter Grade
Systematic achievement of strength, tone, flexibility and posture for optimal physical performance in dance. May be repeated with a change of content up to six credits.
Corequisite: junior or senior level dance major or instructor permission.

DAA 4920 Summer Dance Intensive 1-6 Credits
Grading Scheme: Letter Grade
An intensive workshop including technique (ballet, jazz, modern, multicultural), improvisation, composition, repertory, production work and culminating in performance.
Prerequisite: audition.

DAA 4930 Special Topics in Dance 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or studio sessions covering selected topics of current interest in dance.
Prerequisite: instructor permission.

DAE 4300 Dance Teaching Methods 3 Credits
Grading Scheme: Letter Grade
Methods and skills for teaching in ballet, modern and jazz, including theory and practice.
Prerequisite: junior or senior level dance major/minor and instructor permission.

DAN 1391 Dance, Race, Gender 3 Credits
Grading Scheme: Letter Grade
From ballet to Beyoncé, explores how dance and social identities, such as race and gender, impact each other. Explore social, concert, and popular dance in the US and select global contexts in a seminar-style course with occasional movement workshops. No dance experience is required.
Prerequisite: Restricted to degree-seeking undergraduate students.
Attributes: Quest 1

DAN 1392 Future of the Dancing Body 3 Credits
Grading Scheme: Letter Grade
Explore how dance reflects and challenges identities and global issues. This course examines movement's role in aesthetics, culture, and resistance, focusing on African perspectives and future possibilities. Through movement and media projects, students will envision the future of dance, engaging with diverse creators and ideas. No prior experience required.
Attributes: Quest 1

DAN 1401C Body, Self, World: Movement through Lived Experience 3 Credits
Grading Scheme: Letter Grade
This course offers students the opportunity to transform thoughts into movement expression. Students will engage in movement-based experiences through a series of labs. Weekly discussions allow for discoveries about the mind-body connection through readings about phenomenology and somatic practices, including how these are applied to styles and concepts from the Western canon.
Prerequisite: Restricted to undergraduate degree-seeking students
Attributes: Quest 1, General Education - Humanities

DAN 2100 Dance Appreciation 3 Credits
Grading Scheme: Letter Grade
This course surveys the development of dance as an art form within human culture. The course focuses on seminal dance works, including the Western canon, while cultivating an understanding of dance's historical, artistic, and cultural significance. Students explore major periods of dance history, choreographic masterworks, current dance trends, and influential choreographers and performers, all through readings, discussions, media presentations, live performances, and accessible movement laboratories. No prior dance experience is required.
Attributes: General Education - Humanities, General Education - International

DAN 2390 Global Dance Perspectives 3 Credits
Grading Scheme: Letter Grade
What does it mean to dance “locally” in a global world, whether onstage, on screens, in the streets, or at the club? Activities combine readings, viewings (live and documented performance), and embodied experiences with written and performance-based assignments.
Prerequisite: Dance Major or dance minors or BFA Theatre Production Major.

DAN 2422 Dance & Digital Media 3 Credits
Grading Scheme: Letter Grade
Introduces the principles of visual design composition; focuses on identifying end-users’ needs and providing solutions tailored to those needs through planning, capture of media, format of content, and the application of visual technology in performance.
Prerequisite: Dance major.

DAN 2701 Dance Kinesiology 3 Credits
Grading Scheme: Letter Grade
Introduces musculoskeletal anatomy through the lens of kinesiology: “the branch of physiology that studies the mechanics and anatomy in relation to human movement,” principally dance movement.
Prerequisite: Dance major.

DAN 2930 First Year Seminar 1 Credit
Grading Scheme: Letter Grade
Provides first-year students with resources, information, and experiences to support and enrich their participation in dance in a university environment. Enrichment activities, discussions, and research opportunities explore resources and options for dance at UF.

DAN 3614 Music for Dance 2 Credits
Grading Scheme: Letter Grade
Introduces the fundamental elements of music most closely connected to the practice of dance. Study music theory, music terminology, aural training, singing, rhythm, music embodiment, improvisation, music history, and compositional approaches.
Prerequisite: instructor permission.

DAN 3775 Dance in Medicine 3 Credits
Grading Scheme: Letter Grade
This experiential course explores the links between the creative and the healing arts, focusing on the many ways that dance and movement can be used to enhance the healing process. It includes lecture/discussion, student workshops in dance and the other arts and laboratory experiences (3 hours/week for 2 credits, 6 hours/week for 3 credits) with Shands Hospital's Arts in Medicine program. This course is appropriate for students of the arts and/or of health related fields who are willing to access their creative potentials.
Prerequisite: instructor permission.

DAN 4124 Dance History 3 Credits
Grading Scheme: Letter Grade
Survey of the historical development of dance with reference to social contexts, periods and culture. (N)
Prerequisite: DAN 2100 with minimum grade of C or dance major/minor.
Attributes: General Education - International

DAN 4180 Professional Development for Dance 1 Credit
Grading Scheme: Letter Grade
Addresses crucial professional issues in dance. Student knowledge of technique, professional resources and networking, dance research, current events and professional presentation with experiences to prepare major for graduation into a career in dance.
Prerequisite: dance major.

DAN 4434 Laban Move Analysis 3 Credits
Grading Scheme: Letter Grade
Prerequisite: DAA 2105 or DAA 2205 or DAA 2342.

DAN 4503 Dance Production 1 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.
Prerequisite: Sophomore standing or higher.

DAN 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
A reading, research, practical or creative project in an area of dance.
Prerequisite: instructor permission.

DAN 4912 Senior Dance Project 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.
Prerequisite: dance major and instructor permission.

DAN 4959 Senior Project 1-4 Credits
Grading Scheme: Letter Grade
A publicly presented project representing the culmination of the student's university experience and demonstrating a high level of competence in dance performance, choreography or production.
Prerequisite: instructor permission.

HUM 3599 Applied Theater for Health: Theory & Practice 3 Credits
Grading Scheme: Letter Grade
Immersion in the world of applied theatre for health education, community development, and social change. Develop an understanding of how theatre can be a catalyst for discussion, change, and health promotion by investigating the work of revolutionary artists, as well as contemporary applied theatre practitioners.
Prerequisite: Sophomore standing or higher.

MVV 4341 Applied Voice for Theatre 2 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.
Prerequisite: MVV 3331.

ORI 2000 Oral Performance of Literature 1 3 Credits
Grading Scheme: Letter Grade
Discover the power of your speaking voice, a vital element of your personal and professional identity. Your vocal demeanor is a key tool for influencing others. While public speaking and communication courses are common, few focus on the technical aspects of voice that enable free, authentic, and powerful self-expression. Skills learned throughout the semester are applied to poetry, speeches, monologues, including selections from the Western canon.
Attributes: General Education - Composition

THE 1431 Autobiographical Literature & Performance 3 Credits
Grading Scheme: Letter Grade
Explores how modern and contemporary American artists and writers utilize self-examination as the basis for artistic creation. Often merging the factual with the theatrical or dramatic, autobiographical performance and literature personalizes the values, incidents and relationships that shape human experience and give life meaning.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

THE 2000 Theatre Appreciation 3 Credits
Grading Scheme: Letter Grade
In this course, students will explore dramatic structure, techniques, and various organizational elements. The course provides an introduction to theatre as a collaborative art form through the critical analysis of its historical context, production, theory, and connections to theatrical literature, including the Western canon.
Attributes: General Education - Humanities

THE 2001 American Musical Theatre History 3 Credits
Grading Scheme: Letter Grade
This course approaches American Musical Theatre through lenses of identity and representation reflecting current discourse around the art form. Participants will investigate the ways in which culture and community have been represented on stage through music, choreography, acting, directing, and design over a century of performance. Special attention will be paid to the ways in which American Musical Theatre has reiterated, resisted or transformed harmful stereotypes.

THE 3173 Contemporary European Theatre 3 Credits
Grading Scheme: Letter Grade
Introduces the theatre scene in present-day Western and Eastern Europe with emphasis on UK, France, Germany. Readings and discussions of dramatic literature and criticism.
Prerequisite: THE 2000 or (BFA Performance major & sophomore standing or higher).

THE 3231 African American Theatre History and Practice 3 Credits
Grading Scheme: Letter Grade
Examines origins and development of theatre by, for, and about Black Americans
Prerequisite: THE 2000 or (BFA Performance major & sophomore standing or higher).

THE 3234 Diversity and Multiculturalism in American Theatre 3 Credits
Grading Scheme: Letter Grade
Development of images of marginalized peoples as presented in the American Theatre from Colonial period to the present.
Prerequisite: THE 2000 or (BFA Performance major & sophomore standing or higher).

THE 4110 History of Theatre on Stage 1 3 Credits
Grading Scheme: Letter Grade
Surveys the history of dramatic literature and stage performance from Greek and Roman times to the Restoration, including Japan and India. Concentrating on plays, theatrical spaces and performance practices of each era in the context of social and artistic movements. (N)
Prerequisite: THE 2000 or (BFA Performance major & sophomore standing or higher).
Attributes: General Education - International

THE 4111 History of Theatre on Stage 2 3 Credits
Grading Scheme: Letter Grade
Continues the survey of THE 4110 from the 18th century to the present, with featured segments on African and contemporary world theatre. Particular emphasis on the 19th century and the emergence of modernist movements: realism, expressionism, Artaud, Brecht. (N)
Prerequisite: THE 2000 or (BFA Performance major & sophomore standing or higher).
Attributes: General Education - International

THE 4223 Latin American and US Latinx Theatre 3 Credits
Grading Scheme: Letter Grade
Theatre created by Latin American and US Latinx playwrights and performers has served as a vehicle for both artistic expression and social and political change. Organized geographically, this course considers themes and trends in Latin American and US Latinx Theatre in light of issues such as hybridized identities, language, immigration, oppression and generational conflict. Representative works by Latin American and US Latinx playwrights will be examined.
Prerequisite: THE 2000 or (BFA Performance major & sophomore standing or higher).

THE 4260 Historic Costume for the Stage 3 Credits
Grading Scheme: Letter Grade
Examines the costume timeline, its relationship to the general climate of the era, and its application by theatrical designers.
Prerequisite: Sophomore standing or higher.

THE 4281 Cognizant Design Theory 3 Credits
Grading Scheme: Letter Grade
Focusing on the intersection of historical, social, and cultural awareness and theatrical design, students will investigate critical social movements in design while examining the impact design choice has on the individual and society. Cognizant Design Theory challenges conventional thinking regarding the nature of design and creativity, empowering meaningful representations of cultures and peoples in theatrical design practice.
Prerequisite: School of Theatre + Dance major or minor and junior status or higher.

THE 4285 History of Decor and Architecture for the Stage 3 Credits
Grading Scheme: Letter Grade
Studies architecture and decor from prehistoric time to the 19th century as they reflect time and spirit in preparation for play production.
Prerequisite: Sophomore standing or higher.

THE 4481 Production Dramaturgy 3 Credits
Grading Scheme: Letter Grade
Introduces the field and concepts of production dramaturgy. Includes script analysis, text editing, research, adaptation, new play development, season selection and programs. Students complete a production protocol.
Prerequisite: THE 2000 or (BFA Performance major & sophomore standing or higher).

THE 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
A reading, research or performance project.
Prerequisite: instructor permission.

THE 4930 Special Topics in Theatre 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or studio sessions covering selected topics of current interest in theatre.
Prerequisite: instructor permission.

THE 4945 Summer Repertory Theatre 3-9 Credits
Grading Scheme: Letter Grade
Practical experience in repertory theatre with direct skills application in all areas of theatre production.
Prerequisite: instructor permission.

THE 4950 Production Workshop 1 Credit
Grading Scheme: Letter Grade
Participation in the production program of the curriculum with work in preparation and performance. Focus on area of specialization.
Prerequisite: Theatre or Dance major or minor.

THE 4959 Senior Project 1-4 Credits
Grading Scheme: Letter Grade
Final project presented in public performance demonstrating expertise in declared area of specialization.
Prerequisite: BFA majors and instructor permission.

THE 4970 Senior Project 1 Credit
Grading Scheme: Letter Grade
Senior project for Bachelor of Arts theatre majors. Completion of a research project and/or preparation of a dramaturgical project to be undertaken with advisor's consent in the final semester.
Prerequisite: BFA majors and instructor permission.

TPA 1012 Introduction to Live Entertainment Design and Production 3 Credits
Grading Scheme: Letter Grade
Creating live performance onstage, backstage, and offstage defines the collaborative art of the School of Theatre and Dance (SoTD). This course serves as an introduction to the environment of production within the school while broadening the student’s understanding of the larger ecosystem of the industry. Cirque du Soleil to the Hippodrome Theatre live performance is defined by the engagement of the collective; this course breaks down, explains, and promotes understanding across all areas.

TPA 2074 Drawing and Rendering 3 Credits
Grading Scheme: Letter Grade
Drawing and painting techniques unique to the theatre. Emphasis on portfolio development and media experimentation: watercolor, markers, charcoal and acrylics.

TPA 2075 Scene Painting 3 Credits
Grading Scheme: Letter Grade
Utilization of advanced and experimental techniques unique to theatre graphics; exploration of various media for 3-dimensional representation in scene and design and model building.
Prerequisite: TPA 2074.

TPA 2120C Beginning Makeup 1 Credit
Grading Scheme: Letter Grade
Introduces the skill and artistry of theatrical makeup.
Prerequisite: Theatre or Dance major or minor.

TPA 2202C Stagecraft 4 Credits
Grading Scheme: Letter Grade
Introduces skills and craft of technical theatre. Includes knowledge of materials, techniques, tools, and supplies basic to the execution of environment; requires additional laboratory hours.
Prerequisite: Theatre or Dance major or minor.

TPA 2232C Beginning Costume 3 Credits
Grading Scheme: Letter Grade
Introduces skills and craft of costume design and execution. Knowledge of materials, techniques, and tools basic to revelation of character.
Prerequisite: Theatre or Dance major or minor or Theatre Production minor.

TPA 3174 Digital Production for Performance 3 Credits
Grading Scheme: Letter Grade
The course divides itself into four core modules of student participation to scaffold learning through the semester. Part 01 is a focus on research and project development, Part 02 transitions into the tools of Content Creation. Part 03 continues to build on the earlier parts with a development in creation with Camera tools and System Integration. Part 04 is a focus on synthesis, programming for presentation and playback of content for an audience.
Prerequisite: TPA 3263C or TPA 3227C.

TPA 3208 Drawing/Drafting for the Stage 3 Credits
Grading Scheme: Letter Grade
Techniques and basic principles of drafting as applied to stage design: lights and sets.
Prerequisite: (TPA 2202C or TPA 2232C) and Theatre major or minor.

TPA 3217 Introduction to Lighting and Sound 4 Credits
Grading Scheme: Letter Grade
Introduces electricity and technical skills basic to lighting and sound technology.

TPA 3227C Practical Stage Lighting 4 Credits
Grading Scheme: Letter Grade
Fundamentals of stage lighting for live events, CAD schematic drawing, lighting fixtures, digital controls and technical methods and practices.
Prerequisite: TPA 2202C with minimum grade of C.

TPA 3238 Costume Technology I 3 Credits
Grading Scheme: Letter Grade
Focuses on intermediate level pattern drafting, fitting, alteration, and construction techniques for costumes. Rotating topics include Tailoring I and Draping I.
Prerequisite: TPA 1012 and THE 4950 with minimum grades of C and School of Theatre + Dance major/minor.

TPA 3263 Introduction to Sound Design and Technology 3 Credits
Grading Scheme: Letter Grade
This course introduces the students to the basics in sound design and technology. Students will work on projects about design elements and design process. Students will also work in the electric shop and/or productions assignments.
Prerequisite: TPA 1012 or Dance major.

TPA 3504 Arts Administration 3 Credits
Grading Scheme: Letter Grade
Introduces the practical skills required for the successful management of arts organizations. Areas covered include community and civic engagement in the arts, budgeting, marketing, fundraising, audience development, contracts, board governance, and issues associated with the founding of a nonprofit organization.
Prerequisite: THE 2000 or (BFA Performance major & sophomore standing or higher).

TPA 4020 Lighting Design 3 Credits
Grading Scheme: Letter Grade
Lighting aesthetics, design, and control; application of principles of design to lighting in the theatre.
Prerequisite: TPA 3217 or TPA 3227C.

TPA 4021 Lighting Design 2 3 Credits
Grading Scheme: Letter Grade
Advanced lighting design with focus on automation programming and presentation techniques.
Prerequisite: TPA 4020.

TPA 4049 Costume Design 3 Credits
Grading Scheme: Letter Grade
Application of fundamentals of costume design to various genres of dramatic literature.
Prerequisite: TPA 2074.

TPA 4066 Scene Design 3 Credits
Grading Scheme: Letter Grade
Studies the basic processes and functions of scenic design within theatrical production. Development of the ability to create spaces based on scripts and choreography.
Prerequisite: TPA 2074.

TPA 4076 Advanced Theatre Graphics 3 Credits
Grading Scheme: Letter Grade
Specialized study in scene painting with focus on professional studio work and union examination.
Prerequisite: TPA 2074 and TPA 3208.

TPA 4171C Show Control Systems for Live Performance 3 Credits
Grading Scheme: Letter Grade
Students investigate advanced techniques and practices to design custom entertainment control systems and show networks for live performance. Through hands-on, project based work, students program computer-based systems for interactive lighting, sound, machinery, video and other control systems for live performances, interactive installations, theme parks, museum exhibits and other hybrid entertainment forms. Isadora, TouchDesigner, Unity, Medialon and other realtime performance interfaces.
Prerequisite: TPA 1012.

TPA 4178C AI, Data and the Performing Body 3 Credits
Grading Scheme: Letter Grade
This course challenges students to deconstruct and reimagine how emerging technology can be used to expand the language of performance. We'll explore technosomatic, multisensorial experiences. Students will experiment with motion capture, wearable sensors, depth cameras, virtual augmented reality, artificial intelligence, machine learning and theatrical control systems using game engines and other realtime interactive environments. The course is a mix of theory and practice.
Prerequisite: TPA 3174 Digital Production for Performance (for design & production), DAN 2422 Dance & Digital Media (for dance majors), TPA 2202C Stagecraft (for theatre majors).

TPA 4179C Motion Capture & Mixed Reality 3 Credits
Grading Scheme: Letter Grade
This course covers the pipeline for face and body tracking in both recorded and live motion capture coupled with machine learning techniques for retargeting avatars and triggering environmental cues in game engines to create virtual, augmented and mixed reality experiences for live performance. Students employ motion capture suits, 3D modeling software and machine learning libraries to control game engines, projection mapping software and show control systems.
Prerequisite: TPA 1012.

TPA 4206 Advanced Crafts for the Stage 3 Credits
Grading Scheme: Letter Grade
Emphasizes advanced materials construction for the designer/technician in scenic design and technical direction.
Prerequisite: TPA 2202C and (TPA 2232C or TPA 4049).

TPA 4239 Costume Technology II 3 Credits
Grading Scheme: Letter Grade
Focuses on advanced level pattern drafting, fitting, alteration, and construction techniques for costumes. Rotating topics include Tailoring II and Draping II.
Prerequisite: TPA 3238 with a minimum grade of C and School of Theatre + Dance major/minor.

TPA 4240 Costume Patterning: Draping 3 Credits
Grading Scheme: Letter Grade
Utilizes draping techniques to create garments.
Prerequisite: TPA 2232C and TPA 4239 and Theatre Production major or minor.

TPA 4262 Sound Design 3 Credits
Grading Scheme: Letter Grade
Guides students through the exploration of the functions of sound and music, the evolutionary origin of theater, and how a sound designer/composer can take advantage of this knowledge in their work. This course closely follows the textbook. Details of the projects can be found in the textbook.
Prerequisite: TPA 3263C with minimum grade of C.

TPA 4264 Sound Design 2 3 Credits
Grading Scheme: Letter Grade
This course introduces the students to the operations in different aspects of audio production. Students will learn to use a digital audio workstation (Digital Performer 9) through lectures, exercises and projects.
Prerequisite: TPA 4262 with minimum grade of C and TPA 3263C with minimum grade of C.

TPA 4266 Advanced Sound Design 3 Credits
Grading Scheme: Letter Grade
In depth investigation of one rotating topic: Audio Drama, Music Composition for Theatre, Audio for Video, Music Production, or Musical Theatre Mixing. Additional topics are possible based on need and interest.
Prerequisite: TPA 4264.

TPA 4352 Digital Design for Theatre and Dance 3 Credits
Grading Scheme: Letter Grade
Lectures and hands-on labs with emphasis on technologically innovative uses of media. Students attain a performing arts foundation of the history and intersections of live performance with projection, film, video, art and interactive sound design through experimentation with current media tools.
Prerequisite: TPA 3217 or instructor permission.

TPA 4443C Immersive, Participatory Live Performance 3 Credits
Grading Scheme: Letter Grade
Devise experimental live performances for unconventional places such as escape rooms, immersive theatre, transmedia storytelling across the web and mobile devices, mixed reality, telematic performances, and experiential entertainment. Interrogate how digital technologies inform hybrid practices in contemporary performance and invent new relationships between technology, performers, and the audience.
Prerequisite: THE 2000 and TPA 2202C and TPA 1012.

TPA 4505 Commercial Theatre Industry 3 Credits
Grading Scheme: Letter Grade
Provides an overview of the theatre as an industry in America today. Major topics include Broadway, Off Broadway, project development from both creative and business management aspects, touring, and other types of theatre ventures.
Prerequisite: TPA 3504 or TPP 2220.

TPA 4520 Theatrical Producing 3 Credits
Grading Scheme: Letter Grade
An examination of commercial theatrical producing, focusing on current developments and trends on Broadway, Off-Broadway and in Broadway touring. Analysis of case studies featuring guest speakers from leadership positions in Broadway management, production, and artistic roles. Participation in a field study of a national touring production.
Prerequisite: TPA 3504.

TPA 4521 Producing for Regional Theatre 3 Credits
Grading Scheme: Letter Grade
Examines nonprofit regional theater in the United States by focusing on marketing, creative marketing strategies, maximizing earned revenues through dynamic subscription ticket sales, advertising and public relations, grant writing, and successful fundraising from individual, corporate, foundation, and government sources.
Prerequisite: TPA 3504.

TPA 4522C New York Theater Management Intensive 2 Credits
Grading Scheme: Letter Grade
Intensive engagement with organizational leaders in theater management in NYC. Small group or individual meetings on select topics relevant to the current theater season students' research interests. Intensive includes tours, attendance at Broadway and Off-Broadway productions, meeting with industry professionals.
Prerequisite: TPA 3504.

TPA 4601 Stage Management 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and techniques of stage management, explores practical application, and examines topics specific to the work of a stage manager.
Prerequisite: TPA 1012

TPA 4930 Special Topics in Theatre Production 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar, or studio sessions covering selected topics of current interest in theatre production.
Prerequisite: Sophomore standing or higher.

TPA 4931 Advanced Stage Management Seminar 1 Credit
Grading Scheme: Letter Grade
This seminar serves as a forum for peer sharing and problem solving on current production assignments. Rotating topics are specific to the stage management profession and industry trends.
Prerequisite: TPA 4601 with minimum grade of C.

TPA 4933C Lighting Specialties: Rotating Topic 3 Credits
Grading Scheme: Letter Grade
This course investigates, in depth, one of the following rotating topics. Façade lighting, dance lighting, lighting control/programming, basic architectural lighting, museum and gallery lighting, themed entertainment lighting, retail and interior lighting, light and health, advanced lighting design rendering. Additional topics are possible based on the need and interests of the students.
Prerequisite: TPA 4020.

TPA 4940 Internship in Theatre Design or Production 1-9 Credits
Grading Scheme: S/U
Work with a professional theatre, dance, ballet, opera company, or other approved professional situation.
Prerequisite: BFA Theatre Production major and junior standing or higher.

TPA 4946 Production Practicum 1-3 Credits
Grading Scheme: Letter Grade
Production experience in the design or execution of department productions.
Prerequisite: TPA 1012 or BA Theatre (Stage Management) Major.

TPP 2100 Acting for Non-Majors 3 Credits
Grading Scheme: Letter Grade
The discipline and the creative process of acting, including formal and improvisational techniques for developing vocal, physical and analytical skills applicable to a variety of theatre styles, including those from the Western canon. (H)
Attributes: General Education - Humanities

TPP 2110 Acting 1: Instrument and Discipline 2 Credits
Grading Scheme: Letter Grade
Introduces the craft of acting through basic physical, vocal and analytical concepts, methods, vocabulary, and discipline. Also explores the creative process through exercises in observation and awareness.
Prerequisite: Theatre or Dance major.

TPP 2110L Professional Development Seminar 1 1 Credit
Grading Scheme: Letter Grade
Lab to be taken concurrently with Acting I, and serves as a forum for discussion, master classes, and guest lectures from faculty, staff, and industry professionals. Develop skills to address the emotional, physical, and psychological demands of being a professional actor.
Prerequisite: School of Theatre + Dance major.
Corequisite: TPP 2110.

TPP 2220 Musical Theatre Auditions and Business Management 1 Credit
Grading Scheme: Letter Grade
Focuses on developing the student's ability to connect and combine managerial, economic and business-related skills necessary for a career in Musical Theatre in the 21st century. The course covers information regarding auditions/auditioning, agents/managers, unions, marketing strategies, publicity, networking, finances, time management.
Prerequisite: BFA Theatre Performance (Musical Theatre).

TPP 2250 Musical Theatre Workshop 1 Credit
Grading Scheme: Letter Grade
Preparation and performance in song and dance ensemble in musical revues and cabaret; development of style, interpretation and flexibility.
Prerequisite: instructor permission; open to music theatre students; audition required.

TPP 2260 Acting for the Camera 3 Credits
Grading Scheme: Letter Grade
Principles and techniques of various performance methods in acting for television and motion pictures.
Prerequisite: TPP 3103.

TPP 2282 Movement Training for the Actor 1 3 Credits
Grading Scheme: Letter Grade
Emphasizes physical preparation and character development through movement. Focusing on the preparation of the body, this course aids the actor's approach to performance.
Prerequisite: TPP 2110 and theatre major.

TPP 2570 Somatics for the Actor I 2 Credits
Grading Scheme: Letter Grade
Introduction to psychophysical processes that offers actors an alternative way of thinking about character embodiment beginning with basic physical awareness and the exploration of self. Somatics, from the Greek word for the living body, soma, is the study of the body experienced from within. Conditioning the evolving actor as an artist is a mind/body exercise: strength, balance, flexibility, alignment, and imagery come together as a balanced whole.
Prerequisite: BA Theatre major or BFA Theatre Performance major.

TPP 3103 Acting 2: Analysis and Application 2 Credits
Grading Scheme: Letter Grade
Experimentation with scripted material: scene study, analysis, audition and performance.
Prerequisite: TPP 2110 with a minimum grade of C and Theatre or Theatre Performance major.

TPP 3103L Professional Development Lab 2 1 Credit
Grading Scheme: Letter Grade
Serves as a forum for performance laboratory, discussion, master classes, and guest lectures from faculty, staff, and industry professionals. To be taken concurrently with Acting 2.
Prerequisite: TPP 2110 with a grade of C or better.
Corequisite: TPP 3103.

TPP 3113 Acting 3 3 Credits
Grading Scheme: Letter Grade
Emphasizes versatility and expanding the repertory of roles through physical, vocal and psychological transformation.
Prerequisite: TPP 3103 with a minimum grade of C and Theatre major.

TPP 3124 Beginning Improvisation 2 Credits
Grading Scheme: Letter Grade
The fundamentals of improvisation; learn performance techniques concerning conceptual agreement, character creation, team building, and active listening in order to create intelligent and honest scenework.
Prerequisite: Sophomore standing or higher.

TPP 3142 Acting 3/2 3 Credits
Grading Scheme: Letter Grade
Continuation of the third level acting course with emphasis on beginning the development of the professional actor's knowledge of theatre repertoire.
Prerequisite: TPP 3113.

TPP 3165 Voice and Movement 3/2 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only.
Prerequisite: TPP 3164.

TPP 3240 Solo Performance 2 Credits
Grading Scheme: Letter Grade
Focuses on crafting a one-person show. Through movement, acting and writing exercises, playwriting, discussion, and sharing of material students are introduced to a process of generating and crafting a play for a solo performer.
Prerequisite: TPP 3124 and TPP 3103 with minimum grades of C.

TPP 3251 Fundamentals of Music Theatre Acting 3 Credits
Grading Scheme: Letter Grade
Acting techniques, character research, and audition strategies as applied to musical theatre material.
Prerequisite: TPP 3103 with a minimum grade of C and Theatre Performance major.

TPP 3252 20th Century Musical Theatre 2 Credits
Grading Scheme: Letter Grade
Analysis and preparation of roles from music theatre genres of the 20th century. Exploration of vocal styles and staging.
Prerequisite: TPP 3251 with a minimum grade of C and Theatre major.

TPP 3253 21st Century Musical Theatre 2 Credits
Grading Scheme: Letter Grade
Analysis and performance of the 21st century musical theatre canon by examining styles, repertoire and context. Also examines vocal skills, choreography techniques, and audition techniques.
Prerequisite: TPP 3252 with a minimum grade of C and Theatre major.

TPP 3283 Movement Training for the Actor 2 3 Credits
Grading Scheme: Letter Grade
Character development through movement analyses; exploration of the physical demands pf performance; practical applications of movement vocabulary to aid the actor's search for believability.
Prerequisite: TPP 2282 with a minimum grade of C and Theatre major.

TPP 3290 Introduction to the Alexander Technique 3 Credits
Grading Scheme: Letter Grade
Introduces the Alexander Technique (AT); a mind-body approach to the use of self as applied to acting.
Prerequisite: Theatre major or instructor permission.

TPP 3311 Directing 3 Credits
Grading Scheme: Letter Grade
Practical application of theoretical concepts of directing applied to scene study.
Prerequisite: refer to the department.

TPP 3402 Devising Theatre 2 Credits
Grading Scheme: Letter Grade
Introduction to devised theatre, which is the process of theatre creation in a collaborative manner. Explores the collaborative process of original work created by a group of artists who in many instances are also the performers. Exposes a variety of processes in ensemble theatre-making, including adaptation, group-writing, found text, improvisation, working with counterpoint, and creating solo performance, as well as methods of offering criticism.
Prerequisite: TPP 3124 and TPP 3103 with minimum grades of C.

TPP 3571 Somatic Acting for the Actor II 2 Credits
Grading Scheme: Letter Grade
A continuation of Somatics for the Actor I with an emphasis on an application of somatic studies as applied to character work. Topics may include methods such as Feldenkrais Movement Through Awareness, The Lucid Body, the Franklin Method, Mindful Movement Exercises, or others.
Prerequisite: TPP 2570.

TPP 3650 Script Analysis 3 Credits
Grading Scheme: Letter Grade
Formalist approach to teach the skills of script analysis for actors, directors, and designers.
Prerequisite: (THE 2000 & Theatre Major) or BFA Performance major.

TPP 4114 Acting 4 3 Credits
Grading Scheme: Letter Grade
Continuation of Acting series, TPP 3103 / 3113 / 4114.
Prerequisite: TPP 3113 with a minimum grade of C and Theatre major.

TPP 4123 Advanced Improvisation 2 Credits
Grading Scheme: Letter Grade
A seminar in performing continuous improvised pieces; students learn to recognize, play, and heighten the "game of the scene" in a number of long-form structures.
Prerequisite: Student must be in THE_BA, THF_BFA or THE_UMN academic plan.

TPP 4140 Acting 5: Shakespeare 3 Credits
Grading Scheme: Letter Grade
Experimentation and experience with classical literature: analysis and performance.
Prerequisite: TPP 4114 with a minimum grade of C and Theatre major.

TPP 4144 Acting Style: 18th Century to Post Modernism 3 Credits
Grading Scheme: Letter Grade
Experimentation and experience with the stylistic techniques, analysis, and performance of plays from the 18th century to Post-Modernism.
Prerequisite: TPP 4140 with a minimum grade of C and Theatre major.

TPP 4221 Strategies for the Career Actor 2 Credits
Grading Scheme: Letter Grade
For those with serious intent on pursuing professional careers in the field. Explores the primary facets of the business of being an actor in the context of a major entertainment market including (but not limited to) relevant philosophical aspects, marketing and promotion, professional representation, auditioning and the development of an effective practical skill set to procure and secure employment and sustain a lifelong career in the industry.
Prerequisite: TPP 3103 and Theatre major.

TPP 4236 BFA Actor Senior Workshop 3 Credits
Grading Scheme: Letter Grade
Capstone course for all BFA Acting students. Student actors study, experiment and produce in laboratory.
Prerequisite: TPP 2260 and TPP 3113 and TPP 4114 and TPP 4140 and BFA Theatre Performance: Acting major. To be taken in final year of study.

TPP 4265 Acting for the Camera 3 Credits
Grading Scheme: Letter Grade
Principles and techniques of various performance methods in acting for television and motion pictures.
Prerequisite: TPP 2110.

TPP 4287 Voice for the Actor 3 Credits
Grading Scheme: Letter Grade
Recover and free the voice and integrate the body, mind, and emotions of the actor in finding clear and honest expression in performance.

TPP 4288 Speech for the Actor 3 Credits
Grading Scheme: Letter Grade
Continuation of TPP 4287, emphasizing speech training for the actor. Study speech anatomy and physiology and move to a very full overview of phonetics based on a linguistic model and apply this knowledge to acting.
Prerequisite: TPP 4287 with a minimum grade of C and Theatre major.

TPP 4291 Alexander Technique and the Actor 3 Credits
Grading Scheme: Letter Grade
Studies the Alexander Technique (AT) principles in greater depth and applying those principles to acting challenges. This course provides experimental integration of the AT principles in experiential anatomy, selected acting/performance techniques, voice and movement.
Prerequisite: TPP 3290.

TPP 4401 Comedy Practice 2 Credits
Grading Scheme: Letter Grade
Learn to find your comic voice through the creation and performance of late night joke writing, standup, and sketch comedy.
Prerequisite: THE_BA or THE_BFA or THE_UMN.

TPP 4531 Stage Combat: Unarmed and Light Weaponry 3 Credits
Grading Scheme: Letter Grade
Introduces stage combat techniques including unarmed, rapier and dagger and/or single sword. Emphasizes safety and control.
Prerequisite: TPP 3113.

TPP 4532 Stage Combat: Theatrical Weapon Styles 3 Credits
Grading Scheme: Letter Grade
Instruction in standard armed stage combat techniques: weapon styles may include broad sword, quarterstaff, knife, small sword, sword and shield, or single sword. Safety is emphasized in the creation of the illusion of armed violence.
Prerequisite: TPP 3133 or instructor permission.
Corequisite: TPP 3113.

TPP 4600 Playwriting Workshop 3 Credits
Grading Scheme: Letter Grade
An introductory workshop in playwriting, culminating in the creation of a complete, one-act play by each student.
Prerequisite: instructor permission.

TPP 4930 Special Topics in Theatre Performance 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or studio sessions covering selected topics of current interest in theatre performance.
Prerequisite: instructor permission.

TPP 4931L Professional Development Seminar 1 Credit
Grading Scheme: Letter Grade
Lab serves as a forum for discussion, master classes, and guest lectures from faculty, staff, and industry professionals. Topics supplement material in acting technique courses.
Prerequisite: BFA Theatre Performance major and (TPP3113 or TPP4114 with a minimum grade of C).

TPP 4940 Internship in Theatre Performance 1-9 Credits
Grading Scheme: S/U
Work with a professional theatre or other approved professional situation.
Prerequisite: Sophomore standing or higher.

TPP 4941 Musical Theatre Practicum 1 Credit
Grading Scheme: Letter Grade
Production experience in the execution of department productions. Participation in the production program of the curriculum with work in preparation and performance of a roles or roles. This course meets regularly during scheduled class sessions and requires attendance at all scheduled rehearsals and performances for the musical.
Prerequisite: Senior in BFA Performance: Musical Theatre.

Tourism, Hospitality and Event Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Tourism, Hospitality and Event Management prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills.

- Tourism, Hospitality and Event Management UF Online

Course

CAP 4792C Data Mining with Social Data 3 Credits
Grading Scheme: Letter Grade
The course is designed as a foundational experience for upper-level undergraduate and graduate students from non-technical fields who want to acquire a basic understanding of data science and learn practical skills in data analysis. This course distinguishes itself by combining theoretical knowledge with practical applications, bridged through extensive Python programming exercises.
Prerequisite: LEI4880 or HFT 4746 or HFT 4442 or HFT 4446C or APK4050 or STA 2023 or QMB 3250 or ADV3500 or ALS 3200C or ISM 3004.

HFT 2491 Robots: Threat or Opportunity 3 Credits
Grading Scheme: Letter Grade
This course tries to answer the following pressing questions: how are robots changing our society, and how can we prepare for a future of robots amongst us? It provides hands-on approach that builds a bridge between the engineering and technical aspects of ai with the business applications with a focus on tourism, hospitality and event management. This course requires no engineering or technical experience. As the course progresses, students will learn the basics of robot and ai technologies, the latest trends and technological advances in tourism, hospitality and event management and how they can be applied to their field. This course is not about becoming a technical expert but rather having a foundational understanding of robotics and ai and how it can be positioned to improve efficiency and effectiveness across different fields, regardless of students' background.
Attributes: Quest 2, General Education - Social Science

HFT 2750 Event Management 3 Credits
Grading Scheme: Letter Grade
An overview of the meetings, conventions, special events and expositions industry.

HFT 3253 Lodging Operations and Management 3 Credits
Grading Scheme: Letter Grade
Provides a realistic managerial examination of each major operating department within a lodging firm.
Prerequisite: Sophomore standing or higher.

HFT 3512 Event Promotion 3 Credits
Grading Scheme: Letter Grade
Advanced course in event promotion and sponsorship acquisition, involving a wide range of subjects relevant to event marketing from both macro (global) and micro (organization) perspectives. The course focuses on the components of development and marketing plans for various venues in the special events sector.
Prerequisite: HFT 2750.

HFT 3806 Food and Beverage Management 3 Credits
Grading Scheme: Letter Grade
Provides a managerial examination of full service food and beverage operations; explores trends and innovations and broad range of subject areas that encompass the food and beverage market and its five main sectors: quick service, casual and fine dining, beverage and bar, institutional, and catering.
Prerequisite: Sophomore standing or higher.

HFT 3834 Entrepreneurship in Tourism, Hospitality and Event Management 3 Credits
Grading Scheme: Letter Grade
Analyzes the entrepreneurial opportunities in tourism, hospitality, recreation, events and sport by examining the process of creating, planning and managing business ventures in these sectors.
Prerequisite: Sophomore standing or higher or department permission.

HFT 4442 Artificial Intelligence Revolutions and Applications in Tourism, Hospitality, and Events 3 Credits
Grading Scheme: Letter Grade
Foundational examination of the implications of the artificial intelligence revolution in the tourism, hospitality, and event industry. Includes analyses of AI applications in booking, transportation, theme parks, destination and attraction marketing, economic, social, cultural, and environmental impacts, as well as motivators to travel.
Prerequisite: Junior or Senior Standing.
Attributes: Artificial Intelligence

HFT 4446C GIS and Spatial Analysis for Tourism and Social Data 3 Credits
Grading Scheme: Letter Grade
Utilizes the opportunities provided by dynamically developing methods of geographical information systems (GIS) for visualization and geographic analysis of the data. Students will learn basic skills in working with the industry-standard ESRI ArcGIS software and apply their newly acquired knowledge in solving model problems in tourism research, planning, and development.
Prerequisite: Junior standing or higher
Attributes: Artificial Intelligence

HFT 4468 Hospitality Revenue Management 3 Credits
Grading Scheme: Letter Grade
Provides an applied understanding of the strategies and tactics used in hospitality revenue management. Addresses fundamental principles and concepts of revenue management, including capacity management, duration control, demand and revenue forecasting, discounting, overbooking practices, displacement analysis, rate management and sales mix analysis.
Prerequisite: ECO 2013 or ECO 2023.

HFT 4517 Event Venue Sales and Services 3 Credits
Grading Scheme: Letter Grade
Studies the scope and mechanics of event sales and operations from a venue's perspective. Presents the reciprocal relationship between selling and service within the context of tourism, hospitality, and event management marketing practices.
Prerequisite: LEI 3360 or HFT 2750.

HFT 4743 Tourism and Hospitality Marketing 3 Credits
Grading Scheme: Letter Grade
Explores a wide range of subjects relevant to tourism and hospitality marketing from both macro (global) and micro (organization) perspectives.
Prerequisite: LEI 3301 and MAR 3023.

HFT 4746 Smart Cities, Attractions, and Theme Parks 3 Credits
Grading Scheme: Letter Grade
Provides the foundation needed to design smart tourism places. Examines relationships between technology, traveler behavior, and the travel industry. Learn to integrate technology, analytics, marketing, and the design of tourism cities, attractions, and theme parks. Focuses on sustainable/safe/healthy environments with cutting-edge technologies including Artificial Intelligence (AI) and Data Science.
Prerequisite: Junior or Senior Standing.
Attributes: Artificial Intelligence

HFT 4754 Advanced Strategic Event Management 3 Credits
Grading Scheme: Letter Grade
Delves into the strategic aspects of event planning and management to elevate understanding of the complexities involved in planning events on a global scale. Aligned with industry-leading frameworks such as the Event Management Body of Knowledge (EMBOK) model, Meeting and Business Events Competency Standards (MBECS), and Event Management International Competency Standards (EMICS), the curriculum provides the expertise essential for thriving in event industry roles.
Prerequisite: HFT 2750.

HFT 4755 Theme Park and Attraction Management 3 Credits
Grading Scheme: Letter Grade
Provides an in-depth study of the theme park and attraction industry with a focus on management and operations. Specifically examines park design and development, ride and show operations, special events, retail merchandising, food beverage, and support services that form the basis of contemporary parks.
Prerequisite: LEI 3360.

HLP 4933 Variable International Topics 1-6 Credits
Grading Scheme: Letter Grade
Provides the opportunity to study in a wide range of cultural settings.

LEI 2090 Career Preparation in THEM 1 Credit
Grading Scheme: Letter Grade
Introduction which provides students the skills, knowledge, and resources to be successful in their degree and future careers. Topics include communication strategies, professional conduct, field experience, and academic opportunities at department, college, and university levels. Practice skills such as self-introduction in a business setting, resume and cover letter writing, and professional brand development using social media.
Prerequisite: TEM_BSTH or EVM_UMN

LEI 2181 Leisure in Contemporary Society 3 Credits
Grading Scheme: Letter Grade
This course examines leisure as a condition of being human, as a cultural mirror and as a social instrument. The course reflects a wide range of literature from a number of academic disciplines.
Attributes: General Education - Social Science

LEI 3301 Principles of Travel and Tourism 3 Credits
Grading Scheme: Letter Grade
Overview of the travel and tourism industry; covers historical, behavioral, societal, and business aspects of travel and tourism.
Prerequisite: Sophomore standing or higher or instructor permission.

LEI 3303 Fundamentals of Tourism Planning 3 Credits
Grading Scheme: Letter Grade
Examines the planning of tourism services and facilities, including the identification, planning and use of the physical, social and economic resources necessary to develop and support tourism.
Prerequisite: Sophomore standing or higher.

LEI 3360 Hospitality Management 3 Credits
Grading Scheme: Letter Grade
Overview of the hospitality industry, including hotel management, food and beverage operations, business and leisure travel markets, convention services, hospitality trends, quest-based customer service strategies and career opportunities.
Prerequisite: Sophomore standing or higher or department permission.

LEI 3921 Field Experience in THEM 3 Credits
Grading Scheme: Letter Grade
Practical field experience in tourism, hospitality, and event services delivery. Apply skill and knowledge as volunteers and utilize leadership and management skills to enhance participant involvement and agency operations. Prepare a resume, investigate agencies as potential internship sites, and submit the appropriate forms for approval of an internship site.
Prerequisite: department permission.

LEI 4540 Management & and Supervision of THEM Facilities 3 Credits
Grading Scheme: Letter Grade
The management process as it relates to planning and operation of leisure service facilities. Subjects include traditional and contemporary management theory, the management process, legal and financial aspects, risk management and contemporary issues in leisure services management. Facility topics include feasibility studies and design issues.
Prerequisite: junior standing or department permission.

LEI 4800 Legal Aspects of Tourism, Events and Recreation 3 Credits
Grading Scheme: Letter Grade
Concentrates on the legal aspects of recreation, tourism, hospitality and event management. Enables students to better understand the law as it pertains to their area of specialization and improves risk management practice.
Prerequisite: LEI 2181 and LEI 3301.

LEI 4880 Research Methods in Tourism, Hospitality and Event Management 3 Credits
Grading Scheme: Letter Grade
Lays out the foundations for conducting research in tourism, hospitality, event management, sports, business, and social sciences in general. Introduces diverse aspects of research, from setting the theoretical background, to evaluating the results of analyses.
Prerequisite: STA 2023.

LEI 4905 Variable Topics 1-4 Credits
Grading Scheme: Letter Grade
Offered upon request to meet special interests not adequately provided in other courses, such as Multidisciplinary Perspectives of Gerontology and Health and Physical Aspects of Aging.
Prerequisite: department permission.

LEI 4912 THEM Research 0-5 Credits
Grading Scheme: S/U
Participate in supervised research experiences. For this purpose, research is defined as an independent, self-directed experience that enables the investigation of an issue in tourism, hospitality, event management and other leisure settings and then to communicate the results to others.

LEI 4940 Internship in THEM 1-15 Credits
Grading Scheme: S/U
Practical field experience in selected off-campus tourism, hospitality, and event service agencies. Normally taken during the last semester before graduation.
Prerequisite: department permission.

LEI 4941 Practicum in Tourism, Hospitality and Event Management 1-3 Credits
Grading Scheme: S/U
Provides practical experience for Tourism, Hospitality and Event Management majors who will maintain part-time work in an approved setting appropriate to their specialization.
Prerequisite: Tourism, Event and Recreation Management majors.

LEI 4955 Travel Studies 1-6 Credits
Grading Scheme: Letter Grade

Turkish | European Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

Courses

TUR 1130 Beginning Turkish 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, TUR 1131, constitute the introductory sequence in Turkish.

TUR 1131 Beginning Turkish 2 5 Credits
Grading Scheme: Letter Grade
Second semester of the introductory sequence in Turkish.
Prerequisite: TUR 1130 with minimum grade of C.

TUR 1180 Intensive Beginning Turkish 5 Credits
Grading Scheme: Letter Grade
An intensive introduction to Turkish, using the proficiency method. This course is equivalent to, and substitute for, the UF's first-year Turkish sequence (TUR 1130 / TUR 1131).
Prerequisite: instructor permission.

TUR 2220 Intermediate Turkish 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study of speaking, reading, writing and listening comprehension skills with new vocabulary and grammar.
Prerequisite: TUR 1131 or placement test.

TUR 2221 Intermediate Turkish 2 4 Credits
Grading Scheme: Letter Grade
Improves speaking, reading, writing and listening skills by building upon language principles introduced in TUR 2220.
Prerequisite: TUR 2220 or placement test.

TUR 2300 Intensive Intermediate Turkish 5 Credits
Grading Scheme: Letter Grade
Immersive intermediate study of Turkish. Equivalent to, and substitute for, the second-year sequence of TUR 2220 / TUR 2221. Classes meet daily; see the weekly schedule of topics.
Prerequisite: (TUR 1130 and TUR 1131) or instructor approval.

Urban and Regional Planning

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Urban and Regional Planning (URP) strives to be a leading graduate program with excellence in planning education, research, and service for the citizens of the state, the nation, and the world.

Courses

DCP 4000 Overview of Historic Preservation 3 Credits
Grading Scheme: Letter Grade
Overview of historic preservation and its relationship to historic communities. The course covers terminology, theory, legal, design, social issues and community assessments.
Prerequisite: junior standing or higher.

URP 1002 This Must Be the Place 3 Credits
Grading Scheme: Letter Grade
Through a multidisciplinary framework of art, music, history, city planning, urban design, and storytelling, course seeks to address two fundamental questions: 1) How does place work to construct individual and collective identities? and 2) How do collective identities, as expressed through place-based narratives, function to empower and unite communities?
Attributes: Quest 1

URP 2001 Comparative Urbanization 3 Credits
Grading Scheme: Letter Grade
Comparative case studies of contemporary cities in the US and a series of foreign countries, both industrialized and developing will be covered. Special consideration is given to energy consumption.
Attributes: General Education - International, General Education - Social Science

URP 4000 Preview of Urban and Regional Planning 3 Credits
Grading Scheme: Letter Grade
Overview of the comprehensive planning process for those considering a career in urban and regional planning or pursuing studies where some knowledge of the planning process is desirable.
Prerequisite: junior status or higher.

URP 4230 3D Modeling, Visualization, and Simulation 3 Credits
Grading Scheme: Letter Grade
Introduces a variety of methods and techniques to interactively model and visualize physical urban environments in two, three, and four dimensions through a hands-on approach using computer software.
Prerequisite: DCP 2002 or instructor permission.

URP 4273 Survey of Planning Information Systems 3 Credits
Grading Scheme: Letter Grade
Introduces concepts and theories associated with Geographic Information Systems (GIS) as related to urban and environmental planning. Requires lectures, class assignments, and homework assignments.
Prerequisite: junior status or higher.

URP 4283 Automation for Geospatial Modeling and Analysis 3 Credits
Grading Scheme: Letter Grade
Covers methods and techniques for automating geospatial modeling and analysis for planning and built environment by using visual models, computer programming, and custom-built applications and tools that utilize Geographic Information Systems (GIS) technology in the context of planning information systems.
Prerequisite: Junior standing or higher.

URP 4640 Sustainable Urbanism in Europe 3 Credits
Grading Scheme: Letter Grade
Explores the diverse urban places that make up modern Europe, its historic development since the pre-industrial city, challenges and accomplishments of urbanization in Europe in recent decades and current accomplishments in achieving sustainable development.
Prerequisite: Junior standing or higher.

URP 4740 Housing and Urban Development 3 Credits
Grading Scheme: Letter Grade
Concepts and theories about the economics of the housing market, land development and home building process, and the growth of cities.
Prerequisite: junior status or higher.

URP 4744 Neighborhood Planning 3 Credits
Grading Scheme: Letter Grade
An overview of the neighborhood planning process situated within the larger city planning framework.
Prerequisite: URP 4000.

URP 4804 International Perspectives in Urban and Regional Planning 3 Credits
Grading Scheme: Letter Grade
Presents contemporary global and critical issues in urban and regional planning by carefully selecting critical topics such as inequality, immigration, and segregation, as well as case studies from around the world. Also encourages the evaluation and development of different strategies and corrective courses of action.
Prerequisite: junior status or higher.

URP 4882 Defensible Space and CPTED in Urban Design 3 Credits
Grading Scheme: Letter Grade
Explore the history, theory, application, and possibilities associated with crime prevention planning. Investigate theories and strategies in the planner's toolkit and how police, planning, and other agencies interact to implement them. Also focuses on real-world applications and students will visit sites that offer teaching and research opportunities.
Prerequisite: junior status or higher.

URP 4905 Exploration and Directed Study 1-3 Credits
Grading Scheme: Letter Grade
Exploration and directed study.
Prerequisite: junior status or higher.

URP 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Variable topics; lecture, studio, and seminar explore current issues in urban planning
Prerequisite: junior standing or higher.

URP 4942 Community Service 3 Credits
Grading Scheme: S/U
Provides an opportunity to work directly with a community service agency. Public sector agencies, such as a city or county office and nonprofit organizations, qualify as community service agencies. In lieu of meeting in a classroom, students will be placed in a community service agency and will work as volunteers for a minimum of 60 hours during the academic semester.
Prerequisite: URP 3001 or URP 4000.

Veterinary Medical Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

VME 3001 The Dog 3 Credits
Grading Scheme: Letter Grade
Designed for students planning careers in veterinary medicine and veterinary technical programs. Students who want to learn more about dogs will be introduced to a number of topics, including evolution, domestication, anatomy, role in society, physiology, behavior and health of the dog.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L; six credits from: AGR 3303, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, MCB 3020, PHY 2053, PHY 2054, or STA 2023.

VME 4012 Aquatic Animal Conservation Issues 3 Credits
Grading Scheme: Letter Grade
Controversial conservation issues surrounding aquatic species, from invertebrates to marine mammals.
Prerequisite: two courses beyond basic biology in anatomy, behavior, ecology, physiology, or zoology.

VME 4013 Aquatic Wildlife Health Issues 3 Credits
Grading Scheme: Letter Grade
Introduces the natural history, anatomy, physiology, behavior and health issues of aquatic wildlife: marine mammals, sea turtles, crocodiles and some fish and invertebrates.
Prerequisite: BSC 2010 and BSC 2011 and six credits with course prefixes of ANS, PCB, WIS or ZOO with minimum grades of C, or instructor permission.

VME 4016 Manatee Health and Conservation 3 Credits
Grading Scheme: Letter Grade
Introduces undergraduate students to manatee natural history, anatomy, physiology, behavior, conservation and health issues. Students will be exposed to current experts in these fields, be able to name and to describe common health and mortality issues and be able to explain current management strategies.
Prerequisite: BSC 2010 and BSC 2011 and six credits with course prefixes of ANS, PCB, WIS or ZOO with minimum grades of C, or instructor permission.

VME 4103 Livestock Health/Disease Prevention 2 Credits
Grading Scheme: Letter Grade
The principal diseases of livestock and practical methods for their prevention and control.
Prerequisite: instructor permission.

VME 4906 Problems in Veterinary Science 1-3 Credits
Grading Scheme: Letter Grade
Study, research and investigation of an approved problem in veterinary medicine.
Prerequisite: instructor permission.

Vietnamese | Languages, Literatures, and Cultures

Courses

VTN 1130 Beginning Vietnamese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

VTN 1131 Beginning Vietnamese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: VTN 1130 with minimum grade of C or S, or the equivalent.

VTN 2220 Intermediate Vietnamese 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: VTN 1131 with minimum grade of C or S, or the equivalent.

VTN 2221 Intermediate Vietnamese 2 4 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: VTN 2220 with minimum grade of C or S, or the equivalent.

VTN 2340 Vietnamese for Heritage Learners 1 4 Credits
Grading Scheme: Letter Grade
For those with significant speaking and listening skills, but limited reading and writing skills. Emphasis on developing latter two skills.
Prerequisite: instructor permission.

VTN 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For independent work not offered in another course. Available only by special arrangement.

VTN 4930 Special Topics in Vietnamese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Vietnamese studies. Available only by special arrangement.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

VTT 3500 Vietnamese Culture 3 Credits
Grading Scheme: Letter Grade
Overview of Vietnamese culture, language and history. Focuses on Vietnamese cultural norms, attitudes, values and culture through an examination of history, religious practices, language, literature, family structures, cuisine, daily life and the arts. (N)
Prerequisite: Any Asia-related ASH, CHI, CHT, JPN, JPT, REL, or VTN course.
Attributes: General Education - International

Wildlife Ecology and Conservation

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Wildlife Ecology and Conservation fosters education, expands knowledge, and rewards scholarship. This is accomplished by using multidisciplinary approaches for the purpose of understanding, managing, and conserving biological resources.

Curriculum

- Combination Degrees
- Wildlife Ecology and Conservation
- Wildlife Ecology and Conservation Minor

Courses

WIS 2040 Wildlife Issues in a Changing World 3 Credits
Grading Scheme: Letter Grade
An introduction to the biological and ecological basis of wildlife issues and the pathways humans use to resolve these issues throughout the world. Topics include: major animal phyla, evolutionary history of vertebrates, state, federal and international agencies that manage wildlife worldwide, impacts of human activities on wildlife. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

WIS 2323 The Future of Tropical Rain Forests 3 Credits
Grading Scheme: Letter Grade
This course investigates the essential question “What is the Future of Tropical Rain Forests?” Students will investigate fundamental issues addressed by scientists studying rain forests, including what gave rise to their biodiversity, the drivers and consequences of deforestation, cultural stereotypes, and if conservation is compatible with socioeconomic development.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - International

WIS 2552 Biodiversity Conservation: Global Perspectives 3 Credits
Grading Scheme: Letter Grade
This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena through an introduction to the relationship between humans and the global biotic environment that supports them. This course explores human patterns of resource use and population biology determining the status of the earth's biodiversity resources. The goal of this course is to help students understand how today's human society affects global life support systems, and how individuals can make lifetime contributions to environmental solutions.
Attributes: General Education - Biological Science, General Education - International

WIS 2920 Wildlife Colloquium 1 Credit
Grading Scheme: Letter Grade
Wildlife ecology and conservation as a major and career.
Prerequisite: Wildlife Ecology and Conservation major or minor.

WIS 3401 Wildlife Ecology and Management 3 Credits
Grading Scheme: Letter Grade
Wildlife as a natural resource with emphasis on principles of conservation, ecology and management.
Prerequisite: BSC 2011 and BSC 2011L.

WIS 3402 Wildlife of Florida 3 Credits
Grading Scheme: Letter Grade
Diversity of wildlife species in Florida with emphasis on amphibians, reptiles, mammals, and birds.
Prerequisite: Sophomore standing or BSC 2011 or BSC 2011L.

WIS 3402L Wildlife of Florida Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory exploring the diversity of wildlife in Florida's ecosystems with emphasis on field identification, natural history, and ecology of birds, mammals, amphibians, and reptiles.
Prerequisite: Sophomore standing or BSC 2011 or BSC 2011L.

WIS 3404 Natural Resource Ecology 3 Credits
Grading Scheme: Letter Grade
Application of ecological principles and natural history information to conserve and sustainably manage natural resources with an emphasis on animals and plants.
Prerequisite: BSC 2011 or equivalent.

WIS 3410 The Ecology of Climate Change 3 Credits
Grading Scheme: Letter Grade
Provide a broad overview of the ecological responses to climate change on the Earth. Students will learn about ecological processes, spanning genetics, physiology and behavior, morphology, phenology and distribution, and up through species interaction, communities and ecosystems and how climate change impacts them.
Prerequisite: BSC 2011.

WIS 3434 Tropical Wildlife 3 Credits
Grading Scheme: Letter Grade
An interdisciplinary course that teaches the ecology of animals and the socio-economics of wildlife use. The first part of the course deals with the biology of tropical wildlife and the second with the historical, economic and political aspects of the use and management of tropical wildlife.
Prerequisite: BSC 2011 and BSC 2011L and Wildlife Ecology and Conservation major of junior standing or higher.

WIS 3553C Introduction to Conservation Genetics 4 Credits
Grading Scheme: Letter Grade
Types of molecular polymorphisms found in nature, including how genetic information is organized, what evolutionary and demographic forces act to shape genetic polymorphisms, and how and why genetics are useful in population conservation and management.
Prerequisite: STA 2023 and (FOR 3153C or PCB 3601C or PCB 4043C or WIS 3404).

WIS 4203C Landscape Ecology and Conservation 3 Credits
Grading Scheme: Letter Grade
Central constructs and methods of landscape ecology are applied to wildlife ecology and conservation.
Prerequisite: STA 2023 and (FOR 3153 or PCB 3601C or PCB 4043C or WIS 3404) and (FOR 3434C or GIS 3043 or GIS 3072C or URP 4273).

WIS 4424 Large Mammal Ecology and Management 3 Credits
Grading Scheme: Letter Grade
Large mammals are fascinating creatures that interact with the coupled human and natural systems that they occupy in complex ways. Abiotic and biotic conditions as well as human impacts drive their dynamics, while they in turn play significant roles in shaping the diverse landscapes they inhabit. Take a critical approach to examining current advances and controversies involving large mammals.
Prerequisite: Junior or senior standing.

WIS 4427C Wildlife Habitat Management 3 Credits
Grading Scheme: Letter Grade
Application of land management practices and their effects on wildlife habitats in Florida.
Prerequisite: WIS 3401.

WIS 4440C Wetland Management 3 Credits
Grading Scheme: Letter Grade
Prepare students for basic monitoring, field research, and management of wetlands, using ecological principles and knowledge of community variation in relation to stressors. Identification, monitoring techniques, and management and restoration techniques will be taught through a combination of class lectures and hands-on field exercises and labs.
Prerequisite: BSC 2010 & BSC 2010L & BSC 2011 & BSC 2011L.

WIS 4443C Wetland Wildlife Ecology 4 Credits
Grading Scheme: Letter Grade
Ecological principles of conservation and management of wildlife in wetland environments, including a survey of the structure and function of major wetland types.
Prerequisite: WIS 3401.

WIS 4454 Ecology of Bird Introductions and Invasions 3 Credits
Grading Scheme: Letter Grade
Ecology and conservation implications of introductions and invasions of birds. The course covers the invasion pathway model as well as the four levels of factors that can influence introduction outcomes.
Prerequisite: BSC 2010 and BSC 2011.

WIS 4501 Introduction to Wildlife Population Ecology 3 Credits
Grading Scheme: Letter Grade
The dynamics and regulation of biological populations and life-history theory.
Prerequisite: PCB 3063 or AGR 3303 or WIS 3553C & WIS 3401 & FNR 3500C or PCB 3601C or PCB 4043C or WIS 3404.

WIS 4523 Human Dimensions of Natural Resource Conservation 3 Credits
Grading Scheme: Letter Grade
Local and international models are used to provide an interdisciplinary overview of the theory and practice of conservation education, environmental communication and integrated resource management and conservation.
Prerequisite: WIS 3401 or WIS 4554.

WIS 4547C Avian Field Techniques 2 Credits
Grading Scheme: Letter Grade
Intensive advanced field experience in scientific study design and ecology of wild bird populations and communities.
Prerequisite: 1 course each in ecology and vertebrate ecology.

WIS 4551 Diverse Perspectives in Conservation 3 Credits
Grading Scheme: Letter Grade
As the population of the United States becomes increasingly diverse, the integration and participation of diverse communities is essential with respect to successful management and conservation of wildlife and natural resources. Examines current and historical factors that influence the interaction of marginalized communities such as indigenous and communities of color with the natural environment, including natural resource management decision-making structures.
Prerequisite: WIS 2### or greater.

WIS 4554 Conservation Biology 3 Credits
Grading Scheme: Letter Grade
Overview of the major problems in conservation and of the biological principles and theories to preserve this diversity.
Prerequisite: (PCB 3063 or WIS 3553C) and (FOR 3153C or PCB 3601C or PCB 4043C or WIS 3404) and WIS 3401.

WIS 4570C Wildlife Behavior and Conservation 3 Credits
Grading Scheme: Letter Grade
Concise, current, and thorough grounding to the field (theory, practice, and relevance) of animal behavior, with a strong focus on applications of wildlife behavior to achieve successful wildlife conservation gains.
Prerequisite: BSC 2010
Attributes: Artificial Intelligence

WIS 4601C Quantitative Wildlife Ecology 3 Credits
Grading Scheme: Letter Grade
Concepts and applications of quantitative techniques in ecology and wildlife management.
Prerequisite: STA 2023 and WIS 3401.

WIS 4900 Supervised Extension Experience in Wildlife Ecology and Conservation 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

WIS 4905 Individual Problems 1-4 Credits
Grading Scheme: Letter Grade
Individual study of a selected topic related to wildlife ecology and conservation as contracted with the instructor at the start of the term.
Prerequisite: instructor permission.

WIS 4911 Supervised Research in Wildlife Ecology and Conservation 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

WIS 4915 Honors Thesis Research in Wildlife Ecology and Conservation 0-3 Credits
Grading Scheme: S/U
Independent research in wildlife ecology and conservation leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

WIS 4934 Topics in Wildlife Ecology and Conservation 1-4 Credits
Grading Scheme: Letter Grade
Variable current issues and in-depth study in wildlife, forestry, range, recreation, and fisheries issues not covered in other courses.
Prerequisite: Instructor permission.

WIS 4941 Internship in Wildlife Ecology and Conservation 1-12 Credits
Grading Scheme: Letter Grade
Practical teaching, research, and extension experience in the field of wildlife ecology and conservation. Offered every semester.
Prerequisite: instructor permission.

WIS 4945 Wildlife Techniques 3 Credits
Grading Scheme: Letter Grade
Evaluate the theories, strengths, and weaknesses behind the use of standard wildlife techniques by researchers and managers. Major topics covered include study design, radio telemetry, passive monitoring techniques, animal capture and handling, sexing and aging wildlife, population estimation, and habitat selection.
Prerequisite: WIS 3402.

WIS 4945L Field Wildlife Techniques 1 Credit
Grading Scheme: Letter Grade
Students will examine and apply the wildlife techniques used by managers and researchers when working with wildlife. Major topics covered in the course include: animal capture and handling, sexing and aging wildlife, radio telemetry, population estimation methods, passive monitoring techniques, quantifying vegetation, and habitat usage.
Prerequisite: WIS 3402 & WIS 4945.WIS4945L

William & Grace Dial Center for Speech and Communication Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Center Information

The William and Grace Dial Center for Speech and Communication Studies assists in preparing University of Florida students to speak and write effectively using the major conventions governing the presentation of knowledge in their chosen disciplines. Additionally, the students gain an understanding of the importance of communicating information from within their discipline to general audiences.
Website (https://cwoc.ufl.edu/)

Curriculum

- Communication Studies Minor

Courses

COM 1000 Introduction to Communication Studies 3 Credits
Grading Scheme: Letter Grade
Introduces various theoretical perspectives for understanding human communication. This course affords students an understanding of the basic social and behavioral science concepts and principles used in the analysis of behavior and past and present social, political, and economic issues.
Attributes: General Education - Social Science

COM 2382 Siri is My Superpower: Communicating with AI 3 Credits
Grading Scheme: Letter Grade
Explores AI by describing how we communicate with others in the world and the tools we use to do so. Examines how we communicate with AI by introducing what a communicator, a mediator, and intelligence are.
Prerequisite: Quest 1 course with a minimum grade of C.
Attributes: Quest 2

COM 3120 Organizational Communication 3 Credits
Grading Scheme: Letter Grade
Explores the processes, practices, and difficulties of communication among large groups engaged principally in the work environment. Examines organizational structures, patterns of communication, task and social roles, extrinsic influences, and methods of producing intrinsic motivation and innovation.
Prerequisite: COM 1000 or SPC 2300 or SPC 2608.

COM 3225 Global and Cultural Issues in Health Communication 3 Credits
Grading Scheme: Letter Grade
Explores the complex associations among communication and the many contexts, issues, and relationships surrounding health and well-being in the world. Investigates cultural, historical, social, and ethical meanings of health and illness. Considers issues in global health, culture, and communication in health care initiatives.
Prerequisite: Sophomore standing or higher.

COM 3252 Biology of Human Communication 3 Credits
Grading Scheme: Letter Grade
Focuses on the interaction between the body and communication behavior. Examines how physiology affects communication, and how communication affects physiology.
Prerequisite: COM 1000 or SPC 2300.

COM 3462 Interpersonal Conflict Management 3 Credits
Grading Scheme: Letter Grade
Introduces fundamental communication skills, principles, theories and research relevant to effective conflict management in a variety of interpersonal contexts and relationships.
Prerequisite: COM 1000 or SPC 2300 or instructor permission.

COM 3465 Conflict Management and Negotiation in the Professions 3 Credits
Grading Scheme: Letter Grade
Introduces fundamental concepts and skills relevant to effective communication in business and professional conflicts. Topics include conflict management, ADR, and interpersonal, organizational, community and international negotiation. Emphasizes helping students to understand and improve the conflict management and negotiation skills required in their professional careers.
Prerequisite: COM 1000 or SPC 2608 or instructor permission.

COM 3491 Resilience & Communication 3 Credits
Grading Scheme: Letter Grade
Focuses on the role of communication in human resilience, with emphasis given to social, interpersonal, and intrapersonal processes and outcomes relevant to the construction of resilience and resilience narratives.
Prerequisite: COM 1000 or SPC 2300

COM 3943 Internship in Comm Studies 0-3 Credits
Grading Scheme: S/U
A variable web-based course designed to complement a student's internship experience through guided reflection, critical analysis, synthesis, and discussion.
Prerequisite: One COM or SPC course with a minimum grade of C and Communication Studies minor.

COM 4013 Family Communication 3 Credits
Grading Scheme: Letter Grade
Provides students with an understanding of how communication functions to develop, maintain, enrich, or limit family relationships.
Prerequisite: COM 1000 or SPC 2300 or instructor permission.

COM 4022 Health Communication 3 Credits
Grading Scheme: Letter Grade
Surveys theory, research, and practice of communication in the contexts of healthcare and health promotion.
Prerequisite: COM1000 or SPC 2300 or SPC 2608.
Attributes: Satisfies 6000 Words of Writing Requirement

COM 4704 Language & Social Interaction 3 Credits
Grading Scheme: Letter Grade
Explores the role of language in social interaction, covering theories and methods investigating language in social interaction, ways language is used to construct social identity, and issues concerning language and culture. Classroom activities and homework involve how (non)verbal conduct is enacted and understood in social situations.
Prerequisite: Junior standing or higher & (COM1000 or SPC2300 or LIN3010).

COM 4706 Language and Power 3 Credits
Grading Scheme: Letter Grade
Explores the role of language in articulating, maintaining, and subverting power relations in society. Drawing from Communication Studies and Applied Linguistics, the course provides the tools to uncover, describe, and critically analyze the various strategic biases in language that create and reinforce power asymmetries in society.
Prerequisite: COM 1000 or SPC 2300 for Communication Studies minor; LIN3010 for LIN major; with instructor permission.

COM 4911 Undergraduate Research in Communication Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Communication Studies. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Communication Studies.

COM 4930 Special Topics in Communication 3 Credits
Grading Scheme: Letter Grade
Seminar study of theory and research in a specific area of communication.
Prerequisite: COM 1000 or equivalent.

LIS 2001 Introduction to Library and Internet Research 1 Credit
Grading Scheme: Letter Grade
Learn how to conduct solid and reliable library research. Critical thinking skills are used to find, evaluate and use relevant scholarly resources in a variety of disciplines. This dynamic, hands-on course emphasizes creative thinking and media production tools while exploring the social responsibilities of using digital age information.

SPC 2300 Introduction to Interpersonal Communication 3 Credits
Grading Scheme: Letter Grade
The study of how two people interact with one another and how factors such as listening skills, backgrounds, experiences, and perspectives influence that communication.

SPC 2351 Listening 3 Credits
Grading Scheme: Letter Grade
Theory and practice in responsible, participatory listening. Also includes principles of listening for literal comprehension and critical evaluation of ideas in response to various spoken and nonverbal messages.

SPC 2594 Intercollegiate Forensics 1 Credit
Grading Scheme: Letter Grade
Participation in intercollegiate debate and individual speaking.
Prerequisite: satisfactory completion of one semester of intercollegiate forensics participation at UF.

SPC 2608 Introduction to Public Speaking 3 Credits
Grading Scheme: Letter Grade
Theory and practice presenting public speeches, determining communication purpose(s) and adapting to organization, evidence, language and other message characteristics for designated audiences.

SPC 2730 Introduction to Intercultural Communication 3 Credits
Grading Scheme: Letter Grade
Explores practices and difficulties of communication between and among people of contrasting cultures. Includes investigation of theory and research by which intercultural communication problems can be mitigated.
Prerequisite: COM 1000 or equivalent.
Attributes: General Education - International

SPC 3331 Nonverbal Communication 3 Credits
Grading Scheme: Letter Grade
Surveys theory and research in nonverbal communication including eye behavior, facial expressions, gestures and vocal cues.
Prerequisite: COM 1000.

SPC 3513 Argumentation 3 Credits
Grading Scheme: Letter Grade
Implementation of principles and methods advocating factual claims and policy proposals. Also discusses propositional analysis, evidence as demonstration, effecting reasoning processes to become experimental for listeners and ethics in controversy.
Prerequisite: SPC 2608 or instructor permission.

SPC 3602 Advanced Public Speaking 3 Credits
Grading Scheme: Letter Grade
Studies principles and methods of selected forms of public speaking for various purposes, audiences and contexts.
Prerequisite: SPC 2608 or equivalent.

SPC 4301 Advanced Interpersonal Communication 3 Credits
Grading Scheme: Letter Grade
Analysis of interpersonal communication in various professional and social settings shown through case studies, role plays and discussion that all illustrate how emotions and social expectations shape communication.
Prerequisite: SPC 2300 or instructor permission.

SPC 4425 Small Group Communication 3 Credits
Grading Scheme: Letter Grade
Communication in small groups with emphasis in practical applications, skill development and current research and theory.
Prerequisite: COM 1000.

SPC 4905 Directed Individual Study in Communication Studies 1-3 Credits
Grading Scheme: Letter Grade
Directed individual study in communication studies designed for the advanced student who wants to pursue an in-depth area of study not provided in regularly offered courses. Directed individual study could involve independent readings or individual projects under faculty guidance.
Prerequisite: instructor permission.

SPC 4911 Undergraduate Research in Speech Communication 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in speech communication. Projects may involve inquiry, design, investigation, scholarship, discovery, or application in speech communication.

Writing Program, University

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

COURSES

ENC 1101 Expository and Argumentative Writing 3 Credits
Grading Scheme: Letter Grade
Introduces rhetorical concepts and audience-centered approaches to writing, including composing processes, language conventions and style, and critical analysis and engagement with written texts and other forms of communication.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 1102 Argument and Persuasion 3 Credits
Grading Scheme: Letter Grade
A course teaching argumentative and persuasive writing techniques across the disciplines.
Prerequisite: ENC 1101.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 1602 Rhetoric of AI 3 Credits
Grading Scheme: Letter Grade
For every, “Okay, Google” or “Hey, Siri” to help us with tasks, there is the potential for “Help me understand something” and “Help me through something.” Thus, while we have the ability to give AI commands, conversational AI has the power to influence, persuade, and help us grow, all of which have equally interesting and alarming possibilities. In this course, we will examine this while testing our assumptions. By relying on multidisciplinary knowledge from anthropology, art, linguistics, philosophy, professional writing, psychology, rhetoric, and technical writing -including selections from the Western canon- to develop interdisciplinary skills in creative thinking, critical thinking, collaboration, presentations, public speaking, and research, our work in AI will necessarily bridge the humanities with the technical. To that end, we will begin with the history and theories of rhetoric and AI. Then, we will survey the landscape of AI developers and developments.
Attributes: Quest 1, Artificial Intelligence, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ENC 2256 Writing in the Disciplines 3 Credits
Grading Scheme: Letter Grade
Communication course adjusted to specific professional discipline, discipline to be determined by need. Covers major elements of organizational communication with emphasis on composition of reports, proposals, letters and memos, manuals and oral presentations.
Prerequisite: ENC 1101 or ENC 1102.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 2305 Analytical Writing and Thinking 3 Credits
Grading Scheme: Letter Grade
Advances students critical thinking and writing skills beyond first-year composition. With wide-ranging themes in areas such as languages, political science, anthropology or biology, this course exposes students to the advanced analytical techniques and communication strategies that professors in all disciplines expect them to know. (C) (WR)
Prerequisite: ENC 1101 or ENC 1102.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3230 Writing in Graphic Design 3 Credits
Grading Scheme: Letter Grade
Introduction to writing industry-specific documents for graphic design. Includes stylistically appropriate variations for clients and colleagues. Practical experience in oral communication provided through practice interviews.
Prerequisite: ENC 1101.

ENC 3246 Professional Communication for Engineers 3 Credits
Grading Scheme: Letter Grade
Students master a variety of communication strategies and genres of writing relevant to engineering, such as composing email, memos, letters, technical descriptions, instructions, academic research reports and professional proposals. Students also respond to complex rhetorical situations, thus preparing for work in their professional communities. (WR)
Prerequisite: ENC 1101 or ENC 1102.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3252 Writing for Strategic Communication 3 Credits
Grading Scheme: Letter Grade
Effective writing strategies for pitching, planning, and delivering content on behalf of organizations and within professional communities. Rhetorical analysis of strategic communication in content-rich marketing published via digital platforms. Intended for public relations, advertising, and telecom majors.
Prerequisite: ENC 1101 or ENC 1102.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3254 Rhetoric and Technical Writing 3 Credits
Grading Scheme: Letter Grade
Advanced writing course covering major types of professional communication that inform and persuade. Emphasis on producing discipline-appropriate texts within organizations that will be also shared with public audiences through different media.
Prerequisite: ENC 1101 OR ENC 1102.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3360 Writing the Natural World 3 Credits
Grading Scheme: Letter Grade
Cultivates deep understanding of the nature writing field and the skills needed to be a published writer. Focuses on techniques used to write for a public audience through critical engagement with publication outlets and document design conventions.
Prerequisite: ENC 1101.

ENC 3453 Writing in the Health Professions 3 Credits
Grading Scheme: Letter Grade
Designed to help students master a variety of communication strategies and genres of writing relevant to the health professions. Students learn to compose clear messages to professionals, patients, and the public, preparing them for upper-division courses and building a foundation for work in their professional communities.
Prerequisite: ENC 1101 or ENC 1102.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3459 Writing in the Medical Sciences 3 Credits
Grading Scheme: Letter Grade
Training in advanced literacy skills for medical practitioners, including the use of medical databases and the presentation of medical research to professional and lay audiences. Work in teams that are typical of medical practice to learn techniques for effective patient interaction. (WR)
Prerequisite: ENC 1101 or ENC 1102.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3464 Writing in the Social Sciences 3 Credits
Grading Scheme: Letter Grade
Designed to help students master a variety of communication strategies and genres of writing relevant to the social sciences. Conducting original research, students learn the relationship between clear, simple prose and thoughtful social analysis. Students write literature reviews, develop methodologies, present results, analyze data, and draft graduate or internship applications.
Prerequisite: ENC 1101 or ENC 1102.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3465 Writing in the Law 3 Credits
Grading Scheme: Letter Grade
Designed to help students master a variety of communication strategies and genres of writing relevant to law, with special emphasis on legal reasoning and logic. Students write legal briefs, a legal memorandum, business correspondence, and law school applications and are introduced to legal research and moot court debate.
Prerequisite: ENC 1101 or ENC 1102.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3466 Writing in the Communication Sciences 3 Credits
Grading Scheme: Letter Grade
For communication science professionals who interact with audiences that range from school counselors to caregivers and colleagues, excellent writing an essential skill. Focus is on writing in graduate school and as practitioners: research-based reports, clinical documents, and career portfolios. (WR)
Prerequisite: ENC 1101 or ENC 1102.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3483 Writing in the Physical Sciences 3 Credits
Grading Scheme: Letter Grade
Designed to improve writing skills necessary for success in the physical sciences, both in graduate school and the workplace. Investigating an area of special interest, students learn advanced library research, correct documentation, stylistic conventions for their major fields, and how to present research effectively. (WR)
Prerequisite: ENC 1101 or ENC 1102.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3601 Professional Writing in AI 3 Credits
Grading Scheme: Letter Grade
Explores professional writing situations in the AI sector. Applies rhetorical theory, employs research methods, and requires technical writing to articulate persuasive materials. Designed to help students imagine creative solutions with and for AI-driven innovations. For students interested in majors and careers for which AI figures.
Prerequisite: ENC 1101.
Attributes: Artificial Intelligence

ENC 3934 Special Topics in Rhetoric and Writing 3 Credits
Grading Scheme: Letter Grade
Designed to advance students' ability to write in specific genres or to develop their understanding of special topics related to the field. Specific sections will be tailored to the expertise of the faculty members teaching the course.
Prerequisite: ENC 1101 or ENC 1102.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 4458 Writing the Science Thesis 3 Credits
Grading Scheme: Letter Grade
In this course, students learn to write an academic thesis and a publishable version of their research, preparing them for both academic and scientific audiences. Assignments include a literature review, thesis, research report, and conference poster. Frequent peer review prepares students for collaboration, a necessary skill in contemporary science.
Prerequisite: ENC 1102 with minimum grade of C.

ENC 4493 Peer Tutoring in Rhetoric and Writing 2 Credits
Grading Scheme: Letter Grade
Examines the theories and best practices used by writing tutors with the goal of preparing to be peer writing tutors. Includes preparation on conducting needs assessments, prioritizing advice, and giving effective writing feedback. Observe experienced tutors and be guided through the first tutorial sessions.
Prerequisite: ENC 1102.

ENC 4905 Directed Independent Study in Rhetoric and Writing 1-3 Credits
Grading Scheme: Letter Grade
Designed for the advanced student who wants to pursue in depth an area of study not provided in regularly offered courses. Independent study can involve independent reading or projects under faculty guidance.
Prerequisite: Permission of instructor.

ENC 4930 Special Topics in Rhetoric and Writing 1-3 Credits
Grading Scheme: Letter Grade
Designed to advance students' ability to write in specific genres and to develop their understanding of special topics related to the field. Specific sections will be tailored to the expertise of the faculty members teaching the course.
Prerequisite: completed 60 credits.

ENC 4940 University Writing Program Internship 0-3 Credits
Grading Scheme: S/U
Provides opportunities to integrate classroom knowledge, skills, and methods with professional roles, responsibilities, and activities in supervised settings. Appropriate for students seeking teaching or research internship experience.
Prerequisite: ENC 1101 & ENC 1102 or higher-level Gen Ed Composition-designated course. Only upper-division students are eligible.

ENG 1001 Modes of Inquiry 3 Credits
Grading Scheme: Letter Grade
Strategies for dealing successfully with various media types common to the college experience (web-based, film, traditional readings, etc.). Through reading, writing, research and small group discussion, students will develop and refine reading, writing and speaking skills. Modes of Inquiry employ a cross-discipline approach so that student encounter reading and writing as it happens in the humanities, social sciences and business. Course also utilizes the electronic classroom, giving students the opportunity to polish computer skills and take advantage of online resources. The critical thinking, reading and writing skills learned in this course enhance the communications skills needed for a successful college career. (WR)
Attributes: Satisfies 2000 Words of Writing Requirement

IDS 1307 Writing Life: Art, Drama, Film, Literature, Poetry, and You 3 Credits
Grading Scheme: Letter Grade
Examines how humanities-based texts (novels, films, plays, poems, and art) reflect and resonate with components of our personal, social, and cultural identities. To demonstrate your understanding of the course and its goals, you will write three essays and sit for two closed-book exams.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

IDS 1468 Why Tell Stories? 3 Credits
Grading Scheme: Letter Grade
Exploring diverse stories in art, philosophy, literature, and film to discover how the creation and sharing of stories is a universal experience, one that is central to both humanness and existence.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 4000 Words of Writing Requirement

IDS 1469 The Posthuman Condition 3 Credits
Grading Scheme: Letter Grade
Explores humanity’s march towards smartphone dependence, AI ubiquity, human-enhancement technologies, and mind uploading. Practices humanities methodologies to reflect and analyze how the posthuman condition might impact our society (course readings include humanities, social sciences, and natural sciences texts, and incorporate selections from the Western canon).
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

IDS 1623 The Anatomy of a Story 3 Credits
Grading Scheme: Letter Grade
Examines the experiences of human life and medical sciences through the lens of storytelling. Analyzes the intersection of illness narratives and the experiences of different people. Invites students to discover how stories are fundamental to understanding the human condition and why all stories matter
Attributes: Quest 1, Satisfies 4000 Words of Writing Requirement

IDS 1624 Time, Culture, and Identity 3 Credits
Grading Scheme: Letter Grade
Conceptualizing and representing the experience of time. Perspectives from history, cultural anthropology, literature, film, and art. Students analyze how enculturated understandings of time shape language, experience, and identity.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

IDS 2751 Privacy in the Digital Age 3 Credits
Grading Scheme: Letter Grade
The possibility of privacy is challenged by the ubiquity of data collection. Increasingly we find ourselves living under surveillance without the means of separating our private from our public lives. In this course we will investigate how specific social structures are being altered or more deeply inscribed through specific uses of aggregate data. Students will learn how to use qualitative research methods from the social sciences to better understand the societal effects of data aggregation and the relationship between concepts of privacy and property.
Attributes: Quest 2, General Education - Social Science, Satisfies 4000 Words of Writing Requirement

ISS 2100 What's Love Got to Do with It? How stories and science shape our love lives 3 Credits
Grading Scheme: Letter Grade
Introduces social science disciplines and their approach to studying romantic love. From both a sociocultural and personal point of view, students define romantic love, examine its role in society, and analyze their own romantic hopes and pursuits
Attributes: Quest 2, General Education - Social Science, Satisfies 2000 Words of Writing Requirement

RED 1343 Reading and Writing Content Area 1-7 Credits
Grading Scheme: Letter Grade
Covers the fundamentals of beginning college writing and critical reading skills.

Zoology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. The department's teaching and research provide the integrative and conceptual foundations of the life sciences.

Courses

Please note that a complete list of all courses offered by the Department of Biology can be found here (p. 2035).

AST 2037 Life in the Universe 3 Credits
Grading Scheme: Letter Grade
Considers the origin of life on earth and the possibility of its existence elsewhere. A multidisciplinary approach is followed. Conditions for life to form, and the likelihood that such conditions may exist elsewhere in the universe, are discussed. Also considered are schemes proposed for the search for extraterrestrial intelligence (SETI). This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Physical Science

BSC 3402 Theory and Practice in the Biological Sciences 2 Credits
Grading Scheme: Letter Grade
Presents the scientific method in its many formulations from historical, philosophical, and sociological perspectives. Explores generation and presentation of data, formulation of hypotheses, and theories and dissemination of results. Also examines the ethical implication of biological research.
Prerequisite: BSC 2010 and BSC 2011.

GLY 3603C Paleontology 4 Credits
Grading Scheme: Letter Grade
Investigation of the history of life on earth, including aspects of invertebrate and vertebrate paleontology, micropaleontology and paleobotany.
Prerequisite: refer to the department.

PCB 3063 Genetics 4 Credits
Grading Scheme: Letter Grade
Fundamental properties of inheritance in eukaryotic organisms emphasizing examples in humans. Develops basic concepts for the nature, organization, transmission, expression, recombination, and function of genetic materials, and principles derived for genetically characterizing populations.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C and general chemistry.

PCB 3713C Cellular and Systems Physiology 4 Credits
Grading Scheme: Letter Grade
How cells, organs, and higher level systems are integrated and coordinated in the functions of humans and other animals. Emphasizes the use of model organisms, mathematical models, and the physical sciences to understand the mechanistic basis of normal physiology and dysfunction.
Prerequisite: BSC 2010 and (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096) and (PHY 2048 or PHY 2060), all with minimum grades of C.
Corequisite: PHY 2049 or PHY 2061.

PCB 4043C General Ecology 4 Credits
Grading Scheme: Letter Grade
Ecological processes and organization in terrestrial and aquatic habitats. Laboratory and field exercises emphasize techniques of ecological analysis.
Prerequisite: BSC 2011 and 2011L, or equivalent, with minimum grades of C.

PCB 4674 Evolution 4 Credits
Grading Scheme: Letter Grade
Processes and mechanisms of evolution, including population genetics, speciation, patterns of evolution and molecular evolution.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C;
Corequisite: one semester of calculus; PCB 3063 recommended.

PCB 4712 Comparative Biomechanics 3 Credits
Grading Scheme: Letter Grade
Reviews physical principles governing the form and function of organisms.
Prerequisite: (BSC 2011 and BSC 2011L or equivalent with minimum grades of C) and PHY 2048 and PHY 2053L and PCB 4674 and ZOO 3713C.

PCB 4723C Physiology and Molecular Biology of Animals 4 Credits
Grading Scheme: Letter Grade
Processes and mechanisms of maintenance, activity, and integration in animals with emphasis on vertebrates. Laboratory experience in quantitative methods and techniques of physiological investigation.
Prerequisite: BSC 2011 and (CHM 2046 or CHM 2047) with a minimum grades of C. Recommended: ((PHY 2053 and PHY 2054) or (PHY 2060 and PHY 2061)) and PCB 3063 and PCB 4674.

ZOO 3513C Animal Behavior 4 Credits
Grading Scheme: Letter Grade
The causes, origins and evolution of animal behavior emphasizing field observations and experiments on the behavior of a variety of animal groups.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674.

ZOO 3603C Evolutionary Developmental Biology 4 Credits
Grading Scheme: Letter Grade
Analysis of embryonic development, underlying genetic mechanisms and how these processes have driven the evolutionary diversification of animal body plans.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 3713C Functional Vertebrate Anatomy 4 Credits
Grading Scheme: Letter Grade
The form and function of chordates accompanied by laboratory work dealing with a selected series of chordates.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 4205C Invertebrate Biodiversity 4 Credits
Grading Scheme: Letter Grade
Comparative biology of invertebrates, emphasizing morphology, evolution, ecology and life history.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

ZOO 4307C Vertebrate Biodiversity 4 Credits
Grading Scheme: Letter Grade
Comparative biology of vertebrates, emphasizing morphology, evolution, ecology and behavior.
Prerequisite: BSC 2011 and (BSC 2011L or ISC 2401L) with minimum grades of C.

ZOO 4403C Marine Biology 4 Credits
Grading Scheme: Letter Grade
Survey of major marine taxa, systematics of local marine fauna and flora, with familiarization of the marine environment. Laboratory emphasizes field work and independent projects.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 4472C Avian Biology 4 Credits
Grading Scheme: Letter Grade
The basic biological characteristics of birds, which, as exceptionally unique flying vertebrates, are confronted with a spectrum of problems in terms of anatomy, physiology, behavior, migration and population ecology.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674 (recommended).

ZOO 4905 Individual Studies in Zoology 1-4 Credits
Grading Scheme: Letter Grade
Qualified students and the instructor concerned may choose a particular topic or problem for study.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

ZOO 4911 Undergraduate Research in Zoology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ZOO 4926 Special Topics in Zoology 1-4 Credits
Grading Scheme: Letter Grade
Lectures, conferences or laboratory sessions covering selected topics of current interest in zoology.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

ZOO 4940 Practical Experience in Teaching Zoology 2 Credits
Grading Scheme: S/U
Participation in teaching approved Zoology courses with practical experience in instructional procedures, testing and grading, course and laboratory preparation, and laboratory assistance. Cannot be used to satisfy the minimum credit requirement for Zoology majors.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, one zoology laboratory-based course, senior status or higher and instructor permission.

ZOO 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C and undergraduate advisor permission.

Previous Catalogs

Each catalog remains in effect for an academic year, from the beginning of Summer B, late June, through the end of the following Summer A term the following June. The catalog is published for the new academic year on the closest Friday on or before May 1.
