Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Jewish Studies

The Bud Shorstein Center for Jewish Studies fosters the academic study of Jewish cultures, languages, history, society, and religion for all students at the University of Florida. Students will develop as critical thinkers, aware of the diversity and complexity of the field. The center promotes a broad and interdisciplinary approach including the arts, social sciences, and textuality. The curriculum emphasizes historical transformations and comparative frameworks among various Jewish communities and with other groups and religions. Courses draw upon a variety of theoretical approaches to the study of class, ethnicity, gender, race, and sexuality with methodologies that are both textual and performance oriented.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts (p. 1515)
  - **Specialization:** Hebrew Language (p. 1510)
- **Credits for Degree:** 120
- **Contact:** Email (pjsohn@ufl.edu)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Center Information

The Bud Shorstein Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center's curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

Curriculum

- European Jewish Studies Certificate
- Hebrew
- Holocaust Studies Certificate
- Jewish Studies
- Jewish Studies Minor

The Bud Shorstein Center for Jewish Studies fosters the academic study of Jewish cultures, languages, history, society, and religion for all students at the University of Florida. Students are expected to develop as critical thinkers, aware of the diversity and complexity of the field. The center promotes a broad and interdisciplinary approach including the arts, social sciences, and textuality. The curriculum emphasizes historical transformations and comparative frameworks among various Jewish communities and with other groups and religions. Courses draw upon a variety of theoretical approaches to the study of class, ethnicity, gender, race, and sexuality with methodologies that are both textual and performance oriented.

Requirements FOR THE MAJOR

The major requires a minimum of 30 credits in Jewish studies and related courses with minimum grades of C. A minimum of 15 credits for the major must be taken at the University of Florida.

Required Major Coursework

- REL 2600
- 27 credits at the 3000 or 4000 level
- Students must work with the center's undergraduate advisor to design a curriculum that will give a sampling of the Jewish experience across time and across disciplines. Majors must complete a comprehensive research project in an upper-division course as a capstone experience in their final year.

Approved courses in other departments may be counted toward the major provided they include substantial coverage of material relevant to Jewish studies. Students may earn limited class credit in independent study or in honors or other undergraduate research projects. Normally, no more than 12 credits of the minimum may be transfer credit. However, all transfer credits in JST-related courses from UF-approved programs abroad will apply toward the major.

Honors

Honors in Jewish studies can be earned by students who have at least a 3.5 GPA in their upper-division work and a 3.5 GPA in the major. Students who seek honors are required to complete an honors project, with a grade of A or B, under the guidance of a Jewish studies faculty member. In their senior year, honors students should register for JST 4970, a 2-3 credit course.

Internship in Jewish Communal Services

Students can gain practical experience as an undergraduate through the internship option of JST 4940. The goal of this program is both to expose the student to the opportunities for service in the world of organized Jewry and to provide a means for students to understand how Jewish values are propagated in organized settings. Students earn credit for volunteer work and training in applied settings such as Jewish family and social services agencies, community centers, federations, educational institutions, museums, newspapers, denominational organizations, public affairs groups, synagogues, Hillel or equivalent institutions. To qualify for JST credit, the organization must have an explicit public tie to Judaism and be approved for internship credit by the Center for Jewish Studies.

Overseas Study

The Bud Shorstein Center for Jewish Studies provides counsel regarding study abroad at the Hebrew University of Jerusalem, Tel Aviv University, Haifa University, and Ben-Gurion University of the Negev. The overseas programs at these Israeli universities offer summer, one semester and full-year courses of study. Information is available in 1120 Turlington Hall and at the UF International Center, 170 Hub.

Scholarships for study abroad and individual research projects are available for qualified students.

Academic Learning Compact

This major familiarizes students with the aspects of Jewish history, religion, languages, and cultures. Emphasis is placed on basic language acquisition, analysis, and critical evaluation of texts and contexts, integration of cultural data with disciplinary concerns outside of Jewish studies and comparative frameworks among different Jewish groups and with co-territorial non-Jews.

Before Graduating Students Must

- Satisfactory evaluation of paper written for the CJS capstone course, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate knowledge of and competence in the Jewish experience, including minority and diasporic communities within a comparative framework.
2. Demonstrate knowledge of transformations of Jewish communities over time and space.

Critical Thinking

3. Understand the significance of language in assessing Jewish culture(s).
4. Evaluate and apply effectively the significance, quality, and veracity of information (both primary and secondary) in the literature.

Communication

5. Articulate research results clearly and effectively in an accepted style of presentation.

Curriculum Map

Scholarships for study abroad are available for qualified students.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete HBR 1130 or higher-level Hebrew Language course with a minimum grade of C
- 2.0 UF GPA required

Semester 2

- Complete HBR 1131 or higher-level Hebrew Language course with a minimum grade of C
- 2.0 UF GPA required

Semester 3

- Complete REL 2600 and HBR 2220 or higher-level Hebrew Language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete HBR 2221 or higher-level Hebrew Language course and one Jewish studies or HBR course above the 3000 level with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete HBR 3410 and one Jewish Studies or HBR course above the 3000 level with a minimum grade of C and a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete HBR 3411 and one Jewish Studies or HBR course above 3000 level with a minimum grade of C and a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 7

- Complete one Jewish Studies or HBR course above 3000 level
- 2.0 UF GPA required

Semester 8

- Complete Jewish Studies major requirements for Hebrew Language Concentration
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing Requirement while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirement concurrently with another General Education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
HBR 1130	Beginning Modern Hebrew 1 (if needed; CLAS Foreign Language Proficiency Requirement) [1]	5
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
Natural Science Laboratory		1
State Core Gen Ed Composition (p. 80); Writing Requirement		3

[1] One General Education option taken this term must be a Quest 2 course.

Academic Learning Compact

This major familiarizes students with the aspects of Jewish history, religion, languages, and cultures. Emphasis is placed on basic language acquisition, analysis, and critical evaluation of texts and contexts, integration of cultural data with disciplinary concerns outside of Jewish studies and comparative frameworks among different Jewish groups and with co-territorial non-Jews.

BEFORE GRADUATING STUDENTS MUST

- Satisfactory evaluation of paper written for the CJS capstone course, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

STUDENTS IN THE MAJOR WILL LEARN TO

Student Learning Outcomes | SLOs

Content

1. Demonstrate knowledge of and competence in the Jewish experience, including minority and diasporic communities within a comparative framework.
2. Demonstrate knowledge of transformations of Jewish communities over time and space.

Critical Thinking

1. Understand the significance of language in assessing Jewish culture(s).
2. Evaluate and apply effectively the significance, quality, and veracity of information (both primary and secondary) in the literature.

Communication

1. Articulate research results clearly and effectively in an accepted style of presentation.

Jewish Studies

The Bud Shorstein Center for Jewish Studies fosters the academic study of Jewish cultures, languages, history, society, and religion for all students at the University of Florida. Students will develop as critical thinkers, aware of the diversity and complexity of the field. The center promotes a broad and interdisciplinary approach including the arts, social sciences, and textuality. The curriculum emphasizes historical transformations and comparative frameworks among various Jewish communities and with other groups and religions. Courses draw upon a variety of theoretical approaches to the study of class, ethnicity, gender, race, and sexuality with methodologies that are both textual and performance oriented.

About this Program

To graduate with this major, students must complete all university, college, and major requirements.

Center Information

The Bud Shorstein Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center's curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

Curriculum

- European Jewish Studies Certificate
- Hebrew
- Holocaust Studies Certificate
- Jewish Studies
- Jewish Studies Minor

The Bud Shorstein Center for Jewish Studies fosters the academic study of Jewish cultures, languages, history, society, and religion for all students at the University of Florida. Students are expected to develop as critical thinkers, aware of the diversity and complexity of the field. The center promotes a broad and interdisciplinary approach including the arts, social sciences, and textuality. The curriculum emphasizes historical transformations and comparative frameworks among various Jewish communities and with other groups and religions. Courses draw upon a variety of theoretical approaches to the study of class, ethnicity, gender, race, and sexuality with methodologies that are both textual and performance oriented.

COURSEWORK FOR THE MAJOR

The major requires a minimum of 30 credits in Jewish studies and related courses with minimum grades of C. A minimum of 15 credits for the major must be taken at the University of Florida.

Required Coursework

- REL 2600
- 27 credits at the 3000 or 4000 level
- Students must work with the center's undergraduate advisor to design a curriculum that will give a sampling of the Jewish experience across time and across disciplines. Majors must complete a comprehensive research project in an upper-division course as a capstone experience in their final year.

Approved courses in other departments may be counted toward the major provided they include substantial coverage of material relevant to Jewish studies. Students may earn limited class credit in independent study or in honors or other undergraduate research projects. Normally, no more than 12 credits of the minimum may be transfer credit. However, all transfer credits in JST-related courses from UF-approved programs abroad will apply toward the major.

Honors

Honors in Jewish studies can be earned by students who have at least a 3.5 GPA in their upper-division work and a 3.5 GPA in the major. Students who seek honors are required to complete an honors project, with a grade of A or B, under the guidance of a Jewish studies faculty member. In their senior year, honors students should register for JST 4970, a 2-3 credit course.

Internship in Jewish Communal Services

Students can gain practical experience as an undergraduate through the internship option of JST 4940. The goal of this program is both to expose the student to the opportunities for service in the world of organized Jewry and to provide a means for students to understand how Jewish values are propagated in organized settings. Students earn credit for volunteer work and training in applied settings such as Jewish family and social services agencies, community centers, federations, educational institutions, museums, newspapers, denominational organizations, public affairs groups, synagogues, Hillel or equivalent institutions. To qualify for JST credit, the organization must have an explicit public tie to Judaism and be approved for internship credit by the Center for Jewish Studies.

Overseas Study

The Bud Shorstein Center for Jewish Studies provides counsel regarding study abroad at the Hebrew University of Jerusalem, Tel Aviv University, Haifa University, and Ben-Gurion University of the Negev. The overseas programs at these Israeli universities offer summer, one semester and full-year courses of study. Information is available in 1120 Turlington Hall and at the UF International Center, 170 Hub.

Scholarships for study abroad and individual research projects are available for qualified students.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete REL 2600
- 2.0 UF GPA required

Semester 4

- Complete one Jewish studies course (3000 level or higher) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete two Jewish Studies courses (3000 level or higher) with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete two Jewish Studies courses 3000 level or higher
- 2.0 UF GPA required

Semester 7

- Complete two Jewish Studies courses (3000 level or higher)
- 2.0 UF GPA required

Semester 8

- Complete Jewish Studies major requirements
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext) page.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Latin American Studies Minor

The Latin American Studies (LAS) minor prepares students to have an in-depth understanding of Latin America and Latin American issues with an interdisciplinary approach. LAS minor is configured as the necessary addition for students who seek a full language immersion and want to apply their disciplines in a Latin American context.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15 | Completed with minimum grades of C and no optional S/U

Curriculum

- /UGRD/colleges-schools/UGLAS/IDS_BA_BS/IDS_BA12/
- Combination Degrees
- Latin American Studies Certificate
- Latin American Studies Minor

Only courses at the 2000 level or above will count toward the minor. In addition, students must earn nine credits at the 3000 level or above, in addition to the Seminar Requirement. Overseas study credits can count as core or elective courses if approved by the undergraduate advisor in the Center for Latin American Studies.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

The Latin American Studies minor is an excellent option for those who wish to concentrate their work in a specific discipline yet maintain a Latin American focus in their coursework. Students can take courses with Latin American content in the fields of anthropology, economics, politics, geography, history, mass communication, music, women's studies, and more. Students who pursue the minor will enhance their career prospects through their knowledge of Latin American languages and cultures.

Required Courses

Code	Title	Credits
LAS 4935	Latin American Area Seminar [1]	3
Approved courses with 100% Latin American, LatinX, or Caribbean content [2,3]		9
Approved course with 25% Latin American, LatinX, or Caribbean content [3]		3
High-Intermediate Language Proficiency		
Select one:		
SPN 2240	Intensive Communication Skills	
POR 3242	Oral and Written Practice	
HAI 2200	Intermediate Haitian Creole 1	
Language courses in Spanish, Portuguese or Haitian Creole (3000 level) [4]		
Proficiency through written or oral examination [5]		
Total Credits		**15**

1. LAS 6938 may be substituted with the approvals of the instructor and undergraduate coordinator.
2. A student may take LAS 4935 up to three times if the subject matter varies. The first Seminar will count toward the Seminar requirement, the second and third may count toward the Approved courses with 100% Latin American or Caribbean content.
3. After approval of the undergraduate coordinator, given the broad variety of courses available
4. Language courses above the 3000 level can count toward the minor if they are not used to meet the language requirement.
5. Students with prior knowledge of a Latin American or Caribbean language must demonstrate proficiency through a written placement test (an Advanced Placement score of 4-5, with approval, or a SAT II score of 700, for Spanish only) or individual oral examination to be conducted by language faculty.

Candidates for the minor are encouraged to spend a summer, a semester or an academic year studying in a Latin American country. UF sponsors study abroad programs in Argentina, Brazil, Costa Rica, Chile, Dominican Republic, Guatemala, Mexico, Panama, and Peru. For more information, contact Study Abroad Services in the UF International Center.

Legal History Certificate

The Legal History certificate considers how law works in the United States and around the world. Students explore histories of the law's influence on society and the ways in which society influences law.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 9 | Completed with minimum grades of C
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

Undergraduate students in the Department of History come to the program as four-year residential students, PaCE students, and as transfers from Florida state colleges and out-of-state institutions. They join a large, diverse, and active community of faculty, graduate students, and undergraduates. Program highlights include a vibrant Honors Program, engaged student organizations, and numerous opportunities for undergraduate research.

GAINESVILLE FL 32611-7320
Map (http://campusmap.ufl.edu/#/index/0008)

Curriculum

- Combination Degrees
- History
- History Minor
- Legal History Certificate

The certificate is open to non-majors while majors may obtain a specialization in legal history. Students minoring in History are also eligible for the certificate as long as they do not apply certificate courses towards their minor.

Required Courses

Code	Title	Credits
Group A course		*3*
AMH 3340	History of Disability in America	3
AMH 3551	Constitutional History of the United States to 1877	3
AMH 3552	Constitutional History of the United States Since 1877	3

AMH 3558	United States Legal History	3
AMH 4316	Violence and Social Conflict in American History	3
AMH 4319	Crime and Punishment in American History	3
AMH 4550	Origins of the US Constitution	3
Group B course		*3*
ASH 3931	Special Topics in Asian History (Imperial Japan)	3
ASH 3931	Special Topics in Asian History (Global Histories of Prostitution)	3
EUH 3033	History of the Holocaust	3
EUH 3035	Nazi Germany	3
EUH 3284	Authoritarian Interwar Europe	3

WOH 3931	Special Topics in World History (Global Histories of Prostitution)	3
WOH 3205	History of Human Rights	3
Total Credits		**63-93**

In addition to these courses, the undergraduate coordinator may authorize substitute courses.

[1] Course not previously taken.

Linguistics

Language is a form of communication shared by all humans across the globe. Linguistics is the scientific study of language in all its forms. It is a set of disciplines that investigates the structure, meaning, and use of human languages using a range of approaches.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Linguistics Department offers the PhD, MA (both thesis and non-thesis), BA, and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level.

Map (http://campusmap.ufl.edu/#/index/0267)

Curriculum

- Combination Degrees
- Linguistics
- Linguistics Minor
- Teaching English as a Second Language Certificate
- Teaching English as a Second Language Minor

Linguists study one of the central aspects of being human: the ability to communicate through language. Language shapes and is used in our societies in fundamental and profound ways. Linguists systematically examine a range of questions that help build scientific knowledge and address practical matters in our societies relating to language. How linguists study human language is varied, from multiple theoretical perspectives to

diverse research methods. While the traditional core includes investigating the sounds, structure, and semantics of human languages, linguistics also investigates how people acquire language and use language in context, how languages are processed in the brain, how languages can be documented and revitalized, and how computers can be trained to understand and use language. The diversity of the field of linguistics is appealing due to the ability to study deeply within one area or broadly across several.

Requirements for the Major

Students must earn minimum grades of C within two attempts in a minimum of 33 credits.

Required Coursework

Code	Title	Credits
Linguistics Core Courses		**9**
LIN 2011	Introduction to Linguistics	
LIN 3201	The Sounds of Human Language	
LIN 3460	The Structure of Human Language	
Linguistics Major Electives		**24**
Linguistics electives (3000/4000 level)		
Quest 3/Experiential Learning Academic Requirement [1]		
Approved electives from a combination of the following options (see lists below:)		
Additional Linguistics electives at the 3000/4000-level		
Linguistics electives offered by other departments		
Language-related courses OR a two-semester sequence of a non-Romance or non-Germanic language [2]		
Total Credits		**33**

1 Students should enroll in an experience for 3 credit hours but may opt for 0-2 credit hours if needed, although the student effort during the semester will remain the equivalent of 3 credit hours. For students who complete a Quest 3/ELAR for 0-2 credits, they will need an additional Linguistics elective to earn the required 24 credits of Linguistics Major Electives. To fulfill the Quest 3/UF Experiential Learning Academic Requirement (Q3/ELAR), students will pursue experiential learning in the form of internships or co-ops, global engagement/study abroad, community/public service, undergraduate research, or design competitions. Students should consult with department faculty to learn more about opportunities available to Linguistics students.

2 Up to 6 of the 9 credits may come from language-related courses OR a two-semester sequence of a non-Romance or non-Germanic language. (No more than six 6 language credits will apply to the major.)

Consult the undergraduate coordinator or program director for emphasis areas and electives. Courses must be completed at UF; if taken at another accredited university, they must be approved by the department.

SPC 4425	Small Group Communication (W and O)	
SPC 2730	Introduction to Intercultural Communication (W and O)	3
OR		
Foreign Language Courses		
A two-semester sequence of a non-Romance/non-Germanic language. [1]		

[1] Students must complete two consecutive semesters of the same language for the courses to count towards the major. Appropriate languages include: Akan, American Sign Language, Amharic, Arabic, Czech, Chinese, Greek, Hebrew, Hindi, Hungarian, Japanese, Korean, Lingala, Polish, Russian, Swahili, Turkish, Vietnamese, Wolof, and Yoruba.

Combination Degree Program

Linguistics offers a combination-degree program that allows students to obtain a BA and an MA in five years.

Students enroll in four graduate courses in their senior year that count toward both the BA and MA degrees:

Code	Title	Credits
LIN 6084	Introduction to Graduate Research	3
LIN 6323	Phonology 1	3
LIN 6402	Morphology 1	3
LIN 6501	Syntax 1	3

Students need to apply by February 15 of the Spring semester of their junior year.

- Combination Degrees

Course Details

Linguistics offers a variety of courses and students are free to pick any combination.

Suggested Specializations

Theoretical Linguistics

Covering the theory of sounds (phonology), word structure (morphology), sentences (syntax), and meaning (semantics).

Code	Title	Credits
LIN 4320	Introduction to Phonology	3
LIN 4400	Introduction to Morphology	3
LIN 4500	Introduction to Syntax	3
LIN 4803	Introduction to Semantics	3
LIN 4850	Formal Semantics	3

Human Language Processing

Dealing with how language is processed in the mind and brain.

Code	Title	Credits
LIN 4701	Psycholinguistics	3
LIN 4205	Fundamentals of Phonetics	3
LIN 4702C	Methods in Psycholinguistics	3
LIN 4790	Brain and Language	3

Sociolinguistics

Dealing with how language works in society.

Code	Title	Credits
LIN 4600	Survey of Sociolinguistics	3
LIN 4656	Gender and Language	3

Language Acquisition and Teaching

Dealing with how people acquire a second language and how teachers can teach second languages.

Code	Title	Credits
LIN 3680	Modern English Structure	3
LIN 4136	Introduction to Data-driven Learning	3
LIN 4721	Second Language Acquisition	3
TSL 3360	Introduction to Teaching English as a Second Language	3
TSL 3378	Pronunciation for Teaching English as a Second Language	3

Corpus/Computational Linguistics

Dealing with how computers can be used to analyze language use.

Code	Title	Credits
LIN 4071	Intro to Corpus Linguistics	3
LIN 4770C	Introduction to Computational Linguistics	3

Overseas Studies

Some study abroad programs that offer linguistics courses are the University of Mannheim (Germany), University of Haifa (Israel), University of Madrid (Spain), and the University of Utrecht (The Netherlands). For more information and programs, contact the linguistics undergraduate advisor.

Relevant Minors and Certificates

Linguistics students may want to consider a minor (p. 1726) or certificate (p. 1725) in Teaching English as a Second Language.
More Info (http://lin.ufl.edu/undergraduate/minor/)

Research

Students are encouraged to engage in individual study with a faculty member or to volunteer in a laboratory.
More Info (http://lin.ufl.edu/undergraduate/major/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete 1 foreign language or linguistics course (LIN 2011 recommended) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete 1 additional foreign language or linguistics course with a 2.75 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete LIN 2011 and maintain a 2.75 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete LIN 3201 or LIN 3460
- Complete at least 3 of the remaining LIN 3000/4000 required courses
- 2.0 UF GPA required

Semester 7

- Complete one of the following: LIN 3201 or LIN 3460
- Complete at least 3 LIN department electives or approved linguistics-related electives
- 2.0 UF GPA required

Semester 8

- Complete all remaining LIN department electives, approved linguistics-related electives, and Quest 3/Experiential Learning Academic Requirement
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

Approved Language Related Courses at the 3000 level or above may count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
CLAS Foreign Language Proficiency Requirement (**Critical Tracking**; non-Romance or non-Germanic recommended) [1]		4-5
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Mathematics, (with a math prefix)		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3

LIN 3201 or LIN 3460	The Sounds of Human Language (**Critical Tracking**) or The Structure of Human Language	3
Linguistics or linguistics-related course (**Critical Tracking**; 3000 level or above)		3
State Core Gen Ed Humanities (p. 80)		3
Gen Ed Physical Sciences		3

Elective (3000 level or above, not in major)	3
Credits	**15**
Semester Seven	
Linguistics Major elective (**Critical Tracking**; 3000 level or above)	3
Linguistics or Linguistics-related Major electives (**Critical Tracking**; 3000 level or above, 4000 level recommended)	6
Electives (3000 level or above, not in major)	6
Credits	**15**
Semester Eight	
Linguistics Major electives (**Critical Tracking**; 3000 level or above, 4000 level recommended)	9
Electives (or Gen Ed Humanities, if needed)	3
Elective	3
Credits	**15**
Total Credits	**120**

1 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

3 Students should enroll in an experience for 3 credit hours but may opt for 0-2 credit hours if needed, although the student effort during the semester will remain the equivalent of 3 credit hours. Students who complete the Quest 3/ELAR requirement for 0-2 credits will need an additional Linguistics elective to earn the required 24 credits of Linguistics Major Electives.

Academic Learning Compact

The Bachelor of Arts in Linguistics provides students with the ability to analyze language structure and use on multiple levels and to apply knowledge, concepts and skills developed from previous research. The major emphasizes students' ability to analyze patterns in language in terms of the sound system (phonetics and phonology) and word and sentence structure (morphology and syntax), to present and justify these analyses and to apply linguistic knowledge and analytical skills to the study of language use, learning, teaching, processing, and change.

Before Graduating Students Must

- Achieve a minimum grade of C on the critical assignment from LIN 3201, graded according to department rubric.
- Achieve a minimum grade of C on critical assignments from LIN 3460, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe and explain the concepts related to phonetics and phonology (sounds and sound systems).
2. Examine and explain the concepts related to morphology and syntax (word and sentence structures).

Critical Thinking

3. Analyze linguistic data by applying concepts and knowledge from phonetics and phonology.
4. Analyze linguistic data by applying concepts and knowledge from morphology and syntax.

Communication

5. Articulate research results clearly and effectively in an accepted style of presentation.

Curriculum Map

Marine Sciences | CLAS

Oceans are an important facet of the global environment: covering more than 70 percent of the Earth's surface, oceans provide us with food, transport, and resources and they play a significant role in controlling climate. However, the world's oceans remain largely unexplored below the surface, making them one of the last great frontiers for scientific discovery. Marine environments are inherently dynamic and governed by a broad suite of interactive biological, chemical, and physical processes.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs

- Fisheries and Aquatic Sciences Minor

The university promotes an integrated approach to marine science education and research to prepare students for rewarding academic and professional careers. This major, offered cooperatively with the College of Agricultural and Life Sciences, lets students tailor a curriculum that suits their interests and career goals.

The curriculum provides the core scientific and quantitative skills necessary for success. Lower-division courses build a strong foundation in basic sciences and math while upper-division courses provide opportunity for specialization. Students in the College of Liberal Arts and Sciences (CLAS) complete an upper-division core that integrates the physical and biological sciences, mathematics, and engineering. They work closely with a faculty advisor to create an individualized curriculum of at least 12 credits of approved electives; this plan must be approved by the program's undergraduate coordinator before the student has earned 70 credits.

Requirements for the Major

The major requires 63-67 credits of coursework completed with minimum grades of C. At least 30 credits of coursework in the major must be completed at UF.

& 2054L	and Laboratory for PHY 2054	
Option Two		
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for PHY 2048	
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for PHY 2049	
Marine Sciences Major Core Courses		**13-14**
GLY 3083C	Fundamentals of Marine Sciences	
GLY 4726	Chemical Oceanography	
PCB 4460	Biodiversity and Ecology Field Immersion	
or FAS 4270	Marine Ecological Processes	
ZOO 4403C	Marine Biology	
Marine Sciences Major Electives		**15-16**
Approved marine sciences electives (12) [1]		
Marine sciences core elective (3-4)		
Total Credits		**62-67**

[1] 12 credits of approved marine sciences electives, approved by the undergraduate coordinator before the student has earned 70 credits. Electives may be chosen from the Approved Electives tab.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

For the purposes of critical-tracking, associated lecture and lab courses are considered one critical-tracking course (e.g., BSC 2010/BSC 2010L = 1 critical-tracking course).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete OCE 1001 and 1 critical-tracking course from BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, PHY 2053/PHY 2053L (or PHY 2048/PHY 2048L), PHY 2054/PHY 2054L (or PHY 2049/PHY 2049L)
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete FAS 4270 or PCB 4460
- 2.0 UF GPA required

Semester 7

- Complete General Education course
- 2.0 UF GPA required

Semester 8

- Complete all remaining General Education requirements
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

MAC 2312, PHY 2049 and PHY 2049L, and PHY 2054 and PHY 2054L may count towards the 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences)	4
Select one:		4
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	
MAC 1147	Algebra and Trigonometry [1]	
OCE 1001	Introduction to Oceanography (**Critical Tracking**; Gen Ed Physical Sciences)	3
	Credits	**14**
Semester Two		
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	4
Select one:		3-4
Elective		
MAC 2311	Analytic Geometry and Calculus 1 (if not taken in semester one)	
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Humanities (p. 80)		3
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
	Credits	**16-17**
Semester Three		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)	4
GLY 3083C	Fundamentals of Marine Sciences	3
Select one:		3-4
MAC 2312	Analytic Geometry and Calculus 2 (Gen Ed Mathematics)	
STA 2023	Introduction to Statistics 1 (Gen Ed Mathematics)	
Gen Ed Humanities		3
Elective (3000 level or above, not in major)		3
	Credits	**16-17**
Semester Four		
Quest 2		3
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences)	4
Select one:		4-5
PHY 2053 & 2053L	Physics 1 and Laboratory for PHY 2053 (**Critical Tracking**; Gen Ed Physical Sciences)	
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for PHY 2048 (**Critical Tracking**; Gen Ed Physical Sciences)	
Elective (3000 level or above, not in major)		3
	Credits	**14-15**
Semester Five		
Select one:		4-5
PHY 2054 & 2054L	Physics 2 and Laboratory for PHY 2054 (**Critical Tracking**; Gen Ed Physical Sciences)	

PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for PHY 2049 (**Critical Tracking**; Gen Ed Physical Sciences)	
ZOO 4403C	Marine Biology	4
Gen Ed Humanities		3
CLAS Foreign Language Proficiency Requirement [2]		5
	Credits	**16-17**
Semester Six		
GLY 4726	Chemical Oceanography	3
PCB 4460 or FAS 4270	Biodiversity and Ecology Field Immersion (**Critical Tracking**) [2] or Marine Ecological Processes	3-4
Gen Ed Composition; Writing Requirement		3
CLAS Foreign Language Proficiency Requirement [2]		5
	Credits	**14-15**
Semester Seven		
Marine sciences core elective		3-4
Gen Ed Social and Behavioral Sciences		3
Approved marine sciences elective		3
Electives (3000 level or above, not in major)		6
	Credits	**15-16**
Semester Eight		
Gen Ed Social and Behavioral Sciences		3
Approved marine sciences elective		9
Elective (3000 level or above, not in major)		3
	Credits	**15**
	Total Credits	**120**

1 Select MAC 1147 if needed.

2 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

FAS 4932	Topics in Fisheries and Aquatic Sciences (Marine Adaptations)	
GLY 3074	Oceans and Global Climate Change (Gen Ed Physical Sciences) [1]	
GLY 3105C	Evolution of Earth and Life (Gen Ed Physical Sciences) [1]	
GLY 3202C	Earth Materials [1]	
GLY 3603C	Paleontology	
GLY 4450	Geophysics	
GLY 4552C	Sedimentary Geology	

GLY 4734	Coastal Morphology and Processes
GLY 4930	Special Topics in Geology (Estuarine Systems)
OCE 3016	Introduction to Coastal and Oceanographic Engineering
ZOO 4205C	Invertebrate Biodiversity

[1] These courses cannot count as marine sciences core electives and approved electives.

Additional Electives | With Instructor Permission

Code	Title	Credits
EOC 6196	Littoral Processes	3
EOC 6934	Advanced Topics in Coastal and Oceanographic Engineering	3
FAS 5276C	Field Ecology of Aquatic Organisms	4
FAS 6171	Applied Phycology	
GLY 5255	Organic Geochemistry and Geobiology	3
GLY 5558C	Sedimentology	3
GLY 5736	Marine Geology	3
GLY 5786L	Topics in Field Geology (Bahamas)	2
GLY 6075	Global Climate Change: Past, Present, and Future	3
GLY 6425	Tectonics	3
GLY6726	Chemical Biomarkers in Aquatic Ecosystems (instructor permission required).	
GLY 6932	Special Topics in Geology (Chemical Biomarkers in Aquatic Ecosystems)	3
OCP 6050	Physical Oceanography	3
OCP 6168	Data Analysis Techniques for Coastal and Ocean Engineers	3
OCP 6295	Estuarine and Shelf Hydrodynamics I	3
PCB 4460	Biodiversity and Ecology Field Immersion	4
ZOO 4926	Special Topics in Zoology (Biology of Sea Turtles)	1-4
ZOO 6456C	Ichthyology	4

[1] These courses cannot count as marine sciences core electives and approved electives.

Academic Learning Compact

This major provides integrative understanding of the basic concepts, theories and observational findings related to marine materials and processes, geologic time, the diversity of marine life, the structure and function of marine organisms and ecosystems and marine resource management.

The Marine Sciences major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and utilizes faculty, courses and resources of the Fisheries and Aquatic Sciences Program (CALS), the Department of Geological Sciences (CLAS), the Department of Biology (CLAS), and the Department of Civil and Coastal Engineering (Herbert Wertheim College of Engineering).

Before Graduating Students Must

- Achieve a passing score on the subject test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the analytical skills test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the bioethics quiz. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the scientific literacy paper. This paper is assessed using a rubric that has been reviewed and approved by the Marine Sciences Committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Demonstrate competence in the basic terminology, concepts, methodologies, and theories used within the marine sciences.

Critical Thinking

2. Analyze information in the marine sciences and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas, and reasoning clearly, effectively, and objectively in written or oral forms appropriate to the marine sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
GLY 3083C	I	I	I	I
GLY 4930	R	R	R	R
OCE 1001	I		I	I
ZOO 4403C	R	R	R	R
ZOO 4926 (Marine Ecology) or FAS 4932 (Marine Ecological Processes)	A	A	A	A

Assessment Types

- Marine sciences subject and analytical skills tests
- Bioethics quiz
- Scientific paper

Mathematics

Studying Mathematics develops such skills as critical thinking, oral and written communication, arguing logically and rigorously, thinking abstractly, formulating and solving problems, analyzing data, analyzing mathematical models, quantitative and computer proficiency, and the ability to work in groups. Employers value these skills; consequently, Mathematics majors find themselves in demand by employers for careers in a wide spectrum of fields.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1541) | Bachelor of Science (p. 1547)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

GAINESVILLE FL 32611
Map (http://campusmap.ufl.edu/#/index/0655)

Curriculum

- Combination Degrees
- Mathematics
- Mathematics Minor

Degrees

Bachelor of Arts

Intended for students who wish to pursue a career in a mathematical field or to teach mathematics at the secondary-school level, but who do not currently contemplate graduate study in mathematics.

Bachelor of Science

Intended for students who wish to pursue graduate study in mathematics as well as for other strong students with a deep interest in mathematics.

Requirements for the Major

Students are required to take eight core courses, providing a broad base in mathematics, and four electives chosen from a list of approved courses. Students pursuing the BA degree have greater flexibility in their choice of electives, facilitating the possibility of a double-major with another scientific discipline.

A minimum of 39 credits of mathematics and mathematics-approved electives is required for each degree. All coursework for the major must be completed with minimum grades of C.

Relevant Minors and Certificates

Mathematics majors are encouraged to consider taking a minor in computer science, industrial and systems engineering, physics, or statistics. The Department of Statistics offers a minor in actuarial science. In addition, the UFTeach program offers a minor in mathematics teaching.
More Info (https://stat.ufl.edu/academics/undergraduate/minor-in-actuarial-science/)

UFTeach Program

There is a severe shortage of qualified high school mathematics teachers in Florida and nationwide. Students interested in entering this high-demand profession should see a departmental advisor about the UFTeach program. Mathematics majors in this program complete the requirements for the UFTeach minor in mathematics, as well as those for the BA or BS in mathematics. These students graduate with all the coursework and preparation the State of Florida requires for professional certification as a high school mathematics teacher.
More Info (http://education.ufl.edu/uf-teach/)

Research

Research and scholarly opportunities are described on the mathematics website under Opportunities for Undergraduates.
More Info (http://www.math.ufl.edu/mathematics-major/opportunities-for-undergraduates/)

Combination Degree Programs

Mathematics majors who complete the requirements for major by the end of the junior year are eligible for the combination-degree program. Students in this program take the graduate sequences MAA 5228 and MAA 5229 and MAS 5311 and MAS 5312 in their senior year. These 12 credits, which apply toward the undergraduate degree, will then also apply toward a master's degree in mathematics if the student is admitted to the graduate program. The student should successfully complete this degree with one full-time year of graduate school following receipt of a bachelor's degree.
More Info (https://math.ufl.edu/mathematics-major/combined-degree/)

Academic Learning Compact

The major in Mathematics enables students to develop proficiency in calculus, differential equations, advanced calculus, linear algebra and abstract algebra, and expose them to several other mathematical areas beyond these core fields. Students will learn to read and to construct mathematical proofs, to reason in abstract mathematical systems, and to use mathematical models. Students will also acquire the ability to read new mathematics and to formulate mathematical models and arguments.

Before Graduating Students Must

- Be evaluated on their responses to certain examination questions in upper-division courses that are required for their degree.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Bachelor of Arts: Explain conceptual and computational competency in core mathematics: calculus, differential equations, real analysis, linear algebra and abstract algebra.
   Bachelor of Science: Explain conceptual and computational competency in core mathematics: calculus, differential equations, advanced calculus, linear algebra and abstract algebra.

Critical Thinking

2. Identify correct mathematical arguments in abstract mathematical systems.
3. Develop and analyze mathematical models of scientific problems.

Communication

4. Develop and write correct mathematical arguments.

Curriculum

- Combination Degrees
- Mathematics
- Mathematics Minor

The Bachelor of Arts | BA is intended for students who wish to pursue a career in a mathematical field or to teach mathematics at the secondary-school level, but who do not currently contemplate graduate study in mathematics.

Requirements for the Major

Students are required to take eight core courses, providing a broad base in mathematics, and four electives chosen from a list of approved courses. Students pursuing the BA degree have greater flexibility in their choice of electives, facilitating the possibility of a double-major with another scientific discipline.

A minimum of 39 credits of mathematics and mathematics-approved electives is required for each degree. All coursework for the major must be completed with minimum grades of C.

The mathematics major is expected to take the following upper-division core courses at UF: Linear Algebra, Abstract Algebra, Introduction to Real Analysis 1 (or Real Analysis and Advanced Calculus 1), and Introduction to Real Analysis 2 (or Real Analysis and Advanced Calculus 2).

These courses are common to all math majors and most clearly define the experience of the mathematics major at UF.

Code	Title	Credits
Required Foundation Coursework		
MAC 2312	Analytic Geometry and Calculus 2	4
or MAC 3473	Honors Calculus 2	
MAC 2313	Analytic Geometry and Calculus 3	4
or MAC 3474	Honors Calculus 3	
MAP 2302	Elementary Differential Equations	3
Required Major Coursework		
Mathematics BA Core Courses		
MHF 3202	Reasoning and Proof in Mathematics	3
MAS 4105	Linear Algebra 1	4
MAS 4301	Abstract Algebra 1	3
Select one sequence:		6
MAA 4102 & MAA 4103	Introduction to Real Analysis 1 and Introduction to Real Analysis 2 [1]	
MAA 4102 & MAA 4402	Introduction to Real Analysis 1 and Functions of a Complex Variable [1]	
MAA 4211 & MAA 4103	Real Analysis and Advanced Calculus 1 and Introduction to Real Analysis 2 [2]	
MAA 4211 & MAA 4212	Real Analysis and Advanced Calculus 1 and Real Analysis and Advanced Calculus 2 [2]	
MAA 4211 & MAA 4402	Real Analysis and Advanced Calculus 1 and Functions of a Complex Variable [2]	
Mathematics BA Major Electives		
Select four electives, 12 credits minimum, from the approved electives; at least one must be a course offered by the Department of Mathematics at the 4000 level or above		12
Total Credits		**39**

1. If this option is selected, MAA 4402 or MAA 5404 cannot be used to satisfy the mathematics elective requirement.
2. Students must earn a minimum grade of B in MAS 4105 before taking MAA 4211.

Recommended Coursework

All math majors are encouraged to meet the college distribution requirement in the physical sciences with the sequence PHY 2048/PHY 2049 or the sequence PHY 2060/PHY 2061. Math majors should also take no mathematics course at the 3000 level or below that is not on the lists of core courses or approved electives, except with advisor approval. Students who want to pursue careers in applied mathematics are urged to take STA 4321/STA 4322 and learn a scientific programming language.

BA students can use their electives choices creatively. By choosing courses in statistics, data science, computer science, physics, electrical and computer engineering, and industrial engineering from the list of approved electives, Mathematics BA majors can enhance their career prospects in applied math, data analysis, information technology, and operations research.

Math majors who plan to teach secondary-school mathematics should investigate the UFTeach program (http://education.ufl.edu/uf-teach/) and they should include MTG 3212, MAA 4402 and STA 4321 among their electives.

Relevant Minors and Certificates

Mathematics majors are encouraged to consider taking a minor in computer science, industrial and systems engineering, physics, or statistics. The Department of Statistics offers a minor in actuarial science. In addition, the UFTeach program offers a minor in mathematics teaching.
More Info (https://stat.ufl.edu/academics/undergraduate/minor-in-actuarial-science/)

UFTeach Program

There is a severe shortage of qualified high school mathematics teachers in Florida and nationwide. Students interested in entering this high-demand profession should see a departmental advisor about the UFTeach program. Mathematics majors in this program complete the requirements for the UFTeach minor in mathematics, as well as those for the BA or BS in mathematics. These students graduate with all the coursework and preparation the State of Florida requires for professional certification as a high school mathematics teacher.

Combination Degree Programs

Mathematics majors who complete the requirements for major by the end of the junior year are eligible for the combination-degree program. Students in this program take the graduate sequences MAA 5228 (https://catalog.ufl.edu/search/?P=MAA%205228) and MAA 5229 (https://catalog.ufl.edu/search/?P=MAA%205229) and MAS 5311 (https://catalog.ufl.edu/search/?P=MAS%205311) and MAS 5312 (https://catalog.ufl.edu/search/?P=MAS%205312) in their senior year. These 12 credits, which apply toward the undergraduate degree, will then also apply toward a master's degree in mathematics if the student is admitted to the graduate program. The student should successfully complete this degree with one full-time year of graduate school following receipt of a bachelor's degree.
More Info (https://math.ufl.edu/mathematics-major/combined-degree/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete MAC 2312
- 2.0 UF GPA required

Semester 3

- Complete MAC 2313
- 2.0 UF GPA required

Semester 4

- Complete MHF 3202 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete MAS 4105 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete at least 1 3000/4000 mathematics elective
- 2.0 UF GPA required

Semester 7

- Complete MAA 4102 or MAA 4211
- Complete at least 2 3000/4000 mathematics electives
- 2.0 UF GPA required

Semester 8

- Complete all remaining mathematics major requirements
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The major in Mathematics enables students to develop proficiency in calculus, differential equations, advanced calculus, linear algebra and abstract algebra, and expose them to several other mathematical areas beyond these core fields. Students will learn to read and to construct mathematical proofs, to reason in abstract mathematical systems, and to use mathematical models. Students will also acquire the ability to read new mathematics and to formulate mathematical models and arguments.

Before Graduating Students Must

- Be evaluated on their responses to certain examination questions in upper-division courses that are required for their degree.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Bachelor of Arts: Explain conceptual and computational competency in core mathematics: calculus, differential equations, real analysis, linear algebra and abstract algebra.
   Bachelor of Science: Explain conceptual and computational competency in core mathematics: calculus, differential equations, advanced calculus, linear algebra and abstract algebra.

Critical Thinking

2. Identify correct mathematical arguments in abstract mathematical systems.
3. Develop and analyze mathematical models of scientific problems.

Communication

4. Develop and write correct mathematical arguments.

Bachelor of Science

Studying Mathematics develops such skills as critical thinking, oral and written communication, arguing logically and rigorously, thinking abstractly, formulating and solving problems, analyzing data, analyzing mathematical models, quantitative and computer proficiency, and the ability to work in groups. Employers value these skills; consequently, Mathematics majors find themselves in demand by employers for careers in a wide spectrum of fields.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1541) | Bachelor of Science (p. 1547)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

Curriculum

- Combination Degrees
- Mathematics
- Mathematics Minor

The Bachelor of Science | BS is intended for students who wish to pursue graduate study in mathematics as well as for other strong students with a deep interest in mathematics.

Requirements for the Major

Students are required to take eight core courses, providing a broad base in mathematics, and four electives chosen from a list of approved courses.

A minimum of 39 credits of mathematics and mathematics-approved electives is required for each degree. All coursework for the major must be completed with minimum grades of C.

The mathematics major is expected to take the following upper-division core courses at UF: Linear Algebra, Abstract Algebra, Real Analysis and Advanced Calculus 1 (or Introduction to Real Analysis 1), and Real Analysis and Advanced Calculus 2 (or Introduction to Real Analysis 2). The sequence MAA 4211 (https://catalog.ufl.edu/search/?P=MAA%204211) and MAA 4212 (https://catalog.ufl.edu/search/?P=MAA%204212) is strongly recommended for students who wish to pursue graduate study in mathematics or a closely related discipline.

These courses are common to all math majors and most clearly define the experience of the mathematics major at UF.

Code	Title	Credits
Required Foundation Coursework		
MAC 2312	Analytic Geometry and Calculus 2	4
or MAC 3473	Honors Calculus 2	

MAC 2313	Analytic Geometry and Calculus 3	4
or MAC 3474	Honors Calculus 3	
MAP 2302	Elementary Differential Equations	3
Required Major Coursework		
Mathematics BS Core Courses		
MHF 3202	Reasoning and Proof in Mathematics	3
MAS 4105	Linear Algebra 1	4
MAS 4301	Abstract Algebra 1	3
Select one sequence:		6
MAA 4102 & MAA 4103	Introduction to Real Analysis 1 and Introduction to Real Analysis 2	
MAA 4102 & MAA 4402	Introduction to Real Analysis 1 and Functions of a Complex Variable [1]	
MAA 4211 & MAA 4103	Real Analysis and Advanced Calculus 1 and Introduction to Real Analysis 2 [2]	
MAA 4211 & MAA 4212	Real Analysis and Advanced Calculus 1 and Real Analysis and Advanced Calculus 2 [2]	
MAA 4211 & MAA 4402	Real Analysis and Advanced Calculus 1 and Functions of a Complex Variable [1, 2]	
Mathematics BS Major Electives		
Select four electives, 12 credits minimum, from the approved electives; at least three must be a course offered by the Department of Mathematics at the 4000 level or above		12
Total Credits		**39**

1 If this option is selected, MAA 4402 or MAA 5404 cannot be used to satisfy the mathematics elective requirement.
2 Students must earn a minimum grade of B in MAS 4105 before taking MAA 4211.

Recommended Coursework

All math majors are encouraged to meet the college distribution requirement in the physical sciences with the sequence PHY 2048/PHY 2049 or the sequence PHY 2060/PHY 2061. Math majors should also take no mathematics course at the 3000 level or below that is not on the lists of core courses or approved electives, except with advisor approval. Students who want to pursue careers in applied mathematics are urged to take STA 4321/STA 4322 and learn a scientific programming language.

Students who want to pursue graduate study in a PhD program in mathematics should complete MAS 4301 and MAA 4211/MAA 4212 by the end of their junior year. They should include MAS 5311 and MAA 4226 among their electives, and they are encouraged to take more than four electives.

Graduate tuition fees will apply for MAS 5311.

Relevant Minors and Certificates

Mathematics majors are encouraged to consider taking a minor in computer science, industrial and systems engineering, physics, or statistics. The Department of Statistics offers a minor in actuarial science. In addition, the UFTeach program offers a minor in mathematics teaching.
More Info (https://stat.ufl.edu/academics/undergraduate/minor-in-actuarial-science/)

UFTeach Program

There is a severe shortage of qualified high school mathematics teachers in Florida and nationwide. Students interested in entering this high-demand profession should see a departmental advisor about the UFTeach program. Mathematics majors in this program complete the requirements for the UFTeach minor in mathematics, as well as those for the BA or BS in mathematics. These students graduate with all the coursework and preparation the State of Florida requires for professional certification as a high school mathematics teacher.
More Info (http://education.ufl.edu/uf-teach/)

Research

Research and scholarly opportunities are described on the mathematics website under Opportunities for Undergraduates.
More Info (http://www.math.ufl.edu/mathematics-major/opportunities-for-undergraduates/)

Combination Degree Programs

Mathematics majors who complete the requirements for major by the end of the junior year are eligible for the combination-degree program. Students in this program take the graduate sequences MAA 5228 (https://catalog.ufl.edu/search/?P=MAA%205228) and MAA 5229 (https://catalog.ufl.edu/search/?P=MAA%205229) and MAS 5311 (https://catalog.ufl.edu/search/?P=MAS%205311) and MAS 5312 (https://catalog.ufl.edu/search/?P=MAS%205312) in their senior year. These 12 credits, which apply toward the undergraduate degree, will then also apply toward a master's degree in mathematics if the student is admitted to the graduate program. The student should successfully complete this degree with one full-time year of graduate school following receipt of a bachelor's degree.

More Info (https://math.ufl.edu/mathematics-major/combined-degree/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete MAC 2312
- 2.0 UF GPA required

Semester 3

- Complete MAC 2313
- 2.0 UF GPA required

Semester 4

- Complete MHF 3202 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete MAS 4105 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete at least 1 3000/4000 mathematics elective
- 2.0 UF GPA required

Semester 7

- Complete MAA 4211 or MAA 4102 or MAA 4226
- Complete at least 2 3000/4000 mathematics electives
- 2.0 UF GPA required

Semester 8

- Complete all remaining mathematics major requirements
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Academic Learning Compact

The major in Mathematics enables students to develop proficiency in calculus, differential equations, advanced calculus, linear algebra and abstract algebra, and expose them to several other mathematical areas beyond these core fields. Students will learn to read and to construct mathematical proofs, to reason in abstract mathematical systems, and to use mathematical models. Students will also acquire the ability to read new mathematics and to formulate mathematical models and arguments.

Before Graduating Students Must

- Be evaluated on their responses to certain examination questions in upper-division courses that are required for their degree.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Bachelor of Arts: Explain conceptual and computational competency in core mathematics: calculus, differential equations, real analysis, linear algebra and abstract algebra.
   Bachelor of Science: Explain conceptual and computational competency in core mathematics: calculus, differential equations, advanced calculus, linear algebra and abstract algebra.

Critical Thinking

2. Identify correct mathematical arguments in abstract mathematical systems.
3. Develop and analyze mathematical models of scientific problems.

Communication

4. Develop and write correct mathematical arguments.

Mathematics Minor

The Mathematics minor complements and enhances a wide variety of undergraduate majors by providing students with significant mathematical skills and a perspective on the discipline. Students take foundational courses in calculus, differential equations, and linear algebra. For the remaining requirements, students select courses from a wide array of mathematics electives that can complement any major or field of interest.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 23-24 | Completed with minimum grades of C

Department Information

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

Curriculum

- Combination Degrees
- Mathematics
- Mathematics Minor

Open to students not majoring in mathematics.

The linear algebra course and three 4000-level electives must be taken from the UF Department of Mathematics; no substitutions from other institutions or departments are allowed.

A prerequisite for admission to the minor is prior completion of one of these 4000-level courses with a minimum grade of C+.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
Calculus 2		
MAC 2312	Analytic Geometry and Calculus 2	4
or MAC 3473	Honors Calculus 2	
Calculus 3		
MAC 2313	Analytic Geometry and Calculus 3	4
or MAC 3474	Honors Calculus 3	
Differential Equations		
MAP 2302	Elementary Differential Equations	3
Linear Algebra		
MAS 4105	Linear Algebra 1	3-4
or MAS 3114	Computational Linear Algebra	
Electives		
MAA, MAD, MAP, MAS, MHF, or MTG courses (4000 level or above) [1]		9
Total Credits		**23-24**

[1] Three courses at the 4000 level or above, excluding MAS 4105; all three courses must be taken at UF.

Medical Anthropology Certificate

The Medical Anthropology certificate provides an intensive foundation in medical anthropology for undergraduate anthropology and non-anthropology majors. Courses emphasize the role that biology, culture, language, and prehistory play in human health, and the experience of healing across cultures.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 12 | Completed with a 3.0 GPA average in all attempted courses
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural, archaeological, biological and linguistic anthropology.

Medical Geography Certificate

The world faces a pressing need for geographic theories, methods, and techniques to address global health issues. The Medical Geography certificate provides training in spatial disease ecology, global health, and essential geostatistical approaches to public health. Hands-on experiences of geospatial analysis are emphasized through lab-based applications.

Open to all UF undergraduate students of sophomore standing or higher.

Required Courses

Code	Title	Credits
GEO 3452	Introduction to Medical Geography	3
GEO 3454	Peoples and Plagues	3
Select one techniques course:		3-4
GEO 3162C	Introduction to Quantitative Analysis for Geographers	

GIS 3043	Foundations of Geographic Information Systems	
GIS 3420C	GIS Models for Public Health	
Select one advanced course:		3
GEO 4306C	Geography of Vector-borne Diseases	
GEO 4612	Shelter and Care Options for US Elderly	
GIS 4113	Introduction to Spatial Networks	
GIS 4424C	Applications in GIS for Zoonoses and Disease Ecology	
Total Credits		**12-13**

Medical Geography in Global Health Minor

The world faces a pressing need for geographic theories, methods, and techniques to address global health issues. The Medical Geography in Global Health minor provides training in spatial disease ecology, global health, and essential geostatistical approaches to public health. Hands-on experiences of geospatial analysis are emphasized through lab-based applications.

Medieval and Early Modern Studies Minor

The Medieval and Early Modern Studies minor focuses on medieval and early modern European culture and its influences on the modern world. Students acquire historical perspectives that contribute to current discussions about ethnicity and nationality, colonialism, technologies and their effects, gender and sexuality, and the characteristics of historical and fictional narratives.

About this Program

Requirements

Of the required credits, at least six credits must be at the 3000 level and at least three credits must be at the 4000 level. An additional 3-credit requirement is completion of a 2000-level foreign language course.
Courses (http://mems.center.ufl.edu/mems-courses/)

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Meteorology

Meteorology is the study of the physics, chemistry, and dynamics of the earth's atmosphere and its interaction with the land surface and oceans. It is the underlying science of weather, climate, weather forecasting, climate projection, and their applications to decision-making activities. Fundamental topics include the composition, structure, and forces that govern the motion of the atmosphere.

About this Program

A major in Meteorology enables students to know the composition, structure, and motion of the Earth's atmosphere as governed by laws of physics, energy, and chemistry, and to understand its relationship with Earth and human systems. Students will learn how observations, data collection, and prediction are applied in the subfields of meteorology. Computer-based lab assignments teach students how to analyze meteorological information using diagnostic, prognostic, and technological tools and to apply data to solve problems. They will be able to interpret and effectively communicate information using maps, graphs, and/or statistics.

The specializations prepare students for a range of careers. Meteorologists continue to engage in creating weather forecasts and climate projections, communicating those forecasts and projections, and conducting research. Increasingly, a number of private sector industries are looking to meteorologists to improve or create new products and services.

Specializations

BS Meteorology | Applied Meteorology, Hazards, and Global Change

This specialization prepares students to pursue careers in the private or nonprofit sectors, applying meteorological knowledge to a range of fields including agriculture, business, climate change consulting, commodities, economics, energy, engineering, entrepreneurship, forensic meteorology, insurance, policy, shipping, etc. Given the wide range of sectors, this specialization is very flexible to provide room for students to take a number of classes in their field of interest in preparation for their career. Note this specialization does not satisfy National Weather Service GS1340 job requirements.

BS Meteorology | General Atmospheric Science

This specialization prepares students to pursue a wide range of careers from public or private sector forecasting to conducting research. This specialization is the most appropriate for students intending to pursue advanced degrees.

BS Meteorology | Broadcast Meteorology

This specialization prepares students to use meteorological tools involved in forecasting and to communicate that forecast in a broadcast setting. It combines the fundamental meteorology courses with a number of courses from the College of Journalism and Mass Communication.

Requirements for the Major

The Meteorology major has three different specializations: BS | Meteorology, Applied Meteorology, Hazards, and Global Change; BS Meteorology | General Atmospheric Sciences; and BS | Meteorology, Broadcast Meteorology.

Students in all specializations must complete the following Meteorology Core courses:

Meteorology Core Courses

Code	Title	Credits
GEO 3250	Climatology	3
MET 1010	Introduction to Weather and Climate	3

MET 3503	Weather and Forecasting	3
MET 4230	Thermodynamics of the Atmosphere	3
MET 4500C	Synoptic Meteorology	4
MET 4410	Radar and Satellite Meteorology	3
MET 4524	Weather Briefing	1
MET 4950	Capstone in Meteorology	1
Total Credits		**21**

Requirements FOR THE MAJOR

The major requires 36-38 credits of coursework in the major plus 19 credits of related coursework. All coursework for the major must be completed with minimum grades of C.

Students should consult the Department of Geography's undergraduate coordinator for information and guidance on curriculum planning upper division courses outside the major.

Meteorology Core Courses

Code	Title	Credits
GEO 3250	Climatology	3
MET 1010	Introduction to Weather and Climate	3
MET 3503	Weather and Forecasting	3
MET 4230	Thermodynamics of the Atmosphere	3
MET 4410	Radar and Satellite Meteorology	3
MET 4500C	Synoptic Meteorology	4
MET 4524	Weather Briefing	1
MET 4950	Capstone in Meteorology	1
Total Credits		**21**

Meteorology Major Electives

The BS | Meteorology, Applied Meteorology, Hazards, and Global Change specialization requires 36-38 credits of coursework in the major plus 19 credits of related coursework. Students should consult the Department of Geography's undergraduate coordinator for information and guidance on curriculum planning upper division courses outside the major.

In addition to the 21 credit hours of required Core Meteorology courses:

Code	Title	Credits
Select one Atmospheric Science Elective course:		3
MET 4532	Hurricanes	
MET 4560	Atmospheric Teleconnections	
MET 4750	Spatial Analysis of Atmospheric Data using GIS	
Select two Societal Applications courses:		6-7
AEB 2451	Economics of Resource Use	
AOM 2520	Global Sustainable Energy: Past, Present and Future	
ECO 2310	Economics of Sustainability	
GEO 2006	Natural Hazards Geography	
GEO 3222	Sea Level Science	
GEO 3280	Principles of Geographic Hydrology	
GEO 3334	Managing for a Changing Climate	
GEO 3341	Extreme Floods	
GEO 3343	Extreme Droughts	
GEO 4034	Weather, Climate, and Society	
GEO 4170	Communicating Science in the Geosciences	
GEO 4285	Water, Risk, and Extreme Events	
GEO 4033	Climate Change and Health	
GLY 3074	Oceans and Global Climate Change	
JOU 4304	Science Journalism	
SWS 4180	Earth System Analysis	
Select two Programming courses:		6-7
AST 2730	Introduction to Python for Physical Sciences	
COP 3275	Computer Programming Using C	

GIS 3043	Foundations of Geographic Information Systems
GIS 4102C	GIS Programming
GIS 4124	Geocomputation using R Programming
GIS 4324	GIS Analysis of Hazard Vulnerability
MET 3753	Pragmatic Python for Weather
STA 3100	Programming With Data in R
Total Credits	**15-17**

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete one Meteorology Core course and one MAC course.
- 2.0 UF GPA required

Semester 4

- 2.5 critical-tracking GPA required
- Complete one additional Meteorology Core course and CHM 2045/CHM 2045L and PHY 2048/PHY 2048L.
- 2.0 UF GPA required

Semester 5

- Complete one additional Meteorology Core course.
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 6

- 2.0 UF GPA required

Semester 7

- 2.0 UF GPA required

Semester 8

- Complete all remaining Meteorology Core courses.
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

MAC 2312 and up to 3 hours of Approved Meteorology electives at the 3000-level or higher - with prefixes other than MET, GEO, or GIS courses - may also count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed on the Critical Tracking tab.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
MET 1010	Introduction to Weather and Climate (**Critical Tracking**; Gen Ed Physical Sciences)	3

General Atmospheric Sciences

Meteorology is the study of the physics, chemistry, and dynamics of the earth's atmosphere and its interaction with the land surface and oceans. It is the underlying science of weather, climate, weather forecasting, climate projection, and their applications to decision-making activities. Fundamental topics include the composition, structure, and forces that govern the motion of the atmosphere.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Science
- **Specializations:** Applied Meteorology, Hazards, and Global Change (p. 1559) | Broadcast Meteorology (p. 1563) | General Atmospheric Science (p. 1567)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, BA and BS undergraduate degrees, MA, M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Website (https://geog.ufl.edu/)

- Geography Minor
- Geography Minor UF Online
- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate
- Medical Geography in Global Health Minor
- Meteorology and Climatology Certificate
- Meteorology Minor

A major in Meteorology enables students to know the composition, structure, and motion of the Earth's atmosphere as governed by laws of physics, energy, and chemistry, and to understand its relationship with Earth and human systems. Students will learn how observations, data collection, and prediction are applied in the subfields of meteorology. Computer-based lab assignments teach students how to analyze meteorological information using diagnostic, prognostic, and technological tools and to apply data to solve problems. They will be able to interpret and effectively communicate information using maps, graphs, and/or statistics.

The specializations prepare students for a range of careers. Meteorologists continue to engage in creating weather forecasts and climate projections, communicating those forecasts and projections, and conducting research. Increasingly, a number of private sector industries are looking to meteorologists to improve or create new products and services.

BS Meteorology | General Atmospheric Science

This specialization prepares students to pursue a wide range of careers from public or private sector forecasting to conducting research. This specialization is the most appropriate for students intending to pursue advanced degrees.

Requirements FOR THE MAJOR

The major requires 46-48 credits of coursework in the major plus 30 credits of related coursework. All coursework for the major must be completed with minimum grades of C.

Students should consult the Department of Geography's undergraduate coordinator for information and guidance on curriculum planning upper division courses outside the major.

Meteorology Core Courses

Code	Title	Credits
GEO 3250	Climatology	3
MET 1010	Introduction to Weather and Climate	3
MET 3503	Weather and Forecasting	3
MET 4230	Thermodynamics of the Atmosphere	3
MET 4500C	Synoptic Meteorology	4
MET 4410	Radar and Satellite Meteorology	3
MET 4524	Weather Briefing	1
MET 4950	Capstone in Meteorology	1
Total Credits		**21**

Meteorology General Atmospheric Science Major Courses

Code	Title	Credits
Complete all Meteorology Theory courses:		10

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete one Meteorology Core course and one MAC course.
- 2.0 UF GPA required

Semester 4

- 2.5 critical-tracking GPA required
- Complete one additional Meteorology Core course and CHM 2045/CHM 2045L and PHY 2048/PHY 2048L.
- 2.0 UF GPA required

Semester 5

- Complete one additional Meteorology Core course.
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 6

- 2.0 UF GPA required

Semester 7

- 2.0 UF GPA required

Semester 8

- Complete all remaining Meteorology Core courses.
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

MAC 2312, MAC 2313, MAP 2302, PHY 2049 & lab, and up to 3 hours of Approved Meteorology electives at the 3000-level or higher - with prefixes other than MET, GEO, or GIS courses - may also count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed on the Critical Tracking tab.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Meteorology and Climatology Certificate

The Meteorology and Climatology certificate provides a working knowledge of atmospheric processes across spatial and temporal scales. This certificate is applicable to many disciplines in the physical sciences and enables students to supplement their majors with an understanding and awareness of the societal impacts of natural hazards and climate change.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 12 | Completed with minimum grades of B- in each course
- More Info (http://geog.ufl.edu/programs/certificates/undergrad-cert/)
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, BA and BS undergraduate degrees, MA, M.S., and PhD degrees, as well as the largest Medical Geography program in the United States. **Website (https://geog.ufl.edu/)**

Curriculum

- Combination Degrees
- GeoAI and Geographic Analysis Minor
- Geographic Artificial Intelligence and Big Data Certificate
- Geography
- Geography Minor
- Geography Minor UF Online
- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate
- Medical Geography in Global Health Minor
- Meteorology and Climatology Certificate
- Meteorology Minor

The program is open to all undergraduate students.

Students take one introductory course, one or two intermediate courses, and one or two advanced courses for a minimum of 12 credits.

Required Courses

Code	Title	Credits
Introductory Course		
GEO 2242	Extreme Weather	3
or MET 1010	Introduction to Weather and Climate	
Intermediate Courses		
Select one:		3
GEO 3250	Climatology	
MET 3503	Weather and Forecasting	
Advanced Courses		
Select one:		3
MET 4532	Hurricanes	

MET 4560	Atmospheric Teleconnections	
MET 4750	Spatial Analysis of Atmospheric Data using GIS	
Elective		
Select one:		3
GEO 2006	Natural Hazards Geography	
GEO 3250	Climatology	
GEO 3280	Principles of Geographic Hydrology	
GEO 3334	Managing for a Changing Climate	
GEO 3341	Extreme Floods	
GIS 4324	GIS Analysis of Hazard Vulnerability	
GLY 3074	Oceans and Global Climate Change	
MET 3503	Weather and Forecasting	
MET 4532	Hurricanes	
MET 4560	Atmospheric Teleconnections	
MET 4750	Spatial Analysis of Atmospheric Data using GIS	
Total Credits		**12**

Non-native transfer credit may be approved by department for the introductory level, 3 credit requirement. Only UF or SUS-offered intermediate or elective courses can satisfy those requirements. The course that satisfies the advanced course requirement must be taken at UF.

Meteorology Minor

The Meteorology minor offers courses in foundational areas of meteorology, climatology, and relevant data analysis techniques. With weather and climate impacting an ever-increasing number of industries and careers, the minor complements a wide variety of undergraduate majors.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15-16 | Completed with minimum grades of C

Department Information

Microbiology and Cell Science | CLAS

The Bachelor of Science in Microbiology and Cell Science offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology, and the biomolecular sciences. Emphasizes application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students learn to evaluate hypotheses, to interpret experimental data, and to communicate results effectively.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Microbiology & Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical, dental, pharmacy, veterinary programs, graduate school, or public health degrees. BS degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the MS and PhD degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

- Microbiology and Cell Science | CLAS

- Pathogenesis Minor
- Pathogenesis Minor UF Online

This major prepares students for entry into professional programs in medicine, dentistry, and veterinary medicine and provides a strong foundation for graduate studies in microbiology, cell biology, and related cellular and biomedical sciences. The major also provides a background for entry into government, industrial research, and diagnostic laboratories.

The curriculum develops fundamental knowledge of prokaryotic and eukaryotic cells and viruses. Courses include the physiology and genetics of microorganisms, mechanisms of pathogenesis and innate immunity systems, astrobiology, bacterial and genome sequencing and bioinformatics.

requirements for the Major

All majors must complete 28 credits: 18 credits of core requirements, at least 6 credits of department electives, at least 1 credit in an advanced laboratory, and 3 credits for the quantitative requirement. In addition, students must complete 35-38 credits of required foundation coursework.

Minimum grades of C within two attempts, including withdrawals, are required in all critical-tracking courses, major courses, department core requirements, department electives, and the quantitative requirement. Second attempts must be completed the next semester of enrollment. A cumulative 2.0 GPA is also required.

Required Foundation Coursework

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2	
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry Laboratory	
CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory	
MAC 2311	Analytic Geometry and Calculus 1	4
CHM 2210	Organic Chemistry 1	3
CHM 2211	Organic Chemistry 2	5
& 2211L	and Organic Chemistry Laboratory	
Select one:		8-10
Option One		
PHY 2053	Physics 1	
& 2053L	and Laboratory for PHY 2053	
PHY 2054	Physics 2	
& 2054L	and Laboratory for PHY 2054	
Option Two		
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for PHY 2048	
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for PHY 2049	
Total Credits		**36-38**

All majors must complete the biology and general chemistry sequences and calculus by the end of the sophomore year. Organic Chemistry, CHM 2210, must be completed by the end of tracking term five. To continue in the major, students must attain a cumulative GPA in these graded courses of no less than 2.5 and with no grade lower than a C.

Required Major Coursework

Code	Title	Credits
BCH 4024	Introduction to Biochemistry and Molecular Biology [1]	4
or CHM 3218	Organic Chemistry/Biochemistry 2	
MCB 3023	Principles of Microbiology	5
& 3023L	and Principles of Microbiology Laboratory	
MCB 4203	Bacterial Pathogens [1]	3
or PCB 4233	Immunology	
MCB 4304	Genetics of Microorganisms [1]	3
or PCB 4522	Molecular Genetics	
MCB 4403	Prokaryotic Cell Structure and Function [1]	3
or PCB 3134	Eukaryotic Cell Structure and Function	
Microbiology Major Department Electives		6

Advanced Laboratory course		1
Quantitative Requirement – Programming or Biostatistics		3
Select one:		
BSC 2891	Python Programming for Biology	
MCB 4325C	R for Functional Genomics	
Similar Programming or Biostatistics course (approved by department)		
Total Credits		**28**

[1] If students take both "or" courses, one will count as a core course and the other will roll over into the department elective requirement.

Major Electives

A total of 6 credits of approved department electives, and additionally one credit in an advanced lab, are required. The list of approved department electives is available on the department website (https://microcell.ufl.edu/academics--teaching/undergraduate-program/).

Programming or Biostatistics Courses

A total of 3 credits of approved courses meets this requirement. Select from BSC 2891, MCB 4325C, or an equivalent biostatistics programming class. Several of these courses are also department electives and cannot be used to fulfill both the quantitative and the department elective requirements. No overlap is allowed. STA 2023 will not fulfill this requirement.

Course Details

MCB 4911 may be taken for a maximum of three credits per semester and six credits total. This policy also applies to microbiology and cell science majors registered for undergraduate research in other departments' undergraduate research courses, such as BCH 4905, BMS 4905, ZOO 4911, etc.

MCB 4934 is often used for TA positions as “Supervised Teaching.” TA positions may be repeated for a total of two semesters.

Enrollment in MCB 4911, MCB 4905 and MCB 4934 (Supervised Teaching) will not fulfill any credits toward the microbiology major requirements; they will count only as general elective credit toward the 120 credits for the BS degree.

Relevant Minors and Certificates

The Microbiology and Cell Science Department also offers an undergraduate minor in bioinformatics to students majoring in any biology-related subject, including and not limited to microbiology, biology, or biochemistry.

So integrated is bioinformatics with biology that it is difficult to find an active research program that does not rely on bioinformatic analysis to achieve results. Unfortunately, the integration of bioinformatic and traditional methods is not stressed in many undergraduate programs, leaving the next generation of biologists without the skills they need to succeed in tomorrow’s research environment. The undergraduate minor in bioinformatics provides this critical training to future professionals in the biological disciplines.

Research

A majority of majors are actively involved in undergraduate research for credit with mentors throughout the university. Preprofessional and graduate school-bound majors are encouraged to do a minimum of two semesters of undergraduate research. The department has a comprehensive list of mentors across campus who allow undergraduate students to do valuable research under their guidance. Please refer to the department website for more information on undergraduate research, finding a mentor and a contact list of UF faculty who have worked with microbiology and cell science majors.

Enrollment in MCB 4911 will not fulfill any credits toward the microbiology major requirements; they will count only as general elective credit toward the 120 credits for the BS degree.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045/CHM 2045L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete MCB 3023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 7

- Complete MCB 4203 (Fall) or PCB 4233 (Spring) or PCB 3134 (Fall/Spring) or MCB 4403 (Fall)
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 8

- Complete MCB 4034L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

Microbiology electives outside of the department may not count towards the 3000 level or above electives outside of the major requirement. CHM 2211, CHM 2211L, BCH 4024, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Degree Comparison between the Colleges

CALS	MCB	CLAS	MCY
Effective Oral Communication (AEC 3030C or SPC 2608)		College-level Foreign Language Sequence (8-10 credits)	
Technical Writing (ENC 2210 or ENC 3254 or AEC 3033C)		1 additional Humanities course	
Economics (ECO 2013 or ECO 2023 or AEB 2014)		1 additional Social and Behavioral Sciences course	

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences) [1]	4
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Composition; Writing Requirement		3
	Credits	**14**
Semester Two		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)	4
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	4
BSC 2891	Python Programming for Biology (or similar quantitative elective)	3
Gen Ed Composition; Writing Requirement		3
	Credits	**14**
Semester Three		
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences)	4
CHM 2210	Organic Chemistry 1 (**Critical Tracking**)	3
Departmental elective		3
Quest 2		3
CLAS Foreign Language Proficiency Requirement [1]		4-5
	Credits	**17-18**
Semester Four		
CHM 2211 & 2211L	Organic Chemistry 2 and Organic Chemistry Laboratory	5
MCB 3023 & 3023L	Principles of Microbiology and Principles of Microbiology Laboratory (**Critical Tracking**)	5
State Core Gen Ed Humanities (p. 80)		3
CLAS Foreign Language Proficiency Requirement [1]		3-5
	Credits	**16-18**
Semester Five		
A 2.5 GPA with minimum grades of C in the Critical Tracking science and math courses listed above is required to continue in the major after Semester Four.		
MCB 4203 or PCB 4233	Bacterial Pathogens (**Critical Tracking**) [2] or Immunology	3
MCB 4403 or PCB 3134	Prokaryotic Cell Structure and Function (**Critical Tracking**) or Eukaryotic Cell Structure and Function	3
Gen Ed Humanities		3
Electives (3000 level or higher; not in major)		3
Elective (or CLAS Foreign Language Proficiency Requirement if 4-3-3 language option) [1]		3
	Credits	**15**
Semester Six		
MCB 4304 or PCB 4522	Genetics of Microorganisms (**Critical Tracking**) or Molecular Genetics	3

BCH 4024 or CHM 3218	Introduction to Biochemistry and Molecular Biology or Organic Chemistry/Biochemistry 2	4
MCB 4034L	Advanced Microbiology Laboratory (**Critical Tracking**)	1
Gen Ed Mathematics		3
Ged Ed Social and Behavioral Sciences		3
	Credits	**14**
Semester Seven		
Select one:		4-5
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for PHY 2048	
PHY 2053 & 2053L	Physics 1 and Laboratory for PHY 2053	
State Core Gen Ed Social and Behavioral Sciences (p. 80)		3
Gen Ed Humanities		3
Electives (3000 level or higher; not in major)		4
	Credits	**14-15**
Semester Eight		
Select one:		4-5
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for PHY 2049	
PHY 2054 & 2054L	Physics 2 and Laboratory for PHY 2054	
Department elective		3
Gen Ed Social and Behavioral Sciences		3
Electives		6
	Credits	**16-17**
	Total Credits	**120**

1 https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext

2 MCB 4203 is taught in Fall and Spring. PCB 4233 is taught only in Spring.

Academic Learning Compact

The Bachelor of Science in Microbiology and Cell science, offered by both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences, offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology and the biomolecular sciences. Emphasis will be placed on application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students will learn to evaluate hypotheses, to interpret experimental data and to communicate results effectively.

Before Graduating Students Must

Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe fundamental concepts, skills and processes in microbiology, molecular biology and in host/pathogen interactions.
2. Apply fundamental concepts, skills and protocols used to conduct research in fields of microbiology, molecular biology and in host/pathogen.

Critical Thinking

3. Evaluate information and data in the general areas of microbiology and the cellular and molecular biological sciences.
4. Solve typical problems that are encountered in general areas of microbiology and cellular and molecular biological sciences.

Communication

5. Communicate effectively in written form in a manner appropriate in microbiology and the cellular and molecular biological sciences.
6. Communicate orally (including visual aids) in an effective manner appropriate in microbiology and the cellular and molecular biological sciences.

Assessment Types

- Genome and lab projects
- Presentations
- Exams
- Final grades

Philosophy

Philosophy addresses fundamental questions about the most basic assumptions often made in other disciplines, and which seem to require more reflection. Examples include: What counts as scientific knowledge? What are we morally required to do? Can machines think? Do we have free will? And so on. The goal of philosophical work is to find rigorous ways of arguing for answers to such questions; courses emphasize clear writing and thinking, effective communication, and cogent argumentation.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Philosophy addresses foundation questions. These are questions the answers to which inform our basic understanding of one or another domain of inquiry, or some fundamental aspect of the world or ourselves or our relation to the world.
Website (http://phil.ufl.edu/)

CONTACT

Email (dept@phil.ufl.edu) | 352.392.2084 (tel) | 352.392.5577 (fax)

GAINESVILLE FL 32611-8545
Map (http://campusmap.ufl.edu/#/index/0010)

Curriculum

- Combination Degrees
- Philosophy
- Philosophy Minor

Philosophical problem examination is primarily conceptual rather than empirical, in that philosophers seek to develop conceptual accounts adequate to the phenomena they want to understand. The study of philosophy equips one to address difficult issues with critical thinking and sound reasoning, skills essential to effective thought and communication.

Training in philosophy prepares one for professions that require careful analysis of data, communicating with a wide variety of stakeholders, and making persuasive cases for important decisions. Majors often go on to law school, business school, politics, and public sector jobs involving research. See the department's home page at www.phil.ufl.edu (http://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/PPY_BA/www.phil.ufl.edu) for more information on the nature of philosophical work and its benefits.

Requirements for the Major

The major requires 33 credits of coursework in philosophy with minimum grades of C. Six philosophy major courses (18 credits) must be taken at UF.

Required Major Coursework

Code	Title	Credits
Core Courses		
PHH 3100	Ancient Greek Philosophy	3
PHH 3400	Modern Philosophy	3
PHI 3130	Symbolic Logic	3
PHI 3300	Theory of Knowledge	3
or PHI 3500	Metaphysics	
PHI 3650	Moral Philosophy	3
Philosophy Major Electives [1]		
4000-level or above Philosophy courses [2]		6
3000-level or above Philosophy courses		6
2000-level or above Philosophy courses		6
Total Credits		**33**

1 No more than three credits of individual work (PHH 4911, PHI 4905, or PHI 4911 can count toward the 33 credits for the major.

2 The following courses will not count toward the six credits of 4000 level or above Philosophy courses:

Code	Title	Credits
PHH 4911	Undergraduate Research in History of Philosophy	3
PHI 4905	Individual Work	1-3
PHI 4911	Undergraduate Research in Philosophy	3
PHI 4912	Honors Project	3

- To enroll in a 4000-level course, a student must complete a 3000-level philosophy course or receive instructor permission.

Prior to advance registration each semester, the department makes available on its website customized descriptions of its undergraduate courses offered in the upcoming semester.

Course Details

- More Info (https://phil.ufl.edu/classes/)

Research

It is possible to write an honors thesis, which involves independent research under the supervision of a faculty director. This is usually a two-semester process in the final year.
More Info (https://phil.ufl.edu/honors-thesis/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used by transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 philosophy course
- 2.0 UF GPA required

Semester 3

- Meet Semester 2 Critical Tracking Requirements
- 2.0 UF GPA required

Semester 4

- Complete 1 additional philosophy course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 1 additional philosophy course (1 of the 3 courses must be at the 3000 level) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 6

- Complete 1 additional philosophy course (1 of the 4 courses must be taken from PHH 3100, PHH 3400, PHI 3130, PHI 3650, and either PHI 3300 or PHI 3500)

SEMESTER 7

- Complete 3 additional upper division philosophy courses (2 of the 7 courses must be taken from PHH 3100, PHH 3400, PHI 3130, PHI 3650, and either PHI 3300 or PHI 3500)

SEMESTER 8

- Complete 2 additional upper division philosophy courses (4 of the 9 courses must be taken from PHH 3100, PHH 3400, PHI 3130, PHI 3650, and either PHI 3300 or PHI 3500)

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
CLAS Foreign Language Proficiency Requirement [1]		4-5
Electives		4

Total Credits	**120**

1 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Required Philosophy Courses

Code	Title	Credits
PHH 3100	Ancient Greek Philosophy	3
PHH 3400	Modern Philosophy	3
PHI 3130	Symbolic Logic	3
PHI 3300	Theory of Knowledge	3
or PHI 3500	Metaphysics	
PHI 3650	Moral Philosophy	3

Academic Learning Compact

The major in Philosophy provides a thorough knowledge of philosophical problems and arguments as well as critical thinking skills applicable to a wide variety of intellectual areas. Students will become familiar with key positions in the history of Western philosophy, learn how to navigate the contemporary philosophical terrain and acquire a working knowledge of formal logic. They will learn how to represent complex arguments in a clear and fair fashion, to evaluate them for cogency and to construct arguments of their own. Finally, students will become practiced in writing about abstract and elusive topics in a critical and compelling manner.

Before Graduating Students Must

- Earn minimum grades of C in all courses satisfying the major's distribution requirements, thereby demonstrating achievement of SLOs 1-3.
- Complete a model paper in a 4000-level philosophy course with a minimum grade of B, thereby demonstrating achievement of SLOs 4-7.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe and explain the major questions addressed, the range of answers offered and the methods employed in the history of Western philosophy.
2. Identify, describe, and explain the major arguments and options in core areas of contemporary philosophy, such as ethics, epistemology, and metaphysics.
3. Employ the fundamental tools of formal logic, including the propositional and predicate calculus.

Critical Thinking

4. Discern the structure of arguments to represent them fairly and clearly and to evaluate them for cogency.
5. Formulate original arguments, anticipating objections and responding in a conscientious fashion.

Communication

6. Read and discuss complex philosophical texts from both historical sources and contemporary works.
7. Speak and write clearly and persuasively about abstract and conceptually elusive matters.

- Exams

Philosophy Minor

A philosophy minor provides a significant amount of training and practice in philosophy that complements a wide variety of other areas of study. Courses in the theory of knowledge, moral philosophy, and the philosophy of language, for example, can add useful perspectives on majors in the natural sciences, political science, and linguistics. Many students with an interest in data science and artificial intelligence benefit from the skills gained by a philosophy minor given the opportunity to take courses in philosophy of mind, logic, and epistemology.

Physics

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in Physics obtain broad-based knowledge and expertise applying these laws, as well as hands-on experience building electronic equipment and performing experiments, allowing them to pursue a wide range of educational and employment opportunities after graduation.

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

Curriculum

- Combination Degrees
- Physics
- Physics Minor

A Physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by Physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: the Bachelor of Science (BS) is intended for students who wish to pursue graduate study in Physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (BA) is intended for students who seek the benefits of a Physics degree but desire greater flexibility to follow interests in other fields.

Degrees

Bachelor of Arts

The BA degree program is for students who want to major in Physics but are not presently contemplating graduate studies in Physics. It provides a good foundation in the fundamentals while offering increased flexibility in the major, through fewer required courses and more electives, and opportunity for parallel studies in another discipline or preprofessional studies.

Bachelor of Science

The BS degree program is intended for students planning to do graduate work in physics or related science and engineering disciplines. The BS requires a minimum of 41 credits in Physics plus 28 credits of related coursework. Minimum grades of C are required for coursework counted toward the major.

SPECIALIZATIONS

In addition to the Physics BA and BS degrees, there are three optional specializations for the Physics BS degree. Each specialization consists of a specific choice of the 4000-level Physics elective plus three courses in other departments.

Medical Physics

Medical Physics applies the principles and experimental techniques of Physics to medical problems. A common example is the use of different forms of radiation in medical diagnosis and treatment. This specialization will help prepare students for a graduate program in Medical Physics.

Nanoscience

Nanoscience is the study of extremely small things – only 10 to 100 atoms wide. It is an interdisciplinary field involving physics, chemistry, and many engineering disciplines. This specialization helps prepare students for careers in industry and graduate school in engineering as well as Physics.

Optics

There are applications of optics and photonics in consumer equipment, telecommunications, medicine, construction, aviation, and many more fields. This broad field involves both physics and engineering. The Optics specialization will prepare students for graduate programs in optics as well as employment in industry.

Required Major Coursework

Coursework for the major will depend upon the degree program chosen.

Courses for the BS or BA degree include four pairs of alternative courses:

Code	Title	Credits
PHY 2048	Physics with Calculus 1	3
or PHY 2060	Enriched Physics with Calculus 1	
PHY 2049	Physics with Calculus 2	3
or PHY 2061	Enriched Physics with Calculus 2	
PHY 3101	Introduction to Modern Physics	3
or PHY 3063	Enriched Modern Physics	
PHY 3221	Mechanics 1	3
or PHZ 3113	Introduction to Theoretical Physics	

In each case, the second course includes selected advanced topics not covered in the first. While both courses prepare students for upper-level physics courses, students should see a department advisor to determine which course meets their needs.

Required coursework for each degree can be found in the Overview section for that program. Transfer students must take a minimum of 15 credits of required physics courses at UF.

Course Details

Several courses meet the criteria for the General Education Physical Sciences requirement. Some mathematical training (indicated in parentheses) is desirable or required for many of these courses. Of the courses below, only PHY 2048/PHY 2049 count toward the major.

Code	Title	Credits
MET 1010	Introduction to Weather and Climate	3
PHY 1033C	Discovering Physics	3
PHY 2020	Introduction to Principles of Physics [1]	3
Select one general physics sequence: [2]		6-8
PHY 2004	Applied Physics 1	
& PHY 2005	and Applied Physics 2	
PHY 2048	Physics with Calculus 1	
& PHY 2049	and Physics with Calculus 2	
PHY 2053	Physics 1	
& PHY 2054	and Physics 2	

1 MAC 1147 provides mathematical training desirable or required for this course.
2 Students should check the prerequisites carefully before enrolling in a general physics course.

Placement

Students with Advanced Placement credit should consult the catalog's Academic Advising section for course equivalencies. Sequences for advanced students are available from any physics advisor or the department website.

Research

All undergraduate majors are encouraged to participate in research activities. Many physics majors participate in research during the academic year and through summer research programs. Advanced students may also be eligible to enroll in certain graduate courses, thereby accelerating their education. Physics majors are urged to confer with a department advisor as early as possible and especially as their educational goals evolve.

Academic Learning Compact

The laws of Physics are the starting point for most scientific research and engineering applications. Students majoring in Physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

Before Graduating Students Must

- Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

Code	Title	Credits
PHY 2060	Enriched Physics with Calculus 1	3
or PHY 3221	Mechanics 1	
PHY 3323	Electromagnetism 1	3
PHY 3513	Thermal Physics 1	3
PHY 4604	Introductory Quantum Mechanics 1	3
PHY 4802L	Laboratory Physics 1	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, define, and describe the core fields of physics: classical mechanics, electricity and magnetism, thermal physics, and quantum mechanics.
2. Identify, define, and explain experimental physics and data analysis.

Critical Thinking

3. Formulate, solve problems, and draw conclusions from data.

Communication

4. Effectively and clearly communicate ideas in speech and in writing in an accepted style.

Bachelor of Arts

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in Physics obtain broad-based knowledge and expertise applying these laws, as well as hands-on experience building electronic equipment and performing experiments, allowing them to pursue a wide range of educational and employment opportunities after graduation.

About this Program

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

Curriculum

- Combination Degrees
- Physics
- Physics Minor

A Physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by Physics majors also lead to career opportunities in business and finance.

The BA degree program is for students who want to major in Physics but are not presently contemplating graduate studies in physics. It provides a good foundation in the fundamentals while offering increased flexibility in the major, through fewer required courses and more electives, and opportunity for parallel studies in another discipline or preprofessional studies.

Requirements for the Major

The Physics BA requires a minimum of 32 credits in Physics, plus 15 credits of foundation coursework, and 10 credits of related coursework for a total of 57 credits. Minimum grades of C are required for coursework counted toward the major.

A minimum of 15 credits of required physics courses must be taken at UF

Required Foundation Coursework

Code	Title	Credits
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAP 2302	Elementary Differential Equations	3
Total Foundation Credits		**15**

Required Major Coursework

In each case where the student must select between two courses, the second course includes selected advanced topics not covered in the first. While both courses prepare students for upper-level physics courses, students should see a department advisor to determine which course meets their needs.

Code	Title	Credits
Physics BA Major Core Courses		
PHY 2048	Physics with Calculus 1	3
or PHY 2060	Enriched Physics with Calculus 1	
PHY 2048L	Laboratory for PHY 2048	1
PHY 2049	Physics with Calculus 2	3
or PHY 2061	Enriched Physics with Calculus 2	
PHY 2049L	Laboratory for PHY 2049	1
PHY 3101	Introduction to Modern Physics	3
or PHY 3063	Enriched Modern Physics	
PHY 3221	Mechanics 1	3
or PHZ 3113	Introduction to Theoretical Physics	
PHY 3323	Electromagnetism 1	3
PHY 3513	Thermal Physics 1	3
PHY 4604	Introductory Quantum Mechanics 1	3
PHY 4802L	Laboratory Physics 1	3
or PHY 4803L	Laboratory Physics 2	
Physics BA Major Electives		
4000-level or higher physics courses that are included in the physics major curriculum [1]		6
Total Credits		**32**

MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
CHM 2045	General Chemistry 1	3
CHM 2046	General Chemistry 2	3
CHM 2045L	General Chemistry Laboratory	1
MAP 2302	Elementary Differential Equations	3
Approved math courses (minimum) [1]		3

[1] Select a course beyond MAP 2302. Certain computer science courses may substitute for the math elective.

Placement

Students with Advanced Placement credit should consult the catalog's Academic Advising section for course equivalencies. Sequences for advanced students are available from any physics advisor or the department website.

Research

All undergraduate majors are encouraged to participate in research activities. Many physics majors participate in research during the academic year and through summer research programs. Advanced students may also be eligible to enroll in certain graduate courses, thereby accelerating their education. Physics majors are urged to confer with a department advisor as early as possible and especially as their educational goals evolve.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

Semester 4

- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 5

- Complete MAP 2302 with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete the remaining required 3000-level physics courses with minimum grades of C
- 2.0 UF GPA required

Semester 7

- Complete 2 required 4000-level physics courses with minimum grades of C
- 2.0 UF GPA required

Semester 8

- Complete the remaining required 4000-level physics courses with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

MAC 2312 ,MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department's website.
More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Medical Physics

Medical Physics applies the principles and experimental techniques of physics to medical problems. A common example is the use of different forms of radiation in medical diagnosis and treatment. This specialization prepares students for a graduate program in Medical Physics.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1589) | Bachelor of Science (p. 1594)
- **Specializations:** Medical Physics (BS) (p. 1599) | Nanoscience (BS) (p. 1604) | Optics (BS) (p. 1610)
- **Credits for Degree:** 120
- **Contact:** Email (advising@phys.ufl.edu?Subject=Physics%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

Curriculum

- Combination Degrees
- Physics
- Physics Minor

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

Requirements for the Major

The Physics BS specialization in Medical Physics requires a minimum of 41 credits in Physics including a specific Physics elective, 3 specific courses outside of Physics (10 credits), 15 credits of foundation coursework, and 13 other credits of related coursework for a total of 79 credits. Minimum grades of C are required for coursework counted toward the major.

A minimum of 15 credits of required physics courses must be taken at UF.

Required Foundation Coursework

Code	Title	Credits
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAP 2302	Elementary Differential Equations	3
Total Credits		**15**

Required Major Coursework

In each case where the student must select between two courses, the second course includes selected advanced topics not covered in the first. While both courses prepare students for upper-level physics courses, students should see a department advisor to determine which course meets their needs.

Code	Title	Credits
Required Physics BS Major		
PHY 2048	Physics with Calculus 1	3
or PHY 2060	Enriched Physics with Calculus 1	
PHY 2048L	Laboratory for PHY 2048	1
PHY 2049	Physics with Calculus 2	3
or PHY 2061	Enriched Physics with Calculus 2	
PHY 2049L	Laboratory for PHY 2049	1
PHY 3101	Introduction to Modern Physics	3

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

Semester 4

- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 5

- Complete MAP 2302 with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C (upper-division tracking)
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete the remaining required 3000-level physics courses with minimum grades of C
- Complete 1 of 4 courses required for the Medical Physics specialization
- 2.0 UF GPA required

Semester 7

- Complete PHY 4802L or PHY 4803L
- Complete 2 required 4000-level physics courses with minimum grades of C in addition to PHY 4802L
- Complete 2 of 4 courses required for the Medical Physics specialization
- 2.0 UF GPA required

Semester 8

- Complete the remaining required 4000-level physics courses with minimum grades of C
- Complete 1 4000-level or higher physics elective with a minimum grade of C
- Complete all 4 courses required for the Medical Physics specialization
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

MAC 2312, MAC 2313, MAP 2302, and Approved 3000-level or higher Math Electives count towards 3000 level or above electives outside of the major.

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department's website.
More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

PHY 4802L	Laboratory Physics 1	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, define, and describe the core fields of physics: classical mechanics, electricity and magnetism, thermal physics, and quantum mechanics.
2. Identify, define, and explain experimental physics and data analysis.

Critical Thinking

3. Formulate, solve problems, and draw conclusions from data.

Communication

4. Effectively and clearly communicate ideas in speech and in writing in an accepted style.

Nanoscience

Nanoscience is the study of extremely small things – only 10 to 100 atoms wide. It is an interdisciplinary field involving physics, chemistry, and many engineering disciplines. This specialization prepares students for careers in industry and graduate school in engineering as well as Physics.

Optics

There are applications of optics and photonics in consumer equipment, telecommunications, medicine, construction, aviation, and many more fields. This broad field involves both physics and engineering. The Optics specialization prepares students for graduate programs in optics as well as employment in industry.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1589) | Bachelor of Science (p. 1594)
- **Specializations:** Medical Physics (BS) (p. 1599) | Nanoscience (BS) (p. 1604) | Optics (BS) (p. 1610)
- **Credits for Degree:** 120
- **Contact:** Email (advising@phys.ufl.edu?Subject=Physics%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

Gainesville FL 32611-8545

Curriculum

- Combination Degrees
- Physics
- Physics Minor

A Physics major provides a wide range of career options. Many students pursue further studies in Physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

Requirements for the Major

The Physics BS specialization in Optics requires a minimum of 41 credits in Physics including a specific Physics elective, 3 optics-related courses outside of Physics (9-11 credits), 15 credits of foundation coursework, and 13 other credits of related coursework for a total of 78-80 credits. Minimum grades of C are required for coursework counted toward the major.

A minimum of 15 credits of required physics courses must be taken at UF.

Required Foundation Coursework

Code	Title	Credits
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAP 2302	Elementary Differential Equations	3

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

Semester 4

- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 5

- Complete MAP 2302 with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C (upper-division tracking)
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete the remaining required 3000-level physics courses with minimum grades of C
- Complete 1 of 4 courses required for the Optics specialization
- 2.0 UF GPA required

Semester 7

- Complete PHY 4802L or PHY 4803L
- Complete 2 required 4000-level physics courses with minimum grades of C in addition to PHY 4802L
- Complete 2 of 4 courses required for the Optics specialization
- 2.0 UF GPA required

Semester 8

- Complete the remaining required 4000-level physics courses with minimum grades of C
- Complete 1 4000-level or higher physics elective with a minimum grade of C
- Complete all 4 courses required for the Optics specialization
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department's website.
More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 Minimum grade of C required.
2 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The laws of Physics are the starting point for most scientific research and engineering applications. Students majoring in Physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

Before Graduating Students Must

- Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

Code	Title	Credits
PHY 2060	Enriched Physics with Calculus 1	3
or PHY 3221	Mechanics 1	
PHY 3323	Electromagnetism 1	3
PHY 3513	Thermal Physics 1	3
PHY 4604	Introductory Quantum Mechanics 1	3
PHY 4802L	Laboratory Physics 1	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, define, and describe the core fields of physics: classical mechanics, electricity and magnetism, thermal physics, and quantum mechanics.
2. Identify, define, and explain experimental physics and data analysis.

Critical Thinking

3. Formulate, solve problems, and draw conclusions from data.

Communication

4. Effectively and clearly communicate ideas in speech and in writing in an accepted style.

Physics Minor

The Physics minor consists of the complete sequence in general physics, modern physics, and two 3000/4000-level courses in the Physics major course sequence. Students should consult a physics advisor and obtain the required approval no later than the beginning of the junior year.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 17 | Completed with minimum grades of C

Curriculum

- Combination Degrees
- Physics
- Physics Minor

All 3000/4000-level courses must be taken from the UF Department of Physics. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Students pursuing an astronomy major must complete six credits of physics coursework beyond what is required for the astronomy major before they will be approved for the physics minor.

The following cannot count toward this minor.

Code	Title	Credits
PHY 3840L	Building Scientific Equipment	2

POS 4931	Special Topics in Political Science (Race/Poverty/Voting Rights)	3
POS 4931	Special Topics in Political Science (Survey Research)	3
PUP 3323	Women in Politics	3

Students may petition the director of the political campaigning program for permission to substitute one other course for one of the courses in the electives list.

Political Science

The Political Science major prepares students for a wide range of careers in government, non-governmental organizations, politics, law, and the private sector. Students take coursework in areas as diverse as American and comparative politics, political theory, international relations, public policy, and public administration.

Curriculum

- Combination Degrees
- International Relations Certificate
- Political Campaigning Certificate
- Political Science
- Public Affairs Certificate

Political Science majors are encouraged to serve in a political internship and participate in an overseas studies program. There are also numerous opportunities for students to conduct independent research with faculty. Recent graduates serve throughout federal, state and local government, attend law and graduate school, and work in the non-profit and private sectors.

Students leave the major with an understanding of how politics and government operate, an appreciation for the values governments pursue, and the critical and analytic skills necessary for understanding the empirical and normative dimensions of the political world.

requirements for the Major

Majors must complete 30 credits of political science coursework, plus STA 2023, all with minimum grades of C. A minimum of 15 credits of political science courses (of the 30 required) must be completed at UF, per the department's residency requirement.

Required Major Coursework

Recommended Coursework

The following centers and programs are affiliated with the Department of Political Science. Many of them offer minors or certificates that complement a degree in Political Science.

The Bob Graham Center for Public Service

A community of students, scholars, and politically engaged citizens devoted to enhanced citizenship; the training of current and future public and civic leaders who can identify problems and spearhead change; and the development of policy on issues of importance to Florida, the United States, and the global community. The center offers a minor in Public Leadership, an interdisciplinary program of study that provides students with the skills and knowledge critical to serving as effective and ethical public leaders.
More Info (p. 1661)

More Info

The Bob Graham Center was established in 2006 with the goal of creating a community of students, scholars, and citizens who share a commitment to revitalizing the civic culture of Florida and the nation. Former Governor and U. S. Senator Bob Graham founded the Center as a place where students acquire the skills and knowledge to become informed citizens, with the expressed purpose of strengthening the nation's democratic institutions.

The Center for African Studies

Promotes excellence in teaching and research on Africa in all disciplines at the University of Florida. In addition to undergraduate education, the center promotes and supports graduate studies as essential for the development of a continuing community of Africanist scholars. The center has over 100 affiliated teaching and research faculty in a variety of fields, including languages, the humanities, the social sciences, agriculture, business, engineering, education, fine arts, environmental studies and conservation, journalism, and law. The center offers an African Studies minor that provides a multidisciplinary grounding in an important world area for those who want to pursue careers in a range of professions as well as for those who intend to go on to graduate school.

More Info (p. 1120)

More Info

As a National Resource Center for African Studies, the mission of the center is to promote excellence in teaching and research on Africa in all the disciplines at the University of Florida. The Center for African Studies also disseminates knowledge about Africa to the wider community through an integrated outreach program to schools, colleges, community groups, and businesses.

The Center for European Studies

Designed to assist in the development of area and language skills among students through fostering rich academic and cultural environments, including broad language and areas studies courses, degree options, and study abroad opportunities. It also fosters greater international awareness in the broader community through educational programs for state and local government, business organizations, K-12 students and teachers, the media and the general public. The center offers a

- European Union Studies certificate (p. 1321) and minor (p. 1322), which are designed to give students the opportunity to gain European Union expertise through multidisciplinary coursework.
- East-Central European Studies certificate (p. 1301) and minor (p. 1302), which give students the opportunity to study Eastern and Central Europe from an interdisciplinary perspective that incorporates both area and language studies.

More Info

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

The Center for Jewish Studies

Provides an undergraduate, interdepartmental curriculum that serves as a basis for understanding the broad spectrum of Jewish culture, religion, and civilization. The center offers both a major and minor (p. 1520) through the College of Liberal Arts and Sciences. These may serve as preparation for graduate work in Jewish studies and the rabbinate, as background for a career in Jewish education or community service, or as an area of special interest which enriches the undergraduate experience.

More Info

The Bud Shorstein Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center's curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

The Center for Gender, Sexualities, and Women's Research
An interdisciplinary forum for the study of gender and sexualities, their intersections with race/ethnicity, class, and other sociocultural systems. The Center's core faculty members have expertise in gender, race/ethnicity, and sexualities/LGBTQ+ studies; feminist intersectional analysis; transnational and postcolonial feminist analysis; Chicana/o, Latina/o, Afro-Latino Studies, Haitian and Caribbean studies; and cultural and literary studies. They apply this expertise in the study of critical domains such as collective identity and activism, health and medicine, law and politics, immigration, work, leadership and business, history, literatures and cultures, media and art, and social movements. In addition, the Center has over 100 affiliate faculty members with wide-ranging expertise and course offerings. Besides the major (p. 1730) in Women's Studies, students may pursue one of three minors: Women's Studies (p. 1737), Theories and Politics of Sexuality (p. 1726), and Health Disparities in Society (p. 1448).

More Info
The Department of Gender, Sexuality, and Women’s Studies offers academic programs, grants graduate and undergraduate degrees, and advances research in the discipline. Faculty in the department successfully compete for national fellowships and grants, win research and teaching awards, and produce rigorous and transformative research.

Combination Degree Program

The combination bachelor's/master's degree program is designed for superior students who have the ability to pursue an accelerated program in political science leading to the Master of Arts in Political Science. This program is not generally recommended for students considering a PhD program in Political Science at UF. Admission to the combination-degree program is highly competitive and therefore very limited numbers of students are approved for this program.

Students in the combination program may pursue the general MA in Political Science or certificates in Public Affairs or Political Campaigning. Up to 12 semester credits of approved graduate-level political science courses can be used as dual credit for both degrees. All other requirements for the bachelor's and the master's degrees must be satisfied. For more application process information, contact the undergraduate and graduate coordinators in the Department of Political Science.

- Combination Degrees

Overseas Studies

Majors are encouraged to seek out opportunities for international study, during the summer or for the academic year. The credit generally will be applied toward the major and the degree. Contact the undergraduate coordinator about credit for study abroad. Visit the UF International Center in room 170 of the Hub for more information.

Relevant Minors and Certificates

International Relations Certificate

Political Science and non-major students who are interested in international relations can pursue undergraduate training in two ways: through an interdisciplinary major in International Studies that includes courses on comparative politics and international relations or through a certificate in international relations. Credits earned toward the certificate also count toward the political science major. More information can be found under interdisciplinary studies majors listing and certificate programs.

- International Relations Certificate

Political Campaigning Certificate

The Department of Political Science offers a certificate in Political Campaigning to its undergraduate majors. The certificate is designed for students who may wish to consider pursuing careers in practical politics, including campaign management, lobbying, issue advocacy, and others. Credits earned toward the certificate also count toward the political science major. Additional information is available on the department website.

- Political Campaigning Certificate

Public Affairs Certificate

The certificate in Public Affairs is designed for those students interested in a career in or near government. Students take courses in public administration, policy process, policy analysis and one or more substantive policy courses in foreign policy, education, health, immigration, civil rights, welfare, or environmental protection. Credits earned toward the certificate also count toward the political science major. The certificate is open to non-Political Science majors as well. Additional information is available on the department website.

- Public Affairs Certificate

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 1 of 4 political science critical-tracking courses: CPO 2001, INR 2001, POS 2041, or POT 2002
- 2.0 UF GPA required

Semester 2

- Complete 1 additional political science critical-tracking course or STA 2023 with a 2.25 critical-tracking GPA
- 2.0 UF GPA required

Semester 3

- Complete 1 additional political science critical-tracking course or STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete 3 of 4 political science critical-tracking courses and STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 7

- Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 8

- Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one political science core course (**Critical Tracking**):		3
CPO 2001	Comparative Politics Introduction (Gen Ed Social and Behavioral Sciences)	

INR 2001	Introduction to International Relations (Gen Ed Social and Behavioral Science)	
POS 2041	American Federal Government (State Core Gen Ed Social and Behavioral Sciences (p. 80))

[2] Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The major in Political Science provides an understanding of how government and politics operate in the US and elsewhere. Students will develop the critical analytic and research skills to study government and politics and be able to articulate information and ideas about government and politics.

Before Graduating Students Must

- Complete 30 credits of political science coursework with minimum grades of C, including a minimum of 18 credits at the 3000/4000 levels.
- Complete an introductory statistics course.
- Complete two 3000/4000-level political science courses with a writing component, graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, and define basic factual information and analytical concepts concerning political systems.

Critical Thinking

2. Analyze political issues and phenomena using political science concepts, theories, and methods through internships and research projects.

Communication

3. Use argument and evidence effectively to communicate original analysis of political phenomena.

Portuguese

Hispanic and Latin American Languages, Literatures and Linguistics

Focusing on globalization, diversity, and public engagement, the Hispanic and Latin American Languages, Literatures and Linguistics major provides an interdisciplinary, multilingual approach to the study of Spanish- and Portuguese-speaking cultures drawing from a variety of contemporary perspectives on linguistics, literature, film, theatre, social service, and professions in health, law, business, education, and media.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Specializations:** Spanish (p. 1694) | Portuguese (p. 1625) | Spanish and Portuguese (p. 1456)
- **Credits for Degree:** 120
- **Contact**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

Curriculum

- Combination Degrees
- Hispanic and Latin American Languages, Literatures and Linguistics
- Portuguese
- Portuguese Minor
- Spanish
- Spanish and Portuguese
- Spanish for the Professions Certificate
- Spanish Minor

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

requirements for the major

The major requires 33 credits, beginning with foundational work in Portuguese and then moving on to more advanced coursework in language, culture, and literature.

Students must earn minimum grades of C for coursework to count toward the major.

*POR 3010 is an accelerated course for speakers of Spanish (or French). It fulfills the CLAS foreign language requirement, but it does **not** count as a 3000-level course for the major requirements. POR 3010 will satisfy the same requirement as the POR 1130/POR 1131 sequence.*

Required major Coursework | 33 credits

Code	Title	Credits
Core Course		
POR 3242	Oral and Written Practice	3
HLL Portuguese Major Electives [1]		
Only one course in English (PRT) can count towards the major, substituting for POR/POW.		
Two Individual Work courses (POW 4905) may be accepted as part of the major's requirements.		
4000-level Portuguese courses		12
3000 or 4000-level Portuguese courses		18
Total Credits		**33**

[1] Select courses outside the department may also count toward the major under special conditions.

Overseas Study

The university sponsors a reasonably priced Summer B program in Rio de Janeiro, Brazil. Majors and minors are encouraged to participate at the 3000/4000 level, where they will earn six credits. The program also fulfills the Summer residency requirement.

Placement

See the undergraduate coordinator for placement information, especially for transfer students and heritage speakers.

Relevant Minors and Certificates

Majors may want to pursue a certificate in Latin American Studies.

Research

Students who wish to complete a senior thesis for honors should consult Portuguese faculty at least two semesters in advance of graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary, and linguistic content.

Before Graduating Students Must

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify cultural correlates, literary production, and/or linguistic structure of texts written in Spanish and/or Portuguese.

Critical Thinking

2. Analyze cultural correlates, literary production, and/or linguistic structure of texts written in Spanish and/or Portuguese.

Communication

3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography, and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary, and pronunciation, and use appropriate registers.

To earn a minor in Portuguese, students must complete 15 credits of coursework at the 3000/4000 level with a POR/POW/PRT prefix. Two of the courses must be taken at the 4000 level.

Students cannot apply POR 3010 toward the minor.

A minimum of nine credits must be completed at UF. Students can apply up to three credits of POW 4905 toward the minor and they must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
POR, POW, or PRT courses (3000/4000 level; at least two must be 4000 level)		15
Total Credits		**15**

Primatology Certificate

The Primatology undergraduate certificate program provides an intensive foundation in non-human primates for UF undergraduate anthropology and non-anthropology majors. Courses emphasize the role that biology, behavior, ecology, and evolution play in understanding primates. Students with the Primatology certificate will be competitive for graduate studies in related fields and employment from sectors such as zoos, sanctuaries, government conservation organizations, museum curation, and wildlife veterinarians.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 12 | No optional S/U
- *Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.*

Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural, archaeological, biological and linguistic anthropology.

Curriculum

- /UGRD/colleges-schools/UGLAS/IDS_BA_BS/IDS_BA20/
- Anthropology

- Anthropology Minor
- Anthropology Minor UF Online
- Anthropology UF Online
- Medical Anthropology Certificate

The certificate offers an intense exploration of the world's non-human primates through social and biological science perspectives which integrates elements of biology, behavior, ecology, conservation, evolution, and culture.

Prerequisites

Code	Title	Credits
Undergraduate student in good standing		
Department faculty and college dean approval		
Successful completion of at least one of these courses with a minimum grade of B:		
ANT 3555	Monkeys, Apes, and Lemurs	
ANT 3514C	Introduction to Biological Anthropology	

Required Courses | Select 12 Credits

Code	Title	Credits
Select 12 credits:		12
ANT 3555	Monkeys, Apes, and Lemurs	
ANT 4552	Primate Behavior	
ANT 4554C	Primate Evolution	
ANT 4930	Special Topics in Anthropology (Primate Conservation)	
ANT 4930	Special Topics in Anthropology (Primate Ecology)	
ANT 4930	Special Topics in Anthropology (Primate Functional Morphology)	
ANT 4930	Special Topics in Anthropology (Primate Minds)	
Total Credits		**12**

If approved by Anthropology undergraduate coordinator, 3 credits of the following may be used:

Code	Title	Credits
ANT 3930	Junior Topics Class in Anthropology	3
ANT 4930	Special Topics in Anthropology	3
Approved research credits in ANT 4905, ANT 4907, or ANT 4911		3

Psychology

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in Psychology are widely sought in business, education, and mental health fields. For a professional career in Psychology, a graduate degree is needed.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Science
- **Specializations:** General Psychology (p. 1648) | Behavior Analysis (p. 1635) | Behavioral and Cognitive Neuroscience (p. 1641)
- **Credits for Degree:** 120
- **Contact:** Email (psych-advising@ufl.edu?Subject=Psychology%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

Curriculum

- Psychology
- Psychology UF Online

The Psychology curriculum provides a strong background to pursue careers in Psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

SPECIALIZATIONS

Students in the Psychology major can specialize in General Psychology, Behavioral and Cognitive Neuroscience, or Behavior Analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements.

General Psychology

Requires courses in four core areas within the discipline as well as elective psychology courses.

Behavioral and Cognitive Neuroscience

Focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than General Psychology.

Behavior Analysis

Also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

requirements FOR THE MAJOR

A psychology major requires a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.

Required Major Coursework

Required coursework will depend on the program the student chooses. Coursework for each specialization can be found by clicking on the specialization/degree.

Recommended Coursework

In addition to regularly scheduled courses, the department offers six individual work courses:

Code	Title	Credits
Research		
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	3
PSY 4905	Individual Work	1-3
PSY 4970	Senior Thesis	1-3
Teaching		
PSY 4940	Introduction to Teaching in Psychology	3
Community Work		
PSY 4949	Internship in Psychology	1-3

In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major:

Code	Title	Credits
CLP 3911	Introduction to Clinical Research	1-3
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	0-3
PSY 4905	Individual Work	1-3

PSY 4940	Introduction to Teaching in Psychology	3
PSY 4949	Internship in Psychology	0-3
PSY 4970	Senior Thesis	1-3

RESEARCH

Research in Psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in Psychology or in other professional areas.

Academic Learning Compact

The Bachelor of Science in Psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students' understanding of the design, analysis, and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology, and mathematics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers, and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design, and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis, and interpretation of psychological research.

Critical Thinking

3. Review, interpret, and analyze the literature in psychological science.

Communication

4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

Curriculum Map

All courses available to students are listed in the table; however, students select six credits in core psychology natural sciences, six credits of core psychology social sciences and three to four credits in psychological research methodology, design, and analysis.

Curriculum

- Psychology
- Psychology UF Online

The Psychology curriculum provides a strong background to pursue careers in Psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Behavior Analysis focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

Requirements for the Major

Students in the Psychology behavior analysis specialization are required to complete 36 credits of psychology coursework and with 13 credits of related coursework in biological science, mathematics, and statistics for a total of 48 credits. Courses used towards the major must be completed with minimum grades of C. At least 30 of the 36 credits must be at the 3000-level or above. At least 18 of the 36 credits must be taken at the University of Florida.

The course listing below does not represent an ordered sequence. Students can view more detailed Behavior Analysis curriculum course scheduling information in the Model Semester Plan or on the department's website.

Code	Title	Credits
Psychology Behavior Analysis Major Core Courses		
Introductory level		
PSY 2012	General Psychology	3
Laboratory course		
PSY 3213L	Laboratory Methods in Psychology	3
Behavior Analysis courses		
EAB 3002	Principles of Behavior Analysis	3
EAB 3764	Applied Behavior Analysis	3
EAB 4184	Behaviorism and Contemporary Society	3
EAB 4930	Advanced Seminar in Behavior Analysis	3
or EAB 4741	Organizational Behavior Management	
Behavior Analysis Laboratory course		

EAB 4714C	Laboratory in Applied Behavior Analysis [1]	4
Psychology Behavior Analysis Major Electives		
3000/4000-level Psychology courses to meet the 36-credit minimum requirement. Three credits of 2000-level courses can count toward this requirement. Students can earn up to a maximum combined total of nine credits for Individual Work courses in their undergraduate careers, which would apply to this requirement. [2, 3]		14
Total Credits		**36**

1 There are two alternatives for the EAB 4714C Laboratory in Applied Behavior Analysis requirement. One is to take an additional 4000-level EAB course (listed above) as well as either PSY 4911 or PSY 4905 that is supervised or sponsored by a Behavior Analysis faculty member for one or more credits. The other opportunity is to take PSY 4905 for four credits (would require enrollment in PSY 4905 in two semesters) that is supervised or sponsored by a Behavior Analysis faculty member.

2 Two courses from the Women's Studies department can also be utilized as part of the 14 additional psychology credits. These courses include, but might not be limited to, WST 3323, WST 3371, WST 4630, and WST 4704. Refer to the department's website for more information about courses that can count towards the Additional Psychology electives requirement.
More Info (https://psych.ufl.edu/undergrad/degree-requirements/behavior-analysis/)

3 Students interested in completing an honors thesis should talk to an advisor early in their academic careers to ensure they leave room in their required 36 credits of Psychology to enroll in the appropriate honors course(s). (https://psych.ufl.edu/undergrad/undergraduate-advising-in-psychology/research-internship-teaching-experiences/psychology-senior-thesis/)

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Related Coursework

Code	Title	Credits
Statistics		
STA 2023	Introduction to Statistics 1 [1]	3
STA 3024	Introduction to Statistics 2 [2]	3
Mathematics		
Proficiency through precalculus is required.		
MAC 1147	Algebra and Trigonometry [3]	4
MAC 1140 & MAC 1114	Precalculus Algebra and Trigonometry	5
Biological Science		
Select ONE:		
BSC 2005	Biological Sciences	3
BSC 2010	Integrated Principles of Biology 1	3
Total Credits		**21**

1 STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses.

2 STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it also counts toward the CLAS requirement of 3000-level electives not in the major.

3 The combination of MAC 1114 (Trigonometry; 2 credits) and MAC 1140 (Precalculus Algebra; 3 credits) may be substituted for MAC 1147

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in Summer.

Recommended Coursework

In addition to regularly scheduled courses, the department offers six Individual Work (IW) courses. Students can earn up to a **maximum combined total of nine credits for IW coursework in their undergraduate careers.**

Code	Title	Credits
Research		
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	3
PSY 4905	Individual Work	1-3
PSY 4970	Senior Thesis	1-3
Teaching		
PSY 4940	Introduction to Teaching in Psychology	3
PSY 4949	Internship in Psychology	1-3

In each case, a psychology faculty member must supervise the student's work. In cases where the student is working with (being supervised by) a faculty member or professional that is not in Department of Psychology, then a psychology faculty member must sign on as a sponsor.
More Info (https://psych.ufl.edu/undergrad/research-internship-teaching-experiences/)

Research

Research in Psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in Psychology or in other professional areas.

SONA: Research Participation Requirement

One of the Psychology Department's goals is to familiarize students with the research process in psychology. Toward meeting this goal, students enrolled in PSY 2012, CLP 2001, and any 3000 level Psychology course must participate in experimental research studies (Option 1) or critically analyze scientific research articles (Option 2). This is done through a system called SONA. Specific requirements are posted in the course CANVAS and syllabus.

Advising Note

The SONA requirement is an important factor to consider when planning each semester. We recommend that you take no more than two psychology courses requiring research participation each semester.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (https://catalog.ufl.edu/ugrad/current/liberalarts/school_pages/degrees.aspx#structure).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

The following critical-tracking courses are required:

- BSC 2005 or BSC 2010
- MAC 1147 or MAC 1140 and MAC 1114
- PSY 2012
- PSY 3213L
- STA 2023

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

Semester 1

- Complete MAC 1140 or MAC 1147
- 2.4 UF GPA required

Semester 2

- Complete PSY 2012; if MAC 1140 is taken in semester 1, MAC 1114 must be taken semester 2
- 2.6 UF GPA required

Semester 3

- Complete 2 critical-tracking courses from BSC 2005 or BSC 2010, STA 2023 or PSY 3213L with a 2.6 critical-tracking GPA
  Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.
- 2.7 UF GPA required

Semester 4

- Complete BSC 2005 or BSC 2010 and STA 2023 (if not previously taken) with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

Semester 5

- Complete PSY 3213L (if not previously taken) with 2.75 critical-tracking GPA. Additional Psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

Semester 6

- Complete two of the remaining EAB XXXX/4XXX required courses
- Complete STA 3024

Semester 7

- Complete two of the remaining EAB XXXX/4XXX required courses

Semester 8

- Complete all remaining EAB 4XXX required courses

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

STA 3024 may count towards 3000-level or above electives outside of the major.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One

Curriculum

- Psychology
- Psychology UF Online

The Psychology curriculum provides a strong background to pursue careers in Psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Behavioral and Cognitive Neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology.

Requirements for the Major

Students in the Psychology Behavioral and Cognitive Neuroscience (BCN) specialization are required to complete 36 credits of coursework with 16 credits of related coursework in biological science, mathematics, and statistics for a total of 52 credits. Courses used toward the major must be earned with minimum grades of C. At least 22 credits must be taken in psychology. At least 18 of the 36 credits must be taken at the University of Florida.

The course listing below does not represent an ordered sequence. View more detailed Behavioral and Cognitive Neuroscience Model Semester Plan or curriculum course scheduling information on the department's website.

Code	Title	Credits
Psychology Behavioral and Cognitive Neuroscience Major Core Courses		
Introductory level		
PSY 2012	General Psychology	3
Laboratory course		
PSY 3213L	Laboratory Methods in Psychology	3
Foundation core		
Each foundation core course is an introduction to the substantive areas of behavioral and cognitive neuroscience.		6
Biological Bases of Neuroscience		
PSB 3340	Behavioral Neuroscience	
Learning and Cognition		
EXP 3604	Cognitive Psychology	
Advanced BCN Laboratory		
Select one [1]		4
EAB 4714C	Laboratory in Applied Behavior Analysis	
EXP 4174C	Laboratory in Sensory Processes	
PSB 4343C	Laboratory in Cognitive Neuroscience	
PSY 4905	Individual Work	
Psychology Behavioral and Cognitive Neuroscience Major Electives		
PSB or EXP Prefixed Psychology Electives at the 4000-level		
4000-level psychology courses with a PSB or EXP prefix or approval of the undergraduate coordinator. These courses must be taken in addition to the required laboratory course and do not include individual work courses. [3]		6
Additional BCN electives		
Psychology courses or approved neuroscience-relevant courses outside psychology to meet the 36- credit minimum requirement. 3 credits may be at the 2000 level or higher. The remaining 11 or more credits must be at the 3000/4000 level. PSB 3002 is not accepted toward the Behavioral and Cognitive Neuroscience specialization. [2, 3]		14
Total Credits		**36**

1. Non-Psychology courses taken at UF can be substituted for the BCN Advance Lab Requirements. For a complete list of 4-credit lab-based courses that can be used as substitutes refer to the department's website. Students who enroll in substitute courses will need to contact Psychology Advising at psych-advising@ufl.edu (https://psych.ufl.edu/undergrad/degree-requirements/behavioral-and-cognitive-neuroscience/) for degree audit adjustments.
2. Refer to the department's website for a list of courses that will count towards this requirement. Students who enroll in non-Psychology courses may need to contact Psychology Advising at psych-advising@ufl.edu (https://psych.ufl.edu/undergrad/degree-requirements/behavioral-and-cognitive-neuroscience/) for degree audit adjustments.
3. Students interested in completing an honors thesis should talk to an advisor early in their academic careers to ensure they leave room in their required 36 credits of Psychology to enroll in the appropriate honors course(s). (https://psych.ufl.edu/undergrad/undergraduate-advising-in-psychology/research-internship-teaching-experiences/psychology-senior-thesis/)

Students who wish to transfer courses in psychology toward the major *must* see an advisor in the department for approval.

Related Coursework

Code	Title	Credits
Statistics		
STA 2023	Introduction to Statistics 1	3
STA 3024	Introduction to Statistics 2	3
Mathematics		
MAC 2311	Analytic Geometry and Calculus 1	4
Biological Science		
BSC 2010	Integrated Principles of Biology 1	3
BSC 2011	Integrated Principles of Biology 2	3
Total Credits		**16**

1 STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses.

2 STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it also counts toward the CLAS requirement of 3000-level electives not in the major.

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in Summer.

Recommended Coursework

In addition to regularly scheduled courses, the department offers six Individual Work (IW) courses. Students can earn up to a **maximum combined total of nine credits for IW coursework in their undergraduate careers.**

Code	Title	Credits
Research		
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	3
PSY 4905	Individual Work	1-3
PSY 4970	Senior Thesis	1-3
Teaching		
PSY 4940	Introduction to Teaching in Psychology	3
Community Work		
PSY 4949	Internship in Psychology	1-3

In each case, a psychology faculty member must supervise the student's work. In cases where the student is working with (being supervised by) a faculty member or professional that is not in Department of Psychology, then a psychology faculty member must sign on as a sponsor.
More Info (https://psych.ufl.edu/undergrad/research-internship-teaching-experiences/)

Research

Research in Psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in Psychology or in other professional areas.

SONA: Research Participation Requirement

One of the Psychology Department's goals is to familiarize students with the research process in psychology. Toward meeting this goal, students enrolled in PSY 2012, CLP 2001, and any 3000 level Psychology course must participate in experimental research studies (Option 1) or critically analyze scientific research articles (Option 2). This is done through a system called SONA. Specific requirements are posted in the course CANVAS and syllabus.

Advising Note

The SONA requirement is an important factor to consider when planning each semester. We recommend that you take no more than two psychology courses requiring research participation each semester.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

These critical-tracking courses are required: BSC 2010, MAC 2311, PSY 2012, PSY 3213L, PSB 3340, and STA 2023.

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

Semester 1

- Complete MAC 1147 or MAC 2311
- 2.4 UF GPA required

Semester 2

- Complete MAC 2311
- Complete PSY 2012
- 2.6 UF GPA required

Semester 3

- Complete 2 of the following critical-tracking courses with a 2.6 critical-tracking GPA: BSC 2010, PSB 3340, or PSY 3213L
  Students should take PSY 3213L **in semester 3 or 4 before taking any additional 3000-level or above psychology courses.**
- 2.7 UF GPA required

Semester 4

- Complete 1 tracking course from BSC 2010, PSB 3340, PSY 3213L or STA 2023 with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

Semester 5

- Complete the final tracking course (BSC 2010, PSB 3340, PSY 3213L or STA 2023) with a 2.75 critical-tracking GPA. Additional psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

Semester 6

- Complete 2 of the remaining PSY 3XXX/4XXX required courses
- Complete STA 3024

Semester 7

- Complete 2 of the remaining PSY 3XXX/4XXX required courses
- Complete neuroscience lab: PSB 4343C, EAB 4714C, EXP 4174C

Semester 8

- Complete all remaining PSY 3XXX/4XXX required courses and/or neuroscience relevant courses.

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

STA 3024 and approved 3000 level or above neuroscience-relevant courses outside the psychology department may count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example of progression through the major. Actual courses and course order may be different depending on the student's academic record and course scheduling availability. Prerequisites still apply.

[1] CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The Bachelor of Science in Psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students' understanding of the design, analysis, and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology, and mathematics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers, and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design, and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis, and interpretation of psychological research.

Critical Thinking

3. Review, interpret, and analyze the literature in psychological science.

Communication

4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

Curriculum Map

All courses available to students are listed in the table; however, students select six credits in core psychology natural sciences, six credits of core psychology social sciences and three to four credits in psychological research methodology, design, and analysis.

General Psychology

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in Psychology are widely sought in business, education, and mental health fields. For a professional career in Psychology, a graduate degree is needed.

Curriculum

- Psychology
- Psychology UF Online

The Psychology curriculum provides a strong background to pursue careers in Psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

General Psychology requires courses in four core areas within the discipline as well as elective psychology courses.

Requirements for the Major

Students in the general psychology specialization are required to complete 36 credits of psychology coursework, with 13-14 credits of related coursework in biological science, mathematics, and statistics for a total of 49-50 credits. Courses used toward the major must be earned with minimum grades of C. At least 30 of the 36 credits must be at the 3000-level or above. At least 18 of the 36 credits must be taken at the University of Florida.

The course listing below does not represent an ordered sequence. More detailed Psychology Bachelor of Sciences curriculum course scheduling information is available on the department's webpage.

Code	Title	Credits
Psychology BS Major Core Courses		
Introductory level		
PSY 2012	General Psychology	3
Laboratory course		
PSY 3213L	Laboratory Methods in Psychology	3
Foundation level core		
Each of the four foundation areas is an introduction to a substantive area of psychology. Select at least one course from each:		12
Biological Bases of Psychology		
Students may not take both PSB 3002 and PSB 3340 under any circumstances.		
CBH 3003	Comparative Psychology

PPE 3003	Psychology of Personality	
SOP 3004	Social Psychology	
Psychology BS Major Core Courses		**18**
4000-level Psychology Electives		
4000-level courses in the Psychology department (does not count individual work courses) [2]		6
Additional Psychology Electives		
3000/4000-level courses to meet the 36-credit minimum requirement. Three credits of 2000-level courses can count toward this requirement. Students can earn up to a maximum combined total of nine credits for Individual Work courses in their undergraduate careers, which would apply to this requirement. [3, 4]		12
Total Credits		**54**

1. Students may not take both PSB 3002 and PSB 3340 under any circumstances.
2. Students should plan on taking their 4000-level courses in Fall/Spring terms as there are limited offerings in Summer terms.
3. Two courses from the Department of Gender, Sexuality, and Women's Studies can also be utilized as part of the 12 additional psychology credits. These courses include, but might not be limited to, WST 3323, WST 3371, WST 4630, and WST 4704. Refer to the department's website for more information about courses that can count towards the Additional Psychology Electives requirement.
4. Students interested in completing an honors thesis should talk to an advisor early in their academic careers to ensure they leave room in their required 36 credits of Psychology to enroll in the appropriate honors course(s). (https://psych.ufl.edu/undergrad/undergraduate-advising-in-psychology/research-internship-teaching-experiences/psychology-senior-thesis/)

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

More Info (https://psych.ufl.edu/undergrad/research-internship-teaching-experiences/)

Research

Research in Psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in Psychology or in other professional areas.

SONA: Research Participation Requirement

One of the Psychology Department's goals is to familiarize students with the research process in psychology. Toward meeting this goal, students enrolled in PSY 2012, CLP 2001, and any 3000 level Psychology course must participate in experimental research studies (Option 1) or critically analyze scientific research articles (Option 2). This is done through a system called SONA. Specific requirements are posted in the course CANVAS and syllabus.

Advising Note

The SONA requirement is an important factor to consider when planning each semester. We recommend that you take no more than two psychology courses requiring research participation each semester.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

The following critical-tracking courses are required: BSC 2005 or BSC 2010, MAC 1147 or MAC 1140 and MAC 1114, PSY 2012, PSY 3213L, and STA 2023.

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

Semester 1

- Complete MAC 1140 or MAC 1147
- 2.4 UF GPA required

Semester 2

- Complete PSY 2012; if MAC 1140 is taken in semester 1, MAC 1114 must be taken semester 2
- 2.6 UF GPA required

Semester 3

- Complete 2 critical-tracking courses from BSC 2005 or BSC 2010, STA 2023 or PSY 3213L with a 2.6 critical-tracking GPA
  Students should take PSY 3213L **in semester 3 or 4 before taking any additional 3000-level or above psychology courses.**
- 2.7 UF GPA required

Semester 4

- Complete BSC 2005 or BSC 2010 and STA 2023 (if not previously taken) with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

Semester 5

- Complete PSY 3213L (if not previously taken) with 2.75 critical-tracking GPA. Additional Psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

Semester 6

- Complete 2 of the remaining PSY 3XXX/4XXX required courses
- Complete STA 3024

Semester 7

- Complete 2 of the remaining PSY 3XXX/4XXX required courses

Semester 8

- Complete all remaining PSY 3XXX/4XXX required courses

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

STA3024 may count towards 3000-level or above electives outside of the major.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

[1] CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The Bachelor of Science in Psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students' understanding of the design, analysis, and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology, and mathematics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers, and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design, and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis, and interpretation of psychological research.

Critical Thinking

3. Review, interpret, and analyze the literature in psychological science.

Communication

4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

Psychology UF Online

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Arts in psychology are widely sought in business, education, and certain mental health fields. For a professional career in psychology, a graduate degree is needed.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR | Email (psych-advising@ufl.edu)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

Curriculum

- Psychology
- Psychology UF Online

The Psychology curriculum provides a strong background to pursue careers in psychology, business, education, or health-related fields. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science. The BA in Psychology requires courses in four core areas within the discipline as well as elective psychology courses.

requirements for the Major

A BA in Psychology consists of a minimum of 30 credits in psychology plus related coursework in biological science, mathematics, and statistics. At least 18 of the 30 credits must be taken at UF, and at least 24 of the 30 credits must be at the 3000-level or above. Courses used toward the major must be completed with minimum grades of C.

The course listing below does not represent an ordered sequence. More detailed Psychology Bachelor of Arts curriculum course scheduling information is available on the department's webpage.

Required Major Coursework

Code	Title	Credits
Introductory Level		
PSY 2012	General Psychology	3
Laboratory Course		
PSY 3213L	Laboratory Methods in Psychology	3
Psychology BA Foundation Level Core		
Select at least one course from each of the four foundation areas:		12
Biological Bases of Psychology		
CBH 3003	Comparative Psychology	
EXP 3104	Sensory Processes	
PSB 3002	Physiological Psychology	
Developmental Psychology		
DEP 3053	Developmental Psychology	
Learning and Cognition		
EAB 3002	Principles of Behavior Analysis	
EXP 3604	Cognitive Psychology	
Sociocultural / Individual Differences Approaches		
CLP 3144	Abnormal Psychology	
PPE 3003	Psychology of Personality	
SOP 3004	Social Psychology	
Additional Psychology Major Electives		**12**
3000/4000-level psychology courses to meet the 30 credits minimum requirement. Three credits of 2000-level courses may count toward this requirement. Up to six credits of individual work courses will count toward the 30-hour minimum requirement.		
Total Major Credits		**30**
Related Coursework		
STA 2023	Introduction to Statistics 1 (required; prerequisite for some 4000-level psychology courses)	3
Select one to achieve proficiency through precalculus:		4-5
MAC 1147	Algebra and Trigonometry (or higher course)	
MAC 1114 & MAC 1140	Trigonometry and Precalculus Algebra	

BSC 2005	Biological Sciences	3
Total Related Credits		**10-11**
Total Credits		**80-82**

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Recommended Coursework

In addition to regularly scheduled courses, the department offers six individual work courses. Students can earn up to a **maximum combined total of nine credits for IW coursework in their undergraduate careers.**

Code	Title	Credits
Research		
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4905	Individual Work	1-3
PSY 4911	Undergraduate Research in Psychology	3
PSY 4970	Senior Thesis	1-3
Teaching		
PSY 4940	Introduction to Teaching in Psychology	3
Community Work		
PSY 4949	Internship in Psychology	1-3

In each case, a psychology faculty member must supervise the student's work. In cases where the student is working with (being supervised by) a faculty member or professional that is not in Department of Psychology, then a psychology faculty member must sign on as a sponsor. Students can earn up to a maximum combined total of six credits for individual work coursework in their undergraduate careers.
More Info (https://psych.ufl.edu/undergrad/research-internship-teaching-experiences/)

Research

Research in Psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

SONA: Research Participation Requirement

One of the Psychology Department's goals is to familiarize students with the research process in psychology. Toward meeting this goal, students enrolled in PSY 2012, CLP 2001, and any 3000-level psychology course must participate in experimental research studies (Option 1) or critically analyze scientific research articles (Option 2). This is done through a system called SONA. Specific requirements are posted in the course CANVAS and syllabus.

Advising Note

The SONA requirement is an important factor to consider when planning each semester. It's recommended that students take no more than two psychology courses requiring research participation each semester.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

The following critical-tracking courses are required:

- BSC 2005
- MAC 1147 or MAC 1140 and MAC 1114
- PSY 2012
- PSY 3213L
- STA 2023

Semester 1

- Complete MAC 1140 or MAC 1147
- 2.2 UF GPA required

Semester 2

- Complete PSY 2012; if MAC 1140 is taken in semester one, MAC 1114 must be taken semester two
- 2.3 UF GPA required

Semester 3

- 2.4 UF GPA required
- Complete 2 critical-tracking courses from BSC 2005, STA 2023 or PSY 3213L with a 2.5 critical-tracking GPA

Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.

Semester 4

- Complete BSC 2005 and STA 2023 (if not previously taken) with a 2.5 critical-tracking GPA
- 2.5 UF GPA required

Semester 5

- Complete PSY 3213L (if not previously taken) with 2.5 critical-tracking GPA
- 2.5 UF GPA required

Semester 6

- Complete 2 of the remaining PSY 3XXX/4XXX required courses

Semester 7

- Complete 2 of the remaining PSY 3XXX/4XXX required courses

Semester 8

- Complete all remaining PSY 3XXX/4XXX required courses

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

- Combination Degrees
- International Relations Certificate
- Political Campaigning Certificate
- Political Science
- Public Affairs Certificate

Credits earned toward the certificate also count toward the political science major.

Required Courses

Code	Title	Credits
PAD 3003	Introduction to Public Administration (a core course in public administration)	3
PUP 3002	Current Controversies in Public Policy (a core course in public policy)	3
Select three 3000/4000-level courses from one of the following:		9
The policy process (e.g., bureaucratic politics)		
A substantive policy area (e.g., health politics and policy or politics and ecology)		
Total Credits		**15**

Students are encouraged to serve an internship in government and to complete an honors thesis in the area of public affairs.

Public Service Minor

The Public Service minor, offered by the Bob Graham Center for Public Service, provides a foundational understanding of how government and nonprofit organizations operate to serve the public. Coursework focuses on public administration, public policy, leadership, organizational management, and ethics in public service, preparing students for careers in the private and public sectors and with nonprofit organizations. The minor complements any major and appeals to students who wish to serve the public good and develop into community leaders.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15-21 | Completed with a minimum cumulative 2.75 GPA
- **More Info**

Center Information

The Bob Graham Center was established in 2006 with the goal of creating a community of students, scholars, and citizens who share a commitment to revitalizing the civic culture of Florida and the nation. Former Governor and U. S. Senator Bob Graham founded the Center as a place where students acquire the skills and knowledge to become informed citizens, with the expressed purpose of strengthening the nation's democratic institutions.

GAINESVILLE FL 32611-2030
Map (http://campusmap.ufl.edu/#/index/0072)

Curriculum

No results were found.

Students pursuing the minor are expected to engage in the intellectual life of the Bob Graham Center for Public Service by participating in public lectures, workshops, seminars, and civic engagement opportunities the Center offers.

The experiential learning component of the minor can be pursued through one of the internships offered by the Bob Graham Center for Public Service or through any other internship or research experience oriented toward public service.

Students must have a 2.50 GPA for admission to the minor and should normally apply during the sophomore or junior year, though they may apply later if able to complete all requirements for the minor within a timely manner that does not delay graduation. Students may apply for the minor through ONE.UF.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward their major(s) or other minors.

Religion

Events at home and abroad show that religion continues to be a powerful force, with both positive and negative consequences. An undergraduate major in Religion provides students with the basic tools to understand the diversity of religious phenomena throughout the world in their proper historical, socio-political, psychological, cultural, and philosophical contexts.

Curriculum

- Combination Degrees
- Religion
- Religion Minor

Students majoring in religion receive truly interdisciplinary training and many pursue advanced degrees in the humanities, social sciences, law, education, journalism, and social services. Religion majors have also gone on to work in non-governmental organizations, private companies, and religious communities. The religion program complements many other programs at the University of Florida, including Latin American studies, sustainability studies, Jewish studies, African studies, and Asian studies.

requirements for the Major

The Religion major consists of 10 courses totaling 30 credits. Two courses are mandatory: REL 3931 Method and Theory (junior seminar) and REL 4933 (senior seminar). The remaining 8 classes are electives. No more than three of the electives can be 2000-level courses or below. At least one elective must be 4000-level.

The 10 courses (30 credits) for the undergraduate major in religion must be completed with minimum grades of C (2.0 GPA). These courses must be taken from the introductory, intermediate, and advanced levels of the religion curriculum.

Six courses (18 credits) must be taken at UF.

Required major Coursework

Code	Title	Credits
REL 3931	Junior Seminar	3
REL 4933	The Comparative Study of Religion (senior seminar)	3
Electives [1]		24
Religion Major Electives		
2000-level or higher Religion courses		9
3000-level or higher Religion courses		12
4000-level Religion course [3]		
Total Credits		**51**

[1] 8 electives total. Maximum of three 2000-level or below will be counted toward the major. At least one elective must be 4000-level.

- Maximum of three introductory courses (2000-level, 9 credits) can count toward the 30 credits for the major.
- No more than three courses (9 credits) can be in approved cognate courses from other departments.
- No more than four courses (12 credits) can be transferred from another institution.

There are no prerequisites for 2000-level courses. Detailed descriptions of current and prospective courses, along with past syllabi, are available online, in the Religion Department Office in 107 Anderson Hall, and from faculty members before registration.
More Info (https://religion.ufl.edu/)

Overseas Studies

The department encourages study abroad. Study Abroad, within the UF International Center (UFIC), offers the opportunity to study in a wide range of academic and cultural settings. The office coordinates 32 semester and yearlong programs and 28 summer programs in 24 countries. Study abroad programs satisfy the General Education International requirement and also may fulfill requirements for a major or minor, as well as basic distribution area requirements and UF Summer residency. Interested students should contact the UF International Center in 170 Hub or the undergraduate coordinator.
More Info (http://www.ufic.ufl.edu/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete 1 religion course
- 2.0 UF GPA required

Semester 4

- Complete 1 additional religion course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 1 additional religion course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete REL 3931 (junior seminar)
- Complete 2 of the remaining REL 3XXX/4XXX required courses
- 2.0 UF GPA required

Semester 7

- Complete REL 4933 (senior seminar)
- Complete 2 of the remaining REL 3XXX/4XXX required courses
- 2.0 UF GPA required

Semester 8

- Complete all remaining REL 3XXX/4XXX required courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The major in Religion examines religion as a significant and pervasive element in human culture. Through study of a variety of religious traditions, students learn about the history, beliefs and practices of the world's religions. Emphasis on method and theory and religion's comparative dimensions enables students to read and analyze current literature. Students will be able to locate and use reference tools and demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

- Achieve satisfactory evaluation of assignment from REL 3931.
- Achieve satisfactory evaluation of assignment from REL 4933.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe, and explain religion as a significant and pervasive element in human culture.

Critical Thinking

2. Read and analyze current literature on method and theory in a study of religion.
3. Read and analyze current literature on comparative religion.

Communication

4. Effectively communicate in speech and in writing and disseminate the results of research in a coherent and organized manner.

Assessment Types

- Papers
- Additional assessment include the department's senior survey

Religion Minor

The Religion minor provides the opportunity to explore various religions around the world: their scriptures, histories, beliefs, rituals, and communities. A minor in Religion provides students with tools to understand the diversity of religious phenomena throughout the world in their proper historical, socio-political, psychological, cultural, and philosophical contexts.

Curriculum

- Combination Degrees
- Religion
- Religion Minor

The religion minor consists of five REL-prefixed religion courses. Three of these courses must be taken at the intermediate or advanced level at UF.

No more than three credits of REL 4905 will apply. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
REL courses (2000 level)		0-6
REL courses (3000/4000 level) [1]		9-15

[1] No more than three credits of REL 4905.

Russian

Foreign Languages and Literatures

Students who major in Russian graduate with a solid working knowledge of the language and a thorough understanding of Russian culture and everyday life.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts

- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

The BA in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills, and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Foreign Languages and Literatures Options (p. 1323)

Students can tailor their program of study to fit their personal and career goals, be it reading Tolstoy in the original or preparing for work in fields such as national security and international relations. Majors also receive priority placement in our Russian-language study abroad program currently located in Tbilisi, Georgia.

Completed alone or in combination with a second major, the Russian specialization of the Foreign Languages and Literatures major prepares students for a variety of careers in fields such as law, government, national security, international relations, business, education and for graduate programs in

the humanities and social sciences. Beyond this, it equips students with analytical skills essential for performing effectively in today's multicultural world.

Small class sizes and an outstanding professional teaching staff ensure that students have every opportunity to learn and excel.

Students who intend to pursue the Russian specialization or a Russian minor should consult the undergraduate coordinator for Russian studies as soon as possible.

Requirements for the Major

The Russian specialization in Foreign Languages and Literatures consists of preparatory language study at the beginning and Intermediate levels and 33 credits of advanced language, literature, and culture study in the upper-division, at least 30 of which must be at the 3000/4000-level. Majors may take one 3 credit course at a lower level in Russian Literature and Culture in English with the approval of the undergraduate coordinator.

All coursework for the major must be completed with minimum grades of C.

Overseas Study

Students are encouraged to consider the UF summer program in Russian language and culture currently located in Tbilisi, Georgia.

Research

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Summer A – Moscow Summer Program (8 credits in advanced electives) highly recommended any time after completing two semesters of Russian (RUS 1130/RUS 1131)

Semester 3

- Complete RUS 1130 or higher-level language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete RUS 1131 or higher-level language course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete RUS 2220 or higher-level language course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete RUS 3400 or higher-level language course
- 2.0 UF GPA required

Semester 7

- Complete RUS 4000
- Complete RUS 4501
- 2.0 UF GPA required

Semester 8

- Complete RUS 4001
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

3000 level or above critical concentration courses outside of Russian may count toward the 3000 level or above electives outside of the major.

Beginning language is best started semester 1 and absolutely no later than semester 3, but study abroad or accredited intensive summer courses can be used to fall in with an ideal semester progression.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

[1] Courses focus on the acquisition of the language(s) of specialization at the advanced level.
[2] Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Russian and East-European Area Studies Certificate

The Russian and East-European Area Studies certificate provides a foundation for graduate work in the field of and careers in government service. The program is based on a major in economics, foreign languages, geography, history, philosophy, political science, or religion.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 24 | Completed with minimum grades of C
- More Info (http://languages.ufl.edu/academics/llc-languages/russian-studies/)
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

For the minor, students must complete at least five Russian courses beyond the 1000 level. Up to six credits transferred from another institution may be applied toward the minor.

Students are required to take RUS 2220 and one 3000/4000 level RUT course. The remaining credits should be RUS and RUW-prefixed courses at the 3000/4000 level.

Students who place out of RUS 2220 and RUS 3240 (without transfer credits) can apply up to nine credits of RUT courses toward the minor. No more than three credits of RUS 4905 can apply.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Sociology

Sociology is the study of social life, including the significance of social relationships and institutions, the impact of social change on individuals, groups and the environment, and the causes and consequences of inequalities and disparities of all kinds. Sociology majors examine current research and public policy pertaining to healthcare, the environment, families, employment, housing, the community, education, politics, criminal justice, and the law. Upon graduation, sociology majors are skilled in evidence-based problem solving, collecting, analyzing, and presenting data, communicating and collaborating in diverse groups, thinking critically, and writing effectively.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department's faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

- Sociology of Social Justice and Policy Minor
- Sociology UF Online

The Sociology major offers broad theoretical perspectives and rigorous methodologies to study social life and to analyze the causes and consequences of human behavior. In particular, sociologists examine how race, ethnicity, gender, sexual orientation, age, class, ability, geography, and other identities are used to create and maintain barriers to access, participation, opportunity, and outcome across all social institutions. The department's faculty teach and conduct research on social justice and systemic inequalities; health disparities in physical and mental wellbeing; aging and the life course; environmental justice and natural resource management; deviance, social control, and conflict management; gender, families, and

sexualities; social and political movements; nationalism, migration, and ethnic conflict; and culture, technology, and media. Students examine the most pressing social problems in these areas, as well as how different social groups experience and perceive these issues.

Students are encouraged to listen to these interviews on the department's website from three recent sociology graduates. Their testimonials describe the varied opportunities in the major and the different career and professional paths they and other sociology majors embark on post-graduation. More Info (https://soccrim.clas.ufl.edu/undergraduate/sociology/)

Requirements for the Major

Sociology majors are required to complete 32 credits of coursework in sociology and 3 credits of statistics for a total of 35 credits. All courses must be completed with minimum grades of C. At least 23 credits of sociology must be in courses numbered 3000 or higher. At least 18 credits must be completed at UF.

To graduate, students must also pass a department exam covering fundamental sociological concepts developed by the sociology faculty and administered online.

Required Major Coursework

Code	Title	Credits
SYG 2000	Introduction to Sociology (Sociology majors are encouraged to take this as their first course)	3
SYA 4110	Development of Sociological Thought (must be taken after 90 credits)	4
SYA 4300	Methods of Social Research (should be completed by the end of the sixth semester.) [1]	4
Sociology Major Electives [3]		
3000-level or higher Sociology courses		15
2000-level or higher Sociology courses		6
Related Coursework		
STA 2023	Introduction to Statistics 1 (Must be taken no later than the end of the third semester)	3
Total Credits		**35**

1. These courses are the basis for meeting the Student Learning Outcomes in the major's Academic Learning Compact and therefore it is expected that they be taken at UF.
2. STA 2023 is a prerequisite for SYA 4300.
3. Students select additional sociology courses to complete the 32-credit minimum by matching interests in different substantive areas.

Students select additional sociology courses to complete the 32-credit minimum by matching interests in different substantive areas.

Majors can only apply two other 2000-level courses besides SYG 2000, for a maximum of nine credits at the 2000 level. There are no prerequisites for 2000-level courses.

Course Details

All majors should review the department's guidelines or visit the Sociology Undergraduate Coordinator for information about the major, the plan of study worksheet, descriptions of current and prospective courses, opportunities for internships or individual work, and other information.

OverseAS STUDIES

Majors are encouraged to seek out opportunities for international study, during the summer or academic year. The credit generally will be applied toward the major and the degree. Contact the undergraduate coordinator about credit for study abroad. Visit the UF International Center (https://internationalcenter.ufl.edu/) in room 170 of the Hub for more information.

Relevant Majors, Minors, and Certificates

With approximately 800 majors and minors in both Residential and UF Online degree programs, Sociology is one of the largest undergraduate programs at UF. Many majors pursue dual degrees, double majors, minors, and certificates in related disciplines, including Psychology, Criminology and Law, Political Science, Computer Science, Statistics, Anthropology, Sustainability, History, Gender, Sexualities and Women's Studies, Latin American Studies, African American Studies, Non-Profit Organizational Leadership, Advertising, Marketing, and various foreign languages.

Experiential Learning and Career Readiness

Sociology majors participate in community internships, collaborate on faculty projects, and conduct research independently on senior thesis projects. These experiential learning opportunities prepare graduates to embark upon a wide range of career paths including those in public health, government, research, teaching, and community affairs. Sociology graduates pursue careers in law, medicine, counseling or social work, and business. Others work as public policy analysts researching issues related to health and aging; social justice, environmental sustainability, and resource management; urban and community development; crime and delinquency; families and communities; and racial, ethnic, and international relations. Many seek advanced degrees in sociology, psychology, counseling, law, and business.

Combination Degrees

The Department of Sociology and Criminology offers a combination BA/MA degree to eligible undergraduate students. Please see the graduate coordinator for more information regarding this degree option. Sociology majors may also consider various combination degrees with other departments and colleges. For example, a Master of Science in Business Administration with a concentration in management is offered through the Warrington College of Business to eligible students who have majored in sociology. Please see the undergraduate coordinator for more information about such degree options.

- Combination Degrees

Research

The department encourages students to engage in the research process, either by conducting their own projects in collaboration with a sociology faculty member or by working with sociology faculty on their current research. These opportunities may be pursued by conducting a senior honors thesis or registering for SYA 4911 Undergraduate Research credit. Please see the undergraduate coordinator for more information and eligibility requirements.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 sociology course
- 2.0 UF GPA required

Semester 3

- Complete 1 additional sociology course (1 of the 2 courses must be SYG 2000)
- Complete STA 2023
- 2.75 GPA required for all 3 critical-tracking courses
- 2.0 UF GPA required

Semester 4

- 2.75 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 additional sociology course (1 of the 3 must be at the 3000/4000 level)
- 2.75 GPA required for all 5 critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete SYA 4300 or SYA 4110
- Complete 1 additional 2000 level or above sociology course (maximum of 2 sociology electives at the 2000 level)
- 2.0 UF GPA required

Semester 7

- Complete 2 additional 3000/4000 level sociology courses
- 2.0 UF GPA required

Semester 8

- Complete remaining of SYA 4300 or SYA 4110
- Complete all remaining 3000/4000 level sociology courses (7 total sociology elective courses/21 SY elective credits required)
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Academic Learning Compact

The Bachelor of Arts in Sociology provides students with knowledge of the basic concepts in the field, sociological perspectives on social structure, process, and institutions and sociological perspectives on the relationship between individuals and society. Emphasis is on the ability to understand, analyze, and interpret the sociological literature and on effectively communicating sociological concepts and research in the accepted style of presentation.

Before Graduating Students Must

- Pass a department exam developed by the sociology faculty that covers fundamental sociological concepts.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, explain, and apply basic concepts in sociology.

Critical Thinking

2. Analyze, critique, and interpret the sociological literature.
3. Define, classify, and compare sociological perspectives on social structure, processes and institutions.
4. Define, classify, and compare sociological perspectives on the relationship between individuals and society.

Communication

5. Effectively communicate in speech and in writing sociological concepts and research.

Sociology of Social Justice and Policy Minor

The SJP minor offers an interdisciplinary framework grounded in Sociology that allows students to examine systemic inequalities of race, gender, sexual orientation, ethnicity, class, age, mental and physical ability, geography, and other disparities as they occur across social institutions including health, law, criminal justice, families, employment, the environment, education, and housing.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15-16 | Completed with minimum grades of C and no optional S/U | All credits must be at the 3000-level or above

The sociological lens offers broad theoretical perspectives and rigorous methodologies to analyze how, why, and with what consequence systemic inequalities are produced, maintained, and reproduced locally, nationally, and globally. Students pursuing an SJP minor explore the impact of systemic racism in the criminal justice and legal systems; the consequences of unequal access to health care on physical and mental well-being; the impact of environmental hazards on the health and economic opportunities of vulnerable and marginalized populations; the causes and consequences of disparities in access to equal and quality public education; and the dynamics of structural and organizational impediments to enacting change. The SJP minor introduces students to social justice scholars across the campus community, expanding networking and mentoring opportunities, exposing students to diverse ideas, methods, and theories in the area of social justice, and teaching fundamental skills and competencies for careers related to policymaking, advocacy, and research dedicated to social justice issues.

Students should listen to these interviews on the department's website from three recent sociology graduates. Their testimonials describe the varied opportunities in the major and the different career and professional paths they and other sociology majors embark on post-graduation.
More Info (https://soccrim.clas.ufl.edu/undergraduate/sociology/)

REQUIREMENTS

- Students must complete a minimum of 9 credits of coursework exclusive to the minor that cannot count toward their major(s) or other minors.
- Students must complete at least 5 courses at the 3000-level or higher and each must be at least three credits.

- A minimum of 9 credits (3 courses) must be from Sociology courses (i.e., courses that begin with the prefix SY), other than SYA4941 Internships in Sociology.
- With the approval of the Sociology Undergraduate Coordinator, students may petition to have other, relevant classes approved as substitutes within each category of electives within the minor. Such courses could include department *special topics* offerings with numbers like 3930 or 4930.
- No more than three credits of independent study (SYA 4905), research (SYA 4911) or internship (SYA 4941) may count toward the minor.

The SJP minor is not available to Sociology majors.

Code	Title	Credits
SYO 4530	Social Inequality [1]	3
Category A elective: Social Identities and Social Justice		3
Category B electives: Social Institutions and Social Justice; 1 of the 2 must be SY		6-7
Category C elective: Methodology, Internship or Research Practicum 1 [2]		3
Total Credits		**15-16**

1 Though SYG 2000 itself is not part of the 15-credit requirement of the SSJP minor, it is a prerequisite for SYO 4530 and for many of the upper-division Sociology electives in which students may be interested in enrolling. Students should plan ahead to ensure they have completed SYG 2000 prior to registering for SYO 4530 and any other relevant SY coursework. Please see or email (ugadvising@soc.ufl.edu) the Coordinator of the SSJP minor for questions related to this requirement.

2 3 credits of SYA 4905 or SYA 4911 may apply to this category as approved by the Sociology UGC.

Sociology UF Online

Sociology is the study of social life, including the significance of social relationships and institutions, the impact of social change on individuals, groups, and the environment, and the causes and consequences of inequalities and disparities of all kinds. Sociology majors examine current research and public policy pertaining to healthcare, the environment, families, employment, housing, the community, education, politics, criminal justice, and the law. Upon graduation, sociology majors are skilled in evidence-based problem solving, collecting, analyzing, and presenting data, communicating, and collaborating in diverse groups, thinking critically, and writing effectively.

- Sociology
- Sociology Minor
- Sociology Minor UF Online

- Sociology of Social Justice and Policy Minor
- Sociology UF Online

The Sociology major offers broad theoretical perspectives and rigorous methodologies to study social life and to analyze the causes and consequences of human behavior. In particular, sociologists examine how race, ethnicity, gender, sexual orientation, age, class, ability, geography, and other identities are used to create and maintain barriers to access, participation, opportunity, and outcome across all social institutions. The faculty teach and conduct research on social justice and systemic inequalities; health disparities in physical and mental well-being; aging and the life course; environmental justice and natural resource management; deviance, social control, and conflict management; gender, families, and sexualities; social and political movements; nationalism, migration, and ethnic conflict; and culture, technology, and media. Students examine the most pressing social problems in these areas, as well as how different social groups experience and perceive these issues.

Students are encouraged to listen to the interviews on the department's website from recent sociology graduates. Their testimonials describe the varied opportunities in the major and the different career and professional paths they and other sociology majors embark on post-graduation.
More Info (https://soccrim.clas.ufl.edu/undergraduate/sociology/)

requirements for the Major

Sociology majors are required to complete 32 credits of coursework in sociology and 3 credits of statistics for a total of 35 credits. All courses must be completed with minimum grades of C. At least 23 credits of sociology must be in courses numbered 3000 or higher. At least 18 credits must be completed at UF.

To graduate, students must also pass a department exam covering fundamental sociological concepts developed by the sociology faculty and administered online.

Required Major Coursework

Code	Title	Credits
SYG 2000	Introduction to Sociology (Sociology majors are encouraged to take this as their first course)	3
SYA 4110	Development of Sociological Thought (must be taken after 90 credits) [1]	4
SYA 4300	Methods of Social Research (should be completed by the end of the sixth semester) [1,2]	4
Sociology Major Electives [3]		
Sociology courses at the 3000-level or higher		15
Sociology courses at the 2000-level or higher		6
Related Coursework		
STA 2023	Introduction to Statistics 1 (must be taken no later than the end of the third semester)	3
Total Credits		**35**

1 These courses are the basis for meeting the student learning outcomes in the major's academic learning compact, therefore it is expected that they be taken at UF.

2 STA 2023 is a prerequisite for SYA 4300.

3 Students select additional sociology courses to complete the 32-credit minimum by matching interests in different substantive areas. Majors can only apply two other 2000-level courses besides SYG 2000, for a maximum of nine credits at the 2000 level. There are no prerequisites for 2000-level courses.

Course Details

All majors should review the department's guidelines for information about the major, the plan of study worksheet, descriptions of current and prospective courses, opportunities for internships or individual work, and other information.
More Info (http://soccrim.clas.ufl.edu/undergraduate/sociology/academics/requirements/)

Experiential Learning and Career Readiness

Sociology majors participate in community internships, collaborate on faculty projects, and conduct research independently on senior thesis projects. These experiential learning opportunities prepare graduates to embark upon a wide range of career paths including those in public health, government, research, teaching, and community affairs. Sociology graduates pursue careers in law, medicine, counseling or social work, and business. Others work as public policy analysts researching issues related to health and aging; social justice, environmental sustainability and resource management; urban and community development; crime and delinquency; families and communities; and racial, ethnic, and international relations. Many seek advanced degrees in sociology, psychology, counseling, law, and business.

RESEARCH

The department encourages students to engage in the research process, either by conducting their own projects in collaboration with a sociology faculty member or by working with sociology faculty on their current research. These opportunities may be pursued by conducting a senior honors thesis or registering for SYA 4911 credit. Please contact the undergraduate coordinator for more information and eligibility requirements.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 sociology course
- 2.0 UF GPA required

Semester 3

- Complete 1 additional sociology course (1 of the 2 courses must be SYG 2000)
- Complete STA 2023
- 2.75 GPA required for all 3 critical-tracking courses
- 2.0 UF GPA required

Semester 4

- 2.75 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 additional sociology course (1 of the 3 must be at the 3000/4000 level)
- 2.75 GPA required for all 5 critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete SYA 4300 or SYA 4110
- Complete 1 additional 2000 level or above sociology course (maximum of 2 sociology electives at the 2000 level)
- 2.0 UF GPA required

Semester 7

- Complete 2 additional 3000/4000 level sociology courses
- 2.0 UF GPA required

Semester 8

- Complete remaining of SYA 4110 or SYA 4300
- Complete all remaining 3000/4000 level sociology courses (7 total sociology elective courses/21 SY elective credits required)
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education

requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Arts in sociology provides students with knowledge of the basic concepts in the field, sociological perspectives on social structure, process and institutions and sociological perspectives on the relationship between individuals and society. Emphasis is on the ability to understand, analyze and interpret the sociological literature and on effectively communicating sociological concepts and research in the accepted style of presentation.

Before Graduating Students Must

- Pass a department exam developed by the sociology faculty that covers fundamental sociological concepts.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, explain and apply basic concepts in sociology.

Critical Thinking

2. Analyze, critique and interpret the sociological literature.
3. Define, classify and compare sociological perspectives on social structure, processes and institutions.
4. Define, classify and compare sociological perspectives on the relationship between individuals and society.

Communication

5. Effectively communicate in speech and in writing sociological concepts and research.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5

Curriculum

- Combination Degrees
- Hispanic and Latin American Languages, Literatures and Linguistics
- Portuguese
- Portuguese Minor
- Spanish
- Spanish and Portuguese
- Spanish for the Professions Certificate
- Spanish Minor

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one or both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

requirements for the major

The Spanish specialization requires 33 credits, beginning with foundational work in Spanish and then moves on to introductory coursework in culture, literature and linguistics. Pre-foundational coursework required to prepare the student for SPN 2240 or SPN 2340 depends on the student's background in Spanish and an appropriate placement score.

Students must earn minimum grades of C for coursework to count toward the major.

At least four 4000-level courses in Spanish must be taken at UF.

Additionally, there are separate courses designed for students who speak Spanish as a heritage language (i.e., who grew up hearing or using Spanish at home).

required major coursework | 33 credits

Code	Title	Credits
Core Courses		
Choose One:		6
SPN 2240	Intensive Communication Skills	6
& SPN 3300	and Spanish Grammar and Composition 1	

OR		
SPN 2340	Introduction to Reading and Writing Spanish for Heritage Learners	6
& SPN 3350	and Spanish Grammar and Composition for Heritage Learners	
SPN 3700	Introduction to Hispanic Linguistics	3
3000 level SPW-prefixed course		3
HLL-Spanish Major Elective [1]		
4000-level Spanish courses		12
3000 or 4000-level Spanish courses		9
Total Credits		**45**

No more than 3 credits of SPN 4905 may count toward the major.

Recommended Coursework

Students who have studied six semesters of Spanish or who have equivalent fluency may enroll in one-credit Spanish discussion sections that accompany selected Latin American studies courses in anthropology, art, business, philosophy, religion, sociology, etc. A maximum of three such courses may be credited toward the Spanish major and minor. Refer to the course description for SPN 3224.
More Info (http://spanishandportuguese.ufl.edu/undergraduate-programs/)

- SPN 3301 is the prerequisite for SPN 4420
- SPN 3700 is the prerequisite for 4000-level SPN linguistics courses
- SPN 4780 is the prerequisite for SPN 4840
- The prerequisite for 4000-level SPW courses is one SPW 3000-level course.

Concentrations

After completing the introductory courses (SPN 3700 and SPW 3xxx), students may choose to complete their remaining upper division coursework in Hispanic Literatures or Hispanic Linguistics, or a combination of the two. Courses in the literature concentration (indicated with the prefix SPW) focus on the reading, contextualization and critical analysis of literary texts from across the Spanish-speaking world and including a wide range of periods and genres. Courses in the linguistics concentration (indicated with the prefix SPN) focus on the scientific study of the Spanish language and its structures, such as morphology, phonetics, phonology and syntax; as well as more applied linguistic areas such as psycholinguistics, bilingualism, and language acquisition.

Overseas Study

Students pursuing a major or a minor in Spanish are strongly encouraged to spend a summer, a semester, or an academic year in a Spanish-speaking country. UF programs are encouraged because they allow for easy transfer of UF credits and courses or course equivalencies. Most financial aid applies in this case as well. Interested students should contact the undergraduate coordinator and the UF International Center, 170 Hub.

Placement

Students with no previous study or experience in Spanish will need to complete the beginning language sequence (SPN 1130-SPN 1131) and the intermediate language sequence (SPN 2200-SPN 2201) to prepare for SPN 2240.

Students with prior study or knowledge of Spanish who wish to enroll in a Spanish course can present dual enrollment, AP, IB, or AICE scores, or can take the WebCAPE online placement test (http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/spanish-placement/).

Any student who has lived in a Spanish-speaking country for more than a year or who has significant Spanish-speaking experience at home or in a community must consult the coordinator of the bilingual program before enrolling in any SPN language, literature, or culture course. Heritage speakers not planning to take Spanish who wish to show proficiency should consult the Department for information on how to fulfill their foreign language proficiency requirement.
More Info (http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/)

Research

Students who wish to complete a senior thesis for honors should consult Spanish faculty at least two semesters in advance of graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete SPN 1130 or a higher-level Spanish course
- 2.0 UF GPA required

Semester 3

- Complete SPN 1131 or a higher-level Spanish course
- 2.0 UF GPA required

Semester 4

- Complete SPN 2200 or continue taking higher-level Spanish coursework with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete SPN 2201 or a higher-level Spanish course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete 3 of the remaining SPANISH 3xxx/4xxx required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 7

- Complete 3 of the remaining SPANISH 3xxx/4xxx required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 8

- Complete all remaining SPANISH 4xxx required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page. (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
SPN 1130	Beginning Spanish 1 (**Critical Tracking**; CLAS Foreign Language Proficiency Requirement) [1]	5
State Core Gen Ed Composition (p. 80); Writing Requirement		3

Electives (3000 level or above, not in major)		6
	Credits	**15**
Semester Eight		
SPN or SPW courses (**Critical Tracking**; 4000 level)		9
Electives (3000 level or above, not in major)		6
	Credits	**15**
	Total Credits	**120**

1 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary, and linguistic content.

Before Graduating Students Must

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify cultural correlates, literary production, and/or linguistic structure of texts written in Spanish and/or Portuguese.

Critical Thinking

2. Analyze cultural correlates, literary production, and/or linguistic structure of texts written in Spanish and/or Portuguese.

Communication

3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography, and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary, and pronunciation, and use appropriate registers.

Spanish for the Professions Certificate

The Spanish for the Professions certificate provides the linguistic skills and cultural knowledge necessary for working in our increasingly global community, focusing specifically on the Spanish-speaking world. Coursework builds cultural background and communicative proficiency, while providing profession-specific language and experience.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)

- Latin American Studies Certificate
- Latin American Studies Minor

To be eligible to complete the certificate, students must have a minimum grade of C in SPN 3300 or SPN 3350, or equivalent background. Nine of the twelve credits must be earned in a UF program. At least nine credits of coursework must be unique to the Spanish for the Professions certificate out of all other certificates and minors.

The certificate program is open to all undergraduates.

Required Courses

Code	Title	Credits
SPN 3414	Advanced Spanish Conversation 2	3
or SPN 4314	Advanced Spanish Composition and Structure for Heritage Learners	
SPN 3510	Culture and Civilization of Spain	3
or SPN 3520	Culture and Civilization of Spanish America	
SPN 3948	Spanish in the Community	3
Select one professional Spanish course:		3
SPN 3036	Spanish for Health Professions	
SPN 3440	Commercial Spanish	
SPN 3443	Marketing and Advertising in the Spanish-Speaking World	
SPN 3451	Spanish Translation: Bridging Cultures	
SPN 3831	Spanish for the Legal Professions	
SPN 3930	Topics in Spanish and Spanish American Culture and Civilization (Spanish for Educators) [1]	
Total Credits		**12**

[1] Or an alternative selected topics section approved by the undergraduate coordinator.

Spanish Minor

The Spanish minor offers excellent preparation for a career in virtually any field, and especially in areas such as business, journalism, telecommunications, law, medicine, education, and tourism.

Statistics

Statistics, the science of learning from data, has become increasingly important as scientists, businesses, and governments rely more and more on data-driven decision-making. Statisticians work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for statisticians and their expertise in the collection and analysis of data.

Map (http://campusmap.ufl.edu/#/index/0010)

Curriculum

- Actuarial Science Minor
- Combination Degrees
- Data Analytics Certificate
- Data Science
- Statistics
- Statistics Minor

Statistics majors learn how to design studies that effectively address the purpose of a research project and how to properly analyze the data collected in such studies. Core courses cover statistical methods applicable in a wide variety of settings (e.g., regression and design of experiments) as well as the conceptual and mathematical foundations of statistics. Other courses explore specific data types often encountered in practical settings. Statistics majors have the option to minor in actuarial science, a profession involving the statistical and financial practices of insurance.

Students who wish to major in Statistics must consult a department advisor early in their programs.

Degrees

The College of Liberal Arts and Sciences offers the Bachelor of Science and the Bachelor of Arts in Statistics.

Bachelor of Arts

Intended for students who wish to pursue a career in the field of statistics or to teach statistics at the secondary-school level, but who do not currently contemplate graduate study in statistics.

Bachelor of Science

Intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

Requirements for the Major

Required Coursework for Both Degrees

The BA in Statistics requires a minimum of 42 credits in statistics and related coursework. The BS in Statistics requires a minimum of 49 credits in statistics and related coursework. It is important that the prerequisites for each course are met before the course is attempted.

Students must receive minimum grades of C within two attempts (including withdrawals) in every required core course and in every course counted toward the 12 credit elective requirement, with the exception of MAC 2312 (https://catalog.ufl.edu/search/?P=MAC%202312) and MAC 2313 (https://catalog.ufl.edu/search/?P=MAC%202313) for the BS, where students must receive a minimum grade of B. Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 (https://catalog.ufl.edu/search/?P=MAC%202312) and MAC 2313 (https://catalog.ufl.edu/search/?P=MAC%202313) for the BS (in which students must receive a minimum grade of B). A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and, additionally for the BS, a minimum GPA of 3.0 on MAC 2312 (https://catalog.ufl.edu/search/?P=MAC%202312) and MAC 2313 (https://catalog.ufl.edu/search/?P=MAC%202313). The grades from all attempts to satisfy core requirements will be used to compute the minimum GPA. A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

Academic Learning Compact

The Statistics major enables students to achieve proficiency in the fundamentals of statistical reasoning. Through study of both theoretical and applied statistics and through data analysis projects, students will gain knowledge in problem solving, statistical applications and data-based inferences. Emphasis is on developing the ability to approach real world problems and through the use of statistical methods to be able to analyze and to draw valid scientific inferences.

Before Graduating Students Must

- Complete an exam on the fundamentals of statistics, which will be 5% of the grade in STA 4211.
- Complete a data analysis project, which will be 10% of the grade in STA 4211.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, define, and describe concepts and issues in statistics, including those involved in designing a statistical study, in statistical estimation and in tests of hypotheses.

Critical Thinking

2. Identify sources of variability in a given problem setting and formulate an appropriate statistical analysis.

Communication

3. Clearly and effectively present ideas in speech and in writing concerning statistical issues and analyses of data.

MAS 4105	Linear Algebra 1	
MAS 4115	Linear Algebra for Data Science	
MHF 4102	Elements of Set Theory	
Total Credits		**42-44**

1 The course sequences, STA 4210-STA 4211 and STA 4321-STA 4322 should be completed by the end of the junior year.
2 Prerequisite: STA 4210.
3 Prerequisite: STA 4321.
4 Students pursuing the major must enroll in the restricted to STA majors only section of STA 4211.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete MAC 1147 or higher-level calculus
- 2.0 UF GPA required

Semester 3

- Complete MAC 2311
- 2.0 UF GPA required

Semester 4

- Complete MAC 2312 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete MAC 2313 and STA 3100 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete (MAS 3114 or MAS 4105)and STA 4210 and STA 4321
- 2.0 UF GPA required

Semester 7

- Complete STA 4211 and STA 4322
- 2.0 UF GPA required

Semester 8

- Complete STA 4504 and all remaining Statistics and Math and Sciences electives
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) requirements concurrently with another General Education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the college's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

MAC 2312, MAC 2313, MAS 4105, and the math elective outside of Statistics may count towards 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
Natural Science Laboratory [1]		1
	Credits	**14**
Semester Two

Semester Seven		
STA 4504	Categorical Data Analysis (**Critical Tracking**)	3
STA elective (**Critical Tracking**)		3
Electives (3000 level or above, not in major)		7
Elective		3
	Credits	**16**
Semester Eight		
Math and science elective (**Critical Tracking**)		3
STA elective (**Critical Tracking**)		3
Electives		9
	Credits	**15**
	Total Credits	**120**

[1] Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

[2] CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The Statistics major enables students to achieve proficiency in the fundamentals of statistical reasoning. Through study of both theoretical and applied statistics and through data analysis projects, students will gain knowledge in problem solving, statistical applications and data-based inferences. Emphasis is on developing the ability to approach real world problems and through the use of statistical methods to be able to analyze and to draw valid scientific inferences.

Before Graduating Students Must

- Complete an exam on the fundamentals of statistics, which will be 5% of the grade in STA 4211.
- Complete a data analysis project, which will be 10% of the grade in STA 4211.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, define, and describe concepts and issues in statistics, including those involved in designing a statistical study, in statistical estimation and in tests of hypotheses.

Critical Thinking

2. Identify sources of variability in a given problem setting and formulate an appropriate statistical analysis.

Communication

3. Clearly and effectively present ideas in speech and in writing concerning statistical issues and analyses of data.

Bachelor of Science

Statistics, the science of learning from data, has become increasingly important as scientists, businesses, and governments rely more and more on data-driven decision-making. Statisticians work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for statisticians and their expertise in the collection and analysis of data.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degrees:** Bachelor of Arts (p. 1704) | Bachelor of Science (p. 1708)
- **Credits for Degree:** 120
- **Contact:** Email (dathien@stat.ufl.edu?Subject=Statistics%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

Curriculum

- Actuarial Science Minor
- Combination Degrees
- Data Analytics Certificate
- Data Science
- Statistics
- Statistics Minor

Statistics majors learn how to design studies that effectively address the purpose of a research project and how to properly analyze the data collected in such studies. Core courses cover statistical methods applicable in a wide variety of settings (e.g., regression and design of experiments) as well as the conceptual and mathematical foundations of statistics. Other courses explore specific data types often encountered in practical settings. Statistics majors have the option to minor in actuarial science, a profession involving the statistical and financial practices of insurance.

Students who wish to major in Statistics must consult a department advisor early in their programs.

Requirements for the Major

The BS in Statistics requires 12 credits of foundation coursework, 25 credits of core coursework, and 12 credits of major electives for a minimum of 49 credits in statistics and related coursework. The BS is intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

Students must receive minimum grades of B in MAC 2312 and MAC 2313. In addition, they must receive minimum grades of C within two attempts (including withdrawals) in every other required course, and in every course counted toward the 12-credit major elective requirement. Students cannot retake foundation, core, or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 and MAC 2313 (which may be retaken to receive the minimum B grades). It is important that the prerequisites for each course are met before the course is attempted.

A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses. A minimum GPA of 3.0 is required in all attempts of MAC 2312 and MAC 2313. The grades from all attempts to satisfy foundation and core requirements will be used to compute the minimum GPA.

A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

Required Foundation Coursework

Sustainability Studies

A Sustainability Studies major prepares students for global citizenship with a firm grounding in the natural sciences, the social sciences, and the humanities. Students in the major explore how to maintain ecological and environmental health, create economic welfare, and pursue social justice in a changing world. Sustainability studies students gain understanding of the ways in which these three goals are interdependent and explore how they best can be pursued over the long term on local, national, and global levels.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** Email (advisor@advising.ufl.edu?Subject=Sustainability%20Studies%20Major)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Sustainability Studies prepares students for global citizenship while providing a broad foundation of sustainability knowledge and professional skill sets. Students gain experience and put their learning to work in the capstone internship course, Sustainability in Action.

Curriculum

- Sustainability Studies
- Sustainability Studies Minor

Sustainability studies investigates the means to maintain environmental health, create economic welfare, and pursue social justice in a changing world. Students gain an understanding of the ways in which these three goals are interdependent and explore how they can best be pursued in the long term at local, national, and global levels.

requirements for the major

Students are required to complete 33 credits of sustainability studies coursework; 15 of these 33 credits must be at the 3000/4000 level. All courses must be completed with minimum grades of C and a minimum of 15 credits of sustainability studies courses must be completed at UF.

For more information about Sustainability Studies and listings of newly available Core Courses and Cluster Courses, please visit the program website (https://sustainability.clas.ufl.edu/).

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Five courses required by the end of the fifth semester, selected from:

- IDS 2154; required in either semester 1 *or* 2
- 3 Sustainability Studies Core courses; one from each of the disciplinary areas
- 2 Sustainability Studies Cluster courses; one at the 3000 level or higher

Semester 1

- Complete IDS 2154 or one critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete IDS 2154 or one critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.75 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 3.0 UF GPA required

Semester 5

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 3.0 UF GPA required

Semester 6

- Complete 1 additional tracking course

Semester 7

- Complete 2 additional Cluster courses

Semester 8

- Complete 1 Cluster course
- Complete IDS 4942

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

Cluster courses may not count towards the 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
IDS 2154	Facets of Sustainability (**Critical Tracking**)	3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Mathematics		3
CLAS Foreign Language Proficiency Requirement [1]		4-5
Elective		2
	Credits	**15-16**
Semester Two		
Core course (**Critical Tracking**)		3
ECO 2023	Principles of Microeconomics (recommended; Gen Ed Social and Behavioral Sciences)	4
Quest 1		3
CLAS Foreign Language Proficiency Requirement [1]		3-5
	Credits	**13-15**
Semester Three		
Core course (**Critical Tracking**)		3
ECO 2013	Principles of Macroeconomics (recommended; State Core Gen Ed Social and Behavioral Sciences (p. 80))	4
STA 2023	Introduction to Statistics 1 (recommended; Gen Ed Mathematics)	3
State Core Gen Ed Biological or Physical Sciences (p. 80)		3
Elective (or CLAS Foreign Language Proficiency Requirement if 4-3-3 language option) [1]		3
	Credits	**16**
Semester Four		
Core course (**Critical Tracking**)		3
Quest 2		3
Gen Ed Biological or Physical Sciences (area not taken in semester 3)		3
Natural Science Laboratory [2]		1
State Core Gen Ed Humanities (p. 80)		3
Gen Ed Social and Behavioral Sciences		3
	Credits	**16**
Semester Five		
Cluster courses (**Critical Tracking**)		6
Gen Ed Composition; Writing Requirement		3
Gen Ed Physical Sciences		3
Elective (3000 level or above, not in major)		3
	Credits	**15**
Semester Six		
Cluster courses (**Critical Tracking**)		6
Gen Ed Humanities		3
Elective (3000 level or above; not in major)		3
Elective		3
	Credits	**15**
Semester Seven		
Cluster courses (**Critical Tracking**)		6
Gen Ed Biological Sciences		3
Electives (3000 level or above, not in major)		6
	Credits	**15**
Semester Eight		
IDS 4942	Sustainability in Action (capstone course; **Critical Tracking**)	3
Gen Ed Humanities		3
Electives (3000 level or above, not in major)		6
Electives		3
	Credits	**15**
	Total Credits	**120**

1 CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

2 Degree Requirements (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Approved Cluster Courses

APPROVED CLUSTER COURSES

Cluster A | Ethics, Culture and Human Behavior

Academic Learning Compact

The Bachelor of Arts in Sustainability Studies requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture, and urban and regional planning.

Before Graduating Students Must

- Complete a capstone or independent research project, present the results to a committee of the program's faculty, and receive acceptable assessment.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Define and explain sustainability scholarship, including natural scientific, social scientific, and humanistic approaches.
2. Define and explain the relationship of sustainability to ethics, culture and human behavior; economics, law and policy; production systems, and the built environment; ecology and environmental stewardship.

Critical Thinking

3. Critically assess sustainability principles and practices.

Communication

4. Effectively write and/or orally communicate a range of approaches, frameworks, principles, and practices of sustainability.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

- Writing assignments
- Projects
- Presentations
- Internships

Sustainability Studies Minor

The interdisciplinary Sustainability Studies minor benefits from the teaching and research of faculty in multiple departments and colleges, and complements any major.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 18 | Completed with minimum grades of C

Department Information

Sustainability Studies prepares students for global citizenship while providing a broad foundation of sustainability knowledge and professional skill sets. Students gain experience and put their learning to work in the capstone internship course, Sustainability in Action.
Website (https://sustainability.clas.ufl.edu/)

CONTACT

Email (Study-Sustainability@ufl.edu) | 352.273.2380

P.O. Box 117325
302 ANDERSON HALL
GAINESVILLE FL 32611-7325
Map (http://campusmap.ufl.edu/#/index/0007)

Curriculum

- Sustainability Studies
- Sustainability Studies Minor

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
IDS 2154	Facets of Sustainability	3
Select five approved electives with at least one from each cluster: [1]		15
Cluster A: Ethics, Culture and Human Behavior		
Cluster B: Economics, Law and Policy		
Cluster C: Production Systems and the Built Environment		
Cluster D: Ecology and Environmental Stewardship		
Total Credits		**18**

[1] A minimum of three courses of no fewer than three credits each must be at the 3000-level or above.

Students may apply to enroll in IDS 4942, a 3-credit capstone course that has a service learning, internship, or integrative research project component. If accepted into this capstone course students need only complete four cluster courses (12 credits), one from each of the four clusters.

Approved Cluster Courses

Courses for each cluster include those listed as approved cluster courses (p.) for the Sustainability Studies major, plus the following options:

Code	Title	Credits
Cluster A		
AMH 2631	History of Sustainability	3
ANT 2402	Anthropology of Sustainability	3
CLA 2521	Classical Antiquity and Sustainability (GE-H)	3

PSY 3626	Psychology of Sustainability (Gen Ed Humanities)	3
REL 2071	Sustainability and Religion (GE-H)	3
Cluster B		
ECO 2310	Economics of Sustainability	3
POS 2032	Politics of Sustainability (GE-S)	3
Cluster C		
No additional courses		
Cluster D		
BSC 2862	Global Change Ecology and Sustainability (GE-B)	3
GEO 2351	Geographical Sciences and Sustainability	3

Teaching English as a Second Language Certificate

The Teaching English as a Second Language (TESL) certificate is for students who want to teach English as a second language to adults, overseas or in the US.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 18 | Completed with minimum grades of C
- More info (http://lin.ufl.edu/undergraduate/tesl/tesl-certificate/)
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Department Information

The Linguistics Department offers the PhD, MA (both thesis and non-thesis), BA, and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level.
Website (https://lin.ufl.edu/)

CONTACT

Email (jr.garner@ufl.edu) | 352.392.0639 (tel) | 352.392.8480 (fax)

P.O. Box 115454
4131 TURLINGTON HALL
GAINESVILLE FL 32611-5454
Map (http://campusmap.ufl.edu/#/index/0267)

Curriculum

- Combination Degrees
- Linguistics
- Linguistics Minor
- Teaching English as a Second Language Certificate
- Teaching English as a Second Language Minor

The certificate is open to students in any undergraduate program.

Students may earn either the TESL certificate or minor but not both.

Required Courses

Code	Title	Credits
LIN 2011	Introduction to Linguistics [1]	3
LIN 3680	Modern English Structure	3
LIN 4721	Second Language Acquisition [1]	3
TSL 3360	Introduction to Teaching English as a Second Language	3
TSL 3378	Pronunciation for Teaching English as a Second Language	3
TSL 4940	Teaching English as a Second Language Internship [2]	3
Total Credits		**18**

[1] Linguistics majors may count LIN 2011 and LIN 4721 toward both the major in linguistics and the TESL certificate.
[2] Prerequisite: completion of at least four of the courses above. Fifth course must be taken simultaneously with TSL 4940.

Teaching English as a Second Language Minor

The Teaching English as a Second Language (TESL) minor is for undergraduates who want to work in English language programs in the United States or abroad.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15 | Completed with minimum grades of C
- **More Info**

Department Information

The Linguistics Department offers the PhD, MA (both thesis and non-thesis), BA, and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level.

Curriculum

- Combination Degrees
- Linguistics
- Linguistics Minor
- Teaching English as a Second Language Certificate
- Teaching English as a Second Language Minor

All work must be completed at UF. Only LIN 2011 and LIN 4721 may count toward both a linguistics major and a TESL minor. Students may earn either the TESL certificate or minor but not both.

Required Courses

Code	Title	Credits
LIN 2011	Introduction to Linguistics	3
LIN 3680	Modern English Structure	3
LIN 4721	Second Language Acquisition	3
TSL 3360	Introduction to Teaching English as a Second Language	3
TSL 3378	Pronunciation for Teaching English as a Second Language	3
Total Credits		**15**

Theories and Politics of Sexuality Minor

The Theories and Politics of Sexuality minor is useful for students who want to learn more about the place of sexuality and the institutions and practices organized around it (marriage, reproduction, the law, etc.) in life and culture.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

The Department of Gender, Sexuality, and Women's Studies offers academic programs, grants graduate and undergraduate degrees, and advances research in the discipline. Faculty in the department successfully compete for national fellowships and grants, win research and teaching awards, and produce rigorous and transformative research.

Curriculum

- Combination Degrees
- Community Engagement Certificate
- Data, Science, and Technology in Sociocultural Contexts Certificate
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
- Violence Against Women Certificate
- Women's Studies
- Women's Studies Minor

Students take courses taught by award-winning faculty in the Department of Gender, Sexuality, and Women's Studies, and may take approved courses offered in departments across the university as electives. There are also opportunities to engage in experiential learning through internships and mentored research. The minor is open to students from across the university, including those outside the College of Liberal Arts and Sciences.

Requirements

- Students may count three credits of WST 2611 or WST 2612 or department-approved Quest courses towards their elective credits for the minor; the remaining 12 credits must be at the 3000-level or above.
- No more than three credits of WST 4905 independent study, WST 4911 undergraduate research, or WST 4940 internship may apply to the minor.
- All courses must be passed with minimum grades of C except internships, which are taken S/U.
- Six transfer credits can apply toward the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot be double counted toward their major(s) or other minors.

Each semester, courses approved for this minor are listed on the Women's Studies courses webpage and flagged TPS.
Electives Outside the Department (http://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/)
Electives Inside the Department (https://wst.ufl.edu/courses/courses-in-the-center-undergraduate/)

Required Courses

Code	Title	Credits
WST 3603	Sexualities Studies	3
or ENG 4844	Queer Theory	
Women's Studies-approved TPS electives (3000-level or above) [1]		12
Total Credits		**15**

[1] 3 credits of WST 2611 or WST 2612 or department-approved Quest courses may be substituted for one 3 credit 3000-level approved elective.

Translation Studies Certificate

The Translation Studies certificate prepares students with advanced foreign language proficiency to use these skills in the global marketplace. Learn the foundations of translation theory, and apply an array of tools, methods, and approaches to translation of a variety of texts. In the capstone project, the student translates a text in their area of expertise under the supervision of area, translation, and language specialists.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 9 | Completed with minimum grades of C
- Student Learning Outcomes (SLOs) (https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes)

Certificates must comply with the Certificate Policy.

Admission Requirements

- An A- or higher in 3rd-year (advanced) language courses in Classics, LLC or SPS
  - OR: high score of proficiency on a standardized language exam or equivalent;
- At least one writing enhanced course;
- Informal recommendation from language instructor willing to oversee capstone project;
- Informal recommendation from instructor in student's major willing to oversee capstone project.

Required Courses

Violence Against Women Certificate

Violence against women is a significant issue in the US and internationally, requiring a prepared workforce of scholars and practitioners to develop and implement effective prevention and intervention efforts. The certificate in Violence Against Women equips students with the knowledge and ability to understand and analyze frameworks and evidence about violence against women, including approaches for research, prevention, and intervention.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 9 | Completed with minimum grades of C

Women's Studies

Women's Studies advances the understanding of people, culture, and society in context. It includes thinking critically about how people are shaped by and shape culture and society and how gender and sexuality connect with other factors such as ability, age, class, ethnicity, nation, and race. The program deepens students' critical thinking, analytical skills, and practice.

About this Program

- Violence Against Women Certificate
- Women's Studies
- Women's Studies Minor

Women's Studies advances the understanding of people, culture, and society in context. It includes thinking critically about how people are shaped by and shape culture and society and how gender and sexuality connect with other factors such as ability, age, class, ethnicity, nation, and race. The program deepens students' critical thinking, analytical skills, and practice.

Women's Studies majors take courses (https://wst.ufl.edu/courses/courses-in-the-center-undergraduate/) taught by award-winning faculty in the Department of Gender, Sexuality, and Women's Studies, and may take approved courses (https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/) offered in departments across the university as electives. They pursue fulfilling internships (https://wst.ufl.edu/internships/) that serve communities in Florida and beyond. They participate in research teams, get funding for their research and professional development, including going to conferences. They build skills and networks that make them competitive for graduate study and meaningful careers in many fields. They are campus leaders who go on to diverse careers in industry, public service, policy, arts, education, health, law, technology, and more. Women's Studies majors enjoy a strong post-graduation employment rate and graduate school acceptance rate.

Women's Studies majors have the option to complete a **general** path, or choose a specialization in **health, international perspectives, race,** or **sexuality**.

Women's Studies is also simple to add to another major. Up to 15 credits can count toward both majors. More information on double majoring is available here. (https://www.advising.ufl.edu/academicinfo/multiple-majors-dual-degrees/)

Minors are available in Women's Studies, Theories and Politics of Sexuality, and Health Disparities in Society.

More Info (http://wst.ufl.edu/)

Requirements for the Major

The Women's Studies major requires 30 credits of coursework in Women's Studies core and elective courses, at least 24 credits of which must be at the 3000/4000 level. All 30 credits must be completed with minimum grades of C. A minimum of 18 credits for the major must be taken at UF. Students have the option to take elective courses from a variety of departments in addition to those classes offered under the WST prefix designation.

Students are encouraged to fulfill some of the requirements with appropriate study-abroad courses and may petition the program to count courses outside of WST toward the major if they have significant (greater than 50 percent) gender, sexuality, and women's studies content. Many courses offered in other departments are approved for Women's Studies credit and a semester-by-semester list of them is maintained on the program's website.
More Info (https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/)

Required Major Coursework

A minimum of 18 credits for the major must be taken at UF. A minimum of 24 credits for the major must be at the 3000-level or above.

All students, regardless of concentration, take 15 credits of required coursework:

- WST 3015 (https://catalog.ufl.edu/search/?P=WST%203015) draws on various materials and methodologies to explore the social construction of women and gender as they intersect with other forms of power; 3 credits.
- One course from each major core category: Category A (Race), Category B (Sexualities), and Category C (Transnational); 9 credits total.
- WST 4935 (https://catalog.ufl.edu/search/?P=WST%204935) is taken in the final year and allows students to reflect on their experience in the major and carry their interests forward through structured independent research tied to their scholarly or career interests; 3 credits.

All students also take 15 credits of major electives. Students should check the specialization descriptions to see guidelines for selecting elective courses

Code	Title	Credits

2 Other WST courses and approved electives from other departments.

Specializations

General

Students in the general specialization tailor their coursework for maximum exposure to the various issues covered by Gender, Sexuality, and Women's Studies scholarship.

Students will take:

1. 15 credits of core requirements comprising WST 3015 (https://catalog.ufl.edu/search/?P=WST%203015), one Category A (Race) core course, one Category B (Sexualities) core course, one Category C (Transnational) core course, and WST 4935 (https://catalog.ufl.edu/search/?P=WST%204935).
2. 15 credits from an approved list of electives available on the program’s website (https://wst.ufl.edu/courses/), updated each semester.

Note:

- Elective credits may include up to 6 credits of experiential learning such as internship, undergraduate research, independent study, or honors thesis
- Elective credits may come from courses with the WST prefix (https://wst.ufl.edu/courses/) or approved courses from other programs (https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/)
- At least 24 of the required 30 credits for the major must be at the 3000-level or higher
- If the student takes 6 credits at the 2000-level or lower, at least three of the credits must have a WST prefix

Health Equity and Social Justice | HESJ

This specialization emphasizes research andscholarly ways of theorizing how gender combines with other social factors to influence health and how addressing social inequalities can improve health and health care access across communities.

Students will take:

1. 15 credits of core requirements comprising WST 3015 (https://catalog.ufl.edu/search/?P=WST%203015), one Category A (Race) core course, one Category B (Sexualities) core course, one Category C (Transnational) core course, and WST 4935 (https://catalog.ufl.edu/search/?P=WST%204935).
2. 9 credits of approved HESJ electives from an approved list of electives available on the program’s website (https://wst.ufl.edu/courses/), updated each semester.
3. 6 additional credits of approved WST electives which may or may not carry the HESJ designation

Note:

- Elective credits may include up to 6 credits of experiential learning such as internship, undergraduate research, independent study, or honors thesis
- Elective credits may come from courses with the WST prefix (https://wst.ufl.edu/courses/) or approved courses from other programs (https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/)

- At least 24 of the required 30 credits for the major must be at the 3000-level or higher
- If the student takes 6 credits at the 2000-level or lower, at least three of the credits must have a WST prefix

International Perspectives on Gender | IPG

This specialization emphasizes research and scholarly ways of theorizing experiences of people around the globe, with transnational perspectives on gender, race, sexuality, and nation.

Students will take:

1. 15 credits of core requirements comprising WST 3015 (https://catalog.ufl.edu/search/?P=WST%203015), one Category A (Race) core course, one Category B (Sexualities) core course, one Category C (Transnational) core course, and WST 4935 (https://catalog.ufl.edu/search/?P=WST%204935).
2. 9 credits of approved IPG electives (3 of which can also fulfill Core Category C requirement) from an approved list of electives available on the program's website (https://wst.ufl.edu/courses/), updated each semester.
3. 6 additional credits of approved WST electives which may or may not carry the IPG designation (OR 9 additional credits if one of the courses taken to fulfill #1 also fulfills #2 above); total credits for the major must add up to 30

Note:

- Elective credits may include up to 6 credits of experiential learning such as internship, undergraduate research, independent study, or honors thesis
- Elective credits may come from courses with the WST prefix (https://wst.ufl.edu/courses/) or approved courses from other programs (https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/)
- At least 24 of the required 30 credits for the major must be at the 3000-level or higher
- If the student takes 6 credits at the 2000-level or lower, at least three of the credits must have a WST prefix

Race, Power, and Social Justice | RPSJ

This specialization emphasizes research and scholarly ways of theorizing race in social organization and culture and its connections with gender and other social factors.

Students will take:

1. 15 credits of core requirements comprising WST 3015 (https://catalog.ufl.edu/search/?P=WST%203015), one Category A (Race) core course, one Category B (Sexualities) core course, one Category C (Transnational) core course, and WST 4935 (https://catalog.ufl.edu/search/?P=WST%204935).
2. 9 credits of approved RPSJ electives (3 of which can also fulfill Core Category A requirement) from an approved list of RPSJ electives available on the program's website (https://wst.ufl.edu/courses/), updated each semester.
3. 6 additional credits of approved WST electives which may or may not carry the RPSJ designation (OR 9 additional credits if one of the courses taken to fulfill #1 also fulfills #2 above); total credits for the major must add up to 30

Note:

- Elective credits may include up to 6 credits of experiential learning such as internship, undergraduate research, independent study, or honors thesis
- Elective credits may come from courses with the WST prefix (https://wst.ufl.edu/courses/) or approved courses from other programs (https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/)
- At least 24 of the required 30 credits for the major must be at the 3000-level or higher
- If the student takes 6 credits at the 2000-level or lower, at least three of the credits must have a WST prefix

Theories and Politics of Sexuality | TPS

This specialization emphasizes research and scholarly ways of theorizing sex and sexualities in social organization and culture and their connections with other social factors.

Students will take:

1. 15 credits of core requirements comprising WST 3015 (https://catalog.ufl.edu/search/?P=WST%203015), one Category A (Race) core course, one Category B (Sexualities) core course, one Category C (Transnational) core course, and WST 4935 (https://catalog.ufl.edu/search/?P=WST%204935).
2. 9 credits of approved TPS electives (3 of which can also fulfill Core Category B requirement) from an approved list of electives available on the program's website (https://wst.ufl.edu/courses/), updated each semester.

3. 6 additional credits of approved WST electives which may or may not carry the TPS designation (OR 9 additional credits if one of the courses taken to fulfill #1 also fulfills #2 above); total credits for the major must add up to 30

Note:

- Elective credits may include up to 6 credits of experiential learning such as internship, undergraduate research, independent study, or honors thesis
- Elective credits may come from courses with the WST prefix (https://wst.ufl.edu/courses/) or approved courses from other programs (https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/)
- At least 24 of the required 30 credits for the major must be at the 3000-level or higher
- If the student takes 6 credits at the 2000-level or lower, at least three of the credits must have a WST prefix

Combination Degree Programs

Women's Studies is a vibrant discipline that contributes to and is informed by multiple disciplines and fields of study. The undergraduate and masters level programs provide general training in critical thinking, written and oral communication, and specific training in analysis of gender and how it connects with other social systems such as race, class, and sexualities. The combination BA/MA degree offers a useful program for well-qualified students who may want to pursue further studies in a PhD program or pursue careers in a variety of fields such as social service, law, art, health, business, education, policy planning, government and nongovernment organizations, and international development. This accelerated program allows students to complete both the BA and the MA in 5 years, rather than the typical 6 years if done separately. The BA/MA program provides advanced training in research and analytic skills, which will be helpful for future employment and/or doctoral studies.
More info (http://wst.ufl.edu/undergraduate-studies/bama-degree/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1099).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Women's Studies is a flexible major without a specific gateway course or prerequisites for most upper-division courses. All courses with the WST prefix can count toward the major; additionally, the major counts some gender- and sexuality-related courses from other programs as well. Two 2000-level courses can count toward the major; however, at least one of those courses must have the WST prefix. Check the program's website for a semester-specific listing of approved courses.
More Info (https://wst.ufl.edu/courses/)

Students should:

- Maintain a 2.0 overall UF GPA and a 2.5 critical-tracking GPA
- Complete three Women's Studies courses by the fifth semester; at least one of which must be 3000-level or above. WST 3015 is recommended.
- Completing at least one Category A, B, or C class by semester 5 is highly recommended.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete one Women's Studies course
- 2.0 UF GPA required

SEMESTER 4

- Complete 1 additional Women's Studies course (WST 3015 recommended) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 5

- Complete 1 additional Women's Studies course with a 2.5 critical-tracking GPA. (recommendation: WST 3015, or at least one Category A, B, or C class if not taken yet). At least one of the three courses taken to date for the major must be at the 3000 level or higher.
- 2.0 UF GPA required

SEMESTER 6

- Complete 2 additional Women's Studies courses at the 3000 or 4000 level; at least one class must be WST 3015 if not taken yet (recommendations: at least one Category A, B, or C class if not taken yet). At least three of the five courses taken to date for the major must be at the 3000-level or higher.
- 2.0 UF GPA required

SEMESTER 7

- Complete 3 additional Women's Studies courses at the 3000 or 4000 level (recommendations: at least one Category A, B, or C class if not taken yet, WST 4935 this semester or next). At least six of the eight courses taken to date for the major must be at the 3000-level or higher.
- 2.0 UF GPA required

SEMESTER 8

- Complete 2 additional Women's Studies courses at the 3000 level at least one Category A, B, or C class if not taken yet, WST 4935 if not taken yet. At least eight of the ten courses taken to date for the major must be at the 3000-level or higher.
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

Women's Studies and gender-related courses that count towards major requirements may not count towards the 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1		3
State Core Gen Ed Composition (p. 80); Writing Requirement		3
State Core Gen Ed Mathematics (p. 80)		3

Academic Learning Compact

The Bachelor of Arts in Women and Gender Studies provides knowledge of the core concepts of the interdisciplinary fields of gender and women's studies. It offers insights into gender's role in shaping human experience in US and international contexts. Students will learn the theories behind gender and women's studies and how to interpret texts in light of those theories. They will also learn the field's research methods and they will demonstrate the ability to communicate critical perspectives in the field.

Before Graduating Students Must

- Satisfactorily complete an internship with an outside agency, a service learning course or a research-based project submitted for evaluation to core or affiliated women's studies faculty. Assessment will be based on SLOs 1-3.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify the terminology and concepts central to the interdisciplinary field of gender and women's students.

Critical Thinking

2. Examine and interpret material using the theory and research methods of gender and women's studies and apply these ideas to current social issues.

Communication

3. Present ideas concerning gender and women's studies in spoken and written form.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3
WST 3015	I	I	I
WST 3415	R	R	R
WST 4935	R	R	R
WST 4940	R	R	R
Internship, Service Learning, or Research Project	A	A	A

Assessment Types

- Entering and final essays
- Internship, service learning, or research project

Women's Studies Minor

Women's Studies advances the understanding of people, culture, and society in context. It includes thinking critically about how people are shaped by and shape culture and society and how gender and sexuality connect with other factors such as ability, age, class, ethnicity, nation, and race.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

The Department of Gender, Sexuality, and Women's Studies offers academic programs, grants graduate and undergraduate degrees, and advances research in the discipline. Faculty in the department successfully compete for national fellowships and grants, win research and teaching awards, and produce rigorous and transformative research.
Website (http://wst.ufl.edu/)

Curriculum

- Combination Degrees
- Community Engagement Certificate
- Data, Science, and Technology in Sociocultural Contexts Certificate
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
- Violence Against Women Certificate
- Women's Studies
- Women's Studies Minor

Students take courses taught by award-winning faculty in the Department of Gender, Sexuality, and Women's Studies, and may take approved courses offered in departments across the university as electives. There are also opportunities to engage in experiential learning through internships and mentored research. The minor is open to students from across the university, including those outside the College of Liberal Arts and Sciences.

Requirements

- Students may count three credits of WST 2322, WST 2611, WST 2612, or department-approved Quest courses towards their elective credits for the minor; the remaining 12 credits must be at the 3000-level or above.
- No more than three credits of WST 4905 independent study, WST 4911 undergraduate research, or WST 4940 internship may apply to the minor.
- All courses must be completed with minimum grades of C except internships, which are taken S/U.
- Six transfer credits can apply toward the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot be double counted toward their major(s) or other minors.

Each semester, courses approved for this minor are listed on the Women's Studies courses webpage.
Electives Outside the Department (http://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/)
Electives Inside the Department (https://wst.ufl.edu/courses/courses-in-the-center-undergraduate/)

Required Courses

Code	Title	Credits
WST 3015	Interdisciplinary Perspectives in Women's Studies	3
Women's Studies-approved electives (3000-level or above) [1]		12
Total Credits		**15**

[1] 3 credits of WST courses at the 2000-level or department-approved Quest courses may be substituted for one 3 credit 3000-level approved elective.

Zoology

Zoology majors focus on the study of individual organisms and populations, as well as their relationships to each other and the environment, with the core foundation of evolution and ecology. Courses also emphasize the disciplines of anatomy, behavior, genetics, physiology, and other specialized fields.

About this Program

- **College:** Liberal Arts and Sciences (p. 1089)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **More info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. The department's teaching and research provide the integrative and conceptual foundations of the life sciences.

Curriculum

- Biology UF Online
- Biology | CALS
- Biology | CLAS

- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

Courses introduce Zoology majors to a wide variety of topics while allowing individual interests to be pursued. Advanced undergraduate students are encouraged to participate in research with faculty.

Most career opportunities require advanced studies beyond the bachelor's degree. This includes preparation for graduate studies or employment in disciplines such as zoology, ecology, conservation, and biology research; preparation for medical, dental, or veterinary programs; or preparation for secondary-school teaching.

Ultimately, the undergraduate degree in zoology will be shaped by students' coursework, laboratory experience, field work, and the instructors they encounter. These experiences will help to shape their goals as biologists with a focus on Zoology.

Majors should work both with a department advisor and a CLAS advisor. CLAS advisors will assist with degree requirements, university and college policy and course selection. Department advisors will help students select appropriate graduate programs, guide them in the admissions process, and help identify appropriate career choices.
More Info (https://biology.ufl.edu/undergraduates/zoology/)

requirements for the Major

A Zoology major requires a minimum of 32 credits of zoology coursework plus a minimum of 31 credits of foundation coursework in chemistry, physics, and mathematics/statistics for a total of 63-67 credits. All coursework must be completed with minimum grades of C.

Students must complete at least three upper-level Zoology courses from the Department of Biology (excluding ZOO 4905, ZOO 4911 and ZOO 4940 at the University of Florida.

Code	Title	Credits
Required Foundation Coursework		
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry Laboratory	
CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory	
CHM 2210	Organic Chemistry 1	3
CHM 2211	Organic Chemistry 2	5
& 2211L	and Organic Chemistry Laboratory	
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	3-4
or STA 2023	Introduction to Statistics 1	
Select one:		8-10
Option A		
PHY 2053	Physics 1	
& 2053L	and Laboratory for PHY 2053	
PHY 2054	Physics 2	
& 2054L	and Laboratory for PHY 2054	
Option B		
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for PHY 2048	
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for PHY 2049	
Total Foundation Coursework Credits		*31-34*
Required Major Coursework		
BSC 2010	Integrated Principles of Biology 1	
& 2010L	and Integrated Principles of Biology Laboratory	
BSC 2011	Integrated Principles of Biology 2	
& 2011L	and Integrated Principles of Biology Laboratory 2	
PCB 3063	Genetics	
Zoology or zoology-related Major Electives		
Select at least three courses in zoology:		9-10
One or more 3000/4000-level ZOO course(s) offered through the Department of Biology [1]		

BSC 3402	Theory and Practice in the Biological Sciences	
BSC 4936	Critical Analysis of Biological Research	
PCB 4043C	General Ecology	
PCB 4674	Evolution	
PCB 4723C	Physiology and Molecular Biology of Animals	
Additional 3000-4000-level zoology elective courses [2, 3]		11
Total Major Coursework Credits		*32-33*
Total Credits		**114-122**

1 Students may not apply ZOO 4232, ZOO 4905, ZOO 4911, or ZOO 4940 toward this requirement.

2 Including up to two zoology major-approved biological science courses (https://biology.ufl.edu/undergraduates/approvedcourses/) (3000/5000 level) outside of zoology.

3 Up to six credits of Individual Studies in Zoology will count toward this requirement:

- BOT 4911
- BSC 3911
- BSC 4910
- BSC 4912
- ZOO 4905
- ZOO 4911

Students should begin the chemistry and math sequences as soon as possible. A full year of calculus and a course in statistics (such as STA 2023) are highly recommended.

Relevant Minors and Certificates

Majors in Zoology can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. For instance, a Zoology major can earn a minor in chemistry by adding just two chemistry courses: CHM 3400, CHM 3610, or any 4000-level CHM course. Students could also consider language and humanities minors. Note that Zoology majors cannot minor in Biology, nor can Biology majors minor in Zoology, as the curricula for the Zoology and Biology majors are too similar.

Zoology students might want to consider the UFTeach Program. There is a severe shortage of qualified high school science teachers in Florida and nationwide. Students interested in the high-demand teaching profession should see a biology department advisor or the UFTeach advisor. Students who complete the UFTeach minor in science teaching and a BS in Zoology will have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Research

All Zoology majors are strongly encouraged to participate in research. Research experience is valuable on many levels: it diversifies a student's college experience; it teaches students how scientists apply the knowledge gained in the classroom to real-world questions; it gives students the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting-edge scientific questions and techniques; it enhances students' resume/CV if they apply to graduate or professional school; and finally, it is essential in helping students determine if science is a good career choice for them.
More Info (https://biology.ufl.edu/undergraduates/research/)

CLAS Zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, HHMI Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Please visit Undergraduate Research for more information regarding course credit. Students who plan to enroll for course credit must contact potential research mentors before the end of drop/add. If they miss the drop/add window, they should still contact potential research mentors, if only to discuss upcoming opportunities.
More Info (https://cur.aa.ufl.edu/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete one of the following in BSC, CHM, or MAC: BSC 2010/BSC 2010L; CHM 1025 or CHM 2045/CHM 2045L; MAC 1114, MAC 1140, MAC 1147, or MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L; and BSC 2010/BSC 2010L or MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010/BSC 2010L and MAC 2311 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete CHM 2046/CHM 2046L and BSC 2011/BSC 2011L with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete at least one 3000/4000 level course towards the required core coursework (3000/4000 level ZOO course, PCB 3063, BSC 3402, PCB 4043C, PCB 4674, PCB 5415C, PCB 4723C, or approved biological science course)
- 2.0 UF GPA required

Semester 7

- Complete Physics I requirement: PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
- Complete at least two 3000/4000 level courses towards the required core coursework
- 2.0 UF GPA required

Semester 8

- Complete all remaining major course requirements.
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing, Civic Literacy, summer enrollment, and Quest requirements while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) requirements concurrently with another general education requirement (typically, GE-C, H, or S) as part of the CLAS Basic Distribution requirements. One of the two general education mathematics courses must be a pure math course.

College of Liberal Arts and Sciences allows students additional flexibility in its Distribution Requirements. Students may count a maximum of 6 credits TOTAL from the CLAS Distribution course lists towards Humanities, Social and Behavioral Sciences, or Biological and Physical Sciences, with no more than 3 credits of Humanities, 3 credits of Social and Behavioral Sciences, or 6 credits of Biological or Physical Sciences.

The full list of major-specific requirements for this major can be found on the Overview tab. College of Liberal Arts and Sciences degree requirements can be found on the College's degree requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext).

Approved Zoology electives outside of the department may not count towards the 3000-level or above elective outside of the major. CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049Lmay count towards 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities, if needed)		3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences; Natural Science Laboratory) [1]	4
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4

BSC 4936	Critical Analysis of Biological Research (recommended elective)	2
CLAS Foreign Language Proficiency Requirement [1]		3-5
Electives (3000 level or above, not in major, if needed)		4
	Credits	**15-18**
Semester Eight		
Zoology course		3-5

Zoology course (or other approved biological sciences course)	3-4
Electives (3000 level or above, not in major, if needed)	6
Elective (or CLAS Foreign Language Proficiency Requirement if 4-3-3 language option) [1]	3
Credits	**15-18**
Total Credits	**120**

[1] CLAS Foreign Language Proficiency Requirement (https://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/#degreerequirementstext)

Academic Learning Compact

The Bachelor of Science in Zoology offers students an education in the life sciences with an emphasis on animal systems. Students gain knowledge about the diversity of life (its evolution and significance) and about the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization, and uses of information, energy, and nutrients in living systems). They will learn about the scientific method and how it facilitates the discovery of new knowledge in zoology and biology. This includes how to critically evaluate hypotheses and conclusions in science using verifiable data and how to clearly and effectively communicate the major concepts and hypotheses in zoology and biology and in an appropriate style of presentation.

Before Graduating Students Must

- Pass an assessment in the two or three 3000/5000-level Zoology courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Identify, describe and define the basic terminology, concepts, methodologies, and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
BSC 2010	I	I	I

Curriculum

- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

A minimum of nine credits must be completed at UF. Individual Studies in Zoology will not count toward the minor:

Code	Title	Credits
BSC 4910	Individual Mentored Research in Biology	3
BSC 4912	Advanced Mentored Research in Biology	4
BOT 4911	Undergraduate Research in Botany	3
ZOO 4905	Individual Studies in Zoology	1-4
ZOO 4911	Undergraduate Research in Zoology	3
ZOO 4940	Practical Experience in Teaching Zoology	2

Students pursuing majors of biology, entomology, food science and human nutrition, microbiology, natural resource conservation or wildlife ecology are not eligible to receive the minor in zoology.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2	
PCB or ZOO courses from the Department of Biology [1]		9-10
Total Credits		**17-18**

[1] Minimum of three courses and nine credits; must include at least one ZOO course.
Not all PCB and ZOO courses are offered by the Department of Biology. Students should search “Zoology” or “Biological Sciences” on https://one.uf.edu/soc/ to ensure that their desired courses are in the correct department.

Excluding PCB 1050, PCB 1051, PCB 2050, PCB 2441, PCB 3134, PCB 3601C, PCB 4233, PCB 4522, PCB 4917, ZOO 4232, and any other courses not offered by the Department of Biology.

Natural Resources and Environment | School of

The School of Natural Resources and Environment provides interdisciplinary environmental degree programs and develops leaders with integrated thinking about natural and social systems. The school's undergraduate curriculum spans the range of human knowledge needed to solve complex environmental problems not amenable to narrowly based solutions.

Academic Advising
103 Black Hall
352.846.1634

Established

1995

Degrees

Bachelor of Science in environmental science with specializations in environmental science and natural resource management, and a Bachelor of Arts in environmental science with specializations in environmental education, environmental policy and environmental policy and business.

Internships and Career Guidance

The dean’s office maintains a list of potential sources of internships. The school grants course credit for internships (S/U grades, 1-3 credits, one per semester up to a maximum of three semesters) to enable maintenance of student status.

Programs

The school operates horizontally across UF’s structure of academic disciplines, offering more than 200 courses taught in 50 departments. Faculty members from these departments are affiliated with the school.

Scholarships

General financial aid information is available from the Office of Student Financial Affairs. Students are eligible for scholarships awarded by the College of Agricultural and Life Sciences.

Academic Policies

Admission Requirements

Admission requirements for freshmen and students other than first-semester freshmen are found in the College of Agricultural and Life Sciences' Academic Policies.

School Requirements and Regulations

Students admitted to the school have full responsibility for registering for appropriate courses and fulfilling school and university requirements. During their first term in the school, students must obtain academic advising and a plan of study worksheet from 103 Black Hall.

Students should review the relevant information in this catalog each term to track and plan the progress of their academic work. Failure to understand and follow these guidelines could cause unnecessary hardship, delay and expense.

Probation

Refer to the College of Agricultural and Life Sciences' Academic Policies.

Degree Requirements

Graduation requires satisfactory completion of 120 credits for the BS or BA degree and a cumulative 2.00 GPA in both the upper-division and the overall UF GPA.

Graduating with Honors (p. 1840)

Programs

MAJORS

- Combination Degrees
- Environmental Science

MINORS

- Environmental Science Minor

Combination Degrees

Eligible seniors in the School of Natural Resources and Environment can also participate in a combination degree that combines a BA/BS in environmental science with a Master of Science in interdisciplinary ecology.
More Info (p. 1857)

Environmental Science

Environmental Science integrates natural and social sciences to study the interrelationships between people and nature. Using an interdisciplinary approach that incorporates academic fields like ecology, hydrology, earth and soil sciences, natural resource management, ethics, as well as environmental policy and law, the Environmental Science program empowers students to analyze complex environmental issues across multiple perspectives. In doing so, Environmental Science students learn to assess causes of environmental problems and apply their knowledge to develop solutions to these problems.

Curriculum

- Combination Degrees
- Environmental Science
- Environmental Science Minor

The School of Natural Resources and Environment's environmental science degrees approach complex environmental issues with multidisciplinary academic knowledge and interdisciplinary perspectives to prepare graduates for jobs in environmental consulting companies, government environmental offices, land and water management agencies, or non-government organizations. SNRE's environmental science degrees are campus-wide programs, allowing students to learn from experts in multiple academic units at the University of Florida. Multiple course options are available to meet most degree requirements, giving students a large degree of flexibility in customizing their program of study to suit their individual interests with the assistance of the advising staff.

About half of Environmental Science students advance to graduate or professional degree programs. The combination of the school's broad undergraduate degree with a subsequent graduate or professional degree is highly marketable.

The school also offers a combination degree program that pairs a bachelor's degree in environmental science with a Master of Science in interdisciplinary ecology.

Requirements and Differences Between BA and BS Degrees

Both Bachelor of Science and Bachelor of Arts degrees prepare students for a wide range of careers in environmental science. The BS places greater emphasis on the natural sciences, whereas the BA is more focused on the social sciences and their application to economics, policy, and management.

BS students interested in seeking admission to a medical, veterinary, or similar professional school after graduation may pursue a Pre-Health track (subject to permission by the undergraduate coordinator). Students in either degree interested in advancing to law school after graduation are encouraged to review UF's pre-Law resources.
More Info (https://www.advising.ufl.edu/pre-law/)

Subject to permission by the undergraduate coordinator, BS students interested in seeking admission to a medical, veterinary, or similar professional school after graduation may pursue a Pre-Health track. Students in either degree interested in advancing to law school after graduation are encouraged to review Pre-Law resources.
More Info (https://www.advising.ufl.edu/pre-law/)

The freshmen and sophomore years lay a foundation of coursework through critical-tracking courses for building later expertise. Students need to know the natural sciences of physics, chemistry, and biology. Study of microeconomics and macroeconomics is required to understand the human economy. Introductory statistics empowers students to independently evaluate quantitative data. College algebra (BA) and an introduction to calculus (BS) enable students to work with rates of change, the heart of ecological science.

Critical-Tracking Requirement	BA	BS
Biological Sciences	BSC 2010/L & BSC 2011/L (8 credits)	BSC 2010/L & BSC 2011/L (8 credits)
General Chemistry	CHM 2045/L (4 credits)	CHM 2045/L & CHM 2046/L (8 credits)
Economics	ECO 2013 & ECO 2023 (8 credits)	AEB 3103 (4 credits) or both ECO 2013 & ECO 2023 (8 credits)
Mathematics	MAC 1147 (4 credits)	MAC 2311 (4 credits) or MAC 2233 (3 credits)
Physics	PHY 2004 (3 credits) or PHY 2020 (3 credits)	PHY 2004/L (4 credits) or PHY 2048/L (4 credits) or PHY 2053/L (5 credits)
Statistics	STA 2023 (3 credits)	STA 2023 (3 credits)
Public Speaking	AEC 3030C (3 credits) or SPC 2608 (3 credits)	N/A
Total	**33 credits**	**30-36 credits**

In addition to the critical tracking requirements, students admitted as freshmen are responsible for completing State Core General Education as well as the university's General Education, Quest, and Writing Requirements.

Certain critical tracking and core courses simultaneously fulfill General Education and Writing Requirements, and students should seek to maximize the number of overlapping courses for efficiency. For most students, all but 15 credits of the General Education requirement are met through the BA and BS curriculum. Incoming credit (e.g. AP, AICE, IB, CLEP, etc.) may further reduce the number of General Education courses students need to complete.

Students should work closely with their academic advisor to ensure satisfactory progress towards degree completion throughout their academic career.

After General Education and most critical-tracking coursework is complete, students begin to take the degree's core courses (41-46 credits for the BA, 41-47 credits for the BS), providing a base of common knowledge and experience in subjects essential to Environmental Science. During the fourth year, students enroll in SNRE's capstone course that further develops and assesses critical thinking skills by confronting conflicts of ecological and economic paradigms, synthesizing across physical, biological, and social systems, and engaging diverse knowledge and views to help resolve key environmental problems.

Core Requirement	BA	BS
Foundation Courses	11 credits	11 credits
General Ecology	3-4 credits	3-4 credits
Ecology of Specific Systems	N/A	3 credits
Earth and Soil Science	3-4 credits	3-4 credits
Global and Hydrologic Systems	3-4 credits	3-4 credits
Methods and Technology	N/A	3-4 credits
Organic Chemistry	N/A	3 credits
Natural Resource Management	3-4 credits	3-4 credits
Resource Economics	3-4 credits	N/A
Environmental Ethics	3 credits	3 credits
Environmental Policy and Law	6 credits	3-4 credits
Social Science Perspectives	3 credits	N/A
Capstone Course	3 credits	3 credits
Total[1]	**41-47 credits**	**41-47 credits**

1 Students should select a combination of core courses not to exceed 44 credits.

Beyond the core requirements, each student selects additional credits from a wide list of approved electives according to individual interest, allowing them to broaden their skillset or specialize in a particular aspect of environmental science.

Elective Requirement	BA	BS
Communication & Leadership	3-6 credits	N/A
Additional Skills and Concepts	6-15 credits	6-15 credits
Biological Sciences	3-12 credits	6-15 credits
Physical Sciences	N/A	3-15 credits
Human Dimensions	6-15 credits	3-9 credits
Total[1]	**28-31 credits**	**28-31 credits**

1 A minimum of 28 approved elective credits are required. Additional elective credits may be needed to reach 120 credit hours for degree completion.

Bachelor of Arts

Environmental Science integrates natural and social sciences to study the interrelationships between people and nature. Using an interdisciplinary approach that incorporates academic fields like ecology, hydrology, earth and soil sciences, natural resource management, ethics, as well as environmental policy and law, the Environmental Science program empowers students to analyze complex environmental issues across multiple perspectives. In doing so, Environmental Science students learn to assess causes of environmental problems and apply their knowledge to develop solutions to these problems.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **School:** Natural Resources and Environment (p. 1745)
- **Degrees:** Bachelor of Arts (p. 1748) | Bachelor of Science (p. 1758)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council.

Curriculum

- Combination Degrees
- Environmental Science
- Environmental Science Minor

The School of Natural Resources and Environment's environmental science degrees approach complex environmental issues with multidisciplinary academic knowledge and interdisciplinary perspectives to prepare graduates for jobs in environmental consulting companies, government environmental offices, land and water management agencies, or non-government organizations. SNRE's environmental science degrees are campus-wide programs, allowing students to learn from experts in multiple academic units at the University of Florida. Multiple course options are available to meet most degree requirements, giving students a large degree of flexibility in customizing their program of study to suit their individual interests with the assistance of the advising staff.

About half of Environmental Science students advance to graduate or professional degree programs. The combination of the school's broad undergraduate degree with a subsequent graduate or professional degree is highly marketable.

The school also offers a combination degree program that pairs a bachelor's degree in environmental science with a Master of Science in interdisciplinary ecology.

Requirements and Differences Between BA and BS Degrees

Both Bachelor of Science and Bachelor of Arts degrees prepare students for a wide range of careers in environmental science. The BS places greater emphasis on the natural sciences, whereas the BA is more focused on the social sciences and their application to economics, policy, and management.

BS students interested in seeking admission to a medical, veterinary, or similar professional school after graduation may pursue a Pre-Health track (subject to permission by the undergraduate coordinator). Students in either degree interested in advancing to law school after graduation are encouraged to review UF's pre-Law resources.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete 2 of 9 critical-tracking courses, excluding labs: AEC 3030C or SPC 2608, BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, ECO 2013, ECO 2023, MAC 1147, PHY 2020 or PHY 2004, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses
- Complete at least 1 core course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 9 critical-tracking courses
- Complete at least 2 core courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete at least 2 core courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete at least 2 core courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete EVS 4021 (capstone) and the remaining courses for the degree
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities with International) [1]		3
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
EVS 1010	First Year Environmental Science [2]	1
MAC 1147	Algebra and Trigonometry (**Critical Tracking**; State Core Gen Ed Mathematics) [1]	4
Gen Ed Composition (according to placement)		3
	Credits	**15**

Semester Two		
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
Civic Literacy Requirement (recommended: POS 2041)		3
State Core Gen Ed Humanities (p. 80)		3
	Credits	**14**
Semester Three		
Quest 2 (Gen Ed Social & Behavioral Sciences or Gen Ed Biological Sciences and Physical Sciences) [1]		3
AEC 3030C or SPC 2608	Effective Oral Communication (**Critical Tracking**) or Introduction to Public Speaking	3
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	4
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
Earth and Soil Science Core course		3-4
	Credits	**16-17**
Semester Four		
ECO 2023	Principles of Microeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	4
ENC 2256	Writing in the Disciplines (Writing in Environmental Science; Gen Ed Composition)	3
EVS 3000 & 3000L	Environmental Science 1 and Environmental Science Laboratory	4
Select one:		3
PHY 2004	Applied Physics 1 (**Critical Tracking**; Gen Ed Physical Sciences)	
PHY 2020	Introduction to Principles of Physics (**Critical Tracking**; Gen Ed Physical Sciences)	
General Ecology Core course		3-4
	Credits	**17-18**
Semester Five		
EVS 3500	Environmental Science 2	3
Environmental Ethics Core course		3
Environmental Policy and Law Core course		3
Resource Economics Core course		3-4
Natural Resource Management Core course		3-4
	Credits	**15-17**
Semester Six		
Environmental Policy and Law Core course		3
Global and Hydrologic Systems Core course		3-4
Social Science Perspectives Core course		3
Electives for the major [3]		6
	Credits	**15-16**
Semester Seven		
Electives for the major [3]		15
	Credits	**15**
Semester Eight		
EVS 4021	Critical Thinking in Environmental Science (**Critical Tracking**)	3
Electives for the major (as needed) [3]		8-11
	Credits	**11-14**
	Total Credits	**120**

1 One of the courses selected to meet the Quest 1, Quest 2, and State Core Humanities requirements should be chosen to simultaneously meet the International requirement.

2 Required for all summer B and fall freshman admits, including HSAA students admitted as freshmen. Transfer students should enroll in ALS 4932 instead. PaCE and all other students should contact their academic advisor or undergraduate coordinator for alternate options.

3 A minimum of 28 elective credit hours are required from the Approved Electives list or by approval from the undergraduate coordinator. Additional elective credit may be needed to reach 120 credit hours for degree completion.

Core Requirements

BACHELOR OF ARTS

The Bachelor of Arts degree in environmental science focuses on the social sciences that connect the natural sciences and engineering to society. Emphasis is placed in the areas of environmental policy & law and resource economics, making the B.A. the preferred degree for students interested in the policy aspects of environmental consulting and public agency work or advancing to law school.

Core Requirements for the Bachelor of Arts

Students should select a combination of core courses not to exceed 44 credit hours.

Code	Title	Credits
Required Foundation Courses		
EVS 1010	First Year Environmental Science [1]	1
ENC 2256	Writing in the Disciplines (Writing in Environmental Science; Gen Ed Composition)	3
EVS 3000	Environmental Science 1	4
& 3000L	and Environmental Science Laboratory	
EVS 3500	Environmental Science 2	3
Environmental Ethics		
Select one:		3
AEB 4126	Agricultural and Natural Resource Ethics (Writing Requirement; 6000 words.)	
AEC 3322	Moral Leadership in Agriculture and Natural Resources	
ANT 4403	Environment and Cultural Behavior	
EVR 3004	Eco-Civic Engagement	
PSY 3626	Psychology of Sustainability	
REL 2104	Environmental Ethics (Gen Ed Humanities;Writing Requirement; 2000 words.)	
General Ecology		**3-4**
PCB 4043C	General Ecology (Gen Ed Biological Sciences)	
or WIS 3404	Natural Resource Ecology	
Earth and Soil Science		
Select one:		3-4
GEO 2200	Dynamic Planet Earth	
& 2200L	and Dynamic Planet Earth Laboratory (Gen Ed Physical Sciences)	
GLY 2010C	Physical Geology (Gen Ed Physical Sciences)	
GLY 2030C	Environmental and Engineering Geology (Gen Ed Physical Sciences)	
SWS 3022	Introduction to Soils in the Environment	
& 3022L	and Introduction to Soils in the Environment Laboratory (Gen Ed Physical Sciences)	
Global and Hydrologic Systems		
Select one:		3-4
AOM 4643	Environmental Hydrology: Principles and Issues	
BSC 3307C	Climate Change Biology	
FNR 4343C	Forest Water Resources	
GEO 3250	Climatology (Gen Ed Physical Science)	
GEO 3334	Managing for a Changing Climate (Gen Ed Physical Science and International)	
GLY 3074	Oceans and Global Climate Change	
GLY 3882C	Hydrogeology and Human Affairs (Gen Ed Physical Science)	
OCE 1001	Introduction to Oceanography	
SWS 4244	Wetlands	
Environmental Policy and Law		
Select two:		6
AEB 4123	Agricultural and Natural Resource Law	
AEB 4282	International Humanitarian Assistance (Gen Ed International)	
AEB 4283	International Development Policy	
FNR 4660	Natural Resource Policy and Economics	
Natural Resource Management		
Select one:		3-4
ALS 3133	Agricultural and Environmental Quality	
EVR 3323	Introduction to Ecosystem Restoration	
FAS 4305C	Introduction to Freshwater Fishery Science	
FNR 4624C	Field Operations for Management of Ecosystems	
FNR 4080	Sustainable Ecotourism Development	
GEO 3372	Conservation of Resources	
IPM 3022	Fundamentals of Pest Management	

SWS 4116	Environmental Nutrient Management	
SWS 4233	Soil and Water Conservation	
SWS 4245	Water Resource Sustainability	
WIS 4523	Human Dimensions of Natural Resource Conservation	
Resource Economics		**3-4**
AEB 3450	Introduction to Natural Resource and Environmental Economics (Gen Ed Social and Behavioral Sciences)	
or ECP 3302	Environmental Economics and Resource Policy	
Social Science Perspectives		
Select one:		3
ANT 2402	Anthropology of Sustainability	
BCN 1582	International Sustainable Development (Gen Ed Social and Behavioral Science and International)	
GEO 4033	Climate Change and Health	
GEO 4034	Weather, Climate, and Society	
IDS 2154	Facets of Sustainability	
SYD 4020	Population	
WIS 4551	Diverse Perspectives in Conservation	
WST 3610	Gender, Race and Science	
Required Capstone Course		
EVS 4021	Critical Thinking in Environmental Science	3
Total Credits		**41-46**

[1] Required for all Summer B and Fall freshman admits, including HSAA students admitted as freshmen. Transfer students should enroll in ALS 4932 instead. PaCE and all other students should contact their academic advisor or undergraduate coordinator for alternate options.

Approved Electives

Beyond the core requirements, each student selects additional credits from a wide list of approved electives according to individual interest, allowing students to broaden their skillset or specialize in a particular aspect of environmental science.

Elective Requirement

- Communication & Leadership 3-6 credits
- Additional Skills and Concepts 6-15 credits
- Biological Sciences 3-12 credits
- Human Dimensions 6-15 credits

A minimum of 28 approved elective credits are required. Additional elective credit may be needed to reach 120 credit hours for degree completion.

Students interested in taking courses not on the master list, including requirements for pre-Veterinary and pre-Medical students, must contact the undergraduate coordinator for approval.

Students can substitute appropriate graduate courses for electives with approval of the undergraduate coordinator and permission of the instructor. To substitute a 5000-level course or higher, the student must have senior standing and a minimum upper division GPA of 3.0.

Master List

Code	Title	Credits
Communication & Leadership		
Select 3-6 credits		
AEC 3043	Communication and Leadership for Agricultural and Life Sciences Policy Issues	3
AEC 3071	Social Media Strategy and Leadership for Agricultural and Life Sciences	3
AEC 3073	Intercultural Communication (Gen Ed International)	3
AEC 3209	Instructional and Event Planning in Agricultural and Life Sciences	3
AEC 3413	Working with People: Interpersonal Leadership Skills	3
AEC 3414	Leadership Development	3
AEC 4434	Communication and Leadership in Groups and Teams	3
AEC 4465	Global Leadership (Gen Ed Social and Behavioral Science and International)	3
ALS 3415	Challenge 2050: Developing Tools for Changing the World	3
Biological Sciences		
Select 3-12 credits		
AGR 3303	Genetics (Gen Ed Biological Science)	3

ALS 3153	Agricultural Ecology	3
ALS 4162	Consequences of Biological Invasions	3
ANT 3514C	Introduction to Biological Anthropology	4
BOT 2011C	Plant Diversity	4
BOT 2710C	Practical Plant Taxonomy	3
BOT 3151C	Local Flora of North Florida	3
BSC 4821C	Evolutionary Biogeography	3
ENY 3005 & 3005L	Principles of Entomology and Principles of Entomology Laboratory	4
ENY 4201	Insect Ecology	3
ENY 4202	Ecology of Vector-Borne Disease	3
ENY 4208	Ecology and Conservation of Pollinators	3
ENY 4161	Insect Classification	3
ENY 4210	Insects and Wildlife	3
ENY 4455C	Social Insects	3
ENY 4571	Honey Bee Biology	3
FAS 4105C	Field Ecology of Aquatic Organisms	3
FAS 4175	Algae Biology and Ecology	3
FAS 4270	Marine Ecological Processes	3
FAS 4271C	Invasion Ecology of Aquatic Animals	3
FAS 4274	Freshwater Ecology	3
FAS 4364	Marine Adaptations: Environmental Physiology	3
FNR 3131C	Dendrology/Forest Plants	3
FNR 3500C	Forest Ecology (Gen Ed Biological Science)	3
FNR 3622	Fire Ecology and Management	2
FNR 4010	Ecology and Restoration of Longleaf Pine Ecosystems	3
GEO 4300	Environmental Biogeography	3
PCB 2441	Biological Invaders	3
PCB 3063	Genetics	4
PCB 3402	Disease Ecology and Evolution	3
PCB 4674	Evolution	4
PCB 3601C	Plant Ecology	3
PCB 4553	Population Genetics	4
PCB 4674	Evolution	4
PLP 4653C	Basic Fungal Biology	4
PLS 3004C	Principles of Plant Science	3
VME 4013	Aquatic Wildlife Health Issues	3
VME 4016	Manatee Health and Conservation	3
WIS 3402 & 3402L	Wildlife of Florida and Wildlife of Florida Laboratory	4
WIS 3410	The Ecology of Climate Change	3
WIS 3553C	Introduction to Conservation Genetics	4
WIS 4203C	Landscape Ecology and Conservation	3

WST 4002	Data Feminisms	3
WST 4349	Ecofeminism	3
SYA 4930	Special Study (Introduction to Conservation Criminology)	3
WOH 3404	Global History of Energy	3
Additional Skills and Concepts		
Any courses listed under Global and Hydrologic Systems Core not counted towards the core requirement, as well as:		
Select 6-15 credits		
Business Management & Finance		
ACG 2021	Introduction to Financial Accounting	
AEB 3133	Principles of Agribusiness Management	
AEC 4500	Program Development and Evaluation	
BUL 4310	The Legal Environment of Business	
FIN 3403	Business Finance	
MAN 3025	Principles of Management	
Economics		
ECO 3101	Intermediate Microeconomics	
ECO 3203	Intermediate Macroeconomics	
ECO 3704	International Trade	
FAS 4363	Marine Protected Areas	
Introductory GIS [1]		
FNR 3400C	Forest Resources Information Systems	
GIS 3043	Foundations of Geographic Information Systems	
GIS 3072C	Geographic Information Systems	
SWS 4720C	GIS in Soil and Water Science	
URP 4273	Survey of Planning Information Systems	
Environmental Technology		
AOM 4521	Introduction to Biofuels	
HOS 3281C	Organic and Sustainable Crop Production	
Additional Math and Statistics		
MAC 2233	Survey of Calculus 1 (Gen Ed Mathematics)	
MAC 2311	Analytic Geometry and Calculus 1 (Gen Ed Mathematics)	
STA 3024	Introduction to Statistics 2	
STA 3100	Programming With Data in R	
Methods		

FNR 3410C	Natural Resource Sampling
GIS 3001C	Geovisualization and Map Design
GIS 4021C	Aerial Photo Interpretation
GIS 4037	Digital Image Processing
GIS 4324	GIS Analysis of Hazard Vulnerability
PLS 4613	Aquatic Weed Control
SWS 4800	Environmental Soil and Water Monitoring Techniques
SYA 4300	Methods of Social Research
Additional Concepts	
AGR 4212	Alternative Cropping Systems
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory
EES 3008	Energy and Environment
EVS 4905	Individual Study in Environmental Science
EVS 4911	Supervised Research in Environmental Science
EVS 4915	Honors Thesis Research in Environmental Science
EVS 4932	Special Topics in Environmental Science
EVS 4949	Environmental Science Internship [3]
FNR 4070C	Environmental Education Program Development
GEO 2242	Extreme Weather (Gen Ed Physical Science)
GIS 2114	The World & Big Data
SWS 4204	Urban Soil and Water Systems
URP 4000	Preview of Urban and Regional Planning

1 Students should not enroll in more than one of the following courses: FNR 3400C, GIS 3043, GIS 3072C, URP 4273, SWS 4720C.

2 No more than six credit hours from any combination of these courses (or equivalents) may be counted towards the degree.

3 Not all classes offered under this course number may be eligible for Additional Skills and Concepts credit. Check with your advisor or undergraduate coordinator.

Academic Learning Compact

Environmental Science is the science of humanity's role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy, and law.

Before Graduating Students Must

- Complete at least one course in each of the foundation areas.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn To

Student Learning Outcomes | SLOs

Content

1. Apply acquired knowledge of basic terminology, concepts, methodologies, and theories in the physical and biological sciences that describe environmental systems.
2. Apply acquired knowledge of essential concepts in the social sciences that describe human activity in the environment.

Critical Thinking

3. Develop reasoned solutions to environmental problems through application of the scientific method.

Communication

4. Communicate knowledge, ideas, and reasoning clearly, effectively, and objectively in both written and oral forms.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4

ASSESSMENT TYPES

- Oral presentation or written essay

Bachelor of Science

Environmental Science integrates natural and social sciences to study the interrelationships between people and nature. Using an interdisciplinary approach that incorporates academic fields like ecology, hydrology, earth and soil sciences, natural resource management, ethics, as well as environmental policy and law, the Environmental Science program empowers students to analyze complex environmental issues across multiple perspectives. In doing so, Environmental Science students learn to assess causes of environmental problems and apply their knowledge to develop solutions to these problems.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **School:** Natural Resources and Environment (p. 1745)
- **Degrees:** Bachelor of Arts (p. 1748) | Bachelor of Science (p. 1758)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council.
Website (http://snre.ifas.ufl.edu/)

Curriculum

- Combination Degrees
- Environmental Science
- Environmental Science Minor

The School of Natural Resources and Environment's environmental science degrees approach complex environmental issues with multidisciplinary academic knowledge and interdisciplinary perspectives to prepare graduates for jobs in environmental consulting companies, government

environmental offices, land and water management agencies, or non-government organizations. SNRE's environmental science degrees are campus-wide programs, allowing students to learn from experts in multiple academic units at the University of Florida. Multiple course options are available to meet most degree requirements, giving students a large degree of flexibility in customizing their program of study to suit their individual interests with the assistance of the advising staff.

About half of Environmental Science students advance to graduate or professional degree programs. The combination of the school's broad undergraduate degree with a subsequent graduate or professional degree is highly marketable.

The school also offers a combination degree program that pairs a bachelor's degree in environmental science with a Master of Science in interdisciplinary ecology.

Requirements and Differences Between BA and BS Degrees

Both Bachelor of Science and Bachelor of Arts degrees prepare students for a wide range of careers in environmental science. The BS places greater emphasis on the natural sciences, whereas the BA is more focused on the social sciences and their application to economics, policy, and management.

BS students interested in seeking admission to a medical, veterinary, or similar professional school after graduation may pursue a Pre-Health track (subject to permission by the undergraduate coordinator). Students in either degree interested in advancing to law school after graduation are encouraged to review UF's pre-Law resources.
More Info (https://www.advising.ufl.edu/pre-law/)

Subject to permission by the undergraduate coordinator, BS students interested in seeking admission to a medical, veterinary, or similar professional school after graduation may pursue a Pre-Health track. Students in either degree interested in advancing to law school after graduation are encouraged to review Pre-Law resources.
More Info (https://www.advising.ufl.edu/pre-law/)

The freshmen and sophomore years lay a foundation of coursework through critical-tracking courses for building later expertise. Students need to know the natural sciences of physics, chemistry, and biology. Study of microeconomics and macroeconomics is required to understand the human economy. Introductory statistics empowers students to independently evaluate quantitative data. College algebra (BA) and an introduction to calculus (BS) enable students to work with rates of change, the heart of ecological science.

Critical-Tracking Requirement	BA	BS
Biological Sciences	BSC 2010/L & BSC 2011/L (8 credits)	BSC 2010/L & BSC 2011/L (8 credits)
General Chemistry	CHM 2045/L (4 credits)	CHM 2045/L & CHM 2046/L (8 credits)
Economics	ECO 2013 & ECO 2023 (8 credits)	AEB 3103 (4 credits) or both ECO 2013 & ECO 2023 (8 credits)
Mathematics	MAC 1147 (4 credits)	MAC 2311 (4 credits) or MAC 2233 (3 credits)
Physics	PHY 2004 (3 credits) or PHY 2020 (3 credits)	PHY 2004/L (4 credits) or PHY 2048/L (4 credits) or PHY 2053/L (5 credits)
Statistics	STA 2023 (3 credits)	STA 2023 (3 credits)
Public Speaking	AEC 3030C (3 credits) or SPC 2608 (3 credits)	N/A
Total	**33 credits**	**30-36 credits**

In addition to the critical tracking requirements, students admitted as freshmen are responsible for completing State Core General Education as well as the university's General Education, Quest, and Writing Requirements.

Certain critical tracking and core courses simultaneously fulfill General Education and Writing Requirements, and students should seek to maximize the number of overlapping courses for efficiency. For most students, all but 15 credits of the General Education requirement are met through the BA and BS curriculum. Incoming credit (e.g. AP, AICE, IB, CLEP, etc.) may further reduce the number of General Education courses students need to complete.

Students should work closely with their academic advisor to ensure satisfactory progress towards degree completion throughout their academic career.

After General Education and most critical-tracking coursework is complete, students begin to take the degree's core courses (41-46 credits for the BA, 41-47 credits for the BS), providing a base of common knowledge and experience in subjects essential to Environmental Science. During the fourth year, students enroll in SNRE's capstone course that further develops and assesses critical thinking skills by confronting conflicts of ecological and economic paradigms, synthesizing across physical, biological, and social systems, and engaging diverse knowledge and views to help resolve key environmental problems.

Core Requirement	BA	BS
Foundation Courses	11 credits	11 credits
General Ecology	3-4 credits	3-4 credits
Ecology of Specific Systems	N/A	3 credits
Earth and Soil Science	3-4 credits	3-4 credits
Global and Hydrologic Systems	3-4 credits	3-4 credits
Methods and Technology	N/A	3-4 credits
Organic Chemistry	N/A	3 credits
Natural Resource Management	3-4 credits	3-4 credits
Resource Economics	3-4 credits	N/A
Environmental Ethics	3 credits	3 credits
Environmental Policy and Law	6 credits	3-4 credits
Social Science Perspectives	3 credits	N/A
Capstone Course	3 credits	3 credits
Total[1]	**41-47 credits**	**41-47 credits**

1 Students should select a combination of core courses not to exceed 44 credits.

Beyond the core requirements, each student selects additional credits from a wide list of approved electives according to individual interest, allowing them to broaden their skillset or specialize in a particular aspect of environmental science.

Elective Requirement	BA	BS
Communication & Leadership	3-6 credits	N/A
Additional Skills and Concepts	6-15 credits	6-15 credits
Biological Sciences	3-12 credits	6-15 credits
Physical Sciences	N/A	3-15 credits
Human Dimensions	6-15 credits	3-9 credits
Total[1]	**28-31 credits**	**28-31 credits**

1 A minimum of 28 approved elective credits are required. Additional elective credits may be needed to reach 120 credit hours for degree completion.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete 2 of 8 or 9 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, ECO 2013 and ECO 2023 or AEB 3103, MAC 2233 or MAC 2311, PHY 2004/PHY 2004L or PHY 2048/PHY 2048L or PHY 2053/PHY 2053L, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 2

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 3

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 4

- Complete 2-3 additional critical-tracking courses
- Complete at least 1 core course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 5

- Complete all 9 critical-tracking courses
- Complete at least 2 core courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

SEMESTER 6

- Complete at least 2 core courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

SEMESTER 7

- Complete at least 2 core courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

SEMESTER 8

- Complete EVS 4021 (capstone) and the remaining courses for the degree
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities) [1]		3
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
EVS 1010	First Year Environmental Science [2]	1
Select one:		3-4
MAC 2233	Survey of Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	
MAC 2311	Analytic Geometry and Calculus 1	
Gen Ed Composition (according to placement)		3
	Credits	**14-15**
Semester Two		
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4

CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
Civic Literacy Requirement (recommended: POS 2041)		3
State Core Gen Ed Humanities (p. 80)		3
	Credits	**14**
Semester Three		
Quest 2 (Gen Ed Social & Behavioral Sciences or Gen Ed Biological Sciences and Physical Sciences)		3
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	4
ENC 2256	Writing in the Disciplines (Writing in Environmental Science; Gen Ed Composition)	3
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
Earth and Soil Science Core course		3-4
	Credits	**16-17**
Semester Four		
Select one:		4
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
AEB 3103	Principles of Food and Resource Economics (Gen Ed Social and Behavioral Sciences)	
EVS 3000 & 3000L	Environmental Science 1 and Environmental Science Laboratory	4
Select one:		4-5
PHY 2004 & 2004L	Applied Physics 1 and Laboratory for Physics 2004 (**Critical Tracking**; Gen Ed Physical Sciences)	
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for PHY 2048 (**Critical Tracking**; Gen Ed Physical Sciences)	
PHY 2053 & 2053L	Physics 1 and Laboratory for PHY 2053 (**Critical Tracking**; Gen Ed Physical Sciences)	
Organic Chemistry Core course		3
	Credits	**15-16**
Semester Five		
EVS 3500	Environmental Science 2	3
Select one:		3-4
ECO 2023	Principles of Microeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
Elective for the major if AEB 3103 was used to satisfy the economics critical tracking requirement [3]		
Environmental Ethics Core course		3
General Ecology Core course		3-4
Global and Hydrologic Systems Core course		3-4
	Credits	**15-18**
Semester Six		
Ecology of Specific Systems Core course		3
Environmental Policy & Law Core course		3-4
Methods and Technology Core course		3-4
Natural Resource Management Core course		3-4
Elective for the major [3]		3
	Credits	**15-18**
Semester Seven		
Electives for the major [3]		16
	Credits	**16**
Semester Eight		
EVS 4021	Critical Thinking in Environmental Science (**Critical Tracking**)	3
Electives for the major (as needed) [3]		6-15
	Credits	**9-18**
	Total Credits	**120**

1 One of the courses selected to meet the Quest 1, Quest 2, and State Core Humanities requirements should be chosen to simultaneously meet the International requirement.

2 Required for all Summer B and Fall freshman admits, including HSAA students admitted as freshmen. Transfer students should enroll in ALS 4932 instead. PaCE and all other students should contact their academic advisor or undergraduate coordinator for alternate options.

3 A minimum of 28 elective credit hours are required from the Approved Electives list or by approval from the undergraduate coordinator. Additional elective credit may be needed to reach 120 credit hours for degree completion.

Core Requirements

BACHELOR OF SCIENCE

The Bachelor of Science degree in environmental science emphasizes the applied sciences and the basic sciences from which they derive. The track is designed to prepare for employment or for graduate or professional school.

Core Requirements for the Bachelor of Science

Students should select a combination of core courses not to exceed 44 credit hours.

Code	Title	Credits
Required Foundation Courses		
ENC 2256	Writing in the Disciplines (Writing in Environmental Science; Gen Ed Composition; 6000 words)	3
EVS 1010	First Year Environmental Science [1]	1
EVS 3000 & 3000L	Environmental Science 1 and Environmental Science Laboratory	4
EVS 3500	Environmental Science 2	3
Environmental Ethics		**3**
Select one:		
AEB 4126	Agricultural and Natural Resource Ethics (6000 words)	
AEC 3322	Moral Leadership in Agriculture and Natural Resources	
ANT 4403	Environment and Cultural Behavior	
EVR 3004	Eco-Civic Engagement	
PSY 3626	Psychology of Sustainability	
REL 2104	Environmental Ethics (Gen Ed Humanities; 2000 words)	
General Ecology		**3-4**
Select one:		3-4
PCB 4043C	General Ecology	
WIS 3404	Natural Resource Ecology	
Ecology of Specific Systems		**3**
Select one:		
ALS 3153	Agricultural Ecology	
ENY 4201	Insect Ecology	
ENY 4208	Ecology and Conservation of Pollinators	
FAS 4274	Freshwater Ecology	
FNR 3500C	Forest Ecology (Gen Ed Biological Science)	
FNR 4010	Ecology and Restoration of Longleaf Pine Ecosystems	
SWS 4303C	Soil Microbial Ecology	
WIS 4501	Introduction to Wildlife Population Ecology	
Organic Chemistry		**3**
Select one:		
BCH 3023	Elementary Organic and Biological Chemistry	
CHM 2200	Fundamentals of Organic Chemistry	
CHM 2210	Organic Chemistry 1	
Earth and Soil Science		**3-4**
Select one:		
GEO 2200 & 2200L	Dynamic Planet Earth and Dynamic Planet Earth Laboratory (Gen Ed Physical Sciences)	
GLY 2010C	Physical Geology (Gen Ed Physical Sciences, BS only)	
GLY 2030C	Environmental and Engineering Geology (Gen Ed Physical Sciences)	
SWS 3022 & 3022L	Introduction to Soils in the Environment and Introduction to Soils in the Environment Laboratory (Gen Ed Physical Sciences)	
Global and Hydrologic Systems		**3-4**
Select one:		
AOM 4643	Environmental Hydrology: Principles and Issues	
BSC 3307C	Climate Change Biology	
FNR 4343C	Forest Water Resources	
GLY 3882C	Hydrogeology and Human Affairs (Gen Ed Physical Science)	
GEO 3250	Climatology	
GLY 3074	Oceans and Global Climate Change	

GLY 3882C	Hydrogeology and Human Affairs (Gen Ed Physical Science)	
OCE 1001	Introduction to Oceanography (Gen Ed Physical Science)	
SWS 4223	Environmental Biogeochemistry	
SWS 4244	Wetlands	
Environmental Policy and Law		**3-4**
Select one:		
AEB 4123	Agricultural and Natural Resource Law	
AEB 4282	International Humanitarian Assistance	
AEB 4283	International Development Policy	
ECP 3302	Environmental Economics and Resource Policy	
FNR 4660	Natural Resource Policy and Economics	
Natural Resource Management		**3-4**
Select one:		
ALS 3133	Agricultural and Environmental Quality	
EVR 3323	Introduction to Ecosystem Restoration	
FAS 4305C	Introduction to Freshwater Fishery Science	
FNR 4080	Sustainable Ecotourism Development	
FNR 4624C	Field Operations for Management of Ecosystems	
GEO 3372	Conservation of Resources	
IPM 3022	Fundamentals of Pest Management	
SWS 4116	Environmental Nutrient Management	
SWS 4233	Soil and Water Conservation	
SWS 4245	Water Resource Sustainability	
WIS 4523	Human Dimensions of Natural Resource Conservation	
Methods and Technology		**3-4**
Select one:		
Introductory GIS Courses [2]		
GIS 3043	Foundations of Geographic Information Systems	
GIS 3072C	Geographic Information Systems	
SWS 4720C	GIS in Soil and Water Science	
URP 4273	Survey of Planning Information Systems	
Introductory Artificial Intelligence Courses		
ALS 3200C	AI in Agricultural and Life Sciences	
EEL 3872	Artificial Intelligence Fundamentals	
Programming and Modeling Courses		
ABE 4641	Modeling Coupled Natural-Human Systems	
BSC 2891	Python Programming for Biology	
GIS 4102C	GIS Programming	
STA 3100	Programming With Data in R	
Quantitative Analysis Courses		
GEO 3162C	Introduction to Quantitative Analysis for Geographers	
SWS 4180	Earth System Analysis	
WIS 4601C	Quantitative Wildlife Ecology	
Environmental Sampling and Monitoring Courses		
SWS 4800	Environmental Soil and Water Monitoring Techniques	
Environmental Technology Courses		
ABE 4655C	Bio-Based Products from Renewable Resources	
AGG 4502	Nanotechnology in Food, Agriculture, and Environment	
AOM 4521	Introduction to Biofuels	
HOS 3281C	Organic and Sustainable Crop Production	
Required Capstone Course		
EVS 4021	Critical Thinking in Environmental Science	3
Total Credits		**44-51**

1 Required for all Summer B and Fall freshman admits, including HSAA students admitted as freshmen. Transfer students should enroll in ALS 4932 instead. PaCE and all other students should contact their academic advisor or undergraduate coordinator for alternate options.

2 Students should not enroll in more than one of the following courses: FNR 3400C, GIS 3043, GIS 3072C, URP 4273, SWS 4720C.

Approved Electives

Beyond the core requirements, each student selects additional credits from a wide list of approved electives according to individual interest, allowing students to broaden their skillset or specialize in a particular aspect of environmental science.

Elective Requirement

- Additional Skills and Concepts 6-15 credits
- Biological Sciences 6-15 credits
- Physical Sciences 3-15 credits
- Human Dimensions 3-9 credits

A minimum of 28 approved elective credits are required. Additional elective credit may be needed to reach 120 credit hours for degree completion.

Students interested in taking courses not on the master list, including requirements for pre-Veterinary and pre-Medical students, must contact the undergraduate coordinator for approval.

Students can substitute appropriate graduate courses for electives, with approval of the undergraduate coordinator and permission of the instructor. To substitute a 5000-level course or higher, the student must have senior standing and a minimum junior/senior-level GPA of 3.0.

MASTER LIST

Code	Title	Credits
Physical Sciences		
Select 3-15 credits		
Any courses listed under Earth and Soil Science Core not counted towards the core requirement, as well as:		
EES 3008	Energy and Environment

URP 4000	Preview of Urban and Regional Planning	3

1 Students should not enroll in more than one of the following courses: FNR 3400C, GIS 3043, GIS 3072C, URP 4273, SWS 4720C.
2 No more than six credit hours from any combination of these courses (or equivalents) may be counted towards the degree.
3 Not all classes offered under this course number may be eligible for Additional Skills and Concepts credit. Check with your advisor or undergraduate coordinator.

Academic Learning Compact

Environmental Science is the science of humanity's role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy, and law.

Before Graduating Students Must

- Complete at least one course in each of the foundation areas.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn To

Student Learning Outcomes | SLOs

Content

1. Apply acquired knowledge of basic terminology, concepts, methodologies, and theories in the physical and biological sciences that describe environmental systems.
2. Apply acquired knowledge of essential concepts in the social sciences that describe human activity in the environment.

Critical Thinking

3. Develop reasoned solutions to environmental problems through application of the scientific method.

Communication

4. Communicate knowledge, ideas, and reasoning clearly, effectively, and objectively in both written and oral forms.

Environmental Science Minor

The Environmental Science minor is intended for majors in science, engineering or business, providing exposure to the major subject areas of the environmental core.

About this Program

- **College:** Agricultural and Life Sciences (p. 118)
- **School:** Natural Resources and Environment (p. 1745)
- **Credits:** 15-17 | Completed with minimum grades of C

School Information

The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council.
Website (http://snre.ifas.ufl.edu/)

GAINESVILLE FL 32611-6455

Curriculum

- Combination Degrees
- Environmental Science
- Environmental Science Minor

Students outside the School of Natural Resources and Environment can apply for admission to the minor as long as they earn 45 credits before applying. The application is available in 2020 McCarty Hall D. Students first must obtain their college's approval before submitting the completed form for processing.

Transfer work will be accepted only for PCB 4043C and an earth and soil systems course (refer to core requirements for the major). Admission consideration requires a minimum overall 2.0 GPA on all UF coursework attempted.

Accredited

Degree programs approved by the Florida State Board of Nursing and accredited by the Commission on Collegiate Nursing Education.

Degrees

The College of Nursing offers a **Bachelor of Science in Nursing (BSN)** program, which prepares students to Care, Lead, and Inspire. Nursing courses include both classroom and laboratory activities, and students may choose from three track options:

- **Traditional BSN Track**: Admits students in the fall and is designed for full-time students seeking their first bachelor's degree in nursing.
- **Accelerated BSN Track**: Admits students in the summer and is tailored for full-time students who already hold a bachelor's or higher degree in another field and wish to become registered nurses.
- **RN to BSN Track**: Admits students in the fall and spring. It is designed for registered nurses who have earned an associate degree from a nationally accredited nursing program and seek to complete their bachelor's degree.

The College of Nursing also offers advanced programs, including the **Doctor of Nursing Practice (DNP)** and the **Doctor of Philosophy (PhD) in Nursing Science**.

Rankings

The College of Nursing is consistently ranked among the top nursing schools in the nation, reflecting the quality and impact of its education, research, and clinical practice. Our **BSN** and **DNP** programs are currently ranked near or within the top 30, holding positions at #19 and #31, respectively, by *U.S. News & World Report*, and have the potential to increase our national and international standings.

Academic Advising

Students can schedule academic advising appointments by contacting the Office of Student Services (https://nursing.ufl.edu/students/office-of-student-services/). Academic advisors provide personalized support for curriculum planning, class registration, scholarship information, policies, procedures, and other educational resources. It is recommended that students meet with an academic advisor at least once per semester.

Academic Policies

Admission

The University of Florida's baccalaureate nursing curriculum is a high-demand, limited-access program. Enrollment is limited because of the high cost of program delivery, the limited availability of clinical learning facilities, and the limited availability of qualified faculty, which are necessary to maintain appropriate faculty-to-student ratios in all clinical areas. The Admissions Committee uses a holistic assessment process that considers many factors, including student experiences, attributes, and academic metrics. Due to classroom and clinical space limitations, not all qualified applicants are admitted.

Application Deadlines

Specific application deadlines for each BSN track are available on the College of Nursing website. (https://nursing.ufl.edu/programs/bachelor-of-science-bsn/)

Traditional BSN Track

All applicants to the Traditional BSN track must complete all General Education and College of Nursing pre-professional requirements by the end of the Spring semester before admission.

Minimum Application Requirements for Native UF Students

- Completion of 60 credits by the end of the Spring semester before admission, including:
  - All required Nursing pre-professional courses.
  - All General Education Program requirements, including: (https://undergrad.aa.ufl.edu/general-education/)
    - University of Florida General Education courses. (https://catalog.ufl.edu/UGRD/academic-programs/general-education/#text)
    - University of Florida Writing Requirement. (https://catalog.ufl.edu/UGRD/student-responsibilities/writing-requirement/)
    - State Core General Education courses. (https://catalog.ufl.edu/UGRD/academic-programs/general-education/#genedcoursestext)
  - Civic Literacy Requirement. (https://catalog.ufl.edu/UGRD/academic-regulations/civics_requirement/)
- Minimum overall GPA of 3.0 (on a 4.0 scale).
- Minimum pre-professional GPA of 3.0 (on a 4.0 scale).
  - Minimum grades of C in all required pre-professional courses.
- Submit the NursingCAS application, including:
  - Essays responding to specific questions.
- Completion of the HESI Academic Assessment (A2) Exam.

Minimum Application Requirements for Transfer Students from Florida Public/State Colleges

- Submit the University of Florida Transfer application. (https://admissions.ufl.edu/apply/transfer/)
  - Transfer applicants should refer to the transfer admission section of the undergraduate catalog (https://catalog.ufl.edu/UGRD/admission/#transferstudentstext) to ensure they meet all university admission requirements.
- Associate of Arts degree by the end of the Spring semester before admission.
- Completion of 60 credits by the end of the Spring semester before admission, including:
  - All required Nursing pre-professional courses.
  - Civic Literacy Requirement. (https://catalog.ufl.edu/UGRD/academic-regulations/civics_requirement/)
- Minimum overall GPA of 3.0 (on a 4.0 scale).
- Minimum pre-professional GPA of 3.0 (on a 4.0 scale).
  - Minimum grades of C in all required pre-professional courses.
- Submit the NursingCAS application, including:
  - Essays responding to specific questions.
- Completion of the HESI Academic Assessment (A2) Exam.

Minimum Application Requirements for Transfer Students from Other Universities

- Submit the University of Florida Transfer application. (https://admissions.ufl.edu/apply/transfer/)
  - Transfer applicants should refer to the transfer admission section of the undergraduate catalog (p. 26) to ensure they meet all university admission requirements.
- Completion of 60 credits by the end of the Spring semester before admission, including:
  - All required Nursing pre-professional courses.
  - Civic Literacy Requirement. (https://catalog.ufl.edu/UGRD/academic-regulations/civics_requirement/)
- Minimum overall GPA of 3.0 (on a 4.0 scale) and a 3.0 GPA on all pre-professional courses.
  - Minimum grades of C in all required pre-professional courses.
- Submit the NursingCAS application, including:
  - Essays responding to specific questions.
- Completion of the HESI Academic Assessment (A2) Exam.

Accelerated BSN Track

Minimum Application Requirements

- Submit the University of Florida Post Baccalaureate Application (https://admissions.ufl.edu/apply/post-baccalaureate/).
- A bachelor's degree or higher from an accredited college or university in a field other than nursing.
- GPA of 3.0 or higher (on a 4.0 scale) calculated using the most recent 60 credits taken toward the bachelor's degree or a cumulative GPA of 3.0 or higher (on a 4.0 scale) on a master's or doctoral degree.
- Submit the NursingCAS application, including:
  - Essays responding to specific questions.
  - Resume/Curriculum Vitae.
  - One academic letter of reference.
  - One personal letter of reference.
- Completion of the HESI Academic Assessment (A2) Exam.
- International students must submit TOEFL scores demonstrating proficiency in spoken and written English. TOEFL score as follows:

- 550 (paper-based)
- 213 (computer-based)
- 80 (web-based)

RN to BSN Track

The RN to BSN track allows registered nurses with an associate degree in nursing to complete their bachelor's degree. Specific requirements can be found here (https://catalog.ufl.edu/UGRD/colleges-schools/UGNUR/NSG_BSN01_UFO/).

Requirements for All Students

Students in the health professions are held to standards of conduct that may exceed those typically expected of university students. Adherence to the standards of acceptable conduct outlined in the American Nurses Association Code of Ethics and the Florida Nurse Practice Act is required. Students admitted to the BSN program are expected to adhere to the requirements outlined in the Student Handbook and specific College of Nursing policies, which are available for review on the College of Nursing website. (https://nursing.ufl.edu/students/current-students/student-handbook-and-policies/)

Expenditures

Specialized equipment, uniforms, laboratory fees for clinical courses, and transportation to off-campus clinical sites are required for nursing students. Detailed cost information is available on the College of Nursing website.

Enrollment Requirements

All admitted nursing students must complete a background check*, mandatory immunization verification (Measles, Mumps, Rubella, Hepatitis B, Varicella, Influenza, Tetanus, Tuberculosis), fingerprinting, and drug screening. The College of Nursing follows CDC guidelines and adheres to the safety regulations of our clinical partners. Additionally, all students must provide proof of current health insurance and certification in basic cardiopulmonary resuscitation (CPR) for health care providers. More Specific information on the Enrollment Requirements for the BSN program is available on the College of Nursing website (https://nursing.ufl.edu/students/incoming-students/).

*Students must disclose any arrests or criminal charges in their UF Program application. Upon disclosure, further information may be requested. All students must undergo a new background check, fingerprinting, and drug test. Disclosure of arrest or conviction information may impact your admission to the Nursing Program.

Progression

To progress, students admitted to the College of Nursing baccalaureate program must comply with all University of Florida progression policies and specific College of Nursing requirements. Nursing students must maintain a grade of "C" or above and a satisfactory (S) in clinical practice for all required courses, along with a minimum 2.0 GPA each semester. If a student earns a grade of "C minus" or below or an unsatisfactory (U) in any required nursing course, they may repeat that course only once, on a space-available basis. Additionally, students can repeat only one course of nursing needed and may withdraw from any required nursing course only once. All prerequisite courses must be completed before enrollment in subsequent courses.

Travel for Clinical

Students may be required to travel from campus to assigned clinical sites as part of their clinical education. These experiences are essential for gaining hands-on training in diverse healthcare settings, ensuring students are well-prepared for professional nursing practice. Students should plan accordingly for transportation and scheduling to meet clinical requirements.

Degree Requirements

Student Responsibility

To graduate with this major, students must complete all university, college, and major requirements. Any questions about these requirements should be addressed with an academic advisor from the College of Nursing.

BSN Degree Requirements

- **Traditional BSN**: Completion of 120 credits, including 60 upper-division nursing credits.
- **Accelerated BSN**: Completion of 60 nursing credits (post-baccalaureate).
- **RN to BSN**: Completion of 120 credits, including 60 upper-division nursing credits.
- A minimum grade of C in each nursing course.

Licensure

Upon completing the baccalaureate curriculum, graduates can sit for the NCLEX-RN examination to obtain state licensure as a registered nurse.

Nursing

UF's College of Nursing has a history of addressing gaps in health care and pioneering nursing education. The university's nursing education leadership includes Florida's first nurse practitioner and PhD in Nursing Science programs.

About this Program

- **College:** Nursing (p. 1770)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The nursing education programs offered at UF address gaps in the health care system, as do the college's innovations in technological resources and initiatives linking students to diverse and international populations. The College of Nursing has a history of pioneering leadership in nursing education, having offered Florida's first nurse practitioner programs and first PhD in Nursing Science program.

Curriculum

- Nursing
- Nursing | RN to BSN UF Online

The University of Florida College of Nursing's BSN program is designed around the core principles of **Care, Lead, Inspire — three essential pillars that guide students' development into competent, compassionate,** and transformative nursing professionals. These pillars form the foundation of the nursing curriculum and ensure that graduates are prepared to meet the demands of contemporary healthcare systems while leading innovation in nursing practice.

The curriculum is structured to build from fundamental nursing principles to advanced practice, with students acquiring the cognitive, affective, and technical competencies necessary for professional nursing. It is organized logically from simpler to more complex concepts, allowing students to progressively develop and refine their clinical reasoning, judgment, and leadership skills.

Early Semesters: Foundational Knowledge & Clinical Competencies

In the first two semesters, students focus on foundational courses that provide an understanding of the core principles of personalized nursing care. These courses emphasize the foundational knowledge needed to care for patients across the lifespan, covering essential areas such as:

- The principles of **professional nursing practice** and **ethical decision-making**.
- Understanding of **nursing theory** and the **nurse-patient relationship**.
- Legal guidelines, professional values, and standards of care.
- Developing **clinical reasoning** and judgment in controlled environments with increasing complexity.

During these semesters, students will also begin gaining hands-on experience in simulated clinical settings, enabling them to apply what they've learned in a safe, structured manner. The emphasis is on learning basic clinical techniques, understanding the context of nursing practice, and becoming familiar with the nurse's ethical, legal, and professional responsibilities.

Intermediate Semesters: Enhancing Clinical Judgment & Care Delivery

As students progress into the third and fourth semesters, the focus shifts towards applying knowledge in real-world clinical settings, with increased complexity in both content and outcomes. During these semesters, students will:

- Engage in more advanced clinical practice and refine their **clinical judgment** through hands-on patient care experiences in diverse settings.
- Develop a deeper understanding of evidence-based practice, learning to incorporate the latest research into care delivery for individuals, families, and communities.
- Explore **leadership roles**, developing formal and informal leadership skills, such as team coordination, conflict resolution, and delegation in clinical environments.
- Begin working with interdisciplinary teams to foster **collaboration** among healthcare professionals and improve patient outcomes.
- Apply critical thinking skills in managing increasingly complex patient care scenarios involving individuals, families, and vulnerable populations.

This stage of the curriculum introduces students to more complex patient care scenarios, including patients with multi-faceted healthcare needs. Students can integrate theoretical knowledge with practical, hands-on care, preparing them for increasingly independent practice in clinical settings.

Final Semester: Leadership, Innovation, and Professional Advocacy

In the final semester, students engage in a culminating project where they must develop an **innovative solution** to a problem or issue relevant to the nursing profession. This capstone experience encourages critical thinking, creativity, and problem-solving skills.

Students are expected to:

- Collaborate with peers and faculty to **develop and implement an innovative nursing practice solution**.
- Enhance their **leadership skills** by participating in interprofessional collaborations and advocating for positive change within the health care system.
- Demonstrate a deep understanding of the health care system and how nursing can influence individual and population health outcomes.
- Engage in professional activities that promote **social justice**, **health equity,** and **cultural competence** in nursing care delivery.

Students are also expected to refine their ability to advocate for patients, improve healthcare systems, and lead initiatives that drive the future of nursing practice. The final semester reinforces the importance of **inspiring others**, whether that be through mentorship, leadership in practice, or contributions to research and innovation in health care.

Throughout the program, clinical experiences and coursework are intricately designed to prepare students to meet the challenges of the ever-evolving healthcare system. By the time they graduate, Gator Nurses will have developed the ability to care for individuals, families, and communities, lead innovative changes in the nursing field, and inspire their peers and patients.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

The following recommended curriculum plan enables students to satisfy university-wide general education requirements and required preprofessional courses. The plan includes the courses and academic standards (overall GPA and preprofessional GPA) required each semester for continuation in the pre-nursing program and application for admission to the nursing major.

Semester 1

- Complete 2 critical-tracking courses with minimum grades of C: APK 2100C, APK 2105C, DEP 3053 or EDF 2110 (recommended), HUN 2201, MCB 2000/MCB 2000L, STA 2023, 3 credits of social and behavioral science (with PSY, SOP or SYG prefix), and 3 credits of physical or biological sciences (with BSC, CHM or PHY prefix)
- 3.0 GPA required for all critical-tracking courses
- 3.0 overall GPA on work from all institutions

Semester 2

- Complete 2 additional critical-tracking courses with minimum grades of C
- 3.1 GPA required for all critical-tracking courses
- 3.1 overall GPA on work from all institutions

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C
- 3.2 GPA required for all critical-tracking courses
- 3.2 overall GPA on work from all institutions

Semester 4

- Complete all critical-tracking courses with minimum grades of C
- Complete Writing Requirement
- Complete all general education coursework with minimum grades of C
- Complete a total of 60 credits
- 3.3 GPA required for all critical-tracking courses
- 3.3 overall GPA on work from all institutions

Semester 5

- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing skills examination in NUR 3066C

Semester 6

- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing skills examination in NUR 3227C

Semester 7

- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing skills examination in NUR 4768C

Semester 8

- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing exit examination in NUR 4766C

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80); Writing Requirement)	3
State Core Gen Ed Mathematics (p. 80)		3
State Core Gen Ed Biological or Physical Sciences (**Critical Tracking**)		3
Select one (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences):		3
PSY 2012 or SYG 2000	General Psychology or Introduction to Sociology	
	Credits	**15**
Semester Two		
Select one (**Critical Tracking**):		3
EDF 2110 or DEP 3053	Human Growth and Development or Developmental Psychology	

STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
Gen Ed Composition; Writing Requirement		3
Civic Literacy Course Requirement (Gen Ed Social and Behavioral Sciences)		3
Elective		3

Academic Learning Compact

The major in Nursing prepares graduates as generalists to provide holistic care that addresses the healthcare needs of diverse individuals, families, communities, and populations across the lifespan. Nursing practice is built on nursing knowledge, theory, and research. Graduates will translate, integrate, and apply knowledge that leads to improvements in patient outcomes.

Before Graduating Students Must

- Achieve a passing grade of C or higher in all required courses.
- Pre-licensure student must achieve a score of 850 on the Health Education Systems Incorporated (HESI) RN Exit Examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Apply critical thinking to synthesize knowledge grounded in liberal education and nursing, in the practice of professional nursing in the global community.
2. Utilize knowledge of health care regulation to advocate for policy change to improve health care systems and professional nursing practice.
3. Utilize health promotion, health maintenance, and disease prevention strategies across settings to improve the health of diverse individuals and populations across the lifespan.

Critical Thinking

4. Integrate evidence-based findings in decision-making in the practice of professional nursing.
5. Appraise current evidence to evaluate health care safety and quality improvement initiatives for individuals and groups.
6. Analyze information from health care technology systems to apply evidence that will guide nursing practice.
7. Illustrate the importance of advocacy in the improvements in nursing practice and throughout the healthcare system.
8. Demonstrate professional competence and values reflective of professional nursing standards and mutual respect within a global society.

Communication

9. Collaborate with the healthcare team and clients to provide safe and cost effective high quality health care.
10. Demonstrate professional communication, collaboration, and documentation with healthcare teams to support improvement in patient health outcomes.
11. Build therapeutic alliance with patients and families to provide personalized care.

Nursing | RN to BSN UF Online

The College of Nursing's RN to BSN program enables current RNs who have previously earned an associate degree to earn a baccalaureate degree in nursing. The program is designed for working nurses and can be completed in 5 semesters of primarily online part-time study.

About this Program

- **College:** Nursing (p. 1770)
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **More Info**

Department Information

The nursing education programs offered at UF address gaps in the health care system, as do the college's innovations in technological resources and initiatives linking students to diverse and international populations. The College of Nursing has a history of pioneering leadership in nursing education, having offered Florida's first nurse practitioner programs and first PhD in Nursing Science program.

Curriculum

- Nursing
- Nursing | RN to BSN UF Online

The baccalaureate-prepared nurse is equipped to manage complex and changing healthcare environments. Coursework focuses on development of problem solving that will broaden and strengthen the registered nurse student's preparation for professional nursing practice.

Admission

Students must be accepted into the RN to BSN program, which is competitive. The online application for admission must be submitted by the posted deadline.

Minimum Application Requirements

- Associate of Science degree in nursing from an ACEN (formerly NLNAC) accredited program
- Active, unencumbered Florida RN license
- An overall GPA of at least 2.8
- A minimum grade of C in all required preprofessional courses
- Resume/curriculum vita that includes work history, and a list of at least two professional references

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete NUR 3066C

Semester 2

- Complete NUR 3123

Semester 3

- Complete NUR 3169

Semester 4

- Complete NUR 4636C

Semester 5

- Complete NUR 4815

Model Semester Plan

Degree Requirements

- Completion of 120 credits, including 60 junior/senior-level credits
- A minimum grade of C in each nursing course
- RN to BSN students will be awarded 30 upper-level credits based upon current RN licensure and by satisfying the professional portfolio
- Adherence to the standards of acceptable conduct as outlined in the American Nurses Association Code of Ethics, the Florida Nurse Practice Act, the University's Student Guide and the undergraduate catalog

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes | SLOs

Content

1. Integrate knowledge, skills, and values derived from a solid base in liberal education to deliver quality care to individuals and groups across the lifespan and across healthcare environments.

Critical Thinking

2. Provide leadership in the delivery of safe, high-quality healthcare to diverse individuals and groups across the lifespan and across healthcare environments.
3. Utilize current evidence to improve healthcare outcomes for clients.
4. Utilize information management and healthcare technology to improve the quality of care.
5. Analyze processes through which healthcare policies are developed and changed to influence professional nursing practice and healthcare systems.
6. Utilize wellness promotion and illness prevention strategies with individuals and groups to improve population health outcomes across the lifespan.
7. Integrate professional values in the delivery of safe, culturally-sensitive care to clients across the lifespan.

Communication

8. Communicate and collaborate as members of interprofessional teams to deliver safe, high-quality healthcare.

Public Health and Health Professions | College of

The College of Public Health and Health Professions offers a diverse variety of degree programs: two bachelor's, seven master's, eight PhD and three professional degrees, as well as several certificate programs. By combining the population perspective of public health with the patient focus of health professions disciplines, the continuum of care is covered, from prevention and treatment to rehabilitation that supports the health and well-being of communities and individuals.

Rankings

Eight programs are ranked in the Top 20 among AAU public universities, according to U.S. News & World Report.

Accredited

The college is accredited by the Council on Education for Public Health. In addition, all clinical programs are accredited by the appropriate national organization.

Degrees

The college offers a Bachelor of Health Science in Communication Sciences and Disorders or Health Science, and a Bachelor of Public Health degree. The Public Health program is designed to provide students with foundational skills for both individual and community based health care. The Health Science program is designed to provide students with knowledge and skills to pursue careers in medicine, rehabilitation, therapeutic care, and communication sciences. Health Science specializations include: applied brain science, occupational therapy accelerated, pre-rehabilitation, and preprofessional.

Doctor of Occupational Therapy | OTD

The Doctor of Occupational Therapy (OTD) program prepares students to become professional-level OT practitioners who are leaders in the rapidly changing and dynamic contemporary health and human services delivery systems. The program will facilitate students' clinical knowledge and skills, professional development, leadership and advocacy skills, and advanced knowledge base to inform high quality, evidence-informed practice in occupational therapy. Students engage in projects and leadership activities that improve practice quality and advance evidence-based clinical practice.

Academic Policies

Admission

Admission requirements vary for the different majors; therefore, applicants should contact an academic advisor in the college to ensure appropriate academic planning.

In addition to specific GPA and coursework requirements, applicants should have evidence of service through volunteer experiences. Additional admission information may be found on the college's undergraduate programs page.
More Info (https://undergrad.phhp.ufl.edu/)

Application Deadlines

Application deadlines and instructions may be found on the college's undergraduate programs page.
More Info (https://undergrad.phhp.ufl.edu/)

Native UF StudentS

Freshmen and Sophomores

Students can declare a major in one of the college's undergraduate programs upon admission to the university. However, continued progress as a junior in the major is contingent upon meeting major- or specialization-specific critical tracking criteria. Progression standards include courses completed, cumulative and tracking GPAs, and academic conduct.

Transfer Student Admission

Application Materials

Non-UF students must apply to the University of Florida for admission consideration at the junior year. Students with questions should contact an undergraduate advisor.
Email (advising@phhp.ufl.edu)

Florida public college students must have:

- Received an AA degree
- Completed all critical-tracking coursework with the required GPA
- Completed 60 semester credits of transferable college-level credit with a minimum overall GPA of 3.0 (for Public Health or Communication Sciences and Disorders majors) or 3.2 (for Health Science majors)
- Submitted a transfer application to UF
  More Info (http://www.admissions.ufl.edu/start.html)

PHHP Academic Policies

Double Majors

PHHP does not offer a double major. However, students in the college can pursue an additional degree outside of the college. Students from other colleges can also consider a dual degree within PHHP. Permission of both colleges is required. Students are eligible to apply for a dual degree after they have completed 45 credits and before completion of 96 credits. Students must meet all requirements for both degrees.

Minors

The college offers seven minors. These minors are open to students in other colleges who meet the prerequisite and GPA requirements. The minor form and course information are available from the college website.
More Info (https://undergrad.phhp.ufl.edu)

- Communication Sciences and Disorders (p. 1793)
- Deaf and Hearing Sciences (p. 1798)
- Public Health (p. 1825)
- Health Administration (p. 1799)

- Applied Brain Science (p. 1787)
- Health Professions (p. 1800)
- Rehabilitation (p. 1826)

Specific minors are available to PHHP juniors and seniors based on the student's major and/or specialization, as noted below.

Communication Sciences and Disorders Students
Deaf and hearing sciences, applied brain science, health professions, rehabilitation, health administration and public health minors.

Health Science Students
Communication sciences and disorders, deaf and hearing sciences, health administration, and public health minors. Depending on a Health Science major's specialization, other PHHP minors may be available. Please see the specific minor's catalog page for more information.

Public Health Students
Communication sciences and disorders, deaf and hearing sciences, health administration, applied brain science, health professions, and rehabilitation minors.

S/U Option
The satisfactory/unsatisfactory (S/U) option is not permitted for prerequisite or major courses. However, S/U may be used for electives.

Academic Performance
Juniors and Seniors
Students must receive minimum grades of C in all courses required for the major. Unsatisfactory grades, defined as grades lower than a C or grades of unsatisfactory in classes graded S/U, are grounds for probation and/or dismissal from the college. In addition, dismissal from the college can result from honor code violations.

If a student in the college receives one grade of C- or lower in a college course, the student is placed on academic probation. Faculty will provide an opportunity for the student to make up material (e.g., through independent study, repeating the course, etc.). If the student receives at least a C in the course for which probation was implemented, the student will return to good academic standing. If the student receives a C- or lower while on probation, the student must withdraw from the program unless the college determines mitigating circumstances warrant a probationary extension. *If a student receives the first and second C- or lower in the same term, the college has the right to dismiss the student without first offering probation.*

If a student receives a C- or lower in a second college course, regardless of whether this occurs in the same term or a different term as the first C- or lower, the student can be required to withdraw from the program. The student has the right to petition this decision.

In order to petition the faculty committee, the student must provide the program director with a letter stating the reasons that the student should be allowed to remediate their academic performance. Upon successful petition and on a space-available basis, the student will be placed on academic probation and allowed to make up material in an appropriate manner determined by the instructor and program director (e.g., via independent study, course repetition, etc.)

If the student successfully completes the remediation requirements and receives a minimum course grade of C, the student can continue in the program. However, if the student again receives a C- or lower, the student must withdraw from the program. The college will help the student choose another major at UF, if desired, if they withdraw from a college major.

In the first two cases above, the individual instructor is responsible for assigning student grades. The program director, in consultation with the instructor and program faculty as needed, is responsible for determining if a student who appeals a dismissal will be placed on academic probation or dismissed from the program. The student will be notified in writing of the director’s decision concerning academic probation or dismissal.

If the student is placed on probation, the letter will include the activities that the student must successfully complete to remedy the academic deficiencies and the timeframe in which these activities must be completed. Failure to adhere to or to meet the terms of the letter constitutes grounds for dismissal from the program. The student will be offered assistance, if desired, to select a different major.

If the student disagrees with the director’s decision regarding dismissal or the terms of the probation letter, the student may appeal in writing within one week to the associate dean overseeing academic affairs. The associate dean will review both the director’s decision and the student’s concerns and make a determination about academic probation/dismissal. Both the student and director have the right to further appeal to the dean, who will review the case in its entirety and make the final decision.

Changing Majors
Freshmen and sophomores wishing to change majors must contact a college advisor in the new major. Juniors and seniors wishing to change majors in the college must contact the program director. If a student withdraws from the major, specific permission from the program and the college must be given at the time of withdrawal for the student to be eligible to re-enter the college.

Health Policy

The college requires evidence of ability to meet the physical and academic requirements of the program. The Department of Student Health will verify immunization against diphtheria, rubella (German measles) and tetanus.

All students must be immunized against Hepatitis B and varicella (chicken pox) or provide the Student Health Center with medical documentation that they have had chicken pox. All students must be HIPAA compliant.

Students registered in clinical courses must have hospitalization insurance. Full-time students are eligible for the health insurance plans sponsored by Student Government. Twelve-month coverage may be purchased at the time of registration.

Expenses

Required immunizations and other expenses are the student's responsibility.

Degree Requirements

Students must satisfy all college and university degree requirements for their major and specialization.

College requirements include:

- Completion of 120 semester credits with a 2.0 GPA
- Completion of all core courses with minimum grades of C
- Satisfactory completion of all approved college and general electives as required by major
- Completion of a PHHP degree candidate exit survey

To graduate in the desired term, students must submit by the deadline a completed degree application to the Office of University Registrar.
More Info (https://registrar.ufl.edu/contact/)

Dean's List

The dean's list recognizes outstanding academic achievement at the completion of each semester. Students receiving a final grade of U or a failing grade may not be considered for the dean's list, regardless of overall grade point average. Students may request a letter confirming dean's list status from the college's dean's office.
More Info (p. 1840)

Graduating with Honors

More Info (p. 1840)

Postbaccalaureate students are not eligible to receive honors recognition. Guidelines for completion of honors program requirements to graduate *magna cum laude* or *summa cum laude*.

Curriculum

- Communication Sciences and Disorders
- Communication Sciences and Disorders Minor
- Communication Sciences and Disorders UF Online
- Deaf and Hearing Sciences Minor

Students in the Communication Sciences and Disorders (CSD) program should follow the course sequence outlined below for optimal academic progression. The undergraduate program provides foundational knowledge in two key areas:

1. **Normal Aspects of Communication**: Students will learn about the typical development and functioning of speech, language, and hearing, and how these processes contribute to human communication.
2. **Introduction to Communication Disorders**: Students will be introduced to the nature, assessment, and treatment of various communication disorders, laying the groundwork for future study in the field.

In addition to core courses, students are encouraged to select electives that align with their academic interests and career goals. These electives provide opportunities to explore specialized topics within the field of communication sciences and disorders.

Upon successful completion of the program, students will earn a Bachelor of Health Science (BHS) degree. While many students choose to continue their education in graduate or professional programs (e.g., speech-language pathology, audiology, or related health fields), some opt to enter the workforce immediately after earning their BHS degree. Graduates who seek employment often find opportunities in health and educational settings.

Certified clinicians in the field typically work as part of interdisciplinary teams, which may include psychologists, educators, physicians, nurses, social workers, and other healthcare professionals. These teams collaborate to screen, diagnose, and treat individuals across the lifespan—from infants to the elderly. Communication sciences and disorders professionals work in diverse settings, including schools, clinics, hospitals, private practice, and other healthcare environments.

Both **speech-language pathology** and **audiology** are expanding fields with strong job prospects, competitive salaries, and high levels of job satisfaction, as practitioners have the opportunity to make a meaningful impact on the lives of individuals with communication challenges.

Course Requirements and Sequence

By the End of Semester Four

To remain on track for the major, students must complete these requirements:

- Minimum overall and critical tracking GPAs of 3.0
- For transfer students, AA degree or 60 transferrable credits (including general education and major prerequisites)
- 24,000 words of the Writing Requirement
- These courses (or their equivalents) with minimum grades of C:
  - BSC 2005 or higher
  - Additional biological science (3 credits); APK 2105C is highly recommended
    - other preferred courses include those with BSC or MCB prefix
  - Physical science (3 credits); must be physics or chemistry
  - Science lab (1 credit) (satisfied by APK 2105C lab if APK 2105C is completed to satisfy additional biological science requirement)
- Additional Social and Behavioral Science course (3 credits); courses in Sociology, Anthropology, or Psychology are recommended
- PSY 2012
- STA 2023

CSD Major Graduation Requirements

Students must have completed:

- EEX 3093 with a minimum grade of C
- 30 credits of SPA coursework (SPA 3003, SPA 3011, SPA 3101, SPA 4004, SPA 4104, SPA 4302, SPA 4400, SPA 4050, SPA 4250, and SPA 4321) with minimum grades of C
- PHC 4101 with minimum grade of C
- 120 credits, including all prerequisites and electives

Majors should see a department advisor to create a plan of study, which becomes the contract for graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 credits of general education courses
- 2.5 GPA on all college-level coursework from all institutions

Semester 2

- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 12 additional credits of general education courses for a total of 18 credits
- 2.7 GPA on all college-level coursework from all institutions

Semester 3

- Complete STA 2023 with minimum grade of C
- Complete 1 additional Social and Behavioral Science course (Courses in Sociology, Anthropology, or Psychology course recommended) or 3 credits of physical science (must be CHM or PHY prefix; PHY 2004, CHM 1030, or CHM 1020 recommended) with minimum grade of C
- Complete science lab with minimum grade of C or S
- Complete 9 additional credits of general education courses for a total of 30 credits
- 3.0 GPA on all college-level coursework from all institutions

Semester 4

- Complete 3 additional Biological Science credits (APK 2105C is highly recommended, but other preferred courses include others with a BSC or MCB prefix)
- Complete all critical tracking courses with minimum grade of C
- Complete all General Education courses
- Complete the university Writing Requirement (24,000 words)
- 3.0 critical-tracking GPA based on all attempts
- 3.0 GPA on all college-level coursework from all institutions

Semester 5

- Complete EEX 3093, SPA 3011, and SPA 3101
- 3.0 prerequisite and overall GPA on college-level coursework from all institutions
- 2.0 UF GPA required

Semester 6

- Complete SPA 3003, SPA 4104, and SPA 4302
- 2.0 UF GPA required

Semester 7

- Complete SPA 4004, SPA 4250, and SPA 4321
- 2.0 UF GPA required

Semester 8

- Complete SPA 4050, SPA 4400, and PHC 4101
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
MAC 1105	Basic College Algebra (or higher level; State Core Gen Ed Mathematics (p. 80))	3
Select one:		3
PSY 2012	General Psychology (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
BSC 2005	Biological Sciences (**Critical Tracking**; or higher-level biological science; State Core Gen Ed Biological Sciences)	
State Core Gen Ed Composition (p. 80); Writing Requirement		3
Elective		3
	Credits	**15**
Semester Two		
Select one:		3
BSC 2005	Biological Sciences (**Critical Tracking**; or higher-level biological science; Gen Ed Biological Sciences)	
PSY 2012	General Psychology (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; must complete by the end of Semester Three; Gen Ed Mathematics)	3
State Core Gen Ed Humanities with International (p. 80)		3
Gen Ed Composition; Writing Requirement		3
Elective		3
	Credits	**15**
Semester Three		
Quest 2 (Gen Ed Social and Behavioral Sciences)		3
Select one physical science course:		3
PHY 2020	Introduction to Principles of Physics (**Critical Tracking**; or higher-level course; Gen Ed Physical Sciences)	
CHM 1030	Basic Chemistry Concepts and Applications 1 (**Critical Tracking**; or higher-level course; Gen Ed Physical Sciences)	
Complete 1 additional Social and Behavioral Science course (Courses in Sociology, Anthropology, or Psychology recommended)		3
6000-word writing course (Writing Requirement)		3
Elective		3
	Credits	**15**
Semester Four		
Additional Biological Science and Biological Science Laboratory (APK 2105C highly recommended; **Critical Tracking**; Gen Ed Biological or Physical Sciences)		4
Gen Ed Humanities		3
6000-word writing course (Writing Requirement)		3
Civic Literacy Course		3
Elective		2
	Credits	**15**
Semester Five		
EEX 3093	Exceptional People in School and Society (**Critical Tracking**)	3
SPA 3011	Speech Acoustics (**Critical Tracking**)	3
SPA 3101	Speech Anatomy and Physiology (**Critical Tracking**)	3

Electives		6
	Credits	**15**
Semester Six		
SPA 3003	Phonetics (**Critical Tracking**)	3
SPA 4104	Neural Basis of Communication (**Critical Tracking**)	3
SPA 4302	Intro to Audiology and Hearing (**Critical Tracking**)	3
PHC 4101	Public Health Concepts (**Critical Tracking**; must be complete by Semester Eight)	3
Elective		3
	Credits	**15**
Semester Seven		
SPA 4004	Language Development (**Critical Tracking**)	3
SPA 4250	Introduction to Speech Disorders (**Critical Tracking**)	3
SPA 4321	Audiologic Rehabilitation (**Critical Tracking**)	3
Electives		6
	Credits	**15**
Semester Eight		
SPA 4400	Introduction to Language Disorders (**Critical Tracking**)	3
SPA 4050	Clinical Observations in Speech-Language Pathology and Audiology (**Critical Tracking**)	3
Electives		9
	Credits	**15**
	Total Credits	**120**

Academic Learning Compact

This undergraduate program provides an understanding of the expected processes involved in human communication so that students will be prepared for graduate programs where they will be immersed in dealing with atypical or pathological conditions related to speech, language, swallowing and/or hearing.

Before Graduating Students Must

- Earn minimum grades of C in all Communication Sciences and Disorders core courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Explain fundamental principles of anatomy, acoustics, neuroanatomy, and neurophysiology as they relate to the normal development, assessment, and treatment of speech, language, and auditory functions.
2. Describe the etiology, characteristics, and management of speech, language, and auditory disorders, considering the influence of aging and disease on communication and health.

Critical Thinking

3. Apply clinical problem-solving skills to analyze case scenarios, defend assessment and treatment decisions, and evaluate their implications for diverse populations.

Communication

4. Present information accurately and effectively through both oral presentations and analytical writing on topics related to communication sciences or disorders.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
SPA 3003	R			
SPA 3011	I			
SPA 3101	I, A			
SPA 4004	I	I, A		
SPA 4050			R	R, A
SPA 4104	I, A			

SPA 4250			I, A	
SPA 4302	R, A	R		
SPA 4321	R	I, A		I, A
SPA 4400	R	R	I, A	R

Assessment Types

- Clinical analysis
- Case management reviews
- Exams
- Papers
- Presentations
- Additional assessments include:
  - A summative assessment
  - The undergraduate alumni survey

Communication Sciences and Disorders Minor

The Communication Sciences and Disorders minor is appropriate for students with majors in computer science, education, engineering, health professions, linguistics, music, psychology, and special education.

About this Program

- **College:** Public Health and Health Professions (p. 1781)
- **Credits:** 15 | Completed with minimum grades of C and no S/U

Department Information

The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.

Map (http://campusmap.ufl.edu/#/index/0212)

Curriculum

- Communication Sciences and Disorders
- Communication Sciences and Disorders Minor
- Communication Sciences and Disorders UF Online
- Deaf and Hearing Sciences Minor

Students should follow the plan below for course choices.

The undergraduate program exposes students to information about:

1. normal aspects of speech, language, and hearing as they relate to human communication, and
2. introductory concepts pertaining to the nature, assessment, and treatment of communication disorders.

Students complement the core major courses with various elective courses that align with their academic and career interests.

Upon successful completion of the major, students receive the Bachelor of Health Science degree. The majority of undergraduate students pursue graduate or professional training in a health field (e.g., speech language pathology, audiology or other graduate degree program); however, some students seek employment immediately after completing the BHS degree program, usually in organizations with either a health or education component.

Certified clinicians (graduate degree required) often on a team that may include psychologists, teachers, families, physical and occupational therapists, physicians, nurses, dietitians and social workers to screen, diagnose and treat individuals ranging from infants to the elderly. Professionals typically work in schools, clinics, hospitals, other health organizations and/or private practice. Communication sciences and disorders professions

offer a high degree of satisfaction to their practitioners by making a significant impact on people's lives. Both speech-language pathology and audiology are growing professions with competitive salaries.

Course Requirements and Sequence

To be considered for admission at the junior level, students must complete these requirements:

- Minimum overall and prerequisite GPAs of 3.0
- For transfer students, AA degree or 60 transferrable credits (including general education and major prerequisites)
- 18,000 words of the Writing Requirement

These courses (or their equivalents) with minimum grades of C:

Code	Title	Credits
BSC 2005	Biological Sciences	3
APK 2105C	Applied Human Physiology with Laboratory	4
Physical science (must be physics or chemistry)		3
Science lab		1
Select one:		3
PSB 3002	Physiological Psychology (strongly recommended)	
DEP 3053	Developmental Psychology	
CLP 3144	Abnormal Psychology	
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3

By the End of the Junior Year

Students must have completed:

- EEX 3093 with a minimum grade of C
- SPA 3003, SPA 3011, SPA 3032, SPA 3101, SPA 4004, SPA 4104, SPA 4302, SPA 4400

By the End of the Senior Year

Students must have completed:

- 120 credits, including all prerequisites
- Remaining 9 credits of core SPA coursework (SPA 4250, SPA 4321, SPA 4050) with minimum grades of C
- 33 credits of core SPA coursework with minimum grades of C
- ENC 2256 with minimum grade of C; satisfies 6000 words of Writing Requirement
- PHC 4101 with minimum grade of C
- 9 credits at the 3000/4000 level
- 9 credits of PHHP electives

Majors should see a department advisor to create a plan of study, which becomes the contract for graduation.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 credits of general education courses
- 2.3 GPA on all college-level coursework from all institutions

Semester 2

- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 12 additional credits of general education courses for a total of 18 credits
- 2.7 GPA on all college-level coursework from all institutions

Semester 3

- Complete STA 2023 with minimum grade of C
- Complete 1 additional tracking psychology course (DEP 3053 or CLP 3144) or 3 credits of physical science (CHM 2045 or PHY 2004 recommended) with minimum grade of C
- Complete science lab with minimum grade of C or S
- Complete 9 additional credits of general education courses for a total of 30 credits
- 3.0 GPA on all college-level coursework from all institutions

Semester 4

- Complete all critical-tracking courses with minimum grades of C
- Complete all General Education courses
- Complete the 18,000 words of the Writing Requirement
- 3.0 critical-tracking GPA based on all attempts
- 3.0 GPA on all college-level coursework from all institutions

Semester 5

- Complete EEX 3093, SPA 3011, SPA 3032, SPA 3101, SPA 4004
- 3.0 prerequisite and overall GPA on college-level coursework from all institutions
- 2.0 UF GPA required

Semester 6

- Complete SPA 3003, SPA 4104, SPA 4302, and SPA 4400
- 2.0 UF GPA required

Semester 7

- Complete ENC 2256, SPA 4250, and SPA 4321
- 2.0 UF GPA required

Semester 8

- Complete PHC 4101 and SPA 4050
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

This undergraduate program provides an understanding of the expected processes involved in human communication so that students will be prepared for graduate programs where they will be immersed in dealing with atypical or pathological conditions related to speech, language, swallowing, and/or hearing.

Before Graduating Students Must

- Pass the undergraduate CSD written examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Explain fundamental theories and principles of basic acoustics, psychoacoustics, (neuro)anatomy, and (neuro)physiology as they pertain to the normal development of speech, language, and hearing.
2. Explain key concepts that pertain to the etiology and characteristics of speech, language, and auditory disorders.
3. Describe basic concepts that pertain to the assessment and treatment of speech, language, and auditory disorders.
4. Explain fundamental concepts that pertain to professional practice patterns and ethical standards.
5. Explain fundamental concepts that pertain to the relationship between aging and communication, the effect of culture on communication, and modalities of communication.
6. Transcribe normal and disordered speech phonetically.
7. Explain the impact of disease and disability on the health of populations.

Critical Thinking

8. Apply clinical problem-solving skills to defend assessment and treatment choices.

Communication

9. Present information accurately and effectively during an oral presentation on a topic related to communication sciences or disorders.
10. Write a coherent analytical essay on a topic related to communication sciences or disorders.

- Additional assessments include:
- A summative assessment
- The undergraduate alumni survey

Deaf and Hearing Sciences Minor

The Deaf and Hearing Sciences minor includes language courses in American Sign Language and courses to deepen awareness of the impact of hearing loss on everyday life and function. Students also gain an appreciation of the anatomy and physiology of the ear and rehabilitation approaches for individuals with hearing loss.

About this Program

- **College:** Public Health and Health Professions (p. 1781)
- **Credits:** 17

Department Information

The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.

SPA 3475	Deaf Culture in America	3
SPA 4321	Audiologic Rehabilitation	3
Total Credits		**17**

BHS-CSD students will also be required take ASL 1130, due to overlap with their major courses.

Health Administration Minor

Health care facilities need managers with skills in management, information technology, economics, and leadership to effectively work with clinicians and administrators to successfully run healthcare facilities. The Healthcare Administration minor teaches students the fundamentals of health administration in preparation for a career or advanced degree in the health industry.

About this Program

- **College:** Public Health and Health Professions (p. 1781)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

The Department of Health Services Research, Management and Policy prepares highly qualified and motivated students to become effective managers and leaders of health care and public health organizations. Students in this department often serve as active participants and leaders at the University of Florida, as well as in the professional and health services communities after graduation.

Health Professions Minor

The Health Professions minor provides foundational knowledge and skills in the changing healthcare delivery system. This minor provides complementary courses for pre-clinical students who wish to complete graduate or professional programs for careers in medicine, physician assistant studies, dentistry, pharmacy, and other health professions.

About this Program

- **College:** Public Health and Health Professions (p. 1781)
- **Credits:** 15 | Completed with minimum grades of C and no S/U

Department Information

The Bachelor of Health Science (BHS) program is for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Curriculum

- /UGRD/colleges-schools/UGPBH/DSC_UMN/
- /UGRD/colleges-schools/UGPBH/HES_UMN/
- Applied Brain Science Minor
- Health Professions Minor
- Health Science

The minor is open to all students who meet the prerequisites listed below, except for Health Science majors in the Preprofessional specialization. Health Science majors in the Pre-Rehabilitation specialization can substitute BSC 2005 for the BSC 2010 prerequisite requirement.

Prerequisites

Completion of prerequisite courses does not guarantee admission to the minor.

- Junior status or higher (60+ credits)
- A 3.0 overall UF GPA and a 3.0 prerequisite GPA based on:

- PSY 2012
- BSC 2010
- APK 2105C
- STA 2023

Students will only be considered for the minor if all prerequisites are complete prior to applying.

Required Courses

Code	Title	Credits
HSC 3502	Survey of Diseases and Disability	3
HSC 3661	Therapeutic Communication Skills with Patients, Families and the Health Care Team	3
HSC 4557	Medical Pharmacology in Clinical Care	3
HSC 4608	Clinical Diagnosis and Decision Making	3
OTH 3416	Pathophysiology	3
Total Credits		**15**

Health Science

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

- **College:** Public Health and Health Professions (p. 1781)
- **Degree:** Bachelor of Health Science
- **Specializations:** Applied Brain Science (p. 1803) | Occupational Therapy Accelerated (p. 1807) | Pre-Rehabilitation (p. 1812) | Preprofessional (p. 1816)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Bachelor of Health Science (BHS) program is for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Curriculum

- /UGRD/colleges-schools/UGPBH/DSC_UMN/
- /UGRD/colleges-schools/UGPBH/HES_UMN/
- Applied Brain Science Minor
- Health Professions Minor
- Health Science

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers and to teach foundational skills to students who want to work with individuals, groups, or communities who face social, economic, or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in Public Health.

Upon successful completion of the Health Science program, students receive the Bachelor of Health Science degree. While most students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, dentistry), some students seek employment in hospital or related community organizations after completing the BHS.

Specializations

The college offers four specializations. All specializations except Occupational Therapy Accelerated can be declared at the freshman or sophomore years.

Applied Brain Sciences

Offers a suggested prerequisite course sequence for students interested in pursuing training in clinical psychology and neuropsychology, applied human neuroscience, or brain-health focused medical specialties (e.g., psychiatry, neurology).

Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Rehabilitation

Accommodates students interested in rehabilitation health care fields (e.g., occupational therapy, physical therapy).

Preprofessional

For students pursuing careers in fields such as medicine, physician assistant, and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required preprofessional courses with requirements for the health science major.

Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

Each specialization incorporates General Education Mathematics and Writing Requirements and Health Science critical tracking courses. All specializations accept AP, IB, or AICE credit for any prerequisite course. However, many professional schools have their own policies regarding test credit, and it is the responsibility of the student to determine whether a course for which they have earned AP/IB/AICE credit must be retaken to meet professional school requirements. Students must earn a minimum of C in any BHS critical tracking course that is not satisfied by AP/IB/AICE credit unless otherwise specified.

Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy, and public health.

Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students must earn a minimum of C in any BHS critical tracking course that is not satisfied by AP/IB/AICE credit unless otherwise specified.

Applied Brain Science

The Applied Brain Science specialization is designed to accommodate students interested in pursuing training in clinical psychology and neuropsychology, applied human neuroscience, or brain-health focused medical specialties (e.g., psychiatry, neurology).

Students must meet the critical-tracking criteria listed below, beginning with the first Summer B or Fall term.

To remain in the Health Science major, students must:

- Remain on track each Fall and Spring term, for a total of four semesters.
- Complete the following critical tracking courses or equivalents by the end of the fourth semester.

Code	Title	Credits
APK 2105C	Applied Human Physiology with Laboratory	4
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory	4
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete PSY 2012 with a minimum grade of C
- 2.8 cumulative GPA on work from all institutions

Semester 2

- Complete STA 2023 with a minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.1 cumulative GPA on work from all institutions

Semester 3

- Complete BSC 2010 and BSC 2010L with minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.2 cumulative GPA on work from all institutions

Semester 4

- Complete APK 2105C with a minimum grade of C
- Complete 60 cumulative credits
- 3.0 GPA required for all critical-tracking courses and minimum grades of C on all critical-tracking courses, based on all attempts
- 3.2 cumulative GPA on work from all institutions

All General Education requirements, including State Core, International (N), the University Writing Requirement, and the Civic Literacy requirement, must be completed prior to the graduating semester.

Semester 5

- Complete HSA 3111 with a minimum grade of C
- Complete PHC 4101 with a minimum grade of C
- Complete CLP 4302 with a minimum grade of C
- 2.0 UF GPA required

Semester 6

- Complete HSC 3057 with a minimum grade of C
- Complete HSC 3502 with a minimum grade of C
- 2.0 UF GPA required

Semester 7

- Complete HSC 3661 with a minimum grade of C
- Complete CLP 4420 with a minimum grade of C
- Complete OTH 3416 with a minimum grade of C
- 2.0 UF GPA required

Semester 8

- Complete CLP 4421C with a minimum grade of C
- Complete PHC 4796C with a minimum grade of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80); Writing Requirement)	3
PSY 2012	General Psychology (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	3
Gen Ed Biological or Physical Sciences		3

General Education Mathematics		3

Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Rehabilitation

Accommodates students interested in rehabilitation health care fields (e.g., occupational therapy, physical therapy).

Preprofessional

For students pursuing careers in fields such as medicine, physician assistant, and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required preprofessional courses with requirements for the health science major.

Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

Each specialization incorporates General Education Mathematics and Writing Requirements and Health Science critical tracking courses. All specializations accept AP, IB, or AICE credit for any prerequisite course. However, many professional schools have their own policies regarding test credit, and it is the responsibility of the student to determine whether a course for which they have earned AP/IB/AICE credit must be retaken to meet professional school requirements. Students must earn a minimum of C in any BHS critical tracking course that is not satisfied by AP/IB/AICE credit unless otherwise specified.

Occupational Therapy Accelerated

Occupational therapy is a professional program. The Occupational Therapy Accelerated Program gives students the opportunity to learn core health science content while simultaneously completing the first-year professional-level coursework required for the Doctor of Occupational Therapy program at UF.

Competitive applicants to the Occupational Therapy Accelerated Program will have met the following requirements:

- Applicants must be Health Science majors in the Pre-Rehabilitation specialization.
- Applicants must have completed all 2000-level prerequisites required for the professional program in occupational therapy.
- A minimum cumulative 3.8 GPA for lower division (freshman and sophomore level) undergraduate college coursework.
- A minimum 3.7 GPA for all prerequisite courses with no grade lower than a C.
- All applicants are required to complete a total of 30 hours of observational hours in at least two diverse OT settings. Diverse settings are settings that service clientele are significantly different; inpatient, outpatient, long term care, school-based, elders, pediatrics, orthopedics, rehabilitation, etc.

- Applicants must submit three recommendations. One of the recommendations must be from a professional level OT. The other two should be from professionals, such as a present or former faculty member, academic advisor, or employer.
- Applicants must submit a personal statement that addresses why they selected OT as a career and how an Occupational Therapy degree relates to their immediate and long-term professional goals. They must describe how their personal, educational, and professional background will help achieve their goals.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete PSY 2012 with a minimum grade of C
- 3.2 cumulative GPA on work from all institutions

Semester 2

- Complete BSC 2005 and BSC 2005L or BSC 2010 and BSC 2010L with minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.4 cumulative GPA on work from all institutions

Semester 3

- Complete STA 2023 with a minimum grade of C
- Complete CLP 3144 with a minimum grade of C
- Complete APK 2100C with a minimum grade of C
- 3.6 GPA required for all critical-tracking courses, based on all attempts
- 3.6 cumulative GPA on work from all institutions

Semester 4

- Complete APK 2105C with a minimum grade of C
- Complete 60 cumulative credits
- 3.7 GPA required for all critical-tracking courses and minimum grades of C on all critical-tracking courses, based on all attempts unless otherwise noted.
- 3.8 cumulative GPA on work from all institutions

Semester 5

- Complete PHC 4101 with a minimum grade of C
- Complete HSA 3111 with a minimum grade of C
- Complete HSC 3057 with a minimum grade of C
- Complete OTH 6002 with a minimum grade of B
- Complete OTH 6722 with a minimum grade of B
- 2.0 UF GPA required

Semester 6

- Complete HSC 3502 with a minimum grade of C
- Complete OTH 6209 with a minimum grade of B
- 2.0 UF GPA required

Semester 7

- Complete HSC 3661 with a minimum grade of C
- Complete HSC 4064 with a minimum grade of C
- Complete OTH 6008C with a minimum grade of B

- Complete OTH 6419 with a minimum grade of B
- 2.0 UF GPA required

Semester 8

- Complete SPA 4106 with a minimum grade of C
- Complete OTH 6242 with a minimum grade of B
- Complete OTH 6423 with a minimum grade of B
- Complete OTH 6539 with a minimum grade of B
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed in the Critical Tracking criteria.

Pre-Rehabilitation

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

- **College:** Public Health and Health Professions (p. 1781)
- **Degree:** Bachelor of Health Science
- **Specializations:** Applied Brain Science (p. 1803) | Occupational Therapy Accelerated (p. 1807) | Pre-Rehabilitation (p. 1812) | Preprofessional (p. 1816)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Bachelor of Health Science (BHS) program is for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Curriculum

- /UGRD/colleges-schools/UGPBH/DSC_UMN/
- /UGRD/colleges-schools/UGPBH/HES_UMN/
- Applied Brain Science Minor
- Health Professions Minor
- Health Science

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers and to teach foundational skills to students who want to work with individuals, groups, or communities who face social, economic, or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in Public Health.

Upon successful completion of the Health Science program, students receive the Bachelor of Health Science degree. While most students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, dentistry), some students seek employment in hospital or related community organizations after completing the BHS.

Specializations

The college offers four specializations. All specializations except Occupational Therapy Accelerated can be declared at the freshman or sophomore years.

Applied Brain Sciences

Offers a suggested prerequisite course sequence for students interested in pursuing training in clinical psychology and neuropsychology, applied human neuroscience, or brain-health focused medical specialties (e.g., psychiatry, neurology).

Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Rehabilitation

Accommodates students interested in rehabilitation health care fields (e.g., occupational therapy, physical therapy).

Preprofessional

For students pursuing careers in fields such as medicine, physician assistant, and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required preprofessional courses with requirements for the health science major.

Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

Each specialization incorporates General Education Mathematics and Writing Requirements and Health Science critical tracking courses. All specializations accept AP, IB, or AICE credit for any prerequisite course. However, many professional schools have their own policies regarding test credit, and it is the responsibility of the student to determine whether a course for which they have earned AP/IB/AICE credit must be retaken to meet professional school requirements. Students must earn a minimum of C in any BHS critical tracking course that is not satisfied by AP/IB/AICE credit unless otherwise specified.

Pre-Rehabilitation

The Pre-Rehabilitation specialization is designed to accommodate students interested in rehabilitation health care fields (e.g., occupational therapy, physical therapy).

To remain in the Health Science major, students must:

- Remain on track each Fall and Spring term, for a total of four semesters.
- Complete the following critical tracking courses or equivalents by the end of the fourth semester:

Code	Title	Credits
APK 2105C	Applied Human Physiology with Laboratory	4
Select one:		4
BSC 2005 & 2005L	Biological Sciences and Laboratory in Biological Science	
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory	
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete PSY 2012 with a minimum grade of C
- 2.8 cumulative GPA on work from all institutions

Semester 2

- Complete STA 2023 with a minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.1 cumulative GPA on work from all institutions

Semester 3

- Complete (BSC 2005 and BSC 2005L) or (BSC 2010 and BSC 2010L) with minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.2 cumulative GPA on work from all institutions

Semester 4

- Complete APK 2105C with a minimum grade of C
- Complete 60 cumulative credits
- 3.0 GPA required for all critical-tracking courses and minimum grades of C on all critical-tracking courses, based on all attempts unless otherwise noted.
- 3.2 cumulative GPA on work from all institutions

All General Education requirements, including State Core, International (N), the University Writing Requirement, and the Civic Literacy requirement, must be completed prior to the graduating semester.

Semester 5

- Complete PHC 4101 with a minimum grade of C
- Complete HSA 3111 with a minimum grade of C
- Complete HSC 3057 with a minimum grade of C
- 2.0 UF GPA required

Semester 6

- Complete HSC 3502 with a minimum grade of C
- Complete OTH 3416 with a minimum grade of C
- 2.0 UF GPA required

Semester 7

- Complete HSC 3661 with a minimum grade of C
- Complete HSC 4064 with a minimum grade of C
- Complete OTH 3413C with a minimum grade of C
- 2.0 UF GPA required

Semester 8

- Complete HSC 4541 with a minimum grade of C
- Complete SPA 4106 with a minimum grade of C
- Complete OTH 4412 and OTH 4412L with a minimum grade of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80); Writing Requirement)	3
PSY 2012	General Psychology (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	3
Gen Ed Mathematics (MAC 1147 recommended if pre-PT)		3-4
Elective		3
	Credits	**15-16**
Semester Two		
ENC 1102	Argument and Persuasion (State Core Gen Ed Composition (p. 80); Writing Requirement)	3

STA 2023	Introduction to Statistics 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	3
State Core Gen Ed Humanities with International (p. 80)		3
Gen Ed Social and Behavioral Sciences (CLP 3144 recommended if pre-OT; DEP 3053 recommended if pre-PT)		3
Civic Literacy course		3
	Credits	**15**
Semester Three		
APK 2100C	Applied Human Anatomy with Laboratory	4
Select one:		4
BSC 2005 & 2005L	Biological Sciences and Laboratory in Biological Science (**Critical Tracking**; State Core Gen Ed Biological Sciences; only if pre-OT)	
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; State Core Gen Ed Biological Sciences; if pre-OT or pre-PT)	
Gen Ed Social and Behavioral Sciences (additional advanced psychology recommended)		3
Electives (CHM 2045 and CHM 2045L if pre-PT)		4
	Credits	**15**
Semester Four		
Quest 2		3
APK 2105C	Applied Human Physiology with Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)	4
Select one:		3-4
ANT 2000 or SYG 2000	General Anthropology (if pre-OT) or Introduction to Sociology	
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (if pre-PT)	
6000-word writing course (with International or Diversity; Writing Requirement)		3
Elective		2
	Credits	**15-16**
Semester Five		
HSA 3111	US Health Care System (**Critical Tracking**) [1]	3
HSC 3057	Research Methods and Issues in Health Science (**Critical Tracking**) [1]	3
PHC 4101	Public Health Concepts (**Critical Tracking**; must complete by end of Semester Five) [1]	3
Electives (PHY 2053 Physics 1 and PHY 2053L Laboratory for Physics 1 if pre-PT)		6
	Credits	**15**
Semester Six		
HSC 3502	Survey of Diseases and Disability (**Critical Tracking**) [1]	3
OTH 3416	Pathophysiology (**Critical Tracking**) [1]	3
6000-word writing course (Writing Requirement)		3
Electives (PHY 2054 Physics 2 and PHY 2054L for Physics 2 if pre-PT)		6
	Credits	**15**
Semester Seven		
HSC 3661	Therapeutic Communication Skills with Patients, Families and the Health Care Team (**Critical Tracking**) [1]	3
HSC 4064	Wearable Technology, Robotics, and Artificial Intelligence for Health (**Critical Tracking**) [1]	3
OTH 3413C	Applied Kinesiology (**Critical Tracking**) [1]	3
Electives (HSC 3537 recommended)		6
	Credits	**15**
Semester Eight		
HSC 4541	Musculoskeletal Assessment in Rehabilitation (**Critical Tracking**) [1]	3
OTH 4412 & 4412L	Musculoskeletal Anatomy and Musculoskeletal Anatomy Laboratory (**Critical Tracking**) [1]	5
SPA 4106	Neuroplasticity and Rehabilitation (**Critical Tracking**) [1]	3
Electives		4
	Credits	**15**
	Total Credits	**120**

[1] Minimum grade of C required.

Pre-OT and Pre-PT students should review the requirements for programs of interest to make sure all prerequisite courses are taken.

Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy, and public health.

Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Describe key elements of the US healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.

Critical Thinking

4. Develop and apply critical analysis skills to contemporary health issues.

Communication

5. Apply effective basic communication skills for health professionals.

- Assignment
- The Bachelor of Health Science (BHS) capstone exam in the final semester

Preprofessional

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

- **College:** Public Health and Health Professions (p. 1781)
- **Degree:** Bachelor of Health Science
- **Specializations:** Applied Brain Science (p. 1803) | Occupational Therapy Accelerated (p. 1807) | Pre-Rehabilitation (p. 1812) | Preprofessional (p. 1816)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Bachelor of Health Science (BHS) program is for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

To remain in the Health Science major, students must:

- Remain on track each Fall and Spring term, for a total of four semesters.
- Complete the following critical tracking courses or equivalents by the end of the fourth semester:

Code	Title	Credits
APK 2105C or CHM 2045	Applied Human Physiology with Laboratory General Chemistry 1	3-4
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory	4
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Semester 1

- Complete PSY 2012 with a minimum grade of C
- 2.8 cumulative GPA on work from all institutions

Semester 2

- Complete STA 2023 with a minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.1 cumulative GPA on work from all institutions

Semester 3

- Complete BSC 2010 with a minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.2 cumulative GPA on work from all institutions

Semester 4

- Complete APK 2105C or CHM 2045 with a minimum grade of C
- Complete 60 cumulative credits
- 3.0 GPA required for all critical-tracking courses and minimum grades of C on all critical-tracking courses, based on all attempts unless otherwise noted.
- 3.2 cumulative GPA on work from all institutions

All General Education requirements, including State Core, International (N), the University Writing Requirement, and the Civic Literacy requirement, must be completed prior to the graduating semester.

Semester 5

- Complete PHC 4101 with a minimum grade of C
- Complete HSA 3111 with a minimum grade of C
- Complete HSC 3057 with a minimum grade of C
- 2.0 UF GPA required

Semester 6

- Complete HSC 3502 with a minimum grade of C
- Complete OTH 3416 with a minimum grade of C
- 2.0 UF GPA required

Semester 7

- Complete HSC 3661 with a minimum grade of C
- Complete HSC 4557 with a minimum grade of C
- Complete RCS 4451 with a minimum grade of C
- 2.0 UF GPA required

Semester 8

- Complete HSC 4608 with a minimum grade of C
- Complete HSC 4652L with a minimum grade of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences; must complete CHM 2045 or APK 2105C by the end of Semester Four)	4
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 80); Writing Requirement)	3
PSY 2012	General Psychology (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	3
General Education Mathematics course (MAC 2311 recommended; Gen Ed Mathematics)		4
	Credits	**14**
Semester Two		
Quest 1 (Gen Ed Humanities)		3
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (Gen Ed Physical Sciences)	4
ENC 1102	Argument and Persuasion (Gen Ed Composition; Writing Requirement)	3
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	3
General Education Social and Behavioral Sciences (SYG 2000 recommended)		3
	Credits	**16**
Semester Three		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)	4
CHM 2210	Organic Chemistry 1	3
State Core Gen Ed Humanities		3
6000-word writing course (Writing Requirement)		3
Elective		1
	Credits	**14**
Semester Four		
Quest 2 (General Education Social and Behavioral Science)		3
APK 2105C	Applied Human Physiology with Laboratory (**Critical Tracking**; Gen Ed Biological Sciences; must complete APK 2105C or CHM 2045 by the end of Semester 4)	4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2	4
CHM 2211 & 2211L	Organic Chemistry 2 and Organic Chemistry Laboratory	5
	Credits	**16**
Semester Five		
HSA 3111	US Health Care System (**Critical Tracking**) [1]	3
HSC 3057	Research Methods and Issues in Health Science (**Critical Tracking**) [1]	3
PHC 4101	Public Health Concepts (**Critical Tracking**) [1]	3
Select one:		4
BCH 3025	Fundamentals of Biochemistry (if pre-PA)	

BCH 4024	Introduction to Biochemistry and Molecular Biology (if pre-Medical or pre-Dental)	
Elective		2
	Credits	**15**
Semester Six		
HSC 3502	Survey of Diseases and Disability (**Critical Tracking**) [1]	3
OTH 3416	Pathophysiology (**Critical Tracking**) [1]	3
Select one:		4-5
APK 2100C	Applied Human Anatomy with Laboratory (if pre-PA)	
PHY 2053	Physics 1	
& 2053L	and Laboratory for PHY 2053 (if pre-Medical or pre-Dental)	
6000-word writing course (Writing Requirement, with International)		3
Elective		2
	Credits	**15-16**
Semester Seven		
HSC 3661	Therapeutic Communication Skills with Patients, Families and the Health Care Team (**Critical Tracking**) [1]	3
HSC 4557	Medical Pharmacology in Clinical Care (**Critical Tracking**) [1]	3
RCS 4451	Rehabilitation Aspects of Substance Abuse (**Critical Tracking**) [1]	3
Select one:		3-5
AGR 3303	Genetics (if pre-PA)	
or PCB 3063	or Genetics	
PHY 2054	Physics 2	
& 2054L	and Laboratory for PHY 2054 (if pre-Medical or pre-Dental)	
Electives (MCB 3020 & MCB 3020L recommended if pre-PA or pre-Dental)		3
	Credits	**15-17**
Semester Eight		
HSC 4608	Clinical Diagnosis and Decision Making (**Critical Tracking**) [1]	3
HSC 4652L	Ethical and Legal Issues in the Health Professions (**Critical Tracking**) [1]	3
Electives (HSC 3537 recommended for Pre-PA students)		9
	Credits	**15**
	Total Credits	**120**

[1] Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated.

The health science program requires 120 credits for degree. Students following the preprofessional guidelines will require more than 120 credits and includes all preprofessional coursework.

Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy, and public health.

Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

CONTACT
1225 Center Drive
HPNP BUILDING
GAINESVILLE FL 32610
Map (http://campusmap.ufl.edu/#/index/0749)

Curriculum

- American Sign Language and Deaf Culture Certificate
- Artificial Intelligence in Public Health and Healthcare Certificate
- Public Health
- Public Health Minor
- Rehabilitation Minor

A primary goal of the Bachelor of Public Health degree program is to prepare students for advanced master's training in public health and the health professions. Students interested in a specific area of public health have the opportunity to organize some of their electives around a cohesive Public Health topic. Additionally, interested students can explore a combination-degree program in public health.

Upon successful completion of the public health program, students receive the Bachelor of Public Health degree. While most students pursue graduate or professional training in public health or a related field, some students seek employment in various organizations, including not-for-profit and for-profit agencies or related community health organizations, after completing the BPH.

Course Sequence

The Public Health program is designed primarily for students who want to pursue advanced degree work in Public Health or a related field. It is also appropriate for those who want to acquire foundational Public Health knowledge before continuing to graduate or professional school or who will work in a healthcare setting after graduation. In order to be on track for public health, students must meet the critical tracking criteria listed below, beginning with their first Fall or Spring term.

Admission Requirements

Requirements to enter the program:

- Complete these critical-tracking courses

Code	Title	Credits
BSC 2005	Biological Sciences	3
or BSC 2010	Integrated Principles of Biology 1	
ENC 2256	Writing in the Disciplines	3
STA 2023	Introduction to Statistics 1	3
PSY 2012	General Psychology	3

- 3.0 overall GPA and 3.0 critical tracking GPA
- AA degree or 60 transferable college level credits

AP, IB, or AICE credit is accepted for any prerequisite course. Students must earn a minimum of C in all BPH critical tracking courses if not satisfied by AP/IB/AICE credit.

NOTE: While students can use AP/IB/AICE credit to satisfy BPH critical tracking, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

Critical Tracking

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/advance-search/) may be used for transfer students.

SEMESTER 1

- Complete PSY 2012 with a minimum grade of C
- 3.0 GPA required for all critical tracking courses
- 2.3 UF GPA overall

SEMESTER 2

- Complete STA 2023 with a minimum grade of C
- 3.0 GPA required for all critical tracking courses
- 2.7 UF GPA overall

SEMESTER 3

- Complete BSC 2005 or BSC 2010 with minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

SEMESTER 4

- Complete ENC 2256 or a substitution approved by a PHHP advisor
- 3.0 critical tracking GPA and minimum grades of C on all critical tracking courses, based on all attempts.
- 3.0 cumulative GPA on work from all institutions

All General Education requirements, including State Core and International (N), must be completed prior to taking PHC 4943.

SEMESTER 5

- Complete PHC 4101 with a minimum grade of C
- Complete PHC 3603 with a minimum grade of C
- Complete HSA 3111 with a minimum grade of C
- Complete 1 of the following core courses with a minimum grade of C: PHC 4418 or PHC 4503
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

SEMESTER 6

- Complete HSC 3057 with a minimum grade of C
- Complete PHC 4094 with a minimum grade of C
- Complete 1 of the following core courses with a minimum grade of C: PHC 3440, PHC 4117, PHC 4418, or PHC 4503
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

SEMESTER 7

- Complete PHC 4024 with a minimum grade of C
- Complete PHC 4320 with a minimum grade of C
- Complete 1 of the following core courses with a minimum grade of C: PHC 3440, PHC 4117, PHC 4418, or PHC 4503
- Complete a minimum of 3 college approved elective credits
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

SEMESTER 8

- Complete PHC 4943 with a minimum grade of C
- Complete all remaining core critical tracking courses
- Complete a minimum of 6 college approved elective credits
- 3.0 GPA required for all critical tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3

	Total Credits	**120**

[1] Minimum grade of C required for all critical tracking courses.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term and order indicated.

Academic Learning Compact

Students graduating with a Bachelor of Public Health will be prepared for careers in health organizations or systems addressing the unique health and social service needs of communities and populations. They will gain foundational knowledge and skills necessary to enter post baccalaureate academic programs in public health or complementary fields and succeed in the dynamic public health workforce.

Before Graduating Students Must

- Earn minimum grades of C in all public health core courses.
- Pass a BPH capstone exam and service learning experience.
- Complete requirements for the post baccalaureate degree, as determined by the faculty and the university.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1. Explain the five major areas of public health (biostatistics, environmental health, epidemiology, health policy and management, and social and behavioral science), and each area's contribution to public health.

2. Examine the socio-economic, behavioral, biological, environmental, and other factors that impact human health and contribute to health disparities.

Critical Thinking

3. Identify, critically evaluate and interpret, and propose strategies, solutions, and interventions to address public health challenges.

Communication

4. Communicate public health information in oral and written forms using various media.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Public Health Minor

The Public Health minor enables students to acquire public health knowledge that complements their career paths. The minor is designed for students going into careers other than public health who can benefit from public health knowledge. A few examples of these careers include dentistry, medicine, nursing, occupational therapy, physician assistant, nutritional sciences, psychology, anthropology, health education, and engineering.

About this Program

- **College:** Public Health and Health Professions (p. 1781)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

Website (https://publichealth.phhp.ufl.edu/)

CONTACT

1225 Center Drive
HPNP BUILDING
GAINESVILLE FL 32610
Map (http://campusmap.ufl.edu/#/index/0749)

Curriculum

- American Sign Language and Deaf Culture Certificate
- Artificial Intelligence in Public Health and Healthcare Certificate

- Public Health
- Public Health Minor
- Rehabilitation Minor

Prerequisites

Students must complete these prerequisites with minimum grades of C to be considered for a minor.

Satisfactory completion of the prerequisite requirements does not guarantee admission to the Public Health minor.

- Sophomore standing or higher (30+ credits)
- 3.0 overall GPA
- 3.0 prerequisite GPA
- Completion of the following:

Code	Title	Credits
BSC 2005	Biological Sciences	3
or BSC 2010	Integrated Principles of Biology 1	
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1 (C or better)	3

Required Courses

Code	Title	Credits
HSA 3111	US Health Care System	3
PHC 4101	Public Health Concepts	3
PHC 4418	Social, Economic, and Environmental Drivers of Health	3
Select two:		6
HSC 4247	Disinformation and Misinformation in Healthcare	
HSC 4643	Access and Rehabilitation in Serving Vulnerable Populations	
PHC 3440	Global Public Health	
PHC 3603	Critical Issues in Public Health	
PHC 3678	Global Health Disparities and Disabilities	
PHC 4024	Applied Epidemiology	
PHC 4094	Introduction to Biostatistics for Health Science and Public Health	
PHC 4309	Climate Change, the Environment, and the Future of Public Health	
PHC 4320	Environmental Concepts in Public Health	
PHC 4503	Public Health Messaging and Dissemination	
Total Credits		**15**

Counting Credits for Undergraduate or Graduate Degrees

Undergraduates who are interested in public health as a career path but do not want to pursue a Bachelor of Public Health should consider the Bachelor/MPH Combination Degree. This would allow courses taken in a student's junior and senior years to count toward an MPH degree.
More Info (http://mph.ufl.edu/)

Rehabilitation Minor

The Rehabilitation minor provides a basic scientific foundation to understand the impact of disability on physical and psychosocial health.

About this Program

- **College:** Public Health and Health Professions (p. 1781)
- **Credits:** 17 | Completed with minimum grades of C

Department Information

GAINESVILLE FL 32610
Map (http://campusmap.ufl.edu/#/index/0749)

Curriculum

- American Sign Language and Deaf Culture Certificate
- Artificial Intelligence in Public Health and Healthcare Certificate
- Public Health
- Public Health Minor
- Rehabilitation Minor

The minor is open to all students who meet the prerequisites listed below, except for Health Science majors in the Pre-Rehabilitation specialization. Health Science majors in the Preprofessional specialization can substitute CHM 2045 for the APK 2105C prerequisite requirement.

Prerequisites

Completion of prerequisite courses does not guarantee admission to the minor.

- Junior standing or higher (60+ credits)
- A 3.0 overall UF GPA and a 3.0 prerequisite GPA based on the following courses:

Code	Title	Credits
APK 2105C	Applied Human Physiology with Laboratory	4
BSC 2010	Integrated Principles of Biology 1	3
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3

Students will only be considered for the minor if all prerequisites are complete prior to applying.

Required Courses

Code	Title	Credits
HSC 3502	Survey of Diseases and Disability	3
HSC 4541	Musculoskeletal Assessment in Rehabilitation	3
OTH 3413C	Applied Kinesiology	3
OTH 3416	Pathophysiology	3
OTH 4412	Musculoskeletal Anatomy	5
& 4412L	and Musculoskeletal Anatomy Laboratory	
Total Credits		**17**

Majors

Index of all Majors (http://catalog.ufl.edu/UGRD/programs/#filter=filter_22)

An academic major represents each student's principal interest and the majority of their efforts during their undergraduate studies. Each major's core curriculum covers a range of subjects that provide the student with a solid foundation in their chosen field of study.

Declaring a Major

Upon entering UF as a freshman, students are encouraged to declare the major that they are most likely to pursue. Students may declare Exploratory if they are unsure. In their first few terms, students should take courses to explore multiple academic areas. Many students have varied interests and will graduate with minors, certificates, double majors, dual degrees or combination degrees.

Exploring Areas of Interest

Exploring areas of interest early helps students determine whether they want to pursue additional academic programs. In addition, quite a few students change majors in their first or second year, so exploring multiple areas early helps students to confirm their choice of major or identify a more desirable major.
More Info (https://www.advising.ufl.edu/exploratory/)

Declaring an Exploratory Category

First-year students with no major preference can declare one of three exploratory categories (humanities and letters, social and behavioral sciences, or science and engineering) for the first three Fall/Spring terms. Exploratory students are advised by the Academic Advising Center and affiliated with

the College of Liberal Arts and Sciences. Exploratory students should be purposeful in all of their decisions, particularly when it comes to choosing classes for each semester to be sure they are taking courses to explore potential majors. They must also actively work to narrow down UF majors to one that fits their aspirations and abilities.

Changing Majors

It's not unusual for students to change their minds about majors and career paths as they gain educational and practical experience. To help ensure that students make the best choices regarding their major and degree, UF provides guidance, information, and technical assistance. Students should proactively determine their major to obtain the degree that fits them best instead of being forced to select a major due to pending academic deadlines.

There is often little relationship between undergraduate degrees and specific types of employment. A specific major does not guarantee employment in a specific field, nor does a specific major limit employment to a specific field.

Ways to Explore Areas of Study at UF

Review the Undergraduate Majors

Students should search for majors that interest them and explore required courses; they should also speak to faculty or advisors in those departments.

Use ONE.UF to Explore Majors by Subject Area, College, or Major

Current students can use What-If reports in ONE.UF (https://one.uf.edu/) to discover if coursework they have taken applies toward a given major's requirements. For additional information, students should contact the department offering the degree or the advising office of the appropriate college.
More Info (https://one.uf.edu/)

Meet with an Academic Advisor

Students can discuss majors and career options with an advisor in the college affiliated with their interests.
More Info (http://www.ufadvising.ufl.edu/)

Utilize the Exploratory Website

Students who are considering different majors can review advising suggestions, an exploratory timeline, resources, and tips on choosing a major.
More Info (https://www.advising.ufl.edu/exploratory/)

Visit the Career Connections Center

The Career Connections Center located on the first floor of the J. Wayne Reitz Union helps students make choices about their major and career. In addition to providing individual and group career counseling, the Career Connections Center library covers everything from accounting to zoology. Many other resources to explore careers are available through the website (https://career.ufl.edu/career-action-plan/learn-about-yourself/), including information about career planning and numerous helpful exercises. After a tentative decision is made, the Career Connections Center helps students test their choice by participating in externships, internships, co-ops, and career fairs.
More Info (https://career.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0686)

Talk to a College or Department Representative

Students should be sure to discuss various academic programs and their potential career implications. Websites and contact information for each major can be found on its major page.

Minors

Index of all Minors (http://catalog.ufl.edu/UGRD/programs/#filter=filter_23)

The minor provides a traditional, well-accepted way to recognize that a student has completed a significant body of work outside the major. Students can follow-up on long-time personal interests, satisfy intellectual curiosity generated by introductory courses, differentiate their program of study from those of fellow students or enhance their opportunities for employment or for admission to graduate or professional schools.

Applying for a Minor

Students should review the information about their minor of interest in this catalog. In general, each minor page explains which students are eligible to pursue the minor, any qualifications or prerequisites necessary to be eligible for the minor and the requirements to complete the minor. Students are also encouraged to discuss the minor with the offering department.

Students interested in pursuing a minor must complete an application. Students will not be able to earn a minor if an application has not been submitted and approved. The application requires the approval of the student's college as well as the college offering the minor. Students may apply using the link below. The approval process can take some time, so students are strongly encouraged to apply to pursue a minor early.

Apply for a Minor (https://one.uf.edu/minor/)

Considerations

- Students must have at least 45 credits to apply for a minor.
- Students on college probation cannot apply for a minor.
- Choosing to add a minor may result in an excess hour surcharge. Students should consult with an academic advisor in their college about how a minor may impact their excess hours assessment.
- Additional Information can be found on ONE.UF under Degree Audit.

Certificates

Each certificate awarded to a student must have at least nine credits that are distinct from every other certificate or minor for that student. That is, certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors awarded to the student. All courses required must be completed with minimum grades of C or S in each course. The undergraduate certificate does not require completion of graduate courses. A student may not earn a certificate if all courses required for successful completion of the certificate program are also required by the student's major for successful completion of the degree.

Excerpted from the Certificate Policy *(*https://approval.ufl.edu/policies/certificate-policies-ugradpro/*)*

Applying for a Certificate Program

Index of all Certificates (http://catalog.ufl.edu/UGRD/programs/#filter=filter_24)

Students should review the information about their certificate of interest in this catalog. In general, each certificate page explains which students are eligible to pursue the certificate, any qualifications or prerequisites necessary to be eligible for the certificate and the requirements to complete the certificate. Students are also encouraged to discuss the certificate with the offering department.

Students interested in pursuing a certificate must first apply for program admission. After being admitted and completing the requirements, students will be able to apply to be granted the certificate through ONE.UF (https://one.uf.edu/). Students who are about to graduate and who have already completed all the requirements for the certificate still must apply for admission using the button below before applying to be granted the certificate through ONE.UF. The certificate approval process can take some time so students are strongly encouraged to apply to pursue a certificate early.

Apply for a Certificate Program (http://www.admissions.ufl.edu/start.html)

Academic Advising

Mission

At the University of Florida, academic advisors empower students to make informed decisions about their educational and career paths. Through a collaborative approach, advisors help students navigate degree requirements, define their success, and take an active role in reaching their academic goals. Our mission is to provide a supportive environment and an individualized approach that enhances each student's holistic learning outcomes..

Vision Statement

At the University of Florida, academic advisors are committed to creating a personalized advising experience where every student feels supported, valued, and equipped to reach their fullest potential.

College/School and Department Responsibilities

The dean of each college or school ultimately is responsible for ensuring that academic advising is available and accessible to all students within the college or school. Some colleges' advisors are located in college-level offices, while others are located in departmental offices.

Academic Advising Contacts at UF (https://www.ufadvising.ufl.edu/college-advising-contacts/)

Student Academic Responsibilities

To graduate, students are responsible for knowing and fulfilling all university, college, and major requirements.

All students must:

- Complete the Preview orientation program to receive academic advising before their first term of enrollment
- Maintain a GatorLink email address and read official university correspondence sent to this address
- Meet with an advisor in the appropriate college/major upon entrance to a major
- Confer with an advisor on a regular basis about options for a major if the student is undecided about a major
- Review the degree audit each semester to ensure they fully understand their remaining degree requirements
- Seek advising when experiencing academic difficulty to avoid, if possible, academic probation or off-track status, or to understand their options if on probation or off-track
- Maintain their own personal academic records, including transcripts, degree audits, evaluation of transfer work, and notes from previous advising sessions.

Students who at any time are confused about academic requirements or their progress toward a degree are encouraged and expected to meet with an advisor.

Associate of Arts

Area of Interest	Where to Go for Academic Assistance
• Degree certification	• Apply for the degree by the deadline
• Requirements	• The Academic Advising Center to confirm AA eligibility

Majors

Area of Interest	Where to Go for Academic Assistance
• Applying to receive a degree and degree certification	• Apply for the degree by the deadline, and
	• The student's college to confirm eligibility for graduation
• Information about a major	• The college/department that offers that major
• Admission to a major	• The college/department that offers that major or minor

• Study skills and learning strategies to improve grades	• Academic Support Programs

Academic Progress

Universal Tracking

Universal Tracking is the university's monitoring system that assesses progress toward the student's degree requirements. It provides feedback on the student's progress in a major, helping them find the best academic path to complete their degree. For each major, there is a model semester plan which represents an example progression for completing the degree in a timely fashion.

Each semester, students are reminded via GatorLink email and Registration Prep in ONE.UF to review their degree audit before registration for the next term. The audit fits the student's courses and grades into the degree requirements for their major, indicating the requirements that have been completed as well as showing which requirements have yet to be completed.

Students Who Enroll During the Fall and Spring Semesters

Progress toward a degree is monitored in those semesters to ensure that students are on track. For these students, the summer terms may provide opportunities to catch up on critical-tracking courses or to improve their GPA.

Students Who Enroll Only in the Spring and Summer Semesters

Innovation Academy Students

Progress toward a degree is monitored in those semesters to ensure that students are on track. For these students, the Fall semester may provide opportunities to catch up on critical-tracking courses or to improve their GPA.

Critical-Tracking Criteria

Critical-tracking criteria usually include a minimum GPA (UF or overall, depending on the academic program), completion of certain courses toward the major (critical-tracking or preprofessional courses), and a minimum GPA in the critical-tracking courses (tracking or preprofessional GPA). The critical-tracking criteria are listed on the Critical Tracking tab for each major. For many majors, critical-tracking courses are bolded in the semester plan.

Minimum Academic Progress Under Universal Tracking During Semesters 1-5

- Students do not have to complete all of the courses in the model plan each semester to remain on track; they simply have to meet certain minimum requirements known as **critical-tracking criteria**.
- In the degree audit, a summary of critical-tracking criteria for the first five semesters as well as an area that tracks your progress through all eight semesters appears near the top of the audit.
- The critical-tracking criteria are minimum requirements for progression; students should consult their degree audit and their advisor to ensure they meet all requirements for graduation.

- All students admitted as freshmen are monitored in their first semester for the Semester 1 critical-tracking criteria, regardless of the number of credits they have earned through dual enrollment and credit by examination.
- During the first five critical tracking semesters, an **off-track** student will have a hold placed on their registration to require a meeting with an advisor to discuss the student's progress. This enables the student to determine what is necessary to get back on track, or to change to a more appropriate major.
- If a student is **off-track for two consecutive terms** in the first five critical tracking semesters, they must change to a major more appropriate to their skills, goals, and performance. After the student selects a new major, they should contact the college offering that major to schedule an appointment with an advisor to discuss changing majors.

Off-Track Notification During Semesters 1-5

Student progress toward tracking is assessed twice a semester. An analysis of whether the student will be on track at the end of the term ('predictive' analysis) occurs in the fourth week. If a student is predicted to be off-track at the end of the term, a hold is placed on their registration requiring the student meet with an advisor to make a plan to get back on track or change majors.

If a student is predicted to be on-track during the term, but ends up off-track at the end of term, they should meet with an advisor in their college/major before the end of drop/add for the next term to make a plan to get on track or change majors.

Students should review any holds on ONE.UF (http://one.uf.edu/) when planning their registration for the next semester.

How Tracking Holds Affect a Student

- Holds applied before advance registration prevent students from registering until they consult an advisor to develop an academic plan to complete the critical-tracking courses for the current major or identify a more appropriate major.
- Holds applied at the end of the semester for failure to be on track for two consecutive semesters require students to see an advisor before the next term of enrollment to select a new major and to avoid cancellation of enrollment.

Minimum Academic Progress Under Universal Tracking During Semesters 6-8

- In the degree audit, critical-tracking criteria for semesters six through eight will appear in the "Critical Tracking Progress" area near the top of the audit only if the student has a critical tracking term of six through eight.
- The critical-tracking criteria are minimum requirements for progression; students should consult their degree audit and their advisor to ensure they meet all requirements for graduation.
- During the critical tracking semesters six through eight, an **off-track** student may have a hold placed on their record requiring them to formulate a plan for getting on track and preparing for graduation in a timely manner.
- If a student is **off-track for two consecutive terms** in during critical tracking semesters six through eight, they will be required to revise their graduation plan and undergo more intensive academic counseling to ensure they meet all academic requirements for timely graduation.

Off-Track Notification During Semesters 6-8

Student progress toward tracking is assessed twice a semester. An analysis of whether the student will be on track at the end of the term ('predictive' analysis) occurs in the fourth week. If a student is predicted to be off-track at the end of the term, a hold may be placed on their registration requiring the student meet with an advisor to make a plan to get back on track.

Academic Probation and Dismissal

Academic probation and dismissal follow the academic standards of the university and require the maintenance of grade point averages and reasonable adherence to the program of study.

A minimum grade point average of 2.0 is required to graduate from any UF undergraduate degree program. Any college may specify additional academic standards and students are responsible for observing these regulations.

Additional Information

- Probation (p. 1896)
- Dismissal (p. 1896)
- Changing Majors (p. 1828)

Academic Support Programs

Academic Support, Office of | 105 Classroom Building (CBD)

The Office of Academic Support (OAS) for Undergraduate Affairs, in collaboration with faculty, staff, and campus partners, provides programs and services to enrich the experience of UF students. The mission is to offer supportive resources and opportunities that help students thrive and grow professionally. OAS is committed to creating an encouraging and inclusive learning community that challenges students to achieve academic excellence. Comprehensive academic support includes peer coaching, tutoring, general advising, and other resources to promote students' empowerment and growth as scholars. The OAS helps students set and achieve academic goals to persist, graduate, and advance in their careers.

Map (https://campusmap.ufl.edu/#/index/0105) More Info (http://oas.aa.ufl.edu/)

Career Connections Center | Level ONE Reitz Union

The Career Connections Center (C3) is the University of Florida's comprehensive career center serving all students. The Career Connections Center supports students with all career and professional development needs during their time at University of Florida and beyond. The Career Connections Center's mission is to educate and create connections for the UF community to facilitate the holistic career development of students.

The Career Connections Center provides a variety of services, tools, and events for students. Whether students are exploring career options, developing professional skills, finding meaningful experience, or preparing for life after graduation, the Career Connections Center prepares students for work, citizenship, and life. Through the Career Pathways initiative, students can access customized information, connections, and programs to personalize their professional development experience.

Students should activate their Gator CareerLink account to learn about the range of in-person and virtual career planning services available to them, and to see which employers are actively recruiting UF candidates. On Gator CareerLink, students can also see upcoming events and workshops customized to their interests and Career Pathway.

The Career Connections Center also hosts hundreds of employers annually as they attend a variety of career events, hold on-campus interviews, present employer hosted events, and educational programs for students. Students should attend Career Showcase, the largest career fair on campus-hosted every Fall and Spring semester.

Students are encouraged to engage early and often with the Career Connections Center to enhance their University of Florida experience.
Map (http://campusmap.ufl.edu/?loc=0686) More Info (https://career.ufl.edu/)

Center for Undergraduate Research | 202 Newell Hall

The Center for Undergraduate Research (CUR) is committed to fostering a culture of research that encourages students in all levels and disciplines to include a research component as a critical part of their undergraduate experience. CUR provides guidance to students interested in pursuing research opportunities and coordinates campus undergraduate research activities. CUR also works to expand undergraduate research opportunities across campus.
Map (http://campusmap.ufl.edu/?loc=0013) More Info (http://cur.aa.ufl.edu/)

Dean of Students Office Campus Assistance & Resources for Empowerment | CARE

Campus Assistance & Resources for Empowerment (CARE) provides connection, support and guidance for students as they navigate anticipated transitions and unexpected events.

CARE Programs

Alan and Cathy Hitchcock Field & Fork Food Pantry

The Alan and Cathy Hitchcock Field & Fork Pantry assists members of the UF community experiencing food insecurity. The Pantry is committed to protecting its guests' privacy and providing food to those in need within the campus community.

564 Newell Drive (across from the Hub on North Lawn)
352.294.3601
Map (https://campusmap.ufl.edu/#/index/0476) More Info (https://pantry.fieldandfork.ufl.edu/)

Case Managers

Case Managers within CARE provide non-clinical, personalized outreach and offer one-on-one meetings, providing students a space to address academics and overall wellness needs. Students who need assistance through a variety of challenges can indicate their need for support by completing a Self-Care Referral (https://cm.maxient.com/reportingform.php?UnivofFlorida&layout_id=30) form. Faculty, staff, peers, and community members can refer a student of concern to case management by completing a CARE Concern (https://cm.maxient.com/reportingform.php?UnivofFlorida&layout_id=10). CARE Case Managers also help students understand the medical petition process.

Map (http://campusmap.ufl.edu/?loc=0004) More Info (https://care.dso.ufl.edu/)

Collegiate Veterans Success Center | Fourth Floor Yon Hall

The Collegiate Veterans Success Center serves more than 1,500 student Veterans, active-duty service members, and military families at UF by providing a designated location on campus for student Veterans to study, meet with on and off campus resources, and to spend time with and support each other in a fun and relaxing space. The Collegiate Veterans Success Center at UF is also one of ninety-four universities to host the US Department of Veterans Affairs' VetSuccess on Campus Counselor (VSOC). The VSOC Program serves as the on-campus face for the US Department of Veterans Affairs. UF has been honored for its support services for student Veterans, active-duty service members, and military families.

418 Yon Hall
352.294.7233

Map (https://campusmap.ufl.edu/#/index/0158) More Info (https://veterans.dso.ufl.edu/)

Medical Petitions

If a student who has not completed their academic program, experiences an unexpected medical event that interrupts their ability to complete and or pass some or all of their classes in a given term, the medical petition process may be considered. Specific medical documentation is required and should be submitted via the Medical Petition Portal (https://care.dso.ufl.edu/medical-petition-portal/).

Disability Resource Center | Reid Hall and Cypress Hall

The Disability Resource Center (DRC), in the Division of Student Life, champions a universally accessible campus community that supports the holistic advancement of students with disabilities.

The DRC serves more than 7,000 registered students to provide access within the academic and housing environments. This may be achieved through academic accommodations as well as collaborating with faculty and staff across the University to proactively address barriers. Students are able to register online by visiting the DRC website. DRC staff are available to consult with faculty and staff on how to best support the access needs of gators with disabilities. Students and their families can schedule an inquiry appointment to learn more about the DRC.

Graduate Student Support & Engagement, Office of | 123 Grinter Hall

The Office of Graduate Student Support & Engagement (OGSSE) is a unit of the Graduate School committed to promoting and sustaining a community that provides comprehensive graduate student support and engagement services to promote academic success, personal development, and social well-being. OGSSE aims to create and nurture a welcoming environment that encourages diversity of thought and empowers students to participate in programs that engage all graduate students.

OGSSE strives to provide currently enrolled graduate students with programs and services to assist and support the pursuit of successful graduate education. OGSSE maintains partnerships with administrative offices, academic units, research centers, student services, and organizations across campus to promote excellence in the graduate experience.

Office of Graduate Student Support & Engagement

Gainesville, FL 32611

352.392.6444

International Center | 170 Hub

The UF International Center (UFIC) supports and promotes international education and research across the university and provides valuable support services for all students and faculty at UF through its various units. International Student Services provides immigration and support services to international students throughout their studies at UF. Exchange Visitor Services provides administrative support for international scholars at UF. The Office for Global Learning supports integrative global opportunities for faculty and staff to facilitate global learning courses and experiences. The Office for Global Research supports faculty development of international research and training programs.

Study Abroad Services develops, administers, and coordinates study abroad programs, which are offered during Spring Break, summer, semester, and the entire academic-year. Students can live and study abroad while fulfilling UF degree requirements. Exchange programs enable students to pay UF tuition while studying at an international partner institution. Scholarships and financial aid can help to finance the international academic experience. Study abroad advisors work with students to find a program that fits both their personal and academic needs.

McNair Scholars Program | 3rd Floor CSE Building

The Ronald E. McNair Scholars Achievement Program encourages undergraduate students to pursue advanced studies at the PhD level. This intense academic research program, one of the most prestigious in the country, is designed for first-generation students from limited income backgrounds who aspire to earn a PhD. There are over 200 McNair programs nationally, which are funded by Federal TRIO Program grants from the US Department of Education.

New scholars begin the program in May with an intensive 10-week summer research internship. During the internship, scholars conduct research with a faculty mentor, complete a research methods and writing course, gain access to resources to prepare for the GRE, attend graduate school success seminars, and participate in team building, cultural, and scholarly activities.

McNair Scholars also receive individual coaching, academic support, opportunities to travel to professional conferences and prospective graduate programs, and many other benefits.

CLAS Academic Resources

Academic Resources offers various academic resources to help students succeed in their studies. All tutoring services are free to current students.

Available Tutoring Services

Drop-in Tutoring

Best for students who have a few questions or want a place to study with the opportunity to ask questions of a tutor.

Appointment tutoring

Best for students who want to meet regularly with a tutor for an entire class period. These appointments meet at the same time each week of the term.

Study Groups / SI

Group tutoring which allows students to work together with a peer leader. In SI, students actively process concepts through social interaction.

Test Reviews

Large auditorium tutoring is great for an overall review of what to expect on upcoming course exams. GRE preparation workshops are also available each semester.

Video Resources

Features tutors explaining how they think about concepts and how they approach problem solving. These online resources are available any time.

Language Studio

Offers facilities and support for language learners and instructors. Activities include: language tutoring, meeting space, conversation space, and multimedia resources.

Language Proficiency Test Proctoring

UF students may use the to prove proficiency in a foreign language, and thus satisfy a foreign language requirement.
More Info (https://academicresources.clas.ufl.edu/testing/flpe/)

A study skills/learning strategies improvement program is also available. Students may work individually with a learning strategist or participate in workshops covering a variety of topics. Study skills videos are available online as well.

Academic Resources also provides tutoring in satellite centers (mathematics through Calculus 1 in LIT 215 and chemistry in TUR 1315). Tutoring schedules may be found on the website.
More Info (https://teachingcenter.ufl.edu/)

University of Florida Libraries

All seven of the libraries on campus serve the entire community, and each has a special mission to be the primary support of specific colleges and degree programs. The Libraries home page offers a wealth of information about the Libraries and links to a vast array of resources.
More Info (https://uflib.ufl.edu)

The Marston Science Library and Library West are the largest libraries on campus. Marston offers a variety of study environments, including silent study (fourth and fifth floors), collaboration spaces (first, second, third floors), and 26 group study rooms. Student groups can reserve the multipurpose conference room for webinars or other interactive events. The first floor is also home to the Marston Makerspace, where students may utilize 3D printers, laser cutters, soldering irons, sewing machines and more for a hands-on learning environment.

Library West houses most of the collections in humanities and social sciences as well as the circulating collection of the Isser and Rae Price Library of Judaica. The largest branch library on the UF campus, Library West has seating for approximately 1,300 patrons, 1.7 million volumes of in-house books and materials, over 200 public computers, two KIC Bookeye high-speed scanners, in addition to a wide variety of circulating A/V technology and equipment items. This library offers four floors with spaces for individual and group study, eighteen group study rooms, an accessibility studio, a video recording studio, twelve online proctored testing booths, a limited-access floor for graduate students, a quiet study floor, a mindfulness studio, two gender-inclusive bathrooms, and a lactation room. The Scott Nygren Digital Scholars Studio supports instruction and project collaboration for researchers in digital humanities. Library West is also proud to be an official donation drop-off location for Hitchcock Field & Fork, the campus food pantry.

Other campus libraries include the Health Science Center Library, Education Library, Architecture & Fine Arts Library, Smathers Library (housing the Special and Area Studies Collections Department), and the Legal Information Center.
More Info (https://uflib.ufl.edu)

University Multicultural Mentor Program

The University Multicultural Mentor Program is an opportunity open to incoming students from underrepresented populations. The program pairs each participant with a faculty/staff mentor to assist with the students' transition to college. Mentoring programs have a dramatic and positive

effect on student retention, graduation rates, and faculty-student relations. This program lasts the full duration of the student's first year at UF and is administered by the Center for Inclusion and Multicultural Engagement within the Division of Student Life.

University Writing Program | 2215 Turlington Hall

The University Writing Program (UWP) offers writing-intensive courses, workshops, and tutorial support to students and faculty. Instruction is based on the premise that writing is a skill necessary for success in all academic and professional fields.

The University Writing Program also provides one-on-one consultations on any topic related to writing in the Writing Studio. Students can make an appointment online or by contacting the UWP office.

Courses taught by writing program faculty include

Code	Title	Credits
ENC 1101	Expository and Argumentative Writing	3
ENC 1102	Argument and Persuasion	3
ENC 2305	Analytical Writing and Thinking	3
ENC 3246	Professional Communication for Engineers	3
ENC 3252	Writing for Strategic Communication	3
ENC 2256	Writing in the Disciplines	3
Variable topics for ENC 2256 include: Nature Writing; Travel Writing; Writing in Construction Management; Writing in the Environmental Sciences; Writing for Graphic Design; Writing in the Humanities; Writing for Non-Profits; Writing in Sustainability; Writing in Women's Studies		
ENC 3453	Writing in the Health Professions	3
ENC 3459	Writing in the Medical Sciences	3
ENC 3464	Writing in the Social Sciences	3
ENC 3465	Writing in the Law	3
ENC 3466	Writing in the Communication Sciences	3
ENC 3483	Writing in the Physical Sciences	3
ENC 4493	Peer Tutoring in Rhetoric and Writing	2
ENC 4905	Directed Independent Study in Rhetoric and Writing	1-3
ENC 4930	Special Topics in Rhetoric and Writing	1-3
IDS 1468	Why Tell Stories?	3
IDS 1623	The Anatomy of a Story	3
IDS 1624	Time, Culture, and Identity	3

Academic Honors

Honors Program

Mission

The mission of the University of Florida Honors Program is to connect, nurture, and engage the next generation of scholars who change the world. The program does this by recruiting high achieving students from around the world; inspiring curiosity, intellectual daring and creativity; and building a lifelong community of high-achieving peers, top-notch faculty and supportive staff. The Honors Program values the power of opportunity, the strength in community, and the love of a challenge.
More Info (http://www.honors.ufl.edu/)

Honors Program Requirements

Students who have been admitted into the Honors Program starting in 2022 must complete requirements at three different milestones to progress through the University Honors Program. Milestone review will take place at the checkpoints indicated below. Students who do not meet their milestone requirements by their checkpoint review will not remain in the program. All requirements are listed in detail in the Honors Cohort in Canvas.

Students are encouraged to meet early on with their Honors advisor to develop a plan for aligning their milestone requirements with their academic and career goals.

Milestone I: First Year

- Entrance Survey
- 2 Honors Courses | 2-4 Academic Points | Honors Course Category
- 3.5 Cumulative UF GPA
- Good Standing with Student Code of Conduct / Honor Code

Checkpoint Review: End of first Spring semester at UF

Milestone II: Second Year

- 2 Additional Academic Points | any category
- 2 Enrichment Points | any category
- 3.5 Cumulative UF GPA

Checkpoint Review: End of Summer C following the 2nd year

Completion Progress Check-in

Review of progress with Honors Completion Coordinator

Checkpoint Review: During Third Year

Milestone III: Graduation

- Exit Survey / Final Submission Clearance
- 2-4 Additional Academic Points | any category
- 4 Additional Enrichment Points | any category
- Cum Laude Honors Distinction in the Major or 3.5 upper-division UF GPA

Checkpoint Review: Published Honors Completion Deadline / Awarding of Undergraduate Degree

Students who meet requirements for all three milestones will receive a notation on their official UF transcript and a medallion to wear at commencement

Students in the Honors Program have access to:

- Specialized honors courses (http://www.honors.ufl.edu/academics/courses/)
- Holistic academic advising and coaching (http://www.honors.ufl.edu/academics/advising/)
- Honors student involvement opportunities (http://www.honors.ufl.edu/student-life/)

In addition, students in the Honors Program have early course registration for their first 10 credits each semester. Early registration privileges are limited to students in good standing with either the FHP or UHP.

Honor Roll

Students will appear on the President's Honor Roll if they achieve a perfect 4.0 GPA with at least 15 credits of graded academic coursework (no S/U) in the Fall or Spring semester, or at least 12 credits of graded coursework in the Summer semester (consisting of any combination of credits earned in Summer A, B, or C). This achievement will appear on the student's transcript as a permanent record.
Map (http://campusmap.ufl.edu/#/index/0031) | Email (help@registrar.ufl.edu)

Students registered with the Disability Resource Center may be eligible with a reduced course load and the GPA requirement, following certification by the DRC.
More Info (https://disability.ufl.edu/meet-the-team/)

Dean's List

Students will appear on their college's Dean's List if they meet the requirements. In addition, please note the following conditions:

- S/U and internship courses are not counted in the GPA calculation for Dean's List.
- GPA value is determined to the hundredths place and cannot be rounded up (e.g., 3.495 = 3.49).
- Grades of I, NG, I* or N* cannot be calculated into the GPA.
- Students registered with the Disability Resource Center may be allowed to vary the number of credits required, but not the GPA requirement, following certification by the DRC.
- Students are eligible to earn the Dean's List designation only once for the entire summer semester.

Graduating With Honors

The university offers three levels of honors: **cum laude**, **magna cum laude**, and **summa cum laude**.

Be aware that:

- GPA value is determined to the hundredths place (e.g., 3.495 = 3.49)
- Transfer credits and S/U option credits are excluded
- Postbaccalaureate students are not eligible for honors recognition
- Honors recognition is printed on the university diploma
- Students should check with an academic advisor for complete details

A committee of at least three faculty members evaluates the thesis and makes a recommendation to the astronomy advisor regarding the level of honors awarded.

Biology

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Distinction of magna cum laude requires a 3.50 or higher GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Student must also complete the equivalent of at least six credits of approved undergraduate research (contact undergraduate coordinator), complete a thesis research project and submit a mentor-approved honors thesis. The undergraduate coordinator will review the thesis and submit a recommendation for approval or disapproval to the Biology Major Executive Committee.	Distinction of summa cum laude requires a 3.75 or higher GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Student must also complete the equivalent of at least six credits of approved undergraduate research (contact undergraduate Coordinator), complete a thesis research project and submit a mentor-approved honors thesis. The undergraduate coordinator will review the thesis and submit a recommendation for approval or disapproval to the Biology Major Executive Committee.

Botany

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must complete one semester (3-4 credits) of BOT 4911, complete a research project, and write a thesis.	Student must complete two semesters (6-8 credits) of BOT 4911, complete a research project, and write a thesis.

Chemistry

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must complete six credits of CHM 4910 and write a thesis. Distinction of magna or summa cum laude is based on both GPA and faculty evaluation of the thesis.	Student must complete six credits of CHM 4910 and write a thesis. Distinction of magna or summa cum laude is based on both GPA and faculty evaluation of the thesis.

Classical Studies

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must also write an honors thesis under supervision of a faculty mentor. Contact the Classics undergraduate advisor for more information.	Student must also write an honors thesis under supervision of a faculty mentor. Contact the Classics undergraduate advisor for more information.

Computer Science

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Requires two additional approved CISE courses.	3.80 GPA. Requires two additional approved CISE courses.

Criminology

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Students must have a 3.70 GPA or higher GPA on all courses taken at UF. Students must defend a thesis and may enroll in CCJ 4970 or honors-focused courses for credit to write a thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.	Students must have a 3.70 GPA or higher GPA on all courses taken at UF. Students must defend a thesis and may enroll in CCJ 4970 or honors-focused courses for credit to write a thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.

Data Science

Cum Laude	Magna Cum Laude	Summa Cum Laude
	To be eligible for the designation magna cum laude (high honors), data science majors must write a thesis in addition to meeting the GPA criterion of 3.50 or better. Additional guidelines can be found on the department's website.[1]	To be eligible for the designation summa cum laude (highest honors), majors must write a thesis and earn a GPA of 3.50 or better. Additional guidelines can be found on the department's website.[1]

[1] More Info (https://stat.ufl.edu/academics/undergraduate/honors/)

Economics

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must earn a 3.30 GPA for all UF economics courses, complete ECO 4935 or ECO 4905, and submit an acceptable thesis.	Student must earn a 3.70 GPA on all courses taken at UF the semester after accumulating 60 credits and a 3.50 GPA for all UF economics courses. Must also complete ECO 4935 or ECO 4905 and submit an acceptable thesis.

English

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must earn an A or B grade in at least one semester of ENG 4936 and a minimum grade of B + in ENG 4970.	Student must earn a minimum grade of B and at least one A in no fewer than two semesters of ENG 4936 and an A in ENG 4970.

Foreign Languages and Literatures

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Students must complete a thesis and receive approval of the completed project by two full-time faculty members (excluding adjunct faculty), one of whom must be affiliated with Languages, Literatures and Cultures and serve as the student's primary advisor. In consultation with the primary advisor, the student should identify the second faculty member no later than the mid-point of the semester. It is strongly recommended that the student complete up to 6 credits of 4911 in their area of specialization. (In the case of the Chinese and Japanese tracks, it is strongly recommended that the student complete up to 3 credits of CHI 4911/ CHT 4911 or CHW 4911 or JPN 4911/JPT 4911 or JPW 4911, prior to completing 3 credits of CHI 4935 or JPN 4935 (Senior Thesis). Academic Terminology

| A (p. 1849) | B (p. 1850) | C (p. 1850) | D (p. 1851) | E (p. 1851) | F (p. 1852) | G (p. 1852) | H | I (p. 1852) | J | K | L (p. 1852) | M (p. 1853) | N | O (p. 1853) | P (p. 1853) | Q | R (p. 1854) | S (p. 1854) | T (p. 1855) | U (p. 1855) | V (p. 1855) | W (p. 1855) | X | Y | Z |

A

- **AA Degree**
  Associate of Arts degree, awarded upon satisfactory completion of 60 credits (at least 36 at UF) with an overall C (2.0) average, including the General Education requirement, foreign language competency, the Civic Literacy requirement, and the Writing Requirement.
  More Info (p. 1902)

- **Academic Learning Compact | ALC**
  UF's definition for each major of the minimum communication skills, critical thinking skills and content knowledge appropriate for that major.

- **Academic Year**
  The annual cycle of academic terms: Summer B, Fall, Spring, Summer A, Summer C.
  More Info (p. 1921)
- **Admission Requirements**
  The necessary minimum criteria every applicant must have to be admitted to UF. Many majors have additional requirements for admission as a junior.
  More Info (p. 23)
- **Admitted**
  Term used to describe students who have applied and have been accepted to the university in a degree-seeking status. Admission is not validated until the student registers for and attends classes.
  More Info (p. 23)
- **Audit**
  Permission to attend and to participate in a course without benefit of a grade or credit. Continuing Education Units (CEUs) may be awarded at the discretion of the instructor.
  More Info (p. 1918)

B

- **Baccalaureate**
  Bachelor's degree, the traditional undergraduate degree. BA is the Bachelor of Arts degree and BS is the Bachelor of Science degree. It is awarded upon satisfactory completion of at least 120 credits with an overall C (2.0) average.

C

- **Calendar, University**
  An annual publication listing all official dates and deadlines for the academic year.
  More Info (p. 1921)
- **Catalog Year**
  The year during which the regulations published in a specific edition of the undergraduate catalog apply. A student's catalog year determines their academic requirements for completing a degree based upon the requirements published in the catalog in effect at the time the student begins degree-seeking enrollment.
  More Info (p. 1902)
- **Certificate**
  An organized concentration of study in an approved subject area. University-approved certificate programs began appearing on the student transcript in Spring 2012. Non-university approved certificate programs are not recognized on a student transcript, although individual courses are reflected.
  More Info (p. 1829)
- **Classification/College**
  A code indicating a student's academic level (year) and college affiliation.
  More Info (p. 1920)
- **Combination Degrees**
  Combination degrees allow students to double count graduate credits toward their bachelor's degree at no loss of integrity or quality of either degree.
  More Info (p. 1857)
- **Common Course Numbering System**
  A statewide system of course prefixes and numbers developed to facilitate the transfer of credit by identifying equivalent courses.
  More Info (https://flscns.fldoe.org/)
- **Continuing Education Unit | CEU**
  Courses taken to maintain licensure in professions that require a state or professional board license.
- **Continuous Enrollment**
  Undergraduate students who enroll for at least one course in one term in an academic year are continuously enrolled.
  More Info (p. 1902)
- **Corequisite**
  Two courses that must be taken concurrently.

- **Course Sequence**
  The specified order of enrollment for a series of courses; e.g., SPN 1130, SPN 1131, SPN 2200, SPN 2201.
- **Credit**
  Every course taught is designated a total number of credits. The number of credits for a class reflects approximately the total hours a student spends per week in class.
- **Critical-Tracking Criteria**
  The courses required for progression in a major. These courses are in bold or otherwise noted in the undergraduate catalog and on the degree audit.
  More Info (p. 1829)
- **Cum Laude**
  Graduating with honors.
  More Info (p. 1840)

D

- **Deficit Record**
  A combination of UF cumulative credits and UF cumulative grade point average, where the UF cumulative GPA falls below a 2.0.
  More Info (p. 1897)
- **Degree Audit**
  A computerized evaluation of a student's progress towards completion of a degree. See ONE.UF.
  More Info (https://one.uf.edu/dashboard/)
- **Dismissal**
  Academic dismissal from the university denies registration privileges to students who have a cumulative GPA at or below the standard required for their cumulative UF credits carried. The student will be dismissed from the university and any advance registrations will be cancelled.
  More Info (p. 1896)
- **Drop**
  To drop a single course from a given term after the drop/add period. Students are liable for fees for a dropped course and a W is posted to the student's transcript.
  More Info (p. 1904)
- **Drop/Add**
  A period of time beginning with the first day of classes when students can adjust schedules by dropping or adding courses or changing sections of a course. Courses dropped by 11:59 p.m. on the last day of drop/add are not subject to fees.
  More Info (p. 1904)
- **Dual Enrollment**
  Simultaneous registration at two educational institutions.
  More Info (p. 1872)

E

- **Early Admission**
  Admission as a freshman following completion of the junior year of high school.
  More Info (p. 24)
- **Electives**
  Any course not required as part of a student's degree requirements but applying to the minimum credits for the degree.
- **Enrollment**
  Registration for coursework and payment of fees constitutes official enrollment.
- **Excess Hours**
  Credits exceeding a state-specified threshold of credits taken toward the degree requirements. Additional tuition is assessed for credits exceeding this threshold.
  More Info (p. 1906)

F

- **FERPA**
  The Family Educational Rights and Privacy Act, which affords students certain rights with respect to their education records.
  More Info (p. 1912)

- **Flexible Learning**
  Distance & Continuing Education (DCE) offers fully online undergraduate courses for college credit through UF Flexible Learning.
  More Info (p. 1882)

G

- **GatorLink**
  A student's computer identity at UF, which consists of a username and password to allow access to secure UF sites. It also includes official UF email service, usually in the format of username@ufl.edu. All students are required to sign up for a GatorLink account and email service as official university communications are sent to this email address.
  More Info (p. 1932)

- **GatorOne Card**
  UF's official university photo identification. All enrolled students must have a university ID card.
  More Info (p. 1932)

- **General Education Requirement**
  University-wide requirement of basic studies that form the foundation of all undergraduate degree programs.
  More Info (p. 77)

- **Good Standing**
  Eligible to continue to register for university coursework.
  More Info (p. 1896)

- **Grade Point Average | GPA**
  The ratio of grade points earned to semester credits carried. The UF GPA is computed on University of Florida coursework only. The UF GPA is displayed to the hundredths place and not rounded up (i.e. 3.528 = 3.52).
  More Info (p. 1915)

- **Grade Points**
  The number of points attributed to a grade (A=4, B=3, etc.) times the number of credits of the course.
  More Info (p. 1915)

- **Graduate Student**
  A student who has earned a baccalaureate degree and who has been admitted to the Graduate School to pursue a graduate degree program (master's, specialist, engineer, doctorate).
  More Info (http://www.graduateschool.ufl.edu/)

- **Graduation Requirements**
  University-wide, college, and major-specific requirements that must be met in order to graduate from UF.
  More Info (p. 1902)

I

- **Individual Students Assessments | ISA**
  The different ways in which UF will measure whether students have successfully completed the learning outcomes for a particular major. These may include a passing score on a particular test, a final project, term paper, portfolio and so on.

- **Innovation Academy | IA**
  A unique undergraduate program experience, IA creates a small-college experience that focuses on delivering innovation, creativity, entrepreneurship, ethics, and leadership. IA students take courses on campus during the Spring and Summer, leaving the Fall term free for online courses, study abroad, internships, research, community service, and/or employment. IA students follow this Spring-Summer on campus schedule throughout their entire degree program.
  More Info (https://innovationacademy.ufl.edu/)

L

- **Learning Outcomes**
  What students are expected to learn by completing a particular major.

M

- **Magna Cum Laude**
  Graduating with high honors.
  More Info (p. 1838)

- **Major**
  A subject of academic study chosen as a field of specialization.
  More Info (p. 1827)

- **Matriculation**
  Initial term of enrollment and attendance at UF. Can be as an admitted, degree-seeking student, or as a non-degree student.

- **Medical Withdrawal**
  Student withdraws from all courses in a given term based on medical documentation. Fees for the semester will be refunded if a successful petition is filed within six months of the end of the given term.
  More Info (https://care.dso.ufl.edu/medical-withdrawal-process/)

- **Minor**
  An officially recognized secondary concentration of study in an approved subject area, consisting of at least 15 credits of appropriate coursework. Minors are optional.
  More Info (p. 1828)

O

- **Ombuds**
  The Ombuds assists all members of the university community to solve problems and conflicts. They will listen, discuss issues, answer questions, interpret policies, provide information and referrals, and help develop options for problem resolution. The Ombuds Office serves as an advocate for fairness for all members of the university community.
  More Info (p. 1896)

- **On-track or Off-track**
  On-track refers to students who are meeting progress requirements each term, according to their majors' critical tracking plans. Off-track refers to students who are not progressing toward their degree requirements each term.
  More Info (p. 1896)

- **ONE.UF**
  Enables students to access and manage their records online.
  More Info (https://one.uf.edu/)

- **Overall GPA**
  Cumulative GPA of UF coursework. GPA's are displayed to the hundredths place and not rounded up.
  More Info (p. 1915)

P

- **PaCE | Pathway to Campus Enrollment**
  PaCE offers degree programs through a combination of online and residential or campus-based learning options.
  More Info (http://www.admissions.ufl.edu/pace/)

- **Permanent Academic Record**
  The complete list of a student’s courses attempted, grades and credit earned, degrees awarded and any other pertinent academic information.

- **Petition**
  A written request seeking a waiver of or an exception to a university regulation, policy or deadline. Petitions may be considered if the circumstances are beyond the student's control.
  More Info (p. 1896)

- **Postbaccalaureate**
  A student who has earned a baccalaureate degree and been admitted for continued study but who has not been admitted as a graduate or professional student.

- **Preprofessional GPA**
  The grade point average achieved in the specific courses required for admission to a major (a.k.a. tracking GPA); these courses generally are completed in the first two years of study and the required GPA is often higher than 2.0.

- **Prerequisite**
  A condition that must be met to establish eligibility to enroll in a program or course.
- **Prerequisite Courses**
  The courses students must take and successfully complete before they can enroll in a subsequent course.
- **Probation, Academic**
  Any undergraduate with less than a 2.0 cumulative UF GPA shall be placed on academic probation while a grade point deficit exists. Refer to deficit points.
  More Info (p. 1896)
- **Professional Student**
  A student who is admitted to pursue a credential classified as professional such as Doctor of Dental Medicine, Juris Doctor, Doctor of Medicine, Doctor of Nursing Practice, Doctor of Pharmacy, Doctor of Physical Therapy, Physician Assistant, or Doctor of Veterinary Medicine degree.

R

- **Readmission**
  The procedure for a previously enrolled UF student to re-enroll in a degree-seeking status after a break in enrollment of more than three terms; a readmission fee is required.
  More Info (p. 26)
- **Registration**
  The process by which a student officially selects and enrolls in university coursework.
  More Info (p. 1918)
- **Residence**
  A student's tenure within the university and/or a specific college or school in campus-based learning opportunities.
  More Info (p. 1902)
- **Residency**
  Classification of students as Florida residents or non-Florida residents for tuition purposes.
  More Info (p. 27)

S

- **Schedule Adjustment**
  A period of time following registration before the beginning of classes when students can adjust their course schedules.
- **Schedule of Courses**
  A listing of courses offered by semester.
  More Info (https://registrar.ufl.edu/soc/)
- **Semester**
  A standard academic term (Fall, Spring, or Summer). Refer to term.
  More Info (p. 1921)
- **Student**
  Any individual who is attending or has attended a postsecondary educational agency or institution that maintains academic records.
- **Specialization**
  A detailed set of courses and/or semester plan for graduation for an emphasis of study within a major.
- **Student Learning Outcomes | SLOs**
  What students are expected to learn by completing a particular major.
- **Summa Cum Laude**
  Graduating with highest honors.
  More Info (p. 1838)
- **S/U Option**
  A provision by which a student may elect, with college approval, to enroll in a course, the grade for which is not computed in the grade point average. Grades awarded are S (satisfactory) or U (unsatisfactory). The S grade is equivalent to a grade of C (2.0) or better. A grade of U does not grant credit for the course.
  More Info (p. 1915)

- **SUS**
  The State University System of Florida. The University of Florida is one of the state-supported universities and colleges in the SUS.
  More Info (http://www.flbog.edu/)

T

- **Term**
  A period of instruction. During the Fall and Spring, the term is a standard 16-week semester. During the Summer, various shorter length periods of instruction are offered: Summer A and Summer B are six-week terms; Summer C is a 12-week term.
  More Info (p. 1921)

- **Textbook Adoption**
  The process by which textbook requirements are submitted by faculty and displayed online for students to see and to purchase for their courses.

- **Transcript**
  An official copy of the student's complete coursework, grades, credits, and degrees earned at the University of Florida.
  More Info (https://registrar.ufl.edu/services/transcripts.html)

- **Transfer Credit**
  Coursework completed at another institution that is accepted at the University of Florida and which may be applicable toward a specific major, minor, or degree.
  More Info (p. 26)

- **Transient Student**
  A student of another accredited institution who receives permission to register (for one term) as a non-degree-seeking student to earn credit to transfer back to their parent institution.

U

- **UFID**
  A unique eight-digit number that serves as the primary identifier for all university records and transactions. No two people have the same number, and each person has only one UFID.
  More Info (p. 1932)

- **UF Online**
  Bachelor degrees and minors offered exclusively through distance learning.
  More Info (http://ufonline.ufl.edu/)

- **Unit**
  An alternate term for credit. One unit equals one credit.

- **Universal Tracking System and Audits**
  UF's academic monitoring system features semester-by-semester plans for each major.
  More Info (p. 1829)

V

- **Visiting Student**
  A student of another accredited institution who receives permission to register (for one term) as a non-degree-seeking student to earn credit to transfer back to their parent institution.

W

- **What-If Report**
  Exploring possible majors to determine a student's interest and to estimate whether the coursework they have completed meets any of the degree requirements for a specific major.

- **Withdraw**
  To drop all courses for a given term. Students are liable for fees and a grade of W will appear on the transcript for each course.
  More Info (p. 1904)

- **Writing Requirement**
  The University of Florida requires all students to complete courses that involve substantial writing and meet specific criteria for a total of 24,000 words. Courses are identified by category in the schedule of courses.
  More Info (p. 1890)

Accelerated Degrees

College of Dentistry

Honors Combination BS/DMD Program

Incoming freshmen who intend to pursue a career in dentistry can, through a cooperative agreement between the College of Agricultural and Life Sciences and the College of Dentistry, qualify for provisional admission to the preprofessional program leading to the DMD This honors program helps highly motivated students complete a BS degree in Nutritional Sciences or Microbiology and Cell Science and the DMD degree.
More Info (http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program/)

Admission Criteria (http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program/)
Contact: 352.273.5955

Medical Honors Program

An accelerated path to medical school. Students apply to this highly competitive program in the second semester of the second year of undergraduate study. If selected, they begin coursework for medical school in the third year and enter the MD program in the fourth year. After completion of the first year of medical school, students earn their BS degrees.
More Info (http://jhmp.med.ufl.edu/)

Admission Criteria: Apply during sophomore year
Contact: Email (med-admissions@ufl.edu) | 352.273.7990

Master of Agribusiness

A professional degree for students who desire careers in marketing and management in agriculture, food processing and distribution, forest products and related industry where there has been strong demand for Master of Agribusiness (MAB) graduates. Offered by the Department of Food and Resource Economics (FRE), the MAB can be completed in three semesters (Fall, Spring, and Summer). A bachelor's degree in economics or business is not required.
More Info (https://fred.ifas.ufl.edu/graduate/master-of-agribusiness-non-thesis/)

Admission Criteria: Competitive GRE or GMAT score; 3.0 upper-division GPA
Contact: Email (fregradprogram@ifas.ufl.edu)

Master of Science in Management

Provides non–business majors with the opportunity to combine the knowledge gained from other academic disciplines with functional business applications to create a dynamic skill set that is in demand by employers.
More Info (https://warrington.ufl.edu/master-of-science-in-management/)

Admission Criteria: Refer to website for next information session.
Contact: Email (msm@cba.ufl.edu) | 352.273.0344.

Master of Public Health

This degree offers diverse career opportunities, including identifying and tracking biohazards, keeping communities safe, investigating disease outbreaks, creating community health promotion programs, and measuring the impact of health policy on access to care.
More Info (http://mph.ufl.edu/)

Students are admitted to one of six concentrations:

- Biostatistics
- Environmental Health
- Epidemiology
- Public Health Management and Policy
- Public Health Practice
- Social and Behavioral Sciences

Admission Criteria: 1000 GRE and a 3.0 GPA for last 60 credits of undergraduate coursework.
Contact: Email (shanson@phhp.ufl.edu) | 352.273.6379

Combination Degrees

The Combination Degree program allows undergraduate students who qualify academically to obtain both a bachelor's and master's degree. Minimum qualifications for many programs include a 3.2 GPA and a competitive GRE score for admission to graduate school.

Available to students in any undergraduate degree program. Combination degree programs allow students to get a head start on their graduate education by taking graduate courses throughout the junior and senior undergraduate years. In most programs, 12 credit hours of graduate work will also count toward an undergraduate degree, thus reducing the time it takes to get both degrees. Students should consult their department advisors to determine whether the department offers combination degree programs and whether they qualify.

There are a number of financial considerations to keep in mind. Students are responsible for paying the difference between undergraduate and graduate tuitions. Florida Prepaid College Tuition Program participants will receive funding for the first 120 credit hours. The program will fund graduate courses taken toward the undergraduate degree at the undergraduate level. Financial aid may be available to assist with the graduate degree portion of the program.

Advantages

- Combination degrees allow students to double count graduate credits toward their bachelor's degree at no loss of integrity or quality of either degree.
- Qualified students can obtain an undergraduate and a graduate degree in much less time than two separate degrees.
- The cost of both degrees is reduced, since at least 12 credits apply toward both degrees.
- Students have time to decide whether to pursue further graduate or professional study.
- A student's marketability is greatly enhanced; many professions now require a master's degree for entry-level positions.

Combination Degrees by College

All Degrees

Any Undergraduate Degree | Biostatistics MS

The Biostatistics Bachelors/MS program allows qualified students to earn a bachelor's degree from any degree program at UF and a master's of science degree in Biostatistics. This allows the master's degree to be attained within one year (two semesters, 24 credits). The master's of science degree in Biostatistics is designed to facilitate students' development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.
Overlapping Credits: 12
Admission Criteria: Must have at least junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; completion of 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.
Contact: 352.294.5926

Any Undergraduate Degree | Mass Communication MA

Qualified students can pursue coursework toward a Master of Arts in Mass Communication (MAMC) with an online or on-campus concentration. The College of Journalism and Communications is considered one of the nation's best. The strength of its programs, faculty, students, and alumni throughout its history has earned the college ongoing recognition as one of the best journalism and communication programs in the United States. It has developed its reputation for excellence by creating curricula that combine conceptual and theoretical instruction with skills training, so students have the opportunity to apply what they are learning in professional settings.
Overlapping Credits: 5-12
Admission Criteria: Students must meet eligibility criteria and obtain approval from their undergraduate department and the CJC graduate division through an application process. Prior coursework in communications not required. Students must plan to apply to CJC's MAMC program before completing their undergraduate degree
Contact: 352.273.3716 | Email (combination@jou.ufl.edu)
More Info (https://www.jou.ufl.edu/combination-degree-main/)

Any Undergraduate Degree | Public Health MPH

Overlapping credits: 15
Qualified students with any undergraduate major can pursue a Master's of Public Health degree. The MPH degree trains students to protect and improve health across all population levels. Students complete up to 15 credits of public health core courses as an undergraduate and then complete the remaining 33 credits after admission to graduate school. Upon application, students select a concentration biostatistics, environmental health, epidemiology, population health management, or social and behavioral sciences.
Admission Criteria: 3.2 GPA; completion of the following with a C or better: BSC 2005 or BSC 2010, PSY 2012, STA 2023.
Contact: 352.294.5419 | Email (askmph@phhp.ufl.edu)
More Info (https://mph.ufl.edu/about/mph/collaborative-and-joint-mph-degrees/combination-bachelors-mph/)

Any Undergraduate Degree | Urban and Regional Planning

Overlapping Credits: 21 (9 of the 21 hours can be taken in the home department)
Admission Criteria: 3.2 GPA; essays

Contact: 352.294.1493 | Email (laurajd@ufl.edu)
More Info (https://dcp.ufl.edu/urp/academics/combined-degree-program/)

Accounting, Fisher School of

Accounting | 3/2 MAcc/BSAc

Non-thesis only

The 3/2 Program is the Fisher School of Accounting's premier professional program. It is an integrated, five-year, 150-hour program that leads to the joint award of a Bachelor of Science in Accounting (BSAc) degree and a Master of Accounting (MAcc) degree. This program offers three options: concentration in auditing, concentration in taxation, and no concentration.

The 3/2 Program is designed for students who desire a professional accounting career. While professional accountants can serve in many capacities, many MAcc graduates go on to become licensed as Certified Public Accountants (CPAs). Students interested in becoming a CPA should consult the National Association of State Boards of Accountancy (https://www.nasba.org/) website for information regarding CPA exam and licensure eligibility for all states and jurisdictions.

Admission Criteria

Master of International Business | MIB

Overlapping Credits: 2-12
This one-year degree allows UF business majors or minors to enhance their undergraduate business education with an in-depth study of global business issues and trends. The MIB program allows curriculum flexibility and incorporates practical global business components with a required one-week Global Immersion Experience course abroad and optional participation in an international exchange program.
Admission Criteria: Competitive GMAT or GRE score; 3.2 minimum GPA
Contact: 352.273.0343 | Email (mib@warrington.ufl.edu)
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees/)

Real Estate, Master of Science | MSRE

Non-thesis only
Overlapping Credits: 2-12
The MSRE thrives on innovation, a dynamic student body and significant interaction with high-level working professionals and nationally recognized professors. The program is a unique combination of theory and practice that will enhance the student's commercial real estate education and develop professional skills. Undergraduate students from any college/major may apply. Prior coursework in accounting, business, economics, finance or statistics is preferred but not required.
Admission Criteria: 465 GMAT (600+ average); 3.0 GPA (3.4+ average). Admission is based on a number of factors, including GMAT and academic record.
Contact: 352.273.0310 | Email (pam.demichele@warrington.ufl.edu)
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees/)

Construction Management, M.E. Rinker, Sr. School of

Construction Management | BSCM/MSCM

Overlapping credit: 12
The combination degree program allows qualified students to earn both a Bachelor of Science and Master of Science degrees in Construction Management at an accelerated pace. Qualified students are allowed to begin the MSCM degree coursework in the Senior 1 semester and count 12 credits of graduate BCN-prefix coursework for both the BSCM and MSCM degree requirements. For additional information, contact the Director Graduate Programs and Research.
Admission Criteria: Competitive GRE score; 3.4 upper-division GPA; complete all 3000-level BCN courses
Contact: 352.273.1150 | Email (masoud@ufl.edu)
More Info (https://dcp.ufl.edu/rinker/academics/undergraduate/construction-management/current-students/combined-degree-information/)

Design, Construction and Planning, College of

Historic Preservation | BSSBE/MHP

Overlapping Credits: 15
Available to students in the Bachelor of Science in Sustainability and the Built Environment program.
Admission Criteria: 3.2 GPA
Contact: 352.294.1438 | Email (HPinfo@dcp.ufl.edu)
More Info (https://dcp.ufl.edu/historic-preservation/degrees/bssbe-mhp/)

Interior Design | BS/MS

Overlapping Credits: 12
Admission Criteria: 3.2 GPA
Contact: 352.392.0252 ext. 335 | Email (sheilabosch@ufl.edu)
More Info (https://dcp.ufl.edu/interior/combination-degree/)

Landscape Architecture

Overlapping Credits: 9
Available to students in the Bachelor of Sustainability and the Built Environment program.
Admission Criteria: 3.2 GPA
Contact: 352.294.1485 | Email (jbruck@ufl.edu)
More Info (https://dcp.ufl.edu/sbe/what/combined/bssbe-mla/)

Sustainability and the Built Environment | BSSBE/MISD

Overlapping Credits: 9
The combination degree program allows qualified students to earn both STEM degrees, a Bachelor of Science in Sustainability and the Built Environment (BSSBE) and the Master of Integrated Sustainable Development (MISD). Qualified students can start the MISD degree coursework in the senior 1 semester and count 9 credits of graduate coursework for both BSSBE and MISD degree requirements. For additional information, contact the Director of the BSSBE, or DCP advising.
Admission Criteria: 3.2 minimum GPA; admission to the MISD program
Contact: 352.294.1400 | Email (patricde@dcp.ufl.edu)
More info (https://dcp.ufl.edu/sbe/what/graduate/)

Sustainability and the Built Environment/Landscape Architecture | BSSBE/MLA

Overlapping Credits: 9
Provides academically qualified students the opportunity to complete both the BS in Sustainability and the Built Environment (BSSBE) and the Master of Landscape Architecture (MLA). The program reduces the time to graduation by a semester or more, reduces the cost of both degrees, and enhances students' marketability for career advancement.
Admission Criteria: Adequate GRE score; 3.2 minimum GPA; admission to the MLA program
Contact: 352.294.1481
More info (https://dcp.ufl.edu/sbe/what/combined/bssbe-mla/)

Engineering, College of

Aerospace Engineering | BSAE/ME or MSAE

Overlapping Credits: 9
Admission Criteria: Enrolled in the Bachelor of Science in Aerospace Engineering (BSAE); minimum 3.3 upper division GPA; completion of EGM 3520, EGM 3401, EGM 3344, and EGM 3100, all with grades of C or better.

Health and Human Performance, College of
Applied Physiology and Kinesiology| BS /MS
Overlapping Credits: 12
The program allows qualified students to earn a BS APK and an MS APK within one year of completion of the undergraduate degree (two semesters, 18 credit hours). The MS APK degree program is designed to facilitate student knowledge and applied skills across the sub disciplines of exercise physiology, biomechanics, motor control / learning, strength & conditioning, and sport psychology.
Admission Criteria: 3.5 UF GPA; completion of PSY 2012, MAC 1147 or MAC 2311, CHM 1025 or CHM 2045, BSC 2010 and BSC 2010L, BSC 2011 and BSC 2011L, APK 2100C, and APK 2105C with a minimum letter grade of B.

Health Education and Behavior | BS/MS
Non-thesis only
Overlapping Credits: 12
Admission Criteria: 3.2 UF GPA
Contact: 352.294.1803 | Email (hebgradprogram@hhp.ufl.edu)
More Info (https://hhp.ufl.edu/academics/bs_ms-heb/)

Sport Management | BSSPM/MSSPM
Overlapping Credits: 12
The combination degree allows for students who meet the requirements to earn both a Bachelors of Science and Masters degree in Sport Management at an accelerated pace. Qualified students can begin taking courses in the graduate program in their junior year and they are able to count to 12 credits of graduate SPM- and HLP-prefix coursework for both the BSSM and MSSM. For more information, contact the Sport Management Graduate Coordinator or the academic advisors in the Department of Sport Management.
Admission Criteria: 3.2 overall GPA with a 3.0 critical-tracking GPA; completion of EME 2040, MAR 3023, SPM 2000, SPM 3204 and MAN 3025 with minimum grades of B on first attempt.
Contact: 352.294.1647

Tourism, Hospitality and Event Management | BS/MS
Overlapping Credits: 9
Admission Criteria: Overall GPA 3.2; completion of LEI 3301, LEI 3360, HFT 2750, and LEI 2181 with a minimum grade of B on first attempt. Meet with THEM advisor to ensure eligibility. Submit the TERM/THEM/TRM combination degree application before the start of the student's junior year.
Contact: 352.294.1661 | Email (THEMundergrad@hhp.ufl.edu)

Journalism and Communication, College of

The College of Journalism and Communications is considered one of the nation's best. The strength of its programs, faculty, students, and alumni throughout its history has earned the college ongoing recognition as one of the best journalism and communication programs in the United States. It has developed its reputation for excellence by creating curricula that combine conceptual and theoretical instruction with skills training, so students have the opportunity to apply what they are learning in professional settings.

Advertising | BS Advertising/MA Mass Communication

Overlapping Credits: 5-12

Qualified students can pursue coursework toward a Master of Arts in Mass Communication (MAMC) with an online or on-campus concentration to fulfill up to 12 credits of professional electives required for their undergraduate degree.

Admission Criteria: Students must meet eligibility criteria and obtain approval from their undergraduate department and the CJC graduate division through an application process. Students must also plan to apply to CJC's MAMC program before completing their undergraduate degree.

Contact: 352.273.3716 | Email (combination@jou.ufl.edu)

More Info (https://www.jou.ufl.edu/combination-degree-main/)

Journalism | BS Journalism/MA Mass Communication

Overlapping Credits: 5-12

Qualified students can pursue coursework toward a Master of Arts in Mass Communication (MAMC) with an online or on-campus concentration to fulfill up to 12 credits of professional electives required for their undergraduate degree.

Admission Criteria: Students must meet eligibility criteria and obtain approval from their undergraduate department and the CJC graduate division through an application process. Students must also plan to apply to CJC's MAMC program before completing their undergraduate degree.

Liberal Arts and Sciences, College of

Anthropology | BA or BS/MA

Overlapping Credits: maximum of 12

This program allows qualified Anthropology majors seeking the BA or BS degree to earn graduate credits toward a terminal MA degree in Anthropology with a certificate. To count toward the MA degree, graduate courses taken while an undergraduate must be letter-graded with a minimum B grade. Required courses for the MA certificate may not be taken while an undergraduate.

Admission Criteria: Anthropology major of junior status or higher, 3.2 cumulative GPA, 3.5 upper division GPA, completion of at least three of the four required core courses (ANT 2140, ANT 2410, ANT 3514C, ANT 3620) at time of admission.

Biology | BS and Arts in Medicine/MA

Overlapping Credits: 12

Arts in Medicine is a diverse, multidisciplinary field dedicated to transforming health and the healthcare experience through the arts. The field integrates literary, performing, and visual arts and design, and other forms of creative expression into a variety of healthcare and community settings to enhance health and well-being in diverse institutional and community contexts. The Bachelor of Science in Biology and Master of Arts in Arts in Medicine combination degree enables pre-health students to begin completing requirements towards a master's degree in Arts in Medicine while completing their undergraduate BS degree.

Admission Criteria: 3.2 GPA on all upper-division courses

More Info (https://arts.ufl.edu/academics/center-for-arts-in-medicine/programs/combo-degree/)

Biochemistry-related Discipline | MS in Biochemistry and Molecular Biology

Overlapping Credits: 12

Students must identify a College of Medicine faculty member who will serve as their graduate faculty advisor. The combination degree request form must be approved by both the undergraduate coordinator of the degree major and the graduate coordinator in the College of Medicine. To count towards the MS degree, courses must be graduate level and letter graded.

Admission Criteria: 3.0 cumulative upper division GPA, completion of fundamental courses in biology (BSC 2005), chemistry (CHM 2045), and statistics (STA 2023), completion of BCH 4024 (or equivalent), completion of at least three semester hours of mentored research (BSC 4910, BSC 4912, or equivalent).
Contact: 352.273.8098 | Email (jbungert@ufl.edu)

Biology/Biochemistry and Molecular Biology | BS/MS

Overlapping Credits: 12
Students must identify a College of Medicine faculty member who will serve as their graduate faculty advisor. A written agreement must be approved by both the Undergraduate Coordinator in the Department of Biology and the Graduate Coordinator in the College of Medicine. To count toward the MS degree, courses much be graduate level and letter-graded.

Admission Criteria: 3.2 cumulative GPA, 3.3 upper division GPA, completion of all critical-tracking requirements in the Biology BS degree, completion of at least three semester hours of mentored research (e.g., through BSC 4910 and BSC 4912) or equivalent research experience, and completion of BCH 4024 (or equivalent).

Interdisciplinary Studies | BS/MD

Overlapping Credits: 12
The Medical Honors Program is an accelerated 7-year BS/MD program and offered in the College of Liberal Arts and Sciences and College of Medicine. Six courses within the College of Medicine are taken during the junior year of college. Additionally, 12 professional credits in medical sciences will count towards the undergraduate major during the first year of medical school. Lastly, all requirements mandated by CLAS, the University of Florida, and the State of Florida must be met.

Admission Criteria: Eligible applicants must be United States citizens or United States permanent residents (in possession of the USCIS assigned 'Green Card'). This program is open to students who are both Florida and non-Florida residents. A minimum overall GPA of 3.90, cumulative science and math courses GPA of 3.90, and a SAT score of 1400 or ACT of 32. Admission to this program is limited and requires completing the application process through UF College of Medicine.

Psychology | BS and Arts in Medicine/MA

Overlapping Credits: 12
Arts in Medicine is a diverse, multidisciplinary field dedicated to transforming health and the healthcare experience through the arts. The field integrates literary, performing, visual arts and design, and other forms of creative expression into a variety of healthcare and community settings to enhance health and well-being in diverse institutional and community contexts. The Bachelor of Science in Psychology and Master of Arts in Arts

in Medicine combination degree enables pre-health students to begin completing requirements towards a master's degree in Arts in Medicine while completing their undergraduate BS degree.
Admission Criteria: 3.2 GPA on all upper-division courses

Public Health and Health Professions, College of

Bachelor of Health Science and Doctor of Occupational Therapy (OTD)
Overlapping Credits: 26
The combined Bachelor of Health Science and Doctor of Occupational Therapy (OTD) program allows students to take first-year OTD courses during their junior and senior years in the BHS Program. Students enrolled in the Occupational Therapy Combined Program will complete two semesters of year one OTD coursework while earning credit towards their BHS. After graduating with their BHS, they will have eight semesters of OTD coursework remaining, thus decreasing time to graduation and overall cost of tuition.

Public Health | Any Bachelor's Degree/MPH
Overlapping credits: 15
Qualified students with any undergraduate major can pursue a Master's of Public Health degree. The MPH degree trains students to protect and improve health across all population levels. Students complete up to 15 credits of public health core courses as an undergraduate and then complete the remaining 33 credits after admission to graduate school. Upon application, students select a concentration biostatistics, environmental health, epidemiology, population health management, or social and behavioral sciences.
Admission Criteria: 3.2 GPA; completion of the following with a C or better: BSC 2005 or BSC 2010, PSY 2012, STA 2023.
Contact: 352.294.5419 | Email (askmph@phhp.ufl.edu)

Biostatistics | Bachelors/MS
Overlapping credits: 12
Qualified students with any undergraduate major can pursue a Master of Science degree in Biostatistics. The Master of Science degree in Biostatistics is designed to facilitate students' development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.

Admission Criteria: Junior status; 3.2 UF GPA; Completion of the following 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.

Public Health | BPH/MA Arts in Medicine

Overlapping Credits: 12
The Bachelor of Public Health and Master of Arts in Arts in Medicine combination degree enables pre-health students to begin completing requirements towards a master's degree in Arts in Medicine while completing their undergraduate BS degree.
More Info (http://www.admissions.ufl.edu/pdf/combdegreerequest.pdf)

Applying

Meet with an academic advisor to determine the most-appropriate combination degree option. Qualified students can pursue the graduate degree outside the undergraduate major or department. Application normally occurs in the junior or senior year. If accepted, students must take the GRE the first semester of their senior year.
More Info (https://registrar.ufl.edu/assets/pdfs/combdegreerequest.pdf)

Financial aid is available for the graduate portion of the program. Undergraduate degree costs should be satisfied with existing financial aid such as Bright Futures and Prepaid Tuition. Bright Futures can cover the undergraduate costs of up to 12 hours of graduate courses that apply to the undergraduate degree. Each student is responsible for the difference in tuition between the undergraduate and graduate course rates. If available, the Florida Prepaid Tuition Program can fund the first 120 hours. Graduate courses that apply toward the undergraduate degree are funded at the undergraduate rate, and the student is responsible for the difference.

FAQ

What is a combination bachelor's and master's degree program?

Combination degrees allow students to double count graduate credits toward their bachelor's degree at no loss of integrity or quality of either degree. A combination degree program allows students to complete a specific number of graduate-level credits while enrolled as an undergraduate.

Why should I participate in a combination degree program?

The program allows students to take graduate coursework before they make a decision to complete a graduate degree. If the student continues in a graduate program, they'll save at least one full semester of graduate enrollment.

At what point in the undergraduate program should I apply?

Students can apply as early as the second semester of their sophomore year or as late as their senior year depending upon the combination degree program.

At what point do I enroll in graduate courses?

If approved, students can take graduate courses during their junior and senior years as specified by the particular combination degree program.

What is required for approval?

As an undergraduate applying for entry into a combination degree program, students must have a minimum cumulative 3.2 UF GPA (some majors require a higher GPA) and have completed all critical-tracking requirements to enroll in graduate coursework while they are completing their undergraduate degree. After students apply for admission to the Graduate School, however, they must meet the minimum cumulative GPA requirement and GRE/GMAT score the particular master program requires.

What is required so that 12 to 21 hours of graduate coursework (depending on the major) can also count toward my master's degree?

To apply the graduate credit to both degrees, students must be admitted to the Graduate School and receive a grade of B or higher in each course. A graduate coordinator can provide the admission requirements for a particular department.

If I do not continue in graduate school, can the graduate coursework I complete still be used to satisfy my undergraduate degree requirements?

Yes.

What about my financial aid?

Bright Futures and/or the Florida Prepaid Tuition Program will pay the undergraduate tuition rate for the graduate courses students take; each student will have to pay the difference between undergraduate and graduate course costs.

Why would I want to pay additional tuition to enroll in graduate courses?

If a student continues to graduate school, they will save on the tuition costs for the 12 to 21 graduate credits (depending on the major) taken while still classified as an undergraduate. Remember that graduate course costs will be partially paid by the student's undergraduate financial aid.

How do I apply?

Contact an undergraduate advisor and complete the combination degree application. Students will need the approval of the undergraduate coordinator, the graduate coordinator, and the dean's office of their undergraduate college.

What do I do if I want to create my own combination degree program?
Students should contact the coordinator in the graduate department of the new combination degree program.

Are there other accelerated degree programs available other than combination degrees?
Yes, there are several accelerated degree programs available.
More Info (p. 1856)

Dual Enrollment Credit

In general, students may transfer up to 60 credits from public/state colleges as part of the credits needed for your UF degree, regardless when these credits are earned, but subject to university and college degree requirements. It is the prerogative of your college to determine how transfer credit satisfies a specific degree's course requirements.

Students are required to submit to the Office of Admissions final official transcripts from all institutions attended before or during their enrollment at UF.
More Info (p. 1919)

Credit from Florida Public Colleges and State Universities

Courses from Florida public colleges and State University System schools generally adhere to the Statewide Course Numbering System. If the prefix (first three letters) and the last three digits of the course number are the same, the courses are considered equivalent.
More Info (p. 1938)

Equivalent courses will generally fulfill the same requirements (e.g., General Education) that the UF course fulfills, including the Writing Requirement, provided the UF equivalent course awards words towards the Writing Requirement.
More Info (p. 1892)

Courses from Private or Out-of-State Institutions

College credit from private or out-of-state institutions earned through a dual-enrollment program may transfer to UF, but must be evaluated by your college to determine if courses completed will fulfill specific requirements.

Exam Credit

Award of Incoming Credits

- Credit will be awarded only once for the same course, whether from credit by examination, dual enrollment, transfer credit, or UF course credit.
- Credit awarded for acceptable dual enrollment or transfer courses takes precedence over credit by examination.
- If duplicate credit exists among AICE, AP, CLEP, or IB, the exam yielding the most credit will be awarded.

Guidelines for Credit Awarded by AICE, AP, CLEP, DLPT, DSST, IB, UExcel, or CAPE Examinations

- A maximum of 45 credits may be granted by combining AICE, AP, CLEP, DLPT, DSST, IB, or UEXCEL credit.
- Students beginning in the Fall or Spring term must have taken the exams and have their scores reported to the university before the end of their first term of enrollment at UF.
- Students who begin in the Summer A term must have taken the exam(s) and had their scores reported to the university before the end of their first Summer B/C term.
- Students who begin in the Summer B term must have taken the exam(s) and had their scores reported to the university before the end of their first Fall term.
- If a student submits appropriate scores, UF will grant credit for the UF course(s) that most closely match the content of the exam as determined by the State of Florida. The transcript will reflect the course(s) with grades of P (for Pass). P grades will not be calculated into the student's GPA.
- Equivalent courses earned by examination generally fulfill the same requirements that the UF course fulfills.

Exams

AICE Exam Credit

Students completing approved AICE examinations with scores of A-E will earn UF credit.

Scores of E or higher on AICE French Language, German, Latin Language, and Spanish Language examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and BA programs in the College of the Arts.

The chart specifies which UF course credit students will earn depending on their score on each exam and whether the credit earned will count for General Education (p. 80) and the Writing Requirement (p. 1890) (6,000 words).

Portuguese	POR 1130 and POR 1131 (10 credits)	POR 1130, POR 1131, and POR 3242 (13 credits)
Russian	RUS 1130 and RUS 1131 (10 credits)	RUS 1130, RUS 1131, RUS 2220 (14 credits)
Spanish	SPN 1130 and SPN 1131 (10 credits)	SPN 1130, SPN 1131, and SPN 2200 (13 credits)
Swahili	SWA 1130 and SWA 1131 (10 credits)	SWA 1130, SWA 1131, and SWA 2200 (13 credits)
Turkish	TUR 1130 and TUR 1131 (10 credits)	TUR 1130, TUR 1131, and TUR 2220 (14 credits)
Vietnamese	VTN 1130 and VTN 1131 (10 credits)	VTN 1130, VTN 1131, and VTN 2220 (14 credits)
Yoruba	YOR 1130 and YOR 1131 (10 credits)	YOR 1130, YOR 1131, and YOR 2200 (13 credits)

CLEP Exam Credit

CLEP examinations cover material that is taught in introductory-level courses at many colleges and universities.

More CLEP Information (http://www.collegeboard.com/clep/)

The chart specifies which UF course credit students will earn depending on their score on each exam and whether the credit earned will count for General Education (p. 80) and the Writing Requirement (p. 1890) (6,000 words).

Scale Score is 50 for Passing

CLEP Exam Title	Score	UF Equivalency	Gen Ed Credit
		Credits=3 unless noted	
Algebra, College	50	MAC 1105	State Core M

1 The L000 course number has no UF course equivalent. The credit applies to the minimum credits for the degree but does not provide General Education credit or count toward the major.

2 Writing Requirement (6000 words).

3 Writing Requirement (2000 words).

DSST Examination

DSST (formerly DANTES Subject Standardized Tests) are credit-by-examination tests originated by the United States Department of Defense's Defense Activity for Non-Traditional Education Support (DANTES) program.

The chart specifies which UF course credit students will earn depending on their score on each DSST exam and whether the credit earned will count for General Education (p. 80) requirements.

Students may be awarded a maximum of 30 credits for DSST exams.

1 The L000 course number has no UF course equivalent. The credit applies to the minimum credits for the degree but does not provide credit toward General Education, Writing Requirement, or count toward the major.

3 XUF is a prefix designated for non-UF courses that may fulfill general education or other degree requirements.

IB Exam Credit

Students will receive credit for scores of 4 or higher on both higher-level and standard-level examinations.

Scores of 4 or higher on IB French B, German B, Italian B, Latin, and Spanish B examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and BA programs in the College of the Arts.

More IB Information (http://www.ibo.org/)

The chart specifies which UF course credit students will earn depending on their score on each IB exam and whether the credit earned will count for General Education (p. 80) and the Writing Requirement (p. 1890) (6,000 words).

2 Writing Requirement (6000 words).

Flexible Learning

Distance and Continuing Education

Distance & Continuing Education (DCE) offers fully online undergraduate courses for college credit through UF Flexible Learning.

The primary purpose of this program is to provide high-quality flexible educational opportunities for students in the State University System, Florida College System, and beyond who are not currently enrolled at UF and:

- Have conflicting schedules
- Need to meet General Education or Writing Requirement
- Need to meet course prerequisites
- Want personal enrichment

Students who are not enrolled at UF should consult an academic advisor at their institution prior to enrolling in courses to ensure transfer of the credit. DCE is not responsible for ensuring that any credit received is transferable.

UF students interested in taking a Flexible Learning course must first consult with their academic advisor. UF students may apply up to two (2) Flexible Learning courses toward a degree and must seek college dean's office approval to exceed this limit. Advisors and the DCE office will approve access to a Flexible Learning course if the student is below the two (2) course limit and meets at least one (1) of the following criteria:

- The student has a health concern
- There are circumstances preventing the student from physically being on campus and the course is not offered online
- The student requires off-calendar, flexible format solution for an "unusual circumstance." Such a circumstance would include but are not limited to health, work, or other events, which make resident attendance not possible.
- The student wishes to increase the number of enrolled credits within a given semester for the purposes of expediting time to degree completion
- To maximize financial aid awards where additional enrollment is only made possible by a flexible format
- Other extenuating circumstances

Students can register for these courses online.
More Info (http://flexible.dce.ufl.edu/)

Enrolling in Flexible Learning courses does not require a transcript of previous academic work, nor are students required to apply for, or to be admitted, to the University of Florida to earn college credit. These courses operate on an open enrollment policy and do not follow UF's academic calendar. Registrations are processed and accepted Monday-Friday, excluding UF holidays.

UF Flexible Learning courses are self-paced, allowing students to complete coursework more quickly than typical online or residential courses. Students have a maximum of sixteen (16) weeks to complete their course, but in many courses, may take as few as four (4) weeks. If the on-campus academic semester changes during this time, a non-punitive deferred grade of H will appear on the student's transcript.

When the registration process has been finalized, UF Flexible Learning will send students their expiration date. Students should take note of this date and plan their work accordingly. Any coursework not completed by this date may result in grade penalties.

If students make significant progress in their coursework but are unable to complete it due to extenuating circumstances, they are expected to contact instructor about receiving an incomplete grade.

Complete Course Listing (http://flexible.dce.ufl.edu/courses/)

Placement

Placement is an assessment of a student's level of preparation in a subject. The purpose of placement is to help students enroll in the courses in which they are most likely to be successful.

- Incoming Credit and Credit by Examination Information (p. 1872)

English Composition

Unless students already have college credit for an English Composition course, they need to review placement requirements for these courses.

Students will be placed based on their SAT or ACT verbal score, unless they already have college credit for an English composition course.

- Students with a 640 (or lower) on the verbal portion of the SAT and/or a 28 (or lower) on the verbal portion of the ACT must enroll in ENC 1101.
- Students with a 650 (or higher) on the verbal portion of the SAT or a 29 (or higher) on the verbal portion of the ACT may enroll in any 1000/2000-level composition course beyond ENC 1101. These students should not enroll in ENC 1101.
- **Students with college credit for English Composition (from AICE, AP, CLEP, IB, or dual enrollment)** should consult an advisor to determine which, if any, additional courses are needed to meet degree requirements.

Mathematics

If a student intends to pursue a science or engineering major or intends to go on to a health profession after completing the bachelor's degree, they should take these algebra, precalculus, and calculus courses. A number of business and technical majors require specific math courses. Students should check the information on their majors and health professions of interest to determine if algebra/precalculus/calculus are required.
More Info (p. 1827)

Placement is used for the following MAC courses:

Code	Title	Credits
MAC 1105	Basic College Algebra	3
MAC 1140	Precalculus Algebra [1]	3
MAC 1147	Algebra and Trigonometry (a fast-paced review of both areas)	4
MAC 2233	Survey of Calculus 1	3
MAC 2311	Analytic Geometry and Calculus 1 (typically recommended for pre-health students)	4

[1] The sequence MAC 1140 and MAC 1114 covers the same material as MAC 1147, but at a slower pace.

The math course(s) a student takes will depend on what their major requires (or if they are pre-health), whether the student has incoming math credit, the math course they took last year, and whether they were able to use a calculator during exams, whether the student wants to strengthen their foundation before moving on to new material, and their ALEKS placement score.

To determine which math course (if any) is required for a major, students should check the requirements for that major (p. 1827). If a student's major requires MAC 2234 or MAC 2312 or higher, they must have credit for the prerequisite course. If a student has credit via exam or dual enrollment, consult with an academic advisor. General guidelines for using AP scores for placement appear below.

Some graduate programs in the health professions such as pharmacy, optometry, and veterinary medicine may require calculus as a prerequisite to admission. Consult the Pre-Health Prerequisite Course Chart (https://www.advising.ufl.edu/pre-health/apply/prepare/academic-preparation/) for more information.

- **If a major requires no particular math course,** students may take Gen Ed math courses such as MGF 1130 without any placement.
- **If a student needs one of the MAC courses listed above and doesn't have incoming credit, they should take the ALEKS placement exam,** and then discuss which math course should be taken with an advisor.
- **If a student has incoming math credit,** they may use that as placement into MAC courses *if the credit appears on their UF transcript or the student provides proof of credit.* However, the ALEKS placement is the best predictor of success in UF MAC courses. Even if a student has credit, they are **strongly encouraged to take ALEKS.** Taking ALEKS will assess a student's *current* knowledge base and its fit with the UF curriculum. After taking ALEKS, the student should discuss which math course they should take with an advisor.

It can be helpful for students to take a lower course or even retake a course to strengthen their foundation before moving on to a higher class. A student's ALEKS score can help assess their current preparation. Consult with an academic advisor if unsure.

ALEKS

Placement via ALEKS Score

Majors that Require MAC 1105, MAC 1140, MAC 1147, or MAC 2311; or for Pre-Health

ALEKS Score	May begin with the course in bold (or a lower course)
0 – 45%	**MAC 1105**; MAC 1140; MAC 1114; MAC 2311
46 – 60%	**MAC 1140**; MAC 1114; MAC 2311
61 – 75%	**MAC 1147**; MAC 2311
76% and Above	**MAC 2311**

Majors that Require MAC 2233

46 – 60%	**MAC 1140**; MAC 2233
61% and Above	**MAC 2233**

Incoming Credit

Placement via Incoming Credit

If a student has earned credit with a C or better for:

- MAC 1105: take MAC 1140 (if needed)
- MAC 1140: take MAC 1114 or MAC 2233 (if needed, course depends on major requirements)
- MAC 1147 (or both MAC 1140 and MAC 1114): take MAC 2311 if needed. *Credit must be in progress at UF, completed and on the student's UF transcript or the student must provide proof of incoming credit.*
- *It may be helpful for students to retake a course to strengthen their foundation before moving on to a higher class. This is especially true if the incoming credit course was taken more than one year ago or if the student earned a grade lower than B. A student's ALEKS score can help assess their current preparation. Consult with an academic advisor if unsure.*

AICE, AP, or IB and other Exam Credit

Students should refer to Exam Credit (https://catalog.ufl.edu/UGRD/academic-advising/exam-credit/) to see which courses they will earn credit for based on their scores. For courses through MAC 2311, ALEKS is still the best predictor of success in MAC courses at UF, so students are encouraged to take ALEKS and follow the score guidelines. General guidelines for using AP scores for placement appear below.

Transfer Credit

Earning the minimum grades in prerequisite courses does not guarantee success in the next math course. The Department of Mathematics encourages students to take the ALEKS exam even if they have credit for a MAC course. Quite often, a student's skills may need review and placement assessment can provide information and specific areas for additional study.

Please read the complete information about the mathematics placement exam (https://registrar.ufl.edu/courses/aleks.html).

AP Scores for Calculus

Placement via AP Scores for Calculus

UF offers two introductory calculus courses: MAC 2233 and MAC 2311 as well as subsequent courses in both sequences. Students should consult the majors (p. 1827) section to determine which calculus course(s) may be required for their major.

Calculus AB or BC

AP Exam Score	Register in	Additional Information
1 or 2	MAC 1105 or MAC 1140 or MAC 1147	Students with a score of 1 or 2 on an AP Calculus exam must take the ALEKS placement exam (https://registrar.ufl.edu/courses/aleks.html) to determine the course for which they are prepared. Then consult the Algebra/Precalculus placement information to determine the correct course.

Calculus AB

AP Exam Score	Register in	Additional Information
3	MAC 2311	Students will receive credit for MAC 2311. If the student's requirements include MAC 2312 or higher, they should retake MAC 2311.
4	MAC 2312	Students may repeat MAC 2311 or continue on to MAC 2312 (if needed for their requirements). Check with major department to determine if there is major-specific advice regarding repeating.[1]
5	MAC 2312	If a student needs MAC 2312, they should have appropriate background for that course.[1]

[1] Course descriptions (p. 1938)

Calculus BC

AP Exam Score	Register in	Additional Information
3	MAC 2311	Students will receive credit for MAC 2311. If the student's requirements include MAC 2312 or higher, they should retake MAC 2311.[1]
4	MAC 2312	Students will receive credit for MAC 2312. If the student's requirements include MAC 2313 or higher, they may retake MAC 2312 or go on to MAC 2313 if they are very confident of their background. Check with major department to determine if there is major-specific advice regarding repeating.[1]
5	MAC 2313	If a student needs MAC 2313, they should have appropriate background for that course. Check with major department to determine if there is major-specific advice regarding repeating.

[1] Course descriptions (p. 1938)

General Chemistry

If a student intends to pursue a science or engineering major or intends to go on to a health profession after completing the bachelor's degree, they should take these general chemistry courses. Students should check the information on their majors of interest to determine if general chemistry is required.

The general chemistry sequence CHM 2045/CHM 2045L and CHM 2046/CHM 2046L meets the preprofessional requirements for many science and engineering majors. CHM 2095/CHM 2095L and CHM 2096/CHM 2046L is an alternate general chemistry sequence specifically for engineering majors.

Placement into CHM 2045 or CHM 2095 requires:

- Successful completion with a grade of C or better of MAC 1147 (or both MAC 1140 and MAC 1114) or higher

AND

- Successful completion with a grade of C or better of CHM 1025
  OR
  a 76% on the ALEKS math placement exam.

If a student enrolls in and successfully completes CHM 1025 and MAC 1147 (or MAC 1140 and MAC 1114), they can enroll in CHM 2045 or CHM 2095 the next semester. Students who enroll in CHM 1025 but do not successfully complete with a C or better cannot place into CHM 2045 using an ALEKS score of 76%. Such students will need to repeat CHM 1025 and earn a C or better to go on to CHM 2045.

Students with credit for CHM 2045 via AP and IB scores or dual enrollment (with a minimum grade of C) should discuss their next chemistry course with an advisor. Students who wish to repeat CHM 2045, take CHM 2095 or go on to CHM 2046/CHM 2096 must have successfully completed MAC 1147, MAC 1140 and MAC 1114, or higher or the equivalent as determined by the Mathematics Department.

Students who wish to enroll in CHM 2047, the one-semester General Chemistry, and its corequisite laboratory CHM 2047L, must meet the following conditions:

- AICE, AP, or IB credit for at least CHM 2045 and laboratory
- Approval of the Honors Program office or the Department of Chemistry.

Foreign Languages

College-level foreign language is required by several programs: Liberal Arts and Sciences and the BA programs in the College of the Arts have a proficiency requirement; students in Journalism and Communications may choose between foreign language proficiency or a quantitative option. Construction management majors must complete one semester of Spanish.

French

- Students with no prior study of French or a maximum of French 1 on their high school transcript may enroll directly in FRE 1130. No placement exam is required.
- Students with French 2 on their high school transcript may enroll directly in FRE 1134. No placement test is required.
- Students with French 3 or 4 on their high school transcript may enroll directly in FRE 2220, but are encouraged to take the WebCAPE placement test for French (https://languages.ufl.edu/academics/llc-languages/french-studies/webcape-french-placement-test/).
- Students who speak French at home may take the WebCAPE placement test for French (https://languages.ufl.edu/academics/llc-languages/french-studies/webcape-french-placement-test/) and/or speak with the undergraduate coordinator about placement.
- Students who have taken French exams via Advanced International Certificate of Education (AICE), Advanced Placement (AP), College Level Examination Program (CLEP), or International Baccalaureate (IB), should consult the French Placement and Course Equivalency (https://languages.ufl.edu/academics/llc-languages/french-studies/placement-for-lower-division-courses/) page to determine whether they have received credit for a French course and which course to take next.
- Students who wish to demonstrate proficiency in French in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or BA in the College of the Arts (FA) degree requirements must do one of the following:
  - Complete the terminal course in the Beginning French sequence (or higher) with a satisfactory grade
  - Earn sufficient scores on an AICE, AP, CLEP, or IB exam.
  - Earn a passing score on the Foreign Language Proficiency Exam (FLPE) (https://teachingcenter.ufl.edu/testing/flpe/)

Spanish

Students with any prior study or knowledge of Spanish who wish to enroll in a Spanish course are required to take the WebCAPE online placement test (http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/spanish-placement/), which is designed to help them determine the best course based on their background.

- Students who took a language other than Spanish in high school are not required to take this test. They may enroll in SPN 1130.
- Students who have taken Spanish exams via Advanced International Certificate of Education (AICE), Advanced Placement (AP), College Level Examination Program (CLEP), or International Baccalaureate (IB) are encouraged but not required to take the WebCAPE and should consult the Spanish Placement and Course Equivalency (https://spanishandportuguese.ufl.edu/wp-content/uploads/sites/118/Spanish-Placement-Score-Charts-F21.pdf) page to determine whether they have received credit for a Spanish course and which course to take next.
- Students who wish to demonstrate proficiency in Spanish in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or BA in the College of the Arts (FA) degree requirements must do one of the following:
  - Complete the terminal course in the Beginning Spanish sequence (or higher) with a satisfactory grade
  - Earn sufficient scores on an AICE, AP, CLEP or IB exam.
  - Earn a passing score on the Foreign Language Proficiency Exam (FLPE) (https://teachingcenter.ufl.edu/testing/flpe/)

Anyone with any prior study or knowledge of Spanish MUST provide a test score to register for a Spanish course.

A passing grade in SPN 1131 or a higher level SPN courses successfully fulfills the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications and BA programs in the College of the Arts. Students wishing to satisfy the foreign language proficiency requirement by examination must do so through the appropriate AP, IB, or AICE Spanish scores. WebCAPE is only a placement exam.

Other Languages

Students with a prior background in languages other than French or Spanish should consult with the department regarding placement. Students who wish to demonstrate proficiency in that language in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or BA in the College of the Arts (FA) degree requirements must do one of the following:

- Complete the terminal course in the Beginning sequence (or higher) of that language with a satisfactory grade
- Earn sufficient scores on an AICE, AP, CLEP or IB exam.
- Earn a passing score on the Foreign Language Proficiency Exam (FLPE) (https://teachingcenter.ufl.edu/testing/flpe/)
- Consult the department regarding proficiency for languages not offered by the FLPE.

Preprofessional Advising

Pre-Health

The Pre-Health Advising Office offers resources and information to students from all UF majors who intend to pursue a graduate program in the health professions, such as medical, dental, veterinary, pharmacy, physician assistant, optometry, physical therapy, and/or occupational therapy school. The UF Pre-Health Advising Team operates on a de-centralized model. Pre-health students may choose almost any major they are interested in pursuing. Pre-health students should review the detailed information on the pre-health advising website to explore and keep track of necessary steps to take throughout their time at UF in order to become competitive applicants for the professional programs to which they plan to apply.
More Info (https://www.advising.ufl.edu/pre-health/)

All pre-health students are encouraged to enroll in Pre-Health Essentials, a free, non-graded Canvas course offered by the Pre-Health Advising Office. Pre-Health Essentials offers workshops and resources for pre-health students to explore and prepare for a healthcare profession.

Pre-Health Students

Plan to complete the following courses, which are the basic prerequisites for many preprofessional graduate programs. Some health professions do not require all of these courses, and some may require more. Requirements vary from program to program, so students should carefully investigate the requirements of the institutions to which they plan to apply.

Students can find pre-health Suggested Course Timelines on the pre-health website Forms & Handouts page. These timelines outline required and recommended prerequisite courses for each health profession.
More Info (https://www.advising.ufl.edu/pre-health/pre-health-resources/forms-handouts/)

Mathematics

At least two semesters of college-level mathematics; one semester of statistics (STA 2023) is required. Calculus (MAC 2311 or MAC 3472) is recommended for pre-medical students, and required for pre-pharmacy and pre-optometry students.

Pre-Law

UF's pre-law advisors offer students assistance as they explore their interest in law and provide guidance during the law school application process. Students are encouraged to utilize UF's pre-law resources:

- **Pre-law Website**: Review pre-law tips, timelines and resources.
  More Info (https://www.advising.ufl.edu/pre-law/)
- **Pre-law Listserv**: Join the listserv to receive pre-law announcements and stay connected with UF's abundant pre-law activities.
  More Info (https://www.advising.ufl.edu/pre-law/pre-law-email-list/)
- **Pre-law Advising:** Pre-law advisors are located in the College of Liberal Arts and Sciences Academic Advising Center (AAC) in Farrior Hall. Students may make an appointment through the AAC website or email the pre-law advisors.
  More Info (https://www.advising.ufl.edu/) | Email (prelaw@advising.ufl.edu)

Choosing a Major

Pre-law students must develop analytic and problem-solving skills, critical reading abilities, writing skills, oral communication and listening abilities, research skills, and organization and priority management skills. These skills can be attained through virtually any major in combination with a wide variety of complementary electives. There is no "pre-law" major at UF; students should choose a major in which they have a true interest and select a broad, diverse, and challenging array of courses from demanding instructors in order to prepare for success in law school.

Exploration

Pre-law students are encouraged to carefully assess their interest in and motivation for attending law school. The pre-law timeline, featured on the website, encourages students to shadow attorneys, conduct informational interviews, complete internships, and speak to admission officers to learn about law schools and the legal profession. Students should also consider studying overseas, writing an honors thesis, and getting involved in leadership opportunities. These activities will enhance the depth and value of students' undergraduate education and may also distinguish students from other top law school applicants.

Student Responsibilities

Academic Honesty

In 1995 the UF student body enacted an honor code and voluntarily committed itself to the highest standards of honesty and integrity. When students enroll at the university, they commit themselves to the standard drafted and enacted by students.
More Info (https://sccr.dso.ufl.edu/students/student-conduct-code/)

Preamble

In adopting this honor code, the students of the University of Florida recognize that academic honesty and integrity are fundamental values of the university community. Students who enroll at the university commit to holding themselves and their peers to the high standard of honor required by the honor code. Any individual who becomes aware of a violation of the honor code is bound by honor to take corrective action. The quality of a University of Florida education is dependent upon community acceptance and enforcement of the honor code.

The Honor Pledge

We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.

On all work submitted for credit by students at the university, the following pledge is either required or implied: On my honor, I have neither given nor received unauthorized aid in doing this assignment.

The university requires all members of its community to be honest in all endeavors. A fundamental principle is that the whole process of learning and pursuit of knowledge is diminished by cheating, plagiarism, and other acts of academic dishonesty. In addition, every dishonest act in the academic environment affects other students adversely, from the skewing of the grading curve to giving unfair advantage for honors or for professional or

graduate school admission. Therefore, the university will take severe action against dishonest students. Similarly, measures will be taken against faculty, staff and administrators who practice dishonest or demeaning behavior.

Student Responsibility

Students should report any condition that facilitates dishonesty to the instructor, department chair, college dean, Student Honor Council or Student Conduct and Conflict Resolution in the Dean of Students Office.

Faculty Responsibility

Faculty members have a duty to promote honest behavior and to avoid practices and environments that foster cheating in their classes. Teachers should encourage students to bring negative conditions or incidents of dishonesty to their attention. In their own work, teachers should practice the same high standards they expect from their students.

Administration Responsibility

As highly visible members of our academic community, administrators should be ever vigilant to promote academic honesty and conduct their lives in an ethically exemplary manner.

Student Conduct Code

Students enjoy the rights and privileges that accrue to membership in a university community and are subject to the responsibilities that accompany that membership. For a system of effective campus governance, it is incumbent upon all members of the campus community to notify appropriate officials of any violations of regulations and to assist in their enforcement. The university's conduct regulations, available to all students, are set forth in Florida administrative code. Questions can be directed to the Dean of Students Office.
More Info (https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/)

Alcohol and Drugs

The use of alcohol and other drugs can have a negative impact on the decision making, wellbeing and safety of students, as well as lead to legal complications.

The university's principal role is to engage in education that leads to high standards and respectful conduct. When those are compromised, the university will take disciplinary action against organizations and individuals violating either the law or the unreasonable use of alcohol. It also must provide help for students who are alcohol dependent. The university will take appropriate action with students convicted of the illegal possession, use or sale of drugs.

What the University Community Can Do to Prevent Alcohol Abuse and Drug Use

Students can help control substance use by declining to use or to condone the use of drugs and by insisting that organizations and individuals use alcohol within the bounds of the law and reasonable conduct. Students should make an effort to prevent persons who have abused alcohol or used drugs from harming themselves or others, especially while driving a motor vehicle. They should encourage those needing professional help to seek it. The same standards and regulations apply equally to faculty, staff, and administration.

Relations between People and Groups

One of the major benefits of higher education and membership in the university community is greater knowledge of and respect for other religious, racial, and cultural groups. Indeed, genuine appreciation for individual differences and cultural diversity is essential to the environment of learning. Another major aspect of university life involves sexual relationships. Sexual attitudes or actions that are intimidating, harassing, coercive or abusive, or that invade the right to privacy of the individual are not acceptable. Only in an atmosphere of equality and respect can all members of the university community grow.

Service to Others

An important outcome of a University of Florida education should be a commitment to serving other people. This sense of service should be encouraged throughout the institution by faculty, administration, staff, and students. Through experience in helping individuals and the community, students can put into practice the values they learn in the classroom.

Standard of Ethical Conduct

Honesty, integrity, and caring are essential qualities of an educational institution, and the concern for values and ethics is important to the whole educational experience. Individual students, faculty, and staff members, as well as the university's formal organizations, must assume responsibility for these qualities. The concern for values and ethics should be expressed in classes, seminars, laboratories and in all aspects of university life. By definition, the university community includes members of the faculty, staff, and administration as well as students.

Education at the University of Florida is not an ethically neutral experience. The university stands for, and seeks to inculcate, high standards. Moreover, the concern for values goes well beyond the observance of rules.

A university is a place where self-expression, voicing disagreement and challenging outmoded customs and beliefs are prized and honored. However, all such expressions need to be civil, manifesting respect for others.

As a major sector in the community, students are expected to follow the university's rules and regulations that, by design, promote an atmosphere of learning. Faculty, staff, and administrators are expected to provide encouragement, leadership, and example. While the university seeks to educate and encourage, it also must restrict behavior that adversely affects others. The Standard of Ethical Conduct summarizes what is expected of the members of the university community.

Study Abroad Opportunities

Study Abroad

Study Abroad Services offers students the opportunity to study overseas in a wide range of academic and cultural settings. The office coordinates numerous year-long, semester, summer and short-term programs in more than 80 countries on all seven continents.

Credits earned in study abroad programs may count toward a major or minor and can satisfy General Education, language, and summer residency requirements.

Writing Requirement

University Writing Requirement

The University of Florida requires all students [1] to complete a Writing Requirement. AICE, AP, CLEP, and IB examination credit (p. 1872) as well as dual enrollment or transfer credit may count toward this requirement.

To graduate, students must complete courses that involve substantial writing for a total of 24,000 words.

Courses that count toward this requirement will be in one of three categories:

- 2 | Coursework with at least 2,000 words
- 4 | Coursework with at least 4,000 words
- 6 | Coursework with at least 6,000 words

Some sections of qualified courses may not offer substantial writing in a particular term. In the schedule of courses (http://www.registrar.ufl.edu/soc/), the course sections and amount of writing credit awarded (2, 4, or 6 thousand) are identified for a given term.

The writing course grade assigned by the instructor has two components: the writing component and a course grade. Therefore, to receive writing credit, students must satisfactorily complete the writing component and receive a minimum grade of C (2.0) for the course. It is possible to not meet the Writing Requirement and still earn a minimum grade of C in a class, so students should review their degree audit after receiving their grade to verify receipt of credit for the writing component.

Courses intended to satisfy the Writing Requirement may not be taken S/U.

The writing must be evaluated on content, organization and coherence, effectiveness, style, grammar, and punctuation. Assignments must be returned to students with a grade and comments that address the students' writing skills. Consequently, feedback on all assignments should be provided by the last day of class, or if provided electronically, by the end of finals.

Evaluation of writing is based on individual work. Class notes, quizzes and in-class writing assignments or essay examinations may not be counted. Team-written documents may not be counted for credit unless clear individual sections are identified for grading, such that an individual student's writing may be evaluated and graded. Drafts cannot be counted separately from final drafts as part of the total number of words completed during the course.

Students may not take the same course multiple times to meet the Writing Requirement, unless the course allows for multiple registration based upon rotating course content.

All courses that require writing will not necessarily count toward the Writing Requirement. In Writing Requirement courses, students will be evaluated as described above.

[1] Except those transferring to UF with an AA degree from a Florida public college or an AA certificate from a Florida public state university.

Academic Progress Policies

Regulations for academic probation and dismissal follow the academic standards of the university and require the maintenance of grade point averages and reasonable conformance to a program of study.

A minimum grade point average of 2.0 is required to graduate from any UF undergraduate degree program. Any college may specify additional academic standards and students are responsible for observing these regulations.

The probation and dismissal regulations that apply to undergraduate students also apply to postbaccalaureate students. Notations on the student's academic record shall reflect all actions taken to enforce these regulations; some of these notations can be permanent.

Academic Standing

The University of Florida considers students to be in good standing if they are eligible to continue or to re-enroll at the university, even if on probation.

Colleges may choose not to consider students for admission and may deny continuation in a degree program if the student fails to maintain reasonable academic progress, as specified by the college or department.

Policies on academic standing, probation and dismissal are based on the possibility that a student can overcome academic difficulty and make appropriate progress toward a degree.

Petitions

Students may file a petition for a waiver of a deadline or regulation if they can document extenuating circumstances that led to their failure to meet or conform to the deadline/regulation.

In general, petitions for waiver of an academic regulation for the current term should be directed to the school or college in which the student is enrolled. For example, petitions to drop or add after the drop/add period should be presented to the school or college. Exceptions to the course load regulation are to be presented to the school or college. Petitions approved by the school or college must be reported to the Office of the University Registrar before the action is official.

All other petitions should be presented to the Office of the University Registrar, which will refer them to the University Student Petitions Committee. Petitions pertaining to academic records approved by the committee will be reflected on the student's transcript.

Students who have graduated are not eligible to petition.

Per BOG Regulation 7.002(11), all requests for a refund of fees must be submitted to the university within six months of the close of the semester to which the refund is applicable. Any request for a refund of fees submitted outside this timeframe will not be reviewed.

Detailed information on petition procedures is available from the student's college or the Office of the University Registrar.
More Info (http://www.registrar.ufl.edu/currents/petitioninstructs.html)

A student seeking waiver of a regulation through petition must remember that no petitions committee can direct an instructor to change a grade, nor can the University Student Petitions Committee require any college or school to grant a degree by waiving any regulation.

Probation

The intent of academic probation is to serve formal notice that a student may not be making satisfactory progress. The conditions of academic probation are intended to specify the achievement standards required to graduate, to identify unsatisfactory academic performance at an early date, to provide occasion for counseling, and to give students whose ultimate success is in question further opportunity to demonstrate their ability to meet academic expectations.

Academic probation can occur for the following reasons:

- Students may be placed on probation by their college for failure to maintain normal academic progress in their degree program. College probation will be removed when the college determines that satisfactory academic progress has been demonstrated.
- Undergraduate students with less than a 2.0 cumulative grade point average for University of Florida coursework may be placed on academic probation.
- Academic probation will be continued for all undergraduate students as long as they have less than a 2.0 cumulative grade point average. It will be removed when the grade point average becomes 2.0 or higher. Should the grade point average fall far enough, the student will be dismissed based on Dismissal policy.

More Info (p. 1897)

Dismissal and Suspension

Academic dismissal from the university denies registration privileges to students who have a cumulative GPA at or below what is listed in the Grade Point Deficit table (given their UF Cumulative Credits). The student will be dismissed from the university and any advance registrations will be cancelled.

- Students who are dismissed will not be permitted to enroll again unless they complete an application for readmission by the application deadline and the college approves readmission. A student who is readmitted after academic dismissal will be dismissed again if their grade point average is at or below the corresponding GPA (given their UF Cumulative Credits) indicated in the table at the end of any term.
- UF Cumulative Credits only include credits taken toward the GPA and do not include credits for courses taken S/U, credits dropped/withdrawn resulting in a W on the transcript, or credits not counting in the UF Cumulative GPA due to repeat or non-degree policy.
- An undergraduate student under any kind of dismissal or suspension at the University of Florida may earn credit toward a degree at the University of Florida by taking courses at another institution. Upon the student's reinstatement to the University of Florida, the University will accept credit from courses that fall under the Florida statewide course numbering system. A reinstated student may follow standard practice of consulting the student's degree-granting unit to consider whether credit for courses not under the state course numbering system and earned while dismissed or suspended will be accepted. Credits earned at another institution and accepted by the University of Florida will not count towards the UF GPA calculation but will factor into the student's total credit count towards excess hours.

University Ombuds

When an academic regulation appears to result in undue hardship, students may petition for waiver of the regulation. If a student wishes to appeal a decision of the University Student Petitions Committee, the student must contact the Office of the Ombuds.
More Info (http://www.ombuds.ufl.edu/)

Attendance Policies

Absences

Excused and Unexcused Absences

Students may only participate in classes if they are registered officially or approved to audit with evidence of having paid audit fees. The Office of the University Registrar provides official class rolls to instructors.

Students are responsible for satisfying all academic objectives as defined by the instructor. Absences count from the first-class meeting.

Acceptable reasons for absence from or failure to engage in class include illness; Title IX-related situations; serious accidents or emergencies affecting the student, their roommates, or their family; special curricular requirements (e.g., judging trips, field trips, professional conferences); military obligation; severe weather conditions that prevent class participation; religious holidays; participation in official university activities (e.g., music performances, athletic competition, debate); and court-imposed legal obligations (e.g., jury duty or subpoena). Other reasons (e.g., a job interview or club activity) may be deemed acceptable if approved by the instructor.

For all planned absences, a student in a situation that allows an excused absence from a class, or any required class activity must inform the instructor as early as possible prior to the class. For all unplanned absences because of accidents or emergency situations, students should contact their instructor as soon as conditions permit.

Students shall be permitted a reasonable amount of time to make up the material or activities covered during absence from class or inability to engage in class activities because of the reasons outlined above.

If a student does not participate in at least one of the first two class meetings of a course or laboratory in which they are registered, and they have not contacted the department to indicate their intent, the student can be dropped from the course. Students must not assume that they will be dropped, however. The department will notify students if they have been dropped from a course or laboratory.

The university recognizes the right of the instructor to make attendance mandatory and require documentation for absences (except for religious holidays), missed work, or inability to fully engage in class. After due warning, an instructor can prohibit further attendance and subsequently assign a failing grade for excessive absences.

Religious Holidays

Religious Holidays Guidelines

At the University of Florida, students and faculty work together to allow students the opportunity to observe the holy days of their faith. A student should inform the faculty member of the religious observances of their faith that will conflict with class attendance, with tests or examinations, or with other class activities prior to the class or occurrence of that test or activity. The faculty member is then obligated to accommodate that particular student's religious observances. Because students represent a myriad of cultures and many faiths, the University of Florida is not able to assure that scheduled academic activities do not conflict with the holy days of all religious groups. Accordingly, individual students should make their need for an excused absence known in advance of the scheduled activities.

The Florida Board of Education and state law govern university policy regarding observance of religious holidays.

Guidelines

- Students, upon prior notification to their instructors, shall be excused from class or other scheduled academic activity to observe a religious holy day of their faith.
- Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence.
- Students shall not be penalized due to absence from class or other scheduled academic activity because of religious observances.

If a faculty member is informed of or is aware that a significant number of students are likely to be absent from class because of a religious observance, the faculty member should not schedule a major exam or other academic event at that time.

A student who is to be excused from class for a religious observance is not required to provide a second party certification of the reason for the absence. Furthermore, a student who believes that they have been unreasonably denied an education benefit due to religious beliefs or practices may seek redress through the student grievance procedure.

Illness Policy

Absence due to Illness

A student who is absent from class or any required class-related activity because of illness should contact their instructor, if feasible, as early as possible prior to the missed class or activity.

Students shall be permitted a reasonable amount of time to make up the material or activities covered during an excused absence.

Students should contact their college by the deadline to drop a course for medical reasons. Students can petition the Dean of Students Office (https://www.dso.ufl.edu/) to drop a course for medical reasons. The university's policy regarding medical excuse (http://shcc.ufl.edu/forms-records/excuse-notes/) from classes is maintained by the Student Health Care Center.

Twelve-Day Rule

Academic Attendance

Students who participate in university-sponsored athletic or scholarly activities are permitted to be absent 12 scholastic days per semester without penalty. A scholastic day is any day on which regular class work is scheduled as defined in the approved university calendar.
More Info (p. 1921)

The student or student's advisor must notify the instructor as early as possible prior to the anticipated absence to allow ample time for accommodations. Instructors must be flexible and not penalize students when re-scheduling during-term and final exams, class assignments, and other required activities and must follow the UF Attendance Policy herein and UF Examination Policies. As noted in the UF Examination Policies, during-term exams should be re-scheduled no later than before the end of the semester, while final exams no later than 90 days after the originally

scheduled exam time. However, instructors are encouraged to re-schedule final and during-term exams, assignments, and other activities as soon as possible after the last day of the absence and must not penalize the student in any way.
More Info (p. 1906)

A group's schedule that requires absence of more than 12 scholastic days should be adjusted so that no student is absent from campus more than 12 scholastic days. Students who previously have been warned in writing by their instructor about the impact of absences on their individual class performance should not incur additional absences, even if they have not been absent 12 scholastic days. The student is responsible to maintain satisfactory academic performance and attendance.

Civic Literacy Requirement

Background

In 2017, the Florida Legislature amended section 1007.25, Florida Statutes, and introduced a new civic literacy requirement for all students graduating from a Florida public postsecondary institution.

Beginning in the fall of 2018, students entering a Florida public postsecondary institution for the first time would need to demonstrate civic literacy by either taking a specific course or passing an assessment. The 2021 Legislature amended section 1007.25, Florida Statutes, requiring students to complete both a course and an assessment. In 2024, the Board of Governors revised Regulation 8.006 to include the courses AMH X010 and AMS X010 to meet civic literacy competencies and to better align the regulation to the Florida Department of Education rule. As a result of these changes, four cohorts of students are currently matriculating through Florida public postsecondary institutions subject to varying civic literacy competency requirements. Table 1 outlines the civic literacy requirements based on the specified date of the academic term in which a student initially entered a State University System (SUS) or Florida College System (FCS) institution.

Fulfilling this civic literacy requirement will be essential for graduation from the University of Florida, and, because of increased attention needed for upper division studies, students are strongly encouraged to complete the requirement before the end of their second year. The transcript of every student who has met this requirement will include a notation that indicates the requirement has been met.

Courses taken prior to Fall 2018 do not satisfy the civic literacy requirement as those courses did not include the competencies required by statute until Fall 2018.

Civic Literacy Requirements by Cohort of Students and Requirement

It is the university's discretion to determine academic year.

Cohort 1
Students initially entering the SUS or FCS before fall 2018 | Requirement: None

Cohort 2
Students initially entering the SUS or FCS in Academic Year 2018 through Academic Year 2020 | Requirement: Course OR Assessment

Cohort 3
Students initially entering the SUS or FCS in Academic Year 2021 through Academic Year 2023 | Requirement: Course OR Assessment

Cohort 4
Students initially entering the SUS or FCS in Fall 2024 and thereafter | Requirement: Course OR Assessment

Additionally, for Cohorts 3 and 4, approved accelerated mechanisms may meet the course and/or assessment requirement, and students who pass the Florida Civic Literacy Examination (FCLE) in high school are exempt from the postsecondary assessment requirement.

Meeting the Civic Literacy Requirement

All undergraduate degree-seeking students who enroll in a Florida public institution in fall 2018 and thereafter must demonstrate civic literacy competency. Table 2 details which options meet the course and assessment requirements for each cohort of students. Some options only satisfy the course or assessment requirement, while others may satisfy both.

Credit received for courses in Board of Governors Regulation 8.006 (AMHX010, AMHX020, and POSX041) via credit-by-exam will count toward the course requirement.

- If the exam used as the basis of awarding credit is in Regulation 8.006 (e.g., AP and CLEP), the student would be considered as having met both the civic literacy competency course and the assessment requirement.
- If the exam used as the basis of awarding credit is not in regulation (e.g., AICE and IB),

the student would be considered as having met only the course requirement. These students would need to be assessed using an assessment approved in the regulation.

Beginning with fall term 2024 and thereafter, any undergraduate degree-seeking student, regardless of their cohort, can use any of the approved options for Cohort 4 to satisfy civic literacy competency before graduation.

Course and Assessment Options for Cohorts 2, 3, and 4

Options	Score	Cohort 2	Cohort 3	Cohort 4
Courses and Accelerated Mechanisms				
POS X041 (including dual enrollment)	Grade of C or Better	Course	Course	Course

Degree and Graduation Policies

Degree Application

Students must apply for a degree by the application deadline via ONE.UF (https://one.uf.edu/). To submit an application, select Degree/Certificate Application from the Academics section in the left menu.

Students must apply in the term in which they expect to graduate, regardless of applications in previous terms. If the student has completed all the requirements for the degree, they will be required to graduate. Degree application deadlines are available under Dates and Deadlines.
More Info (p. 1921)

Associate of Arts Degree | AA

Although not required, students may receive an AA degree, which is awarded by the College of Liberal Arts and Sciences. The degree must be awarded prior to or at the same time as the bachelor's degree. Students should apply for the AA degree in the semester when they are scheduled to complete the requirements. The application is available on ONE.UF (https://one.uf.edu/).

The Associate of Arts degree will be awarded upon satisfactory completion of:

- 60 credits; at least 36 of these credits must have been completed at UF
- General Education (Gen Ed) | UF Quest requirements (p. 77)
- Writing requirement (p. 1892)
- Civic Literacy requirement (http://undergrad.aa.ufl.edu/for-students/civic-literacy-requirement/)
- Foreign Language admission requirement (p. 24)

Catalog Year

UF operates on a semester system. Spring and Fall semesters average 15 weeks of instruction, plus a week of final examinations. There are two six-week Summer terms. Semesters begin in August, January, and May. The Summer term is offered as a full term (Term C), or in two sessions as half-terms (Term A beginning in May and Term B beginning in June).

Catalog year determines the set of academic requirements that must be fulfilled for completion of a certificate or to graduate from a degree-granting program. Students complete a program under the catalog in effect at the time of their initial enrollment as a certificate or degree-seeking student at UF, a Florida public college or other Florida state institution, provided they maintain continuous enrollment (enrolling for at least one course in one term in an academic year). Students pursuing minors, dual degrees or double majors must have the same catalog year for each program. Students pursuing certificates may have separate catalog years for their certificate(s) and degree-seeking programs(s).

Students who do not maintain continuous enrollment will be assigned the catalog in effect at the time they resume enrollment. With the approval of the student's college dean's office, they may choose to graduate under the requirements of a later catalog, but the student must fulfill all graduation requirements from that alternative catalog year.

The university will make every reasonable effort to honor the curriculum requirements appropriate to each student's catalog year. However, courses and programs will sometimes be discontinued, and requirements may change as a result of curricular review or actions by accrediting associations and other agencies.

College Dean's Certification

Students who have completed all requirements for their degree will be required to graduate. The dean certifies that all requirements have been completed and that the student has been recommended by the faculty for graduation.

Completion Deadline to Receive a Degree

All work must be completed by the end of the final exam period for the Fall and Spring terms and by the last day of classes for the Summer terms. A minimum UF cumulative grade point average of 2.0 must be earned to qualify for the awarding of an undergraduate degree.

Continuous Enrollment

Undergraduate students who enroll for at least one course in one term in an academic year are continuously enrolled.

Curriculum Requirements

Students must complete all degree requirements established by the university, their college, their major and minor (if applicable); this includes completion of General Education, Writing Requirement and the Summer term enrollment requirements.

Minors are awarded only in conjunction with the receipt of a baccalaureate degree. To determine program requirements, refer to the academic advising (p. 1829) and majors (p. 1827) sections.

Degree Certification and Graduation Date

All colleges, excluding professional programs in the colleges of Dentistry, Law, Medicine, Pharmacy, and Veterinary Medicine, will certify their graduates the Tuesday following the last day of classes for the Summer terms (subject to change due to holiday) or the Tuesday following the end of the final exam period for the Fall and Spring terms. This certification date will appear on the transcript and the diploma as the official date of graduation. Professional programs in the aforementioned colleges will use the date of their official commencement ceremony as the date of

graduation. This date will appear on both the transcript and diploma as the official date of graduation, as required by professional accreditation guidelines.

Diploma Replacement

Each diploma ordered subsequent to the student's initial degree application can result in a diploma replacement charge.

Dual Degrees and Multiple Majors

At the discretion of UF colleges and schools, students can be permitted to pursue multiple degrees or majors.

- A student completing major and college requirements in two or more different colleges at the same time will receive two or more degrees. The transcript will list each degree and the appropriate majors.
- A student completing major and college requirements in one college and major requirements only in another college will receive a degree from the first college. The transcript will list the degree and each major.
- A student completing multiple majors that have the same degree, i.e., Bachelor of Arts or Bachelor of Science, will receive a single degree. The transcript will list the degree and each major.

Foreign Language Requirement

As a condition of admission to the university, students must complete two sequential courses of a foreign language in secondary school, 8-10 semester credits at the postsecondary level or document an equivalent level of proficiency.

Some degrees also have additional, specific foreign language requirements. To earn a UF degree, students must meet the requirements of their major and college *in addition* to the university's foreign language requirement for admission.

Pending Charge of Academic Dishonesty or Conduct Violation

No degree will be conferred if a charge of academic dishonesty or student conduct violation is pending and the penalty could be dismissal, expulsion, failing grade or any combination, until the charge is resolved, and degree requirements are met.

Residence Requirements

The minimum residence requirement for the baccalaureate degree is two semesters.

- Students are required to complete the last 25% of the credits needed to satisfy the requirements of their major by taking UF courses.

Summer Term Enrollment

All students entering a university in the State University System (SUS) institutions (http://www.flbog.edu/universities/) with fewer than 60 semester credits shall be required to earn at least nine semester credits prior to graduation by attendance at one or more Summer sessions. However, students who earn six credits through UF-sponsored, UF exchange or UF-approved SUS study-abroad programs during one or two Summer terms completely satisfy the Summer-term enrollment requirement. Students who bring 60 or more transfer credits to UF, regardless of institution, will be exempt from completing the Summer requirement at UF.

Dropping Courses and Withdrawals

Dropping Courses

Dropping is defined as removing an individual course or courses from a student’s schedule/registration, but not removing all courses in a given term.

During Drop/Add

- Courses can be dropped or added during drop/add without penalty.
- Classes that meet for the first time after drop/add closes can be dropped without penalty or fee liability if the request is submitted by the end of the next business day after the first class meeting. Students first must drop the course with their college advising office and then submit a written explanation to the Office of the University Registrar. This does not apply to laboratory sections.

After Drop/Add but Prior to the Drop Deadline

After drop/add, students may drop a course with the approval of their college until the drop deadline listed in the academic calendar. A grade of W will appear on the transcript, and students are liable for course fees.

All drops after drop/add must be completed by the drop deadline with the student's college advising office and are subject to the following restrictions:

- Students get two drops in their first 60 credits attempted at UF. Credits attempted are defined as:
  - Credits carried excluding credits taken prior to the first term of degree-seeking enrollment, plus S/U credits, and repeats of satisfactory grades.
  - *Full-term withdrawals from all courses and dropped courses do not count in credits carried.*
  - Students get two additional drops in the second 60 credits attempted. Unused drops do not carry over from the first 60 credits attempted to the second 60 credits attempted at UF.
- Students entering UF as transfer students with an AA degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops.
- Students with disabilities who need to drop a course due to disability-related reasons are allowed to petition for additional drops.
- Students who can document extenuating circumstances may petition their college for additional drops.
- Approval to drop a course must be obtained from the student's college.

After the Drop Deadline

- After the deadline and before the last day of classes, students may petition their college to drop a class. Typically, they will need to demonstrate an extenuating circumstance justifying approval of a drop after the deadline.
- After the last day of classes, students would need to complete a University Petition Request for a Retroactive Drop.
  More Info (http://www.registrar.ufl.edu/currents/petitioninstructs.html)

Withdrawals

Withdrawal is defined as dropping *all* courses, not *individual* courses, in a term. Students who leave UF without withdrawing formally will receive failing grades for all courses.

Students should read the withdrawal instructions carefully before submitting their withdrawal online.
More Info (http://registrar.ufl.edu/services/withdrawals.html)

During Drop/Add

- Students may withdraw from all courses during drop/add without penalty.

After Drop/Add but Prior to the Withdrawal Deadline

- Students who withdraw after drop/add and before the withdrawal deadline will receive a grade of W for all classes and are liable for tuition.
- Students on university academic probation who withdraw before the Withdrawal Deadline will continue on probation until their UF cumulative GPA becomes a 2.0 or greater. Students on Admissions Committee probation must meet the terms of their probation. Students on college probation should check with their college/departmental advisor about college-specific requirements.
- Students considering petitioning for a medical withdrawal or retroactive medical withdrawal should contact the Dean of Students Office for additional information about the process.
  More Info (https://care.dso.ufl.edu/medical-petition-portal/)

After the Withdrawal Deadline

- Students who wish to withdraw after the withdrawal deadline and before the last day of classes may petition their college. Typically, the student will need to demonstrate an extenuating circumstance justifying approval of a withdrawal after the deadline.
- After the last day of classes, students would need to complete a University Petition Request for a Retroactive Withdrawal.
  More Info (http://www.registrar.ufl.edu/currents/petitioninstructs.html)

Withdrawal Due to Military Service

Per Florida Statute 1004.07, any student enrolled in a postsecondary course or courses at a state university shall not incur academic or financial penalties by virtue of performing military service on behalf of the country. These students shall be permitted the option of completing the course(s) at a later date without penalty or withdrawing from the course(s) with a full refund of fees paid. (Refer to refund of fees (p. 1906) information in the fees and fiscal section of the catalog). If the student chooses to withdraw, the record shall reflect that the withdrawal is due to active military service.

National Guard Troops Ordered into Active Service

Per Florida Statute 250.482, if a member of the Florida National Guard is ordered into active service, no private or public employer and no employing or appointing authority of this state, its counties, municipalities, political subdivisions, public colleges, or universities shall discharge, reprimand or in any other way penalize such member because of their absence by reason of state active duty.

Examination Policies and Reading Days

Final Exams

Final Exams

Final exams are determined by course meeting times, except for certain large courses.

- No student is required to take more than three final exams in one day.
- If two exams are scheduled at the same time, assembly exams take priority over standard exams.
- When two assembly exams (multiple sections and enrollment over 300) or two standard exams (single sections and/or enrollment under 300) conflict, the course with the higher number will take priority. Instructors giving make-up exams will make the necessary adjustments.
- Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. A reasonable amount of time to make up a final exam is within 60 days of the originally scheduled final exam date; however, students in their graduation semester may require expedited accommodations to ensure graduation as scheduled.

During-Term Exams

During-term Examinations

- During-term examinations are held during regular class times or during assembly exam periods, which are Monday through Friday from 8:20 pm to 10:10 pm (periods E2-E3) for the Fall and Spring terms and Monday through Friday from 7:00 pm to 9:45 pm (periods E1-E2) for the Summer terms.
- If other classes are scheduled during an exam time, instructors must provide make-up class work for students who miss class because of an assembly exam.
- When two exams conflict, assembly exams (multiple sections and enrollment over 300) take precedence over non-assembly exams (single sections and/or enrollment under 300). If two assembly exams conflict, the course with the higher number will take priority. Likewise, if two non-assembly exams conflict, the higher number will again take priority. Instructors giving make-up exams will make the necessary adjustments.
- Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. A reasonable amount of time to make up a during-term exam is before the end of the semester in which the student is enrolled in the class.

Reading Days

Reading Days

The two days before the start of examinations in the Fall and Spring semesters, generally a Thursday and Friday, are designated reading days. No classes or exams are held on these days; instead, students are encouraged to use these days for study and review.

There are no reading days in the summer terms because examinations are given during regular class periods.

Excused Absences

Excused Absences

Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. For assignments and during-term exams, a reasonable amount of time is within the term in which the student is enrolled in the class. For final exams, a reasonable amount of time is within 60 days after the originally scheduled final exam date; however, students in their graduation semester may require expedited accommodations to ensure graduation as scheduled.

Fees and Fiscal Information

Fees and Tuition

Fees and Tuition

Admission Tuition Deposit

The $200 admission deposit (UF-3.0376 Regulations of the University of Florida) paid by the individual shall be applied toward payment of that individual's tuition upon enrollment. The admission deposit shall **not** be reimbursed to an individual who does not enroll in the term offered for admission and who does not withdraw their acceptance of admission prior to the applicable deadline as published in the University Record. The deposit is waived for those individuals who have provided documentation that they have received an application fee waiver because of economic need as determined by the College Board, American College Testing Program, Law School Admissions Council, the American Association of Medical Colleges Fee Assistance Program or the American Association of Dental Schools Application Service.

Registration and Tuition and Fees Liability

Registration shall be defined as consisting of two components (UF-3.037 Regulations of the University of Florida):

1. formal enrollment in one or more credit courses approved and scheduled by the university; and
2. tuition and fee payments, or other appropriate arrangements for tuition and fee payment (deferment or third-party billing) for the courses in which the student is enrolled.

Registration must be completed on or before the date specified in the university calendar. Students are not authorized to attend class unless they are on the class roll or have been approved to audit. Unauthorized class attendance will result in fee liability.

Fee Liability

All students are liable for all tuition and fees associated with all courses for which the student is registered at the end of the drop/add period (UF-3.037 Regulations of the University of Florida). The fee payment deadline is 3:30 p.m. of the last day of the second week of classes.

Assessment of Tuition and Fees

Tuition shall be assessed to students for enrollment in credit courses (UF-3.0375 Regulations of the University of Florida).

Students can calculate and pay their own tuition and fees on the secure ONE.UF portal.
More Info (https://one.uf.edu/dashboard/)

Students can estimate their tuition and fees on the University Bursar website.
More Info (http://www.fa.ufl.edu/bursar/current-students/)

Lack of written notification of the tuition and fee debt does not negate the student's responsibility to pay by the published deadline.

For purposes of discussion, the word *term* refers to the Fall semester, the Spring semester, and any of the Summer semesters.

Assessment of Student Fees

Activity and Service Fee

All students must pay an activity and service fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0372, Regulations of the University of Florida)

Athletic Fee

All students must pay an athletic fee that is assessed on a per credit-hour or semiannual basis. Half-time graduate research and teaching assistants enrolled for eight (8) or more credit hours during the Fall or Spring Semester and all other students enrolled for nine (9) or more credit hours are eligible to purchase football tickets at the student rate. (UF-3.0372, Regulations of the University of Florida)

Audit Fee

Tuition and fees for audited courses are assessed at the applicable resident or nonresident per credit-hour cost. (UF-3.0376, Regulations of the University of Florida)

Diploma Replacement Fee

Each diploma ordered after a student's initial degree application can result in a diploma replacement charge, not to exceed $10.00 per item. (UF-3.0376, Regulations of the University of Florida)

Distance Learning Fee

Online courses may be assessed a per credit hour amount. (1009.24, Florida Statutes)

Health Fee

All students must pay a health fee that is assessed on a per credit-hour or semiannual basis. The health fee is not part of any health insurance a student may purchase. (UF-3.0372, Regulations of the University of Florida.)

Material and Supply and Equipment Use Fee

Material and supply fees are assessed for certain courses to offset the cost of materials or supply items consumed in the course of instruction. A list of approved courses and fees is published in the Schedule of Courses each semester. (UF-3.0374 Regulations of the University of Florida)
More Info (http://www.registrar.ufl.edu/soc/)

The equipment use fee program allows units to charge for courses that use equipment in the educational process, which is used to prepare students for their careers or professions and is used for instructional purposes only with direct use by students. Material and supply and equipment use fee information is available from the academic departments or from the schedule of courses (Florida Statutes 1009.24).

Off-Campus Educational Activities

The president or designee will establish fees for off-campus course offerings when the location results in specific identifiable increased costs to the university. These fees will be in addition to the regular tuition and fees charged to students enrolling in these courses on campus. The additional

fees charged are for the purpose of recovering the increased costs resulting from off campus vis-a-vis on campus offerings. As used herein, *off campus* refers to locations other than main campus, branch campuses and centers. (UF-3.0376, Regulations of the University of Florida)

Registration for Zero Credits

The student is assessed the applicable resident or nonresident per credit-hour cost as set forth in Regulation UF-3.0375, for one credit hour. (UF-3.0376, Regulations of the University of Florida)

Technology Fee

All students must pay a technology fee that is assessed on a per credit-hour or semiannual basis. (UF-3.3075, Regulations of the University of Florida)

Transcript Fee

An official transcript may be purchased on your ONE.UF (https://one.uf.edu/) account for a charge. (UF-3.0376. Regulations of the University of Florida)
More Info (https://registrar.ufl.edu/services/transcripts/)

Transportation Access Fee

All students must pay a transportation access fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0372, Regulations of the University of Florida)

All charges may be subject to change without notice.

Repeat Course Fee

Beginning Fall 1997, any undergraduate course numbered 1000-4999 at the university for which a student registers three or more times will be subject to a repeat course fee at 100 percent of the full cost of instruction, calculated annually. (Section 1009.285, Florida Statutes)

All students, regardless of classification or residency status, will be assessed the fee in addition to the tuition costs. (UF-3.0375, Regulations of the University of Florida)

Excess Hours Fee

All credit hours for courses taken at the state university from which the student is seeking a baccalaureate degree. (UF-3.0375, Regulations of the University of Florida)

Pursuant to Section 1009.286, Florida Statutes, an additional student payment for credit hours exceeding baccalaureate degree program completion requirements at state universities.
More Info (http://www.leg.state.fl.us/statutes/?App_mode=Display_Statute&URL=1000-1099/1009/Sections/1009.286.html)

Payment

Payment of Tuition and Fees

Tuition and fees are payable on the dates listed in the academic calendar. Deadlines are enforced.
More info (p. 1921)

Tuition and fee payments are processed by **University Bursar**. Payments sent via US mail must be received in the university cashier's office by the established fee payment deadline. An on time payment for the tuition and fees deadline date is a receipt date, not a postmark date.
More Info (http://www.fa.ufl.edu/bursar/current-students/payments/)

According to university policy, university cashiers will accept checks only for the amount due in payment of tuition and fees, accounts receivable, loans and other student debts. Checks from international countries must be payable through a United States bank in US dollars. The university can refuse two-party checks, altered checks and checks that will not photocopy. The university does not have the authority to waive late payment fees unless extraordinary circumstances warrant such a waiver or the university is primarily responsible for the delinquency. (UF 3.0022, University of Florida Regulations)

Pay for tuition and fees and other charges at ONE.UF.
More Info (https://one.uf.edu/dashboard/)

Payment Options

- Electronic check; there is no service charge for the electronic check payments.
- Credit and debit cards: MasterCard, Discover, American Express, or Visa will include a 2.675% service charge for tuition and fees and accounts receivable charges (e.g., laser print, library fines, parking decals, etc.).
- International Payment: a wire transfer option provided by either Convera or Flywire that provides a competitive rate of exchange for many international currencies.

- In person payments: check, money order, or cashier's check. International paper checks or demand drafts must be drawn on a US bank in US dollars and amounts cannot be greater than the amount due. Any payment that is more than the amount due will not be refunded and will automatically be applied to a future debt.
- UF Current Term Payment Plans are a 4-equal payment installment plan for eligible students and charges. Eligible charges will be displayed on the student's One.UF (https://one.uf.edu/) Campus Finances (Bursar) page under Charges Due. Payment plan enrollments will be charged a non-refundable fee of $15 at time of enrollment.
- Cash is not an available payment option.

Returned Payments

Returned electronic checks or paper checks will be charged a service fee of $25.00 if the returned payment is less than $50.00; $30.00 if the returned payment is $50.01 - $299.99 and $40.00 if the returned payment is $300.00 or more. Payments for returned electronic check payments, returned paper checks and the returned service fee must be paid by money order or cashier's check.

A $10.00 service fee will be charged if the bank information provided for the electronic check payment is inaccurate for electronic funds transfer. Payment for this type of return does not require a money order or a cashier's check.

All financial obligations to the university will be applied on the basis of age of the debt. The oldest debt will be paid first.

Late Registration and Late Payment Fees

Late Registration Fee

Any student who fails to register prior to the late registration date published in the academic calendar will be subject to the late registration fee of $100.00. (UF-3.037, Regulations of the University of Florida)
More Info (p. 1921)

Late Payment Fee

Any student who fails to pay all tuition and fees due or to make appropriate arrangements for tuition and fee payment (deferment or third party billing) by the fee payment deadline published in the academic calendar will be subject to a late payment fee of $100.00. (UF-3.037, Regulations of the University of Florida)
More Info (p. 1921)

Waiver of Late Fees

A student who believes that a late fee should not be assessed because of university error or extraordinary circumstances that prevented all conceivable means of compliance by the deadline may petition for a waiver. Late registration fee: Office of the University Registrar; Late payment fee: University Bursar. The university reserves the right to require documentation to substantiate these circumstances.

Deferment of Tuition and Fees

Deferment extends the deadline for payment of tuition and fees for a specific term. A tuition and fee deferment is granted based on information from Student Financial Affairs (financial aid deferments) or the Office of the University Registrar (veterans). Refer questions on eligibility to the appropriate office. A tuition and fee deferment must be established by the tuition fee payment deadline for each term. A tuition and fee deferment is provided to students in the following circumstances:

- Students receiving benefits from state or federal financial assistance programs (1009.27, Florida Statutes).
- Students receiving veterans or other educational benefits under Chapter 30, Chapter 31, Chapter 32, Chapter 33, Chapter 34, Chapter 35, Chapter 1606 or Title 10, U.S.C.; or
- Students for whom formal arrangements have been made with the university for payment by an acceptable third-party sponsor.

A $100.00 late payment fee will be assessed if a student fails to pay all tuition and fees due by the deferment deadline.

Deadlines

Deadlines

Deadlines are enforced.

The university does not have the authority to waive late payment fees unless extraordinary circumstances warrant such waiver or the university is primarily responsible for the delinquency.

Waiver or Exemption of Tuition and Fees

UF may waive tuition and fees as follows:

- Any dependent child of a special risk member killed in the line of duty, pursuant to Chapter 112.19, Florida Statutes.
- A student enrolled through the Florida Linkage Institutes Program is entitled to a waiver of the nonresident tuition and fees pursuant to 288.8175 Florida Statutes.
- Intern supervisors for institutions within the State University System may be given one non-transferable certificate (fee waiver) for each full academic term during which the person serves as an intern supervisor, pursuant to 1009.26, Florida Statutes.
- Persons 60 years of age or older who are Florida residents, pursuant to Chapter 1009.26, Florida Statutes.
- A student who is or was at the time he or she reached 18 years of age in the custody of a relative or non-relative under s. 39.5085 or s. 39.6225 or who was adopted from the Department of Children and Families after May 5, 1997. Such exemption includes fees associated with enrollment in applied academics for adult education instruction. The exemption remains valid until the student reaches 28 years of age after May 5, 1997, pursuant to Chapter 1009.25, Florida Statutes.
- A student who lacks a fixed, regular, and adequate nighttime residence or whose primary nighttime residence is a public or private shelter designed to provide temporary residence, a public or private transitional living program, or a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings. This includes a student who would otherwise meet the requirements of this paragraph, as determined by a college or university, but for their residence in college or university dormitory housing.
- Purple Heart recipients pursuant to Chapter 1009.26, Florida Statutes.
- Apply for enrollment in an institution of higher education within 24 months after high school graduation; and submit an official Florida high school transcript as evidence of attendance and graduation, may have the non-Florida resident fee waived as provided by Chapter 1009.26, Florida Statutes.
- Non-Florida resident fee for a veteran; C.W. “Bill” Young Veteran Tuition Waiver, pursuant to Chapter 1009.26, Florida Statutes.
- Active-duty military, pursuant to sections 1009.2(10) and 1009.26(14), Florida Statutes.

The non-Florida student financial aid fee may not be waived for students receiving an out-of-state tuition and fee waiver.

Non-Payment and Refunds

Non-Payment of Tuition and Fees

The university shall temporarily suspend further academic progress of any student who has not paid the entire balance of their tuition and fee liability by the established deadlines. This will be accomplished by placing a financial hold on the student’s record, which will prevent the student from receiving grades, a diploma, and the student’s registration will be denied for future terms until the account has been satisfied. (UF-3.037 Regulations of the University of Florida).

Students who have not paid any portion of their tuition and fee liability by the established university payment deadline may be withdrawn from all courses. Students who re-register after being withdrawn for non-payment of tuition and fees will be subject to both late registration and late payment fees.

Refund of Tuition and Fees

The following circumstances may constitute a tuition and fees refund (UF 3.0371 Regulations of the University of Florida):

- If notice of withdrawal from the University is approved prior to the end of the drop/add period and written documentation is received from the student
- Credits dropped during drop/add period
- Courses cancelled by the university
- Involuntary call to active military duty
- Death of the student or member of the immediate family (parent, spouse, child, sibling)
- Illness of the student of such severity or duration, as confirmed in writing by a physician, that completion of the semester is precluded
- Exceptional circumstances, upon approval of the university president or their designee

A refund of 25 percent of the total fees paid (less late fees) is available for withdrawal of enrollment of all courses from the university prior to the deadlines listed in the academic calendar.
More Info (p. 1921)

Refunds are issued by University Bursar and will be applied against any university debts. The university reserves the right to set minimum amounts for which refunds will be produced for overpayments on student accounts.

Tuition refunds due to cancellation, withdrawal or termination of attendance for students receiving financial aid will first be refunded to the appropriate financial aid programs. If the student is a recipient of federal financial aid, such as Grad Plus Loan, Pell Grant, TEACH Grant, Supplemental Educational Opportunity Grant (SEOG), Perkins Loan, Federal Direct Stafford Loans or PLUS loans, federal rules require that any unearned portion of the federal aid must be returned to the US Department of Education.

Direct Deposit Requirement

Due to the university's continuing support for sustainable practices, as well as the costs associated with producing, mailing, and tracking undelivered checks, direct deposit is now required for the delivery of refunds, whether financial aid or student overpayments. This electronic method will deposit any overpayments to the student's checking account. Students must give authorization on ONE.UF (https://one.uf.edu/dashboard/), select the Campus Finances (Bursar) card > Related Links > Sign up for Direct Deposit to have financial aid or overpayments electronically credited to a US bank or other US financial institution checking account.

Florida Prepaid

Florida Prepaid Tuition College Program

The Florida Prepaid College Program is a state of Florida administered program that provides Florida families affordable means to save for their children's future college education.

At the University of Florida, students with a Florida Prepaid account will **not** have to show their Florida Prepaid documentation. University Bursar works directly from an electronic file provided by the Florida Prepaid College Program. University Bursar matches that file to the names and social security numbers of enrolled UF students to determine eligibility and available credits that can be billed to the program. If Prepaid is not showing on the student's ONE.UF record the first week of classes, contact the University Bursar at 352.392.9545.
More Info (https://one.uf.edu/dashboard/)

University Bursar will automatically bill the Florida Prepaid Program for the tuition and applicable fees of eligible students. The program will be billed each term that a student is registered at UF and continues to have credits available.

Florida Prepaid Program has a variety of plans. However, no plan pays 100 percent of tuition and fees. Listed below are fees that are not covered by a prepaid plan and must be paid by the fee payment deadline each term to avoid assessment of a $100.00 late payment fee:

- Distance learning fees
- Equipment fees
- Excess credit hour surcharge fees
- Late payment fees
- Late registration fees
- Material and supply fees
- Repeat course surcharge
- Transportation access fees
- Test fees
- Technology fees

Opting out of Florida Prepaid

Eligible students can choose to decline the use of the prepaid plan online for a **Fall**, **Spring**, or **Summer** term.

Opt out of Florida Prepaid at ONE.UF.
More Info (https://one.uf.edu/dashboard/)

The option to *opt out* online for the current term must be completed prior the day prior to the tuition deadline. The online *opt out* option is not available on the fee payment deadline day; therefore, students choosing to *opt out* on the deadline day or those who need to cancel an online selection must contact the University Bursar at 352.392.9545 or Ask Bursar Help (https://uf.tfaforms.net/125/).

*Students must **opt out** each term they decline to use their prepaid plan. Only one academic term will be available online to **opt out** any given time.*

Florida Prepaid and Financial Aid

Students participating in the Florida Prepaid College Program who are also expecting to receive financial aid (i.e., Bright Futures, Pell, student loans, other scholarships/grants) will have the Florida Prepaid applied first to tuition and applicable fees. Financial aid received will be disbursed and applied to outstanding charges, which may include tuition and fees not covered by the program. Any excess financial aid that remains after debts have been paid will be refunded to the student or if there is a Plus loan this will be refunded to the student or parent.

Study Abroad Programs and Distance Learning

Students participating in any study abroad program or receiving instruction through flexible learning, also can bill the Florida Prepaid College Program.

Students must contact the following departments for assistance with billing the Florida Prepaid program:

Study Abroad Programs

UF International Center, Study Abroad Services
170 HUB Stadium Road

Gainesville, FL 32611

352.273.1539

Flexible Learning Courses

Distance Learning
2124 NE Waldo Road, Suite 1101
Gainesville, FL 32609

352.392.2137

Fiscal Information

General Fiscal Information

Students can pay on their ONE.UF account the exact amount of tuition and fees and/or other amounts owed the university. The online payment system accepts the following payment methods: American Express, MasterCard, Discover, or Visa credit cards and electronic checks from checking accounts and international payments via wire transfer.
More Info (https://one.uf.edu/dashboard/)

Students can also pay at the University Bursar office with personal checks, cashier's checks and money orders, which can be placed in the 24-hour drop box located outside 113 Criser Hall. Payments on all financial obligations to the university will be applied on the basis of age of the debt. The oldest debt will be paid first.

University Bursar does not accept cash or debit card payments and does not cash checks or make cash refunds.

It is the student's responsibility to maintain a correct current address in the UF directory.

Address changes should be made online at ONE.UF.
More Info (https://one.uf.edu/dashboard/)

Past-Due Student Accounts

All student accounts are payable at the University Bursar office or on ONE.UF at the time such charges are incurred. Graduating students with outstanding financial obligations will have a hold placed on their records withholding release of a diploma and other university services until the debt is satisfied.
More Info (https://one.uf.edu/dashboard/)

University regulations prohibit the following for any student whose account with the university is delinquent until the debt has been satisfied:

- Registration
- Release of diploma, grades, or schedules
- Loans
- The use of UF facilities and/or services
- Admission to UF functions and athletic events

Delinquent accounts, including those debts for which the student's records have a financial hold, may require payment by cashier's check or money order.

Delinquent debts may be placed with a billing agent, reported to a credit bureau and referred to collection agencies without further notice or litigated, at which time additional collection costs will be assessed in accordance with UF-3.0376, Regulations of the University of Florida. All payments received are applied to the oldest debt first.

FERPA and Confidentiality of Student Records

The university ensures the confidentiality of student records in accordance with the provisions of various federal, state, and university regulations, including the Family Educational Rights and Privacy Act of 1974 (FERPA), as amended, also known as the Buckley Amendment. The statutes and regulations also provide certain rights to students concerning their education records.

FERPA Student Rights

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records.

FERPA rights include

The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.

A student should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

A student who wishes to ask the University to amend a record should write the University official responsible for the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

The right to provide written consent before the University discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

FERPA authorizes disclosure without consent in several situations, including but not limited to the following:

A) The University may disclose education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisor, academic or research, or support staff position; a person or entity with whom the University has contracted as its agent to provide a service instead of using University employees or officials; a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibilities for the University.

B) Upon request, the University may disclose education records without consent to an official of another school in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

C) Directory information (https://directory.ufl.edu/) may be released freely unless the student files the appropriate form requesting that certain public information not be released. This form is available in the Office of the University Registrar.

The right to file a complaint with the US Department of Education concerning alleged failures by the University of Florida to comply with the requirements of FERPA.

The name and address of the office that administers FERPA is:

US Department of Education
Student Privacy Policy Office
400 Maryland Avenue, SW
Washington, DC 20202-8520

Release of student record information is generally not permitted at the University of Florida without the express, written consent of the student. There are, however, some important exceptions.

Directory Information is defined as the student's name, class and college, local and permanent addresses, listed telephone number, email address, enrollment status, most recent previous educational institution attended, dates of attendance at the University of Florida, majors, minors, certificates, concentrations and degrees earned, nature and place of employment at the University, honors and awards received, publication titles, participation in officially recognized or registered activities and sports, and weight and height of members of athletic teams.

Under FERPA, the university may release directory information without a student's prior consent, unless the student tells the university not to release this information, by placing what is known as a privacy hold. Please note that selecting the "Do not publish" option in the UF directory is not the same as placing a privacy hold under FERPA.

To place a privacy hold, currently enrolled students must complete a Request for Restriction of Directory Information (Full Privacy Hold).

- Restriction of Directory Information form (https://registrar.ufl.edu/forms/)
- More FERPA information on the Registrar's website (https://registrar.ufl.edu/ferpa/)

Two important details regarding placing a privacy hold on a student's record:

- The university receives many inquiries for directory information from a variety of sources outside the institution, including friends, parents, relatives, prospective employers, the news media, honor societies, and other members of the public. A privacy hold will preclude the release of such information, even to those people.
- A privacy hold applies to all elements of directory information in a student's student record. The Office of the University Registrar does not apply the privacy hold differentially to the various directory information data elements. A request for a privacy hold will result in all data elements being withheld. Changes made by the online student directory will not be reflected on the student's academic record.

A copy of FERPA, more details (http://www.registrar.ufl.edu/ferpa.html) about student rights and any university policies related to the FERPA are available from the Office of the University Registrar. Please refer any questions concerning FERPA to help@registrar.ufl.edu or 352.392.2244.

Confidentiality of Student Records

Directory Information that can be released to the public is limited to:

- Student name
- Class and college
- Local and permanent addresses
- Listed telephone number
- Email address
- Enrollment status
- Most recent previous educational institution attended
- Dates of attendance at the University of Florida
- Majors
- Minors
- Certificates
- Specializations
- Degree earned
- Nature and place of employment at the university
- Honors and awards received
- Publication titles
- Participation in officially recognized or registered activities and sports
- Weight and height of university athletes

The Office of the University Registrar routinely releases directory information to the public. Directory information may also be released by other university departments and/or employees.

To place a privacy hold, students must complete a Request for Restriction of Directory Information (Full Privacy Hold).

- Restriction of Directory Information form (https://registrar.ufl.edu/forms/)
- More FERPA information on the Registrar's website (https://registrar.ufl.edu/ferpa/)

Student **educational records may be released** without the student's consent to school officials who have a legitimate educational interest in accessing the records. *School officials* shall include:

- An employee, agent or officer of the university or State University System of Florida in an administrative, supervisory, academic, research or support staff position;
- Persons serving on university committees, boards and/or councils; and
- Persons employed by or under contract to the university to perform a special task, such as an attorney or an auditor.

Legitimate educational interest shall mean any authorized interest or activity undertaken in the name of the university for which access to an educational record is necessary or appropriate to the operation of the university or to the proper performance of the educational mission of the university.

The university also may disclose information from the student's educational record without their consent to individuals or entities permitted such access under applicable federal and state law.

Students have the right to review their own educational records for information and to determine accuracy. A photo I.D., other equivalent documentation or personal recognition by the custodian of record will be required before access is granted. Parents of dependent students, as defined

by the Internal Revenue Service, have these same rights upon presentation of proof of the student's dependent status. Each spring when the catalog is published, students are notified of their FERPA rights.

If a student believes the university has not maintained the confidentiality of their educational record as required by law, they may file a complaint by contacting:

Family Policy Compliance Office
US Department of Education
400 Maryland Avenue SW
Washington, D.C. 20202-5901

Grades and Grading Policies

Grades

Grades and Grade Points

The Office of the University Registrar records student grades.

The word *credit* refers to one semester hour, generally representing one hour per week of lecture or two or more hours per week of laboratory work.

Passing Grades and Grade Points

Credit Earned Prior to May 11, 2009 | Summer A

Passing Grade	Grade Points
A	4.0
B+	3.5
B	3.0
C+	2.5
C	2.0
D+	1.5
D	1
S	0

Passing Grades and Grade Points

Credit Earned Effective May 11, 2009 | Summer A

Passing Grade	Grade Points
A	4.0
A-	3.67
B+	3.33
B	3.0
B-	2.67
C+	2.33
C	2.0
C-	1.67
D+	1.33
D	1.0
D-	.67
S	0

The degree-granting college may require a specific minimum grade in particular courses.

Failing Grades and Grade Points

Failing Grade, Zero Grade Points, Counted in GPA	Grade Points
E	0
WF	0

I	0
NG	0

Non-Punitive Grades and Grade Points

Non-Punitive Grade, Zero Grade Points, Not Counted in GPA	Grade Points
W	0
H	0
I*	0
N*	0
U	0

Definitions

E: Failure

H: Deferred grade assigned only in approved sequential courses or flexible learning

I* / I: Incomplete

N* / NG: No grade reported

S: Satisfactory

U: Unsatisfactory

W: Withdrew

WF: Withdrew failing

I*, N* and I, NG Grades

I* or N* grades recorded on the student record indicate the non-punitive initial-term receipt of an I or NG. A grade of I* or N* is not considered a failing grade for the term in which it is received, and it is not computed in the grade point average. However, if the I* or N* has not been changed after 150 days, it will be counted as a failing grade and used in computation of a student's grade point average.

For purposes of determining grade point average after the initial receipt of an I* or N* grade, the three Summer terms are considered collectively as a single term. I* and N* grades are not assigned to graduating students; they receive failing grades of I or NG.

An incomplete grade may be assigned at the discretion of the instructor as an interim grade for a course in which the student has completed a major portion of the course with a passing grade, been unable to complete course requirements before the end of the term because of extenuating circumstances, and obtained agreement from the instructor and arranged for resolution of the incomplete grade. Instructors are not required to assign incomplete grades.

If make-up work requires classroom or laboratory attendance in a subsequent term, students must not register for the course again. Instead, they should audit the course and pay course fees.

If the make-up work does not require classroom or laboratory attendance, the student and their instructor should decide on an appropriate plan and deadline for completing the course.

When the course is completed, the instructor will initiate the change of grade. **These procedures cannot be used to repeat a course for a different grade**. An I grade should not be assigned to a student who never attended class; instead, instructors should assign a failing grade.

W and WF Grades

Courses dropped after drop/add and before the withdrawal deadline will be graded W. WF grades are no longer issued by the university, but in previous years they reflect courses dropped after the withdrawal deadline.
More Info (p. 1904)

Satisfactory/Unsatisfactory Grade Option | S/U

Subject to college degree program and department guidelines, students can take elective coursework and earn grades of S (satisfactory) or U (unsatisfactory). **A grade of S is equal to a C (2.0) or better**. Grades earned under the S/U option do not carry grade point values and are not computed in the University of Florida grade point average. Courses with a grade of S will count as credits earned in a degree program. Such grades are included in the student's permanent academic record and are reflected on the transcript. **After the S/U option is approved, the grade cannot revert to a letter grade**.

Other academic institutions and agencies may interpret a grade of U as a failing grade.

If a student chooses the S/U option they must be in good standing and not on university academic probation. To elect the S/U option, students must obtain the approvals indicated on the form. Students can elect the S/U option for one course only each term; this option is in addition to courses that are taught only on an S/U basis. Courses taken to fulfill the general education and the Writing Requirement cannot be taken S/U.

For Fall, Spring, and Summer C terms, the S/U option deadline is Friday of the third week of classes. For Summer A and Summer B terms, the deadline is Wednesday of the second week of classes.

H Grades

An H grade, which signifies a deferred grade assignment, is normally assigned at the end of a term when a specific course's class calendar differs from the traditional course calendar. Now that UF flexible learning courses have been incorporated into the student records system, H grades will also be assigned to students who cannot complete their flexible learning course requirements before the end of the traditional grade cycle.

While H grades for traditional courses become punitive at a date determined by the college, H grades for flexible learning coursework generally become punitive 32 weeks after course enrollment. However, any grade of H received by a degree candidate will become punitive (and calculated as a failing grade) at degree certification.

Grading Policies

Grade Point Averaging

The term *average* refers to the grade point average (GPA) for work completed in the current or most recent academic program attended at the University of Florida. Grades received at other institutions are NOT averaged with grades received at the University of Florida for the purpose of meeting university GPA requirements. Other agencies and honorary societies will compute averages in accordance with their own standards and policies. Averages are determined by computing the ratio of grade points to semester credits attempted.

Calculating the Grade Point Average

- Multiply grade value by the number of credits for total grade points.
- Divide the total number of grade points by the number of credits carried. (S/U option grades are not calculated in the GPA.)
- The GPA value is displayed to the hundredths place and not rounded up (i.e., 3.248 = 3.24).

Dismissal for Insufficient GPA

Just as a sufficient GPA is critical for academic success, an insufficient GPA could lead to dismissal from the university. Students must maintain a minimum GPA based on their cumulative UF credits to avoid dismissal and cancellation of advanced registrations.
More Info (p. 1897)

Grade Values for Conversion

Grades	Grade Points
A	4.0
A-	3.67
B+	3.33
B	3.0
B-	2.67
C+	2.33
C	2.0
C-	1.67
D+	1.33
D	1.0
D-	.67
E	0
WF	0
I	0
NG	0
S/U	0

To see calculations based upon former grade values, please refer to the 2009-10 undergraduate catalog (http://www.registrar.ufl.edu/catalog0910/policies/regulationgrades.html).

Repeat Coursework

University of Florida coursework that is repeated is counted in the computation of students' UF grade point average as many times as grades for that course are recorded, although credits will be awarded only once.

When a student earns a C (2.0) or higher in a course, they will not be allowed to repeat that course. Any exceptions to this policy must be made via an approved petition to the student's college.

If the student entered UF with credit for Advanced Placement (AP) or International Baccalaureate (IB) courses and they then repeat and pass the equivalent course at UF, they will receive a grade for the UF course and no credit for the prior work.

Grades received at other institutions will not be averaged with grades received at the University of Florida. Repeat coursework taken at the University of Florida will result in calculation of the UF grade in the UF grade point average only, with credit earned only once.

Outcomes when Repeated Coursework involves Transfer Coursework

Coursework taken at another institution and then repeated at UF

Only UF grade computed in GPA; credit earned only once.

Coursework taken at UF and then repeated at another institution

Only UF grade computed in GPA; credit earned only once.

Coursework taken and repeated at another institution

No grades will be calculated into the UF GPA and credit is awarded only once.

Repeat course equivalencies are identified based on the state's common course taxonomy. Refer to the statewide course numbering system (p. 1938) for the definition of course equivalencies.

Colleges may not accept grade points and credits earned from lower-level courses if they are taken after the student has received credit/grades for advanced courses or exam credit in the same field.

Grade Changes

Grade changes will be accepted and processed by the Office of the University Registrar for one calendar year after the term in which the course was attempted.

Any grade changes submitted after the deadline must be accompanied by additional supporting information or documentation justifying the extension and submitted to the appropriate college dean. If the dean approves the exception, they will forward an authorized grade change form to the Office of the University Registrar.

One calendar year is specified as the published grades due date of the same semester in the following year.

This policy does not apply to grades of I or I*, which designate a grade of incomplete.

Registration Policies

Course Load Requirements

The minimum full-time load for undergraduate students is 12 credits, including Summer term. Postbaccalaureate students are considered undergraduates.

Students with disabilities may be eligible for a reduced course load accommodation. This accommodation allows students full-time status at 11 credits or below.

Any questions regarding enrollment requirements for specific purposes, such as insurance or veterans' benefits should contact the relevant entity, Students receiving financial aid should refer to Financial Aid's enrollment requirements for complete information.
More Info (http://www.sfa.ufl.edu/receiving/enrollment-requirements/)

University regulations allow a maximum load of 18 credits. Some colleges have differing maximum loads; refer to the college sections for specific information.

With college approval, a student may register for less than the minimum or more than the maximum load. After drop/add, students cannot drop below the minimum load without successfully petitioning their college dean.

Simultaneous enrollment in flexible learning courses or extension work at another college or university is counted when computing the maximum course load but not the minimum course load.

Non-Degree Registration

Non-degree enrollment is restricted to participants in special programs, off-campus programs, online course offerings, university-affiliated exchange programs, and high school/college dual-credit enrollment. Special regulations govern high school/college dual enrollment for academically advanced students in Florida high schools. Non-degree enrollment is generally limited to the Summer terms.
More Info (https://registrar.ufl.edu/registration/visiting-students/non-degree/)

Undergraduate students who have been denied admission to UF for any term within the last year are not eligible for non-degree registration. If a student previously attended UF in a degree-seeking status and did not subsequently earn a bachelor's degree, they are not eligible for non-degree registration.

Non-degree enrollment is subject to the availability of faculty, space, and facilities. No application for admission is required.

UF Students Attending Other Schools

Normally, UF students are not permitted to register at another institution for a course or its equivalent that is offered at UF.
More Info (https://registrar.ufl.edu/registration/visiting-students.html)

Visiting Students Attending UF

Undergraduate students in good standing at another accredited collegiate institution can enroll full time at UF as non-degree transient students on a space-available basis to complete work to transfer back to the parent institution.
More Info (https://registrar.ufl.edu/registration/visiting-students.html)

UF will not evaluate work previously completed, and it is the student's responsibility to secure approvals required by the parent institution. Certification to Social Security and Veterans Administration programs also is the responsibility of the student, who must request each institution furnish records.

Non-degree students are subject to the following restrictions:

- Non-degree students must meet State of Florida immunization requirements.
- Course enrollment requires the approval of the college at the beginning of each term. The college of enrollment has the authority to terminate a non-degree enrollment before registration for any term. Generally, non-degree registration is for one term only. Standard non-degree seeking students must apply for each term they wish to enroll in courses as a non-degree student.
- Registration is not permitted until the last three days of the Fall/Spring drop/add period and must be completed by the end of drop/add; failure to register by that deadline will result in a late registration fee.
- Registration is not permitted until the first day of the Summer drop/add period and must be completed by the end of drop/add; failure to register by that deadline will result in a late registration fee.
- The same grading system is applicable to degree and non-degree students. Non-degree credit may be applicable to a UF degree upon subsequent admission to degree status and determination of appropriate application of such credit in the student's degree program. Authorization to enroll as a non-degree student in no way implies future approval for admission as a degree-seeking student.
- Non-degree enrollment status will be denied to any student under suspension or dismissal from a postsecondary institution or not in good standing at any institution previously enrolled, including UF, even if the student has subsequently attended another institution. Non-degree students are subject to other regulations and restrictions imposed by the college or department in which they wish to enroll.
- Non-degree students taking courses at the university will be required to register for and to attend classes under the university calendar. Non-degree students must pay appropriate UF fees based on course level, number of credits and residency status.

Auditing Courses

Auditing a course is approved on a space-available basis. In addition to paying tuition and fees, the student must obtain approvals from both the instructor and dean of the college offering the course. Immunizations also are required, regardless of on-campus or online offering status.
More Info (https://registrar.ufl.edu/registration/audit/)

Audited courses are reflected on the academic transcript with a grade value of AUD.

Students auditing a course to complete course requirements should refer to Grades and Grading Policies.
More Info (p. 1915)

Transfer Credit

Credit is awarded for college-level coursework completed at a US institution of higher education accredited by agencies or associations recognized by the U.S. Department of Education or its equivalent from a foreign institution.

Courses completed with grades of D or higher at institutions fully accredited by a national accrediting agency recognized by the United States Department of Education that participate in the statewide course numbering system and that reasonably parallel the curriculum at this university will be accepted for transfer credit as hours earned.

Courses must be similar in nature and content to courses in the UF undergraduate curriculum to be transferred. Courses that are remedial, technical, vocational, or doctrinal in nature are not transferable to an undergraduate degree. It is the prerogative of the student's UF college to determine how transfer credits apply to a degree. Students should expect to receive 60 transfer credits with an AA degree from a Florida public community/state college.

Junior/senior-level (courses numbered 3000-4000) course requirements for the major must be completed at UF or, with permission of the student's UF college, at another accredited baccalaureate degree-granting institution. Refer to Residence Requirements for additional policy regarding graduation requirements.
More Info (p. 1902)

Students are required to submit final official transcripts from all institutions attended before or during their enrollment at UF.

Failure to declare attendance at another institution can invalidate admission to UF and any credits or degrees earned.

Student Classifications

Student Classifications

Classification	Explanation
Non-degree	Special transient students, qualified high school students, students seeking only a certificate, and other non-degree students permitted to register at UF
Freshman	Students with fewer than 30 credits earned
Sophomore	Students who have earned 30 credits and who have fewer than 60 credits
Junior	Students who have earned 60 credits and have fewer than 90 credits
Senior	Students who have earned 90 credits or more
Fifth Year	Students who have earned 120 credits or more and who are candidates for a degree in a program that normally requires 10 semesters
Post-Bac Undergraduate	Degree-holding students who have been admitted to postbaccalaureate status
Graduate-7	Graduate students seeking a first master's degree
Graduate-8	Graduate students who have earned a master's degree, or who have earned 36 or more credits while seeking a graduate degree, who have not been admitted to doctoral candidacy
Graduate-9	Graduate students who have been admitted to doctoral candidacy

Transcript Policies

Transcript Policies

The Office of the University Registrar maintains all students' academic records. At the end of each term of enrollment, students can view their grades, cumulative credits earned, grade points, probationary status and degrees earned, if any, on ONE.UF.
More Info (https://one.uf.edu/)

The University of Florida transcript is the comprehensive record of academic/for credit courses taken at UF, credit earned by examination, university-level honors, academic credentials and degrees awarded. The student's legal name will appear on the transcript as it appears on their university record.

Transcripts can only be ordered online on ONE.UF. Payment must accompany each transcript order. Current and former students will need a valid GatorLink account (with an active username and password) to order an official transcript or to view and print an unofficial copy of their UF transcripts on ONE.UF. The unofficial copy of the UF transcript may not be accepted by other institutions or potential employers.
More Info (https://one.uf.edu/)

The university maintains the right to withhold release of a transcript if a student has an outstanding financial obligation to the university. To reflect a complete academic record for undergraduate, graduate, and professional students, the university will issue complete transcripts only. Transcripts do not differentiate between degrees or courses taken in a classroom or online format.

Dates and Deadlines

All deadlines are effective at **11:59 p.m**. on the last date unless indicated otherwise. If submitting a form to the Office of the University Registrar, use the Secure Upload Portal.

More Info (https://studentlife.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0026)

Campus Facilities

Newell Hall

Originally built in 1909, Newell Hall is the 3rd oldest building on campus. The facility was renovated to create a state-of-the-art active learning environment for both undergraduate and graduate students. It provides a high-tech, collaborative environment with open plan study rooms to foster a creative environment focused on innovation, flexibility, and accessibility.
Map (http://campusmap.ufl.edu/?loc=0013)

Reitz Student Union

The Reitz Union is the University of Florida's student union. The Reitz Union offers programs and services that create a unique Gator student experience. The facility is home to the Arts & Crafts Center, Game Room, Reitz Union Hotel, The Gallery, and Office of Event Services. It is also home to the Brown Center for Leadership & Service, the Career Connections Center, GatorWell Health Promotion Services, Machen Florida Opportunity Scholars, Student Engagement, Sorority & Fraternity Life, Student Government, Student Legal Services, UF Bookstore, Reitz Union Barbershop, SG Bike Repair, study spaces, meeting rooms, dance studios, lounge spaces and more.#
More Info (https://union.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0686)

Ben Hill Griffin Stadium

Ben Hill Griffin Stadium, or *The Swamp*, is widely recognized as one of the toughest environments for a visiting team in all of college football. Several facelifts after the stadium's original construction in 1930 have made Florida Field at Ben Hill Griffin Stadium a state-of-the-art facility. *The Swamp* is the largest stadium in the state of Florida.
More Info (https://floridagators.com/facilities/?id=1) Map (http://campusmap.ufl.edu/?loc=0157)

Florida Museum of Natural History

The Florida Museum of Natural History has been inspiring people to value and protect the biological richness and cultural heritage of our diverse world for more than a century. Located on the University of Florida campus, the Florida Museum is home to more than 40 million specimens and artifacts, one of the nation's largest natural history collections.
More Info (http://www.flmnh.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0181)

Harn Museum of Art

The Samuel P. Harn Museum of Art, with 18,000 square feet of exhibit space, is one of the largest museums in the Southeast. The Curtis M. Phillips Center for the Performing Arts attracts world-class symphony orchestras, Broadway plays, operas, and large-scale ballet productions to Gainesville.
More Info (http://harn.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0309)

O'Connell Center

The Stephen C. O'Connell Center covers three acres and is used by the university for classes, intercollegiate sports, general recreation, and a variety of other entertainment events. An Olympic-sized swimming pool, dance studio, gymnastics studio, martial arts room, free style weight room, Nautilus center, track, badminton, volleyball courts, and practice basketball court are located in and around the perimeter of the 12,000-seat main arena. The versatility of this facility permits as many as eight recreational activities to be conducted simultaneously. All recreational, educational and entertainment facilities within the O'Connell Center have been designed to accommodate persons with disabilities.

Campus Safety and Security

Contact: Email (wbarber@ufl.edu?Subject=Campus%20Safety%20and%20Security) | 352.273.3309

The University of Florida is one of the largest institutions of higher education in the nation. The university community is not unlike many other municipalities, and as such, has the same safety and security concerns as Anytown, USA.

The University of Florida Police Department (UFPD) recognizes that it must maintain the safest and most secure environment possible for all students, faculty and staff, and campus visitors. The UFPD has the utmost concern for personal and property safety, but with an open campus environment, safety becomes a shared responsibility.

The UFPD is a state of Florida and nationally accredited law enforcement agency. There are more than 90 fully certified and sworn officers who patrol the UF campus and its surrounding properties 24 hours per day, every day. The department has its own Criminal Investigations Division employing highly trained detectives to investigate any reported crime on campus. The officers of the Uniformed Patrol Division are highly trained campus law enforcement professionals who are equipped with the most contemporary crime-fighting techniques and tools. The Community Services Division is proactive in providing everyone in the campus community with the very latest information regarding personal and property protection through classes, programs and documents.

Career Connections Center

The Career Connections Center (C3) is the University of Florida's comprehensive career services operation responsible for providing world class career and professional development for all students. As the # 2 Career Center in the country according to Best Colleges, the C3 prepares students for contributions in work, citizenship, and life. The center supports the overall student experience starting during Preview and moving beyond graduation.

The C3's mission is to educate and create connections for the University of Florida community to facilitate the holistic career development of students. The center provides a variety of services, tools, networks, and events for UF students and alumni. Whether exploring career options, developing professional skills, finding meaningful experience, or preparing for life after graduation, the C3 is there to help students on their unique journey. Through the university's Career Pathways initiative, students can access customized information, connections, and programs to personalize their professional development experience and community.

It's recommended that UF students engage early and often with the Career Connections Center to enhance their University of Florida experience and post-graduation success.

Visit the Career Connections Center to:

- Assess skills and interests to help select a major
- Explore various career options
- Secure internships and other work experience before graduating
- Conduct mock interviews
- Prepare for graduate school
- Start a job search
- Create a Gator CareerLink to explore internships and full-time positions
  More Info (https://career.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0686)

Counseling and Wellness Center

As the primary provider of mental health services on campus, the Counseling and Wellness Center (CWC) offers high quality counseling care, including clinical and outreach services. All the center's programs and services are designed to help students develop the personal awareness and skills necessary to take advantage of the educational opportunities at the university.

Students can access crisis support services 24/7 via the CWC's main phone line or walk-in to the 4th floor of Peabody Hall to be seen in person. Other clinical services, including group counseling, short-term individual counseling, and case management, are offered virtually or in-person at the CWC's Radio Road office (3190 Radio Road). These services are covered for all currently enrolled students who have paid the health fee.

To initiate clinical services, students can schedule a brief consultation online or by phone to meet with a member of the CWC's Consultation and Referral Team (CART) who will evaluate their needs and help connect them to appropriate resources.

The CWC's Outreach Program offers a wide range of developmental, supportive, and preventative services that are accessible without a brief consultation or appointment. These services include workshops and events, Gator-2-Gator (a peer support program), ASK IT! (Q&A service), and Letters of Care; in addition to, focused programming for specific populations (UFGIFT, ASPIRE, and Geeky Gator Wellness).
More Info (http://www.counseling.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0081) | 352.392.1575

Dean of Students

The Dean of Students Office in 202 Peabody Hall provides programs and services to support student's academic success and personal development.
More Info (http://www.dso.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0004)

Campus Assistance & Resources for Empowerment

Campus Assistance & Resources for Empowerment (C.A.R.E.) is an area within the Dean of Students Office that supports and guides every Gator through anticipated challenges and unexpected events that may impact their wellness or success. CC.A.R.E. includes case management services, the medical petition and withdrawal process, the Collegiate Veterans Success Center, and the Hitchcock Field and Fork Pantry—all dedicated to helping students meet their basic needs and achieve academic and personal success.
More Info (https://care.dso.ufl.edu/)

Collegiate Veterans Success Center
As a veteran-friendly campus, it's important to provide a place for student veterans to meet, study, and spend time in a safe and relaxing environment. Ranked among the top centers for veterans in the country, the UF Collegiate Veteran's Success Center provides ongoing support for UF student veterans, service members, and their family members.
More Info (https://veterans.dso.ufl.edu/)

The Alan and Cathy Hitchcock Field and Fork Pantry
The Alan and Cathy Hitchcock Field & Fork Pantry is a free food pantry open to any current student, faculty, or staff member experiencing food insecurities. The pantry offers supplementary staples such as bread, nonperishable canned items, frozen meats, and seasonal produce from the on-campus Field & Fork Farm and Garden.
More Info (https://pantry.fieldandfork.ufl.edu/)

U Matter, We Care
At UF, every Gator counts. U Matter, We Care serves as UF's umbrella program for UF's caring culture and provides students in distress with support and coordination of the wide variety of appropriate resources. Families, faculty, and students can contact U Matter, We Care seven days a week for assistance for students in distress.
More Info (https://umatter.ufl.edu/) Email (umatter@ufl.edu)

Emergency Response
Coordinates the university's response to student emergencies and crises. Assistance for students in distress is available seven days a week.

Center for New Student and Family Programs
Organizes first-year experiences and new student programs including UF's new student orientation, Preview and First Year Floria, a one-credit course for first-year students to help them adjust to their new home.
More Info (http://welcome.ufl.edu/)

Student Conduct and Conflict Resolution
Administers the university's student conduct code and academic honesty guidelines.
More Info (https://sccr.dso.ufl.edu/)

Medical Withdrawals
Conducts the petitions process for students who withdraw from the university for medical reasons.
More Info (https://care.dso.ufl.edu/medical-petition-portal/)

Disability Resource Center
The Disability Resource Center works with thousands of Gators with disabilities and goes beyond access by removing barriers and engaging with faculty and staff to promote an accessible campus community for all.

In addition to accommodations, the Disability Resource Center provides:

- Support Services
- Assistive Technology
- Student Involvement Opportunities
- Events
- Scholarships
- And so much more!

Contact: Email (DRCaccessuf@ufsa.ufl.edu) | 352.392.8565
More Info (https://disability.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0020)

Florida Fresh Dining
Florida Fresh Dining at the University of Florida is the official food service provider for the university and offers several meal plans (https://dineoncampus.com/UF/meal-plan-options/).
More Info (https://dineoncampus.com/uf/)

GatorLink | GatorOne Card | UFID
GatorLink
GatorLink establishes a unique computer identity for every student. The GatorLink account provides access to all online services and creates the UF **"username@ufl.edu"** email address.
More Info (https://it.ufl.edu/helpdesk/self-help/gatorlink-account-resources/)

All students must maintain and regularly check their GatorLink email as this is where all official university communications are sent.

GatorOne Card

The GatorOne card is the official university photo ID. The ID Card Services office is located on the ground floor of the UF Bookstore and Welcome Center complex on Museum Road.
More Info (https://businessservices.ufl.edu/services/gator-1-card/)

All enrolled students, faculty and staff must have this card to:

- Enter CIRCA computer labs, university libraries, the infirmary, recreation centers.
- Sign up for intramural sports activities.
- Participate in the textbook deferment program at the UF Bookstore.
- Purchase tickets to university events.
- Vote in Student Government elections.
- Purchase food on campus with a Gator Dining or prepaid vending account.
- Use as an ATM/debit card when activated through Wells Fargo Bank.

UFID

UFID is an eight-digit number that serves as the primary identifier for all university records and transactions. Like a social security number, no two people will have the same number, and each person has only one. The UFID is assigned by the university, not chosen like a PIN. All students, faculty and staff have UFIDs, and the number is printed on the GatorOne card.
More Info (http://identity.it.ufl.edu/process/uf-identifier/)

Housing and Residence Life

Welcome to where Gators live at the University of Florida. On-campus living means students are in on all the action and seconds away from everything as they get involved, build the path to their successful future, and make connections that will last a lifetime. UF Housing offers various living options for all students. Don't wait to apply! Housing is not reserved for first-year students, so applying early allows you to secure your spot in line for your room selection.

- Living Options (https://housing.ufl.edu/living-options/)
- Apply for Housing (https://housing.ufl.edu/apply/how-to-apply/)
- Off-Campus Housing Information (https://offcampus.ufl.edu/)

More Info (https://housing.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0753)

Student Engagement

Student Engagement is dedicated to creating opportunities for all areas to find and build community. Within the are the offices of Campus Engagement (oversees student government advising, campus events, and traditions), Community & Belonging (offers programs, services, and engagement opportunities for all students and student organizations), Sorority & Fraternity Life (https://greeks.ufl.edu/) (provides guidance, education, and support to the Florida Greek community), and Student Legal Services (https://studentlegalservices.ufl.edu/) (assists student with a wide range of legal needs).

More Info (http://catalog.ufl.edu/UGRD/student-life/studentengagement.ufl.edu)

Student Financial Aid and Scholarships

The Office of Student Financial Aid and Scholarships (SFA) in S107 Criser Hall administers financial aid programs. SFA awards aid according to financial need.
More Info (http://www.sfa.ufl.edu/)

Financial Aid

Financial aid is money provided to students and their families as gift aid (scholarships, grants) or self-help programs (loans and/or work) to help pay college costs. Financial aid can be awarded singly (one type of aid) or as a package.
More Info (http://www.sfa.ufl.edu/programs/)

Grants

Grants are awarded based on financial need. The largest grant program at UF is the Federal Pell Grant. Other grants include Federal Supplemental Educational Opportunity Grants, Teacher Education Assistance for College and Higher Education (TEACH) Grant, Florida Student Assistance Grants, UF Excellence Grant, UF Undergraduate Grant and UF Graduate Grants.
More Info (http://www.sfa.ufl.edu/programs/grants/)

Scholarships

Scholarships are awarded based on academic performance and /or financial need. Most scholarships are awarded through the SFA and individual UF colleges. SFA administers a limited number of scholarships from private donors.
More Info (http://www.sfa.ufl.edu/programs/scholarships/)

Student Employment
Federal Work-Study jobs may be awarded by SFA to students with demonstrated financial need as part of an aid package. Other job programs, such as OPS employment, do not require financial need and are open to any student with the desire to work who meets the basic criteria of half-time enrollment and a 2.0 GPA. Student jobs usually are 15-20 hours a week and pay at least minimum wage.
More Info (http://www.sfa.ufl.edu/programs/employment/)

Loans
Loan programs include Federal Direct loans, Federal Direct Unsubsidized loans, Federal Direct PLUS loans, and UF institutional loans. These programs offer long-term, low-interest loans that must be repaid when the borrower graduates, withdraws, or drops to less than half-time enrollment. Parents of dependent undergraduate students can take out educational loans through the Federal Direct PLUS loan program.
More Info (http://www.sfa.ufl.edu/programs/loans/)

When to Apply
The Free Application for Federal Student Aid (FASFA) is available October 1 each year. Although SFA cannot award financial aid until students have been admitted to UF, they should apply for aid as soon as possible on or after October 1.

- How to Apply for Financial Aid (http://www.sfa.ufl.edu/applying/)
- Enrollment Requirements for Financial Aid (http://www.sfa.ufl.edu/receiving/enrollment-requirements/)
- How to Apply for Student Employment (http://www.sfa.ufl.edu/programs/employment/)

Financial Aid Academic Progress Requirements
UF students receiving financial aid are required to be in good standing and to maintain satisfactory academic progress.
More Info (http://www.sfa.ufl.edu/additional/academic-progress/)

Recreational Sports
With a vibrant student community and ample sunshine, campus life revolves around recreation. With a wide offering of intramural sports, holistic wellness services, and its very own lakefront, UF RecSports is the premier destination for Gators seeking to get an active lifestyle. RecSports offers experiences that enrich the lives of University of Florida students through excellence in facilities, fitness, sport, adventure, and play. RecSports enhances the UF community by encouraging the development of the whole person, inspires self-discovery, and fosters a sense of belonging through inclusive recreational experiences.
More Info (http://www.recsports.ufl.edu/) Locations (http://recsports.ufl.edu/locations/)

Student Health Care Center
More Info (http://shcc.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0018)

General Information and Helpful Links
Appointments, Hours and Locations, Excuse Notes, Fees for Services, and more.

The Student Health Care Center (SHCC), established in 1906, is an accredited outpatient clinic staffed by licensed, board-certified medical providers who pride themselves on keeping UF's students, faculty, and staff healthy through a variety of primary and specialty care services, including general medical care, immunizations, dermatology, massage therapy, nutrition, occupational medicine, physical therapy, sports medicine, travel, women's health and workers compensation. The SHCC also conducts the annual campus flu shot campaign.
More Info (http://shcc.ufl.edu/services/primary-care/flu/)

All registered UF students paying the tuition-included health fee may access SHCC services. If a student takes time off (for example, no Summer classes), they must pay the per-semester optional health fee to receive care, which covers the costs associated with most SHCC office visits but is not considered health insurance. Items not covered by the health fee that patients are financially responsible for include, but are not limited to, health insurance, hospital visits, external community providers/facilities, physicals, procedures, X-rays, lab tests, medical equipment, prescriptions, non-prescription medications, vaccinations, massage, and physical therapy.

In addition to university-sponsored insurance plans, the SHCC can direct-bill many private insurance companies for covered medical charges. Visit the SHCC's Health Insurance Options for more information on private insurance usage and verification, as well as current university-sponsored insurance details.
More Info (http://shcc.ufl.edu/fees-and-insurance/health-insurance-options/)

UF Bookstore and Welcome Center
Bookstore
The University of Florida Bookstores are in the UF Welcome Center on Museum Road just next to the Reitz Union, in the Health Science Center and in the College of Veterinary Medicine. UF Bookstores offer new and used textbooks, school supplies, gifts, and clothing. Bookstore programs include textbook reservations and a 50% guaranteed book buyback.
More Info (http://www.bsd.ufl.edu/bookstore/) Map (http://campusmap.ufl.edu/?loc=0886)

Welcome Center

The UF Welcome Center is within the main UF Bookstore next to the Reitz Union. The Welcome Center is maintained by the Office of Admissions and is the university's front door to visitors, providing weekday and Saturday information sessions and walking tours of campus.
More Info (http://www.admissions.ufl.edu/visit.html)

Courses

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

About Courses

Statewide Course Numbering System

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida's Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and 27 participating non-public institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions.
More Info (https://flscns.fldoe.org/)

Each participating institution controls the title, credit and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of

faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated numbers is referred to as the *SCNS taxonomy*. Descriptions of the content of courses are referred to as *statewide course profiles*.

Example of Course Identifier

Prefix	Level Code (1st digit)	Century Digit (2nd digit)	Decade Digit (3rd digit)	Unit Digit (4th digit)	Lab Code
ENC	1	1	0	1	
English Composition	Lower (Freshman) Level at this institution	Freshman Composition	Freshman Composition Skills	Freshman Composition Skills 1	No laboratory component in this course

General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and the same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in *Exceptions to the General Rule for Equivalency*.

For example, a freshman composition skills course is offered by 59 different postsecondary institutions. Each institution uses ENC_101 to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, ENC means English Composition, the century digit 1 represents Freshman Composition, the decade digit 0 represents Freshman Composition Skills and the unit digit 1 represents Freshman Composition Skills 1.

In the sciences and certain other areas, a C or L after the course number is known as a lab indicator. The C represents a combined lecture and laboratory course that meets in the same place at the same time. The L represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at the community college is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101.

Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent.

Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter credits often transfers as 2.67 semester credits.

About the Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states: Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions.

Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions and participating non-public postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or non-public control of the previous institution.

The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

Exceptions to the General Rule for Equivalency

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.

- Courses not offered by the receiving institution
- For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course in question
- Courses in the _900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Theses and Dissertations.
- College preparatory and vocational preparatory courses
- Graduate courses
- Internships, apprenticeships, practica, clinical experiences and study abroad courses with numbers other than those ranging from 900-999.
- Applied courses in the performing arts (Art, Dance, Interior Design, Music and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.).

Courses at Non-regionally Accredited Institutions

The SCNS makes available on its home page (in the Latest News box) a report entitled Courses at Non-regionally Accredited Institutions that contains a comprehensive listing of all non-public institution courses in the SCNS inventory, as well as each course's transfer level and transfer effective date. This report is updated monthly.
More Info (https://flscns.fldoe.org/)

Accounting

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

School Information

Accounting at UF traces its roots back to 1923 when the first accounting course was offered. In 1977, the School of Accounting was established as an experimental model for six years. In 1983, the UF Faculty Senate voted to make the School permanent. In 1985, the School was renamed the Fisher School of Accounting after a generous donation from 1959 alumnus Fred Fisher. Today, the Fisher School has cultivated a distinctive identity at the University of Florida and among the nation's top business programs.

Grading Scheme: Letter Grade
Create concepts through hands-on experiential learning while working on typical ad agency projects. Explores all the traditional media: TV, radio, print, OOH, guerrilla, and in-store pieces.
Prerequisite: Advertising major and minimum grades of C in VIC 3001 and ADV 3001;
Corequisite: ADV 4101.

ADV 4800 Advertising Campaigns 3 Credits
Grading Scheme: Letter Grade
An advanced advertising course requiring the student to prepare and produce a complete general advertising campaign. Emphasis is placed on production methods, costs, research and media analysis.
Prerequisite: 4JM ADV; minimum grades of C or better in ADV 4101 and ADV 4300.

ADV 4801 Sports Advertising Creative Campaigns 3 Credits
Grading Scheme: Letter Grade
Students create a competitive creative campaigns for a sports-related client. Students hone creative skills and learn to prepare professional pitches or presentations.
Prerequisite: ENC 3252 and ADV 3001 and ADV 3500, all with minimum grades of C.

ADV 4905 Individual Problems 1-3 Credits
Grading Scheme: Letter Grade
The student and instructor will choose a problem or project which provides experience in the student's major.
Prerequisite: 3JM ADV; at least 10 credits of 3000/4000-level advertising courses and department permission.

ADV 4910 Advertising Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Mentored but self-directed work enables individuals or small groups to explore an issue of interest to them and to communicate their results to others. Depending on the topic, projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: ADV 3500 with a minimum grade of C.

ADV 4930 Special Study in Advertising 2-3 Credits
Grading Scheme: Letter Grade
Variable advertising-related topics not covered in other advertising courses.
Prerequisite: ADV 3008 and MAR 3023 with minimum grades of C and Advertising major of junior standing or higher.

ADV 4931 Seminar: Ethics and Problems in Advertising 3 Credits
Grading Scheme: Letter Grade
Major concepts and issues in the effects of advertising on society, culture, and the economy with emphasis on ethical systems and ethical decision making.
Prerequisite: 3JM ADV; minimum grade of C in MMC 3203

ADV 4940 Advertising Internship 1-4 Credits
Grading Scheme: S/U
Complete an internship in advertising or related field with supervised on-the-job training. Requires 65 hours of work per credit, weekly progress reports, a summary report, and a supervisor's evaluation.
Prerequisite: (ADV 3008 and MAR 3023 and ENC 3252 and SPC 2608) or ORI 2000 with minimum grades of C and ADV major with a 2.50 minimum major GPA and department permission.

ADV 4941 Advanced Advertising Internship 1-3 Credits
Grading Scheme: Letter Grade
Structured internship program that is approved by the department as an immersion experience related to the field of advertising. Requires 65 hours of work per credit and submission of electronic portfolio, including a culminating project from the internship.
Prerequisite: ADV 3008 and MAR 3023 and ENC 3252 and SPC 2608 or ORI 2000 with minimum grades of C and ADV major with a 2.50 minimum major GPA.

ADV 4950 Advertising Portfolio II: Beyond Traditional Media 3 Credits
Grading Scheme: Letter Grade
Portfolio II builds on Portfolio I. It is a hands-on, experiential learning course. Students create concepts and typical ad agency projects beyond traditional media and single executions. Students create integrated, experiential, digital, and shopper marketing campaigns.
Prerequisite: ADV 4710 with a C or better and department permission and Advertising major. Co-req: ADV 4304.

ADV 4951 Advertising Portfolio III 3 Credits
Grading Scheme: Letter Grade
Continues the development of professional-level advertising portfolios and emphasizes the mastery of strategic, creative, and conceptual thinking. Creative professionals will review portfolios. Students will also enter creative advertising-student competitions to showcase their work.
Prerequisite: ADV 4950 with a minimum grade of C and Advertising major and department permission.

COM 2380 Collaboration With AI for Better Communication 3 Credits
Grading Scheme: Letter Grade
This course is centered around two pivotal questions in the realm of modern communication: “How can we communicate effectively in a world with AI?” and “How can AI tools be utilized for effective communication and collaboration for better social decisions?” It aims to explore both the positive potential and the challenges posed by AI in professional/science communication, fostering a balanced and critical understanding of these tools. Emphasizing its interdisciplinary nature, this course explores the impact of AI on social institutions, structures, and processes, highlighting the intersection between technology and social science. Students will engage with key themes, principles, and methodologies used in social and behavioral sciences, applying them to understand and navigate the AI-influenced communication landscape.
Attributes: Quest 2, Artificial Intelligence, General Education - Social Science

COM 3251C STEM Research and Application 3 Credits
Grading Scheme: Letter Grade
Immersive experience to understand fundamental aspects of translational health communication research. Learn through structured readings, class discussions and applications, and guest lectures. Pays special attention to communicating health/science research to diverse audiences.
Prerequisite: junior status or higher.

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources, and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2100 Writing for Mass Communication 3 Credits
Grading Scheme: Letter Grade
A preprofessional course designed to provide fundamental instruction and practice in writing as a basis for upper-division courses in advertising, journalism and public relations. Stresses the basic similarities in writing for all mass media. (WR)
Prerequisite: Journalism and Communications major and 6 credits of English.
Attributes: Satisfies 6000 Words of Writing Requirement

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: Journalism and Communications major of junior standing or higher.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: Journalism and Communications major of sophomore standing or higher and (ADV 3008 or MMC 1009 or MMC 2604 or PUR 3000 or RTV 3001 with minimum grade of C).

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans, and study social media strategies.
Prerequisite: sophomore standing or higher.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

Curriculum

- African American Studies
- African American Studies Minor

Courses

AFA 2000 Introduction to African American Studies 3 Credits
Grading Scheme: Letter Grade
This course explores the broad and deep experiences of Africans in America, beginning in Africa, the birthplace of civilization and humanity. Utilizing an interdisciplinary approach, we will examine the political, cultural, economic, artistic, and social themes that have shaped African American realities. The curriculum emphasizes high-level academic and critical thinking skills, ensuring students develop a broad foundational knowledge. It includes historically accurate content that promotes an understanding of the constitutional republic, the historical background, and the philosophical foundations of Western civilization, including key documents such as the Declaration of Independence, the United States Constitution, and the Federalist Papers. This course meets the general education standards and competencies required for informed citizenship and lifelong learning.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AFA 2151 Surveying African-American Culture 3 Credits
Grading Scheme: Letter Grade
In-depth exploration of the rich and vast cultural heritage of African Americans. An interdisciplinary approach examines various modes of expression such as art, literature, music, sports, fashion, and social movements that have shaped African American culture from its roots in African aesthetics to modern-day popular culture. Highlights the significant contributions of African Americans to American culture, much of which are inspired by the pursuit of freedom, equality, and justice.

AFA 2390 Race and Sports in America 3 Credits
Grading Scheme: Letter Grade
Examine race, racism, and racialization in the sporting context in order to understand many salient issues in American society such as nationalism and patriotism, capitalism, sexism, oppression, etc. See the ways sports influence racial ideologies as well as the pervasiveness of racial oppression that exists on and off the playing field.

AFA 3110 Key Issues in African American and Black-Atlantic Thought 3 Credits
Grading Scheme: Letter Grade
The leading voices of resistance and social change that have influenced African American intellectual history, black public consciousness, political action and social theory.
Prerequisite: AFA 2000.
Attributes: Satisfies 6000 Words of Writing Requirement

AFA 3223 African American History: 1865 to Today 3 Credits
Grading Scheme: Letter Grade
Examines the history of African Americans in the United States from the end of the Civil War in 1865 to the present day. Through readings, lectures, discussions, and research, explores the major political, social, and cultural events and movements that have shaped the lives of African Americans during this period.
Prerequisite: AFA 2000.

AFA 3240 The African Diaspora 3 Credits
Grading Scheme: Letter Grade
Overview of transnational fields of cultural contact, power and competing economic interests in which the African Diaspora developed.
Prerequisite: AFA 2000.
Attributes: Satisfies 6000 Words of Writing Requirement

Critically examine various themes presented in the television show, The Wire. Major topics include the illegal drug trade, race and ethnicity, sexuality, public policy and politics, K-12 education, and the news media.
Prerequisite: AFA 2000.
Attributes: Satisfies 6000 Words of Writing Requirement

AFA 3332 Black Feminist and Womanist Theory 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary survey of African American and Afro-descendant women's contributions to feminist theory.
Prerequisite: 3 credits of AFA at the 2000 level or above.
Attributes: Satisfies 6000 Words of Writing Requirement

AFA 3333 Black Power Movement 3 Credits
Grading Scheme: Letter Grade
An examination of the Black Power Movement, including major themes, roots in previous black organizing, associated groups and figures, and its influence on present society and activism.
Prerequisite: AFA 2000.

AFA 3342 African Diaspora, Women, and Medicine 3 Credits
Grading Scheme: Letter Grade
Analyzes the history of African and African American healing traditions in medicine, beginning in West Africa and ending in the United States, paying particular attention to the role of women in ethnomedical traditions.
Prerequisite: Any AFA course or any WST course or any HIS course.

AFA 3350 Black Masculinity 3 Credits
Grading Scheme: Letter Grade
Integrated interdisciplinary exploration of selected themes and resources that represent the Black Masculine experience in North America, emphasizing continuity and change. (WR)
Prerequisite: AFA 2000
Attributes: Satisfies 6000 Words of Writing Requirement

AFA 3354 Race, Religion, and Rebellion 3 Credits
Grading Scheme: Letter Grade
Examination of the interplay of religion, race, and rebellion in the organization and execution of the various revolts, insurrections, and social movements of black people in the US from the slavery period through the Civil Rights and Black Power Eras.
Prerequisite: AFA 2000

AFA 3356 African American Religion 3 Credits
Grading Scheme: Letter Grade
Explores the African American religious experience from the beginning of the African sojourn here in North America until the present.
Prerequisite: AFA 2000

AFA 3357 Civil Rights and Religion 3 Credits
Grading Scheme: Letter Grade
Examination of the role of religion in the African American Civil Rights Movement from the 1950s through the 1980s.
Prerequisite: AFA 2000

AFA 3360 Archaeology of African American Life and Culture 3 Credits
Grading Scheme: Letter Grade
Historical overview of African American archaeology, including important cases, key figures, major issues, and development of the field.
Prerequisite: AFA 2000.

AFA 3363 The Black Experience: Psychological Perspectives 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary examination of themes, premises, and theories presented by major psychological theorists in their depictions and accounts of the behavior of Black people in America; the growth of Black psychology.
Prerequisite: AFA 2000.
Attributes: Satisfies 6000 Words of Writing Requirement

Examines the blossoming of hip-hop as a musical genre and as a cultural and political youth movement from the 1970s to the present, extending from its origins in New York city to the rest of the nation and the world.
Prerequisite: AFA 2000.

AFA 3553 Science, Technology, and Race 3 Credits
Grading Scheme: Letter Grade
Examines historical and contemporary construction of the concept of race within scientific theories and ideologies. Explores the role race plays in scientific and technological cultures.
Prerequisite: AFA 2000.

AFA 3840 Black Digital Humanities 3 Credits
Grading Scheme: Letter Grade
Introduces Black Digital Humanities as a discipline. Examines Black life using computational tools, methods, and approaches combining computational and humanistic inquiry. Explores different modes of inquiry through readings, lectures, discussions, and research.
Prerequisite: AFA 2000.

AFA 3850 Research Methods in African American History 3 Credits
Grading Scheme: Letter Grade
Research methods in African American history.
Prerequisite: AFA 2000 or instructor permission.

AFA 3915C Mentoring At-Risk Youth 3 Credits
Grading Scheme: Letter Grade
A community service-learning course that develops mentoring and critical-thinking skills though instruction, analysis and service. (WR)
Prerequisite: AFA 2000 or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

AFA 3930 Special Topics in African American Studies 3 Credits
Grading Scheme: Letter Grade
Lectures and seminars covering selected topics of current interests in African American studies.
Prerequisite: Junior standing or higher, or instructor permission.

AFA 4135 Theories of Black America 3 Credits
Grading Scheme: Letter Grade
A multi-disciplinary examination of some of the important theories and concepts used to explain Black social, political and cultural behavior in the United States for the past 150 years.
Prerequisite: AFA 2000.

AFA 4222 African American History: 1619 to 1865 3 Credits
Grading Scheme: Letter Grade
Explores the history of African Americans from their arrival in the United States in 1619 to the end of the Civil War in 1865. Examines the experiences of enslaved Africans and African Americans, their resistance to slavery, and the various social, cultural, economic, and political forces that shaped their lives during this time period.
Prerequisite: AFA 2000.

AFA 4224 The Black Freedom Struggle, 1946-1968 3 Credits
Grading Scheme: Letter Grade
Introduces the origins, Ideologies, strategies, and impact of the Black Freedom Struggle. Topics include an exploration of civil rights leaders, organizations, and movements in urban and rural areas. The social and political history of the Black Freedom Struggle with a focus on how historians interpreted the movement.
Prerequisite: AFA 2000 OR AMH 2020.

AFA 4225 Blacks in Florida 3 Credits
Grading Scheme: Letter Grade
Addresses the history and themes of Blacks in Florida between 1492 and 1975.
Prerequisite: AFA 2000 or instructor permission.

AFA 4352 Black Hair Politics 3 Credits
Grading Scheme: Letter Grade
Provides a comprehensive interdisciplinary examination of the history, sociology, psychology and economics of Black hair. Students will explore the textures, styles and meanings of Black hair as they relate to identity and power in society.
Prerequisite: AFA 2000.

AFA 4430 Black Lives Matter 3 Credits
Grading Scheme: Letter Grade
Examination of the particular historical, geographical, cultural, social, and political ways in which race was, and continues to be configured and deployed in the United States.
Prerequisite: AFA 2000.

AFA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
Directed individual reading or research on topics in African American studies.
Prerequisite: director permission.

AFA 4911 Undergraduate Research in African American Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides opportunity for firsthand, supervised research in areas related to African American Studies. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: 3 credits of AFA 3XXX or AFA 4XXX.

AFA 4931 Special Topics 3 Credits
Grading Scheme: Letter Grade
Selected topics in African American studies.
Prerequisite: AFA 2000.

AFA 4936 African American Studies Senior Integrative Seminar 3 Credits
Grading Scheme: Letter Grade
Examination of bibliographic resources and analysis of theory, method, and special problems in the field of African American studies.
Prerequisite: AFA 2000 and AFA 3110.
Attributes: Satisfies 6000 Words of Writing Requirement

AFA 4940 African American Studies Internship 3 Credits
Grading Scheme: Letter Grade
Complete internships with companies, individuals, institutions, or organizations whose work adds to the knowledge and well-being of the African American community.
Prerequisite: (African American studies minor or major) and AFA 2000 and at least two 3000-level AFA courses and sophomore status or higher.

AFA 4970 Honors Thesis 3 Credits
Grading Scheme: S/U
Comprehensive research paper that examines a relevant topic in the discipline of African American studies.
Prerequisite: AFA 2000.

African Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Center Information

As a National Resource Center for African Studies, the mission of the center is to promote excellence in teaching and research on Africa in all the disciplines at the University of Florida. The Center for African Studies also disseminates knowledge about Africa to the wider community through an integrated outreach program to schools, colleges, community groups, and businesses.

Curriculum

- African Studies Minor

Courses

AFS 2002 The African Experience: An Introduction to African Studies 3 Credits
Grading Scheme: Letter Grade
Introductory study of African society and culture that examines the richness, diversity, and time-depth of African civilizations.

AFS 3300 Poverty and Development in Africa 3 Credits
Grading Scheme: Letter Grade
Contemporary study of development issues in Africa, their challenges and possible solutions; theme based and includes economic development, agriculture and the environment, social issues and gender equality, and democracy and political development.
Prerequisite: (6 credits from AFS 2002 or HUM 2420 or HUM 2424 or AFH 2000) or (junior standing).

AFS 3352 Culture, Health and Arts in Sub-Saharan Africa 3 Credits
Grading Scheme: Letter Grade
Explores Sub-Saharan African cultures, health issues and belief systems related to health and the arts. Also provides a framework to better understand health and health care systems in other cultures.
Prerequisite: junior standing or 6 credits minimum from AFH 2000 or AFS 2002 or AFS 4905 or AFS 4935 or HUM 2420 or HUM 2424.

AFS 3800 Childhood in African Literature and Cinema 3 Credits
Grading Scheme: Letter Grade
Explores African conceptions of childhood through the mediums of literature and film; examines how childhood is represented in diverse African cultures.
Prerequisite: (6 credits from AFS 2002 or HUM 2420 or HUM 2424 or AFH 2000) or (junior standing).

AFS 3930 Special Topics in African Studies 3 Credits
Grading Scheme: Letter Grade
Selected variable topics in African Studies.
Prerequisite: Junior standing or higher or AFS 2002 with minimum grade of C.

AFS 4240 The African Family 3 Credits
Grading Scheme: Letter Grade
Understanding African societies south of the Sahara through the study of the functions, roles and meanings of households and families. Emphasizes diversity within and commonalities among the myriad forms of African families.
Prerequisite: (6 credits from AFS 2002 or HUM 2420 or HUM 2424 or AFH 2000) or (junior standing).

AFS 4315 Critical Issues in Contemporary Africa 3 Credits
Grading Scheme: Letter Grade
Upper-division seminar that discusses perspectives on conflict resolution, corruption, economic development, environmental management, food security, governance, international assistance, and public health in contemporary Africa. In addition, enhances skills in analysis, discussion, and debate.
Prerequisite: (6 credits from AFS 2002 or HUM 2420 or HUM 2424 or AFH 2000) or (junior standing).

AFS 4330 Women and Politics in Africa 3 Credits
Grading Scheme: Letter Grade
Introduces historical and contemporary roles of women in African political systems, from local to national governance.
Prerequisite: (6 credits from AFS 2002 or HUM 2420 or HUM 2424 or AFH 2000) or (junior standing).

AFS 4340 Community Conservation and Rural Development in Africa 3 Credits
Grading Scheme: Letter Grade
Examines the practicalities and theoretical foundations of community conservation in Africa, with particular attention on the relationship between conservation and rural development issues. Main themes include property rights, governance, and local-global relations.
Prerequisite: (6 credits from AFS 2002 or HUM 2420 or HUM 2424 or AFH 2000) or (junior standing).

AFS 4345 Political Economy of Conservation in Africa 3 Credits
Grading Scheme: Letter Grade
Analyzes effectiveness of diverse approaches to natural resource preservation and uses. Case studies are primarily from southern and eastern Africa, and readings focus on political and economic aspects of conservation strategies.
Prerequisite: (6 credits from AFS 2002 or HUM 2420 or HUM 2424 or AFH 2000) or (junior standing).

AFS 4365 Urban Africa Today 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary seminar incorporates scholarship from anthropology, geography, history, political science, sociology, and urban planning to understand African cities, their rapid growth, and their future development.
Prerequisite: junior standing or 6 credits minimum from AFS 2002 or AFS 3300 or AFS 4260 or AFS 4315 or AFS 4330 or AFS 4350 or AFS 4935.

AFS 4905 Individual Work 1-9 Credits
Grading Scheme: Letter Grade
Individual study and research for topics not covered in other courses.

AFS 4911 Undergraduate Research in African Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

AFS 4935 African Studies Interdisciplinary Seminar 3 Credits
Grading Scheme: Letter Grade
Seminar on a selected interdisciplinary theme.
Prerequisite: Junior standing or higher, or instructor permission, or instructor permission.

AFS 4940 African Studies Internship 1-3 Credits
Grading Scheme: S/U
Complements an Africa-related internship experience through guided reflection, critical analysis, synthesis, and discussion.
Prerequisite: junior standing or higher and undergraduate coordinator approval.

African | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

DEPARTMENT INFORMATION

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

- Russian Minor

Courses

General

HUM 2420 African Humanities 3 Credits
Grading Scheme: Letter Grade
Similar in philosophy and purpose to the basic sequence, with content selected from the philosophies, literature, arts, and music of various African countries and regions.

HUM 2424 African Cultures and Literatures 3 Credits
Grading Scheme: Letter Grade
A culturally based study of folktales, proverbs, drama, poetry and novels; and how these forms are used to portray African arts and ideas.

SSA 3730 Language in African Society 3 Credits
Grading Scheme: Letter Grade
The role of language in the development of African societies. Language and nation building.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit

SSA 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: department permission.

SSA 4930 Special Topics in African Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in African studies.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

SST 2501 African Elements in the Americas 3 Credits
Grading Scheme: Letter Grade
Traces African influence in the Americas from the arrival of Africans on the continent until the present.

SST 3500 Africa through Film & Media 4 Credits
Grading Scheme: Letter Grade
Explore the African continent through film and media to provide a critical analysis of issues of (mis)/representation of Africans in selected moving images and printed materials both in Africa and in diaspora.
Prerequisite: LIT 2000 or IDS 1161.

SST 4502 African Oral Literature 3 Credits
Grading Scheme: Letter Grade
An overview of African oral literature, introduces methodological and theoretical problems, and examines the sociopolitical and cultural relevance of the literature.
Prerequisite: instructor permission.

Akan

AKA 1130 Beginning Akan 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

AKA 1131 Beginning Akan 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: AKA 1130 with minimum grade of C or the equivalent.

AKA 2200 Intermediate Akan 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: AKA 1131 with minimum grade of C, or the equivalent.

AKA 2201 Intermediate Akan 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: AKA 2200 with minimum grade of C, or the equivalent.

AKA 3410 Advanced Akan 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: AKA 2201 with minimum grade of C, or the equivalent.

AKA 3411 Advanced Akan 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: AKA 3410 with minimum grade of C, or the equivalent.

Amharic

AHM 1130 Beginning Amharic 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing.

AHM 1131 Beginning Amharic 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: AHM 1130 with minimum grade of C, or the equivalent.

AHM 2200 Intermed Amharic 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: AHM 1131 with minimum grade of C, or the equivalent.

AHM 2201 Intermediate Amharic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: AHM 2200 with minimum grade of C, or the equivalent.

AHM 3410 Advanced Amharic 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: AHM 2201 with minimum grade of C, or the equivalent.

AHM 3411 Advanced Amharic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: AHM 3410 with minimum grade of C or the equivalent.

Swahili

SSW 3303 Swahili Oral Literature 3 Credits
Grading Scheme: Letter Grade
Introduces various genres of Swahili oral literatures and shows their importance, relevance, and function within Swahili culture.
Prerequisite: SWA 3410.

SWA 1130 Beginning Swahili 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

SWA 1131 Beginning Swahili 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: SWA 1130 with minimum grade of C, or S, or the equivalent.

SWA 2200 Intermediate Swahili 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: SWA 1131 with minimum grade of C or S, or the equivalent.

SWA 2201 Intermediate Swahili 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: SWA 2200 with minimum grade of C or S, or the equivalent.

SWA 3410 Advanced Swahili 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: SWA 2201 with minimum grade of C, or the equivalent.

SWA 3411 Advanced Swahili 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: SWA 3410 with minimum grade of C, or S, or the equivalent.

SWA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

SWW 4100 Readings in Swahili 3 Credits
Grading Scheme: Letter Grade
Readings in Swahili
Prerequisite: SWA 3411.

Wolof

WOL 1130 Beginning Wolof 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

WOL 1131 Beginning Wolof 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: WOL 1130 with minimum grade of C, or the equivalent.

WOL 2200 Intermediate Wolof 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: WOL 1131 with minimum grade of C, or the equivalent.

WOL 2201 Intermediate Wolof 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: WOL 2200 with minimum grade of C, or the equivalent.

WOL 3410 Advanced Wolof 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: WOL 2201 with minimum grade of C, or the equivalent.

WOL 3411 Advanced Wolof 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: WOL 3410 with minimum grade of C, or the equivalent.

Yoruba

SSA 3730 Language in African Society 3 Credits
Grading Scheme: Letter Grade
The role of language in the development of African societies. Language and nation building.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit

YOR 1130 Beginning Yoruba 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

YOR 1131 Beginning Yoruba 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: YOR 1130 with minimum grade of C or S, or the equivalent.

YOR 2200 Intermediate Yoruba 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: YOR 1131 with minimum grade of C or S, or the equivalent.

YOR 2201 Intermediate Yoruba 2 3 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: YOR 2200 with minimum grade of C or S, or the equivalent.

YOR 3410 Advanced Yoruba 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: YOR 2201 with minimum grade of C, or the equivalent.

YOR 3411 Advanced Yoruba 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: YOR 3410 with minimum grade of C, or the equivalent.

YOR 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

YOT 3500 Yoruba Diaspora in the New World 3 Credits
Grading Scheme: Letter Grade
Introduction to the scope and importance of Yoruban culture in the New World and its role and significance in the resilience of African cultures in North America, South America and the Caribbean. (WR)
Prerequisite: HUM 2420, HUM 2424, or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

YRW 4130 Readings in Yoruba Literature 3 Credits
Grading Scheme: Letter Grade
Reading skills and the analysis of literature in the original language.
Prerequisite: YOR 3411 or the equivalent.

Agricultural and Biological Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

GAINESVILLE FL 32611-0570
Map (http://campusmap.ufl.edu/#/index/0474)

Curriculum

- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

Courses

ABE 2012C Introduction to Biological Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces the process of design along with approaches to solving engineering problems, manipulations and presentations of engineering data and applied engineering concepts. (WR)
Prerequisite: MAC 2311.
Attributes: Satisfies 2000 Words of Writing Requirement

ABE 3000C Applications in Biological Engineering 3 Credits
Grading Scheme: Letter Grade
Overview of the research and applications of biological engineering, such as bioprocessing, biotechnology, transport processes, biosensors, bioremediation, biological materials and biomedicine.
Prerequisite: BSC 2010 or equivalent.

ABE 3212C Land and Water Resources Engineering 4 Credits
Grading Scheme: Letter Grade
Introduces hydrology, flow through porous media, flood routing, grade control structures and erosion control.
Prerequisite: ENV 3040C or CGN 3421 or (COP 2271 and COP 2271L) and MAP 2302.

ABE 3612C Heat and Mass Transfer in Biological Systems 4 Credits
Grading Scheme: Letter Grade
Transport phenomena, steady and unsteady-state heat conduction, radiation, free and forced convection, mass transfer, psychometrics and thermodynamics of biological processes.
Corequisite: ENV 3040C or CGN 3421 or ESI 4327C or (COP 2271 and COP 2271L).

ABE 3652C Physical and Rheological Properties of Biological Materials 3 Credits
Grading Scheme: Letter Grade
Theory and use of physical and rheological properties of biological materials in agricultural engineering applications.
Prerequisite: CHM 2045 and MAC 2313 and PHY 2048.

ABE 4008 Control Methods in SmartAg Systems 3 Credits
Grading Scheme: Letter Grade
Design, analysis, simulation, and programming modern control methods for applications in production agriculture, biological and food engineering, land and water resources. Learn theoretical concepts, application programming, and simulation techniques using classical and modern control approaches, fuzzy logic, neural networks, and other intelligent learning algorithms.
Prerequisite: MAP 2302 and PHY 2048;
Corequisite: EGM 3400.

ABE 4033 Fundamentals and Applications of Biosensors 3 Credits
Grading Scheme: Letter Grade
Provides a broad introduction to the field of biosensors, as well as an in-depth and quantitative view of biosensor design and performance analysis. Fundamental application of biosensor theory will be demonstrated, including: recognition, transduction, signal acquisition, and post processing/data analysis.
Prerequisite: MAP 2302 and BSC 2010 and CHM 2200.

ABE 4034 Remote Sensing in Engineering: Science, Sensors and Applications 3 Credits
Grading Scheme: Letter Grade
Develop an understanding of remote sensing theory, systems and applications using information obtained from the visible/near infrared, thermal infrared and microwave regions of the EM spectrum.
Prerequisite: MAP 2302 or the equivalent.

ABE 4042C Biological Engineering Design 1 2 Credits
Grading Scheme: Letter Grade
Design of engineered agricultural and biological systems and devices. Problem definition analysis, synthesis, project management, economic, environmental, and social impacts. Individual and team projects.
Prerequisite: ABE 2012C.

ABE 4043C Biological Engineering Design 2 2 Credits
Grading Scheme: Letter Grade
Senior capstone design project.
Prerequisite: senior standing (4EG), ABE 4042C and two courses in area of specialization.

ABE 4171 Power and Machines for Biological Systems 3 Credits
Grading Scheme: Letter Grade
Design and specification of power and machine elements applied to agricultural, biological and land and water resources or food engineering; fundamentals of power units, design of machine elements and power transmission.
Prerequisite: EGM 3520 and (EGM 3400 or EGM 3401).

ABE 4231C Irrigation and Drainage Engineering 4 Credits
Grading Scheme: Letter Grade
Irrigation and drainage systems design, including pump sizing and specification, water distribution systems, plant water requirement, drainage systems and flood control.
Prerequisite: ABE 3212C.

ABE 4320 Controlled Environment Agriculture Systems Design 3 Credits
Grading Scheme: Letter Grade
Introduces the engineering design of controlled-environment agriculture systems, including glazing materials selection, fan-sizing for mechanical ventilation, lighting distribution, cooling system design with fan-and-pad evaporative cooling, and heating system design with hot water floor heating.
Prerequisite: MAC 1147 and 3 credits of physics.

ABE 4413C Post-Harvest Operations Engineering 3 Credits
Grading Scheme: Letter Grade
Engineering principles and practices of post-harvest operations for the maintenance of quality of agricultural products. Design of systems and facilities.
Prerequisite: ABE 3612C.

ABE 4630 Life Cycle Assessment in Water-Energy-Food Systems 3 Credits
Grading Scheme: Letter Grade
Introduction and application of life cycle assessment (LCA) to evaluate the environmental impacts of various products, processes, or services related to the water-energy-food nexus. Additional topics include planetary boundaries, systems thinking, circular economy, mass and energy balances, life-cycle costing, social LCA and sensitivity and uncertainty analysis. This is an interdisciplinary course open to students from any major.
Prerequisite: MAC1147 with a minimum grade C and Junior Standing or higher.

ABE 4641 Modeling Coupled Natural-Human Systems 3 Credits
Grading Scheme: Letter Grade
Explore approaches to modeling coupled natural-human systems, drawing from both natural and social sciences. Topics include regime shift from dynamical systems and basic concepts from game theory and social-ecological system literature. These are combined in models that operationalize a conceptual framework. With guidance, develop models for final projects.
Prerequisite: MAC 2312 or equivalent.

ABE 4655C Bio-Based Products from Renewable Resources 3 Credits
Grading Scheme: Letter Grade
Provides the knowledge for the production of fuels, chemicals, and materials from renewable resources; includes the fundamental principles and practical applications of bio-based products: biorefinery and biobased products overview, fundamental concepts in understanding biorefinery and biobased products; materials, chemical platforms, and fuels from biomass.
Prerequisite: (CHM 2045 or CHM 2095) and (CHM 2046 or CHM 2096) or equivalent general chemistry courses or instructor permission.

ABE 4662 Quantification of Biological Processes 3 Credits
Grading Scheme: Letter Grade
Quantitative description and analysis of biological processes pertaining to microbes, plants, animals and ecosystems. Biological transport phenomena, bioenergetics, enzyme kinetics, metabolism, bioregulation, circulatory and muscle systems, agroecosystems. Analytical and experimental laboratory for development of quantitative skills.
Prerequisite: (ABE 2062 or BSC 2010) and (EGN 3353C or CWR 3201).
Attributes: Artificial Intelligence

ABE 4812 Food and Bioprocess Engineering Unit Operations 4 Credits
Grading Scheme: Letter Grade
Analysis of thermal freezing, evaporation, dehydration, contact equilibrium and mechanical separation processes as governed by the reaction kinetics and rheology of processed foods.
Prerequisite: ABE 3612C or CWR 3201 or EGN 3353C.

ABE 4905 Individual Study in Biological Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected problems of projects in the student's major field of engineering study.
Prerequisite: recommendation of department chair.

ABE 4912 Integrated Product and Processing Design 1 in Biological Engineering 3 Credits
Grading Scheme: Letter Grade
First part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes on time and within budget.
Prerequisite: Junior standing or higher.

ABE 4913 Integrated Product and Process Design 2 in Biological Engineering 3 Credits
Grading Scheme: Letter Grade
Second part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes on time and within budget.
Prerequisite: ABE 4912.

ABE 4931 Professional Issues in Agricultural and Biological Engineering 1 Credit
Grading Scheme: Letter Grade
Current developments in agricultural and biological engineering, principles of agricultural and biological engineering practice, and professional standards and ethics.
Prerequisite: Junior standing or higher.

ABE 4932 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural engineering topics not offered in other courses.
Prerequisite: instructor permission.

ABE 4935 Writing Grant Proposals for Scholarships and Fellowships 2 Credits
Grading Scheme: Letter Grade
Introduces seniors in the Agricultural and Biological Engineering department to opportunities for obtaining scholarships, fellowships, internships, and teaching/research assistantships from federal funding agencies; includes funding sources and opportunities, provide guidelines for proposal writing. Requires preparing a proposal.
Prerequisite: Senior standing, must be pursuing a degree within the Agricultural and Biological Engineering department, and instructor permission.

ABE 4949 Work Experience in Biological Engineering 1-3 Credits
Grading Scheme: S/U
Work experience in the biological engineering industry with advisor approval.
Prerequisite: Advisor approval

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Department permission.

Agricultural and Life Sciences | General

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

AGG 3501 Environment, Food and Society 3 Credits
Grading Scheme: Letter Grade
Global issues and trends in population growth, natural resource (soil, water, and plant genetic biodiversity) utilization, climate change, and potential impacts of current trends on agriculture, natural resources, global food security, and sustainability.
Prerequisite: Sophomore standing or higher.

AGG 4502 Nanotechnology in Food, Agriculture, and Environment 3 Credits
Grading Scheme: Letter Grade
Application of nanotechnology in crop production, food processing and preservation, and environmental remediation; behavior of engineered nanoparticles in plant, soil and the environment, and environmental toxicology and regulations of engineered nanoparticles.
Prerequisite: SWS 3022.
Attributes: Artificial Intelligence

ALS 2410 Challenge 2050: Global Uncertainty 3 Credits
Grading Scheme: Letter Grade
Explores questions in human well-being and sustainability building a foundation for addressing global challenges associated with global population. Transdisciplinary experts lead diverse and innovative discussions, complex adaptive problem solving; and the integration of economic, environmental, food, health, and social system perspectives.
Prerequisite: arrange with advisor and department permission.

ALS 2931 Agricultural Honors 1-4 Credits
Grading Scheme: Letter Grade
Various courses offered. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

ALS 3030C Urban Agriculture 3 Credits
Grading Scheme: Letter Grade
Work with faculty and guest field experts to explore the concepts, issues, and opportunities for urban agricultural sustainability, and on the development and implementation of demonstrations of community urban agricultural projects. Culminates in a group presentation for campus and community stakeholders.
Prerequisite: sophomore standing or higher.

ALS 3110 Home and Community Gardening: Collegiate Master Gardener 3 Credits
Grading Scheme: Letter Grade
The Florida Master Gardener Program trains UF/IFAS Extension volunteers to provide horticultural education to residents and communities. Receive training to become a Master Gardener and learn horticulture, Integrated Pest Management, plant pathology, and garden planning. This online course is composed of digital lectures, discussions, and hands-on activities.
Prerequisite: (BSC 2005 or BSC 2010) and HOS 1014 or instructor permission.

ALS 3133 Agricultural and Environmental Quality 3 Credits
Grading Scheme: Letter Grade
Analysis of effects of agriculture on environmental quality; emphasis on agricultural wastes and practices; potential for using agricultural systems for disposal of other wastes; effects of pollution on the agricultural environment.
Prerequisite: ABE 2062 or BOT 2010C or BSC 2005 or BSC 2010 or BSC 2862 or EVR 2001 or SWS 2008.

ALS 3153 Agricultural Ecology 3 Credits
Grading Scheme: Letter Grade
Introduces the study of ecology from an agricultural perspective. Emphasizes ecological principles with examples and applications from agriculture.
Prerequisite: Sophomore standing or higher.

ALS 3200C AI in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Artificial intelligence (AI) is used to solve problems in research and industry. Provides an understanding of and practical, hands-on experience building and using AI systems. Gain the skills and knowledge needed to use AI to solve real-world problems in agricultural and life sciences.
Prerequisite: (BSC 2891 or STA 2023 or STA 3032 or EEL 3872) with minimum grades of C.
Attributes: Artificial Intelligence

ALS 3415 Challenge 2050: Developing Tools for Changing the World 3 Credits
Grading Scheme: Letter Grade
The global population is projected to exceed 9 billion by the year 2050. Challenge 2050 requires innovative development of transdisciplinary solutions to complex, global issues. This course explores individual and team-based skills, competencies, and dispositions necessary to addressing the complex adaptive issues surrounding the challenge.
Prerequisite: ALS 2410.

ALS 3923 Honors Orientation 1 Credit
Grading Scheme: Letter Grade
Introduces the CALS honors program and develop the skills needed to complete a creative, scholarly project and an honors thesis. A variety of guest speakers, in-class and outside activities, discussion, writing and oral presentation are used to accomplish the learning objectives.
Prerequisite: must be enrolled in CALS upper-division honors program.

ALS 3940 Challenge 2050: the Experience 3 Credits
Grading Scheme: Letter Grade
Emphasizes trust building, accompaniment, and community development experiences within developing global contexts. Uses immersion experience to gain an understanding for concerns relating to population fluctuation, including issues related to economics, environment, food, health, and social systems. International immersion facilitates applying sustainable practices in developing areas.
Prerequisite: ALS 2410.

ALS 4161 Exotic Species and Biosecurity Issues 3 Credits
Grading Scheme: Letter Grade
Studies US policies and programs affecting agricultural biosecurity as applied to current agricultural and extension and regulatory programs. Emphasizes policies and procedures used to detect and report non-indigenous species. Develop the analytical capabilities to assess the consequences of agricultural biosecurity threats.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.

ALS 4162 Consequences of Biological Invasions 3 Credits
Grading Scheme: Letter Grade
Non-native species invasions and environmental effects of these invaders. Students will develop analytical capabilities to assess the consequences of biological invasions.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.

ALS 4163 Challenges in Plant Resource Protection 3 Credits
Grading Scheme: Letter Grade
Applied training in the regulatory aspects of plant protection, using real-world case studies, scenarios and issues.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.
Corequisite: HOS 3020C or ENY 3005/ENY 3005L or PLP 3002C.

ALS 4210 Controlled Environment Plant Production 3 Credits
Grading Scheme: Letter Grade
Foundational information on the principles of controlled environment plant production, including the interactions between plants and their microenvironments, climate control technologies and strategies, and economic principles and analysis methods.
Prerequisite: junior or senior standing.

ALS 4404 International Studies 1-15 Credits
Grading Scheme: Letter Grade
Supervised study abroad.
Prerequisite: Sophomore standing or higher and minimum 18 years old..

ALS 4419 Challenge 2050: Creating Solutions 1 Credit
Grading Scheme: Letter Grade
Through this capstone experience course, students demonstrate and apply knowledge, skills, and dispositions in assigned transdisciplinary teams. Students complete a comprehensive proposal for a developmental initiative focused on addressing the 2050 Challenge of sustaining a global population.
Prerequisite: ALS 2410.

ALS 4900 Supervised Extension Experience in Agricultural and Life Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

ALS 4905 Individual Study in Agricultural and Life Sciences 1-3 Credits
Grading Scheme: Letter Grade
Individual study in agricultural and life sciences.
Prerequisite: permission of dean and instructor.

ALS 4911 Supervised Research in Agricultural and Life Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in agricultural and life sciences under faculty supervision. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: Instructor permission.

ALS 4914 Project Team Research: Building Skills in Agrobiology 3 Credits
Grading Scheme: Letter Grade
Hands-on experience in addressing a real-world problem faced by an agricultural industry partner. Production of a detailed plan, project design, and preliminary data for evaluating and solving the problem. Offered every term.
Prerequisite: Junior standing or higher.

ALS 4915 Honors Thesis Research in Agricultural and Life Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in agricultural and life sciences leading to an honors thesis. Student are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ALS 4932 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural topics not offered in other courses.
Prerequisite: Instructor permission.

ALS 4936 CALS Leadership Institute Seminar 1 2 Credits
Grading Scheme: Letter Grade
Discussion-based seminar provides an introduction to leadership studies and personal leadership development. Exploration of personal leadership characteristics through various assessments and the development of a personal leadership development plan.
Prerequisite: admission to the CALS Leadership Institute Program.

ALS 4937 CALS Leadership Institute Seminar 2 2 Credits
Grading Scheme: Letter Grade
Discussion-based seminar provides an introduction to group and organizational leadership in local and global contexts. Personal assessment of strengths and further application of developed personal leadership plan to a global vision are included.
Prerequisite: ALS 4936.

ALS 4938 CALS Leadership Institute International Service and Learning Experience 2 Credits
Grading Scheme: Letter Grade
This seminar focuses on an international service and learning experience as a context for application of course content previously covered in the program. A compilation of documentation supporting leadership growth and reflection serve as closure to leadership institute.
Prerequisite: ALS 4936.

ALS 4941 Full-time Practical Work Experience in Agriculture 1-4 Credits
Grading Scheme: S/U
Variable subjects provide content for the study of agricultural topics not offered in other courses.
Prerequisite: prior arrangement with advisor and dean's office.

ALS 4950 Challenge 2050: Taking Action 2-6 Credits
Grading Scheme: Letter Grade
Through supervised practical training, in conjunction with academic assignments at professional organizations, the Taking Action internship provides the opportunity to professionally examine and engage the global challenges associated with Challenge 2050.
Prerequisite: maintain GPA of 3.0, must be in good standing and must have completed the Challenge 2050 Global Challenge certificate with 3.0 average.

Agricultural Education and Communication

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The UF/IFAS Department of Agricultural Education and Communication is a group of faculty, staff and students committed to connecting people with agriculture and natural resources through agricultural communication, education, leadership development and Extension education.
More Info (https://aec.ifas.ufl.edu/)

Curriculum

- Agricultural and Natural Resource Communication Minor
- Agricultural Curriculum and Development Minor
- Agricultural Curriculum and Development Minor UF Online
- Agricultural Education and Communication
- Combination Degrees
- Extension Education Minor
- Leadership Minor

Courses

AEB 2810 People and Big Data 3 Credits
Grading Scheme: Letter Grade
Introduces the uses of big data in the social sciences as well as the theories, methods, and skills needed for considering the uses and social implications of big data in society. Also introduces the basic approaches, methods, and ethical concerns in understanding the uses (and misuses) of big data by drawing on traditional and applied social science disciplines. Discussion and reading cover examples of social processes at the macro-level (structures, policies), meso-level (institutions, business), and micro-level of individual perceptions and behaviors. Examine the human implications of the big data revolution: how algorithms and massive data sets enable social networks and improve society while exposing private lives to strangers and reshape the social compact. Includes analyzing how big data is currently being utilized to track and provide insight for solution generation on pressing issues such as the United Nations' 17 Sustainable Development Goals.
Attributes: Quest 2, General Education - Social Science

AEC 3030C Effective Oral Communication 3 Credits
Grading Scheme: Letter Grade
Strategies and techniques for effective presentations in the food, agricultural, and natural resource professions. Emphasizes oral and visual techniques for formal and informal situations, including leadership and group settings.
Prerequisite: Sophomore standing or higher.

AEC 3033C Research and Business Writing in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Establishes the importance of effective communication to success in both the educational and professional environments; emphasizes writing as a primary form of communication; examines the elements of effective written communication in organizational and scholarly areas; and explores the causes of ineffective writing and ways to correct them. (WR)
Prerequisite: Junior standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

AEC 3043 Communication and Leadership for Agricultural and Life Sciences Policy Issues 3 Credits
Grading Scheme: Letter Grade
Teaches about major policy issues in Agricultural and Life Sciences (ALS) by exposing a variety of methods used to effectively communicate, inform, and influence decisions about these issues. All discussions and activities involve “real world” practices.
Prerequisite: Sophomore standing or higher.

AEC 3065 Issues in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Methods used to effectively communicate, inform, and influence policy decisions about agricultural and life sciences issues.
Prerequisite: Sophomore standing or higher.

AEC 3070C Digital Media Production in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Introduces the history and incorporation of electronic media used in agricultural and natural resources sciences. Emphasizes hands-on learning of electronic media technology as it relates to agriculture.
Prerequisite: Sophomore standing or higher.

AEC 3071 Social Media Strategy and Leadership for Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Learn how, when, and why to use various social media tools. Also learn to measure the effectiveness of these tools in reaching audiences with agricultural and life science messages.
Prerequisite: Sophomore standing or higher.

AEC 3073 Intercultural Communication 3 Credits
Grading Scheme: Letter Grade
Basic culturally coded communication behaviors, such as cultural values and beliefs, attitudes and verbal and non-verbal behavior, are examined to identify basic differences among individuals from diverse cultural backgrounds. Special emphasis on cultural communication issues in the agricultural and natural resources sciences are addressed. (N)
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International

AEC 3209 Instructional and Event Planning in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Instructional methodology that focuses on the selection and use of innovative teaching, presentation, meeting planning, and evaluation strategies for teaching agricultural subjects in various educational settings.
Prerequisite: Sophomore standing or higher.

AEC 3313 Development and Role of Extension Education 3 Credits
Grading Scheme: Letter Grade
Extension philosophy, programs, methods, and leadership principles, and history of federal, state, and local leadership in the development of the cooperative extension service.
Prerequisite: Sophomore standing or higher.

AEC 3322 Moral Leadership in Agriculture and Natural Resources 3 Credits
Grading Scheme: Letter Grade
Explores ethical and moral foundations for organizational and personal practice within the context of agriculture, natural resources, and beyond; gain a greater understanding for the intersection between morality and ethics, effective decision-making, and applied organizational ethics.
Prerequisite: Junior standing or higher.

AEC 3410 Fostering Innovation through Leadership 3 Credits
Grading Scheme: Letter Grade
By studying key leadership theories and models students will develop the basic skills and knowledge necessary to move an innovation from creation to implementation. Using specifically designed experiences, students will be able to think critically about leadership's direct application to innovation and change.
Corequisite: Enrollment in the Innovation Academy.

AEC 3413 Working with People: Interpersonal Leadership Skills 3 Credits
Grading Scheme: Letter Grade
Identifies and defines leadership in terms of intrapersonal and interpersonal skills.
Prerequisite: Sophomore standing or higher.

AEC 3414 Leadership Development 3 Credits
Grading Scheme: Letter Grade
An understanding of the dynamic interactions of personal characteristics, technical skills, interpersonal influence, commitment, goals, and power necessary for effective organizational leader and follower behaviors.
Prerequisite: Sophomore standing or higher.

AEC 4031 The Communication Process in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Survey of basic communication concepts as they apply to agriculture and natural resource industries.
Prerequisite: Junior standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

AEC 4035 Communication Practices for Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
This course provides students the opportunity to master a variety of writing styles used in corporate and mass media settings. Emphasis is placed on mastery of writing skills. (WR)
Prerequisite: AEC 3070C and (AEC 4031 or JOU 3101) with minimum grades of C.

AEC 4036 Advanced Agricultural Communication Production 3 Credits
Grading Scheme: Letter Grade
Provides directed experience in the following areas of agricultural communication: video production, graphic design, visual composition, desktop publishing and multimedia development.
Prerequisite: AEC 3070C.

AEC 4052 Communication Campaign Strategies in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Examines the role of communication in agriculture, focusing on strategies and methods for agricultural information transfer.
Prerequisite: AEC 4031 with a minimum grade of C.

AEC 4200 Teaching Methods in Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Focuses on the selection and use of teaching strategies, methods/ approaches and techniques; evaluating learning; managing learning environments; and classroom management for teaching agricultural subjects in formal educational settings.
Prerequisite: AEC 4323 and AEC 4228.

AEC 4202 Curriculum Development and Assessment Techniques in Emerging Agricultural Technologies 3 Credits
Grading Scheme: Letter Grade
Introduces new and emerging areas in food agriculture and natural resource sciences. Emphasizes appropriate teaching techniques, curricula, and resources.
Prerequisite: AEC 4200.

AEC 4224 Special Methods in Teaching Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Emphasizes supervised agricultural experience programs, record keeping, and related FFA awards. Classroom management techniques, discipline and liability issues are also discussed.
Prerequisite: AEC 4202.

AEC 4228 Laboratory Practices in Teaching Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Laboratory practices in teaching mechanics and other operative skills, conducting field and laboratory classes and providing space and teaching facilities.
Prerequisite: Junior standing or higher.

AEC 4323 Development and Philosophy of Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Analyzes evolving concepts and philosophies of agricultural education programs by emphasizing the history, legislation, and principles underlying organization and practice.
Prerequisite: Junior standing or higher.

AEC 4417 Leadership for Personal and Organizational Change 3 Credits
Grading Scheme: Letter Grade
To prepare students for addressing complex personal and organizational issues related to leading change.
Prerequisite: AEC 3414.

AEC 4434 Communication and Leadership in Groups and Teams 3 Credits
Grading Scheme: Letter Grade
Focuses on leadership and communication in groups and teams. Topics include what makes effective groups and teams, processes of groups and teams, relationships of members, and improving group/team performance.
Prerequisite: Junior standing or higher.

AEC 4465 Global Leadership 3 Credits
Grading Scheme: Letter Grade
Integrated, practical, and dynamic framework for students to develop global literacy and leadership competencies.
Prerequisite: AEC 3413 or AEC 3414.
Attributes: General Education - International

AEC 4500 Program Development and Evaluation 3 Credits
Grading Scheme: Letter Grade
In-depth analysis of the development and evaluation of human and community resource programs based on programming theories, concepts, and research. Emphasizes dimensions of responsive communities, determination of community needs, and goals.
Prerequisite: Junior standing or higher.

AEC 4504 Curriculum and Program Planning for Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Principles and practices used in designing courses of instruction for effective teaching and total program development.
Prerequisite: Junior standing or higher.

AEC 4900 Supervised Extension in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural education and communication under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Junior standing or higher.

AEC 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
Topics and special problems selected from fields such as 4-H and FFA work, demonstrations, farm and home management, rural development, pre-school planning and post-school evaluation and planning.
Prerequisite: instructor permission.

AEC 4911 Supervised Research in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in Agricultural Education and Communication under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Junior standing or higher.

AEC 4915 Honors Thesis Research in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Independent research in Agricultural Education and Communication leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

AEC 4930 Communication and Leadership Development Capstone Experience 1 Credit
Grading Scheme: Letter Grade
Integrates content and skills that communication and leadership development students have learned in their prerequisite courses.
Prerequisite: AEC 4031 and AEC 3070C and AEC 3413 and AEC 3414;
Corequisite: Senior standing.

AEC 4932 Special Topics in Agricultural Education and Communication 1-3 Credits
Grading Scheme: Letter Grade
Special topics in Agricultural Education and Communication.
Prerequisite: Sophomore standing or higher.

AEC 4941 Agricultural Education Internship 1-9 Credits
Grading Scheme: Letter Grade
Practical experience in agricultural training and development through agricultural education organizations, agribusiness and natural resources education, and/or agricultural and outreach programming.
Prerequisite: junior or senior standing; AEC or TCH major.

AEC 4942 Agricultural Education Internship 6-9 Credits
Grading Scheme: Letter Grade
Individual capstone internship within a school-based setting where students observe, participate in, and lead educational instruction, curricula development, assessment of school-based student learning, supervision, and assist in advising a student leadership organization.
Prerequisite: senior standing and successful completion of all three portions of the Florida Teacher Certification Examination (FTCE) - General Knowledge, Professional Education and Agriculture 6-12.

AEC 4943 Leadership Development Internship 2-6 Credits
Grading Scheme: Letter Grade
An individual program whereby students are apprenticed to officials to gain practical experience in agricultural organizations, industry and/or the county extension program.
Prerequisite: 15 credits of communication and leadership courses with no grade below C. Nine credits must include AEC 3070C, AEC 4031, and AEC 3413 or AEC 4434.

AEC 4944 Cooperative Extension Internship 4-6 Credits
Grading Scheme: Letter Grade
The cooperative extension internship provides students the opportunity to develop practical on-the-job supervised experience in cooperative extension, primarily at the county level.
Prerequisite: senior standing, AEC 3313; minimum 2.0 GPA.

AEC 4946 Comm and Lead Dev Internship 2-6 Credits
Grading Scheme: Letter Grade
An individual program whereby students are apprenticed to officials to gain practical experience in agricultural organizations, industry, extension, reporting, writing, editing, photography, graphics, broadcasting, advertising or public relations.
Prerequisite: AEC 3070C with minimum grade of C and AEC 3414 with minimum grade of C, or AEC 3413 with minimum grade of C and AEC 4031 with minimum grade of C.

AEC 4948 Agricultural Communication Internship 2-6 Credits
Grading Scheme: Letter Grade
An individual program whereby students gain supervised experience in agricultural communications including reporting, writing, editing, photography, graphics, broadcasting, advertising or public relations.
Prerequisite: 15 credits of communication and leadership courses with no grade below C. Nine credits must include AEC 3070C, AEC 4031, and AEC 3413 or AEC 4434.

ALS 2410 Challenge 2050: Global Uncertainty 3 Credits
Grading Scheme: Letter Grade
Explores questions in human well-being and sustainability building a foundation for addressing global challenges associated with global population. Transdisciplinary experts lead diverse and innovative discussions, complex adaptive problem solving; and the integration of economic, environmental, food, health, and social system perspectives.
Prerequisite: arrange with advisor and department permission.

ALS 3415 Challenge 2050: Developing Tools for Changing the World 3 Credits
Grading Scheme: Letter Grade
The global population is projected to exceed 9 billion by the year 2050. Challenge 2050 requires innovative development of transdisciplinary solutions to complex, global issues. This course explores individual and team-based skills, competencies, and dispositions necessary to addressing the complex adaptive issues surrounding the challenge.
Prerequisite: ALS 2410.

ALS 3940 Challenge 2050: the Experience 3 Credits
Grading Scheme: Letter Grade
Emphasizes trust building, accompaniment, and community development experiences within developing global contexts. Uses immersion experience to gain an understanding for concerns relating to population fluctuation, including issues related to economics, environment, food, health, and social systems. International immersion facilitates applying sustainable practices in developing areas.
Prerequisite: ALS 2410.

ALS 4419 Challenge 2050: Creating Solutions 1 Credit
Grading Scheme: Letter Grade
Through this capstone experience course, students demonstrate and apply knowledge, skills, and dispositions in assigned transdisciplinary teams. Students complete a comprehensive proposal for a developmental initiative focused on addressing the 2050 Challenge of sustaining a global population.
Prerequisite: ALS 2410.

ALS 4932 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural topics not offered in other courses.
Prerequisite: Instructor permission.

ALS 4950 Challenge 2050: Taking Action 2-6 Credits
Grading Scheme: Letter Grade
Through supervised practical training, in conjunction with academic assignments at professional organizations, the Taking Action internship provides the opportunity to professionally examine and engage the global challenges associated with Challenge 2050.
Prerequisite: maintain GPA of 3.0, must be in good standing and must have completed the Challenge 2050 Global Challenge certificate with 3.0 average.

Agricultural Operations Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

AEB 4085 Agricultural Risk Management and the Law 3 Credits
Grading Scheme: Letter Grade
Develops an understanding of the basic concepts of common and statutory law. Identifies and addresses current legal issues of importance at the personal and professional levels. Develops an understanding of risk and the solutions for managing risk and relates the concepts of risk management and law in limiting exposure to legal liability.
Prerequisite: Junior or Senior standing.

ALS 3133 Agricultural and Environmental Quality 3 Credits
Grading Scheme: Letter Grade
Analysis of effects of agriculture on environmental quality; emphasis on agricultural wastes and practices; potential for using agricultural systems for disposal of other wastes; effects of pollution on the agricultural environment.
Prerequisite: ABE 2062 or BOT 2010C or BSC 2005 or BSC 2010 or BSC 2862 or EVR 2001 or SWS 2008.

AOM 2520 Global Sustainable Energy: Past, Present and Future 3 Credits
Grading Scheme: Letter Grade
Explore the global history of energy sources; investigate new energy sources and analyze international solutions to future needs.

AOM 3220 Agricultural Construction and Maintenance 3 Credits
Grading Scheme: Letter Grade
Selection and use of materials and tools used in planning, constructing, and maintaining buildings. Participate in class lectures and hands-on laboratory activities to build full-scale projects involving framing, plumbing, electrical, windows, etc. Combines building codes and building science to introduce the changing world of construction.
Prerequisite: Junior standing or higher.

AOM 3333 Pesticide Application Techniques 3 Credits
Grading Scheme: Letter Grade
Equipment and methods used to apply pesticides in agriculture. Emphasizes techniques used to avoid misapplication, a common cause of pesticide failures.
Prerequisite: Junior standing or higher.

AOM 3734 Irrigation Principles and Practices in Florida 3 Credits
Grading Scheme: Letter Grade
Irrigation practice related to Florida agriculture. The course deals with irrigation system characteristics, management, maintenance and economics.
Prerequisite: (MAC 1147) or (MAC 1114 & MAC 1140) or (MAC 2233).

AOM 4060 Agri-food Systems Innovation 3 Credits
Grading Scheme: Letter Grade
Explore the role of innovation in food systems from a reverse chain perspective. Gain knowledge of the food system framework from a multilevel (i.e., individual, organizational, etc.) perspective, identify current, innovative business and technological practices, as well as present and think critically about future trends in food.
Prerequisite: (Any AOM, ABE, or PKG course) or (junior standing or higher).

AOM 4062 Principles of Food Engineering 4 Credits
Grading Scheme: Letter Grade
The functional requirements and principles of operation of systems for handling and processing food and agricultural products.
Prerequisite: MAC 1147 and 3 credits of physics.

AOM 4314C Power and Machinery Management 3 Credits
Grading Scheme: Letter Grade
Functional requirements, operating principles, performance, safety, and economic application of agricultural power units and field machines for citrus, vegetable and field crop production.
Prerequisite: Junior standing or higher.

AOM 4434 Precision Agriculture 3 Credits
Grading Scheme: Letter Grade
Principles and applications of technologies supporting precision farming and planning for natural resource data management. Global positioning systems (GPS), geographic information systems (GIS), variable rate technologies (VRT), data layering of independent variables, automated guidance, Internet, information access and computer software for management.
Prerequisite: Junior standing or higher.
Attributes: Enable-AI

AOM 4444C Electrical Power and Instrumentation for Agricultural Operations Management 3 Credits
Grading Scheme: Letter Grade
Fundamental concepts of electricity, power, instrumentation, computer control operations, and selected transducers. Foundation to aid in management of agricultural processing operations.
Prerequisite: Junior standing or higher.

AOM 4455 Agricultural Operations and Systems 3 Credits
Grading Scheme: Letter Grade
Quantitative and managerial techniques for management and planning of technical resources in agriculture. Applications of queuing theory, project scheduling, optimization, and expert decision systems.
Prerequisite: ((MAC 1147) or (MAC 1114 & MAC 1140) or (MAC 2233)) & CGS 2531.
Attributes: Artificial Intelligence

AOM 4461 Sustainable Agricultural Systems 3 Credits
Grading Scheme: Letter Grade
Minimizing energy and costs in agricultural and natural resource systems and industries. Explore ways to enhance sustainable systems by improving efficiency. Topics include agricultural machinery, pumps, motors, fans, refrigeration, lights, and construction methods.
Prerequisite: Senior standing & ((PHY 2004) or (PHY 2020) or (PHY 2048) or (PHY 2053)).

AOM 4510C Instrumentation and Climate Management in Controlled Environment Agriculture 3 Credits
Grading Scheme: Letter Grade
Sensors and instruments for monitoring growing environment in controlled environment agriculture will be introduced. Learn how to evaluate production systems, monitor environmental variables, control growing conditions, and design experiments.
Prerequisite: Junior status or higher.

AOM 4521 Introduction to Biofuels 3 Credits
Grading Scheme: Letter Grade
An overview of biofuel production related to technologies and feedstocks, economics of producing biofuels and impact on the environment and the local economy. Dealing specifically with liquid and gaseous biofuels and bioenergy produced from renewable resources, it provides a summary of the past, present and future production technologies and applications.
Prerequisite: BSC 2010 and PHY 2004 and CHM 2045 or the equivalents.

AOM 4642 Environmental Systems for Agricultural Structures 3 Credits
Grading Scheme: Letter Grade
Effects of the environment on plant and animal production, processing operations and quality of stored produce. Selection of building materials and sizing of components of environmental systems in agricultural structures to enhance more efficient agricultural production, processing and storage.
Prerequisite: MAC 1147 and 3 credits of physics.

AOM 4643 Environmental Hydrology: Principles and Issues 3 Credits
Grading Scheme: Letter Grade
The basics of environmental hydrology, intended for agricultural and natural resource managers. The first half covers scientific principles of the hydrologic cycle while the second half investigates case studies of current water quality and water management issues.
Prerequisite: Junior standing or higher.

AOM 4900 Supervised Extension Experience in Agricultural Operations Management 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural operations management under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

AOM 4905 Special Problems in Agricultural Operations Management 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of mechanized study.
Prerequisite: permission of department chair or advisor.

AOM 4911 Supervised Research in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in Agricultural Education and Communication under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

AOM 4915 Honors Thesis Research in Agricultural Operations Management 0-3 Credits
Grading Scheme: S/U
Independent research in agricultural operations management leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

AOM 4932 Special Topics in Agricultural Operations Management 1-4 Credits
Grading Scheme: Letter Grade
Variable topics provide content for the study of mechanized agriculture topics not offered in other courses.
Prerequisite: instructor permission.

AOM 4933 Professional Practices in Agricultural Operations Management 1 Credit
Grading Scheme: Letter Grade
Professionalism and interfacing of technical skills. Topics include ethics, continuing education, placement skills and professional development in agricultural operations management.
Prerequisite: junior standing in agricultural operations management.

AOM 4941 Full-Time Practical Work Experience in Agricultural Operations Management 1-4 Credits
Grading Scheme: S/U
Full-Time Practical Work Experience in Agricultural Operations Management
Prerequisite: Instructor permission.

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Agronomy's vision is to improve and sustain food production while conserving natural resources and promoting healthy and active lives by creating and disseminating knowledge in the plant sciences. The department's mission is to achieve excellence in the science of using plants for food, feed, fuel, fiber and turf, as well as in the management of weed species, through research, teaching, and outreach programs that serve the people of Florida, the nation, and the world.

Curriculum

- Agroecology and Sustainable Food Systems Certificate
- Combination Degrees
- Golf and Sports Turf Management Minor
- Plant Science

Courses

AGG 3501 Environment, Food and Society 3 Credits
Grading Scheme: Letter Grade
Global issues and trends in population growth, natural resource (soil, water, and plant genetic biodiversity) utilization, climate change, and potential impacts of current trends on agriculture, natural resources, global food security, and sustainability.
Prerequisite: Sophomore standing or higher.

AGR 3303 Genetics 3 Credits
Grading Scheme: Letter Grade
The science and physical basis of inheritance, genes as units of heredity and development, and the qualitative and quantitative aspects of genetic variation.
Prerequisite: basic course in biology, botany or zoology.

AGR 4212 Alternative Cropping Systems 3 Credits
Grading Scheme: Letter Grade
Examines alternative cropping systems, focusing on issues of sustainability, against a backdrop of trends occurring in conventional agriculture.
Prerequisite: Junior or Senior standing.

AGR 4214C Applied Field Crop Production 3 Credits
Grading Scheme: Letter Grade
Plant and manage a group of field crops to gain experience in soil sampling, interpretation of nutrient and nematode test results, fertilization, pest control, and harvesting. Requires a term report.
Prerequisite: PLS 3004C.

AGR 4231C Forage Science and Range Management 4 Credits
Grading Scheme: Letter Grade
Scientific and technological developments in the selection, production, and utilization of forage crops, and in the development and management of grazing areas.
Prerequisite: Junior or Senior standing.

AGR 4304 Plant Chromosomes and Genomes 3 Credits
Grading Scheme: Letter Grade
Concepts of plant DNA organization in chromosome structure, the principles and technologies of cytogenetics, the plant genomic DNA structure and function, concepts of transcriptome, the plant genomic databases, the DNA sequencing technologies and the basic tools for nucleotide sequence analysis.
Prerequisite: AGR 3303 or PCB 3063.

AGR 4320 Plant Breeding 3 Credits
Grading Scheme: Letter Grade
The science and technology of plant improvement.
Prerequisite: AGR 3303 or PCB 3063.

AGR 4512 Physiology and Ecology of Crops 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental processes of crop plants, as well as the environmental and physical limitations to crop growth, development and yield. Focus is on physiology and ecology of agronomic crop plants.
Prerequisite: AGR 3005 or the equivalent.

AGR 4900 Supervised Extension in Agronomy 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agronomy under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

AGR 4905 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
Scientific study of individual problems in crop production, weed science, genetics or plant breeding.
Prerequisite: minimum of one course in agronomy and instructor permission.

AGR 4911 Supervised Research in Agronomy 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in agronomy under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Instructor permission.

AGR 4915 Honors Thesis Research in Agronomy 0-3 Credits
Grading Scheme: S/U
Independent research in agronomy leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

AGR 4932 Agronomy Topics 1-3 Credits
Grading Scheme: Letter Grade
Critical review of selected topics in specific agronomic areas.
Prerequisite: Instructor permission.

ALS 4914 Project Team Research: Building Skills in Agrobiology 3 Credits
Grading Scheme: Letter Grade
Hands-on experience in addressing a real-world problem faced by an agricultural industry partner. Production of a detailed plan, project design, and preliminary data for evaluating and solving the problem. Offered every term.
Prerequisite: Junior standing or higher.

PCB 2441 Biological Invaders 3 Credits
Grading Scheme: Letter Grade
This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena using an introduction to plants and animals that are invading Florida and the U.S.; learning why biological invaders are second only to habitat destruction as threatens to natural ecosystems; what makes some species invasive; how to control or prevent invasions; where international commerce may be regulated; and who is affected by such issues. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Artificial Intelligence, General Education - Biological Science

PLS 2003C Plants That Feed the World 3 Credits
Grading Scheme: Letter Grade
Introduction of 25 of humankind's most important food crop plants with emphasis on soil and climatic adaptations. Major producers and consumers, nutritional attributes, processing needs and types of products. Students will see the plants and seeds, as well as food and industrial products of the crop plants under study. This is an introductory course for majors and non-majors who have no previous academic experience with food crop plants. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

PLS 2030 The Evolution Of Eating 3 Credits
Grading Scheme: Letter Grade
This course will explore the history of agricultural innovations while examining their social, political, economic, and environmental consequences within the context of the global food system. Through analysis of how eating evolved, we will formulate ideas on how global food systems will change and function in the future. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - Biological Science

PLS 3004C Principles of Plant Science 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and practices of plant production systems. An overview of plant evolution, anatomy, physiology, improvement, pest, water and nutrient management as applied to a variety of plant production systems.
Prerequisite: BOT 2010C or BSC 2010.

PLS 4601C Principles of Weed Science 3 Credits
Grading Scheme: Letter Grade
Introduces basic and applied aspects of weed science. Topics include weed biology and ecology, herbicide physiology, and weed control techniques. The lab covers weed identification, herbicide application technology, and other aspects of weed science.
Prerequisite: PLS 3004C.

PLS 4613 Aquatic Weed Control 3 Credits
Grading Scheme: Letter Grade
Florida's aquatic weed problems and methods of chemical, biological, mechanical and physical weed control. Topics include plant biology/ecology, herbicide residue, lake reclamation, fish-plant interactions and laws regulating aquatic weed control.
Prerequisite: refer to the department.

PLS 4941 Practical Work Experience 1-3 Credits
Grading Scheme: S/U
Practical, hands-on experience in the plant sciences through a paid internship in the industry. This must be a new experience and related to the student's field of study. One month of full-time work is required for each credit.
Prerequisite: Plant Science major of junior standing or higher.

AI | Artificial Intelligence

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

ABE 4662 Quantification of Biological Processes 3 Credits
Grading Scheme: Letter Grade
Quantitative description and analysis of biological processes pertaining to microbes, plants, animals and ecosystems. Biological transport phenomena, bioenergetics, enzyme kinetics, metabolism, bioregulation, circulatory and muscle systems, agroecosystems. Analytical and experimental laboratory for development of quantitative skills.
Prerequisite: (ABE 2062 or BSC 2010) and (EGN 3353C or CWR 3201).
Attributes: Artificial Intelligence

ADV 3001 Advertising Strategy 3 Credits
Grading Scheme: Letter Grade
Overview of the strategic planning process required to develop a successful strategic, persuasive communication plan such as an advertising, integrated marketing communications, or social marketing campaign. Case studies and projects teach the skills needed to address a variety of communications management issues and engage audiences in diverse marketplaces.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C and ADV major.
Attributes: Artificial Intelligence

ADV 3500 Digital Insights 3 Credits
Grading Scheme: Letter Grade
Acquiring, evaluating, and analyzing information for advertising decisions. Emphasizes understanding the scientific method, developing explicit and measurable research objectives, selecting appropriate methodologies, and analyzing data.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C and STA 2023 and ADV major.
Attributes: Artificial Intelligence

ADV 4300 Media Planning 3 Credits
Grading Scheme: Letter Grade
Provides an in-depth overview of the media planning process. Emphasizes the value of various media channels and evaluation methods to design innovative and integrated media strategies to reach and engage diverse audiences.
Prerequisite: 3JM ADV; minimum grades of C in ADV 3001 and ADV 3500.
Attributes: Artificial Intelligence

AGG 4502 Nanotechnology in Food, Agriculture, and Environment 3 Credits
Grading Scheme: Letter Grade
Application of nanotechnology in crop production, food processing and preservation, and environmental remediation; behavior of engineered nanoparticles in plant, soil and the environment, and environmental toxicology and regulations of engineered nanoparticles.
Prerequisite: SWS 3022.
Attributes: Artificial Intelligence

ALS 3200C AI in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Artificial intelligence (AI) is used to solve problems in research and industry. Provides an understanding of and practical, hands-on experience building and using AI systems. Gain the skills and knowledge needed to use AI to solve real-world problems in agricultural and life sciences.
Prerequisite: (BSC 2891 or STA 2023 or STA 3032 or EEL 3872) with minimum grades of C.
Attributes: Artificial Intelligence

AOM 4434 Precision Agriculture 3 Credits
Grading Scheme: Letter Grade
Principles and applications of technologies supporting precision farming and planning for natural resource data management. Global positioning systems (GPS), geographic information systems (GIS), variable rate technologies (VRT), data layering of independent variables, automated guidance, Internet, information access and computer software for management.
Prerequisite: Junior standing or higher.
Attributes: Enable-AI

AOM 4455 Agricultural Operations and Systems 3 Credits
Grading Scheme: Letter Grade
Quantitative and managerial techniques for management and planning of technical resources in agriculture. Applications of queuing theory, project scheduling, optimization, and expert decision systems.
Prerequisite: ((MAC 1147) or (MAC 1114 & MAC 1140) or (MAC 2233)) & CGS 2531.
Attributes: Artificial Intelligence

APK 4721 AI in Action: Problem Solving in Health, Fitness and Human Performance 3 Credits
Grading Scheme: Letter Grade
In this classroom-based undergraduate research experience (CURE) course, students will collaborate on a research project addressing real-world challenges found in the industry-related roles in Applied Physiology and Kinesiology. Using AI to develop innovative solutions, students will gain practical experience and industry-relevant skills for careers in health, fitness, and human performance fields.
Prerequisite: APK4050 Research Methods.
Attributes: Artificial Intelligence

ARC 3181 Advanced Topics in Digital Architecture 3 Credits
Grading Scheme: Letter Grade
Continued investigation of computer-aided design programs currently utilized by professional practices.
Prerequisite: ARC 2180.
Attributes: Artificial Intelligence

ART 3959C Video Art 3 Credits
Grading Scheme: Letter Grade
Explores video with an emphasis on editing and building a personal vocabulary through the electronic image.
Prerequisite: ART 2680C and must be a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.
Attributes: Artificial Intelligence

ART 4612C Digital Media Workshop 3 Credits
Grading Scheme: Letter Grade
Bridges the study of digital media and broadly envisioned professional practices in the field. Emphasis on portfolio and project development for transition to advanced study or professional, expressive or applied practices in integrated media.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.
Attributes: Artificial Intelligence

ART 4645C Sensors and Electronics-Based Art 3 Credits
Grading Scheme: Letter Grade
Physical computing HCI (human computer interaction) explores how devices respond to and interact with human physical action. Students will create artwork that explores physical interfaces beyond mouse/keyboard/screen interactions through the use of microcontrollers and sensors.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.
Attributes: Artificial Intelligence

BCN 4594 Building Energy Modeling 3 Credits
Grading Scheme: Letter Grade
As energy becomes a more precious commodity, it is crucial to design and operate high performance buildings. A solid foundation of energy engineering and sustainability principles is essential to achieving these higher performance standards.
Prerequisite: junior standing or higher.
Attributes: Artificial Intelligence

BME 4760 Biomedical Data Science 3 Credits
Grading Scheme: Letter Grade
Covers the biomedical applications of data science techniques, which include pre-processing techniques, machine learning data analysis, and data visualization techniques.
Prerequisite: BME 3053C and COP 2271 and COP 2271L and (STA 2023 or STA 3032).
Attributes: Artificial Intelligence

BSC 2891 Python Programming for Biology 3 Credits
Grading Scheme: Letter Grade
Discoveries in biology are driven as much by computer analysis as by laboratory work. Learn the theory and practice of computer programming with emphasis on the practical techniques and problem solving skills required to use computer programming in biological research. Taught completely online.
Attributes: Artificial Intelligence

BSC 4892 AI in Biology 3 Credits
Grading Scheme: Letter Grade
Examines how AI has rapidly become ubiquitous in daily life and been applied to diverse areas of Biology. Focuses on machine learning approaches as well as deep learning methods, including transformers. Covers machine learning methods for tabular data, computer vision, transfer learning, natural language processing, and transformer-based architectures. Classes typically applied coding with Jupyter Notebooks on HiPerGator. Prior Python coding experience required.
Prerequisite: BSC 4452 or BSC 6451 or BSC 2891 or Instructor permission (Python programming experience.)
Attributes: Artificial Intelligence

BSC 4913 Independent Research in Bioinformatics 3 Credits
Grading Scheme: Letter Grade
Mentored research experience at the interface between computational and biological sciences; preparation for competitive graduate-school and industry positions in bioinformatics.
Prerequisite: BSC 2891 or MCB 4320C or BSC 4434C or BSC 4434C with a minimum grade of C.
Attributes: Artificial Intelligence

BSC 4913 Independent Research in Bioinformatics 3 Credits
Grading Scheme: Letter Grade
Mentored research experience at the interface between computational and biological sciences; preparation for competitive graduate-school and industry positions in bioinformatics.
Prerequisite: BSC 2891 or MCB 4320C or BSC 4434C or BSC 4434C with a minimum grade of C.
Attributes: Artificial Intelligence

CAP 3032 Interactive Modeling and Animation 1 3 Credits
Grading Scheme: Letter Grade
Introduces programming and data structures for interactive two-dimensional multimedia applications. Representing form and transforms in two dimensions, capturing user actions and driving application behavior interactively. Graphical interfaces, image processing, automata and basic artificial intelligence.
Prerequisite: MAC 1147 or equivalent.
Attributes: Artificial Intelligence

CLA 3811 AI in Antiquity and Today 3 Credits
Grading Scheme: Letter Grade
Examines AI's origins in ancient Greece and compares it to AI's acceptance and use in modern society. Pairs discussion of Greek and Roman philosophical and other literary texts on the soul and identity and the boundaries between the natural and artificial with emerging societal issues related to AI, including gender, racism, and slavery.
Prerequisite: Students must be sophomore standing.
Attributes: Artificial Intelligence, General Education - International, Satisfies 4000 Words of Writing Requirement

DCP 4300 AI in the Built Environment 3 Credits
Grading Scheme: Letter Grade
Introduces Artificial Intelligence (AI) and its applications to real world problems in planning, design, and construction of the built environment. Includes application in professional practice in architecture, construction management, interior design, landscape architecture, and urban and regional planning.
Prerequisite: EEL 3872 and PHI 3681.
Attributes: Artificial Intelligence

ECO 4421 Econometrics 4 Credits
Grading Scheme: Letter Grade
Introduces concepts and methods used in empirical economic research. Emphasizes practical use of basic econometric techniques to estimate economic relationships and evaluate policy. Covers topics needed to plan and implement empirical projects, and understand potential problems with the empirical analyses of others.
Prerequisite: STA 2023 and (MAC 2233 or higher) and (ECO 3101 or ECP 3703).
Attributes: Artificial Intelligence

ECO 4422 Econometrics 2 4 Credits
Grading Scheme: Letter Grade
Introduces advanced concepts and methods employed in empirical economic analysis. Focuses on identification of causality using regression techniques. Examines regression discontinuity and difference-in-differences identification strategies.
Prerequisite: ECO 4421 OR (STA 4210 AND ECO 3101) OR (STA 4210 AND ECP 3703).
Attributes: Artificial Intelligence

EEE 4773 Fundamentals of Machine Learning 3 Credits
Grading Scheme: Letter Grade
Overview of machine intelligence and the role of machine learning in a variety of real-world problems. Probability and statistics to handle uncertain data. Topics covered include: learning models from data in both a supervised and unsupervised fashion, linear models and non- linear models for classification, and linear dimensionality reduction.
Prerequisite: EEL 3135 and EEL 3850 with minimum grades of C.
Attributes: Artificial Intelligence

EEL 3872 Artificial Intelligence Fundamentals 3 Credits
Grading Scheme: Letter Grade
An overview of Artificial Intelligence (AI), approaching the concept from its origins to expectations for the future. The course will focus on various AI technologies, how to build Machine Learning models, and how to apply AI tools to solve real-world problems. Some concepts that will be introduced in the course are types of AI and Machine Learning, Hacking and the IoT, AI today, and its outlook for the future.
Prerequisite: Junior standing or above, or instructor permission.
Attributes: Artificial Intelligence

EEL 4665C Intelligent Machines Design Laboratory 4 Credits
Grading Scheme: Letter Grade
Design simulation, fabrication, assembly and testing of intelligent robotic machines. Laboratory.
Prerequisite: (EEL 3744C or EML 3005) or instructor permission.
Attributes: Artificial Intelligence

ESI 4610 Introduction to Data Analytics 3 Credits
Grading Scheme: Letter Grade
Provides a basic understanding of the skills necessary for managing and analyzing data. The concepts covered include exploratory data analysis, data manipulation, data cleaning, data wrangling, and machine learning models. A basic understanding of data management with SQL is also provided. All the technical skills will be motivated by different examples involving data. Python is the programming language used.
Prerequisite: COP2273 or COP2271 and ESI 3215C with minimum grades of C.
Attributes: Artificial Intelligence

EXP 4174C Laboratory in Sensory Processes 4 Credits
Grading Scheme: Letter Grade
Collect, analyze, and evaluate data on specific problems related to sensory and perceptual abilities.
Prerequisite: (EXP 3104 or EXP 3604) and STA 2023.
Corequisite: STA 3024.
Attributes: Artificial Intelligence

FIN 3403 Business Finance 4 Credits
Grading Scheme: Letter Grade
The acquisition and management of funds by business. A minimum grade of B is required in FIN 3403 to register for required finance major courses.
Prerequisite: (ACG 2021 and junior standing or higher) or (ACG 2021 and ECO 2023 and sophomore standing).
Attributes: Artificial Intelligence

FOS 4427C Principles of Food Processing 4 Credits
Grading Scheme: Letter Grade
Principles of processing foods: cooling, freezing, heating, dehydrating, concentrating, irradiating, fermenting and the use of chemicals.
Prerequisite: FOS 4410C.
Attributes: Artificial Intelligence

GEO 2351 Geographical Sciences and Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines the most critical environmental issues facing the world today; emphasizes the sustainability of both human and physical systems in the 21st century utilizing cutting-edge geographic technologies: spatial analysis, GIS, and satellite imagery.
Prerequisite: any Biological Sciences or Physical Sciences General Education course.
Attributes: Artificial Intelligence

GEO 4167C Intermediate Quantitative Analysis for Geographers 3 Credits
Grading Scheme: Letter Grade
Surveys various multivariate techniques commonly used to analyze geographic data. Emphasis on hypothesis testing, inference, multiple regression, analysis of variance and cluster analysis. Introduces time-series regression and grouped estimation procedures, factor analysis, probit/logit modeling and trend-surface interpolation. (WR)
Prerequisite: GEO 3162C or the equivalent.
Attributes: Artificial Intelligence, Satisfies 6000 Words of Writing Requirement

GEO 4169 Spatial Econometrics and Modeling 3 Credits
Grading Scheme: Letter Grade
Introduces regression models capable of dealing with spatial auto-correlation; develop statistical models and estimate with computer software.
Prerequisite: GEO 4167C or equivalent.
Attributes: Artificial Intelligence

GEO 4285 Water, Risk, and Extreme Events 3 Credits
Grading Scheme: Letter Grade
Investigates techniques for evaluating the risks of extreme events related to water in our environment. Presents data and methodologies for estimating the rarity of phenomena including excessive rainfall totals, high and low river levels, coastal storm surge and waves, and drought.
Prerequisite: GEO 3162C or STA 3032 or permission of instructor.
Attributes: Artificial Intelligence, Satisfies 6000 Words of Writing Requirement

GEO 4306C Geography of Vector-borne Diseases 3 Credits
Grading Scheme: Letter Grade
Introduces the spatial epidemiology of vector-borne diseases (VBDs) and geospatial methods for monitoring, mapping and modeling them. Provides hands-on experiences for mapping and modeling risk of VBDs via GIS-based labs.
Prerequisite: GEO 3452 or GIS 3043 or permission of the instructor.
Attributes: Artificial Intelligence

GIS 2002 The Digital Earth 3 Credits
Grading Scheme: Letter Grade
Focuses on how the Earth's surface is visualized, explored, and analyzed in digital formats (e.g. maps, satellite images, aerial photos). Provides an introduction to fundamental concepts of digital geographic data to understand the Earth environment and human society based on the vast quantities of geographic information in our ever-changing world.
Attributes: Artificial Intelligence

GIS 3043 Foundations of Geographic Information Systems 4 Credits
Grading Scheme: Letter Grade
Geographic Information Systems (GIS) as the technology for creation, modification, display, and analysis of spatial information. Develops knowledge of GIS, competence in geographic databases, and familiarity with computer software and hardware.
Prerequisite: Sophomore standing or higher.
Attributes: Artificial Intelligence

GIS 3420C GIS Models for Public Health 3 Credits
Grading Scheme: Letter Grade
Focuses on the design of GIS-based models to address health and healthcare issues. Topics include a conceptual framework, landscape epidemiology models, disease diffusion models, health accessibility, human health behavior and location-allocation of health services. Laboratory section provides hands-on experience applying these models with GIS tools.
Prerequisite: (GIS 3043 or equivalent) & (STA 2023 or GEO 3162C or equivalent) or (Instructor permission)
Attributes: Artificial Intelligence

GIS 4037 Digital Image Processing 4 Credits
Grading Scheme: Letter Grade
Introduces the theory and application of digital imagery data in geographical research with a hands-on, lab-based approach.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

GIS 4102C GIS Programming 3 Credits
Grading Scheme: Letter Grade
Introduces basic programming concepts; instruction in popular programming languages for geospatial processing, applications, and modeling in ArcGIS environment.
Prerequisite: GIS 3043C or equivalent.
Attributes: Artificial Intelligence

GIS 4113 Introduction to Spatial Networks 3 Credits
Grading Scheme: Letter Grade
Many phenomena of interest in physical, social and cyber environments can be thought of as networks within geographic context. Teaches methods for analyzing these spatial networks, and introduces their applications in geography, transportation, hydrology, epidemiology, social science, etc.
Prerequisite: Entry level knowledge of statistics or instructor permission. Prior experience with ArcGIS is preferred.
Attributes: Artificial Intelligence

GIS 4115C Spatial Surface Modeling and Geostatistics 3 Credits
Grading Scheme: Letter Grade
Teaches principles for modeling and analyzing surfaces of geographic features, such as terrain, temperature, and diseases, with an emphasis on geostatistical (or kriging) analysis. Provides hands-on experiences of using ArcGIS Geostatistical Analyst through lab exercises.
Prerequisite: (STA 2023 or GEO 3162C or equivalent) and GIS 3043 or equivalent or instructor permission.
Attributes: Artificial Intelligence

GIS 4123C GeoAI – Geographic Artificial Intelligence 3 Credits
Grading Scheme: Letter Grade
Integration of Geography and AI, or GeoAI (a subfield of spatial data science), provides novel approaches for addressing a variety of geospatial problems in the natural environment and our human society. Hands-on computing labs using real-world geospatial data to address such AI topics as: image classification, object detection, scene segmentation, simulation and interpolation, retrieval and question answering, on-the-fly data integration, and geo-enrichment.
Prerequisite: Any 3000 level or higher GIS prefix course [GIS3XXX, GIS4XXX] or permission of instructor.
Attributes: Artificial Intelligence

GIS 4324 GIS Analysis of Hazard Vulnerability 3 Credits
Grading Scheme: Letter Grade
Geographic and cartographic techniques for geospatial analysis of risk, vulnerability, and resilience using ArcGIS. Learn to utilize physical and human geographic datasets for multiple hazard contexts including hydrometeorological, climatological, and geophysical hazards.
Prerequisite: GIS 3043 or URP 4273 with minimum grade of C.
Attributes: Artificial Intelligence

GIS 4500 Population GIS 3 Credits
Grading Scheme: Letter Grade
Instruction on geographic and cartographic techniques for geospatial analysis of population, demographic, and socioeconomic data using ArcGIS Pro. Students identify and utilize current and historical secondary population data sources for GIS analysis of population changes, and for mapping of segregation, inequality, and well-being indicators.
Prerequisite: GIS 3043 or GIS 3001C or URP 4273 with minimum grades of C, or GEO 3430 or SYD 4020.
Attributes: Artificial Intelligence

HFT 4442 Artificial Intelligence Revolutions and Applications in Tourism, Hospitality, and Events 3 Credits
Grading Scheme: Letter Grade
Foundational examination of the implications of the artificial intelligence revolution in the tourism, hospitality, and event industry. Includes analyses of AI applications in booking, transportation, theme parks, destination and attraction marketing, economic, social, cultural, and environmental impacts, as well as motivators to travel.
Prerequisite: Junior or Senior Standing.
Attributes: Artificial Intelligence

HFT 4446C GIS and Spatial Analysis for Tourism and Social Data 3 Credits
Grading Scheme: Letter Grade
Utilizes the opportunities provided by dynamically developing methods of geographical information systems (GIS) for visualization and geographic analysis of the data. Students will learn basic skills in working with the industry-standard ESRI ArcGIS software and apply their newly acquired knowledge in solving model problems in tourism research, planning, and development.
Prerequisite: Junior standing or higher
Attributes: Artificial Intelligence

HFT 4746 Smart Cities, Attractions, and Theme Parks 3 Credits
Grading Scheme: Letter Grade
Provides the foundation needed to design smart tourism places. Examines relationships between technology, traveler behavior, and the travel industry. Learn to integrate technology, analytics, marketing, and the design of tourism cities, attractions, and theme parks. Focuses on sustainable/safe/healthy environments with cutting-edge technologies including Artificial Intelligence (AI) and Data Science.
Prerequisite: Junior or Senior Standing.
Attributes: Artificial Intelligence

HOS 4283C Advanced Organic and Sustainable Crop Production 3 Credits
Grading Scheme: Letter Grade
Intensive examination of the methods and techniques necessary for organic and sustainable production and marketing of horticultural products.
Prerequisite: HOS 3281C.
Attributes: Artificial Intelligence

HSA 4191 Health Informatics & Emerging Healthcare Technologies 3 Credits
Grading Scheme: Letter Grade
Provides a fundamental understanding health informatics, healthcare information systems, and emerging healthcare technologies, starting with the core informatics competencies and the foundation of knowledge model.
Prerequisite: PHC 4101 or HSA 3111 or instructor permission.
Attributes: Artificial Intelligence

HUN 4446 Nutrition and Disease: Part 2 3 Credits
Grading Scheme: Letter Grade
Part two of the sequence that focuses on the biochemical and pathophysiological bases of disease/conditions that require specialized nutrition support/medical nutrition therapy.
Prerequisite: HUN 4445 and (BCH 3025 or BCH 4024) and (PCB 4723C or APK 2105C).
Corequisite: DIE 4246.
Attributes: Artificial Intelligence

HUN 4813C Laboratory Techniques in Molecular Nutrition 3 Credits
Grading Scheme: Letter Grade
Laboratory techniques relevant to the study of nutrition, ranging from biochemistry, molecular biology, genomics and bioinformatics.
Prerequisite: CHM 2211 and CHM 2211L;
Corequisite: BCH 3025 or BCH 4024.
Attributes: Artificial Intelligence

ISM 3004 Computing in the Business Environment 4 Credits
Grading Scheme: Letter Grade
Presents fundamental concepts from two perspectives: the individual business computer user and the corporate business computing environment. Introduces common business computing applications; this is not a hands on applications training course. Students use their existing computer skills to complete assignments.
Prerequisite: basic skills for Microsoft Word, PowerPoint, and Excel.
Attributes: Artificial Intelligence

ISM 3013 Introduction to Information Systems 4 Credits
Grading Scheme: Letter Grade
Introduces the role of information systems and technology in an organization with a focus on the use of Access and Excel to solve business problems. Receive the knowledge necessary to earn Microsoft certifications in Access and Excel.
Prerequisite: MAC 2311 or MAC 2233, and sophomore standing.
Attributes: Artificial Intelligence

JOU 3365 Artificial Intelligence in Media and Society 3 Credits
Grading Scheme: Letter Grade
Gain an understanding of artificial intelligence as it applies to the media professions, including journalists reporting on AI. Explore developments in AI technologies as covered by the mass media. Learn to detect exaggeration in descriptions of AI's promise and potential risks and dangers.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

LAA 1330 Site Analysis 3 Credits
Grading Scheme: Letter Grade
Inventory, analysis and evaluation of site development procedures; emphasis on landscape ecology.
Attributes: Artificial Intelligence

LAA 3394C Advanced Design Communication 3 Credits
Grading Scheme: Letter Grade
Focuses on advanced-level digital tools and techniques used in landscape architecture.
Prerequisite: LAA 2376C and LAA 2379C.
Attributes: Artificial Intelligence

MAN 4504 Operations and Supply Chain Management 4 Credits
Grading Scheme: Letter Grade
Managerial concepts and quantitative tools required in the design, operation, and control of production systems and their relationship to business functions.
Prerequisite: BUL 4310 and FIN 3403 and GEB 3373 and MAC 2233 or MAC 2311 and MAN 3025 and MAR 3023 and QMB 3250 and STA 2023 and (Business major or Accounting major)
Attributes: Artificial Intelligence

MCB 4325C R for Functional Genomics 3 Credits
Grading Scheme: Letter Grade
Introduces the Basics of the R Language and to state of the art methods for functional genomics data analysis. Learn how to write R scripts, choose appropriate statistical tools, and how to use Linux environments to analyze high-throughput genomics data.
Prerequisite: STA 2023 and (BSC 2010 or BSC 2011 or MCB 3020 or MCB 3023 or BCH 4024 or CHM 3218).
Attributes: Artificial Intelligence

MET 4410 Radar and Satellite Meteorology 3 Credits
Grading Scheme: Letter Grade
Overview of radar and satellite remote sensing as used in the atmospheric sciences, including the principles of atmospheric radiative transfer, the retrieval of atmospheric variables, and emphasis on geospatial interpretation of imagery for different weather systems.
Prerequisite: PHY 2049 and MET 3503.
Attributes: Artificial Intelligence

MET 4560 Atmospheric Teleconnections 3 Credits
Grading Scheme: Letter Grade
Atmospheric teleconnections are recurring large-scale patterns of pressure and circulation anomalies. They can influence temperature, rainfall, storm tracks and jet stream location and intensity. Examines how these patterns were discovered, how the index that characterizes the phase of each teleconnection is calculated and the weather associated with different phases.
Prerequisite: MET 3503 or GEO 3250 with a minimum B- grade.
Attributes: Artificial Intelligence

MET 4750 Spatial Analysis of Atmospheric Data using GIS 3 Credits
Grading Scheme: Letter Grade
How atmospheric data are collected and analyzed for meteorologic and climatologic-scale research. Where various types of data are obtained and how to analyze data to answer specific research questions.
Prerequisite: GEO 3250 or MET 3503 or MET 4532
Attributes: Artificial Intelligence

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

NUR 4815 Professional Nursing Transformation 3 Credits
Grading Scheme: Letter Grade
Provides an opportunity to apply professional behaviors, clinical reasoning, and evidence-based decision making to address clinical issues related to nursing care. Emphasizes participation in the design and/or implementation of a project relevant to clinical nursing practice and dissemination to peers and stakeholders.
Prerequisite: NUR 4108 and NUR 4768C and NUR 4467C.
Attributes: Artificial Intelligence

NUR 4827 Lead and Inspire 4: Leadership and Innovation in Nursing Practice 2 Credits
Grading Scheme: Letter Grade
Synthesize the roles, functions, and perspectives of the professional nurse utilizing the lead and inspire concepts; emphasizes leadership and innovation to transform professional nursing practice and healthcare systems.
Prerequisite: NUR 4108 and NUR 4467C and NUR 4768C.
Attributes: Artificial Intelligence

PCB 2441 Biological Invaders 3 Credits
Grading Scheme: Letter Grade
This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena using an introduction to plants and animals that are invading Florida and the U.S.; learning why biological invaders are second only to habitat destruction as threatens to natural ecosystems; what makes some species invasive; how to control or prevent invasions; where international commerce may be regulated; and who is affected by such issues. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Artificial Intelligence, General Education - Biological Science

PHC 3621 Ethics in Artificial Intelligence: Who's Protecting Our Health 3 Credits
Grading Scheme: Letter Grade
Explores the ethical challenges of using artificial intelligence in Healthcare and the practice of Public Health. Students will examine predictive models used for making important health decisions, addressing factors that contribute to trustworthy artificial intelligence in health, and analyzing potential for bias, risk, and social inequity in assessing and delivering health and public health interventions.
Prerequisite: PHC 3793.
Attributes: Artificial Intelligence

PHC 3793 Higher Thinking for Healthy Humans: AI in Healthcare and Public Health 3 Credits
Grading Scheme: Letter Grade
Covers history, foundational concepts, and methods on Artificial Intelligence (AI), focusing on public health and healthcare applications, including hands-on practice on graphical/high-level AI software. Doesn't include advanced statistical/machine learning training or programming.
Prerequisite: STA 2023 or equivalent.
Attributes: Artificial Intelligence

PHC 4792 Data Visualization in the Health Sciences 3 Credits
Grading Scheme: Letter Grade
Learn the foundations of information visualization and sharpen skills in understanding, evaluating, and presenting AI-driven public health data. R is primarily used to explore concepts in graphic design, storytelling, data wrangling and plotting, biostatistics, and artificial intelligence.
Prerequisite: STA 2023 or equivalent.
Attributes: Artificial Intelligence

PHI 2631 Ethics and Innovation 3 Credits
Grading Scheme: Letter Grade
Grounding in ethical theory and moral reasoning with a focus on changes at both organizational and societal levels, including, for instance, technological innovations, new business practices, and legal changes. Examines the rights and responsibilities of those making such changes as well as the conditions that facilitate responsible decision making.
Attributes: Artificial Intelligence, General Education - Humanities, Satisfies 4000 Words of Writing Requirement

PHI 3681 Ethics, Data, and Technology 3 Credits
Grading Scheme: Letter Grade
Addresses ethical issues related to data science, algorithmic decision-making, and artificial intelligence. Pairs theoretical discussions of ethics, economics, and policy-making with concrete issues in emerging technologies.
Prerequisite: Sophomore standing or higher or (PHI 2010 or PHI 2100 or PHI 2630, with a minimum grade of C) or (philosophy major or minor) or data science major.
Attributes: Artificial Intelligence

PLS 3223 Plant Propagation 2 Credits
Grading Scheme: Letter Grade
Principles, practices and physiological aspects of the propagation of horticultural and agronomic crops by cuttage, graftage, seedage, micropropagation and other methods.
Prerequisite: BOT 2010C or BSC 2010;
Corequisite: PLS 3223L.
Attributes: Artificial Intelligence

PLS 3223L Plant Propagation Laboratory 1 Credit
Grading Scheme: Letter Grade
Methods of propagating by seeds, bulbs, divisions, layering, cuttings, budding, grafting and micropropagation in a hands-on environment.
Prerequisite: BOT 2010C or BSC 2010.
Attributes: Artificial Intelligence

PSB 4342 Introduction to Cognitive Neuroscience 3 Credits
Grading Scheme: Letter Grade
The biological foundations of human cognition.
Prerequisite: PSB 3340 or instructor permission.
Attributes: Artificial Intelligence

PSB 4343C Laboratory in Cognitive Neuroscience 4 Credits
Grading Scheme: Letter Grade
Practical training in the foundations of cognitive neuroscience with a strong focus on cognitive experiments with human participants. Engage in theoretical work and practical experiments addressing behavioral, cognitive, and physiological processes relationships between biological processes.
Prerequisite: PSB 3340 and EXP 3604 and PSY 3213L and STA 2023.
Attributes: Artificial Intelligence

QMB 3250 Statistics for Business Decisions 4 Credits
Grading Scheme: Letter Grade
Correlation and linear regression, model building, multiple regression, analysis of variance, time series analysis and decision analysis. Regression modeling with computer applications for business problems.
Prerequisite: STA 2023. Open only to students who need this course for their major or who have permission from the WCBA.
Attributes: Artificial Intelligence

QMB 3302 Foundations of Business Analytics and Artificial Intelligence (AI) 4 Credits
Grading Scheme: Letter Grade
Introduces the basics of data analytics and machine learning using the powerful programming language Python. Learn Python basics, how to write programs, and how to use Python to solve real-world problems.
Prerequisite: MAC 2233 OR MAC 2311.
Attributes: Artificial Intelligence

QMB 4701 Managerial Operations Analysis 1 2 Credits
Grading Scheme: Letter Grade
Introduces the concepts and applications of management science; become more confident in understanding and using deterministic analytic models.
Prerequisite: MAC 2233 and STA 2023.
Attributes: Artificial Intelligence

QMB 4702 Managerial Operations Analysis 2 2 Credits
Grading Scheme: Letter Grade
Overview of stochastic applications of management science; learn stochastic modeling techniques and introductory visual basic.
Prerequisite: QMB 4701.
Attributes: Artificial Intelligence

QMB 4930 Special Topics in Operations Analysis/Quantitative Methods 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for in-depth study of topics not offered in other courses and of topics of special current significance.
Prerequisite: department permission.
Attributes: Artificial Intelligence

RTV 3432 Ethics and Problems in Media 3 Credits
Grading Scheme: Letter Grade
Investigation and discussion of social problems, ethics, and responsibilities in media.
Prerequisite: RTV 2100 and RTV 3001 and RTV 2405 and junior standing or higher.
Attributes: Artificial Intelligence

RTV 4420 New Media Systems 3 Credits
Grading Scheme: Letter Grade
Reviews technological development, applications, and implications in media systems; explores relationship between media, technological development and other societal forces to learn to evaluate the future of media systems.
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3001 with minimum grade of C and junior standing or higher or instructor permission.
Attributes: Artificial Intelligence

RTV 4700 Media Law and Policy 3 Credits
Grading Scheme: Letter Grade
Introduction to the laws and regulations affecting the past, present, and future of communication technology, emphasizing free expression, privacy, defamation and intellectual property.
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3001 with minimum grade of C.
Attributes: Artificial Intelligence

RTV 4800 Media Management and Strategy 3 Credits
Grading Scheme: Letter Grade
Concepts and applications in media management and relevant strategic practices, including marketing, business intelligence, finance, management/leadership, strategic planning, innovations, and decision-making in the context of media related industries.
Prerequisite: RTV 4500 and (RTV 4506 or MMC 3420).
Attributes: Artificial Intelligence

WIS 4570C Wildlife Behavior and Conservation 3 Credits
Grading Scheme: Letter Grade
Concise, current, and thorough grounding to the field (theory, practice, and relevance) of animal behavior, with a strong focus on applications of wildlife behavior to achieve successful wildlife conservation gains.
Prerequisite: BSC 2010
Attributes: Artificial Intelligence

WST 3610 Gender, Race and Science 3 Credits
Grading Scheme: Letter Grade
Feminist theories of nature, science, and technology, and how gender and race are critical to the origins of science, the making of scientists, and the politics of contemporary practice.
Prerequisite: (3 credits of WST) or (sophomore standing or higher).
Attributes: Artificial Intelligence

WST 4002 Data Feminisms 3 Credits
Grading Scheme: Letter Grade
Draws from critical data and algorithm studies and feminist science and technology studies to develop critical tools of inquiry needed to approach data within a context of racialized, gendered, colonial, and classed systems of power. Combines practical data workshops with critical readings to analyze data across key uses in domains such as healthcare, security apparatuses, carceral systems, and digital infrastructures.
Prerequisite: Sophomore standing or higher.
Attributes: Ethical-AI

AI Policy and Policies, and Policing | 3 credits
Robots: Threat or Opportunity | 3 credits
Finding your Voice Era of AI | 3 credits

ISM 3004 Computing in the Business Environment 4 Credits
Grading Scheme: Letter Grade
Presents fundamental concepts from two perspectives: the individual business computer user and the corporate business computing environment. Introduces common business computing applications; this is not a hands on applications training course. Students use their existing computer skills to complete assignments.
Prerequisite: basic skills for Microsoft Word, PowerPoint, and Excel.
Attributes: Artificial Intelligence

ISM 3013 Introduction to Information Systems 4 Credits
Grading Scheme: Letter Grade
Introduces the role of information systems and technology in an organization with a focus on the use of Access and Excel to solve business problems. Receive the knowledge necessary to earn Microsoft certifications in Access and Excel.
Prerequisite: MAC 2311 or MAC 2233, and sophomore standing.
Attributes: Artificial Intelligence

JOU 3365 Artificial Intelligence in Media and Society 3 Credits
Grading Scheme: Letter Grade
Gain an understanding of artificial intelligence as it applies to the media professions, including journalists reporting on AI. Explore developments in AI technologies as covered by the mass media. Learn to detect exaggeration in descriptions of AI's promise and potential risks and dangers.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

LAA 1330 Site Analysis 3 Credits
Grading Scheme: Letter Grade
Inventory, analysis and evaluation of site development procedures; emphasis on landscape ecology.
Attributes: Artificial Intelligence

MAN 4504 Operations and Supply Chain Management 4 Credits
Grading Scheme: Letter Grade
Managerial concepts and quantitative tools required in the design, operation, and control of production systems and their relationship to business functions.
Prerequisite: BUL 4310 and FIN 3403 and GEB 3373 and MAC 2233 or MAC 2311 and MAN 3025 and MAR 3023 and QMB 3250 and STA 2023 and (Business major or Accounting major)
Attributes: Artificial Intelligence

MET 4410 Radar and Satellite Meteorology 3 Credits
Grading Scheme: Letter Grade
Overview of radar and satellite remote sensing as used in the atmospheric sciences, including the principles of atmospheric radiative transfer, the retrieval of atmospheric variables, and emphasis on geospatial interpretation of imagery for different weather systems.
Prerequisite: PHY 2049 and MET 3503.
Attributes: Artificial Intelligence

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.
Prerequisite: Junior standing or higher.
Attributes: Artificial Intelligence

PCB 2441 Biological Invaders 3 Credits
Grading Scheme: Letter Grade
This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena using an introduction to plants and animals that are invading Florida and the U.S.; learning why biological invaders are second only to habitat destruction as threatens to natural ecosystems; what makes some species invasive; how to control or prevent invasions; where international commerce may be regulated; and who is affected by such issues. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Artificial Intelligence, General Education - Biological Science

PHC 3793 Higher Thinking for Healthy Humans: AI in Healthcare and Public Health 3 Credits
Grading Scheme: Letter Grade
Covers history, foundational concepts, and methods on Artificial Intelligence (AI), focusing on public health and healthcare applications, including hands-on practice on graphical/high-level AI software. Doesn't include advanced statistical/machine learning training or programming.
Prerequisite: STA 2023 or equivalent.
Attributes: Artificial Intelligence

PHI 3681 Ethics, Data, and Technology 3 Credits
Grading Scheme: Letter Grade
Addresses ethical issues related to data science, algorithmic decision-making, and artificial intelligence. Pairs theoretical discussions of ethics, economics, and policy-making with concrete issues in emerging technologies.
Prerequisite: Sophomore standing or higher or (PHI 2010 or PHI 2100 or PHI 2630, with a minimum grade of C) or (philosophy major or minor) or data science major.
Attributes: Artificial Intelligence

PLS 3223 Plant Propagation 2 Credits
Grading Scheme: Letter Grade
Principles, practices and physiological aspects of the propagation of horticultural and agronomic crops by cuttage, graftage, seedage, micropropagation and other methods.
Prerequisite: BOT 2010C or BSC 2010;
Corequisite: PLS 3223L.
Attributes: Artificial Intelligence

PLS 3223L Plant Propagation Laboratory 1 Credit
Grading Scheme: Letter Grade
Methods of propagating by seeds, bulbs, divisions, layering, cuttings, budding, grafting and micropropagation in a hands-on environment.
Prerequisite: BOT 2010C or BSC 2010.
Attributes: Artificial Intelligence

PSB 4342 Introduction to Cognitive Neuroscience 3 Credits
Grading Scheme: Letter Grade
The biological foundations of human cognition.
Prerequisite: PSB 3340 or instructor permission.
Attributes: Artificial Intelligence

QMB 3250 Statistics for Business Decisions 4 Credits
Grading Scheme: Letter Grade
Correlation and linear regression, model building, multiple regression, analysis of variance, time series analysis and decision analysis. Regression modeling with computer applications for business problems.
Prerequisite: STA 2023. Open only to students who need this course for their major or who have permission from the WCBA.
Attributes: Artificial Intelligence

QMB 3302 Foundations of Business Analytics and Artificial Intelligence (AI) 4 Credits
Grading Scheme: Letter Grade
Introduces the basics of data analytics and machine learning using the powerful programming language Python. Learn Python basics, how to write programs, and how to use Python to solve real-world problems.
Prerequisite: MAC 2233 OR MAC 2311.
Attributes: Artificial Intelligence

QMB 4701 Managerial Operations Analysis 1 2 Credits
Grading Scheme: Letter Grade
Introduces the concepts and applications of management science; become more confident in understanding and using deterministic analytic models.
Prerequisite: MAC 2233 and STA 2023.
Attributes: Artificial Intelligence

QMB 4702 Managerial Operations Analysis 2 2 Credits
Grading Scheme: Letter Grade
Overview of stochastic applications of management science; learn stochastic modeling techniques and introductory visual basic.
Prerequisite: QMB 4701.
Attributes: Artificial Intelligence

RTV 4700 Media Law and Policy 3 Credits
Grading Scheme: Letter Grade
Introduction to the laws and regulations affecting the past, present, and future of communication technology, emphasizing free expression, privacy, defamation and intellectual property.
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3001 with minimum grade of C.
Attributes: Artificial Intelligence

WIS 4570C Wildlife Behavior and Conservation 3 Credits
Grading Scheme: Letter Grade
Concise, current, and thorough grounding to the field (theory, practice, and relevance) of animal behavior, with a strong focus on applications of wildlife behavior to achieve successful wildlife conservation gains.
Prerequisite: BSC 2010
Attributes: Artificial Intelligence

WST 4002 Data Feminisms 3 Credits
Grading Scheme: Letter Grade
Draws from critical data and algorithm studies and feminist science and technology studies to develop critical tools of inquiry needed to approach data within a context of racialized, gendered, colonial, and classed systems of power. Combines practical data workshops with critical readings to analyze data across key uses in domains such as healthcare, security apparatuses, carceral systems, and digital infrastructures.
Prerequisite: Sophomore standing or higher.
Attributes: Ethical-AI

Animal Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Animal Sciences creates new solutions to tomorrow's problems in the areas of teaching, research, and extension, by integrating the most modern technologies available with personal expertise and attention to the needs of both students and industry.
More Info (https://animal.ifas.ufl.edu/)

Curriculum

- Animal Genetics Certificate
- Animal Sciences
- Combination Degrees

Courses

ALS 4932 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural topics not offered in other courses.
Prerequisite: Instructor permission.

ANS 2002 The Meat We Eat 3 Credits
Grading Scheme: Letter Grade
This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena by discussing animal protein production, processing and retailing, and animal muscle in protein in the diet; proper selection, preparation, cooking and storage of animal protein products and their influence on food safety and palatability; meat and muscle chemistry and composition, muscle growth and contraction.
Attributes: General Education - Biological Science

ANS 2005 The Role of Animals in Human History 3 Credits
Grading Scheme: Letter Grade
The course surveys the importance of animals through human history, from the stone age to the present. The domestication of dogs, cats, major farm animals and some less familiar, such as camels, reindeer and buffalo and the role they played in different western societies and cultures across human history is discussed.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ANS 2090 Survey of Veterinary Professions 2 Credits
Grading Scheme: Letter Grade
Introduces careers in the veterinary medicine profession with discussions related to career exploration, career preparation, and the procedure of job placement.

ANS 2615C Introduction to livestock and meat evaluation 3 Credits
Grading Scheme: Letter Grade
Basic elements of live animal evaluation, selection and carcass evaluation.

ANS 2934 Careers in Animal Sciences 2 Credits
Grading Scheme: Letter Grade
Interactive exposure to employment opportunities in the animal sciences.

ANS 3006 Introduction to Animal Science 3 Credits
Grading Scheme: Letter Grade
Role of beef cattle, dairy cattle, swine, sheep, poultry, and horses in serving humans. Introduces anatomy and physiology of digestion, growth, reproduction, and the application of genetics to livestock improvement.
Prerequisite: BSC 2005 or BSC 2010.

ANS 3006L Introduction to Animal Science Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiences designed to accompany ANS 3006; must be registered for ANS 3006 concurrently or have already completed the lecture course.
Corequisite: ANS 3006 for AL majors only.

ANS 3008 Domestic Animal Behavior and Welfare 3 Credits
Grading Scheme: Letter Grade
Introduces basic principles and applications of animal behavior, including approaches to improve animal welfare through an understanding of animal behavior. Examples are drawn from a wide range of species, but the focus is on applying concepts to understand the behavior and welfare of domestic animals under human care, including livestock, companion, and laboratory species.
Prerequisite: sophomore standing or higher.

ANS 3043 Growth and Development of Farm Animals 3 Credits
Grading Scheme: Letter Grade
An integration of the physiological, genetic, and nutritional bases of animal growth, development, and body composition with application to livestock production.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L and ANS3006C or equivalents and AL major.

ANS 3216 Introduction to Equine Science 3 Credits
Grading Scheme: Letter Grade
For those with an interest in equine sciences but with limited equine experience. Principles of equine selection, care, and utilization.
Prerequisite: BSC 2010 or BSC 2010L.

ANS 3217C Equine Health Management 2 Credits
Grading Scheme: Letter Grade
Principles and practices for planning, implementing, and maintaining equine herd health.
Prerequisite: ANS 3006 and AL-equine major.

ANS 3239L Techniques in Equine Science 2 Credits
Grading Scheme: Letter Grade
Introduces the knowledge, horseback, and management skills required for proper daily horse care and conditioning. Designed for those seeking employment requiring basic horse care skills and for novice horse owners.
Prerequisite: ANS 3216 and AL major.

ANS 3246L Beef Production Practicum 2 Credits
Grading Scheme: Letter Grade
Participate in beef cattle production systems under close supervision of faculty and staff; gain knowledge of best management practices regarding cattle handling, tractor, and equipment use, as well as cattle hauling by participating in experiential learning opportunities.
Prerequisite: sophomore or junior standing;
Corequisite: ANS 4243.

ANS 3250L Dairy Cattle Practicum 2 Credits
Grading Scheme: Letter Grade
Practical application of the principles of biology and management of dairy cattle. Topics include milking procedures, behavior, cattle handling, records, and computer applications in dairy production; body condition, lameness and hygiene scoring; dairy farm evaluation; on-farm practica and field trips.
Corequisite: ANS 3251.

ANS 3251 Biology and Management of Dairy Cattle 3 Credits
Grading Scheme: Letter Grade
Biology of dairy cattle and the interrelationship between biology and management. Topics include anatomy and physiology, nutrition, reproduction, genetics, behavior, diseases, dairy products, housing, management, economics, and the environmental impact of dairy production.

ANS 3319C Reproductive Physiology and Endocrinology in Domestic Animals 4 Credits
Grading Scheme: Letter Grade
Principles of reproduction in avian and mammalian farm animals including factors related to the estrous cycle, pregnancy, lactation, semen-production, artificial insemination, pregnancy diagnosis, and environmental factors affecting reproduction.
Prerequisite: ANS 3006 and BSC 2010 and BSC 2010L or equivalents.

ANS 3384C Genetics of Domestic Animals 3 Credits
Grading Scheme: Letter Grade
Basic principles of Mendelian, population, and quantitative genetics as applied to improvement of domestic animals. Selection, inbreeding, and crossbreeding strategies for genetic improvement of livestock.
Prerequisite: ANS 3006 and BSC 2011 and BSC 2011L or equivalents.

ANS 3404C Food Animal Nutrition and Feeding 4 Credits
Grading Scheme: Letter Grade
Studies the basic nutrient requirements of food animals, primarily beef cattle and swine, at specific stages of growth, production, and reproduction; and how scientific methods and experimentation are applied to animal nutrition.
Prerequisite: ANS 3440.

ANS 3405 Equine Nutrition and Feeding Management 2 Credits
Grading Scheme: Letter Grade
The influence of growth, reproduction, and work on the nutrient requirements of horses and the application of that information to the planning of life cycle feeding programs.
Prerequisite: ANS 3440.

ANS 3440 Principles of Animal Nutrition 4 Credits
Grading Scheme: Letter Grade
The nutrients required by animals, their functions interrelationships, and processes of utilization; feedstuff composition and their use in diet and ration formulation.
Prerequisite: CHM 2045 and CHM 2045L, or equivalent.

ANS 3500L Chicken Growth and Development 1 Credit
Grading Scheme: Letter Grade
Practical application of the principles of animal growth and development. Uses the chicken as a model to examine how a particular factor such as genetics, sex, nutrition, and more affect growth and development. Also explores broader implications for animals, producers, and consumers.
Prerequisite: ANS 3006.
Corequisite: ANS 3043.

ANS 3613C Value determination of meat animals 3 Credits
Grading Scheme: Letter Grade
Principles and procedures involved in evaluation, grading, and economic value determination of meat animals and the carcasses they produce.
Prerequisite: Junior standing or higher

ANS 3634C Meats 3 Credits
Grading Scheme: Letter Grade
Integrated studies of the science and technology involved in the utilization of meat animals for food with focus on animal growth, carcass cutability, wholesomeness, palatability, and merchandising of red meat.
Prerequisite: ANS 3006.

ANS 3943C Practicum: Weanling Behavior Modification 2 Credits
Grading Scheme: Letter Grade
This practicum examines equine behavioral modification methods that emphasize a balanced approach for developing an adaptable, responsive young weanling horse using reasonable, achievable training methods.
Prerequisite: Junior or Senior status.

ANS 4079C Relationship of Form to Function in Horses 3 Credits
Grading Scheme: Letter Grade
Principles of conformation and performance evaluation of horses. Studies the anatomy, physiology, and dynamics of the horse as it affects athletic potential and performance.
Prerequisite: ANS 3043 or (APK 2100C and APK 2105C).

ANS 4212L Techniques in Farrier Science 1-2 Credits
Grading Scheme: Letter Grade
How to evaluate and to trim the horse's hoof and to develop a working knowledge of corrective farrier techniques.
Prerequisite: Junior or Senior standing.

ANS 4218C Horse Psychology and Training 2 Credits
Grading Scheme: Letter Grade
Horse behavior, instinct and senses as they relate to training. Principles of training the young foal; ground work, liberty training, and starting the young yearling under saddle; and principles of performance training.
Prerequisite: ANS 3006 and ANS 3440.

ANS 4231 Practicum in Horse Management and Training Technique 1 Credit
Grading Scheme: Letter Grade
Practicum in horse management and training technique
Prerequisite: Sophomore standing or higher.

ANS 4234 Horse Enterprise Management 2 Credits
Grading Scheme: Letter Grade
Management principles essential to the planning and operation of commercial horse enterprises.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3217C and ANS 3319C and ANS 3384C and ANS 3405 and ANS 3440.

ANS 4240C Discovery of Sustainable Cattle Systems 2 Credits
Grading Scheme: Letter Grade
Multidisciplinary experiential learning focused on development of sustainable practices through comprehension and critique of cattle production systems. Encompasses multiple aspects related to cattle systems, including agronomy, human and animal health and nutrition, sociology, and soil science. A key element is the hands-on learning experience where students select a project to carry out on one of the UF/IFAS beef or dairy units.
Prerequisite: ANS 3006.

ANS 4241C Intermediate Horse Training 3 Credits
Grading Scheme: Letter Grade
Continue the training of a recently started under-saddled horse, exhibit horse to potential buyers, and produce annual performance horse sale.
Prerequisite: ANS 4218C.

ANS 4243 Beef Cow-Calf Management 5 Credits
Grading Scheme: Letter Grade
Development and implementation of management programs for commercial cow-calf and purebred beef cattle enterprises.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3319C and ANS 3384C and ANS 3404C and ANS 3440.

ANS 4245 Beef Background and Feedlot Management 2 Credits
Grading Scheme: Letter Grade
Management, marketing, and utilization of beef cattle after weaning. Spring break field trip required.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3440 and ANS 3404C and ANS 3613L and ANS 3634C.

ANS 4318C Equine Reproductive Management 3 Credits
Grading Scheme: Letter Grade
Equine reproduction to include anatomy, the estrous cycle, hormones and pharmacologic manipulation, gametogenesis, embryonic and fetal development, parturition, foal care, assisted technologies, and management strategies.
Prerequisite: ANS 3319C.

ANS 4320C Applied Livestock Reproduction 3 Credits
Grading Scheme: Letter Grade
Provides unique experiences in applied reproductive techniques and management of livestock with rotation through numerous animal teaching units reinforcing classroom curriculum in beef, dairy, equine, small ruminants, and porcine reproduction. Topics include estrus detection, synchronization, management, artificial insemination, ultrasonography, assisted reproductive technologies, semen collection and evaluation, sperm freezing, and embryo handling.
Prerequisite: ANS 3319C.

ANS 4382 Equine Genetics 2 Credits
Grading Scheme: Letter Grade
Examines the underlying mechanisms and inheritance of a number of traits in the horse; includes the impact of domestication on the genome, relationships between breeds, coat color, genetic disease and complex traits of performance and behavior.
Prerequisite: ANS 3384C.

ANS 4383 Genetic analyses of complex traits in livestock 3 Credits
Grading Scheme: Letter Grade
Comprehensive examination of principles of livestock inheritance, QTL mapping strategies and functional genomic approaches used for genomic selection and improvement programs in farm animals.
Prerequisite: ANS 3384C or equivalent.

ANS 4388 Canine and Feline Genetics 3 Credits
Grading Scheme: Letter Grade
Lectures, seminars, and lab exercises on application of genetic principles to canine and feline characteristics provide an in-depth understanding of how these traits are inherited and analyzed. Information on new genomic technologies and their impact on studying specific traits, including coat color and genetic disorders, are discussed.
Prerequisite: ANS 3384C or AGR 3303 or PCB 3063 or equivalent.

ANS 4389L Molecular Techniques in Domestic Animal Genetics 2 Credits
Grading Scheme: Letter Grade
Studies the principles of basic domestic animal molecular biology techniques and provides hands-on experience through laboratory exercises.
Prerequisite: ANS 3384C.

ANS 4605 Animal and Products Evaluation 1 Credit
Grading Scheme: Letter Grade
Intensive training in animal and animal products evaluation.
Prerequisite: instructor permission.

ANS 4623C Pork Production 3 Credits
Grading Scheme: Letter Grade
Principles of modern pork production, including all aspects of swine production management systems (breeding systems, disease control, applied economics, housing, marketing, pork quality, and nutrition in a systems approach), relative to the US/Global pork supply.
Prerequisite: ANS 3006.

ANS 4635C Meat Processing 3 Credits
Grading Scheme: Letter Grade
Basic principles of the use of muscle as food, process technology, meat inspection, regulations, quality control procedures, and marketing aspects.
Prerequisite: ANS 3006 or FOS 3042.

ANS 4701 Physiology of the Mammary Gland and Lactation 2 Credits
Grading Scheme: Letter Grade
Insight into the endocrinology and physiology of the defining characteristics of mammals: the mammary gland and lactation, focusing on the anatomy and development of the mammary gland with an overview of the biochemical, cellular and molecular processes controlling lactation emphasizing on livestock species.
Prerequisite: BSC 2011 and BSC 2011L and ANS 3319C and AG senior.

ANS 4900 Supervised Extension Experience in Animal Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in animal sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.
Prerequisite: Instructor permission.

ANS 4905 Problems in Animal Science 1-3 Credits
Grading Scheme: Letter Grade
Qualified students are assigned a problem involving care and management of livestock or the investigation of a current topic in animal science.
Prerequisite: instructor permission.

ANS 4911 Supervised Research in Animal Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in animal sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: Instructor permission.

ANS 4915 Honors Thesis Research in Animal Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in animal sciences leading to an honors thesis, mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ANS 4931 Senior Seminar 1 Credit
Grading Scheme: Letter Grade
Oral presentation and papers on issues facing the livestock industry.
Prerequisite: AL senior.

ANS 4932 Special Topics in Animal Sciences 1-3 Credits
Grading Scheme: Letter Grade
Special topics in Animal Sciences.
Prerequisite: Sophomore standing or higher.

ANS 4941 Full-Time Practical Work Experience in Animal Science 2-8 Credits
Grading Scheme: S/U
Credit is earned on the basis of one hour per month of employment.
Prerequisite: prior arrangement with advisor.

ATE 2511 Companion Animal Biology and Management 3 Credits
Grading Scheme: Letter Grade
Principles and practices of proper selection, care, nutrition, genetics, reproduction, and training of companion animals, with emphasis on dogs, cats, and selected bird species.

VME 4103 Livestock Health/Disease Prevention 2 Credits
Grading Scheme: Letter Grade
The principal diseases of livestock and practical methods for their prevention and control.
Prerequisite: instructor permission.

Anthropology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural, archaeological, biological and linguistic anthropology.

Courses

AFS 2002 The African Experience: An Introduction to African Studies 3 Credits
Grading Scheme: Letter Grade
Introductory study of African society and culture that examines the richness, diversity, and time-depth of African civilizations.

ANT 1215 Indigenous Values 3 Credits
Grading Scheme: Letter Grade
The relation of Culture and Nature through the worldviews of indigenous people, who understand that their lives are part of, and inseparable from, the natural world. Through a variety of lectures, readings, films, and writing assignments, students explore how indigenous values offer insight on improving the quality of human futures.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 4000 Words of Writing Requirement

ANT 2000 General Anthropology 3 Credits
Grading Scheme: Letter Grade
In this course, students will learn the foundations of anthropology as the study of human variation in its biological, social, and cultural dimensions. Students will learn about anthropological concepts, principles, and methodologies to understand and explore past and present human behavior. They will apply the anthropological approach to analyze issues pertaining to past and contemporary cultures, and develop intellectual skills and habits to understand behavioral, social, and cultural issues from multiple disciplinary perspectives.
Attributes: General Education - Social Science

ANT 2140 Introduction to World Archaeology 3 Credits
Grading Scheme: Letter Grade
The global study of human culture from its origins to the present through the recovery, description and analysis of archaeological remains. Focus is on human cultures worldwide, with comparisons to western civilizations.
Attributes: General Education - Humanities, General Education - International

ANT 2149 Lost Tribes and Sunken Continents 3 Credits
Grading Scheme: Letter Grade
Examines the claims of popular writers in archaeology that mysterious archaeological sites, statues, etc. were influenced by outer space visitors. Problems of diffusion: discussed include Stonehenge, pyramids, Easter Island, Maya spaceships, Atlantis and Mu, Nazca Lines and other archaeological mysteries.

ANT 2301 Human Sexuality and Culture 3 Credits
Grading Scheme: Letter Grade
Examines cultural, biological, and archaeological aspects of human sexuality through time and space, while evaluating sexuality ideas to societal discourse. Investigates personal and cross-cultural views on sexuality, presenting gender identity, sexual orientation, relationships, and sexual ethics. Appropriate for those seeking an integrative approach to human sexuality. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

ANT 2402 Anthropology of Sustainability 3 Credits
Grading Scheme: Letter Grade
Application of the sustainability concept to the study of human interactions with the biophysical environment across space and time. Focuses on human perceptions of and interactions with their biotic surroundings and the myriad linkages between biological, cultural and linguistic diversity.

ANT 2410 Cultural Anthropology 3 Credits
Grading Scheme: Letter Grade
The nature of culture. The content of cultures; languages, subsistence, economic structures, art and religion in human societies. The integration of culture.

ANT 2464 Things Your Doctor Never Told You: Intro to Medical Anthropology 3 Credits
Grading Scheme: Letter Grade
Introduces the field of medical anthropology including key theoretical and empirical areas. Covers how experiences of sickness and health are shaped by cultural context, how culture and biology intersect to shape global and local inequalities in health, and how healing practices and policies are embedded in political, economic, and historical context. Covers topics from diabetes to global pandemics. Applies anthropological perspective to addressing practical health matters globally.
Attributes: General Education - International

ANT 2490 Digital Cultures and Communities 3 Credits
Grading Scheme: Letter Grade
Explores 'the digital' in an anthropological and cross-cultural context. Examines the range of ways digital technologies are reshaping identity, intimacy, community, economy, and politics, and how social scientists conduct research online.

ANT 2700 Introduction to Applied Anthropology 3 Credits
Grading Scheme: Letter Grade
The utility and application of anthropological theories, methods and knowledge for the solution of specific human problems, including discrimination, hunger, disease and underdevelopment.

ANT 3020 Humans and Animals 3 Credits
Grading Scheme: Letter Grade
Examines the complex and multiple relationships that people have with animals, including social, economic, and symbolic connections. Draws on insights from cultural anthropology, archaeology, biological anthropology, and research from multiple other disciplines to explore humans' unique interdependencies with other animals.
Prerequisite: Sophomore standing in CLAS or other college.

ANT 3080 Science & Ethics in Daily Life 3 Credits
Grading Scheme: Letter Grade
Introduces bioethical issues of topics that are encountered in everyday life through the popular media, such as genetic testing and genome modification, and animal experimentation and cognition. Will provide students with an understanding of the scientific basis of the bioethical issues in order to develop informed opinions.
Prerequisite: Sophomore standing

ANT 3141 Development of World Civilization 3 Credits
Grading Scheme: Letter Grade
Discussion of archeological evidence for the development of civilization in its regional variants from the earliest beginning to the dawn of written history. Analyzes causes of cultural development in Old and New World Centers.
Prerequisite: ANT 2000 or ANT 2140 or sophomore standing or above.
Attributes: General Education - International

ANT 3146 Introduction to African Archaeology 3 Credits
Grading Scheme: Letter Grade
Examines the archaeology of African peoples from millions of years ago to the present, with particular emphasis placed on the last ten thousand years of African prehistory. Topics covered include the continent's unique pathways to food production, as well as the development of metallurgy, the rise of complex urban societies such as the Swahili Coast and Great Zimbabwe, and contemporary issues in cultural heritage.
Prerequisite: Sophomore standing or higher.

ANT 3153 North American Archaeology 3 Credits
Grading Scheme: Letter Grade
Interpretive survey of the ancient indigenous history of North America and archaeological approaches to its investigation.
Prerequisite: ANT 2000 or ANT 2140 or sophomore standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

ANT 3162 Aztec Civilization 3 Credits
Grading Scheme: Letter Grade
Detailed examination of Aztec culture and society at 1500 AD from ethnohistorical and archaeological evidence, including family life; social, political and economic organization; warfare; religion; and relationships with neighboring peoples.
Prerequisite: ANT2000 or ANT2140 or sophomore standing or higher.

ANT 3164 The Inca and Their Ancestors 3 Credits
Grading Scheme: Letter Grade
Archaeologically traces the evolution of the Inca Empire back through earlier Andean states and societies to the beginning of native civilization.
Prerequisite: ANT 2000 or ANT 2140 or sophomore standing or higher.
Attributes: General Education - International

ANT 3181 Anthropological Museology 3 Credits
Grading Scheme: Letter Grade
The history and purpose of anthropological museums in the formation of the discipline and the modern role of the museum in both anthropological education and research.
Prerequisite: ANT 2000 or ANT 2410 or sophomore standing or higher.

ANT 3186 Introduction to Zooarchaeology 3 Credits
Grading Scheme: Letter Grade
Introduces the identification, analysis and interpretation of animal remains from archaeological sites. Methods of quantification and skeletal measurements to understand technology and human behavior are addressed. Topics include identification of subsistence patterns, coastal economies, animal domestication, taphonomy, environmental inferences from faunal remains and historical use of subsistence resources.
Prerequisite: one course in archaeology.

ANT 3241 Anthropology of Religion 3 Credits
Grading Scheme: Letter Grade
Cross-cultural survey of beliefs and practices dealing with the supernatural, magic, and religion. Conceptualization of the supernatural. Sacred specialists, their function, and social position. Theories of comparative religion in light of anthropological data.
Prerequisite: ANT 2000 or ANT 2140 or sophomore standing or higher.

ANT 3302 Global Gender Issues 3 Credits
Grading Scheme: Letter Grade
Cross-cultural perspective on how gendered meanings and practices structure society and shape the life experiences of people globally. Topics include biology, gender, and sexual identity; social constructions of parenthood; reproduction, kinship, and the household; colonialism and development; religion, ritual, and personhood; gender in domestic and public spaces.
Prerequisite: ANT 2000 or ANT 2140 or sophomore standing or higher.

ANT 3364 Peoples and Cultures of China 3 Credits
Grading Scheme: Letter Grade
Comprehensive introduction to the diversity and change of Chinese culture and society based on ethnographic studies, theoretical analysis, and historical survey by Western and Chinese scholars.
Prerequisite: ANT 2000 or ANT 2140 or sophomore standing or higher.

ANT 3390 Visual Anthropology 3 Credits
Grading Scheme: Letter Grade
Uses photography and film as tools and products of social science. Ways of describing, analyzing and presenting behavior and cultural ideas through visual means. Projects and laboratory work with visual anthropology. (WR)
Prerequisite: basic knowledge of photography or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

ANT 3420 Consumer Culture 3 Credits
Grading Scheme: Letter Grade
Examination of the cultural bases for the consumption of commodities in modern society, employing anthropological concepts and social science methods. Primary emphasis is on the social relationships enacted between people and the things they live with.
Prerequisite: Sophomore standing or higher.

ANT 3451 Race and Racism 3 Credits
Grading Scheme: Letter Grade
Survey of the race concept from the perspectives of cultural and biological anthropology. Examines patterns of human biological variation, traces history of race concept, and explores experiences of racism in cross-cultural perspective.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

ANT 3453 The Slave Narrative 3 Credits
Grading Scheme: Letter Grade
Documents the slave narrative genre over time, from the 18th to early 20th centuries; examines the narratives as literature, political discourse, as biography. Appropriate course for students considering a major or minor in Anthropology, as well as students in African American Studies or History.
Prerequisite: 3 credits of any ANT 2000 level course.

ANT 3467 Food and Culture 3 Credits
Grading Scheme: Letter Grade
The role of food in human culture through time and in different geographical settings. Among topics considered are the biological basis of human diet and how it differs from other primates; how food habits develop and change as a result of cultural interaction; and the ritual and religious uses of food. Examines the diets of traditional cultures and the effects of modernization on diet and health.
Prerequisite: ANT 2000 or ANT 2140 or sophomore standing or higher.

ANT 3478 Global Health Culture 3 Credits
Grading Scheme: Letter Grade
Examines the ways in which diverse societies in the United States and abroad construct illness and health experiences, balance healing traditions with multiple forms of medical practice and integrate the human experiences of illness, recovery and death with the technical world of biomedicine.
Prerequisite: Sophomore standing or higher.

ANT 3514C Introduction to Biological Anthropology 4 Credits
Grading Scheme: Letter Grade
Introduces the subfield of anthropology that focuses on the natural history of humankind. Through lecture and laboratory, surveys a range of materials that focus on the diversity of the Order Primates with an emphasis on human and primate variation, adaptation, and evolution.
Prerequisite: Sophomore standing or higher.

ANT 3515 Human Evolutionary Anatomy 3 Credits
Grading Scheme: Letter Grade
Survey of human anatomy from evolutionary and embryological perspectives. The phylogenetic and functional basis for human form. Anatomical principles underlying developmental and functional disorders are explored through clinical and comparative examples.
Prerequisite: ANT 3514C or (BSC 2010 and BSC 2011) or PCB 4674.

ANT 3520 Skeleton Keys: Forensic Identification 3 Credits
Grading Scheme: Letter Grade
Survey of forensic anthropology, an applied field of biological anthropology, focusing the wider scope of skeletal biology on problems of medicolegal significance, primarily in determining personal identity and cause of death from human remains.
Prerequisite: Sophomore standing or higher.

ANT 3555 Monkeys, Apes, and Lemurs 3 Credits
Grading Scheme: Letter Grade
Foundational overview of the world's primates and the discipline of primatology. Key elements include primate taxonomy, distribution, behavior, ecology, and conservation. Recommended precursor to all other primate courses in the department.
Prerequisite: Sophomore standing or higher.

ANT 3620 Language and Culture 3 Credits
Grading Scheme: Letter Grade
Role of speech in individual, social, and cultural settings. Linguistic basis of thought and perception. Mythological studies and analysis. Bilingualism, biculturalism, and minority language politics in current perspective.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International

ANT 3703 Business Anthropology 3 Credits
Grading Scheme: Letter Grade
How to get a field-specific job: writing resumes, job interviews, and social science methods and their applications. Provides a general overview of the business anthropology field.

ANT 3860 Writing in Anthropology 3 Credits
Grading Scheme: Letter Grade
Professional writing in the discipline of anthropology. (WR)
Prerequisite: Junior standing or higher in anthropology.

ANT 3930 Junior Topics Class in Anthropology 3 Credits
Grading Scheme: Letter Grade
This course is designed for junior level students to explore special topics classes in the various subfields of anthropology.
Prerequisite: Sophomore standing or higher.

ANT 4006 Human Rights and Culture 3 Credits
Grading Scheme: Letter Grade
Examines the nature of human rights cross-culturally, focusing on the history of the concept, universalism vs. particularism, religion, gender, race, regionalism, and modern human rights conventions.
Prerequisite: Sophomore standing or higher.

ANT 4034 History of Anthropological Theory 3 Credits
Grading Scheme: Letter Grade
The history and development of anthropological theory. Methods in anthropological research. Directed reading of major theoretical publications. (WR)
Prerequisite: one cultural anthropology course or instructor permission.

ANT 4110 Archaeological Theory 3 Credits
Grading Scheme: Letter Grade
Survey of the theoretical and methodological tenets of anthropological archaeology; critical review of archaeological theories, past and present; relation of archaeology to anthropology.
Prerequisite: one course in archeology and/or anthropology, or instructor permission.

ANT 4111 Digital Methods in Archaeology 3 Credits
Grading Scheme: Letter Grade
Focus on acquiring and using digital data in archaeology. Addresses questions of what digital data are, where they come from, and what they are used for, as well as how archaeologists collect, manipulate, and display digital data. Surveys digital methods of archaeological documentation and exploration through hands-on practice and critical discussion of published case studies.
Prerequisite: ANT 2140.

ANT 4112 Ideology and Symbolic Approaches in Archaeology 3 Credits
Grading Scheme: Letter Grade
Critically examines the development of thought in archaeology that goes beyond a materialist interpretation of culture. This seminar explores questions of causality and the role of mind and culture as a mediator between the environment and political, economic and social structures.
Prerequisite: instructor permission.

ANT 4113 Experimental Archaeology 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and applications of experimental archaeology, drawing on a broad range of case studies that illustrate the numerous experimental methods that archaeologists have used to solve analytic or interpretive problems.
Prerequisite: instructor permission.

ANT 4114 Principles of Archaeology 3 Credits
Grading Scheme: Letter Grade
Basic principles of archaeological science. Field and laboratory techniques (site survey, mapping, excavation, artifact analysis, dating). Foundational methods to interpret archaeological data to understand cultural and natural processes in the past. Legal and ethical issues of heritage management and stewardship of the archaeological record. (WR)
Prerequisite: ANT 2140 or ANT 3141.

ANT 4117 Archaeological Data Analysis and Visualization 3 Credits
Grading Scheme: Letter Grade
Introduces students to the basic quantitative methods required to describe and analyze archaeological data. Asks students to practice using statistical techniques to explore archaeological questions. Emphasizes not only statistical methods, but also 1) how to construct and critically evaluate arguments grounded in quantitative data, and 2) how to explore, analyze, and display data in the open-source R statistical environment.
Prerequisite: ANT 2140.

ANT 4147C Environmental Archaeology 3 Credits
Grading Scheme: Letter Grade
Theory and case studies in environmental archaeology, integrating zooarchaeology, archaeobotany and geoarchaeology, are used to interpret past human interactions with the natural environment.
Prerequisite: instructor permission.

ANT 4168 Maya Civilization 3 Credits
Grading Scheme: Letter Grade
In-depth study of the pre-Hispanic Maya civilization based on archaeological and epigraphic information. Includes methods for constructing knowledge of this civilization and discussion of current controversies.
Prerequisite: ANT 2140 or ANT 3141 or instructor permission.

ANT 4180L Laboratory Training in Archaeology 1-3 Credits
Grading Scheme: Letter Grade
Processing of data recovered in field excavations; includes cleaning, identification, cataloguing, classification, drawing, analysis, responsibilities of data reporting.
Prerequisite: an introductory-level archeology course.

ANT 4193 Ethnoarchaeology 3 Credits
Grading Scheme: Letter Grade
A seminar that draws on case studies to examine the theoretical and methodological approaches to enthnoarchaeology. Students will apply these approaches in field exercises.
Prerequisite: instructor permission.

ANT 4194 A Critical Archaeology of Time 3 Credits
Grading Scheme: Letter Grade
Seminar that draws on case studies to explore problems at the intersection of measured time in archaeology, and the practice and reckoning of time in mostly non-Western societies.
Prerequisite: instructor permission.

ANT 4204 Migration and Borders 3 Credits
Grading Scheme: Letter Grade
Examining the multifaceted dimensions of migration and border issues, emphasizing the historical, social, and political contexts influencing contemporary migration patterns. Engaging students with case studies, analyzing policy frameworks, and assessing the impact of migration and border management on migrants and their sending and receiving countries. Exploring critical theoretical frameworks, real-world ethnographic cases, and analyzing the socio-political, economic, and ethical dimensions.

ANT 4213 Global Humankind 3 Credits
Grading Scheme: Letter Grade
Advanced analysis of experiences and strategies for tackling classic dilemmas of the human condition in interconnected cultural works. Examination of how basic lifestyle decisions and actions are experienced locally and their global consequences. Anthropological theories and concepts are discussed in tandem with case studies from around the world.
Prerequisite: one 2000 or 3000 level ANT course or instructor permission.

ANT 4266 Economic Anthropology 3 Credits
Grading Scheme: Letter Grade
Consideration of economic philosophies and the behavioral bases of formal economic theories. Cross-cultural studies of production, distribution and consumption, money, and the acquisition of goods. Reviews the latest materials from cultural ecology, Marxism, formalism, substantivism, and discourse-centered approaches.
Prerequisite: one anthropology course or instructor permission.

ANT 4273 Anthropology of Law 3 Credits
Grading Scheme: Letter Grade
Cross-culturally examines legal systems with a focus on the interrelationship of law with culture, society, economics, and politics.
Prerequisite: Sophomore standing or higher.

ANT 4274 Political Anthropology 3 Credits
Grading Scheme: Letter Grade
The problem of identifying political behavior. Natural leadership in bands, tribes and small groups. Acephalous societies and republican structures. Kingship and early despotic states. Theories of bureaucracy.
Prerequisite: an introductory course in the social sciences, or instructor permission.

ANT 4336 The Peoples of Brazil 3 Credits
Grading Scheme: Letter Grade
Ethnology of Brazil; covers historical, geographic, and socioeconomic material and representative monographs from the various regions of Brazil are read. The contribution of the Indian, Portuguese, and African to modern Brazilian culture.
Prerequisite: Sophomore standing or higher.

ANT 4352 Peoples of Africa 3 Credits
Grading Scheme: Letter Grade
Anthropological survey of the culture, history, and ethnographic background of the peoples of Africa. A basis for appreciation of current problems of acculturation, nationalism, and cultural survival and change among African peoples.
Prerequisite: Sophomore standing or higher.

ANT 4354 The Anthropology of Modern Africa 3 Credits
Grading Scheme: Letter Grade
Study of continuity and change in contemporary African societies with special reference to cultural and ethnic factors in modern nations.
Prerequisite: 3 credits of ANT.

ANT 4366 Family, Gender and Population in China 3 Credits
Grading Scheme: Letter Grade
This seminar examines the processes by which the family system, gender relations, and population configuration interact with each other to become powerful forces in shaping contemporary China's political, social, and economic conditions.
Prerequisite: instructor permission.

ANT 4392 Peoples of the Artic 3 Credits
Grading Scheme: Letter Grade
An anthropological survey of the culture, history and ethnographic background of the circumpolar Artic. An investigation of the problems of acculturation, human ecology, cultural survival and self-determination of Northern Indigenous Peoples.
Prerequisite: ANT 2140.

ANT 4394 Hospital Ethnography: Theory, Method, and Ethics 3 Credits
Grading Scheme: Letter Grade
Serves as a primer in the burgeoning area of hospital ethnography, covering its roots, how it continues to evolve, and methodological and ethical issues unique to doing ethnography in clinical settings, through journal articles and monographs. Uses course texts to analyze how hospital ethnography enables insight into broader public policy issues related to topics such as governance, accountability, gender equity, and sectarian conflict. Students produce content for website on best practices.
Prerequisite: (ANT 2000 or ANT 2410) and (ANT 3478 or ANT 4462).

ANT 4403 Environment and Cultural Behavior 3 Credits
Grading Scheme: Letter Grade
Interaction of people and their environment as mediated by cultural institutions. Levels of socioeconomic adaptation in hunting and gathering, pastoral, and agricultural societies. Warfare and ritual as ecological mechanisms.
Prerequisite: 3 credits of ANT.

ANT 4426 Cattle Cultures 3 Credits
Grading Scheme: Letter Grade
Explores the archaeology and anthropology of "cattle cultures." Focuses on the ecological, political, and cultural strategies that have made cattle pastoralism dynamic and sustainable throughout prehistory and into the current era. Case studies of cattle cultures will focus on eastern Africa, the Amazon, India, and Florida.
Prerequisite: 3 credits of ANT or ANS coursework.

ANT 4462 Culture and Medicine 3 Credits
Grading Scheme: Letter Grade
Surveys the field of medical anthropology and its interdisciplinary context; examines contemporary approaches and the development of an applied field concerned with human sickness and healing.
Prerequisite: 3 credits of ANT.

ANT 4468 Health and Disease in Human Evolution 3 Credits
Grading Scheme: Letter Grade
Review of pathology as evidenced in fossil and archaeological records. Interpretation of disease in a biocultural context.
Prerequisite: ANT 3514C, or instructor permission.

ANT 4484 Anthropology of Pregnancy, Birth, and Early Childhood Development 3 Credits
Grading Scheme: Letter Grade
Uses a medical anthropological lens to examine variability in health among pregnant mothers and early childhood development cross-culturally, drawing on critical and biocultural accounts. Focuses on several aspects of maternal heath including reproductive ecology and fetal growth, birth experience, reproductive loss, breastfeeding, and early childhood development.
Prerequisite: ANT 2410 and ANT 3478 or ANT 4462.

ANT 4495 Ethnographic Methods 3 Credits
Grading Scheme: Letter Grade
Introduces the basic theoretical, methodological, ethical, and practical concerns in the making of ethnography. In addition to readings and discussions, students conduct a micro-project to gain hands-on experience in ethnography.
Prerequisite: ANT 2000.

ANT 4525 Human Osteology and Osteometry 3 Credits
Grading Scheme: Letter Grade
Human skeletal identification for the physical anthropologist and archaeologist. Techniques for estimated age at death, race, and sex from human skeletal remains. The measurement of human skeleton for comparative purposes.
Prerequisite: ANT 3514C.

ANT 4530 Genetic Perspectives on Human Diversity 3 Credits
Grading Scheme: Letter Grade
Based on most recent journal articles, examines current applications of molecular data to questions of human evolution and genetics.
Prerequisite: BSC 2011 or instructor permission.

ANT 4531 Molecular Genetics of Disease 3 Credits
Grading Scheme: Letter Grade
Examines molecular genetics of human disease. Discusses a range of diseases from single-gene recessive defects to complex diseases.
Prerequisite: BSC 2011 or instructor permission.

ANT 4539 Evolutionary Medicine 3 Credits
Grading Scheme: Letter Grade
Examines the intersection of evolution, culture, and environment as influencing factors on the emergence and existence of human diseases and pathogens using interdisciplinary methods, but focusing on Darwinian (evolutionary medicine) examination of illness. Students will explore, assess, and solve real world problems through critical-thinking assignments that solidify understanding of the scientific method.
Prerequisite: ANT 3514C or BSC 2011/2011L.

ANT 4552 Primate Behavior 3 Credits
Grading Scheme: Letter Grade
Deals with concepts of primate behavior, including ecology, diversity, and sociality. Investigates the interconnection of ecology and behavior with implications for the origins of human behavior. Gain practical skills in conducting scientific methods collecting primate behavioral data and be guided in a stepwise process.
Prerequisite: ANT 3555 or ANT 3514C, or permission from instructor.
Attributes: Satisfies 6000 Words of Writing Requirement

ANT 4554C Primate Evolution 3 Credits
Grading Scheme: Letter Grade
Survey of primate evolution from Paleocene through Miocene epochs. Methods of paleontological inference. Emphasis on problems of taxonomy, phylogeny, biogeography and functional morphology in the fossil record.
Prerequisite: ANT 3514C or instructor permission.

ANT 4586 Human Evolution 3 Credits
Grading Scheme: Letter Grade
Surveys the evidence for the evolution of humankind. Emphasis is placed on the late Miocene to Pleistocene human fossil record and its interpretation. Basic principles of geology, systematics, evolutionary theory, functional morphology, and phylogenetic reconstruction are introduced and used to aid in understanding the human fossil and archaeological records.
Prerequisite: ANT 3514C or the equivalent.

ANT 4740 Introduction to Forensic Science 3 Credits
Grading Scheme: Letter Grade
Basic concepts and topics in forensic science, medicine, and criminalistics. Also provides basic understanding of the fundamental concepts of scientific methodology.
Prerequisite: 3 credits of ANT.

ANT 4824 Field Sessions in Archaeology 6 Credits
Grading Scheme: Letter Grade
Excavation of archaeological sites, recording of data, laboratory handling and analysis of specimens, and study of the theoretical principles which underlie field methods and artifact analysis.
Prerequisite: 6 credits of anthropology or instructor permission.

ANT 4851 Digital Anthropology 3 Credits
Grading Scheme: Letter Grade
Investigation into how the emerging digital environment affects humans and societies. The study of digital technologies in comparative cultural contexts. Analysis of digital technology as a form of material culture. Introduction to theoretical perspectives on digital phenomena and the applications of these technologies in anthropology and other disciplines.
Prerequisite: one 2000 or 3000 level ANT, LAS, or AFS course or instructor permission.

ANT 4852 Applying GIS in Archaeological Research 3 Credits
Grading Scheme: Letter Grade
Examines use of Geographic Information Systems (GIS) for management and analysis of geospatial data in anthropology, experimenting with methods and critically examining case studies. Covers both methodology (collecting data in the field, using publicly-available data; integrating and querying them in a GIS) and theory (the nature of spatial data; scales and topics of analysis). Also examines selected case studies and considers critiques that have been leveled at GIS and spatial analysis.
Prerequisite: ANT 2140.

ANT 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Individual, supervised research on a specific topic in anthropology.
Prerequisite: instructor permission.

ANT 4907 Research Projects in Anthropology 1-5 Credits
Grading Scheme: Letter Grade
For students undertaking directed research in supplementary or regular coursework or on special problems.
Prerequisite: instructor permission.

ANT 4911 Undergraduate Research in Anthropology 0-3 Credits
Grading Scheme: Letter Grade
Course provides firsthand, supervised research in Anthropology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Anthropology.

ANT 4914 Department Honors in Anthropology 3 Credits
Grading Scheme: Letter Grade
Open to students meeting department honors criteria and normally taken in the senior year. Students will develop special interests and write an essay based upon this research.
Prerequisite: undergraduate coordinator permission.

ANT 4930 Special Topics in Anthropology 3-5 Credits
Grading Scheme: Letter Grade
Rotating content in anthropology.
Prerequisite: 10 credits in anthropology or instructor permission. With permission, can be repeated with change in content up to 9 credits.

ANT 4931 Capstone in Anthropology 3 Credits
Grading Scheme: Letter Grade
Anthropology capstone focusing on the integration of core knowledge from the subfields of anthropology and their application to historical and contemporary topics. Explores application of anthropological knowledge for both preprofessional development and non-professional careers.
Prerequisite: Senior standing in anthropology.

ANT 4956 Overseas Studies in Cultural Anthropology 3-9 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved UF study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

Applied Physiology and Kinesiology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Applied Physiology & Kinesiology (APK) studies the immediate and lasting effects of exercise and its use in performance enhancement and disease prevention and rehabilitation.
More Info (http://hhp.ufl.edu/about/departments/apk/)

Curriculum

- Applied Physiology and Kinesiology

Courses

APK 1002 Body Basics: An Introduction to Human Anatomy and Physiology 3 Credits
Grading Scheme: Letter Grade
This introductory integrated anatomy and physiology course covers a broad range of basic biological and physiology concepts in the context of the human body. The presented concepts provide a basis for understanding the relations between structure and function from the chemical to organismal levels.

APK 2093 Career Perspectives in Applied Physiology and Kinesiology 1 Credit
Grading Scheme: Letter Grade
Explore careers in industry related to applied physiology and kinesiology. Refine skills such as professional networking, scientific communication, and global/international engagement while incorporating artificial intelligence to create documents and prepare for interviews. Students will leave the class with a portfolio that comprises a personal statement, resume, letter of recommendation, headshot, and sample slides demonstrating effective scientific communication.

APK 2100C Applied Human Anatomy with Laboratory 4 Credits
Grading Scheme: Letter Grade
Study of general anatomy of the human body from a systematic approach. Understanding anatomical terminology, gross structures, and locations of different body structures are primary concerns. Cells, tissues, and organs of the integumentary, skeletal, muscular, nervous, circulatory, respiratory, digestive, urinary and reproductive systems are emphasized. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

APK 2105C Applied Human Physiology with Laboratory 4 Credits
Grading Scheme: Letter Grade
Introduction to body functions at the cellular, tissue, organ and systems level with emphasis on the mechanisms of operation. Designed for students interested in pursuing study in the health professions. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - Biological Science

APK 2322 Exercise as Medicine 3 Credits
Grading Scheme: Letter Grade
This Quest 2 course utilizes the disciplines of applied physiology, health education, medicine, healthcare economics, and government/public policy to explore the challenges associated with exercise as an everyday lifestyle among Americans. In this class, we will identify and investigate the role various entities play in fostering exercise behavior.
Attributes: Quest 2, General Education - Social Science, Satisfies 4000 Words of Writing Requirement

APK 3110C Physiology of Exercise and Training 3 Credits
Grading Scheme: Letter Grade
Survey in exercise physiology which provides an overview of the acute and chronic responses to exercise. Particular attention is placed on understanding muscle bioenergetics and metabolism as well as the cardiopulmonary responses to exercise. Special topics include exercise testing, training technologies and exercise in hot and cold environments.
Prerequisite: APK 2105C or (BSC X094+L or BSC X086+L or PET X322+L or PCB 3703C) with minimum grades of C; junior standing or above; Applied Physiology & Kinesiology majors only.

APK 3113C Principles of Strength and Conditioning 3 Credits
Grading Scheme: Letter Grade
For those interested in becoming certified personal trainers (NSCA-PT) or certified strength and conditioning specialists (CSCS) through the National Strength and Conditioning Association.
Prerequisite: APK 2100C and (APK 2105C or BSC X094+L or BSC X086+L or PET X322+L or ZOO 3733C and PCB 3703C) with minimum grades of C.

APK 3163 Sport Nutrition 3 Credits
Grading Scheme: Letter Grade
Addresses the aspects of nutrition that are related to exercise performance. Emphasis is on bioenergetic systems, nutrient components, nutritional and body composition assessments, ergogenic aids and diet modifications for physically active individuals and athletes.
Prerequisite: HUN 2201 and (APK 2105C or BSC X094+L or BSC X086+L or PET X322+L or PCB 3703C).

APK 3200 Motor Learning 3 Credits
Grading Scheme: Letter Grade
Provides background for understanding, analyzing and teaching skills in sports and dance. Attention to specific aspects of psychomotor developments and theoretical models of skill acquisition.
Prerequisite: junior standing or higher and Applied Physiology and Kinesiology major.

APK 3220C Biomechanical Basis of Movement 3 Credits
Grading Scheme: Letter Grade
Fundamentals of kinematics and kinetics related to human movement. Basics of biomechanics applied to the concepts of injury prevention and performance improvement. Overview of various biomechanical data collection and analysis.
Prerequisite: ((APK 2100C or BSC X094+L or BSC X086+L or PET X322+L or ZOO 3733X) and MAC 1140 or MAC 1147 or MAC 2311 or MAC 2312 with a minimum grade of C) OR (PHY 2048 or PHY 2053 with a minimum grade of C).

APK 3400 Introduction to Sport Psychology 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of the science and practice of sport psychology from both a theoretical and applied perspective. The primary emphasis is on the educational and performance enhancement roles of the field with little discussion of clinical issues.
Prerequisite: Junior standing or higher.

APK 3405 Exercise Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces exercise psychology. Topics include the effects of exercise on psychological well-being, exercise adherence and intervention from both theoretical and applied perspectives.
Prerequisite: Junior standing or higher.

APK 4050 Research Methods 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of basic research methods and techniques used in applied physiology and kinesiology. Students will demonstrate their knowledge of the course materials by analyzing, interpreting and summarizing research writing in professional journals and by planning a research study.
Prerequisite: APK major with 3, 4, 6 or 7 classification.

APK 4101 Fundamentals of Skeletal Muscle 3 Credits
Grading Scheme: Letter Grade
Provides a comprehensive background of skeletal muscle properties, focusing on key aspects of function at the protein, cellular, and whole organ level. Major topics include muscle contraction and force generation, fuel sources and energy utilization, growth and development, and an introduction to pathology.
Prerequisite: (APK 2105C or BSC X094+L or BSC X086+L or PET X322+L or PCB 3703C with a minimum grade of B) and junior standing or higher.

APK 4103C Kinetic Anatomy 3 Credits
Grading Scheme: Letter Grade
Provides in-depth coverage of musculoskeletal anatomy as a foundation for learning components of simple and complex motor tasks; emphasizes proper execution and analysis of joint movement and common exercises.
Prerequisite: APK 2100C (or equivalent).

APK 4106C Clinical Anatomy for the Exercise Sciences 3 Credits
Grading Scheme: Letter Grade
The course is designed for students to learn advanced dissection skills from a whole systems approach with the intent of practical application. The primary focus will involve human cadaver dissection. The role of anatomical structures as they relate to musculoskeletal injury mechanisms, evaluation, and rehabilitation will be emphasized.
Prerequisite: (APK_BS) & (APK2100C or equivalent)

APK 4112 Advanced Exercise Physiology 3 Credits
Grading Scheme: Letter Grade
Provides a detailed understanding of acute and chronic responses to exercise. Particular attention is placed upon understanding the physiological responses to exercise at both a systems and cellular level. Emphasis is placed on muscle contractile properties, muscle bioenergetics and the endocrine responses to exercise.
Prerequisite: APK 3110C with minimum grade of C.

APK 4115 Neuromuscular Aspects of Exercise 3 Credits
Grading Scheme: Letter Grade
Provides an in-depth analysis of muscle structure and function; how muscles produce movement; adaptation of muscle to resistance training, endurance training and various manipulations used in rehabilitations; adaptation of muscle to disuse; and muscle responses to injury.
Prerequisite: APK 3110C with minimum grade of C.

APK 4120 Clinical Exercise Physiology 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of recent advances in exercise physiology and exercise prescription for clinical populations. Particular attention is placed upon the study of acute and chronic responses to exercise in patients with cardiac, pulmonary, metabolic and musculoskeletal diseases.
Prerequisite: APK 3110C with minimum grade of C.

APK 4125C Physical Fitness Assessment and Exercise Prescription 3 Credits
Grading Scheme: Letter Grade
Techniques of assessing physical fitness using traditional and state of the art processes. Techniques of prescribing exercise programs based upon assessments of physical parameters. Supervised practical lab experiences in assessment and prescription in a clinical setting.
Prerequisite: APK 3110C with minimum grade of C and Health and Human Performance major.

APK 4144 Movement Neuroscience 3 Credits
Grading Scheme: Letter Grade
Covers both anatomical and physiological aspects of movement-related components of the nervous system from a functional perspective. Topics include: neuronal signaling; somatosensation; proprioception; nociception; vision and eye movements; audition; lower vs. upper motor neurons; cortical, basal ganglia and cerebellar regulation of movement; and posture.
Prerequisite: (APK 2100C and APK 2105C or BSCX094+L or BSCX086+L or PETX322+L or ZOO 3733c and PCB 3703c with minimum grades of C) and (sophomore standing or higher) and Applied Physiology and Kinesiology major.

APK 4720 Artificial Intelligence for Movement Sciences 3 Credits
Grading Scheme: Letter Grade
Apply AI technologies to the study of movement in healthy and diseased human populations. Utilize programming and data visualization while covering classical concepts of machine learning (e.g. linear regression and classification, ensemble-based algorithm, clustering, and neural networks) and modern machine learning methods for images and video processing (e.g. convolutional neural networks and transformers).
Prerequisite: (MAC 1147 or MAC 2311 or STA 2023 or APK 3220C or BME 3219 (or obtain instructor permission) or EEL 3872) and PHI 3681.
Attributes: Artificial Intelligence

APK 4721 AI in Action: Problem Solving in Health, Fitness and Human Performance 3 Credits
Grading Scheme: Letter Grade
In this classroom-based undergraduate research experience (CURE) course, students will collaborate on a research project addressing real-world challenges found in the industry-related roles in Applied Physiology and Kinesiology. Using AI to develop innovative solutions, students will gain practical experience and industry-relevant skills for careers in health, fitness, and human performance fields.
Prerequisite: APK4050 Research Methods.
Attributes: Artificial Intelligence

APK 4905C Variable Topics in Exercise and Sport Sciences 1-6 Credits
Grading Scheme: Letter Grade
Offered upon request to meet special interests that are not adequately provided in other courses.
Prerequisite: department chair permission.

APK 4912 Undergraduate Research 0-5 Credits
Grading Scheme: S/U
Provides APK students the opportunity for involvement in supervised research experiences. "Research" is operationally defined here as mentored, but self-directed work that enables students to explore an issue of interest to them and to communicate the results to others.

APK 4940C Internship 6-12 Credits
Grading Scheme: S/U
Internship in applied physiology and kinesiology.
Prerequisite: APK 2105C or (BSC X094+L or BSC X086+L or PET X322+L or PCB 3703C) with minimum grades of C; junior standing or above; Applied Physiology & Kinesiology majors only.

APK 4943 Teaching Experience in APK 0-1 Credits
Grading Scheme: S/U
Experience teaching as an undergraduate assistant; responsibilities meet the needs of the particular course and instructor, including, but not limited to, giving short lectures, holding study/discussion sections, grading, and helping with exam/quiz/assignment preparation and proctoring.
Prerequisite: instructor permission.

ATR 2010C Prevention and Care of Athletic Injuries 3 Credits
Grading Scheme: Letter Grade
Prevention of athletic injuries, including protective equipment, safe facilities and proper supervision of practice and contests. Recognition, referral and follow-up of injuries in athletics. Legal implications of athletic training.
Prerequisite: APK 2100C or BSCX094+L or BSCX086+L or PETX322+L or ZOO 3733c and Applied Physiology and Kinesiology major.

ATR 3102 Principles of Athletic Training 4 Credits
Grading Scheme: Letter Grade
Provides the student with knowledge of basic principles of athletic training, including prevention, recognition and treatment of athletic injuries. Addresses the proper application of protective equipment, bracing/wrapping/taping techniques utilized by athletic trainers and introduces emergency management skills appropriate for sport.
Prerequisite: admission to the athletic training specialization.

ATR 4018 Professionalism and Communication in Sports Healthcare 3 Credits
Grading Scheme: Letter Grade
Foundational knowledge in professionalism, inter-professional cooperation, cultural competence, client interactions, and basic legal concepts related to sport and exercise.
Prerequisite: APK majors with junior standing.

ATR 4112C Emergency Management of Athletic Trauma 3 Credits
Grading Scheme: Letter Grade
Learn to recognize, assess, treat, and refer traumatic injury and acute emergent illness.
Prerequisite: Athletic Training major.

ATR 4212C Athletic Injury Assessment: Upper Extremity 4 Credits
Grading Scheme: Letter Grade
Provides background information to conduct a thorough initial evaluation of upper extremity injuries commonly sustained by the physically active population.
Prerequisite: ATR 3102 with minimum grade of C and admission to the athletic training specialization.

ATR 4213C Athlete Injury Assessment: Lower Extremity 4 Credits
Grading Scheme: Letter Grade
Provides background information to conduct a thorough initial evaluation of lower extremity injuries commonly sustained by the physically active population.
Prerequisite: ATR 4212C with minimum grade of C.

ATR 4302C Therapeutic Modalities in Athletic Training 4 Credits
Grading Scheme: Letter Grade
Introduces physiological principles, concepts and operational procedures of contemporary therapeutic modalities as they relate to the care and treatment of athletic injuries.
Prerequisite: ATR 3102 with minimum grade of C and admission to the athletic training specialization.

ATR 4314C Rehabilitation Techniques in Athletic Training 4 Credits
Grading Scheme: Letter Grade
Introduces the concepts and principles of a comprehensive rehabilitation program including determination of therapeutic goals and objectives, selection of therapeutic exercises, methods of evaluating and recording rehabilitation progress, development of criteria for progress and return to competition and the physiological effects of trauma/wound healing and inactivity/immobilization.
Prerequisite: ATR 4302C with minimum grade of C.

ATR 4315 Functional Sport Conditioning 3 Credits
Grading Scheme: Letter Grade
Enhances knowledge in design and implementation of functional exercise techniques as it relates to injury rehabilitation. Nutritional considerations for the injured athlete and proper design of the pre and post event meal planning for optimal performance and recovery are also covered.
Prerequisite: ATR 4314C.

ATR 4432 Clinical Pathology and Pharmacology 3 Credits
Grading Scheme: Letter Grade
Provides a thorough understanding of injury, illness and/or disease of various body systems; addresses specific understanding of medical diagnostics, interventions (including pharmacology) and participation considerations for the athletic population.
Prerequisite: ATR 4822 with minimum grade of C.

ATR 4512 Athletic Training Administration 3 Credits
Grading Scheme: Letter Grade
In-depth background of the standards, policies and practices of organization, supervision and administration of athletic training programs.
Prerequisite: ATR 4832 with minimum grade of C; athletic training seniors only.

ATR 4812 Athletic Training Clinical Experience 1 4 Credits
Grading Scheme: Letter Grade
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.
Prerequisite: ATR 3102 with minimum grade of C and admission to the athletic training specialization.

ATR 4822 Athletic Training Clinical Experience 2 4 Credits
Grading Scheme: Letter Grade
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.
Prerequisite: ATR 4812 with minimum grade of C.

ATR 4832 Athletic Training Clinical Experience 3 4 Credits
Grading Scheme: Letter Grade
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.
Prerequisite: ATR 4822 with minimum grade of C.

ATR 4842 Athletic Training Clinical Experience 4 4 Credits
Grading Scheme: Letter Grade
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.
Prerequisite: ATR 4832 with minimum grade of C.

BSC 3096 Human Physiology 3 Credits
Grading Scheme: Letter Grade
Functioning of human tissues, organs and organ systems, emphasizing the physical, chemical and mechanistic bases of normal physiology and the integrated function of the human body. Also introduces pathophysiological changes associated with human diseases.
Prerequisite: (CHM 1031 or CHM 2046 or CHM 2047) and BSC 2011.

HLP 4933 Variable International Topics 1-6 Credits
Grading Scheme: Letter Grade
Provides the opportunity to study in a wide range of cultural settings.

PET 4948C Practicum in Exercise and Sport Sciences 1-5 Credits
Grading Scheme: Letter Grade
Practical experience in such specialty areas as adult fitness programs, health clubs, exercise testing laboratories, clinical laboratories and athletic training rooms. May include senior thesis with oral defense.
Prerequisite: department chair permission.

Arabic | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

Courses

ABT 3130 Arabic Literary Heritage 1 3 Credits
Grading Scheme: Letter Grade
Surveys classical Arabic literature in translation. Covers pre-Islamic poetry and early Islamic poetry, Omayyad, Abbasid and Andalusian literatures. All readings are in English.
Prerequisite: Critical Tracking semester 2 or greater.

ABT 3500 Arabic Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Arabic culture with special reference to art, literature, religion, and society. Emphasizes Arab contributions to philosophy, medicine, mathematics, and architecture. All readings in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

ABT 4131 The Qur'an as Literature 3 Credits
Grading Scheme: Letter Grade
Approaches the Qur'an from a literary standpoint by examining its history, structure, style, major themes, and impact on Arabic literature, Islamic thought, and Muslim culture.
Prerequisite: ARA 1131 or ABT 3500 or REL 2000 or REL 2362 or REL 4361 or senior standing.

ARA 1130 Beginning Arabic 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing.

ARA 1131 Beginning Arabic 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: ARA 1130 with minimum grade of C or the equivalent.

ARA 2220 Intermediate Arabic 1 4 Credits
Grading Scheme: Letter Grade
Continuation of the study of standard Arabic language. Develops reading, writing, listening and speaking skills and helps with comprehension of written and audio texts. Students can use their knowledge of the Arabic language to clearly express their personal views in a meaningful and well-structured language.
Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 2221 Intermediate Arabic 2 4 Credits
Grading Scheme: Letter Grade
Continues the study of Arabic language at the intermediate level. Emphasizes developing reading comprehension, writing, listening and speaking, and vocabulary and grammar.
Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 3241 Spoken Arabic 3 Credits
Grading Scheme: Letter Grade
Develops listening and conversational skills at an intermediate level of proficiency. Focuses on a middle variety of Arabic known as Educated Spoken Arabic that enables successful communication with educated Arab speakers from virtually any country in the Arab world.
Prerequisite: ARA 2221.

ARA 3410 Advanced Arabic 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: ARA 2221 with minimum grade of C or the equivalent.

ARA 3411 Advanced Arabic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: ARA 3410 with minimum grade of C or the equivalent.

ARA 3510 The Arab Woman 3 Credits
Grading Scheme: Letter Grade
Examines the role and status of Arab women in their respective societies; specifically examines the internal dynamic of Arab culture that influences the role of the Arab woman.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

ARA 4400 Fourth Year Arabic 1 3 Credits
Grading Scheme: Letter Grade
Development to an advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic.
Prerequisite: ARA 3411 or the equivalent.

ARA 4401 Fourth Year Arabic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of ARA 4400. Development of a more advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic.
Prerequisite: ARA 4400 or the equivalent.

ARA 4420 Arabic through the Texts 3 Credits
Grading Scheme: Letter Grade
For advanced students of Arabic. Teaches the more complex grammar, idiomatic expressions and sophisticated stylistic forms of the language. Required for the Arabic minor.
Prerequisite: ARA 3410.

ARA 4822 Arabic Sociolinguistics 3 Credits
Grading Scheme: Letter Grade
Focus on the relationship between language and society in the Arab world. An examination of the different varieties of Arabic and the relation between linguistic variation and other social variables, such as ethnicity, religion, urbanization, social class, gender, power and ideology.
Prerequisite: ARA 1131 or LIN 3010.

ARA 4850 Structure of Standard Arabic 3 Credits
Grading Scheme: Letter Grade
Describes and analyzes the sound system, word structure, and sentence structure of Arabic.
Prerequisite: ARA 1131 or LIN 3010.

ARA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

ARA 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
One of the core courses in the Middle Eastern languages and cultures major offered through interdisciplinary studies. Also useful for linguistics, religion, Arabic, Hebrew, and Jewish studies.
Prerequisite: Sophomore standing.

ARA 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

Architecture

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The School of Architecture recognizes design as a synthesis of thinking, analyzing and making — an iterative process that engages, issues of space, historical precedent, sustainability, ecology, urbanity, landscape, built-form, and construction toward innovation. The School of Architecture is uniquely positioned to respond to these issues by deploying studio based design methodologies in collaboration with a new generation of experts in engineering, ecology, business, anthropology, energy, fine arts, medicine, and construction.

Curriculum

- Architecture
- Architecture Minor

Courses

ARC 1000 Architecture + Humanity 3 Credits
Grading Scheme: Letter Grade
Architecture + Humanity uses the Western canon to introduce the issues and opportunities derived through actively engaging the sustainable and ethical design of the environments in which we live: urban, landscape, and architectural.
Attributes: General Education - Humanities

ARC 1002C Introduction to Architecture 3 Credits
Grading Scheme: Letter Grade
An introduction to the principles of architectural design. The course includes project-based exercises, lectures, and discussions.

ARC 1101 Places and Spaces 3 Credits
Grading Scheme: Letter Grade
Places and Spaces examines the way humankind has shaped its world while framing particular relationships with nature. Drawing on the Western canon, this course asks what does it mean to make a mark upon the land? What does it mean to dwell? And what do the places we inhabit mean to us?
Prerequisite: Restricted to degree-seeking undergraduates.
Attributes: Quest 1, General Education - Humanities, General Education - International

ARC 1104 What is a City? 3 Credits
Grading Scheme: Letter Grade
Explores the life within and design for urban environments, asking questions about the development of cities in western and eastern cultures and beyond, how they are designed and lived in today, and our vision for the future. Considers why individuals and families are drawn to a range of urban environments, and how these choices impact everyday life.
Attributes: Quest 1, General Education - Humanities

ARC 1301 Architectural Design 1 4 Credits
Grading Scheme: Letter Grade
Introduces interfacing communication skills with design thinking. Emphasizes awareness and understanding of basic organization ideas in design.
Prerequisite: (architecture or interior design or landscape architecture major) or college advising center permission.

ARC 1302 Architectural Design 2 4 Credits
Grading Scheme: Letter Grade
An analysis course that uses the study of architectural precedent as a foundation for the development of communication and design skills.
Prerequisite: ARC 1301.

ARC 1701 Survey of Architectural History 1 3 Credits
Grading Scheme: Letter Grade
A general survey of socio-political, environmental, global, and cultural factors, which have generated architecture in Europe, United States, Asia, and Africa from prehistory to 1400 CE. Class covers the globalization of architecture of the Greco-Roman world, its relationship to Asia through silk roads. Class examines how Greco-Roman global revival impacted United States architecture.
Prerequisite: architecture major.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ARC 1702 Survey of Architectural History 2 3 Credits
Grading Scheme: Letter Grade
The course introduces the 15th-19th-century history of architects, buildings, design theories and corresponding philosophies of the Renaissance, Baroque, Enlightenment, and Neoclassicism architectural historical ages in western cultural traditions. The course also introduces a comparative cultural perspective on eastern gardens and eastern-western garden encounters during the 16th-18th centuries.
Prerequisite: architecture major.
Corequisite: ARC 1301 or ARC 4072.
Attributes: General Education - Humanities, General Education - International

ARC 1720 Survey of Architecture History 3 Credits
Grading Scheme: Letter Grade
A survey of monumental buildings and their embodied architectural canon within the western civilization and international societies from the pre-historical ages to the current age. Demonstrating interactive relationships between form and idea in architecture throughout history across cultural and regional differences.
Prerequisite: non-architecture majors only.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ARC 2180 Introduction to Digital Architecture 3 Credits
Grading Scheme: Letter Grade
Introduces computer-aided design programs currently utilized by professional practices.
Prerequisite: architecture majors only;
Corequisite: ARC 2303 or ARC 4071.

ARC 2201 The Theory of Architecture 3 Credits
Grading Scheme: Letter Grade
The course introduces the architectural theoretical concepts, issues, problems, poetics and creativity, hermeneutic interpretation, and critical perspectives in architectural imagination, construction, and meditation. The weekly topics and readings include ancient Greek and Roman cosmic theories, Renaissance and western humanistic and hermetic theories, and modern western and United States phenomenological theories.
Prerequisite: architecture major.
Corequisite: ARC 2303 or ARC 4071.
Attributes: General Education - Humanities

ARC 2303 Architectural Design 3 5 Credits
Grading Scheme: Letter Grade
Studio course explores the influence of history and culture on design decision-making.
Prerequisite: ARC 1302.

ARC 2304 Architectural Design 4 5 Credits
Grading Scheme: Letter Grade
Explores context as a generator of architectural design ideas. Contemporary cultural influences also are examined and incorporated in the design process.
Prerequisite: ARC 2303.

ARC 2461 Materials and Methods of Construction 1 3 Credits
Grading Scheme: Letter Grade
The nature of materials used in construction. Criteria for evaluation and selection related to design decision-making.
Prerequisite: architecture major.
Corequisite: ARC 2304.

ARC 2490C Intro to Building Technologies 3 Credits
Grading Scheme: Letter Grade
First course in a sequence that addresses the relationship between building technologies and design thinking by introducing fundamental concepts of materials and methods relative to building design and construction. Also offers digital design modules that develop problem-solving and representational skills.
Corequisite: ARC 2303.

ARC 2491C Integrated Building Tech 1 3 Credits
Grading Scheme: Letter Grade
As the second course in a multi-year integrated building technology sequence, there will be an emphasis on further developing components of materials and methods, digital design and on the introduction of environmental design that will increase the student's understanding of the impact of context and building technologies on design decisions.
Prerequisite: ARC 2490C;
Corequisite: ARC 2304.

ARC 3181 Advanced Topics in Digital Architecture 3 Credits
Grading Scheme: Letter Grade
Continued investigation of computer-aided design programs currently utilized by professional practices.
Prerequisite: ARC 2180.
Attributes: Artificial Intelligence

ARC 3291 Special Studies in Architecture 1-6 Credits
Grading Scheme: Letter Grade
Special studies in architecture adjusted to individual needs of undergraduate students.
Prerequisite: completion of lower division in architecture and recommendation of advisor.

ARC 3320 Architectural Design 5 6 Credits
Grading Scheme: Letter Grade
Investigates architectural design and its relationship to regional contextual influences through a range of projects which vary in scale and complexity.
Prerequisite: ARC 2304.

ARC 3321 Architectural Design 6 6 Credits
Grading Scheme: Letter Grade
Architectural design within a large scale urban context. Theory, methodology and evolution of urban form in response to social, cultural, economic and technological forces.
Prerequisite: ARC 3320.

ARC 3463 Materials and Methods of Construction 2 3 Credits
Grading Scheme: Letter Grade
Methods of assembling and selecting materials; detailed systems of construction are investigated.
Corequisite: ARC 4323 or ARC 4073.

ARC 3492C Integrated Building Tech 2 6 Credits
Grading Scheme: Letter Grade
As the third course in a multi-year integrated building technology sequence, there will be an emphasis on further developing components of environmental design, materials and methods, and building structures, in addition to a digital design module that will concurrently develop student abilities to problem solve and represent ideas.
Prerequisite: ARC 2491C;
Corequisite: ARC 3320.

ARC 3493C Integrated Building Tech 3 6 Credits
Grading Scheme: Letter Grade
As the fourth course in a multi-year integrated building technology sequence, there will be an emphasis on further developing components of environmental design, materials and methods, and digital design skills that will allow students to apply their knowledge to mid-rise buildings of increasing complexity.
Prerequisite: ARC 3492C;
Corequisite: ARC 3321.

ARC 3503 Introduction to Architectural Structures 3 Credits
Grading Scheme: Letter Grade
A foundation course that investigates principles of structural behavior in withstanding gravity and lateral forces; consider structural layout, load distribution and preliminary design techniques; and examines contemporary structural systems through case studies emphasizing trussed, framed, funicular and shell structural systems.
Prerequisite: PHY 2004 or PHY 2053;
Corequisite: ARC 3320 or ARC 4073.

ARC 3610 Environmental Technology 1 3 Credits
Grading Scheme: Letter Grade
Principles and practices relating to control of the thermal/atmospheric environment and to plumbing in buildings.
Corequisite: ARC 3321 or ARC 4074.

ARC 3743 Architectural History 3 3 Credits
Grading Scheme: Letter Grade
A survey of the history of architecture from 1850 to present. Lectures examine the effects of social, political, material, technological and cultural forces on the design and construction of the built environment and explore the role of the architect in civil society. Emphasizes the theoretical positions of the architects and architectural schools.
Prerequisite: architecture major.
Corequisite: ARC 3320.

ARC 3880 Sustainable Architecture 3 Credits
Grading Scheme: Letter Grade
How environmentalism informs architectural discourses and how discourses on the built environment and urbanism impact environmentalism globally.
Prerequisite: Junior standing or higher or instructor permission.

ARC 4071 Core Studio 1 6 Credits
Grading Scheme: Letter Grade
Introduces a variety of design techniques, including design theory, three-dimensional development, and spatial relationships.
Prerequisite: department permission.

ARC 4072 Core Studio 2 6 Credits
Grading Scheme: Letter Grade
Continuation of core studio sequence with increased emphasis on manipulation of architectural elements.
Prerequisite: ARC 4071.

ARC 4073 Core Studio 3 6 Credits
Grading Scheme: Letter Grade
Continuation of core studio sequence with studio projects related to program development, structural integration, energy analysis and introduction to mechanical integration systems.
Prerequisite: ARC 4072.

ARC 4074 Core Studio 4 6 Credits
Grading Scheme: Letter Grade
Continuation of core studio sequence with increased emphasis on complex building types.
Prerequisite: ARC 4073.

ARC 4220 Architectural Theory 2 3 Credits
Grading Scheme: Letter Grade
Investigates the theoretical, historical and ideological ideas in architecture that took place during the early decades of the twentieth century.
Corequisite: ARC 4322 or ARC 6241.

ARC 4310C Building Information Modeling 3 Credits
Grading Scheme: Letter Grade
Emerging technology in building information modeling (BIM) in the context of architectural design development and documentation. Theoretical and technological evolution of different typologies of software with hands-on experience designing and modeling with BIM software.
Prerequisite: ARC 2180.

ARC 4322 Architectural Design 7 6 Credits
Grading Scheme: Letter Grade
Emphasizes the notion of control over architectural design processes needed to arrive at solutions that respond to needs through appropriate use of program development and construction technology. Course emphasizes the complete building as a final product and focuses on the urban and suburban housing project.
Prerequisite: ARC 3321.

ARC 4323 Architectural Design 8 6 Credits
Grading Scheme: Letter Grade
Architecture designs focus on architectural detail and articulation. An investigation of landscape provides the context for this study.
Prerequisite: ARC 4322.

ARC 4494C Integrated Building Tech 4 3 Credits
Grading Scheme: Letter Grade
Emphasizes the development of structures, materials, and methods, and environmental design skills that apply to high-rise, long-span, and large-scale building design. Provides focus to both the technical knowledge of macro-scale design-drivers and the detail implications of structure, environmental performance, and building assemblies.
Prerequisite: ARC 3493C Integrated Building Technology 3;
Corequisite: ARC 4322 Architecture Design 7.

ARC 4511 Structural Modeling 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamentals of structural modeling including building information modeling (BIM), digital design, and approximate systems analysis and detailing for architectural structures. Students will learn how to efficiently implement building information modeling to organize, coordinate and communicate information to convey data necessary for structural systems.
Prerequisite: ARC 3503.

ARC 4620 Environmental Technology 2 3 Credits
Grading Scheme: Letter Grade
Fundamentals of architectural lighting, acoustics, electrical power distribution and building communications.
Corequisite: ARC 4322 or ARC 6241.

ARC 4684 LEED for Sustainable Design and Construction 3 Credits
Grading Scheme: Letter Grade
Campus projects demonstrate design and construction of high performance buildings and application of green building technologies. Economics and market development associated with the application of green building rating systems, with a focus on LEED. Successful completion helps prepare for LEED V4 Green Associate exam credentials.
Prerequisite: junior standing or higher.

ARC 4882 Vernacular Architecture and Sustainability 3 Credits
Grading Scheme: Letter Grade
Investigates vernacular architecture in the discourse of architectural sustainability with an emphasis on the way that vernacular architecture has been constructed, represented and consumed in the environmental histories of architecture.
Prerequisite: junior standing or higher or instructor permission.

ARC 4930 Special Topics Seminar in Architecture 1-6 Credits
Grading Scheme: Letter Grade
Miscellaneous topics in architecture and related fields.
Prerequisite: Junior standing or higher or instructor permission.

ARC 4941 Architectural Education 2 Credits
Grading Scheme: Letter Grade
Provides an awareness of curriculum development, project preparation, program/project presentation, constructive criticism and evaluation techniques.
Prerequisite: ARC 3321.

ARC 4950 Vicenza Institute of Architecture: Italian Language and Culture 3 Credits
Grading Scheme: Letter Grade
Taught through the Vicenza Institute of Architecture, located in Vicenza, Italy. It is intended for architecture students participating in the VIA program. The course establishes a basic level of competency in Italian language and culture as it relates to the architectural goals of the VIA program.
Prerequisite: ARC 3321.

ARC 4951 Vicenza Institute of Architecture: Architectural Design Studio 6 Credits
Grading Scheme: Letter Grade
Architectural design examining the regional contextual relationships found in northern Italy as well as central and southern Europe. Design exercises focus on the immediate relationships of European urban space, ideas of building program and the potential development of architectural details and material systems.
Prerequisite: ARC 3321.

ARC 4952 Vicenza Institute of Architecture: Analytical Sketching 3 Credits
Grading Scheme: Letter Grade
Introduces sketching as an analytical skill in understanding constructed space within the context of Italy's Veneto region as well as central and southern Europe.
Prerequisite: ARC 3321.

Art + Art History

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

School Information

The School of Art + Art History nurtures a culture of critical inquiry in scholarly and creative work. The school empowers each individual with knowledge, skills, and insight to engage thoughtfully with the changing world.

Curriculum

- Art Education Certificate
- Art History
- Art History Minor
- Art Minor
- Art | BA
- Art | BFA
- Ceramics Certificate
- Graphic Design

All studio art and photography courses, except where noted as non-major courses, are restricted to majors in the School of Art + Art History. Non-majors wishing to register for 2000-level courses need to consult with the undergraduate advisor to determine possibilities of enrolling in art courses. Each semester the school offers non-major courses in ceramics and some other media.

Courses

ARE 2045 Introduction to Teaching Art 3 Credits
Grading Scheme: Letter Grade
Overview of the art-teaching field. Study of rationales for teaching art, contemporary art teaching practices, community art experiences and alternative career options.

ARE 4242 Teaching Art: the Study of Practice 3 Credits
Grading Scheme: Letter Grade
Studies art-teaching practices in the public schools. Emphasizes art curriculum, planning, art instructional strategies, art room management and methods of evaluation in art.
Prerequisite: junior standing or higher and art education major.

ARE 4243 Principles of Teaching Art 3 Credits
Grading Scheme: Letter Grade
Investigates the contemporary issues in art, education and society that impact teaching art in public schools. Theoretical perspectives and practical strategies are explored for developing content and teaching approaches. (WR)
Prerequisite: junior standing or higher and art education major.
Attributes: Satisfies 4000 Words of Writing Requirement

ARE 4314 Art Education for Elementary Schools 2-3 Credits
Grading Scheme: Letter Grade
Helps the preparing classroom teacher develop a basic knowledge of art and the teaching of art at the elementary level.
Prerequisite: second-semester standing in the elementary ProTeach program;
Corequisite: ProTeach field experience in the Fall and Spring semesters.

ARE 4934C Student Teaching Seminar 1 Credit
Grading Scheme: Letter Grade
Addresses various issues and problems associated with student teaching with an emphasis on teaching methods, classroom management and assessment as they arise in actual classroom practice.
Prerequisite: senior standing and art major.
Corequisite: ARE 4940.

ARE 4940 Student Teaching in Art Education 4-12 Credits
Grading Scheme: S/U
Student-teaching classroom experience in art.
Prerequisite: minimum 2.5 GPA and art education major.

ARH 1003 Masterpieces of Art 3 Credits
Grading Scheme: Letter Grade
Provides an appreciation and foundation in visual literacy and introduces students to the special character of the visual arts and to a vocabulary critical to analysis and interpretation of the masterworks of art.

ARH 1030 Art Crime 3 Credits
Grading Scheme: Letter Grade
This course examines art and cultural property crime, exploring issues of theft, forgery, ownership, and the protection of cultural heritage. Students will investigate the global impact of art crime, its historical evolution, and strategies for addressing threats to cultural heritage from multidisciplinary perspectives. Includes works from the Western canon and other cultural traditions.
Attributes: Quest 1, General Education - Humanities

ARH 1071 The Nature, Matter, and Agency of Magic 3 Credits
Grading Scheme: Letter Grade
The course explores how pre-modern mediterranean societies used magic to interact with the supernatural, focusing on the material, textual, and visual aspects of ancient artifacts. It examines the boundaries between magic, religion, and science, and how these societies created and used knowledge through art historical and anthropological approaches.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

ARH 2000 Art Appreciation: American Diversity and Global Arts 3 Credits
Grading Scheme: Letter Grade
In this course, students will develop an appreciation of and the ability to think critically about culture and be provided with the tools to understand, analyze, and discuss works of visual art and material culture.
Attributes: General Education - Humanities

ARH 2002 Introduction to Art: the Artistic Experience 3 Credits
Grading Scheme: Letter Grade
Introduces the artistic experience through the examination of different ideas, approaches and purposes of art. Not counted toward the major. (N)

ARH 2050 Introduction to the Principles and History of Art 1 3 Credits
Grading Scheme: Letter Grade
This course provides an overview of the history of art and architecture from prehistory through the middle ages in Europe, the Mediterranean basin, and the near east. It familiarizes students with key works and gives students the tools to describe, analyze, and contextualize artworks. Includes works from the Western canon.
Attributes: General Education - Humanities, General Education - International

ARH 2051 Introduction to the Principles and History of Art 2 3 Credits
Grading Scheme: Letter Grade
Continuation of ARH 2050. Art and architecture from the Renaissance to the present.

ARH 2500 Non-Western Art 3 Credits
Grading Scheme: Letter Grade
The visual arts seen in the cultural context of Sub-Saharan Africa, the Pacific, Native America, India, China and Japan; prehistoric to recent. (N)

ARH 2510 Introduction to African Art 3 Credits
Grading Scheme: Letter Grade
Introduces African art by highlighting its diversity and complexity and examines essential methodology to contextualize works of art from across the continent, from ancient history to contemporary times. Critically examines what constitutes the producer, location, object, and temporality of African art and their significance to the broader discipline of art history.

ARH 2531 Introduction to Asian Art 3 Credits
Grading Scheme: Letter Grade
Introduces Asian art through selected topics, monuments, and specimens of its fine arts and material culture. Also introduces the distinctive artistic traditions of China, Korea, Japan, and India, as well as their historical background, interaction and innovation, similarities and differences, to reach a better understanding of Asian art.

ARH 2613 Introduction to Latin American Art 3 Credits
Grading Scheme: Letter Grade
The course surveys the arts of ancient, colonial, and modern Latin America. It begins with the indigenous arts of Mesoamerica and the Andes and Spanish colonial art. It concludes with modern and contemporary Latin American arts. It covers artworks from many cultural traditions including the Western canon.
Attributes: General Education - Humanities

ARH 2930 Special Topics in Art History 3 Credits
Grading Scheme: Letter Grade
Special topics in art history.

ARH 3115 Egyptian and Near Eastern Art 3 Credits
Grading Scheme: Letter Grade
The art and architecture of Egypt and the Near East from the beginning of civilization until the Persian period. (N)
Prerequisite: ARH 2050 and (art major or art history minor).

ARH 3130 Greek Art 3 Credits
Grading Scheme: Letter Grade
The art and architecture of ancient Crete and Greece through the Hellenistic age. (N)
Prerequisite: (ARH 2050 or CLA 3700) and (art major or art history minor).

ARH 3171 Etruscan and Roman Art 3 Credits
Grading Scheme: Letter Grade
The art and architecture of the Italian peninsula from the Etruscan period through the Roman Empire. (N)
Prerequisite: (ARH 2050 or CLA 3700) and (art major or art history minor).
Attributes: General Education - International

ARH 3357 Global Baroque Art 3 Credits
Grading Scheme: Letter Grade
Studies Baroque and Rococo art from a global perspective, considering how and why the style appeared in so many regions (even those with no Roman and/or Renaissance heritage) and what its distinct meanings were. Also examines the origins of the concepts of the Baroque and Rococo.
Prerequisite: ARH 2050 or ARH 2051.

ARH 3412 Art in the Age of Revolution 3 Credits
Grading Scheme: Letter Grade
Topics in the late 18th and early 19th century European art, including Neo-Classicism and Romanticism. Works of art are considered in the cultural, political, social and aesthetic contexts in which they were made. Emphasizes the politics of style during this period of revolution and resection. (WR)
Prerequisite: ARH 2051 or art major or art history minor.
Attributes: Satisfies 2000 Words of Writing Requirement

ARH 3413 The Beginnings of Modernism 3 Credits
Grading Scheme: Letter Grade
The visual arts in Europe in the second half of the 19th century, focusing on the emergence of an avant-garde and formulation of a modernist aesthetic with reference to industrialized, urban culture, especially in Paris. Addresses Realism, Impressionism and Post-Impressionism. (WR)
Prerequisite: ARH 2051 or art major or art history minor.
Attributes: Satisfies 2000 Words of Writing Requirement

ARH 3513 Art, Culture and Power in Africa 3 Credits
Grading Scheme: Letter Grade
Explores the many ways in which power operates through objects in Africa. Examines the symbolic and literal power of royal regalia; the religious/spiritual power of objects used in ritual contexts; and the power that surrounds objects as they are transformed into commodities in international art markets.
Prerequisite: Sophomore standing or higher.

ARH 3522 Contemporary African Art 3 Credits
Grading Scheme: Letter Grade
Examines contemporary African artistic production and its reception in international markets.
Prerequisite: (School of Art + Art History major or minor) or instructor permission.

ARH 3525 The Arts of West Africa 3 Credits
Grading Scheme: Letter Grade
A survey of the traditional arts of the Western Sudan and the Guinea coast.
Prerequisite: Sophomore standing or higher.

ARH 3526 The Arts of Central Africa 3 Credits
Grading Scheme: Letter Grade
Surveys the traditional arts of the equatorial forests, the savannahs to the south of them, and portions of Eastern and Southern Africa.
Prerequisite: Sophomore standing or higher.

ARH 3552 Chinese Art and Archaeology 2000 BCE 3 Credits
Grading Scheme: Letter Grade
Art and material culture from the Neolithic to the Tang Dynasty: palaces and tombs, religious art, and the rise of new media and technologies.
Prerequisite: Sophomore standing or higher.

ARH 3555 Late Imperial and Modern Chinese Art, 1907 - present 3 Credits
Grading Scheme: Letter Grade
Arts and culture of China from five Dynasties to the present in all media, including architecture, painting, sculpture, and luxury crafts.
Prerequisite: Sophomore standing or higher.

ARH 3562 Text and Image in Chinese Art 3 Credits
Grading Scheme: Letter Grade
Studies general art historical theories on the dialectics of text and Image into Chinese art history by examining the origins, the early development, and the relationship between the word and image, picture and narrative, diagram and text, and other visual and verbal arts in traditional and modern China.
Prerequisite: sophomore standing or higher.

ARH 3585 The Arts of Oceania 3 Credits
Grading Scheme: Letter Grade
Surveys the visual arts of Oceania (Polynesia, Micronesia, Melanesia) within the context of the cultures that produced them.
Prerequisite: Sophomore standing or higher.

ARH 3610 American Art 3 Credits
Grading Scheme: Letter Grade
Architecture, painting, sculpture, and decorative arts in Anglo-America from their 17th century beginnings to the end of the 19th century. (WR)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: Satisfies 2000 Words of Writing Requirement

ARH 3614 Indigenous Arts of the Colonial Americas 3 Credits
Grading Scheme: Letter Grade
Examines art created by indigenous people in the Americas during the colonial period, i.e., the centuries postdating 1492. While keeping in mind the European (as well as African and Asian) influences on this art, the course looks at indigenous artworks from native perspectives within their historical contexts of colonialism
Prerequisite: Any ARH 2000-level course.

ARH 3620 American Art 1876-1945 3 Credits
Grading Scheme: Letter Grade
Focuses on painting and sculpture as well as architecture, photography and visual culture. (WR)
Prerequisite: ARH 2051 or art major or art history minor.
Attributes: Satisfies 2000 Words of Writing Requirement

ARH 3622 Introduction to African American Art 4 Credits
Grading Scheme: Letter Grade
Introduces the study and appreciation of African American art.
Prerequisite: ARH 2051 or art major or art history minor.

ARH 3631 African American Art 1600 to Present 3 Credits
Grading Scheme: Letter Grade
Survey of visual arts produced by people of African descent in North America from colonial era to present. (WR)
Prerequisite: ARH 2051 or art major or art history minor.
Attributes: Satisfies 2000 Words of Writing Requirement

ARH 3652 Ancient Andean Art 3 Credits
Grading Scheme: Letter Grade
Art and architecture of Pre-Columbian Lower Central and South America focusing on the Andean Indian civilizations.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International

ARH 3653 Mesoamerican Art 3 Credits
Grading Scheme: Letter Grade
Art and architecture of Pre-Columbian civilizations of Mexico and the Maya area from 3000 B.C. until the Spanish Conquest in A.D. 1521.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International, Satisfies 2000 Words of Writing Requirement

ARH 3661 Latin American Art 3 Credits
Grading Scheme: Letter Grade
The architecture, painting, sculpture and important minor arts of colonial and modern Latin America. (N)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - International

ARH 3664 Colonial Art of New Spain 3 Credits
Grading Scheme: Letter Grade
Examines the colonial art of Mexico and other territories within the Spanish Viceroyalty of New Spain. Focused on the viceregal period (1535-1821), the course also considers art from the periods of European contact and Spanish conquest and concludes with art from the independence period.
Prerequisite: ARH 2051 and (art major or art history minor).

ARH 3665 Colonial Andean Art 3 Credits
Grading Scheme: Letter Grade
Examines the colonial art of Peru, Ecuador, Bolivia and other territories within the Spanish Viceroyalty of Peru. Focused on the viceregal period (1542-1824), the course also considers art from the periods of European contact and Spanish conquest and concludes with art from the independence period.
Prerequisite: ARH 2051 and (art major or art history minor).

ARH 3678 Modern and Contemporary Art from Latin America 3 Credits
Grading Scheme: Letter Grade
Introduces the modern and contemporary art of Latin America with topics such as the emergence and establishment of a modern canon, experimentations in surrealism, neo-concretism, conceptual art, and performance.
Prerequisite: sophomore standing or higher.

ARH 3727 History of American Illustration 3 Credits
Grading Scheme: Letter Grade
Introduces the history of illustration in America from the colonial period to the present. In addition to presenting major illustrators, the course provides artistic, technological and cultural contexts for understanding the functions and meaning of illustration at different historical moments.
Prerequisite: ARH 2051 recommended.

ARH 3800 Criticism of Art 3 Credits
Grading Scheme: Letter Grade
Reviews principal theories in the history of criticism. Analysis and evaluation of works of art. Problems in the criticism of contemporary art. Required for art history majors.
Prerequisite: (ARH 2050 and ARH 2051) and (art major or art history minor).

ARH 3810 Methods of Research in Art History 3 Credits
Grading Scheme: Letter Grade
Provides sophomore and junior art history majors with a foundational overview of the methods and theories of art history and a practical roadmap for researching and writing an art history paper.
Prerequisite: ARH 2050 and ARH 2051 and (Bachelor of Arts or Art History Minor).

ARH 3871 Gender, Representation and the Visual Arts, 1600-1900 3 Credits
Grading Scheme: Letter Grade
Considers historical and theoretical issues posed for visual media by attention to issues of gender, with particular emphasis on women artists. (WR)
Prerequisite: ARH 2051 or instructor permission.
Attributes: Satisfies 2000 Words of Writing Requirement

ARH 4112 Artistic Exchange from Baghdad to Toledo, 632-1453 3 Credits
Grading Scheme: Letter Grade
Examines art created by diverse communities centered on the Mediterranean in the long Middle Ages. Focuses particularly on artworks that were produced for or subject to cultural exchange via travel, trade, diplomatic gift, or plunder; and on sites of cultural contact such as Al-Andalus, Norman Sicily, and eastern Anatolia.
Prerequisite: ARH 2050.

ARH 4135 Greek Sculpture 3 Credits
Grading Scheme: Letter Grade
Greek sculpture from its beginnings in the Geometric period through the Hellenistic period. (N)
Prerequisite: (ARH 2050 or CLA 3700) and (art major or art history minor).
Attributes: General Education - International

ARH 4155 Romans & Barbarians 3 Credits
Grading Scheme: Letter Grade
Complicates traditional center/periphery and insider/outsider dichotomies by examining both Roman depictions of "Barbarians" in text and image from the Republic through Late Antiquity, and Barbarian depictions of Romans. Examines art from monumental sculpture to small objects such as coins, paying particular attention to dress and its representation as a field of meaning.
Prerequisite: ARH 2050.

ARH 4200 Early Medieval and Byzantine Art 3 Credits
Grading Scheme: Letter Grade
The art and architecture of Europe and the Mediterranean region from approximately the 4th to the 14th centuries A.D. (N)
Prerequisite: ARH 2050 and (art major or art history minor).
Attributes: General Education - International

ARH 4251 Romanesque and Gothic Art 3 Credits
Grading Scheme: Letter Grade
Art and architecture of Europe during the Romanesque and Gothic periods. (N)
Prerequisite: ARH 2050 and (art major or art history minor).
Attributes: General Education - International

ARH 4304 Italian Renaissance Architecture 3 Credits
Grading Scheme: Letter Grade
The architecture of the Italian Renaissance from the mid-14th century through the mid-16th century. (N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - International

ARH 4310 Early Renaissance Art in Italy 3 Credits
Grading Scheme: Letter Grade
Italian art from 1200 to 1500. Emphasis upon painting and sculpture. (N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - International

ARH 4312 Late Renaissance Art in Italy 3 Credits
Grading Scheme: Letter Grade
Continuation of ARH 4310. Italian art and architecture from 1460 to 1590. Emphasis on painting and sculpture. (N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - International

ARH 4331 Renaissance Art in Northern Europe 3 Credits
Grading Scheme: Letter Grade
Sources and development of late 14th, 15th and 16th century art outside Italy. Emphasis on painting and prints. (N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - International

ARH 4332 The Religious Image in the Renaissance and Reformation 3 Credits
Grading Scheme: Letter Grade
Art produced for devotional and liturgical use in the 15th and 16th centuries with particular attention to the period debate over the proper role for images in worship and society. Addresses altar pieces, personal devotion, pilgrimage, iconoclasm and the Reformation.
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).

ARH 4350 Baroque Art in Europe 3 Credits
Grading Scheme: Letter Grade
Continuation of ARH 4311-4331. European art and architecture in the 17th and 18th centuries. Emphasis on painting and sculpture. (N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - International

ARH 4352 Baroque Rome 3 Credits
Grading Scheme: Letter Grade
Examines sculptors, painters and architects working in Rome between the period of 1564 and 1750 and considers the art of Bernini, Caravaggio and Borromini and many more major artists who made Rome the art capital of the world in the seventeenth century.
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).

ARH 4356 French Art of the Ancien Regime 1650-1780 3 Credits
Grading Scheme: Letter Grade
Deals with major artists, artistic movements, works and issues in art theory and criticism in Europe from the late 17th century to the 1780s. Special emphasis is given to painting in France and to the reaction against the Rococo. (N) (WR)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - International, Satisfies 4000 Words of Writing Requirement

ARH 4359 Eighteenth Century European Art Seminar 3 Credits
Grading Scheme: Letter Grade
Topics in 18th century European art.
Prerequisite: ARH 2051 and (art major or art history minor).

ARH 4370 European Decorative Arts 1400-1600 3 Credits
Grading Scheme: Letter Grade
Tapestry, ceramics, glass, metalwork, furniture and interior design considered in the cultural, social and economic context of Renaissance, Baroque and Enlightenment Europe. Examines role of objects in the arrangement and use of spaces designed for daily and ceremonial life.
Prerequisite: ARH 2051 and (art major or art history minor).

ARH 4450 Early Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
European and American art from Post-Impressionism to 1945. Emphasis on painting and sculpture.
Prerequisite: ARH 2051 and (art major or art history minor).

ARH 4453 Mid-Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
Emphasis on international art from the 1940s through the 1960s.
Prerequisite: ARH 2051 and (art major or art history minor).

ARH 4457 Global Surrealisms 3 Credits
Grading Scheme: Letter Grade
Explores the history of surrealism, considering the birth of the movement in Paris in 1924, its global spread throughout the early- and mid-twentieth century, and its legacies on contemporary art today. Learn how various surrealist artistic strategies were adapted and developed in different transnational contexts and consider how surrealism's political commitments traverse and expand past national boundaries.
Prerequisite: 6 ARH credits or senior standing or higher.

ARH 4471 Late Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
Continuation of mid-twentieth century art (ARH 4453). International art and American diversity in art from about 1970 to the present.
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - International

ARH 4514 Arts of Southern Africa 3 Credits
Grading Scheme: Letter Grade
Focuses on diverse regions, time periods, and genres in the visual arts in southern Africa, with particular attention to the arts of South Africa. Explores art in archaeological contexts, arts associated with indigenous cultures, art that emerged out of encounters with European cultures and contemporary arts.
Prerequisite: Sophomore standing or higher.

ARH 4533 Asian Monuments and Heritage Conservation 3 Credits
Grading Scheme: Letter Grade
Introduces the theories and basic issues in the studies of monuments in Asian art. A solid grounding in both the theories and practices of heritage conservation which provides a better understanding of the artistic, social, and political elements in the making of monuments.
Prerequisite: Sophomore standing or higher.

ARH 4559 Archaeology of Death in Ancient China 3 Credits
Grading Scheme: Letter Grade
Explores death-ritual and burial in China's classical period (800 BCE-200 CE) from archaeology's comparative perspective. Offers an interdisciplinary approach to the religious dimensions of mortuary practices in the Warring States, Qin and Han China.
Prerequisite: Sophomore standing or higher.

ARH 4710 History of Photography 3 Credits
Grading Scheme: Letter Grade
Surveys major technical, stylistic, and critical directions in photography from the 19th century to the present. (N)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - International

ARH 4744 History of Art Film and Video 3 Credits
Grading Scheme: Letter Grade
Introduces the history of art, film and video art practices in the 20th century.
Prerequisite: ARH 2051.

ARH 4861 Colonialism, Collecting, and the Visual Documentation of the Past 3 Credits
Grading Scheme: Letter Grade
Examine the histories of archaeology and collecting from the nineteenth century to today; study the visual documentation of the past before and after the invention of photography and digital imaging technologies.
Prerequisite: ARH 2050.

ARH 4870 Gender and Sexuality in the Avant-Garde 3 Credits
Grading Scheme: Letter Grade
Explores issues of gender and sexuality across the historical avant-gardes in Europe and North America. Students learn about the work of various women and queer-identified artists, and consider how issues of gender, race, and sexuality inform its production and reception.
Prerequisite: 6 ARH credits or senior standing.

ARH 4882 Art and Colonialism: Focus on Africa 3 Credits
Grading Scheme: Letter Grade
What does visual art reveal about European and African experiences of colonial rule? Along with the famous history of African arts influence on European modern art, this course investigates the African response to colonial power and addresses contemporary manifestations of this history in the postcolonial museum worlds of Europe and Africa.
Prerequisite: ARH 2500 or (junior status or higher with an Art History major or African Studies minor).

ARH 4905 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
With consent of faculty, students can take this course under special circumstances: student needs a specific course for the degree and the class in not offered or student (senior) wishes to explore an area of inquiry in greater depth after completing all 3000-level courses in their major.
Prerequisite: art or art history major and department permission.

ARH 4930 Special Topics in Art History 1-3 Credits
Grading Scheme: Letter Grade
Rotating special topics in art history.
Prerequisite: ARH 2050 or ARH 2051 and (art major or art history minor).

ARH 4931 Art History Seminar 3 Credits
Grading Scheme: Letter Grade
In-depth discussion of selected field of art, either a period and area or a topic. Analysis of art-historical writings through class presentations and written papers. Offered by members of the art history faculty on alternating basis.
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).

ARH 4940 Internship 3 Credits
Grading Scheme: S/U
Supervised practical experience with an art, graphic design or museum facility according to an approved program. Special seminar and evaluation sessions with faculty advisor and art facility manager.
Prerequisite: arrangement with art advisor and chair and dean permission.

ART 1005 Art and the Global Citizen 3 Credits
Grading Scheme: Letter Grade
Explore 21st-century engagement through contemporary art in this course. Students will examine global issues, develop creative strategies, and propose impactful artworks. No prior art experience needed; focus on critical thinking, collaboration, and real-world problem solving to inspire dialogue, empathy, and civic participation. Engage with interdisciplinary projects and diverse artists.

ART 1006 Visual Meaning and Representation 3 Credits
Grading Scheme: Letter Grade
Explore how humans find meaning in visuals across platforms. This multidisciplinary course delves into visual semiotics, representation, and interpretation through cultural studies, art, and philosophy. Learn to analyze and create visuals, understanding their impact on society and fostering innovative thinking across fields.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

ART 1010C Non-Major Photography: Imaging Society, Culture, and Diversity in America 3 Credits
Grading Scheme: Letter Grade
For non-majors. Use photographs to spur discussions about how photography shapes US culture, diversity, and history. Develop skills to create and understand engaging and conceptually rich photography through hands-on projects, critical readings, online lectures, quizzes, and small-group discussions.

ART 1803C Workshop for Art Research and Practice: WARP 6 Credits
Grading Scheme: Letter Grade
Interdisciplinary, team-taught introductory course pairing studio experiences in a wide variety of media with introduction to concepts, theories and practices in contemporary art. In-depth exploration of creative processes, artistic integrity and the nature of artistic meaning.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design..

ART 2013C Space Studio 3 Credits
Grading Scheme: Letter Grade
A project-based studio foundation course for spatial investigations where students will explore methods for defining space, conceptualizing space, three-dimensional design strategies, form development and an overview of concepts that shape the contemporary artists understandings of form and space.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design

ART 2030C Introduction to Painting 3 Credits
Grading Scheme: Letter Grade
Investigates the visual language of painting and introduces the fine arts major to techniques and concepts relevant to painting including a comprehensive study of lights and darks, color.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2305C Perceptual Drawing 3 Credits
Grading Scheme: Letter Grade
Introduces descriptive drawing. Basic theories of observation and depiction including perspective and chiaroscuro.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2330C Figure Drawing 1 3 Credits
Grading Scheme: Letter Grade
Introduction to drawing the human figure from a live model using a variety of art materials, techniques, and artistic approaches. The purpose of this course is to help students obtain the basic skill of drawing the human form, including anatomy, observation of the human form and fundamental exercises in gesture, contour, outline, and tonal modeling.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2353C Drawing Studio 3 Credits
Grading Scheme: Letter Grade
Development of drawing, design, philosophical and critical skills for making observational and expressive works in drawing media.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2374C Drawing: Movement and Motion 3 Credits
Grading Scheme: Letter Grade
Introduces the principles of visual movement in 2D art as well as the depiction of figurative gesture in drawing.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2401C Printmaking: Color Theory 3 Credits
Grading Scheme: Letter Grade
Basic monoprint technique, methods and materials. Color theory as applied to printmaking and other art media.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2468C Printmaking: Figure Ground 3 Credits
Grading Scheme: Letter Grade
Explores figure ground theory as related to 2D visual design and picture making. Basic skills in relief printing and Linocut-woodcut.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2500C Painting: Investigations in Black and White 3 Credits
Grading Scheme: Letter Grade
The organization of lights and darks in design and pictorial applications. Basic painting techniques in oil, acrylic and gouache.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2501C Painting: Investigations in Color 3 Credits
Grading Scheme: Letter Grade
Investigates color interaction and its role in pictorial composition. Exploration of color and light as well as the expressive use of color in painting.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2503C Painting from Observation 3 Credits
Grading Scheme: Letter Grade
Exercises and projects in seeing and painting. Emphasis on depicting of form, space and light.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2620C Net Art 3 Credits
Grading Scheme: Letter Grade
Explores practical and theoretical issues related to the Internet as a medium for making art rather than as a tool for delivering information. Emphasizes the creation of dynamic and interactive experiences on the web that integrate video, graphics, animation, sound, image, and typography.
Prerequisite: ART 1803C and (BFA Art or BA Art or BFA Graphic Design).

ART 2680C Time Studio 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts of time-based, participatory art practice through animation, video, sound, performance, and installation. Students create artwork that explores linear and non-linear narrative, seriality, context, embodiment, virtuality, and networks. Aesthetic, technical, historical, and conceptual issues within the context of contemporary art and theory will be addressed through lectures, demonstrations, exercises, projects, screenings, research, and readings.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2701C Sculpture: Shaping Form and Space 3 Credits
Grading Scheme: Letter Grade
Investigates the co-shaping of form and space in full three dimensions. Emphasis on additive and subtractive processes.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2702C Sculpture: Gravity and Buoyancy 3 Credits
Grading Scheme: Letter Grade
Based on objects that float, inflate or suspend; examines weight, mass, and space as artistic phenomena and includes instruction in appropriate construction techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2704C Figurative Ceramics 3 Credits
Grading Scheme: Letter Grade
Introduces figure sculpture and life modeling using fired clay; techniques include building, surfacing and firing. Includes perceptual studies from model and concept development, centering on using the figure as a vehicle for personal expression. Class format includes slide and video presentations, a life model sequence and critiques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2750C Ceramics for Non-Majors 3 Credits
Grading Scheme: Letter Grade
Studio-based introduction which teaches ceramic art through hand-forming techniques.

ART 2752C Throwing: Skills and Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces wheel throwing, pottery from, functional design and aesthetics.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2757C Ceramics: 3D Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces three-dimensional form and design concepts using fired clay; includes hand-forming techniques, an introduction to glazing (fired color) and electric kiln firing.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2770C Ceramics for Non-Majors: Wheel Throwing 3 Credits
Grading Scheme: Letter Grade
Introduces the making of functional vessels on the potters wheel as expressive art. Focuses on throwing skills and three-dimensional design concepts related to the functional ceramic vessel and creative problem-solving. Provided technical information supports an understanding of forming, surfacing, glazing, and firing.

ART 2773C Ceramics: Skills and Concepts - Sculpture 3 Credits
Grading Scheme: Letter Grade
Introduces ceramic sculpture, sculpture techniques and processes using fired clay supported by design and idea development. Modeling and carving, slab fabrication and coil-building, color and surfacing through glazing and firing support, creative expression and communication of personal ideas.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2777C Ceramics Skills and Concepts: Vessel 3 Credits
Grading Scheme: Letter Grade
Introduces conceptualization and expression of personal ideas using the vessel as an art form: functional design and aesthetics, formation and communication of personal ideas through design, clay as a material, technical handbuilding and wheel throwing forming methods, surfacing methods, and firing of work.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2825C Perceptual Studio 3 Credits
Grading Scheme: Letter Grade
Questions and expands an understanding of seeing and how seeing is informed by physical, psychological, and ideological systems. Emphasizes experimentation and research focused on contemporary art and 2D design practices and theories to strengthen visual organization through hand, lens, and digital processes.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2826C The Culture of the Image 3 Credits
Grading Scheme: Letter Grade
Introduces the critical processes by which images acquire meaning, and how artists and artworks produce knowledge. Provides an overview of visual representation that facilitates understanding of the issues involved in the production, distribution, and reception of images.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major.

ART 2930C Special Topics in Art 3 Credits
Grading Scheme: Letter Grade
Rotating special topics in studio art and studio practice.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2934C Special Topics in Studio Art for Non-Art Majors 3 Credits
Grading Scheme: Letter Grade
Rotating topics in introductory studio art and studio practice for non-art majors. This course cannot count toward degree requirements for any majors in the School of Art + Art History.
Prerequisite: non-art major or non-art history major.

ART 2936C Rotating Topics in Drawing for Non-Art Majors 3 Credits
Grading Scheme: Letter Grade
Use dynamic drawing techniques and approaches to explore contemporary art and connections across disciplines.
Prerequisite: non-art major or non-art history major.

ART 3043C Interdisciplinary Mixed Media: Painting, Drawing, Photo 3 Credits
Grading Scheme: Letter Grade
Inter-media mixed media dissolves the normal boundaries between painting, drawing, and photography. Students identify a core idea or sensibility that is the essence of who they are as an artist and then are required to work in at least the three media: painting, drawing, and photography.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3310C Color Drawing 3 Credits
Grading Scheme: Letter Grade
Explores color theory and color usages in drawing. Emphasis on techniques, strategies and materials.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3311C Thematic Projects in Drawing 3 Credits
Grading Scheme: Letter Grade
Intermediate-level emphasis of conceptual strategies and image construction through the lens of themes in film, literature, and art using color drawing media.
Prerequisite: (ART 2353C or ART 2305C or ART 2374C or ART 2330C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3332C Figure Drawing 2 3 Credits
Grading Scheme: Letter Grade
Comprehensive study of the figure from observation of live models. Study of anatomy, composition and conceptual strategies.
Prerequisite: ART 2330C Figure Drawing 1 and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3380C Experimental Drawing 3 Credits
Grading Scheme: Letter Grade
Exposure to unfamiliar materials and techniques both antique and modern. Invention strategies and contemporary motivating factors explored.
Prerequisite: (ART 2353C or ART 2305C or ART 2374C or ART 2330C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3381C Sketch Journal: Uses and Development 3 Credits
Grading Scheme: Letter Grade
Historic and contemporary uses of sketch journals. Exploration of notation, studies, invention and conceptualization in sketchbook drawing techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3420C Printmaking: Lithography 3 Credits
Grading Scheme: Letter Grade
Studio and print shop training in lithographic technique, including plate and stone methods. Emphasis on continued conceptual development.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3433C Screen Printing 3 Credits
Grading Scheme: Letter Grade
Explores screen printing techniques utilizing drawn and photo-generated stencil processes.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3442C Printmaking: Intaglio 3 Credits
Grading Scheme: Letter Grade
Studio training in this basic printmaking process including dry point, etching and color intaglio. Continued emphasis on artistic inquiry.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3462C Print Photo Intaglio 3 Credits
Grading Scheme: Letter Grade
Application of film and digital photography to printmaking media utilizing intaglio printmaking.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3504C Painting: Structure and Transformation 3 Credits
Grading Scheme: Letter Grade
Examines form and structure theory in painting and its application in development of idea and painterly process.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3521C Site-Specific Painting Studio 3 Credits
Grading Scheme: Letter Grade
Explores the relationship between painting and architecture as well as developments in the field of unheroic or provisional painting.
Prerequisite: (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3522C Painting: Exploring the Series 3 Credits
Grading Scheme: Letter Grade
Development of idea through the creation of series, groups and suites.
Prerequisite: (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3560C Figure Painting 3 Credits
Grading Scheme: Letter Grade
The human figure serves as a formal and expressive motif as well as a departure point for creating individual painting statements.
Prerequisite: (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3561C Projects in Painting: Experiments in Media 3 Credits
Grading Scheme: Letter Grade
Students contract with their instructor to create a body of work in painting, experimenting with materials and methods related to disciplines in painting.
Prerequisite: (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3615C Digital Art and Animation 2 3 Credits
Grading Scheme: Letter Grade
Explores 3D modeling techniques and tools; Students will learn advanced animation techniques using 3D software that builds upon skills acquired from Digital Art and Animation 1.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3616C Digital Art and Animation 1 3 Credits
Grading Scheme: Letter Grade
Explores time-based computer art including animation, interactive and Internet-based projects.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3670C From Fractals to Algorithms: Artmaking in the Age of Artificial Intelligence 3 Credits
Grading Scheme: Letter Grade
This interdisciplinary course embarks on a journey of artmaking through the history of how fractals went from tools of ancient biomimicry for artmaking, sacred buildings, and governing societies to the fractal morphogenesis of AI, data-mining, and machine learning.
Prerequisite: Must be a BA, BFA in Art or Graphic Design major and must have passed sophomore portfolio review.

ART 3711C Sculpture: Materials and Methods 3 Credits
Grading Scheme: Letter Grade
Problems in sculptural form and composition with work in plaster, clay, metal and other materials.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3712C Sculpture: Concepts and Strategies 3 Credits
Grading Scheme: Letter Grade
Continues the emphasis on sculptural materials such as mixed media, metal fabrication, and casting.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3730C Machine Sculpture 3 Credits
Grading Scheme: Letter Grade
Explores the boundaries of physical and electronic media including the use of sound, light, computers and motion in sculpture.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3734C Sculpture Metals 3 Credits
Grading Scheme: Letter Grade
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3764C Ceramic Sculpture 1 3 Credits
Grading Scheme: Letter Grade
Investigates the intermediate level of technical, conceptual and aesthetic issues involved with sculpting using ceramic materials. Students will learn to use sculptural form to convey ideas based on contemporary culture. Projects focus on the use of low-fire materials, image development and glaze electric fired to enhance sculpture.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3768C Ceramic Sculpture 2 3 Credits
Grading Scheme: Letter Grade
Investigates the intermediate level in experimental sculpture processes using fired clay, plaster and latex mold-making as well as technical and aesthetic explorations with large scale works. Historical and contemporary precedents of ceramic sculpture are presented. Concept development and expression through sculptural form are core elements in the course.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3783C Ceramic Design 3 Credits
Grading Scheme: Letter Grade
Investigates the intermediate level of technical, aesthetic, and conceptual issues in ceramics. Study the formulation of clay and preparation of glaze materials with an emphasis on personalized expression through the ceramic design process.
Prerequisite: ART 2752C and must be (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3807C Interdisciplinary Studio 3 Credits
Grading Scheme: Letter Grade
Critical thinking, problem solving, and creative activity in collaboration and cross media art-making.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3842C Performance and Installation 3 Credits
Grading Scheme: Letter Grade
Explores the complex relationships among object, body, site, space, and architecture using various visual media in the creation of installation and performance art.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3857C Professional Practices 3 Credits
Grading Scheme: Letter Grade
An introduction to creative professional practices including research proposals, exhibition planning, website development, graduate school applications and more. Integrating on campus resources, students will be introduced to the skills sets necessary for developing a sustainable career in visual art.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3870C Reinterpreting Global Masterpieces: Recontextualizing Masterworks from the Harn Museum of Art 3 Credits
Grading Scheme: Letter Grade
Studies masterpieces from the Harn through observation and research investigating intensions, meanings, and technical processes. Examines why and how various cultures developed unique styles and approaches. Students reinterpret global masterpieces through choice of media and processes to create new artworks inspired by existing cultural objects.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3892 Art and Theory 3 Credits
Grading Scheme: Letter Grade
Introduces the study of art theory, focusing on its applications to the analysis, contextualization, and production of art, film, and popular culture.
Prerequisite: Must be a BFA Art or BA Art or BFA Graphic Design major, and must have passed sophomore portfolio review.

ART 3930C Special Topics in Studio Art for Non-Art Majors 3 Credits
Grading Scheme: Letter Grade
Rotating topics in studio art and studio practice for juniors and seniors not majoring in art. This course cannot count toward any major within the School of Art + Art History.
Prerequisite: Junior standing or higher

ART 3959C Video Art 3 Credits
Grading Scheme: Letter Grade
Explores video with an emphasis on editing and building a personal vocabulary through the electronic image.
Prerequisite: ART 2680C and must be a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.
Attributes: Artificial Intelligence

ART 4312C Advanced Drawing 6 Credits
Grading Scheme: Letter Grade
Emphasizes individual and creative expression.
Prerequisite: ART 3310C and ART 3332C and ART 3380C and ART 3381C.

ART 4402C Advanced Printmaking 3-6 Credits
Grading Scheme: Letter Grade
Advanced problems in creative printmaking.
Prerequisite: ART 3442C, ART 3420C and ART 3443C.

ART 4505C Advanced Painting 6 Credits
Grading Scheme: Letter Grade
Emphasizes individual creative expression.
Prerequisite: ART 3522C and ART 3560C and ART 3561C.

ART 4612C Digital Media Workshop 3 Credits
Grading Scheme: Letter Grade
Bridges the study of digital media and broadly envisioned professional practices in the field. Emphasis on portfolio and project development for transition to advanced study or professional, expressive or applied practices in integrated media.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.
Attributes: Artificial Intelligence

ART 4630C Video Art: Advanced Projects 3 Credits
Grading Scheme: Letter Grade
Focuses on the completion of larger scale student-directed projects with a special emphasis on pre-production planning and advanced editing techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4631C Computer Art: Advanced Projects 6 Credits
Grading Scheme: Letter Grade
Advanced work in computer-mediated art, including animation and interactive works in both the physical and virtual domain, with special emphasis on completion of larger scale student-directed projects.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4639C Advanced Experiments in Art and Technology 3 Credits
Grading Scheme: Letter Grade
Special topics course that explores new forms of digital media production. Topics reflect emerging forms of digital media.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4642C Digital Fabrication 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary studio combines in-depth analysis of the role of the physical object in diverse conceptual art practices with project-based experimentation using rapid prototyping and manufacturing technologies.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4645C Sensors and Electronics-Based Art 3 Credits
Grading Scheme: Letter Grade
Physical computing HCI (human computer interaction) explores how devices respond to and interact with human physical action. Students will create artwork that explores physical interfaces beyond mouse/keyboard/screen interactions through the use of microcontrollers and sensors.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.
Attributes: Artificial Intelligence

ART 4659C Experiments in ARTificial Intelligence 3 Credits
Grading Scheme: Letter Grade
Learn about the history and theory of AI in computing from a scientific, mythological, and material viewpoint, and investigate this from a theoretical position that is deeply critical yet simultaneously analytical regarding its potential. Gain a literate understanding of AI and learn heuristically through the act of making. Materially engage AI as a medium to produce artworks using AI methodologies and tools.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4710C Advanced Sculpture 6 Credits
Grading Scheme: Letter Grade
Advanced problems in sculptural form with development of processes and techniques.
Prerequisite: ART 3711C and ART 3712C.

ART 4760C Advanced Ceramics 3-6 Credits
Grading Scheme: Letter Grade
Focuses on advanced technical and creative concepts with emphasis on developing personal work and professional practices preparation.
Prerequisite: ART 3783C and ART 3764C and ART 3768C.

ART 4828C Senior Studio 3 Credits
Grading Scheme: Letter Grade
Senior Studio is designed to support students to articulate, challenge, and refine their individual art practices in a mentored open studio environment.
Prerequisite: Must be a Senior BFA Art or BA Art major and must have passed sophomore portfolio review and be in final year of study.

ART 4848C Installation Using Digital Processes 3 Credits
Grading Scheme: Letter Grade
Explores site specificity and intervention in 3D space through installation, using digital media to understand concepts such as sequence, narration, scoring, interactivity, motion and recursion.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4858C Presentation of Practices 3 Credits
Grading Scheme: Letter Grade
Provides a platform for presenting research/creative work in public forums and venues. Also provides a framework to understand the professional best practice expectations and develop the skills necessary in planning, creating, documenting, publicizing, and exhibiting/presenting creative work.
Prerequisite: Must be a Senior BFA Art or BA Art major and must have passed sophomore portfolio review and be in final year of study;
Corequisite: ART 4828C.

ART 4883C Making and Meaning 3 Credits
Grading Scheme: Letter Grade
Explores the creation of art in combination with non-art related research. Develop a deeper connection with created artwork and discover how the act of making can reveal both intentions and underlying motives.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4905C Individual Study 1-3 Credits
Grading Scheme: Letter Grade
With consent of faculty, students can take this course for special circumstances: student needs a specific course for the degree and the class is not offered or student (senior) wishes to explore an area of inquiry in greater depth after completing all 3000-level courses in their major.
Prerequisite: senior-level art major and arrangement by and permission of the art advisor and director.

ART 4930C Special Topics in Studio Practice 1-6 Credits
Grading Scheme: Letter Grade
Rotating special topics in studio art and studio practice.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4940 Internship 3 Credits
Grading Scheme: S/U
Supervised practical experience with an art, graphic design or museum facility according to an approved program. Special seminar and evaluation sessions with faculty advisor and art facility manager.
Prerequisite: arrangement with art advisor and chair and dean permission.

ART 4955C Senior Project 1-3 Credits
Grading Scheme: Letter Grade
Visual verification of artistic qualifications for BFA degree. Preparations and activities (exhibition, portfolio, installation, etc.) to be determined in consultation with faculty advisor.
Prerequisite: senior-level art major.

DIG 1000C Workshop in Fundamental Digital Technologies 3 Credits
Grading Scheme: Letter Grade
Introduces the language and applications of digital media. Expect to achieve competency level in the basic use of technology through application and process.
Prerequisite: Art major.

DIG 2021 Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary overview of the technological and cultural developments that continue to shape the modern world. Student research covers topics including telecommunications, digital and analog technologies, video games, computer-generated entertainment and the rise of social media. (WR)
Attributes: Satisfies 4000 Words of Writing Requirement

DIG 2131C Digital Imaging 3 Credits
Grading Scheme: Letter Grade
Emphasizes the aesthetic and conceptual practices of image making using digital media. An exploration of a range of processes, concepts and theories including scanning, printing, image manipulation and color correction. Course emphasizes color theory and its application to image construction and expression.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

DIG 2282C Time-based Media 3 Credits
Grading Scheme: Letter Grade
Introduces the basic practices of time-based media, including animation and video with emphasis on narrative, planning of action and sequencing of images. Fundamental components include basic production techniques, project planning, linear and nonlinear narrative and the integration of various media to explore the possibilities of time-based experiences.
Prerequisite: ART 1803C.

DIG 2930 Special Topics: Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
In-depth examination of the technological and cultural underpinnings that shape current electronic media including video games, the internet, computer-animated movies, and virtual reality.

DIG 3110C Imaging Processes 3 Credits
Grading Scheme: Letter Grade
Prerequisite: Sophomore standing or higher.

DIG 3481C Imaging Processes 3 Credits
Grading Scheme: Letter Grade
Prerequisite: Sophomore standing or higher.

DIG 3482C Interactivity/Coding 3 Credits
Grading Scheme: Letter Grade
Prerequisite: Sophomore standing or higher.

GRA 1107 Design and Identity in Everyday Life 3 Credits
Grading Scheme: Letter Grade
Explore how design shapes identity in daily life through environments, objects, and interfaces. This course examines how design influences self-perception, community, and global marketplace dynamics. Analyze case studies across cultures to understand form, function, and philosophy in design, using readings, discussions, and exercises to uncover its impact on identity.
Attributes: Quest 1

GRA 1113C Design Studies 3 Credits
Grading Scheme: Letter Grade
Individual and socio-cultural perceptions of design shape human experiences. As such, design is never neutral. Three guiding questions shape critical discussions, collaborative design thinking activities, and investigative studio making in this course. What is design? How does design work? Who is design for? With a global range of designs and designers as case studies, this course investigates how 21c. design might re-imagine itself as a powerful force in shaping equitable, sustainable futures.
Prerequisite: Graphic Design Major.

GRA 1831C Design Technologies 3 Credits
Grading Scheme: Letter Grade
Introduces the contemporary graphic design praxis and its specializations through technologies and tools for collaboration, exploration, and production. In addition, emphasizes critical making and training to offer an overview of possibilities and develop an essential graphic design toolkit that considers access, equity, inclusion, and context. The goal is for students to fall in love with the field(s), the processes, and the possibilities.
Prerequisite: Graphic Design Major (BFAG).

GRA 2111C Visual Methods and Processes 3 Credits
Grading Scheme: Letter Grade
Emphasizes design process, methodologies and communication theories that foster the relationship between content and meaning. Course includes experiences in visual analysis, symbol conceptualization, figure-ground, spatial concepts and compositional dynamics and an introduction to semiotics, design principles and design methods.
Prerequisite: ART 1803C or provisional Graphic Design certificate students.

GRA 2208C Typography 1: Letterform 3 Credits
Grading Scheme: Letter Grade
Explores the expressive potential of letter form as visual art. Emphasizes shaping and spacing forms into meaningful communications.
Prerequisite: ART 1803C or provisional Graphic Design certificate students.

GRA 3138C Graphic Design Practice 3 Credits
Grading Scheme: Letter Grade
Create and integrate concept, form, processes, and technologies in order to develop systems-based, practice-oriented solutions to a range of problems. The results of research and design work will be synthesized to develop a final presentation and portfolio.
Prerequisite: GRA 2111C and GRA 2208C with grades of B or better and enrollment in the Graphic Design certificate.

GRA 3193C Design: Visualization and Creativity 3 Credits
Grading Scheme: Letter Grade
Creative thinking and form making in design. Emphasizes visual invention and compositional dynamics.
Prerequisite: GRA 2111C and GRA 2208C and a BFA Graphic Design major and must have passed sophomore portfolio review.

GRA 3194C Technologies and Processes 3 Credits
Grading Scheme: Letter Grade
Training in tools and materials of graphic design, including printing processes, computer and video processes, photographic and electronic media.
Prerequisite: GRA 3209C and GRA 3193C and BFA Graphic Design major and must have passed sophomore portfolio review.

GRA 3198C Image, Form and Meaning 3 Credits
Grading Scheme: Letter Grade
Emphasizes development of concepts, metaphors, narratives and visual translations. Projects in line art, screen process, photography, and color.
Prerequisite: GRA 3209C and GRA 3193C and BFA Graphic Design major and must have passed sophomore portfolio review.

GRA 3209C Typography 2: Composition 3 Credits
Grading Scheme: Letter Grade
Explores the visual organization and integration of typographic information with images in printed documents. Emphasizes nomenclature, mechanical processes, design, and historical contexts.
Prerequisite: GRA 2111C and GRA 2208C and a BFA Graphic Design major and must have passed sophomore portfolio review.

GRA 3816C Design Thinking 3 Credits
Grading Scheme: Letter Grade
Design thinking is interdisciplinary, human-centered, collaborative, contextual, and iterative. It offers an exceptionally dynamic framework to approach idea generation, creative investigation, and divergent thinking. Learn principles of design thinking through exercises, brainstorming, sketching, case studies, and presentations.
Prerequisite: GRA 2111C and GRA 2208C with minimum grades of B and enrollment in the Graphic Design certificate.

GRA 4165 Graphic Design History I 3 Credits
Grading Scheme: Letter Grade
Investigates the diverse cultural functions and critical definitions of graphic design across places and times prior to the twentieth century. Introduces broad stylistic movements common to western Europe and North America, and interrogates and re-writes received definitions of graphic design which exclude globally diverse artifacts, designers, practices, and users.
Prerequisite: ARH 2050 and ARH 2051.

GRA 4166 Graphic Design History II 3 Credits
Grading Scheme: Letter Grade
Investigates the diverse cultural functions and critical definitions of graphic design across places and times in the twentieth and twenty-first centuries. Introduces broad stylistic movements common to western Europe and North America; interrogates and re-writes a received definition of graphic design which excludes globally diverse artifacts, designers, practices, and users.
Prerequisite: GRA 4165.

GRA 4186C Senior Design Studio 3 Credits
Grading Scheme: Letter Grade
Emphasizes self-directed design, research and study leading to the development and realization of complex design projects. Public dissemination of final projects.
Prerequisite: GRA 4196C and GRA 4197C and a BFA Graphic Design major of senior standing.

GRA 4187C Design Workshop 3 Credits
Grading Scheme: Letter Grade
Bridges the study of design and professional practice. Emphasis on practical graphic design issues applied to real-world experiences.
Prerequisite: GRA 4196C and GRA 4197C and a BFA Graphic Design major of senior standing.

GRA 4196C Design: Ideas and Styles 3 Credits
Grading Scheme: Letter Grade
Special emphasis on history and theories of graphic design including innovations and contemporary issues.
Prerequisite: GRA 3198C and GRA 3194C and a BFA Graphic Design major of senior standing.

GRA 4197C Graphic Design: Visual Systems in Design 3 Credits
Grading Scheme: Letter Grade
Self-directed complex and integrated design projects.
Prerequisite: GRA 3198C and GRA 3194C and Graphic Design major of senior standing.

GRA 4905 Directed Study 0-9 Credits
Grading Scheme: Letter Grade
This is an elective, self-directed course for the advanced student to investigate a topical area of study in graphic design not provided in the regularly offered courses. Coursework is conducted based on a proposal and plan developed by the student and faculty supervisor, with departmental approval.
Prerequisite: Junior standing or above, with departmental approval.

GRA 4923C Design and Professional Practice Studio 3 Credits
Grading Scheme: Letter Grade
Advanced study in graphic design and professional practices of design in business and multidisciplinary learning experiences. Students repeating this course will have demonstrated excellence during the first semester, been selected for their leadership abilities and assigned advanced roles in the studio environment.
Prerequisite: (BFA Graphic Design and passed sophomore portfolio review) or via department application process.

GRA 4930 Special Topics in Graphic Design 1-6 Credits
Grading Scheme: Letter Grade
Advanced study of issues and topics in graphic design beyond those in the regular curriculum.
Prerequisite: Graphic Design Major and must have passed sophomore portfolio review or permission of instructor.

GRA 4940 Graphic Design Internship 0-6 Credits
Grading Scheme: S/U
0-6 credits repeatable for credit. Graphic/communication design professional practice and related experience as defined by program guidelines.
Prerequisite: Graphic Design major, employer approval, and faculty sponsor approval.

GRA 4953C Senior Project in Design 1 Credit
Grading Scheme: Letter Grade
Emphasizes the development of a personal website to showcase the student's professional portfolio, design philosophy and credentials. Students will be required to launch a website with a proprietary URL on a commercial server prior to completing the course. Students are evaluated on the appropriateness and completion level of the website as well as their conceptual, formal and technical development.
Prerequisite: BFA Graphic Design major of senior standing;
Corequisite: GRA 4187C and GRA 4186C.

IDC 3500C Programming for Artists 3 Credits
Grading Scheme: Letter Grade
Introduces understanding interactivity as an art form, providing an in-depth exploration of the tools, theories and applications of interactive media as they are used for creative inquiry, research and production.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 2101C Visual Literacy: Photography 3 Credits
Grading Scheme: Letter Grade
Introduces the practices, theories and histories of photography. Acquisition of basic darkroom skills and key elements of contemporary theoretical approaches to visual art.
Prerequisite: ART 1803C.

PGY 2441C Photography: Images, Order and Idea 3 Credits
Grading Scheme: Letter Grade
Use of non-traditional light-sensitive processes to explore aspects of image manipulation.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

PGY 2442C Photography: Figure and Ground 3 Credits
Grading Scheme: Letter Grade
Light and shape aspects of photographic images; theories of space and 2D composition; and basic camera and darkroom techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

PGY 3410C Photography: Color 3 Credits
Grading Scheme: Letter Grade
Consideration of the use and technique of color photography. Covers cameras, films, and darkroom developing techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 3444C Photography: Black and White 3 Credits
Grading Scheme: Letter Grade
Fundamentals of photography, operation of the camera and developing, printing, and enlarging. Principles of photography as a means of personal expression.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 3820C Photography: Digital 3 Credits
Grading Scheme: Letter Grade
Studio methods and techniques in creating still images using electronic digital technology.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 4156C Large Format Photography 3 Credits
Grading Scheme: Letter Grade
Advanced study in artificial lighting, color balancing of mixed light sources, view camera techniques to control distortion, focus and painting with light.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 4420C Advanced Photography 6 Credits
Grading Scheme: Letter Grade
Use of the camera as a medium of individual creative expression. Experimental projects in black and white and color photography.
Prerequisite: PGY 3410C, PGY 3421C, PGY 3444C, PGY 3820C, and senior-level art major.

Astronomy and Astrophysics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Astronomy is home to a vibrant community actively engaged in research, education, and outreach. The department's faculty are involved in a wide range of research programs (https://www.astro.ufl.edu/research/) using world-class resources including an in-house design-through-fabrication instrumentation program (https://www.astro.ufl.edu/instrumentation/past-current-projects/), partner level access to the Gran Telescope Canarias (https://www.astro.ufl.edu/research/telescopes/), the HiPerGator-2 (https://www.astro.ufl.edu/research/computing/) supercomputer, and more.

Curriculum

- Astronomy and Astrophysics
- Astronomy Minor

Courses

AST 1002 Discovering the Universe 3 Credits
Grading Scheme: Letter Grade
This course provides a comprehensive look at modern astronomy, emphasizing the use of the scientific method and the application of physical laws to understand the universe including earth and its environment. Throughout this course, students will develop the ability to discern scientific knowledge from non-scientific information by using critical thinking.
Attributes: General Education - Physical Science

AST 1022L Astronomy Laboratory 1 Credit
Grading Scheme: Letter Grade
Introduces experimental work in astronomy including scheduled laboratory exercises during the day in the teaching lab and evening observational astronomy at the on campus teaching observatory. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Physical Science

AST 2000 Cosmology 3 Credits
Grading Scheme: Letter Grade
Overview of cosmology, the study of the large-scale structure and history of the universe, in four components: ideas about the universe as a whole predating the twentieth century; ideas from twentieth century physics that impact modern cosmology; stars, black holes, galaxies and quasars as probes of the universe; and the Hot Big Bang Model.

AST 2003 Introduction to the Solar System 3 Credits
Grading Scheme: Letter Grade
Survey of the solar system: sun, planets, satellites, asteroids, meteorites and comets. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: simple algebra.
Attributes: General Education - Physical Science

AST 2005 Are We Alone? Searching for ET Life 3 Credits
Grading Scheme: Letter Grade
Covers nature and limits of life, distribution of habitable environments in the Universe, search and probability of finding extraterrestrial life. Explores societal and personal impact of astrobiology by examining international policies and science fiction
Prerequisite: Any Quest 1 course with a minimum grade of C.

AST 2023 Astrophotography: Art & Science 3 Credits
Grading Scheme: Letter Grade
Overview of Astrophotography. Basic telescope, camera and image processing techniques. Impact of light pollution and artificial satellites on the night sky. Technological, environmental, and societal impact of Astrophotography. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Quest 2, General Education - Physical Science

AST 2031 Knowledge and the Universe 3 Credits
Grading Scheme: Letter Grade
Describes and evaluates the Bayesian inference model in various astronomical contexts and with regard to pressing societal issues. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Quest 2, General Education - Physical Science

AST 2032 Nature of Time 3 Credits
Grading Scheme: Letter Grade
This course will thoroughly investigate some of the most interesting topics in contemporary physics— the arrow of time, irreversibility, quantum mechanics, cosmology—through the lens of big questions. This class is accessible to non-physics majors—indeed, to those with minimal technical background at all—and will focus on the concepts, exploring the key ideas with almost no math. At the same time, we will mix in ideas from philosophy, history, and art that also bear on these questions. This will make the course relevant and exciting both for those who feel a strong affinity with the arts and humanities as well as for those for whom science resonates more. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Quest 1 with a minimum grade of C.
Attributes: Quest 2, General Education - Physical Science, Satisfies 2000 Words of Writing Requirement

AST 2034 Stars and the Nuclear Arms Race 3 Credits
Grading Scheme: Letter Grade
Introduces astronomical events identified as the sites of formation of the heaviest elements in the universe, especially uranium, and their connections to nuclear weapons that have shaped global politics and local environmental policy over the last few generations. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Quest 2, General Education - Physical Science

AST 2037 Life in the Universe 3 Credits
Grading Scheme: Letter Grade
Considers the origin of life on earth and the possibility of its existence elsewhere. A multidisciplinary approach is followed. Conditions for life to form, and the likelihood that such conditions may exist elsewhere in the universe, are discussed. Also considered are schemes proposed for the search for extraterrestrial intelligence (SETI). This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Physical Science

AST 2730 Introduction to Python for Physical Sciences 4 Credits
Grading Scheme: Letter Grade
Learn syntax, capabilities, and foundations of Python and basic numerical methods to address physical problems with a computational approach. Covers basics of dataset manipulation, algorithm development, and plotting.

AST 3018 Astronomy and Astrophysics 1 3 Credits
Grading Scheme: Letter Grade
First part of a two part sequence. Survey of astronomy and astrophysics for physical science, engineering, or mathematics majors. Covers gravitation, orbits and tides; the Moon's phases and eclipses; light and spectra; the solar system; and a few historical milestones.
Prerequisite: (PHY 2048 or PHY 2060) and (MAC 2311 or MAC 3472).
Corequisite: PHY 2049.

AST 3019 Astronomy and Astrophysics 2 3 Credits
Grading Scheme: Letter Grade
Second part of a two part sequence. Survey of astronomy and astrophysics for physical science, engineering or mathematics majors. Covers compact objects; the Solar System; exoplanets; the Milky Way and galaxies; cosmology and relativity.
Prerequisite: (PHY 2048 or PHY 2060) and (MAC 2311 or MAC 3472).
Corequisite: PHY 2049.

AST 3043 History of Astronomy through Newton 3 Credits
Grading Scheme: Letter Grade
Astronomy from its beginnings through Newton. Emphasizes the works of Ptolemy, Copernicus, Kepler, Galileo, and Newton.
Prerequisite: (MAC 1105 or MAC 1114) or higher.
Attributes: General Education - International

AST 3722C Techniques of Observational Astronomy 1 3 Credits
Grading Scheme: Letter Grade
First part of the AST 3722C-4723C sequence. The fundamental principles and techniques used in planning, making, reducing and analyzing modern astronomical observations. Includes classroom lectures and discussion, indoor laboratory work, data analysis and outdoor night observations. Introduces numerical treatment of observations, CCD imaging, digital imaging processing and astronomical spectroscopy.
Corequisite: AST 3018.

AST 4211 Essentials of Astrophysics 3 Credits
Grading Scheme: Letter Grade
Foundation and background on topics in astrophysics, including broadening mechanisms of spectral lines, equations of state of gases, thermodynamics, radiation sources, radiative transport, kinetic theory of gases and stellar structure.
Prerequisite: AST 3018, AST 3019 and a working knowledge of calculus.

AST 4300 Galactic Astronomy 3 Credits
Grading Scheme: Letter Grade
Intensive introduction to the fundamental properties of the Milky Way and its system of satellite galaxies. Course is intended for astronomy majors and natural science students. Topics include the ages, chemical abundances and kinematics of field stars and star clusters, the properties of the interstellar medium and its role in star formation, the dark matter content and models of the Milky Way's physical structure.
Prerequisite: AST 3018, AST 3019 and a working knowledge of calculus.

AST 4402 Galaxies and Cosmology 3 Credits
Grading Scheme: Letter Grade
An investigation into the properties of galaxies and their distribution in space. Some cosmological implications of this distribution are discussed. Intended for astronomy majors and advanced students of other mathematical sciences.
Prerequisite: AST 3018, AST 3019 and a working knowledge of calculus.

AST 4723C Techniques of Observational Astronomy 2 3 Credits
Grading Scheme: Letter Grade
Second part of a sequence. The fundamental principles and techniques used in planning, making, reducing, and analyzing modern astronomical observations. Includes classroom lectures and discussion, indoor laboratory work, data analysis, and outdoor night observations. Introduces numerical treatment of observations, CCD imaging, digital imaging processing, and astronomical spectroscopy.
Prerequisite: AST 3722C.

AST 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Assigned reading or research for qualified undergraduates.
Prerequisite: AST 3018 and AST 3019, or two years of college physics and instructor permission.

AST 4911 Undergraduate Research in Astronomy 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Astronomy. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Astronomy.

AST 4930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or laboratory sessions covering selected topics of current interest in astronomy.
Prerequisite: instructor permission.

PHZ 3152 Advanced Computational Techniques 3 Credits
Grading Scheme: Letter Grade
Advanced Computational Techniques in Astronomy and Physics. Advanced techniques in computational methods in the natural sciences and numerical analysis. Includes version controlling and programming in distributed environments; grid construction and convergence techniques; numerical differentiation; linear algebra; root finding; differential equations; Monte Carlo simulations; open source project development.
Prerequisite: MAC 2312 or equivalent.

Biochemistry and Molecular Biology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

The department offers a full program of courses for the undergraduate student preparing for advanced degrees in the biological, agricultural and life sciences and for professional school.

The major course offering, BCH 4024, is designed to provide students with a general background in biochemistry and molecular biology for professional school or advanced studies in specialized areas.

The department offers an independent interdisciplinary major in biochemistry and molecular biology, in cooperation with the College of Liberal Arts and Sciences, to those undergraduates with strong interests in cell processes, molecular biology, metabolism or physical or structural biochemistry (See Biochemistry and Molecular Biology entry under Majors).

Undergraduate students in other majors who are interested in a research career in biochemistry and molecular biology should take BCH 4024 as early in their undergraduate program as possible. Students interested in supplementing these didactic course offerings with laboratory research experience can register for BMS 4905 after obtaining department approval. Further information on such research opportunities, advanced study and early admission can be obtained from the undergraduate studies coordinator.

Students with interests in medicine or other health sciences may also choose to enroll in the interdisciplinary major program and should contact the assistant dean for preprofessional education in the College of Medicine at the end of the sophomore year or at the beginning of the junior year.

Courses

BCH 2911 Science for Life 1 Credit
Grading Scheme: Letter Grade
This weekly research course introduces students to the many research opportunities available in the bench, field, clinical, and computer labs across all STEM and Health disciplines on campus. Each week, three faculty members discuss their research focus, how and why they study the systems they do, and the broader impacts of their work. These brief presentations are designed to offer students a deeper awareness of UF's interdisciplinary research and how undergraduates can be involved.
Prerequisite: College-level science or engineering course.

BCH 4024 Introduction to Biochemistry and Molecular Biology 4 Credits
Grading Scheme: Letter Grade
Introduces physical biochemistry, intermediary metabolism and molecular biology. Topics include a survey of structure, chemistry and function of proteins and nucleic acids, enzyme kinetics and mechanisms of catalysis; a survey of the pathways of carbohydrate, lipid and nitrogen metabolism and their metabolic control; regulation of gene expression at the level of DNA, RNA and protein synthesis.
Prerequisite: CHM 2211 or CHM 3217, or instructor permission.

BCH 4905 Biochemistry Senior Research 1-7 Credits
Grading Scheme: Letter Grade
Laboratory investigations of biochemical problems of current interest. Senior thesis required.
Prerequisite: CHM 2210, CHM 2211, and CHM 3217 or the equivalent, BCH 4024 and interdisciplinary major status.

Biology | Botany | Zoology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. The department's teaching and research provide the integrative and conceptual foundations of the life sciences.

Courses

Biology

BOT 4650 Plant Symbiosis 3 Credits
Grading Scheme: Letter Grade
Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and cospeciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

BOT 4851C Medical and Forensic Plant Biology 3 Credits
Grading Scheme: Letter Grade
Basic plant taxonomy, systematics, phytochemicals, uses of plants by animals and various human cultures, and in the development of modern medicine and drug development. Uses of plant tissues and products in forensic investigations will also be discussed.
Prerequisite: BSC 2011 with a minimum grade of B.

BSC 1920 First Year Introduction: Biology at UF 1 Credit
Grading Scheme: S/U
Introduces the field of biology and the academic resources specific to this discipline at UF. Discussions of the nature and practice of scientific research, laboratory safety, advising and career resources for biologists. Developments in the instructor's area of expertise are used to illustrate key subjects.
Prerequisite: biology, botany, zoology or exploring science and engineering majors only.

BSC 2005 Biological Sciences 3 Credits
Grading Scheme: Letter Grade
This course applies the scientific method to critically examine and explain the natural world including but not limited to cells, organisms, genetics, evolution, ecology, and behavior.
Attributes: General Education - Biological Science

BSC 2005L Laboratory in Biological Science 1 Credit
Grading Scheme: Letter Grade
Laboratory for students who need experience in non-professionally oriented laboratory or for those who need laboratory experience to satisfy graduation requirements. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

BSC 2010 Integrated Principles of Biology 1 3 Credits
Grading Scheme: Letter Grade
In this course, students will apply the scientific method to critically examine and explain the natural world. This course will cover molecular biology, cellular biology, genetics, metabolism, and replication.
Prerequisite: Degree-seeking students only.
Attributes: General Education - Biological Science

BSC 2010L Integrated Principles of Biology Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory requirements designed to accompany BSC 2010 this course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Degree-seeking students only.
Corequisite: BSC 2010 or the equivalent.
Attributes: General Education - Biological Science

BSC 2011 Integrated Principles of Biology 2 3 Credits
Grading Scheme: Letter Grade
General biology core: the second of a two-semester sequence that prepares students for advanced biological sciences courses and allied fields. Examination in living things of the principles of information storage, transmission and utilization at the cell, organism and population levels; of the mechanisms of evolutionary change in the diversification of living things and their life styles; of population growth and regulation; and of energy flow and biogeochemical cycling in the biosphere. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: BSC 2010 or the equivalent. Degree-seeking students only.
Attributes: General Education - Biological Science

BSC 2011L Integrated Principles of Biology Laboratory 2 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany BSC 2011. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Degree-seeking students only.
Corequisite: BSC 2011 or the equivalent.
Attributes: General Education - Biological Science

BSC 2321 Gulf Coast Flora - A Changing Landscape 3 Credits
Grading Scheme: Letter Grade
Includes field instruction in Gulf coast plant communities with discussion and writing about course themes. Focuses on appreciation of ecological importance of plant communities on Florida's Gulf coast and guides students to observe how the landscapes are changing. Discussion of scientific literature on loss of Gulf coast biodiversity and potential impacts of such loss on human communities. Considers the outlook for Gulf communities in the presence of climate extremes.

BSC 2460 Can we design "better" humans? Should we? 3 Credits
Grading Scheme: Letter Grade
Introduces the topics of human cloning and human genetic modifications through analysis of international scientific data. Discusses ethical considerations of these topics.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - International

BSC 2500 Water for People and Nature 3 Credits
Grading Scheme: Letter Grade
This course addresses the pressing questions, "How much water do we need, and how do we balance conflicting demands for this critical resource?" We will examine the physical and biological science behind the various stages of the water cycle through lectures and readings, and we will learn about watershed hydrology and the science of environmental flows through online simulations. We will analyze anthropogenic impacts on water resources through participation in a hypothesis-driven experiment testing the influence of stressors on living stream mesocosms, and we will read and discuss local examples of water resource challenges and solutions. We will reflect on our own use of water through recording a water use diary and calculating our water footprint. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Quest 2, General Education - Biological Science

BSC 2520 Our Oceans: Human Impacts 3 Credits
Grading Scheme: Letter Grade
Our oceans. They are stunningly beautiful, profoundly impacted by humans, and vitally important to human existence. In this course, we will ask "how do we impact our oceans, and how do they in turn impact us?" We will explore the biodiversity and ecology of our oceans, human impacts on ocean ecosystems, how ocean ecosystems impact humans, and solutions for ecological problems. Thus, this multidisciplinary course will touch on biology, sociology, engineering, and other fields to explore the issue of human impacts on the ocean from many angles. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: Quest 2, General Education - Biological Science

BSC 2820 Is Animal Migration Disappearing? 3 Credits
Grading Scheme: Letter Grade
Animal migration is a fascinating and inspiring natural phenomenon, yet around the world, many migrations are in decline, and this rate has accelerated in recent years. Therefore, the pressing questions that this course addresses are: “Is animal migration disappearing? And “Is this a significant issue?” We will focus on a diversity of organisms that journey by air, land, and water to explore the ecological properties and services associated with migrating animals. We will explore the scientific, social, and political challenges to ensure that these migrations do not go extinct. We will learn about the methods used to study migration, cues for migration, variation in migratory life histories and their evolution, and assess how humans affect migrating animals. We will view this pressing question through a scientific lens and multi-disciplinary inquiry, with assignments that employ writing, presentation, data analysis, experiential learning, class discussion, and group work. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: Quest 1 course with a minimum grade of C.
Attributes: Quest 2, General Education - Biological Science, Satisfies 2000 Words of Writing Requirement

BSC 2862 Global Change Ecology and Sustainability 3 Credits
Grading Scheme: Letter Grade
This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena and examines key issues in sustainability and global environmental change from an ecological perspective. Major themes include impacts of climate change on terrestrial ecological communities; feedbacks between the terrestrial biosphere and the atmosphere; and implications of climate change for the sustainability of natural and managed ecosystems.
Attributes: General Education - Biological Science

BSC 2930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in general biology.

BSC 3096 Human Physiology 3 Credits
Grading Scheme: Letter Grade
Functioning of human tissues, organs and organ systems, emphasizing the physical, chemical and mechanistic bases of normal physiology and the integrated function of the human body. Also introduces pathophysiological changes associated with human diseases.
Prerequisite: (CHM 1031 or CHM 2046 or CHM 2047) and BSC 2011.

BSC 3307C Climate Change Biology 4 Credits
Grading Scheme: Letter Grade
Climate change and its impacts on biological communities, feedbacks from the biosphere to the climate system and human impacts on the carbon cycle. Emphasis on the response of vegetation to climate change and rising atmospheric CO2 concentrations and the role of terrestrial ecosystems in regulating climate via the carbon cycle.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

BSC 3911 Entering Research in Biology 1 Credit
Grading Scheme: Letter Grade
A weekly seminar course that prepares students entering research and complements students' mentored research experience. Students get feedback on securing a research lab/mentor, share their research experiences and get feedback on their projects. Guest speakers on Biology careers and graduate/professional school admissions invited to class.
Prerequisite: BSC 2010/L and BSC 2011/L.

BSC 4055 Climate Change and Human Systems 3 Credits
Grading Scheme: Letter Grade
Principles derived from basic medical science, ecology, and relevant social sciences describe the major factors of climate change and their effects on human systems relevant to economy, wellness, energy systems, and food security. Natural science and the scientific method provide the basis for understanding sustainability science as a framework for mitigation and adaptation of the disruption of the Earth System and impacts on the biosphere and human systems.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

BSC 4364C Field Ecology & Data Analysis 3-4 Credits
Grading Scheme: Letter Grade
Collect and analyze ecological field data. Research projects at local focal field sites. Introduction to computer coding, data analysis, and data visualization using R software. Includes elements of dendrology, local flora, plant ecology, wildlife ecology, statistics, and data visualization, but does not cover any one of these topics in depth. Experiential learning through instructor-led class projects.
Prerequisite: Sophomore standing or higher.

BSC 4452 Computational Tools for Research in Biology 3 Credits
Grading Scheme: Letter Grade
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.
Prerequisite: Junior standing or higher.

BSC 4821C Evolutionary Biogeography 3 Credits
Grading Scheme: Letter Grade
How to interpret biological data sets in a biogeographical context. Topics and methods in historical and ecological biogeography are discussed.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

BSC 4892 AI in Biology 3 Credits
Grading Scheme: Letter Grade
Examines how AI has rapidly become ubiquitous in daily life and been applied to diverse areas of Biology. Focuses on machine learning approaches as well as deep learning methods, including transformers. Covers machine learning methods for tabular data, computer vision, transfer learning, natural language processing, and transformer-based architectures. Classes typically applied coding with Jupyter Notebooks on HiPerGator. Prior Python coding experience required.
Prerequisite: BSC 4452 or BSC 6451 or BSC 2891 or Instructor permission (Python programming experience.)
Attributes: Artificial Intelligence

BSC 4910 Individual Mentored Research in Biology 0-3 Credits
Grading Scheme: Letter Grade
Qualified students work with a supervising instructor on a research project in biology.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.
Corequisite: BSC 3911.

BSC 4912 Advanced Mentored Research in Biology 0-4 Credits
Grading Scheme: Letter Grade
Advanced students work with a supervising instructor on a research project in biology. May be repeated for full credit.
Prerequisite: BSC 3911 and BSC 4910 with minimum grades of C.

BSC 4930 Special Topics in Biology 1-4 Credits
Grading Scheme: Letter Grade
Special topics of current interest in biology.
Prerequisite: (BSC 2011 and BSC 2011L) or equivalent with minimum grades of C.

BSC 4936 Critical Analysis of Biological Research 2 Credits
Grading Scheme: Letter Grade
Critical analysis of current life sciences research through online discussions of research seminars and peer reviewed scientific publications.
Prerequisite: Senior standing or higher in biology, botany or zoology.

BSC 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade

IDS 1703 Frontiers of AI 1 Credit
Grading Scheme: Letter Grade
Explore artificial intelligence (AI) and how it is used to solve real-world problems in a wide variety of disciplines. Presentations will be from faculty who study AI technologies in science, art, medicine, business, and more, and will equip students to think about how AI can be applied to their areas of interest. Intended for students from any major/discipline, no technical experience needed.

ISC 2400L Cross-Disciplinary Laboratory 1 3 Credits
Grading Scheme: Letter Grade
First course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2010L, CHM 2045L and PHY 2053L.
Prerequisite: high school algebra or equivalent. Degree-seeking students only.

ISC 2401L Cross-Disciplinary Laboratory 2 3 Credits
Grading Scheme: Letter Grade
Second course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2011L, CHM 2046L and PHY 2054L.
Prerequisite: ISC 2400L and MAC 1147 or equivalent;
Corequisite: BSC 2010 and CHM 2045 or CHM 2047 or CHM 2095.

ISC 3523 Integrative Biomedical Science 3 Credits
Grading Scheme: Letter Grade
Introduces biomedical science as the application of the natural sciences to medicine. Focuses on integration of biological and biochemical sciences, chemical and physical sciences, and social and behavioral sciences in the context of health. Activities promote skills in problem-solving, critical analysis, and quantitative reasoning.
Prerequisite: BSC 2011 and (CHM 2211 or CHM 2213 or CHM 3217) and (PHY 2048 or PHY 2053 or PHY 2060) and (MAC 2311 or STA 2023) and (PSY 2012 or SYG 2000).

PCB 3109 Cancer Biology 3 Credits
Grading Scheme: Letter Grade
Introduces the dysregulation of cellular processes in cancer cells including the mechanisms of action of anti-cancer drugs.

PCB 3402 Disease Ecology and Evolution 3 Credits
Grading Scheme: Letter Grade
Understand how ecological patterns and evolutionary processes shape host-pathogen interactions and learn basic metrics to study infection and disease, as well as the opportunity to analyze data and interpret patterns. Use primary literature to discuss topics such as: emerging pathogens in plants, animals, and humans; evolution of host defenses; disease-diversity relationships; microbiomes and dysbiosis; herd immunity; and the one health concept.
Prerequisite: BSC2010.

PCB 4085 Genetical Ethics 1 Credit
Grading Scheme: Letter Grade
Presentation and critical discussion of new genetic discoveries and discoveries in the context of society. Includes policy, historical, and legal perspectives. Covers responsible conduct of research.
Prerequisite: PCB 3063 or AGR 3303.

PCB 4460 Biodiversity and Ecology Field Immersion 4 Credits
Grading Scheme: Letter Grade
Five-week intensive study of the earths rich biodiversity. Emphasizes comparative study of form and function, and of complexity and diversity in phylogenetic and environmental contexts. Focuses on the study of living organisms in the laboratory and field in diverse habitats. Focal organisms and settings rotate according to instructor and semester.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L.

PCB 4542 Synthetic Biology and Comparative Genomics 3 Credits
Grading Scheme: Letter Grade
Synthetic biology merges genetics and engineering to redesign and fabricate existing biological systems and design and fabricate unnatural biological systems, with a strong focus on the use of comparisons among existing organisms to understand the results of synthetic biology experiments.
Prerequisite: BSC 2010 with a C or better and (PCB 3063 or AGR 3303 or PCB 4522).

PCB 4553 Population Genetics 4 Credits
Grading Scheme: Letter Grade
Population and quantitative genetics, including the theory of gene frequency dynamics within and between populations, and deterministic and stochastic processes in evolution.
Prerequisite: BSC 2011 and 2011L with minimum grades of C.

PCB 4562 Epigenetics and Human Disease 3 Credits
Grading Scheme: Letter Grade
Introduction of epigenetic processes and epigenetic basis of human disease through lectures and in-class group activities, with focus on epigenetic modifications, chromatin remodeling, long-range chromatin interactions, dosage compensation, genomic imprinting, pluripotent stem cells, epigenetic reprogramming, and how knowledge of epigenetic processes leads to understanding and treatment of human disease.
Prerequisite: BSC 2011 and PCB 3063, with minimum grades of C.

PCB 4917 Molecular Biology Lab Immersion 4 Credits
Grading Scheme: Letter Grade
Perform authentic research employing techniques of molecular biology in an intensive 5 week format. Each semester the instructor chooses a general area of research and set of techniques for projects. Design hypotheses, plan and carry out experiments, and analyze data.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of B.

ZOO 4050 Animal Behavior 3 Credits
Grading Scheme: Letter Grade
Scientific study of the mechanistic and evolutionary causes of animal behavior. Topics include communication, foraging and anti-predator behavior, spatial behavior, aggressive behavior, mating behavior, parental care, and social behaviors.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

ZOO 4405 Sea Turtle Biology and Conservation 3 Credits
Grading Scheme: Letter Grade
Biology of sea turtles and their roles in marine ecosystems, current major issues in sea turtle biology, and challenges in their conservation and management.
Prerequisite: BSC 2010 and BSC 2011 with a minimum grade of C.

ZOO 4462C Herpetology 4 Credits
Grading Scheme: Letter Grade
A broad introduction to the biology of amphibians and reptiles, including their evolution, systematics, diversity, ecology, behavior, physiology, anatomy, and natural history. Laboratory sections provide hands-on experience with amphibians and reptiles from Florida and internationally.
Prerequisite: BSC 2011 and BSC 2011L.

ZOO 4485 Marine Mammal Biology 3-4 Credits
Grading Scheme: Letter Grade
Provides an understanding of the marine mammals (cetaceans, pinnipeds, sirenians, sea otters and the polar bear), including evolutionary biology, physiology (locomotion, diving, thermoregulation, osmoregulation, reproduction), ecology (foraging/feeding behavior, distribution and habitat use, population dynamics), and conservation and management. Appropriate for advanced undergraduates.
Prerequisite: BSC 2011 and BSC 2011L.

Botany

BCH 3023 Elementary Organic and Biological Chemistry 3 Credits
Grading Scheme: Letter Grade
Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.
Prerequisite: CHM 2046 or CHM 2047.

BOT 2010C Introductory Botany 3 Credits
Grading Scheme: Letter Grade
Intro Botany, for science majors. Introductory-entry level course primarily for beginning students or new college students. First course in botany. Structures functions of cells, tissues, and organs of flowering plants. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

BOT 2011C Plant Diversity 4 Credits
Grading Scheme: Letter Grade
Survey of major plant groups with regard to structure, life histories and uses accompanied by laboratory showing diversity of plants in the world. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: introductory college biology/botany course or the equivalent.
Attributes: General Education - Biological Science

BOT 2710C Practical Plant Taxonomy 3 Credits
Grading Scheme: Letter Grade
Introduces plant taxonomy including principles of systematic botany, nomenclature and classification, but emphasizing identification. Student will be able to identify the common ferns, fern allies, gymnosperms and flowering plants of field and garden.

BOT 2800C Plants in Human Affairs 3 Credits
Grading Scheme: Letter Grade
Role of plants in development of civilization and influence of plants on world history, politics, economics and culture. Survey of useful and harmful plants and plant products. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

BOT 3151C Local Flora of North Florida 3 Credits
Grading Scheme: Letter Grade
Laboratory observation of the gross features of vascular plants and practice in the use of keys to identify plants. Elementary ecology of principal types of plant communities in northern Florida. Includes field trips.
Prerequisite: BSC 2005 or BSC 2010.

BOT 3503 Physiology and Molecular Biology of Plants 3 Credits
Grading Scheme: Letter Grade
The chemical organization, cellular organization, metabolism, nutrition, growth and molecular biology of the higher plants.
Prerequisite: (BOT 2010C or BSC 2005 or BSC 2010) and CHM 2046 and CHM 2046L.
Corequisite: BOT 3503L; laboratory may be taken in subsequent term.

BOT 3503L Physiology and Molecular Biology of Plants Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory experiments to accompany BOT 3503.
Corequisite: BOT 3503.

BOT 4053 Practical Experience in Teaching Botany 2 Credits
Grading Scheme: Letter Grade
Participation in teaching one 3000-level botany course with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance.
Prerequisite: generally, senior standing with recommendations from two faculty members, including the course instructor.

BOT 4650 Plant Symbiosis 3 Credits
Grading Scheme: Letter Grade
Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and cospeciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

BOT 4905 Individual Studies in Botany 2-4 Credits
Grading Scheme: Letter Grade
Qualified students and an instructor choose a particular problem for study.
Prerequisite: 8 credits of botany.

BOT 4911 Undergraduate Research in Botany 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Botany. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Botany.

BOT 4935 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in botany.
Prerequisite: BSC 2010 and BSC 2011.

BOT 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Overseas Studies

PCB 3023 Essential Cell Biology 3 Credits
Grading Scheme: Letter Grade
Introduces the basic concepts of molecular cell biology in prokaryotic and eukaryotic systems including experimental strategies and methodology. This course is intended for those interested in plants.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent.

PCB 3601C Plant Ecology 3 Credits
Grading Scheme: Letter Grade
Principles of ecology at scales ranging from individual plants to landscapes. Emphasis is on species, ecosystems and environmental programs in Florida.
Prerequisite: introductory college biology or botany.

Zoology

AST 2037 Life in the Universe 3 Credits
Grading Scheme: Letter Grade
Considers the origin of life on earth and the possibility of its existence elsewhere. A multidisciplinary approach is followed. Conditions for life to form, and the likelihood that such conditions may exist elsewhere in the universe, are discussed. Also considered are schemes proposed for the search for extraterrestrial intelligence (SETI). This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Physical Science

BSC 3402 Theory and Practice in the Biological Sciences 2 Credits
Grading Scheme: Letter Grade
Presents the scientific method in its many formulations from historical, philosophical, and sociological perspectives. Explores generation and presentation of data, formulation of hypotheses, and theories and dissemination of results. Also examines the ethical implication of biological research.
Prerequisite: BSC 2010 and BSC 2011.

GLY 3603C Paleontology 4 Credits
Grading Scheme: Letter Grade
Investigation of the history of life on earth, including aspects of invertebrate and vertebrate paleontology, micropaleontology and paleobotany.
Prerequisite: refer to the department.

PCB 3063 Genetics 4 Credits
Grading Scheme: Letter Grade
Fundamental properties of inheritance in eukaryotic organisms emphasizing examples in humans. Develops basic concepts for the nature, organization, transmission, expression, recombination, and function of genetic materials, and principles derived for genetically characterizing populations.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C and general chemistry.

PCB 3713C Cellular and Systems Physiology 4 Credits
Grading Scheme: Letter Grade
How cells, organs, and higher level systems are integrated and coordinated in the functions of humans and other animals. Emphasizes the use of model organisms, mathematical models, and the physical sciences to understand the mechanistic basis of normal physiology and dysfunction.
Prerequisite: BSC 2010 and (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096) and (PHY 2048 or PHY 2060), all with minimum grades of C.
Corequisite: PHY 2049 or PHY 2061.

PCB 4043C General Ecology 4 Credits
Grading Scheme: Letter Grade
Ecological processes and organization in terrestrial and aquatic habitats. Laboratory and field exercises emphasize techniques of ecological analysis.
Prerequisite: BSC 2011 and 2011L, or equivalent, with minimum grades of C.

PCB 4674 Evolution 4 Credits
Grading Scheme: Letter Grade
Processes and mechanisms of evolution, including population genetics, speciation, patterns of evolution and molecular evolution.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C;
Corequisite: one semester of calculus; PCB 3063 recommended.

PCB 4712 Comparative Biomechanics 3 Credits
Grading Scheme: Letter Grade
Reviews physical principles governing the form and function of organisms.
Prerequisite: (BSC 2011 and BSC 2011L or equivalent with minimum grades of C) and PHY 2048 and PHY 2053L and PCB 4674 and ZOO 3713C.

PCB 4723C Physiology and Molecular Biology of Animals 4 Credits
Grading Scheme: Letter Grade
Processes and mechanisms of maintenance, activity, and integration in animals with emphasis on vertebrates. Laboratory experience in quantitative methods and techniques of physiological investigation.
Prerequisite: BSC 2011 and (CHM 2046 or CHM 2047) with a minimum grades of C. Recommended: ((PHY 2053 and PHY 2054) or (PHY 2060 and PHY 2061)) and PCB 3063 and PCB 4674.

ZOO 3513C Animal Behavior 4 Credits
Grading Scheme: Letter Grade
The causes, origins and evolution of animal behavior emphasizing field observations and experiments on the behavior of a variety of animal groups.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674.

ZOO 3603C Evolutionary Developmental Biology 4 Credits
Grading Scheme: Letter Grade
Analysis of embryonic development, underlying genetic mechanisms and how these processes have driven the evolutionary diversification of animal body plans.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 3713C Functional Vertebrate Anatomy 4 Credits
Grading Scheme: Letter Grade
The form and function of chordates accompanied by laboratory work dealing with a selected series of chordates.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 4205C Invertebrate Biodiversity 4 Credits
Grading Scheme: Letter Grade
Comparative biology of invertebrates, emphasizing morphology, evolution, ecology and life history.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

ZOO 4307C Vertebrate Biodiversity 4 Credits
Grading Scheme: Letter Grade
Comparative biology of vertebrates, emphasizing morphology, evolution, ecology and behavior.
Prerequisite: BSC 2011 and (BSC 2011L or ISC 2401L) with minimum grades of C.

ZOO 4403C Marine Biology 4 Credits
Grading Scheme: Letter Grade
Survey of major marine taxa, systematics of local marine fauna and flora, with familiarization of the marine environment. Laboratory emphasizes field work and independent projects.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 4472C Avian Biology 4 Credits
Grading Scheme: Letter Grade
The basic biological characteristics of birds, which, as exceptionally unique flying vertebrates, are confronted with a spectrum of problems in terms of anatomy, physiology, behavior, migration and population ecology.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674 (recommended).

ZOO 4905 Individual Studies in Zoology 1-4 Credits
Grading Scheme: Letter Grade
Qualified students and the instructor concerned may choose a particular topic or problem for study.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

ZOO 4911 Undergraduate Research in Zoology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ZOO 4926 Special Topics in Zoology 1-4 Credits
Grading Scheme: Letter Grade
Lectures, conferences or laboratory sessions covering selected topics of current interest in zoology.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

ZOO 4940 Practical Experience in Teaching Zoology 2 Credits
Grading Scheme: S/U
Participation in teaching approved Zoology courses with practical experience in instructional procedures, testing and grading, course and laboratory preparation, and laboratory assistance. Cannot be used to satisfy the minimum credit requirement for Zoology majors.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, one zoology laboratory-based course, senior status or higher and instructor permission.

ZOO 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C and undergraduate advisor permission.

Biomedical Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The J. Crayton Pruitt Family Department of Biomedical Engineering (BME) is part of the Herbert Wertheim College of Engineering and is a prime resource for biomedical engineering education, training, research, and technology development. BME is an ever-evolving field that uses and applies engineering principles to the study of biology and medicine in order to improve health care.

Curriculum

- Biomedical Engineering
- Combination Degrees

Courses

BME 1008 Introduction to Biomedical Engineering 1 Credit
Grading Scheme: Letter Grade
Introduction to and overview of biomedical engineering. Lectures are given by faculty expert in an area of biomedical engineering. The goal is to give beginning students an appreciation for the breadth of the field and to guide them in making curriculum, major and career choices.

BME 1930 Special Topics in Biomedical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected topics in biomedical engineering.

BME 2202 Engineering Statics and Dynamics in Biological Systems 3 Credits
Grading Scheme: Letter Grade
Principles of engineering statics and dynamics as they relate to biological systems. Topics include vector mathematics, summation of forces and moments in static equilibrium, equations of motion, dynamics of particles and rigid bodies, concepts of work, energy, and momentum, introduction to deformable bodies. All topics are discussed in the context of biological systems.
Prerequisite: PHY 2049, and MAC 2313.

BME 3012 Clinically-Inspired Engineering Design 3 Credits
Grading Scheme: Letter Grade
Through exposure to real clinical problems, learn to communicate with medical professionals in order to identify unmet needs, to develop prototypes and initial concepts for clinical problems, and to critically evaluate potential solutions for clinical problems.
Prerequisite: BME 3060 and PCB 3713C with minimum grades of C;
Corequisite: BME 3101 and EGM 2511.

BME 3053C Computer Applications for BME 2 Credits
Grading Scheme: Letter Grade
Computer programming lab and lecture utilizes Matlab to analyze biomedical measurements.
Prerequisite: COP 2271 and COP 2271L or equivalent and MAC 2312, with minimum grades of C.

BME 3060 Biomedical Fundamentals 3 Credits
Grading Scheme: Letter Grade
Working specifically within the framework of biomedical engineering applications, provides the engineering fundamentals of the conservation laws of mass, energy, charge, and momentum.
Prerequisite: (CHM 2046 or CHM 2096) and MAC 2313 with minimum grades of C.
Corequisite: PHY 2049, MAP 2302, and BME 1008.

BME 3101 Biomedical Materials 3 Credits
Grading Scheme: Letter Grade
Restoration of physiological function by engineering biomaterials for biological environment, covering principles underlying use and design of medical implants and matrices/scaffolds. Strong emphasis on transition from engineering material to biological tissue, including molecular and cellular interactions with biomaterials, tissue and organ regeneration, and design of intact, biodegradable, and bioreplaceable materials.
Prerequisite: BME 3060 with minimum grade of C and (CHM 3217 or (CHM2210 and CHM2211) with minimum grades of C).

BME 3219 Engineering Analysis of Musculoskeletal Biomechanics 3 Credits
Grading Scheme: Letter Grade
Introduction to musculoskeletal biomechanics and quantitative movement analysis with emphasis on engineering approaches. Students learn how to apply experimental and computational methods to evaluate the human body as a biomechanical system. Topics include rigidbody kinematics, dynamics, motion capture, external force measurement, electromyography, and mechanical properties of muscles and tendons.
Prerequisite: COP 2271 (or equivalent) & EGM 2511. Only Matlab or C++ programming languages will be accepted for COP 2271. Engineering majors only.

BME 3234 Mechanical Behavior of Biological Tissues and Systems 3 Credits
Grading Scheme: Letter Grade
Focuses on understanding the mechanical behavior of biological tissues and systems by evaluating structure-function relationships, stress-strain relationships, and the mechanical complexity of biological systems; introduces the basics of viscoelastic behavior as it applies to biological tissues.
Prerequisite: BME 3060 with minimum grade of C and EGM 2511.

BME 3323L Cellular Engineering Laboratory 3 Credits
Grading Scheme: Letter Grade
The cellular engineering laboratory teaches the fundamentals of cell culture for use in biomedical engineering investigations. Acquire skills in cell culture, quantitative analyses, notebook keeping, report writing, and oral presentation.
Prerequisite: PCB 3713C;
Corequisite: BME 4311 or instructor permission.

BME 3508 Biosignals and Systems 3 Credits
Grading Scheme: Letter Grade
Basic theory and techniques of biosignals and systems. Topics include sampling, noise in biological signals, signal averaging of noisy biological signals, Fourier analysis and filtering.
Prerequisite: (EEL 3003 or EEL 3111C) and MAC 2313 with a minimum grade of C.

BME 3941 Internship Experience in Biomedical Engineering 0-3 Credits
Grading Scheme: S/U
Engineering work experience under the supervision of an engineer.
Prerequisite: Biomedical Engineering major.

BME 4160 Magnetic Biomaterials 3 Credits
Grading Scheme: Letter Grade
Fundamental concepts in magnetism and magnetic micro- and nano-materials and their applications in biomedicine. Participants present a critical review of recent literature in the field and lead a group discussion on a specific, recent paper.
Prerequisite: PHY 2048 and CHM 2046 or CHM 2096 with minimum grades of C.

BME 4311 Molecular Biomedical Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamentals of molecular biology for biomedical engineers. Designed for juniors or seniors majoring in biomedical engineering to learn the nomenclature and current state of knowledge of the eukaryotic cell and its related structures. Topics include protein structure and function, enzymes, the structure and nature of DNA and the cellular structure and function of various cellular organelles. Learn about energy and the function of mitochondria and chloroplast, cellular communication and the function of the extracellular matrix.
Prerequisite: BSC 2010 and (CHM 3217 or CHM 2210) and PCB 3713C with minimum grades of C.

BME 4361 Neural Engineering 3 Credits
Grading Scheme: Letter Grade
Applying engineering to neuroscience; includes such diverse areas as neural tissue engineering, models of neural function, and neural interface technology. Focuses mainly in the context of neural interfaces and prosthetics, from basic neural physiology and models of neural mechanisms to advanced neural interfaces currently in development or produced commercially.
Prerequisite: BME 3508 or EEL 3135.

BME 4409 Quantitative Physiology 3 Credits
Grading Scheme: Letter Grade
A junior/senior level physiology course. Quantitative modeling of organ system physiology of the nervous system, the cardiovascular system and the respiratory system are discussed and students work on quantitative problems.
Prerequisite: PCB 3713C, BME 3053C, BME 3060, and BME 3508 with minimum grades of C.

BME 4503 Biomedical Instrumentation 3 Credits
Grading Scheme: Letter Grade
Provides engineering and clinical fundamentals involved in acquiring, measuring, and processing physiological signals. Covers operational amplifier (op-amp) circuits for signal conditioning, amplification, and spectral filtering, and study biosensors and bioelectrodes used in biomedical applications such as photoplethysmography (PPG), electrocardiography (EKG), electrophoresis, and TENS. Introduces digital systems and Boolean logic, to enable prototyping clinical devices.
Prerequisite: MAC 2313 and MAP 2302 and PHY 2049 and (EEL 3003 or EEL 3111C) with minimum grades of C.
Corequisite: BME 4503L.

BME 4503L Biomedical Instrumentation Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory for BME 4503.
Prerequisite: MAC 2313 and MAP 2302 and PHY 2049 and (EEL 3003 or EEL 3111C) with minimum grades of C;
Corequisite: BME 3508 and BME 4503.

BME 4531 Medical Imaging 3 Credits
Grading Scheme: Letter Grade
Medical imaging technologies from a biomedical engineering perspective. The physics, mathematics, instrumentation and clinical applications of all common medical imaging modalities, including x-ray radiography, computed tomography (CT), ultrasound imaging, positron emission tomography (PET) and magnetic resonance imaging (MRI) are discussed. Emerging imaging modalities, including optical imaging, fluorescence imaging and photoacoustic imaging are also introduced.
Prerequisite: MAC 2313, MAP 2302, PHY 2049, BME 3053C, and BME 3508 with minimum grades of C.

BME 4621 Biomolecular Thermodynamics and Kinetics 3 Credits
Grading Scheme: Letter Grade
Principles of thermodynamics and kinetics from a biomolecular perspective. The mathematics, analysis, and applications of classical thermodynamics, statistical thermodynamics, and reaction kinetics are introduced in the context of molecular interactions, binding equilibria, metabolism, and biomolecular transport common to living systems.
Prerequisite: CHM 3217 or (CHM 2210 and CHM 2211), with minimum grades of C, and BME 3060 and (BME 4311 or BCH 4024).

BME 4632 Biomedical Transport Phenomena 3 Credits
Grading Scheme: Letter Grade
Introduces and applies the concepts of momentum, mass, and thermal energy transport in the context of problems of interest in biomedical sciences and engineering. Macroscopic and microscopic analysis of momentum, mass, and thermal energy transport problems in biomedical systems.
Prerequisite: BME 3060 with minimum grade of C.

BME 4648 Biomaterials for Drug Delivery 3 Credits
Grading Scheme: Letter Grade
Focuses on the principles of engineering controlled release systems, and integrates topics in polymer chemistry, biomaterials, pharmacokinetics/pharmacodynamics, and mass transport phenomena.
Prerequisite: BME 3060 with a minimum grade of C.
Corequisite: BME 4632

BME 4760 Biomedical Data Science 3 Credits
Grading Scheme: Letter Grade
Covers the biomedical applications of data science techniques, which include pre-processing techniques, machine learning data analysis, and data visualization techniques.
Prerequisite: BME 3053C and COP 2271 and COP 2271L and (STA 2023 or STA 3032).
Attributes: Artificial Intelligence

BME 4882 Senior Design, Professionalism and Ethics 1 3 Credits
Grading Scheme: Letter Grade
Design of custom strategies to address real-life issues in the development of biocompatible and biomimetic devices for biotechnology or biomedical applications. Teams work with a client in the development of projects that incorporate various aspects of biomedical engineering including instrumentation, biomechanics, biotransport, tissue engineering and others. Emphasizes formal engineering design principles; overview of intellectual properties, engineering ethics, risk analysis, safety in design and FDA regulations are reviewed. Part 1 focuses on design.
Prerequisite: BME 3012 and senior standing.

BME 4883 Senior Design, Professionalism and Ethics 2 3 Credits
Grading Scheme: Letter Grade
Design of custom strategies to address real-life issues in the development of biocompatible and biomimetic devices for biotechnology or biomedical applications. Teams work with a client in the development of projects that incorporate various aspects of biomedical engineering including instrumentation, biomechanics, biotransport, tissue engineering and others. Emphasizes formal engineering design principles; overview of intellectual properties, engineering ethics, risk analysis, safety in design and FDA regulations are reviewed. Part 2 focuses on implementation and testing.
Prerequisite: BME 4882 and (ENC 3246 with minimum grade of C) and senior standing.

BME 4931 Special Topics in Biomedical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected topics in biomedical engineering.

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Department permission.

Botany

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. The department's teaching and research provide the integrative and conceptual foundations of the life sciences.

Courses

Please note that a complete list of all courses offered by the Department of Biology can be found here (p. 2035).

BCH 3023 Elementary Organic and Biological Chemistry 3 Credits
Grading Scheme: Letter Grade
Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.
Prerequisite: CHM 2046 or CHM 2047.

BOT 2010C Introductory Botany 3 Credits
Grading Scheme: Letter Grade
Intro Botany, for science majors. Introductory-entry level course primarily for beginning students or new college students. First course in botany. Structures functions of cells, tissues, and organs of flowering plants. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

BOT 2011C Plant Diversity 4 Credits
Grading Scheme: Letter Grade
Survey of major plant groups with regard to structure, life histories and uses accompanied by laboratory showing diversity of plants in the world. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: introductory college biology/botany course or the equivalent.
Attributes: General Education - Biological Science

BOT 2710C Practical Plant Taxonomy 3 Credits
Grading Scheme: Letter Grade
Introduces plant taxonomy including principles of systematic botany, nomenclature and classification, but emphasizing identification. Student will be able to identify the common ferns, fern allies, gymnosperms and flowering plants of field and garden.

BOT 2800C Plants in Human Affairs 3 Credits
Grading Scheme: Letter Grade
Role of plants in development of civilization and influence of plants on world history, politics, economics and culture. Survey of useful and harmful plants and plant products. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Attributes: General Education - Biological Science

BOT 3151C Local Flora of North Florida 3 Credits
Grading Scheme: Letter Grade
Laboratory observation of the gross features of vascular plants and practice in the use of keys to identify plants. Elementary ecology of principal types of plant communities in northern Florida. Includes field trips.
Prerequisite: BSC 2005 or BSC 2010.

BOT 3503 Physiology and Molecular Biology of Plants 3 Credits
Grading Scheme: Letter Grade
The chemical organization, cellular organization, metabolism, nutrition, growth and molecular biology of the higher plants.
Prerequisite: (BOT 2010C or BSC 2005 or BSC 2010) and CHM 2046 and CHM 2046L.
Corequisite: BOT 3503L; laboratory may be taken in subsequent term.

BOT 3503L Physiology and Molecular Biology of Plants Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory experiments to accompany BOT 3503.
Corequisite: BOT 3503.

BOT 4053 Practical Experience in Teaching Botany 2 Credits
Grading Scheme: Letter Grade
Participation in teaching one 3000-level botany course with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance.
Prerequisite: generally, senior standing with recommendations from two faculty members, including the course instructor.

BOT 4650 Plant Symbiosis 3 Credits
Grading Scheme: Letter Grade
Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and cospeciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

BOT 4905 Individual Studies in Botany 2-4 Credits
Grading Scheme: Letter Grade
Qualified students and an instructor choose a particular problem for study.
Prerequisite: 8 credits of botany.

BOT 4911 Undergraduate Research in Botany 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Botany. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Botany.

BOT 4935 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in botany.
Prerequisite: BSC 2010 and BSC 2011.

BOT 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Overseas Studies

PCB 3023 Essential Cell Biology 3 Credits
Grading Scheme: Letter Grade
Introduces the basic concepts of molecular cell biology in prokaryotic and eukaryotic systems including experimental strategies and methodology. This course is intended for those interested in plants.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent.

PCB 3601C Plant Ecology 3 Credits
Grading Scheme: Letter Grade
Principles of ecology at scales ranging from individual plants to landscapes. Emphasis is on species, ecosystems and environmental programs in Florida.
Prerequisite: introductory college biology or botany.

Business

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

Courses

GEB 2015 Business and You: Warrington Welcome 1 Credit
Grading Scheme: Letter Grade
Introduces students to the college of business by focusing on various resources and strategies for success, including personal and professional development opportunities that enhance career preparedness.

GEB 2030 Exploring Careers in Business 1 Credit
Grading Scheme: Letter Grade
Overview of the various career paths available through the business majors available at UF; focuses on exploration of the sub-sectors within business and will help students with career discernment.

GEB 2041 Career Accelerator 1 Credit
Grading Scheme: Letter Grade
Prepares students to secure internships and full-time jobs through emphasis on career readiness competencies. Covers assessing career goals, crafting effective resumes, excelling in interviews, and mastering networking. Learn to identify and put into practice various skills through group work with fellow classmates. Also emphasizes self-reflection, exploration, and teamwork, enabling students to make informed decisions about their future career paths.
Prerequisite: Classification as BA or AC.

GEB 2210 Advanced Presentation Skills and Principles of Case Analysis 1 Credit
Grading Scheme: Letter Grade
Teaches advanced presentation skills to prepare for case competitions and to excel when delivering professional presentations.

GEB 2216 Professional Writing in Business 3 Credits
Grading Scheme: Letter Grade
Designed to teach students fundamental written communication skills focusing on those areas central to professional writing in the workplace.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

GEB 2219 Writing and Speaking in Business 4 Credits
Grading Scheme: Letter Grade
Writing and speaking in business is an online course designed to teach business students the fundamentals of both written and spoken communication, allowing them to express their ideas effectively and efficiently and also preparing them for the demands of the business workspace.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

GEB 2951 Special Projects 1-3 Credits
Grading Scheme: S/U
Projects related to business as approved by the college.

GEB 3017 Leading Organizations 4 Credits
Grading Scheme: Letter Grade
Provides a Strategic Foundation for Leadership Practice in a Variety of Professions. Increases the Capacity to Lead With and Without Authority, Across Boundaries, and From Any Political or Organizational Position.
Prerequisite: MAN 3025.

GEB 3035 Effective Career Management in Business 4 Credits
Grading Scheme: Letter Grade
Systematically designed course based on the cognitive information processing theory for career problem solving and decision-making. Delivered via modularized multimedia instructional materials. The course is designed to inform students about career planning and management interventions and to accommodate students at different levels of decidedness about their career aspirations.

GEB 3218 Professional Speaking in Business 3 Credits
Grading Scheme: Letter Grade
Teaches fundamental oral communication skills necessary for succeeding in a business setting including presentations and speeches, interpersonal skills and interviewing.

GEB 3373 International Business 4 Credits
Grading Scheme: Letter Grade
Exposes the business environments (culture, politics, laws and economics) encountered in other parts of the world; to the tools and skills necessary to analyze the potential of other countries as locations for production, distribution and marketing; to how managing and integrating international operations in many parts of the world differs from the domestic focus of many business courses; and to the broad perspective required of successful managers working in international business.
Prerequisite: MAN 3025 and MAR 3023.

GEB 3523 Business Case Analysis 2 Credits
Grading Scheme: Letter Grade
Introduces case analysis and prepares students for national and international case competitions.

GEB 3931 Special Topics in Business Communication 1 Credit
Grading Scheme: Letter Grade
Through rotating special topics and content, this course has two distinct goals: to develop sophisticated, adaptable communication skills by tailoring communication to different audiences and to build and maintain strong professional relationships through communication.
Prerequisite: GEB 3213 OR GEB 3218 OR GEB 3219 OR SPC 2608 OR ENC 3312.

GEB 3942 Business Externship: Micro-Consulting 1 Credit
Grading Scheme: Letter Grade
Students in this course apply relevant business skills and knowledge to help a company complete a specified and detailed project. Acting as consultants to the company, students are put in project or consulting teams and work together on the project while communicating with, and getting guidance by, a company contact. While applying information obtained in other business courses, students taking this course will focus on professional development skills and other important business skills.
Prerequisite: BA or AC AND sophomore standing.

GEB 4900 Leadership Launch 2 Credits
Grading Scheme: Letter Grade
Capstone course provides a foundation in effective leadership practice grounded in theory and research. Students build upon leadership knowledge and experiences, explore key attributes and behaviors, and develop competencies aligned with organizational and business success.
Prerequisite: GEB 4941 OR GEB 3942 OR MAR 4941 OR MAR 4945.

GEB 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Reading and/or research in business administration.

GEB 4906 Independent Study 1-4 Credits
Grading Scheme: S/U
Reading and research in business administration.

GEB 4911 Undergraduate Research in Business 0-4 Credits
Grading Scheme: Letter Grade
Provides an opportunity for firsthand, supervised research in business. Projects may involve inquiry, design, investigation, scholarship, discovery, or application in business.

GEB 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for in-depth study of topics not offered in other courses and topics of special current significance.
Prerequisite: Department permission.

GEB 4932 Professional Development Module 2 Credits
Grading Scheme: Letter Grade
Presents techniques for outstanding presentation and public speaking skills. Includes a significant service learning component whereby students apply presentation techniques developed in the classroom via business-oriented instruction in the K-12 school system.

GEB 4941 Internship in Business Administration 1-4 Credits
Grading Scheme: S/U
Applied work in business administration that requires several papers and reports.
Prerequisite: undergraduate programs director permission.

GEB 4956 International Studies in Business 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved UF study abroad program and undergraduate programs director permission.

GEB 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for the awarding of the magna cum laude or summa cum laude designation. To qualify for the thesis option, students will normally have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator of the student's major department) and must have at least the 3.6 grade point average required for magna cum laude designation at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's major department.
Prerequisite: senior standing and 3.6 UF GPA.

Career Development Program

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

SLS 1501 College Study Skills 1 1-3 Credits
Grading Scheme: Letter Grade
A developmental course designed to assist students who may be having difficulty in their college-level coursework or those who simply wish to improve basic skills essential for college success. The course begins with an individual self-assessment followed by topics such as motivation, time management, active reading, memory, note taking and test taking. Students will also develop a career portfolio for their final lesson.

SLS 2301 Career Planning 1 Credit
Grading Scheme: Letter Grade

SLS 2302 Job Strategies 1 Credit
Grading Scheme: Letter Grade
Interactive course covering all aspects of a successful job search, long-term career planning and success in the professional environment. Enrollment is restricted to juniors and seniors.

Chemical Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

As Chemical Engineers, the career options for students will be diverse and exciting. Students will develop the skills needed to design processes to produce anything made by chemical or biological means, including consumer products, food and beverages, pharmaceuticals, specialty chemicals, semiconductors, biomaterials, pulp and paper, polymers, and more. Chemical Engineers use their knowledge of all branches of science and mathematics (not just chemistry) to solve problems at a variety of scales—from developing materials with features at the nanoscale all the way to designing a 250-foot-tall distillation tower and everything in between.

Curriculum

- Biomolecular Engineering Minor
- Chemical Engineering
- Combination Degrees

Courses

BME 2402 Introduction to Biomolecular Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces bio-related careers in chemical engineering, providing foundational knowledge in molecular cell biology and biochemistry for early undergraduate students. Highlights the connections between biology and chemical engineering, helping students understand interdisciplinary concepts that are essential for biomolecular engineering
Prerequisite: (Sophomore Standing or Chemical Engineering Major) & (CHM 2045 or CHM 2095 or CHM 2050).
Corequisite: CHM 2046 or CHM 2096 or CHM 2051.

BME 4220 Biomolecular Cell Mechanics 3 Credits
Grading Scheme: Letter Grade
Covers the biomolecular basis of cell mechanics and cell motility, emphasizing quantitative models and systems-biology approaches.
Prerequisite: PHY 2048.

BME 4321 Dynamics of Cellular Processes 3 Credits
Grading Scheme: Letter Grade
Confocal florescence microscopy, techniques for imaging macromolecular dynamics and interactions inside living cells, models of intracellular diffusion, models of ligand-receptor binding, interplay between binding and transport, modeling and analysis of experiments. Examples from literature include mRNA transport, nuclear pore dynamics, cytoskeletal dynamics, imaging motor proteins and transcription factor dynamics.
Prerequisite: a course on kinetics and/or transport, or instructor permission.

COT 3502 Computer Model Formulation 3 Credits
Grading Scheme: Letter Grade
Solutions of scientific and engineering problems using digital computers. Formulation of models for describing physical processes, numerical analysis, and computer programming.
Prerequisite: COP 2273 with a grade of C or better and MAP 2302 and MAC 2313.

ECH 2934 Professional Development of Chemical Engineers 1 Credit
Grading Scheme: Letter Grade
Introduces the Chemical Engineering profession and a wide range of careers, including chemical, energy, pharmaceutical, semiconductor, and food industries, as well as graduate and professional school pathways. Provides resources to build successful professional careers, including best practices for interviewing, oral presentations, and teamwork. Also discusses professional codes of conduct and ethical decision-making.

ECH 3023 Material and Energy Balances 4 Credits
Grading Scheme: Letter Grade
Formulation and solution of material and energy balances utilizing physical/chemical properties of matter as applied to analyzing unit operations systems.
Prerequisite: (CHM 2045 or CHM 2095 or CHM 2050) & MAC 2312 & PHY 2048;
Corequisite: (CHM 2046 or CHM 2096 or CHM 2051) & MAC 2313 & MAP 2302 & ECH 2934

ECH 3101 Process Thermodynamics 4 Credits
Grading Scheme: Letter Grade
Introduces fundamental principles of classical and statistical thermodynamics. Application of the first and second laws of thermodynamics to the modeling and analysis of physical and chemical processes undergoing change, such as liquefaction, refrigeration, and power generation.
Prerequisite: COP 2273 and ECH 3023.
Corequisite: COT 3502.

ECH 3203 Fluid and Solid Operations 3 Credits
Grading Scheme: Letter Grade
Characteristics of laminar and turbulent flow, mechanical energy balance, flow through packed beds and fluidization of solids, design of pumping systems and piping networks and metering of fluids.
Prerequisite: COT 3502 and ECH 3264.

ECH 3223 Energy Transfer Operations 3 Credits
Grading Scheme: Letter Grade
Steady state conduction in solids and heterogeneous materials, transient conduction, convection heat transfer, heat transfer during boiling and condensation, radiation heat transfer, design of heat-transfer equipment and heat exchange networks.
Prerequisite: COT 3502 and ECH 3264.

ECH 3264 Elementary Transport Phenomena 2 Credits
Grading Scheme: Letter Grade
Flux law and conservation equations of mass, energy, and momentum; solution of transport problems associated with physical and chemical processing; macroscopic and microscopic analysis.
Prerequisite: ECH 3023 and MAP 2302 and MAC 2313.

ECH 4123 Phase and Chemical Equilibria 3 Credits
Grading Scheme: Letter Grade
Application of thermodynamic principles to systems of variable composition, including the study of phase and chemical equilibria.
Prerequisite: ECH 3101.

ECH 4224L Fluid and Energy Transfer Operations Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory work in unit operations involving heat and momentum transfer.
Prerequisite: ECH 3101 and ECH 3203 and ECH 3223 and STA 3032 or STA 2023;
Corequisite: ECH 4714 and ENC 2256.
Attributes: Satisfies 6000 Words of Writing Requirement

ECH 4323 Process Control Theory 3 Credits
Grading Scheme: Letter Grade
Analysis and automatic control of process systems in chemical engineering.
Prerequisite: COT 3502.
Corequisite: ECH 4323L.

ECH 4323L Process Control Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory work associated with ECH 4323.
Prerequisite: COT 3502.
Corequisite: ECH 4323.

ECH 4403 Separation and Mass Transfer Operations 3 Credits
Grading Scheme: Letter Grade
Theory, design, and evaluation of diffusional and staged mass transfer processes including distillation, absorption and extraction, leaching, and membrane separations. Computer-aided design methods.
Prerequisite: ECH 3101 and ECH 3203 and ECH 3223.

ECH 4404L Separation and Mass Transfer Operations Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory work in unit operations involving mass transfer. (WR)
Prerequisite: ECH 4403 and ECH 4224L and ECH 4714.
Attributes: Satisfies 6000 Words of Writing Requirement

ECH 4504 Chemical Kinetics and Reactor Design 4 Credits
Grading Scheme: Letter Grade
Homogeneous and heterogeneous reaction kinetic modeling and data analysis. Analysis and design of ideal batch, mixed, plug and recycle reactors. Heterogeneous catalysis and reactor design.
Prerequisite: ECH 3264 and ECH 4123.

ECH 4524 Heterogeneous Chemical Kinetics Reactor Design 2 Credits
Grading Scheme: Letter Grade
Theories of catalytic reactions of adsorbed species at solid surfaces, development or rate expressions with heat and mass transport properties through porous catalyst materials for design of heterogeneous chemical reactors.
Prerequisite: ECH 4504.

ECH 4604 Process Economics and Optimization 3 Credits
Grading Scheme: Letter Grade
Introduces the principles of process economics including specifications and costing of equipment, operations costing and economic evaluation of processes.
Prerequisite: ECH 3203 and ECH 3223;
Corequisite: ECH 4403.

ECH 4644 Process Design 3 Credits
Grading Scheme: Letter Grade
Preliminary design of convention chemical processes including process specifications, sitting and layout, equipment sizing, utility and manpower needs, safety and hazard analysis, environmental considerations and economic evaluation. Planning techniques for detailed engineering, construction and startup.
Prerequisite: ECH 4403 and ECH 4504 and ECH 4604 and ECH 4824.

ECH 4714 Chemical Process Safety 3 Credits
Grading Scheme: Letter Grade
Laboratory and process safety analysis which emphasizes prevention and mitigation. Application of chemical engineering principles to assessing hazards and risk.
Prerequisite: ECH 3101, ECH 3203 and ECH 3223.

ECH 4742 Bioprocess Engineering and Bioseparations 3 Credits
Grading Scheme: Letter Grade
Key concepts of bioprocess engineering and bioseparations needed for chemical engineers to succeed in the pharmaceutical industry, the food/beverage industry, and bio-based processes for energy production. Topics include enzymes and enzyme kinetics, growth rates, fermentation, batch processing and batch reactors, and bioactive molecule separation (filtration, gel electrophoresis, chromatography, and other forms of bioseparations for cell, protein, gene, antibody, and viral therapies).
Prerequisite: (ECH3023 or BME3060) & BME 2406.

ECH 4744 Pharmaceutical Bioengineering 3 Credits
Grading Scheme: Letter Grade
Introduces concepts, challenges, and technologies in the modern pharmaceutical industry and laboratory, focused on biologics (drugs derived from living organisms).
Prerequisite: (BME 3406 or BSC 2010) & (CHM 2046 or CHM 2096 or CHM 2051).

ECH 4824 Materials of Chemical Engineering 2 Credits
Grading Scheme: Letter Grade
Relations between microscopic structure and macroscopic mechanical, thermal and electrical properties of organic and inorganic solids. Engineering applications, including corrosion.
Prerequisite: ECH 3264

ECH 4827 Processing of Complex Fluids 3 Credits
Grading Scheme: Letter Grade
Principles involved in quantitative adoption of chemical engineering unit operations and unit processes for the analysis and design of systems involving complex fluids.
Prerequisite: (ECH 3203 and ECH 3223 and ECH 4123 and ECH 4824) or instructor permission.

ECH 4905 Special Problems in Chemical Engineering 1-6 Credits
Grading Scheme: Letter Grade
Study of chemical engineering problems as identified by the student and instructor.
Prerequisite: Engineering major.

ECH 4912 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic product and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: senior standing.

ECH 4913 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
The second part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic product and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: senior standing.

ECH 4944 Practical Work in Chemical Engineering 1-5 Credits
Grading Scheme: Letter Grade
One term industrial employment, including extra work according a pre-approved outline. Practical engineering work under industrial supervision as set forth in college regulations.
Prerequisite: Engineering major.

ECH 4948 Internship Work Experience 0-3 Credits
Grading Scheme: S/U
Practical internship work experience under approved industrial supervision, as set forth in college regulations. A maximum of 3 credits from ECH 4948 and ECH 4949 can count towards the Chemical Engineering degree. For example, a student who has earned 1 credit of ECH 4949, can only have 2 credits of ECH 4948 count towards the degree.
Prerequisite: Engineering major.

ECH 4949 Co-op Work Experience 0-3 Credits
Grading Scheme: S/U
Practical co-op work experience under approved industrial supervision, as set forth in college regulations. A maximum of 3 credits from ECH 4949 and ECH 4948 can count towards the Chemical Engineering degree. For example, a student who has earned 1 credit of ECH 4948, can only have 2 credits of ECH 4949 count towards the degree.
Prerequisite: Engineering major.

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Department permission.

Chemistry

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Chemistry is a comprehensive department granting bachelor's, master's, and PhD degrees with specialization in all areas including biochemistry, nanochemistry, analytical, inorganic, organic, physical, polymer, synthetic, and theoretical chemistry. The University of Florida ranks in the top five chemistry departments nationally in PhD production and is among the top 20 in bachelor's graduates.

Curriculum

- Chemistry Minor
- Chemistry | Biochemistry

Introduction to General Chemistry

CHM 1025, a two-credit course, is offered for students who wish to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence (CHM 2045/CHM 2045L, CHM 2046/CHM 2046L). A chemistry placement exam is offered online on ONE.UF (https://one.uf.edu/). The score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

General Chemistry

For placement into the appropriate first course in chemistry, please refer to the Academic Advising section or consult a chemistry advisor. All students should complete their general chemistry studies without interruption.

The following general chemistry offerings are available:

- CHM 1030/CHM 1031 is a terminal sequence that meets preprofessional requirements in the College of Nursing and some majors in the College of Agricultural and Life Sciences.
- CHM 1020 is a terminal General Education course that explores chemistry in terms of consumer products. This course meets preprofessional requirements in certain areas of the College of Agricultural and Life Sciences.
- CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the standard general chemistry sequence. This sequence meets the preprofessional requirement for a broad range of science and engineering majors. Students are presumed to have a good background in high school chemistry and mathematics (through MAC 1147) and are expected to pass the chemistry placement exam offered online on ONE.UF (https://one.uf.edu/) before registering for CHM 2045.
- CHM 2047/CHM 2047L is a one-semester program for entering students with strong backgrounds in chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
- CHM 2051 General Chemistry Honors is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.

Attendance Requirement

Students missing the first session of a laboratory, which includes the required safety instruction, will not be allowed to start late.

Courses

CHM 1020 Chemistry for the Liberal Arts 3 Credits
Grading Scheme: Letter Grade
This course provides students with an introduction to chemical principles and applications for the non-science major. Students will engage in problem solving and critical thinking while applying chemical concepts. Topics will include the scientific method of problem solving, classification of matter, atomic theory, the periodic table, gases, chemical reactions, energy, and chemical bonds.
Attributes: General Education - Physical Science

CHM 1025 Introduction to Chemistry 2 Credits
Grading Scheme: Letter Grade
Introductory readiness course in general chemistry for those with weak but satisfactory backgrounds in high school chemistry and algebra. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Corequisite: MAC 1147 or the equivalent.
Attributes: General Education - Physical Science

CHM 1030 Basic Chemistry Concepts and Applications 1 3 Credits
Grading Scheme: Letter Grade
Terminal sequence for non-science students that presents chemistry from medical/nursing perspective. Topics in inorganic chemistry and properties of both ionic and covalent compounds. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: high school algebra.
Attributes: General Education - Physical Science

CHM 1031 Basic Chemistry Concepts and Applications 2 3 Credits
Grading Scheme: Letter Grade
Second half of CHM 1030/1031 sequence. Topics in organic chemistry and biochemistry. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: CHM 1030.
Attributes: General Education - Physical Science

CHM 2045 General Chemistry 1 3 Credits
Grading Scheme: Letter Grade
This course is designed for students pursuing careers in the sciences or who need a more rigorous presentation of chemical concepts than is offered in an introductory course. Students will engage in problem solving and critical thinking while applying chemical concepts. Topics will include the principles of chemistry including atomic theory, electronic and molecular structure, measurement, stoichiometry, bonding, periodicity, thermochemistry, nomenclature, solutions, and the properties of gases.
Prerequisite: CHM 1025 with a minimum grade of C, or a passing score on Chem placement plus no attempt of CHM 1025 w/grade <C or W, and MAC 1147, or MAC 1140 plus MAC 1114, or higher MAC course with a minimum grade of C.
Corequisite: CHM2045L
Attributes: General Education - Physical Science

CHM 2045L General Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to reflect the topics that are presented in CHM 2045. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: CHM 1025 with a minimum grade of C, or a passing score on Chem placement plus no attempt of CHM 1025 w/grade <C or W, and MAC 1147, or MAC 1140 plus MAC 1114, or higher MAC course with a minimum grade of C.
Corequisite: CHM2045L
Attributes: General Education - Physical Science

CHM 2046 General Chemistry 2 3 Credits
Grading Scheme: Letter Grade
Second semester of the CHM 2045-2045l-2046-2046l sequence. Students who completed 2045 (or equivalent) at another institution should consult with a chemistry academic advisor before registering for this course. Acids and bases, additional aspects of chemical equilibria, thermodynamics, electrochemistry, complex ions and descriptive chemistry. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: [CHM 2045 or CHM 2095 or CHM 2050 all with a minimum grade of C], and [MAC 1147 or greater or (MAC 1140 and MAC 1114)].
Corequisite: CHM 2046L
Attributes: General Education - Physical Science

CHM 2046L General Chemistry 2 Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to reflect the topics that are presented in CHM 2046. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: [CHM 2045L or CHM 2095L either with a minimum grade of C], and [MAC 1147 or greater, or (MAC 1140 plus MAC 1114 all with a minimum grade of C)], and [CHM 2045 or CHM 2095 or CHM 2050 all with a minimum grade of C].
Attributes: General Education - Physical Science

CHM 2047 One-Semester General Chemistry 4 Credits
Grading Scheme: Letter Grade
Designed for entering (not transfer) students who wish to move more quickly into advanced coursework. Electronic structure and bonding, gases, liquids, solids, kinetics, equilibria, acids and bases, thermodynamics, oxidation-reduction, metals and non-metals.
Prerequisite: AP, IB or high honors high school chemistry courses and a high score on the chemistry placement exam.
Corequisite: CHM 2047L.

CHM 2047L One-Semester General Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany CHM 2047.
Prerequisite: [AP, IB or honors high school chemistry courses and a high score on the chemistry placement exam], and [MAC 1147 with a minimum grade of C or greater, or (MAC 1140 plus MAC 1114 either with a minimum grade of C)], and incoming freshmen only.

CHM 2050 Honors General Chemistry 1 for Majors 3 Credits
Grading Scheme: Letter Grade
First semester of the CHM 2050/2045L and CHM 2051/2046L sequence. Stoichiometry, atomic and molecular structure, the states of matter, reaction rates and equilibria.
Prerequisite: [CHM 1025 with a minimum grade of C or a passing score on Chem placement plus no attempt of CHM 1025 w/grade <C or W], and [MAC 1147 with a minimum grade of C or greater or (MAC 1140 and MAC 1114 both with a minimum grade of C)].
Corequisite: CHM 2045L

CHM 2051 Honors General Chemistry 2 3 Credits
Grading Scheme: Letter Grade
Second semester of the sequence CHM 2045-2045l-2051-2046l. Course is open to students with superior performance in CHM 2045 or its equivalent. Acids and bases, additional aspects of chemical equilibria, thermodynamics, electrochemistry, complex ions and descriptive chemistry and instructor-chosen topics. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: [CHM 2045 or CHM 2050 either with a minimum grade of B], and [MAC 1147 with a minimum grade of C or greater or (MAC 1140 plus MAC 1114 both with a minimum grade of C)].
Attributes: General Education - Physical Science

CHM 2054L Accelerated General Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
A cross-disciplinary, inquiry-based curriculum that focuses on major themes and concepts in chemistry with an emphasis on their application in modern, quantitative life sciences research. Equivalent to CHM 2045L and CHM 2046L or CHM 2047L.
Prerequisite: CHM 2050 minimum grade of B+, or CHM 2095 minimum grade of B+, or CHM 2045 minimum grade of B+, or a score of 5 in AP Chem or 6 in IB Chem, and MAC1147, or MAC1140 plus MAC1114, or higher MAC course minimum grade of C.

CHM 2095 Chemistry For Engineers 1 3 Credits
Grading Scheme: Letter Grade
First of the CHM 2095/CHM 2096 sequence. Topics include stoichiometry, energy and thermodynamics, atomic and molecular structure, the states of matter, reaction rates, and introduces chemical equilibria. All topics are taught in an engineering case-study context.
Prerequisite: CHM 1025 with a minimum grade of C, or a passing score on Chem placement plus no attempt of CHM 1025 w/grade LT C or W, and MAC 1147, or MAC 1140 plus MAC 1114, or higher MAC course w/a minimum grade of C;
Corequisite: CHM 2095L
Attributes: General Education - Physical Science

CHM 2095L Applied General Chemistry 1 Lab 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to complement CHM 2095.
Prerequisite: CHM 1025 with a minimum grade of C or a passing score on Chem placement, and MAC 1147 with a minimum grade of C, or (MAC 1140 and MAC 1114 both with a minimum grade of C).
Corequisite: CHM 2095

CHM 2096 Applied General Chemistry 2 3 Credits
Grading Scheme: Letter Grade
This course constitutes the second semester of the two-term sequence of Chemistry I II. As both a general education requirement and major's course, CHM2096 serves to teach the scientific method, skills for problem solving, general chemistry knowledge, and a connection to the principles that govern the natural world. Students will acquire knowledge of chemical equilibria, acid-base and solubility equilibria, entropy, free energy, electrochemical devices, solution dynamics, and descriptive inorganic and organic chemistry; all are taught in an engineering case-study context. Students participate in class discussions throughout the semester to reflect on pertinent topics and apply mathematical knowledge and reasoning to solve chemical problems. This course affords students the ability to critically examine and evaluate the principles of the scientific method, model construction, and use the scientific method to explain natural experiences and phenomena.
Prerequisite: [CHM 2045 or CHM 2095 or CHM 2050 all with a minimum grade of C], and [MAC 1147 or greater or (MAC 1140 and MAC 1114)].
Corequisite: CHM 2096L
Attributes: General Education - Physical Science

CHM 2096L Applied General Chemistry 2 Lab 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to complement CHM 2096.
Prerequisite: CHM 2095L or CHM 2045L, and CHM 2095 or CHM 2045, and MAC 1147 or greater, or (MAC 1140 and MAC 1114) all courses with a minimum grade of C.
Corequisite: CHM 2096..

CHM 2200 Fundamentals of Organic Chemistry 3 Credits
Grading Scheme: Letter Grade
An elementary course embracing the more important aspects of organic chemistry. Intended for students in programs requiring only one semester of organic chemistry. Not intended for pre-med, pre-dentistry or pre-vet students.
Prerequisite: CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096, or the equivalent.

CHM 2200L Fundamentals of Organic Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Organic laboratory experiments to accompany CHM 2200.
Corequisite: CHM 2200.

CHM 2210 Organic Chemistry 1 3 Credits
Grading Scheme: Letter Grade
The first half of the CHM 2210/CHM 2211 sequence intended for majors and preprofessional students. A study of the structures, syntheses and reactions of organic compounds.
Prerequisite: CHM 2046 or CHM 2096 or CHM 2047 or CHM 2051.

CHM 2211 Organic Chemistry 2 3 Credits
Grading Scheme: Letter Grade
The second half of the CHM 2210/CHM 2211 sequence intended for majors and preprofessional students. A study of the structures, syntheses and reactions of organic compounds.
Prerequisite: CHM 2210 or CHM 2212 with a minimum grade of C;
Corequisite: CHM 2211L.

CHM 2211L Organic Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
Organic laboratory experiments designed to accompany CHM 2210/CHM 2211 or CHM 3217/CHM 3218.
Prerequisite: [CHM 2210 or CHM 2212 or CHM 3217], and [CHM 2046L or CHM 2047L or CHM 2096L]. All courses with a minimum grade of C.
Corequisite: CHM2211

CHM 2212 Organic Chemistry 1 for Majors 3 Credits
Grading Scheme: Letter Grade
First half of the CHM 2212/CHM 2213 sequence for chemistry majors. A study of structures, synthesis, and reactions of organic compounds, with emphasis on mechanism and spectroscopy.
Prerequisite: (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096) and chemistry major.

CHM 2213 Organic Chemistry 2 for Majors 3 Credits
Grading Scheme: Letter Grade
Second half of the CHM 2212/CHM 2213 sequence is for chemistry majors. Study of structures, synthesis, and reactions of organic compounds, with emphasis on mechanism and spectroscopy.
Prerequisite: (CHM 2210 or CHM 2212 with a minimum grade of C) and chemistry major.
Corequisite: CHM 2211L.

CHM 3100 Introduction to Analytical Chemistry for Majors 3 Credits
Grading Scheme: Letter Grade
Introduces the basics of analytical chemistry and their use to make quantitative measurements. Examines both classical and modern techniques with a greater focus on modern methods and recent developments. Discusses statistical analyses, data interpretation, and some quantitative analysis. Designed for traditional CHM majors, excluding the BioChem track.
Prerequisite: Chemistry major and (CHM 2046 or CHM 2047 or CHM 2051) and (CHM 2046L or CHM 2047L)

CHM 3120 Introduction to Analytical Chemistry 3 Credits
Grading Scheme: Letter Grade
Principles involved in quantitative analysis. Topics include acid-base equilibria and titrations, precipitation and complex formation, oxidation reduction and statistical treatment of data. Introduces spectrochemical and electrochemical methods of analysis and chemical separations.
Prerequisite: (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2095) and (CHM 2046L or CHM 2047L or CHM 2095L). All courses with a minimum grade of C.
Corequisite: CHM 3120L

CHM 3120L Analytical Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany CHM 3120.
Prerequisite: (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2095) and (CHM 2046L or CHM 2047L or CHM 2095L). All courses with a minimum grade of C.
Corequisite: CHM 3120

CHM 3217 Organic Chemistry/Biochemistry 1 4 Credits
Grading Scheme: Letter Grade
A rigorous, one-semester overview of the structure, properties and reactions of organic compounds. This is the first half of a two-semester sequence in biochemistry. Students are expected to take CHM 3218 after completing CHM 3217.
Prerequisite: [CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096] and [CHM 2046L or CHM 2047L or CHM 2096L]. All courses with a minimum grade of C.

CHM 3218 Organic Chemistry/Biochemistry 2 4 Credits
Grading Scheme: Letter Grade
Introduces the basic concepts of biochemistry and molecular biology from the structural and mechanistic perspective of organic chemistry.
Prerequisite: CHM 3217 or CHM 2211, or instructor permission.

CHM 3400 Physical Chemistry for the Biosciences 3 Credits
Grading Scheme: Letter Grade
Thermodynamics, electrochemistry, transport, chemical kinetics and molecular structure with emphasis on biological systems.
Prerequisite: [MAC 2312 or MAC 2512 or MAC 3473] and [CHM 2200 or CHM 2210 or CHM 2212 or CHM 3217]. All courses with a minimum grade of C, and two semesters of college physics; background in analytical chemistry recommended.

CHM 3610 Inorganic Chemistry 3 Credits
Grading Scheme: Letter Grade
Basic theoretical concepts involved in inorganic chemistry. Periodic trends, chemical bonding, structure and reactivity.
Prerequisite: CHM 2211 or CHM 2213 or CHM 3217.

CHM 3610L Inorganic Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
Synthesis and characterization of inorganic and organometallic compounds.
Prerequisite: CHM 2211L and CHM 3120L, or instructor permission.

CHM 4034 Advanced Biochemistry and Chemical Biology 4 Credits
Grading Scheme: Letter Grade
Secondary metabolism and biosynthetic pathways, bioinorganic chemistry, protein folding and trafficking, cellular signaling, replication and translation from a chemist's perspective. Applications in bioanalytical chemistry and in molecular and cell biology.
Prerequisite: CHM 3218 or BCH 4024.

CHM 4130 Instrumental Analysis 3 Credits
Grading Scheme: Letter Grade
Concepts of instrumentation for chemical analysis. In-depth examination of spectrochemical and electrochemical methods and chemical separations.
Prerequisite: (CHM 2211 or CHM 2213 or CHM 3217) and CHM 3120 and (MAC 2312 or MAC 2512 or MAC 3473) and (PHY 2053 or PHY 2048 or PHY 2060).
Corequisite: PHY 2054 or equivalent.

CHM 4130L Instrumental Analysis Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany CHM 4130.
Prerequisite: (CHM 2211 or CHM 2213 or CHM 3217) and CHM 3120 and CHM 3120L and (MAC 2312 or MAC 2512 or MAC 3473) and (PHY 2053 or PHY 2048 or PHY 2060).
Corequisite: CHM 4130

CHM 4143C Electronics and Instrumentation 3 Credits
Grading Scheme: Letter Grade
Principles of operation of instrumentation, optimization of instrumental conditions, and interpretation of instrumental data for qualitative and quantitative analysis. Application of electronic principles necessary to code for automated electronic measurements in chemical research.
Prerequisite: CHM 4130, or CHM 3400 and CHM 4413L or permission of instructor.

CHM 4230 Organic Spectroscopy 2 Credits
Grading Scheme: Letter Grade
Characterization and identification of organic compounds by spectral methods including IR, UV, NMR and mass spectrometry.
Prerequisite: CHM 2211 or CHM 2213 or CHM 3217

CHM 4272 The Organic Chemistry of Polymers 2 Credits
Grading Scheme: Letter Grade
Classification of polymerization types and mechanisms from a mechanistic/organic point of view. The structure of synthetic and natural polymers and polyelectrolytes. Reactions of polymers and practical synthetic methods of polymer preparation.
Prerequisite: CHM 2200, CHM 2211, CHM 2213 and CHM 3217, or the equivalent.

CHM 4300L Laboratory in Biochemistry and Molecular Biology 2 Credits
Grading Scheme: Letter Grade
Introduces experimental techniques in biochemistry, especially those used in DNA isolation and manipulation, protein purification and enzyme kinetic studies.
Prerequisite: CHM 2211L and either CHM 3218, or CHM 2211 and BCH 4024.

CHM 4304 Chemical Aspects of Cellular Control 3 Credits
Grading Scheme: Letter Grade
Control of information, materials and energy within cellular systems. Examples taken from the biochemistry of plants, bacteria and higher organisms.
Prerequisite: (CHM 3218 or CHM 2211) and BCH 4024.

CHM 4308 Introduction to Enzyme Mechanism 3 Credits
Grading Scheme: Letter Grade
Principles of enzyme structure, isolation and purification and principles of the physical chemistry of enzyme/substrate interactions. Overview of concepts of biological catalysis, including transition state theory, descriptions and examples of mechanisms of biochemical catalysis, survey of co-factors, and catalytic antibodies, ribozyme structure and catalysis.
Prerequisite: BCH 4024 or CHM 3218;
Corequisite: CHM 3400 or CHM 4411.

CHM 4411 Physical Chemistry: Thermodynamics and Kinetics 4 Credits
Grading Scheme: Letter Grade
Gas laws, kinetic theory, classical and statistical thermodynamics and applications to solutions, phase equilibria, chemical equilibria and electrochemistry.
Prerequisite: one year of general chemistry and one year of physics;
Corequisite: MAC 2313; background in analytical and organic chemistry recommended.

CHM 4411L Physical Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
A series of laboratory experiments designed to accompany CHM 4411.
Prerequisite: CHM 3120L;
Corequisite: CHM 4411.

CHM 4412 Physical Chemistry: Chemical Bonding and Spectroscopy 4 Credits
Grading Scheme: Letter Grade
Introduces quantum theory, atomic and molecular structure, chemical bonding and spectra, chemical reaction rate laws and mechanisms, and statistical and collision theories of reaction rates.
Prerequisite: (CHM 2046 or CHM 2046C or CHM 2047 or CHM 2051 or CHM 2096) and (PHY 2049 or PHY 2054 or PHY 2061).
Corequisite: MAC 2313.

CHM 4412L Physical Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
A series of laboratory experiments designed to accompany CHM 4412.
Prerequisite: CHM 3120L.
Corequisite: CHM 4412.

CHM 4413L Biophysical Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory experiments to demonstrate basic concepts of the physical chemistry of biological systems.
Prerequisite: CHM 2211L and CHM 3120L;
Corequisite: CHM 3400.

CHM 4611 Advanced Inorganic Chemistry 3 Credits
Grading Scheme: Letter Grade
Introduces advanced concepts of modern inorganic chemistry. Major themes include application of group theory to structure and bonding, molecular orbital treatment of reactivity, fundamental organometallic chemistry and introduces vibrational and electronic spectroscopy.
Prerequisite: CHM 3120 and CHM 3610;
Corequisite: CHM 4412.

CHM 4671 Bioinorganic Chemistry 3 Credits
Grading Scheme: Letter Grade
From an inorganic perspective, introduces the structure and function of a variety of metalloproteins and metalloenzymes, concentrating on systems containing transition metals. Emphasizes the role that metal ion(s) play in the function of the biomolecules.
Prerequisite: CHM 3610 and (CHM 3218 or BCH 4024).

CHM 4905 Individual Problems 1-3 Credits
Grading Scheme: Letter Grade
Double registration permitted. An assigned reading program or development of an assigned experimental problem.
Prerequisite: permission of faculty member supervising the work.

CHM 4910 Undergraduate Research 0-3 Credits
Grading Scheme: Letter Grade
Laboratory or literature investigations of chemical problems of current interest.
Prerequisite: permission of faculty member supervising the work.

CHM 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in chemistry.
Prerequisite: CHM 2045 or CHM 2050 or CHM 2095 or CHM 2047.

CHM 4940 Supervised Teaching 0-2 Credits
Grading Scheme: Letter Grade
Supervised teaching, usually at the general chemistry level. Required is a superior record at UF in the course in which the student will assist and evidence that the student's own progress will not be delayed.
Prerequisite: instructor permission.

CHM 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade

IDH 3931 Interdisciplinary Junior Honors 1-3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide honors program.
Prerequisite: Honors program member.
Attributes: Satisfies 6000 Words of Writing Requirement

IDS 2334 Chemistry in the Cocina Latina 3 Credits
Grading Scheme: Letter Grade
Cross-disciplinary exploration of the intersection between the science of chemistry and the culture of the Spanish-speaking world. Studies the chemical reactions inherent in cooking while considering the role of food in the development and maintenance of culture. Active learning in laboratory and kitchen settings enhance the course content.
Attributes: Quest 2, General Education - International

ISC 1010C Secrets of Alchemy 3 Credits
Grading Scheme: Letter Grade
Multi-disciplinary exploration of the history of alchemy, the precursor to modern chemistry. Studies the multi-dimensional relationships with philosophy, religion, and the natural sciences from antiquity to the modern era. Incorporates perspectives from western tradition. Recreation of alchemical recipes in the teaching lab enhance the course content.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ISC 2400L Cross-Disciplinary Laboratory 1 3 Credits
Grading Scheme: Letter Grade
First course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2010L, CHM 2045L and PHY 2053L.
Prerequisite: high school algebra or equivalent. Degree-seeking students only.

ISC 2401L Cross-Disciplinary Laboratory 2 3 Credits
Grading Scheme: Letter Grade
Second course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2011L, CHM 2046L and PHY 2054L.
Prerequisite: ISC 2400L and MAC 1147 or equivalent;
Corequisite: BSC 2010 and CHM 2045 or CHM 2047 or CHM 2095.

ISC 3523C Research Methods 3 Credits
Grading Scheme: Letter Grade
The tools scientists use to solve scientific problems, including use of experiments to answer scientific questions, design of experiments to reduce systematic and random errors, use of statistics to interpret experimental results and deal with sampling errors, mathematical modeling of scientific phenomena and oral presentation of scientific work.
Prerequisite: UFTeach Step 1 and one year of college biology, chemistry or physics.

Chinese | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

Courses

CHI 1130 Beginning Chinese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing. Materials are designed for learners with no prior exposure to the language. Those with native background or education for four years or more in a Chinese speaking country must take a placement test before enrolling in any Chinese language class.

CHI 1131 Beginning Chinese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: CHI 1130 with minimum grade of C, or S, or the equivalent.

CHI 2230 Intermediate Chinese 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: CHI 1131 with minimum grade of C, or S, or the equivalent.

CHI 2231 Intermediate Chinese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: CHI 2230 with minimum grade of C, or S, or the equivalent.

CHI 2340 Chinese for Heritage Learners 1 4 Credits
Grading Scheme: Letter Grade
For those with significant bilingual speaking and listening backgrounds. Emphasis is on recognition of the characters and writing, and pronunciation and speaking.

CHI 2341 Chinese for Heritage Learners 2 4 Credits
Grading Scheme: Letter Grade
To consolidate the foundation built in Chinese for Heritage Learners 1, to expand vocabulary and to introduce more complex grammatical structures. Emphasis is on reading and writing. Those who successfully complete CHI 2341 are eligible for CHI 3410.

CHI 3403 Chinese Calligraphy 3 Credits
Grading Scheme: Letter Grade
Introductory study of the origin, composition, development, variations and aesthetic styles of Chinese characters with laboratory sessions for appreciating and practicing calligraphic skills. (N)
Prerequisite: (CHI 2231 or JPN 2231 or CHI 3410 or JPN 3410 or CHI 3411 or JPN 3411 or CHW 4120 or CHW 4130 or CHW 4140 or JPW 4130 or JPW 4131) or instructor permission.
Attributes: General Education - International

CHI 3410 Advanced Chinese 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: CHI 2231 with minimum grade of C, or S, or the equivalent.

CHI 3411 Advanced Chinese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: CHI 3410 with minimum grade of C, or S, or the equivalent.

CHI 3440 Business Chinese 3 Credits
Grading Scheme: Letter Grade
Development of language skills and protocol issues used in Chinese business environments. Acquire vocabulary, phrases, and sentence patterns essential for business transactions and develop oral presentations, business cards, and resumes.
Prerequisite: completion of second-year Chinese required, or by permission.

CHI 4050 Fourth Year Chinese 1 3 Credits
Grading Scheme: Letter Grade
Introduces and analyzes the documentary prose style used in Chinese newspapers and media. By studying a variety of short texts students develop skill in listening, speaking, reading and writing about issues commonly encountered in Chinese newspaper editorials and in television news programs, debate roundtables, or TV documentaries.
Prerequisite: CHI 3411 or equivalent with a minimum grade of C.

CHI 4051 Fourth Year Chinese 2 3 Credits
Grading Scheme: Letter Grade
Solidifies and improves students' knowledge of advanced Chinese through literature as a continuation of CHI 4050. Emphasizes formulating strategies to learn the difference between written language and spoken language and approaches meaningful writing with an eye toward careful examination of authentic writing samples.
Prerequisite: CHI 4050

CHI 4850 Structure of Chinese 3 Credits
Grading Scheme: Letter Grade
Introduction to phonological, grammatical and discourse structures of Mandarin Chinese, with an emphasis on its contrastive aspects with the English language. (N)
Prerequisite: CHI 1131 with minimum grade of C or LIN 3010, or instructor permission.
Attributes: General Education - International

CHI 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Includes all individual study courses offered by the Chinese section.

CHI 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

CHI 4930 Special Topics in Chinese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Chinese studies.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

CHI 4935 Senior Thesis 3 Credits
Grading Scheme: Letter Grade
Select a Chinese faculty member to act as director for an independent research project that culminates in the preparation of an honors thesis.
Prerequisite: minimum 3.5 GPA and instructor permission.

CHI 4940 Internship 1-6 Credits
Grading Scheme: Letter Grade
Gain practical experience that enhances classroom learning.
Prerequisite: Critical Tracking semester 2 or greater.

CHI 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade

CHT 3101 Translation Method: Chinese to English 3 Credits
Grading Scheme: Letter Grade
Hands-on introduction to the processes, procedures, and cultural and linguistic challenges relevant to translation from Chinese to English. Development of basic translation skills including strategies on word level, sentence level, and text level. Acquisition of lexicon, structure, and style used in various fields (legal, business, medical) and hands-on experience in translating real-life documents.
Prerequisite: CHI 3411 with a minimum grade of C.

CHT 3110 Chinese Literary Heritage 3 Credits
Grading Scheme: Letter Grade
Introduces pre-modern Chinese literature in translation. Topics chosen from classical poetry, short stories, novels, and drama. Emphasizes the interplay between orthodox values and the folk tradition. All readings are in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 3123 Pre-Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
Pre-modern Chinese narrative from its philosophical and historical origins to the fiction at the turn of the 20th century. Emphasizes the 16th and 17th centuries when Chinese vernacular fiction flourished.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

CHT 3124 Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
Surveys modern Chinese fiction in translation. Samples are from the early 20th century through the contemporary era and include writers of the early Republic, the P.R.C., and Taiwan. Focuses on fiction as a vehicle for social change. All readings are in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 3302 Tales of the Strange in Medieval Chinese Literature 3 Credits
Grading Scheme: Letter Grade
Introduces traditional Chinese tales of the strange and primary sources that contributed to their development. Also covers cross-cultural literary theories of the fantastic and uncanny; interdisciplinary literary, discourse, and narrative theories; and three common medieval Chinese worldviews.
Prerequisite: One CHI or CHT or CHW course.

CHT 3391 Chinese Film and Media 3 Credits
Grading Scheme: Letter Grade
Examination of Chinese cinema and other forms of media, such as television, music, and print culture in a broad sociopolitical and historical context. An interdisciplinary approach with a diversity of readings and multimedia tools incorporated into discussions.
Prerequisite: Quest 1 or successful completion of 12 credits.

CHT 3500 Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Chinese culture with emphasis on its philosophy, language, society, art, and people as a whole. All readings are in English.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

CHT 3511 Chinese Martial Arts Fiction 3 Credits
Grading Scheme: Letter Grade
Overview of Chinese martial arts fiction from earliest times to the present day. Discusses the literary pleasure of watching violence, the relationship between violence and the law, gender ambiguity of woman warriors, the imperial and (trans)national order of martial arts narrative, and the moral and physical economy of vengeance.
Prerequisite: Semester 2 or successful completion of 12 credits.

CHT 3513 Taoism and Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to the general history and culture of Taoism in ancient and modern China: its thoughts, belief systems, cultural influences, practices, and rituals.
Prerequisite: Critical Tracking semester 2 or greater.

CHT 3515 Bodies, Bodies, Bodies in Premodern China 3 Credits
Grading Scheme: Letter Grade
Surveys a selection of classical approaches to the study of the body before analyzing and comparing several common literary, philosophical, medical (TCM), mantic, religious, and political representations of the human body in different eras of premodern Chinese culture. Tensions between traditionalism and modernity are examined in the final weeks of the course. All readings and discussion are in English.
Prerequisite: Semester 2 or successful completion of 12 credits.

CHT 3523 Hong Kong, Taiwan, and the New Global Cinema 3 Credits
Grading Scheme: Letter Grade
Overview of Sinophone film in Hong Kong, Taiwan, and the broader sphere of Chinese diaspora. Addresses film history, culture, and aesthetics.
Prerequisite: Quest 1 or successful completion of 12 credits.

CHT 4111 Dream of the Red Chamber 3 Credits
Grading Scheme: Letter Grade
Explores the intellectual and social life of traditional China through the 18th century epic novel, Story of the Stone. Also studies interpretive theories of the novel, both Chinese and Western. All readings are in English.
Prerequisite: CHI 3500 or CHT 3110, or instructor permission.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 4603 Journey to the West 3 Credits
Grading Scheme: Letter Grade
Exploration of traditional Chinese religious culture, cultural history and literacy expression through a 100 chapter novel known as Journey to the West, or Monkey.
Prerequisite: one course in Chinese culture or instructor permission.

CHT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

CHW 4120 Classical Chinese 1 3 Credits
Grading Scheme: Letter Grade
Introduction to classical Chinese prose with texts drawn mainly from early histories and philosophical writings (500 BC - AD 100). Emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: CHI 2231 with minimum grade of C or instructor permission.

CHW 4121 Classical Chinese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of CHW 4120 focusing on classical Chinese prose with texts drawn from early historical and philosophical texts to belles-lettres of the medieval era and later periods. Emphasis on reading comprehension, grammar analysis, and translation.
Prerequisite: CHW 4120 or instructor permission.

CHW 4130 Readings in Chinese Literature 3 Credits
Grading Scheme: Letter Grade
Introduces advanced language students to a sampling of Chinese writers. Materials chosen from classic or modern/contemporary Chinese literature rotated across semesters. All readings in Chinese.
Prerequisite: CHI 3410 or CHI 3411 or CHI 3440.

CHW 4140 Newspaper Chinese 3 Credits
Grading Scheme: Letter Grade
Development of ability to understand and translate the documentary prose style used in Chinese newspapers and academic journals. Introduces literary function words and grammar structures, with comparison to the vernacular. Most readings in the simplified character form used in the PRC; all readings in Chinese. Applications for research on modern China.
Prerequisite: CHI 3410 or CHI 3411 or CHI 3440.

CHW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

Civil and Coastal Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

Website (https://www.essie.ufl.edu/civil-coastal-engineering/)

Curriculum

- Civil Engineering
- Combination Degrees
- Industrialized Construction Engineering

Courses

CCE 4015 Civil Engineering Estimating 3 Credits
Grading Scheme: Letter Grade
Design of systems for estimating and cost control of human-machine productivity for civil engineering projects. Analysis of cost factors required for optimization of engineering-investment efficiency.
Prerequisite: CGN 4160.

CCE 4204 Construction Equipment, Methods and Management 3 Credits
Grading Scheme: Letter Grade
Theory and practice of construction operations, equipment utilization and construction methods. Analysis of costs. Optimizing crew and equipment. Heavy equipment costs. New emphasis on planning and executing a construction project.
Prerequisite: Junior standing or higher or instructor permission.
Corequisite: CGN 4101.

CCE 4521C Engineering and Construction Analytics using BIM 3 Credits
Grading Scheme: Letter Grade
Exploration of model-based engineering and construction analytics using Building Information Modeling (BIM) to understand structural properties, constructability, and maintainability of structures. Topics include model-based designs; finite element analysis based on BIM; mechanical, electrical and plumbing (MEP) models; constructability and maintainability assessment; model-informed construction time and cost analysis, and reality capture for infrastructure assessment.
Prerequisite: EGM 2511.

CCE 4811 Construction Engineering Design 3 Credits
Grading Scheme: Letter Grade
Simulation of comprehensive construction project involving all phases of planning, scheduling and control from start to finish, which involves making major decisions. Oral presentation required at the end of course.
Prerequisite: CGN 4160 and EIN 3354.

CEG 4011 Soil Mechanics 4 Credits
Grading Scheme: Letter Grade
Physical properties of soils, compaction, flow of water through soil, distribution of stress within soil and consolidation. Laboratory.
Prerequisite: EGM 3520.

CEG 4012 Geotechnical Engineering 3 Credits
Grading Scheme: Letter Grade
Subsurface exploration settlements analysis, slope stability, earth pressure and an introduction to foundation design.
Prerequisite: CEG 4011.

CEG 4104 Retaining Wall and Embankment Design 3 Credits
Grading Scheme: Letter Grade
The application of soil mechanics to the design and analysis of various types of retaining structures and earthen embankments.
Prerequisite: CEG 4012.

CEG 4111 Foundation Engineering Design 3 Credits
Grading Scheme: Letter Grade
Comprehensive design of geotechnical system, focusing on design of complete project and utilizing CAD programs. Designs, drawings and oral presentations through group effort.
Prerequisite: CEG 4012.

CES 3102 Mechanics of Engineering Structures 4 Credits
Grading Scheme: Letter Grade
Introduces structural load, equilibrium, shear and bending moment diagrams, structural analysis software, classical methods for displacement determination, method of consistent deformations, slope deflection method, moment distribution method.
Prerequisite: EGM 3520.

CES 4605 Analysis and Design in Steel 3 Credits
Grading Scheme: Letter Grade
Elastic and plastic theories of design, design of members subjected to tension, compression, flexure and torsion. Design of connections and rigid frames.
Prerequisite: CES 3102 and CGN 3501C and Engineering major.

CES 4702 Analysis and Design in Reinforced Concrete 3 Credits
Grading Scheme: Letter Grade
Ultimate strength analysis and design of reinforced beams and columns, working stress design for flexure, design of footings and retaining walls.
Prerequisite: CES 3102 and CGN 3501C and Engineering major.

CGN 2002 Introduction to Civil Engineering 1 Credit
Grading Scheme: Letter Grade
Introduces the broad field of civil engineering.

CGN 3421 Computer Methods in Civil Engineering 3 Credits
Grading Scheme: Letter Grade
Review of computer programming. Numerical methods as applied to civil engineering problems and civil engineering software.
Prerequisite: COP 2271 or COP 2273.

CGN 3501C Civil Engineering Materials 4 Credits
Grading Scheme: Letter Grade
Studies the principal materials used for engineering purposes with special attention to mechanical properties and their importance to the engineer. Hands-on experience in testing of civil engineering materials.
Corequisite: EGM 3520.

CGN 3510 Introduction to Sustainable Engineering 3 Credits
Grading Scheme: Letter Grade
Overview of the principles of sustainability as they relate to civil and environmental engineering issues. Discussions and projects facilitate a basic understanding of the production-consumption model and life cycle assessment.
Prerequisite: Engineering major.

CGN 3710 Experimentation and Instrumentation in Civil Engineering 3 Credits
Grading Scheme: Letter Grade
Fundamentals and applications of measuring systems commonly used in civil engineering. Topics include recording techniques, strain, force, displacement, flow, temperature, humidity and PH measurements.
Prerequisite: PHY 2049.

CGN 4101 Civil Engineering Cost Analysis 3 Credits
Grading Scheme: Letter Grade
Analysis of civil engineering proposals, utilizing time-value and related factors. Feasibility and optimum life comparisons. Utility rate derivation, utility/cost method.
Prerequisite: 3EG classification or instructor permission.

CGN 4160 Civil Engineering Practice 4 Credits
Grading Scheme: Letter Grade
Fundamentals of civil engineering professional practice: project management, construction delivery processes, business concepts, public policy, administration, diversity and equity issues in civil engineering, and leadership.
Prerequisite: EGM 2511 or equivalent.
Corequisite: CGN 2328.

CGN 4304 Machine Learning Applications in Civil Engineering 3 Credits
Grading Scheme: Letter Grade
Leverage machine learning state-of-the-art techniques and tools to solve Civil Engineering problems. Apply fundamentals of data analytics and machine learning techniques to real-world tasks and gain essential knowledge and programming skills (using R) in data preprocessing, feature selection, model comparison, hyperparameter tuning, and machine-learning interpretation. Includes case studies and applications for hands-on experience.
Prerequisite: CGN 3421.

CGN 4404 Applied Data Science in Civil and Environmental Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces the workflows of data science applications, covering the state-of-art techniques in data acquisition, data processing and management, analytics and modeling, and visualization. Critical application of data science concepts and techniques in complex socioeconomic and environmental contexts. Basics of problem formulation and major ethical considerations of applying data science in practice.
Prerequisite: CGN 3421 or ENV 3040C or equivalent.

CGN 4503 Pavement Design 3 Credits
Grading Scheme: Letter Grade
Function and material requirements of different elements of flexible and rigid pavement systems; characterization of soils, materials, traffic loads, and environment for design; flexible and rigid pavement design; new developments.
Prerequisite: CGN 3501C.

CGN 4600 Public Works Engineering and Management Practices 3 Credits
Grading Scheme: Letter Grade
Public works profession, organization, administration, and management of operating divisions with emphasis on role of engineer.
Prerequisite: CGN 4160.

CGN 4806 Transportation-Water-Materials Design 3 Credits
Grading Scheme: Letter Grade
Simulation of a design project experience through the completion and presentation of a comprehensive roadway project design. Students work in multi-disciplinary groups to complete a system design that includes traffic, materials, hydrologic and geotechnical considerations.
Prerequisite: senior standing.

CGN 4851C Concrete Mixture Design 3 Credits
Grading Scheme: Letter Grade
Concrete constituent material types and properties, mixture design for normal strength, high strength, ultra-high performance, self-consolidating, pervious, and fiber-reinforced concrete. Concrete mixture design, testing, and construction practices for durability.
Prerequisite: CGN 3501C.

CGN 4905 Special Problems in Civil Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of engineering study.
Prerequisite: undergraduate coordinator permission.

CGN 4910 Structures-Geotechnical-Construction Comprehensive System Design 3 Credits
Grading Scheme: Letter Grade
Simulation of a design office experience through the completion and presentation of a comprehensive building design. Students work in multi-disciplinary groups to complete a system design that includes structural, geotechnical and construction management considerations.
Prerequisite: instructor permission.

CGN 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Co-op work experience in a related field.
Prerequisite: Engineering major.

CWR 3201 Hydrodynamics 4 Credits
Grading Scheme: Letter Grade
Classification and properties of fluids, hydrostatics, and conservation of mass, momentum and energy in fluid flow. Potential flow, similitude and physical modeling. Laminar and turbulent pipe flow. Introduces turbomachines.
Prerequisite: MAP 2302 with minimum grade of C and EGM 2511.

CWR 4202 Hydraulics 3 Credits
Grading Scheme: Letter Grade
Fundamental equations for pipe and open conduit flow. Development of design oriented formulas for pipes and open channels. Introduces hydrology.
Prerequisite: CWR 3201 or instructor permission.

CWR 4306 Urban Stormwater Systems Design 3 Credits
Grading Scheme: Letter Grade
Surface-water system design including: time of concentration, peak runoff rate, open-channel flow, gravity storm sewer, culvert, stormwater pumping, filtration systems, hydrograph generation, flood routing, site layout, site grading and permitting.
Corequisite: CWR 4202.

CWR 4542 Water Resources Engineering 3 Credits
Grading Scheme: Letter Grade
Study of water resources engineering applications including hydrology and statistics, groundwater, hydraulic machinery, dams and reservoirs, water quality, water quality modeling, water and waste-water treatment and water law and institutions.
Prerequisite: CWR 4202.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Department permission.

ENV 4514C Water and Wastewater Treatment 3 Credits
Grading Scheme: Letter Grade
Design of water and wastewater treatment units.

EOC 4852 Coastal Dynamics and Engineering Applications 3 Credits
Grading Scheme: Letter Grade
Introduces coastal engineering and coastal processes, highlighting coastal engineering projects. Topics include large-scale coastal behavior, linear wave theory, wave generation and propagation, coastal nearshore hydrodynamics, coastal sediment processes, coastal inlet behavior, and coastal protection measures. Also discusses recent innovations in coastal engineering practice.
Prerequisite: CWR 3201 or instructor permission.

TTE 4004C Transportation Engineering 4 Credits
Grading Scheme: Letter Grade
Overview of the significance of highway transportation to the social and economic underpinnings of society. Introduces road vehicle performance, geometric design of highways, traffic flow and queuing theory, highway capacity and level of service analysis, traffic control and analysis at signalized intersections, and travel demand and traffic forecasting.
Prerequisite: 3EG classification.

TTE 4106 Urban Transportation Planning 3 Credits
Grading Scheme: Letter Grade
Overview of the four-step urban transportation planning process; includes analytical techniques for estimating future travel demand and state-of-the-art approaches.
Prerequisite: TTE 4004C.

TTE 4201 Traffic Engineering 3 Credits
Grading Scheme: Letter Grade
General review of the fundamentals of traffic engineering with emphasis on field studies and data analysis.
Prerequisite: TTE 4004C.

TTE 4203 Highway Capacity Analysis 3 Credits
Grading Scheme: Letter Grade
Provide students with detailed instruction on the procedures defined within the 2010 Highway Capacity Manual (HCM), including analytical chapters for uninterrupted and interrupted flow.
Prerequisite: TTE 4004C.

TTE 4300 Transportation Systems Analysis 3 Credits
Grading Scheme: Letter Grade
Systems analysis in transportation planning and engineering, including supply, demand, equilibrium, evaluation and decision analysis.
Prerequisite: TTE 4004C.

TTE 4824 Transportation Facility Design 3 Credits
Grading Scheme: Letter Grade
Simulates a comprehensive design of a transportation facility, specifically an arterial-freeway interchange. Utilizes state and national-level design manuals in preparation of standard plans. Applies the theoretical background gained in supporting classes, in areas such as traffic analysis, roadway design, roadway drainage, and pavement design. Some review of this material is provided, as well as introduction of several new concepts. Emphasizes teamwork skills and technical communication skills.
Prerequisite: TTE 4004C.

Classics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Curriculum

- Classical Studies
- Classical Studies Minor
- Greek Studies Minor

Courses

CLA 1011 Democracy in Theory and Action 3 Credits
Grading Scheme: Letter Grade
The birth and evolution of democracy and its contributions to western civilization and current forms of government and governing. Lively dialogue between ancient democracy and modern through a comparative analysis, tackling some of the most pressing issues, such as limits of political participation and free speech, the role of the press/media, and elitism in politics.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

CLA 1530 Gardens to Read and Visit 3 Credits
Grading Scheme: Letter Grade
Investigation of gardens as cultural artifacts in literature and art to discover the extent to which gardens are sites of comfort as well as contest, through analysis of the tension between the experience ("to visit") and the representations ("to read") of gardens in written and visual forms.
Prerequisite: Restricted to degree-seeking undergraduate students.
Attributes: Quest 1, General Education - Humanities

CLA 1812 Medicine, Science, and the Dawn of Reason 3 Credits
Grading Scheme: Letter Grade
This interdisciplinary course invites students to examine the passage of humanity into the era of reason and the development of medical science and ethics. As part of the "nature and culture" theme, it presents a historical narrative on the passage of humanity from superstition to the era of scientific inquiry as represented throughout the Western canon and world literatures.
Prerequisite: Restricted to undergraduate degree-seeking students
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

CLA 1820 Magic and the Supernatural: From Greece and Rome to the Present 3 Credits
Grading Scheme: Letter Grade
Explores beliefs in magic and the supernatural and how they are shaping our culture, values and legal system. Considers how reason, belief, faith and the supernatural interact with each other our life experiences.
Prerequisite: Restricted to undergraduate degree-seeking students.
Attributes: Quest 1, Satisfies 2000 Words of Writing Requirement

CLA 2100 The Glory That Was Greece 3 Credits
Grading Scheme: Letter Grade
Exploration of the historical, cultural, and socio-political aspects of the Ancient Greek world as it is situated firmly within the western classical tradition.
Attributes: General Education - Humanities, General Education - International

CLA 2120 The Grandeur That Was Rome 3 Credits
Grading Scheme: Letter Grade
Provides a multi-faceted introduction to the culture of Rome and its contribution to western civilization and canon. Primary source material read in translation.
Attributes: General Education - Humanities, General Education - International

CLA 2521 Classical Antiquity and Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines classical antiquity, applying methods and theories of sustainability to explore the impact of the ancient Greeks and Romans on their environment and focusing on the distribution of wealth, social stratification, land use and classical representations of the natural world.

CLA 3111 Athens in Topography and Monuments 3 Credits
Grading Scheme: Letter Grade
Explores the topography and monuments of ancient Athens to understand social, historical, economic, and religious institutions.
Prerequisite: ENC 1101 or sophomore standing or higher.
Attributes: General Education - International

CLA 3114 Greece Today and Yesterday 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary examination of various aspects of ancient and modern Greek life and culture.
Prerequisite: ENC 1101 or sophomore standing or higher.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

CLA 3122 Rome of Augustus 3 Credits
Grading Scheme: Letter Grade
Studies the political, social, and cultural developments of Rome during the age of Augustus.
Prerequisite: Sophomore standing or higher.

CLA 3151 Pompeii: An Archaeological Laboratory 3 Credits
Grading Scheme: Letter Grade
Studies the material remains of a Roman town through an examination of the excavated finds: architecture, wall-paintings, and inscriptions.
Prerequisite: ENC 1101 or sophomore standing or higher.
Attributes: General Education - International

CLA 3160 Ancient Egypt 3 Credits
Grading Scheme: Letter Grade
Studies the civilization, culture, and monuments of ancient Egypt from prehistoric times to the New Kingdom and Late period.
Prerequisite: ENC 1101 or sophomore standing or higher.
Attributes: General Education - International

CLA 3161 Introduction to Hieroglyphics 3 Credits
Grading Scheme: Letter Grade
A beginner's course in Egyptian hieroglyphics of the Middle Kingdom. Also designed for students with no former instruction in ancient languages.
Prerequisite: CLA 3160.

CLA 3433 The Athenian Democracy 3 Credits
Grading Scheme: Letter Grade
Studies ancient Athens from c.650-322 BCE, with attention to the political, social, and cultural institutions of the democracy, drawing on primary sources and modern theory to explain democratic changes from the archaic to the classical period.
Prerequisite: ENC 1101 or sophomore standing or higher.

CLA 3434 Classical Greece 3 Credits
Grading Scheme: Letter Grade
Studies the social, political, and cultural developments of classical Greece from the Persian Wars to the death of Alexander (500-322 BCE).
Prerequisite: ENC 1101 or sophomore standing or higher.

CLA 3500 Sport and Recreation in the Ancient World 3 Credits
Grading Scheme: Letter Grade
Examines literary and archaeological sources to determine the social, economic, political and cultural importance of games in the ancient Mediterranean world from the time of Homer to the fall of the Roman Empire.
Prerequisite: sophomore standing or higher.

CLA 3504 Gender and Sexuality in Classical Antiquity 3 Credits
Grading Scheme: Letter Grade
Explores perceptions of the masculine and feminine in Ancient Greece and Rome, discussing these stereotypes in their political, social, economic, and cultural contexts.
Prerequisite: ENC 1101 or sophomore standing.
Attributes: Satisfies 6000 Words of Writing Requirement

CLA 3590 Slavery in the Ancient World 3 Credits
Grading Scheme: Letter Grade
Examination of slavery in the ancient Greek and Roman world from the late Bronze Age to the end of the Roman empire.
Prerequisite: Sophomore standing or higher.

CLA 3700 Classical Archaeology 3 Credits
Grading Scheme: Letter Grade
Illustrated lectures on archaeology, its process of discovery, and methods. History of major archaeological exploration in Mediterranean lands compared with extant literary information.
Prerequisite: ENC 1101 or sophomore standing or higher.
Attributes: General Education - International

CLA 3791 The Ancient City: Greek Cities 3 Credits
Grading Scheme: Letter Grade
Covers the development of the cities of classical Greece from Minoan centers through Byzantium. All aspects of city life: design, building techniques, culture, and ideas.
Prerequisite: ENC 1101 or sophomore standing or higher.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

CLA 3793 The Ancient City: Roman Cities 3 Credits
Grading Scheme: Letter Grade
Studies the cities of the Roman Empire from the founding of Rome to the establishment of Constantinople as the Eastern capital. Emphasizes life in imperial Rome and in European and North African cities.
Prerequisite: ENC 1101 or sophomore standing or higher.

CLA 3811 AI in Antiquity and Today 3 Credits
Grading Scheme: Letter Grade
Examines AI's origins in ancient Greece and compares it to AI's acceptance and use in modern society. Pairs discussion of Greek and Roman philosophical and other literary texts on the soul and identity and the boundaries between the natural and artificial with emerging societal issues related to AI, including gender, racism, and slavery.
Prerequisite: Students must be sophomore standing.
Attributes: Artificial Intelligence, General Education - International, Satisfies 4000 Words of Writing Requirement

CLA 3891 Crime and Punishment in Ancient Athens 3 Credits
Grading Scheme: Letter Grade
Examines how the Athenians defined, regulated, and suppressed crime and what the political discourse on crime reveals about Classical Athens.
Prerequisite: Sophomore standing or higher.

CLA 3930 Special Topics in Classical Civilization 3 Credits
Grading Scheme: Letter Grade
Examines various aspects of Greek and Roman culture based on the ancient sources, literary, and archaeological.
Prerequisite: ENC 1101 or sophomore standing or higher.

CLA 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Reading, conference and reports. All work in will be in translation.
Prerequisite: instructor permission.

CLA 4911 Undergraduate Research in Classical Civilization 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Classical Civilization. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Classical Civilization.

CLA 4931 Classics Capstone Seminar 3 Credits
Grading Scheme: Letter Grade
Introduces scholarly literature on a significant topic in classics. Students will write a research paper showing proper use of primary and secondary sources on the topic.
Prerequisite: classics major with at least 18 credits of CLA and/or CLT courses and at least 8 credits of Latin or Ancient Greek.

CLA 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

CLT 2044 English Vocabulary from Greek and Latin 3 Credits
Grading Scheme: Letter Grade
Historical study of the origins, development, and lexicography of English vocabulary with emphasis on elements derived from Greek and Latin.

CLT 3123 Survey of Roman Literature 3 Credits
Grading Scheme: Letter Grade
Critical study of the development of Roman literature. Includes readings from Plautus, Cicero, Catullus, Vergil, Ovid, and Tacitus. Read in translation.
Prerequisite: ENC 1101 or sophomore standing or higher.

CLT 3291 Greek Drama 3 Credits
Grading Scheme: Letter Grade
Classical Greek theater: archaeological remains of important theaters and selected plays of Aeschylus, Sophocles, Euripides, Aristophanes, and Menander. Read in translation.
Prerequisite: ENC 1101 or sophomore standing or higher.
Attributes: General Education - International, Satisfies 6000 Words of Writing Requirement

CLT 3340 Ancient Greek and Roman Epic 3 Credits
Grading Scheme: Letter Grade
Examines the origin and development of the ancient Greek and Roman epic traditions in the political and social context of the Mediterranean region and Near East from the first millennium BCE through the first century CE.
Prerequisite: ENC 1101 or sophomore standing or higher.

CLT 3370 Myths of the Greeks and Romans 3 Credits
Grading Scheme: Letter Grade
Development, importance, and influence of Graeco-Roman mythology. The main Greek and Latin literary sources are read in translation.
Prerequisite: ENC 1101 or sophomore standing or higher.
Attributes: General Education - International

CLT 3371 Religions of the Graeco-Roman World 3 Credits
Grading Scheme: Letter Grade
Development, importance, and influence of Greek and Roman religion and cult practice. The main literary and epigraphical sources are read in translation.
Prerequisite: Sophomore standing or higher.
Attributes: General Education - International

CLT 3421 Classics and Science Fiction 3 Credits
Grading Scheme: Letter Grade
Studies science fiction's origins in Greek and Roman texts to investigate the influence of Greco-Roman literature on modern works of science fiction.
Prerequisite: CLA 2100 or CLA 2120 or CLT 2044.

CLT 3510 Ancient World in Film 4 Credits
Grading Scheme: Letter Grade
Examines film and television characterizations of the ancient world and how these accord with known facts through historical and archaeological evidence. Viewing of selected movies along with background readings, lectures, and discussion.
Prerequisite: ENC 1101 or sophomore standing or higher.

CLT 3531 Legendary Rome 3 Credits
Grading Scheme: Letter Grade
Myths and history associated with Rome's early foundation stories and examination of works of literature about Rome's foundation in their political, social, and cultural contexts.
Prerequisite: ENC 1101 or sophomore standing or higher.

CLT 3930 Special Topics in Classical Literature 3 Credits
Grading Scheme: Letter Grade
Examines various aspects of Greek and Roman literature with focus on special genres (e.g., historiography), periods (e.g., the age of Augustus), or subjects (e.g., slavery).
Prerequisite: ENC 1101 or sophomore standing or higher.

CLT 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Reading, conference and reports. All works are read in translation.
Prerequisite: instructor permission.

GMT 3513 Greece in the European Context in the 20th Century 3 Credits
Grading Scheme: Letter Grade
Overview of Greek politics, society, and culture in the 20th century.
Prerequisite: Sophomore standing or higher.

GMT 4110 The Literature of Byzantium 3 Credits
Grading Scheme: Letter Grade
Overview of major genres of Byzantine literature (Patristic literature, oratory, historiography, chronicle, hagiography, hymnography, epic poetry) from the years CE 330-1453.
Prerequisite: instructor permission.

GMT 4911 Undergraduate Research in Modern Greek Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

GRE 1120 Beginning Ancient Greek 1 4 Credits
Grading Scheme: Letter Grade
The basics of ancient Greek grammar, morphology, syntax and vocabulary.

GRE 1121 Beginning Ancient Greek 2 4 Credits
Grading Scheme: Letter Grade
The basics of ancient Greek grammar, morphology, syntax and translation, with special attention to irregular verbs.
Prerequisite: GRE 1120 or GRE 1130.

GRE 1130 Accelerated Beginning Ancient Greek 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, GRE 1131, constitute the basic sequence for development of overall skill in the language.

GRE 1131 Accelerated Beginning Ancient Greek 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: GRE 1130 or the equivalent.

GRK 1130 Beginning Modern Greek 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, GRK 1131, constitute the basic sequence for development of overall skill in the language.

GRK 1131 Beginning Modern Greek 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: GRK 1130 or the equivalent.

GRK 2200 Intermediate Modern Greek 1 3 Credits
Grading Scheme: Letter Grade
Readings in modern Greek literature, history and culture.
Prerequisite: GRK 1131 or the equivalent.

GRK 2201 Intermediate Modern Greek 2 3 Credits
Grading Scheme: Letter Grade
Additional readings in modern Greek literature, history and culture.
Prerequisite: GRK 2200 or the equivalent.

GRK 4300 Modern Greek Literature Since 1830 3 Credits
Grading Scheme: Letter Grade
Advanced study of representative modern Greek prose, poetry and drama in the original from independence (1830) to the present. The course combines the study of the modern Greek language with readings, analysis and discussion of major literary works.
Prerequisite: GRK 2201 or the equivalent.

GRK 4905 Individual Work in Modern Greek 1-4 Credits
Grading Scheme: Letter Grade
For advanced students who seek independent work not offered in another course. Must be arranged individually with Greek faculty.
Prerequisite: GRK 1131.

GRW 2211 Intermediate Greek Prose 3 Credits
Grading Scheme: Letter Grade
Readings selected from Attic Greek prose authors designed to aid students in the transition from grammar to connected prose passages.
Prerequisite: GRE 1121 or GRE 1131 or the equivalent.

GRW 2240 New Testament Greek 3 Credits
Grading Scheme: Letter Grade
Reviews grammar and forms. Readings from several books of the New Testament.
Prerequisite: some knowledge of Greek and instructor permission.

GRW 3102 Survey of Greek Literature 2 3 Credits
Grading Scheme: Letter Grade
Studies representative texts from various periods of Greek literature.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.

GRW 3301 Greek Drama 3 Credits
Grading Scheme: Letter Grade
Selected plays of Aeschylus, Sophocles or Euripides.
Prerequisite: one 2000-level Greek course or the equivalent.

GRW 3501 Plato 3 Credits
Grading Scheme: Letter Grade
Studies Plato's Meno and Apology.
Prerequisite: GRE 1131 or the equivalent.

GRW 4330 Greek Lyric Poetry 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of Greek lyric poetry, from Archilochus to Bacchylides.
Prerequisite: two 3000-level Greek courses or the equivalent.

GRW 4340 Homer and Greek Epic 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Homer's Iliad and Odyssey.
Prerequisite: two 3000-level Greek courses or the equivalent.

GRW 4380 Greek Historians 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections of Herodotus, Thucydides, Xenophon, and Plutarch.
Prerequisite: two 3000-level Greek courses or the equivalent.

GRW 4700 Greek Orators 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Lysias, Demosthenes and Isocrates. (N)
Prerequisite: two 3000-level Greek courses or the equivalent.

GRW 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Reading, conference and reports.
Prerequisite: GRE 1131 or the equivalent.

GRW 4911 Undergraduate Research in Greek Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

GRW 4930 Studies in Greek Literature 3 Credits
Grading Scheme: Letter Grade
Advanced study of a particular author, genre, period or subject.
Prerequisite: one 3000-level course in ancient Greek.

LAT 1101 Beginning Latin 2 3 Credits
Grading Scheme: Letter Grade
The second part of the sequence for those with little or no background in Latin.
Prerequisite: LAT 1120 with minimum grade of C or S, or the equivalent.

LAT 1104 Beginning Latin 3 3 Credits
Grading Scheme: Letter Grade
The third part of the sequence for students with little background in high-school Latin.
Prerequisite: LAT 1101 with minimum grade of C or S, or the equivalent.

LAT 1120 Beginning Latin 1 4 Credits
Grading Scheme: Letter Grade
The first of a 3-semester sequence for students with little or no background in Latin. Others enrolling in the course will be required to take it for an S/U grade.

LAT 1130 Accelerated Beginning Latin 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, LAT 1131, constitute the basic sequence for development of overall skill in the language. Students are expected students to have little or no background in Latin. Others enrolling in the course will be required to take it for an S/U grade.

LAT 1131 Accelerated Beginning Latin 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: LAT 1130 with minimum grade of C, or S, or the equivalent.

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
In this course, students will be assigned readings representative of a broad range of literary genres and cultures. These readings will cover a variety of literary movements and historical eras. The readings will include selections from the Western canon. Written analysis of literary works may be required. Students will be provided with opportunities to practice critical interpretation.
Prerequisite: ENC 1101
Attributes: General Education - Humanities

LNW 2321 Introduction to Vergil 3 Credits
Grading Scheme: Letter Grade
Readings in Vergil's Eclogues, Georgics and/or the Aeneid, with emphasis on introducing Vergilian style, diction poetic techniques and basic genre differences. Review of Latin grammar and syntax.
Prerequisite: LAT 1104 or LAT 1131 or two years of high school Latin.

LNW 2560 Readings in Latin Literature 3 Credits
Grading Scheme: Letter Grade
Examines various aspects of Roman life through readings in Latin literature (with a focus on either special subjects, authors, genres or periods) and a review of Latin grammar.
Prerequisite: LAT 1104 or LAT 1131 or two years of high school Latin or instructor permission.

LNW 2630 Latin Love Poetry 3 Credits
Grading Scheme: Letter Grade
Translation and interpretation of selected poems of Catullus and a thorough review of Latin grammar.
Prerequisite: LAT 1104 or LAT 1131 or two years of high school Latin, or instructor permission.

LNW 3220 The Ancient Novel 3 Credits
Grading Scheme: Letter Grade
Readings from Petronius, Apuleius or the Historia Apollonii Regis Tyri.
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 3310 Roman Drama 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of the comedies of Plautus and Terence or the tragedies of Seneca.
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 3320 Roman Elegy and Lyric 3 Credits
Grading Scheme: Letter Grade
Selected poems of Catullus, Horace, Tibullus, Propertius or Ovid. (N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - International

LNW 3360 Roman Satire 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of the Roman satirists Horace, Persius, Juvenal, or Martial.
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 3380 The Roman Historians 3 Credits
Grading Scheme: Letter Grade
Readings in Latin from one of the Roman historians: Sallust, Caesar, Livy, or Tacitus.
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 3490 Medieval Latin 3 Credits
Grading Scheme: Letter Grade
Readings from Medieval Latin 350 - 1200 A.D.
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 3644 Cicero 3 Credits
Grading Scheme: Letter Grade
Essays, speeches and letters of Cicero. (N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - International

LNW 3660 Vergil and Roman Epic 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Vergil's Aeneid in the light of his epic techniques and the spirit of the Augustan Age.
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 3930 Studies in Latin Literature 3 Credits
Grading Scheme: Letter Grade
A rotating topics course providing in-depth study of a particular author (e.g., Suetonius), genre (e.g., didactic poetry) or period (e.g., The Silver Age).
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 4905 Special Study in Latin 1-4 Credits
Grading Scheme: Letter Grade
Readings, conferences and reports.
Prerequisite: LAT 1104, LAT 1131, LAT 2200 or the equivalent.

LNW 4911 Undergraduate Research in Latin Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

Clinical and Health Psychology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

CLP 2001 Personal Growth 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts and techniques in psychology that apply to personal growth and development. All students have the opportunity to participate in research projects or alternative experiences.

CLP 3144 Abnormal Psychology 3 Credits
Grading Scheme: Letter Grade
The varieties of disordered experience and conduct, and their contribution to an understanding of more effective personal and social adjustment. Includes the neuroses, psychoses and psychosomatic and conduct disturbances.
Prerequisite: PSY 2012.

CLP 3911 Introduction to Clinical Research 1-3 Credits
Grading Scheme: S/U
Hands-on, faculty-supervised research experience in an area of interest. Introduces current research techniques, including the design and development of clinical research projects and data analysis. Three hours of laboratory work or other research activity (e.g., literature searches, grant preparation, recruitment of study participants, etc.) are required for each credit.
Prerequisite: Instructor permission.

CLP 4110 Eating Disorders 3 Credits
Grading Scheme: Letter Grade
Overview of the causes and treatments associated with the full range of recognized eating disorders, including anorexia, bulimia and binge eating disorder, as well as a variety of subclinical forms of problematic eating behaviors and their surrounding factors and issues.
Prerequisite: PSY 2012.

CLP 4134 Introduction to Clinical Child/Pediatric Psychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of the science and practice of clinical child/pediatric psychology, including application of clinical science to problems faced by children and their families. Course also emphasizes assessment and intervention methodologies related to child behavior and health.
Prerequisite: PSY 2012 with a minimum grade of C.

CLP 4302 Introduction to Clinical Psychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of contemporary roles of clinical psychologists. Also emphasizes the integration of science and practice when solving problems of individuals, families, and groups.
Prerequisite: PSY 2012 & CLP 3144 & STA 2023 all with a minimum grade of C.

CLP 4314 Introduction to Health Psychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of the science and practice of clinical health psychology. Also emphasizes application of the biopsychosocial model of health and illness to health promotion, disease prevention, and the treatment and rehabilitation of existing illness and disability.
Prerequisite: PSY 2012 with a minimum grade of C.

CLP 4420 Introduction to Neuropsychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of the science and practice of clinical neuropsychology. Emphasizes discussion of major neuropsychological disorders and the mechanisms underlying higher cognitive function.
Prerequisite: PSY 2012 with a minimum grade of C.

CLP 4421C Clinical and Behavioral Neuroanatomy and Lab 4 Credits
Grading Scheme: Letter Grade
Provides lecture and laboratory study of the human central nervous system and behaviors. Gain knowledge for engaging in basic clinical problem solving by laying a foundation of neurophysiological and neuroanatomical principles.
Prerequisite: APK 2105C & CLP 4420 both with a minimum grade of C.

PHC 4796C Artificial Intelligence in Psychological and Brain Sciences 3 Credits
Grading Scheme: Letter Grade
Builds upon the artificial intelligence (AI) foundations taught in PHC 3793 to train health science-focused students to examine how AI and Machine Learning (ML) methods are applied in psychology and related brain sciences, as well as to address the factors that contribute to appropriate use of AI. The course neither provides nor necessitates prior programming knowledge, advanced statistical, or machine learning training.
Prerequisite: (PHC 3739 or equivalent AI Foundations course with a grade of C) or [(HES_BHS major or ABS_UMN minor) and CLP 4420 with a minimum grade of C)].

Computer and Information Science & Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.

Curriculum

- /UGRD/colleges-schools/UGENG/CPE_BSCO03/
- Combination Degrees
- Computer and Information Science and Engineering Minor
- Computer and Information Science and Engineering Minor UF Online
- Computer Science UF Online
- Computer Science | CLAS
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science
- Industrialized Construction Engineering

Bachelor's degree programs are currently available through the College of Liberal Arts and Sciences and the Herbert Wertheim College of Engineering. A minor in computer and information science, master's degree programs and a PhD program also are available.

There are strict limitations on the use of CGS and survey courses in the programs offered by the department.

College of Engineering degree program in computer engineering: Refer to the Herbert Wertheim College of Engineering section of the catalog for degree requirements; this program is offered by the CISE department.

The Herbert Wertheim College of Engineering offers two degrees in computer engineering: the CEN degree (computer engineering: software option) is offered by the CISE department and the CEE degree (computer engineering: hardware option) is offered by the ECE department.
More Info (https://catalog.ufl.edu/ugrad/current/engineering/majors/computer-engineering.aspx)

The college also offers a computer science degree program through the CISE department.
More Info (https://catalog.ufl.edu/ugrad/current/engineering/majors/computer-science.aspx)

College of Liberal Arts and Sciences degree program in computer science: refer to the College of Liberal Arts and Sciences section of the catalog for degree requirements.

Courses

CAI 4104 Machine Learning Engineering 3 Credits
Grading Scheme: Letter Grade
Covers foundational machine learning concepts with an emphasis on applying these concepts to real-world data through programming exercises and assignments using the relevant tools, libraries, and frameworks such as Python, Scikit-Learn, Tensorflow, and more.
Prerequisite: COP 3530. Experience with Python is a plus but not required.

CAP 3020 Theory and Practice of Multimedia Production 3 Credits
Grading Scheme: Letter Grade
Combines the traditional media production pipeline and software engineering processes to synthesize an approach geared for the production of works incorporating both artistic and computational elements.
Prerequisite: CAP 3027.

CAP 3027 Introduction to Computational Media 3 Credits
Grading Scheme: Letter Grade
Examines the tools, technologies, and programming techniques used to make visually-oriented applications. Topics include the foundational elements of both 2D and 3D graphics, content creation tools, and the intersection of art and computing.
Prerequisite: COP 3504 or COP 3503.

CAP 3032 Interactive Modeling and Animation 1 3 Credits
Grading Scheme: Letter Grade
Introduces programming and data structures for interactive two-dimensional multimedia applications. Representing form and transforms in two dimensions, capturing user actions and driving application behavior interactively. Graphical interfaces, image processing, automata and basic artificial intelligence.
Prerequisite: MAC 1147 or equivalent.
Attributes: Artificial Intelligence

CAP 3034 Introduction to Computer-Aided Animation 3 Credits
Grading Scheme: Letter Grade
Introduces topics related to computer-aided animation. Rigging for forward and inverse kinematics. Skin weighting. Morph targets. Expression-driven animation, rigid-body and particle simulation.
Prerequisite: MAC 1147 or equivalent.

CAP 3220 Introduction to Computer-Aided Modeling 3 Credits
Grading Scheme: Letter Grade
Introduces topics related to computer-aided modeling. Polygonal mesh, NURBS and subdivision surface meshes. Materials and shading networks. Lighting, shadows and rendering.
Prerequisite: MAC 1147 or equivalent.

CAP 4053 Artificial Intelligence for Computer Games 3 Credits
Grading Scheme: Letter Grade
Examines the use of A.I. in computer games. Topics include general A.I. knowledge, path finding, movement, tactics and planning, strategy, state machines, learning, dialogue, and emotions.
Prerequisite: COP 3530.

CAP 4112 Generating Expressiveness in Intelligent Agents and Avatars 3 Credits
Grading Scheme: Letter Grade
Methods to create expressiveness in physical and virtual agents; anthropomorphism and interactivity in human-robot interaction; intent versus intelligence; affect, emotion, and personality; expressiveness in human-like agents versus nonhuman-like agents; uncanny valley effect.
Prerequisite: COP 3530.

CAP 4136 Malware Reverse Engineering 3 Credits
Grading Scheme: Letter Grade
Introduction to the theory and practice of software reverse engineering applied to the analysis of malicious software (malware). Students will learn techniques of static and dynamic analysis to help identify the full spectrum of the behavior of code that is presented without documentation or source code and to identify possible remediation and avoidance techniques. The course will use a large number of software tools employed by malware and computer forensic analysts.
Prerequisite: CDA 3101 or instructor permission.

CAP 4174 3D Audio for Interfaces 3 Credits
Grading Scheme: Letter Grade
Teaches 3D audio for interfaces, focusing on human-computer interaction, sound design, spatial rendering, HRTF use, and practical project-based application development, with an emphasis on research, critical thinking, and communication skills.
Prerequisite: COP 3503 or COP 3504 with a minimum grade.

CAP 4410 Computer Vision 3 Credits
Grading Scheme: Letter Grade
Introduction to computer vision and is intended for senior level undergraduate students who want to delve into this exciting and challenging sub-field of AI. Learn the basics of computer vision starting with how camera images are formed and how algorithms can take images in digital form and manipulate them to infer the content of the image, track objects in videos for surveillance applications, or perform morphometric analysis.
Prerequisite: (COT 4501 with minimum grade of B or MAD 4401 with a minimum grade of B) & COT 3100 with a minimum grade of B.

CAP 4613 Deep Learning for Computer Graphics 3 Credits
Grading Scheme: Letter Grade
This undergraduate course covers deep learning basics, related math and the fundamental theory and application of AI algorithms most popular in the field of computer graphics. Programming assignments will help students develop GPU programming skills while implementing concepts learned in lectures and readings using deep learning APIs on a GPU cluster. Convolutional neural networks (CNNs) for colorizing black and white movies is an example.
Prerequisite: COP 3530 or MAS 3114 or 4105.

CAP 4621 Artificial Intelligence and Heuristics 3 Credits
Grading Scheme: Letter Grade
Introduces artificial intelligence concepts. Heuristic search, clause form logic, knowledge representation, reasoning and inference, overview of computer vision, planning, natural language, Lisp and Prolog.
Prerequisite: COP 3530.

CAP 4641 Natural Language Processing 3 Credits
Grading Scheme: Letter Grade
Introduction to the essential concepts, principles, and techniques of Natural Language Processing (NLP). Practical application and theoretical concepts are examined. Topics include information extraction, language construction, grammars, disambiguation, as well as system modeling, classification, and evaluation.
Prerequisite: COP 3530.

CAP 4730 Computational Structures in Computer Graphics 3 Credits
Grading Scheme: Letter Grade
Studies the major topics in computer graphics: display and output technology, two and three dimensional manipulations; space curves and surfaces, hidden surface removal and shading models.
Prerequisite: COP 3530.

CAP 4770 Introduction to Data Science 3 Credits
Grading Scheme: Letter Grade
Introduces the basics of data science including programming for data analytics, file management, relational databases, classification, clustering, and regression; lays the foundation for big data applications ranging from social networks to medical and business informatics.
Prerequisite: COP 3530.

CAP 4773 Projects Data Science 3 Credits
Grading Scheme: Letter Grade
Prerequisite: CAP 4770 with a minimum grade of C.

CDA 3101 Introduction to Computer Organization 3 Credits
Grading Scheme: Letter Grade
Organization of computing systems. Logical basis of computer structure. Machine representation of instructions and data, flow of control, and basic machine instructions. Assembly language programming.
Prerequisite: (COP 3504 or COP 3503) and (MAC 2233 or MAC 2311 or MAC 3472) and COT 3100.

CDA 4102 Computer Architecture 3 Credits
Grading Scheme: Letter Grade
Introduces computer architecture and system organization including virtual memory supports cache, pipeline, vector processing, multiprocessor and RISC architecture.
Prerequisite: CDA 3101 and COP 3530.

CDA 4324C Cyber-physical System Security 3 Credits
Grading Scheme: Letter Grade
Covers foundational concepts of cyber-physical system security. In particular, hardware and software threats and mitigation strategies of integrating sensing and actuation, AI computation, infrastructure control, and networking. Students will analyze research papers, write technical essays, present security research problems, conduct hands-on testing, and learn the challenges of building secure systems.
Prerequisite: COP 3530.

CDA 4630 Embedded Systems 3 Credits
Grading Scheme: Letter Grade
Design of efficient and trustworthy embedded and cyber-physical systems consisting of hardware, software, firmware, sensors, and actuators. Covers fundamental issues related to modeling and specification, design space exploration, hardware-software partitioning, synthesis and compilation, real-time operating systems, and application-specific optimizations targeting area, power, performance, temperature, energy, and security.
Prerequisite: CDA 3101 with minimum grade of C.

CEN 3031 Introduction to Software Engineering 3 Credits
Grading Scheme: Letter Grade
Topics include software planning, specifications, coding, testing and maintenance. Gain experience in the team approach to large system development.
Prerequisite: COP 3530.

CEN 3913 Computer and Information Science and Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Preparatory skills are developed for CISE Design 2 for Computer Engineering students. Teams design, produce and report on a software prototype, meeting defined specifications and using a structured design methodology and project management.
Prerequisite: CEN 3031.

CEN 4072 Software Testing and Verification 3 Credits
Grading Scheme: Letter Grade
Concepts, principles and techniques of software testing and verification. Strengths and limitations of black-box and white-box testing methods; techniques for proving the correctness of programs.
Prerequisite: CEN 3031.

CEN 4721 Human-Computer Interaction 3 Credits
Grading Scheme: Letter Grade
Studies the major topics in the study, planning and design of the interaction between people and computers. Topics include interface design (principles, theories and guidelines), virtual environments, interactive devices and collaboration.
Prerequisite: COP 3530.

CEN 4722 User Experience Design 3 Credits
Grading Scheme: Letter Grade
Introduces methods and tools used in User Experience Design (UXD): the early stages of software design focused on meeting user needs. Key concepts include user research, contextual design, design thinking, ideation, iterative design, prototyping, and design documentation. Projects utilize software tools used in the industry.
Prerequisite: COP 3530.

CEN 4725 Natural User Interaction 3 Credits
Grading Scheme: Letter Grade
Introduces the design, development and evaluation of Natural User Interaction (NUI) technologies (e.g., non-keyboard and mouse technologies such as touchscreen interaction, gesture interaction, speech interaction, etc.). Discussion of the hardware-to-software NUI pipeline and key considerations when developing NUI software, including existing platforms, toolkits and APIs used to create NUI software.
Prerequisite: COP 3530 with minimum grade of C.

CEN 4730 Human-Centered Input Recognition Algorithms 3 Credits
Grading Scheme: Letter Grade
Human-centered methods for the design and evaluation of intelligent algorithms for recognizing user input in advanced modalities such as gesture, handwriting, speech, and more. Algorithms and modalities vary; implement and extend an existing algorithm, evaluating it on user input data collected from real people.
Prerequisite: COP 3530 with a minimum grade of C.

CEN 4907C Computer Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
First course in computer engineering design sequence; reinforces critical computer engineering skills through laboratory practice and launch of capstone project. Students will develop a design plan and design prototype. The project will meet defined specifications and will be completed using a structured design methodology and project management techniques.
Prerequisite: CEN 3031 and EEL 3744C with minimum grades of C.
Corequisite: COP 4600

CEN 4908C Computer Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Second course in computer engineering design sequence; students will complete a technical design, testing regimen, product, and technical report as part of a computer engineering capstone project. The project will meet defined specifications and will be completed using a structured design methodology and project management techniques.
Prerequisite: CEN 3907C with minimum grade of C and senior standing.

CEN 4914 Computer and Information Science and Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Involves completing a significant CEN-related project. Coordinate with the instructor and a project advisor, prepare a detailed technical report and deliver an oral presentation.
Prerequisite: CEN 3913.

CGS 2032 Math, Art and Computing 3 Credits
Grading Scheme: Letter Grade
Introduces interdisciplinary computer science topics. Logic, discrete structures, algorithms and automa. Exploration of topics relating mathematics and computing to art, music and nature.
Prerequisite: MAC 1147.

CGS 3063 Computers and Modern Society 3 Credits
Grading Scheme: Letter Grade
Impact of computers on society. Discussion includes specific cases from many areas, but does not include problem solution. Does not teach how to use the computer but instead gives an understanding of the implications of computers.
Prerequisite: COP 3502C with a minimum grade of C.
Attributes: Satisfies 6000 Words of Writing Requirement

CGS 3065 Legal and Social Issues in Computing 3 Credits
Grading Scheme: Letter Grade
Explores the history, the myth, the ethics, the law, and the risks of computer-based technology in modern society. Emphasizes critical analysis of hypotheticals and case studies. Published material is supplemented with online references.
Prerequisite: COP 3502C with a minimum grade of C.

CGS 4144 Introduction to Bioinformatic Algorithms 3 Credits
Grading Scheme: Letter Grade
Uses Compeau and Pevzner's active learning approach from their textbook, Bioinformatics Algorithms, to cover fundamental topics in genomics, machine learning, and biological data science, striking a unique balance between practical challenges in modern biology and fundamental algorithmic ideas.
Prerequisite: COT 3100 with minimum grade of C and COP 3503C with minimum grade of C or COP 3504C with minimum grade of C.

CGS 4853C Introduction to Web Development and Design 3 Credits
Grading Scheme: Letter Grade
Introduces HTML and CSS topics such as text configuration, color configuration, and page layout, with an enhanced focus on the topics of design, accessibility, and Web standards. The text relates both the necessary hard skills (such as HTML5, CSS, and JavaScript) and soft skills (design, e-commerce, and promotion strategies) considered fundamental to contemporary web development. Students will experience developing and designing a web application.
Prerequisite: COP 3502 and COP 3503.

CIS 4204 Penetration Testing: Ethical Hacking 3 Credits
Grading Scheme: Letter Grade
Introduces principles and techniques associated with the cybersecurity practice known as penetration testing or ethical hacking. Covers planning, reconnaissance, scanning, exploitation, post-exploitation, and result reporting. Discover how system vulnerabilities can be exploited and learn to avoid such problems.
Prerequisite: COP 3530.

CIS 4213 Enterprise Security 3 Credits
Grading Scheme: Letter Grade
Provides an introduction to the real-world aspects of defending an enterprise network. Students will gain hands-on experience performing system security tasks and handling incidents. The class begins with a basic introduction to enterprise cybersecurity, the attack sequence, and managing cybersecurity. Then lecture, homework and lab activities cover the center for internet security's twenty essential security controls.
Prerequisite: COP 3530.

CIS 4301 Information and Database Systems 1 3 Credits
Grading Scheme: Letter Grade
First part of a two-course sequence that studies the essential concepts, principles and techniques of modern database systems. Topics include modeling and querying of data using conceptual data models as well as the development of a database application.
Prerequisite: (COP 3504 or COP 3503) and COT 3100.

CIS 4360 Computer and Information Security 3 Credits
Grading Scheme: Letter Grade
Covers systematic threat and risk assessment; programmed threats and controls in hardware, software, and human procedures; security policies, models, and mechanisms; theoretical limitations and practical implementations; certification and accreditation standards; and case study reviews. Includes projects.
Prerequisite: CDA 3101.

CIS 4362 Introduction to Cryptology 3 Credits
Grading Scheme: Letter Grade
Introduces classical and modern cryptography and cryptanalysis, including symmetric and asymmetric (public key) ciphers. Covers cryptographic hash functions, block and stream ciphers, as well as differential and linear cryptanalysis. Reviews applications of cryptography, cryptographic standards and protocols, and analyzes case studies of failed implementations.
Prerequisite: COT 3100 or the equivalent.

CIS 4715 CS Teaching & Learning 0-1 Credits
Grading Scheme: Letter Grade
Covers basic pedagogy, especially as it relates to computer science and engineering, and covers three fundamental elements in education: learning environment, educational theory, and educational practice as approached to engineering-specific training.
Prerequisite: COP 3502 or COP 3504C.

CIS 4905 Individual Study in CISE 1-4 Credits
Grading Scheme: Letter Grade
Problems in different areas of computer science.
Prerequisite: COP 3502C with a minimum grade of C.

CIS 4912C Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
First part of a two-course sequence where teams of engineering and business students partner with industry sponsors to design and build authentic products and processes. Working closely with an industry liaison engineer and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills. Weekly workshop activities adapt lecture topics to individual projects. Learn firsthand how to develop products and processes that meet customer requirements on time and within budget.
Prerequisite: CDA 3101, COP 3530, COT 3100 and instructor permission.

CIS 4913C Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
Second part of a sequence where teams of engineering and business students partner with industry sponsors to design and build authentic products and processes.
Prerequisite: CIS 4912C.

CIS 4914 Senior Project 3 Credits
Grading Scheme: Letter Grade
Involves completing a significant CISE-related project. Coordinate with the instructor and a project advisor, prepare a detailed technical report and deliver an oral presentation.
Prerequisite: senior CISE standing or higher and approved project proposal.

CIS 4930 Special Topics in CISE 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for in-depth study of topics not offered elsewhere and of topics of current significance.
Prerequisite: COP 3503C or COP 3504C or instructor permission.

CIS 4940 Practical Work 1 Credit
Grading Scheme: S/U
One term practical software engineering work under industrial supervision as set forth in the Herbert Wertheim College of Engineering regulations.
Prerequisite: COP 3502C with a minimum grade of C.

CIS 4949 Co-Op Work in CISE 1 Credit
Grading Scheme: S/U
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations.
Prerequisite: COP 3502C with a minimum grade of C.

CIS 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: COP 3502C with a minimum grade of C.

CNT 4007 Computer Network Fundamentals 3 Credits
Grading Scheme: Letter Grade
Fundamental concepts, principles, and standards of computer networks. Introduces topics in top-down approach, starting with the application layer in the OSI system architecture with a stronger focus on application, transport, and network layers.
Prerequisite: COP 3530.
Corequisite: COP 4600.

CNT 4520 Introduction to Mobile Networking 3 Credits
Grading Scheme: Letter Grade
Fundamental concepts of emerging mobile networks architecture, systematic analysis of effects of mobility on network performance, synthetic and data-driven mobility modeling and simulation, behavior analysis in mobile networks, mobile service and application structure, development, implementation, and evaluation. Topics include architecture, geographic routing and query resolution in ad hoc networks, sensor networks, Internet of Things, and vehicular networks.
Prerequisite: COP 3502C or COP 3503C or above.

CNT 4731 Multimedia Networking Principles 3 Credits
Grading Scheme: Letter Grade
Design and analysis of multimedia networking. Major effort is devoted on multimedia elements, and their impact on higher-level protocols at the application- and transport-layer.
Prerequisite: CNT 4007 with minimum grade of C.

COP 2271 Computer Programming for Engineers 2-3 Credits
Grading Scheme: Letter Grade
Computer programming and the use of computers to solve engineering and mathematical problems. Emphasizes applying problem solving skills; directed toward technical careers in fields employing a reasonably high degree of mathematics. The programming language used depends on the demands of the departments in the college. Several languages may be taught each semester, no more than one per section. Those required to learn a specific language must enroll in the correct section.
Prerequisite: MAC 2312 with minimum grade of C.

COP 2800 Computer Programming Using JAVA 3 Credits
Grading Scheme: Letter Grade
In-depth treatment of computer programming using JAVA. Problems related to a variety of disciplines are solved. Introduces the basic concepts of software and hardware; develop a variety of stand-alone applications and applets. For non-CISE majors only.
Prerequisite: MAC 1147 or the equivalent.

COP 3013 Programming Language Survey 1-3 Credits
Grading Scheme: Letter Grade
Introduces a specific programming language which may vary according to section. Course may be repeated for different programming languages. Covers variables, basic control structures, procedures, arithmetic, and syntax for the language, as well as some language-specific features. No prior knowledge of programming is needed.
Prerequisite: MAC 1147; cannot be taken after COP 3502C

COP 3275 Computer Programming Using C 3 Credits
Grading Scheme: Letter Grade
Solve problems related to a variety of disciplines; introduces the basic concepts of software and hardware.
Prerequisite: MAC 1147 or the equivalent.

COP 3502C Programming Fundamentals 1 4 Credits
Grading Scheme: Letter Grade
First course of a two-semester introductory sequence for those planning further study in computer science, digital arts and sciences or computer engineering. Concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity.
Corequisite: MAC 2311.

COP 3503C Programming Fundamentals 2 4 Credits
Grading Scheme: Letter Grade
Second course of a two-semester introductory sequence for those planning further study in computer science, digital arts and sciences or computer engineering. Concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity.
Prerequisite: COP 3502C and MAC 2311 both with minimum grades of C.

COP 3504C Advanced Programming Fundamentals for CIS Majors 4 Credits
Grading Scheme: Letter Grade
Fast-paced introduction to computer science for those with prior programming experience. Explores major concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity.
Prerequisite: (MAC 2311 or MAC 3472) and programming experience.

COP 3530 Data Structures and Algorithm 3 Credits
Grading Scheme: Letter Grade
Algorithm development using pseudo languages, basic program structures, program design techniques, storage and manipulation of basic data structures like arrays, stacks, queues, sorting and searching and string processing. Linked linear lists. Trees and multilinked structures.
Prerequisite: (COP 3504 or COP 3503) and COT 3100 and (MAC 2234 or MAC 2312 or MAC 2512 or MAC 3473), all with a minimum grade of C.

COP 4020 Programming Language Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces programming language principles, including language constructs, design goals, run-time structures, implementation techniques and exposure to a wide variety of programming paradigms.
Prerequisite: COP 3530.

COP 4331 Object-oriented Programming 3 Credits
Grading Scheme: Letter Grade
Fundamental conceptual models for programming languages illustrated with specific programming languages and application problems. Specific topics include class and object models, inheritance among classes, objects and static and dynamic systems and implementations.
Prerequisite: COP 3530.

COP 4533 Algorithm Abstraction and Design 3 Credits
Grading Scheme: Letter Grade
Covers algorithmic concepts and their use rooted in practical application and computer science theory. Topics include algorithmic paradigms, limits of computing, and algorithm time complexity classes.
Prerequisite: COP 3530.

COP 4554 Programming Language Inquiry 1-3 Credits
Grading Scheme: Letter Grade
In-depth, thorough examination of specific programming languages, which may vary according to section. Course may be repeated for different languages. Topics include memory allocation and management, language-specific variables, and control mechanics. Knowledge and experience in programming is needed prior to taking this course. As such, the basic elements of programming will not be covered, but instead advanced programming constructs and topics in the language.
Prerequisite: COP 3503C.

COP 4600 Operating Systems 3 Credits
Grading Scheme: Letter Grade
Design and implementation of various components of a modern operating system, including I/O programming, interrupt handling, process and resource management, computer networks and distributed systems.
Prerequisite: CDA 3101 and COP 3530; knowledge of C or C++ recommended.

COP 4620 Translators and Translator Writing Systems 3 Credits
Grading Scheme: Letter Grade
Translation of languages, scanning and parsing techniques. Translator writing systems. The implementation of a compiler.
Prerequisite: COP 3530.

COP 4720 Information and Database Systems 2 3 Credits
Grading Scheme: Letter Grade
Part two of a two-course sequence. Provides a basic understanding of the internals of a modern database system. Topics include data storage, indexing, query processing and advanced concepts such as database tuning, alternate data models and emerging applications.
Prerequisite: CIS 4301 and COP 3530.

COT 3100 Applications of Discrete Structures 3 Credits
Grading Scheme: Letter Grade
Covers the mathematics of discrete events; i.e., events that involve distinct elements, finite structures of distinct elements or finite sampled versions of continuous phenomena (such as movement).
Prerequisite: (MAC 2311 or MAC 3472) and (COP 3502C or equivalent), all with a minimum grades of C;
Corequisite: COP 3504 or COP 3503.

COT 4501 Numerical Analysis: a Computational Approach 3 Credits
Grading Scheme: Letter Grade
Numerical integration, nonlinear equations, linear and nonlinear systems of equations, differential equations and interpolation.
Prerequisite: (COP 3504 or COP 3503) and MAS 3114.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Department permission.

IDC 4710 Virtual Reality for the Social Good 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary approach to solving pressing social problems by blending social science practices with innovative technology. Explore effective messaging perspectives, virtual social spaces, and virtual reality technologies to create a compelling story for a social good issue. Open to all juniors and seniors, regardless of major or prior experience.
Prerequisite: Junior or above.

Construction Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

School Information

The mission of the M. E. Rinker, Sr. School of Construction Management is to be the center of excellence for construction. The Rinker School will pursue this by promoting professional and ethical behavior in education and practice, advancing the industry by creating new knowledge through research and scholarly activities, educating individuals in principles, knowledge, and skills required to be successful in their professional careers, and providing service and transferring knowledge to the citizens of Florida, the construction industry, professional societies, the nation, and the world.

Curriculum

- Combination Degrees
- Construction Management
- Construction Management Certificate
- Emergency Management Certificate
- Emergency Medical Services Management Certificate
- Fire and Emergency Services UF Online
- Senior Fire Officer Certificate

Courses

BCN 1001 Introduction to Construction Management 1 Credit
Grading Scheme: S/U
Familiarizes pre-construction students with the nature and functioning of the construction industry and the building construction curriculum. Emphasizes the specific safety regulations pertaining to the construction industry.

BCN 1010 History of Construction 3 Credits
Grading Scheme: Letter Grade
Traces Western building technology from prehistoric humans to the present. Development of the art and science of building.
Attributes: General Education - Humanities, General Education - International

BCN 1210 Construction Materials 3 Credits
Grading Scheme: Letter Grade
Sources, properties and uses of construction materials.

BCN 1251C Construction Drawing 3 Credits
Grading Scheme: Letter Grade
Provides basic working knowledge of architectural graphics, practice in instrumental drawing and experience in free hand sketching.

BCN 1582 International Sustainable Development 3 Credits
Grading Scheme: Letter Grade
An overview of international trends in reducing the environmental impacts of land development and construction. Surveys best practices in a dozen countries around the world. (N and S)
Attributes: General Education - International, General Education - Social Science

BCN 2314 Fundamentals of Industrialized Construction 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental principles of Industrialized Construction, including design digitalization techniques and manufacturing automation technologies.

BCN 2405C Construction Mechanics 4 Credits
Grading Scheme: Letter Grade
Introduces the evaluation of structural behavior as it relates to buildings, the properties of structural materials and the structural behavior of load-resisting members. Primarily for building construction majors.
Prerequisite: PHY 2004 and PHY 2004L.

BCN 2598 Foundations, Principles and Applications of Sustainable Development 3 Credits
Grading Scheme: Letter Grade
Explores the relationship between society, the built environment, and the natural environment, and asks, “What does it mean to develop in a sustainable way?”
Prerequisite: Quest 1 with a minimum grade of C.
Attributes: Quest 2, General Education - Social Science, Satisfies 2000 Words of Writing Requirement

BCN 2750 Integrated Construction Planning, Scheduling, and Estimating 3 Credits
Grading Scheme: Letter Grade
Overview of the linkage between cost estimating, planning, and scheduling for the proper execution of a construction project. Topics include scope analysis, quantity take-off, determining means and methods, estimated total cost, and establishing activity and overall project durations. Learn the interdependent relationship between scope of work, project execution planning, cost and time estimation, and establishing project schedules.
Prerequisite: Sophomore status or higher and (College of Engineering or Design, Construction, and Planning students).

BCN 3027C Principles of Construction Management 3 Credits
Grading Scheme: Letter Grade
Examines the role of various players involved in the construction and the administration of a construction project. Importance of ethical conduct in all aspects of construction business and operations. Development of advanced writing and presentation skills for construction professionals.
Prerequisite: junior standing or higher or instructor permission.

BCN 3223C Soils and Concrete 3 Credits
Grading Scheme: Letter Grade
Studies the construction process to include soils, demolition, earth-moving equipment, foundations, concrete mix design and concrete placement techniques. Includes field visits and soils and concrete laboratories.
Prerequisite: BCN 1210 and BCN 2405C and BCN 3224C.

BCN 3224C Construction Techniques 3 Credits
Grading Scheme: Letter Grade
Studies the vertical construction process to include wooden platform frame construction, cast-in-place and pre-cast concrete construction and steel erection. Included are masonry construction, interior and exterior finishes, vertical transportation systems, roofing and other building components.
Prerequisite: BCN 1210 and BCN 1251C.

BCN 3240C Equipment and Methods for Heavy/Highway Construction 3 Credits
Grading Scheme: Letter Grade
Theory and practice of equipment utilization and construction methods. Analysis of costs through production rates. Optimizing crew and equipment. Labor and heavy equipment production. Earthwork (sitework) execution methods and inspection.
Prerequisite: Junior standing or higher.

BCN 3255C Graphic Communication in Construction 3 Credits
Grading Scheme: Letter Grade
Studies construction communication tools, including the use of computer-aided drafting (applications of 4-D modeling in construction), blueprint reading, free hand sketching, model building, piece-based simulations and the Internet.
Prerequisite: BCN 1251C.

BCN 3281C Construction Methods Laboratory 2 Credits
Grading Scheme: Letter Grade
Construction aspects of surveying with field and classroom exercises in the use of transit, level, chain, and related equipment.
Prerequisite: junior status or higher.

BCN 3431C Structures 3 Credits
Grading Scheme: Letter Grade
Examines the material properties, code requirements, analysis, and construction procedures for steel and reinforced concrete structures.
Prerequisite: junior status or higher.

BCN 3521C Electrical Systems 3 Credits
Grading Scheme: Letter Grade
Principles and practices of electrical systems, including code provisions and cost estimations.
Prerequisite: junior status or higher.

BCN 3611C Construction Estimating 1 3 Credits
Grading Scheme: Letter Grade
Classification of work, quantity survey techniques and basic estimating principles applied to simple construction projects.
Prerequisite: BCN 3027C and BCN 3224C and BCN 3255C.

BCN 3700 Construction Contracts 3 Credits
Grading Scheme: Letter Grade
Function of the construction industry, construction contracting practices and construction contracts and delivery methods.
Prerequisite: BCN 3027C.

BCN 3730 Construction, Safety, Health and the Environment 3 Credits
Grading Scheme: Letter Grade
Construction safety issues, concerns, requirements, and procedures. Analysis includes costs, planning, administration, inspection, prevention, loss control, and drug-free workplace. Understanding of the major health issues encountered on construction sites, as well as appreciation for the need to be environmentally responsible.
Prerequisite: junior status or higher.

BCN 3734 Construction Managements Role in Community Risk Reduction 3 Credits
Grading Scheme: Letter Grade
Provides a general overview of the role of construction managers in the community risk reduction as it pertains to fire, natural, and manmade disasters.
Prerequisite: Junior or Senior Standing.

BCN 4105 Sustainable Housing: Putting the 3 E's into Residential Practice 3 Credits
Grading Scheme: Letter Grade
Sustainability is more than just building green; it's the balance and intersection of "the 3 e's:" environment, economics, and social equity. Examine approaches to advancing sustainable housing in ways that postindustrial residential planning and building practices have thus far neglected to address.
Prerequisite: junior standing or higher.

BCN 4237 Roofing Systems 3 Credits
Grading Scheme: Letter Grade
Studies and analyzes building various roof systems, including design, materials, installation, inspection, and maintenance. Includes damp-proofing and waterproofing techniques.
Prerequisite: junior status or higher.

BCN 4252 Introduction to Building Information Modeling 3 Credits
Grading Scheme: Letter Grade
Learn current Building Information Modeling (BIM) software to identify design errors and improve the construction process.
Prerequisite: BCN 3255C.

BCN 4300 Reality Computing and the Built Environment 3 Credits
Grading Scheme: Letter Grade
Fundamental principles and practices of using building information models for model management, including quantification, scheduling, and coordination. Use of advanced information systems in the construction context, such as parametric modeling, creating infrastructure models, reality capture, and digital twins.
Prerequisite: Junior standing or higher.

BCN 4423C Temporary Structures 4 Credits
Grading Scheme: Letter Grade
Studies the temporary structures that contractors have to build in order to construct the primary structure. This includes formwork, scaffolding, and equipment for hoisting materials, personnel, and erecting structures.
Prerequisite: BCN 3431C and senior standing or higher.

BCN 4510C Mechanical Systems 4 Credits
Grading Scheme: Letter Grade
Principles and practices of building piping systems, hydraulics and pumps, comfort conditioning systems for building, heating and refrigeration equipment, building code considerations, plan reading and cost estimation.
Prerequisite: Senior standing or higher.

BCN 4594 Building Energy Modeling 3 Credits
Grading Scheme: Letter Grade
As energy becomes a more precious commodity, it is crucial to design and operate high performance buildings. A solid foundation of energy engineering and sustainability principles is essential to achieving these higher performance standards.
Prerequisite: junior standing or higher.
Attributes: Artificial Intelligence

BCN 4612C Construction Estimating 2 3 Credits
Grading Scheme: Letter Grade
Analysis and determination of cost of construction operations including applicable indirect and overhead costs and the preparation of bid proposals for commercial construction projects. A cost-control system is introduced and implemented with sample field-generated problems.
Prerequisite: BCN 3611C and senior standing.

BCN 4709C Construction Project Management 3 Credits
Grading Scheme: Letter Grade
Understanding the various forms of project delivery methods (Design-Bid-Build, Design-Build, and Construction Management) and the underlying principles for choosing the appropriate system. Recognizing the complexity of the preconstruction process including conceptual estimating and scheduling, life cycle costing, constructability reviews, value engineering, risk management and special contract requirements. Understanding management and administration of a construction project.
Prerequisite: BCN 4612C and senior standing.

BCN 4712C Leadership and Management in Construction 3 Credits
Grading Scheme: Letter Grade
Leadership and management principles for construction professionals with a major emphasis on the diverse workforce, ethical issues in construction and the development of negotiation and conflict-resolution skills.
Prerequisite: Senior standing or higher.

BCN 4720 Construction Planning and Control 3 Credits
Grading Scheme: Letter Grade
Computer application of cost and manpower estimates as construction scheduling and management techniques.
Prerequisite: BCN 3611C and senior standing.

BCN 4723 Design-Build Delivery Methods 3 Credits
Grading Scheme: Letter Grade
Theory and practice of design-build contract delivery method. Includes an explanation of the history of design-build, the advantages and disadvantages of design-build as a delivery method and a thorough analysis of the major components of design and construction.
Prerequisite: junior standing or higher.

BCN 4753 Construction Finance 3 Credits
Grading Scheme: Letter Grade
Basic principles and applications of construction finance with an emphasis on the acquisition and management of construction loans, mortgages and construction accounting.
Prerequisite: Senior standing or higher.

BCN 4787C Construction Capstone Project 3 Credits
Grading Scheme: Letter Grade
A construction project is simulated with each student being responsible for designing, developing, estimating, scheduling, contracting and administering the work for the completion of a small commercial, residential or light industrial project.
Prerequisite: BCN 4612C and BCN 4720 and BCN 4753 and senior standing.

BCN 4880 Management of Heavy/Highway Construction 3 Credits
Grading Scheme: Letter Grade
Theory and practice of construction planning, methods and project management. Project control from conception through the construction phase: procurement of design professional, prime contractor, subcontractor, construction manager, project/program manager. Also includes definition of and delineation between each entity, construction contract types, delivery systems, heavy/highway plans reading, quality assurance/quality control, nuances of planning and bidding a unit price project, and project administration.
Prerequisite: Junior standing or higher.

BCN 4905 Special Studies in Construction 1-4 Credits
Grading Scheme: Letter Grade
Special areas of study in construction adjusted to the needs of individual students. Enrollment upon recommendation of director only.

BCN 4949 Construction Management Internship 3 Credits
Grading Scheme: S/U
Minimum two-term employment in construction management. Requires advance approval, internship work reports, and an oral presentation.
Prerequisite: junior status or higher.

BCN 4956 International Studies in Construction 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation. Focuses on the construction industry in the host country. Content varies and may address various construction issues including local construction techniques, construction materials, and the influence on construction of the local culture, traditions, architecture, history, and political climate.
Prerequisite: junior status or higher or instructor permission.

EMS 1055 Emergency Medical Responder 3 Credits
Grading Scheme: Letter Grade
Introduces a basic understanding of pre-hospital emergency medicine; explore issues in patient assessment, distinguishing medical scenarios from trauma scenarios, taking appropriate actions and precautionary measures to ensure patient safety, and treating a patient's injuries within the scope of their certification.

EMS 1055L Lab for Emergency Medical Responder 1 Credit
Grading Scheme: Letter Grade
Practical applications of pre-hospital emergency medicine, including medical and trauma skills, basic anatomy, and physiology as related to EMR requirements. Practice the skills learned in the Emergency Medical Responder course. Offered only on UF main campus.

EMS 4315 Analytical Approaches to EMS 3 Credits
Grading Scheme: Letter Grade
Focuses on the practice and principles of emergency medical services systems management, including effective daily operations within an EMS organization. Topics include purpose of analysis; analysis in parallel professions; problem identification; foundational analysis; data collection; financial analysis; cost-benefit analysis; policy and impact analysis; and project development.
Prerequisite: junior or senior standing.

FES 2941 Emergency Management Internship 3 Credits
Grading Scheme: S/U
Gain experience in an emergency management situation to identify and apply best practices in the development of preparation, planning, responding, recovering, and mitigating disasters; participate in supervised disaster management work activities that provide experiential learning in emergency management.

FES 3004 Political and Legal Foundations of Fire Protection 3 Credits
Grading Scheme: Letter Grade
Examines the legal aspects of fire service and the political and social impacts of legal issues; reviews the American legal system and covers legal and political issues involving employment and personnel matters, administration and operations, and planning and code enforcement with regard to the fire service.
Prerequisite: junior standing or higher.

FES 3015 Principles of Fire and Emergency Services Management 3 Credits
Grading Scheme: Letter Grade
Fundamentals of management underlying the solution of problems of organization and operation of fire and emergency services agencies. (WR)
Prerequisite: junior standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

FES 3153 FES Communication and Informational Technology 3 Credits
Grading Scheme: Letter Grade
Communications systems used in fire and emergency services such as high frequency voice/data, Internets and Intranets, satellite communications, GPS and GIS. An introduction, examination, equipment assessment, implementation program and maintenance management module are provided for each system covered.
Prerequisite: junior standing or higher.

FES 3223 Foundations of EMS 3 Credits
Grading Scheme: Letter Grade
Covers the design and operation of EMS systems, service delivery, and echelons of care. The history of EMS, interface of public and private organizations and review of the various personnel who comprise these systems, will be examined in relation to their impact on the health care delivery system.
Prerequisite: junior standing or higher.

FES 3227 Ambulance Operations 3 Credits
Grading Scheme: Letter Grade
Overview of the application of management principles to the provision of medical transport services. Includes an analysis of the economic, geographic, temporal, and clinical characteristics of ambulance demand, the key processes for providing transport services, and an evaluation of industry best practices.
Prerequisite: junior standing or higher.

FES 3233 EMS Safety and Risk Management 3 Credits
Grading Scheme: Letter Grade
Introduces the risk management principles of an EMS agency. Emphasizes safety from the perspective of the field provider.
Prerequisite: junior standing or higher.

FES 3263 Public Safety Educator 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to the education system as it relates to EMS education. Explores issues in curriculum development, teaching, program direction, and development.
Prerequisite: junior or senior standing.

FES 3284 Management of Emergency Medical Services 3 Credits
Grading Scheme: Letter Grade
Personnel and resource management issues in providing emergency medical services function. Quality assurance, utilization review techniques, and practices and techniques for delivery of services and distribution of resources are included.
Prerequisite: junior standing.

FES 3285 Advanced Leadership Issues in Emergency Medical Services 3 Credits
Grading Scheme: Letter Grade
Organizational development issues in providing emergency medical services function in the fire-based, hospital-based and third-service environments. Establishing and directing emergency medical services' work teams is also covered.
Prerequisite: junior standing.

FES 3533 Community Risk Reduction for Emergency Services 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.
Prerequisite: junior or senior standing.

FES 3720 Strategic Planning for FES 3 Credits
Grading Scheme: Letter Grade
Provides the conceptual framework for the development of a strategic plan for emergency management, fire protection, and emergency medical service. Also provides guidance through the process of the needs, resources, and capabilities of the organization and how to establish a plan to achieve improved performance.
Prerequisite: junior standing.

FES 3753 Fire and Emergency Services Financial Management 3 Credits
Grading Scheme: Letter Grade
Planning, developing, presenting, funding and implementing a budget for a fire and emergency services agency. Additional topics include special taxing districts, bond issues and fund-raising campaigns.
Prerequisite: junior standing.

FES 3780 Analytical Approaches to Fire Protection 3 Credits
Grading Scheme: Letter Grade
Examines the tools and techniques of rational decision making in fire and emergency services agencies, including data collection, statistics, probability, decision analysis, utility modeling, resource allocation, and cost benefit analysis.
Prerequisite: junior or senior standing.

FES 3782 Applications of Fire Research 3 Credits
Grading Scheme: Letter Grade
Examines methodology for analyzing fire-related research; provides a framework for independent research in fire dynamics, fire test standards, fire safety, fire modeling, structural fire safety, life-safety, firefighter safety, automatic detection and suppression, risk analysis and loss control, applied research, and fire-related research trends.
Prerequisite: junior or senior standing.

FES 3803 Multi-Agency Incident Command 3 Credits
Grading Scheme: Letter Grade
Managing complex incidents that may require response from fire-rescue, emergency medical services, law enforcement and/or other public safety sectors. Use of the incident management system is emphasized.
Prerequisite: junior standing.

FES 3815 Command and Control at Catastrophic Fire-Rescue Incidents 3 Credits
Grading Scheme: Letter Grade
Incident command at multiple-alarm incidents, emphasizing rapid fireground decision-making, safety, personnel accountability and communications. Settings for scenarios include multi-family occupancies, hotels, high-rises, healthcare facilities and large retail centers.
Prerequisite: junior standing.

FES 3822 Disaster Policy in Emergency Management 3 Credits
Grading Scheme: Letter Grade
Describes the functional demands that emergency managers should be aware of in crafting effective emergency management plans, policies, and programs. Addresses how public policy choices impact emergency planning and the consequences of a disaster event. Emphasizes the emergency planning process.
Prerequisite: junior or senior standing.

FES 4003 Fire and Emergency Services Administration 3 Credits
Grading Scheme: Letter Grade
Demonstrates the importance of persuasion and influence, budgeting, anticipation of challenges and change, and management tools for analyzing and solving problems; explores how the leadership of a fire and emergency services department develops internal and external cooperation to achieve the department's mission.
Prerequisite: junior or senior standing.

FES 4014 Foundations of Emergency Management 3 Credits
Grading Scheme: Letter Grade
Examines the history and the principles establishing Emergency Management in the United States. Describes the "Four Phases of Emergency Management," relates processes to codes and laws governing Emergency Management, and examines Emergency Management and the terrorist threat.
Prerequisite: junior or senior standing.

FES 4023 Fire and Emergency Services Ethical Practices and Leadership 3 Credits
Grading Scheme: Letter Grade
The role of agency leadership and its impact on the continuing professionalization of the fire and emergency services. Examines traditional and evolving definitions, practices and skills in leadership behavior, including discussions of power, influence, ethics and organizational behavior.
Prerequisite: senior standing.

FES 4034 Regulatory Issues in Fire and Emergency Services 3 Credits
Grading Scheme: Letter Grade
Introduces safety, health and environmental regulations on the state and federal levels that impact the delivery of fire and emergency services. OSHA, EPA and NFPA regulatory requirements are introduced along with methods and techniques to implement compliance programs.
Prerequisite: FES 4003 and senior standing.

FES 4045 Fire and Emergency Services Human Resource Management 3 Credits
Grading Scheme: Letter Grade
Major human resource management functional areas for fire and emergency services agencies. Topics include organizational employment planning, employment regulation, job analysis, performance assessment, recruitment and regulation, job analysis, performance assessment, recruitment and selection, training and development, employee/labor relations and compensation.
Prerequisite: FES 3015 and senior standing.

FES 4055 Fire and Emergency Services Public Relations 3 Credits
Grading Scheme: Letter Grade
Implementation of principles and methods in advocating factual claims and policy proposals: prepositional analysis, evidence as demonstration, effective reasoning processes and ethics in controversy. Also focuses on public speaking and presentations, especially in the areas of technology, defense of budgets and political leadership.
Prerequisite: senior standing.

FES 4224 Management of Mass Casualty Incidents 3 Credits
Grading Scheme: Letter Grade
Covers systematic approaches to triage, treatment and transport in response to large-scale emergency medical services incidents. Resource planning and coordination with hospital systems is also emphasized.
Prerequisite: senior standing.

FES 4226 EMS Special Operations 3 Credits
Grading Scheme: Letter Grade
Discusses the various special roles in which EMS personnel may serve, such as hazardous materials, water rescue, and technical rescue.
Prerequisite: junior or senior standing.

FES 4234 EMS Community Risk Reduction 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.
Prerequisite: junior or senior standing.

FES 4244 Legal, Political, and Regulatory in EMS 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to the legal aspects of Emergency Medical Services. Explores issues in malpractice, consent and refusal of treatment, OSHA, employment issues, and risk management. EMS students gain insights into the legal liabilities in Emergency Medical Services.
Prerequisite: junior or senior standing.

FES 4274 Quality Management and Research in Emergency Services 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to benefits of quality improvement, the history of quality in EMS, measuring quality, and the uses of quality in EMS.
Prerequisite: junior or senior standing.

FES 4585 Management of Fire Prevention Programs 3 Credits
Grading Scheme: Letter Grade
Planning, promoting and executing fire prevention functions, including an emphasis on legal responsibilities, needs assessments, negotiation and planning activities.
Prerequisite: senior standing.

FES 4685 Fire Investigation and Analysis 3 Credits
Grading Scheme: Letter Grade
Examines the technical, investigative, legal, and social aspects of arson, including principles of incendiary fire analysis and detection, environmental and psychological factors of arson, legal considerations, intervention, and mitigation strategies.
Prerequisite: senior standing.

FES 4804 Disaster Recovery and Mitigation 3 Credits
Grading Scheme: Letter Grade
Provides the opportunity to understand real world disaster response efforts through academic study and interactive applied activities. Topics include the Incident Command System (ICS), Emergency Operations Center (EOC) management, Resource Management (RM), and Command-Communications-Coordination (C3).
Prerequisite: junior or senior standing.

FES 4820 Critical Incident Management for Emergency Managers 3 Credits
Grading Scheme: Letter Grade
Examines disaster planning and emergency management. Focuses on the four phases of planning, mitigation, response, and preparedness. Includes FEMA and federal government NIMS ICS-700 and ICS-800 certifications.
Prerequisite: junior or senior standing.

FES 4825 Disaster Planning and Control 3 Credits
Grading Scheme: Letter Grade
Examines concepts and principles of community risk assessment, planning and response to fires and natural and human-caused disasters, including National Incident Management System--Incident Command Systems (NIMS ICS), mutual aid and automatic response, training and preparedness, communications, civil disturbances, terrorist threats/incidents, hazardous materials planning, mass casualty incidents, earthquake preparedness, and disaster mitigation and recovery.
Prerequisite: Senior standing.

FES 4835 Natural Disaster Phenomena in Florida 3 Credits
Grading Scheme: Letter Grade
Natural disasters prevalent in Florida: past, present, and future, including hurricanes, flooding, freezes, and agricultural emergencies. Also addresses planning, operations, mitigation, recovery, and evaluation concerns.
Prerequisite: Junior standing or higher.

FES 4884 Introduction to Terrorism in Emergency Management 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental concepts, theories, principles, and practice of terrorism and terrorist events.
Prerequisite: junior or senior standing.

FES 4905 Special Studies in Fire and Emergency Services 1-3 Credits
Grading Scheme: Letter Grade
Special areas of study in fire and emergency services adjusted to the needs of individual students.
Prerequisite: instructor permission.

FES 4935 Current Issues in Fire and Emergency Services 3 Credits
Grading Scheme: Letter Grade
Information and direction for fire service administrators on current legislative, legal, labor and/or technology concerns facing fire and emergency services agencies.
Prerequisite: senior standing.

FFP 4507 Management of Fire-Related Human Behavior 3 Credits
Grading Scheme: Letter Grade
Focuses on human behavior in emergencies; examines research on human behavior, systems models, life-safety education, and building design, exploring a best-practice building life-safety system in terms of psychology and sociology joined with engineering and education to produce best outcomes of human survivability in emergencies.
Prerequisite: Junior or Senior standing.

Criminology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department's faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

Courses

CCJ 3024 Advanced Principles of Criminal Justice 3 Credits
Grading Scheme: Letter Grade
Advanced overview of criminal law, criminal procedure, and criminological theory. Emphasizes the components of the criminal justice system: the police, the prosecutorial and defense functions, the judiciary, and the field of corrections.
Prerequisite: Sophomore standing or higher.

CCJ 3701 Research Methods in Criminology 4 Credits
Grading Scheme: Letter Grade
Advanced research design and data analysis. Study of experimental and non-experimental research designs; probability and nonprobability sampling techniques; construction of scales; and indexes and methods of bivariate and multivariate data analysis. Previous completion of an introductory course in statistics is recommended but not required.

CCJ 4014 Criminological Theory 3 Credits
Grading Scheme: Letter Grade
Advanced study and critical appraisal of various theories of crime causation, including an examination of biological, psychological, economic and sociological perspectives on the etiology of crime.
Prerequisite: CCJ 3024 and criminology major of junior standing or higher.

CCJ 4032 Media & Crime 3 Credits
Grading Scheme: Letter Grade
Analyzes the relationship between media and crime justice including media's role in constructing images about criminals, police, victims, inmates, and courts. Discusses media-based perceptions of reality and justice policy and practice influences. Appropriate for students in criminology, journalism, public relations, and pre-law.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 4661 Terrorism 3 Credits
Grading Scheme: Letter Grade
Presents international terrorism as legitimate threat to society, with changing contexts, laws, and tactics. Explores oppressive movements which ignite violent acts. Introduces counter-terrorism best practices in criminal justice and analyzes violent terror attacks criminologically. Promotes emergency management, criminal justice, and intelligence work careers.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 4713 Crime Prevention 3 Credits
Grading Scheme: Letter Grade
Examines programs, practices and policies that prevent crime. Reviews how crime prevention strategies are developed, tested in research studies, and used in communities. Both effective and ineffective strategies are discussed.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Qualified students and the instructor will develop a course of study or investigation designed to extend available coursework. A formal written report is required. Course can be repeated, but no more than three credits earned in CCJ 4905 may be applied to the major or to minimum degree requirements established by the university.
Prerequisite: CCJ 3024, 3LS or 4LS major, and instructor permission.

CCJ 4911 Undergraduate Research in Criminology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Criminology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Criminology.

CCJ 4934 Contemporary Issues in Criminal Justice 3 Credits
Grading Scheme: Letter Grade
A variable topic seminar that examines current issues, techniques and problems in criminal justice.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 4940 Internship in Criminology 3 Credits
Grading Scheme: S/U
Supervised experience in a criminology- or criminal justice-related organization or agency. Emphasizes the application of academic knowledge to real-world situations while developing career-relevant skills. Assignments complement internship experiences by providing guidance in setting individualized goals, identifying areas for growth, and reflecting on vocational pathways.
Prerequisite: CCJ 3024, 3LS or 4LS major, and instructor permission.

CCJ 4970 Senior Thesis 3 Credits
Grading Scheme: Letter Grade
Qualified students submit a formal research proposal, carry out individual research under the supervision of a faculty member and prepare a formal written report of the research to a faculty committee. Course can be repeated, but no more than six credits earned in CCJ 4905 may be applied to the major or to minimum degree requirements established by the university.
Prerequisite: CCJ 3024 and director permission.

CJC 4010 Introduction to Corrections 3 Credits
Grading Scheme: Letter Grade
Introduces the field of penology and corrections. Consideration is given to conflicting philosophies of punishment; criminological theory as it applies to the field of corrections; the selectivity of the process through which offenders move before their involvement in correctional programs; alternative correctional placements; and empirical assessments of the short-term and long-term consequences of involvement in correctional programs.
Corequisite: CCJ 3024 and 3LS or 4LS major.

CJE 3011 Careers in Criminal Justice 3 Credits
Grading Scheme: Letter Grade
Advanced overview of professions available within the criminal justice system. Emphasis on the development of job seeking skills and strategies; local, state, federal and global employment opportunities; law and graduate school processes; building cultural competence and global perspectives.
Prerequisite: CCJ 3024 with a minimum grade of C.

CJE 3114 Introduction to Law Enforcement 3 Credits
Grading Scheme: Letter Grade
The role of the police in the criminal justice system of a democratic society. Topics include the organization of police work, discretion and the role of law enforcement in a socio-legal context.
Corequisite: CCJ 3024 and 3LS or 4LS major.

CJJ 4010 Juvenile Justice 3 Credits
Grading Scheme: Letter Grade
Examines the development, change and operation of the American juvenile justice system. Emphasizes the nature of juvenile law and the methods of dealing with youthful offenders.
Prerequisite: CCJ 3024 and 2LS major or higher.

CJL 2000 Law and the Legal Process 3 Credits
Grading Scheme: Letter Grade
This survey course promotes an understanding of law as it relates to an individuals everyday encounters with the legal system. Actual legal cases may be studied to analyze how disputes are resolved by application of legal principles to factual situations, whether justice was served by the decision, and potential implications of the decision on future cases.
Attributes: General Education - Social Science

CJL 2105 How Does US Law Affect Wildlife? 3 Credits
Grading Scheme: Letter Grade
Course on US-based wildlife and environmental law. Pressing legal issues concerning fish and wildlife conservation law and policies. Crosses biological, ecological, criminological, historical, and legal issues.
Attributes: Quest 2, General Education - Social Science

CJL 3038 Law and Society 3 Credits
Grading Scheme: Letter Grade
Introduces the scholarly study of law from a multidisciplinary, liberal arts perspective. Examines legal ideas, legal institutions and the legal process with an emphasis on the study of criminal behavior and the American criminal justice process.
Prerequisite: Sophomore standing or higher.

CJL 4037 Psychology and Law 3 Credits
Grading Scheme: Letter Grade
Application of behavioral science research and practice to the legal system. Topics include psychologists and the legal system; lawyers' socialization, training and ethics; legality, morality and justice; forensic assessment; the insanity defense; competence in the legal system; eyewitness identification; jury selection; theories of crime; and punishment and sentencing.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CJL 4050 Juvenile Law 3 Credits
Grading Scheme: Letter Grade
Examines the juvenile justice system, including delinquency, dependency and laws that apply especially to juveniles. Studies operation of the Florida juvenile code and the relationship between children and society.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CJL 4110 Criminal Law 3 Credits
Grading Scheme: Letter Grade
Studies substantive criminal law, including historical development, the tension between social and legal definitions of crime, the basic dimensions of criminality, the specific elements of major crimes and the nature of criminal sanctions.

CJL 4410 Criminal Procedure 3 Credits
Grading Scheme: Letter Grade
Studies constitutional rights of the accused in criminal proceedings. Focuses on analysis of case materials involving the law of arrest, search and seizure, the use of confessions, fair trial and the prohibition of cruel and unusual punishments.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

IDH 2931 Honors Seminar 3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide Honors Program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

Czech | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an increasingly internationalized world.

Courses

CZE 1130 Introduction to Czech Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
CZE 1130 and its sequel, CZE 1131, offer a comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.

CZE 1131 Introduction to Czech Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Continuation of series. A comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.
Prerequisite: CZE 1130 with minimum grade of C, or S, or the equivalent.

CZE 2200 Intermediate Czech 1 3 Credits
Grading Scheme: Letter Grade
Builds reading and writing skills while continuing to develop conversational ability and listening comprehension. Using a communicative approach, provides an overview of Czech grammar.
Prerequisite: CZE 1131 with minimum grade of C, or S, or the equivalent.

CZE 2201 Intermediate Czech 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study. Goal is to further develop speaking, listening, reading and writing skills.
Prerequisite: CZE 2200 with minimum grade of C, or S, or the equivalent.

CZT 3564 Modern Czech Culture and Society 3 Credits
Grading Scheme: Letter Grade
Overview of Czech literature, film, music, pop culture, and visual arts as shaped by the events from 1918 to the present.
Prerequisite: Minimum 15 credits earned in enrollment, test, or transfer credit.
Attributes: General Education - International

Digital Worlds Institute

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Digital Worlds Institute is on the cutting edge of digital arts and sciences — both in research initiatives and innovative approach to education. The institute is a recognized leader in combining arts, communications, engineering and science, with a focus on advanced media systems.

Courses

DIG 1627 AI & Art/Science/Fiction 3 Credits
Grading Scheme: Letter Grade
Artificial intelligence: What is it? What is it used for? What is at stake? How can investigating AI from the perspectives of art, science, and fiction help to uncover the history, present, future, and implications of AI? Each week we will explore AI core concepts from three perspectives: art, science, and fiction. By the end of this course, you will be able to separate the facts from the hype and learn how to leverage fiction to prototype the future. This class is open to any student regardless of technical or creative background. It has an interdisciplinary approach to the history and practice of AI, through an integrated humanities perspective. We look at prose, poetry, fine art, film, music, society, law, policy, and creative coding arts from the Western canon and beyond to understand the impact and innovation in the diverse fields of artificial intelligence. We will go over key concepts in AI and creative applications of machine learning technologies.
Attributes: Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

DIG 1814 Life Well-Played 3 Credits
Grading Scheme: Letter Grade
Students will explore the ethical, aesthetic, and political dimensions of life through the lens of play and games. It examines what it means to live well, using insights from philosophy, sociology, art history, and media studies, including discussions on video games.
Attributes: Quest 1, Satisfies 4000 Words of Writing Requirement

DIG 2005 Introduction to Digital Technologies 3 Credits
Grading Scheme: Letter Grade
Comprehensive introduction to fundamental digital technologies and computing concepts; covers history of computing, binary arithmetic, Boolean logic, file formats, computer architecture, databases, networking, security/privacy, and ethics.

DIG 2021 Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary overview of the technological and cultural developments that continue to shape the modern world. Student research covers topics including telecommunications, digital and analog technologies, video games, computer-generated entertainment and the rise of social media. (WR)
Attributes: Satisfies 4000 Words of Writing Requirement

DIG 2121 Principles of Digital Visualization 3 Credits
Grading Scheme: Letter Grade
Develops appreciation and basic fluency in the application of visual and design literacy into emergent forms of digital media. Historical and theoretical perspectives inform hands-on learning across topics including pre-visualization and storyboarding in static and time-based media, and the critical analysis of contemporary and iconic visual storytelling.

DIG 2430 Digital Storyboarding 3 Credits
Grading Scheme: Letter Grade
Storyboards, essential to production pipelines in the digital media field, help visual storytellers plan out and organize the sequence of events in a story. Explore various methodologies and fundamental techniques for effectively translating a written script or screenplay to the digital screen via the storyboarding process.

DIG 2632 Introduction to Game Design & Development 3 Credits
Grading Scheme: Letter Grade
Introduces designing video games with simple drag-and-drop programming and basic asset creation. Covers the essential principles of design and development needed to create effective arcade-style games. Provides a solid foundation in the technical skills needed to create multi-platform games.

DIG 2930 Special Topics: Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
In-depth examination of the technological and cultural underpinnings that shape current electronic media including video games, the internet, computer-animated movies, and virtual reality.

DIG 2931C Special Topics in Digital Media 1-3 Credits
Grading Scheme: Letter Grade
Special topics course to address contemporary digital arts and sciences issues. This flexible pedagogic mechanism provides DAS a dimension of vitality that compliments theory-based offerings with an up-to-the-minute examination of emergent cultural and technological events and developments.
Prerequisite: instructor permission.

DIG 3097 Entrepreneurship in New Media 3 Credits
Grading Scheme: Letter Grade
Using an interdisciplinary approach, acquire fluency in techniques of idea generation, innovation, internet startups, video games, mobile applications, promotion and branding, company boot strapping, and business plan creation. Focuses on developing creative and business skills applicable to new media startups.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3124 Principles of Interaction & Usability 3 Credits
Grading Scheme: Letter Grade
Introduces the principles of interaction and usability for digital interfaces and systems. Focuses on identifying end users' needs and providing tailored solutions through interaction design, cognitive and emotional aspects of digital interfaces, visual aesthetics, data gathering, prototyping, and evaluation.
Prerequisite: Digital Arts and Sciences major.

DIG 3305C 3D Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Introduces the foundations of creating 3D digital environments and animations; implement industry-standard animation principles and practices, including reference-centric animation and polygonal modeling.
Prerequisite: DAR major and DIG 3313C with minimum grade of C..

DIG 3313C 2D Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Introduces foundational knowledge of animation in a 2D space; learn how to design and implement character, abstract, and shape animation.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3329 3D Modeling and Texturing 3 Credits
Grading Scheme: Letter Grade
This course covers industry-standard polygon and curve-based modeling tools for creating efficient 3D models and stylistic textures. Additionally, students will master key concepts and become fluent in terminology essential to 3D modeling.
Prerequisite: Digital Arts and Sciences major and DIG 3305C with minimum grade of C.

DIG 3433 Digital Storytelling 3 Credits
Grading Scheme: Letter Grade
Develops a framework for integrating participation and storytelling as the foundation of interactivity. Explores how story is incorporated into contemporary interactive platforms such as games and other digital media, including virtual worlds, video blogs and social networks.
Prerequisite: Digital Arts and Sciences BA major with junior standing or higher.

DIG 3521 Project Methodologies 3 Credits
Grading Scheme: Letter Grade
Introduces skills for successfully planning and managing digital projects. Focuses on the production of digital games, animation, and digital audio/video to learn about management life cycle, project parameters, matrix management challenges, effective project management tools and techniques, interpersonal skills, and the role of a project manager.
Prerequisite: Digital Arts and Sciences major.

DIG 3525C DAS Design and Production Studio 1 3 Credits
Grading Scheme: Letter Grade
Provides digital imaging and design foundations in visualization. Also offers an introduction to the foundation of interface tools in industry standard digital imaging software.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3526C DAS Design and Production Studio 2 3 Credits
Grading Scheme: Letter Grade
Working within an interdisciplinary digital arts and sciences (DAS) design and production studio environment, students will focus on network and Internet-based technologies, delivery systems and content generation. Students will participate in the creation of two major collaborative group projects or one major semester-long project.
Prerequisite: Digital Arts and Sciences BA major and DIG 3525C with minimum grade of C.

DIG 3588C Digital Portfolio 1-3 Credits
Grading Scheme: Letter Grade
Provides technical and design skills for the creation of a digital portfolio with interactive media suitable for distribution, including DVD and a portfolio website. Also covers techniques for using and linking social media, digital branding and personal marketing.
Prerequisite: Digital Arts and Sciences BA major of junior standing or higher.

DIG 3623 Playable Patterns: Science Storytelling with AI & Games 3 Credits
Grading Scheme: Letter Grade
From random number generators to flocking algorithms, designing the automated parts of a game involves finding elegant, concise, and believable ways of modeling the real world. A look to nature and the history of computational poetics to learn to design machine intelligence that inspires audiences interacting with new stories.
Prerequisite: DAR major.

DIG 3691 Blockchain Innovation in Digital Arts and Sciences 3 Credits
Grading Scheme: Letter Grade
Comprehensive survey of relevant topics in blockchain and its impact on digital arts and sciences; provides an overview of the technology behind blockchain and explores current and potential real-world applications in arts, digital entrepreneurship, and creativity.
Prerequisite: Digital Arts and Sciences BA major with junior standing or higher.

DIG 3713 Game Content Production 1 3 Credits
Grading Scheme: Letter Grade
Provides both theoretical and practical knowledge and essential technical skills for the conceptualization and digital visualization of video game assets. Covers the principles and practical applications of industry-standard software suites. Emphasizes developing strong foundational skills, compelling conceptual ideas, and self-motivated problem solving.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3715 Game Content Production 2 3 Credits
Grading Scheme: Letter Grade
Elaborates on concepts, processes, and technical practices introduced in DIG 3713C; use game design fundamentals to craft effective digital games. Detailed examination of conceptual techniques in game design and their use in DAS design practice; comparative introduction of frameworks for game design; technical components of 2D and 3D game design.
Prerequisite: Digital Arts and Sciences major and DIG 3713 with minimum grade of C.

DIG 3873 Game Systems Development 1 3 Credits
Grading Scheme: Letter Grade
This course will introduce the fundamental principles of game development and programming language. Students will become familiar with input output, variables, arithmetic operations, if-else conditional statement and their use in game development. Students will also learn about the basic understanding of object-oriented programming (OOP) within the industry.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3878 Game Systems Development 2 3 Credits
Grading Scheme: Letter Grade
This course will cover fundamental principles of game engine programming such as basic collision detection, input detection, instantiate, destroy game object, and others. The student will also learn how to use game engines to develop various applications such as personal computer (PC) and mobile games, augmented/virtual reality projects, and others.
Prerequisite: DIG 3873 with minimum grade of C.

DIG 4154 Writing for Interactive Media 3 Credits
Grading Scheme: Letter Grade
Provides in-depth analysis and opportunity to hone writing skills needed in the creation and development of interactive digital media. Students will investigate approaches for generating high-quality writing and the blend between development, planning, technical and creative writing through writing the documents to support a digital media project's development and production.
Prerequisite: Digital Arts and Sciences BA major of senior standing.

DIG 4171C Digital Tools for Arts and Humanities 3 Credits
Grading Scheme: Letter Grade
Study of digital applications, games, tools, and social networks to enhance research in the arts and humanities; examines and expands on current theoretical discussions, applications, and methodologies. An interdisciplinary group project embraces collaborative research and offers hands-on experience with digital tools.
Prerequisite: Junior level or higher

DIG 4184C Motion Design 3 Credits
Grading Scheme: Letter Grade
Introduces motion graphics fundamentals, design principles, and techniques, including visual rhythm, kinetic typography, multiplanar effects, and established and emerging industry techniques. Also explores the use of motion graphics in live-action video, including but not limited to commercial, broadcast, corporate, training, tradeshow, main title, and social media content.
Prerequisite: DIG3526C and DIG3305C with minimum grades of C and a Digital Arts and Sciences major.

DIG 4185 Experience Design for Social Engagement 3 Credits
Grading Scheme: Letter Grade
Explore user experience (UX) design and user engagement, and address social challenges (e.g. sustainability, accessibility, minority concerns) in individual and group projects. Identify target user needs, develop solutions, create a prototype application, and undertake user testing by applying UX theories, experience design history, and user-centered design principles.
Prerequisite: DIG 3124 with a minimum grade of C or better a Digital Arts and Sciences major.

DIG 4255C Audio Design for Digital Production 3 Credits
Grading Scheme: Letter Grade
Professional techniques for the creation of audio content for variety of applications in the digital arts and sciences. Software tools for conversion, storing, processing and retrieval of sound in a variety of digital formats. Fundamentals of loop-based audio design, sampling and work with an industry standard software with linear and interactive digital media.
Prerequisite: Digital Arts and Sciences BA major of senior standing.

DIG 4283 Music and Sound Design for Digital Media 3 Credits
Grading Scheme: Letter Grade
Investigates techniques, tools and current research in music and sound design for digital media for DAR and DAS non-music majors.

DIG 4306C Advanced Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Practical principles and techniques of 3D software environments for animation. Includes triangular mesh design and editing, splines (NURBS), shading techniques and lighting, different camera projection models, rendering techniques, and efficient use of GPU for photo realistic real-time 3D animation.
Prerequisite: (Digital Arts and Sciences BA major and DIG 3305C with minimum grade of C) or instructor permission.

DIG 4354 3D Character Animation 3 Credits
Grading Scheme: Letter Grade
Techniques for 3D character animations. Practice character development, pipeline management, procedural framework simulation, and basic rigging alongside studies of motion picture animation. Master industry-standard tools to animate basic 3D objects, 3D bipedal motion, and key-framing.
Prerequisite: DAR major and DIG 4306C with minimum grade of C.

DIG 4361C Advanced 2D Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Develop advanced industry-standard practices in digital 2D animation. Within a collaborative environment, create a 30 second film in order to learn the production pipeline, time management, and task allocation while demonstrating advanced animation techniques.
Prerequisite: DIG 3313C with minimum grade of C and Digital Arts and Sciences B.A. major.

DIG 4527C Game Design and Production 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary approach to game design and production. Emphasizes rapid prototyping, agile design, collaboration, and project management in a relatively short development cycle. Work on idea pitches, write concept proposals, and work to develop a video game.
Prerequisite: Digital Arts and Sciences major and (DIG 3715 and DIG 3878 with minimum grades of C).

DIG 4540C Production of Immersive Environments 3 Credits
Grading Scheme: Letter Grade
Projects cover the foundational knowledge of immersive technologies such as AR and VR; provides hands-on experience developing a fully functioning immersive experience prototype.
Prerequisite: DIG 3305C and DIG 3878 with minimum grades of C and Digital Arts and Sciences B.A. major with junior standing or higher.

DIG 4552 Advanced Design & Production Studio 3 Credits
Grading Scheme: Letter Grade
Course provides students with both conceptual understanding and practical applications of the evolving ecosystem of time-based digital media creation and production tools and techniques. Work incorporates both physical and virtual studio environments.
Prerequisite: Digital Arts and Sciences major and DIG 3526C with minimum grade of C

DIG 4634 Wearable and Mobile App Development 3 Credits
Grading Scheme: Letter Grade
Examines software development protocols for wearable and mobile electronics such as head-mounted displays, watches, and cellphones. Studies several embedded input/output interfaces, including position and orientation sensors, hand trackers, holographic, and stereoscopic displays. Materials are practiced by developing prototype software applications for such devices.
Prerequisite: DIG 3878 with minimum grade of C.

DIG 4841 Senior Project Research 3 Credits
Grading Scheme: Letter Grade
Focuses on identifying effective pre-production research techniques, as well as goal-setting and problem-solving strategies, and integrating them into a coherent project-management practice. Apply understanding of these principles to formulate an appropriate and successful DAS senior project proposal.
Prerequisite: DAR major and senior standing.

DIG 4905 Independent Study 1-4 Credits
Grading Scheme: Letter Grade
Independent study of special or individual DIG projects and issues, under faculty supervision.
Prerequisite: consent of faculty member supervising the study.

DIG 4917 Undergraduate Research in DAS 0-3 Credits
Grading Scheme: S/U
Provides research experience at the intersection of digital arts and sciences. Research assistants work directly with faculty to explore and produce various research in interactive tools and technologies. Accelerate professional development as both a researcher and digital artist.
Prerequisite: Junior level or higher.

DIG 4930 Special Topics in DAS 1-4 Credits
Grading Scheme: Letter Grade
Special Topics provides upper-level DAS students with a comprehensive study of current/significant topics in the digital arts and sciences. Special Topics allows faculty to offer courses in emergent technologies, theories, and methodologies not already included in the curriculum, and provide students with the knowledge and skills necessary in these areas.
Prerequisite: Digital Arts and Sciences major.

DIG 4932 Colloquium in Digital Arts and Sciences 1 Credit
Grading Scheme: S/U
Seminars explores current affairs in the field of digital arts and sciences. Research, communicate, and analyze the contemporary trends in digital arts and sciences.
Prerequisite: DAR major and senior standing.

DIG 4940 Internship 1-3 Credits
Grading Scheme: S/U
Internship encourages reflection on position, company, industry, and experience. After completing the assignments, students should be able to articulate the role internship had in their career development.
Prerequisite: DAR major.

DIG 4942 Undergraduate Course Assistant 0-3 Credits
Grading Scheme: S/U
Provides hands-on experience teaching digital arts and sciences at the college level. Under the supervision of a faculty member, lab assistants help prepare and discuss course materials, work with students during office hours, and play a critical role in facilitating learning.
Prerequisite: DAR major and junior or higher standing.

DIG 4944C Production Practicum 0-3 Credits
Grading Scheme: S/U
Production Practicum will provide DAS students hands-on experience producing and executing real-world digital media projects. Students will participate in many production roles, collaborating with peers and clients in a professional studio environment. In the process, students will accelerate their professional development as a producer within the digital arts and sciences.
Prerequisite: Junior level or higher.

DIG 4970 Senior Project in DAS 2-3 Credits
Grading Scheme: Letter Grade
Successful completion of this capstone experience demonstrates mastery of requisite knowledge, technical acumen, and problem solving skills in the digital arts and sciences. May be either an individual or team-based project.
Prerequisite: senior status enrolled in the BA in DAS program.

HUM 2832C Algorithmic Creativity 3 Credits
Grading Scheme: Letter Grade
Computational creativity is the application of computer technologies to emulate, study, stimulate and enhance human creativity. Algorithmic creativity is the application of AI methods such as machine learning, natural language processing, computer vision, or generative adversarial networks to produce creative outputs. These outputs can range from text, images, music, or video to complex systems, architectures, or inventions.

HUM 2833 Topics and Perspectives - AI, Art, and Society 3 Credits
Grading Scheme: Letter Grade
Students examine the promises and perils of artificial intelligence through the lens of media studies and critical theory as well as case studies of artists who offer a shadow discourse, subversively using AI and other emerging technology.

Economics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Economics offers a vibrant undergraduate curriculum. Students enjoy close and meaningful interactions with the faculty through rigorous and engaging courses. A diverse menu of elective courses covers exciting and relevant topics like growth and development, international trade and finance, public policy analysis and evaluation, and strategic business decisions. Students are strongly encouraged to pursue outside-of-the-classroom learning through internships and study abroad.

Curriculum

- Combination Degrees
- Economics
- Economics Minor

Courses

ECO 2013 Principles of Macroeconomics 4 Credits
Grading Scheme: Letter Grade
In this course, students will learn the foundations of macroeconomics as the branch of economics concerned with how decision-making, in an environment of scarcity, maps onto the aggregate economy. Students will examine theories and evidence related to the following core set of topics: national income determination, money, monetary and fiscal policy, macroeconomic conditions, international trade and the balance of payments, and economic growth and development.
Attributes: General Education - Social Science

ECO 2023 Principles of Microeconomics 4 Credits
Grading Scheme: Letter Grade
Theories of production, determination of prices and distribution of income in regulated and unregulated industries. Attention is also given to industrial relations, monopolies and comparative economic systems. (S)
Attributes: General Education - Social Science

ECO 2310 Economics of Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines issues of environmental sustainability from an economic perspective. Discusses economic treatment of renewable and nonrenewable resources, land constraints, and global climate change. Identifies potential policy solutions grounded in economic theory.

ECO 2432 Data is Everywhere 3 Credits
Grading Scheme: Letter Grade
Examines the value and potential impact of data by exploring large data sets from a variety of disciplines. Identifies and discusses large national and international datasets that transcend disciplinary boundaries and include economic, geographic, health, political, and sociological variables. Equips students with to locate data sets, compose descriptive statistics, and present analysis using tables and charts.
Prerequisite: Completion of any Quest 1 with a minimum grade of C.
Attributes: Quest 2, General Education - Social Science

ECO 3101 Intermediate Microeconomics 4 Credits
Grading Scheme: Letter Grade
Nature, scope, and purpose of economic analysis. Examines the theory of consumer behavior, production, costs, firm behavior, and the allocation of resources.
Prerequisite: (ECO 2023 and (MAC 2233 or higher level calculus course)) or AEB 3103

ECO 3203 Intermediate Macroeconomics 4 Credits
Grading Scheme: Letter Grade
Theoretical determinants of aggregate employment, income, expenditures and the price level. Keynesian and neoclassical models are analyzed.
Prerequisite: ECO 2013 and ECO 2023 and (MAC 2233 or higher level calculus course).

ECO 3430 Economic Analysis of Data 4 Credits
Grading Scheme: Letter Grade
Introduces prominent big economic datasets. Presents common practices for identifying inconsistencies and cleaning data. Describes several data basic visualization tools within various software packages. Incorporates hand-on experience with economic data analysis.
Prerequisite: ECO 2013 and ECO 2023 and STA 2023 (or higher level STA course).

ECO 3532 Public Choice 4 Credits
Grading Scheme: Letter Grade
Role of voters, special interests, legislators and the bureaucracy in determining government expenditure, taxation and other economic policies. Economic models of voting and the structure of governments.
Prerequisite: ECO 2023.

ECO 3704 International Trade 4 Credits
Grading Scheme: Letter Grade
Theory of international trade and commercial policy. Current issues in international trade, comparative advantage, scale economics, the economics of tariff and non-tariff barriers. International factor movements and multinational firms. Political economy of trade restrictions, strategic trade policy and trade negotiations.
Prerequisite: ECO 2013 and ECO 2023.

ECO 3713 International Macroeconomics 4 Credits
Grading Scheme: Letter Grade
Macroeconomic theory of an open economy. Current monetary issues of the world economy. The international monetary system, exchange rate determination, balance of payments adjustment mechanism, international financial institutions and their policies. Macroeconomic policies and national income determination in an open economy.
Prerequisite: ECO 2013 and (ECO 2023 or AEB 3103).

ECO 4104 Economics of Competitive Strategy 4 Credits
Grading Scheme: Letter Grade
Focuses on identification and analysis of competitive strategies in expanding markets. Draws on strategic management, the economics of technological change and RD investments, and dynamic game theory, to address challenges faced by firms. Examines demand-based network externalities, the dynamics of pricing rivalry, industry evolution, RD strategies entry and exit decisions.
Prerequisite: ECO 2013 and ECO 2023 and (ECO 3101 or ECP 3703) and (MAC 2233 or higher).

ECO 4213 Monetary Economics 4 Credits
Grading Scheme: Letter Grade
An integrated examination of how banks impact the money supply, monetary policy and financial markets. Topics include: the historical features of money; banking and money supply; goals and tools of monetary policy; and banks as financial intermediaries.
Prerequisite: ECO 2013 and ECO 2023.

ECO 4270 Economic Growth 4 Credits
Grading Scheme: Letter Grade
Examines global history of economic growth and development. Introduces classical and modern theories of economic growth. Develops mainstream models of exogenous and endogenous growth. Compares insights from these models to real-world data.
Prerequisite: (MAC 2233 or higher) and (ECO 3101 or ECP 3703)

ECO 4400 Game Theory and Applications 4 Credits
Grading Scheme: Letter Grade
Introduces modern game theory, including the formal theory of Nash equilibrium and solutions techniques. Applications include strategic barriers of entry; cooperative behavior in oligopoly, auctions and bidding strategies; and durable goods sales.
Prerequisite: ECO 2023 and (MAC 2233 or MAC 2234 or MAC 2311 or MAC 2312 or MAC 2313) and (ECO 3101 or ECP 3703).

ECO 4401 Mathematical Economics 4 Credits
Grading Scheme: Letter Grade
Introduces fundamental mathematical tools employed in economic analysis. Covers comparative static analysis, introduces linear algebra, constrained and unconstrained optimization, and dynamic analysis using differential and difference equations. Examines applications from a wide range of subfields in economics, including consumer theory, macroeconomics, economic growth, and environmental economics.
Prerequisite: (ECO 2013 and ECO 2023 and ECO 3101) or (ECO 3203 and MAC 2233 or higher).

ECO 4421 Econometrics 4 Credits
Grading Scheme: Letter Grade
Introduces concepts and methods used in empirical economic research. Emphasizes practical use of basic econometric techniques to estimate economic relationships and evaluate policy. Covers topics needed to plan and implement empirical projects, and understand potential problems with the empirical analyses of others.
Prerequisite: STA 2023 and (MAC 2233 or higher) and (ECO 3101 or ECP 3703).
Attributes: Artificial Intelligence

ECO 4422 Econometrics 2 4 Credits
Grading Scheme: Letter Grade
Introduces advanced concepts and methods employed in empirical economic analysis. Focuses on identification of causality using regression techniques. Examines regression discontinuity and difference-in-differences identification strategies.
Prerequisite: ECO 4421 OR (STA 4210 AND ECO 3101) OR (STA 4210 AND ECP 3703).
Attributes: Artificial Intelligence

ECO 4504 Public Economics 4 Credits
Grading Scheme: Letter Grade
Market failures and the role of the government in providing goods and services, like education and infrastructure, in a market economy. The role of the government in the provision of various types of social insurance like health insurance, social security and welfare. The effects of taxes on economic behavior.
Prerequisite: ECO 2013 and ECO 2023 and (MAC 2233 or higher) and (ECO 3101 or ECP 3703).

ECO 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced undergraduate students who need to supplement regular coursework by individual studies under guidance. Counted as a free elective credit only.
Prerequisite: senior standing or higher, 10 credits of economics and department permission.

ECO 4934 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Variable content providing an opportunity for the study in-depth of topics not offered in other courses.
Prerequisite: ECO 2013 and ECO 2023.

ECO 4935 Empirical Research in Economics Seminar 4 Credits
Grading Scheme: Letter Grade
After getting some background in economic empirical methodology, statistics, and statistical software and discussing some representative empirical papers, each economics student develops an empirical model and subjects it to statistical testing, helped by several class presentations.
Prerequisite: ECO 2013 and ECO 2023.

ECO 4941 Internship in Economics 1-3 Credits
Grading Scheme: S/U
Applied work in economics. Requires several papers and reports. Counted as a free-elective credit only.
Prerequisite: department permission.

ECO 4956 International Studies in Economics 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.

ECO 4970 Honors Thesis 1-4 Credits
Grading Scheme: S/U
A thesis is required for the awarding of the magna cum laude or summa cum laude designations. To qualify, students will normally have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator of the student's major department) and must have at least the grade point average (3.6) required for the magna cum laude designation at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator for the student's major department. Counted as a free-elective credit only.
Prerequisite: 90 credits earned and 3.6 UF GPA.

ECP 3006 Economics of Sports 4 Credits
Grading Scheme: Letter Grade
Examines the business of sports using economic theory as a framework for analysis. Topics covered include the economics of sports leagues, labor negotiations and arbitration, pricing decisions, discrimination, corruption in sports, gambling, sports memorabilia and antitrust policy.
Prerequisite: ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).

ECP 3203 Labor Economics 4 Credits
Grading Scheme: Letter Grade
Determinants of demand for labor and labor supply. Labor market equilibrium and changes in the equilibrium due to changes in unionization, public policies, technology and trade. Study of the effects of skill, job amenities and discrimination on wage differentials.
Prerequisite: ECO 3101 or ECP 3703

ECP 3302 Environmental Economics and Resource Policy 4 Credits
Grading Scheme: Letter Grade
Relations between environmental quality, resource utilization, and economic institutions and policy. Examines alternative strategies and policies in solving the problems of environmental quality and resource scarcity.
Prerequisite: ECO 2023. Credit will not be awarded for both ECP 3302 and AEB 3450.

ECP 3403 Industrial Organization 4 Credits
Grading Scheme: Letter Grade
Examines the structure of markets and the behavior of firms operating in imperfectly competitive markets. Develops models of imperfectly competitive markets and compares the insights and predictions from each. Investigates firms' strategic profit-maximizing decisions regarding prices, product differentiation, market entry and exit, and product promotion.
Prerequisite: ECO 2023, (MAC 2233 or higher level calculus course), and (ECO 3101 or ECP 3703)

ECP 3510 Economics of Education 4 Credits
Grading Scheme: Letter Grade
Uses economic concepts to analyze the education system and education policy options. Topics covered include class size, No Child Left Behind legislation, public vs. private schools, and vouchers.
Prerequisite: ECO 2023.

ECP 3530 Health Care Economics 4 Credits
Grading Scheme: Letter Grade
Analysis of health care markets, employing efficiency and equity criteria. Evaluation of current health care policies and their effects on cost, access and quality. Topics covered include the production of and demand for health and medical care; information asymmetrics between patients, doctors, and payers; health insurance coverage; the effects of managed care (including HMOs) on competition, efficiency, and quality; training and practice of physicians; hospitals; prescription drug pricing; government regulations; Medicare and Medicaid; health care reform.
Prerequisite: ECO 2023.

ECP 3703 Managerial Economics 4 Credits
Grading Scheme: Letter Grade
Analysis of the firm's decisions regarding prices, outputs and inputs, advertising, etc. under various market conditions. Reliance is placed upon both theories and applications.
Prerequisite: ECO 2023 and MAC 2233 or higher. Credit will not be awarded ECO 3101 and ECP 3703.

ECP 4423 Government Regulation of Business 4 Credits
Grading Scheme: Letter Grade
The evolution, statutory foundation and methods of governmental regulation. Antitrust regulation of competitive practices.
Prerequisite: ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).

ECP 4451 Law and Economics 4 Credits
Grading Scheme: Letter Grade
Analyzes the interaction between law and economics, and evolution of legal rules; efficiency of alternative rules on pollution and public goods, enforcement of contracts, deterrence of crime, and protection of consumers; and efficiency versus fairness.
Prerequisite: ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).

ECS 3403 Economic Development of Latin America 4 Credits
Grading Scheme: Letter Grade
A critical assessment of Latin American political economy and economic development. Topics covered include economic history from the colonial period forward; commodity price cycles and balance of payment fluctuations; import substitution industrialization; international indebtedness; trade liberalization; inflation stabilization policies; poverty eradication difficulties.
Prerequisite: ECO 2013 and ECO 2023.

ECS 4013 Economic Development 4 Credits
Grading Scheme: Letter Grade
Examines different theories of economic growth and development of low-income and middle-income countries. Covers microeconomic and macroeconomic models relevant to understanding development and analyzing various policy proposals. Analyzes history and empirical evidence of global economic growth and development.
Prerequisite: ECO 2013, ECO 2023, MAC 2233 or higher, and ECO 3101

ECS 4110 Africa in the Global Economy 4 Credits
Grading Scheme: Letter Grade
Examines the African continent position globally, looking both at the challenges as well as at the options available to African nations to get a fair and better deal in the global economy. Main topics: international trade and global value chairs; WTO rules and negotiations especially with regard to agriculture; aid to Africa; economic reforms, the World Bank and IMF; the debt crisis; migration and African Diaspora.
Prerequisite: ECO 2013 and ECO 2023. Students with credit for ECS 4111 will not get credit for ECS 4110.

ECS 4111 African Economic Development 4 Credits
Grading Scheme: Letter Grade
Deals with the most pressing issues facing Sub-Saharan African countries in their quest for socioeconomic development. Although the focus is on contemporary issues and forthcoming challenges, more or less recent historical facts will be reviewed whenever necessary to shed light on the present. Main topics include economic growth, politics and institutions, international trade, agricultural and industrial development, poverty and inequality, access to basic social services, the environment, and gender issues.
Prerequisite: ECO 2013 and ECO 2023. Students with credit for ECS 4110 will not get credit for ECS 4111.

Education | School of Human Development and Organizational Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

EDA 4930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Topics vary.
Prerequisite: Sophomore standing or higher.

EDF 2110 Human Growth and Development 3 Credits
Grading Scheme: Letter Grade
A life span survey of human growth and development beginning at conception and ending with death. Students will have the opportunity to apply general principles in appropriate educational settings.
Attributes: General Education - Social Science

EDF 3112 Development in Education 3 Credits
Grading Scheme: Letter Grade
Introduces the significant changes in biological, cognitive, social, and emotional development that occur during childhood and adolescence. Become acquainted with relevant theoretical perspectives and research on child and adolescent development within the context of learning and education. Although this is not a teacher preparation course, it does include content that focuses on educating students from early childhood through adolescence.
Prerequisite: Sophomore status higher.

EDF 3115 Child Development for Inclusive Education 3 Credits
Grading Scheme: Letter Grade
Examines psychological theories and research on typical and atypical development and their application in general education classrooms that include children with sensory, mental, emotional, and learning disabilities, as well as gifted and talented children.
Prerequisite: Sophomore standing or higher.

EDF 3132 The Young Adolescent 3 Credits
Grading Scheme: Letter Grade
Introduces application of developmental and educational psychology to contexts of young adolescents between the ages of ten and fifteen. Service-learning component in a 6th-12th grade educational setting is required in order to apply course content.
Prerequisite: Sophomore standing or higher.

EDF 3135 The Adolescent 3 Credits
Grading Scheme: Letter Grade
The special role that the adolescent plays in total development. Emphasis is on the psychological development of the adolescent in the school.
Prerequisite: Sophomore standing or higher.

EDF 3210 Educational Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces the application of psychology to the problems of education in a variety of educational settings. Also examines the theoretical and applied aspects of learning, motivation, human development, personality, and measurement and evaluation.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

EDF 3423 Educational Research Design 3 Credits
Grading Scheme: Letter Grade
Addresses the basic tenets of educational research design, including quantitative, qualitative, and mixed-method approaches to investigating educational phenomena; Learn the information needed to understand the educational research process.
Prerequisite: Sophomore standing or higher.

EDF 3935 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Topics vary.
Prerequisite: department permission.

EDF 4140 Cognition in Education 3 Credits
Grading Scheme: Letter Grade
Examines cognitive science that explains learning in educational contexts. Specifically, reviewing memory, attention, thinking, and problem solving in classroom or applied settings. Pays special attention to the connections between research and everyday phenomena; designed to help students apply course material to enhance their lives.
Prerequisite: EDF 3210

EDF 4430 Measurement and Evaluation in Education 3 Credits
Grading Scheme: Letter Grade
Basic principles and methods of measurement, evaluation, and test construction.
Prerequisite: Sophomore standing or higher.

EDF 4440 Program Evaluation in Educational Settings 3 Credits
Grading Scheme: Letter Grade
Overview to the skills and methods required to assess the effectiveness and impact of educational programs and institutions. First presents program evaluation in the broader setting of the social sciences, followed by evaluation readings and activities tailored specifically to educational settings.
Prerequisite: Sophomore standing or higher.

EDF 4470 Survey Research Methods in Education 3 Credits
Grading Scheme: Letter Grade
Overview of the theory and application of survey research methods, with special emphasis on conducting survey research in educational settings. Presents the full process of survey research, including design, implementation, analysis, and data management.
Prerequisite: Sophomore standing or higher.

EDF 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Explore areas of inquiry under faculty guidance in psychological, social, philosophical foundations of education, research, or measurement.
Prerequisite: Sophomore standing or higher.

EDG 4910 Education Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Supports mentored scholarship work that enables engaging in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions, and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery, or application, depending on the topic.
Prerequisite: Sophomore standing or higher.

EDH 3410 Introduction to Education Policy 3 Credits
Grading Scheme: Letter Grade
Introduces education policy and analysis that explores the history and purpose of education policy, key federal and state policies impacting K12 and higher education, and theoretical and conceptual approaches to policy analysis.
Prerequisite: EDF 3604.

EDP 3211 Cognitive and Educational Science in AI 3 Credits
Grading Scheme: Letter Grade
Examines cognitive and education science concepts that underpin the field of Artificial Intelligence and explores how AI integrates into educational contexts. Enhance conceptual understanding of what makes AI tools work and increase the ability to use those tools in an increasingly AI-rich educational environment. This non-programming course does not require advanced AI or computer science knowledge.
Prerequisite: (EDF 3210 or EDF 3110 or EDF 4140 or PSY 2012 or EXP 3604) and fundamental knowledge of cognition or education theories.

MHS 3930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Topics vary.
Prerequisite: Sophomore standing or higher.

MHS 4763 Mindful Living: Spirituality for Everyday Life 3 Credits
Grading Scheme: Letter Grade
Examines approaches to living a more mindful life. Focuses on the various mental, emotional, physical, and spiritual conditions that arise when confronted with stressful or traumatic situations. Explores various perspectives regarding personal responsibility toward stress management and mindful self-care practices and mindfulness-based techniques to reduce the negative effects of psychological concerns through the application of these methods.
Prerequisite: Junior standing or higher.

MHS 4900 Individual Work 2-4 Credits
Grading Scheme: Letter Grade
Topics vary.
Prerequisite: department permission.

SDS 2041L What if there was no Stigma in Mental Health? 3 Credits
Grading Scheme: Letter Grade
Explores stigma related to mental health from a social-cultural lens. Portrayals of mental health in art, media, and social science disciplines are deconstructed and regenerated through class activities. Students create a wellness plan, evaluate wellness, learn skills to optimal mental health, and challenging perceptions to create societal and personal change.
Prerequisite: Any Quest 1 course with a minimum grade of C.
Attributes: Quest 2, Satisfies 2000 Words of Writing Requirement

SDS 3340 Career and Life Span Planning 3 Credits
Grading Scheme: Letter Grade
Covers presentations, discussions, and experiential activities for making effective life plans and adjustments.
Prerequisite: Sophomore standing or higher.

SDS 3430 Family and Community Involvement in Education 3 Credits
Grading Scheme: Letter Grade
Examines existing models and practices for enhancing family-school-community interaction with emphasis on communication, conflict resolution, and climate-building skill development.
Prerequisite: EED_BAE Elementary Education.

SDS 3462 Introduction to Trauma and Crisis 3 Credits
Grading Scheme: Letter Grade
Develop knowledge about trauma and crisis and increase awareness of the effects of trauma on individuals, families, groups, and communities, and the process of recovery. Also develop knowledge about careers affiliated with assisting survivors of trauma and crisis through their recovery. Students will disclose personal reflections related to the information covered in the course on trauma and crisis.
Prerequisite: Sophomore standing and higher.

SDS 3473 A Guide to College and Sexuality 3 Credits
Grading Scheme: Letter Grade
To provide a summary of sex education with the intentions of assisting college students in navigating the realm of sexuality. Students will be encouraged to reflect on their own beliefs and identities in order to better understand their needs and boundaries. Additionally, students will receive information and resources related to numerous sexuality topics including sexual orientation, contraception, consent, amongst others.
Prerequisite: Sophomore standing or higher.

SDS 3480 Student Development in a University Setting 2 Credits
Grading Scheme: Letter Grade
Examines factors affecting student growth and development in the university setting, current problems facing students, and the use of group processes and leadership training in solving problems and facilitating growth.
Prerequisite: Junior standing or higher.

SDS 3481 Alcohol and Drug Abuse 2 Credits
Grading Scheme: Letter Grade
General information of effects and problems associated with alcohol and other drug abuse.
Prerequisite: Sophomore standing or higher.

SDS 3482 Stress and Anxiety Management 3 Credits
Grading Scheme: Letter Grade
Overview of theories and methods of stress and anxiety control and reduction.
Prerequisite: Sophomore standing or higher.

SDS 4410 Interpersonal Communication Skills 3 Credits
Grading Scheme: Letter Grade
Application of basic principles of interpersonal communication with emphasis on the affective dimensions. Gives attention to using basic counseling strategies and psychological techniques as an aid to effective communication.
Prerequisite: Sophomore standing or higher.

Education | School of Special Education, School Psychology and Early Childhood Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

EDF 2085 Teaching Diverse Populations 3 Credits
Grading Scheme: Letter Grade
Surveys educational demographics, foundations of prejudice, elements of culture, political and philosophical roots of diversity and commonality, exceptionalities, and barriers to cultural understanding and diversity in the classroom. A minimum of 30 hours of field experience is required with 15 hours in a diverse setting. See also: EDF 1005 and EME 2040.

EDF 3122 The Young Child 3 Credits
Grading Scheme: Letter Grade
Studies growth and development during infancy and early childhood. Laboratory includes observation and participation in nursery school and kindergarten.
Prerequisite: EYC_BAE Early Childhood Education.

EDF 3433 Introduction to Educational Measurement and Evaluation 2 Credits
Grading Scheme: Letter Grade
Surveys principles and methods of educational measurement with an emphasis on evaluation and diagnosis of students in school settings.
Prerequisite: STA 2023; knowledge of descriptive statistics, correlation and regression; inferential statistics and tests on means; and department permission for freshmen and sophomores.

EDG 4910 Education Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Supports mentored scholarship work that enables engaging in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions, and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery, or application, depending on the topic.
Prerequisite: Sophomore standing or higher.

EEC 3012 Intro to Early Childhood Educa 3 Credits
Grading Scheme: Letter Grade
Overview of the profession of early childhood education for all children from age 3 through grade 3, including legal bases, ethical guidelines, professional expectations, historical and cultural perspectives, organization, programming, developmentally appropriate principles and evidence-based practices. Considerations for diversity guide all aspects of the course.
Prerequisite: Early Childhood Education majors only. Junior and Senior Status.

EEC 3023 Science of Early Childhood Development and Learning 3 Credits
Grading Scheme: Letter Grade
Explore the science of early childhood health, well-being, development, and learning from transdisciplinary, child- and family-centered, and developmental equity perspectives. Uses an eco-bio-developmental model to frame and integrate early childhood principles and practices. Applies the 3Rs (relationships, repetitions, and routines) of early childhood.
Prerequisite: Junior standing or higher.

EEC 3213 Language and Literacy Development in Early Childhood 3 Credits
Grading Scheme: Letter Grade
Understand the foundations of language and literacy development in young children, from age 3 to grade 3. Includes a focus on the development of oral language, vocabulary, phonological awareness, and word-reading skills.
Prerequisite: admission to BS in Early Childhood Studies.

EEC 3402 Families as a Context for Early Childhood Development and Learning 3 Credits
Grading Scheme: Letter Grade
Learn how the family unit functions within an ecological context for early childhood development and learning. Connections between the child, family, and broader supports for family capacity building will be identified through a developmental equity lens in order to enhance family partnerships.
Prerequisite: Junior standing or higher.

EEC 3404 Families, Diversity, and Multicultural Considerations in Early Childhood 3 Credits
Grading Scheme: Letter Grade
Role of family and influence of community on development and learning of young children in diverse society.
Prerequisite: EYC_BAE Early Childhood Education.

EEC 3411 Foundations of EC Systems and Supports 3 Credits
Grading Scheme: Letter Grade
Gain foundational knowledge about the transdisciplinary field of early childhood studies through exploring the intersections among health/mental health, early care and education, and family support systems. Emphasizes practices used within and across these systems to support thriving children (birth to 5-years old) and their families.
Prerequisite: Junior standing or higher.

EEC 3421 Early Childhood Math, Science, and Technology 6 Credits
Grading Scheme: Letter Grade
Techniques and methods for teaching preschool to third grade mathematics and science with appropriate technology integration. Topics include processes of problem solving, reasoning, communication, and inquiry related to instruction and teaching methodology. Appropriate use of technology to amplify the learning experience and develop digital citizens and computational thinkers.
Prerequisite: junior/senior-level EMR in Unified Early Childhood Education.

EEC 3704 Supporting Early Childhood Learning and Development 3 Credits
Grading Scheme: Letter Grade
Learn about organizing frameworks that guide practices to support learning and development for children ages birth to five years old. Emphasizes learning and development in the early childhood years with attention to practices, policies, and structural supports to address cultural, language, and ability diverse young children.
Prerequisite: Junior standing or higher.

EEC 3731 Supporting Early Childhood Health and Wellbeing 3 Credits
Grading Scheme: Letter Grade
Learn how the eco-bio-developmental framework applies to young children's health and well-being. Identify levels of need related to health and well-being of young children and transdisciplinary coordinated services and supports that are available to support young children's health and well-being.
Prerequisite: Junior standing or higher.

EEC 3941 Practicum in Early Childhood Education 1-3 Credits
Grading Scheme: S/U
Field experience in pre-service early childhood education.
Prerequisite: enrollment in Unified Early Childhood PROTEACH.

EEC 4215 Early Childhood Science and Social Studies 3 Credits
Grading Scheme: Letter Grade
Integrated curriculum course for science and social studies from the perspective of constructivist theory. Designed to promote understanding of similarities in ways in which children construct basic science and social studies concepts.
Prerequisite: junior/senior-level EMR in Unified Early Childhood Education.

EEC 4247 Integrated Humanities, Social Studies, and the Arts 3 Credits
Grading Scheme: Letter Grade
This integrated curriculum course develops students' understanding of appropriate curriculum and instruction in social studies, humanities and arts for children preschool through grade 3. Emphasis is on content and methods to meet goals in each of the three areas, as well as meaningful interdisciplinary learning experiences that meet multiple goals.
Prerequisite: Early Childhood Education majors only. Junior and Senior Status.

EEC 4252 Inclusive Early Childhood Curriculum, Teaching and Assessment I 3 Credits
Grading Scheme: Letter Grade
Develop an understanding of appropriate curriculum, teaching, and assessment for young children in preschool through grade 3, across the developmental domains and academic disciplines. The first in a two-course sequence.
Prerequisite: EYC_BAE Early Childhood Education.

EEC 4253 Inclusive EC Curriculum II 3 Credits
Grading Scheme: Letter Grade
This course will develop students' skills in implementing appropriate curriculum, teaching and assessment for young children in preschool through grade 3, across the developmental domains and academic disciplines. This course is the second in a two-course sequence.
Prerequisite: Students admitted to the early childhood education program and EEC 4252.

EEC 4712 Social-Emotional Learning and Behavior Support in Early Childhood 4 Credits
Grading Scheme: Letter Grade
Multi-tiered model approach to use of developmentally appropriate and evidence-based practices for promoting children's social-emotional learning, self-responsibility and self-regulation in early childhood programs. Practices build from focus on development of positive relationships, to environmental arrangements, to specific teaching practices, to use of individualized interventions based on functional assessment.
Prerequisite: Early Childhood Education majors only. Junior and Senior Status.

EEC 4942 Practicum in Early Literacy 3 Credits
Grading Scheme: Letter Grade
Provides an opportunity to practice and demonstrate competence in early literacy assessment, instruction, and intervention in an early childhood classroom setting. Apply literacy knowledge and skills with PreK - Grade 3 students. Includes both small-group and whole-class instruction.
Prerequisite: Early Childhood Education majors of junior status or higher.

EEC 4945 Internship in Early Childhood 6 Credits
Grading Scheme: Letter Grade
Students demonstrate application of knowledge and skills acquired throughout their educator preparation program in a supervised early childhood setting.
Prerequisite: Early Childhood Education major and permission of department.
Attributes: 3rd Year UF Quest

EEX 2000 Impact of Disabilities: Home, Community and Workplace 3 Credits
Grading Scheme: Letter Grade
How disabilities impact the lives of individuals who have disabling conditions and how the presence of individuals with disabilities enhances diversity in a variety of settings. The impact of disabilities in home, community and work environments. Physical, cognitive and emotional/behavioral disabilities are considered.

EEX 3012 Introduction to Special Education 3 Credits
Grading Scheme: Letter Grade
Overview of special education characteristics and definitions of disabilities, the referral process, and service delivery models. Information on the history of, legal basis for, and contemporary issues in special education.
Prerequisite: Sophomore standing or higher.

EEX 3062 Early Childhood Special Education Curriculum 3 Credits
Grading Scheme: Letter Grade
Content knowledge in developing and implementing individualized educational programs for the pre-kindergarten child with disabilities, including developmentally appropriate curriculum; methods, interventions strategies, teaming approaches, inclusion, and mainstreaming issues; and approaches and techniques for serving the child and the family.
Prerequisite: Sophomore standing or higher.

EEX 3070 Teachers and Learners in the Inclusive School 3 Credits
Grading Scheme: Letter Grade
Characteristics of, identification of and teaching practices for exceptional children in mainstream education. Designed for general education majors, both elementary and secondary.
Prerequisite: Junior standing or higher.

EEX 3093 Exceptional People in School and Society 3 Credits
Grading Scheme: Letter Grade
Persons with disabilities and people from other diverse groups and the services they need from school and society for success. Consideration of the abilities, causes, and educational implications.
Prerequisite: Sophomore standing or higher.

EEX 3097 Social Perspectives on Disability 3 Credits
Grading Scheme: Letter Grade
Covers issues relevant to people with disabilities, their families and others with whom they have contact through community, employment or other settings. Specifically, historical views of people with disabilities and current disability-related issues are examined. Provides a framework for understanding disabilities and disability-related issues within cultural contexts.
Prerequisite: EEX 2000 or EEX 3093.

EEX 3226 Assessment in Early Childhood Special Education 3 Credits
Grading Scheme: Letter Grade
Use of informal and formal evaluation techniques to develop individualized educational programs for young children with disabilities and individualized family support plans for infants and toddlers with disabilities and their families. An emphasis is the implementation of a multidisciplinary team approach in the assessment of young children.
Prerequisite: Sophomore standing or higher.

EEX 3257 Core Teaching Strategies 3 Credits
Grading Scheme: Letter Grade
Helps pre-service teachers develop instruction that provides diverse learners meaningful access to the school curriculum, and assist them in becoming self-regulated learners.
Prerequisite: Sophomore standing or higher.

EEX 3616 Core Classroom Management Strategies 3 Credits
Grading Scheme: Letter Grade
Helps pre-service teachers learn classroom management strategies that develop a positive classroom community for students with disabilities and other diverse learners. Learn organizational and management strategies to assist students in managing their behavior.
Prerequisite: Sophomore standing or higher.

EEX 4064 Educational Programming for Infants and Toddlers with Disabilities 3 Credits
Grading Scheme: Letter Grade
Overview of issues, trends, and best practices in the education of infants and toddlers who are at-risk or disabled (birth to three).
Prerequisite: Sophomore standing or higher.

EEX 4280 Disabilities in Community and Employment 3 Credits
Grading Scheme: Letter Grade
In-depth look at aspects of the community and work experiences for adults with disabilities and the individuals who interact with them. Effective practices that foster accepting and supportive environments that ensure successful life outcomes are discussed.
Prerequisite: EEX 2000 or EEX 3093.

EEX 4294 Differentiated Instruction 3 Credits
Grading Scheme: Letter Grade
Provides pre-service teachers with information and expertise related to instruction that effectively meets the academic needs of all students in inclusive settings.
Prerequisite: Sophomore standing or higher.

EEX 4520 Disabilities: Legal Aspects and Policies 3 Credits
Grading Scheme: Letter Grade
Development and enactment of laws and policies designed to protect the rights of persons with disabilities. Examines The Americans with Disabilities Act as well as other significant legislation contributing to policies affecting this population. Examines disability legislation/policy on local, state, national, and international levels.
Prerequisite: EEX 2000 or EEX 3093.

EEX 4754 Family Focused Involvement in Early Childhood Special Education 3 Credits
Grading Scheme: Letter Grade
Professional skills working with families of young children with disabilities, including understanding of family systems theory, assessing family strengths and needs, developing individual family support plans (IFSP) or individual educational plan (IEP), and enhancing communication and counseling skills. Understanding families from diverse cultures.
Prerequisite: Sophomore standing or higher.

EEX 4790 Multicultural Issues in Early Childhood Special Education 3 Credits
Grading Scheme: Letter Grade
Cultural and linguistic diversity among young children with disabilities and their families.
Prerequisite: Sophomore standing or higher.

EEX 4810 Seminar on Disability 3 Credits
Grading Scheme: Letter Grade
Identify and analyze current disability issues and literature on the integration of individuals with disabilities in the workplace, post-secondary education, community, and adult life. Students complete a culminating activity investigating a disability topic or applying disability-related knowledge to their academic discipline or anticipated professional practice.
Prerequisite: EEX 3097 or EEX 4280 or EEX 4520.

EEX 4837 Practicum Early Child 3 Credits
Grading Scheme: S/U
Prerequisite: Major or Minor in COE.

EEX 4905 Individual Study 1-6 Credits
Grading Scheme: Letter Grade
In-depth study of a problem that relates to preparation as a special education teacher. The project must be approved and supervised by department faculty. (WR)
Prerequisite: undergraduates only.
Attributes: Satisfies 6000 Words of Writing Requirement

EPD 4033 Children Youth with Multiple Disabilities 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Sophomore standing or higher.

LIN 3710 Language Acquisition 3 Credits
Grading Scheme: Letter Grade
Child language development and use as it influences classroom practice and literacy development. Study of oral language development of children from birth through age eight.
Prerequisite: junior/senior-level EMR in Unified Early Childhood Education.

SPS 3004 Psychology in the Schools 3 Credits
Grading Scheme: Letter Grade
This course introduces undergraduate students to the practice and profession of school psychology. The foundations of school psychology practice are explored including, assessment and intervention in academic, social, emotional, and behavioral domains. The course emphasizes school psychologists' promotion of social justice and equity for all students in school settings.
Prerequisite: PSY 2012 or SYG 2000 or EDF1005 or EDF 3110 or EEX 3093 and junior standing or higher.

Education | School of Teaching and Learning

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

With more than three-dozen faculty and students from all over the world, the School of Teaching & Learning offers on-campus and online programs in a diverse range of subjects in education.

- UFTeach | Mathematics, Science, or Computer Science Minor

Courses

ARE 4940 Student Teaching in Art Education 4-12 Credits
Grading Scheme: S/U
Student-teaching classroom experience in art.
Prerequisite: minimum 2.5 GPA and art education major.

ECT 3353 K-12 Computer Science Methods 3 Credits
Grading Scheme: Letter Grade
Overview of principles for teaching K-12 Computer Science through an exploration of the role of content, pedagogy, and curriculum in Computer Science education.
Prerequisite: MAE 2364 with a minimum grade of C.

EDE 3941 Clinical Rotations Across Diverse Elementary School Contexts 2 Credits
Grading Scheme: Letter Grade
Engage in clinical rotations across diverse elementary school contexts and participate in seminars with university supervisors. Students will apply, extend, and reflect on the concepts, questions, theories, and models studied in university-based teacher preparation courses.
Prerequisite: Elementary Education major.

EDE 4905 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
In-depth study of a problem that relates to teacher preparation. The project must be approved and supervised by a department faculty member.

EDE 4940 Internship in Elementary Education 1-6 Credits
Grading Scheme: S/U
Teacher candidates will gain competence in the planning for, teaching, and assessment of diverse students in school settings. Candidates collaborate with a mentor teacher to practice using various models of co-teaching and a variety of equity pedagogy instructional strategies to support the learning of all students.
Prerequisite: Elementary Education major.
Attributes: 3rd Year UF Quest

EDE 4942 Integrated Teaching in Elementary Education 2 Credits
Grading Scheme: S/U
This field component is an intensive experience completed during the integrated semester in language arts and social studies in the inclusive classrooms.
Prerequisite: EEX 3070;
Corequisite: EEX 4905

EDF 1005 Introduction to Education 3 Credits
Grading Scheme: Letter Grade
An introduction to education exploring historical, sociological, and philosophical foundations; school governance, finance, and policies; legal, moral, and ethical issues; and teacher professionalism for those interested in education generally, planning to become teachers, and/or pursuing a career in education broadly. 15 hours of field-based experience is required.

EDF 3083 International and Comparative Education 3 Credits
Grading Scheme: Letter Grade
Examines the political, economic, and cultural contexts of schooling in various parts of the world; introduces theoretical perspectives and comparative methods for interpreting the significance of educational policies and practices in light of globalization.
Prerequisite: EDF 3604.

EDF 3514 History of Education in the United States 3 Credits
Grading Scheme: Letter Grade
Development of American schools and major problems in American education. Emphasizes the relationships among the schools, intellectual movements, and social institutions.
Prerequisite: Sophomore standing or higher.

EDF 3604 Social Foundations of Education 3 Credits
Grading Scheme: Letter Grade
Educative effects of social structures and social values and the issues involved in appraising these effects, including the resulting social demands upon schools.
Prerequisite: Sophomore standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

EDF 3609 Sociological and Historical Foundations of Education 3 Credits
Grading Scheme: Letter Grade
A sociological and historical analysis of schooling in American society. Aims of education are examined in relation to social structures, institutions and values; subcultures; social stratification; school law; and democracy and the sociology of the teaching profession.
Prerequisite: Junior standing or higher or department permission.

EDF 4633 Anti-Black Racism in Education 3 Credits
Grading Scheme: Letter Grade
Engage in the active process of identifying and eliminating racism in educational spaces by changing systems, organizational structures, policies and practices, and attitudes by using an antiracist approach. Through antiracist readings and strategies, learn to interrogate and dismantle racism, white supremacy, power, and privilege within educational institutions, classrooms, and teaching practices.
Prerequisite: EDF 3604.

EDF 4930 Schools on Screen: American Education in Popular Media 3 Credits
Grading Scheme: Letter Grade
Explores how the movies and television have portrayed educators and students over time; investigates the ways in which those representations have helped to shape popular impressions of American schooling.
Prerequisite: EDF 3604.

EDG 2021 Critical Issues in Education 1 Credit
Grading Scheme: Letter Grade
Explores the broad field of education in a variety of traditional and nontraditional contexts. Introduces enduring issues in educational systems in the US and examines organizations and career fields focused on addressing these issues.

EDG 3062 School Community Connections 3 Credits
Grading Scheme: Letter Grade
Covers essential topics for examining and implementing existing models and practices for enhancing family-school-community interaction with emphasis on communication, conflict resolution, and climate-building skill development. Explore the connections between families, schools, and communities to understand how these relationships influence student growth and development, along with implications for practice.
Prerequisite: Elementary Education major (EED_BAE).

EDG 3341 Instructional Strategies for Diverse Learners 3 Credits
Grading Scheme: Letter Grade
Covers essential topics related to strategies used to teach K-12 learners with various backgrounds and experiences. Create engaging and rigorous lessons that support the success of all learners.
Prerequisite: Elementary Education major (EED_BAE).

EDG 3343 Equity Pedagogy Instructional Strategies 3 Credits
Grading Scheme: Letter Grade
An overview of how to plan instruction using Universal Design for Learning and Culturally and Linguistically Sustaining Pedagogy. These foundational approaches to instruction will help future teachers focus on the strengths of learners who come from diverse backgrounds, particularly those with a range of abilities, as they design learning environments to meet students' needs.
Prerequisite: Elementary Education major.

EDG 3346 Lesson Planning and Assessment for Diverse Learners 3 Credits
Grading Scheme: Letter Grade
Covers essential topics for teaching including learning theories, lesson planning, and assessment. Explore the connections between state standards, learning goals, assessments, data, and the careful selection of the methods and materials used to support student success.
Prerequisite: Elementary Education major (EED_BAE).

EDG 3410 Responsive Classroom Management 3 Credits
Grading Scheme: Letter Grade
Covers knowledge and skills related to designing a classroom environment and community to support all learners. Explore the connections between classroom routines, expectations, and relationships and how they contribute to student success.
Prerequisite: Elementary Education major (EED_BAE).

EDG 3623 Equity Pedagogy Foundations 3 Credits
Grading Scheme: Letter Grade
Explores the foundational concepts of race, class, ability, and sexuality as they impact schools and the children served in them. Students will examine the ways their own history and experiences have shaped their view of schools, schooling, and the children they will teach throughout their careers as educators.
Prerequisite: Elementary Education major.

EDG 4003 Global Issues in K - 12 Education 3 Credits
Grading Scheme: Letter Grade
Overview of current global issues and strategies for incorporating them into the K - college curriculum.
Prerequisite: Sophomore standing or higher.

EDG 4048 Teacher Research 3 Credits
Grading Scheme: Letter Grade
Teacher candidates will engage in the process of teacher inquiry as they focus on improving their practice and cultivating skills to advocate for themselves, their students, and the profession of teaching
Prerequisite: Elementary Education major.

EDG 4078 Experiential Learning in Education 3 Credits
Grading Scheme: S/U
Provides an opportunity to engage in experiential learning, as demonstrated by service learning, internship, undergraduate research, study abroad, school or industry liaison projects, or other projects approved by the instructor. Requires 150 hours in an approved experience.
Prerequisite: EDG 2021.
Attributes: 3rd Year UF Quest

EDG 4203 Elementary and Secondary Curriculum 3 Credits
Grading Scheme: Letter Grade
Purposes, organization, curriculum, and issues of elementary and secondary schools, and roles of educators.
Prerequisite: Sophomore standing or higher..

EDG 4442 Rethinking Discipline and Classroom Management 3 Credits
Grading Scheme: Letter Grade
Exploring classroom management as it currently exists in schools, developing the skills to work within this system while simultaneously challenging and disrupting common practices that have adversely affected many school children including Black and Brown students, students whose first language is not English, immigrant students, students with ability differences, LGBTQ students, and students who live in poverty.
Prerequisite: Elementary Education major.

EDG 4703 Equity Pedagogy Applications 3 Credits
Grading Scheme: Letter Grade
The application of pedagogical frameworks (Universal Design for Learning and Culturally and Linguistically Sustaining Pedagogy) in the implementation and assessment of instruction in the elementary classroom. Teacher candidates will examine minoritized identities (i.e., race, ability, gender and sexuality, etc.) and the ways these identities intersect with one another to impact how children experience schools and schooling.
Prerequisite: Elementary Education major.

EDG 4905 Individual Study 1-6 Credits
Grading Scheme: Letter Grade
Individual Study
Prerequisite: Sophomore standing or higher.

EDG 4910 Education Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Supports mentored scholarship work that enables engaging in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions, and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery, or application, depending on the topic.
Prerequisite: Sophomore standing or higher.

EDG 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Topics vary.
Prerequisite: Sophomore standing or higher.

EDG 4931 Senior Seminar Education Sciences 2 Credits
Grading Scheme: Letter Grade
Capstone course in the Education Sciences major for students to reflect on their Experiential Learning placement and the entire degree program to identify professional competencies to address critical issues in education and explore career services as they prepare for jobs and/or graduate school.
Prerequisite: EDG 2021.

EME 2020 Making Sense: Understanding the World With Data and AI 3 Credits
Grading Scheme: Letter Grade
Identify, describe, and explain the terms and concepts related to the application of AI to study practical problems in educational contexts, as well as the ethical and methodological challenges and limitations of such methods. Recognize connections between types of real-world data and appropriate problem-solving techniques involving AI modeling. Apply the basic strategies of extracting useful information from massive data pools to address practical problems. Analyze various types of data at scale using basic AI tools to examine students' learning outcomes and behavior, learners' attitudes to address potential learning problems, and evaluator suggest better learning practices. Draw connections between the education-focused datasets and problems and their respective appropriate AI methods to other disciplines. Reflect on both ethical and technical perspectives of the AI methods used in the analyses of the educational datasets. Communicate data and analysis outputs, make sense of the real-world by drawing facts from abstract, massive information, propose explainable narratives for making personal and group decisions. Work in a team-setting, develop and present a potential problem/topic and the solution in the education field via a set of real-world data, with a list of deliverables that can explain how your selected methods can solve/understand the problem. Connect the ongoing challenges and opportunities using AI in advancing student learning, as a junior research in-progress, how will you contribute to the field and make impact to human society.
Attributes: Quest 2, Artificial Intelligence, General Education - Social Science

EME 2040 Introduction to Educational Technology 3 Credits
Grading Scheme: Letter Grade
Introduces computer productivity (word processing, databases, spreadsheets, painting, drawing, layouts); multimedia (media design, digital video, presentation); communications (internet, Eric); educational software (computer-aided instruction, public domain software); interactive media (linked environments, one-to-many, presentations using electronic tools); reference materials (electronic encyclopedia, atlases, clip art, libraries, internet); instructional applications (techniques); and ethical.

EME 2042 Creating Enabling Technologies for Differently Abled People 3 Credits
Grading Scheme: Letter Grade
Addresses questions facing society around how, where, and why technologies may support all learners, particularly people who are differently abled.
Attributes: Quest 2, Satisfies 4000 Words of Writing Requirement

EME 3044 Issues and Trends in Educational Technology 3 Credits
Grading Scheme: Letter Grade
Introduces the field of educational technology and its history and allows an exploration of current topics and trends in educational technology research and application.
Prerequisite: EME 2040.

EME 3319 Design and Development of Educational Multimedia 3 Credits
Grading Scheme: Letter Grade
Introduces the principles, methods, and tools for the design and development of multimedia applications, including incorporation of sound, animation, still images, video, and other media in educational technology.
Prerequisite: EME 2040.

EME 3813 Technology-Enhanced Learning Environments 3 Credits
Grading Scheme: Letter Grade
Analyzes how people learn in technology-enhanced environments, outlines how the design of technology-enhanced systems can support or undermine learning, and considers critical issues for instructors, designers, and learners in the digital age.
Prerequisite: EME 2040.

EME 4010 Distance Education Research and Practice 3 Credits
Grading Scheme: Letter Grade
Examines the concepts, technologies, and issues related to the analysis, design, development, implementation, policy-making, and evaluation of distance education courses and programs. Create an online module based on design principles and quality guidelines.
Prerequisite: EME 2040.

EME 4320 Instructional Development for Teaching and Learning 3 Credits
Grading Scheme: Letter Grade
Design and develop instructional materials using emerging technologies. Topics include programming, authoring packages, design principles, and development procedures. Development includes web-based and mobile-based authoring and programming activities.
Prerequisite: EME 4673.

EME 4401 Integrating Technology in the Elementary Curriculum 3 Credits
Grading Scheme: Letter Grade
Prepares elementary majors to effectively use technology in teaching and learning.
Prerequisite: Admission to Elementary Education or Education Sciences degree programs.

EME 4406 Integrating Technology into the Secondary Curriculum 3 Credits
Grading Scheme: Letter Grade
Gain experience with curriculum design and course development, which assumes use of technology.
Prerequisite: Sophomore standing or higher.

EME 4673 Introduction to Instructional Design 3 Credits
Grading Scheme: Letter Grade
Introduces the processes, methods, and techniques involved with systematic design on instruction. Topics include needs assessment, goal analysis, learner and context analysis, performance objectives, assessment instruments, instructional strategies, development procedures, formative and summative evaluation.
Prerequisite: EME 2040.

ESE 4340C Effective Teaching and Classroom Management in Secondary Education 3 Credits
Grading Scheme: Letter Grade
Basic strategies for curriculum planning, instruction, classroom organization, and student behavior management.
Prerequisite: Sophomore standing or higher.

ESE 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
In-depth study of a problem that relates to preparation as secondary education teachers. The project must be approved and supervised by a department faculty member.
Prerequisite: Sophomore standing or higher.

LAE 3005 Children's Literature 3 Credits
Grading Scheme: Letter Grade
Introduces genres of children's literature, critical response theory, strategies for critically evaluating books for instructional and aesthetic purposes, and strategies for generating personal, critical and aesthetic responses to literature from diverse and inclusive student populations.
Prerequisite: Sophomore standing or higher.

LAE 4314 Language Arts for Diverse Learners 3 Credits
Grading Scheme: Letter Grade
Analysis of content, materials, and methods for teaching language arts in an inclusive elementary school classroom.
Prerequisite: Admission to the Elementary Education major.

LAE 4335 Introduction to Secondary English Language Arts Methods 3 Credits
Grading Scheme: Letter Grade
The purposes of this course are (a) to make connections among concepts in curriculum and instruction, literacy education, and the teaching of reading and writing, (b) to introduce the processes of planning curriculum, lessons, and activities that are aligned with assessment and that are based on strategies that support and challenge diverse learners, and (c) to build understandings of professional and ethical issues that are of concern to English Language Arts teachers.
Prerequisite: Admission to the minor in Secondary English Language Arts Education.

LAE 4604 Language Arts for Diverse Learners in Early Education 3 Credits
Grading Scheme: Letter Grade
Focuses on the early developmental levels of writing and different definitions of writing, including writing as composing, writing as spelling/encoding and writing as handwriting. Addresses instructional strategies appropriate for teaching young children to write and explores instructional approaches from different theoretical perspectives.
Prerequisite: RED 3309.

MAE 2364 Explorations Teaching Secondary Mathematics and Science 3 Credits
Grading Scheme: Letter Grade
Introduces prospective teachers to teaching secondary mathematics and science (grades 6-12).

MAE 3312 Mathematics Content for Elementary Teachers 3 Credits
Grading Scheme: Letter Grade
Analysis of the content and methods necessary to effectively teach content from the number, algebra, and geometry strands of mathematics in the inclusive elementary classroom. Provides pre-service teachers with the underlying content and pedagogical content knowledge necessary to effectively teach mathematics.
Prerequisite: Elementary Education major.

MAE 4310 Teaching Mathematics in the Inclusive Elementary School 3 Credits
Grading Scheme: Letter Grade
Analyzes content, materials and methods of teaching mathematics in the inclusive elementary classroom. Prepares the future teacher of mathematics for facilitation of instruction to meet the needs of all children, including children with disabilities.
Prerequisite: Admission to the Elementary Education major.

MAE 4310L Teaching Elementary Mathematics Lab 1 Credit
Grading Scheme: Letter Grade
An inquiry-based math lab to accompany MAE4310. Focused on hands-on activities related to foundational concepts in elementary mathematics, with an emphasis on family/community experiences, equity and social justice issues, and relationships to science, technology, engineering, and/or the arts.
Prerequisite: Elementary Education Major;
Corequisite: MAE 4310.

MUE 4940 Student Teaching in Music Education 9-10 Credits
Grading Scheme: S/U
Student teaching in selected classrooms of public schools. Special seminars and continuous evaluation of teaching experiences.
Prerequisite: MUE 4421 with a minimum grade of C or MUE 4422 with a minimum grade of C and Pass FTCE Music Content test.

RED 3210 Teaching Word Identification and Fluency in Elementary Reading 3 Credits
Grading Scheme: Letter Grade
Examine theory and practice for teaching reading in the elementary grades, K-6. Emphasis is on the word recognition and fluency strand within reading development. The purpose of this course is to provide students with theoretical and practical knowledge and experiences to build literacy teaching skills for elementary school.
Prerequisite: admission to Elementary Education program.

RED 3211 Teaching Language and Meaning Construction in Elementary Reading 3 Credits
Grading Scheme: Letter Grade
Examine theory and practice for teaching reading in the elementary grades, K-6. Emphasis is on the language and comprehension strand within reading development. The purpose of this course is to provide students with theoretical and practical knowledge and experiences to build literacy teaching skills for elementary school.
Prerequisite: admission to the Elementary Education program.

RED 3307 Teaching Reading in Primary Grades 3 Credits
Grading Scheme: Letter Grade
Studies constructivist theory of how children learn and the sociopsycholinguistic theory of language learning. Focuses on how children construct knowledge about and learn to use written language.
Prerequisite: Junior standing or higher.

RED 3309 Emergent Literacy and Beginning Reading Instruction 3 Credits
Grading Scheme: Letter Grade
Provides students with knowledge to support emergent literacy in young children and teaching beginning reading in the early primary grades. Designed to provide students with theoretical and practical knowledge and experiences that prepare them to teach in a variety of applicable educational settings.
Prerequisite: LIN 3710.

RED 3312 Content Area Literacy 3 Credits
Grading Scheme: Letter Grade
Studies the fundamental knowledge necessary to teach basic reading skills in the elementary school classroom.
Prerequisite: Junior standing or higher.

RED 4324 Reading in the Intermediate Grades 3 Credits
Grading Scheme: Letter Grade
Theory and practice for teaching reading in grades 3-6; develop expertise in literacy strategy and instruction in the classroom. Instruction is always embedded in the context of current educational policies. Become familiar with current research on reading, recent educational policy development, and issues of teaching in a diverse society.
Prerequisite: Formal admission to the upper division Unified Elementary ProTeach program.

RED 4844 Practicum in Reading 2 Credits
Grading Scheme: Letter Grade
Demonstrate knowledge and skill in implementing evidence-based instructional practices in reading in a field placement. Students will collect and analyze assessment data, plan instruction based on information from data, implement effective instruction, and monitor students' progress.
Prerequisite: RED 3307.

SCE 4113L Elementary Science Content 3 Credits
Grading Scheme: Letter Grade
Overview of integrated science content essential for developing K-6 science curriculum. The course includes science-specific pedagogy and translation of the science content knowledge into grade specific activities aligned with the national science content standards for K-12 and the Next Generation Sunshine State Standards.
Prerequisite: Elementary education majors

SCE 4310 Elementary Science Methods for the Inclusive Classroom 3 Credits
Grading Scheme: Letter Grade
Materials and methodology related to teaching the concepts and processes of science. Prepares pre-service teachers to teach science concepts and processes to all children, including those with disabilities.
Prerequisite: Admission to the Elementary Education major.

SCE 4310L Elementary Science Methods Lab 1 Credit
Grading Scheme: Letter Grade
An inquiry-based science lab to accompany SCE4310. Focused on learning lab procedures and safety practices, conducting scientific investigations, and deepening understanding of core science concepts required to teach science to elementary children.
Prerequisite: Elementary Education major;
Corequisite: SCE 4310.

SMT 3100 Knowing and Learning in Mathematics and Science Teaching 3 Credits
Grading Scheme: Letter Grade
Investigates theories of knowing and learning in mathematics and science and implications for teaching secondary mathematics and science.
Prerequisite: Sophomore standing or higher.

SMT 3301C Classroom Interactions in Mathematics and Science Education 3 Credits
Grading Scheme: Letter Grade
Overview of principles for teaching middle and secondary school mathematics or science through an exploration of the role of content, pedagogy, curriculum, and technology as they promote learning and impact equity.
Prerequisite: MAE 2364 with a minimum grade of C.
Corequisite: SMT 3100.

SMT 3664 Project-Based Instruction in Math and Science Education 3 Credits
Grading Scheme: Letter Grade
Overview of project-based instruction as an investigative and collaborative teaching approach in mathematics and science education.
Prerequisite: MAE 2364;
Corequisite: SMT 3100

SMT 4104 Informal STEM Practice 3 Credits
Grading Scheme: Letter Grade
This course is for students who are interested in learning about informal STEM education, including that practiced at museums, science centers, aquaria, zoos, and parks. The online portion will involve weekly lectures, readings, and discussions. The internship may occur at any approved physical or virtual venue of the student's choosing.
Prerequisite: SMT 3100.

SMT 4940 Research Internship in STEM Education 3 Credits
Grading Scheme: Letter Grade
This course is designed for advanced undergraduate students who are interested in gaining experience in STEM educational research. The course consists of a seminar and an internship. The seminar will involve weekly readings, learning activities and discussions. The course also includes an internship that is sponsored by a faculty member.
Prerequisite: Junior standing.

SMT 4945 Apprenticeship in Secondary STEM Teaching 4-6 Credits
Grading Scheme: Letter Grade
UFTeach capstone experience which applies previously learned techniques and theoretical perspectives of mathematics, science or computer science education within a secondary school classroom setting.
Prerequisite: MAE 2364 AND SMT 3100.

SSE 4312 Social Studies for Diverse Learners 3 Credits
Grading Scheme: Letter Grade
Studies goals, methods and evaluation procedures for social studies curriculum in elementary schools (K - 6).

SSE 4333 Introduction to Secondary Social Studies Methods 3 Credits
Grading Scheme: Letter Grade
Provides pre-service social studies teachers with a comprehensive overview of effective approaches to planning, implementing, managing, and assessing successful and effective learning experiences. Engage in critical, reflective discussions of research and practitioner journal articles focusing on exemplary social studies teaching methods and practice implementing these methods.
Prerequisite: Secondary Social Studies Education Minor student.

TSL 3323 ESOL and Reading for Teachers 3 Credits
Grading Scheme: Letter Grade
Develop an understanding of literacy teaching and learning, with a dual focus on native speakers of English and English language learners; focuses on methods and materials used to support the development of proficient and critical adolescent readers in academic content areas.
Prerequisite: Sophomore standing or higher.

TSL 3520 ESOL Foundations: Language and Culture in Classrooms 3 Credits
Grading Scheme: Letter Grade
Examines issues of language and culture relevant to school-age learners of English as a Second Language (ESOL).
Prerequisite: EED_BAE Elementary Education.

TSL 4100 ESOL Curriculum, Methods and Assessment 3 Credits
Grading Scheme: Letter Grade
Extends the understanding of ways that language and culture affect second-language learners' participation and learning in elementary classrooms. Create appropriate and challenging curriculum content, materials and assessments to create meaningful and equitable learning environments for native English speakers and second-language learners.
Prerequisite: TSL 3520.

TSL 4324 ESOL Strategies for Content Area Teachers 3 Credits
Grading Scheme: Letter Grade
Overview of the issues relevant to English as a Second Language (ESOL) learners and develops the skills to teach ESOL students in content area classes.
Prerequisite: EED_BAE Elementary or EYC_BAE Early Childhood major.

Electrical and Computer Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

Electrical engineers study electricity and design electrical systems that solve problems—how to make your smartphones smarter; how to make your refrigerator run more efficiently; coming up with the optimal temperature to heat pizza in your microwave; designing the audio and visual technology that brings movies to life.

Curriculum

- Combination Degrees
- Computer Engineering
- Electrical Engineering
- Electrical Engineering Minor

Although not specifically stated in each course description, the prerequisites for all courses, except those required by other departments, may include classification as an electrical engineering student in good standing. In order to use a course as a prerequisite for an EEE/EEL-prefixed course, a minimum grade of C is required in the prerequisite course.

Courses

CEN 3907C Computer Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
First course in computer engineering design sequence; reinforces critical computer engineering skills through laboratory practice and launch of capstone project. Students will develop a design plan and design prototype. The project will meet defined specifications and will be completed using a structured design methodology and project management techniques.
Prerequisite: CEN 3031 and EEL 3744C with minimum grades of C.
Corequisite: COP 4600

EEE 2000 Technology and Its Impact on Society 3 Credits
Grading Scheme: Letter Grade
Learn about electronic technology developments over the last 100 years and their impact on society – entertainment, politics, military, industry, etc.

EEE 3308C Electronic Circuits 1 4 Credits
Grading Scheme: Letter Grade
Fundamentals of electronic circuits and systems. Laboratory.
Prerequisite: EEL 3111C with minimum grade of C.

EEE 3396 Solid-State Electronic Devices 3 Credits
Grading Scheme: Letter Grade
Introduces the principles of semiconductor electron device operation. Laboratory.
Prerequisite: EEL 3008.

EEE 3773 Introduction to Machine Learning 4 Credits
Grading Scheme: Letter Grade
Covers introductory topics in pattern recognition and machine learning and use of these methods towards a variety of real world applications. The focus of this course is to be introduced to basic machine learning concepts and how to use associated state-of-the-art machine learning tools.
Prerequisite: EEL 3135.

EEE 4210 Introduction to Biophotonics 3 Credits
Grading Scheme: Letter Grade
Introduces the principles of optics, lasers and biology, the interaction of light with cells and tissues, and various optical imaging, sensing and activation techniques and their applications in biomedicine.
Prerequisite: EEL 3003 or EEL 3111C with minimum grade of C.

EEE 4222 Resonant MEMS 3 Credits
Grading Scheme: Letter Grade
Fundamentals of resonant micro-electro-mechanical systems (resonant MEMS) and their applications.
Prerequisite: EEE 3396C with a minimum grade of C or instructor permission.

EEE 4260 Bioelectrical Systems 3 Credits
Grading Scheme: Letter Grade
Covers the theoretical and quantitative perspective of bioelectrical signals reflecting the activity of the brain, the muscles, and the heart. Examines bases of modeling, measuring, processing and analyzing bioelectrical signals and systems, as well as common clinical applications. Laboratory.

EEE 4306 Electronic Circuits 2 3 Credits
Grading Scheme: Letter Grade
Design-oriented continuation of EEE 3308C; feedback, op amp circuits and applications, digital electronics.
Prerequisite: EEE 3308C and EEL 3008 and EEL 3112 with minimum grades of C.

EEE 4310 VLSI Circuits and Technology 1 3 Credits
Grading Scheme: Letter Grade
Introduction to VLSI circuit technology and manufacturing. Fabrication, device models, layout, parasitics, and simple gate circuits.
Prerequisite: EEE 3308C and EEL 3701C.

EEE 4329 Future of Microelectronics Technology 3 Credits
Grading Scheme: Letter Grade
Surveys state-of-the-art microelectronics technology and prospects for future technologies. Topics include nanoscale MOSFETs, strained Si, high-k gate dielectrics, carbon nanotubes, molecular electronics and single-electron devices.
Prerequisite: EEE 3396C or equivalent.

EEE 4331 Microelectronic Fabrication Technologies 3 Credits
Grading Scheme: Letter Grade
Principles of microelectronic device fabrication. Emphasis on the fundamentals of microfabrication processing and microelectronic device process flows.
Prerequisite: EEE 3396C.

EEE 4373 Radio Frequency Integrated Circuits 1 3 Credits
Grading Scheme: Letter Grade
Fundamental RF theory (such as resonant circuits, matching, noise and transmission lines), radio operation and design of key RF circuit blocks (such as amplifiers, mixers, and oscillators).
Prerequisite: EEE 3308C.

EEE 4375 Introduction to RF Circuits 3 Credits
Grading Scheme: Letter Grade
Introduction to radio frequency (RF) fundamentals and related circuits with topics of impedance matching, Smith Chart, s-parameters, waveguides, resonators, filters, active devices, and amplifiers.
Prerequisite: EEE 3308C with a minimum grade of C and EEL 3472 with a minimum grade of C.

EEE 4404 Mixed Signal IC Testing I 3 Credits
Grading Scheme: Letter Grade
Fundamentals of testing IC devices and systems: test specifications, parametric training, measurement accuracy, test hardware, sampling theory, digital signal processing based testing, and calibrations. Circuit analysis and design with analog and mixed-signal systems. Labs on testing passive components, LDOs, Op-amps, DACS/ADCs, Mixed-Signal ICs LabVIEW and the National Instruments Savage Tester.
Prerequisite: EEE 3308C and EEL 3701C with minimum grades of C.

EEE 4414 Modern Memory Device Technologies 3 Credits
Grading Scheme: Letter Grade
State-of-the-art volatile and nonvolatile memory device technologies and their limitations. Emerging memory device technologies, including those that could be adopted by industry in the next decades due to their potential performance, density, power and cost advantages.
Prerequisite: EEE 3396C

EEE 4420 Introduction to Nanodevices 3 Credits
Grading Scheme: Letter Grade
Physical principles of modern solid-state devices and their applications, quantum mechanics and fundamentals of nanoelectronics.
Prerequisite: EEE 3396C.

EEE 4423 Introduction to Quantum Computing 3 Credits
Grading Scheme: Letter Grade
Introduces quantum computing concepts and hardware implementations in a self-contained manner and discusses fundamentals of quantum mechanics. Also introduces important concepts of superposition and entanglement, hardware realization of quantum computing technologies, and quantum computing algorithms.
Prerequisite: EEE 3396 with a minimum grade of C and (MAS 3114 with a minimum grade of C or EEL 3850 with a minimum grade of C).

EEE 4511C Real Time Digital Signal Processing Applications 4 Credits
Grading Scheme: Letter Grade
Real world digital signal processing (DSP) tasks are presented and solved in a lab environment that utilizes a Floating Point DSP and a development simulation and hardware emulation tool. Laboratory.
Prerequisite: EEL 3135 and EEL 3744C.

EEE 4701 Automated Hardware/Software Verification 3 Credits
Grading Scheme: Letter Grade
Develop modeling, formal specification, and automated verification skills for analyzing complex hardware and/Or software systems. Hands-on experience with model checking tools.
Prerequisite: EEL 3744C or equivalent and COP 3530 or equivalent.

EEE 4714 Introduction to Hardware Security and Trust 3 Credits
Grading Scheme: Letter Grade
Fundamentals of hardware security and trust for integrated circuits. Cryptographic hardware, invasive and non-invasive attacks, side-channel attacks, physically unclonable functions (PUFs), true random number generation (TRNG), watermarking of Intellectual Property (IP) blocks, FPGA security, counterfeit detection, hardware Trojan detection, and prevention in IP cores and integrated circuits.
Prerequisite: EEL 4712C with minimum grade of C.

EEE 4720 Acoustics 3 Credits
Grading Scheme: Letter Grade
Governing equations for wave theory of sound; Character of plane acoustic waves and 3-D acoustic fields; Sound transmission/reflection at an interface between two media; Waves transmission/attenuation inducts; Low frequency approximations (lumped-element modeling) and transducers; sources of sound.
Prerequisite: MAP 2302 and (EEL 3111C or EEL 3003) with minimum grades of C or instructor permission.

EEE 4740 Physical Attacks and Inspection of Electronics 3 Credits
Grading Scheme: Letter Grade
Focuses on the physical inspections, physical attacks, reverse engineering, counterfeit detection, etc. of electronics from the device to system level using advanced microscopy, failure analysis techniques combined with image analysis and machine learning. In additions, students will also learn about the associated countermeasures.
Prerequisite: EEL3112 with a minimum grade of C.

EEE 4773 Fundamentals of Machine Learning 3 Credits
Grading Scheme: Letter Grade
Overview of machine intelligence and the role of machine learning in a variety of real-world problems. Probability and statistics to handle uncertain data. Topics covered include: learning models from data in both a supervised and unsupervised fashion, linear models and non- linear models for classification, and linear dimensionality reduction.
Prerequisite: EEL 3135 and EEL 3850 with minimum grades of C.
Attributes: Artificial Intelligence

EEE 4800 Neural Signals, Systems, and Technology 3 Credits
Grading Scheme: Letter Grade
Biophysical principles of neural signaling; characterization of neural circuits and systems; technology design principles for interfacing with biological neural systems; overview of clinical and consumer applications for neurotechnology and artificial intelligence.
Prerequisite: EEL 3850 with a minimum grade of C.

EEL 3000 Introduction to Electrical Engineering 2 Credits
Grading Scheme: Letter Grade
Introduces the profession of electrical engineering. Presents career development and enhancement, professional codes of conduct, ethics, entrepreneurship, intellectual property, professional societies. Projects provide hands-on experience with soldering, MATLAB programming, and microcontrollers.
Prerequisite: MAC 2311 with minimum grade of C or appropriate AP/IB score and Electrical Engineering majors only.

EEL 3008 Physics of Electrical Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental physics underlying components and devices and their application to electronics, power, and wireless.
Prerequisite: EEL 3111C and MAC 2313 and MAP 2302.

EEL 3111C Circuits 1 4 Credits
Grading Scheme: Letter Grade
Basic analysis of DC and AC electric circuits. Laboratory.
Prerequisite: MAC 2312 and PHY 2049.

EEL 3112 Circuits 2 3 Credits
Grading Scheme: Letter Grade
Continuous-time signals and linear systems: Fourier series and transforms, frequency, response, Laplace transform and system function, analog filters; emphasis on electrical circuits. Sampling.
Prerequisite: EEL 3000 and EEL 3111C and EEL 3135 and EGN 2020C and MAP 2302, all with minimum grades of C.

EEL 3135 Introduction to Signals and Systems 4 Credits
Grading Scheme: Letter Grade
Continuous-time and discrete-time signal analysis including Fourier series and discrete-time and discrete Fourier transforms; sampling; discrete-time linear system analysis with emphasis on FIR and IIR systems: impulse response, frequency response, and system function; MATLAB-based programming for Signals and Systems.
Prerequisite: MAC 2313 and (EEL 3834 or COP 3503Cor COP 3504C or COP 2274) all with minimum grades of C.

EEL 3211C Basic Electric Energy Engineering 4 Credits
Grading Scheme: Letter Grade
Analysis and modeling of power system components. Magnetic circuits, energy conservation, transformers, and AC and DC rotating machines. Laboratory.
Prerequisite: EEL 3008.

EEL 3402 Remote Sensing in Engineering: Science, Sensors and Applications 3 Credits
Grading Scheme: Letter Grade
Remote sensing theory, systems and applications using information obtained from the visible/near infrared, thermal infrared and microwave regions of the EM spectrum.
Prerequisite: MAP 2302 or equivalent.

EEL 3472 Fundamentals of Electromagnetic Fields 3 Credits
Grading Scheme: Letter Grade
Transmission lines, vector analysis, electrostatics, magnetostatics, time-varying fields, plane waves.
Prerequisite: EEL 3008.

EEL 3701C Digital Logic and Computer Systems 4 Credits
Grading Scheme: Letter Grade
Overview of logic design, algorithms, computer organization and assembly language programming and computer engineering technology. Laboratory.
Prerequisite: Knowledge of a programming language.

EEL 3834 Programming for Electrical Engineering 1 3 Credits
Grading Scheme: Letter Grade
Develops computer skills and the art of writing sound computer programs using examples and exercises relevant to electrical and computer engineering.

EEL 3850 Data Science for ECE 4 Credits
Grading Scheme: Letter Grade
Analysis, processing, simulation, and reasoning of data. Includes data conditioning and plotting, linear algebra, statistical methods, probability, simulation, and experimental design.
Prerequisite: MAC 2312 and (EEL 3834 or COP 3503 or COP 3504C or COP 2274), all with minimum grades of C.

EEL 3923C Electrical Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Teams design, produce, and report on a hardware prototype, meeting defined specifications and using a structured design methodology. Includes project management, hardware prototyping, and project reporting.
Prerequisite: (EEE 3308C and EEL 3112 and EEL 3701C with minimum grades of C) and 2 courses from breadth elective list.

EEL 4242C Power Electronic Circuits 3 Credits
Grading Scheme: Letter Grade
Circuit topologies, analysis, design and simulation of electronic circuits such as power supplies, and motor drives.
Prerequisite: EEL 3308.

EEL 4248 Fundamentals of RF and Power Electronic Devices 3 Credits
Grading Scheme: Letter Grade
Introduces important semiconductor device technologies for high speed electronics, power electronics, and energy harvesting applications.
Prerequisite: EEE 3396C.

EEL 4251 Power System Analysis 3 Credits
Grading Scheme: Letter Grade
Development of power system equivalents by phase network analysis, load flow, symmetrical components, sequence networks, and fault analysis.
Prerequisite: EEL 3211C.

EEL 4271 Power System Protection 3 Credits
Grading Scheme: Letter Grade
Power systems protection analytical methodologies and algorithms. Analyzes different methods for equipment and systems protection and discusses wide-area monitoring techniques, which allow real-time operation and control. Introduces cyber-physical security approaches for the smart grid and realizes numerical construction of protection methods considering realistic engineering hypothesis.
Prerequisite: EEL 4251 or instructor permission.

EEL 4287 Smart Grid for Sustainable Energy 3 Credits
Grading Scheme: Letter Grade
Survey of power grid operations and markets for students with interest in power systems and/or sustainable energy. Characteristics of traditional and new energy resources; how resources impact the grid; control on many time-scales; how the power grid and power markets of tomorrow will differ from those of today.
Prerequisite: EEL 4657C.

EEL 4403 Computational Photography 3 Credits
Grading Scheme: Letter Grade
Fundamentals of computational photography, sensing, imaging and illumination.
Prerequisite: EEL 3135 with a minimum grade of C.

EEL 4412 Applied Magnetics and Magnetic Materials 3 Credits
Grading Scheme: Letter Grade
Introduces magnetism, magnetic materials, and magnetic devices; offers a balance of theory and application from an applied engineering perspective.
Prerequisite: EEL 3008 or instructor permission.

EEL 4421 RF/Microwave Passive Circuits 3 Credits
Grading Scheme: Letter Grade
Radio frequency (RF)/microwave passive components and circuits such as transmission lines, waveguides, couplers, filters, and resonators.
Prerequisite: EEL 3472C with a minimum grade of C.

EEL 4440 Optical Communication Systems 3 Credits
Grading Scheme: Letter Grade
Introduces electromagnetic waves, dielectric waveguides and fibers, propagation characteristics of fibers, characterization methods, LEDs and laser diodes, photodetector optical receivers and communication systems.
Prerequisite: EEE 3396C and EEL 3472C.

EEL 4446 Laser Theory and Design 3 Credits
Grading Scheme: Letter Grade
Studies the field of semiconductor optoelectronics and the physics of optoelectronic devices including the interaction of photons with electrons and holes in a semiconductor leading to the realization of optoelectronic devices such as photon amplifiers, LEDs, diode lasers, electro-absorption modulators, and detectors, including their design and application-specific characteristics.
Prerequisite: EEL 3008 or instructor permission.

EEL 4458 Fundamentals of Photonics 3 Credits
Grading Scheme: Letter Grade
Reviews electromagnetic fields and waves, energy bands in semiconductors, p-n junctions and optical properties of semiconductors. Fundamentals of optical modulators and waveguides and photonic applications.
Prerequisite: EEL 3472C and EEE 3396C.

EEL 4461 Antenna Systems 3 Credits
Grading Scheme: Letter Grade
Electromagnetic field theory and its application to antenna design.
Prerequisite: EEL 3472C.

EEL 4473 Electromagnetic Fields and Applications 3 Credits
Grading Scheme: Letter Grade
Rigorously develops the properties of electric and magnetic fields. Maxwell's Equations form the foundation for understanding the fundamental nature and application-driven aspect of static and dynamic fields and their derivation from scalar and vector potentials. Fields in media is examined along with energy considerations and propagation effects.
Prerequisite: EEL 3472C.

EEL 4495 Lightning 3 Credits
Grading Scheme: Letter Grade
Introduces lightning discharge processes. Electromagnetics relevant to lightning measurements. Applications for determining lightning charge, current, location and characteristics. Lightning protection.
Prerequisite: EEL 3472C.

EEL 4514C Communication Systems and Components 4 Credits
Grading Scheme: Letter Grade
Theory of communication and applications to radio, television, telephone, satellite, cellular telephone, spread spectrum and computer communication systems. Laboratory.
Prerequisite: EEL 3112 (with minimum grade of C) and EEL 3850 (with minimum grade of C).

EEL 4516 Noise in Devices and Communication Systems 3 Credits
Grading Scheme: Letter Grade
Origin, characterization and measurement of random noise. Calculation of signal-to-noise ratios and probability of errors in communication systems.
Corequisite: EEL 4514C.

EEL 4523 Audio Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces audio and sound engineering that includes the underlying theory of acoustics, electronics and signal processing; demonstrates modern audio engineering practice as applied to music, home audio, recording and sound reinforcement.
Prerequisite: EEL 3111C or EEL 3003, or instructor permission.

EEL 4540 Introduction to Radar 3 Credits
Grading Scheme: Letter Grade
Basic principles of cw and pulsed radar; angle, range, and Doppler tracking; accuracy and resolution; signal design.
Prerequisite: EEL 4514C.

EEL 4598 Computer Communications 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and practice of computer networking, emphasizing data communication, and the lower layers of the OSI and TCP/IP protocol architectures.
Prerequisite: (EEL 3834 or COP 3503C or COP 3504C or COP 2274 or equivalent), all with minimum grades C and junior standing or higher.

EEL 4599 Wireless and Mobile Networks 3 Credits
Grading Scheme: Letter Grade
Senior-level study of wireless and mobile networks. Investigates telecommunication architectures and protocols for wireless sensor networks and wireless embedded systems; Wi-Fi and wireless local area networks; mobile ad-hoc networks; next generation cellular systems and satellite networks.
Prerequisite: EEL 3701C.

EEL 4610 State Variable Methods in Linear Systems 3 Credits
Grading Scheme: Letter Grade
Development of state-variable approach to linear continuous-time and discrete-time systems with emphasis on the design of feedback control systems.
Prerequisite: EEL 4657C.

EEL 4651 Control of Biological Systems 3 Credits
Grading Scheme: Letter Grade
The automatic control principles that govern critical processes in human biology are explored. Through the development of mathematical models of biological systems, the course creates an understanding of metabolic, immunologic, and genetic processes. Applications include the manufacture of vaccines, monoclonal antibodies, cancer treatments, insulin, and many others.
Prerequisite: (BSC 2005 with a minimum grade of C or AP Biology) and (EEL 4657C with a minimum grade of C or EEL 4610 with a minimum grade of C or EEL 3135 with a minimum grade of C).

EEL 4657C Linear Control Systems 4 Credits
Grading Scheme: Letter Grade
Theory and design of linear control systems. Laboratory.
Prerequisite: EEL 3112 (with minimum grade of C) and EEL 3850 (with minimum grade of C)..

EEL 4665C Intelligent Machines Design Laboratory 4 Credits
Grading Scheme: Letter Grade
Design simulation, fabrication, assembly and testing of intelligent robotic machines. Laboratory.
Prerequisite: (EEL 3744C or EML 3005) or instructor permission.
Attributes: Artificial Intelligence

EEL 4712C Digital Design 4 Credits
Grading Scheme: Letter Grade
Advanced modular logic design, design languages, finite state machines and binary logic. Laboratory.
Prerequisite: EEL 3701C.

EEL 4713C Digital Computer Architecture 4 Credits
Grading Scheme: Letter Grade
The use of electronic digital modules to design computers. Includes the organization and operation of computers, hardware/software trade-offs and design of computer interfacing. Laboratory.
Prerequisite: EEL 3701C and EEL 4712C.

EEL 4720 Reconfigurable Computing 3 Credits
Grading Scheme: Letter Grade
Fundamental concepts at advanced undergraduate level in reconfigurable computing based upon advanced technologies in field-programmable logic devices. Topics include general concepts, device architectures, design tools, metrics and kernels, system architectures and application case studies.
Prerequisite: EEL 4712C.

EEL 4732 Advanced Systems Programming 3 Credits
Grading Scheme: Letter Grade
Develop a deep understanding of operating system concepts and systems programming fundamentals and gain hands-on experience in systems programming by using Pthreads as well as implementing Linux device drivers and testing/verifying systems code for deadlock and race-freedom.
Prerequisite: EEL 3701C and (COP 2271 or COP 2273 or COP 2274 or COP 3502 or COP 3502C or COP 3503 or COP 3503C or COP 3504 or COP 3504C or EEL 3834 or equivalent) and COP 4600.

EEL 4736 Principles of Computer System Design 3 Credits
Grading Scheme: Letter Grade
Broadly introduces the main principles and abstractions for engineering hardware and software systems. Includes in-depth studies of their use on computer systems across a variety of designs, be it an operating system, a client/server application, a database server or a fault-tolerant disk cluster.
Prerequisite: EEL 4712C and (EEL 3834 or COP 3503C or COP 3504C or COP 2274 or equivalent), all with minimum grades of C.

EEL 4744C Microprocessor Applications 4 Credits
Grading Scheme: Letter Grade
Experience in the elements of microprocessor-based systems, hardware interfacing and software design for their application. Laboratory.
Prerequisite: EEL 3701C (with minimum grade of C) and (EEL 3834 or COP 3503C or COP 3504C or COP 2274 or equivalent with minimum grades of C).

EEL 4745C Microprocessor Applications 2 4 Credits
Grading Scheme: Letter Grade
Implementation of a Real-Time Operating System on an ARM Cortex M processor to create more robust and complex microprocessor applications. Introduction to IoT applications.
Prerequisite: EEL 3744C with minimum grade of C and proficiency in programming in C.

EEL 4750 Foundations of Digital Signal Processing 3 Credits
Grading Scheme: Letter Grade
Analysis and design of digital filters for discrete signal processing, spectral analysis and fast Fourier transform.
Prerequisite: EEL 3135.

EEL 4837 Programming for Electrical Engineering 2 3 Credits
Grading Scheme: Letter Grade
Fundamentals of data structures and algorithms, including lists, queues, stacks, divide-and-conquer, dynamic programming, trees, tables, graphs and recursive techniques. The role of specific data structures in electrical engineering applications.
Prerequisite: EEL 3834 or COP 2274 or COP 3503C or COP 3504C or equivalent, all with minimum grades of C.

EEL 4853 Cross Layered System Security 3 Credits
Grading Scheme: Letter Grade
Develop an understanding of the principles of computer security, as it crosses layers of abstraction (application, operating system, hardware, and network). Learn the challenges of building secure computer systems with examples and hands-on assignments. Current research on these challenges will be discussed. Students will review and present conference papers.
Prerequisite: (EEL 3834 or COP 3503C or COP 3504C or COP 2274 or equivalent) and (EEL 4736 or equivalent), all with a minimum grades of C.

EEL 4905 Individual Problems in Electrical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of engineering study.

EEL 4912 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
First part of two in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EEE 3308C and EEL 3701C.

EEL 4913 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
Second part of two in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EEL 4912.

EEL 4924C Electrical Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Selected design projects involving engineering applications in the various areas of electrical engineering. Laboratory.
Prerequisite: EEL 3923C and two breadth electives and one depth elective.

EEL 4930 Special Topics in Electrical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Special courses covering selected topics in electrical engineering.

EEL 4948 Practical Work in Electrical and Computer Engineering 3 Credits
Grading Scheme: S/U
One term industrial employment, including extra work according to a pre-approved outline. Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations.
Prerequisite: EEL 3111C and EEL 3701C and sophomore standing or consent of undergraduate coordinator/supervising faculty mentor. Must have a full time internship defined as working for a minimum of 40 hours per week for a minimum of 10 weeks (400 hours).

EEL 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Practical co-op engineering work under approved industrial supervision.
Prerequisite: Engineering major.

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Department permission.

Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

CGN 2328 Technical Drawing and Visualization 3 Credits
Grading Scheme: Letter Grade
Two- and three-dimensional graphical methods of visualizing and communicating features of projects for construction involving parcel boundaries, topography, drainage, site modeling, site development, structures, buildings and objects using both traditional and computer-aided drafting and design techniques.
Prerequisite: minimum 2EG classification.

CGS 2531 Problem Solving Using Computer Software 3 Credits
Grading Scheme: Letter Grade
Problem-solving introduction and thorough exploration of word processing, spreadsheet management, data analysis, graphical display of data, and multimedia presentations. The problem-solving approach also aids students in their specific majors through software applications requiring major-specific professional communication skills in written, graphical, and presentation forms. (M)
Attributes: General Education - Mathematics

COP 2271 Computer Programming for Engineers 2-3 Credits
Grading Scheme: Letter Grade
Computer programming and the use of computers to solve engineering and mathematical problems. Emphasizes applying problem solving skills; directed toward technical careers in fields employing a reasonably high degree of mathematics. The programming language used depends on the demands of the departments in the college. Several languages may be taught each semester, no more than one per section. Those required to learn a specific language must enroll in the correct section.
Prerequisite: MAC 2312 with minimum grade of C.

COP 2271L Computer Programming for Engineers Laboratory 1 Credit
Grading Scheme: Letter Grade
Optional laboratory for COP 2271. Required for ISE majors.
Prerequisite: MAC 2312;
Corequisite: COP 2271.

COP 2273 Python Programming for Engineers 3 Credits
Grading Scheme: Letter Grade
Introduction for those who have little experience in programming and have been looking to obtain hands-on learning experience in the Python programming language. Encourages developing problem solving and computational thinking skills in an engineering field and emphasizes a reasonably high degree of mathematics.
Prerequisite: MAC 2311 with a C grade or better.

COP 2274 C++ Programming for Engineers 3 Credits
Grading Scheme: Letter Grade
Introductory course for those who have little experience in programming and have been looking to obtain a hands-on learning experience to the C ++ programming language. Developing problem solving and computational thinking skills in an engineering field is encouraged in this course and emphasized with a reasonably high degree of mathematics.
Corequisite: MAC 2311.

EEL 3003 Elements of Electrical Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces the theory and practice of electrical engineering for those not majoring in electrical engineering. Discusses circuits, machines, electronics and systems.
Prerequisite: MAC 2313 and PHY 2049.

EEL 3872 Artificial Intelligence Fundamentals 3 Credits
Grading Scheme: Letter Grade
An overview of Artificial Intelligence (AI), approaching the concept from its origins to expectations for the future. The course will focus on various AI technologies, how to build Machine Learning models, and how to apply AI tools to solve real-world problems. Some concepts that will be introduced in the course are types of AI and Machine Learning, Hacking and the IoT, AI today, and its outlook for the future.
Prerequisite: Junior standing or above, or instructor permission.
Attributes: Artificial Intelligence

EGM 3400 Elements of Dynamics 2 Credits
Grading Scheme: Letter Grade
Dynamics of particles and rigid bodies for rectilinear translation, curvilinear motion, rotation and plane motion. Also includes principles of work and energy, and impulse and momentum.
Prerequisite: EGM 2511 and (MAC 2313 with a minimum grade of C).

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 2020C Engineering Design & Society 2 Credits
Grading Scheme: Letter Grade
Introduction to emphasizing the human-centered design process to address societal challenges. Explore solid modeling, introductory programming, sensors, data acquisition, and 3D printing as maker tools for engineering prototyping. In a team environment, utilize multidisciplinary approaches, project management, and written and oral communication skills to create societal-based designs.

EGN 4641 Engineering Entrepreneurship 3 Credits
Grading Scheme: Letter Grade
Engineering Entrepreneurship introduces engineering students to the concepts and practices of technological entrepreneurial thinking and entrepreneurship. Using lectures, case studies, business plans and student presentations, the course teaches life skills in entrepreneurial thought and action that students can utilize when starting technology companies or executing research and development projects in large companies.
Prerequisite: Junior standing or higher.

EGN 4643 Engineering Innovation 3 Credits
Grading Scheme: Letter Grade
Engineering Innovation introduces students to the concepts of innovative thinking and innovation practices. Using lectures, case studies, team exercises and guest speakers, the course teaches life skills in innovative thought and action that students can use in careers ranging from starting companies to executing research and development projects in large companies.
Prerequisite: Junior standing or higher.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: Department permission.

EGN 4932 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Covers selected, rotating topics in engineering.

EGN 4940 NSF Fellowship Preparation 1 Credit
Grading Scheme: Letter Grade
Overview of fellowship preparation pertaining to intellectual merit and broader impacts.

EGN 4949 Engineering Internship/Co-op 1-3 Credits
Grading Scheme: S/U
Practical Internship/Co-Op Work Experience Under Approved Industrial Supervision.
Prerequisite: Engineering major.

EGN 4951 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
A two-semester-course sequence in which multidisciplinary teams of engineering students partner with industry sponsors to design and build authentic products and processes—on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: prereqs are the same as the equivalent departmental capstone courses;
Corequisite: coreqs are the same as the equivalent departmental capstone courses.

EGN 4952 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
A two-semester-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes—on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EGN 4951.

EGN 4956 International Studies in Engineering 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved UF study abroad program and undergraduate programs director permission through advising form.

EGS 1006 Introduction to Engineering 1 Credit
Grading Scheme: Letter Grade
Introduces the 11 departments that offer undergraduate degrees at UF. Students break into groups of 20, rotating weekly through each department. During these visits, students participate in hands-on experiments to help them make informed decisions about career alternatives.

EGS 2036 Fundamentals of the New Engineer 1 Credit
Grading Scheme: Letter Grade
Fundamentals of the New Engineer introduces students to key attributes of 21st century engineering leaders and innovators. Student learn concepts and practice of engineering leadership and innovation through study of the “Attributes of a New Engineer”; Creativity, Leadership, Integrity, Professional Excellence, and Service to the Global Community.

EGS 4034 Engineering Ethics and Professionalism 1 Credit
Grading Scheme: Letter Grade
Provides an interactive study of ethical theory and the development of professionalism; review case studies of ethical conflicts in engineering practice. Also covers engineering codes of ethics to resolve theoretical situations through application of ethical codes.
Prerequisite: Undergraduate engineering or computer science (CLAS) students and junior level or above.

EGS 4038 Engineering Leadership 3 Credits
Grading Scheme: Letter Grade
Engineering Leadership introduces engineering graduate students to the concepts, theory and practice of engineering leadership; effective written and oral communications and presentations; engineering leadership characteristics, individual differences and self-awareness; developing and building teams; managing change, conflicts, and crises; and understanding real-world ethics and core values.
Prerequisite: Junior standing or higher.

EGS 4100 Divergent Thinking 3 Credits
Grading Scheme: Letter Grade
Acquire divergent thinking skills to support the engineering design process. Emphasizes the importance of practices such as observing, questioning, learning, and experimenting; Stresses cultivating an openness to new experiences In order to generate ideas and devise solutions to complex design problems.
Prerequisite: junior or senior level standing.

EGS 4619 Agile Project Management for Engineers and Scientists 3 Credits
Grading Scheme: Letter Grade
Students will receive with a comprehensive understanding of the agile mindset, and why agility is often needed when managing complex-adaptive products and projects in a volatile and uncertain environment. The course promotes agile thinking and applications using the Scrum framework and identifies conditions that enable (and disable) personal and organizational agility.
Prerequisite: Junior or senior level status.

EGS 4625 Fundamentals of Engineering Project Management 3 Credits
Grading Scheme: Letter Grade
Provides a comprehensive understanding of how to plan, optimize, and efficiently manage projects (or tasks) to implement products, services, or developments. Includes building the structure, processes, components, and linkages with a team for successful project delivery within schedule, budget, and quality requirements.
Prerequisite: Engineering student of junior standing or higher.

EGS 4680 Advanced Engineering Leadership Development 3 Credits
Grading Scheme: Letter Grade
Further develops the leadership framework and capabilities; involves a case study-based instructional approach that reviews and applies strategic leadership concepts and knowledge critical to the success of engineering-based companies that operate in a highly uncertain and volatile business environment.
Prerequisite: EGS 4038 or instructor permission.

EML 3007 Elements of Thermodynamics and Heat Transfer 3 Credits
Grading Scheme: Letter Grade
Applications of first and second laws of thermodynamics to closed and open systems. Steady one-dimensional conduction, lumped parameter analysis, convection, radiation. Intended for non-mechanical engineering students.
Prerequisite: CHM 2045 and MAC 2313 and PHY 2048.

English

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (https://one.uf.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of English fosters a dynamic nexus of critical thinking, writing, and making. English offers students innovative opportunities for individual and collaborative learning through BA, MFA, and PhD programs. Students work with a variety of materials, including: global Anglophone

literature, African American literature, children's literature, comics, critical theory, digital modes, film and media. In-house journals and media reflect the scholarly, creative, and interdisciplinary work done by the department. Active across campus through its affiliations, English produces next-generation arts and humanities.

Curriculum

- English
- English Minor

Courses

AML 2070 Survey of American Literature 3 Credits
Grading Scheme: Letter Grade
This class will survey American literature and narrative from the precolonial period through to the present, largely structured chronologically. Throughout our class, we will read famous, well-known texts that are considered part of the Western canon and lesser-known texts or texts that are not often featured in general-education literature syllabi. The canon refers to the body of literature that is considered high-quality, artistic, and valued representations of American identity.
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AML 2410 Issues in American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Introduces some of the most important issues that arise in the study of American literature and culture. The instructor determines the breadth and focus of the topic. (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: Satisfies 6000 Words of Writing Requirement

AML 3041 American Literatures 2 3 Credits
Grading Scheme: Letter Grade
Selected texts from 1865 to the present, in diverse historical and cultural contexts, usually organized around a theme or several themes.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

AML 3284 Surveys in American Women's Literatures 3 Credits
Grading Scheme: Letter Grade
Surveys traditions in American women's writings, covering a wide range of texts or focusing on a single theme, genre, period, literary movement, or cultural tradition. Topics may include women's writings about feminism, family, work, nationalism, or social justice; women's autobiography, poetry, experimental prose, or domestic fiction; 19-century literature by women, contemporary women's poetry or colonial women's writing; realist, postmodern, or sentimental fiction by American women; African American, New England, Native American, Southern, or working-class writing; Chicano, Latina, or lesbian literary traditions. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

AML 3285 Variable Surveys of American Literatures 3 Credits
Grading Scheme: Letter Grade
The rich cultural traditions found in American literature. Topics may include gay and lesbian, Jewish American, Chicano/a, Latino/a, Native American, Southern, and other literatures. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

AML 3605 African American Literature 1 3 Credits
Grading Scheme: Letter Grade
Surveys the development of African American literature from its beginning to 1945.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

AML 3607 African American Literature 2 3 Credits
Grading Scheme: Letter Grade
Surveys the development of African American Literature from 1945 to the present.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

AML 3673 Asian American Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics or survey focus on the major issues, movements or themes in the study of Asian American literature and culture from the beginnings to the present. Topics may include Kung Fu films, cultural nationalism and feminism, model minorities, Angel Island literature, Asian Americans in film and media, and several major authors.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

AML 4170 Studies in American Literary Forms 3 Credits
Grading Scheme: Letter Grade
Study of genre, such as the novel, detective novel, political novel, historical novel, utopian fiction, or Western; drama; short story; sermon traditions; African American cultural forms, African American folklore; long poem, lyric, philosophical poem, oral poetry; nature writing, autobiography, captivity narrative; narratives of exploration; political oratory; postmodernism; coming-out stories; humor. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

AML 4213 Studies in American Literature and Culture Before 1800 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more of the major issues, movements, forms, or themes in the study of American literature and culture before 1800. Topics may include narratives of exploration and encounter, Puritan and/or Enlightenment writings, captivity and slave narratives, traditions of spiritual autobiography, post-colonial approaches to colonial rhetoric and poetry, and/or in-depth studies of selected writers. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

AML 4225 Studies in Nineteenth-Century American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on the major issues, movements, forms or themes in the study of American literature and culture before 1900. Topics may include the American Renaissance, literature and abolition, African American novels and poetry, romance and romanticism, race and sexuality, the rise of the short story, realism, naturalism, representations of the city, representations of the South, tropes such as the Noble Savage or the American Girl, and/or in-depth studies of selected writers. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

AML 4242 Studies in Twentieth-Century American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more of the major issues, movements, forms or themes in the study of 20th-century American literature and culture. Topics may include Modernism, Post-Modernism, the Harlem Renaissance, Depression-era literature, American writers in Paris, consumer society, American fiction since 1945, poetry, Civil Rights literature, rhetorics of imperialism, and/or several major authors. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

AML 4282 Studies of Genders and Sexualities in American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more of the major issues, movements, forms, or themes in the study of American literature and culture. Topics may include masculinity and femininity in literature, lesbian possibilities in popular culture, feminism and womanism, traditions of gay self-representation. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

AML 4311 Major Figures of American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
In-depth focus on one major author, such as Dickinson, Twain, Faulkner, Hurston, or Morrison. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

AML 4453 Studies in American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics examine issues, movements, forms, or themes that cross traditional period boundaries. Topics may include the city and the country in American fiction, Southern masculinity, reading and literacy in America, representations of class and religion in American literature, the body and technology, American regionalisms, the Pragmatist tradition, and nature and eco-criticism in American letters. Refer to department website for offered topics.
Prerequisite: 3 credits of ENC or CRW or AML or ENG or ENL.

AML 4685 Race and Ethnicity 3 Credits
Grading Scheme: Letter Grade
