The elementary education major prepares the next generation of teachers to be leaders in the creation of more equitable classroom experiences for all children, regardless of race, class, gender, sexuality, ability, language, and other differences. The program is intentionally designed to develop teacher candidates' competence in working with current school systems while simultaneously cultivating the knowledge, skills, and dispositions necessary to challenge existing systems that fail to support the learning needs of all children. The curriculum is guided by the principles of culturally and linguistically sustaining pedagogy and universal design for learning. Courses and clinical field experiences promote deep learning, equity, and social justice in the elementary classroom context.

This major is a professional teacher preparation program, approved by the Florida Department of Education (FLDOE) and the Council for Accreditation of Educator Preparation (CAEP). Graduates of the major are prepared for professional certification in Elementary K-6 with endorsements in English for Speakers of Other Languages (ESOL) and Reading.

Coursework for the major

This is a limited access major with selective admission to the upper-division program in Fall semesters only. Students must accumulate 60 credits and meet all Semester 4 critical tracking requirements to be a candidate for admission. The college admissions committee will consider an applicant's

entire record, including educational objectives, quality of courses completed, criminal or disciplinary actions, and test date. The application period is February through April for the following Fall semester. An approved applicant would be assigned a course schedule and field placement schedule in Semesters 5-8.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete coursework with minimum grades of C
- 2.0 UF GPA required

SEMESTER 2

- Complete coursework with minimum grades of C
- Complete 1 of 3 critical-tracking courses: EDF 1005 or EDF 2085 or EME 2040
- 2.3 UF GPA required

SEMESTER 3

- Complete coursework with minimum grades of C
- Complete 1 additional critical-tracking course
- 2.6 UF GPA required

SEMESTER 4

- Complete coursework with minimum grades of C
- Complete all 3 critical-tracking courses with a 3.0 critical-tracking GPA
- Complete all General Education requirements
- Complete the university Writing Requirement
- Document passing general knowledge test scores from the FTCE series Please see audit and/or advisor to determine which test to take.
- 2.6 UF GPA required

Students cannot register for courses in semesters 5-8 before program admission, which is competitive and available in Fall semesters only. Students should meet with the admissions coordinator in 1002 Norman Hall to complete an application for admission in February of their sophomore year.

SEMESTER 5

- Complete all required courses with no grade below C
- 3.0 upper-division GPA required
- 2.6 UF GPA required

SEMESTER 6

- Complete all required courses with no grade below C
- 3.0 upper-division GPA

SEMESTER 7

- Complete all required courses with no grade below C
- Document passing Elementary K-6 subject area exam scores from the FTCE series
- 3.0 upper-division GPA

SEMESTER 8

- Complete all required courses with no grade below C
- Earn acceptable ratings for all Florida Educator Accomplished Practices

- Document a passing score on the professional education test from the FTCE series
- 3.0 upper-division GPA

Model Semester Plan

For electives, students are encouraged to select courses that will strengthen their knowledge of the content areas of literature, social sciences, natural sciences, and mathematics.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities opportunity)		3
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Composition (p. 80); Writing Requirement: 6,000 words		3

Semester Eight		
EDE 4940	Internship in Elementary Education [1]	4
EDG 4048	Teacher Research [1]	3
EME 4401	Integrating Technology in the Elementary Curriculum	3
RED 4844	Practicum in Reading	2
TSL 4100	ESOL Curriculum, Methods and Assessment	3
	Credits	**15**
	Total Credits	**120**

[1] Apprenticeship students replace MAE 4310L, SCE 4310L, and EDG 4048 with an additional five credits of EDE 4940.

Passing score on all subtests of the FTCE subject area exam in elementary education (K-6) and on the Professional Education Test are required for completion of the bachelor's degree.

Certification

Confers recommendation for certification in elementary (grades K-6) with endorsements in ESOL and reading.

Academic Learning Compact

This degree prepares students for certification to teach grades K - 6 in the state of Florida. The program develops the foundation knowledge, skills, and practical experience for effective planning, teaching, and evaluating pupil learning.

Before Graduating Students Must

- Pass the General Knowledge Test, the Elementary Education Subject Area Test, and the Professional Education Test of the Florida Teacher Certification Examination series.
- Demonstrate mastery of effective teaching practices by meeting Florida Educator Accomplished Practices 1-6, as determined by multiple instructors across the program.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate competency in subject matter for grades K - 6 in language arts, reading, social studies, mathematics, science, and technology.
2. Create, select, and implement: (1) specific learning goals, (2) appropriate teaching methods and instructional materials, and (3) evaluation strategies aligned with goals, using knowledge of subject matter, learners, and classroom management.

Critical Thinking

1. Critically evaluate your own instructional effectiveness to plan future lessons and improve your teaching of all students over time.

Communication

1. Effectively communicate with students, including students whose home language is not standard English, as well as with parents and other school personnel.

- Educational Technology Minor UF Online
- Elementary Education | Grades K-6
- Elementary Education | Grades K-6 UF Online
- Florida Teaching Minor
- UFTeach | Mathematics, Science, or Computer Science Minor

The minor requires completion of coursework in the professional preparation areas of human development and learning, assessment, classroom management, instructional strategies, reading competency and curriculum and special methods. Students will have extensive opportunities to integrate their teacher education coursework with actual classroom experience.

The minor is open to undergraduates with a major other than mathematics, science or education. Students with majors in mathematics or science should refer to the UFTeach minor.

Admission to this minor requires a UF GPA of 2.5 or better. Students must apply for acceptance to the minor within the college of their major and the College of Education after 45 but before 100 credits are earned.
More Info (http://education.ufl.edu/student-services/)

Those pursuing the minor are encouraged to complete the Florida Teacher Certification Examination (FTCE) General Knowledge Test (recommended in sophomore/junior year), the FTCE Subject Area Exam (recommended early in senior year) and the FTCE Professional Education Test (recommended mid-senior year).
More Info (http://fl.nesinc.com/)

FTCE tests are not required for award of the minor, but they are required for certification.

Secondary English Language Arts Education Minor

The minor in Secondary English Language Arts Education is appropriate for students who wish to teach English Language Arts (ELA) at the middle school and high school levels in Florida. This is an alternative certification program, specifically a Professional Training Option (PTO), meant to prepare English students for temporary teacher certification in Florida. Professional teacher certification is attainable after one year of successful teaching in a Florida public school.

About this Program

- **College:** Education (p. 696)

1910

Programs

A four-year undergraduate program and combination-degree program with joint award of bachelor's and master's degrees in 15 engineering specializations.

Degrees

Bachelor of Science, Master of Science, Master of Civil Engineering, Master of Engineering, Doctorate.

Academic Advising

First Year students receive academic advising through the Center for Student Excellence. All first year students complete a required First Year Engineering Advising course designed to teach them how to navigate their academic planning and successfully transition from high school to college. Students who successfully complete their first year are transitioned to their major department for advising in their second year and beyond. All engineering students must contact an academic advisor before registering for classes each semester.

Scholarships

Scholarship awards are made each year for the following academic year and are based on demonstrated need and scholastic performance. Students are notified by Undergraduate Student Affairs when applications become available.

Internships and Career Guidance

Professional development guidance is available from academic advisors, faculty, and the Career Connections Center. Visit the Career Connections Center in the J. Wayne Reitz Student Union.
Map (http://campusmap.ufl.edu/?loc=0686) More Info (https://career.ufl.edu/)

College Mission

The Herbert Wertheim College of Engineering fosters and provides world-class programs in engineering education, research, and service to enhance the economic and social well-being of the citizens of Florida, the nation, and the world.

Graduates of the Herbert Wertheim College of Engineering at the University of Florida will exhibit the following in pursuit of their profession:

- Vision, as evidenced by an ability to use creative approaches to problem solving.
- Values, as evidenced by an understanding of the importance of employing strong professional ethics.
- Leadership, as evidenced by serving as:
  - A team/project leader with solid project management and planning skills
  - A mentor to less experienced staff
  - A volunteer in the community.
- Professional expertise, as evidenced by:
  - Making meaningful contributions to technical engineering problem solving as both an individual contributor and in team situations
  - Continually enhancing both technical and non-technical skills
  - Applying professional expertise to increasingly complex problems/projects
  - Effective communications skills, both verbal and written
  - Knowledge about the interaction of financial, societal, legal, or cultural influences with science and technology.

Accreditation

For information about a specific major, please refer to the departmental webpage, contact the undergraduate coordinator in the department, or visit the Center for Student Excellence in room 270 of the Herbert Wertheim Laboratory for Engineering Excellence.

Engineering Undergraduate Student Affairs

Engineering student services are provided through Engineering Undergraduate Student Affairs located in 312 Weil Hall, 204 Weil Hall (http://campusmap.ufl.edu/?loc=0024), and 270 WERT (https://www.eng.ufl.edu/about/transformation/herbert-wertheim-laboratory-for-engineering-excellence/). Engineering Undergraduate Student Affairs is responsible on a college-wide basis for coordinating academic advising, and for developing and implementing other student support programs and services, including success workshops, tutoring and mentoring, retention efforts, and new student programs.

The division informs students of educational opportunities such as scholarships, co-op and internship opportunities, and available campus resources. The division also serves as liaison between the Herbert Wertheim College of Engineering and university-wide student services and facilities.

First Year Academic Advising and Career Coaching

First year engineering students receive individualized academic, career, and personal coaching from the Herbert Wertheim College of Engineering's professional academic advisors in the comprehensive First Year Advising program. One-on-one and small group sessions are offered to assist students in identifying majors, resources, and opportunities that will enhance their personal, professional, and academic goals. Engineering Peer Advisors are also available to answer questions, discuss student organizations and design teams, and provide mentoring to new students. The Engineering Center for Student Excellence is located in 270 WERT (https://www.eng.ufl.edu/about/transformation/herbert-wertheim-laboratory-for-engineering-excellence/).

First Year College Transition Program

STEP-UP is a multifaceted bridge program designed to promote academic and personal success among entering engineering students throughout their first year (Summer B, Fall, and Spring). This program combines faculty and peer mentoring with team-building, industry involvement, and academic enhancement classes in engineering foundation courses. An engineering design component provides the opportunity to apply foundational concepts in problem-solving, team-building, and interpersonal communications.

Academic Policies

Admission to the College

Preparation for Freshmen and Sophomores

The beginning engineering student should have a good understanding of the basic physical sciences, a demonstrated ability in mathematics, and the competence to read rapidly with comprehension.

Minimum high school preparation should include the basics outlined below. Students who need additional foundation courses can complete appropriate math and chemistry courses before proceeding with the regular engineering curriculum.

Refer to freshman admission for complete information.
More Info (p. 24)

Essentials	Years
Intermediate and advanced algebra	1
Plane geometry	1
Trigonometry	1/2
Chemistry	1
Physics	1
Calculus	1

General Education

Students must complete General Education and prescribed foundation coursework in Mathematics and the Physical and Biological Sciences before pursuing junior or senior-level courses in the college. All courses used to satisfy General Education requirements must be taken for a letter grade and a minimum grade of C is required. Requirements of the Accreditation Board for Engineering and Technology (ABET) in General Education are satisfied by the university's General Education requirements.

Transfer from Florida State Colleges

Florida state college students who have completed the Associate of Arts degree and the required technical foundation courses in calculus, differential equations, chemistry, and physics with calculus are eligible to apply for transfer directly into the Herbert Wertheim College of Engineering. Admission to the college is selective and is based on the total record. Meeting the minimum requirements does not guarantee admission. Students with excessive withdrawals from coursework may not be eligible.

In particular, transfer students must meet the following minimum requirements:

- Earn an Associate of Arts degree from a Florida public state college with a minimum GPA of 2.00.
- Satisfy the General Education requirements of the state college and comply with the General Education requirements of UF and the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology.
- Complete two sequential courses of foreign language in secondary school, or 8-10 semester credits at the post-secondary level, or document an equivalent level of proficiency.
- Satisfy critical-tracking criteria in accordance with specific program requirements and overall grade point average.
- Complete critical-tracking courses in calculus, differential equations, chemistry, and physics with calculus with minimum grades of C in each course and a minimum GPA specified for the intended major (as computed on the last of a maximum of two attempts allowed for each course, including withdrawals). Certain majors have higher minimum GPA requirements and may have additional critical tracking course requirements.

Upper Division Transfer from a Non-Florida State College

All students who transfer from four-year institutions must meet the general admission requirements of the university. In addition, students must meet the college's admission requirements to transfer directly into an engineering program. Students with 60 or more credits earned but less than 90 credits will be considered on a space-available basis.

Students with more than 90 credits earned and applying from a non-Florida state/public college are generally not considered for admission.

All students transferring to UF must complete a minimum of 60 credits of acceptable 3000/4000-level coursework at UF to receive a degree from this college.

Unless previous arrangements have been made for course certification by faculty of the Herbert Wertheim College of Engineering, only engineering courses taken in programs accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology will be considered for transfer to this college.

Transfer students are expected to graduate from the major to which they were admitted. Appeals to change majors after admission may not be approved.

Admitted students who do not enroll in the term for which they have been admitted must submit a new application by the deadline to be considered for a future term.

Postbaccalaureate Admission

A student who has received a baccalaureate degree who wants to meet specific requirements for admission to graduate school may be admitted as a postbaccalaureate student. Space is limited for postbaccalaureate study and only where space is available will admissions be made for postbaccalaureate studies.

INTERNATIONAL ENGINEERING PROGRAMS

HWCOE International Engineering Programs offers students the opportunity to participate in international experiences, through study, research, internship, and service learning abroad. Students can study abroad for a semester and take major classes or participate in a summer program to gain research or internship experiences. There are more than 40 semester-long exchange programs in more than 20 countries that offer engineering classes in English to help students stay on track for their academic program. Credits earned in study abroad programs may count toward a major or minor and can satisfy General Education, language, and Summer residency requirements.

Every engineering student has a unique academic plan, and the college works with individual students to customize their international experience. For more information, visit https://www.eng.ufl.edu/international (https://www.eng.ufl.edu/international/) or talk to your academic advisor.

Academic Regulations

Credit for Special Work

- With department approval, a student can receive practical industry work experience under supervision. With a previously approved outline, a student can receive up to three college credits by submitting a satisfactory report.
- Students can receive credit for research work by registering for EGN 4912. See your academic advisor for details.
- A student cannot apply more than eight credits of individual study, including high honors projects, co-op work experience, practical work experience, and special problems or special topics, for credit toward a degree program.

CHANGE OF MAJOR

Changing Majors in Terms 1-5

Students who want to change to an engineering major in terms 1-2 must meet with an advisor in the HWCOE Center for Student Excellence. Students who want to change to an engineering major in terms 3-5 must meet with an advisor in the department that offers the desired major. [HWCOE Advisors (https://www.eng.ufl.edu/students/advising/who-is-my-advisor/)]

Students must meet the critical tracking criteria for their engineering major of choice. Those who are not on track may be permitted to change majors, provided they:

- Can get on track in a reasonable number of terms, as verified by an academic advisor;
- Demonstrate potential for success in the new major (successful completion of major courses according to HWCOE tracking requirements); and
- Meet all other HWCOE progression standards.

Changing Majors in Term 6 or Later

The further along a student is, the harder it will be to change majors and progress towards graduation in a timely fashion. Students wishing to change to a HWCOE major in term 6 or later must meet with an advisor in the department that offers the desired major.

In order to be considered for a major change at this late stage in their academic career, students must:

- Meet the critical-tracking criteria (preprofessional GPA and minimum cumulative UF GPA) for the major;
- Meet all other HWCOE progression standards for the desired major;
- Demonstrate potential for success in the major (successful completion of major and major-related courses according to HWCOE tracking requirements);

- Provide clear and purposeful reasons for which the change of major is appropriate; and
- Be able to graduate in a timely fashion.

Note that all of these criteria must be verified by an academic advisor.

Drop Policy

Students are allowed two drops in the first 60 credits of UF coursework and two drops in upper division (60 or more credits completed at UF).

College petitions (https://www.eng.ufl.edu/students/resources/undergraduate-student-handbook/petitions/) to drop courses beyond the allotted number will be approved only when circumstances beyond the student's control prevented the satisfactory completion of a course. All such petitions must be submitted to Engineering Undergraduate Student Affairs, along with a written recommendation from the student's department advisor.

English Requirement

Each student in the college is required to complete ENC 1101 or ENC 1102. All students must also complete an appropriate course in professional communication with a minimum grade of C.

Any instructor in the college may require a student with a deficiency in English to complete additional coursework beyond the curriculum requirements for the degree, with approval of the department chair.

Flexible Learning

An enrolled engineering student will not be permitted to register for flexible learning courses unless approved by the college. Engineering students interested in taking a flexible learning course must first consult with their academic advisor. The student must have a cumulative UF GPA of 2.0 or better. A minimum grade of C is required for credit in a flexible learning course. The college will approve access to a maximum of two (2) Flexible Learning classes if the student meets at least one (1) of the following criteria:

- the student has a health concern;
- there are circumstances preventing the student from being on campus and the course is not offered online; or
- the student requires a flexible format solution for scholarship, tracking and/or graduation requirements.

More info (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#academicpoliciestext)

Grievance Procedures

If a student feels that their performance in a course has not been evaluated accurately, the situation should be discussed with the instructor. If the disagreement is not resolved, the student can pursue the matter with the instructor's department chair, the associate dean for student affairs and the university ombudsman.

Honors and Accelerated Courses

Honors and accelerated courses can be taken in place of their regular tracking counterparts. A prerequisite for any college course can be met by an honors or accelerated equivalent. Accelerated physics and honors chemistry courses are not restricted to students in the honors program, but honors calculus courses are controlled by the university honors program. Currently approved substitutions include:

- MAC 3472 instead of MAC 2311
- MAC 3473 instead of MAC 2312
- MAC 3474 instead of MAC 2313
- PHY 2060 instead of PHY 2048
- PHY 2061 instead of PHY 2049

Independent Study

Under certain circumstances, credit toward graduation may be obtained through independent study by registering for a course carrying a department prefix. A student cannot apply more than eight credits of independent study toward a degree program, including *magna cum laude* or *summa cum laude* honors projects, co-op work experience, practical work experience, and special problems or special topics. Registration for one to four credits of variable credit in a semester requires department approval.

PETITIONS

Students who have an extenuating circumstance that prevents them from adhering to a college regulation may petition for an exception. The HWCOE petitions committee reviews petition requests weekly. All petitions must include a statement explaining the extenuating circumstance and provide supporting documentation.
More info (https://www.eng.ufl.edu/students/advising/fall-semester-checklist/undergraduate-student-handbook/petitions/)

Probation Policy and Dismissal

An undergraduate student whose university, upper-division, or department grade point average falls below 2.00 will be placed on academic probation. An undergraduate student who is off-track for their major will be placed on critical tracking probation. Students on probation will be allowed up to two semesters to attain good academic standing and are expected to make satisfactory academic progress in probation semesters. Students may not be on probation for more than two semesters during their undergraduate program. A student who fails to meet the conditions of probation must petition their department to be allowed to continue in the major. Approval of this petition is at the discretion of the student's department.

As a condition of probation, students must see an academic advisor at designated intervals to review progress toward meeting the conditions of probation. Failure to keep such appointments without valid reason will be considered a violation of probation and may result in dismissal from the program.

Students dismissed from the Herbert Wertheim College of Engineering should seek admission to another program.

Students should acquaint themselves with their department's probation and exclusion procedures and guidelines.

ROTC

Engineering students can enroll in the advanced ROTC programs offered by the Army, Navy, and Air Force. Advanced courses in military science are not normally acceptable credit as technical or nontechnical electives toward an engineering degree.

S/U Grade Option

All courses taken at the university to satisfy engineering degree requirements, General Education, and Writing Requirements must be taken for letter grade, unless the course is offered only on a satisfactory/unsatisfactory (S/U) basis. Nontechnical electives in the junior and senior years can be taken S/U with departmental approval.

Physical education courses taken when an engineering student has reached junior status must be taken S/U.

Students should check with their departments to determine policy.

Student Responsibility

It is the student's responsibility to review and consider all pertinent information about the university and the college. Special attention must be paid to required documentation and deadlines.

Summer Attendance

Students who have completed a summer study abroad program (at least 6 credits), co-op, internship, research experience, or other engineering-related work can petition to waive this requirement after they have earned 75 credits. All petitions must be submitted to the university petitions committee with all appropriate documentation.

Transient Study

Students should submit a transient form (https://www.floridashines.org/succeed-in-college/take-a-course-at-another-school/) via Floridashines.org to request permission to enroll at another institution and have the credits apply to their UF degrees.

More Info (https://www.eng.ufl.edu/students/transient-student/)

To be eligible for transient work, students must:

- Have a minimum 2.0 UF GPA;
- Be on-track for the current major; and
- Not break the residency requirement (Students MUST complete the last 25% of credits required for their degree continuously at UF).

Students who have already transferred 60 credits from a public/state college may not apply additional public/state college credits toward their degree.

Students must ensure that a final transcript is sent to UF after completion of the course(s). Grades for courses taken elsewhere will not be calculated into the UF GPA but may be considered as part of the preprofessional GPA used by critical tracking.

Withdrawal from the University

Students who want to drop all courses for any current term are able to do so via ONE.UF (https://one.uf.edu/) prior to the withdrawal deadline. Dropping the entire load constitutes withdrawal from the university.

Courses dropped via full term withdrawal do not count toward a student's number of unrestricted drops. Students must discuss with an academic advisor how the withdrawal will affect their academic standing and discuss with a financial aid advisor how it will affect their financial aid. Students

receiving VA benefits should talk to the Veterans Services office. Students wanting to withdraw from all courses after the withdrawal deadline may submit a college petition before the last day of classes.

Any undergraduate who withdraws from the university a second time will be automatically placed on college probation. Any student on college probation who withdraws from the university a third time may be, at the discretion of the college, ineligible for further registration in the college.

Degree Requirements

The Herbert Wertheim College of Engineering confers a Bachelor of Science degree upon all students who have successfully completed a program of study and have fulfilled all requirements for a specific major in the college.

A thesis is not required for the baccalaureate degree. However, the department can grant permission to exceptional students to undertake a thesis in lieu of up to four semester credits of required or elective work in the student's department.

Required Minimum Grade Point Averages

- 2.5 - 2.8 GPA is required in critical-tracking courses depending on major
- 2.0 GPA is required for all courses in the college
- 2.0 GPA is required in all courses in the department
- 2.0 GPA is required in all courses taken after being classified as an upper division student
- 2.0 cumulative GPA is required in all work attempted at the university

All grade point averages are based on a 4.0 scale. Critical tracking grade point averages are computed on the best of the maximum two attempts (including withdrawals) allowed for each course.

Technical Foundation Courses

Technical coursework is required of all students. This coursework also satisfies the Mathematics and Physical and Biological Science categories of the General Education requirement. Generally, all technical coursework must be completed or be in final progress before a student can register for junior or senior-level engineering courses. Minimum grades of C are required in all critical-tracking coursework based on a maximum of two attempts, including withdrawals.

Some departments may have higher requirements.

Critical-Tracking Criteria

The Herbert Wertheim College of Engineering has established tracking criteria for all programs. Applicants with specific questions can contact the department or Engineering Undergraduate Student Affairs.

Students must fulfill the performance criteria for their program's tracking courses. Students who are off-track will be placed on probation. Students who fail to meet the conditions of their probation may not be allowed to continue in the Herbert Wertheim College of Engineering.

A minimum grade of C (based on a maximum of two attempts, including withdrawals) is required for each tracking course. Students may repeat a maximum of three critical tracking courses. Students must meet the minimum critical tracking GPA for their specific major to continue to the upper-division engineering program. Some departments require a grade higher than C in critical tracking courses. Students are expected to complete all critical tracking courses by the fifth tracking semester.

To be on track, students must meet or exceed these minimum performance criteria.

Tracking Courses

Semesters at UF	Minimum Completed	Minimum GPA	Minimum Overall UF GPA
First	1	2.5	2.0
Second	2	2.5	2.0
Third	4	2.5	2.0
Fourth	6	2.5	2.0
Fifth	8	2.5	2.0

Required Tracking Courses | All Engineering Majors

Courses	Credits
Mathematics	15 credits
Calculus	
MAC 2311[1]	4
MAC 2312	4

MAC 2313	4
Differential Equations	
MAP 2302[5]	3
Physical/Biological Sciences	16 credits
Physics	
PHY 2048	3
PHY 2048L	1
PHY 2049	3
PHY 2049L	1
Chemistry	
CHM 2045 or CHM 2095[1,2]	3
CHM 2045L	1
CHM 2046 or CHM 2096[3]	3
CHM 2046L	1
Additional critical tracking requirements[4]	
Refer to specific major plan	

1 Calculus and chemistry placement will be determined by student scores on the online ALEKS assessment test, which is required for all engineering students.

2 Industrial and systems engineering majors: CHM 2045 is not required for tracking; however, it is required for graduation. CHM2045 is not required for Computer Science or Computer Engineering.

3 Aerospace engineering, civil engineering, computer engineering, computer science, digital arts and sciences, electrical engineering, industrial and systems engineering, mechanical engineering, and nuclear engineering either do not require CHM 2046/CHM 2096 or may substitute another course.

4 Additional critical tracking requirements for specific majors are listed in the major degree programs.

5 Not a critical tracking course for Computer Science or Industrial and Systems Engineering.

Progression to Graduation

The programs leading to bachelor's degrees in engineering are carefully planned and organized sequences. The highly motivated student with proper high school preparation can complete these programs in four years, including at least one summer term, by scheduling an average of 15 credits each semester.

Usually, foundation subjects common to all fields of engineering are studied in the first two years at the university or in a pre-engineering program at a state or community college. Specialized study is taken in the junior and senior years within a department of the college, where the program is tailored to the student's preparation, interests, and career goals.

The specific requirements for each major are outlined. Students must consult their academic advisors each semester before they can register for classes.

Graduating with Honors (p. 1840)

Programs

MAJORS

- Aerospace Engineering
- Biological Engineering
- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Combination Degrees
- Computer Engineering
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science
- Electrical Engineering
- Engineering | Exploring Engineering Studies
- Environmental Engineering

- Industrial and Systems Engineering
- Materials Science and Engineering
- Mechanical Engineering
- Nuclear Engineering

MINORS

- Biomechanics Minor
- Biomolecular Engineering Minor
- Computer and Information Science and Engineering Minor
- Computer and Information Science and Engineering Minor UF Online
- Electrical Engineering Minor
- Engineering Innovation Minor
- Materials Science and Engineering Minor
- Nuclear and Radiological Engineering Minor
- Sales Engineering Minor

CERTIFICATES

- Artificial Intelligence Fundamentals and Applications Certificate
- Engineering Innovation Certificate
- Engineering Leadership Certificate
- Engineering Project Management Certificate
- Packaging Engineering Certificate
- Sustainable and Resilient Energy Engineering Certificate

Computer-Related Degrees

The Herbert Wertheim College of Engineering has responsibility for teaching all computer courses included in computer-related degree programs at the University of Florida. These degrees are offered in the colleges of Business, Engineering, and Liberal Arts and Sciences.

Computer Engineering

Computer Engineering (CPE) is a joint program of the Computer and Information Science and Engineering (CISE) and the Electrical and Computer Engineering (ECE) departments. The Bachelor of Science in Computer Engineering (BSCPE) is offered by both departments and requires 126 credits for graduation.

This degree program produces a computer engineer who has the knowledge of hardware and software to build working computer systems from electronic components and to program them for a variety of tasks.

Combination Degree Programs

Qualified students can pursue a bachelor's and a master's degree concurrently. These combination-degree programs are offered in all departments within the Herbert Wertheim College of Engineering.
More Info (p. 1857)

Aerospace Engineering

Aerospace engineers are called upon to solve exciting problems of design, construction and operation of aircraft and spacecraft to meet the ever-increasing requirement for improved performance at lower unit cost. These challenges mean that aerospace engineers work at the continuously changing forefront of science, technology, and systems management.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Aerospace Engineering
- **Credits for Degree:** 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Mechanical & Aerospace Engineering (MAE) graduates many exceptional mechanical and aerospace engineers each year. The Mechanical Engineering program celebrated its 100 year anniversary in 2009 and is one of the founding departments of the Herbert Wertheim College of Engineering. Starting within mechanical as an aeronautical option, the Aeronautical Engineering program was founded in 1946. It grew to become the Aerospace Engineering program, which merged with Engineering Science and Mechanics in 1969. All these programs united (or reunited) in 2002. Going strong into the 21st century, MAE remains a vibrant and intellectually diverse program at both the undergraduate and graduate levels.

Curriculum

- Aerospace Engineering
- Biomechanics Minor
- Combination Degrees
- Mechanical Engineering
- Sustainable and Resilient Energy Engineering Certificate

The undergraduate curriculum in Aerospace Engineering is a fully accredited baccalaureate program that provides a broad education with a strong foundation in mathematics, science, and basic engineering sciences. Advanced courses in aeronautics and astronautics complete the degree. Graduates will be prepared to work in the aerospace and related industries or to pursue graduate study.

Combination Bachelor's/Master's Degree Program

The Aerospace Engineering professional often benefits from an advanced degree to meet the challenging needs of industry and government. Accordingly, the Department of Mechanical and Aerospace Engineering (MAE) actively participates in the combination BS/MS degree program that allows students to double-count graduate courses toward both degrees. The combination-degree program reduces the cost for both degrees and enhances the student's marketability for career advancement. Interested students should contact the Department of Mechanical and Aerospace Engineering or its website for more information.

Department Requirements

Minimum grades of C are required for EGM 2511 , EGM 3401, EGM 3520, EGM 3344, and EML 3100. The minimum grade of C is considered part of the prerequisite requirement for courses that list EGM 2511, EGM 3401, EGM 3520, EGM 3344, or EML 3100 as a prerequisite. The prerequisite course and subsequent course cannot be taken in the same term, even if the prerequisite is being repeated.

An Aerospace or Mechanical Engineering student whose cumulative, upper-division or department grade point average falls below a 2.0 or whose critical-tracking grades do not meet department requirements will be placed on academic probation and required to complete a probation contract with an MAE academic advisor. Students normally are allowed a maximum of two terms (consecutive or non-consecutive) on academic probation. Students who do not satisfy the conditions of the first term on probation may be dismissed from the department.

All graduating seniors must complete an exit interview.

Dual-Degree Programs

There is great overlap between the aerospace engineering and mechanical engineering curriculum. The first six semesters of the two degree programs are identical. Through proper selection of electives, students can earn dual mechanical engineering/aerospace engineering BS degrees with one semester of additional work. Interested students should contact the Department of Mechanical and Aerospace Engineering or its website for more information.

Educational Objectives

The program educational objectives of the aerospace engineering undergraduate program are to ensure that within a few years of graduation:

- Graduates will meet or exceed the expectations of employers of aerospace engineers.
- Qualified graduates will continue their professional development by pursuing advanced study if they so desire.

Mission

- Serve the state of Florida, the United States and the engineering profession by providing a high-quality educational experience in aerospace engineering
- Enhance student learning with extracurricular opportunities including undergraduate research mentored by nationally recognized researchers
- Foster ongoing professional development of students, faculty, and staff

Research Programs

The department's active research programs are sponsored by private industry, the National Science Foundation, Department of Defense, NASA, National Institutes of Health and other agencies. These programs keep faculty at the leading edge of technology and provide opportunities for students to participate in research through classroom assignments, individual studies, undergraduate research scholarships and employment as research assistants.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 8 critical-tracking courses with a minimum grade of C within two attempts:
  CHM 2045 or CHM 2095, EML 2023, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.8 GPA required for the group of 8 critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete an additional 2 of 8 critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for the group of 8 critical-tracking courses
- 2.0 UF GPA required

SEMESTER 3

- Complete an additional 2 of 8 critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for the group of 8 critical-tracking courses
- 2.0 UF GPA required

SEMESTER 4

- Complete the remaining 2 of 8 critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for the group of 8 critical-tracking courses
- 2.0 UF GPA required

SEMESTER 5

- Meet all Semester 1-4 critical-tracking requirements
- 2.0 UF GPA required

SEMESTER 6

- Complete EGM 3344 with minimum grade of C
- Complete EGM 3401 with minimum grade of C
- Complete EAS 4101
- Complete EGM 3520 with minimum grade of C
- 2.0 UF GPA required

SEMESTER 7

- Complete MAP 4305
- Complete EML 4312
- Complete EAS 4132
- Complete EML 3301C
- 2.0 UF GPA required

SEMESTER 8

- Complete EAS 4510
- Complete EAS 4400
- Complete EAS 4200
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities) [1]		3
CHM 2045 or CHM 2095	General Chemistry 1 (**Critical Tracking**; Gen Ed Physical Sciences) or Chemistry For Engineers 1	3
CHM 2045L	General Chemistry Laboratory (Gen Ed Physical Sciences)	1
EML 2920	Department and Professional Orientation	1
ENC 1101 or ENC 1102	Expository and Argumentative Writing (Writing Requirement: 6,000 words) [1,2] or Argument and Persuasion	3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
	Credits	**15**
Semester Two		
COP 2273	Python Programming for Engineers	3
EML 2023	Computer Aided Graphics and Design (**Critical Tracking**)	3
ENC 2256	Writing in the Disciplines (State Core Gen Ed Composition (p. 80); Writing Requirement: 6,000 words)	3
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2048	Physics with Calculus 1 (**Critical Tracking**; State Core Gen Ed Physical Sciences)	3
PHY 2048L	Laboratory for PHY 2048 (Gen Ed Physical Sciences)	1
	Credits	**17**
Semester Three		
COP 2271	Computer Programming for Engineers (take the Matlab section)	2
EAS 2011	Introduction to Aerospace Engineering	3
EGM 2511	Engineering Mechanics: Statics [3]	3
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2049	Physics with Calculus 2 (**Critical Tracking**; Gen Ed Biological and Physical Sciences)	3
PHY 2049L	Laboratory for PHY 2049 (Gen Ed Physical Sciences)	1
	Credits	**16**
Semester Four		
Quest 2 (Gen Ed Biological or Physical Sciences) [5]		3
EGM 3344	Introduction to Numerical Methods of Engineering Analysis [3]	3
EGM 3520	Mechanics of Materials [3]	3
EML 2322L	Design and Manufacturing Laboratory	2
EML 3100	Thermodynamics [3]	3
MAP 2302	Elementary Differential Equations (**Critical Tracking**)	3
	Credits	**17**
Semester Five		
EAS 4101	Aerodynamics	3
EEL 3003	Elements of Electrical Engineering [4]	3

EGM 3401	Engineering Mechanics: Dynamics [3]	3
EMA 3010	Materials	3
MAP 4305	Differential Equations for Engineers and Physical Scientists	3
Gen Ed Social and Behavioral Sciences; Writing Requirement: 6,000 words [1]		3
	Credits	**18**
Semester Six		
EAS 4132	Compressible Flow	3
EAS 4510	Astrodynamics	3
EML 3301C	Mechanics of Materials Laboratory (Writing Requirement: 6,000 words)	3
EML 4312	Control of Dynamic Systems	3
Approved Aerospace elective		3
	Credits	**15**
Semester Seven		
EAS 4200	Aerospace Structures	3
EAS 4400	Stability and Control of Aircraft	3
EAS 4810C	Aerospace Sciences Lab and Design	3
State Core Gen Ed Humanities (p. 80) [1]		3
Approved Aerospace elective		3
	Credits	**15**
Semester Eight		
EAS 4300	Aerospace Propulsion	3
EAS 4700 or EAS 4710	Aerospace Design 1 or Aerospace Design 2	3
State Core Gen Ed Social and Behavioral Sciences (p. 80) [1]		3
Approved Technical electives		6
	Credits	**15**
	Total Credits	**128**

1. Students are also expected to complete the Gen Ed International requirement. This is often done concurrently with another General Education requirement (typically, Gen Ed Composition, Gen Ed Humanities or Gen Ed Social and Behavioral Sciences).
2. ACT/SAT placement scores do not exempt this requirement.
3. Minimum grade of C required.
4. Can substitute EEL 3111C.
5. Students should select a Quest 2 course that is either Gen Ed Physical or Biological Science. Upper-division transfer students exempt from the Quest 2 course requirement must select one of the following to meet the Science Elective Requirement: BSC 2010 or CHM 2046 (see transfer admissions on department website).

Approved Electives

Aerospace Electives | Select Two

Code	Title	Credits
EAS 4240	Aerospace Composites	3
EAS 4412	Dynamics and Control of Space Vehicles	3
EML 4140	Heat Transfer	3
EML 4220	Vibrations	3
EML 4507	Finite Element Analysis and Design	3
Any graduate-level course taught by the MAE department		3

More Info (https://mae.ufl.edu/students/undergraduate/advising-curriculum/)

Academic Learning Compact

Aerospace engineers solve exciting problems of design, construction and operation of aircraft and spacecraft to meet the ever-increasing requirement for improved performance at lower unit cost. The undergraduate curriculum provides a broad education with a strong foundation in mathematics, science and basic engineering sciences. Advanced courses in aeronautics and astronautics complete the degree program and prepares students to work in aerospace industries or to pursue graduate study.

The Aerospace Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=05%7C01%7CDMAYH%40eng.ufl.edu%7C71f1da0d2bb2405acf0908db1519ea82%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C638126973271417574%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=IS6uc6S7IvXdX9QyR6L%2B9EJPkbAYPGg3OA7DmEOIuN4%3D&reserved=0), under the General Criteria and the Program Criteria for Aerospace and Similarly Named Engineering Programs.

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of mathematics, science and engineering principles to aerospace engineering problems.
2. Design and conduct aerospace engineering experiments, analyzing and interpreting the data.

Critical Thinking

3. Design an aerospace engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication

4. Communicate technical data and design information effectively in writing and in speech to other aerospace engineers.

Artificial Intelligence Fundamentals and Applications Certificate

The AI Fundamentals and Applications Certificate is intended for undergraduates of all majors (both technical and non-technical) to understand fundamentals of Artificial Intelligence, its applications to real world problems in various disciplines, and ethical and professional responsibilities of these technologies. The certificate consists of a required fundamentals course, a college specific application course and an ethics course. Students use high level AI tools and apply them to problems in their disciplines.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Credits:** 9 | Completed with minimum grades of C
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Admission Criteria

Junior standing or higher in any major and MAC 1147 or equivalent. Some elective courses require prerequisites which are fulfilled by the majors indicated.

Required Courses

Code	Title	Credits
EEL 3872	Artificial Intelligence Fundamentals	3
PHI 3681	Ethics, Data, and Technology	3
College-specific course (select one):		3
Agricultural and Life Sciences		
ALS 3200C	AI in Agricultural and Life Sciences	
Business		
QMB 3302	Foundations of Business Analytics and Artificial Intelligence (AI)	
Design, Construction, and Planning		
DCP 4300	AI in the Built Environment	
Education		
EDP 3211	Cognitive and Educational Science in AI	
Engineering		
BME 4760	Biomedical Data Science	
CAP 3032	Interactive Modeling and Animation 1	
EEE 4773	Fundamentals of Machine Learning	
ESI 4610	Introduction to Data Analytics	
Health and Human Performance		
APK 4720	Artificial Intelligence for Movement Sciences	
HFT 4442	Artificial Intelligence Revolutions and Applications in Tourism, Hospitality, and Events	
Journalism and Communication		
ADV 3330	Artificial Intelligence and Advertising	
ADV 4331	AI-Driven Social Media Insight	
JOU 3365	Artificial Intelligence in Media and Society	
Liberal Arts and Sciences		
BSC 4892	AI in Biology	
CAP 3032	Interactive Modeling and Animation 1	
CLA 3811	AI in Antiquity and Today	
GIS 4123C	GeoAI – Geographic Artificial Intelligence	
IDS 3750	Artificial Intelligence in the Social Sciences	
WST 4002	Data Feminisms	
Public Health and Health Professions		
PHC 3793	Higher Thinking for Healthy Humans: AI in Healthcare and Public Health	

PHC 4796C	Artificial Intelligence in Psychological and Brain Sciences	
Total Credits		**9**

Biological Engineering

Biological Engineering (BE) applies engineering principles to protect natural resources and to produce food, biofuels, pharmaceuticals, and other biobased products. BE incorporates foundations of biology with engineering theory and practice to develop sustainable solutions to problems facing a broad range of industries.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Biological Engineering
- **Specializations:** Agricultural Production Engineering (p. 804) | Biosystems Engineering (p. 808) | Land and Water Resources Engineering (p. 813) | Packaging Engineering (p. 818)
- **Credits for Degree:** 128
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

Curriculum

- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

Biological engineers pioneer new designs and techniques in such areas as agricultural robotics, remote sensing, bioprocessing, biofuels, precision agriculture, plant space biology, sustainability of natural resources, and packaging product design and development.

Graduates are educated in the biological and environmental sciences as well as in engineering. They will address critical problems involving land and water resources, biological systems, production agriculture and innovations in packaging. Students can choose a focus area based on their courses of specialization and individual selection of electives. Areas of specialization are biosystems engineering, land and water resources engineering, packaging engineering, and agricultural production engineering.

In addition to abundant job opportunities in Florida's agricultural industry, graduates have career opportunities in biotechnology and in fields related to Florida's water quality and water resources, including water management districts, environmental companies, consulting firms, equipment manufacturers, bio-energy, food engineering and the packaging industry.

The BE curriculum can also fulfill requirements for admission to professional programs as well as to graduate programs including biomedical engineering, civil engineering and mechanical engineering.

Educational Objectives

Graduates from the University of Florida's undergraduate degree program in biological engineering will be prepared for at least one of the following:

- Successful careers in the profession of biological engineering or other related fields.
- Gaining admission to a graduate and/or professional degree program.

Goals

To develop biological engineering professionals with technical proficiency and societal responsibility.

Mission

The department will develop professionals, create and disseminate knowledge, and promote the application of engineering and management principles to meet societal needs with respect to agriculture, packaging, land and water resources, and biological systems.

Academic Learning Compact

The curriculum emphasizes engineering solutions to problems associated with biological and agricultural systems that often are related to renewable natural resources. Students gain knowledge through formal courses, laboratory experimentation and individual experience. Students will learn to utilize math, science and engineering principles to analyze and interpret data, to design and conduct experiments, systems and components and to effectively communicate results within an appropriate presentation style.

The Biological Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=05%7C01%7CDMAYH%40eng.ufl.edu%7C71f1da0d2bb2405acf0908db1519ea82%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C638126973271417574%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=IS6uc6S7IvXdX9QyR6L%2B9EJPkbAYPGg3OA7DmEOIuN4%3D&reserved=0), under the General Criteria and the Program Criteria for Biological and Similarly Named Engineering Programs.

Before Graduating Students Must

- Pass assessment by two or more faculty and/or industry practitioners of student performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 8 tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- Complete EGM 3520
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete ENC 3246

Semester 7

- Complete ABE 3000C

Semester 8

- Complete ABE 4042C

Semester 9

- Complete ABE 4043C

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Writing Requirement, if needed)		3
Gen Ed Biological Sciences and Physical Sciences; **Critical Tracking** (select one:)		4
CHM 2045	General Chemistry 1	
& 2045L	and General Chemistry Laboratory	
CHM 2095	Chemistry For Engineers 1	
& CHM 2045L	and General Chemistry Laboratory

- Packaging Science Minor
- Precision Agriculture Minor

Biological engineers pioneer new designs and techniques in such areas as agricultural robotics, remote sensing, bioprocessing, biofuels, precision agriculture, plant space biology, sustainability of natural resources, and packaging product design and development.

Graduates are educated in the biological and environmental sciences as well as in engineering. They will address critical problems involving land and water resources, biological systems, production agriculture and innovations in packaging. Students can choose a focus area based on their courses of specialization and individual selection of electives. Areas of specialization are biosystems engineering, land and water resources engineering, packaging engineering, and agricultural production engineering.

In addition to abundant job opportunities in Florida's agricultural industry, graduates have career opportunities in biotechnology and in fields related to Florida's water quality and water resources, including water management districts, environmental companies, consulting firms, equipment manufacturers, bio-energy, food engineering and the packaging industry.

The BE curriculum can also fulfill requirements for admission to professional programs as well as to graduate programs including biomedical engineering, civil engineering and mechanical engineering.

Educational Objectives

Graduates from the University of Florida's undergraduate degree program in biological engineering will be prepared for at least one of the following:

- Successful careers in the profession of biological engineering or other related fields.
- Gaining admission to a graduate and/or professional degree program.

Goals

To develop biological engineering professionals with technical proficiency and societal responsibility.

Mission

The department will develop professionals, create and disseminate knowledge, and promote the application of engineering and management principles to meet societal needs with respect to agriculture, packaging, land and water resources, and biological systems.

Biosystems Engineering

Code	Title	Credits

Critical Tracking

courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 8 tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- Complete EGM 3520
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete ENC 3246

Semester 7

- Complete ABE 3000C

Semester 8

- Complete ABE 4042C

Semester 9

- Complete ABE 4043C

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Writing Requirement, if needed)		3
Gen Ed Biological Sciences and Physical Sciences; **Critical Tracking**. Select one:		4
CHM 2045	General Chemistry 1	
& 2045L	and General Chemistry Laboratory	
CHM 2095	Chemistry For Engineers 1	
& CHM 2045L	and General Chemistry Laboratory	
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4

State Core Gen Ed Humanities with International; Writing Requirement, if needed		3
State Core Gen Ed Social and Behavioral Sciences with International; Writing Requirement, if needed		3
	Credits	**17**

Academic Learning Compact

The curriculum emphasizes engineering solutions to problems associated with biological and agricultural systems that often are related to renewable natural resources. Students gain knowledge through formal courses, laboratory experimentation and individual experience. Students will learn to utilize math, science and engineering principles to analyze and interpret data, to design and conduct experiments, systems and components and to effectively communicate results within an appropriate presentation style.

The Biological Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=05%7C01%7CDMAYH%40eng.ufl.edu%7C71f1da0d2bb2405acf0908db1519ea82%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C638126973271417574%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=IS6uc6S7IvXdX9QyR6L%2B9EJPkbAYPGg3OA7DmEOIuN4%3D&reserved=0), under the General Criteria and the Program Criteria for Biological and Similarly Named Engineering Programs.

Before Graduating Students Must

- Pass assessment by two or more faculty and/or industry practitioners of student performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of mathematics, science, and engineering principles to biological engineering problems. Students will be able to apply fundamental concepts, skills, and processes in biological engineering.
2. Design and conduct biological and/or agricultural engineering experiments, analyzing and interpreting the data in biological engineering.

Critical Thinking

3. Design a biological and/or agricultural system, component, or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability constraints in biological engineering.

Communication

4. Communicate technical data and design information effectively in writing and in speech to other engineers in biological engineering.

Land and Water Resources Engineering

Biological Engineering (BE) applies engineering principles to protect natural resources and to produce food, biofuels, pharmaceuticals, and other biobased products. BE incorporates foundations of biology with engineering theory and practice to develop sustainable solutions to problems facing a broad range of industries.

About this Program

Curriculum

- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

Biological engineers pioneer new designs and techniques in such areas as agricultural robotics, remote sensing, bioprocessing, biofuels, precision agriculture, plant space biology, sustainability of natural resources, and packaging product design and development.

Graduates are educated in the biological and environmental sciences as well as in engineering. They will address critical problems involving land and water resources, biological systems, production agriculture and innovations in packaging. Students can choose a focus area based on their courses of specialization and individual selection of electives. Areas of specialization are biosystems engineering, land and water resources engineering, packaging engineering, and agricultural production engineering.

In addition to abundant job opportunities in Florida's agricultural industry, graduates have career opportunities in biotechnology and in fields related to Florida's water quality and water resources, including water management districts, environmental companies, consulting firms, equipment manufacturers, bio-energy, food engineering and the packaging industry.

The BE curriculum can also fulfill requirements for admission to professional programs as well as to graduate programs including biomedical engineering, civil engineering and mechanical engineering.

Educational Objectives

Graduates from the University of Florida's undergraduate degree program in biological engineering will be prepared for at least one of the following:

- Successful careers in the profession of biological engineering or other related fields.
- Gaining admission to a graduate and/or professional degree program.

Goals

To develop biological engineering professionals with technical proficiency and societal responsibility.

Mission

The department will develop professionals, create and disseminate knowledge, and promote the application of engineering and management principles to meet societal needs with respect to agriculture, packaging, land and water resources, and biological systems.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 8 tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- Complete EGM 3520
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete ENC 3246

Semester 7

- Complete ABE 3000C

Semester 8

- Complete ABE 4042C

Semester 9

- Complete ABE 4043C

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The curriculum emphasizes engineering solutions to problems associated with biological and agricultural systems that often are related to renewable natural resources. Students gain knowledge through formal courses, laboratory experimentation and individual experience. Students will learn to utilize math, science and engineering principles to analyze and interpret data, to design and conduct experiments, systems and components and to effectively communicate results within an appropriate presentation style.

The Biological Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=05%7C01%7CDMAYH%40eng.ufl.edu%7C71f1da0d2bb2405acf0908db1519ea82%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C638126973271417574%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=IS6uc6S7IvXdX9QyR6L%2B9EJPkbAYPGg3OA7DmEOIuN4%3D&reserved=0), under the General Criteria and the Program Criteria for Biological and Similarly Named Engineering Programs.

Before Graduating Students Must

- Pass assessment by two or more faculty and/or industry practitioners of student performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of mathematics, science, and engineering principles to biological engineering problems. Students will be able to apply fundamental concepts, skills, and processes in biological engineering.
2. Design and conduct biological and/or agricultural engineering experiments, analyzing and interpreting the data in biological engineering.

Critical Thinking

3. Design a biological and/or agricultural system, component, or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability constraints in biological engineering.

Communication

4. Communicate technical data and design information effectively in writing and in speech to other engineers in biological engineering.

- Design projects and reports

Biomechanics Minor

Biomechanics, a subfield of biomedical engineering, blends the life sciences with the traditional engineering disciplines of dynamics, solid mechanics, and fluid mechanics.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Credits:** 15-17

Department Information

The Department of Mechanical & Aerospace Engineering (MAE) graduates many exceptional mechanical and aerospace engineers each year. The Mechanical Engineering program celebrated its 100 year anniversary in 2009 and is one of the founding departments of the Herbert Wertheim College of Engineering. Starting within mechanical as an aeronautical option, the Aeronautical Engineering program was founded in 1946. It grew to become the Aerospace Engineering program, which merged with Engineering Science and Mechanics in 1969. All these programs united (or reunited) in 2002. Going strong into the 21st century, MAE remains a vibrant and intellectually diverse program at both the undergraduate and graduate levels.

Any second course remaining from list of required courses		3

Biomedical Engineering

The Biomedical Engineering (BME) field has grown rapidly in the last 20 years. This growth was fueled by breakthroughs in molecular biology and many engineering technologies, symbolized by the Human Genome Project, arguably the greatest biomedical engineering accomplishment ever, and realized with creation of the National Institute of Biomedical Imaging and Bioengineering. BME now is clearly recognized as an integral part of the nation's and the world's efforts to deliver more effective and efficient medical care.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Biomedical Engineering
- **Credits for Degree:** 128
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The J. Crayton Pruitt Family Department of Biomedical Engineering (BME) is part of the Herbert Wertheim College of Engineering and is a prime resource for biomedical engineering education, training, research, and technology development. BME is an ever-evolving field that uses and applies engineering principles to the study of biology and medicine in order to improve health care.

Curriculum

- Biomedical Engineering
- Combination Degrees

A biomedical engineer uses traditional engineering expertise to analyze and solve problems in biology and medicine, providing an overall enhancement of health care. Students choose biomedical engineering to serve people, to work with living systems and to apply advanced technology to the complex problems of medical care. The biomedical engineer is called upon to design instruments, devices and software, to bring together knowledge from many technical sources to develop new procedures and to conduct the research needed to solve clinical problems.

Bioengineering integrates sciences and engineering for the study of biology, medicine, behavior or health. It advances fundamental concepts, creates knowledge for the molecular to the organ systems levels, and develops innovative biologics, materials, processes, implants and devices. Biomedical engineers create informatics approaches to prevent, diagnose and treat disease, applying systematic, quantitative and integrative thinking and solutions to problems important to biology, medical research and population studies.

BME typically is among the three most popular engineering majors and very often is the largest. The job market in biomedical engineering is the fastest growing of all engineering disciplines. It has become clear that the nation needs a variety of engineers with knowledge of biomedicine, including a cadre of exceptional people whose education thoroughly immerses them in engineering and biomedicine. The intellectual foundation of this limited-access undergraduate program is captured in this vision: Biomedicine comprises the science core while engineering provides the framework for inquiry. The curriculum incorporates exceptional rigor in both.

Educational Objectives

The program educational objectives of the J. Crayton Pruitt Family Department of Biomedical Engineering undergraduate program are that our graduates will, within a few years of graduation:

1. Have successful careers in a multi-disciplinary, global industry and/or have excelled in, top graduate programs or medical schools.
2. Become active leaders in their profession, creating ethical and socially beneficial solutions to human health problems.

Department Vision Statement

The faculty, students, and alumni of the J. Crayton Pruitt Family Department of Biomedical Engineering will lead in the discovery and development of innovative biomedical solutions to improve healthcare in the State of Florida and worldwide. To achieve this vision, the department will leverage the unique co-localization of talent and resources in engineering, biology, medicine, veterinary science, dentistry, and technology commercialization at the University of Florida, thereby maximizing opportunities for interdisciplinary student education and clinical translation of technologies to improve human health.

Department Mission

The J. Crayton Pruitt Family Department of Biomedical Engineering at the University of Florida is dedicated to developing innovative and clinically translatable biomedical technologies, educating future generations of biomedical engineers, and cultivating leaders, by nurturing the integration of engineering, science, and healthcare in a collaborative and dynamic educational and research environment.

Admission Requirements

The biomedical engineering undergraduate major is a limited enrollment program. Students who enter the University of Florida as freshmen identify pre-BME as their major of choice and begin enrolling in the required critical tracking courses to prepare for upper division.

During the fall semester of sophomore year (Semester 3), pre-BME majors apply for admission to the upper division major, which begins in the Spring semester of sophomore year (Semester 4).

Current UF students must meet the following minimum requirements to be considered for admission to the upper division program.

- Minimum 2.8 grade point average in critical tracking courses (best attempt)*
- No more than two attempts allowed for each critical tracking course (withdrawals included)
- Minimum grade of C in each critical tracking course
- Completion or active enrollment of the first three semesters of the Model Plan of Study by Fall semester of application
- BME Departmental online application

*Only the best attempt in each critical tracking course is considered for admission to the upper division program.

All application requirements and details are available on the department website.
More Info (https://www.bme.ufl.edu/academics/bme-undergraduate-program/undergraduate-admissions/)

Department Requirements

Minimum grades of C are required for BME 3508, BME 3053C, CHM 3217, COP 2271, COP 2271L, EEL 3003, and ENC 3246. The minimum C grade is part of the prerequisite requirement for several 3000/4000-level BME courses. The prerequisite course and subsequent course cannot be taken in the same term, even if the prerequisite is being repeated.

All BME Electives must be selected from an approved list. Students may petition to take courses not included in the approved list toward this requirement. The BME Electives allow students to explore topic areas within their interests and are designed to build upon biomedical engineering foundation courses and laboratories.

A biomedical engineering student whose cumulative, upper-division or department grade point average falls below a 2.0 or whose critical tracking grades do not meet department requirements will be placed on academic probation and be required to complete a probation contract with a BME academic advisor. Students normally are allowed a maximum of two terms (consecutive or non-consecutive) on academic probation. Students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

All graduating seniors must complete an exit interview with their advisor before graduating.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 3 of 11 critical-tracking courses with minimum grades of C within two attempts: BSC 2010; CHM 2045 or CHM 2095; CHM 2046 or CHM 2096; MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048; PHY 2049; BME 3060 and PCB 3713C
- 2.8 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

Semester 2

- Complete 3 additional critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

Semester 4

- Complete all critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

Semester 5

- Complete 4 of the remaining critical-tracking courses (lower division)
- 2.0 UF GPA required

Semester 6

- Complete 3 of the remaining critical-tracking courses (upper division)
- 2.0 UF GPA required

Semester 7

- Complete 3 of the remaining critical-tracking courses (upper division)
- 2.0 UF GPA required

Semester 8

- Complete all remaining Biomedical Engineering critical-tracking courses (upper division)
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

This program is limited access and competitive. Students cannot register for courses in semesters 5-8 before they have been admitted to the biomedical engineering major.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities) [1,2]		3
BME 1008	Introduction to Biomedical Engineering	1
BSC 2010	Integrated Principles of Biology 1 (**Critical Tracking**; Gen Ed Biological Sciences)	3
BSC 2010L	Integrated Principles of Biology Laboratory (Gen Ed Biological and Physical Sciences)	1
Select one:		3
CHM 2045	General Chemistry 1 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2095	Chemistry For Engineers 1 (**Critical Tracking**)	
CHM 2045L	General Chemistry Laboratory (Gen Ed Physical Sciences)	1
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; Gen Ed Mathematics)	4
	Credits	**16**
Semester Two		
Select one:		3
CHM 2046	General Chemistry 2 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2096	Applied General Chemistry 2 (**Critical Tracking**)	
CHM 2046L	General Chemistry 2 Laboratory (Gen Ed Physical Sciences)	1
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80); Writing Requirement: 6,000 words) [1]	3
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
PHY 2048	Physics with Calculus 1 (**Critical Tracking**; State Core Gen Ed Physical Sciences)	3
PHY 2048L	Laboratory for PHY 2048 (Gen Ed Physical Sciences)	1
	Credits	**15**
Semester Three		
Quest 2 (Gen Ed Social and Behavioral Science; Writing Requirement) [1,2]		3
CHM 3217	Organic Chemistry/Biochemistry 1 [3]	4
COP 2271	Computer Programming for Engineers [4]	2
COP 2271L	Computer Programming for Engineers Laboratory [4]	1
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2049	Physics with Calculus 2 (**Critical Tracking**; Gen Ed Physical Sciences)	3
PHY 2049L	Laboratory for PHY 2049 (Gen Ed Physical Sciences)	1
	Credits	**18**
Semester Four		
BME 3053C	Computer Applications for BME	2
BME 3060	Biomedical Fundamentals (**Critical Tracking**)	3
EEL 3003	Elements of Electrical Engineering	3
MAP 2302	Elementary Differential Equations (**Critical Tracking**; Gen Ed Mathematics)	3
PCB 3713C	Cellular and Systems Physiology (**Critical Tracking**)	4
Gen Ed Composition; Writing Requirement: 6,000 words [3,5]		3
	Credits	**18**
Semester Five		
BME 3101	Biomedical Materials	3
BME 3508	Biosignals and Systems (**Critical Tracking**)	3
BME 4311	Molecular Biomedical Engineering (**Critical Tracking**)	3-4
or BCH 4024	or Introduction to Biochemistry and Molecular Biology	
BME 4503	Biomedical Instrumentation (**Critical Tracking**)	3
BME 4503L	Biomedical Instrumentation Laboratory (**Critical Tracking**)	1
EGM 2511	Engineering Mechanics: Statics	3
	Credits	**16-17**
Semester Six		
BME 3012	Clinically-Inspired Engineering Design (**Critical Tracking**)	3
BME 3323L	Cellular Engineering Laboratory (**Critical Tracking**)	3
BME 4632	Biomedical Transport Phenomena (**Critical Tracking**)	3
STA 3032	Engineering Statistics	3
BME elective [5]		3
	Credits	**15**

Semester Seven		
BME 4409	Quantitative Physiology (**Critical Tracking**)	3
BME 4621	Biomolecular Thermodynamics and Kinetics (**Critical Tracking**)	3
BME 4882	Senior Design, Professionalism and Ethics 1 (**Critical Tracking**)	3
State Core Gen Ed Social and Behavioral Sciences; Writing Requirement [1,2]		3
BME electives [5]		3
	Credits	**15**
Semester Eight		
BME 4531	Medical Imaging (**Critical Tracking**)	3
BME 4883	Senior Design, Professionalism and Ethics 2 (**Critical Tracking**)	3
State Core Gen Ed Humanities (p. 80) [1,2]		3
BME electives [2]		6
	Credits	**15**
	Total Credits	**128**

1. To meet the Writing Requirement the number of words across courses should total 24,000 words.
2. Students are also expected to complete the Gen Ed International requirement. This is often done concurrently with another General Education requirement (typically, Gen Ed Composition, Gen Ed Humanities, or Gen Ed Social and Behavioral).
3. Can substitute CHM 2210 and CHM 2211.
4. Course and corresponding laboratory to be completed in same language (Matlab or C++).
5. BME Electives: A total of 12 credits of 3000/4000-level courses (9 credits of BME electives selected from the departmentally approved list and 3 credits are free credits (any courses at the 2000-level or above), both of which must be selected from an approved list).

Students are also expected to complete the General Education International (GE-N) requirement. This is often done concurrently with another General Education requirement (typically, GE-C, H, or S).

Academic Learning Compact

Biomedical Engineering blends traditional engineering techniques with biological sciences and medicine to improve the quality of human health and life. The discipline focuses on understanding complex living systems via experimental and analytical techniques and on development of devices, methods and algorithms that advance medical and biological knowledge while improving the effectiveness and delivery of clinical medicine.

The Biomedical Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=05%7C01%7CDMAYH%40eng.ufl.edu%7C71f1da0d2bb2405acf0908db1519ea82%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C638126973271573797%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=Dc6bpEcUU8fM3vMsOTj6pGPQgyLzoSeoS8v2s%2BFVnBE%3D&reserved=0), under the General Criteria and the Program Criteria for Bioengineering and Biomedical and Similarly Named Engineering Programs.

Before Graduating Students Must

- Pass assessment by two or more faculty and/or industry practitioners of student performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in the final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Biomolecular Engineering Minor

This minor is for engineering and science students who desire knowledge of diverse biomedical and biotechnological applications encompassing biomolecular function, interactions and transport.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Credits:** 15-16 | Completed with minimum grades of C

Department Information

As Chemical Engineers, the career options for students will be diverse and exciting. Students will develop the skills needed to design processes to produce anything made by chemical or biological means, including consumer products, food and beverages, pharmaceuticals, specialty chemicals, semiconductors, biomaterials, pulp and paper, polymers, and more. Chemical Engineers use their knowledge of all branches of science and mathematics (not just chemistry) to solve problems at a variety of scales—from developing materials with features at the nanoscale all the way to designing a 250-foot-tall distillation tower and everything in between.

ECH 4XXX	Bioprocess Engineering and Bioseparations [3]	3
Select two:		5-6
ABE 3000C	Applications in Biological Engineering	
ABE 4662	Quantification of Biological Processes	
ABE 5442	Advanced Agricultural Process Engineering	
BME 4220	Biomolecular Cell Mechanics	
BME 4321	Dynamics of Cellular Processes	
ECH 4XXX	Pharmaceutical Bioengineering	
ECH 4905	Special Problems in Chemical Engineering [1]	
EGN 4912	Engineering Directed Independent Research [2]	
Total Credits		**15-16**

1 Students majoring in Biomedical Engineering may substitute BME 3060 (3 credits) for ECH 3023 (4 credits).
2 Nanoscale Transport and other approved electives.
3 Research problems related to biomolecular engineering.

Chemical Engineering

Although Chemical Engineering has existed for only 100 years, its name is no longer completely descriptive of this dynamic profession. The work of the chemical engineer is not restricted to the chemical industry, chemical changes, or chemistry. Instead, modern chemical engineers are concerned with all the physical, chemical, and biological changes of matter that can produce an economic product or result that is useful to humankind.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Chemical Engineering
- **Credits for Degree:** 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

As Chemical Engineers, the career options for students will be diverse and exciting. Students will develop the skills needed to design processes to produce anything made by chemical or biological means, including consumer products, food and beverages, pharmaceuticals, specialty chemicals, semiconductors, biomaterials, pulp and paper, polymers, and more. Chemical Engineers use their knowledge of all branches of science and mathematics (not just chemistry) to solve problems at a variety of scales—from developing materials with features at the nanoscale all the way to designing a 250-foot-tall distillation tower and everything in between.

Curriculum

- Biomolecular Engineering Minor
- Chemical Engineering
- Combination Degrees

The education of the chemical engineer is based on the fundamental sciences of physics, chemistry and biology, on mathematical and computer techniques, and on basic engineering principles. This background makes the chemical engineer extremely versatile and capable of working in a variety of industries: chemical, biochemical, petroleum, materials, microelectronics, environmental, food processing, consumer products, consulting and project management. It is also good preparation for law and medical schools.

Department Requirements

Successful applicants must have earned a minimum 2.5 grade point average in the better of two attempts of the eight preprofessional courses and a minimum 2.5 grade point average in the better of two attempts of the preprofessional calculus course sequence.

For the purposes of determining admission to or retention in the department, grade point averages will be based on no more than two attempts for each course. Students must maintain satisfactory progress (minimum GPA of 2.0) in chemical engineering courses and in their overall record.

Minimum grades of C are required in the courses listed below. These must be achieved within two enrollments (including drops and/or withdrawals) for each course, with the exception of ECH 4714, for which the number of attempts allowed to earn a C is not limited.

Code	Title	Credits
ECH 3023	Material and Energy Balances	4
ECH 3101	Process Thermodynamics	4
ECH 3203	Fluid and Solid Operations	3
ECH 3223	Energy Transfer Operations	3
ECH 3264	Elementary Transport Phenomena	2
COT 3502	Computer Model Formulation	3
ECH 4714	Chemical Process Safety	3

Any course taken to satisfy a degree requirement (General Education, required course, or technical elective) cannot be taken S/U, with the exception of the following:

Code	Title	Credits
EGN 4912	Engineering Directed Independent Research	0-3
ECH 4948	Internship Work Experience	0-3
ECH 4949	Co-op Work Experience	0-3

Educational Objectives

Within a few years of obtaining a bachelor's degree in chemical engineering from the University of Florida, the recent graduates will achieve one or more of the following:

- Graduates will demonstrate professional engineering competence via promotions and/or positions of increasing responsibility.
- Graduates will be successful in pursuing advanced degrees in chemical engineering or in other disciplines.
- Graduates will be able to work in diverse professional environments as demonstrated in their pursuit of continuing education, professional certification/registration and/or career path into business, government, education, etc.

Chemical engineers apply math, chemistry, physics, biology, thermodynamics (classical and molecular), transport phenomena, and reaction kinetics to design products and to design, operate, control, optimize, and scale up manufacturing processes that rely on physical and bio/molecular transformations. Graduates of the Chemical Engineering undergraduate program contribute to the production of energy, including green energy, fertilizers, food and beverages, pharmaceuticals including antibiotics and vaccines, semiconductors and other components of cell phones and computers, fuel cells, batteries, consumer products, plastics, paint, paper, and a myriad of other products that benefit humankind.

Goal

To prepare students for lifelong careers in chemical engineering.

Mission

To offer high-quality undergraduate and graduate degree programs in chemical engineering and to conduct research that helps educate graduate students and serves the needs of Florida and the nation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
- Complete 2 of 8 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, COP 2273, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048
- 2.5 GPA required for all critical-tracking courses based on the best of two attempts
- 2.0 UF GPA required

Semester 2

- Complete 3 additional critical-tracking courses with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses based on the best of two attempts
- 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
- 2.0 UF GPA required

Semester 3

- Complete the remaining critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses based on the best of two attempts
- 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
- Complete ECH 2934
- Complete ECH 3023
- 2.0 UF GPA required

Semester 4

- Complete at least 4 additional upper division critical-tracking courses (reference Model Semester Plan)
- 2.0 CHE GPA required
- 2.0 UF GPA required

Semester 5

- Complete at least 4 additional upper division critical-tracking courses
- 2.0 CHE GPA required
- 2.0 UF GPA required

Semester 6

- Complete at least 5 additional upper division critical-tracking courses
- 2.0 CHE GPA required
- 2.0 UF GPA required

Semester 7

- Complete at least 4 additional upper division critical-tracking courses
- 2.0 CHE GPA required
- 2.0 UF GPA required

Semester 8

- Complete all remaining upper division critical-tracking courses
- 2.0 CHE GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities) [1,2]		3
Select one:		4
CHM 2045	General Chemistry 1	
& 2045L	and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences)	
CHM 2095	Chemistry For Engineers 1	
& 2095L	and Applied General Chemistry 1 Lab (**Critical Tracking**; State Core Gen Ed Physical Sciences)	
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Humanities (p. 80) [1,2]		3
State Core Gen Ed Social and Behavioral Sciences (p. 80) [1,2]		3
	Credits	**17**
Semester Two		
BME 2402	Introduction to Biomolecular Engineering [3]	3
Select one:		4
CHM 2046	General Chemistry 2	
& 2046L	and General Chemistry 2 Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	
CHM 2096	Applied General Chemistry 2	
& 2096L	and Applied General Chemistry 2 Lab (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80))	3
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2048	Physics with Calculus 1	4
& 2048L	and Laboratory for PHY 2048 (**Critical Tracking**; Gen Ed Physical Sciences)	
	Credits	**18**
Semester Three		
COP 2273	Python Programming for Engineers (**Critical Tracking**)	3
ECH 2934	Professional Development of Chemical Engineers (**Critical Tracking**; upper-division)	1
ECH 3023	Material and Energy Balances (**Critical Tracking**; upper-division) [2,4]	4
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**)	4
MAP 2302	Elementary Differential Equations (**Critical Tracking**)	3
	Credits	**15**
Semester Four		
COT 3502	Computer Model Formulation (**Critical Tracking**; upper-division) [2,4]	3
ECH 3101	Process Thermodynamics (**Critical Tracking**; upper-division) [2,4]	4
ECH 3264	Elementary Transport Phenomena (**Critical Tracking**; upper-division) [2,4]	2
PHY 2049	Physics with Calculus 2	4
& 2049L	and Laboratory for PHY 2049 (Gen Ed Physical Sciences)	
STA 3032	Engineering Statistics (**Critical Tracking**; upper-division)	3
or STA 2023	or Introduction to Statistics 1	
	Credits	**16**
Semester Five		
CHM 2210	Organic Chemistry 1	3
ECH 3203	Fluid and Solid Operations (**Critical Tracking**; upper-division) [2,4]	3
ECH 3223	Energy Transfer Operations (**Critical Tracking**; upper-division) [2,4]	3
ECH 4123	Phase and Chemical Equilibria (**Critical Tracking**; upper-division) [4]	3
ENC 2256	Writing in the Disciplines (**Critical Tracking**; upper-division; Gen Ed Composition)	3
	Credits	**15**
Semester Six		
CHM 2211	Organic Chemistry 2	3
ECH 4224L	Fluid and Energy Transfer Operations Laboratory (**Critical Tracking**; upper-division) [5]	2
ECH 4403	Separation and Mass Transfer Operations (**Critical Tracking**; upper-division) [4]	3

ECH 4714	Chemical Process Safety (**Critical Tracking**; upper-division)	3
Technical electives [3]		4
	Credits	**15**
Semester Seven		
CGN 3710 or EEL 3003	Experimentation and Instrumentation in Civil Engineering or Elements of Electrical Engineering	3
ECH 4404L	Separation and Mass Transfer Operations Laboratory	2
ECH 4504	Chemical Kinetics and Reactor Design (**Critical Tracking**; upper-division) [4]	4
ECH 4604	Process Economics and Optimization (**Critical Tracking**; upper-division) [4]	3
ECH 4824	Materials of Chemical Engineering (**Critical Tracking**; upper-division) [4]	2
Technical elective [3]		3
	Credits	**17**
Semester Eight		
Quest 2 (Gen Ed Social and Behavioral Sciences) [2]		3
CHM 2211L	Organic Chemistry Laboratory	2
ECH 4323 & 4323L	Process Control Theory and Process Control Laboratory	4
ECH 4644	Process Design [4,6]	3
Chemical engineering technical elective		3
	Credits	**15**
	Total Credits	**128**

1 To complete General Education requirements, a student must select a General Education course in the Humanities that features the UF Quest 1 subject area for 3 credits, a General Education course in the Social and Behavioral Science or Natural Science that features the UF Quest 2 subject area for 3 credits, and a General Education course that features the International subject area for 3 credits.

2 Minimum grade of C required.

3 Students may replace BME 2402 and a 3-credit technical elective by BSC 2010 and BSC 2011 (pre-health students are required to take BSC 2010 and BSC 2011). Pre-health students are recommended to take BSC 2010 instead of BME 2402 in Semester Two and use 7 technical elective credits for some of the courses required by the pre-health program, BSC 2010L, BSC 2011, BSC 2011L, and BCH 4024 or CHM 3218.

4 Major Critical Path courses must be taken and completed in sequence.

5 Register for ECH 4224L immediately following completion of ECH 3101, ECH 3203, and ECH 3223.

Technical Electives

Technical electives are defined as department-approved, upper-division courses with significant technical science, engineering, and/or math content. Provision is made to receive up to five credits of approved co-op, internship and/or research experience with no more than three credits coming from industry work and no more than three coming from academic research. Military courses cannot be used for technical electives.

Academic Learning Compact

The Chemical Engineering program enables students to apply knowledge of mathematics, science, and engineering principles to chemical engineering problems; to design and conduct chemical engineering experiments and to analyze and interpret the data; to design a chemical engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints; and to communicate technical data and design information effectively in speech and in writing to other chemical engineers.

The Chemical Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=05%7C01%7CDMAYH%40eng.ufl.edu%7C71f1da0d2bb2405acf0908db1519ea82%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C638126973271573797%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=Dc6bpEcUU8fM3vMsOTj6pGPQgyLzoSeoS8v2s%2BFVnBE%3D&reserved=0), under the General Criteria and the Program Criteria for Chemical, Biochemical, Biomolecular and Similarly Named Engineering Programs.

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.

- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of mathematics, science and engineering principles to chemical engineering problems.
2. Design and conduct chemical engineering experiments and analyze and interpret the data.

Critical Thinking

3. Design a chemical engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability constraints.

Communication

4. Communicate technical data and design information effectively in writing and in speech to other chemical engineers.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
ECH 2934				I
ECH 3023	I			
ECH 3101	R			
ECH 3203			I	
ECH 3264	R			
ECH 4224L		I, A		R
ECH 4323	A			
ECH 4403			R	
ECH 4404L		A		A
ECH 4504	A			
ECH 4604			A	
ECH 4644			A	A

Assessment Types

- Exams
- Oral and written reports
- Group presentations
- Co-op and internship employer evaluations
- Additional assessments include the student survey and exit interview

Civil Engineering

Civil Engineering is the oldest and most diverse branch of engineering. In its broadest sense, the civil engineer adapts the physical features of the earth to the needs of society. Civil engineering engages approximately one out of four engineers.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Civil Engineering
- **Credits for Degree:** 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Website (https://www.essie.ufl.edu/civil-coastal-engineering/)

Curriculum

- Civil Engineering
- Combination Degrees
- Industrialized Construction Engineering

Civil engineering includes the design and construction of bridges, buildings, dams, waterways, coastal protection works, airports, pipelines, space launching facilities, railroads, highways, sanitary systems, ocean structures and facilities, foundations, harbors, waterworks and many other systems and structures upon which modern civilization depends.

Department Requirements

A minimum grade of C is required for all courses marked below. A minimum GPA of 2.0 is required for all civil engineering courses. Before graduating, all BSCE students must take the Fundamentals of Engineering exam.

The basic program provides the minimum education for practice. Beyond the bachelor's degree, advanced degrees are available in geosensing, transportation, water resources, structural engineering, geotechnical engineering, construction, public works, civil engineering materials, and coastal and oceanographic engineering.

Educational Objectives

The undergraduate program in civil engineering will prepare graduates to

- Meet the needs and expectations of civil engineering employers and proceed toward the attainment of a Professional Engineering (P.E.) license;
- Continue their education and pursue advanced degrees if they so desire.

Goals

- To develop civil engineering professionals with proficiency in the fundamentals of science and engineering;
- To develop an understanding of the planning, design, construction and operation of civil engineering projects;
- To develop enhanced communication skills;
- To develop an appreciation of professionalism and ethics in the practice of engineering.

Mission

The department strives to build upon a leading program of exceptional teaching, innovative research and dedicated service by maintaining a strong curriculum, a highly qualified and committed faculty, outstanding facilities and essential funding.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 7 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

Semester 5

- Complete final lower division critical-tracking course and EGM 3400 with minimum grades of C
- Complete EGM 3520 with minimum grade of C
- 2.0 UF GPA required

Semester 6

- Complete CWR 3201, CGN 3501C, and CES 3102 with minimum grades of C
- 2.0 UF GPA required

Semester 7

- Complete 3 second-level core courses (of CEG 4012, CES 4702, CGN 4503, CWR 4202, EIN 3354) and CEG 4011
- 2.0 UF GPA required

Semester 8

- Complete CGN 4806 or CGN 4910
- Complete all remaining Civil Engineering required courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

- Complete the Fundamentals of Engineering examination.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of mathematics, science, and engineering principles to civil engineering problems.
2. Conduct civil engineering experiments, analyzing and interpreting the data.

Critical Thinking

3. Design a civil engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication

4. Communicate technical data and design information effectively in writing and in speech to other civil engineers.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
CEG 4011		A		
CES 3102	A		R	
CES 4702	A		A	
CGN 3501C	R	R		R
CGN 4806			A	A
CGN 4910			A	A
CWR 3201		A		A
EGM 2511	I		I	
EGM 3520	R		R	
ENC 3254				I
PHY 2048L		I		
FE Exam	A		A	
Exit, Employer Surveys	A	A	A	A

Assessment Types

- Laboratory reports
- Exams
- Design projects
- Presentations
- Additional assessments include:
  - The Fundamentals of Engineering (FE) exam
  - The exit and employer surveys

Computer and Information Science and Engineering Minor

This minor provides the academic background in the application of computers to scientific and engineering problems and prepares students for graduate study in computer-related disciplines.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Credits:** 20-24 | Completed with minimum grades of C

Department Information

The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.
Website (https://www.cise.ufl.edu/)

Curriculum

- /UGRD/colleges-schools/UGENG/CPE_BSCO03/
- Combination Degrees
- Computer and Information Science and Engineering Minor
- Computer and Information Science and Engineering Minor UF Online
- Computer Science UF Online
- Computer Science | CLAS
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science
- Industrialized Construction Engineering

A prerequisite for admission to the minor is prior completion of MAC 2312, COP 3502C and COP 3503C with a grade of C or better. This minor requires a minimum 2.5 grade point average to apply for admission.

Majors Not Eligible for this Minor

- Computer engineering, computer science, and digital arts and sciences majors (CEN, CSE, CEE, DAS) in the CISE and ECE departments
- Computer science majors (CSC) in the College of Liberal Arts and Sciences

Required Courses

Code	Title	Credits
CDA 3101	Introduction to Computer Organization	3
Select one:		4-8
COP 3502C & COP 3503C	Programming Fundamentals 1 and Programming Fundamentals 2	
COP 3504C	Advanced Programming Fundamentals for CIS Majors	
COP 3530	Data Structures and Algorithm	3
COP 4600	Operating Systems	3
COT 3100	Applications of Discrete Structures	3
MAC 2312	Analytic Geometry and Calculus 2	4
Total Credits		**20-24**

At least three of the CDA, CIS, COP, and COT courses must be taken at UF.

Computer and Information Science and Engineering Minor UF Online

Total Credits		**20-24**

At least three of the CDA, CIS, COP, and COT courses must be taken at UF.

Computer Engineering

Computer Engineering (CpE) is a discipline with core competencies based in knowledge of interaction between computer software and hardware, thereby providing a balance among computer systems, hardware, and software as well as theory and applications. It embodies the science and technology of design, development, and maintenance of computing and computer-controlled systems by integrating principles and techniques from computer science (CS) and electrical engineering (EE).

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Computer Engineering
- **Specialization:** Cybersecurity (p. 848)
- **Credits for Degree:** 126
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Departments Information

Topical concentration in Computer Engineering (https://cpe.eng.ufl.edu/) is provided via technical electives from the Departments of Computer and Information Science and Engineering (http://www.cise.ufl.edu/) and Electrical and Computer Engineering (http://www.ece.ufl.edu/).

Department of CISE

968 Center Drive
216 LARSEN HALL
GAINESVILLE FL 32611-6200
Map

Topical concentration in Computer Engineering (cpe.eng.ufl.edu) is provided via technical electives from the Departments of Computer and Information Science and Engineering *(*http://www.cise.ufl.edu/*) and* Electrical and Computer Engineering *(*http://www.ece.ufl.edu/*).*

Via elected coursework, students specialize in knowledge areas such as computer architecture, computer system engineering, digital signal processing, embedded systems, intelligent systems, networking and communication, and security. Additionally, cooperative education opportunities help students develop a broader understanding of the industrial applications of computer engineering technologies. Graduates will be prepared to engage in graduate studies in computer engineering or to pursue career paths in many different areas of computing and its applications in high technology environments.

Program Education Objectives

Graduates from the Bachelor of Science in Computer Engineering will:

1. Advance in careers utilizing their education in computer engineering
2. Continuously improve via graduate, professional, self-driven, and on-the-job learning
3. Become leaders in multidisciplinary and diverse professional environments

Mission

- To educate majors and the community in computing and engineering fundamentals
- To create and disseminate computing and engineering knowledge and technology
- To use our expertise in computing and engineering to help society solve problems.

Transfer Admission Requirements

Successful transfer applicants must have earned a 2.5 grade point average, based on the first two attempts, in the six preprofessional courses and have earned a minimum grade of C in each course of Calculus 1, Calculus 2, Calculus 3, Physics with Calculus 1, Physics with Calculus 2, and Differential Equations. Only the first two attempts (including withdrawals) in each course will be considered for admission to or retention in the department.

Transfer students must attend Transfer Preview as part of admissions. Course equivalency appeals must be submitted to earn credit for coursework completed outside of Common Course Numbering for Core CpE coursework and will be reviewed on a case by case basis.

Computer Engineering Requirements

A minimum grade of C is required for each critical-tracking course and the critical-tracking GPA must be a minimum of 2.5.

A minimum grade of C is required in any computer engineering course that is a prerequisite for another computer engineering course and CpE Design 2 CEN 4908C. The prerequisite course and its subsequent course cannot be taken the same term, even if the prerequisite course is being repeated.

Minimum grades of C are required in:

Code	Title	Credits
CDA 3101	Introduction to Computer Organization	3
CEN 3031	Introduction to Software Engineering	3
COP 3502C	Programming Fundamentals 1	4
COP 3503C	Programming Fundamentals 2	4
COP 3504C	Advanced Programming Fundamentals for CIS Majors	4
COP 3530	Data Structures and Algorithm	3

COT 3100	Applications of Discrete Structures	3
EEL 3701C	Digital Logic and Computer Systems	4
EEL 4744C	Microprocessor Applications	4
ENC 2254	Writing in the Disciplines	3
ENC 3246	Professional Communication for Engineers	3
CpE Design 1		
Select one:		3
CEN 3907C	Computer Engineering Design 1	
EGN 4951	Integrated Product and Process Design 1	
CpE Design 2		
Select one:		3
CEN 4908C	Computer Engineering Design 2	
EGN 4952	Integrated Product and Process Design 2	

Students may opt to take COP 3504C in lieu of COP 3502C and COP 3503C. If elected, students will need to complete an additional 4 credits to complete the degree program.

A CpE major grade point average (GPA) is calculated as the average of the grades of all CpE program courses and the CISE and ECE department courses taken by the student. CpE students must maintain a cumulative, college, upper-division and CpE major GPA minimum of 2.0.

All graduating seniors must complete an exit survey with their advisor before graduating.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 6 critical-tracking courses with a minimum grade of C within two attempts: MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course with minimum grades of C within two attempts
- 2.5 GPA required for all 7 critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete EEL 4744C with a minimum grade of C
- Complete all critical-tracking course with minimum grades of C within two attempts
- 2.5 GPA required for all 7 critical-tracking courses
- 2.0 UF GPA required

Semester 6

- 2.0 departmental GPA required
- 2.0 UF GPA required

Semester 7

- 2.0 departmental GPA required
- 2.0 UF GPA required

Semester 8

- 2.0 departmental GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the general education International (GE-N) requirement. This is often done concurrently with another state core or university general education requirement – typically GE-C, H, or S.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
COP 3502C	Programming Fundamentals 1	4
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80); Writing Requirement: 6,000 words)	3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
	Credits	**14**
Semester Two		
COP 3503C	Programming Fundamentals 2	4
COT 3100	Applications of Discrete Structures	3
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for PHY 2048 (**Critical Tracking**; Gen Ed Physical Sciences)	4
	Credits	**15**
Summer After Semester Two		
Quest 2 (Gen Ed Social and Behavioral Sciences; Writing Requirement)		3
EEL 3701C	Digital Logic and Computer Systems	4
State Core Social and Behavioral Sciences (Writing requirement)		3
	Credits	**10**
Semester Three		
CDA 3101	Introduction to Computer Organization	3
COP 3530	Data Structures and Algorithm	3
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for PHY 2049 (**Critical Tracking**; Gen Ed Physical Sciences)	4
	Credits	**14**
Semester Four		
CEN 3031	Introduction to Software Engineering	3
EEL 4744C	Microprocessor Applications (**Critical Tracking**)	4
MAP 2302	Elementary Differential Equations (**Critical Tracking**)	3
MAS 3114	Computational Linear Algebra	3
	Credits	**13**
Semester Five		
COP 4600	Operating Systems	3
EEL 3111C	Circuits 1	4
EEL 4712C	Digital Design	4
STA 3032	Engineering Statistics	3

Enrichment elective		1
	Credits	**15**
Semester Six

EGN 4951	Integrated Product and Process Design 1	
Select one Physical or Biological Science Course Option:		4
AST 3018 & AST 1022L	Astronomy and Astrophysics 1 and Astronomy Laboratory	
BSC 2005 & 2005L	Biological Sciences and Laboratory in Biological Science	
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory	
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory	
CHM 2095 & CHM 2045L	Chemistry For Engineers 1 and General Chemistry Laboratory	
GLY 2010C	Physical Geology	
Enrichment elective		3
Technical elective		3
	Credits	**13**
Semester Eight		
Select one CpE Design 2 course:		3
CEN 4908C	Computer Engineering Design 2	
EGN 4952	Integrated Product and Process Design 2	
EEL 3135	Introduction to Signals and Systems	4
EGS 4034	Engineering Ethics and Professionalism	1
Technical electives		6
	Credits	**14**
	Total Credits	**126**

Technical Electives

At least 12 technical elective credits must be from the CISE and/or ECE department(s). Qualifying technical electives include, unless otherwise excluded:

- 4000-level or higher CpE program, CISE, ECE, Mathematics, and/or Statistics Dept. courses
- 3000-level PHY and/or PHZ Physics Department courses
- EEE 3308C, EEE 3396, EEE 3773, EEL 3008, EEL 3112, EEL 3211C, EEL 3402, EEL 3472, and/or EEL 3850
- CAP 3020 and/or CAP 3027
- Other course(s) approved by program coordinator

The following courses do not qualify as technical electives (i.e., are excluded):

- Required courses
- Design capstone courses (including CIS 4914 and EEL 4924C)
- CIS 4940, CIS 4949, EEL 4837, EEL 4948, and EEL 4949

The following limitations apply to technical electives:

- A maximum of 3 credit hours of Practical Work qualify
- A maximum of 6 credit hours of Practical Work and/or Independent Study qualify
- A maximum of 9 credit hours of Research, Independent Study, Practical Work, and/or credits outside of CpE/CISE/ECE quality

Students should check prerequisites when planning their major electives. Students should discuss electives with an advisor in the department. Individual study, co-op, internship, research, and special topics credits must be approved.

CpE-Approved Experiential Learning 3 courses satisfy both Experiential Learning and technical elective requirements.

Enrichment Electives

The purpose of enrichment electives is to encourage, facilitate, and support Computer Engineering students in becoming effective, well-rounded thinkers by broadening their understanding beyond the discipline. Please see the Computer Engineering website for more information.

Other Course Limitations

The following limitations apply to courses used to fulfill requirements in the program:

- Only one of COT 4501 and MAD 4401 will meet program requirements (not both)
- MAD 3107 and MAD 4203 do not qualify to meet any portion of the required curricula for the program (including technical, enrichment, and general electives).

Academic Learning Compact

The Bachelor of Science in Computer Engineering is concerned with the theory, design, development and application of computer systems and information processing techniques. Students will be equally proficient working with computer systems, hardware and software, as with computer theory and applications.

The Computer Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=05%7C01%7CDMAYH%40eng.ufl.edu%7C71f1da0d2bb2405acf0908db1519ea82%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C638126973271573797%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=Dc6bpEcUU8fM3vMsOTj6pGPQgyLzoSeoS8v2s%2BFVnBE%3D&reserved=0), under the General Criteria and the Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs.

Before Graduating Students Must

- Pass assessment according to department rubric of student performance on a major design experience.
- Pass assessment in one or more core courses of individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of mathematics and science to computer engineering problems.
2. Design and conduct computer-engineering experiments, analyzing and interpreting the data.

Critical Thinking

3. Design a computer engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability constraints.

Communication

4. Communicate technical data and design information effectively in writing and in speech to other computer scientists and engineers.

Cybersecurity

The Cybersecurity Specialization in Computer Engineering provides a robust foundation in the fundamentals of cybersecurity integrated with disciplinary knowledge and experience in the areas of computer architecture, operating systems, digital hardware design, and signal processing. Required courses cover knowledge units meeting the curriculum standards established NSA, NIST and National Initiative for Cybersecurity Education (NICE) as for cybersecurity competency.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Computer Engineering
- **Specialization:** Cybersecurity (p. 848)

Program Education Objectives

Graduates of Computer Engineering with the specialization in Cybersecurity will:

1. Advance in careers utilizing their education in computer engineering and cybersecurity
2. Continuously improve via graduate, professional, self-driven, and on-the-job learning
3. Become leaders in multidisciplinary and diverse professional environments.

Mission

- To educate majors and the community in computing, engineering, and cybersecurity
- To create & disseminate computer engineering & cybersecurity knowledge & technology
- To use expertise in computer engineering & cybersecurity to help society solve problems.

Admission Criteria for Specialization

Students in the Computer Engineering (CpE) major are eligible to elect the Cybersecurity specialization.

Cybersecurity Specialization Requirements

A minimum grade of C is required for each required cybersecurity course and the GPA for cybersecurity courses must be a minimum of 2.0.

The specialization requires completion of the following technical elective courses:

Code	Title	Credits
CIS 4360	Computer and Information Security	3
Cybersecurity Electives (select two):		
CIS 4213	Enterprise Security	
CIS 4362	Introduction to Cryptology	
CDA 4324C	Cyber-physical System Security	
CIS 4204	Penetration Testing: Ethical Hacking	

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 6 critical-tracking courses with a minimum grade of C within two attempts: MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course with minimum grades of C within two attempts
- 2.5 GPA required for all 7 critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete EEL 4744C with a minimum grade of C
- Complete all critical-tracking course with minimum grades of C within two attempts
- 2.5 GPA required for all 7 critical-tracking courses
- 2.0 UF GPA required

Semester 6

- 2.0 departmental GPA required
- 2.0 UF GPA required

Semester 7

- 2.0 departmental GPA required
- 2.0 UF GPA required

Semester 8

- 2.0 departmental GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the general education International (GE-N) requirement. This is often done concurrently with another state core or university general education requirement – typically GE-C, H, or S.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms listed in the CpE Critical Tracking criteria.

This semester plan represents an example progression through the major and specialization. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Computer Science | Herbert Wertheim College of Engineering

The Computer Science program combines a strong engineering-oriented technical basis with a flexible interdisciplinary component and an emphasis on communication skills. This flexibility is increasingly important as computers become more important tools in an ever-increasing number of disciplines.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Computer Science
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.

Curriculum

- /UGRD/colleges-schools/UGENG/CPE_BSCO03/
- Combination Degrees
- Computer and Information Science and Engineering Minor
- Computer and Information Science and Engineering Minor UF Online
- Computer Science UF Online
- Computer Science | CLAS
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science
- Industrialized Construction Engineering

Students in the engineering computer science (EG-CSE) program will satisfy the same requirements for General Education and obtain the same engineering preprofessional background in mathematics and science as other engineering students. The program contains a strong technical component comprising a set of required courses covering essential areas in computing and a set of technical electives enabling students to deepen their knowledge in chosen areas of computer science and engineering.

In addition, the program includes a set of interdisciplinary electives in an area of the student's choice from anything the university offers. Students may choose an established minor, a predefined track or if nothing meets their needs, they can work with an advisor to develop their own program.

To answer the demands of industry for employees with both technical competence and the ability to communicate effectively, the program requires communication courses beyond the usual General Education requirements for engineering.

Department Requirements

Students must complete all critical-tracking courses with minimum grades of C in each course and the critical-tracking GPA must be 2.5 minimum. A minimum grade of C is required in all other courses that are prerequisites to a required course: CDA 3101, COP 3502C, COP 3503C, COP 3530, and COT 3100 . In addition, CISE requires all computer science students to maintain a cumulative, upper-division and department grade point average minimum of 2.0.

Students who do not meet these requirements will be placed on academic probation and will be required to prepare a probation contract with a CISE advisor. Students are normally given two terms to remove their deficit points; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

Students may opt to take COP 3504C in lieu of COP 3502C and COP 3503C. If elected, students will need to complete an additional 4 credits to complete the degree program.

Required Courses

Code	Title	Credits
Foundational		
ENC 3246	Professional Communication for Engineers	3
or ENC 2256	Writing in the Disciplines	
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAS 3114	Computational Linear Algebra	3
PHY 2048	Physics with Calculus 1	4
& 2048L	and Laboratory for PHY 2048	
PHY 2049	Physics with Calculus 2	4
& 2049L	and Laboratory for PHY 2049	
STA 3032	Engineering Statistics	3
Writing or public speaking course, as approved by department		
Computing Core		
COP 3502C	Programming Fundamentals 1	4

COP 3503C	Programming Fundamentals 2	4
COP 3530	Data Structures and Algorithm	3
COT 3100	Applications of Discrete Structures	3
Major Core		
CDA 3101	Introduction to Computer Organization	3
CEN 3031	Introduction to Software Engineering	3
CIS 4301	Information and Database Systems 1	3
CIS 4914	Senior Project	3
or EGN 4952	Integrated Product and Process Design 2	
CNT 4007	Computer Network Fundamentals	3
COP 4020	Programming Language Concepts	3
COP 4533	Algorithm Abstraction and Design	3
COP 4600	Operating Systems	3
EGS 4034	Engineering Ethics and Professionalism	1
or CGS 3065	Legal and Social Issues in Computing	
Major Electives [1]		**18**
Select from:		
CIS 4905	Individual Study in CISE	
CIS 4930	Special Topics in CISE	
CIS 4940	Practical Work	
CISE Technical Electives (14 credits minimum)		
CIS 4949	Co-Op Work in CISE	
EGN 4912	Engineering Directed Independent Research	
EGN 4951	Integrated Product and Process Design 1	
EIN 3354	Engineering Economy	
EEL 3701C	Digital Logic and Computer Systems	
EEL 4744C	Microprocessor Applications	
Any 4000-level or higher CISE course, beyond the Core Requirements		
Interdisciplinary Electives		**14**
Total Credits		**100**

[1] Students should check prerequisites when planning their major electives. Students should discuss electives with an advisor in the department as some options are finite. Individual study, co-op, internship, research, and special topics credits must be approved by an advisor in the department.

Interdisciplinary Electives | Select one option

Option A

14 credits applicable toward formal minor and not counting for other requirements; completion of minor not required if it exceeds 14 credits. If completed minor contributes less than 14 credits, remaining credits can be fulfilled with additional 3000-level coursework in the area of the minor, 3000-level CISE courses, or 3000-level Engineering courses.

Option B

14 credits in a concentration area outside of CISE at 3000-level or higher (course plan must be prearranged with CISE advisor approval).

Option C

14 credits arranged with a department of interest which does not offer a formal minor (submit to CISE advisor for required CISE approval).

A minimum grade of C is required in all prerequisites to required courses: COP 3502C, COP 3503C, COT 3100, CDA 3101, COP 3530, and COP 4600

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 6 critical-tracking courses with a minimum grade of C within two attempts: MAC 2311, MAC 2312, MAC 2313, COP 3502C, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 6 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete COP 3503C and COT 3100
- 2.0 departmental GPA required
- 2.0 UF GPA required

Semester 7

- Complete COP 3530
- 2.0 departmental GPA required
- 2.0 UF GPA required

Semester 8

- Complete COP 4600 and COP 4020
- 2.0 departmental GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the General Education International (GE-N) requirement. This is often done concurrently with another General Education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
State Core Gen Ed Physical Sciences (select one):		2-3
CHM 1025	Introduction to Chemistry	
PHY 2020	Introduction to Principles of Physics	
COP 3502C	Programming Fundamentals 1 (**Critical Tracking**)	4
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
	Credits	**13-14**
Semester Two		
COP 3503C	Programming Fundamentals 2	4

COT 3100	Applications of Discrete Structures	3
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for PHY 2048 (**Critical Tracking**; State Core Gen Ed Physical Sciences)	4
	Credits	**15**
Summer After Semester Two		
ENC 1101 or ENC 1102	Expository and Argumentative Writing (State Core GE Composition; Writing Requirement: 6,000 words) or Argument and Persuasion	3
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Humanities (p. 80)		3
	Credits	**9**
Semester Three		
CDA 3101	Introduction to Computer Organization	3
COP 3530	Data Structures and Algorithm	3
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for PHY 2049 (**Critical Tracking**; Gen Ed Physical Sciences)	4
	Credits	**14**
Semester Four		
CEN 3031	Introduction to Software Engineering	3
CIS 4301	Information and Database Systems 1	3
Select one:		3
ENC 3246	Professional Communication for Engineers (Writing Requirement: 6,000 words) [2]	
ENC 2256	Writing in the Disciplines (Gen Ed Composition; Writing Requirement: 6,000 words) [1]	
MAS 3114 or MAS 4105	Computational Linear Algebra or Linear Algebra 1	3-4
Gen Ed Social and Behavioral Sciences with International		3
	Credits	**15-16**
Semester Five		
Quest 2 (Gen Ed Social and Behavioral Sciences OR Gen Ed Biological or Physical Sciences)		3
COP 4600	Operating Systems	3
STA 3032	Engineering Statistics	3
Technical elective		3
	Credits	**12**
Semester Six		
COP 4020	Programming Language Concepts	3
COP 4533	Algorithm Abstraction and Design	3
Interdisciplinary electives		6
Technical elective		3
	Credits	**15**
Summer After Semester Six		
Quest 3 Experiential Learning - Study Abroad / Internship / Co-op (if desired) [3]		0-3
	Credits	**0-3**
Semester Seven		
CNT 4007	Computer Network Fundamentals	3
EGS 4034 or PHI 3681	Engineering Ethics and Professionalism [4] or Ethics, Data, and Technology	1-3
Technical electives		6
Interdisciplinary elective		3
	Credits	**13-15**
Semester Eight		
Select one:		3
CIS 4914	Senior Project	
Integrated Product and Process Design 2 (4EG) [5]		
Senior Project		
Technical electives		5
Interdisciplinary electives		5
	Credits	**13**
	Total Credits	**120**

[1] Students needing to satisfy the General Education Writing requirement and the words requirements should take ENC 2256. The course must be completed with a C or better. A grade of C- or lower will not fulfill degree requirements.
[2] Students needing only to satisfy the 6,000 Word requirement, should take ENC 3246. The course must be completed with a C or better. A grade of C- or lower will not fulfill degree requirements.
[3] Quest 3 Experiential Learning - Study Abroad / Internship / Co-op may count either as interdisciplinary or technical electives based on the content of the experience. Prior advisor approval is highly recommended.
[4] PHI 3681 will count for both the Ethics requirement and 3 credits of Technical Electives.
[5] Must take EGN 4951 IPPD 1 as a pre-requisite and it will count as a technical elective.

Academic Learning Compact

The Herbert Wertheim College of Engineering's Computer Science program combines a strong engineering technical basis with a flexible interdisciplinary component and strong communication skills. This program emphasizes the technical aspects of computer science and is less flexible than the computer science program in the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Pass assessment according to department rubric of student performance on a major design experience.
- Pass assessment in one or more core courses of individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of mathematics and science to computer science problems.
2. Design and conduct computer-science experiments, analyzing, and interpreting the data.

Critical Thinking

3. Design a computer science system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability constraints.

Communication

4. Communicate technical data and design information effectively in writing and in speech to other computer scientists and engineers.

Curriculum

- /UGRD/colleges-schools/UGENG/CPE_BSCO03/
- Combination Degrees
- Computer and Information Science and Engineering Minor
- Computer and Information Science and Engineering Minor UF Online
- Computer Science UF Online
- Computer Science | CLAS
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science
- Industrialized Construction Engineering

The Digital Arts and Sciences (DAS) degree is a core computer science degree with special emphasis on human-centered computing, which includes art, design and computing courses that are related to digital media, interaction and communication. Graduates will be well versed in issues and solutions for basic art techniques and graphic art design as well as modeling 3D virtual worlds. The DAS graduate also will be well versed in collaborative multidisciplinary team models.

Intermediate and final class projects are centered around a balanced-team composition focusing on multimedia productions.

Department Requirements

Students must complete all critical-tracking courses with minimum grades of C in each course and the critical-tracking GPA must be 2.5 or higher. A minimum grade of C is required in all other courses that are prerequisites to a required course:

Code	Title	Credits
CAP 3027	Introduction to Computational Media	3
CDA 3101	Introduction to Computer Organization	3
COP 3502C	Programming Fundamentals 1	4
COP 3530	Data Structures and Algorithm	3
COP 4600	Operating Systems	3
COT 3100	Applications of Discrete Structures	3
MAS 3114	Computational Linear Algebra	3

In addition, CISE requires all DAS students to maintain a cumulative, upper-division and department GPA minimum of 2.0.

Students who do not meet these requirements will be placed on academic probation and will be required to prepare a probation contract with a CISE advisor. Students normally are given two terms in which to remove their deficit points or to remedy their probation status; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 7 critical-tracking courses with a minimum grade of C within two attempts: ARH 2051, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete COP 3503C and COT 3100
- 2.0 departmental GPA required
- 2.0 UF GPA required

Semester 7

- Complete COP 3530
- 2.0 departmental GPA required
- 2.0 UF GPA required

Semester 8

- Complete CAP 3020
- 2.0 departmental GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the General Education International (GE-N) requirement. This is often done concurrently with another General Education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

Electrical Engineering

Electrical Engineering is concerned with all phases and development of the transmission and utilization of electric energy and intelligence. From communication systems to electronic components that run computers and motor vehicles, electrical engineers design products and systems that meet the needs of today and tomorrow's electrical and electronic systems.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Electrical Engineering
- **Credits for Degree:** 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Electrical engineers study electricity and design electrical systems that solve problems—how to make your smartphones smarter; how to make your refrigerator run more efficiently; coming up with the optimal temperature to heat pizza in your microwave; designing the audio and visual technology that brings movies to life.
Website (https://www.ece.ufl.edu/)

968 Center Drive
216 LARSEN HALL
GAINESVILLE FL 32611-6200
Map (http://campusmap.ufl.edu/#/index/0722)

Curriculum

- Combination Degrees
- Computer Engineering
- Electrical Engineering
- Electrical Engineering Minor

While it is essential that electrical engineers understand the fundamentals of their chosen fields, they must also understand the role that other branches of engineering play in completed work. The curriculum provides a foundation in basic engineering as well as depth and breadth in electrical engineering and sufficient electives to allow specialization in academic areas including:

- Electronic devices and circuits
- Electromagnetics, power and, photonics
- Computers, communications, and systems and controls

The curriculum also prepares an engineer for professional licensure.

The department's extensive laboratory facilities and varied research programs assist in both experimental and theoretical approaches to electrical and computer engineering.

Admission Requirements

It is the department's policy to admit the best-qualified students as demonstrated by academic achievement.

To be admitted, a student must have an overall 2.5 grade point average in critical-tracking courses, based on the first two attempts in eight professional courses and have earned a minimum grade of C in each course of Calculus 1, Calculus 2, Calculus 3, Physics with Calculus 1, Physics with Calculus 2, Differential Equations and General Chemistry. Only the first two attempts (including withdrawals and drops) in each course will be considered for admission to or retention in the department.

Department Requirements

A minimum grade of C is required in any course transferred into the junior-senior years from another institution.

Courses marked below with a footnote[1] must be completed with minimum grade of C. For a course to be used as a prerequisite for an EEE/EEL-prefixed course, a minimum grade of C is required in the prerequisite course. Any 3000/4000 level EEL/EEE-prefixed course not taken to satisfy the breadth or depth requirement can be applied as EE technical elective, excluding EEL 3834 (only counts for computer programming requirement) EEL 3003, and EEL 3872, which does not apply toward degree requirements.

ECE majors must have an overall 2.0 GPA in all ECE courses to meet degree requirements.

A student must complete both EEL 3111C **and** EEL 3701C **before taking any 4000-level EEE or EEL course. Electrical Engineering majors must have** EEL 3923C **completed or in progress to apply for the IPPD program.**

More Info (http://www.ippd.ufl.edu/)

Any course taken to satisfy a degree requirement (General Education, required course, or technical elective), with the exception of EGN 4912, EEL 4948, and EEL 4949, cannot be taken S/U.

An electrical engineering student whose cumulative, upper-division or department grade point average falls below 2.0 or whose preprofessional grades do not meet department admission requirements will be placed on academic probation and be required to prepare a probation contract with an ECE academic advisor. If a student is not making normal academic progress, they will be placed on academic probation.

Students normally are given two terms in which to remove their deficit points. Students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

All graduating seniors must complete an ECE Exit Questionnaire with their advisor before graduating.

Educational Objectives

The objectives of the Electrical Engineering program at the University of Florida are to prepare students to be good citizens engaged in ethical engineering for the betterment of society and enabling them, so that within a few years of graduation, they:

1. Have successful careers providing leadership in a dynamic industry that is global, multi-disciplinary, and evolving;
2. Are excelling in the top advanced studies programs in the world.

Goals

The baccalaureate program prepares students to embark upon professional careers in electrical and computer engineering or to begin graduate study. The department's educational objectives are consistent with the ABET general criteria for accrediting programs in engineering in the United States.

Mission

The department offers undergraduate and graduate programs in electrical and computer engineering and conducts research to serve the needs of Florida and the nation.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 7 tracking courses. MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049, and CHM 2045 or CHM 2095 must be completed with minimum grade of C in each course within two attempts (including withdrawals).
- 2.5 GPA required for all 7 critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with the appropriate minimum grade within two attempts
- 2.5 GPA required for all 7 critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with the appropriate minimum grades within two attempts
- 2.5 GPA required for all 7 critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with the appropriate minimum grades within two attempts
- 2.5 GPA required for all 7 critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete remaining 7 critical-tracking courses with the appropriate minimum grades within two attempts
- Complete first Electrical Engineering Breadth course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete the 2 remaining Electrical Engineering Breadth required courses.
- Complete first Electrical Engineering Depth course
- 2.0 UF GPA required

Semester 7

- Complete EEL 3923C
- Complete the second Electrical Engineering Depth course
- Complete 3 EE Technical Electives (9 credits)
- 2.0 UF GPA required

Semester 8

- Complete EEL 4924C
- Complete remaining Electrical Engineering Technical Electives (7-10 credits)
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities; Writing Requirement)		3
Select one:		3
CHM 2045	General Chemistry 1 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	
CHM 2095	Chemistry For Engineers 1 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	
CHM 2045L	General Chemistry Laboratory (Gen Ed Physical Sciences)	1
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Composition (Writing Requirement)		3
	Credits	**14**
Semester Two		
Quest 2 (Gen Ed Social and Behavioral Sciences (Writing Requirement))		3
EEL 3000	Introduction to Electrical Engineering [1]	2
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for PHY 2048 (**Critical Tracking**; Gen Ed Physical Sciences)	4
Computer Programming elective		3
	Credits	**16**
Semester Three		
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for PHY 2049 (**Critical Tracking**; Gen Ed Physical Sciences)	4
EEL 3850	Data Science for ECE	4
State Core Gen Ed Humanities (p. 80)		3
	Credits	**15**
Semester Four		
EEL 3111C	Circuits 1 [1]	4
EEL 3135	Introduction to Signals and Systems [1]	4

MAP 2302	Elementary Differential Equations (**Critical Tracking**)	3
State Core Social and Behavioral Sciences with International (Writing Requirement)		3
	Credits	**14**
Summer After Semester Four		
EEL 3701C	Digital Logic and Computer Systems	4
ENC 2256	Writing in the Disciplines	3
	Credits	**7**
Semester Five		
EEL 3008	Physics of Electrical Engineering [1]	3
EEL 3112	Circuits 2 [1]	3
EEE 3308C	Electronic Circuits 1 [1]	4
State Core Social and Behavioral Sciences-Approved Writing Course (Writing Requirement)		3
Interdisciplinary Elective #1 (**Critical Tracking**) [1]		3
	Credits	**16**
Semester Six		
EEL 4837	Programming for Electrical Engineering 2	3
Electrical Engineering Breadth electives #1 and #2 (**Critical Tracking**) [1]		6
Electrical Engineering Technical Elective		3
Interdisciplinary elective #2		3
	Credits	**15**
Semester Seven		
EEL 3923C	Electrical Engineering Design 1 (**Critical Tracking**) [1]	3
Electrical Engineering Depth elective #1 (**Critical Tracking**) [1]		3
Electrical Engineering Technical electives (**Critical Tracking**)		6
Electrical Engineering Breadth electives #3		4
	Credits	**16**
Semester Eight		
Select one EE Design 2 course:		3
EEL 4924C	Electrical Engineering Design 2 (**Critical Tracking**) [1]	
EGN 4952	Integrated Product and Process Design 2 (**Critical Tracking**)	
Electrical Engineering Technical electives (**Critical Tracking**)		9
Electrical Engineering Depth elective #2		3
	Credits	**15**
	Total Credits	**128**

[1] Completed with a minimum grade of C. In order to use a course as a prerequisite course for course used as a prerequisite for an EEE/EEL-prefixed course, a minimum grade of C is required in the prerequisite course. Any 3000/4000-level EEL/EEE-prefixed course not taken to satisfy the breadth or depth requirement can be applied as an EE technical elective, excluding EEL 3834 only counts for computer programming requirement, EEL 3003 , which does not apply toward degree requirements.

Approved Electives

Computer Programming | Select One

Code	Title	Credits
COP 2274	C++ Programming for Engineers	3
EEL 3834	Programming for Electrical Engineering 1	3

Electrical Engineering Breadth | 10 Credits

Code	Title	Credits
EEL 3211C	Basic Electric Energy Engineering	4
EEE 3396	Solid-State Electronic Devices	3
EEE 4260	Bioelectrical Systems	3
EEE 4306	Electronic Circuits 2	3
or EEE 4310	VLSI Circuits and Technology 1	
EEL 3472	Fundamentals of Electromagnetic Fields	3
EEL 4514C	Communication Systems and Components	4
EEL 4657C	Linear Control Systems	4
EEL 4744C	Microprocessor Applications	4

EEL 4750	Foundations of Digital Signal Processing	3
EEE 4773	Fundamentals of Machine Learning	3

Electrical Engineering Depth | 6 Credits

Select one EE Depth course from 2 different EE Breadth areas.
More Info (https://www.ece.ufl.edu/sites/default/files/pictures/EE Curriculum breadth-depth chart.pdf)

Interdisciplinary Technical Electives | 6 Credits

Students are able to select courses that are 3000-4000 level from the Biology/Biochemistry courses (prefixes of BSC, BCH, CHM, PCB, and ZOO); Mathematics courses (prefixes of MAA, MAD, MAP, and MAS); Physics courses (prefixes of PHY and PHZ). Students are able to count CHM 2046, CHM 2210, and CHM 2211. Students are able to select courses that are 3000-4000 level from HWCOE (non-ECE) courses. Students can count EEL 3872, EML 2023, EGM 2511, and PHI 3681.

Electrical Engineering Technical Electives | 18 Credits

Any 3000 level or above course in ECE, with the exception of EEL 3003, EEL 3008, and EEL 3872.

The total credits of EE breadth and EE technical electives should equal 28 credits.

Academic Learning Compact

Electrical Engineering emphasizes development of the transmission and utilization of electric energy and intelligence. Electrical engineers design products and systems that meet the needs of today and tomorrow's electrical and electronic systems. Students will be able to design communication systems; design the electronic components that run computers, motor vehicles, TVs, stereo systems, and robots for automated factories; design aircraft and spacecraft control systems; design utility and industrial power systems; and design biological and biomedical systems.

The Electrical Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=05%7C01%7CDMAYH%40eng.ufl.edu%7C71f1da0d2bb2405acf0908db1519ea82%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C638126973271573797%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=Dc6bpEcUU8fM3vMsOTj6pGPQgyLzoSeoS8v2s%2BFVnBE%3D&reserved=0), under the General Criteria and the Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs.

Before Graduating Students Must

- Pass an assessment of performance on a major design experience. Assessment will be provided by two or more faculty and/or industry practitioners.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, and interpret mathematics, science, and engineering principles to electrical engineering problems.

Critical Thinking

2. Design and conduct electrical engineering experiments as well as analyze and interpret data.
3. Design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.

Communication

4. Convey technical data and design information effectively for a range of audiences using a variety of methods and media.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
EEL 3000				I, A
EEL 3008	A			
EEL 3135	A			

EEL 3701C	A	I	R
EEL 3923C		A	R
EEL 4924C	A	A	A

Assessment Types

- Homework assignments
- Exam questions
- Design projects and reports
- Presentations

Electrical Engineering Minor

This minor, administered by the Department of Electrical and Computer Engineering, provides additional knowledge in Electrical Engineering.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

Electrical engineers study electricity and design electrical systems that solve problems—how to make your smartphones smarter; how to make your refrigerator run more efficiently; coming up with the optimal temperature to heat pizza in your microwave; designing the audio and visual technology that brings movies to life.

Curriculum

- Combination Degrees
- Computer Engineering
- Electrical Engineering
- Electrical Engineering Minor

Students pursuing the BSEE or BSCEN degree are not eligible for this minor.

To be admitted to the minor, students are expected to meet the admission requirements of the Department of Electrical and Computer Engineering.

Students must take either EEL 3003 or EEL 3111C as the required course but cannot count both courses toward the minor.

EEL 3000 and EEL 3872 do not count toward the minor.

All courses for the minor must be completed at UF.

Required Courses

Code	Title	Credits
EEL 3003	Elements of Electrical Engineering	3
or EEL 3111C	Circuits 1	
EEE or EEL-prefixed courses (3000 or 4000 level)		9
EEE or EEL-prefixed course (4000 level)		3
Total Credits		**15**

Engineering Innovation Certificate

With core themes involving the study of innovation, entrepreneurship, leadership, and ethics, this certificate develops a comprehensive skill set that is applied in innovation-driven enterprises and within larger organizations.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Credits:** 9 | Completed with minimum grades of B
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Related Programs

- Engineering Innovation Minor

This certificate is open to undergraduate students in any engineering discipline. Students cannot earn both the Engineering Innovation certificate and minor.

Required Courses

Code	Title	Credits
EGN 4643	Engineering Innovation	3
Select two:		6
EGN 4641	Engineering Entrepreneurship	
EGS 4038	Engineering Leadership	
EGS 4100	Divergent Thinking	
EGS 4625	Fundamentals of Engineering Project Management	
Total Credits		**9**

Engineering Innovation Minor

Graduates with this minor across all engineering disciplines are better prepared to enter the market place as innovators and leaders in myriad technology-centric industries. The minor provides the academic background for graduates to think more creatively, innovatively, and entrepreneurially. Graduates are more rounded with innovation skill sets that enhance career advancement opportunities, either for employers or in their own entrepreneurial pursuits.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Credits:** 15 | Completed with a minimum 2.8 combined GPA

Related Programs

- Engineering Innovation Certificate

Open to all Herbert Wertheim College of Engineering majors. Students can only complete one UF Innovation minor. Students cannot earn both the Engineering Innovation minor and Engineering Innovation certificate.

The curriculum enhances the engineering discipline with courses in engineering attributes, communications, innovation, entrepreneurship, creativity, leadership, and project management, and can also include an internship/co-op experience. The UF Engineering Innovation Institute oversees this minor.

This minor develops a deep and comprehensive skill set in undergraduate engineering students that can be applied to innovation-driven enterprises as well as in “intrapreneurial” initiatives within larger organizations. The core themes involve creativity, the study of engineering-focused innovations, technological entrepreneurship, leadership of teams focused on technology and engineering, engineering project management, and professional development for engineers.

This minor complements the technical training in the student’s major discipline by providing the tools and knowledge required for engineering innovators.

Required Courses

Code	Title	Credits
ENC 3246	Professional Communication for Engineers	3
EGN 4643	Engineering Innovation	3
Select 9 credits:		9
EGS 2036	Fundamentals of the New Engineer	
EGN 2020C	Engineering Design & Society (Freshman Design)	
EGN 4641	Engineering Entrepreneurship	
EGS 4038	Engineering Leadership	
EGS 4100	Divergent Thinking	
EGS 4625	Fundamentals of Engineering Project Management	
Up to 3 credits of the below courses can count towards the 9 credits above:		
ABE 4949	Work Experience in Biological Engineering	
BME 3941	Internship Experience in Biomedical Engineering	
CEN 4940	Practical Work in Computer Engineering	
CGN 4949	Co-op Work Experience	
CIS 4940	Practical Work	
CIS 4949	Co-Op Work in CISE	
EAS 4949	Co-op Work Experience	
ECH 4948	Internship Work Experience	
ECH 4949	Co-op Work Experience	
EEL 4948	Practical Work in Electrical and Computer Engineering	
EEL 4949	Co-op Work Experience	
EGN 4940	NSF Fellowship Preparation	
EGN 4949	Engineering Internship/Co-op	
EGN 5949	Practicum/Internship/Cooperative Work Experience	
EIN 4944	Practical Work in Industrial and Systems Engineering	
EMA 4949	Co-Op Work Experience	
EML 4945	Practical Work in Mechanical Engineering	
EML 4949	Co-op Work Experience	
ENU 4949	Co-op Work Experience	
ENV 4949	Environmental Engineering Internship/Co-op	
ESI 4949	Co-Op Work Experience	
Total Credits		**15**

Engineering Leadership Certificate

Engineering undergraduate students completing this certificate will reflect a comprehensive set of industry-preferred competencies that prepares them for leadership roles in their engineering careers.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Credits:** 9 | Completed with minimum grades of B
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

This certificate is open to undergraduate students in any engineering discipline.

The certificate's core studies include engineering leadership, advanced engineering leadership development, and one of the courses engineering project management, engineering entrepreneurship, or engineering innovation.

Required Courses

Code	Title	Credits
EGS 4038	Engineering Leadership	3
EGS 4680	Advanced Engineering Leadership Development	3
Select one:		3

EGN 4641	Engineering Entrepreneurship
EGN 4643	Engineering Innovation
EGS 4625	Fundamentals of Engineering Project Management
Total Credits	**9**

Students must complete an assessment prior to requesting award of the certificate.

Engineering Project Management Certificate

The Engineering Project Management certificate reflects a comprehensive set of competencies that are aligned with a common career path through wide sectors in the practice of engineering.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Credits:** 9 | Completed with minimum grades of B
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)
- *Certificates must comply with the Certificate Policy.*

This certificate is open to undergraduate students in any engineering discipline.

The certificate's core studies include fundamentals of engineering project management, engineering economy, and one of several optional courses offered through the various departments in the college.

Prerequisites

Undergraduate engineering student of junior or senior status. The only required course prerequisite is Calculus 2.

Required Courses

Code	Title	Credits
EGS 4625	Fundamentals of Engineering Project Management	3
Select one:		3
EIN 3354	Engineering Economy	
ECH 4604	Process Economics and Optimization	
ENV 4601	Environmental Resources Management	
Select one:		3
CEN 3907C	Computer Engineering Design 1	
CGN 4160	Civil Engineering Practice	
CGN 4600	Public Works Engineering and Management Practices	
ECH 4644	Process Design	
EEL 3923C	Electrical Engineering Design 1	
EIN 4210	Occupational Safety Engineering	
EML 4502	Mechanical Engineering Design 3	
EML 4601	Heating and Air Conditioning System Design	
EGN 4641	Engineering Entrepreneurship	
EGN 4952	Integrated Product and Process Design 2	
ENU 4192	Nuclear and Radiological Engineering Design	
Total Credits		**9**

Students must complete an assessment prior to requesting award of the certificate pursuant to the approved certificate academic assessment plan.

Engineering | Exploring Engineering Studies

The Exploring Engineering Studies plan is intended for students who want to major in engineering but have not yet chosen a specific discipline or for students who need to take both pre-tracking chemistry and mathematics courses in their first semester.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** None
- **Credits for Degree:** N/A

This is *not* a degree-granting major. This is a temporary enrollment category to allow students to determine the best major to fit their interests, or to allow pre-engineering students to get on-track for their intended major.

Students should work with their academic advisors to choose a degree-granting engineering major by Semester 3. Students must be admitted to a major before registering for Semester 4.

Students are responsible for understanding the specific requirements for their intended majors.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Semester 1

- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 of the 8 critical-tracking courses with minimum grades of C within two attempts, including withdrawals: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course, within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Undecided engineering students who are ready to begin one or both critical-tracking courses in semester 1 should meet with their academic advisor to adjust the recommended plan of study.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ENC 1101	Expository and Argumentative Writing (If the student does not place out of this course, they must take it in the Fall)	0-3
CHM 1025	Introduction to Chemistry (Gen Ed Physical Sciences)	2

EGS 1006	Introduction to Engineering (recommended)	1
MAC 1147	Algebra and Trigonometry (Gen Ed Mathematics)	4
Gen Ed Humanities		3
Gen Ed Social and Behavioral Sciences		3
	Credits	**13-16**
Semester Two		
Select one:		3
CHM 2045	General Chemistry 1 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2095	Chemistry For Engineers 1 (**Critical Tracking**)	
CHM 2045L	General Chemistry Laboratory (Gen Ed Physical Sciences)	1
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
Gen Ed Social and Behavioral Sciences		3
	Credits	**14**
Semester Three		
Select one:		3
CHM 2046	General Chemistry 2 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2096	Applied General Chemistry 2 (**Critical Tracking**; or approved substitute)	
CHM 2046L	General Chemistry 2 Laboratory (Gen Ed Physical Sciences)	1
ENC 3246	Professional Communication for Engineers (Gen Ed Composition)	3
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; Gen Ed Mathematics)	4
Select one:		3
Gen Ed Humanities		
Gen Ed Social and Behavioral Sciences		
	Credits	**14**
Semester Four		
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2048	Physics with Calculus 1 (**Critical Tracking**; Gen Ed Physical Sciences)	3
PHY 2048L	Laboratory for PHY 2048 (Gen Ed Physical Sciences)	1
Major-specific courses		6
	Credits	**14**
Semester Five		
MAP 2302	Elementary Differential Equations (**Critical Tracking**)	3
PHY 2049	Physics with Calculus 2 (**Critical Tracking**; Gen Ed Physical Sciences)	3
PHY 2049L	Laboratory for PHY 2049 (Gen Ed Physical Sciences)	1
Major-specific courses		6
	Credits	**13**
	Total Credits	**68-71**

Environmental Engineering

Environmental Engineering applies engineering and scientific principles to protect and preserve human health and the environment. It embraces broad environmental concerns, including air and water quality, solid and hazardous wastes, groundwater protection and remediation, water resources management, environmental policy, radiological health, environmental biology and chemistry, systems ecology, water and wastewater treatment, and wetlands ecology.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Environmental Engineering
- **Credits for Degree:** 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The broad undergraduate environmental engineering curriculum of EES has earned the department a ranking as a leading undergraduate program. The ABET-accredited engineering bachelor's degree is comprehensively based on physical, chemical, and biological principles to solve environmental problems affecting air, land, and water resources. An advising scheme including select faculty, led by the undergraduate coordinator, guides each student through the program.

GAINESVILLE FL 32611-6450
Map (http://campusmap.ufl.edu/#/index/0724)

Curriculum

- Combination Degrees
- Environmental Engineering

Department Requirements

Before graduating, all students must take the Fundamentals of Engineering Exam, which is the first exam leading to professional licensure as an engineer.

Qualified students are encouraged to pursue master's and doctoral studies to increase their knowledge and broaden their employment opportunities.

Educational Objectives

Environmental engineering graduates will continue to develop and apply their knowledge and skills to identify, prevent, and solve environmental problems in support of ecological and public health, safety, and welfare. Evidence of achievement of this objective includes one or more of the following:

- Passing the Fundamentals of Engineering Examination
- Obtaining and maintaining a Professional Engineering License
- Admission to graduate school, including medical, law or other professional schools
- Completing educational and professional short courses

Program graduates can aspire to careers that benefit society and the environment as a result of their educational experiences in science, analysis, and design, as well as in their social and cultural activities. Evidence of achievement of this objective includes the following:

- Employment as an engineer or in a related technical capacity
- Participating in professional organizations
- Providing community service

Program graduates will be able to communicate and work effectively in global, diverse, and interdisciplinary environment. Evidence of achievement of this objective includes one or more of the following:

- Publication in scientific and engineering journals
- Presenting at scientific and engineering conferences
- Teaching
- Contributing to scientific and engineering studies
- Service as a task or team leader

Mission

The mission of the Department of Environmental Engineering Sciences (EES) is to provide quality undergraduate and graduate educational programs in environmental engineering sciences, to conduct an internationally recognized environmental research program that benefits humanity, and to provide authoritative guidance to individuals and organizations charged with preventing and solving local, state, national and global environmental problems. EES serves as a leader in interdisciplinary programs aimed at solving environmental problems and as a major on campus crucible for identification, conceptualization and resolution of environmental issues.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 critical-tracking courses (CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048 and PHY 2049) with a minimum grade of C within two attempts, including withdrawals.
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with a minimum grade of C within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

Semester 4

- Complete the remaining critical-tracking courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

Semester 5

- Complete ENV 3000
- 2.0 UF GPA required

SEMESTER 6

- Complete ENV 4453
- 2.0 UF GPA required

SEMESTER 7

- Complete ENV 4454
- 2.0 UF GPA required

SEMESTER 8

- Complete ENV 4009
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the General Education International (GE-N) requirement. This is often done concurrently with another General Education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

EGM 2511	Engineering Mechanics: Statics	3
MAP 2302	Elementary Differential Equations (**Critical Tracking**)	3
PHY 2049	Physics with Calculus 2 (**Critical Tracking**)	3
PHY 2049L	Laboratory for PHY 2049	1
	Credits	**17**
Summer After Semester Four		
CGN 3501C or EMA 3010	Civil Engineering Materials or Materials	3-4
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Engineering graphics or geographic information systems elective		3
	Credits	**9-10**
Semester Five		
CWR 3201	Hydrodynamics	4
EES 3206	Environmental Chemistry	4
ENV 3000	Core 2: Fundamentals of Environmental Engineering	4
ENV 3040C or CGN 3421	Computational Methods in Environmental Engineering or Computer Methods in Civil Engineering	3
	Credits	**15**
Semester Six		
ENV 3930	Environmental Engineering Ethics	2
ENV 4041C	Environmental Analysis	4
ENV 4545	Environmental Hydrology	4
ENV 4453	Core 3: Processes in Environmental Engineering	4
	Credits	**14**
Semester Seven		
CWR 4202	Hydraulics	3
ENV 4454	Core 4: Environmental Engineering Applications (**Critical Tracking**)	4
ENV 4601	Environmental Resources Management	3
ENV 4892 or EGN 4951	Environmental Engineering Design 1 [2] or Integrated Product and Process Design 1	3
Technical elective (in dept.)		3
	Credits	**16**
Semester Eight		
ENV 4009	Core 5: Environmental Engineering Practice (**Critical Tracking**)	4

ENV 4893 or EGN 4952	Environmental Engineering Design 2 [2] or Integrated Product and Process Design 2	3
Technical electives		8
	Credits	**15**
	Total Credits	**128**

1 Students who need credit for State Core Gen Ed Composition or Gen Ed Composition (C designation) should take ENC 2256.
2 The EGN 4951/EGN 4952 sequence is by application only.

Technical Electives

All technical electives must be approved by an advisor.

In Dept Technical Elective: 3 credits of in department coursework, 3000- level or above, that are not one of the required courses for the major.

The remaining technical electives can be any 3000-level or above course(s) in one of the following departments, with permission of the student's advisor:

- Department of Agricultural and Biological Engineering
- Department of Biomedical Engineering
- Department of Chemical Engineering
- Department of Civil & Coastal Engineering
- Department of Computer & Information Science & Engineering
- Department of Electrical and Computer Engineering
- Department of Industrial Engineering
- Department of Mathematics
- Department of Mechanical & Aerospace Engineering
- Engineering - General
- Engineering Innovation Institute
- Engineering Leadership Institute
- Department of Chemistry
- Department of Geography
- Department of Geological Sciences
- Department of Microbiology and Cell Science
- College of Public Health and Health Professions
- School of Forest, Fisheries, and Geomatics Sciences
- Department of Soil and Water Science
- Department of Urban and Regional Planning
- Department of Wildlife Ecology and Conservation

Approved Electives

Engineering Graphics or Geographic Information Systems Elective

Code	Title	Credits
CGN 2328	Technical Drawing and Visualization	3
EML 2023	Computer Aided Graphics and Design	3
GIS 3001C	Geovisualization and Map Design	4
GIS 3043	Foundations of Geographic Information Systems	4
GIS 3072C	Geographic Information Systems	3
SWS 4720C	GIS in Soil and Water Science	3
URP 4273	Survey of Planning Information Systems	3

Academic Learning Compact

Environmental Engineering applies engineering and scientific principles to protect and preserve human health and the environment. It embraces broad environmental concerns, including air and water quality, solid and hazardous wastes, groundwater protection and remediation, water resources and management, environmental policy, radiological health, environmental biology and chemistry, systems ecology, water and wastewater treatment, and wetlands ecology.

The Environmental Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=05%7C01%7CDMAYH%40eng.ufl.edu%7C71f1da0d2bb2405acf0908db1519ea82%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C638126973271573797%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=Dc6bpEcUU8fM3vMsOTj6pGPQgyLzoSeoS8v2s%2BFVnBE%3D&reserved=0), under the General Criteria and the Program Criteria for Environmental Engineering and Similarly Named Engineering Programs.

Before Graduating Students Must

- Pass assessment by two or more faculty and/or industrial practitioners of student performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each particular learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of mathematics, science, and engineering principles to environmental engineering problems.
2. Design and conduct environmental engineering experiments and analyze and interpret the data collected.

Critical Thinking

3. Design an environmental engineering system, component, or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability constraints.

Communication

4. Communicate technical data and design information effectively in writing and in speech to project stakeholders.

Industrial and Systems Engineering

Industrial and Systems Engineering deals with the optimization of complex processes or systems. It typically focuses on the development, improvement, implementation, and evaluation of integrated systems of people, money, knowledge, information, equipment, energy, materials, etc. Industrial and systems engineering often relies on, among others, the analysis and synthesis of mathematical, physical, social sciences, and the principles and methods of engineering design to specify, predict, and evaluate results from such systems or processes.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Industrial and Systems Engineering
- **Credits for Degree:** 125
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Industrial and Systems Engineering strives to be a resource for comprehensive ISE education and research training; a department with research thrusts and coursework covering a breadth of disciplines; a department making use of advanced computing technology, cutting-edge programming languages, social media, data mining, AI, etc. to best support needs, interests, and training of students.

Curriculum

- Combination Degrees
- Industrial and Systems Engineering

Industrial and systems engineering prepares students for industrial practice in process design, efficiency planning with technical operation research component, data analytics for Industry 4.0, human and systems analysis, production and quality control and economic analysis of operational systems.

Students are prepared to use engineering principles to solve problems that require a quantitative basis for decision making and the application of operations research, statistics, economics, mathematics and engineering analysis, with dependence on the computer. The curriculum also provides the preparation necessary for graduate study.

Admission Requirements

The minimum requirements for admission to the undergraduate program are an overall 2.5 grade point average and a 2.5 grade point average in the designated pre-engineering technical courses. Students who have not met these requirements at 60 credits may be admitted on probation with successful petition.

Department Requirements

Students must complete each required course with a minimum grade of C in at most three attempts. Grades of H, I, N, U, and W are considered attempts. Registration cancelled for non-payment is also considered an attempt.

The discipline-specific courses offered by the Industrial and Systems Engineering Department fall into two distinct categories:

1. ISE Core
2. Restricted Electives

The courses in the *ISE Core* cover the fundamentals of Industrial and Systems Engineering and introduce students to different sub-disciplines within the profession. These courses provide the essential knowledge necessary for every graduating engineer in ISE and therefore are required for all students.

In addition, the ISE core lays the foundation for different focus areas within the field represented by restricted electives. These courses prepare students to make an informed decision when selecting a specific ISE area (within the restricted electives) in which they would like to focus.

Restricted Electives

In order to facilitate an in-depth study of specific areas within the ISE discipline, the department of Industrial and Systems Engineering offers restricted electives in:

1. Operations Research and Data Analytics
2. Human Systems Engineering
3. Production and Logistics

Grouping of courses into these areas (sets of restricted electives) enable a layered approach, where a specific area is explored by several courses in a thorough and progressive fashion. This allows for not only exploration of topics at a deeper level but also employment of application-focused teaching techniques.

Students must select one of the restricted elective areas listed above. The deadline to make the selection is one week before the start of advance registration preceding the student's final semester. Students are always encouraged to discuss their decisions with their advisors.

There are two graduation requirements associated with respect to restricted electives:

Depth Requirement

Students must take at least three (3) courses in their selected area. Since some of the courses may have pre-requisites from the same area, course planning must be done carefully to ensure timely graduation.

Breadth Requirement

Students must take at least one (1) course from each of the other two areas. Since most restricted elective courses are offered once a year, course planning must be done carefully to optimize scheduling.

Educational Objectives

The objective of the industrial and systems engineering program is to produce graduates who:

- will be successful professionals in industrial and systems engineering or other disciplines
- can acquire advanced knowledge through continuing education or advanced degree programs
- can become active leaders in their profession and/or community

Mission

The mission of the undergraduate program is to provide a top quality, state-of-the-art education and student research training in industrial and systems engineering and to foster leading-edge instruction and cutting edge research. The program seeks national recognition by peer institutions and key employers of industrial and systems engineering graduates.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: COP 2332C (VB.NET), ESI 3327C, MAC 2311, MAC 2312, MAC 2313, MAS 3114, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking course with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete ESI 4356 and ESI 4523
- Complete 2 additional required courses
- 2.0 UF GPA required

Semester 7

- Complete 2 restricted ISE electives
- Complete 2 additional required courses
- 2.0 UF GPA required

Semester 8

- Complete all remaining required ISE courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities) [1,2]		3
Select one:		3
CHM 2045	General Chemistry 1 (State Core Gen Ed Physical Sciences (p. 80)) [1]	
CHM 2095	Chemistry For Engineers 1 [1]	
EIN 2002	Introduction to Industrial and Systems Engineering [1]	1

ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80); Writing Requirement: 6,000 words) [1]	3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics) [1,3]	4
State Core Gen Ed Humanities International, Writing Requirement: 6,000 words [1,2]		3
	Credits	**17**
Semester Two		
Quest 2 (Gen Ed Physical or Biological Sciences OR Gen Ed Social and Behavioral Sciences) [1,2]		3
EGN 2020C	Engineering Design & Society [1]	2
ECO 2013	Principles of Macroeconomics (State Core Gen Ed Social and Behavioral Sciences (p. 80)) [1,2]	4
PHY 2048	Physics with Calculus 1 (**Critical Tracking**; Gen Ed Physical Sciences) [1,3,4]	3
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; Gen Ed Mathematics) [1,3]	4
	Credits	**16**
Semester Three		
Select one:		3
COP 2271C	Computer Programming for Engineers (**Critical Tracking**; VB .NET) [1,3,4,9]	
COP 2273	Python Programming for Engineers (**Critical Tracking**) [1,3,4]	
ENC 2256	Writing in the Disciplines (Gen Ed Composition; Writing Requirement: 6,000 words)	3
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics) [1,3]	4
MAS 3114	Computational Linear Algebra [1,3]	3
PHY 2049	Physics with Calculus 2 (**Critical Tracking**; Gen Ed Physical Science) [1,3,4]	3
	Credits	**16**
Semester Four		
ECO 2023	Principles of Microeconomics [1]	4
EGM 2511	Engineering Mechanics: Statics [1]	3
EIN 3354	Engineering Economy [1]	3
ESI 3327C	Matrix and Numerical Methods in Systems Engineering [1,3]	3
Select one:		3
CGN 2328	Technical Drawing and Visualization [1]	
EML 2023	Computer Aided Graphics and Design [1]	
	Credits	**16**
Semester Five		
EGS 4034	Engineering Ethics and Professionalism [1]	1
ESI 4356	Decision Support Systems for Industrial and Systems Engineers (**Critical Tracking**)	4
ESI 3215C	Data Anal. for Indus. Apps. [1]	4
ESI 3312	Operations Research 1 [1]	3
Engineering elective [1,6]		3
	Credits	**15**
Semester Six		
EIN 4451	Lean Production Systems [1]	3
ESI 4313	Operations Research 2 [1]	3
EIN 3241	Human Factors & Ergonomics [1]	3
ESI 4523	Industrial Systems Simulation [1]	3
ESI 4610	Introduction to Data Analytics [1]	3
	Credits	**15**
Semester Seven		
Restricted elective (Breadth) [1,7]		3
Restricted elective (Depth; **Critical Tracking**) [1,7]		3
Restricted elective (Depth/Breadth; **Critical Tracking**) [1,7]		3
Technical elective [1,5]		3
Financial accounting course [1]		3
	Credits	**15**
Semester Eight		
EIN 4335	Senior Design Project [1,8]	3
Restricted elective (Depth) [1,7]		3
Restricted elective (Breadth/Depth) [1,7]		3
Technical elective [1,5]		3
General elective [1,5]		3
	Credits	**15**
	Total Credits	**125**

1 Minimum grade of C required. A C- will not satisfy this requirement.
2 The curriculum requires the completion of the International (N) component. The curriculum also requires the Writing Requirement of 24,000 words to be met.
3 Critical Tracking Courses. These courses must be completed within the first five semesters. (COP 2332C or COP 2273, ESI 3327C, MAC 2311, MAC 2312, MAC 2313, MAS 3114, PHY 2048, PHY 2049).
4 Students with deficient backgrounds in physics should first take a lower-level course such as PHY 2020. After successful remediation, they can begin the physics sequence: PHY 2048 and PHY 2049.
5 The curriculum requires six technical elective credits and three general elective credits. Technical Electives are 3000-level or above courses with significant scientific and/or technical content. General Electives are any course 3000-level or above whose content does not overlap with another course the student has taken or plans to take as part of the ISE curriculum. Information on Pre-Approved Technical and General Electives can be found here (https://www.ise.ufl.edu/academics/undergraduate/technical-general-electives/). Students can also elect to take additional courses within the Industrial and Systems Engineering Restricted Electives as their Technical Electives.
6 The curriculum requires students to take three credits of engineering electives. Students need to pass one of the following courses with a minimum grade of C:EEL 3003, EML 3100, and EMA 3010.
7 The Department of Industrial and Systems Engineering has three different focus areas. Information on focus area requirements and a list of all restricted elective courses is available here (https://www.ise.ufl.edu/focus-areas/).
8 As an alternative, students can participate in the Integrated Product and Process Design (IPPD) program. Multidisciplinary teams of engineering students in this program work closely with a liaison engineer to design a new product or process for an industry sponsor. The program requires students to take, typically in their senior year, a sequence of two 3-credit courses, EGN (https://catalog.ufl.edu/search/?P=EIN%204912) 4951 in Fall and EGN 4952 in Spring. The former is a course approved for a technical elective and the latter can replace EIN 4335.
9 Students taking COP2271 to meet this requirement must take the 3 credit course, not the course/lab 2+1 credit version.

Fundamentals of Engineering Exam Preparation

Approximately 10 percent of the members of the Institute of Industrial Engineers pursue a professional engineer (PE) license. A PE license is especially desirable for engineers who want to start their own businesses. The industrial and systems engineering curriculum does not require certain courses that are necessary for the Fundamentals of Engineering (FE) exam (also known as the Engineer Intern exam). The latter is also a prerequisite for pursuing a professional engineer license.

Students preparing for the FE exam should select a set of technical electives that properly prepare them for this exam, such as EGM 3520 and EGM 3400 / EGM 3401.

Approved Electives

Academic Learning Compact

Industrial and Systems Engineering prepares students for industrial practice in process design, efficiency planning with technical operation research component, data analytics for Industry 4.0, human systems analysis, production and quality control, quality control, and economic analysis of operational systems. Students will be prepared to use engineering principles to solve problems that require a quantitative basis for decision making and the application of data analytics, production and logistics, and human systems for economics, operations research, statistics, mathematics and engineering analysis, with significant digital impact.

The Industrial and Systems Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=05%7C02%7Clmorrison%40registrar.ufl.edu%7C2c5eccc419304b138df008dc12c42955%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C638405880909733472%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=2zaM27aPWvW8KqLg2VZb8k2reeHvY2vsqihQfGkb2A4%3D&reserved=0), under the General Criteria, the Program Criteria for Industrial and Similarly Named Engineering Programs, and the Program Criteria for Systems and Similarly Named Engineering Programs.

Industrialized Construction Engineering

Thank you for your patience.

Due to an extraordinary volume of requests, this page is currently under review. Please check back soon for finalized content.

Industrialized construction engineering includes the use design expertise in bridges, structures, and other large infrastructure while applying prefabrication design and assembly, digitalization, automation and artificial intelligence, and robotics to assist and deliver construction projects.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Industrialized Construction Engineering
- **Credits for Degree:** 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Website (https://www.essie.ufl.edu/civil-coastal-engineering/)

Curriculum

- Civil Engineering
- Combination Degrees
- Industrialized Construction Engineering

Department Requirements

A minimum grade of C is required for all courses marked below. A minimum GPA of 2.0 is required for all civil engineering courses. Before graduating, all BS Industrialized Construction Engineering students must take the Fundamentals of Engineering exam.

The basic program provides the minimum education for practice. Beyond the bachelor's degree, advanced degrees are available in geosensing, transportation, water resources, structural engineering, geotechnical engineering, construction, public works, civil engineering materials, and coastal and oceanographic engineering.

Educational Objectives

The undergraduate program in civil engineering will prepare graduates to

- Meet the needs and expectations of civil engineering employers and proceed toward the attainment of a Professional Engineering (P.E.) license
- Continue their education and pursue advanced degrees if they so desire.

Goals

- To develop industrialized construction engineering professionals with proficiency in the fundamentals of science and engineering
- To develop an understanding of the planning, design, construction and operation of construction engineering projects
- To develop enhanced communication skills
- To develop an appreciation of professionalism and ethics in the practice of engineering.

Mission

The department strives to build upon a leading program of exceptional teaching, innovative research and dedicated service by maintaining a strong curriculum, a highly qualified and committed faculty, outstanding facilities and essential funding.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 7 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

Semester 5

- Complete final lower division critical-tracking course and EIN 3354 with minimum grades of C
- Complete CGN 4160 with minimum grade of C
- 2.0 UF GPA required

Semester 6

- Complete CGN 3501C with minimum grades of C
- 2.0 UF GPA required

Semester 7

- Complete CGN 4XXX
- 2.0 UF GPA required

Semester 8

- Complete CCE 4811
- Complete all remaining Civil Engineering required courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities) [1]		3
BCN 2XXX	Fundamentals of Industrialized Construction	3
CHM 2045 or CHM 2095	General Chemistry 1 (**Critical Tracking**; Gen Ed Physical Sciences) [1] or Chemistry For Engineers 1	3
CHM 2045L	General Chemistry Laboratory (Gen Ed Physical Sciences)	1
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80); Writing Requirement: 6,000 words) [1]	3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; Gen Ed Mathematics)	4
	Credits	**17**
Semester Two		
ENC 2256	Writing in the Disciplines (Gen Ed Composition; Writing Requirement: 6,000 words) [1]	3
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; State Core Gen Ed Mathematics) [1]	4
PHY 2048	Physics with Calculus 1 (**Critical Tracking**; State Core Gen Ed Physical Sciences)	3
PHY 2048L	Laboratory for PHY 2048 (Gen Ed Physical Sciences)	1
CGN 2328	Technical Drawing and Visualization	3
State Core Gen Ed Social and Behavioral Sciences (p. 80) [1]		3
	Credits	**17**
Semester Three		
Quest 2 [2,3]		3
BCN 3XXX	Integrated Estimating, Planning and Scheduling for Construction	3
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics) [1]	4
PHY 2049	Physics with Calculus 2 (**Critical Tracking**; Gen Ed Physical Sciences) [1]	3
STA 3032 or STA 2023	Engineering Statistics or Introduction to Statistics 1	3
	Credits	**16**
Semester Four		
COP 2273	Python Programming for Engineers	3
EEL 3003	Elements of Electrical Engineering	3
EGM 2511	Engineering Mechanics: Statics [1]	3
MAP 2302	Elementary Differential Equations (**Critical Tracking**; Gen Ed Mathematics) [1]	3
State Core Gen Ed Humanities [1]		3
Gen Ed Social and Behavioral Sciences with International; Writing Requirement: 6,000 words		3
	Credits	**18**
Semester Five		
CGN 3421	Computer Methods in Civil Engineering	3
CGN 4160	Civil Engineering Practice [1]	4
EIN 3354	Engineering Economy [1]	3
EGM 3520	Mechanics of Materials	3
EGM 3400	Elements of Dynamics	2
	Credits	**15**
Semester Six		
BCN 4XXX	Reality Computing and Digital Twins	3
CEG 4011	Soil Mechanics	4
CES 3102	Mechanics of Engineering Structures	4
CGN 3501C	Civil Engineering Materials (**Critical Tracking**; Upper Division) [1]	4
	Credits	**15**
Semester Seven		
CES 4702	Analysis and Design in Reinforced Concrete	3
CGN 4XXX	Engineering and Construction Analytics using BIM (**Critical Tracking**; Upper Division)	3
EEL 3872	Artificial Intelligence Fundamentals	3
Approved electives		6
	Credits	**15**
Semester Eight		
BCN 3240C	Equipment and Methods for Heavy/Highway Construction	3
BCN 4753	Construction Finance	3
CCE 4811	Construction Engineering Design (**Critical Tracking**; Upper Division)	3

Approved electives	6
Credits	**15**
Total Credits	**128**

1 Minimum grade of C required.
2 Choose a course that fulfills either the Gen Ed Physical/Biological Science or Civil Engineering Science Elective, while also meeting any International or Writing requirements.
3 Science Elective Requirement: Upper-division transfer students with 60 credit hours or an approved AA degree are exempt from the Quest 2 course requirement.

Materials Science and Engineering

Everything Americans use is composed of materials, from computer chips to flexible concrete skyscrapers, from plastic bags to artificial hips, from fiber optical cables to automobiles. Materials Science and Engineering makes these materials reliable and useful through design, processing, and analysis of controlled compositions, microstructures, and properties. Without new materials, the next generation of computers, automobiles, aircraft telecommunications, skyscrapers, and medical implants will not exist. Materials of the future will be smart and think on their own, in addition to meeting traditional property demands. This field abounds with scientific challenges and technological excitement.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Materials Science and Engineering
- **Credits for Degree:** 125

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Curriculum

- /UGRD/colleges-schools/UGENG/ENG_UCT02/
- /UGRD/colleges-schools/UGENG/ENG_UCT03/
- /UGRD/colleges-schools/UGENG/ENG_UCT06/
- /UGRD/colleges-schools/UGENG/ENG_UCT07/
- Combination Degrees
- Materials Science and Engineering
- Materials Science and Engineering Minor
- Nuclear and Radiological Engineering Minor
- Nuclear Engineering

The bachelor's degree program provides a broad materials science and engineering core with specialization in ceramics, electronic materials, metals or polymeric and biomaterials. Biomaterials is also taught at the combination bachelor's/master's level.

Admission Requirements

It is the department's policy to admit the best-qualified transfer applicants as demonstrated by academic achievement.

Successful applicants must have earned:

- An overall 2.5 grade point average, based on the first two attempts, in the eight preprofessional (critical-tracking) courses
- A minimum grade of C in the following:

Code	Title	Credits
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAP 2302	Elementary Differential Equations	3
CHM 2045/2095	General Chemistry 1	3
CHM 2045L	General Chemistry Laboratory	1
CHM 2046/2096	General Chemistry 2	3
CHM 2046L	General Chemistry 2 Laboratory	1
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for PHY 2048	4
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for PHY 2049	4

  Only the first two attempts in each course, including withdrawals, will be considered for admission to or retention in the department
- A cumulative minimum GPA of 2.0 is required for all courses

Educational Objectives

The program objectives of the MSE program at the University of Florida are to produce engineering practitioners and graduate students who in three to five years after graduation will:

- Have successful careers in Materials Science and Engineering or related disciplines.
- Be prepared to successfully participate in continuing education or education toward advanced degrees.

Department Requirements

A minimum grade of C is required in ENC 2256 / ENC 3246.

The department encourages students to accept internships and opportunities to study abroad. However, it is highly recommended that students seek academic advising for appropriate registration planning.

Mission

The department strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting and distance learning to promote engineering in the field.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 9 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, EMA 3010, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 9 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete EMA 4125 and 1 additional EMA 3000/4000 level course

Semester 7

- Complete 2 additional EMA 3000/4000 level courses

Semester 8

- Complete all remaining EMA 3000/4000 level required courses

Model Semester Plan

Students are expected to complete the General Education International (N) requirement. This is often done concurrently with another General Education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities); Writing Requirement: 2,000 words; with International		3
Select one:		3
CHM 2045	General Chemistry 1 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2095	Chemistry For Engineers 1 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2045L	General Chemistry Laboratory (Gen Ed Physical Sciences)	1
Select one:		3
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80); Writing Requirement: 6,000 words) [1]	
ENC 1102	Argument and Persuasion (State Core Gen Ed Composition (p. 80); Writing Requirement: 6,000 words) [1]	
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
	Credits	**14**
Semester Two		
Quest 2 (Gen Ed Social/Behavioral Science); Writing Requirement: 2,000 words; with International		3
Select one:		3
CHM 2046	General Chemistry 2 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2096	Applied General Chemistry 2 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2046L	General Chemistry 2 Laboratory (Gen Ed Physical Sciences)	1
Select one:		3
ENC 2256	Writing in the Disciplines (Gen Ed Composition; Writing Requirement: 6,000 words) [2]	
ENC 3246	Professional Communication for Engineers (Writing Requirement: 6,000 words) [2]	

MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**)	4
	Credits	**14**
Semester Three		
Select one:		3-4
EIN 3354	Engineering Economy	
MAN 3025	Principles of Management	
MAR 3023	Principles of Marketing	
EMA 3010	Materials (**Critical Tracking**)	3
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2048	Physics with Calculus 1 (**Critical Tracking**; State Core Gen Ed Physical Sciences)	3
PHY 2048L	Laboratory for PHY 2048 (Gen Ed Physical Sciences)	1
Select one:		2-3
COP 2271	Computer Programming for Engineers (MATLAB section)	
COP 2273	Python Programming for Engineers	
	Credits	**16-18**
Semester Four		
EGM 2511	Engineering Mechanics: Statics	3
EMA 3000L	Sophomore Materials Laboratory	1
EMA 3011	Fundamental Principles of Materials	3
EMA 3800	Error Analyses and Optimization Methodologies in Materials Research	3
MAP 2302	Elementary Differential Equations (**Critical Tracking**)	3
PHY 2049	Physics with Calculus 2 (**Critical Tracking**)	3
PHY 2049L	Laboratory for PHY 2049	1
	Credits	**17**
Semester Five		
EEL 3003	Elements of Electrical Engineering	3
EGM 3520	Mechanics of Materials	3
EMA 3050	Introduction to Inorganic Materials	3
EMA 3066	Introduction to Organic Materials	3
EMA 3080C	Materials Laboratory 1 (Writing Requirement: 4,000 words)	2
EMA 4314	Thermodynamics of Materials	3
	Credits	**17**
Semester Six		
EMA 3013C	Materials Laboratory 2 (Writing Requirement: 2,000 words)	2
EMA 3413	Electronic Properties of Materials	3
EMA 3513C	Analysis of the Structure of Materials	4
EMA 4125	Kinetics of Materials (**Critical Tracking**)	3
EMA 4223	Mechanical Behavior of Materials	3
	Credits	**15**
Semester Seven		
EMA 4324	Stability of Materials	3
EMA 4913 or EGN 4951	Research in Materials Science and Engineering 1 or Integrated Product and Process Design 1	1-3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Senior materials laboratory elective		1
Technical electives [3]		9
	Credits	**17-19**
Semester Eight		
EMA 4XXX	AI for Materials	3
EMA 4714	Materials Selection and Failure Analysis	3
EMA 4914 or EGN 4952	Research in Materials Science and Engineering 2 or Integrated Product and Process Design 2	3
State Core Gen Ed Humanities; Writing Requirement: 2,000 words or more		3
Technical elective [3]		3
	Credits	**15**
	Total Credits	**125**

1 ACT/SAT placement scores do not exempt this requirement.

2 Students needing Gen Ed Composition (GE-C) credit must take ENC 2256. Those who have already completed 6 credits of GE-C through other courses may take ENC 3246.

[3] 3 credits minimum of technical electives must be one of the following materials processing courses: EMA 4614, EMA 4062, EMA 4623, EMA 4645, or EMA 4666. A maximum of 6 credits of non-EMA or ENU technical electives can be approved from courses outside the MSE department. These electives must either be listed as pre-approved in the MSE Undergraduate Handbook or be approved through an academic petition to the department.

Approved Electives

Senior Materials Laboratory Electives

There are corequisite requirements for certain electives. Students taking a laboratory elective must also be enrolled in the corresponding corequisite technical elective course.

Code	Title	Credits
Laboratory Elective		
EMA 4041L	Advanced Ceramics Laboratory 1 [1]	1
EMA 4020L	Metallurgy Laboratory [2]	1
EMA 4061L	Biomaterials Laboratory [3]	1
EMA 4161L	Polymers Laboratory [4]	1
EMA 4414L	Electronic Materials Laboratory [5]	1

[1] Corequisite: EMA 4645.
[2] Corequisite: EMA 4120.
[3] Corequisite: EMA 4061.
[4] Corequisite: EMA 4161.
[5] Corequisite: EMA 4614.

Technical Electives

Code	Title	Credits
EMA/ENU Courses		
Typically taught in Fall		
EMA 4061	Biomaterials: Structure and Properties	3
EMA 4120	Physical Metallurgy 1	3
EMA 4144	Physical Ceramics 1	3
EMA 4161	Physical Properties of Polymers	3
EMA 4614	Production of Electronic Materials	3
CEMA/ENU Courses		
Typically taught in Spring		
EMA 4062	Biopolymers: Manufacture, Stability and Biocompatibility	3
EMA 4145	Physical Ceramics 2	3
EMA 4224	Physical Metallurgy 2	3
EMA 4462	Polymer Characterization	3
EMA 4615	Compound Semiconductor Materials	3
EMA 4623	Process Metallurgy	3
EMA 4645	Processing of Ceramic Materials	3
EMA 4666	Polymer Processing	3
ENU 4800	Introduction to Nuclear Reactor Materials	3

- 3 credits minimum of technical electives must be one of the following materials processing courses: EMA 4614, EMA 4062, EMA 4623, EMA 4645, or EMA 4666.
- 3 credits maximum of non-EMA or ENU technical electives can be approved courses from outside the MSE department. Non-EMA or ENU technical electives must be approved by an academic advisor prior to registration.

Academic Learning Compact

The major enables students to develop an understanding of materials systems and their role in engineering. Emphasis is placed on the ability to apply knowledge of mathematics, science and engineering principles to materials science and engineering; to design and conduct experiments, as well as to analyze and interpret data; and to design a *program name* system, component or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability.

The Materials Science and Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=05%7C01%7CDMAYH%40eng.ufl.edu

%7C71f1da0d2bb2405acf0908db1519ea82%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C638126973271573797%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=Dc6bpEcUU8fM3vMsOTj6pGPQgyLzoSeoS8v2s%2BFVnBE%3D&reserved=0), under the General Criteria and the Program Criteria for Materials, Metallurgical, Ceramics and Similarly Named Engineering Programs.

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of mathematics, science and engineering principles to materials science and engineering.
2. Design and conduct materials science and engineering experiments and analyze and interpret the data.

Critical Thinking

3. Design a materials science and engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability constraints.

Communication

4. Communicate technical data and design information effectively in speech and in writing to other materials engineers.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
EMA 3013C				R
EMA 3050	I			
EMA 3066	R		I	
EMA 3080C		I		I
EMA 3513C		R		A
EMA 4223			R	
EMA 4714	A	A	A	

Assessment Types

- Assignments
- Laboratory reports
- Research papers
- Oral presentations
- Exams
- Additional assessments include:
  - Outcome assessment
  - Student exit survey

Materials Science and Engineering Minor

This minor is for engineering and science students with interests in Materials Science and Engineering. Materials concerns are critical to engineering design and analysis and new materials are needed for microelectronic packages, biomedical applications, super-conducting films, tool bits, cutting tools, construction, fuel-efficient engines, and other industrial and scientific applications.

About this Program

- Materials Science and Engineering
- Materials Science and Engineering Minor
- Nuclear and Radiological Engineering Minor
- Nuclear Engineering

This minor provides the academic background to understand materials design, selection and processing. Students are required to complete a minimum of 15 credits of materials-related courses that complement their degree programs.

Required Courses

Code	Title	Credits
EMA 3010	Materials	3
EMA courses (approved by undergraduate coordinator)		12
Total Credits		**15**

Mechanical Engineering

Mechanical Engineering is concerned with motion and the processes whereby other energy forms are converted into motion. Mechanical engineers are responsible for conceiving, designing, manufacturing, testing, and marketing devices and systems that alter, transfer, transform, and utilize the energy forms that cause motion.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Mechanical Engineering
- **Credits for Degree:** 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Mechanical & Aerospace Engineering (MAE) graduates many exceptional mechanical and aerospace engineers each year. The Mechanical Engineering program celebrated its 100 year anniversary in 2009 and is one of the founding departments of the Herbert Wertheim College of Engineering. Starting within mechanical as an aeronautical option, the Aeronautical Engineering program was founded in 1946. It grew to become

the Aerospace Engineering program, which merged with Engineering Science and Mechanics in 1969. All these programs united (or reunited) in 2002. Going strong into the 21st century, MAE remains a vibrant and intellectually diverse program at both the undergraduate and graduate levels.

Curriculum

- Aerospace Engineering
- Biomechanics Minor
- Combination Degrees
- Mechanical Engineering
- Sustainable and Resilient Energy Engineering Certificate

The baccalaureate program in mechanical engineering is fully accredited and provides a broad education with a strong foundation in mathematics, science and basic engineering sciences. Advanced courses are available to develop specialized interests in the engineering aspects of manufacturing, robotics, solid mechanics, thermal and fluid systems, dynamics and controls, and biomechanics. Graduates are prepared to work in a variety of industries or to pursue graduate study.

Combination Bachelor's/Master's Degree Program

The mechanical engineering professional often benefits from an advanced degree to meet the challenging needs of industry and government. Accordingly, the Department of Mechanical and Aerospace Engineering actively participates in the combination BS/MS degree program that allows students to double-count graduate courses toward both degrees. The combination-degree program reduces the cost for both degrees and enhances the student's marketability for career advancement. Interested students should contact the MAE department or its website for more information.

Department Requirements

Minimum grades of C are required for the following:

Code	Title	Credits
EGM 2511	Engineering Mechanics: Statics	3
EGM 3344	Introduction to Numerical Methods of Engineering Analysis	3
EGM 3401	Engineering Mechanics: Dynamics	3
EGM 3520	Mechanics of Materials	3
EML 3100	Thermodynamics	3

The minimum C grade is part of the prerequisite requirement for courses listing EGM 2511, EGM 3344, EGM 3401, EGM 3520, or EML 3100 as a prerequisite. The prerequisite course and subsequent course cannot be taken in the same term, even if the prerequisite is being repeated.

An aerospace or mechanical engineering student whose cumulative, upper-division or department grade point average falls below a 2.0 or who does not meet critical tracking requirements will be placed on academic probation and required to complete a probation contract with an MAE academic advisor. Students normally are allowed a maximum of two terms (consecutive or non-consecutive) on academic probation. Students who do not satisfy the conditions of the first term on probation may be dismissed from the department.

All graduating seniors must complete an exit interview with their advisor before graduating.

Dual-Degree Programs

There is much overlap between the aerospace engineering and mechanical engineering curriculum. The first six semesters are identical for both programs. Through proper selection of electives, students can earn a dual mechanical engineering/aerospace engineering degree with one semester of additional work. Contact the Department of Mechanical and Aerospace Engineering or visit the website for more information.

Educational Objectives

The program educational objectives of the mechanical engineering undergraduate program are to ensure that within a few years of graduation:

- Graduates will meet or exceed the expectations of employers of mechanical engineers.
- Qualified graduates will continue their professional development by pursuing advanced study if they so desire.

Mission

The mission of the undergraduate program is to:

- Serve the state of Florida, the United States and the engineering profession by providing a high quality educational experience in mechanical engineering;
- Enhance student learning with extracurricular opportunities including undergraduate research mentored by nationally recognized researchers; and
- Foster ongoing professional development of students, faculty, and staff.

Research Programs

The department's active research programs are sponsored by private industry, the National Science Foundation, Department of Defense, NASA, National Institutes of Health and other agencies.

These programs keep faculty at the leading edge of technology and provides opportunities for students to participate in research through classroom assignments, individual studies, undergraduate research scholarships and employment as research assistants.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 8 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, EML 2023, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.8 GPA required for the group of 8 critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete an additional 2 of 8 critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for the group of 8 critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete an additional 2 of 8 critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for the group of 8 critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete the remaining 2 of 8 critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for the group of 8 critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Meet all Semester 1-4 critical-tracking requirements
- 2.0 UF GPA required

SEMESTER 6

- Complete EGN 3353C
- Complete EML 3301C
- Complete EGM 3344 with a minimum grade of C

- Complete EML 3005
- 2.0 UF GPA required

SEMESTER 7

- Complete EML 4140
- Complete EML 4312
- Complete EML 4501
- 2.0 UF GPA required

SEMESTER 8

- Complete EML 4220
- Complete EML 4507
- Complete EML 4321
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities) [2]		3
Select one:		3
CHM 2045	General Chemistry 1 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2095	Chemistry For Engineers 1 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2045L	General Chemistry Laboratory (Gen Ed Physical Sciences)	1
ENC 1101 or ENC 1102	Expository and Argumentative Writing (Gen Ed Composition; Writing Requirement: 6,000 words; ACT/SAT placement scores do not exempt this requirement) or Argument and Persuasion	3
EML 2920	Department and Professional Orientation	1
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
	Credits	**15**
Semester Two		
COP 2273	Python Programming for Engineers	3
EML 2023	Computer Aided Graphics and Design (**Critical Tracking**)	3
ENC 2256	Writing in the Disciplines ((State Core Gen Ed Composition; Writing Requirement: 6,000 words)	3
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2048	Physics with Calculus 1 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	3
PHY 2048L	Laboratory for PHY 2048 (Gen Ed Physical Sciences)	1
	Credits	**17**
Semester Three		
Quest 2 (Gen Ed Biological Sciences or Physical Sciences) [4]		3
COP 2271	Computer Programming for Engineers (take the Matlab section)	2
EGM 2511	Engineering Mechanics: Statics [1]	3
EML 2322L	Design and Manufacturing Laboratory	2
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2049	Physics with Calculus 2 (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences)	3
PHY 2049L	Laboratory for PHY 2049 (Gen Ed Physical Sciences)	1
	Credits	**18**
Semester Four		
EGM 3344	Introduction to Numerical Methods of Engineering Analysis [1]	3
EGM 3520	Mechanics of Materials [1]	3
EMA 3010	Materials	3
EML 3100	Thermodynamics [1]	3

MAP 2302	Elementary Differential Equations (**Critical Tracking**)	3
State Core Gen Ed Humanities (p. 80) [2]		3
	Credits	**18**
Semester Five		
EEL 3003	Elements of Electrical Engineering [3]	3
EGM 3401	Engineering Mechanics: Dynamics [1]	3
EGN 3353C	Fluid Mechanics	3
EML 3301C	Mechanics of Materials Laboratory (Writing Requirement: 6,000 words)	3
State Core Gen Ed Social and Behavioral Sciences (p. 80) [2]		3
	Credits	**15**
Semester Six		
EML 3005	Mechanical Engineering Design 1	3
EML 4140	Heat Transfer	3
EML 4220	Vibrations	3
EML 4312	Control of Dynamic Systems	3
Gen Ed Social and Behavioral Sciences (Writing Requirement: 6,000 words) [2]		3
	Credits	**15**
Semester Seven		
EML 4147C	Thermal Sciences Design and Laboratory	3
Select one:		3
EML 4501	Mechanical Engineering Design 2	
EAS 4700	Aerospace Design 1	
EAS 4710	Aerospace Design 2 (can substitute if dual ME/ASE student)	
EML 4507	Finite Element Analysis and Design	3
Technical electives		6
	Credits	**15**
Semester Eight		
EML 4314C	Dynamics and Controls System Design Laboratory	3
EML 4321	Manufacturing Engineering	3
Select one:		3
EML 4502	Mechanical Engineering Design 3	
EML 4842	Autonomous Vehicles	
EML 4535C	Automation in Production Engineering	
EML 4914	Undergraduate Realization Thesis	
Specialization elective		3
Technical elective		3
	Credits	**15**
	Total Credits	**128**

1 Minimum grade of C required.

2 Students are also expected to complete the General Education International (GE-N) requirement. This is often done concurrently with another General Education requirement (typically, GE-C, H or S).

3 Can substitute EEL 3111C.

4 Students should select a Quest 2 class that is either a Physical or Biological Science. Upper division transfer students exempt from the Quest 2 course requirement must select one of the following to meet the Science Elective Requirement: BSC 2010 or CHM 2046 (see transfer admissions (https://mae.ufl.edu/students/undergraduate/admissions/transfer-admissions/) on department website).

For technical and specialization electives, please see the department website (https://mae.ufl.edu/students/undergraduate/advising-curriculum/).

Academic Learning Compact

Mechanical engineers are responsible for creating and manufacturing devices and systems that alter, transfer, transform and utilize energy forms that cause motion. The baccalaureate program provides a broad education with a strong foundation in mathematics, science and basic engineering sciences. Advanced courses develop specialized engineering skills in manufacturing, robotics, solid mechanics, thermal and fluid systems, dynamics and controls, and biomechanics.

The Mechanical Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=05%7C01%7CDMAYH%40eng.ufl.edu%7C71f1da0d2bb2405acf0908db1519ea82%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C638126973271573797%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C

%7C&sdata=Dc6bpEcUU8fM3vMsOTj6pGPQgyLzoSeoS8v2s%2BFVnBE%3D&reserved=0), under the General Criteria and the Program Criteria for Mechanical and Similarly Named Engineering Programs.

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of mathematics, science, and engineering principles to mechanical engineering problems.
2. Design and conduct mechanical engineering experiments and analyze and interpret the data.

Critical Thinking

3. Design a mechanical engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability constraints.

Communication

4. Communicate technical data and design information effectively in speech and in writing to other mechanical engineers.

Nuclear and Radiological Engineering Minor

This minor is for students interested in careers related to nuclear and radiological engineering, usually as a complement to a major in another engineering discipline or physical science. In addition to the areas of power generation and national security, nuclear engineering knowledge and skills are critical in nuclear medicine, radiation imaging, petroleum applications, and non-destructive testing.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.
Website (https://mse.ufl.edu/)

Curriculum

- /UGRD/colleges-schools/UGENG/ENG_UCT02/
- /UGRD/colleges-schools/UGENG/ENG_UCT03/
- /UGRD/colleges-schools/UGENG/ENG_UCT06/
- /UGRD/colleges-schools/UGENG/ENG_UCT07/
- Combination Degrees
- Materials Science and Engineering
- Materials Science and Engineering Minor
- Nuclear and Radiological Engineering Minor
- Nuclear Engineering

Upon completion of the minor, students will have a broad background in nuclear engineering, including mathematics/computation, radiation sources, the interaction of radiation with matter, reactor analysis (neutronics), and radiation detection/instrumentation. Students will be capable of performing engineering analysis and design in areas relevant to nuclear engineering, or to pursue graduate student in nuclear engineering or a closely related field.

Required Courses

Code	Title	Credits
ENU 4001	Nuclear Engineering Analysis 1	4
ENU 4103	Reactor Analysis and Computation I	4
ENU 4605	Radiation Interactions and Sources 1	4
ENU 4612	Nuclear Radiation Detection and Instrumentation	3
Total Credits		**15**

Nuclear Engineering

Nuclear Engineering includes the design, development, and operation of nuclear power systems; numeric simulation of nuclear systems; health physics and radiation protection; radiation imaging; radiation measurements; national security and non-proliferation; nondestructive examination of materials and structures using radiation techniques; use of radiation in medicine for treatment and diagnostics; and using radiation in food processing, industrial processing, and manufacturing control.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Degree:** Bachelor of Science in Nuclear Engineering
- **Credits for Degree:** 127

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

- Combination Degrees
- Materials Science and Engineering
- Materials Science and Engineering Minor
- Nuclear and Radiological Engineering Minor
- Nuclear Engineering

A full complement of experimental facilities is available, including a 100 KW research and training reactor, a neutron activation analysis laboratory and a D-D neutron source for radiation studies. The department also has specialized nuclear instrumentation in the radiation detection laboratories located in the Nuclear Science Building and the Nuclear Field Building.

Students should concentrate electives in one discipline to achieve solid familiarity in a minor field of study. These electives, chosen with an advisor, allow option area specialization in reactor engineering, reactor operations, radioisotopes and nuclear radiation technology, and radiation and biological systems.

ADMISSION REQUIREMENTS

It is the department's policy to admit the best-qualified transfer applicants as demonstrated by academic achievement.

Successful applicants must have earned:

- An overall 2.5 grade point average, based on the first two attempts, in the eight preprofessional (critical-tracking) courses

A minimum grade of C in the following:

Code	Title	Credits
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4

MAP 2302	Elementary Differential Equations	3
CHM 2045/2095	General Chemistry 1	3
CHM 2045L	General Chemistry Laboratory	1
CHM 2046/2096	General Chemistry 2	3
CHM 2046L	General Chemistry 2 Laboratory	1
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for PHY 2048	4
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for PHY 2049	4

- Only the first two attempts in each course, including withdrawals, will be considered for admission to or retention in the department
- A cumulative minimum GPA of 2.0 is required for all courses

Department Requirements

Minimum grades of C are required in the following:

Code	Title	Credits
ENC 3246	Professional Communication for Engineers	3
ENU 4001	Nuclear Engineering Analysis 1	4
ENU 4191	Elements of Nuclear and Radiological Engineering Design	1
ENU 4192	Nuclear and Radiological Engineering Design	3
ENU 4003	Nuclear Engineering Analysis 2	4
ENU 4605	Radiation Interactions and Sources 1	4

- The department encourages students to accept internships and opportunities to study abroad. It is highly recommended that students seek academic advising for appropriate registration planning.
- All nuclear engineering and nuclear radiological sciences majors must pass all required undergraduate department courses with an overall C average.
- All technical electives must be approved by a department advisor. At least nine credits of technical electives must be ENU courses. No more than three credits (combined) may come from ENU 4949 and ENU 4905.

Educational Objectives

The Department of Nuclear and Radiological Engineering has established the following educational objectives for its undergraduate program.

Graduates will:

- Have successful careers in nuclear engineering or related disciplines
- Pursue continuing education or advanced degrees

Mission

The department will provide quality education and conduct nationally recognized research in nuclear and radiological engineering to serve the needs of Florida and the nation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095; CHM 2046 or CHM 2096 ; MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- Complete ENU 4001 with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete ENU 4003 and ENU 4605 with a minimum grade of C

Semester 7

- Complete 2 additional 4000 level ENU courses

Semester 8

- Complete all remaining 4000 level ENU required courses

Model Semester Plan

Students are expected to complete the General Education International (GE-N) requirement. This is often done concurrently with another General Education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
Select one:		3
CHM 2045	General Chemistry 1 (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences)	
CHM 2095	Chemistry For Engineers 1 (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences)	
CHM 2045L	General Chemistry Laboratory (Gen Ed Physical Sciences)	1

EGS 4034	Engineering Ethics and Professionalism	1
ENU 3132	Reactor Thermal Engineering 1	4
ENU 4003	Nuclear Engineering Analysis 2	4
ENU 4605	Radiation Interactions and Sources 1	4
	Credits	**16**
Semester Six		
ENU 4103	Reactor Analysis and Computation I	4
ENU 4133	Reactor Thermal Engineering 2	4
ENU 4800	Introduction to Nuclear Reactor Materials	3
Technical electives		6
	Credits	**17**
Semester Seven		
ENU 4134	Reactor Thermal Engineering 3	4
ENU 4191	Elements of Nuclear and Radiological Engineering Design	1
ENU 4612	Nuclear Radiation Detection and Instrumentation	3
ENU 4612L	Nuclear Radiation Detection and Instrumentation Laboratory	1
ENU 4630	Fundamental Aspects of Radiation Shielding	3
ENU 4104	Reactor Analysis and Computation 2	3
	Credits	**15**
Semester Eight		
ENU 4180	Introduction to the Nuclear Fuel Cycle	3
ENU 4145	Risk Assessment and Economic Analysis of Nuclear Systems	3
ENU 4192	Nuclear and Radiological Engineering Design	3
ENU 4505L	Nuclear and Radiological Engineering Laboratory 1 (Writing Requirement: 4,000 words)	3
Technical elective		3
	Credits	**15**
	Total Credits	**127**

1 Quest 1 and Quest 2 courses need to sum to 4,000 words and one must include the Gen Ed International (GE-N) designation.

2 ACT/SAT Placement scores do not exempt this requirement.

[3] Students needing Gen Ed Composition (GE-C) credit must take ENC 2256. Those who have already completed 6 credits of GE-C through other courses may take ENC 3246.

Technical Electives

The choice of engineering science and technical electives allows emphasis in nuclear power engineering, nuclear instrumentation, criticality safety safeguards, radiation imaging, plasmas/fusion, advanced nuclear reactor concepts and non-proliferation.

Of the 12 credits of technical electives required, 9 credits must be ENU courses 3000-level or above. A maximum of three credits, combined, may come from ENU 4905 or ENU 4949. The final 3 credits may be any engineering (including ENU), mathematics or science course 3000-level or above.

Academic Learning Compact

The major in Nuclear Engineering educates students to work professionally in areas related to the control and safe utilization of nuclear energy, radiation, and radioactivity.

The Nuclear Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org (https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.abet.org%2F&data=05%7C01%7CDMAYH%40eng.ufl.edu%7C71f1da0d2bb2405acf0908db1519ea82%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C638126973271573797%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=Dc6bpEcUU8fM3vMsOTj6pGPQgyLzoSeoS8v2s%2BFVnBE%3D&reserved=0), under the General Criteria and the Program Criteria for Nuclear and Radiological Engineering and Similarly Named Engineering Programs.

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two or more courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of mathematics, science, and engineering for problem solving in engineering.
2. Design and conduct experiments and analyze and interpret experimental data.

Critical Thinking

3. Develop an engineering design to meet specific technical requirements within realistic constraints such as economic, environmental, health and safety, and reliability.
4. Foster the need for lifelong learning and the ability to adapt this to engineering practice.

Communication

5. Function effectively on multidisciplinary skills teams.
6. Communicate effectively, using both oral and written presentations, in engineering practice.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Frazier Rogers Hall
1741 Museum Road, Bldg. 474
GAINESVILLE FL 32611-0570
Map (http://campusmap.ufl.edu/#/index/0474)

Curriculum

- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

This certificate is limited to undergraduate engineering students in the Herbert Wertheim College of Engineering.

Engineering students may substitute one advisor-approved engineering elective, or a packaging-related internship or coop for a required packaging engineering course, where the student's engineering academic advisor approves the substitution.

Required Courses

Code	Title	Credits
PKG 3001	Principles of Packaging	3
PKG 3103	Food Packaging	3
PKG 4008	Distribution and Transport Packaging	3
PKG 4011	Packaging Production and Processing	3
PKG 4101C	Computer Tools for Packaging	3
Total Credits		**15**

Sales Engineering Minor

Graduates with this minor are regarded highly by recruiters for industries seeking sales engineering staff. The minor provides the academic background for careers in sales, managerial, and entrepreneurial pursuits. Graduates are more effective communicators and are trained to promote and market new technologies and related products.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Credits:** 16-18 | Completed with a minimum 2.8 combined GPA
- **Contact:** 371 Weil Hall (http://campusmap.ufl.edu/?loc=0024)

Only students enrolled in an engineering degree-granting major are eligible for this minor. Computer Science students are not eligible for this degree.

The curriculum enhances the engineering discipline with courses in communications, business, management and accounting. There is a core requirement of seven to eight credits, a communication skills elective requirement of three credits and a management skills elective requirement of six to eight credits.

Required Courses

Code	Title	Credits
Required		
ACG 2021	Introduction to Financial Accounting	3-4
or AEB 3144	Introduction to Agricultural Finance	
AEB 3341	Selling Strategically	3
EGN 4930	Sales Engineer Seminar	1
Select one:		3
CGN 4101	Civil Engineering Cost Analysis	
ECH 4604	Process Economics and Optimization	
EIN 3354	Engineering Economy	
AEB 3300	Agricultural and Food Marketing	3-4
or MAR 3023	Principles of Marketing	
Communications Skills elective		3
Total Credits		**16-18**

Communications Skills Electives

Code	Title	Credits
AEC 3030C	Effective Oral Communication	3
ENC 3250	Professional Communication	3
ENC 3246	Professional Communication for Engineers	3
SDS 4410	Interpersonal Communication Skills	3
SPC 2300	Introduction to Interpersonal Communication	3
SPC 2608	Introduction to Public Speaking	3

Sustainable and Resilient Energy Engineering Certificate

The Sustainable and Resilient Energy Engineering certificate provides a comprehensive educational experience for engineering students interested in sustainable energy, advanced energy generation, storage, and grid resiliency technologies.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 787)
- **Credits:** 9 | Three courses completed with a composite 3.0 GPA; each course completed with minimum grade of C.
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The Department of Mechanical & Aerospace Engineering (MAE) graduates many exceptional mechanical and aerospace engineers each year. The Mechanical Engineering program celebrated its 100 year anniversary in 2009 and is one of the founding departments of the Herbert Wertheim College of Engineering. Starting within mechanical as an aeronautical option, the Aeronautical Engineering program was founded in 1946. It grew to become the Aerospace Engineering program, which merged with Engineering Science and Mechanics in 1969. All these programs united (or reunited) in 2002. Going strong into the 21st century, MAE remains a vibrant and intellectually diverse program at both the undergraduate and graduate levels.

Hamilton School of Classical and Civic Education

The Hamilton School of Classical and Civic Education is the newest school at the University of Florida, uniquely dedicated to educating the future leaders of a free society. Offering courses from world-class faculty on themes in Western civilization, the school aims to help students enter an unparalleled pipeline for singular opportunities both at UF and beyond.

eSTABLISHED

Effective Spring 2025, the Hamilton Center for Classical and Civic Education became the Hamilton School of Classical and Civic Education.

Student Experience in Hamilton

Hamilton School of Classical and Civic Education students have a variety of life-changing opportunities to pursue academic, career, and personal growth. Faculty bring world-class scholarship and instruction to the classroom in Gainesville, and facilitate connections to prestigious internships and summer fellowships, enabling students to get a head start on career ambitions. In addition, the Hamilton School sponsors programs so students can study abroad at Oxford and Cambridge, two of the world's most elite institutions.

As leading researchers in the humanities and social sciences, Hamilton School faculty are also devoted teachers. Students receive close mentorship from their professors who teach them in small classes. The kind of teaching the Hamilton School aspires to support not only encourages free expression and the pursuit of truth, but also helps students develop the skills and networks they need to succeed in their careers after UF.

Free thought, free expression, free from agenda — that is what students can expect from Hamilton School classes.

DEGREES

Students successfully completing a degree program with the Hamilton School of Classical and Civic Education will recieve a Bachelor of Arts (B.A.).

ACADEMIC ADVISING

The Hamilton School of Classical and Civic Education Advising team provides comprehensive support and guidance to students, helping them navigate their academic journey, explore intellectual interests, and achieve their personal and professional goals. To schedule an appointment with an advisor, please visit the advising website (https://hamilton.center.ufl.edu/advising/).

STUDENT ORGANIZATIONS

Students can join the quest for truth through vibrant groups, events, and activities designed to inspire, connect, and transform. For questions regarding involvement with or participation in Hamilton School student organizations, please visit the student involvement website (https://hamilton.center.ufl.edu/get-involved/).

Academic Policies

Admission

Freshman

Students who fall into this category apply directly to the University of Florida Office of Admission. Students who are offered on-campus admission may select a Hamilton major as their intended major during Freshman Orientation (Preview).

- Freshman Admission Information (http://www.admissions.ufl.edu/prospectivefreshmen.html)
- Freshman Application (http://www.admissions.ufl.edu/start.html)

After admission, freshman students are required to attend orientation (Freshman Preview) and are responsible for meeting with a Hamilton advisor to ensure that any incoming credits are evaluated properly and that they understand the requirements to complete their UF degrees.

If you have any questions about this process, email hamilton-advising@ufl.edu. (hamilton-advising@ufl.edu)

Transfer

Community or state college transfers, and transfers from other universities, are welcome and encouraged to apply for admission into our Hamilton majors. Our admissions committee uses an applicant pool to select candidates for admission to Bachelor of Arts degree programs in the Hamilton School. All applications that meet the minimum requirements are placed into a pool from which the most qualified are selected for admission each term. Per a Florida Board of Governors articulation agreement, an AA graduate from a Florida public postsecondary institution shall receive priority for admission to a state university over out-of-state transfer students. Prospective applicants should pay careful attention to the minimum requirements as described below in order to be a competitive applicant.
Transfer Minimum Requirements:

- Meet the Office of Admission eligibility requirements (https://admissions.ufl.edu/apply/transfer/eligibility/)
- Earned a cumulative GPA of 3.0 from all previous institutions attended

Students meeting the above requirements apply through the University of Florida Office of Admissions and are forwarded to Hamilton School's admissions committee.

- Transfer Application (https://admissions.ufl.edu/)

After admission, transfer students are required to attend orientation (Transfer Preview) and are responsible for meeting with a Hamilton advisor to ensure that their transfer credits are evaluated properly and that they understand the requirements to complete their UF degrees. If you have any questions about this process, email hamilton-advising@ufl.edu. (hamilton-advising@ufl.edu)

PROGRAM DECLARATION

Current UF Students | Major Change

Students currently enrolled at UF in another major wishing to pursue a major change into a Hamilton major must meet with a Hamilton School advisor to determine if they are eligible to switch. Schedule an appointment with an advisor here (https://hamilton.center.ufl.edu/advising/).

Current UF Students | Double Major, Dual Degree, Minor(s)

Prior to applying on One.UF, any current UF student who wishes to pursue a Hamilton School double major, dual degree, or minor should meet with a Hamilton School advisor. Schedule an appointment with an advisor here (https://hamilton.center.ufl.edu/advising/).

CREDIT EVALUATION

Transfer Students

Pre-admittance to UF

Transfer applicants to Hamilton School should review the Transfer Credit Evaluation policy located on the Office of Admission website: Transfer Credit Evaluation - University of Florida (https://admissions.ufl.edu/apply/transfer/credit-evaluation/). All transfer credit will be reviewed and articulated after a student has been admitted into Hamilton School.

Transient Students

Current UF student taking or will take course(s) at other institutions

Students may submit a transient form (https://www.floridashines.org/succeed-in-college/take-a-course-at-another-school/) via Floridashines.org to request permission to enroll at another institution and have the credits apply to their UF degrees.

To be eligible for transient work, students must:

- Have a minimum 2.0 UF GPA
- Be on-track for the current major
- Not break the residency requirement (Students MUST complete their last 30 credits continuously at UF)

Under most circumstances, students who have already transferred 60 credits from a public/state college may not apply additional public/state college credits toward their degree.

If approved for transient enrollment elsewhere, students may still need to have courses approved for the fulfillment of any specific requirement. Courses intended to meet major or minor requirements are subject to the approval of the Hamilton School. Courses whose numbers are not consistent with the common course numbering system need to be reviewed and approved by the Hamilton School to meet general education or basic distribution requirements.

Transfer courses that are given a UF equivalent will be awarded words towards the Writing Requirement if the designated UF equivalent awards words. Students should not assume they will receive the writing credit from another institution. All Writing Requirement questions should be directed to the Hamilton School's advising team.

Students must ensure that a final transcript is sent to UF after completion of the transient course(s). Grades for courses taken elsewhere will not be calculated into the UF GPA but may be considered as part of the preprofessional GPA used by critical tracking. Grades in courses taken elsewhere do appear on the UF transcript.

GENERAL EDUCATION

Courses that satisfy General Education requirements are listed by category. The courses listed represent the most expedient way to fulfill graduation requirements. However, students can satisfy degree requirements with alternative course sequences. All courses used to satisfy General Education requirements must be taken for a letter grade and a minimum grade of C is required.

STUDENT RESPONSIBILITY

Students are responsible for ensuring they stay on track academically by registering for the appropriate courses and fulfilling all degree requirements. They should regularly review their degree audits and consult their advisors each term to confirm they are enrolling in the correct courses in the proper sequence. Failure to register for necessary coursework may impact future enrollment eligibility.

ACADEMIC PROBATION AND DISMISSAL

Students must maintain normal academic progress with a minimum GPA of 2.0 for all courses attempted. Regulations for academic probation and dismissal follow the academic standards of the university and require the maintenance of grade point averages and reasonable conformance to a program of study. Students may be dismissed from the program if they fail to maintain normal academic progress. Additional information regarding university academic progress policies can be found here (https://catalog.ufl.edu/UGRD/academic-regulations/academic-progress-policies/#academicstandingtext).

Degree Requirements

Hamilton School Degree Requirements

- All Hamilton School coursework must be complete with a grade of C or higher.
- Students must successfully complete 120 credits of coursework.
- A minimum overall UF GPA of 2.0 is required in coursework attempted at the university.

All Hamilton School students must adhere to university degree requirements including, but not limited to:

- General Education (Gen Ed) Requirement (https://catalog.ufl.edu/UGRD/academic-programs/general-education/)
- Civic Literacy Requirement (https://catalog.ufl.edu/UGRD/academic-regulations/civics_requirement/)
- Writing Requirement (https://catalog.ufl.edu/UGRD/student-responsibilities/writing-requirement/)
- Summer Term Enrollment Requirement (https://catalog.ufl.edu/UGRD/academic-regulations/degree-graduation-policies/)
- Residence Requirement (https://catalog.ufl.edu/UGRD/academic-regulations/degree-graduation-policies/)

About this Program

- **School:** Hamilton School of Classical and Civic Education
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The Hamilton School of Classical and Civic Education is devoted to research and teaching on Western civilization and the principles of a free society. Here students see past their horizons and prepare for lifetimes of leadership by studying the greatest works of the Western tradition and beyond. Open inquiry and the pursuit of excellence grounded in Western civilization and the American experience are the foundation of an education that will lead our students to thrive not just while at the University of Florida, but throughout their lives and careers. Liberal education promises to be a transformative experience and the university, “the meeting place of the greats.” The Hamilton School of Classical and Civic Education fulfills that promise.

Curriculum

- Great Book and Ideas
- Great Books and Ideas Minor
- Philosophy, Politics, Economics, and Law
- Philosophy, Politics, Economics, and Law Minor

A major in Great Books and Ideas enables students to know the principles, ideals, and foundations of the American political order through an education in core texts and great debates of Western Civilization and the Great Books. Students will learn how the central tenets and values of freedom, democracy, and individual liberty developed in literature, art, philosophy, history and political thought, from the Classical period through the Modern era.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete ISS 2105 Origins of the Contemporary West: 1 World with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 2

- Complete ISS 2106 Origins of the Contemporary West: II World with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 3

- Complete ISS 2290: Great Books of the Ancient World and ISS 2291: Great Books of the Medieval World with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete ISS 2292 Great Books of the Early Modern World: Renaissance to the Enlightenment and ISS 2293 Great Books of the Modern World with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 1 offering of ISS 3934 Political and Historical Traditions and Ideas with a 2.5 Critical tracking GPA
- Complete 1 offering of ISS 3932 Philosophical and Literary Traditions and Ideas with a 2.5 Critical tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete second offering of ISS 3934 Political and Historical Traditions and Ideas with a 2.5 Critical tracking GPA
- Complete second offering of ISS 3932 Philosophical and Literary Traditions and Ideas with a 2.5 Critical tracking GPA
- 2.0 UF GPA required

Semester 7

- ISS 4920 Thesis Writing Workshop with a 2.5 Critical tracking GPA
- Complete 1 Approved Elective with a 2.5 Critical tracking GPA
- 2.0 UF GPA required

Semester 8

- ISS 4970 Senior Thesis with a 2.5 Critical tracking GPA
- Complete 1 Approved Elective with a 2.5 Critical tracking GPA
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
ISS 2105	Origins of the Contemporary West: 1 (**Critical Tracking**)	3

Philosophy, Politics, Economics, and Law

The multidisciplinary Philosophy, Politics, Economics, and Law (PPLE) program ranges from the classic texts of Western tradition to the modern analytic and quantitative skills that equip students for professional success in the twenty-first century. Students enrolling in the PPEL curriculum will learn to read, write, and think critically while being steeped in the great ideas, thinkers, and debates of the past and present.

- Philosophy, Politics, Economics, and Law
- Philosophy, Politics, Economics, and Law Minor

PPEL prepares students to address the biggest challenges facing governments, businesses, and communities around the world today. These problems are not only political, economic, or legal; they are multifaceted, with intersecting moral, political, economic, and legal considerations. To understand these problems, students’ training must go beyond the boundaries of any single traditional academic discipline. Through case studies and a capstone senior research project, students acquire foundational analytical and quantitative skills; learn to analyze problems holistically by integrating multiple disciplinary perspectives; and learn to apply their new skills and knowledge to real world problems.

- 2.0 UF GPA required

Semester 8

- ISS 4931: Big Problems: PPEL Case Studies with a 2.5 Critical tracking GPA
- Complete 1 Approved Elective with a 2.5 Critical tracking GPA
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
ISS 2105:Origins of the Contemporary West: 1 (**Critical Tracking**)		3
State Core Gen Ed Biological and Physical Sciences (p. 80)		3

State Core Gen Ed Mathematics (p. 80)		3
Elective		3
	Credits	**15**
Semester Two		
Quest 2 (Gen Ed Social and Behavioral Sciences)		3
ISS 2106:Origins of the Contemporary West: II (**Critical Tracking**)		3
Gen Ed Biological and Physical Sciences		3
Gen Ed Composition; Writing Requirement 6,000 words		3
Gen Ed Mathematics		3
	Credits	**15**
Semester Three		
AMS 2010	Civil Discourse and the American Political Order (Gen Ed Humanities)	3
AMH 2020	United States Since 1877 (State Core Gen Ed Social and Behavioral Sciences (p. 80))	3
ECO 2023	Principles of Microeconomics (**Critical Tracking**)	4
ISS 2440:Introduction to Philosophy, Politics, Economics, and Law (**Critical Tracking**)		3
Elective		3
	Credits	**16**
Semester Four		
Quest 2 (Gen Ed Social and Behavioral Sciences)		3
ECO 2013	Principles of Macroeconomics (**Critical Tracking**)	4
ISS 2445:Legal Reasoning (**Critical Tracking**)		3
State Core Gen Ed Composition; Writing Requirement 6,000 words		3
Approved elective		3
	Credits	**16**
Semester Five		
ISS 2000- or 3000-level Elective		3
ISS 2122:The History of Political Economy (**Critical Tracking**)		3
STA 2023	Introduction to Statistics 1 (**Critical Tracking**)	3
Elective (Writing Requirement 6,000 words)		3
Elective (3000-level or above, not in major)		3
	Credits	**15**
Semester Six		
ISS 2000- or 3000-level Elective (**Critical Tracking**)		3
ISS 3000-level Elective (**Critical Tracking**)		3
Approved Elective		3
Electives (3000-level or above, not in major)		6
	Credits	**15**
Semester Seven		
ISS 4910:PPEL Research Seminar (**Critical Tracking**; Writing Requirement: 6,000 words)		3
Approved Elective (**Critical Tracking**)		3
Elective (3000-level or above, not in major)		3
Electives		6
	Credits	**15**
Semester Eight		
ISS 4931:Big Problems: PPEL Case Studies (**Critical Tracking**)		3
Approved Elective (**Critical Tracking**)		3
Elective (3000-level or above, not in major)		3
Electives		6
	Credits	**15**
	Total Credits	**122**

Philosophy, Politics, Economics, and Law Minor

The interdisciplinary minor in Philosophy, Politics, Economics, and Law (PPEL) offers a comprehensive exploration of the intersection between philosophy, politics, economics, and law. This minor is ideal for students interested in pursuing careers in government and public service, providing them with valuable perspectives and skills.

About this Program

- **College:** Hamilton School of Classical and Civic Education
- **Credits:** 15 | Completed with minimum grades of C and no S/U

School Information

The Hamilton School of Classical and Civic Education is devoted to research and teaching on Western civilization and the principles of a free society. Here students see past their horizons and prepare for lifetimes of leadership by studying the greatest works of the Western tradition and beyond. Open inquiry and the pursuit of excellence grounded in Western civilization and the American experience are the foundation of an education that will lead our students to thrive not just while at the University of Florida, but throughout their lives and careers. Liberal education promises to be a transformative experience and the university, "the meeting place of the greats." The Hamilton School of Classical and Civic Education fulfills that promise.

Academic Advising

Each academic department houses professional academic advisors for undergraduate majors. Academic advisors are available to assist students with major/degree requirements, reviewing critical-tracking, and understanding university and college level policies and requirements. Students are encouraged to meet with their respective academic advisor annually to ensure they are on track for graduation.
More Info (http://hhp.ufl.edu/current-students/undergrad-students/academic-advising/)

Scholarships

The college awards more than $200,000 in scholarships annually. Scholarship applications are open December-January with funds awarded at the end of Spring semester. Current Health and Human Performance students who are enrolled at UF full time with a minimum UF GPA of 3.0 are eligible to apply. Applicants are evaluated based on their application, personal statement and resume information. The scholarship committee will make recommendations on each merit-based scholarship based on applicant qualifications and donor-stipulated conditions.
More Info (http://hhp.ufl.edu/current-students/scholarships/)

Internships and Career Guidance

All students enrolled in the college must complete an experiential learning component. In most HHP majors, this is represented by a 6-12 credit internship completed during the semester of expected graduation. Experiential learning requirements differ by major, so please be sure to review your major's requirements for specific information.

Academic Policies

Academic Contract

An academic contract is an agreement between the student and advisor that identifies specific actions (grades needed, specific course completion, etc.) which must be completed during an assigned semester or date.

A student may have only one academic contract as a lower-division student and one contract as an upper-division student. A student cannot have an academic contract for consecutive semesters. While on academic contract, *no* I, N or NG grades are permitted.

Calculate Semester GPA (p. 1915)

Failure to meet the academic contract can result in, and is not limited to, one or more of the following actions:

- A college hold preventing future registration
- Cancelation of HHP course registration, and/or
- Change to a new major

Admission Requirements

Students classified as first-semester freshmen at the university will be admitted to the college when they declare a major within the college. At that time, their college classification will become HH.

Students maintain the HH classification as long as they meet the standards set by the college and UF for admission and critical-tracking. Students who are not making satisfactory academic progress may be required to seek admission to another college or to make alternative academic plans.

Students who fall below minimum performance standards will have a registration hold placed on their record. They must meet with an advisor to determine a plan of action before the hold will be removed.

Change of Major

To be considered for a change in major, students must meet the following criteria:

Lower-Division Students

- Minimum UF GPA
- Minimum critical-tracking GPA as designated by department curriculum
- No deficit points
- Completion of the college's change of major (http://hhp.ufl.edu/current-students/undergrad-students/academic-advising/change_major/) form
- Must have the ability to complete all tracking requirements by the required tracking term

Upper-Division Students

- Minimum UF GPA
- Minimum critical-tracking GPA as designated by department curriculum
- No deficit points
- Ability to graduate within 138 credits or 8 semesters (not including Summer) without exceeding the maximum credits per semester. (excludes AP/IB courses not needed for HHP degree program)
- Completed 75% of all critical-tracking courses for the desired major
- Met all writing requirements
- Completed a minimum of 27 credits of the General Education requirement
- Completion of the college's change of major (http://hhp.ufl.edu/current-students/undergrad-students/academic-advising/change_major/) form

Transfer students will not be permitted to change majors into the college.

In addition to the above, the following applies to current and/or previous HHP majors:

- Current HHP majors may not change to another HHP major unless they currently meet that major's criteria.
- Students who were dismissed from a college major cannot change out of HHP and then be re-accepted to the college as a change of major.

Combination Degree (4-1) Program

The combination degree is available within all HHP programs (Applied Physiology & Kinesiology, Health Education, Sport Management, and Tourism, Hospitality and Event Management). The combination degree provides academically talented students the opportunity to complete their bachelor's and master's degrees within the same major in a shorter period of time. The combination degree in health education and behavior is open to all majors. The combination degrees in tourism, hospitality and event management and sport management are limited to majors only. Students should review department guidelines for requirements and criteria needed for successful application. Students should apply for the program as a second semester sophomore/first semester junior. Students should discuss this option early with their academic advisor and then contact the appropriate program's graduate coordinator for more information.

Critical-Tracking Courses

All critical-tracking courses must be taken at the University of Florida.

- All critical-tracking attempts will be counted toward the critical-tracking GPA.
- Students may retake a critical-tracking course one time only.
- All critical-tracking courses must be completed by the time noted in the catalog for each major.
- Completing tracking courses beyond the specified time is at the advisor's discretion and must be approved by the advisor in advance.
- Any students completing tracking courses during the first semester of the junior year cannot complete any upper-division HHP courses that semester.

Dean's List

Students will appear on the College of Health and Human Performance Dean's List if they meet the following requirements:

- Fall/Spring terms: Students must achieve a 3.50 semester GPA on a minimum of 15 credits of graded coursework.
- Summer terms: Students must achieve a 3.50 semester GPA on a minimum of 12 credits of graded coursework (can be earned on any combination of Summer A, B, or C coursework).

Dean's List (p. 1839)

Drop Policy

During drop/add, courses can be dropped without penalty. After drop/add, courses may be dropped only through the college's petition process in accordance with university deadlines.

Before completing 60 credits of coursework, students are allowed two unrestricted drops after drop/add. After the completion of 60 credits of UF coursework, students also are allowed two unrestricted drops after drop/add. Students seeking to drop all classes do not have to petition the college; dropping all classes is considered withdrawal and is processed through the Office of the University Registrar in 222 Criser Hall.

If a student is registered for one course only and is seeking to drop that course, this is considered a withdrawal because the student is dropping all courses that semester. Refer to the college withdrawal policy.

Dual Degree or Double Major

The college can permit students to pursue dual degrees in multiple majors.

To request a dual degree the student must:

- Have between 45 and 96 credits (excluding AP, IB, dual enrollment or overseas study credit),
- Have a minimum 3.0 UF GPA at the time the application is submitted, if at least one of the majors is in this college,
- Meet all critical-tracking requirements for the HHP major requested. If one of the majors is outside the college, applicants must get approval from the appropriate college,
- Meet all other college progression standards for both majors and demonstrate potential for success in both majors (successful completion of major and major-related courses without excessive W's, grades less than C or multiple repeats),
- Be able to complete both degrees within 138 credits or eight semesters (not including Summer) without exceeding the maximum credits per semester. (Excludes AP/IB courses not needed for HHP degree program.) Additional study is permitted only with the associate dean's approval, and
- Have demonstrated a well-articulated educational goal for which the double major or dual degree is appropriate and/or necessary.

Request for Additional Semesters

Students who wish additional semesters must complete the general petition request and submit it with the graduation plan to their academic advisor.

The request requires:

- Minimum 2.0 UF GPA
- Minimum critical-tracking GPA as designated by department curriculum
- Minimum upper-division GPA as designated by department curriculum
- Minimum major GPA as designated by department curriculum

First Aid and CPR

Some HHP majors may require students to have current first aid, adult CPR and AED certification (American Red Cross or American Heart Association) at the time of registering for internship. Please refer to departmental guidelines for internships (http://hhp.ufl.edu/current-students/undergrad-students/internship-practicum/) or contact a departmental internship coordinator for more information.

Fresh Start Program

This program is for former degree-seeking students who wish to return to the university after an absence of no fewer than five calendar years. During this absence the student should have engaged predominately in non-academic activities. Students who wish to apply under the Fresh Start Program should follow the UF guidelines.
More Info (https://catalog.ufl.edu/UGRD/admission/readmission-university/#freshstart)

Grade Appeals

Any student in the college who feels their performance in a course has not been evaluated accurately should discuss any concerns with the instructor first. If the disagreement is not resolved, the student should consult the department chair, and if still unresolved, contact the associate dean for academic and student affairs.

The college is a strong supporter of the university's equal opportunity program. Any student who believes they have been discriminated against on the basis of race, color, religion, sex, disability, sexual orientation, age, or national origin should contact the associate dean for academic and student affairs.

Graduation Participation

All requirements for the bachelor's degree must be completed successfully prior to graduation to participate in graduation ceremonies, including the successful completion of an internship, if required. The college will determine who is eligible to participate in the graduation ceremony. For more information about commencement ceremonies, please visit the office of commencement (https://commencement.ufl.edu/) website.

Health Insurance

All students must secure health insurance or a signed health insurance disclaimer before they begin their internship.

Honors

The university offers three levels of honors at graduation: cum laude, magna cum laude and summa cum laude.
More Info (p. 1838)

Please note that:

- Transfer credits and S/U option credits are excluded.
- Postbaccalaureate students are not eligible for honors recognition.
- Honors recognition is printed on the university diploma.

Follow these guidelines when preparing an honors thesis:

- Submission of an undergraduate thesis to request graduation with magna cum laude or summa cum laude must reflect a high caliber of work.
- The thesis submission form should be secured to the thesis as the first page. This form must be completed with a typewriter or computer; handwritten forms will not be accepted.
- When completing the submission form, pay special attention to the *Key Words* entry, as these words will be used to index the thesis. Think of these words as instrumental in leading a potential reader to the thesis.
- The thesis should be stapled or secured with a binder clip. Binders and folders are discouraged, as they will be discarded when the thesis is filed on microfiche.
- Have the abstract reviewed for organization, content, grammar and spelling before submission.
- The abstract should begin with a definitive statement of the problem or project. The purpose, scope and limit of the thesis should be clearly delineated. Then, as concisely as possible, describe research methods and design, major findings, the significance of your work (if appropriate) and conclusions. The abstract should be 100-200 words.
- Students whose thesis involves *creative* work such as original fine art, music, writing, theatre, film or dance should describe process and production, indicating the forms of documentation on file as thesis materials.
- Type the abstract into the space allotted on the submission form.

Looking for help writing a thesis? The honors program recommends *Conquering Your Undergraduate Thesis* by Nataly Kogan. This book offers helpful and practical advice from fellow students and recent graduates.

HHP honors thesis submission deadlines: Honors thesis/graduation requirements are completed during the last one or two semesters at UF. The final thesis submission is due to the college's associate dean for academic affairs three days before the last day of classes. Refer to the departmental for process information found here (https://hhp.ufl.edu/current-students/undergrad-students/academic-advising/honors/).

Incomplete Grades

An incomplete grade may be assigned at the discretion of the instructor as an interim grade for a course in which the student has completed a major portion of the course with a passing grade, been unable to complete course requirements before the end of the term (e.g., before the final exam is taken) because of extenuating circumstances and obtained agreement from the instructor and arranged for resolution of the incomplete grade.

I grades are not to be used when the student is doing unsatisfactory work and the instructor wants to provide another chance to improve. Instructors are not required to assign incomplete grades.

The I grade arrangement should stipulate all conditions for completing the course and earning a letter grade, including a specific expiration date for the arrangement and designation of the grade to be assigned for incomplete work. I grade arrangements should be recorded on a standard contract form, kept in a file in the department's central office and monitored by staff, so that the appropriate grade changes will be made by the end of the following semester. This practice will be particularly useful if the instructor is on leave or has left UF permanently.

If make-up work requires classroom or laboratory attendance in a subsequent term, the student should not register for the course again.

Instead, the student must audit the course and pay course fees. Students who need to audit a course should be referred to the registrar's office to complete audit registration.

If the make-up work does not require classroom or laboratory attendance, the instructor and student should decide on an appropriate plan and deadline for completing the course.

When the course is completed or the arrangement has expired, the instructor will submit a change of grade to the Office of the University Registrar. An I grade should not be assigned to a student who never attended class; instead, instructors may assign a failing grade or no grade at all, which will result in assignment of N*.

The only time a letter grade should be changed to an I is when the instructor made an error in the grade. For example, there is an I grade arrangement on file for the student, but the instructor forgot and recorded an E instead. The college will approve such grade changes only when clear instructor error has occurred and when the grade is submitted with a copy of the I grade arrangement, which must be dated prior to the final exam period for the course.

These procedures cannot be used to repeat a course for a different grade.

Internships

All students enrolled in the college must complete an experiential learning component. In most HHP majors, this is represented by a 6-12 credit internship completed during the semester of expected graduation. Experiential learning requirements differ by major, please be sure to review your major's requirements for specific information. For majors where a full time internship is required this requirement is completed during the semester of expected graduation, after successful completion of all other required coursework (see below). Credits for this requirement are included in the credit total required for graduation.

Students are eligible to complete the internship semester if they have:

- *Successfully completed all courses* and are therefore eligible to graduate upon completion of the internship semester. This includes, but is not limited to, majors, minors/certificates, flex learning, General Education, study abroad, and prerequisites for graduate programs.
- Secured professional liability insurance
- UF upper-division cumulative, major and critical-tracking GPA of at least a 2.0, with no I, N or NG grades or flags.
- All grades posted to UF transcript two weeks before starting internship.
- Submitted all internship materials by the department deadlines and been approved by the department for internship.

Upon submission of the required application for internship (as determined by the department), an academic advisor will determine whether or not the student is academically eligible to complete the internship during the desired semester. For in-depth information regarding internships, please contact a department internship coordinator.

Students can only register and attempt to complete the practicum (if required by the major) and internship two times. If unable to complete successfully after two attempts, the student may be dismissed from the program.

Liability Insurance

All students must secure professional insurance before they begin their internship.

Maximum Credit Load

UF policy allows a maximum of 18 credits; therefore, to exceed 18 credits, college policy requires students to have

- 3.0 GPA in all categories (e.g., UF GPA, critical-tracking GPA),
- One drop available, and
- Academic advisor approval

Non-Degree Requests

The college follows the university's Employee Education Program (EEP) policies. Non-degree enrollment is restricted to University of Florida employees during the Fall and Spring semesters only. For college credit and non-UF employees, enrollment is restricted to summer terms only. Non-degree enrollment is subject to the availability of faculty, space, and facilities. No application for admission is required.
More Info (http://www.registrar.ufl.edu/forms.html)

Undergraduate students who have been denied admission to UF for any term are not eligible for non-degree registration. Students who have previously attended UF in a degree-seeking status who did not subsequently earn a bachelor's degree are not eligible for non-degree registration.

Visiting Students Attending UF: Undergraduate students in good standing at another accredited collegiate institution can enroll full time at UF as non-degree transient students to complete work to transfer back to the parent institution. The university and this college do not allow transient students during the fall and spring semesters.

Petition Request

Students who are petitioning a department or college policy must complete the general petition request and submit it along with all required documentation to an academic advisor.

The college's associate dean makes the final decision for graduation participation, internship eligibility, appeals of department petitions, change of major to the college and universal tracking transient course requests. These policies require petition review by an academic advisor, the department chair and/or department petitions committee or designated faculty member, and the college petitions committee. The associate dean for academic and student affairs or the college's academic affairs representative will notify the student of the outcome/decision.

Petitionable items at the department level include course substitutions, non-critical-tracking transient course requests, continuation in a major, department internship deadline, residency requirement and readmission to a major.

For all department-level petitions the academic advisor makes a decision or defers decision to the department chair and/or department petitions committee. If the academic advisor approves, no further action is needed by the department and the student is notified by the advisor. If the academic advisor denies or defers the petition, it is reviewed by the department petitions committee. If the department chair and/or department petitions committee reviews and approves the denied or deferred petition, the student will be notified of the decision by the academic advisor.

If the department chair and/or department petitions committee denies the petition, the student can appeal to the college petition committee. Regardless of a recommendation to approve or deny, the petition will be reviewed for final decision by the associate dean for academic and student affairs. The student will be notified of the decision by the associate dean or the college's authorized representative.

If the petition is denied at the college level the student may contact the UF Ombuds Office and/or submit a senate petition, if appropriate.

Postbaccalaureate Status

The university limits the options for postbaccalaureate studies to

- Certificate program/state licensure
- Teacher certification
- Prerequisites for graduate study
- Distance learning

The college abides by the university's postbaccalaureate policy and therefore limits students to the above criteria. In addition, any student wishing to apply under item 3, prerequisites for graduate study, will be required to apply to a specific department, not the department that offers the course they wish to complete. For example: A student wishing to apply to the physical therapy graduate program who needs anatomy and physiology as prerequisites should apply to the College of Public Health and Health Professions as a postbaccalaureate student.
More Info (http://www.admissions.ufl.edu/grad/postbacc.html)

Prerequisite Coursework

The state of Florida has determined that the prerequisite coursework required for a major in the state university system (SUS) will be the same for all SUS schools offering the major. Generally, and in most cases, meeting the prerequisites for admission will be sufficient to meet any course prerequisites. UF students who follow the sequence of courses identified in the critical-tracking plan for their major will satisfy all course prerequisites for that major, provided they achieve the minimum grades required.

Progress toward Degree

The college has identified specific performance standards to help students progress toward a degree.

To meet these standards, students must:

- Maintain a minimum 2.0 UF GPA
- Maintain the minimum critical-tracking GPA as designated by department curriculum
- Maintain the minimum upper-division GPA as designated by department curriculum
- Maintain the minimum major GPA as designated by department curriculum
- Complete the degree within 138 credits or 8 semesters (not including Summer) without exceeding the maximum credits per semester (excludes AP/IB courses not needed for HHP degree program).

Request for Fifth Year

Students who wish to receive a fifth year must complete the general petition request and submit it to their academic advisor along with a graduation plan.

Students also must:

- Maintain a minimum 2.0 UF GPA
- Maintain the minimum critical-tracking GPA as designated by department curriculum
- Maintain the minimum upper-division GPA as designated by department curriculum
- Maintain the minimum major GPA as designated by department curriculum

Readmission

To be considered for readmission to the College of Health and Human Performance, students must have a:

- 2.0 UF GPA
- 2.0 critical-tracking GPA, and
- Upper-division GPA as determined by the department/major.

Students who have been dismissed and/or on academic probation (with deficit points) will not be considered for readmission. Readmission is not automatic or guaranteed. In addition to the UF readmission application, applicants must also complete the college's letter of intent.

Student Responsibility

Each student is responsible for registering for and completing the proper courses and for fulfilling all requirements for a degree. The student's advisor will help and counsel, but the student must take the initiative and assume responsibility for meeting all requirements.

Course requirements for each major have been determined and approved by department faculty. The student's program of study is subject to the approval of an advisor in the major.

To make informed decisions and fulfill personal goals, students must take a responsible and active role in their own advising. More specifically, students must:

Knowledge

- Understand the university's and college's academic requirements
- Understand the requirements for the major and minor
- Be familiar with general university academic and behavioral policies, and
- Have a sense of academic and career interests, learning strengths and weaknesses and educational needs.

Behavior

- Meet as needed with advisor
- Come to appointments on time
- Register in a timely fashion
- Follow through with registration, drop/add and withdrawals in a timely fashion
- Review audit regularly
- Check communication regularly, using a UFL email account
- Respond to communication in a timely fashion, and
- Be an effective self-advocate.

Dispositions

- Work cooperatively
- Be open to new ideas and be willing to explore curricular options
- Be interested in and dedicated to the major, and
- Believe in the value of responsibility and accountability.

Study Abroad

The College of Health and Human Performance encourages students in good standing to study abroad. Students are required to meet with an academic advisor regarding degree requirements prior to registering for any study abroad program.

Students wishing to study abroad must:

- Be in good standing with a minimum 2.5 UF GPA (Students cannot be on academic contract nor under conditional admission.)
- Have completed non-UF study abroad courses prior to term 7
- Be in residence at UF for the last 30 credits. This applies to transient (non-UF, credit earning) programs.
- Not delay or extend the UF timeframe of eight terms, excluding Summer, for degree completion
- Have transcripts posted to UF before being cleared for internship.

S/U Option

Students are not permitted to complete required courses using the S/U option. However, courses that are not required for degree certification can be completed using the S/U option. Students choosing to complete a course with the S/U option are required to follow UF policy and deadlines.
More Info (p. 1915)

Transfer or Flexible Learning Credit

Transfer and/or flexible learning course credit may be allowed even if taken after the student has been admitted to the major. These courses must be approved in advance by the academic advisor. Students are discouraged from taking such courses after 60 credits. As per UF policy, no more than six credits of flexible learning credit and/or a maximum of 60 credits of community college academic credit can apply toward a UF degree. In general, these courses are recorded on the transcript and can be used to meet core curriculum requirements if approved in advance by the department. Flexible learning and extension course credit are excluded from honors GPA calculation for the College of Health and Human Performance and will not be used to determine Dean's List GPA.

Transfer Students

For application information, all transfer students should refer to the admission as a transfer section. Within space and fiscal limitations, applicants from other institutions who have satisfied minimum requirements will be considered for admission at the junior level.
More Info (p. 26)

Florida state college applicants to the College of Health and Human Performance must complete an Associate of Arts degree and meet all university and college-specific requirements. Admission evaluation factors include:

- academic record,
- cumulative grade point average,
- performance in critical-tracking courses,
- extent to which the applicant exceeds minimum requirements, and
- achievements and career goals as stated in the letter of intent.

The admission review process is a holistic review of the applicant's overall record and potential in the chosen academic field. Students who complete preprofessional courses outside the state system (students who attend out-of-state, private and/or international institutions) must submit course descriptions to the department advisor.

In addition to the UF transfer application, applicants should check with their intended department/major for any additional application materials. Transfer admission is limited and extremely competitive. Priority will be given to applicants who have completed an AA degree from a Florida public college, per the state of Florida articulation agreement.

The college accepts residential transfer students during the Fall and Spring semesters only. UF Online transfer students can apply during Fall, Spring, and Summer semesters.

Transient Request

Upper-division coursework taken as a transient student is discouraged and approvals will be at the discretion of the department. Students wishing to complete work at another institution must submit the college transient request and be approved by an advisor in advance of taking the course. After

being approved at the college level, students may complete the UF transient request at Florida Shines (https://www.floridashines.org/succeed-in-college/take-a-course-at-another-school/).

Withdrawal Policy

An HHP student who withdraws from the university a second time, with a registration of more than one course that semester, will be placed on college probation. Probation terms will be determined by the advisor working with the student.

Degree Requirements

Successful Progress Toward a Degree

The college has identified specific performance standards to help students complete degree requirements. Successfully meeting these standards will enable students to continue in the major and to graduate in a timely manner.

In those cases where the grade point average or grade in a preprofessional requirement is higher for the major or specialization than for the college, the major/specialization requirement takes precedence.

Students who do not meet performance standards will have to meet with an academic advisor to determine an appropriate course of action. Failure to meet the performance standards will result in a registration hold.

Applied Physiology and Kinesiology

Significant research, education and service are at the core of the Department of Applied Physiology and Kinesiology with a focus on the relationship between mind, body and human movement to improve quality of life in regards to health and disease. This multidisciplinary program incorporates

medicine, the life sciences and their application to clinical, healthy and athletic populations. Opportunities after graduation include educational institutions, health agencies and organizations, corporate or private fitness programming centers, and other health-related business and industry opportunities.

Health Education and Behavior

With a foundation in the social and biological sciences, the department of Health Education and Behavior looks at health education on both the individual and community level. Faculty and student research in the department is focused on the growing array of health problems linked to lack of exercise, diet, substance abuse, stress, unintentional injuries, pollution and how many of these conditions can be prevented and controlled.

Sport Management

The sport industry needs highly trained professionals to meet the ever-changing economic and lifestyle growth patterns in tomorrow's marketplace. With the proliferation of both recreational and spectator sports, the sport management discipline is growing increasingly complex. As a result, successful organizations in the sports industry are constantly searching for leaders with specialized training. The department prepares students for management and leadership positions with professional sports teams, intercollegiate and intramural athletics, and recreation programs at colleges, universities and amateur athletic organizations.

Tourism, Hospitality and Event Management

Tourism, Hospitality and Events is the fastest growing industry in the world. The sustained growth has created a major need for skilled human resources. The Department of Tourism, Hospitality and Event Management prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking and experiential learning is emphasized so that students will create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including travel and tourism, resorts, hotels and attractions, event management, and many other options.

Applied Physiology and Kinesiology

The Department of Applied Physiology and Kinesiology offers a flexible curriculum designed to prepare students to apply knowledge and skills in exercise physiology to careers in fitness, wellness, research, and various health professions such as medicine, physical therapy, occupational therapy, athletic training, and physician assistant.

About this Program

- **College:** Health and Human Performance (p. 918)
- **Degree:** Bachelor of Science in Applied Physiology and Kinesiology
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Applied Physiology & Kinesiology (APK) studies the immediate and lasting effects of exercise and its use in performance enhancement and disease prevention and rehabilitation.
More Info (http://hhp.ufl.edu/about/departments/apk/)

Curriculum

- Applied Physiology and Kinesiology

The University of Florida admits students as freshmen into the Department of Applied Physiology and Kinesiology. The faculty are award-winning teachers, mentors, and researchers who are passionate about providing students with learning experiences in and out of the classroom that will prepare them for success in any number of professional areas. The department's curriculum is designed to give students a foundation in traditional Exercise Physiology and allow for a bit of personal tailoring in the upper-division. Students who graduate with a Bachelor of Science degree in APK will be forward-thinking leaders and top-notch problem solvers.

This curriculum provides a strong basic science background and requires additional coursework in the biological aspects of exercise. Students who wish to focus on fitness, wellness, and allied health professions can take courses that focus on exercise programming and techniques and anatomical aspects of movement. Students who are more interested in preparing for graduate school or other post-baccalaureate programs in health sciences can opt for courses with more clinical and advanced physiological content. All APK students complete 12 credit hours of internship, which is built into the degree. The internship can be completed as a single, 12-credit hour experience or broken into two, 6-credit hour experiences.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 9 critical-tracking courses with a 2.8 GPA on tracking coursework: APK 2100C, APK 2105C, APK 3110C with a minimum grade of C, BSC 2010 and BSC 2010L, BSC 2011 and BSC 2011L, CHM 1025 or CHM 2045 and CHM 2045L, MAC 1147 or MAC 2311, PSY 2012, HUN 2201
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with a 2.8 GPA on tracking coursework
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with a 2.8 GPA on tracking coursework
- 2.0 UF GPA required

Semester 4

- Complete 2 critical-tracking courses with a 2.8 GPA on all tracking coursework
- 2.0 UF GPA required

Semester 5

- Complete all 9 critical-tracking courses with a 2.8 GPA on all tracking coursework
- Complete 2 APK 3XXX or APK 4XXX courses
- 2.0 UF GPA required

Semester 6

- Complete 4 APK 3XXX or APK 4XXX courses
- 2.0 UF GPA required

Semester 7

- Complete 4 APK 3XXX or APK 4XXX courses
- 2.0 UF GPA required

Semester 8

- Complete all remaining APK 3XXX or APK 4XXX courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
Select one:		2-4
CHM 1025	Introduction to Chemistry (**Critical Tracking**)	
CHM 2045	General Chemistry 1	
& 2045L	and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences)	

MAC 1147 or MAC 2311	Algebra and Trigonometry (**Critical Tracking**; State Core Gen Ed Mathematics) or Analytic Geometry and Calculus 1	4
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Humanities with International (p. 80)		3
	Credits	**15-17**
Semester Two		
Quest 2 (Gen Ed Social and Behavioral Sciences)		3
HUN 2201	Fundamentals of Human Nutrition (**Critical Tracking**)	3
PSY 2012	General Psychology (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	3
STA 2023	Introduction to Statistics 1 (Gen Ed Mathematics)	3
Gen Ed Composition; Writing Requirement		3
	Credits	**15**
Semester Three		
AEC 3030C or SPC 2608	Effective Oral Communication (recommended; or elective) or Introduction to Public Speaking	3
APK 2100C	Applied Human Anatomy with Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)	4
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; State Core Gen Ed Biological Sciences)	4
Elective (Writing Requirement with International)		3
	Credits	**14**
Semester Four		
APK 2105C	Applied Human Physiology with Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)	4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences)	4
Electives (Writing Requirement)		5-6
Elective		3
	Credits	**16-17**
Semester Five		
APK 3110C	Physiology of Exercise and Training (**Critical Tracking**; a minimum grade of C required)	3
APK 3200	Motor Learning (**Critical Tracking**)	3
APK 3400 or APK 3405	Introduction to Sport Psychology (**Critical Tracking**) or Exercise Psychology	3
ATR 2010C	Prevention and Care of Athletic Injuries	3
PHY 2053	Physics 1	4
	Credits	**16**
Semester Six		
APK 3220C	Biomechanical Basis of Movement (**Critical Tracking**)	3
APK 4112 or APK 3113C	Advanced Exercise Physiology (**Critical Tracking**) or Principles of Strength and Conditioning	3
APK 4115	Neuromuscular Aspects of Exercise (**Critical Tracking**)	3
APK 4050	Research Methods (**Critical Tracking**)	3
Approved electives		5
	Credits	**17**
Semester Seven		
APK 4120 or APK 4103C	Clinical Exercise Physiology (**Critical Tracking**) or Kinetic Anatomy	3
APK 4125C	Physical Fitness Assessment and Exercise Prescription (**Critical Tracking**)	3
APK 4144	Movement Neuroscience (**Critical Tracking**)	3
Approved electives		6
	Credits	**15**
Semester Eight		
APK 4940C	Internship (**Critical Tracking**; one 12-credit APK internship or two 6-credit APK internships)	12
	Credits	**12**
	Total Credits	**120**

Academic Learning Compact

The Bachelor of Science in Applied Physiology and Kinesiology prepares students for careers in exercise physiology and in fitness/wellness. Students will gain extensive understanding of the anatomical, physiological and psychological bases and consequences of human movement. Students will explore the relationship between physical activity and health and learn how to prevent and treat athletic injuries.

Before Graduating Students Must

- Pass a comprehensive critique performed by an approved professional in the field of applied physiology and kinesiology and as determined by the department's grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Integrate principles and methods of math, social sciences, and arts and humanities to applied physiology and kinesiology, wellness and/or fitness environments.
2. Identify and relate the nomenclature, structures, and locations of components of human anatomy to health, disease, and physical activity.
3. Identify, examine, and explain physiological mechanisms of homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems).
4. Investigate and explain the effects of physical activity on psychological health as well as the perspectives used to enhance adherence to healthier lifestyles.
5. Identify and explain the acute and chronic anatomical and physiological adaptations to exercise, training, and physical activity.

Critical Thinking

6. Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments.
7. Solve applied physiology and kinesiology problems from personal, scholarly and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical critical and creative thinking.
8. Collect, compare, and interpret qualitative or quantitative data in an applied physiology and kinesiology context.

Communication

9. Effectively employ written, oral, visual, and electronic communication techniques to foster inquiry, collaboration and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients, and/or subjects.

Entrepreneurship in Tourism, Hospitality and Event Management Certificate

The Entrepreneurship in Tourism, Hospitality and Event Management Certificate trains students in the implementation of entrepreneurship in the tourism, hospitality, and event industries. Students will learn about business trends, food and beverage, strategic management, marketing applications, facility, and operations in the industries. They also can gain specialized knowledge and practice in areas such as starting a new business, joining franchises, working in social enterprises, and working in corporate settings.

Event Management Minor

This minor provides an opportunity to acquire specialized knowledge and skills in the field of event management. Event Management students can apply the knowledge and skills gained to a variety of settings including but not limited to corporate, non-profits, associations, exhibitions, sport, government, and entertainment. The additional knowledge, skills, and experience gained from this minor can potentially elevate a student's marketability to future employers.

Health and Wellness Coaching Certificate

The Health and Wellness Coaching Certificate provides the skills and knowledge needed to excel in the dynamic field of health coaching. Participants will develop and implement a coaching framework to guide health-behavior change using evidence-based techniques and client-centered approaches. Through a practicum, students will engage in one-on-one coaching sessions, gaining hands-on experience and enhancing their skills in real-world settings.

Health Education and Behavior

The Department of Health Education and Behavior, with a foundation in the social and biological sciences, offers coursework focused on health information and theory application. Health Education and Behavior students learn techniques to promote healthy lifestyle choices in individual and group settings, with special attention given to diversity and culturally appropriate health education methodologies.

About this Program

- **College:** Health and Human Performance (p. 918)
- **Degree:** Bachelor of Science in Health Education
- **Specializations:** Community Health Promotion (p. 939) | Health Studies (p. 944)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Curriculum

- Combination Degrees
- Health and Wellness Coaching Certificate
- Health Education and Behavior
- Health Education and Behavior | Community Health Promotion UF Online

- Health Promotion Minor
- Health Promotion Minor UF Online

The Bachelor of Science in Health Education degree program allows students maximum flexibility to choose department specialization coursework during the junior and senior years that relates to personal interests in the health field. Students can focus their coursework on interest areas in health education and health promotion in community, clinical or worksite settings or in health studies as they prepare for professional health occupations.

Community Health Promotion

Students with a primary interest in community health education or worksite health promotion should select the Community Health Promotion specialization. Coursework in this specialization is focused on illness and disease prevention among special target groups within a particular community, with the ultimate goal of providing practical health information to diverse population groups through the use of behavioral interventions. Community health promotion specialists generally find employment in local, state or national government health agencies (state or county health departments, CDC, NIH) and in voluntary organizations such as the American Cancer Society, the March of Dimes and American Heart Association. Worksite health promotion specialists find employment opportunities within diverse small and large businesses and organizations.

This specialization is also appropriate for students planning to pursue graduate programs in health education or related fields (community or public health, health administration, health policy and epidemiology and disease preventions).

Health Studies

Students who want in-depth knowledge of diverse health topics, with the intention to complete postbaccalaureate work in a professional health program such as medicine, dentistry, optometry, pharmacy, physician assistant, occupational therapy and physical therapy should select the health studies specialization. This specialization enables students to gain knowledge on a variety of health issues plaguing diverse population groups and to complete required prerequisite coursework for professional health programs. Students may also pursue graduate programs in health education or related fields (public health, health administration and epidemiology and disease prevention).

Academic Learning Compact

The Bachelor of Science in Health Education prepares students to work as a health education specialist in schools, government agencies, voluntary health organizations, philanthropic foundations, colleges and universities, private-sector industry and healthcare settings. Health education specialists improve the health and well-being of individuals, families, groups, and community populations.

Grounded in social, behavioral, biological, and health sciences, the curriculum develops understanding of the causes and determinants of mortality and morbidity and develops specific competencies required of entry-level health education specialists. Graduates will be eligible to take the Certified Health Education Specialist examination governed by The National Commission for Health Education Credentialing, Inc.

Before Graduating Students Must

- Satisfactory performance on at least one major assignment or examination for each core course required for the degree, as determined by performance criteria developed specifically for the assignment.
- Satisfactory completion of the 15 credit health education internship (HSC 4876) as indicated on the final performance appraisal.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify and apply theories-based strategies for assessing individual and community needs for health education/promotion.
2. Identify and apply a variety of theories, theory based models, methods, and procedures for planning, implementing, and evaluating health education/promotion programs.
3. Coordinate the provisions of health education/ promotion services.
4. Identify and apply the major concepts and principles related to current and emerging health issues.
5. Review and discuss the health education/promotion code of ethics and agree to adhere to the principles outlined within the professional code.

Critical Thinking

6. Interpret, evaluate, and disseminate results of health education/promotion research through appropriate methodologies via appropriate channels or outlets while fostering the translation of research into practice.
7. Identify effective strategies to build meaningful partnerships with stakeholders in health education/promotion.

Communication

8. Communicate health needs, information, and resources to clients, consumers, individuals, families and groups from diverse backgrounds using a variety of channels in various settings.

9. Recognize and appreciate various cultures, values, and traditions by examining their significance in health and other contexts.

Community Health Promotion

The Department of Health Education and Behavior, with a foundation in the social and biological sciences, offers coursework focused on health information and theory application. Health Education and Behavior students learn techniques to promote healthy lifestyle choices in individual and group settings, with special attention given to diversity and culturally appropriate health education methodologies.

About this Program

- **College:** Health and Human Performance (p. 918)
- **Degree:** Bachelor of Science in Health Education
- **Specializations:** Community Health Promotion (p. 939) | Health Studies (p. 944)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

For more than 60 years, the Department of Health Education and Behavior has been at the forefront of the health promotion and public health field, demonstrating leadership in instruction and mentoring, research and scholarship, and service and practice. By emphasizing innovation and data-driven advancements, the department's efforts ensure that students are well prepared for the health promotion and public health careers of the future.

Curriculum

- Combination Degrees
- Health and Wellness Coaching Certificate
- Health Education and Behavior
- Health Education and Behavior | Community Health Promotion UF Online
- Health Promotion Minor
- Health Promotion Minor UF Online

The Bachelor of Science in Health Education degree program allows students maximum flexibility to choose department specialization coursework during the junior and senior years that relates to personal interests in the health field. Students can focus their coursework on interest areas in health education and health promotion in community, clinical or worksite settings or in health studies as they prepare for professional health occupations.

Community Health Promotion

Students with a primary interest in community health education or worksite health promotion should select the Community Health Promotion specialization. Coursework in this specialization is focused on illness and disease prevention among special target groups within a particular community, with the ultimate goal of providing practical health information to diverse population groups through the use of behavioral interventions. Community health promotion specialists generally find employment in local, state or national government health agencies (state or county health departments, CDC, NIH) and in voluntary organizations such as the American Cancer Society, the March of Dimes and American Heart Association. Worksite health promotion specialists find employment opportunities within diverse small and large businesses and organizations.

This specialization is also appropriate for students planning to pursue graduate programs in health education or related fields (community or public health, health administration, health policy and epidemiology and disease preventions).

Health Studies

Students who want in-depth knowledge of diverse health topics, with the intention to complete postbaccalaureate work in a professional health program such as medicine, dentistry, optometry, pharmacy, physician assistant, occupational therapy and physical therapy should select the health studies specialization. This specialization enables students to gain knowledge on a variety of health issues plaguing diverse population groups and to complete required prerequisite coursework for professional health programs. Students may also pursue graduate programs in health education or related fields (public health, health administration and epidemiology and disease prevention).

Community Health Promotion

Students with a primary interest in community health education or worksite health promotion should select the Community Health Promotion specialization. Coursework in this specialization is focused on illness and disease prevention among special target groups within a particular community, with the ultimate goal of providing practical health information to diverse population groups through the use of behavioral interventions. Community health promotion specialists generally find employment in local, state or national government health agencies (state or county health departments, CDC, NIH) and in voluntary organizations such as the American Cancer Society, the March of Dimes and American Heart Association. Worksite health promotion specialists find employment opportunities within diverse small and large businesses and organizations.

This specialization is also appropriate for students planning to pursue graduate programs in health education or related fields (community or public health, health administration, health policy and epidemiology and disease preventions).

Students majoring in health education and behavior are also eligible for the Bachelor/Master of Science combined degree program, thus receiving both degrees within approximately five years. Students interested in this program should schedule an appointment with the department academic advisor before the start of their junior year. More information about the health education and behavior BS/MS program.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 6 critical-tracking courses: APK 2100C, APK 2105C, BSC 2005/BSC 2005L, MAC 1105 or MAC 1140 or MAC 1147, PSY 2012, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 6 critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

All General Education requirements, including International (N), must be completed prior to the final internship semester.

Semester 5

- Complete 2 major courses: HSC 3032 and HSC 2103
- Complete 2 of 6 HSC specialization courses | See degree audit for course list options
- 2.0 UF GPA required

Semester 6

- Complete 2 additional major courses: HSC 3201, HSC 4302
- Complete 2 additional HSC specialization courses
- 2.0 UF GPA required

Semester 7

- Complete 2 additional major courses: HSC 4713, HSC 4800
- Complete all remaining HSC specialization courses
- 2.0 UF GPA required

Semester 8

- Complete remaining major courses: HSC 4876
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
MAC 1105	Basic College Algebra (**Critical Tracking**; Gen Ed Mathematics; or higher-level MAC course)	3
PSY 2012	General Psychology (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	3
State Core Gen Ed Composition (p. 80); Writing Requirement		3

Health Studies

Students who want in-depth knowledge of diverse health topics, with the intention to complete postbaccalaureate work in a professional health program such as medicine, dentistry, optometry, pharmacy, physician assistant, occupational therapy and physical therapy should select the health studies specialization. This specialization enables students to gain knowledge on a variety of health issues plaguing diverse population groups and to complete required prerequisite coursework for professional health programs. Students may also pursue graduate programs in health education or related fields (public health, health administration and epidemiology and disease prevention).

Health Studies

Students who want in-depth knowledge of diverse health topics, with the intention to complete postbaccalaureate work in a professional health program such as medicine, dentistry, optometry, pharmacy, physician assistant, occupational therapy and physical therapy should select the health studies specialization. This specialization enables students to gain knowledge on a variety of health issues plaguing diverse population groups and to complete required prerequisite coursework for professional health programs. Students may also pursue graduate programs in health education or related fields (public health, health administration and epidemiology and disease prevention).

Additional science coursework is included within the semester plan to help students meet prerequisites for professional health programs. However, it is imperative that students review the requirements for targeted graduate programs as additional prerequisite coursework outside the curriculum for the major. Students should meet regularly with a pre-health advisor in the Academic Advising Center (100 Farrior Hall) as well as the department academic advisor to ensure adequate preparation for application to professional health programs. Ultimately, students are responsible for ensuring completion of the required prerequisites for their chosen professional health program.

Students majoring in health education and behavior are also eligible for the Bachelor/Master of Science combined degree program, thus receiving both degrees within approximately five years. Students interested in this program should schedule an appointment with the department academic advisor before the start of their junior year. More information about the health education and behavior BS/MS program.

The Bachelor of Science in Health Education | Community Health Promotion is designed for students with a primary interest in community health education or worksite health promotion. Coursework is focused on illness and disease prevention among special target groups within a particular community, with the ultimate goal of providing practical health information to diverse population groups through the use of behavioral interventions. Community health promotion specialists generally find employment in local, state or national government health agencies (state or county health departments, CDC, NIH) and in voluntary organizations such as the American Cancer Society, the March of Dimes and American Heart Association. Worksite health promotion specialists find employment opportunities within diverse small and large businesses and organizations.

Community health promotion also is appropriate for students planning to pursue graduate programs in health education or related fields (community or public health, health administration, health policy and epidemiology and disease preventions).

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 6 critical-tracking courses: APK 2100C, APK 2105C, BSC 2005/BSC 2005L, MAC 1105 or MAC 1140 or MAC 1147, PSY 2012, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 6 critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

All General Education requirements, including International, must be completed prior to the final internship semester.

Semester 5

- Complete 2 major courses: HSC 3032 and HSC 2103
- Complete 2 of 6 HSC specialization courses | See degree audit for course list options
- 2.0 UF GPA required

Semester 6

- Complete 2 additional major courses: HSC 3201, HSC 4302
- Complete 2 additional HSC specialization courses
- 2.0 UF GPA required

Semester 7

- Complete 2 additional major courses: HSC 4713, HSC 4800
- Complete all remaining HSC specialization courses
- 2.0 UF GPA required

Semester 8

- Complete remaining major courses: HSC 4876
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
MAC 1105	Basic College Algebra (**Critical Tracking**; or higher level MAC course; Gen Ed Mathematics)	3
PSY 2012	General Psychology (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	3
State Core Gen Ed Composition (Writing Requirement)		3
Elective (Gen Ed International recommended)		3
	Credits	**15**
Semester Two		
Quest 2		3
BSC 2005 & 2005L	Biological Sciences and Laboratory in Biological Science (**Critical Tracking**; State Core Gen Ed Biological)	4

HSC 4574	Nutrition Education for Special Populations	3
HSC 4579	Women's Health Issues	3
HSC 4593	HIV/AIDS Education	3
HSC 4623	Minority Health Issues	3

Academic Learning Compact

The Bachelor of Science in Health Education prepares students to work as a health education specialist in schools, government agencies, voluntary health organizations, philanthropic foundations, colleges and universities, private-sector industry and healthcare settings. Health education specialists improve the health and well-being of individuals, families, groups, and community populations.

Grounded in social, behavioral, biological, and health sciences, the curriculum develops understanding of the causes and determinants of mortality and morbidity and develops specific competencies required of entry-level health education specialists. Graduates will be eligible to take the Certified Health Education Specialist examination governed by The National Commission for Health Education Credentialing, Inc.

Before Graduating Students Must

- Satisfactory performance on at least one major assignment or examination for each core course required for the degree, as determined by performance criteria developed specifically for the assignment.
- Satisfactory completion of the 15 credit health education internship (HSC 4876) as indicated on the final performance appraisal.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify and apply theories-based strategies for assessing individual and community needs for health education/promotion.
2. Identify and apply a variety of theories, theory based models, methods, and procedures for planning, implementing, and evaluating health education/promotion programs.
3. Coordinate the provisions of health education/ promotion services.
4. Identify and apply the major concepts and principles related to current and emerging health issues.
5. Review and discuss the health education/promotion code of ethics and agree to adhere to the principles outlined within the professional code.

Critical Thinking

6. Interpret, evaluate, and disseminate results of health education/promotion research through appropriate methodologies via appropriate channels or outlets while fostering the translation of research into practice.
7. Identify effective strategies to build meaningful partnerships with stakeholders in health education/promotion.

Communication

8. Communicate health needs, information, and resources to clients, consumers, individuals, families and groups from diverse backgrounds using a variety of channels in various settings.
9. Recognize and appreciate various cultures, values, and traditions by examining their significance in health and other contexts.

Health Promotion Minor

The Health Promotion minor provides a basic understanding of the community health field and an opportunity to gain background in a variety of health issues related to disease prevention and health promotion. Coursework for this minor focuses on health promotion and disease prevention among special target groups within a particular community, with the ultimate goal of providing practical health information to diverse population groups through the use of behavioral interventions.

About this Program

- **College:** Health and Human Performance (p. 918)
- **Credits:** 15 | Completed with a 2.5 cumulative GPA and no grades below C
- **Contact:** 11 Florida Gym (http://campusmap.ufl.edu/?loc=0021)

Department Information

For more than 60 years, the Department of Health Education and Behavior has been at the forefront of the health promotion and public health field, demonstrating leadership in instruction and mentoring, research and scholarship, and service and practice. By emphasizing innovation and data-driven advancements, the department's efforts ensure that students are well prepared for the health promotion and public health careers of the future.

Sport Management

A Bachelor of Science in Sport Management enables students to ethically apply the fundamental concepts of management, marketing, finance, and law to sport organizations. Coursework prepares students for a range of opportunities in the sport industry, including positions with professional, collegiate, and amateur sport organizations.

About this Program

- **College:** Health and Human Performance (p. 918)
- **Degree:** Bachelor of Science in Sport Management
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Sport Management (SPM) studies the impact of professional and amateur sports on the personal, social, economic, environmental, and resource infrastructures of society. SPM's goal is to improve the overall quality of life by learning and teaching what leads individuals, families, and industry to value and benefit from sports.

GAINESVILLE FL 32611-8208

Curriculum

- Combination Degrees
- Sport and Entertainment Law and Risk Management Certificate
- Sport Management
- Sport Management Certificate
- Sport Management UF Online

The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within the sport management area.

To earn a Bachelor of Science in Sport Management, a student must successfully complete 120 credits of prescribed coursework. Professional core courses, related option courses and specialization electives are taken during your last two years of work.

As part of the degree program, students must complete either an approved 12-credit internship or opt for the non-internship option. The 12-credit internship is an approved 12-week internship that takes place in a full semester of the student's choice, after the student has earned at least 60 credit hours. Students who declare the non-internship option can replace the 12-credit internship with 12 credits of non-internship pre-approved SPM courses. Students should consult the internship coordinator or an academic advisor for more information.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below are on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 6 critical-tracking courses: ECO 2013 or ECO 2023, MAC 1105, MAR 3023, MAN 3025, PSY 2012 and STA 2023
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 6 critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete a minimum of 2 SPM courses at the 3000 or 4000 level
- 2.0 UF GPA required

Semester 6

- Complete a minimum of 2 SPM courses at the 3000 or 4000 level
- 2.0 UF GPA required

Semester 7

- Complete a minimum of 2 SPM courses at the 3000 or 4000 level
- 2.0 UF GPA required

Semester 8

- Complete remaining SPM courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Science in Sport Management enables students to apply the fundamental concepts of management, marketing, finance and law to sport organizations. The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within sport management. They will also be able to use qualitative and quantitative analysis to assess problems and to determine solutions for sport organizations, effectively communicating these assessments in speech and in writing to internal and external constituencies.

Before Graduating Students Must

- Practically demonstrate an understanding of the critical skills needed in the planning and delivery of sport management programs, as well as successfully completing an internship experience, as assessed by the site supervisor and internship coordinator or non-internship option, as assessed by the faculty and academic advisors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply sport management concepts and theories for managing sport settings.
2. Identify and explain the internal and external factors that influence and shape sport in society.
3. Apply management functions to sport business settings.
4. Explain and evaluate fundamental legal concepts including but not limited to relevant to tort, contract, and constitutional law in sport management settings.

Critical Thinking

5. Apply techniques of discovery and critical thinking to solve problems independently and collaboratively within sport management settings.

Communication

6. Develop oral, written, and digital communication skills for effective sport business presentations and documents.

Curriculum

- Combination Degrees
- Sport and Entertainment Law and Risk Management Certificate
- Sport Management
- Sport Management Certificate
- Sport Management UF Online

The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within the sport management area.

To earn a Bachelor of Science in Sport Management, a student must successfully complete 120 credits of prescribed coursework. Professional core courses, related option courses and specialization electives are taken during your last two years of work.

As part of the degree program, students must complete either an approved 12 credit internship in their final semester of degree program or opt for the non-internship option. The 12 credit internship is an approved 13-week internship required upon completion of all coursework. Students who declare for the non-internship option prior to the completion of semester five can replace the 12 credit internship with 12 credits of non-internship pre-approved SPM courses. Students should consult the internship coordinator or an academic advisor for more information.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below are on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 6 critical-tracking courses: ECO 2013 or ECO 2023, MAC 1105, STA 2023, MAN 3025, MAR 3023, PSY 2012
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 6 additional critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete a minimum of 2 SPM courses at the 3000 or 4000 level
- 2.0 UF GPA required

Semester 6

- Complete a minimum of 2 SPM courses at the 3000 or 4000 level
- 2.0 UF GPA required

Semester 7

- Complete a minimum of 2 SPM courses at the 3000 or 4000 level
- 2.0 UF GPA required

Semester 8

- Complete remaining SPM courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
MAC 1105	Basic College Algebra (**Critical Tracking**; or higher; State Core Gen Ed Mathematics)	3
PSY 2012	General Psychology (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	3
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
Gen Ed Composition; Writing Requirement		3
	Credits	**15**
Semester Two		
Quest 2 (Gen Ed Biological and Physical Sciences)		3
Select one:		4
ECO 2013	Principles of Macroeconomics (**Critical Tracking**)	
ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
Gen Ed International		3
	Credits	**16**
Semester Three		
MAN 3025	Principles of Management (**Critical Tracking**)	4

SPC 2608 or AEC 3030C	Introduction to Public Speaking or Effective Oral Communication	3
SPM 2000	Introduction to Sport Management	3
Elective (Writing Requirement)		6
	Credits	**16**
Semester Four		
EME 2040 or CGS 2531	Introduction to Educational Technology or Problem Solving Using Computer Software	3
MAR 3023	Principles of Marketing (**Critical Tracking**)	4
SPM 2060	Sport Career Preparation	1
SPM 3012	Social Issues in Sport	3
State Core Gen Ed Humanities (p. 80)		3
	Credits	**14**
Semester Five		
ACG 2021	Introduction to Financial Accounting (**Critical Tracking**)	4
SPM 4104	Sport Operations and Facility Management (**Critical Tracking**)	3
SPM 4510	Revenue Generation in Sport (**Critical Tracking**)	3
Approved Elective		3
Elective (Writing Requirement)		4
	Credits	**17**
Semester Six		
SPM 4515	Sport Business and Finance (**Critical Tracking**)	3
SPM 4723	Legal Issues in Sport (**Critical Tracking**)	3
Approved Electives		10
	Credits	**16**
Semester Seven		
SPM 3306	Sport Marketing (**Critical Tracking**)	3
SPM 4154	Managing Organizations in Sport	3
SPM 4724	Risk Management in Live Entertainment and Sports (**Critical Tracking**)	3
SPM 4940	Advanced Career Preparation	2
Approved Elective		3
	Credits	**14**
Semester Eight		
Select one:		12
SPM 4941C	Internship in Sport Management (**Critical Tracking**)	
Non-Internship pre-approved SPM course electives over semesters 5-8 (**Critical tracking**)		
	Credits	**12**
	Total Credits	**120**

Academic Learning Compact

The Bachelor of Science in Sport Management enables students to apply the fundamental concepts of management, marketing, finance and law to sport organizations. The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within sport management. They will also be able to use qualitative and quantitative analysis to assess problems and to determine solutions for sport organizations, effectively communicating these assessments in speech and in writing to internal and external constituencies.

Before Graduating Students Must

- Practically demonstrate an understanding of the critical skills needed in the planning and delivery of sport management programs, as well as successfully completing an internship experience, as assessed by the site supervisor and internship coordinator or non-internship option, as assessed by the faculty and academic advisors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply sport management concepts and theories for managing sport settings.
2. Identify and explain the internal and external factors that influence and shape sport in society.

3. Apply management functions to sport business settings.
4. Explain and evaluate fundamental legal concepts including but not limited to relevant to tort, contract, and constitutional law in sport management settings.

Critical Thinking

5. Apply techniques of discovery and critical thinking to solve problems independently and collaboratively within sport management settings.

Communication

6. Develop oral, written, and digital communication skills for effective sport business presentations and documents.

Tourism, Hospitality and Event Management

The curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public, and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

About this Program

- **College:** Health and Human Performance (p. 918)
- **Degree:** Bachelor of Science in Tourism, Hospitality and Event Management
- **Specializations:** Event Management (p. 966) | General (p. 970) | Tourism and Hospitality Management (p. 974)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Tourism, Hospitality and Event Management prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills.

Curriculum

- Artificial Intelligence and Data Analytics in Tourism, Hospitality and Event Management Certificate
- Combination Degrees
- Entrepreneurship in Tourism, Hospitality and Event Management Certificate
- Event Management Minor
- Event Management Minor UF Online
- Tourism, Hospitality and Event Management
- Tourism, Hospitality and Event Management UF Online

To earn the Bachelor of Science in Tourism, Hospitality and Event Management courses must be completed successfully in General Education, the major, and related professional and specialized courses. All students take a common core of courses providing them with foundational knowledge within the discipline. Subsequently, students select one specialization.

An approved 13-week internship is required upon completion of all coursework or the successful completion of the Academic Option (for those who qualify). Both options are included in the 120 credits for the degree. Students that have current or past industry experience (supervisory or entry level but not seasonal employment) will be able to substitute the full-time internship engagement with a choice of five department course electives taken over the course of several semesters.

Students interested in the academic option will need to submit the following documents for approval beginning of their junior year:

1. Notice of intent form
2. Current resume
3. Statement that outlines personal and professional goals
4. An overview of how past industry experience has prepared them for a desired career position.

Specializations

Event Management

Gain the knowledge and skills necessary to administer and manage commercial and entrepreneurial event service businesses. This program includes courses in conference and special event planning, promotion, sponsorship, financial and revenue management, and production.

General

Gain the knowledge and skills necessary to work in a wide array of sectors related to the tourism, hospitality, and event management. This provides an opportunity to select courses within the department to develop broad content knowledge.

Tourism and Hospitality Management

Gain the knowledge and skills necessary to administer and manage destination management organizations, tour operations, and hospitality enterprises such as hotels, resorts, attractions, restaurants, and cruises.

Academic Learning Compact

The Tourism, Hospitality and Event Management curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public, and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

Before Graduating Students Must

- Demonstrate competence (minimum final grades of C) in the core courses LEI 3301, LEI 4540, HFT 4468, and LEI 4880.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify major concepts, principles, and theories associated with tourism, hospitality, and event management.
2. Apply management functions of planning, organizing, leading, and controlling the use of resources to accomplish performance goals in tourism, hospitality, and event management.

3. Identify economic, sociological, psychological, political, legal, and environmental issues that influence the delivery of tourism, hospitality, and event services to residents and tourists.
4. Interpret information technology and statistical techniques in assessment, planning, delivery, and evaluation of tourism, hospitality, and event management programs.
5. Apply programming and marketing strategies aligned to the development of tourism, events, and hospitality services.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to financial strategies to tourism, events, and hospitality services.

Critical Thinking

7. Identify and apply diverse sources of information and data integrated with theoretical frameworks, models and trends to issues related to leadership, management and delivery of tourism, hospitality, and events management services.

Communication

8. Communicate to consumer publics and professional cohorts through written text, oral messages and multimedia presentations.

Academic Learning Compact

The Tourism, Hospitality and Event Management curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public, and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

Before Graduating Students Must

- Demonstrate competence (minimum final grades of C) in the core courses LEI 3301, LEI 4540, HFT 4468, and LEI 4880.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify major concepts, principles, and theories associated with tourism, hospitality, and event management.
2. Apply management functions of planning, organizing, leading, and controlling the use of resources to accomplish performance goals in tourism, hospitality, and event management.
3. Identify economic, sociological, psychological, political, legal, and environmental issues that influence the delivery of tourism, hospitality, and event services to residents and tourists.
4. Interpret information technology and statistical techniques in assessment, planning, delivery, and evaluation of tourism, hospitality, and event management programs.
5. Apply programming and marketing strategies aligned to the development of tourism, events, and hospitality services.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to financial strategies to tourism, events, and hospitality services.

Critical Thinking

7. Identify and apply diverse sources of information and data integrated with theoretical frameworks, models and trends to issues related to leadership, management and delivery of tourism, hospitality, and events management services.

Communication

8. Communicate to consumer publics and professional cohorts through written text, oral messages and multimedia presentations.

Curriculum

- Artificial Intelligence and Data Analytics in Tourism, Hospitality and Event Management Certificate
- Combination Degrees
- Entrepreneurship in Tourism, Hospitality and Event Management Certificate
- Event Management Minor
- Event Management Minor UF Online
- Tourism, Hospitality and Event Management
- Tourism, Hospitality and Event Management UF Online

To earn the Bachelor of Science in Tourism, Hospitality and Event Management courses must be completed successfully in General Education, the major, and related professional and specialized courses. All students take a common core of courses providing them with foundational knowledge within the discipline. Subsequently, students select one specialization.

An approved 13-week internship is required upon completion of all coursework or the successful completion of the Academic Option (for those who qualify). Both options are included in the 120 credits for the degree. Students that have current or past industry experience (supervisory or entry level but not seasonal employment) will be able to substitute the full-time internship engagement with a choice of five department course electives taken over the course of several semesters.

Students interested in the academic option will need to submit the following documents for approval beginning of their junior year.

1. Notice of intent form
2. Current resume
3. Statement that outlines personal and professional goals
4. An overview of how past industry experience has prepared them for a desired career position.

In this specialization, gain the knowledge and skills necessary to administer and manage destination management organizations, tour operations, and hospitality enterprises such as hotels, resorts, attractions, restaurants, and cruises.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses: ECO 2013 or ECO 2023, SPC 2608 or AEC 3030C, Two LEI or HFT courses and one of the following: EDF 2110, DEP 3053, PSY 2012 or SYG 2000
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 5 critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete any additional LEI or HFT course
- 2.0 UF GPA required

Semester 7

- Complete LEI 3921 or Departmental Elective Toward Academic Option
- 2.0 UF GPA required

Semester 8

- Complete LEI 4940 Departmental Elective Toward Academic Option
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Tourism, Hospitality and Event Management curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public, and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

Before Graduating Students Must

- Demonstrate competence (minimum final grades of C) in the core courses LEI 3301, LEI 4540, HFT 4468, and LEI 4880.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify major concepts, principles, and theories associated with tourism, hospitality, and event management.
2. Apply management functions of planning, organizing, leading, and controlling the use of resources to accomplish performance goals in tourism, hospitality, and event management.
3. Identify economic, sociological, psychological, political, legal, and environmental issues that influence the delivery of tourism, hospitality, and event services to residents and tourists.
4. Interpret information technology and statistical techniques in assessment, planning, delivery, and evaluation of tourism, hospitality, and event management programs.
5. Apply programming and marketing strategies aligned to the development of tourism, events, and hospitality services.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to financial strategies to tourism, events, and hospitality services.

Critical Thinking

7. Identify and apply diverse sources of information and data integrated with theoretical frameworks, models and trends to issues related to leadership, management and delivery of tourism, hospitality, and events management services.

Communication

8. Communicate to consumer publics and professional cohorts through written text, oral messages and multimedia presentations.

General

The curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public, and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

Curriculum

- Artificial Intelligence and Data Analytics in Tourism, Hospitality and Event Management Certificate
- Combination Degrees
- Entrepreneurship in Tourism, Hospitality and Event Management Certificate
- Event Management Minor
- Event Management Minor UF Online
- Tourism, Hospitality and Event Management
- Tourism, Hospitality and Event Management UF Online

To earn the Bachelor of Science in Tourism, Hospitality and Event Management courses must be completed successfully in General Education, the major, and related professional and specialized courses. All students take a common core of courses providing them with foundational knowledge within the discipline. Subsequently, students select one specialization.

An approved 13-week internship is required upon completion of all coursework or the successful completion of the Academic Option (for those who qualify). Both options are included in the 120 credits for the degree. Students that have current or past industry experience (supervisory or entry level

but not seasonal employment) will be able to substitute the full-time internship engagement with a choice of five department course electives taken over the course of several semesters.

Students interested in the academic option will need to submit the following documents for approval beginning of their junior year:

1. Notice of intent form
2. Current resume
3. Statement that outlines personal and professional goals
4. An overview of how past industry experience has prepared them for a desired career position.

In this specialization, gain the knowledge and skills necessary to work in a wide array of sectors related to the tourism, hospitality, and event management. This provides an opportunity to select courses within the department to develop broad content knowledge.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses: Complete 1 of 5 critical-tracking courses: ECO 2013 or ECO 2023, SPC 2608 or AEC 3030C, Two LEI or HFT courses and one of the following: EDF 2110, DEP 3053, PSY 2012 or SYG 2000
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 5 critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete any additional LEI or HFT course
- 2.0 UF GPA required

Semester 7

- Complete LEI 3921 or Departmental Elective Toward Academic Option
- 2.0 UF GPA required

Semester 8

- Complete LEI 4940 Departmental Elective Toward Academic Option
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Established

1925

The University of Florida College of Journalism and Communications is driving innovation and engagement across the disciplines of advertising, journalism, public relations, and media production, management, and technology. The strength of its programs, faculty, students and alumni — in research and in practice — has earned the college ongoing recognition as one of the best in the nation among its peers.

The college offers bachelor's, master's and doctoral degrees, a mass communication minor, a public relations minor, and certificates, both online and on campus. The college's strength is drawn from both academic rigor and experiential learning. CJC students gain practical experience in the Innovation News Center, which generates content across multiple platforms, and The Agency, a strategic communication agency that began operation in 2015, as well as the seven broadcast and digital media properties in Weimer Hall.

Accredited

Accrediting Council on Education in Journalism and Mass Communications (ACEJMC)

Academic Divisions

- Department of Advertising
- Department of Journalism
- Department of Media Production, Management, and Technology
- Department of Public Relations
- Division of Graduate Studies and Research

Degrees

Bachelor's degrees in advertising, journalism, public relations, and media production, management, and technology, Master of Arts and a PhD in mass communication.

Academic Advising

Professional Advising and Teaching Hub (PATH), 1060 Weimer Hall, maintains student records and offers undergraduate academic advising.

Internships

Students can earn credits by completing professional internships. Grades for internships must be S/U. Internship credit can be repeated with change of assignment for a maximum of six credits in most of the CJC majors. Any internship credit beyond the six, such as through the Honors office, will not count toward a student's 120-credit total needed for the degree.

Learning/Training Tools

The college is home to a PBS affiliate (WUFT-TV), a low-power television station (WLUF-TV), an NPR affiliate (WUFT-AM and its repeater station WJUF-FM), WUFT Classic, GHQ Radio, two commercial radio stations (WRUF-AM ESPN 850/98.1 Gainesville and WRUF-FM Country 103.7 The Gator), the Florida Public Radio Emergency Network (FPREN), GatorVision (in partnership with the University Athletic Association), the student magazines Orange and Blue and The Atrium, the Brechner Center for Freedom of Information, the Marion B. Brechner First Amendment Project, the Innovation News Center (INC), The Agency, the Center for Public Interest Communications, the Atlas Social Media Listening Lab, the STEM Translational Communication Research Program, the Consortium on Trust in Media and Technology, and the Institute for Public Relations.

Scholarships

The College's Knight Division for Scholarships and Student Inclusion provides undergraduates with information about scholarships and assistantships, internships, placement services, and the college's minority recruitment and retention activities.

The College awards more than $400,000 annually in undergraduate scholarships and assistantships. The application deadline is February 1. For more information, write to:

Academic Policies

First year Information

The university's Office of Admissions coordinates freshman admission.

Transfer Information

The College of Journalism and Communications evaluates applicants on a space-available basis. A grade point average of 2.0 on all work attempted and 60 credits of acceptable credit are generally required for admission at the junior year. A 2.5 overall GPA is considered the competitive minimum for admissions.

Per an Florida Board of Governors articulation agreement, an AA graduate from a Florida public postsecondary institution shall receive priority for admission to a state university over out-of-state transfer students.

To be eligible for admission, a transfer student from a Florida public college must have an Associate of Arts degree, including all prerequisite tracking courses. Transfer students from other universities and non-Florida public colleges must have 60 credits of acceptable credit which should include the first two years' requirements for the major before transferring.

Students denied admissions may petition. Petitions are available from PATH: Professional Advising and Teaching Hub, 1060 Weimer Hall.

Transfer Credit

Transfer students may transfer up to 60 semester credits from a state of Florida public university or community college. Credits taken beyond 60 may meet certain requirements but will not count toward the 120 credits needed to graduate. After 60 credits, credit taken with permission as a transient

student at another university can be transferred to UF, but the last 30 credits needed must be UF courses. Professional courses required for a student's major cannot be taken at other schools.

Combination Degrees

Combination Degrees | Undergraduate

Students who want to specialize in more than one field can earn one of the bachelor's degrees in this college and a second outside the college. Individuals who want to earn dual bachelor's degrees must complete the required form, including approval signatures from each department/college. Students are expected to complete all coursework in 4 years or two to three years if transferring. Journalism and Communications majors cannot double major within the college. Also, CJC majors may not complete the Mass Communication Studies minor.

Combination Degrees | Undergraduate to Masters

A combination-degree program allows interested undergraduates to take up to four graduate courses/12 credits. These courses fulfill undergraduate college requirements and can then be used a second time to satisfy the requirements for a master's degree if graded B or higher. Undergraduates from all four departments may apply to participate in one of the combination-degree programs in the college.

- Combination Degrees

Satisfactory/Unsatisfactory Option

Undergraduate students in the college may not take courses designated ADV, JOU, MMC, PUR, RTV, or VIC under the satisfactory-unsatisfactory (S/U) option, except courses which are offered only for an S/U grade.

Students are permitted to take elective courses outside the college on an S/U basis, subject to university rules published in the Academic Regulations section of this catalog.
More Info (p. 1893)

After the S/U option is approved, students may not elect to convert to a letter-grade. Writing requirement courses cannot be taken S/U.

Courses for the outside concentration may be taken S/U with the following restrictions, in addition to university restrictions:

- The option may not be applied to any course below the 3000 level
- Not more than three credits of S/U work may be taken to fulfill the outside concentration requirement
- No beginning-level course may be offered for outside concentration credit under S/U
- 9 credits of English required by the college may not be taken S/U
- Courses used for the quantitative option may not be taken S/U
- Refer to the university calendar for deadlines to apply for the S/U option

Probation and Suspension

A student will be placed on college probation if they fail to maintain a 2.0 overall average and a 2.0 professional average. A student will be flagged if either or both of these averages falls below a 2.0 GPA for two consecutive terms. Students on college suspension must successfully petition the college for reinstatement.

Dropping Courses

Petitions to drop courses beyond the first two may be approved only when documented circumstances beyond the student's control prevent the satisfactory completion of a course.

In all cases, students must file the petition with the PATH: Professional Advising and Teaching Hub, 1060 Weimer Hall (https://campusmap.ufl.edu/#/index/0030). Consideration of petitions normally takes 1-2 weeks. All petitions must be submitted before the deadline as noted on the petition instructions. After these dates, all petitions are processed through the University Petitions Committee.
More Info (https://registrar.ufl.edu/services/petitions/)

Policy for Unsuccessful Completion of Required Courses

Students who complete a course and do not earn at least the minimum grade required for satisfying a degree requirement may repeat the course once. If they are not successful the second time they may not retake the course and may be required to change their major. Students may petition this restriction if there are extenuating circumstances.

Flexible Learning

No CJC student can receive credit for a required professional course in the major through flexible learning study. No more than six semester credits of flexible learning coursework can be used to fulfill undergraduate degree requirements.

Concurrent enrollment at another institution is allowed by the College of Journalism and Communications while enrolled in UF courses under certain circumstances. Contact an undergraduate advisor in the PATH office for guidance, 1060 Weimer Hall (https://campusmap.ufl.edu/#/index/0030).

Outside Concentration

Students in the following CJC majors must complete an outside concentration.

Media Production, Management, and Technology | Media and Society

12 credits of coursework in a department outside of the college. Nine of the twelve credits must be at the 3000 level or above.

Media Production, Management, and Technology | Management and Strategy

12 credits of coursework in business. Eight of the twelve credits must be 3000 level or above.

Journalism | including Sports and Media

9 credits of coursework in a department outside of the college. The nine credits must be at the 3000 level or above.

Professional Limit

The college stresses a broad background in liberal arts and sciences. Students spend most of their time on general background courses. The remaining time involves the development of professional techniques in relation to this general knowledge.

Dean's List

Students cannot qualify for dean's list if they have grades of I, N or U. Certificates of recognition are issued by request from the PATH: Professional Advising and Teaching Hub in 1060 Weimer Hall.
More Info (p. 1839)

Degree Requirements

To earn a bachelor's degree, a student must:

- Earn at least 120 credits, up to 60 credits of which may be accepted by transfer from another college or university. The last 30 of these credits must be earned while the student is enrolled in classes in this college.
- Earn a minimum 2.0 in all work attempted while an upper-division student and a minimum 2.0 in all work attempted in courses with prefixes ADV, JOU, MMC, PUR, RTV, and VIC.
- Earn a minimum 2.0 in all work attempted (overall GPA).
- Earn a minimum grade of C in required English, speech and foreign language courses. Advertising majors also must earn minimum grades of C in MAR 3023 and STA 2023. Public relations majors must earn a minimum grade of C in STA 2023.

According to the student's major, minimum grades of C are also required in:

Code	Title	Credits
ADV Courses		
ADV 3001	Advertising Strategy	3
ADV 3008	Principles of Advertising	3
ADV 3500	Digital Insights	3
ADV 4101	Copywriting and Visualization	3
ADV 4300	Media Planning	3
ADV 4800	Advertising Campaigns	3
ADV 4940	Advertising Internship [1]	1-4
All JOU and MMC courses [2]		
PUR Courses		
PUR 3000	Principles of Public Relations	3
PUR 3500	Public Relations Research	3
PUR 3801	Public Relations Strategy	3
PUR 4100	Public Relations Writing	4
PUR 4404C	International Public Relations	3
PUR 4800	Public Relations Campaigns	3
PUR 4905	Individual Problems	1-3
PUR 4940	Public Relations Internship [1]	1-3
RTV Courses		
RTV 2100	Media Writing	3
RTV 3001	Introduction to Media Industries and Professions	3
RTV 3101	Fiction/Nonfiction Screenwriting	3
RTV 3106	Writing and Reporting for Interactive Media	3
RTV 3303	Audio News and Reporting	3

RTV 3320	Single-Camera Production	3
RTV 3432	Ethics and Problems in Media	3
RTV 3931	Production Capstone Prep (Special Topics)	2
RTV 4301	TV News Reporting	3
RTV 4929C	Senior Advanced Production Workshop	4
RTV 3305	In-Depth Broadcast Reporting	3
RTV 3511	Fundamentals of Production	3
RTV 4420	New Media Systems	3
RTV 4506	Applied Media Research	3
RTV 4905	Individual Projects in Media	1-3
RTV 4910	Media Undergraduate Research	3
RTV 4940	Media Internship [1]	1-4
VIC Course		
VIC 3001	Sight, Sound and Motion (all majors)	3

Students earning grades below C must retake the course or its equivalent.

1 Graded S/U; S grade required.
2 D grade allowed in MMC 4200.

Foreign Language Proficiency or Quantitative Option

This requirement is satisfied by demonstrating proficiency or completing college-level credits in a single foreign language, or by taking 8 credits of courses in accounting, computers, and/or statistics.

Foreign Language Proficiency

Students who elect the foreign language option may meet the requirement by successfully completing the second or third beginning-level course in one foreign language. Or, students can complete two college semesters of American Sign Language. Note: Proficiency in Latin requires three semesters of the beginning language sequence.

This is *not* a credit requirement, but a *proficiency* requirement, and it is satisfied by earning a minimum grade of C or S.

From the UF catalog: “UF students may use the FLPE (Foreign Language Proficiency Examinations) to prove proficiency in a foreign language and thus achieve an exemption from a foreign language requirement.”

Students may also take the corresponding CLEP test for foreign language. From the university catalog: "Students beginning in the Fall or Spring term must have taken the exams...and have their scores reported to the university before the end of their first term of enrollment at UF."

Students should consult an advisor to discuss acceptable options for demonstrating proficiency. Students who wish to demonstrate proficiency should do so before earning 90 credits.

Quantitative Option

Students who don't want to complete the college foreign language requirements need to take 8 credits of the quantitative options listed below or complete a certificate in Artificial Intelligence.

Code	Title	Credits
ACG 2021	Introduction to Financial Accounting	4
ACG 2071	Introduction to Managerial Accounting	4
CGS 2531	Problem Solving Using Computer Software	3
CGS 3063	Computers and Modern Society	3
COP 3275	Computer Programming Using C	3
EEL 3872	Artificial Intelligence Fundamentals	3
EGN 1935	Special Topics in Freshman Engineering	1-3
EME 2040	Introduction to Educational Technology	3
ISM 3004	Computing in the Business Environment	4
PHI 3681	Ethics, Data, and Technology	3
STA 2023	Introduction to Statistics 1	3
STA 3024	Introduction to Statistics 2	3
STA 4222	Sample Survey Design	3

Advertising

The Advertising curriculum provides a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurism, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

About this Program

- **College:** Journalism and Communications
- **Degree:** Bachelor of Science in Advertising
- **Specializations:** Advertising Agency (p. 999) | Persuasive Messaging (p. 1004)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Advertising is recognized as one of the largest and most respected programs in the US. Courses are designed to provide a foundation for problem-solving, strategic thinking, and persuasion techniques that drive marketplace communication.
More Info (https://www.jou.ufl.edu/current-students/current-undergraduate/current-academics/current-advertising/)

Curriculum

- Advertising
- Advertising | Persuasive Messaging UF Online
- Combination Degrees

UF's Department of Advertising consistently ranks as one of the top US advertising programs. It is based in a college accredited by the Accrediting Council for Education in Journalism and Mass Communication. The department's curriculum, among the most comprehensive in the United States, is taught by a faculty with the knowledge and experience to bring a balance of professional skills and conceptual orientation to the classroom.

Specializations

Advertising Agency

Emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This specialization introduces the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction, and copywriting. All students in the Advertising Campaigns course are required to complete a program-level assessment.

Persuasive Messaging

Focuses on the skill set required to engage media audiences with the use of strategic and persuasive communications. The specialization emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The specialization prepares students for careers in a broad array of industries and organizations.

Academic Learning Compact

The Advertising curriculum is designed to provide a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurism, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Specializations

Advertising Agency

The Advertising Agency specialization emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This specialization introduces students to the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction and copywriting.

Persuasive Messaging

The Persuasive Messaging specialization focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The track emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The track prepares students for careers in a broad array of industries and organizations.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by two faculty members as part of ADV 4800, the major's capstone course.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Correctly identify information and trends related to the history and roles of professionals and institutions in shaping strategic communications.

Critical Thinking

2. Formulate accurate audience insights from research and consumer information.
3. Correctly analyze strategic communication from case studies in branding.

Communication

4. Work effectively in teams to solve strategic communication problems.
5. Orally present ideas and recommendations clearly and effectively.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 9 critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, ORI 2000 or SPC 2608, POS 2041 or PSY 2012, ENC 3252, and STA 2023

Semester 2

- Complete 2 of 9 critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, ORI 2000 or SPC 2608, POS 2041 or PSY 2012, ENC 3252, and STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 3

- Complete 3 additional critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, ORI 2000 or SPC 2608, POS 2041 or PSY 2012, ENC 3252, and STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 4

- Complete all 9 critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, ORI 2000 or SPC 2608, POS 2041 or PSY 2012, ENC 3252, and STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 5

- Complete ADV 3001, ADV 3500, ADV 3411, and VIC 3001
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 6

- Complete ADV 3403, MMC 3420, and ADV 4101
- Complete professional writing elective outside the college, 6,000 words
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 7

- Complete ADV 4300, MMC 3203, and MMC 4200
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 8

- Complete ADV 4800
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
AMH 2020	United States Since 1877 (State Core Gen Ed Social and Behavioral Sciences (p. 80))	3

- 2.0 GPA on all work at all institutions

Semester 2

- Complete 2 of 9 critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, ORI 2000 or SPC 2608, POS 2041, or PSY 2012, ENC 3252, and STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 3

- Complete 3 additional critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, ORI 2000 or SPC 2608, POS 2041, or PSY 2012, ENC 3252, and STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 4

- Complete all 9 critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, ORI 2000 or SPC 2608, POS 2041, or PSY 2012, ENC 3252, and STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 5

- Complete all critical-tracking courses
- Complete ADV 3001, ADV 3500, ADV 3411, and VIC 3001
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 6

- Complete ADV 3403 and MMC 3420
- Complete Experiential Learning Course 1
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 7

- Complete MMC 3203 and MMC 4200
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 8

- Complete Experiential Learning Course 2
- Complete Professional writing elective outside the college, 6,000 words
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
AMH 2020	United States Since 1877 (State Core Gen Ed Social and Behavioral Sciences (p. 80))	3

1 Minimum grade of C required.
2 Pure math.

For semesters 7-8, students must complete two professional courses.

Professional Electives

15 credits minimum

MMC 1009 and 14 additional credits

Students may take any other courses in the College of Journalism and Communications to count as professional electives. Students are encouraged to work with faculty members to select electives that best meet career goals. Recommended certificate options (e.g., International Communication, Graphic Design), combined degree options (Global Strategic Communication, Web Design, Social Media), and various concentrations of strategic messaging courses (e.g., media management, audiences and media, audience engagement) are available in the PATH office and advertising department office.

- Up to six credits of professional internship credit may count toward graduation.
- Minimum grade of C required in these courses.

Academic Learning Compact

The Advertising curriculum is designed to provide a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurism, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Specializations

Advertising Agency

The Advertising Agency specialization emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This specialization introduces students to the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction and copywriting.

Persuasive Messaging

The Persuasive Messaging specialization focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The track emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The track prepares students for careers in a broad array of industries and organizations.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by two faculty members as part of ADV 4800, the major's capstone course.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Correctly identify information and trends related to the history and roles of professionals and institutions in shaping strategic communications.

Critical Thinking

2. Formulate accurate audience insights from research and consumer information.
3. Correctly analyze strategic communication from case studies in branding.

Communication

4. Work effectively in teams to solve strategic communication problems.
5. Orally present ideas and recommendations clearly and effectively.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 9 critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, ORI 2000 or SPC 2608, POS 2041 or PSY 2012, ENC 3252, and STA 2023
- 2.0 GPA on all work at all institutions

Semester 2

- Complete 2 of 9 critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, ORI 2000 or SPC 2608, POS 2041, or PSY 2012, ENC 3252, and STA 2023

- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 3

- Complete 3 additional critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, ORI 2000 or SPC 2608, POS 2041, or PSY 2012, ENC 3252, and STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 4

- Complete all 9 critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, ORI 2000 or SPC 2608, POS 2041, or PSY 2012, ENC 3252, and STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 5

- Complete all critical-tracking courses
- Complete ADV 3001, ADV 3500, ADV 3411, and VIC 3001
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 6

- Complete ADV 3403 and MMC 3420
- Complete Experiential Learning Course 1
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 7

- Complete MMC 3203 and MMC 4200
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 8

- Complete Experiential Learning Course 2
- Complete Professional writing elective outside the college, 6,000 words
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Journalism

In the Journalism major, students become proficient in multiple areas of journalism, reporting, and storytelling. Students learn core skills in interviewing, writing, multimedia/visuals, broadcast, and public records, as well as legal and ethical principles and practices. Students choose a specialization in broadcast, topical reporting, visuals, editing/producing, or data/coding, as well as take electives in these area and more. Finally, students have multiple opportunities to gain practical and immersive experience inside and outside the College of Journalism and Communications.

The courses enable students to develop their storytelling talent - in words, visuals, or data - and prepare them for careers in all kinds of media professions, including as reporters, writers, photographers, editors, designers, multimedia storytellers, broadcast journalists, and more. The flexible

curriculum allows students to work in all kinds of traditional and new media platforms. Excellent writing skills are essential. Graduates of the program work with major journalism and media companies, as well as other industries, and have won prolific honors, including the Pulitzer Prize.

Academic Learning Compact

The Journalism curriculum provides a foundation in reporting, writing, numeracy, the use of public records, First Amendment/media law, history of media, and storytelling in a variety of platforms. Specialized coursework is offered in a variety of subjects, and the curriculum is designed to allow flexibility for faculty to develop curriculum in evolving areas (such is the case for the robust development of courses in data journalism and coding, both areas that did not exist several years ago).

Skills developed are applicable to traditional platforms of Journalism, as well as new, hybrid, or non-traditional forms of media. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Specializations

Journalism

Students learn base skills required for journalism- and journalism-related careers. Students gain a foundation in reporting, writing, public records, and more, and they all develop a two-course specialization in their area of interest (such as photojournalism, coding, data journalism, specialized reporting, magazine writing, and more). Students come together after these two-course specializations to work in small teams in a common capstone that emphasizes advanced project work.

Sports and Media

While still having roots in traditional journalism, this curriculum has an emphasis on sports-related coursework across the college's departments. Students are prepared for a variety of careers in sports media. Students are required to do an internship in this curriculum, which can serve as a capstone experience.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply basic numerical and statistical concepts used by journalists.

Critical Thinking

2. Conduct research and evaluation information that is accessible through advanced database and public records.
3. Demonstrate reporting skills that reflect a diverse and pluralistic society.
4. Understand and apply the principles and laws of freedom of speech and press.

Communication

5. Write correctly and clearly in forms and styles appropriate for the journalism and communications professions and audiences.

Bachelor of Science in Journalism

In the Journalism major, students become proficient in multiple areas of journalism, reporting, and storytelling. Students learn core skills in interviewing, writing, multimedia/visuals, broadcast, and public records, as well as legal and ethical principles and practices. Students choose a specialization in broadcast, topical reporting, visuals, editing/producing, or data/coding, as well as take electives in these area and more. Finally, students have multiple opportunities to gain practical and immersive experience inside and outside the College of Journalism and Communications.

About this Program

- **College:** Journalism and Communications (p. 992)
- **Degree:** Bachelor of Science in Journalism (p. 1017)
- **Specialization:** Sports and Media (p. 1023)
- **Credits for Degree:** 120

Customized

Students may customize courses to career goals by using 12 credits of different specializations with the approval of the department chair.

Professional Electives | 14 credits

Students may take any other 3000-level or above courses in the College of Journalism and Communications to count as electives (JOU, RTV, PUR, ADV), including other courses in the JOU specializations. Students are encouraged to work with faculty members to construct electives that best meet career goals.

Up to six credits of professional Journalism Internship (JOU 4940) and up to 3 credits of Electronic Media Practicum (RTV 3945) will count as Professional Elective credit. Internship courses in Public Relations, Advertising, and Telecommunication will not count as Professional Elective credit. Minimum grade of C required in College of Journalism and Communications upper division courses.

EQUIPMENT REQUIREMENT

Students are required to have a laptop computer which is capable of running the Adobe Creative Cloud suite software. Other courses require Microsoft Office software or equivalent, including spreadsheets and statistics software (e.g., Excel, SPSS) and presentation software (e.g., PowerPoint or Keynote).

Some software is available for free or at a steep student discount through UF Apps. Please inquire with UF Apps before making software purchases. More Info (http://info.apps.ufl.edu/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 10 critical-tracking courses: MMC 1009, ENC 1102, MMC 2604, STA 2023, ECO 2013, JOU 3101, MMC 2450, JOU 3015, MMC 3203 or JOU 4700, MMC 4200
- 2.0 GPA on all work at all institutions

Semester 2

- Complete an additional 2 of 10 critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 3

- Complete 2 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 4

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 5

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 6

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 7

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 8

- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

[1] Minimum grade of C required.

Academic Learning Compact

The Journalism curriculum provides a foundation in reporting, writing, numeracy, the use of public records, First Amendment/media law, history of media, and storytelling in a variety of platforms. Specialized coursework is offered in a variety of subjects, and the curriculum is designed to allow flexibility for faculty to develop curriculum in evolving areas (such is the case for the robust development of courses in data journalism and coding, both areas that did not exist several years ago).

Skills developed are applicable to traditional platforms of Journalism, as well as new, hybrid, or non-traditional forms of media. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Specializations

Journalism

Students learn base skills required for journalism- and journalism-related careers. Students gain a foundation in reporting, writing, public records, and more, and they all develop a two-course specialization in their area of interest (such as photojournalism, coding, data journalism, specialized reporting, magazine writing, and more). Students come together after these two-course specializations to work in small teams in a common capstone that emphasizes advanced project work.

Sports and Media

While still having roots in traditional journalism, this curriculum has an emphasis on sports-related coursework across the college's departments. Students are prepared for a variety of careers in sports media. Students are required to do an internship in this curriculum, which can serve as a capstone experience.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply basic numerical and statistical concepts used by journalists.

Critical Thinking

2. Conduct research and evaluation information that is accessible through advanced database and public records.
3. Demonstrate reporting skills that reflect a diverse and pluralistic society.
4. Understand and apply the principles and laws of freedom of speech and press.

Communication

5. Write correctly and clearly in forms and styles appropriate for the journalism and communications professions and audiences.

Sports and Media

In the Journalism major, students become proficient in multiple areas of journalism, reporting, and storytelling. Students learn core skills in interviewing, writing, multimedia/visuals, broadcast, and public records, as well as legal and ethical principles and practices. Students take a sports core in a variety of multimedia and cross-discipline courses, such as sports reporting, production and communication. Finally, students have multiple opportunities to gain practical and immersive experience inside and outside the College of Journalism and Communications.

- Story Evaluation

Journalism | Sports and Media UF Online

In the Journalism major, students become proficient in multiple areas of journalism, reporting, and storytelling. Students learn core skills in interviewing, writing, multimedia/visuals, broadcast, and public records, as well as legal and ethical principles and practices. Students take a sports core in a variety of multimedia and cross-discipline courses, such as sports reporting, production and communication. Finally, students have multiple opportunities to gain practical and immersive experience inside and outside the College of Journalism and Communications.

About this Program

- **College:** Journalism and Communications (p. 992)

Curriculum

- Combination Degrees
- Creative Advertising Certificate
- International Communication Certificate
- Journalism
- Journalism | Sports and Media UF Online
- Mass Communication Studies Minor
- Mass Communication Studies Minor UF Online
- Media Sales Certificate

- Political Communication Certificate
- Spanish Language News Media Certificate

The courses enable students to develop their storytelling talent - in words, visuals, or data - and prepare them for careers in all kinds of media professions, including as reporters, writers, photographers, editors, designers, multimedia storytellers, broadcast journalists, and more. The flexible curriculum allows students to work in all kinds of traditional and new media platforms. Excellent writing skills are essential. Graduates of the program work with major journalism and media companies, as well as other industries, and have won prolific honors, including the Pulitzer Prize.

Sports and Media

The Sports and Media specialization in Journalism teaches students to be skilled in multiples areas of sports media and communications. Students will learn strategies and skills in reporting, writing, video, audio, social media, and more. Students will engage in critical thinking about current issues and trends in today's sports media—and have multiple opportunities to gain practical and immersive experience in media properties inside and outside of the College of Journalism and Communications.

The Sports and Media specialization is not available for Innovation Academy.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 8 critical tracking courses: MMC 2450, ENC 1102, MMC 3703, STA 2023, ECO 2013, RTV 3502C, JOU 4313C or RTV 3593, RTV 4959C
- 2.0 GPA on all work at all institutions

Semester 2

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 3

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 4

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 5

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 6

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 7

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 8

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

	Credits	**14**
	Total Credits	**120**

[1] Minimum grade of C required.

For semesters 7-8, students must complete two professional courses.

Professional Electives | 14 Credits

Any other course taken in the College of Journalism and Communications at or above the 3000 level (JOU, RTV, PUR, ADV). Minimum grades of C required.

Up to six credits of professional internship credit may count toward graduation.

Academic Learning Compact

The Journalism curriculum provides a foundation in reporting, writing, numeracy, the use of public records, First Amendment/media law, history of media, and storytelling in a variety of platforms. Specialized coursework is offered in a variety of subjects, and the curriculum is designed to allow flexibility for faculty to develop curriculum in evolving areas (such is the case for the robust development of courses in data journalism and coding, both areas that did not exist several years ago).

Skills developed are applicable to traditional platforms of Journalism, as well as new, hybrid, or non-traditional forms of media. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Specializations

Journalism

Students learn base skills required for journalism- and journalism-related careers. Students gain a foundation in reporting, writing, public records, and more, and they all develop a two-course specialization in their area of interest (such as photojournalism, coding, data journalism, specialized reporting, magazine writing, and more). Students come together after these two-course specializations to work in small teams in a common capstone that emphasizes advanced project work.

Sports and Media

While still having roots in traditional journalism, this curriculum has an emphasis on sports-related coursework across the college's departments. Students are prepared for a variety of careers in sports media. Students are required to do an internship in this curriculum, which can serve as a capstone experience.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply basic numerical and statistical concepts used by journalists.

Critical Thinking

2. Conduct research and evaluation information that is accessible through advanced database and public records.
3. Demonstrate reporting skills that reflect a diverse and pluralistic society.
4. Understand and apply the principles and laws of freedom of speech and press.

Communication

5. Write correctly and clearly in forms and styles appropriate for the journalism and communications professions and audiences.

Specializations

Digital Film and Television Production

Prepares students for careers in program creation, writing and the creative applications of video and audio technology.

Media Management and Technology

Prepares students for dynamic roles at the intersection of media, technology, and society with an emphasis of strategic management. Delve into the theories, methods, and techniques essential for producing, managing, and distributing audio, video, and digital content.

Academic Learning Compact

The major in Media Production, Management, and Technology, which includes specializations in Management and Strategy, Media and Society, and Digital Film and Television Production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio, and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, or apply concepts and theories in the use and presentation of content.
2. Identify, describe, or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe, or apply the tools and technologies appropriate for the telecommunication professions.

Critical Thinking

4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

Communication

6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete 2 of 8 critical-tracking courses: MMC 1009, ENC 1102, ECO 2013, STA 2023, ENG 2300, RTV 2100, RTV 2517, RTV 3001.
- 2.0 GPA on all work at all institutions

SEMESTER 2

- Complete 2 additional critical-tracking courses from the list of 8 above.
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 3

- Complete 2 additional critical-tracking courses from the list of 8 above.
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 4

- Complete 2 additional critical-tracking courses additional critical-tracking courses from the list of 8 above.
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 5

- Complete 2 additional critical-tracking courses: RTV 3101 and RTV 2251 or RTV 2572.
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 6

- Complete RTV 3511.
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 7

- Complete RTV 3320 and a Capstone Prep Course (RTV 3108, RTV 3577, RTV 3330, RTV 3931, RTV 3581, RTV 3501, RTV 3518, RTV 3663).
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 8

- Complete RTV 4929C.
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

	Credits	**15**
	Total Credits	**120**

[1] Minimum grade of C required

Up to six credits of professional internship credit may count toward graduation. Internships for credit require department approval, and a letter from the internship supervisor outlining duties and contact information. Internship application forms, information, and policies are available on the Department of Telecommunication website.

Academic Learning Compact

The major in Media Production, Management, and Technology, which includes specializations in Management and Strategy, Media and Society, and Digital Film and Television Production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio, and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, or apply concepts and theories in the use and presentation of content.
2. Identify, describe, or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe, or apply the tools and technologies appropriate for the telecommunication professions.

Critical Thinking

4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

Communication

6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

Assessment Types

- Policy memo and exam in addition to:
  - **Management**: written and oral presentation of a strategic plan developed for a client
  - **Media and Society**: written final project
  - **Digital Film and Television Production:** final video project

Media Management and Technology

The Department of Media Production, Management, and Technology consistently ranks among the top five in the United States and is accredited by the Accrediting Council for Education in Journalism and Mass Communication.

About this Program

- **College:** Journalism and Communications (p. 992)
- **Degree:** Bachelor of Science in Media Production, Management, and Technology
- **Specializations:** Digital Film and Television Production (p. 1038) | Media Management and Technology (p. 1042)
- **Credits for Degree:** 120
- **Contact**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Media Production, Management, and Technology program is one of the most comprehensive in the country, with complete specializations in Digital Film and Video Production, Management and Strategy, and Media and Society.

Curriculum

- Combination Degrees
- Media Production, Management, and Technology
- Media Production, Management, and Technology | Media and Society UF Online

This interdisciplinary specialization prepares students for dynamic roles at the intersection of media, technology, and society with an emphasis of strategic management. Delve into the theories, methods, and techniques essential for producing, managing, and distributing audio, video, and digital content. Graduates will be prepared to contribute to media organizations, political campaigns, business, education, and government, or pursue advanced studies in communication and related fields.

Coursework

In addition to these courses, a 9-credit-hour outside concentration composed of 3000-level or above courses is required.

Code	Title	Credits
Required Core Coursework		
ENC 3252	Writing for Strategic Communication [1]	3
or ENC 2256	Writing in the Disciplines	
MMC 1009	Introduction to Media and Communications [1]	1
MMC 4302	World Communication Systems	3
or RTV 3411	Race, Gender, Class and the Media	
RTV 2100	Media Writing [1]	3
RTV 2405	Media and Society	2
RTV 3001	Introduction to Media Industries and Professions [1]	3
RTV 3002	Understanding Audiences [1]	3
RTV 3432	Ethics and Problems in Media [1]	3
or MMC 3203	Ethics and Problems in Mass Communications	
RTV 4700	Media Law and Policy	3
or MMC 4200	Law of Mass Communication	
VIC 3001	Sight, Sound and Motion [1]	3
or RTV 2517	Concepts in Visual Storytelling	
Professionalism Block		
MMC 3030	Personal Branding for Communicators	1
or MMC 3254	Media Entrepreneurship	
Select one:		1
ADV 3943	The Agency Immersion	
JOU 4201	News Center Practicum	
PUR 3943	The Agency Immersion	
RTV 3945	Media Immersion Experience	
RTV 4940	Media Internship	
Media Technology Block (select three):		**9**
MMC 3260	Communications on the Internet	
or MMC 3630	Social Media and Society	
RTV 3443	Media User Experience	
RTV 4590	Digital Games in Communications	
RTV 4591	Applications of Mobile Technology	
Media Management Block		**9**
MMC 3420	Consumer and Audience Analytics	
or RTV 4506	Applied Media Research	
RTV 4500	Content Acquisition, Distribution, and Strategy	

RTV 4800	Media Management and Strategy [1]	
Professional Electives		
Students may take any other 3000-level or above courses in the College of Journalism and Communications to count as electives. Students are encouraged to work with faculty members and/or advisers to construct electives that best meet career goals.		6
Total Credits		**53**

[1] Minimum grade of C required

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

SEMESTER 1

- Complete 1 of 10 critical-tracking courses: MMC 1009, ENC 1102, ECO 2013, STA 2023, RTV 2100, RTV 3001, VIC 3001 or RTV 2517, RTV 3002, MMC 3420 or RTV 4506, RTV 4500
- 2.0 GPA on all work at all institutions

SEMESTER 2

- Complete an additional 2 critical-tracking courses of the list of 10 above
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 3

- Complete an additional critical-tracking course of the list of 10 above
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 4

- Complete two additional critical-tracking courses of the list of 10 above
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 5

- Complete an additional critical-tracking course of the list of 10 above
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 6

- Complete an additional critical-tracking course of the list of 10 above
- 2.0 UF GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 7

- Complete an additional 2 critical-tracking courses of the list of 10 above
- 2.0 UF GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 8

- Complete RTV 4800
- 2.0 UF GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the *Critical Tracking* criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
AMH 2020	United States Since 1877 (State Core Gen Ed Social and Behavioral Sciences (p. 80))	3
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80)) [1]	3
MMC 1009	Introduction to Media and Communications (**Critical Tracking**) [1]	1

Elective		2
	Credits	**15**
	Total Credits	**120**

1 Minimum grade of C required.
2 JOU 2100 is accepted in lieu of RTV 2100

Up to six credits of professional internship credit may count toward graduation. Internships for credit require department approval and a letter from the internship supervisor outlining duties and contact information. More information about internship credit is available on the department's website.

Academic Learning Compact

The major in Media Production, Management, and Technology, which includes specializations in Management and Strategy, Media and Society, and Digital Film and Television Production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio, and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, or apply concepts and theories in the use and presentation of content.
2. Identify, describe, or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe, or apply the tools and technologies appropriate for the telecommunication professions.

Critical Thinking

4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

Communication

6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

Assessment Types

- Policy memo and exam in addition to:
- **Management**: written and oral presentation of a strategic plan developed for a client
- **Media and Society**: written final project

- **News**: portfolio of two radio or television news stories produced in RTV 3304
- **Digital Film and Television Production:** final video project

Media Sales Certificate

The Media Sales certificate emphasizes sales within the changing media landscape. It offers modern training in media buying, planning, and selling. Students learn and apply best practice for providing customers traditional and digital solutions, cross-media platform selling, best sales practices, and revenue management. They apply these practices in a sales internship.

[1] Minimum grade of C required.

Equipment Requirement

All students are required to have a laptop computer which is capable of running the Adobe Creative Cloud suite software. Students registered for VIC 3001, which is required of all Public Relations majors, must subscribe to, download, and install the Adobe Creative Cloud suite of software before class begins.

Other courses in the curriculum require Microsoft Office software or equivalent, including spreadsheets and statistics software (e.g., Excel, SPSS) and presentation software (e.g., PowerPoint or Keynote).

Some software is available for free or at a steep student discount through UF Apps. Please inquire with UF Apps before making software purchases. More Info (http://info.apps.ufl.edu/)

Academic Learning Compact

The major in Public Relations enables students to develop the knowledge and skills, including analytical and communication skills, necessary for the effective practice of public relations. Students will learn Public Relations principles, perspectives for understanding, and communicating with targeted and diverse publics and a systematic process for problem solving that emphasizes programming based on formative and evaluative research. Special attention is paid to writing skills and students will acquire the ability to write correctly and clearly in forms and styles appropriate for Public Relations practice. They will learn to use tools and relevant technologies, including new media, and students will also develop an understanding of ethical principles, including the importance of truth and accuracy, which guide Public Relations practice.

Before Graduating Students Must

- Achieve a passing score of 70% or higher on a major individual project (e.g., media kit) developed in PUR 4100 and evaluated by the class instructor.
- Achieve a passing score of 70% or higher on a comprehensive campaign plan for an organizational client, developed in the major's capstone course, PUR 4800, and evaluated by the class instructor.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 7 critical tracking courses: MMC 1009, POS 2041 or PSY 2012, ENC 1102 ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA on all work at all institutions

Semester 2

- Complete 3 additional critical tracking courses: MMC 1009, POS 2041 or PSY 2012, ENC 1102 ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 3

- Complete 1 additional critical tracking course: MMC 1009, POS 2041 or PSY 2012, ENC 1102 ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 4

- Complete 1 additional critical tracking course: MMC 1009, POS 2041 or PSY 2012, ENC 1102 ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 5

- Complete 1 additional critical tracking course: MMC 1009, POS 2041 or PSY 2012, ENC 1102 ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 6

- Complete 3 critical-tracking courses: JOU 3101, PUR 3500, MMC 3203
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 7

- Complete 2 critical-tracking course: PUR 4100, MMC 4200
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 8

- Complete 1 critical-tracking course: PUR 4800
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

EQUIPMENT REQUIREMENT

All public relations students are required to have a laptop computer. Laptops must be capable of running the Adobe Creative Cloud suite software. Students registered for VIC 3001, which is required of all public relations majors, must subscribe to, download, and install the Adobe Creative Cloud suite of software before class begins.

Other courses in the public relations curriculum require Microsoft Office software or equivalent, including spreadsheets and statistics software (e.g., Excel, SPSS) and presentation software (e.g., PowerPoint or Keynote).

Some software is available for free or at a steep student discount through UF Apps. Please inquire with UF Apps before making software purchases. More Info (http://info.apps.ufl.edu/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete 1 of 7 critical-tracking courses: MMC 1009, POS 2041 or PSY 2012, ENC 1102, ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA on all work at all institutions

SEMESTER 2

- Complete 3 additional critical-tracking courses: MMC 1009, POS 2041 or PSY 2012, ENC 1102, ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 3

- Complete 1 additional critical-tracking course: MMC 1009, POS 2041 or PSY 2012, ENC 1102, ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 4

- Complete 1 additional critical-tracking course: MMC 1009, POS 2041 or PSY 2012, ENC 1102, ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 5

- Complete 1 additional critical-tracking course: MMC 1009, POS 2041 or PSY 2012, ENC 1102, ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 6

- Complete 3 critical-tracking courses: JOU 3101, PUR 3500, MMC 3203
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 7

- Complete 2 critical-tracking courses: PUR 4100, MMC 4200
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 8

- Complete 1 critical-tracking course: PUR 4800
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Corporate Communications elective [1]		3

Elective (outside college)	3
Credits	**15**
Total Credits	**120**

[1] Minimum grade of C required.

For semesters 7-8, students must complete two professional courses.

Academic Learning Compact

The major in Public Relations enables students to develop the knowledge and skills, including analytical and communication skills, necessary for the effective practice of Public Relations. Students will learn Public Relations principles, perspectives for understanding and communicating with targeted and diverse publics and a systematic process for problem solving that emphasizes programming based on formative and evaluative research. Special attention is paid to writing skills and students will acquire the ability to write correctly and clearly in forms and styles appropriate for Public Relations practice. They will learn to use tools and relevant technologies, including new media, and students will also develop an understanding of ethical principles, including the importance of truth and accuracy, which guide Public Relations practice.

Before Graduating Students Must

- Achieve a passing score of 70% or higher on a major individual project (e.g., media kit) developed in PUR 4100 and evaluated by the class instructor.
- Achieve a passing score of 70% or higher on a comprehensive campaign plan for an organizational client, developed in the major's capstone course, PUR 4800, and evaluated by the class instructor.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn To

Student Learning Outcomes | SLOs

Content

1. Correctly identify trends, concepts, and theories relevant to effective public relations practice.

Critical Thinking

2. Formulate accurate insights from research.
3. Creatively and independently analyze public relations problems.

Communication

4. Work effectively in teams to solve public relations problems.
5. Orally present ideas and recommendations clearly and effectively.
6. Write correctly and clearly in forms and styles appropriate for public relations.

Public Relations | Public Interest Communications

Public Relations | Public Interest Communications prepares students for entry-level jobs in public interest communications, which focuses on using strategic communications for social good. Students completing this degree will be prepared to be practitioners, able to use research-based approaches to mobilize people to action, produce social media strategies and tactics, effectively use multimedia for social change, as well as formulate a communication plan for a new initiative. Excellent writing and critical-thinking skills are essential.

About this Program

- **College:** Journalism and Communications (p. 992)
- **Degree:** Bachelor of Science in Public Relations (p. 1056)
- **Specializations:** Corporate (p. 1061) | Public Interest Communications (p. 1066)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Public Relations provides exemplary leadership, education, and scholarship to advance public relations' unique role and responsibilities to foster organization-public relationships through effective communication and actions in support of a civil society and democratic ideals.

Curriculum

- Combination Degrees
- Media Production, Management, and Technology Minor
- Public Relations
- Public Relations Minor
- Public Relations UF Online

The public relations curriculum is one of the most in-depth curricula in the country, with a balance between skills and conceptual courses. The Department of Public Relations consistently ranks among the top public relations education programs in the United States, and it is among the largest programs in terms of the number of faculty and students, including one of the largest chapters of the Public Relations Student Society of America. The program is housed in a college accredited by the Accrediting Council for Education in Journalism and Mass Communication.

Graduates of the program are well-prepared for careers as public relations practitioners in businesses, public relations firms, government agencies and nonprofit organizations, nationally and internationally. Their education makes them attractive candidates for graduate degree programs (master's and Ph. D.) ranging from public relations to business and international relations.

Certificate in International Communication

Students may pursue a certificate in international communication, which is designed to prepare students for career advancement and development. Courses emphasize the impact of internationalization and globalization on communication across disciplines.

Equipment Requirement

All students are required to have a laptop computer which is capable of running the Adobe Creative Cloud suite software. Students registered for VIC 3001, which is required of all Public Relations majors, must subscribe to, download, and install the Adobe Creative Cloud suite of software before class begins.

Other courses in the curriculum require Microsoft Office software or equivalent, including spreadsheets and statistics software (e.g., Excel, SPSS) and presentation software (e.g., PowerPoint or Keynote).

Some software is available for free or at a steep student discount through UF Apps. Please inquire with UF Apps before making software purchases. More Info (http://info.apps.ufl.edu/)

Academic Learning Compact

The major in Public Relations enables students to develop the knowledge and skills, including analytical and communication skills, necessary for the effective practice of public relations. Students will learn Public Relations principles, perspectives for understanding, and communicating with targeted and diverse publics and a systematic process for problem solving that emphasizes programming based on formative and evaluative research. Special attention is paid to writing skills and students will acquire the ability to write correctly and clearly in forms and styles appropriate for Public Relations practice. They will learn to use tools and relevant technologies, including new media, and students will also develop an understanding of ethical principles, including the importance of truth and accuracy, which guide Public Relations practice.

Before Graduating Students Must

- Achieve a passing score of 70% or higher on a major individual project (e.g., media kit) developed in PUR 4100 and evaluated by the class instructor.
- Achieve a passing score of 70% or higher on a comprehensive campaign plan for an organizational client, developed in the major's capstone course, PUR 4800, and evaluated by the class instructor.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Curriculum

- Combination Degrees
- Media Production, Management, and Technology Minor
- Public Relations
- Public Relations Minor
- Public Relations UF Online

The public relations curriculum is one of the most in-depth curricula in the country, with a balance between skills and conceptual courses. The Department of Public Relations consistently ranks among the top public relations education programs in the United States, and it is among the largest

programs in terms of the number of faculty and students, including one of the largest chapters of the Public Relations Student Society of America. The program is housed in a college accredited by the Accrediting Council for Education in Journalism and Mass Communication.

Graduates of the program are well-prepared for careers as public relations practitioners in businesses, public relations firms, government agencies and nonprofit organizations, nationally and internationally. Their education makes them attractive candidates for graduate degree programs (master's and Ph. D.) ranging from public relations to business and international relations.

Certificate in International Communication

Students may pursue a certificate in international communication, which is designed to prepare students for career advancement and development. Courses emphasize the impact of internationalization and globalization on communication across disciplines.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 7 critical tracking courses: MMC 1009, POS 2041 or PSY 2012, ENC 1102 ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA on all work at all institutions

Semester 2

- Complete 3 additional critical tracking courses: MMC 1009, POS 2041 or PSY 2012, ENC 1102 ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 3

- Complete 1 additional critical tracking course: MMC 1009, POS 2041 or PSY 2012, ENC 1102 ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 4

- Complete 1 additional critical tracking course: MMC 1009, POS 2041 or PSY 2012, ENC 1102 ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 5

- Complete 1 additional critical tracking course: MMC 1009, POS 2041 or PSY 2012, ENC 1102 ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 6

- Complete 3 critical-tracking courses: JOU 3101, PUR 3500, MMC 3203
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 7

- Complete 2 critical-tracking course: PUR 4100, MMC 4200
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 8

- Complete 1 critical-tracking course: PUR 4800
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Public Relations | Public Interest Communications

Public Relations is designed to prepare students for entry-level jobs as technicians, such as producing social media strategies and tactics or effective multimedia news releases, as well as for career advancement as managers, such as formulating a communication plan for a new initiative or forecasting the reputational impact of an organizational decision or action. Excellent writing and critical thinking skills are essential.

About this Program

- **College:** Journalism and Communications (p. 992)
- **Degree:** Bachelor of Science in Public Relations (p. 1074)
- **Specializations:** Public Relations | Corporate (p. 1079) | Public Relations | Public Interest Communications (p. 1083)
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Public Relations provides exemplary leadership, education, and scholarship to advance public relations' unique role and responsibilities to foster organization-public relationships through effective communication and actions in support of a civil society and democratic ideals.

Curriculum

- Combination Degrees
- Media Production, Management, and Technology Minor
- Public Relations
- Public Relations Minor
- Public Relations UF Online

The public relations curriculum is one of the most in-depth curricula in the country, with a balance between skills and conceptual courses. The Department of Public Relations consistently ranks among the top public relations education programs in the United States, and it is among the largest programs in terms of the number of faculty and students, including one of the largest chapters of the Public Relations Student Society of America. The program is housed in a college accredited by the Accrediting Council for Education in Journalism and Mass Communication.

Graduates of the program are well-prepared for careers as public relations practitioners in businesses, public relations firms, government agencies and nonprofit organizations, nationally and internationally. Their education makes them attractive candidates for graduate degree programs (master's and Ph. D.) ranging from public relations to business and international relations.

Certificate in International Communication

Students may pursue a certificate in international communication, which is designed to prepare students for career advancement and development. Courses emphasize the impact of internationalization and globalization on communication across disciplines.

[1] Minimum grade of C required.

EQUIPMENT REQUIREMENT

All public relations students are required to have a laptop computer. Laptops must be capable of running the Adobe Creative Cloud suite software. Students registered for VIC 3001, which is required of all public relations majors, must subscribe to, download, and install the Adobe Creative Cloud suite of software before class begins.

Other courses in the public relations curriculum require Microsoft Office software or equivalent, including spreadsheets and statistics software (e.g., Excel, SPSS) and presentation software (e.g., PowerPoint or Keynote).

Some software is available for free or at a steep student discount through UF Apps. Please inquire with UF Apps before making software purchases. More Info (http://info.apps.ufl.edu/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete 1 of 7 critical-tracking courses: MMC 1009, POS 2041 or PSY 2012, ENC 1102, ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA on all work at all institutions

SEMESTER 2

- Complete 3 additional critical-tracking courses: MMC 1009, POS 2041 or PSY 2012, ENC 1102, ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 3

- Complete 1 additional critical-tracking course: MMC 1009, POS 2041 or PSY 2012, ENC 1102, ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 4

- Complete 1 additional critical-tracking course: MMC 1009, POS 2041 or PSY 2012, ENC 1102, ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 5

- Complete 1 additional critical-tracking course: MMC 1009, POS 2041 or PSY 2012, ENC 1102, ECO 2013, VIC 3001, STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 6

- Complete 3 critical-tracking courses: JOU 3101, PUR 3500, MMC 3203
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 7

- Complete 2 critical-tracking courses: PUR 4100, MMC 4200
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 8

- Complete 1 critical-tracking course: PUR 4802
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
AMH 2020	United States Since 1877 (State Core Gen Ed Social and Behavioral Sciences (p. 80))	3
Select one:		3

Elective (outside college)		3
	Credits	**15**
	Total Credits	**120**

[1] Minimum grade of C required.

For semesters 7-8, students must complete two professional courses.

Academic Learning Compact

The major in Public Relations enables students to develop the knowledge and skills, including analytical and communication skills, necessary for the effective practice of public relations. Students will learn Public Relations principles, perspectives for understanding, and communicating with targeted and diverse publics and a systematic process for problem solving that emphasizes programming based on formative and evaluative research. Special attention is paid to writing skills and students will acquire the ability to write correctly and clearly in forms and styles appropriate for Public Relations practice. They will learn to use tools and relevant technologies, including new media, and students will also develop an understanding of ethical principles, including the importance of truth and accuracy, which guide Public Relations practice.

Before Graduating Students Must

- Achieve a passing score of 70% or higher on a major individual project (e.g., media kit) developed in PUR 4100 and evaluated by the class instructor.
- Achieve a passing score of 70% or higher on a comprehensive campaign plan for an organizational client, developed in the major's capstone course, PUR 4800, and evaluated by the class instructor.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Correctly identify trends, concepts, and theories relevant to effective public relations practice.

Critical Thinking

2. Formulate accurate insights from research.
3. Creatively and independently analyze public relations problems.

Communication

4. Work effectively in teams to solve public relations problems.
5. Orally present ideas and recommendations clearly and effectively.
6. Write correctly and clearly in forms and styles appropriate for public relations.

Spanish Language News Media Certificate

The Spanish Language News Media certificate emphasizes journalism and the cultural understanding of the communities being served by journalism to help prepare students for careers in bilingual and multicultural media organizations. Students will produce multi-platform journalism for Noticias, the Spanish-language news platform that is part of the College of Journalism and Communication's Innovation News Center.

About this Program

- **College:** Journalism and Communications (p. 992)
- **Credits:** 15

Certificates must comply with the Certificate Policy.

Department Information

Graduates of the Department of Journalism work in traditional forms of media, emerging platforms, and in corporate roles. Ultimately, the department offers transferrable skills that creates outstanding leaders with successful achievements across all fields.

The certificate is open primarily to JOU and SPN students, but is open to all undergraduates if they do not exceed excess hours.

Prerequisites

Code	Title	Credits
Select one:		3-4
MMC 2121	Writing Fundamentals for Communicators (for JOU 3101)	
ENC 1102	Argument and Persuasion	
& MMC 1009	and Introduction to Media and Communications	
MMC 2604	Media, Cultures, and Identity	
PUR 3000	Principles of Public Relations (for JOU 3109)	
SPN 2240	Intensive Communication Skills (or placement test or SPN 2340 with minimum grade of B)	

Required Courses

Code	Title	Credits
LAS 2001	Introduction to Latin American Studies	3
JOU 3109C	Multimedia Writing (or JOU 3101)	3
JOU 4951	Noticias [2]	3
SPN 3300	Spanish Grammar and Composition 1	3
or SPN 3350	Spanish Grammar and Composition for Heritage Learners	
LAS 4000-level or SPN or JOU course as approved by certificate coordinator		3
Total Credits		**15**

1 JOU 3101 is for Journalism and Public Relations majors. All other majors should take JOU 3109C.
2 JOU 4951 is variable credit and should be taken for 1 credit in one semester and can be taken for 2 or 3 credits in a subsequent semester.

Liberal Arts and Sciences | College of

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

Academic Divisions

The College of Liberal Arts and Sciences has 22 departments and 15 centers and institutes.

Degrees

Bachelor of Arts and Bachelor of Science degrees in over 40 majors, as well as a number of interdisciplinary studies fields.

The college also offers combination-degree (bachelor's-master's) programs in biology, botany, computer science, economics, French and Francophone studies, geography, geology, history, Latin American studies, linguistics, mathematics, philosophy, physics, political science, Portuguese, Russian, sociology, statistics, women's studies, and zoology.

Academic Advising

Department advisors assist students with their majors' requirements and options within the major. The Academic Advising Center helps CLAS students understand college and university degree requirements and regulations and the critical-tracking requirements for their major.
More Info (http://www.advising.ufl.edu/)

Career and experiential learning Guidance

Beyond120 is the experiential learning and professional development program in the College of Liberal Arts and Sciences (CLAS). The (https://www.advising.ufl.edu/beyond120/coursework/)*Beyond120* career curriculum includes for-credit courses on career skills, global engagement, undergraduate research, community engagement, personal development, self-marketing, and pre-health, pre-law, and graduate school preparation. ThroughBeyond120, all CLAS students have the opportunity to engage with internships, study abroad, undergraduate research, excursions, workshops, one-on-one career advising, and mentorship. Through these many avenues, CLAS students can build skills and perspectives, better understand the value of their degree, and set themselves up for professional success in the future.

More Info (https://www.advising.ufl.edu/beyond120/)

Students who need to explore majors and careers can find resources on the college's Explore our Majors (https://clas.ufl.edu/undergraduate/) page and the Academic Advising Center (https://www.advising.ufl.edu/exploratory/) website. Additionally, students are encouraged to utilize the Career Connections Center (https://career.ufl.edu/) for career and major exploration as well as other career-related needs.

Students should consult their major department regarding internship credit. Additional information is available in 2014 Turlington, 352.392.6800. The college also offers an opportunity for students to receive internship credit outside of their major; more information can be found on the Academic Advising Center (https://www.advising.ufl.edu/beyond120/internships/) website. The Bob Graham Center provides information on internship programs at the Washington Center in Washington, D.C. and other sites.
More Info (http://www.bobgrahamcenter.ufl.edu/students/internships/)

Pre-Health and Pre-Law

Students interested in attending professional school in medicine, dentistry, law, optometry, pharmacy, or veterinary medicine after completing the bachelor's degree should seek advising from the Pre-Health and Pre-Law Advising in the Academic Advising Center. The AAC offers workshops and individual advising to guide pre-health and pre-law students.
Pre-Health (http://www.advising.ufl.edu/pre-health/) Pre-Law (http://www.advising.ufl.edu/pre-law/)

Pre-health and pre-law students in the College of Liberal Arts & Sciences (CLAS) have customized resources, events, and programs through *Beyond120*. Pre-health and pre-law students have access to all the available resources of *Beyond120* plus pre-health and pre-law focused courses, professional excursions, mentors, and service groups. The Pre-Health Scholars (PHS) (https://beyond120.clas.ufl.edu/pre-health/#prehealthscholars) and Pre-Law Scholars programs offer students an opportunity to enrich their perspectives on the human and social contexts of their discipline both in and out of the classroom.

Scholarships

The *Beyond120* Program offers experiential opportunity scholarships to support student pursuits in internships, global engagement, undergraduate research, and more.
More Info (https://beyond120.clas.ufl.edu/academics/scholarships/)

For information regarding additional scholarships offered by CLAS, visit 2014 Turlington Hall.
More Info (https://clas.ufl.edu/undergraduate/undergrad-scholarships/)

The Honors Office also has scholarship information for students in the honors program.

Student Organizations

CLASSC, the college's student council, serves as a resource for CLAS students and as an advocate for student issues within the college.

More Info (https://classc.clas.ufl.edu/)

In addition, CLASSC provides funding for programs and travel to conferences for more than 25 student organizations specific to CLAS.

The Beyond120 CLAS Ambassadors support the career development of their fellow CLAS students and assist the academic mission of the College.
More Info (https://beyond120.clas.ufl.edu/about-beyond120/clas-ambassadors/)

Phi Beta Kappa is another organization for CLAS student involvement.

Research Experience

In most departments, students can conduct research under the direction of a faculty member. Consult a department advisor for information about faculty research areas or the Finding a Research Project (https://cur.aa.ufl.edu/?s=finding+a+research+project) page on Center for Undergraduate Research's website. In addition, students in CLAS are eligible to apply for the CLAS University Scholars Program (https://clas.ufl.edu/undergraduate/clas-university-scholars/). Teamed with faculty mentors, CLAS University Scholars identify a topic, initiate research during the summer, and continue investigation throughout the following academic year. Selected scholars receive a $1,750 stipend.

Beyond120 Research provides one-on-one consultations, classes, workshops, and free online resources for students who want to become part of the CLAS research community. Course offerings include classes on how to get involved in research as well as hands-on, research experience courses. The Beyond120 program also offers funding opportunities for undergraduate researchers, which are advertised on the Beyond120 Scholarships page (https://beyond120.clas.ufl.edu/academics/scholarships/).

Special Academic Recognition

Dean's Medal

The college believes that the best preparation for success draws deeply across the full range of the college's offerings. The Dean's Medal recognizes those CLAS graduates who have gone above and beyond in their pursuit of broad study in the liberal arts and sciences. Medal winners have not only undertaken a significant range of courses, but have acquired the range of skills and experiences valued by graduate and professional schools, organizations, employers, and communities.
More Info (https://clas.ufl.edu/advising/the-deans-medal-for-excellence-in-liberal-arts-and-sciences/)

Honors

The college offers a variety of opportunities for independent and seminar honors work to undergraduates who demonstrate appropriate qualifications. Superior students should take initiative in planning undergraduate and graduate programs. They should consult the honors coordinator in their department about requirements for the baccalaureate degree cum laude, magna cum laude, or summa cum laude. Postbaccalaureate students are not eligible to receive honors recognition.

Study Abroad

Students in the college are encouraged to participate in study-abroad programs administered by the UF International Center, and scholarships are available. Study-abroad programs may satisfy certain requirements, such as general education, CLAS distribution, foreign language, summer term enrollment, and UF residency. Some study-abroad courses may also count toward a student's major.
More Info (https://internationalcenter.ufl.edu/)

CLAS has many overseas programs for undergraduates for a summer, a semester, or an academic year, each providing a wide range of academic and cultural experiences. Additionally, *Beyond120* provides guidance, resources, and scholarships to help students make the most of their international experience (https://beyond120.clas.ufl.edu/global-engagement/). *Beyond120* helps students connect their personal, academic, and professional goals through global engagement (https://beyond120.clas.ufl.edu/global-engagement/) such as international internships, overseas research, global service-learning, virtual exchanges, and coursework.

Teacher Preparation: Professional Training Options

A PTO is an alternative certification program meant to prepare students for temporary teacher certification in Florida. Professional teacher certification is attainable with passing scores on relevant teacher certification exams, a clear criminal history background report, and one year of successful teaching in a Florida public school. Please review state certification information (https://www.fldoe.org/teaching/certification/).

There are three PTO programs at UF:

- UFTeach Mathematics Teaching minor
- UFTeach Science Teaching minor
- Florida Teaching minor

The UFTeach (http://education.ufl.edu/uf-teach/) minor in mathematics teaching, available to students pursuing a major in mathematics, is meant to prepare students to be middle school and high school mathematics teachers in Florida. The UFTeach (http://education.ufl.edu/uf-teach/) minor in science teaching, available to students pursuing a major in a science discipline, is meant to prepare students to be middle school general science teachers and high school biology, chemistry, earth/space science, or physics teachers. There is a critical shortage of qualified high school mathematics and science teachers in Florida. Students interested in this high-demand profession should see the advisor in their major or the UFTeach advisor for more information.

The Florida Teaching minor is available to non-mathematics and non-science majors (ideally pursuing a major that would build competence in the subject the student wants to teach). It can lead to certification in a variety of subject areas and grade levels. Students interested in pursuing this minor should reach out to the College of Education for more information.

Center for Written and Oral Communication

The William and Grace Dial Center for Written and Oral Communication offers courses focusing on the communication skills students need for their majors and future careers. Students interested in business, education, law, medicine, and other fields can develop oral communication skills essential to success in their professions. The center also offers a minor in communication studies, comprised of courses in public speaking, interpersonal communication, and a variety of upper-division courses that focus on different communication contexts.
More Info (http://cwoc.ufl.edu/)

University Writing Program

The University Writing Program (UWP) prepares students and faculty to meet their academic and professional writing goals by delivering broad-based instruction in composition and discipline-specific writing courses, by providing a writing studio for individualized help, and by hosting faculty and student workshops.

The UWP houses coursework in First-Year Writing, Second-Year Analytical Thinking and Writing, and Third-Year Professional Writing in the Disciplines. Individual third-year courses focus on writing in specific disciplines (anthropology, communication science and disorders, engineering, law, neurobiological sciences, physical sciences, political science, sociology, etc.). These courses address the form, content, and style of professional and academic writing. Depending on the discipline, students may prepare proposals, scientific research reports, lab reports, professional correspondence, legal briefs and memoranda, analytical essays, applications to graduate programs, applications for employment, and presentations of research.
More Info (http://writing.ufl.edu/)

Academic Policies

Degree Programs

Bachelor of Arts | 120 Credits

Conferred upon students who fulfill degree requirements with majors in African American studies, astronomy, classical studies, criminology, economics, English, foreign languages and literatures, Hispanic and Latin American languages, literatures, and linguistics, history, international studies, Jewish studies, linguistics, philosophy, political science, Portuguese, religion, sociology, Spanish, sustainability studies, and women's studies.

Bachelor of Science | 120 Credits

Conferred upon students who fulfill degree requirements with majors in astrophysics, botany, chemistry, computer science, data science, marine sciences, meteorology, microbiology and cell science, and zoology.

A *Bachelor of Arts* or *Bachelor of Science* will be conferred upon those students who fulfill the requirements for the specific degree with majors in anthropology, biology, geography, geology, mathematics, physics, psychology, statistics, or interdisciplinary studies. Students should consult the undergraduate coordinator in their major department to discuss the appropriate curriculum for either degree.

Admission

First-Year Students

First-year students select a major and enter the college when they enroll at UF. Students selecting a CLAS major should start planning their major early in their UF careers by speaking with a general advisor in the Academic Advising Center (http://www.advising.ufl.edu/) (AAC), 100 Farrior Hall, and a department advisor in their major's department (https://clas.ufl.edu/departments/).

Three temporary enrollment categories are provided to facilitate exploration of academic options for students who are unsure about a choice of major:

- Exploring Humanities and Letters
- Exploring Social and Behavioral Science
- Exploring Sciences and/or Engineering

Students select the exploratory category that most closely fits their academic interests.

Advisors in the AAC (https://www.advising.ufl.edu/exploratory/) can help students determine an appropriate program of study. Students may be enrolled in exploratory registration categories for the first three Fall/Spring terms only (not counting Summer terms). Students must be admitted to a major before registering for their fourth term.

Transfer Students

Detailed information about transfer admission requirements is available for each CLAS major.
More Info (https://www.advising.ufl.edu/admissions/transfer-admissions/)

Transfer students are expected to graduate from the major into which they were admitted. An appeal to change majors after transferring is unlikely to be approved.

Admission to the College of Liberal Arts and Sciences is competitive due to space limitations. Priority is given to transfer applicants completing their Associate of Arts (AA) degree at one of the public state colleges or universities within the state of Florida (under the state's articulation agreement).

Admitted students who do not enroll in the term for which they have been admitted must submit a new application by the deadline to be considered for a future term.

After being admitted, transfer students are required to attend orientation (Transfer Preview) and are responsible for meeting with their department advisor and an advisor in the AAC to ensure that their transfer credits are evaluated properly and that they understand the requirements to complete their UF degrees.

Change of Major

Changing Majors in Terms 1-5

Students who want to change to a CLAS major in terms 1-5 must meet with an advisor in the AAC. The tracking term of students who entered UF as Summer B/Fall freshmen, is based on the number of Fall/Spring semesters in which they enrolled for 10 or more credits. For students who entered UF as an Innovation Academy freshman, their tracking term is based on the number of Spring/Summer semesters in which they enrolled for 10 or more credits. Full-term withdrawals and study abroad are not included as a tracking term.

Students should meet the critical-tracking criteria for their real tracking term. Students who do not may be permitted to change majors, provided they:

- Can get on track in a reasonable number of terms
- Demonstrate potential for success in the new major (successful completion of major and major-related courses in two attempts, including withdrawals, with a C or better)
- Meet all other CLAS progression standards

Generally, students who transfer into CLAS as juniors will not be able to change majors.

Changing Majors in Term 6 or Later

The further along a student is, the harder it may be to change majors and progress and graduate in a timely fashion. Students wishing to change to a CLAS major in term 6 or later must meet with an advisor in the AAC.

Students must:

- Meet the critical-tracking criteria (preprofessional GPA and minimum cumulative UF GPA) for the major
- Meet all other CLAS progression standards for the desired major
- Demonstrate potential for success in the major (successful completion of major and major-related courses without excessive Ws, grades lower than C, or multiple repeats)
- Provide clear and purposeful reasons for which the change of major is appropriate, and
- Be able to graduate in a timely fashion

Students in term 6 or later must also submit a program plan identifying the courses they intend to complete for the new major as well as a statement explaining their educational goals. The department offering the desired major must support the student's admission to the major. *Students may pursue only the major to which they have been admitted* and they must follow the approved program plan.

Progression to Graduation

Every student is expected to make satisfactory progress toward graduation each semester. Students who fail to make satisfactory progress may be required to seek advisement, be denied further registration, or mandated to meet specific conditions in order to continue in the major and/or CLAS.

Critical Tracking for CLAS Majors

Students are required to meet the critical-tracking criteria for their majors in each term. The critical-tracking criteria are listed for each CLAS major. *CLAS counts all attempts of critical-tracking courses when calculating the preprofessional GPA for a major.* For more information about tracking, refer to Tracking Progress toward a Degree (p. 1896).

Additional Progression Standards

All CLAS students must meet these standards or they may be denied further registration:

- Maintain a minimum overall UF cumulative grade point average of 2.0
- College Probation: Students who have an overall UF cumulative grade point average under 2.0 are placed on college probation and are required to meet with an advisor to discuss their academic progress.
- Achieve a minimum 2.0 GPA on all coursework each semester.
- Successfully complete (with a minimum grade of C) at least one course in the major each term during the junior and senior years until major course requirements are completed. Students can pursue only the major to which they have been admitted.
- Earn a minimum grade of C within two attempts (including drops/withdrawals) in each course in the major. Certain majors may require grades higher than C in specific courses. Students must meet major requirements.
- Maintain a minimum cumulative GPA of 2.0 for courses required in the major.
- Withdraw from the university no more than twice while enrolled in this college.
- Graduate in a timely fashion (see Timely Graduation, below).
- Students who have completed all of the academic requirements for the degree but have not obtained the degree may be denied further registration in the college. Students who were admitted as a freshman and have completed fewer than eight full-time semesters may be approved to continue provided the student demonstrates an educational plan that will enhance the achievement of their academic goals, consistent with CLAS policies. Students in this situation should consult with an advisor in the AAC.

Each semester, the university emails students reminding them to check Registration Prep in ONE.UF. Upon receipt of this email, students should consult their record to determine if they have any registration holds and to review their degree audit on ONE.UF (https://one.uf.edu/). The degree audit outlines the requirements for the degree and indicates whether or not a student has met each requirement. Students should use their degree audit to plan a program of satisfactory progress each term.

It is recommended that students begin work on the foreign language requirement during the first two years, unless the major department indicates otherwise.

Timely Graduation

CLAS majors are expected to graduate in a "timely fashion," defined as eight full-time Fall/Spring semesters for students admitted as Summer B/Fall freshmen, eight full-time Spring/Summer semesters for students admitted as Innovation Academy freshmen, and six full-time Fall/Spring semesters for students admitted as junior transfers. Full-term withdrawals, full-term semesters of overseas study, or full-term semesters of internship away from UF are not included in this count, though students should be mindful of potential excess hours implications of extending their time at UF.

Students who cannot meet their degree requirements in a timely fashion are expected to enroll in summer terms to complete their degree requirements. Additional study is permitted with the approval of an advisor in the CLAS Academic Advising Center or the College Petitions Committee, and may be limited to fulfillment of unmet degree requirements.

CLAS understands many beginning UF freshmen students come in with significant credit from accelerated mechanisms and could meet the minimum requirements for the degree in 2-3 years. But simply meeting the minimum academic requirements for the degree does not necessarily signify that the student is well-prepared to achieve their educational goals. Because of this, CLAS will allow a student to enroll in up to eight full-time semesters provided the student demonstrates an educational plan that will enhance the achievement of those academic goals, consistent with CLAS policies. Students in this situation should consult with an advisor in the AAC.

Students should discuss their excess hours standing with their advisor as they are making their plan. In addition, students should discuss their financial aid/scholarship situation with Student Financial Affairs or Veterans Services in 107 Criser Hall.

Registration Policies

Normal Course Loads

CLAS students normally enroll in 12-18 credits per term (a minimum of 12 credits is considered full-time). A CLAS academic advisor in the AAC (Farrior Hall) must approve loads above 18 credits. Students who wish to enroll for fewer than 12 credits should discuss their plan and academic standing with a CLAS academic advisor in the AAC.

Adding Courses

Students may add courses any time during drop/add. Additional coursework may be added via ONE.UF after the drop/add period but prior to the published drop deadline with appropriate department and college approval.

Dropping Courses

Students may drop courses during drop/add without penalty. After the drop/add period, a course may be dropped via ONE.UF until the published Drop Deadline. The drop policy is explained in the Academic Regulations section.
More Info (p. 1904)

All such drops are subject to the following restrictions:

- Two unrestricted drops are permitted before attempting 60 credits at UF.
- Two unrestricted drops are permitted for CLAS students after attempting 60 credits at UF or after transferring to UF with 60 credits or an AA from a public institution in Florida.
- Students wishing to drop courses beyond the two unrestricted drops may petition the CLAS petitions committee. The petition must include a personal statement *explaining an extenuating circumstance that prevents completion of the course(s).* Documentation supporting the personal statement must also be included. Please examine the college petition form (https://www.advising.ufl.edu/resources/college-petition/) for guidelines and for documentation.
- Students who wish to drop a course *after* the drop deadline may complete a college petition to do so until the last day of classes. Students must include substantial documentation of an extenuating circumstance (usually severe medical condition) that occurred after the drop deadline and that prevents completion of the course(s). Students should first discuss their options with the instructor of the class before submitting a petition.

Students should discuss with an academic advisor how a dropped course will affect their academic standing and should also discuss with a financial aid advisor how it will affect their financial aid and/or scholarships. Students may be required to pay back scholarship monies when they drop a course. Students receiving VA benefits should talk to the Veterans Services office.

Withdrawing

Students who want to drop *all* courses for any current term are able to do so via ONE.UF (https://one.uf.edu/) prior to the withdrawal deadline. Dropping the entire load constitutes withdrawal from the university.

Courses dropped via full term withdrawal do not count toward a student's number of unrestricted drops. Students must discuss with an academic advisor how the withdrawal will affect their academic standing and discuss with a financial aid advisor how it will affect their financial aid. Students receiving VA benefits should talk to the Veterans Services office. Students wanting to withdraw from all courses after the withdrawal deadline may submit a college petition before the last day of classes and consistent with the guidelines listed in the Dropping Courses section above.

Petitions

Students who have an extenuating circumstance that prevents them from adhering to a college regulation may petition for a waiver. The CLAS petitions committee considers petitions weekly on a case-by-case basis. *All petitions must include a statement explaining the hardship and documentation supporting the claim.* Instructions for the petition, along with the college petition form, can be found on the link below.
More Info (https://www.advising.ufl.edu/resources/college-petition/)

Registration in Graduate Courses

Advanced undergraduate students with excellent academic records can register for graduate courses (5000 level and above) with permission of the department advisor. Students will be charged graduate-level fees for enrolling in graduate courses. Refer to the information on combination bachelor's/master's programs.

Flexible Learning

Distance & Continuing Education (DCE) offers fully online undergraduate courses for college credit through UF Flexible Learning. CLAS students interested in taking a Flexible Learning course must first consult with their academic advisor. The student must have a cumulative 2.0 UF GPA. CLAS students may apply up to two (2) Flexible Learning courses toward a degree and must seek college dean's office approval to exceed this limit. CLAS Advisors and the DCE office will approve access to a Flexible Learning course if the student is below the two (2) course limit and meets at least one (1) of the following criteria:

- The student has a health concern
- There are circumstances preventing the student from physically being on campus and the course is not offered online
- The student requires off-calendar, flexible format solution for an “unusual circumstance.” Such a circumstance would include but are not limited to health, work, or other events, which make resident attendance not possible.
- The student wishes to increase the number of enrolled credits within a given semester for the purposes of expediting time to degree completion
- To maximize financial aid awards where additional enrollment is only made possible by a flexible format
- Other extenuating circumstances

More Info (https://flexible.dce.ufl.edu/)

Transient Study

UF Students Attending Other Schools

Students may submit a transient form (https://www.floridashines.org/succeed-in-college/take-a-course-at-another-school/) via Floridashines.org to request permission to enroll at another institution and have the credits apply to their UF degrees.
More Info (https://www.advising.ufl.edu/academics/clas-policies-procedures/transient-study/)

To be eligible for transient work, students must:

- Have a minimum 2.0 UF GPA
- Be on-track for the current major
- Not break the residency requirement (Students MUST complete their last 30 credits continuously at UF)

Under most circumstances, students who have already transferred 60 credits from a public/state college may not apply additional public/state college credits toward their degree.

If approved for transient enrollment elsewhere, students may still need to have courses approved for the fulfillment of any specific requirement. Courses intended to meet major or minor requirements are subject to the approval of the appropriate department. Courses whose numbers are not consistent with the common course numbering system need to be reviewed and approved by an AAC advisor to meet general education or basic distribution requirements.

Transfer courses that are given a UF equivalent will be awarded Words towards the Writing Requirement if the designated UF equivalent awards Words. Students should not assume they will receive the writing credit from another institution. All Writing Requirement questions should be directed to the Office of the University Registrar.

Students must ensure that a final transcript is sent to UF after completion of the course(s). Grades for courses taken elsewhere will not be calculated into the UF GPA but may be considered as part of the preprofessional GPA used by critical-tracking. Grades in courses taken elsewhere do appear on the UF transcript.

Supplemental Academic Programs

In addition to the major, CLAS offers other ways for students to pursue their academic interests. Students may opt to pursue a minor, certificate, double major, dual degree, or combination bachelor's/master's program.

The college must approve supplemental programs of study. In considering applications for supplemental programs, CLAS will consider the following:

- Whether the student meets the minimum requirements for consideration for the program
- The student’s goals and whether the student has demonstrated the potential for success in the program
- Whether completing the supplemental program will allow the student to graduate in a timely fashion
- Space availability in the desired program

Supplemental programs are optional and meeting the minimum requirements for consideration does not guarantee approval to pursue the program.

Funding for supplemental programs depends on the kinds of financial support the student receives. Students should discuss their excess hours standing with their academic advisor. Students should also discuss their plans for supplemental programs with Student Financial Affairs (for financial aid/scholarships) or the Veterans Services office (for VA benefits) in 107 Criser Hall . Students also should be aware of their excess hours status and whether they may be liable for a surcharge. Students can discuss their excess hours status with an academic advisor.

Minors and Their Requirements

The minor provides a traditional, well-accepted way to recognize that a student has completed a significant body of work outside the major. A minor shall consist of no fewer than 15 semester credits of coursework, earned with minimum grades of C. At least three courses (none can be individual

work) of no fewer than three credits each must be at the 3000 level or above. Of the total credits, no more than three may be individual work. Students should consult an advisor in the appropriate department for the requirements for each minor.

A minor may not inherently overlap with the student's major (e.g., a history major may not declare a history minor, even if the student takes additional history credits beyond what is required for the major). In addition, students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the student's major(s) or other minor(s).

View the AAC website regarding minors to review a list of majors/minors that will not be approved due to overlap. This list is not all-inclusive, for each minor application an AAC advisor will review whether your intended major/minor combination is acceptable.
More Info (https://www.advising.ufl.edu/academics/minors/)

To be eligible for a minor, students must:

- Have an established UF minimum GPA of 2.0 (some minors require a higher GPA, see catalog description of the minor)
- Be on-track for their major
- Have at least 45 credits earned
- Be able to complete the minor in a timely fashion and thus able to graduate on time
- Complete a minimum of six credits exclusive to the minor; i.e., credits that cannot count toward major(s) or other minor(s)

CLAS students can apply for a minor via ONE.UF (https://one.uf.edu/) after earning 45 credits and are encouraged to do so before the end of their junior year. Applicants must meet the minimum admission requirements for the minor.

Students are limited to three minors.

Students may use 3000-level courses in the minor to fulfill the college elective requirement. Students should plan the minor so that the courses will count for the minor and as 3000-level electives outside their major.

Approval to pursue a minor does not guarantee that students will be granted the minor upon graduation. Students must complete all minor requirements and at least 6 credits exclusive to the minor without overlap with their major(s) or other minors. Some major/minor combinations will not be approved due to significant overlap.

A minor will be awarded when the academic unit offering the minor certifies that the applicant has completed the requirements. Such award(s) will be noted on the UF transcript. Students must be certified for the minor at the same time that they complete the bachelor's degree.

Certificates

UF offers over 70 different certificates. Each certificate program must have at least nine credits that are exclusive to the certificate and may not count toward any other certificate or minor. All courses required must be completed with minimum grades of C or S in each course.

Double Major And Combination Degree

Students who are interested in studying two disciplines may pursue a double major or a combination degree. The two disciplines may not extensively overlap. Each double major/combination degree application will be reviewed to ensure that the student will complete a minimum of 15 credits of coursework exclusive to each major that will not count toward the other major or any minors. The AAC website lists double major/combination degree combinations (https://www.advising.ufl.edu/academics/multiple-majors-dual-degrees/) that will not be approved because of extensive overlap. This list is not all-inclusive, so students should consult an AAC advisor to verify that the intended major/degree combination is acceptable.
More Info (https://www.advising.ufl.edu/academics/multiple-majors-dual-degrees/)

Approval to pursue a double major/combination degree does not guarantee the student will be granted both upon graduation. To be certified to receive the majors/degrees, all requirements must be met for each and at least 15 credits exclusive to each major (not applying to the other major or any minors) must have been completed.

To earn a double major or combination degree, a student must be certified for and graduate from all undergraduate programs of study at the same time.

Double Major

Completing two majors in the College of Liberal Arts and Sciences for which the degree is the same (both Bachelor of Arts or both Bachelor of Science). Upper-level courses used for one major can fulfill College of Liberal Arts and Sciences' elective requirement for the other major, and vice versa.

A student completing two majors that have the same degree, BA or BS, will receive a single degree. The diploma and transcript will identify the degree and the two majors.

Combination Degree

Completing two majors for which the degree is different (a Bachelor of Arts and a Bachelor of Science; or one major in the College of Liberal Arts and Sciences and another in another college). Upper-level courses used for one major can fulfill College of Liberal Arts and Sciences' elective requirement for the other major.

A student completing two CLAS majors that have different degrees, or major and college requirements in two different colleges, will receive two degrees. The student will receive two diplomas, each with the appropriate major listed, and the transcript will identify each degree and major.

Students applying for a double major or combination degree must:

- Already be admitted to one of the majors and have between 45 and 96 credits (not including AICE, AP, CLEP, IB, dual enrollment, or overseas study credit).
- Have not previously been denied admission as a transfer student to the CLAS major for which the student is applying.
- Meet the minimum UF GPA (specified below) required to pursue a CLAS double major or combination degree (determined in part by whether the major is over-enrolled (https://www.advising.ufl.edu/academics/multiple-majors-dual-degrees/)).
  - Some combinations of major(s) may not be permitted depending on the enrollment status (https://www.advising.ufl.edu/academics/multiple-majors-dual-degrees/) of each major.
  - Please see the AAC website (https://www.advising.ufl.edu/academics/multiple-majors-dual-degrees/) for information about the eligibility requirements based on the selected majors.
- Meet all critical-tracking term 5 requirements for all CLAS majors before submitting the application. If one of the majors is outside CLAS, applicants must get approval from the appropriate college for that major.
- Meet all other CLAS progression standards for both majors and demonstrate potential for success in both majors (successful completion of major and major-related courses without excessive Ws, grades less than C or multiple repeats);
- Be able to complete the degree in a timely fashion (typically eight Fall/Spring semesters for students who entered UF as Summer B/Fall freshmen, eight Spring/Summer semesters for students who entered UF as Innovation Academy freshmen, and six Fall/Spring semesters for students who entered UF as transfer students). Additional study is permitted only with approval of a CLAS AAC advisor or the college petitions committee.
- Have clearly articulated and purposeful reasons for which the double major or combination degree is appropriate.

Students should obtain an application (http://www.registrar.ufl.edu/forms.html) for a double major or combination degree. Students must submit a program plan identifying the courses they intend to complete for both majors, as well as a statement explaining their educational goals. For some majors with potential significant overlap, students may need to complete a certain number of credits exclusive to both majors before the application may be approved. Some major combinations will not be approved due to significant overlap. After being approved, students must follow the program plan outlined in their application or the approval for the supplemental program of study will be voided.

Students can pursue a double major or dual degree only if approved in advance by the college.

Triple Majors/Degrees

Students who are interested in studying three disciplines may choose to pursue triple majors/degrees. The three disciplines may not extensively overlap. Each triple major/degree application will be reviewed to ensure that the student will complete a minimum of 15 credits of coursework exclusive to each major that will not count toward the other majors or any minors. View the triple majors/degrees page for a list of major combinations that will not be approved due to extensive overlap.
More Info (https://www.advising.ufl.edu/academics/multiple-majors-dual-degrees/)

Approval to pursue triple majors/degrees does not guarantee the student will be granted all majors/degrees upon graduation. To be certified to receive the majors/degrees, all requirements must be met for each and at least 15 credits exclusive to each major (not applying to the other majors or any minors) must have been completed. Some major combinations will not be approved due to significant overlap.

To earn triple majors/degrees, a student must be certified for and graduate from all undergraduate programs of study at the same time.

Students applying for triple majors/degrees must:

- Already be admitted to one of the majors and have between 45 and 96 credits (not including AICE, AP, CLEP, IB, dual enrollment, or overseas study credit).
- Have not previously been denied admission as a transfer student to any of the CLAS majors.
- Meet the minimum UF GPA (specified below) required to pursue a CLAS double/triple major or combination degree (determined in part by whether the major is over-enrolled (https://www.advising.ufl.edu/academics/multiple-majors-dual-degrees/)).
  - Some combinations of major(s) may not be permitted depending on the enrollment status (https://www.advising.ufl.edu/academics/multiple-majors-dual-degrees/) of each major.
  - Please see the AAC website (https://www.advising.ufl.edu/academics/multiple-majors-dual-degrees/) for information about the eligibility requirements based on the selected majors.

- Meet all critical-tracking term 5 requirements for all CLAS majors, before submitting the application. If one of the majors is outside CLAS, applicants must get approval from the appropriate college for that major.
- Meet all other CLAS progression standards for all majors and demonstrate potential for success in all majors (successful completion of major and major-related courses without excessive W's, grades less than C, or multiple repeats).
- Be able to complete the degree in a timely fashion (typically eight Fall/Spring semesters for students who entered UF as freshmen, eight Spring/Summer semesters for students who entered UF as Innovation Academy freshmen, and six Fall/Spring semesters for students who entered UF as transfer students). Additional study is permitted only with approval of a CLAS AAC advisor.
- Have clearly articulated and purposeful reasons for which the triple majors/degrees are appropriate.

Students must submit a program plan identifying the courses they intend to complete for all majors, as well as a statement explaining their educational goals. For some majors with potential significant overlap, students may need to complete a certain number of credits exclusive to both majors before the application may be approved. After approval, students must follow the program plan outlined in their application or the approval for the supplemental program of study will be voided.

CLAS students are limited to three majors/degrees.

Students can pursue triple majors/degrees only if approved in advance by the college.

Combination Bachelor's/Master's Programs

Combination bachelor's/master's programs allow students to complete two degrees more quickly. Outstanding advanced undergraduate students can apply for admission to this program. CLAS offers combination-degree programs in anthropology, biology, botany, computer science, economics, French and Francophone studies, geography, geology, history, international relations, Latin American studies, linguistics, mathematics, philosophy, physics, political science, Portuguese, Russian, sociology, statistics, women's studies, and zoology.
More Info (p. 1857)

Students on financial aid should check with that office. In general, students on financial aid should retain their undergraduate status as long as possible. The program requires admission to the Graduate School.

Degree Requirements

Student Responsibility

Students are responsible for ensuring that they understand and meet all major and college degree requirements. Any questions about these requirements should be raised with a department advisor (for major requirements) or college advisor (for college requirements).

Students must meet college progression standards each term. They are expected to keep the Office of the University Registrar informed of their accurate address and to read their GatorLink email. Students also are expected to review their holds and degree audit on ONE.UF (https://one.uf.edu/) each term and to discuss any questions or discrepancies with an advisor.

Graduation under a Particular Catalog

Students are placed into the catalog year for the academic year in which they entered UF unless they request to follow the academic requirements in effect when they initially enrolled in a Florida public college or other Florida state institution. Such a request is possible only if they have maintained continuous enrollment, defined as enrolling for at least one course in one term in each academic year. Students wanting to change catalog years should review a degree audit with an advisor in the AAC.

Applying for a Degree

Early in the term in which they expect to graduate, students must submit a degree application on ONE.UF (https://one.uf.edu/). The academic calendar (p. 1921) will provide the deadline for a current-term degree application.

Students should meet with an advisor in the AAC before registering for their final term to review the college graduation requirements that still need to be fulfilled. Students should also meet with an advisor in the major department to verify completion of requirements for the major.

Additionally, seniors who plan to graduate should convert all I, N, and H grades to letter grades no later than the fifth week of their final semester. Seniors are responsible for ensuring that all grade changes are submitted properly and are recorded in a timely fashion.

CLAS Degree Requirements

The college has seven requirements for award of a degree. Students must also meet all requirements for the major.

Credits

All CLAS students *must* satisfactorily complete a minimum of 120 acceptable credits for the degree. Up to 30 credits earned in a UF overseas study or exchange program may be applied to this requirement. Students may petition to have more credits accepted; however, approval is rarely given.

Grade Point Average

Students must achieve a minimum overall average of C (2.0) in all work attempted at the university.

Residence

The last 30 credits applied to the degree must be completed in residence at the University of Florida. In extenuating circumstances, the last three credits may be waived by petition. Participation in a UF-approved study abroad or exchange program is not considered a break in residence. However, students must see an advisor to be sure the degree audit accurately reflects this.

University and State of Florida Requirements

To earn a degree, all students must complete:

- A General Education program
  More Info (p. 77)
- The Writing Requirement
- The Summer term enrollment requirement
- The Civic Literacy requirement

Basic Distribution

To ensure that students gain a rich and varied general education, the college requires students to complete basic distribution requirements.

Basic Distribution is comprised of the General Education Program Requirements (p. 77) plus additional distribution credits beyond those requirements (see table below for overall credits required in each Subject Area). CLAS allows students additional flexibility in its Distribution Requirements.

- Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists (https://www.advising.ufl.edu/academics/clas-distribution-requirement-courses/) towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.
- The same course may NOT be used to satisfy requirements in two different Subject Areas (C, H, S, P, or B).
- Three of the credits must also be designated as International Studies (N).
- A minimum grade of C is required for all courses fulfilling the General Education requirement, the Writing Requirement, and the basic distribution requirements. The S/U grade option (p. 1915) is not acceptable for these credits.

Summary of CLAS Basic Distribution | Includes Gen Ed Program Requirements

Subject	Credits
Composition (C)	6 credits
Mathematical Sciences (M) (including 3 credits with a math prefix)	6 credits
Humanities (H)	9 credits[1], 3 of these credits may be a Quest 1 course, unless student is exempt[2]
Social and Behavioral Sciences (S)	9 credits[1], 3 credits of either Gen Ed S, P, or B may be a Quest 2 course [3], unless student is exempt[2]
Physical Science (P)	6 credits[1], 3 credits of either Gen Ed S, P, or B may be a Quest 2 course [3], unless student is exempt[2]
Biological Science (B)	6 credits[1], 3 credits of either Gen Ed S, P, or B may be a Quest 2 course [3], unless student is exempt[2]
Natural Science Laboratory[4]	1 credit

1 Must include at least three credits of International Studies (N) across the General Education categories.

2 Students in the Innovation Academy program and students who transfer with an AA from a public college or university in Florida are exempt from the requirement to take Quest 1 and 2 courses.

3 3 credits of one of the following General Education categories may be a Quest 2 course, unless student is exempt: General Education Social and Behavioral Science (S), General Education Physical Science (P), or General Education Biological Science (B).

4 Natural science laboratory: A one-credit science lab with a minimum grade of C is required. Students can elect a laboratory course that is approved for the general education physical or biological sciences requirement or any psychology laboratory. (Most laboratory courses cannot be taken without prerequisite or corequisite courses.)

Electives | 3000 level or Above | Not in Major

Electives are defined as courses taken outside the major or major department. The degree program must include 18 credits of electives at the 3000 level or above. Several 2000-level natural science or mathematical science courses (those beyond the entry course in a sequence) can contribute to the 18-credit requirement.

Eligible Courses

Code	Title	Credits
CHM 2211	Organic Chemistry 2	3
CHM 2211L	Organic Chemistry Laboratory	2
PHY 2049	Physics with Calculus 2	3
PHY 2049L	Laboratory for PHY 2049	1
PHY 2054	Physics 2	4
PHY 2054L	Laboratory for PHY 2054	1
MAC 2234	Survey of Calculus 2	3
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAP 2302	Elementary Differential Equations	3

Elective course selection will depend on goals and interests. Some students may choose to use electives to pursue a minor or a double major/dual degree.

Foreign Language

CLAS students must demonstrate proficiency in a foreign language. Foreign language is an important component of a liberal education. Study of foreign languages provides access to the cultural and intellectual heritage of cultures other than one's own. Such study also provides a new perspective on the structure and complexity of the English language.

Proficiency in a foreign language is considered to be the level of skill a student has upon completion of a beginning language sequence at UF. Students do not need to earn a certain number of credits to complete this requirement. It can be met in ONE of the following ways:

- Satisfactory completion (minimum grade of C or S) of the terminal course in a beginning foreign language sequence (normally at the end of 10 credits at UF). Students may take foreign language requirement courses on an S/U basis (S = C or better).
- A score of three or above in an Advanced Placement foreign language exam.
- A score of four to seven on an International Baccalaureate foreign language exam.
- A score of A-E on an AICE foreign language exam (except for the Latin Literature A level exam).
- Certain scores on CLEP foreign language exams give credit for the terminal course in the beginning sequence of a foreign language. Those scores meet the CLAS foreign language requirement. Consult the CLEP course equivalency chart (p. 1872) for more course credit granted.
- A passing score on the Foreign Language Proficiency Exam (FLPE) (https://academicresources.clas.ufl.edu/testing/flpe/). Russian language proficiency testing will be handled by that UF language program. Students should contact the Russian program for information on assessing proficiency.

Students who are proficient in languages not available through FLPE should speak with a general advisor in the Academic Advising Center.
More Info (https://www.advising.ufl.edu/)

Students in this college can study the following languages: Akan, American Sign Language, Amharic, Ancient Greek, Arabic, Catalan, Chinese, Czech, Dutch, French, German, Haitian Creole, Hebrew, Hungarian, Italian, Japanese, Korean, Latin, Lingala, Modern Greek, Polish, Portuguese, Russian, Sanskrit, Spanish, Swahili, Turkish, Vietnamese, Wolof, Yoruba, and Xhosa.

Placement in Foreign Language

Students who have studied a language in high school and wish to continue that language should refer to the placement page or consult the department for placement information.
More Info (p. 1882)

Programs

MAJORS

A major consists of a concentration of coursework in a specific department or program. The number of credits required for a major will vary from department to department, but in no case may the number of credits be fewer than 24 nor more than 40.

Students must earn minimum grades of C in all courses required for the major. Requirements for a major cannot be taken S/U (unless that is the only grading option). All transfer credit in the major must be approved by the department.

MINORS

The minor provides a traditional, well-accepted way to recognize that a student has completed a significant body of work outside the major. A minor shall consist of no fewer than 15 semester credits of coursework, earned with minimum grades of C. At least three courses (none can be individual work) of no fewer than three credits each must be at the 3000 level or above. Of the total credits, no more than three may be individual work. Students should consult an advisor in the appropriate department for the requirements for each minor.

A minor may not inherently overlap with the student's major (e.g., a history major may not declare a history minor, even if the student takes additional history credits beyond what is required for the major). In addition, students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the student's major(s) or other minor(s).

View the AAC website (https://www.advising.ufl.edu/academics/minors/) for information on eligibility, considering a minor and how to apply for a minor. The site also provides a list of majors/minor combinations that will not be approved due to overlap. This list is not all-inclusive; for each minor application an AAC advisor will review whether your intended major/minor combination is acceptable.

Actuarial Science Minor

The Actuarial Science minor prepares students for careers as actuaries.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 25 | Completed with minimum grades of C and no optional S/U
- **More Info**

Department Information

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

Curriculum

- Actuarial Science Minor
- Combination Degrees
- Data Analytics Certificate
- Data Science
- Statistics
- Statistics Minor

The prescribed curriculum encompasses the requisite content for both the Actuarial Examinations P/1 and FM/2, as well as fulfills the Validation by Educational Experience (VEE) credits, thereby culminating in eligibility for an associateship within the prominent national actuarial organizations.

A minimum of 12 credits in the topics of Economics, Accounting and Finance, and Mathematical Statistics must be completed at UF. VEE credits require minimum grades of B- in designated courses.

Prerequisite Courses

Code	Title	Credits
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4

Required Courses

Code	Title	Credits
Statistics		
STA 4183	Theory of Interest [1]	3
STA 4321	Introduction to Probability	3
STA 4322	Introduction to Statistics Theory	3

Business Administration		
ACG 2021	Introduction to Financial Accounting	4
ECO 2013	Principles of Macroeconomics	4
ECO 2023	Principles of Microeconomics	4
FIN 3403	Business Finance	4
Total Credits		**25**

[1] Traditionally only offered in Fall terms.

African American Studies

The African American Studies program provides students with an intellectual home for the exploration, critical examination, analysis, and interpretation of the experiences, traditions, cultures, and dynamics of people of African descent in the United States, Africa, the wider African Diaspora and their global contexts. Students also have the opportunity to learn through internships, study abroad, and engagement with innovative scholarship within the discipline.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The African American Studies program is one of the fastest growing majors at UF. The degree program provides students with a variety of innovative courses by applying creative cultural methods of teaching while examining the African American experience.

Curriculum

- African American Studies
- African American Studies Minor

This interdisciplinary major provides students with vital analytical, writing, research, and communication skills. The curriculum emphasizes engagement with anthropology, mass communications, education, English, history, linguistics, political science, psychology, religion, sociology, and women's studies. The program also includes courses that emphasize US-Canadian, US-Caribbean, and US-African relations and assists students in finding internships for college credit, research opportunities for graduate school, applying for study abroad programs, and positioning in a wide-variety of careers.

After obtaining a degree in African American Studies, students can seek careers in management and industry, communications and media, education, non-profit management and advocacy, government, politics and law, and health careers. Graduates will also be prepared to enter graduate programs in liberal arts and social science disciplines, and professional degree programs (with the addition of some prerequisites).

Requirements for the Major

The major requires 30 credits of coursework in African American studies core and elective courses. All coursework must be completed with minimum grades of C. A minimum of 15 credits of coursework in the major must be completed at UF. Core and elective courses are often cross-listed with other departments, enabling students to examine the African American experience from a variety of disciplines.

Required Major Coursework

Code	Title	Credits
AFA 2000	Introduction to African American Studies	3
AFA 3110	Key Issues in African American and Black-Atlantic Thought	3
AFA 4936	African American Studies Senior Integrative Seminar	3
Select one African American Studies required course:		3

AFA 3240	The African Diaspora	
AFA 3303	The Wire	
AFA 3332	Black Feminist and Womanist Theory	
AFA 3350	Black Masculinity	
AFA 3354	Race, Religion, and Rebellion	
AFA 3356	African American Religion	
AFA 3357	Civil Rights and Religion	
AFA 3371	History of Hip-Hop	
POS 4077	African American Politics and Policy	
POS 4624	Race, Law and the Constitution

STA 2023	Introduction to Statistics 1	
Core Courses		
STA 3024	Introduction to Statistics 2	
STA 4322	Introduction to Statistics Theory	
WST 4935	Capstone Seminar	
African American Studies Major Electives		
AFA-prefixed courses at the 3000 level or higher		6
AFA-prefixed (any level) or AFA-approved courses		9
Total Credits		**30**

The same course may not be used to meet two different requirements.

Overseas Study

The African American Studies Program currently sponsors one study abroad course. This is a two-credit African Americans in Paris course that is offered during the Spring semester, and includes the study of the African American cultural, historical, and political experience in Paris, France. Students travel to Paris during Spring Break.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

To graduate with this major, students must complete all university, college and major requirements. For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1089).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete AFA 2000
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete AFA 3110
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete AFA-prefix course at 3000 level or above
- Complete AFA-prefix course or AFA-approved course.
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete AFA-prefix or AFA-approved course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete AFA-prefix course at 3000 level or above
- Complete AFA-prefix course or AFA-approved course
- Complete applied, experiential, or research methods course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 7

- Complete AFA-prefix course or AFA-approved course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 8

- Complete AFA 4936
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed on the Critical Tracking tab.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

SYD 3700	Sociology of Race and Racism in the US	3
SYG 2010	Social Problems	3
SYO 4102	American Families	3

Academic Learning Compact

The African American Studies program's mission closely resembles that of the university, emphasizing exceptional teaching, outstanding scholarly research and service to the campus and the larger Gainesville community. The primary emphasis is to educate students about the theories and methodologies pertaining to the study of African Americans. Students will be able to compare and contrast the experiences of people of African descent in the US to those in the wider African Diaspora. They also will learn through participation in community-service activities. Program graduates will develop the academic, scholarly and experiential skills needed to succeed at the next level of study in the field, for they will be well-trained in critical thinking, analysis and effective communication.

Before Graduating Students Must

- Satisfactory evaluation of paper written for the African American Studies approved topic, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, and explain the theories in African American Studies and the African Diaspora.

Critical Thinking

2. Examine social issues of concern to African Americans.

Communication

3. Effectively articulate ideas in speech and in writing.

African Languages

Foreign Languages and Literatures

The specialization in African Languages enables students to develop the critical, analytical, and interpretive tools essential for successfully working and living in today's increasingly globalizing world. It focuses on a selected group of languages that function as languages of wider communication (lingua franca) in their sub-Saharan African regions. Through study of these languages students not only gain communicative proficiency in the language(s) of their choice, but also an understanding of the diverse literary and cultural traditions that make Africa such a unique and complex continent today.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

The BA in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Foreign Languages and Literatures Options (p. 1323)

The African Languages specialization of the Foreign Languages and Literatures major offers students the opportunity to gain proficiency in any of the following languages:

- Akan/Twi (Ghana – West Africa)
- Amharic (Ethiopia - the Horn of Africa)
- Swahili (eastern and central Africa)
- Wolof (Senegal and the Gambia – West Africa)

- Yoruba (Nigeria and Benin – West Africa and the Diaspora)
- Zulu (South Africa)

The specialization in African Languages offers a unique opportunity when it comes to seeking employment in multi-national corporations or research undertakings based on the African continent. It also prepares students for the rigors of graduate studies in the humanities and for fields such as comparative literature, religious/diaspora studies, African cinema, developmental practices, humanitarian services, language learning businesses, translations & interpretation for United Nations organizations and other international agencies, to mention just a few.

The faculty brings together scholars with diverse research interests, ranging from African oral literature through post-colonial African women writers, from language documentation to languages of urban Africa as well as contemporary African film, pop-culture, and media. These nationally and internationally recognized researchers are also dedicated and innovative teachers who draw on their own scholarship to offer a variety of courses in literature, cinema, linguistics, and language.

Requirements for the Major

The African languages specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 credits of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Comparative Cultural Studies		
Film and Visual Culture		
Literary Studies		
Medieval and Early Modern Studies		
Total Credits		**55**

[1] Although courses may appear in more than one group they may be counted toward only one group.

[2] Recommended for those planning to pursue careers requiring advanced level skills in African languages or graduate work in African studies.

Overseas Study

Students should speak with the undergraduate coordinator to discuss overseas study options in Africa.

Placement

In all languages, students with either a native background in the language or prior study in that language, might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete Beginning African Language 1 or higher-level African Language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete Beginning African Language 2 or higher-level African Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete Intermediate African Language 1 or a higher-level African Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 6

- Complete 2221 Intermediate African Language 2 with a minimum grade of C
- Complete 2 Advanced Elective courses
- 2.0 UF GPA required

SEMESTER 7

- Complete 3410 Advanced African Language 1 with a minimum grade of C
- Complete 2 Advanced Elective courses
- Complete 1 Critical Concentration course
- 2.0 UF GPA required

SEMESTER 8

- Complete 3411 Advanced African Language 2 with a minimum grade of C
- Complete 2 Critical Concentration courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

3000 level or above critical concentration courses outside of African Languages may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one (**Critical Tracking**; CLAS Foreign Language Proficiency Requirement)): [1]		5
AKA 1130	Beginning Akan 1	
SWA 1130	Beginning Swahili 1	
WOL 1130	Beginning Wolof 1	
YOR 1130	Beginning Yoruba 1	
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Elective		1
	Credits	**15**

Semester Two		
Quest 1		3
Select one (**Critical Tracking**; CLAS Foreign Language Proficiency Requirement)): [1]		5
AKA 1131	Beginning Akan 2

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

African Studies Minor

The African Studies minor provides a solid foundation for careers in teaching, research, and other professional work for which knowledge of Africa is essential. The faculty is composed of more than 100 members campus-wide who teach courses with African content.

About this Program

American Indian and Indigenous Studies Minor

The American Indian and Indigenous Studies minor focuses on North, Central, and South America with additional interdisciplinary focus in anthropology, art history, history, literature, and religion.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 18 | Completed with minimum grades of C and no optional S/U

Related Programs

- /UGRD/colleges-schools/UGLAS/IDS_BA_BS/IDS_BA20/

Students must take 18 credits for the minor. Two required courses, for a total of six credits and four elective courses, or twelve credits. The two required courses are exclusive to the minor and cannot count toward the major(s) or other minors. Three of the elective courses must be taken at the University of Florida.

The election of a minor is noted on a student's transcript, but it is not reflected on the diploma. Students should consult the catalog for important undergraduate information and description of AIIS courses.

Anthropology

Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is worldwide in scope and encompasses all aspects of human, biological, and social life from earliest times to the present. It is a broad, holistic field that seeks to understand human adaptation to natural and social environments.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1125) | Bachelor of Science (p. 1130)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural, archaeological, biological and linguistic anthropology.

Curriculum

- /UGRD/colleges-schools/UGLAS/IDS_BA_BS/IDS_BA20/
- Anthropology
- Anthropology Minor
- Anthropology Minor UF Online
- Anthropology UF Online
- Medical Anthropology Certificate

Anthropology includes four subfields: cultural anthropology, archaeology, biological anthropology, and linguistics. Undergraduates may concentrate their studies in one of these four subfields or pursue a focus in an interdisciplinary track with another major or minor. The anthropology major has two different programs: the Bachelor of Arts and the Bachelor of Science. Coursework for the major will depend upon the program, both of which

are flexible. Both degrees are earned in anthropology rather than in any one subfield. Students who are uncertain of a program should contact the Department of Anthropology's undergraduate coordinator for information and curriculum planning.

requirements for the Major

The BA in Anthropology requires a minimum of 34 semester credits in anthropology and all coursework must be completed with minimum grades of C. A minimum of 18 credits of anthropology coursework must be completed at UF.

Overseas Studies

Students concentrating in any subfield, particularly cultural anthropology and archaeology, are also encouraged to complete either an ethnographic study abroad program or an archaeological field school before their senior year.

Relevant Minors and Certificates

The department encourages students pursuing the BA to choose a minor or an interdisciplinary certificate option in African studies, Asian studies, environmental studies, Jewish studies, Latin American studies, Linguistics, or Women's Studies. Relevant courses in anthropology may be used to fulfill some requirements.

Academic Learning Compact

Students will develop critical thinking, problem solving and communication skills in the social sciences and in studies of natural history pertaining to human and non-human primates. Through study of human biological and cultural history and diversity, students will learn holistic, comparative and relative perspectives of anthropology, both scientific and humanistic. Emphasis is on critical thinking skills in the evaluation of alternative knowledge claims. Students will learn to identify western cultural biases, to integrate diverse sources of information into holistic perspectives and to apply anthropological knowledge and perspectives to solve problems of broad human relevance in contemporary contexts.

Before Graduating Students Must

- Achieve satisfactory evaluation of a term paper written for an upper-division course or senior honors thesis.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, explain and apply factual, conceptual and procedural knowledge in the four subfields of anthropology (cultural anthropology, archaeology, biological anthropology, linguistics).

Critical Thinking

2. Apply scientific and humanistic approaches to investigate human variation in its biological, social, and cultural dimensions, and identify and evaluate disparate knowledge claims culturally and historically.

Communication

3. Articulate anthropological knowledge professionally in written and verbal form.

Bachelor of Arts

Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is worldwide in scope and encompasses all aspects of human, biological, and social life from earliest times to the present. It is a broad, holistic field that seeks to understand human adaptation to natural and social environments.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1125) | Bachelor of Science (p. 1130)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural, archaeological, biological and linguistic anthropology.

Curriculum

- /UGRD/colleges-schools/UGLAS/IDS_BA_BS/IDS_BA20/
- Anthropology
- Anthropology Minor
- Anthropology Minor UF Online
- Anthropology UF Online
- Medical Anthropology Certificate

The BA in Anthropology provides students with a broad-based liberal arts education and prepares students to work in an increasingly complex world. BA majors learn about different groups of people, their prehistory, and their biological and cultural diversity through disciplines that combine social science, natural science, and the humanities. Many undergraduate anthropology majors go on to graduate school in the social sciences, while others use anthropology to prepare themselves for professional careers in other disciplines. In a world of increasing globalization and need for effective international relations and understanding, anthropology is a highly relevant liberal arts and sciences major for students interested in pursuing careers in business, education, government, health, and law.

Anthropology includes four subfields: cultural anthropology, archaeology, biological anthropology, and linguistics. Undergraduates may concentrate their studies in one of these four subfields or pursue a focus in an interdisciplinary track with another major or minor. The anthropology major has two different programs: the Bachelor of Arts and the Bachelor of Science. Coursework for the major will depend upon the program, both of which are flexible. Both degrees are earned in anthropology rather than in any one subfield. Students who are uncertain of a program should contact the Department of Anthropology's undergraduate coordinator for information and curriculum planning.

requirements for the Major

The BA in Anthropology requires a minimum of 34 semester credits in anthropology and all coursework must be completed with minimum grades of C. A minimum of 18 credits of anthropology coursework must be completed at UF.

Overseas Studies

Students concentrating in any subfield, particularly cultural anthropology and archaeology, are also encouraged to complete either an ethnographic study abroad program or an archaeological field school before their senior year.

Relevant Minors and Certificates

The department encourages students pursuing the BA to choose a minor or an interdisciplinary certificate option in African studies, Asian studies, environmental studies, Jewish studies, Latin American studies, Linguistics, or Women's Studies. Relevant courses in anthropology may be used to fulfill some requirements.

Required Coursework for the BA in Anthropology

Code	Title	Credits
Anthropology Core Courses		**16**
ANT 2410	Cultural Anthropology	
ANT 2140	Introduction to World Archaeology	
ANT 3514C	Introduction to Biological Anthropology	
ANT 3620	Language and Culture	
ANT 4931	Capstone in Anthropology	
Anthropology BA Electives [1]		**18**
3000 level and above		
4000 level		
Any level		
Quest 3/Experiential Learning Academic Requirement [2]		**0-3**
Related Coursework for the Anthropology BA		**3**
STA 2023	Introduction to Statistics 1	
Total Credits		**37-40**

1. There are no prerequisites for 2000-level courses. Students in the honors program may take honors sections of any offered anthropology class. Any student at the sophomore level and above with the appropriate prerequisites or permission of the instructor may enroll in cross-listed graduate-level courses. Students are encouraged to take courses that address theory and method in the discipline, in addition to survey courses and area studies.
2. To fulfill the Quest 3/UF Experiential Learning Academic Requirement (Q3/ELAR), students should enroll in an experience for 3 credit hours (or opt for 0-2 credit hours if needed, although the student effort during the semester will remain the equivalent of 3 credit hours) through existing courses that are designated to fulfill the Quest 3 requirement. Your Quest 3/Experiential Learning Academic Requirement must be an ANT

prefixed course or equivalent to an Anthropology course with study abroad or field school experience. For non-ANT prefixed courses, contact the Anthropology Undergraduate Coordinator for approval. Students who complete the Quest 3/ELAR requirement for 0-2 credits will need to take an additional 3000 level or above Anthropology elective in order to complete the requirement.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1089).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 anthropology course
- 2.0 UF GPA required

Semester 3

- Complete 1 additional anthropology course or STA 2023
- 2.0 UF GPA required

Semester 4

- Complete 1 additional anthropology course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 2 additional anthropology courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete 2 additional anthropology courses
- 2.0 UF GPA required

Semester 7

- Complete 2 additional anthropology courses
- 2.0 UF GPA required

Semester 8

- Complete ANT 4931
- Complete Quest 3/Experiential Learning Academic Requirement and 1 additional anthropology course, if needed
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One

3 To fulfill the Quest 3/UF Experiential Learning Academic Requirement (Q3/ELAR), students should enroll in an experience for 3 credit hours (or opt for 0-2 credit hours if needed, although the student effort during the semester will remain the equivalent of 3 credit hours) through existing courses that are designated to fulfill the Quest 3 requirement. Your Quest 3/Experiential Learning Academic Requirement must be an ANT prefixed course or equivalent to an Anthropology course with study abroad or field school experience. For non-ANT prefixed courses, contact the Anthropology Undergraduate Coordinator for approval. Students who complete the Quest 3/ELAR requirement for 0-2 credits will need to take an additional 3000 level or above Anthropology elective in order to complete the requirement.

4 Or elective if ANT 2000 taken as State Core Gen Ed Social and Behavioral Sciences.

Academic Learning Compact

Students will develop critical thinking, problem solving and communication skills in the social sciences and in studies of natural history pertaining to human and non-human primates. Through study of human biological and cultural history and diversity, students will learn holistic, comparative and relative perspectives of anthropology, both scientific and humanistic. Emphasis is on critical thinking skills in the evaluation of alternative knowledge claims. Students will learn to identify western cultural biases, to integrate diverse sources of information into holistic perspectives and to apply anthropological knowledge and perspectives to solve problems of broad human relevance in contemporary contexts.

Before Graduating Students Must

- Achieve satisfactory evaluation of a term paper written for an upper-division course or senior honors thesis.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, explain and apply factual, conceptual and procedural knowledge in the four subfields of anthropology (cultural anthropology, archaeology, biological anthropology, linguistics).

Critical Thinking

2. Apply scientific and humanistic approaches to investigate human variation in its biological, social, and cultural dimensions, and identify and evaluate disparate knowledge claims culturally and historically.

Communication

3. Articulate anthropological knowledge professionally in written and verbal form.

- Anthropology UF Online
- Medical Anthropology Certificate

The BS in Anthropology provides students with a degree option that blends their interest in basic science with the holistic lens of anthropology. BS majors engage in anthropology through coursework, lab and field-based research, and outreach. A grounding in scientific-based research, community initiatives, and multicultural skillsets enable students to address pressing needs in both local and global contexts. For example, students often participate in independent and collaborative initiatives on and off campus and receive pre-graduate training in life sciences, health-related disciplines, natural history, and/or archaeological science fields. A BS in Anthropology encourages students to develop STEM-based skill sets and enhance scientific inquiry to address salient anthropological issues. This degree inevitably draws upon multidisciplinary fields including anatomy, biology, chemistry, ecology, engineering, genetics, geology, physics, mathematics, statistics, zoology, and botany.

Anthropology includes four subfields: cultural anthropology, archaeology, biological anthropology, and linguistics. Undergraduates may concentrate their studies in one of these four subfields or pursue a focus in an interdisciplinary track with another major or minor. The anthropology major has two different programs: the Bachelor of Arts and the Bachelor of Science. Coursework for the major will depend upon the program, both of which are flexible. Both degrees are earned in anthropology rather than in any one subfield. Students who are uncertain of a program should contact the Department of Anthropology's undergraduate coordinator for information and curriculum planning.

[1] Students should consult with the Undergraduate Coordinator.
[2] Complete with a minimum 2.5 GPA.

Quest 3/Experiential Learning Academic Requirement

To fulfill the Quest 3/UF Experiential Learning Academic Requirement (Q3/ELAR), students should enroll in an experience for 3 credit hours (or opt for 0-2 credit hours if needed, although the student effort during the semester will remain the equivalent of 3 credit hours) through existing courses that are designated to fulfill the Quest 3 requirement. Your Quest 3/Experiential Learning Academic Requirement must be an ANT prefixed course and scientific in nature or equivalent to an Anthropology course with study abroad or field school experience. For non-ANT prefixed courses, contact the Anthropology Undergraduate Coordinator for approval. Students who complete the Quest 3/ELAR requirement for 0-2 credits will need to take an additional Anthropology BS elective in order to complete the requirement.

Overseas Studies

Students concentrating in any subfield, particularly cultural anthropology and archaeology, are also encouraged to complete either an ethnographic study abroad program or an archaeological field school before their senior year.

Relevant Minors and Certificates

The department encourages students pursuing the BA to choose a minor or an interdisciplinary certificate option in African studies, Asian studies, environmental studies, Jewish studies, Latin American studies, Linguistics, or Women's Studies. Relevant courses in anthropology may be used to fulfill some requirements.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1089).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.5 UF GPA required

Semester 2

- Complete 1 anthropology course and 1 related course
- 2.5 UF GPA required

Semester 3

- Complete 1 additional anthropology course or STA 2023, and 1 additional related course
- 2.5 UF GPA required

Semester 4

- Complete 1 additional anthropology course and 1 additional related course
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 5

- Complete 2 additional anthropology courses and 1 related course
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 6

- Complete 2 additional anthropology courses
- Complete related science elective course
- 2.5 UF GPA required

Semester 7

- Complete 2 additional anthropology courses
- Complete related science elective course
- 2.5 UF GPA required

Semester 8

- Complete ANT 4931
- Complete Quest 3/Experiential Learning Academic Requirement and 1 additional anthropology course, if needed
- 2.5 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

PHY 2049, PHY 2049L, PHY 2054, PHY 2054L, STA 3024, and 3000 level or above related science core coursework outside of the Anthropology department may count towards the 3000 level or above electives outside of the major if taken.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 One of three required related coursework sequences (BSC 2010, BSC 2010L and BSC 2011, BSC 2011L; CHM 2045, CHM 2045L and CHM 2046, CHM 2046L; and MAC 2311 or STA 3024) can be substituted with either Physics 1 and 2 and Laboratories (PHY 2053, PHY 2053L and PHY 2054 and PHY 2054L) or Physics with Calculus 1 and 2 and Laboratories (PHY 2048, PHY 2048L and PHY 2049, PHY 2049L)

2 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

3 To fulfill the Quest 3/UF Experiential Learning Academic Requirement (Q3/ELAR), students should enroll in an experience for 3 credit hours (or opt for 0-2 credit hours if needed, although the student effort during the semester will remain the equivalent of 3 credit hours) through existing courses that are designated to fulfill the Quest 3 requirement. Students who complete the Quest 3/ELAR requirement for 0-2 credits may need to take additional electives in order to reach 120 total credits.

Academic Learning Compact

Students will develop critical thinking, problem solving and communication skills in the social sciences and in studies of natural history pertaining to human and non-human primates. Through study of human biological and cultural history and diversity, students will learn holistic, comparative and relative perspectives of anthropology, both scientific and humanistic. Emphasis is on critical thinking skills in the evaluation of alternative knowledge claims. Students will learn to identify western cultural biases, to integrate diverse sources of information into holistic perspectives and to apply anthropological knowledge and perspectives to solve problems of broad human relevance in contemporary contexts.

Before Graduating Students Must

- Achieve satisfactory evaluation of a term paper written for an upper-division course or senior honors thesis.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, explain and apply factual, conceptual and procedural knowledge in the four subfields of anthropology (cultural anthropology, archaeology, biological anthropology, linguistics).

Critical Thinking

2. Apply scientific and humanistic approaches to investigate human variation in its biological, social, and cultural dimensions, and identify and evaluate disparate knowledge claims culturally and historically.

Anthropology Minor

Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is worldwide in scope and encompasses all aspects of human, biological, and social life from earliest times to the present. It is a broad, holistic field that seeks to understand human adaptation to natural and social environments.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15-16 | Completed with minimum grades of C and no optional S/U
- More Info (https://anthro.ufl.edu/academics/undergrad-students/the-anthropology-minor/)
- *Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.*

Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural, archaeological, biological and linguistic anthropology.

Curriculum

- /UGRD/colleges-schools/UGLAS/IDS_BA_BS/IDS_BA20/
- Anthropology
- Anthropology Minor
- Anthropology Minor UF Online
- Anthropology UF Online
- Medical Anthropology Certificate

Anthropology includes four subfields: cultural anthropology, archaeology, biological anthropology, and linguistics. Undergraduates may concentrate their studies in one of these four subfields or pursue a focus in an interdisciplinary track with another major or minor. A Bachelor of Arts is earned in anthropology rather than in any one subfield.

A BA in Anthropology provides students with a broad-based liberal arts education and prepares students to work in an increasingly complex world. Anthropology BA students learn about different groups of people, their prehistory, and their biological and cultural diversity through disciplines that combine social science, natural science, and the humanities. Many undergraduate anthropology majors go on to graduate school in the social sciences, while others use anthropology to prepare themselves for professional careers in other disciplines. In a world of increasing globalization and need for effective international relations and understanding, anthropology is a highly relevant liberal arts and sciences major for students interested in pursuing careers in business, education, government, health, and law.

Requirements for the Major

The BA in Anthropology requires a minimum of 34 credits in anthropology and 3 credits of statistics for a total of 37 credits. All coursework must be completed with minimum grades of C. A minimum of 18 credits of anthropology coursework must be completed at UF.

Required Major Coursework

Code	Title	Credits

4000 level ANT courses		6
Any level ANT courses		6
Related Coursework		

STA 2023	Introduction to Statistics 1	3
Total Credits		**37**

There are no prerequisites for 2000-level courses. Students in the honors program may take honors sections of any offered anthropology class. Any student at the sophomore level and above with the appropriate prerequisites or permission of the instructor may enroll in cross-listed graduate-level courses. Students are encouraged to take courses that address theory and method in the discipline, in addition to survey courses and area studies.

Overseas Studies

Students concentrating in any subfield, particularly cultural anthropology and archaeology, are also encouraged to complete either an ethnographic study abroad program or an archaeological field school before their senior year.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 anthropology course
- 2.0 UF GPA required

Semester 3

- Complete 1 additional anthropology course or STA 2023
- 2.0 UF GPA required

Semester 4

- Complete 1 additional anthropology course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 2 additional anthropology courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete 2 additional anthropology courses
- 2.0 UF GPA required

Semester 7

- Complete 2 additional anthropology courses
- 2.0 UF GPA required

Semester 8

- Complete ANT 4931
- Complete 1 additional anthropology course
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Arabic

Foreign Languages and Literatures

The Arabic language is the key to understanding the culture and history of North Africa, the Middle East, and the Arabian Peninsula. Arabic is also the liturgical language of more than a billion Muslims, and it is one of the six official languages of the United Nations. The Arabic specialization of the Foreign Languages and Literatures major enables students to develop an appreciation for the complexity of the many facets of the Arab world: its society, culture, history, arts, religions, and literary heritage.

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

The BA in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Arabic specialization of the Foreign Languages and Literatures major provides students with a solid background in the linguistic, literary, and cultural aspects of the Arab World, including North Africa, the Arab Middle East and the Arabian Peninsula. The major gives students a foundation in the Arabic language, including speaking, reading, writing, and listening, as well as the opportunity to advance their knowledge of Arab cultures. It prepares students for graduate school and is ideal for students considering careers in government and diplomacy, academia, business, and international development. Many students choose to double major in the Arabic specialization of the Foreign Languages and Literatures major and another subject in social sciences, humanities, business, or journalism.

Requirements for the Major

The Arabic specialization of the Foreign Languages and Literatures major consists of preparatory language study at the lower division (1000 and 2000 level), and 33 credits of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Code	Title	Credits
Required Foundation Coursework		
Total depends on placement in language courses		
ARA 1130	Beginning Arabic 1	5
ARA 1131	Beginning Arabic 2	5
ARA 2220	Intermediate Arabic 1	4

Total Credits		**51**

1 Although courses may appear in more than one group they may be counted toward only one group.

2 Recommended for those planning to pursue careers requiring advanced level skills in Arabic or graduate work in Arabic studies.

Overseas Study

Students of the Arabic specialization of the Foreign Languages and Literatures major are encouraged to study abroad for a summer or a semester. Students may choose the summer UF-sponsored program in the Arabic Language Institute in Fez (ALIF) in Morocco. The program offers students the opportunity to earn 11 credits (only 6 credits count toward the major).
More info (https://ufabroad.internationalcenter.ufl.edu/?FuseAction=Programs.ViewProgramAngular&id=10041)

Students may also choose another UF-approved study-abroad program in Morocco or another Arab country (e.g., in Jordan, Qatar).

Placement

In all languages, students with either a native background in the language or prior study in that language might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment. Literacy in Standard Arabic is expected.

Research

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1089).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

3000 level or above critical concentration courses outside of Arabic may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ARA 1130	Beginning Arabic 1 (**Critical Tracking**; CLAS Foreign Language Proficiency Requirement)) [1]	5

State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
	Credits	**14**
Semester Two		
Quest 1		3
ARA 1131	Beginning Arabic 2 (**Critical Tracking**; CLAS Foreign Language Proficiency Requirement)) [1]	5
Natural Science Laboratory [2]		1
State Core Gen Ed Mathematics (p. 80)		3
Gen Ed Physical Sciences		3
	Credits	**15**
Semester Three		
ARA 2220	Intermediate Arabic 1 (**Critical Tracking**)	4
State Core Gen Ed Humanities (p. 80)		3
Gen Ed Mathematics		3
Gen Ed Biological or Physical Sciences (area not taken in semester 1)		3
Gen Ed Social and Behavioral Sciences [1]		3
	Credits	**16**
Semester Four		
Quest 2		3
ARA 2221	Intermediate Arabic 2 (**Critical Tracking**)	4
Advanced Major Elective (**Critical Tracking**; in the major)		3
Gen Ed Humanities		3
Gen Ed Social and Behavioral Sciences		3
	Credits	**16**
Semester Five		
ARA 3410	Advanced Arabic 1 (**Critical Tracking**)	3
Gen Ed Biological Sciences		3
Gen Ed Composition; Writing Requirement		3
Critical concentration course (**Critical Tracking**)		3
Advanced Major Elective (**Critical Tracking**; in the major)		3
	Credits	**15**
Semester Six		
ARA 3411	Advanced Arabic 2 (**Critical Tracking**)	3
Gen Ed Humanities		3
Advanced Major Elective (**Critical Tracking**; in the major)		3
Electives (3000 level or above, not in major)		5
	Credits	**14**
Semester Seven		
Critical concentration course (**Critical Tracking**)		3
Advanced electives (**Critical Tracking**; in the major)		6
Elective (3000 level or above, not in major)		3
Elective or senior thesis option		3
	Credits	**15**
Semester Eight		
ARA 4420	Arabic through the Texts (**Critical Tracking**)	3
Critical concentration course (**Critical Tracking**)		3
Electives (3000 level or above, not in major)		6
Elective		3
	Credits	**15**
	Total Credits	**120**

1 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Concentration Courses

Critical Concentration Courses

9 Credits from One Concentration

Although courses may appear in more than one group, they may be counted toward only one group.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Arabic Language and Literature Minor

The Arabic language is the key to understanding the culture and history of North Africa, the Middle East, and the Arabian Peninsula. Arabic is also the liturgical language of more than a billion Muslims, and it is one of the six official languages of the United Nations.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15-17 | Completed with minimum grades of C and no optional S/U

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

- Russian Minor

An intensive summer program in Fez, Morocco, is available for students at all levels.

No more than three credits of 4905 (Individual Work) coursework may be applied to the minor. Students must complete a minimum of six credits of coursework **at the 3000/4000 level** exclusive to the minor that cannot count toward the major(s) or other minors.

This minor requires the completion of 10 credits of prerequisite coursework: ARA 1130 and ARA 1131.

Required Courses

Code	Title	Credits
Select one: [1]		6-8
ARA 2220	Intermediate Arabic 1	
& ARA 2221	and Intermediate Arabic 2	
Arabic language courses (3000 level or above)		
ARA or ABT prefixed courses (3000/4000 level) [1]		9
Total Credits		**15-17**

[1] This minor requires the completion of 10 credits of prerequisite coursework: ARA 1130 and ARA 1131.
ARA 1130 and ARA 1131 satisfy the CLAS Foreign Language requirement.
Students with either a native background or prior study in Arabic might be eligible to place out of one or both courses and should meet with the undergraduate coordinator to arrange for placement assessment.

Asian American Studies Minor

Asian American Studies (AAS) is an academic discipline that focuses on the historical and contemporary issues regarding the Asian diaspora in the United States. The Asian-American studies minor examines the diverse experience of Asian-Americans and Pacific Islanders in the US, including their literatures, cultures, religions, histories, racial and gender identities, political participations, and their relationships to their homelands and other Asian diasporas.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15 | Completed with minimum grades of C and no optional S/U
- **Contact:** Email (malini@ufl.edu)

Born out of student demand for ethnic studies during the 1960s, the first AAS program was created at San Francisco State University in 1968. Since then, AAS has made its way to college campuses across the nation. In the fall of 2004, AAS made its way to the University of Florida, the first institution in the southeast to offer such a program.

The AAS minor is an interdisciplinary program that provides an opportunity to concentrate on Asian American racial politics, gender issues, community building, and culture. The minor is fulfilled through completion of three required courses in Asian American Studies and two elective courses with significant coverage on any aspect of race in the US or Asian culture. In the past, core courses such as Asian-American and African-American Interactions, the Sociology of Asian Americans, Asian American Politics, Asian American Film, and Asian American literature have been offered.

The AAS minor is open to all students with an overall 2.0 GPA. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Required courses are generally offered every other year. Sometimes new required courses might be offered. Required course offerings for the current and following semester are posted on the English department website.

Asian Studies Minor

The Asian Studies minor provides multidisciplinary expertise and practical experience in Asia-related affairs through coursework and study abroad opportunities.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15-22, depending on option | Completed with minimum grades of C

Related Programs

- International Studies

The minor provides two options of study. Language credits earned at other institutions may be accepted.

Students pursuing the major in Foreign Languages and Literatures, Chinese specialization; or Foreign Languages and Literatures, Japanese specialization; or Foreign Languages and Literatures, Dual Language specialization in which one of the languages is Chinese, Japanese, Korean, or Vietnamese, are not eligible to receive the minor in Asian studies.

Of the total credits, no more than three may be individual study (CHI 4905/JPN 4905). Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Option 1

Code	Title	Credits

Astronomy and Astrophysics

Curious about what's out there? Students who are comfortable with mathematics and physics and who want to understand the nature of the Solar System and other planetary systems, stars, galaxies and the universe are encouraged to pursue a BA in Astronomy or a BS in Astrophysics.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts in Astronomy (p. 1157) | Bachelor of Science in Astrophysics (p. 1161)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Astronomy is home to a vibrant community actively engaged in research, education, and outreach. The department's faculty are involved in a wide range of research programs (https://www.astro.ufl.edu/research/) using world-class resources including an in-house

design-through-fabrication instrumentation program (https://www.astro.ufl.edu/instrumentation/past-current-projects/), partner level access to the Gran Telescope Canarias (https://www.astro.ufl.edu/research/telescopes/), the HiPerGator-2 (https://www.astro.ufl.edu/research/computing/) supercomputer, and more.

Curriculum

- Astronomy and Astrophysics
- Astronomy Minor

Major Overview

The knowledge acquired and the analytical skills developed provide excellent broad-based training for careers in industry, education and government as well as preparation for graduate study in astronomy and astrophysics, science education, engineering, law, and medicine.

Degree Options

Bachelor of Arts in Astronomy

Broader and less specialized than the BS, with the aim of developing and sharpening analytical and quantitative reasoning while at the same time cultivating broader knowledge that can be applied to a variety of careers, including business, law, the health professions, science writing, and teaching.

Bachelor of Science in Astrophysics

Designed for students who intend to pursue careers in a scientific or technical field by continuing to study astronomy, astrophysics, or physics at the graduate level or to commence study in some related field such as planetary science.

Recommended Coursework for Graduate Study

Students should talk with the undergraduate coordinator and plan to take:

Code	Title	Credits
PHY 4604	Introductory Quantum Mechanics 1	3
Select additional courses:		
COP 2271	Computer Programming for Engineers	
MAA 4402	Functions of a Complex Variable	
MAS 3114	Computational Linear Algebra	
PHY 3513	Thermal Physics 1	
PHY 4424	Optics 1	
PHY 4523	Statistical Physics	
STA 3032	Engineering Statistics	

Students of exceptional ability who have some background in physics are encouraged to take the enriched physics with calculus sequence PHY 2060/PHY 2061 instead of PHY 2048/PHY 2049; PHY 3063 may then be taken in place of PHY 3101; and PHZ 3113 may be substituted for PHY 3221.

Relevant Minors and Certificates

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their BA in Astronomy and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (https://education.ufl.edu/uf-teach/)

Research

Students pursuing the BS in Astrophysics are encouraged to engage in research with Astronomy faculty by signing up for at least three credits of AST 4911; 3 credits of AST 4911 may count toward the 4000-level requirement; an additional 3 credits of AST 4911 may be applied toward the 4000-level requirement with the approval of the undergraduate coordinator.

Academic Learning Compact

Astronomy and Astrophysics provide knowledge of basic concepts, theories and observational findings concerning the structure and evolution of planetary systems, stars, stellar systems such as galaxies, and cosmology. Students will learn scientific methodology and its application in specific contexts, the use of observations in testing hypotheses and the limitations of astronomical observations as well as how to critically evaluate them.

The Bachelor of Arts in Astronomy enables students to become familiar with modern physics and to understand mathematics, including calculus. The Bachelor of Science in Astrophysics enables students to understand the basic concepts, theories and experimental findings in modern physics, electricity and magnetism, and mechanics as they apply to astronomy and astrophysics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grades of C) performance on a selection of coursework from each of the 4000-level astronomy courses as graded by a faculty committee independent of the instructor and not as part of the course grade.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. **Bachelor of Arts in Astronomy**
   Identify, describe and define the fundamentals of astronomy, including the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.
   Bachelor of Science in Astrophysics
   Identify, describe and define the fundamentals of astrophysics, including mechanics, electromagnetism, modern physics and the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.
2. Define and use the techniques of astronomical observation.

Critical Thinking

3. Critically evaluate results of astronomical research.

Communication

4. Effectively and clearly communicate ideas and results in speech and in writing in an accepted style of presentation.

Astronomy

Curious about what's out there? Students who are comfortable with mathematics and physics and who want to understand the nature of the Solar System and other planetary systems, stars, galaxies and the universe are encouraged to pursue a BA in Astronomy or a BS in Astrophysics.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts in Astronomy (p. 1157) | Bachelor of Science in Astrophysics (p. 1161)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Astronomy is home to a vibrant community actively engaged in research, education, and outreach. The department's faculty are involved in a wide range of research programs (https://www.astro.ufl.edu/research/) using world-class resources including an in-house design-through-fabrication instrumentation program (https://www.astro.ufl.edu/instrumentation/past-current-projects/), partner level access to the Gran Telescope Canarias (https://www.astro.ufl.edu/research/telescopes/), the HiPerGator-2 (https://www.astro.ufl.edu/research/computing/) supercomputer, and more.

Curriculum

- Astronomy and Astrophysics
- Astronomy Minor

The BA in Astronomy is broader and less specialized than the BS, with the aim of developing and sharpening analytical and quantitative reasoning while at the same time cultivating broader knowledge that can be applied to a variety of careers, including business, law, the health professions, science writing, and teaching.

REQUIREMENTS FOR THE MAJOR

The BA in astronomy requires a total of 41 credits, 20 credits of foundation coursework and 21 credits of major coursework. Students pursuing the BA have greater flexibility for taking courses in other disciplines.

All courses must be completed with minimum grade of C.

Required Foundation Coursework

Code	Title	Credits
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for PHY 2048	4
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for PHY 2049	4
Total Credits		**20**

Required Major Coursework

Code	Title	Credits
Core Courses		
AST 3018	Astronomy and Astrophysics 1	3
AST 3019	Astronomy and Astrophysics 2	3
AST 3722C	Techniques of Observational Astronomy 1	3
Astronomy BA Major Electives		

Two 3000/4000-level astronomy courses		6
Select two courses from the list below:		6
AST or PHY courses at the 3000/4000 level		
AST 2003	Introduction to the Solar System	
AST 2037	Life in the Universe	
GLY 2010C	Physical Geology	
GLY 2042	Planetary Geology	
GLY 3105C	Evolution of Earth and Life	
MCB 3703	Astrobiology	
PHY 3101	Introduction to Modern Physics	
PHZ 4710	Introduction to Biological Physics	
SWS 2007	The World of Water	
Total Credits		**21**

Recommended Coursework for Graduate Study

Students should talk with the undergraduate coordinator and plan to take:

Code	Title	Credits
PHY 4604	Introductory Quantum Mechanics 1	3
Select additional courses:		
COP 2271	Computer Programming for Engineers	
MAA 4402	Functions of a Complex Variable	
MAS 3114	Computational Linear Algebra	
PHY 3513	Thermal Physics 1	
PHY 4424	Optics 1	
PHY 4523	Statistical Physics	
STA 3032	Engineering Statistics	

Students of exceptional ability who have some background in physics are encouraged to take the enriched physics with calculus sequence PHY 2060/PHY 2061 instead of PHY 2048/PHY 2049; PHY 3063 may then be taken in place of PHY 3101; and PHZ 3113 may be substituted for PHY 3221.

Relevant Minors and Certificates

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their BA in Astronomy and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (https://education.ufl.edu/uf-teach/)

Research

Students pursuing the BS in Astrophysics are encouraged to engage in research with Astronomy faculty by signing up for at least three credits of AST 4911; 3 credits of AST 4911 may count toward the 4000-level requirement; an additional 3 credits of AST 4911 may be applied toward the 4000-level requirement with the approval of the undergraduate coordinator.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1089).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

All students must meet these criteria to remain on track for the major.

Semester 1

- Complete MAC 1147 or MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete MAC 2312, PHY 2048 and PHY 2048L with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete MAC 2313, PHY 2049 and PHY 2049L with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

UF freshmen and sophomores should take AST 3018 by semester 4

Semester 5

- 2.5 critical-tracking GPA with completion of AST 3018
- 2.0 UF GPA required

Semester 6

- Complete two 3000/4000 level courses in AST, PHY, or other science courses approved by the major
- 2.0 UF GPA required

Semester 7

- Complete two 3000/4000 level courses in AST, PHY, or other science courses approved by the major
- 2.0 UF GPA required

Semester 8

- Complete two AST 3000/4000 level courses
- Complete MAP 2302
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

MAC2312, MAC2313, PHY2049, and PHY2049L may count towards the 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
Quest 1		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3

Gen Ed Biological Sciences		3
	Credits	**16**
Semester Two		
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**, Gen Ed Mathematics)	4
PHY 2048	Physics with Calculus 1 (**Critical Tracking**; State Core Gen Ed Physical Sciences)	3

Academic Learning Compact

Astronomy and Astrophysics provide knowledge of basic concepts, theories and observational findings concerning the structure and evolution of planetary systems, stars, stellar systems such as galaxies, and cosmology. Students will learn scientific methodology and its application in specific contexts, the use of observations in testing hypotheses and the limitations of astronomical observations as well as how to critically evaluate them.

The Bachelor of Arts in Astronomy enables students to become familiar with modern physics and to understand mathematics, including calculus. The Bachelor of Science in Astrophysics enables students to understand the basic concepts, theories and experimental findings in modern physics, electricity and magnetism, and mechanics as they apply to astronomy and astrophysics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grades of C) performance on a selection of coursework from each of the 4000-level astronomy courses as graded by a faculty committee independent of the instructor and not as part of the course grade.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. **Bachelor of Arts in Astronomy**
   Identify, describe and define the fundamentals of astronomy, including the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.
   Bachelor of Science in Astrophysics
   Identify, describe and define the fundamentals of astrophysics, including mechanics, electromagnetism, modern physics and the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.
2. Define and use the techniques of astronomical observation.

Critical Thinking

3. Critically evaluate results of astronomical research.

Communication

4. Effectively and clearly communicate ideas and results in speech and in writing in an accepted style of presentation.

Curriculum

- Astronomy and Astrophysics
- Astronomy Minor

The Bachelor of Science (BS) in Astrophysics is for students who intend to pursue careers in a scientific or technical field by continuing to study astronomy, astrophysics, or physics at the graduate level or to commence study in some related field such as planetary science.

Requirements for the Major

The BS in Astrophysics requires 20 credits of foundation coursework in mathematics and physics and 42 credits of major coursework in for a total of 62 credits.

All courses must be completed with minimum grades of C.

Required Foundation Coursework

Code	Title	Credits
MAC 2311	Analytic Geometry and Calculus 1	4

Astronomy Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

Biology UF Online

The online Biology major prepares undergraduates for careers in the biological sciences, advanced study in graduate schools, productive citizenship, and leadership and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The Biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. The department's teaching and research provide the integrative and conceptual foundations of the life sciences.

Curriculum

- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

The biology major develops fundamental knowledge of animals, plants, and microorganisms. The Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management. This degree is not recommended for students seeking admission into professional schools such as medicine, dentistry, or veterinary medicine. Please contact an academic advisor for more information.

requirements for the Major

The major requires 29-24 credits of foundational coursework and a minimum of 30 credits of Biology BA major coursework. All coursework for the major must be completed with minimum grades of C.

At least 18 credits of major coursework must be taken at UF. At least two Biology Distribution Courses and at least 9 credits of Biology BA electives must be taken at UF.

Code	Title	Credits
Required Foundation Coursework		
General Biology		
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2	
Select one option:		6-8
Option A		
CHM 1030	Basic Chemistry Concepts and Applications 1	
CHM 1031	Basic Chemistry Concepts and Applications 2	
Option B		
CHM 2045	General Chemistry 1	
& 2045L	and General Chemistry Laboratory	
CHM 2046	General Chemistry 2	
& 2046L	and General Chemistry 2 Laboratory	
Mathematics		
Select one:		4-5
MAC 1147	Algebra and Trigonometry	
MAC 1114	Trigonometry	
& MAC 1140	and Precalculus Algebra	
A math course above MAC 1147 / MAC 1140 + MAC 1114		
Physics		

Select one option:		8-10
Option A

ZOO 4307C	Vertebrate Biodiversity	
Group 5: Biology and Society		
AGG 3501	Environment, Food and Society	
ALS 4162/6935	Consequences of Biological Invasions	
BOT 2800C	Plants in Human Affairs	

PLP 2000	Plants, Plagues, & People	
PLP 2060	Fungus among Us: Mushrooms, Molds and Civilization	
PLS 2830	World Herbs and Vegetables	
PSB 3002	Physiological Psychology	
Approved Biology BA Major Electives: See approved list in tab above (total credits needed depends on credits taken for Biology Distribution courses). At least 9 credits of BA electives must be taken at UF.		
Approved Biology BA Elective courses		15-19
Capstone		
BSC 4936	Critical Analysis of Biological Research	2
Biology BA Major Coursework Total		30
Foundation and Major Total Credits		59-64

1 This major requires a minimum of 30 credits in major courses. At least 18 of the 30 credits of the major coursework must be taken at UF. Any additional credits remaining after completion of the required major coursework must be met by taking courses from the approved Biology BA electives.

2 Course has specific prerequisites; students should consult the course description when planning their programs to ensure they may select this course.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of the following: BSC 2010 and BSC 2010L; or CHM 1025 or CHM 1030 or CHM 2045 and CHM 2045L; or MAC 1147 or equivalent or higher math course
- 2.0 UF GPA required

Semester 2

- Complete CHM 1030 or CHM 2045 and CHM 2045L and one of the following: BSC 2010 and BSC 2010L or MAC 1147 or equivalent or higher MAC course
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010 and BSC 2010L and MAC 1147 or equivalent or higher MAC course
- 2.0 UF GPA required

Semester 4

- Complete CHM 1031 or CHM 2046 and CHM 2046L; BSC 2011 and BSC 2011L; and MAC 1147 or equivalent or higher MAC course with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete at least 1 biology distribution course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 7

- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 8

- Complete BSC 4936 (Capstone)
- Complete all remaining Biology major 3000/4000 level required core courses

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page.

Approved Biology electives may not count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
Select one:		3-4
CHM 1030	Basic Chemistry Concepts and Applications 1 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	
MAC 1147	Algebra and Trigonometry (**Critical Tracking**; Gen Ed Mathematics)	4
State Core Gen Ed Composition (p. 80); Writing Requirement		3
	Credits	**13-14**
Semester Two		
Select one:		3-4
CHM 1031	Basic Chemistry Concepts and Applications 2 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	
STA 2023	Introduction to Statistics 1	3
Gen Ed Composition; Writing Requirement		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Electives		3
	Credits	**15-16**
Semester Three		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; State Core Gen Ed Biological Sciences)	4
Gen Ed Social and Behavioral Sciences		3
Gen Ed Humanities		3
CLAS Foreign Language Proficiency Requirement [1]		4-5
	Credits	**14-15**
Semester Four		
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences)	4
State Core Gen Ed Humanities (p. 80)		3
Gen Ed Social and Behavioral Sciences		3
CLAS Foreign Language Proficiency Requirement [1]		3-5
Electives		2
	Credits	**15-17**

Semester Five		
Biology distribution courses (**Critical Tracking**)		6-7
Select one:		4-5
PHY 2004	Applied Physics 1	
& 2004L	and Laboratory for Physics 2004	
PHY 2053	Physics 1	
& 2053L	and Laboratory for PHY 2053	
Quest 2		3
Elective (or CLAS Foreign Language Proficiency Requirement if 4-3-3 language option) [1]		3
	Credits	**16-18**
Semester Six		
Biology distribution course		3-4
Select one:		4-5
PHY 2005	Applied Physics 2	
& 2005L	and Applied Physics 2 Lab	
PHY 2054	Physics 2	
& 2054L	and Laboratory for PHY 2054	
Gen Ed Humanities		3
Elective (3000 level or above; not in major)		6
	Credits	**16-18**
Semester Seven		
Approved Biology BA Major electives		9-11
Electives (3000 level or above, not in major)		6
	Credits	**15-17**
Semester Eight		
BSC 4936	Critical Analysis of Biological Research (**Critical Tracking**)	2
Approved Biology BA Major electives		6-8
Electives (3000 level or above, not in major)		6
Electives		2
	Credits	**16-18**
	Total Credits	**120**

ZOO 3713C	Functional Vertebrate Anatomy [1]	4
ZOO 4232	Human Parasitology [1]	3
ZOO 4403C	Marine Biology	4
ZOO 4926	Special Topics in Zoology	1-4

[1] Cannot be counted as both an elective and a Biology Distribution Course.

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The Biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology, and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, and explain the basic terminology, concepts, methodologies, and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum

- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS

- Combination Degrees
- Zoology
- Zoology Minor

The Biology degrees develop fundamental knowledge of animals, plants and microorganisms. The degrees and specializations are tailored to meet the needs of preprofessional students, those students preparing for graduate studies in biology or specialized areas, and those seeking careers in education, the allied health professions and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Degrees

Bachelor of Science

The CLAS Bachelor of Science in biology offers to specializations.

Bachelor of Science | Integrative Biology

Designed for students preparing for graduate studies in biology or specialized areas such as ecology, evolution, genetics, molecular biology, physiology, and systematics.

Bachelor of Science | Preprofessional Biology

Designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

Bachelor of Arts

The CLAS Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

requirements for the Majors

The BS Biology specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. The BA requires less preparation in mathematics, chemistry and physics. Students who are uncertain about the program that best suits their goals should consult a biology advisor for information and curriculum planning. Students can also individualize their curricula with additional life science courses from other departments, colleges and units at UF.

Relevant Minors and Certificates

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their BA or BS in Biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: it diversifies the college experience, teaches how scientists apply the knowledge gained in the classroom to real world questions, provides the opportunity to work with and get to know researchers who are the best in their field, enables participation in cutting edge scientific questions and techniques, enhances the student's resume/CV when applying to graduate or professional school and, finally, it is essential to help the student determine if science is an appropriate career choice.

More Info (http://major.biology.ufl.edu/do-research/)

CLAS biology majors may participate in research for course credit, as a scholar (e.g., University Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

The BA major is designed for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management. The BA is not recommended for students preparing for health professions such as medicine, dentistry, and veterinary medicine.

Requirements for the major

The major requires 29-34 credits of foundation coursework and a minimum of 30 credits of Biology BA major coursework. All coursework for the major must be completed with minimum grades of C.

At least 18 credits of major coursework must be taken at UF. At least two Biology Distribution Courses and at least 9 credits of Biology BA electives must be taken at UF.

STA 2023	Introduction to Statistics 1	3
Total		29-34
Required Biology BA Major Coursework: Biology BA Distribution, Capstone, and Approved Biology BA Major Electives must total a minimum of 30 credits. At least 18 credits must be taken at UF [1]		
Biology Distribution Courses		
Complete one course or course/lab combination from 3 of the 5 Groups. At least two Biology Distribution Courses must be taken at UF. Only one 2000-level course may be applied to the Biology Distribution Course requirement. No course may be applied to more than one group. Courses may vary from 3-5 credits in each category		9-13
Group 1: Molecular Biology, Cellular Biology and Genetics		
AGR 3303	Genetics	
BCH 3023	Elementary Organic and Biological Chemistry	
PCB 3023	Essential Cell Biology [2]	
PCB 3063	Genetics	
PCB 3134	Eukaryotic Cell Structure and Function	
PCB 4522	Molecular Genetics	
PCB 4553	Population Genetics	
Group 2: Organismal Biology		
BOT 3503	Physiology and Molecular Biology of Plants	
& 3503L	and Physiology and Molecular Biology of Plants Laboratory [2]	
BSC 3096	Human Physiology	
MCB 2000	Microbiology	
& 2000L	and Microbiology Laboratory	
MCB 3020	Basic Biology of Microorganisms	
& 3020L	and Laboratory for Basic Biology of Microorganisms [2]	
PCB 3134	Eukaryotic Cell Structure and Function [2]	
PCB 3713C	Cellular and Systems Physiology [2]	
PCB 4712	Comparative Biomechanics [2]	
PCB 4723C	Physiology and Molecular Biology of Animals [2]	
ZOO 3603C	Evolutionary Developmental Biology	
ZOO 3713C	Functional Vertebrate Anatomy	
Group 3: Ecology		
BSC 3307C	Climate Change Biology	
PCB 3601C	Plant Ecology	
PCB 4043C	General Ecology	
Group 4: Evolution and Diversity		
BOT 2011C	Plant Diversity	
BOT 2710C	Practical Plant Taxonomy	
BOT 3151C	Local Flora of North Florida	
PCB 4674	Evolution [2]	
ZOO 3513C	Animal Behavior	
ZOO 4205C	Invertebrate Biodiversity	
ZOO 4307C	Vertebrate Biodiversity	
ZOO 4050	Animal Behavior	
ZOO 4205C	Invertebrate Biodiversity	
ZOO 4307C	Vertebrate Biodiversity	
Group 5: Biology and Society		
AGG 3501	Environment, Food and Society	
ALS 4162	Consequences of Biological Invasions	
BOT 2800C	Plants in Human Affairs	
PLP 2000	Plants, Plagues, & People	
PLP 2060	Fungus among Us: Mushrooms, Molds and Civilization	

PLS 2830	World Herbs and Vegetables	
Biology BA Major Electives: See approved list in tab above (total credits needed depends on credits taken for Biology Distribution courses). At least 9 credits of BA electives must be taken at UF. [4]		
Approved Biology BA electives courses		15-19
Capstone		
BSC 4936	Critical Analysis of Biological Research	2
Total Credits Biology BA Major Coursework		**30**
Foundation and Major Total Credits		**59-64**

1 This major requires a minimum of 30 credits in major courses. **At least 18 of the 30 credits of the required major coursework must be taken at UF.** Any additional credits remaining after completion of required coursework must be met by taking courses from the approved additional Biology BA electives.

2 Course has specific prerequisites. Students should consult the course description when planning their programs to ensure that they may select this course.

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their BA or BS in Biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: it diversifies the college experience, teaches how scientists apply the knowledge gained in the classroom to real world questions, provides the opportunity to work with and get to know researchers who are the best in their field, enables participation in cutting edge scientific questions and techniques, enhances the student's resume/CV when applying to graduate or professional school and, finally, it is essential to help the student determine if science is an appropriate career choice.

More Info (http://major.biology.ufl.edu/do-research/)

CLAS biology majors may participate in research for course credit, as a scholar (e.g., University Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1089).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete one of the following: BSC 2010/BSC 2010L; or CHM 1025 or CHM 1030 or CHM 2045/CHM 2045L; or MAC 1147 or equivalent or higher math course
- 2.0 UF GPA required

Semester 2

- Complete CHM 1030 or CHM 2045/CHM 2045L and one of the following: BSC 2010/BSC 2010L or MAC 1147 or equivalent or higher MAC course
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010/BSC 2010L and MAC 1147 or equivalent or higher MAC course
- 2.0 UF GPA required

Semester 4

- Complete CHM 1031 or CHM 2046/CHM 2046L; BSC 2011/BSC 2011L; and MAC 1147 or equivalent or higher MAC course with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete at least one biology distribution course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 7

- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 8

- Complete BSC 4936 (Capstone)
- Complete all remaining Biology major 3000/4000 level required core courses

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Approved Biology electives may not count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
CHM 1030	Basic Chemistry Concepts and Applications 1 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2045	General Chemistry 1	
& 2045L	and General Chemistry Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	
MAC 1147	Algebra and Trigonometry (**Critical Tracking**; Gen Ed Mathematics)	4
Quest 1		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
	Credits	**13-14**
Semester Two		
Select one:		3-4
CHM 1031	Basic Chemistry Concepts and Applications 2 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2046	General Chemistry 2	
& 2046L	and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	
STA 2023	Introduction to Statistics 1 (State Core Gen Ed Mathematics (p. 80))	3
Gen Ed Composition; Writing Requirement		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Gen Ed Humanities		3

Elective		1
	Credits	**16-17**
Semester Three		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; State Core Gen Ed Biological Sciences)	4
Quest 2		3
Gen Ed Social and Behavioral Sciences		3
CLAS Foreign Language Proficiency Requirement [1]		4-5
	Credits	**14-15**
Semester Four		
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences)	4
State Core Gen Ed Humanities (p. 80)		3
Gen Ed Social and Behavioral Sciences		3
CLAS Foreign Language Proficiency Requirement [1]		3-5
Elective		3
	Credits	**16-18**
Semester Five		
Biological distribution courses (Critical Tracking)		6-8
PHY 2004 & 2004L	Applied Physics 1 and Laboratory for Physics 2004	4
Elective (3000 level or above, not in major)		3
Elective (or CLAS Foreign Language Proficiency Requirement if 4-3-3 language option) [1]		3
	Credits	**16-18**
Semester Six		
Biology distribution course (Critical Tracking)		3-5
PHY 2005 & 2005L	Applied Physics 2 and Applied Physics 2 Lab	4
Gen Ed Humanities		3
Elective (3000 level or above, not in major)		3
Elective		3
	Credits	**16-18**
Semester Seven		
Approved Biology BA Major electives (Critical Tracking) [2]		9
Electives (3000 level or above, not in major)		6
	Credits	**15**
Semester Eight		
BSC 4936	Critical Analysis of Biological Research (**Critical Tracking**)	2
Approved Biology BA Major electives (Critical Tracking) [2]		6-10
Electives (3000 level or above, not in major)		6
	Credits	**14-18**
	Total Credits	**120**

1 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

2 Biology BA Distribution, Capstone and Approved Biology BA Major Elective courses must total a minimum of 30 credits.

Approved Biology BA Electives

Code	Title	Credits
AGR 4320	Plant Breeding	3
ALS 3153	Agricultural Ecology	3
ALS 4161	Exotic Species and Biosecurity Issues	3

ZOO 4926	Special Topics in Zoology	1-4

[1] Only one of ALS 4162 and ALS 4163 can apply toward ALS credits.

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The Biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
AGR 3303 or PCB 3063 or PCB 4522	R	R		R
ANS 3319C or BOT 3503 or HOS 4304 or PCB 3713C or PCB 4723C	R	R		R
BSC 1920	I		I	I
BSC 2010	I	I	I	
BSC 2011	I	I	I	
BSC 4936	A	A	A	A
MCB 3020 and MCB 3020L, or PCB 3134 or PCB 4674	R	R		R

Assessment Types

- Major field test for biology
- Bioethics module
- Scientific literacy paper

Integrative Biology

The Biology majors combine the faculty and resources of the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences to prepare undergraduates for careers in the biological sciences, advanced study in professional and graduate schools, productive citizenship and leadership, and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The Biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1176) | Bachelor of Science
- **Specializations:** Integrative Biology (BS) (p. 1185) | Preprofessional Biology (BS) (p. 1190)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. The department's teaching and research provide the integrative and conceptual foundations of the life sciences.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete one of the following in BSC, CHM or MAC: BSC 2010/BSC 2010L; CHM 1025 or CHM 2045/CHM 2045L; MAC 1140, MAC 1114, MAC 1147 or MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L; and BSC 2010/BSC 2010L or MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010/BSC 2010L and MAC 2311 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete CHM 2046/CHM 2046L and BSC 2011/BSC 2011L with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 7

- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 8

- Complete BSC 4936 (Capstone)
- Complete all remaining Biology major 3000/4000 level required core courses

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences)	4
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
	Credits	**14**
Semester Two		
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Science)	4
Select one:		3-4
MAC 2312	Analytic Geometry and Calculus 2 (Gen Ed Mathematics)	
STA 2023	Introduction to Statistics 1 (Gen Ed Mathematics)	
State Core Gen Ed Composition (p. 80); Writing Requirement		3
Gen Ed Social and Behavioral Sciences		3
Elective		3
	Credits	**16-17**
Semester Three		
Quest 2		3
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)	4
Select one:		3-4
CHM 2210	Organic Chemistry 1 (**Critical Tracking**)	
CHM 3217	Organic Chemistry/Biochemistry 1 (**Critical Tracking**)	
State Core Gen Ed Humanities (p. 80)		3
Gen Ed Social and Behavioral Sciences		3
	Credits	**16-17**
Semester Four		
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences)	4
CHM 2211 or CHM 3218	Organic Chemistry 2 [1] or Organic Chemistry/Biochemistry 2	3-4
CHM 2211L	Organic Chemistry Laboratory	2
Gen Ed Composition; Writing Requirement		3
Gen Ed Humanities		3
	Credits	**15-16**
Semester Five		
PCB 4043C	General Ecology	4

PHY 2048 or PHY 2053	Physics with Calculus 1 or Physics 1	3-4
PHY 2048L or PHY 2053L	Laboratory for PHY 2048 or Laboratory for PHY 2053	1
Gen Ed Humanities		3
Electives (3000 level or above, not in major, if needed)		6
	Credits	**17-18**
Semester Six		
Select one:		3-4
PCB 3063	Genetics	
AGR 3303	Genetics	
PCB 4522	Molecular Genetics	
PHY 2049 or PHY 2054	Physics with Calculus 2 or Physics 2	3-4
PHY 2049L or PHY 2054L	Laboratory for PHY 2049 or Laboratory for PHY 2054	1
Taxonomic diversity course 1		3-4
CLAS Foreign Language Proficiency Requirement [2]		4-5
	Credits	**14-18**
Semester Seven		
Select one:		3-4
PCB 3134	Eukaryotic Cell Structure and Function	
ZOO 3603C	Evolutionary Developmental Biology	
ZOO 3713C	Functional Vertebrate Anatomy	
Taxonomic diversity course 2		3-4
CLAS Foreign Language Proficiency Requirement [2]		3-5
Elective (3000 level or above, not in major)		3
	Credits	**12-16**
Semester Eight		
BSC 4936	Critical Analysis of Biological Research (**Critical Tracking**)	2
Select one:		4-5
BOT 3503 & 3503L	Physiology and Molecular Biology of Plants and Physiology and Molecular Biology of Plants Laboratory	
PCB 3713C	Cellular and Systems Physiology	
PCB 4723C	Physiology and Molecular Biology of Animals	
PCB 4674	Evolution	4
Elective (or CLAS Foreign Language Proficiency Requirement if 4-3-3 language option) [2]		3
Elective		3
	Credits	**16-17**
	Total Credits	**120**

1 Select CHM 2211 if CHM 2210 was taken previously.

2 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The Biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
AGR 3303 or PCB 3063 or PCB 4522	R	R		R
ANS 3319C or BOT 3503 or HOS 4304 or PCB 3713C or PCB 4723C	R	R		R
BSC 1920	I		I	I
BSC 2010	I	I	I	
BSC 2011	I	I	I	
BSC 4936	A	A	A	A

Assessment Types

- Major field test for biology
- Bioethics module
- Scientific literacy paper

Preprofessional Biology

The Biology majors combine the faculty and resources of the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences to prepare undergraduates for careers in the biological sciences, advanced study in professional and graduate schools, productive citizenship and leadership, and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The Biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1176) | Bachelor of Science
- **Specializations:** Integrative Biology (BS) (p. 1185) | Preprofessional Biology (BS) (p. 1190)

- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. The department's teaching and research provide the integrative and conceptual foundations of the life sciences.

Curriculum

- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

The BS | Preprofessional Biology specialization is designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools. Students in this track should contact the biology advisor or the Academic Advising Center in 100 Farrior Hall for specific requirements.

The Biology degrees develop fundamental knowledge of animals, plants and microorganisms. The degrees and specializations are tailored to meet the needs of preprofessional students, those students preparing for graduate studies in biology or specialized areas, and those seeking careers in education, the allied health professions and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Bachelor of Science | Preprofessional Biology

The BS Preprofessional Biology specialization is designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

The major requires significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. Students can also individualize their curricula with additional life science courses from other departments, colleges and units at UF.

Requirements for the Major

The Biology Preprofessional BS degree requires a minimum of 28 credits of major coursework and 39-42 credits of related coursework for a total of 67-70 credits. All coursework must be completed with minimum grades of C.

All coursework for the major must be completed with minimum grades of C.

Required Major Coursework

Code	Title	Credits
Required Foundation Coursework		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory	4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2	4
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory	4

CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory	
CHM 2210	Organic Chemistry 1	3
CHM 2211	Organic Chemistry 2	5
& 2211L	and Organic Chemistry Laboratory	
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	3-4
or STA 2023	Introduction to Statistics 1	
Select one option:		8-10
Option A		
PHY 2053	Physics 1	
& 2053L	and Laboratory for PHY 2053	
PHY 2054	Physics 2	
& 2054L	and Laboratory for PHY 2054	
Option B		
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for PHY 2048	
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for PHY 2049	
Required Biology BS Preprofeesional-Major Coursework [1]		
BCH 4024	Introduction to Biochemistry and Molecular Biology	4
BSC 4936	Critical Analysis of Biological Research	2
Select one:		3-4
PCB 3063	Genetics	
AGR 3303	Genetics	
PCB 4522	Molecular Genetics	
Select one of the following:		3-4
MCB 3020	Basic Biology of Microorganisms	
& 3020L	and Laboratory for Basic Biology of Microorganisms	
PCB 3134	Eukaryotic Cell Structure and Function	
Select one:		4-5
BSC 3096	Human Physiology	
PCB 3713C	Cellular and Systems Physiology	
PCB 4723C	Physiology and Molecular Biology of Animals	
BS Preprofessional Major Electives		
Additional approved life sciences courses (Minimum; a maximum of 6 credits of approved research may be applied to this requirement)		12
Required Major Coursework Minimum Credits		28
Total Credits		**95-101**

[1] This degree requires a minimum of 28 credits in core courses. Any additional credits remaining after completion of the required core coursework must be met by taking courses from the approved BS preprofessional electives in the biological sciences.

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their BA or BS in Biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: it diversifies the college experience, teaches how scientists apply the knowledge gained in the classroom to real world questions, provides the opportunity to work with and get to know researchers who are the best in their field, enables participation in cutting edge scientific questions and techniques, enhances the student's resume/CV when applying to graduate or professional school and, finally, it is essential to help the student determine if science is an appropriate career choice.

More Info (http://major.biology.ufl.edu/do-research/)

CLAS biology majors may participate in research for course credit, as a scholar (e.g., University Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1089).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete one of the following in BSC, CHM or MAC: BSC 2010/BSC 2010L; CHM 1025 or CHM 2045/CHM 2045L; MAC 1140, MAC 1114, MAC 1147 or MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L; and BSC 2010/BSC 2010L or MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010/BSC 2010L and MAC 2311 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete CHM 2046/CHM 2046L and BSC 2011/BSC 2011L with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 7

- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 8

- Complete BSC 4936 (Capstone)
- Complete all remaining Biology major 3000/4000 level required core courses

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Approved Biology electives may not count towards the 3000 level or above electives outside of the major. CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The Biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
AGR 3303 or PCB 3063 or PCB 4522	R	R		R
ANS 3319C or BOT 3503 or HOS 4304 or PCB 3713C or PCB 4723C	R	R		R
BSC 1920	I		I	I
BSC 2010	I	I	I	
BSC 2011	I	I	I	
BSC 4936	A	A	A	A
MCB 3020 and MCB 3020L, or PCB 3134 or PCB 4674	R	R		R

Assessment Types

- Major field test for biology
- Bioethics module
- Scientific literacy paper

Botany Minor

The Botany minor provides a solid foundation in the biology of plants, from the molecular to the organismal level, and their role in larger ecosystems.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** Email (biouc-l@lists.ufl.edu)

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. The department's teaching and research provide the integrative and conceptual foundations of the life sciences.

Curriculum

- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees

- Zoology
- Zoology Minor

Students pursuing majors in biology, entomology, or wildlife ecology and conservation are not eligible to receive the minor in botany.

To be eligible for many upper-level botany courses, students must have completed:

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	3-4
& 2010L	and Integrated Principles of Biology Laboratory	
or BOT 2010C	Introductory Botany	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2	
or BOT 2011C	Plant Diversity	

Required Courses

Code	Title	Credits
Select 15 credits: [1, 2]		15
Any 3000/4000/5000-level BOT course		
PCB 3023	Essential Cell Biology	
PCB 3601C	Plant Ecology	
PCB 4043C	General Ecology	
Total Credits		**15**

1 Up to six credits may come from BOT 2010C, BOT 2011C, BOT 2710C, BOT 2800C
2 No more than three credits may be individual work (BOT 4905, BOT 4911).

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Botany | CLAS

The Botany curriculum provides a broad background in the biology of plants, from the molecular to the organismic level. Students who major in Botany will take courses in ecology, genetics, physiology, taxonomy, evolution, cells and tissues, molecular biology, and biodiversity of plants.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)

Curriculum

- Biology UF Online
- Biology | CALS

- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

Small classes are taught by faculty who have a commitment to undergraduate education. Students participate in mentored research, assisting faculty with research projects on campus and abroad. The major prepares students for careers in industry and government agencies, for graduate and professional schools, and for teaching jobs in high schools.

Specializations

General Botany

For students who may not intend to pursue a graduate degree but are interested in a career in plant biology. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Botanical Research

For students who intend to pursue a graduate degree and requires research with a faculty member. This specialization provides the coursework background typically required by botany graduate programs. Students are encouraged to consult with an advisor and biology faculty member when deciding on which courses to take.

Requirements for the Major

Required coursework is dependent upon the specialization. Coursework for each specialization can be found on the specialization's catalog page.

Relevant Minors and Certificates

Students majoring in botany can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. Note that botany majors cannot minor in biology or chemistry, nor can biology majors minor in botany (the curricula for the botany and biology majors are too similar).

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their BS in botany and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (https://education.ufl.edu/uf-teach/)

Research

Botany majors are strongly encouraged to participate in research, and research is required for the Botanical Research specialization. Research experience is valuable on many levels: it diversifies the college experience; it teaches students how scientists apply the knowledge gained in the classroom to real world questions; it provides the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting edge scientific questions and techniques; it can enhance a student's resume/CV when applying to graduate or professional school; and, finally, it is essential in helping students determine if science is a good career choice.

CLAS Biology, Botany, and Zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Students who plan to enroll for course credit must contact potential research mentors, develop a project, and turn in the required application and proposal no later than the week of drop/add. If the window is missed, students should still contact potential research mentors to discuss upcoming opportunities.
More Info (https://biology.ufl.edu/undergraduates/research/)

Academic Learning Compact

The Botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1089).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, including lab: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L or BOT 2011C, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, including labs
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 5 critical-tracking courses, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete at least 2 required courses for this specialization
- 2.0 UF GPA required

Semester 7

- Complete CHM 2210 or CHM 3217
- Complete PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
- Complete at least 2 additional (4 total) required courses for this specialization
- 2.0 UF GPA required

Semester 8

- Complete all remaining major course requirements
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L count towards 3000 level or above electives outside of the major. COP 3275 may also count towards the requirement if taken.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; Gen Ed Physical Sciences; Natural Science Laboratory) [2]	4

Academic Learning Compact

The Botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the

scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, and explain the basic terminology, concepts, methodologies, and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

The major prepares students for careers in industry and government agencies, for graduate and professional schools, and for teaching jobs in high schools.

General Botany

For students who may not intend to pursue a graduate degree but are interested in a career in plant biology. This option is intended for students who do not plan to attend graduate or professional school, but are planning a career in government, public service, or secondary education. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Requirements for the Major

The General Botany specialization requires a total of 63-73 credits consisting of 30-31 credits of foundation coursework and 33-42 credits of major coursework. A student must achieve a minimum grade of C in all required courses for the major.

Code	Title	Credits
Required Foundation Coursework		
Introductory Botany / Biology		
Select one option:		7-8
Option A (preferred)		
BOT 2010C	Introductory Botany (preferred) [1]	
BOT 2011C	Plant Diversity	
OR		
Option B		
BSC 2010	Integrated Principles of Biology 1	
& 2010L	and Integrated Principles of Biology Laboratory	
BSC 2011	Integrated Principles of Biology 2	
& 2011L	and Integrated Principles of Biology Laboratory 2	
Chemistry		
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry Laboratory	
CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory	
CHM 2200	Fundamentals of Organic Chemistry	4
& 2200L	and Fundamentals of Organic Chemistry Laboratory	
Math		
MAC 1147	Algebra and Trigonometry	4
or MAC 2311	Analytic Geometry and Calculus 1	
Select one:		3
STA 2023	Introduction to Statistics 1	
COP 2800	Computer Programming Using JAVA (or equivalent)	
COP 3275	Computer Programming Using C (or equivalent)	

BSC 2891	Python Programming for Biology	
Physics		
PHY 2004	Applied Physics 1	4
& 2004L	and Laboratory for Physics 2004	
Required Major Courses for the General Botany Specialization		
AGR 3303	Genetics	3-4
or PCB 3063	Genetics	
PCB 4674	Evolution	4
BOT 2710C	Practical Plant Taxonomy	3
BOT 3503	Physiology and Molecular Biology of Plants	5
& 3503L	and Physiology and Molecular Biology of Plants Laboratory	
BSC 4936	Critical Analysis of Biological Research	2
Ecology and Florida Biodiversity		
Select two:		6-8
PCB 4043C	General Ecology	
PCB 3601C	Plant Ecology	
BOT 3151C	Local Flora of North Florida	
BSC 3307C	Climate Change Biology	
Cells and Tissues		
BOT 4935/5225C	Special Topics (Plant Anatomy)	3-4
or PCB 3023	Essential Cell Biology	
General Botany Specialization Major Electives		
Biodiversity Breadth		
Select one:		3-4
BOT 2011C	Plant Diversity [1]	
BOT 4650	Plant Symbiosis	
PCB 4460	Biodiversity and Ecology Field Immersion	
ZOO 4205C	Invertebrate Biodiversity	
ZOO 4307C	Vertebrate Biodiversity	
ZOO 4472C	Avian Biology	
ZOO 4926	Special Topics in Zoology (Mammalogy)	
ENY 3005	Principles of Entomology	
& 3005L	and Principles of Entomology Laboratory	
WIS 4934	Topics in Wildlife Ecology and Conservation (Mammalogy)	
PLP 3002C	Fundamentals of Plant Pathology	
PLP 4653C	Basic Fungal Biology	
MCB 2000	Microbiology	
& 2000L	and Microbiology Laboratory	
MCB 3020	Basic Biology of Microorganisms	
& 3020L	and Laboratory for Basic Biology of Microorganisms	
Botany Electives		
Select two additional courses from the above Ecology, Cells and Tissues, or Biodiversity categories, or from the list of approved electives		4-8
Total Credits		**63-73**

[1] Students who select BOT 2011C to fulfill the foundation requirements may not use BOT 2011C to fulfill the biodiversity breadth requirements for the major.

Recommended and Approved Electives

Some courses may have prerequisites.

Code	Title	Credits
AGG 3501	Environment, Food and Society	3
AGR 4304	Plant Chromosomes and Genomes	3
AGR 4320	Plant Breeding	3
AGR 4512	Physiology and Ecology of Crops	3
ALS 4163	Challenges in Plant Resource Protection	3
BCH 3023	Elementary Organic and Biological Chemistry (online)	3
BCH 5045	Graduate Survey of Biochemistry (online)	4
BOT 2800C	Plants in Human Affairs	3
BOT 4053	Practical Experience in Teaching Botany	2

BOT 4851C	Medical and Forensic Plant Biology	3
BOT 4935	Special Topics	2-4
BOT 4935/5305	Special Topics (Paleobotany)	3
BSC 2862	Global Change Ecology and Sustainability	3
BSC 3402	Theory and Practice in the Biological Sciences	2
BSC 4434C	Introduction to Bioinformatics	3
ENY 4161	Insect Classification	3
FNR 2062		3
FNR 3004	Forests, Conservation, and People	3
FNR 3131C	Dendrology/Forest Plants	3
FNR 3133C	Tree Biology	3
FNR 3500C	Forest Ecology	3
FNR 4510	Global Forests	3
HOS 3305	Introduction to Plant Molecular Biology	3
HOS 4304	Horticultural Physiology	3
HOS 4313C	Laboratory Methods in Plant Molecular Biology	2
HOS 4341	Advanced Horticultural Physiology	3
MCB 4304	Genetics of Microorganisms	3
MCB 4320C	The Microbiome	3
MCB 4503	General Virology	3
MCB 4652	Environmental Microbiology	3
ORH 3513C	Environmental Plant Identification and Use	3
ORH 3773	Public Gardens	2
ORH 3815C	Florida Native Landscaping	3
PCB 4553	Population Genetics	4
PCB 5338	Principles of Ecosystem Ecology	3
PLP 2060	Fungus among Us: Mushrooms, Molds and Civilization	3
PLP 3230	Survey of Plant Pathogens	3
PLS 2003C	Plants That Feed the World	3
PLS 3223	Plant Propagation	3
& 3223L	and Plant Propagation Laboratory	
PLS 4601C	Principles of Weed Science	3

Relevant Minors and Certificates

Students majoring in botany can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. Note that botany majors cannot minor in biology or chemistry, nor can biology majors minor in botany (the curricula for the botany and biology majors are too similar).

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their BS in botany and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (https://education.ufl.edu/uf-teach/)

Research

Botany majors are strongly encouraged to participate in research, and research is required for the Botanical Research specialization. Research experience is valuable on many levels: it diversifies the college experience; it teaches students how scientists apply the knowledge gained in the classroom to real world questions; it provides the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting edge scientific questions and techniques; it can enhance a student's resume/CV when applying to graduate or professional school; and, finally, it is essential in helping students determine if science is a good career choice.

CLAS Biology, Botany, and Zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Students who plan to enroll for course credit must contact potential research mentors, develop a project, and turn in the required application and proposal no later than the week of drop/add. If the window is missed, students should still contact potential research mentors to discuss upcoming opportunities.
More Info (https://biology.ufl.edu/undergraduates/research/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1089).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, including lab: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L or BOT 2011C, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 1147 or MAC 2311 or STA 2023
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, including labs
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, including labs, with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs, with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete at least 2 required courses for this specialization
- 2.0 UF GPA required

Semester 7

- Complete one of the remaining Required Foundation courses: CHM 2200/CHM 2200L, PHY 2004/PHY 2004L, MAC 1147/MAC 2311, or STA 2023/COP 2800/COP 3275/BSC 2891
- Complete at least 2 additional (4 total) required courses for this specialization
- 2.0 UF GPA required

Semester 8

- Complete all remaining major course requirements
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
Select one:		3-4
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; Gen Ed Biological Sciences; Natural Science Laboratory) [2]	
BOT 2010C	Introductory Botany (**Critical Tracking**; Gen Ed Biological Sciences)	
Select one:		4
MAC 1147	Algebra and Trigonometry (**Critical Tracking**; State Core Gen Ed Mathematics)	
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	
State Core Gen Ed Composition (p. 80); Writing Requirement		3
	Credits	**13-14**
Semester Two		
Select one:		4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences)	
BOT 2011C	Plant Diversity (**Critical Tracking**; Gen Ed Biological Sciences)	
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
Gen Ed Composition; Writing Requirement		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Elective		2
	Credits	**16**
Semester Three		
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	4
Quest 2		3
State Core Gen Ed Humanities (p. 80)		3
CLAS Foreign Language Proficiency Requirement [1]		4-5
	Credits	**14-15**
Semester Four		
PHY 2004 & 2004L	Applied Physics 1 and Laboratory for Physics 2004 (**Critical Tracking**)	4
Select one:		3
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	
COP 2800	Computer Programming Using JAVA (or equivalent; **Critical Tracking**)	
COP 3275	Computer Programming Using C (or equivalent; **Critical Tracking**)	
BSC 2891	Python Programming for Biology (**Critical Tracking**)	
CLAS Foreign Language Proficiency Requirement [1]		3-5
Elective (or Gen Ed Mathematics if STA2023 not selected)		3
	Credits	**13-15**
Semester Five		
CHM 2200 & 2200L	Fundamentals of Organic Chemistry and Fundamentals of Organic Chemistry Laboratory (**Critical Tracking**)	4
Select one:		3-4
PCB 4043C	General Ecology (**Critical Tracking**)	
PCB 3601C	Plant Ecology (**Critical Tracking**)	
BOT 3151C	Local Flora of North Florida (**Critical Tracking**)	
BSC 3307C	Climate Change Biology (**Critical Tracking**)	
PCB 4674	Evolution (**Critical Tracking**)	4
Elective (or CLAS Foreign Language Proficiency Requirement if 4-3-3 language option) [1]		3
	Credits	**14-15**
Semester Six		
AGR 3303 or PCB 3063	Genetics (**Critical Tracking**) or Genetics	3-4
BOT 2710C	Practical Plant Taxonomy (**Critical Tracking**)	3

BOT 4935/5225C or PCB 3023	Special Topics (Plant Anatomy; **Critical Tracking**) or Essential Cell Biology	3-4
Gen Ed Social and Behavioral Sciences		3
Gen Ed Humanities		3
	Credits	**15-17**
Semester Seven		
BOT 3503 & 3503L	Physiology and Molecular Biology of Plants and Physiology and Molecular Biology of Plants Laboratory (**Critical Tracking**)	5
Select one:		3-4
PCB 4043C	General Ecology (**Critical Tracking**)	
PCB 3601C	Plant Ecology (**Critical Tracking**)	
BOT 3151C	Local Flora of North Florida (**Critical Tracking**)	
BSC 3307C	Climate Change Biology (**Critical Tracking**)	
Approved botany electives		4
Electives		5
	Credits	**17-18**
Semester Eight		
BSC 4936	Critical Analysis of Biological Research	2
Biodiversity breadth courses		4
Gen Ed Humanities		3
Gen Ed Social and Behavioral Science		3
Electives		6
	Credits	**18**
	Total Credits	**120**

Academic Learning Compact

The Botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, and explain the basic terminology, concepts, methodologies, and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
BOT 2011C	R	R		I
BOT 2710	R	R		R
BOT 3503 and BOT 3503L	R/A	R/A		R/A
BSC 2010	I	I	I	
BSC 2011	I	I		
PCB 3601C	R/A	R/A	R/A	R/A
PCB 4043C	R/A	R/A	R/A	R/A

Assessment Types

- Major field test for biology
- Bioethics quiz
- Scientific paper

Chemistry Minor

The Chemistry minor provides a solid foundation in general, organic, and analytical chemistry, while enhancing critical thinking and analytical skills.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 20-26 | Completed with minimum grades of C

Department Information

The Department of Chemistry is a comprehensive department granting bachelor's, master's, and PhD degrees with specialization in all areas including biochemistry, nanochemistry, analytical, inorganic, organic, physical, polymer, synthetic, and theoretical chemistry. The University of Florida ranks in the top five chemistry departments nationally in PhD production and is among the top 20 in bachelor's graduates.

GAINESVILLE FL 32611-7200
Map (http://campusmap.ufl.edu/#/index/0009)

Curriculum

- Chemistry Minor
- Chemistry | Biochemistry

At least nine chemistry credits applied toward the minor must be completed at UF. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward other majors or minors.

Students pursuing majors in biology-biotechnology, botany or chemical engineering are not eligible to receive this minor.

Required Courses

Code	Title	Credits
General Chemistry Sequence		
Select Option A or Option B: [1]		5-8
Option A		
Select one Chemistry 1 lecture:		
CHM 2045	General Chemistry 1	
CHM 2050	Honors General Chemistry 1 for Majors	
CHM 2095	Chemistry For Engineers 1	
Select one Chemistry 1 lab:		
CHM 2045L	General Chemistry Laboratory	
CHM 2095L	Applied General Chemistry 1 Lab	
Select one Chemistry 2 lecture:		
CHM 2046	General Chemistry 2	
CHM 2051	Honors General Chemistry 2	
CHM 2096	Applied General Chemistry 2	
Select one Chemistry 2 lab:		
CHM 2046L	General Chemistry 2 Laboratory	
CHM 2096L	Applied General Chemistry 2 Lab	
Option B		
CHM 2047 & 2047L	One-Semester General Chemistry and One-Semester General Chemistry Laboratory	
Analytical Chemistry Sequence		
CHM 3120 & 3120L	Introduction to Analytical Chemistry and Analytical Chemistry Laboratory	4
Organic Chemistry Sequence		
Select one option:		8-10

Option A		
CHM 2210	Organic Chemistry 1	
CHM 2211	Organic Chemistry 2	
& 2211L	and Organic Chemistry Laboratory	
Option B		
CHM 3217	Organic Chemistry/Biochemistry 1	
CHM 3218	Organic Chemistry/Biochemistry 2	
CHM 2211L	Organic Chemistry Laboratory	
Additional Upper Level Course		**3-4**
Select one:		
CHM 3218	Organic Chemistry/Biochemistry 2 [2]	
CHM 3400	Physical Chemistry for the Biosciences	
CHM 3610	Inorganic Chemistry	
CHM 4000-level course [3]		
Total Credits		**20-26**

1 CHM 2054L may be substituted for CHM 2045L/CHM 2046L or CHM 2047L.
2 If organic chemistry sequence is met with CHM 2210/CHM 2211/CHM 2211L.
3 Except CHM 4905, CHM 4910, or CHM 4940.

Chemistry | Biochemistry

Chemistry is often called the *central science* because of the pivotal role it plays in the biological and physical sciences, as well as in engineering, agriculture, medicine, and allied health disciplines. Bachelor's degree chemists choose from diverse paths for their short-term and lifetime careers, including graduate study in a variety of programs, rewarding employment in industry or government laboratories, professional or law school, or much-needed teaching in high schools.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Science
- **Specializations:** Biochemistry (p. 1219) | Chemistry (p. 1226)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Chemistry is a comprehensive department granting bachelor's, master's, and PhD degrees with specialization in all areas including biochemistry, nanochemistry, analytical, inorganic, organic, physical, polymer, synthetic, and theoretical chemistry. The University of Florida ranks in the top five chemistry departments nationally in PhD production and is among the top 20 in bachelor's graduates.

GAINESVILLE FL 32611-7200
Map (http://campusmap.ufl.edu/#/index/0009)

Curriculum

- Chemistry Minor
- Chemistry | Biochemistry

Students can choose the Chemistry specialization, which is comparable to that offered in any major university, or the Biochemistry specialization, which is designed to give more flexibility to students wanting to pursue courses with biological focus. The department encourages students in either specialization to include undergraduate research with one of the department's internationally recognized faculty as a component of the undergraduate experience. Undergraduate research will frequently result in journal publications and presentations at scientific meetings.

Requirements for the Majors

The Chemistry major requires a total of 55-60 credits including 25-30 credits of foundation coursework and 30 credits of major coursework.

The Biochemistry major requires a total of 62-69 credits including 29-34 credits of foundation coursework and 33-35 credits of major coursework.

Required coursework will depend upon the program chosen. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

For either specialization, all required courses must be completed within two attempts with minimum grades of C.

RECOMMENDED COURSEWORK

The chemistry program at the University of Florida is approved by the American Chemistry Society (ACS). Students completing a baccalaureate degree in the standard Chemistry track may enhance their undergraduate experience by completing an ACS-certified degree. The ACS-certified degree is comprised of foundational coursework from each of the five subdisciplines of chemistry (analytical, biochemistry, inorganic, physical, and organic), as well as additional in-depth courses and laboratory experiences.

The following coursework and lab experiences are necessary to satisfy the requirements for ACS certification:

- Completion of all coursework for the standard Chemistry track
- CHM 3218 (4 credits)
- CHM 3610L (2 credits)
- An additional 4000-level CHM lecture course (2-3 credits)
- An additional 4000-level CHM laboratory course or CHM 4910 (2-3 credits)

Course Details

Introduction to Chemistry

CHM 1025, a two-credit course, is offered for students who need to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence:

Code	Title	Credits
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry Laboratory	
CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory	

A placement exam is offered via ONE.UF (https://one.uf.edu/) and the score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

Chemistry

The following chemistry offerings are available:

- CHM 1030/CHM 1031 is a terminal sequence for non-science students that presents chemistry from a medical and nursing perspective.
- CHM 1020 is a terminal General Education course that explores chemistry in terms of society.
- CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the chemistry sequence and is an acceptable preprofessional requirement for many science and engineering majors. Students are presumed to have good backgrounds in high school chemistry and mathematics (through MAC 1147) and are expected to pass the placement exam offered via ONE.UF (https://one.uf.edu/) **before** registering for CHM 2045.
- CHM 2095/CHM 2045L and CHM 2096/CHM 2046L is an alternative chemistry sequence especially designed for engineering majors.
- CHM 2047/CHM 2047L is a one-semester program for entering first-year students with strong backgrounds in chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
- CHM 2051 is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.
- CHM 2054L is a 2-credit, inquiry-based lab focusing on major concepts in chemistry and their application to quantitative life-sciences research. This course is equivalent to CHM 2045L and CHM 2046L or CHM 2047L.

Placement

For placement into the appropriate first course in chemistry, please refer to the Academic Advising section or consult a chemistry advisor. All students should complete their chemistry studies at the same institution.
More Info (p. 1882)

Minors and Certificates

UFTeach Program

There is a severe shortage of qualified high school chemistry teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a chemistry advisor about the UFTeach program. UFTeach students complete the UFTeach minor in science teaching with their BS in Chemistry and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Academic Learning Compact

Chemistry is the study of matter: the structure and properties of matter, the transformations from one form of matter to another, and the energy transformations associated with these transformations.

Before Graduating Students Must

- Achieve at least 50% on the Diagnostic of Undergraduate Chemistry Knowledge (DUCK) exam.
- Obtain minimum grades of C in laboratory courses:

Code	Title	Credits
CHM 2211	Organic Chemistry 2	3
CHM 3120L	Analytical Chemistry Laboratory	1
CHM 4130L	Instrumental Analysis Laboratory	2
CHM 4411L	Physical Chemistry Laboratory	2
or CHM 4413L	Biophysical Chemistry Laboratory	

- Complete requirements for the baccalaureate degree, as determined by the chemistry faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1.
   - **Standard Chemistry**
     Explain and apply facts, theories and concepts in
     i. physical
     ii. organic
     iii. inorganic
     iv. analytical chemistry
   - **Biochemistry**
     Explain and apply facts, theories and concepts in
     i. physical
     ii. organic
     iii. inorganic
     iv. analytical chemistry
     v. biochemistry
2.
   - **Standard Chemistry**
     Demonstrate and safely apply laboratory skills in
     i. synthetic
     ii. quantitative
     iii. instrumental methods as scientific approaches to gathering and verifying knowledge
   - **Biochemistry**
     Apply laboratory skills in
     i. synthetic
     ii. quantitative
     iii. instrumental
     iv. biochemical methods as scientific approaches to gathering and verifying knowledge

Critical Thinking

3. **Standard Chemistry and Biochemistry**
   Interpret, evaluate, explain and critically assess theories and experimental results in chemistry or biochemistry.

Communication

4. **Standard Chemistry and Biochemistry**
   Collect, analyze and articulate results clearly and effectively in both oral and written formats.

Biochemistry

Chemistry is often called the *central science* because of the pivotal role it plays in the biological and physical sciences, as well as in engineering, agriculture, medicine, and allied health disciplines. Bachelor's degree chemists choose from diverse paths for their short-term and lifetime careers,

including graduate study in a variety of programs, rewarding employment in industry or government laboratories, professional or law school, or much-needed teaching in high schools.

About this Program

- **Specializations:** Biochemistry (p. 1219) | Chemistry (p. 1226)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Chemistry is a comprehensive department granting bachelor's, master's, and PhD degrees with specialization in all areas including biochemistry, nanochemistry, analytical, inorganic, organic, physical, polymer, synthetic, and theoretical chemistry. The University of Florida ranks in the top five chemistry departments nationally in PhD production and is among the top 20 in bachelor's graduates.

Curriculum

- Chemistry Minor
- Chemistry | Biochemistry

Students can choose the Chemistry specialization, which is comparable to that offered in any major university, or the Biochemistry specialization, which is designed to give more flexibility to students wanting to pursue courses with biological focus. The department encourages students in either specialization to include undergraduate research with one of the department's internationally recognized faculty as a component of the undergraduate experience. Undergraduate research will frequently result in journal publications and presentations at scientific meetings.

Requirements for the Major

The Biochemistry major requires a total of 62-69 credits including 29-34 credits of foundation coursework and 33-35 credits of major coursework. All required courses must be completed within two attempts with minimum grades of C.

Code	Title	Credits
Required Foundation Coursework		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory	4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2	4
Select one option:		5-8
Option A [1]		
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory	
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory	
Option B		
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory	
CHM 2051 & CHM 2046L	Honors General Chemistry 2 and General Chemistry 2 Laboratory	
Option C		
CHM 2047 & 2047L	One-Semester General Chemistry and One-Semester General Chemistry Laboratory [1]	
MAC 2311 & MAC 2312	Analytic Geometry and Calculus 1 and Analytic Geometry and Calculus 2	8

Select one option:		8-10
Option A		
PHY 2053	Physics 1	
& 2053L	and Laboratory for PHY 2053	
PHY 2054	Physics 2	
& 2054L	and Laboratory for PHY 2054

UFTeach Program

There is a severe shortage of qualified high school chemistry teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a chemistry advisor about the UFTeach program. UFTeach students complete the UFTeach minor in science teaching with their BS in Chemistry and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (https://education.ufl.edu/uf-teach/)

Required Exit Exam

Students must also complete the exit exam (Diagnostic of Undergraduate Chemistry Knowledge) with a minimum score of 30 out of 60.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete one CHM course and one MAC course
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.50 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.65 critical-tracking GPA any additional CHM courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 5

- Complete MAC 2312 and CHM 2212, CHM 2210, or CHM 3217
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 6

- Complete CHM 3120/CHM 3120L, and CHM 2213/CHM 2211L or CHM 2211/CHM 2211L
- 2.0 UF GPA required

Semester 7

- Complete CHM 3218 and at least 1 of the remaining CHM 3XXX/4XXX or Biochemistry elective required courses
- 2.0 UF GPA required

Semester 8

- Complete all of the remaining CHM 3XXX/4XXX and Biochemistry elective required courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

MAC 2312, MCB 3020, PHY 2049, PHY 2049L, PHY 2054, PHY 2054L, and Biochemistry electives outside of the Chemistry department count towards 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

CHM 4411L	Physical Chemistry Laboratory	2
MAP 2302	Elementary Differential Equations (encouraged)	
Total Credits		**55-60**

CHM 2095/CHM 2095L and CHM 2096/CHM 2096L can substitute for CHM 2045/CHM 2045L and CHM 2046/CHM 2046L for students who switched majors from engineering

Required Exit Exam

Students must also complete the exit exam (Diagnostic of Undergraduate Chemistry Knowledge) with a minimum score of 30 out of 60.

The required courses in the Chemistry major are generally offered every Fall and Spring. Because of budgetary and other restrictions, Summer schedules cannot be predetermined and required courses generally are offered in Summer C (12 weeks).

Recommended Coursework

The Chemistry program at the University of Florida is approved by the American Chemistry Society (ACS). Students completing a baccalaureate degree in the standard Chemistry specialization may enhance their undergraduate experience by completing an ACS-certified degree. The ACS-certified degree is comprised of foundational coursework from each of the five subdisciplines of Chemistry (analytical, biochemistry, inorganic, physical, and organic), as well as additional in-depth courses and laboratory experiences.

The following coursework and lab experiences are necessary to satisfy the requirements for ACS certification:

- Completion of all coursework for the standard Chemistry specialization
- CHM 3218 (https://catalog.ufl.edu/search/?P=CHM%203218)
- CHM 3610L (https://catalog.ufl.edu/search/?P=CHM%203610L)
- An additional 4000-level CHM lecture course (2-3 credits)

An additional 4000-level CHM laboratory course or CHM 4910 (https://catalog.ufl.edu/search/?P=CHM%204910)

UFTeach Program

There is a severe shortage of qualified high school chemistry teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a chemistry advisor about the UFTeach program. UFTeach students complete the UFTeach minor in science teaching with their BS in Chemistry and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (https://education.ufl.edu/uf-teach/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1089).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete one CHM course and one MAC course
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.50 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and MAC 2312
- 2.65 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 4

- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 5

- Complete MAC 2313; and CHM 2212 or CHM 2210
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 6

- Complete CHM 3120/CHM 3120L, and CHM 2213/CHM 2211L or CHM 2211/CHM 2211L
- 2.0 UF GPA required

Semester 7

- Complete 2 of the remaining CHM 3XXX/4XXX required courses
- 2.0 UF GPA required

Semester 8

- Complete all of the remaining 3XXX/4XXX required courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, and PHY 2054L count towards 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences; Natural Science Laboratory) [3]	4
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
	Credits	**14**
Semester Two		
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	4
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; Gen Ed Mathematics)	4
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Humanities (p. 80)		3
Gen Ed Biological Sciences		3
	Credits	**17**
Semester Three		
CHM 2212	Organic Chemistry 1 for Majors (**Critical Tracking**)	3
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics)	4
Select one:		3-4
PHY 2048	Physics with Calculus 1 (Gen Ed Physical Sciences)	
PHY 2053	Physics 1 (Gen Ed Physical Sciences)	
Select one:		1
PHY 2048L	Laboratory for PHY 2048 (Gen Ed Physical Sciences)	
PHY 2053L	Laboratory for PHY 2053 (Gen Ed Physical Sciences)	
Quest 2		3
	Credits	**14-15**

Semester Four		
CHM 2213 & CHM 2211L	Organic Chemistry 2 for Majors and Organic Chemistry Laboratory (**Critical Tracking**)	5
Select one:		3-4
PHY 2049	Physics with Calculus 2 (Gen Ed Physical Sciences)	
PHY 2054	Physics 2 (Gen Ed Physical Sciences)	
Select one:		1
PHY 2049L	Laboratory for PHY 2049 (Gen Ed Physical Sciences)	
PHY 2054L	Laboratory for PHY 2054 (Gen Ed Physical Sciences)	
CLAS Foreign Language Proficiency Requirement [2]		4-5
Elective		1
	Credits	**14-16**
Semester Five		
CHM 3120 & 3120L	Introduction to Analytical Chemistry and Analytical Chemistry Laboratory (**Critical Tracking**) [1]	4
Gen Ed Biological Sciences		3
Gen Ed Humanities		3
Gen Ed Social and Behavioral Sciences		3
CLAS Foreign Language Proficiency Requirement [2]		3-5
	Credits	**16-18**
Semester Six		
CHM 4130 & 4130L	Instrumental Analysis and Instrumental Analysis Laboratory	5
CHM 4411	Physical Chemistry: Thermodynamics and Kinetics	4
Gen Ed Composition; Writing Requirement		3
Elective (or CLAS Foreign Language Proficiency Requirement if 4-3-3 language option) [2]		3
	Credits	**15**
Semester Seven		
CHM 3610	Inorganic Chemistry	3
CHM 4411L	Physical Chemistry Laboratory	2
CHM 4412	Physical Chemistry: Chemical Bonding and Spectroscopy	4
Gen Ed Social and Behavioral Sciences		3
Gen Ed Humanities		3
	Credits	**15**
Semester Eight		
Electives (3000 level or above, not in department)		6
Electives		9
	Credits	**15**
	Total Credits	**120**

1 Take CHM 3120/CHM 3120L after CHM 2046/CHM 2046L, but no later than the first semester of the third year.

2 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

3 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

Chemistry is the study of matter: the structure and properties of matter, the transformations from one form of matter to another, and the energy transformations associated with these transformations.

Before Graduating Students Must

- Achieve at least 50% on the Diagnostic of Undergraduate Chemistry Knowledge (DUCK) exam.
- Obtain minimum grades of C in laboratory courses:

Code	Title	Credits
CHM 2211	Organic Chemistry 2	3
CHM 3120L	Analytical Chemistry Laboratory	1
CHM 4130L	Instrumental Analysis Laboratory	2

CHM 4411L	Physical Chemistry Laboratory	2
or CHM 4413L	Biophysical Chemistry Laboratory	

- Complete requirements for the baccalaureate degree, as determined by the chemistry faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1.
   - **Standard Chemistry**
     Explain and apply facts, theories and concepts in
     i. physical
     ii. organic
     iii. inorganic
     iv. analytical chemistry
   - **Biochemistry**
     Explain and apply facts, theories and concepts in
     i. physical
     ii. organic
     iii. inorganic
     iv. analytical chemistry
     v. biochemistry
2.
   - **Standard Chemistry**
     Demonstrate and safely apply laboratory skills in
     i. synthetic
     ii. quantitative
     iii. instrumental methods as scientific approaches to gathering and verifying knowledge
   - **Biochemistry**
     Apply laboratory skills in
     i. synthetic
     ii. quantitative
     iii. instrumental
     iv. biochemical methods as scientific approaches to gathering and verifying knowledge

Critical Thinking

3. **Standard Chemistry and Biochemistry**
   Interpret, evaluate, explain and critically assess theories and experimental results in chemistry or biochemistry.

Communication

4. **Standard Chemistry and Biochemistry**
   Collect, analyze and articulate results clearly and effectively in both oral and written formats.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Assessment Types for Both Specializations

- Oral tests or reports
- Written reports
- Lab practicals

Chinese

Foreign Languages and Literatures

The Chinese specialization in foreign languages and literatures develops proficiency in the Chinese language and acquaints students with the literature and cultural history of China. Courses are also available for those interested in business Chinese, classical Chinese, film, and women's studies.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

- Russian and East-European Area Studies Certificate
- Russian Minor

The BA in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Chinese specialization of the Foreign Languages and Literatures major provides a foundation for graduate-level work in East Asian studies or allied fields (anthropology, art history, history, linguistics, political science and religion). The major is excellent general preparation for entry to professional schools (business, journalism, law and medicine) or careers in foreign service, commerce, diplomacy, translation, business, import and export of information and culture, museums, libraries, and tourism.

Requirements for the Major

The Chinese specialization of the Foreign Languages and Literatures major consists of preparatory language study at the lower division (1000 and 2000 level), and 33 credits of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Code	Title	Credits
Required Foundation Coursework		
Total depends on placement in language courses		
CHI 1130	Beginning Chinese 1	5

Comparative Cultural Studies		
Film and Visual Culture		
Literary Studies		
Medieval and Early Modern Studies		
Total Credits		**51-53**

1 Although courses may appear in more than one group they may be counted toward only one group.

2 Recommended for those planning to pursue careers requiring advanced level skills in Chinese or graduate work in Chinese studies.

Students must take the Chinese STAMP 4s Proficiency Test or the equivalent, with level 4 or above proficiency, during or immediately following the second semester of Advanced Chinese or other advanced level course.

Students also must achieve satisfactory faculty evaluation of a self-selected research term paper written for an upper-division course or senior thesis.

Overseas Study

UF in Chengdu at Southwestern University of Finance and Economics is a summer program that provides the equivalent of the UF courses Intermediate Chinese 1 and 2 (CHI 2230/CHI 2231) and Advanced Chinese 1 and 2 (CHI 3410/CHI 3411) through a 10-week summer session, and uses the same syllabus and required textbooks. Its transfer-credit program features courses in English, CHI 4930 and CHI 4956, that also may apply toward the Chinese specialization.

Placement

Students with previous training in Chinese, as well as those with heritage background in the language, should consult the undergraduate coordinator or the language coordinator of the Chinese specialization before enrolling in any CHI or CHW course. Placement tests are given at the start of each semester; refer to the Department of Languages, Literatures and Cultures for location and times.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete CHI 1130 or higher level language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete CHI 1131 or higher level language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete CHI 2230 or higher level language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete CHI 2231 or a higher-level Chinese language course with a minimum grade of C
- Complete 2 Advanced Elective courses with a minimum grade of C
- 2.0 UF GPA required

Semester 7

- Complete CHI 3410 or a higher-level Chinese language course with a minimum grade of C
- Complete 2 Advanced Elective courses with a minimum grade of C
- Complete 1 Critical Concentration course with a minimum grade of C
- 2.0 UF GPA required

Semester 8

- Complete CHI 3411 or a higher-level Chinese language course with a minimum grade of C
- Complete 2 Advanced Elective courses with a minimum grade of C
- Complete 2 Critical Concentration courses with a minimum grade of C
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

Actual courses may be different depending on language preparation and availability of courses. In particular, beginning language is best started semester 1 and no later than semester 3, but study abroad or accredited intensive summer courses can be used to catch up.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

[1] Courses focus on the acquisition of the language(s) of specialization at the advanced level.
[2] Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Classical Studies

Classical Studies is an interdisciplinary major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Specializations:** Ancient Language (p. 1244) | Classical Civilization (p. 1249) | Modern Greek (p. 1254) | Teacher Certification (p. 1259)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

GAINESVILLE FL 32611-7435
Map (http://campusmap.ufl.edu/#/index/0111)

Curriculum

- Classical Studies
- Classical Studies Minor
- Greek Studies Minor

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

Specializations

Ancient Language

For students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs need a minimum of three years of upper-division courses in ancient Greek or Latin and an additional year in the remaining language.

Classical Civilization

For those who desire a broad humanities background or are considering admission to graduate school in archaeology, ancient history or an unrelated field such as medicine or law. Students interested in admission to competitive graduate programs in archaeology or ancient history should consult the Department of Classics' undergraduate coordinator for information on specific requirements.

Modern Greek

For students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

Teacher Certification

Students who want to be high-school Latin teachers should follow the Teacher Certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

Requirements for the Major

Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.

Overseas Studies

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

Placement

Refer to Placement Testing and Evaluation for information on placement into Latin.

Academic Learning Compact

The Bachelor of Arts in Classical Studies, with specializations in classical civilization, ancient language, teacher certification, or modern Greek studies provides a strong foundation in the liberal arts through study of the language, literature, monuments, and history of ancient Greece and Rome. Students will develop linguistic, critical thinking, and writing skills while gaining knowledge of classical civilization. Students also will explore the connection between the ancient and modern worlds and discover the contributions of classical culture to western civilization.

Before Graduating Students Must

- Successfully complete a department capstone course for majors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

- Greek Studies Minor

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

The Ancient Language track is designed for students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs need a minimum of three years of upper-division courses in ancient Greek or Latin and an additional year in the remaining language.

Requirements for the Major

For the Ancient Language specialization of the Classical Studies major students must complete 21credits of major coursework and 0-10 credits of Ancient Language foundation coursework for a total of 21-40 credits. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied.

The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

Ancient Language

Required Coursework

Students must demonstrate proficiency in Latin or ancient Greek through one of these four options:

1. 8-10 credits of beginning Latin or beginning ancient Greek:

Code	Title	Credits
Select one beginning Latin option: [1]		10
Option A		
LAT 1120	Beginning Latin 1	
LAT 1101	Beginning Latin 2	
LAT 1104	Beginning Latin 3	
Option B		
LAT 1130	Accelerated Beginning Latin 1	
LAT 1131	Accelerated Beginning Latin 2	
OR		
Select one beginning ancient Greek option:		8-10
Option A		
GRE 1120	Beginning Ancient Greek 1	
GRE 1121	Beginning Ancient Greek 2	
Option B		
GRE 1130	Accelerated Beginning Ancient Greek 1	
GRE 1131	Accelerated Beginning Ancient Greek 2	

[1] Students with high school Latin complete the sequence based upon their score on the SAT II Latin test (or other placement mechanism).

2. A score of 3 or above on one of the AP Latin exams (Latin Literature or Vergil).
3. Completion of LNW 2630 or a 2000-level ancient Greek course.
4. A 3000-level course in the original Latin or Greek literature.

Required Major Coursework

Code	Title	Credits
Core Courses		
Latin/Greek Major Courses		
Four courses at the 3000 level or above in Latin or Greek or a combination of Greek and Latin. [1]		12
CLA 4931	Classics Capstone Seminar	3
Major Electives - Ancient Graeco-Roman World courses (in English translation)		
3000/4000-level on the ancient Graeco-Roman world (in English translation) from the Department of Classics [2]		3
1000 to 4000-level course on the ancient Graeco-Roman world (in English translation) from the Department of Classics [2]		3
Total Credits		**21**

[1] Students who complete the language requirement using a 3000-level course in Latin or Greek literature need only three Latin or Greek courses at the 3000 level or above.

[2] The undergraduate coordinator may approve courses from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion to meet this requirement.

Students planning to go to graduate school in classical languages and literature will need more credits in ancient languages.

Overseas Studies

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

Placement

Refer to Placement Testing and Evaluation for information on placement into Latin.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete one Latin or ancient Greek course [1]
- 2.0 UF GPA required

Semester 3

- 2.0 UF GPA required

Semester 4

- Complete one additional Latin or ancient Greek course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete two Latin or ancient Greek courses with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete 2 of the remaining required courses
- 2.0 UF GPA required

Semester 7

- Complete all of the remaining required courses
- 2.0 UF GPA required

Semester 8

- Complete CLA 4931 (Capstone)
- 2.0 UF GPA required

[1] Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Curriculum

- Classical Studies
- Classical Studies Minor
- Greek Studies Minor

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

The Classical Civilization specialization is designed for those who desire a broad humanities background or are considering admission to graduate school in archaeology, ancient history or an unrelated field such as medicine or law. Students interested in admission to competitive graduate programs in archaeology or ancient history should consult the Department of Classics' undergraduate coordinator for information on specific requirements.

Requirements for the Major

For the Classical Civilization specialization of the Classical Studies major, students must complete 24 credits of major coursework plus 3-10 credits of foundation coursework in Latin or beginning Ancient Greek language. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied.

The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

Required Foundation Coursework

Students must demonstrate proficiency in Latin or ancient Greek through one of these four options:

10 credits of beginning Latin or beginning ancient Greek:

Code	Title	Credits
Select one beginning Latin option: [1]		10
Option A		
LAT 1120	Beginning Latin 1	
LAT 1101	Beginning Latin 2	
LAT 1104	Beginning Latin 3	
Option B		
LAT 1130	Accelerated Beginning Latin 1	
LAT 1131	Accelerated Beginning Latin 2	
OR		
Select one beginning ancient Greek option:		8-10
Option A		
GRE 1120	Beginning Ancient Greek 1	
GRE 1121	Beginning Ancient Greek 2	
Option B		
GRE 1130	Accelerated Beginning Ancient Greek 1	
GRE 1131	Accelerated Beginning Ancient Greek 2	

[1] Students with high school Latin complete the sequence based upon their score on the SAT II Latin test (or other placement mechanism).

1. A score of 3 or above in one of the AP Latin exams (Latin Literature or Vergil).
2. Completion of LNW 2630 or a 2000-level ancient Greek course.
3. A 3000-level course in the original Latin or Greek literature.

Required Major Coursework

Code	Title	Credits
Core Courses		
Ancient Graeco-Roman World Major Courses		
3000/4000-level courses covering the ancient Graeco-Roman world (in English translation) from the Department of Classics (or approved courses from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion.)		15
1000 to 4000-level courses covering the ancient Graeco-Roman world (in English translation) from the Department of Classics (or approved courses from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion.) [1]		6
CLA 4931	Classics Capstone Seminar	3
Total Credits		**24**

[1] Modern Greek may be taken for the six credits at the 1000/2000 level.

Overseas Studies

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

Placement

Refer to Placement Testing and Evaluation for information on placement into Latin.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete one Latin or ancient Greek course [1]
- 2.0 UF GPA required

Semester 3

- 2.0 UF GPA required

Semester 4

- Complete one additional Latin or ancient Greek course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete two additional Latin or ancient Greek courses with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete 2 of the remaining required courses
- 2.0 UF GPA required

Semester 7

- Complete all of the remaining required courses
- 2.0 UF GPA required

Semester 8

- Complete CLA 4931 (Capstone)
- 2.0 UF GPA required

[1] Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The Bachelor of Arts in Classical Studies, with specializations in classical civilization, ancient language, teacher certification, or modern Greek studies provides a strong foundation in the liberal arts through study of the language, literature, monuments, and history of ancient Greece and Rome. Students will develop linguistic, critical thinking, and writing skills while gaining knowledge of classical civilization. Students also will explore the connection between the ancient and modern worlds and discover the contributions of classical culture to western civilization.

Before Graduating Students Must

- Successfully complete a department capstone course for majors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Translate passages of Latin, ancient Greek, or Modern Greek literature into English.

Critical Thinking

2. Recognize and explain the connection between the ancient and modern worlds and the contribution of Classical culture to Western civilization.

Communication

3. Write competently in Latin, ancient Greek, or Modern Greek using correct grammar and vocabulary of one or more of these languages. For Modern Greek, speak and comprehend competently.

Modern Greek

Classical Studies is an interdisciplinary major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin

or ancient Greek. A fourth specialization in modern Greek offers instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek.

Curriculum

- Classical Studies
- Classical Studies Minor
- Greek Studies Minor

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

The Modern Greek specialization is designed for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

Requirements for the Major

For the Modern Greek specialization of the Classical Studies major, students must complete 24 credits of coursework plus 3-10 credits of required foundation coursework in Modern Greek language.. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied.

The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

Modern Greek

Required Foundation Coursework

Students in the modern Greek specialization are required to demonstrate proficiency in modern Greek by completing the beginning sequence of modern Greek (10 credits: GRK 1130 (https://catalog.ufl.edu/search/?P=GRK%201130) and GRK 1131 (https://catalog.ufl.edu/search/?P=GRK%201131)) or (with department approval) the intermediate modern Greek sequence (3-6 credits).

Required Core Coursework

Code	Title	Credits
Core Courses		
GRK 2200	Intermediate Modern Greek 1	3

Modern, Medieval, or Ancient Greek Major Courses		
Two courses at the 3000 level on the modern, medieval or ancient Greek world from the Department of Classics or approved courses from the departments of Anthropology, Art, European Studies, History, Philosophy, Political Science, Religion, and Women's Studies.		6
CLA 4931	Classics Capstone Seminar	3
Modern Greek, Byzantine Greek, Ancient Greek, or Latin Major Electives		
Four courses in modern Greek, Byzantine Greek, ancient Greek or Latin at the 3000 level or above, of which at least two courses must be in modern Greek		12
Total Credits		**24**

Study-abroad programs are recommended and supported with scholarships for the cultivation of greater fluency in modern Greek.

Overseas Studies

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

Students who want to be high-school Latin teachers should follow the Teacher Certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

Requirements for the Major

For the Teacher Certification specialization of the Classical Studies major, students must complete 30 credits of coursework in the major plus 3-10 credits of foundation coursework in Latin language. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied.

The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

Required Foundation Coursework

Students in this specialization must demonstrate proficiency in Latin by fulfilling one of these four options:

1.

Code	Title	Credits
Option 1 [1]		
LAT 1120	Beginning Latin 1	4
LAT 1101	Beginning Latin 2	3
LAT 1104	Beginning Latin 3	3
Option 2 [1]		
LAT 1130	Accelerated Beginning Latin 1	5
LAT 1131	Accelerated Beginning Latin 2	5

[1] Students with high school Latin complete the sequence based upon their score on the SAT II Latin test (or other placement mechanism).

2. A score of 3 or above in one of the AP Latin exams (Latin Literature or Vergil).
3. Completion of LNW 2630 (https://catalog.ufl.edu/search/?P=LNW%202630).
4. A 3000-level course in the original Latin literature.

Required Core Coursework

Code	Title	Credits
Core Courses		
Advanced Latin Courses		
Courses in Latin vocabulary, grammar, and composition		9
Courses in Latin literature (not in translation)		12
CLA 4931	Classics Capstone Seminar	3
Ancient Roman World Major Electives		
3000/4000-level course on the ancient Roman world (not in English translation) from the Department of Classics or from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion.		3
1000 to 4000-level course on the ancient Roman world (not in English translation) from the Department of Classics or from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion.		3
Total Credits		**30**

[1] Students planning to earn a state of Florida Latin teaching certificate need to make certain which courses dealing with Rome are appropriate for this option.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete one Latin or ancient Greek course [1]
- 2.0 UF GPA required

Semester 3

- 2.0 UF GPA required

Semester 4

- Complete one additional Latin or ancient Greek course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete two additional Latin or ancient Greek courses with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete 3 of the remaining required courses
- 2.0 UF GPA required

Semester 7

- Complete 4 of the remaining required courses
- 2.0 UF GPA required

Semester 8

- Complete all of the remaining required courses
- Complete CLA 4931 (Capstone)
- 2.0 UF GPA required

[1] Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The Bachelor of Arts in Classical Studies, with specializations in classical civilization, ancient language, teacher certification, or modern Greek studies provides a strong foundation in the liberal arts through study of the language, literature, monuments, and history of ancient Greece and Rome. Students will develop linguistic, critical thinking, and writing skills while gaining knowledge of classical civilization. Students also will explore the connection between the ancient and modern worlds and discover the contributions of classical culture to western civilization.

Before Graduating Students Must

- Successfully complete a department capstone course for majors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Translate passages of Latin, ancient Greek, or Modern Greek literature into English.

Critical Thinking

2. Recognize and explain the connection between the ancient and modern worlds and the contribution of Classical culture to Western civilization.

Communication

3. Write competently in Latin, ancient Greek, or Modern Greek using correct grammar and vocabulary of one or more of these languages. For Modern Greek, speak and comprehend competently.

Classical Studies Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Curriculum

- Classical Studies
- Classical Studies Minor
- Greek Studies Minor

The minor consists of five Greek, Latin, or classics courses. At least nine of these credits must be in courses at the 3000 level or above. Of the total credits, no more than three may be individual work.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
Greek, Latin, or classics courses (1000/2000 level)		6
Greek, Latin, or classics courses (3000/4000 level)		9
Total Credits		**15**

Communication Studies Minor

Effective communication skills at the personal and professional levels are essential prerequisites for success in today's world. The Communication Studies minor provides an interdisciplinary forum for the study of communication and the opportunity for students to add indispensable tools to their educational program.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 18 | Completed with minimum grades of C and no optional S/U
- **Contact:** 402 Rolfs Hall (http://campusmap.ufl.edu/?loc=0012) | 352.392.5421

Center Information

The William and Grace Dial Center for Speech and Communication Studies assists in preparing University of Florida students to speak and write effectively using the major conventions governing the presentation of knowledge in their chosen disciplines. Additionally, the students gain an understanding of the importance of communicating information from within their discipline to general audiences.

Curriculum

- Communication Studies Minor

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

No more than three credits of SPC 4905, SPC 2594, or RTV 2405 may substitute for a 3000-level course.

Required Courses

Code	Title	Credits
Select two:		6
COM 1000	Introduction to Communication Studies	
SPC 2300	Introduction to Interpersonal Communication	
SPC 2608	Introduction to Public Speaking	
COM or SPC course within the Dial Center [1]		3
COM or SPC courses within the Dial Center (3000/4000 level) [1]		9
Total Credits		**18**

[1] SPC 4680 is not accepted for the communication studies minor.

Community Engagement Certificate

Providing students opportunities to translate their classroom learning into applications and activities via experiential learning and community engagement in real-world settings is key to fostering a prepared workforce of scholars and professionals. This certificate in Community Engagement equips students to understand community engagement related to key social issues. It provides students with opportunities to build knowledge of various agencies and organizations. It includes opportunities for translating knowledge about key issues into application, experiential learning, and community engaged activities.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 9 | Completed with minimum grades of C
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The Department of Gender, Sexuality, and Women's Studies offers academic programs, grants graduate and undergraduate degrees, and advances research in the discipline. Faculty in the department successfully compete for national fellowships and grants, win research and teaching awards, and produce rigorous and transformative research.

- Community Engagement Certificate
- Data, Science, and Technology in Sociocultural Contexts Certificate
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
- Violence Against Women Certificate
- Women's Studies
- Women's Studies Minor

The certificate program is open to all undergraduates.

At least 6 credits toward the certificate must be at the 3000-level or above.

Students take one 3-credit course from the foundation course options to gain grounding in theory and scholarship about relevant sociocultural contexts and issues. In addition, students take 6 credits from the set of options to gain opportunities to engage in applications and activities related to various community contexts.

Required Courses

Code	Title	Credits
Select one foundations course:		3
WST 2611	Humanities Perspectives on Gender and Sexuality	
WST 2612	Social Science Perspectives on Gender and Sexuality	
WST 3015	Interdisciplinary Perspectives in Women's Studies	
WST 3603	Sexualities Studies	
WST 3415	Transnational Feminism	
WST 4630	Gender, Culture, and Place	
WST XXX	Futures and Foundations of Black Feminist Theory	
Select 6 credits of courses which offer opportunities to engage in applications and activities related to various community contexts:		6
WST 3371	Women, Leadership & Diversity in the Global Environment	
WST 3663	Gender and Food Politics	
WST 3800	Sexual Ethics	
WST 4349	Ecofeminism	
WST 4383	Latinx Sexualities	
WST 4384	LGBTQ+ Movements and Critiques	
WST 4940	Internship	
Total Credits		**9**

Computer Science UF Online

This program combines the study of computer science with a liberal arts education. It prepares students for employment as computing professionals while offering significant freedom to choose coursework in other areas. The major is especially popular with students who want the technical education in computer science with the flexibility to take other non-technical courses, sometimes in the form of a minor or certificate.

About this Program

Curriculum

- /UGRD/colleges-schools/UGENG/CPE_BSCO03/
- Combination Degrees
- Computer and Information Science and Engineering Minor
- Computer and Information Science and Engineering Minor UF Online
- Computer Science UF Online
- Computer Science | CLAS
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science
- Industrialized Construction Engineering

Computer science majors in CLAS take a solid foundation of core computer science courses while fulfilling requirements for a liberal arts education, including courses from the humanities, social and behavioral sciences, and the study of a foreign language. Questions about the major should be directed to a department advisor.

Requirements for the Major

This major requires a minimum of 29 credits in foundation coursework, 35 credits in core coursework, and 9 credits of major electives. Students must earn minimum grades of C in coursework for the major. An exit interview is required in the student's last semester.

A student can request to transfer in a maximum of four courses toward required core Computer Science or required Computer Science elective coursework, dependent upon courses being deemed equivalent by the Department. Course equivalency requests should begin with the department advising office, followed by the undergraduate coordinator.

Students may opt to take COP 3504C in lieu of COP 3502C and COP 3503C. If elected, students will need to complete an additional 4 credits to complete the degree program.

Code	Title	Credits
Required Foundational Coursework		
ENC 3246	Professional Communication for Engineers	3
or ENC 2210	Technical Writing	
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAS 4105	Linear Algebra 1	3-4
or MAS 3114	Computational Linear Algebra	
Select one:		4-5
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for PHY 2048	
PHY 2053	Physics 1	
& 2053L	and Laboratory for PHY 2053	
Select one:		4-5

PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for PHY 2049	
PHY 2054	Physics 2	
& 2054L	and Laboratory for PHY 2054	
STA 3032	Engineering Statistics	3
Required Computing Core Coursework		
COP 3502C	Programming Fundamentals 1	4

COP 4600	Operating Systems	3
Required Major Electives [1]		**9**
Any 4000-level or higher CISE course, beyond the Core Requirements		
EEL 3701C	Digital Logic and Computer Systems	
EEL 4712C	Digital Design	
EEL 4713C	Digital Computer Architecture	
EEL 4744C	Microprocessor Applications	
EGN 4951	Integrated Product and Process Design 1	
EGN 4912	Engineering Directed Independent Research	
CIS 4940	Practical Work (advisor approval, 1 credit, repeatable up to 3 credits)	
CIS 4949	Co-Op Work in CISE (advisor approval, 1 credit, repeatable up to 3 credits)	
CIS 4905	Individual Study in CISE	
Total Credits		**73-76**

1 Students needing to satisfy the General Education Composition requirement should take ENC2210 or ENC2254. Students who do not need the Composition credit should take ENC 3246. The ENC course must be completed with a C or better. A grade of C- or lower will not fulfill degree requirements.

2 Students should check prerequisites when planning their major electives. Students should discuss electives with an advisor in the department. Individual study, co-op, internship, research, and special topics credits must be approved by an advisor in the department.

Combination Degree Program

The computer science combination-degree program is a joint program between the colleges of Engineering and Liberal Arts and Sciences and is coordinated by the Department of Computer and Information Science and Engineering.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete MAC 1147 or MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete MAC 2312
- 2.0 UF GPA required

Semester 4

- Complete MAC 2313; and PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete COP 3502C or COP 3504C; and PHY 2054/PHY 2054L or PHY 2049/PHY 2049L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete COP 3503C or COP 3504C; and COT 3100
- 2.0 UF GPA required

Semester 7

- Complete COP 3530
- 2.0 UF GPA required

Semester 8

- Complete COP 4600
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

ENC 3246, MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, PHY 2054L, STA 3032, MAS 3114, and MAS 4105 may count towards 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

[1] CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The College of Liberal Arts and Sciences' Computer Science program exposes students to a broad range of disciplines, including programming languages, theory of computer science, physical science, mathematics, and software engineering. Students will graduate with the ability to apply knowledge of science and mathematics to computer science problems, to design computer systems or components to satisfy users' needs, and to communicate technical information regarding computer systems to other computer scientists. This program emphasizes the broader aspects of computer science and is less technical in depth than the computer science program in the Herbert Wertheim College of Engineering.

Before Graduating Students Must

- Pass assessment according to department rubric of student performance on a major design experience.
- Pass assessment in one or more core courses or individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply knowledge of mathematics and science to computer science problems.
2. Design a computing system, component, or process, analyzing and interpreting the data.
3. Use the techniques, skills, and tools necessary for computer science practice.

Critical Thinking

4. Design a computing system, component, or process to meet desired needs within realistic economic, environmental, social, political, ethical, and health and safety constraints.
5. Identify, formulate and solve computer science problems.

Communication

6. Communicate technical data and design information effectively in writing, in speech, and in multidisciplinary teams to other computer scientists.

Curriculum Map

Computer Science | CLAS

This program combines the study of computer science with a liberal arts education. It prepares students for employment as computing professionals while offering significant freedom to choose coursework in other areas. The major is especially popular with students who want the technical education in computer science with the flexibility to take other non-technical courses, sometimes in the form of a minor or certificate.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Science
  - **Specialization:** Cybersecurity (p. 1278)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.

- Digital Arts and Sciences | Bachelor of Science
- Industrialized Construction Engineering

Computer science majors in CLAS take a solid foundation of core computer science courses while fulfilling requirements for a liberal arts education, including courses from the humanities, social and behavioral sciences, and the study of a foreign language. Questions about the major should be directed to a department advisor.

Requirements for the Major

This major requires a minimum of 29 credits in foundation coursework, 35 credits in core coursework, and 9 credits of major electives. Students must earn minimum grades of C in coursework for the major. An exit interview is required in the student's last semester.

A student can request to transfer in a maximum of four courses toward required core Computer Science or required Computer Science elective coursework, dependent upon courses being deemed equivalent by the Department. Course equivalency requests should begin with the department advising office, followed by the undergraduate coordinator.

Students may opt to take COP 3504C in lieu of COP 3502C and COP 3503C. If elected, students will need to complete an additional 4 credits to complete the degree program.

Code	Title	Credits
Required Foundational Coursework		
ENC 3246	Professional Communication for Engineers	3
or ENC 2210	Technical Writing	

MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAS 4105	Linear Algebra 1	3-4
or MAS 3114	Computational Linear Algebra	
Select one:		4-5
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for PHY 2048	
PHY 2053	Physics 1	
& 2053L	and Laboratory for PHY 2053	
Select one:		4-5
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for PHY 2049	
PHY 2054	Physics 2	
& 2054L	and Laboratory for PHY 2054	
STA 3032	Engineering Statistics	3
Required Computing Core Coursework		
COP 3502C	Programming Fundamentals 1	4
COP 3503C	Programming Fundamentals 2	4
COT 3100	Applications of Discrete Structures	3
COP 3530	Data Structures and Algorithm	3
Required Major Core Coursework		
CDA 3101	Introduction to Computer Organization	3
CEN 3031	Introduction to Software Engineering	3
CIS 4301	Information and Database Systems 1	3
CIS 4914	Senior Project	3
or EGN 4952	Integrated Product and Process Design 2	
COP 4020	Programming Language Concepts	3
COP 4533	Algorithm Abstraction and Design	3
COP 4600	Operating Systems	3
Required Major Electives [1]		**9**
Any 4000-level or higher CISE course, beyond the Core Requirements		
EEL 3701C	Digital Logic and Computer Systems	
EEL 4712C	Digital Design	
EEL 4713C	Digital Computer Architecture	
EEL 4744C	Microprocessor Applications	
EGN 4951	Integrated Product and Process Design 1	
EGN 4912	Engineering Directed Independent Research	
CIS 4940	Practical Work (advisor approval, 1 credit, repeatable up to 3 credits)	
CIS 4949	Co-Op Work in CISE (advisor approval, 1 credit, repeatable up to 3 credits)	
CIS 4905	Individual Study in CISE	
Total Credits		**73-76**

1 Students needing to satisfy the General Education Composition requirement should take ENC2210 or ENC2254. Students who do not need the Composition credit should take ENC 3246. The ENC course must be completed with a C or better. A grade of C- or lower will not fulfill degree requirements.

2 Students should check prerequisites when planning their major electives. Students should discuss electives with an advisor in the department. Individual study, co-op, internship, research, and special topics credits must be approved by an advisor in the department.

Combination Degree Program

The computer science combination-degree program is a joint program between the colleges of Engineering and Liberal Arts and Sciences and is coordinated by the Department of Computer and Information Science and Engineering.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete MAC 1147 or MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete MAC 2312
- 2.0 UF GPA required

Semester 4

- Complete MAC 2313; and PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete COP 3502C or COP 3504C; and PHY 2054/PHY 2054L or PHY 2049/PHY 2049L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete COP 3503C or COP 3504C; and COT 3100
- 2.0 UF GPA required

Semester 7

- Complete COP 3530
- 2.0 UF GPA required

Semester 8

- Complete COP 4600
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

ENC 3246, MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, PHY 2054L, STA 3032, MAS 3114, and MAS 4105 may count towards 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Criminology

The Department of Sociology and Criminology offers the largest interdisciplinary degree program at UF. Students seeking a degree in criminology will study the complexities of relationships among the legal, social, political, historical, and psychological influences affecting law processes and crime and justice.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department's faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

Curriculum

- Combination Degrees
- Criminology
- Criminology UF Online
- Sociology

- Sociology Minor
- Sociology Minor UF Online
- Sociology of Social Justice and Policy Minor
- Sociology UF Online

Courses focus on explanations for the development of law within society, why people break laws, and how society reacts to law-breaking. Interdisciplinary breadth in the study of criminology is essential for those majoring in criminology. Majors may enroll in relevant courses offered outside the department to help satisfy tracking requirements (listed below under Foundation Coursework).

After obtaining a BA in Criminology, students can seek careers as professionals working within the criminal or juvenile justice systems (i.e., courts, law enforcement, corrections). Many students also attend law school, while others attend graduate school where they may conduct research on criminological issues.

Requirements for the Major

The major requires 34 credits of Criminology courses, and 3 credits of STA 2023. Students may apply no more than 6 credits of 1000/2000-level coursework to the major. Minimum grades of C must be earned in courses that count toward the major. The only exception is CCJ 4940, which requires a grade of S.

In addition to the required coursework, students must pass an online department exit examination regarding crime, criminal justice, law and society, and criminological theory to complete the major.

At least 22 of the 34 credits of Criminology courses must be taken at UF in courses offered by the department with prefixes of CCJ, CJC, CJE, CJJ, or CJL.

A maximum of 12 credits of criminology courses can be transferred toward the major. Students who transfer six credits of 1000/2000-level (lower-division) credits into the major should not take CJL 2000. There are restrictions on which lower-division courses will transfer to the major. Lower-division courses that transfer into the major include introductory courses on criminology, criminal justice and criminal law/procedure. Students who wish to take interdisciplinary courses and transfer credits from another institution need to be careful about the 22-credit residency requirement.

Code	Title	Credits
Foundation Coursework		
In the first four terms, students enroll in criminology-related foundation courses, which include:		
STA 2023	Introduction to Statistics 1	3
Select one option:		
Option A: Select 9 credits of introductory criminal justice/criminology courses (CCJ, CJL or CJE prefixes), including:		
CCJ 3024	Advanced Principles of Criminal Justice	
CJL 2000	Law and the Legal Process	
CJL 3038	Law and Society	
Option B: Select 9 credits from the following or their equivalents:		
AMH 2010	United States to 1877	
AMH 2020	United States Since 1877	
ANT 2000	General Anthropology	
ANT 2410	Cultural Anthropology	
ECO 2013	Principles of Macroeconomics	
ECO 2023	Principles of Microeconomics	
PHI 2010	Introduction to Philosophy	
PHI 2630	Contemporary Moral Issues	
POS 2041	American Federal Government	
POS 2112	American State and Local Government	
PSY 2012	General Psychology	
SYG 2000	Introduction to Sociology	
SYG 2010	Social Problems	
Required Major Coursework		
Criminology Core Courses		
CCJ 3024	Advanced Principles of Criminal Justice [1]	3
CCJ 3701	Research Methods in Criminology [1]	4
CCJ 4014	Criminological Theory [1]	3
CJL 3038	Law and Society [1]	3
Select at least one law-driven requirement course:		3
CJL 2000	Law and the Legal Process [2]	
CJL 4050	Juvenile Law	
CJL 4110	Criminal Law	

CJL 4410	Criminal Procedure	
Criminology Major Electives		*3*
Select a minimum of 18 credits [4]		18
Select a minimum of 18 credits 4 Of the 18 credits of major electives, students may select up to 9 credits from approved interdisciplinary courses outside of criminology [5]		
Statistics Course Requirement		
STA 2023	Introduction to Statistics 1	3
Total Credits		**43**

1 These courses are the basis for meeting the student learning outcomes in the major's academic learning compact, therefore they must be taken at UF.

2 Students should take this course only if they have not already completed six credits of 1000/2000-level criminology courses.

3 Students may apply only 3 credits of CCJ 4940 (https://catalog.ufl.edu/search/?P=CCJ%204940) or 3 credits of CCJ 4911 (https://catalog.ufl.edu/search/?P=CCJ%204911) (if taken as S/U) to the 34 credits for the major.

4 Majors may choose from any course offered in the department not used to meet this requirement.

5 These approved interdisciplinary courses may also apply to the CLAS electives requirement. These courses do **not** apply toward the 22-credit residency requirement.

CCJ 4940 is automatically graded S/U. CCJ 4911 may be taken as either a letter grade or S/U, but the student must submit an application to the registrar's office for this course to be taken as an S/U grade.

Exit Exam Requirement

To complete the major students must pass a department exit examination regarding crime, criminal justice, law and society, and criminological theory, administered online.

Recommended Coursework

Students who meet CLAS honors criteria (3.5 upper-division GPA) may take up to six credits in CCJ 4970 or enroll in up to two graduate seminars as honors courses, depending on instructor permission and course availability. However, students should keep in mind the tuition differences between undergraduate and graduate credits.

Combination Degree Programs

The opportunity to get an early start on graduate work by enrolling in graduate credits exists in a combination BA/MA program. Interested students must apply and be accepted to the undergraduate phase (so that graduate credits can count toward the major to earn the BA degree). Independently, they also must apply for admission to the graduate phase and compete with all other applicants for admission to a limited number of openings each Fall.

Overseas Studies

The major has no affiliated overseas programs. Criminology majors, however, frequently study abroad and can often transfer credits to the major.

Placement

CCJ 3024 is a prerequisite or corequisite for most of the other courses in the major. During advanced registration, there may be restrictions placed on lower-division students for registration in many upper-division courses to make sure juniors and seniors get the credits they need to graduate on time.

Research

Majors may pursue original research through the upper-division honors program in the major, especially via senior thesis credits (CCJ 4970). Others pursue independent research through Undergraduate Research in Criminology (CCJ 4911). The major also offers a research internship (CCJ 4940), which enables students to work in ongoing research projects.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 criminology-related foundation course (criminology-related foundation courses include introductory criminal justice and criminology courses. CCJ, CJL, or CJE prefixes, such as CCJ 3024, CJL 2000, CJL 3038, or related courses: AMH 2010, AMH 2020, ANT 2000, ANT 2410, ECO 2013, ECO 2023, PHI 2010, PHI 2630, POS 2041, POS 2112, PSY 2012, SYG 2000, SYG 2010).
- 2.3 UF GPA required

Semester 2

- Complete 1 additional criminology-related foundation course
- 2.5 UF GPA required

Semester 3

- Complete 1 additional criminology-related foundation course with 2.65 critical-tracking GPA
- 2.65 UF GPA required

Semester 4

- Complete STA 2023 with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

Semester 5

- Complete CCJ 3024 (if not previously taken) and maintain 2.75 critical-tracking GPA
- 2.80 UF GPA required

Semester 6

- Complete at least 2 additional core criminology courses: CJL 3038, CCJ 4014, CCJ 3701 with minimum grades of C
  - Or 1 core criminology course and 1 law-based course: CJL 2000, CJL 4050, CJL 4110, CJL 4410 with minimum grades of C
- Complete 1 criminology elective or an additional core criminology course with a minimum grade of C

Semester 7

- Complete at least 1 additional core criminology course with minimum grades of C
- Complete 3 additional criminology electives

Semester 8

- Complete the last core criminology course, if needed, with a minimum grade of C
- Complete the law-based requirement, if needed: CJL 2000, CJL 4050, CJL 4410, or CJL 4410 with a minimum grade of C
- Complete the 2 remaining criminology electives
- Pass the criminology exit exam

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

Up to 9 credits of approved Criminology electives outside of the Criminology department may also count towards the 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
Criminology-related course (**Critical Tracking**)		3
CLAS Foreign Language Proficiency Requirement [1]		4-5
	Credits	**13-14**
Semester Two		
CCJ 3024	Advanced Principles of Criminal Justice (**Critical Tracking**; recommended; or other criminology-related course)	3
Quest 1		3
State Core Gen Ed Mathematics (p. 80)		3
Gen Ed Social and Behavioral Sciences		3

Academic Learning Compact

The Bachelor of Arts in Criminology (both the on campus and the online degree programs) introduces students to the study of criminal behavior, criminal justice systems from a multidisciplinary, liberal arts perspective. It enables students to understand crime, how society reacts to it (especially through the criminal justice system), and the interrelationships between features of society and law. It includes learning about the theories of crime and methods for studying crime, law, and society.

Before Graduating Students Must

- Pass a department exit examination regarding crime, criminal justice, law, and society and criminological theory.
- Complete a research paper for CCJ 3701 demonstrating the ability to research and to interpret research in criminology, law, and society.
- Complete requirements for the baccalaureate degree as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Define and describe the criminal justice system, the interrelationships among its components, and their fit with society.
2. Define and describe the legal institutions, the law, and their interaction in society.

Critical Thinking

3. Analyze theories of crime and their implications for programs and policies to reduce crime.
4. Interpret and evaluate research in criminology, law and society and exhibit proficiency in the techniques used to conduct such research.

Communication

5. Communicate ideas clearly and effectively in an accepted style of presentation.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5
CCJ 3024	I, R, A				
CCJ 3038		I, R, A			
CCJ 3701				I, R, A	I, R, A
CCJ 4014			I, R, A		

Assessment Types

- Exams
- Papers

Criminology UF Online

The Department of Sociology and Criminology offers an online interdisciplinary degree program in criminology. Students seeking this degree will study the complexities of relationships among the legal, social, political, historical, and psychological influences affecting law processes and crime and justice.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department's faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

Curriculum

- Combination Degrees
- Criminology
- Criminology UF Online
- Sociology
- Sociology Minor
- Sociology Minor UF Online
- Sociology of Social Justice and Policy Minor
- Sociology UF Online

Courses focus on explanations for the development of law within society, why people break laws, and how society reacts to law-breaking. Interdisciplinary breadth in the study of criminology and law is essential for those majoring in criminology. Majors may enroll in relevant courses offered outside the department to help satisfy tracking requirements (listed below under Foundation Coursework).

After obtaining a BA in Criminology, students can seek careers as professionals working within the criminal or juvenile justice systems (i.e., courts, law enforcement, corrections). Many students also attend law school, while others attend graduate school where they may conduct research on criminological issues.

After being accepted to this program, students can pursue the degree without moving to Gainesville. Coursework will be offered via electronic distance learning, and UF faculty will teach and advise students in the program. This program is designed to be pursued entirely online, and thus, students will not be permitted to take any courses on campus while enrolled in the program.

Students will need access to a personal computer capable of connecting to the web and sending and receiving electronic mail. It is recommended but not required that the student's computer have a video conferencing capability.

requirements for the Major

The major requires 34 credits of Criminology courses, and 3 credits of STA 2023. Students may apply no more than six credits of 1000/2000-level coursework to the major, including CJL 2000. Minimum grades of C must be earned in courses that count toward the major. The only exception is CCJ 4940, which requires a grade of S.

In addition to the required coursework, students must pass an online department exit examination regarding crime, criminal justice, law and society, and criminological theory to complete the major.

At least 22 of the 34 credits of Criminology courses must be taken from UF in courses offered by the department with prefixes of CCJ, CJC, CJE, CJJ or CJL.

A maximum of 12 credits of criminology courses can be transferred toward the major. Students who transfer six credits of 1000/2000-level (lower-division) credits into the major should not take UF's CJL 2000. There are restrictions on which lower-division courses will transfer to the major. Lower-division courses that transfer into the major include introductory courses on criminology, criminal justice and criminal law/procedure. Students who wish to take interdisciplinary courses **and** transfer credits from another institution need to be careful about the 22-credit residency requirement.

Code	Title	Credits
Foundation Coursework		
In the first four terms, students enroll in criminology-related foundation courses, which include:		
STA 2023	Introduction to Statistics 1	3
Select one option:		9
Option A		
Select 9 credits of introductory criminal justice/criminology courses (CCJ, CJL or CJE prefixes), including:

STA 2023	Introduction to Statistics 1	3
Total Credits		**31**

1 These courses are the basis for meeting the student learning outcomes in the major's academic learning compact, therefore they must be taken at UF.

2 Students should take this course only if they have not already completed six credits of 1000/2000-level criminology courses.

3 Students may apply only 3 credits of CCJ 4940 (https://catalog.ufl.edu/search/?P=CCJ%204940) or 3 credits of CCJ 4911 (https://catalog.ufl.edu/search/?P=CCJ%204911) (if taken as S/U) to the 34 credits for the major.

4 Majors may choose from any course offered in the department not used to meet this requirement.

5 These approved interdisciplinary courses may also apply to the CLAS electives requirement. These courses do **not** apply toward the 22-credit residency requirement. A list of the *approved interdisciplinary courses* appears below the recommended semester plan.

CCJ 4940 is automatically graded S/U. CCJ 4911 may be taken as either a letter grade or S/U, but the student must submit an application to the registrar's office for this course to be taken as an S/U grade.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 criminology-related foundation course (criminology-related foundation courses include introductory criminal justice and criminology courses -- CCJ, CJL or CJE prefixes, such as CCJ 3024, CJL 2000, CJL 3038 -- or related courses: AMH 2010, AMH 2020, ANT 2000, ANT 2410, ECO 2013, ECO 2023, PHI 2010, PHI 2630, POS 2041, POS 2112, PSY 2012, SYG 2000, SYG 2010)
- 2.3 UF GPA required

Semester 2

- Complete 1 additional criminology-related foundation course
- 2.5 UF GPA required

Semester 3

- Complete 1 additional criminology-related foundation course with 2.65 critical-tracking GPA
- 2.65 UF GPA required

Semester 4

- Complete STA 2023 with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

Semester 5

- Complete CCJ 3024 (if not previously taken) and maintain 2.75 critical-tracking GPA
- 2.80 UF GPA required

Semester 6

- Complete at least 2 additional core criminology courses: CJL 3038, CCJ 4014, CCJ 3701 with minimum grades of C
  - Or 1 core criminology course and 1 law-based course: CJL 2000, CJL 4050, CJL 4110, CJL 4410 with minimum grades of C
- Complete 1 criminology elective or an additional core criminology course with a minimum grade of C

Semester 7

- Complete at least 1 additional core criminology course with minimum grades of C
- Complete 3 additional criminology electives

Semester 8

- Complete the last core criminology course, if needed, with a minimum grade of C
- Complete the law-based requirement, if needed: CJL 2000, CJL 4050, CJL 4410, or CJL 4410 with a minimum grade of C
- Complete the 2 remaining criminology electives
- Pass the criminology exit exam

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

Up to 9 credits of approved Criminology electives outside of the Criminology department also count towards the 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Academic Learning Compact

The Bachelor of Arts in Criminology (both the on-campus and the online degree programs) introduces students to the study of criminal behavior, criminal justice systems from a multidisciplinary, liberal arts perspective. It enables students to understand crime, how society reacts to it (especially through the criminal justice system), and the interrelationships between features of society and law. It includes learning about the theories of crime and methods for studying crime, law, and society.

Before Graduating Students Must

- Pass a department exit examination regarding crime, criminal justice, law, and society and criminological theory.
- Complete a research paper for CCJ 3701 demonstrating the ability to research and to interpret research in criminology, law, and society.
- Complete requirements for the baccalaureate degree as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Define and describe the criminal justice system, the interrelationships among its components, and their fit with society.
2. Define and describe the legal institutions, the law, and their interaction in society.

Critical Thinking

3. Analyze theories of crime and their implications for programs and policies to reduce crime.
4. Interpret and evaluate research in criminology, law, and society and exhibit proficiency in the techniques used to conduct such research.

Communication

5. Communicate ideas clearly and effectively in an accepted style of presentation.

Data Analytics Certificate

The Data Analytics certificate provide students with the tools necessary to prepare data for analysis and use proper analytic tools. It also equips students to understand the issues associated with the ethical use of data (e.g., personal health information) and potential biases in the generation, analysis, and use of data.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 12 | Completed with minimum grades of B-
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

Map (http://campusmap.ufl.edu/#/index/0010)

Curriculum

- Actuarial Science Minor
- Combination Degrees
- Data Analytics Certificate
- Data Science
- Statistics
- Statistics Minor

The Data Analytics certificate provides students the tools to both organize and analyze data to answer important discipline-specific research questions and to understand both ethical issues and biases associated with any particular dataset. The fourth required course applies what was learned in the first three courses to a real-world application.

Required Courses

Code	Title	Credits
STA 3100	Programming With Data in R	3
PHI 3681	Ethics, Data, and Technology	3
or WST 3610	Gender, Race and Science	
STA 3180	Statistical Modelling	3
Select one:		3
Approved course [1]		
ECO 4422	Econometrics 2	
EXP 4174C	Laboratory in Sensory Processes	
GIS 4124	Geocomputation using R Programming	
LIN 4702C	Methods in Psycholinguistics	
PHC 4792	Data Visualization in the Health Sciences	
POS 4931	Special Topics in Political Science (Election Data Science)	
PSB 4343C	Laboratory in Cognitive Neuroscience	
WST 4002	Data Feminisms	
Total Credits		**12**

[1] Approved by the certificate coordinator and involves applying the methods learned in STA 3180 (http://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/LAS_UCT23/file:///C:/search/%3fP=STA%203180/) to the student's area of study. The course can be an upper-division department-specific supervised research course. Such a course would be supervised by a faculty member in the department of the student's major and will involve conducting a data analysis project using the methods learned in STA 3180 and writing a report. The content of this course, given its breadth across students, will need to be pre-approved by the certificate coordinator and will require a short (up to one page) summary of how methods and topics covered in the first three courses will be applied to a real-world dataset.

Data Science

Data Science is a field of study that combines computer science (programming, databases, and algorithms) and statistical methodology, both with a strong mathematical foundation, to apply to diverse areas in ethical ways. Data scientists work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for data scientists and their expertise in the collection, management, and analysis of data.

Curriculum

- Actuarial Science Minor
- Combination Degrees
- Data Analytics Certificate
- Data Science
- Statistics
- Statistics Minor

Data Science majors draw inference from large data generated from a variety of disciplines. Core courses cover mathematical foundations of data science, programming, algorithms, and databases as well as statistical methods for data science. Majors will also learn about data science in practice within subject matter areas.

Students who wish to major in data science must consult a department advisor early in their programs.

Requirements for the Major

The BS in Data Science requires a minimum of 64 credits in data science and related coursework plus 7 credits of required foundation coursework. Students must receive minimum grades of B (within 2 attempts including withdrawals) in STA2023 or STA 3032 as well as MAC 2312 and MAC 2313. All other required core and major elective courses must be completed with a minimum grade of C within two attempts (including withdrawals).

- It is important that the prerequisites of each course are met before the course is attempted.
- To take STA 3100, which is required for the major, students must meet the prerequisite: (STA 2023 with a minimum grade of B) or (STA 3032 with a minimum grade of B) or (AP Statistics with a score of 4 or higher out of 5).
- Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of STA 2023 or STA 3032, MAC 2312 and MAC 2313, in which students must receive a minimum grade of B.
- The grades from all attempts to satisfy core requirements will be used to compute the minimum GPA.

A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

Required Foundation Coursework

Code	Title	Credits
MAC 2311	Analytic Geometry and Calculus 1	4
STA 2023	Introduction to Statistics 1	3

Relevant Minors and Certificates

Data Science majors may want to consider a minor in actuarial science, which prepares students for careers as actuaries. Required courses cover the material for the beginning examinations and VEE credits leading to an associateship in the major national actuarial societies

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete MAC 2311
- 2.0 UF GPA Required

Semester 2

- Complete MAC 2312 with a minimum grade of B and (STA 2023 or STA 3032). Minimum grade of B required for STA 3100 prerequisite.
- 2.0 UF GPA Required

Semester 3

- Complete MAC 2313 with a minimum grade of B and MAD 2502
- 2.0 UF GPA Required

Semester 4

- Complete COP 3502C and MAS 3114 and STA 3100
- 2.5 critical-tracking GPA required
- 2.0 UF GPA Required

Semester 5

- Complete COP 3503C and (MAD 3107 or COT 3100) and STA 4210 and STA 4321
- 2.5 critical-tracking GPA required
- 2.0 UF GPA Required

Semester 6

- Complete COP 3530 and MAS 4115 and PHI 3681 and STA 4322
- 2.0 UF GPA Required

Semesters 7-8

- Complete CIS 4301 and STA 4241 and STA 4273 and one Subject Area elective
- 2.0 UF GPA Required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

MAC 2312, MAC 2313, the Subject Area electives, and the Data Ethics course count towards 3000-level or above electives outside of this multidisciplinary major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities, if needed)		3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Composition		3
	Credits	**13**
Semester Two		
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; Gen Ed Mathematics; minimum grade of B)	4

MAD 2502	Intro to Computational Math (**Critical Tracking**)	3

Academic Learning Compact

The Data Science major enables students to achieve proficiency in the fundamentals of programming, databases, and statistical reasoning. Through coursework and projects, students will gain knowledge in problem solving, data science applications and ethics, and statistical inference. Emphasis is on developing the ability to approach real world problems and through the use of computing and statistical methods to draw valid scientific inferences.

Before Graduating Students Must

- Complete an exam on the fundamentals of data science, which will be 5% of their grade in STA 4241 .
- Complete a data analysis project, which will be 10% of their grade in STA 4241 .
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, define, and describe concepts and issues in data science, including those involved in computing and programming, databases, ethics, mathematical foundations, and statistical methods.

Critical Thinking

2. Identify sources of variability and bias in a given set of data and formulate and carefully program an appropriate statistical analysis.

Communication

3. Clearly and effectively present ideas in speech and in writing concerning issues in the proper analysis of data.

Data, Science, and Technology in Sociocultural Contexts Certificate

Understanding how data, science, and technology shape and are shaped by sociocultural contexts and woven into contemporary life is critical for preparing students for a modern workforce. The Certificate in Data, Science, & Technology in Sociocultural Contexts introduces students to scholarship about sociocultural contexts, data, algorithm studies, and science and technology studies. It equips students to develop foundational tools of inquiry and critical analysis needed to approach data, science, and technology such as AI within sociocultural contexts. This includes how data, science, and technology are shaped in sociocultural contexts and how they can impact those contexts and various communities.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 9 | Completed with minimum grades of C

- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The Department of Gender, Sexuality, and Women's Studies offers academic programs, grants graduate and undergraduate degrees, and advances research in the discipline. Faculty in the department successfully compete for national fellowships and grants, win research and teaching awards, and produce rigorous and transformative research.
Website (http://wst.ufl.edu/)

East Asian Languages and Literatures Minor

The East Asian Languages and Literatures minor provides a solid foundation in either the Chinese or Japanese language and their cultural dimensions, with potential for use in international and other careers.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15-19 | Completed with minimum grades of C and no optional S/U

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

East-Central European Studies Certificate

The East-Central European Studies certificate provides the opportunity to study the region of Central and Eastern Europe from an interdisciplinary perspective that incorporates both area and language studies.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 12-14 | Completed with minimum grades of C
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

By requiring one semester of language study (beyond the College of Liberal Arts and Sciences' language proficiency requirement), the program gives students the opportunity to enhance their language skills beyond the introductory level. Furthermore, an area studies program that includes less commonly taught languages (Czech, Hungarian, Polish) as core requirements offers a special opportunity as there are no comparable programs in the state of Florida.

The certificate program is open to all undergraduates. To be eligible, students must have a minimum 2.5 overall GPA and a 3.0 GPA in their declared major. Completion of the certificate requires a combined 3.0 GPA for all certificate coursework.

At least nine credits of coursework must be unique to the East Central European Studies certificate out of all other certificates and minors.

Required Courses

Code	Title	Credits
Select one:		3
CPO 3614/EUS 3930	Eastern European Politics	
EUH 3330	Late Modern Central and Eastern Europe	
EUH 3564	Central and Eastern Europe in the 20th Century	
Foreign Language		
Select a minimum of 3 credits beyond college requirement:		3-5
CZE 1130	Introduction to Czech Language and Culture 1	
CZE 2200	Intermediate Czech 1	
EUS 3938	European Less Commonly Taught Languages	
GER 2200	Intermediate German 1

East-Central European Studies Minor

The East-Central European Studies minor provides the opportunity to study the region of Central and Eastern Europe from an interdisciplinary perspective that incorporates both area and language studies.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 18-22 | Completed with minimum grades of C

Center Information

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

Econometric and Data Analysis Certificate

This Econometric and Data Analysis certificate aims to build a strong foundation with which students can pursue technical careers in business analytics, public policy analysis, and other data-intensive fields.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 14-15 | Completed with minimum grades of C

Certificates must comply with the Certificate Policy.

Department Information

The Department of Economics offers a vibrant undergraduate curriculum. Students enjoy close and meaningful interactions with the faculty through rigorous and engaging courses. A diverse menu of elective courses covers exciting and relevant topics like growth and development, international trade and finance, public policy analysis and evaluation, and strategic business decisions. Students are strongly encouraged to pursue outside-of-the-classroom learning through internships and study abroad.

P.O. Box 117140
224 MATHERLY HALL
GAINESVILLE FL 32611-7140
Map (http://campusmap.ufl.edu/#/index/0406)

Curriculum

- Combination Degrees
- Economics
- Economics Minor

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

This certificate is open to all undergraduates. Data Science, Economics, Finance, Food and Resource Economics, and Geography majors are especially encouraged to apply. Several credits will double count toward the Economics major.

Application Requirements

Because this certificate requires a substantial number of prerequisite courses, the Department of Economics must consider timely graduation when evaluating applications. All certificate applications should include a graduation plan that demonstrates how the applicant will meet all undergraduate program requirements, including the certificate requirements, in a timely fashion.

Economics Majors

Economics majors can apply ECO 3430, ECO 4421, and ECO 4422 toward the major's required upper-division coursework requirement but will still require a fourth economics course that satisfies that requirement.

Students will take at least one course (GEO 4169) in the certificate that is not applied to the Economics major.

Economics Minors

Economics minors can also apply ECO 3430, ECO 4421, or ECO 4422 toward the minor's elective coursework requirement. Because certificate students must complete nine credits that are distinct from all other certificates and minors, Economics minors may only apply one of the certificate courses to the minor.

Prerequisite Foundation Courses

Code	Title	Credits
ECO 2013	Principles of Macroeconomics	4
ECO 2023	Principles of Microeconomics	4
ECO 3101	Intermediate Microeconomics	4
or ECP 3703	Managerial Economics	
STA 2023	Introduction to Statistics 1	3

Required Courses

Code	Title	Credits
AEB 3550	Agricultural Data Analysis in Food and Resource Economics	3-4
or ECO 3430	Economic Analysis of Data	
ECO 4421	Econometrics	4
ECO 4422	Econometrics 2	4
GEO 4169	Spatial Econometrics and Modeling [1]	3
Total Credits		**14-15**

[1] Students who have completed ECO 4421 with a minimum grade of C are exempt from the GEO 4167C and GEO 3162C prerequisites.

Economics

Through the study of Economics, students learn how to look at a complex world and make sense of the wide variety of behaviors they observe. Students majoring in economics learn the analytical skills used to understand how households, firms and governments make economic decisions, comparing costs and benefits in an effort to maximize their impact.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Economics offers a vibrant undergraduate curriculum. Students enjoy close and meaningful interactions with the faculty through rigorous and engaging courses. A diverse menu of elective courses covers exciting and relevant topics like growth and development, international trade and finance, public policy analysis and evaluation, and strategic business decisions. Students are strongly encouraged to pursue outside-of-the-classroom learning through internships and study abroad.

224 MATHERLY HALL
GAINESVILLE FL 32611-7140
Map (http://campusmap.ufl.edu/#/index/0406)

Curriculum

- Combination Degrees
- Economics
- Economics Minor

Students will learn the critical skills used to determine the implications of economic decisions for the allocation of society's scarce resources, the pricing of goods and services, the distribution of income, the behavior of macroeconomic variables, and the effect of government intervention.

Classes within the economics major include, among others, international trade, law and economics, economics of sports, game theory, and public choice. The analytical skills students develop are useful preparation for careers in business, law, government, public policy and academia. A degree in economics is also appropriate for students intending to pursue advanced degrees in the social sciences and in professional schools.

Requirements for the Major

The major requires 37-39 credits. Students must achieve minimum grades of C in each required foundation and economics course, including the economics electives and outside substitutes. A minimum of 15 credits of 3000/4000 level major coursework must be completed at UF in an UF Sponsored Study Abroad or in an UF Exchange program.

Code	Title	Credits
Required Foundation Coursework		
MAC 2233	Survey of Calculus 1	3-4
or MAC 2311	Analytic Geometry and Calculus 1	
STA 2023	Introduction to Statistics 1 [1]	3
ECO 2013	Principles of Macroeconomics	4
ECO 2023	Principles of Microeconomics	4
Economics Core Courses		
ECO 3101	Intermediate Microeconomics [2,5]	4
ECO 3203	Intermediate Macroeconomics	4
Upper-Level Major Electives		
Four economics elective courses [3]		15-16
Select a maximum of one: [4]		
AEB 3450	Introduction to Natural Resource and Environmental Economics	
AEB 4931	Special Topics in Food and Resource Economics	
FIN 3403	Business Finance	
GEO 3502	Economic Geography	
Total Credits		**37-39**

1. Students taking advanced statistics might not be required to take STA 2023.
2. Complete ECO 3101 early in the sequence because it is a prerequisite for some economics electives.
3. Defined as any 3000 or 4000 level course with an ECO, ECP, or ECS prefix; not including ECO 3101, ECO 3203, ECP 3703, ECO 4905, or ECO 4941. Course prerequisites are strictly enforced.
4. This substitute cannot double count toward the CLAS 3000-level elective requirement.
5. Students cannot receive credit for both ECO 3101 and ECP 3703.

Recommended Coursework

Students planning to pursue graduate study in economics should consider a minor in mathematics or statistics or take the following mathematics and statistics courses:

Code	Title	Credits
ECO 4421	Econometrics	4
or STA 4210	Regression Analysis	
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAP 2302	Elementary Differential Equations	3
MAS 3114	Computational Linear Algebra	3
or MAS 4105	Linear Algebra 1	
MAA 4211	Real Analysis and Advanced Calculus 1	3
STA 4321	Introduction to Probability [1]	3
STA 4322	Introduction to Statistics Theory [1]	3

1. Students taking advanced statistics might not be required to take STA 2023.

Overseas Studies

Economics students are strongly encouraged to complete a study abroad or internship abroad program. The College of Liberal Arts and Sciences' Beyond 120 program, the Heavener School of Business' International Programs Office, and the UF International Center offer several excellent

study abroad programs that allow economics majors the opportunity to study or work abroad and still make timely progress toward their degree requirements. Contact the undergraduate coordinator or a study abroad advisor for more information.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 of 4 courses from ECO 2013, ECO 2023, MAC 2233 and STA 2023 with a 2.5 critical-tracking GPA, excluding ECO 3101
- 2.0 UF GPA required

Semester 3

- Complete 1 additional course of the 4 with a 2.75 critical-tracking GPA, excluding ECO 3101
- 2.0 UF GPA required

Semester 4

- Complete 2 additional courses of the 4 with a 3.0 critical-tracking GPA, excluding ECO 3101
- 2.0 UF GPA required

Semester 5

- Complete ECO 3101 with a minimum grade of C
- Maintain a 3.0 critical-tracking GPA, excluding ECO 3101
- 2.0 UF GPA required

SEMESTER 6

- Complete 1 3000/4000 level Economics course
- 2.0 UF GPA required

SEMESTER 7

- Complete ECO 3203 and 1 additional 3000/4000 level Economics course
- 2.0 UF GPA required

SEMESTER 8

- Complete 2 additional 3000/4000 level Economics courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

FIN 3403, AEB 3450, AEB 4931, and GEO 3502, if taken, do not count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
ECO 2023	Principles of Microeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	4
State Core Gen Ed Composition (p. 80); Writing Requirement		3
CLAS Foreign Language Proficiency Requirement [1]		4-5
	Credits	**14-15**

	Credits	**14**
Semester Eight		
Economics Major elective (**Critical Tracking**; 3000 level or above)		4
Electives (3000 level or above, not in major)		6
Electives		5
	Credits	**15**
	Total Credits	**120**

1 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

This major teaches students the skills used to understand how households, firms, and governments make economic decisions and the implications of those decisions for resource allocation, pricing, the distribution of income, and macroeconomic variables.

Before Graduating Students Must

- Take the Economics Field Test conducted by the ETS. This test will be 10% of the student's grade in ECO 3203.The goal of the Department of Economics is that each student's average score exceeds the national average of 154; however, a score of 154 is not a graduation requirement.
- Students who want to graduate *magna cum laude* or *summa cum laude* must propose and defend an honors thesis before the department's undergraduate committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify indifference curves as representations of consumer preferences and to evaluate these indifference curves in the context of preference relations.

Critical Thinking

2. Model and analyze unfamiliar social interactions using a formal economic framework.

Communication

3. Communicate effectively the concept of opportunity costs and tradeoffs.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3
ECO 2013	I, R, A	I, R, A	
ECO 2023	I, R, A	I, R, A	
ECO 3101	R, A		I, R, A
ECO 3203		R, A	I, R, A
Four ECO Electives	R, A	R, A	R, A

Assessment Types

- Embedded questions in exams and papers
- The ETS Field Test

Economics Minor

Through the study of Economics, students learn how to look at a complex world and make sense of the wide variety of behaviors they observe. Students minoring in Economics are introduced to the analytical skills used to understand how households, firms, and governments make economic decisions, comparing costs and benefits in an effort to maximize their own well-being or social objectives.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 22-23 | Completed with minimum grades of B for ECO 2013 and ECO 2023, minimum grades of C for remaining courses, and no optional S/U

Department Information

The Department of Economics offers a vibrant undergraduate curriculum. Students enjoy close and meaningful interactions with the faculty through rigorous and engaging courses. A diverse menu of elective courses covers exciting and relevant topics like growth and development, international trade and finance, public policy analysis and evaluation, and strategic business decisions. Students are strongly encouraged to pursue outside-of-the-classroom learning through internships and study abroad.

GAINESVILLE FL 32611-7140
Map (http://campusmap.ufl.edu/#/index/0406)

Curriculum

- Combination Degrees
- Economics
- Economics Minor

The Economics minor is a suitable option for students of all undergraduate majors. Students minoring in economics can, for example, pursue coursework in managerial decision-making, international development, and quantitative methods.

Required Courses

Code	Title	Credits
MAC 2233	Survey of Calculus 1 (or higher)	3
ECO 2013	Principles of Macroeconomics	4
ECO 2023	Principles of Microeconomics	4
ECP 3703	Managerial Economics	4
Economics electives [1]		7-8
Total Credits		**22-23**

[1] Upper-division; any 3000 or 4000 level course with an ECO, ECP, or ECS prefix (not including ECO 3101, ECO 3203, ECO 4905, ECO 4941), and one of AEB 3450, FIN 3403, or GEO 3502.

English

Undergraduate study in English prepares students for diverse careers in law, publishing, advertising, media and business, teaching, and advanced degree work.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Specializations:** Models of Study
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of English fosters a dynamic nexus of critical thinking, writing, and making. English offers students innovative opportunities for individual and collaborative learning through BA, MFA, and PhD programs. Students work with a variety of materials, including: global Anglophone literature, African American literature, children's literature, comics, critical theory, digital modes, film and media. In-house journals and media reflect the scholarly, creative, and interdisciplinary work done by the department. Active across campus through its affiliations, English produces next-generation arts and humanities.

GAINESVILLE FL 32611-7310

Map (http://campusmap.ufl.edu/#/index/0267)

Curriculum

- English
- English Minor

Courses offered by the department introduce students to a world of experiences that cannot be exhausted in the brief span of a college education; new authors, new works, new media, and new tools for understanding continually enlarge and transform the world. With the help of faculty advisors, undergraduate majors in English select from courses in various forms, periods, and approaches. In addition, students may develop special expertise in one of several models; for example, communication and creative writing, theory of media, literary study, or cultural studies.

Requirements for the Major

This major requires a total of 10 courses of major related coursework offered by the English department. These courses must be 3000 level or above, of no fewer than three credits each and completed with minimum grades of C. (The requirement is ten courses, not 30 credits).

Students must take at least five of their 3000-level or above English courses at UF.

Prerequisite to all 3000/4000-level courses are six credits of English (composition, creative writing, film/media studies/literature) at the 1000/2000 level or department permission.

English Major Coursework | 30+ Credits

10 English Department Courses at the 3000-level or higher

- Each course must be at least 3 or more credits

Of 3000-level courses with an ENC prefix, only the following apply to the English major:

Code	Title	Credits
ENC 3250	Professional Communication	3
ENC 3310	Advanced Exposition	3
ENC 3312	Advanced Argumentative Writing	3
ENC 3414	Hypermedia	3
Of 4000-level courses with an ENC prefix, only the following apply:		
ENC 4212	Professional Editing	3
ENC 4260	Advanced Professional Writing	3
ENC 4956	Overseas Studies	1-15

The student is responsible for consulting an advisor and preparing a plan of study.

Course Details

Because English majors will not be tracked for a specific set of courses but must meet the ten-course requirement described above, there are no particular English courses that majors must take on a semester-by-semester basis.

The only prerequisite for most 3000/4000-level English courses is earning six credits of lower-division English course credit by coursework or placement. The courses that may have additional prerequisites are 3000/4000-level creative-writing (CRW) workshops, 4000-level film and video production workshops (ENG 4136 and ENG 4146), 3000/4000-level advanced writing (ENC) courses, department seminars (ENG 4953), honors seminars (ENG 4936), and the department's internship course (ENG 4940). Refer to the catalog's course descriptions to view the prerequisites for these courses.

As students consider which 3000/4000-level courses to take, they should not be concerned about differences between the two levels. The higher-level courses are not more difficult, except in the rare cases where the 4000-level course has 3000-level prerequisites. Students can gauge a course's level of difficulty by reviewing the department's detailed course descriptions.

The majority of the department's upper-division courses are variable or rotating topics courses, many of which can be repeated for credit given a change in topic. The only way to discover what the actual course topics will be in a specific semester is to consult the department's course descriptions, which explain topics and approaches, and generally give some idea of the texts and assignments. These descriptions are usually posted at the department website three to four weeks before advance registration so that students have ample time to consult them before registering.

Specializations | Models of Study

The department offers optional models of study to help students create coherent patterns of focus and breadth in their coursework. Models of study range from traditional courses of study such as British and American Literature, through film and media studies, creative writing and studies in theory, to cultural studies, postcolonial studies, writing studies, and studies in feminisms, genders and sexualities.

Models of study do not have tracking status. Students will never be monitored, electronically or otherwise, for completion of models of study. The models identify to English majors the faculty's enthusiastic recommendations about coursework distributions for various interests they might want to pursue. Department advisors also can recommend which models of study seem most appropriate for particular post-undergraduate career and educational goals.

- African American/African Diaspora Studies
- American Literature
- British Literature
- Children's Literature
- Creative Writing
- Cultural Studies
- Drama/Theatre
- Feminisms, Genders, and Sexualities
- Film and Media Studies
- Postcolonial Studies
- Studies in Theory
- Writing Studies

Because the models of study do not have tracking status, students do not need to declare their intention to follow models of study with the department. Models of study structure the coursework, but students do not have to take specific courses to complete degree requirements for the major, and they can modify or combine models of study. While the department understands that students may be disappointed if they are unable to take specific courses relevant to their models of study, the demand for seats in courses is very high and the department is not able to accommodate all course requests.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.1 UF GPA required

Semester 3

- Complete 1 English department course at the 2000 level or higher
- 2.3 UF GPA required

Semester 4

- Complete 1 additional English department course at the 2000 level or higher with a 2.5 critical-tracking GPA

Semester 5

- Complete 1 additional English department course (1 of the 3 courses must be at the 3000 level) with a 2.5 critical-tracking GPA
- 2.5 UF GPA required

Semesters 6 – 8

- Complete a total of 10 English courses at 3000/4000 level. English does not require a certain number of courses per each semester for these two years. However, it is strongly recommended that students take at least two courses per semester.
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Home to UF's programs in Creative Writing and Film and Media Studies, The Center for Children's Literature and Culture, and The Institute for the Psychological Study of the Arts, the Department of English bridges traditional literary studies with new critical and theoretical disciplines. These include: critical theory and cultural studies; creative writing; rhetoric and composition; children's and young adult literature; contact period studies; postcolonial and/or diasporic studies; film studies/film and video production; gender studies and feminist theory; new media; psychology and literature; and imagetext studies.

Individualized programs balance focus with a flexible curriculum that spans periods, genres and media, and fosters careful analysis across disciplines and methodologies. Received traditions are renovated and new intersections of critical and literary practice are fostered within the framework of the *Context Model* system. Students are encouraged to define and pursue original work and/or creative work.

The study of English is vitally concerned with the texts and contexts of public culture. The department's curriculum cultivates a responsible understanding of the cultural and material conditions that shape historical and contemporary texts, and instructs students in the communication skills necessary to produce materials that disseminate new thought and knowledge by engaging with "fundamental questions" in the arts and humanities.

Before Graduating Students Must

- Complete ten English courses (3000 or above) that demonstrate proficiency in the student learning outcomes; assessments will be graded according to an evaluation rubric during the student's inaugural and final semesters in the major.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify materials, terminologies, methodologies and theories within one or more context models:
   a. Advanced Writing
   b. African American/African Diaspora Studies
   c. American Literature
   d. British Literature
   e. Children's Literature
   f. Creative Writing
   g. Cultural Studies
   h. Drama/Theater
   i. Feminisms, Genders and Sexualities
   j. Film and Media Studies
   k. Medieval/Early Modern Studies
   l. Postcolonial Studies
   m. Studies in Theory

Critical Thinking

2. Communicate knowledge, ideas and reasoning effectively in written, oral or other forms appropriate to the context model(s).

Communication

3. Evaluate cultural narratives and/or objects, employing methodologies and criteria appropriate to the context model(s).

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3
Assessment 1 (First semester in the major)	A	A	A
Context Model Courses[1]	I, R	I, R	I, R
Assessment 2 (Final/graduating semester)	A	A	A

[1] Course selection and sequence vary by student choice and courses can be affiliated with multiple context models.

Assessment Types

- Instructors rely on course assignments, most often critical essays, as prescribed by context models and as assessed the inaugural and final semesters of the student's enrollment in the upper-division major.

English Minor

The English minor provides the opportunity to study literature, rhetoric, creative writing or film and media, while gaining critical, analytical, and intellectual skills.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15 minimum | Completed with minimum grades of C and no optional S/U

Department Information

The Department of English fosters a dynamic nexus of critical thinking, writing, and making. English offers students innovative opportunities for individual and collaborative learning through BA, MFA, and PhD programs. Students work with a variety of materials, including: global Anglophone literature, African American literature, children's literature, comics, critical theory, digital modes, film and media. In-house journals and media reflect the scholarly, creative, and interdisciplinary work done by the department. Active across campus through its affiliations, English produces next-generation arts and humanities.

Environmental Justice and Policy Minor

The Environmental Justice and Policy minor offers an interdisciplinary framework for examining how disparities of class, race, gender, and organizational capacity interact with access to a safe and healthy environment.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15 | Completed with minimum grades of C and no optional S/U | 9 must be at the 3000-level or above

Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department's faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

Curriculum

- Combination Degrees
- Criminology
- Criminology UF Online
- Sociology
- Sociology Minor
- Sociology Minor UF Online
- Sociology of Social Justice and Policy Minor
- Sociology UF Online

Sociology offers broad theoretical perspectives and rigorous methodologies to analyze how and why such inequalities are produced and maintained locally, nationally, and globally. Students pursuing an EJP minor explore the impact of environmental hazards on the health and economic opportunities of vulnerable and marginalized populations; the mechanisms by which environmental conflicts are managed at the local, state, national and global levels; the real-world implications of issues such as climate change, food security, public health and hazard exposure; the spatial dimensions of environmental inequalities and how they are experienced; the strategies and tactics of social movement organizations seeking environmental justice; and how environmental justice is addressed in public policies. The EJP minor introduces students to environmental scholars across the campus community, expanding networking and mentoring opportunities, exposing students to diverse ideas, methods, and theories

in the area of environmental justice, and teaching fundamental skills and competencies for careers related to policy making and research in the environmental sphere.

Students should listen to these interviews on the department's website from three recent sociology graduates. Their testimonials describe the varied opportunities in the program and the different career and professional paths they and other sociology students embark on post-graduation.
More Info (https://soccrim.clas.ufl.edu/undergraduate/sociology/)

REQUIREMENTS

- Students must complete a minimum of nine credits of coursework exclusive to the minor that cannot count toward their major(s) or other minors or certificates.
- Students must complete at least three courses at the 3000-level or higher and each must be at least three credits.
- A minimum of 9 credits must be from Sociology courses (i.e., courses with the prefix SY).
- Minimum 3 credits from Category A courses focusing on Theories of Social Inequality, Difference and Power.
- Minimum 3 credits from Category B courses focusing on Issues of Environmental Justice, Research and Policy.
- At least one course from Category A or Category B must be Sociology (SY).
- With the approval of the undergraduate coordinator for Sociology, students may petition to have other, relevant classes approved as substitutes within each category of electives within the minor. Such courses could include department *special topics* offerings with numbers like 3930 or 4930.
- No more than three credits of independent study (SYA 4905), research (SYA 4911) or internship (SYA 4941) may count toward the minor.
- All courses must be completed with minimum C grades.
- The EJP minor is not available to Sociology majors.

Ethics and Society Certificate

The Ethics and Society certificate trains students in the ethical analysis of problems in public life and the professions. Learn about major theories and issues in ethics as a scholarly field and have the opportunity to gain specialized knowledge in areas such as medical, engineering, business, or environmental ethics.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 12 | Completed with minimum grades of C
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Contemporary public discourse is teeming with issues of urgent moral concern. From climate change to police violence, Artificial Intelligence to health care access, we face complex challenges that have ethical problems at their core. It is not always easy, however, to think through these challenges in a responsible and productive way. The Ethics and Society certificate teaches students to understand and analyze the moral dimensions of contemporary issues in public life and the professions. These topics are relevant for students in diverse majors, including professional schools as well as the liberal arts and sciences. Required courses in philosophical and religious ethics will provide students with the necessary skills to conceptualize ethical issues, providing an intellectual foundation for the analysis of applied and professional problems.

Admission Requirements

Current UF undergraduates in any major with a 2.0 GPA. Students minoring in Religion or Philosophy are eligible for the certificate so long as no more than one of their certificate courses are counted towards their minor.

Required Courses

Code	Title	Credits
PHI 3650	Moral Philosophy	3
REL 3082	Global Ethics	3
or REL 3171	Ethics in America	
At least one Philosophy or Religion course		*3*
PHI 2630	Contemporary Moral Issues	
PHI 3553	The Self, Reason and Ethics	
PHI 3633	Bioethics	
PHI 2631	Ethics and Innovation

Curriculum

- European Jewish Studies Certificate
- Hebrew
- Holocaust Studies Certificate
- Jewish Studies
- Jewish Studies Minor

Related Programs

- Hebrew Minor
- Medieval and Early Modern Studies | IDS

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Open to all students enrolled in an undergraduate degree program at the University of Florida.

Offered by the Center for Jewish Studies in cooperation with the Center for European Studies and participating UF units, the certificate in European Jewish Studies is designed to familiarize students with key issues in the Jewish experience in Europe, including relations with other groups; the trajectory of Jewish integration in European societies and cultures; representations of the Jew within European cultures; and comparisons with North African and Middle Eastern populations outside and within the continent's borders.

The EJS certificate provides students with multiple opportunities for concentrated and experiential areas of study. It allows students to work closely with their EJS faculty advisor to develop targeted, individualized areas of expertise from an array of specialists and perspectives to complement their majors and/or to prepare them for careers in governmental and non-governmental organizations, education, international business and politics, museums, festivals, libraries, Jewish associations and foundations. Students may specialize in national contexts or comparative and transnational cases, events and issues.

Requirements

Requirements consist of EJS approved individual study plans of 15 credits and attendance at a minimum of five relevant public lectures sponsored or co-sponsored by the Center for Jewish Studies and the Center for European Studies. Since availability of courses varies from year to year and new courses are often added, students should consult with a faculty advisor to determine which courses are approved for the certificate

Foreign Languages and Literatures

The major provides a foundation for graduate work in Foreign Languages and Literatures or allied fields (anthropology, art history, history, linguistics, political science, religion). A Foreign Languages and Literatures major is excellent general preparation for entry to professional schools (business, journalism, law, and medicine) or careers in foreign service, diplomacy, translation, commerce, business, import and export of information and culture, museums and libraries, and tourism.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Specializations:** African Languages (p. 1111) | Arabic (p. 1143) | Chinese (p. 1232) | Dual Languages (p. 1325) | French and Francophone Studies (http://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/FFS_BA/) | German (p. 1436) | Italian (p. 1489) | Japanese (p. 1499) | Russian (p. 1667)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

The BA in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or an approved UF program is highly encouraged.

Foreign Languages and Literatures Specializations

- African Languages
- Arabic
- Chinese
- Dual Languages
- French and Francophone Studies
- German
- Italian
- Japanese
- Russian

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target

language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Dual Languages

The major provides a foundation for graduate work in Foreign Languages and Literatures or allied fields (anthropology, art history, history, linguistics, political science, religion). A Foreign Languages and Literatures major is excellent general preparation for entry to professional schools (business, journalism, law, and medicine) or careers in foreign service, diplomacy, translation, commerce, business, import and export of information and culture, museums and libraries, and tourism.

Dual Language Specialization

The Dual Language specialization of the Foreign Languages and Literature major offers students the opportunity to specialize in two of the languages offered by the Department of Languages, Literatures and Cultures (LLC). Students can combine any of the languages offered as specializations and/or they can combine any of these languages with a specialization in Haitian Creole or Vietnamese.

Students who choose this track will develop proficiency in two languages as well as acquire cultural knowledge of more than one language area. Dual language majors will be specially poised to make both broad and deep linguistic and cultural comparisons and to build cross-cultural and cross-linguistic connections, skills that will prepare them to operate and work in multi-lingual and multi-cultural societies as well as across various complex regions of the world. Further, dual language majors will be able to apply the language-learning skills gained in the study of one language of specialization to reinforce their acquisition of a second language of specialization.

In the Dual Language specialization, students will complete two years of study of a principal language of specialization and two years of study of a second language taught in LLC. Students will also complete advanced coursework in the languages, their literatures and cultures, as well as a critical concentration.

There are a number of possibilities inherent in the Dual Language major. The following are some potential paths of study:

1. Dual Language: Haitian Creole with French and Francophone Studies
2. Dual Language: Vietnamese with Chinese

Students interested in the Dual Languages specialization need to complete a custom program plan with the undergraduate coordinators of the two languages they select.
More Info (https://languages.ufl.edu/academics/fll-major/.html) | Coordinators (http://languages.ufl.edu)

Requirements for the Major

The Dual Language specialization consists of two years of study of two languages. The 33 credits required includes 6 credits earned at the intermediate level in the second language, 18 credits of study in language, literature, and culture at the 3000 level or higher, and the 9 credit critical concentration. Students select a principal language of specialization and combine it with any of the other languages taught in the Department of Languages, Literatures, and Cultures. Course selections for the 18 credits of advanced electives will reflect the literature and culture of either language of specialization.

All coursework for the major must be completed with minimum grades of C.

Required Foundation Coursework

Not included in the 33 credits for the major

Total depends on placement in language courses

Advanced Major Elective Coursework | 18 credits

Advanced language and culture study with at least 6 credits at the 4000 level

Specific course offerings in this section will depend on the language(s) selected, but these courses should be selected from the advanced elective offerings (3000/4000 level courses) associated with either language of specialization. Selections should include at least two courses at the 4000 level. Students should consult with the undergraduate coordinator to develop the best course of study.

Critical Concentration

Select 9 credits from one concentration

Although courses may appear in more than one group they may be counted toward only one group

- Comparative Cultural Studies
- Film and Visual Culture
- Intensive Area Studies: Specific course offerings in this section will depend on the languages selected, but these courses should be selected from the advanced elective offerings (3000/4000 level courses) associated with the first and second language of specialization and their broader geographical area of cultural influence.
- Literary Studies
- Medieval and Early Modern Studies

A maximum of 15 credits non-UF overseas study credit may apply to the major. Students must have all overseas study credit that will transfer to the major approved by their major advisor.

Overseas Study

The department recommends no more than 12-15 credits from overseas study, depending on the requirements of the language specialization and in consultation with the appropriate Undergraduate Coordinator.

Placement

Students with previous training in their language of specialization as well as those with heritage background in that language should consult with the LLC undergraduate coordinator in order to have their level assessed before enrolling in any language course.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete Language A: Semester 1 or higher-level Language A course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete Language A: Semester 2 or higher-level Language A course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete Language A: Semester 3 or higher-level Language A course and Language B: Semester 1 with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete Language A: Semester 4 or a higher-level Language A course
- Complete Language B: Semester 2 or a higher-level Language B course
- Complete 2 Advanced elective courses
- 2.0 UF GPA required

Semester 7

- Complete Language B: Semester 3 or a higher-level Language B course
- Complete Advanced elective courses at the 4000 level
- Complete 2 Critical Concentration courses
- 2.0 UF GPA required

Semester 8

- Complete Language B: Semester 4 or a higher-level Language B course
- Complete 2 Advanced elective courses
- Complete 1 Critical Concentration course
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

[1] Courses focus on the acquisition of the language(s) of specialization at the advanced level.

2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

French and Francophone Studies

Foreign Languages and Literatures

French is considered a strategic language for global communications in matters of security, health, business, and cultural exchange. It is the key language to understanding the culture and history of the Francophone world. A specialization in French and Francophone Studies offers the linguistic, cultural, and intellectual training students need for an increasingly globalized future. In addition, the specialization forges links between the present and the past, as it encourages students to explore the exceptionally rich humanistic tradition of France and the Francophone world from the Middle Ages through the modern period.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

The BA in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

A French and Francophone Studies specialization of the Foreign Languages and Literatures major provides students with a strong command of the French language and an understanding of the cultures of the Francophone world. The specialization gives a foundation in the French Language, including speaking, reading, writing, and listening. The emphasis on communicative approaches and linguistic and cultural competencies trains students to compete in an increasingly globalized workforce. In addition, the major develops skills in critical thinking and research through in-depth study of the exceptionally rich humanistic tradition of France and the Francophone world throughout history. The program allows each student the flexibility to explore a variety of disciplines within the specialization and to design an individual course of study to reflect a particular interest in linguistics, literatures, cinema, cultural production, or other fields.

The specialization offers an excellent base for diverse careers including diplomacy, international relations, journalism, translation, education, global health, banking, and business. Many of students choose to combine the French and Francophone specialization with another field of study, including majors in physical sciences and engineering.

Requirements for the Major

The French and Francophone studies specialization in Foreign Languages and Literatures consists of foundational language study at the lower division (1000 and 2000 level), and 33 credits of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Required Foundation Coursework

Total depends on placement in language courses

Code	Title	Credits
FRE 1130	Beginning French 1	5
FRE 1131	Beginning French 2	5
FRE 2220	Intermediate French 1	4
FRE 2221	Intermediate French 2	4
Total Credits		**18**

FRW 4762	Readings in Francophone Literatures and Cultures (excluding the Caribbean and Sub-Saharan Africa)	
FRW 4770	African and Caribbean Literatures	
Critical Concentration		
Select 9 credits from one of the following concentrations (although courses may appear in more than one group they may be counted toward only one group):		9
Intensive Area Studies: French and Francophone Studies (recommended for those planning to pursue careers requiring advanced level skills in French or graduate work in French and Francophone studies)		
Comparative Cultural Studies		
Film and Visual Culture		
Literary Studies		
Medieval and Early Modern Studies		
Total Credits		**33**

Overseas Studies

Students specializing in French and Francophone studies are encouraged to study abroad for a summer or a semester. Students regularly participate in UF Programs in Paris or UF-approved study-abroad programs in other regions of France or in the Francophone world. Students also can consider the opportunities offered with UF's reciprocal exchange agreements with Rennes II and Sciences Po. Students in approved overseas study programs can earn up to 15 credits beyond the 120 credits required for graduation. Refer to UF International Center information and contact a department advisor. More Info (https://internationalcenter.ufl.edu/study-abroad/)

Placement

Students with previous training should speak with the department before registering.

- Students with previous study or experience in French should enroll in FRE 1134 or use standardized French examination scores (AICE, AP, CLEP or IB) to determine their appropriate placement in a higher-level course. Such students cannot enroll in FRE 1130 or FRE 1131.
- Any student who has lived in a French-speaking country for more than a year or who is francophone must consult a department advisor before enrolling in any FRE course.

Research

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation. Students planning to specialize in French and Francophone studies should see a department advisor before registering.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- 2.0 UF GPA required

SEMESTER 2

- Complete FRE 1130 or a higher-level French language course with a minimum grade of C
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 3

- Complete FRE 1131 or FRE 1134 or a higher-level French language with a minimum grade of C
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 4

- Complete FRE 2220 or a higher-level French language course with a minimum grade of C
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 5

- Complete FRE 2221 with a minimum grade of C
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 6

- Complete FRE 3300
- Complete 1 Critical Concentration course
- Complete 1 Culture elective such as FRE 3500 or FRE 3502 or FRE 3564
- Complete 1 Literature elective: FRW 3100 or FRW 3101
- 2.0 UF GPA required

SEMESTER 7

- Complete FRE 3320
- Complete 2 Critical Concentration courses
- 2.0 UF GPA required

SEMESTER 8

- Complete 1 Linguistics elective: FRE 4501 or FRE 4780 or FRE 4850 or FRE 4822
- Complete 2 4000-level electives
- Complete FRW 4932
- 2.0 UF GPA Required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education

requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

3000 level or above critical concentration courses outside of French may count toward the 3000 level or above electives outside of the major.

Beginning language is best started semester 1 and absolutely no later than semester 3, but study abroad or accredited intensive summer courses can be used to fall in with an ideal semester progression.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		5
FRE 1130	Beginning French 1 (**Critical Tracking**; CLAS Foreign Language Proficiency Requirement)) [1]	
FRE 1134	Accelerated French Review (**Critical Tracking**; CLAS Foreign Language Proficiency Requirement)) [1]	
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
	Credits	**14**
Semester Two		
Quest 1 (Gen Ed Humanities, if needed)		3
Select one:		5
FRE 1131	Beginning French 2 (**Critical Tracking**;CLAS Foreign Language Proficiency Requirement)) [1]	
FRE 1134	Accelerated French Review (**Critical Tracking**; CLAS Foreign Language Proficiency Requirement)) [1]

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary, and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

[1] Courses focus on the acquisition of the language(s) of specialization at the advanced level.
[2] Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

French and Francophone Studies Minor

French is considered a strategic language for global communications in matters of security, diplomacy, health, business, and cultural exchange. A minor in French and Francophone Studies enhances language skills and cultural competency and complements majors from the humanities to the sciences, engineering, business, and the arts.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 16 | Completed with minimum grades of C
- **Contact:** 301 Pugh Hall (http://campusmap.ufl.edu/?loc=0072)

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

- French and Francophone Studies Minor
- German
- German Minor
- German Minor UF Online
- Hebrew Minor
- Italian
- Italian Studies Minor
- Japanese
- Russian
- Russian and East-European Area Studies Certificate
- Russian Minor

The minor is open to all UF undergraduates with a minimum overall 2.0 GPA.

- At least three courses (none can be individual work) of no fewer than three credits each must be at the 3000-level or above.
- Of the total credits, no more than three may be individual work.
- A minimum of nine credits must be completed at UF.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
FRE 2221	Intermediate French 2	4
FRE 3300	Grammar and Composition	3
FRE 3320	Composition and Stylistics	3
FRE, FRW, or FRT courses [1]		6
Total Credits		**16**

[1] At a level higher than FRE 2221.

GeoAI and Geographic Analysis Minor

The GeoAI and Geographic Analysis Minor offers training in Artificial Intelligence (AI) applications integrated with geographic datasets, analytics, and technology, empowering students to identify patterns, predict trends, and make data-driven decisions in real-world scenarios.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 18-20 | Completed with minimum grades of C

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, BA and BS undergraduate degrees, MA, M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.
Website (https://geog.ufl.edu/)

Geographic Artificial Intelligence and Big Data Certificate

GeoAI, the integration of Geography and AI, provides novel approaches for addressing a variety of geospatial challenges in the real world. This certificate develops transferable skills in GeoAI to address issues affecting the environment and societies. GeoAI training is critical given projected growth ~16% in this industry by 2050.

About this Program

Prerequisites

For this certificate program, the course prerequisites vary depending on what courses are selected. It is possible to take this certificate and satisfy the prerequisites from the courses listed, for example:

- GIS 2114 or GIS 2002, then
- GIS 3043, then
- GIS 4324 or GIS 4424C or GIS 4500, and then the capstone
- GIS 4123C

In this way ONLY the courses taken are required with no additional prerequisites and with GIS 3043 serving as the prereq for the higher-level courses.

Required Courses

Code	Title	Credits
GIS 2114	The World & Big Data	3
or GIS 2002	The Digital Earth	
GIScience techniques course (select one)		**3-4**
GIS 3043	Foundations of Geographic Information Systems	
GIS 4021C	Aerial Photo Interpretation	
GIS 4037	Digital Image Processing	
GIS 4102C	GIS Programming	
GIS 4115C	Spatial Surface Modeling and Geostatistics	
MET 3753	Pragmatic Python for Weather	
MET 4750	Spatial Analysis of Atmospheric Data using GIS	
GIScience applications course (select one)		**3**
GIS 3420C	GIS Models for Public Health	
GIS 4113	Introduction to Spatial Networks	
GIS 4324	GIS Analysis of Hazard Vulnerability	

GIS 4424C	Applications in GIS for Zoonoses and Disease Ecology	
GIS 4500	Population GIS	
MET 4410	Radar and Satellite Meteorology	
Capstone GeoAI course		**3**
GIS 4123C	GeoAI – Geographic Artificial Intelligence	
Total Credits		**12-13**

Geography

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa

and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Requirements for the Major

The geography major has six different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences, the Bachelor of Arts in Geographical Science and Sustainability, the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed in the Overview tab for each program.

Bachelor of Arts in Geography

Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

Bachelor of Arts in Environmental Geosciences

A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Bachelor of Science in Geography

Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

Bachelor of Arts in Geographical Science and Sustainability

A joint program (specialization) co-offered by Geography and Sustainability Studies and is intended for students interested in using geospatial technologies to advance sustainability. Students in this specialization learn modern geospatial technologies, such as geographical information system, remote sensing and spatial analysis, and use them to maintain ecological and environmental health, create economic welfare, and pursue social justice in a changing world.

Bachelor of Arts in Medical Geography in Global Health

Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Bachelor of Science in Medical Geography in Global Health

Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Academic Learning Compact

A major in Geography enables students to know the earth's physical environment, to learn social, cultural, and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills, and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically, and/or with statistics.

The Bachelor of Arts in Geography enables students to learn how geographic techniques, skills, and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human#environment interactions, and the techniques of geographic science.

Critical Thinking

2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication

3. Interpret and effectively communicate information spatially, graphically, and/or with statistics.

Total Credits		**39-45**

*The same course may **not** be used to satisfy requirements for more than one bulleted group.*

[1] Other geography courses may be counted at the discretion of the undergraduate coordinator.

Transfer coursework is considered on a case-by-case basis. Upper division transfer courses with no UF equivalent will be substituted as GEO 4938.

Related Coursework

- STA 2023

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

Semester 4

- Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete a GIS 3000/4000 technique course.
- 2.0 UF GPA required

Semester 7

- Complete 1 additional geography technique course (GEO or GIS 4000 level)
- 2.0 UF GPA required

Semester 8

- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education

requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3
GEO 2410	Social Geography (**Critical Tracking**)	
GEO 2420	People, Place, and Culture (**Critical Tracking**)	
GEO 2500	Global and Regional Economies (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
CLAS Foreign Language Proficiency Requirement [1]		4-5
	Credits	**13-14**
Semester Two		
Quest 1 (Gen Ed Humanities)		3
GEO 2200	Dynamic Planet Earth	4
& 2200L	and Dynamic Planet Earth Laboratory (**Critical Tracking**; Gen Ed Physical Sciences; Natural Science Laboratory) [2]	
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	3

Semester Eight		
Systematic GEO course (**Critical Tracking**; 3000/4000 level)		3
Electives (3000 level or above, not in major)		6
Electives		7
	Credits	**16**
	Total Credits	**120**

1 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)
2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

Academic Learning Compact

A major in Geography enables students to know the earth's physical environment, to learn social, cultural, and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills, and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically, and/or with statistics.

The Bachelor of Arts in Geography enables students to learn how geographic techniques, skills, and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human#environment interactions, and the techniques of geographic science.

Critical Thinking

2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication

3. Interpret and effectively communicate information spatially, graphically, and/or with statistics.

Bachelor of Science

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1352) | Bachelor of Science (p. 1357)
- **Specializations:** Environmental Geosciences (BA) (p. 1362) | Geographical Science and Sustainability (BA) (p. 1367) | Medical Geography in Global Health (BA) (p. 1373) | Medical Geography in Global Health (BS) (p. 1379)
- **Credits for Degree:** 120
- **Contact:** Email (liangmao@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, BA and BS undergraduate degrees, MA, M.S., and PhD degrees, as well as the largest Medical Geography program in the United States. **Website (https://geog.ufl.edu/)**

- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate

- Medical Geography in Global Health Minor
- Meteorology and Climatology Certificate
- Meteorology Minor

The Bachelor of Science in Geography is best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

Coursework for the Major

The Bachelor of Science in geography requires 36-41 credits of geography coursework and 16-17 credits of related coursework in physics, chemistry, meteorology, and statistics. Students must earn a minimum grade of C in all coursework for the major.

Required Coursework

Code	Title	Credits
GEO 2200	Dynamic Planet Earth	4
& 2200L	and Dynamic Planet Earth Laboratory	
GEO 3162C	Introduction to Quantitative Analysis for Geographers	4
GEO 4170	Communicating Science in the Geosciences	3
GEO 4930	Senior Seminar	1
Select one:		3
GEO 2006	Natural Hazards Geography	
GEO 2410	Social Geography	
GEO 2420	People, Place, and Culture	
GEO 2500	Global and Regional Economies	
Select one GeoAI course:		3
GIS 2002	The Digital Earth	
GIS 2114	The World & Big Data	
Select two Technique courses:		7-9
GEO 4167C	Intermediate Quantitative Analysis for Geographers	
GIS 3001C	Geovisualization and Map Design	
GIS 3043	Foundations of Geographic Information Systems	
GIS 4021C	Aerial Photo Interpretation	
GIS 4037	Digital Image Processing	
GIS 4113	Introduction to Spatial Networks	
GIS 4115C	Spatial Surface Modeling and Geostatistics	
Select one Regional Geography course:		3
GEA 2270	Geography of Florida	
GEA 2601	Geography of Africa	
GEA 3405	Geography of Latin America	
GEA 3500	Geography of Europe	
GEA 4465	Amazonia	
Select three: [1]		9-12
GEO 3250	Climatology	
GEO 3280	Principles of Geographic Hydrology	
GEO 2315	Hungry Planet: Global Geographies of Food	
GEO 3341	Extreme Floods	
GEO 3352	The Human Footprint on Landscape	
GEO 3372	Conservation of Resources	
GEO 3452	Introduction to Medical Geography	
GEO 4167C	Intermediate Quantitative Analysis for Geographers	
GEO 4034	Weather, Climate, and Society	
GEO 4281	River Forms and Processes	
GEO 4285	Water, Risk, and Extreme Events	
GEO 4938	Selected Topics in Geography	
GEO 4970	Honors Thesis	
GIS 3043	Foundations of Geographic Information Systems	
GIS 3420C	GIS Models for Public Health	
GIS 4021C	Aerial Photo Interpretation	
GIS 4037	Digital Image Processing	
GIS 4113	Introduction to Spatial Networks	
GIS 4115C	Spatial Surface Modeling and Geostatistics	
GIS 4324	GIS Analysis of Hazard Vulnerability	

GLY 4734	Coastal Morphology and Processes	
MET 3503	Weather and Forecasting	
MET 4224C	Machine Learning in Meteorology	
MET 4532	Hurricanes	
MET 4560	Atmospheric Teleconnections	
MET 4750	Spatial Analysis of Atmospheric Data using GIS	
Quest 3/Experiential Learning Academic Requirement		0-3
Total Credits		**37-45**

*The same course may **not** be used to satisfy requirements for more than one bulleted group.*

[1] Other geography courses may be counted at the discretion of the undergraduate coordinator.

Transfer coursework is considered on a case-by-case basis. Upper division transfer courses with no UF equivalent will be substituted as GEO 4938.

Related Coursework

Code	Title	Credits
CHM 1025	Introduction to Chemistry	2-3
or CHM 1030	Basic Chemistry Concepts and Applications 1	
MET 1010	Introduction to Weather and Climate	3

Total Credits		**16-17**

Quest 3/Experiential Learning Academic Requirement

To fulfill the Quest 3/UF Experiential Learning Academic Requirement (Q3/ELAR), students will pursue experiential learning in the form of internships or co-ops, global engagement/study abroad, community/public service, undergraduate research, or design competitions. Students should consult with department faculty to learn more about opportunities available to Geography students.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

Semester 4

- Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete a GIS 3000/4000 technique course.
- 2.0 UF GPA required

Semester 7

- Complete 1 geography (GEO, GIS, or MET) 3000/4000 systematic course
- 2.0 UF GPA required

Semester 8

- Complete all remaining geography (GEO or GIS) 3000/4000 courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

The Bachelor of Arts in Environmental Geosciences is a joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Requirements for the Major

The Bachelor of Arts in environmental geosciences requires a minimum of 41 credits of coursework, plus 3 credits of Statistics. Students must earn a minimum grade of C in all coursework for the major.

Required Major Coursework

Code	Title	Credits
Geography BA Environmental Geosciences Core Courses

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

Geology courses may count towards the 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3

1 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)
2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

Academic Learning Compact

A major in Geography enables students to know the earth's physical environment, to learn social, cultural, and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills, and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to

apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically, and/or with statistics.

The Bachelor of Arts in Geography enables students to learn how geographic techniques, skills, and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human#environment interactions, and the techniques of geographic science.

Critical Thinking

2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication

3. Interpret and effectively communicate information spatially, graphically, and/or with statistics.

Geographical Science and Sustainability | BA

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

Overview

The Bachelor of Arts in Geography in Geographical Science and Sustainability is a joint program (specialization) co-offered by Geography and Sustainability Studies and is intended for students interested in using geospatial technologies to advance sustainability. Students in this specialization learn modern geospatial technologies, such as geographical information system, remote sensing and spatial analysis, and use them to maintain ecological and environmental health, create economic welfare, and pursue social justice in a changing world.

requirements for the major

The Bachelor of Arts in Geography Geographical Science and Sustainability specialization requires a major coursework of 46 credits from the geography program and sustainability studies program, and 3 additional credits of STA 2023. Students must earn a minimum grade of C in all coursework for the major.

Required Major Courses

Code	Title	Credits
Geography BA Geographical Science and Sustainability Core Courses		
STA 2023	Introduction to Statistics 1	
Geography Fundamentals Core Courses		**13**
GEO 2200	Dynamic Planet Earth	
& 2200L	and Dynamic Planet Earth Laboratory	
GEO 2006	Natural Hazards Geography	
GEO 2351	Geographical Sciences and Sustainability	

Select one GeoAI course:		
GIS 2002	The Digital Earth	
GIS 2114	The World & Big Data	
Sustainability Fundamentals Core Courses		**12**
IDS 2154	Facets of Sustainability	
Select one:		
AMH 2631	History of Sustainability	
CLA 2521	Classical Antiquity and Sustainability	
REL 2071	Sustainability and Religion	
BSC 2862	Global Change Ecology and Sustainability	
Select one:		*3*
ANT 2402	Anthropology of Sustainability	
POS 2032	Politics of Sustainability	
ECO 2310	Economics of Sustainability	
PSY 3626	Psychology of Sustainability	
Geospatial Technique courses (Select two:)		**8**
GIS 3001C	Geovisualization and Map Design	
GIS 3043	Foundations of Geographic Information Systems	
GIS 4037	Digital Image Processing	
Communications skill course		**3**
GEO 4170	Communicating Science in the Geosciences	
Capstone course		**1**
GEO 4930	Senior Seminar	
Geography BA Geographical Science and Sustainability Major Electives electives for Sustainability-9 credits; Select three:		**9**
Select three:		
GEO 2242	Extreme Weather	
GEO 2315	Hungry Planet: Global Geographies of Food	
GEO 3250	Climatology	
GEO 3280	Principles of Geographic Hydrology	
GEO 3334	Managing for a Changing Climate	
GEO 3341	Extreme Floods	
GEO 3352	The Human Footprint on Landscape	
GEO 3372	Conservation of Resources	
GEO 3452	Introduction to Medical Geography	
GEO 3454	Peoples and Plagues	
GEO 3930	Special Topics in Geography (Sea Level Variability & Change)	
GEO 3930	Special Topics in Geography (Weather, Climate, & Society)	
GEO 3930	Special Topics in Geography (Extreme Droughts)	
GEO 4300	Environmental Biogeography	
GIS 4021C	Aerial Photo Interpretation	
GIS 4102C	GIS Programming	
GIS 4324	GIS Analysis of Hazard Vulnerability	
Other geography courses can be counted under the discretion of the undergraduate coordinator.		
Total Credits		**49**

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- ·2.0 UF GPA required

SEMESTER 2

- Complete either one geography fundamental course or one sustainability fundamental course (recommended GEO 2200 & GEO 2200L or IDS 2154) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 3

- Complete the other fundamental course that is not taken in Semester 2 (recommended GEO 2200 & GEO 2200L or IDS 2154) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 4

- Complete one additional geography fundamental course (recommended GEO 2351), and STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 5

- Complete one additional geography fundamental course, one additional sustainability fundamental course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 6

- Complete all geography and sustainability fundamental courses
- Complete a GIS 3000/4000 technique course.
- 2.0 UF GPA required

SEMESTER 7

- Complete 1 additional geography technique course (GEO or GIS 4000 level)
- 2.0 UF GPA required

SEMESTER 8

- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

Semester 4

- Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete 1 geography technique course.
- 2.0 UF GPA required

Semester 7

- Complete 1 geography elective course
- 2.0 UF GPA required

Semester 8

- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

A major in Geography enables students to know the earth's physical environment, to learn social, cultural, and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills, and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically, and/or with statistics.

The Bachelor of Arts in Geography enables students to learn how geographic techniques, skills, and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human#environment interactions, and the techniques of geographic science.

Critical Thinking

2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication

3. Interpret and effectively communicate information spatially, graphically, and/or with statistics.

Medical Geography in Global Health | BS

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1352) | Bachelor of Science (p. 1357)
- **Specializations:** Environmental Geosciences (BA) (p. 1362) | Geographical Science and Sustainability (BA) (p. 1367) | Medical Geography in Global Health (BA) (p. 1373) | Medical Geography in Global Health (BS) (p. 1379)
- **Credits for Degree:** 120
- **Contact:** Email (liangmao@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, BA and BS undergraduate degrees, MA, M.S., and PhD degrees, as well as the largest Medical Geography program in the United States. **Website (https://geog.ufl.edu/)**

- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate
- Medical Geography in Global Health Minor
- Meteorology and Climatology Certificate
- Meteorology Minor

The Bachelor of Science in Medical Geography in Global Health is best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Requirements for the major

The Bachelor of Science in Medical Geography in Global Health (MGGH) requires a minimum of 39 credits of geography coursework and 19 credits of related coursework in biology, chemistry, and statistics. Students must earn a minimum grade of C in all coursework for the major.

Required Coursework

Code	Title	Credits
Geography BS MGGH Core Courses		**34-35**
GEO 2200	Dynamic Planet Earth	
& 2200L	and Dynamic Planet Earth Laboratory	
GEO 3162C	Introduction to Quantitative Analysis for Geographers	
GEO 4170	Communicating Science in the Geosciences	
GEO 4930	Senior Seminar	
Select one:		
GEO 2006	Natural Hazards Geography	
GEO 2410	Social Geography	
GEO 2420	People, Place, and Culture	
GEO 2500	Global and Regional Economies	
Select one GeoAI Fundamental course:		
GIS 2002	The Digital Earth	
GIS 2114	The World & Big Data	
Two Geography Techniques courses:		
GIS 3043	Foundations of Geographic Information Systems (required)	
Select one:		
GEO 4167C	Intermediate Quantitative Analysis for Geographers	
GIS 3001C	Geovisualization and Map Design	
GIS 4021C	Aerial Photo Interpretation	
GIS 4037	Digital Image Processing	
GIS 4113	Introduction to Spatial Networks	
GIS 4115C	Spatial Surface Modeling and Geostatistics	
Select one regional geography course:		
GEA 2270	Geography of Florida	
GEA 3405	Geography of Latin America	
GEA 3500	Geography of Europe	
GEA 4465	Amazonia	
Select two medical geography core courses:		
GEO 3452	Introduction to Medical Geography	
GEO 3454	Peoples and Plagues	
GEO 3427	Plants, Health and Spirituality	
GEO 4612	Shelter and Care Options for US Elderly	
Geography BS MGGH Elective Courses		**6**
Select two geography elective courses: [1]		
GEO 2242	Extreme Weather	
GEO 2315	Hungry Planet: Global Geographies of Food	
GEO 3250	Climatology	
GEO 3280	Principles of Geographic Hydrology	
GEO 3341	Extreme Floods	
GEO 3352	The Human Footprint on Landscape	
GEO 3372	Conservation of Resources	
GEO 3427	Plants, Health and Spirituality	
GEO 3430	Population Geography	
GEO 3452	Introduction to Medical Geography	
GEO 3454	Peoples and Plagues	
GEO 3502	Economic Geography	
GEO 3602	Urban and Business Geography	
GEO 3611	Housing, People, and Places in a Spatially Diverse America	
GEO 3803	Geography of Alcohol	
GEO 3930	Special Topics in Geography	
GEO 4167C	Intermediate Quantitative Analysis for Geographers	
GEO 4281	River Forms and Processes	
GEO 4285	Water, Risk, and Extreme Events	
GEO 4300	Environmental Biogeography	
GEO 4306C	Geography of Vector-borne Diseases	
GEO 4554	Regional Development	
GEO 4612	Shelter and Care Options for US Elderly	
GEO 4700	Transportation and Urban Accessibility	

GEO 4938	Selected Topics in Geography
GEO 4970	Honors Thesis
GIS 2002	The Digital Earth
GIS 3420C	GIS Models for Public Health
GIS 4021C	Aerial Photo Interpretation
GIS 4037	Digital Image Processing
GIS 4102C	GIS Programming
GIS 4113	Introduction to Spatial Networks
GIS 4115C	Spatial Surface Modeling and Geostatistics
MET 3503	Weather and Forecasting
MET 4532	Hurricanes
MET 4560	Atmospheric Teleconnections
MET 4750	Spatial Analysis of Atmospheric Data using GIS
Quest 3/Experiential Learning Academic Requirement [2]	**0-3**
Total Credits	**40-44**

*The same course may **not** be used to satisfy requirements for more than one bulleted group.*

1 Other geography courses may be counted at the discretion of the undergraduate coordinator.

2 To fulfill the Quest 3/UF Experiential Learning Academic Requirement (Q3/ELAR), students should enroll in an experience for 3 credit hours (or opt for 0-2 credit hours if needed, although the student effort during the semester will remain the equivalent of 3 credit hours) through existing courses that are designated to fulfill the Quest 3 requirement. Students who complete the Quest 3/ELAR requirement for 0-2 credits may need to take additional Geography electives in order to reach 120 total credits.

Related Coursework

& 2010L	and Integrated Principles of Biology Laboratory	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2	
STA 2023	Introduction to Statistics 1	3
Total Credits		**19**

Quest 3/Experiential Learning Academic Requirement

To fulfill the Quest 3/UF Experiential Learning Academic Requirement (Q3/ELAR), students will pursue experiential learning in the form of internships or co-ops, global engagement/study abroad, community/public service, undergraduate research, or design competitions. Students should consult with department faculty to learn more about opportunities available to Geography students.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

Semester 4

- Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete 1 medical geography core course and 1 geography technique course.
- 2.0 UF GPA required

Semester 7

- Complete 1 additional geography technique course and 1 geography elective course
- 2.0 UF GPA required

Semester 8

- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses and Quest 3/Experiential Learning Academic Requirement
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

2 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

3 GEO 3452 or GEO 3454 recommended.

4 To fulfill the Quest 3/UF Experiential Learning Academic Requirement (Q3/ELAR), students should enroll in an experience for 3 credit hours (or opt for 0-2 credit hours if needed, although the student effort during the semester will remain the equivalent of 3 credit hours) through existing courses that are designated to fulfill the Quest 3 requirement. Students who complete the Quest 3/ELAR requirement for 0-2 credits may need to take additional Geography electives in order to reach 120 total credits.

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

Academic Learning Compact

A major in Geography enables students to know the earth's physical environment, to learn social, cultural, and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills, and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically, and/or with statistics.

The Bachelor of Arts in Geography enables students to learn how geographic techniques, skills, and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human#environment interactions, and the techniques of geographic science.

Critical Thinking

2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and

environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Requirements for the Major

The UF Online Geography major has two different programs: the Bachelor of Arts and the Bachelor of Arts in Environmental Geosciences (a joint program with the Department of Geological Sciences). Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed on the program pages.

Bachelor of Arts in Geography

Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

Bachelor of Arts in Environmental Geosciences

A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Academic Learning Compact

A major in Geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills, and concepts are applied in the subfields of Geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically, and/or with statistics.

The Bachelor of Arts in Geography enables students to learn how geographic techniques, skills, and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human#environment interactions, and the techniques of geographic science.

Critical Thinking

1. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication

1. Interpret and effectively communicate information spatially, graphically, and/or with statistics.

Assessment Types

- Capstone exam
- Portfolio

Bachelor of Arts

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socio-economic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. [1] Upper-division transfer courses with no UF equivalent will be substituted as GEO 4938.

Transfer coursework is considered on a case-by-case basis.

The same course may not be used to satisfy requirements for more than one bulleted group.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete 1 geography course
- 2.0 UF GPA required

Semester 4

- Complete 1 additional geography course (1 of the 2 must be GEO 2200) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete 1 GIS 3000/4000 technique course
- 2.0 UF GPA required

Semester 7

- Complete 1 additional geography technique course (GEO or GIS 4000 level)
- 2.0 UF GPA required

Semester 8

- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Environmental Geosciences

Environmental Geosciences is an interdisciplinary curriculum integrating physical, chemical and biological aspects of the environment and environmental systems. There remains a huge demand for scientists with quantitative, interdisciplinary training in environmental geosciences to address, mitigate, and manage a multitude of complex environmental problems facing society.

The Bachelor of Arts in Environmental Geosciences is a joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law. Potential careers include natural resource management, environment protection, USGS, NGOs, etc.

requirements for the major

The Bachelor of Arts in environmental geosciences requires a minimum of 37 credits of coursework, including STA 2023 Students must earn a minimum grade of C in all coursework for the major.

Required Major Coursework

Code	Title	Credits
Geography BA Environmental Geosciences Core Courses		
GEO 2200	Dynamic Planet Earth	4
& 2200L	and Dynamic Planet Earth Laboratory	
GIS 3043	Foundations of Geographic Information Systems	4

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 3

- Complete the other critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete STA 2023 and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 2 additional GLY or GEO courses with a 2.5 critical-tracking GPA. Recommended GLY courses include GLY 2100C or GLY 3105C. Recommended GEO courses include GEO 3250, GEO 3280, GEO 2315, GEO 3341, GEO 3352, GEO 3372, or MET 3503.
- 2.0 UF GPA required

Semester 6

- Complete 1 geography 3000/4000 elective course.
- 2.0 UF GPA required

Semester 7

- Complete 1 additional geography and 1 additional geology elective courses
- 2.0 UF GPA required

Semester 8

- Complete all remaining geography and geology 3000/4000 courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

Geology courses may count towards the 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

Academic Learning Compact

The Bachelor of Arts in Geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

Before Graduating Students Must

- Pass GLY 4155C according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

Critical Thinking

1. Interpret geologic maps and cross sections.
2. Interpret results using the scientific method.

Communication

1. Produce a clearly and effectively written synthesis of data collected in the field.
2. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Geological Sciences Certificate

The Geological Sciences certificate offers coursework relevant to environmental policy and law, resource economics, teaching, regional planning, building construction, and related fields. The certificate program includes courses required to take the professional geologist licensure exam.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 16-17 | Completed with minimum grades of C
- **Contact:** Email (jmeert@ufl.edu) | 352.846.2414
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. Geological Sciences trains students to excel in the geoscience workforce and create sustainable solutions to societal needs.

- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

This certificate is offered via distance learning to UF students. Degree-seeking geological science majors are not eligible for this certificate.

Required Courses

Code	Title	Credits
GLY 2010C	Physical Geology	3-4
or GLY 2030C	Environmental and Engineering Geology	
GLY 3105C	Evolution of Earth and Life	4
GLY 3202C	Earth Materials	3
Approved electives		6
Total Credits		**16-17**

Approved Electives

Code	Title	Credits
GLY 3163	Geology American National Parks	3
GLY 3882C	Hydrogeology and Human Affairs	3
GLY 4155C	Geology of Florida	3
GLY 4552C	Sedimentary Geology	4
GLY 4700	Geomorphology	3
GLY 4822	Groundwater Geology	3

Geology

A Geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today's job market. The Geology graduate will have a detailed understanding of climate change, sustainability of the Earth's resources, and the close interplay between human activity and the environment.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1403) | Bachelor of Science (p. 1408)
- **Specializations:** Environmental Geosciences (BA) (p. 1413) | Environmental Geosciences (BS) (p. 1419) | Geophysics (BS) (p. 1424)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Curriculum

- Combination Degrees
- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty, and coursework in several areas of General Education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth's physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Note that some required courses include a field component, but alternatives to off-campus field work are available and special needs or concerns may be accommodated by speaking with a Geology advisor.

Coursework for the Major

The Geology major has five different options: the Bachelor of Arts, the Bachelor of Arts in Environmental Geosciences (a joint program with the Department of Geography), the Bachelor of Science in Geology, the Bachelor of Science in Geophysics, and the Bachelor of Science in Environmental Sciences. Students who are uncertain which program best suits them should consult the Department of Geology's undergraduate coordinator for information and guidance on curriculum planning.

Degrees and Specializations

Bachelor of Arts

The most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences

Co-offered by the Department of Geography, this specialization is for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science | Geology

This degree is designed for students planning to take the professional geology (PG) licensure exam or to continue to graduate study in Geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Bachelor of Science | Geophysics

This specialization is designed for students planning to take the professional geology (PG) licensure exam or to continue to graduate study in Geophysics or related fields. It emphasizes a core understanding of earth materials, structural geology, field methodology, quantitative and computational methods, and it requires significant coursework in mathematics, computational methods, general chemistry, and physics.

Bachelor of Science | Environmental Geosciences

This specialization is designed for students planning to take the professional geology (PG) licensure exam or to continue to graduate study in Environmental Geology/Hydrogeology. It emphasizes a core understanding of earth materials, structural geology, field methodology, geobiology. geochemistry, and it requires significant introductory coursework in calculus, general chemistry, and biology.

Relevant Minors and Certificates

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their BA or BS in Geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

Academic Learning Compact

Bachelor of Arts

The Bachelor of Arts in Geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

Before Graduating Students Must

- Pass GLY 4155C according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

Critical Thinking

4. Interpret geologic maps and cross sections.
5. Interpret results using the scientific method.

Communication

6. Produce a clearly and effectively written synthesis of data collected in the field.
7. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Bachelor of Science

The Bachelor of Science in Geology provides knowledge of the basic concepts, theories, observational findings related to earth materials and processes, minerals and rocks, geologic time, stratigraphy, and landforms. Through laboratory and field-based exercises, students will learn how to analyze data in the published literature, synthesize analog and digital datasets to produce geological maps, and understand the application of the scientific method to solve geological problems in teams and individually.

Before Graduating Students Must

- Pass GLY 4790 Summer Field Camp according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, and define the basic concepts related to earth materials and processes.
2. Identify and describe minerals and rocks.
3. Define geologic time, stratigraphy, and landforms.

Critical Thinking

4. Analyze data in the published literature.
5. Synthesize analog and digital datasets to produce geologic maps.
6. Apply the scientific method to the analysis of published and self-generated data.

Communication

7. Use computers for the presentation of geologic maps and data.
8. Solve geologic problems in teams and present the result of such collaboration effectively.

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

Bachelor of Arts

The Geology BA requires a minimum of 32 credits of coursework in the major. At least 23 credits must be GLY-prefixed courses at the 3000 level or above, excluding GLY 3105C. Students must earn a minimum grade of C for coursework to count toward the major.

Required Coursework

Code	Title	Credits
Introductory Coursework		
Select one general introductory course:		3-4
GLY 2010C	Physical Geology	
GLY 2030C	Environmental and Engineering Geology	
Any 1000-2000-level GLY, OCE or ESC course		
Select one historical geology courses:		4
GLY 3105C	Evolution of Earth and Life	
GLY 2100C	Historical Geology	
Core Coursework		
GLY 3202C	Earth Materials	3-4
or GLY 3200C	Principles of Mineralogy	
Additional Geology courses at the 3000 level or higher [1]		17
1000-4000 level Geology course		2-4
Capstone Course		

GLY 4155C	Geology of Florida	3
Total Credits		**32-36**

[1] Excluding GLY 3105C; minimum 17 credits.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete one General Education Mathematics course
- Complete 1 of 3 critical-tracking courses with a 2.5 critical-tracking GPA. Select one from a general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), a historical geology course (GLY 3105C or GLY 2100C), or a 3000-level geology course.

  GLY 2010C or GLY 2030C is recommended as one of these is prerequisite to many upper-level courses.
- 2.0 UF GPA required

Semester 4

- Complete one additional critical-tracking course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all tracking courses with a 2.5 critical-tracking GPA; one general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE, or ESC course), one historical geology course (GLY 3105C or GLY 2100C), and one 3000-level geology course.
- 2.0 UF GPA required

Semester 6

- Complete 1 GLY elective 3000 level or above (3-4 credits)
- 2.0 UF GPA required

Semester 7

- Complete 2 additional GLY electives 3000 level and above (6-8 credits)
- 2.0 UF GPA required

Semester 8

- Complete any remaining GLY electives 3000 level and above
- Complete GLY 4155C (Capstone) Geology of Florida
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education

requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Mathematics (**Critical Tracking**)		3
CLAS Foreign Language Proficiency Requirement [1]		4-5

Total Credits		**15-17**

Specific courses selected from among the alternatives listed above will depend upon the student's primary interest.

Students interested in graduate school are urged to take a year of chemistry, calculus and physics. Students should contact a departmental advisor as early as possible.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete one general introductory course (GLY 2010C Physical Geology, GLY 2030C Environmental and Engineering Geology, or any 1000-2000 level GLY, OCE, or ESC course).
  GLY 2010C is recommended as it is a prerequisite for many upper-level courses.
- 2.0 UF GPA required

Semester 4

- Complete historical geology course (GLY 2100C or GLY 3105C) or GLY 3000-level geology course.
- Complete one required related course (CHM 2045/CHM 2045L, MAC 2311, or PHY 2004/PHY 2048/PHY 2053 and associated lab)
- 2.5 Critical Tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete one 3000-level geology course (or historical geology course if not taken in semester 4)
- Complete one additional required related course (CHM 2045/CHM 2045L, MAC 2311, or PHY 2004/PHY 2048/PHY 2053 and associated lab)
- 2.5 Critical Tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete GLY 4310C or GLY 4400C
- 2.0 UF GPA required

Semester 7

- Complete GLY 4750L and GLY 4552C
- 2.0 UF GPA required

Semester 8

- Complete any remaining GLY required courses, required related courses, and electives as well as GLY 4790 (Capstone)

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, and PHY 2054L may count towards 3000 level or above electives outside of the major if taken.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Science in Geology provides knowledge of the basic concepts, theories, observational findings related to earth materials and processes, minerals and rocks, geologic time, stratigraphy, and landforms. Through laboratory and field-based exercises, students will learn how to

analyze data in the published literature, synthesize analog and digital datasets to produce geological maps, and understand the application of the scientific method to solve geological problems in teams and individually.

Before Graduating Students Must

- Pass GLY 4790 Summer Field Camp according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn To

Student Learning Outcomes | SLOs

Content

1. Identify, describe, and define the basic concepts related to earth materials and processes.
2. Identify and describe minerals and rocks.
3. Define geologic time, stratigraphy, and landforms.

Critical Thinking

1. Analyze data in the published literature.
2. Synthesize analog and digital datasets to produce geologic maps.
3. Apply the scientific method to the analysis of published and self-generated data.

Communication

1. Use computers for the presentation of geologic maps and data.
2. Solve geologic problems in teams and present the result of such collaboration effectively.

Environmental Geosciences | BA

A Geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today's job market. The Geology graduate will have a detailed understanding of climate change, sustainability of the Earth's resources, and the close interplay between human activity and the environment.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1403) | Bachelor of Science (p. 1408)
- **Specializations:** Environmental Geosciences (BA) (p. 1413) | Environmental Geosciences (BS) (p. 1419) | Geophysics (BS) (p. 1424)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. Geological Sciences trains students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Curriculum

- Combination Degrees
- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty, and coursework in several areas of General Education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth's physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Note that some required courses include a field component, but alternatives to off-campus field work are available and special needs or concerns may be accommodated by speaking with a Geology advisor.

Coursework for the Major

The Geology major has five different options: the Bachelor of Arts, the Bachelor of Arts in Environmental Geosciences (a joint program with the Department of Geography), the Bachelor of Science in Geology, the Bachelor of Science in Geophysics, and the Bachelor of Science in Environmental Sciences. Students who are uncertain which program best suits them should consult the Department of Geology's undergraduate coordinator for information and guidance on curriculum planning.

Degrees and Specializations

Bachelor of Arts

The most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences

Co-offered by the Department of Geography, this specialization is for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science | Geology

This degree is designed for students planning to take the professional geology (PG) licensure exam or to continue to graduate study in Geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Bachelor of Science | Geophysics

This specialization is designed for students planning to take the professional geology (PG) licensure exam or to continue to graduate study in Geophysics or related fields. It emphasizes a core understanding of earth materials, structural geology, field methodology, quantitative and computational methods, and it requires significant coursework in mathematics, computational methods, general chemistry, and physics.

Bachelor of Science | Environmental Geosciences

This specialization is designed for students planning to take the professional geology (PG) licensure exam or to continue to graduate study in Environmental Geology/Hydrogeology. It emphasizes a core understanding of earth materials, structural geology, field methodology, geobiology. geochemistry, and it requires significant introductory coursework in calculus, general chemistry, and biology.

Relevant Minors and Certificates

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their BA or BS in Geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

Bachelor of Arts: Environmental Geosciences

This specialization is well-suited for students interested in environmental science, environmental policy, Earth science teaching, or environmental law and offers a unique interdisciplinary perspective between geology and geography. The major requires a minimum of 40 credits of coursework and is a joint offering between the Department of Geological Sciences and Department of Geography. Students must earn a minimum grade of C for coursework to count toward the major.

Required Coursework

Code	Title	Credits
GEO 2200	Dynamic Planet Earth	4
& 2200L	and Dynamic Planet Earth Laboratory	
GIS 3043	Foundations of Geographic Information Systems	4
GLY 2010C	Physical Geology	4
GLY 2100C	Historical Geology	4
or GLY 3105C	Evolution of Earth and Life	
GLY 3202C	Earth Materials	3
GLY 4155C	Geology of Florida	3
Select two geology electives:		6-8
GLY 3074	Oceans and Global Climate Change	
GLY 3163	Geology American National Parks	
GLY 3603C	Paleontology	
GLY 3882C	Hydrogeology and Human Affairs	
GLY 4310C	Igneous and Metamorphic Petrology	
GLY 4400C	Structural Geology and Tectonics	
GLY 4552C	Sedimentary Geology	
GLY 4734	Coastal Morphology and Processes	
GLY 4750L	Geological Field Methods	
Select three geography electives:		9-12
GEO 3162C	Introduction to Quantitative Analysis for Geographers	
GEO 3250	Climatology	
GEO 3280	Principles of Geographic Hydrology	
GEO 3341	Extreme Floods	
GEO 3352	The Human Footprint on Landscape	
GEO 3372	Conservation of Resources	
GEO 4167C	Intermediate Quantitative Analysis for Geographers	
GLY 4734	Coastal Morphology and Processes	
GEO 4281	River Forms and Processes	
GEO 4285	Water, Risk, and Extreme Events	
GEO 4300	Environmental Biogeography	
GIS 4021C	Aerial Photo Interpretation	
GIS 4037	Digital Image Processing	
MET 3503	Weather and Forecasting	
MET 4532	Hurricanes

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete one critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 3

- Complete the other critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete STA 2023 and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 2 additional GLY or GEO courses with a 2.5 critical-tracking GPA. (GLY 2100C or GLY 3105C recommended)
- 2.0 UF GPA required

Semester 6

- Complete GLY 3202C
- 2.0 UF GPA required

Semester 7

- Complete GEO level 3000 or above elective (3-4 credits)
- Complete GLY level 3000 or above elective (3-4 credits)
- 2.0 UF GPA required

Semester 8

- Complete GLY 4155C (Capstone)
- Complete any remaining GEO and GLY level 3000 or above electives
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science | Geology

This degree is designed for students planning to take the professional geology (PG) licensure exam or to continue to graduate study in Geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Bachelor of Science | Geophysics

This specialization is designed for students planning to take the professional geology (PG) licensure exam or to continue to graduate study in Geophysics or related fields. It emphasizes a core understanding of earth materials, structural geology, field methodology, quantitative and computational methods, and it requires significant coursework in mathematics, computational methods, general chemistry, and physics.

Bachelor of Science | Environmental Geosciences

This specialization is designed for students planning to take the professional geology (PG) licensure exam or to continue to graduate study in Environmental Geology/Hydrogeology. It emphasizes a core understanding of earth materials, structural geology, field methodology, geobiology. geochemistry, and it requires significant introductory coursework in calculus, general chemistry, and biology.

Relevant Minors and Certificates

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their BA or BS in Geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

The professional degree is for students who want to pursue graduate school and careers in environmental geosciences.

The major requires 38-40 credits of geology coursework. Students must earn minimum grades of C for coursework to count toward the major.

The Environmental Geosciences concentration requires a total of 59-63 hours.

Required Coursework

Code	Title	Credits
Introductory Coursework		
Select one General introductory course:		*3-4*
GLY 2010C	Physical Geology	
GLY 2030C	Environmental and Engineering Geology	
Any 1000-2000 level GLY, OCE or ESC course		
Select one Historical geology course:		*4*
GLY 2100C	Historical Geology	
GLY 3105C	Evolution of Earth and Life	
Geology BS Core Coursework		
GLY 3202C	Earth Materials	3
GLY 4552C	Sedimentary Geology	4
GLY 4400C	Structural Geology and Tectonics	4
GLY 4750L	Geological Field Methods	2
GLY 3000+ Directed Electives [1,2,3]		14
Geology BS Capstone Coursework		
GLY 4790	Geology Summer Field Camp [4]	4
Total Credits		**38-39**

1 Excluding GLY 3105C
2 Choose from advisor-approved environmental geology courses
3 Internships may be used to fulfill this requirement
4 Approved alternative field course can be substituted

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete one general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE, or ESC course). GLY 2010C is recommended, as it is a prerequisite for many upper-level courses.
- 2.0 UF GPA required

Semester 4

- Complete historical geology course (GLY 2100C or GLY 3105C) or GLY 3000-level geology course.
- Complete one related coursework requirement (CHM 2045/CHM 2045L, MAC 2311, or PHY 2004/PHY 2048/PHY 2053 and associated lab)
- 2.5 Critical Tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete GLY 3202C
- Complete one additional related coursework requirement (CHM 2045/CHM 2045L, MAC 2311, or PHY 2004/PHY 2048/PHY 2053 and associated lab)
- 2.5 Critical Tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete GLY 4400C
- 2.0 UF GPA required

Semester 7

- Complete GLY 4750L and GLY 4552C
- 2.0 UF GPA required

Semester 8

- Complete any remaining GLY required courses and electives required for GLY 4790 (Capstone)

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

3000 level or above Geography courses may count towards 3000 level electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Geophysics | BS

A Geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today's job market. The Geology graduate will have a detailed understanding of climate change, sustainability of the Earth's resources, and the close interplay between human activity and the environment.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1403) | Bachelor of Science (p. 1408)
- **Specializations:** Environmental Geosciences (BA) (p. 1413) | Geophysics (BS) (p. 1424)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. Geological Sciences trains students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Curriculum

- Combination Degrees
- Geological Sciences Certificate
- Geology

- Geology Minor
- Geology UF Online

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty, and coursework in several areas of General Education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth's physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Note that some required courses include a field component, but alternatives to off-campus field work are available and special needs or concerns may be accommodated by speaking with a Geology advisor.

Coursework for the Major

The Geology major has five different options: the Bachelor of Arts, the Bachelor of Arts in Environmental Geosciences (a joint program with the Department of Geography), the Bachelor of Science in Geology, the Bachelor of Science in Geophysics, and the Bachelor of Science in Environmental Sciences. Students who are uncertain which program best suits them should consult the Department of Geology's undergraduate coordinator for information and guidance on curriculum planning.

Degrees and Specializations

Bachelor of Arts

The most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences

Co-offered by the Department of Geography, this specialization is for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science | Geology

This degree is designed for students planning to take the professional geology (PG) licensure exam or to continue to graduate study in Geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Bachelor of Science | Geophysics

This specialization is designed for students planning to take the professional geology (PG) licensure exam or to continue to graduate study in Geophysics or related fields. It emphasizes a core understanding of earth materials, structural geology, field methodology, quantitative and computational methods, and it requires significant coursework in mathematics, computational methods, general chemistry, and physics.

Bachelor of Science | Environmental Geosciences

This specialization is designed for students planning to take the professional geology (PG) licensure exam or to continue to graduate study in Environmental Geology/Hydrogeology. It emphasizes a core understanding of earth materials, structural geology, field methodology, geobiology. geochemistry, and it requires significant introductory coursework in calculus, general chemistry, and biology.

Geology Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

- Geology UF Online

Students pursuing the Bachelor of Arts in geography with a specialization in environmental geosciences are not eligible to receive this minor. All students should consult the undergraduate advisor.

A minimum of nine credits must be completed at UF and nine credits must be at the 3000/4000 level. No more than one credit of independent study will be accepted. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

[1] Excluding GLY 3105C; minimum 17 credits.

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete one General Education Mathematics course
- Complete 1 of 3 critical-tracking courses with a 2.5 critical-tracking GPA. Select one from a general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), a historical geology course (GLY 3105C or GLY 2100C), or a 3000-level geology course.

  GLY 2010C or GLY 2030C is recommended as one of these is prerequisite to many upper-level courses.
- 2.0 UF GPA required

Semester 4

- Complete one additional critical-tracking course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all tracking courses with a 2.5 critical-tracking GPA; one general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), one historical geology course (GLY 3105C or GLY 2100C), and one 3000-level geology course.
- 2.0 UF GPA required

Semester 6

- Complete 1 GLY elective 3000 level or above (3-4 credits)
- 2.0 UF GPA required

Semester 7

- Complete 2 additional GLY electives 3000 level and above (6-8 credits)
- 2.0 UF GPA required

Semester 8

- Complete any remaining GLY electives 3000 level and above
- Complete GLY 4155C (Capstone)
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Mathematics (**Critical Tracking**)		3
CLAS Foreign Language Proficiency Requirement [1]		4-5
Gen Ed Physical Sciences		3
	Credits	**16-17**

Semester Two		
Select one:		3-4
GLY 2010C	Physical Geology (**Critical Tracking**; Gen Ed Physical Sciences; Natural Science Laboratory) [1]	
ESC 1000	Introduction to Earth Sciences (**Critical Tracking**; Gen Ed Physical Sciences)	
GLY 1000	Exploring the Geological Sciences (**Critical Tracking**)	
OCE 1001	Introduction to Oceanography (**Critical Tracking**; Gen Ed Physical Sciences)	
State Core Gen Ed Biological Sciences (p. 80)		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
CLAS Foreign Language Proficiency Requirement [1]		3-5
	Credits	**12-15**
Semester Three		
Quest 2		3
Select one:		4
GLY 2100C	Historical Geology (**Critical Tracking**)	
GLY 3105C	Evolution of Earth and Life (**Critical Tracking**)	
Gen Ed Humanities		3
Elective (or CLAS Foreign Language Proficiency Requirement if 4-3-3 language option [1]		3
Elective		3
	Credits	**16**
Semester Four		
GLY 3202C	Earth Materials (**Critical Tracking**)	3
Gen Ed Biological Sciences		3
State Core Gen Ed Humanities (p. 80)		3
Gen Ed Mathematics		3
Gen Ed Social and Behavioral Sciences		3

	Credits	**16**
Semester Eight		
GLY 4155C	Geology of Florida (**Critical Tracking**)	3
Geology elective		2
Electives (3000 level or above, not in major)		6
Elective (or Gen Ed Physical Science, if not taken in semester two)		3
Elective (or Naturual Science Laboratory, if not taken in semester two)		1
	Credits	**15**
	Total Credits	**120**

[1] CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The Bachelor of Arts in Geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

Before Graduating Students Must

- Pass GLY 4155C according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal, and spatial data.

Critical Thinking

4. Interpret geologic maps and cross sections.
5. Interpret results using the scientific method.

Communication

6. Produce a clearly and effectively written synthesis of data collected in the field.
7. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Geospatial Information Analysis Certificate

Geospatial Information Analysis is used increasingly in both research and practice with job opportunities expected to grow 29% from 2014 to 2024.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 11-12 | Completed with minimum average grade of B-
- **Contact:** Email (msounnyslitine@ufl.edu) | 352.294.7516
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, BA and BS undergraduate degrees, MA, M.S., and PhD degrees, as well as the largest Medical Geography program in the United States. **Website (https://geog.ufl.edu/)**

Curriculum

- Combination Degrees
- GeoAI and Geographic Analysis Minor
- Geographic Artificial Intelligence and Big Data Certificate
- Geography
- Geography Minor
- Geography Minor UF Online
- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate
- Medical Geography in Global Health Minor
- Meteorology and Climatology Certificate
- Meteorology Minor

Covers a variety of geospatial technologies and analytical methods such as digital mapping, geographic information system (GIS), and remotely sensed image processing, aiming to develop spatial thinking ability for students. Lab-based applications emphasize hands-on experiences of these technologies.

Open to all currently enrolled undergraduate students. At least nine credits of coursework must be unique to the Geospatial Information Analysis certificate out of all other certificates and minors.

Required Courses

Code	Title	Credits
GIS 3043	Foundations of Geographic Information Systems [1]	4
GIS 4037	Digital Image Processing [2]	4
Approved elective [3]		3-4
Total Credits		**11-12**

1. Spring, Year 1; junior standing or higher.
2. Fall, Year 1; junior standing or higher.
3. Spring or Fall, Year 2; junior standing or higher.

Approved Electives

Other GIS courses may be substituted with approval of the certificate coordinator.

Code	Title	Credits
GIS 3001C	Geovisualization and Map Design	4
GIS 3420C	GIS Models for Public Health	3
GIS 4021C	Aerial Photo Interpretation	3
GIS 4102C	GIS Programming	3
GIS 4113	Introduction to Spatial Networks	3
GIS 4115C	Spatial Surface Modeling and Geostatistics	3
GIS 4124	Geocomputation using R Programming	3
GIS 4324	GIS Analysis of Hazard Vulnerability	3
GIS 4424C	Applications in GIS for Zoonoses and Disease Ecology	3
GIS 4500	Population GIS	3
GIS 4911	Undergraduate Research in Geospatial Trends	0-3

German

Foreign Languages and Literatures

German is the most widely spoken language in the post-Brexit European Union, along with English and French. It is the official language of Germany, Austria, and Liechtenstein and an official language in Switzerland and Luxembourg. Over 130 million people around the world speak German, and ca. 7.5 million people in 42 countries belong to a German-speaking minority.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

- Russian and East-European Area Studies Certificate
- Russian Minor

The BA in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture

and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The German specialization of the Foreign Languages and Literatures major is not limited to knowing the language, but instead helps the student achieve multiple literacies. In the major, the study of language merges with the study of culture and includes:

- The works of German literature as well as German culture and civilization from the Middle Ages through the end of the 20th and the beginning of the 21st century
- German cinema
- The writings of ethnic minorities in German-speaking countries
- The terminology of business, economics, and the European Union
- Summer studies or full-semester studies at a German or Austrian university.

For many students, the curriculum is an enriching discovery of their own past: more than 60 million Americans are at least partly of German heritage. More Americans can trace their ancestry to Germany than to any other foreign country, and since the middle of the 20th century more Americans have lived and worked in Germany than in any other foreign country.

Requirements for the Major

The German specialization in Foreign Languages and Literatures consists of foundational language study at the lower division (1000 and 2000 level), and 33 credits of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C. Up to 15 credits of 3000/4000-level courses can be transferred from another institution.

Ordinarily, students will need to have completed GER 2200 Intermediate German 1 by their fifth semester at UF to be able to complete the German major.

Required Foundation Coursework

Total depends on placement in language courses

Code	Title	Credits
GER 1130	Beginning Intensive German 1	5
or GER 1125	Discover German 1	
GER 1131	Beginning Intensive German 2	5
or GER 1126	Discover German 2	
GER 2200	Intermediate German 1	3
or GER 2225	Online Intermediate German I	
GER 2240	Intermediate German 2	3
Total Credits		**16**

Required Major Coursework

Code	Title	Credits
German Core Courses		
Advanced Language and Culture		
Select 6 credits:		6
GER 3470	Advanced German Abroad	
GER 3234	Reading German Texts	
GER 3401	German Grammar Review	
GER 3300	Writing German Texts	
GER 3413	German Listening, Comprehension and Speaking	
Advanced German Major Elective Coursework		
Select 18 credits (at least 6 credits with GER or GEW prefix at the 4000 level):		18
GER 3332	Topics in German Film and Culture	
GER 3440	German in Business	
GER 4482	Cultural Identity and Intercultural Competence	
GER 4930	Variable Topics in German Studies	
GET 3004	Modern German Culture and Civilization	
GET 3200	Medieval Literary Culture	
GET 3501	History, Literature and Arts of Berlin	
GET 3520	Early German Cinema to 1945	
GET 3580	Representations of War in Literature and Visual Media	

GET 3930	Variable Topics in German Studies	
GET 4521	Women and German Cinema	
GET 4523	New Cinema 1945 to the Present	
GET 4930	Variable Topics in German Studies	
GEW 3930	Variable Topics in German Studies	
GEW 4730	Modern German Literature	
GEW 4731	Contemporary German Literature	
GEW 4750	Women in German Literature	
GEW 4760	Communities Writing in German	
GEW 4905	Individual Work	
GEW 4930	Seminar in Germanic Languages and Literatures	
Critical Concentration		
Although courses may appear in more than one group they may be counted toward only one group		
Select 9 credits from one concentration:		9
Intensive Area Studies: German (Recommended for those planning to pursue careers requiring advanced level skills in German or graduate work in German Studies)		
Comparative Cultural Studies		
Film and Visual Culture		
Literary Studies		
Medieval and Early Modern Studies		
Total Credits		**33**

No more than 3 credits can be earned in independent studies courses such as GEW 4905.

Overseas Study

The program recommends its summer program in Mannheim, Germany. Students can complete nine credits at the intermediate or advanced level depending on prerequisites met.

Placement

Students without prior German should take the GER 1130 and GER 1131 sequence (five credits each). An alternative manner of completing the basic language sequence in a single year is by taking the online German sequence GER 1125 and GER 1126, Discover German. These 10 credit sequences fulfill the college's language requirement.

Students with previous training in one of the languages should speak with the department.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete GER 1125 or GER 1130 or higher-level German course
- 2.0 UF GPA required

Semester 3

- Complete GER 1126 or GER 1131 or higher-level German course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Maintain completion of GER 1131 or GER 1126 or higher-level German course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete GER 2200 or any 2000-level German course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 6

- Complete GER 2240 or a higher-level German language course with a minimum grade of C
- Complete 2 Advanced Elective courses with minimum grades of C
- 2.0 UF GPA required

SEMESTER 7

- Complete GER 3234, GER 3300, GER 3413, or GER 3470 with a minimum grade of C
- Complete 2 Advanced Elective courses with minimum grades of C
- Complete 1 Critical Concentration course with a minimum grade of C
- 2.0 UF GPA required

SEMESTER 8

- Complete 2 Advanced Elective courses with minimum grades of C
- Complete 2 Critical Concentration courses with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

3000 level or above critical concentration courses outside of German may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be

able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I,R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

German Minor

This minor provides a linguistic foundation in the German language equivalent to the B1-B2 level according to the Common European Framework of Reference for Languages, and practical experience with different kinds of texts, films, and cultural issues important to speakers of German.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

Students cannot transfer more than six credits toward the minor. No more than three credits can be Individual Work (GEW 4905).

One German course taught in English (GET prefix) can count toward the minor and can be taken concurrently with the basic language sequence.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

This minor requires the prior completion of the CLAS Foreign Language requirement. GER 1130 and GER 1131 satisfy that requirement.

Required Courses

Code	Title	Credits
GER courses (2000 or 3000 level) [1]		9
GER, GEW, or GET courses (3000 or 4000 level)		6
Total Credits		**15**

[1] Only six credits of intermediate GER 2000 level courses may count toward the minor. Students with either a heritage background or prior study in German might be eligible to place out of one or both intermediate courses (GER 2200 and GER 2240 and should meet with the undergraduate coordinator to arrange for placement assessment. Heritage or other learners who test out of Intermediate GER 2200 (3 credits) or GER 2240 (3 credits) must take upper-level German language courses instead.

German Minor UF Online

This online minor provides for remote students a linguistic foundation in the German language equivalent to the B1-B2 level according to the Common European Framework of Reference for Languages, and practical experience with different kinds of texts, films, and cultural issues important to speakers of German.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15-19 | Completed with minimum grades of C

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Health Disparities in Society Minor

The Health Disparities in Society (HDS) minor provides a framework to examine how multiple social inequalities (e.g., along class, gender, geography, race/ethnicity, sexuality) can produce disparities in health and how to work toward preventing and mitigating such disparities.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15 | Completed with minimum grades of C and no optional S/U | 9 must be at the 3000-level or above

Department Information

The Department of Gender, Sexuality, and Women's Studies offers academic programs, grants graduate and undergraduate degrees, and advances research in the discipline. Faculty in the department successfully compete for national fellowships and grants, win research and teaching awards, and produce rigorous and transformative research.
Website (http://wst.ufl.edu/)

Curriculum

- Combination Degrees
- Community Engagement Certificate
- Data, Science, and Technology in Sociocultural Contexts Certificate
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
- Violence Against Women Certificate
- Women's Studies
- Women's Studies Minor

Health Disparities describe the disproportionate burden of disease, differential access to health care, and poorer health outcomes across populations. Health disparities can exist at multiple levels of society (global, national, institutional, local, and personal) and affect people of diverse geographic locations, linguistic groups, socioeconomic statuses, and sociocultural groups.

Students take courses taught by award-winning faculty in the Department of Gender, Sexuality, and Women's Studies, and may take approved courses offered in departments across the university as electives. There are also opportunities to engage in experiential learning through the practicum course and mentored research. The minor is open to students from across the university, including those outside the College of Liberal Arts and Sciences.

Requirements

- Students may count WST 2322 and one other approved class at the 2000-level or below toward the minor; the remaining 9 credits must be at the 3000-level or above.
- No more than three credits of WST 4905 independent study, WST 4911 undergraduate research, or WST 4940 internship may apply to the minor.
- All courses must be completed with minimum grades of C except internships, which are taken S/U.

- Six transfer credits can apply toward the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot be double counted toward their major(s) or other minors.
- Although students must complete WST 2322 before enrolling in WST 4941C, they may take the elective courses in any order at any time (i.e., before, during, or after taking the two required courses).
- Students are encouraged to indicate their intention to enroll in WST 4941C as soon as they commit to the minor, by completing this survey (https://ufl.qualtrics.com/jfe/form/SV_cHzSYoPAjcIk7f8/).

Each semester, courses offered for this minor are listed on the Women's Studies courses website.

Hebrew

The BA in Hebrew provides students with a comprehensive knowledge of modern Hebrew and advanced familiarity with the cultural practices and traditions associated with modern Hebrew. The Hebrew major enhances critical thinking and communication skills, and provides students with a cross-cultural understanding of the Hebrew speaking world. It further offers an excellent basis for a variety of careers, including graduate study in Hebrew or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs is highly encouraged.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** Email (pjsohn@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.

Center Information

The Bud Shorstein Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center's curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

Curriculum

- European Jewish Studies Certificate
- Hebrew
- Holocaust Studies Certificate
- Jewish Studies
- Jewish Studies Minor

Requirements

The Hebrew major consists of preparatory language study at the lower division (1000 and 2000 level), and 30 credits of advanced language, literature, historical, and political study in the upper division (3000 level and above).

Students with background or prior study in Hebrew may be eligible to replace some language instruction courses with other Hebrew content courses. Please consult with the faculty in the Bud Shorstein Center for Jewish Studies.

Required Foundation Coursework | 14 Credits

Code	Title	Credits
HBR 1130	Beginning Modern Hebrew 1	5
HBR 1131	Beginning Modern Hebrew 2	5
HBR 2220	Intermediate Modern Hebrew 1	4
Total Credits		**14**

Required Major Coursework | 30 Credits

Code	Title	Credits
Hebrew Major Core Coursework		**12**
HBR 2221	Intermediate Modern Hebrew 2	
HBR 3410	Advanced Modern Hebrew 1 (or approved equivalent)	
HBR 3411	Advanced Modern Hebrew 2 (or approved equivalent)	
Hebrew Major Elective Coursework [1]		**18**
HBT 3100	Introduction to Israeli Culture	
HBT 3233	Israeli History and the Contemporary Novel	
HBR 3440	Translation in Israeli Media	
HBR 4905	Individual Work	
HBR 4930	Special Topics	
HBR 4956	Overseas Studies	
HMW 4200	Readings in Modern Hebrew Literature 1	
HMW 4201	Readings in Modern Hebrew Literature 2	
JST 4940	Internship in Jewish Studies	
Total Credits		**30**

[1] 18 credits of approved content courses:

- Students must take at least 12 credits in HBR or HMW.
- Students can apply a maximum of 6 credits of HBT to the major.
- Students can apply a maximum of 3 credits of JST 4940 or HBR 4905 to the major.

Coursework outside the HBR, HMW, or HBT designations may be applied at the discretion of the undergraduate coordinator.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete HBR 1130 or higher-level Hebrew Language course with a minimum grade of C
- 2.0 UF GPA required

SEMESTER 2

- Complete HBR 1131 or higher-level Hebrew Language course with a minimum grade of C
- 2.0 UF GPA required

SEMESTER 3

- Complete HBR 2220 or higher-level Hebrew Language course with a minimum grade of C
- 2.0 UF GPA required

SEMESTER 4

- Complete HBR 2221 or higher-level Hebrew Language course with a minimum grade of C
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 5

- Complete HBR 3410 or approved equivalent with a minimum grade of C
- Complete 1 advanced elective course, which can be HBT
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 6

- Complete HBR 3411 or approved equivalent or a higher-level Hebrew Language course with a minimum grade of C
- Complete 1 Advanced Elective course, which can be HBT
- 2.0 UF GPA required

SEMESTER 7

- Complete 2 Advanced Elective courses above 3000 level in HBR or HMW
- 2.0 UF GPA required

SEMESTER 8

- Complete 2 Advanced Elective courses above 3000 level in HBR or HMW
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed on the Critical Tracking tab.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One

Hebrew Minor

The Hebrew minor offers an immersive experience for students who wish to develop their Hebrew language skills. Courses are taught in Hebrew and are aimed at the development of listening, speaking, reading, and writing skills within course content focused on Israeli and Jewish literature, film, thought, history, and politics.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

Curriculum

- Combination Degrees
- Hispanic and Latin American Languages, Literatures and Linguistics
- Portuguese
- Portuguese Minor
- Spanish
- Spanish and Portuguese
- Spanish for the Professions Certificate
- Spanish Minor

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish, Portuguese, or Spanish and Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere, and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business, and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read, and write one or both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain, and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

requirements for the Major

The different specializations within the Hispanic and Latin American Languages, Literatures and Linguistics major require different coursework, depending on the student focus.

Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary, and linguistic content.

Before Graduating Students Must

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify cultural correlates, literary production, and/or linguistic structure of texts written in Spanish and/or Portuguese.

Critical Thinking

2. Analyze cultural correlates, literary production, and/or linguistic structure of texts written in Spanish and/or Portuguese.

Communication

3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography, and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary, and pronunciation, and use appropriate registers.

Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

requirements for the Major

The Spanish and Portuguese combined specialization requires 33 credits, beginning with foundational work in Spanish and Portuguese and then moving on to more advanced coursework in language, culture, literature and linguistics.

Students must earn minimum grades of C for coursework to count toward the major.

*POR 3010 Introduction to Portuguese and Brazil is an accelerated course for speakers of Spanish (or French). It fulfills the CLAS foreign language requirement, but it does **not** count as a 3000-level course for the major requirements.*

required major coursework | 33 credits

Code	Title	Credits
Core Courses		
POR 3242	Oral and Written Practice	3
SPN 2240	Intensive Communication Skills	3
or SPN 2340	Introduction to Reading and Writing Spanish for Heritage Learners	
SPN 3300	Spanish Grammar and Composition 1	3
or SPN 3350	Spanish Grammar and Composition for Heritage Learners	
HLL Spanish and Portuguese Major Electives [1]		
Only one class in English (an SPT or PRT-prefixed course) can count towards the major, substitution for an SPN/SPW or POR/POW-prefixed course		
4000-level SPN/SPW Spanish courses		6
4000-level POR/POW Portuguese courses		6
3000/4000-level Spanish or Portuguese courses		12
Total Credits		**33**

Overseas Study

Students are strongly encouraged to spend a summer, a semester or an academic year in a Spanish- or Portuguese-speaking area. UF programs are encouraged because they allow for easy transfer of UF credits and courses or course equivalencies. Most financial aid applies in this case as well. Interested students should contact the undergraduate coordinator and the UF International Center, 170 Hub

Placement

See the relevant undergraduate coordinators for placement information, especially for transfer students and heritage speakers.

Relevant Minors and/or Certificates

Majors may want to pursue a certificate in Latin American Studies.

Research

Students who wish to complete a senior thesis for honors should consult the undergraduate coordinator in Spanish or Portuguese at least two semesters in advance of graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

The combined specialization is designed for students who already possess some proficiency in one or both languages and do not need to begin with beginning coursework in both. The more common case of previous coursework in Spanish is represented in the critical tracking, but student who have prior knowledge of Portuguese and need to start with basic Spanish should consult with the undergraduate advisors.

Semester 1

- Complete POR 1130 if needed
- Complete SPN 2200
- 2.0 UF GPA required

Semester 2

- Complete POR 1131 (or POR 3010)
- Complete SPN 2200
- 2.0 UF GPA required

Semester 3

- Complete POR 3242
- Complete SPN 2240 or SPN 2340

- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 4

- Complete one additional POR 3XXX course
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 5

- Complete SPN 3300 or SPN 3350
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 6

- Complete 2 of the remaining SPN/SPW/POR/POW 3XXX/4XXX required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 7

- Complete 2 of the remaining SPN/SPW/POR/POW 3XXX/4XXX required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 8

- Complete all remaining SPN/SPW/POR/POW 4XXX required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

History

History at UF offers a dynamic blend of traditional historical methods and innovative approaches to study the past. Through the exploration of diverse periods, cultures, and peoples, students develop critical thinking, research, writing, and oral and digital communication skills essential for understanding the complexities of the past.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts (p. 1464)
- **Specialization:** Legal History (p. 1469)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Undergraduate students in the Department of History come to the program as four-year residential students, PaCE students, and as transfers from Florida state colleges and out-of-state institutions. They join a large, diverse, and active community of faculty, graduate students, and undergraduates. Program highlights include a vibrant Honors Program, engaged student organizations, and numerous opportunities for undergraduate research.

Curriculum

- Combination Degrees
- History
- History Minor
- Legal History Certificate

History students graduate as powerful thinkers, capable of synthesizing information and presenting compelling narratives and persuasive arguments. Whether examining archival records or collaborating on public history projects, students learn to connect historical insights to broader societal questions.

The program emphasizes both intellectual depth and practical application. Experiential learning opportunities, such as contributing to our undergraduate research journal, holding internships, writing a senior thesis, and studying abroad, foster personal and intellectual growth. The History program builds skills that not only deepen historical analysis but also prepare students for an astonishing range of rewarding careers.

The history major focuses on the development of three related skill sets critical to personal and professional success in today's complex world:

WRITING

History is a writing-intensive discipline. Although assignments vary by course, faculty teach a set of critical skills and research techniques that will help them gather and analyze sources and then marshal the evidence in the presentation of coherent historical arguments.

CRITICAL ANALYSIS

Students learn to evaluate and synthesize course materials and bring critical engagement to both the classroom and written work.

ORAL COMMUNICATION

The major places significant emphasis on effective oral communication and developing the ability to make cogent arguments and deploy evidence fairly and effectively. Students contribute actively in the classroom and hone their oral communication abilities through discussions, debates, role playing, and presentations.

REQUIREMENTS FOR THE MAJOR

All history majors must complete a minimum of 36 credits in history with minimum grades of C. History majors may enroll in a maximum of three history courses per semester.

Majors must take a minimum of 21 credits of history at UF.

Required Major Coursework

Code	Title	Credits
History Core Coursework		
HIS 3942	History Practicum	3
AMH 4930 / AFH 4930 / ASH 4930 / EUH 4930 / HIS 4930 / LAH 4930 / WOH 4930	History Research Seminar [1]	3
History Major Electives		
3000/4000-level History courses		21
1000 to 4000-level History courses [2]		9
Total Credits		**36**

[1] AMH 4930 (https://catalog.ufl.edu/search/?P=AMH%204930) / AFH 4930 (https://catalog.ufl.edu/search/?P=AFH%204930) / ASH 4930 (https://catalog.ufl.edu/search/?P=ASH%204930) / EUH 4930 (https://catalog.ufl.edu/search/?P=EUH%204930) / HIS 4930 (https://catalog.ufl.edu/search/?P=HIS%204930) / LAH 4930 (https://catalog.ufl.edu/search/?P=LAH%204930) / WOH 4930 (https://catalog.ufl.edu/search/?P=WOH%204930) is the capstone course of the major and normally taken in the senior year, although students who plan to write an honors thesis are encouraged to take the course as juniors. In this seminar, students produce a substantial research paper based on primary source research. Enrollment in the research seminar is restricted to majors. The History Research Seminar must be taken at UF.

[2] Within the major electives, students must meet the following regional distribution requirements:

- at least 9 credits (three courses) in American history (AMH) and European history (EUH), with at least one course in AMH, one course in EUH, and one course in AMH or EUH
- at least 9 credits (three courses) in AFH, ASH, LAH, or WOH, with a maximum of two courses under any one prefix.
- The history research seminar may count toward the regional distribution, depending on the prefix of the course taken (AFH, AMH, ASH, EUH, LAH, or WOH).

Only exam (AICE, AP, CLEP, or IB) credits with course equivalencies for UF courses count toward the requirements for the major and then only at the 2000 level. AMH L000, EUH L000, and WOH L000 do not count toward the major.

COMBINATION DEGREE PROGRAM

Majors who are interested in advanced training are encouraged to consider the 4/1 combination degree program.
More Info (http://history.ufl.edu/undergraduate-studies/41-program/)

RESEARCH

Majors are encouraged to consider advanced research opportunities in history. The department places special emphasis on participation in the History Honors Program.
More Info (http://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/)

Academic Learning Compact

The History major exposes students to key issues in the history of the United States, Europe and areas of Africa, Asia, and Latin America. Students will develop the critical interpretative skills needed to assess both primary and secondary sources in the complex task of thinking about the past. Students will master a set of research skills that help them develop their own historical arguments. Significant emphasis is laid on effective written communication reflected in the cogency of arguments and use of evidence.

Before Graduating Students Must

- Complete the distribution requirements of the major (6 credits in AMH, 6 credits EUH, 6 credits in AFH, ASH or LAH) with minimum grades of C, as graded by department rubric.
- Complete HIS 3942 and HIS 4930 with minimum grades of C, as graded by department rubric.
- Complete 35 credits in history, including at least 26 at the 3000/4000 level, and all with minimum grades of C, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Acquire and apply basic research skills learned through use of print and electronic resources of the library and web.

Critical Thinking

2. Critically assess and interpret primary and secondary sources.
3. Identify a historical research topic related to the focus of the research seminar, develop knowledge of the topic through research, and create historical arguments using evidence effectively with clear purpose.

Communication

4. Produce an effectively written analytical research paper based in research of primary sources, framed within the secondary literature and offering a coherent historical argument supported by evidence.

Bachelor of Arts

History at UF offers a dynamic blend of traditional historical methods and innovative approaches to study the past. Through the exploration of diverse periods, cultures, and peoples, students develop critical thinking, research, writing, and oral and digital communication skills essential for understanding the complexities of the past.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts (p. 1464)
- **Specialization:** Legal History (p. 1469)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Undergraduate students in the Department of History come to the program as four-year residential students, PaCE students, and as transfers from Florida state colleges and out-of-state institutions. They join a large, diverse, and active community of faculty, graduate students, and undergraduates. Program highlights include a vibrant Honors Program, engaged student organizations, and numerous opportunities for undergraduate research.

Curriculum

- Combination Degrees
- History
- History Minor
- Legal History Certificate

History students graduate as powerful thinkers, capable of synthesizing information and presenting compelling narratives and persuasive arguments. Whether examining archival records or collaborating on public history projects, students learn to connect historical insights to broader societal questions.

The program emphasizes both intellectual depth and practical application. Experiential learning opportunities, such as contributing to our undergraduate research journal, holding internships, writing a senior thesis, and studying abroad, foster personal and intellectual growth. The History program builds skills that not only deepen historical analysis but also prepare students for an astonishing range of rewarding careers.

The history major focuses on the development of three related skill sets critical to personal and professional success in today's complex world:

WRITING

History is a writing-intensive discipline. Although assignments vary by course, faculty teach a set of critical skills and research techniques that will help them gather and analyze sources and then marshal the evidence in the presentation of coherent historical arguments.

CRITICAL ANALYSIS

Students learn to evaluate and synthesize course materials and bring critical engagement to both the classroom and written work.

ORAL COMMUNICATION

The major places significant emphasis on effective oral communication and developing the ability to make cogent arguments and deploy evidence fairly and effectively. Students contribute actively in the classroom and hone their oral communication abilities through discussions, debates, role playing, and presentations.

REQUIREMENTS FOR THE MAJOR

All history majors must complete a minimum of 36 credits in history with minimum grades of C. History majors may enroll in a maximum of three history courses per semester.

Majors must take a minimum of 21 credits of history at UF.

Required Major Coursework

Code	Title	Credits
History Core Coursework		
HIS 3942	History Practicum	3
AMH 4930 / AFH 4930 / ASH 4930 / EUH 4930 / HIS 4930 / LAH 4930 / WOH 4930	History Research Seminar [1]	3
History Major Electives		
3000/4000-level History courses		21
1000 to 4000-level History courses [2]		9
Total Credits		**36**

1 AMH 4930 (https://catalog.ufl.edu/search/?P=AMH%204930) / AFH 4930 (https://catalog.ufl.edu/search/?P=AFH%204930) / ASH 4930 (https://catalog.ufl.edu/search/?P=ASH%204930) / EUH 4930 (https://catalog.ufl.edu/search/?P=EUH%204930) / HIS 4930 (https://catalog.ufl.edu/search/?P=HIS%204930) / LAH 4930 (https://catalog.ufl.edu/search/?P=LAH%204930) / WOH 4930 (https://catalog.ufl.edu/search/?P=WOH%204930) is the capstone course of the major and normally taken in the senior year, although students who plan to write an honors thesis are encouraged to take the course as juniors. In this seminar, students produce a substantial research paper based on primary source research. Enrollment in the research seminar is restricted to majors. The History Research Seminar must be taken at UF.

2 Within the major electives, students must meet the following regional distribution requirements:

- at least 9 credits (three courses) in American history (AMH) and European history (EUH), with at least one course in AMH, one course in EUH, and one course in AMH or EUH
- at least 9 credits (three courses) in AFH, ASH, LAH, or WOH, with a maximum of two courses under any one prefix.
- The history research seminar may count toward the regional distribution, depending on the prefix of the course taken (AFH, AMH, ASH, EUH, LAH, or WOH).

Only exam (AICE, AP, CLEP, or IB) credits with course equivalencies for UF courses count toward the requirements for the major and then only at the 2000 level. AMH L000, EUH L000, and WOH L000 do not count toward the major.

COMBINATION DEGREE PROGRAM

Majors who are interested in advanced training are encouraged to consider the 4/1 combination degree program.
More Info (http://history.ufl.edu/undergraduate-studies/41-program/)

RESEARCH

Majors are encouraged to consider advanced research opportunities in history. The department places special emphasis on participation in the History Honors Program.
More Info (http://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Students are advised to take HIS 3942 in their first year as a history major, and it must be taken no later than Semester 5.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 history course at the 2000 level or above
- 2.0 UF GPA required

Semester 3

- Complete 1 additional history course at the 2000 level or above with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete 1 additional history course at the 3000 level or above (recommended) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- By the end of semester 5, students must have completed 4 history courses: HIS 3942, two history courses at the 2000 level or above and one history course at the 3000 level or above
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete 1 distribution course (prefix of LAH, AFH, WOH, or ASH)
- 2.0 UF GPA required

Semester 7

- Complete 1 distribution course (prefix of AMH or EUH)
- 2.0 UF GPA required

Semester 8

- Complete XXX 4930 research seminar
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education

requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)
2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The History major exposes students to key issues in the history of the United States, Europe and areas of Africa, Asia, and Latin America. Students will develop the critical interpretative skills needed to assess both primary and secondary sources in the complex task of thinking about the past. Students will master a set of research skills that help them develop their own historical arguments. Significant emphasis is laid on effective written communication reflected in the cogency of arguments and use of evidence.

Before Graduating Students Must

- Complete the distribution requirements of the major (6 credits in AMH, 6 credits EUH, 6 credits in AFH, ASH or LAH) with minimum grades of C, as graded by department rubric.
- Complete HIS 3942 and HIS 4930 with minimum grades of C, as graded by department rubric.
- Complete 35 credits in history, including at least 26 at the 3000/4000 level, and all with minimum grades of C, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Acquire and apply basic research skills learned through use of print and electronic resources of the library and web.

Critical Thinking

2. Critically assess and interpret primary and secondary sources.
3. Identify a historical research topic related to the focus of the research seminar, develop knowledge of the topic through research, and create historical arguments using evidence effectively with clear purpose.

Communication

4. Produce an effectively written analytical research paper based in research of primary sources, framed within the secondary literature and offering a coherent historical argument supported by evidence.

Curriculum

- Combination Degrees
- History
- History Minor
- Legal History Certificate

History students graduate as powerful thinkers, capable of synthesizing information and presenting compelling narratives and persuasive arguments. Whether examining archival records or collaborating on public history projects, students learn to connect historical insights to broader societal questions.

Our program emphasizes both intellectual depth and practical application. Experiential learning opportunities, such as contributing to our undergraduate research journal, holding internships, writing a senior thesis, and studying abroad, foster personal and intellectual growth. The History program builds skills that not only deepen historical analysis but also prepare students for an astonishing range of rewarding careers.

The history major focuses on the development of three related skill sets critical to professional success in today's complex world:

WRITING

History is a writing-intensive discipline. Although assignments vary by course, students will be taught a set of critical skills and research techniques that will help them gather and analyze sources and then marshal the evidence in the presentation of coherent historical arguments.

CRITICAL ANALYSIS

In the typical upper-division course, students read an average of 75 to 125 pages each week. Students will be expected to synthesize the material effectively and come to class prepared to discuss the readings.

ORAL COMMUNICATION

Rather than merely recounting facts from readings and lectures, students will develop their own interpretations of historical events and ideas and discuss them with their peers and professor. They will be expected to contribute actively in the classroom and will on occasion lead discussions and give short reports.

Coursework for the Major

Required Coursework

All history majors must complete a minimum of 36 credits in history with minimum grades of C. Majors must take a minimum of 21 credits of history at UF. History majors may enroll in a maximum of three history courses per semester.

Majors must take a minimum of 21 credits of history at UF.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Students are advised to take HIS 3942 in their first year as a history major, and it must be taken no later than Semester 5.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 history course at the 2000 level or above
- 2.0 UF GPA required

Semesters 3-4

- Complete 1 history course at the 3000 level or above with a 2.5 critical-tracking GPA (this course may be a course from Group A or B if it is passed with a 2.0 GPA or above)
- 2.5 GPA in critical-tracking history courses
- 2.0 UF GPA required

Semesters 5-6

- Complete 1 history course at the 3000 level or above with a 2.5 critical-tracking GPA (this course may be a course from Group A or B if it is passed with a 2.0 GPA or above)
- 2.5 GPA in critical-tracking history courses
- 2.0 UF GPA required

Semesters 7-8

- By the end of semester 8, students seeking the Legal History Specialization must have completed 3 courses toward the specialization (either from the approved list or with the approval of the undergraduate coordinator) as follows: 1 from Group A, 1 from Group B, and 1 from either Group A or B with a 2.0 GPA or higher
- 2.5 GPA in critical-tracking history courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

LAH 3931	Special Topics in Latin American History (Crime and Criminality in the Americas)	3
WOH 3205	History of Human Rights	3

In addition to the above courses, the undergraduate coordinator may authorize other legal history courses for the specialization.

Academic Learning Compact

The History major exposes students to key issues in the history of the United States, Europe and areas of Africa, Asia, and Latin America. Students will develop the critical interpretative skills needed to assess both primary and secondary sources in the complex task of thinking about the past. Students will master a set of research skills that help them develop their own historical arguments. Significant emphasis is laid on effective written communication reflected in the cogency of arguments and use of evidence.

Before Graduating Students Must

- Complete the distribution requirements of the major (6 credits in AMH, 6 credits EUH, 6 credits in AFH, ASH or LAH) with minimum grades of C, as graded by department rubric.
- Complete HIS 3942 and HIS 4930 with minimum grades of C, as graded by department rubric.
- Complete 35 credits in history, including at least 26 at the 3000/4000 level, and all with minimum grades of C, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Acquire and apply basic research skills learned through use of print and electronic resources of the library and web.

Critical Thinking

2. Critically assess and interpret primary and secondary sources.
3. Identify a historical research topic related to the focus of the research seminar, develop knowledge of the topic through research, and create historical arguments using evidence effectively with clear purpose.

Communication

4. Produce an effectively written analytical research paper based in research of primary sources, framed within the secondary literature and offering a coherent historical argument supported by evidence.

History Minor

The History Minor offers a dynamic blend of traditional historical methods and innovative approaches to study the past. Through the exploration of diverse periods, cultures, and peoples, students develop critical thinking, research, writing, and oral and digital communication skills essential for understanding the complexities of the past.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15 | Completed with minimum grades of C and no optional S/U

Department Information

Undergraduate students in the Department of History come to the program as four-year residential students, PaCE students, and as transfers from Florida state colleges and out-of-state institutions. They join a large, diverse, and active community of faculty, graduate students, and undergraduates. Program highlights include a vibrant Honors Program, engaged student organizations, and numerous opportunities for undergraduate research.

Related Programs

- Hebrew Minor

The Holocaust is the greatest crime in human history. It has spawned international libraries of historical studies, religious and philosophical treatises, social science studies in psychology and other fields, novels, poems, and films to say nothing of art, monuments, and architecture.

In and of itself, the Holocaust is critical for an understanding of the depths of human experience through a variety of disciplines. But it also provides a way for understanding how practitioners of different disciplines, from history to anthropology to literature to film, approach the human experience through a crucial common theme.

The certificate provides social science and humanities majors with additional background for a number of career choices ranging from the study of law to human rights work to work in NGOs to library or museum employment or even international business.

Required Courses

Students can substitute related courses or directed studies projects in consultation with the undergraduate coordinator in the Center for Jewish Studies.

Code	Title	Credits
EUH 3033/JST 3930	History of the Holocaust	3
Holocaust-related courses in history and the social sciences		6
Holocaust-related courses in literature and film		6
Total Credits		**15**

Innovation Minor

The Innovation minor provides undergraduates in the Innovation Academy an overview of the major functional elements of innovation – creativity, entrepreneurship, ethics, and leadership – and an opportunity to apply them in a multidisciplinary project.

About this Program

- **Credits:** 15-17 | Completed with minimum grades of C and no S/U

IA Information

The Innovation Academy (IA) equips students with the 21st-century skills needed to thrive in an innovative culture. IA is a living-learning community embedded within the traditional University of Florida experience. Students select from over 25 UF majors and earn their degree with a minor in Innovation. The IA academic calendar operates on a Spring-Summer schedule, giving students the opportunity to enjoy Fall co-curricular activities, pursue internships, study abroad, or enjoy the break at home.

Interdisciplinary Studies | CLAS

The College of Liberal Arts and Sciences recognizes that students' academic and professional interests may include more than one discipline and that some majors are not formally available at the university. Because interdisciplinary approaches, research, and curricular activities are becoming increasingly appropriate and valuable within the liberal arts and sciences and other fields, UF students have the option to develop and pursue interdisciplinary (IDS) majors that cross the boundaries of numerous disciplines.

About this Program

- **Degree:** Bachelor of Arts | Bachelor of Science
- **Credits for Degree:** 120
- **More info**

Overviews

Interdisciplinary Studies | IDS

IDS is a limited-access major in CLAS that requires a minimum 3.0 UF GPA. Students must select two regular faculty members who agree to work with them from the planning stages to completion of the thesis research proposal. At least one faculty advisor must be a member of CLAS; faculty advisors cannot be from the same department.

Students should begin planning early. They should declare a related CLAS major and then apply to IDS as early as semester four or at the latest by semester five. Transfer students must complete their first semester with a UF GPA of 3.0 before they can apply to this program. Late application may result in denial of admission to the program. Students interested in pursuing an interdisciplinary major should contact the director of the particular specialization listed below or view the IDS information on the college's website.

Each applicant and their interdisciplinary program must be approved by the inter-college Committee on Interdisciplinary Studies and include at least 20 credits of 3000/4000-level coursework taken in two or more departments. All other CLAS degree requirements (e.g., foreign language, basic distribution, electives, etc.) must be met. The student must also take at least seven credits, but no more than 12, of IDS 4906 (or equivalent courses) under the direction of one or both of the supervisory faculty members and produce a senior thesis.

Interdisciplinary majors may also graduate with honors recognition. Requirements are the same as for department majors, with the additional provision that *magna cum laude* or *summa cum laude* recognition must be recommended by two members of the student's supervisory committee (including the principal supervisor), who will affirm that the student conducted an individual project in IDS 4906 (or equivalent).

Students in science tracks who are enrolled in IDS 4905 work 3-4 hours per week in the laboratory for each credit earned.

All students with IDS majors are required to complete Quest 1 and Quest 2 coursework in their first four semesters.

In addition to the established concentrations, students may design a customized course of study in consultation with faculty advisors relevant to the interdisciplinary thesis project. If interested in this option, students should first contact the associate dean for IDS majors.
More Info (https://dean.clas.ufl.edu/interdisciplinary-studies/faqs-prospective-students/)

Biochemistry and Molecular Biology | IDS

The College of Liberal Arts and Sciences recognizes that students' academic and professional interests may include more than one discipline and that some majors are not formally available at the university. Because interdisciplinary approaches, research, and curricular activities are becoming increasingly appropriate and valuable within the liberal arts and sciences and other fields, UF students have the option to develop and pursue interdisciplinary (IDS) majors that cross the boundaries of numerous disciplines.

Curriculum

- Chemistry Minor
- Chemistry | Biochemistry

Applicants with a strong background in basic chemistry and biology can pursue advanced-level work, including required courses in the Department of Biochemistry and Molecular Biology, research in biochemistry and molecular biology and other electives in biochemistry and molecular biology, botany, chemistry, microbiology, neuroscience, pharmacology, and zoology.

Graduates will have excellent backgrounds for research in a variety of the basic medical sciences and are qualified for graduate and professional school programs.

Academic Learning Compact

This interdisciplinary studies major in biochemistry and molecular biology provides students with an understanding of and competence in biochemistry, molecular biology and molecular cell biology. Students will understand and use the scientific approach to gather and verify knowledge. They will be able to draw appropriate conclusions and inferences from properly conducted laboratory research. Students will be able to evaluate the significance, quality and veracity of information gathered via experiment and literature and to apply them effectively. Students will also possess the ability to articulate results clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain biochemistry, molecular biology and molecular cell biology.
2. Draw appropriate conclusions and inferences from properly conducted laboratory research.

Critical Thinking

3. Evaluate the significance, quality and veracity of information gathered via experiment and literature and apply them effectively.

Communication

4. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Related Programs

- English

The interdisciplinary BA, with a concentration in film and media studies, enables students to pursue a liberal arts approach to audio-visual studies. The courses offered provide a range of training from professional and applied (anthropology, architecture, education and theatre) to historical and experimental (art, English, Germanic, Slavic and Romance languages).

The film and media studies major encourages students to integrate these offerings by working in both theory and production. For the senior thesis, a student may choose an essay, a film script, a short film or video, or work in a related medium.

The major requires 27 credits minimum, 20 credits of core courses and seven credits from IDS 4906 senior independent work. Majors should take ENG 3115, because it serves as the prerequisite for ENG 4136. Students and sponsors select courses for CLAS electives.

Because many of the courses in the departments of Art, English and Theatre have prerequisites, students should plan their freshman and sophomore work with the major in mind. Under certain circumstances, instructors will waive some prerequisites for IDS majors, but with space at a premium (especially in studio and production classes), students should not try to avoid any requirements. Students may, however, use up to nine credits of 2000-level prerequisites as electives.

Early preparation for the major should include ENG 2300. Other useful courses are:

Code	Title	Credits
GET 3520	Early German Cinema to 1945	4
TPP 2100	Acting for Non-Majors	3
TPP 2110	Acting 1: Instrument and Discipline	2
TPP 2260	Acting for the Camera	3
ARH 2051	Introduction to the Principles and History of Art 2	3
PGY 2441C	Photography: Images, Order and Idea	3
PGY 2442C	Photography: Figure and Ground	3

The major is selective, requiring a 3.0 minimum GPA, two sponsors chosen from faculty in the program and approval of the Interdisciplinary Studies Committee. The application form and information are available online.

Academic Learning Compact

The interdisciplinary studies major in film and media studies provides students with knowledge of film in its diversity and through its techniques. Students will learn film theory and criticism and implement these ideas in the practice of viewing and/or making films. Students will also present ideas clearly and effectively in writing and/or in film/video format as an optional ability.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain film in its diversity and through its techniques.

Critical Thinking

2. Identify and examine film and/or media theory and criticism and implement these ideas in the practice of viewing and/or making films.

Communication

3. Present ideas clearly and effectively in a well-argued essay.

Curriculum Map

Related Programs

- Medieval and Early Modern Studies Minor

This major focuses on medieval and early modern European culture and its influences on the modern world. Students examine the distinctive forms of cultural organization in these periods, obtain knowledge about medieval and early modern communities (monastic, chivalric, peasant, early urban), and familiarize themselves with some of the world's greatest literature.

Students are encouraged to seek historical perspectives that can contribute to current discussions about ethnicity and nationality, colonialism, technologies and their effects, gender and sexuality and the characteristics of historical and fictional narratives. This IDS major involves critical

thinking, textual analysis and creativity, and is excellent preprofessional preparation for careers in law, journalism, government services, medicine, library science, international work and teaching.

Academic Learning Compact

The interdisciplinary studies major in medieval and early modern studies provides students with knowledge of the key issues, figures, social and cultural trends and basic chronology of the period or field studied. Students will be able to evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also articulate the results of research clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Curriculum

- Combination Degrees
- International Relations Certificate
- Political Campaigning Certificate
- Political Science
- Public Affairs Certificate

Related Programs

- International Studies

The international relations certificate requires a combined 3.0 GPA for all certificate coursework.

The certificate program is open to all undergraduates.

Required Courses

Code	Title	Credits
Core courses in international relations theory		
INR 2001	Introduction to International Relations	3
INR 3603	Theories of International Relations	3
Subfield courses		
Main subfields of international relations courses (3000 level)		9
Advanced subfield course (4000 level)		3
Total Credits		**18**

While successful completion of this 18-credit program will qualify students for the certificate, most graduate programs, foreign service organizations, and private corporations will be looking for individuals with broader training. Therefore, students are encouraged to pursue related study in other political science fields and other departments. Students interested in US foreign policy, for example, should consider taking courses in American government. Likewise, students interested in international trade or finance would do well to pursue coursework in economics.

In addition, students interested in the international relations of a particular geographical region would benefit from learning about the comparative domestic political systems and/or cultures of those regions and may find courses in comparative politics, geography, anthropology or foreign languages and literatures helpful. Many other opportunities for enrichment through interdisciplinary work are available on campus.

International Studies

The International Studies interdisciplinary program provides knowledge of major international or global issues including regional and global political economies; comparative cultural and political systems; ethnicity, identity and belief systems; peace, conflict and wars; gender, culture and politics; and environment, health, and science issues.

About this Program

- Latin American Studies Minor
- Nonprofit Organizational Leadership Minor
- Russian and East-European Area Studies Certificate
- Sustainability Studies Minor

Students acquire proficiency in a modern foreign language, and knowledge of at least one major region of the world and significant global issues; are encouraged to experience living and studying abroad or working with an international organization focused on international issues; and conduct research on a global issue in conjunction with a senior research seminar, study abroad experience, or relevant internship or service-learning opportunity.

The major provides cross-cultural and interdisciplinary training that prepares students for graduate study or international careers as specialists in international relations, international development, communications and media, education, business, global health, sustainability, public affairs, government foreign service, export sales, and international research.

Requirments for the Major

Students are required to designate a region of the world on which to focus. This region then determines the courses appropriate for the major's primary requirements (Category A/Regional) as well as the major's foreign language requirement.

The major requires 36 credits of International Studies (INT) coursework and up to 20 credits of related coursework (intermediate language requirement). All courses must be completed with minimum grades of C. A minimum of 15 credits of Category A and/or B courses (outside Region/Global) must be completed at UF.

Required major Coursework

Code	Title	Credits
International Studies Core Courses		
INS 2004	International Studies Perspectives	3
INS 4930	Senior Research Seminar in International Studies [1]	3
Category A (Regional) INT Major Electives		
Approved 3000/4000-level INT social science, humanities or professional courses that focus on the region of the world selected by the student.		12
Approved 1000 to 4000-level INT social science, humanities or professional courses that focus on the region of the world selected by the student		3
Category B (Global/Outside Region) Major Electives		
Approved 3000/4000-level INT social science, humanities, or professional courses that focus on regions of the world other than the student's regional focus and/or focus on global issues.		
These 9 credits of 3000/4000-level Category B courses will be accepted toward the CLAS 3000-level elective requirement. INT majors still will need to take 9 additional credits of 3000-level electives from courses NOT approved for any INT category.		
Approved 1000 to 4000-level INT social science, humanities, or professional courses that focus on regions of the world other than the student's regional focus and/or focus on global issues.		6
Total Major Credits		**36**
Related Coursework		
Four semesters minimum of a single modern foreign language or demonstrated proficiency equivalent to completion of the intermediate level. The language for which proficiency is demonstrated must be logically linked to the selected primary region of focus (Category A)		0-20
Total Related Credits		**0-20**
Total Credits		**36-56**

[1] *With prior approval,* students may substitute:
Study abroad with a research project; internship or work experience abroad with a research project; international studies research poster with presentation; international studies-related service learning with a research project; or independent study course with a research project. Students

pursuing any of these alternatives must still register for 3 credits of coursework to replace INS 4930. All research papers will be graded by a common grading rubric. S/U grades are acceptable for these alternatives to INS 4930 with prior approval and successful completion of the research project

Region Focus

The links below determine the region courses appropriate for Category A and Category B requirements as well as the region's foreign language requirement.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 international studies course from Category A or Category B at the 2000-level or higher or INS 2004 with a 2.0 critical-tracking GPA
- 2.0 UF GPA required

Semester 2

- Complete 1 international studies course from Category A or Category B at the 2000-level or higher or INS 2004 with a 2.5 critical-tracking GPA
- Students must have at least 1 Category A or Category B course completed by the end of Semester 2
- 2.0 UF GPA required

Semester 3

- Complete 1 foreign language course from the selected region and 1 additional international studies tracking course, either INS 2004, a Category A course (at the 3000-level or higher if a 2000-level Category A has already been completed), or a Category B course at the 2000-level or higher with a 2.75 critical-tracking GPA. Students should take INS 2004 if not already completed.
- 2.0 UF GPA required

Semester 4

- Complete 1 additional foreign language course from the selected region and 1 additional Category A or Category B course at the 3000-level or higher with a 3.0 critical-tracking GPA. Students should take INS 2004 if not completed already.
- 2.0 UF GPA required

Semester 5

- Complete 1 additional international studies course from Category A at the 3000-level or higher with a 3.0 critical-tracking GPA. Students should take INS 2004 if not completed already.
- By the end of Semester 5, students must complete two Category A classes, two Category B classes, one year of a relevant foreign language, and INS 2004.
- 2.0 UF GPA required

Semester 6

- Take 2 major classes at the 3000-level or above (may be any mixture of Category A and/or Category B)
- Students should have completed at least 21 credits of the 36 total (excluding language) required for the major

Semester 7

- Complete 2 major classes at the 3000-level or above (may be any mixture of Category A, Category B, and/or INS 4930 or pre-approved alternative)
- Complete Foreign Language Intermediate 1
- Students should have completed at least 27 credits of the 36 total (excluding language) required for the major

Semester 8

- Complete 3 major courses at the 3000-level or above (may be any mixture of Category A, Category B, and/or INS 4930 or pre-approved alternative)
- Complete Foreign Language Intermediate 2
- By the end of semester 8, students must complete a minimum of 15 credits of Category A coursework, 15 credits of Category B coursework, INS 2004, INS 4930 or pre-approved alternative, and the intermediate level or equivalent of a foreign language relevant to the primary region of study.

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Nine credits of 3000 level or above Category B courses count towards the 3000 level or above electives outside of the major.

Depending upon the international studies courses chosen, students may meet some of their Gen Ed Humanities, Gen Ed Social and Behavioral Sciences, and Gen Ed International requirements through courses for the major. In that case, the student can substitute general elective credit.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Beginning foreign language course (**Critical Tracking**; CLAS Foreign Language Proficiency Requirement) [1]		4-5
International studies course (**Critical Tracking**; Category A, 2000 level or above); recommended:		3
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
Africa

1 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The International Studies major provides knowledge of major international issues. Students will be able to identify and conduct internationally relevant research. They will evaluate the significance, quality, and veracity of information gathered in the literature and to apply it effectively. Students will also be able articulate the results of research clearly and effectively.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe, explain, and apply basic knowledge of the modern history, culture, politics, geography, economy, or sociology of one major region of the world (Africa, Asia, Europe, Latin America, or the Middle East).

Critical Thinking

2. Use analytical intellectual tools to examine global issues.

Communication

3. Interpret and effectively communicate about global issues.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3
Category A Courses[1]	R	R	R
Category B Courses[2]	R	R	R
Foreign Language[3]	I, R	I, R	I, R
INS 3004	I	I	I
INS 4930	R, A	R, A	R, A

1 **Category A**: Students focus on a region of the world, taking 15 credits of approved courses in social science, humanities or professional courses that deal with the region chosen.

2 **Category B**: Students take 15 credits of approved courses that deal with regions of the world other than the region chosen in Category A.

3 **Foreign Language**: Students take a minimum of four semesters of a single modern foreign language linked to their focus region, or demonstrate intermediate level-proficiency.

Assessment Types

- Direct assessment of research paper

Israel Studies Certificate

The Israel Studies Certificate at the Center for Jewish Studies allows students to demonstrate a concerted course specialization on the cross-disciplinary topic of Israel Studies.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Center Information

The Bud Shorstein Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center's curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

GAINESVILLE FL 32611-8020

Map (http://campusmap.ufl.edu/#/index/0003)

Curriculum

- European Jewish Studies Certificate
- Hebrew
- Holocaust Studies Certificate
- Jewish Studies
- Jewish Studies Minor

The certificate does not have a language requirement. Some scholarships are available for the (overseas) study of historically Jewish languages, including Modern Hebrew, as well as a few European and Middle Eastern languages. Students take one required introductory course; one survey course; one course in arts and literature; one in society, politics, and culture; as well as one elective.

Students who complete the required courses and take language courses, or additional topical courses in Jewish Studies, may also meet the requirements for the minor or major degree. For example: if a student takes courses for a certificate as well as a minor in Jewish Studies, together with a professional or other major, they may qualify for a double major. Students should consider these options as early as possible, as changes to their Jewish Studies degree program may take up to an academic year to complete.

Each student should work with the JST undergraduate coordinator regarding their course audit to ensure that the courses are applied to the certificate in the categories listed below.

Application Requirements

- Sophomore standing or higher from any UF college or major.
- 2.5 UF GPA

Required Courses

Code	Title	Credits
JST 3930	Special Topics in Jewish Studies (Introduction to Israel Studies)	3
Jewish Studies Survey Course (select one):		*3*
CPO 4727 / JST 4931 Judaism and Politics

Total Credits		**15**

Italian

Foreign Languages and Literatures

The Italian specialization in Foreign Languages and Literatures provides the linguistic and cultural knowledge students need to understand and appreciate the language, literature, cinema, history, and society of the Italian peninsula. Courses reflect the complex cultural traditions of this Mediterranean nation from the Middle Ages and the Renaissance to the modern period.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

The BA in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Italian specialization of the Foreign Languages and Literatures major offers a basis for a broad variety of careers including arts and culture, fashion, business, international law, education, diplomacy, international relations, and journalism. The program also constitutes a strong foundation for graduate work in Italian Studies or related fields, allowing students to develop strengths in fields such as film studies, medieval studies, Mafia studies, Modernism, detective fiction, theater studies, Dante studies, and Animal Studies. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Requirements for the Major

The Italian specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 credits of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Required Foundation Coursework

Total depends on placement in language courses

Code	Title	Credits

Total Credits	**33**

Overseas Study

Students specializing in Italian are encouraged to participate in a study abroad for a summer or an entire semester. Students regularly participate in UF Programs in Rome or UF-approved study-abroad programs in other Italian cities or regions. Refer to UF International Center information and contact a department advisor for study abroad recommendations.
More Info (https://internationalcenter.ufl.edu/)

Placement

In all languages, students with either a native background in the language or prior study in that language might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.

Research

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete ITA 1130 or higher-level Italian Language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete ITA 1131 or higher-level Italian Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete ITA 2220 or a higher-level Italian Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 6

- Complete ITA 2221
- Complete 1 Critical Concentration course
- 2.0 UF GPA required

SEMESTER 7

- Complete ITA 3420
- Complete 2 ITA/ITW 3xxx/4xxx advanced electives
- Complete 2 Critical Concentration courses
- 2.0 UF GPA required

SEMESTER 8

- Complete ITA 3243
- Complete all remaining FLL-Italian 3xxx/4xxx advanced electives
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

3000 level or above critical concentration courses outside of Italian may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary, and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Italian Studies Minor

An Italian Studies minor complements any major in any discipline, and with a focus on Italian language, literature, culture, and civilization, can also become the basis for graduate studies in Italian.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 16 | Completed with minimum grades of C and no optional S/U
- **Contact:** Email (dambers@ufl.edu)

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

Japanese

Foreign Languages and Literatures

The Japanese specialization in Foreign Languages and Literatures develops proficiency in the Japanese language and acquaints students with the literature and cultural history of Japan. Courses are also available for those interested in business Japanese, classical Japanese, Japanese literature, film, pop culture, and women's studies.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

The Japanese specialization of the BA in Foreign Languages and Literatures (FLL).The FLL BA provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Japanese specialization of the Foreign Languages and Literatures major provides a foundation for graduate-level work in East Asian studies or allied fields (anthropology, art history, history, linguistics, political science, and religion). The specialization is excellent general preparation for entry to professional schools (business, journalism, law, and medicine) or careers in foreign service, commerce, diplomacy, translation, business, import and export of information and culture, museums, libraries, and tourism.

Requirements for the Major

The Japanese specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 credits of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

In addition to the above coursework, there are two non-course graduation requirements:

- An acceptable score on a language proficiency test
- A satisfactory faculty evaluation of a term paper of appropriate length completed for an advanced course

Required Foundation Coursework

Total depends on individual placement in Japanese language

Code	Title	Credits
JPN 1130	Beginning Japanese 1	5
JPN 1131	Beginning Japanese 2	5
JPN 2230	Intermediate Japanese 1	5
JPN 2231	Intermediate Japanese 2	5

Critical Concentration		
Critical concentration courses allow students to take courses in thematic areas across different languages or cultures. Although courses may appear in both the Advanced Electives and Critical Concentration groups, they may be counted toward only one group.		
Select 9 credits from one area:		9
Intensive Area Studies: Japanese (Recommended for those planning to pursue careers requiring advanced level skills in Japanese or graduate work in Japanese studies)		
Contemporary Cultural Studies		
Film and Visual Culture		
Literary Studies		
Medieval and Early Modern Studies		
Total Credits		**33**

All languages offered through this department may fulfill college language requirements. Students pursuing the Japanese specialization in Foreign Languages and Literatures are not allowed to minor in Asian studies (either option 1 or 2).

Transfer Students Interested in Majoring in Japanese

If a student's current institution does not offer Japanese and the student has no previous knowledge of Japanese, it's recommended that they take the following Summer Intensive Beginning Japanese program:

Summer A: JPN 1130. A minimum grade C is required to advance to the next level course.

Summer B: JPN 1131.

Overseas Study

There are a variety of study abroad opportunities in Japan.
More Info (https://languages.ufl.edu/study-abroad/japanese-study-abroad-programs/)

Two year-long study abroad programs are available in Japan. The Asian Studies Program at Kansai Gaidai University in Osaka, Japan is specifically designed for international students for an academic year program of study abroad. The program offers courses in Japanese language (all levels) and area studies focusing on Japan and its international role. Another academic year study abroad program at Aoyama Gakuin, Tokyo, offers students the challenge of taking courses in the target language as well as courses in English. These two programs also offer the option of one semester of study abroad.

There is a one or two semester study abroad program at Shimane University in Matsue, Japan. This program focuses on Japanese language, culture, history, and environment. The number of courses taught in English at Shimane is limited, so four semesters of Japanese study or equivalent before arrival is preferred. There is a one or two semester study abroad program at Nagoya University in Nagoya. This program is open to students with no previous study of Japanese language and is ideal for students from a variety of majors including the STEM majors as it offers a broad-based English-language curriculum in international studies, biological and physical sciences, and engineering, in addition to courses in Japan studies. There is a one

or two semester study abroad program at Kyoto University. This program is open to all majors. There is also a program at Waseda University offered through the Economics department.

There is one UF faculty-led study abroad program taught during Summer A, which is taught in English and focuses on Japanese culture: UF in Japan – Japanese Culture in Place. It is ideal for students who do not have room in their schedule for semester-long study abroad programs or will not meet the language requirements in time for an exchange program.

A maximum of 15 credits non-UF overseas study credit may apply to the major. Students must have all overseas study credit that will transfer to the major approved by their major advisor. JPT 3500 must be taken at UF. No substitution is allowed for JPT 3500.

Placement

Students with previous training in Japanese, as well as those with heritage background in these languages, should consult the undergraduate coordinator or the language coordinator of the Japanese specialization before enrolling in any JPN or JPW course. Placement tests are given at the start of each semester; refer to the Department of Languages, Literatures and Cultures for location and times.
More Infohttps://languages.ufl.edu/academics/llc-languages/japanese-studies/

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete JPN 1130 or higher level language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete JPN 1131 or higher level with a minimum grade of C and 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete JPN 2230 or higher level language course with a minimum grade of C and 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 6

- Complete JPN 2231 or higher level language course with a minimum grade of C
- 2.0 UF GPA required

SEMESTER 7

- Complete JPN 3410 or higher course with a minimum grade of C
- Complete JPT 3500 with a minimum grade of C
- 2.0 UF GPA required

SEMESTER 8

- Complete JPN 3411 or higher course with a minimum grade of C
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

3000 level or above critical concentration courses outside of Japanese may count toward the 3000 level or above electives outside of the major.

Actual courses may be different depending on language preparation and availability of courses. In particular, beginning language is best started semester 1 and no later than semester 3, but study abroad or accredited intensive summer courses can be used to catch up.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
JPN 1130	Beginning Japanese 1 (**Critical Tracking**; CLAS Foreign Language Proficiency Requirement) [1]	5
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
